(a)A small quantity generator who is not required to register pursuant to this chapter shall maintain on file in its office all of the following:

(1)An information document stating how the generator contains, stores, treats, and disposes of any medical waste generated through any act or process of the generator.

(2)Records required by the United States Postal Service of any medical waste shipped offsite for treatment and disposal. The small quantity generator shall maintain, or have available electronically at the facility or from the medical waste hauler or common carrier, these records, for not less than three years.

(b)Documentation shall be made available to the enforcement agency onsite.

(Amended by Stats. 2016, Ch. 86, Sec. 197. (SB 1171) Effective January 1, 2017.)

117946.

(a)A small quantity medical waste generator or parent organization that employs health care professionals who generate medical waste may transport medical waste generated in limited quantities up to 35.2 pounds to the central location of accumulation, provided that all of the following are met:

(1)The principal business of the generator is not to transport or treat regulated medical waste.

(2)The generator shall adhere to the conditions and requirements set forth in the materials of trade exception, as specified in Section 173.6 of Title 49 of the Code of Federal Regulations.

(3)A person transporting medical waste pursuant to this section shall provide a form or log to the receiving facility, and the receiving facility shall maintain the form or log for a period of two years, containing all of the following information:

(A)The name of the person transporting the medical waste.

(B)The number of containers of medical waste transported.

(C)The date the medical waste was transported.

(b)A generator transporting medical waste pursuant to this section shall not be regulated as a hazardous waste hauler pursuant to Section 117660.

(Added by Stats. 2014, Ch. 564, Sec. 45. (AB 333) Effective January 1, 2015.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Large Quantity Generator Requirements [117950 - 117995]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

117950.

(a)Each large quantity generator, except as specified in subdivisions (b) and (c), shall register with the enforcement agency prior to commencement of the generation of medical waste.

(b)Large quantity generators operating as a business in the same building, or that are associated with a group practice in the same building, may register as one generator.

(c)Large quantity generators as specified in subdivision (a), operating in different buildings on the same or adjacent property, or as approved by the enforcement agency, may register as one generator.

(d)Adjacent, for purposes of subdivision (c), means real property within 400 yards from the property boundary of the primary registration site. All federal transportation requirements specified in Section 173.6 of Part 49 of the Code of Federal Regulations shall apply for purposes of transporting medical waste from adjacent properties.

(Amended by Stats. 2014, Ch. 564, Sec. 46. (AB 333) Effective January 1, 2015.)

117960.

A large quantity generator required to register with the enforcement agency shall file with the enforcement agency a medical waste management plan, on forms prescribed by the enforcement agency, if provided. The plans shall contain, but are not limited to, all of the following:

(a)The name of the person.

(b)The business address of the person.

(c)The type of business.

(d)The types, and the estimated average monthly quantity, of medical waste generated.

(e)The type of treatment used onsite, if applicable. For generators with onsite medical waste treatment facilities, the treatment capacity of the onsite treatment facility.

(f)The name and business address of the registered hazardous waste hauler used by the generator to have untreated medical waste removed for treatment, if applicable, and, if applicable, the name and business address of the common carrier transporting pharmaceutical waste pursuant to Section 118032.

(g)The name and business address of the offsite medical waste treatment facility to which the medical waste is being hauled, if applicable.

(h)An emergency action plan complying with regulations adopted by the department.

(i)If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows:

(1)Pharmaceutical wastes classified by the federal Drug Enforcement Agency (DEA) as controlled substances

are disposed of in compliance with DEA requirements.

(2)The name and business address of the hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical wastes safely removed for treatment in compliance with subdivision (b) of Section 118222, as waste requiring specific methods.

(j)A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site.

(k)A statement certifying that the information provided is complete and accurate.

(Amended by Stats. 2014, Ch. 564, Sec. 48. (AB 333) Effective January 1, 2015.)

117965.

Large quantity generators shall be subject to at least annual inspection by the enforcement agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117967.

(a)Large quantity generators that treat medical waste onsite using steam sterilization, incineration, microwave technology, or other department approved treatment technology to treat medical waste shall train the operators of the equipment in its use, proper protective equipment to wear, if necessary, and how to clean up spills to ensure that the equipment is being operated in a safe and effective manner.

(b)Annual training for the operators shall be provided after the initial training has been completed.

(c)The training shall be documented and the documentation shall be retained at the facility for a minimum of two years. Training shall comply with applicable federal Occupational Safety and Health Administration regulations, including those found in Section 1910 of Title 29 of the Code of Federal Regulations.

(Added by Stats. 2014, Ch. 564, Sec. 49. (AB 333) Effective January 1, 2015.)

117970.

(a)Each enforcement agency shall follow procedures consistent with this chapter in registering medical waste generators.

(b)Each medical waste registration issued by the enforcement agency for large quantity generators shall be valid for one year.

(c)An application for renewal of the registration shall be filed with the enforcement agency not less than 90

days prior to the expiration date. Failure to meet this requirement shall result in an assessment of a late fee.

(d)Generators shall update their medical waste management plan, established pursuant to Section 117960, when any of the information in the plan changes and shall have the plan on file for review during an inspection or upon request. The updated plan shall be submitted within 30 days of the change.

(Amended by Stats. 2014, Ch. 564, Sec. 50. (AB 333) Effective January 1, 2015.)

117971.

In addition to the fees collected pursuant to Section 117995, the department, in the implementation of this part, shall recover its actual costs for services related to large quantity medical waste generator followup inspections and enforcement activities necessary to ensure compliance with this part. In no event shall the department charge more than the actual costs incurred by the department.

(Added by Stats. 2006, Ch. 74, Sec. 38. Effective July 12, 2006.)

117975.

(a)A large quantity medical waste generator required to register pursuant to this chapter shall maintain for a minimum of two years individual treatment records and the tracking document for all untreated medical waste shipped offsite for treatment. The generator shall report or submit to the enforcement agency, upon request, all of the following:

(1)Treatment operating records. Operating records shall be maintained in written or electronic form.

(2)An emergency action plan in accordance with regulations adopted by the department.

(3)Tracking documents or electronically archived tracking documents maintained by the facility or medical waste hauler of all untreated medical wastes shipped offsite for treatment.

(b)Documentation shall be made available to the enforcement agency onsite as soon as feasible, but no more than two business days following the request.

(Amended by Stats. 2015, Ch. 352, Sec. 5. (SB 225) Effective September 28, 2015.)

117976.

(a)A large quantity medical waste generator or parent organization that employs health care professionals who generate medical waste may transport medical waste generated in limited quantities up to 35.2 pounds to the central location of accumulation, provided that all of the following are met:

(1)The principal business of the generator is not to transport or treat regulated medical waste.

(2)The generator shall adhere to the conditions and requirements set forth in the materials of trade

exception, as specified in Section 173.6 of Title 49 of the Code of Federal Regulations.

(3)A person transporting medical waste pursuant to this section shall provide a form or log to the receiving facility, and the receiving facility shall maintain the form or log for a period of two years, containing all of the following information:

(A)The name of the person transporting the medical waste.

(B)The number of containers of medical waste transported.

(C)The date the medical waste was transported.

(b)A generator transporting medical waste pursuant to this section shall not be regulated as a hazardous waste hauler pursuant to Section 117660.

(Added by Stats. 2014, Ch. 564, Sec. 53. (AB 333) Effective January 1, 2015.)

117980.

Containment and storage of medical waste shall be in accordance with Chapter 9 (commencing with Section 118275).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117985.

Medical waste shall be treated using treatment technologies approved in accordance with Chapter 8 (commencing with Section 118215).

(Amended by Stats. 2014, Ch. 564, Sec. 54. (AB 333) Effective January 1, 2015.)

117990.

The fee schedule specified in Section 117995 shall be for the issuance of medical waste registrations and onsite medical waste treatment facility permits when the department serves as the enforcement agency for large quantity generators. This fee schedule shall be adjusted annually in accordance with Section 100425, or as provided in the regulations adopted by the department, not to exceed the reasonable regulatory costs of the department. Local enforcement agencies shall set fees that shall be sufficient to cover their costs in implementing this part with regard to large quantity generators.

(Amended by Stats. 2014, Ch. 564, Sec. 55. (AB 333) Effective January 1, 2015.)

117995.

The registration and annual permit fee for large quantity generators shall be set in following amounts:

(a)(1)A general acute care hospital, as defined in subdivision (a) of Section 1250, that has one or more beds, but not more than 99 beds, shall pay six hundred dollars ($600), a facility with 100 or more beds, but not more than 199 beds, shall pay eight hundred sixty dollars ($860), a facility with 200 or more beds, but not more than 250 beds shall pay one thousand one hundred dollars ($1,100), and a facility with 251 or more beds shall pay one thousand four hundred dollars ($1,400).

(2)In addition to the fees specified in paragraph (1), a general acute care hospital which is providing onsite treatment of medical waste shall pay an annual medical waste treatment facility inspection and permit fee of three hundred dollars ($300), if the facility has one or more beds but not more than 99 beds, five hundred dollars ($500), if the facility has 100 or more beds but not more than 250 beds, and one thousand dollars ($1,000), if the facility has 251 or more beds.

(b)A specialty clinic, providing surgical, dialysis, or rehabilitation services, as defined in subdivision (b) of Section 1204, shall pay three hundred fifty dollars ($350).

(c)A skilled nursing facility, as defined in subdivision (c) of Section 1250, that has one or more beds, but not more than 99 beds shall pay two hundred seventy-five dollars ($275), a facility with 100 or more beds, but not more than 199 beds shall pay three hundred fifty dollars ($350), and a facility with 200 or more beds shall pay four hundred dollars ($400).

(d)An acute psychiatric hospital, as defined in subdivision (b) of Section 1250, shall pay two hundred dollars ($200).

(e)An intermediate care facility, as defined in subdivision (d) of Section 1250, shall pay three hundred dollars ($300).

(f)A primary care clinic, as defined in Section 1200.1, shall pay three hundred fifty dollars ($350).

(g)A licensed clinical laboratory, as defined in paragraph (3) of subdivision (a) of Section 1206 of the Business and Professions Code, shall pay two hundred dollars ($200).

(h)A health care service plan facility, as defined in subdivision (f) of Section 1345, shall pay three hundred fifty dollars ($350).

(i)A veterinary clinic or veterinary hospital shall pay two hundred dollars ($200).

(j)A large quantity generator medical office shall pay two hundred dollars ($200).

(k)In addition to the fees specified in subdivisions (b) to (j), inclusive, a large quantity generator of medical waste which is providing onsite treatment of medical waste shall pay an annual medical waste treatment facility inspection and permit fee of three hundred dollars ($300).

(l)The department may collect annual fees and issue permits on a biennial basis.

(Amended by Stats. 2006, Ch. 74, Sec. 39. Effective July 12, 2006.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Medical Waste Haulers [118000 - 118045]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

118000.

(a)Medical waste shall only be transported to a permitted medical waste treatment facility, or to a transfer station or another registered generator for the purpose of consolidation before treatment and disposal.

(b)Facilities for the transfer of medical waste shall be annually inspected and issued permits in accordance with the regulations adopted pursuant to this part.

(c)Medical waste transported out of state shall be consigned to a permitted medical waste treatment facility in the receiving state. If there is no permitted medical waste treatment facility in the receiving state or if the medical waste is crossing an international border, the medical waste shall be treated in accordance with Chapter 8 (commencing with Section 118215) prior to being transported out of the state.

(Amended by Stats. 2014, Ch. 564, Sec. 56. (AB 333) Effective January 1, 2015.)

118025.

All medical waste shall be hauled by a registered hazardous waste hauler, the United States Postal Service, or by a person with an exception granted pursuant to Section 117946 for small quantity generators or pursuant to Section 117976 for large quantity generators.

(Amended by Stats. 2014, Ch. 564, Sec. 58. (AB 333) Effective January 1, 2015.)

118027.

A person who is authorized to collect solid waste, as defined in Section 40191 of the Public Resources Code, who unknowingly transports medical waste to a solid waste facility, as defined in Section 40194 of the Public Resources Code, incidental to the collection of solid waste, is exempt from the provisions of the Medical Waste Management Act with regard to that waste. If a solid waste transporter discovers that he or she has hauled untreated medical waste to a landfill or materials recovery facility, he or she shall contact the originating generator of the medical waste to respond to the landfill or recovery facility to provide ultimate proper disposal of the medical waste. The solid waste facility operator may, at its discretion and after contacting the generator, make arrangements for the proper treatment and disposal of the medical waste at a facility approved by the department. Title to the waste remains with the generator. Reimbursement costs for the proper management of discovered waste shall be the originating generatorsresponsibility.

(Amended by Stats. 2014, Ch. 564, Sec. 59. (AB 333) Effective January 1, 2015.)

118029.

(a)Haulers of medical waste in California, with the exception of those using a materials of trade exception as specified in Sections 117946 and 117976, and United States Department of Transportation licensed common carriers hauling pharmaceutical waste, shall meet all United States Department of Transportation requirements for transporting medical waste and shall be hazardous waste haulers in California. On or before July 1 of each year, a registered hazardous waste hauler that transports medical waste shall so notify the department, and provide, in a format that conforms to the protocol requirements for submission of data to the department, the following information:

(1)Business name, address, and telephone number.

(2)Name of owner, operator, and contact person.

(3)Hazardous waste transporter registration number.

(4)The number of vehicles and trailers transporting medical waste within the state as of that date.

(5)Types and quantities of medical waste collected, in pounds.

(6)The names of the generators whose waste has been transported by the hauler and the amounts of medical waste transported, by waste type category.

(b) Each registered hazardous waste hauler shall provide to the department a list of all medical waste generators serviced by that person during the previous 12 months. That list shall include the business name, business address, mailing address, telephone number, and other information as required by the department to collect annual fees pursuant to Section 117924. The list shall be provided to the department within 10 days of the close of the earliest calendar quarter ending September 30, December 31, March 31, or June 30, or as otherwise required by the department.

(Amended by Stats. 2014, Ch. 564, Sec. 60. (AB 333) Effective January 1, 2015.)

118032.

A pharmaceutical waste generator or parent organization that employs health care professionals who generate pharmaceutical waste is exempt from the requirements of subdivision (a) of Section 118000 if all of the following requirements are met:

(a)The generator or parent organization has on file one of the following:

(1)If the generator or parent organization is a small quantity generator required to register pursuant to Chapter 4 (commencing with Section 117925), a medical waste management plan prepared pursuant to Section 117935.

(2)If the generator or parent organization is a small quantity generator not required to register pursuant to Chapter 4 (commencing with Section 117925), the information document maintained pursuant to subdivision (a) of Section 117945.

(3)If the generator or parent organization is a large quantity generator, a medical waste management plan prepared pursuant to Section 117960.

(b)The generator or health care professional who generated the pharmaceutical waste transports the pharmaceutical waste himself or herself, or directs a member of his or her staff to transport the pharmaceutical waste to a parent organization or another health care facility for the purpose of consolidation before treatment and disposal, or contracts with a common carrier to transport the pharmaceutical waste to a permitted medical waste treatment facility or transfer station.

(c)Except as provided in subdivision (d), all of the following requirements are met:

(1)Prior to shipment of the pharmaceutical waste, the generator notifies the intended destination facility that it is shipping pharmaceutical waste to it and provides a copy of the tracking document, as specified in Section 118040.

(2)The generator and the facility receiving the pharmaceutical waste maintain the tracking document, as specified in Section 118040.

(3)The facility receiving the pharmaceutical waste notifies the generator of the receipt of the pharmaceutical waste shipment and any discrepancies between the items received and the tracking document, as specified in Section 118040, evidencing diversion of the pharmaceutical waste.

(4)The generator notifies the enforcement agency of any discrepancies between the items received and the tracking document, as specified in Section 118040, evidencing diversion of the pharmaceutical waste.

(d)(1)Notwithstanding subdivision (c), if a health care professional who generates pharmaceutical waste returns the pharmaceutical waste to the parent organization for the purpose of consolidation before treatment and disposal over a period of time, a single-page form or multiple entry log may be substituted for the tracking document, if the form or log contains all of the following information:

(A)The name of the person transporting the pharmaceutical waste.

(B)The number of containers of pharmaceutical waste. This clause does not require any generator to maintain a separate pharmaceutical waste container for every patient or to maintain records as to the specified source of the pharmaceutical waste in any container.

(C)The date that the pharmaceutical waste was returned.

(2)The form or log described in paragraph (1) shall be maintained in the files of the health care professional who generates the pharmaceutical waste and the parent organization or another health care facility that receives the pharmaceutical waste.

(3)This subdivision does not prohibit the use of a single document to verify the return of more than one container to a parent organization or another health care facility, provided the form or log meets the requirements specified in paragraphs (1) and (2).

(Amended by Stats. 2015, Ch. 352, Sec. 6. (SB 225) Effective September 28, 2015.)

118033.

The pharmaceutical waste that is separated from medical waste by the generator shall be maintained in a manner to secure the pharmaceutical waste contents from access by unauthorized individuals. Any suspected or confirmed tampering of, unauthorized access to, or loss of this pharmaceutical waste shall be reported to the appropriate state licensing authority.

(Added by Stats. 2012, Ch. 689, Sec. 8. (AB 1442) Effective January 1, 2013.)

118035.

For the purpose of transferring medical waste prior to reaching a permitted medical waste treatment facility, medical waste shall not be unloaded, reloaded, or transferred to another vehicle at any location, except at a permitted medical waste transfer station or in the case of a vehicle breakdown or other emergency.

(Added by renumbering Section 25062.5 by Stats. 1996, Ch. 536, Sec. 14. Effective January 1, 1997.)

118040.

(a) Except with regard to sharps waste consolidated by a home-generated sharps consolidation point approved pursuant to Section 117904, a hazardous waste transporter transporting medical waste shall maintain a completed tracking document in compliance with subdivision (b) for the purpose of tracking the medical waste from the point when the waste leaves the generator facility until it receives final treatment. At the time that the medical waste is received by a hazardous waste transporter, the transporter shall provide the medical waste generator with a copy of the tracking document. The transporter transporting medical waste shall maintain its copy of the tracking document for three years.

(b) The tracking document shall include, but not be limited to, all of the following information:

(1) The name, address, telephone number, and registration number of the transporter, unless transported pursuant to Section 117946 or 117976.

(2) The type of medical waste transported and the quantity or aggregate weight of medical waste transported.

(3) The name, address, and telephone number of the generator.

(4) The name, address, telephone number, permit number, and the signature of an authorized representative of the permitted facility receiving the medical waste.

(5) The date that the medical waste is collected or removed from the generatorsfacility, the date that the medical waste is received by the transfer station, the registered large quantity generator, or point of consolidation, if applicable, and the date that the medical waste is received by the treatment facility.

(c) A hazardous waste transporter transporting medical waste in a vehicle shall have the tracking document in his or her possession while transporting the medical waste. The tracking document shall be shown upon demand to any enforcement agency personnel or officer of the Department of the California Highway Patrol. If the medical waste is transported by rail, vessel, or air, the railroad corporation, vessel operator, or airline shall enter on the shipping papers any information concerning the medical waste that the enforcement agency may require.

(d) A hazardous waste transporter transporting medical waste shall provide the facility receiving the medical waste with the original tracking document.

(e) Each hazardous waste transporter and each medical waste treatment facility shall provide tracking data periodically and in a format as determined by the department.

(Amended by Stats. 2015, Ch. 352, Sec. 7. (SB 225) Effective September 28, 2015.)

118045.

(a)The department shall charge an application fee for a permit for a transfer station equal to one hundred dollars ($100) for each hour which the department spends on processing the application, but not more than ten thousand dollars ($10,000), or as provided in the regulations adopted by the department, not to exceed the reasonable regulatory costs of the department.

(b)In addition to the fee specified in subdivision (a), the annual permit fee for a transfer station is two thousand dollars ($2,000), or as provided in the regulations adopted by the department, not to exceed the reasonable regulatory costs of the department.

(Amended by Stats. 2014, Ch. 564, Sec. 64. (AB 333) Effective January 1, 2015.)

lawCode=HSC&division=104.&title=&part=14.&chapter=7.&article=)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Medical Waste Treatment Facility Permits [118130 - 118210]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 6.)

118130.

All offsite medical waste treatment facilities and transfer stations shall be permitted and inspected by the department. All onsite medical waste treatment facilities shall be permitted and inspected by the enforcement agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118135.

Each person operating an offsite medical waste treatment facility shall obtain a permit pursuant to this chapter from the department prior to commencement of the treatment facilitysoperation.

(Amended by Stats. 2014, Ch. 564, Sec. 65. (AB 333) Effective January 1, 2015.)

118140.

A health care facility accepting medical waste for treatment from the physicians and surgeons who are on the staff of the facility and who are small quantity generators shall be classified as an onsite treatment facility and shall be permitted and inspected by the enforcement agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118145.

A health care facility accepting medical waste for treatment from small quantity generators that are adjacent to the facility shall be classified as an onsite treatment facility and shall be permitted and inspected by the enforcement agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118147.

Notwithstanding any other provision of this chapter, a registered medical waste generator, which is a facility specified in subdivisions (a) and (b) of Section 117705, may accept home-generated sharps waste, to be consolidated with the facilitysmedical waste stream, subject to all of the following conditions:

(a) The generator of the sharps waste, a member of the generatorsfamily, or a person authorized by the enforcement agency transports the sharps waste to the medical waste generatorsfacility.

(b) The sharps waste is accepted at a central location at the medical waste generatorsfacility.

(c) A reference to, and a description of, the actions taken pursuant to this section are included in the facilitysmedical waste management plan adopted pursuant to Section 117960.

(Added by renumbering Section 25070.4 by Stats. 1996, Ch. 536, Sec. 16. Effective January 1, 1997.)

118150.

Each enforcement agency shall follow procedures that are consistent with the Medical Waste Management Act and the regulations adopted pursuant to this chapter, when issuing medical waste permits.

(Amended by Stats. 2014, Ch. 564, Sec. 66. (AB 333) Effective January 1, 2015.)

118155.

A person required to obtain an offsite medical waste treatment facility permit pursuant to this part shall file with the enforcement agency an application containing, but not limited to, all of the following:

(a)The name of the applicant.

(b)The business address of the applicant.

(c)The type of treatment provided, the treatment capacity of the facility, a characterization of the waste treated at this facility and the estimated average monthly quantity of waste treated at the facility.

(d)A disclosure statement, as provided in Section 25112.5, except for onsite medical waste treatment facilities.

(e)A plan for closure of the facility using, at minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the ending of treatment services at the site.

(f)Any other information required by the enforcement agency for the administration or enforcement of this part or the regulations adopted pursuant to this part.

(Amended by Stats. 2014, Ch. 564, Sec. 67. (AB 333) Effective January 1, 2015.)

118160.

(a)Prior to issuing or renewing a permit for an offsite medical waste treatment facility, the department shall review the compliance history of the applicant, under any local, state, or federal law or regulation governing the control of medical waste or pollution.

(b)The department shall, pursuant to this section, deny a permit, or specify additional permit conditions, to ensure compliance with applicable regulations, if the department determines that in the three-year period preceding the date of application the applicant has violated laws or regulations identified in subdivision (a) at a facility owned or operated by the applicant, and the violations demonstrate a recurring pattern of noncompliance or pose, or have posed, a significant risk to public health and safety or to the environment.

(c)In making the determination of whether to deny a permit or to specify additional permit conditions, the department shall take both of the following into consideration:

(1)Whether a permit denial or permit condition is appropriate or necessary given the severity of the violation.

(2)Whether the violation has been corrected in a timely fashion.

(Amended by Stats. 2014, Ch. 564, Sec. 68. (AB 333) Effective January 1, 2015.)

118165.

On and after April 1, 1991, all persons operating a medical waste treatment facility shall maintain individual records for a period of three years and shall report or submit to the enforcement agency upon request, all of the following information:

(a)The type of treatment facility and its capacity.

(b)All treatment facility operating records.

(c)Copies of the tracking documents for all medical waste it receives for treatment from offsite generators,

hazardous waste haulers, or, pursuant to Section 118032, common carriers.

(Amended by Stats. 2012, Ch. 689, Sec. 10. (AB 1442) Effective January 1, 2013.)

118170.

(a) A medical waste permit issued by the enforcement agency to a medical waste treatment facility shall be valid for five years.

(b) An application for renewal of the permit shall be filed with the enforcement agency not less than 90 days prior to the expiration date. If a permittee fails to make a timely application for renewal, the medical waste permit shall expire on the expiration date.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118175.

(a) A medical waste permit may be renewed if the enforcement agency finds the permittee has been in substantial compliance with this part and the regulations adopted pursuant to this part during the preceding permitted period or that the permittee corrected previous violations in a timely manner.

(b) Upon approval of the enforcement agency, a permit may be transferred from one subsidiary to another subsidiary of the same corporation, from a parent corporation to one of its subsidiaries, or from a subsidiary to a parent corporation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118180.

A person required to obtain a medical waste permit shall, at all times, possess a valid permit for each facility in operation. A medical waste permit shall terminate prior to its expiration date if suspended or revoked pursuant to Section 118350 or, notwithstanding Section 118355, if either of the following occurs:

(a) The permittee sells or otherwise transfers the facility, except as specified in subdivision (b) of Section 118175.

(b) The permittee surrenders the permit to the enforcement agency because the permittee ceases operation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118185.

The enforcement agency shall issue a medical waste permit upon evaluation, inspection, or records review of

the applicant if the applicant is in substantial compliance with this part and the regulations adopted pursuant to this part and the applicant has corrected any previous violations. A decision to issue or not to issue the permit shall be made by the enforcement agency within 180 days of the time that the application is deemed complete, unless waived by the applicant.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118190.

When issuing, renewing, or revising any treatment facility permit, the enforcement agency may prohibit or condition the handling or treatment of medical waste to protect the public health and safety.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118195.

An enforcement agency shall inform an applicant for a medical waste permit, in writing, upon the denial of any application for the permit. Within 20 days after the enforcement agency mails the notice, the applicant may present a written petition for a hearing to the enforcement agency. Upon receipt by the enforcement agency of the petition in proper form, the petition shall be set for hearing.

If the department is the enforcement agency, the proceedings shall commence with the filing of a statement of issues and shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department has all the powers granted to a department in that chapter.

If the department is not the enforcement agency, the hearings shall be held in accordance with the ordinance adopting the medical waste management program.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118200.

The enforcement agency shall evaluate, inspect, and review the records of medical waste treatment facilities for compliance with this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118205.

The fee schedule specified in Section 118210 shall cover the issuance of medical waste treatment facility permits and an inspection program, when the department serves as the enforcement agency. This fee schedule shall be adjusted annually in accordance with Section 100425. The department may adjust by

regulation the fees specified in Section 118210 to reflect the actual costs of implementing this chapter. Local enforcement agencies shall set fees that shall be sufficient to cover their costs in implementing this part with regard to large quantity generators.

(Amended by Stats. 2014, Ch. 564, Sec. 69. (AB 333) Effective January 1, 2015.)

118210.

(a)The department shall charge an annual permit fee for an offsite medical waste treatment facility equal to either one hundred twenty-seven ten thousandths of a cent ($0.0127) for each pound of medical waste treated or twelve thousand dollars ($12,000), whichever is greater. The department may collect annual fees and issue permits on a biennial basis.

(b)The department shall charge an initial application fee for each type of treatment technology at an offsite medical waste treatment facility equal to one hundred dollars ($100) for each hour the department spends processing the application, but not more than fifty thousand dollars ($50,000), or as provided in the regulations adopted by the department.

(Amended by Stats. 2006, Ch. 74, Sec. 40. Effective July 12, 2006.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Treatment [118215 - 118245]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

118215.

(a)Except as provided in subdivisions (b) and (c), a person generating or treating medical waste shall ensure that the medical waste is treated by one of the following methods, thereby rendering it solid waste, as defined in Section 40191 of the Public Resources Code, prior to disposal:

(1)(A)Incineration at a permitted medical waste treatment facility in a controlled-air, multichamber incinerator, or other method of incineration approved by the department which provides complete combustion of the waste into carbonized or mineralized ash.

(B)Treatment with an alternative technology approved pursuant to paragraph (3), which, due to the extremely high temperatures of treatment in excess of 1300 degrees Fahrenheit, has received express approval from the department.

(2)Steam sterilization at a permitted medical waste treatment facility or by other sterilization, in accordance with all of the following operating procedures for steam sterilizers or other sterilization:

(A)Standard written operating procedures shall be established for biological indicators, or for other indicators of adequate sterilization approved by the department, for each steam sterilizer, including time, temperature, pressure, type of waste, type of container, closure on container, pattern of loading, water content, and maximum load quantity.

(B)Recording or indicating thermometers shall be checked during each complete cycle to ensure the attainment of 121Â° Centigrade (250Â° Fahrenheit) for at least one-half hour, depending on the quantity and density of the load, to achieve sterilization of the entire load. Thermometers, thermocouples, or other monitoring devices identified in the facility operating plan shall be checked for calibration annually. Records of the calibration checks shall be maintained as part of the facilitysfiles and records for a period of two years or for the period specified in the regulations.

(C)Heat-sensitive tape, or another method acceptable to the enforcement agency, shall be used on each biohazard bag or sharps container that is processed onsite to indicate that the waste went through heat treatment. If the biohazard bags or sharps containers are placed in a large liner bag within the autoclave for treatment, heat-sensitive tape or another method acceptable to the enforcement agency only needs to be placed on the liner bag and not on every hazardous waste bag or sharps container being treated.

(D)The biological indicator Geobacillus stearothermophilus, or other indicator of adequate sterilization as approved by the department, shall be placed at the center of a load processed under standard operating conditions at least monthly to confirm the attainment of adequate sterilization conditions.

(E)Records of the procedures specified in subparagraphs (A), (B), and (D) shall be maintained for a period of not less than two years.

(3)(A)Other alternative medical waste treatment methods which are both of the following:

(i)Approved by the department.

(ii)Result in the destruction of pathogenic micro-organisms.

(B)Any alternative medical waste treatment method proposed to the department shall be evaluated by the

department and either approved or rejected pursuant to the criteria specified in this subdivision.

(b)Fluid blood or fluid blood products may be discharged to a public sewage system without treatment if its discharge is consistent with waste discharge requirements placed on the public sewage system by the California regional water quality control board with jurisdiction.

(c)(1)A medical waste that is a biohazardous laboratory waste, as defined in subparagraph (B) of paragraph (1) of subdivision (b) of Section 117690, may be treated by a chemical disinfection if the waste is liquid or semiliquid and the chemical disinfection method is recognized by the National Institutes of Health, the Centers for Disease Control and Prevention, or the American Biological Safety Association, and if the use of chemical disinfection as a treatment method is identified in the sitesmedical waste management plan.

(2)If the waste is not treated by chemical disinfection, in accordance with paragraph (1), the waste shall be treated by one of the methods specified in subdivision (a).

(3)Following treatment by chemical disinfection, the medical waste may be discharged to the public sewage system if the discharge is consistent with waste discharge requirements placed on the public sewage system by the California regional water control board, and the discharge is in compliance with the requirements imposed by the owner or operator of the public sewage system. If the chemical disinfection of the medical waste causes the waste to become a hazardous waste, the waste shall be managed in accordance with the requirements of Chapter 6.5 (commencing with Section 25100) of Division 20.

(Amended by Stats. 2014, Ch. 564, Sec. 70. (AB 333) Effective January 1, 2015.)

118220.

Pathology waste of a human nature, as defined in subparagraph (A) of paragraph (2) of subdivision (b) of Section 117690, shall be disposed of by interment, incineration, or alternative treatment technologies approved to treat this type of waste, pursuant to paragraph (1) or paragraph (3) of subdivision (a) of Section 118215.

(Amended by Stats. 2014, Ch. 564, Sec. 71. (AB 333) Effective January 1, 2015.)

118222.

(a)Pathology waste that meets the conditions of paragraph (2) of subdivision (b) of Section 117690 and trace chemotherapy waste that meets the conditions of paragraph (5) of subdivision (b) of Section 117690 shall be treated by incineration or alternative treatment technologies approved to treat that waste pursuant to paragraph (1) or paragraph (3) of subdivision (a) of Section 118215 prior to disposal.

(b)Pharmaceutical waste from health care settings that meets the conditions specified in paragraph (3) of subdivision (b) of Section 117690 shall be treated by incineration or alternative treatment technologies approved to treat that waste pursuant to paragraph (1) or paragraph (3) of subdivision (a) of Section 118215 prior to disposal.

(Amended by Stats. 2014, Ch. 564, Sec. 72. (AB 333) Effective January 1, 2015.)

118225.

(a) Sharps waste shall be rendered noninfectious prior to disposal by one of the following methods:

(1) Incineration.

(2) Steam sterilization.

(3) Disinfection using an alternative treatment method approved by the department.

(b) Sharps waste rendered noninfectious pursuant to this section may be disposed of as solid waste if the waste is not otherwise hazardous.

(c) Onsite medical waste treatment facilities treating sharps waste pursuant to paragraph (2) or (3) of subdivision (a) shall ensure that, prior to disposal, the treated sharps waste is destroyed or that public access to the treated sharps waste is prevented.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118230.

An operator of a hazardous waste incinerator permitted pursuant to Section 25200 may also accept medical waste for incineration.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118235.

Each medical waste treatment facility issued a medical waste permit shall provide the enforcement agency with an emergency action plan that the facility shall follow to ensure the proper disposal of medical waste in the event of equipment breakdowns, natural disasters, or other occurrences.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118240.

Notwithstanding Section 9141 of the Food and Agricultural Code, animals that die from infectious diseases or that are euthanized because they are suspected of having been exposed to infectious disease shall be treated with a treatment technology approved by the department for that use if, in the opinion of the attending veterinarian or local health officer, the carcass presents a danger of infection to humans.

(Amended by Stats. 2014, Ch. 564, Sec. 73. (AB 333) Effective January 1, 2015.)

118245.

The department shall charge an application fee for evaluation of an alternative treatment technology of two thousand five hundred dollars ($2,500) and shall charge an additional fee equal to one hundred dollars ($100) per hour for each hour which the department spends on processing the application, but not more than a total of five thousand dollars ($5,000), or as provided in the regulations adopted by the department, not to exceed the reasonable regulatory costs of the department.

(Amended by Stats. 2014, Ch. 564, Sec. 74. (AB 333) Effective January 1, 2015.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Containment and Storage [118275 - 118320]__

(Chapter 9 added by Stats. 1995, Ch. 415, Sec. 6.)

118275.

(a)To containerize or store medical waste, at the point of generation and while collected in that room, a person shall do all of the following:

(1)Medical waste, as defined in Section 117690, shall be contained separately from other waste at the point of origin in the producing facility. Sharps containers may be placed in biohazard bags or in containers with biohazard bags.

(2)Biohazardous waste, as defined in paragraph (1) of subdivision (b) of Section 117690, shall be placed in a biohazard bag and labeled in compliance with Section 117630.

(3)Sharps waste, as defined in paragraph (4) of subdivision (b) of Section 117690, including sharps and pharmaceutical waste containerized pursuant to paragraph (7), shall be contained in a United States Food and Drug Administration (USFDA) approved sharps container that meets USFDA labeling requirements and is handled pursuant to Section 118285.

(4)Trace chemotherapy waste, as defined in paragraph (5) of subdivision (b) of Section 117690, shall be segregated for storage, and, when placed in a secondary container, that container shall be labeled with the words Chemotherapy Waste, CHEMO, or other label approved by the department on the lid and sides, so as to be visible from any lateral direction, to ensure treatment of the biohazardous waste pursuant to Section 118222. Sharps waste that is contaminated through contact with, or having previously contained, chemotherapeutic agents, shall be placed in sharps containers labeled in accordance with the industry standard with the words Chemotherapy Waste, CHEMO, or other label approved by the department, and shall be segregated to ensure treatment of the sharps waste pursuant to Section 118222.

(5)Pathology waste, as defined in paragraph (2) of subdivision (b) of Section 117690, shall be segregated for storage and, when placed in a secondary container, that container shall be labeled with the words Pathology Waste, PATH, or other label approved by the department on the lid and sides, so as to be visible from any lateral direction, to ensure treatment of the waste pursuant to Section 118222.

(6)Pharmaceutical waste, as defined in paragraph (3) of subdivision (b) of Section 117690, shall be segregated for storage in accordance with the facilitysmedical waste management plan. When this waste is prepared for shipment offsite for treatment, it shall be properly containerized for shipment in compliance with United States Department of Transportation and the United States Drug Enforcement Administration (DEA) requirements.

(A)Pharmaceutical wastes classified by the DEA as controlled substances shall be disposed of in compliance with DEA requirements.

(B)Nonradioactive pharmaceutical wastes that are not subject to the federal Resource Conservation and Recovery Act of 1976 (Public Law 94-580), as amended, and that are regulated as medical waste are placed in a container or secondary container labeled with the words HIGH HEAT or INCINERATION ONLY, or with another label approved by the department, on the lid and sides, so as to be visible from any lateral direction, to ensure treatment of the biohazardous waste pursuant to Section 118222.

(7)A person may consolidate into a common container, which may be reusable, sharps waste, as defined in paragraph (4) of subdivision (b) of Section 117690, and pharmaceutical wastes, as defined in paragraph (3) of subdivision (b) of Section 117690, provided that both of the following apply:

(A)The consolidated waste is treated by incineration or alternative treatment technologies approved to treat that waste pursuant to paragraph (1) or (3) of subdivision (a) of Section 118215 prior to disposal. That alternative treatment shall render the waste unrecoverable and nonhazardous.

(B)The container meets the requirements of Section 118285. The container shall be labeled with the biohazardous waste symbol and the words HIGH HEAT or INCINERATION ONLY, or with another label approved by the department, on the lid and sides, so as to be visible from any lateral direction, to ensure treatment of the waste pursuant to this subdivision.

(b)To containerize medical waste being held for shipment offsite for treatment, the waste shall be labeled, as outlined in subdivision (a), on the lid and sides of the container.

(c)When medical waste is containerized pursuant to subdivisions (a) and (b) there is no requirement to label the containers with the date that the waste started to accumulate.

(Amended by Stats. 2015, Ch. 352, Sec. 8. (SB 225) Effective September 28, 2015.)

118280.

To containerize biohazard bags, a person shall do all of the following:

(a)The bags shall be tied to prevent leakage or expulsion of contents during all future storage and handling. When containers are prepared for transport offsite from the facility, they shall be prepared in compliance with United States Department of Transportation requirements.

(b)(1)Medical waste may be placed into a biohazard bag not to exceed three pounds or one gallon and tied, as required in subdivision (a), in a patient room and shall be immediately transported upon completion of the procedure directly from the point of generation and placed into a biohazard container stored in a soiled utility room or other biohazardous waste storage area without having first been placed into a secondary container in the patient room.

(2)Medical waste may be placed into a biohazard bag hung on a hamper stand in a surgery suite and the bag removed from the hamper stand after completion of the procedure, taken out of the surgery suite, and placed into a biohazard container stored in a soiled utility room or other biohazard waste storage area.

(c)Biohazardous waste, except as provided in subdivision (b), shall be bagged in accordance with subdivision (b) of Section 118275 and placed for storage, handling, or transport in a rigid container that may be disposable, reusable, or recyclable. Containers shall be leak resistant, have tight-fitting covers, and be kept clean and in good repair. Containers may be recycled with the approval of the enforcement agency. Containers may be of any color and shall be labeled with the words Biohazardous Waste or with the international biohazard symbol and the word BIOHAZARD on the lid and sides so as to be visible from any lateral direction. Containers shall comply with United States Department of Transportation requirements when prepared for transport offsite from the facility.

(d)Biohazardous waste shall not be removed from the biohazard bag until treatment as prescribed in Chapter 8 (commencing with Section 118215) is completed, except to eliminate a safety hazard, or by the enforcement officer in performance of an investigation pursuant to Section 117820. Biohazardous waste shall not be disposed of before being treated as prescribed in Chapter 8 (commencing with Section 118215).

(e)(1)Except as provided in paragraph (5), a person generating biohazardous waste shall comply with the following requirements:

(A)If the person generates 20 or more pounds of biohazardous waste per month, the person shall not contain or store that waste above 0Â° Centigrade (32Â° Fahrenheit) at an onsite location for more than seven days without obtaining prior written approval of the enforcement agency.

(B)If a person generates less than 20 pounds of biohazardous waste per month, the person shall not contain or store that waste above 0Â° Centigrade (32Â° Fahrenheit) at an onsite location for more than 30 days.

(2)A person may store biohazardous waste at or below 0Â° Centigrade (32Â° Fahrenheit) at an onsite location for not more than 90 days without obtaining prior written approval of the enforcement agency.

(3)A person may store biohazardous waste at a permitted transfer station at or below 0Â° Centigrade (32Â° Fahrenheit) for not more than 30 days without obtaining prior written approval of the enforcement agency.

(4)A person shall not store biohazardous waste above 0Â° Centigrade (32Â° Fahrenheit) at a location or facility that is offsite from the generator for more than seven days before treatment.

(5)Notwithstanding paragraphs (1) to (4), inclusive, if the odor from biohazardous or sharps waste stored at a facility poses a nuisance, the enforcement agency may require more frequent removal.

(f)Waste that meets the definition of pharmaceutical waste in paragraph (3) of subdivision (b) of Section 117690 shall not be subject to the limitations on storage time prescribed in subdivision (e). A person may store that pharmaceutical waste at an onsite location for not longer than 90 days when the container is ready for disposal, unless prior written approval from the enforcement agency is obtained. The container shall be emptied at least once per year, unless prior written approval from the enforcement agency is obtained. A person may store that pharmaceutical waste at a permitted transfer station for not longer than 30 days without obtaining prior written approval from the enforcement agency. A person shall not store pharmaceutical waste at a location or facility that is offsite from the generator for more than 30 days before treatment.

(g)The containment and storage time for wastes consolidated in a common container pursuant to paragraph (7) of subdivision (a) of Section 118275 shall not exceed the storage time for any category of waste set forth in this section.

(Amended by Stats. 2014, Ch. 564, Sec. 76. (AB 333) Effective January 1, 2015.)

118285.

To containerize sharps waste, a person shall do all of the following:

(a)Place all sharps waste into a sharps container.

(b)Tape closed or tightly lid full sharps containers ready for disposal to preclude loss of contents.

(c)Store sharps containers ready for disposal for not more than thirty days without the written approval of the enforcement agency.

(d)Label sharps containers with the words sharps waste or with the international biohazard symbol and the word BIOHAZARD.

(Amended by Stats. 2006, Ch. 166, Sec. 6. Effective January 1, 2007.)

118286.

(a)A person shall not knowingly place home-generated sharps waste in any of the following containers:

(1)Any container used for the collection of solid waste, recyclable materials, or greenwaste.

(2)Any container used for the commercial collection of solid waste or recyclable materials from business establishments.

(3)Any roll-off container used for the collection of solid waste, construction, and demolition debris, greenwaste, or other recyclable materials.

(b)Home-generated sharps waste shall be transported only in a sharps container, or other containers approved by the enforcement agency, and shall only be managed at any of the following:

(1)A household hazardous waste facility pursuant to Section 25218.13.

(2)A home-generated sharps consolidation point as defined in subdivision (b) of Section 117904.

(3)A medical waste generatorsfacility pursuant to Section 118147.

(4)A facility through the use of a medical waste mail-back container approved by the United States Postal Service.

(Amended by Stats. 2014, Ch. 564, Sec. 77. (AB 333) Effective January 1, 2015.)

118290.

Any small quantity generator who has properly containerized the medical waste according to the requirements of this article may store the waste in a permitted common storage facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118295.

A person shall thoroughly wash and decontaminate reusable rigid containers for medical waste by a method approved by the enforcement agency each time they are emptied, unless the surfaces of the containers have been completely protected from contamination by disposable liners, bags, or other devices removed with the waste. These containers shall be maintained in a clean and sanitary manner. Approved methods of decontamination include, but are not limited to, agitation to remove visible soil combined with one of the following procedures:

(a) Exposure to hot water of at least 82Â° Centigrade (180Â° Fahrenheit) for a minimum of 15 seconds.

(b) Exposure to chemical sanitizer by rinsing with, or immersion in, one of the following for a minimum of three minutes:

(1) Hypochlorite solution (500 ppm available chlorine).

(2) Phenolic solution (500 ppm active agent).

(3) Iodoform solution (100 ppm available iodine).

(4) Quaternary ammonium solution (400 ppm active agent).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118300.

Any leak or spill of a medical waste by a medical waste generator, hazardous waste hauler, or treatment facility shall be decontaminated by procedures adopted by the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118305.

A person shall not use reusable pails, drums, dumpsters, or bins used for medical waste for the containment of solid waste, or for other purposes, except after being decontaminated by the procedures specified in Section 118295 and removal of all medical waste labels.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118307.

Medical waste that is stored in an area prior to transfer to the designated accumulation area, as defined in Section 118310, shall be stored in an area that is either locked or under direct supervision or surveillance. Intermediate storage areas shall be marked with the international biohazard symbol or the signage described in Section 118310. These warning signs shall be readily legible from a distance of five feet. This section does not apply to the rooms in which medical waste is generated.

(Amended by Stats. 2014, Ch. 564, Sec. 78. (AB 333) Effective January 1, 2015.)

118310.

A designated accumulation area used for the storage of medical waste containers prior to transportation or treatment shall be secured so as to deny access to unauthorized persons and shall be marked with warning signs on, or adjacent to, the exterior of entry doors, gates, or lids. The storage area may be secured by use of locks on entry doors, gates, or receptacle lids.

The wording of warning signs shall be in English, CAUTION"BIOHAZARDOUS WASTE STORAGE AREA" UNAUTHORIZED PERSONS KEEP OUT,□ and in Spanish, CUIDADO"ZONA DE RESIDUOS"BIOLOGICOS PELIGROSOS"PROHIBIDA LA ENTRADA A PERSONAS NO AUTORIZADAS,□ or in another language, in

addition to English, determined to be appropriate by the infection control staff or enforcement agency. A warning sign concerning infectious waste, as that term was defined by Section 25117.5 as it read on December 31, 1990, that sign having been installed before April 1, 1991, meets the requirements of this section, until the sign is changed and as long as the sign is not moved. Warning signs shall be readily legible during daylight from a distance of at least 25 feet.

Any enclosure or designated accumulation area shall provide medical waste protection from animals and natural elements and shall not provide a breeding place or a food source for insects or rodents.

(Amended by Stats. 2006, Ch. 166, Sec. 8. Effective January 1, 2007.)

118315.

A person shall not use a trash chute to transfer medical waste.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118320.

(a) Except as provided in subdivision (b), compactors or grinders shall not be used to process medical waste until after the waste has been treated pursuant to Chapter 8 (commencing with Section 118215) and rendered solid waste.

(b) (1) Grinding or compacting may be used when it is an integral part of an alternative treatment method approved by the department.

(2) A compactor may be used to compact medical waste if the type of medical waste compactor proposed to be used is evaluated by the department, and approved by the department prior to its use pursuant to the following criteria:

(A) The compactor operates without the release of liquids or pathogenic microorganisms from the medical waste during placement of the medical waste into, or removal of the medical waste from, the compactor units, and during the compaction process.

(B) The compacted medical waste will not release liquids or pathogens during any subsequent handling and no residual waste will be left in the compactor unit after the process is completed.

(C) Compactor operations and maintenance personnel will not be at any substantial increased risk of exposure to pathogens.

(D) The compactor has been demonstrated not to have any adverse effects on any treatment method. If only specific treatment methods are compatible with the compaction process, the department shall condition its approval of the compactor for use only in conjunction with treatment methods, with regard to which no adverse effects have been demonstrated.

(c) Medical waste in bags or other containers shall not be subject to compaction by any compacting device and shall not be placed for storage or transport in a portable or mobile trash compactor, except as allowed

pursuant to subdivision (b).

(Added by renumbering Section 25088 by Stats. 1996, Ch. 536, Sec. 19. Effective January 1, 1997.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9.5. Trauma Scene Waste Management [118321 - 118321.6]__

(Chapter 9.5 added by Stats. 1997, Ch. 732, Sec. 12.)

118321.

(a) This chapter shall be known, and may be cited, as the Trauma Scene Waste Management Act.

(b) The Legislature hereby finds and declares that it is in the interests of the health and safety of the public and the solid waste industry to regulate the handling and treatment of waste that, but for contamination with large quantities of human blood or body fluids as a result of death, serious injury, or illness, would be solid waste.

(c) The Legislature further finds and declares that, in the interest of safe and uniform management of trauma scene waste, practitioners of trauma scene management should be subject to regulation by the department.

(Added by Stats. 1997, Ch. 732, Sec. 12. Effective January 1, 1998.)

118321.1.

(a)A trauma scene waste management practitioner shall register with the department on forms provided by the department.

(b)The department shall register a trauma scene waste management practitioner and issue a trauma scene waste hauling permit to a trauma scene waste management practitioner who submits a completed application form and the registration fee, upon approval of the application by the department.

(c)A registered trauma scene waste management practitioner is exempt from the registration requirements imposed pursuant to Chapter 6 (commencing with Section 118025) or Article 6.5 (commencing with Section 25167.1) of Chapter 6.5 of Division 20 upon haulers of medical waste.

(d)Registered trauma scene waste management practitioners shall pay an annual fee of two hundred dollars ($200) to the department for deposit in the fund. The fee revenues deposited in the fund pursuant to this subdivision may be expended by the department, upon appropriation by the Legislature, for the implementation of this chapter.

(Amended by Stats. 2014, Ch. 564, Sec. 79. (AB 333) Effective January 1, 2015.)

118321.2.

(a) The department shall maintain an inventory of registered trauma scene waste management practitioners.

(b) The department shall submit a list of registered trauma scene waste management practitioners to all local agency health officers and directors of environmental health, county administrators, and county sheriffs, and shall make the list available, upon request, to other public agencies and to the public.

(Added by Stats. 1997, Ch. 732, Sec. 12. Effective January 1, 1998.)

118321.3.

(a) Notwithstanding Section 117650, the department shall be the sole enforcement agency with regard to the management of trauma scene waste.

(b) The department, working with the trauma scene waste management industry and the health care industry, shall establish the following standards:

(1) Documentation of personal protection required to be provided for, and used by, workers in accordance with the California Occupational and Safety Administrationsbloodborne pathogen standards.

(2) Technologies and chemicals appropriate to the task of cleanup and disinfecting.

(c) The department may adopt regulations pursuant to which trauma scene waste management practitioners shall document both of the following:

(1) Identification of trauma scene waste within the scope of this chapter.

(2) Compliance with disposal requirements, including, but not limited to, tracking the transportation of trauma scene waste.

(d) The department shall adopt procedures to provide information to trauma scene waste management practitioners recommending procedures for removing trauma scene waste from trauma scenes.

(Added by Stats. 1997, Ch. 732, Sec. 12. Effective January 1, 1998.)

118321.4.

As specified in Section 117705, a trauma scene waste management practitioner who transports trauma scene waste shall be deemed the generator of the trauma scene waste for purposes of this part.

(Added by Stats. 1997, Ch. 732, Sec. 12. Effective January 1, 1998.)

118321.5.

(a) Trauma scene waste shall be removed from the trauma scene immediately upon completion of the removal phase of a trauma scene waste removal operation.

(b)Trauma scene waste shall be transported to a permitted medical waste transfer station or treatment facility pursuant to subdivision (a) of Section 118000, or may be stored in a dedicated freezer at the business location of the trauma scene waste management practitioner for a period of not more than 14 days, or as otherwise approved by the department.

(Amended by Stats. 2014, Ch. 564, Sec. 80. (AB 333) Effective January 1, 2015.)

118321.6.

(a) This chapter does not limit or abridge the jurisdiction of the Division of Occupational Safety and Health of the Department of Industrial Relations.

(b) This chapter does not prohibit a business from employing or contracting with a person to provide cleanup or consultative services, including those services provided by an industrial hygienist, with respect to trauma scene waste if those services are incidental to the principal course and scope of services provided by the person.

(Added by Stats. 1997, Ch. 732, Sec. 12. Effective January 1, 1998.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 10. Enforcement [118325 - 118345]__

(Chapter 10 added by Stats. 1995, Ch. 415, Sec. 6.)

118325.

(a)(1)An enforcement agency, district attorney, county counsel, city attorney, or city prosecutor may bring an action to enjoin the violation, or threatened violation, of this part or the regulations adopted pursuant to this part, in the superior court in the county where the violation occurred or is about to occur. Any proceeding under this section shall be in accordance with Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the enforcement agency, district attorney, county counsel, city attorney, or city prosecutor is not required to allege facts necessary to show or tending to show the lack of an adequate remedy at law or irreparable damage or loss.

(2)If a county counsel or the district attorney brings an action pursuant to paragraph (1), the county counsel or the district attorney shall, within seven days of the filing of the action, notify the district attorney or county counsel, as applicable, of the county where the violation occurred or is about to occur.

(b)With respect to any action brought pursuant to this section alleging actual violation of this part or the regulations adopted pursuant to this part, the court shall, if it finds the allegations to be true, issue its order enjoining the continuance of the violation.

(Amended by Stats. 2023, Ch. 154, Sec. 15. (SB 642) Effective January 1, 2024.)

118330.

(a)Whenever the enforcement agency determines that a violation or threatened violation of this part or the

regulations adopted pursuant to this part has resulted, or is likely to result, in a release of medical waste into the environment, the agency may issue an order to the responsible person specifying a schedule for compliance or imposing an administrative penalty of not more than five thousand dollars ($5,000) per violation. A person who, after notice and an opportunity for hearing, violates an order issued pursuant to this section is guilty of a misdemeanor.

(1)If the department is the enforcement agency, the department shall provide notice, issue the order, and conduct the administrative hearing pursuant to subdivisions (d) and (f).

(2)If the department is not the enforcement agency, the provisions of subdivisions (b) to (e), inclusive, apply.

(b)(1)In establishing the amount of the administrative penalty and ordering that the violation be corrected pursuant to this section, the enforcement agency shall take into consideration the nature, circumstances, extent, and gravity of the violation, the violatorspast and present efforts to prevent, abate, or clean up conditions posing a threat to the public health or safety or the environment, the violatorsability to pay the penalty, and the deterrent effect that the imposition of the penalty would have on both the violator and the regulated community.

(2)If the amount of the administrative penalty is set after the person is served with the order pursuant to subdivision (c) or after the order becomes final, the person may request a hearing to dispute the amount of the administrative penalty and is entitled to the same process as provided in subdivision (c), whether or not the person disputed the facts of the violation through that process.

(3)An administrative penalty assessed pursuant to this section shall be in addition to any other penalties or sanctions imposed by law.

(c)(1)An order issued pursuant to this section shall be served by personal service or certified mail and shall inform the person served of the right to a hearing.

(2)A person served with an order pursuant to paragraph (1) and who has been unable to resolve the violation with the enforcement agency may, within 15 days after service of the order, request a hearing by filing with the enforcement agency a notice of defense. The notice shall be filed with the agency that issued the order. A notice of defense shall be deemed filed within the 15-day period if it is postmarked within that 15-day period. If no notice of defense is filed within the 15-day time period, the order shall become final.

(3)Except as otherwise provided in paragraph (4), a person requesting a hearing on an order issued pursuant to this section may select the hearing officer specified in either subparagraph (A) or (B) of paragraph (4) in the notice of defense filed with the enforcement agency pursuant to paragraph (2). If a notice of defense is filed, but no hearing officer is selected, the enforcement agency may select the hearing officer.

(4)Within 90 days of receipt of the notice of defense by the enforcement agency, the hearing shall be scheduled using one of the following:

(A)An administrative law judge of the Office of Administrative Hearings of the Department of General Services, who shall conduct the hearing in accordance with Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 of Title 2 of the Government Code, and the enforcement agency shall have all the authority granted to an agency by those provisions.

(B)(i)A hearing officer designated by the enforcement agency, who shall conduct the hearing in accordance with Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 of Title 2 of the Government Code, and the enforcement agency shall have all the authority granted to an agency by those provisions. When a

hearing is conducted by an enforcement agency hearing officer pursuant to this clause, the enforcement agency shall issue a decision within 60 days after the hearing is conducted. Each hearing officer designated by an enforcement agency shall meet the requirements of Section 11425.30 of the Government Code and any other applicable restriction.

(ii)An enforcement agency, or a person requesting a hearing on an order issued by an enforcement agency, may select the hearing process specified in this subparagraph in a notice of defense filed pursuant to paragraph (2) only if the enforcement agency has selected a designated hearing officer and established a program for conducting a hearing in accordance with this paragraph.

(5)The hearing decision issued pursuant to this subdivision shall be effective and final upon issuance by the enforcement agency. A copy of the decision shall be served by personal service or by certified mail upon the party served with the order, or their representative, if any.

(6)The person has a right to appeal the hearing decision if, within 30 days of the date of receipt of the final decision pursuant to paragraph (5), the person files a written notice of appeal with the enforcement agency. The appeal shall be in accordance with the Administrative Procedure Act (Chapters 4.5 (commencing with Section 11400) and 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code).

(7)A decision issued pursuant to paragraph (6) may be reviewed by a court pursuant to Section 11523 of the Government Code. In all proceedings pursuant to this subdivision, the court shall uphold the decision of the enforcement agency if the decision is based upon substantial evidence in the record as a whole. The filing of a petition for writ of mandate shall not stay an action required pursuant to this chapter or the accrual of any penalties assessed pursuant to this chapter. This subdivision does not prohibit the court from granting any appropriate relief within its jurisdiction.

(d)A provision of an order issued under this section, except the imposition of an administrative penalty, shall take effect upon issuance of the order by the enforcement agency if the enforcement agency finds that the violation or violations of law associated with that provision may pose an imminent and substantial danger to the public health or safety or the environment. A request for a hearing or appeal, as provided in subdivision (c) or (f) shall not stay the effect of that provision of the order pending a hearing decision. If the enforcement agency determines that any or all provisions of the order are so related that the public health or safety or the environment can be protected only by immediate compliance with the order as a whole, the order as a whole, except the imposition of an administrative penalty, shall take effect upon issuance by the enforcement agency. A request for a hearing shall not stay the effect of the order as a whole pending a hearing decision.

(e)The enforcement agency shall consult with the district attorney, county counsel, or city attorney on the development of policies to be followed in exercising the authority delegated pursuant to this section as it relates to the authority of the enforcement agency to issue orders.

(f)(1)The department shall serve an order issued pursuant to this section by personal service or certified mail and shall inform the person served of the right to a hearing.

(2)A person served with an order pursuant to paragraph (1) may appeal the order by sending a written request for hearing to the department within 20 days after service of the order. If a request for hearing is not made within the 20-day time period, the order shall become final. Payments of any administrative penalty shall be made within 30 days of the date the order becomes final.

(3)Any hearings conducted by the department pursuant to this section shall be conducted pursuant to the

procedures specified in Section 131071.

(Amended by Stats. 2016, Ch. 86, Sec. 198. (SB 1171) Effective January 1, 2017.)

118335.

(a)In order to carry out the purpose of this part, any authorized representative of the enforcement agency may do any of the following:

(1)Enter and inspect a facility for which a medical waste permit or registration has been issued, for which a medical waste permit or registration application has been filed, or that is subject to registration or permitting requirements pursuant to this part. Enter and inspect a vehicle for which a hazardous waste hauler registration has been issued, for which an application has been filed for a hazardous waste hauler registration, or that is subject to registration requirements pursuant to this part.

(2)Inspect and copy any records, reports, test results, or other information related to the requirements of this part or the regulations adopted pursuant to this part.

(b)The inspection shall be made with the consent of the owner or possessor of the facilities or, if consent is refused, with a warrant duly issued pursuant to Title 13 (commencing with Section 1822.50) of Part 3 of the Code of Civil Procedure. However, in the event of an emergency affecting the public health or safety, an inspection may be made without consent or the issuance of a warrant.

(c)Any traffic officer, as defined in Section 625 of the Vehicle Code, and any peace officer, as defined in Section 830.1 or 830.2 of the Penal Code, may enforce Chapter 6 (commencing with Section 118000) and this chapter, and for purposes of enforcing these chapters, traffic officers and these peace officers are authorized representatives of the department.

(Amended by Stats. 2014, Ch. 564, Sec. 81. (AB 333) Effective January 1, 2015.)

118340.

(a) No person shall, transport, store, treat, dispose, or cause the treatment or disposal of medical waste in a manner not authorized by his or her permit or registration, this part, or the regulations adopted pursuant to this part.

(b) Any person who stores, treats, disposes, or causes the treatment or disposal of medical waste in violation of this part or the regulations adopted pursuant to this part is guilty of a public offense as follows:

(1) For a small quantity generator, a first offense is an infraction and is punishable by a fine of not more than one thousand dollars ($1,000).

(2) For a person other than a small quantity generator, a first offense is a misdemeanor punishable by a fine of not less than two thousand dollars ($2,000), or by up to one year in county jail, or by both the fine and imprisonment.

(c) A person who is convicted of a second or subsequent violation of subdivision (a) within three years of the

prior conviction shall be punished by imprisonment in a county jail for not more than one year, or by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for one, two, or three years, or by a fine of not less than five thousand dollars ($5,000), or more than twenty-five thousand dollars ($25,000), or by both that fine and imprisonment. This section shall not apply unless any prior conviction is charged in the accusatory pleading and admitted by the defendant or found to be true by the trier of fact. If the defendant is a corporation that operates medical facilities in more than one geographic location, this subdivision shall apply only if the offense involves an adjacent facility involved in the prior conviction.

(d) Any person who knowingly treats or disposes, or causes the treatment or disposal of, medical waste in violation of this part shall be punished by imprisonment in a county jail for not more than one year, or by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for one, two, or three years, or by a fine of not less than five thousand dollars ($5,000), or more than twenty-five thousand dollars ($25,000), or by both that fine and imprisonment.

(e) This section does not apply to a person transporting medical waste who is required to be a registered hazardous waste transporter. Those persons are subject to penalties for violations pursuant to Article 8 (commencing with Section 25180) of Chapter 6.5 of Division 20.

(Amended by Stats. 2011, Ch. 15, Sec. 203. (AB 109) Effective April 4, 2011. Operative October 1, 2011, by Sec. 636 of Ch. 15, as amended by Stats. 2011, Ch. 39, Sec. 68.)

118345.

(a)Any person who intentionally makes any false statement or representation in any application, label, tracking document, record, report, permit, registration, or other document filed, maintained, or used for purposes of compliance with this part that materially affects the health and safety of the public is liable for a civil penalty of not more than ten thousand dollars ($10,000) for each separate violation or, for continuing violations, for each day that the violation continues.

(b)Any person who fails to register or fails to obtain a medical waste permit in violation of this part, or otherwise violates any provision of this part, any order issued pursuant to Section 118330, or any regulation adopted pursuant to this part, is liable for a civil penalty of not more than ten thousand dollars ($10,000) for each violation of a separate provision of this part or, for continuing violations, for each day that the violation continues.

(Amended by Stats. 2015, Ch. 352, Sec. 9. (SB 225) Effective September 28, 2015.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 11. Suspension or Revocation [118350 - 118360]__

(Chapter 11 added by Stats. 1995, Ch. 415, Sec. 6.)

118350.

The enforcement agency may suspend, amend, or revoke any medical waste permit issued by the enforcement agency for any of the following reasons:

(a) Violation by the permittee of any of the provisions of this part or any regulation adopted pursuant to this part.

(b) Violation of any term or condition of the permit.

(c) Aiding, abetting, or permitting the violation specified in subdivision (a) or (b) or interference in the performance of the duty of the enforcement officer.

(d) Proof that the permittee has intentionally made false statements, or failed to disclose fully all relevant facts, in any material regard, on the application for a medical waste permit.

(e) The conviction of a permittee, or the person in charge of the activity subject to the medical waste permit, of any crime that is substantially related to the qualifications or duties of the permittee or the person in charge of the activity, or that is substantially related to the functions that are subject to the medical waste permit.

For purposes of this section, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. An action to revoke or suspend the medical waste permit may be taken when the time for appeal has elapsed or the judgment of conviction has been affirmed on appeal. That action may also be taken when an order granting probation is made suspending the imposition of sentence, notwithstanding any subsequent order pursuant to Section 1203.4 of the Penal Code. The enforcement agency shall take into account all competent evidence of rehabilitation furnished by the permittee or person in charge of the permitted activity.

(f) A change in any condition that requires either a temporary or permanent modification, reduction, or termination of the permitted operation to bring it into compliance with the requirements of this part and the regulations adopted pursuant to this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118355.

Proceedings conducted by the department for the suspension or revocation of a medical waste permit shall commence with the filing of any accusation and shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted to a department in that chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118360.

The enforcement agency may temporarily suspend a medical waste permit prior to any hearing, when it has determined that this action is necessary to protect the public welfare. The enforcement agency shall notify the permittee of the temporary suspension and the effective date thereof and, at the same time, shall serve the permittee with an accusation.

Upon receipt of a notice of defense by the permittee, the matter shall, within 15 days, be set for hearing. The hearing shall be held as soon as possible, but not later than 30 days after receipt of the notice.

The temporary suspension shall remain in effect until the hearing is completed and the enforcement agency has made a final determination on the merits. However, the temporary suspension is vacated if the enforcement agency fails to make a final determination on the merits within 60 days after the original hearing has been completed.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 1. Articles of Common Use [118375 - 118490]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Common Drinking Cups [118375 - 118395]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

118375.

No person conducting, having charge of, or control of, any hotel, restaurant, saloon, soda fountain, store, theater, public hall, public or private school, church, hospital, club, office building, park, playground, lavatory or washroom, barber shop, railroad train, boat, or any other public place, building, room, or conveyance, shall provide or expose for common use, or permit to be so provided or exposed, or allow to be used in common, any cup, glass, or other receptacle used for drinking purposes.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118380.

For the purposes of this article the term common use when applied to a drinking receptacle is defined as its use for drinking purposes by, or for, more than one person without its being thoroughly cleansed and sterilized between consecutive uses thereof by methods prescribed by or acceptable to the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118385.

No cask, water cooler, or other receptacle shall be used for storing or supplying drinking water to the public or to employees unless it is covered and protected so as to prevent persons from dipping the water therefrom or contaminating the water. All the containers shall be provided with a faucet or other suitable device for drawing the water.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118390.

(a) The state department and all health officers of counties, cities, and health districts shall enforce this article.

(b) Pursuant to their enforcement of this article, those officers shall also enforce Section 2441 of the Labor Code. This section shall not be construed to abridge or limit in any manner the jurisdiction of the Division of Occupational Safety and Health of the Department of Industrial Relations pursuant to Division 5 (commencing with Section 6300) of the Labor Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118395.

Violation of any provision of this article is a misdemeanor punishable by a fine not exceeding fifty dollars ($50) for each offense.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 1. Articles of Common Use [118375 - 118490]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Infected Packing Material [118400 - 118415]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

118400.

For the purpose of this article the term filthy, contaminated, or unsanitary packing material includes any or all of the following:

(a) Packing material that has been exposed to contagious or infectious disease.

(b) Material that is contaminated with vermin.

(c) Material that is generally filthy.

(d) Filthy or used wood excelsior.

(e) Excelsior made from filthy or used paper.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118405.

Unsanitary packing material shall not be used until it has been cleaned and disinfected to the satisfaction of the Department of Food and Agriculture, the department, or the agents of either or both, or by a county health officer.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118410.

The person having the material cleaned and disinfected shall pay the costs of the inspection.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118415.

Every person who knowingly packs any goods intended for delivery to other parties or for transportation by common carriers with unsanitary packing material is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 1. Articles of Common Use [118375 - 118490]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Common Towels [118425 - 118440]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

118425.

No person conducting, operating, or having charge or control of, any hotel, restaurant, factory, store, barber shop, office building, school, public hall, railroad train, railway station, boat, or any other public place, room, or conveyance, shall maintain or keep in or about any such place any towel for common use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118430.

For the purpose of this article the term common use when applied to a towel means its use by, or for, more than one person without its being laundered between consecutive uses of the towel by methods prescribed by or acceptable to the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118435.

The department and all health officers of counties, cities, and health districts shall enforce this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118440.

Violation of any provision of this article is a misdemeanor punishable by a fine not exceeding fifty dollars ($50) for each offense.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 1. Articles of Common Use [118375 - 118490]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Wiping Rags [118450 - 118490]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

118450.

Wiping rags, as used in this article means cloths and rags, other than reusable rental cloths or towels, used for any or all of the following purposes:

(a) Wiping and cleaning the surfaces of machinery, machines, tools, locomotives, engines, motor cars, automobiles, cars, carriages, windows, furniture, and surfaces of articles, appliances, and engines in factories, shops, steamships, and steamboats.

(b) Generally for cleaning in industrial employment.

(c) Used by mechanics and workmen for wiping from their hands and bodies soil incident to their employment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118455.

No person shall supply or furnish to his or her employees for wiping rags, or sell or offer for sale for wiping rags, any soiled wearing apparel, underclothing, bedding, or parts of soiled or used underclothing, wearing apparel, bedclothes, bedding, or soiled rags or cloths unless they have been sanitized by methods prescribed by or acceptable to the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118460.

Every local health officer or registered sanitarian, upon proper demand and notice of his or her authority, may, during business hours, enter any place where wiping rags are used, are kept for sale, or offered for sale, and inspect the wiping rags. No person shall refuse to permit the inspection, or impede or obstruct the officer during the inspection.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118465.

On and after July 1, 1975, it shall be unlawful for any person to operate any business of laundering, sanitizing, or selling wiping rags unless, in addition to any other permit that may be required, he or she has a valid permit issued by the local health officer pursuant to an ordinance of the local governing body.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118470.

A permit to operate any business of laundering, sanitizing, or selling wiping rags shall be issued by the local health officer if the applicant complies with the provisions of this article and any regulations adopted thereunder. The governing body of each city and county shall determine the amount of any fee for the issuance of a permit pursuant to provisions of this article for any business within the territory under its jurisdiction. The amount of the fee shall not exceed the amount necessary to defray the costs of administering this article. The permit for operation shall be posted in a conspicuous place in the business establishment for which the permit is issued. Any permit issued pursuant to this article may be suspended or revoked for any violation of any of the provisions of this article, the regulations adopted thereunder, or any condition of the permit required by the ordinance of the local governing body. Nothing in this article shall preempt local regulation of the business of laundering, sanitizing, or selling wiping rags, and any local governing body may adopt an ordinance containing requirements more restrictive than those contained in regulations adopted pursuant to this article.

The local health officer shall issue and serve upon the permit holder a notice setting forth in clear and concise language the act or omission upon which the violation is based, when the permit holder is charged with any violation and shall inform the permit holder of his or her rights to a hearing prior to suspension or revocation. At any time within the 15 days after service of the notice, the permit holder may request a hearing before the local health officer to show cause why his or her permit should not be suspended or

revoked. A failure to request a hearing within 15 days shall be deemed a waiver of a right to a hearing.

The local health officer may call a hearing for the purpose of investigating any violations of this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118475.

The local health officer authorized to issue permits to launder, sanitize, or sell wiping rags shall keep a record of suspension or revocation of permits and a register of:

(a) The names and places of business of persons to whom permits are issued.

(b) The date of issue and number of each permit.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118480.

Before being sold or offered for sale, each package or parcel of wiping rags shall be plainly marked sanitized wiping rags, and in addition it shall be plainly marked with the name and location of the laundry where the rags were laundered and sanitized.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118485.

No machinery or appliances used for laundering clothing and articles for personal wear or household use shall be used for laundering soiled rags or soiled cloth material for wiping rags.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118490.

Every person who violates any provision of this article is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Restrooms [118500 - 118703]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Public Restrooms [118500 - 118507]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

118500.

Every public agency that conducts an establishment serving the public or open to the public and that maintains therein restroom facilities for the public, shall make every water closet for each sex maintained within the facilities available without cost or charge to the patrons, guests, or invitees of the establishment. Public agency as used in this section means only the state and any agency of the state and a city, a county, and a city and county.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118505.

(a) Publicly and privately owned facilities where the public congregates shall be equipped with sufficient temporary or permanent restrooms to meet the needs of the public at peak hours.

(b) In conformity with the State Plumbing Code, and except as otherwise provided in this section, standards shall be adopted in order to enforce this section, as follows:

(1) The State Building Standards Commission shall adopt standards with respect to all state-owned or state-occupied facilities where the public congregates and over which it has jurisdiction pursuant to Section 18934.5.

(2) The Office of the State Architect shall adopt standards with respect to all facilities where the public congregates and that are not covered by paragraph (1), unless exempt from coverage pursuant to this section.

(c) The standards adopted pursuant to subdivision (b) shall be published in the State Building Standards Code contained in Title 24 of the California Code of Regulations.

(d) This section shall apply to facilities where the public congregates that commence construction, or that undertake structural alterations, repairs, or improvements exceeding 50 percent of the entire facility, on or after January 1, 1989.

(e) For the purposes of this section, facilities where the public congregates means sports and entertainment arenas, stadiums, community and convention halls, specialty event centers, amusement facilities, and ski resorts.

For purposes of this section, facilities where the public congregates also means specialty event centers in public parks.

(f) This section shall not apply to the following:

(1) Any hotel. For purposes of this section, hotel means an establishment in which there exists the relationship of guests and innkeeper between the occupants and the owner or operator of the establishment. The existence of some other legal relationship between the occupants and owner or operator shall be immaterial.

(2) Any restaurant or food facility, as defined in Section 113785.

(3) Any public or private elementary or secondary school facility.

(4) Any qualified historic building, defined as qualifying under provisions in the State Historical Building Code contained in Part 8 (commencing with Section 8-100) of Title 24 of the California Code of Regulations.

(g) It is the intent of the Legislature that, in order to ensure that standards are both viable and efficacious, the Office of the State Architect and the State Building Standards Commission hold a series of public

meetings with representatives of affected industries and state and local agencies prior to adopting standards under this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118506.

(a)(1)A theater or movie house, grocery store, health facility, convention center, sports arena, auditorium, cultural complex, exhibition hall, library, passenger terminal, permanent amusement park structure, restaurant with an occupancy of at least 60 persons, as determined by the State Fire Marshal, shopping center of more than 25,000 square feet, tourist attraction, or retail store of more than 5,000 square feet shall install and maintain at least one baby diaper changing station if the facility is open to the public. There shall be at least one safe, sanitary, convenient, and publicly accessible baby diaper changing station that is accessible to women entering a restroom provided for use by women and one that is accessible to men entering a restroom provided for use by men, or at least one safe, sanitary, convenient, and publicly accessible baby diaper changing station that is accessible to both men and women.

(2)This section does not apply to an industrial building or to a nightclub or bar that does not permit anyone who is under 18 years of age to enter the premises. This section also does not apply to a restroom located in a health facility if the restroom is intended for the use of one patient or resident at a time.

(b)This section shall not be enforceable by a private right of action.

(c)(1)Subdivision (a) applies to all new construction, and, except as otherwise provided in paragraph (2), to all renovations of bathrooms for which a permit has been obtained, in which the estimated cost of the new construction or renovation is ten thousand dollars ($10,000) or more. If an entity subject to subdivision (a) is already in compliance with that subdivision at the time of new construction or renovation, additional restrooms equipped with baby diaper changing stations are not required.

(2)Subdivision (a) does not apply to a renovation if a local building permitting entity or building inspector determines that the installation of a baby diaper changing station is not feasible or would result in a failure to comply with applicable building standards governing the right of access for persons with disabilities. The permitting entity or building inspector may grant an exemption from the requirements of subdivision (a) under those circumstances.

(d)For purposes of this section, the following definitions shall apply:

(1)Health facility has the meaning set forth in Section 1250.

(2)Restaurant with an occupancy of at least 60 persons does not apply to a restaurant if there is a centrally located facility with a baby diaper changing station that is open to the public and located within 300 feet of the entrance to the restaurant.

(Added by Stats. 2017, Ch. 755, Sec. 3. (AB 1127) Effective January 1, 2018.)

118507.

(a)Notwithstanding Chapter 4 (commencing with Section 401.0) of the California Plumbing Code (Part 5 of Title 24 of the California Code of Regulations), a city, county, or city and county may require new or renovated public toilet facilities within its jurisdiction to be designed, constructed, and identified for use by all genders instead of the design standards for separate facilities for men and women found in the applicable provisions in Chapter 4 of the California Plumbing Code.

If a city, county, or city and county exercises the authority provided in this subdivision, it shall do so by adopting an ordinance or resolution.

(b)(1)Signs in compliance with Title 24 of the California Code of Regulations shall identify the restrooms for use by all genders.

(2)Single-user toilet facilities shall comply with the requirements of Part 5 of Title 24 of the California Code of Regulations.

(3)In multiuser toilet facilities, lavatories shall be located either in toilet rooms or grouped in an immediately adjacent common use area accessible to all users.

(c)This section shall become inoperative on the date that standards that address all-gender, multiuser facilities take effect in the California Building Standards Code (Title 24 of the California Code of Regulations) and as of that date this section is repealed.

(Added by Stats. 2022, Ch. 839, Sec. 1. (SB 1194) Effective January 1, 2023. Conditionally repealed as prescribed by its own provisions.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Restrooms [118500 - 118703]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. Single-User Restrooms [118600- 118600.]__

(Article 5 added by Stats. 2016, Ch. 818, Sec. 1.)

118600.

(a)All single-user toilet facilities in any business establishment, place of public accommodation, or state or local government agency shall be identified as all-gender toilet facilities by signage that complies with Title

24 of the California Code of Regulations, and designated for use by no more than one occupant at a time or for family or assisted use.

(b)During any inspection of a business or a place of public accommodation by an inspector, building official, or other local official responsible for code enforcement, the inspector or official may inspect for compliance with this section.

(c)For the purposes of this section, single-user toilet facility means a toilet facility with no more than one water closet and one urinal with a locking mechanism controlled by the user.

(d)This section shall become operative on March 1, 2017.

(e)This section does not apply to construction jobsites, as described in subdivision (a) of Section 6722 of the Labor Code.

(Amended by Stats. 2023, Ch. 529, Sec. 2. (AB 521) Effective January 1, 2024.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Restrooms [118500 - 118703]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 6. Restroom Access for Medical Conditions [118700 - 118703]__

(Article 6 added by Stats. 2022, Ch. 893, Sec. 1.)

118700.

For purposes of this article, the following definitions apply:

(a)Department means the State Department of Public Health, unless otherwise specified.

(b)Eligible medical condition means Crohnsdisease, ulcerative colitis, other inflammatory bowel disease, irritable bowel syndrome, or another medical condition that requires immediate access to a toilet facility.

(Added by Stats. 2022, Ch. 893, Sec. 1. (AB 1632) Effective January 1, 2023.)

118701.

(a)The State Department of Public Health shall implement this article, in consultation with the Department of Consumer Affairs.

(b)This article shall be implemented only to the extent that it is neither in conflict with nor construed to limit rights under the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.), the Unruh Civil Rights Act (Section 51 of the Civil Code), or any other civil rights law, as applicable.

(c)An employee toilet facility, as accessed pursuant to this article, shall not be construed as a place of public accommodation for purposes of state law.

(Added by Stats. 2022, Ch. 893, Sec. 1. (AB 1632) Effective January 1, 2023.)

118702.

(a)A place of business that is open to the general public for the sale of goods and that has a toilet facility for its employees shall allow any individual who is lawfully on the premises of that place of business to use that toilet facility during normal business hours, even if the place of business does not normally make the employee toilet facility available to the general public, if all of the following conditions are met:

(1)The individual requesting use of the employee toilet facility has an eligible medical condition, as defined in Section 118700, or uses an ostomy device. The place of business may require the individual to present reasonable evidence that the individual meets the condition in this paragraph, as described in subdivision (b).

(2)Three or more employees of the place of business are working onsite at the time that the individual requests use of the employee toilet facility.

(3)The employee toilet facility is not located in an employee changing area or an area where providing access would create an obvious health or safety risk to the requesting individual or would create an obvious security risk to the place of business.

(4)Use of the employee toilet facility would not create an obvious health or safety risk to the requesting individual.

(5)A public restroom is not immediately accessible to the requesting individual.

(b)If the place of business requires the requesting individual to present reasonable evidence that the individual has an eligible medical condition or uses an ostomy device, the individual may present a signed statement issued to the individual by a physician, nurse practitioner, or physician assistant, licensed under the Business and Professions Code, on a form developed by the department pursuant to Section 118703. The signed statement is sufficient for purposes of presenting reasonable evidence, if required by the place of business.

(c)(1)Subject to paragraphs (2) to (4), inclusive, a violation of subdivision (a) is subject to a civil penalty not exceeding one hundred dollars ($100) for each violation.

(2)A place of business is not civilly liable for a violation of subdivision (a) unless the violation is willful or grossly negligent.

(3)An employee of a place of business is not civilly liable, and shall not be subject to paragraph (1), for a violation of subdivision (a). The employee shall not be subject to discharge or any other disciplinary action by their employer for a violation of subdivision (a), unless the employeesaction is contrary to an expressed policy developed by their employer pursuant to this section.

(4)This section does not create or imply a private right of action for a violation of subdivision (a).

(d)A place of business is not required to make any physical changes to an employee toilet facility for purposes of this section.

(Added by Stats. 2022, Ch. 893, Sec. 1. (AB 1632) Effective January 1, 2023.)

118703.

(a)The department shall develop a standard electronic form that may be signed by a health care provider, as specified in subdivision (b) of Section 118702, to serve as reasonable evidence of the existence of an eligible medical condition or use of an ostomy device. The department shall post the form, in a printable format, on the departmentsinternet website.

(b)The form shall include all of the following components:

(1)Space for the requesting individualsname.

(2)Space for the requesting individualsaddress.

(3)Space for the requesting individualsdate of birth.

(4)Space for the health care providersname, signature, and statement confirming the eligible medical condition or use of an ostomy device.

(5)Both of the following statements:

(A)MEDICAL ALERT: RESTROOM ACCESS REQUIRED.

(B)The holder of this form uses an ostomy device or suffers from Crohnsdisease, ulcerative colitis, other inflammatory bowel disease, irritable bowel syndrome, or another medical condition that requires immediate access to a toilet facility.

(6)A reference to this article and to any regulations adopted to implement this article.

(Added by Stats. 2022, Ch. 893, Sec. 1. (AB 1632) Effective January 1, 2023.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 3. Miscellaneous Noise Control [118825 - 118830]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 6.)

118825.

The Legislature, recognizing the growing problem of noise pollution throughout the state and that we are daily assaulted with increased noise from advancing technology, machines, vehicles, and human clamor, declares that excessive noise must be considered a degradation of our environment and a health hazard to our citizens.

The Legislature further declares that it is particularly concerned that the proposed supersonic transport aircraft may significantly increase the noise level in the areas surrounding our statesairports unless

preventive legal sanctions are invoked.

The Legislature is compelled to enact a noise limit for aircraft landing in the state, as a necessary and proper function of its police powers, in order to protect the health and welfare of the citizens of this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118830.

(a) Except in an emergency situation, no private or commercial aircraft entering commercial service after the effective date of this section may land or take off within the state if it produces noise in excess of the federal certification limits for subsonic jet transport aircraft as set forth in Title 14, Code of Federal Regulations, Part 36.

(b) The prohibition contained in this section shall not apply in the case of an aircraft of a type or class manufactured or in production on or before the effective date of this section where the manufacture of the aircraft is ordered and the aircraft is delivered for commercial service no later than three years after the effective date of this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Indoor Air Quality [118875 - 118950]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. California Indoor Clean Air Act of 1976 [118875 - 118915]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

118875.

This article and Article 2 (commencing with Section 118920) shall be known and may be cited as the California Indoor Clean Air Act of 1976.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118880.

The Legislature finds and declares that tobacco smoke is a hazard to the health of the general public.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118885.

Within indoor rooms, indoor chambers, or indoor places of public assembly in publicly owned buildings in which public business is conducted requiring or providing direct participation or observation by the general public there shall be a contiguous area of not less than 50 percent of the total area of the room, chamber, or place designated and posted by signs of sufficient number and posted in locations as to be readily seen by persons within the area, where the smoking of tobacco is prohibited while a public meeting is in progress. A public body, commission, agency, or other entity conducting a public meeting may waive the requirements of this section with respect to its own members, provided that the rights of nonsmoking members are not adversely affected.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118890.

Every health facility, as defined in Section 1250, and clinic, as defined in Section 1200, shall comply with the following:

(a) Shall make every reasonable effort to assign patients to rooms according to the patientsindividual nonsmoking or smoking preference.

(b) Shall designate and post by signs of sufficient number and posted in locations as to be readily seen by persons within the area, a contiguous area of not less than 20 percent of every cafeteria or other dining area whose occupied capacity is 50 or more persons as a nonsmoking section.

(c) This section shall not prevent any health facility or clinic from banning smoking in any area that it may designate and post by sign or in all areas of the facility or clinic.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118895.

Within every publicly owned building open to the general public for the primary purpose of exhibiting any motion picture, stage drama, music recital, or any other performance, with the exception of any indoor sporting event, signs shall be posted in sufficient number and in locations as to be readily seen by persons within the area, that shall designate that the smoking of tobacco is prohibited in any area other than that commonly known as the lobby. This prohibition shall not apply except during those times when the building is actually open to the public.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118900.

Within every restaurant in a publicly owned building serving food or alcoholic beverages in rooms whose occupied capacity is 50 or more persons there shall be designated and posted by signs of sufficient number and posted in locations as to be readily seen by persons within the area, a contiguous area of not less than 20 percent of the serving area where the smoking of tobacco is prohibited.

(a) This section shall not apply to banquet rooms in use for private functions.

(b) This section shall not apply to premises under lease as a restaurant for the time as the lessee of record on January 1, 1977, has a lease as the operator of the restaurant.

(c) As used in this section, restaurant means any place designated as a restaurant by Section 28522.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118905.

Any person may apply for a writ of mandate to compel compliance by any public entity that has not complied with the requirements of this article and Article 3 (commencing with Section 118920) for the designating or posting of nonsmoking areas or areas where the smoking of tobacco is prohibited. If judgment is given for the applicant, he or she may recover all reasonable costs of the suit, including reasonable attorney fees, reasonableness to be determined by the court.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118910.

(a)The Legislature declares its intent not to preempt the field of regulation of the smoking of tobacco products. A local governing body may ban completely the smoking of tobacco products, or may regulate smoking of tobacco products in any manner not inconsistent with this article and Article 3 (commencing with Section 118920) or any other provision of state law.

(b)For purposes of this section, smoking has the same meaning as in subdivision (c) of Section 22950.5 of the Business and Professions Code.

(c)For purposes of this section, tobacco product means a product or device as defined in subdivision (d) of Section 22950.5 of the Business and Professions Code.

(Amended by Stats. 2016, 2nd Ex. Sess., Ch. 7, Sec. 18. (SB 5 2x) Effective June 9, 2016.)

118915.

(a) Except as provided in subdivision (b), no person shall smoke any tobacco product in any retail food production and marketing establishment, as defined in Section 28802, during the hours the establishment is open to the public.

(b) The provisions of subdivision (a) shall not apply to that portion of an establishment subject to Section 118900 nor to an area of an establishment set aside for employee smoking and not open to the public.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=15.&chapter=4.&article=1.5.

118916.

(a)(1)The Legislature finds and declares that the use of smokeless tobacco products by professional baseball players is a matter of statewide interest and concern. It is the intent of the Legislature in enacting this section to prohibit the use of smokeless tobacco products by professional baseball players in stadiums in this state.

(2)The Legislature further finds that there is a high level of smokeless tobacco use by Major League Baseball players, as well as a well-established role-model effect between professional baseball players and youth. A ban on the use of smokeless tobacco in professional baseball takes aim at the use of smokeless tobacco by professional baseball players at stadiums throughout California with the goal that impressionable youth never begin to use smokeless tobacco products or associate smokeless tobacco with the sport of baseball.

(3)To promote a healthy and active lifestyle and to set a better example for youth, the Legislature urges Major League Baseball and the Major League Baseball Players Association to adopt a nationwide ban on the use of smokeless tobacco by players, managers, and coaches in public stadiums. Since 1993, minor league baseball has prohibited the use or possession of smokeless tobacco by players, coaches, and umpires on ballpark premises and during club travel.

(b)A person shall not use or possess a smokeless tobacco product at any time on the playing field of a baseball stadium.

(c)For purposes of this section, the following definitions shall apply:

(1)Baseball stadium means the physical area in which a professional baseball game or practice is occurring.

(2)Playing field means the area in which a baseball game is played, including a dugout, bullpen, and team bench area.

(3)Professional baseball means baseball games played in connection with Major League Baseball or minor league baseball.

(4)Smokeless tobacco means a product that contains cut, ground, powdered, or leaf tobacco and is intended to be placed in the oral or nasal cavity, including, but not limited to, snuff, chewing tobacco, dipping tobacco, dissolvable tobacco products, and snus.

(d)This section sets forth minimum state restrictions on the use or possession of smokeless tobacco in a baseball stadium and does not preempt or otherwise prohibit the adoption of a local ordinance that imposes a more restrictive or complete ban on smokeless tobacco use and possession in a baseball stadium. A local ordinance that imposes a more restrictive or complete ban on smokeless tobacco use or possession in a baseball stadium shall control in the event of an inconsistency between this section and the local ordinance.

(e)The provisions of this section are severable. If any provision of this section or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

(f)This section shall become operative on December 1, 2016.

(Added by Stats. 2015, Ch. 779, Sec. 1. (AB 768) Effective January 1, 2016. Section operative December 1, 2016, by its own provisions.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Indoor Air Quality [118875 - 118950]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Smoking in Private and Public Transportation [118920 - 118945]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

118920.

(a) The Legislature hereby finds and declares that the United States Surgeon Generals1986 Report on the Health Consequences of Involuntary Smoking conclude all of the following:

(1) Involuntary smoking is a cause of disease, including lung cancer, in healthy nonsmokers.

(2) The children of parents who smoke compared with the children of nonsmoking parents have an increased frequency of respiratory infections, increased respiratory symptoms, and slightly smaller rates of increase in lung function as the lungs mature.

(3) The simple separation of smokers and nonsmokers within the same air space may reduce, but does not eliminate, the exposure of nonsmokers to environmental tobacco smoke.

(b) The Legislature further finds and declares the following:

(1) Nonsmokers have no adequate means to protect themselves from the damage inflicted upon them when

they involuntarily inhale tobacco smoke.

(2) Regulation of smoking in public places is necessary to protect the health, safety, welfare, comfort, and environment of nonsmokers.

(c) It is, therefore, the intent of the Legislature, in enacting this article, to eliminate smoking on public transportation vehicles.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118925.

(a)(1)It is unlawful for any person to smoke a tobacco product in any vehicle of a passenger stage corporation, the National Railroad Passenger Corporation (Amtrak) except to the extent permitted by federal law, in any aircraft except to the extent permitted by federal law, on a public transportation system, as defined by Section 99211 of the Public Utilities Code, or in any vehicle of an entity receiving any transit assistance from the state.

(2)(A)For purposes of this subdivision, smoke has the same meaning as in subdivision (c) of Section 22950.5 of the Business and Professions Code.

(B)For purposes of this subdivision, tobacco product means a product or device as defined in subdivision (d) of Section 22950.5 of the Business and Professions Code.

(b)It is unlawful for any person to smoke any plant product other than a tobacco product in any vehicle of a passenger stage corporation, the National Railroad Passenger Corporation (Amtrak) except to the extent permitted by federal law, in any aircraft except to the extent permitted by federal law, on a public transportation system, as defined by Section 99211 of the Public Utilities Code, or in any vehicle of an entity receiving any transit assistance from the state.

(Amended by Stats. 2016, 2nd Ex. Sess., Ch. 7, Sec. 19. (SB 5 2x) Effective June 9, 2016.)

118930.

A notice prohibiting smoking, displayed as a symbol and in English, shall be posted in each vehicle or aircraft subject to this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118935.

(a) Every person and public agency providing transportation services for compensation, including, but not limited to, the National Railroad Passenger Corporation (Amtrak) to the extent permitted by federal law, passenger stage corporations, and local agencies that own or operate airports, shall designate and post, by signs of sufficient number and posted in locations that may be readily seen by persons within the area, a

contiguous area of not less than 75 percent of any area made available by the person or public agency as a waiting room for these passengers where the smoking of tobacco is prohibited. Not more than 25 percent of any given area may be set aside for smokers.

(b) Every person or public agency subject to subdivision (a) shall also post, by sign of sufficient number and posted in locations as to be readily seen by persons within the area of any building where tickets, tokens, or other evidences that a fare has been paid for transportation services that are provided by the person or public agency, a notice that the smoking of tobacco by persons waiting in line to purchase the tickets, tokens, or other evidences that a fare has been paid is prohibited.

(c) It is unlawful for any person to smoke in an area posted pursuant to this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118940.

This article does not preempt any local ordinance on the same subject where a local ordinance is more restrictive to the benefit of the nonsmoker.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

118945.

Any violation of this article is an infraction punishable by a fine not exceeding one hundred dollars ($100) for a first violation, by a fine not exceeding two hundred dollars ($200) for a second violation within one year, or by a fine not exceeding five hundred dollars ($500) for a third and for each subsequent violation within one year.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2.5. Smoking in Motor Vehicles [118947 - 118949]__

(Article 2.5 added by Stats. 2007, Ch. 425, Sec. 1.)

118947.

This act shall be known, and may be cited, as the Marco Firebaugh Memorial ChildrensHealth and Safety Act of 2007.

(Added by Stats. 2007, Ch. 425, Sec. 1. Effective January 1, 2008.)

118948.

(a)It is unlawful for a person to smoke a tobacco product in a motor vehicle, whether in motion or at rest, in which there is a minor.

(b)For purposes of this section, smoke has the same meaning as in subdivision (c) of Section 22950.5 of the Business and Professions Code.

(c)For purposes of this section, tobacco product means a product or device as defined in subdivision (d) of Section 22950.5 of the Business and Professions Code.

(d)A violation of this section is an infraction punishable by a fine not exceeding one hundred dollars ($100) for each violation.

(Amended by Stats. 2016, 2nd Ex. Sess., Ch. 7, Sec. 20. (SB 5 2x) Effective June 9, 2016.)

118949.

A law enforcement officer shall not stop a vehicle for the sole purpose of determining whether the driver is in violation of this article.

(Added by Stats. 2007, Ch. 425, Sec. 1. Effective January 1, 2008.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=15.&chapter=4.&article=3.

118950.

(a)The Legislature hereby finds and declares the following:

(1)Smoking is the single most important source of preventable disease and premature death in California.

(2)Smoking is responsible for one-quarter of all death caused by fire.

(3)Tobacco-related disease places a tremendous financial burden upon the persons with the disease, their families, the health care delivery system, and society as a whole.

(4)Despite laws in at least 44 states prohibiting the sale of tobacco products to minors, each day 3,000 children start using tobacco products in this nation. Children under the age of 18 years consume 947 million packages of cigarettes in this country yearly.

(5)The earlier a child begins to use tobacco products, the more likely it is that the child will be unable to quit.

(6)More than 60 percent of all smokers begin smoking by the age of 14 years, and 90 percent begin by the age of 19 years.

(7)Use of smokeless tobacco products among minors in this state is increasing.

(8)Smokeless tobacco or chewing tobacco is harmful to the health of individuals and may cause gum disease, mouth or oral cancers, increased tooth decay and leukoplakia.

(9)Tobacco product advertising and promotion are an important cause of tobacco use among children. More money is spent advertising and promoting tobacco products than any other consumer product.

(10)Distribution of tobacco product samples, coupons, coupon offers, gift certificates, gift cards, or other similar offers is a recognized source by which minors obtain tobacco products, beginning the addiction process.

(11)It is the intent of the Legislature that keeping children from beginning to use tobacco products in any form and encouraging all persons to quit tobacco use shall be among the highest priorities in disease prevention for the State of California.

(b)It is unlawful for any person, agent, or employee of a person in the business of selling or distributing smokeless tobacco or cigarettes to engage in the nonsale distribution of any smokeless tobacco or cigarettes to any person in any public building, park or playground, or on any public sidewalk, street, or other public grounds, or on any private property that is open to the general public.

(c)For purposes of this section:

(1)Nonsale distribution means to give smokeless tobacco or cigarettes to the general public at no cost, or at nominal cost, or to give coupons, coupon offers, gift certificates, gift cards, or other similar offers, or rebate offers for smokeless tobacco or cigarettes to the general public at no cost or at nominal cost. Distribution of tobacco products, coupons, coupon offers, gift certificates, gift cards, or other similar offers, or rebate offers in connection with the sale of another item, including tobacco products, cigarette lighters, magazines, or newspapers shall not constitute nonsale distribution.

(2) Smokeless tobacco means (A) a loose or flat, compressed cake form of tobacco that may be chewed or held in the mouth or (B) a shredded, powdered, or pulverized form of tobacco that may be inhaled through the nostrils, chewed, or held in the mouth.

(3)Public building, park, playground, sidewalk, street, or other public grounds means any structure or outdoor area that is owned, operated, or maintained by any public entity, including, but not limited to: city and county streets and sidewalks, parade grounds, fair grounds, public transportation facilities and terminals, public reception areas, public health facilities, public recreational facilities, and public office buildings.

(4)Private property that is open to the general public means any structure or outdoor area that is owned, operated, or maintained by any private entity and that is open for entry or use by the general public, whether or not a fee or charge is imposed for entry or use.

(d)Any person who violates this section shall be liable for a civil penalty of not less than two hundred dollars ($200) for one act, five hundred dollars ($500) for two acts, and one thousand dollars ($1,000) for each subsequent act constituting a violation. Each distribution of a single package, coupon, coupon offer, gift certificates, gift cards, or other similar offers, or rebate offer to an individual member of the general public in violation of this section shall be considered a separate violation.

(e)Neither this section nor any other provision of law shall invalidate an ordinance of, or prohibit the adoption of an ordinance by, a city or county regulating distribution of smokeless tobacco or cigarette samples within its boundaries that is more restrictive than this section. An ordinance that imposes greater restrictions on the sale or distribution of tobacco than this section shall govern, to the extent of any inconsistency between it and this section.

(f)Subdivisions (a) to (e), inclusive, do not apply to any public building, park, playground, sidewalk, street, or other public grounds, or any private property that is open to the general public where minors are prohibited by law. Subdivisions (a) to (e), inclusive, do not apply to any public building, park, playground, sidewalk, street, or other public grounds open to the general public and leased for private functions where minors are denied access by a peace officer or licensed security guard on the premises.

(g)Subdivisions (a) to (e), inclusive, do not apply to any private property that is open to the general public where minors are denied access to a separate nonsale distribution area by a peace officer or licensed security guard stationed at the entrance of the separate nonsale distribution area and the separate nonsale distribution area is enclosed so as to prevent persons outside the separate nonsale distribution area from seeing the nonsale distribution unless they undertake unreasonable efforts to see inside the area.

(Amended by Stats. 2007, Ch. 445, Sec. 2. Effective January 1, 2008.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Electrical Hazards [119075 - 119090]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

119075.

(a) The Legislature intends to prevent electricity generated by permanent or portable electric generators from backfeeding into a utility electrical distribution system by the enactment of this chapter.

(b) Any portable electrical generator that is capable of being connected temporarily to a customerselectrical system, that is normally supplied by an electrical corporation or state or local public agency, shall be connected only after opening the customersmain switch so as to isolate the customerselectrical system from that of the electrical corporation or state or local agency.

(c) Any electrical generator, other than a generator designed to run in parallel with the system of the serving utility and approved by that utility, that is capable of being permanently connected to a customerselectrical system shall be connected only by means of a double throw switch so as to isolate the customerselectrical system from that of the electrical corporation or state or local agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

119080.

(a) Every manufacturer of a portable or permanent electrical generator that is capable of being connected

either permanently or temporarily to a commercial, industrial, or residential structureselectrical system, shall include a warning statement in the generatorsinstruction manual and a legible warning label on the generator that states the requirement of Section 119075 and explains the electrical hazards of backfeed into a utilitysdistribution system. The same warning information shall be included in all advertisements offering portable electric generators.

(b) No person or public agency shall sell, rent to another person or public agency, or offer for sale or rent to another person or public agency a portable electrical generator unless the legible warning label is on a visible surface of the generator.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

119085.

(a) Every public utility or utility district shall notify all electrical service customers of the electrical backfeed hazards of portable and permanent electric generators.

(b) Any owner, renter, or lessee who possesses and operates an electric generator, when the generator is connected to a commercial, industrial, or residential structureselectrical system that is connected to the service of a public utility or utility district, shall notify the utility of the location of the generator.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

119090.

(a) Any person who violates Sections 119075 to 119085, inclusive, is guilty of a misdemeanor, and subject to a fine of not more than five hundred dollars ($500) or not more than six months™ imprisonment.

(b) For purposes of this section, person shall not include public agencies, officers or employees of public agencies, or public utilities.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Chlorofluorocarbons [119150 - 119160]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

119150.

(a) On and after October 15, 1978, no person shall manufacture in this state a saturated chlorofluorocarbon not containing hydrogen for use as an aerosol propellant in a can, canister, or other container.

(b) On and after December 15, 1978, no person shall manufacture in this state any can, canister, or other container that is intended to utilize an aerosol propellant chemically composed, in whole or in part, of a saturated chlorofluorocarbon not containing hydrogen.

(c) On and after April 15, 1979, no person shall sell in this state any can, canister, or other container that utilizes an aerosol propellant chemically composed, in whole or in part, of a saturated chlorofluorocarbon not containing hydrogen.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

119155.

Notwithstanding the foregoing provisions of this chapter, nothing in this chapter shall preclude the manufacture or sale of saturated chlorofluorocarbons not containing hydrogen for any of the uses exempted in currently proposed federal regulations, to be modified as the federal regulations are modified.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

119160.

Subdivisions (a) and (b) of Section 119150 shall be superseded by the enactment or adoption of any federal law or regulation prohibiting the manufacture of any aerosol product utilizing saturated chlorofluorocarbons not containing hydrogen and prohibiting the manufacture of saturated chlorofluorocarbons not containing hydrogen for use as an aerosol propellant in a can, canister, or other container.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

119301.

For purposes of this chapter, the following definitions shall apply:

(a)Antiseptic solution means a liquid or semiliquid substance that is approved by the federal Food and Drug Administration to reduce the number of microorganisms present on the skin and on mucosal surfaces.

(b)Bloodborne pathogen means a disease-causing microorganism that, when present in the blood, can be transmitted to humans, including, but not limited to, hepatitis B virus (HBV), hepatitis C virus (HCV), and human immunodeficiency virus (HIV).

(c)Body art means body piercing, tattooing, branding, or application of permanent cosmetics.

(d)Body art facility means the specified building, section of a building, or vehicle in which a practitioner performs, or demonstrates for the purpose of instruction, body art, including reception areas, the procedure area, and the decontamination and sterilization area. Body art facility does not include a facility that only pierces the ear with a disposable, single-use, presterilized clasp and stud or solid needle that is applied using a mechanical device to force the needle or stud through the ear.

(e)Body piercing means the creation of an opening in a human body for the purpose of inserting jewelry or other decoration. Body piercing includes, but is not limited to, the piercing of an ear, including the tragus, lip, tongue, nose, or eyebrow. Body piercing does not include the piercing of an ear, except for the tragus, with a disposable, single-use, presterilized stud and clasp or solid needle that is applied using a mechanical device to force the needle or stud through the ear.

(f)Branding means the process in which a mark or marks are burned into human skin tissue with a hot iron or other instrument, with the intention of leaving a permanent scar.

(g)Client means an individual upon whom a practitioner performs body art.

(h)Decontamination and sterilization area means a room, or specific section of a room, that is set apart and used only to decontaminate and sterilize instruments.

(i)Department means the State Department of Public Health.

(j)Decontamination means the use of physical or chemical means to remove, inactivate, or destroy bloodborne pathogens on a surface or item to the point where the pathogens are no longer capable of transmitting infectious particles and the surface or item is rendered safe for handling, use, or disposal.

(k)Disinfectant means a product that is registered by the federal Environmental Protection Agency and the Department of Pesticide Regulation, as indicated on the label, to reduce or eliminate the presence of disease-causing microorganisms, including human immunodeficiency virus (HIV) and hepatitis B virus (HBV) for use in decontaminating work surfaces.

(l)Enforcement officer means all local health officers, directors of environmental health, and duly authorized registered environmental health specialists and environmental health specialist trainees.

(m)Hand hygiene means either of the following:

(1)Thoroughly washing all surfaces of the hands and under the fingernails with soap and warm water.

(2)In the absence of contamination with blood or other bodily fluids, or obvious soiling, applying an antiseptic solution to all the surfaces of the hands and underneath the fingernails.

(n)Instrument means a nonmedical application device used in performing body art, including, but not limited to, needles, needle bars, needle tubes, forceps, hemostats, tweezers, razors, or razor blades.

(o)Local enforcement agency means the local health agency of the county, city, or city and county. In jurisdictions where the local health agency and the environmental health agency are separate departments, the jurisdiction shall specify which entity will be the local enforcement agency for purposes of this chapter.

(p)Mucosal surface means the moisture-secreting membrane lining of all body cavities or passages that communicates with the exterior, including, but not limited to, the nose, mouth, vagina, and urethra.

(q)Owner means either of the following:

(1)The person or persons whose name or names appear on the health permit, business license, property deed, or rental agreement of the body art facility.

(2)A person, acting as a principal of a corporation or partnership, who employs practitioners to perform body art or other activity regulated by this chapter.

(r)Permanent cosmetics means the application of pigments in human skin tissue for the purpose of permanently changing the color or other appearance of the skin. This includes, but is not limited to, permanent eyeliner, eyebrow, or lip color.

(s)Potable water means water that complies with the standards for transient noncommunity water systems pursuant to the California Safe Drinking Water Act (Chapter 4 (commencing with Section 116275) of Part 12).

(t)Practitioner means a person who performs body art on a client.

(u)Procedure area means a room, or designated portion of a room, that is set apart and only used to perform body art.

(v)Procedure site means the area or location on the human body selected for the placement of body art.

(w)Sharps waste means a device or instrument that has acute, rigid corners, edges, or protuberances capable of cutting or piercing the skin, that has been used in the performance of body art, and has not been disinfected or sterilized following use, including, but not limited to, any of the following:

(1)Tattooing needles and needle bars.

(2)Disposable piercing needles.

(3)Disposable razors.

(x)Sharps waste container means a rigid, puncture resistant, commercial container that, when sealed, is leak resistant and cannot be reopened without great difficulty. Sharps containers shall be designed and constructed specifically for the proper containment of sharps waste.

(y)Sponsor means an individual or business entity, including an event coordinator or manager, responsible for the organization of a convention, trade show, or other temporary event that includes a body art demonstration booth. A sponsor may also be a body art practitioner.

(z)Sterilization means the complete destruction of all microbial life forms, including spores.

(aa)Tattooing means the insertion of pigment in human skin tissue by piercing with a needle.

(ab)Vehicle means a vehicle that has been fitted or designed to perform body art.

(ac)Warm water means water that is supplied through a mixing valve or combination faucet at a temperature of at least 100 degrees Fahrenheit.

(ad)Workstation means the area within a procedure area where a practitioner performs body art. The workstation includes, but is not limited to, the client chair or table, counter, mayo stand, instrument tray, storage drawer, and practitionerschair.

(Amended by Stats. 2013, Ch. 555, Sec. 2. (AB 1168) Effective January 1, 2014.)

(Chapter 7 repealed and added by Stats. 2011, Ch. 638, Sec. 2.)

__ARTICLE 2. Restrictions on the Performance of Body Art [119302 - 119304]__

(Article 2 added by Stats. 2011, Ch. 638, Sec. 2.)

119302.

(a)Pursuant to Section 653 of the Penal Code, a client shall be at least 18 years of age to be offered or to receive a tattoo or permanent cosmetics application, regardless of parental consent.

(b)Pursuant to Section 652 of the Penal Code, persons under 18 years of age shall not be offered or receive a body piercing unless the piercing is performed in the presence of his or her parent or guardian.

(c)A client shall be at least 18 years of age to be offered or to receive a branding, regardless of parental consent.

(d)The piercing or application of permanent cosmetics to the nipples or genitals of a minor is prohibited. The application of permanent cosmetics to the nipples of a minor is authorized when applied by a registered permanent cosmetic technician with the consent of the minorsparent or guardian and as directed by a physician.

(e)A body art facility may refuse to perform body piercing on a minor, regardless of parental or guardian consent.

(Repealed and added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

119303.

(a)Prior to the performance of body art, the client shall read, complete, and sign an informed consent form that shall include, but not be limited to, all of the following information:

(1)A description of the procedure.

(2)A description of what the client should expect following the procedure, including suggested care and any medical complications that may occur as a result of the procedure.

(3)A statement regarding the permanent nature of body art.

(4)Notice that tattoo inks, dyes, and pigments have not been approved by the federal Food and Drug Administration and that the health consequences of using these products are unknown.

(5)Postprocedure instructions that include all of the following:

(A)Information on the care of the procedure site.

(B)Restrictions on physical activities such as bathing, recreational water activities, gardening, or contact with animals, and the duration of the restrictions.

(C)Signs and symptoms of infection, including, but not limited to, redness, swelling, tenderness of the procedure site, red streaks going from the procedure site towards the heart, elevated body temperature, or purulent drainage from the procedure site.

(D)Signs and symptoms that indicate the need to seek medical care.

(b)Prior to the performance of body art, the client shall receive, complete, and sign a questionnaire that includes all of the following information:

(1)Whether the client may be pregnant.

(2)Whether the client has a history of herpes infection at the proposed procedure site, diabetes, allergic reactions to latex or antibiotics, hemophilia or other bleeding disorder, or cardiac valve disease.

(3)Whether the client has a history of medication use or is currently using medication, including being prescribed antibiotics prior to dental or surgical procedures.

(4)Other risk factors for bloodborne pathogen exposure.

(c)All information gathered from the client that is personal medical information and that is subject to the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA) or similar state laws shall be maintained or disposed of in compliance with those provisions.

(Amended by Stats. 2013, Ch. 555, Sec. 3. (AB 1168) Effective January 1, 2014.)

119304.

This chapter does not restrict the activities of a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code or a physician assistant

licensed under Chapter 7.7 (commencing with Section 3500) of Division 2 of the Business and Professions Code. Nothing in this chapter authorizes a practitioner to perform activities that are restricted under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code.

(Repealed and added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Body Art [119300 - 119328]__

(Chapter 7 repealed and added by Stats. 2011, Ch. 638, Sec. 2.)

__ARTICLE 3. Practitioner Registration [119306 - 119311]__

(Article 3 added by Stats. 2011, Ch. 638, Sec. 2.)

119306.

(a)A person shall not perform body art at any location other than a permitted permanent or temporary body art facility.

(b)A person shall not perform body art if he or she is not registered with the local enforcement agency.

(c)As a condition of registration, the applicant shall provide all of the following:

(1)Evidence of current hepatitis B vaccination, including applicable boosters, unless the practitioner can demonstrate hepatitis B immunity or has complied with current federal OSHA hepatitis B vaccination declination requirements.

(2)Evidence of completion of OSHA Bloodborne Pathogen Training consistent with Section 119307 and pursuant to paragraph (2) of subdivision (g) of Section 5193 of Title 8 of the California Code of Regulations or its successor.

(3)Proof that he or she is 18 years of age or older.

(4)Self-certification of, knowledge of, and commitment to meet state law and relevant local regulations pertaining to body art safety.

(5)His or her business address and the address at which he or she will perform any activity regulated by this chapter.

(6)Payment of a registration fee directly to the local enforcement agency. The local enforcement agency shall set the fee at an amount not to exceed the amount necessary but that is sufficient to cover the actual costs of administering the program.

(d)A practitioner shall display, in a place readily visible to the public at the body art facility where the practitioner is performing body art, the certificate confirming registration with the local enforcement agency in the jurisdiction in which that practice is conducted.

(e)A valid and current registration issued by a local enforcement agency shall be valid in any other jurisdiction for no more than five consecutive days, or 15 days total, in any one calendar year.

(f)Practitioner registration shall be renewed annually by a process to be determined by the local enforcement agency.

(g)A practitioner shall obtain all necessary permits to conduct business, including, but not limited to, being registered with the local enforcement agency. In addition to the penalties available pursuant to Article 6 (commencing with Section 119320), a practitioner who violates this subdivision shall be subject to suspension and a penalty not to exceed three times the cost of registration.

(Amended by Stats. 2013, Ch. 555, Sec. 4. (AB 1168) Effective January 1, 2014.)

119307.

(a)Prior to registering with the local enforcement agency, a practitioner shall complete a Bloodborne Pathogens Exposure Control Training program that is specific to his or her practice.

(b)An owner shall provide Bloodborne Pathogens Exposure Control Training pursuant to the requirements of paragraph (2) of subdivision (g) of Section 5193 of Title 8 of the California Code of Regulations, or its successor, for all employees, practitioners, and volunteers who perform duties within the decontamination and sterilization area or procedure area.

(c)The Bloodborne Pathogens Exposure Control Training shall meet all of the following criteria:

(1)Training shall be conducted by a person or persons who are knowledgeable in exposure control and infection prevention in the body art setting and who are approved by the local enforcement agency in accordance with the provisions of this section.

(2)Training and training materials shall be specific to performing body art.

(3)Training shall consist of not less than two hours of instruction that includes all of the following:

(A)A copy and explanation of the Division of Occupational Safety and Health, Bloodborne Pathogens Standard, contained in Section 5193 of Title 8 of the California Code of Regulations, or its successor.

(B)A copy and explanation of applicable county, city, or city and county ordinances that pertain to bloodborne pathogen transmission control in body art.

(C)Discussion of transmission, control, and symptoms of the diseases caused by bloodborne pathogens.

(D)Discussion of tasks involved in performing body art and how those tasks may lead to exposure to bloodborne pathogens for the client or practitioner.

(E)Discussion of the types and uses of personal protective equipment, such as disposable gloves, including an explanation of the limitations of the equipment.

(F)Discussion of the types of tasks, proper task technique, and order of tasks before and after putting on and removing personal protective equipment, to avoid contamination.

(G)Discussion of the importance of hand hygiene and a demonstration of proper hand hygiene techniques.

(H)Discussion of choice, use, and storage of disinfectants and antiseptics.

(I)Information on the signage required for biohazard materials and the importance of properly labeling chemicals and supplies.

(J)Information on hepatitis B vaccine, including safety and accessibility.

(K)Discussion of what constitutes a bloodborne pathogen exposure incident, including all of the following:

(i)Examples of bloodborne pathogen exposure, how the exposure occurred, and what actions to take to prevent or minimize future exposures.

(ii)Risk of infection following a bloodborne pathogen exposure incident.

(iii)Procedures to be followed after an exposure incident, including medical followup.

(L)Opportunities for interactive questions and answers with the instructor.

(d)Each person required to complete a Bloodborne Pathogens Exposure Control Training program pursuant to this section shall annually complete a minimum of two hours of Bloodborne Pathogens Exposure Control Training update presented by a trainer eligible pursuant to paragraph (1) of subdivision (c).

(e)Records of training required pursuant to this section shall be maintained for three years and shall be available for inspection upon request of the enforcement officer.

(Amended by Stats. 2013, Ch. 555, Sec. 5. (AB 1168) Effective January 1, 2014.)

119308.

(a)Before performing body art, the practitioner shall do all of the following:

(1)Wash and dry his or her hands consistent with sound hygienic practices.

(2)Put on a clean apron, bib, or lap pad over clean, dry clothing.

(3)Put on personal protective equipment that is appropriate for the task.

(4)Don clean, previously unused, disposable examination gloves on both hands just prior to the procedure. Gloves shall be worn throughout the procedure. If gloves come into contact with an object or surface other than the clientsprepared skin or material to be used for the procedure, or if a glove is torn or punctured, both gloves shall be removed, hand hygiene performed, and new, clean, previously unused, disposable examination gloves shall be donned. If gloves are removed for any reason during a procedure, hand hygiene shall be performed prior to donning new, clean, previously unused, disposable examination gloves.

(5)If the skin at the procedure site is to be shaved, the skin shall be first washed with soap and water. A single-use, disposable razor shall be used to shave the procedure site and then discarded into a sharps container.

(6)Immediately prior to performing the body art, the clientsskin shall be prepared with an antiseptic solution, antimicrobial, or microbicide, according to manufacturersinstructions. The item used for application shall be discarded after use.

(b)At the completion of the procedure, the practitioner shall do all of the following:

(1)Answer questions regarding the procedure site.

(2)Provide postprocedure instructions.

(3)When covering a procedure site, use a sterile dressing.

(4)Place all used or discarded sharps waste in a sharps waste container.

(5)Wash and disinfect reusable instruments as provided in subdivisions (d) and (e) of Section 119309.

(6)Package and sterilize reusable instruments that may have come in contact with nonintact skin or mucosal surfaces.

(7)Clean and decontaminate the workstation and procedure area.

(Amended by Stats. 2013, Ch. 555, Sec. 6. (AB 1168) Effective January 1, 2014.)

119309.

(a)The practitioner shall maintain a clean and sanitary environment.

(b)All solid surfaces and objects in the procedure area and the decontamination and sterilization area that have come into contact with the client or the materials used in performing the body art, including, but not limited to, chairs, armrests, tables, countertops, and trays, shall be immediately cleaned and decontaminated after each use by application of a disinfectant, used according to manufacturersdirections.

(c)The surfaces and objects in the procedure area shall be disinfected again before use if the area has been used for any activity following its previous disinfection.

(d)The practitioner shall wear disposable gloves on both hands when touching, decontaminating, or handling a surface, object, instrument, or jewelry that is soiled or that is potentially soiled with human blood.

(e)An instrument or other reusable item that comes into contact with nonintact skin or mucosal surfaces shall either be single use or be cleaned, decontaminated, packaged, and sterilized after each procedure. Sterilization shall be accomplished pursuant to the procedures established in Section 119315 by steam autoclave.

(f)An instrument or reusable item that does not come into contact with nonintact skin or mucosal surfaces shall be washed with a solution of soap and water, using a brush that is small enough to clean the interior surfaces, and decontaminated after each procedure.

(g)A reusable item that cannot be immediately washed, disinfected, and sterilized following completion of the body art procedure shall be placed in a basin of water with or without detergent.

(h)Sterile instrument packs shall be evaluated before use, and if the integrity of a pack is compromised in any way, including, but not limited to, being torn, punctured, wet, or having evidence of potential moisture contamination, the instrument pack shall be discarded or reprocessed before use.

(i)No food, drink, tobacco product, or personal effects are permitted in the procedure area. The practitioner shall not eat, drink, or smoke while performing a procedure. If a client requests to eat, drink, or smoke, the procedure shall be stopped and the procedure site shall be protected from possible contamination while the client leaves the procedure area to eat, drink, or smoke.

(j)Branding shall not be done with another client in the procedure area. During the procedure, the practitioner and the client shall wear appropriate protective face filter masks.

(Amended by Stats. 2013, Ch. 555, Sec. 7. (AB 1168) Effective January 1, 2014.)

119310.

(a)Jewelry placed in newly pierced skin shall be sterilized prior to piercing as specified in Section 119315 or shall be purchased presterilized. Sterile jewelry packs shall be evaluated before use and, if the integrity of a pack is compromised, including, but not limited to, being torn, wet, or punctured, the pack shall be discarded or reprocessed before use.

(b)Only jewelry made of ASTM F138, ISO 5832-1, and AISI 316L or AISI 316LVM implant grade stainless steel, solid 14-karat through 18-karat yellow or white gold, niobium, ASTM F 136 6A4V titanium, platinum, or other materials found to be equally biocompatible shall be placed in newly pierced skin.

(c)Ear piercing equipment with a disposable, single-use, presterilized stud and clasp may be used only for piercing the ear pursuant to Article 7 (commencing with Section 119325).

(d)If measuring the body piercing site is necessary, clean calipers shall be used and the skin marked using clean toothpicks and ink or a single-use marking pen.

(Amended by Stats. 2013, Ch. 555, Sec. 8. (AB 1168) Effective January 1, 2014.)

119311.

(a)A product applied to the skin prior to tattooing or application of permanent cosmetics, including, but not limited to, stencils and marking and transfer agents, including pens, shall be single use and discarded into a waste container at the end of the procedure unless the product can be disinfected for reuse.

(b)Only commercially manufactured inks, dyes, and pigments shall be used.

(c)Inks, pigments, soaps, and other products in multiple-use containers shall be dispensed in a manner to prevent contamination of the storage container and its remaining contents through the use of a single-use receptacle.

(d)Inks and pigments shall be placed into a clean, single-use receptacle. The inks and pigments remaining in the receptacle shall be discarded immediately upon completion of the procedure.

(e)If a tray is used for inks or pigments, it shall be decontaminated after each procedure.

(f)Only single-use needles and needle bars shall be used in tattooing and the application of permanent cosmetics. Needles and needle bars that are purchased in a nonsterilized state, shall be sterilized, pursuant to the process required by Section 119315.

(g)Needles, needle bars, grommets, and razors shall be discarded into a sharps waste container immediately upon completion of the procedure.

(h)Any part of a tattooing machine that may be touched by the practitioner during the procedure shall be covered with a disposable plastic sheath that is discarded upon completion of the procedure, and the machine shall be decontaminated upon completion of the procedure.

(i)A machine used to insert pigments shall be designed with removable tip parts between the tip and motor housing, and in a manner that will prevent backflow into enclosed parts of the motor housing.

(j)A hand tool used to insert pigment shall be disposed of in a sharps container, with the sharps intact, unless the needle can be mechanically ejected from the hand tool.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Body Art [119300 - 119328]__

(Chapter 7 repealed and added by Stats. 2011, Ch. 638, Sec. 2.)

__ARTICLE 4. Permanent Body Art Facilities [119312 - 119315]__

(Article 4 added by Stats. 2011, Ch. 638, Sec. 2.)

119312.

(a)A body art facility shall not conduct business without a valid health permit.

(b)No body art facility shall allow a practitioner who does not possess a valid practitioner registration to perform body art procedures at the facility.

(c)An owner of a body art facility shall notify the local enforcement agency in writing within 30 days of the resignation, termination, or new hire of a body art practitioner at the body art facility.

(d)The application for a health permit for a body art facility shall include all of the following:

(1)A copy of the facilitysinfection prevention control plan, as required by Section 119313.

(2)A fee, as set by the local enforcement agency at an amount not to exceed the amount necessary but that is sufficient to cover the actual costs of administration of the program. Fees established by this section shall be used exclusively in support of activities pursuant to this chapter.

(e)The local enforcement agency shall issue a health permit after an investigation has determined that the proposed body art facility and its method of operation meets the specifications of the approved plans or conforms to the requirements of this article.

(f)A health permit is valid only for the location of the facility and the time period indicated on the permit and may not be transferred to another owner or facility.

(g)The health permit shall be posted in a conspicuous place at the body art facility. Certificates of registration for all practitioners performing body art in that facility shall also be prominently displayed either near the health permit or at the individual practitionersprocedure area if each practitioner has a designated area.

(h)A person proposing to construct a practice site or mobile practice site, other than a temporary body art event booth, shall submit plans to the Plan Review Unit of the local enforcement agency. The plans shall be approved in advance of the issuance of a building, plumbing, or electrical permit. All required corrections must be made and the body art facility approved to open before body art can be performed in the facility.

(i)Health permits shall be renewed annually through a process to be determined by the local enforcement agency.

(j)The county may suspend or revoke the permit of a body art facility if a person who does not possess a valid practitioner registration is allowed to perform body art.

(k)An owner who operates a body art facility shall obtain all necessary permits to conduct business, including, but not limited to, a permit issued by a local enforcement agency. In addition to the penalties available pursuant to Article 6 (commencing with Section 119320), an owner who violates this subdivision shall be subject to the closure of the facility and a penalty not to exceed three times the cost of the permit.

(Amended by Stats. 2013, Ch. 555, Sec. 9. (AB 1168) Effective January 1, 2014.)

119313.

(a)A body art facility shall maintain and follow a written Infection Prevention and Control Plan, provided by the owner or established by the practitioners, specifying the procedures to achieve compliance with each applicable requirement of this chapter.

(b)The Infection Prevention and Control Plan shall include all of the following:

(1)Procedures for cleaning and decontaminating environmental surfaces.

(2)Procedures for cleaning, decontaminating, packaging, sterilizing, and storing reusable instruments.

(3)Procedures for protecting clean instruments and sterile instrument packs from exposure to dust and moisture during storage.

(4)A setup and teardown procedure for any form of body art performed at the body art facility.

(5)Techniques to prevent the contamination of instruments or the procedure site during the performance of body art.

(6)Procedures for safe handling and disposal of sharps waste.

(c)The Infection Prevention and Control Plan shall be revised when changes are made in infection prevention practices, procedures, or tasks.

(d)Onsite training on the facilitysInfection Prevention and Control Plan shall take place when tasks where occupational exposure may occur are initially assigned, any time there are changes in the procedures or tasks, and when new technology is adopted for use in the facility, but not less than once each year.

(e)Records of training required pursuant to this section shall be maintained for three years and shall be available for inspection upon request of the enforcement officer.

(Amended by Stats. 2013, Ch. 555, Sec. 10. (AB 1168) Effective January 1, 2014.)

119314.

(a)With the exception of a temporary demonstration booth, as specified in Sections 119317 and 119318, a body art facility shall comply with all of the following:

(1)Have floors, walls, and ceilings.

(2)Have floors and walls that are smooth, nonabsorbent, free of open holes, and washable.

(3)Be free of insect and rodent infestation.

(4)Be separate from any residential areas used for sleeping, bathing, or meal preparation. A body art facility associated with a residential dwelling shall have a separate entrance and toilet facility, and shall not have a door allowing direct access between the body art facility and the residential dwelling.

(5)Have adequate toilet facilities, in accordance with the specifications of the State Building Standards Code, local building standard codes, and any other local ordinance. The sink shall be supplied with hot and cold running water, containerized liquid soap, and single-use paper towels that are dispensed from a wall-mounted, touchless dispenser.

(b)Procedure areas in a body art facility shall meet all of the following standards:

(1)Be equipped with a light source that provides adequate light at the procedure area.

(2)Be separated, by a wall or ceiling-to-floor partition, from nail and hair activities.

(3)Be separated from all business not related to body art, at the discretion of the local enforcement agency.

(4)Be equipped with a sink supplied with hot and cold running water, containerized liquid soap, and single-use paper towels that are dispensed from a wall-mounted, touchless dispenser that is accessible to the

practitioner.

(5)All sinks shall be permanently plumbed and meet local building and plumbing codes. Facilities that were issued a permit prior to January 1, 2014, shall have until July 1, 2014, to comply with this section.

(6)All counter surfaces and service trays shall have a smooth, durable, and nonabsorbent finish.

(c)Decontamination and sterilization areas within a body art facility shall meet all of the following requirements:

(1)Be separated from procedure areas by a space of at least five feet or by a cleanable barrier.

(2)Be equipped with a sink, hot and cold running water, containerized liquid soap, and single-use paper towels dispensed from a wall-mounted, touchless dispenser that is readily accessible to the practitioner.

(d)Each procedure area shall have lined waste containers.

(e)Each procedure area shall have a sharps waste container that meets the following requirements:

(1)The sharps waste container shall be portable, if portability is necessary to ensure that the sharps waste container is within armsreach of the practitioner.

(2)The sharps waste container shall be labeled with the words sharps waste or with the international biohazard symbol and the word BIOHAZARD.

(3)All sharps waste produced during the process of tattooing, body piercing, or the application of permanent cosmetics shall be disposed by either of the following methods:

(A)Removal and disposal by a licensed waste hauler. Materials shall be disposed of at a licensed treatment facility or removed and transported through a mail-back system authorized by the State Department of Public Health.

(B)As solid waste, after being disinfected by a method approved by the department pursuant to paragraph (3) of subdivision (a) of Section 118215.

(4)Documentation of proper disposal of sharps waste shall be maintained for three years and shall be available for inspection at the request of the enforcement officer.

(f)No animals shall be allowed in the procedure area or the decontamination and sterilization area except service animals, as defined by the federal Americans with Disabilities Act.

(Amended by Stats. 2013, Ch. 555, Sec. 11. (AB 1168) Effective January 1, 2014.)

119315.

A body art facility shall conform to the following sterilization procedures:

(a)Clean instruments to be sterilized shall first be sealed in sterilization packaging that contain either a sterilizer indicator or process indicator, unless instruments are being processed for immediate use. The

outside of the pack shall be labeled with the name of the instrument if not immediately identifiable, the date sterilized, and the initials of the person operating the sterilizing equipment unless instruments are being sterilized for immediate use.

(b)Sterilizers shall be loaded, operated, decontaminated, and maintained according to manufacturersdirections, and shall meet all of the following standards:

(1)Only equipment manufactured for the sterilization of medical instruments shall be used.

(2)Sterilization equipment shall be tested using a commercial biological indicator monitoring system after the initial installation, after any major repair, and at least once per month. The expiration date of the monitor shall be checked prior to each use.

(3)Each sterilization load shall be monitored with mechanical indicators for time, temperature, and pressure. Each sterilization load shall include, at a minimum, a Class V integrator.

(4)Biological indicator monitoring test results shall be recorded in a log that shall be kept on site for three years after the date of the results.

(5)A written log of each sterilization cycle shall be maintained for three years, shall be available for inspection by the enforcement officer, and shall include all of the following information:

(A)The date of the load.

(B)A list of the contents of the load.

(C)The exposure time and temperature.

(D)The results of the Class V integrator.

(E)For cycles where the results of the biological indicator monitoring test are positive, how the items were cleaned, and proof of a negative test before reuse.

(c)Clean instruments and sterilized instrument packs shall be placed in clean, dry, labeled containers, or stored in a labeled cabinet that is protected from dust and moisture.

(d)Sterilized instruments shall be stored in the intact sterilization packaging or in the sterilization equipment cartridge until time of use.

(e)Sterile instrument packs shall be evaluated at the time of storage and before use. If the integrity of a pack is compromised, including, but not limited to, cases where the pack is torn, punctured, wet, or displaying any evidence of moisture contamination, the pack shall be discarded or reprocessed before use.

(f)A body art facility that does not afford access to a decontamination and sterilization area that meets the standards of subdivision (c) of Section 119314 or that does not have sterilization equipment shall use only purchased disposable, single-use, presterilized instruments. In place of the requirements for maintaining sterilization records, the following records shall be kept and maintained for a minimum of 90 days following the use of the instruments at the site of practice for the purpose of verifying the use of disposable, single-use, presterilized instruments:

(1)A record of purchase and use of all single-use instruments.

(2)A log of all procedures, including the names of the practitioner and client and the date of the procedure.

(3)Written proof on company or laboratory letterhead showing that the presterilized instruments have undergone a sterilization process. Written proof shall clearly identify the instruments sterilized by name or item number and shall identify the lot or batch number of the sterilizer run.

(Amended by Stats. 2013, Ch. 555, Sec. 12. (AB 1168) Effective January 1, 2014.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Body Art [119300 - 119328]__

(Chapter 7 repealed and added by Stats. 2011, Ch. 638, Sec. 2.)

__ARTICLE 4.5. Mobile Body Art Facilities [119316 - 119316.5]__

(Article 4.5 added by Stats. 2013, Ch. 555, Sec. 14.)

119316.

(a)A mobile body art facility shall meet all the applicable requirements in Article 1 (commencing with Section 119300) to Article 4 (commencing with Section 119312), inclusive, and Article 6 (commencing with Section 119319), unless specifically exempted by this article.

(b)A mobile body art facility that is either a special purpose commercial modular and coach, as defined by Section 18012.5, or a commercial modular coach, as defined by Section 18001.8, shall be certified by the Department of Housing and Community Development, consistent with Chapter 4 (commencing with Section 18025) of Part 2 of Division 13, and regulations promulgated pursuant to that chapter.

(c)The Department of Motor Vehicles occupational licensing requirements, Division 5 (commencing with Section 11100) of the Vehicle Code, also apply to these mobile body art facilities.

(d)The local enforcement agency shall approve all equipment installation prior to operation.

(Amended by Stats. 2015, Ch. 303, Sec. 346. (AB 731) Effective January 1, 2016.)

119316.1.

A mobile body art facility shall have all of the following:

(a)A fixed hand wash sink in the procedure area for the exclusive use of the practitioner that meets all of the following requirements:

(1)Availability of containerized liquid soap and single-use paper towels that are dispensed from a wall-mounted, touchless dispenser.

(2)A pressurized supply of at least five gallons of potable water.

(3)Warm water.

(4)The sink measures at least nine inches wide, nine inches long, and five inches deep.

(b)All counter surfaces and service trays shall have a smooth, durable, and nonabsorbent finish.

(c)A waste water tank that shall be sized to be a minimum of 1.5 times the size of the potable water tank.

(Added by Stats. 2013, Ch. 555, Sec. 14. (AB 1168) Effective January 1, 2014.)

119316.2.

(a)All body art procedures shall be completed inside the mobile body art facility.

(b)The mobile body art facilitysdoors and windows shall remain closed during procedures.

(c)Notwithstanding subdivision (b), a mobile body art facility may keep doors or windows open during a procedure only if the openings are covered by a screen constructed to cover the entirety of the opening that is the equivalent of a 16 mesh per square inch screen or better.

(Added by Stats. 2013, Ch. 555, Sec. 14. (AB 1168) Effective January 1, 2014.)

119316.3.

A mobile body art facility shall use only purchased disposable, single-use, presterilized instruments.

(Added by Stats. 2013, Ch. 555, Sec. 14. (AB 1168) Effective January 1, 2014.)

119316.4.

A mobile body art facility shall only be operated within 200 feet of an accessible restroom.

(Added by Stats. 2013, Ch. 555, Sec. 14. (AB 1168) Effective January 1, 2014.)

119316.5.

A mobile body art facility shall be used exclusively for performing body art and shall not be used as a living space or residence.

(Added by Stats. 2013, Ch. 555, Sec. 14. (AB 1168) Effective January 1, 2014.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Body Art [119300 - 119328]__

(Chapter 7 repealed and added by Stats. 2011, Ch. 638, Sec. 2.)

__ARTICLE 5. Temporary Body Art Facilities [119317 - 119318]__

(Article 5 added by Stats. 2011, Ch. 638, Sec. 2.)

119317.

A practitioner may, in the local jurisdiction of registration, practice in a temporary demonstration booth for no more than seven days in a 90-day period. The demonstration booth shall meet all of the following requirements:

(a)Be located within a building that has hand washing facilities with hot and cold running water, soap, and single-use paper towels to which practitioners have direct access.

(b)Constructed with a partition of at least three feet in height separating the procedure area from the public.

(c)Have floor space of at least 50 square feet for each practitioner.

(d)Be free of insect or rodent infestation.

(e)Used exclusively for performing body art.

(f)Equipped with adequate light available at the level where the practitioner is performing body art.

(g)(1)For temporary body art events consisting of one demonstration booth, the booth shall be equipped with hand washing equipment that, at a minimum, consists of containerized liquid soap, single-use paper towels, a five-gallon or larger container of potable water accessible via spigot, and a wastewater collection and holding tank of corresponding size. Potable water shall be refilled and the holding tank evacuated frequently to provide uninterrupted use, or as determined by the local enforcement agency.

(2)For temporary body art events consisting of two or more demonstration booths, practitioner hand wash areas shall be provided throughout the event. The hand wash areas shall be located within a booth with partitions at least three feet in height separating the hand wash area from the public. The area shall be equipped with a commercial, self-contained hand wash station that consists of containerized liquid soap, single-use paper towels, a storage capacity of five gallons or more of potable water, and a trash receptacle. The sponsor shall provide one hand wash area for every two demonstration booths at the event.

(h)Have smooth, cleanable flooring.

(i)No food, drink, or tobacco products are permitted in the demonstration booth.

(j)Not allow animals within the confines of the demonstration booth.

(k)Be operating with all necessary permits to conduct business. In addition to the penalties available pursuant to Article 6 (commencing with Section 119320), a sponsor or practitioner who violates this subdivision shall

be subject to closure of the temporary body art event or a penalty not to exceed three times the cost of the permit or both closure and the penalty.

(Amended by Stats. 2013, Ch. 555, Sec. 15. (AB 1168) Effective January 1, 2014.)

119317.5.

A local enforcement agency may establish a fee not to exceed the amount necessary, but that is sufficient to cover, the actual costs of the administration of Section 119317.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

119318.

(a)The sponsor of a temporary body art event shall obtain all necessary permits to conduct business in the jurisdiction where the event will be held. The sponsor shall submit a complete temporary facility permit application to the local enforcement agency a minimum of 30 days prior to the date of the scheduled event. A local enforcement agency may establish a fee not to exceed the amount necessary, but that is sufficient to cover, the actual costs of the administration of this section. In addition to the penalties available pursuant to Article 6 (commencing with Section 119320), a sponsor who violates this subdivision shall be subject to closure of the temporary body art event and a penalty not to exceed three times the cost of the permit.

(b)The sponsor shall not allow a person to perform body art procedures at the event unless the person has a valid body art practitioner registration.

(c)The sponsor of a temporary body art event shall be responsible for ensuring the availability of support facilities and supplies for practitioners and vendors, including, but not limited to:

(1)A demonstration booth that meets the requirements of subdivisions (a) to (k), inclusive, of Section 119317.

(2)Restrooms that have flush toilets supplied with toilet paper, and hand wash sinks supplied with hot and cold potable running water, soap, and single-use paper towels to which practitioners have direct access.

(3)Sharps waste containers for each demonstration booth.

(4)The use of a licensed medical waste disposal company for removal of all sharps waste containers used during the body art event.

(5)Frequent trash pickup from demonstration booths.

(6)Wastewater removal and potable water recharge for hand wash areas at a frequency that will provide uninterrupted use, or as determined by the local enforcement agency.

(7)When applicable, decontamination and sterilization area that is separated from a procedure area by at least five feet or by a cleanable barrier.

(8)Adequate backup supplies that have been stored in compliance with subdivision (d) of Section 119315 and that can be purchased by practitioners, including, but not limited to:

(A)Presterilized tattoo needles.

(B)Presterilized needle tubes.

(C)Presterilized piercing instruments, including, but not limited to, needles, receiving tubes, corks, marking tools, and forceps.

(D)Plastic bags, barrier film, clip cord covers, and plastic wrap.

(E)Ink cups.

(F)Nitrile and latex gloves.

(G)Single-use tubes of water-based and petroleum-based lubricants.

(H)Absorbent dressing materials.

(I)All forms and documents required to perform body art, including, but not limited to, client consent forms, medical history forms, aftercare instructions, and single-use instrument logs.

(d)The name, telephone number, and directions to an emergency room near the temporary body art event shall be posted in a conspicuous location.

(e)Each practitioner working in a booth at a temporary body art event shall display his or her certificate of registration, or keep the certificate in a folder that is available for inspection upon request of the enforcement officer or a client.

(Amended by Stats. 2013, Ch. 555, Sec. 16. (AB 1168) Effective January 1, 2014.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Body Art [119300 - 119328]__

(Chapter 7 repealed and added by Stats. 2011, Ch. 638, Sec. 2.)

__ARTICLE 6. Enforcement [119319 - 119324.5]__

(Article 6 added by Stats. 2011, Ch. 638, Sec. 2.)

119319.

(a)An enforcement officer may enter a body art facility during the facilityshours of operation and other reasonable times to do any of the following:

(1)Conduct inspections, issue citations, and secure samples, photographs, or other evidence from a body art facility, or any facility suspected of being a body art facility.

(2)Check the Infection Prevention and Control Plan, required pursuant to Section 119313, to determine if persons working in the facility are following the plan, and to determine if the plan is in compliance with this chapter.

(3)Secure as evidence documents, or copies of documents, including the Infection Prevention and Control Plan, or any record, file, paper, process, invoice, or receipt for the purpose of determining compliance with this chapter.

(b)A written report shall be made and a copy shall be supplied or mailed to the owner or practitioner at the completion of an inspection or investigation.

(c)Based upon inspection findings or other evidence, an enforcement officer may impound instruments that are found to be unsafe to use, used in an unapproved manner, or used in an unapproved location. Within 30 days, the local enforcement agency that has impounded the equipment shall commence proceedings to release the instrument or to seek administrative or legal remedy for its disposal.

(d)It is a violation of this chapter for the owner or a person working in a body art facility to do any of the following:

(1)Conceal records or evidence, or to withhold evidence.

(2)Interfere with the performance of the duties of an enforcement officer.

(3)Make a false statement, representation, certification, record, report, or otherwise falsify information required to be submitted or maintained pursuant to this chapter.

(Amended by Stats. 2013, Ch. 555, Sec. 17. (AB 1168) Effective January 1, 2014.)

119320.

(a)A certificate of registration or a health permit may be suspended by a local enforcement agency for a violation of this chapter.

(b)A body art facility or practitioner whose certificate of registration or health permit has been suspended shall cease doing business until the certificate or permit has been reinstated. Suspension of the registration of one practitioner in a body art facility does not affect the status of other practitioners in the facility unless the violation or violations are for conditions or equipment that affects the ability of all the practitioners in the facility to comply with the provisions of this chapter.

(c)A body art facility for which the health permit has been revoked shall close and remain closed until a new health permit has been issued.

(d)Whenever an enforcement officer finds that a practitioner or body art facility is not in compliance with the requirements of this chapter, the enforcement officer shall issue a notice to comply or a notice of violation to the registrant or permitholder setting forth the acts or omissions with which the registrant or permitholder is charged, and informing him or her of a right to a hearing, if requested, to show cause why the registration or permit should not be suspended or revoked.

(e)(1)A written request for a hearing shall be made by the registrant or permitholder within 15 calendar days after receipt of the notice.

(2)The hearing shall be held within 15 calendar days of the receipt of a request for a hearing. Upon written request of the registrant or permitholder, the hearing officer may postpone a hearing date, if circumstances warrant the action.

(f)A failure to request a hearing within 15 calendar days after receipt of the notice shall be deemed a waiver of the right to a hearing.

(g)The hearing officer shall issue a written notice of decision to the registrant or permitholder within five working days following the hearing. In the event of a suspension or revocation, the notice shall specify the acts or omissions with which the registrant or permitholder is charged, and shall state the terms of the suspension or that the registration or health permit has been revoked.

(h)A certificate of registration or health permit may be reinstated or a new certificate of registration or health permit issued if the local enforcement agency determines that the conditions that prompted the suspension or revocation no longer exist.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

119321.

If an imminent health hazard is found, the enforcement officer may suspend a registration temporarily and order the practitioner to cease operation if the hazard is not corrected. If the hazard affects the entire body art facility, then the entire facility may be closed immediately. Whenever a registration or health permit is suspended as the result of an imminent health hazard, the enforcement officer shall issue to the registrant or permitholder a notice setting forth the acts or omissions being charged, specifying the pertinent code section, and informing the registrant or permitholder of the right to a hearing.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

119322.

The local enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a certificate of registration or a health permit for serious or repeated violations of any requirement of this chapter or for interference in the performance of the duty of the enforcement officer.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

119323.

Performing body art without being registered, performing body art at an unpermitted location, operating a body art facility without a health permit, or operating a temporary body art event without a permit shall be a misdemeanor. The local enforcement agency may also assess an administrative penalty in an amount not less than twenty-five dollars ($25) and not more than one thousand dollars ($1,000) for violation of any provision of this chapter. All fines are to be retained by the local enforcement agency for enforcement of the provisions of this chapter.

(Amended by Stats. 2013, Ch. 555, Sec. 18. (AB 1168) Effective January 1, 2014.)

119324.

A city, county, or city and county may adopt regulations or ordinances that do not conflict with, or are more stringent than, the provisions of this chapter as they relate to body art.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

119324.5.

The local fees imposed pursuant to this chapter shall not exceed the reasonable costs to a local government for issuing licenses and permits, performing investigations, inspections, and audits, enforcing orders, and the administrative enforcement and adjudication thereof.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Body Art [119300 - 119328]__

(Chapter 7 repealed and added by Stats. 2011, Ch. 638, Sec. 2.)

__ARTICLE 7. Mechanical Stud and Clasp Ear Piercing [119325 - 119328]__

(Article 7 added by Stats. 2011, Ch. 638, Sec. 2.)

119325.

(a)The piercing of the ear with a mechanical stud and clasp device does not constitute body art or body piercing as defined in this chapter. It is the intent of the Legislature, in enacting this article, to provide uniform and statewide requirements for the performance of ear piercing with a mechanical stud and clasp device. The piercing of an ear with a mechanical stud and clasp device shall only be subject to the requirements in this article.

(b)The area within a facility where mechanical stud and clasp ear piercing is conducted shall be safe and sanitary and shall not constitute a threat to the public health and safety, as reasonably determined by the

local enforcement agency.

(c)The mechanical stud and clasp device that is used to pierce an ear pursuant to this article shall be single-use, presterilized, stud and clasp only.

(d)The single-use mechanical stud and clasp device used to pierce an ear pursuant to this article shall meet the jewelry requirements in subdivision (e).

(e)Only jewelry made of ASTM F138, ISO 5832-1, and AISI 316L or AISI 316LVM implant grade stainless steel, solid 14-karat through 18-karat yellow or white gold, niobium, ASTM F136 6A4V titanium, platinum, or other materials found to be equally biocompatible shall be placed in newly pierced skin.

(Amended by Stats. 2013, Ch. 555, Sec. 19. (AB 1168) Effective January 1, 2014.)

119326.

(a)The local enforcement agency may require a facility that provides mechanical stud and clasp ear piercing services to submit a notification form, which shall be provided by the local enforcement agency in the jurisdiction in which the facility is located. If the local enforcement agency requires this notification form, the form shall include all of the following information:

(1)The address of all facilities within the jurisdiction where mechanical stud and clasp ear piercing will be performed.

(2)A statement that the mechanical stud and clasp ear piercing will be conducted in compliance with the requirements of this article.

(3)The contact information for the person responsible for compliance with this article and who the local enforcement agency should contact regarding complaints from the public regarding mechanical stud and clasp ear piercing at a facility listed in paragraph (1).

(b)Information for more than one location within a single jurisdiction with the same owner or operator may be included on a single notification form. If the local enforcement agency requires notification, it shall provide a notification form that allows the owner or operator of more than one facility in the jurisdiction to provide the required notification for all of its facilities in a single form designed for that purpose.

(c)No person shall be required to provide notification until and unless the local enforcement agency makes a form for this purpose available. Facilities performing mechanical stud and clasp ear piercing on the date the local enforcement agency makes the form available shall have five months from that date in which to complete and submit the form. Facilities that begin performing mechanical stud and clasp ear piercing after the form is made available shall be required to submit the form prior to offering services.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

119327.

(a)A person piercing an ear with a mechanical stud and clasp piercing device shall meet the following requirements before providing mechanical stud and clasp ear piercing services:

(1)Is at least 18 years of age.

(2)Received one hour of training that covers all of the following topics:

(A)Proper use of the mechanical stud and clasp ear piercing device.

(B)Types of bloodborne pathogens and the prevention of the transmission of bloodborne communicable diseases.

(C)Proper hand hygiene.

(D)The safe and sanitary use of single-use equipment, including, but not limited to, gloves, towels, and disinfectant wipes.

(3)If the person will also be piercing the cartilage of the upper ear, that person shall also receive training on proper techniques for this type of piercing.

(b)The training requirements of subdivision (a) shall not apply to an individual who was employed to perform mechanical stud and clasp ear piercing prior to the effective date of this article.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

119328.

(a)A local enforcement agency may charge a one-time facility notification fee in an amount between twenty-five dollars ($25) and forty-five dollars ($45) for each facility operating pursuant to this article. The fee charged shall not exceed the amount reasonably necessary to cover the actual costs of administering and enforcing the provisions of this article.

(b)After December 31, 2015, a county may charge a different fee, set by local ordinance, provided that the increased fee is necessary to cover the actual costs of administering and enforcing the provisions of this article.

(c)The local enforcement agency may not charge a different fee for facilities based on what part of the ear is being pierced.

(Added by Stats. 2011, Ch. 638, Sec. 2. (AB 300) Effective January 1, 2012. Operative July 1, 2012, by Sec. 3 of Ch. 638.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 15. MISCELLANEOUS REQUIREMENTS [118375 - 119406]__

(Part 15 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Drug Marketing Practices [119400 - 119402]__

(Chapter 8 added by Stats. 2004, Ch. 927, Sec. 2.)

119400.

The following definitions shall apply for purposes of this chapter:

(a)Dangerous drug means any drug that is unsafe for self-use and includes either of the following:

(1)Any drug that bears the legend Caution: federal law prohibits dispensing without prescription, Rx only, or words of similar import.

(2)Any drug or device that, pursuant to federal or state law, may be dispensed only by prescription, or that is furnished pursuant to Section 4006 of the Business and Professions Code. Dangerous drug does not include labeled veterinary drugs.

(b)Medical or health professional means any of the following:

(1)A person licensed by state law to prescribe drugs for human patients.

(2)A medical student.

(3)A member of a drug formulary committee.

(c)Pharmaceutical company means an entity that is engaged in the production, preparation, propagation, compounding, conversion, or processing of dangerous drugs, either directly or indirectly, by extraction from substances of natural origin or independently by means of chemical synthesis or by a combination of extraction and chemical synthesis. Pharmaceutical company also means an entity engaged in the packaging, repackaging, labeling, relabeling, or distribution of dangerous drugs. Pharmaceutical company

also includes a person who engages in pharmaceutical detailing, promotional activities, or other marketing of a dangerous drug in this state on behalf of a pharmaceutical company. Pharmaceutical company does not include a licensed pharmacist.

(Added by Stats. 2004, Ch. 927, Sec. 2. Effective January 1, 2005.)

119402.

(a)Every pharmaceutical company shall adopt a Comprehensive Compliance Program that is in accordance with the April 2003 publication Compliance Program Guidance for Pharmaceutical Manufacturers, which was developed by the United States Department of Health and Human Services Office of Inspector General (OIG). A pharmaceutical company shall make conforming changes to its Comprehensive Compliance Program within six months of any update or revision to the Compliance Program Guidance for Pharmaceutical Manufacturers.

(b)Every pharmaceutical company shall include in its Comprehensive Compliance Program policies for compliance with the Pharmaceutical Research and Manufacturers of America (PhRMA) Code on Interactions with Health Care Professionals, dated July 1, 2002. The pharmaceutical company shall make conforming changes to its Comprehensive Compliance Program within six months of any update or revision of the Code on Interactions with Health Care Professionals.

(c)Each pharmaceutical company shall include in its Comprehensive Compliance Program limits on gifts or incentives provided to medical or health professionals, in accordance with this chapter.

(d)(1)Each pharmaceutical company shall establish explicitly in its Comprehensive Compliance Program a specific annual dollar limit on gifts, promotional materials, or items or activities that the pharmaceutical company may give or otherwise provide to an individual medical or health care professional in accordance with the Compliance Program Guidance for Pharmaceutical Manufacturers and with the Code on Interactions with Health Care Professionals.

(2)Notwithstanding paragraph (1), drug samples given to physicians and healthcare professionals intended for free distribution to patients, financial support for continuing medical education forums, and financial support for health educational scholarships are exempt from any limits if that support is provided in a manner that conforms to the Compliance Program Guidance for Pharmaceutical Manufacturers and the Code on Interactions with Health Care Professionals.

(3)Payments made for legitimate professional services provided by a health care or medical professional, including, but not limited to, consulting, are exempt from any limits, provided that the payment does not exceed the fair market value of the services rendered, and those payments are provided in a manner that conforms to the Compliance Program Guidance for Pharmaceutical Manufacturers and with the Code on Interactions with Health Care Professionals.

(e)The pharmaceutical company shall annually declare, in writing, that it is in compliance with both its Comprehensive Compliance Program and this chapter. The pharmaceutical company shall make its Comprehensive Compliance Program and its annual written declaration of compliance with the program available to the public on the pharmaceutical companysWeb site and shall also provide a toll-free telephone number where a copy or copies of the Comprehensive Compliance Program and written declaration of compliance may be obtained.

(f)This section shall become operative on July 1, 2005.

(Added by Stats. 2004, Ch. 927, Sec. 2. Effective January 1, 2005. Section operative July 1, 2005, by its own provisions.)

119406.

(a)Commencing October 1, 2016, all cartridges for electronic cigarettes and solutions for filling or refilling an electronic cigarette shall be in child-resistant packaging.

(b)Child-resistant packaging means packaging that meets the specifications in Section 1700.15(b) of, and is tested by the method described in Section 1700.20 of, Title 16 of the Code of Federal Regulations.

(Added by Stats. 2016, 2nd Ex. Sess., Ch. 7, Sec. 22. (SB 5 2x) Effective June 9, 2016.)

120100.

Health officer,□ as used in the Communicable Disease Prevention and Control Act (Section 27) includes county, city, and district health officers, and city and district health boards, but does not include advisory health boards.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120105.

Whenever in the Communicable Disease Prevention and Control Act (Section 27), service or notice of any order or demand is provided for, it shall be sufficient to do so by registered or certified mail if a receipt therefor signed by the person to be served or notified is obtained. The receipt shall be prima facie evidence of the service or notice in any civil or criminal action.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120110.

As used in the Communicable Disease Prevention and Control Act (Section 27) a person has active tuberculosis disease when either one of the following occur:

(a) A smear or culture taken from any source in the personsbody has tested positive for tuberculosis and the person has not completed the appropriate prescribed course of medication for active tuberculosis disease.

(b) There is radiographic, current clinical, or laboratory evidence sufficient to support a medical diagnosis of tuberculosis for which treatment is indicated.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120115.

As used in the Communicable Disease Prevention and Control Act (Section 27) the following terms have the following meanings, unless the context indicates otherwise:

(a) Infectious tuberculosis disease means active or suspected active tuberculosis disease in an infectious state.

(b) Tuberculosis infection means the latent phase of tuberculosis, during which the infected person cannot spread tuberculosis to others.

(c) Heightened risk of tuberculosis exposure means likely exposure to persons with infectious tuberculosis disease.

(d) The appropriate prescribed course of medication for tuberculosis disease means that course recommended by the health officer, the most recent guidelines of the department, the most recent guidelines of the Centers for Disease Control and Prevention, or the most recent guidelines of the American Thoracic Society.

(e) Directly observed therapy means the appropriately prescribed course of treatment for tuberculosis disease in which the prescribed antituberculosis medications are administered to the person or taken by the person under direct observation of a health care provider or a designee of the health care provider approved by the local health officer.

(f) An examination for tuberculosis infection or disease means conducting tests, including, but not limited to, Mantoux tuberculin skin tests, laboratory examination, and X-rays, as recommended by any of the following:

(1) The local health officer.

(2) The most recent guidelines of the state department.

(3) The most recent guidelines of the Centers for Disease Control and Prevention.

(4) The most recent guidelines of the American Thoracic Society.

(g) State correctional institution means a prison, institution, or other facility under the jurisdiction of the

Department of Corrections or the Department of the Youth Authority.

(h) Local detention facility is defined in Section 6031.4 of the Penal Code.

(i) Penal institution means either a state correctional institution or a local detention facility.

(j) Health facility means a licensed health facility as defined in Sections 1250, 1250.2, and 1250.3.

(k) Health officer or local health officer includes his or her designee.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 1. ADMINISTRATION OF COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 120305]__

(Part 1 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1.5. COVID-19-Related Public Health Orders or Mandatory Guidance [120120 - 120123]__

(Chapter 1.5 added by Stats. 2021, Ch. 487, Sec. 1.)

120120.

As used in this chapter, COVID-19 means the 2019 novel coronavirus disease.

(Added by Stats. 2021, Ch. 487, Sec. 1. (SB 336) Effective October 4, 2021. Conditionally inoperative as prescribed by Section 120123. Repealed on January 1 following inoperative date pursuant to Section 120123.)

120121.

Notwithstanding any other law, including Sections 120130, 120140, and 120145, when the department issues a statewide order or mandatory guidance related to preventing the spread of COVID-19 or protecting public health against a threat of COVID-19, the department shall do both of the following:

(a)Publish, on its internet website, the order or mandatory guidance and the date that the order or mandatory guidance takes effect.

(b)Create an opportunity for local communities, businesses, nonprofit organizations, individuals, and others to sign up for an email distribution list relative to changes to the departmentsorder or mandatory guidance.

(Added by Stats. 2021, Ch. 487, Sec. 1. (SB 336) Effective October 4, 2021. Conditionally inoperative as prescribed by Section 120123. Repealed on January 1 following inoperative date pursuant to Section 120123.)

120122.

Notwithstanding any other law, including Section 120175, when a local health officer issues a jurisdictionwide local order, not in conflict with state law or with orders or mandatory guidance issued pursuant to Section 120121, related to preventing the spread of COVID-19 or protecting public health against a threat of COVID-19, the local health officer shall do both of the following:

(a)Publish, on their internet website, the order and the date that the order takes effect.

(b)Create an opportunity for local communities, businesses, nonprofit organizations, individuals, and others to sign up for an email distribution list relative to changes to the local health officersorder.

(Added by Stats. 2021, Ch. 487, Sec. 1. (SB 336) Effective October 4, 2021. Conditionally inoperative as prescribed by Section 120123. Repealed on January 1 following inoperative date pursuant to Section 120123.)

120123.

This chapter shall remain operative while an order or mandatory guidance issued by the department or a local health officer as described in this chapter is in effect, and this chapter shall be repealed as of January 1 following the date that no order or mandatory guidance described in this chapter is in effect.

(Added by Stats. 2021, Ch. 487, Sec. 1. (SB 336) Effective October 4, 2021. Repealed on January 1 following inoperative date as prescribed by its own provisions. Note: Repeal affects Chapter 1.5, commencing with Section 120120.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 1. ADMINISTRATION OF COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 120305]__

(Part 1 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 2. Functions and Duties of the State Department of Health Services [120125 - 120163]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 7.)

120125.

The department shall examine into the causes of communicable disease in man and domestic animals occurring or likely to occur in this state.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120130.

(a)The department shall establish a list of reportable diseases and conditions. For each reportable disease and condition, the department shall specify the timeliness requirements related to the reporting of each disease and condition, and the mechanisms required for, and the content to be included in, reports made pursuant to this section. The list of reportable diseases and conditions may include both communicable and noncommunicable diseases. The list may include those diseases that are either known to be, or suspected of being, transmitted by milk or milk-based products. The list may be modified at any time by the department, after consultation with the California Conference of Local Health Officers. Modification of the list shall be exempt from the administrative regulation and rulemaking requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, and shall be implemented without being adopted as a regulation, except that the revised list shall be filed with the Secretary of State and

printed in the California Code of Regulations as required pursuant to subdivision (e). Those diseases listed as reportable shall be properly reported as required to the department by the health officer.

(b)The department shall establish a list of communicable diseases and conditions for which clinical laboratories shall submit a culture or a specimen to the local public health laboratory. The list shall set forth the conditions under which the culture and specimen shall also be submitted to the State Public Health Laboratory. The list may be modified at any time by the department, in consultation with appropriate local public health stakeholders, including, but not limited to, local health officers and public health laboratory directors. Both establishment and modification of the list shall be exempt from the administrative regulation and rulemaking requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, and shall be implemented without being adopted as a regulation, except that the initial list and any modifications shall be filed with the Secretary of State and printed in the California Code of Regulations as required pursuant to subdivision (e).

(c)The department may from time to time adopt and enforce regulations requiring strict or modified isolation, or quarantine, for any of the contagious, infectious, or communicable diseases, if in the opinion of the department the action is necessary for the protection of the public health.

(d)The health officer may require strict or modified isolation, or quarantine, for any case of contagious, infectious, or communicable disease, when this action is necessary for the protection of the public health.

(e)The lists established pursuant to subdivisions (a) and (b) and any subsequent modifications shall be published in Title 17 of the California Code of Regulations.

(f)Notwithstanding any other provision of law, no civil or criminal penalty, fine, sanction, or finding, or denial, suspension, or revocation of licensure for any person or facility may be imposed based upon a failure to provide the notification of a reportable disease or condition or to provide the submission of a culture or specimen that is required under this section, unless the name of the disease or condition that is required to be reported, or for which a culture or specimen is required to be submitted, was printed in the California Code of Regulations and the department notified the person or facility of the disease or condition at least six months prior to the date of the claimed failure to report or submit.

(g)Commencing July 1, 2009, or within one year of the establishment of a state electronic laboratory reporting system, whichever is later, a report generated pursuant to this section, or Section 121022, by a laboratory shall be submitted electronically in a manner specified by the department. The department shall allow laboratories that receive incomplete patient information to report the name of the provider who submitted the request to the local health officer.

(h)The department may, through its Internet Web site and via electronic mail, advise out-of-state laboratories that are known to the department to test specimens from California residents of the new reporting requirements.

(Amended by Stats. 2011, Ch. 540, Sec. 2. (AB 186) Effective January 1, 2012.)

120135.

The department may establish and maintain places of quarantine or isolation.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120140.

Upon being informed by a health officer of any contagious, infectious, or communicable disease the department may take measures as are necessary to ascertain the nature of the disease and prevent its spread. To that end, the department may, if it considers it proper, take possession or control of the body of any living person, or the corpse of any deceased person.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120142.

(a) The state director may order examinations for tuberculosis infection in the following persons for the purpose of directing preventive measures:

(1) Persons in close contact with persons with infectious tuberculosis disease.

(2) Other persons for whom the state director has reasonable grounds to determine are at heightened risk of tuberculosis exposure.

(b) An order for examination for tuberculosis infection shall be in writing and shall include other terms and conditions as may be necessary to protect the public health.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120145.

The department may quarantine, isolate, inspect, and disinfect persons, animals, houses, rooms, other property, places, cities, or localities, whenever in its judgment the action is necessary to protect or preserve the public health.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120150.

The department may destroy such objects as bedding, carpets, household goods, furnishings, materials, clothing, or animals, when ordinary means of disinfection are considered unsafe, and when the property is in its judgment, an imminent menace to the public health.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120155.

Pursuant to Section 11158 of the Government Code, the sheriff of each county, or city and county, may enforce within the county, or the city and county, all orders of the State Department of Public Health issued for the purpose of preventing the spread of any contagious, infectious, or communicable disease. Every peace officer of every political subdivision of the county, or city and county, may enforce within the area subject to his or her jurisdiction all orders of the State Department of Public Health issued for the purpose of preventing the spread of any contagious, infectious, or communicable disease. This section is not a limitation on the authority of peace officers or public officers to enforce orders of the State Department of Public Health. When deciding whether to request this assistance in enforcement of its orders, the State Department of Public Health may consider whether it would be necessary to advise the enforcement agency of any measures that should be taken to prevent infection of the enforcement officers.

(Added by renumbering Section 100106 by Stats. 2006, Ch. 241, Sec. 15. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

120160.

(a)Any manufacturer or distributor of the influenza vaccine, or nonprofit health care service plan that exclusively contracts with a single medical group in a specified geographic area to provide, or to arrange for the provision of, medical services to its enrollees, shall report the information described in subdivision (c) relating to the supply of the influenza vaccine to the department upon notice from the department.

(b)Within each county or city health jurisdiction, entities that have possession of, or have a legal right to obtain possession of, the influenza vaccine, or entities that are conducting or intend to conduct influenza clinics for the public, their residents, or their employees, except those entities described in subdivision (a), shall cooperate with the local health officer in determining local inventories of influenza vaccine, including providing inventory, orders, and distribution lists in a timely manner, when necessary.

(c)The information reported pursuant to subdivision (a) shall include, but is not limited to, the amount of the influenza vaccine that has been shipped, and the name, address, and, if applicable, the telephone number of the recipient.

(d)Subdivisions (a), (b), and (c) do not apply to a physician and surgeon practice, unless the practice is an occupational health provider who conducts influenza vaccination campaigns on behalf of a corporation.

(e)It is the intent of the Legislature in enacting this section to assist small physician and surgeon practices, nursing facilities, and other health care providers that provide care for patients at risk of illness or death from influenza by facilitating the sharing of vaccine supplies, if necessary, between providers within a local jurisdiction.

(f)If a business believes that the information required by this section involves the release of a trade secret, the business shall nevertheless disclose the information to the department, and shall notify the department in writing of that belief at the time of disclosure. As used in this section, trade secret has the meanings given to it by Section 7924.510 of the Government Code and Section 1061 of the Evidence Code. Any information, including identifying information, including, but not limited to, the name of the agent or contact person of an entity that receives the influenza vaccine from a manufacturer or distributor, or nonprofit health care service plan described in subdivision (a), and the receiving entitysaddress and telephone number, that is reported pursuant to this section shall not be disclosed by the department to anyone, except to an officer or

employee of the county, city, city and county, or the state in connection with the official duties of that officer or employee to protect the public health.

(Amended by Stats. 2021, Ch. 615, Sec. 282. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

120161.

If the department receives a report of a case of coccidioidomycosis after the departmentsreporting deadline for a specified year, the department shall include the case in its data collection for the next year and attribute it to the year of diagnosis in future data reporting.

(Added by Stats. 2018, Ch. 229, Sec. 1. (AB 1787) Effective January 1, 2019.)

120162.

By April 15 of each year, the department shall collect data on coccidioidomycosis cases from both of the following:

(a)The California Reportable Disease Information Exchange (CalREDIE).

(b)Any other electronic data system used by a local health department, a coccidioidomycosis case report submitted to the department by a local health officer, or both.

(Added by Stats. 2018, Ch. 229, Sec. 2. (AB 1787) Effective January 1, 2019.)

120163.

(a)If the department collects data on coccidioidomycosis cases from a local health officer and removes discrepant data from its internal dataset for any reason, including, but not limited to, to delete duplicate cases reported by multiple counties, the department shall report in a timely manner sufficient information about its removal of the discrepant data to the local health officer and the local health officer may remove the discrepant data from the countysdataset.

(b)If the department publishes provisional data on coccidioidomycosis cases, the department shall include in its publication an explanation for likely data changes between initial and final publication, and an explanation for discrepancies between data reported by a local health officer and data reported by the department.

(c)If the department publishes data on coccidioidomycosis cases, the department shall include in its publication the date range of the dataset published and the date on which the published data set was updated.

(Added by Stats. 2018, Ch. 229, Sec. 3. (AB 1787) Effective January 1, 2019.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 1. ADMINISTRATION OF COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 120305]__

(Part 1 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 3. Functions and Duties of Local Health Officers [120175 - 120255]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 7.)

120175.

Each health officer knowing or having reason to believe that any case of the diseases made reportable by regulation of the department, or any other contagious, infectious or communicable disease exists, or has recently existed, within the territory under his or her jurisdiction, shall take measures as may be necessary to prevent the spread of the disease or occurrence of additional cases.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120175.5.

(a)During an outbreak of a communicable disease, or upon the imminent and proximate threat of a communicable disease outbreak or epidemic that threatens the publicshealth, a local health officer shall do both of the following:

(1)Promptly notify and update governmental entities within the local health officersjurisdiction about communicable diseases listed in Section 2500 of Title 17 of the California Code of Regulations that may affect them, if, in the opinion of the local health officer, action or inaction on the part of the governmental

entity might affect outbreak response efforts.

(2)Make any relevant information available to governmental entities, including, but not limited to, the locations of concentrations of cases, the number of residents affected, and the measures that the governmental entities should take to assist with outbreak response efforts.

(b)In addition to the actions required under subdivision (a), the local health officer may issue orders to other governmental entities within the local health officersjurisdiction to take any action the local health officer deems necessary to control the spread of the communicable disease.

(c)A local health officer that provides the notification and information to a governmental entity pursuant to subdivision (a), and the governmental entity that receives the notification and information, shall comply with all applicable state and federal privacy laws.

(Added by Stats. 2019, Ch. 798, Sec. 1. (AB 262) Effective January 1, 2020.)

120176.

During an outbreak of communicable disease, or upon the imminent and proximate threat of communicable disease outbreak or epidemic that threatens the publicshealth, all health care providers, clinics, health care service plans, pharmacies, their suppliers, distributors, and other for-profit and nonprofit entities shall, upon request of the local health officer, disclose to the local health officer inventories of, critical medical supplies, equipment, pharmaceuticals, vaccines, or other products that may be used for the prevention of, or may be implicated in the transmission of communicable disease. The local health officer shall keep this proprietary information confidential.

(Added by Stats. 2006, Ch. 874, Sec. 6. Effective January 1, 2007.)

120180.

If the health officer of any county having a population of 5,000,000 or more employs personnel as inspectors or investigators in the enforcement of the Communicable Disease Prevention and Control Act (Section 27), who are not otherwise licensed, registered, nor certified by this state, the personnel shall meet any one of the following minimum standards and qualifications:

(a) Possess a bachelorsdegree in public health from an institution on the list of accredited colleges of the United States Office of Education.

(b) Possess a bachelorsdegree with a minimum of 30 semester units of basic sciences from an institution on the list of accredited colleges of the United States Office of Education; or a statement from an accredited institution that the applicant has successfully completed a minimum of 16 semester units distributed among at least the following fields: public health and administration, epidemiology, public health statistics, public health microbiology, and communicable disease control.

(c) Possess a bachelorsdegree from an institution on the list of accredited colleges of the United States Office of Education; and have had at least one year of full-time experience or the equivalent in investigation or inspection work in public health or law enforcement.

(d) Be employed as an inspector or investigator in communicable disease prevention and control by a county health department in the State of California, and have passed an official civil service examination therefor prior to the effective date of this section.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120185.

In the case of a local epidemic of disease, the health officer shall report at those times as are requested by the department all facts concerning the disease, and the measures taken to abate and prevent its spread.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120190.

Each health officer shall immediately report by telegraph or telephone to the department every discovered or known case or suspect case of those diseases designated for immediate reporting by the department. Within 24 hours after investigation each health officer shall make reports as the department may require.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120195.

Each health officer shall enforce all orders, rules, and regulations concerning quarantine or isolation prescribed or directed by the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120200.

Each health officer, whenever required by the department, shall establish and maintain places of quarantine or isolation that shall be subject to the special directions of the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120205.

No quarantine shall be established by a county or city against another county or city without the written consent of the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120210.

Whenever in the judgment of the department it is necessary for the protection or preservation of the public health, each health officer shall, when directed by the department, do the following:

(a) Quarantine or isolate and disinfect persons, animals, houses or rooms, in accordance with general and specific instructions of the department.

(b) Destroy bedding, carpets, household goods, furnishings, materials, clothing, or animals, when ordinary means of disinfection are considered unsafe, and when the property is, in the judgment of the department, an imminent menace to the public health.

When the property is destroyed pursuant to this section, the governing body of the locality where the destruction occurs may make adequate provision for compensation in proper cases for those injured thereby.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120215.

Upon receiving information of the existence of contagious, infectious, or communicable disease for which the department may from time to time declare the need for strict isolation or quarantine, each health officer shall:

(a) Ensure the adequate isolation of each case, and appropriate quarantine of the contacts and premises.

(b) Follow local rules and regulations, and all general and special rules, regulations, and orders of the department, in carrying out the quarantine or isolation.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120220.

When quarantine or isolation, either strict or modified, is established by a health officer, all persons shall obey his or her rules, orders, and regulations.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120225.

A person subject to quarantine or strict isolation, residing or in a quarantined building, house, structure, or

other shelter, shall not go beyond the lot where the building, house, structure, or other shelter is situated, nor put himself or herself in immediate communication with any person not subject to quarantine, other than the physician, the health officer or persons authorized by the health officer.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120230.

No instructor, teacher, pupil, or child who resides where any contagious, infectious, or communicable disease exists or has recently existed, that is subject to strict isolation or quarantine of contacts, shall be permitted by any superintendent, principal, or teacher of any college, seminary, or public or private school to attend the college, seminary, or school, except by the written permission of the health officer.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120235.

No quarantine shall be raised until every exposed room, together with all personal property in the room, has been adequately treated, or, if necessary, destroyed, under the direction of the health officer; and until all persons having been under strict isolation are considered noninfectious.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120240.

If, pursuant to Section 120130, a modified isolation order is issued, and the order is not complied with, the local health officer may, in that instance, issue a strict isolation order.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120245.

Each health officer, other than a county health officer, in the county shall transmit to the county health officer at least weekly in writing a report showing the number and character of infectious, contagious, or communicable diseases reported, and their location.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120250.

All physicians, nurses, clergymen, attendants, owners, proprietors, managers, employees, and persons living

with, or visiting any sick person, in any hotel, lodginghouse, house, building, office, structure, or other place where any person is ill of any infectious, contagious, or communicable disease, shall promptly report that fact to the health officer, together with the name of the person, if known, the place where he or she is confined, and the nature of the disease, if known.

(Amended by Stats. 1996, Ch. 1023, Sec. 350.5. Effective September 29, 1996.)

120255.

(a)Any electronic tool used by a health officer, as defined by subdivision (a) of Section 2500 of Title 17 of the California Code of Regulations, for the purpose of reporting cases of communicable disease to the State Department of Public Health, as required by Sections 2500 and 2502 of Title 17 of the California Code of Regulations, shall include the capacity to collect and report data relating to sexual orientation and gender identity as reported pursuant to subdivision (b).

(b)In addition to the information required to be reported pursuant to Section 2500 of Title 17 of the California Code of Regulations, a health care provider, as defined by subdivision (a) of Section 2500 of Title 17 of the California Code of Regulations, that knows of or is in attendance on a case or suspected case of any of the diseases or conditions listed in subdivision (j) of Section 2500 of Title 17 of the California Code of Regulations shall report to the health officer for the jurisdiction in which the patient resides, the patientssexual orientation and gender identity, if known.

(Added by Stats. 2020, Ch. 183, Sec. 1. (SB 932) Effective September 26, 2020.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 1. ADMINISTRATION OF COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 120305]__

(Part 1 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 3.5. Communicable Diseases Exposure Notification Act [120260 - 120263]__

(Chapter 3.5 added by Stats. 2002, Ch. 342, Sec. 1.)

120260.

(a) The Legislature finds and declares all of the following:

(1) Early knowledge of infection with communicable disease is important in order to permit exposed persons to make informed health care decisions as well as to take measures to reduce the likelihood of transmitting the infection to others.

(2) Individual health care providers, agents and employees of health care facilities and individual health care providers, and first responders, including police, firefighters, rescue personnel, and other persons who provide the first response to emergencies, frequently come into contact with the blood and other potentially infectious materials of individuals whose communicable disease infection status is not known.

(3) Even if these exposed individuals use universal infection control precautions to prevent transmission of communicable diseases, there will be occasions when they experience significant exposure to the blood or other potentially infectious materials of patients.

(b) Therefore, it is the intent of the Legislature to provide a narrow exposure notification and information mechanism to permit individual health care providers, the employees or contracted agents of health care facilities and individual health care providers, and first responders, who have experienced a significant exposure to the blood or other potentially infectious materials of a patient, to learn of the communicable disease infection status of the patient.

(Added by Stats. 2002, Ch. 342, Sec. 1. Effective January 1, 2003.)

120260.5.

The communicable disease testing and notification procedures provided for in this chapter are in addition to the notification to which prehospital emergency medical care persons or personnel are entitled under Section 1797.188.

(Added by Stats. 2006, Ch. 102, Sec. 2. Effective January 1, 2007.)

120261.

For the purposes of this chapter, the following definitions apply:

(a) Attending physician of the source patient means any physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code and any person licensed pursuant to the Osteopathic Initiative Act, who provides health care services to the source

patient. Notwithstanding any other provision of this subdivision to the contrary, the attending physician of the source patient shall include any of the following persons:

(1) The private physician of the source patient.

(2) The physician primarily responsible for the patient who is undergoing inpatient treatment in a hospital.

(3) A registered nurse or licensed nurse practitioner who has been designated by the attending physician of the source patient.

(b) Available blood or patient sample means blood or other tissue or material that was legally obtained in the course of providing health care services, and is in the possession of the physician or other health care provider of the source patient prior to the release of the source patient from the physiciansor health care providersfacility.

(c) Certifying physician means any physician consulted by the exposed individual for the exposure incident. A certifying physician shall have demonstrated competency and understanding of the then applicable guidelines or standards of the Division of Occupational Safety and Health.

(d) Communicable disease means any disease that was transferable through the exposure incident, as determined by the certifying physician.

(e) Exposed individual means any individual health care provider, first responder, or any other person, including, but not limited to, any employee, volunteer, or contracted agent of any health care provider, who is exposed, within the scope of his or her employment, to the blood or other potentially infectious materials of a source patient.

(f) Health care provider means any person licensed or certified pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code, any person licensed pursuant to the Osteopathic Initiative Act or the Chiropractic Initiative Act, any person certified pursuant to Division 2.5 (commencing with Section 1797), any clinic, health dispensary, or health facility licensed or exempt from licensure pursuant to Division 2 (commencing with Section 1200), any employee, volunteer, or contracted agent of any group practice prepayment health care service plan regulated pursuant to the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2), and any professional student of one of the clinics, health dispensaries, or health care facilities or health care providers described in this subdivision.

(g) First responder means a police officer, firefighter, rescue worker, or any other person who provides emergency response, first aid care, or other medically related assistance either in the course of the personsoccupational duties or as a volunteer.

(h) Other potentially infectious materials means those body fluids identified by the Division of Occupational Safety and Health as potentially capable of transmitting a communicable disease.

(i) Significant exposure means direct contact with blood or other potentially infectious materials of a patient in a manner that, according to the then applicable guidelines of the Division of Occupational Safety and Health, is capable of transmitting a communicable disease.

(j) Source patient means any person receiving health care services whose blood or other potentially infectious material has been the source of a significant exposure to an exposed individual.

(Added by Stats. 2002, Ch. 342, Sec. 1. Effective January 1, 2003.)

120262.

Notwithstanding Chapter 7 (commencing with Section 120975) or any other law, the blood or other tissue or material of a source patient may be tested, and an exposed individual may be informed whether the patient has tested positive or negative for a communicable disease if the exposed individual and the health care facility, if any, have substantially complied with the then applicable guidelines of the Division of Occupational Safety and Health and the State Department of Health Services and if the following procedure is followed:

(a) (1) If a person becomes an exposed individual by experiencing an exposure to the blood or other potentially infectious material of a patient during the course of rendering health care-related services or occupational services, the exposed individual may request an evaluation of the exposure by a physician to determine if it is a significant exposure, as defined in subdivision (h) of Section 120261. A physician or other exposed individual shall not certify his or her own significant exposure. However, an employing physician may certify the exposure of one of his or her employees. Requests for certification shall be made in writing within 72 hours of the exposure.

(2) A written certification by a physician of the significance of the exposure shall be obtained within 72 hours of the request. The certification shall include the nature and extent of the exposure.

(b) (1) The exposed individual shall be counseled regarding the likelihood of transmission, the limitations of the testing performed, the need for followup testing, and the procedures that the exposed individual must follow regardless of whether the source patient has tested positive or negative for a communicable disease. The exposed individual may be tested in accordance with the then applicable guidelines or standards of the Division of Occupational Safety and Health. The result of this test shall be confirmed as negative before available blood or other patient samples of the source patient may be tested for evidence of infection to a communicable disease, without the consent of the source patient pursuant to subdivision (d).

(2) Within 72 hours of certifying the exposure as significant, the certifying physician shall provide written certification to an attending physician of the source patient that a significant exposure to an exposed individual has occurred, and shall request information on whether the source patient has tested positive or negative for a communicable disease, and the availability of blood or other patient samples. An attending physician shall respond to the request for information within three working days.

(c) If test results of the source patient are already known to be positive for a communicable disease then, except as provided in subdivisions (b) and (c) of Section 121010, when the exposed individual is a health care provider or an employee or agent of the health care provider of the source patient, an attending physician and surgeon of the source patient shall attempt to obtain the consent of the source patient to disclose to the exposed individual the testing results of the source patient regarding communicable diseases. If the source patient cannot be contacted or refuses to consent to the disclosure, then the exposed individual may be informed of the test results regarding communicable diseases of the source patient by an attending physician of the source patient as soon as possible after the exposure has been certified as significant, notwithstanding Section 120980 or any other law.

(d) If the communicable disease status of the source patient is unknown to the certifying physician or an attending physician, if blood or other patient samples are available, and if the exposed individual has tested negative on a baseline test for communicable diseases, the source patient shall be given the opportunity to give informed consent to a test for communicable diseases in accordance with the following:

(1) Within 72 hours after receiving a written certification of significant exposure, an attending physician of the source patient shall do all of the following:

(A) Make a good faith effort to notify the source patient or the authorized legal representative of the source patient about the significant exposure. A good faith effort to notify includes, but is not limited to, a documented attempt to locate the source patient by telephone or by first-class mail with a certificate of mailing. An attempt to locate the source patient and the results of that attempt shall be documented in the medical record of the source patient. An inability to contact the source patient, or legal representative of the source patient, after a good faith effort to do so as provided in this subdivision, shall constitute a refusal of consent pursuant to paragraph (2). An inability of the source patient to provide informed consent shall constitute a refusal of consent pursuant to paragraph (2), provided all of the following conditions are met:

(i) The source patient has no authorized legal representative.

(ii) The source patient is incapable of giving consent.

(iii) In the opinion of the attending physician, it is likely that the source patient will be unable to grant informed consent within the 72-hour period during which the physician is required to respond pursuant to paragraph (1).

(B) Attempt to obtain the voluntary informed consent of the source patient or the authorized legal representative of the source patient to perform a test for a communicable disease, on the source patient or on any available blood or patient sample of the source patient. The voluntary informed consent shall be in writing. The source patient shall have the option not to be informed of the test result. An exposed individual shall be prohibited from attempting to obtain directly informed consent for testing for communicable diseases from the source patient.

(C) Provide the source patient with medically appropriate pretest counseling and refer the source patient to appropriate posttest counseling and followup, if necessary. The source patient shall be offered medically appropriate counseling whether or not he or she consents to testing.

(2) If the source patient or the authorized legal representative of the source patient refuses to consent to test for a communicable disease after a documented effort has been made to obtain consent, any available blood or patient sample of the source patient may be tested. The source patient or authorized legal representative of the source patient shall be informed that an available blood sample or other tissue or material will be tested despite his or her refusal, and that the exposed individual shall be informed of the test results regarding communicable diseases.

(3) If the informed consent of the source patient cannot be obtained because the source patient is deceased, consent to perform a test for a communicable disease on any blood or patient sample of the source patient legally obtained in the course of providing health care services at the time of the exposure event shall be deemed granted.

(4) A source patient or the authorized legal representative of a source patient shall be advised that he or she shall be informed of the results of the test for communicable diseases only if he or she wishes to be so informed. If a patient refuses to provide informed consent to testing for communicable diseases and refuses to learn the results of the testing, he or she shall sign a form documenting this refusal. The source patientsrefusal to sign this form shall be construed to be a refusal to be informed of the test results regarding communicable diseases. Test results for communicable diseases shall only be placed in the medical record when the patient has agreed in writing to be informed of the results.

(5) Notwithstanding any other law, if the source patient or authorized legal representative of a source patient refuses to be informed of the results of the test, the test results regarding communicable diseases of that source patient shall only be provided to the exposed individual in accordance with the then applicable regulations established by the Division of Occupational Safety and Health.

(6) The source patientsidentity shall be encoded on the communicable disease test result record.

(e) If an exposed individual is informed of the status of a source patient with regard to a communicable disease pursuant to this section, the exposed individual shall be informed that he or she is subject to existing confidentiality protections for any identifying information about the communicable disease test results, and that medical information regarding the communicable disease status of the source patient shall be kept confidential and may not be further disclosed, except as otherwise authorized by law. The exposed individual shall be informed of the penalties for which he or she would be personally liable for violation of Section 120980.

(f) The costs for the test and counseling for communicable diseases of the exposed individual, or the source patient, or both, shall be borne by the employer of the exposed individual, if any. An employer who directs and controls the exposed individual shall provide the postexposure evaluation and followup required by the Division of Occupational Safety and Health as well as the testing and counseling for source patients required under this chapter. If an exposed individual is a volunteer or a student, then the health care provider or first responder that assigned a task to the volunteer or student may pay for the costs of testing and counseling as if that volunteer or student were an employee. If an exposed individual, who is not an employee of a health facility or of another health care provider, chooses to obtain postexposure evaluation or followup counseling, or both, or treatment, he or she shall be financially responsible for the costs thereof and shall be responsible for the costs of the testing and counseling for the source patient.

(g) This section does not authorize the disclosure of the source patientsidentity.

(h) This section does not authorize a health care provider to draw blood or other body fluids except as otherwise authorized by law.

(i) The provisions of this section are cumulative only and shall not preclude testing of source patients for a communicable disease, as authorized by any other law.

(j) Except as otherwise provided under this section, all confidentiality requirements regarding medical records that are provided for under existing law apply to this section.

(Amended by Stats. 2015, Ch. 303, Sec. 348. (AB 731) Effective January 1, 2016.)

120263.

(a)No health care provider, as defined in this chapter, shall be subject to civil or criminal liability or professional disciplinary action for performing tests for a communicable disease on the available blood or patient sample of a source patient, or for disclosing the communicable disease status of a source patient to the source patient, an attending physician of the source patient, the certifying physician, the exposed individual, or any attending physician of the exposed individual, if the health care provider has acted in good faith in complying with this chapter.

(b)Any health care provider or first responder, or any exposed individual, who willfully performs or permits the performance of a test for a communicable disease on a source patient, that results in economic, bodily, or psychological harm to the source patient, without adhering to the procedure set forth in this chapter is guilty of a misdemeanor, punishable by imprisonment in the county jail for a period not to exceed one year, or a fine not to exceed ten thousand dollars ($10,000), or by both.

(Added by renumbering Section 121140 by Stats. 2003, Ch. 62, Sec. 195. Effective January 1, 2004.)

Codes Display Text

120290.

(a)(1)A defendant is guilty of intentional transmission of an infectious or communicable disease if all of the following apply:

(A)The defendant knows that he or she or a third party is afflicted with an infectious or communicable disease.

(B)The defendant acts with the specific intent to transmit or cause an afflicted third party to transmit that disease to another person.

(C)The defendant or the afflicted third party engages in conduct that poses a substantial risk of transmission to that person.

(D)The defendant or the third party transmits the infectious or communicable disease to the other person.

(E)If exposure occurs through interaction with the defendant and not a third party, the person exposed to the disease during voluntary interaction with the defendant did not know that the defendant was afflicted with the disease. A personsinteraction with the defendant is not involuntary solely on the basis of his or her lack of knowledge that the defendant was afflicted with the disease.

(2)A defendant is guilty of willful exposure to an infectious or communicable disease if a health officer, or the health officersdesignee, acting under circumstances that make securing a quarantine or health officer order infeasible, has instructed the defendant not to engage in particularized conduct that poses a substantial risk of transmission of an infectious or communicable disease, and the defendant engages in that conduct within 96 hours of the instruction. A health officer, or the health officersdesignee, may issue a maximum of two instructions to a defendant that may result in a violation of this paragraph.

(b)The defendant does not act with the intent required pursuant to subparagraph (B) of paragraph (1) of subdivision (a) if the defendant takes, or attempts to take, practical means to prevent transmission.

(c)Failure to take practical means to prevent transmission alone is insufficient to prove the intent required pursuant to subparagraph (B) of paragraph (1) of subdivision (a).

(d)Becoming pregnant while infected with an infectious or communicable disease, continuing a pregnancy

while infected with an infectious or communicable disease, or declining treatment for an infectious or communicable disease during pregnancy does not constitute a crime for purposes of this section.

(e)For purposes of this section, the following definitions shall apply:

(1)Conduct that poses a substantial risk of transmission means an activity that has a reasonable probability of disease transmission as proven by competent medical or epidemiological evidence. Conduct posing a low or negligible risk of transmission as proven by competent medical or epidemiological evidence does not meet the definition of conduct posing a substantial risk of transmission.

(2)Infectious or communicable disease means a disease that spreads from person to person, directly or indirectly, that has significant public health implications.

(3)Practical means to prevent transmission means a method, device, behavior, or activity demonstrated scientifically to measurably limit or reduce the risk of transmission of an infectious or communicable disease, including, but not limited to, the use of a condom, barrier protection or prophylactic device, or good faith compliance with a medical treatment regimen for the infectious or communicable disease prescribed by a health officer or physician.

(f)This section does not preclude a defendant from asserting any common law defense.

(g)(1)A violation of paragraph (1) of subdivision (a) or paragraph (2) of subdivision (a) is a misdemeanor, punishable by imprisonment in a county jail for not more than six months.

(2)A person who attempts to intentionally transmit an infectious or communicable disease by engaging in the conduct described in subparagraphs (A), (B), (C), and (E) of paragraph (1) of subdivision (a) is guilty of a misdemeanor punishable by imprisonment in a county jail for not more than 90 days.

(h)(1)When alleging a violation of subdivision (a), the prosecuting attorney or the grand jury shall substitute a pseudonym for the true name of a complaining witness. The actual name and other identifying characteristics of a complaining witness shall be revealed to the court only in camera, unless the complaining witness requests otherwise, and the court shall seal the information from further disclosure, except by counsel as part of discovery.

(2)Unless the complaining witness requests otherwise, all court decisions, orders, petitions, and other documents, including motions and papers filed by the parties, shall be worded so as to protect the name or other identifying characteristics of the complaining witness from public disclosure.

(3)Unless the complaining witness requests otherwise, a court in which a violation of this section is filed shall, at the first opportunity, issue an order that prohibits counsel, their agents, law enforcement personnel, and court staff from making a public disclosure of the name or any other identifying characteristic of the complaining witness.

(4)Unless the defendant requests otherwise, a court in which a violation of this section is filed, at the earliest opportunity, shall issue an order that counsel and their agents, law enforcement personnel, and court staff, before a finding of guilt, not publicly disclose the name or other identifying characteristics of the defendant, except by counsel as part of discovery or to a limited number of relevant individuals in its investigation of the specific charges under this section. In any public disclosure, a pseudonym shall be substituted for the true name of the defendant.

(5)For purposes of this subdivision, identifying characteristics includes, but is not limited to, the name or

any part of the name, address or any part of the address, city or unincorporated area of residence, age, marital status, relationship of the defendant and complaining witness, place of employment, or race or ethnic background.

(i)(1)A court, upon a finding of probable cause that an individual has violated this section, shall order the production of the individualsmedical records or the attendance of a person with relevant knowledge thereof, so long as the return of the medical records or attendance of the person pursuant to the subpoena is submitted initially to the court for an in-camera inspection. Only upon a finding by the court that the medical records or proffered testimony are relevant to the pleading offense, the information produced pursuant to the courtsorder shall be disclosed to the prosecuting entity and admissible if otherwise permitted by law.

(2)A defendantsmedical records, medications, prescriptions, or medical devices shall not be used as the sole basis of establishing the specific intent required pursuant to subparagraph (B) of paragraph (1) of subdivision (a).

(3)Surveillance reports and records maintained by state and local health officials shall not be subpoenaed or released for the purpose of establishing the specific intent required pursuant to subparagraph (B) of paragraph (1) of subdivision (a).

(4)A court shall take judicial notice of any fact establishing an element of the offense upon the defendantsmotion or stipulation.

(5)A defendant is not prohibited from submitting medical evidence to show the absence of the stated intent required pursuant to subparagraph (B) of paragraph (1) of subdivision (a).

(j)Before sentencing, a defendant shall be assessed for placement in one or more community-based programs that provide counseling, supervision, education, and reasonable redress to the victim or victims.

(k)(1)This section does not apply to a person who donates an organ or tissue for transplantation or research purposes.

(2)This section does not apply to a person, whether a paid or volunteer donor, who donates breast milk to a medical center or breast milk bank that receives breast milk for purposes of distribution.

(Repealed and added by Stats. 2017, Ch. 537, Sec. 5. (SB 239) Effective January 1, 2018.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 2. IMMUNIZATIONS [120325 - 120480]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1. Educational and Child Care Facility Immunization Requirements [120325 - 120380]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 7.)

120325.

In enacting this chapter, but excluding Section 120380, and in enacting Sections 120400, 120405, 120410, and 120415, it is the intent of the Legislature to provide:

(a)A means for the eventual achievement of total immunization of appropriate age groups against the following childhood diseases:

(1)Diphtheria.

(2)Hepatitis B.

(3)Haemophilus influenzae type b.

(4)Measles.

(5)Mumps.

(6)Pertussis (whooping cough).

(7)Poliomyelitis.

(8)Rubella.

(9)Tetanus.

(10)Varicella (chickenpox).

(11)Any other disease deemed appropriate by the department, taking into consideration the recommendations of the Advisory Committee on Immunization Practices of the United States Department of Health and Human Services, the American Academy of Pediatrics, and the American Academy of Family Physicians.

(b)That the persons required to be immunized be allowed to obtain immunizations from whatever medical source they so desire, subject only to the condition that the immunization be performed in accordance with the regulations of the department and that a record of the immunization is made in accordance with the regulations.

(c)Exemptions from immunization for medical reasons.

(d)For the keeping of adequate records of immunization so that health departments, schools, and other institutions, parents or guardians, and the persons immunized will be able to ascertain that a child is fully or only partially immunized, and so that appropriate public agencies will be able to ascertain the immunization needs of groups of children in schools or other institutions.

(e)Incentives to public health authorities to design innovative and creative programs that will promote and achieve full and timely immunization of children.

(Amended by Stats. 2015, Ch. 35, Sec. 1. (SB 277) Effective January 1, 2016.)

120330.

The department, in consultation with the Department of Education, shall adopt and enforce all regulations necessary to carry out Chapter 1 (commencing with Section 120325, but excluding Section 120380) and to carry out Sections 120400, 120405, 120410, and 120415.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120335.

(a)As used in this chapter, governing authority means the governing board of each school district or the authority of each other private or public institution responsible for the operation and control of the institution or the principal or administrator of each school or institution.

(b)The governing authority shall not unconditionally admit any person as a pupil of any private or public elementary or secondary school, child care center, day nursery, nursery school, family day care home, or development center, unless, prior to his or her first admission to that institution, he or she has been fully immunized. The following are the diseases for which immunizations shall be documented:

(1)Diphtheria.

(2)Haemophilus influenzae type b.

(3)Measles.

(4)Mumps.

(5)Pertussis (whooping cough).

(6)Poliomyelitis.

(7)Rubella.

(8)Tetanus.

(9)Hepatitis B.

(10)Varicella (chickenpox).

(11)Any other disease deemed appropriate by the department, taking into consideration the recommendations of the Advisory Committee on Immunization Practices of the United States Department of Health and Human Services, the American Academy of Pediatrics, and the American Academy of Family Physicians.

(c)Notwithstanding subdivision (b), full immunization against hepatitis B shall not be a condition by which the governing authority shall admit or advance any pupil to the 7th grade level of any private or public elementary or secondary school.

(d)The governing authority shall not unconditionally admit or advance any pupil to the 7th grade level of any private or public elementary or secondary school unless the pupil has been fully immunized against pertussis, including all pertussis boosters appropriate for the pupilsage.

(e)The department may specify the immunizing agents that may be utilized and the manner in which immunizations are administered.

(f)This section does not apply to a pupil in a home-based private school or a pupil who is enrolled in an independent study program pursuant to Article 5.5 (commencing with Section 51745) of Chapter 5 of Part 28 of the Education Code and does not receive classroom-based instruction.

(g)(1)A pupil who, prior to January 1, 2016, submitted a letter or affidavit on file at a private or public elementary or secondary school, child day care center, day nursery, nursery school, family day care home, or development center stating beliefs opposed to immunization shall be allowed enrollment to any private or public elementary or secondary school, child day care center, day nursery, nursery school, family day care home, or development center within the state until the pupil enrolls in the next grade span.

(2)For purposes of this subdivision, grade span means each of the following:

(A)Birth to preschool.

(B)Kindergarten and grades 1 to 6, inclusive, including transitional kindergarten.

(C)Grades 7 to 12, inclusive.

(3)Except as provided in this subdivision, on and after July 1, 2016, the governing authority shall not unconditionally admit to any of those institutions specified in this subdivision for the first time, or admit or advance any pupil to 7th grade level, unless the pupil has been immunized for his or her age as required by this section.

(h)This section does not prohibit a pupil who qualifies for an individualized education program, pursuant to federal law and Section 56026 of the Education Code, from accessing any special education and related services required by his or her individualized education program.

(Amended by Stats. 2015, Ch. 35, Sec. 2. (SB 277) Effective January 1, 2016.)

120336.

(a)Pupils in the state are advised, as described in subdivision (b), to adhere to current immunization guidelines, as recommended by the Advisory Committee on Immunization Practices (ACIP) of the federal Centers for Disease Control and Prevention (CDC), the American Academy of Pediatrics, and the American Academy of Family Physicians, regarding full human papillomavirus (HPV) immunization before admission or advancement to the eighth grade level of any private or public elementary or secondary school.

(b)Upon a pupilsadmission or advancement to the sixth grade level, the governing authority of any private or public elementary or secondary school shall submit to the pupil and their parent or guardian a notification containing a statement about the statespublic policy described in subdivision (a) and advising that the pupil adhere to current HPV immunization guidelines, as described in subdivision (a), before admission or advancement to the eighth grade level, in compliance with the notification requirements of Article 4 (commencing with Section 48980) of Chapter 6 of Part 27 of Division 4 of Title 2 of the Education Code.

(c)The notification sent pursuant to subdivision (b) shall also include a statement, as determined by the department, summarizing the recommended ages for the HPV vaccine and scientific rationale for vaccination at those ages, based on guidance issued by ACIP of the CDC, the American Academy of Pediatrics, and the American Academy of Family Physicians. The notification shall further state the following:

HPV vaccination can prevent over 90 percent of cancers caused by HPV. HPV vaccines are very safe, and scientific research shows that the benefits of HPV vaccination far outweigh the potential risks.

(d)This section does not apply to a pupil in a home-based private school.

(Added by Stats. 2023, Ch. 809, Sec. 4. (AB 659) Effective January 1, 2024.)

120338.

Notwithstanding Sections 120325 and 120335, any immunizations deemed appropriate by the department pursuant to paragraph (11) of subdivision (a) of Section 120325 or paragraph (11) of subdivision (b) of Section 120335, may be mandated before a pupilsfirst admission to any private or public elementary or secondary school, child care center, day nursery, nursery school, family day care home, or development center, only if exemptions are allowed for both medical reasons and personal beliefs.

(Added by Stats. 2015, Ch. 35, Sec. 3. (SB 277) Effective January 1, 2016.)

120340.

A person who has not been fully immunized against one or more of the diseases listed in Section 120335 may be admitted by the governing authority on condition that within time periods designated by regulation of the department he or she presents evidence that he or she has been fully immunized against all of these diseases.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120341.

(a)The governing authority shall admit a foster child, as defined in subdivision (a) of Section 48853.5 of the Education Code, whose immunization records are not available or are missing.

(b)This section shall not alter the obligation of the governing authority to obtain a foster childsimmunization records pursuant to Section 48853.5 of the Education Code or to ensure the immunization of a foster child pursuant to this chapter.

(Added by Stats. 2011, Ch. 463, Sec. 3. (AB 709) Effective January 1, 2012.)

120345.

The immunizations required by Chapter 1 (commencing with Section 120325, but excluding Section 120380) and required by Sections 120400, 120405, 120410, and 120415 may be obtained from any private or public source desired if the immunization is administered and records are made in accordance with regulations of the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120350.

The county health officer of each county shall organize and maintain a program to make immunizations available to all persons required by Chapter 1 (commencing with Section 120325, but excluding Section 120380) and required by Sections 120400, 120405, 120410, and 120415 to be immunized. The county health officer shall also determine how the cost of the program is to be recovered. To the extent that the cost to the county is in excess of that sum recovered from persons immunized, the cost shall be paid by the county in the same manner as other expenses of the county are paid.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120355.

Any person or organization administering immunizations shall furnish each person immunized, or his or her parent or guardian, with a written record of immunization given in a form prescribed by the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120360.

The requirements of Chapter 1 (commencing with Section 120325, but excluding Section 120380) and of Sections 120400, 120405, 120410, and 120415 shall not apply to any person 18 years of age or older, or to any person seeking admission to a community college.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120370.

(a)(1)Prior to January 1, 2021, if the parent or guardian files with the governing authority a written statement by a licensed physician and surgeon to the effect that the physical condition of the child is such, or medical circumstances relating to the child are such, that immunization is not considered safe, indicating the specific nature and probable duration of the medical condition or circumstances, including, but not limited to, family medical history, for which the physician and surgeon does not recommend immunization, that child shall be exempt from the requirements of this chapter, except for Section 120380, and exempt from Sections 120400, 120405, 120410, and 120415 to the extent indicated by the physician and surgeonsstatement.

(2)Commencing January 1, 2020, a child who has a medical exemption issued before January 1, 2020, shall be allowed continued enrollment to any public or private elementary or secondary school, child care center, day nursery, nursery school, family day care home, or developmental center within the state until the child enrolls in the next grade span.

For purposes of this subdivision, grade span means each of the following:

(A)Birth to preschool, inclusive.

(B)Kindergarten and grades 1 to 6, inclusive, including transitional kindergarten.

(C)Grades 7 to 12, inclusive.

(3)Except as provided in this subdivision, on and after July 1, 2021, the governing authority shall not unconditionally admit or readmit to any of those institutions specified in this subdivision, or admit or advance any pupil to 7th grade level, unless the pupil has been immunized pursuant to Section 120335 or the parent or guardian files a medical exemption form that complies with Section 120372.

(b)If there is good cause to believe that a child has been exposed to a disease listed in subdivision (b) of Section 120335 and the childsdocumentary proof of immunization status does not show proof of

immunization against that disease, that child may be temporarily excluded from the school or institution until the local health officer is satisfied that the child is no longer at risk of developing or transmitting the disease.

(Amended by Stats. 2019, Ch. 281, Sec. 1. (SB 714) Effective January 1, 2020.)

120372.

(a)(1)By January 1, 2021, the department shall develop and make available for use by licensed physicians and surgeons an electronic, standardized, statewide medical exemption certification form that shall be transmitted directly to the departmentsCalifornia Immunization Registry (CAIR) established pursuant to Section 120440. Pursuant to Section 120375, the form shall be printed, signed, and submitted directly to the school or institution at which the child will attend, submitted directly to the governing authority of the school or institution, or submitted to that governing authority through the CAIR where applicable. Notwithstanding Section 120370, commencing January 1, 2021, the standardized form shall be the only documentation of a medical exemption that the governing authority may accept.

(2)At a minimum, the form shall require all of the following information:

(A)The name, California medical license number, business address, and telephone number of the physician and surgeon who issued the medical exemption, and of the primary care physician of the child, if different from the physician and surgeon who issued the medical exemption.

(B)The name of the child for whom the exemption is sought, the name and address of the childsparent or guardian, and the name and address of the childsschool or other institution.

(C)A statement certifying that the physician and surgeon has conducted a physical examination and evaluation of the child consistent with the relevant standard of care and complied with all applicable requirements of this section.

(D)Whether the physician and surgeon who issued the medical exemption is the childsprimary care physician. If the issuing physician and surgeon is not the childsprimary care physician, the issuing physician and surgeon shall also provide an explanation as to why the issuing physician and not the primary care physician is filling out the medical exemption form.

(E)How long the physician and surgeon has been treating the child.

(F)A description of the medical basis for which the exemption for each individual immunization is sought. Each specific immunization shall be listed separately and space on the form shall be provided to allow for the inclusion of descriptive information for each immunization for which the exemption is sought.

(G)Whether the medical exemption is permanent or temporary, including the date upon which a temporary medical exemption will expire. A temporary exemption shall not exceed one year. All medical exemptions shall not extend beyond the grade span, as defined in Section 120370.

(H)An authorization for the department to contact the issuing physician and surgeon for purposes of this section and for the release of records related to the medical exemption to the department, the Medical Board of California, and the Osteopathic Medical Board of California.

(I)A certification by the issuing physician and surgeon that the statements and information contained in the form are true, accurate, and complete.

(3)An issuing physician and surgeon shall not charge for either of the following:

(A)Filling out a medical exemption form pursuant to this section.

(B) A physical examination related to the renewal of a temporary medical exemption.

(b)Commencing January 1, 2021, if a parent or guardian requests a licensed physician and surgeon to submit a medical exemption for the parentsor guardianschild, the physician and surgeon shall inform the parent or guardian of the requirements of this section. If the parent or guardian consents, the physician and surgeon shall examine the child and submit a completed medical exemption certification form to the department. A medical exemption certification form may be submitted to the department at any time.

(c)By January 1, 2021, the department shall create a standardized system to monitor immunization levels in schools and institutions as specified in Sections 120375 and 120440, and to monitor patterns of unusually high exemption form submissions by a particular physician and surgeon.

(d)(1)The department, at a minimum, shall annually review immunization reports from all schools and institutions in order to identify medical exemption forms submitted to the department and under this section that will be subject to paragraph (2).

(2)A clinically trained immunization department staff member, who is either a physician and surgeon or a registered nurse, shall review all medical exemptions from any of the following:

(A)Schools or institutions subject to Section 120375 with an overall immunization rate of less than 95 percent.

(B)Physicians and surgeons who have submitted five or more medical exemptions in a calendar year beginning January 1, 2020.

(C)Schools or institutions subject to Section 120375 that do not provide reports of vaccination rates to the department.

(3)(A)The department shall identify those medical exemption forms that do not meet applicable CDC, ACIP, or AAP criteria for appropriate medical exemptions. The department may contact the primary care physician and surgeon or issuing physician and surgeon to request additional information to support the medical exemption.

(B)Notwithstanding subparagraph (A), the department, based on the medical discretion of the clinically trained immunization staff member, may accept a medical exemption that is based on other contraindications or precautions, including consideration of family medical history, if the issuing physician and surgeon provides written documentation to support the medical exemption that is consistent with the relevant standard of care.

(C)A medical exemption that the reviewing immunization department staff member determines to be inappropriate or otherwise invalid under subparagraphs (A) and (B) shall also be reviewed by the State Public Health Officer or a physician and surgeon from the departmentsimmunization program designated by the State Public Health Officer. Pursuant to this review, the State Public Health Officer or physician and surgeon designee may revoke the medical exemption.

(4)Medical exemptions issued prior to January 1, 2020, shall not be revoked unless the exemption was issued by a physician or surgeon that has been subject to disciplinary action by the Medical Board of California or the Osteopathic Medical Board of California.

(5)The department shall notify the parent or guardian, issuing physician and surgeon, the school or institution, and the local public health officer with jurisdiction over the school or institution of a denial or revocation under this subdivision.

(6)If a medical exemption is revoked pursuant to this subdivision, the child shall continue in attendance. However, within 30 calendar days of the revocation, the child shall commence the immunization schedule required for conditional admittance under Chapter 4 (commencing with Section 6000) of Division 1 of Title 17 of the California Code of Regulations in order to remain in attendance, unless an appeal is filed pursuant to Section 120372.05 within that 30-day time period, in which case the child shall continue in attendance and shall not be required to otherwise comply with immunization requirements unless and until the revocation is upheld on appeal.

(7)(A)If the department determines that a physiciansand surgeonspractice is contributing to a public health risk in one or more communities, the department shall report the physician and surgeon to the Medical Board of California or the Osteopathic Medical Board of California, as appropriate. The department shall not accept a medical exemption form from the physician and surgeon until the physician and surgeon demonstrates to the department that the public health risk no longer exists, but in no event shall the physician and surgeon be barred from submitting these forms for less than two years.

(B)If there is a pending accusation against a physician and surgeon with the Medical Board of California or the Osteopathic Medical Board of California relating to immunization standards of care, the department shall not accept a medical exemption form from the physician and surgeon unless and until the accusation is resolved in favor of the physician and surgeon.

(C)If a physician and surgeon licensed with the Medical Board of California or the Osteopathic Medical Board of California is on probation for action relating to immunization standards of care, the department and governing authority shall not accept a medical exemption form from the physician and surgeon unless and until the probation has been terminated.

(8)The department shall notify the Medical Board of California or the Osteopathic Medical Board of California, as appropriate, of any physician and surgeon who has five or more medical exemption forms in a calendar year that are revoked pursuant to this subdivision.

(9)Notwithstanding any other provision of this section, a clinically trained immunization program staff member who is a physician and surgeon or a registered nurse may review any exemption in the CAIR or other state database as necessary to protect public health.

(e)The department, the Medical Board of California, and the Osteopathic Medical Board of California shall enter into a memorandum of understanding or similar agreement to ensure compliance with the requirements of this section.

(f)In administering this section, the department and the independent expert review panel created pursuant to Section 120372.05 shall comply with all applicable state and federal privacy and confidentiality laws. The department may disclose information submitted in the medical exemption form in accordance with Section 120440, and may disclose information submitted pursuant to this chapter to the independent expert review panel for the purpose of evaluating appeals.

(g)The department shall establish the process and guidelines for review of medical exemptions pursuant to this section. The department shall communicate the process to providers and post this information on the departmentswebsite.

(h)If the department or the California Health and Human Services Agency determines that contracts are required to implement or administer this section, the department may award these contracts on a single-source or sole-source basis. The contracts are not subject to Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, Article 4 (commencing with Section 19130) of Chapter 5 of Part 2 of Division 5 of Title 2 of the Government Code, or Sections 4800 to 5180, inclusive, of the State Administrative Manual as they relate to approval of information technology projects or approval of increases in the duration or costs of information technology projects.

(i)Notwithstanding the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), the department may implement and administer this section through provider bulletins, or similar instructions, without taking regulatory action.

(j)For purposes of administering this section, the department and the California Health and Human Services Agency appeals process shall be exempt from the rulemaking and administrative adjudication provisions in the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340), Chapter 4 (commencing with Section 11370), Chapter 4.5 (commencing with 11400), and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code).

(Amended by Stats. 2020, Ch. 370, Sec. 212. (SB 1371) Effective January 1, 2021.)

120372.05.

(a)A medical exemption revoked pursuant to Section 120372 may be appealed by a parent or guardian to the Secretary of California Health and Human Services. Parents, guardians, or the physician who issued the medical exemption may provide necessary information for purposes of the appeal.

(b)The secretary shall establish an independent expert review panel, consisting of three licensed physicians and surgeons who have relevant knowledge, training, and experience relating to primary care or immunization to review appeals. The agency shall establish the process and guidelines for the appeals process pursuant to this section, including the process for the panel to contact the issuing physician and surgeon, parent, or guardian. The agency shall post this information on the agencysinternet website. The agency shall also establish requirements, including conflict-of-interest standards, consistent with the purposes of this chapter, that a physician and surgeon shall meet in order to qualify to serve on the panel.

(c)The independent expert review panel shall evaluate appeals consistent with the federal Centers for Disease Control and Prevention, federal Advisory Committee on Immunization Practices, or American Academy of Pediatrics guidelines or the relevant standard of care, as applicable.

(d)The independent expert review panel shall submit its determination to the secretary. The secretary shall adopt the determination of the independent expert review panel and shall promptly issue a written decision to the childsparent or guardian. The decision shall not be subject to further administrative review.

(e)A child whose medical exemption revocation pursuant to subdivision (d) of Section 120372 is appealed

under this section shall continue in attendance and shall not be required to commence the immunization required for conditional admittance under Chapter 4 (commencing with Section 6000) of Division 1 of Title 17 of the California Code of Regulations, provided that the appeal is filed within 30 calendar days of revocation of the medical exemption.

(f)For purposes for administering this section, the department and the California Health and Human Services Agency appeals process shall be exempt from the rulemaking and administrative adjudication provisions in the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340), Chapter 4 (commencing with Section 11370), Chapter 4.5 (commencing with 11400), and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code).

(Amended by Stats. 2020, Ch. 370, Sec. 213. (SB 1371) Effective January 1, 2021.)

120375.

(a)The governing authority of each school or institution included in Section 120335 shall require documentary proof of each entrantsimmunization status. The governing authority shall record the immunizations of each new entrant in the entrantspermanent enrollment and scholarship record on a form provided by the department. The immunization record of each new entrant admitted conditionally shall be reviewed periodically by the governing authority to ensure that within the time periods designated by regulation of the department the entrant has been fully immunized against all of the diseases listed in Section 120335, and immunizations received after entry shall be added to the pupilsimmunization record.

(b)The governing authority of each school or institution included in Section 120335 shall prohibit from further attendance any pupil admitted conditionally who failed to obtain the required immunizations within the time limits allowed in the regulations of the department until that pupil has been fully immunized against all of the diseases listed in Section 120335, unless the pupil is exempted under Section 120370 or 120372.

(c)The governing authority shall file a written report, on at least an annual basis, on the immunization status of new entrants to the school or institution under their jurisdiction with the department and the local health department on forms prescribed by the department. As provided in paragraph (4) of subdivision (a) of Section 49076 of the Education Code, the local health department shall have access to the complete health information as it relates to immunization of each student in the schools or other institutions listed in Section 120335 in order to determine immunization deficiencies.

(d)The governing authority shall cooperate with the county health officer in carrying out programs for the immunization of persons applying for admission to any school or institution under its jurisdiction. The governing board of any school district may use funds, property, and personnel of the district for that purpose. The governing authority of any school or other institution may permit any licensed physician or any qualified registered nurse to administer immunizing agents to any person seeking admission to any school or institution under its jurisdiction.

(Amended by Stats. 2019, Ch. 278, Sec. 5. (SB 276) Effective January 1, 2020.)

120380.

It is the intent of the Legislature that the administration of immunizing agents by registered nurses in school

immunization programs under the direction of a supervising physician and surgeon as provided in Sections 49403 and 49426 of the Education Code shall be in accordance with accepted medical procedure. To implement this intent, the department may adopt written regulations specifying the procedures and circumstances under which a registered nurse, acting under the direction of a supervising physician and surgeon, may administer an immunizing agent pursuant to Sections 49403 and 49426 of the Education Code.

However, nothing in this section shall be construed to prevent any registered nurse from administering an immunizing agent in accordance with Sections 49403 and 49426 of the Education Code in the absence of written regulations as the department is authorized to adopt under this section.

(Amended by Stats. 1997, Ch. 97, Sec. 6. Effective July 21, 1997.)

__CHAPTER 1.1. Meningococcal Disease Strategic Prevention Act of 2001 [120381- 120381.]__

(Chapter 1.1 added by Stats. 2001, Ch. 374, Sec. 3.)

120381.

(a) The State Department of Health Services, in consultation with the State Department of Education, local public health agencies, and postsecondary educational institutions, shall develop a Meningococcal Disease Strategic Prevention Plan.

(b) The plan shall include, but not be limited to, a review of all of the following:

(1) The current scientific literature on meningococcal disease.

(2) Experiences of other state and local governmental jurisdictions in the prevention of meningococcal disease and in prevention programs for similarly infectious diseases, such as tuberculosis and hepatitis.

(3) The possible role of age-specific vaccination programs for meningococcal disease.

(4) The availability of vaccines for meningococcal disease.

(5) The application and roles of other governmental programs.

(6) Current health plan coverages and other health insurance products.

(c) The victims of meningococcal disease and their families shall be involved and have input in the development of the plan.

(d) The department shall encourage public and private medical entities to cooperate with each other to make

meningococcus vaccines and vaccinations accessible and provide any currently available vaccines to families that desire that their children be inoculated.

(e) The plan shall be completed and made available to the Legislature on or before June 30, 2002.

(Added by Stats. 2001, Ch. 374, Sec. 3. Effective October 1, 2001.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 2. IMMUNIZATIONS [120325 - 120480]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1.5. Immunization of College-Age Students [120390 - 120390.7]__

(Chapter 1.5 added by Stats. 1999, Ch. 146, Sec. 5.5.)

120390.

The department, in consultation with the Trustees of the California State University, the Regents of the University of California, and the Board of Governors of the California Community Colleges, as applicable, shall adopt and enforce all regulations necessary to carry out this chapter.

(Amended by Stats. 2023, Ch. 809, Sec. 5. (AB 659) Effective January 1, 2024.)

120390.5.

(a) Except as provided in subdivisions (b), (c), and (d), on or after January 1, 2000, the Trustees of the

California State University, and the Regents of the University of California shall require the first-time enrollees at those institutions who are 18 years of age or younger to provide proof of full immunization against the hepatitis B virus prior to enrollment.

(b) A person who has not been fully immunized against the hepatitis B virus, as required by subdivision (a), may be admitted by the governing body of any of the institutions of higher education to which subdivision (a) is applicable on condition that, within a designated time period, the person will provide proof of full immunization against hepatitis B.

(c) Immunization of a person shall not be required for admission to an institution of higher education to which subdivision (a) is applicable if any of the following persons files with the governing body of the educational institution a letter or affidavit stating that the immunization is contrary to the beliefs of either of the following:

(1) The parent, guardian, or adult who has assumed responsibility for the care and custody of the person seeking admission, if that applicant is a minor who is not emancipated or who is 17 years of age or younger.

(2) The person seeking admission, if that applicant is an emancipated minor or is 18 years of age.

(d) If a person seeking enrollment in an institution of higher education to which subdivision (a) is applicable, or the parent or guardian of a person seeking enrollment, files with the governing body a written statement by a physician and surgeon that the physical condition of the person or medical circumstances relating to the person are such that immunization is not considered safe, indicating the specific nature and probable duration of the medical condition or circumstances that contraindicate immunization, that person shall be exempt from the requirements of subdivision (a).

(Added by Stats. 1999, Ch. 146, Sec. 5.5. Effective July 22, 1999.)

120390.6.

It is the public policy of the state that students who are 26 years of age or younger are advised to adhere to current immunization guidelines, as recommended by the Advisory Committee on Immunization Practices of the federal Centers for Disease Control and Prevention, the American Academy of Pediatrics, and the American Academy of Family Physicians, regarding full human papillomavirus (HPV) immunization before first-time enrollment at an institution of the California State University, the University of California, or the California Community Colleges.

(Added by Stats. 2023, Ch. 809, Sec. 6. (AB 659) Effective January 1, 2024.)

120390.7.

No provision of this chapter shall apply to the University of California except to the extent that the Regents of the University of California, by appropriate resolution, make that provision applicable.

(Added by Stats. 1999, Ch. 146, Sec. 5.5. Effective July 22, 1999.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 2. IMMUNIZATIONS [120325 - 120480]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1.6. Influenza and Pneumococcal Immunizations [120392 - 120393]__

(Chapter 1.6 added by Stats. 2004, Ch. 36, Sec. 1.)

120392.

For purposes of this chapter, the following definitions apply:

(a)Health care facility means a skilled nursing facility as defined in subdivision (c) of Section 1250, an intermediate care facility as defined in subdivision (d) of Section 1250, or a nursing facility as defined in subdivision (k) of Section 1250. This chapter shall not apply to hospital-based skilled nursing facilities.

(b)Medically contraindicated means that the administration of the influenza or pneumococcal vaccines to a person, because of a medical condition of that person, would be detrimental to the personshealth if the person receives either or both of the vaccines.

(Added by Stats. 2004, Ch. 36, Sec. 1. Effective January 1, 2005.)

120392.2.

(a)Each year, commencing October 1 to the following April 1, inclusive, every health care facility, as defined in subdivision (a) of Section 120392, shall offer, pursuant to Section 120392.4, immunizations for influenza and pneumococcal disease to residents, aged 65 years or older, receiving services at the facility, based upon the

latest recommendations of the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention, and the latest recommendations of appropriate entities for the prevention, detection, and control of influenza outbreaks in California long-term care facilities.

(b)Each health care facility, as defined in subdivision (a) of Section 120392, shall offer, pursuant to Section 120392.4, pneumococcal vaccine to all new admittees to the health care facility, based on the latest recommendations of the ACIP.

(c)The facility shall be reimbursed the standard Medi-Cal rate for an immunization provided to a Medi-Cal recipient, unless he or she is also a Medicare recipient whose coverage includes reimbursement for the immunization.

(Added by Stats. 2004, Ch. 36, Sec. 1. Effective January 1, 2005.)

120392.3.

(a)The department shall provide appropriate flu vaccine to local governmental or private, nonprofit agencies at no charge in order that the agencies may provide the vaccine, at a minimal cost, at accessible locations. The department and the California Department of Aging shall prepare, publish, and disseminate information regarding the availability of the vaccine and the effectiveness of the vaccine in protecting the health of older persons.

(b)In administering this section, the department may provide guidance to local agencies as to whether one or more population groups shall have priority for the flu vaccine offered through this program. In developing this guidance, the department shall consider the influenza recommendations of the federal Centers for Disease Control and PreventionsAdvisory Committee on Immunization Practices (ACIP) or other criteria in order to ensure that the vaccination program is efficient and effective in meeting public health goals. Any guidance issued pursuant to this subdivision shall be exempt from the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). In the absence of guidance from the department, local agencies shall be guided by the influenza recommendations of the ACIP.

(c)The department may provide appropriate vaccine that prevents other respiratory infections to local governmental or private, nonprofit agencies at no charge in order that the agencies may provide the vaccine, at a minimal cost, at accessible locations for groups identified as high risk by the ACIP.

(d)The program shall be designed to use voluntary assistance from public or private sectors in administering the vaccines. However, local governmental or private, nonprofit agencies may charge and retain a fee not exceeding two dollars ($2) per person to offset administrative operating costs.

(e)Except when the department determines that it is not feasible to use federal funds due to excessive administrative costs, the department shall seek and use available federal funds to the maximum extent possible for the cost of the vaccine, the cost of administering the vaccine, and the minimal fee charged under this section, including reimbursement under the Medi-Cal program for persons eligible therefor to the extent permitted by federal law.

(f)A private, nonprofit volunteer agency whose involvement with an immunization program governed by this section is limited to the provision of a clinic site or promotional and logistical support pursuant to subdivision (c), or any employee or member thereof, shall not be liable for any injury caused by an act or

omission in the administration of the vaccine or other immunizing agent, if the immunization is performed pursuant to this section in conformity with applicable federal, state, or local governmental standards and the act or omission does not constitute willful misconduct or gross negligence. As used in this subdivision, injury includes the residual effects of the vaccine or other immunizing agent. It is the intent of the Legislature in adding this subdivision to affect only the liability of private, nonprofit volunteer agencies and their members that are not health facilities, as defined in Section 1250.

(g)This section shall not be construed to require the physical presence of a directing or supervising physician, or the examination by a physician of persons to be tested or immunized.

(Added by Stats. 2012, Ch. 443, Sec. 3. (AB 2009) Effective January 1, 2013.)

120392.4.

(a)A resident who receives services at a health care facility during the period of October 1 to April 1 shall have his or her status for influenza and pneumococcal immunization determined by his or her physician or facility medical director, and, if appropriate, the facility shall offer to make the immunizations available, unless the facility, through written policies and procedures and using standardized nursing procedures, offers to make the immunizations available without limitation as to the period when the residents receive services at the facility.

(b)A health care facility shall obtain from a resident who requests immunization services, or, if the person lacks the capacity to make medical decisions, from the person legally authorized to make medical decisions on the residentsbehalf, informed consent for the resident to be immunized by vaccination against influenza or pneumococcal disease, or both, to be conducted by the facility while the resident is receiving services at the facility.

(c)A health care facility shall comply with Section 1418.8 with respect to a resident who lacks the capacity to make health care decisions, and there is no person with legal authority to make these decisions on behalf of the resident.

(d)The health care facility shall document in a residentsmedical record whether the resident has been offered the influenza vaccine or the pneumococcal vaccine.

(Added by Stats. 2004, Ch. 36, Sec. 1. Effective January 1, 2005.)

120392.6.

No person who has been offered the vaccine as required under this chapter may receive either an influenza vaccine or pneumococcal vaccine pursuant to this chapter if any of the following conditions exists:

(a)The vaccine is medically contraindicated, as described in the product labeling approved by the federal Food and Drug Administration or by the recommendations established by the Advisory Committee on Immunization Practice (ACIP) of the Centers for Disease Control and Prevention that are in effect at the time of vaccination.

(b)Receipt of the vaccine is against the residentspersonal beliefs.

(c)Receipt of the vaccine is against the residentswishes, or, if the person lacks the capacity to make medical decisions, is against the wishes of the person legally authorized to make medical decisions on the residentsbehalf.

(Added by Stats. 2004, Ch. 36, Sec. 1. Effective January 1, 2005.)

120392.8.

(a)Notwithstanding any other provision of this chapter, a health care facility shall not be required to offer immunizations for influenza and pneumococcal disease under either of the following circumstances:

(1)The facility is unable to obtain the vaccine due to a shortage of the supply of vaccine.

(2)The resident refuses to pay for the vaccine and there is no other funding source available to pay for the cost of the vaccine.

(b)If a health care facility, as defined in subdivision (a) of Section 120392, fails to offer an immunization pursuant to this chapter due to lack of availability of vaccine, a physiciansrefusal to assess the resident or cooperate with the recommendations of the provisions of this chapter, or lack of resident cooperation, the failure shall not be the basis for issuing a deficiency or citation against the facilityslicense.

(c)This chapter is intended to encourage immunizations for residents in health care facilities, and the department shall consider a facilitysefforts to prevent a violation of this chapter prior to issuing a deficiency or citation. The department may issue a deficiency or citation for failure to comply with Section 120392.4.

(Added by Stats. 2004, Ch. 36, Sec. 1. Effective January 1, 2005.)

120392.9.

Pursuant to its standardized procedures and if it has the vaccine in its possession, each year, commencing October 1 to the following April 1, inclusive, a general acute care hospital, as defined in subdivision (a) of Section 1250, shall offer, prior to discharge, immunizations for influenza and pneumococcal disease to inpatients, aged 65 years or older, based upon the adult immunization recommendations of the Advisory Committee on Immunization Practices of the federal Centers for Disease Control and Prevention, and the recommendations of appropriate entities for the prevention, detection, and control of influenza outbreaks in California general acute care hospitals.

(Added by Stats. 2007, Ch. 378, Sec. 1. Effective January 1, 2008.)

120393.

(a)The State Department of Public Health shall post educational information, in accordance with the latest recommendations of the federal Centers for Disease Control and Prevention, regarding influenza disease and the availability of influenza vaccinations on the departmentsInternet Web site. It is the intent of the

Legislature to increase the average number of Californians who receive an influenza vaccination.

(b)The educational information posted on the departmentsInternet Web site pursuant to subdivision (a) shall include, but not be limited to, all of the following:

(1)The health benefits of an influenza vaccination.

(2)That the influenza vaccination may be a covered benefit for those with health insurance coverage.

(3)That influenza vaccinations may be available for a minimal fee to those individuals who do not have health insurance coverage.

(4)The locations where free or low-cost vaccinations are available.

(c)The department may use additional available resources to educate the public about the information described in subdivision (b), including public service announcements, media events, public outreach to individuals and groups who are susceptible to influenza, and any other preventive and wellness education efforts recommended by public health officials.

(Amended by Stats. 2015, Ch. 303, Sec. 349. (AB 731) Effective January 1, 2016.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 2. IMMUNIZATIONS [120325 - 120480]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1.7. Meningococcal Immunization [120395 - 120399]__

(Chapter 1.7 added by Stats. 2001, Ch. 372, Sec. 1.)

120395.

(a)The State Department of Public Health shall, no later than April 1, 2010, develop information about meningococcal disease, including information pertaining to children who are between 11 and 18 years of age. The information may include a recommendation that children between 11 and 18 years of age be vaccinated. The information shall include:

(1)Information about meningococcal disease, including symptoms, risks, and treatment.

(2)Notice of the availability, benefits, risks, and limitations of a meningococcus vaccination, with specific information as to those persons at higher risk for the disease.

(b)The department shall make available to each degree-granting public and private postsecondary institution, upon the request of that institution, information developed by the department on meningococcal disease.

(c)The department shall also send an information notice to each school district advising each school district of the availability of information developed by the department, and shall make the information available to any school district upon the request of that school district.

(d)The department may also use the information developed to design and implement a public awareness campaign about meningococcal disease to reach members of the population identified as being at high risk for contracting the disease.

(e)The State Department of Education may add the above-described information about meningococcal disease to any health education material that is sent home to parents of students who are at least 11 years of age.

(Amended by Stats. 2009, Ch. 176, Sec. 2. (SB 249) Effective January 1, 2010.)

120396.

Each degree-granting public postsecondary educational institution that provides on-campus housing in the state shall, beginning with the 2002“03 school year, do all of the following:

(a) Provide information on meningococcal disease developed pursuant to Section 120395 to each incoming freshman who has been accepted for admission to the postsecondary educational institution and who will be residing in on-campus housing. The information shall include a response form with space in which to indicate that the incoming freshman has received the information about meningococcal disease and the availability of the vaccine to prevent one from contracting the disease. The form shall include space for the incoming freshman to indicate whether or not he or she has chosen to receive the vaccination, and a space for his or her signature.

(b) Require each incoming freshman to return to the postsecondary educational institution a form with a response as to whether the person received the information, and whether or not the person chooses to receive the vaccination.

(c) Maintain the completed forms received from students in accord with the institutionshealth care records

policy.

(d) Nothing in this section shall be construed to require the postsecondary educational institution to provide the vaccination to the students.

(Added by Stats. 2001, Ch. 372, Sec. 1. Effective January 1, 2002.)

120397.

Each degree-granting private postsecondary educational institution that provides on-campus housing in the state shall adopt a policy to notify all incoming students about meningococcal disease and the availability of the vaccination, beginning with the 2002"03 school year. The Legislature encourages those institutions to consider all of the following in adopting the policy:

(a) Providing information on meningococcal disease developed pursuant to Section 120395 to each prospective student who has been accepted for admission to the postsecondary institution prior to the studentsmatriculation into the institution. The information may include a response form with space in which to indicate that the prospective student has received the information about meningococcal disease and the availability of the vaccine to prevent one from contracting the disease. The form shall include space for the prospective student to indicate whether or not he or she has chosen to receive the vaccination, and a space for his or her signature.

(b) Requiring each prospective student to return to the postsecondary educational institution a form with a response as to whether or not the person received the information, and whether or not the person chooses to receive the vaccination.

(c) Maintaining the completed forms received from students in accordance with the institutionshealth care records policy.

(d) Nothing in this section shall be construed to require the postsecondary educational institution to provide the vaccination to students.

(Added by Stats. 2001, Ch. 372, Sec. 1. Effective January 1, 2002.)

120398.

Each public and private postsecondary educational institution shall maintain the confidentiality of information obtained pursuant to Section 120396 or 120397 in the same manner as other confidential student information is maintained by the institution. Each institution is subject to civil action and criminal penalties for the wrongful disclosure of the information, in accordance with other provisions of law.

(Added by Stats. 2001, Ch. 372, Sec. 1. Effective January 1, 2002.)

120399.

No provision of this chapter shall apply to the University of California except to the extent that the Regents of the University of California, by appropriate resolution, make applicable the provision of the chapter.

(Added by Stats. 2001, Ch. 372, Sec. 1. Effective January 1, 2002.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 2. IMMUNIZATIONS [120325 - 120480]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 2. Department of Health Services Provision of Funds, Immunibiologics, and Access to Immunibiologics [120400 - 120435]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 7.)

120400.

The department may establish an immunization outreach program.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120405.

(a) A local health officer, or consortium of local health officers, may establish permanent, temporary, or mobile sites and programs, for the purpose of immunizing children, or performing outreach to refer parents to other programs that provide immunizations and comprehensive health services. These sites for referral or immunization may include, but are not limited to, the following:

(1) Public places where parents of children at high risk of remaining unimmunized reside, shop, worship, or recreate.

(2) School grounds, either during regular hours, or evening hours or on weekends.

(3) On or adjacent to sites of public- or community-based agencies or programs that either provide or refer persons to public assistance programs or services.

(b) Outreach programs shall, to the extent feasible, include referral components intended to link immunized children with available public or private primary care providers, in order to increase access to continuing pediatric care, including subsequent immunization services as necessary.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120410.

The population to be targeted by the program shall include children who do not receive immunizations through private third-party sources or other public sources with priority given to infants and children from birth up to age three. Outreach programs shall include information to the families of children being immunized about possible reactions to the vaccine and about followup referral sources.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120415.

The Health and Welfare Agency may waive state administrative, eligibility, and billing requirements that apply to other public assistance programs through which immunization and comprehensive health services outreach and vaccination are offered, for counties that establish streamlined administrative, eligibility, billing, and referral procedures between those public assistance programs, and the immunization and comprehensive health services programs established pursuant to Sections 120400 through 120415, inclusive.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120420.

The department shall provide financial assistance to county and areawide immunization campaigns under the direction of local health officers for the prevention of rubella.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120425.

All moneys appropriated to the department for the purposes of this section and Section 120420 shall be made available to local health departments, as defined in Section 101185, or to areawide associations of local health departments. All moneys received by the local departments or areawide associations shall be utilized only for the purchase of rubella vaccines, other necessary supplies and equipment for rubella immunization campaigns, and promotional costs of these campaigns. No moneys appropriated for the purpose of this section and Section 120420 shall be used by the department or by any local department or areawide association for administrative purposes, and these moneys may not be used to supplant or support local health department clinics and programs already regularly operated by the departments, but may be used only for additional county or areawide rubella immunization campaigns. All moneys appropriated for the purposes of this section and Section 120420 shall be expended by March 31, 1971.

(Amended by Stats. 2006, Ch. 538, Sec. 438. Effective January 1, 2007.)

120430.

(a) The Legislature finds and declares that 1990 marks one of the worst measles epidemics in recent history and that this epidemic threatens the health and safety of our schoolaged children.

The Legislature finds and declares that, according to the Center for Disease Control and the American Academy of Pediatrics, current medical technology suggests that in order to be fully immunized against measles, children should receive two doses of the immunization agent for measles before the age of seven years.

It is the intent of the Legislature to ensure that all possible steps are taken to combat the spread of any disease through California schools.

(b) The department, in consultation with the State Department of Education, shall develop and adopt regulations to ensure that every student in any private or public elementary or secondary school, child care center, day nursery, nursery school, or development center shall have access to full immunization against measles, as determined by the Center for Disease Control, to the extent funds are available.

Priority shall be given to children who have not received any type of measles immunization.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120435.

The department shall purchase or prepare, and distribute free of cost, under any regulations as may be necessary, anti-rabic virus to be used in the treatment of persons exposed to rabies when they declare that it would be a hardship for them to pay for anti-rabic treatment.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 2. IMMUNIZATIONS [120325 - 120480]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 2.5. Disclosure of Immunization Status [120440- 120440.]__

(Heading of Chapter 2.5 renamed from Article 3 (and relocated from Chapter 7 of Division 4) by Stats. 1996, Ch. 1023, Sec. 180.)

120440.

(a)For the purposes of this chapter, the following definitions shall apply:

(1)Health care provider means any person licensed pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code or a clinic or health facility licensed pursuant to Division 2 (commencing with Section 1200).

(2)Schools, childcare facilities, and family childcare homes means those institutions referred to in subdivision (b) of Section 120335, regardless of whether they directly provide immunizations to patients or clients.

(3)WIC service provider means any public or private nonprofit agency contracting with the department to provide services under the California Special Supplemental Food Program for Women, Infants, and Children, as provided for in Article 2 (commencing with Section 123275) of Chapter 1 of Part 2 of Division 106.

(4)Health care plan means a health care service plan as defined in subdivision (f) of Section 1345, a government-funded program the purpose of which is paying the costs of health care, or an insurer as described in Sections 10123.5 and 10123.55 of the Insurance Code, regardless of whether the plan directly provides immunizations to patients or clients.

(5)County human services agency means a county welfare agency administering the California Work Opportunity and Responsibility to Kids (CalWORKs) program, pursuant to Chapter 2 (commencing with

Section 11200.5) of Part 3 of Division 9 of the Welfare and Institutions Code.

(6)Foster care agency means any of the county and state social services agencies providing foster care services in California.

(7)Tuberculosis screening means an approved intradermal tuberculin test or any other test for tuberculosis infection that is recommended by the federal Centers for Disease Control and Prevention and licensed by the federal Food and Drug Administration.

(b)(1)Local health officers may operate immunization information systems pursuant to their authority under Section 120175, in conjunction with the Immunization Branch of the State Department of Public Health. Local health officers and the State Department of Public Health may operate these systems in either or both of the following manners:

(A)Separately within their individual jurisdictions.

(B)Jointly among more than one jurisdiction.

(2)This subdivision does not preclude local health officers from sharing the information set forth in paragraphs (1) to (12), inclusive, of subdivision (c) with other health officers jointly operating the system.

(c)Notwithstanding Sections 49075 and 49076 of the Education Code, Chapter 5 (commencing with Section 10850) of Part 2 of Division 9 of the Welfare and Institutions Code, or any other provision of law, unless a refusal to permit recordsharing is made pursuant to subdivision (e), health care providers, and other agencies, including, but not limited to, schools, childcare facilities, service providers for the California Special Supplemental Food Program for Women, Infants, and Children (WIC), health care plans, foster care agencies, and county human services agencies, shall disclose the information set forth in paragraphs (1) to (12), inclusive, from the patientsmedical record, or the clientsrecord, to local health departments operating countywide or regional immunization information and reminder systems and the State Department of Public Health. Local health departments and the State Department of Public Health may disclose the information set forth in paragraphs (1) to (12), inclusive, to each other and, upon a request for information pertaining to a specific person, to health care providers taking care of the patient and to the Medical Board of California and the Osteopathic Medical Board of California. Local health departments and the State Department of Public Health may disclose the information in paragraphs (1) to (7), inclusive, and paragraphs (9) to (12), inclusive, to schools, childcare facilities, county human services agencies, and family childcare homes to which the person is being admitted or in attendance, foster care agencies in assessing and providing medical care for children in foster care, and WIC service providers providing services to the person, health care plans arranging for immunization services for the patient, and county human services agencies assessing immunization histories of dependents of CalWORKs participants, upon request for information pertaining to a specific person. Determination of benefits based upon immunization of a dependent CalWORKs participant shall be made pursuant to Section 11265.8 of the Welfare and Institutions Code. The following information shall be subject to this subdivision:

(1)The name of the patient or client and names of the parents or guardians of the patient or client.

(2)Date of birth of the patient or client.

(3)Types and dates of immunizations received by the patient or client.

(4)Manufacturer and lot number for each immunization received.

(5)Adverse reaction to immunizations received.

(6)Other nonmedical information necessary to establish the patientsor clientsunique identity and record.

(7)Results of tuberculosis screening.

(8)Current address and telephone number of the patient or client and the parents or guardians of the patient or client.

(9)Patientsor clientsgender.

(10)Patientsor clientsplace of birth.

(11)Patientsor clientsrace and ethnicity.

(12)Patientsor clientsinformation needed to comply with Chapter 1 (commencing with Section 120325), but excluding Section 120380.

(d)(1)Health care providers, local health departments, and the State Department of Public Health shall maintain the confidentiality of information listed in subdivision (c) in the same manner as other medical record information with patient identification that they possess. These providers, departments, and contracting agencies are subject to civil action and criminal penalties for the wrongful disclosure of the information listed in subdivision (c), in accordance with existing law. They shall use the information listed in subdivision (c) only for the following purposes:

(A)To provide immunization services to the patient or client, including issuing reminder notifications to patients or clients or their parents or guardians when immunizations are due.

(B)To provide or facilitate provision of third-party payer payments for immunizations.

(C)To compile and disseminate statistical information of immunization status on groups of patients or clients or populations in California, without identifying information for these patients or clients included in these groups or populations.

(D)In the case of health care providers only, as authorized by Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code.

(2)Schools, childcare facilities, family childcare homes, WIC service providers, foster care agencies, county human services agencies, and health care plans shall maintain the confidentiality of information listed in subdivision (c) in the same manner as other client, patient, and pupil information that they possess. These institutions and providers are subject to civil action and criminal penalties for the wrongful disclosure of the information listed in subdivision (c), in accordance with existing law. They shall use the information listed in subdivision (c) only for those purposes provided in subparagraphs (A) to (D), inclusive, of paragraph (1) and as follows:

(A)In the case of schools, childcare facilities, family childcare homes, and county human services agencies, to carry out their responsibilities regarding required immunization for attendance or participation benefits, or both, as described in Chapter 1 (commencing with Section 120325), and in Section 11265.8 of the Welfare and Institutions Code.

(B)In the case of WIC service providers, to perform immunization status assessments of clients and to refer

those clients found to be due or overdue for immunizations to health care providers.

(C)In the case of health care plans, to facilitate payments to health care providers, to assess the immunization status of their clients, and to tabulate statistical information on the immunization status of groups of patients, without including patient-identifying information in these tabulations.

(D)In the case of foster care agencies, to perform immunization status assessments of foster children and to assist those foster children found to be due or overdue for immunization in obtaining immunizations from health care providers.

(E)(i)In the case of schools, childcare facilities, family childcare homes, and county human services agencies, for the COVID-19 public health emergency, to perform immunization status assessments of pupils, adults, and clients to ensure health and safety.

(ii)In the case of schools, this subparagraph only applies if the schoolsgoverning board or body has adopted a policy mandating COVID-19 immunization for school attendance and the school limits the use of the data to verifying immunization status for this purpose.

(e)A patient or a patientsparent or guardian may refuse to permit recordsharing. The health care provider administering immunization and any other agency possessing any patient or client information listed in subdivision (c), if planning to provide patient or client information to an immunization system, as described in subdivision (b), shall inform the patient or client, or the parent or guardian of the patient or client, of the following:

(1)The information listed in subdivision (c) shall be shared with local health departments and the State Department of Public Health. The health care provider or other agency shall provide the name and address of the State Department of Public Health or of the immunization registry with which the provider or other agency will share the information.

(2)Any of the information shared with local health departments and the State Department of Public Health shall be treated as confidential medical information and shall be used only to share with each other, and, upon request, with health care providers, schools, childcare facilities, family childcare homes, WIC service providers, county human services agencies, foster care agencies, and health care plans. These providers, agencies, and institutions shall, in turn, treat the shared information as confidential, and shall use it only as described in subdivision (d).

(3)The patient or client, or parent or guardian of the patient or client, has the right to examine any immunization-related information or tuberculosis screening results shared pursuant to this section and to correct any errors in it.

(4)The patient or client, or the parent or guardian of the patient or client, may refuse to allow this information to be shared pursuant to this section or to receive immunization reminder notifications at any time, or both. After refusal, the patientsor clientsphysician may maintain access to this information for the purposes of patient care or protecting the public health. After refusal, the local health department and the State Department of Public Health may maintain access to this information for the purpose of protecting the public health pursuant to Sections 100325, 120140, and 120175, as well as Sections 2500 to 2643.20, inclusive, of Title 17 of the California Code of Regulations.

(f)(1)The health care provider administering the immunization or tuberculosis screening and any other agency possessing any patient or client information listed in subdivision (c), may inform the patient or client, or the parent or guardian of the patient or client, by ordinary mail, of the information in paragraphs (1) to (4),

inclusive, of subdivision (e). The mailing shall include a reasonable means for refusal, such as a return form or contact telephone number.

(2)The information in paragraphs (1) to (4), inclusive, of subdivision (e) may also be presented to the parent or guardian of the patient or client during any hospitalization of the patient or client.

(g)If the patient or client, or parent or guardian of the patient or client, refuses to allow the information to be shared, pursuant to paragraph (4) of subdivision (e), the health care provider or other agency may not share this information in the manner described in subdivision (c), except as provided in subparagraph (D) of paragraph (1) of subdivision (d).

(h)(1)Upon request of the patient or client, or the parent or guardian of the patient or client, in writing or by other means acceptable to the recipient, a local health department or the State Department of Public Health that has received information about a person pursuant to subdivision (c) shall do all of the following:

(A)Provide the name and address of other persons or agencies with whom the recipient has shared the information.

(B)Stop sharing the information in its possession after the date of the receipt of the request.

(2)After refusal, the patientsor clientsphysician may maintain access to this information for the purposes of patient care or protecting the public health. After refusal, the local health department and the State Department of Public Health may maintain access to this information for the purpose of protecting the public health pursuant to Sections 100325, 120140, and 120175, as well as Sections 2500 to 2643.20, inclusive, of Title 17 of the California Code of Regulations.

(i)Upon notification, in writing or by other means acceptable to the recipient, of an error in the information, a local health department or the State Department of Public Health that has information about a person pursuant to subdivision (c) shall correct the error. If the recipient is aware of a disagreement about whether an error exists, information to that effect may be included.

(j)(1)Any party authorized to make medical decisions for a patient or client, including, but not limited to, those authorized by Section 6922, 6926, or 6927 of, Part 1.5 (commencing with Section 6550), Chapter 2 (commencing with Section 6910) of Part 4, or Chapter 1 (commencing with Section 7000) of Part 6, of Division 11 of, the Family Code, Section 1530.6 of the Health and Safety Code, or Sections 727 and 1755.3 of, and Article 6 (commencing with Section 300) of Chapter 2 of Part 1 of Division 2 of, the Welfare and Institutions Code, may permit sharing of the patientsor clientsrecord with any of the immunization information systems authorized by this section.

(2)For a patient or client who is a dependent of a juvenile court, the court or a person or agency designated by the court may permit this recordsharing.

(3)For a patient or client receiving foster care, a person or persons licensed to provide residential foster care, or having legal custody, may permit this recordsharing.

(k)For purposes of supporting immunization information systems, the State Department of Public Health shall assist the Immunization Branch of the State Department of Public Health in both of the following:

(1)Providing department records containing information about publicly funded immunizations.

(2)Supporting efforts for the reporting of publicly funded immunizations into immunization information

systems by health care providers and health care plans.

(l)Subject to any other provisions of state and federal law or regulation that limit the disclosure of health information and protect the privacy and confidentiality of personal information, local health departments and the State Department of Public Health may share the information listed in subdivision (c) with a state, local health departments, health care providers, immunization information systems, or any representative of an entity designated by federal or state law or regulation to receive this information. The State Department of Public Health may enter into written agreements to exchange confidential immunization information with other states for the purposes of patient care, protecting the public health, entrance into school, childcare and other institutions requiring immunization prior to entry, and the other purposes described in subdivision (d). The written agreement shall provide that the state that receives confidential immunization information must maintain its confidentiality and may only use it for purposes of patient care, protecting the public health, entrance into school, childcare and other institutions requiring immunization prior to entry, and the other purposes described in subdivision (d). Information shall not be shared pursuant to this subdivision if a patient or client, or parent or guardian of a patient or client, refuses to allow the sharing of immunization information pursuant to subdivision (e).

(m)This section shall remain in effect only until January 1, 2026, and as of that date is repealed.

(Amended by Stats. 2022, Ch. 582, Sec. 1. (AB 1797) Effective January 1, 2023. Repealed as of January 1, 2026, by its own provisions. See later operative version added by Sec. 2 of Stats. 2022, Ch. 582.)

120440.

(a)For the purposes of this chapter, the following definitions shall apply:

(1)Health care provider means any person licensed pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code or a clinic or health facility licensed pursuant to Division 2 (commencing with Section 1200).

(2)Schools, childcare facilities, and family childcare homes means those institutions referred to in subdivision (b) of Section 120335, regardless of whether they directly provide immunizations to patients or clients.

(3)WIC service provider means any public or private nonprofit agency contracting with the department to provide services under the California Special Supplemental Food Program for Women, Infants, and Children, as provided for in Article 2 (commencing with Section 123275) of Chapter 1 of Part 2 of Division 106.

(4)Health care plan means a health care service plan as defined in subdivision (f) of Section 1345, a government-funded program the purpose of which is paying the costs of health care, or an insurer as described in Sections 10123.5 and 10123.55 of the Insurance Code, regardless of whether the plan directly provides immunizations to patients or clients.

(5)County human services agency means a county welfare agency administering the California Work Opportunity and Responsibility to Kids (CalWORKs) program, pursuant to Chapter 2 (commencing with Section 11200.5) of Part 3 of Division 9 of the Welfare and Institutions Code.

(6)Foster care agency means any of the county and state social services agencies providing foster care services in California.

(7)Tuberculosis screening means an approved intradermal tuberculin test or any other test for tuberculosis infection that is recommended by the federal Centers for Disease Control and Prevention and licensed by the federal Food and Drug Administration.

(b)(1)Local health officers may operate immunization information systems pursuant to their authority under Section 120175, in conjunction with the Immunization Branch of the State Department of Public Health. Local health officers and the State Department of Public Health may operate these systems in either or both of the following manners:

(A)Separately within their individual jurisdictions.

(B)Jointly among more than one jurisdiction.

(2)This subdivision does not preclude local health officers from sharing the information set forth in paragraphs (1) to (12), inclusive, of subdivision (c) with other health officers jointly operating the system.

(c)Notwithstanding Sections 49075 and 49076 of the Education Code, Chapter 5 (commencing with Section 10850) of Part 2 of Division 9 of the Welfare and Institutions Code, or any other provision of law, unless a refusal to permit recordsharing is made pursuant to subdivision (e), health care providers, and other agencies, including, but not limited to, schools, childcare facilities, service providers for the California Special Supplemental Food Program for Women, Infants, and Children (WIC), health care plans, foster care agencies, and county human services agencies, shall disclose the information set forth in paragraphs (1) to (12), inclusive, from the patientsmedical record, or the clientsrecord, to local health departments operating countywide or regional immunization information and reminder systems and the State Department of Public Health. Local health departments and the State Department of Public Health may disclose the information set forth in paragraphs (1) to (12), inclusive, to each other and, upon a request for information pertaining to a specific person, to health care providers taking care of the patient and to the Medical Board of California and the Osteopathic Medical Board of California. Local health departments and the State Department of Public Health may disclose the information in paragraphs (1) to (7), inclusive, and paragraphs (9) to (12), inclusive, to schools, childcare facilities, county human services agencies, and family childcare homes to which the person is being admitted or in attendance, foster care agencies in assessing and providing medical care for children in foster care, and WIC service providers providing services to the person, health care plans arranging for immunization services for the patient, and county human services agencies assessing immunization histories of dependents of CalWORKs participants, upon request for information pertaining to a specific person. Determination of benefits based upon immunization of a dependent CalWORKs participant shall be made pursuant to Section 11265.8 of the Welfare and Institutions Code. The following information shall be subject to this subdivision:

(1)The name of the patient or client and names of the parents or guardians of the patient or client.

(2)Date of birth of the patient or client.

(3)Types and dates of immunizations received by the patient or client.

(4)Manufacturer and lot number for each immunization received.

(5)Adverse reaction to immunizations received.

(6)Other nonmedical information necessary to establish the patientsor clientsunique identity and record.

(7)Results of tuberculosis screening.

(8)Current address and telephone number of the patient or client and the parents or guardians of the patient or client.

(9)Patientsor clientsgender.

(10)Patientsor clientsplace of birth.

(11)Patientsor clientsrace and ethnicity.

(12)Patientsor clientsinformation needed to comply with Chapter 1 (commencing with Section 120325), but excluding Section 120380.

(d)(1)Health care providers, local health departments, and the State Department of Public Health shall maintain the confidentiality of information listed in subdivision (c) in the same manner as other medical record information with patient identification that they possess. These providers, departments, and contracting agencies are subject to civil action and criminal penalties for the wrongful disclosure of the information listed in subdivision (c), in accordance with existing law. They shall use the information listed in subdivision (c) only for the following purposes:

(A)To provide immunization services to the patient or client, including issuing reminder notifications to patients or clients or their parents or guardians when immunizations are due.

(B)To provide or facilitate provision of third-party payer payments for immunizations.

(C)To compile and disseminate statistical information of immunization status on groups of patients or clients or populations in California, without identifying information for these patients or clients included in these groups or populations.

(D)In the case of health care providers only, as authorized by Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code.

(2)Schools, childcare facilities, family childcare homes, WIC service providers, foster care agencies, county human services agencies, and health care plans shall maintain the confidentiality of information listed in subdivision (c) in the same manner as other client, patient, and pupil information that they possess. These institutions and providers are subject to civil action and criminal penalties for the wrongful disclosure of the information listed in subdivision (c), in accordance with existing law. They shall use the information listed in subdivision (c) only for those purposes provided in subparagraphs (A) to (D), inclusive, of paragraph (1) and as follows:

(A)In the case of schools, childcare facilities, family childcare homes, and county human services agencies, to carry out their responsibilities regarding required immunization for attendance or participation benefits, or both, as described in Chapter 1 (commencing with Section 120325), and in Section 11265.8 of the Welfare and Institutions Code.

(B)In the case of WIC service providers, to perform immunization status assessments of clients and to refer those clients found to be due or overdue for immunizations to health care providers.

(C)In the case of health care plans, to facilitate payments to health care providers, to assess the immunization status of their clients, and to tabulate statistical information on the immunization status of groups of

patients, without including patient-identifying information in these tabulations.

(D)In the case of foster care agencies, to perform immunization status assessments of foster children and to assist those foster children found to be due or overdue for immunization in obtaining immunizations from health care providers.

(e)A patient or a patientsparent or guardian may refuse to permit recordsharing. The health care provider administering immunization and any other agency possessing any patient or client information listed in subdivision (c), if planning to provide patient or client information to an immunization system, as described in subdivision (b), shall inform the patient or client, or the parent or guardian of the patient or client, of the following:

(1)The information listed in subdivision (c) shall be shared with local health departments and the State Department of Public Health. The health care provider or other agency shall provide the name and address of the State Department of Public Health or of the immunization registry with which the provider or other agency will share the information.

(2)Any of the information shared with local health departments and the State Department of Public Health shall be treated as confidential medical information and shall be used only to share with each other, and, upon request, with health care providers, schools, childcare facilities, family childcare homes, WIC service providers, county human services agencies, foster care agencies, and health care plans. These providers, agencies, and institutions shall, in turn, treat the shared information as confidential, and shall use it only as described in subdivision (d).

(3)The patient or client, or parent or guardian of the patient or client, has the right to examine any immunization-related information or tuberculosis screening results shared pursuant to this section and to correct any errors in it.

(4)The patient or client, or the parent or guardian of the patient or client, may refuse to allow this information to be shared pursuant to this section or to receive immunization reminder notifications at any time, or both. After refusal, the patientsor clientsphysician may maintain access to this information for the purposes of patient care or protecting the public health. After refusal, the local health department and the State Department of Public Health may maintain access to this information for the purpose of protecting the public health pursuant to Sections 100325, 120140, and 120175, as well as Sections 2500 to 2643.20, inclusive, of Title 17 of the California Code of Regulations.

(f)(1)The health care provider administering the immunization or tuberculosis screening and any other agency possessing any patient or client information listed in subdivision (c), may inform the patient or client, or the parent or guardian of the patient or client, by ordinary mail, of the information in paragraphs (1) to (4), inclusive, of subdivision (e). The mailing shall include a reasonable means for refusal, such as a return form or contact telephone number.

(2)The information in paragraphs (1) to (4), inclusive, of subdivision (e) may also be presented to the parent or guardian of the patient or client during any hospitalization of the patient or client.

(g)If the patient or client, or parent or guardian of the patient or client, refuses to allow the information to be shared, pursuant to paragraph (4) of subdivision (e), the health care provider or other agency may not share this information in the manner described in subdivision (c), except as provided in subparagraph (D) of paragraph (1) of subdivision (d).

(h)(1)Upon request of the patient or client, or the parent or guardian of the patient or client, in writing or by

other means acceptable to the recipient, a local health department or the State Department of Public Health that has received information about a person pursuant to subdivision (c) shall do all of the following:

(A)Provide the name and address of other persons or agencies with whom the recipient has shared the information.

(B)Stop sharing the information in its possession after the date of the receipt of the request.

(2)After refusal, the patientsor clientsphysician may maintain access to this information for the purposes of patient care or protecting the public health. After refusal, the local health department and the State Department of Public Health may maintain access to this information for the purpose of protecting the public health pursuant to Sections 100325, 120140, and 120175, as well as Sections 2500 to 2643.20, inclusive, of Title 17 of the California Code of Regulations.

(i)Upon notification, in writing or by other means acceptable to the recipient, of an error in the information, a local health department or the State Department of Public Health that has information about a person pursuant to subdivision (c) shall correct the error. If the recipient is aware of a disagreement about whether an error exists, information to that effect may be included.

(j)(1)Any party authorized to make medical decisions for a patient or client, including, but not limited to, those authorized by Section 6922, 6926, or 6927 of, Part 1.5 (commencing with Section 6550), Chapter 2 (commencing with Section 6910) of Part 4, or Chapter 1 (commencing with Section 7000) of Part 6, of Division 11 of, the Family Code, Section 1530.6 of the Health and Safety Code, or Sections 727 and 1755.3 of, and Article 6 (commencing with Section 300) of Chapter 2 of Part 1 of Division 2 of, the Welfare and Institutions Code, may permit sharing of the patientsor clientsrecord with any of the immunization information systems authorized by this section.

(2)For a patient or client who is a dependent of a juvenile court, the court or a person or agency designated by the court may permit this recordsharing.

(3)For a patient or client receiving foster care, a person or persons licensed to provide residential foster care, or having legal custody, may permit this recordsharing.

(k)For purposes of supporting immunization information systems, the State Department of Public Health shall assist the Immunization Branch of the State Department of Public Health in both of the following:

(1)Providing department records containing information about publicly funded immunizations.

(2)Supporting efforts for the reporting of publicly funded immunizations into immunization information systems by health care providers and health care plans.

(l)Subject to any other provisions of state and federal law or regulation that limit the disclosure of health information and protect the privacy and confidentiality of personal information, local health departments and the State Department of Public Health may share the information listed in subdivision (c) with a state, local health departments, health care providers, immunization information systems, or any representative of an entity designated by federal or state law or regulation to receive this information. The State Department of Public Health may enter into written agreements to exchange confidential immunization information with other states for the purposes of patient care, protecting the public health, entrance into school, childcare and other institutions requiring immunization prior to entry, and the other purposes described in subdivision (d). The written agreement shall provide that the state that receives confidential immunization information must maintain its confidentiality and may only use it for purposes of patient care, protecting the public health,

entrance into school, childcare and other institutions requiring immunization prior to entry, and the other purposes described in subdivision (d). Information shall not be shared pursuant to this subdivision if a patient or client, or parent or guardian of a patient or client, refuses to allow the sharing of immunization information pursuant to subdivision (e).

(m)This section shall become operative on January 1, 2026.

(Repealed (in Sec. 1) and added by Stats. 2022, Ch. 582, Sec. 2. (AB 1797) Effective January 1, 2023. Operative January 1, 2026, by its own provisions.)

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 7.)

120475.

On or before March 15 on a biennial basis, the department shall submit a report to the Legislature on all of the following issues:

(a) The immunization status of young children in the state, based on available data.

(b) The steps taken to strengthen immunization efforts.

(c) The steps taken to improve immunization levels among currently underserved minority children, young children in family day care and other child care settings, and children with no health insurance coverage.

(d) The improvements made in ongoing methods of immunization outreach and education in communities where immunization levels are disproportionately low.

(e) Its recommendations for a comprehensive strategy for fully immunizing all California children and its

analysis of the funding necessary to implement the strategy.

(Amended by Stats. 2022, Ch. 47, Sec. 13. (SB 184) Effective June 30, 2022.)

__CHAPTER 5. Vaccine Development [120480- 120480.]__

(Chapter 5 added by Stats. 1998, Ch. 709, Sec. 3.)

120480.

(a) Funds appropriated in the Budget Act of 1998, and any other appropriations, to the State Department of Health Services for the purpose of valley fever (coccidioidomycosis) vaccine research shall be used to continue and expand the current research effort being conducted by the Valley Fever Vaccine Project.

(b) The department shall augment and amend the existing contract to support research into the development of a vaccine to protect against valley fever. The department may contract on a sole source basis with a nonprofit organization that has provided funding for vaccine research on valley fever. The contract shall require the organization to distribute research grants to support research efforts that are likely to advance the effort to develop a vaccine. This contract shall not be subject to review by the Department of General Services.

(c) The contractor shall establish an advisory group consisting of persons with relevant expertise in the fields of mycology and vaccine development and a representative from the department. The advisory group shall approve grants for those whose research is likely to advance the effort to develop a safe and effective vaccine. The contractor shall seek advice from the appropriate agencies in the National Institutes of Health and other federal agencies with experience in supporting vaccine research when reviewing the research of those receiving funds under this section. Funding awards shall be made so as to complement financial support provided by the federal government.

(d) The contractor shall provide the department with periodic status reports on the progress of the researchers receiving funds pursuant to this section. The department shall review progress reports from the contractor describing the research progress and plans for future funding.

(e) The contract shall require that funding is provided on the condition that, if a valley fever vaccine is developed and successfully marketed, the state shall be reimbursed for the cost of grants made under this section in proportion to the statescontribution to the research and development effort.

(Amended by Stats. 2001, Ch. 751, Sec. 1.5. Effective January 1, 2002.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 3. SEXUALLY TRANSMITTED DISEASE [120500 - 120750]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1. Prevention and Control [120500 - 120605]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 7.)

120500.

As used in the Communicable Disease Prevention and Control Act (Section 27) venereal diseases means syphilis, gonorrhea, chancroid, lymphopathia venereum, granuloma inguinale, and chlamydia.

(Amended by Stats. 2000, Ch. 835, Sec. 4. Effective January 1, 2001.)

120505.

The department shall develop and review plans and provide leadership and consultation for, and participate in, a program for the prevention and control of venereal disease.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120510.

The department shall cooperate in the prevention, control, and cure of venereal diseases with physicians and surgeons; medical schools; public and private hospitals, dispensaries, and clinics; public and private school, college and university authorities; penal and charitable institutions; reform and industrial schools; detention homes; federal, state, local and district health officers, and boards of health, and all other health authorities; institutions caring for the mentally ill; and with any other persons, institutions, or agencies.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120511.

(a)The department shall allocate funds to local health jurisdictions for sexually transmitted disease prevention and control activities in accordance, to the extent possible, with the following:

(1)Local health jurisdictions shall be prioritized based on population and incidence of sexually transmitted diseases.

(2)Funds shall be allocated to prioritized local health jurisdictions in a manner that balances the need to spread funding to as many local health jurisdictions, community-based organizations, and nonprofit health care providers as possible and the need to provide meaningful activities to each recipient. No less than 50 percent of the funds allocated to local health jurisdictions shall be provided to, or used to support activities in partnership with, community-based organizations or nonprofit health care providers, provided that there are community-based organizations or nonprofit health care providers in the jurisdiction that can conduct the activities and provide these services consistent with this section.

(3)Each local health jurisdiction shall demonstrate to the department that the community-based organization or nonprofit health care provider that receives funding under this section has done all of the following:

(A)Identified priority target populations.

(B)Satisfactorily described its outreach protocols.

(C)Included community resources for prevention and control activities.

(D)Engaged representatives from impacted communities in the development of outreach activities.

(4)Local health jurisdiction shall use these funds to facilitate expanded access to sexually transmitted infection (STI) clinical services, including, but not limited to, LBGTQ+ populations, including those who face confidentiality barriers in using their health coverage to receive STI testing, treatment, and related care.

(5)The department shall develop measures for each local health jurisdiction funded pursuant to this section to demonstrate accountability.

(b)In awarding funds pursuant to subdivision (a), the department shall authorize local health jurisdictions to include innovative and impactful prevention and control activities, including, but not limited to, the following:

(1)Voluntary screening for sexually transmitted diseases among inmates and wards of county adult and juvenile correctional facilities. The department may provide assistance or guidance to the local health jurisdiction if necessary to secure participation by other county agencies.

(2)Technology, telehealth, and digital platforms and applications to enhance immediate access to screening, testing, and treatment, as well as partner activities in order to speed activities and to reduce administrative costs.

(3)State-of-the-art testing modalities that ensure swift and accurate screening for, and diagnosis of, sexually transmitted diseases.

(4)Community-based testing and disease investigation.

(5)Integrated services for STIs, viral hepatitis, human immunodeficiency virus (HIV) infection, and drug overdose, to the extent they improve health outcomes for people living with, or at risk for, STIs.

(6)Material support, including, but not limited to, sleeping bags, tarps, shelter, clothing items, and hygiene kits, to people living with, or at risk for, STIs for purposes consistent with this section.

(c)The department may use funds to support capacity building assistance for purposes consistent with this section, including integrated services for STIs, viral hepatitis, HIV, and drug overdose, to the extent they improve health outcomes for people living with, or at risk for, STIs.

(d)The department shall monitor activities in funded local health jurisdictions, based on the accountability measures required under paragraph(5) of subdivision (a), in order to assess the effectiveness of prevention and control activities efforts.

(e)It is the intent of the Legislature that the activities identified in this section are to enhance the activities that are already provided. Therefore, nothing in this section shall be construed to require the department to replace existing activities with the activities provided for in subdivision (a) or to prevent the department from adding new activities as may be appropriate.

(f)This section shall be operative only if funds are explicitly appropriated in the annual Budget Act specifically for purposes of this section.

(Amended by Stats. 2022, Ch. 47, Sec. 14. (SB 184) Effective June 30, 2022. Section conditionally operative by its own provisions.)

120515.

The department shall investigate conditions affecting the prevention and control of venereal diseases and approved procedures for prevention and control, and shall disseminate educational information relative

thereto.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120520.

The department shall conduct educational and publicity work as it may deem necessary; and, from time to time, shall cause to be issued, free of charge, copies of regulations, pamphlets, and other literature as it deems reasonably necessary.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120525.

The department may provide medical, advisory, financial, or other assistance to organizations funded pursuant to Section 120511.

(Repealed and added by Stats. 2019, Ch. 38, Sec. 21. (SB 78) Effective June 27, 2019.)

120530.

The department may furnish treatment for a case or for a group of cases in rural counties or cities upon the recommendation of the local health officer if adequate facilities for the treatment are not available in the county or city.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120535.

Any state agency conducting a public hospital shall admit acute venereal disease cases, when, in the opinion of the department or the local health officer having jurisdiction, persons infected with venereal disease may be a menace to public health.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120540.

The department may require any physician in attendance on a person infected or suspected of being infected with a venereal disease infection to submit specimens as may be designated for examination, when in its opinion the procedure is reasonably necessary to carry out the provisions and purposes of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120545.

The examination may be made in the state laboratory or in a local public health laboratory designated by the department or in a clinical laboratory that is under the immediate supervision and direction of a clinical laboratory technologist or a licensed physician and surgeon.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120550.

Nothing in this chapter limits any personsfreedom to have additional examinations made elsewhere than specified in this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120555.

Every diseased person shall give all information required by this chapter, including the name and address of any person from whom the disease may have been contracted and to whom the disease may have been transmitted.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120560.

Every diseased person shall from time to time submit to approved examinations to determine the condition of the disease.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120565.

If any person subject to proper venereal disease control measures discontinues any control procedure required by this chapter, the agency administering the procedure prior to the discontinuance shall make reasonable efforts to determine whether the person is continuing to comply with the procedure elsewhere.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120570.

If it appears reasonably likely that the person is not complying with the procedure elsewhere, the agency that was administering the procedure prior to the discontinuance shall make all reasonable efforts to induce the person to comply; and if it thereafter appears reasonably likely that he or she has failed to comply, shall report his or her name and address to the local health officer or board of health, or to the department where there is no local health officer or board.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120575.

It is the duty of the local health officers to use every available means to ascertain the existence of cases of infectious venereal diseases within their respective jurisdictions, to investigate all cases that are not, or probably are not, subject to proper control measures approved by the board, to ascertain so far as possible all sources of infection, and to take all measures reasonably necessary to prevent the transmission of infection.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120580.

Notwithstanding any other provision of law, a person employed by a public health department may perform venipuncture or skin puncture for the purpose of withdrawing blood for test purposes, upon specific authorization from a licensed physician and surgeon, even though he or she is not otherwise licensed to withdraw blood; provided that the person meets all of the following requirements:

(1) He or she works under the direction of a licensed physician and surgeon.

(2) He or she has been trained by a licensed physician and surgeon or by a licensed clinical laboratory scientist or bioanalyst in the proper procedures to be employed when withdrawing blood, in accordance with training requirements established by the department, and has a statement signed by the instructing physician and surgeon that the training has been successfully completed.

(b) Any person employed by a public health department to perform venipuncture or skin puncture shall hold a valid and current certification after the effective date of the regulations adopted pursuant to Section 1246 of the Business and Professions Code.

(Amended by Stats. 1999, Ch. 695, Sec. 5. Effective January 1, 2000.)

120582.

(a)Notwithstanding any other law, a physician and surgeon who diagnoses a sexually transmitted chlamydia, gonorrhea, or other sexually transmitted infection, as determined by the department, or recommended in

the most recent federal Centers for Disease Control and Prevention guidelines for the prevention or treatment of sexually transmitted diseases, in an individual patient may prescribe, dispense, furnish, or otherwise provide, including in a standing order, prescription antibiotic drugs to that patientssexual partner or partners without examination of that patientspartner or partners. This practice shall be known as expedited partner therapy (EPT). The department may adopt regulations to implement this section.

(b)Notwithstanding any other law, a nurse practitioner pursuant to Section 2836.1 of the Business and Professions Code, a certified nurse-midwife pursuant to Section 2746.51 of the Business and Professions Code, and a physician assistant pursuant to Section 3502.1 of the Business and Professions Code may include EPT in their practice by dispensing, furnishing, or otherwise providing, including through a standing order, prescription antibiotic drugs to the sexual partner or partners of a patient with a diagnosed sexually transmitted chlamydia, gonorrhea, or other sexually transmitted infection, as determined by the department, or recommended in the most recent federal Centers for Disease Control and Prevention guidelines for the prevention or treatment of sexually transmitted diseases, without examination of the patientssexual partner or partners.

(c)If a health care provider does not have the name of a patientssexual partner for a drug prescribed pursuant to subdivision (a) or (b), the prescription shall include the words expedited partner therapy or the letters EPT.

(d)A health care provider shall not be liable in a medical malpractice action or professional disciplinary action if the health care providersuse of EPT is in compliance with this section, except in cases of intentional misconduct, gross negligence, or wanton or reckless activity.

(e)Medi-Cal coverage of expedited partner therapy pursuant to this section shall be implemented only to the extent that the State Department of Health Care Services obtains any necessary federal approvals and federal financial participation is available and not jeopardized.

(Amended by Stats. 2021, Ch. 486, Sec. 4. (SB 306) Effective January 1, 2022.)

120585.

Local health officers may inspect and quarantine any place or person when the procedure is necessary to enforce the regulations of the board or the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120590.

It is the duty of the district attorney of the county where a violation of this chapter may occur to prosecute the person accused of the violation.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120595.

In any prosecution for a violation of any provision of this chapter, or any rule or regulation of the board made pursuant to this chapter, or in any quarantine proceeding authorized by this chapter, or in any habeas corpus or other proceeding in which the legality of the quarantine is questioned, any physician, health officer, spouse, or other person shall be competent and may be required to testify against any person against whom the prosecution or other proceeding was instituted, and the privileges provided by Sections 970, 971, 980, 994, and 1014 of the Evidence Code are not applicable to or in any such prosecution or proceeding.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120600.

Any person who refuses to give any information to make any report, to comply with any proper control measure or examination, or to perform any other duty or act required by this chapter, or who violates any provision of this chapter or any rule or regulation of the state board issued pursuant to this chapter, or who exposes any person to or infects any person with any venereal disease; or any person infected with a venereal disease in an infectious state who knows of the condition and who marries or has sexual intercourse, is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120605.

Nothing in this chapter shall be construed to interfere with the freedom of any adherent of teachings of any well-recognized religious sect, denomination, or organization to depend exclusively upon prayer for healing in accordance with the teachings of the religious sect, denomination, or organization. Any such person, along with any person treating him or her, shall be exempt from all provisions of this chapter regarding venereal diseases, except that the provisions of this code and the regulations of the board regarding compulsory reporting of communicable diseases and the quarantine of those diseases, and regarding callings that a person with venereal disease may not engage, shall apply.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 3. SEXUALLY TRANSMITTED DISEASE [120500 - 120750]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 2. Prenatal Syphilis Tests [120675 - 120715]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 7.)

120675.

Approved laboratory as used in this chapter means a laboratory approved by the department, or any other laboratory whose director is licensed by the department according to law.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120680.

Standard laboratory blood test as used in this chapter means a test for syphilis approved by the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120685.

(a)Every licensed health care professional engaged in providing prenatal care or attending a birthing patient at the time of delivery, shall provide syphilis screening and testing as outlined in the most recent guidelines published by the State Department of Public Health.

(b)This section does not limit a local health jurisdictionsability to provide additional recommendations or guidelines for syphilis screening and testing, nor does it limit the ability of a health care professional to follow other existing clinical guidelines for syphilis screening and testing recommendations, including guidelines issued by local health authorities, as long as, at minimum, the health care professional complies with subdivision (a).

(Amended by Stats. 2021, Ch. 486, Sec. 5. (SB 306) Effective January 1, 2022.)

120690.

The blood specimen thus obtained shall be submitted to an approved laboratory for a standard laboratory test for syphilis.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120695.

In submitting a specimen to a laboratory the physician shall designate it as a prenatal test or a test following recent delivery.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120700.

The laboratory shall submit the laboratory reports of records to the department as are required by regulation of the department. The health officer may destroy any copies of reports that have been retained by him or her pursuant to this section for a period of two years.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120705.

All laboratory reports are confidential, and are not open to public inspection.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120710.

In case of question concerning the accuracy of a test required by this chapter, it is mandatory upon the department to accept specimens for checking purposes from any district in the state.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120715.

Any licensed physician and surgeon, or other person engaged in attendance upon a pregnant woman or a recently delivered woman, or any representative of a laboratory who violates any provision of this chapter, is guilty of a misdemeanor. However, a licensed physician and surgeon, or other person engaged in attendance

upon a pregnant or recently delivered woman, whose request for a specimen is refused, is not guilty of a misdemeanor for failure to obtain it.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__CHAPTER 1. Definitions [120775- 120775.]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 7.)

120775.

As used in this code:

(a) AIDS means acquired immune deficiency syndrome.

(b) Human immunodeficiency virus or HIV means the etiologic virus of AIDS.

(c) HIV test means any clinical test, laboratory or otherwise, used to identify HIV, a component of HIV, or

antibodies or antigens to HIV.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1.5. State HIV Prevention and Education Funds [120780 - 120780.5]__

(Chapter 1.5 added by Stats. 2007, Ch. 707, Sec. 2.)

120780.

For purposes of this chapter, public entity includes the state, a county, city, district, public authority, public agency, and any other political subdivision or public corporation in the state.

(Added by Stats. 2007, Ch. 707, Sec. 2. Effective January 1, 2008.)

120780.1.

A public entity that receives General Fund money from the State Department of Public Health for HIV prevention and education may use that money to support clean needle and syringe exchange programs authorized pursuant to existing law. The money may be used for, but is not limited to, the purchase of sterile hypodermic needles and syringes as part of a clean needle and syringe exchange program only if all of the following conditions are met:

(a)The General Fund money used for purchasing the sterile hypodermic needles and syringes does not supplant any other public or private funds or other resources for this purpose.

(b)The amount of the General Fund money used for purchasing the sterile hypodermic needles and syringes does not exceed 7.5 percent of the total amount of the General Fund money received by the public entity for HIV prevention and education.

(c)Each dollar of General Fund money used for purchasing the sterile hypodermic needles and syringes is matched by forty-three cents ($0.43) of moneys from nonstate public funds or private funds.

(d)The allocation of General Fund money for the purchase of sterile hypodermic needles and syringes is based upon epidemiological data as reported by the health jurisdiction in its local HIV prevention plan submitted to the Office of AIDS within the department.

(Added by Stats. 2007, Ch. 707, Sec. 2. Effective January 1, 2008.)

120780.2.

In order to reduce the spread of HIV, hepatitis C, and other potentially deadly bloodborne pathogens, the State Department of Public Health may purchase sterile hypodermic needles and syringes, and other supplies, for distribution to syringe exchange programs authorized pursuant to law and support any costs associated with distribution of supplies. Supplies provided to programs, including those administered by local health departments, are not subject to the formulas and limits of Section 120780.1.

(Amended by Stats. 2021, Ch. 143, Sec. 22. (AB 133) Effective July 27, 2021.)

120780.5.

(a)Upon an appropriation in the annual Budget Act, the State Department of Public Health shall award funding, on a competitive basis, to community-based organizations or local health jurisdictions to provide comprehensive HIV prevention and control activities for the most vulnerable and underserved individuals living with, or at high risk for, HIV infection. Applicants may include individual community-based organizations and local health jurisdictions, as well as collaborations between community-based organizations and local health jurisdictions.

(b)Entities located in any county are eligible to receive grant funding.

(c)Comprehensive HIV prevention and control activities may include, but are not limited to, any of the following:

(1)HIV testing, including the purchase of HIV test kits.

(2)Linkage to and retention in care for people living with HIV.

(3)Pre-exposure prophylaxis (PrEP)-related and post-exposure prophylaxis (PEP)-related activities.

(4)Syringe services programs.

(d)The department shall determine the funding levels of each award based on scope and geographic area. Priority for grants shall be given to community-based organizations or local health jurisdictions that, through their applications, demonstrate expertise, history, and credibility at working successfully in engaging the most vulnerable and underserved individuals living with, or at high risk for, HIV infection.

(e)Funds shall be allocated in a manner that balances the need to spread funding to as many local health jurisdictions and community-based organizations as possible and the need to provide meaningful activities to each recipient. Not less than 50 percent of the funds allocated shall be provided to community-based organizations, for purposes consistent with this section.

(f)The department shall determine the application process, selection criteria, and any reporting requirements for the grant, consistent with this section.

(g)The department shall develop measures for each local health jurisdiction and community-based organization funded pursuant to this section to demonstrate accountability.

(h)This section shall be operative only if funds are explicitly appropriated in the annual Budget Act specifically for purposes of this section.

(Added by Stats. 2019, Ch. 38, Sec. 22. (SB 78) Effective June 27, 2019. Section conditionally operative by its own provisions.)

__CHAPTER 2. California Acquired Immune Deficiency Syndrome (AIDS) Program (CAP) [120800 - 120871]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 7.)

120800.

The intent of the Legislature in enacting this chapter is as follows:

(a) To fund specified pilot AIDS education programs.

(b) To fund pilot projects to demonstrate the value of noninstitutional health care services such as hospice, home health, and attendant care in controlling costs and providing humane care to people with AIDS and AIDS-related conditions.

(c) To fund clinical research.

(d) To fund the development of an AIDS Mental Health Project.

(e) To fund specified needs assessments, studies, and program evaluations.

(f) To authorize the use of funds appropriated by Section 6 of Chapter 23 of the Statutes of 1985 for preventive education for individuals who are seropositive as a result of antibody testing.

(g) To promote broad-based support for AIDS programs by encouraging community level networking and coordination of efforts among private sector, nonprofit, and public service agencies as well as health care professionals and providers of essential services.

(h) To promote an aggressive community-based HIV infection prevention program in all communities and areas where behaviors and prevalence indicate high risk of HIV infection, and to encourage local programs to involve racial and ethnic minorities in a leading role to plan the development, implementation, and evaluation of preventive education, HIV testing, delivery of care, and research activities that are necessary to the formation of a comprehensive, community-based, culturally sensitive HIV infection prevention strategy.

(i) To promote education of health care practitioners concerning new clinical manifestations of HIV, particularly among women and children.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120805.

(a) The department shall:

(1) Additionally, use funds appropriated by Section 6 of Chapter 23 of the Statutes of 1985 for purposes of making reimbursements to counties pursuant to Section 120895, for preventive education for individuals who are seropositive as a result of antibody testing.

(2) Issue contracts to evaluate the effectiveness of the AIDS information and education program conducted by the department.

(3) Issue contracts for development and implementation of pilot programs of professional education and training for hospital, home health agency, and attendant care workers.

(4) Issue contracts for the development and implementation of pilot programs to reduce the spread of AIDS through residential detoxification and outpatient detoxification and treatment services for intravenous drug users with AIDS or AIDS-related conditions.

(5) Monitor state and federal AIDS-related budget and policy development, and coordinate budget items to ensure that funding for matters related to AIDS is adequate and complete within the department each fiscal year.

(6) Develop and maintain an information clearinghouse within the department including periodic updates or releases to inform health professionals or community organizations providing services to people with AIDS

or AIDS-related conditions of the status of current or new clinical drug trials. These updates shall be compiled through review of scientific journals and in conjunction with the UC AIDS Task Force and researchers conducting clinical drug trials in California.

(7) Review, edit, and input summaries from scientific journals into the Computerized AIDS Information Network (CAIN), and do outreach about CAIN availability to health professionals.

(8) Develop and conduct a needs assessment of the availability of supportive services for people with AIDS or AIDS-related conditions. The needs assessment shall be conducted in conjunction with the statesAIDS education contractors and with any public or private agencies providing services to people with AIDS or AIDS-related conditions.

(9) Promote information and education programs for the general public to correct misinformation about AIDS. This shall include, but need not be limited to, periodic press releases to the printed and broadcast media and public service announcements.

(10) Establish, with the assistance of other state agencies as the department deems appropriate, centralized translation services to facilitate development of multilanguage, culturally relevant educational materials on HIV infection.

(11) Include, to the extent feasible, in its HIV surveillance and reporting practices, a breakdown of the major Asian-Pacific Islander subgroup populations. This breakdown shall be reflected in the surveillance and morbidity statistics issued by the director pursuant to Section 120825.

(12) Include, to the extent feasible with existing resources, in its HIV surveillance and reporting practices, information concerning newly identified clinical manifestations of HIV infection and available resources for health care practitioners to seek diagnostic and treatment information.

(b) The director shall contract for a prospective two-year study to accomplish the following objectives:

(1) Determine the medical costs of AIDS, comparing inpatient care, outpatient care, physician services, and community support services.

(2) The study shall include cost factors in the review of inpatient costs that may not be apparent in the analysis of charges, such as private rooms and social work.

(c) Notwithstanding Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code, if the director determines that it is in the best interest of the state to enter into a contract for the purposes specified below without competitive bids, then the state director may, during the 1985“86 fiscal year, enter into a sole source contract for all of the following:

(1) Educational program evaluation.

(2) Education of hospital, home health agency, and attendant care workers.

(3) Drug education and treatment programs.

(4) The cost-of-care study.

(Amended by Stats. 2001, Ch. 745, Sec. 152. Effective October 12, 2001.)

120815.

(a) The department may provide supplemental funding to residential AIDS shelters in accordance with Section 120810, as long as that section is operative, and to residential care facilities for persons with a chronic, life-threatening illness, that are licensed in accordance with Chapter 3.01 (commencing with Section 1568.01) of Division 2.

(b) A residential AIDS shelter that receives a supplemental grant and subsequently is licensed as a residential care facility for persons with a chronic, life-threatening illness prior to the end of the grant period shall be entitled to the full amount of the supplemental grant.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120820.

(a) Personal data in any investigations, reports, and information relating thereto shall be kept confidential and be afforded protections provided by Section 100330, except as provided by Section 1603.1 or 1603.3.

(b) If patient-identifying information is subpoenaed from the department, the department shall seek and the court shall issue a protective order keeping this information confidential. The court order may require production, but limit the use and disclosure of, records, require production with names and identifying information deleted, provide sanctions for misuse of records or set forth other methods for assuring confidentiality.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120825.

The director shall:

(a) Be prepared to report to the Legislature on the amounts and recipients of contracts or block grant awards, and needs assessments conducted by the department.

(b) Issue once each month a public information release to the state contractors, local health departments, medical societies or organizations, nursing associations, hospital and hospital administrator associations, blood banks or centers, hemophilia associations and treatment centers, lesbian and gay health organizations, media outlets or community organizations, and other interested organizations or individuals, and the news media identifying research breakthroughs, new treatment protocols, infection control updates, surveillance and morbidity statistics, and other current and up-to-date information regarding AIDS education, treatment, or patient service programs.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120830.

(a)Pilot projects to demonstrate the cost effectiveness of home health, attendant, or hospice care shall be initiated through a block grant program, as described in this section.

(b)The state director shall designate the contractors and the amounts that contractors will receive for the block grant direct service demonstration projects.

(c)An amount of not more than 10 percent of the grant may be retained by contractors for administrative overhead. Contractors accepting block grant funds shall compile comparative cost data reports for transmission to the department and the Legislature. Reports shall be made semiannually until the conclusion of the project.

(d)Contractors receiving direct service block grants shall:

(1)Encourage broad-based community involvement and support for AIDS programs and involve charitable, other nonprofit, and other agencies as well as health care professionals as providers of essential services.

(2)Ensure the proposed services are not duplicated in the community and are based on the needs of people with AIDS or AIDS-related conditions, at-risk communities, their families, or others affected by AIDS.

(3)Make maximum use of other federal, state, and local funds and programs.

(4)Provide services that are culturally and linguistically appropriate to the population served.

(e)Counties with existing programs of demonstrated effectiveness in AIDS education or services shall receive equal consideration with other applicants and shall not be penalized when awarding funds pursuant to this chapter with respect to the proposed expansion of their programs.

(f)Contractors shall develop a comprehensive service system including, but not limited to, the following essential services, that can be provided either directly by the contractors or indirectly through a referral network arranged by the contractor:

(1)Provision for hospice, skilled nursing facility, home health care, and homemaker chore services.

(2)Individual consultation and health planning and assessment.

(3)Information for people with AIDS or AIDS-related conditions regarding death and dying.

(4)Evaluation and referral services for medical care.

(5)Referral services for mental health services, as appropriate.

(6)Assistance in applying for financial aid or social services that are available and for which clients qualify.

The system of essential services developed by a contractor shall offer maximum opportunity for involvement of family, friends, and domestic partners and of nonprofit and charitable organizations in preventing the severe, adverse health and social consequences that result from being diagnosed with AIDS or AIDS-related conditions.

(g)The direct service program for provision of essential services shall ensure both of the following:

(1)An ongoing quality assurance program.

(2)Confidentiality assurances and methods for developing interagency confidentiality agreements.

(Amended by Stats. 2006, Ch. 538, Sec. 439. Effective January 1, 2007.)

120835.

(a) The department shall amend the home health, hospice, and attendant care pilot projects funded pursuant to this chapter, to include, to the extent that it is cost-effective to the Medi-Cal program or the General Fund, the payment of private health insurance premiums for participants in the pilot projects prior to the participants becoming eligible for Medi-Cal.

(b) The director shall make a determination of cost-effectiveness, that shall be reviewed by the Department of Finance. The director may use existing budgeted resources for services provided for pursuant to subdivision (a).

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120840.

The State Department of Health Care Services shall establish an AIDS mental health project, as described in this section.

(a)The program should include, but need not be limited to, the following:

(1)The conduct of a statewide needs assessment of AIDS-related mental health issues.

(2)The conduct of education and training for mental health professionals throughout the state.

(3)The conduct, through the Office of Promotion, of a media campaign on such issues as the use of support groups, the relationship between stress and the immune system, and dealing with grief.

(b)The State Department of Health Care Services shall coordinate projects and resources directly with the department.

(c)The Director of Health Care Services may appoint advisory groups for this project as needed.

(d)Notwithstanding any provision of Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code, if the Director of Health Care Services determines that it is in the best interest of the state to enter into a contract for the purposes specified in this section without competitive bids, then the director may, during the 1985"86 fiscal year, enter into a sole source contract for these purposes.

(Amended by Stats. 2012, Ch. 34, Sec. 31. (SB 1009) Effective June 27, 2012.)

120845.

Pilot programs to reduce the spread of AIDS through residential detoxification and outpatient detoxification and treatment services for intravenous drug users, as described in paragraph (4) of subdivision (a) of Section 120805, shall be initiated through local agency operated AIDS-related substance abuser programs.

(a) The director shall designate the local agency contractors and the amounts that these contractors will receive for the AIDS-related substance abuser demonstration programs.

(b) The contractors shall develop a comprehensive service system including, but not limited to, the following essential services, that can be provided either directly by the contractors or through a referral network arranged by the contractors:

(1) Residential detoxification programs for intravenous drug users.

(2) Outpatient detoxification programs including health promotion and health assessment for intravenous drug users.

(3) AIDS and substance abuse information, consultation and resource referral to providers of services to AIDS patients and to drug treatment providers.

(4) Outreach, health promotion, health assessment, consultation and referrals for homeless youth substance abusers.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120846.

(a)It is the intent of the Legislature to increase the capacity of HIV test sites to screen more individuals by streamlining test site services.

(b)Publicly funded HIV test sites shall be permitted to do all of the following:

(1)Advise a person who has been tested before and is following appropriate public health risk reduction measures that the person does not need to receive further education services. This paragraph shall not apply to a person who engages in high-risk behaviors and is not following appropriate risk reduction measures.

(2)Determine whether a person should be allowed to self-administer any data collection form required by the department.

(3)As appropriate, provide prevention education through video, small group, individual interaction, or other methods and in small groups or couples.

(Added by Stats. 2008, Ch. 555, Sec. 1. Effective January 1, 2009.)

120850.

The amount of two million three hundred thousand dollars ($2,300,000), appropriated pursuant to Section 2 of Chapter 767 of the Statutes of 1985, shall be allocated to the University of California for research into AIDS. When expending these funds, the university shall solicit and consider proposals from within the University of California system and from universities and colleges outside the University of California system as well. In the expenditure of these funds, it is the preference of the Legislature that priority be given to viral cultures, clinical trials, and the administrative and laboratory support services necessary to conduct the trials.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120855.

(a) The department may use funds appropriated to it to pay the costs, including reimbursements to contractors for administrative costs, of providing home and community-based services to eligible persons with a diagnosis of acquired immune deficiency syndrome (AIDS) or AIDS related conditions (ARC) when the funds are appropriated for that purpose.

(b) To the extent that federal financial participation is available, each department within the Health and Welfare Agency, including departments designated as single state agencies for public social services programs, shall waive regulations and general policies and make resources available when necessary for the provision of home and community-based care services to eligible persons with a diagnosis of AIDS or ARC.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120860.

(a)The department shall, in coordination with the State Department of Health Care Services, develop a plan that assesses the need for, a program of acquired immune deficiency syndrome (AIDS) primary prevention, health education, testing, and counseling, specifically designed for women and children, that shall be integrated, as the department deems appropriate, into the following programs:

(1)The California Childrens Services Program provided for pursuant to Article 5 (commencing with Section 123800) of Chapter 3 of Part 2 of Division 106.

(2)Programs under the Maternal and Child Health Branch of the department.

(3)The Child Health Disability Prevention Program provided for pursuant to Article 6 (commencing with Section 124025) of Chapter 3 of Part 2 of Division 106.

(4)The Genetic Disease Program, provided for pursuant to Sections 125000 and 125005.

(5)The Family Planning Programs, provided for pursuant to Chapter 8.5 (commencing with Section 14500) of Part 3 of Division 9 of the Welfare and Institutions Code.

(6)The Rural and Community Health Clinics Program.

(7)The County Health Services Program, provided for pursuant to Part 4.5 (commencing with Section 16700)

of Division 9 of the Welfare and Institutions Code.

(8)The Sexually Transmitted Disease Program.

(9)Substance use disorder programs administered by the State Department of Health Care Services.

(b)The AIDS-related services that shall be addressed in the plan specified in this section shall include, but not be limited to, all of the following:

(1)A variety of educational materials that are appropriate to the cultural background and educational level of the program clientele.

(2)The availability of confidential HIV antibody testing and counseling either onsite or by referral.

(c)Pursuant to subdivision (a), the plan shall include a method to provide the educational materials specified in subdivision (b) and appropriate AIDS-related training programs for those persons who provide direct services to women and children receiving services under the programs specified in this section.

(d)In order that the AIDS-related services plan provided through the programs specified in this section be as effective as possible, the department shall ensure that the educational materials and training programs provided for each program specified in subdivision (a) are developed in coordination with, and with input from, each of the respective programs.

(e)Nothing in this section shall preclude the department from incorporating the plan requirements into the departmentsannual state AIDS plan, or any other reporting document relating to AIDS deemed appropriate by the department.

(Amended by Stats. 2013, Ch. 22, Sec. 70. (AB 75) Effective June 27, 2013. Operative July 1, 2013, by Sec. 110 of Ch. 22.)

120870.

(a) Every person who sells alkyl nitrites shall at the point of sale of the alkyl nitrites, post a sign measuring no less than five by seven inches to read as follows:
Warning: These products contain alkyl nitrites (›poppers™). Inhaling or swallowing alkyl nitrites may be harmful to your health. The use of alkyl nitrites may affect the immune system. Several studies have suggested that their use is associated with the development of Kaposissarcoma (an AIDS condition).

(b) The signs required by subdivision (a) shall be furnished by the manufacturers or distributors of alkyl nitrites in California in sufficient quantity with the shipments of alkyl nitrites to allow posting at all points of sale.

(c) Point of sale for purposes of this section is that place within close proximity of the shelves or other area where the alkyl nitrites are displayed for consumer purchase.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120871.

(a) The department shall authorize the establishment of training programs throughout the state for counselors for publicly funded HIV testing programs. These training programs shall be conducted by community-based, nonprofit organizations with demonstrated expertise in providing free, anonymous, or confidential HIV testing services. The programs may be offered at flexible times, so as to facilitate the training of volunteer and part-time counselors.

(b) All participating community-based organizations shall follow curriculum content and design approved by the department for training programs administered pursuant to this section.

(c) All counselors trained in programs authorized by this section shall be subject to existing state and local testing and successful completion of training.

(d) All costs associated with training programs administered pursuant to this section shall be absorbed by participating community-based organizations. This section shall not be construed to require or prohibit the funding of any training program administered pursuant to this section by the department, or by any local government administering a training program for HIV counselors.

(e) This section shall not be construed to prohibit or otherwise restrict community-based organizations from participating in existing local training programs.

(Added by Stats. 2002, Ch. 273, Sec. 1. Effective January 1, 2003.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 3. Acquired Immune Deficiency Syndrome (AIDS) Information [120875 - 120895]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 7.)

120875.

The State Department of Education shall provide information to school districts on acquired immune deficiency syndrome (AIDS), on AIDS-related conditions, and on Hepatitis B. This information shall include, but not be limited to, any appropriate methods school employees may employ to prevent exposure to AIDS and Hepatitis B, including information concerning the availability of a vaccine to prevent contraction of Hepatitis B, and that the cost of vaccination may be covered by the health plan benefits of the employees. This information shall be compiled and updated annually, or if there is new information, more frequently, by the State Department of Education in conjunction with the department and in consultation with the California Conference of Local Health Officers. In order to reduce costs, this information may be included as an insert with other regular mailings to the extent practicable, and the information required to be provided on Hepatitis B shall be provided in conjunction with the information required to be provided on AIDS.

(Amended by Stats. 2006, Ch. 538, Sec. 440. Effective January 1, 2007.)

120880.

School districts shall inform their employees annually, or if there is new information, more frequently, of the information compiled by the State Department of Education pursuant to Section 120875.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120885.

The Legislature finds and declares it is of great benefit to the public health and essential to the protection of safe blood and blood components available for transfusion to provide testing for the presence of antibodies to the probable causative agent of acquired immune deficiency syndrome (AIDS) as a function separate from the donation of blood or blood components.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120890.

The director shall, in order to protect the public health and in order to make blood and blood components safe for transfusion, designate counties that shall establish alternative testing sites, within the funds available, pursuant to this section and Sections 120885 and 120895. When designating a county pursuant to this section, the director may consider whether the county contains a permanent operational blood bank. All alternative test sites, established pursuant to this section and Sections 120885 and 120895, shall be under the supervision of a physician and surgeon or be a clinic or health facility licensed by the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120895.

(a)Each county, designated by the director, shall make the test available within its jurisdiction without charge, in an accessible manner and the tests shall be made available by the county on an anonymous basis through use of a coded system with no linking of individual identity with the test request or results. The number and location of sites in each county designated by the director shall be approved by the director. The test shall be made available by the county either directly or by contract with a physician and surgeon or with any clinic or health facility licensed by the department. Neither the county nor anyone else administering the test described in this section and Sections 120885 and 120890, shall ask for the name, social security number, or any other information that could reveal the identity of the individual who takes the test. Each alternative test site shall make available confidential information and referral services, within the funds available, to individuals who seek testing. A county may subcontract with individuals or entities to provide information and referral services.

All alternative test sites shall provide a referral list of physicians and surgeons or clinics knowledgeable about AIDS, to all persons who have any known risk factor for AIDS, especially those who have a reactive antibody test, for further information and explanation of the test results and for medical evaluation.

At a minimum, individuals seeking testing shall be informed about the validity and accuracy of the antibody test before the test is performed. All testing site personnel shall be required to attest to having provided the above information. Furthermore, all individuals who are tested at the sites established by this section and Sections 120885 and 120890 shall be given the results of this test in person. All sites providing antibody testing pursuant to this section and Sections 120885 and 120890 shall have a protocol for referral for 24-hour inpatient and mental health services. All individuals awaiting test results and all persons to whom results are reported shall be informed of available crisis services and shall be directly referred, if necessary.

Each county, designated by the director, shall be required to submit a plan to the department within 45 days after the effective date of this section that details where testing and pretest and posttest information and referral will be provided and the qualifications of the staff who will be performing the services required by this section and Sections 120885 and 120890. The department shall make training available, especially to smaller counties.

(b)The department shall establish a reimbursement process for counties within 30 days after the effective date of this section for the following services:

(1)Informing test applicants on the testsreliability and validity.

(2)Administration of tests, analysis of test samples, and costs associated with the laboratory work required by this antibody test.

(3)Short-term information and referral sessions, of no more than one visit per person tested for the purpose of transmitting the personstest results and, as requested, for referral to available followup services.

The department shall establish the amounts to be reimbursed for each of these services, but the amounts shall be established at a level to ensure that the purposes of this section and Sections 120885 and 120890 are carried out. Reimbursements shall be made for each service provided.

(c)The department may replace the test for the antibody to the probable causative agent for AIDS with

another type of HIV test, as the department deems appropriate.

(d)The director may grant a waiver to a county from the requirements of this section and Sections 120885 and 120890 if the county petitions the director for the waiver and the director determines that the waiver is consistent with the purposes of this section and Sections 120885 and 120890.

(e)A participating county or the department may accept grants, donations, and in-kind services for purposes of carrying out this section and Sections 120885 and 120890.

(Amended by Stats. 2006, Ch. 20, Sec. 2. Effective April 17, 2006.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 4. Acquired Immune Deficiency Syndrome (AIDS) Early Intervention Projects [120900 - 120920]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 7.)

120900.

(a) The director shall award contracts to early intervention projects to provide long-term services to persons infected with HIV. The purposes of the early intervention projects shall be to provide appropriate medical treatment to prevent or delay the progression of disease that results from HIV infection, to coordinate services available to HIV infected persons, and to provide information and education, including behavior change support, to HIV infected persons to prevent the spread of HIV infection to others. The director shall award contracts to early intervention projects from a variety of geographical areas. In selecting projects, the

director shall ensure that each early intervention project will respond to the needs of its projected service area, will be sensitive to linguistic, ethnic, and cultural differences, and will accommodate the special needs of clients by taking into account the circumstances that placed them at risk for becoming infected with HIV. The director shall award contracts for early intervention services at a pace that reflects the availability of private, state, and federal reimbursement pursuant to Section 120920. Prior to awarding contracts to new programs, the director shall consider utilizing existing services and programs with which it currently contracts, or that are currently in operation, and that provide HIV-related services.

(b) Early intervention projects that are awarded contracts pursuant to this section shall provide all of the following services:

(1) Health assessment of HIV infected persons, including, but not limited to, a physical examination and immunologic and clinical monitoring.

(2) Health education and behavior change support related to reducing the risk of spreading HIV infection to others and to maximize the healthy and productive lives of HIV infected persons.

(3) Psychosocial counseling services.

(4) Information and referrals for social services.

(5) Information and referrals on available research for the treatment of HIV infection.

(6) Covered outpatient preventative or therapeutic health care services related to HIV infection, as determined by the director.

(7) Case management.

(c) An early intervention project shall establish a core case management team for each client to assess the needs of the client and to develop, implement, and evaluate the clientswritten individual service plan. As needed by the client, the individual service plan shall include services specified in subdivision (b), other support services, legal services, public assistance, insurance, and inpatient and outpatient health care services needs of the client. A core case management team shall include, but not be limited to, a physician and surgeon, a physician assistant or nurse practitioner, a health educator, a case manager, and the client. Case management in an early intervention project shall incorporate an interdisciplinary approach. Other professionals, paraprofessionals, and other interested persons deemed appropriate by the members of the core case management team also may be included. The case manager shall coordinate the objectives specified in the clientsindividual service plan. The case manager also shall monitor and assist the client through all services provided by the project and shall provide information, guidance, and assistance to the client regarding support services, legal services, public assistance, insurance, and inpatient and outpatient health care services. The project shall designate a sufficient number of case managers to reflect case manager-to-client ratios established by the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120905.

(a) The director shall commence awarding contracts to projects on or before July 1, 1990. In awarding contracts to early intervention projects, the director may select projects from each of the following models:

(1) A privately operated profit or nonprofit clinic that is not licensed as part of a health facility and that provides all of the services specified in subdivision (b) of Section 120900.

(2) A publicly operated clinic that is not licensed as part of a health facility and that provides all of the services specified in subdivision (b) of Section 120900.

(3) A combination of independent privately operated clinics, publicly operated clinics, and other health care providers that in total provide all of the services specified in subdivision (b) of Section 120900.

(4) Any other model that the director considers worthy of receiving funds.

(b) An applicant for a contract to operate an early intervention project that is not a part of a county health department shall submit its application to the county health department for review and comment. The county health department shall provide comment on the application to the department within a time period to be specified by the department. The failure by a county health department to comment on an application submitted to it within the time period specified by the department shall not jeopardize the application, and the department in a case of this nature may process and award a contract in the absence of comment by the county health department.

(c) An applicant for a contract to operate an early intervention project shall indicate in its application how it intends to coordinate with county health department programs, community-based organizations that provide HIV-related services, and other public and private entities that may provide services to a person who is infected with HIV.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120910.

(a) The department shall collect data from the early intervention projects, assess the effectiveness of the different models of early intervention projects.

(b) The department shall continuously collect data from each early intervention project. The data collected may include, but not be limited to, the following:

(1) The total number of clients served.

(2) The number of clients utilizing each service provided by the project.

(3) Demographics on clients in the aggregate.

(4) The source of funding for each type of service provided.

(5) The cost of each type of service provided.

(6) Medical treatment modalities utilized in the aggregate.

(7) Changes in the clinical status of clients in the aggregate.

(8) Changes in behaviors that present risks of transmitting HIV infection of the clients in the aggregate.

(9) The psychosocial changes of clients in the aggregate.

(10) Referrals made by the project.

(11) Perceived unmet needs of the clients served by the project.

(c) The department shall develop and distribute to each early intervention project forms for data collection that are designed to elicit information necessary for the department to comply with the requirements of subdivision (b). The data may be used by the department to comply with the requirements of subdivision (a).

(Amended by Stats. 2012, Ch. 728, Sec. 105. (SB 71) Effective January 1, 2013.)

120915.

(a) The department shall establish a reimbursement schedule for all of the services detailed in subdivision (b) of Section 120900. The amounts to be reimbursed for these services shall be commensurate with the costs of providing these services.

(b) The department shall develop and disseminate guidelines to assist early intervention projects in identifying appropriate public and private payers of early intervention services. The guidelines shall take into account each clientsaccess to, and eligibility for, private health insurance and public medical assistance. The guidelines shall include, but not be limited to, the reimbursement schedule established pursuant to subdivision (a) and the elements identified in subdivisions (c) to (h), inclusive.

(c) Reimbursement under Sections 120900 to 120920, inclusive, shall not be made for any services that are available to the client under a private health insurance program. Early intervention projects shall inquire of each client as to the clientscoverage by a private health insurance policy. Where a client has a private health insurance policy, the early intervention project shall bill the insurer for those services in subdivision (b) of Section 120900 that are covered by the clientspolicy.

(d) The department shall develop and implement, or cause to be implemented by an early intervention project, a uniform sliding fee schedule for services provided to individuals under Sections 120900 to 120920, inclusive. The schedule shall be based on the clientsability to pay.

(e) The department may apply for any funds available from the federal government for the reimbursement of those services to be provided by early intervention projects, including, but not limited to, funds available pursuant to Section 2318 of the Public Health Service Act, as added by Public Law 100-607, that provides for the development of model protocols for the clinical care of individuals who are infected with HIV.

(f) To the extent permitted under existing law, the Medi-Cal program shall provide reimbursement to early intervention projects for services provided under Sections 120900 to 120920, inclusive, that are covered under the Medi-Cal program. This subdivision shall not be construed to confer Medi-Cal eligibility on any person who does not meet existing Medi-Cal eligibility requirements.

(g) The department shall use federal and state general funds that are appropriated for the purpose of purchasing HIV-related drug treatments and related services, to reimburse for covered outpatient preventative or therapeutic health care services, as defined by the director, provided that the client is eligible

for a federal or state program that subsidizes the cost of HIV-related drugs and related services. If Assembly Bill 2251 of the 1989"90 Regular Session is enacted, the department shall use the provisions in Chapter 6 (commencing with Section 120950) to implement this subdivision.

(h) The department shall use moneys from the General Fund to cover expenses for early intervention services that are not otherwise reimbursed, to the extent that moneys from the General Fund are expressly appropriated to the department for early intervention services.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120917.

(a)An HIV counselor who meets the requirements of subdivision (f) may do all of the following:

(1)Perform any HIV, hepatitis C virus (HCV), or other sexually transmitted disease (STD) test that is classified as waived under the federal Clinical Laboratory Improvement Act (CLIA) (42 U.S.C. Sec. 263a et seq.) if all of the following conditions exist:

(A)The performance of the HIV, HCV, or STD test meets the requirements of CLIA and, subject to subparagraph (D), Chapter 3 (commencing with Section 1200) of Division 2 of the Business and Professions Code.

(B)The HIV counselor has been trained and demonstrates proficiency in administering the HIV, HCV, or STD test.

(C)The HIV counselor demonstrates sufficient knowledge of HIV, HCV, or STDs to provide appropriate counseling and referrals to patients for the test they are performing.

(D)Notwithstanding Section 1246 of the Business and Professions Code, an HIV counselor may perform skin punctures for the purpose of withdrawing blood for an HIV, HCV, or STD test, upon specific authorization from a licensed physician and surgeon, provided that the person meets all of the following requirements:

(i)The HIV counselor works under the direction of a licensed physician and surgeon.

(ii)The HIV counselor has been trained in administering rapid HIV, HCV, or STD tests and in universal infection control precautions, consistent with best infection control practices established by the Division of Occupational Safety and Health in the Department of Industrial Relations and the federal Centers for Disease Control and Prevention. The HIV counselor shall not administer a rapid HIV, HCV, or STD test until they demonstrate proficiency in administering the test.

(E)The person performing the HIV, HCV, or STD test meets the requirements for the performance of waived laboratory testing pursuant to subdivision (a) of Section 1206.5 of the Business and Professions Code. For purposes of this subdivision and subdivision (a) of Section 1206.5 of the Business and Professions Code, an HIV counselor who meets the requirements of subdivision (f) shall be other health care personnel providing direct patient care as referred to in paragraph (14) of subdivision (a) of Section 1206.5 of the Business and Professions Code.

(F)The patient is informed that the preliminary result of the test is indicative of the likelihood of HIV infection, HCV exposure, or other STD exposure and that the result may need to be confirmed by an additional more

specific test, or, if approved by the federal Centers for Disease Control and Prevention for that purpose, a second different rapid HIV, HCV, or STD test. This subdivision does not allow an HIV counselor to perform an HIV, HCV, or STD test that is not classified as waived under the CLIA.

(2)Notwithstanding Section 1246.5 of the Business and Professions Code, order and report HIV, HCV, or STD test results from tests performed pursuant to paragraph (1) to patients without authorization from a licensed health care professional or the health care professionalsauthorized representative. Patients with indeterminate or positive test results from tests performed pursuant to paragraph (1) shall be referred to a licensed health care provider whose scope of practice includes the authority to refer patients for laboratory testing for further evaluation.

(b)An HIV counselor who has been certified pursuant to subdivision (b) of Section 120871 prior to September 1, 2009, and who will administer rapid HIV, HCV, or STD skin puncture tests shall obtain training required by clause (ii) of subparagraph (B) of paragraph (1) of subdivision (a) prior to September 1, 2011. The HIV counselor shall not, unless also certified as a limited phlebotomist technician, perform a skin puncture pursuant to this section until after completing the training required by that clause.

(c)An HIV counselor who has been certified pursuant to subdivision (f) prior to January 1, 2022, and who will administer rapid STD tests, shall obtain training required by subparagraph (B) of paragraph (1) of subdivision (a). The HIV counselor shall not, unless also certified as a limited phlebotomist technician, perform STD tests pursuant to this section until after completing the training required by that clause.

(d)An HIV counselor who meets the requirements of this section with respect to performing any HIV, HCV, or STD test that is classified as waived under the CLIA may not perform any other test unless that person meets the statutory and regulatory requirements for performing that other test.

(e)This section does not certify an HIV counselor as a phlebotomy technician or a limited phlebotomy technician, or fulfill any requirements for certification as a phlebotomy technician or a limited phlebotomy technician, unless the HIV counselor has otherwise satisfied the certification requirements imposed pursuant to Section 1246 of the Business and Professions Code.

(f)(1)An HIV counselor shall meet one of the following criteria:

(A)Is trained by the Office of AIDS and working in an HIV counseling and testing site funded by the department through a local health jurisdiction, or its agents.

(B)Is working in an HIV counseling and testing site that meets both of the following criteria:

(i)Utilizes HIV counseling staff who are trained by the Office of AIDS or its agents.

(ii)Has a quality assurance plan approved by the local health department in the jurisdiction where the site is located and has HIV counseling and testing staff who comply with the quality assurance requirements specified in Section 1230 of Article 1 of Group 9 of Subchapter 1 of Chapter 2 of Division 1 of Title 17 of the California Code of Regulations.

(C)Has completed a training course that has been approved by the Office of AIDS.

(2)(A)The Office of AIDS or its agents may charge a fee for training HIV counseling staff.

(B)The local health department may charge a fee for the quality assurance plan approval.

(3)The Office of AIDS may determine which HIV, HCV, and STD tests are to be included in the training for HIV counseling staff. This determination may be modified by the department at any time, in consultation with appropriate local public health stakeholders. Both the establishment and modification of this determination shall be exempt from the requirements of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code).

(Amended by Stats. 2021, Ch. 486, Sec. 6. (SB 306) Effective January 1, 2022.)

120920.

The Legislature hereby finds and declares that people with HIV infection may not avail themselves of early intervention services unless they are aware of the availability of the services and the efficacy of early intervention in prolonging life. This awareness by HIV-infected persons is critical to maximizing the benefits of early intervention. Therefore, it is the intent of the Legislature that the department includes early intervention education as a component of information and education grants in the first grant cycle following enactment of Sections 120900 to 120920, inclusive.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 5. Provision of Azidothymidine [120925 - 120935]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 7.)

120925.

The Legislature hereby finds and declares all of the following:

(a) The drug azidothymidine (AZT) improves and prolongs the quality of life for those suffering from acquired immune deficiency syndrome (AIDS) or AIDS-related conditions, is believed to reduce the infectiousness of a person infected with human immunodeficiency virus (HIV), and is the only drug approved by the federal Food and Drug Administration for treatment of AIDS and AIDS-related conditions.

(b) Hundreds of Californians infected with HIV are receiving AZT due to a subsidy for AZT made available by the federal government for low-income people.

(c) The department estimates that it will have sufficient federal funds to maintain those enrolling in the program prior to October 1, 1988, through April 1989, if it terminates new enrollees beginning October 1, 1988.

(d) The department intends to direct counties to cease accepting new enrollees for the subsidy program beginning October 1, 1988, because of the exhaustion of these federal funds.

(e) The federal government has an obligation to continue to support the subsidy program that it has initiated because of the horrendous moral consequences of terminating the access of low-income infected people to the drug.

(f) The funding cycle for federal programs precludes appropriating additional funds to maintain this program until June of 1989.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120930.

It is the intent of the Legislature that the State of California continue to provide temporary funding for the program to ensure that those whose health depends on obtaining access to AZT and who are unable to afford it can receive the drug during this interim period.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120935.

The department shall continue through June 1989, the AZT subsidy program established in 1987 with federal funds. The department shall maintain the eligibility standards used for the program as of August 1988. The department shall allocate to local health jurisdictions the funds appropriated to support the subsidy program. The department may reallocate funds among these local health jurisdictions as needed to ensure that persons requiring the subsidy receive it through June 1989.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 6. Human Immunodeficiency Virus (HIV) Treatment [120950 - 120971]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 7.)

120950.

The Legislature hereby finds and declares all of the following:

(a) State-of-art knowledge regarding treatment of people infected with the human immunodeficiency virus (HIV) indicates that active HIV infection (AIDS) can be a manageable, though chronic, condition with the use of drugs such as zidovudine (AZT), aerosolized pentamidine, and ganciclovir. AIDS experts across the nation agree that early intervention with these drugs can prolong life, minimize the related occurrences of more serious illnesses, reduce more costly treatments, and maximize the HIV-infected personsvitality and productivity.

(b) For reasons of compassion and cost effectiveness, the State of California has a compelling interest in ensuring that its citizens infected with the HIV virus have access to these drugs.

(c) The department subsidizes the cost of these drugs for persons who do not have private health coverage, are not eligible for Medi-Cal, or cannot afford to purchase the drug privately. The subsidy program is funded through state and federal sources.

(d) Congress is expected to place limitations on the federal subsidy program that will jeopardize access to these life-prolonging drugs for people whose income is higher than federal income eligibility cap but lower

than the statesincome eligibility cap.

(e) It is critical that suffering persons with limited income have access to life-prolonging drugs. It is also critical that persons currently eligible for the subsidy program remain eligible regardless of changes that may result from the congressional action and the enactment of this chapter. However, it is appropriate that people who can afford to pay a portion of the cost of treatment be obligated to share the cost of these drugs.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

120955.

(a)(1)To the extent that state and federal funds are appropriated in the annual Budget Act for these purposes, the director shall establish and may administer a program to provide drug treatments to persons infected with human immunodeficiency virus (HIV), the etiologic agent of acquired immunodeficiency syndrome (AIDS). If the director makes a formal determination that, in any fiscal year, funds appropriated for the program will be insufficient to provide all of those drug treatments to existing eligible persons for the fiscal year and that a suspension of the implementation of the program is necessary, the director may suspend eligibility determinations and enrollment in the program for the period of time necessary to meet the needs of existing eligible persons in the program.

(2)The director, in consultation with the AIDS Drug Assistance Program Medical Advisory Committee, shall develop, maintain, and update as necessary a list of drugs to be provided under this program. The list shall be exempt from the requirements of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340), Chapter 4 (commencing with Section 11370), and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code), and shall not be subject to the review and approval of the Office of Administrative Law.

(b)The director may grant funds to a county public health department through standard agreements to administer this program in that county. To maximize the recipients™ access to drugs covered by this program, the director shall urge the county health department in counties granted these funds to decentralize distribution of the drugs to the recipients.

(c)The director shall establish a rate structure for reimbursement for the cost of each drug included in the program. Rates shall not be less than the actual cost of the drug. However, the director may purchase a listed drug directly from the manufacturer and negotiate the most favorable bulk price for that drug.

(d)Manufacturers of the drugs on the list shall pay the department a rebate equal to the rebate that would be applicable to the drug under Section 1927(c) of the federal Social Security Act (42 U.S.C. Sec. 1396r-8(c)) plus an additional rebate to be negotiated by each manufacturer with the department, except that no rebates shall be paid to the department under this section on drugs for which the department has received a rebate under Section 1927(c) of the federal Social Security Act (42 U.S.C. Sec. 1396r-8(c)) or that have been purchased on behalf of county health departments or other eligible entities at discount prices made available under Section 256b of Title 42 of the United States Code.

(e)The department shall submit an invoice, not less than two times per year, to each manufacturer for the amount of the rebate required by subdivision (d).

(f)Drugs may be removed from the list for failure to pay the rebate required by subdivision (d), unless the

department determines that removal of the drug from the list would cause substantial medical hardship to beneficiaries.

(g)The department may adopt emergency regulations to implement amendments to this chapter made during the 1997"98 Regular Session, in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The initial adoption of emergency regulations shall be deemed to be an emergency and considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health and safety, or general welfare. Emergency regulations adopted pursuant to this section shall remain in effect for no more than 180 days.

(h)Reimbursement under this chapter shall not be made for any drugs that are available to the recipient under any other private, state, or federal programs, or under any other contractual or legal entitlements, except that the director may authorize an exemption from this subdivision where exemption would represent a cost savings to the state.

(i)The department may also subsidize certain cost-sharing requirements for persons otherwise eligible for the AIDS Drug Assistance Program (ADAP) with existing non-ADAP drug coverage by paying for prescription drugs included on the ADAP formulary within the existing ADAP operational structure up to, but not exceeding, the amount of that cost-sharing obligation. This cost sharing may only be applied in circumstances in which the other payer recognizes the ADAP payment as counting toward the individualscost-sharing obligation. The department may subsidize, using available federal funds and moneys from the AIDS Drug Assistance Program Rebate Fund, costs associated with a health care service plan or health insurance policy, including medical copayments and deductibles for outpatient care, and premiums to purchase or maintain health insurance coverage.

(Amended by Stats. 2017, Ch. 52, Sec. 14. (SB 97) Effective July 10, 2017.)

120956.

(a)The AIDS Drug Assistance Program Rebate Fund is hereby created as a special fund in the State Treasury.

(b)All rebates collected from drug manufacturers on drugs purchased through the AIDS Drugs Assistance Program (ADAP) implemented pursuant to this chapter and, notwithstanding Section 16305.7 of the Government Code, interest earned on these moneys shall be deposited in the fund exclusively to cover costs related to the purchase of drugs and services provided through ADAP and the HIV prevention programs as described in Sections 120972 and 120972.1.

(c)Notwithstanding Section 13340 of the Government Code, moneys in the fund are continuously appropriated without regard to fiscal year to State Department of Public Health and available for expenditure for those purposes specified under this section.

(Amended by Stats. 2021, Ch. 143, Sec. 23. (AB 133) Effective July 27, 2021.)

120960.

(a)The department shall establish uniform standards of financial eligibility for the drugs under the program

established under this chapter.

(b)Nothing in the financial eligibility standards shall prohibit drugs to an otherwise eligible person whose modified adjusted gross income does not exceed 500 percent of the federal poverty level per year based on family size and household income. However, the director may authorize drugs for persons with incomes higher than 500 percent of the federal poverty level per year based on family size and household income if the estimated cost of those drugs in one year is expected to exceed 20 percent of the personsmodified adjusted gross income.

(c)A county public health department administering this program pursuant to an agreement with the director pursuant to subdivision (b) of Section 120955 shall use no more than 5 percent of total payments it collects pursuant to this section to cover any administrative costs related to eligibility determinations, reporting requirements, and the collection of payments.

(d)A county public health department administering this program pursuant to subdivision (b) of Section 120955 shall provide all drugs added to the program pursuant to subdivision (a) of Section 120955 within 60 days of the action of the director.

(e)For purposes of this section, the following terms shall have the following meanings:

(1)Family size has the meaning given to that term in Section 36B(d)(1) of the Internal Revenue Code of 1986, and shall include same or opposite sex married couples, registered domestic partners, and any tax dependents, as defined by Section 152 of the Internal Revenue Code of 1986, of either spouse or registered domestic partner.

(2)Federal poverty level refers to the poverty guidelines updated periodically in the Federal Register by the United States Department of Health and Human Services under the authority of Section 9902(2) of Title 42 of the United States Code.

(3)Household income means the sum of the applicantsor recipientsmodified adjusted gross income, plus the modified adjusted gross income of the applicantsor recipientsspouse or registered domestic partner, and the modified adjusted gross incomes of all other individuals for whom the applicant or recipient, or the applicantsor recipientsspouse or registered domestic partner, is allowed a federal income tax deduction for the taxable year.

(4)Internal Revenue Code of 1986 means Title 26 of the United States Code, including all amendments enacted to that code.

(5)Modified adjusted gross income has the meaning given to that term in Section 36B(d)(2)(B) of the Internal Revenue Code of 1986.

(Amended by Stats. 2016, Ch. 30, Sec. 5. (SB 833) Effective June 27, 2016.)

120962.

(a)(1)For the purpose of verifying financial eligibility pursuant to Section 120960 and the federal Ryan White HIV/AIDS Treatment Extension Act of 2009 (42 U.S.C. Sec. 201 et seq.), the department shall verify the accuracy of the modified adjusted gross income reported on an AIDS Drug Assistance Program application submitted by an applicant or recipient with data, if available, from the Franchise Tax Board.

(2)Notwithstanding any other law, the department shall disclose the name and individual taxpayer identification number (ITIN) or social security number of an applicant for, or recipient of, services under this chapter to the Franchise Tax Board for the purpose of verifying the modified adjusted gross income of, any tax-exempt interest received by, any tax-exempt social security benefits received by, and any foreign earned income of an applicant or recipient pursuant to subdivision (b) of Section 120960.

(b)(1)The Franchise Tax Board, upon receipt of this information, shall inform the department of all of the following:

(A)The amount of the federal adjusted gross income received by the taxpayer household as reported by the taxpayer to the Franchise Tax Board.

(B)The amount of the California adjusted gross income received by the taxpayer household as reported by the taxpayer to the Franchise Tax Board or as adjusted by the Franchise Tax Board.

(C)The amount of any tax-exempt interest received by the taxpayer household, as reported to the Franchise Tax Board.

(D)The amount of any tax-exempt social security benefits received by the taxpayer household, as reported to the Franchise Tax Board.

(E)The amount of any foreign earned income of the taxpayer household, as reported to the Franchise Tax Board.

(F)The family size of the taxpayer household, as reported to the Franchise Tax Board.

(2)The Franchise Tax Board shall provide the information to the department for the most recent taxable year that the Franchise Tax Board has information available, and shall include the first and last name, date of birth, and the ITIN or social security number of the taxpayer.

(c)(1)Information provided by the department pursuant to this section shall constitute confidential public health records as defined in Section 121035, and shall remain subject to the confidentiality protections and restrictions on further disclosure by the recipient under subdivisions (d) and (e) of Section 121025.

(2)To the extent possible, verification of financial eligibility shall be done in a way to eliminate or minimize, by use of computer programs or other electronic means, Franchise Tax Board staff and contractors™ access to confidential public health records.

(3)Prior to accessing confidential HIV-related public health records, Franchise Tax Board staff and contractors shall be required to annually sign a confidentiality agreement developed by the department that includes information related to the penalties under Section 121025 for a breach of confidentiality and the procedures for reporting a breach of confidentiality under subdivision (h) of Section 121022. Those agreements shall be reviewed annually by the department.

(4)The Franchise Tax Board shall return or destroy all information received from the department after completing the exchange of information.

(d)For purposes of this section, foreign earned income also includes any deduction taken for the housing expenses of an individual while living abroad pursuant to Section 911 of Title 26 of the Internal Revenue Code.

(e)For purposes of this section, household means the applicant or recipient, and, in addition, the applicantsor recipientsspouse or registered domestic partner, and all other individuals for whom the applicant or recipient, or the applicantsor recipientsspouse or registered domestic partner, is allowed a federal income tax deduction for the taxable year.

(f)For purposes of this section, family size has the meaning given to that term in Section 36B(d)(1) of Title 26 of the Internal Revenue Code, and includes same or opposite sex married couples, registered domestic partners, and any dependent, as defined by Section 152 of Title 26 of the Internal Revenue Code, of either spouse or registered domestic partner.

(Amended by Stats. 2020, Ch. 12, Sec. 8. (AB 80) Effective June 29, 2020.)

120966.

(a) (1) The program established under this chapter shall make available to any eligible person under this chapter any antiviral drug that is approved by the federal Food and Drug Administration for treatment of human immunodeficiency virus (HIV) or acquired immune deficiency syndrome (AIDS), prescribed by the beneficiarysmedical care provider, and approved by the AIDS Drug Assistance Program Medical Advisory Committee of the Office of AIDS if determined by the State Department of Health Services that the new antiviral drug would be used as an additional treatment option, and anticipated client utilization represents no significant additional cost to the program and does not require the removal of another antiviral drug from the formulary.

(2) Any federal Food and Drug Administration-approved antiviral drug that is determined by the State Department of Health Services to represent a significant additional cost to the program shall be made available if, after an analysis is conducted by the department, it determines that the program has an adequate budget to fund the addition of the new drug.

(3) The department shall use all reasonable means to ensure that the determination required in paragraph (1) or the analysis required by paragraph (2) are performed as promptly as possible.

(b) Notwithstanding any other provision of law, any antiviral drug that is approved pursuant to paragraph (1) of subdivision (a) for addition to the formulary of drugs program established by this chapter shall be available to patients covered by the program established by this chapter within 30 days of the Office of AIDS being notified by the drugsmanufacturer of the FDA approval.

(Added by Stats. 1999, Ch. 497, Sec. 1. Effective January 1, 2000.)

120968.

The Office of AIDS shall report to the Legislature no later than October 1, 2000, the status of consumer protections for the AIDS drug program established pursuant to this chapter, including a report on the contractorsperformance in each of the following areas:

(a) Filling of patient prescriptions within 24 hours of submission, and shipping of mail order prescriptions within 48 hours.

(b) Subcontracting with any willing provider, including a report on any denials of contracts with providers and the reason for denial.

(c) Provision of information regarding program policies, procedures, enrollment procedures, eligibility guidelines, and lists of drugs covered in appropriate literacy levels in English, Spanish, Mandarin/Cantonese, Tagalog, and in other languages as determined by the department.

(d) Development of a timely and accessible grievance procedure for clients, promotion of that procedure among clients, and utilization.

(Added by Stats. 1999, Ch. 497, Sec. 2. Effective January 1, 2000.)

120970.

If the department utilizes a contractor or subcontractor to administer any aspect of the program provided for under this chapter, the following additional client assistance provisions shall apply:

(a)The contractor shall, either directly or through subcontracted pharmacy outlets, obtain and dispense the necessary drugs, in their approved forms according to the program formulary, and shall comply with all applicable provisions of the California Pharmacy Law (Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code) and regulations adopted thereunder.

(b)Upon receipt of notification by the department, the contractor shall be able to accommodate additions or changes in the formulary within 10 business days.

(c)Clients shall receive drugs from a participating pharmacy either directly, through the clientsdesignated representative, or mailed or delivered to the clientsplace of residence by the contractor or subcontractor, whichever the client prefers. Proof of delivery of the prescription to the clientsdesignated address, by signature acknowledging receipt thereof, shall be required for all mail order prescriptions.

(d)Clients shall have their prescriptions filled within 24 hours of submission of prescription requests, and mail order prescriptions shall be shipped by the contractor within 48 hours of receipt of client prescription requests.

(e)The contractor shall provide 24-hour free telephone and fax machine access for physicians and surgeons, or medical care providers as authorized under state law, to call in or transmit prescriptions for mail order pharmacy.

(f)Clients shall have toll-free telephone access during business hours to speak with licensed pharmacists for medication counseling and for mail order prescription requests. The contractor shall provide consultation in the prevention of potentially harmful drug interactions in connection with prescriptions filled for clients.

(g)The contractor shall have the ability to subcontract with any willing provider, including independent and sole proprietorship pharmacies, provided the subcontractor accepts the rates offered by the contractor, supplies the contractor with timely information, and complies with necessary contract terms and conditions and other needs of the program as determined by the contractor or the department.

(h)It is the intent of the Legislature that the contractor subcontract with all willing providers accepting the

terms and conditions provided for in subdivisions (a) to (g), inclusive, in order to facilitate continuity of care for clients under this chapter.

(i)All types of information, whether written or oral, concerning a client, made or kept in connection with the administration of ADAP services, which includes subsidizing costs associated with health care service plan contracts and health insurance premium payment assistance, shall be confidential, and shall not be used or disclosed except for any of the following:

(1)For purposes directly connected with the administration of the program.

(2)For coordinating client eligibility with programs funded by the federal Ryan White HIV/AIDS Program (Ryan White HIV/AIDS Treatment Extension Act of 2009, (Public Law 111-87, 42 U.S.C. Sec. 201, et seq.)).

(3)If disclosure is otherwise authorized by law.

(4)Pursuant to a written authorization by the person who is the subject of the record or by his or her guardian or conservator.

(j)Information regarding program policies and procedures, including enrollment procedures, eligibility guidelines, and lists of drugs covered, shall be made available to clients in appropriate literacy levels in English, Spanish, Mandarin/Cantonese, Tagalog, and in other languages, as determined by the department.

(k)The contractor shall develop and maintain a timely and accessible grievance procedure for clients to resolve problems regarding all components of the delivery of drugs under this chapter.

(Amended by Stats. 2017, Ch. 52, Sec. 16. (SB 97) Effective July 10, 2017.)

120971.

(a)In the event state expenditures for the AIDS Drug Assistance Program (ADAP) are identified by California to be used as a certified public expenditure for the purpose of obtaining federal financial participation under the Medi-Cal program for any purposes, including federal demonstration waivers, the State Department of Health Care Services and the State Department of Public Health shall ensure the integrity of the ADAP in meeting its maintenance-of-effort requirements to receive federal funds and to obtain all ADAP drug rebates to support the ADAP.

(b)The State Department of Health Care Services and the State Department of Public Health shall keep the appropriate policy and fiscal committees of the Legislature informed of any potential concerns that may arise in the event that state expenditures for the ADAP are used as a certified public expenditure as described in subdivision (a).

(Added by Stats. 2010, Ch. 717, Sec. 15. (SB 853) Effective October 19, 2010.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=105.&title=&part=4.&chapter=6.1.&article=

120972.

(a)To the extent that funds are available for these purposes, the director may establish and administer a program within the departmentsOffice of AIDS to subsidize certain costs of medications for the prevention of HIV infection and other related medical services, as authorized by this section, to persons who meet all of the following requirements:

(1)Are residents of California who are at least 18 years of age, or who may consent to medical care related to the prevention of a sexually transmitted disease consistent with Section 6926 of the Family Code.

(2)Are HIV negative.

(3)Meet the financial eligibility requirements identified in Section 120960. Unemancipated minors between 12 and 17 years of age shall be considered a family size of one for purposes of determining financial eligibility for this program.

(4)Have been prescribed, dispensed, or otherwise furnished medication listed on the AIDS Drug Assistance Program (ADAP) formulary as provided in paragraph (2) of subdivision (a) of Section 120955.

(b)To the extent allowable under federal law, and upon available funds, the director may expend funding for this program from the AIDS Drug Assistance Program Rebate Fund as implemented pursuant to Section 120956.

(c)To the extent that funding is made available for this purpose, the program may subsidize all of the following costs of medication for the prevention of HIV infection and related medical services for eligible individuals:

(1)For uninsured individuals, the costs for both of the following:

(A)HIV pre-exposure prophylaxis (PrEP)-related and post-exposure prophylaxis (PEP)-related medical services for individuals who are enrolled, if eligible, in a drug manufacturersmedication assistance program.

(B)Medication for the prevention of HIV infection for individuals who are ineligible for a drug manufacturersmedication assistance program.

(2)For insured individuals, the costs for all of the following:

(A)Medication copays, coinsurance, and deductibles for the prevention of HIV infection after the individualsinsurance is applied and, if eligible, after the drug manufacturersmedication assistance programscontributions are applied. Use of the drug manufacturersmedication assistance program is not required if it is not accepted by the health plan or pharmacy contracted with the health plan.

(B)Medical copays, coinsurance, and deductibles for PrEP-related and PEP-related medical services.

(C)Subsidizing premiums to purchase or maintain health insurance coverage for individuals using PrEP if the director makes a determination that it is feasible and would result in cost savings to the state.

(d)For the purposes of this program, an insured individual on a parentsor partnershealth plan shall be considered uninsured if the individual is unable to use the individualshealth insurance coverage for

confidentiality or safety reasons.

(e)Notwithstanding the eligibility requirements in subdivision (a), the program may subsidize the costs of up to 30 days of PrEP and PEP medications for the prevention of HIV infection.

(f)If the director makes a formal determination that, in any fiscal year, funds appropriated for the program will be insufficient to provide medications for the prevention of HIV infection or related medical costs to existing eligible persons for the fiscal year and that a suspension of the implementation of the program is necessary, the director may suspend either of the following:

(1)The program.

(2)The eligibility determinations and enrollment in the program for the period of time necessary to meet the needs of existing eligible persons in the program.

(g)Reimbursement under the program shall not be made for any drugs or related services that are available to the recipient under any other private, state, or federal programs, or under any other contractual or legal entitlements, except as specified in this section. The director may authorize an exemption from this subdivision if it would result in cost savings to the state.

(h)If the department utilizes a contractor or subcontractor to administer any aspect of the program, the provisions of Section 120970, except subdivision (i) of that section, shall apply.

(i)All types of information, whether written or oral, concerning a client, made or maintained in connection with the administration of this program, shall be confidential, and shall not be used or disclosed except for any of the following:

(1)For purposes directly connected with the administration of the program.

(2)If disclosure is otherwise authorized by law.

(3)Pursuant to a written authorization by the person who is the subject of the record or, if the person is 18 years of age or older, by the personsguardian or conservator.

(j)For purposes of verifying financial eligibility for the program, the department shall verify the accuracy of the modified adjusted gross income reported by an applicant or recipient of the program, with data, if available, from the Franchise Tax Board. The Franchise Tax Board and the department are authorized to disclose personally identifiable data to one another, solely for this purpose, and in accordance with the data exchange process identified in Section 120962.

(k)Regulations adopted pursuant to subdivision (c), (d), or (e), are exempt from rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code).

(Amended by Stats. 2021, Ch. 143, Sec. 18. (AB 133) Effective July 27, 2021.)

120972.1.

(a)To the extent that funds are available for these purposes, the State Department of Public Health, Office of

AIDS may allocate funds to local health departments and community-based organizations to support HIV preexposure prophylaxis (PrEP) and postexposure prophylaxis (PEP) navigation and retention coordinators and related services for the purpose of increasing PrEP and PEP initiation and retention among individuals most vulnerable to HIV.

(b)Navigation and retention services may include, but are not limited to, outreach and education, community messaging, assistance with applying for and retaining health coverage, assistance with enrollment in PrEP and PEP financial assistance programs, care coordination and adherence support, financial assistance for transportation costs, and linkage to behavioral health, substance use, housing, and other social service programs.

(c)The Office of AIDS shall establish a simple application process for local health departments and community-based organizations to receive funding to support PrEP and PEP navigation and retention coordinators and related services.

(d)Local health departments and community-based organizations in any county shall be eligible for funding if they meet all of the following requirements:

(1)Provide enrollment or clinical services for the HIV prevention program as outlined in Section 120972.

(2)Describe how funding for PrEP and PEP navigation and retention coordinators and related services will help to improve PrEP initiation and retention in their specific geographic area.

(3)Demonstrate the capacity to provide culturally appropriate PrEP and PEP navigation and retention services to one or more communities vulnerable to HIV, including, but not limited to, all of the following:

(A)Black, indigenous, and people of color.

(B)Lesbian, gay, bisexual, queer, and questioning individuals.

(C)Non-English-speaking individuals.

(D)Other populations that are difficult to reach, including those with transportation or technology challenges.

(E)People experiencing homelessness.

(F)People involved in the carceral system.

(G)People who use drugs.

(H)People engaged in sex work.

(I)Transgender and gender-nonconforming individuals.

(J)Undocumented individuals.

(K)Women.

(L)Youth.

(e)Local health departments and community-based organizations shall be eligible to apply for one or more

PrEP navigation and retention coordinators based on need in the specific geographic area and organizational capacity to reach the target population or populations.

(f)Funded local health departments and community-based organizations shall collaborate with the Office of AIDS to conduct outcome and process evaluation of PrEP and PEP navigation and retention services. The Office of AIDS shall establish performance metrics to ensure that funding is used efficiently and measure program success.

(g)The Office of AIDS may use a portion of funds to contract with a third-party entity to provide training, program technical assistance, and capacity building to funded local health departments and community-based organizations.

(h)To the extent allowable under federal law, and upon availability of funds, the Office of AIDS may expend funding for the activities outlined in this section from the AIDS Drug Assistance Program Rebate Fund as implemented pursuant to Section 120956.

(Added by Stats. 2021, Ch. 143, Sec. 24. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 6.2. HIV Care Program [120973 - 120974]__

(Chapter 6.2 added by Stats. 2019, Ch. 38, Sec. 24.)

120973.

The following definitions apply for purposes of this chapter:

(a)ADAP means the AIDS Drug Assistance Program.

(b)HIV Care Program means the CARE Services Program referenced in subparagraph (C) of paragraph (1) of subdivision (a) of Section 131051. Any reference to the CARE Services Program is deemed a reference to the HIV Care Program.

(c)The HIV Care Program provides primary medical care and support services pursuant to the federal Ryan White CARE Act (42 U.S.C. Sec. 300ff), and is administered by the Office of AIDS in the State Department of Public Health in accordance with Sections 131019 and 131051.

(Added by Stats. 2019, Ch. 38, Sec. 24. (SB 78) Effective June 27, 2019. Section operative April 1, 2020, pursuant to Section 120974.)

120973.5

The State Department of Public Health shall apply the same financial eligibility requirements for the purposes of administering the HIV Care Program as those set forth for the ADAP in Section 120960.

(Added by Stats. 2019, Ch. 38, Sec. 24. (SB 78) Effective June 27, 2019. Section operative April 1, 2020, pursuant to Section 120974.)

120974.

This chapter shall become operative on April 1, 2020.

(Added by Stats. 2019, Ch. 38, Sec. 24. (SB 78) Effective June 27, 2019.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 7. Mandated Blood Testing and Confidentiality to Protect Public Health [120975 - 121023]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 7.)

120975.

To protect the privacy of individuals who are the subject of testing for human immunodeficiency virus (HIV), the following shall apply:

Except as provided in Section 1603.1, 1603.3, or 121022, no person shall be compelled in any state, county, city, or other local civil, criminal, administrative, legislative, or other proceedings to identify or provide identifying characteristics that would identify any individual who is the subject of an HIV test, as defined in subdivision (c) of Section 120775.

(Amended by Stats. 2013, Ch. 445, Sec. 1. (SB 249) Effective January 1, 2014.)

120980.

(a)Any person who negligently discloses results of an HIV test, as defined in subdivision (c) of Section 120775, to any third party, in a manner that identifies or provides identifying characteristics of the person to whom the test results apply, except pursuant to a written authorization, as described in subdivision (g), or except as provided in Section 1603.1, 1603.3, or 121022 or any other statute that expressly provides an exemption to this section, shall be assessed a civil penalty in an amount not to exceed two thousand five hundred dollars ($2,500) plus court costs, as determined by the court, which penalty and costs shall be paid to the subject of the test.

(b)Any person who willfully or maliciously discloses the results of an HIV test, as defined in subdivision (c) of Section 120775, to any third party, in a manner that identifies or provides identifying characteristics of the person to whom the test results apply, except pursuant to a written authorization, as described in subdivision (g), or except as provided in Section 1603.1, 1603.3, or 121022 or any other statute that expressly provides an exemption to this section, shall be assessed a civil penalty in an amount not less than five thousand dollars ($5,000) and not more than ten thousand dollars ($10,000) plus court costs, as determined by the court, which penalty and costs shall be paid to the subject of the test.

(c)Any person who willfully, maliciously, or negligently discloses the results of an HIV test, as defined in subdivision (c) of Section 120775, to a third party, in a manner that identifies or provides identifying characteristics of the person to whom the test results apply, except pursuant to a written authorization, as described in subdivision (g), or except as provided in Section 1603.1, 1603.3, or 121022 or any other statute that expressly provides an exemption to this section, that results in economic, bodily, or psychological harm

to the subject of the test, is guilty of a misdemeanor, punishable by imprisonment in the county jail for a period not to exceed one year, or a fine of not to exceed twenty-five thousand dollars ($25,000), or both.

(d)Any person who commits any act described in subdivision (a) or (b) shall be liable to the subject for all actual damages, including damages for economic, bodily, or psychological harm that is a proximate result of the act.

(e)Each disclosure made in violation of this chapter is a separate and actionable offense.

(f)Except as provided in Article 6.9 (commencing with Section 799) of Chapter 1 of Part 2 of Division 1 of the Insurance Code, the results of an HIV test, as defined in subdivision (c) of Section 120775, that identifies or provides identifying characteristics of the person to whom the test results apply, shall not be used in any instance for the determination of insurability or suitability for employment.

(g)Written authorization, as used in this section, applies only to the disclosure of test results by a person responsible for the care and treatment of the person subject to the test. Written authorization is required for each separate disclosure of the test results, and shall include to whom the disclosure would be made.

(h)Nothing in this section limits or expands the right of an injured subject to recover damages under any other applicable law. Nothing in this section shall impose civil liability or criminal sanction for disclosure of the results of tests performed on cadavers to public health authorities or tissue banks.

(i)Nothing in this section imposes liability or criminal sanction for disclosure of an HIV test, as defined in subdivision (c) of Section 120775, in accordance with any reporting requirement for a case of HIV infection, including AIDS by the department or the Centers for Disease Control and Prevention under the United States Public Health Service.

(j)The department may require blood banks and plasma centers to submit monthly reports summarizing statistical data concerning the results of tests to detect the presence of viral hepatitis and HIV. This statistical summary shall not include the identity of individual donors or identifying characteristics that would identify individual donors.

(k)Disclosed, as used in this section, means to disclose, release, transfer, disseminate, or otherwise communicate all or any part of any record orally, in writing, or by electronic means to any person or entity.

(l)When the results of an HIV test, as defined in subdivision (c) of Section 120775, are included in the medical record of the patient who is the subject of the test, the inclusion is not a disclosure for purposes of this section.

(Amended by Stats. 2006, Ch. 20, Sec. 4. Effective April 17, 2006.)

120985.

(a) Notwithstanding Section 120980, the results of an HIV test that identifies or provides identifying characteristics of the person to whom the test results apply may be recorded by the physician who ordered the test in the test subjectsmedical record or otherwise disclosed without written authorization of the subject of the test, or the subjectsrepresentative as set forth in Section 121020, to the test subjectsproviders of health care, as defined in Section 56.05 of the Civil Code, for purposes of diagnosis, care, or treatment of the patient, except that for purposes of this section, providers of health care does not include a health care

service plan regulated pursuant to Chapter 2.2 (commencing with Section 1340) of Division 2.

(b) Recording or disclosure of HIV test results pursuant to subdivision (a) does not authorize further disclosure unless otherwise permitted by law.

(Amended by Stats. 2013, Ch. 444, Sec. 14. (SB 138) Effective January 1, 2014.)

120990.

(a)Prior to ordering a test that identifies infection of a patient with HIV, a medical care provider shall inform the patient that the test is planned, provide information about the test, inform the patient that there are numerous treatment options available for a patient who tests positive for HIV and that a person who tests negative for HIV should continue to be routinely tested, and advise the patient that he or she has the right to decline the test. If a patient declines the test, the medical care provider shall note that fact in the patientsmedical file.

(b)Subdivision (a) does not apply when a person independently requests an HIV test from a medical care provider.

(c)Except as provided in subdivision (a), a person shall not administer a test for HIV infection unless the person being tested or his or her parent, guardian, conservator, or other person specified in Section 121020 has provided informed consent for the performance of the test. Informed consent may be provided orally or in writing, but the person administering the test shall maintain documentation of consent, whether obtained orally or in writing, in the clientsmedical record. This consent requirement does not apply to a test performed at an alternative site pursuant to Section 120890 or 120895. This section does not authorize a person to administer a test for HIV unless that person is otherwise lawfully permitted to administer an HIV test.

(d)Subdivision (c) shall not apply when a person independently requests an HIV test from an HIV counseling and testing site that employs a trained HIV counselor, pursuant to Section 120917, provided that the person is provided with information required pursuant to subdivision (a) and his or her independent request for an HIV test is documented by the person administering the test.

(e)Nothing in this section shall preclude a medical examiner or other physician from ordering or performing a test to detect HIV on a cadaver when an autopsy is performed or body parts are donated pursuant to the Uniform Anatomical Gift Act (Chapter 3.5 (commencing with Section 7150) of Part 1 of Division 7).

(f)(1)The requirements of subdivision (c) do not apply when blood is tested as part of a scientific investigation conducted either by a medical researcher operating under the approval of an institutional review board or by the department, in accordance with a protocol for unlinked testing.

(2)For purposes of this subdivision, unlinked testing means blood samples that are obtained anonymously, or that have the name or identifying information of the individual who provided the sample removed in a manner that prevents the test results from ever being linked to the particular individual who participated in the research or study.

(g)Nothing in this section permits a person to unlawfully disclose an individualsHIV status, or to otherwise violate provisions of Section 54 of the Civil Code, the Americans With Disabilities Act of 1990 (Public Law 101-336), or the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2 of the Government Code), which prohibit discrimination against individuals who are

living with HIV, who test positive for HIV, or who are presumed to be HIV-positive.

(h)After the results of a test performed pursuant to this section have been received, the medical care provider or the person who administers the test shall ensure that the patient receives timely information and counseling, as appropriate, to explain the results and the implications for the patientshealth. If the patient tests positive for HIV infection, the medical provider or the person who administers the test shall inform the patient that there are numerous treatment options available and identify followup testing and care that may be recommended, including contact information for medical and psychological services. If the patient tests negative for HIV infection and is determined to be at high risk for HIV infection by the medical provider or person administering the test, the medical provider or the person who administers the test shall advise the patient of the need for periodic retesting, explain the limitations of current testing technology and the current window period for verification of results, and provide information about methods that prevent or reduce the risk of contracting HIV, including, but not limited to, preexposure prophylaxis and postexposure prophylaxis, consistent with guidance of the federal Centers for Disease Control and Prevention, and may offer prevention counseling or a referral to prevention counseling.

(i)This section shall not apply to a clinical laboratory.

(Amended by Stats. 2016, Ch. 670, Sec. 1. (AB 2640) Effective January 1, 2017.)

120991.

(a)Each patient who has blood drawn at a primary care clinic and who has consented to the HIV test pursuant to Section 120990 shall be offered an HIV test. The primary care clinician shall offer an HIV test consistent with the United States Preventive Services Task Force recommendation for screening HIV infection. This subdivision shall not apply if the primary care clinic has tested the patient for HIV or if the patient has been offered the HIV test and declined the test within the previous 12 months. Any subsequent testing of a patient who has been tested by the primary care clinic shall be consistent with the most recent guidelines issued by the United States Preventive Services Task Force.

(b)HIV testing of minors 12 years of age or older shall comply with Section 6926 of the Family Code.

(c)This section shall not prohibit a primary care clinic from charging a patient to cover the cost of HIV testing. The primary care clinic shall be deemed to have complied with this section if an HIV test is offered.

(d)A primary care clinic shall attempt to provide test results to the patient before he or she leaves the facility. If that is not possible, the facility may inform the patient who tests negative for HIV by letter or by telephone, and shall inform a patient with a positive test result in a manner consistent with state law. However, in any case, the primary care clinic shall comply with subdivision (g) of Section 120990.

(e)For purposes of this section, primary care clinic means a primary care clinic as defined in subdivision (a) of Section 1204 or subdivision (g), (h), or (j) of Section 1206.

(Added by Stats. 2013, Ch. 589, Sec. 2. (AB 446) Effective January 1, 2014.)

120992.

(a)There is hereby created a pilot project, to be administered by the department, in order to assess and make recommendations regarding the effectiveness of the routine offering of an HIV test in the emergency department of a hospital.

(b)The department shall select four hospitals that have emergency departments to voluntarily participate in the pilot project. The department may select fewer hospitals if an insufficient number of hospitals express willingness to voluntarily participate.

(1)Two of the hospitals shall be selected from large urban areas.

(2)One hospital shall be selected from a small urban or suburban area.

(3)One hospital shall be selected from a rural area.

(c)Each hospital in the pilot project shall offer an HIV test to any patient in the hospital emergency department who has consented to the HIV test pursuant to Section 120990. The emergency department shall comply with subdivision (h) of Section 120990 and may choose to comply either by using emergency department or other hospital personnel or engaging the services of an HIV organization that has experience in prevention counseling for persons at risk for HIV.

(d)(1)A hospital in the pilot project shall not offer a test to any person who is being treated for a life-threatening emergency or who lacks the capacity to consent to an HIV test.

(2)If an emergency department physician at a hospital in the pilot project determines that a patient is in significant pain or distress, including psychological distress, the hospital shall not offer an HIV test to the patient. Once an emergency department physician determines that the patient has stabilized and is no longer in significant pain or distress, including psychological distress, the hospital shall offer an HIV test to the patient.

(e)A hospital in the pilot project shall offer HIV tests to individuals 15 to 65 years of age, inclusive, pursuant to the United States Preventive Services Task Force recommendations. In order to protect the confidentiality and privacy interests of minors, the hospital shall not offer HIV tests to individuals 15 to 17 years of age, inclusive, in the presence of their parent or legal guardian.

(f)A hospital in the pilot project shall be authorized to charge a patient for the cost of the HIV testing.

(g)A hospital in the pilot project shall be directed by the department, in a form, manner, and timeframe determined by the department, to collect and report data on the following topics:

(1)The frequency of HIV test offers.

(2)The frequency of consent or nonconsent to an HIV test and any reasons given by the patient for the consent or the nonconsent.

(3)The time taken to offer an HIV test and secure consent from a patient and the time taken to provide information and counseling pursuant to subdivision (h) of Section 120990.

(4)The aggregate HIV positivity rate.

(5)The frequency with which patients agree to participate in a session to receive information and counseling pursuant to subdivision (h) of Section 120990 and the reasons that patients give for refusing to participate.

(6)The frequency of patients leaving the emergency department without receiving their test results.

(h)A hospital in the pilot project shall provide information to the department regarding its practices and protocols for implementing the offer of an HIV test and the required followup to the test, as well as an assessment of the effectiveness of those practices and protocols.

(i)(1)The pilot project shall commence on March 1, 2017, and end on February 28, 2019.

(2)By December 1, 2019, the department shall complete a report to the Legislature on the findings of the hospitals in the pilot project and make recommendations about routine HIV testing in hospital emergency departments. In preparing the report to the Legislature, the department shall solicit input from a broad range of HIV testing and hospital stakeholders.

(j)(1)The requirement for submitting a report imposed under paragraph (2) of subdivision (i) is inoperative on December 1, 2023, pursuant to Section 10231.5 of the Government Code.

(2)A report submitted pursuant to paragraph (2) of subdivision (i) shall be submitted in compliance with Section 9795 of the Government Code.

(k)For purposes of this section, hospital means a general acute care hospital as defined in subdivision (a) of Section 1250.

(l)This section shall be implemented only to the extent that the department identifies available funding for the purposes of this section. The department may seek or use private funding to cover the costs of administering the pilot project.

(Added by Stats. 2016, Ch. 668, Sec. 1. (AB 2439) Effective January 1, 2017.)

120995.

Actions taken pursuant to Section 1768.9 of the Welfare and Institutions Code shall not be subject to subdivisions (a) to (c), inclusive, of Section 120980. In addition, the requirements of subdivision (a) of Section 120990 shall not apply to testing performed pursuant to Section 1768.9 of the Welfare and Institutions Code.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121000.

Actions taken pursuant to Title 8 (commencing with Section 7500) of Part 3 of the Penal Code shall not be subject to subdivisions (a) to (c), inclusive, of Section 120980. In addition, the requirements of subdivision (a) of Section 120990 shall not apply to testing performed pursuant to that title.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121005.

Neither the department nor any blood bank or plasma center, including a blood bank or plasma center owned or operated by a public entity, shall be held liable for any damages resulting from the notification of test results, as set forth in paragraph (3) of subdivision (a) of, and in subdivision (c) of, Section 1603.3, as amended by Chapter 23 of the Statutes of 1985.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121010.

Notwithstanding Section 120975 or 120980, the results of an HIV test, as defined in subdivision (c) of Section 120775, to detect antibodies to the probable causative agent of AIDS may be disclosed to any of the following persons without written authorization of the subject of the test:

(a)To the subject of the test or the subjectslegal representative, conservator, or to any person authorized to consent to the test pursuant to Section 120990 of this code and Section 6926 of the Family Code.

(b)To a test subjectsprovider of health care, as defined in subdivision (j) of Section 56.05 of the Civil Code, except that for purposes of this section, provider of health care does not include a health care service plan regulated pursuant to Chapter 2.2 (commencing with Section 1340) of Division 2.

(c)To an agent or employee of the test subjectsprovider of health care who provides direct patient care and treatment.

(d)To a provider of health care who procures, processes, distributes, or uses a human body part donated pursuant to the Uniform Anatomical Gift Act (Chapter 3.5 (commencing with Section 7150) of Part 1 of Division 7).

(e)(1)To the designated officer of an emergency response employee, and from that designated officer to an emergency response employee regarding possible exposure to HIV or AIDS, but only to the extent necessary to comply with provisions of the federal Ryan White Comprehensive AIDS Resources Emergency Act of 1990 (Public Law 101-381; 42 U.S.C. Sec. 201).

(2)For purposes of this subdivision, designated officer and emergency response employee have the same meaning as these terms are used in the federal Ryan White Comprehensive AIDS Resources Emergency Act of 1990 (Public Law 101-381; 42 U.S.C. Sec. 201).

(3)The designated officer shall be subject to the confidentiality requirements specified in Section 120980, and may be personally liable for unauthorized release of any identifying information about the HIV results. Further, the designated officer shall inform the exposed emergency response employee that the employee is also subject to the confidentiality requirements specified in Section 120980, and may be personally liable for unauthorized release of any identifying information about the HIV test results.

(Amended by Stats. 2013, Ch. 445, Sec. 2. (SB 249) Effective January 1, 2014.)

121015.

(a)Notwithstanding Section 120980 or any other provision of law, no physician and surgeon who has the results of a confirmed positive test to detect HIV infection of a patient under his or her care shall be held criminally or civilly liable for disclosing to a person reasonably believed to be the spouse, or to a person reasonably believed to be a sexual partner or a person with whom the patient has shared the use of hypodermic needles, or to the local health officer or designated local public health agency staff for HIV partner services, that the patient has tested positive on a test to detect HIV infection, except that no physician and surgeon shall disclose any identifying information about the individual believed to be infected, except as required in Section 121022 or with the written consent of the individual pursuant to subdivision (g) of Section 120980.

(b)No physician and surgeon shall disclose the information described in subdivision (a) unless he or she has first discussed the test results with the patient and has offered the patient appropriate educational and psychological counseling, that shall include information on the risks of transmitting the human immunodeficiency virus to other people and methods of avoiding those risks, and has attempted to obtain the patientsvoluntary consent for notification of his or her contacts. The physician and surgeon shall notify the patient of his or her intent to notify the patientscontacts prior to any notification. When the information is disclosed to a person reasonably believed to be a spouse, or to a person reasonably believed to be a sexual partner, or a person with whom the patient has shared the use of hypodermic needles, the physician and surgeon shall refer that person for appropriate care, counseling, and followup. This section shall not apply to disclosures made other than for the purpose of diagnosis, care, and treatment of persons notified pursuant to this section, or for the purpose of interrupting the chain of transmission.

(c)This section is permissive on the part of the attending physician, and all requirements and other authorization for the disclosure of test results to detect HIV infection are limited to the provisions contained in this chapter, Chapter 10 (commencing with Section 121075) and Sections 1603.1 and 1603.3. No physician has a duty to notify any person of the fact that a patient is reasonably believed to be infected with HIV, except as required by Section 121022.

(d)The local health officer or the designated local public health agency staff for HIV partner services may, without incurring civil or criminal liability, alert any persons reasonably believed to be a spouse, sexual partner, or partner of shared needles of an individual who has tested positive on an HIV test about their exposure, without disclosing any identifying information about the individual believed to be infected or the physician making the report, and shall refer any person to whom a disclosure is made pursuant to this subdivision for appropriate care and followup. Upon completion of the efforts to contact, alert, and refer any person pursuant to this subdivision by a local health officer or the designated local public health agency staff for HIV partner services, all records regarding that person maintained by the local health officer pursuant to this subdivision, including, but not limited to, any individual identifying information, shall be expunged by the local health officer.

(e)The local health officer shall keep confidential the identity and the seropositivity status of the individual tested and the identities of the persons contacted, as long as records of contacts are maintained.

(f)Except as provided in Section 1603.1, 1603.3, or 121022, no person shall be compelled in any state, county, city, or local civil, criminal, administrative, legislative, or other proceedings to identify or provide identifying characteristics that would identify any individual reported or person contacted pursuant to this section.

(Amended by Stats. 2011, Ch. 151, Sec. 1. (SB 422) Effective January 1, 2012.)

121020.

(a)(1)When the subject of an HIV test is not competent to give consent for the test to be performed, written consent for the test may be obtained from the subjectsparents, guardians, conservators, or other person lawfully authorized to make health care decisions for the subject. For purposes of this paragraph, a minor shall be deemed not competent to give consent if he or she is under 12 years of age.

(2)Notwithstanding paragraph (1), when the subject of the HIV test is a minor adjudged to be a dependent child of the court pursuant to Section 360 of the Welfare and Institutions Code, written consent for the test to be performed may be obtained from the court pursuant to its authority under Section 362 or 369 of the Welfare and Institutions Code.

(3)(A)Notwithstanding paragraphs (1) and (2), if the subject of the test is an infant who is less than 12 months of age who has been taken into temporary custody pursuant to Article 7 (commencing with Section 305) of Chapter 2 of Part 1 of Division 2 of the Welfare and Institutions Code or who has been, or has a petition filed with the court to be, adjudged a dependent child of the court pursuant to Section 360 of the Welfare and Institutions Code, the social worker may provide written consent for an HIV test to be performed when the infant is receiving medical care pursuant to Section 369 of the Welfare and Institutions Code, if all of the following have occurred:

(i)The attending physician and surgeon determines that HIV testing is necessary to render appropriate care to the infant and documents that determination. When deciding whether HIV testing is necessary, the physician and surgeon shall consider appropriate factors, either known to the attending physician and surgeon or provided to the attending physician and surgeon by the social worker, including, but not limited to, whether the infant has a parent with a history of behavior that places the parent at an increased risk of exposure to HIV, or whether the infant is a victim of sexual abuse, which has placed the child at risk of exposure to HIV.

(ii)The social worker provides known information concerning the infantspossible risk factors regarding exposure to HIV to the attending physician and surgeon.

(iii)The social worker has made reasonable efforts to contact the parent or guardian but was unable to do so, and the social worker has documented his or her efforts to contact that person.

(B)The attending physician and surgeon and the social worker shall comply with all applicable state and federal confidentiality and privacy laws, including Section 121025, to protect the confidentiality and privacy interests of both the infant and the biological mother.

(b)Written consent shall only be obtained for the subject pursuant to paragraphs (1) and (2) of subdivision (a) when necessary to render appropriate care or to practice preventative measures.

(c)The person authorized to consent to the test pursuant to subdivision (a) shall be permitted to do any of the following:

(1)Notwithstanding Sections 120975 and 120980, receive the results of the test on behalf of the subject without written authorization.

(2)Disclose the test results on behalf of the subject in accordance with Sections 120975 and 120980.

(3)Provide written authorization for the disclosure of the test results on behalf of the subject in accordance with Sections 120975 and 120980.

(d)(1)If an infant tested for HIV pursuant to paragraph (3) of subdivision (a) tests positive for HIV infection and the physician and surgeon determines that immediate HIV medical care is necessary to render appropriate care to that infant, the provision of HIV medical care shall be considered emergency medical care, pursuant to subdivision (d) of Section 369 of the Welfare and Institutions Code.

(2)If an infant tests positive for HIV in a test performed pursuant to this section, the social worker shall provide to the physician and surgeon any available contact information for the biological mother for purposes of reporting the HIV infection to the local health officer pursuant to Section 121022. Cases reported to the local health officer under this subdivision are subject to the requirements of Section 120175.

(Amended by Stats. 2013, Ch. 153, Sec. 1. (AB 506) Effective January 1, 2014.)

121022.

(a)To ensure knowledge of current trends in the HIV epidemic and to ensure that California remains competitive for federal HIV and AIDS funding, health care providers and laboratories shall report cases of HIV infection to the local health officer using patient names on a form developed by the department. Both the local health officer and the department shall be authorized to access reports of HIV infection that are electronically submitted by laboratories pursuant to subdivision (g) of Section 120130. Local health officers shall report unduplicated HIV cases by name to the department on a form developed by the department.

(b)(1)Health care providers and local health officers shall submit cases of HIV infection pursuant to subdivision (a) by courier service, United States Postal Service express mail or registered mail, other traceable mail, person-to-person transfer, facsimile, or electronically by a secure and confidential electronic reporting system established by the department.

(2)This subdivision shall be implemented using the existing resources of the department.

(c)The department and local health officers shall ensure continued reasonable access to anonymous HIV testing through alternative testing sites, as established by Section 120890, and in consultation with HIV planning groups and affected stakeholders, including representatives of persons living with HIV and health officers.

(d)The department shall promulgate emergency regulations to conform the relevant provisions of Article 3.5 (commencing with Section 2641.5) of Subchapter 1 of Chapter 4 of Division 1 of Title 17 of the California Code of Regulations, consistent with this chapter, by April 17, 2007. Notwithstanding the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), if the department revises the form used for reporting pursuant to subdivision (a) after consideration of the reporting guidelines published by the federal Centers for Disease Control and Prevention, the revised form shall be implemented without being adopted as a regulation, and shall be filed with the Secretary of State and printed in Title 17 of the California Code of Regulations.

(e)Pursuant to Section 121025, reported cases of HIV infection shall not be disclosed, discoverable, or compelled to be produced in any civil, criminal, administrative, or other proceeding.

(f)State and local health department employees and contractors shall be required to sign confidentiality agreements developed by the department that include information related to the penalties for a breach of confidentiality and the procedures for reporting a breach of confidentiality, prior to accessing confidential

HIV-related public health records. Those agreements shall be reviewed annually by either the department or the appropriate local health department.

(g) A person shall not disclose identifying information reported pursuant to subdivision (a) to the federal government, including, but not limited to, any agency, employee, agent, contractor, or anyone else acting on behalf of the federal government, except as permitted under subdivision (b) of Section 121025.

(h)(1)Any potential or actual breach of confidentiality of HIV-related public health records shall be investigated by the local health officer, in coordination with the department, when appropriate. The local health officer shall immediately report any evidence of an actual breach of confidentiality of HIV-related public health records at a city or county level to the department and the appropriate law enforcement agency.

(2)The department shall investigate any potential or actual breach of confidentiality of HIV-related public health records at the state level, and shall report any evidence of such a breach of confidentiality to an appropriate law enforcement agency.

(i)Any willful, negligent, or malicious disclosure of cases of HIV infection reported pursuant to subdivision (a) shall be subject to the penalties prescribed in Section 121025.

(j)This section does not limit other remedies and protections available under state or federal law.

(Amended by Stats. 2014, Ch. 71, Sec. 92. (SB 1304) Effective January 1, 2015.)

121023.

(a)Subject to subdivision (b), each clinical laboratory, as defined in Section 1206 of the Business and Professions Code, shall report all CD4+ T-Cell test results to the local health officer for the local health jurisdiction where the health care provider facility is located within seven days of the completion of the CD4+ T-Cell test.

(b)A clinical laboratory shall not be required to report a CD4+ T-Cell test result, as required by this section, if the clinical laboratory can demonstrate that the CD4+ T-Cell test result is not related to a diagnosed case of HIV infection.

(c)The clinical laboratory report with CD4+ T-Cell test results shall also include, if provided by the ordering health care provider, all of the following:

(1)The patientsname.

(2)The patientsdate of birth.

(3)The patientsgender.

(4)The name, telephone number, and address of the local health care provider that ordered the test.

(d)The clinical laboratory report with CD4+ T-Cell test results shall also include all of the following information:

(1)CD4+ T-Cell test results expressed as an absolute count (the number of lymphocytes containing the CD4 epitope per cubic millimeter) and, if available, the relative count (the number of lymphocytes expressing the CD4 epitope as a percentage of total lymphocytes).

(2)The type of laboratory test performed.

(3)The date the laboratory test was performed.

(4)The name, telephone number, and address of the clinical laboratory that performed the test.

(5)The laboratory CLIA number.

(6)The laboratory report number.

(e)(1)Each local health officer shall inspect each clinical laboratory CD4+ T-Cell test report to determine if the test is related to a case of HIV infection.

(2)If the clinical laboratory CD4+ T-Cell test result is related to a case of HIV infection, the local health officer shall report the case of HIV infection or AIDS, as appropriate, to the State Department of Public Health within 45 days of receipt of the laboratory report.

(3)If the clinical laboratory CD4+ T-Cell test result is not related to a case of HIV infection, the local health officer shall destroy the laboratory CD4+ T-Cell test report.

(f)Pursuant to Section 121025, CD4+ T-Cell test reports shall not be disclosed, discoverable, or compelled to be produced in any civil, criminal, administrative, or other proceeding.

(g)CD4+ T-Cell test reports shall be considered confidential public health records as defined in Section 121035.

(h)For the purposes of this section, CD4+ T-Cell test means any test used to measure the number of lymphocytes containing the CD4 epitope.

(Amended by Stats. 2009, Ch. 501, Sec. 1. (AB 1045) Effective January 1, 2010.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 8. Acquired Immune Deficiency Syndrome (AIDS) Public Health Records Confidentiality Act [121025 - 121035]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 7.)

121025.

(a)Public health records relating to human immunodeficiency virus (HIV) or acquired immunodeficiency syndrome (AIDS), containing personally identifying information, that were developed or acquired by a state or local public health agency, or an agent of that agency, are confidential and shall not be disclosed, except as otherwise provided by law for public health purposes or pursuant to a written authorization by the person who is the subject of the record or by his or her guardian or conservator.

(b)In accordance with subdivision (g) of Section 121022, a state or local public health agency, or an agent of that agency, may disclose personally identifying information in public health records, as described in subdivision (a), to other local, state, or federal public health agencies or to corroborating medical researchers, when the confidential information is necessary to carry out the duties of the agency or researcher in the investigation, control, or surveillance of disease, as determined by the state or local public health agency.

(c)Any disclosures authorized by subdivision (a), (b), or this subdivision shall include only the information necessary for the purpose of that disclosure and shall be made only upon the agreement that the information will be kept confidential as described in subdivision (a). Except as provided in paragraphs (1) to (3), inclusive, or as otherwise provided by law, any disclosure authorized by subdivision (a) or (b) shall not be made without written authorization as described in subdivision (a). Any unauthorized further disclosure shall be subject to the penalties described in subdivision (e).

(1)Notwithstanding any other law, the following disclosures are authorized for the purpose of enhancing the completeness of reporting to the federal Centers for Disease Control and Prevention (CDC) of HIV/AIDS and coinfection with tuberculosis, syphilis, gonorrhea, chlamydia, hepatitis B, hepatitis C, and meningococcal infection:

(A)The local public health agency HIV surveillance staff may further disclose the information to the health care provider who provides HIV care to the HIV-positive person who is the subject of the record for the purpose of assisting in compliance with subdivision (a) of Section 121022.

(B)Local public health agency tuberculosis control staff may further disclose the information to state public health agency tuberculosis control staff, who may further disclose the information, without disclosing patient identifying information, to the CDC, to the extent the information is requested by the CDC and permitted by subdivision (b), for purposes of the investigation, control, or surveillance of HIV and tuberculosis

coinfections.

(C)Local public health agency sexually transmitted disease control staff may further disclose the information to state public health agency sexually transmitted disease control staff, who may further disclose the information, without disclosing patient identifying information, to the CDC, to the extent it is requested by the CDC and permitted by subdivision (b), for the purposes of the investigation, control, or surveillance of HIV and syphilis, gonorrhea, or chlamydia coinfection.

(D)For purposes of the investigation, control, or surveillance of HIV and its coinfection with hepatitis B, hepatitis C, and meningococcal infection, local public health agency communicable disease staff may further disclose the information to state public health agency staff, who may further disclose the information, without disclosing patient identifying information, to the CDC to the extent the information is requested by the CDC and permitted by subdivision (b).

(2)Notwithstanding any other law, the following disclosures are authorized for the purpose of facilitating appropriate HIV/AIDS medical care and treatment:

(A)State public health agency HIV surveillance staff, HIV prevention staff, AIDS Drug Assistance Program staff, and care services staff may further disclose the information to local public health agency staff, who may further disclose the information to the HIV-positive person who is the subject of the record, or the health care provider who provides his or her HIV care, for the purpose of proactively offering and coordinating care and treatment services to him or her.

(B)HIV surveillance staff, HIV prevention staff, AIDS Drug Assistance Program staff, and care services staff in the State Department of Public Health may further disclose the information directly to the HIV-positive person who is the subject of the record or the health care provider who provides his or her HIV care, for the purpose of proactively offering and coordinating care and treatment services to him or her.

(C)Local public health agency staff may further disclose acquired or developed information to the HIV-positive person who is the subject of the record or the health care provider who provides his or her HIV care for the purpose of proactively offering and coordinating care and treatment services to him or her.

(3)Notwithstanding any other law, for the purpose of facilitating appropriate medical care and treatment of persons coinfected with HIV and tuberculosis, syphilis, gonorrhea, chlamydia, hepatitis B, hepatitis C, or meningococcal infection, local public health agency sexually transmitted disease control, communicable disease control, and tuberculosis control staff may further disclose the information to state or local public health agency sexually transmitted disease control, communicable disease control, and tuberculosis control staff, the HIV-positive person who is the subject of the record, or the health care provider who provides his or her HIV, tuberculosis, hepatitis B, hepatitis C, meningococcal infection, and sexually transmitted disease care.

(4)For the purposes of paragraphs (2) and (3), staff does not include nongovernmental entities, but shall include state and local contracted employees who work within state and local public health departments.

(d)A confidential public health record, as defined in subdivision (c) of Section 121035, shall not be disclosed, discoverable, or compelled to be produced in any civil, criminal, administrative, or other proceeding.

(e)(1)A person who negligently discloses the content of a confidential public health record, as defined in subdivision (c) of Section 121035, to a third party, except pursuant to a written authorization, as described in subdivision (a), or as otherwise authorized by law, shall be subject to a civil penalty in an amount not to exceed five thousand dollars ($5,000), plus court costs, as determined by the court. The penalty and costs

shall be paid to the person whose record was disclosed.

(2)A person who willfully or maliciously discloses the content of any confidential public health record, as defined in subdivision (c) of Section 121035, to a third party, except pursuant to a written authorization, or as otherwise authorized by law, shall be subject to a civil penalty in an amount not less than five thousand dollars ($5,000) and not more than twenty-five thousand dollars ($25,000), plus court costs, as determined by the court. The penalty and costs shall be paid to the person whose confidential public health record was disclosed.

(3)A person who willfully, maliciously, or negligently discloses the content of a confidential public health record, as defined in subdivision (c) of Section 121035, to a third party, except pursuant to a written authorization, or as otherwise authorized by law, that results in economic, bodily, or psychological harm to the person whose confidential public health record was disclosed, is guilty of a misdemeanor, punishable by imprisonment in a county jail for a period not to exceed one year, or a fine of not to exceed twenty-five thousand dollars ($25,000), or both, plus court costs, as determined by the court. The penalty and costs shall be paid to the person whose confidential public health record was disclosed.

(4)A person who commits an act described in paragraph (1), (2), or (3) is liable to the person whose confidential public health record was disclosed for all actual damages for economic, bodily, or psychological harm that is a proximate result of the act.

(5)Each violation of this section is a separate and actionable offense.

(6)This section does not limit or expand the right of an injured person whose confidential public health record was disclosed to recover damages under any other applicable law.

(f)If a confidential public health record, as defined in subdivision (c) of Section 121035, is disclosed, the information shall not be used to determine employability or insurability of a person.

(Amended by Stats. 2017, Ch. 52, Sec. 18. (SB 97) Effective July 10, 2017.)

121026.

(a)Notwithstanding subdivision (f) of Section 120980, Section 121010, subdivision (g) of Section 121022, subdivision (f) of Section 121025, Section 121115, and Section 121280, the State Department of Public Health and qualified entities may share with each other health records involving the diagnosis, care, and treatment of human immunodeficiency virus (HIV) or acquired immunodeficiency syndrome (AIDS) related to a beneficiary enrolled in federal Ryan White Act funded programs who may be eligible for services under the federal Patient Protection and Affordable Care Act (Public Law 111-148), as amended by the federal Health Care and Education Reconciliation Act of 2010 (Public Law 111-152). The qualified entities, who shall be covered entities under the federal Health Insurance Portability and Accountability Act (Public Law 104-191) and the final regulations issued pursuant to the act by the United States Department of Health and Human Services (45 C.F.R. Parts 160 and 164), may share records only for the purpose of enrolling the beneficiary in Medi-Cal, the bridge programs, Medicaid expansion programs, and any insurance plan certified by the California Health Benefit Exchange established pursuant to Title 22 (commencing with Section 100500) of the Government Code, or any other programs authorized under the federal Patient Protection and Affordable Care Act (Public Law 111-148), and for the purpose of continuing his or her access to those programs and plans without disruption.

(b)The information provided by the State Department of Public Health pursuant to this section shall be limited to only the information necessary for the purposes of this section and shall not include HIV or AIDS surveillance data. This information shall not be further disclosed by a qualified entity, except to any or all of the following as necessary for the purposes of this section:

(1)The person who is the subject of the record or to his or her guardian or conservator.

(2)The provider of health care for the person with HIV or AIDS to whom the information pertains.

(3)The Office of AIDS within the State Department of Public Health.

(c)For purposes of this section, the following definitions shall apply:

(1)Contractor means any person or entity that is a medical group, independent practice association, pharmaceutical benefits manager, or a medical service organization and is not a health care service plan or provider of health care.

(2)Provider of health care means any person licensed or certified pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code; any person licensed pursuant to the Osteopathic Initiative Act or the Chiropractic Initiative Act; any person certified pursuant to Division 2.5 (commencing with Section 1797) of the Health and Safety Code; any clinic, health dispensary, or health facility licensed pursuant to Division 2 (commencing with Section 1200) of the Health and Safety Code.

(3)Qualified entity means any of the following:

(A)The State Department of Health Care Services.

(B)The California Health Benefit Exchange established pursuant to Title 22 (commencing with Section 100500) of the Government Code.

(C)Medi-Cal managed care plans.

(D)Health plans participating in the Bridge Program.

(E)Health plans offered through the Exchange.

(F)County health departments delivering HIV or AIDS health care services.

(d)Notwithstanding any other law, information shared pursuant to this section shall not be disclosed, discoverable, or compelled to be produced in any civil, criminal, administrative, or other proceeding.

(e)This section shall be implemented only to the extent permitted by federal law. All employees and contractors of a qualified entity who have access to confidential HIV-related medical records pursuant to this section shall be subject to, and all information shared pursuant to this section shall be protected in accordance with, the federal Health Insurance Portability and Accountability Act (Public Law 104-191) and the final regulations issued pursuant to that act by the United States Department of Health and Human Services (45 C.F.R. Parts 160 and 164), the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code), and the Insurance Information and Privacy Protection Act (Article 6.6 (commencing with Section 791) of Part 2 of Division 1 of the Insurance Code).

(Amended by Stats. 2014, Ch. 71, Sec. 93. (SB 1304) Effective January 1, 2015.)

121030.

(a) To the extent Chapter 7 (commencing with Section 120975) and Chapter 10 (commencing with Section 121075) apply to records or information that would be covered by this chapter, Chapters 7 and 10 shall supersede this chapter.

(b) This chapter supersedes Section 100330 to the extent it applies to records or information covered by Section 100325 or 100330.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121035.

For purposes of this chapter:

(a)Disclosed or disclosure or discloses has the same meaning as set forth in subdivision (b) of Section 121125.

(b)State or local public health agencies are the department, and any local entity that a health officer, as defined in Section 120100, serves.

(c)Confidential public health record or records means any paper or electronic record maintained by the department or a local health department or agency, or its agent, that includes data or information in a manner that identifies personal information, including, but not limited to, name, social security number, address, employer, or other information that may directly or indirectly lead to the identification of the individual who is the subject of the record.

(Amended by Stats. 2006, Ch. 20, Sec. 8. Effective April 17, 2006.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 9. Acquired Immune Deficiency Syndrome (AIDS) Public Safety and Testing Disclosure [121050 - 121070]__

(Chapter 9 added by Stats. 1995, Ch. 415, Sec. 7.)

121050.

The people of the State of California find and declare that AIDS, AIDS-related conditions, and other communicable diseases pose a major threat to the public health and safety.

The health and safety of the public, victims of sexual crimes, and peace officers, firefighters, and custodial personnel who may come into contact with infected persons, have not been adequately protected by law. The purpose of this chapter is to require that information that may be vital to the health and safety of the public, victims of certain crimes, certain defendants and minors, and custodial personnel, custodial medical personnel, peace officers, firefighters and emergency medical personnel put at risk in the course of their official duties, be obtained and disclosed in an appropriate manner in order that precautions can be taken to preserve their health and the health of others or that those persons can be relieved from groundless fear of infection.

It is the intent of this chapter to supersede in case of conflict existing statutes or case law on the subjects covered including but not limited to the confidentiality and consent provisions contained in Chapter 7 (commencing with Section 120975), Chapter 8 (commencing with Section 121025), and Chapter 10 (commencing with Section 121075).

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996. Note: Stats. 1995, Ch. 415, reenacted in this section the provisions from Section 199.95 as added on Nov. 8, 1988, by initiative Prop. 96.)

121055.

Any defendant charged in any criminal complaint filed with a magistrate or court with any violation of Section 261, 261.5, 262, 266b, 266c, 286, 287, or 288 of, or former Section 288a of, the Penal Code, and any minor with respect to whom a petition has been filed in a juvenile court alleging violation of any of the foregoing laws, shall be subject to an order of a court having jurisdiction of the complaint or petition requiring testing as provided in this chapter.

If an alleged victim listed in the complaint or petition makes a written request for testing under this section, the prosecuting attorney, or the alleged victim may petition the court for an order authorized under this section.

The court shall promptly conduct a hearing upon any such petition. If the court finds that probable cause exists to believe that a possible transfer of blood, saliva, semen, or other bodily fluid took place between the defendant or minor and the alleged victim in an act specified in this section, the court shall order that the defendant or minor provide two specimens of blood for testing as provided in this chapter.

Copies of the test results shall be sent to the defendant or minor, each requesting victim and, if the defendant or minor is incarcerated or detained, to the officer in charge and the chief medical officer of the facility where the person is incarcerated or detained.

(Amended by Stats. 2018, Ch. 423, Sec. 37. (SB 1494) Effective January 1, 2019.)

121056.

(a) Any forensic scientist, including, but not limited to, any criminalist, toxicologist, and forensic pathologist, or any other employee required to handle or perform DNA or other forensic evidence analysis within the scope of his or her duties, who comes into contact with blood or other bodily fluids on, upon, or through the skin or membranes of his or her person while handling or performing testing on forensic evidence, may petition, ex parte, the court having jurisdiction over the laboratory in which he or she works for an order authorized under this chapter.

The employing agency, officer, or entity of the affected employee may also file an ex parte petition for an order authorized under this chapter. Before filing a petition, the requesting party shall make a reasonable effort to obtain the consent of the person whose blood or bodily fluids is to be tested.

(b) The court shall promptly consider any petition filed pursuant to this section. If the court finds that probable cause exists to believe that a possible transfer of blood, saliva, semen, or other bodily fluid took place between the forensic evidence collected and the forensic scientist, criminalist, toxicologist, forensic pathologist, or any other employee required to handle evidence or perform forensic testing thereon as specified in this section, the court shall promptly order that the existing forensic evidence be tested as provided in this chapter.

(c) (1) Except as provided in paragraph (2), copies of the test results shall be sent to each requesting employee named in the petition, and his or her employing agency, officer, or entity, to the person whose sample was tested, and to the officer in charge and the chief medical officer of the facility in which the person is incarcerated or detained.

(2) The person whose sample was tested, shall be advised that he or she will be informed of the HIV test results only if he or she wishes to be so informed. If the person declines to be informed of the HIV test results, then he or she shall sign a form documenting that refusal. The personsrefusal to sign that form shall be construed to be a request to be informed of the HIV test results.

(Added by Stats. 2001, Ch. 482, Sec. 1. Effective January 1, 2002.)

121060.

(a)Any peace officer, firefighter, custodial officer, as that term is defined in subdivision (a) of Section 831 or subdivision (a) of Section 831.5 of the Penal Code, a custody assistant, as that term is defined in subdivision

(a) of Section 831.7 of the Penal Code, a nonsworn uniformed employee of a law enforcement agency whose job entails the care or control of inmates in a detention facility, a nonsworn employee of a law enforcement agency whose job description entails the collection of fingerprints, or emergency medical personnel who, while acting within the scope of his or her duties, is exposed to an arresteesblood or bodily fluids, as defined in Section 121060.1, shall do the following:

(1)Prior to filing a petition with the court, a licensed health care provider shall notify the arrestee of the bloodborne pathogen exposure and make a good faith effort to obtain the voluntary informed consent of the arrestee or the arresteesauthorized legal representative to perform a test for human immunodeficiency virus (HIV), hepatitis B, and hepatitis C. The voluntary informed consent shall be in writing. Once consent is given in writing, the arrestee shall provide three specimens of blood for testing as provided in this chapter.

(2)If voluntary informed consent is not given in writing, the affected individual may petition, ex parte, the court for an order requiring testing as provided in this chapter. The petition shall include a written certification by a health care professional that an exposure, including the nature and extent of the exposure, has occurred.

(b)The court shall promptly conduct a hearing upon a petition filed pursuant to paragraph (2) of subdivision (a). If the court finds that probable cause exists to believe that a possible bloodborne pathogen exposure, as defined in Section 121060.1, took place between the arrestee and the peace officer, firefighter, custodial officer, custody assistant, nonsworn uniformed employee of a law enforcement agency whose job entails the care or control of inmates in a detention facility, nonsworn employee of a law enforcement agency whose job description entails the collection of fingerprints, or emergency medical personnel, as specified in this section, the court shall order that the arrestee provide three specimens of blood for testing as provided in this chapter.

(c)(1)Except as provided in paragraph (2), copies of the test results shall be sent to the arrestee, each peace officer, firefighter, custodial officer, custody assistant, nonsworn uniformed employee of a law enforcement agency whose job entails the care or control of inmates in a detention facility, nonsworn employee of a law enforcement agency whose job description entails the collection of fingerprints, and emergency medical personnel named in the petition and his or her employing agency, officer, or entity, and if the arrestee is incarcerated or detained, to the officer in charge and the chief medical officer of the facility where the person is incarcerated or detained.

(2)The person whose sample was tested, shall be advised that he or she will be informed of the hepatitis B, hepatitis C, and HIV test results only if he or she wishes to be so informed. If the person consents to be informed of the hepatitis B, hepatitis C, and HIV test results, then he or she shall sign a form documenting that consent. The personsrefusal to sign that form shall be construed to be a refusal to be informed of the hepatitis B, hepatitis C, and HIV test results.

(3)Except as otherwise provided under this section, all confidentiality requirements regarding medical records shall apply to the test results obtained.

(Amended by Stats. 2010, Ch. 688, Sec. 1. (AB 2635) Effective January 1, 2011. Note: Stats. 1995, Ch. 415, reenacted in this section the provisions from Section 199.97 as added on Nov. 8, 1988, by initiative Prop. 96.)

121060.1.

(a)For purposes of Section 121060, bloodborne pathogen exposure means a percutaneous injury, including, but not limited to, a needle stick or cut with a sharp object, or the contact of nonintact skin or mucous membranes with any of the bodily fluids identified in subdivision (b), in accordance with the most current bloodborne pathogen exposure definition established by the federal Centers for Disease Control and Prevention.

(b)Bodily fluids means any of the following:

(1)Blood.

(2)Tissue.

(3)Mucous containing visible blood.

(4)Semen.

(5)Vaginal secretions.

(Added by Stats. 2008, Ch. 554, Sec. 2. Effective January 1, 2009.)

121065.

(a)The withdrawal of blood shall be performed in a medically approved manner. Only a physician, registered nurse, licensed vocational nurse, licensed medical technician, or licensed phlebotomist may withdraw blood specimens for the purposes of this chapter.

(b)The court shall order that the blood specimens be transmitted to a licensed medical laboratory and that tests be conducted thereon for medically accepted indications of exposure to or infection by HIV, hepatitis B, and hepatitis C.

(c)(1)The test results shall be sent to the designated recipients with the following disclaimer:

The tests were conducted in a medically approved manner. Persons receiving this test result should continue to monitor their own health and should consult a physician as appropriate. Recipients of these test results are subject to existing confidentiality protections for any identifying information about HIV, hepatitis B, or hepatitis C test results. Medical information regarding the HIV, hepatitis B, or hepatitis C status of the source patient shall be kept confidential and may not be further disclosed, except as otherwise authorized by law.

(2)The exposed individual shall also be informed of the penalties for disclosure for which he or she would be personally liable pursuant to Section 120980.

If the person subject to the test is a minor, copies of the test result shall also be sent to the minorsparents or guardian.

(d)The court shall order all persons, other than the test subject, who receive test results pursuant to Sections 121055, 121056, or 121060, to maintain the confidentiality of personal identifying data relating to the test results except for disclosure that may be necessary to obtain medical or psychological care or advice.

(e)The specimens and the results of tests ordered pursuant to Sections 121055, 121056, and 121060 shall not

be admissible evidence in any criminal or juvenile proceeding.

(f)Any person performing testing, transmitting test results, or disclosing information pursuant to the provisions of this chapter shall be immune from civil liability for any action undertaken in accordance with the provisions of this chapter.

(Amended by Stats. 2008, Ch. 554, Sec. 3. Effective January 1, 2009. Note: Stats. 1995, Ch. 415, reenacted in this section the provisions from Section 199.98 as added on Nov. 8, 1988, by initiative Prop. 96.)

121070.

(a) Any medical personnel employed by, under contract to, or receiving payment from the State of California, any agency thereof, or any county, city, or city and county to provide service at any state prison, the Medical Facility, any Youth Authority institution, any county jail, city jail, hospital jail ward, juvenile hall, juvenile detention facility, or any other facility where adults are held in custody or minors are detained, or any medical personnel employed, under contract, or receiving payment to provide services to persons in custody or detained at any of the foregoing facilities, who receives information as specified herein that an inmate or minor at the facility has been exposed to or infected by the AIDS virus or has an AIDS-related condition or any communicable disease, shall communicate the information to the officer in charge of the facility where the inmate or minor is in custody or detained.

(b) Information subject to disclosure under subdivision (a) shall include the following: any laboratory test that indicates exposure to or infection by the AIDS virus, AIDS-related condition, or other communicable diseases; any statement by the inmate or minor to medical personnel that he or she has AIDS or an AIDS-related condition, has been exposed to the AIDS virus, or has any communicable disease; the results of any medical examination or test that indicates that the inmate or minor has tested positive for antibodies to the AIDS virus, has been exposed to the AIDS virus, has an AIDS-related condition, or is infected with AIDS or any communicable disease; provided, that information subject to disclosure shall not include information communicated to or obtained by a scientific research study pursuant to prior written approval expressly waiving disclosure under this section by the officer in charge of the facility.

(c) The officer in charge of the facility shall notify all employees, medical personnel, contract personnel, and volunteers providing services at the facility who have or may have direct contact with the inmate or minor in question, or with bodily fluids from the inmate or minor, of the substance of the information received under subdivisions (a) and (b) so that those persons can take appropriate action to provide for the care of the inmate or minor, the safety of other inmates or minors, and their own safety.

(d) The officer in charge and all persons to whom information is disclosed pursuant to this section shall maintain the confidentiality of personal identifying data regarding the information, except for disclosure authorized hereunder or as may be necessary to obtain medical or psychological care or advice.

(e) Any person who wilfully discloses personal identifying data regarding information obtained under this section to any person who is not a peace officer or an employee of a federal, state, or local public health agency, except as authorized hereunder, by court order, with the written consent of the patient or as otherwise authorized by law, is guilty of a misdemeanor.

(Amended by Stats. 2003, Ch. 468, Sec. 6. Effective January 1, 2004. Note: Stats. 1995, Ch. 415, reenacted in this section the provisions from Section 199.99 as added on Nov. 8, 1988, by initiative Prop. 96.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 10. Acquired Immune Deficiency Syndrome (AIDS) Research Confidentiality Act [121075 - 121125]__

(Chapter 10 added by Stats. 1995, Ch. 415, Sec. 7.)

121075.

Research records, in a personally identifying form, developed or acquired by any person in the course of conducting research or a research study relating to HIV or AIDS shall be confidential, and these confidential research records shall not be disclosed by any person in possession of the research record, nor shall these confidential research records be discoverable, nor shall any person be compelled to produce any confidential research record, except as provided by this chapter.

(Amended by Stats. 2006, Ch. 20, Sec. 9. Effective April 17, 2006.)

121080.

Confidential research records may be disclosed in accordance with the prior written consent of the research subject with respect to whom the research record is maintained, but only to the extent, under the circumstances, to the persons, and for the purposes the written consent authorizes. Any disclosure authorized by a research subject shall be accompanied by a written statement containing substantially the same language as follows:

This information has been disclosed to you from a confidential research record the confidentiality of which is protected by state law and any further disclosure of it without specific prior written consent of the person to whom it pertains is prohibited. Violation of these confidentiality guarantees may subject you to civil or criminal liabilities.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121085.

(a)Confidential research records shall be protected in the course of conducting financial audits or program evaluations, and audit personnel shall not directly or indirectly identify any individual research subject in any report of a financial audit or program evaluation. To the extent it is necessary for audit personnel to know the identity of individual research subjects, authorized disclosure of confidential research records shall be made on a case-by-case basis, and every prudent effort shall be exercised to safeguard the confidentiality of these research records in accordance with this chapter. Information disclosed for audit or evaluation purposes should be used only for audit and evaluation purposes and may not be redisclosed or used in any other way.

(b)Nothing in this section imposes liability or criminal sanction for disclosure of confidential research records in accordance with any reporting requirement for a case of HIV, including AIDS, by the department or the Centers for Disease Control and Prevention under the United States Public Health Services.

(Amended by Stats. 2006, Ch. 20, Sec. 10. Effective April 17, 2006.)

121090.

Notwithstanding Section 121080, whether or not the research subject, with respect to whom any confidential research record is maintained, gives prior written consent, the content of the confidential research record may be disclosed in any of the following situations:

(a) To medical personnel to the extent it is necessary to meet a bona fide medical emergency of a research subject.

(b) To the department to the extent necessary for the conduct of a special investigation pursuant to Section 100325, in which case the confidentiality provisions of Chapter 8 (commencing with Section 121025) shall apply.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121095.

The content of any confidential research record shall be disclosed to the research subject, the legal representative of the research subject if the research subject is a minor, or the personal representative of a deceased research subject to whom the record pertains, thirty (30) days after written request therefor by the

research subject, the legal representative or the personal representative.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121100.

(a) No confidential research record may be compelled to be produced in any state, county, city or other proceeding in order to initiate or substantiate any criminal charge or charges against a research subject, or to conduct an investigation of a research subject, unless a court finds there is reasonable likelihood that the records in question will disclose material information or evidence of substantial value in connection with the criminal charge or charges or investigation, and there is no other practicable way of obtaining the information or evidence.

In addition, no confidential research record shall be disclosed, discoverable, or compelled to be produced in order to initiate or substantiate any criminal charge or charges against a research subject until after a showing of good cause. In assessing good cause, the court shall weigh the public interest and need for disclosure against the injury to the research subject and the harm to the research being undertaken. Upon the granting of an order to produce, the court, in determining the extent to which disclosure of all or any part of a confidential research record is necessary, shall impose appropriate safeguards against unauthorized disclosure, that shall include, but not necessarily be limited to, the individuals or bodies that may have access to the data, the purposes for which the data shall be used, prohibitions on further disclosure and protection of the identities of other research subjects.

(b) No confidential research record may be compelled to be produced in any state, county, city or other civil proceeding, except as expressly provided in this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121105.

Prior to participation of an individual in a research study relating to HIV or AIDS, both of the following requirements shall be met:

(a)The informed consent of each research subject shall be obtained in the method and manner required by Section 46.116, (a) and (b), of Part 46 of Title 45 of the Code of Federal Regulations and be documented in accordance with Section 46.117 of that part.

(b)Each research subject shall be provided with an explanation in writing, in language understandable to the research subject, of the rights and responsibilities of researchers and research subjects under this chapter.

(Amended by Stats. 2006, Ch. 20, Sec. 11. Effective April 17, 2006.)

121110.

(a)Any person who negligently discloses the content of any confidential research record, as defined in

subdivision (c) of Section 121125, to any third party, except pursuant to this chapter, shall be assessed a civil penalty in an amount not to exceed two thousand five hundred dollars ($2,500), plus court costs, as determined by the court, which penalty and costs shall be paid to the subject of the test.

(b)Any person who willfully or maliciously discloses the content of any confidential research record, as defined in subdivision (c) of Section 121125, to any third party, except pursuant to this chapter, shall be assessed a civil penalty in an amount not less than five thousand dollars ($5,000) and not more than ten thousand dollars ($10,000), plus court costs, as determined by the court, which penalty and costs shall be paid to the subject of the test.

(c)Any person who willfully, maliciously, or negligently discloses the content of any confidential research record, as defined in subdivision (c) of Section 121125, to a third party, except pursuant to this chapter, that results in economic, bodily, or psychological harm to the research subject, is guilty of a misdemeanor, punishable by imprisonment in the county jail for a period not to exceed one year, or a fine of not to exceed twenty-five thousand dollars ($25,000), or both.

(d)Any person who commits any act described in subdivision (a) or (b) shall be liable to the subject for all actual damages for economic, bodily, or psychological harm that is a proximate result of the act.

(e)Any person who negligently or willfully violates Section 121105 is guilty of an infraction punishable by a fine of twenty-five dollars ($25).

(f)Each violation of this chapter is a separate and actionable offense.

(g)Nothing in this section limits or expands the right of an injured research subject to recover damages under any other applicable law.

(Amended by Stats. 2006, Ch. 20, Sec. 12. Effective April 17, 2006.)

121115.

In the event that the participation of an individual in a research study is disclosed, the information shall not be used to determine the employability or insurability of the research subject.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121120.

Nothing in this chapter shall preclude disclosure of information in order to further research efforts, including, but not limited to, the publication, dissemination, or sharing of raw data, statistics, or case studies, so long as no confidential research records concerning any research subject are disclosed.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121125.

For purposes of this chapter:

(a)AIDS means acquired immunodeficiency syndrome.

(b)Disclosed means to disclose, release, transfer, disseminate, or otherwise communicate all or any part of any confidential research record orally, in writing, or by electronic means to any person or entity, or to provide the means for obtaining the records.

(c)Confidential research record or records means any data or information in a personally identifying form, including name, social security number, address, employer, or other information that could, directly or indirectly, in part or in sum, lead to the identification of the individual research subject, developed or acquired by any person in the course of conducting research or a research study relating to HIV or AIDS.

(d)HIV means human immunodeficiency virus.

(Amended by Stats. 2006, Ch. 20, Sec. 13. Effective April 17, 2006.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 11. Acquired Immune Deficiency Syndrome (AIDS) Research and Workshop Grants [121150 - 121180]__

(Chapter 11 added by Stats. 1995, Ch. 415, Sec. 7.)

121150.

The Legislature hereby finds and declares that the department, working with the California AIDS Leadership Committee, has developed a draft state AIDS plan for comprehensive, coordinated government action against AIDS and HIV infection. It is the intention of the Legislature to implement those recommendations pertaining to infectious-disease screening of blood and other body parts and fluids, and to notifying donors of the results of those screening tests.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121155.

(a) There is hereby created in the state department an AIDS Advisory Committee. The membership of the committee shall be composed of eight members who have knowledge or expertise in the area of public health or AIDS research, or have been educated in the areas for which the grants are to be directed by the committee. These members shall be appointed by the following:

(1) Two by the Speaker of the Assembly.

(2) Two by the Senate Rules Committee.

(3) Four by the Governor.

(b) In addition to the membership prescribed by subdivision (a), the following persons shall be ex officio members:

(1) The Director of Health Services or a designee shall be a voting member.

(2) The Director of Mental Health, or a designee, a designee, requested to be appointed by the President of the University of California, with knowledge, experience, and responsibility for the university-wide allocation of AIDS research grants, shall be nonvoting members.

(c) The committee shall be abolished effective July 1, 1990, unless extended by subsequent legislative action.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121160.

The members of the AIDS Advisory Committee shall serve at the pleasure of the appointing powers. The members shall serve without compensation, but shall be reimbursed for necessary and travel expenses incurred in the performance of the duties of the committee.

The committee shall advise and assist the state in addressing the public health issues associated with Acquired Immune Deficiency Syndrome, and shall work with the department in statewide efforts to promote primary prevention, public education, and the advancement of knowledge regarding Acquired Immune Deficiency Syndrome.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121165.

The committee may establish rules or criteria for grants under this chapter as it deems necessary. Pursuant to the rules or criteria, the committee may review and recommend approval by the director of grant applications and monitor programs receiving grants under this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121170.

The director may award grants from any funds that may be made available for the purposes of this chapter to individuals, organizations, or facilities for activities that may include, but need not be limited to, any of the following:

(a) Education regarding primary prevention for high risk groups.

(b) Public education to reduce panic and lessen unnecessary anxiety about AIDS among California residents.

(c) Interdisciplinary or educational workshops to facilitate the interchange of knowledge among investigators regarding AIDS and related disorders.

(d) Research grants that would assist the state with the educational efforts outlined in subdivisions (a) and (b).

(e) Grants to provide seed money for larger grants funded by the federal government or other sources.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121175.

The department may do all of the following:

(a) Accept any federal funds provided for any of the purposes of this chapter.

(b) Accept any gift, donation, bequest, or grant of funds from a private or public agency for any of the purposes of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121180.

Not more than 10 percent of any money appropriated for purposes of this chapter shall be utilized for the

administration of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=105.&title=&part=4.&chapter=12.&article=

121200.

The Legislature finds and declares all of the following:

(a) Over the past five years AIDS has reached an epidemic stage and is estimated to affect 30,000 Californians by 1990.

(b) The estimated cost of medical care alone for the 4,000 AIDS cases that have occurred to date in California totals approximately two hundred fifty million dollars ($250,000,000). By the end of 1990, medical care is projected to approach three billion five hundred million dollars ($3,500,000,000) and the total public health and medical care expenditures are expected to exceed five billion dollars ($5,000,000,000).

(c) There is no cure for the AIDS virus. The long-term solution to the elimination of AIDS lies in conducting vaccine research.

(d) Much research has already been completed by the private sector and should be utilized to the maximum extent possible, including supplementing with public funds.

(e) Profitmaking corporations are (1) not eligible for most of the existing public funding sources as are institutions of higher learning and nonprofit corporations; (2) when eligible, the public funding amounts are not adequate to conduct research; and (3) private grants are only available to nonprofit corporations.

(f) Moreover, private research companies, already having established vaccine development and manufacturing capabilities, are uniquely situated to maximize available resources and to utilize both management and research staff, equipment, and technical innovations to their greatest efficiency towards the specific goal of developing and manufacturing an AIDS vaccine at the earliest possible time.

(g) Exclusion of private corporations from public funding to develop an approved vaccine will likely result in (1) a delay in the development of a vaccine to prevent AIDS; (2) continued spread of AIDS to the general population; and (3) continued increases in private and public funds to provide care to AIDS victims.

(h) It is appropriate to mandate that a grant made to a private entity to develop an AIDS vaccine, once the vaccine has been approved by the FDA for use by the general population, should be reimbursed to the state from the sale of the vaccine.

(Amended by Stats. 1997, Ch. 294, Sec. 18. Effective August 18, 1997.)

121225.

If a California manufacturer that is a grant recipient sells, delivers, or distributes an AIDS vaccine that has received FDA approval for use by the general population and that was developed in whole or in part using a grant awarded pursuant to this chapter, the State of California shall be reimbursed for the grant as provided in this section.

Until the total amount of the grant is repaid, repayments in the amount of one dollar ($1) per dose from the sale of the AIDS vaccine shall be deposited by the grant recipient into the General Fund. Upon payment in full of the grant amount into the General Fund, a royalty on the sale of the vaccine from the grant recipient shall be deposited into the General Fund. The percentage amount of the royalty shall be negotiated at the time of the grant award.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=105.&title=&part=4.&chapter=13.&article=

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 13. Acquired Immune Deficiency Syndrome (AIDS) Immunization [121250 - 121281]__

(Chapter 13 added by Stats. 1995, Ch. 415, Sec. 7.)

121250.

The Legislature finds and declares all of the following:

(a) The rapidly spreading AIDS epidemic poses an unprecedented major public health crisis in California, and

threatens, in one way or another, the life and health of every Californian.

(b) The best hope of stemming the spread of the AIDS virus among the general public is the development of an AIDS vaccine to develop an immunity to exposure.

(c) No vaccine has yet been fully developed, tested, or approved for AIDS. An effective vaccine, especially when directed at high-risk groups of unexposed persons, will virtually eliminate the risk of contracting AIDS, just as the risk of contracting polio and smallpox have been virtually eliminated by earlier vaccine development, production, and use among the general public.

(d) Private industry today has the capability of conducting the vaccine research, biological research, immunology, and genetic engineering of appropriate viral components needed to formulate, develop, produce, and test an AIDS vaccine. Whenever these and other appropriate expertise cannot be found within a single company, the formation of multiinstitutional research groups should be encouraged and prioritized, as it is in the public interest to encourage efforts toward vaccine production.

(e) It is of the highest importance and in the public interest to maximize public protection by developing an AIDS vaccine and by establishing high levels of immunization, initially among high-risk populations.

(f) The continuous spread of AIDS and especially the threat of infection spreading among population groups previously considered low-risk demands that the highest of priorities be given to the development of a universal immunoprophylaxis.

(g) The use of vaccines to control the spread of infectious pathogens is recognized as one of the genuinely decisive technologies of modern medicine. Recent advances in pharmaceutical technology combined with better understanding of the immune process offer the hope of an AIDS vaccine that is effective, safe, relatively inexpensive, and relatively easy to administer.

(h) Utilization of this new science may be forestalled, however, by problems that have recently deterred the development of vaccines by traditional means. These problems must be resolved before the full public health benefits of new approaches to vaccine development can be fully and expeditiously realized.

(i) The marketplace conditions facing vaccine manufacturers and developers today have changed considerably over the past 30 years. Private manufacturers and developers of vaccines cannot be forced to produce vaccines, and may choose, under the free enterprise system, not to produce them if marketplace conditions are unfavorable.

(j) Certain market conditions are slowing and threatening to halt the development of an AIDS vaccine. Any delay in the discovery, testing, approval, and production of the vaccine because of these secondary considerations may cost tens of thousands of human lives annually, unnecessary pain and suffering for hundreds of thousands of infected Americans, and billions of dollars in medical costs and in lost productivity.

(k) Resource constraints in the public and private sectors and the time required to bring vaccines to market presently limit investments in vaccines research and development. Although universities constitute a significant resource in AIDS research in particular and vaccines research in general, university funding limitations and conflicting research priorities make reliance on the resources and expertise of the private pharmaceutical industry a necessary supplement to public funding of AIDS research.

(l) There has been a decrease in the willingness of pharmaceutical companies to become involved in vaccine research, development, and manufacturing because of uncertain profitability and perceived and actual marketplace risks and disincentives.

(m) It is clearly in the public interest to provide appropriate and necessary incentives toward the timely development and production of an effective and safe AIDS vaccine.

(n) The development of an AIDS vaccine provides an exceptionally important benefit, making its availability highly desirable. However, certain conditions may preclude that development, including the following:

(1) There is a high cost for capital expenditures for vaccine development (estimated to be from ten million dollars ($10,000,000) to thirty million dollars ($30,000,000)). Testing costs of clinical trials (twenty million dollars ($20,000,000) per vaccine, by some estimates) are particularly burdensome, especially for smaller firms.

(2) There is an uncertain market demand for a vaccine once development costs have been invested and FDA marketing approval has been secured.

(o) Without state intervention to assure minimal profitability of an AIDS vaccine, inadequate incentives may exist for the private sector to commit resources and expertise to the accelerated development of an AIDS vaccine.

(p) In light of the dangers inherent in the AIDS epidemic to the general public of California, it is crucial that to the extent possible any serious obstacles to the development of a vaccine be removed.

(q) Because an AIDS vaccine provides an exceptionally important public benefit, it is in the public interest to take uncommon action to facilitate the development and production of a vaccine.

(r) It is as well in the public interest to assure fair compensation, if necessary at public expense, to any innocent victim who may be injured by an AIDS vaccine, as a part of implementing the socially beneficial policy of establishing high levels of AIDS immunization.

(s) In light of the high incidence of AIDS amongst Californians, the California Legislature must lead our country into the 20th century in this effort.

(t) It is therefore fitting and proper that the State of California enact uncommon and exceptional legislation in order to prevent the further spread of the AIDS epidemic.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121255.

The Legislature further finds and declares all of the following:

(a) Acquired immune deficiency syndrome (AIDS) is caused by the virus human T-cell lymphotropic virus, type III (HTLV-3) that initially cripples the bodysimmune system and eventually leaves the body open to an array of lethal opportunistic infections.

(b) So far, there is no known cure for AIDS and once a person is AIDS infected, the virus remains throughout the rest of his or her life.

(c) The AIDS virus has a three-to-seven year incubation period, making it one of the most difficult diseases to

combat and trace.

(d) An easily administered blood test can determine whether a person has been exposed to the AIDS virus.

(e) In 1979, when AIDS was first diagnosed in the United States, the number of newly diagnosed victims was doubling every six to nine months; today the number of people diagnosed with AIDS doubles each year.

(f) Nationally, between 500,000 and 2,000,000 Americans are estimated to have been exposed to the AIDS virus. Of those exposed, between 25,000 and 500,000 persons (5 percent"25 percent) may be expected to die of AIDS.

(1) Another 25,000 to 500,000 persons may be expected to develop AIDS Related Complex (ARC). The range of illnesses these individuals will suffer from may range from minor ailments to brain damage.

(2) The remaining majority of those exposed may never suffer its consequences, but may carry and transmit the disease unknowingly.

(3) Some experts estimate as many as 1,000 additional people are exposed daily.

(g) The department, in its report to the Legislature (March 1986) estimated conservatively that over 30,000 Californians shall have contracted AIDS by 1990, about 50 percent having succumbed. The disease is believed to be fatal within 18 months of diagnosis. To date, more than half the 16,000 people with AIDS in the United States have died.

(h) The AIDS virus is transmitted primarily through sexual contact, and also through the sharing of hypodermic needles, contaminated blood transfusions, and during pregnancy to the fetus.

(i) While the earliest spread of the AIDS virus was primarily among homosexuals, the virus is now found and spreading among heterosexuals as well.

(j) Additionally, drug abusers are highly susceptible to the AIDS virus since the drugs diminish the ability of the bodysimmune system to function. Intravenous drug abusers traditionally come into contact with the virus from sharing hypodermic needles.

(k) Persons sexually active in the heterosexual community are also at risk. Until a vaccine is developed, the AIDS virus will cross over from the high-risk groups to the lower risk groups. At this time, it is not known how fast the AIDS virus will penetrate other population groups, but it is not expected to be nearly as rapid. To date, partners of high-risk groups (bisexual men and intravenous drug users) are considered the main means of transmitting the AIDS virus to the heterosexual population. Other means include pregnant women who pass the infection on to the child and prostitutes who pass on the infection to their clients.

(l) Of the first 9,000 AIDS cases diagnosed in the United States, almost 1,000 were women. Fourteen percent of these women developed AIDS through sexual contact. Recent studies have demonstrated that the virus can be transmitted by women to their male sexual partners. Sexual contact with an infected partner may transmit the virus and fatally infect the partner.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121260.

The Legislature further finds and declares all of the following:

(a) The average cost per patient in the treatment of AIDS until death is now one hundred fifty thousand dollars ($150,000). It is estimated that total costs including health care of the first 10,000 AIDS cases in the United States totaled more than six billion three hundred million dollars ($6,300,000,000). By 1990, according to the department, Californians will spend almost five billion dollars ($5,000,000,000) in medical costs alone in care and treatment of 30,000 AIDS patients, with no realistic hope for their remission or cure. This cost does not include money spent on education, research, and lost income.

(b) To date, the costs of caring for people with AIDS related complex (ARC) has not been officially calculated. However, it is safe to assume the costs are substantial over time. Experts fear that the illnesses of ARC patients, although they may not be fatal, are severe. For example, the virus invades the brain rendering the patients incapable of caring for themselves. It is, therefore, plausible that a percentage of ARC patients will need to be institutionalized.

(c) The Legislature intends by this chapter to take uncommon action to remove the impediments to the expeditious development of an AIDS vaccine.

(d) It is further the intent of the Legislature to provide to any person, whose injury is proximately caused by the use of the vaccine, except to the extent the injuries are attributable to the comparative negligence of the claimant in the use of the vaccine, all of the following:

(1) Compensation for related medical costs associated with the care and treatment of the injury.

(2) Compensation for the loss of any and all earnings caused by the injury.

(3) Compensation for pain and suffering caused by the injury, except that in no action shall the amount of damages for noneconomic losses exceed five hundred fifty thousand dollars ($550,000).

(e) It is further the intent of the Legislature to establish the AIDS Clinical Trials Testing Fund that will be available to not more than three California manufacturers of an AIDS vaccine approved by the federal Food and Drug Administration (FDA) or the department pursuant to Part 5 (commencing with Section 109875) of Division 104 for clinical trials with humans.

(f) The AIDS Vaccine Research and Development Advisory Committee shall review requests from California manufacturers for funds from the AIDS Clinical Trials Testing Fund and shall make recommendations to the department regarding the award of funds, including the appropriate amount of funding. The department, taking into consideration the committeesrecommendations, may allocate the funds to the manufacturers specified in the protocol approved by the FDA or the department pursuant to Part 5 (commencing with Section 109875) of Division 104 for administering the clinical trials.

(g) A California manufacturer seeking the approval of the FDA, rather than the department, for administering clinical trials of an AIDS vaccine may apply while FDA approval is pending to the AIDS Vaccine Research and Development Advisory Committee for the committeesrecommendation that the manufacturer receive funds from the AIDS Clinical Trials Testing Fund upon FDA approval.

(Amended by Stats. 1997, Ch. 294, Sec. 22. Effective August 18, 1997.)

121265.

State, as used in this chapter, has the same meaning as set forth in Section 900.6 of the Government Code.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121270.

(a)There is hereby created the AIDS Vaccine Victims Compensation Fund.

(b)For the purposes of this section, the following definitions apply:

(1)AIDS vaccine means a vaccine that (A) has been developed by any manufacturer and (B) is approved by the FDA or the department pursuant to Part 5 (commencing with Section 109875) of Division 104 as a safe and efficacious vaccine for the purpose of immunizing against AIDS.

(2)Damages for personal injuries means the direct medical costs for the care and treatment of injuries to any person, including a person entitled to recover damages under Section 377 of the Code of Civil Procedure, proximately caused by an AIDS vaccine, the loss of earnings caused by the injuries, and the amount necessary, but not to exceed five hundred fifty thousand dollars ($550,000), to compensate for noneconomic losses, including pain and suffering caused by the injuries.

(3)Fund means the AIDS Vaccine Victims Compensation Fund.

(c)The Department of General Services shall pay from the fund, contingent entirely upon the availability of moneys as provided in subdivision (o), damages for personal injuries caused by an AIDS vaccine that is sold in or delivered in California, and administered or dispersed in California to the injured person except that no payment shall be made for any of the following:

(1)Damages for personal injuries caused by the vaccine to the extent that they are attributable to the comparative negligence of the person making the claim.

(2)Damages for personal injuries in any instance when the manufacturer has been found to be liable for the injuries in a court of law.

(3)Damages for personal injuries due to a vaccination administered during a clinical trial.

(d)An application for payment of damages for personal injuries shall be made on a form prescribed by the Department of General Services within one year of the date that the injury and its cause are discovered. This application may be required to be verified. Upon receipt, the Department of General Services may require the submission of additional information necessary to evaluate the claim.

(e)(1)Within 45 days of the receipt of the application and the submission of any additional information, the Department of General Services shall do either of the following:

(A)Allow the claim in whole or part.

(B)Disallow the claim.

(2)In those instances of unusual hardship to the victim, the board may grant an emergency award to the injured person to cover immediate needs upon agreement by the injured person to repay in the event of a final determination denying the claim.

(3)If the claim is denied in whole or part, the victim may apply within 60 days of denial for a hearing. The hearing shall be held within 60 days of the request for a hearing unless the injured person requests a later hearing.

(f)At the hearing, the injured person may be represented by counsel and may present relevant evidence as defined in subdivision (c) of Section 11513 of the Government Code. The Department of General Services may consider additional evidence presented by its staff. If the injured person declines to appear at the hearing, the Department of General Services may act solely upon the application, the staff report, and other evidence that appears on the record.

(g)The Department of General Services may delegate the hearing of applications to hearing examiners.

(h)The decision of the Department of General Services shall be in writing and shall be delivered or mailed to the injured person within 30 days of the hearing. Upon the request by the applicant within 30 days of delivery or mailing, the Department of General Services may reconsider its decision.

(i)Judicial review of a decision shall be under Section 1094.5 of the Code of Civil Procedure, and the court shall exercise its independent judgment. A petition for review shall be filed as follows:

(1)If no request for reconsideration is made, within 30 days of personal delivery or mailing of the Department of General Services™ decision on the application.

(2)If a timely request for reconsideration is filed and rejected by the Department of General Services, within 30 days of personal delivery or mailing of the notice of rejection.

(3)If a timely request for reconsideration is filed and granted by the Department of General Services, or reconsideration is ordered by the Department of General Services, within 30 days of personal delivery or mailing of the final decision on the reconsidered application.

(j)The Department of General Services shall adopt regulations to implement this section, including those governing discovery.

(k)The fund is subrogated to any right or claim that any injured person may have who receives compensation pursuant to this section, or any right or claim that the personspersonal representative, legal guardian, estate, or survivor may have, against any third party who is liable for the personal injuries caused by the AIDS vaccine, and the fund shall be entitled to indemnity from that third party. The fund shall also be entitled to a lien on the judgment, award, or settlement in the amount of any payments made to the injured person.

(l)In the event that the injured person, or his or her guardian, personal representative, estate, or survivors, or any of them, bring an action for damages against the person or persons liable for the injury or death giving rise to an award by the Department of General Services under this section, notice of institution of legal proceedings and notice of any settlement shall be given to the Department of General Services in Sacramento except in cases where the Department of General Services specifies that notice shall be given to the Attorney General. All notices shall be given by the attorney employed to bring the action for damages or by the injured person, or his or her guardian, personal representative, estate, or survivors, if no attorney is employed.

(m)This section is not intended to affect the right of any individual to pursue claims against the fund and lawsuits against manufacturers concurrently, except that the fund shall be entitled to a lien on the judgment, award, or settlement in the amount of any payments made to the injured party by the fund.

(n)There is hereby created the AIDS Vaccine Injury Compensation Policy Review Task Force consisting of 14 members. The task force shall be composed of 10 members appointed by the Governor, of which two shall be from a list provided by the California Trial Lawyers Association, one from the department, the Director of Finance, one unspecified member, and one attorney with experience and expertise in products liability and negligence defense work, two representing recognized groups that represent victims of vaccine induced injuries or AIDS victims, or both, and two representing manufacturers actively engaged in developing an AIDS vaccine. In addition four Members of the Legislature or their designees shall be appointed to the task force, two of which shall be appointed by the Speaker of the Assembly and two of which shall be appointed by the Senate Committee on Rules. The chairperson of the task force shall be appointed by the Governor from the membership of the task force. The task force shall study and make recommendations on the legislative implementation of the fund created by subdivision (a). These recommendations shall at least address the following issues:

(1)The process by which victims are to be compensated through the fund.

(2)The procedures by which the fund will operate and the governance of the fund.

(3)The method by which manufacturers are to pay into the fund and the amount of that payment.

(4)The procedural relationship between a potential victimsclaim through the fund and a court claim made against the manufacturer.

(5)Other issues deemed appropriate by the task force.

The task force shall make its recommendations to the Legislature on or before June 30, 1987.

(o)The fund shall be funded wholly by a surcharge on the sale of an AIDS vaccine, that has been approved by the FDA, or by the department pursuant to Part 5 (commencing with Section 109875) of Division 104, in California in an amount to be determined by the department. The surcharge shall be levied on the sale of each unit of the vaccine sold or delivered, administered, or dispensed in California. The appropriate amount of the surcharge shall be studied by the AIDS Vaccine Injury Compensation Policy Review Task Force, which shall recommend the appropriate amount as part of its report, with the amount of the surcharge not to exceed ten dollars ($10) per unit of vaccine. Expenditures of the task force shall be made at the discretion of the Director of Finance or the directorsdesignee.

(p)For purposes of this section, claims against the fund are contingent upon the existing resources of the fund as provided in subdivision (o), and in no case shall the state be liable for any claims in excess of the resources in the fund.

(Amended by Stats. 2016, Ch. 31, Sec. 175. (SB 836) Effective June 27, 2016.)

121275.

(a)Because the development of a vaccine now costs somewhere between twenty million dollars ($20,000,000) and forty million dollars ($40,000,000), and because the last vaccine produced and marketed did not sell well,

vaccine manufacturers are hesitant to proceed to invest their resources in a risky venture. It is, therefore, in the public health interest of California to assure that manufacturers proceed to develop this vaccine and protect Californians against this dread disease and protect the State of California against the enormous fiscal costs of treatment for persons getting AIDS. It is a sound and worthwhile investment to provide a guarantee of a market to lessen the risk of loss and assure the development of an AIDS vaccine.

It is anticipated that this AIDS vaccine will consist of a three-unit series. The State of California is willing to guarantee that at least 175,000 persons will be vaccinated, and to guarantee the purchase, within three years after the FDA or the department pursuant to Part 5 (commencing with Section 109875) of Division 104 approves marketing of an AIDS vaccine, of at least 500,000 units, at a cost of no more than twenty dollars ($20) per dosage, by all companies, anywhere in the United States.

Therefore, the State of California, by moneys to be appropriated later through the Budget Act, commits itself to purchasing, at the end of three years after the FDA or the department pursuant to Part 5 (commencing with Section 109875) of Division 104 has approved the marketing on a competitive basis, at not more than twenty dollars ($20) per dosage, the difference between 500,000 units and the actual amount sold, delivered, administered, or dispensed by all companies throughout the United States, including units sold to or reimbursed by Medi-Cal, Medicare, or other public programs, providing that fewer than 500,000 units are sold, delivered, administered, or dispensed.

(b)The AIDS Vaccine Guaranteed Purchase Fund is hereby established and shall be administered by the department, which may develop necessary regulations to carry out the purpose of this section.

(c)The department may carry out this section, when those funds are appropriated through the State Budget. In determining which vaccine shall be purchased by the state from among those manufacturers selling or distributing in California, an AIDS vaccine approved by the FDA or the department pursuant to Part 5 (commencing with Section 109875) of Division 104, the department shall take into consideration at least all of the following factors:

(1)The length of time each AIDS vaccine has been in the marketplace in California.

(2)Each AIDS vaccineshistory of efficacy since approval by the FDA or the department.

(3)Each AIDS vaccineshistory of side effects experienced by previous recipients of the vaccine.

(4)The relative cost of each competing manufacturersAIDS vaccine.

(Amended by Stats. 2006, Ch. 538, Sec. 443. Effective January 1, 2007.)

121280.

(a) In enacting this section the Legislature finds and declares:

(1) It is in the interest of the people of California to develop a vaccine that will prevent the infection of HIV, the agent that causes AIDS.

(2) In order to develop that vaccine, a prototype vaccine must be first given to HIV-negative people to determine the following:

(A) The vaccinestoxicity.

(B) The vaccineseefficacy.

(C) The human immune response to the vaccine.

(3) These studies are currently impossible because vaccine manufacturers fear that, by inoculating HIV-negative individuals with an experimental vaccine, they will elicit a positive immune response as measured by an enzyme linked immunosorbent assay (ELISA), western blot or other federal Food and Drug Administration approved in vitro diagnostic test, thereby placing vaccine volunteers at risk for denial of health or life insurance by insurance carriers as a consequence of their participation.

(4) Insurers need a reliable mechanism by which they can verify the insurability of a vaccine trial participant.

(b) No health care service plan, disability insurer, nonprofit hospital service plan, self-insured employee welfare benefit plan, or life insurer may withhold any settlement or coverage of an individual solely because of his or her participation in an AIDS/HIV vaccine clinical trial studied under an investigational new drug application effective pursuant to Section 312 of Title 21 of the Code of Federal Regulations, or Section 111595.

(c) The sponsor of any such trial shall make a confidential certificate with all the necessary particulars, which shall be determined by the department, for each enrollee and then submit it to the department, which shall endorse it and return it to the vaccine recipient. A copy of this confidential certificate shall be kept on file indefinitely by both the study sponsor and the department.

(d) Release of a confidential certificate shall be by written authorization of the enrollee named in the certificate. If the enrollee is unable to provide the written authorization, a person designated in the certificate by the enrollee may provide the written authorization. The written authorization shall include the name of the person or entity to whom the disclosure would be made.

Disclosure as used in this section means to release, transfer, disseminate or otherwise communicate all or part of any confidential certificate orally, in writing, or by electronic means to any person or entity.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121281.

In order to assist pharmacists and pharmacy personnel in the education of consumers who are at risk of bloodborne infections regarding methods and opportunities for improving and protecting their health, and thereby protect the public health, the Office of AIDS shall develop and maintain all of the following information, on its Internet Web site, and the California State Board of Pharmacy shall also post, or maintain a link to, the information on its Internet Web site:

(a)How consumers can access testing and treatment for HIV and viral hepatitis.

(b)How consumers can safely dispose of syringes and hypodermic needles or other sharps waste.

(c)How consumers can access drug treatment.

(Added by Stats. 2011, Ch. 738, Sec. 12. (SB 41) Effective January 1, 2012.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 13.6. Public Health Demonstration Projects [121287 - 121289]__

(Chapter 13.6 added by Stats. 2014, Ch. 40, Sec. 2.)

121287.

(a)There are hereby established public health demonstration projects to allow for innovative, evidence-based approaches to provide outreach, HIV and hepatitis C screenings, and linkage to, and retention in, quality health care for the most vulnerable and underserved individuals with a high risk for HIV infection.

(b)The demonstration projects may operate for a period of up to two years. The department shall implement up to four demonstration projects. The demonstration projects shall be designed to be capable of replication and expansion on a statewide basis.

(c)After conclusion of the demonstration projects, the department shall review the effectiveness of each demonstration project and make a determination of whether the demonstration project model can be implemented on a statewide basis.

(Added by Stats. 2014, Ch. 40, Sec. 2. (SB 870) Effective June 20, 2014.)

121288.

Upon an appropriation for this purpose in the annual Budget Act, the department shall award funding, on a competitive basis, to a community-based organization or local health jurisdiction to operate a demonstration project pursuant to this chapter. The department shall determine the funding levels of each demonstration project based on scope and geographic area. An applicant shall demonstrate each of the following qualifications:

(a)Leadership on access to HIV care and testing issues and experience addressing the needs of highly marginalized populations in accessing medical and HIV care and support.

(b)Experience with the target population or relationships with community-based organizations or nongovernmental organizations, or both, that demonstrate expertise, history, and credibility working successfully in engaging the target population.

(c)Experience working with nontraditional collaborators who work within and beyond the field of HIV/AIDS education and outreach, including areas of reproductive health, housing, immigration, and mental health.

(d)Strong relationships with community-based HIV health care providers that have the trust of the targeted populations.

(e)Strong relationships with the state and local health departments.

(f)Capacity to coordinate a communitywide planning phase involving multiple community collaborators.

(g)Experience implementing evidence-based programs or generating innovative strategies, or both, with at least preliminary evidence of program effectiveness.

(h)Administrative systems and accountability mechanisms for grant management.

(i)Capacity to participate in evaluation activities.

(j)Strong communication systems that are in place to participate in public relations activities.

(Added by Stats. 2014, Ch. 40, Sec. 2. (SB 870) Effective June 20, 2014.)

121289.

Each demonstration project shall prepare and disseminate information regarding best practices for, and the lessons learned regarding, providing outreach and education to the most vulnerable and underserved individuals with a high risk for HIV infection for use by providers, the Office of AIDS, State Department of Public Health, federal departments and agencies, including the Department of Health and Human Services, and other national HIV/AIDS groups.

(Added by Stats. 2014, Ch. 40, Sec. 2. (SB 870) Effective June 20, 2014.)

__CHAPTER 13.7. Statewide African-American Initiative [121290 - 121290.9]__

(Chapter 13.7 added by Stats. 2005, Ch. 403, Sec. 1.)

121290.

(a)There is hereby established the Statewide African-American Initiative to address the disproportionate impact of HIV/AIDS on the health of African-Americans by coordinating prevention and service networks around the state and increasing the capacity of core service providers. For purposes of this chapter, initiative means the Statewide African-American Initiative.

(b)The initiative shall have an executive director who shall coordinate the initiative and report to the Office of AIDS through the Statewide African-American HIV/AIDS Steering Committee formally established pursuant to Section 121290.8.

(c)The initiative shall be implemented in the following five designated regions:

(1)Alameda/San Francisco.

(2)Los Angeles.

(3)Sacramento/Central Valley.

(4)San Bernardino/Riverside.

(5)San Diego.

(d)(1) The Office of AIDS shall provide initial administrative support for the core functions of the initiative.

(2)Until January 1, 2008, the initiative shall be housed at the Office of AIDS. By January 1, 2008, the initiative shall establish itself as an independent nonprofit organization for purposes of Section 501(c)(3) of the Internal Revenue Code.

(Added by Stats. 2005, Ch. 403, Sec. 1. Effective January 1, 2006.)

121290.1.

The initiative shall sponsor and conduct an annual Summit on African-Americans and HIV. The summit shall be funded solely by private funds. The summit shall do all of the following:

(a)Provide a report on the progress of the initiative.

(b)Offer technical assistance workshops.

(c)Provide an overview of local, regional, and national efforts concerning health disparities relating to African-Americans and HIV.

(Added by Stats. 2005, Ch. 403, Sec. 1. Effective January 1, 2006.)

121290.2.

The initiative shall have all of the following responsibilities:

(a)To design and conduct a series of complementary projects to implement policy and planning to address the disproportionate impact of HIV/AIDS on the African-American community, focusing on all of the following categories:

(1)Research.

(2)Policy and advocacy.

(3)Workforce development.

(4)Organizational capacity.

(5)Prevention and treatment information and resources.

(b)To provide integrated leadership in developing, implementing, evaluating, and sustaining HIV-related services and programmatic partnerships between research institutions, community-based organizations, the business community, and public sector agencies.

(c)To improve the efficacy of local service providers through the central coordination of service availability, data, and funding sources through the development of a central coordinating body.

(Added by Stats. 2005, Ch. 403, Sec. 1. Effective January 1, 2006.)

121290.4.

The initiative shall employ all of the following strategies to achieve its objectives:

(a)Serve as a community resource for technical assistance and training in the communication and dissemination of information, and for the synthesis, interpretation, and dissemination of HIV/AIDS data and public health information.

(b)Assemble a network of health experts, HIV/AIDS service providers, community-based organizations, and relevant public and private sector stakeholders who will be accessible through the regional centers, to support the capacity building of community-based programs to eliminate HIV-related health disparities for African-Americans.

(c)Establish the administrative, educational, and communication infrastructure, including personnel, facilities, and technology, to support the activities of the initiativesprovider network.

(d)Assess the availability and allocation of scientific, governmental, and private sector resources to reduce the impact of HIV/AIDS on African-Americans.

(e)Evaluate community-focused interventions and demonstration projects to eliminate disparities in the evaluation and treatment of HIV/AIDS, based on information from the work of the initiative and local and regional resources.

(f)Coordinate and disseminate data, including epidemiology, outcome assessment, and informatics, to provider networks addressing health disparities regarding HIV/AIDS.

(g)Facilitate the development of lasting academic and community partnerships that promote healthy lifestyles, prevent disease, and reduce risk factors for HIV/AIDS.

(h)Increase ongoing access to culturally appropriate health care for African-Americans living with HIV/AIDS.

(Added by Stats. 2005, Ch. 403, Sec. 1. Effective January 1, 2006.)

121290.5.

(a)The initiative shall establish a central coordinating body to provide administrative, technical, educational, and health information dissemination services to the initiativesnetwork of community-based organizations.

(b)The duties of the central coordinating body shall include, but not be limited to, all of the following:

(1)Helping to provide program administration services, project management, fiscal support, resource allocation, and program evaluation to the initiative.

(2)Assisting in the collection, management, and analysis of primary and secondary data, and providing technical support and training.

(3)Aiding in the synthesis, interpretation, and dissemination of information on HIV and African-Americans.

(c)The objectives of the central coordinating body shall include, but not be limited to, both of the following:

(1)To achieve economies of scale in effort, expertise, and equipment, and thereby build the capacity of the provider network and the Office of AIDS to develop, implement, and evaluate community programs to address HIV/AIDS among African-Americans.

(2)To pool services, expertise, equipment, and facilities to support several interrelated projects and collaborating organizations, thereby leveraging greater resources than those that would be provided separately to each project and without formal interactions among the Office of AIDS, community-based organizations, and public sector agencies.

(Added by Stats. 2005, Ch. 403, Sec. 1. Effective January 1, 2006.)

121290.7.

The Office of AIDS shall appoint an internal advisory committee composed of the officesAfrican-American HIV specialist, a section head from the office, and a designee to supervise the day-to-day activities of the initiative.

(Added by Stats. 2005, Ch. 403, Sec. 1. Effective January 1, 2006.)

121290.8.

There is hereby established the Statewide African-American HIV/AIDS Steering Committee. The committee shall be appointed by the Office of AIDS and shall initially consist of the current membership of the informally established Statewide African-American HIV/AIDS Steering Committee, which consists of leadership from service providers, researchers, educators, community-based organizations, and public sector agencies.

(Added by Stats. 2005, Ch. 403, Sec. 1. Effective January 1, 2006.)

121290.9.

The requirements of this chapter shall be implemented only after the Department of Finance makes a determination that nonstate funds in an amount sufficient to fully support the activities of the initiative have been deposited with the state. Thereafter, the requirements of this chapter shall be implemented only to the extent that nonstate funds are received for the purposes of this chapter.

(Added by Stats. 2005, Ch. 403, Sec. 1. Effective January 1, 2006.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=105.&title=&part=4.&chapter=13.8.&article=

121295.

(a)The State Department of Public Health, in consultation with the California Department of Aging, shall establish a program for demonstration projects to allow for innovative, evidence-informed approaches to improve the health and well-being of older people living with HIV.

(b)The demonstration projects shall address the multidisciplinary clinical and nonclinical needs of older people living with HIV.

(c)The demonstration projects shall be responsive to the unique needs of older people living with HIV in the specific geographic area.

(d)The demonstration projects shall operate for a period of up to three years. The department shall implement up to five demonstration projects.

(e)The demonstration projects shall include an evaluation component and a plan for disseminating lessons learned in order to develop new programs and strengthen existing programs.

(f)(1)The department shall establish a process to request applications, and award funding on a competitive basis, for an eligible entity to operate a demonstration project pursuant to this chapter.

(2)An application to operate a demonstration project under this chapter shall be evaluated based on need in the geographic area, populations served, competency of the entity applying, and program design.

(g)The department shall determine the funding levels of each demonstration project based on the scope of the project and need in the specific geographic area.

(h)Any entity in any county shall be eligible to operate a demonstration project pursuant to this chapter if it meets both of the following requirements:

(1)Demonstrates experience and expertise in providing culturally appropriate services to the most vulnerable and underserved older people living with HIV, including, but not limited to, older people living with HIV who are Black, Indigenous, and people of color.

(2)Demonstrates the capacity to ensure that the multidisciplinary clinical and nonclinical needs of older people living with HIV are assessed and addressed. Services may be colocated or coordinated across different locations, including through referrals or partnerships with other entities.

(Added by Stats. 2021, Ch. 143, Sec. 25. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 14. Acquired Immune Deficiency Syndrome (AIDS) Clinical Trial Grant Award for the Prevention of Maternal Transmission of Human Immunodeficiency Virus (HIV) Infection [121300 - 121335]__

(Chapter 14 added by Stats. 1995, Ch. 415, Sec. 7.)

121300.

The Legislature finds and declares all of the following:

(a) Nearly 90 percent of the cases of pediatric AIDS in the United States occur as a result of maternal infant transmission.

(b) It is estimated that from 13 to 45 percent of infants born to HIV-infected mothers will acquire HIV either in utero, during delivery, or postpartum.

(c) In 1990, the number of cases of AIDS in women in the United States increased by 34 percent compared to an increase of 18 percent in men. As a consequence of this increased dissemination of HIV in women, there

has been a concomitant increase in the number of HIV infected infants.

(d) Approximately 6,000 children were born to HIV-infected women in the United States in 1990. This resulted in 1,500 to 2,000 newly infected infants. Internationally, it is estimated that one million children acquired HIV through maternal transmission in 1990.

(e) HIV infection that is transmitted maternally progresses more rapidly than HIV infection in adults, with most infants developing advanced symptoms of infection within 18 months. Costs for care of infants infected with HIV have been estimated to be comparable or higher than the cost of treating HIV-related illness in adults. Currently, limited data exists for the costs of treating HIV-infected children. A recent estimate for those costs is as follows:

(1) For the mean lifetime hospital costs per child: ninety thousand dollars ($90,000).

(2) For the mean annual cost per child hospitalized all year: two hundred nineteen thousand dollars ($219,000). A significant portion of pediatric hospital costs may be due to a prolonged hospitalization because of the lack of foster homes for children.

(3) For the estimated annual medicaid cost: eighteen thousand dollars ($18,000) to forty-two thousand dollars ($42,000).

(4) In comparison, recent estimates of the national cost of treating an adult with HIV and without AIDS is five thousand dollars ($5,000) per year and the average cost of treating an adult person with AIDS is thirty-two thousand dollars ($32,000) per year of that twenty-four thousand dollars ($24,000) is inpatient costs and eight thousand dollars ($8,000) for other services.

(f) AIDS vaccines are now available for testing in FDA-approved clinical trials in HIV-infected pregnant women for the purpose of protecting against HIV transmission from mother to child.

(g) Manufacturers are hesitant to conduct these trials because of the combined threat of liability and the limited market to reimburse the research and clinical trial investment.

(h) The California Legislature wishes to encourage FDA-approved AIDS vaccine clinical trials to protect against maternal HIV transmission from mother to child, that may also provide a therapeutic effect in the HIV-infected mother. It is appropriate to mandate that grants be made to encourage qualified manufacturers to conduct these trials for the benefit of California citizens.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121305.

For the purposes of this chapter, the following definitions apply:

(a) AIDS means acquired immune deficiency syndrome.

(b) An HIV-positive individual means an individual who is infected with the AIDS virus.

(c) Committee means the AIDS Vaccine Research and Development Advisory Committee.

(d) Grant award means an AIDS Vaccine Clinical Trial Grant Award for the Prevention of Maternal Transmission of HIV Infection.

(e) AIDS vaccine, for the purposes of this chapter, means a vaccine that has been developed by a manufacturer and is being tested and administered for the purposes of determining whether immunization of HIV-infected pregnant women will protect against maternal transmission of the AIDS virus. Clinical trials must be conducted under an investigational new drug (IND) application on file with the federal Food and Drug Administration (FDA).

(f) Research subject means a person who is administered an AIDS vaccine, or a fetus of a woman administered an AIDS vaccine, or a child born to a woman administered an AIDS vaccine during pregnancy.

(g) Researcher means a person employed by or affiliated with a manufacturer or a research institution, who participates in the development or testing or administration of an AIDS vaccine, or who is involved in the diagnosis and treatment of a research subject.

(Amended by Stats. 1997, Ch. 294, Sec. 23. Effective August 18, 1997.)

121310.

A manufacturer, research institution, or researcher shall, prior to the administration of an AIDS vaccine to a research subject, obtain that womansinformed consent, that shall comply with all applicable statutes and regulations.

(a) The informed consent shall contain a statement that significant new findings developed during the course of the research that may relate to the subjectswillingness to continue participation will be provided to the subject.

(b) A copy of the informed consent shall be maintained with the womansmedical records.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121315.

(a) A manufacturer, research institution, or researcher shall not be strictly liable for personal injury or wrongful death resulting from the administration of any AIDS vaccine to a research subject participating in the clinical trials described in this chapter.

(b) It is the intent of the Legislature in enacting this section to confer upon manufacturers, research institutions, and researchers participating in the clinical trials described in this chapter an immunity from liability to the same extent as conferred upon specified pharmaceutical manufacturers under Brown v. Superior Court, 44 Cal. 3d 1049.

(c) No immunity shall be conferred to the extent that the injury or death was caused by the negligence, gross negligence, or reckless, willful, or wanton misconduct of the manufacturer, research institution, or researcher or the manufacturer, research institution, or the researcher has failed to comply with Section 121310.

(d) The immunity provided by this section shall not apply to a manufacturer, research institution, or researcher who intentionally provided false information to the FDA in connection with an IND application.

(e) Notwithstanding the immunity provided by this section, nothing in this section shall be construed to affect the inapplicability or applicability of the holding in Brown v. Superior Court, 44 Cal. 3d 1049 to other situations involving the same or similar conduct.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121320.

No person shall be denied the opportunity to be a research subject because of the inability to pay for medical treatment.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121325.

There is hereby created the AIDS Vaccine Clinical Trial Grant Award for the Prevention of Maternal Transmission of HIV Infection. Moneys within the AIDS Clinical Trials Testing Fund, established in accordance with Section 121260, shall, upon appropriation by the Legislature, be available to the department for the purposes of this chapter, that shall include a one-time amount of sixty thousand dollars ($60,000) for the department to develop and process the request for proposal as specified in subdivision (a). Grant awards shall be made available to not more than three manufacturers of an AIDS vaccine approved by the FDA for clinical trials in HIV-positive pregnant women. The purpose is to expedite the completion of an AIDS vaccine to prevent maternal transmission of HIV. The funds are to be used for FDA approved clinical trials.

(a) The department shall issue a request for proposal (RFP) for the clinical trials of an AIDS vaccine to prevent maternal transmission of HIV infection.

(1) The RFP shall be based on the criteria provided in subdivision (d).

(2) Upon issuing the RFP, the department shall publish this fact along with the deadline for grant proposals in the newspapers with the greatest circulation in the major cities of the state, as determined by the department. Additionally, upon issuing the RFP, the same information shall be transmitted to the Secretary of the Senate and the Chief Clerk of the Assembly for publishing in the respective journals of each house of the Legislature.

(b) Any manufacturer may submit a proposal for the grant award in the response to the RFP issued by the department.

(c) The department, taking into consideration the committeesrecommendations, shall, for purposes of this chapter, award grants to no more than three California manufacturers after receiving the committeesrecommendations.

(d) The department, making use of an RFP, shall include a clear description of the criteria to be used to select the projects that will receive funding pursuant to this chapter. The committee shall make recommendations

to the department regarding the content of the RFP. The criteria shall include, but not be limited to, the following:

(1) The potential of the grant recipient to develop a vaccine for the prevention of maternal transmission of HIV infection.

(2) The financial, technical, and managerial commitment of the grant recipient to the development of the vaccine.

(3) The commitment of the grant recipient to agree to provide medical treatment, either directly or through reasonable health insurance coverage, to the participant for any injury caused by the AIDS vaccine in the clinical trial. This agreement shall also be included as part of the participantsinformed consent pursuant to Section 121305.

(e) Grant awards may be made without limitation on the amount of funding from the AIDS Clinical Trials Testing Fund that may be allocated to a single manufacturer, provided that the committee has determined that the grant award is in the public interest.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121330.

If a manufacturer that is a grant recipient sells, delivers, or distributes an AIDS vaccine that has received FDA approval for use by the general population and that was developed in whole or in part using a grant awarded pursuant to this chapter, the State of California shall be reimbursed for the grant as provided in this section.

Until the total amount of the grant is repaid, repayments in the amount of one dollar ($1) per dose from the sale of the AIDS vaccine shall be deposited by the grant recipient into the General Fund. Upon payment in full of the grant amount into the General Fund, a royalty on the sale of the vaccine from the grant recipient shall be deposited into the General Fund. The percentage amount of the royalty shall be negotiated at the time of the grant award.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121335.

It is the intent of the Legislature for the department to make every effort possible to insure a comprehensive and diverse expert representation on the committee. It is the intent of the Legislature to ensure that expert members of the committee include, but are not limited to, ethnic minorities and women.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__CHAPTER 16. Therapeutic Monitoring Program [121345- 121345.]__

(Chapter 16 added by Stats. 2003, Ch. 230, Sec. 11.)

121345.

(a) The Legislature finds and declares that therapeutic monitoring is necessary to make appropriate life-prolonging and cost-effective treatment decisions in the management of HIV disease.

(b) The Director of the Office of AIDS may provide funding for the coverage of therapeutic monitoring assays for HIV disease through the State HIV Therapeutic Monitoring Program.

(c) (1) The purpose of the program under this chapter shall be to provide the therapeutic assays for HIV-positive people who could not otherwise afford them.

(2) The scope of the program shall be determined by the federal and state guidelines for standards of HIV care and availability of funding.

(3) Priority for funding under the State HIV Therapeutic Monitoring Program shall be given to the state-funded Early Intervention Program sites.

(d) Therapeutic monitoring under this chapter shall include, but not be limited to, viral load and resistance assays.

(e) Coverage awards shall be made to counties on the basis of need. The determination of awards shall be made by the Office of AIDS, depending on the availability of state and federal funding for the program. Counties may cover those assays that are determined to be necessary and are not covered under the state program.

(Added by Stats. 2003, Ch. 230, Sec. 11. Effective August 11, 2003.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 4. HUMAN IMMUNODEFICIENCY VIRUS (HIV) [120775 - 121349.3]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 17. Pre- and Post-Exposure Prophylaxis [121348 - 121348.4]__

(Heading of Chapter 17 amended by Stats. 2015, Ch. 18, Sec. 17.)

121348.

(a) The department, through its Office of AIDS, shall appoint and convene a task force to develop recommendations for the use of post-exposure prophylaxis (PEP) in the general population, for the prevention of human immunodeficiency virus (HIV) infection.

(b) In performing its duties under this chapter, the task force shall review and consider PEP guidelines established by other jurisdictions, both in the United States and abroad.

(Added by Stats. 2003, Ch. 746, Sec. 2. Effective January 1, 2004.)

121348.2.

(a) The task force shall consist of no more than 10 members, including, but not be limited to, representatives with PEP experience from all of the following:

(1) Research scientists.

(2) Patients who have received PEP treatment.

(3) HIV physicians or clinicians.

(4) HIV prevention, education, or mental health providers.

(5) Public health officials.

(6) The Office of AIDS.

(7) Health plan representatives.

(b) A representative of the Office of AIDS shall serve as the chair of the task force and shall coordinate the proceedings and actions of the task force as necessary and appropriate.

(c) The department shall designate a physician member of the task force to serve as the cochair of the task force. The cochair shall consult with and advise the department and draft the recommendations for the use of PEP in the general population. The cochair shall serve without compensation or reimbursement for expenses beyond any existing contract with the department, consistent with subdivision (f).

(d) The task force shall be implemented only through existing state resources.

(e) Notwithstanding subdivision (d), the department may seek assistance, including financial and in-kind assistance, from other government, educational, and private sources for purposes of convening the task force and developing the recommendations required by this section.

(f) Representatives appointed to the task force shall serve without compensation and without reimbursement of expenses beyond any existing contract with the department. If the department is unable to secure representatives willing to serve on the task force without compensation or reimbursement for expenses beyond any existing contract with the department, the department may choose not to convene the task force or develop recommendations required by this section.

(g) The recommendations produced by the task force shall be approved by the department in consultation with the cochair and shall be made available through posting on the departmentsWeb site. The department is not required to print or mail the recommendations.

(Added by Stats. 2003, Ch. 746, Sec. 2. Effective January 1, 2004.)

121348.4.

Upon an appropriation in the annual Budget Act, the State Department of Public Health shall establish the Pre-Exposure Prophylaxis (PrEP) Navigator Services Program, under which the department shall provide for the following activities:

(a)Oversight and evaluation of the PrEP Navigator Services Program.

(b)Implementation of a process to request applications, and award funding on a competitive basis, to community-based organizations or local health departments. An eligible entity shall collaborate with the Office of AIDS to conduct outcome and process evaluation of navigator services. An entity in any county shall be eligible to receive funding if it can demonstrate all of the following:

(1)Capacity to ensure access for and serve the most vulnerable and underserved Californians at high risk for HIV.

(2)Ability to develop protocols to conduct outreach to targeted populations, to provide PrEP education to clients and providers, and to assess and refer persons to appropriate clinical care and prevention services.

(c)Development and distribution of PrEP education materials statewide, including providing training for and support of any additional activity that is consistent with the goals of this chapter.

(Added by Stats. 2015, Ch. 18, Sec. 18. (SB 75) Effective June 24, 2015.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=105.&title=&part=4.&chapter=18.&article=

121349.

(a)The Legislature finds and declares that scientific data from needle exchange programs in the United States and in Europe have shown that the exchange of used hypodermic needles and syringes for clean hypodermic needles and syringes does not increase drug use in the population, can serve as an important bridge to treatment and recovery from drug abuse, and can curtail the spread of human immunodeficiency virus (HIV) infection among the intravenous drug user population.

(b)In order to reduce the spread of HIV infection and bloodborne hepatitis among the intravenous drug user population within California, the Legislature hereby authorizes a clean needle and syringe exchange project pursuant to this chapter in any city, county, or city and county upon the action of a county board of supervisors and the local health officer or health commission of that county, or upon the action of the city council, the mayor, and the local health officer of a city with a health department, or upon the action of the city council and the mayor of a city without a health department.

(c)In order to reduce the spread of HIV infection, viral hepatitis, and other potentially deadly bloodborne infections, the State Department of Public Health may, notwithstanding any other law, authorize entities that provide services set forth in paragraph (1) of subdivision (d), and that have sufficient staff and capacity to provide the services described in Section 121349.1, as determined by the department, to apply for authorization under this chapter to provide hypodermic needle and syringe exchange services consistent with state standards in any location where the department determines that the conditions exist for the rapid spread of HIV, viral hepatitis, or any other potentially deadly or disabling infections that are spread through the sharing of used hypodermic needles and syringes. Authorization shall be made after consultation with the local health officer and local law enforcement leadership, and after a period of public comment, as described in subdivision (e). In making the determination, the department shall balance the concerns of law enforcement with the public health benefits. The authorization shall not be for more than two years. Before the end of the two-year period, the department may reauthorize the program in consultation with the local health officer and local law enforcement leadership.

(d)In order for an entity to be authorized to conduct a project pursuant to this chapter, its application to the department shall demonstrate that the entity complies with all of the following minimum standards:

(1)The entity provides, directly or through referral, all of the following services:

(A)Drug abuse treatment services.

(B)HIV or hepatitis screening.

(C)Hepatitis A and hepatitis B vaccination.

(D)Screening for sexually transmitted infections.

(E)Housing services for the homeless, for victims of domestic violence, or other similar housing services.

(F)Services related to provision of education and materials for the reduction of sexual risk behaviors, including, but not limited to, the distribution of condoms.

(2)The entity has the capacity to commence needle and syringe exchange services within three months of authorization.

(3)The entity has adequate funding to do all of the following at reasonably projected program participation levels:

(A)Provide needles and syringe exchange services for all of its participants.

(B)Provide HIV and viral hepatitis prevention education services for all of its participants.

(C)Provide for the safe recovery and disposal of used syringes and sharps waste from all of its participants.

(4)The entity has the capacity, and an established plan, to collect evaluative data in order to assess program impact, including, but not limited to, all of the following:

(A)The total number of persons served.

(B)The total number of needles and syringes distributed, recovered, and disposed of.

(C)The total numbers and types of referrals to drug treatment and other services.

(e)If the application is provisionally deemed appropriate by the department, the department shall, at least 45 days prior to approval of the application, provide for a period of public comment as follows:

(1)Post on the departmentsinternet website the name of the applicant, the nature of the services, and the location where the applying entity will provide the services.

(2)Send a written and an email notice to the local health officer of the affected jurisdiction.

(3)Send a written and an email notice to the chief of police, the sheriff, or both, as appropriate, of the jurisdictions in which the program will operate.

(f)The department shall establish and maintain on its internet website the address and contact information of programs providing hypodermic needle and syringe exchange services pursuant to this chapter.

(g)The authorization provided under this section is only for a clean needle and syringe exchange project as described in Section 121349.1.

(h)(1)Needle and syringe exchange services application submissions, authorizations, and operations performed pursuant to this chapter shall be exempt from review under the California Environmental Quality Act, Division 13 (commencing with Section 21000) of the Public Resources Code.

(2) This subdivision is intended to be declaratory of existing law.

(i)If the department, in its discretion, determines that a state authorized syringe exchange program continues to meet all standards set forth in subdivision (d) and that a public health need exists, it may administratively approve amendments to a programsoperations including, but not limited to, modifications to the time, location, and type of services provided, including the designation as a fixed site or a mobile site. The amendment approval is not subject to the noticing requirements of subdivision (e).

(j)The department shall have 30 business days to review and respond to the applicantsrequest for amendment of the authorization. If the department does not respond in writing within 30 business days, the request shall be deemed denied.

(k)The provisions of this section are severable. If any provision of this section or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

(Amended by Stats. 2021, Ch. 480, Sec. 1. (AB 1344) Effective January 1, 2022.)

121349.1.

The State Department of Public Health or a city, county, or a city and county with or without a health department, that acts to authorize a clean needle and syringe exchange project pursuant to this chapter shall, in consultation with the State Department of Public Health, authorize the exchange of clean hypodermic needles and syringes, as recommended by the United States Secretary of Health and Human Services, subject to the availability of funding, as part of a network of comprehensive services, including treatment services, to combat the spread of HIV and bloodborne hepatitis infection among injection drug users. Staff and volunteers participating in an exchange project authorized by the state, county, city, or city and county pursuant to this chapter shall not be subject to criminal prosecution for violation of any law related to the possession, furnishing, or transfer of hypodermic needles or syringes or any materials deemed by a local or state health department to be necessary to prevent the spread of communicable diseases, or to prevent drug overdose, injury, or disability during participation in an exchange project. Program participants shall not be subject to criminal prosecution for possession of needles or syringes or any materials deemed by a local or state health department to be necessary to prevent the spread of communicable diseases, or to prevent drug overdose, injury, or disability acquired from an authorized needle and syringe exchange project entity.

(Amended (as amended by Stats. 2011, Ch. 744, Sec. 2) by Stats. 2018, Ch. 34, Sec. 15. (AB 1810) Effective June 27, 2018.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 5. TUBERCULOSIS [121350 - 121555]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1. Tuberculosis Control [121350 - 121460]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 7.)

121350.

The department shall maintain a program for the control of tuberculosis. The department shall administer the funds made available by the state for the care of tuberculosis patients.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121355.

Notwithstanding any other provision of this chapter a county that has elected to come under Section 14150.1 of the Welfare and Institutions Code shall not receive any tuberculosis subsidy or reimbursement from the state under the provisions of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121357.

The state department shall be the lead agency for all tuberculosis control and prevention activities at the state level.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121358.

(a) Notwithstanding any other provision of law, individuals housed or detained through the tuberculosis control, housing, and detention program shall not reside in correctional facilities, and the funds available under that program with regard to those individuals shall not be disbursed to, or used by, correctional facilities. This section shall not be interpreted to prohibit the institutionalization of criminals with tuberculosis in correctional facilities.

(b) The department shall work with local health jurisdictions to identify a detention site for recalcitrant tuberculosis patients appropriate for each local health jurisdiction in the state. The department shall notify all counties of their designated site by January 1, 1998.

(Added by Stats. 1997, Ch. 294, Sec. 24. Effective August 18, 1997.)

121360.

Pulmonary tuberculosis is an infectious and communicable disease, dangerous to the public health, and all proper expenditures that may be made by any county, pursuant to this chapter, are necessary for the preservation of the public health of the county.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121360.5.

(a)Any city or county health department that elects to participate in this program shall provide for one-year certification of tuberculin skin test technicians by local health officers.

(b)For purposes of this section, a certified tuberculin skin test technician is an unlicensed public health tuberculosis worker employed by, or under contract with, a local public health department, and who is certified by a local health officer to place and measure skin tests in the local health departmentsjurisdiction.

(c)A certified tuberculin skin test technician may perform the functions for which he or she is certified only if he or she meets all of the following requirements:

(1)The certified tuberculin skin test technician is working under the direction of the local health officer or the tuberculosis controller.

(2)The certified tuberculin skin test technician is working under the supervision of a licensed health professional. For purposes of this section, supervision means the licensed health professional is immediately available for consultation with the tuberculin skin test technician through telephonic or electronic contact.

(d)A certified tuberculin skin test technician may perform intradermal injections only for the purpose of placing a tuberculin skin test and measuring the test result.

(e)A certified tuberculin skin test technician may not be certified to interpret, and may not interpret, the results of a tuberculin skin test.

(f)In order to be certified as a tuberculin skin test technician by a local health officer, a person shall meet all

of the following requirements, and provide to the local health officer appropriate documentation establishing that he or she has met those requirements:

(1)The person has a high school diploma, or its equivalent.

(2)(A)The person has completed a standardized course approved by the California Tuberculosis Controllers Association (CTCA), which shall include at least 24 hours of instruction in all of the following areas: didactic instruction on tuberculosis control principles and instruction on the proper placement and measurement of tuberculin skin tests, equipment usage, basic infection control, universal precautions, and appropriate disposal of sharps, needles, and medical waste, client preparation and education, safety, communication, professional behavior, and the importance of confidentiality.

(B)A certification of satisfactory completion of this CTCA-approved course shall be dated and signed by the local health officer, and shall contain the name and social security number of the tuberculin skin test technician, and the printed name, the jurisdiction, and the telephone number of the certifying local health officer.

(3)The person has completed practical instruction including placing at least 30 successful intradermal tuberculin skin tests, supervised by a licensed physician or registered nurse at the local health department, and 30 correct measurements of intradermal tuberculin skin tests, at least 15 of which are deemed positive by the licensed physician or registered nurse supervising the practical instruction. A certification of the satisfactory completion of this practical instruction shall be dated and signed by the licensed physician or registered nurse supervising the practical instruction.

(g)The certification may be renewed, and the local health department shall provide a certificate of renewal, if the certificate holder has completed in-service training, including all of the following:

(1)At least three hours of a CTCA-approved standardized training course to ensure continued competency. This training shall include, but not be limited to, fundamental principles of tuberculin skin testing.

(2)Practical instruction, under the supervision of a licensed physician or registered nurse at the local health department, including the successful placement and correct measurement of 10 tuberculin skin tests, at least five of which are deemed positive by the licensed physician or registered nurse supervising the practical instruction.

(h)The local health officer or the tuberculosis controller may deny or revoke the certification of a tuberculin skin test technician if the local health officer or the tuberculosis controller finds that the technician is not in compliance with this section.

(i)Each county or city participating in the program under this section using tuberculin skin test technicians, that elects to participate on or after January 1, 2005, shall submit to the CTCA a survey and an evaluation of its findings, including a review of the aggregate report, by July 1, 2006, and by July 1 of each year thereafter to, and including, July 1, 2011. The report shall include the following:

(1)The number of persons trained and certified as tuberculin skin test technicians in that city or county.

(2)The estimated number of tuberculin skin tests placed by tuberculin skin test technicians in that city or county.

(j)By July 1, 2008, the CTCA shall submit a summary of barriers to implementing the tuberculosis technician program in the state to the department and to the appropriate policy and fiscal committees of the

Legislature.

(k)The local health officer of each participating city or county shall report to the Tuberculosis Control Branch within the department any adverse event that he or she determines has resulted from improper tuberculin skin test technician training or performance.

(Amended by Stats. 2009, Ch. 298, Sec. 19. (AB 1540) Effective January 1, 2010.)

121361.

(a) (1) A health facility, local detention facility, or state correctional institution shall not discharge or release any of the following persons unless subdivision (e) is complied with:

(A) A person known to have active tuberculosis disease.

(B) A person who the medical staff of the health facility or of the penal institution has reasonable grounds to believe has active tuberculosis disease.

(2) In addition, persons specified in this subdivision may be discharged from a health facility only after a written treatment plan described in Section 121362 is approved by a local health officer of the jurisdiction in which the health facility is located. Any treatment plan submitted for approval pursuant to this paragraph shall be reviewed by the local health officer within 24 hours of receipt of that plan.

(3) The approval requirement of paragraph (2) shall not apply to any transfer to a general acute care hospital when the transfer is due to an immediate need for a higher level of care, nor to any transfer from any health facility to a correctional institution. Transfers or discharges described in this paragraph shall occur only after the notification and treatment plan required by Section 121362 have been received by the local health officer.

(4) This subdivision shall not apply to any transfer within the state correctional system or to any interfacility transfer occurring within a local detention facility system.

(b) No health facility shall, without first complying with subdivision (e), transfer a person described in subparagraph (A) or (B) of paragraph (1) of subdivision (a) to another health facility. This subdivision shall not apply to any transfer within the state correctional system or to any interfacility transfer occurring within a local detention facility system.

(c) No state correctional institution or local detention facility shall transfer a person described in subparagraph (A) or (B) of paragraph (1) of subdivision (a) from a state to a local, or from a local to a state, penal institution unless notification and a written treatment plan are received by the chief medical officer of the penal institution receiving the person.

(d) No local detention facility shall transfer a person described in subparagraph (A) or (B) of paragraph (1) of subdivision (a) to a local detention facility in another jurisdiction unless subdivision (e) is complied with and notification and a written treatment plan are received by the chief medical officer of the local detention facility receiving the person.

(e) (1) Any discharge, release, or transfer described in subdivisions (a), (b), (c), and (d) may occur only after notification and a written treatment plan pursuant to Section 121362 has been received by the local health

officer. When prior notification would jeopardize the personshealth, the public safety, or the safety and security of the penal institution, the notification and treatment plan shall be submitted within 24 hours of discharge, release, or transfer.

(2) When a person described in paragraph (1) of subdivision (a) is released on parole from a state correctional institution, the notification and written treatment plan specified in this subdivision shall be provided to both the local health officer for the county in which the parolee intends to reside and the local health officer for the county in which the state correctional institution is located.

(3) Notwithstanding any other provision of law, the Department of Corrections shall inform the parole agent, and other parole officials as necessary, that the person described in paragraph (1) of subdivision (a) has active or suspected active tuberculosis disease and provide information regarding the need for evaluation or treatment. The parole agent and other parole officials shall coordinate with the local health officer in supervising the personscompliance with medical evaluation or treatment related to tuberculosis, and shall notify the local health officer if the personsparole is suspended as a result of having absconded from supervision.

(f) No health facility that declines to discharge, release, or transfer a person pursuant to this section shall be civilly or criminally liable or subject to administrative sanction therefor. This subdivision shall apply only if the health facility complies with this section and acts in good faith.

(g) Nothing in this section shall relieve a local health officer of any other duty imposed by this chapter.

(Amended by Stats. 2002, Ch. 763, Sec. 4. Effective January 1, 2003.)

121362.

Each health care provider who treats a person for active tuberculosis disease, each person in charge of a health facility, or each person in charge of a clinic providing outpatient treatment for active tuberculosis disease shall promptly report to the local health officer at the times that the health officer requires, but no less frequently than when there are reasonable grounds to believe that a person has active tuberculosis disease, and when a person ceases treatment for tuberculosis disease. Situations in which the provider may conclude that the patient has ceased treatment include times when the patient fails to keep an appointment, relocates without transferring care, or discontinues care. The initial disease notification report shall include an individual treatment plan that includes the patientsname, address, date of birth, tuberculin skin test results or the results of any other test for tuberculosis infection recommended by the federal Centers for Disease Control and Prevention and licensed by the federal Food and Drug Administration, pertinent radiologic, microbiologic, and pathologic reports, whether final or pending, and any other information required by the local health officer. Subsequent reports shall provide updated clinical status and laboratory results, assessment of treatment adherence, name of current care provider if the patient transfers care, and any other information required by the local health officer. A facility discharge, release, or transfer report shall include all pertinent and updated information required by the local health officer not previously reported on any initial or subsequent report, and shall specifically include a verified patient address, the name of the medical provider who has specifically agreed to provide medical care, clinical information used to assess the current infectious state, and any other information required by the local health officer. Each health care provider who treats a person with active tuberculosis disease, and each person in charge of a health facility or a clinic providing outpatient treatment for active tuberculosis disease, shall maintain written documentation of each patientsadherence to his or her individual treatment plan. Nothing in this section shall authorize the disclosure of test results for human immunodeficiency virus (HIV) unless authorized by Chapter 7

(commencing with Section 120975) of, Chapter 8 (commencing with Section 121025) of, and Chapter 10 (commencing with Section 121075) of Part 4 of Division 105.

In the case of a parolee under the jurisdiction of the Department of Corrections and Rehabilitation, the local health officer shall notify the assigned parole agent, when known, or the regional parole administrator, when there are reasonable grounds to believe that the parolee has active tuberculosis disease and when the parolee ceases treatment for tuberculosis. Situations where the local health officer may conclude that the parolee has ceased treatment include times when the parolee fails to keep an appointment, relocates without transferring care, or discontinues care.

(Amended by Stats. 2007, Ch. 24, Sec. 4. Effective January 1, 2008.)

121363.

Each health care provider who treats a person for active tuberculosis disease shall examine, or cause to be examined, all household contacts or shall refer them to the local health officer for examination. Each health care provider shall promptly notify the local health officer of the referral. When required by the local health officer, nonhousehold contacts and household contacts not examined by a health care provider shall submit to examination by the local health officer or designee. If any abnormality consistent with tuberculosis disease is found, steps satisfactory to the local health officer shall be taken to refer the person promptly to a health care provider for further investigation, and if necessary, treatment. Contacts shall be reexamined at times and in a manner as the local health officer may require. When requested by the local health officer, a health care provider shall report the results of any examination related to tuberculosis of a contact.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121364.

(a) Within the territory under his or her jurisdiction, each local health officer may order examinations for tuberculosis infection for the purposes of directing preventive measures for persons in the territory, except those incarcerated in a state correctional institution, for whom the local health officer has reasonable grounds to determine are at heightened risk of tuberculosis exposure.

(b) An order for examination pursuant to this section shall be in writing and shall include other terms and conditions as may be necessary to protect the public health.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121365.

Each local health officer is hereby directed to use every available means to ascertain the existence of, and immediately investigate all reported or suspected cases of active tuberculosis disease in the jurisdiction, and to ascertain the sources of those infections. In carrying out the investigations, each local health officer shall follow applicable local rules and regulations and all general and special rules, regulations, and orders of the state department. If the local health officer determines that the public health in general or the health of a

particular person is endangered by exposure to a person who is known to have active tuberculosis disease, or to a person for whom there are reasonable grounds to believe has active tuberculosis disease, the local health officer may issue any orders he or she deems necessary to protect the public health or the health of any other person, and may make application to a court for enforcement of the orders. Upon the receipt of information that any order has been violated, the health officer shall advise the district attorney of the county in which the violation has occurred, in writing, and shall submit to the district attorney the information in his or her possession relating to the subject matter of the order, and of the violation or violations thereof.

The orders may include, but shall not be limited to, any of the following:

(a) An order authorizing the removal to, detention in, or admission into, a health facility or other treatment facility for appropriate examination for active tuberculosis disease of a person who is known to have active tuberculosis disease, or a person for whom there are reasonable grounds to believe that the person has active tuberculosis disease and who is unable or unwilling voluntarily to submit to the examination by a physician or by the local health officer. Any person whom the health officer determines should have an examination for tuberculosis disease may have the examination made by a physician and surgeon of his or her own choice who is licensed to practice medicine under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code under terms and conditions as the local health officer shall determine on reasonable grounds to be necessary to protect the public health. This section does not authorize the local health officer to mandate involuntary anergy testing.

(b) An order requiring a person who has active tuberculosis disease to complete an appropriate prescribed course of medication for tuberculosis disease and, if necessary, to follow required infection control precautions for tuberculosis disease. This subdivision does not allow the forceable or involuntary administration of medication.

(c) An order requiring a person who has active tuberculosis disease and who is unable or unwilling otherwise to complete an appropriate prescribed course of medication for tuberculosis disease to follow a course of directly observed therapy. This subdivision does not allow forceable or involuntary administration of medication.

(d) An order for the removal to, detention in, or admission into, a health facility or other treatment facility of a person if both of the following occur:

(1) The person has infectious tuberculosis disease, or who presents a substantial likelihood of having infectious tuberculosis disease, based upon proven epidemiologic evidence, clinical evidence, X-ray readings, or tuberculosis laboratory test results.

(2) The local health officer finds, based on recognized infection control principles, that there is a substantial likelihood the person may transmit tuberculosis to others because of his or her inadequate separation from others.

(e) An order for the removal to, detention in, or admission into, a health facility or other treatment facility of a person if both of the following occur:

(1) The person has active tuberculosis disease, or has been reported to the health officer as having active tuberculosis disease with no subsequent report to the health officer of the completion of an appropriate prescribed course of medication for tuberculosis disease.

(2) There is a substantial likelihood, based on the personspast or present behavior, that he or she cannot be

relied upon to participate in or complete an appropriate prescribed course of medication for tuberculosis disease and, if necessary, follow required infection control precautions for tuberculosis disease. The behavior may include, but is not limited to, refusal or failure to take medication for tuberculosis disease, refusal or failure to keep appointments or treatment for tuberculosis disease, refusal or failure to complete the treatment for tuberculosis disease, or disregard for infection control precautions for active tuberculosis disease.

(f) An order for exclusion from attendance at the workplace for persons with infectious tuberculosis disease. The order may, also, exclude the person from any place when the local health officer determines that the place cannot be maintained in a manner adequate to protect others against the spread of tuberculosis disease.

(g) An order for isolation of persons with infectious tuberculosis disease to their place of residence until the local health officer has determined that they no longer have infectious tuberculosis disease.

(h) This section shall apply to all persons except those incarcerated in a state correctional institution.

(i) This section shall not be construed to require a private hospital or other private treatment facility to accept any patient without a payment source, including county responsibilities under Section 17000 of the Welfare and Institutions Code, except as required by Sections 1317 et seq. or by federal law.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121366.

The local health officer may detain in a hospital or other appropriate place for examination or treatment, a person who is the subject of an order of detention issued pursuant to subdivision (a), (d), or (e) of Section 121365 without a prior court order except that when a person detained pursuant to subdivision (a), (d), or (e) of Section 121365 has requested release, the local health officer shall make an application for a court order authorizing the continued detention within 72 hours after the request or, if the 72-hour period ends on a Saturday, Sunday, or legal holiday, by the end of the first business day following the Saturday, Sunday, or legal holiday, which application shall include a request for an expedited hearing. After the request for release, detention shall not continue for more than five business days in the absence of a court order authorizing detention. However, in no event shall any person be detained for more than 60 days without a court order authorizing the detention. The local health officer shall seek further court review of the detention within 90 days following the initial court order authorizing detention and thereafter within 90 days of each subsequent court review. In any court proceeding to enforce a local health officersorder for the removal or detention of a person, the local health officer shall prove the particularized circumstances constituting the necessity for the detention by clear and convincing evidence. Any person who is subject to a detention order shall have the right to be represented by counsel and upon the request of the person, counsel shall be provided.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121367.

(a) An order of a local health officer pursuant to Section 121365 shall set forth all of the following:

(1) The legal authority under which the order is issued, including the particular sections of state law or regulations.

(2) An individualized assessment of the personscircumstances or behavior constituting the basis for the issuance of the order.

(3) The less restrictive treatment alternatives that were attempted and were unsuccessful, or the less restrictive treatment alternatives that were considered and rejected, and the reasons the alternatives were rejected.

(4) The orders shall be in writing, and shall include the name of the person, the period of time during which the order shall remain effective, the location, payer source if known, and other terms and conditions as may be necessary to protect the public health. Upon issuing an order, a copy of the order shall be served upon the person named in the order.

(b) An order for the detention of a person shall do all of the following:

(1) Include the purpose of the detention.

(2) Advise the person being detained that he or she has the right to request release from detention by contacting a person designated on the local health officersorder at the telephone number stated on the order and that the detention shall not continue for more than five business days after the request for release, in the absence of a court order authorizing the detention.

(3) Advise the person being detained that, whether or not he or she requests release from detention, the local health officer is required to obtain a court order authorizing detention within 60 days following the commencement of detention and thereafter shall further seek court review of the detention within 90 days of the court order and within 90 days of each subsequent court review.

(4) Advise the person being detained that he or she has the right to arrange to be represented by counsel or to have counsel provided, and that if he or she chooses to have counsel provided, the counsel will be notified that the person has requested legal representation.

(5) Be accompanied by a separate notice that shall include, but not be limited to, all of the following additional information:

(A) That the person being detained has the right to request release from detention by contacting a person designated on the local health officersorder at a telephone number stated on the order, and that the detention shall not continue for more than five business days after the request in the absence of a court order authorizing the detention.

(B) That he or she has the right to arrange to be advised and represented by counsel or to have counsel provided, and that if he or she chooses to have counsel provided, the counsel will be notified that the person has requested legal representation.

(C) That he or she may supply the addresses or telephone numbers of not more than two individuals to receive notification of the personsdetention, and that the local health officer shall, at the patientsrequest, provide notice within the limits of reasonable diligence to those people that the person is being detained.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121368.

Notwithstanding any inconsistent provision of Section 121365, 121366 or 121367, all of the following shall apply:

(a) A person who is detained solely pursuant to subdivision (a) of Section 121365 shall not continue to be detained beyond the minimum period of time required, with the exercise of all due diligence, to make a medical determination of whether a person who is suspected of having tuberculosis disease, has active tuberculosis or whether a person who has active tuberculosis disease has infectious tuberculosis disease. Further detention of the person shall be authorized only upon the issuance of a local health officersorder pursuant to subdivision (d) or (e) of Section 121365.

(b) A person who is detained solely for the reasons described in subdivision (d) of Section 121365 shall not continue to be detained after he or she ceases to be infectious or after the local health officer ascertains that changed circumstances exist that permit him or her to be adequately separated from others so as to prevent transmission of tuberculosis disease after his or her release from detention.

(c) A person who is detained for the reasons described in subdivision (e) of Section 121365 shall not continue to be detained after he or she has completed an appropriate prescribed course of medication.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121369.

For purposes of Sections 121365, 121366, and 121367, all of the following shall apply:

(a) If necessary, language interpreters and persons skilled in communicating with vision-impaired and deaf or hard-of-hearing individuals shall be provided in accordance with applicable law.

(b) Those sections do not permit or require the forcible administration of any medication without a prior court order.

(c) Any and all orders authorized under those sections shall be made by the local health officer. His or her authority to make the orders may be delegated to the person in charge of medical treatment of inmates in penal institutions within the local health officersjurisdiction, or pursuant to Section 7. The local health officer shall not make any orders incorporating by reference any other rules or regulations.

(Amended by Stats. 2016, Ch. 94, Sec. 19. (AB 1709) Effective January 1, 2017.)

121370.

No examination or inspection shall be required of any person who depends exclusively on prayer for healing in accordance with the teachings of any well recognized religious sect, denomination or organization and claims exemption on that ground, except that the provisions of this code regarding compulsory reporting of communicable diseases and isolation and quarantine shall apply where there is probable cause to suspect

that the person is infected with the disease in a communicable stage. Such person shall not be required to submit to any medical treatment, or to go to or be confined in a hospital or other medical institution; provided, he or she can be safely quarantined and/or isolated in his or her own home or other suitable place of his or her choice.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121375.

The department may inspect and have access to all records of all institutions and clinics, both public and private, where tuberculosis patients are treated.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121380.

The department may advise officers of state educational, correctional, and medical institutions regarding the control of tuberculosis and the care of tuberculosis patients.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121390.

The department shall lease any facilities it deems necessary to care for persons afflicted with active contagious tuberculosis who violate the quarantine or isolation orders of the health officer as provided in Section 120280.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121395.

Whenever any person confined in any state institution, as provided in Section 120280, subject to the jurisdiction of the Director of Corrections, dies, and any personal funds or personal property of the person remains in the hands of the Director of Corrections, those funds may be applied in an amount not exceeding three hundred dollars ($300) to the payment of expenses relating to burial; provided, however, that if no such funds are available, the department shall reimburse the Director of Corrections for the expenses in an amount not exceeding three hundred dollars ($300).

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121400.

If the place of confinement of a person confined under the provisions of Section 120280 is in a county other than the county where he or she was convicted, upon release he or she shall be released in the custody of the sheriff of the county where he or she was convicted, and the sheriff shall forthwith return him or her to the place where he or she was convicted without the necessity of a court order or other process. The sheriff shall prior to the return of the person notify the health officer having jurisdiction of the area to which he or she will be returned of the date he or she will reach that area.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121450.

The department may distribute for the purpose of tuberculosis control an annual subvention, paid quarterly, to any local health department that maintains a tuberculosis control program consistent with standards and procedures established by the department. This annual subvention shall be used primarily for the strengthening of tuberculosis prevention activities by local health departments. Further, the department may allocate additional funds to selected local health departments based on high disease incidence, or other standards established by the department. These additional funds shall be expended primarily for the cost of diagnosis, treatment, and followup services required for an effective tuberculosis control program. Services rendered under this section may not be made dependent on status of residence.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121451.

A local entity that receives funding from the state for the purposes of this part, including, but not limited to, funding from the state for tuberculosis control pursuant to Item 4265-111-0001 of Section 2.00 of the annual Budget Act, shall first allocate the moneys received for the following purposes and activities before allocating the moneys for any other purposes or activities described in this part:

(a) Either of the following activities if those activities are carried out by a local detention facility:

(1) When a person who has active tuberculosis or is reasonably believed to have active tuberculosis is discharged or released from a detention facility, doing both of the following:

(A) Drafting and submitting notification to the local health officer.

(B) Submitting the written treatment plan that includes the information required by Section 121362 to the local health officer. This activity does not include drafting the written treatment plan.

(2) When a person who has active tuberculosis or is reasonably believed to have active tuberculosis is transferred to a local detention facility in another jurisdiction, doing both of the following:

(A)Drafting and submitting notification to the local health officer and the medical officer of the local detention facility receiving the person.

(B)Submitting the written treatment plan that includes the information required by Section 121362 to the

local health officer and the medical officer of the local detention facility receiving the person. This activity does not include drafting the written treatment plan.

(b)Either of the following activities if those activities are carried out by a local health officer or his or her designee:

(1)Receiving and reviewing for approval within 24 hours of receipt only those treatment plans submitted by a health facility. This activity includes all of the following:

(A)Receiving the health facilitystreatment plan.

(B)Sending a request to a health facility for medical records and information on tuberculosis medications, dosages, and diagnostic workup and reviewing records and information.

(C)Coordinating with the health facility on any adjustments to the treatment plan.

(D)Sending approval to the health facility.

(2)Drafting and sending a notice to the medical officer of a parole region, or a physician or surgeon designated by the Department of Corrections and Rehabilitation, if there are reasonable grounds to believe that a parolee has active tuberculosis and ceases treatment for the disease.

(c)For cities, counties, and cities and counties to provide counsel to nonindigent tuberculosis patients who are subject to a civil order of detention issued by a local health officer pursuant to Section 121365 upon request of the patient. Services provided by counsel include representation of the tuberculosis patient at any court review of the order of detention required by Section 121366.

(Added by Stats. 2014, Ch. 31, Sec. 14. (SB 857) Effective June 20, 2014.)

121452.

A local health department or local health officer that receives funding from the state for tuberculosis control pursuant to Item 4265-111-0001 of Section 2.00 of the annual Budget Act for purposes of this part may use those funds to reimburse the actual costs of carrying out the activities described in Section 121451.

(Added by Stats. 2014, Ch. 31, Sec. 15. (SB 857) Effective June 20, 2014.)

121455.

The department may establish standards and procedures for the operation of local tuberculosis control programs. Such standards shall include, but not be limited to, the maintenance of records and reports relative to services rendered and to expenditures made that shall be reported semiannually to the department in a manner as it may specify.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121460.

Of the annual appropriation made to the department for tuberculosis control, the department may expend a sum not to exceed 7.5 percent of the total, for administrative costs. In addition, it may, if it deems necessary, withhold a portion of the appropriation to pay for the cost of regional laboratory services and regional hospitalization facilities for patients whose care cannot be reasonably accomplished in facilities available within a local health department, or it may contract with physicians to supervise the medical care of tuberculosis patients in areas where the specialized care is not available. Further, the appropriation shall be available to purchase materials or drugs used in tuberculosis control for distribution to local health departments.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 5. TUBERCULOSIS [121350 - 121555]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 2. Tuberculosis Tests for Pupils [121475 - 121520]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 7.)

121475.

In enacting this chapter, it is the intent of the Legislature to provide:

(a) A means for the eventual elimination of tuberculosis.

(b) Persons required to be tested for tuberculosis under this chapter may obtain testing from whatever medical source they desire, subject only to the condition that the testing be performed in accordance with the regulations of the department and that a record of the testing is made in accordance with the regulations.

(c) Exemptions from tuberculosis tests because of personal beliefs.

(d) For the keeping of adequate records of tuberculosis tests so that health departments, schools, and other institutions, parents or guardians, and the persons tested will be able to ascertain that a child is free from active tuberculosis, and so that appropriate public agencies will be able to ascertain the testing needs of groups of children in schools or other institutions.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121480.

As used in this chapter, the following terms shall have the following meanings:

(a) Governing authority means the governing board of each school district or the authority of each other private or public institution responsible for the operation and control of the institution or the principal or administrator of each school or institution.

(b) Certificate means a document signed by the examining physician and surgeon who is licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, or a notice from a public health agency, a unit of the American Lung Association, or any other private or public source, any of which indicates examination for, and freedom from, active tuberculosis.

(c) Department means State Department of Health Services.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121485.

(a) If the local health officer determines that persons seeking first admission to any private or public elementary or secondary school or institution are reasonably suspected of having tuberculosis and further determines that the examination of the persons for tuberculosis is necessary for the preservation and protection of the public health, he or she may issue an order requiring the persons to undergo a tuberculosis examination.

(b) If an order has been issued pursuant to subdivision (a), the governing authority shall not unconditionally admit any person subject to the order as a pupil of any private or public elementary or secondary school, or institution, unless prior to his or her first admission to that institution, he or she provides evidence to the institution of a certificate showing that he or she is free of communicable tuberculosis.

(c) Thereafter, any such pupil may be required to undergo the tuberculosis examinations and provide another certificate showing that he or she is free of communicable tuberculosis, if the local health officer orders the examination.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121490.

The examination shall consist of either an approved intradermal tuberculin skin test or any other test for tuberculosis infection that has been recommended by the federal Centers for Disease Control and Prevention and licensed by the federal Food and Drug Administration, that, if positive, is followed by an X-ray of the lungs.

(Amended by Stats. 2007, Ch. 24, Sec. 5. Effective January 1, 2008.)

121495.

(a) A person subject to an order made pursuant to subdivision (a) of Section 121485 who does not have on file the certificate required by this chapter may be admitted by the governing authority on condition that within time periods designated by regulations of the department, he or she will provide the certificate.

(b) The governing authority shall prohibit from further attendance any person admitted conditionally who fails to obtain and provide the required certificate within the time limits allowed in the regulations of the department, unless the person is exempted under Section 121505, until the person has provided the certificate to the governing authority.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121500.

The examinations required by this chapter may be administered by any private or public source desired.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121505.

The certificate shall not be required for a person who is subject to an order made pursuant to subdivision (a) of Section 121485, if the parent, guardian, or other adult who has assumed responsibility for his or her care and custody in case of a minor, or the person seeking admission, if an emancipated minor, provides to the governing authority an affidavit stating that the examination required to obtain the certificate is contrary to his or her beliefs. If at any time there should be probable cause to believe that the person is afflicted with active tuberculosis, he or she may be excluded from the school or other institution listed in Section 121485 until the governing board is satisfied that he or she is not so afflicted.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121510.

Any person or organization administering tuberculosis examinations shall furnish each person examined, or his or her parent or guardian, as appropriate, with a certificate of the examination results given in a form prescribed by the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121515.

The governing authority shall cooperate with the local health officer in carrying out any programs ordered by the local health officer for the tuberculosis examinations of persons applying for first admission to any school or institution under its jurisdiction. The governing board of any school district may use funds, property, and personnel of the district for that purpose.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121520.

The department, in consultation with the State Department of Education, shall adopt and enforce all rules and regulations necessary to carry out this chapter.

(Amended by Stats. 2006, Ch. 538, Sec. 444. Effective January 1, 2007.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 5. TUBERCULOSIS [121350 - 121555]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 3. Tuberculosis Tests for Employees [121525 - 121555]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 7.)

121525.

(a)Except as provided in Section 121555, a person shall not be initially employed, or employed under contract, by a private or parochial elementary or secondary school, or any nursery school, unless that person produces or has on file with the school a certificate showing that within the last 60 days the person has submitted to a tuberculosis risk assessment and, if tuberculosis risk factors are identified, has been examined and has been found to be free of infectious tuberculosis. If no risk factors are identified, an examination is not required. A person who is subject to the requirements of this subdivision may submit to an examination that complies with the requirements of Section 121530 instead of submitting to a tuberculosis risk assessment.

(b)Thereafter, an employee who has no identified risk factors or who tests negative for the tuberculosis infection by either the tuberculin skin test or any other test for tuberculosis recommended by the federal Centers for Disease Control and Prevention (CDC) and licensed by the federal Food and Drug Administration (FDA), shall be required to undergo the foregoing tuberculosis risk assessment and, if risk factors are identified, the examination, at least once each four years, or more often if directed by the governing authority of the school upon recommendation of the local health officer. Once an employee has a documented positive test for the tuberculosis infection conducted pursuant to this subdivision, the tuberculosis risk assessment is no longer required. A referral shall be made within 30 days of completion of the examination to the local health officer to determine the need for followup care.

(c)At the discretion of the governing authority of a private school, this section shall not apply to employees who are employed for any period of time less than a school year whose functions do not require frequent or prolonged contact with pupils.

(d)The governing authority of a private school providing for the transportation of pupils under authorized contract shall require as a condition of the contract that every person transporting pupils produce a certificate showing that within the last 60 days the person has submitted to a tuberculosis risk assessment, and, if tuberculosis risk factors are identified, has been examined and has been found to be free of infectious tuberculosis. At the discretion of the governing authority of the school, this section shall not apply to a private contracted driver who transports pupils infrequently and without prolonged contact with the pupils.

(e)The examination attested to in the certificate required pursuant to subdivision (d) shall be made available without charge by the local health officer.

(f)Certificate, as used in this chapter, means a document signed by the examining physician and surgeon who is licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, or a notice from a public health agency that indicates freedom from infectious tuberculosis.

(g)Nothing in this section shall prevent the governing authority of a private, parochial, or nursery school,

upon recommendation of the local health officer, from establishing a rule requiring a more extensive or more frequent examination than required by this section.

(h)The State Department of Public Health, in consultation with the California Tuberculosis Controllers Association, shall develop a risk assessment questionnaire, to be used to conduct tuberculosis risk assessments pursuant to this section. The risk assessment questionnaire shall be administered by a health care provider, which shall be specified on the questionnaire. This risk assessment questionnaire shall be exempt from the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code).

(Amended by Stats. 2014, Ch. 329, Sec. 2. (AB 1667) Effective January 1, 2015.)

121530.

The examination shall consist of either an approved intradermal tuberculin test or any other test for tuberculosis infection that has been recommended by the CDC and licensed by the FDA, that, if positive, shall be followed by an X-ray of the lungs.

(Amended by Stats. 2008, Ch. 179, Sec. 157. Effective January 1, 2009.)

121535.

The X-ray may be taken by a competent and qualified X-ray technician if the X-ray is subsequently interpreted by a licensed physician and surgeon.

(Amended by Stats. 2014, Ch. 329, Sec. 3. (AB 1667) Effective January 1, 2015.)

121540.

The school shall maintain a file containing an up-to-date certificate for each person covered by this chapter. It shall be the duty of the county health officer of each county to insure that the provisions of this chapter are complied with.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121545.

(a)A volunteer in a school subject to this chapter shall also be required to have on file with the school a certificate showing that, upon initial volunteer assignment, the person submitted to a tuberculosis risk assessment, and, if tuberculosis risk factors were identified, the person was examined and found to be free of infectious tuberculosis. If no risk factors are identified, an examination is not required. A person who is subject to the requirements of this subdivision may take an examination that complies with the requirements of Section 121530 instead of submitting to a tuberculosis risk assessment.

(b)At the discretion of the governing authority of a school subject to this chapter this section shall not apply to a volunteer whose functions do not require frequent or prolonged contact with pupils.

(Amended by Stats. 2014, Ch. 329, Sec. 4. (AB 1667) Effective January 1, 2015.)

121550.

Nothing in this chapter shall prevent the school from requiring more extensive or more frequent examinations.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121555.

(a)A person who transfers his or her employment from one of the schools specified in subdivision (a) of Section 121525 to another shall be deemed to meet the requirements of subdivision (a) of Section 121525 if the person can produce a certificate that shows that he or she was found to be free of infectious tuberculosis within 60 days of initial hire, or the school previously employing the person verifies that the school has a certificate on file showing that the person is free from infectious tuberculosis.

(b)A person who transfers his or her employment from a public elementary school or secondary school to any of the schools specified in subdivision (a) of Section 121525 shall be deemed to meet the requirements of subdivision (a) of Section 121525 if that person can produce a certificate as provided for in subdivision (c) of Section 49406 of the Education Code that shows that he or she was found to be free of infectious tuberculosis within 60 days of initial hire, or if the school district previously employing the person verifies that the school district has a certificate on file showing that the person is free from infectious tuberculosis.

(Amended by Stats. 2014, Ch. 329, Sec. 5. (AB 1667) Effective January 1, 2015.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1. Rabies Control [121575 - 121710]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 7.)

121575.

Rabies, as used in this chapter, includes rabies, and any other animal disease dangerous to human beings that may be declared by the department as coming under this chapter.

(Amended by Stats. 1996, Ch. 1023, Sec. 351.5. Effective September 29, 1996.)

121580.

Quarantine, as used in this chapter, means the strict confinement, upon the private premises of the owner, under restraint by leash, closed cage, or paddock, of all animals specified in the order of the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121585.

Rabies area shall mean any area not less than a county as determined by the director within a region where the existence of rabies constitutes a public health hazard, as found and declared by the director. A region shall be composed of two or more counties as determined by the director. The status of an area as a rabies area shall terminate at the end of one year from the date of the declaration unless, not earlier than two months prior to the end of the year, it is again declared to be a rabies area in the manner provided in this

section. If however, the director at any time finds and declares that an area has ceased to be a rabies area its status shall terminate upon the date of the declaration.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121595.

Whenever any case of rabies is reported as existing in any county or city, the department shall make, or cause to be made, a preliminary investigation as to whether the disease exists, and as to the probable area of the state in which the population or animals are endangered.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121600.

If upon the investigation the department finds that rabies exists, a quarantine shall be declared against all animals as are designated in the quarantine order, and living within the area specified in the order.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121605.

Following the order of quarantine the department shall make or cause to be made a thorough investigation as to the extent of the disease, the probable number of persons and animals exposed, and the area found to be involved.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121610.

The department may substitute for the quarantine order regulations as may be deemed adequate for the control of the disease in each area.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121615.

All peace officers and boards of health shall carry out the provisions of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121620.

During the period for which any quarantine order is in force any officer may kill or in his or her discretion capture and hold for further action by the department any animal in a quarantine area, found on public highways, lands, and streets, or not held in restraint on private premises as specified in this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121625.

Any proper official within the meaning of this chapter may examine and enter upon all private premises for the enforcement of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121630.

Except as provided in Sections 121705 and 121710, every person who possesses or holds any animal in violation of the provisions of this chapter is guilty of an infraction, punishable by a fine not exceeding one thousand dollars ($1,000).

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121635.

For the purpose of providing funds to pay expenses incurred in connection with the eradication of rabies, the rabies treatment and eradication fund is continued in existence in each county or city in this state.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121640.

All money collected for dog license taxes shall be deposited to the credit of this fund with the treasurer of the county or city; but funds now collected from any dog tax may continue to be collected and used for other purposes specified by local ordinances.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121645.

Upon the determination by the department that rabies exists in any county or city, a special dog license tax shall immediately become effective, unless a dog tax is already in force the funds from which are available for the payment of expenditures in accordance with this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121650.

This tax shall be levied as follows: An annual tax of one dollar and fifty cents ($1.50) for each male, two dollars and fifty cents ($2.50) for each female, and one dollar and fifty cents ($1.50) for each neuter dog. It shall be collected by the proper authority at the same time and in the same manner as other taxes are collected; except that at the first collection the proportion of the annual tax as corresponds to the number of months the tax has been in operation plus one year advance payment shall be collected.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121655.

After this dog license tax has been established in a county or city, it shall be continued in force until an order has been issued by the department declaring that county, or the portion of that county as may be deemed advisable, to be free from rabies or further danger of its spread.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121660.

One half of all fines collected by any court or judge for violations of this chapter shall be placed to the credit of the rabies treatment and eradication fund of the county or city where the violation occurred.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121665.

Whenever it becomes necessary in the judgment of the department, to enforce this chapter in any county or city, the department may institute special measures of control to supplement the efforts of the local authorities in any county or city whose duties are specified in this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121670.

All expenditures incurred in enforcing the special measures shall be proper charges against the special fund referred to in this chapter, and shall be paid as they accrue by the proper authorities of each county or city where they have been incurred; but all expenditures that may be incurred after the issuance of the order establishing the tax and before the first collection of the tax, shall be paid as they accrue from the general fund of the county or city.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121675.

All expenditures in excess of the balance of money in this fund shall likewise be paid as they accrue from the general fund. All money thus expended from the general fund shall be repaid from the special fund when the collections from the tax have provided the money.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121680.

Notwithstanding any other provision of this chapter a guide dog serving a blind master shall not be quarantined, in the absence of evidence that he or she has been exposed to rabies, unless his or her master fails:

(a) To keep him or her safely confined to the premises of the master.

(b) To keep him or her available for examination at all reasonable times.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121685.

Notwithstanding any other provision of this chapter, a dog used by any state, county, city, or city and county law enforcement agency shall not be quarantined after biting any person if the bite occurred while the dog was being used for any law enforcement purpose. The law enforcement agency shall make the dog available for examination at any reasonable time. The law enforcement agency shall notify the local health officer if the dog exhibits any abnormal behavior.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121690.

In rabies areas, all of the following shall apply:

(a)Every owner of a dog, after the dog attains the age of four months, shall no less than once every two years secure a license for the dog as provided by ordinance of the responsible city, city and county, or county. License fees shall be fixed by the responsible city, city and county, or county, at an amount not to exceed limitations otherwise prescribed by state law or city, city and county, or county charter.

(b)(1)Every owner of a dog, after the dog attains the age of three months or older, shall, at intervals of time not more often than once a year, as may be prescribed by the department, procure its vaccination by a licensed veterinarian with a canine antirabies vaccine approved by the department and administered according to the vaccine label, unless a licensed veterinarian determines, on an annual basis, that a rabies vaccination would endanger the dogslife due to disease or other considerations that the veterinarian can verify and document. The responsible city, county, or city and county may specify the means by which a dogsowner is required to provide proof of the dogsrabies vaccination, including, but not limited to, by electronic transmission or facsimile.

(2)A request for an exemption from the requirements of this subdivision shall be submitted on an approved form developed by the department and shall include a signed statement by the veterinarian explaining the inadvisability of the vaccination and a signed statement by the dog owner affirming that the owner understands the consequences and accepts all liability associated with owning a dog that has not received the canine antirabies vaccine. The request shall be submitted to the local health officer, who may issue an exemption from the canine antirabies vaccine.

(3)The local health officer shall report exemptions issued pursuant to this subdivision to the department.

(4)A dog that is exempt from the vaccination requirements of this section shall be considered unvaccinated.

(5)A dog that is exempt from the vaccination requirements of this section shall, at the discretion of the local health officer or the officersdesignee, be confined to the premises of the owner, keeper, or harborer and, when off the premises, shall be on a leash the length of which shall not exceed six feet and shall be under the direct physical control of an adult. A dog that is exempt from the provisions of this section shall not have contact with a dog or cat that is not currently vaccinated against rabies.

(c)All dogs under four months of age shall be confined to the premises of, or kept under physical restraint by, the owner, keeper, or harborer. Nothing in this chapter or Section 120435 shall be construed to prevent the sale or transportation of a puppy four months old or younger.

(d)A dog in violation of this chapter or any additional provisions that may be prescribed by a local governing body shall be impounded, as provided by local ordinance.

(e)The governing body of each city, city and county, or county shall maintain or provide for the maintenance of an animal shelter system and a rabies control program for the purpose of carrying out and enforcing this section.

(f)(1)Each city, county, or city and county shall provide dog vaccination clinics, or arrange for dog vaccination at clinics operated by veterinary groups or associations, held at strategic locations throughout each city, city and county, or county. The vaccination and licensing procedures may be combined as a single operation in the clinics. No charge in excess of the actual cost shall be made for any one vaccination at a clinic. No owner of a dog shall be required to have the dog vaccinated at a public clinic if the owner elects to have the dog vaccinated by a licensed veterinarian of the ownerschoice.

(2)All public clinics shall be required to operate under antiseptic immunization conditions comparable to those used in the vaccination of human beings.

(g)In addition to the authority provided in subdivision (a), the ordinance of the responsible city, city and county, or county may provide for the issuance of a license for a period not to exceed three years for dogs that have attained the age of 12 months or older and have been vaccinated against rabies or one year for dogs exempted from the vaccination requirement pursuant to subdivision (b). The person to whom the license is issued pursuant to this subdivision may choose a license period as established by the governing body of up to one, two, or three years. However, when issuing a license pursuant to this subdivision, the license period shall not extend beyond the remaining period of validity for the current rabies vaccination and, if a dog is exempted from the vaccination requirement pursuant to subdivision (b), the license period shall not extend beyond one year. A dog owner who complies with this subdivision shall be deemed to have complied with the requirements of subdivision (a).

(h)All information obtained from a dog owner by compliance with this chapter is confidential to the dog owner and proprietary to the veterinarian. This information shall not be used, distributed, or released for any purpose, except to ensure compliance with existing federal, state, county, or city laws or regulations.

(Amended by Stats. 2019, Ch. 7, Sec. 13. (AB 1553) Effective January 1, 2020.)

121695.

Nothing in this chapter and Section 120435 is intended or shall be construed to limit the power of any city, city and county, or county in its authority in the exercise of its police power or in the exercise of its power under any other provisions of law to enact more stringent requirements, to regulate and control dogs within the boundaries of its jurisdiction.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121700.

Rabies vaccines for animal use shall not be supplied to other than a veterinary biologic supply firm, a person licensed to practice veterinary medicine under Chapter 11 (commencing with Section 4800) of Division 2 of the Business and Professions Code, or a public agency.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121705.

Any person who willfully conceals information about the location or ownership of an animal subject to rabies, that has bitten or otherwise exposed a person to rabies, with the intent to prevent the quarantine or isolation of that animal by the local health officer is guilty of a misdemeanor.

Any person who violates this section is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121710.

Any person who, after notice, violates any order of a local health officer concerning the isolation or quarantine of an animal of a species subject to rabies, that has bitten or otherwise exposed a person to rabies or who, after that order, fails to produce the animal upon demand of the local health officer, is guilty of a misdemeanor, punishable by imprisonment in the county jail for a period not to exceed one year, or by fine of not less than one hundred dollars ($100), nor more than one thousand dollars ($1,000) per day of violation, or by both fine and imprisonment.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 1.5. Dog Importation: Health Certificates [121720 - 121723]__

(Chapter 1.5 added by Stats. 2014, Ch. 498, Sec. 1.)

121720.

(a)(1)A person seeking to bring a dog into this state or importing dogs into this state for the purpose of resale or change of ownership shall obtain a health certificate with respect to that dog that has been completed by a licensed veterinarian and is dated within 10 days prior to the date on which the dog is brought into the state.

(2)The person seeking to bring the dog into this state or importing dogs into this state for the purpose of resale or change of ownership shall submit the health certificate to the county health department as provided in subdivision (c). The person shall submit the health certificate to the county health department by any method accepted by the receiving agency, including, but not limited to, electronic transmission and facsimile.

(b)Completion of a United States Department of Agriculture Animal and Plant Health Inspection Service Form 7001, known as the United States Interstate and International Certificate of Health Examination for Small Animals, shall satisfy the requirement of subdivision (a). A different form of canine health certificate acceptable to the receiving agency shall also satisfy the requirement of subdivision (a).

(c)It shall be the responsibility of persons importing dogs into this state for the purpose of resale or change of ownership to send the health certificate to the county health department where the dog is to be offered for sale or to the county of residence of the individual purchasing or receiving a dog directly from a source outside of California.

(d)The receiving agency may use the information on the health certificate as it deems appropriate.

(Added by Stats. 2014, Ch. 498, Sec. 1. (AB 1809) Effective January 1, 2015.)

121721.

(a)This chapter does not apply to a person who brings a dog into the state that will not be offered for resale or if the ownership of the dog is not expected to change.

(b) This chapter does not apply to the import of a dog used for law enforcement or military work, a guide dog, as defined by subdivision (d) of Section 365.5 of the Penal Code, or a dog imported as a result of a declared emergency as described by Section 8558 of the Government Code or an investigation by law enforcement of an alleged violation of state or federal animal fighting or animal cruelty laws.

(Added by Stats. 2014, Ch. 498, Sec. 1. (AB 1809) Effective January 1, 2015.)

121722.

The agency that receives a form pursuant to Section 121720 may charge a fee in a reasonable amount sufficient to cover the costs associated with receiving and processing a health certificate submitted to the agency pursuant to this chapter.

(Added by Stats. 2014, Ch. 498, Sec. 1. (AB 1809) Effective January 1, 2015.)

121723.

(a)A person who violates a provision of this chapter is guilty of an infraction, punishable by a fine not to exceed two hundred fifty dollars ($250) for each dog for which a violation has occurred.

(b)In lieu of punishment pursuant to subdivision (a), authorized enforcement personnel may issue an administrative fine in the same amount specified in subdivision (a) or a correction warning to a person who violates a provision of this chapter, unless the violation endangers the health or safety of the animal, the animal has been wounded as a result of the violation, or an administrative fine or a correction warning has previously been issued to the individual. The administrative fine or correction warning shall require the person to correct the violation.

(Added by Stats. 2014, Ch. 498, Sec. 1. (AB 1809) Effective January 1, 2015.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 2. Avian Zoonosis Control [121745 - 121765]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 7.)

121745.

(a) Whenever the director finds that psittacosis, or any other diseases transmissible to man from pet birds, have become a public health hazard to the extent that control measures are necessary or desirable, the department shall adopt additional regulations as it deems necessary for the public health; and these regulations shall apply to all pet birds whether or not of a species otherwise regulated under this chapter. These regulations shall be adopted in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(b) This section shall not be operative during the 1993“94 fiscal year.

(Amended by Stats. 1998, Ch. 194, Sec. 5. Effective January 1, 1999.)

121760.

The violation of any of the provisions of this chapter shall constitute a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121765.

This chapter shall apply to all shell parakeets or budgerigars.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 3. Importation of Wild Animals [121775 - 121870]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 7.)

__ARTICLE 1. General [121775 - 121800]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 7.)

121775.

As used in this chapter, wild animal refers to any animal of the class Aves (birds) or class Mammalia (mammals) that either is not normally domesticated in this state or not native to this state.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121780.

As used in this chapter, enforcement officer means any officer, employee, or agent of the department, local health officer, or of any state or local agency with which an agreement has been made to enforce Article 3 (commencing with Section 121850), or local health officer.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121785.

The department may enter into agreement with any state or local agency for the enforcement of Article 3 (commencing with Section 121850) of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121790.

The department shall publish from time to time a list of animals that may not be imported into this state except by permit from the department. Unless a permit is issued pursuant to this chapter, it is unlawful to import into this state any wild animal for which a permit is required by the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121795.

The department may adopt regulations governing the entry, quarantine, or release from quarantine, of any and all wild animals imported into this state pursuant to this chapter. The regulations shall be designed to protect the public health against diseases known to occur in any such animals.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121800.

The violation of any provision of this chapter shall be a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__CHAPTER 3. Importation of Wild Animals [121775 - 121870]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 7.)

__ARTICLE 2. Permits [121825 - 121845]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 7.)

121825.

The department may issue a written permit to import into this state any wild animal specified by the department pursuant to Section 121790, upon determination that the public health and safety will not be endangered by the importation in accordance with the terms and conditions of the permit.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121830.

A permit shall be issued only upon written application from the person desiring to import the species, enumerating all of the following:

(a) The number and true scientific name of each species of wild animal for which a permit is requested.

(b) The carrier and probable point of first arrival in this state of each shipment of the species.

(c) The purpose for which they are to be imported.

(d) The name and address of the consignee.

(e) The name and address of the consignor.

(f) The place or premises where the animals shall be held in quarantine pending the completion of the tests, veterinary examinations, and observation period as may be specified by the department as a condition of the permit required under this chapter.

(g) The name and address of the licensed veterinarian who shall conduct the tests and examinations as specified by the department pursuant to this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121835.

Each permit issued shall set forth the following:

(a) The number and true scientific name of the species of wild animal for which the permit is granted.

(b) A statement of the terms and conditions under which the entry of the species is permitted.

(c) The place and conditions of quarantine where required.

(d) A statement of the tests, veterinary examinations, observation period, and quarantine period as may be specified by the department.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121840.

Whenever any permit is issued under provisions of this article, one copy shall be sent by the department to the local health officer of the county where the species will be held in quarantine, two copies shall accompany each shipment of wild animals involved.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121845.

The department shall charge a fee for the issuance of the import permit provided for under Section 121825. The department shall provide by regulation the amount of the fee to be collected, the total amount of the fees to yield a sum approximating the cost of the administration and enforcement of this chapter. All fees shall be paid by the department into the General Fund.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 3. Importation of Wild Animals [121775 - 121870]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 7.)

__ARTICLE 3. Regulation and Enforcement [121850 - 121870]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 7.)

121850.

Any person who imports, transports into the state, or receives, any live wild animal enumerated in or designated pursuant to Section 121790, shall hold the animal in confinement for inspection and immediately notify the department of the arrival thereof. If there is found in any shipment any species not specified in the permit issued under this chapter and subject thereto, or more than the number of any species specified, the animals shall be refused admittance as provided under Section 121865.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121855.

If, during inspection upon arrival any wild animal is found to be diseased, or there is reason to suspect the presence of disease that will or may endanger the public health and safety, the diseased animal, and, if necessary, the entire shipment shall be destroyed by or under the supervision of the enforcing officer, unless the public health and safety will not be endangered by its detention in quarantine for a time and under conditions satisfactory to the enforcing officer for disinfection, treatment, or diagnosis, or no detriment can be caused by its return to point of origin at the option and expense of the owner or bailee.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121860.

Whenever any wild animal brought into this state under permit is quarantined as provided in this chapter, the species shall not be released from quarantine except by release in writing from the department. All tests, veterinary examinations, and quarantines shall be at the expense of the owner or bailee of the animals involved. Any species refused release from quarantine under this section shall be destroyed, detained, or returned to its point of origin as provided in Section 121855.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121865.

Any live wild animal brought into this state in violation of the provisions of this chapter or any regulations thereunder may, upon notice from the enforcing officer inspecting them or discovering the violation, be returned to the point of origin, or destroyed, within the time specified in the notice, at the option of the owner or bailee.

The exercise of any such option shall be under the direction and control of the enforcing officer and at the expense of the owner or bailee. If the owner or bailee fails to exercise the option within the time specified in the notice, the enforcing officer shall immediately thereafter seize and destroy the animals at the expense of the owner or bailee.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121870.

This chapter, or any regulations adopted pursuant thereto, shall not authorize the importation, transportation, or possession of any live wild animals enumerated in Chapter 2 (commencing with Section 2116) of Division 3 of the Fish and Game Code or the regulations of the Fish and Game Commission adopted pursuant thereto, except as provided in Chapter 2 (commencing with Section 2116) of Division 3 of the Fish and Game Code.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 4. Animal Control [121875 - 121945]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 7.)

121875.

This chapter may be cited as The Dog Act of 1969.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121880.

For the purposes of this chapter, sentry dog means a dog trained to work without supervision in a fenced facility and to deter or detain unauthorized persons found within the facility.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121881.

For purposes of this chapter, guard dog or attack dog means any dog trained to guard, protect, patrol, or defend any premises, area, or yard, or any dog trained as a sentry or to protect, defend, or guard any person or property, or any dog such as a schutzhund or any similar classification.

(Added by Stats. 2001, Ch. 377, Sec. 1. Effective January 1, 2002.)

121885.

For the purposes of this chapter, narcotic detection dog means a dog trained to locate narcotics by scent.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121890.

For purposes of this chapter, tracker dog means a dog trained to work with a handler in searching facilities for burglary suspects and other intruders.

(Amended by Stats. 2001, Ch. 377, Sec. 2. Effective January 1, 2002.)

121895.

For the purposes of this chapter, sentry dog company means any person who agrees to furnish trained

sentry, attack, or narcotic detection dogs for hire.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121896.

For purposes of this chapter, trainer means any person who engages in the practice of training any attack, guard, or sentry dog.

(Added by Stats. 2001, Ch. 377, Sec. 3. Effective January 1, 2002.)

121900.

For the purposes of this chapter dog handler means any person trained in the handling of dogs whose training includes the care, feeding, and maintenance of dogs, and the procedures necessary to control the behavior of a dog subject to this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121905.

For the purposes of this chapter hire shall include, but not be limited to, the renting or leasing of the services of a dog with or without a dog handler, or the sale of a dog with an option to repurchase.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121906.

Person means any individual, partnership, firm, joint stock company, corporation, association, trust, estate, or other legal entity.

(Added by Stats. 2001, Ch. 377, Sec. 4. Effective January 1, 2002.)

121907.

Owner means any person who has purchased, or obtained legal custody of, an attack, guard, or sentry dog.

(Added by Stats. 2001, Ch. 377, Sec. 5. Effective January 1, 2002.)

121910.

Each sentry dog company shall register each dog subject to this chapter that it handles with the local law enforcement agency and with the state, city, county, or district fire department that has the responsibility for the prevention and suppression of fires in the area where the sentry dog company is located.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121915.

Each sentry dog company that handles a dog subject to this chapter shall notify the appropriate local law enforcement agency and the appropriate fire department by mail not more than 15 days before a dog is sent on an assignment of the location and duration of the assignment. The local law enforcement agency and fire department shall maintain a file of the assignments.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121916.

(a) Any person or owner of an attack, guard, or sentry dog that operates or maintains a business to sell, rent, or train an attack, guard, or sentry dog shall obtain a permit from the local public agency or private society or animal shelter contracting with the local public agency for animal care or protection services.

(b) Each local agency shall adopt and implement a permit program for the administration of subdivision (a) by the local agency or private society or animal shelter contracting with the local public agency for animal care or protection services. A local agency may charge a fee for the issuance or renewal of a permit required under this section. The fee shall not exceed the actual costs for the implementation of the permit program.

(c) For purposes of this section, local public agency means a city, county, or city and county.

(Amended by Stats. 2019, Ch. 7, Sec. 14. (AB 1553) Effective January 1, 2020.)

121917.

(a) An applicant, when applying for a permit pursuant to Section 121916, shall furnish the local public agency with a list of the types of animals to be kept or used for any purpose, with the estimated maximum number of animals to be kept.

(b) An applicant shall furnish the local public agency with the name and the telephone number of a responsible person who has access to the animals and who can be reached during an emergency.

(c) An applicant shall notify the local public agency when any animal for which a permit is required is kept or maintained.

(d) The local public agency may establish the maximum number of animals to be kept or maintained on the

premises.

(e) Any permittee shall report in writing any change in address, ownership, or management to the local public agency at least 15 days prior to any change.

(f) Any permittee shall maintain a register of the name and address of any person from whom any animal is received and to whom any animal is sold, traded, or given. This list shall be available to the local public agency representative upon demand.

(Added by Stats. 2001, Ch. 377, Sec. 7. Effective January 1, 2002.)

121918.

For the protection and welfare of any dog under this chapter, the local public agency may adopt an ordinance to require or prohibit any of the following:

(a) Any permittee shall supply each animal with sufficient, good, and wholesome food and water as often as the feeding habits of the animal requires.

(b) Any permittee shall keep each animal and animal quarters in a clean and sanitary condition.

(c) Any permittee shall provide each animal with proper shelter and protection from the weather at all times. An animal shall not be overcrowded or exposed to temperatures detrimental to the welfare of the animal.

(d) Any permittee shall not allow any animal to be without care or control in excess of 12 consecutive hours.

(e) Any permittee shall take every reasonable precaution to ensure that no animal is teased, abused, mistreated, annoyed, tormented, or in any manner made to suffer by any person or by any means.

(f) Any permittee shall not maintain or allow any animal to exist in any manner that is, or could be, injurious to that animal.

(g) Any permittee shall not give an animal any alcoholic beverage, unless prescribed by a veterinarian.

(h) Animals that are natural enemies, temperamentally unsuited, or otherwise incompatible, shall not be quartered together or so near each other as to cause injury, fear, or torment.

(i) Any tack equipment, device, substance, or material that is, or could be, injurious or cause unnecessary cruelty to any animal shall be prohibited.

(j) The permittee shall keep or maintain animals confined at all times on the premises for which the permit has been issued, unless special permission to remove the animals has been obtained from the department. The permittee shall have full responsibility for recapturing any animal that escapes.

(k) The permittee shall give proper rest periods to any working animal. Any confined or restrained animal shall be given exercise proper for the individual animal under the particular conditions.

(l) The permittee shall not work, use, or rent any animal that is overheated, weakened, exhausted, sick, injured, diseased, lame, or otherwise unfit.

(m) No animal that the local public agency has suspended from use shall be worked or used until released by the local public agency.

(n) The permittee shall display no animal bearing evidence of malnutrition, ill health, unhealed injury, or having been kept in an unsanitary condition.

(o) The permittee shall keep or maintain each animal in a manner as may be prescribed to protect the public from the animal, and the animal from the public.

(p) The local public agency may order any animal to be taken to a veterinarian for examination or treatment.

(q) The permittee shall display no animal whose appearance is, or may be, offensive or contrary to public decency.

(r) The permittee shall allow no animal to constitute or cause a hazard or be a menace to the health, peace, or safety of the community.

(s) The permittee shall isolate at all times any sick or diseased animal from any healthy animal, and adequately segregate them so that the illness or disease will not be transmitted from one animal to another. In the case of pet shops, no sick, diseased, or injured animal defined by this chapter may be maintained on the premises for any purpose. Any sick or injured animal shall be isolated and given proper medical treatment.

(t) The permittee shall immediately notify the owner of any animal held on consignment or boarded if the animal refuses to eat or drink beyond a reasonable period, is injured, becomes sick, or dies. In case of death, permittee shall retain the body for 12 hours after notification has been sent to the owner.

(Added by Stats. 2001, Ch. 377, Sec. 8. Effective January 1, 2002.)

121919.

The local public agency may suspend or revoke a permit issued under this chapter if the local public agency determines that the permittee has done any of the following:

(a) Made any false statement or given any false information in connection with an application for a license or a renewal or reinstatement thereof.

(b) Violated any provisions of this chapter.

(c) Violated any rule of an ordinance adopted pursuant to the authority contained in this chapter.

(d) Committed any other act that would be grounds for denial of a license.

(Added by Stats. 2001, Ch. 377, Sec. 9. Effective January 1, 2002.)

121920.

(a) The owner or trainer of any attack, guard, or sentry dog shall ensure that the dog has been microchipped and the ownersidentification has been entered into a local or national registry. Each dog subject to this chapter shall, at all times, wear an identification tag. The identification tag shall be provided by the attack, guard, or sentry dog company furnishing the dog for hire. The identification tag shall contain, but not be limited to, the following information:

The name of the dog.

The name, address, and telephone number of the attack, guard, or sentry dog company furnishing the dog for hire. Any telephone number so provided shall be to a telephone that is manned by a person 24 hours per day every day of the year so that calls from the public may be received and answered.

(b) The identification tag required by this section shall be in addition to any tag required or issued by any agency of government to show that a dog has been immunized or inoculated against disease.

(Amended by Stats. 2001, Ch. 377, Sec. 10. Effective January 1, 2002.)

121921.

No person shall sell, give away, or let for hire any guard, attack, or sentry dog unless the following requirements have been met:

(a) The dog has been immunized against distemper and rabies.

(b) A certificate of rabies vaccination has been issued by a licensed veterinarian and is current and valid.

(Added by Stats. 2001, Ch. 377, Sec. 11. Effective January 1, 2002.)

121925.

Whenever a dog subject to this chapter is being transported anywhere, it shall be well secured in a humane manner as will reasonably prevent its possible escape.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121930.

Each dog subject to this chapter shall, wherever and whenever the dog is kept when on actual duty, be visited by a dog handler at least once every 12 hours to insure that the dogsphysical condition, its surroundings, and its food and water supply are adequate, and if inadequate, the dog handler shall do whatever may be necessary to correct or remedy the situation. Such dog handler shall be either the owner of, or be employed by or under contract to, the sentry dog company that placed the dog on assignment.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121935.

(a) No person shall take a sentry dog or a tracker or attack dog into, or keep a sentry dog or a tracker or attack dog in, any portion of any business establishment that is open to the general public, unless any such dog is accompanied or kept by a dog handler.

(b) No person shall keep any sentry dog or tracker or attack dog in any business establishment or any other place open to the general public at any time unless there is posted at every entrance of the business establishment or place a sign of sufficient size and design to warn persons that such a dog is used at the business establishment or place.

(c) This section does not apply to dogs used and accompanied by peace officers or uniformed employees of private patrol operators and operators of a private patrol service who are licensed pursuant to Chapter 11.5 (commencing with Section 7580) of Division 3 of the Business and Professions Code, while employees are acting within the course and scope of their employment as private patrolmen.

(d) This section does not apply to any dog handler or his or her dog while training the dog or another dog handler.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

121940.

(a) Except as otherwise specified in this chapter, any person violating any provision of this chapter, other than Section 121945, shall be subject to a civil penalty of up to one thousand dollars ($1,000) per violation. The action pursuant to this chapter may be prosecuted in the name of the people of the State of California by the district attorney for the county in which the violation occurred and in the appropriate court, or by the city attorney in the city in which the violation occurred and in the appropriate court.

(b) Nothing in this chapter limits or authorizes any act or omission that violates Section 5971 of the Penal Code.

(Amended by Stats. 2001, Ch. 377, Sec. 12. Effective January 1, 2002.)

121945.

In lieu of the civil penalties imposed pursuant to Section 121940, any person or owner who violates this chapter shall be subject to a civil penalty of up to one thousand dollars ($1,000), or shall be prohibited from selling, renting, leasing, or training any attack, guard, or sentry dog for up to 30 days, or both. For a second offense, the person or owner shall be subject to a civil penalty of up to two thousand five hundred dollars ($2,500), or a prohibition from selling, renting, leasing, or training any attack, guard, or sentry dog for up to 90 days, or both. For a third offense, the person or owner shall be subject to a civil penalty of up to five thousand dollars ($5,000) or a prohibition from selling, renting, leasing, or training any attack, guard, or sentry dog for up to six months, or both. For a fourth or any subsequent offense, the person or owner shall

be subject to a civil penalty of up to ten thousand dollars ($10,000) or a prohibition from selling, renting, leasing, or training any attack, guard, or sentry dog for up to one year, or both. For purposes of this section, a violation that occurred over five years prior to the most recent violation shall not be considered. An action for recovery of the civil penalty and for a court order enjoining a person or owner from engaging in the business of selling, renting, leasing, or training any attack, guard, or sentry dog for the period set forth in this section, may be prosecuted by the district attorney for the county where the violation occurred, or the city attorney for the city where the violation occurred, in the appropriate court.

(Added by Stats. 2001, Ch. 377, Sec. 13. Effective January 1, 2002.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 5. Sale of Dogs and Cats [122045 - 122319.5]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 7.)

__ARTICLE 1. Sale of Dogs by Breeders [122045 - 122110]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 7.)

122045.

(a) This article shall be known and may be cited as the Polanco-Lockyer Pet Breeder Warranty Act.

(b) Every breeder of dogs shall comply with this article. As used in this article, dog breeder, or breeder means a person, firm, partnership, corporation, or other association that has sold, transferred, or given away all or part of three or more litters or 20 or more dogs during the preceding 12 months that were bred and reared on the premises of the person, firm, partnership, corporation, or other association.

(c) For the purposes of this article, purchaser means any person who purchases a dog from a breeder.

(d) This article shall not apply to pet dealers regulated under Article 2 (commencing with Section 122125), or to publicly operated animal shelters, humane societies, or privately operated rescue organizations.

(Amended by Stats. 2019, Ch. 7, Sec. 15. (AB 1553) Effective January 1, 2020.)

122050.

(a) Every breeder of dogs shall deliver to each purchaser of a dog a written disclosure containing all of the following:

(1) The breedersname and address. If the breeder is a dealer licensed by the United States Department of Agriculture, the federal dealer identification number shall also be indicated.

(2) The date of the dogsbirth and the date the breeder received the dog. If the dog is not advertised or sold as purebred, registered, or registerable, the date of birth may be approximated if not known by the breeder.

(3) The breed, sex, color, and identifying marks at the time of sale, if any. If the dog is from a United States Department of Agriculture licensed source, the individual identifying tag, tattoo, or collar number for that animal. If the breed is unknown or mixed, the record shall so indicate.

(4) If the dog is being sold as being capable of registration, the names and registration numbers of the sire and dam, and the litter number, if known.

(5) A record of inoculations and worming treatments administered, if any, to the dog as of the time of sale, including dates of administration and the type of vaccine or worming treatment.

(6) A record of any veterinarian treatment or medication received by the dog while in the possession of the breeder and either of the following:

(A) A statement, signed by the breeder at the time of sale, that:

(i) The dog has no known disease or illness.

(ii) The dog has no known congenital or hereditary condition that adversely affects the health of the dog at the time of the sale or that is likely to adversely affect the health of the dog in the future.

(B) A record of any known disease, illness, or congenital or hereditary condition that adversely affects the health of the dog at the time of sale, or that is likely to affect the health of the dog in the future, along with a statement signed by a veterinarian licensed in the State of California that authorizes the sale of the dog, recommends necessary treatment, if any, and verifies that the disease, illness, or condition does not require hospitalization or nonelective surgical procedures, nor is it likely to require hospitalization or nonelective surgical procedures in the future. A veterinarian statement is not required for intestinal or external parasites unless their presence makes the dog clinically ill or is likely to make the dog clinically ill. The statement shall be valid for seven days following examination of the dog by the veterinarian.

(b) The written disclosure made pursuant to this section shall be signed by both the breeder certifying the accuracy of the statement, and by the purchaser of the dog acknowledging receipt of the statement.

(c) In addition, all medical information required to be disclosed pursuant to this section shall be made orally by the breeder to the purchaser.

(d) For purposes of this article, a disease, illness, or congenital or hereditary condition that adversely affects the health of the dog at the time of sale, or is likely to adversely affect the health of the dog in the future, shall be one that is apparent at the time of sale or that should have been known by the breeder from the history of veterinary treatment disclosed pursuant to this section.

(e) For the purpose of this article, nonelective surgical procedure means a surgical procedure that is necessary to preserve or restore the health of the dog, to prevent the dog from experiencing pain or discomfort, or to correct a condition that would otherwise interfere with the dogsability to walk, run, jump, or otherwise function in a normal manner.

(f) For the purposes of this article, clinically ill means an illness that is apparent to a veterinarian based on observation, examination, or testing of the dog, or upon a review of the medical records relating to the dog.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122055.

A breeder shall maintain a written record on the health, status, and disposition of each dog for a period of not less than one year after disposition of the dog. The record shall also include all of the information that the breeder is required to disclose pursuant to Section 122050.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122060.

Except as provided for in paragraph (6) of subdivision (a) of Section 122050, no breeder shall knowingly sell a

dog that is diseased, ill or has a condition, any one of which that requires hospitalization or nonelective surgical procedures. In lieu of the civil penalties imposed pursuant to Section 122110, any breeder who violates this section shall be subject to a civil penalty of up to one thousand dollars ($1,000), or shall be prohibited from selling dogs for up to 30 days, or both. If there is a second offense, the breeder shall be subject to a civil penalty of up to two thousand five hundred dollars ($2,500), or a prohibition from selling dogs for up to 90 days, or both. For a third offense, the breeder shall be subject to a civil penalty of up to five thousand dollars ($5,000), or a prohibition from selling dogs for up to six months, or both. For a fourth and subsequent offense, the breeder shall be subject to a civil penalty of up to ten thousand dollars ($10,000) or a prohibition from selling dogs for up to one year, or both. For the purpose of this section, a violation that occurred over five years prior to the most recent violation shall not be considered.

An action for recovery of the civil penalty and for a court order enjoining the breeder from engaging in the business of selling dogs at retail for the period set forth in this section, may be prosecuted by the district attorney for the county in which the violation occurred, or the city attorney for the city in that the violation occurred, in the appropriate court.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122065.

It shall be unlawful for a breeder to fail to do any of the following:

(a) Maintain facilities where the dogs are kept in a sanitary condition.

(b) Provide dogs with adequate nutrition and potable water.

(c) Provide adequate space appropriate to the age, size, weight, and breed of dog. For purposes of this subdivision, adequate space means sufficient space for the dog to stand up, sit down, and turn about freely using normal body movements, without the head touching the top of the cage, and to lie in a natural position.

(d) Provide dogs with a rest board, floormat, or similar device that can be maintained in a sanitary condition.

(e) Provide dogs with adequate socialization and exercise. For the purpose of this article, socialization means physical contact with other dogs and with human beings.

(f) Wash hands before and after handling each infectious or contagious dog.

(g) Provide veterinary care without delay when necessary.

(Amended by Stats. 2001, Ch. 350, Sec. 2. Effective January 1, 2002.)

122065.5.

It shall be unlawful for a breeder to primarily house a dog on wire flooring.

(Added by Stats. 2001, Ch. 350, Sec. 3. Effective January 1, 2002.)

122070.

(a)If a licensed veterinarian states in writing that within 15 days after the purchaser has taken physical possession of a dog following the sale by a breeder, the dog has become ill due to any illness or disease that existed in the dog on or before delivery of the dog to the purchaser, or, if within one year after the purchaser has taken physical possession of the dog after the sale by a breeder, a veterinarian licensed in this state states in writing that the dog has a congenital or hereditary condition that adversely affects the health of the dog, or that requires, or is likely in the future to require, hospitalization or nonelective surgical procedures, the dog shall be considered unfit for sale, and the breeder shall provide the purchaser with any of the following remedies that the purchaser elects:

(1)Return the dog to the breeder for a refund of the purchase price, plus sales tax, and reimbursement for reasonable veterinary fees for diagnosis and treating the dog in an amount not to exceed the original purchase price of the dog, including sales tax.

(2)Exchange the dog for a dog of the purchaserschoice of equivalent value, providing a replacement dog is available, and receive reimbursement for reasonable veterinary fees for diagnosis and treating the dog in an amount not to exceed the original purchase price of the dog, plus sales tax on the original purchase price of the dog.

(3)Retain the dog, and receive reimbursement for reasonable veterinary fees for diagnosis and treating the dog in an amount not to exceed 150 percent of the original purchase price of the dog, plus sales tax.

(b)If the dog has died, regardless of the date of death of the dog, obtain a refund for the purchase price of the dog, plus sales tax, or a replacement dog of equivalent value of the purchaserschoice, and reimbursement for reasonable veterinary fees for diagnosis and treatment of the dog in an amount not to exceed the purchase price of the dog, plus sales tax, if any of the following conditions exist:

(1)A veterinarian, licensed in this state, states in writing that the dog has died due to an illness or disease that existed within 15 days after the purchaser obtained physical possession of the dog after the sale by a breeder.

(2)A veterinarian, licensed in this state, states in writing that the dog has died due to a congenital or hereditary condition that was diagnosed by the veterinarian within one year after the purchaser obtained physical possession of the dog after the sale by a breeder.

(Amended by Stats. 2006, Ch. 538, Sec. 445. Effective January 1, 2007.)

122075.

(a) There shall be a rebuttable presumption that an illness existed at the time of sale if the animal dies within 15 days of delivery to the purchaser.

(b) For purposes of Section 122070, a finding by a veterinarian of intestinal or external parasites shall not be grounds for declaring a dog unfit for sale unless their presence makes the dog clinically ill or is likely to make the dog clinically ill.

(c) For purposes of Section 122070, the value of veterinary services shall be deemed reasonable if the services rendered are appropriate for the diagnosis and treatment of illness or congenital or hereditary condition made by the veterinarian and the value of the services is comparable to the value of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122080.

To obtain the remedies provided for in Section 122070, the purchaser shall substantially comply with all of the following requirements:

(a) Notify the breeder as soon as possible but no later than five days of the diagnosis by a veterinarian licensed in this state of a medical or health problem, including a congenital or hereditary condition and of the name and telephone number of the veterinarian providing the diagnosis.

(b) Return the dog to the breeder, in the case of illness or congenital or hereditary condition, along with a written statement from a veterinarian licensed in this state, stating the dog to be unfit for purchase due to illness, a congenital or hereditary condition, or the presence of symptoms of a contagious or infectious disease, that existed on or before delivery of the dog to the purchaser, and that adversely affects the health of the dog. The purchaser shall return the dog along with a copy of the veterinariansstatement as soon as possible but no later than five days of receipt of the veterinariansstatement.

(c) Provide the breeder, in the event of death, with a written statement from a veterinarian licensed in this state stating that the dog died from an illness that existed on or before the delivery of the dog to the purchaser. The presentation of the statement shall be sufficient proof to claim reimbursement or replacement and the return of the deceased dog to the breeder shall not be required.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122085.

No refund, replacement, or reimbursement of veterinary fees shall be made under Section 122070 if any of the following conditions exist:

(a) The illness, condition, or death resulted from maltreatment or neglect or from an injury sustained or an illness or condition contracted subsequent to the delivery of the dog to the purchaser.

(b) The purchaser fails to carry out the recommended treatment prescribed by the examining veterinarian who made the initial diagnosis. However, this subdivision shall not apply if the cost for the treatment together with the veterinariansfee for the diagnosis would exceed the purchase price of the dog, plus sales tax.

(c) A veterinariansstatement was provided to the purchaser pursuant to subparagraph (B) of paragraph (6) of subdivision (a) of Section 122050 that disclosed the disease, illness, or condition for which the purchaser seeks to return the dog. However, this subdivision shall not apply if, within one year after the purchaser took

physical possession of the dog, a veterinarian licensed in this state states in writing that the disease, illness, or condition requires, or is likely in the future to require, hospitalization or nonelective surgical procedures or that the disease, illness, or condition resulted in the death of the dog.

(d) The purchaser refuses to return to the breeder all documents previously provided to the purchaser for the purpose of registering the dog. This subdivision shall not apply if the purchaser signs a statement certifying that the documents have been inadvertently lost or destroyed.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122090.

(a) The veterinariansstatement pursuant to Section 122070 shall contain all of the following information:

(1) The purchasersname and address.

(2) The date or dates the dog was examined.

(3) The breed and age of the dog, if known.

(4) That the veterinarian examined the dog.

(5) That the dog has or had disease, illness, or a hereditary or congenital condition, as described in Section 122050 that renders it unfit for purchase or resulted in its death.

(6) The precise findings of the examination or necropsy, including laboratory results or copies of laboratory reports.

(b) If a refund for reasonable veterinary expenses is being requested, the veterinariansstatement shall be accompanied by an itemized bill of fees appropriate for the diagnosis and treatment of the illness or congenital or hereditary condition.

(c) Refunds and payment of reimbursable expenses provided for in Section 122070 shall be paid, unless contested, by the breeder to the purchaser not later than 10 business days following receipt of the veterinariansstatement required by Section 122070 or, where applicable, not later than 10 business days after the date on that the dog is returned to the breeder.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122095.

(a) In the event that a breeder wishes to contest a demand for any of the remedies specified in Section 122070, the breeder may, except in the case of the death of the dog, require the purchaser to produce the dog for examination by a licensed veterinarian designated by the breeder. The breeder shall pay the cost of this examination.

(b) If the purchaser and the breeder are unable to reach an agreement within 10 business days following

receipt by the breeder of the veterinariansstatement pursuant to Section 122070, or following receipt of the dog for examination by a veterinarian designated by the breeder, whichever is later, the purchaser may initiate an action in a court of competent jurisdiction to resolve the dispute or the parties may submit to binding arbitration if mutually agreed upon by the parties in writing.

(c) The prevailing party in the dispute shall have the right to collect reasonable attorneysfees if the other party acted in bad faith in seeking or denying the requested remedy.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122100.

Every breeder that sells a dog shall provide the purchaser at the time of sale, and a prospective purchaser upon request, with a written notice of rights, setting forth the rights provided for under this section. The notice shall be contained in a separate document. The written notice of rights shall be in 10-point type. A copy of the written notice of rights shall be signed by the purchaser acknowledging that he or she has reviewed the notice. The notice shall state the following:

A STATEMENT OF CALIFORNIA LAW GOVERNING THE SALE OF DOGS

The sale of dogs is subject to consumer protection regulation. In the event that a California licensed veterinarian states in writing that your dog is unfit for purchase because it became ill due to an illness or disease that existed within 15 days following delivery to you, or within one year in the case of congenital or hereditary condition, you may choose one of the following:

(1) Return your dog and receive a refund of the purchase price, plus sales tax, and receive reimbursement for reasonable veterinarian fees up to the cost of the dog, plus sales tax.

(2) Return your dog and receive a dog of your choice of equivalent value, providing a replacement dog is available, and receive reimbursement for reasonable veterinarian fees up to the cost of the dog, plus sales tax.

(3) Keep the dog and receive reimbursement for reasonable veterinarian fees up to 150 percent of the original purchase price of the dog plus sales tax on the original purchase price of the dog.

In the event your dog dies, you may receive a refund for the purchase price of the dog, plus sales tax, or a replacement dog of your choice, of equivalent value, and reimbursement for reasonable veterinary fees for the diagnosis and treatment of the dog, if a veterinarian, licensed in this state, states in writing that the dog has died due to an illness or disease that existed within 15 days after the purchaser obtained physical possession of the dog after the sale by a dog breeder, or states that the dog has died due to a congenital or hereditary condition that was diagnosed by the veterinarian within one year after the purchaser obtained physical possession of the dog after the sale by a dog breeder. These fees may not exceed the purchase price of the dog, plus sales tax.

In order to exercise these rights, you must notify the dog breeder as quickly as possible but no later than five days after learning from your veterinarian that a problem exists. You must tell the dog breeder about the problem and give the dog breeder the name and telephone number of the veterinarian providing the diagnosis.

If you are making a claim, you must also present to the dog breeder a written veterinary statement, in a form prescribed by law, that the animal is unfit for purchase and an itemized statement of all veterinary fees related to the claim. This information must be presented to the dog breeder no later than five days after you have received the written statement from the veterinarian.

In the event that the dog breeder wishes to contest the statement or the veterinariansbill, the dog breeder may request that you produce the dog for examination by a licensed veterinarian of the dog breederschoice. The dog breeder shall pay the cost of this examination.

In the event of death, the deceased dog need not be returned to the dog breeder if you submit a statement issued by a licensed veterinarian stating the cause of death.

If the parties cannot resolve the claim within 10 business days following receipt of the veterinarian statement or the examination by the dog breedersveterinarian, whichever event occurs later, you may file an action in a court of competent jurisdiction to resolve the dispute. If a party acts in bad faith, the other party may collect reasonable attorneysfees. If the dog breeder does not contest the matter, the dog breeder must make the refund or reimbursement no later than 10 business days after receiving the veterinary certification.

This statement is a summary of key provisions of the consumer remedies available. California law also provides safeguards to protect dog breeders from abuse. If you have questions, obtain a copy of the complete relevant statutes.

This notice shall be contained in a separate document. The written notice shall be in 10-point type. The notice shall be signed by the purchaser acknowledging that he or she has reviewed the notice. The dog breeder shall permit persons to review the written notice upon request.

NOTE: ‰ This disclosure of rights is a summary of California law. The actual statutes are contained in Article 1 (commencing with Section 122045) of Chapter 5 of Part 6 of Division 105 of the Health and Safety Code.□

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122105.

Nothing in this article shall in any way limit the rights or remedies that are otherwise available to a consumer under any other law. Nor shall this article in any way limit the breeder and the purchaser from agreeing between themselves upon additional terms and conditions that are not inconsistent with this article. However, any agreement or contract by a purchaser to waive any rights under this article shall be null and void and shall be unenforceable.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122110.

(a) Except as otherwise specified herein, any person violating any provision of this article other than Section 122060 shall be subject to civil penalty of up to one thousand dollars ($1,000) per violation. An action may be prosecuted in the name of the people of the State of California by the district attorney for the county where the violation occurred in the appropriate court or by the city attorney in the city where the violation

occurred.

(b) Nothing in this article limits or authorizes any act or omission that violates Section 597 l of the Penal Code.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 5. Sale of Dogs and Cats [122045 - 122319.5]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 7.)

__ARTICLE 2. Retail Sale of Dogs and Cats [122125 - 122220]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 7.)

122125.

(a) This article shall be known and may be cited as the Lockyer-Polanco-Farr Pet Protection Act.

(b) Every pet dealer of dogs and cats shall conform to the provisions of this article. As used in this article, pet dealer means a person engaging in the business of selling dogs or cats, or both, at retail, and by virtue of the sales of dogs or cats is required to possess a permit pursuant to Section 6066 of the Revenue and

Taxation Code. For purposes of this article, the separate sales of dogs or cats from a single litter shall constitute only one sale under Section 6019 of the Revenue and Taxation Code. This definition does not apply to breeders of dogs regulated pursuant to Article 1 (commencing with Section 122045) nor to any person, firm, partnership, corporation, or other association, that breeds or rears dogs on the premises of the person, firm, partnership, corporation, or other association, that has sold, transferred, or given away fewer than 50 dogs in the preceding year.

(c) For purposes of this article, purchaser means a person who purchases a dog or cat from a pet dealer without the intent to resell the animal.

(d) This article shall not apply to publicly operated animal shelters and humane societies.

(Amended by Stats. 2019, Ch. 7, Sec. 16. (AB 1553) Effective January 1, 2020.)

122130.

Every pet dealer receiving dogs or cats from a common carrier shall transport, or have transported, dogs and cats from the carrierspremises within four hours after receipt of telephone notification by the carrier of the completion of shipment and arrival of the animal at the carrierspoint of destination.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122135.

All dogs or cats received by a retail dealer shall, prior to being placed with other dogs or cats, be examined for sickness. Any dog or cat found to be afflicted with a contagious disease shall be kept caged separately from healthy animals.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122137.

(a) (1) It is the intent of the Legislature and the purpose of this section to inform consumers who purchase dogs and cats from retail pet dealers about the benefits of spaying and neutering and the importance of establishing a relationship with a veterinarian, and to facilitate dog licensing by encouraging pet dealers to promote licensure compliance.

(2) The Legislature declares that pet dealers, when feasible, should offer incentives to purchasers to encourage the use of spaying and neutering services, and that local animal control agencies should investigate selling licenses through pet shops, or making licensure applications available in pet shops, since these businesses already serve a large number of pet owners through the sale of pet supplies.

(b) Every pet dealer shall deliver to the purchaser of each dog or cat at the time of sale, written material, in a form determined by the pet dealer, containing information on the benefits of spaying and neutering. The written material shall include recommendations on establishing a relationship with a veterinarian,

information on early-age spaying and neutering, the health benefits associated with spaying and neutering pets, the importance of minimizing the risk of homeless or unwanted animals, and the need to comply with applicable license laws.

(c) The delivering of any model materials prepared by the Pet Industry Joint Advisory Council, the California Animal Welfare Association, and the California Veterinary Medical Association shall satisfy the requirements of subdivision (b).

(Amended by Stats. 2019, Ch. 331, Sec. 3. (SB 787) Effective January 1, 2020.)

122140.

Every pet dealer shall deliver to the purchaser of each dog and cat at the time of sale a written statement in a standardized form prescribed by the Department of Consumer Affairs containing the following information:

(a) For cats:

(1) The breedersand brokersname and address, if known, or if not known, the source of the cat. If the person from whom the cat was obtained is a dealer licensed by the United States Department of Agriculture, the personsname, address, and federal dealer identification number.

(2) The date of the catsbirth, unless unknown because of the source of the cat and the date the dealer received the cat.

(3) A record of the immunizations and worming treatments administered, if any, to the cat as of the time of sale, including the dates of administration and the type of vaccine or worming treatment.

(4) A record of any known disease or sickness that the cat is afflicted with at the time of sale. In addition, this information shall also be orally disclosed to the purchaser.

(b) For dogs:

(1) The breedersname and address, if known, or if not known, the source of the dog. If the person from whom the dog was obtained is a dealer licensed by the United States Department of Agriculture, the personsname, address, and federal dealer identification number.

(2) The date of the dogsbirth, and the date the dealer received the dog. If the dog is not advertised or sold as purebred, registered, or registerable, the date of birth may be approximated if not known by the seller.

(3) The breed, sex, color, and identifying marks at the time of sale, if any. If the dog is from a United States Department of Agriculture licensed source, the individual identifying tag, tattoo, or collar number for that animal. If the breed is unknown or mixed, the record shall so indicate.

(4) If the dog is being sold as being capable of registration, the names and registration numbers of the sire and dam, and the litter number, if known.

(5) A record of inoculations and worming treatments administered, if any, to the dog as of the time of sale, including dates of administration and the type of vaccine or worming treatment.

(6) A record of any veterinarian treatment or medication received by the dog while in the possession of the pet dealer and either of the following:

(A) A statement, signed by the pet dealer at the time of sale, containing all of the following:

(i) The dog has no known disease or illness.

(ii) The dog has no known congenital or hereditary condition that adversely affects the health of the dog at the time of the sale or that is likely to adversely affect the health of the dog in the future.

(B) A record of any known disease, illness, and any congenital or hereditary condition that adversely affects the health of the dog at the time of sale, or is likely to adversely affect the health of the dog in the future, along with a statement signed by a veterinarian licensed in the State of California that authorizes the sale of the dog, recommends necessary treatment, if any, and verifies that the disease, illness, or condition does not require hospitalization or nonelective surgical procedures, nor is it likely to require hospitalization or nonelective surgical procedures in the future. A veterinarian statement is, not required for intestinal or external parasites unless their presence makes the dog clinically ill or is likely to make the dog clinically ill. The statement shall be valid for seven days following examination of the dog by the veterinarian.

(c) For the purpose of this article, nonelective surgical procedure means a surgical procedure that is necessary to preserve or restore the health of the dog, to prevent the dog from experiencing pain or discomfort, or to correct a condition that would interfere with the dogsability to walk, run, jump, or otherwise function in a normal manner.

(d) For the purposes of this article, clinically ill means an illness that is apparent to a veterinarian based on observation, examination, or testing of the dog, or upon a review of the medical records relating to the dog.

(e) A disclosure made pursuant to subdivision (b) shall be signed by both the pet dealer certifying the accuracy of the statement, and the purchaser of the dog acknowledging receipt of the statement. In addition, all medical information required to be disclosed pursuant to subdivision (b) shall be made orally to the purchaser.

(f) For purposes of this article, a disease, illness, or congenital or hereditary condition that adversely affects the health of a dog at the time of sale or is likely to adversely affect the health of the dog in the future shall be one that is apparent at the time of sale or that should have been known by the pet dealer from the history of veterinary treatment disclosed pursuant to this section.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122145.

A pet dealer shall maintain a written record on the health, status, and disposition of each dog and each cat for a period of not less than one year after disposition of the dog or cat. The record shall also contain all of the information required to be disclosed pursuant to Sections 122140 and 122220. Those records shall be available to humane officers, animal control officers, and law enforcement officers for inspection during normal business hours.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122150.

(a) Except as otherwise specified herein, any person violating any provision of this article other than Section 122205 shall be subject to a civil penalty of up to one thousand dollars ($1,000) per violation. The action may be prosecuted in the name of the people of the State of California by the district attorney for the county where the violation occurred in the appropriate court or by the city attorney in the city where the violation occurred.

(b) Nothing in this article limits or authorizes any act or omission that violates Section 597 l of the Penal Code.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122155.

(a) It shall be unlawful for a pet dealer to fail to do any of the following:

(1) Maintain facilities where the dogs are kept in a sanitary condition.

(2) Provide dogs with adequate nutrition and potable water.

(3) Provide adequate space appropriate to the age, size, weight, and breed of dog. Adequate space means sufficient space for the dog to stand up, sit down, and turn about freely using normal body movements, without the head touching the top of the cage, and to lie in a natural position.

(4) Provide dogs housed on wire flooring with a rest board, floormat, or similar device that can be maintained in a sanitary condition.

(5) Provide dogs with adequate socialization and exercise. For the purpose of this article socialization means physical contact with other dogs or with human beings.

(6) Wash hands before and after handling each infectious or contagious dog.

(7) Maintain either of the following:

(A) A fire alarm system that is connected to a central reporting station that alerts the local fire department in case of fire.

(B) Maintain a fire suppression sprinkler system.

(8) Provide veterinary care without delay when necessary.

(b) A pet dealer shall not be in possession of a dog that is less than eight weeks old.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122160.

(a) If a licensed veterinarian states in writing that within 15 days after the purchaser has taken physical possession of the dog after the sale by a pet dealer, the dog has become ill due to any illness that existed in the dog on or before delivery of the dog to the purchaser, or, if within one year after the purchaser has taken physical possession of the dog after the sale, a veterinarian licensed in this state states in writing that the dog has a congenital or hereditary condition that adversely affects the health of the dog, or that requires, or is likely in the future to require, hospitalization or nonelective surgical procedures, the dog shall be considered unfit for sale, and the pet dealer shall provide the purchaser with any of the following remedies that the purchaser elects:

(1) Return the dog to the pet dealer for a refund of the purchase price, plus sales tax, and reimbursement for reasonable veterinary fees for diagnosis and treating the dog in an amount not to exceed the original purchase price of the dog, plus sales tax.

(2) Exchange the dog for a dog of the purchaserschoice of equivalent value, providing a replacement dog is available, and reimbursement for reasonable veterinary fees for diagnosis and treating the dog in an amount not to exceed the original purchase price of the dog, plus sales tax.

(3) Retain the dog, and reimbursement for reasonable veterinary fees for diagnosis and treating the dog in an amount not to exceed 150 percent of the original purchase price of the dog, plus sales tax on the original purchase price of the dog.

(b) If the dog has died, regardless of the date of the death of the dog, obtain a refund for the purchase price of the dog, plus sales tax, or a replacement dog of equivalent value of the purchaserschoice and reimbursement for reasonable veterinary fees in diagnosis and treatment of the dog in an amount not to exceed the original purchase price of the dog, plus sales tax, if either of the following conditions exist:

(1) A veterinarian, licensed in this state, states in writing that the dog has died due to an illness or disease that existed within 15 days after the purchaser obtained physical possession of the dog after the sale by a pet dealer.

(2) A veterinarian, licensed in this state, states in writing that the dog has died due to a congenital or hereditary condition that was diagnosed by the veterinarian within one year after the purchaser obtained physical possession of the dog after the sale by a pet dealer.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122165.

(a) There shall be a rebuttable presumption that an illness existed at the time of sale if the animal dies within 15 days of delivery to the purchaser.

(b) For purposes of Section 122160, a finding by a veterinarian of intestinal or external parasites shall not be grounds for declaring a dog unfit for sale unless their presence makes the dog clinically ill or is likely to make the dog clinically ill.

(c) For purposes of Section 122160, the value of veterinary services shall be deemed reasonable if the

services rendered are appropriate for the diagnosis and treatment of illness or congenital or hereditary condition, made by the veterinarian and the value of similar services is comparable to the value of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122170.

To obtain the remedies provided for in Section 122160, the purchaser shall substantially comply with all of the following requirements:

(a) Notify the pet dealer as soon as possible but not more than five days after the diagnosis by a veterinarian licensed in this state of a medical or health problem, including a congenital or hereditary condition and of the name and telephone number of the veterinarian providing the diagnosis.

(b) Return the dog to the pet dealer, in the case of illness, along with a written statement from a veterinarian licensed in this state, stating the dog to be unfit for purchase due to illness, a congenital or hereditary condition, or the presence of symptoms of a contagious or infectious disease, that existed on or before delivery of the dog to the purchaser, and that adversely affects the health of the dog. The purchaser shall return the dog along with a copy of the veterinariansstatement as soon as possible but not more than five days after receipt of the veterinariansstatement.

(c) Provide the pet dealer, in the event of death, with a written statement from a veterinarian licensed in this state stating that the dog died from an illness that existed on or before the delivery of the dog to the purchaser. The presentation of the statement shall be sufficient proof to claim reimbursement or replacement and the return of the deceased dog to the pet dealer shall not be required.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122175.

Notwithstanding Section 122160, no refund, replacement, or reimbursement of veterinary fees shall be made if any of the following conditions exist:

(a) The illness or death resulted from maltreatment or neglect or from an injury sustained or an illness contracted subsequent to the delivery of the dog to the purchaser.

(b) The purchaser fails to carry out the recommended treatment prescribed by the examining veterinarian who made the initial diagnosis. However, this subdivision shall not apply if the cost for the treatment together with the veterinariansfee for the diagnosis would exceed the purchase price of the dog, including sales tax.

(c) A veterinariansstatement was provided to the purchaser pursuant to subparagraph (B) of paragraph (6) of subdivision (b) of Section 122140 that disclosed the disease, illness, or condition for which the purchaser seeks to return the dog. However, this paragraph shall not apply if, within one year after the purchaser took physical possession of the dog, a veterinarian licensed in this state states in writing that the disease, illness, or condition requires, or is likely in the future to require, hospitalization or nonelective surgical procedures or

that the disease, illness, or condition resulted in the death of the dog.

(d) The purchaser refuses to return to the pet dealer all documents previously provided to the purchaser for the purpose of registering the dog. This subdivision shall not apply if the purchaser signs a written statement certifying that the documents have been inadvertently lost or destroyed.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122180.

(a) The veterinariansstatement pursuant to Section 122160 shall contain the following information:

(1) The purchasersname and address.

(2) The date or dates the dog was examined.

(3) The breed and age of the dog, if known.

(4) That the veterinarian examined the dog.

(5) That the dog has or had an illness described in this section that renders it unfit for purchase or resulted in its death.

(6) The precise findings of the examination or necropsy, including laboratory results or copies of laboratory reports.

(b) If a refund for reasonable veterinary expenses is being requested, the veterinary statement shall be accompanied by an itemized bill of fees appropriate for the diagnosis and treatment of the illness or congenital or hereditary condition.

(c) Refunds and payment of reimbursable expenses provided for by Section 122160 shall be paid, unless contested, by the pet dealer to the purchaser not later than 10 business days following receipt of the veterinariansstatement required by Section 122160 or, where applicable, not later than 10 business days after the date on which the dog is returned to the pet dealer.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122185.

(a) In the event that a pet dealer wishes to contest a demand for any of the remedies specified in Section 122160, the dealer may, except in the case of the death of the dog, require the purchaser to produce the dog for examination by a licensed veterinarian designated by the pet dealer. The pet dealer shall pay the cost of this examination.

(b) If the purchaser and the pet dealer are unable to reach an agreement within 10 business days following receipt by the pet dealer of the veterinariansstatement pursuant to Section 122160, or following receipt of the dog for examination by a veterinarian designated by the pet dealer, whichever is later, the purchaser may

initiate an action in a court of competent jurisdiction to resolve the dispute or the parties may submit to binding arbitration if mutually agreed upon by the parties in writing.

(c) The prevailing party in the dispute shall have the right to collect reasonable attorneysfees if the other party acted in bad faith in seeking or denying the requested remedy.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122190.

Every pet dealer that sells a dog shall provide the purchaser at the time of sale, and a prospective purchaser upon request, with a written notice of rights, setting forth the rights provided for under this section. The notice shall be contained in a separate document. The written notice of rights shall be in 10-point type. A copy of the written notice of rights shall be signed by the purchaser acknowledging that he or she has reviewed the notice. The notice shall state the following:

A STATEMENT OF CALIFORNIA LAW GOVERNING THE SALE OF DOGS

The sale of dogs is subject to consumer protection regulations. In the event that a California licensed veterinarian states in writing that your dog is unfit for purchase because it became ill due to an illness or disease that existed within 15 days following delivery to you, or within one year in the case of congenital or hereditary condition, you may choose one of the following:

(1) Return your dog and receive a refund of the purchase price, plus sales tax, and receive reimbursement for reasonable veterinarian fees up to the cost of the dog plus sales tax.

(2) Return your dog and receive a dog of your choice of equivalent value, providing a replacement dog is available, and receive reimbursement for reasonable veterinarian fees up to the cost of the dog, plus sales tax.

(3) Keep the dog and receive reimbursement for reasonable veterinarian fees up to 150 percent of the original purchase price of the dog plus sales tax on the original purchase price of the dog.

In the event your dog dies, you may receive a refund for the purchase price of the dog, plus sales tax, or a replacement dog of your choice, of equivalent value, and reimbursement for reasonable veterinary fees for the diagnosis and treatment of the dog, if a veterinarian, licensed in this state, states in writing that the dog has died due to an illness or disease that existed within 15 days after the purchaser obtained physical possession of the dog after the sale by a pet dealer, or states that the dog has died due to a congenital or hereditary condition that was diagnosed by the veterinarian within one year after the purchaser obtained physical possession of the dog after the sale by a pet dealer. These fees may not exceed the purchase price of the dog, plus sales tax.

In order to exercise these rights, you must notify the pet dealer as quickly as possible but no later than five days after learning from your veterinarian that a problem exists. You must tell the pet dealer about the problem and give the pet dealer the name and telephone number of the veterinarian providing the diagnosis.

If you are making a claim, you must also present to the pet dealer a written veterinary statement, in a form prescribed by law, that the animal is unfit for purchase and an itemized statement of all veterinary fees

related to the claim. This information must be presented to the pet dealer no later than five days after you have received the written statement from the veterinarian.

In the event that the pet dealer wishes to contest the statement or the veterinariansbill, the pet dealer may request that you produce the dog for examination by a licensed veterinarian of the pet dealerschoice. The pet dealer shall pay the cost of this examination.

In the event of death, the deceased dog need not be returned to the pet dealer if you submit a statement issued by a licensed veterinarian stating the cause of death.

If the parties cannot resolve the claim within 10 business days following receipt of the veterinarian statement or the examination by the pet dealersveterinarian, whichever event occurs later, you may file an action in a court of competent jurisdiction to resolve the dispute. If a party acts in bad faith, the other party may collect reasonable attorneysfees. If the pet dealer does not contest the matter, the pet dealer must make the refund or reimbursement no later than 10 business days after receiving the veterinary certification.

If the pet dealer has represented your dog as registerable with a pedigree organization, the pet dealer shall provide you with the necessary papers to process the registration within 120 days following the date you received the dog. If the pet dealer fails to deliver the papers within the prescribed timeframe, you are entitled to return the dog for a full refund of the purchase price, including sales tax, or a refund of 75 percent of the purchase price, including sales tax if you choose to keep the dog.

This statement is a summary of key provisions of the consumer remedies available. California law also provides safeguards to protect pet dealers from abuse. If you have any questions, obtain a copy of the complete relevant statutes.

This notice shall be contained in a separate document. The written notice shall be in 10-point type. The notice shall be signed by the purchaser acknowledging that he or she has reviewed the notice. The pet dealer shall permit persons to review the written notice upon request.

NOTE: ‰ This disclosure of rights is a summary of California law. The actual statutes are contained in Article 2 (commencing with Section 122125 of Chapter 5 of Part 6 of Division 105 of the Health and Safety Code.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122191.

(a)For the purposes of this section, online pet retailer means a person engaged in the business of selling dogs, cats, or rabbits, at retail, online through an internet website.

(b)An online pet retailer shall not offer, broker, make a referral for, or otherwise facilitate a loan or other financing option for the adoption or sale of a dog, cat, or rabbit.

(c)This section does not apply to a loan or other financing option for the purchase of a service animal.

(Added by Stats. 2022, Ch. 548, Sec. 1. (AB 2380) Effective January 1, 2023.)

122195.

Nothing in this article shall in any way limit the rights or remedies that are otherwise available to a consumer under any other law. Nor shall this article in any way limit the pet dealer and the purchaser from agreeing between themselves upon additional terms and conditions that are not inconsistent with this article. However, any agreement or contract by a purchaser to waive any rights under this article shall be null and void and shall be unenforceable.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122200.

(a) A pet dealer shall not state, promise, or represent to the purchaser, directly or indirectly, that a dog is registered or capable of being registered with an animal pedigree registry organization, unless the pet dealer provides the purchaser with the documents necessary for that registration within 120 days following the date of sale of the dog.

(b) In the event that a pet dealer fails to provide the documents necessary for registration within 120 days following the date of sale, in violation of subdivision (a), the purchaser shall, upon written notice to the pet dealer, be entitled to retain the animal and receive a partial refund of 75 percent of the purchase price, plus sales tax, or return the dog along with all documentation previously provided the purchaser for a full refund, including sales tax.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122205.

Except as provided for in subparagraph (B) of paragraph (6) of subdivision (b) of Section 122140, no pet dealer shall knowingly sell a dog that is diseased, ill, or has a condition, any one of which requires hospitalization or surgical procedures. In lieu of the civil penalties imposed pursuant to Section 122150, any pet dealer who violates this section shall be subject to a civil penalty of up to one thousand dollars ($1,000), or shall be prohibited from selling dogs at retail for up to 30 days, or both. If there is a second offense, the pet dealer shall be subject to a civil penalty of up to two thousand five hundred dollars ($2,500), or a prohibition from selling dogs at retail for up to 90 days, or both. For a third offense, the pet dealer shall be subject to a civil penalty of up to five thousand dollars ($5,000) or a prohibition from selling dogs at retail for up to six months, or both. For a fourth and subsequent offense, the pet dealer shall be subject to a civil penalty of up to ten thousand dollars ($10,000) or a prohibition from selling dogs at retail for up to one year, or both. For purposes of this section, a violation that occurred over five years prior to the most recent violation shall not be considered.

An action for recovery of the civil penalty and for a court order enjoining the pet dealer from engaging in the business of selling dogs at retail for the period set forth in this section, may be prosecuted by the district attorney for the county where the violation occurred, or the city attorney for the city where the violation occurred, in the appropriate court.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122210.

(a) No dog may be offered for sale by a pet dealer to a purchaser until the dog has been examined by a veterinarian licensed in this state. Each dog shall be examined within five days of receipt of the dog and once every 15 days thereafter while the dog is in the possession or custody of the pet dealer. The pet dealer shall provide any sick dog with proper veterinary care without delay.

(b) Any dog diagnosed with a contagious or infectious disease, illness, or condition shall be caged separately from healthy dogs until a licensed veterinarian determines that the dog is free from contagion or infection. The area shall meet the following conditions when contagious or infectious dogs are present:

(1) The area shall not be used to house other healthy dogs or new arrivals awaiting the required veterinary examination.

(2) The area shall not be used for storing open food containers or bowls, dishes, or other utensils that come in contact with healthy dogs.

(3) The area shall have an exhaust fan that creates air movement from the isolation area to an area outside the premises of the pet dealer. The removal of exhaust air from the isolation area may be accomplished by the use of existing heating and air-conditioning ducts, provided no exhaust air is permitted to enter or mix with fresh air for use by the general animal population.

(4) Upon removal of all of the contagious or infectious dogs, the area shall be cleaned and disinfected before any healthy animal can be placed in the area.

(c) If the pet dealersveterinarian deems the dog to be unfit for purchase due to a disease, illness, or congenital condition, any of which is fatal or that causes, or is likely to cause, the dog to unduly suffer, the veterinarian shall humanely euthanize the dog. The veterinarian shall provide the pet dealer with a written statement as to why the dog was euthanized. Otherwise, the pet dealer shall have a veterinarian treat the dog, or may surrender the dog to a humane organization that consents to the receipt thereof.

(d) In the event a dog is returned to a pet dealer due to illness, disease, or a congenital or hereditary condition requiring veterinary care, the pet dealer shall provide the dog with proper veterinary care.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122215.

Every retail dealer shall post conspicuously on the cage of each dog offered for sale a notice indicating the state where the dog was bred and brokered.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122220.

(a) Every pet dealer shall post conspicuously within close proximity to the cages of dogs offered for sale, a notice containing the following language in 100-point type:

Information on the source of these dogs, and veterinary treatments received by these dogs is available for review.

You are entitled to a copy of a statement of consumer rights.

(b) Every pet dealer shall, upon request for information regarding a dog, make immediately available to prospective purchasers all of the information required to be disclosed to purchasers pursuant to subdivision (b) of Section 122140 and pursuant to Section 122190.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 5. Sale of Dogs and Cats [122045 - 122319.5]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 7.)

__ARTICLE 3. Dog Pedigree Registries [122300 - 122315]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 7.)

122300.

For purposes of this article:

(a) Dog dealer means any person, firm, partnership, corporation, or other association that engages in the acquisition of dogs for retail sale to the public. Dog dealer does not include duly incorporated nonprofit humane societies dedicated to the care of unwanted animals that make animals available for adoption, whether or not a fee for the adoption is charged, or pet dealers who do not in the normal course of business sell dogs, but who sometimes exhibit dogs for adoption.

(b) Dog breeder means any person, firm, partnership, corporation, or other association that breeds and sells dogs at wholesale or retail.

(c) Dog pedigree registry means any of various private agencies that serve to keep track of the breed, lineage, physical characteristics, and historical data regarding dogs that are registered with the agency.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122305.

Every dog dealer that sells registered dogs or that claims that the dogs being sold are registered or are registerable with a dog pedigree registry shall post conspicuously within close proximity to the dogs offered for sale, a notice containing the following language in at least 100-point type:
Pedigree registration does not assure proper breeding conditions, health, quality, or claims to lineage.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122310.

(a) For every dog sold by a dog dealer or dog breeder that is sold with any representation that the dog is registered or registerable with a dog pedigree registry, the following fully completed disclosure shall be made, orally and in writing on a separate sheet from any other statements, including, but not limited to, the name of the dog dealer or breeder and the name of the relevant dog pedigree registry:
Disclosure by

DOG PEDIGREE REGISTRATION DISCLOSURE

Description of dog: _____
_____
The dog you are purchasing is registered/registerable [circle one] with the _____ [enter name of registry].

Registration means only that _____ [enter name of registry] maintains information regarding the parentage and identity of this dog, it does not guarantee the quality or health of this dog, and it does not guarantee quality lineage. Since dog pedigree registries depend in large part on the honesty and accuracy of persons registering dogs, registration does not guarantee the accuracy of the lineage recorded nor that this dog is purebred.

Acknowledged:	□
Retail purchaserssignature	Date

(b) The disclosure in subdivision (a) shall be signed and dated by the retail purchaser of the dog acknowledging receipt of a copy of the statement and the dog dealer or dog breeder shall retain a copy.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

122315.

(a) Any dog dealer or dog breeder who fails to comply with the disclosure requirements in Section 122305 or 122310, as the case may be, shall be liable to the retail purchaser for civil damages in an amount equal to three times the cost of the dog. Claim for payment under this section shall be made within one year from the date of purchase of the dog.

(b) The remedies provided in this section shall be in addition to any other remedies or penalties authorized by other provisions of law.

(Added by Stats. 1995, Ch. 415, Sec. 7. Effective January 1, 1996.)

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 7.)

__ARTICLE 4. Emotional Support Animals [122317 - 122319.5]__

(Article 4 added by Stats. 2021, Ch. 168, Sec. 1.)

122317.

(a)A person or business that sells or provides a dog for use as an emotional support dog shall provide a written notice to the buyer or recipient of the dog that states all of the following:

(1)The dog does not have the special training required to qualify as a guide, signal, or service dog.

(2)The dog is not entitled to the rights and privileges accorded by law to a guide, signal, or service dog.

(3)Knowingly and fraudulently representing oneself to be the owner or trainer of any canine licensed as, to be qualified as, or identified as, a guide, signal, or service dog is a misdemeanor violation of Section 365.7 of the Penal Code.

(b)A person or business that sells or provides a certificate, identification, tag, vest, leash, or harness for an emotional support animal shall provide a written notice to the buyer or recipient that states all of the following:

(1)The item does not entitle an emotional support animal to the rights and privileges accorded by law to a guide, signal, or service dog.

(2)Knowingly and fraudulently representing oneself to be the owner or trainer of any canine licensed as, to be qualified as, or identified as, a guide, signal, or service dog is a misdemeanor violation of Section 365.7 of the Penal Code.

(c)The written notices described in subdivisions (a) and (b) shall be made in at least 12-point bold type, and shall be provided on the receipt for the emotional support dog or the product described in subdivision (b), or on a separate piece of paper.

(Added by Stats. 2021, Ch. 168, Sec. 1. (AB 468) Effective January 1, 2022.)

122318.

(a)A health care practitioner shall not provide documentation relating to an individualsneed for an emotional support dog unless the health care practitioner complies with all of the following criteria:

(1)Possesses a valid, active license and includes the effective date, license number, jurisdiction, and type of professional license in the documentation.

(2)Is licensed to provide professional services within the scope of the license in the jurisdiction in which the

documentation is provided.

(3)(A)Except as specified in subparagraph (B), establishes a client-provider relationship with the individual for at least 30 days prior to providing the documentation requested regarding the individualsneed for an emotional support dog.

(B)A client-provider relationship with the individual of 30 days or more shall not be required for individuals who are verified to be homeless. Homeless status may be verified by any of the following:

(I)Identification through the local Homeless Management Information System, as defined in Section 578.3 of Title 24 of the Code of Federal Regulations.

(II)Via a continuum of care, as defined in Section 578.3 of Title 24 of the Code of Federal Regulations, or a homeless services provider that is contracting with a continuum of care.

(III)Visual confirmation by a homeless services provider of individuals dwelling in a homeless shelter, homeless encampment, outdoor makeshift shelter, or vehicle.

(4)Completes a clinical evaluation of the individual regarding the need for an emotional support dog.

(5)Provides a verbal or written notice to the individual that knowingly and fraudulently representing oneself to be the owner or trainer of any canine licensed as, to be qualified as, or identified as, a guide, signal, or service dog is a misdemeanor violation of Section 365.7 of the Penal Code.

(b)For purposes of this section, health care practitioner means a person who is licensed and regulated pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code, who is acting within the scope of practice of the personslicense or certificate.

(c)A health care practitioner may be subject to discipline from the health care practitionerslicensing board for a violation of this section.

(Amended by Stats. 2022, Ch. 550, Sec. 1. (SB 774) Effective January 1, 2023.)

122319.

(a)(1)A violation of either of the following shall be subject to a civil penalty of five hundred dollars ($500) for the first violation, one thousand dollars ($1,000) for the second violation, and two thousand five hundred dollars ($2,500) for the third and any subsequent violation:

(A)Knowingly and fraudulently representing, selling, or offering for sale, or attempting to represent, sell, or offer for sale, an emotional support dog as being entitled to the rights and privileges accorded by law to a guide, signal, or service dog.

(B)Violating the written notice requirements specified in Section 122317.

(2)An action for civil penalties under this section may be brought by the Attorney General, a district attorney, a county counsel, or a city attorney.

(b)Nothing in this section shall be construed to restrict or change existing federal and state law related to a

personsrights for reasonable accommodation and equal access to housing, including, but not limited to, rights afforded under the California Fair Employment and Housing Act (Chapter 1 (commencing with Section 12900) of Part 2.8 of Division 3 of Title 2 of the Government Code), the Unruh Civil Rights Act (Section 51 of the Civil Code), and the Disabled Persons Act (Part 2.5 (commencing with Section 54) of Division 1 of the Civil Code).

(Added by Stats. 2021, Ch. 168, Sec. 1. (AB 468) Effective January 1, 2022.)

122319.5.

For purposes of this article, the following definitions apply:

(a)Emotional support animal means an animal that provides emotional, cognitive, or other similar support to an individual with a disability, and that does not need to be trained or certified.

(b)Emotional support dog means a dog that provides emotional, cognitive, or other similar support to an individual with a disability, and that does not need to be trained or certified.

(c)Guide, signal, or service dog has the meaning set forth in subdivisions (d), (e), and (f) of Section 365.5 of the Penal Code, and paragraph (6) of subdivision (b) of Section 54.1 of the Civil Code.

(Added by Stats. 2021, Ch. 168, Sec. 1. (AB 468) Effective January 1, 2022.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 6. Sale of Birds [122320 - 122324]__

(Chapter 6 added by Stats. 2003, Ch. 887, Sec. 1.)

122320.

As used in this chapter:

(a) Bird means any order of Psittaciformes bird.

(b) Bird mart means an event at which two or more persons offer birds for sale or exchange and where a fee is charged for the privilege of offering or displaying the birds.

(c) Hand-feeding means the process by which a bird is manually fed by a human through the use of hand, spoon, or oral gavage.

(d) Pet shop means a retail pet shop location primarily engaged in retailing pets, pet foods, and pet supplies, as defined by the North American Industry Classification System.

(e) Sale has the same meaning as retail sale as defined in Section 6007 of the Revenue and Taxation Code.

(f) Time of sale means the calendar date the retail purchaser removed the bird from the premises of the pet shop following the retail sale of that bird.

(g) Unweaned bird means any bird that requires hand-feeding or animal assistance to sustain at least 90 percent of its own weight for at least two weeks.

(h) Vendor means any person or entity, including, but not limited to, a broker, agent, aviary, or breeder, who sells birds directly to the retail purchaser at a bird mart or at a swap meet as defined in Section 21661 of the Business and Professions Code.

(i) Weaned means a bird that does not require hand-feeding or animal assistance to sustain at least 90 percent of its own weight following the time of sale, notwithstanding any illness or injury.

(Added by Stats. 2003, Ch. 887, Sec. 1. Effective January 1, 2004. Section operative September 1, 2004, pursuant to Section 122324.)

122321.

(a) A pet shop with five or fewer employees may not possess an unweaned bird unless the pet shop employs at least one person per pet shop location who has completed the Pet Industry Joint Advisory Councilsavian certification program.

(b) A pet shop with six or more employees may not possess an unweaned bird unless the pet shop employs at least two people who have completed the Pet Industry Joint Advisory Councilsavian certification program.

(c) A pet shop may not sell a bird unless the bird is weaned.

(d) A vendor may not sell a bird at a swap meet or bird mart, unless the bird is weaned.

(e) At the time of sale, a pet shop location or vendor shall document the weight of any hand-fed bird under one year of age, and note the weight on the sales receipt.

(Added by Stats. 2003, Ch. 887, Sec. 1. Effective January 1, 2004. Section operative September 1, 2004, pursuant to Section 122324.)

122322.

(a) Any person violating any provision of this chapter shall be subject to a civil penalty of up to one thousand dollars ($1,000) per violation. The action may be prosecuted in the name of the people of the State of California by the district attorney for the county where the violation occurred in the appropriate court or by the city attorney in the city where the violation occurred.

(b) Nothing in this chapter limits or authorizes any act or omission that violates Section 597 of the Penal Code.

(c) Nothing in this chapter shall authorize the seizure of an unweaned bird by a peace officer, officer of a humane society, or officer of an animal shelter or animal regulation department of a public agency.

(Amended by Stats. 2019, Ch. 7, Sec. 17. (AB 1553) Effective January 1, 2020.)

122323.

This chapter does not apply to publicly operated animal shelters and humane societies.

(Amended by Stats. 2019, Ch. 331, Sec. 4. (SB 787) Effective January 1, 2020.)

122324.

This chapter shall become operative on September 1, 2004.

(Added by Stats. 2003, Ch. 887, Sec. 1. Effective January 1, 2004. Note: This section prescribes a delayed operative date (Sept. 1, 2004) for Chapter 6, commencing with Section 122320.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 7. Spay/Neuter and Breeding Programs for Animals [122330 - 122331]__

(Chapter 7 added by Stats. 2005, Ch. 668, Sec. 2.)

122330.

The Legislature finds and declares all of the following:

(a)Uncontrolled and irresponsible breeding of animals contributes to pet overpopulation, inhumane treatment of animals, mass euthanasia at local shelters, and escalating costs for animal care and control; this irresponsible breeding also contributes to the production of defective animals that present a public safety risk.

(b)Though no specific breed of dog is inherently dangerous or vicious, the growing pet overpopulation and lack of regulation of animal breeding practices necessitates a repeal of the ban on breed-specific solutions and a more immediate alternative to existing laws.

(c)It is therefore the intent of the Legislature in enacting this chapter to permit cities and counties to take appropriate action aimed at eliminating uncontrolled and irresponsible breeding of animals

(Added by Stats. 2005, Ch. 668, Sec. 2. Effective January 1, 2006.)

122331.

(a)Cities and counties may enact dog breed-specific ordinances pertaining only to mandatory spay or neuter programs and breeding requirements, provided that no specific dog breed, or mixed dog breed, shall be declared potentially dangerous or vicious under those ordinances.

(b)Jurisdictions that implement programs described in subdivision (a) shall measure the effect of those programs by compiling statistical information on dog bites. The information shall, at a minimum, identify dog bites by severity, the breed of the dog involved, whether the dog was altered, and whether the breed of

dog was subject to a program established pursuant to subdivision (a). These statistics shall be submitted quarterly to the State Public Health Veterinarian.

(Added by Stats. 2005, Ch. 668, Sec. 2. Effective January 1, 2006.)

Codes Display Text

122335.

(a)For purposes of this chapter, the following terms shall have the following definitions:

(1)Animal control means the municipal or county animal control agency or any other entity responsible for enforcing animal-related laws.

(2)Agricultural operation means an activity that is necessary for the commercial growing and harvesting of crops or the raising of livestock or poultry.

(3)Person means any individual, partnership, corporation, organization, trade or professional association, firm, limited liability company, joint venture, association, trust, estate, or any other legal entity, and any officer, member, shareholder, director, employee, agent, or representative thereof.

(4)Reasonable period means a period of time not to exceed three hours in a 24-hour period, or a time that is otherwise approved by animal control.

(b)No person shall tether, fasten, chain, tie, or restrain a dog, or cause a dog to be tethered, fastened, chained, tied, or restrained, to a dog house, tree, fence, or any other stationary object.

(c)Notwithstanding subdivision (b), a person may do any of the following in accordance with Section 597t of the Penal Code:

(1)Attach a dog to a running line, pulley, or trolley system. A dog shall not be tethered to the running line, pulley, or trolley system by means of a choke collar or pinch collar.

(2)Tether, fasten, chain, tie, or otherwise restrain a dog pursuant to the requirements of a camping or recreational area.

(3)Tether, fasten, chain, or tie a dog no longer than is necessary for the person to complete a temporary task that requires the dog to be restrained for a reasonable period.

(4)Tether, fasten, chain, or tie a dog while engaged in, or actively training for, an activity that is conducted pursuant to a valid license issued by the State of California if the activity for which the license is issued is associated with the use or presence of a dog. Nothing in this paragraph shall be construed to prohibit a person from restraining a dog while participating in activities or using accommodations that are reasonably associated with the licensed activity.

(5)Tether, fasten, chain, or tie a dog while actively engaged in any of the following:

(A)Conduct that is directly related to the business of shepherding or herding cattle or livestock.

(B)Conduct that is directly related to the business of cultivating agricultural products, if the restraint is reasonably necessary for the safety of the dog.

(d)A person who violates this chapter is guilty of an infraction or a misdemeanor.

(1)An infraction under this chapter is punishable upon conviction by a fine of up to two hundred fifty dollars ($250) as to each dog with respect to which a violation occurs.

(2)A misdemeanor under this chapter is punishable upon conviction by a fine of up to one thousand dollars ($1,000) as to each dog with respect to which a violation occurs, or imprisonment in a county jail for not more than six months, or both.

(3)Notwithstanding subdivision (d), animal control may issue a correction warning to a person who violates this chapter, requiring the owner to correct the violation, in lieu of an infraction or misdemeanor, unless the violation endangers the health or safety of the animal, the animal has been wounded as a result of the violation, or a correction warning has previously been issued to the individual.

(e)Nothing in this chapter shall be construed to prohibit a person from walking a dog with a hand-held leash.

(Added by Stats. 2006, Ch. 489, Sec. 1. Effective January 1, 2007.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 9. Pet Store Animal Care [122350 - 122361]__

(Chapter 9 added by Stats. 2007, Ch. 703, Sec. 3.)

122350.

As used in this act, the following definitions apply:

(a)Adequate space means sufficient height and sufficient floorspace for the animals to stand up, sit down, turn about freely using normal body movements without the head touching the top of the primary enclosure, lie down with limbs outstretched, exercise normal postural movement, move about freely as appropriate for the species, age, size, and condition of the animal, and, when appropriate, to experience socialization with other animals, if any, in the primary enclosure. However, when freedom of movement would endanger the animal, temporarily and appropriately restricting movement of the animal in a humane manner is permitted.

(b)Animal means any nonhuman vertebrate species housed, offered for sale or adoption, or both, in the pet store, including, but not limited to, mammals, birds, reptiles, amphibians, fish, and also invertebrates housed, sold, or adopted as pets.

(c)Disposition means the transfer of an animal from a pet store to another location, including the sale or adoption of the animal, the return of the animal to the person who supplied the animal to the pet store, or removal from the pet store of an animal that is deceased for any reason, including euthanasia.

(d)Enrichment means providing objects or activities, appropriate to the needs of the species, as well as the age, size, and condition of the animal, that stimulate the animal and promote the animalswell-being.

(e)Euthanasia or euthanize means the humane destruction of an animal in compliance with the requirements set forth in paragraph (5) of subdivision (b) of Section 122354.

(f)Impervious to moisture means a surface that prevents the absorption of fluids and that can be thoroughly and repeatedly sanitized, will not retain odors, and from which fluids bead up and run off or can be removed without being absorbed into the surface material.

(g)Intact means an animal that retains its sexual organs or ability to procreate and has not been sterilized.

(h)Person means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity.

(i)Pet store means a retail establishment open to the public and selling or offering for sale animals, including, but not limited to, animals for use as pets or animals intended as food for other animals. Pet store does not include a retail establishment open to the public and selling or offering for sale animals to agricultural operations for purposes that are directly related to the raising of livestock or poultry on a farm or ranch. A person who sells, exchanges, or otherwise transfers only animals that were bred or raised, or both, by the person, or sells or otherwise transfers only animals kept primarily for reproduction, shall be considered a breeder and not a pet store.

(j)Pet store operator or operator means a person who owns or operates a pet store, or both.

(k)Primary enclosure means a structure used to immediately restrict an animal or animals to a limited

amount of space, such as a room, pen, cage, aquarium, terrarium, habitat compartment, or hutch, where the animal or animals reside until their sale, transfer, or other disposition.

(l)Rodent means an animal of the order Rodentia, such as a guinea pig, rat, mouse, chinchilla, or hamster.

(m)Sanitize means to make physically clean and to destroy, to the extent practical, agents injurious to health.

(n)Temporary enclosure means a confined space used by the pet store to house an animal when the animal is not in its primary enclosure for a period not to exceed four consecutive hours. The temporary enclosure shall allow the animals to stand up, lie down, and turn around. An enclosure used by the pet store to house an animal for longer than four consecutive hours shall meet the requirements of a primary enclosure.

(o)Time of sale means the calendar date the retail purchaser removes the animal from the premises of the pet store following the retail sale of that animal.

(p)Transfer means the release of an animal by its owner to another person by sale, gift, adoption, or other disposition, including the exchange of animals between pet stores.

(q)Veterinary treatment means treatment by or at the direction of a California-licensed veterinarian.

(Amended by Stats. 2009, Ch. 446, Sec. 1. (AB 490) Effective January 1, 2010.)

122351.

Each pet store operator shall be responsible for all of the following:

(a)Maintaining the entire pet store facility in good repair.

(b)Restricting the entry of pests from outside, ensuring the containment of animals within the pet store, and, in the event that animals escape, being responsible for reporting this fact, as necessary, to local authorities and making reasonable efforts to capture the animals that have escaped.

(c)Ensuring that the pet storesinterior building surfaces, including walls and floors, are constructed in a manner that permits them to be readily cleaned and maintained.

(d)Uniformly distributing light, by natural or artificial means, in a manner that permits routine inspection and cleaning, and the proper care and maintenance of the animals.

(e)When dog or cat grooming services are offered by a pet store, separating the grooming work area from the storesprimary animal enclosures, animal food storage areas, and isolation areas for housing sick animals. The grooming area shall be cleaned and maintained at least once daily.

(f) With respect to dogs, complying with all of the requirements of Section 122155. Sections 122356 and 122358 do not apply to a violation of Section 122155.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Section operative January 1, 2009, pursuant to Section 122361.)

122352.

(a)Primary enclosures shall comply with all of the following structural standards:

(1)Primary and temporary enclosures shall be structurally sound and maintained in good repair to protect the animals from injury, to contain the animals, to keep other animals out, and to promote the health and well-being of the enclosed animals. Primary enclosures shall be constructed so they can be routinely maintained to allow animals to stay clean.

(2)The floor of the primary enclosure shall be constructed to prevent injury. A solid surface, platform, or shelf shall be provided when a grid-flooring system is used.

(3)Primary enclosures shall be constructed of materials that are impervious to moisture and can be sanitized.

(4)All primary enclosures shall provide adequate space for the animal or animals housed in the enclosure.

(5)Each primary enclosure shall provide animals with an enrichment device or devices appropriate for the species, age, size, and condition of the animal.

(b)In addition to the requirements set forth in subdivision (a), primary enclosures for cats shall provide an elevated platform as appropriate for the size of the cat.

(c)In addition to the requirements set forth in subdivision (a), primary enclosures for birds shall be designed to ensure all of the following:

(1)A bird can fully extend both of its wings at the same time without contacting the sides of the enclosure.

(2)Perches are provided in a diameter that is appropriate for the species, age, size, and condition of the bird, and for the size of the enclosure.

(3)There is sufficient space to enable each bird to fully extend its wings in every direction while all birds are simultaneously perched.

(d)Primary enclosures for prey species shall be located where they cannot be directly seen by predator animals for that species.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Section operative January 1, 2009, pursuant to Section 122361.)

122353.

(a)When a primary or temporary enclosure is being cleaned in a manner, or with a substance, that is or may be harmful to the animals within the enclosure, those animals shall be removed from the enclosure.

(b)Primary enclosures shall be observed at least once daily, and animal and food wastes, used bedding, debris, and any other organic wastes shall be removed as necessary to prevent contamination of the animals and to reduce disease hazards and odors.

(c)Pest control measures shall be implemented to effectively control infestation of vermin, insects, or other pests.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Section operative January 1, 2009, pursuant to Section 122361.)

122354.

(a)The pet store operator or at least one of his or her employees shall be present in the store at least once daily, regardless of whether the store is open, for care and maintenance of the animals in the pet store.

(b)A pet store operator shall comply with the following animal care requirements:

(1)House only compatible animals in the same enclosure.

(2)Observe each animal at regular intervals, at least once a day, in order to recognize and evaluate general symptoms of sickness, injury, or abnormal behavior.

(3)Take reasonable measures to house intact mammals that have reached sexual maturity in a manner to prevent unplanned reproduction.

(4)(A)Maintain and abide by written animal husbandry procedures that address animal care, management and safe handling, disease prevention and control, routine care, preventative care, emergency care, veterinary treatment, euthanasia, and disaster planning, evacuation, and recovery that is applicable to the location of the pet store. These procedures shall be reviewed with employees who provide animal care and shall be present, in writing, either electronically or physically, in the store and made available to all store employees.

(B)Sections 122356 and 122358 do not apply to subparagraph (A) where there are other local, state, or federal laws that apply to those procedures.

(5)(A)If there is a determination that an animal may need to be euthanized, ensure that veterinary treatment is provided without delay.

(B)Notwithstanding subparagraph (A), a rodent or rabbit intended as food for another animal may be destroyed by a pet store operator or an employee of a pet store only if the animal is euthanized by a method that is performed in a humane manner, appropriate for the species, authorized by state law, and in compliance with the American Veterinary Medical Association (AVMA) Guidelines on Euthanasia, dated June 2007, published by the AVMA.

(C)The euthanasia performed pursuant to subparagraph (B) may be performed by a pet store operator or an employee of a pet store only if a California-licensed veterinarian has certified, in writing, that the pet store operator or employee is properly trained and proficient in performing the method of euthanasia on that particular species. The certification shall be valid for a period of not more than three years, and may be recertified for additional periods of three years. Each certification of a pet store operator or employee shall be retained by the pet store for three years, unless a longer period is otherwise required under state law. The certification shall be made available, upon request, to appropriate law enforcement officers exercising authority pursuant to Section 122356.

(D)It is the responsibility of the pet store operator to ensure that euthanasia is performed in compliance with this section.

(E)Subparagraphs (A) to (D), inclusive, shall be implemented in a manner consistent with California law and in accordance with Chapter 11 (commencing with Section 4800) of Division 2 of the Business and Professions Code.

(6)Isolate and not offer for sale those animals that have or are suspected of having a contagious condition. This paragraph shall not apply to those animals that are effectively isolated by their primary enclosure, including, but not limited to, fish, provided that a sign is posted on the enclosure that indicates that these animals are not for sale, or otherwise marked in a manner to prevent their sale to customers during their treatment for the contagious condition.

(7)Have a documented program of routine care, preventative care, emergency care, disease control and prevention, and veterinary treatment and euthanasia, as outlined in paragraph (5), that is established and maintained by the pet store in consultation with a licensed veterinarian employed by the pet store or a California-licensed veterinarian, to ensure adherence to the program with respect to each animal. The program shall also include a documented onsite visit to the pet store premises by a California-licensed veterinarian at least once a year.

(8)Ensure that each diseased, ill, or injured animal is evaluated and treated without delay. If necessary for the humane care and treatment of the animal, the animal shall be provided with veterinary treatment without delay.

(9)In the event of a natural disaster, an emergency evacuation, or other similar occurrence, the humane care and treatment of each animal is provided for, as required by this chapter, to the extent access to the animal is reasonably available.

(c)Subdivisions (a) and (b) shall be implemented to the extent consistent with California law.

(Amended by Stats. 2009, Ch. 446, Sec. 2. (AB 490) Effective January 1, 2010.)

122354.5.

(a)A pet store shall not adopt out, sell, or offer for sale a dog, cat, or rabbit. This section does not prevent a pet store from providing space to display animals for adoption in accordance with subdivision (b).

(b)(1)A pet store shall not provide space for the display of dogs, cats, or rabbits available for adoption unless the animals are displayed by either a public animal control agency or shelter, or animal rescue group.

(2)Any animal displayed for adoption shall be both sterilized and adoptable for total fees, including, but not limited to, adoption fees, not to exceed five hundred dollars ($500).

(3)The pet store displaying dogs, cats, or rabbits pursuant to paragraph (1) shall not receive any fees in connection with the display of dogs, cats, or rabbits.

(c)A public animal control agency or shelter, an animal rescue group displaying animals at a pet store, or an animal rescue group operating a retail establishment shall not offer dogs, cats, or rabbits for adoption unless

the animals are sterilized, the animals are adoptable for total fees, including, but not limited to, adoption fees, not to exceed five hundred dollars ($500), and the adoption fees are posted and visible to the public on or near the enclosures or areas where adoptable animals are displayed. An animal rescue group that displays animals at a pet store, but does not meet the criteria set forth in clauses (i) and (ii) of subparagraph (A) of paragraph (1) of subdivision (e) is also subject to the penalties described in this section.

(d)(1)Each violation of subdivision (a), (b), or (c) shall result in a single written notice to the pet store and any public animal control agency, shelter, or animal rescue group responsible for the animal that is the subject of the violation. The notice shall set forth in detail the specific violation, the name and location of the pet store, the name and location of, or other identifying information regarding, the public animal control agency, shelter, or animal rescue group responsible for the animal that is the subject of the violation, and any other information relevant to the violation. In addition, the notice shall include a direction to cease the specific activity found to be in violation of this section and state the time period during which the violation must be corrected.

(2)A failure to correct the violation described in the notice issued pursuant to paragraph (1) in the time period stated in the notice to correct shall be punished by a civil penalty of one thousand dollars ($1,000) for a first violation, two thousand five hundred dollars ($2,500) for a second violation, and five thousand dollars ($5,000) for subsequent violations as described in the notice. Each animal that is displayed, adopted, sold, or offered for sale or adoption in violation of subdivision (a), (b), or (c), as described in the notice, constitutes a separate violation.

(e)(1)For purposes of this section, the following definitions apply:

(A)An animal rescue group is any not-for-profit organization that has tax-exempt status under Section 501(c)(3) of the Internal Revenue Code, whose mission and practice is, in whole or significant part, the rescue and placement of animals into permanent homes, and that meets the following requirements:

(i)Does not breed animals.

(ii)Does not obtain animals in exchange for payment or compensation from any person that breeds or brokers animals.

(B)Public animal control agency or shelter is any facility operated by or under contract with any governmental entity for the purpose of impounding or harboring seized, stray, homeless, abandoned, or unwanted dogs, cats, rabbits, or other animals.

(2)For purposes of this section, pet store does not include an animal rescue group operating a retail establishment in compliance with subdivision (c).

(f)This section does not prohibit a local governing body from adopting requirements that are more protective of animal welfare than those set forth in this section.

(g)An action for a violation of this section may be brought in the name of the people of the State of California by the district attorney for the county where the violation occurred in the appropriate court or by the city attorney in the city where the violation occurred. In addition to any other remedy, the district attorney is authorized to apply to the court for, and that court shall have jurisdiction upon hearing and for cause shown to grant, a temporary or permanent injunction enjoining or restraining any person or entity from violating any provision of this section.

(Repealed and added by Stats. 2020, Ch. 96, Sec. 2. (AB 2152) Effective January 1, 2021.)

122355.

(a)Each pet store operator shall ensure that records of all veterinary visits to the pet store are documented in writing. Veterinary treatment records shall be kept for each animal or group of animals that receives medications or immunizations while in the care of the pet store. These records shall include summaries of direction received orally from veterinarians, and shall include all of the following, to the extent it is provided by the veterinarian:

(1)Identification of the animal or group of animals receiving medical treatment.

(2)Name of the medication or immunization used.

(3)Amount of medication used.

(4)Time and date on which the medication or immunization was administered.

(b)Records required by subdivision (a) shall be made available, upon request, to a person who purchases a cat or dog, or any individually housed animal.

(c)The pet store shall provide to the purchaser of an animal at the time of sale information concerning the storesanimal return policy, which shall be made available to customers either through in-store signs or handouts to customers. The pet store shall also provide to purchasers of cats, dogs, and all individually housed animals all of the following information:

(1)Spay or neuter procedures performed on the animal.

(2)Vaccinations, medical treatment, and veterinary treatment administered to the animal during its stay in the store.

(3)Any identification device on the animal.

(4)With respect to dogs and cats, all information required to be disclosed under Section 122140. Sections 122356 and 122358 do not apply to a violation of Section 122140.

(5)With respect to dogs, all information required to be disclosed under Sections 122190 and 122310. This information shall be contained in separate documents. Sections 122356 and 122358 do not apply to a violation of Section 122190 or 122310.

(6)With respect to birds, all information required to be disclosed under Section 122321. Section 122356 and Section 122358 do not apply to a violation of Section 122321.

(d)Each pet store operator shall maintain records for identification purposes of the person from whom the animals in the pet store were acquired, including that personsname, address, and telephone number, and the date the animal was acquired.

(e)All records required by this section shall be maintained by the pet store for two years from the date of disposition of the animal, and shall be made available upon request to appropriate enforcement officers exercising authority pursuant to Section 122356.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Section operative January 1, 2009, pursuant to Section 122361.)

122356.

(a)An animal control officer, as defined in Section 830.9 of the Penal Code, a humane officer qualified pursuant to Section 14502 or 14503 of the Corporations Code, or a peace officer who detects a violation of Section 122351, subdivision (b) or (c) of Section 122353, paragraphs (3) or (4) of subdivision (b) of Section 122354, or Section 122355 shall issue a single notice to correct, which shall contain all of the following information:

(1)Specify each violation of this chapter found in the inspection.

(2)Identify the corrective action for each violation.

(3)Include a specific period of time during which the listed violation or violations must be corrected.

(b)After issuing a notice to correct pursuant to this section, the officer or another qualified officer of the issuing agency shall verify compliance with this chapter by conducting a subsequent investigation of the pet store in violation of this chapter within a reasonable period of time.

(c)An exact, legible copy of the notice to correct shall be delivered to the pet store operator at the time he or she signs the notice. In the alternative, the issuing agency may personally deliver the notice to the pet store operator within 48 hours of its issuance, excluding holidays and weekends. The signing of the notice is an acknowledgment of receipt, and does not constitute an admission of guilt.

(d)A pet store operator who fails to comply with a notice to correct is guilty of an infraction.

(e)A pet store operator who violates the same provision of this chapter on more than one occasion within a 12-month period, at the same location, is not eligible to receive a notice to correct, and is guilty of an infraction on the second violation, and is guilty of a misdemeanor on the third or subsequent violation.

(f)Notwithstanding subdivision (a), a pet store operator is guilty of a misdemeanor if the pet store operator violates any provision listed in subdivision (a), and by doing so, the pet store operator causes or allows harm or injury to an animal, or allows an animal to be subject to an unreasonable risk of harm or injury.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Section operative January 1, 2009, pursuant to Section 122361.)

122357.

A pet store operator who violates any provision of this chapter that is not specified in subdivision (a) of Section 122356 and is not proscribed by Section 122354.5 is guilty of a misdemeanor.

(Amended by Stats. 2017, Ch. 740, Sec. 3. (AB 485) Effective January 1, 2018.)

122358.

An infraction is punishable by a fine not to exceed two hundred fifty dollars ($250) per violation. A misdemeanor is punishable by a fine not to exceed one thousand dollars ($1,000) per violation. The court shall weigh the gravity of the offense in setting the penalty.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Section operative January 1, 2009, pursuant to Section 122361.)

122359.

(a)Except as otherwise provided in Section 599 of the Penal Code, a pet store shall not offer any live animal as a prize or give away any animal as an inducement to enter any contest, game, or other competition.

(b)Except as otherwise provided in Section 597z of the Penal Code, a pet store shall not sell, offer for sale, trade, or barter any dog or cat that is under eight weeks of age. Except as otherwise provided in any other provision of law, dogs or cats over eight weeks of age may be sold, offered for sale, traded, or bartered only if the animal is weaned. Pet stores shall not sell any animal before it is weaned, except for animals intended to be used as food for other animals.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Section operative January 1, 2009, pursuant to Section 122361.)

122360.

(a)Nothing in this chapter shall be construed to in any way limit or affect the application or enforcement of any other law that protects animals or the rights of consumers, including, but not limited to, the Lockyer-Polanco-Farr Pet Protection Act contained in Article 2 (commencing with Section 122125) of Chapter 5 of Part 6 of Division 105, or Sections 597 and 5971 of the Penal Code.

(b)Nothing in this chapter limits or authorizes any act or omission that violates Section 597 or 5971 of the Penal Code, or any other local, state, or federal law. The procedures set forth in this chapter shall not apply to any civil violation of any other local, state, or federal law that protects animals or the rights of consumers, or to a violation of Section 597 or 5971 of the Penal Code, which is cited or prosecuted pursuant to one or both of those sections, or to a violation of any other local, state, or federal law that is cited or prosecuted pursuant to that law.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Section operative January 1, 2009, pursuant to Section 122361.)

122361.

This chapter shall become operative on January 1, 2009.

(Added by Stats. 2007, Ch. 703, Sec. 3. Effective January 1, 2008. Note: This section prescribes a delayed operative date (Jan. 1, 2009) for Chapter 9, commencing with Section 122350.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 10. Sale of Animals at Swap Meets [122370 - 122374]__

(Chapter 10 added by Stats. 2013, Ch. 231, Sec. 1.)

122370.

A swap meet operator may permit a vendor to offer animals for sale at a swap meet provided the local jurisdiction has adopted standards for the care and treatment of those animals during the time that the animals are present at the swap meet and transported to and from the swap meet. This chapter does not apply to the sale of a particular species of animal if a local jurisdiction has adopted a local ordinance prior to January 1, 2013, that applies specifically to the sale of that particular species of animal at swap meets.

(Added by Stats. 2013, Ch. 231, Sec. 1. (AB 339) Effective January 1, 2014. Section operative January 1, 2016, pursuant to Section 122374.)

122371.

Any ordinance adopted pursuant to Section 122370 shall, at a minimum, require the swap meet vendor to do

all of the following:

(a)Maintain the facilities used for the keeping of animals in a sanitary condition.

(b)Provide proper heating and ventilation for the facilities used for the keeping of animals.

(c)Provide adequate nutrition for, and humane care and treatment of, all animals that are under his or her care and control.

(d)Take reasonable care to release for sale, trade, or adoption only those animals that are free of disease or injuries.

(e)Provide adequate space appropriate to the size, weight, and species of animals.

(f)Have a documented program of routine care, preventative care, emergency care, disease control and prevention, and veterinary treatment and euthanasia that is established and maintained by the vendor in consultation with a licensed veterinarian employed by the vendor or a California-licensed veterinarian, to ensure adherence to the program with respect to each animal. The program shall also include a documented onsite visit to the swap meet premises by a California-licensed veterinarian at least once a year.

(g)Provide buyers of an animal with general written recommendations for the generally accepted care of the type of animal sold, including recommendations as to the housing, equipment, cleaning, environment, and feeding of the animal. This written information shall be in a form determined by the vendor and may include references to Internet Web sites, books, pamphlets, videos, and compact discs.

(h)Present for inspection and display a current business license issued by the local jurisdiction where the animals are principally housed.

(i)Maintain records for identification purposes of the person from whom the animals offered for sale were acquired, including that personsname, address, e-mail address, and telephone number and the date the animals were acquired.

(Added by Stats. 2013, Ch. 231, Sec. 1. (AB 339) Effective January 1, 2014. Section operative January 1, 2016, pursuant to Section 122374.)

122372.

(a)(1)A swap meet vendor who offers animals for sale at a swap meet in a local jurisdiction that has not adopted an ordinance authorizing that sale, is guilty of an infraction punishable by a fine not to exceed one hundred dollars ($100).

(2)A swap meet vendor who violates paragraph (1) for a second or subsequent time, is guilty of an infraction punishable by a fine not to exceed five hundred dollars ($500) per violation. The court shall weigh the gravity of the violation in setting the amount of the fine.

(3)Nothing in paragraph (2) shall preclude punishment under any other provision of law, including, but not limited to, laws prohibiting the abuse or neglect of animals in the Health and Safety Code or the Penal Code.

(b)A notice describing the charge and the penalty for a violation of this section may be issued by any peace

officer, animal control officer, as defined in Section 830.9, or humane officer qualified pursuant to Section 14502 or 14503 of the Corporations Code.

(Added by Stats. 2013, Ch. 231, Sec. 1. (AB 339) Effective January 1, 2014. Section operative January 1, 2016, pursuant to Section 122374.)

122373.

This chapter shall not apply to the following:

(a)Events held by 4-H Clubs, Junior Farmers Clubs, or Future Farmers Clubs.

(b)The California Exposition and State Fair, district agricultural association fairs, or county fairs.

(c)Stockyards with respect to which the Secretary of the United States Department of Agriculture has posted notice that the stockyards are regulated by the federal Packers and Stockyards Act of 1921 (7 U.S.C. Sec. 181 et seq.).

(d)The sale of cattle on consignment at any public cattle sales market, the sale of sheep on consignment at any public sheep sales market, the sale of swine on consignment at any public swine sales market, the sale of goats on consignment at any public goat sales market, and the sale of equines on consignment at any public equine sales market.

(e)Live animal markets regulated under Section 597.3 of the Penal Code.

(f)A public animal control agency or shelter, society for the prevention of cruelty to animals shelter, humane society shelter, or rescue group regulated under Division 14 (commencing with Section 30501) of the Food and Agricultural Code. For purposes of this section, rescue group is a not-for-profit entity whose primary purpose is the placement of dogs, cats, or other animals that have been removed from a public animal control agency or shelter, society for the prevention of cruelty to animals shelter, or humane society shelter, or that have been surrendered or relinquished to the entity by the previous owner.

(g)The sale of fish or shellfish, live or dead, from a fishing vessel or registered aquaculture facility, at a pier or wharf, or at a farmersmarket by any licensed commercial fisherman or an owner or employee of a registered aquaculture facility to the public for human consumption.

(h)A cat show, dog show, or bird show, provided that all of the following circumstances exist:

(1)The show is validly permitted by the city or county in which the show is held.

(2)The showssponsor or permittee ensures compliance with all federal, state, and local animal welfare and animal control laws.

(3)The participant has written documentation of the payment of a fee for the entry of his or her cat, dog, or bird in the show.

(4)The sale of a cat, dog, or bird occurs only on the premises and within the confines of the show.

(5)The show is a competitive event where the cats, dogs, or birds are exhibited and judged by an established

standard or set of ideals established for each breed or species.

(i)A pet store as defined in subdivision (i) of Section 122350.

(j)Any reptile or aquatic trade show, provided all of the following circumstances exist:

(1)The show is validly permitted by the city or county in which the show is held.

(2)The showssponsor or permittee ensures compliance with all federal, state, and local animal welfare and animal control laws.

(Added by Stats. 2013, Ch. 231, Sec. 1. (AB 339) Effective January 1, 2014. Section operative January 1, 2016, pursuant to Section 122374.)

122374.

This chapter shall become operative on January 1, 2016.

(Added by Stats. 2013, Ch. 231, Sec. 1. (AB 339) Effective January 1, 2014. Note: This section prescribes a delayed operative date (Jan. 1, 2016) for Chapter 10, commencing with Section 122370.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 6. VETERINARY PUBLIC HEALTH AND SAFETY [121575 - 122395.2]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 7.)

__CHAPTER 11. Pet Boarding Facilities [122380 - 122388]__

(Chapter 11 added by Stats. 2016, Ch. 364, Sec. 1.)

122380.

As used in this chapter, the following definitions apply:

(a)Enrichment means providing objects or activities, appropriate to the needs of the species, as well as the age, size, and condition of the pet, that stimulate the pet and promote the petswell-being.

(b)Permanent or fixed enclosure means a structure, including, but not limited to, an exercise run, kennel, or room, used to restrict a pet, that provides for the effective separation of a pet from the petswaste products.

(c)Person means an individual, partnership, firm, limited liability company, joint-stock company, corporation, association, trust, estate, or other legal entity.

(d)Pet means any nonhuman animal housed in the pet boarding facility, including, but not limited to, mammals, birds, reptiles, and amphibians. However, pet does not include a horse.

(e)Pet boarding facility means any lot, building, structure, enclosure, or premises, or a portion thereof, whereupon four or more dogs, cats, or other pets in any combination are boarded at the request of, and in exchange for compensation provided by, their owner. However, pet boarding facility does not include a city, county, or city and county animal control agency, society for the prevention of cruelty to animals, or humane society that contracts for the care of stray or abandoned animals, or the premises of a veterinary facility that is registered pursuant to Section 4853 of the Business and Professions Code.

(f)Pet boarding facility operator or operator means a person who owns or operates, or both, a pet boarding facility.

(g)Temporary enclosure means a structure used to restrict a pet, including, but not limited to, a crate or cage, that does not provide for the effective separation of a pet from the petswaste products.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

122381.

Each pet boarding facility operator shall be responsible for all of the following:

(a)Ensuring that the entire pet boarding facility, including all equipment therein, is structurally sound and maintained in good repair.

(b)Ensuring that pests do not inhabit any part of the pet boarding facility in a number large enough to be harmful, threatening, or annoying to the pets.

(c)Ensuring the containment of pets within the pet boarding facility, and, in the event that a pet escapes, making reasonable efforts to immediately capture the escaped pet.

(d)If an escaped pet has not been captured despite reasonable efforts, ensuring that all material facts regarding the petsescape are reported to the local agency for animal control and to the owner.

(e)Ensuring that the pet boarding facilitysinterior building surfaces, including walls and floors, are constructed in a manner that permits them to be readily cleaned and sanitized.

(f)Ensuring that light, by natural or artificial means, is distributed in a manner that permits routine inspection and cleaning, and the proper care and maintenance of the pets.

(g)If pet grooming services are offered by a pet boarding facility, separating the grooming work area from the pet boarding facilityspermanent or fixed and temporary enclosures and ensuring that the grooming areas are cleaned and sanitized at least once daily.

(h)Storing food in an area separate from permanent or fixed enclosures or temporary enclosures.

(i)Maintaining an area for isolating sick pets from healthy pets.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

122382.

(a)Each permanent or fixed and temporary enclosure shall comply with all of the following standards:

(1)Be structurally sound and maintained in good repair to protect the enclosed pet from injury, to contain the pet, to keep other animals out, and to promote the health and well-being of the pet.

(2)Be maintained in a comfortable and sanitary manner. When being cleaned in a manner or with a substance that is or may be harmful to a pet within the enclosure, that pet shall be removed from the enclosure.

(3)Be constructed of material suitable for regular cleaning and sanitizing.

(4)As needed to ensure the comfort and well-being of the pet, provide heating, cooling, lighting, ventilation, shade, and protection from the elements, including, but not limited to, the sun, wind, rain, and snow.

(5)Allow a pet to turn around freely, stand easily, and sit or lie down in a comfortable position.

(b)Each enclosure is either a permanent or fixed enclosure or a temporary enclosure.

(c)In addition to the requirements set forth in subdivision (a), a permanent or fixed enclosure for a cat shall provide an elevated platform appropriate for the size of the cat.

(d)A pet may be contained in a temporary enclosure for a period not to exceed 4 hours during the day and 12 hours at night or the length of time that is humane for that particular pet, whichever is less. However, the pet shall remain outside the temporary enclosure for no less than the amount of time needed for the pet to eliminate its waste.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

122383.

A pet boarding facility operator shall comply with all of the following animal care requirements:

(a)House only one pet at a time in an enclosure unless otherwise consented to by the owner.

(b)Observe each pet as necessary, but no less than once every 24 hours, in order to recognize the signs of sickness, injury, or distress, and in order to ensure that the pet, food, and waste or debris is removed as necessary to prevent contamination or injury.

(c)Provide each pet with easy and convenient access to potable water at all times, or if the behavior of the pet makes unrestricted access to water impracticable, offer water as often as necessary to ensure the petshealth and well-being. However, water may be restricted as directed by the owner or a licensed veterinarian.

(d)Provide each pet with nutritious food in quantities and at intervals suitable for that pet.

(e)Provide each pet daily with enrichment sufficient to maintain the behavioral health of the pet.

(f)Maintain and abide by written policies and procedures that address animal care, management and safe handling, disease prevention and control, routine care, preventive care, emergency care, veterinary treatment, and disaster planning, evacuation, and recovery that are applicable to the location of the pet boarding facility. These procedures shall be reviewed with each employee who provides animal care and shall be present, in writing, either electronically or physically, in the facility and made available to all employees.

(g)Isolate those pets that have or are suspected of having a contagious condition.

(h)Ensure that each sick or injured pet is immediately provided with appropriate care and, if prudent, veterinary treatment.

(i)Ensure that the owner of a pet is notified immediately that his or her pet is sick or injured unless the owner has indicated in writing that notification of any, or a particular, type of illness or injury is not required.

(j)In the event of a natural disaster, an emergency evacuation, or other similar occurrence, ensure that the humane care and treatment of each animal is provided for, as required by this chapter, to the extent access to the pet is reasonably available.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

122384.

(a)A pet boarding facility operator shall provide each owner with written information describing all of the following:

(1)Days and times during which the pet boarding facility permits pets to be dropped off and picked up.

(2)Days and times during which personnel are onsite.

(3)The square footage of the permanent or fixed and temporary enclosures in which the species of pet that

the owner is boarding is customarily contained.

(4)General observation practices during each 24-hour period for the species of pet that the owner is boarding is customarily observed by personnel.

(5)The pet boarding facilityscustomary daily activity schedule for the species of pet that the owner is boarding.

(b)If the pet boarding facility will materially deviate from the customary practices described in the written information required by subdivision (a) with respect to an ownerspet, the pet boarding facility operator shall disclose those deviations to the owner or patron, as appropriate.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

122385.

A pet boarding facility shall maintain either of the following:

(a)A fire alarm system that is connected to a central reporting station that alerts the local fire department in case of fire.

(b)A fire suppression sprinkler system.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

122386.

(a)An animal control officer, as defined in Section 830.9 of the Penal Code, a humane officer qualified pursuant to Section 14502 or 14503 of the Corporations Code, or a peace officer who detects a violation of Sections 122380 to 122385, inclusive, if he or she decides the violation warrants formal action, shall issue a single notice to correct that shall contain all of the following information:

(1)Specify each violation of this chapter found in the inspection.

(2)Identify the corrective action for each violation.

(3)Include a specific period of time during which the listed violation or violations are to be corrected.

(b)After issuing a notice to correct pursuant to this section, the officer or another qualified officer of the issuing agency shall verify compliance with this chapter by conducting a subsequent investigation of the pet boarding facility within a reasonable period of time.

(c)An exact, legible copy of the notice to correct shall be delivered to the pet boarding facility operator at the time he or she signs the notice. In the alternative, the issuing agency may personally deliver the notice to the operator within 48 hours of its issuance, excluding holidays and weekends. The signing of the notice is an acknowledgment of receipt and does not constitute an admission of guilt.

(d)A pet boarding facility operator who is verified to have complied with a notice to correct shall not be subject to subdivision (g).

(e)A pet boarding facility operator who violates the same provision of this chapter on more than one occasion within a five-year period is not eligible to receive a notice to correct, and is guilty of an infraction on the second violation, and is guilty of a misdemeanor on the third or subsequent violation.

(f)Notwithstanding subdivision (a), a pet boarding facility operator that causes or allows harm or injury to an animal, or allows an animal to be subject to an unreasonable risk of harm or injury is guilty of a misdemeanor.

(g)Except as provided in subdivisions (e) and (f), a pet boarding facility operator who violates any provision of this chapter is guilty of an infraction punishable by a fine not to exceed two hundred fifty dollars ($250) for the first violation and by a fine not to exceed one thousand dollars ($1,000) for each subsequent violation. The court shall weigh the gravity of the offense in setting the penalty.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

122387.

(a)Nothing in this chapter shall be construed to in any way limit or affect the application or enforcement of any other law that protects animals or the rights of consumers, including, but not limited to, Section 597 of the Penal Code.

(b)Nothing in this chapter limits, or authorizes any act or omission that violates, Section 597 of the Penal Code, or any other local, state, or federal law that protects animals or the rights of consumers.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

122388.

Pursuant to Section 7 of Article XI of the California Constitution, a city, county, or city and county may adopt ordinances that establish additional standards and requirements for a pet boarding facility.

(Added by Stats. 2016, Ch. 364, Sec. 1. (SB 945) Effective January 1, 2017.)

(Chapter 12 added by Stats. 2022, Ch. 80, Sec. 2.)

122390.

This chapter shall be known, and may be cited, as the Safe Transportation of Dogs and Cats Act.

(Added by Stats. 2022, Ch. 80, Sec. 2. (AB 1781) Effective January 1, 2023.)

122390.1.

For purposes of this chapter, mobile or traveling housing facility means a transporting vehicle, including, but not limited to, a car, truck, trailer, bus, or recreational vehicle used to transport animals by an entity described in Section 122390.3.

(Added by Stats. 2022, Ch. 80, Sec. 2. (AB 1781) Effective January 1, 2023.)

122390.2.

The conditions in a mobile or traveling housing facility for dogs and cats shall not endanger the health or well-being of an animal due to heat, cold, lack of adequate ventilation, lack of food or water, or other circumstances that could reasonably be expected to cause suffering, disability, or death to the animal.

(Added by Stats. 2022, Ch. 80, Sec. 2. (AB 1781) Effective January 1, 2023.)

122390.3.

This chapter applies to any public animal control agency or shelter, society for the prevention of cruelty to

animals shelter, humane society shelter, or rescue group that is in a cooperative agreement with at least one private or public shelter pursuant to Section 31108, 31752, or 31753 of the Food and Agricultural Code.

(Added by Stats. 2022, Ch. 80, Sec. 2. (AB 1781) Effective January 1, 2023.)

__CHAPTER 12.5. Dog Training [122395 - 122395.2]__

(Chapter 12.5 added by Stats. 2022, Ch. 276, Sec. 1.)

122395.

This chapter shall be known, and may be cited, as the Dog Trainer Sufficiency Act.

(Added by Stats. 2022, Ch. 276, Sec. 1. (AB 1901) Effective January 1, 2023.)

122395.1.

The following definitions apply for purposes of this chapter:

(a)Dog trainer or trainer means a person, firm, partnership, corporation, or other association that sells, offers, or provides dog training services on the premises of the person, firm, partnership, corporation, or other association, or from any other location, but does not include a person as defined in subdivision (a) of

Section 7201 of the Business and Professions Code.

(b)Dog training means the training or behavior modification of dogs or serving as a dog behavior consultant, when performed for a fee, salary, or other form of compensation.

(c)Person means an individual, partnership, firm, limited liability company, joint stock company, corporation, association, trust, estate, or other legal entity.

(d)Purchaser means any person who purchases dog training services.

(Added by Stats. 2022, Ch. 276, Sec. 1. (AB 1901) Effective January 1, 2023.)

122395.2.

(a)A dog trainer shall deliver to a purchaser of dog training services at the time of purchase of the dog training services, a written disclosure containing all of the following:

(1)The trainersname and address.

(2)Any civil judgments related to the dog trainersservices, or a statement that no judgments exist.

(3)Any criminal animal cruelty convictions against the dog trainer or an employee of a dog trainer that will be providing the dog training services to the purchaser, or a statement that no convictions exist.

(b)The written disclosure made pursuant to this section shall be signed by the trainer certifying the accuracy of the statement, and by the purchaser of the training services acknowledging receipt of the statement.

(c)A person may bring a civil action in a court of competent jurisdiction for damages arising from a violation of this section.

(Added by Stats. 2022, Ch. 276, Sec. 1. (AB 1901) Effective January 1, 2023.)

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 7. HEPATITIS C [122400 - 122445]__

(Part 7 added by Stats. 1998, Ch. 867, Sec. 1.)

__CHAPTER 1. General Provisions [122400 - 122445]__

(Chapter 1 added by Stats. 1998, Ch. 867, Sec. 1.)

122400.

This chapter shall be known, and may be cited, as the Hepatitis C Education, Screening, and Treatment Act.

(Added by Stats. 1998, Ch. 867, Sec. 1. Effective January 1, 1999.)

122405.

The Legislature hereby finds and declares all of the following:

(a) Hepatitis C is classified as a silent killer, where no recognizable signs or symptoms occur until severe liver damage has occurred.

(b) Hepatitis C has been characterized by the World Health Organization as a disease of primary concern to humanity.

(c) Studies indicate that 1.8 percent of the population, nearly 4 million Americans, carry the virus HCV that causes hepatitis C. In California, as many as 500,000 individuals may be carriers and could develop the debilitating and potentially deadly liver disease associated with hepatitis C in their lifetime. An expert panel, convened in March by the National Institutes of Health (NIH), estimated that 30,000 acute new infections occur each year in the United States, and only 25 to 30 percent of those are diagnosed. Current data sources indicate that 8,000 to 10,000 Americans die from hepatitis C each year.

(d) Studies also indicate that 39.4 percent of male inmates and 54.5 percent of female inmates in California correctional facilities have hepatitis C, 26 times higher than the general population. Upon their release from prison, these inmates present a significant health risk to the general population of California.

(e) It is the intent of the Legislature to study the adequacy of the health care delivery system as it pertains to hepatitis C.

(f) It is the intent of the Legislature to urge the department to make funds available to community-based nonprofit organizations for education and outreach with respect to the hepatitis C virus.

(Amended by Stats. 2000, Ch. 754, Sec. 1. Effective January 1, 2001.)

122406.

The Secretary of Veterans Affairs shall report to the Legislature on or before March 1, 2001, regarding the use of funds earmarked by the federal VeteransAdministration to regional offices in California to educate, screen, and treat veterans with the hepatitis C virus.

(Added by Stats. 2000, Ch. 754, Sec. 2. Effective January 1, 2001.)

122410.

(a) The State Department of Health Services shall make available protocols and guidelines developed by the National Institutes of Health, the University of California at San Francisco, and California legislative advisory committees on hepatitis C for educating physicians and health professionals and training community service providers on the most recent scientific and medical information on hepatitis C detection, transmission, diagnosis, treatment, and therapeutic decisionmaking.

(b) The guidelines referenced in subdivision (a) may include, but not be limited to, all of the following:

(1) Tracking and reporting of both acute and chronic cases of hepatitis C by public health officials.

(2) A cost-efficient plan to screen the prison population and the medically indigent population in California.

(3) Protocols within the Department of Corrections to enable that department to provide appropriate prevention and treatment to prisoners with hepatitis C.

(4) Protocols for the education of correctional peace officers and other correctional workers who work with prisoners with hepatitis C.

(5) Protocols for public safety and health care workers who come in contact with hepatitis C patients.

(6) Surveillance programs to determine the prevalence of hepatitis C in ethnic and other high-risk populations.

(7) Education and outreach programs for high-risk individuals, including, but not limited to, individuals who received blood transfusions prior to 1992, hemophiliacs, veterans, women who underwent a caesarian

section or premature delivery prior to 1990, persons who received an organ transplant prior to 1990, persons who receive invasive cosmetic procedures, including body piercing and tattooing, students, minority communities, and any other categories of persons at high risk for hepatitis C infection as determined by the director. Education and outreach programs shall be targeted to high-risk individuals as determined by the director. Education programs may provide information and referral on hepatitis C including, but not limited to, education materials developed by health-related companies, community-based or national advocacy organizations, counseling, patient support groups, and existing hotlines for consumers.

(c) Nothing in this section shall be construed to require the department to develop or produce any protocol, guideline, or proposal.

(Amended by Stats. 2000, Ch. 754, Sec. 3. Effective January 1, 2001.)

122415.

(a) The Director of Corrections shall do all of the following:

(1) Provide the budget subcommittees of the Legislature, on or before March 1, 2002, with an annual statistical report on the prevalence of the hepatitis C virus in correctional facilities and trends in the incidence and prevalence of the hepatitis C virus in the correctional system.

(2) Establish and make available a voluntary program to test inmates for the presence of the hepatitis C virus upon incarceration and in conjunction with any routine blood testing.

(3) Update treatment protocols and regimens as new therapies become available.

(b) This section shall be implemented only to the extent funds for this purpose have been appropriated in the annual Budget Act.

(Added by Stats. 2000, Ch. 754, Sec. 4. Effective January 1, 2001.)

122420.

The Director of Health Services shall do all of the following:

(a) Develop and implement a public education and outreach program to raise awareness of the hepatitis C virus aimed at high-risk groups, physiciansoffices, health care workers, and health care facilities. The program shall do all of the following:

(1) Attempt to coordinate with national public education efforts related to the identification and notification of recipients of blood from hepatitis C virus-positive donors.

(2) Attempt to stimulate interest and coordinate with community-based organizations to sponsor community forums and undertake other appropriate community outreach activities.

(3) Employ public communication strategies utilizing a variety of media that may include, but is not limited to, print, radio, television, and the Internet.

(b) Include information on co-infection of human immunodeficiency virus (HIV) or hemophilia with the hepatitis C virus in the professional training and all appropriate care and treatment programs under the jurisdiction of the department.

(c) Develop a program to work with the Department of Corrections to identify hepatitis C virus-positive inmates likely to be released within two years and provide counseling and treatment options to reduce the community risk.

(d) Urge local public health officials to make hepatitis C virus screening available for uninsured individuals upon request.

(e) Include hepatitis C counseling, education, and testing, as appropriate, into local state-funded programs including those addressing HIV, tuberculosis, sexually transmitted disease, and all other appropriate programs approved by the director.

(Added by Stats. 2000, Ch. 754, Sec. 5. Effective January 1, 2001.)

122425.

There is hereby established a three-year Hepatitis C Linkage to Care demonstration pilot project to allow for innovative, evidence-based approaches to provide outreach, hepatitis C screening, and linkage to, and retention in, quality health care for the most vulnerable and underserved individuals living with, or at high risk for, hepatitis C viral infection (HCV). This demonstration pilot project is authorized for fiscal years 2015“16, 2016“17, and 2017“18.

(Added by Stats. 2015, Ch. 18, Sec. 19. (SB 75) Effective June 24, 2015.)

122430.

(a)Upon an appropriation for the purpose described in Section 122425 in the annual Budget Act for the 2015“16, 2016“17, and 2017“18 fiscal years, the department shall award funding, on a competitive basis, to community-based organizations or local health jurisdictions to operate demonstration pilot projects pursuant to this chapter. The department shall determine the funding levels of each demonstration project based on scope and geographic area. Funds may be used to support other activities consistent with the goals of this chapter, including the purchase of hepatitis C viral infection (HCV) test kits, syringe exchange supplies, or other HCV prevention and linkage to care materials and activities.

(b)An applicant for funding shall demonstrate each of the following qualifications:

(1)Leadership on access to HCV care and testing issues and experience addressing the needs of highly marginalized populations in accessing medical care and support.

(2)Experience with the target population or relationships with community-based organizations or nongovernmental organizations, or both, that demonstrates expertise, history, and credibility working successfully in engaging the target population.

(3)Experience working with nontraditional collaborators who work within and beyond the field of HCV education and outreach, including homeless services, veterans™ medical and service programs, substance use disorders treatment, syringe exchange programs, womenshealth, reproductive health, immigration, mental health, or human immunodeficiency virus (HIV) prevention and treatment.

(4)Strong relationships with community-based HCV health care providers that have the trust of the targeted population.

(5)Strong relationships with the state and local health departments.

(6)Capacity to coordinate a communitywide planning phase involving multiple community collaborators.

(7)Experience implementing evidence-based programs or generating innovative strategies, or both, with at least preliminary evidence of program effectiveness.

(8)Administrative systems and accountability mechanisms for grant management.

(9)Capacity to participate in evaluation activities.

(10)Strong communication systems that are in place to participate in public relations activities.

(Added by Stats. 2015, Ch. 18, Sec. 20. (SB 75) Effective June 24, 2015.)

122435.

During the demonstration pilot project described in Section 122425, each demonstration pilot project shall prepare and disseminate information regarding best practices for, and the lessons learned regarding, providing outreach and education to the most vulnerable and underserved individuals living with hepatitis C viral infection (HCV) or at a high risk for HCV infection, for use by providers, the State Department of Public Health, including the Office of AIDS and the Office of Viral Hepatitis Prevention, federal departments and agencies, including the federal Department of Health and Human Services, and other national HIV/AIDS and viral hepatitis groups.

(Added by Stats. 2015, Ch. 18, Sec. 21. (SB 75) Effective June 24, 2015.)

122440.

(a) (1) (A) The State Department of Public Health shall allocate funds to local health jurisdictions to provide hepatitis C virus (HCV) activities and other activities that improve HCV health outcomes, including, but not limited to, monitoring, prevention, testing, and linkage to and retention in care activities for the most vulnerable and underserved individuals living with, or at high risk for, HCV infection. Activities may include integrated services for viral hepatitis, human immunodeficiency virus (HIV) infection, sexually transmitted infections, and drug overdose to the extent they improve health outcomes for the most vulnerable and underserved individuals living with, or at high risk for, HCV infection.

(B)Local health jurisdictions shall be prioritized based on factors that indicate a need for HCV monitoring, prevention, testing, and linkage to and retention in care activities.

(C)Funds shall be allocated to prioritized local health jurisdictions in a manner that balances the need to spread funding to as many local health jurisdictions and community-based organizations as possible and the need to provide meaningful activities to each recipient. No less than 50 percent of the funds allocated to local health jurisdictions shall be provided to, or used to support activities in partnership with, community-based organizations for purposes consistent with this section, provided that there are community-based organizations in the jurisdiction that are able to provide these activities and demonstrate expertise, history, and credibility working successfully in engaging the most vulnerable and underserved individuals living with, or at high risk for, HCV infection.

(D)The department shall develop measures for each local health jurisdiction funded pursuant to this section to demonstrate accountability.

(E)Local health jurisdictions and community-based organizations may use funds to provide material support, including, but not limited to, sleeping bags, tarps, shelter, clothing items, and hygiene kits, to individuals described in subparagraph (A) for purposes consistent with this section.

(2)The department may use funds to support capacity building assistance for purposes consistent with this section, including integrated services for viral hepatitis, HIV, sexually transmitted infections, and drug overdose, to the extent they improve health outcomes for the most vulnerable and underserved individuals living with, or at high risk for, HCV infection.

(b)This section shall not be construed to require the department to replace existing activities with the activities provided for in subdivision (a) or to prevent the department from adding new activities as appropriate.

(c)This section shall be operative only if funds are explicitly appropriated in the annual Budget Act specifically for purposes of this section.

(Amended by Stats. 2022, Ch. 47, Sec. 15. (SB 184) Effective June 30, 2022.)

122445.

(a)In order to ensure that the most vulnerable Californians are informed of their hepatitis C virus (HCV) status and are linked to care and a cure, the State Department of Public HealthsOffice of Viral Hepatitis Prevention may purchase HCV test kits and associated materials and supplies for distribution to community-based organizations and local health departments.

(b)The Office of Viral Hepatitis Prevention may also allocate funding to train personnel associated with community-based organizations and local health departments to conduct HCV testing, human immunodeficiency virus (HIV) testing, and sexually transmitted infection (STI) testing and related activities.

(c)The Office of Viral Hepatitis Prevention may use a portion of the funds allocated for purposes of this section to hire necessary staff to successfully implement and evaluate the activities authorized by this section.

(d)The Office of Viral Hepatitis Prevention shall establish a simple application process for community-based organizations and local health departments to apply to receive HCV test kits and support for the activities authorized by this section.

(e)If the overall requests for HCV test kits and support exceeds the amount of funds allocated for this section, the Office of Viral Hepatitis Prevention may prioritize distribution of HCV test kits and support to community-based organizations and local health departments based on need in the specific geographic area and demonstrated capacity to provide culturally appropriate services to one or more of the communities most vulnerable to HCV.

(Added by Stats. 2021, Ch. 143, Sec. 26. (AB 133) Effective July 27, 2021.)

(Part 7.5 added by Stats. 2016, Ch. 30, Sec. 7.)

122450.

(a)Of the funds appropriated in the Budget Act of 2016 for this purpose, the State Department of Public Health shall do all of the following:

(1)Purchase and distribute hepatitis B vaccine and related materials to local health jurisdictions and community-based organizations to test and vaccinate high-risk adults.

(2)Purchase hepatitis C test kits and related materials to distribute to local health jurisdictions and community-based testing programs.

(3)Train nonmedical personnel to perform HCV and HIV testing waived under the federal Clinical Laboratory Improvement Amendments of 1988 (CLIA) (42 U.S.C. Sec. 263a) in local health jurisdictions and community-based settings.

(4)Provide technical assistance to local governments and community-based organizations to increase the number of syringe exchange and disposal programs throughout California and the number of jurisdictions in which syringe exchange and disposal programs are authorized.

(b)The State Department of Public Health may issue grants for the materials and activities provided for in subdivision (a).

__Health and Safety Code - HSC__

__DIVISION 105. COMMUNICABLE DISEASE PREVENTION AND CONTROL [120100 - 122476]__

(Division 105 added by Stats. 1995, Ch. 415, Sec. 7.)

__PART 7.7. Valley Fever [122475 - 122476]__

(Part 7.7 added by Stats. 2018, Ch. 338, Sec. 1.)

122475.

This part shall be known, and may be cited, as the Valley Fever Education, Early Diagnosis, and Treatment Act.

(Added by Stats. 2018, Ch. 338, Sec. 1. (AB 1790) Effective January 1, 2019.)

122476.

(a)Valley fever, also called coccidioidomycosis, is a lung infection caused by a fungus that lives in the soil. Approximately 10,000 cases are reported each year, mostly from California and bordering states.

(b)Valley fever is a serious, costly illness. According to the federal Centers for Disease Control and Prevention, nearly 75 percent of people with valley fever miss work or school. As many as 40 percent of people who get valley fever need to stay in the hospital.

(c)People get valley fever by breathing in microscopic fungal spores from the air in areas where the fungus lives. Anyone who lives in or travels to these areas can get valley fever, but some people are at higher risk for developing valley fever, such as older adults, people who have weakened immune systems, pregnant women, people with diabetes, people who are Black or Filipino, and people who have jobs that expose them to dust, such as agricultural or construction workers.

(d)The symptoms of valley fever are similar to those of other common illnesses, so patients may have delays in getting diagnosed and treated. The initial symptoms may appear one to three weeks after exposure. They tend to resemble those of the flu, and can range from minor to severe, including fever, cough, chest pain, chills, night sweats, headache, fatigue, joint aches, and a red spotty rash.

(e)In areas with valley fever, it is difficult to completely avoid exposure to the fungus because it is in the environment. There is no vaccine to prevent infection. Knowing about valley fever is one of the most important ways to avoid delays in diagnosis and treatment.

(f)It is the intent of the Legislature to raise awareness of the symptoms, tests, and treatments for valley fever among the general public, primary health care providers, and health care providers who care for persons at higher risk for getting valley fever.

(Added by Stats. 2018, Ch. 338, Sec. 1. (AB 1790) Effective January 1, 2019.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 1. GENERAL ADMINISTRATION [123100 - 123223]__

(Part 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. Patient Access to Health Records [123100 - 123149.5]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

123100.

The Legislature finds and declares that every person having ultimate responsibility for decisions respecting his or her own health care also possesses a concomitant right of access to complete information respecting his or her condition and care provided. Similarly, persons having responsibility for decisions respecting the health care of others should, in general, have access to information on the patientscondition and care. It is, therefore, the intent of the Legislature in enacting this chapter to establish procedures for providing access to health care records or summaries of those records by patients and by those persons having responsibility for decisions respecting the health care of others.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123105.

As used in this chapter:

(a)Health care provider means any of the following:

(1)A health facility licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2.

(2)A clinic licensed pursuant to Chapter 1 (commencing with Section 1200) of Division 2.

(3)A home health agency licensed pursuant to Chapter 8 (commencing with Section 1725) of Division 2.

(4)A physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code or pursuant to the Osteopathic Act.

(5)A podiatrist licensed pursuant to Article 22 (commencing with Section 2460) of Chapter 5 of Division 2 of the Business and Professions Code.

(6)A dentist licensed pursuant to Chapter 4 (commencing with Section 1600) of Division 2 of the Business and Professions Code.

(7)A psychologist licensed pursuant to Chapter 6.6 (commencing with Section 2900) of Division 2 of the Business and Professions Code.

(8)An optometrist licensed pursuant to Chapter 7 (commencing with Section 3000) of Division 2 of the Business and Professions Code.

(9)A chiropractor licensed pursuant to the Chiropractic Initiative Act.

(10)A marriage and family therapist licensed pursuant to Chapter 13 (commencing with Section 4980) of Division 2 of the Business and Professions Code.

(11)A clinical social worker licensed pursuant to Chapter 14 (commencing with Section 4990) of Division 2 of the Business and Professions Code.

(12)A physical therapist licensed pursuant to Chapter 5.7 (commencing with Section 2600) of Division 2 of the Business and Professions Code.

(13)An occupational therapist licensed pursuant to Chapter 5.6 (commencing with Section 2570).

(14)A professional clinical counselor licensed pursuant to Chapter 16 (commencing with Section 4999.10) of Division 2 of the Business and Professions Code.

(15)A speech-language pathologist or audiologist licensed pursuant to Chapter 5.3 (commencing with Section 2530) of Division 2 of the Business and Professions Code.

(16)A physician assistant licensed pursuant to Chapter 7.7 (commencing with Section 3500) of Division 2 of the Business and Professions Code.

(17)A nurse practitioner licensed pursuant to Article 8 (commencing with Section 2834) of Chapter 6 of Division 2 of the Business and Professions Code.

(b)Mental health records means patient records, or discrete portions thereof, specifically relating to evaluation or treatment of a mental disorder. Mental health records includes, but is not limited to, all alcohol and drug abuse records.

(c)Patient means a patient or former patient of a health care provider.

(d)Patient records means records in any form or medium maintained by, or in the custody or control of, a health care provider relating to the health history, diagnosis, or condition of a patient, or relating to treatment provided or proposed to be provided to the patient. Patient records includes only records

pertaining to the patient requesting the records or whose representative requests the records. Patient records does not include information given in confidence to a health care provider by a person other than another health care provider or the patient, and that material may be removed from any records prior to inspection or copying under Section 123110 or 123115. Patient records does not include information contained in aggregate form, such as indices, registers, or logs.

(e)Patientsrepresentative, patientspersonal representative, or representative means any of the following:

(1)A parent or guardian of a minor who is a patient.

(2)The guardian or conservator of the person of an adult patient.

(3)An agent as defined in Section 4607 of the Probate Code, to the extent necessary for the agent to fulfill the duties set forth in Division 4.7 (commencing with Section 4600) of the Probate Code.

(4)The beneficiary as defined in Section 24 of the Probate Code or personal representative as defined in Section 58 of the Probate Code, of a deceased patient.

(f)Alcohol and drug abuse records means patient records, or discrete portions thereof, specifically relating to evaluation and treatment of alcoholism or drug abuse.

(Amended by Stats. 2020, Ch. 101, Sec. 1. (AB 2520) Effective January 1, 2021.)

123110.

(a)Notwithstanding Section 5328 of the Welfare and Institutions Code, and except as provided in Sections 123115 and 123120, any adult patient of a health care provider, any minor patient authorized by law to consent to medical treatment, and any patientspersonal representative shall be entitled to inspect patient records upon presenting to the health care provider a request for those records and upon payment of reasonable costs, as specified in subdivision (j). However, a patient who is a minor shall be entitled to inspect patient records pertaining only to health care of a type for which the minor is lawfully authorized to consent. A health care provider shall permit this inspection during business hours within five working days after receipt of the request. The inspection shall be conducted by the patient or patientspersonal representative requesting the inspection, who may be accompanied by one other person of their choosing.

(b)(1)Additionally, any patient or patientspersonal representative shall be entitled to a paper or electronic copy of all or any portion of the patient records that they have a right to inspect, upon presenting a request to the health care provider specifying the records to be copied, together with a fee to defray the costs of producing the copy or summary, as specified in subdivision (j). The health care provider shall ensure that the copies are transmitted within 15 days after receiving the request.

(2)The health care provider shall provide the patient or patientspersonal representative with a copy of the record in the form and format requested if it is readily producible in the requested form and format, or, if not, in a readable paper copy form or other form and format as agreed to by the health care provider and the patient or patientspersonal representative. If the requested patient records are maintained electronically and if the patient or patientspersonal representative requests an electronic copy of those records, the health care provider shall provide them in the electronic form and format requested if they are readily producible in that form and format, or, if not, in a readable electronic form and format as agreed to by the health care provider and the patient or patientspersonal representative.

(c)Copies of X-rays or tracings derived from electrocardiography, electroencephalography, or electromyography need not be provided to the patient or patientspersonal representative under this section, if the original X-rays or tracings are transmitted to another health care provider upon written request of the patient or patientspersonal representative and within 15 days after receipt of the request. The request shall specify the name and address of the health care provider to whom the records are to be delivered. All reasonable costs, not exceeding actual costs, incurred by a health care provider in providing copies pursuant to this subdivision may be charged to the patient or representative requesting the copies.

(d)(1)Notwithstanding any provision of this section, and except as provided in Sections 123115 and 123120, a patient, employee of a nonprofit legal services entity representing the patient, or the personal representative of a patient, is entitled to a copy, at no charge, of the relevant portion of the patientsrecords, upon presenting to the provider a written request, and proof that the records or supporting forms are needed to support a claim or appeal regarding eligibility for a public benefit program, a petition for U nonimmigrant status under the Victims of Trafficking and Violence Protection Act, or a self-petition for lawful permanent residency under the Violence Against Women Act. A public benefit program includes the Medi-Cal program, the In-Home Supportive Services Program, the California Work Opportunity and Responsibility to Kids (CalWORKs) program, Social Security Disability Insurance benefits, Supplemental Security Income/State Supplementary Program for the Aged, Blind and Disabled (SSI/SSP) benefits, federal veterans service-connected compensation and nonservice connected pension disability benefits, CalFresh, the Cash Assistance Program for Aged, Blind, and Disabled Legal Immigrants, and a government-funded housing subsidy or tenant-based housing assistance program.

(2)Although a patient shall not be limited to a single request, the patient, employee of a nonprofit legal services entity representing the patient, or patientspersonal representative shall be entitled to no more than one copy of any relevant portion of their record free of charge.

(3)This subdivision shall not apply to any patient who is represented by a private attorney who is paying for the costs related to the patientsclaim or appeal, pending the outcome of that claim or appeal. For purposes of this subdivision, private attorney means any attorney not employed by a nonprofit legal services entity.

(e)If a patient, employee of a nonprofit legal services entity representing the patient, or the patientspersonal representative requests a record pursuant to subdivision (d), the health care provider shall ensure that the copies are transmitted within 30 days after receiving the written request.

(f)This section shall not be construed to preclude a health care provider from requiring reasonable verification of identity prior to permitting inspection or copying of patient records, provided this requirement is not used oppressively or discriminatorily to frustrate or delay compliance with this section. This section does not supersede any rights that a patient or personal representative might otherwise have or exercise under Section 1158 of the Evidence Code or any other provision of law. This chapter does not require a health care provider to retain records longer than required by applicable statutes or administrative regulations.

(g)(1)This chapter shall not be construed to render a health care provider liable for the quality of their records or the copies provided in excess of existing law and regulations with respect to the quality of medical records. A health care provider shall not be liable to the patient or any other person for any consequences that result from disclosure of patient records as required by this chapter. A health care provider shall not discriminate against classes or categories of providers in the transmittal of X-rays or other patient records, or copies of these X-rays or records, to other providers as authorized by this section.

(2)Every health care provider shall adopt policies and establish procedures for the uniform transmittal of X-

rays and other patient records that effectively prevent the discrimination described in this subdivision. A health care provider may establish reasonable conditions, including a reasonable deposit fee, to ensure the return of original X-rays transmitted to another health care provider, provided the conditions do not discriminate on the basis of, or in a manner related to, the license of the provider to which the X-rays are transmitted.

(h)Any health care provider described in paragraphs (4) to (10), inclusive, of subdivision (a) of Section 123105 who willfully violates this chapter is guilty of unprofessional conduct. Any health care provider described in paragraphs (1) to (3), inclusive, of subdivision (a) of Section 123105 that willfully violates this chapter is guilty of an infraction punishable by a fine of not more than one hundred dollars ($100). The state agency, board, or commission that issued the health care providersprofessional or institutional license shall consider a violation as grounds for disciplinary action with respect to the licensure, including suspension or revocation of the license or certificate.

(i)This section prohibits a health care provider from withholding patient records or summaries of patient records because of an unpaid bill for health care services. Any health care provider who willfully withholds patient records or summaries of patient records because of an unpaid bill for health care services is subject to the sanctions specified in subdivision (h).

(j)(1)Except as provided in subdivision (d), a health care provider may impose a reasonable, cost-based fee for providing a paper or electronic copy or summary of patient records, provided the fee includes only the cost of the following:

(A)Labor for copying the patient records requested by the patient or patientspersonal representative, whether in paper or electronic form.

(B)Supplies for creating the paper copy or electronic media if the patient or patientspersonal representative requests that the electronic copy be provided on portable media.

(C)Postage, if the patient or patientspersonal representative has requested the copy, or the summary or explanation, be mailed.

(D)Preparing an explanation or summary of the patient record, if agreed to by the patient or patientspersonal representative.

(2)The fee from a health care provider shall not exceed twenty-five cents ($0.25) per page for paper copies or fifty cents ($0.50) per page for records that are copied from microfilm.

(Amended by Stats. 2023, Ch. 294, Sec. 31. (SB 815) Effective January 1, 2024.)

123111.

(a)A patient who inspects his or her patient records pursuant to Section 123110 has the right to provide to the health care provider a written addendum with respect to any item or statement in his or her records that the patient believes to be incomplete or incorrect. The addendum shall be limited to 250 words per alleged incomplete or incorrect item in the patientsrecord and shall clearly indicate in writing that the patient requests the addendum to be made a part of his or her record.

(b)The health care provider shall attach the addendum to the patientsrecords and shall include that

addendum if the health care provider makes a disclosure of the allegedly incomplete or incorrect portion of the patientsrecords to any third party.

(c)The receipt of information in a patientsaddendum which contains defamatory or otherwise unlawful language, and the inclusion of this information in the patientsrecords, in accordance with subdivision (b), shall not, in and of itself, subject the health care provider to liability in any civil, criminal, administrative, or other proceeding.

(d)Subdivision (i) of Section 123110 and Section 123120 are applicable with respect to any violation of this section by a health care provider.

(Amended by Stats. 2018, Ch. 275, Sec. 1. (AB 2088) Effective January 1, 2019.)

123114.

(a)A health care provider shall not charge a fee to a patient for filling out forms or providing information responsive to forms that support a claim or appeal regarding eligibility for a public benefit program.

(b)A health care provider shall provide information responsive to those portions of the form for which the health care provider has the information necessary to provide a medical opinion. If the health care provider does not have the information necessary to provide a medical opinion, the health care provider may inform the patient if an examination is necessary to obtain the information.

(c)If a health care provider conducts an examination pursuant to subdivision (b), the health care provider shall provide information responsive to those portions of the form for which the health care provider has a medical opinion.

(d)For the purposes of this section, a public benefit program includes the Medi-Cal program, the In-Home Supportive Services Program, the California Work Opportunity and Responsibility to Kids (CalWORKs) program, Social Security Disability Insurance benefits, Supplemental Security Income/State Supplementary Program for the Aged, Blind and Disabled (SSI/SSP) benefits, federal veterans service-connected compensation and nonservice connected pension disability benefits, discharge of a federal student loan based on total and permanent disability, CalFresh, the Cash Assistance Program for Aged, Blind, and Disabled Legal Immigrants, and a government-funded housing subsidy or tenant-based housing assistance program.

(e)Notwithstanding any other law, a health care provider may honor a request to disclose a patient record or complete a public benefit form that contains the written or electronic signature of the patient or the patientspersonal representative.

(Added by Stats. 2020, Ch. 101, Sec. 3. (AB 2520) Effective January 1, 2021.)

123115.

(a)The representative of a minor shall not be entitled to inspect or obtain copies of the minorspatient records, including clinical notes, in any of the following circumstances:

(1)With respect to which the minor has a right of inspection under Section 123110.

(2)When the health care provider determines that access to the patient records requested by the representative would have a detrimental effect on the providersprofessional relationship with the minor patient or the minorsphysical safety or psychological well-being. The decision of the health care provider as to whether or not a minorsrecords are available for inspection or copying under this section shall not attach any liability to the provider, unless the decision is found to be in bad faith.

(3)When records relate to services described in Section 6924, 6925, 6926, 6927, 6928, 6929, or 6930 of the Family Code, or Section 121020 or 124260 of this code, when obtained by a patient who has the mental capacity to provide consent and is at or above the minimum age for consenting to the service specified in the respective section.

(b)When a health care provider determines there is a substantial risk of significant adverse or detrimental consequences to a patient in seeing or receiving a copy of mental health records requested by the patient, the provider may decline to permit inspection or provide copies of the records to the patient, subject to the following conditions:

(1)The health care provider shall make a written record, to be included with the mental health records requested, noting the date of the request and explaining the health care providersreason for refusing to permit inspection or provide copies of the records, including a description of the specific adverse or detrimental consequences to the patient that the provider anticipates would occur if inspection or copying were permitted.

(2)(A)The health care provider shall permit inspection by, or provide copies of the mental health records to, a licensed physician and surgeon, licensed psychologist, licensed marriage and family therapist, licensed clinical social worker, or licensed professional clinical counselor, designated by request of the patient.

(B)Any person registered as a marriage and family therapist intern, as defined in Chapter 13 (commencing with Section 4980) of Division 2 of the Business and Professions Code, may not inspect the patientsmental health records or obtain copies thereof, except pursuant to the direction or supervision of a licensed professional specified in subdivision (g) of Section 4980.03 of the Business and Professions Code. Prior to providing copies of mental health records to a registered marriage and family therapist intern, a receipt for those records shall be signed by the supervising licensed professional.

(C)Any person registered as a clinical counselor intern, as defined in Chapter 16 (commencing with Section 4999.10) of Division 2 of the Business and Professions Code, may not inspect the patientsmental health records or obtain copies thereof, except pursuant to the direction or supervision of a licensed professional specified in subdivision (h) of Section 4999.12 of the Business and Professions Code. Prior to providing copies of mental health records to a person registered as a clinical counselor intern, a receipt for those records shall be signed by the supervising licensed professional.

(D)A licensed physician and surgeon, licensed psychologist, licensed marriage and family therapist, licensed clinical social worker, licensed professional clinical counselor, registered marriage and family therapist intern, or person registered as a clinical counselor intern to whom the records are provided for inspection or copying shall not permit inspection or copying by the patient.

(3)The health care provider shall inform the patient of the providersrefusal to permit them to inspect or obtain copies of the requested records, and inform the patient of the right to require the provider to permit inspection by, or provide copies to, a licensed physician and surgeon, licensed psychologist, licensed marriage and family therapist, licensed clinical social worker, or licensed professional clinical counselor

designated by written authorization of the patient.

(4)The health care provider shall indicate in the mental health records of the patient whether the request was made under paragraph (2).

(Amended by Stats. 2022, Ch. 888, Sec. 2. (SB 1419) Effective January 1, 2023.)

123116.

(a)Notwithstanding Section 3025 of the Family Code, paragraph (2) of subdivision (c) of Section 56.11 of the Civil Code, or any other provision of law, a psychotherapist who knows that a minor has been removed from the physical custody of his or her parent or guardian pursuant to Article 6 (commencing with Section 300) to Article 10 (commencing with Section 360), inclusive, of Chapter 2 of Part 1 of Division 2 of the Welfare and Institutions Code shall not allow the parent or guardian to inspect or obtain copies of mental health records of the minor patient. This restriction shall not apply if the juvenile court has issued an order authorizing the parent or guardian to inspect or obtain copies of the mental health records of the minor patient after finding that such an order would not be detrimental to the minor patient.

(b)For purposes of this section, the following definitions apply:

(1)Mental health records means mental health records as defined by subdivision (b) of Section 123105.

(2)Psychotherapist means a provider of health care as defined in Section 1010 of the Evidence Code.

(c)When the juvenile court has issued an order authorizing the parent or guardian to inspect or obtain copies of the mental health records of a minor patient under the circumstances described in subdivision (a), the parent or guardian requesting to inspect or obtain copies of the mental health records of the minor patient shall present a copy of the court order to the psychotherapist and shall comply with subdivisions (a) and (b) of Section 123110 before the records may be accessed by the parent or guardian.

(d)Nothing in this section shall be construed to prevent or limit a psychotherapistsauthority under subdivision (a) of Section 123115 to deny a parentsor guardianswritten request to inspect or obtain copies of the minor patientsmental health records, notwithstanding the fact that the juvenile court has issued an order authorizing the parent or guardian to inspect or obtain copies of the minor patientsmental health records. Liability for a psychotherapistsdecision not to allow the parent or guardian to inspect or obtain copies of records pursuant to the authority of subdivision (a) of Section 123115 shall be governed by that section.

(e)Nothing in this section shall be construed to impose upon a psychotherapist a duty to inquire or investigate whether a child has been removed from the physical custody of his or her parent or guardian pursuant to Article 6 (commencing with Section 300) to Article 10 (commencing with Section 360), inclusive, of Chapter 2 of Part 1 of Division 2 of the Welfare and Institutions Code when a parent or guardian presents the minorspsychotherapist with a written request to inspect or obtain copies of the minorsmental health records.

(Added by Stats. 2012, Ch. 657, Sec. 2. (SB 1407) Effective January 1, 2013.)

123120.

Any patient or representative aggrieved by a violation of Section 123110 may, in addition to any other remedy provided by law, bring an action against the health care provider to enforce the obligations prescribed by Section 123110. Any judgment rendered in the action may, in the discretion of the court, include an award of costs and reasonable attorney fees to the prevailing party.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123125.

(a) This chapter shall not require a health care provider to permit inspection or provide copies of alcohol and drug abuse records where, or in a manner, prohibited by Section 408 of the federal Drug Abuse Office and Treatment Act of 1972 (Public Law 92-255) or Section 333 of the federal Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 (Public Law 91-616), or by regulations adopted pursuant to these federal laws. Alcohol and drug abuse records subject to these federal laws shall also be subject to this chapter, to the extent that these federal laws do not prohibit disclosure of the records. All other alcohol and drug abuse records shall be fully subject to this chapter.

(b) This chapter shall not require a health care provider to permit inspection or provide copies of records or portions of records where or in a manner prohibited by existing law respecting the confidentiality of information regarding communicable disease carriers.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123130.

(a) A health care provider may prepare a summary of the record, according to the requirements of this section, for inspection and copying by a patient. If the health care provider chooses to prepare a summary of the record rather than allowing access to the entire record, he or she shall make the summary of the record available to the patient within 10 working days from the date of the patientsrequest. However, if more time is needed because the record is of extraordinary length or because the patient was discharged from a licensed health facility within the last 10 days, the health care provider shall notify the patient of this fact and the date that the summary will be completed, but in no case shall more than 30 days elapse between the request by the patient and the delivery of the summary. In preparing the summary of the record the health care provider shall not be obligated to include information that is not contained in the original record.

(b) A health care provider may confer with the patient in an attempt to clarify the patientspurpose and goal in obtaining his or her record. If as a consequence the patient requests information about only certain injuries, illnesses, or episodes, this subdivision shall not require the provider to prepare the summary required by this subdivision for other than the injuries, illnesses, or episodes so requested by the patient. The summary shall contain for each injury, illness, or episode any information included in the record relative to the following:

(1) Chief complaint or complaints including pertinent history.

(2) Findings from consultations and referrals to other health care providers.

(3) Diagnosis, where determined.

(4) Treatment plan and regimen including medications prescribed.

(5) Progress of the treatment.

(6) Prognosis including significant continuing problems or conditions.

(7) Pertinent reports of diagnostic procedures and tests and all discharge summaries.

(8) Objective findings from the most recent physical examination, such as blood pressure, weight, and actual values from routine laboratory tests.

(c) This section shall not be construed to require any medical records to be written or maintained in any manner not otherwise required by law.

(d) The summary shall contain a list of all current medications prescribed, including dosage, and any sensitivities or allergies to medications recorded by the provider.

(e) Subdivision (c) of Section 123110 shall be applicable whether or not the health care provider elects to prepare a summary of the record.

(f) The health care provider may charge no more than a reasonable fee based on actual time and cost for the preparation of the summary. The cost shall be based on a computation of the actual time spent preparing the summary for availability to the patient or the patientsrepresentative. It is the intent of the Legislature that summaries of the records be made available at the lowest possible cost to the patient.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123135.

Except as otherwise provided by law, nothing in this chapter shall be construed to grant greater access to individual patient records by any person, firm, association, organization, partnership, business trust, company, corporation, or municipal or other public corporation, or government officer or agency. Therefore, this chapter does not do any of the following:

(a) Relieve employers of the requirements of the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code).

(b) Relieve any person subject to the Insurance Information and Privacy Protection Act (Article 6.6 (commencing with Section 791) of Chapter 1 of Part 2 of Division 1 of the Insurance Code) from the requirements of that act.

(c) Relieve government agencies of the requirements of the Information Practices Act of 1977 (Title 1.8 (commencing with Section 1798) of Part 4 of Division 3 of the Civil Code).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123140.

The Information Practices Act of 1977 (Title 1.8 (commencing with Section 1798) of Part 4 of Division 3 of the Civil Code) shall prevail over this chapter with respect to records maintained by a state agency.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123145.

(a) Providers of health services that are licensed pursuant to Sections 1205, 1253, 1575 and 1726 have an obligation, if the licensee ceases operation, to preserve records for a minimum of seven years following discharge of the patient, except that the records of unemancipated minors shall be kept at least one year after the minor has reached the age of 18 years, and in any case, not less than seven years.

(b) The department or any person injured as a result of the licenseesabandonment of health records may bring an action in a proper court for the amount of damage suffered as a result thereof. In the event that the licensee is a corporation or partnership that is dissolved, the person injured may take action against that corporationsor partnershipsprinciple officers of record at the time of dissolution.

(c) Abandoned means violating subdivision (a) and leaving patients treated by the licensee without access to medical information to which they are entitled pursuant to Section 123110.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123147.

(a)Except as provided in subdivision (b), all health facilities, as defined in Section 1250, and all primary care clinics that are either licensed under Section 1204 or exempt from licensure under Section 1206, shall include a patientsprincipal spoken language on the patientshealth records.

(b)Any long-term health care facility, as defined in Section 1418, that already completes the minimum data set form as specified in Section 14110.15 of the Welfare and Institutions Code, including documentation of a patientsprincipal spoken language, shall be deemed to be in compliance with subdivision (a).

(Added by Stats. 2005, Ch. 313, Sec. 1. Effective January 1, 2006.)

123148.

(a)Notwithstanding any other law, a health care professional at whose request a test is performed shall provide or arrange for the provision of the results of a test to the patient who is the subject of the test if so requested by the patient, in oral or written form. The results shall be disclosed in plain language and in oral or written form, except the results may be disclosed in electronic form if requested by the patient unless deemed inappropriate by the health care professional who requested the test. The telephone shall not be considered an electronic form of disclosing test results subject to the limits on electronic disclosure of test

results for the purpose of this section.

(b)(1)Consent of the patient to receive their test results by internet posting or other electronic means shall be obtained in a manner consistent with the requirements of Section 56.10 or 56.11 of the Civil Code. In the event that a health care professional arranges for the provision of test results by internet posting or other electronic manner, the results shall be disclosed to a patient in a reasonable time period. Access to test results shall be restricted by the use of a secure personal identification number when the results are disclosed to a patient by internet posting or other electronic manner.

(2)Paragraph (1) shall not prohibit direct communication by internet posting or the use of other electronic means to disclose test results by a treating health care professional who ordered the test for their patient or by a health care professional acting on behalf of, or with the authorization of, the treating health care professional who ordered the test.

(c)When a patient requests access to their test results by internet posting, the health care professional shall advise the patient of any charges that may be assessed directly to the patient or insurer for the service and that the patient may call the health care professional for a more detailed explanation of the laboratory test results when delivered.

(d)The electronic disclosure of test results under this section shall be in accordance with any applicable federal law governing privacy and security of electronic personal health records. However, any state statute that governs privacy and security of electronic personal health records, shall apply to test results under this section and shall prevail over federal law if federal law permits.

(e)The test results to be reported to the patient pursuant to this section shall be recorded in the patientsmedical record, and shall be reported to the patient within a reasonable time period after the test results are received by the health care professional who requested the test.

(f)Notwithstanding subdivision (a), unless the patient requests the disclosure, the health care professional deems this disclosure as an appropriate means, and a health care professional has first discussed in person, by telephone, or by any other means of oral communication, the test results with the patient, in compliance with any other applicable laws, none of the following test results and any other related results shall be disclosed to a patient by internet posting or other electronic means:

(1)(A)A positive HIV test, unless an HIV test subject is anonymously tested and the test result is posted on a secure internet website and can only be viewed with the use of a secure code that can access only a single set of test results and that is provided to the patient at the time of testing. The test result shall be posted only if there is no link to any information that identifies or refers to the subject of the test and the information required pursuant to subdivision (h) of Section 120990 is provided.

(B)Subparagraph (A) does not prevent the disclosure of HIV test results, including viral load and CD4 count test results, to a patient living with HIV by secure internet website or other electronic means if the patient has previously been informed about the results of a positive HIV test pursuant to the requirements of this section.

(2)Presence of antigens indicating a hepatitis infection.

(3)Abusing the use of drugs.

(4)Test results related to routinely processed tissues and imaging scans that reveal a new or recurrent malignancy.

(g)Patient identifiable test results and health information that have been provided under this section shall not be used for any commercial purpose without the consent of the patient, obtained in a manner consistent with the requirements of Section 56.11 of the Civil Code. In no event shall patient identifiable HIV-related test results and health information disclosed in this section be used in violation of subdivision (f) of Section 120980.

(h)A third party to whom test results are disclosed pursuant to this section shall be deemed a provider of administrative services, as that term is used in paragraph (3) of subdivision (c) of Section 56.10 of the Civil Code, and shall be subject to all limitations and penalties applicable to that section.

(i)A patient may not be required to pay a cost, or be charged a fee, for electing to receive their test results in a manner other than by internet posting or other electronic form.

(j)A patient or their physician may revoke consent provided under this section at any time and without penalty, except to the extent that action has been taken in reliance on that consent.

(k)As used in this section, test applies to both clinical laboratory tests and imaging scans, such as x-rays, magnetic resonance imaging, ultrasound, or other similar technologies.

(l)As used in this section, internet posting includes posting to an online patient portal.

(Amended by Stats. 2022, Ch. 888, Sec. 3. (SB 1419) Effective January 1, 2023.)

123149.

(a) Providers of health services, licensed pursuant to Sections 1205, 1253, 1575, and 1726, that utilize electronic recordkeeping systems only, shall comply with the additional requirements of this section. These additional requirements do not apply to patient records if hard copy versions of the patient records are retained.

(b) Any use of electronic recordkeeping to store patient records shall ensure the safety and integrity of those records at least to the extent of hard copy records. All providers set forth in subdivision (a) shall ensure the safety and integrity of all electronic media used to store patient records by employing an offsite backup storage system, an image mechanism that is able to copy signature documents, and a mechanism to ensure that once a record is input, it is unalterable.

(c) Original hard copies of patient records may be destroyed once the record has been electronically stored.

(d) The printout of the computerized version shall be considered the original as defined in Section 255 of the Evidence Code for purposes of providing copies to patients, the Division of Licensing and Certification, and for introduction into evidence in accordance with Sections 1550 and 1551 of the Evidence Code, in administrative or court proceedings.

(e) Access to electronically stored patient records shall be made available to the Division of Licensing and Certification staff promptly, upon request.

(f) This section does not exempt licensed clinics, health facilities, adult day health care centers, and home health agencies from the requirement of maintaining original copies of patient records that cannot be

electronically stored.

(g) Any health care provider subject to this section, choosing to utilize an electronic recordkeeping system, shall develop and implement policies and procedures to include safeguards for confidentiality and unauthorized access to electronically stored patient health records, authentication by electronic signature keys, and systems maintenance.

(h) Nothing contained in this chapter shall affect the existing regulatory requirements for the access, use, disclosure, confidentiality, retention of record contents, and maintenance of health information in patient records by health care providers.

(i) This chapter does not prohibit any provider of health care services from maintaining or retaining patient records electronically.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123149.5.

(a)It is the intent of the Legislature that all medical information transmitted during the delivery of health care via telehealth, as defined in subdivision (a) of Section 2290.5 of the Business and Professions Code, become part of the patientsmedical record maintained by the licensed health care provider.

(b)This section shall not be construed to limit or waive any of the requirements of Chapter 1 (commencing with Section 123100) of Part 1 of Division 106 of the Health and Safety Code.

(Amended by Stats. 2012, Ch. 782, Sec. 8. (AB 1733) Effective January 1, 2013.)

The board of supervisors may authorize the destruction or the disposition to a public or private medical library of any X-ray photographs and case records that are more than five years old and that were taken by the county health officer in the performance of his or her duties with regard to tuberculosis if any of the following conditions are complied with:

(a) The county health officer has determined that the X-ray photographs or a series of X-ray photographs in conjunction with case records do not show the existence of tuberculosis in the infectious stage.

(b) The individual of whom the X-ray photographs were taken has been deceased not less than two years or the 102nd anniversary of the individualsbirthdate has occurred and the county health officer cannot reasonably ascertain whether the individual is still living.

(c) The place of residence of the individual of whom the X-ray photographs were taken has been unknown to the county health officer for 10 years.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123155.

The board of supervisors of any county, in addition to its other powers and duties may acquire or construct exhibits and displays depicting all or parts of the human body and functions thereof for the purpose of educating the public with regard to human health, and maintain, operate and manage the exhibits and displays in any county or other public building. It may enter into contracts or leases with any other governmental agency or any nonprofit association or corporation, including a county medical association, for the construction and acquisition of the exhibits and displays, and for the maintenance, operation and management of the exhibits and displays in any county or other public building, without consideration except the agreement of the contracting or leasing agency, association or corporation to construct, acquire, maintain, operate and manage the exhibits and displays for the purpose of public health education and upon any other terms and conditions as may be agreed upon by the board and the contracting or leasing agency, association or corporation.

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 1. GENERAL ADMINISTRATION [123100 - 123223]__

(Part 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. Catastrophic Health Insurance [123175 - 123220]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

123175.

The Legislature finds and declares as follows:

(a) A catastrophic illness or injury may financially devastate an individual or the family of that individual because of extraordinary medical expenses. It is vitally necessary to the public health and welfare of the State of California that:

(1) Its residents not be burdened with those financial costs. Most health insurance policies contain a monetary limitation on the amount of money that can be expended on a particular illness or individual, leaving any balance to be paid by the patient. The state has enacted this chapter to promote the availability of additional insurance to help pay extensive medical costs.

(2) The state government not be financially burdened by residents who may become indigent due to these catastrophic health costs.

(b) It is the intent of the Legislature in enacting this chapter to institute a program to inform state residents of the need for catastrophic health insurance, and to make this insurance available to residents through an independent insurer at no cost or liability to the state.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123180.

As used in this chapter:

(a) Catastrophic health insurance means a supplementary insurance contract that indemnifies a California resident for medical expenses, including at least the costs of the basic health care services that result from an illness, injury, or disease, and that are greater than fifty thousand dollars ($50,000), subject to a lifetime benefit limit of one million dollars ($1,000,000).

(b) Resident means any individual who lives in California for at least 90 consecutive days.

(c) Insurer as used in this chapter includes a disability insurer that covers hospital, medical, or surgical expenses, and a nonprofit hospital service plan.

(d) Basic health care services includes, but is not limited to, the following:

(1) Inpatient hospital treatment, including room and board, general nursing services, diagnostic tests, supplies, and other medically necessary services.

(2) Outpatient services for surgery, presurgical diagnostic tests, emergency care, and chemotherapy.

(3) Surgery and anesthesia.

(4) Hospital and office visits and consultations.

(5) X-rays and laboratory tests; allergy tests, injections, and sera.

(6) Maternity care for the subscriber or enrolled spouse.

(7) Psychotherapy.

(8) Chemotherapy and radiation therapy.

(9) Physical, speech, occupational and respiratory therapies.

(10) Prescription drugs.

(11) Prostheses and durable medical equipment, such as artificial limbs, hospital beds, and wheelchairs.

(12) Cardiac rehabilitation program.

(13) Local ambulance service.

(14) Alcohol and drug abuse rehabilitation.

(15) Rehabilitative care.

(16) Outpatient skilled nursing care (up to two hours per day for up to 50 days per calendar year).

(17) Home health care and hospice services provided by an approved home health agency or hospice

agency.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123185.

The director shall, in consultation with, and approval of the Department of Insurance, do all of the following:

(a) Contract with an insurer or insurers to provide any resident catastrophic health insurance.

(b) Inform residents of the availability of catastrophic health insurance.

(c) Provide oversight for all contract obligations of the insurer.

(d) Approve all advertising and marketing materials used by an insurer in connection with catastrophic health insurance provided under this chapter in order to ensure accuracy and fairness. The advertising standards used shall be those set out in Section 1360.

(e) Determine the cost of the oversight function and make provisions to cover all administrative costs.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123190.

The director may appoint a full-time employee, and other staff as required, to implement this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123195.

(a) A contract provided for by this chapter shall not be required to cover a preexisting medical condition of the resident during the first 10 months the resident is covered by catastrophic health insurance provided under this chapter. Charges for a preexisting condition shall not apply toward the deductible during the first 10 months of coverage. Charges for other conditions during that initial period shall apply toward the deductible.

(b) The contract shall also prohibit the insurer from discriminating against prospective insureds in their underwriting practices on the basis of demographic factors, such as age, or preexisting medical conditions.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123200.

The state is not liable in any way for any claims arising out of an arrangement for insurance established under this chapter. The insurer shall bear the cost of all claims, and shall indemnify the state against all claims and the cost of defending against all claims in connection with an arrangement for catastrophic health insurance established under this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123205.

The director shall enter into contracts pursuant to subdivision (a) of Section 123185 only with insurers that meet all of the following criteria, as determined by the director:

(a) The insurer shall be actuarially sound.

(b) The insurer shall be fully self-supported by its policy premiums or charges and investments.

(c) The insurer shall use advertising that is accurate.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123210.

(a) The term of any contract entered into pursuant to subdivision (a) of Section 123185 shall be determined by the director, but shall not exceed three years.

(b) The contract shall contain a provision authorizing the director to terminate the contract upon giving 60 days™ written notice to the insurer of any of the following causes for termination:

(1) The department has determined that management practices of the insurer or the current financial condition of the insurer interferes with the efficient and timely payment of catastrophic health insurance benefits.

(2) Continuing failure of the insurer to timely pay the benefits of its policies of catastrophic health insurance or provide catastrophic health insurance services in accordance with the contract.

(3) Other continuing unsatisfactory performance by the insurer under the contract, based upon complaints received from insureds or other sources, if the insurer has failed to take reasonable, effective, and prompt actions to resolve the complaints.

(c) The contract shall contain a provision authorizing the director to terminate the contract without cause upon any annual anniversary date of the contract by giving at least 60 days™ notice to the insurer.

(d) The director may give up to 120 days™ notice to terminate if it is determined to be in the best interest of plan participants.

(e) The director shall annually certify that participating providers meet the conditions of the program. In carrying out this requirement, the director shall consult with the Department of Insurance to obtain any

audits performed by those agencies that may be used in evaluating the performance of each provider.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123215.

Premiums or charges paid for catastrophic health insurance provided pursuant to this chapter shall include an increment to defray the reasonable administrative costs of the department in administering this chapter that shall be transmitted by insurers to the department as provided in the contract.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123220.

If studies or research demonstrate that it is in the best interest of the program, the director may adopt regulations setting forth modifications to the coverage provided under the program. No modification shall apply to any coverage provided by a policy or contract issued prior to the operative date of the regulation, except that the modification shall apply to coverage provided after any renewal of the policy or contract occurring after the operative date of the regulation.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 1. GENERAL ADMINISTRATION [123100 - 123223]__

(Part 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 4. Written Materials For Patients [123222.1 - 123222.3]__

(Chapter 4 added by Stats. 2002, Ch. 550, Sec. 2.)

123222.1.

(a) Notwithstanding any other provision of law, any printed materials specified in subdivision (b), that are provided to a patient by an employee or authorized agent on behalf of a general acute care hospital, as defined in subdivision (a) of, a skilled nursing facility, as defined in subdivision (c) of, an intermediate care facility as defined in subdivision (d) of, a nursing facility, as defined in subdivision (k) of, Section 1250, or a residential care facility for the elderly, as defined in subdivision (l) of Section 1569.2, shall be printed in at least a 12-point font that is clear and legible.

(b) The section shall apply only to the following:

(1) Admission and discharge papers and forms from general acute care hospitals, skilled nursing facilities, intermediate care facilities, and nursing facilities.

(2) Medical and therapeutic instructions prepared by the facility specifically for an individual upon his or her discharge from a general acute care hospital, a skilled nursing facility, an intermediate care facility, or a nursing facility.

(3) Any contract for consent for hospitalization, or agreement to assume financial responsibility between a patient and any of the facilities specified in paragraph (1).

(4) Instructions and forms for advance health care directives, as defined in Section 4605 of the Probate Code.

(5) Information produced by the hospital or facility regarding the rights and responsibilities of patients or residents while receiving care at the hospital or facility, and regarding grievances and appeals, including forms and instructions.

(6) Correspondence written, printed, or produced by any of the facilities specified in paragraph (1), or a residential care facility for the elderly.

(c) Any entity described in paragraph (1) of subdivision (b), and any residential care facility for the elderly, may continue to use its supply of materials that exists on January 1, 2003, until that supply is exhausted or until January 1, 2006, whichever occurs first, and thereafter shall comply with the requirements of this section.

(d) The hospitalsor facilityspolicies and procedures are specifically excluded from the requirements of this section.

(Added by Stats. 2002, Ch. 550, Sec. 2. Effective January 1, 2003.)

123222.2.

(a) (1) Upon admission of a patient to a skilled nursing facility, as defined in subdivision (c) of, an intermediate care facility, as defined in subdivision (d) of, or a nursing facility, as defined in subdivision (k) of, Section 1250, the facility shall ask the patient if he or she would like the facility to provide the patientsnext of kin or agent under a durable power of attorney for health care with materials regarding patients™ rights and responsibilities. If the patient states that he or she would like these materials to be provided, the facility shall do so, in accordance with paragraph (2).

(2) (A) The materials provided by the facility pursuant to this subdivision shall include a comprehensive Patients™ Bill of Rights, as described in subdivision (d) of Section 1599.61. Until subdivision (d) of Section 1599.61 is fully implemented by the State Department of Health Services, the Patients™ Bill of Rights provided pursuant to this subdivision shall include all of the following:

(i) The rights contained in Chapter 3.9 (commencing with Section 1599) of Division 2.

(ii) The resident rights applicable to skilled nursing facilities, contained in Section 72527 of Title 22 of the California Code of Regulations.

(iii) The resident rights applicable to intermediate care facilities, contained in Section 73523 of Title 22 of the California Code of Regulations.

(iv) The resident rights applicable to long-term care facilities under Sections 483.10 to 483.25, inclusive, of Title 42 of the Code of Federal Regulations.

(B) The facility may also provide written materials regarding the facilitysexpectations of patients and patients™ responsibilities while the patient is receiving care at the facility. This paragraph shall not be construed to require the facility to create any additional written materials regarding the facilitysexpectations of patients and patients™ responsibilities.

(b) (1) Upon admission of a patient to a general acute care hospital, as defined in subdivision (a) of Section 1250, the hospital shall ask the patient if he or she would like the hospital to provide the patientsnext of kin or agent under a durable power of attorney for health care with materials regarding patients™ rights and responsibilities. If the patient states that he or she would like these materials to be provided, the hospital shall do so, in accordance with paragraph (2).

(2) (A) The materials provided by the hospital pursuant to this subdivision shall include a comprehensive Patients™ Bill of Rights, including the regulatory patients™ rights for general acute care hospitals contained in Section 70707 of Title 22 of the California Code of Regulations, and the rights afforded to patients under Section 482.13 of Title 42 of the Code of Federal Regulations.

(B) The hospital may also provide written materials regarding the hospitalsexpectations of patients and patients™ responsibilities while the patient is receiving care at the hospital. This paragraph shall not be construed to require the hospital to create any additional written materials regarding the hospitalsexpectations of patients and patients™ responsibilities.

(c) Upon the request of the patient, or of the patientsnext of kin or agent under a durable power of attorney for health care, a representative of any facility or hospital providing patients™ rights information or other documentation described in this section shall explain the materials provided.

(d) This section shall not be construed to require the disclosure of patient information that would otherwise be exempt from disclosure.

(Added by Stats. 2002, Ch. 550, Sec. 2. Effective January 1, 2003.)

123222.3.

(a)A health facility at which a mammography examination is performed shall, if a patient is categorized by the facility as having heterogeneously dense breasts or extremely dense breasts, based on the Breast Imaging Reporting and Data System established by the American College of Radiology, include in the summary of the written report that is sent to the patient, as required by federal law, the following notice:

Your mammogram shows that your breast tissue is dense. Dense breast tissue is common and is not abnormal. However, dense breast tissue can make it harder to evaluate the results of your mammogram and may also be associated with an increased risk of breast cancer.

This information about the results of your mammogram is given to you to raise your awareness and to inform your conversations with your doctor. Together, you can decide which screening options are right for you. A report of your results was sent to your physician.

(b)(1)This section shall not be deemed to create a duty of care or other legal obligation beyond the duty to provide notice as set forth in this section.

(2)This section shall not be deemed to require a notice that is inconsistent with the provisions of the federal Mammography Quality Standards Act (42 U.S.C. Sec. 263b) or any regulations promulgated pursuant to that act.

(c)This section shall remain in effect only until January 1, 2025, and as of that date is repealed.

(Amended by Stats. 2018, Ch. 332, Sec. 1. (SB 1034) Effective January 1, 2019. Repealed as of January 1, 2025, by its own provisions.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 1. GENERAL ADMINISTRATION [123100 - 123223]__

(Part 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 5. ChildrensMedical Services Rebate Fund [123223- 123223.]__

(Chapter 5 added by Stats. 2004, Ch. 228, Sec. 5.)

123223.

(a) The ChildrensMedical Services Rebate Fund is hereby created as a special fund in the State Treasury.

(b) All rebates for the delivery of health care, medical supplies, pharmaceuticals, including blood replacement products, and equipment for clients enrolled in the state funded Genetically Handicapped Persons Program, Chapter 2 (commencing with Section 125125) of Part 5, and the California ChildrensServices Program, Article 5 (commencing with Section 123800) of Chapter 3 of Part 2, and, notwithstanding Section 16305.7 of the Government Code, interest earned on these moneys, shall be deposited in the ChildrensMedical Services Rebate Fund exclusively to cover costs related to services, and the administration of services, provided through the Genetically Handicapped Persons Program and California ChildrensServices Program.

(c) Notwithstanding Section 13340 of the Government Code, moneys in the ChildrensMedical Services Rebate Fund are continuously appropriated without regard to fiscal year to the State Department of Health Care Services and available for expenditure for those purposes specified under this section.

(Amended by Stats. 2015, Ch. 303, Sec. 351. (AB 731) Effective January 1, 2016.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. General Provisions [123225 - 123371]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 1. Maternal, Child, and Adolescent Health [123225 - 123260]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 8.)

123225.

The department shall maintain a program of maternal and child health.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123230.

The department may investigate, and disseminate educational information relating to, conditions affecting the health of the children of this state.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123232.

(a) The department shall develop or obtain a brochure to educate pregnant women and new parents about the important role in maintaining a healthy lifestyle and preventing chronic diseases of both of the following:

(1) Eating a diet rich in fruits and vegetables.

(2) Staying active every day.

(b) The brochure shall address how proper nutrition and exercise help prevent the development of chronic disease in pregnant women, new mothers, and young children. The brochure shall also include information regarding the critical role of fruits and vegetables in a personsdiet, especially as an important source of vitamins and nutrients to new mothers and their breast milk.

(c) The department shall include the brochure on the departmentsWeb site.

(d) The brochure shall be distributed as follows:

(1) By the department to each individual who contacts the BabyCal program and receives a package of information from the program.

(2) By a provider to each participant in the Access for Infants and Mothers (AIM) program one time during the participantspregnancy.

(e) The brochure shall be available in both English and Spanish.

(f) This section shall be implemented only if, and to the extent that, federal or private funding, or both, are available for that purpose.

(Added by Stats. 2003, Ch. 879, Sec. 2. Effective October 12, 2003.)

123235.

The program may include the provision of educational, preventative, diagnostic and treatment services, including medical care, hospitalization and other institutional care and aftercare, appliances and facilitating services directed toward reducing infant mortality and improving the health of mothers and children. The department may make grants or contracts or advance funds from any funds that are made available for the purposes of the Maternal and Child Health Program Act (Section 27).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123240.

(a) The Maternal and Child Health Branch of the department shall conduct a pilot project to assess the effectiveness of daily ambulatory uterine monitoring devices and services in reducing preterm births in Medi-Cal eligible women.

(b) The department shall implement the pilot program to assess the incidence of preterm births in 1,000 women at high risk of preterm birth, 500 of whom shall be provided daily ambulatory uterine monitoring services between the 23rd and 36th weeks of gestation and 500 of whom shall be provided routine prenatal care augmented by training in palpatation. Women participating in the pilot program shall be Medi-Cal eligible women. To the maximum extent possible these services shall be prescribed by providers participating in other programs administered by the Maternal and Child Health Branch of the department or the comprehensive perinatal program.

(c) Women shall be deemed to be at high risk if they have multiple gestation or any two of the following risk factors for preterm labor; uterine malformation, a history of preterm labor or births, cervical incompetence, cervical dilation or effacement, and those patients who have been treated during the current pregnancy for preterm labor.

(d) The department shall select five counties to participate in the project, at least one of which shall be a rural county, and shall reimburse providers of ambulatory uterine monitoring services a fee based on reasonable costs.

(e) (1) The department shall also contract for an evaluation of the pilot project to ascertain whether use of the ambulatory uterine monitoring services significantly reduces the incidence of preterm births. The evaluation shall compare the experimental and control groups and identify the following for each group:

(A) The number of preterm births.

(B) The number of hospital days used by the mother prior to delivery.

(C) The number of hospital days used by the mother and child after delivery, including neonatal intensive care.

(D) The number of children born with developmental disabilities or conditions that may lead to developmental disabilities.

(E) The costs of providing prenatal services.

(2) The evaluation shall also project the costs associated with the health care provided to the mother and child during the course of the pilot project and, if feasible, shall project the longer term health care costs of children born prematurely, including costs of services provided to the developmentally disabled.

(3) The department may enter into the contract on a sole source basis.

(f) (1) The pilot project established pursuant to this section shall be considered successful if it shows that the experimental group, when compared to the control group, had all of the following:

(A) A 20-percent reduction in the number of premature births.

(B) A 20-percent reduction in the number of antepartum hospitalization days.

(C) A 20-percent reduction in the number of neonatal intensive care unit days for premature births.

(D) A 20-percent reduction in total patient costs.

(2) The department shall submit the evaluation to the Legislature by September 1, 1990.

(g) (1) The department shall immediately seek any federal waivers necessary to ensure full federal financial participation in the pilot program established pursuant to this section.

(2) The department shall not implement the pilot program under this section until necessary federal waivers are received.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123245.

The Maternal and Child Health Program Act (Section 27) does not give the power to force compulsory medical or physical examination of children.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123250.

Upon request the department shall advise all public officers, organizations, and agencies interested in the health and welfare of mothers and children in the state.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123255.

(a) The department may maintain a maternal and child health program in each county.

(b) Notwithstanding any other provision of law, the department may allocate, for the purposes of maintaining a maternal and child health program, to a county an amount determined in a manner as the director shall provide. The total of all county allocations shall not exceed the annual appropriation for this purpose.

(c) To be considered for an allocation, the countysgoverning board shall submit a plan and budget for the countysprogram in accordance with maternal and child health plans and priorities to be approved by the department under Title V of the Public Health Service Act (42 U.S.C. Sec. 701 et seq.). The department shall establish the procedures and format for submission of the plan and budget. The plan shall conform to the departmentsmaternal and child health priorities that are in accordance with the core public health functions of needs assessment, policy development, and assurance.

(d) The department shall establish minimum standards that govern the basis for allocations to counties, including, but not limited to, the services to be provided, administration, staffing, fiscal accountability, and eligibility for services. The department may recoup or withhold all or part of a countysallocation for failure to comply with those standards.

(e) Claims for reimbursement shall be made in a manner as provided by the director for activities provided in accordance with the plan and budget for the fiscal year in which the expenses upon which the claim is based are incurred.

(f) There shall be no reimbursement for any of the following:

(1) Projects or programs identified unless previously approved by the department as part of the maternal and child health plan.

(2) Capital improvements.

(3) The purchase or construction of buildings except for the equipment items and remodeling expenses as may be allowed by the department on a case-by-case basis.

(g) The department and counties shall maximize the use of federal funds available to implement this section, including using state or county funds to match funds claimable under Title XIX of the federal Social Security Act (42 U.S.C. Sec. 1396 et seq.).

(h) (1) For purposes of this program, the department shall reimburse a county pursuant to this section in lieu of renewing or commencing a cooperative agreement with a county for the operation of a maternal and child health program.

(2) It is the intent of the Legislature that cooperative agreements between the department and a county for the operation of a maternal and child health program pursuant to this section be replaced by the process described in this section beginning with the 1997“98 fiscal year.

(Added by Stats. 1997, Ch. 294, Sec. 25. Effective August 18, 1997.)

123259.

(a)The Legislature finds and declares that there continues to be a statewide gap between mortality rates for Black infants and those for other population groups. While there have been modest but statistically significant declines in infant mortality generally, including a decline in Black infant mortality, the rate of mortality among Black infants continues to be two to four times higher than the rates for other groups statewide. Furthermore, preterm birth, which is the leading cause for infant death, has increased for the third straight year in California. The social support, stress management, and empowerment model of the Black Infant Health Program is an evidence-informed intervention program designed to reduce Black infant mortality. Other interventions that show promise but do not currently receive state support would enhance the impact of current funding for Black infant health.

(b)It is the intent of the Legislature to promote the establishment of Community Centers of Excellence in perinatal health based on public health science concerning the causes of persistent inequality and current best practices to narrow the gap. It is the further intent of the Legislature to direct funding to local health

jurisdictions to ensure the leadership and coordination required for widespread and lasting change in public awareness and in public health and clinical practice.

(Amended by Stats. 2023, Ch. 174, Sec. 1. (AB 1701) Effective January 1, 2024.)

123260.

(a)Subject to an appropriation in the annual Budget Act for this purpose, the State Department of Public Health shall establish the California Perinatal Equity Initiative to expand the scope of interventions provided under the Black Infant Health Program. The initiative shall foster Community Centers of Excellence in perinatal health and promote the use of interventions designed to fill gaps in current programming offered through the Black Infant Health Program.

(b)(1)As part of the initiative described in subdivision (a), the department shall develop a process to allocate funds to up to 15 local health jurisdictions and to work collaboratively with state and local Black Infant Health programs for the purpose of improving Black infant birth outcomes and reducing infant mortality.

(2)Participation in the initiative described in subdivision (a) is optional and local health jurisdictions that participate in the program shall agree to the terms of this article.

(3)Allocations made pursuant to paragraph (1) shall be used by local health jurisdictions for any of the following purposes:

(A)Creating a local grant program to develop local Community Centers of Excellence in perinatal health. Recipients of local grants shall be hospitals, federally qualified health centers, health centers that are closely related to federally qualified health centers, womenshealth clinics, county clinics, clinics operated by a private nonprofit organization that qualifies under Section 501(c)(3) of the United States Internal Revenue Code, or community-based organizations that have demonstrated capacity to work with public health and health care systems as well as within the Black community. Recipients of local grants shall implement or expand at least two of the following:

(i)An evidence-based or evidence-informed group prenatal care program that has shown promise in reducing the incidence of adverse birth outcomes and that includes, but is not limited to, improvement in health provider preterm birth screening and ongoing, risk-appropriate care for Black women to better identify and prevent preterm births.

(ii)Pregnancy intentionality, preconception, and interconception care programs.

(iii)Fatherhood or partnership initiatives that support engagement of partners in pregnancy and childbearing.

(iv)Evidence-based or evidence-informed home visitation programs inclusive of case management to increase advocacy and empowerment for Black women and to ensure linkages to prenatal care, monitoring, life planning, birth spacing, infant development, and well-being.

(v)A strategy that is not described in clauses (i) to (iv), inclusive, that is justified based on local needs and resources, if a local health jurisdiction determines that the strategy combines social interventions with medical interventions, including integration of mental health services in perinatal health care and other wraparound services, including, but not limited to, assessment, personalized case management, doulas, patient navigator services that increase patient empowerment, and access to and utilization of evidence-

based interventions that reduce preterm birth and infant mortality, and that the strategy is evidence-based or evidence-informed in relation to reducing adverse birth outcomes.

(B)Providing technical assistance to recipients of local grants, and coordinating with local partners, such as hospitals, federally qualified health centers, health centers that are closely related to federally qualified health centers, county clinics, and other community-based organizations.

(C)Carrying out local public awareness efforts around birth outcome inequities and the importance of preconception health, group prenatal care, evidence-based interventions to prevent preterm births, and social support during pregnancy, and to promote the role of fathers and partners as supports for women during and after pregnancy.

(D)Participating in collaborative statewide learning efforts and sharing best practices.

(E)Collecting and reporting data and information on process and outcome measures regarding the programs and activities carried out with allocated funds.

(c)The department shall, as part of implementing the initiative, consult with stakeholders, including, but not limited to, representatives of county health departments, current or former participants in the strategies described in subparagraph (A) of paragraph (3) of subdivision (b), health providers, or organizations representing health providers that provide services to improve Black infant health outcomes, advocates, and any appropriate state department or agency.

(d)Funds provided to an eligible entity pursuant to this section shall supplement, and not supplant, funds from other sources for infant health equity programs or initiatives.

(e)For purposes of this section, local health jurisdiction means a county, city, or city and county health department that meets the requirements of Chapter 3 (commencing with Section 101175) of Part 3 of Division 101.

(Amended by Stats. 2023, Ch. 174, Sec. 2. (AB 1701) Effective January 1, 2024.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. General Provisions [123225 - 123371]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2. Women, Infants, and ChildrensNutrition [123275 - 123355]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 8.)

123275.

The Legislature finds that medical, educational and psychological evidence increasingly points to adequate nutrition as a determinant not only of good physical health but also of full intellectual development and educational achievement, with adequate nutrition in the earliest months and years being particularly important for full development of the childsmind and body, that problems of child nutrition cut across income lines and can result not only from low income but also from parental ignorance or neglect and that there is a need for a statewide child nutrition program that has the potential of reaching all pregnant women and mothers of infants.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123279.

(a) It is the intent of the Legislature in adding this section to authorize the establishment of a program designed to implement the federal WIC Farmers™ Market Nutrition Act of 1992 (Public Law 102-314), which is designed to accomplish the following:

(1) Provide resources to persons who are nutritionally at risk, in the form of fresh, high-quality agricultural products from certified farmers™ markets.

(2) Expand the awareness and use of certified farmers™ markets and increase sales at those markets.

(b) The department may establish a program designed to implement the federal WIC Farmers Market Nutrition Act of 1992.

(c) If the program is established, the department shall develop criteria to permit any producer authorized by the department to participate in the program to sell fresh nutritious foods to recipients in exchange for nutrition coupons.

(d) If the program is established, the department shall authorize local agencies to distribute nutrition coupons to all recipients, as defined by subdivision (c) of Section 123285 of the Health and Safety Code.

(e) If the program is established, the department shall design the nutrition coupon issuance process to ensure that nutrition coupons are bearer-only, nonnegotiable, and nontransferable by the recipient and that they may be redeemed by recipients only to purchase fresh produce and redeemed for reimbursement only by authorized producers.

(f) It is the intent of the Legislature that the program established by this section to implement the federal WIC Farmers™ Market Nutrition Act of 1992 (Public Law 102-314) be funded 70 percent by federal funds and 30 percent by private or other funds, as specified by the federal act.

(Added by Stats. 1997, Ch. 294, Sec. 26. Effective August 18, 1997.)

123280.

(a) The department may conduct a statewide program for providing nutritional food supplements to low-income pregnant women, low-income postpartum and lactating women, and low-income infants and children under five years of age, who have been determined to be at nutritional risk by a health professional, based on criteria established by the department. Any program established pursuant to this section shall do all of the following:

(1) Comply with all the requirements of this article.

(2) Be conducted only if a special project is authorized by inclusion in the Budget Act or notification is provided to the Legislature pursuant to Section 28 of the Budget Act, and federal funds are appropriated therefor.

(3) Be known as the California Special Supplemental Nutrition Program for Women, Infants, and Children (WIC Program).

(b) The department shall administer this article and shall adopt minimum standards and regulations as necessary.

(c)In order to be in conformity with federal law and to remain in compliance with federal funding, the department shall adopt all mandatory requirements and guidelines set forth in federal law and federal regulation for the federal Special Supplemental Nutrition Program for the WIC program, including, but not limited to, the Child Nutrition Act of 1966, and the amendments thereto (Chapter 13A (commencing with Section 1786) of Title 42 of the United States Code), Part 246 of Title 7 of the Code of Federal Regulations, and federal memoranda and guidance letters clarifying and interpreting those laws and regulations as the requirements for the WIC Program. In adopting the federal mandatory requirements and guidelines, the department shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The department may adopt these requirements and guidelines by bulletin or similar instruction.

(Amended by Stats. 2012, Ch. 787, Sec. 2. (AB 2322) Effective September 29, 2012.)

123285.

As used in this article, the following definitions shall apply:

(a)Health professional means a physician and surgeon, registered nurse, nutritionist, dietitian, or state or local medically trained health official, who is competent to professionally evaluate nutritional need and to authorize supplemental foods, as determined by the state department.

(b)Low income means an income of not more than 185 percent of the poverty level as determined by the federal poverty income guidelines promulgated by the United States Department of Health and Human Services.

(c)Recipient means low-income pregnant women, low-income post partum and lactating women, and low-income infants and children under five years of age, who are determined to be at nutritional risk by a health professional, based on criteria established by the state department.

(d)Nutrition coupon means a check that is limited as to value, food type, and food quantity and that has a limited period of validity.

(e)WIC Program means the California Special Supplemental Nutrition Program for Women, Infants, and Children.

(Amended by Stats. 2012, Ch. 787, Sec. 3. (AB 2322) Effective September 29, 2012.)

123290.

The department, under any program established pursuant to this article, shall do all of the following:

(a) Establish guidelines to determine resource allocation giving consideration to an areasnutritional need.

(b) Designate the counties within which a program will be conducted, with the approval of those counties.

(c) Establish the minimum nutritional requirements for recipients.

(d) Designate specific supplemental foods to meet the minimum nutritional requirements for recipients.

(e) Develop and maintain a system for the delivery of supplemental foods to recipients through the distribution of supplemental foods designated in subdivision (d) and nutrition coupons when other methods of delivery are impractical.

(f) (1) Develop and coordinate a smoking cessation component of program operations, with consideration of local agency plans, needs, and available tobacco education resources.

(2) In consultation with the directors of local agencies and with other individuals with expertise in the field of smoking cessation, identify and promulgate a strategy for smoking cessation in the state plan of operation and administration of the WIC program, including, but not limited to all of the following:

(A) Designating an agency staff member to coordinate smoking cessation efforts.

(B) Providing training on smoking cessation and tobacco education to designated staff members of local agencies who are responsible for counseling participants in the program.

(3) Develop and implement procedures to ensure that tobacco use screening and education, including, but not limited to, smoking cessation counseling and referrals where appropriate, are offered to all participants.

(g) (1) Establish guidelines and criteria to be used by participating local agencies, when determining recipient eligibility, that require, in addition to a recipient being a low-income pregnant woman, or a low-income postpartum and lactating woman, or a low-income infant or child under five years of age, that the recipient be at nutritional risk.

(2) A health professional on the staff of the local agency shall determine if a person is at nutritional risk through a medical or nutritional assessment. This determination may be based on referral data submitted by a health professional not on the staff of the local agency. The personsheight or length and weight shall be measured, and a hematological test for anemia, such as a hemoglobin or hematocrit test, shall be performed. However, the tests shall not be required for infants under six months of age. In addition, the blood test shall not be required for children who were determined to be within the normal range at their last program certification. However, the blood test shall be performed on the children at least once a year. A breastfeeding woman may be certified if the child she is breastfeeding is determined to be at nutritional risk and the woman meets the income eligibility criteria.

(h) Operate the program as an adjunct to existing health services.

(i) Seek federal funds to carry out this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123295.

Nutrition coupons in an amount sufficient to meet the nutritional needs of a recipient for one month shall be granted to a recipient by facilities and persons referred to in subdivision (g) of Section 123290 upon the written finding of nutritional need by the recipientsphysician or other health professional.

(Amended by Stats. 1997, Ch. 97, Sec. 8. Effective July 21, 1997.)

123300.

The department may, under any program established pursuant to this article, investigate the feasibility of contracting with one or more banks in the area served by the program for the redemption of nutrition coupons.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123302.

(a)(1)Notwithstanding any other law, the department may design, implement, and fund an electronic benefits transfer (EBT) system for the California Special Supplemental Food Program for Women, Infants, and Children. Sections 10066, 10067, and 10068 of, and subdivision (m) of Section 10072 of, the Welfare and Institutions Code, shall apply to the administration of this section.

(2)The department shall not implement any EBT system authorized by this section until the department completes a feasibility study, and funding for the system is provided in the annual Budget Act.

(b)The department shall seek the advice of the Electronic Benefits Transfer Committee, created by Section 10067 of the Welfare and Institutions Code, in implementing this section, and shall obtain the approval of the United States Department of Agriculture, which is the federal governing agency, prior to the establishment of any EBT system.

(c)The department shall develop a plan to determine the feasibility of implementing an EBT system for the California Special Supplemental Food Program for Women, Infants, and Children by January 1, 2003, and shall report its findings to the Legislature by July 1, 2003.

(Amended by Stats. 2014, Ch. 720, Sec. 2. (AB 1614) Effective January 1, 2015.)

123305.

The department, under any program established pursuant to this article, may collect data to determine the need for and the continuation of a supplemental nutritional program for recipients under this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123310.

The department, under any program established pursuant to this article, shall authorize retail food vendors, by written agreement, to accept nutrition coupons and reimbursement according to the system developed by the department. The department shall authorize an appropriate number and distribution of food vendors in order to ensure adequate participant convenience and access and to ensure that state or local officials can effectively manage review of authorized food vendors in their jurisdictions. The department shall establish criteria to limit the number of retail food vendors with which the department enters into agreements. The criteria, at a minimum, shall include:

(a) The prices the vendor charges for foods in relation to other vendors in its peer group. For purposes of this subdivision, peer group means a group of vendors with similar characteristics that may include, but shall not be limited to, any or all of the following:

(1) Geographic location of the store.

(2) Store size.

(3) Type of store.

(4) Number of cash registers.

(5) Sales volume relating to any program established pursuant to this article.

(6) Gross sales volume.

(7) Inventory.

(8) Other vendor characteristics established by the department.

(b) The ability of the department to ensure that authorized supplemental foods will be provided through in-store compliance purchases.

(c) The adequacy of the shelf stock of the authorized supplemental foods.

(d) Past performance of the vendor in compliance with this article and with CalFresh.

(Amended by Stats. 2011, Ch. 227, Sec. 13. (AB 1400) Effective January 1, 2012.)

123312.

(a)The department shall specify the criteria the department shall use and the actions the department shall take when initiating a moratorium on new WIC Program retail food vendor location applications. Notwithstanding any other provision of law, the department may, without taking regulatory action pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, implement, interpret, or make specific this section by means of a vendor bulletin when initiating a moratorium on new WIC Program retail food vendor location applications.

(b)A vendor bulletin initiating a moratorium, at a minimum, shall include all of the following:

(1)The reason for, and the maximum duration of, a moratorium.

(2)An action plan with specific steps the department plans to take by the identified end date of the moratorium that addresses the reason or need for the moratorium. The department shall make this information, including any changes to the action plan, available to the public by posting this information on the departmentsInternet Web site and through other forms of electronic communication.

(3)Exceptions for processing applications during the moratorium period, including the processing of a retail food vendorsapplication to add a specific store location to a current master vendor agreement if the department received the vendorscompleted application for that store location prior to the effective date of the moratorium.

(c)The department shall provide retail food vendors with a minimum of 30 days™ notice prior to the effective date of, or extension of, a moratorium.

(d)The department shall seek any federal approvals necessary to implement this section.

(e)Moratoriums required by federal directive shall not be subject to the requirements of this section.

(Added by Stats. 2012, Ch. 787, Sec. 4. (AB 2322) Effective September 29, 2012.)

123315.

(a) The department, under any program established pursuant to this article, shall ensure that, at a minimum, the authorized vendor shall do all of the following:

(1) Redeem nutrition coupons only from persons bearing appropriate identification provided by the department.

(2) Redeem nutrition coupons for only those foods specified thereon.

(3) Redeem nutrition coupons at an amount that is the same as, or lesser than, that charged other customers for identical foods.

(4) Redeem and deposit nutrition coupons during specified valid periods.

(5) Deposit the nutrition coupons directly in the vendorsbank account and not transfer them for cash payment, credit, or any other benefit to any party other than the vendorsbank or the state.

(6) Maintain for a period of at least three years records that shall include, but not be limited to, all of the following:

(A) Inventory records showing all purchases, both wholesale and retail, in the form of invoices that identify the quantity and prices of specified authorized supplemental foods.

(B) Sales and use tax returns.

(C) Books of account.

(D) Other pertinent records that the department determines are necessary to substantiate the volume and prices charged to the state department through the nutrition coupons redeemed by the vendor.

(7) Accept up to the maximum allowable department reimbursement as payment in full for the maximum allowable quantity of food listed on the food instrument.

(8) Comply with department rules of vendor authorization, reimbursement, and monitoring that control program food costs, maximize participant access, and ensure program integrity.

(b) The department shall adopt regulations to implement this section and Section 123310 in accordance with the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The adoption of any emergency regulations on or after January 1, 2000, shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Emergency regulations adopted pursuant to this section shall remain in effect for no more than 180 days.

(Amended by Stats. 1999, Ch. 21, Sec. 3. Effective May 4, 1999.)

123320.

(a) The department shall inform the retail food vendors of, and include in the written agreement with the vendors, guidelines consistent with Section 123315, and shall print on each coupon the following:

(1) Specific supplemental foods and the quantities thereof for which the coupon may be redeemed.

(2) The period of validity of the nutrition coupon.

(3) The maximum value for which the nutrition coupon may be redeemed.

(b) To the extent feasible, the information required pursuant to subdivision (a) shall be provided in a form that may be read by optical scanning technology readily available to vendors. The department shall, no later than March 15, 2002, report to the Legislature on the feasibility and costs of providing the information in this form. This subdivision shall be implemented only to the extent that funds for its purposes are appropriated in the annual Budget Act or another statute.

(Amended by Stats. 2001, Ch. 842, Sec. 3. Effective January 1, 2002.)

123322.

(a)In order to effectively manage and administer the federal and state requirements for the vendors in the WIC Program, and remain in compliance with the conditions of federal funding, the department shall establish requirements for all of the following:

(1)Peer groups and a corresponding reimbursement system.

(2)Criteria used for vendor authorization.

(3)The WIC Program authorized foods.

(b)Notwithstanding any other provisions of law, including the requirement in Section 123315 for enacting regulations to implement that section and Section 123310, the department may, without taking regulatory action pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, implement, interpret, or make specific this section by means of an action by bulletin or similar instruction. The department shall provide notice to, and consult with, affected stakeholders, including vendors, manufacturers, local agencies, participants, advocates, consumer groups, and their respective associations, in the process of implementing, interpreting, or making specific this statute, and meet all of the following requirements:

(1)The notice shall be provided electronically to the stakeholders identified in this subdivision and shall also be posted on the programsInternet Web site. The notice shall state the reason for the change, the authority for the change, and the nature of the change. The notice shall provide opportunity for written comment by indicating the address to which to send the comment. The address may be an electronic site. The notice shall allow for at least 20 calendar days for comments to be submitted. The notice shall also provide the date of a consultation meeting with a stakeholder workgroup consisting of, but not limited to, representatives of stakeholder associations, stakeholder representatives, and consumer groups, to ensure stakeholder participation in the implementation of this section.

(2)The department shall consider all comments submitted before the due date, though it may withdraw the proposed action at any time by notification on its Internet Web site or notification by electronic means. Unless the department withdraws the action, it shall publish the final action on its Internet Web site no later than 120 days after the consultation with stakeholders or the last day for comments, whichever is later. If the department fails to issue a final action within 120 days from the consultation with stakeholders or the last day for comments, whichever is later, the proposed action will be deemed withdrawn. The department may finalize a proposed action that has been withdrawn by renoticing the proposed action for comment pursuant to paragraphs (1) to (3), inclusive.

(3)The department shall provide at least 30 days™ advance notice of the final action. In the final action, the department shall respond to the comments received.

(4)The department shall establish a process to collect stakeholder feedback regarding the impact of the final action and any policy adjustments that should be considered postimplementation.

(Added by Stats. 2012, Ch. 787, Sec. 5. (AB 2322) Effective September 29, 2012.)

123325.

A retail food vendor or any other person who knowingly redeems coupons in excess of the price charged other customers for identical foods, or who provides anything of value other than the specified foods, or who fails to provide inventory records to substantiate purchases for resale of authorized supplemental foods is subject to all sanctions set forth in federal regulation for the Special Supplemental Food Program for Women, Infants, and Children, that is provided for in Section 246 and following of Title 7 of the Code of Federal Regulations. The department may disqualify a food vendor who is currently disqualified from CalFresh.

(Amended by Stats. 2011, Ch. 227, Sec. 14. (AB 1400) Effective January 1, 2012.)

123327.

(a)The department shall provide written notice to a retail food vendor if the department determines that the vendor has committed an initial violation for which a pattern of the violation must be established to impose a sanction. Notice shall be provided no later than 30 days after the department determines the first investigation that identified the violation is complete.

(b)The written notice shall be delivered to the vendor 30 days before the department conducts a second investigation for purposes of establishing a pattern of the violation to the vendorsmost recent business ownership address on file with the department or to the vendor location upon identification of a violation during vendor monitoring, as defined by Section 40743 of Title 22 of the California Code of Regulations.

(c)The written notice shall include a description of the initial violation and may include information to assist the vendor to take corrective action, including, but not limited to, a 60-day window that includes the date of the violation.

(d)For purposes of this section, violation means a violation set forth in Section 246.2 of Title 7 of the Code of Federal Regulations.

(e)It is the intent of the Legislature in enacting this section to clarify existing law.

(Amended by Stats. 2013, Ch. 76, Sec. 126. (AB 383) Effective January 1, 2014.)

123330.

Any person or persons who have embezzled, willfully misapplied, stolen, or fraudulently obtained funds or benefits pursuant to this article shall be subject to the penalties set forth in federal regulations for the Special Supplemental Food Program for Women, Infants, and Children, that is provided for in Section 246 and following of Title 7 of the Code of Federal Regulations.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123335.

Any officer, employee, or agent of the department may enter the place of business of any vendor transacting nutrition coupons to verify food prices, to witness or investigate procedures, to conduct financial audits, or to otherwise determine compliance of the vendor with this article and the vendor agreement.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123340.

(a) Except as provided in subdivision (c), if any amount is due and payable and unpaid as a result of an overpayment to a vendor or local agency established under this article that is identified through an audit or examination conducted by or on behalf of the director and the department has issued an audit or examination finding, or an administrative decision resulting from an administrative appeal of the audit or examination finding that has become final, the director may file in the office of the County Clerk of Sacramento County and with the county clerk of the county in which the vendor has his or her principal place of business, a certificate containing the following:

(1) The amount due and owing and unpaid plus the applicable interest at a rate equal to the monthly average of the rate received on investments in the Pooled Money Investment Fund commencing on the date that an audit or examination finding, made pursuant to Section 316.5 is mailed to the vendor or local agency.

(2) A statement that the director has complied with this article prior to the filing of the certificate.

(3) A request that judgment be entered against the vendor or local agency in the amount set forth in the certificate.

The county clerk immediately upon the filing of the certificate, shall enter a judgment for the State of California against the vendor or local agency in the amount set forth in the certificate.

Notwithstanding any provision of law to the contrary, the Special Supplemental Food Program for Women,

Infants, and Children shall pay the normal fee charged by the county for the certificate of judgment.

Nothing in this subdivision shall prevent the director from using any other means available in law to recover amounts due and owing and unpaid from the vendor or local agency.

(b) The dates when the department may file the certificate and seek judgment from the county clerk, as provided in subdivision (a), depends on whether the audit finding is appealed by the vendor or local agency.

(1) If the audit finding or lower level administrative decision is not appealed, the department may file the certificate the day after the end of the appeal period or anytime thereafter, but not later than three years after the payment became due and owing.

(2) If the audit finding or lower level administrative decision is appealed to the director, the department may file the certificate no earlier than 90 days after the issuance of the final decision by the director, but no later than three years after the issuance of the final decision.

(c) If the vendor seeks judicial review of the final decision of the director pursuant to Section 1094.5 of the Code of Civil Procedure, and notice of the action is properly served on the director within 90 days of the issuance of the final decision, the department shall not file any certificate as provided in subdivision (a).

If the vendor does not seek judicial review of the final decision of the director or does not properly serve notice within 90 days from the date of the final decision of the director, the department may file the certificate and obtain judgment pursuant to subdivision (a).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123345.

An abstract of judgment obtained pursuant to subdivisions (a) and (b) of Section 123340 or a copy thereof may be recorded with the county recorder of any county. From the time of recording, the judgment shall constitute a lien upon all real or personal property owned by the vendor at the time, or that the vendor may afterwards, but before the lien expires, acquire. The lien shall have the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of recording of the abstract of judgment obtained pursuant to subdivisions (a) and (b) of Section 123340 unless sooner released or otherwise discharged.

The lien may, within 10 years from the date of recording of the abstract of judgment or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by recording a new abstract in the office of the county recorder of any county. From the date of the recording the lien shall be extended for 10 years unless sooner released or otherwise discharged.

(Amended by Stats. 1997, Ch. 97, Sec. 9. Effective July 21, 1997.)

123350.

The department shall arrange for the conduct of periodic audits of participating local agencies.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123355.

The department shall provide a hearing procedure whereby any food vendor or local agency may appeal any adverse action taken by the department affecting the vendorsor local agencysparticipation in the California Supplemental Food Program for Women, Infants, and Children. The hearing procedure shall be in accordance with the requirements of the federal regulations for the Special Supplemental Food Program for Women, Infants, and Children, that is contained in Section 246 et seq. of Title 7 of the Code of Federal Regulations.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. General Provisions [123225 - 123371]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 3. Breast Feeding [123360 - 123367]__

(Heading of Article 3 renumbered from Article 3.35 (and relocated from Chapter 2 of Part 1 of Division 1) by Stats. 1996, Ch. 1023, Sec. 113.)

123360.

(a)The State Department of Public Health shall include in its public service campaign the promotion of mothers breast-feeding their infants.

(b)The department shall develop a model eight-hour training course of hospital policies and recommendations that promote exclusive breast-feeding, incorporating available materials already developed by the department, and shall specify hospital staff for whom this model training is appropriate. The department shall also provide the model training materials to hospitals, upon request.

(Amended by Stats. 2007, Ch. 460, Sec. 3. Effective January 1, 2008.)

123361.

To the extent that non-United States Department of Agriculture (USDA) federal funds and private grants or donations are made available for this purpose, the State Department of Public Health shall, no later than July 1, 2008, begin expansion of the breast-feeding peer counseling program at local agency California Special Supplemental Food Program for Women, Infants, and Children (WIC) sites. Plans for the expansion of the program shall take into account local WIC agency program models that have demonstrated the greatest improvement in breast-feeding rates, including exclusive breast-feeding rates. Program expansion shall be contingent upon the availability of non-USDA federal funds and private grants or donations being made available for this purpose. Nothing in this section shall impact USDA federal funding for the WIC Supplemental Food Program or the breast-feeding peer counseling program at local agency WIC sites.

(Added by Stats. 2007, Ch. 460, Sec. 4. Effective January 1, 2008.)

123365.

(a) All general acute care hospitals, as defined in subdivision (a) of Section 1250, and all special hospitals providing maternity care, as defined in subdivision (f) of Section 1250, shall make available a breast feeding consultant or alternatively, provide information to the mother on where to receive breast feeding information.

(b) The consultant may be a registered nurse with maternal and newborn care experience, if available.

(c) The consultation shall be made available during the hospitalization associated with the delivery, or alternatively, the hospital shall provide information to the mother on where to receive breast feeding information.

(d) The patient may decline this consultation or information.

(Added by renumbering Section 319.55 (as added by Stats. 1995, Ch. 463) by Stats. 1996, Ch. 1023, Sec. 115. Effective September 29, 1996.)

123366.

(a)This section shall be known, and may be cited, as the Hospital Infant Feeding Act.

(b)For the purposes of this section, the following definitions shall apply:

(1)Perinatal unit means a maternity and newborn service of the hospital for the provision of care during pregnancy, labor, delivery, and postpartum and neonatal periods with appropriate staff, space, equipment, and supplies.

(2)Baby-Friendly Hospital Initiative means the program sponsored by the World Health Organization (WHO) and the United Nations ChildrensFund (UNICEF) that recognizes hospitals that offer an optimal level of care for infant feeding.

(3)Model Hospital Policy Recommendations means the most recently updated guidelines approved and published by the State Department of Public Health entitled, Providing Breastfeeding Support: Model Hospital Policy Recommendations.

(c)All general acute care hospitals and special hospitals, as defined in subdivisions (a) and (f) of Section 1250, that have a perinatal unit shall have an infant-feeding policy. The infant-feeding policy shall promote breastfeeding, utilizing guidance provided by the Baby-Friendly Hospital Initiative or the State Department of Public Health Model Hospital Policy Recommendations. The infant-feeding policy may include guidance on formula supplementation or bottlefeeding, if preferred by the mother or when exclusive breastfeeding is contraindicated for the mother or infant.

(d)The infant-feeding policy shall be routinely communicated to perinatal unit staff, beginning with hospital orientation, and shall be clearly posted in the perinatal unit or on the hospital or health system Internet Web site.

(e)The infant-feeding policy shall apply to all infants in a perinatal unit.

(f)This section shall become operative January 1, 2014.

(Added by Stats. 2011, Ch. 511, Sec. 2. (SB 502) Effective January 1, 2012. Section operative January 1, 2014, by its own provisions.)

123367.

(a)For the purposes of this section, the following definitions shall apply:

(1)Baby-Friendly Hospital Initiative means the program sponsored by the World Health Organization (WHO) and the United Nations ChildrensFund (UNICEF) that recognizes hospitals that offer an optimal level of care for infant feeding.

(2)Perinatal unit means a maternity and newborn service of the hospital for the provision of care during pregnancy, labor, delivery, and postpartum and neonatal periods with appropriate staff, space, equipment, and supplies.

(b)All general acute care hospitals and special hospitals, as defined in subdivisions (a) and (f) of Section 1250, that have a perinatal unit shall, by January 1, 2025, adopt the Ten Steps to Successful Breastfeeding, as adopted by Baby-Friendly USA, per the Baby-Friendly Hospital Initiative, or an alternate process adopted by a health care service plan that includes evidence-based policies and practices and targeted outcomes, or the Model Hospital Policy Recommendations as defined in paragraph (3) of subdivision (b) of Section 123366.

(Amended by Stats. 2014, Ch. 71, Sec. 94. (SB 1304) Effective January 1, 2015.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=2.&chapter=1.&article=4.

123370.

The department shall conduct the Umbilical Cord Blood Community Awareness Campaign to do all of the following:

(a)Provide awareness, assistance, and information regarding umbilical cord blood banking options using brochures, television, print media, radio, Internet Web sites, outdoor advertising, and other media, where appropriate to disseminate information to licensed prenatal care providers, Family PACT providers, and pregnant women.

(b)Establish an Internet Web site to provide information about umbilical cord blood banking options that is accessible to prenatal care providers, pregnant women, and the general public.

(c)Undertake public education activities related to umbilical cord blood donation to targeted populations, as appropriate.

(Added by Stats. 2006, Ch. 484, Sec. 2. Effective January 1, 2007.)

123371.

(a)(1)The State Department of Public Health shall develop standardized, objective information about umbilical cord blood donation that is sufficient to allow a pregnant woman to make an informed decision on whether to participate in a private or public umbilical cord blood banking program. The information developed by the department shall enable a pregnant woman to be informed of her option to do any of the following:

(A)Discard umbilical cord blood.

(B)Donate umbilical cord blood to a public umbilical cord blood bank.

(C)Store the umbilical cord blood in a family umbilical cord blood bank for the use by immediate and extended family members.

(D)Donate umbilical cord blood to research.

(2)The information developed pursuant to paragraph (1) shall include, but not be limited to, all of the following:

(A)The current and potential future medical uses of stored umbilical cord blood.

(B)The benefits and risks involved in umbilical cord blood banking.

(C)The medical process involved in umbilical cord blood banking.

(D)Medical or family history criteria that can impact a familysconsideration of umbilical cord banking.

(E)An explanation of the differences between public and private umbilical cord blood banking.

(F)The availability and costs of public or private umbilical cord blood banks.

(G)Medical or family history criteria that can impact a familysconsideration of umbilical cord blood banking.

(H)An explanation that the practices and policies of blood banks may vary with respect to accreditation, cord blood processing and storage methods, costs, and donor privacy.

(I)An explanation that pregnant women are not required to donate their umbilical cord blood for research purposes.

(b)The information provided by the department pursuant to subdivision (a) shall be made available in Cantonese, English, Spanish, and Vietnamese, and shall be updated by the department as needed.

(c)The information provided by the department pursuant to subdivision (a) shall be made available on the Internet Web sites of the licensing boards that have oversight over primary prenatal care providers.

(d)(1)A primary prenatal care provider of a woman who is known to be pregnant may, during the first prenatal visit, provide the information required by subdivision (a) to the pregnant woman.

(2)For purposes of this article, a prenatal care provider means a health care provider licensed pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code, or pursuant to an initiative act referred to in that division, who provides prenatal medical care within his or her scope of practice.

(e)The department shall only implement this article upon a determination by the Director of Finance, that sufficient private donations have been collected and deposited into the Umbilical Cord Blood Education Account, which is hereby created in the State Treasury. The moneys in the account shall be available, upon appropriation by the Legislature, for the purposes of this article. No public funds shall be used to implement this article. If sufficient funds are collected and deposited into the account, the Director of Finance shall file a written notice thereof with the Secretary of State.

(Amended by Stats. 2007, Ch. 517, Sec. 2. Effective January 1, 2008.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 1. Determination of Pregnancy [123375 - 123418]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 8.)

123375.

(a) Except as otherwise provided in subdivision (b), no person shall sell, offer for sale, give away, distribute, or otherwise furnish materials intended to determine the presence of pregnancy, unless that person has obtained a certificate of acceptability from the department declaring that the materials have been approved

as to efficacy and safety by the department.

(b) Subdivision (a) shall not apply to materials intended to determine the presence of pregnancy, that are sold, offered for sale, given away, distributed, or otherwise furnished to a physician and surgeon licensed to practice in this state, a pharmacist licensed to practice in this state, a licensed primary care clinic, a licensed health facility, or a public health agency.

(c) Any person other than a person described in subdivision (b) who intends to sell, offer for sale, give away, distribute or otherwise furnish materials intended to determine the presence of pregnancy shall first make application to the state department for certification of the materials. The department shall also require that an application for certification shall be accompanied by samples of any materials that are the subject of the application as the department may reasonably require.

Any violation of this section is a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123380.

Local public health agencies shall make pregnancy testing services available free or at cost to the person using the services. The results of any pregnancy test shall be confidential.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123385.

It is the intent of the Legislature that the program authorized pursuant to this article be entirely self-supporting, and for this purpose the state department is authorized to establish a schedule of fees for applications for certificates of acceptability that shall provide revenues that shall not exceed the amount necessary, but shall be sufficient to cover all costs incurred in the administration of this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123418.

Subject to all other provisions of this article, all residency programs in obstetrics and gynecology shall comply with the program requirements for residency education in obstetrics and gynecology of the Accreditation Council for Graduate Medical Education, which require that in addition to education and training in in-patient care, the program in obstetrics-gynecology be geared toward the development of competence in the provision of ambulatory primary health care for women, including, but not limited to, training in the performance of abortion services.

(Amended by Stats. 2003, Ch. 62, Sec. 197. Effective January 1, 2004.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2. Abortion [123420 - 123445]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 8.)

123420.

(a) No employer or other person shall require a physician, a registered nurse, a licensed vocational nurse, or any other person employed or with staff privileges at a hospital, facility, or clinic to directly participate in the induction or performance of an abortion, if the employee or other person has filed a written statement with the employer or the hospital, facility, or clinic indicating a moral, ethical, or religious basis for refusal to participate in the abortion.

No such employee or person with staff privileges in a hospital, facility, or clinic shall be subject to any penalty or discipline by reason of his or her refusal to participate in an abortion. No such employee of a hospital, facility, or clinic that does not permit the performance of abortions, or person with staff privileges therein, shall be subject to any penalty or discipline on account of the personsparticipation in the performance of an abortion in other than the hospital, facility, or clinic.

No employer shall refuse to employ any person because of the personsrefusal for moral, ethical, or religious reasons to participate in an abortion, unless the person would be assigned in the normal course of business of any hospital, facility, or clinic to work in those parts of the hospital, facility, or clinic where abortion patients are cared for. No provision of this article prohibits any hospital, facility, or clinic that permits the performance of abortions from inquiring whether an employee or prospective employee would advance a moral, ethical, or religious basis for refusal to participate in an abortion before hiring or assigning that person to that part of a hospital, facility, or clinic where abortion patients are cared for.

The refusal of a physician, nurse, or any other person to participate or aid in the induction or performance of an abortion pursuant to this subdivision shall not form the basis of any claim for damages.

(b) No medical school or other facility for the education or training of physicians, nurses, or other medical personnel shall refuse admission to a person or penalize the person in any way because of the personsunwillingness to participate in the performance of an abortion for moral, ethical, or religious reasons. No hospital, facility, or clinic shall refuse staff privileges to a physician because of the physiciansrefusal to participate in the performance of abortion for moral, ethical, or religious reasons.

(c) Nothing in this article shall require a nonprofit hospital or other facility or clinic that is organized or operated by a religious corporation or other religious organization and licensed pursuant to Chapter 1 (commencing with Section 1200) or Chapter 2 (commencing with Section 1250) of Division 2, or any administrative officer, employee, agent, or member of the governing board thereof, to perform or to permit the performance of an abortion in the facility or clinic or to provide abortion services. No such nonprofit facility or clinic organized or operated by a religious corporation or other religious organization, nor its administrative officers, employees, agents, or members of its governing board shall be liable, individually or collectively, for failure or refusal to participate in any such act. The failure or refusal of any such corporation, unincorporated association or individual person to perform or to permit the performance of such medical procedures shall not be the basis for any disciplinary or other recriminatory action against such corporations, unincorporated associations, or individuals. Any such facility or clinic that does not permit the performance of abortions on its premises shall post notice of that proscription in an area of the facility or clinic that is open to patients and prospective admittees.

(d) This section shall not apply to medical emergency situations and spontaneous abortions.

Any violation of this section is a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123425.

The refusal of any person to submit to an abortion or surgical sterilization or to give consent therefor shall not be grounds for loss of any privileges or immunities to which the person would otherwise be entitled, nor shall submission to an abortion or surgical sterilization or the granting of consent therefor be a condition precedent to the receipt of any public benefits. The decision of any person to submit to an abortion or surgical sterilization or to give consent therefor shall not be grounds for loss of any privileges or immunities to which the person would otherwise be entitled, nor shall the refusal to submit to an abortion or surgical sterilization or to give consent therefor be a condition precedent to the receipt of any public benefits.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123430.

(a)(1)To ensure people have accurate and comprehensive information when accessing abortion services in California, on or before July 1, 2023, the California Health and Human Services Agency, or an entity designated by the agency, shall establish an internet website where the public can access information on abortion services in the state.

(2)The internet website established pursuant to paragraph (1) shall include all of the following information and resources:

(A)A personslegally protected rights to an abortion under state law.

(B)The location of abortion providers or links to the information in the state. Location information shall be posted and updated in a manner that allows people to easily identify the health care providers that provide abortion in the state.

(C)Practical support services, such as airfare, lodging, ground transportation, gas money, meals, dependent childcare, doula support, and translation services, to help a person access and obtain an abortion.

(D)Payment support resources, including coverage options, state programs, and other assistance that is available to help people with the cost of the abortion procedure.

(E)General description of the available types of abortion.

(F)Information to combat misinformation and disinformation, and ensure that people have comprehensive and medically accurate counseling and support services.

(G)Any other information or resources that will assist an individual seeking comprehensive and accurate information about exercising their legal right to abortion and accessing abortion services in the state.

(3)The agency shall consult with subject matter experts when determining the information and resources posted on the internet website. Subject matter experts include, but is not limited to, the Commission on the Status of Women and Girls, the Department of Justice, the State Department of Health Care Services, the Department of Managed Health Care, and organizations that represent patients, providers, and assistants that obtain, provide, or assist a pregnant person to access an abortion.

(4)The internet website shall have mobile capabilities.

(5)The internet website shall comply with Section 508 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794d), regulations implementing that act as set forth in Part 1194 of Title 36 of the Federal Code of Regulations, and any laws or regulations governing the accessibility of state internet websites.

(6)The agency, in consultation with the subject matter experts, shall review the information and resources on the internet website to ensure that it is current and updated at reasonable intervals, but no less than once every six months. The website shall contain a feature to allow users to report erroneous or outdated information.

(b)The internet website and informational materials created and distributed pursuant to this section shall be made available in a manner to ensure that they are accessible by all state residents. The internet website and

informational materials shall be translated into Spanish, Chinese, Tagalog, Vietnamese, and Korean and in compliance with the Dymally-Alatorre Bilingual Services Act (Chapter 17.5 (commencing with Section 7290) of Division 7 of Title 1 of the Government Code).

(c)Notwithstanding subdivision (a), the internet website established pursuant to this section shall not include the name or location of any individual who is an abortion provider.

(Added by Stats. 2022, Ch. 566, Sec. 2. (SB 1142) Effective January 1, 2023.)

123435.

The rights to medical treatment of an infant prematurely born alive in the course of an abortion shall be the same as the rights of an infant of similar medical status prematurely born spontaneously.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123440.

(a) It is unlawful for any person to use any aborted product of human conception, other than fetal remains, for any type of scientific or laboratory research or for any other kind of experimentation or study, except to protect or preserve the life and health of the fetus. Fetal remains, as used in this section, means a lifeless product of conception regardless of the duration of pregnancy. A fetus shall not be deemed to be lifeless for the purposes of this section, unless there is an absence of a discernible heartbeat.

(b) In addition to any other criminal or civil liability that may be imposed by law, any violation of this section constitutes unprofessional conduct within the meaning of the Medical Practice Act, Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123445.

(a) Except as provided in subdivision (b), at the conclusion of any scientific or laboratory research or any other kind of experimentation or study upon fetal remains, the fetal remains shall be promptly interred or disposed of by incineration.

Storage of the fetal remains prior to the completion of the research, experimentation, or study shall be in a place not open to the public, and the method of storage shall prevent any deterioration of the fetal remains that would create a health hazard.

(b) Subdivision (a) shall not apply to public or private educational institutions.

Any violation of this section is a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=2.&chapter=2.&article=2.3.

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2.3. Abortion Practical Support Fund [123451 - 123453]__

(Article 2.3 added by Stats. 2022, Ch. 47, Sec. 16.)

123451.

(a)As used in this article, the following definitions apply:

(1)Abortion has the same meaning as defined in Section 123464.

(2)Department means the Department of Health Care Access and Information.

(3)Fund means the Abortion Practical Support Fund.

(4)Grantee means a qualifying nonprofit organization in California that assists pregnant people with direct practical support for the purposes of obtaining an abortion.

(5)Practical support means financial or in-kind assistance to help a person access and obtain an abortion in California.

(b)The Abortion Practical Support Fund is hereby established in the State Treasury for the purpose of providing grants described in Section 123452. Notwithstanding Section 13340 of the Government Code, moneys in the Abortion Practical Support Fund are continuously appropriated to the department for providing grants described in Section 123452 and administrative costs as described in subdivision (d).

(c)Notwithstanding any other law, the department may receive and deposit moneys in the fund from the following entities:

(1)Nonstate entities, such as private sector or philanthropic entities.

(2)Local and federal government agencies.

(d)The department shall administer the fund. No more than 5 percent of the moneys in the fund shall be available for the departmentsadministrative activities related to planning and production of grants.

(e)Beginning no later than July 1, 2022, the fund shall be available to receive moneys from nonstate entities.

(Amended by Stats. 2022, Ch. 738, Sec. 2. (AB 204) Effective September 29, 2022.)

123452.

(a)The department, or its contracted vendor, shall use moneys in the fund to administer grants to nonprofit organizations in California that are exempt from taxation under Section 501(c) of the Internal Revenue Code and that either specialize in assisting pregnant people who are low income, or who face other financial barriers. A grant recipient under this subdivision shall use the funds awarded to fund a new program or support an existing program that increases patient access to abortion. By way of nonlimiting examples, the program and the awarded funds may be used for any of the following:

(1)Practical support services related to seeking abortion.

(2)Abortion navigators, patient navigators, and community health workers services based in California.

(3)Case management support for patients seeking abortion.

(4)Costs associated with training volunteers and staff in the provision of practical support services to abortion patients in California.

(5)Costs associated with enabling grantees that meet the requirements of this section to assist pregnant people with practical support services, including staffing and administrative costs.

(6)Costs associated with coordinating practical support services, abortion providers, and other support services in California.

(b)(1)Unless otherwise specified by the department, grants under this article are for a period of one year and may be renewed.

(2)An application for a grant shall be made on a form to be developed by the department or its contracted vendor.

(3)Decisions regarding the grants and the funding level of the grant shall be made after consideration of all relevant factors, such as the granteesanticipated level of need and the availability of funds.

(c)To administer this section, the department, or its contracted vendor, shall use moneys in the fund to pay direct and indirect costs of the department, or its contracted vendor, including hiring or administrative costs.

(d)The department, or its contracted vendor, shall use moneys in the fund to maintain a system of financial reporting on all aspects of the fund. The financial reporting shall include, but is not limited to, information from the grantees on their expenditures and activities using grant funds associated with this article as the department deems necessary to ensure the use of the funds are consistent with the purposes of this article and the terms of any grant award.

(e)For purposes of this section, the department, or its contracted vendor, shall not require the submission of any identifying personal information about individuals receiving practical support services as part of an application for a grant or reporting of expenditures and activities using grant funds under this article. Information required by the department, or its contracted vendor, may only include information in summary, statistical, or other forms that do not identify particular individuals.

(f)An application for a grant under this article and financial reporting by grantees are exempt from disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(g)Contracts entered into or amended pursuant to this article are exempt from Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code, Section 19130 of the Government Code, Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, and the State Administrative Manual, and are exempt from the review or approval of any division of the Department of General Services.

(Amended by Stats. 2022, Ch. 738, Sec. 3. (AB 204) Effective September 29, 2022.)

123452.5.

The department shall conduct an evaluation of the grant program implemented pursuant to Section 123452 and shall report its findings to the Legislature no later than January 1, 2025, and on an annual basis no later than each January 1 thereafter. The first annual report shall cover the period before July 1, 2024. Each subsequent annual report shall cover the previous fiscal year. The department may use moneys in the fund, upon appropriation by the Legislature, for the evaluation of the program. The report shall be submitted in compliance with Section 9795 of the Government Code.

(Added by Stats. 2022, Ch. 566, Sec. 3. (SB 1142) Effective January 1, 2023.)

123453.

This article shall be construed to effectuate its legislative intent to support access to abortion in California and build upon its commitment to be a reproductive freedom state. The United States Supreme Court overturned the protections to access abortion under Roe v. Wade. For decades, abortion funds, abortion providers, and other community-based organizations have provided direct and indirect support to callers and patients with logistical and practical support needs. The purpose of this article ensures that people seeking abortion care have access to the logistical and practical support resources needed, to diminish barriers to care. The purpose of this article and all of its provisions with respect to the powers granted shall be interpreted to effectuate that intent and purposes to support organizations in California who provide support and resources to people seeking abortion.

(Added by Stats. 2022, Ch. 738, Sec. 4. (AB 204) Effective September 29, 2022.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2.5. Reproductive Privacy Act [123460 - 123469]__

(Article 2.5 added by Stats. 2002, Ch. 385, Sec. 8.)

123460.

This article shall be known and may be cited as the Reproductive Privacy Act.

(Added by Stats. 2002, Ch. 385, Sec. 8. Effective January 1, 2003.)

123462.

The Legislature finds and declares that every individual possesses a fundamental right of privacy with respect to personal reproductive decisions, which entails the right to make and effectuate decisions about all matters relating to pregnancy, including prenatal care, childbirth, postpartum care, contraception, sterilization, abortion care, miscarriage management, and infertility care. Accordingly, it is the public policy of the State of California that:

(a) Every individual has the fundamental right to choose or refuse birth control.

(b) Every pregnant individual or individual who may become pregnant has the fundamental right to choose to bear a child or to choose to have and to obtain an abortion, except as specifically limited by this article.

(c) The state shall not deny or interfere with the fundamental right of a pregnant individual or an individual who may become pregnant to choose to bear a child or to choose to have and to obtain an abortion, except as specifically permitted by this article.

(Amended by Stats. 2022, Ch. 629, Sec. 5. (AB 2223) Effective January 1, 2023.)

123464.

The following definitions shall apply for purposes of this chapter:

(a) Abortion means any medical treatment intended to induce the termination of a pregnancy except for the purpose of producing a live birth.

(b) Pregnancy means the human reproductive process, beginning with the implantation of an embryo.

(c) State means the State of California, and every county, city, town and municipal corporation, and quasi-municipal corporation in the state.

(d) Viability means the point in a pregnancy when, in the good faith medical judgment of a physician, on the particular facts of the case before that physician, there is a reasonable likelihood of the fetus™ sustained survival outside the uterus without the application of extraordinary medical measures.

(Amended by Stats. 2003, Ch. 62, Sec. 198. Effective January 1, 2004.)

123466.

(a)The state shall not deny or interfere with a womansor pregnant personsright to choose or obtain an

abortion prior to viability of the fetus, or when the abortion is necessary to protect the life or health of the woman or pregnant person.

(b)A person shall not be compelled in a state, county, city, or other local criminal, administrative, legislative, or other proceeding to identify or provide information that would identify or that is related to an individual who has sought or obtained an abortion if the information is being requested based on either another stateslaws that interfere with a personsrights under subdivision (a) or a foreign penal civil action, as defined in Section 2029.200 of the Code of Civil Procedure.

(Amended by Stats. 2022, Ch. 629, Sec. 6.5. (AB 2223) Effective January 1, 2023.)

123467.

(a)Notwithstanding any other law, a person shall not be subject to civil or criminal liability or penalty, or otherwise deprived of their rights under this article, based on their actions or omissions with respect to their pregnancy or actual, potential, or alleged pregnancy outcome, including miscarriage, stillbirth, or abortion, or perinatal death due to causes that occurred in utero.

(b)A person who aids or assists a pregnant person in exercising their rights under this article shall not be subject to civil or criminal liability or penalty, or otherwise be deprived of their rights, based solely on their actions to aid or assist a pregnant person in exercising their rights under this article with the pregnant personsvoluntary consent.

(Added by Stats. 2022, Ch. 629, Sec. 7. (AB 2223) Effective January 1, 2023.)

123467.5.

(a)A law of another state that authorizes a person to bring a civil action against a person or entity that does any of the following is contrary to the public policy of this state:

(1)Receives or seeks an abortion.

(2)Performs, provides, or induces an abortion.

(3)Knowingly engages in conduct that aids or abets the performance, provision, or inducement of an abortion.

(4)Attempts or intends to engage in the conduct described in paragraphs (1) to (3), inclusive.

(b)The state shall not do either of the following:

(1)Apply a law described in subdivision (a) to a case or controversy heard in state court.

(2)Enforce or satisfy a civil judgment received through an adjudication under a law described in subdivision (a).

(c)The provisions of this section are severable. If any provision of this section or its application is held invalid,

that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

(Amended by Stats. 2023, Ch. 261, Sec. 2. (SB 487) Effective January 1, 2024.)

123468.

The performance of an abortion is unauthorized if performed by someone other than the pregnant person and if either of the following is true:

(a)The person performing the abortion is not a health care provider authorized to perform an abortion pursuant to Section 2253 of the Business and Professions Code.

(b)The abortion is performed on a viable fetus, and both of the following are established:

(1)In the good faith medical judgment of the physician, the fetus was viable.

(2)In the good faith medical judgment of the physician, continuation of the pregnancy posed no risk to life or health of the pregnant person.

(Amended by Stats. 2022, Ch. 629, Sec. 8. (AB 2223) Effective January 1, 2023.)

123468.5.

(a)(1)California law governs in any action in this state, whether civil, administrative, or criminal, against any person who provides, receives, aids or abets in providing or receiving, or attempts to provide or receive, by any means, including telehealth, the health care services described in paragraph (2) if the provider was located in this state or any other state where the care was legal at the time of the challenged conduct.

(2)Reproductive health care services and gender-affirming health care services, including gender-affirming mental health care services, are subject to paragraph (1).

(b)Reproductive health has the same meaning as set forth in Section 1798.300 of the Health and Safety Code.

(c)Gender-affirming health care services and gender-affirming mental health care services have the same meaning as defined in paragraph (3) of subdivision (b) of Section 16010.2 of the Welfare and Institutions Code.

(Added by Stats. 2023, Ch. 260, Sec. 13. (SB 345) Effective January 1, 2024.)

123469.

(a)A party whose reproductive rights are protected by this article and whose reproductive rights are interfered with by conduct or by a statute, ordinance, or other state or local rule, regulation, or enactment in

violation of this article may bring a civil action against an offending state actor in a state superior court.

(b)Whoever denies a right protected by this article, or aids, incites, or conspires in that denial, is liable for each and every offense for the actual damages suffered by any person denied that right and, in addition, all of the following:

(1)An amount to be determined by a jury, or a court sitting without a jury, for exemplary damages.

(2)A civil penalty of twenty-five thousand dollars ($25,000), to be awarded to the person denied the right protected by this article.

(3)Preventive relief, including permanent or temporary injunction, restraining order, or other order against the person or persons responsible for the conduct, as the complainant deems necessary to ensure the full enjoyment of the rights described in this article.

(4)Upon a motion, a court shall award reasonable attorneysfees and costs, including expert witness fees and other litigation expenses, to a plaintiff who is a prevailing party in an action brought pursuant to this section. In awarding reasonable attorneysfees, the court shall consider the degree to which the relief obtained relates to the relief sought.

(c)An action under subdivision (b) shall be commenced within three years of the alleged practice violation of this article.

(d)(1)A party aggrieved by conduct or regulation in violation of this article may also bring a civil action pursuant to Section 52.1 of the Civil Code. Notwithstanding Section 821.6 of the Government Code, a civil action pursuant to Section 52.1 of the Civil Code may be based upon instituting or prosecuting any judicial or administrative proceeding in violation of this article.

(2)For purpose of establishing liability pursuant to this subdivision, the criminal investigation, arrest, or prosecution, or threat of investigation, arrest, or prosecution, of a person with respect to their pregnancy or actual, potential, or alleged pregnancy outcome, constitutes threat, intimidation, or coercion pursuant to Section 52.1 of the Civil Code.

(e)Sections 825, 825.2, 825.4, and 825.6 of the Government Code, providing for indemnification of an employee or former employee of a public entity, apply to any cause of action brought under this section against an employee or former employee of a public entity.

(Added by Stats. 2022, Ch. 629, Sec. 9. (AB 2223) Effective January 1, 2023.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2.7. Reproductive FACT Act [123470 - 123473]__

(Article 2.7 added by Stats. 2015, Ch. 700, Sec. 3.)

123470.

This article shall be known and may be cited as the Reproductive FACT (Freedom, Accountability, Comprehensive Care, and Transparency) Act or Reproductive FACT Act.

(Added by Stats. 2015, Ch. 700, Sec. 3. (AB 775) Effective January 1, 2016.)

123471.

(a)For purposes of this article, and except as provided in subdivision (c), licensed covered facility means a facility licensed under Section 1204 or an intermittent clinic operating under a primary care clinic pursuant to subdivision (h) of Section 1206, whose primary purpose is providing family planning or pregnancy-related services, and that satisfies two or more of the following:

(1)The facility offers obstetric ultrasounds, obstetric sonograms, or prenatal care to pregnant women.

(2)The facility provides, or offers counseling about, contraception or contraceptive methods.

(3)The facility offers pregnancy testing or pregnancy diagnosis.

(4)The facility advertises or solicits patrons with offers to provide prenatal sonography, pregnancy tests, or pregnancy options counseling.

(5)The facility offers abortion services.

(6)The facility has staff or volunteers who collect health information from clients.

(b)For purposes of this article, subject to subdivision (c), unlicensed covered facility is a facility that is not licensed by the State of California and does not have a licensed medical provider on staff or under contract who provides or directly supervises the provision of all of the services, whose primary purpose is providing pregnancy-related services, and that satisfies two or more of the following:

(1)The facility offers obstetric ultrasounds, obstetric sonograms, or prenatal care to pregnant women.

(2)The facility offers pregnancy testing or pregnancy diagnosis.

(3)The facility advertises or solicits patrons with offers to provide prenatal sonography, pregnancy tests, or pregnancy options counseling.

(4)The facility has staff or volunteers who collect health information from clients.

(c)This article shall not apply to either of the following:

(1)A clinic directly conducted, maintained, or operated by the United States or any of its departments, officers, or agencies.

(2)A licensed primary care clinic that is enrolled as a Medi-Cal provider and a provider in the Family Planning, Access, Care, and Treatment Program.

(Added by Stats. 2015, Ch. 700, Sec. 3. (AB 775) Effective January 1, 2016.)

123472.

(a)A licensed covered facility shall disseminate to clients on site the following notice in English and in the primary threshold languages for Medi-Cal beneficiaries as determined by the State Department of Health Care Services for the county in which the facility is located.

(1)The notice shall state:

California has public programs that provide immediate free or low-cost access to comprehensive family planning services (including all FDA-approved methods of contraception), prenatal care, and abortion for eligible women. To determine whether you qualify, contact the county social services office at [insert the telephone number].

(2)The information shall be disclosed in one of the following ways:

(A)A public notice posted in a conspicuous place where individuals wait that may be easily read by those seeking services from the facility. The notice shall be at least 8.5 inches by 11 inches and written in no less than 22-point type.

(B)A printed notice distributed to all clients in no less than 14-point type.

(C)A digital notice distributed to all clients that can be read at the time of check-in or arrival, in the same point type as other digital disclosures. A printed notice as described in subparagraph (B) shall be available for all clients who cannot or do not wish to receive the information in a digital format.

(3)The notice may be combined with other mandated disclosures.

(b)An unlicensed covered facility shall disseminate to clients on site and in any print and digital advertising materials including Internet Web sites, the following notice in English and in the primary threshold languages for Medi-Cal beneficiaries as determined by the State Department of Health Care Services for the county in which the facility is located.

(1)The notice shall state: This facility is not licensed as a medical facility by the State of California and has no licensed medical provider who provides or directly supervises the provision of services.

(2)The onsite notice shall be a sign at least 8.5 inches by 11 inches and written in no less than 48-point type, and shall be posted conspicuously in the entrance of the facility and at least one additional area where clients wait to receive services.

(3)The notice in the advertising material shall be clear and conspicuous. Clear and conspicuous means in larger point type than the surrounding text, or in contrasting type, font, or color to the surrounding text of the same size, or set off from the surrounding text of the same size by symbols or other marks that call attention to the language.

(Added by Stats. 2015, Ch. 700, Sec. 3. (AB 775) Effective January 1, 2016.)

123473.

(a)Covered facilities that fail to comply with the requirements of this article are liable for a civil penalty of five hundred dollars ($500) for a first offense and one thousand dollars ($1,000) for each subsequent offense. The Attorney General, city attorney, or county counsel may bring an action to impose a civil penalty pursuant to this section after doing both of the following:

(1)Providing the covered facility with reasonable notice of noncompliance, which informs the facility that it is subject to a civil penalty if it does not correct the violation within 30 days from the date the notice is sent to the facility.

(2)Verifying that the violation was not corrected within the 30-day period described in paragraph (1).

(b)The civil penalty shall be deposited into the General Fund if the action is brought by the Attorney General. If the action is brought by a city attorney, the civil penalty shall be paid to the treasurer of the city in which the judgment is entered. If the action is brought by a county counsel, the civil penalty shall be paid to the treasurer of the county in which the judgment is entered.

(Added by Stats. 2015, Ch. 700, Sec. 3. (AB 775) Effective January 1, 2016.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 3. Community-Based Perinatal System [123475 - 123525]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 8.)

123475.

The Legislature finds that a community-based system of comprehensive perinatal care, including prenatal care, delivery service, postpartum care, and neonatal and infant care are necessary services that have been demonstrated effective in preventing or reducing maternal, perinatal, and infant mortality and morbidity.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123480.

It is the intent of the Legislature in enacting this article to maintain, to the extent resources are available, a permanent statewide community-based comprehensive perinatal system to provide care and services to low-income pregnant women and their infants who are considered underserved in terms of comprehensive perinatal care.

It is also the intent of the Legislature that the statewide, community-based, comprehensive perinatal health care program be developed by the department to conform with the guidelines set forth in this article, and be integrated and coordinated with the perinatal access program in Article 2.5 (commencing with Section 288).

It is further the intent of the Legislature that these guidelines allow each applicant the flexibility to design a system specific to the nature of the community and the needs of the clients.

It is further the intent of the Legislature that the director, in allocating funds available for programs that provide comprehensive perinatal care, follow the guidelines and principles developed in this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123485.

The following definitions shall govern the construction of this article:

(a)Community-based comprehensive perinatal care means a range of prenatal, delivery, postpartum, infant, and pediatric care services delivered in an urban community or neighborhood, rural area, city or county clinic, city or county health department, freestanding birth center, or other health care provider facility by health care practitioners trained in methods of preventing complications and problems during and after pregnancy, and in methods of educating pregnant women of these preventive measures, and who provide a continuous range of services. The health care practitioners shall, through a system of established linkages to other levels of care in the community, consult with, and, when appropriate, refer to, specialists.

(b)Low income means all persons of childbearing age eligible for Medi-Cal benefits under Chapter 7 (commencing with Section 14000) and all persons eligible for public social services for which federal reimbursement is available, including potential recipients. Potential recipients shall include the pregnant woman and her infant in a family where current social, economic and health conditions of the family indicate that the family would likely become a recipient of financial assistance within the next five years.

(c)Prenatal care means care received from conception until the completion of labor and delivery.

(d)Perinatal care means care received from the time of conception through the first year after birth.

(e)Qualified organization means any nonprofit, not-for-profit, or for-profit corporation with demonstrated expertise in implementing the Nurse-Family Partnership program or similar programs in different local settings.

(f)Qualified trainer means anyone who has been certified by the Nurse-Family Partnership to provide training.

(g)Department means the State Department of Public Health, unless otherwise designated.

(Amended by Stats. 2007, Ch. 483, Sec. 29. Effective January 1, 2008.)

123490.

(a) The department shall develop and maintain a statewide comprehensive community-based perinatal services program and enter into contracts, grants, or agreements with health care providers to deliver these services in a coordinated effort to the extent permitted under federal law and regulation. These contracts, grants, or agreements shall be made in medically underserved areas or areas with demonstrated need. Nothing in this section shall be construed to prevent reallocation of resources or use of new moneys for the development of new community-based comprehensive perinatal systems in underserved areas or areas with demonstrated need, and supplementation of systems already in existence.

(b) As a condition of receiving funds from the Maternal and Child Health program, contractors shall bill the Medi-Cal program for services provided to Medi-Cal recipients.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123491.

(a) There is hereby established a voluntary nurse home visiting grant program for expectant first-time mothers, their children, and their families, to be administered by the department pursuant to Section 123492. The program may be cited as the Nurse-Family Partnership program.

(b)The goals and objectives of the program shall be the same as, but shall not be limited to, those in the community-based comprehensive perinatal health care system as set forth in Section 123505.

(c)The department shall adopt regulations for the implementation of this section in accordance with Section 123516.

(Added by Stats. 2006, Ch. 878, Sec. 3. Effective January 1, 2007.)

123492.

The department shall develop a grant application and award grants on a competitive basis to counties for the startup, continuation, and expansion of the program established pursuant to Section 123491. To be eligible to receive a grant for purposes of that section, a county shall agree to all of the following:

(a)Serve through the program only pregnant, low-income women who have had no previous live births. Notwithstanding subdivision (b) of Section 123485, women who are juvenile offenders or who are clients of the juvenile system shall be deemed eligible for services under the program.

(b)Enroll women in the program while they are still pregnant, before the 28th week of gestation, and preferably before the 16th week of gestation, and continue those women in the program through the first two years of the childslife.

(c)Use as home visitors only registered nurses who have been licensed in the state.

(d)Have nurse home visitors undergo training according to the program and follow the home visit guidelines developed by the Nurse-Family Partnership program.

(e)Have nurse home visitors specially trained in prenatal care and early child development.

(f)Have nurse home visitors follow a visit schedule keyed to the developmental stages of pregnancy and early childhood.

(g)Ensure that, to the extent possible, services shall be rendered in a culturally and linguistically competent manner.

(h)Limit a nurse home visitorscaseload to no more than 25 active families at any given time.

(i)Provide for every eight nurse home visitors a full-time nurse supervisor who holds at least a bachelorsdegree in nursing and has substantial experience in community health nursing.

(j)Have nurse home visitors and nurse supervisors trained in effective home visitation techniques by qualified trainers.

(k)Have nurse home visitors and nurse supervisors trained in the method of assessing early infant development and parent-child interaction in a manner consistent with the program.

(l)Provide data on operations, results, and expenditures in the formats and with the frequencies specified by the department.

(m)Collaborate with other home visiting and family support programs in the community to avoid duplication of services and complement and integrate with existing services to the extent practicable.

(n)Demonstrate that adoption of the Nurse-Family Partnership program is supported by a local governmental or government-affiliated community planning board, decisionmaking board, or advisory body responsible for assuring the availability of effective, coordinated services for families and children in the community.

(o)Provide cash or in-kind matching funds in the amount of 100 percent of the grant award.

(p)Prohibit the use of moneys received for the program as a match for grants currently administered by the department.

(Added by Stats. 2006, Ch. 878, Sec. 4. Effective January 1, 2007.)

123493.

(a)The department may accept voluntary contributions, in cash or in-kind, to pay for the costs in the implementation of the program under Section 123492. These private donations shall be deposited into the California Families and Children Account, which is hereby created in the State Treasury, in which, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the department for purposes of implementing Section 123492. No state funds shall be used in implementing Section 123492.

(b)The department shall only distribute grants established under Section 123492 if the Director of Finance determines, in writing, that there are sufficient funds from private donations available in the account for expenditure for the purposes of the program.

(c)The departmentsadministration costs shall not exceed 5 percent of the moneys in the account created under subdivision (a). Any costs to the department incurred prior to the account receiving funds shall be reimbursed to the department from funds in the account.

(d)The department shall not apply for grants or solicit private funds.

(e)If, as of January 1, 2009, the Director of Finance determines pursuant to subdivision (a) that there are insufficient funds on deposit in the account to implement the voluntary nurse home visiting grant program, the account shall cease to exist.

(Added by Stats. 2006, Ch. 878, Sec. 5. Effective January 1, 2007.)

123495.

(a) The department shall seek any federal waiver or waivers that may be necessary to maximize funds from the federal government including, but not limited to, funds provided under Title 19 of the Social Security Act to provide funds for a full range of preventive perinatal services.

(b) The department shall, in preparing its budget for submission each year, coordinate all funding sources intended primarily for perinatal care made available through the Budget Act to maximize the delivery of perinatal care services and to avoid duplication of programs and funding.

(c) The department shall develop and implement a uniform sliding fee schedule for women provided perinatal care through the perinatal services program. The fee schedule shall be based on family size and income, but in no case shall the fee exceed the actual cost of the services provided. The department shall not implement any schedule developed pursuant to this section sooner than 30 days after the department has provided the chairperson of the Joint Legislative Budget Committee and the chairperson of the fiscal committee of each house with the developed schedule.

All free clinics, as defined in paragraph (2) of subdivision (a) of Section 1204 shall be exempt from this subdivision.

All organizations funded under the Public Health Service Act, Sections 254b and 254c of Title 42 of the United States Code, shall be permitted to utilize those sliding fee scales mandated by federal law or regulation in lieu of the sliding fee scale adopted by the department.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123500.

The department shall monitor the delivery of services under contracts, grants, and agreements provided for in this article through a uniform health data collection system that utilizes epidemiologic methodology. The department may collect data from providers receiving funds through this program as necessary to evaluate program effectiveness.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123505.

The goals of the community-based comprehensive perinatal health care system shall be:

(a) To decrease and maintain the decreased level of perinatal, maternal, and infant mortality and morbidity in the State of California.

(b) To support methods of providing comprehensive prenatal care that prevent prematurity and the incidence of low birth weight infants.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123510.

The program objectives of the community-based comprehensive perinatal health care system shall be the following:

(a) To ensure continuing availability and accessibility to early prenatal care within the areas presently served and to develop a community-based comprehensive perinatal system in other areas of the state that are medically underserved or have demonstrated need.

(b) To assure the appropriate level of maternal, newborn and pediatric care services necessary to provide the healthiest outcome for mother and infant.

(c) To ensure postpartum, family planning, and followup care through the first year of life, and referral to an ongoing primary health care provider.

(d) To include support and ancillary services such as nutrition, health education, public health nursing, and social work that have been demonstrated to decrease maternal, perinatal, and infant mortality and morbidity, as components of comprehensive perinatal care.

(e) To ensure that care shall be available regardless of the patientsfinancial situation.

(f) To ensure, to the extent possible, that the same quality of care shall be available to all pregnant women.

(g) To promote program flexibility by recognizing the needs within an area and providing for unique programs to meet those needs.

(h) To emphasize preventive health care as a major component of any perinatal program, and to support outreach programs directed at low-income pregnant women that will encourage early entry into, and appropriate utilization of, the perinatal health care system.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123515.

In processing and awarding contracts, grants, or agreements pursuant to this article, the department shall evaluate the ability of applicants to meet, to the maximum extent possible, the following criteria:

(a) The applicantsprior experience in providing community-based, comprehensive perinatal care and services to low-income women and infants.

(b) The applicantsability to provide comprehensive perinatal care, either directly or through subcontract. Those services comprising comprehensive perinatal care include, but are not limited to, the following:

(1) Initial and ongoing physical assessment.

(2) Psychosocial assessments and counseling, and referral when appropriate.

(3) Nutrition assessments, counseling and referral to counseling on food supplement programs, vitamins, and breastfeeding.

(4) Health educational assessments, and intervention and referral, including childbirth preparation and parenting.

(5) Outreach and community education.

(6) Laboratory, radiology, and other specialized services as indicated.

(7) Delivery, postpartum followup, and pediatric care through the first year of life.

(c) The quality of care that is being, or has been provided to low-income women and infants by health care providers.

(d) Whether the area that is, or that will be, serviced by the applicant is medically underserved or has otherwise demonstrated the need for comprehensive, community-based perinatal services.

(e) The applicantsability to use an appropriate multidisciplinary staff working as a team, in consultation with obstetricians, pediatricians, and family practitioners when appropriate, to provide a full range of comprehensive perinatal care services. Staffing patterns shall reflect, to the maximum extent feasible, at all levels, the cultural, linguistic, ethnic, and other social characteristics of the community served. This staff shall include at least one of those persons described in paragraphs (1) to (3), inclusive, of this subdivision, as follows, and may include, but not be limited to, a combination of those persons described in paragraphs (4) to (10), inclusive, of this subdivision, as follows:

(1) An obstetrician.

(2) A pediatrician.

(3) (A)A family physician.

(B)For purposes of this paragraph, family physician means a primary care physician and surgeon who renders continued comprehensive and preventative health care services to individuals and families, and who has received specialized training in an approved family medicine residency for three years after graduation from an accredited medical school.

(4) Certified nurse-midwives, public health nurses, nurse practitioners, or physician assistants.

(5) Nutritionists.

(6) Social workers.

(7) Health and childbirth educators.

(8) A family planning counselor.

(9) Community outreach peer workers.

(10) A translator.

(Amended by Stats. 2019, Ch. 632, Sec. 9. (AB 1622) Effective January 1, 2020.)

123516.

(a)The department, in consultation with the program administrators, may contract with one or more qualified organizations to assist the department in ensuring that grantees implement the program as established under Section 123491 and to conduct an annual evaluation of the implementation of the grant program on a statewide basis. The first evaluation shall be due 12 months after the award of grants pursuant to Section 123492.

(b)(1) In conducting its monitoring and evaluation activities, the department shall be guided by program performance standards developed by the department in consultation with the Nurse-Family Partnership program.

(2)The annual evaluation shall contain, but not be limited to, the extent to which each grantee participating in the program has done each of the following:

(A)Recruited a population of low-income, first-time mothers.

(B)Enrolled families early in pregnancy and followed them through the second birthday of the child.

(C)Conducted visits that are of comparable frequency, duration, and content as those delivered in the randomized clinical trials of the program.

(D)Assessed the health and well-being of the mothers and children enrolled in the program according to common indicators of maternal, child, and family health.

(Amended by Stats. 2012, Ch. 728, Sec. 109. (SB 71) Effective January 1, 2013.)

123520.

(a) In developing a comprehensive system, health care providers funded under this article may perform the following activities to ensure that a full range of program components of a comprehensive, community-

based health care system are available, accessible, and utilized by pregnant women and infants:

(1) Coordinate specific linkages with one another.

(2) Subcontract the services specified in this article.

(3) Provide additional services not specifically listed in this article. These additional services shall include, but shall not be limited to the Women, Infants, and Children (WIC) food supplement program, services offered by local health departments, and public and private social welfare agencies. Nothing contained in this article shall be construed to prohibit a subcontractor from being reimbursed pursuant to a fee for service, capitation, or other payment mechanism.

(b) All services and educational materials shall be provided in the primary languages of the clients served, provided that there are at least 5 percent or 100 persons, whichever is less, of the total beneficiary population served annually by each facility, who share language other than English and who are limited-English speaking. Limited-English speaking means a person who uses a language other than English in order to communicate effectively.

(c) Health care providers applying for a contract, grant, or agreement under this article shall indicate the manner in which their service elements will be coordinated with existing community resources and services and with hospitals of all levels in the area to ensure each client receives the appropriate level or care at the appropriate time. The department may require written agreements between contractors and hospital or hospitals in the area regarding delivery services, and protocols for referral and transfer when special treatment services are required. The department may, when requested by the grantee or contractor, assist in achieving coordination and written agreements pertaining to the delivery of these services.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123525.

The provisions contained in this article shall be subject to the normal Budget Act process and shall be operative to the extent funds are appropriated for this purpose.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 4. Perinatal Health Care [123550 - 123610]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 8.)

123550.

The Legislature finds and declares that prenatal care, delivery service, postpartum care and neonatal and infant care are essential services necessary to assure maternal and infant health. These services are not currently distributed so as to meet the minimum maternal and infant health needs of many Californians. A regionalized perinatal health system can provide these essential services; however, many underserved areas lack the staff or expertise to develop these systems.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123555.

The department shall develop and implement a uniform sliding fee schedule, based on family size and income, for women provided perinatal care through the Perinatal Care Services Program. The department shall not implement any schedule developed pursuant to this section sooner than 30 days after the department has provided the Chairperson of the Joint Legislative Budget Committee and the chairperson of the fiscal committee of each house with the developed schedule.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123560.

Unless the context otherwise requires, the definitions in this section govern the construction of this article:

(a) Perinatal health system means all of the prenatal care, delivery care, postpartum care, and neonatal and infant care services available to a region identified by the department pursuant to this article.

(b) Regionalized perinatal health system means coordinated measures intended to ensure that a perinatal health system provides at least minimum services necessary to meet the maternal and infant health needs of the region and intended to ensure that it does so as efficiently and cost-effectively as possible.

(c) High-risk pregnant woman means a woman considered highly likely for any reason to suffer personal mortality or morbidity from her pregnancy, or to deliver a defective, disabled, high-risk, or stillborn infant.

(d) High-risk infant means a newborn considered highly likely for any reason to suffer personal mortality or morbidity or to suffer long-lasting defect or disability.

(e) High-risk geographic area means a region in this state in which the proportion of high-risk pregnant women or high-risk infants exceeds the average for the population of California as a whole.

(f) High-risk population means a demographic group in which the proportion of high-risk women or high-risk infants exceeds the average for the population of California as a whole.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123565.

The department shall maintain a program that addresses the special needs of high-risk pregnant women and infants. The program shall include the following:

(a) Identification of high-risk geographical areas and populations.

(b) Identification and evaluation of deficiencies in perinatal health systems.

(c) Assistance in the development of regionalized perinatal health systems, particularly in underserved areas, to meet unmet needs.

(d) Assistance in implementing regionalized perinatal health systems.

(e) Collection and analyses of data on perinatal health systems and needs.

(f) Monitoring of results.

(g) Assist in implementing and maintaining a high-risk infant follow-up program.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123570.

(a) In assisting in the development of the regionalized perinatal health systems, the department shall consult

with the office, the State Department of Developmental Services, county health officials, health systems agencies, health professionals and health facilities expected to participate in the systems, and community groups.

(b) In carrying out this article, the department shall coordinate the regionalized perinatal health systems with all other maternal and infant health programs conducted by or for the department, the office, the State Department of Developmental Services, and all other state agencies, to ensure full regional coordination.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123575.

It is the intent of the Legislature that the program created by Sections 123550 to 123570, inclusive, be funded through the normal budgetary process beginning in the 1980"81 fiscal year.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123576.

(a)Subject to an appropriation of funds by the Legislature in the annual Budget Act or another statute for this purpose, the State Department of Public Health, in consultation with subject matter experts, shall do all of the following:

(1)Review available literature on adverse effects of extreme heat on perinatal health.

(2)Develop guidance for safe conditions and healthy considerations for pregnant individuals and infant children who may be exposed to extreme heat, and for pregnant individuals, during both the gestational and postpartum periods. The department shall post this guidance on its internet website and make it accessible to medical and community-based health care organizations.

(3)Provide guidance and supporting information to the Legislature by submitting a report that includes legislative or policy recommendations on best practices for connecting perinatal patients with the appropriate health and well-being information relating to extreme heat.

(b)(1)A report to be submitted pursuant to subdivision (a) shall be submitted in compliance with Section 9795 of the Government Code.

(2)Pursuant to Section 10231.5 of the Government Code, this section is repealed on January 1, 2027.

(Added by Stats. 2022, Ch. 265, Sec. 2. (AB 2420) Effective January 1, 2023. Repealed as of January 1, 2027, by its own provisions.)

123600.

By July 1, 1991, the Health and Welfare Agency shall develop and disseminate a model needs assessment

protocol for pregnant and postpartum substance abusing women in conjunction with the appropriate professional organizations in the areas of hospital administration, substance abuse prevention and treatment, social services, public health, and appropriate state agencies, including the State Department of Social Services, the department, the State Department of Developmental Services, and the State Department of Alcohol and Drug Programs. This model may be utilized by hospitals and counties pursuant to Section 123605.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123605.

(a) Each county shall establish protocols between county health departments, county welfare departments, and all public and private hospitals in the county, regarding the application and use of an assessment of the needs of, and a referral for, a substance exposed infant to a county welfare department pursuant to Section 11165.13 of the Penal Code.

(b) The assessment of the needs shall be performed by a health practitioner, as defined in Section 11165.8 of the Penal Code, or a medical social worker. The needs assessment shall be performed before the infant is released from the hospital.

(c) The purpose of the assessment of the needs is to do all of the following:

(1) Identify needed services for the mother, child, or family, including, where applicable, services to assist the mother caring for her child and services to assist maintaining children in their homes.

(2) Determine the level of risk to the newborn upon release to the home and the corresponding level of services and intervention, if any, necessary to protect the newbornshealth and safety, including a referral to the county welfare department for child welfare services.

(3) Gather data for information and planning purposes.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123610.

It is the intent of the Legislature that funding for Sections 123600 and 123605 be provided in the annual Budget Act.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 4.2. Maternal Mental Health [123615 - 123617]__

(Article 4.2 added by Stats. 2018, Ch. 773, Sec. 1.)

123615.

This article shall be known, and may be cited, as the Maternal Mental Health Conditions Education, Early Diagnosis, and Treatment Act.

(Added by Stats. 2018, Ch. 773, Sec. 1. (AB 3032) Effective January 1, 2019.)

123615.5.

The Legislature hereby finds and declares all of the following:

(a)Maternal depression is a common complication of pregnancy. Maternal mental health disorders encompass a range of mental health conditions, such as depression, anxiety, and postpartum psychosis.

(b)Maternal mental health conditions affect one in five women during or after pregnancy, but all women are at risk of suffering from maternal mental health conditions.

(c)Untreated maternal mental health conditions significantly and negatively impact the short- and long-term

health and well-being of affected women and their children.

(d)Untreated maternal mental health conditions cause adverse birth outcomes, impaired maternal-infant bonding, poor infant growth, childhood emotional and behavioral problems, and significant medical and economic costs, estimated to be $22,500 per mother.

(e)Lack of understanding and social stigma of mental health conditions prevent women and families from understanding the signs, symptoms, and risks involved with maternal mental health conditions and disproportionately affect women who lack access to social support networks.

(f)It is the intent of the Legislature to raise awareness of the risk factors, signs, symptoms, and treatment options for maternal mental health conditions among pregnant women and their families, the general public, primary health care providers, and health care providers who care for pregnant women, postpartum women, and newborn infants.

(Amended by Stats. 2019, Ch. 497, Sec. 176. (AB 991) Effective January 1, 2020.)

123616.

For the purposes of this article, the following terms have the following meanings:

(a)Maternal mental health condition means a mental health condition that occurs during pregnancy or during the postpartum period and includes, but is not limited to, postpartum depression.

(b)Perinatal unit is a maternity and newborn service of a hospital for the provision of care during pregnancy, labor, delivery, and postpartum and neonatal periods with appropriate staff, space, equipment, and supplies.

(Added by Stats. 2018, Ch. 773, Sec. 1. (AB 3032) Effective January 1, 2019.)

123616.5.

A general acute care hospital or special hospital, as defined in subdivisions (a) and (f) of Section 1250, that has a perinatal unit, in collaboration with medical staff, shall, by January 1, 2020, develop and implement a program to provide education and information to appropriate health care professionals and patients about maternal mental health conditions.

(Added by Stats. 2018, Ch. 773, Sec. 1. (AB 3032) Effective January 1, 2019.)

123617.

The program developed pursuant to this article shall include all of the following:

(a)Education and information for postpartum women and families about maternal mental health conditions, posthospital treatment options, and community resources.

(b)Education and information for hospital employees regularly assigned to work in the perinatal unit, including, as appropriate, registered nurses and social workers, about maternal mental health conditions.

(c)Any other service the hospital determines should be included in the program to provide optimal patient care.

(Added by Stats. 2018, Ch. 773, Sec. 1. (AB 3032) Effective January 1, 2019.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 4.5. Fetal Ultrasound [123620 - 123622]__

(Heading of Article 4.5 renumbered from Article 45 by Stats. 2005, Ch. 22, Sec. 136.)

123620.

A person or facility that offers fetal ultrasound, or a similar procedure, for keepsake or entertainment purposes, shall disclose to a client prior to performing the procedure, in writing, the following statement: The

federal Food and Drug Administration has determined that the use of medical ultrasound equipment for other than medical purposes, or without a physiciansprescription, is an unapproved use.

(Added by Stats. 2004, Ch. 78, Sec. 2. Effective January 1, 2005.)

123621.

(a)An ultrasound, or a similar medical imaging device or procedure used for a medical, counseling, or diagnostic service or purpose, shall only be offered in the following settings:

(1)A licensed clinic, as described in Chapter 1 (commencing with Section 1200) of Division 2.

(2)An outpatient setting, as described in Chapter 1.3 (commencing with Section 1248) of Division 2.

(3)A licensed health facility, as described in Chapter 2 (commencing with Section 1250) of Division 2.

(4)A practice of a licensed physician or surgeon, a medical group practice, including a professional medical corporation, as defined in Section 2406 of the Business and Professions Code, another form of corporation controlled by physicians and surgeons, a medical partnership, a medical foundation exempt from licensure, or another lawfully organized group of physicians and surgeons that provides health care services.

(5)A practice of a licensed chiropractor, as described in Chapter 2 (commencing with Section 1000) of Division 2 of the Business and Professions Code, or a lawfully organized group of licensed chiropractors that provides health care services.

(6)A practice of a licensed physical therapist, as described in Chapter 5.7 (commencing with Section 2600) of Division 2 of the Business and Professions Code, or a lawfully organized group of licensed physical therapists that provides health care services.

(7)A facility affiliated with those settings.

(8)An exempt entity as described in Section 1206.

(b)This section does not apply to a practice of a licensed midwife providing care pursuant to Article 24 (commencing with Section 2505) of Chapter 5 of Division 2 of the Business and Professions Code, or a practice of a certified nurse-midwife providing care pursuant to Article 2.5 (commencing with Section 2746) of Chapter 6 of Division 2 of the Business and Professions Code.

(Added by Stats. 2023, Ch. 259, Sec. 1. (AB 1720) Effective January 1, 2024.)

123622.

(a)Any person or entity that fails to comply with the requirements of Section 123621 is liable for a civil penalty of two thousand five hundred dollars ($2,500) for a first offense and five thousand dollars ($5,000) for each subsequent offense. The Attorney General, a district attorney, a city attorney, or a county counsel may bring an action to impose a civil penalty pursuant to this section. For purposes of this subdivision, an offense is each ultrasound conducted in violation of Section 123621.

(b)Any person or entity that violates this section is liable for any costs, fees, and civil penalties. Costs, fees, and civil penalties collected pursuant to this section shall be paid to the office that brought the action as follows:

(1)To the Office of the Attorney General.

(2)To the treasurer of the city for the city attorney.

(3)To the treasurer of the county for the district attorney.

(4)To the treasurer of the county for the county counsel.

(Added by Stats. 2023, Ch. 259, Sec. 2. (AB 1720) Effective January 1, 2024.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 4.6. California Dignity in Pregnancy and Childbirth Act [123630 - 123630.5]__

(Article 4.6 added by Stats. 2019, Ch. 533, Sec. 3.)

123630.

This article shall be known, and may be cited, as the California Dignity in Pregnancy and Childbirth Act.

(Added by Stats. 2019, Ch. 533, Sec. 3. (SB 464) Effective January 1, 2020.)

123630.1.

The Legislature hereby finds and declares all of the following:

(a)Every person should be entitled to dignity and respect during and after pregnancy and childbirth. Patients should receive the best care possible regardless of their race, gender, age, class, sexual orientation, gender identity, disability, language proficiency, nationality, immigration status, gender expression, or religion.

(b)The United States has the highest maternal mortality rate in the developed world. About 700 women die each year from childbirth, and another 50,000 suffer from severe complications. In California, since 2006, the rate of maternal death has decreased 55 percent, in contrast to the steady increase in the United States as a whole.

(c)However, for women of color, particularly Black women, the maternal mortality rate remains three to four times higher than White women. Black women make up 5 percent of the pregnancy cohort in California, but 21 percent of the pregnancy-related deaths.

(d)Forty-one percent of all pregnancy-related deaths had a good to strong chance of preventability. California has a responsibility to decrease the number of preventable pregnancy-related deaths.

(e)Pregnancy-related deaths among Black women are also more likely to be miscoded. Thirty-five percent of pregnancy-related deaths among Black women in California were miscoded, misidentifying pregnancy-related deaths as other deaths.

(f)Access to prenatal care, socioeconomic status, and general physical health do not fully explain the disparity seen in Black womensmaternal mortality and morbidity rates. There is a growing body of evidence that Black women are often treated unfairly and unequally in the health care system.

(g)Implicit bias is a key cause that drives health disparities in communities of color. At present, health care providers in California are not required to undergo any implicit bias testing or training. Nor does there exist any system to track the number of incidents where implicit prejudice and implicit stereotypes have led to negative birth and maternal health outcomes.

(h)It is the intent of the Legislature to reduce the effects of implicit bias in pregnancy, childbirth, and postnatal care so that all people are treated with dignity and respect by their health care providers.

(Added by Stats. 2019, Ch. 533, Sec. 3. (SB 464) Effective January 1, 2020.)

123630.2.

For the purposes of this article, the following terms have the following meanings:

(a)Pregnancy-related death is the death of a person while pregnant or within 365 days of the end of a pregnancy, irrespective of the duration or site of the pregnancy, from any cause related to, or aggravated by, the pregnancy or its management, but not from accidental or incidental causes.

(b)Implicit bias is a bias in judgment or behavior that results from subtle cognitive processes, including implicit prejudice and implicit stereotypes that often operate at a level below conscious awareness and without intentional control.

(c)Implicit prejudice is prejudicial negative feelings or beliefs about a group that a person holds without being aware of them.

(d)Implicit stereotypes are the unconscious attributions of particular qualities to a member of a certain social group. Implicit stereotypes are influenced by experience and are based on learned associations between various qualities and social categories, including race or gender.

(e)Perinatal care is the provision of care during pregnancy, labor, delivery, and postpartum and neonatal periods.

(Added by Stats. 2019, Ch. 533, Sec. 3. (SB 464) Effective January 1, 2020.)

123630.3.

(a)A hospital as defined in subdivision (a) or (f) of Section 1250 that provides perinatal care, and an alternative birth center or primary care clinic subject to Section 1204.3, shall implement an evidence-based implicit bias program for all health care providers involved in the perinatal care of patients within those facilities.

(b)An implicit bias program implemented pursuant to subdivision (a) shall include all of the following:

(1)Identification of previous or current unconscious biases and misinformation.

(2)Identification of personal, interpersonal, institutional, structural, and cultural barriers to inclusion.

(3)Corrective measures to decrease implicit bias at the interpersonal and institutional levels, including ongoing policies and practices for that purpose.

(4)Information on the effects, including, but not limited to, ongoing personal effects, of historical and contemporary exclusion and oppression of minority communities.

(5)Information about cultural identity across racial or ethnic groups.

(6)Information about communicating more effectively across identities, including racial, ethnic, religious, and gender identities.

(7)Discussion on power dynamics and organizational decisionmaking.

(8)Discussion on health inequities within the perinatal care field, including information on how implicit bias impacts maternal and infant health outcomes.

(9)Perspectives of diverse, local constituency groups and experts on particular racial, identity, cultural, and provider-community relations issues in the community.

(10)Information on reproductive justice.

(c)(1)A health care provider described in subdivision (a) shall complete initial basic training through the implicit bias program based on the components described in subdivision (b).

(2)Upon completion of the initial basic training, a health care provider shall complete a refresher course under the implicit bias program every two years thereafter, or on a more frequent basis if deemed necessary by the facility, in order to keep current with changing racial, identity, and cultural trends and best practices in decreasing interpersonal and institutional implicit bias.

(d)A facility described in subdivision (a) shall provide a certificate of training completion to another facility or a training attendee upon request. A facility may accept a certificate of completion from another facility described in subdivision (a) to satisfy the training requirement described in subdivision (c) from a health care provider who works in more than one facility.

(e)Notwithstanding subdivisions (a) to (d), inclusive, if a physician involved in the perinatal care of patients is not directly employed by a facility, the facility shall offer the training to the physician.

(Added by Stats. 2019, Ch. 533, Sec. 3. (SB 464) Effective January 1, 2020.)

123630.4.

(a)The State Department of Public Health shall track data on severe maternal morbidity, including, but not limited to, all of the following health conditions:

(1)Obstetric hemorrhage.

(2)Hypertension.

(3)Preeclampsia and eclampsia.

(4)Venous thromboembolism.

(5)Sepsis.

(6)Cerebrovascular accident.

(7)Amniotic fluid embolism.

(b)The data on severe maternal morbidity collected pursuant to subdivision (a) shall be published at least once every three years, after all of the following have occurred:

(1)The data has been aggregated by state regions, as defined by the State Department of Public Health, to

ensure data reflects how regionalized care systems are or should be collaborating to improve maternal health outcomes, or other smaller regional sorting based on standard statistical methods for accurate dissemination of public health data without risking a confidentiality or other disclosure breach.

(2)The data has been disaggregated by racial and ethnic identity.

(c)The State Department of Public Health shall track data on pregnancy-related deaths, including, but not limited to, all of the conditions listed in subdivision (a), indirect obstetric deaths, and other maternal disorders predominantly related to pregnancy and complications predominantly related to the puerperium.

(d)The data on pregnancy-related deaths collected pursuant to subdivisions (a) and (c) shall be published, at least once every three years, after all of the following have occurred:

(1)The data has been aggregated by state regions, as defined by the State Department of Public Health, to ensure data reflects how regionalized care systems are or should be collaborating to improve maternal health outcomes, or other smaller regional sorting based on standard statistical methods for accurate dissemination of public health data without risking a confidentiality or other disclosure breach.

(2)The data has been disaggregated by racial and ethnic identity.

(Added by Stats. 2019, Ch. 533, Sec. 3. (SB 464) Effective January 1, 2020.)

123630.5.

(a)A hospital, as defined in subdivision (a) of Section 1250, shall implement an evidence-based implicit bias program, as described in subdivision (b) of Section 123630.3, as part of its new graduate training program that hires and trains new nursing program graduates.

(b)If the hospital hires and trains new nursing program graduates who are subject to subdivision (c) of Section 123630.3, compliance by the hospital with Section 123630.3 shall meet the requirements of subdivision (a) only with respect to those new nursing program graduates subject to subdivision (c) of Section 123630.3.

(Added by Stats. 2021, Ch. 445, Sec. 3. (AB 1407) Effective January 1, 2022.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=2.&chapter=2.&article=4.7.

123636.

(a)The California Pregnancy-Associated Review Committee is hereby established under the State Department of Public Health to continuously engage in the comprehensive, regular, and uniform review and reporting of maternal deaths throughout the state. The department, in collaboration with the designated state perinatal quality collaborative, shall oversee the committee. The committee may incorporate the membership of the

California Pregnancy-Associated Mortality Review Committee, as it existed on December 31, 2021.

(b)The purposes of the committee include, but are not limited to, all of the following:

(1)Identifying and reviewing all pregnancy-related deaths, including the cause, contributing factors, and disseminating findings.

(2)Analyzing common indicators of severe maternal morbidity to identify prevention opportunities and reduce near-miss experiences.

(3)Making recommendations on best practices to prevent maternal mortality and morbidity, including, but not limited to, addressing socioeconomic impacts, as well as various environmental impacts, including global warming, on pregnancy outcomes.

(4)Examining racial disparities and making recommendations on the prevention of racial disparities.

(5)Tracking and examining disparities experienced by lesbian, bisexual, transgender, intersex, and gender-nonconforming individuals and reporting findings, to the extent possible.

(6)Collecting and reviewing data from maternal death investigations and making recommendations about how to improve or streamline data collection and investigatory processes.

(c)(1)In addition to reviewing medical records, death certificates, and other pertinent reports, committee review of maternal deaths shall include, to the degree practicable, for populations experiencing disparity, voluntary interview with the following individuals:

(A)Pertinent surviving family members or support people present with direct knowledge of, or involvement in, the event, including the patient in cases of severe maternal morbidity. The committee shall transcribe or summarize in writing any oral statements received pursuant to this paragraph.

(B)Members of the medical team who were present or involved in the deceased individualsdirect care.

(2)In determining the practicality of the interviews pursuant to subparagraphs (A) and (B), the committee may prioritize interviews with populations that have a documented higher rate of maternal death.

(d)The committee shall publish its findings to the public every three years as part of the publication of data on severe maternal morbidity, as required pursuant to Section 123630.4. The committeesfindings shall also include recommendations on how to prevent severe maternal morbidity and maternal mortality and how to reduce racial disparities.

(e)(1)The committee shall be composed of a minimum of 13 members. The members shall be comprised of multidisciplinary personnel and experts in the field of maternal mortality and morbidity, data analysis in maternal and fetal health, womenshealth, clinicians in maternal health, anesthesiology, pathology, and perinatology, and representatives from various public health entities, and shall include all of the following:

(A)At least one obstetrician.

(B)At least one certified nurse-midwife.

(C)At least one certified professional midwife.

(D)At least one hospital-based registered nurse or advanced practice nurse experienced in perinatal health.

(E)A clinician or patient advocate from a birthing center, if not already represented by a member otherwise listed.

(F)At least one public member with relevant personal experience related to maternal morbidity or maternal mortality who has experienced birth and does not fit in another classification.

(G)At least one doula.

(H)At least one person from a community-based organization that works in perinatal health.

(I)At least one person from an organization that works with populations that have disproportionately high occurrences of maternal mortality and morbidity.

(J)At least one person who is an expert on mental and behavioral health, preferably with experience in perinatal health.

(K)At least one person from a native tribe, preferably with experience in perinatal health.

(L)At least one representative of the Maternal, Child, and Adolescent Health Division of the department.

(M)At least one family physician.

(N)At least one emergency room physician familiar with perinatal health.

(2)The committee shall prioritize for membership members who are representative of the diversity and geographic locations of the pregnant people in populations with disproportionately high occurrences of maternal mortality and morbidity.

(3)The State Public Health Officer shall appoint a maternal mortality expert to be a member of the committee as the chair of the committee. The chair shall appoint the other members of the committee in accordance with the criteria specified in paragraph (1).

(4)The committee may create subcommittees, as needed, to carry out its duties.

(f)The committee may request from any state department, division, commission, local health department, or other agency of the state or political subdivision thereof, or any public authority, as well as hospitals, birthing facilities, medical examiners, coroners, coroner physicians, and any other facility or individual providing services associated with maternal mortality, and those individuals and entities shall provide information, including, but not limited to, death records, medical records, autopsy reports, toxicology reports, hospital discharge records, birth records, and any other information that will help the committee to properly carry out its functions, powers, and duties. The committee shall not request, and health care providers shall not provide, reports, testimony, or other information produced as a result of activities undertaken by organized committees of a hospital medical staff or peer review body, as defined in Section 805 of the Business and Professions Code, that has the responsibility to evaluate or improve the quality of care rendered in a hospital.

(g)Except as otherwise provided by this article, all proceedings and activities of the committee, all opinions of the members of the committee that are formed as a result of the committeesproceedings and activities, and all records obtained, created, or maintained by the committee, including written reports and records of interviews or oral statements, shall be confidential, and in accordance with Sections 1157 and 1157.5 of the

Evidence Code, shall not be subject to public inspection, discovery, subpoena, or introduction into evidence in any civil, criminal, legislative, administrative, or other proceeding.

(h)In no case shall the committee disclose any personally identifiable information to the public, or include any personally identifiable information in a case summary that is prepared pursuant to this article, or in any report that is prepared.

(i)To the extent prescribed by Sections 1157 and 1157.5 of the Evidence Code, members of the committee shall not be questioned in any civil, criminal, legislative, administrative, or other proceeding regarding information that has been presented in, or opinions that have been formed as a result of, a meeting or communication of the committee. However, nothing in this paragraph shall prohibit a committee member from being questioned, or from testifying, in relation to publicly available information or information that was obtained independently of the membersparticipation on the committee, or as an expert witness in maternal death cases unrelated to their case review as a member of the committee.

(j)This section does not prohibit the committee from publishing, or from otherwise making available for public inspection, statistical compilations or reports that are based on confidential information, provided that those compilations and reports do not contain personally identifying information or other information that could be used to ultimately identify the individuals concerned, and shall utilize standard public health reporting practices for accurate dissemination of these data elements, especially with regard to the reporting of small numbers so as to inadvertently risk a breach of confidentiality or other disclosure.

(k)A health care provider, health care facility, or pharmacy providing access to medical records pursuant to this section shall not be held liable for civil damages or be subject to any criminal or disciplinary action for good faith efforts in providing the records.

(Added by Stats. 2021, Ch. 449, Sec. 3. (SB 65) Effective January 1, 2022. Operative August 1, 2022, pursuant to Section 123637.)

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Maternal Health [123375 - 123641]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 6. Maternal Mental Health [123640- 123640.]__

(Article 6 added by Stats. 2018, Ch. 755, Sec. 2.)

123640.

(a)A licensed health care practitioner who provides prenatal, postpartum, or interpregnancy care for a patient shall ensure that the mother is offered screening or is appropriately screened for maternal mental health conditions.

(b)This section shall not apply to a licensed health care practitioner when providing emergency services or care, as defined in Section 1317.1.

(c)This section does not preclude any licensed or certified provider acting within their scope of practice from screening for maternal mental health conditions.

(d)For purposes of this section, the following definitions apply:

(1)Health care practitioner means a physician and surgeon, naturopathic doctor, nurse practitioner, physician assistant, nurse midwife, or a midwife licensed pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code or an initiative act referred to in that division and who is acting within their scope of practice.

(2)Maternal mental health condition means a mental health condition that occurs during pregnancy, the postpartum period, or interpregnancy and includes, but is not limited to, postpartum depression.

(Amended by Stats. 2021, Ch. 535, Sec. 1. (AB 1477) Effective January 1, 2022.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=2.&chapter=2.&article=7.

123641.

(a)(1)Of the amounts appropriated in Schedule (3) of Item 4260-101-0001 of the Budget Act of 2022 for this purpose, twenty million dollars ($20,000,000) is available for encumbrance and expenditure until June 30, 2028, to establish the Los Angeles County Abortion Access Safe Haven Pilot Program for the purpose of expanding and improving access to the full spectrum of sexual and reproductive health care, including abortion, in the County of Los Angeles.

(2)Up to 8 percent of funds allocated may be used by a program administrator, as designated by the County of Los Angeles, to cover administrative costs related to completing activities consistent with this section.

(b)Funds allocated to the County of Los Angeles or its program administrator for the Los Angeles County Abortion Access Safe Haven Pilot Program shall be used to administer a pilot project to support innovative approaches and patient-centered collaborations to safeguard patient access to abortions. Funds may be used for the purpose of implementing recommendations from the County of Los Angeles, including, but not limited to, any of the following:

(1)Providing medically accurate education and training tools to the community.

(2)Providing training to health care workers and abortion providers.

(3)Building secure infrastructure.

(4)Countering misinformation campaigns and providing medically accurate information to health care providers and patients.

(5)Coordinating care and patient support services.

(6)Advancing and improving access to abortion.

(c)(1)The Los Angeles County Abortion Access Safe Haven Pilot program administrator shall use funds allocated under this section to maintain a system of financial reporting on all aspects of the fund. The financial reporting shall include information on expenditures and activities using the funds associated with this provision to ensure the use of the funds are consistent with the purposes of this section.

(2)For purposes of this section, the program administrator shall not require the submission of any identifying personal information about individuals providing, participating in, or receiving any service as part of an application for a grant or reporting of expenditures and activities using grant funds under this article. Information required by the program administrator shall only include information in summary, statistical, or other forms that do not identify particular individuals.

(d)The program administrator, as designated by the County of Los Angeles, shall determine a funding

framework to prioritize funding for pilot programs and projects in consultation with stakeholders, including representatives from the local departments of public health, the Los Angeles County Chief Executive Office, sexual and reproductive health providers that serve the region, and reproductive health, rights, and justice community-based organizations.

(e)The program administrator shall provide an annual report to the Legislature summarizing the projects and collaborations funded under this section. The report shall also include data on the balances of funds available under this division for expenditures in that fiscal year and future fiscal years. The first annual report shall be submitted on or before January 1, 2025, and shall cover the period of July 1, 2023, to July 1, 2024, inclusive. Each subsequent annual report shall be submitted on or before January 1, and shall cover the previous fiscal year. The report shall be submitted in compliance with Section 9795 of the Government Code.

(f)An application for a grant under this article and financial reporting by grantees are exempt from disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(g)The State Department of Health Care Services may enter into exclusive or nonexclusive contracts, or amend existing contracts, on a bid or negotiated basis for purposes of implementing this section. Contracts entered into or amended pursuant to this section are exempt from Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code, Section 19130 of the Government Code, Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, and the State Administrative Manual, and are exempt from the review or approval of any division of the Department of General Services.

(Added by Stats. 2022, Ch. 567, Sec. 2. (SB 1245) Effective January 1, 2023.)

123650.

(a) The department shall develop a plan to identify causes of infant mortality and morbidity in California and to study recommendations on the reduction of infant mortality and morbidity in California.

(b) The study plan shall be completed on or before July 1, 1988, and shall be developed in conjunction with, and reviewed by, each of the following organizations:

(1) The California Medical Association.

(2) The California Nurses Association.

(3) The California Hospital Association.

(4) The American College of Obstetrics and Gynecologists.

(5) The American College of Nurse Midwives.

(6) The California Academy of Family Physicians.

(7) The American Academy of Pediatrics.

(8) The California Association of Freestanding Birth Centers.

(9) The American Public Health Association.

(10) The Medical Board of California.

(11) The Board of Registered Nurses.

(12) The Department of Consumer Affairs.

(13) The office.

(14) The California Association of Midwives.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123660.

(a)The Legislature finds that the Fetal and Infant Mortality Review process is used to identify and take action to prevent a wide range of local social, economic, public health, education, environmental, and safety factors that contribute to the tragedy of fetal and infant loss.

(b)(1)Each county shall annually report infant deaths to the local health department.

(A)The data shall be aggregated to ensure data reflects how regionalized care systems are, or should be, collaborating to improve fetal and infant health outcomes based on standard statistical methods for accurate dissemination of public health data without risking a confidentiality or other disclosure breach.

(B)The data shall be disaggregated by racial and ethnic identity.

(2)A local health department shall, subject to subdivision (e), establish a Fetal and Infant Mortality Review committee to investigate infant deaths to prevent fetal and infant death if both of the following apply with

respect to the county:

(A)The county has five or more infant deaths in a single year.

(B)The county has a death rate that is higher than the statesdeath rate for two consecutive years.

(c)A local public health department that participates in the Fetal and Infant Mortality Review process established by the department shall do all of the following:

(1)Annually investigate, track, and review a minimum amount of 20 percent of the countyscases of term infants who were born following labor with the outcome of intrapartum stillbirth, early neonatal death, or postneonatal death, focusing on demographic groups that are disproportionately impacted by infant death. A county that has less than five deaths in a year shall investigate at least one death. For purposes of this section, term infants means infants who are at 36 weeks or more of gestation.

(2)Establish a committee for fetal and infant mortality reviews led by local health departments. The committee shall include members of the community, and shall not include anyone employed by a law enforcement agency. In counties where the coroner, medical examiner, or other medical professional is employed by law enforcement, these individuals can share information with the committee in their medical professional capacity only.

(A)All data and records obtained, prepared, created, and maintained in anticipation of a review meeting shall be confidential. Data and records prepared, created, and maintained in anticipation of a review meeting shall not be subject to public records requests, subpoena, or civil processes and shall not be admissible in evidence in connection with any administrative, judicial, executive, legislative, or other proceeding.

(B)All participants engaged in and associated with the review process shall sign a confidentiality agreement that states they will not discuss or share information about individual cases and the proceedings of the review meeting, outside of the meeting. This shall not preclude the committee from publishing, or from otherwise making available for public inspection, statistical compilations or reports that are based on confidential information, provided that those compilations or reports do not contain personally identifying information or other information that could be used to ultimately identify the individuals concerned, and shall utilize standard public health reporting practices for accurate dissemination of these data elements, especially with regard to the reporting of small numbers so as to inadvertently risk a breach of confidentiality or other disclosure.

(C)To the extent prescribed by Sections 1157 and 1157.5 of the Evidence Code, members of a team, persons attending a team meeting, and persons who present information to a team may not be questioned in any administrative, civil, or criminal proceeding regarding information presented in, or opinions formed as a result of, a meeting. This subparagraph does not prohibit a person from testifying to information obtained independently of the team or that is public information. A health care provider, health care facility, or pharmacy providing access to medical records pursuant to this section shall not be held liable for civil damages or be subject to any criminal or disciplinary action for good faith efforts in providing the records.

(3)Conduct voluntary interviews with individuals who have experienced child loss or surviving family members of maternal or infant death who have knowledge of the event. The interview shall include questions to determine if the pregnant person had concerns about perinatal care during any point in their pregnancy or postpartum care, whether there were disagreements about care offered and received, and whether the pregnant person had asked for certain care that was denied or not received.

(4)Conduct a report or investigation, to the degree practicable, with all medical staff involved with the event.

(5)Offer grief counseling to surviving family members.

(d)Counties, hospitals, birthing centers, and state entities shall provide to local health departments death records, medical records, autopsy reports, toxicology reports, hospital discharge records, birth records, and any other information that will help the local health department conduct the fetal and infant mortality review within 30 days of a request made in writing by a local health department. The local health department shall not request, and health care providers shall not provide, reports, testimony, or other information produced as a result of activities undertaken by organized committees of a hospital medical staff or peer review body, as defined in Section 805 of the Business and Professions Code, that has the responsibility to evaluate or improve the quality of care rendered in a hospital.

(e)The requirements of this section apply to a local health department only upon the appropriation of funds by the Legislature for these purposes in the annual Budget Act or another act.

(Added by Stats. 2021, Ch. 449, Sec. 4. (SB 65) Effective January 1, 2022.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. Child Health [123650 - 124174.6]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2.5. Infant Botulism Treatment and Prevention Program [123700 - 123709]__

(Heading of Article 2.5 renumbered from Article 3.55 (and relocated from Chapter 2 of Part 1 of Division 1) by Stats. 1996, Ch. 1023, Sec. 116.)

123700.

(a) Infant botulism is an acute, life-threatening paralytic disease of babies caused by a potent bacterial neurotoxin.

(b) Half of all cases of infant botulism in the United States occur in California, where the causative bacterial spores are known to be highly endemic. In any given year between 30 and 50 infants with botulism are hospitalized in California, thus qualifying infant botulism as an orphan disease as defined by the federal Orphan Drug Act of 1983 (P.L. 97-414, as amended).

(c) The cost of hospitalization of these afflicted babies for the five years 1988"92 were approximately fourteen million dollars ($14,000,000). Over two million seven hundred thousand dollars ($2,700,000) of these costs were paid by the State Department of Health Services through its Medi-Cal and California ChildrensServices programs, while over one million four hundred thousand ($1,400,000) of these costs were absorbed as operating losses by California hospitals.

(d) Hospital stay for these critically-ill infants averages five weeks and costs approximately seventy thousand dollars ($70,000) per case. In 1992 a single case was hospitalized over six months at a cost in excess of five hundred five thousand dollars ($505,000). In 1988 a single infant was hospitalized for 10 months at a cost of over six hundred thirty-five thousand dollars ($635,000).

(e) In an effort to reduce these costs, the State Department of Health Services began in early 1992 a four-year clinical trial of a potential new medicine, human Botulism Immune Globulin (BIG), specifically designed for the treatment of infant botulism. The funding for this clinical trial is being provided by the United States Food and Drug Administration.

(f) As defined in the federal Orphan Drug Act, the State Department of Health Services is the official sponsor of BIG. As such, the department is responsible for providing and distributing an ongoing supply of BIG to infant botulism patients nationwide if the clinical trial shows that BIG is safe and effective treatment for infant botulism. The clinical trial is expected to end in 1996.

(g) If human-derived BIG proves to be effective, then physicians can choose to use it to treat foodborne botulism and wound botulism, rather than using the existing horse-serum-derived botulism antitoxin, which has serious side effects. Foodborne botulism and wound botulism also qualify as orphan diseases under the

federal Orphan Drug Act.

(h) Other scientific evidence indicates that infant botulism and related illnesses may be responsible for one of every 20 sudden infant death cases in California. More sudden infant deaths occur in California each year than in any other state.

(i) The Legislature finds and declares that the enactment of this article is necessary for the protection of the publicshealth, investigations and further research into the optimal medical treatment of infant botulism, including product improvement of BIG, and into the causes and prevention of infant botulism and related sudden infant death cases, and providing expert medical consultation for the care of infants with this disease.

(Added by renumbering Section 330.10 (as added by Stats. 1995, Ch. 674) by Stats. 1996, Ch. 1023, Sec. 117. Effective September 29, 1996.)

123702.

(a) The State Department of Health Services shall establish an Infant Botulism Treatment and Prevention Unit. This unit shall have responsibility for ensuring the production and distribution of BIG to patients in California and nationwide suspected of having infant botulism or other forms of human botulism in accord with applicable federal law.

(b) As permitted by federal law, the state department shall charge a fee for BIG, and the fees shall be deposited in the special Infant Botulism Treatment and Prevention Fund established by Section 123709.

(c) Notwithstanding any other provision of law, the funds generated by the sale of BIG are to be expended only for the purposes authorized by this article.

(d) The amount of the fee shall be established by regulation and periodically adjusted by the State Director of Health Services in order to meet but not exceed the total costs of this article. This adjustment of fees shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, except that upon adoption of the adjusted fee by the director, the provision revising the fee shall be filed with the Secretary of State and shall be printed in the California Code of Regulations.

(e) It is the intent of the Legislature that the state department consider providing BIG to low-income families at no charge.

(Added by renumbering Section 330.15 (as added by Stats. 1995, Ch. 674) by Stats. 1996, Ch. 1023, Sec. 118. Effective September 29, 1996.)

123704.

The Infant Botulism Treatment and Prevention Unit shall provide all the following services:

(a) Produce, or cause to have produced, and maintain, a supply of BIG sufficient to treat the expected number of annual cases of infant botulism in the United States, and to store, or arrange storage for, same.

(b) Distribute BIG to patients suspected of having infant botulism or other forms of botulism in California and in the rest of the United States on appropriate medical indications.

(c) Investigate ways to improve the treatment of infant botulism and related illness, including technical improvement of BIG, and implement them as appropriate.

(d) Provide diagnostic laboratory services and medical and public health expertise about infant botulism and related illnesses to all physicians, hospitals, laboratories, and parents statewide.

(e) Investigate all cases or suspected cases of infant botulism with both field and laboratory techniques as appropriate, in order to acquire the broadest data base for prevention and optimal treatment.

(f) Develop and implement control measures for the prevention of infant botulism and related illnesses.

(g) Share with other public health agencies the expertise gained in the development of BIG as it relates to other toxin-mediated infectious diseases of public health importance, and apply that expertise as appropriate.

(h) Establish scientific collaborations with university, forensic, hospital, public health, pharmaceutical, and biotechnology institutions, as appropriate as determined by the unit, that have resources and expertise to contribute to the study, prevention, or treatment of infant botulism and related illnesses.

(Added by renumbering Section 330.20 (as added by Stats. 1995, Ch. 674) by Stats. 1996, Ch. 1023, Sec. 119. Effective September 29, 1996.)

123705.

It is the intent of the Legislature that the program carried out pursuant to this article shall be fully supported from the fees collected for providing BIG to patients with suspected infant botulism or other forms of botulism and that these fees be made available for expenditure by the state department as appropriated by the Legislature in the annual Budget Act. However, it is the intent of the Legislature that until June 30, 1999, the Legislature may appropriate in the annual Budget Act the funds necessary for the support of programs authorized in this article in excess of fee revenues collected. It is, further, the intent of the Legislature that these appropriations be provided as a loan from the General Fund to be repaid with interest to the General Fund over the subsequent five years with interest at the rate earned by moneys invested in the Pooled Money Investment Account.

(Added by renumbering Section 330.25 (as added by Stats. 1995, Ch. 674) by Stats. 1996, Ch. 1023, Sec. 120. Effective September 29, 1996.)

123707.

(a)The State Department of Health Services may manufacture, test, distribute, and maintain licensure of the product Botulism Immune Globulin Intravenous (Human) if all necessary federal licenses are obtained. The department was issued United States License No. 1622 on October 23, 2003, by the United States Food and Drug Administration under the authority of Section 351(a) of the Public Health Service Act controlling the manufacture and sale of biological products. The product may be labeled with the proprietary name

BabyBIGÂ®.

(b)The United States Food and Drug Administration license agreement stipulated the contracts and commodity purchases required to manufacture, test, distribute, and maintain licensure of Botulism Immune Globulin Intravenous (Human). Therefore, contracts and commodity purchases for any manufacture, testing, distribution, packaging, development, and licensure of Botulism Immune Globulin Intravenous (Human) by the department shall be exempt from competitive bidding and shall be exempt from the requirements of Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code.

(c)Since the incidence of infant botulism in California can vary by as much as 60 percent from year to year, and since continuity of program operations is critical to the health and well-being of these infants, any funds not expended at the end of the fiscal year shall be carried forward into the next fiscal year, notwithstanding any other provision of law.

(d)In carrying out this article, the Infant Botulism Treatment and Prevention Unit may adopt regulations, make and receive grants, and enter into contracts and interagency agreements.

(Amended by Stats. 2004, Ch. 228, Sec. 6. Effective August 16, 2004.)

123709.

The Infant Botulism Treatment and Prevention Fund is hereby established as a special fund in the State Treasury. All moneys collected by the state department pursuant to this article shall be deposited in the Infant Botulism Treatment and Prevention Fund, and shall be made available to the state department for expenditure for the purposes of this article as appropriated by the Legislature in the annual Budget Act.

(Added by renumbering Section 330.35 (as added by Stats. 1995, Ch. 674) by Stats. 1996, Ch. 1023, Sec. 122. Effective September 29, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. Child Health [123650 - 124174.6]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 3. Sudden Infant Death Syndrome [123725 - 123745]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 8.)

123725.

(a) For purposes of this section, the following definitions shall apply:

(1) SIDS means sudden infant death syndrome.

(2) SIDS Advisory Council or advisory council means the Sudden Infant Death Syndrome Advisory Council established pursuant to subdivision (b).

(b) The department shall establish a Sudden Infant Death Syndrome Advisory Council. The advisory council shall consist of nine members who shall be chosen by the director in consultation with regional SIDS parent advisory councils. At least one-third of the members of the advisory council chosen by the director shall be representatives of SIDS parents™ groups. The membership of the advisory council shall also include, but not be limited to, a coroner, a medical examiner, a public health nurse, a physician and surgeon with expertise in SIDS, and a representative from a police or fire department.

(c) The SIDS Advisory Council shall do all of the following:

(1) Provide guidance to the state department in the development of training, educational, and research programs regarding SIDS.

(2) Provide ongoing guidance to the Governor and the Legislature regarding the need for specific programs regarding SIDS for specific targeted groups of persons.

(3) In conjunction with the state department or a person with whom the state department contracts to provide SIDS education, convene a statewide conference annually to examine the progress in discovering the cause of SIDS, explore the progress of newly established programs and services related to SIDS, identify future needs for legislation and program development regarding SIDS, and make recommendations on the needs of programs regarding SIDS. Conference participants shall include professionals and service providers in the area of SIDS, family members of SIDS victims, and the staff of members of the Legislature and departments of the state.

(d) The members of the advisory council shall serve at the pleasure of the director. The members of the

advisory council shall serve without compensation, but shall be reimbursed for necessary and travel expenses incurred in the performance of the duties of the advisory council.

(e) The requirements contained in this section shall be subject to the annual Budget Act and shall be operative only to the extent that funds are appropriated for the purposes of this section.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123730.

The department shall keep each county health officer advised of the most current knowledge relating to the nature and causes of sudden infant death syndrome.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123735.

(a) As used in this section, SIDS means sudden infant death syndrome.

(b) The department shall contract with a person to provide regular and ongoing SIDS education and training programs for those who interact with parents and caregivers following a death from SIDS, including, but not limited to, the following:

(1) County public health nurses.

(2) Coroners and coroners™ investigators.

(3) Forensic pathologists.

(4) Emergency room physicians and surgeons, nurses, and other staff.

(5) Licensed day care providers.

(6) SIDS parent groups.

(7) Medical examiners.

(c) The department shall contract with a person to produce, update, and distribute literature on SIDS for specific target populations of persons who interact with parents and caregivers following a death from SIDS, including, but not limited to, the following:

(1) Clergy.

(2) Fire and police departments.

(3) Emergency medical service staff.

(4) Morticians.

(5) Funeral directors.

(6) SIDS parent groups.

(d) The requirements of this section shall be subject to the annual Budget Act and shall be operative only to the extent funds are appropriated for the purposes of this section.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123740.

(a) For purposes of this section the following definitions shall apply:

(1) Appropriately trained public health professional means a public health nurse or a social worker who is knowledgeable about the incidence of sudden infant death syndrome and the care and support of persons who have experienced a death of this nature, and who has basic grief counseling skills.

(2) Contact is a face-to-face visit, a group visit, or a telephone call that provides one or more of the following services:

(A) An assessment of the family, child care provider, or both.

(B) Crisis intervention and counseling.

(C) A referral to a community service.

(D) A followup assessment of the family™s, the child care provider™s, or both familysand child care providersprogress.

(3) Immediately means within three working days of receiving notice from the coroner or other reporting agent of a death presumedly caused by sudden infant death syndrome.

(4) Local health officer means a health officer for a city, county, or city and county.

(b) Upon being informed by the coroner pursuant to Section 102865 of any case in which sudden infant death syndrome is the presumed cause of death, the local health officer or his or her designated agent, who is an appropriately trained public health professional, after consultation with the infantsphysician of record, when possible, shall immediately contact the person or persons who had custody and control of the infant, including foster parents, when applicable, for the purposes of providing to that person information, support, referral, and followup services relating to sudden infant death syndrome. If the infant was in child care, the local health officer or his or her designated agent who is an appropriately trained public health professional also shall immediately contact the child care provider.

(c) The local health officer shall perform the duties required by this section throughout the jurisdiction of that local health officer.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123745.

The department shall monitor, or contract with a person to monitor, whether the county health officer or his or her designated agent is performing the duties required by Section 123740 and whether they are being performed within the timeframes specified in Section 123740.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=2.&chapter=3.&article=4.

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. Child Health [123650 - 124174.6]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 4. Infant Medical Dispatch Centers [123750 - 123775]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 8.)

123750.

The Legislature finds that intensive care nurseries for at-risk infants are often at capacity. It further finds that serious delays can occur in placing critically ill newborn infants in intensive care nurseries due to calls being placed to many hospitals. Additionally, valuable staff time is often taken by a capacity nursery in attempting to find another nursery with an available bed. It is further found that, due to the lack of a centralized dispatch system, at-risk infants are often not placed in the intensive care nursery nearest their homes.

Therefore, the Legislature finds that in order to protect the health of critically ill newborn children and to more efficiently utilize space and staff in intensive care nurseries it is necessary to establish 24-hour-a-day, year-round medical dispatch centers linking all hospitals providing obstetrical services with intensive care nurseries.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123753.

The department shall establish two dispatch centers, each to be located at a hospital containing an intensive care nursery that has been approved by the department.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123755.

One of the centers established pursuant to Section 123750 shall be located to serve the region of the state north of the Tehachapi Mountains, and one of the centers shall be located to serve the region south of the Tehachapi Mountains.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123760.

The centers shall locate bedspace for critically ill newborn infants nearest their homes, locate and dispatch transport for the infants and for appropriate medical personnel, advise the obstetrical nursery regarding maintenance care of the infant until transport is effected, and keep a daily record of the availability of bedspace in all intensive care nurseries.

Nothing in this article shall obligate the state for transport costs other than those already authorized by law.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123765.

Funds appropriated to carry out the purposes of this article shall be used for leasing or purchasing communication equipment or time; and for hiring, training, or contracting for personnel and administration

of the centers.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123770.

Public and private nonprofit health facilities, organizations, and educational institutions are eligible to receive center funds under this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123775.

Each infant medical dispatch center established pursuant to this article shall annually report on the progress of the project, the status of the data base obtained pursuant to Section 123760, and any necessary changes to meet the goals prescribed in Section 123760 to the Legislature upon request of either the Joint Legislative Budget Committee or other interested committees or Members of the Legislature.

(Amended by Stats. 2001, Ch. 745, Sec. 153. Effective October 12, 2001.)

Codes Display Text

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. Child Health [123650 - 124174.6]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 5. California ChildrensServices [123800 - 123995]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 8.)

123800.

This article shall be known and may be cited as the Robert W. Crown California ChildrensServices Act.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123805.

The department shall establish and administer a program of services for physically defective or handicapped persons under the age of 21 years, in cooperation with the federal government through its appropriate agency or instrumentality, for the purpose of developing, extending and improving the services. The department shall receive all funds made available to it by the federal government, the state, its political subdivisions or from other sources. The department shall have power to supervise those services included in the state plan that are not directly administered by the state. The department shall cooperate with the medical, health, nursing and welfare groups and organizations concerned with the program, and any agency of the state charged with the administration of laws providing for vocational rehabilitation of physically handicapped children.

The reference to the age of 21 years in this section is unaffected by Section 1 of Chapter 1748 of the Statutes of 1971 or any other provision of that chapter.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123810.

The department succeeds to and is vested with the duties, purposes, responsibilities, and jurisdiction heretofore exercised by the State Department of Benefit Payments with respect to moneys, funds, and appropriations available to the department for the purposes of processing, audit, and payment of claims received for the purposes of this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123815.

The department shall have possession and control of all records, papers, equipment, and supplies held for the benefit or use of the Director of Benefit Payments in the performance of his duties, powers, purposes, responsibilities, and jurisdiction that are vested in the department by Section 123810.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123820.

All officers and employees of the Director of Benefit Payments who on July 1, 1978, are serving in the state civil service, other than as temporary employees, and engaged in the performance of a function vested in the department by Section 123810 shall be transferred to the department. The status, positions, and rights of these persons shall not be affected by the transfer and shall be retained by them as officers and employees of the department pursuant to the State Civil Service Act, except as to positions exempt from civil service.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123822.

All claims for services provided under this article shall be submitted to the state fiscal intermediary for payment no later than January 1, 1999. The State Department of Health Services shall work in cooperation with the counties to develop a timeline for implementing the centralized billing system. If a department review of those counties participating in the centralized billing system demonstrates that as of January 1, 2000, any county has incurred increased costs as a result of submitting claims for services to the state fiscal intermediary, that county may be exempt from this section.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123825.

It is the intent of the Legislature through this article to provide, to the extent practicable, for the necessary medical services required by physically handicapped children whose parents are unable to pay for these services, wholly or in part. This article shall also include the necessary services rendered by the program to physically handicapped children treated in public schools that provide services for physically handicapped children.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123830.

Handicapped child,□ as used in this article, means a physically defective or handicapped person under the age of 21 years who is in need of services. The director shall establish those conditions coming within a definition of handicapped child□ except as the Legislature may otherwise include in the definition. Phenylketonuria, hyaline membrane disease, cystic fibrosis, and hemophilia shall be among these conditions.

The reference to the age of 21 years in this section is unaffected by Section 1 of Chapter 1748 of the Statutes of 1971 or any other provision of that chapter.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123835.

(a)The department shall keep the California ChildrensServices (CCS) program abreast of advances in medical science, leading to the inclusion of other handicapping conditions and services within the limits of and consistent with the most beneficial use of funds appropriated for this purpose. With the approval of the agency administrator the department may carry out pilot studies to determine the need for, or the feasibility of, including other handicapping conditions and services in the program within the limits of available funds appropriated for the program.

(b)To the extent that any changes in CCS medical eligibility are proposed by the department, there shall be a stakeholder process that shall include both of the following:

(1)A draft of the proposed regulatory changes shall be shared publicly at least 120 days prior to the filing of a regulatory change. The proposed changes shall also be shared with the appropriate policy and fiscal committees of the Legislature and posted publicly on the departmentsInternet Web site.

(2)The department shall utilize existing stakeholder committees to receive input and comments on any proposed changes and shall provide written comments back after input is provided. This input may be provided to all stakeholders, including, but not limited to, advocates, clinical experts, associations, county CCS program administrators, families, and CCS providers.

(Amended by Stats. 2016, Ch. 625, Sec. 2. (SB 586) Effective January 1, 2017.)

123840.

Services, as used in this article, means any or all of the following:

(a) Expert diagnosis.

(b) Medical treatment.

(c) Surgical treatment.

(d) Hospital care.

(e) Physical therapy.

(f) Occupational therapy.

(g) Special treatment.

(h) Materials.

(i) Appliances and their upkeep, maintenance, care and transportation.

(j) Maintenance, transportation, or care incidental to any other form of services.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123845.

California ChildrensServices Program, as used in this article, means the program of services established and operated pursuant to this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123850.

(a)The board of supervisors of each county shall designate the county department of public health or the county department of social welfare as the designated agency to administer the California ChildrensServices (CCS) program. Counties with total population under 200,000 persons may administer the county program independently or jointly with the department. Counties with a total population in excess of 200,000 persons shall administer the county program independently. Except as otherwise provided in this article, the director shall establish standards relating to the local administration and minimum services to be offered by counties in the conduct of the CCS program.

(b)(1)Upon a determination by the director that a Medi-Cal managed care plan and participating county have met all of the State Department of Health Care Services™ readiness requirements, the designated county agency and a Medi-Cal managed care health plan serving the county, as determined by the director, shall provide for the transition of CCS program services, except for services provided pursuant to subdivision (c), into the Medi-Cal managed care health plan contract in Whole Child Model counties pursuant to Article 2.985 (commencing with Section 14094.4) for children who are enrolled in the Medi-Cal managed care plan and CCS. For children enrolled in a Medi-Cal managed care plan and CCS in Whole Child Model counties pursuant to Article 2.985 (commencing with Section 14094.4), the case management, care coordination, provider referral, and service authorization administrative functions of the CCS program shall then be the responsibility of the Medi-Cal managed care health plan in accordance with Section 14094.13 and a written transition plan prepared by the designated county agency and the Medi-Cal managed care health plan. The director shall provide an implementation date for the transition and identify how the state shall continue to fulfill the requirements set forth in Sections 123855, 123925, and 123960. CCS program eligibility determination shall remain the responsibility of the designated county agency in accordance with the provisions of this article.

(2)The case management, care coordination, provider referral, and service authorization functions of the CCS program shall remain the responsibility of the county for CCS beneficiaries exempt from mandatory enrollment in the Medi-Cal managed care plan.

(c)The CCS Medical Therapy program shall remain responsible for the provision of medically necessary occupational and physical therapy services prescribed by the CCS Medical Therapy Unit Conference Team

Physician or the CCS-paneled physician who is providing the medical direction for occupational and physical therapy services.

(d)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department may implement, interpret, or make specific this article, Article 2.97 (commencing with Section 14093) and Article 2.985 (commencing with Section 14094.4) of Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code, and any applicable federal waivers and state plan amendments by means of all-county letters, plan letters, CCS numbered letters, plan or provider bulletins, or similar instructions, without taking regulatory action in order to implement the Whole Child Model established pursuant to Article 2.985 (commencing with Section 14094.4). By July 1, 2020, the department shall adopt regulations in accordance with the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. Commencing January 1, 2018, the department shall provide a status report to the Legislature on a semiannual basis, in compliance with Section 9795 of the Government Code, until regulations have been adopted.

(Amended by Stats. 2016, Ch. 625, Sec. 3. (SB 586) Effective January 1, 2017.)

123853.

(a)The department may enter into contracts with one or more manufacturers on a negotiated or bid basis as the purchaser, but not the dispenser or distributor, of factor replacement therapies under the California ChildrensServices Program for the purpose of enabling the department to obtain the full range of available therapies and services required for clients with hematological disorders at the most favorable price and to enable the department, notwithstanding any other provision of state law, to obtain discounts, rebates, or refunds from the manufacturers based upon the large quantities purchased under the program. Nothing in this subdivision shall interfere with the usual and customary distribution practices of factor replacement therapies. In order to achieve maximum cost savings, the Legislature hereby determines that an expedited contract process under this section is necessary. Therefore, a contract under this subdivision may be on a negotiated basis and shall be exempt from Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code and Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of the Government Code. Contracts entered pursuant to this subdivision shall be confidential and shall be exempt from disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(b)(1)Factor replacement therapy manufacturers shall calculate and pay interest on late or unpaid rebates. The interest shall not apply to any prior period adjustments of unit rebate amounts or department utilization adjustments. Manufacturers shall calculate and pay interest on late or unpaid rebates for quarters that begin on or after the effective date of the act that added this subdivision.

(2)Following the final resolution of any dispute regarding the amount of a rebate, any underpayment by a manufacturer shall be paid with interest calculated pursuant to paragraph (4), and any overpayment, together with interest at the rate calculated pursuant to paragraph (4), shall be credited by the department against future rebates due.

(3)Interest pursuant to paragraphs (1) and (2) shall begin accruing 38 calendar days from the date of mailing the invoice, including supporting utilization data sent to the manufacturer. Interest shall continue to accrue until the date of mailing of the manufacturerspayment.

(4)Interest rates and calculations pursuant to paragraphs (1) and (2) shall be identical to interest rates and

calculations set forth in the federal Centers for Medicare and Medicaid Services™ Medicaid Drug Rebate Program Releases or regulations.

(c)If the department has not received a rebate payment, including interest, within 180 days of the date of mailing of the invoice, including supporting utilization data, a factor replacement therapy manufacturerscontract with the department shall be deemed to be in default and the contract may be terminated in accordance with the terms of the contract. This subdivision does not limit the departmentsright to otherwise terminate a contract in accordance with the terms of that contract.

(d)The department may enter into contracts on a bid or negotiated basis with manufacturers, distributors, dispensers, or suppliers of pharmaceuticals, appliances, durable medical equipment, medical supplies, and other product-type health care services and laboratories for the purpose of obtaining the most favorable prices to the state and to assure adequate access and quality of the product or service. In order to achieve maximum cost savings, the Legislature hereby determines that an expedited contract process under this subdivision is necessary. Therefore, contracts under this subdivision may be on a negotiated basis and shall be exempt from the provisions of Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code and Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of the Government Code.

(e)The department may contract with one or more manufacturers of each multisource prescribed product or supplier of outpatient clinical laboratory services on a bid or negotiated basis. Contracts for outpatient clinical laboratory services shall require that the contractor be a clinical laboratory licensed or certified by the State of California or certified under Section 263a of Title 42 of the United States Code. Nothing in this subdivision shall be construed as prohibiting the department from contracting with less than all manufacturers or clinical laboratories, including just one manufacturer or clinical laboratory, on a bid or negotiated basis.

(Amended by Stats. 2021, Ch. 615, Sec. 283. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

123855.

The department or designated county agency shall cooperate with, or arrange through, local public or private agencies and providers of medical care to seek out handicapped children, bringing them expert diagnosis near their homes. Case finding shall include, but not be limited to, children with impaired sense of hearing. This section does not give the department or designated agency power to require medical or other form of physical examination without consent of parent or guardian.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123860.

In accordance with applicable regulations of the United States ChildrensBureau, the department and designated county agencies shall provide a diagnosis for handicapped children. Within the limits of available funds, the department and designated local agencies may accept for diagnosis a handicapped child believed to have a severe chronic disease or severe physical handicap, as determined by the director, irrespective of whether the child actually has an eligible medical condition specified in Section 123830. The department

shall cause a record to be kept listing all conditions diagnosed by the program and shall publish the information annually, including data on the number and kinds of diagnosed medical conditions that do not come within the definition of handicapped child as specified in Section 123830.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123865.

If the parents or estate of a handicapped child is wholly or partly unable to furnish for the child necessary services, the parents or guardian may apply to the agency of the county that has been designated by the board of supervisors of the county of residence under the terms of Section 123850 to administer the provisions for handicapped children. Residence shall be determined in accordance with Sections 243 and 244 of the Government Code.

(Amended by Stats. 2012, Ch. 28, Sec. 3. (AB 1494) Effective June 27, 2012.)

123870.

(a)The department shall establish standards of financial eligibility for treatment services under the California ChildrensServices Program (CCS program).

(1)Financial eligibility for treatment services under this program shall be limited to persons in families with an adjusted gross income of forty thousand dollars ($40,000) or less in the most recent tax year, as calculated for California state income tax purposes. If a person is enrolled in the Medi-Cal program pursuant to Section 14005.26 of the Welfare and Institutions Code, or enrolled in the Medi-Cal Access Program pursuant to Chapter 2 (commencing with Section 15810) of Part 3.3 of Division 9 of the Welfare and Institutions Code, the financial documentation required to establish eligibility for the respective programs may be used instead of the personsCalifornia state income tax return. However, the director may authorize treatment services for persons in families with higher incomes if the estimated cost of care to the family in one year is expected to exceed 20 percent of the familysadjusted gross income.

(2)Children enrolled in the Medi-Cal program pursuant to Section 14005.26 of the Welfare and Institutions Code or the Medi-Cal Access Program pursuant to Chapter 2 (commencing with Section 15810) of Part 3.3 of Division 9 of the Welfare and Institutions Code, who have a CCS program eligible medical condition under Section 123830, and whose families do not meet the financial eligibility requirements of paragraph (1), shall be deemed financially eligible for CCS program benefits.

(b)Necessary medical therapy treatment services under the California ChildrensServices Program rendered in the public schools shall be exempt from financial eligibility standards and enrollment fee requirements for the services when rendered to any handicapped child whose educational or physical development would be impeded without the services.

(c)All counties shall use the uniform standards for financial eligibility and enrollment fees established by the department. All enrollment fees shall be used in support of the California ChildrensServices Program.

(d)Annually, every family with a child eligible to receive services under this article shall pay a fee of twenty dollars ($20), that shall be in addition to any other program fees for which the family is liable. This

assessment shall not apply to any child who is eligible for full scope Medi-Cal benefits without a share of cost, for children receiving therapy through the California ChildrensServices Program as a related service in their individualized education plans, for children from families having incomes of less than 100 percent of the federal poverty level, or for children covered under the Medi-Cal program pursuant to Section 14005.26 of the Welfare and Institutions Code or the Medi-Cal Access Program.

(Amended by Stats. 2016, Ch. 733, Sec. 3. (SB 1477) Effective January 1, 2017.)

123872.

In addition to the other eligibility requirements set forth in this article, prior to being determined financially eligible for services under this article, the applicant family shall agree to repay the California ChildrensServices Program for any treatment services authorized by the program in an amount not to exceed the proceeds of any judgment, award, or settlement for damages as a result of a lawsuit or pursuant to an agreement relating to a California ChildrensServices medically eligible condition.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123875.

If the California ChildrensService medical therapy unit conference team, based on a medical referral recommending medically necessary occupational or physical therapy in accordance with subdivision (b) of Section 7575 of the Government Code, finds that a handicapped child, as defined in Section 123830, needs medically necessary occupational or physical therapy, that child shall be determined to be eligible for therapy services. If the California ChildrensServices medical consultant disagrees with the determination of eligibility by the California ChildrensServices medical therapy unit conference team, the medical consultant shall communicate with the conference team to ask for further justification of its determination, and shall weigh the conference teamsarguments in support of its decision in reaching his or her own determination.

This section shall not change eligibility criteria for the California ChildrensServices programs as described in Sections 123830 and 123860.

This section shall not apply to children diagnosed as specific learning disabled, unless they otherwise meet the eligibility criteria of the California ChildrensServices.

(Amended by Stats. 2012, Ch. 28, Sec. 5. (AB 1494) Effective June 27, 2012.)

123880.

The department and designated agencies shall not deny eligibility or aid under the California ChildrensServices Program because an otherwise eligible person is receiving treatment services under a teaching program at an accredited medical school facility or accredited school or college of podiatric medicine, whether or not all or part of the treatment services are performed by the staff at the facility, school, or college, provided that treatment services at the facility, school, or college are under the general supervision of a California ChildrensServices Program panel physician and surgeon, including a family

physician, and podiatrist.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123885.

Panel members as set forth in Section 123880 shall be board-certified and have expertise in the care of children.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123890.

(a) The state department shall not deny a hospitalsrequest to provide treatment to burn victims who are eligible under the California ChildrensServices Program solely on the basis that the hospital does not have separate facilities for child and adult burn victims, provided that the hospital has approval from the department to operate a burn center pursuant to Section 1255.

(b) Subdivision (a) shall only be applied to burn units located in hospitals where there are no regional burn centers, or any other existing burn center, within an 85-mile radius of the hospital.

(c) Subdivision (a) shall only apply if the hospital seeking the exemption had a state-approved burn center in operation as of January 1, 1982, and if there is no hospital specializing in childrensservices within an 85-mile radius of the hospital seeking the subdivision (a) exemption.

(d) Hospitals having qualified and received a subdivision (a) exemption, shall demonstrate, at the request of the department, that the nursing staff providing burn care to children victims have satisfactorily completed post-graduate training in pediatrics.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123895.

The designated agency shall determine the financial eligibility of the family according to standards established by the department. The agency will also determine if the parents are residents of the county, if the guardian of the child is a resident of the county, or if the emancipated minor is a resident of the county where application for services is made. If the agency finds that the family, guardian, or emancipated minor is a resident of the county and financially eligible for services, it shall make a record of the facts and shall certify this child for care under the program.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123900.

(a)Beginning September 1, 1991, in addition to any other standards of eligibility pursuant to this article, each family with a child otherwise eligible to receive services under this article shall pay an annual enrollment fee as a requirement for eligibility for services, except as specified in subdivision (f).

(b) The department shall determine the annual enrollment fee, which shall be a sliding fee scale based upon family size and income, and shall be adjusted by the department to reflect changes in the federal poverty level.

(c) Family size shall include the child, his or her natural or adoptive parents, siblings, and other family members who live together and whose expenses are dependent upon the family income.

(d) Family income for purposes of this article, shall include the total gross income, or their equivalents, of the child and his or her natural or adoptive parents.

(e) Payment of the enrollment fee is a condition of program participation. The enrollment fee is independent of any other financial obligation to the program.

(f) The enrollment fee shall not be charged in any of the following cases:

(1) The only services required are for diagnosis to determine eligibility for services, or are for medically necessary therapy pursuant to Section 123875.

(2) The child is otherwise eligible to receive services and is eligible for full Medi-Cal benefits at the time of application or reapplication.

(3) The family of the child otherwise eligible to receive services under this article has a gross annual income of less than 200 percent of the federal poverty level.

(4) The family of a child otherwise eligible to receive services under this article who is enrolled in the Medi-Cal program pursuant to Section 14005.26 of the Welfare and Institutions Code.

(g) Failure to pay or to arrange for payment of the enrollment fee within 60 days of the due date shall result in disenrollment and ineligibility for coverage of treatment services 60 days after the due date of the required payment.

(h) The county shall apply the enrollment fee scale established by the department and shall collect the enrollment fee. The county may arrange with the family for periodic payment during the year if a lump-sum payment will be a hardship for the family. The agency director of California ChildrensServices may, on a case-by-case basis, waive or reduce the amount of a familysenrollment fee if, in the directorsjudgment, payment of the fee will result in undue hardship.

(i) By thirty days after the effective date of this section or August 1, 1991, whichever is later, the department shall advance to each county, as a one-time startup amount, five dollars and fifty cents ($5.50) for each county child who was receiving services under this article on June 30, 1990, and who was not a Medi-Cal beneficiary. This one-time payment shall be in addition to the 4.1 percent of the gross total expenditures for diagnoses, treatment, and therapy by counties allowed under Section 123955.

(j) Each county shall submit to the state, as part of its quarterly claim for reimbursement, an accounting of all revenues due and revenues collected as enrollment fees.

(Amended by Stats. 2016, Ch. 733, Sec. 4. (SB 1477) Effective January 1, 2017.)

123905.

A county of under 200,000 population, administering its county program jointly with the department, shall forward to the department a statement certifying the family of the handicapped child as financially eligible for treatment services. The department shall authorize necessary services within the limits of available funds. Payment for services shall be made by the department, with reimbursement from the county for its proportionate share as specified in this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123910.

The department may, without the possession of a county certification, pay the expenses for services required by any physically handicapped child out of any funds received by it through gift, devise, or bequest or from private, state, federal, or other grant or source.

The department may authorize or contract with any person or institution properly qualified to furnish services to handicapped children. It may pay for services out of any funds appropriated for the purpose or from funds it may receive by gift, devise, or bequest.

The department may receive gifts, legacies, and bequests and expend them for the purpose of this article, but not for administrative expense.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123915.

When the department provides, or arranges for the provision of, services to physically handicapped children directly, as in the case of nonresident physically handicapped children, it shall enter into an agreement with parents, guardians or persons responsible for the care of handicapped children for payment of the enrollment fee.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123920.

Upon the request of another state or of a federal agency, the department may pay the expenses of services required by any physically handicapped child who is not a resident of the state; provided, that the cost of the services is fully covered by special grants or allotments received from the state or federal agency for that purpose.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123925.

The department and designated agencies shall maintain surveillance and supervision over the services provided handicapped children under authorization by the program to assure a high quality of service and shall cause a record to be kept showing the condition and improvement of these handicapped children.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123929.

(a)Except as otherwise provided in this section and Section 14133.05 of the Welfare and Institutions Code, California ChildrensServices Program services provided pursuant to this article require prior authorization by the department or its designee. Prior authorization is contingent on determination by the department or its designee of all of the following:

(1)The child receiving the services is confirmed to be medically eligible for the CCS program.

(2)The provider of the services is approved in accordance with the standards of the CCS program.

(3)The services authorized are medically necessary to treat the childsCCS-eligible medical condition.

(b)The department or its designee may approve a request for a treatment authorization that is otherwise in conformance with subdivision (a) for services for a child participating in the Medi-Cal program pursuant to Section 14005.26 of the Welfare and Institutions Code or the Medi-Cal Access Program pursuant to Chapter 2 (commencing with Section 15810) of Part 3.3 of Division 9 of the Welfare and Institutions Code, received by the department or its designee after the requested treatment has been provided to the child.

(c)If a provider of services who meets the requirements of paragraph (2) of subdivision (a) incurs costs for services described in paragraph (3) of subdivision (a) to treat a child described in subdivision (b) who is subsequently determined to be medically eligible for the CCS program, as determined by the department or its designee, the department may reimburse the provider for those costs. Reimbursement under this section shall conform to the requirements of Section 14105.18 of the Welfare and Institutions Code.

(d)(1)By July 1, 2016, or a subsequent date determined by the department, requests for authorization of services, excluding requests for authorization of services submitted by dental providers enrolled in the Medi-Cal Dental program, shall be submitted in an electronic format determined by the department and shall be submitted via the departmentsInternet Web site or other electronic means designated by the department. The department may implement this requirement in phases.

(2)The department shall designate an alternate format for submitting requests for authorization of services when the departmentsInternet Web site or other electronic means designated in paragraph (1) are unavailable due to a system disruption.

(3)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department may, without taking regulatory action, implement, interpret, or make

specific this subdivision and any applicable waivers and state plan amendments by means of all-county letters, plan letters, plan or provider bulletins, or similar instructions. Thereafter, the department shall adopt regulations by July 1, 2017, in accordance with the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The department shall consult with interested parties and appropriate stakeholders in implementing this subdivision.

(Amended by Stats. 2016, Ch. 733, Sec. 5. (SB 1477) Effective January 1, 2017.)

123930.

This article does not authorize any treatment service without the written consent of a parent or guardian except as a person under 18 years of age is an emancipated minor.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123935.

A handicapped child shall not be denied services pursuant to this article because he or she has an intellectual disability.

(Amended by Stats. 2012, Ch. 457, Sec. 32. (SB 1381) Effective January 1, 2013.)

123940.

(a)(1)Annually, the board of supervisors shall appropriate a sum of money for services for handicapped children of the county, including diagnosis, treatment, and therapy services for physically handicapped children in public schools, equal to 25 percent of the actual expenditures for the county program under this article for the 1990“91 fiscal year, except as specified in paragraph (2).

(2)If the state certifies that a smaller amount is needed in order for the county to pay 25 percent of costs of the countysprogram from this source. The smaller amount certified by the state shall be the amount that the county shall appropriate.

(b)In addition to the amount required by subdivision (a), the county shall allocate an amount equal to the amount determined pursuant to subdivision (a) for purposes of this article from revenues allocated to the county pursuant to Chapter 6 (commencing with Section 17600) of Part 5 of Division 9 of the Welfare and Institutions Code.

(c)(1)The state shall match county expenditures for this article from funding provided pursuant to subdivisions (a) and (b).

(2)County expenditures shall be waived for payment of services for children who are eligible pursuant to paragraph (2) of subdivision (a) of Section 123870.

(d)The county may appropriate and expend moneys in addition to those set forth in subdivisions (a) and (b)

and the state shall match the expenditures, on a dollar-for-dollar basis, to the extent that state funds are available for this article.

(e)County appropriations under subdivisions (a) and (b) shall include county financial participation in the nonfederal share of expenditures for services for children who are enrolled in the Medi-Cal program pursuant to Section 14005.26 of the Welfare and Institutions Code, or the Medi-Cal Access Program pursuant to Chapter 2 (commencing with Section 15810) of Part 3.3 of Division 9 of the Welfare and Institutions Code, and who are eligible for services under this article pursuant to paragraph (1) of subdivision (a) of Section 123870, to the extent that federal financial participation is available at the enhanced federal reimbursement rate under Title XXI of the federal Social Security Act (42 U.S.C. Sec. 1397aa et seq.) and funds are appropriated for the California ChildrensServices Program in the State Budget.

(f)This section shall not require the county to expend more than the amount set forth in subdivision (a) plus the amount set forth in subdivision (b), nor shall it require the state to expend more than the amount of the match set forth in subdivision (c).

(g)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department, without taking further regulatory action, shall implement this section by means of California ChildrensServices numbered letters.

(Amended by Stats. 2016, Ch. 733, Sec. 6. (SB 1477) Effective January 1, 2017.)

123945.

For those counties with a total appropriation of county funds not exceeding one hundred twenty-five thousand dollars ($125,000), and upon the expenditure of the county funds equivalent to a county appropriation pursuant to Section 123940, the department may, to the extent funds are available from state appropriated funds for the California ChildrensServices Program and upon certification of the county that there are insufficient revenues from the account established pursuant to Chapter 6 (commencing with Section 17600) of Division 9 of the Welfare and Institutions Code, pay for services for cases deemed by the department to represent emergencies or cases where medical care cannot be delayed without great harm to the child.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123950.

The designated county agency shall administer the medical-therapy program in local public schools for physically handicapped children. As provided in Section 123940, the state and counties will share in the cost of support of therapist salaries in these schools in the ratio of one dollar ($1) of state or federal funds reimbursed quarterly to one dollar ($1) of county funds. The director shall establish standards for the maximum number of therapists employed in the schools eligible for state financial support in this program, the services to be provided, and the county administrative services subject to reimbursement by the state.

The department may adopt regulations to implement this section as emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For the purposes of the Administrative Procedure Act, the adoption of the regulations shall be deemed an

emergency and necessary for the immediate preservation of the public peace, health, safety, and general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these emergency regulations shall not be subject to the review and approval of the Office of Administrative Law.

Notwithstanding any other provision of law, if the department determines that emergency regulations are necessary to implement any part of this article, there shall be deemed to be good cause for the regulations to take effect prior to public notice and hearing.

Notwithstanding subdivision (h) of Section 11346.1 and Section 11349.6 of the Government Code, the department shall transmit these regulations directly to the Secretary of State for filing. The regulations shall become effective immediately upon filing by the Secretary of State.

The Office of Administrative Law shall provide for the printing and publication of these regulations in the California Code of Regulations. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these regulations shall not be repealed by the Office of Administrative Law and shall remain in effect until revised or repealed by the department.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123955.

(a)The state and the counties shall share in the cost of administration of the California ChildrensServices program at the local level.

(b)(1)The director shall adopt regulations establishing minimum standards for the administration, staffing, and local implementation of this article subject to reimbursement by the state.

(2)The standards shall allow necessary flexibility in the administration of county programs, taking into account the variability of county needs and resources, and shall be developed and revised jointly with state and county representatives.

(c)The director shall establish minimum standards for administration, staffing, and local operation of the program subject to reimbursement by the state.

(d)Until July 1, 1992, reimbursable administrative costs, to be paid by the state to counties, shall not exceed 4.1 percent of the gross total expenditures for diagnosis, treatment, and therapy by counties as specified in Section 123940.

(e)Beginning July 1, 1992, this subdivision applies with respect to all of the following:

(1)Counties shall be reimbursed by the state for 50 percent of the amount required to meet state administrative standards for that portion of the county caseload under this article that is ineligible for Medi-Cal to the extent funds are available in the State Budget for the California ChildrensServices program.

(2)Counties shall be reimbursed by the state for 50 percent of the nonfederal share of the amount required to meet state administrative standards for that portion of the county caseload under this article that is enrolled in the Medi-Cal program pursuant to Section 14005.26 of the Welfare and Institutions Code or the Medi-Cal Access Program pursuant to Chapter 2 (commencing with Section 15810) of Part 3.3 of Division 9

of the Welfare and Institutions Code, and who are eligible for services under this article pursuant to subdivision (a) of Section 123870, to the extent that federal financial participation is available at the enhanced federal reimbursement rate under Title XXI of the federal Social Security Act (42 U.S.C. Sec. 1397aa et seq.) and funds are appropriated for the California ChildrensServices program in the State Budget.

(3)On or before September 15 of each year, each county program implementing this article shall submit an application for the subsequent fiscal year that provides information as required by the state to determine if the county administrative staff and budget meet state standards.

(4)The state shall determine the maximum amount of state funds available for each county from state funds appropriated for California ChildrensServices county administration. If the amount appropriated for any fiscal year in the Budget Act for county administration under this article differs from the amounts approved by the department, each county shall submit a revised application in a form and at the time specified by the department.

(f)The department and counties shall maximize the use of federal funds for administration of the programs implemented pursuant to this article, including using state and county funds to match funds claimable under Title XIX or Title XXI of the federal Social Security Act (42 U.S.C. Sec. 1396 et seq.; 42 U.S.C. Sec. 1397aa et seq.).

(Amended by Stats. 2017, Ch. 561, Sec. 135. (AB 1516) Effective January 1, 2018.)

123960.

The department shall require of participating local governments the provision of program data including, but not limited to, the number of children treated, the kinds of disabilities, and the costs of treatment, to enable the department, the Department of Finance, and the Legislature to evaluate in a timely fashion and to adequately fund the California ChildrensServices Program.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123965.

A handicapped child placed for adoption, determined to be financially eligible for care at the time of placement, shall not be denied services pursuant to this article based upon the income of the adopting parents, nor shall the adopting parents be required to enter into any agreement to pay toward the costs of services authorized for the care. This section shall only apply to physical handicaps present, and diagnosed, at the time of adoption. Residence, for the purposes of this section, shall be that of the adopting parents.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123970.

The department and the placing adoption agency at the time of placement shall notify all prospective adopting parents in writing, that funds received under the California ChildrensServices Program shall

terminate if the adopting parents move out of the state. However, the department and the placing adoption agency shall advise the prospective adopting parents that they may be eligible for the funds in the new state, subject to any applicable qualifications.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123975.

(a) The department, in consultation with selected representatives of participating neonatal intensive care units, shall establish a system to screen all newborns and infants for hearing loss as defined in subdivision (e) of Section 124116 and create and maintain a system of assessment and followup services for newborns and infants identified by the screening in approved neonatal intensive care units participating in the California ChildrensServices Program. Screening, assessment and followup services and reporting of these services shall be provided in a manner consistent with Article 6.5 (commencing with Section 124115) of Chapter 3.

This section shall not be applicable to a newborn child whose parent or guardian objects to the tests on the ground that the tests conflict with his or her religious beliefs or practices.

(b) It is the intent of the Legislature, in enacting this section, to ensure the establishment and maintenance of protocols and quality of standards.

(c) The department shall implement this section for newborns and infants in neonatal intensive care units participating in the California ChildrensServices Program.

(Amended by Stats. 1998, Ch. 310, Sec. 22. Effective August 19, 1998.)

123980.

If the recipient of services provided by the California ChildrensServices Program, his or her guardian, conservator, personal representative, estate, or survivors, or any of them brings an action against a third person who may be liable for the injury, notice of institution of legal proceedings, notice of settlement, and all other notices required by this code shall be given to the State Director of Health Services in Sacramento and to the county-managed California ChildrensServices Program. The director may provide notice to the Attorney General. All of these notices shall be given by the attorney retained to assert the beneficiarysclaim, or by the injured party beneficiary, his or her guardian, conservator, personal representative, estate, or survivors, if no attorney is retained.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123982.

Except as otherwise provided by law, the amount of any judgment, award, or settlement relating to a medical condition for which treatment services have been provided under the California ChildrensServices Program shall be subject to a claim by the state department and the designated county agency for reimbursement of the costs of the benefits provided, and to any lien filed against that judgment, award, or settlement. The

department or the county designated agency, through its civil legal adviser, may, to enforce this right, institute and prosecute legal proceedings against the person who has received benefits under this article, his or her guardian, conservator, or other personal representative, or his or her estate. In the event of a judgment, award, or settlement in a suit or claim against a third person who is liable for the medical condition for which treatment services have been provided under the California ChildrensServices Program, the court or other agency shall first order paid from the judgment, award, or settlement the actual costs of the care and treatment furnished, or to be furnished, under the California ChildrensServices Program.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123985.

(a) A bone marrow transplant for the treatment of cancer shall be reimbursable under this article, when all of the following conditions are met:

(1) The bone marrow transplant is recommended by the recipientsattending physician.

(2) The bone marrow transplant is performed in a hospital that is approved for participation in the California ChildrensServices program.

(3) The bone marrow transplant is a reasonable course of treatment and is approved by the appropriate hospital medical policy committee.

(4) The bone marrow transplant has been deemed appropriate for the recipient by the programsmedical consultant. The medical consultant shall not disapprove the bone marrow transplant solely on the basis that it is classified as experimental or investigational.

(b) The program shall provide reimbursement for both donor and recipient surgery.

(c) Any county that has a population of not more than 600,000, as determined by the most recent decennial census conducted by the United States Bureau of the Census, shall be exempt from complying with the 25-percent matching requirement provided for under this article, for any bone marrow transplant reimbursable under this section.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123990.

The department shall adopt regulations to implement the amendments of this article in 1991. The adoption of the regulations shall be deemed to be an emergency, and necessary for the immediate preservation of the public peace, health, safety, and general welfare.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

123995.

(a) The department shall require all applicants to the program who may be eligible for cash grant assistance or for Medi-Cal benefits to apply for Medi-Cal.

(b) This section shall not be interpreted to prohibit the coverage of services in emergency cases.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. Child Health [123650 - 124174.6]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 5.5. Assistance To Children At Home Demonstration Project [124010 - 124015]__

(Article 5.5 added by Stats. 1998, Ch. 891, Sec. 1.)

124010.

(a) It is the intent of the Legislature to establish demonstration projects to assist medically fragile infants, children, and adolescents.

(b) It is further the intent of the Legislature that these demonstration projects serve as models for methods of providing primary care services and coordination of health care for medically fragile infants, children, and adolescents.

(c) The Legislature finds and declares that the use of care management services under these demonstration projects will lead to savings in medical costs through reduced emergency room visits, hospital admissions, and other medical indicators and measures.

(Amended by Stats. 2000, Ch. 93, Sec. 28. Effective July 7, 2000.)

124011.

There is hereby established demonstration projects to provide a medical home and coordination of care model in order to reduce avoidable health problems of chronically, seriously ill infants, children, and adolescents. The demonstration projects may operate for a period of up to three years. Existing demonstration projects may be extended for up to two years, if outcome data display effectiveness as determined by the State Department of Health Services.

(Amended by Stats. 2000, Ch. 93, Sec. 29. Effective July 7, 2000.)

124012.

The department shall award funding appropriated for purposes of this article, on a competitive basis, to any nonprofit childrenshospitals, as defined in Section 10727 of the Welfare and Institutions Code, and other hospitals that operate at least 10 special care centers, as certified by the California Childrens™ Services Program.

(Amended by Stats. 2000, Ch. 93, Sec. 30. Effective July 7, 2000.)

124013.

The demonstration projects shall provide care management services to children enrolled in the demonstration projects pursuant to proposals accepted by the department.

Demonstration projects shall meet all of the following requirements:

(a) Establish and function as a medical home to a population of infants, children, and adolescents whose medical conditions requires multidisciplinary and multispecialty care.

(b) Provide care coordination between primary care and specialty health care providers and community agencies for project enrollees.

(c) Provide, or arrange for the provision of, health care services to maintain optimal health status. These services may include, but need not be limited to, physician office or home visits, psychosocial counseling, and medical nutrition evaluation and counseling.

(d) Establish a relationship with an enrolleesparent or guardian in order to enhance the understanding of the childscondition and the parent or guardiansparticipation in the enrolleesmedical treatment plan and decisionmaking.

(e) Maximize the use of third-party reimbursement for the services provided to the population enrolled in the project.

(Amended by Stats. 2000, Ch. 93, Sec. 31. Effective July 7, 2000.)

124014.

In order to most effectively assist children enrolled in the demonstration project, the demonstration project may employ the use of clinic visits, home visits, school visits, inpatient visits, and multidisciplinary conferences, as well as other innovative care management techniques.

(Amended by Stats. 2000, Ch. 93, Sec. 32. Effective July 7, 2000.)

124015.

(a) The hospital receiving funding under this article shall submit a report to the department that evaluates the demonstration project and includes measures of medical costs and improved health outcomes of enrollees.

(b) The report shall address the following outcome measures as identified in the hospitalsdemonstration project submitted to the department for approval.

(c) The report required by subdivision (a) shall include a determination as to whether the demonstration project is deemed to be successful. Unless other outcome measures are used pursuant to subdivision (d), the demonstration project shall be deemed to be successful if all of the following have occurred:

(1) The average number of school days missed is decreased by 50 percent.

(2) The average number of emergency room visits is decreased by 50 percent.

(3) The average number of hospitalizations and hospital days is decreased by 50 percent.

(4) The number of children with up-to-date immunizations is increased by 50 percent.

(d) The demonstration project may use other outcome measures in lieu of those identified in subdivision (c), if deemed appropriate by the department, to measure success.

(e) The determinations made pursuant to this subdivision shall be based on a comparison of the preprogram utilization rates, which is data collected one year prior to enrollment in the program, with the utilization rates one year after enrollment.

(Amended by Stats. 2000, Ch. 93, Sec. 33. Effective July 7, 2000.)

(Article 6 added by Stats. 1995, Ch. 415, Sec. 8.)

124024.

(a)Before July 1, 2024, the department shall take the following steps:

(1)Conduct a stakeholder engagement process to inform the department in the development and implementation of a transition plan and defined milestones to guide the transition of Child Health and Disability Prevention (CHDP) to other existing Medi-Cal delivery systems or services.

(A)The stakeholder engagement process shall include representatives of the State Department of Social Services, the State Department of Public Health, the County Health Executives Association of California, the County Welfare Directors Association of California, the California Dental Association, the American Academy of Pediatrics California, the Service Employees International Union, Medi-Cal managed care plans,

childrensadvocates, and subject-matter experts as identified by the department.

(B)The department shall strive to ensure the stakeholder engagement process reflects participation from the various regions throughout the state, including large urban and rural jurisdictions.

(C)The department shall launch the stakeholder engagement process by convening the first meeting no later than October 1, 2022.

(2)Develop a transition plan that shall include, at a minimum, all of the following:

(A)A posttransition oversight and monitoring plan for Medi-Cal children currently served through CHDP, including those in fee-for-service and foster youth.

(B)A plan for how managed care plans will monitor providers serving children for adherence to the Bright Futures Guidelines from the American Academy of Pediatrics and the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Program standards, including, but not limited to, requirements for site reviews, provider training and audits, and coordination of care to needed services, including to dental and behavioral health providers.

(C)A plan to fund the administrative and services costs of the Health Care Program for Children in Foster Care to meet statutory requirements.

(D)An analysis and plan for retaining existing local CHDP positions through the exploration of new partnerships and roles, or through bolstering existing programs that can leverage CHDP expertise, or through both.

(3)Provide an update to the Legislature during the 2023”24 budget hearings on the proposed transition plan.

(4)Take actions necessary to continue Medi-Cal presumptive eligibility for children under 19 years of age, including expanding access within the ChildrensPresumptive Eligibility Program to include all eligible Medi-Cal providers.

(5)Take actions necessary, in consultation with the State Department of Social Services, to continue the Health Care Program for Children in Foster Care, including entering into contracts pursuant to subdivision (f) of Section 16501.3 of the Welfare and Institutions Code.

(6)Take actions necessary, in consultation with the State Department of Public Health, to continue the Childhood Lead Poisoning Prevention Program activities.

(7)Seek any federal approvals the department deems necessary to implement this section. This section shall be implemented only to the extent that any necessary federal approvals are obtained and the department determines that federal financial participation is available and is not otherwise jeopardized.

(b)All qualified providers enrolled in the CHDP Program as of June 30, 2024, will be automatically enrolled as providers under the ChildrensPresumptive Eligibility Program on July 1, 2024. Medi-Cal providers not enrolled in the CHDP Program as of June 30, 2024, must follow all prescribed departmental rules and guidance in order to enroll as a Presumptive Eligibility qualified entity.

(c)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department may implement, interpret, or make specific this section, in whole or in part, by means of all-county letters, plan letters, provider bulletins, numbered letters, information notices, or

other similar instructions, without taking any further regulatory action.

(d)The department shall issue a declaration certifying the date that all activities required pursuant to subdivision (a) have been completed. The department shall post the declaration on its internet website and provide a copy of the declaration to the Secretary of State, the Secretary of the Senate, the Chief Clerk of the Assembly, and the Legislative Counsel.

(Added by Stats. 2022, Ch. 47, Sec. 17. (SB 184) Effective June 30, 2022. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124025.

The Legislature finds and declares that many physical and mental disabilities can be prevented, or their impact on an individual lessened, when they are identified and treated before they become chronic and irreversible damage occurs. The Legislature finds and declares that a community-based program of early identification and referral for treatment of potential handicapping conditions will be effective in reducing the incidence of the conditions and will benefit the health and welfare of the citizens of this state.

It is the intent of the Legislature in enacting this article and Section 120475 to establish child health and disability prevention programs, that shall be financed and have standards established at the state level and that shall be operated at the local level, for the purpose of providing early and periodic assessments of the health status of children. It is further intended that child health and disability prevention programs shall make maximum use of existing health care resources and shall utilize, as the first source of screening, the childsusual source of health care so that health screening programs are fully integrated with existing health services, that health care professionals be appropriately represented and utilized in these programs, that outreach programs be developed to stimulate the use of preventive health services, and that services offered pursuant to this article be efficiently provided and be of the highest quality.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124030.

As used in this article and Section 120475:

(a) State board means the State Maternal, Child, and Adolescent Health Board.

(b) Department means the department.

(c) Director means the director.

(d) Governing body means the county board of supervisors or boards of supervisors in the case of counties acting jointly.

(e) Local board means local maternal, child, and adolescent health board.

(f) Local health jurisdiction means county health department or combined health department in the case of

counties acting jointly or city health department within the meaning of Section 101185.

(g) Child Health and Disability Prevention provider or CHDP provider means any of the following, if approved for participation in the Child Health and Disability Prevention program by the community Child Health and Disability program director in accordance with program standards and as certified by the department:

(1) A physician licensed to practice medicine in California.

(2) A family nurse practitioner certified pursuant to Sections 2834 and 2836 of the Business and Professions Code.

(3) A pediatric nurse practitioner certified pursuant to Sections 2834 and 2836 of the Business and Professions Code.

(4) A primary care center, clinic, or other public or private agency or organization that provides outpatient health care services.

(5) A physicians™ group.

(6) A licensed clinical laboratory.

(Amended by Stats. 2002, Ch. 1161, Sec. 11. Effective September 30, 2002. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124033.

(a) Commencing July 1, 2003, all applications for services under the Child Health and Disability Prevention program shall be filed electronically in accordance with subdivision (b) of Section 14011.7 of the Welfare and Institutions Code.

(b) To implement the program described in subdivisions (b) to (e), inclusive, of Section 14011.7 of the Welfare and Institutions Code for the use of an electronic application for the Child Health and Disability Prevention program and for preenrollment into the Medi-Cal program or the Healthy Families Program, the following shall apply:

(1) The department may contract with public or private entities, or utilize existing health care service provider enrollment and payment mechanisms, including the Medi-Cal programsfiscal intermediary, only if services provided under the program are specifically identified and reimbursed in a manner that appropriately claims federal financial reimbursement.

(2) Contracts, including the Medi-Cal program fiscal intermediary contract for the Child Health and Disability Prevention Program, including any contract amendment, any system change pursuant to a change order, and any project or systems development notice shall be exempt from Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, Chapter 7 (commencing with Section 11700) of Part 1 of Division 3 of Title 2 of the Government Code, Section 19130 of the Government Code, and any policies, procedures, or regulations authorized by these laws.

_(Added by Stats. 2002, Ch. 1161, Sec. 12. Effective September 30, 2002. Conditionally inoperative on or after

July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)_

124035.

The department shall administer this article and Section 120475 and shall adopt minimum standards for the approval of community child health and disability prevention programs and regulations as necessary. The standards shall allow necessary flexibility in the administration of county programs, taking into account the variability of county needs and resources. Standards shall be adopted for:

(a) Education and experience requirements for directors of community child health and disability prevention programs.

(b) Health screening, evaluation, and diagnostic procedures for child health and disability prevention programs.

(c) Public and private facilities and providers that may participate in community child health and disability prevention programs.

(d) The department shall develop a methodology for allocating child health and disability prevention funds to counties for the administration of this program.

(Amended by Stats. 2001, Ch. 171, Sec. 12.5. Effective August 10, 2001. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124040.

(a)The governing body of each county or counties shall establish a community child health and disability prevention program for the purpose of providing early and periodic assessments of the health status of children in the county or counties by July 1, 1974. However, this shall be the responsibility of the department for all counties that contract with the state for health services. Contract counties, at the option of the board of supervisors, may provide services pursuant to this article in the same manner as other county programs, if the option is exercised prior to the beginning of each fiscal year. Each plan shall include, but is not limited to, the following requirements:

(1)Outreach and educational services.

(2)Agreements with public and private facilities and practitioners to carry out the programs.

(3)Health screening and evaluation services for all children, including a physical examination, immunizations appropriate for the childsage and health history, and laboratory procedures appropriate for the childsage and population group performed by, or under the supervision or responsibility of, a physician licensed to practice medicine in California or by a certified family nurse practitioner or a certified pediatric nurse practitioner.

(4)Referral for diagnosis or treatment when needed, including, for all children eligible for Medi-Cal, referral for treatment by a provider participating in the Medi-Cal program of the conditions detected, and methods for assuring referral is carried out.

(5)Recordkeeping and program evaluations.

(6)The health screening and evaluation part of each community child health and disability prevention program plan shall include, but is not limited to, the following for each child:

(A)A health and development history.

(B)An assessment of physical growth.

(C)An examination for obvious physical defects.

(D)Ear, nose, mouth, and throat inspection, including inspection of teeth and gums, and for all children one year of age and older who are eligible for Medi-Cal, referral to a dentist participating in the Medi-Cal program.

(E)Screening tests for vision, hearing, anemia, tuberculosis, diabetes, and urinary tract conditions.

(7)An assessment of nutritional status.

(8)An assessment of immunization status.

(9)If appropriate, testing for sickle-cell trait, lead poisoning, and other tests that may be necessary to the identification of children with potential disabilities requiring diagnosis and possibly treatment.

(10)For all children eligible for Medi-Cal, necessary assistance with scheduling appointments for services and with transportation.

(b)Dentists receiving referrals of children eligible for Medi-Cal under this section shall employ procedures to advise the childsparent or parents of the need for and scheduling of annual appointments.

(c)Standards for procedures to carry out health screening and evaluation services and to establish the age at which particular tests should be carried out shall be established by the director. At the discretion of the department, these health screening and evaluation services may be provided at the frequency provided under the Healthy Families Program and permitted in managed care plans providing services under the Medi-Cal program, and shall be contingent upon appropriation in the annual Budget Act. Immunizations may be provided at the frequency recommended by the Committee on Infectious Disease of the American Academy of Pediatrics and the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

(d) Each community child health and disability prevention program shall, pursuant to standards set by the director, establish a record system that contains a health case history for each child so that costly and unnecessary repetition of screening, immunization and referral will not occur and appropriate health treatment will be facilitated as specified in Section 124085.

(Amended by Stats. 2015, Ch. 18, Sec. 22. (SB 75) Effective June 24, 2015. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124045.

A city that operates an independent health agency may elect to provide the services described in this article with the approval of the department. In this instance, the powers granted a governing body of a county shall be vested in the governing body of the city.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124050.

Each community child health and disability program shall have a director meeting qualification standards by the department, appointed by the governing body, except for counties contracting with the state for health services.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124055.

Any community child health and disability prevention program may contract to furnish services to any other county if the contract is approved by the director.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124060.

(a) On or before September 15 of each year, each county program director shall submit a budget update for the subsequent fiscal year that provides the following information:

(1) A summary of the previous yearsactivity, including the number of children screened, the number of children referred for diagnosis and treatment, by condition, and the cost of screening services.

(2) A summary description of the results of cases in that a treatable disability was identified and referral made.

(3) A projection and cost estimates of the number of children to be screened for the fiscal year for which the budget is being submitted.

(b) The multiyear base community child health and disability prevention plan shall include the following:

(1) An assessment of the adequacy and availability of the facilities and providers to provide health screening diagnostic and treatment services.

(2) A description of the child health and disability prevention program to be offered, including expected

participating providers and outreach mechanisms to be utilized.

(3) A summary description of the current yearsactivity, including the number of children screened, the number of children referred for diagnosis and treatment, by condition, and the cost of screening services.

(4) A description of how existing school health resources, including school health personnel, are to be utilized for outreach and other services.

(5) Budget estimates, including all sources of revenue, for the budget.

(c) On or before September 15 of each year each governing board shall submit an update to the multiyear base community child health and disability prevention plan.

The director shall determine the amount of state funds available for each county for specified services under an approved multiyear base community child health and disability prevention plan, as updated, from state funds appropriated for child health and disability prevention services.

If the amount appropriated in the Budget Act for the fiscal year as enacted into law differs from the amount in the budget submitted by the Governor for the fiscal year, each governing board shall submit an additional revised update in the form and at the time specified by the department.

Notwithstanding any other provision of this article, no new community child health and disability prevention plan shall be submitted by a county until September 15, 1983. Each county plan and budget approved for the 1981"82 fiscal year shall be updated on or before September 15 by the governing body of each county for the 1982"83 and 1983"84 fiscal years pursuant to regulations adopted by the department. On or before September 15, 1983, the governing body of each county shall prepare and submit to the department a multiyear base plan and budget for the 1984"85 fiscal year that shall be annually updated on or before September 15 of each subsequent year pursuant to regulations adopted by the department.

The department shall develop and implement the format and procedures for the preparation and submission of a multiyear base plan update in order for the counties to have sufficient time prior to September 15, 1983, to prepare and submit their multiyear base plan by September 15, 1983.

For the purposes of simplifying and reducing plan requirements, the Legislature intends that the annual update shall not duplicate any of the material in the multiyear base plan, but serve as a progress report both evaluating what has been accomplished over the past year and describing in more detail what will be accomplished in relation to each of the elements in the base plan during the coming year.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124065.

Counties shall be reimbursed for the amount required by the county to carry out its community child health and disability prevention program in accordance with the approved community child health and disability prevention plan. Claims for state reimbursement shall be made in the manner as the director shall provide. Each claim for state reimbursement shall be payable from the appropriation made for the fiscal year when the expenses upon which the claim is based are incurred.

There shall be no reimbursement for expenditures for the treatment of disabilities identified as a result of the program or for capital improvements or the purchase or construction of buildings, except for the equipment items and remodeling expenses as may be allowed by regulations adopted by the director.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124070.

Counties shall be reimbursed for the amount required by the county to carry out its community child health and disability prevention program in accordance with the approved community child health and disability prevention plan. Claims for state reimbursement shall be made in a manner as the director shall provide. Each claim for state reimbursement shall be payable from the appropriation made for the fiscal year in which the expenses upon which the claim is based are incurred.

There shall be no reimbursement for expenditures for the treatment of disabilities identified as a result of the program, except for the costs of immunizations necessary to bring the child current in his or her immunization status as provided for by regulations of the department, or for capital improvements or the purchase or construction of buildings, except for the equipment items and remodeling expenses as may be allowed by regulations adopted by the director.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124075.

(a) In order to ensure the maximum utilization of the California Medical Assistance Program and other potential reimbursement sources, the department shall develop a schedule and method of reimbursement at reasonable rates for services rendered pursuant to this article. The reimbursement schedule shall include provision for well child examinations as well as for administrative expenses incurred by providers pursuant to meeting this article. Inquiry shall be made of all recipients of services under this article as to their entitlement for third-party reimbursement for medical services. Where an entitlement exists it shall be billed. Notwithstanding subdivision (c) of Section 14000 of the Welfare and Institutions Code and Section 14005 of that code, the California Medical Assistance Program shall be billed for services rendered pursuant to this article for every Medi-Cal eligible beneficiary.

(b) The department and counties shall maximize the use of federal funds for carrying out this article, including using state or county funds to match funds claimable under Title 19 of the Social Security Act. Services and administrative support costs claimable under federal law shall include, but not be limited to, outreach, health education, case management, resource development, and training at state and local levels. Any federal funds received shall augment and not replace funds appropriated from the General Fund for carrying out the purposes of this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124080.

The department may contract with a private entity for the performance of processing claims for state reimbursement, so long as the cost of the contract is no more than 85 percent of the cost of the service if performed in state service and there is compliance with other applicable provisions of the Government Code including, but not limited to, Sections 19130 to 19132, inclusive.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124085.

On and after July 1, 1976, each child eligible for services under this article shall, within 90 days after entrance into the first grade, provide a certificate approved by the department to the school where the child is to enroll documenting that within the prior 18 months the child has received the appropriate health screening and evaluation services specified in Section 124040. A waiver signed by the childsparents or guardian indicating that they do not want or are unable to obtain the health screening and evaluation services for their children shall be accepted by the school in lieu of the certificate. If the waiver indicates that the parent or guardian was unable to obtain the services for the child, then the reasons why should be included in the waiver.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124090.

Any child between birth and 90 days after entrance into the first grade and all persons under 21 years of age who are eligible for the California Medical Assistance Program shall be eligible for services from the child health and disabilities prevention program in the county where they are a resident. The department, with review and recommendation by the board, shall adopt regulations specifying age groups that shall be given certain types of screening tests and recommendations for referral.

The first source of referral shall be the childsusual source of health care. If referral is required and no regular source of health care can be identified, the facility or provider providing health screening and evaluation services shall provide a list of three qualified sources of care, without prejudice for or against any specific source.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124095.

Each community child health and disability prevention program shall provide the child or his or her parent or guardian with a copy of the results of the health screening and evaluation, as well as an explanation of the

meaning of the results, and shall, where the need indicates, refer the child for further diagnosis and treatment.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124100.

(a)In cooperation with the county child health and disability prevention program, the governing body of every school district or private school that has children enrolled in kindergarten shall provide information to the parents or guardians of all children enrolled in kindergarten of this article and Section 120475.

(b)Each county child health and disability prevention program shall reimburse school districts for information provided pursuant to this section. The Superintendent of Public Instruction may withhold state average daily attendance funds to any school district for any child for whom a certification or parental waiver is not obtained as required by Section 124085.

(Amended by Stats. 2004, Ch. 895, Sec. 15. Effective January 1, 2005. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124105.

(a)This section shall be known and may be cited as the Hughes ChildrensHealth Enforcement Act.

(b)The Legislature recognizes the importance of health to learning and to a successful academic career. The Legislature also recognizes the important role of schools in ensuring the health of pupils through health education and the maintenance of minimal health standards among the pupil population. Therefore, it is the intent of the Legislature that schools ensure that pupils receive a health screening before the end of the first grade.

(c)The governing board of each school district shall exclude from school, for not more than five days, any first grade pupil who has not provided either a certificate or a waiver, as specified in Section 124085, on or before the 90th day after the pupilsentrance into the first grade. The exclusion shall commence with the 91st calendar day after the pupilsentrance into the first grade, unless school is not in session that day, then the exclusion shall commence on the next succeeding schoolday. A child shall not be excluded under this section if the pupilsparent or guardian provides to the district either a certificate or a waiver as specified in Section 124085.

(d)The governing board of a school district may exempt any pupil from the exclusion described in subdivision (c) if, at least twice between the first day and the 90th day after the pupilsentrance into the first grade, the district has contacted the pupilsparent or guardian and the parent or guardian refuses to provide either a certificate or a waiver as specified in Section 124085. The number of exemptions from exclusion granted by a school district pursuant to this subdivision may not exceed 5 percent of a school districtsfirst grade enrollment. It is the intent of the Legislature that exemptions from exclusion be used in extraordinary circumstances, including, but not limited to, family situations of great dysfunction or disruption, including substance abuse by parents or guardians, child abuse, or child neglect.

(e)It is the intent of the Legislature that, upon a pupilsenrollment in kindergarten or first grade, the governing board of the school district notify the pupilsparent or guardian of the obligation to comply with Section 124085 and of the availability for low-income children of free health screening for up to 18 months prior to entry into first grade through the Child Health Disabilities Prevention Program.

(f)It is the intent of the Legislature that school districts provide information to parents regarding the requirements of Section 124085 within the notification of immunization requirements. Moreover, the Legislature intends that the information sent to parents encourage parents to obtain health screenings simultaneously with immunizations.

(Amended by Stats. 2004, Ch. 895, Sec. 16. Effective January 1, 2005. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124110.

All information and results of the health screening and evaluation of each child shall be confidential and shall not be released without the informed consent of a parent or guardian of the child.

The results of the health screening and evaluation shall not be released to any public or private agency, even with the consent of a parent or guardian, unless accompanied by a professional interpretation of what the results mean.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996. Conditionally inoperative on or after July 1, 2024, pursuant to Section 124110.5. Repealed January 1 following the inoperative date.)

124110.5.

This article shall become inoperative on July 1, 2024, or on the date certified by the department pursuant to subdivision (d) of Section 124024, whichever date is later, and shall be repealed on January 1 of the year following the inoperative date.

(Added by Stats. 2022, Ch. 47, Sec. 18. (SB 184) Effective June 30, 2022. Conditionally repealed as prescribed by its own provisions. Note: Repeal affects Article 6 commencing with Section 124024.)

__ARTICLE 6.4. Newborn Eye Pathology Screening [124111 - 124112]__

(Article 6.4 added by Stats. 2000, Ch. 325, Sec. 2.)

124111.

(a) The Newborn Eye Pathology Screening Task Force is established and shall advise the State Department of Health Services on the newborn eye pathology screening protocol.

(b) The task force shall be composed of the following 12 members:

(1) The Director of Health Services as a nonvoting ex officio member.

(2) The 11 voting members shall be appointed by the Director of Health Services as follows:

(A) One ophthalmologist with a background in or knowledge of providing services to infants with retinoblastoma.

(B) One pediatric ophthalmologist who sees general pediatric patients and is a designee of the American Association for Pediatric Ophthalmology and Strabismus.

(C) One academic pediatrician with a background in or knowledge of infant eye pathology screening.

(D) One parent representing families with a child with blindness or other ocular abnormalities affecting vision.

(E) One representative from the California Academy of Family Physicians.

(F) One representative recommended by the State Department of Health Services.

(G) One representative from the American Academy of Pediatrics, California District.

(H) One community pediatrician with a background in or experience with the routine instillation of dilating eye drops as part of red reflex screening.

(I) One nurse with a background in or knowledge of the current department program for the instillation of eye drops to prevent conjunctivitis.

(J) One retinal specialist with research experience in detecting the signs of treatable congenital eye disease.

(K) One optometrist with a background in or experience with pupil dilation in infants and red reflex screening for intraocular pathology.

(c) Task force members shall serve without compensation, but shall be reimbursed for necessary travel expenses incurred in the performance of the duties of the task force.

(Added by Stats. 2000, Ch. 325, Sec. 2. Effective January 1, 2001.)

124112.

(a) On or before June 30, 2002, the department shall adopt the protocol developed by the American Academy of Pediatrics to optimally detect the presence of treatable causes of blindness in infants by two

months of age. If a protocol is not developed on or before June 30, 2002, the department, in consultation with representatives of the Newborn Eye Pathology Task Force, shall establish a protocol to optimally detect the presence of treatable causes of blindness in infants by two months of age on or before January 1, 2003.

(b) If the American Academy of Pediatrics develops a protocol to optimally detect the presence of treatable causes of blindness by two months of age after the adoption of the protocol developed by the department, the department shall conform its protocol to the protocol adopted by the American Academy of Pediatrics.

(c) Nothing in the section shall be construed to supersede the clinical judgment of the licensed health care provider.

(d) Any screening examination recommended pursuant to subdivision (a) shall not be conducted on a newborn if a parent or guardian of the newborn objects to the examination on the grounds that the examination conflicts with the religious beliefs or practices of the parent or guardian.

(Added by Stats. 2000, Ch. 325, Sec. 2. Effective January 1, 2001.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. Child Health [123650 - 124174.6]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 6.5. Newborn and Infant Hearing Screening, Tracking, and Intervention Program [124115 - 124120.5]__

(Article 6.5 added by Stats. 1998, Ch. 310, Sec. 23.)

124115.

This article shall be known, and may be cited as, the Newborn and Infant Hearing Screening, Tracking and Intervention Act.

(Added by Stats. 1998, Ch. 310, Sec. 23. Effective August 19, 1998.)

124115.5.

(a) The Legislature finds and declares all of the following:

(1) Hearing loss occurs in newborns more frequently than any other health condition for which newborn screening is currently required.

(2) Early detection of hearing loss, early intervention, and followup services before six months of age, have been demonstrated to be highly effective in facilitating the development of a childshealth and communication and cognitive skills.

(3) The State of California supports the National Healthy People 2000 goals, which promote early identification of children with hearing loss.

(4) Children of all ages can receive reliable and valid screening for hearing loss in a cost-effective manner.

(5) Appropriate screening and identification of newborns and infants with hearing loss will facilitate early intervention during this critical time for development of communication, and may, therefore, serve the public purposes of promoting the healthy development of children and reducing public expenditure for health care and special education and related services.

(b) The purposes of this article shall be to do all of the following:

(1) Provide early detection of hearing loss in newborns, as soon after birth as possible, to enable children who fail a hearing screening and their families and other caregivers to obtain needed confirmatory tests or multidisciplinary evaluation, or both, and intervention services, at the earliest opportunity.

(2) Prevent or mitigate delays of language and communication development that could lead to academic failures associated with late identification of hearing loss.

(3) Provide the state with the information necessary to effectively plan, establish, and evaluate a comprehensive system of appropriate services for parents with newborns and infants who have a hearing loss.

(Added by Stats. 1998, Ch. 310, Sec. 23. Effective August 19, 1998.)

124116.

As used in this article:

(a) Birth admission means the time after birth that the newborn remains in the hospital nursery prior to discharge.

(b) CCS means the California ChildrensServices program administered through the State Department of Health Services.

(c) Department means the State Department of Health Services.

(d) Followup services means all of the following:

(1) All services necessary to diagnose and confirm a hearing loss.

(2) Ongoing audiological services to monitor hearing.

(3) Communication services, including, but not limited to, aural rehabilitation, speech, language, social, and psychological services.

(4) Necessary support of the infant and family.

(e) Hearing loss means a hearing loss of 30 decibels or greater in the frequency region important for speech recognition and comprehension in one or both ears (from 500 through 4000 Hz). However, as technology allows for changes to this definition through the detection of less severe hearing loss, the department may modify this definition by regulation.

(f) Infant means a child 29 days through 12 months old.

(g) Intervention services means the early intervention services described in Part C of the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1475 et seq.).

(h) Newborn means a child less than 29 days old.

(i) Newborn hearing screening services means those hearing screening tests that are necessary to achieve the identification of all newborns and infants with a hearing loss.

(j) Parent means a natural parent, adoptive parent, or legal guardian of a child.

(Added by Stats. 1998, Ch. 310, Sec. 23. Effective August 19, 1998.)

124116.5.

(a)(1)Every general acute care hospital with licensed perinatal services in this state shall administer to every newborn, upon birth admission, a hearing screening test for the identification of hearing loss, using protocols approved by the department or its designee.

(2)In order to meet the departmentscertification criteria, a general acute care hospital shall be responsible for developing a screening program that provides competent hearing screening, utilizes appropriate staff and equipment for administering the testing, completes the testing prior to the newbornsdischarge from a newborn nursery unit, refers infants with abnormal screening results, maintains and reports data as required by the department, and provides physician and family-parent education.

(b)A hearing screening test provided for pursuant to subdivision (a) shall be performed by a licensed physician, licensed registered nurse, licensed audiologist, or an appropriately trained individual who is supervised in the performance of the test by a licensed health care professional.

(c)Every general acute care hospital that has not been approved by the California ChildrensServices (CCS) program and that has licensed perinatal services that provide care in fewer than 100 births annually shall, if it does not directly provide a hearing screening test, enter into an agreement with an outpatient infant hearing screening provider certified by the department to provide hearing screening tests.

(d)This section shall not apply to any newborn whose parent or guardian objects to the test on the grounds that the test is in violation of his or her beliefs.

(Amended (as amended by Stats. 2006, Ch. 335) by Stats. 2007, Ch. 130, Sec. 176. Effective January 1, 2008.)

124117.

The department or its designee shall approve hospitals for participation as newborn hearing screening providers. These facilities shall then receive payment from the department for the newborn hearing screening services provided to newborns and infants eligible for the Medi-Cal or CCS programs in accordance with this article.

(Added by Stats. 1998, Ch. 310, Sec. 23. Effective August 19, 1998.)

124118.

The department or its designee shall provide every general acute care hospital that has licensed perinatal services, or neonatal intensive care unit (NICU), as specified in Section 123975, written information on the current and most effective means available to screen the hearing of newborns and infants, and shall provide technical assistance and consultation to these hospitals in developing a system of screening each newborn and infant receiving care at the facility. The information shall also include the mechanism for referral of newborns and infants with abnormal test results.

(Amended by Stats. 2006, Ch. 335, Sec. 2. Effective January 1, 2007. Operative January 1, 2008, by Sec. 5 of Ch. 335.)

124118.5.

(a)The department shall establish a system of early hearing detection and intervention centers that shall provide technical assistance and consultation to hospitals in the startup and ongoing implementation of a

facility hearing screening program and followup system.

(b)The early hearing detection and intervention centers shall be chosen by the department according to standards and criteria developed by the California ChildrensServices (CCS) program. Each center shall be responsible for a separate geographic catchment area as determined by the program.

(c)Each center shall be required to develop a system that shall provide outreach and education to hospitals in its catchment area, approve hospitals on behalf of the department for participation as newborn hearing screening providers, maintain a database of all newborns and infants screened in the catchment area, ensure appropriate followup for newborns and infants with an abnormal hearing screening, including diagnostic evaluation and referral to intervention services programs if the newborn or infant is found to have a hearing loss, and provide coordination with the CCS and local early intervention programs as defined in Title 14 (commencing with Section 95000) of the Government Code.

(Amended by Stats. 2006, Ch. 335, Sec. 3. Effective January 1, 2007. Operative January 1, 2008, by Sec. 5 of Ch. 335.)

124119.

(a)The department shall develop and implement a reporting and tracking system for newborns and infants tested for hearing loss.

(b)The system shall provide the department with information and data to effectively plan, establish, monitor, and evaluate the Newborn and Infant Hearing Screening, Tracking and Intervention Program, including the screening and followup components, as well as the comprehensive system of services for newborns and infants who are deaf or hard-of-hearing and their families.

(c)Every general acute care hospital with licensed perinatal services, or NICU in this state shall report to the department or the departmentsdesignee information as specified by the department to be included in the departmentsreporting and tracking system.

(d)All providers of audiological followup and diagnostic services provided under this article shall report to the department or the departmentsdesignee information as specified by the department to be included in the departmentsreporting and tracking system.

(e)The information compiled and maintained in the tracking system shall be kept confidential in accordance with Chapter 5 (commencing with Section 10850) of Part 1 of Division 9 of the Welfare and Institutions Code, the Information Practices Act of 1977 (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code), and the applicable requirements and provisions of Part C of the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1475 et seq.).

(f)Data collected by the tracking system obtained directly from the medical records of the newborn or infant shall be for the confidential use of the department and for the persons or public or private entities that the department determines are necessary to carry out the intent of the reporting and tracking system.

(g)A health facility, clinical laboratory, audiologist, physician, registered nurse, or any other officer or employee of a health facility or laboratory or employee of an audiologist or physician, shall not be criminally or civilly liable for furnishing information to the department or its designee pursuant to the requirements of this section.

(Amended by Stats. 2006, Ch. 335, Sec. 4. Effective January 1, 2007. Operative January 1, 2008, by Sec. 5 of Ch. 335.)

124119.5.

Parents of all newborns and infants diagnosed with a hearing loss shall be provided written information on the availability of community resources and services for children with hearing loss, including those provided in accordance with the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), through the reporting and tracking system followup procedures. Information shall include listings of local and statewide nonprofit deaf and hard-of-hearing consumer-based organizations, parent support organizations affiliated with deafness, and programs offered through the State Department of Social Services, Office of Deaf Access, State Department of Developmental Services, and the State Department of Education.

(Added by Stats. 1998, Ch. 310, Sec. 23. Effective August 19, 1998.)

124120.

The department may conduct a community outreach and awareness campaign to inform medical providers, pregnant women, and the families of newborns and infants on the availability of the newborn hearing screening program and the value of early hearing testing. The outreach and awareness campaign shall be conducted by an independent contractor.

(Amended by Stats. 2002, Ch. 1161, Sec. 14. Effective September 30, 2002.)

124120.5.

A newborn hearing screening test shall not be performed without the written consent of the parent.

(Added by Stats. 1998, Ch. 310, Sec. 23. Effective August 19, 1998.)

__ARTICLE 6.6. Newborn Critical Congenital Heart Disease Screening Program [124121 - 124122]__

(Article 6.6 added by Stats. 2012, Ch. 336, Sec. 2.)

124121.

For purposes of this article, CCHD means critical congenital heart disease.

(Added by Stats. 2012, Ch. 336, Sec. 2. (AB 1731) Effective January 1, 2013.)

124122.

(a)(1)Beginning July 1, 2013, a general acute care hospital that has a licensed perinatal service shall offer to parents of a newborn, prior to discharge, a pulse oximetry test for the identification of CCHD.

(2)The State Department of Health Care Services shall issue guidance stating that hospitals perform this test in a manner consistent with the federal Centers for Disease Control and Prevention guidelines for CCHD screening.

(3)A hospital described in paragraph (1) shall be responsible for developing a screening program that provides competent CCHD screening, utilizes appropriate staff and equipment for administering the testing, completes the testing prior to the newbornsdischarge from a newborn nursery unit, refers infants with abnormal screening results for appropriate care, maintains and reports data as required by the department, and provides physician and family-parent education.

(b)A pulse oximetry test provided for pursuant to subdivision (a) shall be performed by a licensed physician, licensed registered nurse, or an appropriately trained individual who is supervised in the performance of the test by a licensed health care professional.

(c)This section shall not apply to a newborn whose parent or guardian objects to the test on the grounds that the test is in violation of his or her beliefs.

(Added by Stats. 2012, Ch. 336, Sec. 2. (AB 1731) Effective January 1, 2013.)

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 7. Childhood Lead Poisoning Prevention Act [124125 - 124165]__

(Article 7 added by Stats. 1995, Ch. 415, Sec. 8.)

124125.

(a)The Legislature hereby finds and declares that childhood lead exposure represents the most significant childhood environmental health problem in the state today; that too little is known about the prevalence, long-term health care costs, severity, and location of these problems in California; that it is well known that the environment is widely contaminated with lead; that excessive lead exposure causes acute and chronic damage to a childsrenal system, red blood cells, and developing brain and nervous system; that at least one

in every 25 children in the nation has an elevated blood lead level; and that the cost to society of neglecting this problem may be enormous.

(b)The Legislature further finds and declares that knowledge about where and to what extent harmful childhood lead exposures are occurring in the state could lead to the prevention of these exposures, and to the betterment of the health of Californiasfuture citizens. Therefore, the enactment of this article establishes a state Childhood Lead Poisoning Prevention Program. The department shall accomplish all of the following:

(1)Compile information concerning the prevalence, causes, and geographic occurrence of high childhood blood lead levels.

(2)Identify and target areas of the state where childhood lead exposures are especially significant.

(3)Analyze information collected pursuant to this article and, where indicated, design and implement a program of medical followup and environmental abatement and followup that will reduce the incidence of excessive childhood lead exposures in California.

(4)Work, as necessary, with the State Department of Health Care Services to advance lead testing of children enrolled in Medi-Cal.

(c)(1)By March 1, 2019, and by March 1 of each year thereafter, the department shall prepare and prominently post on its Internet Web site information that evaluates the departmentsprogress in meeting the goals of this section. The information shall also include all of the following:

(A)An annually updated analysis of the data and information identified and compiled relative to paragraphs (1) and (2) of subdivision (b).

(B)To the greatest extent possible, a list of the census tracts in which children test positive at a rate higher than the national average for blood lead in exceedance of the federal Centers for Disease Control and Preventionsreference level for elevated blood lead based on the data and information received during the previous calendar year.

(C)The report developed pursuant to Section 105295.

(2)All uses and disclosures of data made pursuant to this section shall comply with all applicable state and federal laws for the protection of the privacy and security of data, including, but not limited to, the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code), the Information Practices Act of 1977 (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code), Title 1.81 (commencing with Section 1798.80) of Part 4 of Division 3 of the Civil Code, the federal Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191), and the federal Health Information Technology for Economic and Clinical Health Act, Title XIII of the federal American Recovery and Reinvestment Act of 2009 (Public Law 111-5), and implementing regulations.

(Amended by Stats. 2018, Ch. 690, Sec. 5. (SB 1041) Effective January 1, 2019.)

124130.

(a)A laboratory that performs a blood lead analysis on a specimen of human blood drawn in California shall report the information specified in this section to the department for each analysis on every person tested.

(b)(1)The analyzing laboratory shall report all of the following:

(A)The test results in micrograms of lead per deciliter.

(B)The name of the person tested.

(C)The personsbirth date.

(D)The personsaddress, including the ZIP Code, and telephone number.

(E)The name, address, telephone number, and National Provider Identifier (NPI) of the health care provider that ordered the analysis.

(F)The name, address, telephone number, Clinical Laboratory Improvement Amendments (CLIA) number, and NPI of the analyzing laboratory.

(G)The accession number of the specimen.

(H)The date the analysis was performed.

(I)The personsMedi-Cal client identification number (CIN) or, for other health plans, the name of the health plan and the medical plan identification number.

(J)The personssex.

(K)The personsrace and ethnicity.

(L)The personspregnancy status.

(M)The name, address, and telephone number of the personsemployer, if any.

(N)The date the specimen was drawn.

(O)The source of the specimen, specified as venous, capillary, arterial, cord blood, or other.

(P)The name, address, telephone number, and CLIA number of the referring laboratory, if any.

(Q)The testing methodology used for blood lead analysis specified as point of care, inductively coupled plasma mass spectrometry, graphite furnace atomic spectroscopy, or other.

(2)The changes made to this subdivision by the act adding this paragraph shall become operative on July 1, 2023.

(c)The analyzing laboratory may report to the department other information that directly relates to the blood lead analysis or to the identity, location, health care management, or environmental management of the person tested.

(d)If the result of the blood lead analysis is a blood lead level equal to or greater than the most recent federal Centers for Disease Control and Prevention (CDC) reference level for an elevated blood lead level (BLL), the report required by this section shall be submitted within three working days of the analysis. If the

result is less than the CDC reference level for an elevated BLL, the report required by this section shall be submitted within 30 calendar days of the analysis. Timing of reporting shall be based on rounding of results to the nearest whole number.

(e)A report required by this section shall be submitted by electronic transfer.

(f)All information reported pursuant to this section shall be confidential, as provided in Section 100330, except that the department may share the information as follows:

(1)To the individual to whom the information pertains.

(2)With the prior written voluntary consent of the individual to whom the information pertains or the person authorized to give consent on behalf of the individual, such as a childsparent or guardian.

(3)When required by state or federal law.

(4)When compelled by an order of the court or an administrative hearing officer, if a protective order that prohibits any further disclosure is secured prior to disclosure.

(5)For the purpose of surveillance, case management, coordination of care, investigation, environmental assessment, environmental remediation, or abatement with the local health department, environmental health agency authorized pursuant to Section 101275, building department, health care providers treating patients with elevated blood levels or receiving case management services, or a federal, state, or local governmental agency.

(6)For research, as defined in Part 46 of Title 45 of the Code of Federal Regulations, as may be amended, if the request for information is approved by the Committee for the Protection of Human Subjects (CPHS) for the California Health and Human Services Agency, the requesting entity provides documentation to the department that demonstrates, to the departmentssatisfaction, that the entity has established the procedures and ability to maintain the confidentiality of the information, and the requesting entity has agreed, in writing, to maintain the confidentiality of the information.

(7)With the State Department of Health Care Services for the purpose of determining whether children enrolled in Medi-Cal are being screened for lead poisoning and receiving appropriate related services.

(g)(1)The State Department of Health Care Services and health care providers may further disclose the information reported pursuant to this section to a managed health care plan in which a beneficiary who is the subject of the information is enrolled, who may further disclose this information to the beneficiaryshealth care provider to proactively offer and coordinate care and treatment services and administer payment programs.

(2)The local health department, environmental health agency, building department, researcher, or federal, state, or local governmental entity shall not further disclose the information and shall otherwise maintain the confidentiality of the information in the manner provided in Section 100330.

(3)Notwithstanding any other law, a disclosure authorized pursuant to this section, except to the State Department of Health Care Services and to health care providers, shall include only the information necessary for the stated purpose of the requested disclosure, be used only for the approved purpose, and not be further disclosed.

(4)The State Department of Health Care Services and health care providers shall use, disclose, and maintain

the confidentiality of information shared with it pursuant to this subdivision in accordance with the federal Health Insurance Portability and Accountability Act of 1996, as may be amended, and pursuant to regulations promulgated thereto, and other laws applicable to information in possession of the State Department of Health Care Services and health care providers.

(h)The director may assess a fine up to five hundred dollars ($500) against a laboratory that knowingly fails to meet the reporting requirements of this section.

(i)A laboratory shall not be fined or otherwise penalized for failure to provide the patient information required by this section if the result of the blood lead analysis is a blood lead level less than the most recent CDC reference level for an elevated BLL and if all of the following circumstances exist:

(1)The test sample was sent to the laboratory by another health care provider.

(2)The laboratory requested the information from the health care provider who obtained the sample.

(3)The health care provider who obtained the sample and sent it to the laboratory failed to provide the patientsinformation.

(j)A laboratory shall request from the health care provider who obtained the blood sample or ordered the test all information required by this section, as applicable. If the health care provider cannot, or will not, provide the requested information, the laboratory is not required to report the information.

(Amended by Stats. 2022, Ch. 528, Sec. 1. (AB 2326) Effective January 1, 2023.)

124150.

The Legislature hereby finds and declares that the activities conducted by the department pursuant to Section 124130 have confirmed and supported the findings specified in Section 124125 and, in addition, have resulted in the following findings:

(a)Very few children are currently tested for elevated blood lead levels in California. The lead registry established pursuant to Section 124130 has been effective at identifying incidents of occupational lead poisoning; however, because childhood lead screening is not now required in California, the registry is unable to serve as the exclusive mechanism to identify children with elevated blood lead levels. Additional blood lead screening needs to be done to identify children at high risk of lead poisoning.

(b)Based on emerging information about the severe deleterious effects of low levels of lead on childrenshealth, the lead danger level is expected to continue to be lowered.

(c)Lead poisoning poses a serious health threat for significant numbers of California children. Based on lead registry reports and targeted screening results, the department has estimated that tens of thousands of California children may be suffering from blood lead levels greater than the danger level.

(d)The implications of lead exposure to children and pregnant women from lead brought home on the clothing of workers are unknown, but may be significant.

(e)Levels of lead found in soil and paint around and on housing constitute a health hazard to children living in the housing. No regulations currently exist to limit allowable levels of lead in paint surfaces in California

housing.

(Amended by Stats. 2017, Ch. 507, Sec. 8. (AB 1316) Effective January 1, 2018.)

124151.

The department shall use an electronic database consistent with the goals outlined in Section 124125 to support electronic laboratory reporting of blood lead tests reported pursuant to Section 124130, management of lead-exposed children, and assessment of sources of lead exposures.

(Added by Stats. 2017, Ch. 507, Sec. 9. (AB 1316) Effective January 1, 2018.)

124155.

(a) The department shall design and implement a screening program for lead exposure of children not older than seven years old in migrant labor camps where lead-based paint has been identified pursuant to Section 50710.5.

(b) The department may implement the screening program through the local health departments utilizing the departmentsprotocols. Notwithstanding any other provision of law, the department may contract with a nonprofit organization to assist in administration of the program. The contract shall not be subject to competitive bidding requirements.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124160.

The department shall continue to direct the Childhood Lead Poisoning Prevention Program to implement a program to identify and conduct medical followup of high-risk children, and to establish procedures for environmental abatement and followup designed to reduce the incidence of excessive childhood lead exposures in California. In implementing this program, the department shall utilize its own studies, as well as relevant information from the scientific literature and childhood lead poisoning programs from outside California. The particular activities specified in this section shall be initiated by January 1, 1990, and completed on or before January 1, 1993. The program shall include at least all of the following components:

(a)Lead screening. The department shall:

(1)Design and implement at least one pilot blood lead screening project targeting children at high risk of elevated blood lead levels. In designing any pilot projects, the department shall give special consideration to conducting screening through the Child Health Disability and Prevention Program.

(2)Conduct a pilot screening project to evaluate blood lead levels among children of workers exposed to lead in their occupations.

(3)Develop and issue health advisories urging health care providers to conduct routine annual screening of

high-risk children between the ages of one and five years of age.

(4)Develop a program to assist local health departments in identifying and following up cases of elevated blood lead levels.

(5)Develop and conduct programs to educate health care providers regarding the magnitude and severity of, and the necessary responses to, the childhood lead poisoning problem in California.

(b)The department, in consultation with the Department of Housing and Community Development, shall adopt regulations governing the abatement of lead paint in and on housing, including, but not limited to, standards for enforcement, testing, abatement, and disposal.

(c)The department shall conduct a study to evaluate whether abatement of lead in soil is effective at reducing blood lead levels in children.

(Amended by Stats. 2004, Ch. 193, Sec. 128. Effective January 1, 2005.)

124165.

After January 1, 1993, the department, through the Childhood Lead Poisoning Prevention Program, shall continue to take steps that it determines are necessary to reduce the incidence of excessive childhood lead exposure in California.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 8. Female Genital Mutilation Prevention [124170- 124170.]__

(Article 8 added by Stats. 1996, Ch. 790, Sec. 3.)

124170.

The State Department of Health Services, in consultation with the State Department of Social Services and the appropriate federal agency or department, shall establish and implement appropriate education, preventative, and outreach activities, focusing on the new immigrant populations that traditionally practice female genital mutilation, for the purpose of informing members of those communities of the health risks and emotional trauma inflicted by this practice and informing those communities and the medical community of the prohibition and ramifications of Section 273.4 of the Penal Code.

(Added by Stats. 1996, Ch. 790, Sec. 3. Effective January 1, 1997.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=2.&chapter=3.&article=9.

124172.

(a)Except for an influenza vaccine described in subdivision (b), on and after July 1, 2006, a person who is knowingly pregnant or who is under three years of age shall not be vaccinated with a mercury-containing vaccine or injected with a mercury-containing product that contains more than 0.5 micrograms of mercury per 0.5 milliliter dose.

(b)On and after July 1, 2006, a person who is knowingly pregnant or who is under three years of age shall not be vaccinated with a mercury-containing influenza vaccine that contains more than 1.0 microgram of mercury per 0.5 milliliter dose.

(c)The Secretary of the Health and Human Services Agency may exempt the use of a vaccine from this section if the secretary finds, and the Governor concurs, that an actual or potential bioterrorist incident or other actual or potential public health emergency, including an epidemic or shortage of supply of a vaccine that would prevent children under three years of age and knowingly pregnant women from receiving the needed vaccine, makes necessary the administration of a vaccine containing more mercury than the maximum level set forth in subdivision (a), or subdivision (b) in the case of influenza vaccine. The exemption shall meet all of the following conditions:

(1)It shall not be issued for more than 12 months.

(2)At the end of the effective period of the exemption, the secretary may issue another exemption for up to 12 months for the same incident or public health emergency, if the secretary makes a determination that the exemption is necessary as set forth in this subdivision, the Governor concurs with the exemption, and the secretary notifies the Legislature and interested parties pursuant to paragraphs (3), (4), and (5).

(3)Upon issuing an exemption, the secretary and the Governor shall, within 48 hours, notify the Legislature about the exemption and about the secretarysfindings justifying the exemptionsapproval.

(4)Upon request for an exemption, the secretary shall notify interested parties, who have expressed their interest to the secretary in writing, that an exemption request has been made.

(5)Upon issuing an exemption, the secretary shall, within seven days, notify interested parties, who have expressed their interest to the secretary in writing, about the exemption and about the secretarysfindings justifying the exemptionsapproval.

(Added by Stats. 2004, Ch. 837, Sec. 1. Effective January 1, 2005.)

__ARTICLE 10. Public School Health Center Support Program [124174 - 124174.6]__

(Article 10 added by Stats. 2006, Ch. 334, Sec. 1.)

124174.

The following definitions shall govern the construction of this article, unless the context requires otherwise:

(a)Program means a Public School Health Center Support Program.

(b)School health center means a center or program, located at or near a local educational agency, that provides age-appropriate health care services at the program site or through referrals. A school health center may conduct routine physical, mental health, and oral health assessments, and provide referrals for any services not offered onsite. A school health center may serve two or more nonadjacent schools or local educational agencies.

(c)For purposes of this section, local educational agency means a school, school district, charter school, or county office of education if the county office of education serves students in kindergarten, or any grades from 1 to 12, inclusive.

(d)Department means the State Department of Public Health.

(Amended by Stats. 2008, Ch. 381, Sec. 2. Effective January 1, 2009.)

124174.2.

(a)The department, in cooperation with the State Department of Education, shall establish a Public School Health Center Support Program.

(b)The program, in collaboration with the State Department of Education, shall perform the following program functions:

(1)Provide technical assistance to school health centers on effective outreach and enrollment strategies to identify children who are eligible for, but not enrolled in, the Medi-Cal program, the Healthy Families Program, or any other applicable program.

(2)Serve as a liaison between organizations within the department, including, but not limited to, prevention services, primary care, and family health.

(3)Serve as a liaison between other state entities, as appropriate, including, but not limited to, the State Department of Health Care Services, the Department of Managed Health Care, the Office of Emergency Services, and the Managed Risk Medical Insurance Board.

(4)Provide technical assistance to facilitate and encourage the establishment, retention, or expansion of, school health centers. For purposes of this paragraph, technical assistance may include, but is not limited to, identifying available public and private sources of funding, which may include federal Medicaid funds, funds

from third-party reimbursements, and available federal or foundation grant moneys.

(c)The department shall consult with interested parties and appropriate stakeholders, including the California School Health Centers Association and representatives of youth and parents, in carrying out its responsibilities under this article.

(Amended by Stats. 2013, Ch. 22, Sec. 71. (AB 75) Effective June 27, 2013. Operative July 1, 2013, by Sec. 110 of Ch. 22.)

124174.3.

(a)The department shall establish standardized data collection procedures and collect data specified in subdivisions (c) and (d) from school health centers on an ongoing basis.

(b)The data collected pursuant to this section shall be submitted in a format determined by the department in accordance with applicable state and federal requirements for confidentiality and protected health information.

(c)Data collected pursuant to this section shall include the following:

(1)The name of the primary contact person, telephone numbers, including facsimile physical address, and the e-mail address, if applicable, for each school health center.

(2)The annual number of schoolage children receiving health services or mental health services from the school health center.

(3)The type and volume of services provided by the school health centers.

(4)The funding mechanisms used by the school health centers.

(5)Information on other programs offered by school health centers with an emphasis on preventative health services that address health issues unique to schoolage children, including, but not limited to, childhood obesity, asthma, immunizations against communicable diseases, and child and adolescent mental health disorders.

(d)To the extent feasible, the department shall collect data on health services provided at a local educational agency outside a school health center.

(e)This section shall be implemented only to the extent funds are appropriated for this purpose in the Budget Act or pursuant to the enactment of legislation subsequent to the addition of this section.

(Added by Stats. 2006, Ch. 334, Sec. 1. Effective January 1, 2007.)

124174.4.

The State Department of Education, in collaboration with the department, shall perform the following functions:

(a)Coordination of programs within the State Department of Education that support school health centers and programs within the State Department of Health Care Services, where appropriate.

(b)The provision of technical assistance to facilitate and encourage the establishment, retention, and expansion of school health centers in public schools. For purposes of this subdivision, technical assistance may include the provision of information to local educational agencies and other entities regarding the utilization of facilities, liability insurance, cooperative agreements with community-based providers, and other issues pertinent to school health centers.

(Amended by Stats. 2013, Ch. 22, Sec. 72. (AB 75) Effective June 27, 2013. Operative July 1, 2013, by Sec. 110 of Ch. 22.)

124174.5.

The program, in collaboration with the State Department of Education, shall act as a liaison for school-based health centers.

(Amended by Stats. 2012, Ch. 728, Sec. 110. (SB 71) Effective January 1, 2013.)

124174.6.

The department shall establish a grant program within the Public School Health Center Support Program to provide technical assistance, and funding for the expansion, renovation, and retrofitting of existing school health centers, and the development of new school health centers, in accordance with the following procedures and requirements:

(a)A school health center receiving grant funds pursuant to this section shall meet or have a plan to meet the following requirements:

(1)Strive to provide a comprehensive set of services including medical, oral health, mental health, health education, and related services in response to community needs.

(2)Provide primary and other health care services, provided or supervised by a licensed professional, which may include all of the following:

(A)Physical examinations, immunizations, and other preventive medical services.

(B) Diagnosis and treatment of minor injuries and acute medical conditions.

(C)Management of chronic medical conditions.

(D)Basic laboratory tests.

(E)Referrals to and followup for specialty care.

(F)Reproductive health services.

(G)Nutrition services.

(H)Mental health services provided or supervised by an appropriately licensed mental health professional may include: assessments, crisis intervention, counseling, treatment, and referral to a continuum of services including emergency psychiatric care, community support programs, inpatient care, and outpatient programs. School health centers providing mental health services as specified in this section shall consult with the local county mental health department for collaboration in planning and service delivery.

(I)Oral health services that may include preventive services, basic restorative services, and referral to specialty services.

(3)Work in partnership with the school nurse, if one is employed by the school or school district, to provide individual and family health education; school or districtwide health promotion; first aid and administration of medications; facilitation of student enrollment in health insurance programs; screening of students to identify the need for physical, mental health, and oral health services; referral and linkage to services not offered onsite; public health and disease surveillance; and emergency response procedures. A school health center may receive grant funding pursuant to this section if the school or school district does not employ a school nurse. However, it is not the intent of the Legislature that a school health center serve as a substitute for a school nurse employed by a local school or school district.

(4)Have a written contract or memorandum of understanding between the school district and the health care provider or any other community providers that ensures coordination of services, ensures confidentiality and privacy of health information consistent with applicable federal and state laws, and integration of services into the school environment.

(5)Serve all registered students in the school regardless of ability to pay.

(6)Be open during all normal school hours, or on a more limited basis if resources are not available, or on a more expansive basis if dictated by community needs and resources are available.

(7)Establish protocols for referring students to outside services when the school health center is closed.

(8)Facilitate transportation between the school and the health center if the health center is not located on school or school district property.

(b)Planning grants shall be available in amounts between twenty-five thousand dollars ($25,000) and fifty thousand dollars ($50,000) for a 6- to 12-month period to be used for the costs associated with assessing the need for a school health center in a particular community or area, and developing the partnerships necessary for the operation of a school health center in that community or area. Applicants for planning grants shall be required to have a letter of interest from a school or district if the applicant is not a local education agency. Grantees provided funding pursuant to this subdivision shall be required to do all of the following:

(1)Seek input from students, parents, school nurses, school staff and administration, local health providers, and if applicable, special population groups, on community health needs, barriers to health care and the need for a school health center.

(2)Collect data on the school and community to estimate the percentage of students that lack health insurance and the percentage that are eligible for Medi-Cal benefits, or other public programs providing free or low-cost health services.

(3)Assess capacity and interest among health care providers in the community to provide services in a school health center.

(4)Assess the need for specific cultural or linguistic services or both.

(c)Facilities and startup grants shall be available in amounts between twenty thousand dollars ($20,000) and two hundred fifty thousand dollars ($250,000) per year for a three-year period for the purpose of establishing a school health center, with the potential addition of one hundred thousand dollars ($100,000) in the first year for facilities construction, purchase, or renovation. Grant funds may be used to cover a portion or all of the costs associated with designing, retrofitting, renovating, constructing, or buying a facility, for medical equipment and supplies for a school health center, or for personnel costs at a school health center. Preference will be given to proposals that include a plan for cost sharing among schools, health providers, and community organizations for facilities construction and renovation costs. Applicants for facilities and startup grants offered pursuant to this subdivision shall be required to meet the following criteria:

(1)Have completed a community assessment determining the need for a school health center.

(2)Have a contract or memorandum of understanding between the school district and the health care provider, if other than the district, and any other provider agencies describing the relationship between the district and the school health center.

(3)Have a mechanism, described in writing, to coordinate services to individual students among school and school health center staff while maintaining confidentiality and privacy of health information consistent with applicable state and federal laws.

(4)Have a written description of how the school health center will participate in the following:

(A)School and districtwide health promotion, coordinated school health, health education in the classroom or on campus, program/activities that address nutrition, fitness, or other important public health issues, or promotion of policies that create a healthy school environment.

(B)Outreach and enrollment of students in health insurance programs.

(C)Public health prevention, surveillance, and emergency response for the school population.

(5)Have the ability to provide the linguistic or cultural services needed by the community. If the school health center is not yet able to provide these services due to resource limitations, the school health center shall engage in an ongoing assessment of its capacity to provide these services.

(6)Have a plan for maximizing available third-party reimbursement revenue streams.

(d)Sustainability grants shall be available in amounts between twenty-five thousand dollars ($25,000) and one hundred twenty-five thousand dollars ($125,000) per year for a three-year period for the purpose of operating a school health center, or enhancing programming at a fully operational school health center, including oral health or mental health services. Applicants for sustainability grants offered pursuant to this subdivision shall be required to meet all of the criteria described in subdivision (c), in addition to both of the following criteria:

(1)The applicant shall be eligible to become or already be an approved Medi-Cal provider.

(2)The applicant shall have ability and procedures in place for billing public insurance programs and managed care providers.

(3)The applicant shall seek reimbursement and have procedures in place for billing public and private insurance that covers students at the school health center.

(e)The department shall award technical assistance grants through a competitive bidding process to qualified contractors to support grantees receiving grants under subdivisions (b), (c), and (d). A qualified contractor means a vendor with demonstrated capacity in all aspects of planning, facilities development, startup, and operation of a school health center.

(f)The department shall also develop a request for proposal (RFP) process for collecting information on applicants, and determining which proposals shall receive grant funding. The department shall give preference for grant funding to the following schools:

(1)Schools in areas designated as federally medically underserved areas or in areas with medically underserved populations.

(2)Schools with a high percentage of low-income and uninsured children and youth.

(3)Schools with large numbers of limited English proficient (LEP) students.

(4)Schools in areas with a shortage of health professionals.

(5)Low-performing schools with Academic Performance Index (API) rankings in the deciles of three and below of the state.

(g)Moneys shall be allocated to the department annually for evaluation to be conducted by an outside evaluator that is selected through a competitive bidding process. The evaluation shall document the number of grantees that establish and sustain school health centers, and describe the challenges and lessons learned in creating successful school health centers. The evaluator shall use data collected pursuant to Section 124174.3, if it is available, and work in collaboration with the Public School Health Center Support Program. The department shall post the evaluation on its Internet Web site.

(h)This section shall be implemented only to the extent that funds are appropriated to the department in the annual Budget Act or other statute for implementation of this article.

(Added by Stats. 2008, Ch. 381, Sec. 4. Effective January 1, 2009.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 4. Adolescent Health [124175 - 124260]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 1. California Adolescent Family Life Act of 1988 [124175 - 124200]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 8.)

124175.

The Legislature hereby finds and declares that:

(a) Adolescent pregnancy and parenthood is a problem with significant social, medical, educational, and economic consequences to the teen parent and child, her family, and the State of California.

(b) In an attempt to address the problems of pregnant and parenting adolescents, the Governor, in 1985, created the Adolescent Family Life Demonstration Program, that was designed to bring pregnant and parenting teenagers into programs that provide services of demonstrated cost benefit and effectiveness by organizing networks of local agencies focused on providing services to adolescents and ensuring the most timely and effective utilization of services.

(c) Independent evaluations indicate that the program has been successful and effective in achieving its intended goals of providing pregnant adolescents with prenatal care, reducing the incidence of low birthweight babies born to adolescent mothers, keeping or reenrolling pregnant and parenting adolescents in school, and reducing the rate of repeat teen pregnancies.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124180.

(a) The department may conduct the Adolescent Family Life Program to assure that pregnant adolescents receive comprehensive continuous prenatal care in order to deliver healthy babies; to establish networks within regions to provide to pregnant and parenting teens and their children necessary services including medical care, psychological and nutritional counseling, maternity counseling, adoption counseling, academic and vocational programs, and day care; to provide a continuous case manager to each family unit; and to maintain a data base to measure outcomes of adolescent pregnancies. Specific procedures to operate this program will be defined and carried out through standards and guidelines established by the department.

(b) No grant funds may be used for essential services to pregnant adolescents or schoolage parents unless the services are not available in the county or are insufficient to meet the basic needs of the population to be served; in that case, funds may be used for essential services only as set forth in the approved grant application. No grant funds may be expended for abortions, abortion referrals, or abortion counseling.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124185.

(a) The department, through its program of maternal and child health, shall award contract augmentations to four Adolescent Family Life Programs that meet the requirements of this section and develop plans for a comprehensive coordinated substance abuse prevention, intervention, and counseling program, designed specifically to meet the developmental, social, and educational needs of high-risk pregnant or parenting adolescents. The program shall, to the extent practicable, feasible, and appropriate, leverage existing programs and funding rather than creating new, duplicative programs and services.

(b) The department shall adopt guidelines and criteria setting forth the terms and conditions upon which the department will offer contract augmentations pursuant to this section. The department also shall disseminate information designed to publicize the availability of contract augmentations for a comprehensive coordinated substance abuse prevention, intervention, and counseling program to high-risk pregnant or parenting adolescents.

(c) The department shall encourage Adolescent Family Life Programs with small caseloads to develop plans and submit applications that reflect sharing of services among two or more programs.

(d) At least one program that is awarded a contract augmentation shall be located in northern California, at least one program shall be located in central California, and at least one program shall be located in southern California.

(e) This section shall become operative on July 1, 1994.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124190.

A comprehensive coordinated substance abuse prevention, intervention, and counseling program, as used in Section 124185, shall include, but not be limited to, programs that:

(a) Have demonstrated a capacity for developing interagency cooperative approaches to reduce the incidence of high-risk pregnant or parenting adolescents. This shall include documentation of program development and plans for coordination and collaboration with existing perinatal substance abuse programs in the county, including state pilot projects on perinatal substance abuse established under the direction of the Local Perinatal Substance Abuse Coordinating Council.

(b) Employ maximum utilization of existing available programs and facilities.

(c) Have developed goals and objectives for reducing the incidence of high-risk pregnant and parenting adolescents.

(d) Are culturally and linguistically appropriate to the population being served.

(e) Include staff development training by substance abuse counselors.

(f) This section shall become operative on July 1, 1994.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124195.

The department shall require reports to be prepared by all programs funded pursuant to this article.

(Amended by Stats. 2004, Ch. 193, Sec. 129. Effective January 1, 2005.)

124200.

Funding for the purpose of this article shall be provided through funds appropriated to the department through the annual Budget Act.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 2. MATERNAL, CHILD, AND ADOLESCENT HEALTH [123225 - 124250]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 4. Adolescent Health [124175 - 124260]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2. Child and Adolescent Resource Program [124225 - 124230]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 8.)

124225.

(a) The Legislature finds that recent responsibilities for assessing and treating the mental disorders of children and adolescents have been required of county mental health programs creating an unmet need for personnel in the field of mental health who have expertise in preventing, diagnosing, and treating the mental and emotional disorders of children.

(b) Recent attention to child abuse cases has increased the awareness of the special needs of children who are victims of abuse and of those who are then called to the courtroom as witnesses. Mental health personnel with special training are also needed for these children.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124230.

It is the purpose of the Legislature, in enacting this article, to encourage the Regents of the University of California to augment the academic child and adolescent programs at the medical schools of the University of California. The programs shall include, but not be limited to, one or more of the following elements:

(a) Clinical or postgraduate educational programs in child and adolescent psychiatry to instruct and train students in recognizing and treating children with mental and emotional problems, both organic and functional.

(b) Provision of continuing education for specialists in the care and treatment of children and adolescents with mental and emotional problems.

(c) Research into the causes, prevention, and treatment of mental disorders of children.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124235.

(a)A youth sports organization that elects to offer an athletic program shall comply with all of the following:

(1)(A)An athlete who is suspected of sustaining a concussion or other head injury, or who has passed out or fainted, in an athletic activity shall be immediately removed from the athletic activity for the remainder of the day, and shall not be permitted to return to any athletic activity until the athlete is evaluated by a licensed healthcare provider. The athlete shall not be permitted to return to athletic activity until the athlete receives written clearance to return to athletic activity from a licensed healthcare provider. If the licensed healthcare provider determines that the athlete sustained a concussion or other head injury, the athlete shall also complete a graduated return-to-play protocol of no less than seven days in duration under the supervision of a licensed healthcare provider.

(B)If the licensed healthcare provider suspects that the athlete has a cardiac condition that puts the athlete at risk for sudden cardiac arrest or other heart-related issues, the athlete shall remain under the care of the licensed healthcare provider to pursue followup testing until the athlete is cleared to play.

(2)If an athlete who is 17 years of age or younger has been removed from athletic activity due to a suspected concussion or due to fainting or another suspected cardiac condition, the youth sports organization shall notify a parent or guardian of that athlete of the time and date of the injury, the symptoms observed, and any treatment provided to that athlete for the injury.

(3)(A)On a yearly basis, the youth sports organization shall give both a concussion and head injury and a sudden cardiac arrest information sheet to each athlete. The information sheet shall be signed and returned by the athlete and, if the athlete is 17 years of age or younger, shall also be signed by the athletesparent or guardian, before the athlete initiates practice or competition.

(B)If the athlete is six years of age or younger, only the signature of the athletesparent or guardian shall be

required to comply with this paragraph. If the athlete is 18 years of age or older, only the signature of the athlete shall be required to comply with this paragraph.

(C)The information sheet may be sent and returned through an electronic medium including, but not necessarily limited to, fax or electronic mail.

(4)On a yearly basis, the youth sports organization shall offer concussion and head injury and sudden cardiac arrest prevention education, or related educational materials, or both, to each coach, administrator, and referee, umpire, or other game official of the youth sports organization.

(5)The youth sports organization shall require both of the following:

(A)Each coach, administrator, and referee, umpire, or other game official of the youth sports organization shall be required to successfully complete the concussion and head injury and sudden cardiac arrest prevention education offered pursuant to paragraph (4) at least once, either online or in person, before supervising an athlete in an activity of the youth sports organization.

(B)The youth sports organization shall post related information, as referenced in paragraph (4), online, or provide educational materials to athletes and parents, or both.

(6)The youth sports organization shall identify both of the following:

(A)Procedures to ensure compliance with the requirements for providing concussion and head injury and sudden cardiac arrest prevention education and a concussion and head injury and sudden cardiac arrest prevention information sheet, as referenced in paragraphs (3) to (5), inclusive.

(B)Procedures to ensure compliance with the athlete removal provisions and the return-to-play protocol required pursuant to paragraph (1).

(b)As used in this article, all of the following shall apply:

(1)Concussion and head injury education and educational materials and a concussion and head injury information sheet shall, at a minimum, include information relating to all of the following:

(A)Head injuries and their potential consequences.

(B)The signs and symptoms of a concussion.

(C)Best practices for removal of an athlete from an athletic activity after a suspected concussion.

(D)Steps for returning an athlete to school and athletic activity after a concussion or head injury.

(2)Licensed healthcare provider means either of the following:

(A)A licensed healthcare provider who is trained in the evaluation and management of concussions and is acting within the scope of the providerspractice for evaluation and management of concussions or other head injuries.

(B)A licensed healthcare provider who is trained in the evaluation and management of cardiac conditions and is acting within the scope of that providerspractice for evaluation and management of sudden cardiac arrest, fainting, and shortness of breath.

(3)Sudden cardiac arrest prevention education and educational materials and a sudden cardiac arrest information sheet shall, at a minimum, include information relating to all of the following:

(A)Cardiac conditions and their potential consequences.

(B)The signs and symptoms of sudden cardiac arrest.

(C)Best practices for removal of an athlete from an athletic activity after fainting or a suspected cardiac condition is observed.

(D)Steps for returning an athlete to an athletic activity after the athlete faints or experiences a cardiac condition.

(E)What to do in the event of a cardiac emergency: this shall include calling 911, performing hands-only CPR, and using an automated external defibrillator (AED) if it is available.

(4)Youth sports organization means an organization, business, nonprofit entity, or a local governmental agency that sponsors or conducts amateur sports competitions, training, camps, or clubs in which persons 17 years of age or younger participate.

(c)This section shall apply to all persons participating in the activities of a youth sports organization, irrespective of their ages. This section shall not be construed to prohibit a youth sports organization, or any other appropriate entity, from adopting and enforcing rules intended to provide a higher standard of safety for athletes than the standard established under this section.

(Amended by Stats. 2019, Ch. 174, Sec. 2. (AB 379) Effective January 1, 2020.)

__ARTICLE 2.6. Nevaeh Youth Sports Safety Act [124238 - 124238.5]__

(Article 2.6 added by Stats. 2023, Ch. 24, Sec. 1.)

124238.

For purposes of this article, the following definitions apply:

(a)Coach means a person appointed by the youth sports organization to supervise or instruct a participant in a sport.

(b)Official practice or match means a sport session in which live action or one or more drills are conducted, or a match, as scheduled by the youth sports organization, the coach, or other designee of the organization.

(c)Youth sports organization has the same meaning as set forth in Section 124235.

(Added by Stats. 2023, Ch. 24, Sec. 1. (AB 1467) Effective January 1, 2024.)

124238.5.

(a)Commencing January 1, 2027, a youth sports organization that elects to offer an athletic program shall ensure that its athletes have access to an automated external defibrillator (AED) during any official practice or match, subject to subdivision (b).

(b)For purposes of subdivision (a), if an AED is administered during an applicable medical circumstance, the AED shall be administered by a medical professional, coach, or other person designated by the youth sports organization, who holds AED certification and who complies with any other qualifications required pursuant to federal and state law applicable to the use of an AED.

(Added by Stats. 2023, Ch. 24, Sec. 1. (AB 1467) Effective January 1, 2024.)

__ARTICLE 2.7. California Youth Football Act [124240 - 124243]__

(Article 2.7 added by Stats. 2019, Ch. 158, Sec. 2.)

124240.

(a)This article shall be known, and may be cited, as the California Youth Football Act.

(b)As used in this article:

(1)Coach means a person appointed by a youth sports organization to supervise or instruct a participant in the sport of youth tackle football.

(2)Full-contact portion of practice is defined as the period of time in drills or live action that involves contact at game speed.

(3)Full-contact practice means a session where one or more drills or live action is conducted that involves contact at game speed, as in an actual tackle football game or scrimmage. This includes simulations or drills that involve any number of players.

(4)Heat-related illness includes, but is not necessarily limited to, heat cramps, heat syncope, heat exhaustion, and exertional heat stroke.

(5)Off-season means a period extending from the end of the regular season until 30 days before the

commencement of the next regular season.

(6)Play includes participation in a youth tackle football game, scrimmage, or practice.

(7)Preseason means a period of 30 days before the commencement of the regular season.

(8)Regular season means the period from the first league football game or scrimmage until the completion of the final football game of that season.

(9)Safety equipment includes, but is not necessarily limited to, all of the following:

(A)A helmet and its associated parts, including, but not necessarily limited to, a face mask and mouthguard.

(B)Hip, knee, and shoulder pads.

(C)A jersey.

(D)A tailbone protector.

(E)Pants and thigh guards.

(F)Shoes, including cleats.

(10)Youth sports organization means an organization, business, or nonprofit entity that sponsors or conducts amateur sports competition, training, camps, clinics, practices, or clubs.

(11)Youth tackle football league means the organization that groups together youth sports organizations that conduct youth tackle football, administers rules, and sets game schedules. It may or may not be associated with a national organization.

(Added by Stats. 2019, Ch. 158, Sec. 2. (AB 1) Effective January 1, 2020.)

124241.

On and after January 1, 2021, a youth sports organization that conducts a tackle football program shall comply with all of the following requirements:

(a)A tackle football team shall not conduct more than two full-contact practices per week during the preseason and regular season.

(b)A tackle football team shall not hold a full-contact practice during the off-season.

(c)The full-contact portion of a practice shall not exceed 30 minutes in any single day.

(d)A coach shall annually receive a tackling and blocking certification from a nationally recognized program that emphasizes shoulder tackling, safe contact and blocking drills, and techniques designed to minimize the risk during contact by removing the involvement of youth tackle football participantshead from all tackling and blocking techniques.

(e)Each youth tackle football administrator, coach, and referee shall annually complete all of the following:

(1)The concussion and head injury education pursuant to Section 124235.

(2)The Opioid Factsheet for Patients pursuant to Section 124236.

(3)Training in the basic understanding of the signs, symptoms, and appropriate responses to heat-related illness.

(f)Each parent or guardian of a youth tackle football participant shall receive concussion and head injury information for that athlete pursuant to Section 124235 and the Opioid Factsheet for Patients pursuant to Section 124236.

(g)Each football helmet shall be reconditioned and recertified every other year, unless stated otherwise by the manufacturer. Only entities licensed by the National Operating Committee on Standards for Athletic Equipment shall perform the reconditioning and recertification. Every reconditioned and recertified helmet shall display a clearly recognizable mark or notice in the helmet indicating the month and year of the last certification.

(h)A minimum of one certified emergency medical technician, state-licensed paramedic, or higher-level licensed medical professional shall be present during all preseason, regular season, and postseason games. The certified emergency medical technician, state-licensed paramedic, or higher-level licensed medical professional shall have the authority to provide prehospital emergency medical care or rescue services consistent with their certification or license, and remove any youth tackle football participant from the game who exhibits an injury, including, but not necessarily limited to, symptoms of a concussion or other head injury.

(i)A coach shall annually receive first aid, cardiopulmonary resuscitation, and automated external defibrillator certification.

(j)At least one independent nonrostered individual, appointed by the youth sports organization, shall be present at all practice locations. The individual shall hold current and active certification in first aid, cardiopulmonary resuscitation, automated external defibrillator, and concussion protocols. The individual shall have the authority to evaluate and remove any youth tackle football participant from practice who exhibits an injury, including, but not limited to, symptoms of a concussion or other head injury.

(k)Safety equipment shall be inspected before every full-contact practice or game to ensure that all youth tackle football participants are properly equipped.

(l)Each youth tackle football participant removed pursuant to this section shall comply with Section 124235. The injury shall be reported to the youth tackle football league.

(m)Each youth tackle football participant shall complete a minimum of 10 hours of noncontact practice at the beginning of each season for the purpose of conditioning, acclimating to safety equipment, and progressing to the introduction of full-contact practice. During this noncontact practice, the youth tackle football participants shall not wear any pads, and shall only wear helmets if required to do so by the coaches.

(n)A youth sports organization shall annually provide a declaration to its youth tackle football league stating that it is in compliance with this article, and shall either post the declaration on its internet website or provide the declaration to all youth tackle football participants within its youth sports organization.

(Amended by Stats. 2020, Ch. 49, Sec. 1. (AB 2300) Effective January 1, 2021.)

124242.

On and after January 1, 2021, a youth tackle football league shall comply with both of the following:

(a)Establish youth tackle football participant divisions that are organized by relative age or weight or by both age and weight.

(b)Retain information from which the names of individuals shall not be identified for the tracking of youth sports injuries. This information shall include the type of injury, the medical treatment received by the youth tackle football participant, and return to play protocols followed by the participant pursuant to subdivision (l) of Section 124241.

(Added by Stats. 2019, Ch. 158, Sec. 2. (AB 1) Effective January 1, 2020.)

124243.

Nothing in this article shall prohibit any youth sports organization or youth tackle football league from adopting and enforcing rules intended to provide a higher standard of safety for youth tackle football participants than the requirements established under this article.

(Added by Stats. 2019, Ch. 158, Sec. 2. (AB 1) Effective January 1, 2020.)

124260.

(a)As used in this section:

(1)Mental health treatment or counseling services means the provision of outpatient mental health treatment or counseling by a professional person, as defined in paragraph (2).

(2)Professional person means any of the following:

(A)A person designated as a mental health professional in Sections 622 to 626, inclusive, of Title 9 of the California Code of Regulations.

(B)A marriage and family therapist, as defined in Chapter 13 (commencing with Section 4980) of Division 2 of the Business and Professions Code.

(C)A licensed educational psychologist, as defined in Chapter 13.5 (commencing with Section 4989.10) of Division 2 of the Business and Professions Code.

(D)A credentialed school psychologist, as described in Section 49424 of the Education Code.

(E)A clinical psychologist licensed under Chapter 6.6 (commencing with Section 2900) of Division 2 of the Business and Professions Code.

(F)Any of the following persons, while working under the supervision of a licensed professional specified in Section 2902 of the Business and Professions Code:

(i)A registered psychologist, as defined in Section 2909.5 of the Business and Professions Code.

(ii)A registered psychological assistant, as defined in Section 2913 of the Business and Professions Code.

(iii)A psychology trainee, as defined in Section 1387 of Title 16 of the California Code of Regulations.

(G)A licensed clinical social worker, as defined in Chapter 14 (commencing with Section 4991) of Division 2 of the Business and Professions Code.

(H)An associate clinical social worker, or a social work intern, as defined in Chapter 14 (commencing with Section 4991) of Division 2 of the Business and Professions Code, while working under the supervision of a licensed professional specified in Section 4996.20 of the Business and Professions Code.

(I)A person registered as an associate marriage and family therapist or a marriage and family therapist trainee, as defined in Chapter 13 (commencing with Section 4980) of Division 2 of the Business and Professions Code, while working under the supervision of a licensed professional specified in subdivision (g) of Section 4980.03 of the Business and Professions Code.

(J)A board certified, or board eligible, psychiatrist.

(K)A licensed professional clinical counselor, as defined in Chapter 16 (commencing with Section 4999.10) of Division 2 of the Business and Professions Code.

(L)A person registered as an associate professional clinical counselor or a clinical counselor trainee, as defined in Chapter 16 (commencing with Section 4999.10) of Division 2 of the Business and Professions Code, while working under the supervision of a licensed professional specified in subdivision (h) of Section 4999.12 of the Business and Professions Code.

(b)(1)Notwithstanding any provision of law to the contrary, a minor who is 12 years of age or older may consent to mental health treatment or counseling services if, in the opinion of the attending professional person, the minor is mature enough to participate intelligently in the mental health treatment or counseling services.

(2)A marriage and family therapist trainee, a clinical counselor trainee, a psychology trainee, or a social work intern, as specified in paragraph (2) of subdivision (a), shall notify his or her supervisor or, if the supervisor is unavailable, an on-call supervisor at the site where the trainee or intern volunteers or is employed within 24 hours of treating or counseling a minor pursuant to paragraph (1). If upon the initial assessment of the minor the trainee or intern believes that the minor is a danger to self or to others, the trainee or intern shall notify the supervisor or, if the supervisor is unavailable, the on-call supervisor immediately after the treatment or counseling session.

(3)Nothing in paragraph (2) is intended to supplant, alter, expand, or remove any other reporting responsibilities required of trainees or interns under law.

(c)Notwithstanding any provision of law to the contrary, the mental health treatment or counseling of a minor authorized by this section shall include involvement of the minorsparent or guardian, unless the professional person who is treating or counseling the minor, after consulting with the minor, determines that the involvement would be inappropriate. The professional person who is treating or counseling the minor shall state in the client record whether and when the person attempted to contact the minorsparent or guardian, and whether the attempt to contact was successful or unsuccessful, or the reason why, in the professional personsopinion, it would be inappropriate to contact the minorsparent or guardian.

(d)The minorsparent or guardian is not liable for payment for mental health treatment or counseling services provided pursuant to this section unless the parent or guardian participates in the mental health treatment or counseling, and then only for services rendered with the participation of the parent or guardian.

(e)This section does not authorize a minor to receive convulsive treatment or psychosurgery, as defined in subdivisions (f) and (g) of Section 5325 of the Welfare and Institutions Code, or psychotropic drugs without the consent of the minorsparent or guardian.

(Amended by Stats. 2018, Ch. 743, Sec. 57. (AB 93) Effective January 1, 2019.)

124250.

(a)The following definitions shall apply for purposes of this section:

(1)Domestic violence means the infliction or threat of physical harm against past or present adult or adolescent intimate partners, and shall include physical, sexual, and psychological abuse against the partner, and is a part of a pattern of assaultive, coercive, and controlling behaviors directed at achieving compliance from or control over, that partner.

(2)Shelter-based means an established system of services where victims of domestic violence and their children may be provided safe or confidential emergency housing on a 24-hour basis, including, but not limited to, hotel or motel arrangements, haven, and safe houses.

(3)Emergency shelter means a confidential or safe location that provides emergency housing on a 24-hour basis for victims of domestic violence and their children.

(b)The California Emergency Management Agency shall administer a comprehensive shelter-based services grant program to shelters for victims of domestic violence pursuant to this section. This program shall comport with the requirements of Section 11135 of the Government Code.

(c)The California Emergency Management Agency shall administer grants, awarded as the result of a request for application process, to shelters for victims of domestic violence that propose to maintain shelters or services previously granted funding pursuant to this section, to expand existing services or create new services, and to establish new shelters to provide services, in any of the following four areas:

(1)Emergency shelter to victims of domestic violence and their children escaping violent family situations.

(2)Transitional housing programs to help victims of domestic violence and their children find housing and jobs so that they are not forced to choose between returning to a violent relationship or becoming homeless. The programs may offer up to 18 months of housing, case management, job training and placement, counseling, support groups, and classes in parenting and family budgeting.

(3)Legal and other types of advocacy and representation to help victims of domestic violence and their children pursue the appropriate legal options.

(4)Other support services for victims of domestic violence and their children.

(d)The agency shall collaborate closely with the advisory council established pursuant to Section 13823.16 of the Penal Code in the development of funding priorities, the framing of the Request for Proposals, and the solicitation of proposals.

(e)(1)The California Emergency Management Agency shall administer grants, awarded as the result of a request for application process, to entities to conduct demonstration projects to serve victims of domestic violence and their children, including, but not limited to, creative and innovative service approaches, such as community response teams and pilot projects to develop new interventions emphasizing prevention and education, and other support projects identified by the advisory council.

(2)For purposes of this subdivision, entity means a state agency, a local government, a community-based organization, or a nonprofit organization.

(f)It is the intent of the Legislature that services funded by this program include services for victims of domestic violence in underserved communities, including the lesbian, gay, bisexual, and transgender community, and ethnic and racial communities. Therefore, the California Emergency Management Agency shall do both of the following:

(1)Fund shelters pursuant to this section that reflect the ethnic, racial, economic, cultural, and geographic diversity of the state.

(2)Target geographic areas and ethnic and racial communities of the state whereby, based on a needs assessment, it is determined that no shelter-based services for victims of domestic violence exist or that

additional resources are necessary.

(g)The director may award additional grants to shelter-based agencies when it is determined that there exists a critical need for shelter or shelter-based services.

(h)As a condition of receiving funding pursuant to this section, shelters for victims of domestic violence shall do both of the following:

(1)Provide matching funds or in-kind contributions equivalent to not less than 20 percent of the grant they would receive. The matching funds or in-kind contributions may come from other governmental or private sources.

(2)Ensure that appropriate staff and volunteers having client contact meet the definition of domestic violence counselor as specified in subdivision (a) of Section 1037.1 of the Evidence Code. The minimum training specified in paragraph (2) of subdivision (a) of Section 1037.1 of the Evidence Code shall be provided to those staff and volunteers who do not meet the requirements of paragraph (1) of subdivision (a) of Section 1037.1 of the Evidence Code.

(i)Notwithstanding subdivision (h), a shelter for victims of domestic violence that received funding pursuant to this section in the previous grant cycle shall be funded upon reapplication, unless its past performance history fails to meet the requirements in paragraph (2) of subdivision (h).

(j)The California Emergency Management Agency may hire the support staff and utilize all resources necessary to carry out the purposes of this section. The agency shall not utilize more than 10 percent of any funds appropriated for the purpose of the program established by this section for the administration of this program.

(Amended by Stats. 2009, 3rd Ex. Sess., Ch. 29, Sec. 1. (SB 13) Effective October 21, 2009.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. General Provisions [124400 - 124440]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

124400.

(a) The Legislature makes the following findings and declarations:

(1) There is a maldistribution of health services in California resulting in underserved rural and urban areas and underserved population groups.

(2) Most rural areas of the state do not have adequate health services because there are insufficient personnel and facilities to provide the services. The lack of adequate services has a negative impact on the health and safety of the public.

(3) In many urban areas of the state there are inadequate health services for low-income populations. Financial barriers create access problems. These barriers to health services have a negative impact on the health and safety of these groups and the public.

(4) Population groups, such as American Indians and seasonal agricultural and migratory workers, lack access to adequate and appropriate health services. The lack of adequate services has a negative impact on the health and safety of these groups and the public.

(5) State assistance will be needed to assure financial stability of primary care resources for these specified population groups.

(b) It is therefore the intent of the Legislature that the state develop an overall strategy to ensure the maintenance of adequate primary health care resources for special population groups.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124405.

(a) The department shall develop a statewide plan for health services for special population groups identified pursuant to subdivision (b) of Section 124425 by January 1, 1985, and shall evaluate and update the plan every two years. The plan shall include, but not be limited to, an assessment of resources, an assessment of unmet needs, an evaluation of prior years program goals and objectives, and a two-year action plan for at least the following program areas:

(1) Health of seasonal agricultural and migratory workers and their families.

(2) American Indian health services.

(3) Rural health services.

(4) California health services corps.

(5) Grants-in-aid to clinics.

(b) The plan shall describe the types, locations, and effectiveness of the programs specified in paragraphs (1) to (5), inclusive, and contain an assessment of resources needed to maintain the plan consistent with the Primary Care Services Act (Section 27).

(c) The plan may be a consolidation of individual program reports due to the Legislature during the year the plan is updated. The plan may also be integrated with other plans the department is required to develop concerning maternal and child health programs and services for special population groups.

(d) The statewide plan shall be initially developed in consultation with the Primary Care Clinics Advisory Committee and the California Conference of Local Health Officers and biannually updated as provided in this section in consultation with individuals and groups representing special populations and areas, with local governments, and with the office.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124410.

Notwithstanding any other provision of law, the department may, if requested by the nonprofit or public agency and to the extent funds are available, provide for advance payments for services to be performed under any agreement entered into pursuant to the Primary Care Services Act (Section 27) and that is otherwise in compliance with the requirements contained in Section 100350. Individual advance payments made to any nonprofit or public agency that requests those payments shall be made in a timely fashion and shall not exceed 25 percent of the total amount of the grant award.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124415.

Notwithstanding any other provision of law, the department may, in addition to the advance payment under Section 124410, provide for prospective payments for services to be performed under any agreement entered into pursuant to the Primary Care Services Act (Section 27). These prospective payments may be provided each month to a contracting agency on one of the following bases:

(a) One-twelfth of the total funding award each month.

(b) One-twelfth of 75 percent of the funding award, if a 25 percent advance payment is also provided.

Prospective payments may be made to those nonprofit or public agencies that request prospective payments and may be adjusted if necessary during the project period after the submission and review of required program reports.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124420.

Each agreement for a project shall require the contracting agency to seek third-party reimbursements, including Medi-Cal and private insurance, for any person served under the agreement and shall require that the reimbursements be used for purposes consistent with the Primary Care Services Act (Section 27). Each agreement may require the contracting agency to provide reports to the department on reimbursements.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124425.

(a) It is the intent of the Legislature that funds authorized by the Primary Care Services Act (Section 27) be provided to organizations and agencies that are located in underserved areas or that are serving population groups identified pursuant to subdivision (b).

(b) Every two years the director shall develop a list of underserved rural and urban areas and underserved population groups. The director shall take into consideration the list of urban and rural areas designated as medically underserved by the California Healthcare Workforce Policy Commission and by the office and federal medically underserved areas and population groups designated by federal agencies.

(c) The director shall develop the list of underserved rural and urban areas and underserved population groups, set forth in subdivision (b), after consulting and receiving written recommendations from the Primary Care Clinics Advisory Committee and after consulting with appropriate groups and individuals, including individuals representing underserved populations and local government.

(Amended by Stats. 2003, Ch. 582, Sec. 7. Effective January 1, 2004.)

124430.

(a) It is the intent of the Legislature that programs in the Primary Care Services Act (Section 27) be funded annually through the budgetary process.

(b) In administering funds pursuant to the Primary Care Services Act (Section 27), the department shall use the funds only for the purpose of funding grants specifically authorized by that act.

(c) No local assistance funds may be used for state administration purposes under the Primary Care Services Act (Section 27).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124435.

An applicant for funds pursuant to the Primary Care Services Act (Section 27) shall transmit a copy of an application to any person who makes a written request therefor at the same time that the application is transmitted to the state.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124440.

The department may enter into agreements with any clinic that is licensed under subdivision (a) of Section 1204 or exempt from licensure under subdivision (c) of Section 1206, and which requests the agreements, for up to three consecutive years.

The contracts shall be limited to the provision of health services to persons authorized to receive health services under the programs specified in the Primary Care Services Act (Section 27).

The department shall retain the right to terminate contracts under the general provisions of the contract language prior to the three years for failure to comply with the performance terms and conditions set forth in the contracts.

The multiple-year contracts shall be modified to reflect any cost-of-living adjustments that are provided to the programs specified in this section, provided the cost-of-living adjustments are granted pursuant to the Budget Act. The contracts may also be amended to reflect changes in the base budget amount, scope of work, and other contract language changes as necessary. Nothing shall prohibit the department from establishing a three-year budget and annually amending the contract to change the budget amount, scope of work, and other contract language changes as necessary. Nothing shall prohibit the contract from being modified based on the mutual consent of the contractor and the department. Advance payments in the original contract and in each one-year extension are permitted, but shall not exceed 25 percent of the funds provided for each fiscal year.

On or before January 1, 1990, the department at any time shall report to the Legislative Analyst as to the personnel-year and General Fund savings that have been associated with this authority.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1.5. Clinic Services [124450- 124450.]__

(Chapter 1.5 added by Stats. 1997, Ch. 294, Sec. 27.)

124450.

(a) In any emergency or disaster, as declared by the Governor, clinics funded under the seasonal agricultural and migratory workers program provided for by Chapter 3 (commencing with Section 124550), the rural health services development program provided for by Chapter 5 (commencing with Section 124600) or the expanded access to primary care program provided for by Article 2 (commencing with Section 124900) of Chapter 7 shall provide nonelective, primary health care services, utilizing a sliding-fee scale based on income, including a zero payment option, to all persons who are impacted by the emergency or disaster and who present themselves for treatment at the clinic.

(b) The department shall deny or recoup payment under Chapter 3 (commencing with Section 124550), Chapter 5 (commencing with Section 124600), and Article 2 (commencing with Section 124900) of Chapter 7, assess civil penalties, revoke or suspend the license of the clinic pursuant to Section 1229, or impose other sanctions or other penalties authorized by law, when the clinic charges patients for care and fails to utilize a sliding-fee scale based on income, including a zero-payment option, to determine the fees to be charged to any patient pursuant to subdivision (a).

(c) To the extent that the department enters into contracts or renews contracts with clinics identified in subdivision (b) on or after the effective date of this section, those contracts shall require clinics to utilize a sliding-fee scale based on income, including a zero-payment option, when determining fees to be assessed for patients.

(Added by Stats. 1997, Ch. 294, Sec. 27. Effective August 18, 1997.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Primary Clinic Revolving Fund [124475 - 124525]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 1. General Provisions [124475 - 124485]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 8.)

124475.

The Legislature finds and declares all of the following:

(a) Clinics are valuable partners in the statesefforts to improve access to health services.

(b) Clinics have an established record of providing quality health services to medically uninsured persons at a reasonable cost.

(c) Clinics are experienced in serving the culturally diverse populations of this state and have developed comprehensive health services packages that meet special population needs.

(d) Clinics are major partners with all levels of government as contractors and grantees in programs that serve the poor, low income, minorities, and other target populations with special needs in both urban and rural areas of California.

(e) The statesgrant and contract approval process are so complicated and time consuming that clinics are faced annually with severe cash-flow problems.

(f) The length of time required for the state to process and execute payment of claims submitted by clinics, creates severe cash-flow problems for the clinics.

(g) Clinics often have no choice but to borrow funds to cover operations pending receipt of state funds and the resulting interest payments reduce the amount of funds available for direct services to the needy population.

(h) Therefore, it is the intent of the Legislature that preliminary advance payment authority be established for the department in order to alleviate clinics™ cash-flow problems to the extent possible.

(i) It is the intent of the Legislature that a clinic revolving fund be established within the department to expedite the payment process and thereby alleviate the cash-flow problems of clinics.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124480.

As used in this chapter, clinic means a primary care clinic as defined in Section 1200.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124485.

(a) The department shall prepare and transmit to the Legislature a report of the departmentsactivities relating to the utilization of clinics to provide comprehensive health services pursuant to the following programs:

(1) Health of seasonal agricultural and migratory workers and their families program.

(2) American Indian health services program.

(3) Rural health services program.

(4) Grants-in-aid to clinic program.

(5) California health services corps program.

(b) A report shall be transmitted to the Legislature by July 1, 1992, and by July 1 of every fourth year thereafter.

(c) The report shall also include any grant funds expended and the resources allocated to the programs by the department, including staff, travel, and support services.

(d) The report shall reflect activities, resources, and expenditures by fiscal year.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

Codes Display Text

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Primary Clinic Revolving Fund [124475 - 124525]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2. The Clinic Revolving Fund [124500 - 124515]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 8.)

124500.

The Clinic Revolving Fund of the department is hereby established for the purpose of expediting preliminary

advance payments as authorized pursuant to Article 3 (commencing with Section 124525) and to reimburse clinics that are grantees or contractors for services rendered under grants or contracts issued pursuant to this part.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124505.

(a) Notwithstanding Section 16400 of the Government Code or any other provision of law, the department may, to the extent local assistance appropriations are made by the Legislature for programs set forth in this part, without at the time furnishing vouchers or itemized statements, draw up to 50 percent of the funds appropriated for the purposes of the Clinic Revolving Fund, for purposes of preliminary advance payments pursuant to Article 3 (commencing with Section 124525).

(b) The purpose of the Clinic Revolving Fund does not include expenses related to departmental administrative expenses, departmental travel expenses, departmental travel expense advances, or other departmental administrative costs.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124510.

In lieu of actually withdrawing revolving fund moneys from the State Treasury, the Controller, upon the request of the department, shall apply and credit the amount of the Clinic Revolving Fund, or any portion thereof, as repayment and return of any existing funds in the revolving fund to the appropriation for which it was drawn by the department.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124515.

The department shall remain fully accountable for the Clinic Revolving Fund. All disbursements shall be substantiated by vouchers filed with the Controller. Disbursements may be reported, substantiated by vouchers, from time to time to the Controller in connection with claims for reimbursements of the revolving fund. At any time, upon the demand of the Department of Finance or the Controller, the revolving fund shall be accounted for and substantiated by vouchers and itemized statements submitted to the Controller.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

Codes Display Text

__ARTICLE 3. Preliminary Advance Payments [124525- 124525.]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 8.)

124525.

Notwithstanding any provision of law to the contrary, the department may, to the extent funds are available, provide for advance payments for services to be performed under pending grant agreements or contracts with clinics pursuant to the Primary Care Services Act (Section 27), at the time that the notice of award is issued if all of the following conditions are met:

(a) The request for application or the request for proposals contains the terms and conditions under which advance payment may be received pursuant to this section.

(b) That the total amount of the advance shall not exceed 25 percent of the amount of the proposed award, including any advance payments provided under authority of any other provision of law.

(c) That the terms and conditions of the request for application or the request for proposal, specifies that the grantee shall repay the full amount of the advance if the grant or the contract is not finally approved.

(d) That the department has evaluated the financial stability of the clinic and found it to be reasonably financially sound.

(e) That advance payments be made only to those nonprofit agencies that request an advance in writing.

(f) That the application or proposal contains the terms and conditions set forth in the request for application or the request for proposal.

(g) That the application or proposal is signed by an authorized person representing the clinic.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. Health of Seasonal Agricultural and Migratory Workers [124550 - 124570]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 8.)

124550.

The department shall maintain a program for seasonal agricultural and migratory workers and their families, consisting of all of the following:

(a) Studies of the health and health services for seasonal agricultural and migratory workers and their families throughout the state.

(b) Technical and financial assistance to local agencies concerned with the health of seasonal agricultural and migratory workers and their families.

(c) Coordination with similar programs of the federal government, other states, and voluntary agencies.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124555.

(a) (1) It is the intent of the Legislature that funds distributed under this section promote stability for participating clinics, as a part of the stateshealth care safety net, and at the same time be distributed in a manner that best promotes access to health care to seasonal agricultural and migratory workers and their families.

(2) The department shall grant funds, for a minimum of three years per grant, retroactive to funds appropriated in the Budget Act of 2002 (Chapter 379 of the Statutes of 2002), to eligible, private, nonprofit, community-based primary care clinics for the purpose of establishing and maintaining a health services program for seasonal agricultural and migratory workers and their families. The department may continue to pay any grantee whose grant expired on June 30, 2003, until June 30, 2004, as if the grant had been extended, provided that funds are appropriated for this purpose in the Budget Act of 2003 and the grantee agrees in writing to expend the money as if the grant had been extended.

(b) In order to be eligible to receive funds under this program, a clinic shall, at a minimum, meet all of the following conditions:

(1) The clinic shall be licensed under either paragraph (1) or (2) of subdivision (a) of Section 1204.

(2) The clinicspatient population shall include at least 25 percent farmworkers and their dependents.

(3) The clinic shall operate in a medically underserved area, including a Health Professional Shortage Area, or serve a medically underserved population, as designated by the United States Department of Health and Human Services, or shall be able to demonstrate that at least 50 percent of its patients are persons with incomes at or below 200 percent of the federal poverty level.

(c) The department shall seek input from stakeholders in designing the methodology for distribution of funds under this section.

(Amended by Stats. 2003, Ch. 230, Sec. 13. Effective August 11, 2003.)

124560.

(a) The Seasonal Agricultural and Migratory Workers Advisory Committee is hereby established in the State Department of Health Services.

(b) The committee shall advise the department on the level of resources, priorities, criteria, and guidelines necessary to implement this chapter pertaining to the health of seasonal and migratory agricultural workers.

(c) The committee shall be composed of 11 members, appointed by the Director of Health Services, who are knowledgeable concerning the health care needs of seasonal and migratory farm workers and their families. Committee members shall serve two-year terms. Two members shall be nominated by the Speaker of the Assembly, and two by the Senate Committee on Rules. The members of the committee shall be selected from the following categories of persons:

(1) Seasonal and migratory farm workers and their families.

(2) Health care providers from nonprofit community health centers that have a documented history of serving seasonal and migratory agricultural workers.

(3) Health care professionals.

(4) Private citizens with documented experience in serving the seasonal agricultural and migratory worker population.

(Added by Stats. 1998, Ch. 310, Sec. 24. Effective August 19, 1998.)

124570.

(a) Notwithstanding any other provision of law, the department shall, to the extent that funds are available, provide to a grantee semiannual prospective payments during a 12-month fiscal year.

(b) An amount equal to not more than 50 percent of the total grant shall be processed for payment to the

grantee following the enactment of the annual Budget Act, and upon formal execution of the grant by the state. The processing by the department of the granteesfirst semiannual prospective payment shall also be contingent upon both of the following:

(1) A written request for payment from the grantee.

(2) Except as provided in this paragraph, the third quarter progress budget and expenditure report. If the grantee is currently under the first fiscal year of a three-year multiple grant, this requirement shall not apply as a condition for the granteesfirst semiannual prospective payment, unless the grantee is a continuing grantee from the prior three-year multiple year of the grant. If the grantee is currently under the second or third fiscal year of a three-year, multiple-year grant, the departmentsprocessing of the first semiannual prospective payment for the current grant year shall be contingent upon the granteestimely and accurate submission, and the departmentsapproval of, the third quarter progress and budget expenditure report from the previous grant year.

(c) Based upon the granteestimely and accurate submission of the first quarterly progress and budget expenditure report from the grant year, and satisfactory performance under the grant, the processing of a second semiannual prospective payment of not more than 40 percent of the total grant shall be processed by the department for payment to a grantee no earlier than January 1 during the term of the grant year. The processing of the granteessecond semiannual prospective payment by the department shall be contingent upon all of the following:

(1) A written request for payment from the grantee.

(2) The granteestimely and accurate submission, and the departmentsapproval, of the first quarterly progress and budget expenditure report.

(3) If the grantee is currently under the second or third fiscal year of a three-year, multiple-year grant, the granteestimely and accurate submission, and the departmentsapproval, of the fourth quarterly progress and budget expenditure report, and the annual reconciliation report, from the prior year.

(d) An amount equal to 10 percent of the total grant award shall be retained by the department, pending satisfactory submission by the grantee of all quarterly progress and budget expenditure reports and an annual reconciliation report for the grant year. Payment of the withheld 10 percent shall be processed by the department for payment to the grantee upon the granteessatisfactory completion and submission, and the departmentsapproval, of these reports.

(Added by Stats. 1999, Ch. 744, Sec. 3. Effective October 10, 1999. Operative July 1, 2000, by Sec. 10 of Ch. 744.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 4. American Indian Health Services [124575 - 124595]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 8.)

124575.

The department shall maintain a program for American Indians and their families, consisting of all of the following:

(a) Studies of the health and health services available to American Indians and their families throughout the state.

(b) Technical and financial assistance to local agencies concerned with the health of American Indians and their families.

(c) Coordination with similar programs of the federal government, other states, and voluntary agencies.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124580.

The department shall cooperate with local governmental agencies and contract with voluntary nonprofit organizations in connection with the development of local health programs for American Indians and their families.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124585.

(a) All moneys appropriated to the department for the purposes of this chapter shall be used to provide

financial, training, and technical assistance to urban and rural American Indian health programs and to assist these programs in planning, implementing, and upgrading programs to attain a comprehensive health services delivery system for American Indians in urban and rural areas.

(b) The department shall provide technical assistance and shall promote the provision of services for preventive health care, health education, and environmental health.

(c) The department may expend funds, appropriated to it to carry out the purposes of this chapter, by contract or grant, or any combination thereof, to assist any urban or rural American Indian health program.

(d) The department shall adopt regulations establishing criteria for reimbursement for direct services under this chapter, that shall include, but not be limited to, a definition of direct services that are reimbursable and a formula for allocation of funds appropriated to the department.

(e) The department shall provide assistance to American Indian health services programs in maximizing utilization of third party payment systems and in developing programs in health education, nutrition, and family planning, if the assistance is not being provided by agencies of the federal government.

(f) Funds appropriated to carry out the purposes of this chapter shall be supplemental to those available from the federal government and shall not duplicate, and they shall not replace, any commitments made by the federal government to provide health services to American Indians and their families in this state who receive health services pursuant to an urban or rural American Indian health program.

(g) It is the intent of the Legislature that the program established by this chapter shall, commencing with the 1984“85 fiscal year, be funded according to customary budget procedures.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124586.

(a) Notwithstanding any other provision of law, the department shall, to the extent that funds are available, provide to a grantee under this chapter semiannual prospective payments, as specified in this section, during a 12-month fiscal year.

(b) The first semiannual prospective payment, in an amount equal to not more than 50 percent of the total grant, shall be processed for payment to the grantee following the enactment of the annual Budget Act, and upon formal execution of the grant by the state and shall be contingent upon both of the following:

(1) A written request for payment from the grantee.

(2) The granteestimely and accurate submission, and the departmentsapproval, of the progress reports required under the grant, budget expenditure report, and annual reconciliation report, from the prior year.

(c) Based upon the granteestimely and accurate submission of the progress reports and budget expenditure reports from the grant year, and satisfactory performance under the grant, the processing of a second semiannual prospective payment of not more than 40 percent of the total grant shall be processed by the department for payment to a grantee no earlier than January 1 during the term of the grant year. The processing of the granteessecond semiannual prospective payment by the department shall be contingent upon both of the following:

(1) A written request for payment from the grantee.

(2) The granteestimely and accurate submission, and the departmentsapproval, of progress reports and budget expenditure reports.

(d) Any remaining amount, which shall be at least 10 percent of the total grant award, shall be retained by the department, pending satisfactory submission by the grantee of all progress reports required by the grant, budget expenditure reports, and an annual reconciliation report for the grant year. Payment of the withheld amount shall be processed by the department for payment to the grantee contingent upon both of the following:

(1) A written request for payment from the grantee.

(2) The granteestimely and accurate submission, and the departmentsapproval, of all progress reports required under the grant, budget expenditure reports from the grant year, the annual reconciliation report for the grant year, and satisfactory performance under the grant.

(Added by Stats. 2003, Ch. 596, Sec. 1. Effective January 1, 2004.)

124590.

The Legislature finds and declares that the health status of many American Indians in California is not adequate.

It is, therefore, the intent of the Legislature to insure that in addition to funding provided pursuant to the American Indian Health Service program, sufficient funding is provided to American Indians from other programs in order to substantially improve their access to health services. These programs include, but are not limited to, the following:

(a) Rural health services.

(b) Mental health services.

(c) Developmental disability programs.

(d) Maternal and child health programs.

(e) Alcoholism programs.

(f) Programs for the aging.

(g) Environmental health programs.

(Amended by Stats. 2012, Ch. 728, Sec. 111. (SB 71) Effective January 1, 2013.)

124595.

(a)The Indian Health Policy Panel, established by the director pursuant to Section 1520 of Title 17 of the California Administrative Code, is continued in existence and shall be renamed the American Indian Health Policy Panel. The policy panel shall advise the State Department of Health Care Services and the State Department of Public Health on the level of resources, priorities, criteria, and guidelines necessary to implement this chapter. The policy panel shall be composed of 10 members, appointed by the director. Four members shall be appointed from a list of persons submitted by the California Rural Indian Health Board, four members shall be appointed from a list of persons submitted by the California Consortium for Urban Indian Health, and two members shall represent the public. The persons appointed by the director to represent the public may be consumers, consumer advocates, health service providers, representatives of state or county health agencies, health professionals, or private citizens. The terms of the members shall be established pursuant to bylaws adopted by the policy panel.

(b)The director may also seek advice from individuals and groups, other than the policy panel, on program issues.

(c)Those persons who are members of the policy panel on December 31, 1983, shall continue to be members for the remainder of their terms and, upon expiration of their terms, shall be eligible for reappointment by the director.

(Amended by Stats. 2007, Ch. 577, Sec. 15. Effective October 13, 2007.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 5. Rural Health Services Development [124600 - 124785]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 1. Legislative Intent and General Provisions [124600 - 124625]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 8.)

124600.

The Legislature makes the following findings and declarations:

(a) There is a maldistribution of health services in California. Most rural areas of the state do not have adequate health services because there are insufficient health personnel and facilities and inadequate transportation to such services.

(b) The lack of health services in rural areas has a negative impact on the health and safety of the public.

(c) Existing public programs to meet the problem of inadequate health services in rural areas are not sufficient in scope or properly coordinated to significantly improve the availability of health services.

(d) It is unlikely that the situation will improve without substantial state and local action.

It is, therefore, the intent of the Legislature in enacting this chapter to establish a program of rural health services in the department. The purpose of the program is to improve the coordination of rural health services and to increase the amount and availability of the services.

The Legislature intends that the program consist of all the following:

(1) The California Health Services Corps in which health personnel are assigned to health care delivery organizations.

(2) Health services development projects, in which new health care delivery organizations are established.

(3) An organizational unit within the department to coordinate rural health programs.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124605.

The department shall implement a program to remedy deficiencies in health services in rural areas. The department shall have responsibility for the following elements:

(a) California Health Services Corps.

(b) California Rural Health Services Development Projects.

(c) Coordination of Rural Health Programs.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124610.

The director shall administer this chapter and shall adopt any regulations and standards as are necessary to implement this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124615.

No services provided under this chapter shall substitute for current services and obligations of a county including those required by state law.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124620.

Funds expended pursuant to this chapter shall be supplemental to those made available by the federal government for the National Health Services Corps and shall not duplicate, or replace, but may supplement and complement, any commitments made by the federal government to provide health personnel as needed.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124625.

(a) It is the intent of the Legislature that the Rural Health Services Development Program be funded annually through the budgetary process.

(b) Notwithstanding any other provision of law, the department may, to the extent funds are available, provide for advance payments for services to be performed under any contract entered into pursuant to this chapter with any small community based public or private nonprofit agency with modest reserves and potential cash flow problems, where the department determines that such advance payments will further the purposes of this chapter. Advance payments shall not be made more than once a year.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 5. Rural Health Services Development [124600 - 124785]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2. California Health Services Corps [124650 - 124685]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 8.)

124650.

The director shall establish in the department, a California Health Services Corps. The purpose of the corps is to make available health personnel to rural areas that are presently receiving inadequate health services. The corps shall consist of physicians and surgeons, podiatrists, dentists, vision care providers, and other health

professionals, such as nurse practitioners, physician assistants, nurses, dental hygienists, dental assistants, health educators, nutritionists, dietitians, health and nutrition aides, and other personnel as the director finds necessary to meet the purposes of the program.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124655.

Members of the California Health Services Corps may be assigned to the following categories of health services programs:

(a) Any nonprofit primary care clinic or licensed health facility.

(b) Any health provider or group provider.

(c) Any county health program or facility.

(d) Any state health program or facility.

(e) Any federal health program.

Assignments may be made to a health provider or facility, to a health services development project established pursuant to Article 3 (commencing with Section 124700), or directly to an area in California where health services are inadequate.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124660.

Assignments shall be made in accordance with the following:

(a) The authority of any person to supervise any member of the corps shall be subject to approval by the director.

(b) No member of the corps shall be placed in an assignment without the prior agreement of the person or governing board in charge of the health delivery program to which the corps member is assigned.

(c) Corps members directly assigned to rural areas or to state-operated projects shall be contract employees of the California Health Services Corps. Corps members assigned to projects with a nonstate provider or facility may be employees of the provider or facility if specified by contract between the state and the provider or facility. The state shall provide malpractice insurance coverage for all corps personnel.

(d) Local consumers shall be consulted in the placement of California Health Services Corps members.

(e) In making the assignment of a corps member, the director shall seek to match the characteristics and preferences of the member with those of the area, population group, or medical facility where the member may be assigned to the maximum extent possible in order to increase the probability of the member

remaining to serve the area, population group, or medical facility upon completion of his or her assignment period.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124665.

The director shall, by regulation, specify the salary schedules, other terms and conditions of employment, and reimbursement policies with respect to the employment of corps members that shall be followed by institutions, providers, or programs where a member of the California Health Services Corps is assigned.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124670.

Funds expended pursuant to this article may be used for any of the following purposes:

(a) Expenses of the department in administering the program.

(b) Salaries and employee benefits for members of the California Health Services Corps.

(c) Supplies, equipment, minor capital outlay, and minor renovations.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124675.

Assignments shall be made by the department without regard to ability of residents in areas to pay.

Any provider or facility where a California Health Services Corps member is assigned, and any corps member, shall be required to seek third party reimbursements, including Medi-Cal and private insurance, for any person served by the corps member. Any such corps member, provider, or facility may be required to provide reports to the department concerning reimbursements and may be required to contribute all or part of the proceeds of reimbursements to the department for deposit in the State Treasury in accordance with regulations or contracts adopted by the department after regulations have been approved by the Director of Finance.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124680.

No corps member may refuse needed service to any person because of inability to pay for such service, or refuse service to persons on account of their entitlement to medical benefits under Title XVIII or XIX of the

United States Social Security Act.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124685.

The director may, upon request, provide technical assistance to groups preparing applications for assignment of corps personnel.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 5. Rural Health Services Development [124600 - 124785]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 3. Health Services and Development Projects [124700 - 124745]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 8.)

124700.

The department shall plan and put into operation a number of health services development projects. The purpose of the projects shall be to demonstrate effective ways of providing health care services in underserved rural health areas. The director shall make the final decision on approval of a project.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124705.

Applications may be made for funds for health services development projects and the projects may be initiated and operated by any agency, including, but not limited to, the following:

(a) A community agency, including a National Health Services Corps site.

(b) An ongoing rural health program, including migrant health or American Indian health program.

(c) A family practice education program.

(d) A county health department.

(e) The department.

(f) Any health facility or licensed nonprofit primary care clinic.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124710.

(a) (1) It is the intent of the Legislature that funds distributed under this section promote stability for participating clinics, as a part of the stateshealth care safety net, and at the same time be distributed in a manner that best promotes access to health care to geographically isolated populations.

(2) The department shall grant funds, for a minimum of three years per grant, retroactive to funds appropriated in the Budget Act of 2002 (Chapter 379 of the Statutes of 2002), to eligible, private, nonprofit, community-based primary care clinics for the purpose of establishing and maintaining rural health services and development projects as specified under this article. The department may continue to pay any grantee whose grant expired on June 30, 2003, until June 30, 2004, as if the grant had been extended, provided that funds are appropriated for this purpose in the Budget Act of 2003 and the grantee agrees in writing to expend the money as if the grant had been extended.

(b) In order to be eligible to receive funds under this program, a clinic shall, at a minimum, meet all of the following conditions:

(1) The clinic shall be licensed under paragraph (1) or (2) of subdivision (a) of Section 1204.

(2) The clinic shall operate in a rural Medical Study Service Area, as defined by the Health Manpower

Commission.

(3) The clinic shall operate in a medically underserved area, including a Health Professional Shortage Area, or serve a medically underserved population, as designated by the United States Department of Health and Human Services, or shall be able to demonstrate that at least 50 percent of its patients are persons with incomes at or below 200 percent of the federal poverty level.

(c) The department shall seek input from stakeholders in designing the methodology for distribution of funds under this section.

(d) If the funds that are available for purposes of this section for any fiscal year are greater than funds that were available for the prior fiscal year, the department shall establish a base funding level that is applicable to all sites funded in the prior fiscal year. To the extent that funds are available, the base funding level shall not be less than seventy-five thousand dollars ($75,000) for each site. To implement this section, the department shall not be required to reduce funding for clinics that are above the minimum awards.

(Amended by Stats. 2003, Ch. 230, Sec. 14. Effective August 11, 2003.)

124715.

The department may assist community agencies to develop grant proposals.

(Amended by Stats. 1999, Ch. 744, Sec. 6. Effective October 10, 1999. Operative July 1, 2000, by Sec. 10 of Ch. 744.)

124720.

Project proposals shall be considered that address the health needs of rural populations, including, but not limited to, migratory and other agricultural workers, American Indians, and senior citizens, who have insufficient access to adequate levels of health care services due to geographical isolation or economic factors.

Projects that are approved shall accomplish one or more of the following:

(a) Provide primary health care, including preventive health services and diagnostic, treatment, referral, and followup services.

(b) Provide comprehensive health care, including specialized physician services, inpatient and outpatient facilities, laboratory and X-ray services, home health services, and other specialized services.

(c) Provide emergency medical services designed to meet the special problems of rural isolation.

(d) Provide transportation appropriate to achieving the goal of making health care services available to residents of rural areas.

(e) Provide electronic communication technology to improve health care delivery and emergency health services in the designated rural areas.

(f) Establish regional health systems, including linkage with both rural and urban health programs and facilities.

(g) Improve the quality of medical care and the administrative capabilities of agencies and management systems in rural areas.

(h) Provide health education programs in the designated rural areas, including health and nutrition education, and continuing education for health professionals.

(i) Promote nurse practitioner and physician assistants programs and other programs for training and placement of health professionals in the designated areas to respond to rural manpower shortages.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124725.

Project funding shall be for up to three years. Continuation of funding for a project shall depend on progress toward achieving the goals of the project. The director shall make the final decision to continue or discontinue a project. In evaluating the success of a project, the director shall take into account the number of additional persons who are receiving quality health care as a result of the operation of the project and the improvement in health status of the population served by the project.

(Amended by Stats. 1999, Ch. 744, Sec. 7. Effective October 10, 1999. Operative July 1, 2000, by Sec. 10 of Ch. 744.)

124730.

Each applicant shall form an advisory committee for the project. The advisory committee shall participate in all of the following:

(a) Planning the project.

(b) Reviewing the progress of the project.

(c) Proposing changes in the project.

(d) Planning for the continuation of the project after the grant period through self-sufficiency.

At least one-half of the members of the advisory committee shall be consumers, as defined by Public Law 93-641. The advisory committee shall include, where feasible, representatives of the health service agencies, the Seasonal Agricultural and Migratory Workers Advisory Committee, the American Indian Health Policy Panel, consumers selected from rural target populations, such as American Indians, senior citizens, Medi-Cal recipients, isolated rural residents, and agricultural and forestry workers, providers from rural areas, and persons with knowledge of rural areas from educational institutions, and state, county, and federal agencies.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124735.

Each grant for a project shall require the grantee agency to seek third-party reimbursements, including Medi-Cal and private insurance, for any person served under the grant. Each grant shall require the grantee agency to provide reports to the department on reimbursements and may require the grantee agencies to contribute all or part of the proceeds of reimbursements to the department for deposit in the State Treasury in accordance with regulations to be adopted by the department after the regulations are approved by the Director of Finance.

(Amended by Stats. 1999, Ch. 744, Sec. 8. Effective October 10, 1999. Operative July 1, 2000, by Sec. 10 of Ch. 744.)

124740.

State-operated projects shall be established only in accordance with all of the following:

(a) The health of the population in a rural area would be substantially improved by the establishment of a project.

(b) There exists no local public or nonprofit agency willing and able to undertake the project.

(c) The project contains two or more of the elements specified in Section 124720.

A project may employ staff, and may purchase, rent, or lease supplies and equipment where required. A project may also rent or lease land and buildings where required.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124745.

(a) Notwithstanding any other provision of law, the department shall, to the extent that funds are available, provide to a grantee semiannual prospective payments during a 12-month fiscal year.

(b) An amount equal to not more than 50 percent of the total grant shall be processed for payment to the grantee following the enactment of the annual Budget Act, and upon formal execution of the grant by the state. The processing by the department of the granteesfirst semiannual prospective payment shall also be contingent upon both of the following:

(1) A written request for payment from the grantee.

(2) Except as provided in this paragraph, the third quarter progress budget and expenditure report. If the grantee is currently under the first fiscal year of a three-year multiple grant, this requirement shall not apply as a condition for the granteesfirst semiannual prospective payment. If the grantee is currently under the second or third fiscal year of a three-year, multiple-year grant, the departmentsprocessing of the first

semiannual prospective payment for the current grant year shall be contingent upon the granteestimely and accurate submission, and the departmentsapproval of, the third quarter progress and budget expenditure report from the previous grant year.

(c) Based upon the granteestimely and accurate submission of the first quarterly progress and budget expenditure report from the grant year, and satisfactory performance under the grant, the processing of a second semiannual prospective payment of not more than 40 percent of the total grant shall be processed by the department for payment to a grantee no earlier than January 1 during the term of the grant year. The processing of the granteessecond semiannual prospective payment by the department shall be contingent upon all of the following:

(1) A written request for payment from the grantee.

(2) The granteestimely and accurate submission, and the departmentsapproval, of the first quarterly progress and budget expenditure report.

(3) If the grantee is currently under the second or third fiscal year of a three-year, multiple-year grant, the granteestimely and accurate submission, and the departmentsapproval, of the fourth quarterly progress and budget expenditure report, and the annual reconciliation report, from the prior year.

(d) An amount equal to 10 percent of the total grant award shall be retained by the department, pending satisfactory submission by the grantee of all quarterly progress and budget expenditure reports and an annual reconciliation report for the grant year. Payment of the withheld 10 percent shall be processed by the department for payment to the grantee upon the granteessatisfactory completion and submission, and the departmentsapproval, of these reports.

(Added by Stats. 1999, Ch. 744, Sec. 9. Effective October 10, 1999. Operative July 1, 2000, by Sec. 10 of Ch. 744.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 5. Rural Health Services Development [124600 - 124785]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 4. Coordination of Rural Health Programs [124750 - 124785]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 8.)

124750.

The director shall ensure the coordination of state efforts in rural health in order to maximize effective use of scarce medical resources and to coordinate efforts to provide health services through the California Health Services Corps and health services development projects with existing program resources, including, but not limited to, migrant health programs, American Indian health programs, contract county health services programs, the National Health Service Corps, and other related programs administered by the department to ensure minimal duplication and maximum effectiveness.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124760.

The California Healthcare Workforce Policy Commission shall establish a plan that integrates family practice residencies and other health sciences education programs established in rural areas pursuant to Article 8 (commencing with Section 31910) of Chapter 5 of Division 5 of Division 22 of the Education Code with the health services provided pursuant to Article 3 (commencing with Section 124700).

(Amended by Stats. 2003, Ch. 582, Sec. 8. Effective January 1, 2004.)

124765.

The California Healthcare Workforce Policy Commission, in coordination with the Rural Health Section of the department, shall designate the geographical rural areas within California where unmet priority need for medical services exists.

(Amended by Stats. 2003, Ch. 582, Sec. 9. Effective January 1, 2004.)

124770.

The director shall utilize the authority to establish health manpower pilot projects pursuant to Article 1 (commencing with Section 128125) of Chapter 3 of Part 3 of Division 107 to develop personnel with special health and medical skills that may effectively advance the objectives of the Primary Care Services Act (Section 27).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124775.

Each proposal for health corps personnel or project application under Article 3 (commencing with Section 124700) shall be submitted to the appropriate county health officer or district health officer for review and recommendation. The review and recommendation shall be completed within 30 days of receipt. Any recommendations made shall be based upon the Health Systems Plan and Annual Implementation Plan as required for that area by Public Law 93-641.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124780.

If the director decides to act contrary to the recommendation of a county or district health officer made pursuant to Section 124775, the director shall explain his or her action in writing to the appropriate board of supervisors.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124785.

Nothing in the Primary Care Services Act (Section 27) shall affect the operation of local public health services contracted for by the department with other agencies pursuant to former Section 1157.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 6. Small and Rural Hospitals [124800 - 124870]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 8.)

124800.

The Legislature finds and declares all of the following:

(a) Rural hospitals serve as the hub of health, and through that role attract and retain in their communities physicians, nurses, and other primary care providers. Because of economies of scale compounded by reimbursement reforms, many rural hospitals will close before the end of this decade. This will result in the departure of primary care providers and the loss of emergency medical services both to residents and persons traveling through the area. The smallest and most remote facilities are at highest risk.

(b) The rural hospital is often one of the largest employers in the community. The closure of such a hospital means the loss of a source of employment. This has an economic impact beyond the health sector. Further, economic development of a rural area is, in part, tied to the existence of a hospital. People, for example, tend not to retire to areas where there is not reasonable access to physician and hospital-based services.

(c) Rural hospitals, especially the smaller facilities, lack access to the sophisticated expertise necessary to deal with current reimbursement regulations and the associated bureaucracy.

(d) Most rural hospitals are unable to participate in programs that provide access to short- and long-term financing due to lender requirements for credit enhancement.

(e) Because of economies of scale compounded by regulations under Title 22 of the California Code of Regulations and other regulations, rural hospitals have high, fixed costs that, in the present reimbursement environment, cannot be offset by revenues generated from serving a relatively small population base. Further, in an economically depressed rural area, community contributions are not sufficient to offset deficits.

(f) Rural hospitals are an important link in the Medi-Cal program, and without special consideration that takes into account their unique circumstances, rural hospitals will be unable to continue providing services to Medi-Cal patients. This is especially true for outpatient services that are reimbursed at less than 60 percent of costs.

(g) While only a very small percentage of the Medi-Cal budget for inpatient and outpatient services is spent for services rendered by rural hospitals, their participation is essential to preserve the integrity of the entire Medi-Cal program.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124805.

(a) The Legislature recognizes the need to strengthen, and in some cases salvage, rural hospitals to ensure that adequate access to services is provided to residents of rural areas as well as tourists and travelers who, at certain times, may outnumber the residents. Further, the Legislature recognizes that this will require a comprehensive approach. Therefore, the Legislature intends that:

(1) Expertise be provided to endangered rural hospitals to both of the following:

(A) Carry out a strategic assessment of potential business and diversification of service opportunities.

(B) Develop a specific plan of action when feasible.

(2) Access, when appropriate, be provided to special eligibility programs within the California Health Facilities Financing Authority.

(3) Short-term technical assistance be available on fiscal and program matters.

(4) The department continue to provide regulatory relief through program flexibility.

(5) Inpatient reimbursement limitations be modified so as not to single out rural hospitals for application.

(6) Reimbursement rates for outpatient services be set at a level that will provide incentives for rural hospitals to focus on the provision of outpatient services and that will reduce the financial losses incurred by the facilities in providing those services.

(b) The Legislature recognizes that for certain rural settings, an acute care hospital as defined in subdivision (a) of Section 1250 may no longer be cost-effective. Therefore, a rural alternative model that preserves the primary and emergency care systems must be identified, studied through demonstration projects, and developed as a new category of health facility.

(c) The Legislature recognizes that a rural alternative facility may not conform to what is now depicted in state or federal regulation. Therefore, to identify a model, implement demonstration projects, and establish the rural alternative hospital as a license category of health facility, a cooperative effort will be required between the department, the federal Health Care Financing Administration, and the health care industry. To this end, the Legislature intends that the department inform the federal Health Care Financing Administration of its interest in establishing the rural alternative hospital program and subsequently seek any necessary waivers.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124810.

Unless the context otherwise requires, the definitions contained in this article govern the construction of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124815.

Department means the State Department of Health Services.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124820.

High-risk rural hospital, means a hospital as defined in subdivision (a) of Section 124840 that can demonstrate through audited and interim financial reports and projections that it is probable that it will need to cease operations within one year.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124825.

The department shall, in consultation with an organization of interest, develop recommendations on the type and scope of technical assistance that needs to be available to small and rural hospitals from within the department. The recommendations of an organization of interest shall be given consideration by the department in development of subsequent budgets.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124830.

Director means the State Director of Health Services.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124835.

Organizations of interest means nonprofit organizations that typically represent the interests of hospitals and health systems.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124840.

Small and rural hospital means an acute care hospital that meets either of the following criteria:

(a) Meets the criteria for designation within peer group six or eight, as defined in the report entitled Hospital Peer Grouping for Efficiency Comparison, dated December 20, 1982.

(b) Meets the criteria for designation within peer group five or seven and has no more than 76 acute care beds and is located in an incorporated place or census designated place of 15,000 or less population according to the 1980 federal census.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124845.

Strategically located means a hospital as defined in subdivision (a) of Section 124840 that, by virtue of its location, or the location of a major portion of the hospitalsservice area, can demonstrate that its existence is essential to provide health services including emergency services and stabilization to the service area and transient populations.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124850.

The department shall provide expert technical assistance to strategically located, high-risk rural hospitals to assist the hospitals in carrying out an assessment of potential business and diversification of service opportunities. In providing the technical assistance on business opportunities, the department shall consult with other appropriate agencies. The high-risk rural hospital, in cooperation with the department, may develop a short-term plan of action if, in its opinion, the results of the assessment so indicate. The department, in consultation with an organization of interest, shall do all of the following:

(a) Establish a process for identifying strategically located, high-risk rural hospitals and reviewing requests from the hospitals for assistance.

(b) Develop a standard format for the strategic assessment.

(c) Develop a model action plan.

(d) Establish criteria for review of action plans.

(e) Request input and assistance from organizations of interest.

(f) Make the strategic assessment format and model action plan available to all small and rural hospitals.

(Amended by Stats. 2004, Ch. 225, Sec. 56. Effective August 16, 2004.)

124855.

Any small and rural hospital may apply to the California Health Facilities Financing Authority for consideration under special eligibility programs if the hospital has successfully completed the assessment and developed an action plan.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124860.

(a) The department, after consultation with an organization of interest, shall select two strategically located, high-risk rural hospitals to plan and implement rural alternative hospital demonstration projects. To the extent possible, the department shall choose two demonstration sites, with one site serving an isolated mountainous area where access may be impeded by adverse weather conditions, and one site located in a rural agricultural community. Hospitals shall be selected on the basis of their interest in becoming a demonstration site and on their suitability as model rural alternative hospitals. The demonstration projects shall include, but not be limited to, identification of the following:

(1) Appropriate mix and type of services to be provided locally and obtained on referral.

(2) Types and numbers of personnel required.

(3) Probability of, and the amount of, reimbursement under current regulations.

(4) Statutory and regulatory changes necessary to license the facility and maximize reimbursement.

(b) In administering the rural alternative hospital demonstration project, the department shall do all of the following:

(1) Establish two demonstration sites on or before January 1, 1990, and operate the projects for a period of up to 18 months.

(2) Grant exceptions to the licensure requirements for general acute care hospitals that are necessary to serve the purposes of this section when the granting of the exceptions do not jeopardize the health and welfare of patients.

(3) Convey to the Federal Health Care Financing Administration its intent to establish the rural alternative hospital demonstration project and seek any necessary appropriate waivers.

(4) Consider requests for grant funds made by demonstration site hospitals pursuant to subdivision (a) of Section 1188.86 as meeting criteria for priority funding.

(5) Monitor and evaluate demonstration site projects as to the applicability of these models for statewide application.

(c) The department, based on interim findings from the demonstration projects, shall do either of the following:

(1) Prepare and adopt regulations establishing the rural alternative hospital as a licensed health facility by January 1, 1992.

(2) Submit to the Legislature by that date a report detailing why a category of health facility should not be established.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124865.

The department shall continue to provide regulatory relief when appropriate through program flexibility for such items as staffing, space, and physical plant requirements.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124870.

(a) The department shall adopt regulations that will provide for an increase in reimbursement rates for outpatient services rendered to Medi-Cal patients by small and rural hospitals, as defined in Section 124840, over and above those reimbursement rates specified in Section 51509 of the California Code of Regulations. The amount of this increase shall be governed by the funding allocated for this specific purpose in the Budget Act, or in another specific appropriation measure.

(b) The rate adjustment authorized by subdivision (a) shall be allocated to eligible hospitals as follows:

(1) A separate percentage increase shall be calculated for minimum floor and nonminimum floor hospitals based on the ratio of each small and rural hospitals™ Medi-Cal outpatient payments to the total of all small and rural hospitals™ Medi-Cal outpatient payments during the preceding calendar year, as determined by the department. The percentage rate increase for minimum floor hospitals shall be 125 percent of the rate increase percentage calculated for nonminimum floor hospitals. The combined rate increases for minimum floor and nonminimum floor hospitals shall not exceed the funds appropriated for this purpose.

(2) For purposes of this section, minimum floor hospital means a hospital (A) where Medi-Cal payments for outpatient services during the preceding calendar year were less than 1/2 percent of the total of Medi-Cal payments for outpatient services rendered by all small and rural hospitals during that period and (B) where the total gross patient revenue from all sources during that period was less than ten million dollars ($10,000,000).

(3) For purposes of this section, nonminimum floor hospital means a hospital (A) where Medi-Cal payments for outpatient services during the preceding calendar year equaled or exceeded 1/2 percent or of the total of Medi-Cal payments for outpatient services rendered by all small and rural hospitals during that period or (B) where the total gross patient revenue from all sources during that period was ten million dollars ($10,000,000) or more.

(c) For the purpose of calculating the percentage increase, if any eligible hospital had less than a full year of operation upon which to determine the ratio of Medi-Cal expenditures as defined in paragraph (1) of subdivision (b), the department shall extrapolate the Medi-Cal paid claims expenditures for that hospital to estimate a full yearsMedi-Cal claims expenditure.

(d) Payment under this section shall be contingent upon submission of approved claims for Medi-Cal outpatient services rendered after January 1, 1989.

(e) The Director of Health Services shall adopt emergency regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code to implement the rate adjustments required under this section. The adoption of these regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health, or safety. Notwithstanding any provision of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, emergency regulations adopted by the department to implement the rate adjustments required under this section shall not be subject to any review, approval, or disapproval by the Office of Administrative Law at any stage of the rulemaking process. These regulations shall become effective immediately upon their filing with the Secretary of State.

(f) Notwithstanding any other provision of law, reimbursement rates adopted pursuant to this section shall not exceed the hospitalsusual and customary charges for services rendered.

(g) The department shall maximize federal financial participation in implementing this section.

(h) This section shall become operative July 1, 1989.

(Amended by Stats. 2000, Ch. 158, Sec. 1. Effective January 1, 2001.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 7. Grants in Aid for Clinics [124875 - 124945]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 1. Clinics [124875 - 124890]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 8.)

124875.

The Legislature finds and declares that:

(a) In California there are approximately 300 community clinics and free clinics that provide primary health care at low cost for a significant portion of the medically underserved population.

(b) These clinics account for more than 3,000,000 patient visits annually.

(c) Increasingly large caseloads, the debilitating effects of inflation on purchased goods and services, and a lack of financial resources are forcing many community and free clinics to curtail services needed in their communities.

(d) Recognizing the contribution of community and free clinics to the health care of Californians and the contribution of the clinics to lowering the costs of health care, it is in the interest of the people of this state to ensure continuation of clinic programs by providing necessary funding.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124880.

The department shall conduct a program of grants-in-aid for the following purposes:

(a) To assist in stabilizing the health care operations of community clinics and free clinics that provide a wide range of primary health care services.

(b) To fund innovative and creative programs of such clinics designed to provide a high quality of health services at minimum cost.

Eligibility for grants shall be limited to community clinics, free clinics, clinics exempt from licensure under subdivision (c) of Section 1206, and any nonprofit corporation that is comprised of not less than three such clinics having a combined service area covering an entire county or more. Grants authorized pursuant to this article shall be limited in purpose to defraying operating expenses of the recipient clinic, including personnel costs, and for technical assistance provided to the recipient. Grants shall not be made or used for purchase of equipment, facility renovations, or purchase of land or buildings. As a condition to making a grant pursuant to this chapter, the director shall require the applicant to match not less than 20 or more than 40 percent of the amount granted. The required matching funds shall be determined by the director, based upon the ability of the applicant to provide matching funds. The required match may be in cash or in-kind contributions, or a combination of both. In-kind contributions may include, but shall not be limited to, staff and volunteer services. The director may waive all or a portion of the grantee match in individual cases of demonstrated hardship if the director determines that making the grant would effectively serve the purposes of this chapter. The director shall adopt criteria to be applied in determining whether to grant requests for waivers.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124885.

The department shall annually receive and process grant applications submitted by eligible applicants, and shall allocate grant moneys in accordance with the policies and priorities adopted pursuant to this article. Individual grants shall be limited to a maximum of sixty thousand dollars ($60,000), including grants to nonprofit corporations comprised of more than one clinic. However, grants may be renewed on an annual basis, subject to the submission and review of an annual renewal application, that shall be considered with, and subject to the same priorities as, new applications. No applicant shall receive more than one grant in any year.

Each grant shall be subject to a contract between the department and the grantee prescribing the services to be provided by the grantee thereunder and other conditions of the grant. A contract may provide for periodic advance payments for services to be performed, but in no event shall advance payments exceed 25 percent of the grant.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124890.

In developing policies and priorities pertaining to the allocation of grant funds, the department shall give primary consideration to the following factors:

(a) The applicantsneed for funds to continue its current level of operation.

(b) The applicantslong-term prospects for financial stability.

(c) The quality of services provided.

(d) The high-risk or underserved population groups currently being served by the applicant.

All of the above factors being present, clinics primarily serving population groups determined by the director to be medically underserved shall be entitled to first consideration in the allocation of grant funds.

The department shall adopt guidelines for establishment of grant-supported activities, including criteria for evaluation of each activity and monitoring to assure compliance with grant conditions and applicable regulations of the department. The guidelines shall be developed in consultation with the Primary Care Clinics Advisory Committee and other advisory committees and persons as the department determines are appropriate.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4. PRIMARY HEALTH CARE [124400 - 124945]__

(Part 4 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 7. Grants in Aid for Clinics [124875 - 124945]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2. Primary Care [124900 - 124945]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 8.)

124900.

(a)(1)The State Department of Health Care Services shall select primary care clinics that are licensed under subparagraph (A) or (B) of paragraph (1) of subdivision (a) of Section 1204, or are exempt from licensure under subdivision (c) of Section 1206, to be reimbursed for delivering medical services, including preventive health care, and smoking prevention and cessation health education, to program beneficiaries.

(2)In order to be eligible to receive funds under this article a clinic shall meet all of the following conditions, at a minimum:

(A)Provide medical diagnosis and treatment.

(B)Provide medical support services of patients in all stages of illness.

(C)Provide communication of information about diagnosis, treatment, prevention, and prognosis.

(D)Provide maintenance of patients with chronic illness.

(E)Provide prevention of disability and disease through detection, education, persuasion, and preventive treatment.

(F)Meet one or both of the following conditions:

(i)Be located in an area or a facility federally designated as a health professional shortage area, medically underserved area, or medically underserved population.

(ii)Be a clinic that is able to demonstrate that at least 50 percent of the patients served are persons with incomes at or below 200 percent of the federal poverty level.

(3)Notwithstanding the requirements of paragraph (2), all clinics that received funds under this article in the 1997“98 fiscal year shall continue to be eligible to receive funds under this article.

(b)As a part of the award process for funding pursuant to this article, the department shall take into account the availability of primary care services in the various geographic areas of the state. The department shall determine which areas within the state have populations that have clear and compelling difficulty in obtaining access to primary care. The department shall consider proposals from new and existing eligible providers to extend clinic services to these populations.

(c)A primary care clinic applying for funds pursuant to this article shall demonstrate that the funds shall be used to expand medical services, including preventive health care, and smoking prevention and cessation health education, for program beneficiaries above the level of services provided in the 1988 calendar year, or in the year prior to the first year a clinic receives funds under this article if the clinic did not receive funds in the 1989 calendar year.

(d)(1)The department, in consultation with clinics funded under this article, shall develop a formula for allocation of funds available. It is the intent of the Legislature that the funds allocated pursuant to this article

promote stability for those clinics participating in programs under this article as part of the stateshealth care safety net and at the same time be distributed in a manner that best promotes access to health care to uninsured populations.

(2)The formula shall be based on both of the following:

(A)A hold harmless for clinics funded in the 1997“98 fiscal year to continue to reimburse them for some portion of their uncompensated care.

(B)Demonstrated unmet need by both new and existing clinics, as reflected in their levels of uncompensated care reported to the department. For purposes of this article, uncompensated care means clinic patient visits for persons with incomes at or below 200 percent of the federal poverty level for which there is no encounter-based third-party reimbursement which includes, but is not limited to, unpaid expanded access to primary care claims.

(3)The department shall allocate available funds, for a three-year period, as follows:

(A)Clinics that received funding in the prior fiscal year shall receive 90 percent of their prior fiscal year allocation, subject to available funds, provided that the funding award is substantiated by the clinics™ reported levels of uncompensated care.

(B)The remaining funds beyond 90 percent shall be awarded to new and existing applicants based on the clinics™ reported levels of uncompensated care as verified by the department according to subparagraph (A) of paragraph (4). The department shall seek input from stakeholders to discuss adjustments to award levels that the department deems reasonable, such as including base amounts for new applicant clinics.

(C)New applicants shall be awarded funds pursuant to this subdivision if they meet the minimum requirements for funding under this article based on the clinics™ reported levels of uncompensated care as verified by the department according to subparagraph (A) of paragraph (4). New applicants include applicants for new site expansions by existing applicants.

(4)In assessing reported levels of uncompensated care, the department shall utilize the data available from the Office of Statewide Health Planning and Developments(OSHPD™s) completed analysis of the Annual Report of Primary Care Clinics for the prior fiscal year, or if more recent data is available, then the most recent data. If this data is unavailable for an existing applicant to assess reported levels of uncompensated care, the existing applicant shall receive an allocation pursuant to subparagraph (A) of paragraph (3).

(A)The department shall utilize the most recent data available from OSHPDscompleted analysis of the Annual Report of Primary Care Clinics for the prior fiscal year, or if more recent data is available, then the most recent data.

(B)If the funds allocated to the program are less than the prior year, the department shall allocate available funds to existing program providers only.

(5)The department shall establish a base funding level, subject to available funds, of no less than thirty-five thousand dollars ($35,000) for frontier clinics and Native American reservation-based clinics. For purposes of this article, frontier clinics means clinics located in a medical services study area with a population of fewer than 11 persons per square mile.

(6)The department shall develop, in consultation with clinics funded pursuant to this article, a formula for reallocation of unused funds to other participating clinics to reimburse for uncompensated care. The

department shall allocate the unused funds remaining on October 30, for the prior fiscal year to other participating clinics to reimburse for uncompensated care.

(e)In applying for funds, eligible clinics shall submit a single application per clinic corporation. Applicants with multiple sites shall apply for all eligible clinics, and shall report to the department the allocation of funds among their corporate sites in the prior year. A corporation may claim reimbursement only for services provided at a program-eligible clinic site identified in the corporate entitysapplication for funds, and approved for funding by the department. A corporation may increase or decrease the number of its program-eligible clinic sites on an annual basis, at the time of the annual application update for the subsequent fiscal years of any multiple-year application period.

(f)Grant allocations pursuant to this article shall be based on the formula developed by the department, notwithstanding a merger of one of more licensed primary care clinics participating in the program.

(g)A clinic that is eligible for the program in every other respect, but that provides dental services only, rather than the full range of primary care medical services, shall only be eligible to receive funds under this article on an exception basis. A dental-only providersapplication shall include a memorandum of understanding (MOU) with a primary care clinic funded under this article. The MOU shall include medical protocols for making referrals by the primary care clinic to the dental clinic and from the dental clinic to the primary care clinic, and ensure that case management services are provided and that the patient is being provided comprehensive primary care as described in subdivision (a).

(h)(1)For purposes of this article, an outpatient visit shall include diagnosis and medical treatment services, including the associated pharmacy, X-ray, and laboratory services, and prevention health and case management services that are needed as a result of the outpatient visit. For a new patient, an outpatient visit shall also include a health assessment encompassing an assessment of smoking behavior and the patientsneed for appropriate health education specific to related tobacco use and exposure.

(2)Case management includes, for this purpose, the management of all physician services, both primary and specialty, and arrangements for hospitalization, postdischarge care, and followup care.

(i)(1)Payment shall be on a per-visit basis at a rate that is determined by the department to be appropriate for an outpatient visit as defined in this section, and shall be not less than seventy-one dollars and fifty cents ($71.50).

(2)In developing a statewide uniform rate for an outpatient visit as defined in this article, the department shall consider existing rates of payments for comparable outpatient visits. The department shall review the outpatient visit rate on an annual basis.

(j)Not later than June 1 of each year, the department shall adopt and provide each licensed primary care clinic with a schedule for programs under this article, including the date for notification of availability of funds, the deadline for the submission of a completed application, and an anticipated contract award date for successful applicants.

(k)In administering the program created pursuant to this article, the department shall utilize the Medi-Cal program statutes and regulations pertaining to program participation standards, medical and administrative recordkeeping, the ability of the department to monitor and audit clinic records pertaining to program services rendered to program beneficiaries and take recoupments or recovery actions consistent with monitoring and audit findings, and the providersappeal rights. A primary care clinic applying for program participation shall certify that it will abide by these statutes and regulations and other program requirements set forth in this article.

(Amended by Stats. 2008, Ch. 179, Sec. 159. Effective January 1, 2009.)

124905.

For purposes of this article, a program beneficiary is any person whose income level is at or below 200 percent of the federal poverty level as adjusted annually. Program beneficiaries shall not be required to provide any copayment for services that are funded pursuant to this article, except that clinics may charge beneficiaries on a sliding fee scale for services, but no beneficiary shall be denied services because of an inability to pay. The department shall annually adjust this income standard to reflect any changes in the federal poverty level. Payment pursuant to this article shall be made only for services for which payment will not be made through any private or public third-party reimbursement.

(Amended by Stats. 1998, Ch. 883, Sec. 2. Effective January 1, 1999.)

124910.

(a)(1)Each licensed primary care clinic, as specified in subdivision (a) of Section 124900, applying for funds under this article, shall demonstrate in its application that it meets all of the following conditions, at a minimum:

(A)Provides medical diagnosis and treatment.

(B)Provides medical support services of patients in all stages of illness.

(C)Provides communication of information about diagnosis, treatment, prevention, and prognosis.

(D)Provides maintenance of patients with chronic illness.

(E)Provides prevention of disability and disease through detection, education, persuasion, and preventive treatment.

(F)Meets one or both of the following conditions:

(i)Is located in an area or a facility federally designated as a health professional shortage area, medically underserved area, or medically underserved population.

(ii)Is a clinic in which at least 50 percent of the patients served are persons with incomes at or below 200 percent of the federal poverty level.

(2)Any applicant who has applied for and received a federal or state designation for serving a health professional shortage area, medically underserved area, or population shall be deemed to meet the requirements of subdivision (a) of Section 124900.

(b)Each applicant shall also demonstrate to the satisfaction of the department that the proposed services supplement, and do not supplant, those primary care services to program beneficiaries that are funded by any county, state, or federal program.

(c)Each applicant shall demonstrate that it is an active Medi-Cal provider by being enrolled in Medi-Cal and diligently billing the Medi-Cal program for services rendered to Medi-Cal eligible patients during the past three months prior to the application due date. This subdivision shall not apply to clinics that are not currently Medi-Cal providers, and were funded participants pursuant to this article during the 1993"94 fiscal year.

(d)Each application shall be evaluated by the state department prior to funding to determine all of the following:

(1)The applicant shall provide its most recently audited financial statement to verify budget information.

(2)The applicantsability to deliver basic primary care to program beneficiaries.

(3)A description of the applicantsoperational quality assurance program.

(4)The applicantsuse of protocols for the most common diseases in the population served under this article.

(Amended by Stats. 2007, Ch. 188, Sec. 17. Effective August 24, 2007.)

124911.

(a) Commencing in the 1998"99 fiscal year, the department shall release a request for allocation of funds for a period of three succeeding fiscal years. The request for allocation shall include specifications for the clinics to submit uniform data on uncompensated patient visits.

(b) Annual funding awards for a clinic provider in the second and third fiscal years of a three-year funding period shall be contingent upon the clinicssatisfactory performance under the program, and upon the availability of sufficient funds appropriated by the annual Budget Act.

(Added by Stats. 1998, Ch. 883, Sec. 5. Effective January 1, 1999.)

124915.

Services funded pursuant to this article shall be limited to the extent that funds are appropriated for this purpose.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124920.

(a)The department shall utilize existing contractual claims processing services in order to promote efficiency and to maximize use of funds.

(b)The department shall certify which primary care clinics are selected to participate in the program for each

specific fiscal year, and how much in program funds each selected primary care clinic will be allocated each fiscal year.

(c)The department shall pay claims from selected primary care clinics up to each clinicsannual allocation. Once a clinic has exhausted its annual allocation, the state shall stop paying its program claims.

(d)The department may adjust any selected primary care clinicsallocation to take into account:

(1)An increase in program funds appropriated for the fiscal year.

(2)A decrease in program funds appropriated for the fiscal year.

(3)A clinicsprojected inability to fully spend its allocation within the fiscal year.

(4)Surplus funds reallocated from other selected primary care clinics.

(e)The department shall notify all affected primary care clinics in writing prior to adjusting selected primary care clinics™ allocations.

(f)Cessation of program payments under subdivision (e) or adjustment of selected primary care clinicsallocations under subdivision (d) shall not be subject to the Medi-Cal appeals process referenced in subdivision (g) of Section 124900.

(g)A clinicsallocation under this article shall not be reduced solely because the clinic has engaged in supplemental fundraising drives and activities, the proceeds of which have been used to defray the costs of services to the uninsured.

(Amended by Stats. 2006, Ch. 176, Sec. 4. Effective January 1, 2007.)

124930.

(a)For any condition detected as part of a child health and disability prevention screen for any child eligible for services under Section 104395, if the child was screened by the clinic or upon referral by a child health and disability prevention program provider, unless the child is eligible to receive care with no share of cost under the Medi-Cal program, is covered under another publicly funded program, or the services are payable under private coverage, a clinic shall, as a condition of receiving funds under this article, do all of the following:

(1)Insofar as the clinic directly provides these services for other patients, provide medically necessary followup treatment, including prescription drugs.

(2)Insofar as the clinic does not provide treatment for the condition, arrange for the treatment to be provided.

(b)(1)If any child requires treatment the clinic does not provide, the clinic shall arrange for the treatment to be provided, and the name of that provider shall be noted in the patientsmedical record.

(2)The clinic shall contact the provider or the patient or his or her guardian, or both, within 30 days after the arrangement for the provision of treatment is made, and shall determine if the provider has provided

appropriate care, and shall note the results in the patientsmedical record.

(3)If the clinic is not able to determine, within 30 days after the arrangement for the provision of treatment is made, whether the needed treatment was provided, the clinic shall provide written notice to the county child health and disability prevention program director, and shall also provide a copy to the state director of the program.

(Amended by Stats. 2006, Ch. 176, Sec. 6. Effective January 1, 2007.)

124940.

The use of funds granted pursuant to this article for use by school-based clinics shall be limited to those school-based clinics that were licensed and in operation before January 1, 1990.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124945.

Any entity or provider that receives funds pursuant to this article shall expend those funds in accordance with the requirements of Article 2 (commencing with Section 30121) of Chapter 2 of Part 13 of Division 2 of the Revenue and Taxation Code.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 4.5. PAIN PATIENT'S BILL OF RIGHTS [124960 - 124962]__

(Part 4.5 added by Stats. 1997, Ch. 839, Sec. 1.)

124960.

The Legislature finds and declares all of the following:

(a)The state has a right and duty to control the illegal use of opiate drugs.

(b)Inadequate treatment of acute and chronic pain originating from cancer or noncancerous conditions is a significant health problem.

(c)For some patients, pain management is the single most important treatment a physician can provide.

(d)A patient suffering from severe chronic intractable pain should have access to proper treatment of his or her pain.

(e)Due to the complexity of their problems, many patients suffering from severe chronic intractable pain may require referral to a physician with expertise in the treatment of severe chronic intractable pain. In some cases, severe chronic intractable pain is best treated by a team of clinicians in order to address the associated physical, psychological, social, and vocational issues.

(f)In the hands of knowledgeable, ethical, and experienced pain management practitioners, opiates administered for severe acute pain and severe chronic intractable pain can be safe.

(g)Opiates can be an accepted treatment for patients in severe chronic intractable pain who have not obtained relief from any other means of treatment.

(h)A patient suffering from severe chronic intractable pain has the option to request or reject the use of any or all modalities to relieve his or her pain.

(i)A physician treating a patient who suffers from severe chronic intractable pain may prescribe a dosage deemed medically necessary to relieve pain as long as the prescribing is in conformance with Section 2241.5 of the Business and Professions Code.

(j)A patient who suffers from severe chronic intractable pain has the option to choose opiate medication for the treatment of the severe chronic intractable pain as long as the prescribing is in conformance with Section 2241.5 of the Business and Professions Code.

(k)The patientsphysician may refuse to prescribe opiate medication for a patient who requests the treatment for severe chronic intractable pain. However, that physician shall inform the patient that there are physicians who treat severe chronic intractable pain with methods that include the use of opiates.

(Amended by Stats. 2011, Ch. 396, Sec. 2. (AB 507) Effective January 1, 2012.)

124961.

Nothing in this section shall be construed to alter any of the provisions set forth in Section 2241.5 of the Business and Professions Code. This section shall be known as the Pain PatientsBill of Rights.

(a)A patient who suffers from severe chronic intractable pain has the option to request or reject the use of any or all modalities in order to relieve his or her pain.

(b)A patient who suffers from severe chronic intractable pain has the option to choose opiate medications to relieve that pain without first having to submit to an invasive medical procedure, which is defined as surgery, destruction of a nerve or other body tissue by manipulation, or the implantation of a drug delivery system or device, as long as the prescribing physician acts in conformance with the California Intractable Pain Treatment Act, Section 2241.5 of the Business and Professions Code.

(c)The patientsphysician may refuse to prescribe opiate medication for the patient who requests a treatment for severe chronic intractable pain. However, that physician shall inform the patient that there are physicians who treat pain and whose methods include the use of opiates.

(d)A physician who uses opiate therapy to relieve severe chronic intractable pain may prescribe a dosage deemed medically necessary to relieve the patientspain, as long as that prescribing is in conformance with Section 2241.5 of the Business and Professions Code.

(e)A patient may voluntarily request that his or her physician provide an identifying notice of the prescription for purposes of emergency treatment or law enforcement identification.

(f)Nothing in this section shall do either of the following:

(1)Limit any reporting or disciplinary provisions applicable to licensed physicians and surgeons who violate prescribing practices or other provisions set forth in the Medical Practice Act, Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, or the regulations adopted thereunder.

(2)Limit the applicability of any federal statute or federal regulation or any of the other statutes or regulations of this state that regulate dangerous drugs or controlled substances.

(Amended by Stats. 2011, Ch. 396, Sec. 3. (AB 507) Effective January 1, 2012.)

124962.

The Legislature finds and declares all of the following:

(a)Nonpharmacological therapies for pain management have been proven effective for treatment of chronic pain and their use should be promoted just as are pharmacological analgesic therapies.

(b)The United States Department of Health and Human Services™ Pain Management Best Practices Inter-Agency Task Force identified barriers to accessing nonpharmacological therapies for pain management related to health care providers that include underestimation of patients™ reported level of pain, including unconscious biases, workforce shortages, especially among behavioral and pain management specialists, lack of research on or lack of awareness of novel and effective approaches to pain care, and cost and reimbursement issues specific to the health care system. For patients, cost, time, and transportation barriers, as well as lack of coverage or lack of knowledge and awareness of nonpharmacological options have been identified.

(c)A multimodal and patient-centered approach to treating and managing acute or chronic pain has been

recommended by the task force.

(d)Restorative, interventional, behavioral, complementary, and integrative health approaches have been identified as nonpharmacological therapies for pain management.

(e)The federal Food and Drug Administration has approved behavioral or instrument-based and nonpharmacological immersive therapeutics indicated to manage or treat pain.

(f)Nonpharmacological pain management treatment is pain management treatment without the use of medication, including behavioral therapy, instrument-based therapy, or immersive therapeutics approved by the federal Food and Drug Administration indicated for the use of managing or treating pain.

(g)Medical devices are an important option for the treatment and management of pain and prevention of opioid use disorders. With a shift in how pain is treated, there is a greater need for ensuring appropriate coverage and payment policies for effective emerging technologies.

(h)The health care system, including health care providers, health care service plans, and health insurers, should encourage the use of evidence-based nonpharmacological therapies for pain management.

(Added by Stats. 2022, Ch. 160, Sec. 1. (AB 2585) Effective January 1, 2023.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. Genetic Prevention Services [124975 - 125119.5]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 1. Hereditary Disorders Act [124975 - 124996]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 8.)

124975.

The Legislature hereby finds and declares that:

(a) Each person in the State of California is entitled to health care commensurate with his or her health care needs, and to protection from inadequate health services not in the personsbest interests.

(b) Hereditary disorders, such as sickle cell anemia, cystic fibrosis, and hemophilia, are often costly, tragic, and sometimes deadly burdens to the health and well-being of the citizens of this state.

(c) Detection through screening of hereditary disorders can lead to the alleviation of the disability of some hereditary disorders and contribute to the further understanding and accumulation of medical knowledge about hereditary disorders that may lead to their eventual alleviation or cure.

(d) There are different severities of hereditary disorders, that some hereditary disorders have little effect on the normal functioning of individuals, and that some hereditary disorders may be wholly or partially alleviated through medical intervention and treatment.

(e) All or most persons are carriers of some deleterious recessive genes that may be transmitted through the

hereditary process, and that the health of carriers of hereditary disorders is substantially unaffected by that fact.

(f) Carriers of most deleterious genes should not be stigmatized and should not be discriminated against by any person within the State of California.

(g) Specific legislation designed to alleviate the problems associated with specific hereditary disorders may tend to be inflexible in the face of rapidly expanding medical knowledge, underscoring the need for flexible approaches to coping with genetic problems.

(h) State policy regarding hereditary disorders should be made with full public knowledge, in light of expert opinion and should be constantly reviewed to consider changing medical knowledge and ensure full public protection.

(i) The extremely personal decision to bear children should remain the free choice and responsibility of the individual, and should not be restricted by the state.

(j) Participation of persons in hereditary disorders programs in the State of California should be wholly voluntary, except for initial screening for phenylketonuria (PKU) and other genetic disorders treatable through the California newborn screening program. All information obtained from persons involved in hereditary disorders programs in the state should be held strictly confidential.

(k) In order to minimize the possibility for the reoccurrence of abuse of genetic intervention in hereditary disorders programs, all programs offering screening programs for heredity disorders shall comply with the principles established in the Hereditary Disorders Act (Section 27). The Legislature finds it necessary to establish a uniform statewide policy for the screening for heredity disorder in the State of California.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124977.

(a)It is the intent of the Legislature that, unless otherwise specified, the genetic disease testing program carried out pursuant to this chapter be fully supported from fees collected for services provided by the program.

(b)(1)The department shall charge a fee to all payers for any tests or activities performed pursuant to this chapter. The amount of the fee shall be established by regulation and periodically adjusted by the director in order to meet the costs of this chapter. Notwithstanding any other law, any fees charged for prenatal screening and followup services provided to persons enrolled in the Medi-Cal program, health care service plan enrollees, or persons covered by health insurance policies, shall be paid in full and deposited in the Genetic Disease Testing Fund or the Birth Defects Monitoring Program Fund consistent with this section.

(2)The department shall expeditiously undertake all steps necessary to implement the fee collection process, including personnel, contracts, and data processing, so as to initiate the fee collection process at the earliest opportunity.

(3)Effective for services provided on and after July 1, 2002, the department shall charge a fee to the hospital of birth, or, for births not occurring in a hospital, to families of the newborn, for newborn screening and followup services. The hospital of birth and families of newborns born outside the hospital shall make

payment in full to the Genetic Disease Testing Fund. The department shall not charge or bill Medi-Cal beneficiaries for services provided pursuant to this chapter.

(4)(A)The department shall charge a fee for prenatal screening to support the pregnancy blood sample storage, testing, and research activities of the Birth Defects Monitoring Program.

(B)The prenatal screening fee for activities of the Birth Defects Monitoring Program shall be ten dollars ($10).

(5)The department shall set guidelines for invoicing, charging, and collecting from approved researchers the amount necessary to cover all expenses associated with research application requests made pursuant to this section, data linkage, retrieval, data processing, data entry, reinventory, and shipping of blood samples or their components, and related data management.

(6)The only funds from the Genetic Disease Testing Fund that may be used for the purpose of supporting the pregnancy blood sample storage, testing, and research activities of the Birth Defects Monitoring Program are those prenatal screening fees assessed and collected prior to the creation of the Birth Defects Monitoring Program Fund specifically to support those Birth Defects Monitoring Program activities.

(7)The Birth Defects Monitoring Program Fund is hereby created as a special fund in the State Treasury. Fee revenues that are collected pursuant to paragraph (4) shall be deposited into the fund and shall be available upon appropriation by the Legislature to support the pregnancy blood sample storage, testing, and research activities of the Birth Defects Monitoring Program. Notwithstanding Section 16305.7 of the Government Code, interest earned on funds in the Birth Defects Monitoring Program Fund shall be deposited as revenue into the fund to support the Birth Defects Monitoring Program.

(c)(1)The Legislature finds that timely implementation of changes in genetic screening programs and continuous maintenance of quality statewide services requires expeditious regulatory and administrative procedures to obtain the most cost-effective electronic data processing, hardware, software services, testing equipment, and testing and followup services.

(2)The expenditure of funds from the Genetic Disease Testing Fund for these purposes shall not be subject to Section 12102 of, and Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of, the Public Contract Code, or to Division 25.2 (commencing with Section 38070) of this code. The department shall provide the Department of Finance with documentation that equipment and services have been obtained at the lowest cost consistent with technical requirements for a comprehensive high-quality program.

(3)The expenditure of funds from the Genetic Disease Testing Fund for implementation of the Tandem Mass Spectrometry screening for fatty acid oxidation, amino acid, and organic acid disorders, and screening for congenital adrenal hyperplasia may be implemented through the amendment of the Genetic Disease Branch Screening Information System contracts and shall not be subject to Chapter 3 (commencing with Section 12100) of Part 2 of Division 2 of the Public Contract Code, Article 4 (commencing with Section 19130) of Chapter 5 of Part 2 of Division 5 of Title 2 of the Government Code, and any policies, procedures, regulations, or manuals authorized by those laws.

(4)The expenditure of funds from the Genetic Disease Testing Fund for the expansion of the Genetic Disease Branch Screening Information System to include cystic fibrosis, biotinidase, severe combined immunodeficiency (SCID), adrenoleukodystrophy (ALD), and any other disease that is detectable in blood samples, as specified in subdivision (d) of Section 125001, may be implemented through the amendment of the Genetic Disease Branch Screening Information System contracts, and shall not be subject to Chapter 2 (commencing with Section 10290) or Chapter 3 (commencing with Section 12100) of Part 2 of Division 2 of the Public Contract Code, Article 4 (commencing with Section 19130) of Chapter 5 of Part 2 of Division 5 of

Title 2 of the Government Code, or Sections 4800 to 5180, inclusive, of the State Administrative Manual as they relate to approval of information technology projects or approval of increases in the duration or costs of information technology projects. This paragraph shall apply to the design, development, and implementation of the expansion, and to the maintenance and operation of the Genetic Disease Branch Screening Information System, including change requests, once the expansion is implemented.

(d)(1)The department may adopt emergency regulations to implement and make specific this chapter in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For the purposes of the Administrative Procedure Act, the adoption of regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these emergency regulations shall not be subject to the review and approval of the Office of Administrative Law. Notwithstanding Sections 11346.1 and 11349.6 of the Government Code, the department shall submit these regulations directly to the Secretary of State for filing. The regulations shall become effective immediately upon filing by the Secretary of State. Regulations shall be subject to public hearing within 120 days of filing with the Secretary of State and shall comply with Sections 11346.8 and 11346.9 of the Government Code or shall be repealed.

(2)The Office of Administrative Law shall provide for the printing and publication of these regulations in the California Code of Regulations. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the regulations adopted pursuant to this chapter shall not be repealed by the Office of Administrative Law and shall remain in effect until revised or repealed by the department.

(3)The Legislature finds and declares that the health and safety of California newborns is in part dependent on an effective and adequately staffed genetic disease program, the cost of which shall be supported by the fees generated by the program.

(Amended by Stats. 2016, Ch. 393, Sec. 1. (SB 1095) Effective January 1, 2017.)

124980.

The director shall establish any regulations and standards for hereditary disorders programs as the director deems necessary to promote and protect the public health and safety. Standards shall include licensure of master level genetic counselors and doctoral level geneticists. Regulations adopted shall implement the principles established in this section. These principles shall include, but not be limited to, the following:

(a) The public, especially communities and groups particularly affected by programs on hereditary disorders, should be consulted before any regulations and standards are adopted by the department.

(b) The incidence, severity, and treatment costs of each hereditary disorder and its perceived burden by the affected community should be considered and, where appropriate, state and national experts in the medical, psychological, ethical, social, and economic effects or programs for the detection and management of hereditary disorders shall be consulted by the department.

(c) Information on the operation of all programs on hereditary disorders within the state, except for confidential information obtained from participants in the programs, shall be open and freely available to the public.

(d) Clinical testing procedures established for use in programs, facilities, and projects shall be accurate, provide maximum information, and the testing procedures selected shall produce results that are subject to minimum misinterpretation.

(e) No test or tests may be performed on any minor over the objection of the minorsparents or guardian, nor may any tests be performed unless the parent or guardian is fully informed of the purposes of testing for hereditary disorders and is given reasonable opportunity to object to the testing.

(f) No testing, except initial screening for phenylketonuria (PKU) and other diseases that may be added to the newborn screening program, shall require mandatory participation, and no testing programs shall require restriction of childbearing, and participation in a testing program shall not be a prerequisite to eligibility for, or receipt of, any other service or assistance from, or to participate in, any other program, except where necessary to determine eligibility for further programs of diagnoses of or therapy for hereditary conditions.

(g) Pretest and posttest counseling services for hereditary disorders shall be available through the program or a referral source for all persons determined to be or who believe themselves to be at risk for a hereditary disorder. Genetic counseling shall be provided by a physician, a certified advanced practice nurse with a genetics specialty, or other appropriately trained licensed health care professional and shall be nondirective, shall emphasize informing the client, and shall not require restriction of childbearing.

(h) All participants in programs on hereditary disorders shall be protected from undue physical and mental harm, and except for initial screening for phenylketonuria (PKU) and other diseases that may be added to newborn screening programs, shall be informed of the nature of risks involved in participation in the programs, and those determined to be affected with genetic disease shall be informed of the nature, and where possible the cost, of available therapies or maintenance programs, and shall be informed of the possible benefits and risks associated with these therapies and programs.

(i) All testing results and personal information generated from hereditary disorders programs shall be made available to an individual over 18 years of age, or to the individualsparent or guardian. If the individual is a minor or incompetent, all testing results that have positively determined the individual to either have, or be a carrier of, a hereditary disorder shall be given through a physician or other source of health care.

(j) All testing results and personal information from hereditary disorders programs obtained from any individual, or from specimens from any individual, shall be held confidential and be considered a confidential medical record except for information that the individual, parent, or guardian consents to be released, provided that the individual is first fully informed of the scope of the information requested to be released, of all of the risks, benefits, and purposes for the release, and of the identity of those to whom the information will be released or made available, except for data compiled without reference to the identity of any individual, and except for research purposes, provided that pursuant to Subpart A (commencing with Section 46.101) of Part 46 of Title 45 of the Code of Federal Regulations entitled Basic HHS Policy for Protection of Human Subjects,□ the research has first been reviewed and approved by an institutional review board that certifies the approval to the custodian of the information and further certifies that in its judgment the information is of such potentially substantial public health value that modification of the requirement for legally effective prior informed consent of the individual is ethically justifiable.

(k) A physician providing information to patients on expanded newborn screening shall disclose to the parent the physiciansfinancial interest, if any, in the laboratory to which the patient is being referred.

(l) An individual whose confidentiality has been breached as a result of any violation of the provisions of the Hereditary Disorders Act, as defined in subdivision (b) of Section 27, may recover compensatory and civil damages. Any person who negligently breaches the confidentiality of an individual tested under this article

shall be subject to civil damages of not more than ten thousand dollars ($10,000), reasonable attorneysfees, and the costs of litigation. Any person who knowingly breaches the confidentiality of an individual tested under this article shall be subject to payment of compensatory damages, and in addition, may be subject to civil damages of fifty thousand dollars ($50,000), reasonable attorneysfees, and the costs of litigation, or imprisonment in the county jail of not more than one year. If the offense is committed under false pretenses, the person may be subject to a fine of not more than one hundred thousand dollars ($100,000), imprisonment in the county jail of not more than one year, or both. If the offense is committed with the intent to sell, transfer, or use individually identifiable health information for commercial advantage, personal gain, or malicious harm, the person may be subject to a fine of not more than two hundred fifty thousand dollars ($250,000), imprisonment in the county jail of not more than one year, or both.

(m) Genetic counseling as used in this section shall not include communications that occur between patients and appropriately trained and competent licensed health care professionals, such as physicians, registered nurses, and physicians assistants who are operating within the scope of their license and qualifications as defined by their licensing authority.

(Amended by Stats. 2004, Ch. 228, Sec. 6.3. Effective August 16, 2004.)

124981.

(a)No person shall use the title of genetic counselor unless the person has applied for and obtained a license from the department.

(b)The applicant for a genetic counselor license shall meet minimum qualifications that include, but are not limited to, both of the following:

(1)Has earned a mastersdegree or above from a program specializing in or having substantial course content in genetics.

(2)Has demonstrated competence by an examination administered or approved by the department.

(c)The license shall be valid for three years unless at any time during that period it is revoked or suspended. The license may be renewed prior to the expiration of the three-year period.

(d)To qualify to renew the license, a licenseholder shall have completed 45 hours of continuing education units during the three-year license renewal period. At least 30 hours of the continuing education units shall be in genetics.

(e)The license fee for an original license and license renewal shall not exceed two hundred dollars ($200).

(f)This section shall become operative on January 1, 2014.

(Repealed (in Sec. 1) and added by Stats. 2010, Ch. 550, Sec. 2. (AB 2300) Effective January 1, 2011. Section operative January 1, 2014, by its own provisions.)

124982.

(a)The department shall issue a temporary genetic counselor license to a person to practice as a licensed genetic counselor who meets all of the following:

(1)The requirements for licensure set forth in subdivision (b) of Section 124981, except passing the certification examination as required by paragraph (2) of subdivision (b) of Section 124981.

(2)Either of the following requirements:

(A)The person meets the requirements to apply for and has applied for the first available certification examination offered. The department may require an applicant for a temporary genetic counselor license to provide documentation of acceptance for the examination.

(B)The person meets the requirements to apply for the certification examination and plans to apply to sit for the examination in the year following the year of the first available examination. The department shall require the applicant to provide documentation showing registration for the examination, when the documentation is received by the applicant. After the applicant takes the examination, the department shall require the applicant to provide documentation showing that the applicant took the examination.

(3)Payment of a fee of two hundred dollars ($200).

(b)A temporary genetic counselor license shall be valid for 24 months and shall not be extended or renewed.

(c)Notwithstanding subdivision (a), a temporary license issued pursuant to this section shall expire upon any of the following events, whichever occurs earlier:

(1)The issuance of a license pursuant to Section 124981.

(2)Thirty days after notification of the department that an applicant has failed the certification examination.

(3)The expiration date on the temporary license.

(d)A person holding a temporary genetic counselor license issued pursuant to this section, shall be required to work under the supervision of a licensed genetic counselor or a licensed physician and surgeon.

(e)The department may revoke the temporary license of a genetic counselor licensed pursuant to this section if the person has been convicted of a felony charge that is substantially related to the qualifications, functions, or duties of a genetic counselor. A plea of guilty or nolo contendere to a felony charge shall be deemed a conviction for the purposes of this subdivision.

(f)This section shall become operative on July 1, 2011.

(Amended (as added by Stats. 2010, Ch. 550) by Stats. 2011, Ch. 296, Sec. 180. (AB 1023) Effective January 1, 2012.)

124985.

A violation of any of the provisions of the Hereditary Disorders Act (Section 27) or any of the regulations adopted pursuant to that act shall be punishable as a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124990.

For the purposes of the Hereditary Disorders Act (Section 27), hereditary disorders programs shall include, but not be limited to, all antenatal, neonatal, childhood, and adult screening programs, and all adjunct genetic counseling services.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

124991.

(a)(1)The Birth Defects Monitoring Program, within the State Department of Public Health, shall collect and store any umbilical cord blood samples it receives from hospitals for storage and research. For purposes of ensuring financial stability, the Birth Defects Monitoring Program shall ensure that the following conditions, alone or in combination, are met:

(A)The fees paid by researchers pursuant to subdivision (c) shall be used for, and be sufficient to cover the cost of, collecting and storing blood samples, including umbilical cord blood samples.

(B)The department receives confirmation that a researcher has requested umbilical cord blood samples from the Birth Defects Monitoring Program for research or has requested umbilical cord blood samples to be included within a request for pregnancy or newborn blood samples through the program and has provided satisfactory evidence that adequate funding will be provided to the department from the fees paid by the researcher for the request.

(C)The department receives federal grant moneys to pay for initial startup costs for the collection and storage of umbilical cord blood samples.

(2)The department may limit the number of umbilical cord blood samples the program collects each year.

(b)(1)All information relating to umbilical cord blood samples collected and utilized by the department shall be confidential, and shall be used solely for the purposes of the program, or, if approved by the department, research. Access to confidential information shall be limited to authorized persons who agree, in writing, to maintain the confidentiality of that information. Notwithstanding any other provision of law, when the blood samples specified in subdivision (c), including those samples with any information identifying the person from whom the samples were obtained, are stored, processed, analyzed, or otherwise shared for research purposes with nondepartment staff, those samples may be shared by the program with department-authorized researchers for research purposes, and department representatives approved by the department, subject to the confidentiality and security requirements for confidential information established in this section and in Section 103850.

(2)The department shall maintain an accurate record of all persons who are given confidential information pursuant to this section, and any disclosure of confidential information shall be made only upon written agreement that the information will be kept confidential, used for its approved purpose, and not be further disclosed.

(3)A person who, in violation of a written agreement to maintain confidentiality, discloses information provided pursuant to this section, or who uses information provided pursuant to this section in a manner other than as approved pursuant to this section may be denied further access to confidential information maintained by the department, and shall be subject to a civil penalty not exceeding one thousand dollars ($1,000). The penalty provided in this section does not limit or otherwise restrict a remedy, provisional or otherwise, provided by law for the benefit of the department or a person covered by this section.

(c)In order to implement this section, the department shall establish fees in an amount that shall not exceed the costs of administering the program and the collection and storage of these samples, which the department shall collect from researchers who have been approved by the department and who seek to use the following types of blood samples for research:

(1)Umbilical cord blood.

(2)Pregnancy blood collected by the Genetic Disease Screening Program, and stored by the Birth Defects Monitoring Program.

(3)Newborn blood collected by the Genetic Disease Screening Program.

(d)Fees collected pursuant to subdivision (c) shall be collected by the department and deposited into the Birth Defects Monitoring Program Fund, the Genetic Disease Testing Fund, created pursuant to Section 124996, or the Cord Blood Banking Fund, which is hereby created as a special fund in the State Treasury. The amount of fees deposited into each of these funds shall be based on the program that is providing those pregnancy blood samples, and the purpose for which the blood sample was obtained. Notwithstanding any other provision of law, the moneys in the Birth Defects Monitoring Program Fund, the Genetic Disease Testing Fund, and the Cord Blood Banking Fund that are collected pursuant to subdivision (c), may be used by the department, upon appropriation by the Legislature, for the purposes specified in subdivision (e).

(e) Moneys in those funds shall be used for the costs related to data management, including data linkage and entry, and blood collection, storage, retrieval, processing, inventory, and shipping.

(f)The department shall comply with the existing requirements in the Birth Defects Monitoring Program, as set forth in Chapter 1 (commencing with Section 103825) of Part 2 of Division 102.

(g)The department, any entities approved by the department, and researchers shall maintain the confidentiality of patient information and blood samples in accordance with existing law and in the same manner as other medical record information with patient identification that they possess, and shall use the information only for the following purposes:

(1)Research to identify risk factors for childrensand womensdiseases.

(2)Research to develop and evaluate screening tests.

(3)Research to develop and evaluate prevention strategies.

(4)Research to develop and evaluate treatments.

(h)(1)For purposes of ensuring the security of a donorspersonal information, before any blood samples are released pursuant to this section for research purposes, the State Committee for the Protection of Human Subjects (CPHS) shall determine if all of the following criteria have been met:

(A)The department, contractors, researchers, or other entities approved by the department have provided a plan sufficient to protect personal information from improper use and disclosures, including sufficient administrative, physical, and technical safeguards to protect personal information from reasonable anticipated threats to the security or confidentiality of the information.

(B)The department, contractors, researchers, or other entities approved by the department have provided a sufficient plan to destroy or return all personal information as soon as it is no longer needed for the research activity, unless the program contractors, researchers, or other entities approved by the department have demonstrated an ongoing need for the personal information for the research activity and have provided a long-term plan sufficient to protect the confidentiality of that information.

(C)The department, contractors, researchers, or other entities approved by the department have provided sufficient written assurances that the personal information will not be reused or disclosed to a person or entity, or used in a manner not approved in the research protocol, except as required by law or for authorized oversight of the research activity.

(2)As part of its review and approval of the research activity for the purpose of protecting personal information held in agency databases, CPHS shall accomplish at least all of the following:

(A)Determine whether the requested personal information is needed to conduct the research.

(B)Permit access to personal information only if it is needed for the research activity.

(C)Permit access only to the minimum personal information necessary for the research activity.

(D)Require the assignment of unique subject codes that are not derived from personal information in lieu of social security numbers if the research can be conducted without social security numbers.

(E)If feasible, and if cost, time, and technical expertise permit, require the agency to conduct a portion of the data processing for the researcher to minimize the release of personal information.

(i)In addition to the fees described in subdivision (c), the department may bill a researcher for the costs associated with the departmentsprocess of protecting personal information, including, but not limited to, the departmentscosts for conducting a portion of the data processing for the researcher, removing personal information, encrypting or otherwise securing personal information, or assigning subject codes.

(j)This section does not prohibit the department from using its existing authority to enter into written agreements to enable other institutional review boards to approve research activities, projects or classes of projects for the department, provided that the data security requirements set forth in this section are satisfied.

(Amended by Stats. 2010, Ch. 328, Sec. 137. (SB 1330) Effective January 1, 2011.)

124995.

The following programs shall comply with the regulations established pursuant to the Hereditary Disorders Act, as defined in Section 27:

(a) The California ChildrensServices Program under Article 5 (commencing with Section 123800) of Chapter 3

of Part 2.

(b) Prenatal testing programs for newborns under Sections 125050 to 125065, inclusive.

(c) Medical testing programs for newborns under the Maternal and Child Health Program Act, as defined in Section 27.

(d) Programs of the genetic disease unit under Section 125000.

(e) Child health and disability prevention programs under Article 6 (commencing with Section 124025) of Chapter 3 of Part 2 and Section 120475.

(f) Genetically Handicapped Persons Program under Article 1 (commencing with Section 125125) of Chapter 2.

(g) Medi-Cal Benefits Program under Article 4 (commencing with Section 14131) of Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code.

(Amended by Stats. 2015, Ch. 303, Sec. 352. (AB 731) Effective January 1, 2016.)

124996.

(a) The Genetic Disease Testing Fund is continued in existence as a special fund in the State Treasury. The department may charge a fee for any activities carried out pursuant to the Hereditary Disorders Act, including licensing activities conducted pursuant to Section 124980. All moneys collected by the department under the act shall be deposited in the Genetic Disease Testing Fund, that is continuously appropriated to the department to carry out the purposes of the act.

(b) It is the intent of the Legislature that the program carried out pursuant to the act be fully supported from fees collected under the act.

(c) The director shall adopt regulations establishing the amount of fees for activities carried out pursuant to the act.

(d) The Hereditary Disorders Act or act referred to in this section is the act described in subdivision (b) of Section 27.

(Added by renumbering Section 125005 by Stats. 2000, Ch. 941, Sec. 4. Effective January 1, 2001.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. Genetic Prevention Services [124975 - 125119.5]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2. Newborn Screening [125000 - 125002]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 8.)

125000.

(a)It is the policy of the State of California to make every effort to detect, as early as possible, phenylketonuria and other preventable heritable or congenital disorders leading to intellectual disability or physical defects.

The department shall establish a genetic disease unit, that shall coordinate all programs of the department in the area of genetic disease. The unit shall promote a statewide program of information, testing, and counseling services and shall have the responsibility of designating tests and regulations to be used in executing this program.

The information, tests, and counseling for children shall be in accordance with accepted medical practices and shall be administered to each child born in California once the department has established appropriate regulations and testing methods. The information, tests, and counseling for pregnant women shall be in accordance with accepted medical practices and shall be offered to each pregnant woman in California once the department has established appropriate regulations and testing methods. These regulations shall follow the standards and principles specified in Section 124980. The department may provide laboratory testing facilities or contract with any laboratory that it deems qualified to conduct tests required under this section. However, notwithstanding former Section 125005, provision of laboratory testing facilities by the department shall be contingent upon the provision of funding therefor by specific appropriation to the Genetic Disease Testing Fund enacted by the Legislature. If moneys appropriated for purposes of this section are not authorized for expenditure to provide laboratory facilities, the department may nevertheless contract to provide laboratory testing services pursuant to this section and shall perform laboratory services, including,

but not limited to, quality control, confirmatory, and emergency testing, necessary to ensure the objectives of this program.

(b)The department shall charge a fee for any tests performed pursuant to this section. The amount of the fee shall be established and periodically adjusted by the director in order to meet the costs of this section.

(c)The department shall inform all hospitals or physicians and surgeons, or both, of required regulations and tests and may alter or withdraw any of these requirements whenever sound medical practice so indicates. To the extent practicable, the department shall provide notice to hospitals and other payers in advance of an increase in the fees charged for the program.

(d)This section shall not apply if a parent or guardian of the newborn child objects to a test on the ground that the test conflicts with his or her religious beliefs or practices.

(e)The genetic disease unit is authorized to make grants or contracts or payments to vendors approved by the department for all of the following:

(1)Testing and counseling services.

(2)Demonstration projects to determine the desirability and feasibility of additional tests or new genetic services.

(3)To initiate the development of genetic services in areas of need.

(4)To purchase or provide genetic services from any sums as are appropriated for this purpose.

(f)The genetic disease unit shall evaluate and prepare recommendations on the implementation of tests for the detection of hereditary and congenital diseases, including, but not limited to, biotinidase deficiency and cystic fibrosis. The genetic disease unit shall also evaluate and prepare recommendations on the availability and effectiveness of preventative followup interventions, including the use of specialized medically necessary dietary products.

It is the intent of the Legislature that funds for the support of the evaluations and recommendations required pursuant to this subdivision, and for the activities authorized pursuant to subdivision (e), shall be provided in the annual Budget Act appropriation from the Genetic Disease Testing Fund.

(g)Health care providers that contract with a prepaid group practice health care service plan that annually has at least 20,000 births among its membership, may provide, without contracting with the department, any or all of the testing and counseling services required to be provided under this section or the regulations adopted pursuant thereto, if the services meet the quality standards and adhere to the regulations established by the department and the plan pays that portion of a fee established under this section that is directly attributable to the departmentscost of administering the testing or counseling service and to any required testing or counseling services provided by the state for plan members. The payment by the plan, as provided in this subdivision, shall be deemed to fulfill any obligation the provider or the providerspatient may have to the department to pay a fee in connection with the testing or counseling service.

(h)The department may appoint experts in the area of genetic screening, including, but not limited to, cytogenetics, molecular biology, prenatal, specimen collection, and ultrasound to provide expert advice and opinion on the interpretation and enforcement of regulations adopted pursuant to this section. These experts shall be designated agents of the state with respect to their assignments. These experts shall receive no salary, but shall be reimbursed for expenses associated with the purposes of this section. All expenses of

the experts for the purposes of this section shall be paid from the Genetic Disease Testing Fund.

(Amended by Stats. 2012, Ch. 457, Sec. 33. (SB 1381) Effective January 1, 2013.)

125001.

(a)The department shall establish a program for the development, provision, and evaluation of genetic disease testing, and may provide laboratory testing facilities or make grants to, contract with, or make payments to, any laboratory that it deems qualified and cost effective to conduct testing or with any metabolic specialty clinic to provide necessary treatment with qualified specialists. The program shall provide genetic screening and followup services for persons who have the screening.

(b)The department shall expand statewide screening of newborns to include tandem mass spectrometry screening for fatty acid oxidation, amino acid, organic acid disorders, and congenital adrenal hyperplasia as soon as possible. The department shall provide information with respect to these disorders and available testing resources to all women receiving prenatal care and to all women admitted to a hospital for delivery. If the department is unable to provide this statewide screening by August 1, 2005, the department shall temporarily obtain these testing services through a competitive bid process from one or more public or private laboratories that meet the departmentsrequirements for testing, quality assurance, and reporting. If the department determines that contracting for these services is more cost effective, and meets the other requirements of this chapter, than purchasing the tandem mass spectrometry equipment themselves, the department shall contract with one or more public or private laboratories.

(c)The department shall expand statewide screening of newborns to include screening for severe combined immunodeficiency (SCID) as soon as possible. In implementing the SCID screening test, the department shall also screen for other T-cell lymphopenias that are detectable as a result of screening for SCID, insofar as it does not require additional costs or equipment beyond that needed to test for SCID.

(d)The department shall expand statewide screening of newborns to include screening for adrenoleukodystrophy (ALD) and any other disease that is detectable in blood samples as soon as practicable, but no later than two years after the disease is adopted by the federal Recommended Uniform Screening Panel (RUSP), or enrollment of the act amending this subdivision, whichever is later.

(Amended by Stats. 2016, Ch. 393, Sec. 2. (SB 1095) Effective January 1, 2017.)

125002.

(a)In order to align closely related programs and in order to facilitate research into the causes of, and treatment for, birth defects, the Birth Defects Monitoring Program provided for pursuant to Chapter 1 (commencing with Section 103825) of Part 2 of Division 102 shall become part of the Maternal, Child, and Adolescent Health program provided for in Article 1 (commencing with Section 123225) of Chapter 1 of Part 2 of Division 106.

(b)It is the intent of the Legislature that pregnancy blood samples, taken for prenatal screening, shall be stored and made available to any researcher who is approved by the department for the following purposes:

(1)Research to identify risk factors for childrensand womensdiseases.

(2)Research to develop and evaluate screening tests.

(3)Research to develop and evaluate prevention strategies.

(4)Research to develop and evaluate treatments.

(c)Before any pregnancy blood samples are released for research purposes, all of the following conditions must be met:

(1)Individual consent at the time the sample is drawn to allow confidential use of the sample for research purposes by the department or the departmentsapproved researchers.

(2)Protocol review for scientific merit by the department or another entity authorized by the department.

(3)Protocol review by the State Committee for the Protection of Human Subjects.

(d)Since the pregnancy blood samples described in this section will be stored by the California Birth Defects Monitoring Program or another entity authorized by the department, the storage, analysis, and sharing of pregnancy blood samples for research purposes shall be done in compliance with Section 103850, pertaining to confidentiality of information.

(e)The department shall adopt regulations specifying the protocols and conditions under which blood samples will be released for research purposes, in accordance with the procedures set forth in subdivision (d) of Section 124977.

(f)Until such time that regulations are adopted by the department pursuant to subdivision (e), the Genetic Disease Screening Program and the Birth Defects Monitoring Program shall release blood samples to only those researchers who meet the requirements of this section, including all of the following:

(1)The research project was approved by the State Committee for the Protection of Human Subjects.

(2)The research projectsprotocol was approved by the State Committee for the Protection of Human Subjects, and specifically included a description of the number and type of blood samples requested from the Genetic Disease Screening Program or the Maternal, Child, and Adolescent Health Program, including the Birth Defects Monitoring Program for the project.

(3)There is written documentation that the Genetic Disease Screening Program or the Maternal, Child, and Adolescent Health Program, including the Birth Defects Monitoring Program, approved a request for the blood samples for the research project approved by the State Committee for the Protection of Human Subjects.

(4)The researcher has agreed to pay fees to the department to pay reasonable costs for processing the samples and information, including, but not limited to, costs of data management, including data linkage and entry, and costs of blood collection, storage, retrieval, inventory, and shipping.

(g)Subdivision (f) shall become inoperative on the date that the department adopts regulations specifying the protocols and conditions for release of the blood samples for research purposes.

(Amended by Stats. 2008, Ch. 680, Sec. 3. Effective January 1, 2009.)

Codes Display Text

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. Genetic Prevention Services [124975 - 125119.5]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 3. Sickle Cell Anemia [125025 - 125035]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 8.)

125025.

It is the policy of the State of California to make every effort to detect, as early as possible, sickle cell anemia, a heritable disorder that leads to physical defects.

The department shall have the responsibility of designating tests and regulations to be used in executing this policy. These tests shall be in accordance with accepted medical practices.

Testing for sickle cell anemia may be conducted at the following times:

(a) Upon first enrollment of a child at an elementary school in this state, the child may be tested.

(b) For any child not tested pursuant to subdivision (a), upon first enrollment at a junior high school or senior

high school in this state, as the case may be, the child may be tested.

(c) Upon application of any person for a license to marry, the parties seeking to be married may be tested.

(d) At any other times that the department may designate.

This section shall not apply if a parent or guardian of a minor child sought to be tested or any adult sought to be tested objects to the test on the ground that the test conflicts with his or her religious beliefs or practices.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125030.

The department may require that a test be given for sickle cell anemia pursuant to Section 125025 to any identifiable segment of the population that the department determines is susceptible to sickle cell anemia at a disproportionately higher ratio than is the balance of the population.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125035.

The department is authorized to make grants or contracts for demonstration projects to determine the feasibility of alternate methods of testing for sickle cell anemia, to provide counseling services, to evaluate the social consequences of the identification of sickle cell trait carriers, to provide training in genetic counseling, and to conduct research on the prevention of sickle cell anemia.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. Genetic Prevention Services [124975 - 125119.5]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 4. Prenatal Testing [125050 - 125119.5]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 8.)

125050.

The department shall administer a statewide program for the prenatal testing for genetic disorders and birth defects, including, but not limited to, ultrasound, amniocentesis, chorionic villus sampling, and blood testing for genetic disorders and birth defects.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125055.

The department shall:

(a)Establish criteria for eligibility for the prenatal testing program. Eligibility shall include definition of conditions and circumstances that result in a high risk of a detectable genetic disorder or birth defect.

(b)(1)Develop an education program designed to educate physicians and surgeons and the public concerning the uses of prenatal testing and the availability of the program.

(2)(A)Include information regarding environmental health in the California Prenatal Screening Program patient educational information. This environmental health information shall include the following statement:

We encounter chemicals and other substances in everyday life that may affect your developing fetus. Fortunately, there are steps you can take to reduce your exposure to these potentially harmful substances at home, in the workplace, and in the environment. Many Californians are unaware that a number of everyday consumer products may pose potential harm. Prospective parents should talk to their doctor and are encouraged to read more about this topic to learn about simple actions to promote a healthy pregnancy.□

(B)The department shall include in the patient educational information links to educational materials derived from peer-reviewed materials based on the best available evidence relating to environmental health and

reproductive toxins.

(C)The department shall post the environmental health information described in subparagraphs (A) and (B) on its Internet Web site.

(D)The department shall send a notice to all distributors of the patient educational information informing them of the change to that information. In the notice, the department shall encourage obstetrician-gynecologists and midwives to discuss environmental health with their patients and to direct their patients to the appropriate page or pages in the patient educational information to provide their patients with additional information.

(E)In order to minimize costs, the environmental health information described in this paragraph shall be included when the patient educational information is otherwise revised and reprinted.

(F)The department may modify the language in the patient educational information after consultation with medical and scientific experts in the field of environmental health and reproductive toxins.

(c)Ensure that genetic counseling be given in conjunction with prenatal testing at the approved prenatal diagnosis centers.

(d)Designate sufficient prenatal diagnosis centers to meet the need for these services. Prenatal diagnosis centers shall have equipment and staff trained and capable of providing genetic counseling and performing prenatal diagnostic procedures and tests, including the interpretation of the results of the procedures and tests.

(e)Administer a program of subsidy grants for approved nonprofit prenatal diagnosis centers. The subsidy grants shall be awarded based on the reported number of low-income women referred to the center, the number of prenatal diagnoses performed in the previous year at that center, and the estimated size of unmet need for prenatal diagnostic procedures and tests in its service area. This subsidy shall be in addition to fees collected under other state programs.

(f)Establish any rules, regulations, and standards for prenatal diagnostic testing and the allocation of subsidies as the director deems necessary to promote and protect the public health and safety and to implement the Hereditary Disorders Act (Section 27).

(g)(1)The department shall expand prenatal screening to include all tests that meet or exceed the current standard of care as recommended by nationally recognized medical or genetic organizations, including, but not limited to, inhibin.

(2)The prenatal screening fee increase for expanding prenatal screening to include those tests described in paragraph (1) is forty dollars ($40).

(3)The department shall report to the Legislature regarding the progress of the program with regard to implementing prenatal screening for those tests described in paragraph (1) on or before July 1, 2007. The report shall include the costs of screening, followup, and treatment as compared to costs and morbidity averted by this testing under the program.

(4)(A)The expenditure of funds from the Genetic Disease Testing Fund for the expansion of the Genetic Disease Branch Screening Information System to include the expansion of prenatal screenings, pursuant to paragraph (1), may be implemented through the amendment of the Genetic Disease Branch Screening Information System contracts, and shall not be subject to Chapter 2 (commencing with Section 10290) or

Chapter 3 (commencing with Section 12100) of Part 2 of Division 2 of the Public Contract Code, Article 4 (commencing with Section 19130) of Chapter 5 of Part 2 of Division 5 of Title 2 of the Government Code, or Sections 4800 to 5180, inclusive, of the State Administrative Manual as they relate to approval of information technology projects or approval of increases in the duration or costs of information technology projects. This paragraph shall apply to the design, development, and implementation of the expansion, and to the maintenance and operation of the Genetic Disease Branch Screening Information System, including change requests, once the expansion is implemented.

(B)(i)The department may adopt emergency regulations to implement and make specific the amendments to this section made during the 2006 portion of the 2005"06 Regular Session in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For the purposes of the Administrative Procedure Act, the adoption of regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these emergency regulations shall not be subject to the review and approval of the Office of Administrative Law. Notwithstanding Sections 11346.1 and 11349.6 of the Government Code, the department shall submit these regulations directly to the Secretary of State for filing. The regulations shall become effective immediately upon filing by the Secretary of State. Regulations shall be subject to public hearing within 120 days of filing with the Secretary of State and shall comply with Sections 11346.8 and 11346.9 of the Government Code or shall be repealed.

(ii)The Office of Administrative Law shall provide for the printing and publication of these regulations in the California Code of Regulations. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the regulations adopted pursuant to this chapter shall not be repealed by the Office of Administrative Law and shall remain in effect until revised or repealed by the department.

(Amended by Stats. 2013, Ch. 667, Sec. 1. (SB 460) Effective January 1, 2014.)

125060.

The participation by any individual in the prenatal testing program shall be wholly voluntary and shall not be a prerequisite to eligibility for, or receipt of, any other service or assistance from, or to participation in, any other program.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125065.

All prenatal diagnosis centers shall meet standards developed by the department and shall agree to accept patients from state funded or administered programs, including, but not limited to, Medi-Cal, Regional Centers, Maternal and Child Health, California ChildrensServices, Genetically Handicapped Persons Program, and Family Planning. Only prenatal diagnosis centers meeting standards developed by the department shall be eligible for reimbursement under these state programs.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125070.

Laboratories licensed by the department shall not offer the maternal serum-alpha fetoprotein screening test for prenatal detection of neural tube defects of the fetus until the department has developed regulations, under the authorization granted by Section 124980. However, laboratories providing this testing, as of July 21, 1983, may continue to provide this testing until these regulations become operative. The department shall adopt regulations pursuant to this section.

(Amended by Stats. 1998, Ch. 310, Sec. 26. Effective August 19, 1998.)

125080.

A licensed physician and surgeon or other person engaged in the prenatal care of a pregnant woman or attending the woman at the time of delivery shall obtain or cause to be obtained a blood specimen of the woman. Prior to obtaining the blood specimen, the woman shall be notified of the fact that the blood specimen is going to be obtained. If the blood specimen is not obtained prior to delivery, it shall be obtained at the time of delivery.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125085.

(a) As early as possible during prenatal care, a blood specimen obtained pursuant to Section 125080 shall be submitted to a clinical laboratory licensed by the department or to an approved public health laboratory for a determination of rhesus (Rh) blood type and the results shall be reported to both of the following:

(1) The physician and surgeon or other person engaged in the prenatal care of the woman or attending the woman at the time of delivery.

(2) The woman tested.

(b) (1) In addition, as early as possible during prenatal care, a blood specimen obtained pursuant to Section 125080 shall be submitted to a clinical laboratory licensed by the department or to an approved public health laboratory for a test to determine the presence of hepatitis B surface antigen and the human immunodeficiency virus (HIV), and the results shall be reported to both of the following:

(A) The physician and surgeon or other person engaged in the prenatal care of the women or attending the woman at the time of delivery who ordered the test, and who shall subsequently inform the woman tested.

(B) A positive test result shall be reported to the local health officer, with the information required and within the timeframes established by the department, pursuant to Chapter 4 (commencing with Section 2500) of Title 17 of the California Code of Regulations.

(2) In the event that other tests to determine hepatitis B infection or HIV infection become available, the department may approve additional tests.

(Amended by Stats. 2003, Ch. 749, Sec. 2. Effective January 1, 2004.)

125090.

(a)Subdivision (a) of Section 125085 shall not be applicable if the licensed physician and surgeon or other person engaged in the prenatal care of a pregnant woman or attending the woman at the time of delivery has knowledge of the womansblood type and accepts responsibility for the accuracy of the information.

(b)Subdivision (b) of Section 125085 shall not be applicable if the licensed physician and surgeon or other person engaged in the prenatal care of a pregnant woman or attending the woman at the time of delivery has knowledge that the woman has previously been determined to be chronically infected with hepatitis B or human immunodeficiency virus (HIV) and accepts responsibility for the accuracy of the information.

(c)Prior to obtaining a blood specimen collected pursuant to subdivision (b) of Section 125085 or this section, the physician and surgeon or other person engaged in the prenatal care of a pregnant woman, or attending the woman at the time of labor or delivery, shall ensure that the woman is informed of the intent to perform a test for HIV infection, the routine nature of the test, the purpose of the testing, the risks and benefits of the test, the risk of perinatal transmission of HIV, that approved treatments are known to decrease the risk of perinatal transmission of HIV, and that the woman has a right to decline this testing.

(d)If, during the final review of standard of prenatal care medical tests, the medical records of the pregnant woman do not document a test for rhesus (Rh) antibody blood type, a test for hepatitis B, or a test for HIV, the physician and surgeon or other person engaged in the prenatal care of the woman, or attending the woman at the time of labor or delivery, shall obtain a blood specimen from the woman for the tests that have not been documented. Prior to obtaining this blood specimen, the provider shall ensure that the woman is informed of the intent to perform the tests that have not been documented prior to this visit, including a test for HIV infection, the routine nature of the test, the purpose of the testing, the risks and benefits of the test, the risk of perinatal transmission of HIV, that approved treatments are known to decrease the risk of perinatal transmission of HIV, and that the woman has a right to decline the HIV test. The blood shall be tested by a method that will ensure the earliest possible results, and the results shall be reported to both of the following:

(1)The physician and surgeon or other person engaged in the prenatal care of the woman or attending the woman at the time of delivery.

(2)The woman tested.

(e)After the results of the tests done pursuant to this section and Section 125085 have been received, the physician and surgeon or other person engaged in the prenatal care of the pregnant woman or attending the woman at the time of labor, delivery, or post partum care at the time the results are received shall ensure that the woman receives information and counseling, as appropriate, to explain the results and the implications for the mothersand infantshealth, including any followup testing and care that are indicated. If the woman tests positive for HIV antibodies, she shall also receive, whenever possible, a referral to a provider, provider group, or institution specializing in prenatal and post partum care for HIV-positive women and their infants. Health care providers are also strongly encouraged to seek consultation with HIV specialists who provide care for pregnant and post partum HIV-positive women and their infants.

(f)The provisions of Section 125107 for counseling are equally applicable to every pregnant patient covered

by subdivisions (c) and (d).

(g)Nothing in this section shall be construed to permit a licensed physician and surgeon or other person engaged in the prenatal care of a pregnant woman or attending the woman at the time of delivery to unlawfully disclose an individualsHIV status, or to otherwise violate provisions of Section 54 of the Civil Code, the Americans With Disabilities Act of 1990 (Public Law 101-336), or the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2 of the Government Code), which prohibit discrimination against individuals who are living with HIV, or who test positive for HIV, or are presumed to be HIV-positive.

(Amended by Stats. 2007, Ch. 550, Sec. 3. Effective January 1, 2008.)

125092.

The department, in consultation with the Office of AIDS and with other stakeholders, including, but not limited to, representatives of professional medical and public health advocacy groups, providers of health care to women and infants infected with or exposed to HIV, and women living with HIV, shall develop culturally sensitive informational material adequate to fulfill the requirements of subdivisions (c) and (d) of Section 125090, in English, Spanish, and other languages used by the department when providing information to clients under the Medi-Cal program. This material shall also include information on available referral and consultation resources of experts in prenatal HIV treatment. This material shall be completed by December 31, 2004.

(Added by Stats. 2003, Ch. 749, Sec. 4. Effective January 1, 2004.)

125095.

The department may adopt regulations as it determines are reasonably necessary for the implementation of the Maternal and Child Health Program Act (Section 27).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125100.

(a) Clinical laboratories licensed by the department, approved public health laboratories, local health departments, physicians and surgeons, or other persons engaged in the prenatal care of a pregnant woman or in the care of an infant shall maintain and make available to the department information necessary to evaluate, for public health purposes, the effectiveness of testing and followup treatment for the prevention of perinatally transmitted hepatitis B infection.

(b) The department shall make available, to the extent state funds are appropriated therefor in the annual Budget Act or federal funds are available for that purpose, money to each county requesting funds for testing and followup treatment for the prevention of perinatally transmitted hepatitis B infection or for any functions performed pursuant to subdivision (a). The money shall be allocated by the department on the basis of the incidence of perinatally transmitted hepatitis B infection and the need for necessary followup

treatment and evaluation in the requesting county.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125105.

(a) The blood specimen and test results pursuant to subdivision (b) of Section 125085 shall be confidential and shall not be disclosed, except as otherwise provided by law.

(b) No person shall be compelled in any state, county, city, or other local civil, criminal, administrative, legislative, or other proceeding to provide test results determined pursuant to Section 125080 and Section 125085.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125107.

(a)For purposes of this section, prenatal care provider means a licensed health care professional providing prenatal care within his or her lawful scope of practice. This definition shall not include a licensed health care professional who provides care other than prenatal care to a pregnant patient.

(b)The prenatal care provider primarily responsible for providing prenatal care to a pregnant patient shall offer human immunodeficiency virus (HIV) information and counseling to every pregnant patient. This information and counseling shall include, but shall not be limited to, all of the following:

(1)A description of the modes of HIV transmission.

(2)A discussion of risk reduction behavior modifications including methods to reduce the risk of perinatal transmission.

(3)If appropriate, referral information to other HIV prevention and psychosocial services including anonymous and confidential test sites approved by the Office of AIDS.

(c)Nothing in this section shall be construed to require mandatory testing. Any documentation or disclosure of HIV-related information shall be made in accordance with Chapter 7 (commencing with Section 120975) of Part 4 of Division 105 regarding confidentiality and informed consent.

(d)Nothing in this section shall be construed to permit a prenatal care provider to unlawfully disclose an individualsHIV status, or to otherwise violate provisions of Section 54 of the Civil Code, or the Americans With Disabilities Act of 1990 (Public Law 101-336), or the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2 of the Government Code), which prohibit discrimination against individuals who are living with HIV, or who test positive for HIV, or are presumed to be HIV-positive.

(Amended by Stats. 2007, Ch. 550, Sec. 4. Effective January 1, 2008.)

125110.

The Maternal and Child Health Program Act (Section 27) shall not apply if the pregnant woman objects to the test required by that act on the ground that the test conflicts with her religious beliefs or practices.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125118.

(a)The State Department of Public Health shall develop guidelines for research involving the derivation or use of human embryonic stem cells in California.

(b)In developing the guidelines specified in subdivision (a), the department may consider other applicable guidelines developed or in use in the United States and in other countries, including, but not limited to, the Guidelines for Research Using Human Pluripotent Stem Cells developed by the National Institutes of Health and published in August 2000, and corrected in November 2000, and the Guidelines for Human Embryonic Stem Cell Research issued by the National Research Council and Institute of Medicine of the National Academies in 2005.

(Amended by Stats. 2007, Ch. 483, Sec. 33. Effective January 1, 2008.)

125119.

(a)(1)All research projects involving the derivation or use of human embryonic stem cells shall be reviewed and approved by a stem cell research oversight committee prior to being undertaken. Any stem cell research oversight committee shall, in its review of human embryonic stem cell research projects, consider and apply the guidelines developed by the department pursuant to Section 125118. A stem cell research oversight committee may require modifications to the plan or design of a proposed human embryonic stem cell research project as a condition of approving the research project.

(2)A stem cell research oversight committee for purposes of this article shall be established substantially in accordance with Guidelines for Human Embryonic Stem Cell Research issued by the National Research Council and the Institute of Medicine of the National Academies in 2005. This committee shall be established in accordance with standards issued by the California Institute for Regenerative Medicine (CIRM) as authorized by Article XXXV of the California Constitution. The intent of the Legislature is to avoid inconsistencies for stem cell research oversight committees established pursuant to this article with other existing standards for research conducted in California.

(b)Not less than once per year, a stem cell research oversight committee shall conduct continuing review of human embryonic stem cell research projects reviewed and approved under this section in order to ensure that the research continues to meet the standards for stem cell research oversight committee approval. Pursuant to its review in accordance with this subdivision, a stem cell research oversight committee may revoke its prior approval of research under this section and require modifications to the plan or design of a continuing research project before permitting the research to continue.

(c)A stem cell research oversight committee may provide scientific and ethical review of research consistent

with this article.

(Amended by Stats. 2006, Ch. 483, Sec. 3. Effective January 1, 2007.)

125119.3.

(a)Each stem cell research oversight committee that has reviewed human embryonic stem cell research pursuant to Section 125119 shall report to the department, annually, on the number of human embryonic stem cell research projects that the stem cell research oversight committee has reviewed, and the status and disposition of each of those projects, including the information collected pursuant to Section 125342.

(b)Each stem cell research oversight committee shall also report to the department regarding unanticipated problems, unforeseen issues, or serious continuing investigator noncompliance with the requirements or determinations of the stem cell research oversight committee with respect to the review of human embryonic stem cell research projects, and the actions taken by the stem cell research oversight committee to respond to these situations.

(Amended by Stats. 2006, Ch. 483, Sec. 4. Effective January 1, 2007.)

125119.5.

(a)The department shall at least annually review reports from stem cell research oversight committees, and may revise the guidelines developed pursuant to Section 125118, as it deems necessary.

(b) The department shall provide a biennial review to the Legislature on human embryonic stem cell research activity. These biennial reviews shall be compiled from the reports from stem cell research oversight committees.

(Amended by Stats. 2006, Ch. 483, Sec. 5. Effective January 1, 2007.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Genetic Disease Services [125125 - 125286.35]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 1. Genetically Handicapped Persons Program [125125 - 125191]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 8.)

125125.

This article shall be known and may be cited as the Holden-Moscone-Garamendi Genetically Handicapped Persons Program.

(Amended by Stats. 2015, Ch. 303, Sec. 353. (AB 731) Effective January 1, 2016.)

125130.

(a)The Director of Health Care Services shall establish and administer a program for the medical care of persons with genetically handicapping conditions, including cystic fibrosis, hemophilia, sickle cell disease, Huntingtonsdisease, FriedreichsAtaxia, Josephsdisease, Von Hippel-Landau syndrome, and the following hereditary metabolic disorders: phenylketonuria, homocystinuria, branched chain amino acidurias, disorders of propionate and methylmalonate metabolism, urea cycle disorders, hereditary orotic aciduria, WilsonsDisease, galactosemia, disorders of lactate and pyruvate metabolism, tyrosinemia, hyperornithinemia, and other genetic organic acidemias that require specialized treatment or service available from only a

limited number of program-approved sources.

(b)The program shall also provide access to social support services, that may help ameliorate the physical, psychological, and economic problems attendant to genetically handicapping conditions, in order that the genetically handicapped person may function at an optimal level commensurate with the degree of impairment.

(c)The medical and social support services may be obtained through physicians and surgeons Genetically Handicapped Persons Program specialized centers, and other providers that qualify pursuant to the regulations of the department to provide the services. Medical care, as used in this section, is limited to noncustodial medical and support services.

(d)The director shall adopt regulations that are necessary for the implementation of this article.

(Amended by Stats. 2015, Ch. 303, Sec. 354. (AB 731) Effective January 1, 2016.)

125135.

As used in this article, genetically handicapping condition shall mean a disease that is accepted as being genetic in origin by the American Society of Human Genetics.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125140.

The program established under this article shall include any or all of the following medical and social support services:

(a) Initial intake and diagnostic evaluation.

(b) The cost of blood transfusion and use of blood derivatives, or both.

(c) Rehabilitation services, including reconstructive surgery.

(d) Expert diagnosis.

(e) Medical treatment.

(f) Surgical treatment.

(g) Hospital care.

(h) Physical and speech therapy.

(i) Occupational therapy.

(j) Special treatment.

(k) Materials.

(l) Appliances and their upkeep, maintenance, and care.

(m) Maintenance, transportation, or care incidental to any other form of services.

(n) Respite care or other existing resources (e.g., sheltered workshops).

(o) Genetic and long-term psychological counseling.

(p) Appropriate administrative staff resources to carry out this article. The staff shall include, but not be limited to, at least one case manager per each 350 clients.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125150.

The director shall establish the rate structure for reimbursement of physicians and supportive services. The rates shall not be less than the amounts paid for provider services under the Medi-Cal Act (Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125155.

Reimbursement under this article shall not be made for any services that are available to the recipient under any other private, state, or federal programs or under other contractual or legal entitlements, except for those instances where the department determines that prolonged use of employer health insurance would jeopardize the recipientsemployment. However, no provision in this article shall be construed as limiting in any way state participation in any federal governmental program for medical care of persons with genetically handicapping conditions.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125155.1.

(a)Any person found eligible for services under this article whose employer-sponsored health coverage is later terminated or any person who applied for services provided under this article whose employer-sponsored health coverage was terminated during the six-month period prior to the date he or she applied for services pursuant to this article shall be determined ineligible for the services, unless the reason his or her employer-sponsored health coverage was terminated was because of one of the following:

(1)The individual for whom the employer-sponsored coverage had been available lost coverage because of one or more of the following reasons:

(A)A loss of employment or a change in employment status.

(B)A change of address to a ZIP Code that is not covered by the employer-sponsored health coverage.

(C)The individualsemployer discontinued health benefits to all employees or dependents, or ceased to provide coverage or contributions for the category of employees or dependents applicable to the person or applicant.

(D)The death of, or a legal separation or divorce from, the individual through whom the applicant was covered.

(2)The applicantsemployer-sponsored health coverage became unavailable because the services paid for under that coverage attained the lifetime coverage limit.

(3)Coverage was under a COBRA policy and the COBRA coverage period has ended.

(b)A person who applies for services provided pursuant to this article shall certify, at the time of application, under penalty of perjury, that he or she was not covered by employer-sponsored health coverage during the six-month period prior to the date of his or her application or, if he or she was covered by employer-sponsored health coverage, attest to why one of the reasons listed in subdivision (a) is applicable to him or her and provide documentation from the employer-sponsored health coverage that supports his or her attestation.

(c)A person who has been found eligible for services provided pursuant to this article who is covered by employer-sponsored health coverage that is terminated shall notify the Genetically Handicapped Persons Program within 45 days of the effective date of the termination and, when applicable, provide the program with the certification described in subdivision (b).

(d)An applicant or eligible person who fails to comply with subdivisions (b) and (c) shall be ineligible for services pursuant to this article for six months. The department shall provide written notice to all persons found to be ineligible pursuant to this section. The notice shall provide information on the ability of the person to appeal or seek a waiver of determinations of ineligibility.

(e)The department shall provide a process to appeal decisions of ineligibility based on this section in accordance with the procedures for resolution of complaints and appeals established for applicants and persons eligible for services pursuant to Article 5 (commencing with Section 123800) of Chapter 3 of Part 2.

(f)The director, on a case-by-case basis, may waive determinations of ineligibility pursuant to this section, or reduce the time periods set forth in subdivision (a) or subdivision (d), if the director determines that the determination or the time periods will result in undue hardship.

(g)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department may implement this section by means of Genetically Handicapped Persons Program policy letters. Following consultation with a stakeholder workgroup consisting of, but not limited to, provider associations, provider representatives, and consumer groups to ensure stakeholder participation in the implementation of this section, including, but not limited to, any changes deemed necessary by the department and the stakeholder workgroup to update the application for enrollment form and the development of regulations, the department shall, within 18 months from the effective date of this section, adopt any necessary regulations in accordance with the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 2009, 4th Ex. Sess., Ch. 5, Sec. 14. Effective July 28, 2009.)

125157.

(a)The department may require a client under this article to apply to enroll or otherwise participate in any other state or federal program or other contractual or legal entitlement that would provide services to the client that would otherwise be reimbursed pursuant to this article.

(b)The department may, when it determines that it is cost effective, pay the premium for, or otherwise subsidize the subscriber cost-sharing obligation for, third-party health coverage for a person eligible for services under this article.

(c)The department may, for a person eligible for services under this article, when the personsthird-party health coverage would lapse due to loss of employment, change in health status, lack of sufficient income or financial resources, or any other reason, continue the health coverage by paying the costs of continuation of group coverage pursuant to federal law or converting from a group to individual plan, when the department determines that it is cost effective.

(d)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department may implement this section by means of Genetically Handicapped Persons Program policy letters. Following consultation with a stakeholder workgroup consisting of, but not limited to, provider associations, provider representatives, and consumer groups to ensure stakeholder participation in the implementation of this section, including, but not limited to, any changes deemed necessary by the department and the stakeholder workgroup to update the application for enrollment form and the development of regulations, the department shall, within 18 months from the effective date of this section, adopt any necessary regulations in accordance with the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 2009, 4th Ex. Sess., Ch. 5, Sec. 15. Effective July 28, 2009.)

125160.

The department shall receive and expend all funds made available to it by the federal government, the state, its political subdivisions or from other sources for the purposes of this article. Payment for the Genetically Handicapped Persons Program shall be made by the department.

(Amended by Stats. 2015, Ch. 303, Sec. 355. (AB 731) Effective January 1, 2016.)

125166.

(a)Commencing July 1, 2009, except as provided in subdivision (d), each client determined or redetermined by the department to be eligible for services provided pursuant to this article shall pay an annual enrollment fee to the department as set forth in this section.

(b)(1) There shall be an annual enrollment fee based on the clientsadjusted gross income or, if the client is a minor, the clientsparents™ or legal guardians™ combined adjusted gross income, as reported on the relevant state or federal income tax forms for the previous tax year. In calculating the enrollment fee where both a state and a federal income tax form has been filed, the higher of the two adjusted gross income amounts shall be used.

(2)For adjusted gross income between 200 and 299 percent of the federal poverty level, the annual enrollment fee shall be 1.5 percent of adjusted gross income.

(3)For adjusted gross income equal to or greater than 300 percent of the federal poverty level, the annual enrollment fee shall be 3 percent of adjusted gross income.

(4)In the event the annual enrollment fee determined pursuant to paragraph (2) or (3) exceeds the cost of care incurred during the applicable year, the department shall reduce the enrollment fee by refund or credit to an amount equal to the cost of care.

(c)(1) Payment of the enrollment fee is a condition of program participation.

(2)The department may arrange for periodic payment of the fee during the year.

(3)The director, on a case-by-case basis, may waive or reduce the amount of an enrollment fee if the director determines payment of the fee will result in undue hardship for the family. Otherwise, failure to pay or arrange for payment of the enrollment fee within 60 days of the due date shall result in disenrollment and ineligibility for coverage of treatment services effective 60 days after the due date of the fee.

(d)The enrollment fee shall not be charged in the following cases:

(1)The client is eligible for the full scope of Medi-Cal benefits, without being required to pay a share of cost, at the time of enrollment fee determination.

(2)The client who is otherwise eligible to receive services has, or if the client is a minor, the clientsparents or guardians have, an adjusted gross income of less than 200 percent of the federal poverty level.

(e)All enrollment fees shall be used in support of the program for services provided pursuant to this article.

(f)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department may implement this section by means of Genetically Handicapped Persons Program policy letters. Following consultation with a stakeholder workgroup consisting of, but not limited to, provider associations, provider representatives, and consumers groups to ensure stakeholder participation in the implementation of this section, including, but not limited to, any changes to update the application for enrollment form and the development of regulations, the department shall, within 18 months from the effective date of this section, adopt regulations in accordance with the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 2009, 4th Ex. Sess., Ch. 5, Sec. 17. Effective July 28, 2009.)

125170.

The department shall maintain sufficient, appropriate staff to carry out this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125175.

The health care benefits and services specified in this article, to the extent that the benefits and services are neither provided under any other federal or state law nor provided nor available under other contractual or legal entitlements of the person, shall be provided to any patient who is a resident of this state and is made eligible by this article. After the patient has utilized the contractual or legal entitlements, the payment liability under Section 125166 shall then be applied to the remaining cost of genetically handicapped persons™ services.

(Amended by Stats. 2015, Ch. 303, Sec. 356. (AB 731) Effective January 1, 2016.)

125180.

The department shall require all applicants to the program who may be eligible for cash grant public assistance or for Medi-Cal to apply for Medi-Cal eligibility prior to becoming eligible for funded services.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125185.

(a)(1)By July 1, 2016, or a subsequent date determined by the department, Genetically Handicapped Persons Program (GHPP) requests for authorization of services, excluding requests for authorization of services submitted by dental providers enrolled in the Medi-Cal Dental program, shall be submitted in an electronic format determined by the department and shall be submitted via the departmentsInternet Web site or other electronic means designated by the department. The department may implement this requirement in phases.

(2)The department shall designate an alternate format for submitting requests for authorization of services when the departmentsInternet Web site or other electronic means designated in paragraph (1) are unavailable due to a system disruption.

(b)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department may, without taking regulatory action, implement, interpret, or make specific this section and any applicable waivers and state plan amendments by means of all-county letters, plan letters, plan or provider bulletins, or similar instructions. Thereafter, the department shall adopt regulations by July 1, 2017, in accordance with the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The department shall consult with interested parties and appropriate stakeholders in implementing this section.

(Added by Stats. 2014, Ch. 849, Sec. 2. (SB 1457) Effective January 1, 2015.)

125190.

Notwithstanding any other law, the department is considered to be the purchaser, but not the dispenser or distributor, of blood factor products under the Genetically Handicapped Persons Program. The department may receive manufacturers™ discounts, rebates, or refunds based on the quantities purchased under the Genetically Handicapped Persons Program. The discounts, rebates, or refunds received pursuant to this section shall be separate from any agreements for discounts, rebates, or refunds negotiated pursuant to Section 14105.3 of the Welfare and Institutions Code or any other program.

(Amended by Stats. 2015, Ch. 303, Sec. 357. (AB 731) Effective January 1, 2016.)

125191.

(a)The department may enter into contracts with one or more manufacturers on a negotiated or bid basis as the purchaser, but not the dispenser or distributor, of factor replacement therapies under the Genetically Handicapped Persons Program for the purpose of enabling the department to obtain the full range of available therapies and services required for clients with hematological disorders at the most favorable price and to enable the department, notwithstanding any other state law, to obtain discounts, rebates, or refunds from the manufacturers based upon the large quantities purchased under the program. This subdivision does not interfere with the usual and customary distribution practices of factor replacement therapies. In order to achieve maximum cost savings, the Legislature hereby determines that an expedited contract process under this section is necessary. Therefore, a contract under this subdivision may be entered into on a negotiated basis and is exempt from Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code and Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code. Contracts entered pursuant to this subdivision shall be confidential and shall be exempt from disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(b)(1)Factor replacement therapy manufacturers shall calculate and pay interest on late or unpaid rebates. The interest does not apply to any prior period adjustments of unit rebate amounts or department utilization adjustments. Manufacturers shall calculate and pay interest on late or unpaid rebates for quarters that begin on or after the effective date of the act that added this subdivision.

(2)Following the final resolution of any dispute regarding the amount of a rebate, any underpayment by a manufacturer shall be paid with interest calculated pursuant to paragraph (4), and any overpayment, together with interest at the rate calculated pursuant to paragraph (4), shall be credited by the department against future rebates due.

(3)Interest pursuant to paragraphs (1) and (2) shall begin accruing 38 calendar days from the date of mailing the invoice, including supporting utilization data sent to the manufacturer. Interest shall continue to accrue until the date of mailing of the manufacturerspayment.

(4)Interest rates and calculations pursuant to paragraphs (1) and (2) shall be identical to interest rates and calculations set forth in the federal Centers for Medicare and Medicaid Services™ Medicaid Drug Rebate Program Releases or regulations.

(c)If the department has not received a rebate payment, including interest, within 180 days of the date of mailing of the invoice, including supporting utilization data, a factor replacement therapy manufacturerscontract with the department shall be deemed to be in default and the contract may be

terminated in accordance with the terms of the contract. This subdivision does not limit the departmentsright to otherwise terminate a contract in accordance with the terms of that contract.

(d)The department may enter into contracts on a bid or negotiated basis with manufacturers, distributors, dispensers, or suppliers of pharmaceuticals, appliances, durable medical equipment, medical supplies, and other product-type health care services and laboratories for the purpose of obtaining the most favorable prices to the state and to assure adequate access and quality of the product or service. In order to achieve maximum cost savings, the Legislature hereby determines that an expedited contract process under this subdivision is necessary. Therefore, contracts under this subdivision may be entered into on a negotiated basis and shall be exempt from Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code and Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code.

(e)The department may contract with one or more manufacturers of each multisource prescribed product or supplier of outpatient clinical laboratory services on a bid or negotiated basis. Contracts for outpatient clinical laboratory services shall require that the contractor be a clinical laboratory licensed or certified by the State of California or certified under Section 263a of Title 42 of the United States Code. This subdivision shall not be construed as prohibiting the department from contracting with less than all manufacturers or clinical laboratories, including just one manufacturer or clinical laboratory, on a bid or negotiated basis.

(Amended by Stats. 2021, Ch. 615, Sec. 284. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Genetic Disease Services [125125 - 125286.35]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 2. Long-Term Care for Degenerative Genetic Disease [125200 - 125220]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 8.)

125200.

The Legislature finds and declares that there are many persons in California who are victims of chronic and degenerative genetic conditions, who experience a wide range of degenerating conditions including mental and physical deterioration. For some of these conditions, there is no known prior detection or subsequent treatment.

The Legislature further finds and declares that appropriate supportive care services, both in and out of the home, are very often unavailable, due to the lack of resource identification and referral, and the lack of case management services.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125205.

The department and the State Department of Social Services shall, after consultation with the Genetically Handicapped Persons Program of the department and consumer organizations representing persons with chronic and degenerative conditions, as defined in Section 125210, compile a list of long-term care resources that serve adults with chronic and degenerative conditions, as defined. The list of resources shall include those that have already been identified by the Genetically Handicapped Persons Program as serving persons with Huntingtonsdisease, Josephsdisease, and Friedrichsataxia, and shall include those that have already been identified by consumer organizations representing persons with chronic and degenerative conditions. The list of resources shall include, but not be limited to, the following:

(a) Public and private skilled nursing facilities and intermediate care facilities.

(b) Public and private community residential care facilities.

(c) Public and private out-of-home long-term care resources such as day activity programs, and in-home support service programs. Nothing in this section shall require the State Department of Health Care Services to undertake a survey of long-term care facilities or programs in the state for the purposes of carrying out the requirements of this section.

The information shall be made available to the public, upon request, through the Genetically Handicapped Persons Program of the department.

(Amended by Stats. 2012, Ch. 23, Sec. 38. (AB 1467) Effective June 27, 2012.)

125210.

For the purposes of this article, chronic and degenerative diseases shall include those conditions that are neurological and neuromuscular in origin, including such disorders as Huntingtonsdisease, Friedrichsataxia, Josephsdisease, and other disorders that are determined by the department to be similar in origin and clinical manifestation to the named disorders, and that affect adults.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125215.

The department and the State Department of Social Services shall review regulations that currently provide disincentives to providers of in-home and out-of-home long-term care resources, as defined in Section 125205, to accept and serve persons with chronic and degenerative disorders. The review shall be conducted with assistance and input from the Genetically Handicapped Persons Program of the department. These departments shall provide a list of those regulations to the Legislature by September 1, 1982. The regulations subject to review shall be those regulations that do the following:

(a) Affect the admission of patients to state-licensed skilled nursing facilities, intermediate care facilities, and community residential care facilities.

(b) Affect the staffing ratios necessary to care for persons with chronic and degenerative conditions, as defined, within those facilities.

(c) Affect the likelihood of facilities, or of day care programs and in-home support service programs, to refuse the admission of persons with chronic and degenerative conditions, solely on the basis of anticipated jeopardy to their licensing, or on the basis of anticipated liability to the facilities arising from instances where a personsdegenerative condition, by its own clinical merits, results in medical complications that are, in fact, entirely unrelated to the quality of care provided by the facility or program.

(Amended by Stats. 2012, Ch. 23, Sec. 39. (AB 1467) Effective June 27, 2012.)

125220.

The actions undertaken pursuant to this article shall not impose additional state obligations or expenditures for the care of persons with chronic and degenerative conditions, as defined by this article, unless the Legislature enacts a statute specifically appropriating money for the additional obligations or expenditures.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=5.&chapter=2.&article=3.

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Genetic Disease Services [125125 - 125286.35]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 3. HuntingtonsDisease Research and Workshop Grants [125225 - 125250]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 8.)

125225.

The Legislature hereby finds and declares that:

(a) Huntingtonsdisease is a chronic progressive inherited disorder of the central nervous system.

(b) The constellation of mental and physical symptoms, the insidious onset of the disorder, and the torment of those at-risk, waiting throughout their lives to learn if they have been spared, conspire to make Huntingtonsdisease one of the most diabolical diseases known to man. Each child of a patient with Huntingtonsdisease has a 50/50 chance of getting the disease.

(c) Males, females, and all ethnic groups may be affected and there is no effective treatment or cure. Because so little is known about the disease, many people are misdiagnosed and mistreated.

(d) The suicide rate among Huntingtonsdisease patients is estimated to be seven times the national rate.

(e) The advancement of scientific knowledge about Huntingtonsdisease, that, because of its extraordinary range of symptoms, serves as an excellent prototype for other major chronic genetic, neurologic, and psychiatric illnesses and diseases of aging, such as epilepsy, muscular dystrophy, and Parkinsonsdisease, will

reveal fundamental scientific information that may lead to treatment, prevention, and ultimately a cure for an array of inherited disorders that affect millions.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125230.

The director may establish any rules or criteria for grants under this article as the director deems necessary.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125235.

There is hereby created a Scientific Advisory Review Committee. The membership of the committee shall be composed of 11 members who shall be representatives from each of the following:

(a) Two from the University of California.

(b) One from Stanford University.

(c) One from the California Institute of Technology.

(d) One from the Hereditary Disease Foundation.

(e) One from the City of Hope.

(f) One from the Health and Welfare Agency appointed by the Secretary of the Health and Welfare Agency.

(g) One appointed by the Speaker of the Assembly.

(h) One appointed by the President pro Tempore of the California Senate.

(i) One from the National HuntingtonsDisease Association.

(j) One from the Committee to Combat HuntingtonsDisease.

Except as otherwise provided in this section, members of the committee shall be appointed by the director, who shall make the appointments based upon recommendations from the entity or organization represented.

The members of the committee shall serve at the pleasure of the appointing power. The members of the committee shall serve without compensation, but shall be reimbursed for necessary and travel expenses incurred in the performance of the duties on the committee.

The Scientific Advisory Review Committee is hereby abolished one year after the grants under this article have been made by the director.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125240.

Pursuant to the rules or criteria as the director may deem necessary, the Scientific Advisory Review Committee shall review and recommend approval of grant applications and monitor programs receiving grants under this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125245.

The director may make grants as follows:

(a) Individual research grants to scientists and facilities residing in this state that have research experience with basic and clinical investigations on Huntingtonsdisease and related disorders. Individual research grants shall not exceed twenty thousand dollars ($20,000).

(b) Interdisciplinary workshop grants to scientists and facilities for the purposes of facilitating interchange among an interdisciplinary group of investigators regarding problems in the treatment and care of patients as well as basic research, all of which may be applicable to a variety of genetic or neuro-degenerative disorders in addition to Huntingtonsdisease. Individual workshop grants shall not exceed twelve thousand five hundred dollars ($12,500).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125250.

Not more than 10 percent of any money appropriated for purposes of this article shall be utilized for the administration of this article.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=5.&chapter=2.&article=4.

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Genetic Disease Services [125125 - 125286.35]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 4. AlzheimersDisease [125275 - 125285]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 8.)

125275.

(a) The Legislature finds that Alzheimersdisease, a devastating disease which destroys certain vital cells of the brain, affects more than 1,500,000 Americans. The Legislature also finds that Alzheimersdisease and related disorders are responsible for 50 percent of all nursing home admissions and Alzheimersdisease is the fourth leading cause of death in adults. The Legislature recognizes that the disease has serious emotional, financial, and social consequences for its victims and their families.

(b) The Legislature recognizes that the cause of Alzheimersdisease is presently unknown, and there is no established treatment which can cure, reverse, or stop the progression of Alzheimersdisease. The Legislature also recognizes that research is the only hope for victims and families. The Legislature finds that existing diagnostic and treatment centers have improved the quality of care available to the victims of Alzheimersdisease and increased knowledge with respect to Alzheimersdisease and related disorders. These centers provide clinical opportunities for research and facilitate the collection of essential data regarding Alzheimersdisease and related disorders, while at the same time providing valuable services such as information and referral, counseling, and training to victims and their families. It is the intent of the Legislature, in enacting this article, to encourage the establishment of geographically dispersed diagnostic and treatment centers for Alzheimersdisease within every postsecondary higher educational institution with a medical center, and to encourage research to discover the cause of, and a cure for, Alzheimersdisease.

(c) The functions of the diagnostic and treatment centers shall be designed to serve all of the following purposes:

(1) To provide diagnostic and treatment services and improve the quality of care to victims of Alzheimersdisease.

(2) To increase research by faculty and students in discovering the cause of, and a cure for, Alzheimersdisease.

(3) To provide training, monitoring, consultation, and continuing education to the families of those who are affected by Alzheimersdisease.

(4) To increase the training of health care professionals with respect to Alzheimersdisease and other acquired brain impairments to the extent that the centers have the requisite expertise.

(d) The diagnostic and treatment centers may collaborate with the Statewide Resources Consultant designated pursuant to Section 4364 of the Welfare and Institutions Code, to the extent that the centers deem necessary in order to fulfill the functions set forth in subdivision (c).

(Added by renumbering Section 412 (as amended by Stats. 1995, Ch. 551) by Stats. 1996, Ch. 1023, Sec. 134. Effective September 29, 1996.)

125280.

(a) Any postsecondary higher educational institution with a medical center may establish diagnostic and treatment centers for Alzheimersdisease subject to the departmentsgrants review process.

(b) The department shall administer grants to postsecondary higher educational institutions that establish diagnostic and treatment centers pursuant to subdivision (a).

(c) Funds appropriated for the purposes of this article by the Statutes of 1987 shall first be used to maintain and enhance, as determined by the department, existing centers and to prevent program cutbacks under subdivision (b).

(d) Alzheimersdisease grants for the purpose of establishing a diagnostic and treatment center shall be used only for the purposes of this article, including, but not limited to, all of the following:

(1) Salary and benefits for faculty, residents, fellows, and staff of the diagnostic and treatment center.

(2) Costs of supplies and equipment.

(3) Research grants for faculty research to discover the cause of, and a cure for, Alzheimersdisease.

(4) Research grants for students, residents, and fellows.

(5) General administrative costs of up to 8 percent of the total grant.

(e) The department shall establish criteria for requests for Alzheimersdisease diagnostic and treatment center grants and Alzheimersdisease research grants, and for program evaluation.

(f) No grant awarded pursuant to this article shall be approved for any amount that exceeds 25 percent of the total amount of funds appropriated for this purpose in the 1987“88 Regular Session of the Legislature.

(g) The department shall administer a grant program for the purpose of research into the causes, treatment,

cure, strategies for coping with, prevention, incidence, and prevalence of Alzheimersdisease and related disorders. Priority shall be given to grant applications for feasibility studies, startup grants, and matching funds for federal and privately funded research grants. Consideration shall be given to proposals that link service delivery and collect data relative to patient care and the delivery of social services. This research may include, but is not limited to, examinations and recommendations for the improvement of the family, community-based and health care support systems available to Alzheimersdisease victims, and their caregivers.

(h) Upon request, the department shall make available to the Legislature information regarding the progress of the grant programs established pursuant to this article.

(i) The department shall reduce any grant pursuant to this article by the amount of any federal funds available for the same purposes to the same grantee.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125281.

From funds appropriated to the department in the Budget Act of 2016 for these purposes, the department shall allocate funds to the diagnostic and treatment centers for Alzheimersdisease established pursuant to Section 125280 to be used for all of the following purposes:

(a)To determine the standard of care in early and accurate diagnosis drawing on peer-reviewed evidence, best practices, Medicare and Medicaid policy and reimbursement, and experience working with patients seeking services at a center.

(b)To conduct targeted outreach to health professionals through medical school instruction, hospital grant rounds, continuing education, community education, and free online resources.

(c)To provide low-cost, accessible detection and diagnosis tools that the center shall make available via open source portals of the postsecondary higher educational institution that established the center. Furthermore, the department shall post these tools on its Internet Web site to serve as a resource for the state.

(d)To endorse and disseminate low-cost, accessible detection and diagnosis tools for broad use by health professionals practicing in a variety of settings.

(e)To address unique health disparities that exist within diverse populations, with special focus and attention on reaching African Americans, Latinos, and women.

(f)To evaluate the educational effectiveness and measure the impact of these efforts, including pretests and posttests for health professionals, metrics, and documented practice change.

(Added by Stats. 2016, Ch. 30, Sec. 8. (SB 833) Effective June 27, 2016.)

125283.

(a)The Center for Healthy Communities, within the State Department of Public Health, shall, on or before

January 1, 2021, update the 2009 AlzheimersDisease Facts and Figures in California: Current Status and Future Projections to quantify the burden of Alzheimersdisease on at-risk and underrepresented populations, including African Americans, Asian-Pacific Islanders, Latinos, Hispanics, and women.

(b)This section shall remain in effect only until January 1, 2025, and as of that date is repealed.

(Added by Stats. 2018, Ch. 737, Sec. 1. (SB 1292) Effective January 1, 2019. Repealed as of January 1, 2025, by its own provisions.)

125285.

The department shall provide public and professional education on Alzheimersdisease to educate consumers, caregivers, and health care providers, and to increase public awareness. If the department determines that contracts are required to implement this section, the department may award these contracts on a sole source basis. The contracts shall not be subject to Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code. Notwithstanding any other provision of law, the balance of funds appropriated pursuant to the Budget Act of 2000 for Alzheimersdisease education shall be available for encumbrance and expenditure until June 30, 2003.

(Added by Stats. 2000, Ch. 93, Sec. 35. Effective July 7, 2000.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Genetic Disease Services [125125 - 125286.35]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

__ARTICLE 5. Standards of Service for Providers of Blood Clotting Products for Home Use Act

[125286.10 - 125286.35]__

(Article 5 added by Stats. 2012, Ch. 75, Sec. 1.)

125286.10.

This article shall be known, and may be cited, as the Standards of Service for Providers of Blood Clotting Products for Home Use Act.

(Added by Stats. 2012, Ch. 75, Sec. 1. (AB 389) Effective January 1, 2013.)

125286.15.

The Legislature hereby finds and declares all of the following:

(a)Hemophilia is a rare, hereditary, bleeding disorder affecting at least 4,000 persons in California and is a chronic, lifelong, and incurable, but treatable, disease.

(b)Von Willebrand disease is a human bleeding disorder caused by a hereditary deficiency or abnormality of the von Willebrand factor in human blood, which is a protein that helps clot blood. Von Willebrand disease is a chronic, lifelong, incurable, but treatable, disease affecting at least 360,000 Californians.

(c)Until the 1970s, people with severe hemophilia suffered from uncontrollable internal bleeding, crippling orthopedic deformities, and a shortened lifespan. More recently, the production of highly purified blood clotting factors has provided people with hemophilia and other bleeding disorders the opportunity to lead normal lives, free of pain and crippling arthritis.

(d)The preferred method of treatment of hemophilia today is intravenous injection, or infusion, of prescription blood clotting products several times per week, along with case management and specialized medical care at a federally designated regional hemophilia treatment center.

(e)Pharmacies and other entities specializing in the delivery of blood clotting products and related equipment, supplies, and services for home use form a growing enterprise in California.

(f)Timely access to federally designated regional hemophilia centers and appropriate products and services in the home, including infusion of blood clotting products and related equipment, and supplies and services for persons with hemophilia and other bleeding disorders, reduces mortality and bleeding-related hospitalizations according to the federal Centers for Disease Control and Prevention and the Medical and Scientific Advisory Council of the National Hemophilia Foundation.

(g)Eligible persons with hemophilia or other bleeding disorders may receive treatment through the Genetically Handicapped Persons Program, the California ChildrensServices Program, and the Medi-Cal

program.

(h)For the benefit of persons with hemophilia or other bleeding disorders, the purposes of this article are to do the following:

(1)Establish standards of service for entities that deliver blood clotting products and related equipment, supplies, and services for home use.

(2)Promote access to a full range of essential, cost-effective, lifesaving, blood clotting products and related equipment, supplies, and high-quality services for home use for persons with hemophilia and other bleeding disorders.

(Added by Stats. 2012, Ch. 75, Sec. 1. (AB 389) Effective January 1, 2013.)

125286.20.

Unless the context otherwise requires, the following definitions shall apply for purposes of this article:

(a)Assay means the amount of a particular constituent of a mixture or of the biological or pharmacological potency of a drug.

(b)Ancillary infusion equipment and supplies means the equipment and supplies required to infuse a blood clotting product into a human vein, including, but not limited to, syringes, needles, sterile gauze, field pads, gloves, alcohol swabs, numbing creams, tourniquets, medical tape, sharps or equivalent biohazard waste containers, and cold compression packs.

(c)Bleeding disorder means a medical condition characterized by a deficiency or absence of one or more essential blood clotting proteins in the human blood, often called factors, including all forms of hemophilia and other bleeding disorders that, without treatment, result in uncontrollable bleeding or abnormal blood clotting.

(d)Blood clotting product means an intravenously administered medicine manufactured from human plasma or recombinant biotechnology techniques, approved for distribution by the federal Food and Drug Administration, that is used for the treatment and prevention of symptoms associated with bleeding disorders. Blood clotting products include, but are not limited to, factor VII, factor VIIa, factor VIII, and factor IX products, von Willebrand factor products, bypass products for patients with inhibitors, and activated prothrombin complex concentrates.

(e)Emergency means care as defined in Section 1317.1.

(f)Hemophilia means a human bleeding disorder caused by a hereditary deficiency of the factor I, II, V, VIII, IX, XI, XII, or XIII blood clotting protein in human blood.

(g)Hemophilia treatment center means a facility for the treatment of bleeding disorders, including, but not limited to, hemophilia, that receives funding specifically for the treatment of patients with bleeding disorders from federal government sources, including, but not limited to, the federal Centers for Disease Control and Prevention and the federal Health Resources and Services Administration (HRSA) of the United States Department of Health and Human Services.

(h)Home use means infusion or other use of a blood clotting product in a place other than a state-recognized hemophilia treatment center or other clinical setting. Places where home use occurs include, without limitation, a home or other nonclinical setting.

(i)Patient means a person needing a blood clotting product for home use.

(j)(1)Provider of blood clotting products for home use means all the following pharmacies, except as described in Section 125286.35, that dispense blood clotting factors for home use:

(A)Hospital pharmacies.

(B)Health system pharmacies.

(C)Pharmacies affiliated with hemophilia treatment centers.

(D)Specialty home care pharmacies.

(E)Retail pharmacies.

(2)The providers described in this subdivision shall include a health care service plan and all its affiliated providers if the health care service plan exclusively contracts with a single medical group in a specified geographic area to provide professional services to its enrollees.

(Amended by Stats. 2013, Ch. 76, Sec. 129. (AB 383) Effective January 1, 2014.)

125286.25.

Each provider of blood clotting products for home use shall meet all of the following requirements:

(a)Have sufficient knowledge and understanding of bleeding disorders to accurately follow the instructions of the prescribing physician and ensure high-quality service for the patient and the medical and psychosocial management thereof, including, but not limited to, home therapy.

(b)Have access to a provider with sufficient clinical experience providing services to persons with bleeding disorders that enables the provider to know when patients have an appropriate supply of clotting factor on hand and about proper storage and refrigeration of clotting factors.

(c)Maintain 24-hour on-call service seven days a week for every day of the year, adequately screen telephone calls for emergencies, acknowledge all telephone calls within one hour or less, and have access to knowledgeable pharmacy staffing on call 24 hours a day, to initiate emergency requests for clotting factors.

(d)Have the ability to obtain all brands of blood clotting products approved by the federal Food and Drug Administration in multiple assay ranges (low, medium, and high, as applicable) and vial sizes, including products manufactured from human plasma and those manufactured with recombinant biotechnology techniques, provided manufacturer supply exists and payer authorization is obtained.

(e)Supply all necessary ancillary infusion equipment and supplies with each prescription, as needed.

(f)Store and ship, or otherwise deliver, all blood clotting products in conformity with all state and federally

mandated standards, including, but not limited to, the standards set forth in the productsapproved package insert (PI).

(g)Upon receiving approved authorization for a nonemergency prescription, provided manufacturer supply exists, ship the prescribed blood clotting products and ancillary infusion equipment and supplies to the patient within two business days or less for established and new patients.

(h)Upon receiving approved authorization to dispense a prescription for an emergency situation, provided manufacturer supply exists, deliver prescribed blood products, ancillary infusion equipment and supplies, and medications to the patient within 12 hours for patients living within 100 miles of a major metropolitan airport, and within one day for patients living more than 100 miles from a major metropolitan airport.

(i)Provide patients who have ordered their products with a designated contact telephone number for reporting problems with a delivery and respond to these calls within a reasonable time period.

(j)Provide patients with notification of Class 1 and Class 2 recalls and withdrawals of blood clotting products and ancillary infusion equipment within 24 hours of the provider of blood clotting products for home use receiving notification and participate in the National Patient Notification System for blood clotting product recalls.

(k)Provide language interpretive services over the telephone or in person, as needed by the patient.

(l)Have a detailed plan for meeting the requirements of this article in the event of a natural or manmade disaster or other disruption of normal business operations.

(m)Provide appropriate and necessary recordkeeping and documentation as required by state and federal law and retain copies of the patientsprescriptions.

(n)Comply with the privacy and confidentiality requirements of the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA).

(Added by Stats. 2012, Ch. 75, Sec. 1. (AB 389) Effective January 1, 2013.)

125286.30.

The California State Board of Pharmacy shall administer and enforce this article.

(Added by Stats. 2012, Ch. 75, Sec. 1. (AB 389) Effective January 1, 2013.)

125286.35.

Nothing in this article shall apply to either hospital pharmacies or health system pharmacies that dispense blood clotting products due only to emergency, urgent care, or inpatient encounters, or if an inpatient is discharged with a supply of blood clotting products for home use.

(Added by Stats. 2012, Ch. 75, Sec. 1. (AB 389) Effective January 1, 2013.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. California Stem Cell Research and Cures Bond Act [125290.10 - 125292.10]__

(Chapter 3 added November 2, 2004, by initiative Proposition 71, Sec. 5, a bond act.)

__ARTICLE 1. California Stem Cell Research and Cures Act [125290.10 - 125290.80]__

(Article 1 added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125290.10.

General”Independent CitizensOversight Committee (ICOC)

This chapter implements Article XXXV of the California Constitution, which established the California Institute for Regenerative Medicine (institute).

(Added November 2, 2004, by initiative Proposition 71, Sec. 5. Note: Prop. 71 is titled the California Stem Cell Research and Cures Act.)

125290.15.

Creation of the ICOC

There is hereby created the Independent CitizensOversight Committee, hereinafter, the ICOC, which shall govern the institute and is hereby vested with full power, authority, and jurisdiction over the institute.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125290.20.

ICOC Membership; Appointments; Terms of Office

(a)ICOC Membership

The ICOC shall have 35 members, appointed as follows:

(1)The Chancellors of the University of California at San Francisco, Davis, San Diego, Los Angeles, Irvine, and Riverside shall each appoint an executive officer from his or her campus. In addition, the Chancellor of the University of California at San Francisco (UCSF) shall also appoint a faculty member, physician/scientist, researcher, or executive officer from the UCSF Fresno/Clovis campus to promote geographic diversity and access.

(2)The Governor, the Lieutenant Governor, the Treasurer, and the Controller shall each appoint an executive officer from the following three categories:

(A)A California university, excluding the seven campuses of the University of California described in paragraph (1), that has demonstrated success and leadership in stem cell research, other vital research opportunities, therapy development, or therapy delivery, and that has:

(i)A nationally ranked research hospital and medical school; this criteria will apply to only two of the four appointments.

(ii)A recent proven history of administering scientific and/or medical research grants and contracts in an average annual range exceeding one hundred million dollars ($100,000,000).

(iii)A ranking, within the past five years, in the top 10 United States universities with the highest number of life science patents or that has research or clinical faculty who are members of the National Academy of

Sciences.

(iv)For purposes of this category, the Governor may appoint an executive officer from the California State University system who has an advanced degree in biological sciences.

(B)A California nonprofit academic and research institution that is not a part of the University of California, that has demonstrated success and leadership in stem cell research, other vital research opportunities, therapy development, or therapy delivery and that has:

(i)A nationally ranked research hospital or that has research or clinical faculty who are members of the National Academy of Sciences.

(ii)A proven history in the last five years of managing a research budget in the life sciences exceeding twenty million dollars ($20,000,000) annually.

(C)A California life science commercial entity that is not actively engaged in researching or developing therapies or therapy delivery with pluripotent or progenitor stem cells or genetic medical treatments that has a background in implementing or developing experimental medical therapies, including conducting human clinical trials, and that has not been awarded, or applied for, funding by the institute at the time of appointment. A board member of that entity who generally meets the same qualifications may be appointed in lieu of an executive officer.

(D)Only one member shall be appointed from a single university, institution, or entity for the purposes of paragraph (2). The executive officer of a California university, a nonprofit research institution or life science commercial entity who is appointed as a member, may from time to time delegate those duties to an executive officer of the entity or to the dean of the medical school, if applicable.

(3)The Governor, the Lieutenant Governor, the Treasurer, and the Controller shall appoint members from among California representatives of California regional, state, or national disease advocacy groups, as follows:

(A)The Governor shall appoint three members, one from each of the following disease advocacy groups: spinal cord injury; Alzheimersdisease; and mental health conditions.

(B)The Lieutenant Governor shall appoint three members, one from each of the following disease advocacy groups: type II diabetes; multiple sclerosis or amyotrophic lateral sclerosis; and mental health conditions.

(C)The Treasurer shall appoint two members, one from each of the following disease groups: type I diabetes and heart disease.

(D)The Controller shall appoint two members, one from each of the following disease groups: cancer and Parkinsonsdisease.

(4)The Speaker of the Assembly shall appoint a member from among California representatives of a California regional, state, or national mental health disease or mental health conditions advocacy group.

(5)The President pro Tempore of the Senate shall appoint a member from among California representatives of a California regional, state, or national HIV/AIDS disease advocacy group.

(6)The Treasurer and Controller shall each appoint a nurse with experience in clinical trial management or stem cell or genetic therapy delivery.

(7)A chairperson and vice chairperson who shall be elected by the ICOC members. Each constitutional officer shall nominate a candidate for chairperson and another candidate for vice chairperson. The chairperson and vice chairperson shall each be elected for a term of six years. The chairperson and vice chairperson of ICOC shall be full- or part-time employees of the institute and shall meet the following criteria:

(A)Mandatory Chairperson Criteria

(i)Documented history in successful stem cell research or other vital research opportunity in therapy development or therapy delivery advocacy.

(ii)Experience with state and federal legislative processes that must include some experience with medical legislative approvals of standards and/or funding.

(iii)Qualified for appointment pursuant to paragraph (3), (4), or (5) of subdivision (a).

(iv)Cannot be concurrently employed by or on leave from any prospective grant or loan recipient institutions in California.

(B)Additional Criteria for Consideration:

(i)Experience with governmental agencies or institutions (either executive or board position).

(ii)Experience with the process of establishing government standards and procedures.

(iii)Legal experience with the legal review of proper governmental authority for the exercise of government agency or government institutional powers.

(iv)Direct knowledge and experience in bond financing.

The vice chairperson shall satisfy clauses (i), (iii), and (iv) of subparagraph (A). The vice chairperson shall be selected from among individuals who have attributes and experience complementary to those of the chairperson, preferably covering the criteria not represented by the chairpersonscredentials and experience.

(b)Appointment of ICOC Members

(1)All appointments shall be made within 40 days of the effective date of this act. In the event that any of the appointments are not completed within the permitted timeframe, the ICOC shall proceed to operate with the appointments that are in place, provided that at least 60 percent of the appointments have been made.

(2)Forty-five days after the effective date of this act, the Controller and the Treasurer, or if only one is available within 45 days, the other shall convene a meeting of the appointed members of the ICOC to elect a chairperson and vice chairperson from among the individuals nominated by the constitutional officers pursuant to paragraph (7) of subdivision (a).

(c)ICOC Member Terms of Office

(1)The members appointed pursuant to paragraphs (1), (3), (4), (5), and (6) of subdivision (a) shall serve eight-year terms, and all other members shall serve six-year terms. Members shall serve a maximum of two terms, unless earlier removed pursuant to paragraph (5).

(2)If a vacancy occurs within a term, the appointing authority shall appoint a replacement member within 90 days to serve the remainder of the term.

(3)When a term expires, the appointing authority shall appoint a member within 90 days. ICOC members shall continue to serve until their replacements are appointed.

(4)Notwithstanding paragraph (1), the appointing authority may replace a member, other than the chairperson or vice chairperson, who has served, as of the effective date of the act adding this paragraph, at least half of the memberscurrent term, by appointing a new member, who shall be eligible to serve a full term. These appointments shall be made within 90 days of the effective date of the initiative adding this paragraph.

(5)The ICOC may, by a vote of 60 percent of a quorum, recommend the removal of a member by the membersappointing authority, or in the case of the chairperson and the vice chairperson, the nominating authority or nominating authorities, if more than one constitutional officer nominated the chairperson or vice chairperson. The appointing authority or nominating authority or authorities in the case of the chairperson and vice chairperson, shall have the authority to remove the member, chairperson, or vice chairperson, respectively, upon receipt of the ICOCsrecommendation. If more than one constitutional officer nominated the chairperson or vice chairperson, each of them must agree in order to remove the chairperson or vice chairperson.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 9. Effective December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125290.25.

Majority Vote of Quorum

Actions of the ICOC may be taken only by a majority vote of a quorum of the ICOC.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125290.30.

Public and Financial Accountability Standards

(a)Annual Public Report

The institute shall issue an annual report to the public which sets forth its activities, grants awarded, grants in progress, research accomplishments, and future program directions. Each annual report shall include, but not be limited to, the following: the number and dollar amounts of research and facilities grants; the grantees for the prior year; the institutesadministrative expenses; an assessment of the availability of funding for stem cell research from sources other than the institute; a summary of research findings, including promising new research areas; an assessment of the relationship between the institutesgrants and the overall strategy of its research program; and a report of the institutesstrategic research and financial plans.

(b)Independent Financial Audit for Review by Controller

The institute shall annually commission an independent financial audit of its activities from a certified public accounting firm, which shall be provided to the Controller, who shall review the audit and annually issue a public report of that review.

(c)A performance audit shall be commissioned by the institute every three years beginning with the audit for the 2010"11 fiscal year. The performance audit, which may be performed by the Bureau of State Audits, shall examine the functions, operations, management systems, and policies and procedures of the institute to assess whether the institute is achieving economy, efficiency, and effectiveness in the employment of available resources. The performance audit shall be conducted in accordance with government auditing standards, and shall include a review of whether the institute is complying with ICOC policies and procedures. The performance audit shall not be required to include a review of scientific performance. The first performance audit shall include, but not be limited to, all of the following:

(1)Policies and procedures for the issuance of contracts and grants and a review of a representative sample of contracts, grants, and loans executed by the institute.

(2)Policies and procedures relating to the protection or treatment of intellectual property rights associated with research funded or commissioned by the institute.

(d)All administrative costs of the audits required by subdivisions (b) and (c) shall be paid by the institute.

(e)CitizensFinancial Accountability Oversight Committee

There shall be a CitizensFinancial Accountability Oversight Committee chaired by the Controller. This committee shall review the annual financial audit, the Controllersreport and evaluation of that audit, and the financial practices of the institute. The Controller, the Treasurer, the President pro Tempore of the Senate, the Speaker of the Assembly, and the Chairperson of the ICOC shall each appoint a public member of the committee. Committee members shall have medical or patient advocacy backgrounds and knowledge of relevant financial matters. The committee shall provide recommendations on the institutesfinancial practices and performance. The Controller shall provide staff support. The committee shall hold a public meeting, with appropriate notice, and with a formal public comment period. The committee shall evaluate public comments and include appropriate summaries in its annual report. The ICOC shall provide funds for all costs associated with the per diem expenses of the committee members and for publication of the annual report.

(f)Public Meeting Laws

(1)The ICOC shall hold at least four public meetings per year, one of which will be designated as the institutesannual meeting. The ICOC may hold additional meetings as it determines are necessary or appropriate.

(2)The Bagley-Keene Open Meeting Act, Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code, shall apply to all meetings of the ICOC, except as otherwise provided in this section. The ICOC shall award all grants, loans, and contracts in public meetings and shall adopt all governance, scientific, medical, and regulatory standards in public meetings.

(3)The ICOC may conduct closed sessions as permitted by the Bagley-Keene Open Meeting Act, under Section 11126 of the Government Code. In addition, the ICOC may conduct closed sessions when it meets to consider or discuss:

(A)Matters involving information relating to patients or medical subjects, the disclosure of which would

constitute an unwarranted invasion of personal privacy.

(B)Matters involving confidential intellectual property or work product, whether patentable or not, including, but not limited to, any formula, plan, pattern, process, tool, mechanism, compound, procedure, production data, or compilation of information, which is not patented, which is known only to certain individuals who are using it to fabricate, produce, or compound an article of trade or a service having commercial value and which gives its user an opportunity to obtain a business advantage over competitors who do not know it or use it.

(C)Matters involving prepublication, confidential scientific research or data.

(D)Matters concerning the appointment, employment, performance, compensation, or dismissal of institute officers and employees. Action on compensation of the institutesofficers and employees shall only be taken in open session.

(4)The meeting required by paragraph (2) of subdivision (b) of Section 125290.20 shall be deemed to be a special meeting for the purposes of Section 11125.4 of the Government Code.

(g)Public Records

(1)The California Public Records Act, Article 1 (commencing with Section 6250) of Chapter 3.5 of Division 7 of Title 1 of the Government Code, shall apply to all records of the institute, except as otherwise provided in this section.

(2)Nothing in this section shall be construed to require disclosure of any records that are any of the following:

(A)Personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy.

(B)Records containing or reflecting confidential intellectual property or work product, whether patentable or not, including, but not limited to, any formula, plan, pattern, process, tool, mechanism, compound, procedure, production data, or compilation of information, which is not patented, which is known only to certain individuals who are using it to fabricate, produce, or compound an article of trade or a service having commercial value and which gives its user an opportunity to obtain a business advantage over competitors who do not know it or use it.

(C)Prepublication scientific working papers or research data, including, but not limited to, applications and progress reports.

(3)The institute shall include, in all meeting minutes, a summary of vote tallies and disclosure of each board membersvotes and recusals on all action items.

(h)Competitive Bidding

(1)The institute shall, except as otherwise provided in this section, be governed by the competitive bidding requirements applicable to the University of California, as set forth in Chapter 2.1 (commencing with Section 10500) of Part 2 of Division 2 of the Public Contract Code.

(2)For all institute contracts, the ICOC shall follow the procedures required of the Regents by Chapter 2.1 (commencing with Section 10500) of Part 2 of Division 2 of the Public Contract Code with respect to

contracts let by the University of California.

(3)The requirements of this section shall not be applicable to grants or loans approved by the ICOC.

(4)Except as provided in this section, the Public Contract Code shall not apply to contracts let by the institute.

(i)Conflicts of Interest

(1)The Political Reform Act, Title 9 (commencing with Section 81000) of the Government Code, shall apply to the institute and to the ICOC, except as provided in this section and in subdivision (e) of Section 125290.50.

(A)No member of the ICOC shall make, participate in making, or in any way attempt to use his or her official position to influence a decision to approve or award a grant, loan, or contract to his or her employer, but a member may participate in a decision to approve or award a grant, loan, or contract to an entity in the same field as his or her employer.

(B)A member of the ICOC may participate in a decision to approve or award a grant, loan, or contract to an entity for the purpose of research involving a disease from which a member or his or her family suffers or in which the member has an interest as a representative of a disease advocacy organization.

(C)The adoption of standards, including, but not limited to, strategic plans, concept plans, and research budgets, is not a decision subject to this section.

(2)Service as a member of the ICOC by a member of the faculty or administration of any system of the University of California shall not, by itself, be deemed to be inconsistent, incompatible, in conflict with, or inimical to the duties of the ICOC member as a member of the faculty or administration of any system of the University of California and shall not result in the automatic vacation of either such office. Service as a member of the ICOC by a representative or employee of a disease advocacy organization, a nonprofit academic and research institution, or a life science commercial entity shall not be deemed to be inconsistent, incompatible, in conflict with, or inimical to the duties of the ICOC member as a representative or employee of that organization, institution, or entity.

(3)Section 1090 of the Government Code shall not apply to any grant, loan, or contract made by the ICOC except where both of the following conditions are met:

(A)The grant, loan, or contract directly relates to services to be provided by any member of the ICOC or the entity the member represents or financially benefits the member or the entity he or she represents.

(B)The member fails to recuse himself or herself from making, participating in making, or in any way attempting to use his or her official position to influence a decision on the grant, loan, or contract.

(j)Patent Royalties and License Revenues Paid to the State of California

(1)The ICOC shall establish standards that require that all grants and loan awards be subject to intellectual property agreements that balance the opportunity of the State of California to benefit from the patents, royalties, and licenses that result from basic research, therapy development, and clinical trials with the need to ensure that essential medical research is not unreasonably hindered by the intellectual property agreements. All royalty revenues received through the intellectual property agreements established pursuant to this subdivision shall be deposited into an interest-bearing account in the General Fund, and to the extent permitted by law, the amount so deposited and interest thereon shall be appropriated for the purpose of offsetting the costs of providing treatments and cures arising from institute-funded research to California

patients who have insufficient means to purchase such treatment or cure, including the reimbursement of patient-qualified costs for research participants.

(2)These standards shall include, at a minimum, a requirement that CIRM grantees, other than loan recipients and facilities grant recipients, share a fraction of the revenue they receive from licensing or self-commercializing an invention or technology that arises from research funded by CIRM, as set forth below.

(A)(i)A grantee that licenses an invention or technology that arises from a research program funded by CIRM, regardless of the number of grants awarded to that research program, shall pay 25 percent of the revenues it receives in excess of five hundred thousand dollars ($500,000), in the aggregate, to the General Fund. The threshold amount of five hundred thousand dollars ($500,000) shall be adjusted annually by a multiple of a fraction, the denominator of which is the Consumer Price Index, All Urban Consumers, All Items (San Francisco-Oakland-San Jose; 1982"84=100) as prepared by the Bureau of Labor Statistics of the United States Department of Labor and published for the month of October 2009, and the numerator of which is that index published for the month in which the grantee accepts the grant. For awards made on or after November 5, 2020, the threshold amount of five hundred thousand dollars ($500,000) shall be adjusted annually by a multiple of a fraction, the denominator of which is the Consumer Price Index, All Urban Consumers, All Items (San Francisco-Oakland-San Jose; 1982"84=100) as prepared by the Bureau of Labor Statistics of the United States Department of Labor and published for the month of October 2020, and the numerator of which is that index published for the month in which the grantee accepts the grant.

(ii)If funding sources other than CIRM directly contributed to the development of the invention or technology, then the return to the General Fund shall be calculated as follows: The amount of CIRM funding for the invention or technology shall be divided by the total of funding provided by all sources, and that fraction shall be multiplied by 25. That numeral is the percentage due to the General Fund.

(B)(i)A grantee that self-commercializes a product that results from an invention or technology that arises from research funded by CIRM shall pay an amount to the General Fund equal to three times the total amount of the CIRM grant or grants received by the grantee in support of the research that contributed to the creation of the product. The rate of payback of the royalty shall be at a rate of 3 percent of the annual net revenue received by the grantee from the product.

(ii)In addition to the payment required by clause (i), the first time that net commercial revenues earned by the grantee from the product exceed two hundred fifty million dollars ($250,000,000) in a calendar year, the grantee shall make a one-time payment to the General Fund equal to three times the total amount of the grant or grants awarded by CIRM to the grantee in support of the research that contributed to the creation of the product.

(iii)In addition to the payments required by clauses (i) and (ii), the first time that net commercial revenues earned by the grantee from the product exceed five hundred million dollars ($500,000,000) in a calendar year, the grantee shall make an additional one-time payment to the General Fund equal to three times the total amount of the grant or grants awarded by ClRM to the grantee in support of the research that contributed to the creation of the product.

(iv)In addition to the payments required by clauses (i), (ii), and (iii), the first time that net commercial revenues earned by the grantee from the product equal or exceed five hundred million dollars ($500,000,000) in a calendar year, the grantee shall pay the General Fund 1 percent annually of net commercial revenue in excess of five hundred million dollars ($500,000,000) for the life of any patent covering the invention or technology, if the grantee patented its invention or technology and received a CIRM grant or grants amounting to more than five million dollars ($5,000,000) in support of the research that contributed to the creation of the product.

(3)The ICOC shall have the authority to adopt regulations to implement this subdivision. The ICOC shall also have the authority to modify the formulas specified in subparagraphs (A) and (B) of paragraph (2) through regulations if the ICOC determines pursuant to paragraph (1) that a modification is required either in order to ensure that essential medical research, including, but not limited to, therapy development and the broad delivery of therapies to patients, is not unreasonably hindered, or to ensure that the State of California has an opportunity to benefit from the patents, royalties, and licenses that result from basic research, therapy development, and clinical trials. The ICOC shall notify the appropriate fiscal and policy committees of the Legislature 10 calendar days before exercising its authority to vote on the modification of the formulas specified in subparagraphs (A) and (B) of paragraph (2). The amendments made to this subdivision are not intended to affect the institutesauthority to modify the provisions set forth in this subdivision pursuant to this paragraph, including, but not limited to, any modifications that occurred prior to the effective date of the initiative amending this subdivision.

(k)Preference for California Suppliers

The ICOC shall establish standards to ensure that grantees purchase goods and services from California suppliers to the extent reasonably possible, in a good faith effort to achieve a goal of more than 50 percent of such purchases from California suppliers.

(l)Additional Accountability Requirements

To assure strict accountability and transparency, including rigorous conflict of interest rules, ethical research and treatment standards, and independent financial audits, every four years the ICOC shall update, at its discretion, the standards relating to conflict of interest rules, ethical research and treatment, and independent financial audits, to be generally aligned with standards adopted by the National Academy of Sciences to the extent that those standards are consistent with constitutional and statutory requirements applicable to the institute.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 10. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125290.30.

Public and Financial Accountability Standards

(a)Annual Public Report

The institute shall issue an annual report to the public which sets forth its activities, grants awarded, grants in progress, research accomplishments, and future program directions. Each annual report shall include, but not be limited to, the following: the number and dollar amounts of research and facilities grants; the grantees for the prior year; the institutesadministrative expenses; an assessment of the availability of funding for stem cell research from sources other than the institute; a summary of research findings, including promising new research areas; an assessment of the relationship between the institutesgrants and the overall strategy of its research program; and a report of the institutesstrategic research and financial plans.

(b)Independent Financial Audit for Review by Controller

The institute shall annually commission an independent financial audit of its activities from a certified public

accounting firm, which shall be provided to the Controller, who shall review the audit and annually issue a public report of that review.

(c)A performance audit shall be commissioned by the institute every three years beginning with the audit for the 2010”11 fiscal year. The performance audit, which may be performed by the Bureau of State Audits, shall examine the functions, operations, management systems, and policies and procedures of the institute to assess whether the institute is achieving economy, efficiency, and effectiveness in the employment of available resources. The performance audit shall be conducted in accordance with government auditing standards, and shall include a review of whether the institute is complying with ICOC policies and procedures. The performance audit shall not be required to include a review of scientific performance. The first performance audit shall include, but not be limited to, all of the following:

(1)Policies and procedures for the issuance of contracts and grants and a review of a representative sample of contracts, grants, and loans executed by the institute.

(2)Policies and procedures relating to the protection or treatment of intellectual property rights associated with research funded or commissioned by the institute.

(d)All administrative costs of the audits required by subdivisions (b) and (c) shall be paid by the institute.

(e)CitizensFinancial Accountability Oversight Committee

There shall be a CitizensFinancial Accountability Oversight Committee chaired by the Controller. This committee shall review the annual financial audit, the Controllersreport and evaluation of that audit, and the financial practices of the institute. The Controller, the Treasurer, the President pro Tempore of the Senate, the Speaker of the Assembly, and the Chairperson of the ICOC shall each appoint a public member of the committee. Committee members shall have medical or patient advocacy backgrounds and knowledge of relevant financial matters. The committee shall provide recommendations on the institutesfinancial practices and performance. The Controller shall provide staff support. The committee shall hold a public meeting, with appropriate notice, and with a formal public comment period. The committee shall evaluate public comments and include appropriate summaries in its annual report. The ICOC shall provide funds for all costs associated with the per diem expenses of the committee members and for publication of the annual report.

(f)Public Meeting Laws

(1)The ICOC shall hold at least four public meetings per year, one of which will be designated as the institutesannual meeting. The ICOC may hold additional meetings as it determines are necessary or appropriate.

(2)The Bagley-Keene Open Meeting Act, Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code, shall apply to all meetings of the ICOC, except as otherwise provided in this section. The ICOC shall award all grants, loans, and contracts in public meetings and shall adopt all governance, scientific, medical, and regulatory standards in public meetings.

(3)The ICOC may conduct closed sessions as permitted by the Bagley-Keene Open Meeting Act, under Section 11126 of the Government Code. In addition, the ICOC may conduct closed sessions when it meets to consider or discuss:

(A)Matters involving information relating to patients or medical subjects, the disclosure of which would constitute an unwarranted invasion of personal privacy.

(B)Matters involving confidential intellectual property or work product, whether patentable or not, including, but not limited to, any formula, plan, pattern, process, tool, mechanism, compound, procedure, production data, or compilation of information, which is not patented, which is known only to certain individuals who are using it to fabricate, produce, or compound an article of trade or a service having commercial value and which gives its user an opportunity to obtain a business advantage over competitors who do not know it or use it.

(C)Matters involving prepublication, confidential scientific research, or data.

(D)Matters concerning the appointment, employment, performance, compensation, or dismissal of institute officers and employees. Action on compensation of the institutesofficers and employees shall only be taken in open session.

(4)The meeting required by paragraph (2) of subdivision (b) of Section 125290.20 shall be deemed to be a special meeting for the purposes of Section 11125.4 of the Government Code.

(g)Public Records

(1)The California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code) shall apply to all records of the institute, except as otherwise provided in this section.

(2)Nothing in this section shall be construed to require disclosure of any records that are any of the following:

(A)Personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy.

(B)Records containing or reflecting confidential intellectual property or work product, whether patentable or not, including, but not limited to, any formula, plan, pattern, process, tool, mechanism, compound, procedure, production data, or compilation of information, which is not patented, which is known only to certain individuals who are using it to fabricate, produce, or compound an article of trade or a service having commercial value and which gives its user an opportunity to obtain a business advantage over competitors who do not know it or use it.

(C)Prepublication scientific working papers or research data, including, but not limited to, applications and progress reports.

(3)The institute shall include, in all meeting minutes, a summary of vote tallies and disclosure of each board membersvotes and recusals on all action items.

(h)Competitive Bidding

(1)The institute shall, except as otherwise provided in this section, be governed by the competitive bidding requirements applicable to the University of California, as set forth in Chapter 2.1 (commencing with Section 10500) of Part 2 of Division 2 of the Public Contract Code.

(2)For all institute contracts, the ICOC shall follow the procedures required of the Regents by Chapter 2.1 (commencing with Section 10500) of Part 2 of Division 2 of the Public Contract Code with respect to contracts let by the University of California.

(3)The requirements of this section shall not be applicable to grants or loans approved by the ICOC.

(4)Except as provided in this section, the Public Contract Code shall not apply to contracts let by the institute.

(i)Conflicts of Interest

(1)The Political Reform Act, Title 9 (commencing with Section 81000) of the Government Code, shall apply to the institute and to the ICOC, except as provided in this section and in subdivision (e) of Section 125290.50.

(A)No member of the ICOC shall make, participate in making, or in any way attempt to use his or her official position to influence a decision to approve or award a grant, loan, or contract to his or her employer, but a member may participate in a decision to approve or award a grant, loan, or contract to an entity in the same field as his or her employer.

(B)A member of the ICOC may participate in a decision to approve or award a grant, loan, or contract to an entity for the purpose of research involving a disease from which a member or his or her family suffers or in which the member has an interest as a representative of a disease advocacy organization.

(C)The adoption of standards, including, but not limited to, strategic plans, concept plans, and research budgets, is not a decision subject to this section.

(2)Service as a member of the ICOC by a member of the faculty or administration of any system of the University of California shall not, by itself, be deemed to be inconsistent, incompatible, in conflict with, or inimical to the duties of the ICOC member as a member of the faculty or administration of any system of the University of California and shall not result in the automatic vacation of either such office. Service as a member of the ICOC by a representative or employee of a disease advocacy organization, a nonprofit academic and research institution, or a life science commercial entity shall not be deemed to be inconsistent, incompatible, in conflict with, or inimical to the duties of the ICOC member as a representative or employee of that organization, institution, or entity.

(3)Section 1090 of the Government Code shall not apply to any grant, loan, or contract made by the ICOC except where both of the following conditions are met:

(A)The grant, loan, or contract directly relates to services to be provided by any member of the ICOC or the entity the member represents or financially benefits the member or the entity he or she represents.

(B)The member fails to recuse himself or herself from making, participating in making, or in any way attempting to use his or her official position to influence a decision on the grant, loan, or contract.

(j)Patent Royalties and License Revenues Paid to the State of California

(1)The ICOC shall establish standards that require that all grants and loan awards be subject to intellectual property agreements that balance the opportunity of the State of California to benefit from the patents, royalties, and licenses that result from basic research, therapy development, and clinical trials with the need to ensure that essential medical research is not unreasonably hindered by the intellectual property agreements. All royalty revenues received through the intellectual property agreements established pursuant to this subdivision shall be deposited into an interest-bearing account in the General Fund, and to the extent permitted by law, the amount so deposited and interest thereon shall be appropriated for the purpose of offsetting the costs of providing treatments and cures arising from institute-funded research to California patients who have insufficient means to purchase such treatment or cure, including the reimbursement of patient-qualified costs for research participants.

(2)These standards shall include, at a minimum, a requirement that CIRM grantees, other than loan recipients and facilities grant recipients, share a fraction of the revenue they receive from licensing or self-commercializing an invention or technology that arises from research funded by CIRM, as set forth below.

(A)(i)A grantee that licenses an invention or technology that arises from a research program funded by CIRM, regardless of the number of grants awarded to that research program, shall pay 25 percent of the revenues it receives in excess of five hundred thousand dollars ($500,000), in the aggregate, to the General Fund. The threshold amount of five hundred thousand dollars ($500,000) shall be adjusted annually by a multiple of a fraction, the denominator of which is the Consumer Price Index, All Urban Consumers, All Items (San Francisco-Oakland-San Jose; 1982"84=100) as prepared by the Bureau of Labor Statistics of the United States Department of Labor and published for the month of October 2009, and the numerator of which is that index published for the month in which the grantee accepts the grant. For awards made on or after November 5, 2020, the threshold amount of five hundred thousand dollars ($500,000) shall be adjusted annually by a multiple of a fraction, the denominator of which is the Consumer Price Index, All Urban Consumers, All Items (San Francisco-Oakland-San Jose; 1982"84=100) as prepared by the Bureau of Labor Statistics of the United States Department of Labor and published for the month of October 2020, and the numerator of which is that index published for the month in which the grantee accepts the grant.

(ii)If funding sources other than CIRM directly contributed to the development of the invention or technology, then the return to the General Fund shall be calculated as follows: The amount of CIRM funding for the invention or technology shall be divided by the total of funding provided by all sources, and that fraction shall be multiplied by 25. That numeral is the percentage due to the General Fund.

(B)(i)A grantee that self-commercializes a product that results from an invention or technology that arises from research funded by CIRM shall pay an amount to the General Fund equal to three times the total amount of the CIRM grant or grants received by the grantee in support of the research that contributed to the creation of the product. The rate of payback of the royalty shall be at a rate of 3 percent of the annual net revenue received by the grantee from the product.

(ii)In addition to the payment required by clause (i), the first time that net commercial revenues earned by the grantee from the product exceed two hundred fifty million dollars ($250,000,000) in a calendar year, the grantee shall make a one-time payment to the General Fund equal to three times the total amount of the grant or grants awarded by CIRM to the grantee in support of the research that contributed to the creation of the product.

(iii)In addition to the payments required by clauses (i) and (ii), the first time that net commercial revenues earned by the grantee from the product exceed five hundred million dollars ($500,000,000) in a calendar year, the grantee shall make an additional one-time payment to the General Fund equal to three times the total amount of the grant or grants awarded by CIRM to the grantee in support of the research that contributed to the creation of the product.

(iv)In addition to the payments required by clauses (i), (ii), and (iii), the first time that net commercial revenues earned by the grantee from the product equal or exceed five hundred million dollars ($500,000,000) in a calendar year, the grantee shall pay the General Fund 1 percent annually of net commercial revenue in excess of five hundred million dollars ($500,000,000) for the life of any patent covering the invention or technology, if the grantee patented its invention or technology and received a CIRM grant or grants amounting to more than five million dollars ($5,000,000) in support of the research that contributed to the creation of the product.

(3)The ICOC shall have the authority to adopt regulations to implement this subdivision. The ICOC shall also have the authority to modify the formulas specified in subparagraphs (A) and (B) of paragraph (2) through

regulations if the ICOC determines pursuant to paragraph (1) that a modification is required either in order to ensure that essential medical research, including, but not limited to, therapy development and the broad delivery of therapies to patients, is not unreasonably hindered, or to ensure that the State of California has an opportunity to benefit from the patents, royalties, and licenses that result from basic research, therapy development, and clinical trials. The ICOC shall notify the appropriate fiscal and policy committees of the Legislature 10 calendar days before exercising its authority to vote on the modification of the formulas specified in subparagraphs (A) and (B) of paragraph (2). The amendments made to this subdivision are not intended to affect the institutesauthority to modify the provisions set forth in this subdivision pursuant to this paragraph, including, but not limited to, any modifications that occurred prior to the effective date of the initiative amending this subdivision.

(k)Preference for California Suppliers

The ICOC shall establish standards to ensure that grantees purchase goods and services from California suppliers to the extent reasonably possible, in a good faith effort to achieve a goal of more than 50 percent of such purchases from California suppliers.

(l)Additional Accountability Requirements

To assure strict accountability and transparency, including rigorous conflict of interest rules, ethical research and treatment standards, and independent financial audits, every four years the ICOC shall update, at its discretion, the standards relating to conflict of interest rules, ethical research and treatment, and independent financial audits, to be generally aligned with standards adopted by the National Academy of Sciences to the extent that those standards are consistent with constitutional and statutory requirements applicable to the institute.

(Amended by Stats. 2021, Ch. 615, Sec. 285. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71. Amended November 3, 2020, by initiative Proposition 14, Sec. 10.)

125290.35.

Medical and Scientific Accountability Standards

(a)Medical Standards

In order to avoid duplication or conflicts in technical standards for scientific and medical research, with alternative state programs, the institute will develop its own scientific and medical standards to carry out the specific controls and intent of the act, notwithstanding Sections 125300, 125320, 125118, 125119, 125119.3, and 125119.5, or any other current or future state laws or regulations dealing with the study and research of pluripotent stem cells and/or progenitor cells, or other vital research opportunities, except Section 125315. The ICOC, its working committees, and its grantees shall be governed solely by the provisions of this act in the establishment of standards, the award of grants, and the conduct of grants awarded pursuant to this act.

(b)The ICOC shall establish standards as follows:

(1)Informed Consent

Standards for obtaining the informed consent of research donors, patients, or participants, which initially

shall be generally based on the standards in place on January 1, 2003, for all research funded by the National Institutes of Health, with modifications to adapt to the mission and objectives of the institute.

(2)Controls on Research Involving Humans

Standards for the review of research involving human subjects which initially shall be generally based on the Institutional Review Board standards promulgated by the National Institutes of Health and in effect on January 1, 2003, with modifications to adapt to the mission and objectives of the institute.

(3)Prohibition on Compensation

Standards prohibiting compensation to research donors or participants, while permitting reimbursement of expenses.

(4)Permitted Reimbursement

Standards permitting reimbursement for expenses, including, but not limited to, medical expenses and lodging, meals, and travel expenses, for research participants and caregivers in order to ensure functional access to clinical trials. For purposes of this paragraph, caregivers includes family members, friends, and professional caregivers providing supportive care.

(5)Patient Privacy Laws

Standards to assure compliance with state and federal patient privacy laws.

(6)Limitations on Payments for Cells

Standards limiting payments for the purchase of stem cells or stem cell lines to reasonable payment for the removal, processing, disposal, preservation, quality control, storage, transplantation, or implantation or legal costs or other administrative costs associated with these medical procedures and specifically including any required payments for medical or scientific technologies, products, or processes for royalties, patent, or licensing fees or other costs for intellectual property.

(7)Time Limits for Obtaining Cells

Standards setting a limit on the time during which cells may be extracted from blastocysts, which shall initially be up to 12 days after cell division begins, not counting any time during which the blastocysts and/or cells have been stored frozen.

(8)Standards for Genetic Medical Treatments and Research

Standards for research involving genetic medical treatments that shall, in the ICOCsdiscretion, generally be based on the standards adopted by the National Academy of Sciences.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 11. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125290.40.

ICOC Functions

The ICOC shall perform the following functions:

(a)Oversee the operations of the institute.

(b)Develop annual and long-term strategic research and financial plans for the institute.

(c)Make final decisions on research standards and grant awards in California across the research and therapy development and delivery spectrum, from stem cell discovery research and early development to clinical trials and therapy delivery.

(d)Ensure the completion of an annual financial audit of the institutesoperations.

(e)Issue public reports on the activities of the institute.

(f)Develop and implement programs to enhance patient access to affordable stem cell and related treatments and cures through public hospitals and clinics and establish policies regarding intellectual property rights arising from research funded by the institute.

(g)Establish and oversee the institutesresearch, therapy development, and therapy delivery programs, including, but not limited to, the Alpha Stem Cell Clinics and Community Care Centers of Excellence, training and fellowship, and shared research laboratory programs.

(h)Establish and oversee the development of policies and programs to help make treatments and cures arising from institute-funded research available and affordable for California patients, through engagement with health care providers, research and therapy development institutions, businesses, governmental agencies, philanthropists, foundations, and patient advocacy groups, and based on recommendations made by the Treatments and Cures Accessibility and Affordability Working Group.

(i)Establish rules and guidelines for the operation of the ICOC and its working groups.

(j)Perform all other acts necessary or appropriate in the exercise of its power, authority, and jurisdiction over the institute.

(k)Select members of the working groups.

(l)Adopt, amend, and rescind rules and regulations to carry out the purposes and provisions of this chapter, and to govern the procedures of the ICOC. Except as provided in subdivision (m), these rules and regulations shall be adopted in accordance with the Administrative Procedure Act (Government Code, Title 2, Division 3, Part 1, Chapter 3.5, Sections 11340 et seq.).

(m)Notwithstanding the Administrative Procedure Act (APA), and in order to facilitate the immediate commencement of research covered by this chapter, the ICOC may adopt interim regulations without compliance with the procedures set forth in the APA. The interim regulations shall remain in effect for 270 days unless earlier superseded by regulations adopted pursuant to the APA. For purposes of subdivision (l), requests for applications, program announcements, and notices of award shall not be considered regulations.

(n)Request the issuance of bonds from the California Stem Cell Research and Cures Finance Committee and loans from the Pooled Money Investment Board.

(o)May annually modify its funding and finance programs to optimize the institutesability to achieve the objective that its activities be revenue-positive for the State of California during its first five years of operation without jeopardizing the progress of its core medical and scientific research program.

(p)Notwithstanding Section 11005 of the Government Code, accept additional revenue and real and personal property, including, but not limited to, gifts, royalties, interest, and appropriations that may be used to supplement annual research grant funding and the operations of the institute.

(q)Subject to the restrictions set forth in this article, develop conflict of interest standards, and at its discretion, consult with the National Academy of Sciences and the Scientific and Medical Accountability Standards Working Group, for the consideration of funding awards based on best practices established by the National Academy of Sciences to prevent conflicts of interest in the award of research funding and update those standards no less than every four years to be, at the ICOCsdiscretion, generally aligned with standards adopted by the National Academy of Sciences, subject to the constitutional and statutory requirements applicable to the institute.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 12. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125290.45.

ICOC Operations

(a)Legal Actions and Liability

(1)The institute may sue and be sued.

(2)Based upon ICOC standards, institute grantees shall indemnify or insure and hold the institute harmless against any and all losses, claims, damages, expenses, or liabilities, including attorneys™ fees, arising from research conducted by the grantee pursuant to the grant, and/or, in the alternative, grantees shall name the institute as an additional insured and submit proof of such insurance.

(3)Given the scientific, medical, and technical nature of the issues facing the ICOC, and notwithstanding Section 11042 of the Government Code, the institute is authorized to retain outside counsel when the ICOC determines that the institute requires specialized services not provided by the Attorney Generalsoffice.

(4)The institute may enter into any contracts or obligations which are authorized or permitted by law.

(b)Personnel

(1)The ICOC shall from time to time determine the total number of authorized employees for the institute, which number shall not exceed 70 employees (full-time equivalent), excluding members of the working groups and members of the ICOC, who shall not be considered institute employees, and excluding up to 15 additional institute employees (full-time equivalent) to support the development of policies and programs to help make treatments and cures arising from institute-funded research available and affordable for Californians. The cap on employees shall not apply to employees funded through sources other than bond proceeds or the General Fund. The ICOC shall select a chairperson, vice chairperson, and president who shall exercise all of the powers delegated to them by the ICOC. The following functions apply to the chairperson,

vice chairperson, and president:

(A)The chairpersonsprimary responsibilities are to manage the ICOC agenda and workflow including all evaluations and approvals of scientific and medical working group grants, loans, facilities, and standards evaluations, and to supervise all annual reports and public accountability requirements; to manage and optimize the institutesbond financing plans and funding cashflow plan; to interface with the California Legislature, the United States Congress, the California health care system, and the California public; to optimize all financial leverage opportunities for the institute, including, without limitation, generating matching or supplemental funds through collaborations with other states, nations, territories, or institutions; and to lead negotiations for intellectual property agreements, policies, and contract terms. The chairperson shall also serve as a member of the Treatments and Cures Accessibility and Affordability Working Group, the Scientific and Medical Accountability Standards Working Group, and the Scientific and Medical Research Facilities Working Group and as an ex officio member of the Scientific and Medical Research Funding Working Group. The vice chairpersonsprimary responsibilities are to support the chairperson in all duties and to carry out those duties in the chairpersonsabsence.

(B)The presidentsprimary responsibilities are to serve as the chief executive of the institute; to recruit the highest scientific and medical talent in the United States to serve the institute on its working groups; to serve the institute on its working groups; to direct ICOC staff and participate in the process of supporting all working group requirements to develop recommendations on grants, loans, facilities, and standards as well as to direct and support the ICOC process of evaluating and acting on those recommendations, the implementation of all decisions on these and general matters of the ICOC; to hire, direct, and manage the staff of the institute; to develop the budgets and cost control programs of the institute; to manage compliance with all rules and regulations of the ICOC, including the performance of all grant recipients; and to manage and execute all intellectual property agreements and any other contracts pertaining to the institute or research it funds.

(2)Each member of the ICOC except, the chairperson, vice chairperson, and the members appointed pursuant to paragraphs (3), (4), (5), and (6) of subdivision (a) of Section 125290.20, who shall be compensated pursuant to paragraph (3), shall receive a per diem of one hundred dollars ($100) per day (adjusted annually for cost of living) for each day actually spent in the discharge of the membersduties, plus reasonable and necessary travel and other expenses incurred in the performance of the membersduties.

(3)The ICOC shall establish daily consulting rates and expense reimbursement standards for the members of all of its working groups, including the members of the ICOC appointed pursuant to paragraphs (3), (4), (5), and (6) of subdivision (a) of Section 125290.20. The daily consulting rate shall include time spent in preparation for, and participation in, institute, working group, and ICOC meetings and shall include compensation and expense reimbursement for caregivers when necessary to facilitate a membersparticipation in a meeting as a result of the membersmedical condition.

(4)Notwithstanding Section 19825 of the Government Code, the ICOC shall set compensation for the chairperson, vice chairperson, and president and other officers, and for the scientific, medical, technical, and administrative staff of the institute within the range of compensation levels for executive officers and scientific, medical, technical, and administrative staff of medical schools within the University of California system and the nonprofit academic and research institutions described in paragraph (2) of subdivision (a) of Section 125290.20, and travel expense reimbursement rates and moving and relocation expense limits.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 13. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125290.50.

Scientific and Medical Working Groups"General

(a)The institute shall have, and there is hereby established, four separate scientific and medical working groups as follows:

(1)Scientific and Medical Research Funding Working Group.

(2)Scientific and Medical Accountability Standards Working Group.

(3)Scientific and Medical Research Facilities Working Group.

(4)Treatments and Cures Accessibility and Affordability Working Group.

(b)Working Group Members

(1)Appointments of scientific and medical working group members shall be made by a majority vote of a quorum of the ICOC, within 30 days of the election and appointment of the initial ICOC members. The working group members™ terms shall be six years except that, after the first six-year terms, the members™ terms will be staggered so that one-third of the members shall be elected for a term that expires two years later, one-third of the members shall be elected for a term that expires four years later, and one-third of the members shall be elected for a term that expires six years later. Subsequent terms are for six years. Working group members may serve a maximum of two consecutive terms, provided that the ICOC may, by a two-thirds vote of a quorum, reappoint non-ICOC working group members to serve more than two consecutive terms.

(2)Appointments of members of the Treatments and Cures Accessibility and Affordability Working Group shall be made by a majority vote of a quorum of the ICOC, within 90 days of the effective date of the initiative adding this paragraph. The working group members™ terms shall be six years, and members may serve a maximum of two consecutive terms, provided that the ICOC may, by a two-thirds vote of a quorum, reappoint non-ICOC working group members to serve more than two consecutive terms.

(3)The ICOC may appoint ad hoc voting members to each working group as necessary to obtain expertise for a particular expert review session, not to exceed three members for any one expert review session.

(c)Working Group Meetings

Each group shall hold at least four meetings per year, one of which shall be designated as its annual meeting, except as otherwise determined by the institute.

(d)Working Group Recommendations to the ICOC

Recommendations of each panel of the working groups may be forwarded to the ICOC only by a vote of a majority of a quorum of the members of each panel for that working group. If 35 percent of the members of any working group panel award scores in the funding range, a minority recommendation report, including a summary of the strengths and weaknesses of the application and a rebuttal to the majority recommendation, shall be submitted to the ICOC. The ICOC shall consider the recommendations of the working groups in making its decisions on applications for research and facility grants and loan awards and in adopting regulatory standards, policies, and programs. Each working group shall recommend to ICOC rules,

procedures, and practices for that working group.

(e)Conflict of Interest

(1)The ICOC shall adopt conflict of interest rules, based on standards applicable to members of scientific review committees of the National Institutes of Health, to govern the participation of non-ICOC working group members.

(2)The ICOC shall appoint an ethics officer from among the staff of the institute.

(3)Because the working groups are purely advisory and have no final decisionmaking authority, members of the working groups shall not be considered public officials, employees, or consultants for purposes of the Political Reform Act (Title 9 (commencing with Section 81000) of the Government Code), Sections 1090 and 19990 of the Government Code, and Sections 10516 and 10517 of the Public Contract Code.

(f)Working Group Records

All records of the working groups submitted as part of the working groups™ recommendations to the ICOC for approval shall be subject to the Public Records Act. Except as provided in this subdivision, the working groups shall not be subject to the provisions of Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code, or Article 1 (commencing with Section 6250) of Chapter 3.5 of Division 7 of Title 1 of the Government Code.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 14. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125290.50.

Scientific and Medical Working Groups"General

(a)The institute shall have, and there is hereby established, four separate scientific and medical working groups as follows:

(1)Scientific and Medical Research Funding Working Group.

(2)Scientific and Medical Accountability Standards Working Group.

(3)Scientific and Medical Research Facilities Working Group.

(4)Treatments and Cures Accessibility and Affordability Working Group.

(b)Working Group Members

(1)Appointments of scientific and medical working group members shall be made by a majority vote of a quorum of the ICOC, within 30 days of the election and appointment of the initial ICOC members. The working group members™ terms shall be six years except that, after the first six-year terms, the members™ terms will be staggered so that one-third of the members shall be elected for a term that expires two years later, one-third of the members shall be elected for a term that expires four years later, and one-third of the members shall be elected for a term that expires six years later. Subsequent terms are for six years. Working

group members may serve a maximum of two consecutive terms, provided that the ICOC may, by a two-thirds vote of a quorum, reappoint non-ICOC working group members to serve more than two consecutive terms.

(2)Appointments of members of the Treatments and Cures Accessibility and Affordability Working Group shall be made by a majority vote of a quorum of the ICOC, within 90 days of the effective date of the initiative adding this paragraph. The working group members™ terms shall be six years, and members may serve a maximum of two consecutive terms, provided that the ICOC may, by a two-thirds vote of a quorum, reappoint non-ICOC working group members to serve more than two consecutive terms.

(3)The ICOC may appoint ad hoc voting members to each working group as necessary to obtain expertise for a particular expert review session, not to exceed three members for any one expert review session.

(c)Working Group Meetings

Each group shall hold at least four meetings per year, one of which shall be designated as its annual meeting, except as otherwise determined by the institute.

(d)Working Group Recommendations to the ICOC

Recommendations of each panel of the working groups may be forwarded to the ICOC only by a vote of a majority of a quorum of the members of each panel for that working group. If 35 percent of the members of any working group panel award scores in the funding range, a minority recommendation report, including a summary of the strengths and weaknesses of the application and a rebuttal to the majority recommendation, shall be submitted to the ICOC. The ICOC shall consider the recommendations of the working groups in making its decisions on applications for research and facility grants and loan awards and in adopting regulatory standards, policies, and programs. Each working group shall recommend to ICOC rules, procedures, and practices for that working group.

(e)Conflict of Interest

(1)The ICOC shall adopt conflict of interest rules, based on standards applicable to members of scientific review committees of the National Institutes of Health, to govern the participation of non-ICOC working group members.

(2)The ICOC shall appoint an ethics officer from among the staff of the institute.

(3)Because the working groups are purely advisory and have no final decisionmaking authority, members of the working groups shall not be considered public officials, employees, or consultants for purposes of the Political Reform Act (Title 9 (commencing with Section 81000) of the Government Code), Sections 1090 and 19990 of the Government Code, and Sections 10516 and 10517 of the Public Contract Code.

(f)Working Group Records

All records of the working groups submitted as part of the working groups™ recommendations to the ICOC for approval shall be subject to the Public Records Act. Except as provided in this subdivision, the working groups shall not be subject to the provisions of Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code, or Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code.

_(Amended by Stats. 2021, Ch. 615, Sec. 286. (AB 474) Effective January 1, 2022. Operative January 1, 2023,

pursuant to Sec. 463 of Stats. 2021, Ch. 615. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71. Amended November 3, 2020, by initiative Proposition 14, Sec. 14.)_

125290.55.

Scientific and Medical Accountability Standards Working Group

(a)Membership

The Scientific and Medical Accountability Standards Working Group shall have 19 members as follows:

(1)Five ICOC members from the 10 groups that focus on disease-specific areas described in paragraphs (3), (4), and (5) of subdivision (a) of Section 125290.20 or from the members appointed pursuant to paragraph (6) of subdivision (a) of Section 125290.20.

(2)Nine scientists and clinicians nationally recognized in the field of pluripotent and progenitor cell research.

(3)Four medical ethicists.

(4)The Chairperson of the ICOC.

(b)Functions

The Scientific and Medical Accountability Standards Working Group shall have the following functions:

(1)To recommend to the ICOC scientific, medical, and ethical standards.

(2)To recommend to the ICOC standards for all medical, socioeconomic, and financial aspects of clinical trials and therapy delivery to patients, including, among others, standards for safe and ethical procedures for obtaining materials and cells for research and clinical efforts for the appropriate treatment of human subjects in medical research consistent with paragraph (2) of subdivision (b) of Section 125290.35, and to ensure compliance with patient privacy laws.

(3)To recommend to the ICOC modification of the standards described in paragraphs (1) and (2) as needed.

(4)To make recommendations to the ICOC on the oversight of funded research to ensure compliance with the standards described in paragraphs (1) and (2).

(5)To advise the ICOC, the Scientific and Medical Research Funding Working Group, and the Scientific and Medical Research Facilities Working Group, on an ongoing basis, on relevant ethical and regulatory issues.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 15. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125290.60.

Scientific and Medical Research Funding Working Group

(a)Membership

The Scientific and Medical Research Funding Working Group shall have at least 23 members as follows:

(1)Seven ICOC members from the 12 disease advocacy group members described in paragraphs (3), (4), and (5) of subdivision (a) of Section 125290.20 or from the members described in paragraph (6) of subdivision (a) of Section 125290.20.

(2)At least 15 scientists nationally recognized in the field of stem cell research or other vital research opportunities, 15 of whom shall be designated to serve on each expert review panel.

(3)The Chairperson of the ICOC.

(b)Functions

The Scientific and Medical Research Funding Working Group shall perform the following functions:

(1)Recommend to the ICOC interim and final criteria, standards, and requirements for considering funding applications and for awarding research grants and loans.

(2)Recommend to the ICOC standards for the scientific and medical oversight of awards.

(3)Recommend to the ICOC any modifications of the criteria, standards, and requirements described in paragraphs (1) and (2) above as needed.

(4)Review grant and loan applications based on the criteria, requirements, and standards adopted by the ICOC and make recommendations to the ICOC for the award of research, therapy development, clinical trial, and therapy delivery grants and loans.

(5)Conduct expert peer review and progress oversight reviews of grantees to ensure compliance with the terms of the award, and report to the ICOC any recommendations for subsequent action.

(6)Recommend to the ICOC standards for the evaluation of grantees to ensure that they comply with all applicable requirements. Such standards shall mandate periodic reporting by grantees and shall authorize the Scientific and Medical Research Funding Working Group to audit a grantee and forward any recommendations for action to the ICOC.

(7)Recommend its first grant awards within 60 days of the issuance of the interim standards.

(c)Recommendations for Awards

Award recommendations shall be based upon a competitive evaluation as follows:

An expert peer review panel shall consist of both scientists and patient advocates. There shall be 15 scientists on each expert peer review panel. Only the scientist members of the Scientific and Medical Research Funding Working Group shall score grant and loan award applications for scientific merit. Such scoring shall be based on scientific merit in three separate classifications”research, therapy development, and clinical trials, on criteria including the following:

(1)A demonstrated record of achievement in the areas of pluripotent stem cell and progenitor cell biology

and medicine, or in other vital research opportunities.

(2)The quality of the research proposal, the potential for achieving significant research, or clinical results, the timetable for realizing such significant results, the importance of the research objectives, and the innovativeness of the proposed research.

(3)In order to ensure that institute funding does not duplicate or supplant existing funding, a high priority shall be placed on funding pluripotent stem cell and progenitor cell research that cannot, or is unlikely to, receive timely or sufficient federal funding, unencumbered by limitations that would impede the research. In this regard, other research categories funded by the National Institutes of Health shall not be funded by the institute, unless such research funding is not timely or sufficient.

(4)Notwithstanding paragraph (3), other scientific and medical research and technologies and/or any stem cell research proposal not actually funded by the institute under paragraph (3) may be funded by the institute if at least two-thirds of a quorum of the members of the Scientific and Medical Research Funding Working Group recommend to the ICOC, or if a majority of a quorum of the members of the ICOC determine, that such a research proposal is a vital research opportunity.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 16. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125290.65.

Scientific and Medical Facilities Working Group

(a)Membership

The Scientific and Medical Research Facilities Working Group shall have 11 members as follows:

(1)Six members of the Scientific and Medical Research Funding Working Group.

(2)Four real estate specialists.To be eligible to serve on the Scientific and Medical Research Facilities Working Group, a real estate specialist shall be a resident of California, shall be prohibited from receiving compensation from any construction or development entity providing specialized services for medical research facilities, and shall not provide real estate facilities brokerage services for any applicant for, or any funding by the Scientific and Medical Research Facilities Working Group and shall not receive compensation from any recipient of institute funding grants.

(3)The Chairperson of the ICOC.

(b)Functions

The Scientific and Medical Research Facilities Working Group shall perform the following functions:

(1)Make recommendations to the ICOC on interim and final criteria, requirements, and standards for applications for, and the awarding of, grants and loans for buildings, building leases, and capital equipment; those standards and requirements shall include, among others:

(A)Facility milestones and timetables for achieving such milestones.

(B)Priority for applications that provide for facilities that will be available for research no more than two years after the grant award.

(C)The requirement that all funded facilities and equipment be located solely within California.

(D)The requirement that grantees comply with reimbursable building cost standards, competitive building leasing standards, capital equipment cost standards, and reimbursement standards and terms recommended by the Scientific and Medical Facilities Funding Working Group, and adopted by the ICOC.

(E)The requirement that grantees shall pay all workers employed on construction or modification of the facility funded by facilities grants or loans of the institute, the general prevailing rate of per diem wages for work of a similar character in the locality in which work on the facility is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed as provided in Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code.

(F)The requirement that grantees be not-for-profit entities.

(G)The requirement that awards be made on a competitive basis, with the following minimum requirements:

(i)That the grantee secure matching funds from sources other than the institute equal to at least 20 percent of the award. Applications of equivalent merit, as determined by the Scientific and Medical Research Funding Working Group, considering research opportunities to be conducted in the proposed research facility, shall receive priority to the extent that they provide higher matching fund amounts. The Scientific and Medical Research Facilities Working Group may recommend waiving the matching fund requirement in extraordinary cases of high merit or urgency.

(ii)That capital equipment costs and capital equipment loans be allocated when equipment costs can be recovered in part by the grantee from other users of the equipment.

(2)Make recommendations to the ICOC on oversight procedures to ensure grantees™ compliance with the terms of an award.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125290.70.

Appropriation and Allocation of Funding

(a)Moneys in the California Stem Cell Research and Cures Fund shall be allocated as follows:

(1)(A)No less than 97 percent of the proceeds of the bonds authorized pursuant to Section 125291.30, after allocation of bond proceeds to purposes described in paragraphs (4) and (5) of subdivision (a) of Section 125291.20, shall be used for grants and grant oversight as provided in this chapter.

(B)Not less than 90 percent of the amount used for grants shall be used for research grants, with no more than the following amounts as stipulated below to be committed during the first 10 years of grant making by the institute, with each yearscommitments to be advanced over a period of one to seven years, except that any such funds that are not committed may be carried over to one or more following years. The maximum

amount of research funding to be allocated annually as follows: Year 1, 5.6 percent; Year 2, 9.4 percent; Year 3, 9.4 percent; Year 4, 11.3 percent; Year 5, 11.3 percent; Year 6, 11.3 percent; Year 7, 11.3 percent; Year 8, 11.3 percent; Year 9, 11.3 percent; and Year 10, 7.5 percent.

(C)Not more than 3 percent of the proceeds of bonds authorized by Section 125291.30 may be used by the institute for research and research facilities implementation costs, including the development, administration, and oversight of the grant making process and the operations of the working groups.

(2)Not more than 3 percent of the proceeds of the bonds authorized pursuant to Section 125291.30 shall be used for the costs of general administration of the institute.

(3)In any single year any new research funding to any single grantee for any program year is limited to no more than 2 percent of the total bond authorization under this chapter. This limitation shall be considered separately for each new proposal without aggregating any prior year approvals that may fund research activities. This requirement shall be determinative, unless 65 percent of a quorum of the ICOC approves a higher limit for that grantee.

(4)Recognizing the priority of immediately building facilities that ensure the independence of the scientific and medical research of the institute, up to 10 percent of the proceeds of the bonds authorized pursuant to Section 125291.30, net of costs described in paragraphs (2), (4), and (5) of subdivision (a) of Section 125291.20 shall be allocated for grants to build scientific and medical research facilities of nonprofit entities which are intended to be constructed in the first five years.

(5)The institute shall limit indirect costs to 25 percent of a research award, excluding amounts included in a facilities award, except that the indirect cost limitation may be increased by that amount by which the grantee provides matching funds in excess of 20 percent of the grant amount.

(b)To enable the institute to commence operating during the first six months following the adoption of the measure adding this chapter, there is hereby appropriated from the General Fund as a temporary start-up loan to the institute three million dollars ($3,000,000) for initial administrative and implementation costs. All loans to the institute pursuant to this appropriation shall be repaid to the General Fund within 12 months of each loan draw from the proceeds of bonds sold pursuant to Section 125291.30.

(c)The institutesfunding schedule is designed to create a positive tax revenue stream for the State of California during the institutesfirst five calendar years of operations, without drawing funds from the General Fund for principal and interest payments for those first five calendar years.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125290.70.5.

Appropriation and Allocation of Funding

(a)Moneys in the California Stem Cell Research and Cures Fund shall be allocated as follows:

(1)(A)No less than 95.5 percent of the proceeds of the bonds authorized pursuant to Section 125291.110, net of bond proceeds allocated to purposes described in paragraphs (4) and (5) of subdivision (a) of Section 125291.100, shall be used for grants and grant oversight as provided in this chapter.

(B)Not less than 98 percent of the proceeds of bonds used for grants shall be used for research, therapy development, and therapy delivery grants, with no more than the following amounts, as stipulated below, to be committed during the first 10 years following the effective date of the initiative adding this subparagraph, with each yearsfunding commitments to be advanced over a period of one to seven years, except that any such funds that are not committed may be carried over to one or more following years. The maximum amount of research funding to be allocated annually is as follows: year 1, 11 percent; year 2, 11 percent; years 3 through 10, 9 percent; and year 11 and each year thereafter, 6 percent cumulatively. To accomplish the goals of Section 125290.75, up to 2 percent of the amount available for grants may be used for research consulting in support of access to, and the affordability of, treatments and cures arising from institute-funded research and therapy development and delivery, as determined by the governing board of the institute based on the recommendations of the Treatments and Cures Accessibility and Affordability Working Group and the president.

(C)Not more than 3 percent of the proceeds of bonds authorized by Section 125291.110 may be used by the institute for research and research facilities implementation costs, including the development, administration, and oversight of the grant-making process.

(2)(A)Not more than 3.5 percent of the proceeds of the bonds authorized pursuant to Section 125291.110 shall be used for the costs of general administration of the institute.

(B)Not more than 1 percent of the proceeds of the bonds authorized pursuant to Section 125291.110 may be used by the institute to pay for the costs of up to 15 full-time employees over 10 to 15 or more years, including, but not limited to, administrative support, facilities costs, salary, benefits, travel reimbursement, and meeting costs, to support the work of the institute to develop policies and programs to help Californians obtain access to human clinical trials, therapies, mitigating treatments, and cures arising from institute-funded research and to promote the accessibility and affordability of human clinical trials, treatments, and cures for Californians.

(3)In any single year, any new research funding to any single grantee for any program year is limited to no more than 1 percent of the total bonds authorized pursuant to Section 125291.110. This limitation shall be considered separately for each new proposal without aggregating any prior year approvals that may fund research activities. This requirement shall be determinative, unless 65 percent of a quorum of the ICOC approves a higher limit for that grantee.

(4)Up to 1.5 percent of the proceeds of the bonds authorized pursuant to Section 125291.110, net of costs described in paragraphs (2), (4), and (5) of subdivision (a) of Section 125291.100, shall be allocated for grants to build, equip, or fund operations of Community Care Centers of Excellence and up to one-half of 1 percent shall be allocated to build or equip shared labs, which are intended to be operational in the first five years following the effective date of the initiative adding this section. Funding received by a grantee from an institute award for construction shall be subject to prevailing wage laws.

(5)The institute shall limit indirect costs to no more than 25 percent of a research award, excluding amounts included in a facilities award, except that the indirect cost limitation may be increased by that amount by which the grantee provides matching funds in excess of 20 percent of the grant amount.

(b)The institutesfunding schedule is designed to create a positive tax revenue stream for the State of California during the first five calendar years following the voters™ approval of the initiative adding this section, without drawing funds from the state General Fund for principal and interest payments for those first five calendar years.

(c)The institute shall allocate at least one billion five hundred million dollars ($1,500,000,000) of the proceeds

of the bonds authorized pursuant to Section 125291.110 to make grants for research, therapy development, and therapy delivery involving diseases and conditions of the brain and central nervous system, including, but not limited to, Alzheimersdisease, Parkinsonsdisease, stroke, dementia, epilepsy, schizophrenia, depression, traumatic brain injury, brain cancer, and autism, and for grant oversight and general administration costs associated with these grants and loans, subject to the limits in subparagraph (C) of paragraph (1) and subparagraph (A) of paragraph (2) of subdivision (a).

(d)The allocation of the proceeds of bonds authorized pursuant to Section 125291.30 shall continue to be governed by Section 125290.70.

(Added November 3, 2020, by initiative Proposition 14, Sec. 17. Effective on December 16, 2020.)

125290.71.

Under the guidance of the ICOC, the institute shall, by January 31, 2012, create a transition plan addressing the expiration of current bond funding. A copy of the transition plan shall be transmitted to the Governor, the Controller, and the Legislature within 30 days of its completion.

(Added by Stats. 2010, Ch. 637, Sec. 7. (SB 1064) Effective January 1, 2011.)

125290.72.

Expand Alpha Stem Cell Clinic Program and Establish Community Care Centers of Excellence Program

(a)The institute shall expand the Alpha Stem Cell Clinic Program and establish the Community Care Centers of Excellence Program to fund the establishment of centers of excellence where clinical trials are conducted and treatments and cures are made available for all patients. The goal of the Community Care Centers of Excellence Program is to expand the capacity of the Alpha Stem Cell Clinic Program to promote access to human clinical trials and the accessibility of treatments and cures arising from institute-funded research for patients in California by establishing geographically diverse centers of excellence to conduct clinical trials and to seek to make the resulting treatments and cures broadly available to California patients.

(b)The institute shall prioritize the funding of applications for Community Care Centers of Excellence that enhance the geographic distribution of Community Care Centers of Excellence across the state, considering the location of the Alpha Stem Cell Clinics, to promote patient access. The institute shall prioritize applications for Alpha Stem Cell Clinics and Community Care Centers of Excellence that offer matching funds or verified in-kind support, consistent with the highest medical standards, as established by the governing board of the institute.

(c)Applications for Alpha Stem Cell Clinic and Community Care Centers of Excellence grants shall be required to include a plan for enhancing access to clinical trials for California patients and making treatments and cures that arise from institute-funded research more widely available to California patients, including addressing how the applicant will support the ancillary hospital and access costs of patients participating in clinical trials to enhance access to trials for California patients, regardless of their economic means and geographical location.

(d)Alpha Stem Cell Clinic and Community Care Centers of Excellence awards shall be made pursuant to the

procedures set forth in Article 1 (commencing with Section 125290.10) of Chapter 3 of Part 5 of Division 106.

(Added November 3, 2020, by initiative Proposition 14, Sec. 4. Effective on December 16, 2020.)

125290.73.

Scientific and Medical Training and Fellowship Programs

(a)The institute shall establish training and fellowship programs. The goal of the training and fellowship programs shall be to:

(1)Ensure that California has the workforce necessary to move new discoveries from the research stage to the clinic.

(2)Accelerate the accessibility of treatments and cures, and make treatments and cures arising from institute-funded research available to California patients.

(3)Prepare California undergraduates and mastersstudents for careers in stem cell research and other vital research opportunities and in the development and delivery of treatments and cures.

(4)Support graduate students, postdoctoral students, and medical students, including, but not limited to, interns, residents, and graduate fellows who work in the fields of stem cell and other vital research opportunities and in the development and delivery of treatments and cures, with fellowships.

(b)(1)(A)The program shall provide awards to California Community Colleges and California State University campuses to establish training programs to prepare undergraduates and provide fellowships for mastersgraduate students for advanced degrees and technical careers in stem cell research and other vital research opportunities and the development and delivery of treatments and cures, including hands-on training and education in stem cell research and other vital research opportunities and in the development and delivery of treatments and cures. Direct patient engagement and outreach activities that engage Californiasdiverse communities to ensure that all communities are aware of, and have access to, institute-funded treatments and cures shall be a priority outcome of this program. The institute shall prioritize the funding of applications from institutions that enhance the geographic distribution of training across the state and socio-economic diversity and applications that offer matching funds or verified in-kind support.

(B)The institute may establish coinvestment, sponsored apprenticeships as part of the training program in order to leverage the institutesfunding and create employment opportunities for students in technical positions that advance the fields of stem cell and other vital research opportunities and the development and delivery of treatments and cures.

(2)(A)The fellowship program shall provide awards to academic and nonprofit research institutions in California to administer fellowship awards to graduate and postdoctoral students and medical school students, including, but not limited to, interns, residents, and graduate fellows, engaged in stem cell research and other vital research opportunities and the development and delivery of treatments and cures. Fellowship awards may be freestanding or supplemental of other sources of funding.

(B)The institute may establish a program to empower fellows to work in Alpha Stem Cell Clinics and Community Care Centers of Excellence as part of their participation in the fellowship program.

(c)Training and fellowship program awards shall be made pursuant to the procedures set forth in Article 1 (commencing with Section 125290.10) of Chapter 3 of Part 5 of Division 106.

(Added November 3, 2020, by initiative Proposition 14, Sec. 5. Effective on December 16, 2020.)

125290.74.

Shared Research Laboratory Program

(a)The institute shall reestablish a Shared Research Laboratory Program to provide funding to academic and nonprofit research institutions in California for specialized instrumentation, a supply of cell lines, culture materials, and instruction and training in research methods and techniques. Awardees of Shared Research Laboratory grants shall be required to offer use of the research laboratory to investigators conducting research at the awardee institution and provide a reasonable access plan for neighboring research institutions, and to offer instruction and training opportunities to students and investigators at the awardee institution and provide a reasonable access plan for neighboring research institutions.

(b)The institute shall prioritize the funding of applications that enhance the geographic distribution of Shared Research Laboratories across the state and applications that offer matching funds or verified in-kind support.

(c)Shared Research Laboratory Program awards shall be made pursuant to the procedures set forth in Article 1 (commencing with Section 125290.10) of Chapter 3 of Part 5 of Division 106.

(Added November 3, 2020, by initiative Proposition 14, Sec. 6. Effective on December 16, 2020.)

125290.75.

Treatments and Cures Accessibility and Affordability Working Group

(a)Membership

The Treatments and Cures Accessibility and Affordability Working Group shall have 17 members, nominated by the chairperson or vice chairperson and approved by the board, as follows:

(1)Five members of the ICOC (the governing board), with at least two of those members drawn from the appointments made pursuant to paragraph (3), (4), (5), or (6) of subdivision (a) of Section 125290.20.

(2)An individual who has private sector experience in innovative therapy medical coverage terms, qualifications, and the process for reimbursement, including, if possible, experience with coverage negotiations with private insurers, health management organizations, or corporate self-insurance health plans.

(3)An expert or a highly knowledgeable individual with experience in federal therapy coverage, qualifications, and process for reimbursement, including, if possible, experience with the federal Centers for Medicare and Medicaid Services.

(4)An expert or a highly knowledgeable individual with experience in Californiaspublic insurance program (Covered California), coverage, qualifications, and the process for reimbursement of innovative therapies.

(5)Two representatives from hospitals in California that are participating in stem cell clinical trials or that are treating patients with federal Food and Drug Administration approved stem cell or genetic therapies.

(6)A representative from a philanthropic organization who has experience assisting patients with clinical trial access and affordability or with access to, and the affordability of, innovative therapies.

(7)Two representatives from patient advocacy organizations who have technical expertise or experience in coverage, qualifications, and the process for reimbursement of innovative therapies.

(8)A health care economist with experience in advising or negotiating with private insurers, government insurers, or corporate self-insurance programs on coverage for innovative therapies or human trials, including experience in assisting hospitals and clinics in covering financial gaps in coverage of the direct and indirect costs of innovative therapies.

(9)A patient navigator with training and experience helping patients obtain financial support from private insurers, public support, or nonprofit support, and helping patients obtain social service support to facilitate their participation in federal Food and Drug Administration approved human trials or their qualification for access and financial assistance for innovative therapies.

(10)The chairperson and vice chairperson of the governing board.

(b)Functions

The Treatments and Cures Accessibility and Affordability Working Group shall have the following functions:

(1)Examine, develop, and assist with the implementation of financial models to enhance the accessibility and affordability of treatments and cures arising from institute-funded research for Californians and to enhance access to clinical trials, including reimbursement alternatives for patient-qualified costs to help achieve the objective that reimbursement covers patient expenses, including, but not limited to, medical expenses, lodging, meals, and travel for research participants and their caregivers.

(2)Recommend to the governing board policies and programs to help Californians obtain access to human clinical trials and to make treatments and cures arising from institute-funded research available to California patients throughout California.

(3)Recommend to the governing board policies and programs to help Californians afford to participate in human clinical trials and to make treatments and cures arising from institute-funded research affordable to California patients, regardless of their financial means.

(4)Work with the Alpha Stem Cell Clinics and Community Care Centers of Excellence and other California health care institutions, and health care payors, including private insurers, government programs, and foundations, to develop model programs and coverage models to promote the access and affordability of treatments and cures arising from institute-funded research for California patients, regardless of their financial means, or the disease, injury, or health condition from which they suffer.

(5)Advise the governing board regarding the coverage criteria and the process for reimbursement of innovative therapies and cures arising from institute-funded research and made available to patients through publicly or privately funded programs in California with the goal of expanding access and affordability.

(Added November 3, 2020, by initiative Proposition 14, Sec. 7. Effective on December 16, 2020.)

125290.76.

Advisory Task Forces

(a)Membership

The chairperson and the president may appoint one or more advisory task forces to provide expert guidance to address specific objectives in areas under the institutesjurisdiction, including scientific, policy, ethical, financial, and technical matters. The chairperson and president shall each appoint an equal number of members with expertise in the area or areas for which advice is sought, including at least one member who has a patient advocate perspective.

(b)Functions

The advisory task forces shall advise the board through the chairperson and the president, regarding scientific, policy, financial, ethical, and technical matters under the institutesjurisdiction.

(c)Operations

(1)The advisory task forces shall be advisory only and their operations shall be subject to the requirements applicable to working groups pursuant to Section 125290.50, provided that the advisory task forces shall meet in public when they vote on policy recommendations.

(2)Members of the advisory task forces shall be subject to the conflict of interest requirements applicable to members of the working groups, provided that the advisory task forces shall not review, comment upon, or have jurisdiction over, any individual grant or loan approval.

(Added November 3, 2020, by initiative Proposition 14, Sec. 8. Effective on December 16, 2020.)

125290.80.

The intellectual property standards that the ICOC develops shall include:

(a)A requirement that each grantee or the exclusive licensee of the grantee submit a plan to CIRM to afford access to any drug that is, in whole or in part, the result of research funded by CIRM to Californians who have no other means to purchase the drug. The access plan must be consistent with industry standards at the time of commercialization in California, accounting for the size of the market for the drug, and the resources of the grantee or exclusive licensee.

(b)A requirement that the grantee or exclusive licensee either submit the plan required by subdivision (a), seek an extension from CIRM, or notify CIRM of its intention to seek a waiver, within 10 business days following final approval of the drug by the federal Food and Drug Administration. If the grantee seeks an extension, the plan must be submitted within 30 business days following final approval of the drug by the federal Food and Drug Administration. The plan shall be subject to the approval of CIRM, after a public

hearing and opportunity for public comment.

(c)A process by which the ICOC may waive the requirement in subdivision (a) if the ICOC determines, after a public hearing, that in the absence of the waiver, development and broad delivery of the drug will be unreasonably hindered or that the waiver will provide significant benefits that equal or exceed the benefits that would otherwise flow to the state pursuant to subdivision (a). The process shall include the requirement that a request for a waiver shall be posted on CIRMsInternet Web site for a minimum of 10 business days in advance of the public hearing and that CIRM shall notify the Legislature if the ICOC grants a waiver request, including the reasons that justified the waiver request.

(d)Procedures to protect from public disclosure proprietary information submitted by grantees and exclusive licensees to CIRM pursuant to this section.

(Added by Stats. 2010, Ch. 637, Sec. 8. (SB 1064) Effective January 1, 2011.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. California Stem Cell Research and Cures Bond Act [125290.10 - 125292.10]__

(Chapter 3 added November 2, 2004, by initiative Proposition 71, Sec. 5, a bond act.)

__ARTICLE 2. California Stem Cell Research and Cures Bond Act of 2004 [125291.10 - 125291.85]__

(Article 2 added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.10.

This article shall be known, and may be cited, as the California Stem Cell Research and Cures Bond Act of 2004.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.15.

As used in this article, the California Stem Cell Research and Cures Bond Act of 2004, the following terms have the following meaning:

(a)Act means the California Stem Cell Research and Cures Bond Act constituting Chapter 3 (commencing with Section 125290.10) of Part 5 of Division 106.

(b)Board or institute means the California Institute for Regenerative Medicine designated in accordance with subdivision (b) of Section 125291.40.

(c)Committee means the California Stem Cell Research and Cures Finance Committee created pursuant to subdivision (a) of Section 125291.40.

(d)Fund means the California Stem Cell Research and Cures Fund created pursuant to Section 125291.25.

(e)Interim debt means any interim loans pursuant to Sections 125291.60 and 125291.65, bond anticipation notes or commercial paper notes issued to make deposits into the fund and which will be paid from the proceeds of bonds issued pursuant to this article.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 18. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125291.20.

(a)Notwithstanding Section 13340 of the Government Code or any other provision of law, moneys in the fund are appropriated without regard to fiscal years to the institute for the purpose of (1) making grants or loans to fund research and construct facilities for research, all as described in and pursuant to the act, (2) paying general administrative costs of the institute (not to exceed 3 percent of the net proceeds of each sale of bonds), (3) paying the annual administration costs of the interim debt or bonds after December 31 of the fifth full calendar year after this article takes effect, (4) paying the costs of issuing interim debt, paying the annual administration costs of the interim debt until and including December 31 of the fifth full calendar year after this article takes effect, and paying interest on interim debt, if such interim debt is incurred or issued on or prior to December 31 of the fifth full calendar year after this article takes effect, and (5) paying the costs of issuing bonds, paying the annual administration costs of the bonds until and including December 31 of the fifth full calendar year after this article takes effect, and paying interest on bonds that accrues on or prior to December 31 of the fifth full calendar year after this article takes effect (except that such limitation does not apply to premium and accrued interest as provided in Section 125291.70). In addition, moneys in the fund or

other proceeds of the sale of bonds authorized by this article may be used to pay principal of or redemption premium on any interim debt issued prior to the issuance of bonds authorized by this article. Moneys deposited in the fund from the proceeds of interim debt may be used to pay general administrative costs of the institute without regard to the 3 percent limit set forth in (2) above, so long as such 3 percent limit is satisfied for each issue of bonds.

(b)Repayment of principal and interest on any loans made by the institute pursuant to this article shall be deposited in the fund and used to make additional grants and loans for the purposes of this act or for paying continuing costs of the annual administration of outstanding bonds.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.25.

The proceeds of interim debt and bonds issued and sold pursuant to this article shall be deposited in the State Treasury to the credit of the California Stem Cell Research and Cures Fund, which is hereby created in the State Treasury, except to the extent that proceeds of the issuance of bonds are used directly to repay interim debt.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.30.

Bonds in the total amount of three billion dollars ($3,000,000,000), not including the amount of any refunding bonds issued in accordance with Section 125291.75, or as much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this article and to be used and sold for carrying out the purposes of Section 125291.20 and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and shall constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both the principal of, and interest on, the bonds as the principal and interest become due and payable.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.35.

The bonds authorized by this article shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, as amended from time to time, except subdivisions (a) and (b) of Section 16727 of the Government Code apply to the bonds and to this article and are hereby incorporated in this article as though set forth in full in this article.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 19. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125291.40.

(a)Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds and interim debt authorized by this article, the California Stem Cell Research and Cures Finance Committee is hereby created. For purposes of this article, the California Stem Cell Research and Cures Finance Committee is the committee as that term is used in the State General Obligation Bond Law. The committee consists of the Treasurer, the Controller, the Director of Finance, the Chairperson of the California Institute for Regenerative Medicine, and two other members of the Independent Citizens Oversight Committee (as created by the act) chosen by the Chairperson of the California Institute for Regenerative Medicine, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b)For purposes of the State General Obligation Bond Law, the California Institute for Regenerative Medicine is designated the board.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.45.

(a)The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this article in order to carry out the actions specified in this article and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time. The bonds may bear interest which is includable in gross income for federal income tax purposes if the committee determines that such treatment is necessary in order to provide funds for the purposes of the act.

(b)The total amount of the bonds authorized by Section 125291.30 which may be issued in any calendar year, commencing in 2005, shall not exceed three hundred fifty million dollars ($350,000,000). If less than this amount of bonds is issued in any year, the remaining permitted amount may be carried over to one or more subsequent years.

(c)An interest-only floating rate bond structure will be implemented for interim debt and bonds until at least December 31 of the fifth full calendar year after this article takes effect, with all interest to be paid from proceeds from the sale of interim debt or bonds, to minimize debt service payable from the General Fund during the initial period of basic research and therapy development, if the committee determines, with the advice of the Treasurer, that this structure will result in the lowest achievable borrowing costs for the state during that five-year period considering the objective of avoiding any bond debt service payments, by the General Fund, during that period. Upon such initial determination, the committee may delegate, by resolution, to the Treasurer such authority in connection with issuance of bonds as it may determine, including, but not limited to, the authority to implement and continue this bond financing structure (including during any time following the initial five-year period) and to determine that an alternate financing plan would result in significant lower borrowing costs for the state consistent with the objectives related to the General Fund and to implement such alternate financing plan.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.50.

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.55.

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this article, an amount that will equal the total of the following:

(a)The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this article, as the principal and interest become due and payable.

(b)The sum necessary to carry out Section 125291.60 appropriated without regard to fiscal years.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.60.

For the purpose of carrying out this article, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts, not to exceed the amount of the unsold bonds that have been authorized by the committee, to be sold for the purpose of carrying out this article, excluding any refunding bonds authorized pursuant to Section 125291.75, less any amount loaned pursuant to Section 125291.65 and not yet repaid, and any amount withdrawn from the General Fund pursuant to this section and not yet returned to the General Fund. Any amount withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from money received from the sale of bonds for the purpose of carrying out this article.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 20. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125291.65.

The institute may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account in accordance with Section 16312 of the Government Code for the purposes of carrying out this article, excluding any refunding bonds authorized pursuant to Section 125291.75, less any amount loaned pursuant to this section and not yet repaid, and any amount withdrawn from the General Fund

pursuant to Section 125291.60 and not yet returned to the General Fund. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this article. The institute shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the institute in accordance with this article.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 21. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125291.70.

All money deposited in the fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest, except that amounts derived from premium may be reserved and used to pay costs of issuance prior to any transfer to the General Fund.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 22. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125291.75.

The bonds issued and sold pursuant to this article may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this article includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this article or any previously issued refunding bonds. Any bond refunded with the proceeds of refunding bonds as authorized by this section may be legally defeased to the extent permitted by law in the manner and to the extent set forth in the resolution, as amended from time to time, authorizing that refunded bond.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 23. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125291.80.

Notwithstanding any provision of this article or the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this article that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or to take any other action with respect to the investment and use of bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

125291.85.

Inasmuch as the proceeds from the sale of bonds authorized by this article are not proceeds of taxes as that term is used in Article XIII‰B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

(Added November 2, 2004, by initiative Proposition 71, Sec. 5.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=106.&title=&part=5.&chapter=3.&article=2.5.

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5. HEREDITARY DISEASES/CONGENITAL DEFECTS [124975 - 125292.10]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 3. California Stem Cell Research and Cures Bond Act [125290.10 - 125292.10]__

(Chapter 3 added November 2, 2004, by initiative Proposition 71, Sec. 5, a bond act.)

__ARTICLE 2.5. California Stem Cell Research, Treatments, and Cures Bond Act of 2020 [125291.90 - 125291.165]__

(Article 2.5 added November 3, 2020, by initiative Proposition 14, Sec. 24.)

125291.90.

This article shall be known, and may be cited, as the California Stem Cell Research, Treatments, and Cures Bond Act of 2020.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.95.

As used in this article, the following terms have the following meanings:

(a)Act means the California Stem Cell Research and Cures Act constituting this chapter, as amended by the California Stem Cell Research, Treatments, and Cures Initiative of 2020.

(b)Board or institute means the California Institute for Regenerative Medicine designated in accordance with subdivision (b) of Section 125291.120.

(c)Committee means the California Stem Cell Research and Cures Finance Committee created pursuant to subdivision (a) of Section 125291.40 and designated in accordance with subdivision (a) of Section 125291.120.

(d)Fund means the California Stem Cell Research, Treatments, and Cures Fund of 2020 created pursuant to Section 125291.105.

(e)Interim debt means any interim loans pursuant to Sections 125291.140 and 125291.145, bond anticipation notes, or commercial paper notes issued to make deposits into the fund and that will be paid from the proceeds of bonds issued pursuant to this article.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.100.

(a)Notwithstanding Section 13340 of the Government Code or any other provision of law, moneys in the fund are appropriated without regard to fiscal years to the institute for the following purposes:

(1)Making grants or loans to fund research and construct facilities for research, all as described in and pursuant to Section 125290.70.5.

(2)Paying general administrative costs of the institute (not to exceed 3.5 percent in accordance with subparagraph (A) of paragraph (2) of subdivision (a) of Section 125290.70.5).

(3)Paying the annual administration costs of any interim debt or bonds after December 31 of the fifth full calendar year after this section takes effect.

(4)Paying the costs of issuing interim debt, paying the annual administration costs of the interim debt until and including December 31 of the fifth full calendar year after this section takes effect, and paying interest on interim debt, if such interim debt is incurred or issued on or prior to December 31 of the fifth full calendar

year after this section takes effect.

(5)Paying the costs of issuing bonds, paying the annual administration costs of the bonds until and including December 31 of the fifth full calendar year after this section takes effect, and paying interest on bonds that accrues on or prior to December 31 of the fifth full calendar year after this section takes effect, except that such limitation does not apply to premium and accrued interest as provided in Section 125291.150.

(b)Moneys in the fund or other proceeds of the sale of bonds authorized by this article may be used to pay principal of, redemption price, including accrued interest, or premium on any interim debt issued prior to the initial issuance of bonds authorized by this article. Moneys deposited in the fund from the proceeds of interim debt may be used to pay general administrative costs of the institute without regard to the 3.5 percent limit set forth in paragraph (2) of subdivision (a), so long as such 3.5 percent limit is satisfied for each issue of bonds.

(c)Repayment of principal and interest on any loans made by the institute pursuant to this article shall be deposited in the fund and used for the purposes of Section 125290.70.5, including the institutesadministrative costs, or for paying continuing costs of the annual administration of outstanding bonds.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.105.

The proceeds of interim debt and bonds issued and sold pursuant to this article shall be deposited in the State Treasury to the credit of the California Stem Cell Research and Cures Fund of 2020, which is hereby created in the State Treasury, except to the extent that proceeds of the issuance of bonds are used directly to repay interim debt.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.110.

Bonds in the total amount of five billion five hundred million dollars ($5,500,000,000), not including the amount of any refunding bonds issued in accordance with Section 125291.155, or as much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this article, to be used and sold for carrying out the purposes of Section 125291.100, and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and shall constitute a valid and binding obligation of the state, and the full faith and credit of the state is hereby pledged for the punctual payment of both the principal of, and interest on, the bonds as the principal and interest become due and payable.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.115.

The bonds authorized by this article shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) and all of the provisions of that law, as amended from time to time, except subdivisions (a) and (b) of Section 16727 apply to the bonds and to this article and are hereby incorporated in this article as though set forth in full in this article.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.120.

(a)Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), of the bonds and interim debt authorized by this article, the California Stem Cell Research and Cures Finance Committee, established pursuant to Section 125291.40, is hereby designated as the committee as that term is used in the State General Obligation Bond Law.

(b)For purposes of the State General Obligation Bond Law, the California Institute for Regenerative Medicine Governing Board is designated the board.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.125.

(a)The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this article in order to carry out the actions specified in this article and, if so, the amount of bonds to be issued and sold. The Treasurer shall use reasonable efforts to sell bonds with pricing at par or better and to pay the issuance costs out of premium if reasonably achievable and in the best interests of the state, at the Treasurersdiscretion. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time. The bonds may bear interest, which is includable in gross income for federal income tax purposes if the committee determines that such treatment is necessary in order to provide funds for the purposes of the act. The costs of each bond issue sold on or after the 61st month after this article takes effect shall be at the discretion of the Treasurer and may be amortized over or up to a 40-year period.

(b)The total amount of the bonds authorized by Section 125291.110 that may be issued in any calendar year, commencing in 2021, shall not exceed a cumulative average of five hundred forty million dollars ($540,000,000). If less than this amount of bonds is issued in any year, the remaining permitted amount may be carried over to one or more subsequent years. Pursuant to Section 125291.140, the Director of Finance may, in the directorsdiscretion, authorize a loan from the General Fund to the institute on or after the effective date of this article.

(c)Until December 31 of the fifth full calendar year after this section becomes effective, all interest on any interim debt or bonds issued under this article will be paid from proceeds from the sale of that interim debt or bonds in accordance with the objective of this initiative of avoiding any debt service payments by the General Fund, both principal and interest, during the initial period of basic research and therapy development following the effective date of this section.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.130.

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds becoming due each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.135.

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this article, an amount that will equal the total of the following:

(a)The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this article, as the principal and interest become due and payable.

(b)The sum necessary to carry out Section 125291.140, appropriated without regard to fiscal years.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.140.

For purposes of carrying out this article, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts, not to exceed the amount of the unsold bonds that have been authorized by the committee, to be sold for the purpose of carrying out this article, excluding any refunding bonds authorized pursuant to Section 125291.155, less any amount loaned pursuant to Section 125291.145 and not yet repaid, and any amount withdrawn from the General Fund pursuant to this section and not yet returned to the General Fund. Any amount withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from money received from the sale of bonds for the purpose of carrying out this article.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.145.

The institute may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account in accordance with Section 16312 of the Government Code for the purposes of carrying

out this article. The amount of the loan shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this article excluding any refunding bonds authorized pursuant to Section 125291.155, less any amount loaned pursuant to this section and not yet repaid, and any amount withdrawn from the General Fund pursuant to Section 125291.140 and not yet returned to the General Fund. The institute shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the institute in accordance with this article.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.150.

All money deposited in the fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest, except the amounts derived from premium may be reserved and used to pay costs of issuance prior to any transfer to the General Fund.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.155.

The bonds issued and sold pursuant to this article may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this article includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this article or any previously issued refunding bonds. Any bond refunded with the proceeds of refunding bonds as authorized by this section may be legally defeased to the extent permitted by law in the manner and to the extent set forth in the resolution, as amended from time to time, authorizing that refunded bond.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.160.

Notwithstanding any provision of this article or the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), if the Treasurer sells bonds pursuant to this article that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, under designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or to take any other action with respect to the investment and use of bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125291.165.

The proceeds from the sale of bonds authorized by this article are not proceeds of taxes as that term is used in Article XIIIB of the California Constitution, and the disbursement of these proceeds is not subject to the limitations imposed by that article.

(Added November 3, 2020, by initiative Proposition 14, Sec. 24. Effective on December 16, 2020.)

125292.10.

Definitions

As used in this chapter and in Article XXXV of the California Constitution, the following terms have the following meanings:

(a)Act means the California Stem Cell Research and Cures Bond Act constituting Chapter 3 (commencing with Section 125290.10) of Part 5 of Division 106 of the Health and Safety Code.

(b)Adult stem cell means an undifferentiated cell found in a differentiated tissue in an adult organism that can renew itself and may, with certain limitations, differentiate to yield all the specialized cell types of the tissue from which it originated, including a cell that is committed to make all of the functional cells of the tissue or organ where it resides and regenerates but that is itself undifferentiated.

(c)Basic research means the investigation of basic mechanisms underlying stem cell biology, cellular plasticity, cellular differentiation, and other vital research opportunities.

(d)Capitalized interest means interest funded by bond proceeds.

(e)Committee means the California Stem Cell Research and Cures Finance Committee created pursuant to subdivision (a) of Section 125291.40.

(f)Constitutional officers means the Governor, Lieutenant Governor, Treasurer, and Controller of California.

(g)Early development means discovery of promising new stem cell-based technologies that could be translated to enable broad use and ultimately improve patient care.

(h)Facilities means buildings, building leases, or capital equipment.

(i)Floating-rate bonds means bonds which do not bear a fixed rate of interest until their final maturity date, including commercial paper notes.

(j)Fund means the California Stem Cell Research and Disease Cures Fund created pursuant to Section 125291.25.

(k)Grant means a grant, loan, or guarantee.

(l)Grantee means a recipient of a grant from the institute. All University of California grantee institutions shall be considered as separate and individual grantee institutions.

(m)Human reproductive cloning means the practice of creating or attempting to create a human being by transferring the nucleus from a human cell into an egg cell from which the nucleus has been removed for the purpose of implanting the resulting product in a uterus to initiate a pregnancy.

(n)Indirect costs mean the recipientscosts in the administration, accounting, general overhead, and general support costs for implementing a grant or loan of the institute. NIH definitions of indirect costs will be utilized as one of the bases by the Scientific and Medical Research Standards Working Group to create a guideline for recipients on this definition, with modifications to reflect guidance by the ICOC and this act.

(o)Institute means the California Institute for Regenerative Medicine.

(p)Interim standards means temporary standards that perform the same function as emergency regulations under the Administrative Procedure Act (Government Code, Title 2, Division 3, Part 1, Chapter 3.5, Sections 11340 et seq.) except that in order to provide greater opportunity for public comment on the permanent regulations, remain in force for 270 days rather than 180 days.

(q)Life science commercial entity means a firm or organization, headquartered in California, whose business model includes biomedical or biotechnology product development and commercialization.

(r)Medical ethicist means an individual with advanced training in ethics who holds a Ph.D., MA, or equivalent training in the biological sciences or the field of clinical medicine or clinical ethics and who spends or has spent substantial time (1) researching and writing on ethical issues related to medicine, and (2) administering ethical safeguards during the clinical trial process, particularly through service on institutional review boards.

(s)Pluripotent cells means cells that are capable of self-renewal, and have broad potential to differentiate into multiple adult cell types. Pluripotent stem cells may be derived from somatic cell nuclear transfer or from surplus products of in vitro fertilization treatments when such products are donated under appropriate informed consent procedures. These excess cells from in vitro fertilization treatments would otherwise be intended to be discarded if not utilized for medical research.

(t)Progenitor cells means multipotent or precursor cells that are partially differentiated but retain the ability to divide and give rise to differentiated cells.

(u)Quorum means at least 65 percent of the members who are eligible to vote.

(v)Research donor means a human who donates biological materials for research purposes after full disclosure and consent.

(w)Research funding includes interdisciplinary scientific and medical funding for all stages of research, including, but not limited to, stem cell discovery research, early development, translational research, therapy development, and the development of treatments through clinical trials, including, without limitation, the

reimbursement of patient-qualified costs for research participants and their caregivers pursuant to paragraph (4) of subdivision (b) of Section 125290.35; the operations of the working groups, including the costs associated with the expert review of applications; the costs of advisory groups and consultants established or retained to evaluate and advise the governing board, the working groups, and awardees; and research conferences. When a facilitysgrant or loan has not been provided to house all elements of the research, therapy development, and/or clinical trials, research funding shall include an allowance for a market lease rate of reimbursement for the facility. In all cases, operating costs of the facility, including, but not limited to, library and communication services, utilities, maintenance, janitorial, and security, shall be included as direct research funding costs. Legal costs of the institute incurred in order to negotiate standards with federal and state governments and research institutions; to implement standards or regulations; to resolve disputes; and/or to carry out all other actions necessary to defend and/or advance the institutesmission shall be considered direct research funding costs.

(x)Research participant means a human enrolled with full disclosure and consent, and participating in clinical trials.

(y)Research program means research projects that are designed to advance the same ultimate goal along the research continuum and that are conducted by the same or overlapping investigators.

(z)Revenue positive means all state tax revenues generated directly and indirectly by the research and facilities of the institute are greater than the debt service on the state bonds actually paid by the General Fund in the same year.

(aa)Stem cells mean nonspecialized cells that have the capacity to divide in culture and to differentiate into more mature cells with specialized functions.

(ab)Stem cell discovery research means basic research, early development, and the discovery, evaluation, or improvement of tools and technologies in the fields of stem cell and genetic research and other vital research opportunities.

(ac)Vital research opportunity means scientific and medical research and technologies, including, but not limited to, genetics, personalized medicine, and aging as a pathology, and/or any stem cell research not actually funded by the institute under paragraph (3) of subdivision (c) of Section 125290.60 which provides a substantially superior research opportunity, vital to advance medical science as determined by at least a two-thirds vote of a quorum of the members of the Scientific and Medical Research Funding Working Group and recommended as such by that working group to the ICOC, or as determined by the vote of a majority of a quorum of members of the ICOC. Human reproductive cloning shall not be a vital research opportunity.

(Amended November 3, 2020, by initiative Proposition 14, Sec. 25. Effective on December 16, 2020. Note: This section was added on Nov. 2, 2004, by initiative Prop. 71.)

125315.

(a) A physician and surgeon or other health care provider delivering fertility treatment shall provide his or her patient with timely, relevant, and appropriate information to allow the individual to make an informed and voluntary choice regarding the disposition of any human embryos remaining following the fertility treatment. The failure to provide to a patient this information constitutes unprofessional conduct within the meaning of Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code.

(b) Any individual to whom information is provided pursuant to subdivision (a) shall be presented with the option of storing any unused embryos, donating them to another individual, discarding the embryos, or donating the remaining embryos for research. When providing fertility treatment, a physician and surgeon or other health care provider shall provide a form to the male and female partner, or the individual without a partner, as applicable, that sets forth advanced written directives regarding the disposition of embryos. This form shall indicate the time limit on storage of the embryos at the clinic or storage facility and shall provide, at a minimum, the following choices for disposition of the embryos based on the following circumstances:

(1) In the event of the death of either the male or female partner, the embryos shall be disposed of by one of the following actions:

(A) Made available to the living partner.

(B) Donation for research purposes.

(C) Thawed with no further action taken.

(D) Donation to another couple or individual.

(E) Other disposition that is clearly stated.

(2) In the event of the death of both partners or the death of a patient without a partner, the embryos shall be disposed of by one of the following actions:

(A) Donation for research purposes.

(B) Thawed with no further action taken.

(C) Donation to another couple or individual.

(D) Other disposition that is clearly stated.

(3) In the event of separation or divorce of the partners, the embryos shall be disposed of by one of the

following actions:

(A) Made available to the female partner.

(B) Made available to the male partner.

(C) Donation for research purposes.

(D) Thawed with no further action taken.

(E) Donation to another couple or individual.

(F) Other disposition that is clearly stated.

(4) In the event of the partners™ decision or a patientsdecision who is without a partner, to abandon the embryos by request or a failure to pay storage fees, the embryos shall be disposed of by one of the following actions:

(A) Donation for research purposes.

(B) Thawed with no further action taken.

(C) Donation to another couple or individual.

(D) Other disposition that is clearly stated.

(c) A physician and surgeon or other health care provider delivering fertility treatment shall obtain written consent from any individual who elects to donate embryos remaining after fertility treatments for research. For any individual considering donating the embryos for research, to obtain informed consent, the health care provider shall convey all of the following to the individual:

(1) A statement that the early human embryos will be used to derive human pluripotent stem cells for research and that the cells may be used, at some future time, for human transplantation research.

(2) A statement that all identifiers associated with the embryos will be removed prior to the derivation of human pluripotent stem cells.

(3) A statement that donors will not receive any information about subsequent testing on the embryo or the derived human pluripotent cells.

(4) A statement that derived cells or cell lines, with all identifiers removed, may be kept for many years.

(5) Disclosure of the possibility that the donated material may have commercial potential, and a statement that the donor will not receive financial or any other benefits from any future commercial development.

(6) A statement that the human pluripotent stem cell research is not intended to provide direct medical benefit to the donor.

(7) A statement that early human embryos donated will not be transferred to a womansuterus, will not survive the human pluripotent stem cell derivation process, and will be handled respectfully, as is appropriate for all human tissue used in research.

(Added by renumbering Section 125116 by Stats. 2003, Ch. 507, Sec. 3. Effective January 1, 2004.)

125320.

(a) A person may not knowingly, for valuable consideration, purchase or sell embryonic or cadaveric fetal tissue for research purposes pursuant to this chapter.

(b) For purposes of this section, valuable consideration does not include reasonable payment for the removal, processing, disposal, preservation, quality control, storage, transplantation, or implantation of a part.

(c) Embryonic or cadaveric fetal tissue may be donated for research purposes pursuant to this chapter.

(Added by renumbering Section 125117 by Stats. 2003, Ch. 507, Sec. 4. Effective January 1, 2004.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5.5. USE OF HUMAN CELLS [125300 - 125356]__

(Part 5.5 heading added by Stats. 2003, Ch. 507, Sec. 5.)

__CHAPTER 1.5. Oocyte Retrieval For Fertility Treatment [125325 - 125325.15]__

(Chapter 1.5 added by Stats. 2009, Ch. 523, Sec. 1.)

125325.

(a)The person or entity posting an advertisement seeking oocyte donation associated with the delivery of fertility treatment that includes assisted oocyte production and a financial payment or compensation of any kind, shall include the following notice in a clear and conspicuous manner:

Egg donation involves a screening process. Not all potential egg donors are selected. Not all selected egg donors receive the monetary amounts or compensation advertised. As with any medical procedure, there may be risks associated with human egg donation. Before an egg donor agrees to begin the egg donation process, and signs a legally binding contract, she is required to receive specific information on the known risks of egg donation. Consultation with your doctor prior to entering into a donor contract is advised.

(b)A summary pertaining to oocyte donation procedures, shall be provided, as required pursuant to Section 125335, to all potential egg donors before signing a legally binding contract to become an egg donor, or beginning any egg donation procedures, as part of compliance with the informed consent requirements.

(c)Persons or entities that certify compliance with the American Society for Reproductive Medicine (ASRM) guidelines by registering with ASRM are exempt from the notice requirements set forth in subdivision (a). Use of the exemption when the guidelines are violated shall constitute false advertising.

(d)Donors recruited through the advertisement shall undergo the same disclosure, counseling, and informed consent process, as required pursuant to Section 125335, as donors recruited by those exempt from subdivision (a).

(Added by Stats. 2009, Ch. 523, Sec. 1. (AB 1317) Effective January 1, 2010.)

125325.15.

The following definitions shall apply to this chapter:

(a)Assisted oocyte production or AOP means surgical extraction of oocytes following pharmaceutically induced manipulation of oocyte production through the use of ovarian stimulation for the purposes of fertility treatment.

(b)Oocyte means a female egg or egg cell of a human female.

(Added by Stats. 2009, Ch. 523, Sec. 1. (AB 1317) Effective January 1, 2010.)

Codes Display Text

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 5.5. USE OF HUMAN CELLS [125300 - 125356]__

(Part 5.5 heading added by Stats. 2003, Ch. 507, Sec. 5.)

__CHAPTER 2. Procuring of Oocytes for Research [125330 - 125356]__

(Chapter 2 added by Stats. 2006, Ch. 483, Sec. 7.)

125330.

The following definitions apply to this chapter:

(a)Alternate method of oocyte retrieval means a method of oocyte retrieval that does not involve the pharmaceutically induced manipulation of oocyte production.

(b)Assisted oocyte production or AOP means surgical extraction of oocytes following pharmaceutically induced manipulation of oocyte production through the use of ovarian stimulation.

(c)Informed consent means a research participant understands the material facts reasonably necessary to make a determination to participate or to refuse from participating in the medical research without the intervention of any element of force, fraud, deceit, duress, coercion, or undue influence on the research participantsdecision.

(d)Institutional review board means a body established in accordance with federal regulations, including Part 46 (commencing with Section 46.101) of Subchapter A of Subtitle A of Title 45 of the Code of Federal Regulations.

(e)Oocyte means a female egg or egg cell of a human female.

(f)Research participant means any person undergoing AOP or any alternative method of ovarian retrieval for research or for the development of medical therapies, including those who would not meet the definition of subject under 45 C.F.R. 46.102. The protections afforded to human subjects under an institutional review board apply to research participants in this chapter.

(Amended by Stats. 2019, Ch. 864, Sec. 2. (AB 922) Effective January 1, 2020.)

125331.

(a)As used in this chapter, Research Participants Undergoing Oocyte Retrieval for Medical Research Purposes Bill of Rights means a list of the rights of a research participant providing human oocytes for the purposes of medical research. The list of rights shall be written in a language in which the research participant is fluent. The list shall incorporate all the rights and protections in this chapter, and include, but not be limited to, all of the following research participant rights as described in Section 24172:

(1)The right to be informed of the nature and purpose of the medical research.

(2)The right to be given an explanation of the procedures to be followed in the medical research, and any drug or device to be utilized.

(3)The right to be given a description of any attendant discomforts and reasonably foreseeable risks expected from participating in the medical research.

(4)The right to be given an explanation of any benefits to the research participant reasonably to be expected from the medical research, if applicable.

(5)The right to be given a disclosure of any appropriate alternative procedures, drugs, or devices that might be advantageous to the research participant, and their relative risks and benefits.

(6)The right to be informed of the avenues of medical treatment, if any, available to the research participant after the medical research if complications should arise.

(7)The right to be given an opportunity to ask any questions concerning the experiment or the procedures involved.

(8)The right to be instructed that consent to participate in the medical research may be withdrawn at any time and the research participant may discontinue participation in the medical research without prejudice.

(9)The right to be given a copy of the signed and dated written consent form as provided for by Section 24173 or Section 24178.

(10)The right to be given the opportunity to decide to consent or not to consent to a medical experiment without the intervention of any element of force, fraud, deceit, duress, coercion, or undue influence on the research participantsdecision.

(b)The rights provided by this section do not supersede, but are in addition to, the rights afforded a research participant pursuant to the Protection of Human Subjects in Medical Experimentation Act (Chapter 1.3 (commencing with Section 24170) of Division 20).

(Added by Stats. 2019, Ch. 864, Sec. 3. (AB 922) Effective January 1, 2020.)

125335.

(a)Prior to obtaining informed consent from a subject for AOP or any alternative method of ovarian retrieval on a subject for the purpose of procuring oocytes for research or the development of medical therapies, a physician and surgeon shall provide to the subject a standardized medically accurate written summary of health and consumer issues associated with AOP and any alternative methods of oocyte retrieval. The failure

to provide to a subject this standardized medically accurate written summary constitutes unprofessional conduct within the meaning of Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code.

(b)The summary shall include, but not be limited to, medically accurate disclosures concerning the potential risks of AOP or any alternative method of oocyte retrieval, including the risks associated with the surgical procedure and with using the drugs, medications, and hormones prescribed for ovarian stimulation during the AOP process or any alternative method of oocyte retrieval.

(c)For purposes of subdivision (a), written summary of health and consumer issues means the guide published and updated by the American Society for Reproductive Medicine entitled, Assisted Reproductive Technology: A Guide for Patients or an alternative written medically accurate document prepared by a recognized authority on oocyte retrieval for medical research that also meets the criteria included in this section. This alternative document may be one that has been approved and recommended by the State Department of Public Health pursuant to Section 125118 and shall include all of the following:

(1)The document shall adhere to simplified reading standards, including, but not limited to, those generally accepted and required for government publications. The document shall be written in laypersonslanguage and shall be made available in languages spoken by subjects in the study if their proficiency is largely in a language other than English. All information in the document shall be conveyed to the subject orally in easy to understand and nontechnical terms.

(2)The document shall include additional resources for, or list additional sources of, medical information on health and safety issues surrounding oocyte retrieval.

(Amended by Stats. 2007, Ch. 483, Sec. 34. Effective January 1, 2008.)

125340.

(a)Prior to providing AOP or any alternative method of ovarian retrieval to a research participant for the purposes of medical research or development of medical therapies, a physician and surgeon shall obtain written and oral informed consent for the procedure from the research participant. Informed consent for the purposes of this chapter shall include a signed acknowledgment of the rights contained in the Research Participants Undergoing Oocyte Retrieval for Medical Research Purposes Bill of Rights and comply with the informed consent requirements of the Protection of Human Subjects in Medical Experimentation Act (Chapter 1.3 (commencing with Section 24170) of Division 20).

(b)The failure to obtain written informed consent from the research participant constitutes unprofessional conduct within the meaning of Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code. This section does not relieve the physician and surgeon from other existing duties under the law, including, but not limited to, the duty to obtain a research participantsinformed consent after fully explaining the proposed procedure. The requirement that a physician and surgeon provide the standardized written summary pursuant to Section 125335 is in addition to, and does not supplant, other existing legal requirements regarding informed consent, including, but not limited to, compliance with the Protection of Human Subjects in Medical Experimentation Act (Chapter 1.3 (commencing with Section 24170) of Division 20).

(c)This chapter does not affect the suitability or availability of oocytes procured for research before January 1, 2007, if the oocytes were donated pursuant to protocols or standards that are generally recognized and

accepted by national or international scientific bodies.

(d)A written document required pursuant to this section shall adhere to simplified reading standards, including, but not limited to, those generally accepted and required for government publications, and in laypersonslanguage. The document shall be made available in languages spoken by research participants in the study if their proficiency is largely in a language other than English. All information in the written informed consent document shall also be conveyed to the research participant orally in easy to understand and nontechnical terms.

(e)Research conducted pursuant to this chapter shall adhere to federal regulations governing informed consent pursuant to Section 46.116 of Title 45 of the Code of Federal Regulations.

(f)This section does not limit or expand the right of an injured research participant to recover damages under any applicable law.

(Amended by Stats. 2019, Ch. 864, Sec. 4. (AB 922) Effective January 1, 2020.)

125341.

An institutional review board (IRB) that reviews and approves medical and scientific research shall require all of the following of any research program or project that comes under its review that involves AOP or any alternative method of oocyte retrieval:

(a)That it include a written summary as required under Section 125335 that would include information on health risks and potential adverse consequences of the procedure and describe the manner in which the research participant will receive and review this written summary.

(b)That it inform the research participant that ongoing studies are necessary to assess the long-term health impacts of ovarian stimulation and oocyte retrieval.

(c)That it obtain a signed acknowledgment of the Research Participants Undergoing Oocyte Retrieval for Medical Research Purposes Bill of Rights and obtain informed consent in compliance with the Protection of Human Subjects in Medical Experimentation Act (Chapter 1.3 (commencing with Section 24170) of Division 20), including informed consent for information obtained pursuant to Section 125342.

(d)That it provide the research participant with an objective and accurate statement about the existing state of the research for which the research participant is providing oocytes.

(e)That it perform psychological and physical screening, in accordance with the appropriate standard of care, for all research participants prior to the oocyte retrieval procedure.

(f)That it ensure that after conducting AOP or any alternative method of oocyte retrieval on a research participant the research participant be given a postprocedure medical examination at a time within the standard of care to determine if the research participant has experienced an adverse health effect that is a result of the procedure. The research participant shall be informed that they have the right to a second opinion if they have any medical concerns.

(g)That it ensure that the research participant has access to and coverage for medically appropriate medical care that is required as a direct result of the procedure for research purposes. The research program or

project shall ensure that payment or coverage of resulting medical expenses be provided at no cost to the research participant and that a summary of the arrangements the procuring entity has made for coverage or payment for medical care related to AOP or any alternative method of oocyte retrieval is provided to the research participant prior to the procedure.

(h)That it provide a summary informing the research participant that oocytes may not be sold or transferred for valuable consideration except as set forth in Section 125350.

(i)That it provide disclosure if the physician and surgeon and their immediate family members have any professional interest in the outcome of the research or of the oocyte retrieval procedure and, if so, that it provide disclosure that they carry the interest of both the research participant and the success of the research.

(Amended by Stats. 2019, Ch. 864, Sec. 5. (AB 922) Effective January 1, 2020.)

125342.

(a)A research program or project that involves AOP or any alternative method of oocyte retrieval shall ensure that a written record is established and maintained to include, but not be limited to, all of the following components:

(1)The demographics of subjects, including, but not limited to, their age, race, primary language, ethnicity, income bracket, education level, and the first three digits of the ZIP Code of current residence.

(2)Information regarding every oocyte that has been donated or used. This record should be sufficient to determine the provenance and disposition of those materials.

(3)A record of all adverse health outcomes, including, but not limited to, incidences and degrees of severity, resulting from the AOP or any alternative method of oocyte retrieval.

(b)(1)The information included in the written record pursuant to subdivision (a) shall not disclose personally identifiable information about subjects, and shall be confidential and is deemed protected by subject privacy provisions of law. This information shall be reported to the State Department of Public Health, which shall aggregate the data and make it publicly available, as set forth in paragraph (2), in a manner that does not reveal personally identifiable information about the subjects.

(2)The department shall provide public access to information that it is required to release pursuant to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code). The department shall disseminate the information to the general public via governmental and other websites in a manner that is understandable to the average person. The information shall be made available to the public when the biennial review pursuant to Section 125119.5 is provided to the Legislature.

(Amended by Stats. 2021, Ch. 615, Sec. 287. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

125343.

Any employee who works in the unit conducting stem cell research using human oocytes, persons who report to, or are supervised by, the principal investigator or key personnel of the project, or both, along with the principal investigator and the key personnel of the project, and the immediate family members of any of the above persons are prohibited from being a subject in the research.

(Added by Stats. 2006, Ch. 483, Sec. 7. Effective January 1, 2007.)

125344.

The physician and surgeon performing the AOP or any alternative method of oocyte retrieval shall not have a financial interest in the outcome of the research.

(Added by Stats. 2006, Ch. 483, Sec. 7. Effective January 1, 2007.)

125345.

Pursuant to guidelines adopted by the Research Council and Institute of Medicine of the National Academies, researchers shall offer subjects an opportunity to document their preferences regarding future uses of their donated materials. The consent process shall fully explore whether subjects have objections to any specific forms of research to ensure that their wishes are honored.

(Added by Stats. 2006, Ch. 483, Sec. 7. Effective January 1, 2007.)

125346.

Any procedures for procuring oocytes in this state for research or the development of medical therapies shall meet all of the standards for subjects included in this chapter. All oocytes procured outside of this state for research taking place in this state shall meet these same standards. All egg extractions for research shall be approved by an institutional review board pursuant to Section 125341.

(Added by Stats. 2006, Ch. 483, Sec. 7. Effective January 1, 2007.)

125350.

No human oocyte or embryo shall be acquired, sold, offered for sale, received, or otherwise transferred for valuable consideration for the purposes of medical research or development of medical therapies. For purposes of this section, valuable consideration does not include reasonable payment for the removal, processing, disposal, preservation, quality control, and storage of oocytes or embryos.

(Added by Stats. 2006, Ch. 483, Sec. 7. Effective January 1, 2007.)

125355.

(a)No payment in excess of the amount of reimbursement of direct expenses incurred as a result of the procedure shall be made to any subject to encourage the subject to produce human oocytes for the purposes of medical research.

(b)This section shall become operative on January 1, 2024.

(Repealed (in Sec. 7) and added by Stats. 2019, Ch. 864, Sec. 8. (AB 922) Effective January 1, 2020. Section operative January 1, 2024, by its own provisions.)

125356.

If an individual providing human oocytes for the purposes of fertility is compensated, and any human oocytes or embryos in excess of those needed for fertility are offered for research, the institutional review board shall disregard the amount of compensation if all of the following conditions are met:

(a)The individual in infertility treatment, after being provided with the necessary disclosures as required for research participants under subdivision (a) of Section 125335, makes the determination that the individual does not want or need the oocytes for their own reproductive success, and provides informed consent to donate the oocytes for medical research.

(b)The procurement and disposition for research purposes of human oocytes that were initially provided for reproductive uses, either for use by the donor or another individual, shall not knowingly compromise the optimal reproductive success of the individual in the infertility treatment.

(c)The infertility treatment protocol is established prior to requesting or obtaining consent for donation for research purposes and the prospect of donation for research does not alter the timing, method, or procedures selected for clinical care.

(d)The clinic performing oocyte retrieval is a member of the Society for Assisted Reproductive Technology.

(e)The donation of oocytes for research is done without valuable consideration.

(Added by Stats. 2019, Ch. 864, Sec. 9. (AB 922) Effective January 1, 2020.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 7. CHRONIC DISEASE SERVICES [125500 - 125555]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 1. Kidney Diseases-Chronic Uremia [125500 - 125545]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 8.)

125500.

(a) Up to four regional dialysis centers with up to two in the northern and up to two in the southern part of the state, shall be established for the treatment of persons suffering from chronic uremia. Each center shall be located in a metropolitan area and shall have an affiliation with a large hospital or medical school, but shall not be necessarily a physical part of the institution. These institutions, however, shall be able to provide a full range of medical, surgical and rehabilitation services. The department shall only act as a granting agency for state funds that are appropriated for the establishment and the continuation of the four centers.

The department, upon the advice of the review committee that is provided for by Section 125515, may contract with any hospital or medical care institution for the administration and operation of one of the regional dialysis centers. It is not the intent of this section that any new hospital or medical school be established.

(b) Any moneys appropriated by Chapter 1416 of the Statutes of 1972 may be used either in existing dialysis and kidney transplantation programs for children or to establish new programs for such purposes. Any new or existing dialysis center funded pursuant to this subdivision shall provide for children the same center dialysis, home dialysis, and outpatient clinic services as are provided under Section 125530. Any new center funded pursuant to this subdivision shall be designated as a pediatric renal failure center. Funds granted for aid to children under this subdivision shall be based upon need as determined by the Renal Dialysis Review Committee established pursuant to Section 125515 and an evaluation by the department of a countysability to fund their one-fourth share of a childscare under the Crippled ChildrensServices Program. The funds shall only cover costs not recoverable from direct or third party payments. A pediatric renal failure center may use funds provided under this subdivision for payment of costs for kidney transplantation services at any hospital that is authorized to perform these services by the department. For purposes of this subdivision, a child is any person 18 years of age or under.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125505.

The dialysis centers shall be designed primarily to provide lifesaving dialysis services to approximately 30 patients in each center. Funds shall be provided for developing home dialysis treatment services for approximately 20 patients in each center and the necessary specialized personnel and equipment to operate each center. Funds for construction of the centers shall also be provided. The centers shall develop and utilize newer methods of dialysis designed to make the process more efficient and economical and shall take into account other applications of the procedure such as home dialysis. Centers may seek the active participation and consultation from industry in order to streamline equipment and procedures for greater efficiency.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125510.

The dialysis centers shall also serve to provide training for medical and nursing personnel who will carry out dialysis services in other communities in the state. The dialysis centers may also work in close cooperation with other medical specialists who are seeking ways to develop successful means of kidney transplantation. Dialysis services are necessary as an adjunct to this type of medical investigation.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125515.

The director shall appoint a review committee, upon nomination of the represented party, not to exceed nine

members, at least four of whom shall be physicians, including at least one physician specializing in kidney transplantation and at least two physicians specializing in pediatric nephrology, one member to represent the University of California, one to represent a private organization or organizations concerned with kidney disease in California, one to represent the department, and two members to represent the lay public. The chairman of the committee shall be appointed by the Governor. This committee shall establish standards for the expenditure of state funds that are provided for the establishment and support of regional dialysis and transplantation centers to assure the availability of specialized personnel, resources, and equipment necessary to enable the centers to function and care for patients with severe uremia. The director shall choose from a list provided by the review committee the institutions that qualify under the standards established to receive grants of state funds to establish and continue a regional dialysis center. The review committee shall also examine periodically the performance of established regional dialysis centers and recommend continuation grants to the director. The members of the review committee shall serve for a two-year period and may be reappointed. Not more than half the membership of the committee shall be changed during any one year. The committee shall serve without compensation, but shall receive their necessary travel expenses.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125520.

The dialysis centers may also receive and make use of any outside source of funds that may become available from federal, voluntary, philanthropic, or other sources in order to augment state funds.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125525.

No resident of this state shall be denied treatment in any of the regional dialysis centers because of his or her place of residence, so long as he or she is able to transport himself to the center.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125530.

The funds that are provided by the state shall only be expended for the construction and equipment of the regional dialysis centers; equipment for and development of, home dialysis services; training of personnel and other expenses incident to the activation of the regional centers; services of dialysis and directly associated procedures; and treatment of complications that may result from dialysis. These funds shall not be utilized to pay for general medical care services that should come from private, local, other state or federal sources.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125535.

The department succeeds to and is vested with the duties, purposes, responsibilities, and jurisdiction heretofore exercised by the Department of Benefit Payments with respect to the payment of grants to and audit responsibility for regional dialysis centers under this chapter and for home dialysis training centers under Chapter 2 (commencing with Section 125550).

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125540.

The department shall have possession and control of all records, papers, equipment, and supplies held for the benefit or use of the Director of Benefit Payments in the performance of his or her duties, powers, purposes, responsibilities, and jurisdiction that are vested in the department by Section 125535.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125545.

All officers and employees of the Director of Benefit Payments who, on July 1, 1978, are serving in the state civil service, other than as temporary employees, and engaged in the performance of a function vested in the department by Section 125535 shall be transferred to the department. The status, positions, and rights of those persons shall not be affected by the transfer and shall be retained by them as officers and employees of the department pursuant to the State Civil Service Act, except as to positions exempt from civil service.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 7. CHRONIC DISEASE SERVICES [125500 - 125555]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 8.)

__CHAPTER 2. Home Dialysis Training Center [125550 - 125555]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 8.)

125550.

Up to three home dialysis training centers shall be established for the purpose of training persons suffering from chronic uremia for home dialysis. Each center shall have an affiliation with a large hospital or medical school, but shall utilize the most economical facilities for treatment. These institutions, however, shall be able to provide a full range of home dialysis training services. The department and the review committee established pursuant to Section 125515 shall exercise over the home dialysis training centers the same powers they exercise, pursuant to Chapter 1 (commencing with Section 125500), over regional dialysis centers.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

125555.

Each center shall contain approximately four dialysis bed units. The department shall grant to each center fifty thousand dollars ($50,000) during the first year, twenty-five thousand dollars ($25,000) during the second year, and twelve thousand five hundred dollars ($12,500) during the third year. The department shall grant to each center not to exceed five thousand dollars ($5,000) in the first year for the purchasing or leasing of equipment and not to exceed two thousand five hundred dollars ($2,500) in the first year for construction or remodeling of the physical facility.

(Added by Stats. 1995, Ch. 415, Sec. 8. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 8. ADULT HEALTH [125700 - 125710]__

(Heading of Part 8 amended by Stats. 2015, Ch. 303, Sec. 359.)

__CHAPTER 1. California Osteoporosis Prevention and Education Act [125700 - 125710]__

(Chapter 1 added by Stats. 1999, Ch. 819, Sec. 2.)

125700.

This chapter shall be known and may be cited as the California Osteoporosis Prevention and Education Act.

(Added by Stats. 1999, Ch. 819, Sec. 2. Effective January 1, 2000.)

125701.

It is the intent of the Legislature to promote public awareness of the causes of and options for the prevention of osteoporosis, to educate the public regarding the prevention and management of osteoporosis, and to improve management of osteoporosis, and thereby to minimize the impact of this debilitating disease.

(Added by Stats. 1999, Ch. 819, Sec. 2. Effective January 1, 2000.)

125702.

There is hereby created within the department the California Osteoporosis Prevention and Education Program. The target population for this program shall be persons of age 50 years or older.

(Added by Stats. 1999, Ch. 819, Sec. 2. Effective January 1, 2000.)

125703.

The department shall, in consultation with the California Department of Aging, do all of the following in the establishment of the program:

(a) Promote public awareness concerning the causes and nature of, the personal risk factors for, the value of prevention of, and the options for management of osteoporosis.

(b) Work with other state and local agencies to promote osteoporosis educational and training programs for physicians and other health professionals.

(c) Convene an advisory panel of individuals with knowledge and expertise in osteoporosis research, womenshealth, healthy aging, prevention strategies, educational programs, and consumer needs to guide program development.

(Added by Stats. 1999, Ch. 819, Sec. 2. Effective January 1, 2000.)

125704.

In consultation with the advisory panel convened pursuant to subdivision (c) of Section 125703, the department shall develop effective protocols for the prevention of falls and fractures and establish these protocols in community practice to improve the prevention and management of osteoporosis.

(Added by Stats. 1999, Ch. 819, Sec. 2. Effective January 1, 2000.)

125710.

The director shall seek private sector financial support, grants, and other appropriate moneys to support the California Osteoporosis Prevention and Education Program.

(Added by Stats. 1999, Ch. 819, Sec. 2. Effective January 1, 2000.)

__Health and Safety Code - HSC__

__DIVISION 106. PERSONAL HEALTH CARE (INCLUDING MATERNAL, CHILD, AND ADOLESCENT) [123100 - 125850]__

(Division 106 added by Stats. 1995, Ch. 415, Sec. 8.)

__PART 10. MALE CIRCUMCISION [125850- 125850.]__

(Part 10 added by Stats. 2011, Ch. 398, Sec. 1.)

125850.

(a)The Legislature finds and declares as follows:

(1)Male circumcision has a wide array of health and affiliative benefits.

(2)This section clarifies existing law.

(b)No city, county, or city and county ordinance, regulation, or administrative action shall prohibit or restrict the practice of male circumcision, or the exercise of a parentsauthority to have a child circumcised.

(c)The Legislature finds and declares that the laws affecting male circumcision must have uniform application throughout the state. Therefore, this part shall apply to general law and charter cities, general law and charter counties, and charter city and counties.

(Added by Stats. 2011, Ch. 398, Sec. 1. (AB 768) Effective October 2, 2011.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 1. DEPARTMENT OF HEALTH CARE ACCESS AND INFORMATION [127000 - 127010]__

(Heading of Part 1 amended by Stats. 2021, Ch. 143, Sec. 29.)

__CHAPTER 1. General Provisions [127000 - 127010]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

127000.

There is in the state government, in the Health and Welfare Agency, the Department of Health Care Access and Information.

(Amended by Stats. 2021, Ch. 143, Sec. 30. (AB 133) Effective July 27, 2021.)

127002.

Any reference to the Office of Statewide Health Planning and Development shall be deemed a reference to the Department of Health Care Access and Information.

(Added by Stats. 2021, Ch. 143, Sec. 31. (AB 133) Effective July 27, 2021.)

127005.

The department is under the control of an executive officer known as the Director of the Department of Health Care Access and Information who shall be appointed by the Governor, subject to confirmation by the Senate, and hold office at the pleasure of the Governor. The Director shall receive the annual salary provided by Article 1 (commencing with Section 11550) of Chapter 6 of Part 1 of Division 3 of Title 2 of the Government Code.

(Amended by Stats. 2021, Ch. 143, Sec. 32. (AB 133) Effective July 27, 2021.)

127010.

The director of the department shall have the powers of a head of the department pursuant to Chapter 2 (commencing with Section 11150) of Part 1 of Division 3 of Title 2 of the Government Code.

(Amended by Stats. 2021, Ch. 143, Sec. 33. (AB 133) Effective July 27, 2021.)

127280.

(a)Every health facility licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2, except a health facility owned and operated by the state, shall each year be charged a fee established by the department consistent with the requirements of this section.

(b)Commencing in calendar year 2004, every freestanding ambulatory surgery clinic as defined in Section 128700, shall each year be charged a fee established by the department consistent with the requirements of this section.

(c)The fee structure shall be established each year by the department to produce revenues equal to the appropriation made in the annual Budget Act or another statute to pay for the functions required to be performed by the department pursuant to this chapter, Article 2 (commencing with Section 127340) of Chapter 2, or Chapter 1 (commencing with Section 128675) of Part 5, and to pay for any other health-related programs administered by the department. The fee shall be due on July 1 and delinquent on July 31 of each year.

(d)The fee for a health facility that is not a hospital, as defined in subdivision (f) of Section 128700, shall be not more than 0.035 percent of the gross operating cost of the facility for the provision of health care services for its last fiscal year that ended on or before June 30 of the preceding calendar year.

(e)The fee for a hospital, as defined in subdivision (f) of Section 128700, shall be not more than 0.035 percent of the gross operating cost of the facility for the provision of health care services for its last fiscal year that ended on or before June 30 of the preceding calendar year.

(f)(1)The fee for a freestanding ambulatory surgery clinic shall be established at an amount equal to the number of ambulatory surgery data records submitted to the department pursuant to Section 128737 for encounters in the preceding calendar year multiplied by not more than fifty cents ($0.50).

(2)(A)For the calendar year 2004 only, a freestanding ambulatory surgery clinic shall estimate the number of records it will file pursuant to Section 128737 for the calendar year 2004 and shall report that number to the department by March 12, 2004. The estimate shall be as accurate as possible. The fee in the calendar year 2004 shall be established initially at an amount equal to the estimated number of records reported multiplied by fifty cents ($0.50) and shall be due on July 1 and delinquent on July 31, 2004.

(B)The department shall compare the actual number of records filed by each freestanding clinic for the calendar year 2004 pursuant to Section 128737 with the estimated number of records reported pursuant to subparagraph (A). If the actual number reported is less than the estimated number reported, the department shall reduce the fee of the clinic for calendar year 2005 by the amount of the difference multiplied by fifty cents ($0.50). If the actual number reported exceeds the estimated number reported, the department shall increase the fee of the clinic for calendar year 2005 by the amount of the difference multiplied by fifty cents ($0.50) unless the actual number reported is greater than 120 percent of the estimated number reported, in which case the department shall increase the fee of the clinic for calendar year 2005 by the amount of the difference, up to and including 120 percent of the estimated number, multiplied by fifty cents ($0.50), and by the amount of the difference in excess of 120 percent of the estimated number multiplied by one dollar ($1).

(g)There is hereby established the California Health Data and Planning Fund within the department for the purpose of receiving and expending fee revenues collected pursuant to this chapter.

(h)Any amounts raised by the collection of the special fees provided for by subdivisions (d), (e), and (f) that are not required to meet appropriations in the Budget Act for the current fiscal year shall remain in the California Health Data and Planning Fund and shall be available to the department in succeeding years when appropriated by the Legislature in the annual Budget Act or another statute, for expenditure under the provisions of this chapter, Article 2 (commencing with Section 127340) of Chapter 2, and Chapter 1 (commencing with Section 128675) of Part 5, or for any other health-related programs administered by the department, and shall reduce the amount of the special fees that the department is authorized to establish and charge. In no event, however, shall those amounts be used for programs administered by the department pursuant to Sections 127676, 127679, 127681, 127683, and 127685, that become effective on or after January 1, 2019.

(i)(1)No health facility liable for the payment of fees required by this section shall be issued a license or have an existing license renewed unless the fees are paid. A new, previously unlicensed, health facility shall be charged a pro rata fee to be established by the department during the first year of operation.

(2)The license of any health facility, against which the fees required by this section are charged, shall be revoked, after notice and hearing, if it is determined by the department that the fees required were not paid within the time prescribed by subdivision (c).

(j)This section shall become operative on January 1, 2002.

(Amended by Stats. 2021, Ch. 143, Sec. 73. (AB 133) Effective July 27, 2021.)

127285.

(a) Health facilities and clinics, except for chronic dialysis clinics as defined in subdivision (b) of Section 1204, shall annually report to the department all of the following information on forms supplied by the department:

(1) A current inventory of beds and services.

(2) Utilization data by bed type and service.

(3) Acquisitions of diagnostic or therapeutic equipment during the reporting period with a value in excess of five hundred thousand dollars ($500,000).

(4) Commencement of projects during the reporting period that require a capital expenditure for the facility or clinic in excess of one million dollars ($1,000,000).

(b) With respect to chronic dialysis clinics, the department may annually obtain this information to the extent it is available from the Federal End Stage Renal Disease Network.

(Amended by Stats. 2021, Ch. 143, Sec. 74. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2. Health Policy Research and Evaluation [127340 - 127376]__

(Chapter 2 heading added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 2. Hospitals: Community Benefits [127340 - 127360]__

(Article 2 added by Stats. 1996, Ch. 1023, Sec. 353.)

127340.

The Legislature finds and declares all of the following:

(a) Private not-for-profit hospitals meet certain needs of their communities through the provision of essential health care and other services. Public recognition of their unique status has led to favorable tax treatment by the government. In exchange, nonprofit hospitals assume a social obligation to provide community benefits in the public interest.

(b) Hospitals and the environment in which they operate have undergone dramatic changes. The pace of change will accelerate in response to health care reform. In light of this, significant public benefit would be derived if private not-for-profit hospitals reviewed and reaffirmed periodically their commitment to assist in meeting their communities™ health care needs by identifying and documenting benefits provided to the communities which they serve.

(c) Californiasprivate not-for-profit hospitals provide a wide range of benefits to their communities in addition to those reflected in the financial data reported to the state.

(d) Unreported community benefits that are often provided but not otherwise reported include, but are not limited to, all of the following:

(1) Community-oriented wellness and health promotion.

(2) Prevention services, including, but not limited to, health screening, immunizations, school examinations, and disease counseling and education.

(3) Adult day care.

(4) Child care.

(5) Medical research.

(6) Medical education.

(7) Nursing and other professional training.

(8) Home-delivered meals to the homebound.

(9) Sponsorship of free food, shelter, and clothing to the homeless.

(10) Outreach clinics in socioeconomically depressed areas.

(e) Direct provision of goods and services, as well as preventive programs, should be emphasized by hospitals in the development of community benefit plans.

(Added by Stats. 1996, Ch. 1023, Sec. 353. Effective September 29, 1996.)

127345.

As used in this article, the following terms have the following meanings:

(a)Charity care means free health services provided without expectation of payment to persons who meet

the organizationscriteria for financial assistance and are unable to pay for all or a portion of the services. Charity care shall be reported at cost, as reported to the Department of Health Care Access and Information. Charity care does not include bad debt defined as uncollectible charges that the organization recorded as revenue but wrote off due to a patientsfailure to pay.

(b)Community benefits plan means the written document prepared for annual submission to the Department of Health Care Access and Information that shall include, but shall not be limited to, a description of the activities that the hospital has undertaken in order to address identified community needs within its mission and financial capacity, and the process by which the hospital developed the plan in consultation with the community.

(c)Community means the service areas or patient populations for which the hospital provides health care services.

(d)(1)Solely for the planning and reporting purposes of this article, community benefit means a hospitalsactivities that are intended to address community needs and priorities primarily through disease prevention and improvement of health status, including, but not limited to, any of the following:

(A)Health care services, rendered to vulnerable populations, including, but not limited to, charity care and the unreimbursed cost of providing services to the uninsured, underinsured, and those eligible for Medi-Cal, Medicare, California ChildrensServices Program, or county indigent programs.

(B)The unreimbursed cost of services included in subdivision (d) of Section 127340.

(C)Financial or in-kind support of public health programs.

(D)Donation of funds, property, or other resources that contribute to a community priority.

(E)Health care cost containment.

(F)Enhancement of access to health care or related services that contribute to a healthier community.

(G)Services offered without regard to financial return because they meet a community need in the service area of the hospital, and other services including health promotion, health education, prevention, and social services.

(H)Food, shelter, clothing, education, transportation, and other goods or services that help maintain a personshealth.

(2)Community benefit does not mean activities or programs that are provided primarily for marketing purposes or are more beneficial to the organization than to the community.

(e)Community needs assessment means the process by which the hospital identifies, for its primary service area as determined by the hospital, unmet community needs.

(f)Community needs means those requisites for improvement or maintenance of health status in the community.

(g)Hospital means a private not-for-profit acute hospital licensed under subdivision (a), (b), or (f) of Section 1250 and is owned by a corporation that has been determined to be exempt from taxation under the United States Internal Revenue Code. Hospital does not mean any of the following:

(1)Hospitals that are dedicated to serving children and that do not receive direct payment for services to any patient.

(2)Small and rural hospitals as defined in Section 124840, unless the hospital is part of a hospital system.

(3)A district hospital organized and governed pursuant to the Local Health Care District Law (Division 23 (commencing with Section 32000)) or a nonprofit corporation that is affiliated with the health care district hospital owner by means of the districtsstatus as the nonprofit corporationssole corporate member pursuant to subparagraph (B) of paragraph (1) of subdivision (h) of Section 14169.31 of the Welfare and Institutions Code.

(h)Mission statement means a hospitalsprimary objectives for operation as adopted by its governing body.

(i)Vulnerable populations means any population that is exposed to medical or financial risk by virtue of being uninsured, underinsured, or eligible for Medi-Cal, Medicare, California ChildrensServices Program, or county indigent programs. Vulnerable populations also includes both of the following:

(1)Racial and ethnic groups experiencing disparate health outcomes, including Black/African American, American Indian, Alaska Native, Asian Indian, Cambodian, Chinese, Filipino, Hmong, Japanese, Korean, Laotian, Vietnamese, Native Hawaiian, Guamanian or Chamorro, Samoan, or other nonwhite racial groups, as well as individuals of Hispanic/Latino origin, including Mexicans, Mexican Americans, Chicanos, Salvadorans, Guatemalans, Cubans, and Puerto Ricans.

(2)Socially disadvantaged groups, including all of the following:

(A)The unhoused.

(B)Communities with inadequate access to clean air and safe drinking water, as defined by an environmental California Healthy Places Index score of 50 percent or lower.

(C)People with disabilities.

(D)People identifying as lesbian, gay, bisexual, transgender, or queer.

(E)Individuals with limited English proficiency.

(Amended by Stats. 2021, Ch. 751, Sec. 1. (AB 1204) Effective January 1, 2022.)

127346.

(a)The Department of Healthcare Access and Information may impose a fine not to exceed five thousand dollars ($5,000) on hospitals for failure to adopt, update, or submit community benefit plans consistent with Section 127350.

(b)The department may grant a hospital an automatic 60-day extension for submitting annual community benefit plans.

(c)The department shall annually prepare, and post on its internet website, a report that includes all of the

following:

(1)The amount each hospital spent on community benefits.

(2)The amount of community benefit spending attributable to charity care, the unpaid cost of government-sponsored health care programs, and community benefit programs and activities.

(3)A list of all hospitals that failed to report community benefits spending.

(d)The department shall make all community benefit plans submitted by hospitals pursuant to Section 127350 available to the public on its internet website.

(Amended by Stats. 2021, Ch. 143, Sec. 80. (AB 133) Effective July 27, 2021.)

127350.

Each hospital shall do all of the following:

(a)By July 1, 1995, reaffirm its mission statement that requires its policies integrate and reflect the public interest in meeting its responsibilities as a not-for-profit organization.

(b)By January 1, 1996, complete, either alone, in conjunction with other health care providers, or through other organizational arrangements, a community needs assessment evaluating the health needs of the community serviced by the hospital, that includes, but is not limited to, a process for consulting with community groups and local government officials in the identification and prioritization of community needs that the hospital can address directly, in collaboration with others, or through other organizational arrangement. The community needs assessment shall be updated at least once every three years.

(c)By April 1, 1996, and annually thereafter adopt and update a community benefits plan for providing community benefits either alone, in conjunction with other health care providers, or through other organizational arrangements.

(d)(1)Annually submit its community benefits plan, including, but not limited to, the activities that the hospital has undertaken in order to address community needs within its mission and financial capacity to the Department of Health Care Access and Information. The hospital shall assign and report the economic value of community benefits provided in furtherance of its plan, and include a description of how needs identified in the assessment are being addressed and which needs are not being addressed, and why. Effective with hospital fiscal years, beginning on or after January 1, 1996, each hospital shall file a copy of the plan with the department not later than 150 days after the hospitalsfiscal year ends.

(2)Hospitals under the common control of a single corporation or another entity may file a consolidated report if the report includes each hospitalscommunity benefit financial data and describes the benefits provided to the communities in the hospitals™ geographic area. Hospitals on a consolidated license may file a consolidated community benefit plan report if they serve the same geographic area.

(3)Each hospitalscommunity benefit report shall contain an explanation of the methodology used to determine the hospitalscosts, written in plain English.

(e)Annually post its community benefits plan on its internet website.

(Amended by Stats. 2021, Ch. 143, Sec. 81. (AB 133) Effective July 27, 2021.)

127355.

The hospital shall include all of the following elements in its community benefits plan:

(a) Mechanisms to evaluate the planseffectiveness including, but not limited to, a method for soliciting the views of the community served by the hospital and identification of community groups and local government officials consulted during the development of the plan.

(b) Measurable objectives to be achieved within specified timeframes.

(c) Community benefits categorized into the following framework:

(1) Medical care services.

(2) Other benefits for vulnerable populations.

(3) Other benefits for the broader community.

(4) Health research, education, and training programs.

(5) Nonquantifiable benefits.

(Added by Stats. 1996, Ch. 1023, Sec. 353. Effective September 29, 1996.)

127360.

Nothing in this article shall be used to justify the tax-exempt status of a hospital under state law. Nothing in this article shall preclude the department from requiring hospitals to directly report their charity activities.

(Amended by Stats. 2021, Ch. 143, Sec. 82. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2. Health Policy Research and Evaluation [127340 - 127376]__

(Chapter 2 heading added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 3. The Medical Equity Disclosure Act [127370 - 127376]__

(Article 3 added by Stats. 2021, Ch. 751, Sec. 2.)

127370.

The Legislature finds and declares all of the following:

(a)The COVID-19 health emergency has thrown into sharp relief longstanding health inequities along racial, ethnic, and socioeconomic lines. Black, Hispanic, and Indigenous people have been disproportionately affected during the pandemic; for example, the age-adjusted mortality rate among Black people with COVID-19 is more than three times as high as that of Whites.

(b)Disparities in access to care and quality of care contribute to racial health disparities. The disparate impact of the pandemic has highlighted the tiered nature of the current health care system, a structure that significantly impacts the quality of care patients receive along racial, ethnic, and socioeconomic lines.

(c)Reporting on the racially disproportionate impact of COVID-19 has called attention to the need for further data on racial and ethnic disparities in health care.

(d)Data currently reported by California hospitals that could be used to analyze access to and quality of care by age, sex, race, ethnicity, language, disability status, sexual orientation, gender identity, and socioeconomic status is not available to consumers or the general public.

(e)Although nonprofit hospitals are currently required to develop and report on their community benefits plans to provide services to vulnerable populations in their service areas, the law should be updated to ensure that the needs of vulnerable populations, including racial and ethnic groups experiencing disparate health outcomes and socially disadvantaged groups, are specifically considered and addressed.

(f)All California health systems and large physician providers, whether operated as nonprofit or for-profit, and by a county, the University of California, or other governmental entity, should systematically collect and

publish racial and ethnic data for a range of standard access, quality, and outcome measures, as well as their processes to overcome biases in the provision of and access to health care services.

(g)As part of President Joe BidensJanuary 2021 Executive Order Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, the federal Centers for Medicare and Medicaid Services are developing health equity measures as part of the proposed rules for other Medicare prospective payment systems, which may include stratification of quality measure results by race, ethnicity, dual eligible status, disability status, LGBTQ+ identity, and socioeconomic status and a standardized set of demographic data elements by hospital at the time of admission.

(h)The Agency for Healthcare Research and Quality (AHRQ) Quality Indicators (QIs) are standardized, evidence-based measures of health care access and quality that are readily used with hospital inpatient administrative data for all payor categories to measure and track clinical performance and outcomes. The four areas for which AHRQ has developed indicators focus on adult prevention, pediatric prevention, inpatient quality, and patient safety. The state has used these indicators in the past to explore racial and ethnic disparities at an aggregate level.

(i)The dearth of racially and ethnically disaggregated data reflecting the health of communities of color underlies the challenges of a fully informed public health response, and is a matter of statewide concern. It will benefit the statespublic health response for hospitals and health systems to share information with the state, consumers, and the public using the standardized AHRQ QIs and NCQA HEDIS measures, as it will facilitate input by affected communities into addressing longstanding racial, ethnic, and socioeconomic health disparities, and thereby contribute to well-informed health policy.

(j)Facilitating the public sharing of data on health care disparities will assist the state and civil rights advocates in enforcing existing civil rights laws, including Section 11135 of the Government Code, the Unruh Civil Rights Act (Section 51 of the Civil Code), Title VI of the Civil Rights Act of 1964 (Public Law 88-352), and Section 1557 of the Patient Protection and Affordable Care Act (Public Law 111-148).

(Added by Stats. 2021, Ch. 751, Sec. 2. (AB 1204) Effective January 1, 2022.)

127371.

As used in this article:

(a)Advisory committee means the Health Care Equity Measures Advisory Committee established pursuant to Section 127376.

(b)Disparity reduction means a reduction in variation in disease occurrence, including communicable diseases and chronic conditions, as well as health outcomes for vulnerable populations.

(c)Equity report means a written document prepared for annual submission to the Department of Health Care Access and Information pursuant to this article.

(d)Hospital means an acute hospital licensed pursuant to subdivision (a), (b), or (f) of Section 1250.

(e)Hospital system means an entity or system of entities that includes or owns two or more hospitals within the state, of which at least one is a general acute care hospital, as defined in subdivision (a) of Section 1250.

(f)Integrated system means an entity or system of entities that includes one or more hospitals and is related to one or more hospitals, health plans, or physician groups through parent-subsidiary relationships, contractual relationships, or common boards and shared senior management.

(g)Patient population means all of the people served by a hospital.

(h)Vulnerable populations includes both of the following:

(1)Racial and ethnic groups experiencing disparate health outcomes, including Black/African American, American Indian, Alaska Native, Asian Indian, Cambodian, Chinese, Filipino, Hmong, Japanese, Korean, Laotian, Vietnamese, Native Hawaiian, Guamanian or Chamorro, Samoan, or other nonwhite racial groups, as well as individuals of Hispanic/Latino origin, including Mexicans, Mexican Americans, Chicanos, Salvadorans, Guatemalans, Cubans, and Puerto Ricans.

(2)Socially disadvantaged groups, including all of the following:

(A)The unhoused.

(B)Communities with inadequate access to clean air and safe drinking water, as defined by an environmental California Healthy Places Index score of 50 percent or lower.

(C)People with disabilities.

(D)People identifying as lesbian, gay, bisexual, transgender, or queer.

(E)Individuals with limited English proficiency.

(Added by Stats. 2021, Ch. 751, Sec. 2. (AB 1204) Effective January 1, 2022.)

127372.

(a)A hospital shall prepare an annual equity report. The equity report shall include an analysis of health status and access to care disparities for patients on the basis of age, sex, race, ethnicity, language, disability status, sexual orientation, gender identity, and payor.

(b)On and after September 30, 2025, but not until 12 months after the release of the federal Centers for Medicare and Medicaid Services™ health equity quality measures for their proposed rules for other Medicare prospective payment systems, the annual equity report submitted by a hospital shall report on the Agency for Healthcare Research and QualitysQuality Indicators or any other relevant measures specified by the advisory committee, including measures of access, quality, and outcomes by age, sex, race, ethnicity, language, disability status, sexual orientation, gender identity, and payor for the hospitalspatient populations, pursuant to the recommendations provided by the advisory committee. The equity report shall also include a plan to prioritize and address disparities for vulnerable populations identified in the data, with measurable objectives and specific timeframes, pursuant to the recommendations provided by the advisory committee and consistent with subdivision (d).

(c)A hospital system with more than one hospital shall present the information in the equity report disaggregated at the individual hospital level and aggregated across all hospitals in the system.

(d)A hospitalsequity report shall include a health equity plan to achieve disparity reduction for disparities identified in the data, as specified by the advisory committee, with measurable objectives and specific timeframes for disparity reduction. This shall include addressing both of the following:

(1)The 10 widest disparities in health care quality for vulnerable populations, access, or outcomes, as determined by the advisory committee.

(2)Performance across all of the following priority areas:

(A)Person-centered care.

(B)Patient safety.

(C)Addressing patient social determinants of health.

(D)Effective treatment.

(E)Care coordination.

(F)Access to care.

(Added by Stats. 2021, Ch. 751, Sec. 2. (AB 1204) Effective January 1, 2022.)

127373.

(a)A hospital shall do all of the following with respect to an equity report prepared pursuant to Section 127372:

(1)Include in the equity report an explanation of the methodology used, written in plain English.

(2)Annually submit the equity report to the Department of Health Care Access and Information. A hospital shall file a copy of the report with the department for the relevant calendar years according to the reporting schedule established by the department.

(3)Annually post the equity report on the hospitalsinternet website. The report shall be available via a link that includes the words Equity Report or a substantially similar term, which shall be visible on the main page of the hospitalsinternet website as loaded by a standard internet browser in an easily readable font size without having to scroll down.

(b)A hospital under the common control of a single corporation or another entity may file a consolidated equity report if the report includes each hospitalsequity data.

(c)Hospitals that are part of an integrated system may prepare and submit a single joint equity report if the report separately addresses each hospitalsequity analysis.

(d)Data and information included in annual equity reports shall be reported to the extent information is available and disclosed in a manner that protects the personal information of patients pursuant to state and federal privacy laws, including the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code) and the federal Health Insurance Portability and Accountability

Act of 1996 (Public Law 104-191).

(Added by Stats. 2021, Ch. 751, Sec. 2. (AB 1204) Effective January 1, 2022.)

127374.

(a)The Department of Health Care Access and Information may impose a fine not to exceed five thousand dollars ($5,000) against a hospital that fails to adopt, update, or submit an equity report consistent with this article and any implementing regulations adopted by the department.

(b)The department may grant a hospital an automatic 60-day extension to submit an equity report.

(c)The department shall annually prepare, and post on its internet website, a report that includes a list of all hospitals that failed to submit equity reports.

(d)The department shall make all equity reports submitted pursuant to this article available to the public on its internet website.

(e)Data and information posted on hospital internet websites and submitted to and made public by the department shall be disclosed in a manner that protects the personal information of patients pursuant to deidentification requirements as specified by the department, as well as any state and federal privacy laws, including the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code) and the federal Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191).

(Added by Stats. 2021, Ch. 751, Sec. 2. (AB 1204) Effective January 1, 2022.)

127375.

The Department of Health Care Access and Information shall adopt any rules, regulations, or informal guidance necessary to further the objectives of this article.

(Added by Stats. 2021, Ch. 751, Sec. 2. (AB 1204) Effective January 1, 2022.)

127376.

(a)The Department of Health Care Access and Information shall convene a Health Care Equity Measures Advisory Committee, composed of at least one academic health care quality and measurement expert and at least six stakeholder representatives, including at least one representative of each of the following:

(1)Associations representing public hospitals and health systems.

(2)Associations representing private hospitals and health systems.

(3)Organized labor.

(4)Organizations representing consumers.

(5)Organizations representing vulnerable populations.

(6)A representative of the department.

(b)(1)The advisory committee membership shall consist of no fewer than 9 persons and no more than 11 persons.

(2)The Director of the Department of Health Care Access and Information shall appoint the advisory committee members pursuant to subdivision (a). The initial terms of the committee members shall be established to create staggered terms of office by drawing lots at the first meeting of the committee. One-half of the committee members shall serve a two-year term, and one-half of the committee members shall serve a one-year term. After their initial term of office is complete, a committee member shall serve a two-year term. Each appointed member shall serve a term of two years. Each appointed member shall serve at the discretion of the director and may be removed at any time.

(3)The chairperson of the advisory committee shall be an appointed member and shall be elected by a majority of the appointed members.

(c)(1)The advisory committee shall assist and advise the director in reviewing and amending the appropriate measures that align with the health equity measures developed by the federal Centers for Medicare and Medicaid Services at the hospital-, hospital system-, and integrated system-level related to access, quality, and outcomes, including any relevant Agency for Healthcare Research and QualitysQuality Indicators, that hospitals are required to report in their annual equity reports pursuant to Section 127372.

(2)The advisory committee shall provide recommendations pursuant to paragraph (1) no later than December 31, 2022, or 120 days after the release of the health equity measures by the federal Centers for Medicare and Medicaid Services, whichever occurs later. These recommendations shall be published on the departmentsinternet website.

(d)(1)The advisory committee shall assist and advise the director in reviewing, amending, and evaluating, as necessary, the appropriate disparities and performance areas to be addressed in the health equity plan that a hospital is required to include in their annual equity reports pursuant to Section 127372.

(2)The advisory committee shall consider differences in patient populations and geographic areas served when reviewing health equity plans.

(3)No later than September 30, 2027, or 24 months after the release of the health equity measures by the federal Centers for Medicare and Medicaid Services, whichever occurs later, the advisory committee shall make recommendations to the department regarding the health equity plan, as described in Section 127372. These recommendations shall be published on the departmentsinternet website.

(e)(1)The advisory committee shall, through its meetings, provide a forum for stakeholder and public engagement.

(2)The advisory committee shall meet at least twice per year or when requested by the director.

(Added by Stats. 2021, Ch. 751, Sec. 2. (AB 1204) Effective January 1, 2022.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2.5. Fair Pricing Policies [127400 - 127471]__

(Chapter 2.5 heading added by Stats. 2010, Ch. 445, Sec. 1.)

__ARTICLE 1. Hospital Fair Pricing Policies [127400 - 127446]__

(Heading of Article 1 renumbered from Article 3 (of Chapter 2) by Stats. 2010, Ch. 445, Sec. 2.)

127400.

As used in this article, the following terms have the following meanings:

(a)Allowance for financially qualified patient means, with respect to services rendered to a financially qualified patient, an allowance that is applied after the hospitalscharges are imposed on the patient, due to the patientsdetermined financial inability to pay the charges.

(b)Federal poverty level means the poverty guidelines updated periodically in the Federal Register by the United States Department of Health and Human Services under authority of subsection (2) of Section 9902 of Title 42 of the United States Code.

(c)Financially qualified patient means a patient who is both of the following:

(1)A patient who is a self-pay patient, as defined in subdivision (f), or a patient with high medical costs, as defined in subdivision (g).

(2)A patient who has a family income that does not exceed 400 percent of the federal poverty level.

(d)Hospital means a facility that is required to be licensed under subdivision (a), (b), or (f) of Section 1250, except a facility operated by the State Department of State Hospitals or the Department of Corrections and Rehabilitation.

(e)Department means the Department of Health Care Access and Information.

(f)Self-pay patient means a patient who does not have third-party coverage from a health insurer, health care service plan, Medicare, or Medicaid, and whose injury is not a compensable injury for purposes of workers™ compensation, automobile insurance, or other insurance as determined and documented by the hospital. Self-pay patients may include charity care patients.

(g)A patient with high medical costs means a person whose family income does not exceed 400 percent of the federal poverty level, as defined in subdivision (b). For these purposes, high medical costs means any of the following:

(1)Annual out-of-pocket costs incurred by the individual at the hospital that exceed the lesser of 10 percent of the patientscurrent family income or family income in the prior 12 months.

(2)Annual out-of-pocket expenses that exceed 10 percent of the patientsfamily income, if the patient provides documentation of the patientsmedical expenses paid by the patient or the patientsfamily in the prior 12 months.

(3)A lower level determined by the hospital in accordance with the hospitalscharity care policy.

(h)Patientsfamily means the following:

(1)For persons 18 years of age and older, spouse, domestic partner, as defined in Section 297 of the Family Code, and dependent children under 21 years of age, whether living at home or not.

(2)For persons under 18 years of age, parent, caretaker relatives, and other children under 21 years of age of the parent or caretaker relative.

(i)Reasonable payment plan means monthly payments that are not more than 10 percent of a patientsfamily income for a month, excluding deductions for essential living expenses. Essential living

expenses means, for purposes of this subdivision, expenses for any of the following: rent or house payment and maintenance, food and household supplies, utilities and telephone, clothing, medical and dental payments, insurance, school or child care, child or spousal support, transportation and auto expenses, including insurance, gas, and repairs, installment payments, laundry and cleaning, and other extraordinary expenses.

(Amended (as amended by Stats. 2021, Ch. 143, Sec. 83) by Stats. 2021, Ch. 473, Sec. 5. (AB 1020) Effective January 1, 2022.)

127401.

Each general acute care hospital licensed pursuant to subdivision (a) of Section 1250 shall comply with the provisions of this article. The State Department of Public Health shall be responsible for the enforcement of these provisions for violations occurring prior to January 1, 2024. The Department of Health Care Access and Information shall be responsible for the enforcement of these provisions for violations occurring on or after January 1, 2024.

(Amended by Stats. 2021, Ch. 473, Sec. 6. (AB 1020) Effective January 1, 2022.)

127405.

(a)(1)(A)Each hospital shall maintain an understandable written policy regarding discount payments for financially qualified patients as well as an understandable written charity care policy. Uninsured patients or patients with high medical costs who are at or below 400 percent of the federal poverty level, as defined in subdivision (b) of Section 127400, shall be eligible to apply for participation under a hospitalscharity care policy or discount payment policy. Notwithstanding any other provision of this article, a hospital may choose to grant eligibility for its discount payment policy or charity care policies to patients with incomes over 400 percent of the federal poverty level. Both the charity care policy and the discount payment policy shall state the process used by the hospital to determine whether a patient is eligible for charity care or discounted payment. In the event of a dispute, a patient may seek review from the business manager, chief financial officer, or other appropriate manager as designated in the charity care policy and the discount payment policy.

(B)The written policy regarding discount payments shall also include a statement that an emergency physician, as defined in Section 127450, who provides emergency medical services in a hospital that provides emergency care is also required by law to provide discounts to uninsured patients or patients with high medical costs who are at or below 400 percent of the federal poverty level. This statement shall not be construed to impose any additional responsibilities upon the hospital.

(2)Rural hospitals, as defined in Section 124840, may establish eligibility levels for financial assistance and charity care at less than 400 percent of the federal poverty level as appropriate to maintain their financial and operational integrity.

(b)A hospitalsdiscount payment policy shall clearly state eligibility criteria based upon income consistent with the application of the federal poverty level. The discount payment policy shall also include an extended payment plan to allow payment of the discounted price over time. The policy shall provide that the hospital and the patient shall negotiate the terms of the payment plan, and take into consideration the patientsfamily

income and essential living expenses. If the hospital and the patient cannot agree on the payment plan, the hospital shall use the formula described in subdivision (i) of Section 127400 to create a reasonable payment plan.

(c)The charity care policy shall state clearly the eligibility criteria for charity care. In determining eligibility under its charity care policy, a hospital may consider income and monetary assets of the patient. For purposes of this determination, monetary assets shall not include retirement or deferred compensation plans qualified under the Internal Revenue Code, or nonqualified deferred compensation plans. Furthermore, the first ten thousand dollars ($10,000) of a patientsmonetary assets shall not be counted in determining eligibility, nor shall 50 percent of a patientsmonetary assets over the first ten thousand dollars ($10,000) be counted in determining eligibility.

(d)A hospital shall limit expected payment for services it provides to a patient at or below 400 percent of the federal poverty level, as defined in subdivision (b) of Section 127400, eligible under its discount payment policy to the amount of payment the hospital would expect, in good faith, to receive for providing services from Medicare or Medi-Cal, whichever is greater. If the hospital provides a service for which there is no established payment by Medicare or Medi-Cal, the hospital shall establish an appropriate discounted payment. Patients eligible under this article shall not be required to undergo an independent dispute resolution process.

(e)A patient, or patientslegal representative, who requests a discounted payment, charity care, or other assistance in meeting their financial obligation to the hospital shall make every reasonable effort to provide the hospital with documentation of income and health benefits coverage. If the person requests charity care or a discounted payment and fails to provide information that is reasonable and necessary for the hospital to make a determination, the hospital may consider that failure in making its determination.

(1)For purposes of determining eligibility for discounted payment, documentation of income shall be limited to recent pay stubs or income tax returns.

(2)For purposes of determining eligibility for charity care, documentation of assets may include information on all monetary assets, but shall not include statements on retirement or deferred compensation plans qualified under the Internal Revenue Code, or nonqualified deferred compensation plans. A hospital may require waivers or releases from the patient or the patientsfamily, authorizing the hospital to obtain account information from financial or commercial institutions, or other entities that hold or maintain the monetary assets, to verify their value.

(3)Information obtained pursuant to paragraph (1) or (2) shall not be used for collections activities. This paragraph does not prohibit the use of information obtained by the hospital, collection agency, or assignee independently of the eligibility process for charity care or discounted payment.

(4)Eligibility for discounted payments or charity care may be determined at any time the hospital is in receipt of information specified in paragraph (1) or (2), respectively.

(Amended by Stats. 2021, Ch. 473, Sec. 7. (AB 1020) Effective January 1, 2022.)

127410.

(a)Each hospital shall provide patients with a written notice that shall contain information about availability of the hospitalsdiscount payment and charity care policies, including information about eligibility, as well as

contact information for a hospital employee or office from which the person may obtain further information about these policies. The notice shall also include the internet address for the Health Consumer Alliance (https://healthconsumer.org), and shall explain that there are organizations that will help the patient understand the billing and payment process, as well as information regarding Covered California and Medi-Cal presumptive eligibility, if the hospital participates in the presumptive eligibility program. The notice shall also include the internet address for the hospitalslist of shoppable services, pursuant to Section 180.60 of Title 45 of the Code of Federal Regulations. This written notice shall be provided in addition to the estimate provided pursuant to Section 1339.585. The notice shall also be provided to patients who receive emergency or outpatient care and who may be billed for that care, but who were not admitted. The notice shall be provided in English, and in languages other than English. The languages to be provided shall be determined in a manner similar to that required pursuant to Section 12693.30 of the Insurance Code. Written correspondence to the patient required by this article shall also be in the language spoken by the patient, consistent with Section 12693.30 of the Insurance Code and applicable state and federal law.

(b)The written notice shall be provided at the time of service if the patient is conscious and able to receive written notice at that time. If the patient is not able to receive notice at the time of service, the notice shall be provided during the discharge process. If the patient is not admitted, the written notice shall be provided when the patient leaves the facility. If the patient leaves the facility without receiving the written notice, the hospital shall mail the notice to the patient within 72 hours of providing services.

(c)Notice of the hospitalspolicy for financially qualified and self-pay patients shall be clearly and conspicuously posted in locations that are visible to the public, including, but not limited to, all of the following:

(1)Emergency department, if any.

(2)Billing office.

(3)Admissions office.

(4)Other outpatient settings, including observation units.

(5)Prominently displayed on the hospitalsinternet website, with a link to the policy itself.

(Amended by Stats. 2021, Ch. 473, Sec. 8.5. (AB 1020) Effective January 1, 2022.)

127420.

(a)Each hospital shall make all reasonable efforts to obtain from the patient or the patientsrepresentative information about whether private or public health insurance or sponsorship may fully or partially cover the charges for care rendered by the hospital to a patient, including, but not limited to, any of the following:

(1)Private health insurance, including coverage offered through the California Health Benefit Exchange.

(2)Medicare.

(3)The Medi-Cal program, the California ChildrensServices program, or other state-funded programs designed to provide health coverage.

(b)If a hospital bills a patient who has not provided proof of coverage by a third party at the time the care is provided or upon discharge, as a part of that billing, the hospital shall provide the patient with a clear and conspicuous notice that includes all of the following:

(1)A statement of charges for services rendered by the hospital.

(2)A request that the patient inform the hospital if the patient has health insurance coverage, Medicare, Medi-Cal, or other coverage.

(3)A statement that, if the consumer does not have health insurance coverage, the consumer may be eligible for Medicare, Medi-Cal, coverage offered through the California Health Benefit Exchange, California ChildrensServices program, other state- or county-funded health coverage, or charity care.

(4)A statement indicating how patients may obtain applications for the Medi-Cal program, coverage offered through the California Health Benefit Exchange, or other state- or county-funded health coverage programs and that the hospital will provide these applications. The hospital shall also provide patients with a referral to a local consumer assistance center housed at legal services offices. If the patient does not indicate coverage by a third-party payer specified in subdivision (a) or requests a discounted price or charity care, then the hospital shall provide an application for the Medi-Cal program or other state- or county-funded health coverage programs. This application shall be provided prior to discharge if the patient has been admitted or to patients receiving emergency or outpatient care.

(5)Information regarding the financially qualified patient and charity care application, including the following:

(A)A statement that indicates that if the patient lacks, or has inadequate, insurance, and meets certain low- and moderate-income requirements, the patient may qualify for discounted payment or charity care.

(B)The name and telephone number of a hospital employee or office from whom or which the patient may obtain information about the hospitalsdiscount payment and charity care policies, and how to apply for that assistance.

(C)If a patient applies, or has a pending application, for another health coverage program at the same time that the patient applies for a hospital charity care or discount payment program, neither application shall preclude eligibility for the other program.

(Amended by Stats. 2021, Ch. 473, Sec. 9. (AB 1020) Effective January 1, 2022.)

127425.

(a)A hospital shall not sell patient debt to a debt buyer, as defined in Section 1788.50 of the Civil Code, unless all of the following apply:

(1)The hospital has found the patient ineligible for financial assistance or the patient has not responded to any attempts to bill or offer financial assistance for 180 days.

(2)The hospital includes contractual language in the sales agreement in which the debt buyer agrees to return, and the hospital agrees to accept, any account in which the balance has been determined to be incorrect due to the availability of a third-party payer, including a health plan or government health coverage program, or the patient is eligible for charity care or financial assistance.

(3)The debt buyer agrees to not resell or otherwise transfer the patient debt, except to the originating hospital or a tax-exempt organization described in Section 127444, or if the debt buyer is sold or merged with another entity.

(4)The debt buyer agrees not to charge interest or fees on the patient debt.

(5)The debt buyer is licensed as a debt collector by the Department of Financial Protection and Innovation.

(b)A hospital shall have a written policy about when and under whose authority patient debt is advanced for collection, whether the collection activity is conducted by the hospital, an affiliate or subsidiary of the hospital, or by an external collection agency, or debt buyer.

(c)A hospital shall establish a written policy defining standards and practices for the collection of debt, and shall obtain a written agreement from any agency that collects hospital receivables that it will adhere to the hospitalsstandards and scope of practices. This agreement shall require the affiliate, subsidiary, debt buyer, or external collection agency of the hospital that collects the debt to comply with the hospitalsdefinition and application of a reasonable payment plan, as defined in subdivision (i) of Section 127400. The policy shall not conflict with other applicable laws and shall not be construed to create a joint venture between the hospital and the external entity, or otherwise to allow hospital governance of an external entity that collects hospital receivables. In determining the amount of a debt a hospital may seek to recover from patients who are eligible under the hospitalscharity care policy or discount payment policy, the hospital may consider only income and monetary assets as limited by Section 127405.

(d)At time of billing, a hospital shall provide a written summary consistent with Section 127410, which includes the same information concerning services and charges provided to all other patients who receive care at the hospital.

(e)Before assigning a bill to collections, or selling patient debt to a debt buyer, a hospital shall send a patient a notice with all of the following information:

(1)The date or dates of service of the bill that is being assigned to collections or sold.

(2)The name of the entity the bill is being assigned or sold to.

(3)A statement informing the patient how to obtain an itemized hospital bill from the hospital.

(4)The name and plan type of the health coverage for the patient on record with the hospital at the time of services or a statement that the hospital does not have that information.

(5)An application for the hospitalscharity care and financial assistance.

(6)The date or dates the patient was originally sent a notice about applying for financial assistance, the date or dates the patient was sent a financial assistance application, and, if applicable, the date a decision on the application was made.

(f)A hospital, any assignee of the hospital, or other owner of the patient debt, including a collection agency or debt buyer, shall not report adverse information to a consumer credit reporting agency or commence civil action against the patient for nonpayment before 180 days after initial billing.

(g)If a patient is attempting to qualify for eligibility under the hospitalscharity care or discount payment

policy and is attempting in good faith to settle an outstanding bill with the hospital by negotiating a reasonable payment plan or by making regular partial payments of a reasonable amount, the hospital shall not send the unpaid bill to any collection agency, debt buyer, or other assignee, unless that entity has agreed to comply with this article.

(h)(1)The hospital or other assignee that is an affiliate or subsidiary of the hospital shall not, in dealing with patients eligible under the hospitalscharity care or discount payment policies, use wage garnishments or liens on primary residences as a means of collecting unpaid hospital bills.

(2)A collection agency, debt buyer, or other assignee that is not a subsidiary or affiliate of the hospital shall not, in dealing with any patient under the hospitalscharity care or discount payment policies, use as a means of collecting unpaid hospital bills, any of the following:

(A)A wage garnishment, except by order of the court upon noticed motion, supported by a declaration filed by the movant identifying the basis for which it believes that the patient has the ability to make payments on the judgment under the wage garnishment, which the court shall consider in light of the size of the judgment and additional information provided by the patient prior to, or at, the hearing concerning the patientsability to pay, including information about probable future medical expenses based on the current condition of the patient and other obligations of the patient.

(B)Notice or conduct a sale of the patientsprimary residence during the life of the patient or the patientsspouse, or during the period a child of the patient is a minor, or a child of the patient who has attained the age of majority is unable to take care of themselves and resides in the dwelling as their primary residence. In the event a person protected by this paragraph owns more than one dwelling, the primary residence shall be the dwelling that is the patientscurrent homestead, as defined in Section 704.710 of the Code of Civil Procedure, or was the patientshomestead at the time of the death of a person other than the patient who is asserting the protections of this paragraph.

(3)This requirement does not preclude a hospital, collection agency, debt buyer, or other assignee from pursuing reimbursement and any enforcement remedy or remedies from third-party liability settlements, tortfeasors, or other legally responsible parties.

(i)Extended payment plans offered by a hospital to assist patients eligible under the hospitalscharity care policy, discount payment policy, or any other policy adopted by the hospital for assisting low-income patients with no insurance or high medical costs in settling outstanding past due hospital bills, shall be interest free. The hospital extended payment plan may be declared no longer operative after the patientsfailure to make all consecutive payments due during a 90-day period. Before declaring the hospital extended payment plan no longer operative, the hospital, collection agency, debt buyer, or assignee shall make a reasonable attempt to contact the patient by telephone and, to give notice in writing, that the extended payment plan may become inoperative, and of the opportunity to renegotiate the extended payment plan. Prior to the hospital extended payment plan being declared inoperative, the hospital, collection agency, debt buyer, or assignee shall attempt to renegotiate the terms of the defaulted extended payment plan, if requested by the patient. The hospital, collection agency, debt buyer, or assignee shall not report adverse information to a consumer credit reporting agency or commence a civil action against the patient or responsible party for nonpayment prior to the time the extended payment plan is declared to be no longer operative. For purposes of this section, the notice and telephone call to the patient may be made to the last known telephone number and address of the patient.

(j)This section does not diminish or eliminate any protections consumers have under existing federal and state debt collection laws, or any other consumer protections available under state or federal law. If the patient fails to make all consecutive payments for 90 days and fails to renegotiate a payment plan, this

subdivision does not limit or alter the obligation of the patient to make payments on the obligation owing to the hospital pursuant to any contract or applicable statute from the date that the extended payment plan is declared no longer operative, as set forth in subdivision (i).

(Amended by Stats. 2021, Ch. 473, Sec. 10. (AB 1020) Effective January 1, 2022.)

127426.

(a)The period described in Section 127425 shall be extended if the patient has a pending appeal for coverage of the services, until a final determination of that appeal is made, if the patient makes a reasonable effort to communicate with the hospital about the progress of any pending appeals.

(b)For purposes of this section, pending appeal includes any of the following:

(1)A grievance against a contracting health care service plan, as described in Chapter 2.2 (commencing with Section 1340) of Division 2, or against an insurer, as described in Chapter 1 (commencing with Section 10110) of Part 2 of Division 2 of the Insurance Code.

(2)An independent medical review, as described in Section 10145.3 or 10169 of the Insurance Code.

(3)A fair hearing for a review of a Medi-Cal claim pursuant to Section 10950 of the Welfare and Institutions Code.

(4)An appeal regarding Medicare coverage consistent with federal law and regulations.

(Added by Stats. 2006, Ch. 755, Sec. 1. Effective January 1, 2007.)

127430.

(a)Prior to commencing collection activities against a patient, the hospital, any assignee of the hospital, or other owner of the patient debt, including a collection agency, shall provide the patient with a clear and conspicuous written notice containing both of the following:

(1)A plain language summary of the patientsrights pursuant to this article, the Rosenthal Fair Debt Collection Practices Act (Title 1.6C (commencing with Section 1788) of Part 4 of Division 3 of the Civil Code), and the federal Fair Debt Collection Practices Act (Subchapter V (commencing with Section 1692) of Chapter 41 of Title 15 of the United States Code). The summary shall include a statement that the Federal Trade Commission enforces the federal act.

The summary shall be sufficient if it appears in substantially the following form: State and federal law require debt collectors to treat you fairly and prohibit debt collectors from making false statements or threats of violence, using obscene or profane language, and making improper communications with third parties, including your employer. Except under unusual circumstances, debt collectors may not contact you before 8:00 a.m. or after 9:00 p.m. In general, a debt collector may not give information about your debt to another person, other than your attorney or spouse. A debt collector may contact another person to confirm your location or to enforce a judgment. For more information about debt collection activities, you may contact the Federal Trade Commission by telephone at 1-877-FTC-HELP (382-4357) or online at www.ftc.gov.

(2)A statement that nonprofit credit counseling services may be available in the area.

(b)The notice required by subdivision (a) shall also accompany any document indicating that the commencement of collection activities may occur.

(c)The requirements of this section shall apply to the entity engaged in the collection activities. If a hospital assigns or sells the debt to another entity, the obligations shall apply to the entity, including a collection agency, engaged in the debt collection activity.

(Amended by Stats. 2007, Ch. 347, Sec. 4. Effective January 1, 2008.)

127435.

(a)A hospital shall provide to the department a copy of its discount payment policy, charity care policy, eligibility procedures for those policies, review process, and the application for charity care or discounted payment programs, as well as a copy of its debt collection policy. The department may determine whether the information is to be provided electronically or in some other similar manner. The information shall be provided at least biennially on January 1, or when a significant change is made. If no significant change has been made by the hospital since the information was previously provided, notifying the department of the lack of change shall meet the requirements of this section. The department shall make this information available to the public on its internet website.

(b)The department shall review a hospitalspolicy for compliance with this article by January 1, 2023, and whenever a significant change is made and submitted to the department.

(c)A patient shall not be denied financial assistance that would be available pursuant to the policy published on the departmentsinternet website at the time of service.

(Amended (as amended by Stats. 2021, Ch. 143, Sec. 84) by Stats. 2021, Ch. 473, Sec. 11. (AB 1020) Effective January 1, 2022.)

127436.

(a)Upon promulgation of regulations as required in subdivisions (b) and (c) no later than January 1, 2024, the Director of the Department of Health Care Access and Information shall impose an administrative penalty for each violation against a hospital that fails to comply with this article, unless the administrative penalty is waived pursuant to this section. For purposes of this section, multiple violations identified during the same investigation shall constitute a single violation for purposes of assessing an administrative penalty.

(b)Upon receipt of a complaint by a patient that a hospital has not followed the requirements of Sections 127405 to 127435, inclusive, the director shall do all of the following:

(1)Review the patientseligibility for charity care or financial assistance under the hospitalspublished financial assistance policy in effect at the time the patient was first billed.

(2)Review the hospitalscompliance with this article.

(3)If, after completing the actions in paragraphs (1) and (2), the director believes that the hospital may have violated this article, issue a notice to the hospital describing the alleged violation. The notice shall state all of the facts supporting the alleged violation. The hospital shall have 30 days after issuance of the notice to file a response with the director.

(4)If, after considering all of the information included in any response filed by the hospital, the director determines that a violation has occurred, assess an administrative penalty. The administrative penalty may be up to forty thousand dollars ($40,000), which amount shall be adjusted every five years to reflect the percentage change in the calendar year average, for the five-year period, of the medical care index of the Consumer Price Index, as published by the United States Bureau of Labor Statistics. The department shall promulgate regulations establishing criteria to determine the amount of an administrative penalty. The criteria shall include, at a minimum, all of the following:

(A)The actual financial harm to patients, if any.

(B)The nature, scope, and severity of the violation, including whether the hospitalspolicies, postings, and screening practices are in compliance with Sections 127405 to 127435, inclusive, or whether the violation was a mistake that resulted in a violation of those policies and practices.

(C)The facilityshistory of compliance with related state and federal statutes and regulations.

(D)Factors beyond the facilityscontrol that restrict the facilitysability to comply with this chapter or the rules and regulations promulgated thereunder.

(E)The demonstrated willfulness of the violation.

(F)The extent to which the facility detected the violation and took steps to immediately correct the violation and prevent the violation from recurring.

(G)The special circumstances of small and rural hospitals, as defined in Section 124840, if that consideration is needed to protect access to quality care in those hospitals.

(5)Notify the patient of the violation and the patientsright to reimbursement pursuant to Section 127440.

(6)Begin collection efforts for the penalty after the deadline to appeal pursuant to subdivision (c) has passed, or, if the hospital files an appeal, when all appeals have been exhausted and the departmentsfindings have been upheld.

(c)The department shall promulgate regulations to establish a process whereby a hospital may appeal the directorsdetermination that a violation has occurred or the amount of any penalty assessed, subject to the following requirements:

(1)A hospital shall have 30 days from issuance to appeal any determination or penalty.

(2)A hospital may submit any relevant evidence during the appeal process.

(3)The department shall provide the patient who filed a complaint with timely notice of the appeal and a copy of any evidence submitted by the hospital, and offer the patient 30 days to submit a response, including any additional evidence in support of the complaint.

(4)The department shall consider all relevant evidence.

(5)The department may reduce or waive an assessment in the interest of fairness.

(6)The department may reduce or waive a penalty if a violation was due to factors beyond the hospitalscontrol, such as a patient failing to provide accurate information or an unauthorized person removing signage from hospital walls.

(Added by Stats. 2021, Ch. 473, Sec. 12. (AB 1020) Effective January 1, 2022.)

127440.

The hospital shall reimburse the patient or patients any amount actually paid in excess of the amount due under this article, including interest. Interest owed by the hospital to the patient shall accrue at the rate set forth in Section 685.010 of the Code of Civil Procedure, beginning on the date payment by the patient is received by the hospital. However, a hospital is not required to reimburse the patient or pay interest if the amount due is less than five dollars ($5.00). The hospital shall refund the patient within 30 days.

(Amended by Stats. 2021, Ch. 473, Sec. 13. (AB 1020) Effective January 1, 2022.)

127443.

The rights, remedies, and penalties established by this article are cumulative, and shall not supersede the rights, remedies, or penalties established under other laws.

(Added by Stats. 2006, Ch. 755, Sec. 1. Effective January 1, 2007.)

127444.

(a)This article does not prohibit a hospital from uniformly imposing charges from its established charge schedule or published rates or preclude the recognition of a hospitalsestablished charge schedule or published rates for purposes of applying any payment limit, interim payment amount, or other payment calculation based upon a hospitalsrates or charges under the Medi-Cal program, the Medicare Program, workers™ compensation, or other federal, state, or local public program of health benefits.

(b)This article does not prohibit a hospital, debt collector, or debt buyer from selling or otherwise transferring patient debt to an organization that is exempt from taxation under Section 501(c)(3) of the Internal Revenue Code for the explicit purpose of the tax-exempt organization abolishing the patient debt by cancellation of the indebtedness, or otherwise prohibit payment of the patientsdebt by a third party.

(c)A health care service plan, insurer, or any other person shall not reduce the amount it would otherwise reimburse a claim for hospital services because a hospital has waived, or will waive, collection of all or a portion of a patientsbill for hospital services in accordance with the hospitalscharity care or discount payment policy, notwithstanding any contractual provision.

(Amended by Stats. 2021, Ch. 473, Sec. 14. (AB 1020) Effective January 1, 2022.)

127445.

Notwithstanding any other provision of law, the amounts paid by parties for services resulting from reduced or waived charges under a hospitalsdiscounted payment or charity care policy shall not constitute a hospitalsuniform, published, prevailing, or customary charges, its usual fees to the general public, or its charges to non-Medi-Cal purchasers under comparable circumstances, and shall not be used to calculate a hospitalsmedian non-Medicare or Medi-Cal charges, for purposes of any payment limit under the federal Medicare Program, the Medi-Cal program, or any other federal or state-financed health care program.

(Added by Stats. 2006, Ch. 755, Sec. 1. Effective January 1, 2007.)

127446.

To the extent that any requirement of Section 127400, 127401, or 127405 results in a federal determination that a hospitalsestablished charge schedule or published rates are not the hospitalscustomary or prevailing charges for services, the requirement in question shall be inoperative for all general acute care hospitals, including, but not limited to, a hospital that is licensed to and operated by a county or a hospital authority established pursuant to Section 101850. The State Department of Public Health shall seek federal guidance regarding modifications to the requirement in question. All other requirements of this article shall remain in effect.

(Amended by Stats. 2007, Ch. 483, Sec. 36. Effective January 1, 2008.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2.5. Fair Pricing Policies [127400 - 127471]__

(Chapter 2.5 heading added by Stats. 2010, Ch. 445, Sec. 1.)

__ARTICLE 2. Emergency Physician Fair Pricing Policies [127450 - 127462]__

(Article 2 added by Stats. 2010, Ch. 445, Sec. 4.)

127450.

As used in this article, the following terms have the following meanings:

(a)Allowance for financially qualified patient means, with respect to emergency care rendered to a financially qualified patient, an allowance that is applied after the emergency physicianscharges are imposed on the patient, due to the patientsdetermined financial inability to pay the charges.

(b)Emergency care means emergency medical services and care, as defined in Section 1317.1, that is provided by an emergency physician in the emergency department of a hospital.

(c)Emergency physician means a physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code who is credentialed by a hospital and either employed or contracted by the hospital to provide emergency medical services in the emergency department of the hospital, except that an emergency physician shall not include a physician specialist who is called into the emergency department of a hospital or who is on staff or has privileges at the hospital outside of the emergency department.

(d)Federal poverty level means the poverty guidelines updated periodically in the Federal Register by the United States Department of Health and Human Services under authority of subsection (2) of Section 9902 of Title 42 of the United States Code.

(e)Financially qualified patient means a patient who is both of the following:

(1)A patient who is a self-pay patient or a patient with high medical costs.

(2)A patient who has a family income that does not exceed 350 percent of the federal poverty level.

(f)Hospital means a facility that is required to be licensed under subdivision (a) of Section 1250, except a facility operated by the State Department of State Hospitals or the Department of Corrections and Rehabilitation.

(g)Department means the Department of Health Care Access and Information.

(h)Self-pay patient means a patient who does not have third-party coverage from a health insurer, health care service plan, Medicare, or Medicaid, and whose injury is not a compensable injury for purposes of

workers™ compensation, automobile insurance, or other insurance as determined and documented by the emergency physician. Self-pay patients may include charity care patients.

(i)A patient with high medical costs means a person whose family income does not exceed 350 percent of the federal poverty level if that individual does not receive a discounted rate from the emergency physician as a result of their third-party coverage. For these purposes, high medical costs means any of the following:

(1)Annual out-of-pocket costs incurred by the individual at the hospital that provided emergency care that exceed 10 percent of the patientsfamily income in the prior 12 months.

(2)Annual out-of-pocket expenses that exceed 10 percent of the patientsfamily income, if the patient provides documentation of the patientsmedical expenses paid by the patient or the patientsfamily in the prior 12 months. The emergency physician may waive the request for documentation.

(3)A lower level determined by the emergency physician in accordance with the emergency physiciansdiscounted payment policy.

(j)Patientsfamily means the following:

(1)For persons 18 years of age and older, spouse, domestic partner, as defined in Section 297 of the Family Code, and dependent children under 21 years of age, whether living at home or not.

(2)For persons under 18 years of age, parent, caretaker relatives, and other children under 21 years of age of the parent or caretaker relative.

(k)Reasonable payment formula means monthly payments that are not more than 10 percent of a patientsfamily income for a month, excluding deductions for essential living expenses. Essential living expenses means, for purposes of this subdivision, expenses for all of the following: rent or house payment and maintenance, food and household supplies, utilities and telephone, clothing, medical and dental payments, insurance, school or child care, child or spousal support, transportation and auto expenses, including insurance, gas, and repairs, installment payments, laundry and cleaning, and other extraordinary expenses.

(Amended by Stats. 2021, Ch. 143, Sec. 85. (AB 133) Effective July 27, 2021.)

127451.

A violation of this article shall not constitute a violation of the terms of a physician and surgeonslicensure.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

127452.

(a)Uninsured patients or patients with high medical costs who are at or below 350 percent of the federal poverty level shall be eligible to apply to an emergency physician for a discount payment pursuant to a discount payment policy. Notwithstanding any other provision of this article, an emergency physician may choose to grant eligibility for a discount payment policy to patients with incomes over 350 percent of the

federal poverty level.

(b)An emergency physician shall limit expected payment for services provided to a patient at or below 350 percent of the federal poverty level and who is eligible under the emergency physiciansdiscount payment policy to an amount that is no greater than 50 percent of the median of billed charges based on a nationally recognized database of physician and surgeon charges until the nonprofit FAIR Health, Inc. creates a database that makes available the rate of payment received by physician and surgeons from commercial insurers for the same services in the same or similar geographic region. When FAIR Health, Inc. makes available the rate of payment received by physicians and surgeons from commercial insurers for the same services in the same or similar geographic region, the amount of expected payment under this section shall be no greater than the median or average of rates paid by commercial insurers for the same or similar services in the same or similar geographic region.

(c)(1)If an emergency physician seeks reimbursement from the Maddy Fund pursuant to Section 1797.98c, then the emergency physician shall, at that time, cease any further billing or collection activity for that patient.

(2)If the emergency physician does not receive reimbursement from the Maddy Fund after attempting to obtain reimbursement from the Maddy Fund, then the provisions of this article shall apply.

(3)If the emergency physician does not attempt to seek reimbursement from the Maddy Fund, the provisions of this article shall apply.

(d)A patient, or patientslegal representative, who requests a discounted payment or other assistance in meeting his or her financial obligation to the emergency physician shall make every reasonable effort to provide the emergency physician with documentation of income and health benefits coverage, if the emergency physician requests the documentation. If the patient, or the patientslegal representative, requests a discounted payment and fails to provide information that is reasonable and necessary for the emergency physician to make a determination, the emergency physician may consider that failure in making its determination.

(1)For purposes of determining eligibility for discounted payment, the emergency physician may rely on the determination made by the hospital at which emergency care was provided. If the emergency physician chooses to make a separate determination of eligibility for discounted payment, documentation of income shall be limited to recent pay stubs or income tax returns. The emergency physician, at his or her discretion, may accept self-attestation by a patient, or a patientslegal representative, but shall not request documentation of income other than that authorized in this paragraph.

(2)Information obtained pursuant to paragraph (1) shall not be used for collections activities. This paragraph does not prohibit the use of information obtained by the emergency physician, collection agency, or assignee independent of the eligibility process for discounted payment.

(3)Eligibility for discounted payments may be determined at any time the emergency physician is in receipt of information specified in paragraph (1) or (2), respectively.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

127454.

(a)Each emergency physician shall make all reasonable efforts to obtain from the patient, or his or her representative, information about whether private or public health insurance or sponsorship may fully or partially cover the charges for emergency care rendered by the emergency physician to a patient, including, but not limited to, any of the following:

(1)Private health insurance, including coverage offered through the California Health Benefit Exchange.

(2)Medicare.

(3)The Medi-Cal program, the Healthy Families Program, the California ChildrensServices program, or other state- or county-funded programs designed to provide comprehensive health coverage.

(b)If the emergency physician or his or her representative bills a patient who has not provided proof of coverage by a third party at the time the care is provided or upon discharge, as a part of that billing, the emergency physician shall provide the patient with a clear and conspicuous notice that includes all of the following:

(1)A statement of charges for services rendered by the emergency physician.

(2)A request that the patient inform the emergency physician if the patient has health insurance coverage, Medicare, Healthy Families Program, Medi-Cal, or other coverage.

(3)A statement that if the consumer does not have health insurance coverage, the consumer may be eligible for Medicare, Healthy Families Program, Medi-Cal, coverage through the California Health Benefit Exchange, California ChildrensServices program, other state- or county-funded health coverage, or discounted payment care.

(4)Information regarding the financially qualified patient and discounted payment application, including the following:

(A)A statement that indicates that if the patient lacks, or has inadequate, insurance, and meets certain low- and moderate-income requirements, the patient may qualify for discounted payment. That statement shall also provide patients with a referral to a local consumer assistance center housed at legal services offices.

(B)The name and telephone number of the emergency physiciansemployee or office from whom or which the patient may obtain information about the emergency physiciansdiscount payment policy, and how to apply for that assistance.

(C)If a patient applies, or has a pending application for, another health coverage program at the same time that he or she applies for charity care or a discount payment program, neither application shall preclude eligibility for the other program.

(c)(1)In addition to the statement of the charges, if the emergency physician uses the following notice in any billing, that emergency physician shall be deemed to have complied with the notice requirements of this section: If you are uninsured or have high medical costs, please contact ____ (name of person responsible for discount payment policy) at ____ (area code and phone number) for information on discounts and programs for which you may be eligible, including the Medi-Cal program. If you have coverage, please tell us so that we may bill your plan.□

(2)If the emergency physician or the assignee of the emergency physician lacks the capacity to provide the notice specified in paragraph (1), the emergency physician or his or her assignee shall be deemed to have

complied with the notice requirements of this section if the information required under this section is provided upon request and if the following is printed on the bill in 14-point bold type: If uninsured or high medical bill, call re: discount.□

(Amended by Stats. 2014, Ch. 758, Sec. 6. (SB 1276) Effective January 1, 2015.)

127455.

(a)Each emergency physician shall have a written policy about when and under whose authority patient debt is advanced for collection.

(b)Each emergency physician shall establish a written policy defining standards and practices for the collection of debt, and shall obtain a written agreement from any agency that collects emergency physician receivables that it will adhere to the emergency physiciansstandards and scope of practice. This agreement shall require the affiliate, subsidiary, or external collection agency of the physician that collects the debt to comply with the physiciansdefinition and application of a reasonable payment formula, as defined in subdivision (k) of Section 127450. The policy shall not conflict with other applicable laws and shall not be construed to create a joint venture between the emergency physician and the external entity, or otherwise to allow physician and surgeon governance of an external entity that collects physician and surgeon receivables. In determining the amount of a debt the emergency physician may seek to recover from patients who are eligible under the emergency physicianscharity care policy or discount payment policy, the emergency physician may consider only income and monetary assets as limited by Section 127452.

(c)For a patient that lacks coverage, or for a patient that provides information that he or she may be a patient with high medical costs, the emergency physician, an assignee of the emergency physician, or other owner of the patient debt, including a collection agency, shall not report adverse information to a consumer credit reporting agency or commence civil action against the patient for nonpayment at any time prior to 150 days after initial billing.

(d)If a patient is attempting to qualify for eligibility under the emergency physiciansdiscount payment policy and is attempting in good faith to settle an outstanding bill with the physician and surgeon by negotiating an extended payment plan, the emergency physician or his or her assignee, including a collection agency, shall not report adverse information to a consumer credit agency or commence a civil action.

(e)(1)The emergency physician or other assignee shall not, in dealing with patients eligible under the emergency physiciansdiscount payment policies, use wage garnishments or liens on primary residences as a means of collecting unpaid emergency physician bills.

(2)A collection agency or other assignee shall not, in dealing with any patient under the emergency physiciansdiscount payment policy, use as a means of collecting unpaid emergency physician bills, any of the following:

(A)A wage garnishment, except by order of the court upon noticed motion, supported by a declaration filed by the movant identifying the basis for its belief that the patient has the ability to make payments on the judgment under the wage garnishment, that the court shall consider in light of the size of the judgment and additional information provided by the patient prior to, or at, the hearing concerning the patientsability to pay, including information about probable future medical expenses based on the current condition of the patient and other obligations of the patient.

(B)Notice or conduct a sale of the patientsprimary residence during the life of the patient or his or her spouse, or during the period a child of the patient is a minor, or a child of the patient who has attained the age of majority is unable to take care of himself or herself and resides in the dwelling as his or her primary residence. In the event a person protected by this paragraph owns more than one dwelling, the primary residence shall be the dwelling that is the patientscurrent homestead, as defined in Section 704.710 of the Code of Civil Procedure, or was the patientshomestead at the time of the death of a person other than the patient who is asserting the protections of this paragraph.

(3)This requirement does not preclude the emergency physician, collection agency, or other assignee from pursuing reimbursement and any enforcement remedy or remedies from third-party liability settlements, tortfeasors, or other legally responsible parties.

(f)Extended payment plans offered by an emergency physician to assist patients eligible under the emergency physiciansdiscount payment policy or any other policy adopted by the emergency physician for assisting low-income patients with no insurance or high medical costs in settling outstanding past due emergency physician bills, shall be interest free. The emergency physiciansextended payment plan may be declared no longer operative after the patientsfailure to make all consecutive payments due during a 90-day period. Before declaring the emergency physiciansextended payment plan no longer operative, the emergency physician, collection agency, or assignee shall make a reasonable attempt to contact the patient by telephone, if the telephone number is known, and to give notice in writing that the extended payment plan may become inoperative, and of the opportunity to renegotiate the extended payment plan. Prior to the emergency physiciansextended payment plan being declared inoperative, the emergency physician, collection agency, or assignee shall attempt to renegotiate the terms of the defaulted extended payment plan, if requested by the patient. If the patient wishes to renegotiate the terms of the defaulted extended payment plan but no agreement can be reached on the amount of the payment, the emergency physician or his or her assignee shall apply the reasonable payment formula in subdivision (k) of Section 127450 to determine a monthly payment amount for a subsequent extended payment plan. If the reasonable payment formula would result in a payment of less than ten dollars ($10) a month, the subsequent extended payment plan shall be ten dollars ($10) per month. The emergency physician, collection agency, or assignee shall not report adverse information to a consumer credit reporting agency or commence a civil action against the patient or responsible party for nonpayment prior to the time the extended payment plan is declared to be no longer operative. If after having defaulted on an extended payment plan the patient has entered into another extended payment plan with payments in the amount of either the reasonable payment formula or ten dollars ($10) per month and the patient fails to make all consecutive payments due during a 90-day period, that extended payment plan is inoperative. For purposes of this section, the notice and telephone call to the patient may be made to the last known telephone number and address of the patient.

(g)For purposes of determining the reasonable payment formula in subdivision (k) of Section 127450, the emergency physician or his or her assignee may rely on the determination of family income and essential living expenses made by the hospital at which emergency care was provided. The emergency physician or his or her assignee, at his or her discretion, may accept self-attestation of family income and essential living expenses by a patient or a patientslegal representative.

(h)Nothing in this section shall be construed to diminish or eliminate any protections consumers have under existing federal and state debt collection laws, or any other consumer protections available under state or federal law. If the patient fails to make all consecutive payments for 90 days and fails to renegotiate a payment plan, this subdivision does not limit or alter the obligation of the patient to make payments on the obligation owing to the emergency physician pursuant to any contract or applicable statute from the date that the extended payment plan is declared no longer operative, as set forth in subdivision (f).

(Amended by Stats. 2014, Ch. 758, Sec. 7. (SB 1276) Effective January 1, 2015.)

127456.

(a)The period described in Section 127455 shall be extended if the patient has a pending appeal for coverage of the services, until a final determination of that appeal is made, if the patient makes a reasonable effort to communicate with the emergency physician about the progress of any pending appeals.

(b)For purposes of this section, pending appeal includes any of the following:

(1)A grievance against a contracting health care service plan, as described in Chapter 2.2 (commencing with Section 1340) of Division 2, or against an insurer, as described in Chapter 1 (commencing with Section 10110) of Part 2 of Division 2 of the Insurance Code.

(2)An independent medical review, as described in Section 10145.3 or 10169 of the Insurance Code.

(3)A fair hearing for a review of a Medi-Cal claim pursuant to Section 10950 of the Welfare and Institutions Code.

(4)An appeal regarding Medicare coverage consistent with federal law and regulations.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

127457.

(a)After the period described in Section 127455, and upon the completion of appeals consistent with Section 127456, prior to commencing further collection activities against a patient, the emergency physician, any assignee of the emergency physician, or other owner of the patient debt, including a collection agency, shall not report adverse information to a consumer credit reporting agency or commence a civil action, until after the patient has been provided with a clear and conspicuous written notice containing both of the following:

(1)A plain language summary of the patientsrights pursuant to this article, the Rosenthal Fair Debt Collection Practices Act (Title 1.6C (commencing with Section 1788) of Part 4 of Division 3 of the Civil Code), and the federal Fair Debt Collection Practices Act (Subchapter V (commencing with Section 1692) of Chapter 41 of Title 15 of the United States Code). The summary shall include a statement that the Federal Trade Commission enforces the federal act. The summary shall be sufficient if it appears in substantially the following form: State and federal law require debt collectors to treat you fairly and prohibit debt collectors from making false statements or threats of violence, using obscene or profane language, and making improper communications with third parties, including your employer. Except under unusual circumstances, debt collectors may not contact you before 8 a.m. or after 9 p.m. In general, a debt collector may not give information about your debt to another person, other than your attorney or spouse. A debt collector may contact another person to confirm your location or to enforce a judgment. For more information about debt collection activities, you may contact the Federal Trade Commission by telephone at 1-877-FTC-HELP (382-4357) or online at www.ftc.gov.

(2)A statement that nonprofit credit counseling services may be available in the area.

(b)The notice required by subdivision (a) shall also accompany any document indicating that the

commencement of collection activities may occur.

(c)The requirements of this section shall apply to the entity engaged in reporting adverse information to a consumer credit reporting agency or commencing a civil action against the patient. If an emergency physician assigns or sells the debt to another entity, the obligations shall apply to the entity, including a collection agency, engaged in the debt collection activity.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

127458.

The emergency physician shall reimburse the patient or patients any amount actually paid in excess of the amount due under this article, including interest. Interest owed by the emergency physician to the patient shall accrue at the rate set forth in Section 685.010 of the Code of Civil Procedure, beginning on the date payment by the patient is received by the emergency physician. However, an emergency physician is not required to reimburse the patient or pay interest if the amount due is less than five dollars ($5). The emergency physician shall give the patient a credit for the amount due for at least 60 days from the date the amount is due.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

127459.

The rights, remedies, and penalties established by this article are cumulative, and shall not supersede the rights, remedies, or penalties established under other laws.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

127460.

Nothing in this article shall be construed to prohibit the emergency physician from uniformly imposing charges from its established charge schedule or published rates, nor shall this article preclude the recognition of an emergency physiciansestablished charge schedule or published rates for purposes of applying any payment limit, interim payment amount, or other payment calculation based upon an emergency physiciansrates or charges under the Medi-Cal program, the Medicare Program, workers™ compensation, or other federal, state, or local public program of health benefits. No health care service plan, insurer, or any other person shall reduce the amount it would otherwise reimburse a claim for emergency physician services because an emergency physician has waived, or will waive, collection of all or a portion of a patientsbill for emergency physician services in accordance with the emergency physiciansdiscount payment policy, notwithstanding any contractual provision.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

127461.

Notwithstanding any other provision of law, the amounts paid by parties for services resulting from reduced or waived charges under an emergency physiciansdiscounted payment policy shall not constitute an emergency physiciansuniform, published, prevailing, or customary charges, its usual fees to the general public, or its charges to non-Medi-Cal purchasers under comparable circumstances, and shall not be used to calculate an emergency physiciansmedian non-Medicare or non-Medi-Cal charges, for purposes of any payment limit under the federal Medicare Program, the Medi-Cal program, or any other federal or state-financed health care program.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

127462.

To the extent that any requirement of this article results in a federal determination that an emergency physiciansestablished charge schedule or published rates are not the physician and surgeonscustomary or prevailing charges for services, the requirement in question shall be inoperative for all emergency physicians. The State Department of Public Health shall seek federal guidance regarding modifications to the requirement in question. All other requirements of this article shall remain in effect.

(Added by Stats. 2010, Ch. 445, Sec. 4. (AB 1503) Effective January 1, 2011.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=107.&title=&part=2.&chapter=2.5.&article=3.

127470.

For purposes of this article:

(a)Covered drug means a drug purchased by a covered entity that is subject to the federal pricing requirements set forth in Section 256b of Title 42 of the United States Code.

(b)Covered entity means a provider defined as a covered entity in Section 256b of Title 42 of the United States Code.

(c)Pharmacy benefit manager has the same meaning as defined in Section 4430 of the Business and Professions Code and includes a wholly or partially owned or controlled subsidiary of a pharmacy benefit manager.

(d)Specified pharmacy means a pharmacy owned by, or under contract with, a covered entity that is registered with the 340B discount drug purchasing program to dispense covered drugs on behalf of the covered entity, whether in person or via mail.

(Added by Stats. 2023, Ch. 414, Sec. 1. (SB 786) Effective January 1, 2024.)

127471.

(a)A pharmacy benefit manager shall not impose any requirements, conditions, or exclusions that do either of the following:

(1)Discriminate against a covered entity or a specified pharmacy in connection with dispensing covered drugs.

(2)Prevent a covered entity from retaining the benefit of discounted pricing for the purchase of covered drugs.

(b)Discrimination prohibited pursuant to subdivision (a) includes, but is not limited to, all of the following:

(1)Payment terms, reimbursement methodologies, or other terms and conditions that distinguish between covered drugs and other drugs, account for the availability of discounts under the 340B discount drug purchasing program described in Section 256b of Title 42 of the United States Code in determining reimbursement, or are less favorable than the payment terms or reimbursement methodologies for similarly situated entities that are not furnishing or dispensing covered drugs.

(2)Terms or conditions applied to covered entities or specified pharmacies based on the furnishing or dispensing of covered drugs or their status as a covered entity or specified pharmacy, including restrictions or requirements for participation in specialty, standard, or preferred pharmacy networks, or requirements related to the frequency or scope of audits.

(3)Refusing to contract with or terminating a contract with a covered entity or specified pharmacy, or otherwise excluding a covered entity or specified pharmacy from a specialty, standard or preferred network, on the basis that the entity or pharmacy is a covered entity or a specified pharmacy or for reasons other than those that apply equally to entities or pharmacies that are not covered entities or specified pharmacies.

(4)Retaliation against a covered entity or specified pharmacy based on its exercise of any right or remedy under this article.

(5)Interfering with an individualschoice to receive a covered drug from a covered entity or specified pharmacy, whether in person or via direct delivery, mail, or other form of shipment.

(6)Restricting or prohibiting a covered entity from raising a grievance or speaking publicly about any pharmacy benefit manager that violates this subdivision or from filing a legal action against a pharmacy benefit manager for violating this subdivision.

(c)This section does not apply to the Medi-Cal program or the federal Medicare Program but does apply to pharmacy benefit managers that contract with managed care organizations that serve Medi-Cal or Medicare members.

(d)The provisions of this section shall not be waived, voided, or nullified by contract.

(e)This article shall only be implemented to the extent that it is consistent with Section 256b of Title 42 of the United States Code or any rules or regulations adopted thereunder.

(Added by Stats. 2023, Ch. 414, Sec. 1. (SB 786) Effective January 1, 2024.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2.6. Health Care Affordability [127500 - 127507.6]__

(Chapter 2.6 added by Stats. 2022, Ch. 47, Sec. 19.)

__ARTICLE 1. General Provisions and Definitions [127500 - 127500.5]__

(Article 1 added by Stats. 2022, Ch. 47, Sec. 19.)

127500.

This chapter shall be known, and may be cited, as the California Health Care Quality and Affordability Act.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127500.2.

As used in this chapter, the following definitions apply:

(a)(1)Administrative costs and profits" means the total sum of all expenses not included in the numerator of the medical loss ratio calculation under state or federal law, including, but not limited to, all of the following:

(A)All categories of administrative expenditures.

(B)Net additions to reserves.

(C)Rate dividends or rebates.

(D)Profits or losses.

(E)Taxes and fees.

(2)For purposes of this chapter, administrative costs and profits" for a fully integrated delivery system means those associated with its nonprofit health care services plan.

(b)Affordability for consumers" means considering the totality of costs paid by consumers for covered benefits, including the enrollee share of premium and cost-sharing amounts paid towards the maximum out-of-pocket amount, including deductibles, copays, coinsurance, and other forms of cost sharing for public and private health coverage.

(c)Affordability for purchasers" means considering the cost to purchasers, including, but not limited to, health plans and health insurers, employers purchasing group coverage, and the state, for health coverage and shall include premium costs, actuarial value of coverage for covered benefits, and the value delivered on health care spending in terms of improved quality and cost efficiency.

(d)Alternative payment model" means a state or nationally recognized payment approach that financially incentivizes high-quality and cost-efficient care.

(e)Board" means the Health Care Affordability Board established by Section 127501.10.

(f)Director" means the Director of the Department of Health Care Access and Information.

(g)(1)Exempted provider" means a provider that meets standards established by the board for exemption from either of the following:

(A)The statewide health care target.

(B)Specific targets set for health care sectors, including fully integrated delivery systems, geographic regions,

and for individual health care entities.

(2)The factors used in setting standards for exemption may include, but are not limited to, annual gross and net revenues, patient volume, and high-cost outliers in a given service or geographic region.

(3)In determining whether a provider is an exempted provider, the board shall also consider any affiliates, subsidiaries, or other entities that control, govern, or are financially responsible for the provider or that are subject to the control, governance, or financial control of the provider.

(4)A physician practice that does not meet the definition in subdivision (p) is an exempted provider.

(h)Fully integrated delivery system means a system that includes a physician organization, health facility or health system, and a nonprofit health care service plan that provides health care services to enrollees in a specific geographic region of the state through an affiliate hospital system and an exclusive contract between the nonprofit health care service plan and a single physician organization in each geographic region to provide those medical services.

(i)Geographic region may either be the regions specified in Section 1385.01 or may be otherwise defined by the board.

(j)Health care cost target means the target percentage for the maximum annual increase in per capita total health care expenditures.

(k)Health care entity means a payer, provider, or a fully integrated delivery system.

(l)Insurance market means the public and private health insurance markets.

(m)Line of business means the different individual, small, and large group business lines, as defined in Section 1348.95 of this code and Section 10127.19 of the Insurance Code, as well as Medi-Cal, Medicare, Covered California, or self-insured public employee health plans.

(n)Material change means any change in ownership, operations, or governance for a health care entity, involving a material amount of assets of a health care entity.

(o)Payer means private and public health care payers, including all of the following:

(1)A health care service plan or a specialized mental health care service plan, as defined in the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2) or a Medi-Cal managed care plan contracted with the State Department of Health Care Services to provide full scope benefits to a Medi-Cal enrollee pursuant to Chapter 7 (commencing with Section 14000), Chapter 8 (commencing with Section 14200), or Chapter 8.75 (commencing with Section 14591) of, Part 3 of Division 9 of the Welfare and Institutions Code.

(2)A health insurer licensed to provide health insurance or specialized behavioral health-only policies, as defined in Section 106 of the Insurance Code.

(3)A publicly funded health care program, including, but not limited to, Medi-Cal and Medicare.

(4)A third-party administrator.

(5)Any other public or private entity, other than an individual, that pays for or arranges for the purchase of

health care services on behalf of employees, dependents, or retirees.

(p)Physician organization includes any of the following:

(1)An organization described in paragraph (2) of subdivision (g) of Section 1375.4.

(2)A risk-bearing organization, as defined in Section 1375.4.

(3)A restricted health care service plan and limited health care service plan under subdivision (a) of Section 1300.49 of Title 28 of the California Code of Regulations. The inclusion of restricted health care service plans and limited health care service plans in the definition of physician organization does not narrow, abrogate, or otherwise alter the regulatory authority of the Department of Managed Health Care over these entities.

(4)A medical foundation exempt from licensure pursuant to subdivision (l) of Section 1206.

(5)A medical group practice, a professional medical corporation, a medical partnership, or any lawfully organized group of physicians and surgeons that provides, delivers, furnishes, or otherwise arranges for health care services and is comprised of 25 or more physicians.

(6)Notwithstanding paragraph (5), an organization of less than 25 physicians, but that is a high-cost outlier whose costs for the same services provided are substantially higher compared to the statewide average, as identified through data sources that include, but are not limited to, data from state and federal agencies, other relevant supplemental data, such as financial data on providers that is submitted to state agencies, or data reported to HCAI under the Health Care Payments Data Program, established pursuant to Chapter 8.5 (commencing with Section 127671). The cost of delivering the same services in a geographic region shall be considered to the extent that cost substantially deviates from the statewide average and reflects higher costs in that region unrelated to the market dominance of providers in that region or unrelated to the ownership, management, or asset structure chosen by the organization.

(q)Provider means any of the following that delivers or furnishes health care services:

(1)A physician organization.

(2)A health facility, as defined in Section 1250, including a general acute care hospital.

(3)A clinic conducted, operated, or maintained as an outpatient department of a hospital, as described in subdivision (d) of Section 1206.

(4)A clinic described in subdivision (l) of Section 1206.

(5)A clinic described in subdivision (a) of Section 1204.

(6)A specialty clinic, as described in paragraphs (1) to (3), inclusive, of subdivision (b) of Section 1204.

(7)An ambulatory surgical center or accredited outpatient setting.

(8)A clinical laboratory licensed or registered with the State Department of Public Health under Chapter 3 (commencing with Section 1200) of the Business and Professions Code.

(9)An imaging facility that employs or contracts with persons that are subject to the Radiation Control Law (Chapter 8 (commencing with Section 114960) of Part 9 of Division 104), or the Radiologic Technologists Act

(Article 5 (commencing with Section 106955) of Chapter 4 of Part 1, or Article 6 (commencing with Section 107150) of Chapter 4 of Part 1 of Division 104).

(r)Purchaser means an individual, organization, or business entity that purchases health care services, including, but not limited to, trust funds, trade associations, and private and public employers who provide health care benefits to their employees, members, and dependents.

(s)Total health care expenditures means all health care spending in the state by public and private sources, including all of the following:

(1)All claims-based payments and encounters for covered health care benefits.

(2)All non-claims-based payments for covered health care benefits, such as capitation, salary, global budget, other alternative payment methods, or supplemental provider payments pursuant to the Medi-Cal program.

(3)All cost sharing for covered health care benefits paid by residents of this state, including, but not limited to, copayments, coinsurance, and deductibles.

(4)Administrative costs and profits.

(5)Pharmacy rebates and any inpatient or outpatient prescription drug costs not otherwise included in this subdivision.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127500.5.

(a)The Legislature finds and declares all of the following:

(1)It is in the public interest that all Californians receive health care that is accessible, affordable, equitable, high-quality, and universal.

(2)While California has reduced the uninsured share of its population to a historic low of 7 percent through implementation of the federal Patient Protection and Affordable Care Act (PPACA: Public Law 111-148) and other state efforts, affordability has reached a crisis point as health care costs continue to grow.

(3)As costs rise, employers are increasingly shifting the cost of premiums and deductibles to employees, negatively impacting the potential for wage growth. Between 2010 and 2018, wages in the state kept pace with inflation by increasing by 19 percent. Meanwhile, families with job-based coverage experienced a 45 percent increase in premiums, or more than twice the rate of wage growth. During the same period, families experienced a 70 percent increase in PPO deductibles, or nearly four times the rate of wage growth. While health insurance premium increases for 2021 may be considered moderate due to lower utilization of preventive, routine, and nonemergency services as a result of the novel coronavirus (COVID-19) pandemic, this abatement in health care cost growth is expected to be temporary.

(4)Escalating health care costs are being driven primarily by high prices and the underlying factors or market conditions that drive prices, particularly in geographic areas and sectors where there is a lack of competition due to consolidation, market power, venture capital activity, the role of profit margins, and other market failures. Consolidation through acquisitions, mergers, or corporate affiliations is pervasive across the industry

and involves health care service plans, health insurers, hospitals, physician organizations, pharmacy benefit managers, and other health care entities. Further, market consolidation occurs in various forms, including horizontal, vertical, and cross industry mergers, transitions from nonprofit to for-profit status or vice versa, and any combination involving for-profit and nonprofit entities, such as a nonprofit entity merging with, acquiring, or entering into a corporate affiliation with a for-profit entity or vice versa.

(5)Californians of color experience health disparities, including barriers to accessing care, receiving lower quality of care, lack of access to culturally and linguistically competent care, and experiencing worse health outcomes. Certain communities, including low-income, Black, Latino, Pacific Islander, and essential workers, have been disproportionately impacted by COVID-19 in terms of higher rates of infection, hospitalizations, and deaths. These negative health outcomes further highlight a public health imperative to reduce racial and ethnic disparities in health care.

(6)The COVID-19 pandemic has exposed vulnerabilities within the current system with regard to provider payments. Physician fee-for-service payment has increased over the past decade, while the use of population-based prepayment has decreased in the employer-sponsored coverage market. As Californians stayed home, the loss of fee-for-service (FFS) payment revenue for providers has downstream impacts on access to care and for health care workers™ economic security. Beyond exposing providers to considerable financial instability, FFS payments may not be the most effective way to incentivize providers to deliver high-quality and cost-efficient care or offer the flexibility to make practice changes that enable improved access, care coordination, patient engagement, and quality.

(7)Primary care is foundational to an effective health care system and evidence supports that greater use of primary care has been associated with lower costs, higher patient satisfaction, reduced low birth weight, fewer hospitalizations and emergency department visits, and lower mortality, among other key outcomes. However, the United States as a whole spends a far lower share of health care expenditures on primary care and experiences worse outcomes in life expectancy and mortality than other countries.

(8)Behavioral health needs are common among Californians, with most who need it not receiving treatment. National research finds that persons with mental health or substance use disorders have approximately two to three times higher medical costs than those with no behavioral health diagnosis. This research also shows that total health care spending on mental health and substance use disorder services have remained relatively flat between 2012 and 2017. Models that integrate primary care and behavioral health services have been shown to improve access to effective behavioral health services that improve health outcomes, as well as deliver a return on investment by reducing downstream health care costs.

(9)Surveys show that people are delaying or going without care due to concerns about cost, or are getting care but struggling to pay the resulting bill. In California, one in four people report problems paying or being unable to pay their medical bills, with two-thirds cutting back on basic household items like food and clothing to pay those bills. Concerns about affordability of coverage and care are expected to be exacerbated during the economic recession related to the COVID-19 pandemic, particularly among lower-wage workers.

(10)High drug prices contribute significantly to health care costs. Prescription drugs account for nearly one-fifth of health care spending. The Centers for Medicare and Medicaid Services project that prescription drug spending will grow faster and outpace other categories of health care spending in the years to come. Cost-effectiveness analyses often find that drugs are priced in excess of the value they deliver to patients.

(11)The State of California has a substantial public interest in the price and cost of health care coverage. California is a major purchaser through the Public Employees™ Retirement System, the State Department of Health Care Services, the Department of General Services, the Department of Corrections and Rehabilitation, and other entities acting on behalf of a state purchaser. The government also provides major tax

expenditures through the tax exclusion of employer-sponsored coverage and tax deductibility of coverage purchased by individuals, as well as tax deductibility of excess health care costs for individuals and families.

(b)It is the intent of the Legislature to have a comprehensive view of health care spending, cost trends, and variation to inform actions to reduce the overall rate of growth in health care costs while maintaining quality of care, with the goal of improving affordability, access, and equity of health care for Californians.

(c)It is the intent of the Legislature to encourage policies, payments, and initiatives that improve the affordability, quality, equity, efficiency, access, and value of health care service delivery, with a particular focus on ensuring health equity and reducing disparities in care, access, and outcomes across California.

(d)It is the intent of the Legislature to recognize and consider the unique health care needs of people with disabilities and chronic illnesses and the associated challenges with access, affordability, equity, quality, and delivery of health care.

(e)It is the intent of the Legislature for the State of California to achieve more affordable health care and better outcomes by consistently measuring and promoting sustained systemwide investment in primary care and behavioral health.

(f)It is the intent of the Legislature to facilitate increased adoption of alternative payment models that reward high-quality and cost-efficient care, including strategies for shared savings and downside risk arrangements and population-based payments.

(g)It is the intent of the Legislature to promote the goal of health care affordability while recognizing the need to maintain and increase the supply of trained, culturally and linguistically competent health care workers, and to monitor the effects of cost containment efforts on health care workforce stability, high-quality health care jobs, and the training needs of health care workers. It is the intent of the Legislature that cost containment does not constrain the health care workforce that California needs, including the competitive wages and benefits of frontline health care workers.

(h)It is the intent of the Legislature that health care cost targets not be used to place a floor or ceiling on health care workforce compensation.

(i)It is the intent of the Legislature to increase transparency on mergers, acquisitions, and corporate affiliations involving health care service plans, health insurers, hospitals or hospital systems, physician organizations, pharmacy benefit managers, and other health care entities that may impact market competition and affordability for consumers and purchasers.

(j)It is the intent of the Legislature to analyze cost and quality trends in the pharmaceutical sector, study the impact of drug prices and pharmaceutical market failures on affordability, and inform policy interventions to improve competition and lower consumer costs.

(k)It is the intent of the Legislature in enacting this chapter to provide accountability to the State of California for the affordability and cost of health care in California.

(l)It is the intent of the Legislature in enacting this chapter that the setting of health care cost targets distinguish between health care entities that deliver cost-efficient, high quality care and those that deliver high-cost care without commensurate improvements in overall quality.

(m)It is the intent of the Legislature in enacting this chapter that enforcement actions to address growth in per capita total health care expenditures are implemented in a progressive manner, such that health care

entities are assisted to come into compliance with cost targets, including through technical assistance and performance improvement plans, before assessing administrative penalties unless there are egregious violations as specified in Section 127502.5.

(n)To avoid duplication of efforts and to avoid inconsistency between federal and state laws, it is the intent of the Legislature that collaboration occur between relevant regulatory agencies regarding whether a health care entity is in compliance or noncompliance with the cost targets.

(o)It is the intent of the Legislature, therefore, to establish a single entity within state government charged with doing all of the following:

(1)Developing a comprehensive strategy for cost containment in California, including measuring progress towards reducing the rate of growth in per capita total health care spending and ultimately lowering consumer spending on premiums and out-of-pocket costs, while maintaining quality, access, and equity of care, as well as promoting workforce stability and maintaining high-quality health care jobs.

(2)Addressing cost increases in excess of health care cost targets through public transparency, opportunities for remediation, and other progressive enforcement actions to achieve cost targets that optimize value in health care spending.

(3)Referring transactions that may reduce market competition or increase costs to the Attorney General for further review.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2.6. Health Care Affordability [127500 - 127507.6]__

(Chapter 2.6 added by Stats. 2022, Ch. 47, Sec. 19.)

__ARTICLE 2. Office of Health Care Affordability [127501 - 127501.12]__

(Article 2 added by Stats. 2022, Ch. 47, Sec. 19.)

127501.

(a)There is hereby established, within the Department of Health Care Access and Information, the Office of Health Care Affordability. The Director of the Department of Health Care Access and Information shall be the director of the office and shall carry out all functions of that position, including enforcement.

(b)The office shall be responsible for analyzing the health care market for cost trends and drivers of spending, developing data-informed policies for lowering health care costs for consumers and purchasers, creating a state strategy for controlling the cost of health care and ensuring affordability for consumers and purchasers, and enforcing cost targets.

(c)The office shall do all of the following:

(1)Increase cost transparency through public reporting of per capita total health care spending and factors contributing to health care cost growth.

(2)Support the board, through data collection and analysis and recommendations, to establish a statewide health care cost target for per capita total health care spending.

(3)Support the board, through data collection and analysis and recommendations, to establish specific health care cost targets by health care sector, including fully integrated delivery systems, geographic regions, and individual health care entities, as appropriate.

(4)Collect and analyze data from existing and emerging public and private data sources that allow the office to track spending, set cost targets, approve performance improvement plans, monitor impacts on health care workforce stability, and carry out all other functions of the office.

(5)Analyze cost and quality trends for drugs covered by pharmaceutical and medical benefits. The office shall consider the data in the reports required pursuant to Section 1367.243 and Section 10123.205 of the Insurance Code and pharmaceutical data reported in the Health Care Payments Data Program, established pursuant to Chapter 8.5 (commencing with Section 127671).

(6)Oversee the statesprogress towards meeting the health care cost target by providing technical assistance, requiring public testimony, requiring submission of and monitoring compliance with performance improvement plans, and assessing administrative penalties through enforcement actions, including escalating administrative penalties for noncompliance.

(7)Promote, measure, and publicly report performance on quality and health equity through the adoption of a priority set of standard quality and equity measures for health care entities, with consideration for minimizing administrative burden and duplication.

(8)Advance standards for promoting the adoption of alternative payment models.

(9)Measure and promote sustained systemwide investment in primary care and behavioral health.

(10)Advance standards for health care workforce stability and training, as these relate to costs.

(11)Disseminate best practices from entities that comply with the cost target, including a summary of affordability efforts that enable the entity to meet the cost target.

(12)Review and evaluate consolidation, market power, and other market failures through cost and market impact reviews of mergers, acquisitions, or corporate affiliations involving health care service plans, health insurers, hospitals, physician organizations, pharmacy benefit managers, and other health care entities.

(13)Analyze trends in the price of health care technologies.

(14)Analyze trends in the cost of labor for both management and administration, as well as nonsupervisorial health care workforce, as well as analyzing the profits of health care entities, if that data is available.

(15)Conduct ongoing research and evaluation on payers, fully integrated delivery systems, and providers, including physician organizations, to determine whether the definitions or other provisions of this chapter include those entities that significantly affect health care cost, quality, equity, and workforce stability.

(16)Adopt and promulgate regulations for the purpose of carrying out this chapter.

(17)Establish advisory or technical committees, as necessary.

(d)For purposes of implementing this chapter, including hiring staff and consultants, through the procurement authority and processes of the department, facilitating and conducting meetings, conducting research and analysis, and developing the required reports, the office may enter into exclusive or nonexclusive contracts on a bid or negotiated basis. Until January 1, 2026, contracts entered into or amended pursuant to this chapter are exempt from Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code, Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, and the State Administrative Manual, and are exempt from the review or approval of any division of the Department of General Services.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127501.2.

(a)Until January 1, 2027, any necessary rules and regulations for the purpose of implementing this chapter may be adopted as emergency regulations in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The adoption of emergency regulations pursuant to this section shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare.

(b)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, including subdivisions (e) and (h) of Section 11346.1, an emergency regulation adopted pursuant to this section shall be repealed by operation of law unless the adoption, amendment, or repeal of

the regulation is promulgated by the office pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code within five years of the initial adoption of the emergency regulation.

(c)Any rule or regulation adopted pursuant to this section shall be discussed by the board during at least one board meeting before the office adopts the rule or regulation.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127501.3.

(a)The office shall be responsive to requests for additional information from the Legislature, including providing testimony during hearings and commenting on proposed legislation or policy issues.

(b)The Legislature finds and declares that activities, including, but not limited to, responding to legislative or executive inquiries, tracking and commenting on legislation and regulatory activities, and preparing reports on the implementation of this chapter and the performance of the office, are necessary state requirements.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127501.4.

(a)(1)Notwithstanding any other state or local law, the office shall collect data and other information it determines necessary from health care entities, except exempted providers, to carry out the functions of the office. To the extent consistent with federal law and to the greatest extent possible, the office may use existing and emerging public and private data sources to minimize administrative burdens and duplicative reporting, including data or information from federal agencies as well as state agencies. The office may request data and information from, or enter into a data sharing agreement with, the State Department of Health Care Services, Covered California, the Department of Managed Health Care, the Department of Insurance, the Labor and Workforce Development Agency, the Business, Consumer Services, and Housing Agency, and other relevant state agencies that monitor compliance of plans and providers with access standards, including timely access, language access, geographic access, and other access standards as provided by law and regulation. The office may also enter into a data sharing agreement with these state agencies that collect payer and provider financial data or other data or information about the health care workforce.

(2)In furtherance of this chapter, and with the intent to reduce administrative burdens, the office shall coordinate with the State Department of Health Care Services on data and other information necessary to report both of the following:

(A)Total health care expenditures and per capita total health care expenditures for Medi-Cal services.

(B)Medical loss ratios required under applicable state and federal laws.

(C)Quality and equity measures to assess performance for the Medi-Cal program or other programs administered by the State Department of Health Care Services.

(3)(A)The office shall obtain from the Department of Managed Health Care and the Department of Insurance information about health care services plans, as defined in subdivision (b) of Section 1345, and insurers offering policies of health insurance, as defined in subdivision (b) of Section 106 of the Insurance Code. The information shall be for coverage in the individual, small group, and large group markets for both grandfathered and nongrandfathered products. The information shall include, but not be limited to, all of the following:

(i)Information on premiums, cost sharing, benefits, and other information required under Article 6.2 (commencing with Section 1385.01) of Chapter 2.2 of Division 2 of this code and Article 4.5 (commencing with Section 10181) of Chapter 1 of Part 2 of Division 2 of the Insurance Code.

(ii)Trend factors by benefit category, such as inpatient hospitalization and physician services, including price, utilization, and cost as a percentage of Medicare, as required by Section 1385.045 of this code and Section 10181.45 of the Insurance Code.

(iii)Medical loss ratio for each health care service plan or health insurer under applicable state and federal laws.

(iv)Cost containment and quality improvement efforts reported consistent with Sections 1385.03 and 1385.045 of this code and Sections 10181.3 and 10181.45 of the Insurance Code.

(v)Prescription drug costs consistent with Section 1367.243 and Article 6.1 (commencing with Section 1385.001) of Chapter 2.2 of Division 2 of this code and Section 10123.205 of the Insurance Code.

(vi)Information regarding health equity and quality required under Article 11.9 (commencing with Section 1399.870) of Chapter 2.2 of Division 2, including data and results.

(B)The Department of Managed Health Care and the Department of Insurance shall provide the above information in the initial submission of data to the office for the five years prior to 2023, to the extent that information is available, and annually thereafter.

(b)The office shall establish requirements for payers and fully integrated delivery systems to submit data and other information necessary to do all of the following:

(1)Measure total health care expenditures and per capita total health care expenditures.

(2)Determine whether health care entities met health care cost targets.

(3)Identify the annual change in health care costs of health care entities.

(4)Approve and monitor implementation of performance improvement plans.

(5)Assess performance on quality and equity measures.

(c)The office shall, in a manner prescribed by the office, establish requirements for providers to submit data in support of this section as necessary to carry out the functions of the office.

(d)(1)For the purpose of the baseline health care spending report published pursuant to subdivision (a) of Section 127501.6, payers and fully integrated delivery systems shall submit data on total health care expenditures for the 2022 and 2023 calendar years on or before September 1, 2024. Enforcement shall not be implemented pursuant to this baseline report, except any enforcement actions necessary to ensure

compliance with the deadline for submitting data.

(2)For the first annual report, published pursuant to subdivision (b) of Section 127501.6, payers and fully integrated delivery systems shall submit data on total health care expenditures for the 2024 and 2025 calendar years based on a reporting schedule established by the office. For subsequent annual reports, payers and fully integrated delivery systems shall submit data for the relevant calendar years according to the reporting schedule established by the office.

(e)(1)The office shall require health care entities to submit data and other information as necessary to fulfill its functions and measure total health care expenditures and per capita total health care expenditures by sectors.

(2)For the calculation of total health care expenditures and per capita total health care expenditures by sectors, the office shall use the Health Care Payments Data Program, established pursuant to Chapter 8.5 (commencing with Section 127671), to the greatest extent possible, to minimize reporting burdens for health care entities, and may also use data from federal agencies.

(f)The office shall require payers, fully integrated delivery systems, hospitals, and physician organizations to report data and other information, as necessary, for the single set of standard quality measures pursuant to Section 127503.

(g)(1)The office shall require payers, fully integrated delivery systems, restricted health care service plans, and limited health care service plans, as defined in Section 1300.49 of Title 28 of the California Code of Regulations, to submit data and other information to measure the adoption of alternative payment models pursuant to Section 127504.

(2)The office shall establish requirements for payers, fully integrated delivery systems, restricted health care service plans, and limited health care service plans, as defined in Section 1300.49 of Title 28 of the California Code of Regulations, to report data and other information, including, but not limited to, the types of payment models, adoption by line of business, the number of members covered by alternative payment models, the percent of budget dedicated to alternative payments, or cost and quality performance measures tied to those payment models.

(h)(1)The office shall require payers, fully integrated delivery systems, restricted health care service plans, and limited health care service plans, as defined in Section 1300.49 of Title 28 of the California Code of Regulations, to submit data and other information to measure the percentage of total health care expenditures allocated to primary care and behavioral health pursuant to Section 127505.

(2)For the calculation of total health care expenditures allocated to primary care and behavioral health, the office shall do all of the following:

(A)Use the Health Care Payments Data Program, established pursuant to Chapter 8.5 (commencing with Section 127671), to the greatest extent possible, to minimize reporting burdens for health care entities.

(B)Determine the categories of health care professionals who should be considered primary care and behavioral health providers and consider existing state and national approaches, as appropriate.

(C)Determine specific procedure codes that should be considered primary care and behavioral health services and consider existing state and national approaches, as appropriate.

(D)Determine the categories of payments to primary care or behavioral health care providers and practices,

including non-claims-based payments, such as alternative payment models, that should be included when determining the total amount spent on primary care and behavioral health.

(i)(1)With consideration to minimizing reporting burdens and expenses, the office shall require providers and any physician organizations that are part of a fully integrated delivery system to submit audited financial reports, similar to those required in paragraphs (a) to (e), inclusive, of Section 128735. This paragraph does not apply to exempted providers.

(2)For physician organizations defined in paragraph (5) of subdivision (p) of Section 127500, and providers that do not routinely prepare audited financial reports, the office shall require a comprehensive financial statement that includes details regarding annual costs, annual receipts, realized capital gains and losses, and accumulated surplus and accumulated reserves using the standard accounting method routinely used by the physician organization or provider. The comprehensive financial statement shall be supported by sworn written declarations by the chief financial officer, chief executive officer, or other officer who has financial management and oversight responsibilities for the physician organization or provider, certifying that the financial statement is complete, true, and correct in all material matters to the best of their knowledge, and that the provider does not routinely prepare audited financial reports. This paragraph does not apply to exempted providers and physician organizations that are part of a fully integrated delivery system.

(3)The board, members of the board, the office, the department, and the employees, contractors, and advisors of the office and the department shall keep the audited financial reports and comprehensive financial statements confidential, and shall use the confidential information and documents only as necessary for the function of the office.

(4)This subdivision does not apply to providers that are already required to report under Section 128735 or risk bearing organizations (RBOs) that are required to file quarterly and annual financial statements under Section 1375.4 of this code and Section 1300.75.4.2 of Title 28 of the California Code of Regulations.

(5)Notwithstanding any other law, all information and documents obtained under this subdivision shall not be required to be disclosed pursuant to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code) or any similar local law requiring the disclosure of public records.

(j)(1)Consistent with subdivision (a), the office shall obtain data from existing state and federal data sources and from regulated entities to effectively monitor impacts to health care workforce stability and training needs.

(2)In order for an adjustment to cost targets to be made under paragraph (7) of subdivision (d) of Section 127502, a provider, a fully integrated delivery system, or other associated party shall produce actual or projected nonsupervisory employee organized labor costs, including increased expenditures related to compensation, and any other supporting information to validate the adjustment, as may be requested by the office pertaining to the actual or projected organized labor costs.

(3)The office may collect all of the following types of data and make it accessible to the public:

(A)Overall trends in the health care workforce, including, but not limited to, statewide and regional workforce supply, unemployment and wage data, trends and projections of wages and compensation, projections of workforce supply by region and specialty, training needs, and other future trends in the health care workforce.

(B)The number and classification of workers in internship, clinical placements, apprenticeships, and other

training programs sponsored by an employer.

(C)The percentage of employees employed through a registry or casual employment.

(D)The number of workers at health care entities that were retrained through established public training programs.

(E)Investments by health care entities in private training and retraining programs.

(F)The number of workers subject to relocation, termination, or mass layoff as described in Chapter 4 (commencing with Section 1400) of Part 4 of Division 2 of the Labor Code.

(4)The office may request additional data from health care entities if it finds that the data is needed to effectively monitor impacts to health care workforce stability and training needs.

(5)The office may annually request from health care entities that are in compliance with the cost target, a summary of best practices used for improving health care affordability, if any.

(k)In furtherance of this section, the office shall promulgate regulations to collect data and other information it determines necessary from health care entities, except exempted providers, to carry out the functions of the office. The regulations may include, but are not limited to, detailed reporting schedules, technical specifications, and other resources to ensure the submission of accurate data in a standardized format within the specified timeframes. Prior to adopting regulations and approving the reporting schedules, technical specifications, and other resources, the office shall engage relevant stakeholders, hold a public meeting to solicit input, and provide a response to input received.

(Amended by Stats. 2023, Ch. 131, Sec. 129. (AB 1754) Effective January 1, 2024.)

127501.6.

(a)For data submitted to the office under paragraph (1) of subdivision (d) of Section 127501.4, the office shall prepare a report on baseline health care spending consistent with subparagraph (A) of paragraph (2) of subdivision (b) on or before June 1, 2025.

(b)(1)On or before June 1, 2027, the office shall prepare and publish its first annual report concerning health care spending trends and underlying factors, for the 2024 and 2025 calendar years, along with policy recommendations to control costs and improve quality performance and equity of the health care system, while maintaining access to care and high-quality jobs and workforce stability. The report shall be based on the officesanalysis of data and other information collected pursuant to this chapter.

(2)The annual report shall include all of the following:

(A)Total health care expenditures, per capita total health care expenditures, and, as appropriate, disaggregated data by categories such as service category, consumer out-of-pocket spending, and health care sector or geographic region, as specified in Section 127502.

(B)The statesprogress towards achieving the health care cost target and improving affordability for consumers and purchasers of health care, while improving quality, reducing health disparities, and maintaining access to care and high-quality jobs and workforce stability.

(C)Upon implementation of the Health Care Payments Data Program pursuant to Chapter 8.5 (commencing with Section 127671), or the availability of an alternative source of health care spending data for payers and fully integrated delivery systems required to report to the office, drivers of overall cost and cost growth, including cost trends by health care sector, such as type of provider or service type. Alternative sources of data shall include, but not be limited to, data provided to existing multipayer claims databases or other state or federal agencies. Any analysis of cost trends in the pharmaceutical sector shall account for the effect of drug rebates and other price concessions in the aggregate, without disclosing any product- or manufacturer-specific rebate or price concession information, and without limiting or otherwise affecting the confidential or proprietary nature of any rebate or price concession agreement.

(D)Factors that contribute to cost growth within the stateshealth care system.

(E)Access, quality, and equity of care measures and data, as available. Access includes timely access, language access, geographic access, and other measures of access reported through available data.

(F)Performance improvement plans required, administrative penalties imposed and assessed, and the amount returned to consumers and purchasers, if any.

(G)A summary of best practices for improving affordability while maintaining access, quality, and equity of care, as well as any concerns regarding impacts on the health care workforce stability and training needs of health care workers, as feasible.

(c)(1)Prior to and following the completion of the report on baseline health care spending, the office shall present the reportsfindings to the board and the broader public at a public meeting of the board.

(2)On or before July 1, 2027, and at least 30 days after posting the annual report, and each year thereafter, the office shall present the annual report at a public meeting of the board to inform the board, policymakers, including the Governor and the Legislature, and the broader public about implementation of this chapter, including health care cost targets, cost trends, and actionable recommendations for mitigating cost growth.

(3)(A)The office shall seek comments on the findings of the annual report from health care entities, purchasers, consumer advocacy organizations, organizations representing employers who purchase health coverage, representatives of trust funds and other self-insured purchasers of health benefits, and experts on matters relevant to health care affordability, costs, quality, access, and equity of care, workforce stability, and administrative simplification. The office shall also solicit and collect comments from the public, submitted orally, electronically, or in writing, regarding the impacts of health care affordability efforts on health care workforce stability or training needs. All comments may be posted on the officesinternet website to the extent that they are in compliance with state guidelines for the appropriateness of communications.

(B)The office shall notify the relevant regulatory agency and the Attorney General if a health care entity is impacting health care workforce stability or quality jobs, lowering quality, or reducing access or equity of care.

(d)The annual report and the report on baseline health care spending shall be submitted to the Governor and the Legislature and shall be made available to the public on the officesinternet website, along with key data and statistics supporting its findings. The reports submitted pursuant to this section shall be submitted in compliance with Section 9795 of the Government Code.

(e)The public meetings shall be subject to the Bagley-Keene Open Meeting Act (Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code).

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127501.7.

(a)(1)Notwithstanding any other law regarding the confidentiality of data submitted by health care service plans or other entities to the Department of Managed Health Care, the office and the Department of Managed Health Care may enter into an interagency agreement for the transfer of data pursuant to Section 127501.4 and any other data maintained by the Department of Managed Health Care deemed necessary by the office to implement this chapter.

(2)The interagency agreement shall specify that the office shall comply with any confidentiality requirements of the data that would otherwise apply to the Department of Managed Health Care with respect to disclosure. When confidentiality of data applies, the office may aggregate data for disclosure so that it does not reveal information specific to any particular health care service plan or other entity.

(b)(1)Notwithstanding any other law regarding the confidentiality of data submitted by health insurers or other entities to the Department of Insurance, the office and the Department of Insurance may enter into an interagency agreement for the transfer of data pursuant to Section 127501.4 and any other data maintained by the Department of Insurance deemed necessary by the office to implement this chapter.

(2)The interagency agreement shall specify that the office shall comply with any confidentiality requirements of the data that would otherwise apply to the Department of Insurance with respect to disclosure. When confidentiality of data applies, the office may aggregate data for disclosure so that it does not reveal information specific to any particular health insurer or other entity.

(c)(1)Notwithstanding any other law regarding the confidentiality of data submitted by health plans or other entities to the State Department of Health Care Services, the office and the State Department of Health Care Services may enter into an interagency agreement for the transfer of data pursuant to Section 127501.4 and any other data maintained by the State Department of Health Care Services deemed necessary by the office to implement this chapter.

(2)The interagency agreement shall specify that the office shall comply with any confidentiality requirements of the data that would otherwise apply to the State Department of Health Care Services with respect to disclosure. When confidentiality of data applies, the office may aggregate data for disclosure so that it does not reveal information specific to any particular Medi-Cal managed care plan or other entity.

(d)(1)Notwithstanding any other law regarding the confidentiality of data submitted by qualified health plans or other entities to Covered California, the office and Covered California may enter into an interagency agreement for the transfer of data pursuant to Section 127501.4 and any other data maintained by Covered California deemed necessary by the office to implement this chapter.

(2)The interagency agreement shall specify that the office shall comply with any confidentiality requirements of the data that would otherwise apply to Covered California with respect to disclosure. When confidentiality of data applies, the office may aggregate data for disclosure so that it does not reveal information specific to any particular qualified health plan or other entity.

(e)(1)Notwithstanding any other law regarding the confidentiality of data submitted to a state agency, the office may enter into an interagency agreement for the transfer of data pursuant to Section 127501.4 and

any other data maintained by the state agency deemed necessary by the office to implement this chapter.

(2)The interagency agreement shall specify that the office shall comply with any confidentiality requirements of the data that would otherwise apply to the state agency with respect to disclosure. When confidentiality of data applies, the office may aggregate data for disclosure so that it does not reveal specific confidential information.

(f)For the purposes of this section, information that is otherwise publicly available, or that has not been confidentially maintained by the source, shall not be considered nonpublic information.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127501.8.

(a)There is hereby established in the State Treasury the Health Care Affordability Fund for the purpose of receiving and expending revenues collected pursuant to this chapter. This fund is subject to appropriation by the Legislature.

(b)All moneys in the fund shall be expended in a manner that prioritizes the return of the moneys to consumers and purchasers.

(c)The office may identify any opportunities to leverage existing public and private financial resources to provide technical assistance to health care entities and support to the office. Any private or public moneys obtained may be placed in the Health Care Affordability Fund, for use by the office upon appropriation by the Legislature.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127501.10.

(a)There is hereby established, within the office, the Health Care Affordability Board. The board shall be composed of eight members, as follows:

(1)Four members shall be appointed by the Governor and confirmed by the Senate.

(2)One member shall be appointed by the Senate Committee on Rules.

(3)One member shall be appointed by the Speaker of the Assembly.

(4)The Secretary of Health and Human Services or their designee.

(5)The CalPERS Chief Health Director or their deputy shall serve as a nonvoting member of the board.

(b)Members of the board who are appointed shall be appointed for a term of four years, except that the initial appointment by the Senate Committee on Rules shall be for a term of five years, the initial appointment by the Speaker of the Assembly shall be for a term of two years, and one of the initial appointments by the Governor shall be for a term of three years. A member of the board may continue to

serve until the appointment and qualification of a successor. Vacancies shall be filled by appointment for the unexpired term.

(c)(1)Each person appointed to the board shall have demonstrated and acknowledged expertise in at least one of the following areas: health care economics; health care delivery; health care management or health care finance and administration, including payment methodologies; health plan administration and finance; health care technology; research and treatment innovations; competition in health care markets; primary care; behavioral health, including mental health and substance use disorder services; purchasing or self-funding group health care coverage for employees; enhancing value and affordability of health care coverage; or organized labor that represents health care workers.

(2)Appointing authorities shall consider the expertise of the other members of the board and attempt to make appointments so that the boardscomposition of members reflects a diversity of expertise on health care entities, purchasers, and consumer advocacy groups, who also meet the requirements of paragraph (1).

(3)In making appointments to the board, the appointing authorities shall take into consideration the statesdiversity in culture, race, ethnicity, sexual orientation, gender identity, and geography so that the boardscomposition reflects the communities of California. Appointing authorities shall consider the experience the board member has as a patient or caregiver of a patient with a chronic condition requiring ongoing health care, which may include behavioral health care or a disability.

(4) (A)An appointee to the board shall not receive financial compensation from, or be employed by, a health care entity that is subject to the cost targets, an entity subject to cost and market impact reviews, or an exempted provider.

(B)For purposes of this paragraph, an appointeesprohibited financial compensation and employment does not include employment by a health care entity solely as a tenured academic instructor with duties and compensation unrelated to the health care operations of the entity.

(C)For purposes of this paragraph, financial compensation does not include compensation received pursuant to a retirement plan.

(D)For purposes of this paragraph, financial compensation does not include clinical volunteer services if all of the following conditions are met:

(i)The board member is a health care professional who was actively participating in that profession prior to appointment to the board.

(ii)The board member does not receive compensation for performing volunteer services and does not have an ownership interest or other financial interest in the entity, facility, clinic, or provider group.

(iii)The clinical volunteer services are performed at the University of California or a nonprofit educational institution; a facility, clinic, or provider group operated by, or affiliated with, an academic medical center of either the University of California or a nonprofit educational institution; or a facility, clinic, or provider group operated by a state agency or county health system that does not directly contract with the office.

(E)For purposes of subparagraph (D), compensation and financial interest for a health care professional who performs clinical volunteer services does not include either of the following:

(i)A contribution to a professional liability insurance program made by the entity, facility, clinic, or provider group for the member or staff.

(ii)The provision of physical space, equipment, support staff, or other supports made by the entity, facility, clinic, or provider group for the member or staff necessary for the performance of clinical volunteer services described in subparagraph (D).

(5)The board shall elect a chair.

(d)(1)Each member of the board shall receive a per diem of five hundred dollars ($500) for each day actually spent in the discharge of official duties, not to exceed 30 days per year, and shall be reimbursed for traveling and other expenses necessarily incurred in the performance of official duties. After June 30, 2026, the per diem shall be one hundred dollars ($100) per day.

(2)Notwithstanding any other law, a public officer or employee shall not receive per diem salary compensation for serving on the board on any day when the officer or employee also received compensation for their regular public employment.

(e)(1)The board shall meet at least quarterly or at the call of the chair.

(2)The board shall be subject to the Bagley-Keene Open Meeting Act (Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code), except that the board may hold closed sessions when considering matters related to the office assessing administrative penalties, requiring performance improvement plans under Section 127502.5, and discussing nonpublic information and documents received by the office and board under this chapter.

(3)The board shall be subject to Article 3 (commencing with Section 87300) of Chapter 7 of Title 9 of the Government Code, and the regulations promulgated thereunder.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127501.11.

(a) After receiving input, including recommendations, from the office and the advisory committee, and receiving public comments, the board shall establish all of the following:

(1)A statewide health care cost target.

(2)The definitions of health care sectors, which may include geographic regions and individual health care entities, as appropriate, except fully integrated delivery systems as defined in subdivision (h) of Section 127500.2, and specific targets by health care sector, which may include fully integrated delivery systems, geographic regions, and individual health care entities, as appropriate.

(3)The standards that need to be met for exemption from health care cost targets or submitting data directly to the office, including the definition of exempted providers.

(b)The board shall approve all of the following:

(1)Methodology for setting cost targets and adjustment factors to modify cost targets when appropriate.

(2)The scope and range of administrative penalties and the penalty justification factors for assessing

penalties.

(3)The benchmarks for primary care and behavioral health spending.

(4)The statewide goals for the adoption of alternative payment models and standards that may be used between payers and providers during contracting.

(5)The standards to advance the stability of the health workforce that may apply in the approval of performance improvement plans.

(c)The director shall present to the board for discussion all of the following:

(1)Options for statewide health care cost targets, specific targets by health care sector, including fully integrated delivery systems, geographic regions, and individual health care entities, as appropriate.

(2)The collection, analysis, and public reporting of data for the purposes of implementing this chapter.

(3)The risk adjustment methodologies for the reporting of data on total health care expenditures and per capita total health care expenditures.

(4)Review and input on performance improvement plans prior to approval, including delivery of periodic updates about compliance with performance improvement plans to inform any adjustment to the standards for imposing those plans.

(5)Review and input on administrative penalties to inform any adjustments to the scope and range of administrative penalties and the penalty justification for assessing penalties.

(6)Factors that contribute to cost growth within the stateshealth care system, including the pharmaceutical sector.

(7)Strategies to improve affordability for both individual consumers and purchasers of health care, including data collection, targets, and other steps.

(8)Recommendations for administrative simplification in the health care delivery system.

(9)Approaches for measuring access, quality, and equity of care.

(10)Recommendations for updates to statutory provisions necessary to promote innovation and to enable the increased adoption of alternative payment models.

(11)Methods of addressing consolidation, market power, and other market failures.

(d)(1)To support the boardsdecisionmaking, the board may request data analysis to be conducted or collected by the office.

(2)The office may establish advisory or technical committees, as necessary. The office shall establish advisory or technical committees at the request of the board. These committees may be standing committees or time-limited workgroups, at the discretion of the board. Members of these committees shall comply with the requirements in paragraph (1) of subdivision (c) of Section 127501.10. A committee established by the board may include members who are health care entities, consumer organizations representing health care consumers or patients, organized labor representing health care workers, or patients or caregivers of patients

with a chronic condition requiring ongoing health care, which may include behavioral health care or a disability.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127501.12.

(a)(1)The board shall establish a Health Care Affordability Advisory Committee to provide input, including recommendations, to the board and the office on a range of areas, including, but not limited to, all of the following:

(A)A statewide health care cost target and specific targets by health care sector and geographic region.

(B)The methodology for setting cost targets and adjustment factors to modify cost targets when appropriate.

(C)Definitions of health care sectors.

(D)Benchmarks for primary care and behavioral health spending.

(E)Statewide goals for the adoption of alternative payment models and standards.

(F)Quality and equity metrics.

(G)Standards to advance the stability of the health care workforce.

(H)Other areas requested by the board or the office.

(2)The advisory committee may provide input, including recommendations, to the board regarding board requests for data analysis performed by the office, but does not have authority to direct data analysis or any other work performed by the office.

(b)(1)The board shall appoint the members of the advisory committee. Appointments shall be made by a majority vote of the voting members of the board. When appointing members to the advisory committee, the board shall aim for broad representation, including, at a minimum, representatives of consumer and patient groups, payers, fully integrated delivery systems, hospitals, organized labor, health care workers, medical groups, physicians, and purchasers, and shall apply the same considerations of demonstrated knowledge, expertise, diversity, and personal experience outlined in paragraphs (1) to (3), inclusive, of subdivision (c) of Section 127501.10.

(2)Each appointed member shall serve at the discretion of the board and may be removed at any time by a majority vote of the voting members of the board.

(3)The advisory committee members shall not have access to confidential, nonpublic information that is accessible to the board and office. Instead, the advisory committee shall only have access to information that is publicly available. Neither the board nor the office shall disclose any confidential, nonpublic information to the advisory committee members.

(4)Advisory committee members shall receive reimbursement for travel and other actual costs.

(c)(1)The advisory committee shall meet at least four times per year or when requested by the board.

(2)At least one member of the board shall attend the advisory committee meetings.

(3)Advance notice of any advisory committee meetings shall be posted on the officesinternet website to allow for public participation at the meetings. Meeting minutes of all advisory committee meetings and input, including recommendations, on proposed cost targets shall be posted on the officesinternet website.

(d)The board shall consider input, including recommendations, from the advisory committee, along with public comments, in the boardsdeliberation and decisionmaking.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=107.&title=&part=2.&chapter=2.6.&article=3.

127502.

(a)The board shall establish a statewide health care cost target.

(b)(1)The board shall establish specific targets by health care sector, including fully integrated delivery systems, geographic regions, and individual health care entities, as appropriate. The board shall define health care sectors, which may include geographic regions and individual health care entities, as appropriate, except for fully integrated delivery systems, and the office shall promulgate regulations accordingly.

(2)The board may adjust cost targets by health care sector, including fully integrated delivery systems, geographic regions, and individual health care entities, as appropriate, when warranted to account for the baseline costs in comparison to other health care entities in the health care sector and geographic region.

(3)The setting of different targets by health care sector, including fully integrated delivery systems, geographic regions, and individual health care entities, as appropriate, shall be informed by historical cost data and other relevant supplemental data, such as financial data on health care entities submitted to state agencies and the Health Care Payments Data Program, as well as consideration of access, quality, equity, and health care workforce stability and quality jobs pursuant to Section 127506.

(c)The health care cost targets shall meet all of the following requirements:

(1)Promote a predictable and sustainable rate of change in per capita total health care expenditures.

(2)(A)Be based on a target percentage, with consideration of economic indicators or population-based measures, and be developed based on a methodology that is available and transparent to the public.

(B)Economic indicators may include established measures reflecting the broader economy, the labor markets, and consumer cost trends.

(C)Population-based measures may include changes in the statesdemographic factors that may influence

demand for health care services, such as aging.

(3)Be set for each calendar year, with consideration of multiyear targets to provide health care entities with consistency, be updated periodically, and shall consider relevant adjustment factors.

(4)Be developed, applied, and enforced.

(5)Promote the goal of improved affordability for consumers and purchasers of health care, while maintaining quality and equitable care, including consideration of the impact on persons with disabilities and chronic illness.

(6)Promote the stability of the health care workforce, including the development of the future workforce, such as graduate medical education teaching, training, apprenticeships, and research.

(7) Be adjusted for a provider or fully integrated delivery systemscost target, as appropriate upon a showing that nonsupervisory employee organized labor costs are projected to grow faster than the rate of any applicable cost targets.

(d)(1)Consistent with paragraph (1) of subdivision (b) of Section 127501.11, the office shall develop a methodology, for approval by the board, to set health care cost targets. The methodology shall be available and transparent to the public.

(2)The methodology shall review historical trends and projections for economic indicators and population-based measures.

(3)The methodology shall review historical trends in costs for Medi-Cal, Medicare, and commercial health care coverage. The methodology shall provide differential treatment of the 2020 and 2021 calendar years due to the impacts of COVID-19 on health care spending and health care entities.

(4)The methodology shall review potential factors to adjust future cost targets, including, but not limited to, the health care employment cost index, labor costs, the consumer price index for urban wage earners and clerical workers, impacts due to known emerging diseases, trends in the price of health care technologies, provider payer mix, state or local mandates such as required capital improvement projects, and any relevant state and federal policy changes impacting covered benefits, provider reimbursement, and costs.

(5)(A)With respect to Medi-Cal, the methodology shall consider provision of nonfederal share, determined to be appropriate by the Director of Health Care Services, associated with Medi-Cal payments, such as expenditures by providers or provider-affiliated entities that serve as the nonfederal share associated with Medi-Cal reimbursement.

(B)The methodology may also consider all of the following:

(i)Supplemental payments to qualifying providers who provide services to Medi-Cal and underinsured patients.

(ii)Provisions of nonfederal share or reimbursement of state costs not associated with specific Medi-Cal reimbursement, but that supports the Medi-Cal program, and any other reimbursements and fees assessed by the State Department of Health Care Services, as determined appropriate by the Director of Health Care Services.

(iii)Health care-related taxes or fees that, in whole or in part, provide the nonfederal share associated with

Medi-Cal payments or support the Medi-Cal program, as determined appropriate by the Director of Health Care Services.

(C)The methodology shall allow the board, to the extent necessary for the Medi-Cal program to comply with federal requirements to help ensure that full federal financial participation is available and not otherwise jeopardized related to services, programs, benefits, and contracts that involve funds disbursed by the State Department of Health Care Services, including but not limited to funds authorized pursuant to Title XIX (42 U. S.C. Sec. 1396 et seq.) of the Social Security Act or Title XXI of the Social Security Act (42 U.S.C. Sec. 1397aa et seq.), to adjust any targets, when warranted, as they pertain to health care entities in the Medi-Cal program, upon the request of the Director of Health Care Services.

(6)(A)The methodology shall allow the board to adjust cost targets downward, when warranted, for health care entities that deliver high-cost care that is not commensurate with improvements in quality, and upward, when warranted, for health care entities that deliver low cost, high quality care.

(B)Data sources on cost and quality performance of health care entities may include, but are not limited to, all of the following:

(i)Cost and quality performance data reported by or sourced from recognized quality improvement and transparency initiatives.

(ii)Any other relevant supplemental data, such as financial data on health care entities, submitted to state agencies, and data on costs, payments, and quality from the Health Care Payments Data Program established pursuant to Chapter 8.5 (commencing with Section 127671).

(iii)Any relevant federal, state, or local data.

(7)The methodology shall require the board to adjust cost targets for a provider or a fully integrated delivery system as appropriate to account for actual or projected nonsupervisory employee organized labor costs, including increased expenditures related to compensation. For an adjustment to be effectuated, the provider, the fully integrated delivery system, or other associated party shall submit a request with supporting documentation in a format prescribed by the office. To validate the basis for the requested adjustment, the office may request or accept further information, such as any single labor agreement that is final and reflects the actual or projected increased nonsupervisory employee organized labor costs. The office may audit the submitted data and supporting information as necessary.

(e)The methodology for setting a sector target for an individual health care entity shall be developed taking into account the following:

(1)Allow for the setting of cost targets based on the entitysstatus as a high-cost outlier.

(2)Allow for the setting of cost targets that encourage an individual health care entity to serve populations with greater health care risks by incorporating all of the following:

(A)A risk factor adjustment reflecting the health status of the entityspatient mix, consistent with risk adjustment methodology developed under subdivision (f).

(B)An equity adjustment accounting for the social determinants of health and other factors related to health equity for the entityspatient mix, consistent with subdivision (g).

(C)A geographic cost adjustment reflecting the relative cost of doing business, including labor costs in the

communities the entity operates.

(f)(1)In consultation with the board, the office shall establish risk adjustment methodologies for the reporting of data on total health care expenditures and may rely on existing risk adjustment methodologies. The methodology shall be available and transparent to the public.

(2)To select appropriate risk adjustment methodologies or inform the way any adjustments are applied to unadjusted data to account for the underlying health status of the population, the office may convene technical committees, as necessary.

(3)The risk adjustment methodologies selected or used to inform any adjustments shall take into account the impact of perverse incentives that may inflate the measurement of population risk, such as upcoding. The office may audit submitted data and make periodic adjustments to address those issues as necessary.

(g)In consultation with the board, the office shall establish equity adjustment methodologies to take into account social determinants of health and other factors related to health equity, to the extent data is available and methodology has been developed and validated.

(h)(1)Targets set for payers shall also include targets on administrative costs and profits to deter growth in administrative costs and profits.

(2)The targets established for a payersadministrative costs and profits under this subdivision may be subject to annual adjustment, but shall not increase to the extent the costs for the medical care portion of the medical loss ratio exceed a target.

(3)The office shall consult with the Department of Managed Health Care, the State Department of Health Care Services, and the Department of Insurance to ensure any targets for payers established by the office consider actuarial soundness and rate review requirements imposed by or upon those departments.

(i)(1)Until the board approves sector targets for fully integrated delivery systems, fully integrated delivery systems shall comply with the statewide cost target.

(2)Targets set for fully integrated delivery systems shall include all health care services, costs, and lines of business managed by that system in each separately administered geographic service area of the state. The system shall provide sufficient data and information, comparable to other unintegrated payers and providers, including patient risk mix, to the office to enable analysis and public reporting of performance, including by sector, insurance market, line of business, and separately administered geographic service area.

(3)Targets for fully integrated delivery systems shall include targets on payer administrative costs and profits.

(4)After the board approves sector targets for fully integrated delivery systems, a fully integrated delivery system shall be subject to a target for each of its geographic service areas in which a single medical group is responsible for providing, or arranging for the provision of, all professional services to the payersenrollees.

(j)The office shall direct the public reporting of performance on the health care cost targets, which may include analysis of changes in total health care expenditures on an aggregate and per capita basis for all of the following:

(1)Statewide.

(2)By geographic region.

(3)By insurance market and line of business, including for each payer.

(4)For health care entities, both unadjusted and using a risk adjustment methodology against the covered lives or patient populations, as applicable, for which they serve.

(5)For impact on affordability for consumers and purchasers of health care.

(k)The office shall direct the analysis and public reporting of contributions of health care entities to cost growth in the state using data that includes, but is not limited to, data submitted to the office, data from state and federal agencies, other relevant supplemental data, such as financial data on health care entities, that is submitted to state agencies, and the Health Care Payments Data Program, established pursuant to Chapter 8.5 (commencing with Section 127671).

(l)(1)The board shall establish a statewide health care cost target for the 2025 calendar year and for each calendar year thereafter. The 2025 baseline target shall be a reporting year only and shall not be subject to enforcement pursuant to Section 127502.5. The targets established for the 2026 calendar year, and each calendar year thereafter, shall be enforced for compliance pursuant to Section 127502.5.

(2)(A) On or before October 1, 2027, the board shall define initial health care sectors, which may include geographic regions and individual health care entities, as appropriate, except fully integrated delivery systems, considering factors such as delivery system characteristics. Sectors may be further defined over time.

(B)Not later than June 1, 2028, the board shall establish specific targets by health care sector, including fully integrated delivery systems, geographic regions, and individual health care entities, as appropriate, in accordance with this chapter.

(C)The development of sector targets shall be done in a manner that minimizes fragmentation and potential cost shifting and that encourages cooperation in meeting statewide and geographic region targets.

(D) Sector targets adopted under this subdivision shall specify which single sector target is applicable if a health care entity falls within two or more sectors.

(m)(1)The board shall hold a public meeting to discuss the development and adoption of recommendations for statewide cost targets, or specific targets by health care sector, including fully integrated delivery systems, geographic regions, and individual health care entities. The board shall deliberate and consider input, including recommendations from the office, the advisory committee, and public comment. Cost targets and other decisions of the board consistent with this section shall not be adopted, enforced, revised, or updated until presented at a subsequent public meeting. The meetings shall be subject to the Bagley-Keene Open Meeting Act (Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code) consistent with paragraph (2) of subdivision (e) of Section 127501.10.

(2)The office shall publish on its internet website its recommendations for proposed cost targets for the boardsreview and consideration. The board shall discuss recommendations at a public meeting for proposed targets on or before March 1 of the year prior to the applicable target year.

(3)The board shall receive and consider public comments for 45 days after the board meeting.

(4)The board shall adopt final targets on or before June 1, at a board meeting. The board shall remain in session, and members shall not receive per diem under Section 127501.10, until the board adopts all

required cost targets for the following calendar year.

(n)The adoption of cost targets under this section is exempt from the requirements of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code).

(o)For purposes of this section, individual health care entity does not include an exempted provider.

(p)(1)Statewide and sector-specific health care cost targets do not apply to exempted providers. Upon approval by the board, the office shall promulgate regulations defining who is an exempted provider.

(2)This section does not exempt claims and non-claims-based payments for exempted providers, and associated cost-sharing amounts paid by consumers, from inclusion in the calculation of total health care expenditures and per capita total health care expenditures that uses data submitted by payers.

(Amended by Stats. 2022, Ch. 738, Sec. 5. (AB 204) Effective September 29, 2022.)

127502.5.

(a)The director shall enforce the cost targets established by this chapter against health care entities in a manner that ensures compliance with targets, allows each health care entity opportunities for remediation, and ensures health care entities do not implement performance improvement plans in ways that are likely to erode access, quality, equity, or workforce stability. The director shall consider each entityscontribution to cost growth in excess of the applicable target and any actions by the entity that have eroded, or are likely to erode, access, quality, equity, or workforce stability, factors that contribute to spending in excess of the applicable target, and the extent to which each entity has control over the applicable components of its cost target. The director shall review information and other relevant data from additional sources, as appropriate, including data from the Health Care Payments Data Program, to determine the appropriate health care entity that may be subject to enforcement actions under this section. Commensurate with the health care entitysoffense or violation, the director may take the following progressive enforcement actions:

(1)Provide technical assistance to the entity to assist it to come into compliance.

(2)Require or compel public testimony by the health care entity regarding its failure to comply with the target.

(3)Require submission and implementation of performance improvement plans, including input from the board.

(4)Assess administrative penalties in amounts initially commensurate with the failure to meet the targets, and in escalating amounts for repeated or continuing failure to meet the targets.

(b)Prior to taking any enforcement action, the office shall do all of the following:

(1)Notify the health care entity that it has exceeded the health care cost target.

(2)Give the health care entity not less than 45 days to respond and provide additional data, including information in support of a waiver described in subdivision (i).

(3)If the office determines that the additional data and information meets the burden established by the office to explain all or a portion of the entityscost growth in excess of the applicable target, the office may modify its findings, as appropriate.

(4)The director shall consult with the Director of Managed Health Care, the Director of Health Care Services, or the Insurance Commissioner, as applicable, prior to taking any of the enforcement actions specified in this section with respect to a payer regulated by the respective department to ensure any technical assistance, performance improvement plans, or other measures authorized by this section are consistent with laws applicable to regulating health care service plans, health insurers, or a Medi-Cal managed care plan contracted with the State Department of Health Care Services.

(c)(1)If a health care entity exceeds an applicable cost target, the office shall notify the health care entity of their status and provide technical assistance. The office shall make public the extent to which the health care entity exceeded the target. The office may require a health care entity to submit and implement a performance improvement plan that identifies the causes for spending growth and shall include, but not be limited to, specific strategies, adjustments, and action steps the health care entity proposes to implement to improve spending performance during a specified time period. The office shall request further information, as needed, in order to approve a proposed performance improvement plan. The director may approve a performance improvement plan consistent with those areas requiring specific performance or correction for up to three years. The director shall not approve a performance improvement plan that proposes to meet cost targets in ways that are likely to erode access, quality, equity, or workforce stability. The standards developed under Article 7 (commencing with Section 127506) may be considered in the approval of a performance improvement plan.

(2)The office shall monitor the health care entity for compliance with the performance improvement plan. The office shall publicly post the identity of a health care entity implementing a performance improvement plan and, at a minimum, a detailed summary of the entityscompliance with the requirements of the performance improvement plan while the plan remains in effect and shall transmit an approved performance improvement plan to appropriate state regulators for the entity.

(3)A health care entity shall work to implement the performance improvement plan as submitted to, and approved by, the office. The office shall monitor the health care entity for compliance with the performance improvement plan.

(4)The board, the members of the board, the office, the department, and employees, contractors, and advisors of the office and the department shall keep confidential all nonpublic information and documents obtained under this subdivision, and shall not disclose the confidential information or documents to any person, other than the Attorney General, without the consent of the source of the information or documents, except in an administrative penalty action, or a public meeting under this section if the office believes that disclosure should be made in the public interest after taking into account any privacy, trade secret, or anticompetitive considerations. Prior to disclosure in a public meeting, the office shall notify the relevant party and provide the source of nonpublic information an opportunity to specify facts documenting why release of the information is damaging or prejudicial to the source of the information and why the public interest is served in withholding the information. Information that is otherwise publicly available, or that has not been confidentially maintained by the source, shall not be considered nonpublic information. This paragraph does not limit the boardsdiscussion of nonpublic information during closed sessions of board meetings.

(5)Notwithstanding any other law, all nonpublic information and documents obtained under this subdivision shall not be required to be disclosed pursuant to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code), or any similar local law requiring the disclosure of

public records.

(d)(1)If the director determines that a health care entity is not compliant with an approved performance improvement plan and does not meet the cost target, the director may assess administrative penalties commensurate with the failure of the health care entity to meet the target. An entity that has fully complied with an approved performance improvement plan by the deadline established by the office shall not be assessed administrative penalties. However, the director may require a modification to the performance improvement plan until the cost target is met.

(2)The administrative penalty shall be deposited into the Health Care Affordability Fund.

(3)Prior to assessing an administrative penalty against a health care entity, the director may consider related provision of nonfederal share, determined to be appropriate by the Director of Health Care Services, associated with Medi-Cal payments, such as expenditures by providers or provider-affiliated entities that serve as the nonfederal share associated with Medi-Cal reimbursement.

(4)To the extent that an administrative penalty is related to a Medi-Cal expenditure, including federal financial participation, the office shall coordinate with the State Department of Health Care Services to ensure appropriate treatment and return of any federal funds pursuant to Subpart F commencing with Section 433.300 of Part 433 of Title 42 of the Code of Federal Regulations.

(5)If, after the implementation of one or more performance improvement plans, the health care entity is repeatedly noncompliant with the performance improvement plan, the director may assess escalating administrative penalties that exceed the penalties imposed under paragraphs (1) and (2) of this subdivision and paragraph (4) of subdivision (a).

(6)The director shall consider all of the following to determine the penalty:

(A)The nature, number, and gravity of the offenses.

(B)The fiscal condition of the health care entity, including revenues, reserves, profits, and assets of the entity, as well as any affiliates, subsidiaries, or other entities that control, govern, or are financially responsible for the entity or are subject to the control, governance, or financial control of the entity.

(C)The market impact of the entity.

(e)Administrative penalties shall not constitute expenditures for the purpose of meeting cost targets. The imposition of administrative penalties shall not alter or otherwise relieve the health care entity of the obligation to meet a previously established cost target or a cost target for subsequent years.

(f)(1)For payers and fully integrated delivery systems, the director also shall enforce cost targets established by Section 127502 against the cost growth for administrative costs and profits.

(2)If a payer exceeds the target for per capita growth in total health care expenditures, but has met its target for administrative costs and profits, the payer shall submit relevant documentation or supporting evidence for the drivers of excess cost growth.

(3)This subdivision does not relieve a payer of its obligation to meet targets for per capita growth in total health care expenditures established by Section 127502, and does not limit enforcement actions for payers under this section.

(g)If data indicate adverse impacts on cost, access, quality, equity, or workforce stability from consolidation, market power, or other market failures, the director may, at any point, require that a cost and market impact review be performed on a health care entity, consistent with Section 127507.2.

(h)(1)The director may directly assess administrative penalties when a health care entity has failed to comply with this chapter by doing any of the following:

(A)Willfully failing to report complete and accurate data.

(B)Repeatedly neglecting to file a performance improvement plan with the office.

(C)Repeatedly failing to file an acceptable performance improvement plan with the office.

(D)Repeatedly failing to implement the performance improvement plan.

(E)Knowingly failing to provide information required by this section to the office.

(F)Knowingly falsifying information required by this section.

(2)The director may call a public meeting to notify the public about the health care entitysviolation and declare the entity as imperiling the statesability to monitor and control health care cost growth.

(i)The office may establish requirements for health care entities to file for a waiver of enforcement actions due to reasonable factors outside the entityscontrol, such as changes in state or federal law or anticipated costs for investments and initiatives to minimize future costly care, such as increasing access to primary and preventive services, or under extraordinary circumstances, such as an act of God or catastrophic event. The entity shall submit documentation or supporting evidence of the reasonable factors, anticipated costs, or extraordinary circumstances. The office shall request further information, as needed, in order to approve or deny an application for a waiver.

(j)As applied to the administrative penalties for acts in violation of this chapter, the remedies provided by this section and by any other law are not exclusive and may be sought and employed in any combination to enforce this chapter.

(k)Following an administrative hearing, a health care entity adversely affected by a final order imposing an administrative penalty authorized by this chapter may seek independent judicial review by filing a petition for a writ of mandate in accordance with Section 1094.5 of the Code of Civil Procedure.

(l)After an order imposing an administrative penalty becomes final, and if a petition for a writ of mandate has not been filed within the time limits prescribed in Section 11523 of the Government Code, the office may apply to the clerk of the appropriate court for a judgment in the amount of the administrative penalty. The application, which shall include a certified copy of the final order of the administrative hearing officer, shall constitute a sufficient showing to warrant the issuance of the judgment. The court clerk shall enter the judgment immediately in conformity with the application. The judgment so entered has the same force and effect as, and is subject to all the provisions of law relating to, a judgment in a civil action, and may be enforced in the same manner as any other judgment of the court in which it is entered.

(Amended by Stats. 2023, Ch. 131, Sec. 130. (AB 1754) Effective January 1, 2024.)

127503.

(a)(1)The office shall adopt a single set of standard measures for assessing health care quality and equity across payers, fully integrated delivery systems, hospitals, and physician organizations. Performance on quality and health equity measures shall be included in the annual report required in Section 127501.6.

(2)The standard quality and equity measures shall use recognized clinical quality, patient experience, patient safety, and utilization measures for health care service plans, health insurers, hospitals, and physician organizations.

(3)The standard quality and equity measures shall reflect the diversity of California in terms of race, ethnicity, sex, age, language, sexual orientation, gender identity, and disability status. The standard quality and equity measures shall be appropriate for a population under 65 years of age, including children and adults.

(4)The standard quality and equity measures shall consider available means for reliable measurement of disparities in health care, including race, ethnicity, sex, age, language, sexual orientation, gender identity, and disability status.

(5)The office shall reduce administrative burden by selecting quality and equity measures that simplify reporting and align performance measurement with other payers, programs, and state agencies, including leveraging existing voluntary and required reporting to the greatest extent possible. The office shall further reduce administrative burden by encouraging other payers and programs to use the same reporting mechanisms.

(6)Public reporting developed pursuant to this article shall consider differences among payers, fully integrated delivery systems, hospitals, and physician organizations, including factors such as plan or network design or line of business, provider payer mix, and the risk mix associated with the covered lives or patient population for which they are primarily responsible.

(b)In implementing this section, the office shall coordinate with the Department of Managed Health Care to align with requirements under Article 11.9 (commencing with Section 1399.870) of Chapter 2.2 of Division 2. The office shall also coordinate with the State Department of Health Care Services, Covered California, and the Public Employees™ Retirement System, and shall consult with state departments, external quality improvement organizations and forums, payers, physicians, other providers, and consumer advocates or stakeholders with expertise in quality or equity measurement.

(c)The office shall periodically review and update the priority set of standard measures for assessing the quality and equity of care pursuant to subdivision (a).

(Amended by Stats. 2022, Ch. 738, Sec. 6. (AB 204) Effective September 29, 2022.)

lawCode=HSC&division=107.&title=&part=2.&chapter=2.6.&article=5.)

127504.

(a)The office shall promote the shift from payments based on fee-for-service to alternative payment models that provide financial incentive for equitable high-quality and cost-efficient care. In furtherance of this goal, the office shall convene health care entities and organize an alternative payment model working group, set statewide goals for the adoption of alternative payment models, and measure the statesprogress toward those goals. With input from the working group, the office shall set benchmarks that include, but are not limited to, increasing the percentage of total health care expenditures delivered through alternate payment models or the percentage of membership covered by an alternative payment model.

(b)(1)To advance statewide goals for adoption of alternative payment models, the office shall consider existing alternative payment models and work with the working group to develop standards for alternative payment models that may be used during contracting between health care entities. The office shall adopt the standards for alternative payment models on or before July 1, 2024.

(2)The standards for alternative payment models shall focus on encouraging and facilitating multipayer participation and alignment, improving affordability, efficiency, equity, and quality by considering the current best evidence for strategies such as investments in primary care and behavioral health, shared risk arrangements, or quality-based or population-based payments.

(3)The standards shall include minimum criteria for what is considered an alternative payment model, but be flexible enough to allow for innovation and evolution over time. The standards shall be consistent, and align, to the extent possible, with the quality and equity measures outlined in Article 4 (commencing with Section 127503) to encourage physicians and other providers to make investments and aim to see year-over-year improvement.

(4)The standards shall address appropriate incentives to physicians and other providers and balanced measures, including, but not limited to, total cost of care and quality, access, and equity requirements and shared savings models, to protect against perverse incentives and unintended consequences.

(5)The standards shall attempt to reduce administrative burden by incorporating alternative payment models that facilitate multipayer participation and align with other state payers and programs or national models.

(6)The office shall review the standards at least every five years or more frequently, as appropriate, in order to determine whether the standards are rewarding high-quality, cost-efficient, and equitable care.

(c)The office shall include an analysis of alternative payment model adoption in the annual report required in Section 127501.6.

(d)In implementing this section, the office shall consult with state and federal departments to ensure consistency with state and federal laws, and shall also consult with external organizations promoting alternative payment models and other entities and individuals with expertise in health care financing and quality and equity measurements.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=107.&title=&part=2.&chapter=2.6.&article=6.

127505.

(a)(1)The office shall measure and promote a sustained systemwide investment in primary care and behavioral health. In furtherance of this goal, the office shall measure the percentage of total health care expenditures allocated to primary care and behavioral health and set spending benchmarks. Spending benchmarks for primary care shall consider current and historic underfunding of primary care services.

(2)The intent of the spending benchmarks is to build and sustain infrastructure and capacity, specifically methods of reimbursement that shift greater health care resources and investments away from specialty care and toward supporting and facilitating innovation and care improvement in primary care and behavioral health. It is intended that increased support for primary care and behavioral health will not increase costs to consumers or increase the total costs of health care. However, shifting resources may take time and not be associated with immediate savings.

(3)Benchmarks and public reporting developed pursuant to this article shall consider differences among payers and fully integrated delivery systems, including factors such as plan or network design or line of business, the diversity of settings and facilities through which primary care can be delivered, including clinical and nonclinical settings, the use of both claims-based and non-claims-based payments, and the risk mix associated with the covered lives or patient population for which they are primarily responsible.

(4)In addition to measuring performance of health care entities with the spending benchmarks, the office shall promote improved outcomes for primary care and behavioral health, including, but not limited to, health care entities making investments in, or adopting models that do, any or all of the following:

(A)Promote the importance of primary care and adopt practices that give consumers a regular source of primary care.

(B)Increase access to advanced primary care models and adoption of measures that demonstrate their success in improving quality and outcomes.

(C)Integrate primary care and behavioral health services, including screenings for behavioral health conditions in primary care settings or delivery of behavioral health support for common behavioral health conditions, such as anxiety, depression, or substance use disorders.

(D)Leverage alternative payment models that provide resources at the practice level to enable improved access and team-based approaches for care coordination, patient engagement, quality, and population health. Team-based approaches support the sharing of accountability for delivery of care between physicians and nurse practitioners, physician assistants, medical assistants, nurses and nurse case managers, social workers, pharmacists, and traditional and nontraditional primary and behavioral health care providers, such as peer support specialists, community health works, and others.

(E)Deliver higher value primary care and behavioral health services with an aim toward reducing disparities.

(F)Leverage telehealth and other digital health solutions to expand access to primary care and behavioral

health services, care coordination, and care management.

(G)Implement innovative approaches that integrate primary care and behavioral health with broader social and public health services.

(b)The office shall include an analysis of primary care and behavioral health spending and growth, and relevant quality and equity performance measures, in the annual report required pursuant to Section 127501.6.

(c)In implementing this section, the office shall consult with state departments, external organizations promoting investment in primary care and behavioral health, and other entities and individuals with expertise in primary care, behavioral health, and health equity.

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2.6. Health Care Affordability [127500 - 127507.6]__

(Chapter 2.6 added by Stats. 2022, Ch. 47, Sec. 19.)

__ARTICLE 7. Health Care Workforce Stability [127506- 127506.]__

(Article 7 added by Stats. 2022, Ch. 47, Sec. 19.)

127506.

(a)The intent of this section is to monitor the effects of cost targets on health care workforce stability, high-quality jobs, and training needs of health care workers, in addition to adjustments to cost targets pertaining to nonsupervisory employee organized labor costs pursuant to paragraph (7) of subdivision (d) of Section 127502. The Legislature intends that the office use a transparent process that allows for public input to monitor how health care entities achieve the cost targets and highlight best practices and discourage practices harmful to workers and patients.

(b)The office shall monitor health care costs while promoting health care workforce stability, including the competitive wages and benefits of frontline health care workers, and the professional judgment of health professionals acting within their scope of practice. The office shall monitor health care workforce stability with the goal that workforce shortages do not undermine health care affordability, access, quality, equity, and culturally and linguistically competent care. The office shall also promote the goal of health care affordability, while recognizing the need to maintain and increase the supply of trained health care workers.

(c)To assist health care entities in implementing cost-reducing strategies that advance the stability of the health care workforce, and without exacerbating existing health care workforce shortages, the office, on or before July 2024, in consultation with the board and with input from organized labor representing health care workers, health care entities, and other entities and individuals with expertise in the health care workforce, shall develop standards to advance the stability of the health care workforce. The standards may be considered in the setting of cost targets pursuant to Section 127502 or in the approval of performance improvement plans imposed pursuant to Section 127502.5.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2.6. Health Care Affordability [127500 - 127507.6]__

(Chapter 2.6 added by Stats. 2022, Ch. 47, Sec. 19.)

__ARTICLE 8. Health Care Market Trends [127507 - 127507.6]__

(Article 8 added by Stats. 2022, Ch. 47, Sec. 19.)

127507.

(a)The office shall monitor cost trends, including conducting research and studies on the health care market, including, but not limited to, the impact of consolidation, market power, venture capital activity, profit margins, and other market failures on competition, prices, access, quality, and equity. In a manner supportive of the efforts of the Attorney General, the Department of Managed Health Care, and the Department of Insurance, as appropriate, the office shall promote competitive health care markets by examining mergers, acquisitions, corporate affiliations, or other transactions that entail a material change to ownership, operations, or governance structure involving health care service plans, health insurers, hospitals or hospital systems, physician organizations, providers, pharmacy benefit managers, and other health care entities. The office shall prospectively analyze those transactions likely to have significant effects, seek input from the parties and the public, and report on the anticipated impacts to the health care market. The role of the office is to collect and report information that is informative to the public.

(b)This article does not apply to an exempted provider unless that provider is being acquired by, or affiliating with, an entity that is not an exempted provider. If an entity that is not an exempted provider is acquiring or affiliating with an exempted provider, the entity that is not an exempted provider shall meet the requirements of this article.

(c)(1)A health care entity shall provide the office with written notice of agreements or transactions that will occur on or after April 1, 2024, that do either of the following:

(A)Sell, transfer, lease, exchange, option, encumber, convey, or otherwise dispose of a material amount of its assets to one or more entities.

(B)Transfer control, responsibility, or governance of a material amount of the assets or operations of the health care entity to one or more entities.

(2)Written notice pursuant to paragraph (1) shall be provided to the office at least 90 days prior to entering into the agreement or transaction. If the conditions in paragraph (1) of subdivision (a) of Section 127507.2 apply, the office shall make the notice of material change publicly available, including all information and materials submitted to the office for review with regard to the material change.

(3)The office shall adopt regulations for proposed material changes that warrant a notification, establish appropriate fees, and consider appropriate thresholds, including, but not limited to, annual gross and net revenues and market share in a given service or region.

(d)The requirement to provide notice of a material change pursuant to subdivision (c) does not apply to any

of the following:

(1)Agreements or transactions involving health care service plans that are subject to review by the Director of the Department of Managed Health Care for cost impact or market consolidation under the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2).

(2)Agreements or transactions involving health insurers that are subject to review by the Insurance Commissioner under Article 14 (commencing with Section 1091) of Chapter 1 of Part 2, of Division 1 of the Insurance Code.

(3)Agreements or transactions where a county is purchasing, acquiring, or taking control, responsibility, or governance of an entity to ensure continued access in that county.

(4)Agreements or transactions involving nonprofit corporations that are subject to review by the Attorney General under Article 2 (commencing with Section 5914) of Chapter 9 of Part 2, Division 2 of Title 1 of the Corporations Code.

(e)Agreements or transactions exempted under subdivision (d) from the requirement to provide a notice of material change may be referred to the office for a cost and market impact review by the reviewing authority.

(f)This article does not limit the Attorney Generalsreview of the conversion or restructuring of charitable trusts held by a nonprofit health facility or by an affiliated nonprofit health system or the Attorney Generalsreview of any health care agreement or transaction under any state or federal law.

(g)This article does not narrow, abrogate, or otherwise alter the corporate practice of medicine doctrine, which expressly prohibits the practice of medicine or control of medicine, medical corporations, medical partnerships, or physician practices by entities or individuals other than licensed physicians and surgeons.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127507.2.

(a)(1)If the office finds that a material change noticed pursuant to Section 127507 is likely to have a risk of a significant impact on market competitions, the statesability to meet cost targets, or costs for purchasers and consumers, the office shall conduct a cost and market impact review that examines factors relating to a health care entitysbusiness and its relative market position, including, but not limited to, changes in size and market share in a given service or geographic region, prices for services compared to other providers for the same services, quality, equity, cost, access, or any other factors the office determines to be in the public interest. The office also may conduct cost and market impact reviews on any health care entity based on a determination by the director under subdivision (g) of Section 127502.5, or in association with agreements or transactions referred to the office by a reviewing authority listed in paragraphs (1) to (4), inclusive, of subdivision (d) of Section 127507.

(2)In conducting the review, the office shall consider the benefits of the material change to consumers of health care services, where those benefits could not be achieved without that transaction, including, but not limited to, increased access to health care services, higher quality, and more efficient health care services where consumers of health care services benefit directly from those efficiencies. The party subject to the review may provide information demonstrating the benefits of the material change or information demonstrating the benefits of an integrated organization where the material change would increase those

benefits, and where the benefits involve cost, quality, or access to care for consumers of health care services.

(3)(A)Within 60 days of receipt of a notice of material change, the office shall either advise the noticing health care entity of the officesdetermination to conduct a cost and market impact review or provide a written waiver from the review. An agreement or transaction for which a cost and market impact review proceeds shall not be implemented until 60 days after the office issues a final report.

(B)The office may adopt regulations that expedite these timelines, as warranted, depending on the nature of the agreement or transaction.

(4)In furtherance of this article, the office shall conduct investigations, including, but not limited to, compelling, by subpoena, health care entities and other relevant market participants to submit data and documents.

(5)Upon completion of the cost and market impact review, the office shall make factual findings and issue a preliminary report of its findings. After allowing for the affected parties and the public to respond in writing to the findings in the preliminary report, the office shall issue its final report.

(b)The office shall adopt regulations for notification to affected parties for the basis of the review, factors considered in the review, requests for data and information from affected parties, the public, and other relevant market participants, and relevant timelines.

(c)(1)The office, the department, employees, contractors, and advisors of the office and the department, the board, and the board members shall keep confidential all nonpublic information and documents obtained under this article that were not required with the notice of material change or from the parties to the transaction, and shall not disclose the confidential information or documents to any person, other than the Attorney General, without the consent of the source of the information or documents, except in a preliminary report or final report under this section if the office believes that disclosure should be made in the public interest after taking into account any privacy, trade secret, or anticompetitive considerations. Prior to disclosure in a report, the office shall notify the relevant party and provide the source of nonpublic information an opportunity to specify facts documenting why release of the information is damaging or prejudicial to the source of the information and why the public interest is served in withholding the information. Information that is otherwise publicly available, or that has not been confidentially maintained by the source, shall not be considered nonpublic information.

(2)Notwithstanding any other law, all nonpublic information and documents obtained under this article shall not be required to be disclosed pursuant to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code), or any similar local law requiring the disclosure of public records.

(d)(1)The office may refer its findings, including the totality of documents gathered and data analysis performed, to the Attorney General for further review of any unfair methods of competition, anticompetitive behavior, or anticompetitive effects.

(2)This section does not limit the authority of the Attorney General to protect consumers in the health care market or to protect the economy of the state, or any significant part thereof, insofar as health care is concerned, under any state or federal law. The authority of the Attorney General to maintain competitive markets and prosecute state and federal antitrust and unfair competition violations shall not be narrowed, abrogated, or otherwise altered by this section.

(Amended by Stats. 2023, Ch. 131, Sec. 131. (AB 1754) Effective January 1, 2024.)

127507.4.

In furtherance of this article, the office may do all of the following:

(a)Contract with, consult, and receive advice from any state agency on terms and conditions that the office deems appropriate.

(b)Contract with experts or consultants to assist in reviewing a proposed agreement or transaction.

(1)Contract costs shall not exceed an amount that is reasonable and necessary to conduct the review and complete the report.

(2)The office shall be entitled to reimbursement from the health care entity subject to review for all actual, reasonable, and direct costs incurred in reviewing, evaluating, and making the determination referred to in Section 127507.2, including administrative costs. The health care entity subject to review shall promptly pay the office, upon request, for all of those costs.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

127507.6.

In addition to any legal remedies, the office shall be entitled to specific performance, injunctive relief, and other equitable remedies a court deems appropriate for enforcement of any of the requirements of this article and shall be entitled to recover its attorneysfees and costs incurred in remedying each violation.

(Added by Stats. 2022, Ch. 47, Sec. 19. (SB 184) Effective June 30, 2022.)

(Chapter 6 added by Stats. 2022, Ch. 562, Sec. 2.)

127630.

For purposes of this chapter:

(a)Abortion has the same meaning as defined in Section 123464.

(b)Contraception means the services and contraceptive methods described in paragraph (1) of subdivision (b) of Section 1367.25.

(c)Department means the Department of Health Care Access and Information.

(d)Fund means the California Reproductive Health Equity Fund established pursuant to Section 127631.

(e)Program means the California Reproductive Health Equity Program established pursuant to Section 127632.

(f)Religious employer has the same meaning as described in Section 1367.25.

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127631.

(a)The California Reproductive Health Equity Fund is hereby established.

(b)The primary purpose of the fund is to provide grant funding to safety net providers of abortion and contraception services through the California Reproductive Health Equity Program and to otherwise ensure affordability of and access to abortion and contraception to anyone who seeks care in California, regardless of their ability to pay for care.

(c)The fund shall also be used to pay for the cost of administering the program and for any other purpose authorized by this chapter. The level of expenditure by the department for the administrative support of the program created pursuant to this chapter shall be subject to review and approval annually through the annual budget process.

(d)The department may receive private donations to be deposited into the fund.

(e)The money in the fund is continuously appropriated to the department for the purposes of this chapter.

The department shall manage this fund prudently in accordance with the law.

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127632.

(a)The California Reproductive Health Equity Program is hereby established within the department.

(b)The purpose of the program is to ensure abortion and contraception are affordable for and accessible to all patients, regardless of their ability to pay, and to provide financial support for safety net providers of these services to offset the costs of providing uncompensated care to patients with low incomes who would otherwise lack access to care.

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127633.

(a)A Medi-Cal enrolled provider, as determined by the State Department of Health Care Services, may apply for a grant, and a continuation award after the initial grant, under this chapter if they agree to provide abortion and contraception services in accordance with all of the following:

(1)The abortion and contraception services provided are within the providersscope of practice and licensure.

(2)The provider agrees to be identified, in a manner determined by the department, as a participating provider in the program. An institutional provider shall not be required to identify any individual who is an abortion provider as a condition of a grant awarded pursuant to this chapter.

(3)To the extent services provided are covered pursuant to Section 14132 of the Welfare and Institutions Code, the services shall be provided at no cost or a reduced cost to an individual with a household income at or below 400 percent of the federal poverty level who meets both of the following criteria:

(A)Is uninsured or has health care coverage that does not include both abortion and contraception.

(B)Is not otherwise eligible to receive both abortion and contraception at no cost through the Medi-Cal and Family PACT programs.

(b)For purposes of this chapter, an individualsself-declaration of income and source of health care coverage made to the provider at the time of service shall be all that is required to determine whether the individual may be able to access no-cost or reduced-cost services pursuant to this chapter.

(c)This chapter does not require a provider to accept additional patients if, in the reasonable professional judgment of the provider, accepting additional patients would endanger access to, or continuity of, care for existing patients.

(d)The department shall work with the State Department of Health Care Services to notify Medi-Cal enrolled providers of the availability of funding under this chapter, including any pertinent deadlines and other requirements.

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127634.

(a)An application for a grant under this chapter shall be made on a form to be developed by the department.

(b)An application shall include both of the following:

(1)A justification of the amount of grant funds requested, including both of the following:

(A)The cost of uncompensated abortion and contraceptive services the applicant provided to patients with household incomes at or below 400 percent of the federal poverty level in the previous 12 months.

(B)The anticipated cost of uncompensated abortion and contraception services to be provided to patients with household incomes at or below 400 percent of the federal poverty level in the upcoming 12 months.

(2)Other pertinent information that the department requires.

(c)The department shall develop an application form and shall begin accepting applications for grants pursuant to this chapter on or before January 1, 2023.

(d)For purposes of subdivision (b), the cost of uncompensated abortion and contraception services shall:

(1)Be calculated based on the amount the provider would expect to receive for providing these services to a patient enrolled in the Medi-Cal program.

(2)Include those services provided through prescription, including laboratory and pharmaceutical, as well as services that are the result of complications related to services provided pursuant to this chapter, to the extent they would be covered pursuant to Section 14132 of the Welfare and Institutions Code.

(e)For purposes of this section, the department shall not require the submission of personal information about individuals receiving uncompensated abortion and contraception services as part of an application. Information required by the department shall only include information in summary, statistical, or other forms that do not identify particular individuals.

(f)An application for a grant under this chapter shall be exempt from disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127635.

(a)Within the limits of funds available, the department may award grants that, in the departmentsjudgment, best promote the purposes described in Section 127632, taking into account all of the following:

(1)The extent to which abortion and contraception services are needed locally.

(2)The ability of the applicant to advance health equity.

(3)The relative need of the applicant.

(b)The department shall determine the amount of an award on the basis of the amount of funds requested.

(c)Unless otherwise specified by the department, an initial grant shall be for a 12-month period.

(d)Determination regarding a grant award shall be made within 60 days of receipt of a completed application.

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127636.

(a)An application for a continuation award under this chapter shall be made on a form to be developed by the department.

(b)Decisions regarding continuation awards and the funding level of those awards shall be made after consideration of factors that include the recipientsanticipated level of need and the availability of funds.

(c)Unless otherwise specified by the department, a continuation award shall be for a 12-month period.

(d)An application for a continuation award under this chapter shall be exempt from disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127637.

Funds awarded pursuant to this chapter shall be expended solely for the purpose for which the funds were awarded, in accordance with the approved application and budget, implementation guidance issued by the department, and the terms and conditions of the grant or continuation award.

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127638.

In implementing the program, the department shall consult with interested parties, including the State Department of Health Care Services, the Department of Managed Health Care, the Department of Insurance, abortion and contraception providers, consumer advocates, and other stakeholders it deems appropriate.

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127639.

The department shall conduct an evaluation of the program and shall report its findings to the Legislature by no later than July 1, 2024, and on an annual basis no later than each July 1 thereafter. The department may use funds in the fund for the evaluation of the program. The report shall be submitted in compliance with Section 9795 of the Government Code.

(Added by Stats. 2022, Ch. 562, Sec. 2. (AB 2134) Effective January 1, 2023.)

127660.

(a)The Legislature hereby requests the University of California to establish the California Health Benefit Review Program to assess legislation proposing to mandate a benefit or service, as defined in subdivision (d), and legislation proposing to repeal a mandated benefit or service, as defined in subdivision (e), and to prepare a written analysis with relevant data on the following:

(1)Public health impacts, including, but not limited to, all of the following:

(A)The impact on the health of the community, including the reduction of communicable disease and the benefits of prevention such as those provided by childhood immunizations and prenatal care.

(B)The impact on the health of the community, including diseases and conditions where disparities in outcomes associated with the social determinants of health as well as gender, race, sexual orientation, or gender identity are established in peer-reviewed scientific and medical literature.

(C)The extent to which the benefit or service reduces premature death and the economic loss associated with disease.

(2)Medical impacts, including, but not limited to, all of the following:

(A)The extent to which the benefit or service is generally recognized by the medical community as being effective in the screening, diagnosis, or treatment of a condition or disease, as demonstrated by a review of scientific and peer-reviewed medical literature.

(B)The extent to which the benefit or service is generally available and utilized by treating physicians.

(C)The contribution of the benefit or service to the health status of the population, including the results of any research demonstrating the efficacy of the benefit or service compared to alternatives, including not providing the benefit or service.

(D)The extent to which mandating or repealing the benefits or services would not diminish or eliminate access to currently available health care benefits or services.

(3)Financial impacts, including, but not limited to, all of the following:

(A)The extent to which the coverage or repeal of coverage will increase or decrease the benefit or cost of the benefit or service.

(B)The extent to which the coverage or repeal of coverage will increase the utilization of the benefit or service, or will be a substitute for, or affect the cost of, alternative benefits or services.

(C)The extent to which the coverage or repeal of coverage will increase or decrease the administrative expenses of health care service plans and health insurers and the premium and expenses of subscribers, enrollees, and policyholders.

(D)The impact of this coverage or repeal of coverage on the total cost of health care.

(E)The impact of this coverage or repeal of coverage on anticipated costs or savings estimated upon implementation for one subsequent calendar year, or, if applicable, two subsequent calendar years through a long-range estimate.

(F)The potential cost or savings to the private sector, including the impact on small employers as defined in paragraph (1) of subdivision (l) of Section 1357, the Public Employees™ Retirement System, other retirement systems funded by the state or by a local government, individuals purchasing individual health insurance, and publicly funded state health insurance programs, including the Medi-Cal program and the Healthy Families Program.

(G)The extent to which costs resulting from lack of coverage or repeal of coverage are or would be shifted to other payers, including both public and private entities.

(H)The extent to which mandating or repealing the proposed benefit or service would not diminish or eliminate access to currently available health care benefits or services.

(I)The extent to which the benefit or service is generally utilized by a significant portion of the population.

(J)The extent to which health care coverage for the benefit or service is already generally available.

(K)The level of public demand for health care coverage for the benefit or service, including the level of interest of collective bargaining agents in negotiating privately for inclusion of this coverage in group contracts, and the extent to which the mandated benefit or service is covered by self-funded employer groups.

(L)In assessing and preparing a written analysis of the financial impact of legislation proposing to mandate a benefit or service and legislation proposing to repeal a mandated benefit or service pursuant to this paragraph, the Legislature requests the University of California to use a certified actuary or other person with relevant knowledge and expertise to determine the financial impact.

(4)The impact on essential health benefits, as defined in Section 1367.005 of this code and Section 10112.27 of the Insurance Code, and the impact on the California Health Benefit Exchange.

(b)The Legislature further requests that the California Health Benefit Review Program assess legislation that

impacts health insurance benefit design, cost sharing, premiums, and other health insurance topics.

(c)The Legislature requests that the University of California provide every analysis to the appropriate policy and fiscal committees of the Legislature not later than 60 days, or in a manner and pursuant to a timeline agreed to by the Legislature and the California Health Benefit Review Program, after receiving a request made pursuant to Section 127661. In addition, the Legislature requests that the university post every analysis on the Internet and make every analysis available to the public upon request.

(d)As used in this section, legislation proposing to mandate a benefit or service means a proposed statute that requires a health care service plan or a health insurer, or both, to do any of the following:

(1)Permit a person insured or covered under the policy or contract to obtain health care treatment or services from a particular type of health care provider.

(2)Offer or provide coverage for the screening, diagnosis, or treatment of a particular disease or condition.

(3)Offer or provide coverage of a particular type of health care treatment or service, or of medical equipment, medical supplies, or drugs used in connection with a health care treatment or service.

(e)As used in this section, legislation proposing to repeal a mandated benefit or service means a proposed statute that would repeal an existing requirement that a health care service plan or a health insurer, or both, do any of the following:

(1)Permit a person insured or covered under the policy or contract to obtain health care treatment or services from a particular type of health care provider.

(2)Offer or provide coverage for the screening, diagnosis, or treatment of a particular disease or condition.

(3)Offer or provide coverage of a particular type of health care treatment or service, or of medical equipment, medical supplies, or drugs used in connection with a health care treatment or service.

(Amended by Stats. 2018, Ch. 326, Sec. 1. (AB 2893) Effective January 1, 2019. Inoperative July 1, 2027. Repealed as of January 1, 2028, pursuant to Section 127665.)

127662.

(a)In order to effectively support the University of California and its work in implementing this chapter, there is hereby established in the State Treasury, the Health Care Benefits Fund. The universityswork in providing the bill analyses shall be supported from the fund.

(b)For the 2022“23 to 2026“27 fiscal years, inclusive, each health care service plan, except a specialized health care service plan, and each health insurer offering health insurance, as defined in Section 106 of the Insurance Code, shall be assessed an annual fee in an amount determined through regulation. The amount of the fee shall be determined by the Department of Managed Health Care and the Department of Insurance in consultation with the university and shall be limited to the amount necessary to fund the actual and necessary expenses of the university and its work in implementing this chapter. The total annual assessment on health care service plans and health insurers shall not exceed two million two hundred thousand dollars ($2,200,000).

(c)The Department of Managed Health Care and the Department of Insurance, in coordination with the university, shall assess the health care service plans and health insurers, respectively, for the costs required to fund the universitysactivities pursuant to subdivision (b).

(1)Health care service plans shall be notified of the assessment on or before June 15 of each year with the annual assessment notice issued pursuant to Section 1356. The assessment pursuant to this section is separate and independent of the assessments in Section 1356.

(2)Health insurers shall be noticed of the assessment in accordance with the notice for the annual assessment or quarterly premium tax revenues.

(3)The assessed fees required pursuant to subdivision (b) shall be paid on an annual basis no later than August 1 of each year. The Department of Managed Health Care and the Department of Insurance shall forward the assessed fees to the Controller for deposit in the Health Care Benefits Fund immediately following their receipt.

(4)Health insurance, as used in this subdivision, does not include Medicare supplement, vision-only, dental-only, or CHAMPUS supplement insurance, or hospital indemnity, accident-only, or specified disease insurance that does not pay benefits on a fixed benefit, cash payment only basis.

(Amended by Stats. 2021, Ch. 592, Sec. 1. (AB 1082) Effective January 1, 2022. Inoperative July 1, 2027. Repealed as of January 1, 2028, pursuant to Section 127665.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 8.5. Health Care Payments Data Program [127671 - 127674.1]__

(Heading of Chapter 8.5 amended by Stats. 2020, Ch. 12, Sec. 11.)

127671.

(a)The Legislature finds and declares that California has a substantial public interest in the price, cost, utilization, equity, and quality of health care services. California is a major purchaser of health coverage through the Public Employees™ Retirement System, the State Department of Health Care Services, the Department of General Services, the Department of Corrections and Rehabilitation, the California Health Benefit Exchange, and other entities acting on behalf of a state purchaser. California also provides major tax expenditures through the tax exclusion of employer-sponsored coverage and tax deductibility of coverage purchased by individuals, as well as tax deductibility of excess health care costs for individuals and families.

(b)It is the intent of the Legislature in enacting this chapter to establish a system to collect information regarding health care costs, utilization, quality, and equity. Health care data is reported and collected through many disparate systems. Creating a process to aggregate and use this data will provide greater transparency regarding health care costs, utilization, quality, and equity, and the information may be used to inform policy decisions regarding the provision of quality health care, improving public health, reducing disparities, advancing health coverage, reducing health care costs, oversight of the health care system and health care companies, and providing public benefit for Californians and the state, while preserving consumer privacy.

(c)It is the intent of the Legislature to improve data transparency to achieve a sustainable health care system with more equitable access to affordable and quality health care for all.

(d)It is the intent of the Legislature in enacting this chapter to encourage state agencies, researchers, health care service plans, health insurers, providers, suppliers, and other stakeholders to use this data to develop innovative approaches, services, and programs that may have the potential to deliver health care that is both cost effective and responsive to the needs of enrollees, including recognizing the diversity of California and the impact of social determinants of health.

(e)It is the intent of the Legislature that the development of a Health Care Payments Data System be substantially completed no later than July 1, 2023, pursuant to this chapter.

(f)For purposes of this chapter:

(1)Director means the Director of the Department of Health Care Access and Information.

(2)Fund means the Health Care Payments Data Fund established pursuant to Section 127674.

(3)Department means the Department of Health Care Access and Information.

(4)Program means the Health Care Payments Data Program established pursuant to Section 127671.1.

(5)Qualified applicants includes state agencies, mandatory submitters, established nonprofit research institutions, the University of California, nonprofit educational institutions, providers, suppliers, labor unions, self-insured multiemployer plans that submit data to the system, and consumer organizations certified for the Consumer Participation Program administered by the Department of Managed Health Care pursuant to Section 1348.9 that have been awarded reasonable advocacy and witness fees in a proceeding or proceedings of the department.

(6)Research has the same meaning as defined in Section 164.501 of Title 45 of the Code of Federal Regulations.

(7)System means the Health Care Payments Data System.

(Amended by Stats. 2021, Ch. 143, Sec. 89. (AB 133) Effective July 27, 2021.)

127671.1.

(a)The department shall establish, implement, and administer the Health Care Payments Data Program to implement and administer the system in accordance with this chapter.

(b)The system shall collect data on all California residents to the extent feasible and permissible subject to the state constitutional right to privacy and any other applicable state or federal law.

(Amended by Stats. 2021, Ch. 143, Sec. 90. (AB 133) Effective July 27, 2021.)

127672.

(a)(1)The Department of Health Care Access and Information shall convene a Health Care Payments Data Program advisory committee, composed of health care stakeholders and experts, including, but not limited to, all of the following:

(A)Health care service plans, including specialized health care service plans.

(B)Insurers that have a certificate of authority from the Insurance Commissioner to provide health insurance, as defined in Section 106 of the Insurance Code.

(C)Suppliers, as defined in paragraph (3) of subdivision (b) of Section 1367.50.

(D)Providers, as defined in paragraph (2) of subdivision (b) of Section 1367.50.

(E)Self-insured employers.

(F)Multiemployer self-insured plans that are responsible for paying for health care services provided to beneficiaries or the trust administrator for a multiemployer self-insured plan.

(G)Businesses that purchase health care coverage for their employees.

(H)Organized labor.

(I)Organizations representing consumers.

(2)The advisory committee shall consist of no fewer than nine and no more than 11 persons.

(3)In addition to the members specified by paragraph (2), the director of the department, the director of the State Department of Health Care Services, and the executive director of the California Health Benefit

Exchange, or their officially designated representatives, shall be nonvoting ex officio members of the advisory committee.

(4)Each appointed member shall serve a term of two years, except one-half of the initial appointments shall be for one year. Each appointed member shall serve at the discretion of the director and may be removed at any time.

(5)The chairperson of the advisory committee shall be an appointed member and shall be elected by a majority of the appointed members.

(6)The advisory committee shall meet at least quarterly or when requested by the director.

(7)The advisory committee shall assist and advise the director in formulating program policies regarding data collection, management, use, and access, and development of public information to meet the goals of the program. The advisory committee shall, through its meetings, provide a forum for stakeholder and public engagement. Upon request of the director, the advisory committee may assist and advise on the departmentsother data programs.

(8)On or before July 1, 2024, the advisory committee shall make recommendations to the department on how existing state public health data functions may be integrated into the system. The advisory committee shall also recommend options for state public health data integration. These recommendations shall be published on the departmentsinternet website.

(9)The advisory committee shall not have decisionmaking authority related to the administration of the system and shall not have a financial interest, individually or through a family member, in the recommendations made to the department. The advisory committee shall hold public meetings with stakeholders, solicit input, and set its own meeting agendas. Meetings of the advisory committee are subject to the Bagley-Keene Open Meeting Act (Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code).

(10)The members of the advisory committee appointed from outside government shall serve without compensation, but shall receive a per diem for each daysattendance at an advisory committee meeting. All members shall be reimbursed for any actual and necessary expenses incurred in connection with their duties as members of the committee.

(b)The department may convene other committees or workgroups as necessary to support effective operation of the system. These committees may be standing committees or time-limited workgroups, at the discretion of the director.

(Amended by Stats. 2021, Ch. 143, Sec. 91. (AB 133) Effective July 27, 2021.)

127672.8.

The department shall ensure that the system can map to other datasets, including public health datasets on morbidity and mortality, and data regarding the social determinants of health.

(Amended by Stats. 2021, Ch. 143, Sec. 92. (AB 133) Effective July 27, 2021.)

127672.9.

Until January 1, 2026, for purposes of implementing this chapter, including, but not limited to, hiring staff and consultants, facilitating and conducting meetings, conducting research and analysis, and developing the required reports, the department may enter into exclusive or nonexclusive contracts on a bid or negotiated basis. Contracts entered into or amended pursuant to this section are exempt from Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code and Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, and are exempt from the review or approval of any division of the Department of General Services.

(Amended by Stats. 2021, Ch. 143, Sec. 93. (AB 133) Effective July 27, 2021.)

127673.

(a)The department shall develop guidance to require data submission from the entities specified in this chapter. The guidance shall include a methodology for the collection, validation, refinement, analysis, comparison, review, and improvement of health care data to be submitted by entities specified in this chapter, including, but not limited to, data from fee-for-service, capitated, integrated delivery system, and other alternative, value-based, payment sources, and any other form of payment to health care providers and suppliers by health plans, health insurers, or other entities described in this chapter.

(b)Notwithstanding any other state law, for the purpose of providing information for inclusion in the system, mandatory submitters shall, and voluntary submitters may, provide health care data, including claim and encounter, member enrollment, provider and supplier information, nonclaims-based payments, premiums, and pharmacy rebate data, and provide all of the following to the department:

(1)Utilization data from the health care service plans™ and insurers™ medical payments or, in the case of entities that do not use payments data, including, but not limited to, integrated delivery systems, encounter data consistent with the core set of data elements for data submission proposed by the All-Payer Claims Database Council, the University of New Hampshire, and the National Association of Health Data Organizations.

(2)Pricing information for health care items, services, and medical and surgical episodes of care gathered from payments for covered health care items and services, including contracted rates, allowed amounts, fee schedules, and other information regarding the cost of care necessary to determine the amounts paid by health plans, health insurers, and public programs to health care providers, suppliers, and other entities. This shall include nonclaims-based payment information such as deductibles, copayments, and coinsurance and other information as needed to determine the total cost of care.

(3)Personally identifiable information that the mandatory submitter is otherwise required to collect, which may include detailed patient identifiers such as first and last name, address, date of birth, gender or gender identity, and Social Security Number or individual taxpayer identification number, in order to support analyses, including, but not limited to, longitudinal, public health impacts, and social determinants of health analyses. Personally identifiable information shall be subject to the privacy protections of this chapter and shall not be publicly available, except as specified in this chapter.

(4)Personal health information that the mandatory submitter is otherwise required to collect, which may include age, gender, gender identity, race, ethnicity, sexual orientation, health status, health condition, and

any other data elements that constitute personal health information in this chapter.

(c)For purposes of this chapter, mandatory submitters include all of the following:

(1)A health care service plan, including a specialized health care service plan.

(2)An insurer licensed to provide health insurance, as defined in Section 106 of the Insurance Code, including dental-only insurance.

(3)A self-insured plan subject to Section 1349.2, or a state entity, city, county, or other political subdivision of the state, or a public joint labor management trust, that offers self-insured or multiemployer-insured plans that pay for or reimburse any part of the cost of health care services.

(4)The State Department of Health Care Services, for those enrolled in Medi-Cal and other insurance affordability programs, whether enrolled in Medi-Cal managed care, fee-for-service Medi-Cal, or any other payment arrangement.

(d)The department will accept, at its discretion, voluntarily submitted data. For purposes of this chapter, voluntary submitters include, but are not limited to:

(1)A self-insured employer that is not subject to Section 1349.2.

(2)A multiemployer self-insured plan that is responsible for paying for health care services provided to beneficiaries.

(3)The trust administrator for a multiemployer self-insured plan.

(4)A provider, as defined in paragraph (2) of subdivision (b) of Section 1367.50, that is a hospital or clinic.

(5)A supplier, as defined in paragraph (3) of subdivision (b) of Section 1367.50, that has an independent scope of practice and submits claims electronically.

(e)On or before December 31, 2021, the department shall adopt emergency regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 to implement this chapter, including on all of the following:

(1)Plan size thresholds for submitters, with consideration given to implementation costs for both the submitter and the department. Thresholds shall not apply to qualified health plans offered by the California Health Benefit Exchange or submitters covering more than a total of 50,000 Californians through both Medicare Advantage plans and the private plans and insurance described in subdivision (b).

(2)Required and exempted lines of business.

(3)Coordination of submission in cases where submitters contract with other entities to administer health care benefits.

(4)The content, file formats, and timelines for data submission, and the methods of data collection. In the development of regulations, the department shall consider national, regional, and other all-payer claims databases™ standards.

(5)Frequency of submission by health plans, insurers, and other mandatory submitters of all core data,

including claims, encounters, eligibility, and provider files.

(6)Frequency of submission of nonclaims payment data files.

(f)The initial adoption, by the department, of regulations implementing subdivision (e) shall be deemed to be an emergency and necessary to avoid serious harm to the public peace, health, safety, or general welfare for purposes of Sections 11346.1 and 11349.6 of the Government Code. Any emergency regulation adopted pursuant to this section shall be repealed by operation of law unless the adoption, amendment, or repeal of the regulation is promulgated by the department pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code within two years of the initial adoption of the emergency regulation. After the adoption of the emergency regulation pursuant to subdivision (e), the department may thereafter establish regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(g)(1)A qualified health plan shall submit information either directly or through the California Health Benefit Exchange, as determined by the exchange.

(2)The State Department of Health Care Services shall submit information for those enrolled in Medi-Cal and other insurance affordability programs, whether enrolled in Medi-Cal managed care, fee-for-service Medi-Cal, or any other payment arrangement.

(h)(1)In its initial implementation, the department shall seek data for the three years prior to the effective date of this chapter.

(2)In ongoing administration of the system, the department shall provide data for no less than three years and may seek data for longer time periods to support the intent of this chapter.

(i)To the extent possible, the department shall incorporate into the system any data collected by the department from providers and suppliers, including hospital discharge abstract data records and emergency care data records provided to the department by health facilities and ambulatory surgery data records provided to the department by ambulatory surgical centers.

(j)The department may accept and incorporate into the system any available information that will further the goals of the program.

(k)(1)On or before March 1, 2024, the department shall submit a report to the Legislature that includes all of the following:

(A)Claims data reported by mandatory submitters.

(B)Claims data reported by voluntary submitters.

(C)Data on the covered lives reported, percentage of the population for which the department has data, the number of self-insured plans, providers and suppliers who have voluntarily submitted data, variation of completeness of data across geographic regions, such as the California Health Benefit Exchangesrating regions, the extent of data submitted on hospitals, physicians, and physician groups, the extent to which mandatory and voluntary submitters are submitting data specified in subdivision (b), frequency of submission of all core data, including claims, encounters, eligibility, and provider files, frequency of submission of nonclaims payment data files, and any other information that is available to determine if hospital and physician data are captured.

(D)A cost estimate if providers and suppliers become mandatory submitters.

(E)The number of data requests from qualified applicants and their data uses.

(2)The department may request the data release committee established pursuant to Section 127673.84 to assist with the report.

(3)The report shall be submitted in compliance with Section 9795 of the Government Code.

(l)Entities regulated pursuant to Article 4.7 (commencing with Section 742.20) of Part 2 of Division 1 of the Insurance Code are exempt from this chapter.

(m)The program performs public health activities described in subdivision (b) of Section 164.512 of Title 45 of the Code of Federal Regulations. The information collected in accordance with this chapter is necessary to carry out projects with public health purposes.

(n)Article 8 (commencing with Section 1798.30) of Chapter 1 of Title 1.8 of Part 4 of Division 3 of the Civil Code shall not apply to records and personal information collected by the system pursuant to this section.

(Amended by Stats. 2021, Ch. 143, Sec. 94. (AB 133) Effective July 27, 2021.)

127673.1.

(a)(1)The department shall report the information it receives pursuant to this chapter in a form that allows valid comparisons across care delivery systems.

(2)The department shall develop policies and procedures to outline the format and type of data to be submitted pursuant to this chapter.

(b)All entities submitting health care data are responsible for submitting complete and accurate data directly to the system and facilitating data submissions from data owners, including, but not limited to, data feeds from pharmacy benefit managers, behavioral health organizations, and any subsidiaries, affiliates, or subcontractors that a submitter has contracted with for services covered by this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 95. (AB 133) Effective July 27, 2021.)

127673.2.

(a)In the development of the system, the department or its designee shall consult with state and federal entities, as necessary, to implement the program. State entities shall assist and provide to the department access to datasets needed to effectuate the intent of this chapter.

(b)The department shall seek data on Medicare enrollees from the federal Centers for Medicare and Medicaid Services and shall incorporate that data, to the extent possible.

(c)The department shall accept data from voluntary submitters if it is provided in a manner and format specified by the office.

(Amended by Stats. 2021, Ch. 143, Sec. 96. (AB 133) Effective July 27, 2021.)

127673.3.

(a)The department shall develop and maintain a master person index, a master index of providers and suppliers, and a master payer index that will enable the matching of California residents longitudinally and across coverage sources, and will enable the matching of providers and suppliers across practice arrangements, payment sources, and regulators.

(b)The department shall supplement these indices with data from other public and private sources, such as the following:

(1)Other data maintained by the department.

(2)Vital statistics.

(3)Facility licensure data from the State Department of Public Health.

(4)Health professional licensure data from the Department of Consumer Affairs.

(5)Private sources of valid and reliable data, such as a provider and supplier directory utility if it is demonstrably accurate over time.

(Amended by Stats. 2021, Ch. 143, Sec. 97. (AB 133) Effective July 27, 2021.)

127673.4.

(a)The department shall develop regulations on data quality and improvement processes and shall make these processes publicly available.

(b)Data quality processes shall be applied to each major phase of the system life cycle, including, but not limited to:

(1)Source data intake.

(2)Data conversion and processing.

(3)Data analysis, reporting, and release.

(4)Other data processes necessary for the system.

(c)The department shall provide, upon request of an interested party, to the interested party, and shall regularly report to the health care data policy advisory committee, information on data quality and data quality improvement processes, including, but not limited to, the following:

(1)Descriptions of processes and methodologies.

(2)Periodic updates on known issues and the implications of the issues for data quality and data availability.

(3)Other impediments to the functioning of the system.

(Amended by Stats. 2021, Ch. 143, Sec. 98. (AB 133) Effective July 27, 2021.)

127673.5.

(a)(1)The purpose of the system is to learn about and seek to improve public health, population health, social determinants of health, and the health care system, not about individual patients.

(2)All policies and procedures developed in implementing this chapter shall ensure that the privacy, security, and confidentiality of consumers™ individually identifiable health information is protected, consistent with state and federal privacy laws.

(b)The department shall develop policies regarding data aggregation and the protection of individual confidentiality, privacy, and security for individual consumers and patients.

(Amended by Stats. 2021, Ch. 143, Sec. 99. (AB 133) Effective July 27, 2021.)

127673.6.

The department shall develop an information security program that uses existing state standards and complies with applicable state and federal laws.

(Amended by Stats. 2021, Ch. 143, Sec. 100. (AB 133) Effective July 27, 2021.)

127673.7.

The department shall include in an annual analysis, such as, but not limited to, the following:

(a)Population and regional level data on prevention, screening, and wellness utilization.

(b)Population and regional level data on chronic conditions, management, and outcomes.

(c)Population and regional level data on trends in utilization of procedures for treatment of similar conditions to evaluate medical appropriateness.

(d)Regional variation in payment level for the treatment of identified chronic conditions.

(e)Data regarding hospital and nonhospital payments, including inpatient, outpatient, and emergency department payments and nonhospital ambulatory service data.

(Amended by Stats. 2021, Ch. 143, Sec. 101. (AB 133) Effective July 27, 2021.)

127673.8.

(a)The department shall use the program data to produce publicly available information, including data products, summaries, analyses, studies, and other reports, to support the goals of the program. The department shall receive input on priorities for the public information portfolio from the advisory committee. The department may establish a pricing mechanism for data products.

(b)The department may establish a public liaison function through which individuals may submit requests for specific products or analyses. The department may establish a pricing mechanism for custom reports. The department shall maintain copies of custom reports as part of the program public information portfolio.

(c)The department may establish a research program to conduct research, as defined in Section 164.501 of Title 45 of the Code of Federal Regulations, to support program policy goals.

(d)Publicly available data products and reports shall protect patient and consumer privacy.

(Amended by Stats. 2021, Ch. 143, Sec. 102. (AB 133) Effective July 27, 2021.)

127673.81.

(a)(1)All personal consumer information obtained or maintained by the program shall be confidential.

(2)Only deidentified aggregate patient or other consumer data shall be included in a publicly available analysis, data product, or research.

(b)All policies and procedures developed in implementing this chapter shall ensure that the privacy, security, and confidentiality of consumers™ individually identifiable health information is protected, consistent with state and federal privacy laws, including the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA)(Public Law 104-191) and the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code), and data shall not be disclosed until the department has developed a policy regarding the release of data.

(c)(1)The system and all program data shall be exempt from the disclosure requirements of the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code), and shall not be made available except pursuant to this chapter.

(2)The department shall develop policies and procedures for the disclosure of information described in paragraph (2) of subdivision (a).

(d)Program data shall not be used for determinations regarding individual patient care or treatment and shall not be used for any individual eligibility or coverage decisions or similar purposes.

(Amended by Stats. 2022, Ch. 28, Sec. 106. (SB 1380) Effective January 1, 2023.)

127673.82.

(a)The department shall develop a comprehensive program for data use, access, and release that includes data use agreements that require data users to comply with this chapter. The purpose of the data use, access, and release program is to ensure that only aggregated, deidentified information is publicly accessible.

(b)Access to nonpublic data shall be governed by the data use, access, and release program.

(c)To meet the research and policy goals of the program, controlled access to nonpublic data by outside data analysts, researchers, and other qualified applicants is necessary.

(d)The department shall establish a secure research environment for access to potentially identifiable information. The environment shall include access controls sufficient to ensure that users access only the data specified in an approved data request and that personal information is protected from unapproved use.

(e)The department shall, with the advice of the advisory committee and data release committee, develop criteria, policies, and procedures for access to and release of nonpublic data. The policies shall be designed to recognize a patientsright of privacy and shall include at least the privacy protection standards specified in Section 127673.83.

(f)The department shall establish a pricing mechanism for the use of nonpublic data.

(g)The department shall maintain information about requests and the disposition of requests, and shall develop processes for the timely consideration and release of nonpublic data.

(Amended by Stats. 2021, Ch. 143, Sec. 104. (AB 133) Effective July 27, 2021.)

127673.83.

(a)In accessing or obtaining nonpublic data through the secure environment, users shall only have access to the minimum amount of potentially identifiable data necessary for an approved project or access to a dataset designed for an approved purpose. Each person who accesses or obtains nonpublic personal data shall sign a data use agreement. Violation of a data use agreement shall be considered a violation of Section 1798.56 of the Civil Code and, if applicable, Section 1798.57 of the Civil Code.

(b)Access to data in the secure research environment shall be permissible as follows:

(1)If the data does not include any of the direct personal identifiers listed in Section 164.514(e) of Title 45 of the Code of Federal Regulations, access may be provided to qualified applicants for research and analysis purposes consistent with program goals.

(2)If the data includes any of the direct personal identifiers listed in Section 164.514(e) of Title 45 of the Code of Federal Regulations, access may be provided only to qualified applicants for research projects that offer significant opportunities to achieve program goals and meet all of the following criteria:

(A)Project approval has been recommended by the data release committee.

(B)The project has been approved by the Committee for the Protection of Human Subjects pursuant to subdivision (t) of Section 1798.24 of the Civil Code. Pursuant to that section, the department may release

data to established nonprofit research institutions, the University of California, and other nonprofit educational institutions.

(C)The requester has documented expertise with privacy protection and with the analysis of large sets of confidential data.

(D)The research shall be made available to the department.

(c)The departmentspolicies shall limit release or transmittal of personal information outside the secure environment.

(1)The department may develop standardized limited datasets that do not include any of the direct personal identifiers listed in Section 164.514(e) of Title 45 of the Code of Federal Regulations, and have the minimum necessary personal information for types of purposes specified by the department. Standardized datasets may be transmitted to qualified applicants if the requester has documented expertise with privacy protection and with the analysis of large sets of confidential data, data security will meet the standards that the department shall apply to personal data, and project approval has been recommended by the data release committee.

(2)Data described in paragraph (2) of subdivision (b) may be transmitted to an outside researcher only if the researcher meets all the criteria of that paragraph, the researcher has documented expertise with data security and the protection of large sets of confidential data, and data security will meet the standards that the department shall apply to personal data.

(d)Program data, including personal information, may be shared with other state agencies pursuant to subdivision (e) of Section 1798.24 of the Civil Code. For purposes of that section, personal information has been collected for the purposes specified in Section 127671, which include analyzing and improving state programs related to public health and the provision of health care or health care coverage.

(Amended by Stats. 2021, Ch. 143, Sec. 105. (AB 133) Effective July 27, 2021.)

127673.84.

(a)The department shall establish a data release committee with a membership of at least 7 and no more than 11 members appointed by the director. Notwithstanding any other law, a quorum shall be achieved with one fewer member than one-half of the full membership.

(b)The appointed members shall include representatives of health care payers, providers, suppliers, purchasers, researchers, consumers, and labor. Representatives of program data submitters shall not constitute a majority of members. The members shall have knowledge and experience with health care data, privacy, and security.

(c)Each appointed member shall serve a term of two years, except one-half of the initial appointments shall be for one year. The director may remove a member for cause.

(d)(1)The data release committee shall make recommendations about all applications seeking either program data with direct personal identifiers or the transmission of standardized datasets, except for data requests from other state agencies. Upon request of the director, the data release committee shall also make recommendations about other applications for program data.

(2)In making recommendations about applications seeking program data, except for data requests from other state agencies, the data release committee shall consider whether the use of the data is consistent with the goals of the system, whether it provides greater transparency regarding health care costs, utilization, quality, or equity, or how the information may be used to inform policy decisions regarding the provision of quality health care, improving public health, reducing health disparities, advancing health coverage, or reducing health care costs.

(e)Upon request of the director, the data release committee shall generally advise the director about privacy and security matters related to the program and provide feedback on the programsdata application review processes and other matters.

(f)The chairperson of the data release committee shall be appointed from among the members by the director.

(g)A member of the data release committee appointed from outside state government shall serve without compensation, but shall receive a per diem for each daysattendance at a data release committee meeting. All members shall be reimbursed for any actual and necessary expenses incurred in connection with their duties as members of the committee.

(Amended by Stats. 2021, Ch. 143, Sec. 106. (AB 133) Effective July 27, 2021.)

127674.

(a)The department shall expend the General Fund moneys appropriated in the 2018“19 Budget Act (Chapter 23 of the Statutes of 2019) for the purposes of this chapter and the former Health Care Transparency Database to fund the implementation and operation of the program.

(b)The Health Care Payments Data Program shall not be funded with General Fund moneys beyond moneys appropriated in the 2018“19 Budget Act.

(c)The Health Care Payments Data Fund is hereby established within the department for the purpose of receiving and expending revenues collected pursuant to this chapter.

(d)All revenues collected pursuant to this chapter shall be deposited in the fund. Any amounts raised by the collection of the revenues shall remain in the fund and shall be available in succeeding years upon appropriation by the Legislature.

(e)The department shall seek to maximize federal financial participation from the Medicaid program for the system, working through the sole state agency for Medicaid, the State Department of Health Care Services, and shall do so while relying on moneys appropriated from the General Fund in the 2018“19 Budget Act, and on an ongoing basis using any federally allowed fund source for the state match.

(f)(1)The department may impose a data user fee for an eligible user that is in compliance with this chapter, including, but not limited to, provisions related to consumer privacy and data security.

(2)In establishing the user fee schedule and fee waivers, the department shall work with the advisory committee to make considerations for state agencies, data submitters, and consumer organizations that have been awarded reasonable advocacy and witness fees in a proceeding or proceedings of the Department

of Managed Health Care pursuant to Section 1348.9.

(3)The department shall adopt regulations on the fee waiver consistent with subdivisions (e) and (f) of Section 127673.

(g)On or before March 1, 2023, the office shall submit a report to the Legislature on recommendations for funding options for the program pursuant to Section 9795 of the Government Code.

(h)The department may accept foundation funding from foundations not affiliated or controlled by a health care entity.

(Amended by Stats. 2021, Ch. 143, Sec. 107. (AB 133) Effective July 27, 2021.)

127674.1.

The department shall notify the Department of Managed Health Care or the Department of Insurance, as appropriate, if a health care service plan or health insurer fails to comply with this chapter. The Department of Managed Health Care and the Department of Insurance shall take appropriate action necessary to bring the plan or insurer into compliance.

(Amended by Stats. 2021, Ch. 143, Sec. 108. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 9. Prescription Drug Pricing for Purchasers [127675 - 127685]__

(Chapter 9 added by Stats. 2017, Ch. 603, Sec. 4.)

127675.

(a)This chapter shall apply to a manufacturer of a prescription drug that is purchased or reimbursed by any of the following:

(1)A state purchaser in California, including, but not limited to, the Public Employees™ Retirement System, the State Department of Health Care Services, the Department of General Services, and the Department of Corrections and Rehabilitation, or an entity acting on behalf of a state purchaser.

(2)A licensed health care service plan.

(3)A health insurer holding a valid outstanding certificate of authority from the Insurance Commissioner.

(4)A pharmacy benefit manager as defined in subdivision (j) of Section 4430 of the Business and Professions Code.

(b)For the purposes of this chapter, the term department shall mean the Department of Health Care Access and Information.

(Amended by Stats. 2021, Ch. 143, Sec. 109. (AB 133) Effective July 27, 2021.)

127676.

(a)The Legislature finds and declares that the State of California has a substantial public interest in the price and cost of prescription drugs. California is a major purchaser through the Public Employees™ Retirement System, the State Department of Health Care Services, the Department of General Services, the Department of Corrections and Rehabilitation, and other entities acting on behalf of a state purchaser. California also provides major tax expenditures through the tax exclusion of employer sponsored coverage and tax deductibility of coverage purchased by individuals, as well as tax deductibility of excess health care costs for individuals and families.

(b)(1)It is the intent of the Legislature in enacting this chapter to provide notice and disclosure of information relating to the cost and pricing of prescription drugs in order to provide accountability to the state for prescription drug pricing.

(2)It is further the intent of the Legislature to permit a manufacturer of a prescription drug to voluntarily make pricing decisions regarding a prescription drug, including any price increases. It is further the intent of the Legislature to permit purchasers, both public and private, as well as pharmacy benefit managers, to negotiate discounts and rebates consistent with existing state and federal law.

(Added by Stats. 2017, Ch. 603, Sec. 4. (SB 17) Effective January 1, 2018.)

127677.

(a)A manufacturer of a prescription drug with a wholesale acquisition cost of more than forty dollars ($40) for a course of therapy shall notify each purchaser described in Section 127675 if the increase in the wholesale acquisition cost of a prescription drug is more than 16 percent, including the proposed increase and the cumulative increases that occurred within the previous two calendar years prior to the current year. For purposes of this section, a course of therapy is defined as either of the following:

(1)The recommended daily dosage units of a prescription drug pursuant to its prescribing label as approved by the federal Food and Drug Administration for 30 days.

(2)The recommended daily dosage units of a prescription drug pursuant to its prescribing label as approved by the federal Food and Drug Administration for a normal course of treatment that is less than 30 days.

(b)The notice required by subdivision (a) shall be provided in writing at least 60 days prior to the planned effective date of the increase.

(c)(1)The notice required by subdivision (a) shall include the date of the increase, the current wholesale acquisition cost of the prescription drug, and the dollar amount of the future increase in the wholesale acquisition cost of the prescription drug.

(2)The notice required by subdivision (a) shall include a statement regarding whether a change or improvement in the drug necessitates the price increase. If so, the manufacturer shall describe the change or improvement.

(d)The notice required by subdivision (a) shall be provided to each state purchaser and other purchasers described in paragraphs (2) to (4), inclusive, of subdivision (a) of Section 127675 if a purchaser registers with the department for the purpose of this notification. The department shall make available to manufacturers a list of registered purchasers for the purpose of this notification.

(e)If a pharmacy benefit manager receives a notice of an increase in wholesale acquisition cost consistent with subdivision (a), it shall notify its large contracting public and private purchasers of the increase. For the purposes of this section, a large purchaser means a purchaser that provides coverage to more than 500 covered lives.

(Amended by Stats. 2021, Ch. 143, Sec. 110. (AB 133) Effective July 27, 2021.)

127679.

(a)On a quarterly basis at a time prescribed by the department and in a format prescribed by the department, commencing no earlier than January 1, 2019, a manufacturer shall report to the department all of the following information for each drug for which an increase in wholesale acquisition cost is described in Section 127677:

(1)A description of the specific financial and nonfinancial factors used to make the decision to increase the wholesale acquisition cost of the drug and the amount of the increase, including, but not limited to, an explanation of how these factors explain the increase in the wholesale acquisition cost of the drug.

(2)A schedule of wholesale acquisition cost increases for the drug for the previous five years if the drug was manufactured by the company.

(3)If the drug was acquired by the manufacturer within the previous five years, all of the following information:

(A)The wholesale acquisition cost of the drug at the time of acquisition and in the calendar year prior to acquisition.

(B)The name of the company from which the drug was acquired, the date acquired, and the purchase price.

(C)The year the drug was introduced to market and the wholesale acquisition cost of the drug at the time of introduction.

(4)The patent expiration date of the drug if it is under patent.

(5)If the drug is a multiple source drug, an innovator multiple source drug, a noninnovator multiple source drug, or a single source drug, as defined in subparagraph (A) of paragraph (7) of subdivision (k) of Section 1396r"8 of Title 42 of the United States Code.

(6)A description of the change or improvement in the drug, if any, that necessitates the price increase.

(7)Volume of sales of the manufacturersdrug in the United States for the previous year.

(b)The manufacturer may limit the information reported pursuant to subdivision (a) to that which is otherwise in the public domain or publicly available.

(c)The department shall publish the information provided to it pursuant to this section on its internet website on no less than a quarterly basis. The information shall be published within 60 days of receipt from a manufacturer. The information shall be published in a manner that identifies the information that is disclosed on a per-drug basis and shall not be aggregated in a manner that would not allow identification of the drug.

(d)The department shall be responsible for the enforcement of this section.

(e)A manufacturer of a prescription drug subject to this chapter that does not report the information required pursuant to this section is liable for a civil penalty of one thousand dollars ($1,000) per day for every day after the reporting period described in this section that the required information is not reported.

(f)A civil penalty shall be assessed and recovered in a civil action brought by the office in the name of the people of the State of California. Assessment of a civil penalty may, at the request of any manufacturer of a prescription drug subject to this section, be reviewed on appeal, and the penalty may be reduced or waived for good cause.

(g)Any money received by the department pursuant to this section shall be paid into the Managed Care Fund.

(Amended by Stats. 2021, Ch. 143, Sec. 111. (AB 133) Effective July 27, 2021.)

127681.

(a)A manufacturer of a prescription drug shall notify the department in writing if it is introducing a new

prescription drug to market at a wholesale acquisition cost that exceeds the threshold set for a specialty drug under the Medicare Part D program (Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108-173)). The notice shall be provided in writing within three days after the release of the drug in the commercial market. A manufacturer may make this notification pending approval by the federal Food and Drug Administration, if commercial availability is expected within three days of approval.

(b)No later than 30 days after notification pursuant to this section, a manufacturer shall report all of the following information to the department in a format prescribed by the department:

(1)A description of the marketing and pricing plans used in the launch of the new drug in the United States and internationally.

(2)The estimated volume of patients that may be prescribed the drug.

(3)If the drug was granted breakthrough therapy designation or priority review by the federal Food and Drug Administration prior to final approval.

(4)The date and price of acquisition if the drug was not developed by the manufacturer.

(c)The manufacturer may limit the information reported pursuant to subdivision (b) to that which is otherwise in the public domain or publicly available.

(d)The department shall publish the information provided to it pursuant to this section on its internet website on no less than a quarterly basis. The information shall be published in a manner that identifies the information that is disclosed on a per-drug basis and shall not be aggregated in a manner that would not allow identification of the drug.

(e)The department shall be responsible for the enforcement of this section.

(f)A manufacturer of a prescription drug subject to this chapter that does not report the information required pursuant to this section is liable for a civil penalty of one thousand dollars ($1,000) per day for every day after the notification period described in this section that the required information is not reported.

(g)A civil penalty shall be assessed and recovered in a civil action brought by the department in the name of the people of the State of California. Assessment of a civil penalty may, at the request of any manufacturer of a prescription drug subject to this section, be reviewed on appeal, and the penalty may be reduced or waived for good cause.

(h)Any money received by the department pursuant to this section shall be paid into the Managed Care Fund.

(Amended by Stats. 2021, Ch. 143, Sec. 112. (AB 133) Effective July 27, 2021.)

127683.

(a)Funding for the actual and necessary expenses of the department to conduct the activities described in this section and in Sections 127676, 127679, 127681, and 127685, shall be provided, subject to appropriation by the Legislature, from transfers of moneys from the Managed Care Fund and the Insurance Fund.

(b)The share of funding from the Managed Care Fund shall be based on the number of covered lives in the state that are covered under plans regulated by the Department of Managed Health Care, including covered lives under Medi-Cal managed care, as determined by the Department of Managed Health Care, in proportion to the total number of all covered lives in the state.

(c)The share of funding to be provided from the Insurance Fund shall be based on the number of covered lives in the state that are covered under health insurance policies and benefit plans regulated by the Department of Insurance, including covered lives under Medicare supplement plans, as determined by the Department of Insurance, in proportion to the total number of all covered lives in the state.

(Amended by Stats. 2021, Ch. 143, Sec. 113. (AB 133) Effective July 27, 2021.)

127685.

(a)The department may adopt regulations or issue guidance for the implementation of this chapter. All information that is required to be reported to the department pursuant to this chapter shall be reported in a form prescribed by the department, commencing in the first calendar quarter of 2019.

(b)The department may consult with the Department of Managed Health Care, the Department of Insurance, the California State Board of Pharmacy, and any state purchaser of prescription drugs, or an entity acting on behalf of a state purchaser, in issuing guidance or adopting necessary regulations pursuant to subdivision (a), in posting information on its internet website pursuant to this chapter, and in taking any other action for the purpose of implementing this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 114. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 2. HEALTH POLICY AND PLANNING [127280 - 127697]__

(Part 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 10. California Affordable Drug Manufacturing Act of 2020 [127690 - 127697]__

(Chapter 10 added by Stats. 2020, Ch. 207, Sec. 1.)

127690.

This chapter may be cited as the California Affordable Drug Manufacturing Act of 2020.

(Added by Stats. 2020, Ch. 207, Sec. 1. (SB 852) Effective January 1, 2021.)

127691.

For purposes of this chapter, the following definitions apply:

(a)Generic drug means a drug that is approved pursuant to subdivision (j) of Section 355 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 301 et seq.), or a biosimilar, as defined under the federal Public Health Service Act (42 U.S.C. Sec. 262).

(b)Partnerships include, but are not limited to, agreements for the procurement of generic prescription drugs by way of contracts, grant agreements, or purchasing by a payer, state governmental agency, group purchasing organization, nonprofit organization, or other entity.

(c)California Health and Human Services Agency or CHHSA means the California Health and Human Services Agency, or any of its departments, including the Department of Health Care Access and Information, selected to implement this chapter.

(Amended by Stats. 2023, Ch. 42, Sec. 50. (AB 118) Effective July 10, 2023.)

127692.

(a)The California Health and Human Services Agency (CHHSA) or its departments shall enter into partnerships, consistent with subdivision (b) of Section 127693, in consultation with other state departments as necessary, to increase competition, lower prices, and address shortages in the market for generic prescription drugs, to reduce the cost of prescription drugs for public and private purchasers, taxpayers, and consumers, and to increase patient access to affordable drugs.

(b)For purposes of implementing this chapter, CHHSA and its departments, including the Department of Health Care Access and Information, may enter into exclusive or nonexclusive contracts on a bid or negotiated basis. Contracts entered into or amended pursuant to this section are exempt from Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code and Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, and are exempt from the review or approval of any division of the Department of General Services. When appropriate, CHHSA shall establish initial and ongoing metrics to measure progress and efficiency, and remedies in the case those metrics are

not met in any partnership contract entered into pursuant to this section.

(c)CHHSA shall have the ability to hire staff or contractors to oversee and project-manage the partnerships for manufacturing, procurement, or distribution of generic prescription drugs, contingent upon an appropriation by the Legislature for this purpose.

(d)It is the Legislaturesintent that any manufacturing partnership contract entered into pursuant to subdivision (b) is a partnership intended to create a California-branded label for generic drugs. It is further the Legislaturesintent that any manufacturing that is done under this section is intended to benefit the residents of this state by ensuring adequate supplies and access to generic prescription drugs and lowering health care costs through savings to public health care programs and private health insurance coverage.

(Amended by Stats. 2023, Ch. 42, Sec. 51. (AB 118) Effective July 10, 2023.)

127693.

(a)CHHSA shall enter into partnerships resulting in the production, procurement, or distribution of generic prescription drugs, with the intent that these drugs be made widely available to public and private purchasers, providers and suppliers as defined in subdivision (b) of Section 1367.50, and pharmacies as defined in Section 4037 of the Business and Professions Code, as appropriate. The generic prescription drugs shall be produced or distributed by a drug company or generic drug manufacturer that is registered with the United States Food and Drug Administration.

(b)(1)CHHSA shall only enter into partnerships pursuant to subdivision (a) to produce a generic prescription drug at a price that results in savings, targets failures in the market for generic drugs, or improves patient access to affordable medications.

(2)For top drugs identified pursuant to the criteria listed in paragraph (5), CHHSA shall determine if viable pathways exist for partnerships to manufacture, procure, or distribute generic prescription drugs by examining the relevant legal, market, policy, and regulatory factors.

(3)CHHSA shall consider the following, if applicable, when setting the price of a generic prescription drug:

(A)United States Food and Drug Administration user fees.

(B)Abbreviated new drug application acquisition costs amortized over a five-year period.

(C)Mandatory rebates.

(D)Total contracting and production costs for the drug, including a reasonable amount for administrative, operating, and rate-of-return expenses of the drug company or generic drug manufacturer.

(E)Research and development costs attributed to the drug over a five-year period.

(F)Other initial start-up costs amortized over a five-year period.

(4)Each drug shall be made available to providers, patients, and purchasers, as appropriate, at a transparent price and without rebates, other than federally required rebates.

(5)CHHSA shall prioritize the selection of generic prescription drugs that have the greatest impact on lowering drug costs to patients, increasing competition and addressing shortages in the prescription drug market, improving public health, or reducing the cost of prescription drugs to public and private purchasers.

(c)(1)In identifying generic prescription drugs to be produced, CHHSA shall consider the report produced by the Department of Managed Health Care pursuant to subdivision (b) of Section 1367.243, the report produced by the Department of Insurance pursuant to subdivision (b) of Section 10123.205 of the Insurance Code, and pharmacy spending data from Medi-Cal and other entities for which the state pays the cost of generic prescription drugs.

(2)The partnerships entered into pursuant to subdivision (a) shall include the production of at least one form of insulin made available at production and dispensing costs, if one does not already exist in the market. Dispensing costs may include related expenses such as transportation, distribution, and market operations. Any partnership shall also consider:

(A)Guaranteeing priority access to insulin supply for the state.

(B)Guaranteeing the manufacture of at least four high-priority drugs for California, as identified pursuant to paragraph (5) of subdivision (b).

(C)Creating a state brand identifying biosimilar insulin and generic prescription drugs sold in California under this section.

(3)CHHSA shall prioritize drugs for chronic and high-cost conditions, and shall consider prioritizing those that can be delivered through mail order.

(d)CHHSA shall consult with all of the following public and private purchasers, as appropriate, to develop a list of generic prescription drugs to be manufactured or distributed through partnerships:

(1)The Public Employees™ Retirement System, the State Department of Health Care Services, the California Health Benefit Exchange (Covered California), the State Department of Public Health, the Department of General Services, and the Department of Corrections and Rehabilitation, or the entities acting on behalf of each of those state purchasers.

(2)Licensed health care service plans.

(3)Health insurers holding a valid outstanding certificate of authority from the Insurance Commissioner.

(4)Hospitals.

(e)Before effectuating a partnership pursuant to this section, CHHSA shall consider the volume of each generic prescription drug over a multiyear period to support a market for a lower cost generic prescription drug, if volume is an important factor in driving down the cost of the drug. For partnerships involving procurement, CHHSA shall determine minimum thresholds for procurement of an entitysexpected volume of a targeted drug from the company or manufacturer over a defined target period. In making advance commitments, CHHSA may consult with the Statewide Pharmaceutical Program and the California Pharmaceutical Collaborative.

(f)The listed entities in paragraphs (2) to (4), inclusive, of subdivision (d) shall not be required to purchase prescription drugs from CHHSA or entities that contract or partner with CHHSA pursuant to this chapter.

(g)CHHSA shall not be required to consult with every entity listed in paragraphs (2) to (4), inclusive, of subdivision (d), so long as purchaser engagement includes a reasonable representation from these groups.

(h)Any partnership entered into pursuant to this section may include representation and involvement with the governance of the contractor entity.

(Amended by Stats. 2023, Ch. 42, Sec. 52. (AB 118) Effective July 10, 2023.)

127694.

(a)On or before December 31, 2023, CHHSA shall submit a report to the Legislature that assesses the feasibility of directly manufacturing generic prescription drugs and selling generic prescription drugs at a fair price. The report shall include an analysis of governance structure options for manufacturing functions, including chartering a private organization, a public-private partnership, or a public board of directors.

(b)This section shall only go into effect if the Legislature appropriates funds for this purpose in the annual budget.

(c)The report shall be submitted in compliance with Section 9795 of the Government Code.

(d)This section shall remain in effect only until January 1, 2028, and as of that date is repealed.

(Amended by Stats. 2022, Ch. 47, Sec. 22. (SB 184) Effective June 30, 2022. Repealed as of January 1, 2028, by its own provisions.)

127694.1.

Upon appropriation by the Legislature, CHHSA shall develop a California-based manufacturing facility for insulin, with the intent of creating high-skill, high-paying jobs with the state. The facility shall be at a location jointly determined between the state and the partner pursuant to Section 127692.

(Added by Stats. 2022, Ch. 603, Sec. 3. (SB 838) Effective January 1, 2023.)

127695.

(a)On or before December 31, 2022, CHHSA shall report to the Legislature on both of the following:

(1)A description of the status of all drugs targeted under this chapter.

(2)An analysis of how the activities of CHHSA may impact competition, access to targeted drugs, the costs of those drugs, and the costs of generic prescription drugs to public and private purchasers.

(b)This section shall remain in effect only until January 1, 2028, and as of that date is repealed.

_(Amended by Stats. 2022, Ch. 47, Sec. 23. (SB 184) Effective June 30, 2022. Repealed as of January 1, 2028,

by its own provisions.)_

127696.

Notwithstanding any other provision of law, all nonpublic information and documents obtained or prepared under this chapter shall not be required to be disclosed pursuant to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code), or any similar local law requiring the disclosure of public records.

(Amended by Stats. 2023, Ch. 42, Sec. 53. (AB 118) Effective July 10, 2023.)

127697.

Notwithstanding anything to the contrary in this chapter, CHHSA may enter into partnerships regarding over-the-counter naloxone products. Partnerships entered into pursuant to this section may allow the development, manufacturing, or distribution of over-the-counter naloxone products by any entity that is authorized to do so under federal or state law.

(Added by Stats. 2023, Ch. 191, Sec. 7. (SB 137) Effective September 13, 2023.)

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1.5. Behavioral Health Grants [127825- 127825.]__

(Chapter 1.5 added by Stats. 2021, Ch. 143, Sec. 116.)

127825.

(a)As a component of the Children and Youth Behavioral Health Initiative established pursuant to Chapter 2 (commencing with Section 5961) of Part 7 of Division 5 of the Welfare and Institutions Code, the office is hereby authorized to award competitive grants to entities and individuals it deems qualified to expand the supply of behavioral health counselors, coaches, peer supports, and other allied health care providers serving children and youth, including those at schoolsites.

(b)For the purposes of this chapter, behavioral health coach means a new category of behavioral health provider trained specifically to help address the unmet mental health and substance use needs of children and youth. Recognizing that unmet mental health and substance use needs create learning barriers, behavioral health coaches shall engage and support children and youth in cultural, linguistic, and age-appropriate services, with the ability to refer and link to higher levels of care, as needed. As members of a care team, behavioral health professionals serving as a coach receive appropriate supervision from licensed staff. Training and qualifications include, but are not limited to, psychoeducation, system navigation, crisis deescalation, safety planning, coping skills, and motivational interviewing.

(Added by Stats. 2021, Ch. 143, Sec. 116. (AB 133) Effective July 27, 2021.)

127880.

It is the intent of the Legislature to maintain a Health Professions Career Opportunity Program designed to:

(a) Increase the number of ethnic minorities in health professional training.

(b) Increase the number of minority health professionals practicing in health manpower shortage areas in this area.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

127885.

(a)The department shall maintain a Health Professions Career Opportunity Program that shall include, but not be limited to, all of the following:

(1)Implementing programs at colleges and universities selected by the department, which may include public and private institutions.

(A)In selecting campuses for the programs, the department shall give priority to campuses in medically underserved areas or with students from groups underrepresented in medicine, demonstrated commitment to diversity and associated institutional change, a track record of providing tailored student support, and strong health professions school partnerships.

(B)The department may enter into contracts, to meet the requirements of this article, with nonprofit entities headquartered in California that have previous experience with administering statewide workforce programs aimed at building a diverse provider workforce.

(C)The programs shall include one or both of the following:

(i)Pipeline programs that provide comprehensive academic enrichment, career development, mentorship, and advising in order to support students from underrepresented regions and backgrounds to pursue health careers. This may include internships and fellowships to enable students to compete for admission to

graduate health professions schools or employment in the health field, including, but not limited to, both of the following:

(I)Paid summer internships for students interning in community health centers, public health departments, public behavioral health settings, and with geriatric providers, as well as community-based initiatives that promote health equity.

(II)One-year postundergraduate fellowships for in-depth, pregraduate school experience in primary care and prevention, behavioral health, and geriatric health.

(ii)Annual postbaccalaureate reapplicant slots and the provision of student scholarships for reapplicant postbaccalaureate students to cover program tuition.

(2)Producing and disseminating a series of publications aimed at informing and motivating minority and disadvantaged students to pursue health professional careers.

(3)Conducting a conference series aimed at informing students of opportunities in health professional training and mechanisms of successfully preparing to enter the training.

(4)Providing support and technical assistance to health professional schools and colleges as well as to student and community organizations active in health professional development of underrepresented groups in medicine.

(5)Conducting relevant health workforce information and data analysis regarding underrepresented groups in medicine.

(6)Providing necessary consultation, recruitment, and counseling through other means.

(7)Supporting and encouraging health professionals in training who are from underrepresented groups to practice in health professional shortage areas of California.

(b)This section shall be implemented only to the extent that funds are appropriated for its purposes in the annual Budget Act or other statute.

(Amended by Stats. 2021, Ch. 489, Sec. 1. (SB 395) Effective January 1, 2022.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=107.&title=&part=3.&chapter=2.&article=2.

127900.

(a) The Legislature finds and declares that evidence exists to support the development of health promotion and health-risk reduction programs as an effective method of constraining the annual inflation rate for expenditures in the health industry. It is, therefore, the intent of the Legislature that a health manpower education program be developed to demonstrate the health promotion and health-risk reduction concept at educational institutions, with special emphasis on health manpower development in urban areas having a

disproportionate share of disadvantaged and indigent persons.

(b) The department shall establish a contract program for funding allied health manpower training projects related to health promotion and health-risk reduction. The contract program shall provide funds to eligible institutions, as determined by the department, for all of the following purposes:

(1) Teaching existing and future primary care providers about health-risk reduction through the institutions™ basic curricula.

(2) Recruiting, remediating, and retaining minority allied health professionals, including, but not limited to, physician assistants, nurse practitioners, nurse-midwives, public health nurses, health educators, dieticians, and nutritionists, especially those who provide in-home patient care.

(3) Increasing the supply of medical care in underserved urban areas and demonstrating methods which reduce cost through the use of allied health personnel.

(c) (1)These funds shall be available to institutions which currently operate programs for training family physicians, other primary care physicians, and those health professionals identified in paragraph (2) of subdivision (b).

(2)For purposes of this subdivision, family physician means a primary care physician and surgeon who renders continued comprehensive and preventative health care services to individuals and families, and who has received specialized training in an approved family medicine residency for three years after graduation from an accredited medical school.

(d)The recipients of the funds shall provide, but shall not be limited to providing, orientation and training of primary care providers in teaching methods related to patient health education and health promotion, such as educating allied health professionals in the principles of self-care management as it relates to specific health problems in medically underserved communities.

(e)The department shall consult with organizations and experts in the field regarding the establishment of this program, and beginning with the 1986“87 fiscal year, this program shall be implemented to the extent funds are provided in the Budget Act. This program shall be designed to accommodate an appropriation request in the range of forty thousand dollars ($40,000) to eighty thousand dollars ($80,000) per year.

(f)The director of the department may waive any of the requirements of subdivisions (b) and (c) if a potential contractor demonstrates an ability to meet the goals and objectives of the program.

(Amended by Stats. 2021, Ch. 143, Sec. 118. (AB 133) Effective July 27, 2021.)

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 2.75. National Health Service Corps State Loan Repayment Program [127940- 127940.]__

(Article 2.75 added by Stats. 2003, Ch. 682, Sec. 1.)

127940.

(a)In administering the National Health Service Corps State Loan Repayment Program in accordance with Section 254q-1 of Title 42 of the United States Code and related federal regulations, the Department of Health Care Access and Information shall strive, whenever feasible, to equitably distribute loan repayment awards between eligible urban and rural program sites, after taking into account the availability of health care services in the communities to be served and the number of individuals to be served in each program site.

(b)The department shall set a reasonable deadline for when all applications are required to be received.

(c)All eligible applications shall be given consideration before any award is granted.

(d)The department shall include all federally qualified health centers located in California in the programscertified eligible site list.

(e)As part of a program applicantsinitial application, program sites shall agree to provide matching funds.

(Amended by Stats. 2021, Ch. 143, Sec. 120. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2. Personnel Recruitment and Education [127875 - 128052]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 3. Nursing Education Scholarships [127975 - 128020]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 9.)

127975.

Recognizing that there is a shortage in supply of registered nurses, and that if the number of nursing students is to be materially increased to meet the demand there must first be an increase in the number of persons qualified for teaching or supervising in clinical areas, and further recognizing that the cost of education deters nurses from obtaining the education necessary to qualify them for teaching or supervision in clinical areas, there are hereby created state scholarships that shall be maintained by the state and awarded and administered pursuant to this article.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

127980.

There shall be available at least 10 scholarships per year. The scholarships shall be available to any registered nurse who is enrolled in one of the following accredited nursing programs in a college or university in California that is accredited by the Western Association of Schools and Colleges:

(a) The junior or senior year in a bachelorsdegree program in nursing.

(b) A program supplementary to a bachelorsdegree program in nursing required for admission to masterslevel studies, in nursing.

(c) A mastersdegree or a post-mastersprogram in teaching or supervision in a clinical nursing area.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

127985.

A person shall not be awarded a scholarship under subdivision (a) or (b) of Section 127980 unless:

(a)They are a resident of California.

(b)They are licensed as a registered nurse by this state.

(c)They have complied with all the regulations adopted pursuant to this article.

(d)They have agreed that they will continue their education to completion of the bachelorsdegree or a program supplemental to a bachelorsdegree required for admission to master level studies in nursing, and that after completion of the requirements of subdivision (a) or (b) of Section 127980 and within a period of time to be determined by the department, will enroll in an accredited mastersdegree program in teaching or supervision in a clinical nursing area.

(e) They agree that immediately upon completion of their graduate study, either mastersdegree or post-mastersprogram, they will assume an employment obligation in California in teaching or supervision in a clinical nursing area, for not less than one year.

(Amended by Stats. 2021, Ch. 143, Sec. 121. (AB 133) Effective July 27, 2021.)

127990.

No person shall be awarded a scholarship under subdivision (c) of Section 127980 unless he or she satisfies the requirements prescribed by subdivisions (a), (b), (c), and (e) of Section 127985.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

127995.

The department shall administer the program of nursing education scholarships and shall for this purpose, adopt regulations as it determines are necessary to carry out this article.

(Amended by Stats. 2021, Ch. 143, Sec. 122. (AB 133) Effective July 27, 2021.)

128000.

Applications for scholarships shall be made to the department, upon forms provided by it, at the times and in the manner prescribed by the regulations adopted by the office.

(Amended by Stats. 2021, Ch. 143, Sec. 123. (AB 133) Effective July 27, 2021.)

128005.

The department shall award the scholarships to the applicants that it determines are best fitted to undertake the educational program for which the scholarships are awarded and will be the best qualified to teach or supervise. In awarding the scholarships the department may give a preference to applicants who are willing to be available, upon the completion of their educational program, for a position in any part of the state. The department shall not, however, award any scholarship to an applicant if it determines that the applicant has adequate financial resources to pay the cost of the education necessary to qualify them for teaching or supervision in a clinical area.

(Amended by Stats. 2021, Ch. 143, Sec. 124. (AB 133) Effective July 27, 2021.)

128010.

Scholarships shall be awarded without regard to race, religion, creed, or sex.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128015.

Each scholarship under this article is for the period of no more than one academic year, and the award shall be:

(a) For a person qualifying under subdivision (a) or (b) of Section 127980, the sum of two hundred dollars ($200) per month for 12 months, plus school fees.

(b) For a person qualifying under subdivision (c) of Section 127980, the sum of two hundred fifty dollars ($250) per month for 12 months, plus school fees.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128020.

A scholarship shall remain in effect only during the period, as determined by the department, that the person

receiving the award achieves satisfactory progress and is regularly enrolled, within the terms of this article, as a full-time student.

(Amended by Stats. 2021, Ch. 143, Sec. 125. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2. Personnel Recruitment and Education [127875 - 128052]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 4. Health Professions Planning Grants [128025 - 128040]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 9.)

128025.

For the purpose of this article, innovative programs of education in the health professions means programs for the development of physicians and surgeons, podiatrists, dentists, pharmacists, nurses, optometrists, and occupations in the allied health professions, that emphasize all of the following:

(a) The practice in the community on the part of graduates of the program.

(b) The utilization of existing teaching resources and clinical care facilities within the community where the

program is located.

(c) The development of curricular mechanisms that allow for movement from one occupational category to the next, up to and including the doctor of medicine level.

(d) The training of persons possessing previously acquired health care skills, for positions of greater responsibility, with an emphasis upon corpsmen honorably discharged from the military.

(e) The training of persons with little or no formal education but with a willingness and aptitude to acquire health care skills.

(f) The development of coordination with community health care facilities to insure quality education and satisfactory employment opportunities for graduates of the program.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128030.

The department, in cooperation with the California Postsecondary Education Commission, shall administer the program established pursuant to this article and shall for this purpose, adopt regulations as it determines are reasonably necessary to carry out this article.

(Amended by Stats. 2021, Ch. 143, Sec. 126. (AB 133) Effective July 27, 2021.)

128035.

The department is authorized to make grants, from funds appropriated by the Legislature for this purpose, to assist organizations in meeting the cost of special projects to plan, develop, or establish innovative programs of education in the health professions, or for research in the various fields related to education in the health professions, or to develop training for new types of health professions personnel, or to meet the costs of planning experimental teaching facilities.

In determining priority of project applications, the department shall give the highest priority to:

(1) Applicants able to obtain commitments for matching planning funds from other governmental and private sources.

(2) Applicants who develop a preliminary plan that conforms to the criteria stated hereinabove for innovative programs of education in the health sciences.

(3) Applicants that in its judgment are most able to translate a plan into a feasible program.

(Amended by Stats. 2021, Ch. 143, Sec. 127. (AB 133) Effective July 27, 2021.)

128040.

(a) The Department of Health Care Access and Information shall report to the Legislature on or before June 30, 2002, on the feasibility of establishing a California dental loan forgiveness program utilizing the same general guidelines applicable to the federal National Health Service Corps State Loan Repayment Program (42 U.S.C.A. Sec. 254q-1; 42 C.F.R., Part 62, Subpart C (commencing with Section 62.51)), except as follows:

(1) A dentist shall be eligible to participate in the loan forgiveness program if they provide full-time or half-time dental services in either of the following:

(A) A dental health professional shortage area (DHPSA), established pursuant to Section 254e(a) of Title 42 of the United States Code.

(B) An area of the state where unmet priority needs for dentists exist as determined by the department.

(2) Matching funds to repay a portion of the dentistsoutstanding loan amount shall be required from the practice site areas or from other private nonprofit sources.

(3) A qualifying practice site shall include a private dental practice.

(b) (1) The report required under subdivision (a) shall include all of the following:

(A) A projection of the dentist-to-population ratio for California in the next decade.

(B) A determination of the future need for dentists and dental care in underserved communities. The department shall work collaboratively with organizations that represent providers of dental services to underserved communities in making this determination.

(C) A report on the utilization by dentists of tuition loan repayment programs at the federal and state level and identify the barriers to full utilization of these loan repayment programs.

(D) A report on the projected cost increase of dental school education at public and private postsecondary educational institutions.

(E) A report on the implications of administering an additional program, including a cost analysis.

(2) The report also shall include recommendations on whether a program described in subdivision (a) should be established and, if so, suggested funding sources. In making its recommendations, the department shall consider the impact of the program on access to dental services in areas of the state that currently have a shortage of dentists.

(Amended by Stats. 2021, Ch. 143, Sec. 128. (AB 133) Effective July 27, 2021.)

(Heading of Article 5 amended by Stats. 2021, Ch. 143, Sec. 129.)

128050.

The Department of Health Care Access and Information shall establish a health care workforce research and data center to serve as the central source of health care workforce and educational data in the state. The research and data center will serve as the statescentral source of healthcare workforce and education data. The research and data center shall be responsible for the collection, analysis, and distribution of information on the educational and employment trends for health care occupations and distribution in the state. The activities of the research and data center shall be funded by appropriations made from the California Health Data and Planning Fund in accordance with subdivision (h) of Section 127280.

(Amended by Stats. 2021, Ch. 143, Sec. 130. (AB 133) Effective July 27, 2021.)

128051.

The Department of Health Care Access and Information shall work with the Employment Development DepartmentsLabor Market Information Division, state licensing boards, and state higher education entities to collect, to the extent available, all of the following data:

(a)The current supply of health care workers, by specialty.

(b)The geographical distribution of health care workers, by specialty.

(c)The diversity of the health care workforce, by specialty, including, but not necessarily limited to, data on race, ethnicity, and languages spoken.

(d)The current and forecasted demand for health care workers, by specialty.

(e)The educational capacity to produce trained, certified, and licensed health care workers, by specialty and by geographical distribution, including, but not necessarily limited to, the number of educational slots, the number of enrollments, the attrition rate, and wait time to enter the program of study.

(Amended by Stats. 2021, Ch. 143, Sec. 131. (AB 133) Effective July 27, 2021.)

128052.

The Department of Health Care Access and Information shall prepare an annual report to the Legislature that does all of the following:

(a)Identifies education and employment trends in the health care profession.

(b)Reports on the current supply and demand for health care workers in California and gaps in the educational pipeline producing workers in specific occupations and geographic areas.

(c)Recommends state policy needed to address issues of workforce shortage and distribution.

(d)Describes the health care workforce program outcomes and effectiveness.

(Amended by Stats. 2021, Ch. 143, Sec. 132. (AB 133) Effective July 27, 2021.)

__ARTICLE 1. Health Workforce Pilot Projects [128125 - 128195]__

(Heading of Article 1 amended by Stats. 2021, Ch. 143, Sec. 133.)

128125.

The Legislature finds that there is a need to improve the effectiveness of health care delivery systems. One way of accomplishing that objective is to utilize health care personnel in new roles and to reallocate health tasks to better meet the health needs of the citizenry.

The Legislature finds that experimentation with new kinds and combinations of health care delivery systems is desirable, and that, for purposes of this experimentation, a select number of publicly evaluated health workforce pilot projects should be exempt from the healing arts practices acts. The Legislature also finds that large sums of public and private funds are being spent to finance health workforce innovation projects, and that the activities of some of these projects exceed the limitations of state law. These projects may jeopardize the public safety and the careers of persons who are trained in them. It is the intent of the Legislature to establish the accountability of health workforce innovation projects to the requirements of the public health, safety, and welfare, and the career viability of persons trained in these programs. Further, it is the intent of this legislation that existing healing arts licensure laws incorporate innovations developed in approved projects that are likely to improve the effectiveness of health care delivery systems.

(Amended by Stats. 2006, Ch. 259, Sec. 2. Effective January 1, 2007.)

128130.

For the purposes of this article:

(a) Department means the Department of Health Care Access and Information.

(b) Approved project means an educational or training program approved by the office that does any of the following on a pilot program basis:

(1) Teaches new skills to existing categories of health care personnel.

(2) Develops new categories of health care personnel.

(3) Accelerates the training of existing categories of health care personnel.

(4) Teaches new health care roles to previously untrained persons, and that has been so designated by the department.

(c) Trainee means a person to be taught health care skills.

(d) Supervisor means a person designated by the project sponsor who already possesses the skills to be taught the trainees and is certified or licensed in California to perform the health care tasks involving the skills.

(e) Health care services means the practice of medicine, dentistry, nursing, including, but not limited to, specialty areas of nursing such as midwifery, pharmacy, optometry, podiatry, and psychology.

(Amended by Stats. 2021, Ch. 143, Sec. 134. (AB 133) Effective July 27, 2021.)

128135.

The department may designate experimental health workforce projects as approved projects where the projects are sponsored by community hospitals or clinics, nonprofit educational institutions, or government agencies engaged in health or education activities. Nothing in this section shall preclude approved projects from utilizing the offices of physicians, dentists, pharmacists, and other clinical settings as training sites.

(Amended by Stats. 2021, Ch. 143, Sec. 135. (AB 133) Effective July 27, 2021.)

128140.

Notwithstanding any other provision of law, a trainee in an approved project may perform health care services under the supervision of a supervisor where the general scope of the services has been approved by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 136. (AB 133) Effective July 27, 2021.)

128145.

A trainee and his or her supervisor shall be held to the standard of care of, and shall be afforded the same immunities as, an individual otherwise legally qualified to perform the health care service or services performed by the trainee or supervisor.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128150.

Any patient being seen or treated by a trainee shall be apprised of that fact and shall be given the opportunity to refuse treatment. Consent to the treatment shall not constitute assumption of the risk.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128155.

The department, after one or more public hearings thereon, shall establish minimum standards, guidelines, and instructions for pilot projects. Advance notice of the hearing shall be sent to all interested parties and shall include a copy of the proposed minimum standards, guidelines, and instructions.

Organizations requesting designation as approved projects shall complete and submit to the department an application, that shall include a description of the project indicating the category of person to be trained, the tasks to be taught, the numbers of trainees and supervisors, a description of the health care agency to be used for training students, and a description of the types of patients likely to be seen or treated. Additionally, the application shall contain a description of all of the following:

(a) The evaluation process to be used.

(b) The baseline data and information to be collected.

(c) The nature of program data that will be collected and the methods for collecting and analyzing the data.

(d) Provision for protecting the safety of patients seen or treated in the project.

(e) A statement of previous experience in providing related health care services.

(Amended by Stats. 2021, Ch. 143, Sec. 137. (AB 133) Effective July 27, 2021.)

128160.

(a)Pilot projects may be approved in the following fields:

(1)Expanded role medical auxiliaries.

(2)Expanded role nursing.

(3)Expanded role dental assistants, dental hygienists, dental hygienists in alternative practice, or dental hygienists in extended functions.

(4)Maternal child care personnel.

(5)Pharmacy personnel.

(6)Mental health personnel.

(7)Other health care personnel including, but not limited to, veterinary personnel, chiropractic personnel, podiatric personnel, geriatric care personnel, therapy personnel, and health care technicians.

(b)Projects that operate in rural and central city areas shall be given priority.

(Amended by Stats. 2008, Ch. 31, Sec. 52. Effective January 1, 2009. Operative July 1, 2009, by Sec. 55 of Ch. 31.)

128165.

The department shall carry out periodic onsite visitations of each approved project and shall evaluate each project to determine the following:

(a) The new health skills taught or extent that existing skills have been reallocated.

(b) Implication of the project for existing licensure laws with suggestions for changes in the law where appropriate.

(c) Implications of the project for health services curricula and for the health care delivery systems.

(d) Teaching methods used in the project.

(e) The quality of care and patient acceptance in the project.

(f) The extent that persons with the new skills could find employment in the health care system, assuming laws were changed to incorporate their skill.

(g) The cost of care provided in the project, the likely cost of this care if performed by the trainees subsequent to the project, and the cost for provision of this care by current providers thereof.

All data collected by the department and by projects approved pursuant to this article shall become public information, with due regard for the confidentiality of individual patient information. The raw data on which projects™ reports are based and the data on which the departmentsevaluation is based shall be available on request for review by interested parties. The department shall provide a reasonable opportunity for interested parties to submit dissenting views or challenges to reports to the Legislature and professional licensing boards required by this section. The department shall publish those comments, subject only to nonsubstantive editing, as part of its annual, or any special, reports.

(Amended by Stats. 2021, Ch. 143, Sec. 138. (AB 133) Effective July 27, 2021.)

128170.

The department shall approve a sufficient number of projects to provide a basis for testing the validity of the experiment.

(Amended by Stats. 2021, Ch. 143, Sec. 139. (AB 133) Effective July 27, 2021.)

128175.

The department shall seek the advice of appropriate professional societies and appropriate healing arts licensing boards prior to designating approved projects. In the case of projects sponsored by a state agency, the following additional procedures shall apply:

(a) A hearing shall be conducted by a disinterested state government official selected by the director of the department from a state agency other than the department or the proponent of the project. The cost of the services of the disinterested state governmental official shall be paid by the department pursuant to an interagency agreement with the state agency represented by the state governmental official.

(b) A notice of hearing shall be sent by the department to interested parties, as designated by the director of the department, by registered mail no less than 30 days preceding the date of the hearing. The notice shall include, but not be limited to, the date, time, location, and subject matter of the hearing, and shall include a copy of the application for a pilot project that is the subject of the hearing.

(c) A verbatim transcript of the hearing shall be prepared and distributed to interested parties upon request.

(d) Within 60 days of the release of the transcript, the department shall submit a recommendation on the proposal to the director of the department and shall send copies to the interested parties.

(e) The director of the department shall accept comments on the recommendations, and, on or after 30 days after transmittal of the recommendations, the director of the department shall approve or disapprove the proposed project.

(Amended by Stats. 2021, Ch. 143, Sec. 140. (AB 133) Effective July 27, 2021.)

128180.

The department shall not approve a project for a period lasting more than two training cycles plus a preceptorship of more than 24 months, unless the department determines that the project is likely to contribute substantially to the availability of high-quality health services in the state or a region thereof.

(Amended by Stats. 2021, Ch. 143, Sec. 141. (AB 133) Effective July 27, 2021.)

128185.

The Legislature finds and declares all of the following:

(a) The Health Manpower Pilot Project No. 152 was approved in 1988 to respond to a shortage of adequately trained personnel to meet the needs of residents in long-term health care facilities.

(b) Long-term health care facilities continue to report difficulties recruiting and retaining adequate nursing staff to meet current needs.

(c) The population most in need of long-term care is growing rapidly. It is estimated by the year 2000, one-third of the entire population in the United States will be composed of persons over 65 years of age. Three-fourths of all residents of long-term health care facilities will be generated by this age group.

(d) A 30-percent decrease in the labor pool of health workers has been projected for the same time period. This decline in resources will exacerbate the problem of acquiring adequate nursing resources.

(e) The establishment of the geriatric technician as a new category of health worker may have the potential to increase the retention of experienced workers in long-term health care by creating health career opportunities and upward mobility for certified nurse assistants.

(f) The use of geriatric technicians is not intended to displace licensed nurses, but rather to augment the level of available trained staff to optimize the quality of long-term health care.

(Added by renumbering Section 429.82 (as added by Stats. 1995, Ch. 324) by Stats. 1996, Ch. 1023, Sec. 138. Effective September 29, 1996.)

128190.

The department may extend the geriatric technician pilot project, known as the Health Manpower Pilot Project No. 152, for a minimum of four additional years, pursuant to reapplication by the sponsoring agency. The project shall continue to meet the applicable requirements established by the department. The number of sponsors authorized to participate in the pilot project may be expanded to a maximum of five.

(Amended by Stats. 2021, Ch. 143, Sec. 142. (AB 133) Effective July 27, 2021.)

128195.

(a)The department shall issue followup reports on geriatric technician pilot projects approved by the department following 24 months of implementation of the employment utilization phase of each project. The reports shall contain all of the following information:

(1)A description of the persons trained, including, but not limited to, the following:

(A)The total number of persons who entered training.

(B)The total number of persons who completed training.

(C)The selection method, including descriptions of any nonquantitative criteria used by employers to refer persons to training.

(D)The education and experience of the trainees prior to training.

(E)Demographic characteristics of the trainees, as available.

(2)An analysis of the training completed, including, but not limited to, the following:

(A)Curriculum and core competencies.

(B)Qualifications of the instructor.

(C)Changes in the curriculum during the pilot project or recommended for the future.

(D)The nature of clinical and didactic training, including the ratio of students to instructors.

(3)A summary of the specific services provided by geriatric technicians.

(4)The new health skills taught or the extent to which existing skills have been reallocated.

(5)Implications of the project for existing licensure laws with suggestions for changes in the law where appropriate.

(6)Implications of the project for health services curricula and for health care delivery systems.

(7)Teaching methods used in the project.

(8)The quality of care, including pertinent medication errors, incident reports, and patient acceptance in the project.

(9)The extent to which persons with new skills could find employment in the health care system, assuming laws were changed to incorporate their skills.

(10)The cost of care provided in the project, the likely cost of this care if performed by the trainees subsequent to the project, and the cost for provision of this care by current providers thereof.

(b)Notwithstanding any other provision of law, issuance of the reports described in subdivision (a) shall not require that the department terminate the geriatric technician pilot projects authorized by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 143. (AB 133) Effective July 27, 2021.)

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 4. Health Care Workforce Training Programs [128200 - 128299]__

(Heading of Chapter 4 amended (as added by Stats. 1996, Ch. 1023) by Stats. 2006, Ch. 259, Sec. 5.)

__ARTICLE 1. Song-Brown Health Care Workforce Training Act [128200 - 128235]__

(Heading of Article 1 amended (as added by Stats. 1996, Ch. 1023) by Stats. 2006, Ch. 259, Sec. 6.)

128200.

(a)This article shall be known and may be cited as the Song-Brown Health Care Workforce Training Act.

(b) (1) The Legislature hereby finds and declares that physicians engaged in family medicine are in very short supply in California. The current emphasis placed on specialization in medical education has resulted in a shortage of physicians trained to provide comprehensive primary health care to families. The Legislature hereby declares that it regards the furtherance of a greater supply of competent family physicians to be a public purpose of great importance and further declares the establishment of the program pursuant to this article to be a desirable, necessary, and economical method of increasing the number of family physicians to

provide needed medical services to the people of California. The Legislature further declares that it is to the benefit of the state to assist in increasing the number of competent family physicians graduated by colleges and universities of this state to provide primary health care services to families within the state.

(2)The Legislature finds that the shortage of family physicians can be improved by the placing of a higher priority by public and private medical schools, hospitals, and other health care delivery systems in this state, on the recruitment and improved training of medical students and residents to meet the need for family physicians. To help accomplish this goal, each medical school in California is encouraged to organize a strong family medicine program or department. It is the intent of the Legislature that the programs or departments be headed by a physician who possesses specialty certification in the field of family medicine, and has broad clinical experience in the field of family medicine.

(3)The Legislature further finds that encouraging the training of primary care physiciansassistants and primary care nurse practitioners will assist in making primary health care services more accessible to the citizenry, and will, in conjunction with the training of family physicians, lead to an improved health care delivery system in California.

(4)Community hospitals in general and rural community hospitals in particular, as well as other health care delivery systems, are encouraged to develop family medicine residencies in affiliation or association with accredited medical schools, to help meet the need for family physicians in geographical areas of the state with recognized family primary health care needs. Utilization of expanded resources beyond university-based teaching hospitals should be emphasized, including facilities in rural areas wherever possible.

(5)The Legislature also finds and declares that nurses are in very short supply in California. The Legislature hereby declares that it regards the furtherance of a greater supply of nurses to be a public purpose of great importance and further declares the expansion of the program pursuant to this article to include nurses to be a desirable, necessary, and economical method of increasing the number of nurses to provide needed nursing services to the people of California.

(6)It is the intent of the Legislature to provide for a program designed primarily to increase the number of students and residents receiving quality education and training in the primary care specialties of family medicine, internal medicine, obstetrics and gynecology, and pediatrics and as primary care physiciansassistants, primary care nurse practitioners, and registered nurses and to maximize the delivery of primary care family physician services to specific areas of California where there is a recognized unmet priority need. This program is intended to be implemented through contracts with accredited medical schools, teaching health centers, programs that train primary care physiciansassistants, programs that train primary care nurse practitioners, programs that train registered nurses, hospitals, and other health care delivery systems based on per-student or per-resident capitation formulas. It is further intended by the Legislature that the programs will be professionally and administratively accountable so that the maximum cost-effectiveness will be achieved in meeting the professional training standards and criteria set forth in this article and Article 2 (commencing with Section 128250).

(Amended by Stats. 2014, Ch. 31, Sec. 16. (SB 857) Effective June 20, 2014.)

128205.

As used in this article, and Article 2 (commencing with Section 128250), the following terms have the following meanings:

(a)Family physician means a primary care physician and surgeon who is prepared to and renders continued comprehensive and preventative health care services to individuals and families and who has received specialized training in an approved family medicine residency for three years after graduation from an accredited medical school.

(b)Primary care physician means a physician who is prepared to and renders continued comprehensive and preventative health care services, and has received specialized training in the areas of internal medicine, obstetrics and gynecology, or pediatrics.

(c)Council means the California Health Workforce Education and Training Council.

(d)Graduate medical education means residency programs for education or training in one or more specialties or subspecialties following graduation from medical school.

(e)Health professions education and training means any formal organized education or training undertaken for the purpose of gaining knowledge and skills necessary to practice a specific health profession or to provide a role in a health care setting. Health professions education and training includes any type of health professions training program, including shadowing programs, participating in rotations, affiliation agreements, and accredited or accreditation-eligible programs, at any educational level, including certificate, undergraduate, graduate, professional, or postgraduate, and in any clinical discipline, excluding graduate medical education.

(f)Programs that train postgraduate primary care physiciansassistants means a program that provides postgraduate fellowships for clinical training in primary care. Programs shall be affiliated with a community-based ambulatory patient care center within underserved communities.

(g)Programs that train primary care physiciansassistants means a program that has been approved for the training of primary care physician assistants pursuant to Section 3513 of the Business and Professions Code.

(h)Programs that train postgraduate primary care nurse practitioners means a program that provides postgraduate fellowships for clinical training in primary care. Programs shall be affiliated with a community-based ambulatory patient care center within underserved communities.

(i)Programs that train primary care nurse practitioners means a program that is operated by a California school of medicine or nursing, or that is authorized by the Regents of the University of California or by the Trustees of the California State University, or that is approved by the Board of Registered Nursing.

(j)Programs that train registered nurses means a program that is operated by a California school of nursing and approved by the Board of Registered Nursing, or that is authorized by the Regents of the University of California, the Trustees of the California State University, or the Board of Governors of the California Community Colleges, and that is approved by the Board of Registered Nursing.

(k)Programs that train midwives means programs that train certified nurse-midwives and programs that train licensed midwives, as those terms are defined in Section 128297.

(l)Teaching health center means a community-based ambulatory patient care center that operates a primary care residency program. Community-based ambulatory patient care settings include, but are not limited to, federally qualified health centers, community mental health centers, rural health clinics, health centers operated by the Indian Health Service, an Indian tribe or tribal organization, or an urban Indian organization, and entities receiving funds under Title X of the federal Public Health Service Act (Public Law 91-572).

(Amended by Stats. 2022, Ch. 738, Sec. 7. (AB 204) Effective September 29, 2022.)

128210.

There is hereby created a state medical contract program with accredited medical schools, hospitals and other health care delivery systems, teaching health centers, programs that train postgraduate primary care physiciansassistants, programs that train primary care physiciansassistants, programs that train postgraduate primary care nurse practitioners, programs that train primary care nurse practitioners, programs that train registered nurses, and programs that train midwives to increase the number of students and residents receiving quality education and training in the primary care specialties of family medicine, internal medicine, obstetrics and gynecology, midwifery, and pediatrics, or in nursing and to maximize the delivery of primary care and family physician services to specific areas of California where there is a recognized unmet priority need for those services.

(Amended by Stats. 2022, Ch. 738, Sec. 8. (AB 204) Effective September 29, 2022.)

128230.

When funding primary care and family medicine programs or departments, primary care and family medicine residencies, and programs for the training of postgraduate primary care physiciansassistants, primary care physician assistants, postgraduate primary care nurse practitioners, primary care nurse practitioners, certified nurse-midwives, licensed midwives, or registered nurses, the department shall give priority to programs that have demonstrated success in the following areas:

(a)Graduating individuals who practice in medically underserved areas.

(b)Enrolling members of underrepresented groups in medicine to the program.

(c)Locating the programsmain training site in a medically underserved area.

(d)Operating a main training site at which the majority of the patients are Medi-Cal recipients.

(Amended by Stats. 2022, Ch. 738, Sec. 9. (AB 204) Effective September 29, 2022.)

128235.

Pursuant to this article and Article 2 (commencing with Section 128250), the Director of the Department of Health Care Access and Information shall do all of the following:

(a)Develop application and contract criteria based on health care workforce needs and priorities.

(b)Determine whether primary care and family medicine, postgraduate primary care physiciansassistant training proposals, primary care physiciansassistant training program proposals, postgraduate primary care nurse practitioner training program proposals, primary care nurse practitioner training program proposals,

registered nurse training program proposals, and proposals from programs that train midwives submitted to the department for participation in the state medical contract program established by this article and Article 2 (commencing with Section 128250) meet established standards.

(c)Select and contract on behalf of the state with accredited medical schools, teaching health centers, hospitals and other health care delivery systems, programs that train postgraduate primary care physiciansassistants, programs that train primary care physiciansassistants, programs that train postgraduate primary care nurse practitioners, programs that train primary care nurse practitioners, and programs that train midwives for the purpose of training undergraduate medical students and residents in the specialties of internal medicine, obstetrics and gynecology, pediatrics, and family medicine. Contracts shall be awarded to those institutions that best demonstrate the ability to provide quality education and training and to retain students and residents in specific areas of California where there is a recognized unmet priority need for primary care family physicians. Contracts shall be in conformity with the contract criteria developed by the Department of Health Care Access and Information.

(d)Select and contract on behalf of the state with programs that train registered nurses. Contracts shall be awarded to those institutions that best demonstrate the ability to provide quality education and training and to retain students and residents in specific areas of California where there is a recognized unmet priority need for registered nurses. Contracts shall be in conformity with the contract criteria developed by the Department of Health Care Access and Information.

(e)Terminate, upon 30 days™ written notice, the contract of any institution whose program does not meet the standards established or that otherwise does not maintain proper compliance with this part, except as otherwise provided in contracts entered into by the director pursuant to this article and Article 2 (commencing with Section 128250).

(Amended by Stats. 2022, Ch. 738, Sec. 10. (AB 204) Effective September 29, 2022.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 4. Health Care Workforce Training Programs [128200 - 128299]__

(Heading of Chapter 4 amended (as added by Stats. 1996, Ch. 1023) by Stats. 2006, Ch. 259, Sec. 5.)

__ARTICLE 2. California Health Workforce Education and Training Council [128250 - 128252]__

(Article 2 added by Stats. 2022, Ch. 47, Sec. 33.)

128250.

(a)The terms used in this article have the same meaning as in Section 128205.

(b)There is hereby created a California Health Workforce Education and Training Council that shall be responsible for helping coordinate Californiashealth workforce education and training to develop a health workforce that meets Californiashealth care needs. The council shall be composed of 18 members who, together, represent various graduate medical education and training programs, health professions, including, but not limited to, specialties for primary care and behavioral health, and consumer representatives who shall serve at the pleasure of their appointing authorities, as follows:

(1)Six members appointed by the Governor.

(2)One member who shall be the Director of the State Department of Health Care Services, or the directorsdesignee.

(3)One member who shall be the Director of the Department of Health Care Access and Information, or the directorsdesignee.

(4)One member who shall be the Secretary of Labor and Workforce Development, or the secretarysdesignee.

(5)Three members appointed by the Speaker of the Assembly.

(6)Three members appointed by the Chairperson of the Senate Committee on Rules.

(7)One member who shall be the President of the University of California, or the presidentsdesignee.

(8)One member who shall be the Chancellor of the California State University, or the chancellorsdesignee.

(9)One member who shall be the Chancellor of the California Community Colleges, or the chancellorsdesignee.

(c)Members of the council appointed under paragraphs (1), (5), and (6) of subdivision (a) shall be appointed for a term of four years, except that the term of office of the initial members appointed under paragraph (1) shall expire at the end of two years.

(Added by Stats. 2022, Ch. 47, Sec. 33. (SB 184) Effective June 30, 2022.)

128251.

The members of the council, other than state employees, shall receive compensation of twenty-five dollars ($25) for each daysattendance at a council meeting, in addition to actual and necessary travel expenses incurred in the course of attendance at a council meeting.

(Added by Stats. 2022, Ch. 47, Sec. 33. (SB 184) Effective June 30, 2022.)

128252.

(a)The council shall have the powers and authority necessary to carry out the duties imposed upon it by this chapter, including, but not limited to, the following:

(1)Develop graduate medical education and workforce training and development priorities for the state.

(2)Discuss and make recommendations to the Department of Health Care Access and Information regarding the use of health care education and training funds appropriated by the Legislature for programs administered by the department under this part.

(3)Develop standards and guidelines for residency and health professions education and training programs funded under this part.

(4)Review outcomes data from funded programs, as provided to the council by the department, to reprioritize and reassess the graduate medical education and health professions education and training needs of Californiascommunities.

(5)Explore options for developing a broad graduate medical education and health professions education and training funding strategy.

(6)Advocate for additional funds and additional sources of funds to stimulate expansion of graduate medical education and health professions education and training in California.

(7)Provide technical assistance and support for establishing new graduate medical education and health professions education and training programs in California.

(8)Review and recommend health professions career pathways or ladders.

(b)The council shall carry out the duties imposed upon it by this chapter with primary consideration given to increasing workforce diversity and furthering improved access, quality, and equity of health care for underserved, underrepresented, and Medi-Cal populations. Further, the council shall carry out the duties imposed upon it by this chapter with a primary focus on primary care, behavioral health, oral health, and allied health.

(Added by Stats. 2022, Ch. 47, Sec. 33. (SB 184) Effective June 30, 2022.)

__ARTICLE 4. Midwifery Workforce Training Act [128295 - 128299]__

(Article 4 added by Stats. 2021, Ch. 449, Sec. 5.)

128295.

This article shall be known, and may be cited, as the Midwifery Workforce Training Act.

(Added by Stats. 2021, Ch. 449, Sec. 5. (SB 65) Effective January 1, 2022.)

128296.

The Legislature finds and declares that maternity care providers are in short supply and maldistributed around the state, resulting in what the March of Dimes defines as maternity care deserts and limited-access maternity care areas. Many major counties are on track to have a critical shortage of maternity care providers by 2025. Maternity care is often the very first primary health care interaction, and the most common primary care interaction over the life of a woman and birthing personsreproductive lifespan. Black

and Native American individuals and other people of color in particular have significant difficulty in accessing maternity care and family planning services. Black women die from pregnancy-related causes at a rate of three to four times that of White women. Black infants are more than twice as likely to die in their first year as White infants. Access to quality care and resultant outcomes are intricately linked. Racial disparities in outcomes, especially, are connected in part to quality of and ability to access maternity care, especially by care providers whose care models elevate patient-centered, holistic, and culturally sensitive care. This kind of care is the hallmark of the midwifery model.

(Added by Stats. 2021, Ch. 449, Sec. 5. (SB 65) Effective January 1, 2022.)

128297.

For purposes of this article, the following definitions apply:

(a)Certified nurse-midwife means an advanced practice nurse with training in midwifery, as specified in, and a certificate issued pursuant to, Article 2.5 (commencing with Section 2746) of Chapter 6 of Division 2 of the Business and Professions Code.

(b)Licensed midwife means an individual who has been issued a license to practice midwifery pursuant to Article 24 (commencing with Section 2505) of Chapter 5 of Division 2 of the Business and Professions Code.

(c)Office means the Office of Statewide Health Planning and Development (OSHPD).

(d)Programs that train certified nurse-midwives means a nurse-midwifery education program that is operated by a California school of nursing and approved by the Accreditation Commission for Midwifery Education, or that is authorized by the Regents of the University of California or by the Trustees of the California State University, or that is approved by the Board of Registered Nursing.

(e)Programs that train licensed midwives means a midwifery education program operated by a California school of midwifery, and accredited by the Midwifery Education Accreditation Council (MEAC), or approved by the Bureau for Private and Postsecondary Education, or approved by the state licensing and regulatory board for licensed midwives.

(Added by Stats. 2021, Ch. 449, Sec. 5. (SB 65) Effective January 1, 2022.)

128298.

(a)It is the intent of the Legislature to provide for a program designed primarily to increase the number of students receiving quality education and training as a certified nurse-midwife or a licensed midwife in accordance with the global standards for midwifery education and the international definition of midwife as established by the International Confederation of Midwives, in order to maximize the delivery of reproductive services to specific areas of California where there is a recognized unmet priority need.

(b)(1)The office shall establish a program to contract with programs that train certified nurse-midwives and programs that train licensed midwives in accordance with the global standards for midwifery education and the international definition of midwife as established by the International Confederation of Midwives in order to increase the number of students receiving quality education and training as a certified nurse-

midwife or as a licensed midwife.

(2)The office shall only contract with programs that train certified nurse-midwives and programs that train licensed midwives that, at minimum, include, or that intend to create, a component of training designed for medically underserved multicultural communities, lower socioeconomic neighborhoods, or rural communities, and that are organized to prepare program graduates for service in those neighborhoods and communities, or that seek to recruit and retain racially and ethnically diverse students, underrepresented groups, or people from underserved or historically marginalized communities.

(3) The office may adopt standards and regulations necessary to carry out this article. In adopting eligibility standards for programs that train certified nurse-midwives and that train licensed midwives in accordance with the standards set forth in subdivisions (a) and (b), the office may accept those educational standards and competencies established by the respective state licensing and regulatory bodies for certified nurse-midwives and for licensed midwives. The office shall take care not to implement education or competency standards beyond what is required for the training programs by their respective state licensing and regulatory bodies that could inadvertently create an unnecessary barrier for training programs to obtain funding for the training of midwives in California.

(4)The office shall develop alternative strategies to provide long-term stability for, or expansion of, this act, such as through funding provided by private foundations and administered by the office for the purposes of carrying out this article.

(5)Nothing in this article prevents the office from developing a protocol to contract with potential programs that train nurse-midwives or that train licensed midwives, in order to support the initial startup of new training programs, as long as the eligibility requirements of this article are met or can be met through the award of funds.

(6)The office may pay contracted programs that train certified nurse-midwives and programs that train licensed midwives in an amount calculated based on a single per-student capitation formula, or through another method, in order to cover the costs of innovative special projects or programs.

(7)Funds appropriated to the office for purposes of this article and awarded by the office to eligible programs that train certified nurse-midwives or programs that train licensed midwives may be used by the training program to develop new initiatives, projects, or curriculum, or to expand existing initiatives, projects, or curriculum. Awarded funds may also be used for general support and sustainability of the overall training program, or to sustain specific components of the training program, including, but not limited to, tuition assistance for students, or support for preceptor recruitment, or to sustain preceptor training sites for students.

(c)This section shall be implemented only upon an appropriation by the Legislature for these purposes in the annual Budget Act or another act.

(Added by Stats. 2021, Ch. 449, Sec. 5. (SB 65) Effective January 1, 2022.)

128299.

This article shall become operative on January 1, 2022.

(Added by Stats. 2021, Ch. 449, Sec. 5. (SB 65) Effective January 1, 2022.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 5. Health Professions Education Programs [128330 - 128565]__

(Heading of Chapter 5 amended by Stats. 2021, Ch. 143, Sec. 159.)

__ARTICLE 1. Health Professions Education Programs [128330 - 128371]__

(Heading of Article 1 amended by Stats. 2021, Ch. 143, Sec. 160.)

128330.

As used in this article:

(a)Board means the Board of Trustees of the Health Professions Education Foundation.

(b)Council means the California Health Workforce Education and Training Council.

(c)Director means the Director of the Department of Health Care Access and Information.

(d)Foundation means the Health Professions Education Foundation.

(e)Health professions or health professionals means physicians and surgeons licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code or pursuant to the Osteopathic Act, dentists, registered nurses, and other health professionals determined by the department to be needed in medically underserved areas.

(f)Department means the Department of Health Care Access and Information.

(g)Underrepresented groups means populations that are underrepresented in medicine, dentistry, nursing, or other health professions as determined by the department. The department, upon a finding that the action is necessary to meet the health care needs of medically underserved areas, may add a group comprising the economically disadvantaged to those groups authorized to receive assistance under this article. The department shall recognize that it is especially important that medical and dental care be provided in a way that is sensitive to the sociocultural variables that affect a personshealth.

(Amended by Stats. 2021, Ch. 143, Sec. 161. (AB 133) Effective July 27, 2021.)

128337.

Notwithstanding any other law, on or before October 1, 2021, the nonprofit public benefit corporation known as the Health Professions Education Foundation shall be dissolved. All assets, including records, and any liabilities shall be transferred to the department.

(Added by Stats. 2021, Ch. 143, Sec. 163. (AB 133) Effective July 27, 2021.)

128338.

Effective with the dissolution of the Health Professions Education Foundation, any reference to the Health Professions Education Foundation, or the Foundation, in this chapter shall be deemed a reference to the department.

(Added by Stats. 2021, Ch. 143, Sec. 164. (AB 133) Effective July 27, 2021.)

128345.

The department may do any of the following:

(a)Solicit and receive funds from business, industry, foundations, and other private or public sources for the purpose of providing financial assistance in the form of scholarships or loans to students from underrepresented groups. These funds shall be expended by the department after transfer to the Health Professions Education Fund, created pursuant to Section 128355.

(b)Disburse private sector moneys deposited in the Health Professions Education Fund to students from underrepresented groups enrolled in or graduated from schools of medicine, dentistry, nursing, or other health professions in the form of loans or scholarships.

(c)Encourage private sector institutions, including hospitals, community clinics, and other health agencies to identify and provide educational experiences to students from underrepresented groups who are potential applicants to schools of medicine, dentistry, nursing, or other health professions.

(d)Implement the Steven M. Thompson Physician Corps Loan Repayment Program and the Volunteer Physician Program, as provided under Article 5 (commencing with Section 128550).

(Amended by Stats. 2021, Ch. 143, Sec. 166. (AB 133) Effective July 27, 2021.)

128350.

The department shall do all of the following:

(a) Provide technical and staff support to the programs in meeting all of its responsibilities.

(b) Provide financial management for the Health Professions Education Fund.

(c) Enter into contractual agreements with students from underrepresented groups for the disbursement of scholarships or loans in return for the commitment of these students to practice their profession in an area in California designated as deficient in primary care services.

(d) Disseminate information regarding the areas in the state that are deficient in primary care services to potential applicants for the scholarships or loans.

(e) Monitor the practice locations of the recipients of the scholarships or loans.

(f) Recover funds, in accordance with the terms of the contractual agreements, from recipients of scholarships or loans who fail to begin or complete their obligated service. Funds so recovered shall be redeposited in the Health Professions Education Fund.

(g) Contract with the institutions that train family practice residents, in order to increase the participation of students from underrepresented groups in entering the specialty of family practice. The director may seek the recommendations of the council as to what programs best demonstrate the ability to meet this objective.

(h) Contract with training institutions that are involved in osteopathic postgraduate training in general or family practice medicine, in order to increase the participation of students from underrepresented groups participating in the practice of osteopathic medicine. The director may seek the recommendations of the council as to what programs have demonstrated the ability to meet this objective.

(i) Enter into contractual agreements with graduated health professionals to repay some or all of the debts they incurred in health professional schools in return for practicing their professions in an area in California designated as deficient in primary care services.

(j) Contract with institutions that award baccalaureate of science degrees in nursing in order to increase the participation of students from underrepresented groups in the nursing profession. The director may seek the recommendations of the council as to what programs have demonstrated the ability to meet this objective.

(Amended by Stats. 2021, Ch. 143, Sec. 167. (AB 133) Effective July 27, 2021.)

128355.

There is hereby created within the department a Health Professions Education Fund. The primary purpose of this fund is to provide scholarships and loans to students from underrepresented groups who are accepted to or enrolled in schools of medicine, dentistry, nursing, or other health professions. The fund shall also be used to pay for the cost of administering the program and for any other purpose authorized by this article. The level of expenditure by the department for the administrative support of the program created pursuant to this article shall be subject to review and approval annually through the State Budget process. The department may receive private donations to be deposited into this fund. All money in the fund is continuously appropriated to the department for the purposes of this article. The department shall manage this fund prudently in accordance with other provisions of law.

(Amended by Stats. 2021, Ch. 143, Sec. 168. (AB 133) Effective July 27, 2021.)

128360.

(a)In administering this chapter, the department shall be exempt from the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The department shall provide opportunities for public participation as it administers the Health Professions Education Programs. Information about each type of scholarship or loan repayment opportunity shall be publicly available at least 60 days prior to any application deadline. This information shall include eligibility criteria and the application process, materials, and deadlines, and shall be posted on the departmentsinternet website and be available directly from the department. All the information shall remain posted and available during the entire application period for a funding cycle.

(b)Regulations that have been adopted to administer this chapter prior to the effective date of this section are repealed as of the effective date of this section.

(Repealed and added by Stats. 2021, Ch. 143, Sec. 170. (AB 133) Effective July 27, 2021.)

128365.

Notwithstanding any other provision, applications for financial assistance under this article, or other documents that the department reasonably determines should not be discussed in public due to privacy

considerations shall be exempt from the disclosure provisions of the Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(Amended by Stats. 2022, Ch. 28, Sec. 107. (SB 1380) Effective January 1, 2023.)

128370.

Notwithstanding any other law, the department may exempt from public disclosure any document in the possession of the department that pertains to a donation made pursuant to this article if the donor has requested anonymity.

(Amended by Stats. 2021, Ch. 143, Sec. 172. (AB 133) Effective July 27, 2021.)

128371.

(a)The Legislature finds and declares that it is in the best interest of the State of California to provide persons who are not lawfully present in the United States with the state benefits provided by those programs listed in subdivision (d), and therefore, enacts this section pursuant to Section 1621(d) of Title 8 of the United States Code.

(b)A program listed in subdivision (d) shall not deny an application based on the citizenship status or immigration status of the applicant.

(c)For any program listed in subdivision (d), when mandatory disclosure of a social security number is required, an applicant shall provide their social security number, if one has been issued, or an individual tax identification number that has been or will be submitted.

(d)This section applies to all of the following:

(1)Programs supported through the Health Professions Education Fund pursuant to Section 128355.

(2)The Registered Nurse Education Fund created pursuant to Section 128400.

(3)The Mental Health Practitioner Education Fund created pursuant to Section 128458.

(4)The Vocational Nurse Education Fund created pursuant to Section 128500.

(5)The Medically Underserved Account for Physicians created pursuant to Section 128555.

(6)Loan forgiveness and scholarship programs created pursuant to Part 3.1 (commencing with Section 5820) of Division 5 of the Welfare and Institutions Code.

(7)The Song-Brown Health Care Workforce Training Act created pursuant to Article 1 (commencing with Section 128200) of Chapter 4.

(8)To the extent permitted under federal law, the program administered by the department pursuant to the federal National Health Service Corps State Loan Repayment Program (42 U.S.C. Sec. 254q-1), commonly

known as the California State Loan Repayment Program.

(9)The programs administered by the department pursuant to the Health Professions Career Opportunity Program (Section 127885), commonly known as the Mini Grants Program, and CaliforniasStudent/Resident Experiences and Rotations in Community Health, commonly known as the CalSEARCH program.

(Amended by Stats. 2021, Ch. 143, Sec. 173. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 5. Health Professions Education Programs [128330 - 128565]__

(Heading of Chapter 5 amended by Stats. 2021, Ch. 143, Sec. 159.)

__ARTICLE 2. California Registered Nurse Education Program [128375 - 128401]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 9.)

128375.

(a) The Legislature hereby finds and declares that an adequate supply of professional nurses is critical to assuring the health and well-being of the citizens of California, particularly those who live in medically underserved areas.

(b) The Legislature further finds that changes in the health care system of this state have increased the need for more highly skilled nurses. These changes include advances in medical technology and pharmacology, that necessitate the use of more highly skilled nurses in acute care facilities. Further, the containment of health care costs has led to increased reliance on home health care and outpatient services and to a higher proportion of more acutely ill patients in acute care facilities. Long-term care facilities also need more highly educated nursing personnel. Both shifts require a larger number of skilled nursing personnel.

(c) The Legislature further finds and declares that in nursing, as in other professions, certain populations are underrepresented. The Legislature also finds and declares that it is especially important that nursing care be provided in a way that is sensitive to the sociocultural variables that affect a personshealth. The Legislature recognizes that the financial burden of obtaining a baccalaureate degree is considerable and that persons from families lacking adequate financial resources may need financial assistance to complete a baccalaureate degree.

(Amended by Stats. 2021, Ch. 143, Sec. 174. (AB 133) Effective July 27, 2021.)

128380.

It is the intent of the Legislature to accomplish the following:

(a) Assure an adequate supply of appropriately trained professional nurses.

(b) Encourage persons from populations that are currently underrepresented in the nursing profession to enter that profession.

(c) Encourage professional nurses to work in medically underserved areas.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128385.

(a)There is hereby created the Registered Nurse Education Program within the department. Persons participating in this program shall be persons who agree in writing prior to graduation to serve in an eligible county health facility, an eligible state-operated health facility, a health workforce shortage area, or a California nursing school, as designated by the director of the department. Persons agreeing to serve in eligible county health facilities, eligible state-operated health facilities, or health workforce shortage areas, and mastersor doctoral students agreeing to serve in a California nursing school may apply for scholarship or loan repayment. The Registered Nurse Education Program shall be administered in accordance with Article 1 (commencing with Section 128330), except that all funds in the Registered Nurse Education Fund shall be used only for the purpose of promoting the education of registered nurses and related administrative costs. The department shall adopt both of the following:

(1)A standard contractual agreement to be signed by the director and any student who has received an award to work in an eligible county health facility, an eligible state-operated health facility, or in a health workforce shortage area that would require a period of obligated professional service in the areas of California designated by the department as deficient in primary care services. The obligated professional service shall be in direct patient care. The agreement shall include a clause entitling the state to recover the

funds awarded plus the maximum allowable interest for failure to begin or complete the service obligation.

(2)Maximum allowable amounts for scholarships, educational loans, and loan repayment programs in order to assure the most effective use of these funds.

(b)Applicants may be persons licensed as registered nurses, graduates of associate degree nursing programs prior to entering a program granting a baccalaureate of science degree in nursing, or students entering an entry-level mastersdegree program in registered nursing or other registered nurse mastersor doctoral degree program approved by the Board of Registered Nursing. Priority shall be given to applicants who hold associate degrees in nursing.

(c)Registered nurses and students shall commit to teaching nursing in a California nursing school for five years in order to receive a scholarship or loan repayment for a doctoral degree program.

(d)As used in this section, eligible county health facility means a county health facility that has been determined by the department to have a nursing vacancy rate greater than noncounty health facilities located in the same health facility planning area.

(e)As used in this section, eligible state-operated health facility means a state-operated health facility that has been determined by the department to have a nursing vacancy rate greater than noncounty health facilities located in the same health facility planning area.

(Amended by Stats. 2021, Ch. 143, Sec. 175. (AB 133) Effective July 27, 2021.)

128390.

The funds made available pursuant to this article shall be used as specified in Article 14 (commencing with Section 69795) of Chapter 2 of Part 42 of the Education Code, except that the funds shall be used only for the purpose of assisting students in completing nursing programs meeting the standards specified in subdivision (j) of Section 69799 of the Education Code.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128400.

There is hereby established in the State Treasury the Registered Nurse Education Fund. All money in the fund shall be used for the purposes specified in the California Registered Nurse Education Program established pursuant to this article. This fund shall receive money collected pursuant to subdivision (d) of Section 2815 and Section 2815.1 of the Business and Professions Code.

(Amended by Stats. 2013, Ch. 384, Sec. 1. (SB 271) Effective January 1, 2014.)

128401.

(a)The Department of Health Care Access and Information shall establish the statewide Associate Degree

Nursing (A.D.N.) Scholarship Program.

(b)Scholarships under the program shall be available only to students in counties determined to have the most significant need. Need in a county shall be established based on consideration of all the following factors:

(1)Counties with a registered nurse-to-population ratio equal to or less than 500 registered nurses per 100,000 individuals.

(2)County unemployment rate.

(3)County level of poverty.

(c)A scholarship recipient shall be required to complete, at a minimum, an associate degree in nursing and work in a medically underserved area in California upon obtaining their license from the Board of Registered Nursing.

(d)The department shall consider the following factors when selecting recipients for the A.D.N. Scholarship Program:

(1)An applicantseconomic need, as established by the federal poverty index.

(2)Applicants who demonstrate cultural and linguistic skills and abilities.

(e)The program shall be funded from the Registered Nurse Education Fund established pursuant to Section 128400 and administered by the department within the office. The department shall allocate a portion of the moneys in the fund for the program established pursuant to this section, in addition to moneys otherwise allocated pursuant to this article for scholarships and loans for associate degree nursing students.

(f)No additional staff or General Fund operating costs shall be expended for the program.

(g)The department may accept private or federal funds for purposes of the A.D.N. Scholarship Program.

(h)The department shall post A.D.N. Scholarship Program statistics and updates on its internet website.

(Amended by Stats. 2021, Ch. 143, Sec. 177. (AB 133) Effective July 27, 2021.)

128454.

(a)There is hereby created the Licensed Mental Health Service Provider Education Program within the Department of Health Care Access and Information.

(b)For purposes of this article, the following definitions shall apply:

(1)Licensed mental health service provider means a psychologist licensed by the Board of Psychology, registered psychologist, postdoctoral psychological assistant, postdoctoral psychology trainee employed in an exempt setting pursuant to Section 2910 of the Business and Professions Code or employed pursuant to a State Department of Health Care Services waiver pursuant to Section 5751.2 of the Welfare and Institutions Code, marriage and family therapist, associate marriage and family therapist, licensed clinical social worker, associate clinical social worker, licensed professional clinical counselor, and associate professional clinical counselor.

(2)Mental health professional shortage area means an area designated as such by the Health Resources and Services Administration (HRSA) of the United States Department of Health and Human Services.

(c)Commencing January 1, 2005, any licensed mental health service provider, including a mental health service provider who is employed at a publicly funded mental health facility or a public or nonprofit private mental health facility that contracts with a county mental health entity or facility to provide mental health services, who provides direct patient care in a publicly funded facility or a mental health professional shortage area may apply for grants under the program to reimburse their educational loans related to a career as a licensed mental health service provider.

(d)The department shall adopt all of the following:

(1)A standard contractual agreement to be signed by the director and any licensed mental health service provider who is serving in a publicly funded facility or a mental health professional shortage area that would require the licensed mental health service provider who receives a grant under the program to work in the publicly funded facility or a mental health professional shortage area for at least one year.

(2)The maximum allowable total grant amount per individual licensed mental health service provider.

(3)The maximum allowable annual grant amount per individual licensed mental health service provider.

(e)The department shall develop the program, which shall comply with all of the following requirements:

(1)The total amount of grants under the program per individual licensed mental health service provider shall not exceed the amount of educational loans related to a career as a licensed mental health service provider incurred by that provider.

(2)The program shall keep the fees from the different licensed providers separate to ensure that all grants are funded by those fees collected from the corresponding licensed provider groups.

(3)A loan forgiveness grant may be provided in installments proportionate to the amount of the service obligation that has been completed.

(4)The number of persons who may be considered for the program shall be limited by the funds made available pursuant to Section 128458.

(f)This section shall become operative on July 1, 2018.

(Amended by Stats. 2021, Ch. 143, Sec. 179. (AB 133) Effective July 27, 2021.)

128455.

An account shall be created within the Mental Health Practitioner Education Fund and, upon appropriation by the Legislature, moneys in that account shall be used solely to fund grants, consistent with this article, to repay educational loans for applicants who meet all of the following requirements:

(a)Commit to provide direct patient care in a publicly funded facility or a mental health professional shortage area for at least 24 months.

(b)Are marriage and family therapists, associate marriage and family therapists, licensed clinical social workers, associate clinical social workers, licensed professional clinical counselors, or associate professional clinical counselors.

(c)Were formerly in Californiasfoster youth care system.

(Added by Stats. 2018, Ch. 585, Sec. 1. (AB 2608) Effective January 1, 2019.)

128458.

There is hereby established in the State Treasury the Mental Health Practitioner Education Fund. The moneys in the fund, upon appropriation by the Legislature, shall be available for expenditure by the Department of Health Care Access and Information for purposes of this article.

(Amended by Stats. 2021, Ch. 143, Sec. 181. (AB 133) Effective July 27, 2021.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=107.&title=&part=3.&chapter=5.&article=4.

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 5. Health Professions Education Programs [128330 - 128565]__

(Heading of Chapter 5 amended by Stats. 2021, Ch. 143, Sec. 159.)

__ARTICLE 4. Vocational Nurse Education Program [128475 - 128501]__

(Article 4 added by Stats. 2003, Ch. 640, Sec. 20.)

128475.

(a) The Legislature hereby finds and declares that an adequate supply of professional vocational nurses is critical to assuring the health and well-being of the citizens of California, particularly those who live in medically underserved areas, and that changes in the health care system of this state have increased the need for more highly skilled vocational nurses.

(b) The Legislature further finds and declares that in March 2002, the California Association of Health Facilities indicated that there is a shortage of 3,500 vocational nurses in long-term care facilities and estimates that 28,000 additional vocational nurses will be needed in long-term care over the next 10 years, that recently published reports indicate that vocational nurses now comprise almost 30 percent of the nationstotal number of nurses and that the national vacancy rate in hospitals was about 13 percent, and that according to the California Association of Psychiatric Technicians, an additional 800 psychiatric technicians are needed due to expanding health facilities.

(c) The Legislature further finds and declares that in vocational nursing, as in other professions, certain populations are underrepresented. The Legislature also finds and declares that it is especially important that vocational nursing care be provided in a way that is sensitive to the sociocultural variables that affect a personshealth. The Legislature recognizes that the financial burden of attending a school of vocational nursing is considerable and that persons from families lacking adequate financial resources may need financial assistance to complete their studies.

(d) The Legislature further finds and declares that approximately 54.1 percent of all Californians live in rural and urban areas that have been designated underserved. The shortage of vocational nurses in these areas makes it more difficult for those citizens to obtain health care and more difficult to attract and retain other health care professionals to those areas.

(Added by Stats. 2003, Ch. 640, Sec. 20. Effective January 1, 2004. Section operative July 1, 2004, pursuant to Section 128501.)

128480.

It is the intent of the Legislature to accomplish the following:

(a) Assure an adequate supply of appropriately trained vocational nurses.

(b) Encourage persons from populations that are currently underrepresented in the profession of vocational nursing to enter that profession.

(c) Encourage vocational nurses to work in medically underserved areas.

(Added by Stats. 2003, Ch. 640, Sec. 20. Effective January 1, 2004. Section operative July 1, 2004, pursuant to Section 128501.)

128485.

There is hereby created the Vocational Nurse Education Program within the Department of Health Care Access and Information. Persons participating in this program shall be persons who agree in writing prior to completion of vocational nursing school to serve in an eligible county health facility, an eligible state-operated health facility, or a health workforce shortage area, as designated by the director of the department. Persons agreeing to serve in eligible county health facilities, eligible state-operated health facilities, or health workforce shortage areas may apply for scholarship or loan repayment. The Vocational Nurse Education Program shall be administered in accordance with Article 1 (commencing with Section 128330), except that all funds in the Vocational Nurse Education Fund shall be used only for the purpose of promoting the education of vocational nurses and related administrative costs. The department shall adopt both of the following:

(a)A standard contractual agreement to be signed by the director and any student who has received an award to work in an eligible county health facility, an eligible state-operated health facility, or in a health workforce shortage area that would require a period of obligated professional service in the areas of California designated by the department as deficient in primary care services. The obligated professional service shall be in direct patient care. The agreement shall include a clause entitling the state to recover the funds awarded plus the maximum allowable interest for failure to begin or complete the service obligation.

(b)Maximum allowable amounts for scholarships, educational loans, and loan repayment programs in order to assure the most effective use of these funds.

(c)A person who qualifies for admission to a vocational nursing program that is accredited by the board of Vocational Nursing and Psychiatric Technicians may apply for funding under the Vocational Nurse Education Program by establishing a contractual agreement in accordance with subdivision (a).

(d)A person who holds a current valid license as a vocational nurse who wishes to seek an associate of science degree in nursing from an accredited college may apply for funding under the Vocational Nurse Education Program by establishing a contractual agreement in accordance with subdivision (a) unless the person is able to qualify under subdivision (a) of Section 128385 under the Registered Nurse Education Program.

(Amended by Stats. 2021, Ch. 143, Sec. 182. (AB 133) Effective July 27, 2021.)

128500.

There is hereby established in the State Treasury the Vocational Nurse Education Fund. All money in the fund shall be used for the purposes specified in the California Vocational Nurse Education Program established

pursuant to this article. This fund shall receive money collected pursuant to subdivision (d) of Section 2895 of the Business and Professions Code.

(Added by Stats. 2003, Ch. 640, Sec. 20. Effective January 1, 2004. Section operative July 1, 2004, pursuant to Section 128501.)

128501.

This article shall become operative on July 1, 2004.

(Added by Stats. 2003, Ch. 640, Sec. 20. Effective January 1, 2004. Note: This section prescribes a delayed operative date (July 1, 2004) for Article 4, commencing with Section 128475.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 5. Health Professions Education Programs [128330 - 128565]__

(Heading of Chapter 5 amended by Stats. 2021, Ch. 143, Sec. 159.)

__ARTICLE 5. California Physician Corps Program [128550 - 128558]__

(Article 5 added by Stats. 2005, Ch. 317, Sec. 5.)

128550.

(a)There is hereby established within the Department of Health Care Access and Information the California Physician Corps Program.

(b)Commencing July 1, 2006, both of the following programs shall be transferred from the Medical Board of California to the California Physician Corps Program within the department and operated pursuant to this article:

(1)The Steven M. Thompson Physician Corps Loan Repayment Program.

(2)The Physician Volunteer Program developed by the Medical Board of California.

(c)The department may enter into an interagency agreement with the Medical Board of California to implement the transfer of programs as provided under subdivision (b).

(Amended by Stats. 2021, Ch. 143, Sec. 184. (AB 133) Effective July 27, 2021.)

128551.

(a)It is the intent of this article that the department provide the ongoing program management of the two programs identified in subdivision (b) of Section 128550 as a part of the California Physician Corps Program.

(b) For purposes of subdivision (a), the department shall consult with the Medical Board of California and shall establish and consult with an advisory committee of not more than seven members, that shall include two members recommended by the California Medical Association and may include other members of the medical community, including ethnic representatives, medical schools, health advocates representing ethnic communities, primary care clinics, public hospitals, and health systems, statewide agencies administering state and federally funded programs targeting underserved communities, and members of the public with expertise in health care issues.

(Amended by Stats. 2021, Ch. 143, Sec. 185. (AB 133) Effective July 27, 2021.)

128552.

For purposes of this article, the following definitions shall apply:

(a)Account means the Medically Underserved Account for Physicians established within the Health Professions Education Fund pursuant to this article.

(b)Fund means the Health Professions Education Fund.

(c)Medi-Cal threshold languages means primary languages spoken by limited-English-proficient (LEP) population groups meeting a numeric threshold of 3,000, eligible LEP Medi-Cal beneficiaries residing in a county, 1,000 Medi-Cal eligible LEP beneficiaries residing in a single ZIP Code, or 1,500 LEP Medi-Cal beneficiaries residing in two contiguous ZIP Codes.

(d)Medically underserved area means an area defined as a health professional shortage area in Part 5 of Subchapter A of Chapter 1 of Title 42 of the Code of Federal Regulations or an area of the state where unmet priority needs for physicians exist as determined by the department.

(e)Medically underserved population means the Medi-Cal program and uninsured populations.

(f)Department means the Department of Health Care Access and Information.

(g)Physician Volunteer Program means the Physician Volunteer Registry Program established by the Medical Board of California.

(h)Practice setting, for the purposes of this article only, means either of the following:

(1)A community clinic as defined in subdivision (a) of Section 1204 and subdivision (c) of Section 1206, a clinic owned or operated by a public hospital and health system, or a clinic owned and operated by a hospital that maintains the primary contract with a county government to fulfill the countysrole pursuant to Section 17000 of the Welfare and Institutions Code, which is located in a medically underserved area and at least 50 percent of whose patients are from a medically underserved population.

(2)A physician owned and operated medical practice setting that provides primary care located in a medically underserved area and has a minimum of 50 percent of patients who are uninsured, Medi-Cal beneficiaries, or beneficiaries of another publicly funded program that serves patients who earn less than 250 percent of the federal poverty level.

(i)Primary specialty means family practice, internal medicine, pediatrics, or obstetrics/gynecology.

(j)Program means the Steven M. Thompson Physician Corps Loan Repayment Program.

(k)Selection committee means a minimum three-member committee of the board, that includes a member that was appointed by the Medical Board of California.

(Amended by Stats. 2021, Ch. 143, Sec. 186. (AB 133) Effective July 27, 2021.)

128553.

(a)Program applicants shall possess a current valid license to practice medicine in this state issued pursuant to Section 2050 of the Business and Professions Code or pursuant to the Osteopathic Act.

(b)The department shall develop guidelines using the criteria specified in subdivision (c) for selection and placement of applicants. The department shall interpret the guidelines to apply to both osteopathic and allopathic physicians and surgeons.

(c)The guidelines shall meet all of the following criteria:

(1)Provide priority consideration to applicants that are best suited to meet the cultural and linguistic needs and demands of patients from medically underserved populations and who meet one or more of the following criteria:

(A)Speak a Medi-Cal threshold language.

(B)Come from an economically disadvantaged background.

(C)Have received significant training in cultural and linguistically appropriate service delivery.

(D)Have three years of experience providing health care services to medically underserved populations or in a medically underserved area, as defined in subdivision (e) of Section 128552.

(E)Have recently obtained a license to practice medicine.

(2)Include a process for determining the needs for physician services identified by the practice setting and for ensuring that the practice setting meets the definition specified in subdivision (h) of Section 128552.

(3)Give preference to applicants who have completed a three-year residency in a primary specialty.

(4)Give preference to applicants who agree to practice in a medically underserved area, as defined in subdivision (e) of Section 128552, and who agree to serve a medically underserved population.

(5)Give priority consideration to applicants from rural communities who agree to practice in a physician owned and operated medical practice setting as defined in paragraph (2) of subdivision (i) of Section 128552.

(6)Include a factor ensuring geographic distribution of placements.

(7)Provide priority consideration to applicants who agree to practice in a geriatric care setting and are trained in geriatrics, and who can meet the cultural and linguistic needs and demands of a diverse population of older Californians. On and after January 1, 2009, up to 15 percent of the funds collected pursuant to Section 2436.5 of the Business and Professions Code shall be dedicated to loan assistance for physicians and surgeons who agree to practice in geriatric care settings or settings that primarily serve adults over the age of 65 years or adults with disabilities.

(d)(1)The department may appoint a selection committee that provides policy direction and guidance over the program and that complies with the requirements of subdivision (l) of Section 128552.

(2)The department may award up to 20 percent of the available positions to program applicants from specialties outside of the primary care specialties.

(e)Program participants shall meet all of the following requirements:

(1)Shall be working in or have a signed agreement with an eligible practice setting.

(2)Shall have full-time status at the practice setting. Full-time status shall be defined by the department and the department may establish exemptions from this requirement on a case-by-case basis.

(3)Shall commit to a minimum of three years of service in a medically underserved area. Leaves of absence shall be permitted for serious illness, pregnancy, or other natural causes. The department shall develop the process for determining the maximum permissible length of an absence and the process for reinstatement. Loan repayment shall be deferred until the physician is back to full-time status.

(f)The department shall adopt a process that applies if a physician is unable to complete their three-year obligation.

(g)The department, in consultation with those identified in subdivision (b) of Section 128551, shall develop a process for outreach to potentially eligible applicants.

(h)The department may adopt any other standards of eligibility, placement, and termination appropriate to achieve the aim of providing competent health care services in approved practice settings.

(Amended by Stats. 2021, Ch. 143, Sec. 187. (AB 133) Effective July 27, 2021.)

128555.

(a)The Medically Underserved Account for Physicians is hereby established within the Health Professions Education Fund. The primary purpose of this account is to provide funding for the ongoing operations of the Steven M. Thompson Physician Corps Loan Repayment Program provided for under this article. This account also may be used to provide funding for the Physician Volunteer Program provided for under this article.

(b)All moneys in the Medically Underserved Account contained within the Contingent Fund of the Medical Board of California shall be transferred to the Medically Underserved Account for Physicians on July 1, 2006.

(c)Funds in the account shall be used to repay loans as follows per agreements made with physicians:

(1)Funds paid out for loan repayment may have a funding match from foundations or other private sources.

(2)Loan repayments may not exceed one hundred five thousand dollars ($105,000) per individual licensed physician.

(3)Loan repayments may not exceed the amount of the educational loans incurred by the physician participant.

(d)Notwithstanding Section 11105 of the Government Code, effective January 1, 2006, the department may seek and receive matching funds from foundations and private sources to be placed in the account. Matching funds shall not be construed to be limited to a dollar-for-dollar match of funds.

(e)Funds placed in the account for purposes of this article, including funds received pursuant to subdivision (d), are, notwithstanding Section 13340 of the Government Code, continuously appropriated for the repayment of loans. This subdivision shall not apply to funds placed in the account pursuant to Section 1341.45 and Section 14197.2 of the Welfare and Institutions Code.

(f)The account shall also be used to pay for the cost of administering the program and for any other purpose authorized by this article. The costs for administration of the program may be up to 5 percent of the total state appropriation for the program and shall be subject to review and approval annually through the state budget process. This limitation shall only apply to the state appropriation for the program.

(g)The department shall manage the account established by this section prudently in accordance with the other provisions of law.

(Amended by Stats. 2021, Ch. 143, Sec. 189. (AB 133) Effective July 27, 2021.)

128556.

The terms of loan repayment granted under this article shall be established by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 190. (AB 133) Effective July 27, 2021.)

128558.

This article shall become operative on July 1, 2006.

(Added by Stats. 2005, Ch. 317, Sec. 5. Effective January 1, 2006. Note: This section prescribes a delayed operative date (July 1, 2006) for Article 5, commencing with Section 128550.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 3. HEALTH PROFESSIONS DEVELOPMENT [127825 - 128565]__

(Part 3 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 5. Health Professions Education Programs [128330 - 128565]__

(Heading of Chapter 5 amended by Stats. 2021, Ch. 143, Sec. 159.)

__ARTICLE 6. California Reproductive Health Service Corps [128560 - 128565]__

(Article 6 added by Stats. 2022, Ch. 561, Sec. 2.)

128560.

For purposes of this article:

(a)Corps means the California Reproductive Health Service Corps established pursuant to Section 128561.

(b)Reproductive health means health services relating to abortion care, sexual health counseling, contraception, sexually transmitted infections, reproductive tract infections, HIV, gynecology, perinatal care, midwifery care, gender affirming care, and gender-based violence prevention.

(c)Reproductive health care professionals means medical doctors, licensed midwives, certified nurse-midwives, nurse practitioners, registered nurses, physiciansassistants, doulas, licensed vocational nurses, community health workers, medical assistants, and pharmacists.

(d)Scholar means a person in the corps who is a student who has been accepted in a school or a program on a part-time or full-time basis that graduates reproductive health care professionals or who is an existing reproductive health professional who desires more training and professional development in abortion care to provide this service.

(Amended by Stats. 2023, Ch. 42, Sec. 54. (AB 118) Effective July 10, 2023.)

128561.

For the purposes of recruiting, training, and retaining a diverse workforce of reproductive health care professionals who will be part of reproductive health care teams to work in underserved areas, the California Reproductive Health Service Corps is hereby established in the department under the supervision of the director. The director shall ensure that adequate staff are provided to effectively administer the corps.

(Added by Stats. 2022, Ch. 561, Sec. 2. (AB 1918) Effective January 1, 2023.)

128562.

The corps shall do all of the following:

(a)(1)Administer and oversee scholarships and stipends for new reproductive health students, loan repayment for graduates who have acquired debt from attending a reproductive health professional school in the past, and other types of direct financial support for scholars, in exchange for a three-year term of obligated service in California at a corps-approved site.

(2)Pay a learning institution, teaching facility, or approved clinical training site directly on behalf of scholar, including for tuition, fees, facility costs, teaching costs, and preceptor time.

(3)Provide an annual payment for education-related costs and a monthly stipend to cover living expenses directly to a scholar. The corps shall consider family size and numbers of dependents when determining stipend amounts.

(4)Offer existing reproductive health professionals an option for loan forgiveness for each year of service.

(5)Offer scholars stipends or reimbursement for childcare, eldercare, housing, health care coverage with coverage for mental health services, and transportation to eliminate known obstacles of educational completion for scholars.

(6)Notwithstanding paragraphs (2) to (5), inclusive, scholarships, stipends, and obligated service shall be independently assessed for doula education due to the diverse pathways for education.

(b)(1)Identify and create opportunities for scholars to receive supplemental trainings in comprehensive sexual and reproductive health care, including miscarriage management, aspiration abortion, and medication abortion, through partnerships with and financial support for California-based external partners providing and enabling clinical abortion training.

(2)Identify and create a postgraduate practice integration and retention program by funding organizations providing technical assistance and support to scholars, placement sites, or both to support incorporation of abortion services at service site or into a scholarspractice.

(3)The Legislature finds that external contracts are critically important to the success of the corps to supplement the lack of training in abortion currently available at medical, nursing, or health care professional schools and to support service integration and retention posttraining. Supplemental programs are needed for scholars to be adequately trained before graduation.

(Added by Stats. 2022, Ch. 561, Sec. 2. (AB 1918) Effective January 1, 2023.)

128563.

(a)The corps shall prioritize the selection of scholars from historically excluded populations and underserved areas, who reflect the patient populations they serve, to ensure greater inclusion and improved diverse representation in the reproductive health services workforce.

(b)Scholars from historically excluded populations shall meet one of the following criteria:

(1)Were or currently are homeless.

(2)Were or currently are in the foster care system.

(3)Were eligible for the National School Lunch Program for two or more years as a child.

(4)Do not have or have not had parents or legal guardians who completed a bachelorsdegree.

(5)Were or currently are eligible for federal Pell Grants.

(6)Received support from the California Special Supplemental Nutrition Program for Women, Infants, and Children as a parent or child.

(7)Reside or grew up in one of the following areas:

(A)A rural area, as designated by the Rural Health Grants Eligibility Analyzer of the Health Resources and Services Administration (HRSA) of the United States Department of Health and Human Services.

(B)A health professional shortage area, as designated by the HRSA.

(8)Is an individual with a disability, meaning a person with a physical or mental impairment that substantially limits one or more major life activities, as described in the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.), as amended.

(Added by Stats. 2022, Ch. 561, Sec. 2. (AB 1918) Effective January 1, 2023.)

128564.

(a)A scholar shall do all of the following:

(1)Agree to complete abortion training as part of their health care education and to provide, or participate on a team that provides, reproductive health services with the inclusion of medical abortion or procedural abortion and miscarriage management.

(2)Commit to working for three years at a corps-approved site in one of the following areas or with one of the following populations:

(A)A health professional shortage area, as designated by the HRSA.

(B)A medically underserved area or with a medically underserved population, as mapped by the HRSA.

(C)A Maternity Care Health Professional Target Area, as designated by HRSA, or a maternity care desert, as designated by the March of Dimes.

(D)A rural area, as designated by the federal Centers for Medicare and Medicaid Services.

(E)A California county identified to have no abortion services.

(F)An area where the majority of patients are covered under the Medi-Cal program.

(3)Agree, in writing, that if the scholar fails to complete the period of obligated service at a corps-approved site, they will be in breach of contract.

(b)Notwithstanding paragraph (2) of subdivision (a), a scholar or a site may petition the corps for approval of a site based on the reproductive health needs of specific communities or populations or the areasspecific linguistic needs.

(c)With the authorization of the corps, a scholar may transfer to a new site to complete their obligated service. The corps shall define the criteria for transfer eligibility. Under certain defined conditions, the corps shall assist the scholar to find a new approved site.

(d)When a scholar is employed at a corps-approved site, the scholar shall be subject to the personnel system of that entity.

(Added by Stats. 2022, Ch. 561, Sec. 2. (AB 1918) Effective January 1, 2023.)

128565.

(a)The department shall conduct an evaluation five years after implementation to assess the impact and effectiveness of the corps. The evaluation shall include all of the following:

(1)The number of health care providers from underrepresented racial, ethnic, socioeconomic, and geographic backgrounds that have completed the corps program.

(2)The number of scholars and corps graduates who are practicing in underserved areas.

(3)The geographic areas served by scholars and corps graduates and geographic placement gaps that persist.

(4)The provider types utilizing the corps.

(5)The number of scholars and corps graduates who have integrated abortion care into their practices.

(6)The number of applicants to the corps.

(7)The number of awardees who do not meet their service requirement, by provider type.

(b)The department shall report its findings to the Legislature on or before January 1, 2029. The report shall be submitted in compliance with Section 9795 of the Government Code.

(c)This section shall remain in effect only until January 1, 2031, and as of that date is repealed.

(Added by Stats. 2022, Ch. 561, Sec. 2. (AB 1918) Effective January 1, 2023. Repealed as of January 1, 2031, by its own provisions.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 5. HEALTH DATA [128675 - 128920]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facility Data [128675 - 128810]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

128675.

This chapter shall be known as the Health Data and Advisory Council Consolidation Act.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128680.

The Legislature hereby finds and declares that:

(a)Significant changes have taken place in recent years in the health care marketplace and in the manner of reimbursement to health facilities by government and private third-party payers for the services they provide.

(b)These changes have permitted the state to reevaluate the need for, and the manner of data collection from health facilities by the various state agencies and commissions.

(c)It is the intent of the Legislature that as a result of this reevaluation that the data collection function be consolidated in a single state agency. It is the further intent of the Legislature that the single state agency only collect that data from health facilities that are essential. The data should be collected, to the extent practical on consolidated, multipurpose report forms for use by all state agencies.

(d)It is the further intent of the Legislature to eliminate the California Health Facilities Commission, the State Advisory Health Council, and the California Health Policy and Data Advisory Commission, and to consolidate

data collection and planning functions within the office.

(e)It is the Legislaturesfurther intent that the review of the data that the state collects be an ongoing function. The office shall annually review this data for need and shall revise, add, or delete items as necessary. The office shall consult with affected state agencies and the affected industry when adding or eliminating data items. However, the office shall neither add nor delete data items to the Hospital Discharge Abstract Data Record or the quarterly reports without prior authorizing legislation, unless specifically required by federal law or judicial decision.

(f)The Legislature recognizes that the authority for the California Health Facilities Commission is scheduled to expire January 1, 1986. It is the intent of the Legislature, by the enactment of this chapter, to continue the uniform system of accounting and reporting established by the commission and required for use by health facilities. It is also the intent of the Legislature to continue an appropriate, cost-disclosure program.

(Amended by Stats. 2011, Ch. 32, Sec. 20. (AB 106) Effective June 29, 2011. Operative January 1, 2012, by Sec. 73 of Stats. 2011, Ch. 32.)

128685.

Intermediate care facilities/developmentally disabled-habilitative, as defined in subdivision (e) of Section 1250, are not subject to this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128690.

Intermediate care facilities/developmentally disabled”nursing, as defined in subdivision (h) of Section 1250, and intermediate care facilities/developmentally disabled-continuous nursing, as defined in subdivision (m) of Section 1250, are not subject to this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 195. (AB 133) Effective July 27, 2021.)

128700.

As used in this chapter, the following terms mean:

(a)Ambulatory surgery procedures mean those procedures performed on an outpatient basis in the general operating rooms, ambulatory surgery rooms, endoscopy units, or cardiac catheterization laboratories of a hospital or a freestanding ambulatory surgery clinic.

(b)Emergency department means, in a hospital licensed to provide emergency medical services, the location in which those services are provided.

(c)Encounter means a face-to-face contact between a patient and the provider who has primary responsibility for assessing and treating the condition of the patient at a given contact and exercises

independent judgment in the care of the patient.

(d)Freestanding ambulatory surgery clinic means a surgical clinic that is licensed by the state under paragraph (1) of subdivision (b) of Section 1204.

(e)Health facility or health facilities means all health facilities required to be licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2.

(f)Hospital means all health facilities except skilled nursing, intermediate care, congregate living, and hospice health facilities.

(g)Department means the Department of Health Care Access and Information.

(h)Risk-adjusted outcomes means the clinical outcomes of patients grouped by diagnoses or procedures that have been adjusted for demographic and clinical factors.

(Amended by Stats. 2021, Ch. 143, Sec. 196. (AB 133) Effective July 27, 2021.)

128705.

On and after January 1, 1986, any reference in this code to the Advisory Health Council or the California Health Policy and Data Advisory Commission shall be deemed a reference to the department.

(Amended by Stats. 2021, Ch. 143, Sec. 197. (AB 133) Effective July 27, 2021.)

128730.

(a)Effective January 1, 1986, the department shall be the single state agency designated to collect the following health facility or clinic data for use by all state agencies:

(1)Data required by the department pursuant to Section 127285.

(2)Data required in the Medi-Cal cost reports pursuant to Section 14170 of the Welfare and Institutions Code.

(3)Data items formerly required by the California Health Facilities Commission that are listed in Sections 128735 and 128740. Information collected pursuant to subdivision (g) of Section 128735 and Sections 128736 and 128737 shall be made available to the State Department of Health Care Services, the State Department of Public Health, and the California Health Benefit Exchange. The departments and the Exchange shall ensure that the patientsrights to confidentiality shall not be violated in any manner. The departments and the Exchange shall comply with all applicable policies and requirements involving review and oversight by the State Committee for the Protection of Human Subjects.

(b)The department shall consolidate any and all of the reports listed under this section or Sections 128735 and 128740, to the extent feasible, to minimize the reporting burdens on hospitals, provided, however, that the department shall neither add nor delete data items from the Hospital Discharge Abstract Data Record or the quarterly reports without prior authorizing legislation, unless specifically required by federal law or

regulation or judicial decision.

(c)The Exchange shall report to the Governor and the Legislature on or before August 1, 2023, on the impacts to the Exchange associated with paragraph (3) of subdivision (a), including the impacts on premium rates for health plans offered through the Exchange. The report shall be submitted in compliance with Section 9795 of the Government Code.

(Amended by Stats. 2021, Ch. 143, Sec. 198. (AB 133) Effective July 27, 2021.)

128734.

(a)Each organization that operates, conducts, owns, or maintains a skilled nursing facility licensed pursuant to subdivision (c) of Section 1250 shall file with the department as part of the information required in subdivisions (a) to (e), inclusive, of Section 128735, whether the licensee, or a general partner, director, or officer of the licensee, has an ownership or control interest of 5 percent or more in a related party that provides any service to the skilled nursing facility. If the licensee, or the general partner, director, or officer of the licensee has such an interest, the licensee shall disclose all services provided to the skilled nursing facility, the number of individuals who provide that service at the skilled nursing facility, and any other information requested by the department. If goods, fees, and services collectively worth ten thousand dollars ($10,000) or more per year are delivered to the skilled nursing facility, the disclosure required pursuant to this subdivision shall include the related partysprofit and loss statement, and the Payroll-Based Journal public use data of the previous quarter for the skilled nursing facilitysdirect caregivers.

(b)For purposes of this section, all of the following definitions shall apply:

(1)Direct caregiver shall have the same meaning as that term is defined in Section 1276.65.

(2)Profit and loss statement means the most recent annual statement on profits and losses finalized by a related party for the most recent year available.

(3)Related party means an organization related to the licensee provider or that is under common ownership or control, as defined in Section 413.17(b) of Title 42 of the Code of Federal Regulations.

(c)Current licensees shall provide the information required by this section to the department in a manner prescribed by the department.

(d)The provisions of this section shall become effective on January 1, 2020.

(Amended by Stats. 2021, Ch. 143, Sec. 199. (AB 133) Effective July 27, 2021.)

128734.1.

(a)(1)Commencing with fiscal years ending December 31, 2023, an organization that operates, conducts, owns, manages, or maintains a skilled nursing facility or facilities licensed pursuant to subdivision (c) of Section 1250 shall prepare and file with the office, at the times as the office shall require, an annual consolidated financial report.

(2)The annual consolidated financial report required to be prepared pursuant to paragraph (1) shall be reviewed by a certified public accountant in accordance with generally accepted accounting principles and with the Financial Accounting Standards Boardsfinancial reporting requirements, with financial statements prepared using the accrual basis. If the organization has prepared an audit by a certified public accountant of its annual consolidated financial report for any reason, that audit shall be filed with the office, and, in that instance, no review of the consolidated financial report shall be necessary. The reviewed or audited report, as applicable, shall, in addition to the requirements set forth in Section 128735, include, but not be limited to, the following statements:

(A)A balance sheet detailing the assets, liabilities, and net worth at the end of its fiscal year.

(B)A statement of income, expenses, and operating surplus or deficit for the annual fiscal period, and a statement of ancillary utilization and patient census.

(C)A statement detailing patient revenue by payer, including, but not limited to, Medicare, Medi-Cal, and other payers, and revenue center.

(D)A statement of cashflows, including, but not limited to, ongoing and new capital expenditures and depreciation.

(E)A combined financial statement that includes all entities reported in the consolidated financial report, unless the organization is prohibited from including a combined financial statement in a consolidated financial report pursuant to a state or federal law or regulation or a national accounting standard. When applicable, the organization must disclose to the office the applicable state or federal law or regulation or national accounting standard.

(3)In addition to the consolidated financial report, the following information shall be provided to the office as an attachment to the consolidated financial report:

(A)The financial information required by paragraph (2) of subdivision (a) from all operating entities, licenseholders, and related parties in which the organization has an ownership or control interest of 5 percent or more and that provides any service, facility, or supply to the skilled nursing facility.

(B)A detailed document outlining a visual representation of the organizationsstructure that includes both of the following:

(i)All related parties in which the organization has an ownership or control interest of 5 percent or more and that provides any service, facility, or supply to the skilled nursing facility.

(ii)Unrelated parties that provide services, facilities, or supplies to the skilled nursing facility or facilities that are operated, conducted, owned, managed, or maintained by the organization, including, but not limited to, management companies and property companies, and that are paid more than two hundred thousand dollars ($200,000) by the skilled nursing facility.

(b)The office shall post reports and related documents submitted pursuant to this section to its internet website.

(c)Any report, document, statement, writing or any other type of record received, owned, used, or retained by the office in connection with this section is a public record within the meaning of Section 7922.505 of the Government Code and is subject to disclosure pursuant to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(d)The office shall develop policies and procedures to outline the format of information to be submitted pursuant to this section. The office shall determine if the information submitted pursuant to subdivision (a) is complete, but shall not be required to determine its accuracy.

(e)For the purposes of this section, related party has the same meaning as in Section 128734, and may include, but is not limited to, home offices; management organizations; owners of real estate; entities that provide staffing, therapy, pharmaceutical, marketing, administrative management, consulting, and insurance services; providers of supplies and equipment; financial advisors and consultants; banking and financial entities; any and all parent companies, holding companies, and sister organizations; and any entity in which an immediate family member of an owner of those organizations has an ownership interest of 5 percent or more. Immediate family member includes spouse, natural parent, child, sibling, adopted child, adoptive parent, stepparent, stepchild, stepsister, stepbrother, father-in-law, mother-in-law, sister-in-law, brother-in-law, son-in-law, daughter-in-law, grandparent, and grandchild.

(f)This section shall not apply to a facility operated by a health care district organized and governed pursuant to the Local Healthcare District Law (Division 23 (commencing with Section 32000)).

(g)This section shall not apply to an organization that has no related parties as defined in subdivision (e), except that the organization is required to submit a detailed document outlining a visual representation of the organizationsstructure as set forth in subparagraph (B) of paragraph (3) of subdivision (a). This section shall not be construed to require a government entity licenseholder, that is not a related party, to file a consolidated financial report for a nursing home management company that operates under its license.

(h)Consistent with the reports and requirements required for subdivisions (a) to (e), inclusive, of Section 128735 and Section 128740, all information submitted pursuant to this section shall be accompanied by a report certification signed by a duly authorized official of the health facility or of the health facilityshome office that certifies that, to the best of the officialsknowledge and information, each statement and amount in the accompanying report is believed to be true and correct.

(Amended by Stats. 2022, Ch. 28, Sec. 108. (SB 1380) Effective January 1, 2023.)

128735.

An organization that operates, conducts, owns, or maintains a health facility, and the officers thereof, shall make and file with the department, at the times as the department shall require, all of the following reports on forms specified by the department that are in accord, if applicable, with the systems of accounting and uniform reporting required by this part, except that the reports required pursuant to subdivision (g) shall be limited to hospitals:

(a)A balance sheet detailing the assets, liabilities, and net worth of the health facility at the end of its fiscal year.

(b)A statement of income, expenses, and operating surplus or deficit for the annual fiscal period, and a statement of ancillary utilization and patient census.

(c)A statement detailing patient revenue by payer, including, but not limited to, Medicare, Medi-Cal, and other payers, and revenue center.

(d)A statement of cashflows, including, but not limited to, ongoing and new capital expenditures and depreciation.

(e)(1)A statement reporting the information required in subdivisions (a), (b), (c), and (d) for each separately licensed health facility operated, conducted, or maintained by the reporting organization.

(2)Notwithstanding paragraph (1), a health facility that receives a preponderance of its revenue from associated comprehensive group practice prepayment health care service plans and that is operated as a unit of a coordinated group of health facilities under common management may report the information required pursuant to subdivisions (a) and (d) for the group and not for each separately licensed health facility.

(f)Data reporting requirements established by the department shall be consistent with national standards, as applicable.

(g)A Hospital Discharge Abstract Data Record that includes all of the following:

(1)Date of birth.

(2)Sex.

(3)Race.

(4)ZIP Code.

(5)Preferred language spoken.

(6)Patient social security number, if it is contained in the patientsmedical record.

(7)Prehospital care and resuscitation, if any, including all of the following:

(A)Do not resuscitate (DNR) order on admission.

(B)Do not resuscitate (DNR) order after admission.

(8)Admission date.

(9)Source of admission.

(10)Type of admission.

(11)Discharge date.

(12)Principal diagnosis and whether the condition was present on admission.

(13)Other diagnoses and whether the conditions were present on admission.

(14)External causes of morbidity and whether present on admission.

(15)Principal procedure and date.

(16)Other procedures and dates.

(17)Total charges.

(18)Disposition of patient.

(19)Expected source of payment.

(20)Elements added pursuant to Section 128738.

(h)It is the intent of the Legislature that the patientsrights of confidentiality shall not be violated in any manner. Patient social security numbers and other data elements that the department believes could be used to determine the identity of an individual patient shall be exempt from the disclosure requirements of the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(i)A person reporting data pursuant to this section shall not be liable for damages in an action based on the use or misuse of patient-identifiable data that has been mailed or otherwise transmitted to the department pursuant to the requirements of subdivision (g).

(j)A hospital shall use coding from the International Classification of Diseases in reporting diagnoses and procedures.

(k)On or before July 1, 2021, the department shall promulgate regulations as necessary to implement subdivision (e). A health facility that receives a preponderance of its revenue from associated comprehensive group practice prepayment health care service plans and that is operated as a unit of a coordinated group of health facilities under common management shall comply with the reporting requirements of subdivisions (b), (c), and (e) once the department finalizes related regulations.

(Amended by Stats. 2022, Ch. 28, Sec. 109. (SB 1380) Effective January 1, 2023.)

128736.

(a) Each hospital shall file an Emergency Care Data Record for each patient encounter in a hospital emergency department. The Emergency Care Data Record shall include all of the following:

(1) Date of birth.

(2) Sex.

(3) Race.

(4) Ethnicity.

(5) Preferred language spoken.

(6) ZIP Code.

(7) Patient social security number, if it is contained in the patientsmedical record.

(8) Service date.

(9) Principal diagnosis.

(10) Other diagnoses.

(11) External causes of morbidity.

(12)Principal procedure.

(13)Other procedures.

(14)Disposition of patient.

(15)Expected source of payment.

(16)Elements added pursuant to Section 128738.

(b) It is the expressed intent of the Legislature that the patientsrights of confidentiality shall not be violated in any manner. Patient social security numbers and any other data elements that the department believes could be used to determine the identity of an individual patient shall be exempt from the disclosure requirements of the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(c) No person reporting data pursuant to this section shall be liable for damages in any action based on the use or misuse of patient-identifiable data that has been mailed or otherwise transmitted to the department pursuant to the requirements of subdivision (a).

(d) Data reporting requirements established by the department shall be consistent with national standards as applicable.

(e) This section shall become operative on January 1, 2004.

(Amended by Stats. 2023, Ch. 131, Sec. 132. (AB 1754) Effective January 1, 2024.)

128737.

(a)Each general acute care hospital and freestanding ambulatory surgery clinic shall file an Ambulatory Surgery Data Record for each patient encounter during which at least one ambulatory surgery procedure is performed. The Ambulatory Surgery Data Record shall include all of the following:

(1)Date of birth.

(2)Sex.

(3)Race.

(4)Ethnicity.

(5)Preferred language spoken.

(6)ZIP Code.

(7)Patient social security number, if it is contained in the patientsmedical record.

(8)Service date.

(9)Principal diagnosis.

(10)Other diagnoses.

(11)Principal procedure.

(12)Other procedures.

(13)External causes of morbidity.

(14)Disposition of patient.

(15)Expected source of payment.

(16)Elements added pursuant to Section 128738.

(b)It is the expressed intent of the Legislature that the patientsrights of confidentiality shall not be violated in any manner. Patient social security numbers and any other data elements that the department believes could be used to determine the identity of an individual patient shall be exempt from the disclosure requirements of the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(c)No person reporting data pursuant to this section shall be liable for damages in any action based on the use or misuse of patient-identifiable data that has been mailed or otherwise transmitted to the office pursuant to the requirements of subdivision (a).

(d)Data reporting requirements established by the department shall be consistent with national standards as applicable.

(e)This section shall become operative on January 1, 2004.

(Amended by Stats. 2022, Ch. 28, Sec. 111. (SB 1380) Effective January 1, 2023.)

128738.

(a)The department shall allow and provide for, in accordance with appropriate regulations, additions or deletions to the patient level data elements listed in subdivision (g) of Section 128735, Section 128736, and Section 128737, to meet the purposes of this chapter.

(b)Prior to any additions or deletions, all of the following shall be considered:

(1)Utilization of sampling to the maximum extent possible.

(2)Feasibility of collecting data elements.

(3)Costs and benefits of collection and submission of data.

(4)Exchange of data elements as opposed to addition of data elements.

(c)The department shall add no more than a net of 15 elements to each data set over any five-year period. Elements contained in the uniform claims transaction set or uniform billing form required by the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. Sec. 300gg) shall be exempt from the 15-element limit.

(d)The department, in order to minimize costs and administrative burdens, shall consider the total number of data elements required from hospitals and freestanding ambulatory surgery clinics, and optimize the use of common data elements.

(Amended by Stats. 2021, Ch. 143, Sec. 203. (AB 133) Effective July 27, 2021.)

128740.

(a)The following summary financial and utilization data shall be reported to the department by a hospital within 45 days of the end of a calendar quarter. Adjusted reports reflecting changes as a result of audited financial statements may be filed within four months of the close of the hospitalsfiscal or calendar year. The quarterly summary financial and utilization data shall conform to the uniform description of accounts as contained in the Accounting and Reporting Manual for California Hospitals and shall include all of the following:

(1)Number of licensed beds.

(2)Average number of available beds.

(3)Average number of staffed beds.

(4)Number of discharges.

(5)Number of inpatient days.

(6)Number of outpatient visits.

(7)Total operating expenses.

(8)Total inpatient gross revenues by payer, including, but not limited to, Medicare, Medi-Cal, county indigent programs, commercial coverage, other third parties, and other payers.

(9)Total outpatient gross revenues by payer, including, but not limited to, Medicare, Medi-Cal, county indigent programs, commercial coverage, other third parties, and other payers.

(10)Deductions from revenue in total and by component, including the following: Medicare contractual

adjustments, Medi-Cal contractual adjustments, and county indigent program contractual adjustments, other contractual adjustments, bad debts, charity care, restricted donations and subsidies for indigents, support for clinical teaching, teaching allowances, and other deductions.

(11)Total capital expenditures.

(12)Total net fixed assets.

(13)Total number of inpatient days, outpatient visits, and discharges by payer, including, but not limited to, Medicare, Medi-Cal, county indigent programs, commercial coverage, other third parties, self-pay, and other payers.

(14)Total net patient revenues by payer, including Medicare, Medi-Cal, county indigent programs, commercial coverage, other third parties, and other payers.

(15)Other operating revenue.

(16)Nonoperating revenue net of nonoperating expenses.

(17)(A) A balance sheet detailing the assets, liabilities, and net worth at the end of the quarter, as specified by the department.

(B)The department shall allow and provide for, in accordance with appropriate regulations, additions, or deletions to the summary financial and utilization data to meet the purposes of this chapter.

(b)The department may adopt regulations, including emergency regulations, necessary to implement this section.

(Amended by Stats. 2023, Ch. 6, Sec. 2. (AB 112) Effective May 15, 2023.)

128745.

(a)Commencing July 1993, and annually thereafter, the department shall publish risk-adjusted outcome reports in accordance with the following schedule:

Publication Date	Period Covered	Procedures and Conditions Covered
July 1993	1988“90	3
July 1994	1989“91	6
July 1995	1990“92	9

Reports for subsequent years shall include conditions and procedures and cover periods as appropriate.

(b)The procedures and conditions for risk-adjusted outcome reports pursuant to subdivision (a) shall be divided among medical, surgical, and obstetric conditions or procedures and shall be selected by the department. The department shall publish the risk-adjusted outcome reports for selected conditions and

procedures by individual hospital, individual medical group, or individual physician as selected by the department in consultation with medical specialists in the relevant area of practice. The selections, under this subdivision, shall be in accordance with all of the following criteria:

(1)The patient discharge abstract contains sufficient data to undertake a valid risk adjustment. The risk adjustment report shall ensure that public hospitals and other hospitals serving primarily low-income patients are not unfairly discriminated against.

(2)The relative importance of the procedure and condition in terms of the cost of cases and the number of cases and the seriousness of the health consequences of the procedure or condition.

(3)Ability to measure outcome and the likelihood that care influences outcome.

(4)Reliability of the diagnostic and procedure data.

(c)(1)In addition to any other established and pending reports, on or before July 1, 2002, the department shall publish a risk-adjusted outcome report for coronary artery bypass graft surgery by hospital for all hospitals opting to participate in the report. This report shall be updated on or before July 1, 2003.

(2)The department shall publish at least one risk-adjusted outcome report for coronary artery bypass graft surgery, transcatheter aortic valve replacement, or any type of interventional cardiovascular procedure for procedures performed in the state. For any type of interventional cardiovascular procedure other than coronary artery bypass graft surgery or transcatheter aortic valve replacement, the department shall only select from interventional cardiovascular procedures recommended by the clinical panel established by Section 128748, not to exceed one additional interventional cardiovascular procedure every three years. In each year, the reports shall compare risk-adjusted outcomes by hospital, medical group, or physician as selected by the department after consultation with the clinical panel. Upon the recommendation of the clinical panel based on statistical and technical considerations, information on individual hospitals, individual medical groups, or individual physicians may be excluded from the reports.

(3)Each hospital shall produce and file with the department, at the times as the department shall require, reports of data the department needs to prepare risk-adjusted outcome reports under this subdivision. Unless otherwise recommended by the clinical panel established by Section 128748, the department shall continue to collect the same data used for the most recent risk-adjusted model developed for the California Coronary Artery Bypass Graft Outcomes Reporting Program. Upon recommendation of the clinical panel, the department may add any clinical data elements included in the Society of Thoracic Surgeons™ database or other relevant databases to be collected from hospitals. Prior to any additions from the Society of Thoracic Surgeons™ database, or other relevant databases, the following factors shall be considered:

(A)Utilization of sampling to the maximum extent possible.

(B)Exchange of data elements as opposed to addition of data elements.

(4)Upon recommendation of the clinical panel, the department may add, delete, or revise clinical data elements to be collected from hospitals for outcome reports under this subdivision. Prior to any additions or deletions, all of the following factors shall be considered:

(A)Utilization of sampling to the maximum extent possible.

(B)Feasibility of collecting data elements.

(C)Costs and benefits of collection and submission of data.

(D)Exchange of data elements as opposed to addition of data elements.

(5)The department shall collect the minimum data necessary for purposes of testing or validating a risk-adjusted model for the outcome reports under this subdivision.

(6)Patient medical record numbers and any other data elements that the department believes could be used to determine the identity of an individual patient shall be exempt from the disclosure requirements of the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(d)The annual reports shall compare the risk-adjusted outcomes experienced by all patients treated for the selected conditions and procedures in each California hospital during the period covered by each report, to the outcomes expected. Outcomes shall be reported in at least the following groupings for each hospital, medical group, or physician:

(1)Higher than average outcomes,□ for hospitals with risk-adjusted outcomes higher than the norm.

(2)Average outcomes,□ for hospitals with average risk-adjusted outcomes.

(3)Lower than average outcomes,□ for hospitals with risk-adjusted outcomes lower than the norm.

(e)For outcome reports under this subdivision for which auditing is appropriate, the department shall conduct periodic auditing of data at hospitals.

(f)The department shall either include in the annual reports required under this section, or make separately available at cost to any person requesting it, risk-adjusted outcomes data assessing the statistical significance of hospital, medical group, or physician data at each of the following three levels: 99-percent confidence level (0.01 p-value), 95-percent confidence level (0.05 p-value), and 90-percent confidence level (0.10 p-value). The department shall include any other analysis or comparisons of the data in the annual reports required under this section that the department deems appropriate to further the purposes of this chapter.

(Amended by Stats. 2022, Ch. 28, Sec. 112. (SB 1380) Effective January 1, 2023.)

128747.

Commencing July 1, 2002, and biennially thereafter, the department shall evaluate the impact of the departmentspublished risk-adjusted outcome reports required by Section 128745 on mortality rates in California and on any other measure of quality the department deems appropriate. The department shall also coordinate with other state agencies in promoting prevention and educational initiatives on those reported procedures and conditions.

(Amended by Stats. 2021, Ch. 143, Sec. 206. (AB 133) Effective July 27, 2021.)

128748.

(a) This section shall apply to any risk-adjusted outcome report under Section 128745.

(b)This subdivision applies to risk-adjusted outcome reports under subdivision (c) of Section 128745.

(1)The department shall obtain data necessary to complete a risk-adjusted outcome report from hospitals. If necessary data for an outcome report is available only from the department of a physician and not the hospital where the patient received treatment, then the hospital shall make a reasonable effort to obtain the data from the physiciansoffice and provide the data to the department. In the event that the department finds any errors, omissions, discrepancies, or other problems with submitted data, the department shall contact either the hospital or physiciansoffice that maintains the data to resolve the problems.

(2)The department shall collect the minimum data necessary for purposes of testing or validating a risk-adjusted model. Except for data collected for purposes of testing or validating a risk-adjusted model, the department shall not collect data for an outcome report nor issue an outcome report until the clinical panel established pursuant to this section has approved the risk-adjusted model.

(c) For each risk-adjusted outcome report on a medical, surgical, or obstetric condition or procedure that includes reporting of data by an individual physician or an individual medical group authorized by subdivision (b) of Section 128745, the department director shall appoint a clinical panel, which shall have nine members. Three members shall be appointed from a list of three or more names submitted by the physician specialty society that most represents physicians performing the medical, surgical, and obstetric procedure for which data is collected. Three members shall be appointed from a list of three or more names submitted by the California Medical Association. Three members shall be appointed from lists of names submitted by consumer organizations. At least one-half of the appointees from the lists submitted by the physician specialty society and the California Medical Association, and at least one appointee from the lists submitted by consumer organizations, shall be experts in collecting and reporting outcome measurements for physicians, medical groups, or hospitals. The panel may include physicians from another state. The panel shall review and approve the development of the risk-adjustment model to be used in preparation of the outcome report.

(d) For risk-adjusted outcome reports authorized by subdivision (c) of Section 128745 the following shall apply:

(1)The California Coronary Artery Bypass Graft Outcomes Reporting Program Clinical Advisory Panel shall become the clinical panel for those outcome reports and this panel shall be renamed by the department.

(2)This clinical panel shall be comprised of at least 9 and no more than 13 members. The department director shall have the authority to appoint the members of the clinical panel. Three members shall be appointed from a list of three or more names submitted by the California Chapter of the American College of Cardiology. Three members shall be appointed from a list of three or more names submitted by the California Medical Association. Three members shall be appointed from lists of names submitted by consumer organizations. Any additional members shall be appointed at the discretion of the department director. If, at the time the department decides to report on a procedure, the panel does not have members with expertise in that procedure, the department shall seek to appoint two new members with expertise in that procedure from a list submitted by the California Chapter of the American College of Cardiology. At least one-half of the appointees from the lists submitted by the California Chapter of the American College of Cardiology, and the California Medical Association, and at least one appointee from the lists submitted by consumer organizations, shall be experts in collecting and reporting outcome measurements. The panel may include physicians from another state.

(3)The panel shall review and approve the development of the risk-adjustment model to be used in preparation of the outcome report.

(e) Any report that includes reporting by an individual physician shall include, at a minimum, the risk-adjusted outcome data for each physician. The department may also include in the report, after consultation with the clinical panel, any explanatory material, comparisons, groupings, and other information to facilitate consumer comprehension of the data.

(f) Members of a clinical panel shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with their duties as members of the clinical panel.

(Amended by Stats. 2021, Ch. 143, Sec. 207. (AB 133) Effective July 27, 2021.)

128750.

(a)Prior to the public release of the annual outcome reports, the department shall furnish a preliminary report to each hospital that is included in the report. The department shall allow the hospital and chief of staff 60 days to review the outcome scores and compare the scores to other California hospitals. A hospital or its chief of staff that believes that the risk-adjusted outcomes do not accurately reflect the quality of care provided by the hospital may submit a statement to the department, within the 60 days, explaining why the outcomes do not accurately reflect the quality of care provided by the hospital. The statement shall be included in an appendix to the public report, and a notation that the hospital or its chief of staff has submitted a statement shall be displayed wherever the report presents outcome scores for the hospital.

(b)(1)Prior to the public release of any outcome report that includes data by a physician or medical group, the department shall furnish a preliminary report to each physician or medical group that is included in the report. The department shall allow the physician or medical group 30 days from the date the department sends the report to the physician or medical group to review the outcome scores and compare the scores to other California physicians or medical groups, respectively. A physician or medical group that believes that the risk-adjusted outcome does not accurately reflect the quality of care provided by the physician or medical group may submit a statement to the department within the 30 days, explaining why the outcomes do not accurately reflect the quality of care provided by the physician or medical group.

(2)The department shall promptly review the statement and shall respond to the physician or medical group with one of the following conclusions:

(A)The statement reveals a flaw in the accuracy of the reported data relating to the physician or medical group that materially diminishes the validity of the report. If this finding is made, the data for that physician or medical group shall not be included in the report until the flaw in the data is corrected.

(B)The statement reveals a flaw in the risk-adjustment model that materially diminishes the value of the report for all physicians or medical groups. If this finding is made, the report using that risk-adjustment model shall not be issued until the flaw is corrected.

(C)The statement does not reveal a flaw in either the accuracy of the reported data relating to the physician or medical group, or the risk-adjustment model in which case the report shall be used, unless the physician or medical group chooses to use the procedure set forth in paragraph (3).

(3)If a physician or medical group is not satisfied with the conclusion reached by the department, the

physician or medical group shall notify the department of that fact. Upon receipt of the notice, the department shall forward the statement to the appropriate clinical panel appointed pursuant to Section 128748. The department shall forward the statement with any information identifying the physician or medical group or the hospital of the physician or medical group redacted, or shall adopt other means to ensure the physician or medical groupsidentity is not revealed to the panel. The clinical panel shall promptly review the statement and the conclusion of the office and shall respond by either upholding the conclusion or reaching one of the other conclusions set forth in this subdivision. The panel decision shall be the final determination regarding the statement. The process set forth in this subdivision shall be completed within 60 days from the date the department sends the report to each physician or medical group included in the report. If a decision by either the department or the clinical panel cannot be reached within the 60-day period, then the outcome report may be issued but shall not include data for the physician or medical group submitting the statement.

(c)The department shall, in addition to public reports, provide hospitals and the chiefs of staff of the medical staffs with a report containing additional detailed information derived from data summarized in the public outcome reports as an aid to internal quality assurance.

(d)If, pursuant to the recommendations of the department, the Legislature subsequently amends Section 128735 to authorize the collection of additional discharge data elements, then the outcome reports for conditions and procedures for which sufficient data is not available from the current abstract record will be produced following the collection and analysis of the additional data elements.

(e)The recommendations of the department for the addition of data elements to the discharge abstract should take into consideration the technical feasibility of developing reliable risk-adjustment factors for additional procedures and conditions as determined by the department with the advice of the research community, physicians and surgeons, hospitals, consumer or patient advocacy groups, and medical records personnel.

(f)The department at a minimum shall identify a limited set of core clinical data elements to be collected for all of the selected procedures and conditions and unique clinical variables necessary for risk adjustment of specific conditions and procedures selected for the outcomes report program. In addition, the department should give careful consideration to the costs associated with the additional data collection and the value of the specific information to be collected.

(g)The department shall also engage in a continuing process of data development and refinement applicable to both current and prospective outcome studies.

(Amended by Stats. 2021, Ch. 143, Sec. 208. (AB 133) Effective July 27, 2021.)

128755.

(a)(1)Hospitals shall file the reports required by subdivisions (a), (b), (c), and (d) of Section 128735 with the department within four months after the close of the hospitalsfiscal year except as provided in paragraph (2).

(2)If a licensee relinquishes the facility license or puts the facility license in suspense, the last day of active licensure shall be deemed a fiscal year end.

(3)The department shall make the reports filed pursuant to this subdivision available no later than three months after they were filed.

(b)(1)Skilled nursing facilities, intermediate care facilities, intermediate care facilities/developmentally disabled, hospice facilities, and congregate living facilities, including nursing facilities certified by the State Department of Health Care Services to participate in the Medi-Cal program, shall file the reports required by subdivisions (a), (b), (c), and (d) of Section 128735 with the department within four months after the close of the facilitysfiscal year, except as provided in paragraph (2).

(2)(A)If a licensee relinquishes the facility license or puts the facility licensure in suspense, the last day of active licensure shall be deemed a fiscal year end.

(B)If a fiscal year end is created because the facility license is relinquished or put in suspense, the facility shall file the reports required by subdivisions (a), (b), (c), and (d) of Section 128735 within two months after the last day of active licensure.

(3)The department shall make the reports filed pursuant to paragraph (1) available not later than three months after they are filed.

(4)(A)Effective for fiscal years ending on or after December 31, 1991, the reports required by subdivisions (a), (b), (c), and (d) of Section 128735 shall be filed with the department by electronic media, as determined by the department.

(B)Congregate living health facilities are exempt from the electronic media reporting requirements of subparagraph (A).

(c)A hospital shall file the reports required by subdivision (g) of Section 128735 as follows:

(1)For patient discharges on or after January 1, 1999, through December 31, 1999, the reports shall be filed semiannually by each hospital or its designee not later than six months after the end of each semiannual period, and shall be available from the department no later than six months after the date that the report was filed.

(2)For patient discharges on or after January 1, 2000, through December 31, 2000, the reports shall be filed semiannually by each hospital or its designee not later than three months after the end of each semiannual period. The reports shall be filed by electronic tape, diskette, or similar medium as approved by the department. The department shall approve or reject each report within 15 days of receiving it. If a report does not meet the standards established by the department, it shall not be approved as filed and shall be rejected. The report shall be considered not filed as of the date the facility is notified that the report is rejected. A report shall be available from the department no later than 15 days after the date that the report is approved.

(3)For patient discharges on or after January 1, 2001, the reports shall be filed by each hospital or its designee for report periods and at times determined by the department. The reports shall be filed by online transmission in formats consistent with national standards for the exchange of electronic information. The department shall approve or reject each report within 15 days of receiving it. If a report does not meet the standards established by the department, it shall not be approved as filed and shall be rejected. The report shall be considered not filed as of the date the facility is notified that the report is rejected. A report shall be available from the department no later than 15 days after the date that the report is approved.

(d)The reports required by subdivision (a) of Section 128736 shall be filed by each hospital for report periods and at times determined by the department. The reports shall be filed by online transmission in formats consistent with national standards for the exchange of electronic information. The department shall approve

or reject each report within 15 days of receiving it. If a report does not meet the standards established by the department, it shall not be approved as filed and shall be rejected. The report shall be considered not filed as of the date the facility is notified that the report is rejected. A report shall be available from the department no later than 15 days after the report is approved.

(e)The reports required by subdivision (a) of Section 128737 shall be filed by each hospital or freestanding ambulatory surgery clinic for report periods and at times determined by the department. The reports shall be filed by online transmission in formats consistent with national standards for the exchange of electronic information. The department shall approve or reject each report within 15 days of receiving it. If a report does not meet the standards established by the department, it shall not be approved as filed and shall be rejected. The report shall be considered not filed as of the date the facility is notified that the report is rejected. A report shall be available from the department no later than 15 days after the report is approved.

(f)Facilities shall not be required to maintain a full-time electronic connection to the office for the purposes of online transmission of reports as specified in subdivisions (c), (d), and (e). The department may grant exemptions to the online transmission of data requirements for limited periods to facilities. An exemption may be granted only to a facility that submits a written request and documents or demonstrates a specific need for an exemption. Exemptions shall be granted for no more than one year at a time, and for no more than a total of five consecutive years.

(g)The reports referred to in paragraph (2) of subdivision (a) of Section 128730 shall be filed with the department on the dates required by applicable law and shall be available from the department no later than six months after the date that the report was filed.

(h)The department shall post on its internet website and make available to any person a copy of any report referred to in subdivision (a), (b), (c), (d), or (g) of Section 128735, subdivision (a) of Section 128736, subdivision (a) of Section 128737, Section 128740, and, in addition, shall make available in electronic formats reports referred to in subdivision (a), (b), (c), (d), or (g) of Section 128735, subdivision (a) of Section 128736, subdivision (a) of Section 128737, Section 128740, and subdivisions (a) and (c) of Section 128745, unless the department determines that an individual patientsrights of confidentiality would be violated. The department shall make the reports available at cost.

(Amended by Stats. 2021, Ch. 143, Sec. 209. (AB 133) Effective July 27, 2021.)

128760.

(a)On and after January 1, 1986, the systems of health facility accounting and auditing formerly approved by the California Health Facilities Commission shall remain in full force and effect for use by health facilities, but shall be maintained by the department.

(b)The department shall allow and provide, in accordance with appropriate regulations, for modifications in the accounting and reporting systems for use by health facilities in meeting the requirements of this chapter if the modifications are necessary to do any of the following:

(1)To correctly reflect differences in size of, provision of, or payment for, services rendered by health facilities.

(2)To correctly reflect differences in scope, type, or method of provision of, or payment for, services rendered by health facilities.

(3)To avoid unduly burdensome costs for those health facilities in meeting the requirements of differences pursuant to paragraphs (1) and (2).

(c)The department shall allow and provide, in accordance with appropriate regulations, for modifications to discharge data reporting format and frequency requirements if these modifications will not impair the departmentsability to process the data or interfere with the purposes of this chapter. This modification authority shall not permit the department to administratively require the reporting of discharge data items not specified pursuant to Section 128735.

(d)The department shall allow and provide, in accordance with appropriate regulations, for modifications to emergency care data reporting format and frequency requirements if these modifications will not impair the departmentsability to process the data or interfere with the purposes of this chapter. This modification authority shall not permit the department to require administratively the reporting of emergency care data items not specified in subdivision (a) of Section 128736.

(e)The department shall allow and provide, in accordance with appropriate regulations, for modifications to ambulatory surgery data reporting format and frequency requirements if these modifications will not impair the departmentsability to process the data or interfere with the purposes of this chapter. The modification authority shall not permit the department to require administratively the reporting of ambulatory surgery data items not specified in subdivision (a) of Section 128737.

(f)The department shall adopt comparable modifications to the financial reporting requirements of this chapter for county hospital systems consistent with the purposes of this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 210. (AB 133) Effective July 27, 2021.)

128765.

(a)The department shall maintain a file of all the reports filed under this chapter at its Sacramento office. Subject to any rules the department may prescribe, these reports shall be produced and made available for inspection upon the demand of any person, and shall also be posted on its internet website with the exception of discharge and encounter data that shall be available for public inspection unless the department determines, pursuant to applicable law, that an individual patientsrights of confidentiality would be violated.

(b)The reports published pursuant to Section 128745 shall include an executive summary, written in plain English to the maximum extent practicable, that shall include, but not be limited to, a discussion of findings, conclusions, and trends concerning the overall quality of medical outcomes, including a comparison to reports from prior years, for the procedure or condition studied by the report. The department shall disseminate the reports as widely as practical to interested parties, including, but not limited to, hospitals, providers, the media, purchasers of health care, consumer or patient advocacy groups, and individual consumers. The reports shall be posted on the departmentsinternet website.

(c)Copies certified by the department as being true and correct copies of reports properly filed with the department pursuant to this chapter, together with summaries, compilations, or supplementary reports prepared by the department, shall be introduced as evidence, where relevant, at any hearing, investigation, or other proceeding held, made, or taken by any state, county, or local governmental agency, board, or commission that participates as a purchaser of health facility services pursuant to the provisions of a publicly financed state or federal health care program. Each of these state, county, or local governmental agencies,

boards, and commissions shall weigh and consider the reports made available to it pursuant to this subdivision in its formulation and implementation of policies, regulations, or procedures regarding reimbursement methods and rates in the administration of these publicly financed programs.

(d)The department shall compile and publish summaries of individual facility and aggregate data that do not contain patient-specific information for the purpose of public disclosure. Upon request, these shall include summaries of observation services data, in a format prescribed by the department. The summaries shall be posted on the departmentsinternet website. The department may initiate and conduct studies as it determines will advance the purposes of this chapter.

(e)In order to ensure that accurate and timely data are available to the public in useful formats, the department shall establish a public liaison function. The public liaison shall provide technical assistance to the general public on the uses and applications of individual and aggregate health facility data and shall provide the director with an annual report on changes that can be made to improve the publicsaccess to data.

(Amended by Stats. 2021, Ch. 143, Sec. 211. (AB 133) Effective July 27, 2021.)

128766.

(a)Notwithstanding Section 128765 or any other provision of law, the department, upon request, shall disclose information collected pursuant to subdivision (g) of Section 128735 and Sections 128736 and 128737, to any California hospital and any local health department or local health officer in California as set forth in Part 3 (commencing with Section 101000) of Division 101. The department shall disclose this same information to the United States Department of Health and Human Services or any of its subsidiary agencies, including the National Center for Health Statistics or any other unit of the Centers for Disease Control and Prevention, the Agency for Healthcare Research and Quality, the Centers for Medicare and Medicaid Services, the Health Resources and Services Administration, the Indian Health Service, Tribal Epidemiology Centers, which are defined as public health authorities pursuant to the federal Indian Health Care Improvement Act (25 U.S.C. Sec. 1601 et seq.), the National Institutes of Health, or the National Cancer Institute, or the Veterans Health Care Administration within the United States Department of Veterans Affairs, for the purposes of conducting a statutorily authorized activity. All disclosures made pursuant to this section shall be consistent with the standards and limitations applicable to the disclosure of limited data sets as provided in Section 164.514 of Part 164 of Title 45 of the Code of Federal Regulations, relating to the privacy of health information.

(b)Any hospital that receives information pursuant to this section shall not disclose that information to any person or entity, except in response to a court order, search warrant, or subpoena, or as otherwise required or permitted by the federal medical privacy regulations contained in Parts 160 and 164 of Title 45 of the Code of Federal Regulations. In no case shall a hospital, contractor, or subcontractor reidentify or attempt to reidentify any information received pursuant to this section.

(c)No disclosure shall be made pursuant to this section if the director of the department has determined that the disclosure would create an unreasonable risk to patient privacy. The director shall provide a written explanation of the determination to the requester within 60 days.

(Amended by Stats. 2021, Ch. 143, Sec. 212. (AB 133) Effective July 27, 2021.)

128770.

(a)Any health facility or freestanding ambulatory surgery clinic that does not file any report as required by this chapter with the department is liable for a civil penalty of one hundred dollars ($100) a day for each day the filing of any report is delayed. No penalty shall be imposed if an extension is granted in accordance with the guidelines and procedures established by the department.

(b)Any health facility that does not use an approved system of accounting pursuant to the provisions of this chapter for purposes of submitting financial and statistical reports as required by this chapter shall be liable for a civil penalty of not more than five thousand dollars ($5,000).

(c)Civil penalties are to be assessed and recovered in a civil action brought in the name of the people of the State of California by the department. Assessment of a civil penalty may, at the request of any health facility or freestanding ambulatory surgery clinic, be reviewed on appeal, and the penalty may be reduced or waived for good cause.

(d)Any money that is received by the department pursuant to this section shall be paid into the General Fund.

(Amended by Stats. 2021, Ch. 143, Sec. 213. (AB 133) Effective July 27, 2021.)

128775.

(a)Any health facility or freestanding ambulatory surgery clinic affected by any determination made under this part by the department may petition the department for review of the decision. This petition shall be filed with the department within 15 business days, or within a greater time as the department may allow, and shall specifically describe the matters which are disputed by the petitioner.

(b)A hearing shall be commenced within 60 calendar days of the date on which the petition was filed. The hearing shall be held before an employee of the department, or an administrative law judge employed by the Office of Administrative Hearings. If held before an employee of the department, the hearing shall be held in accordance with any procedures as the office shall prescribe. If held before an administrative law judge employed by the Office of Administrative Hearings, the hearing shall be held in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. The employee or administrative law judge shall prepare a recommended decision including findings of fact and conclusions of law and present it to the department for its adoption. The decision of the department shall be in writing and shall be final. The decision of the department shall be made within 60 calendar days after the conclusion of the hearing and shall be effective upon filing and service upon the petitioner.

(c)Judicial review of any final action, determination, or decision may be had by any party to the proceedings as provided in Section 1094.5 of the Code of Civil Procedure. The decision of the department shall be upheld against a claim that its findings are not supported by the evidence unless the court determines that the findings are not supported by substantial evidence.

(d)The employee of the office, or the administrative law judge employed by the Office of Administrative Hearings or the Office of Administrative Hearings, may issue subpoenas and subpoenas duces tecum in a manner and subject to the conditions established by Article 11 (commencing with Section 11450.10) of Chapter 4.5 of Part 1 of Division 3 of Title 2 of the Government Code.

(e)This section shall become operative on July 1, 1997.

(Amended by Stats. 2021, Ch. 143, Sec. 214. (AB 133) Effective July 27, 2021.)

128780.

Notwithstanding any other provision of law, the disclosure aspects of this chapter shall be deemed complete with respect to district hospitals, and no district hospital shall be required to report or disclose any additional financial or utilization data to any person or other entity except as is required by this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

128782.

Notwithstanding any other provision of law, upon the request of a small and rural hospital, as defined in Section 124840, the department shall do all of the following:

(a) If the hospital did not file financial reports with the department by electronic media as of January 1, 1993, the department shall, on a case-by-case basis, do one of the following:

(1) Exempt the small and rural hospital from any electronic filing requirements of the department regarding annual or quarterly financial disclosure reports specified in Sections 128735 and 128740.

(2) Provide a one-time reduction in the fee charged to the small and rural hospital not to exceed the maximum amount assessed pursuant to Section 127280 by an amount equal to the costs incurred by the small and rural hospital to purchase the computer hardware and software necessary to comply with any electronic filing requirements of the department regarding annual or quarterly financial disclosure reports specified in Sections 128735 and 128740.

(b) The department shall provide a one-time reduction in the fee charged to the small and rural hospital not to exceed the maximum amount assessed pursuant to Section 127280 by an amount equal to the costs incurred by the small and rural hospital to purchase the computer software and hardware necessary to comply with any electronic filing requirements of the department regarding reports specified in Sections 128735, 128736, and 128737.

(c) The department shall provide the hospital with assistance in meeting the requirements specified in paragraphs (1) and (2) of subdivision (c) of Section 128755 that the reports required by subdivision (g) of Section 128735 be filed by electronic media or by online transmission. The assistance shall include the provision to the hospital by the department of a computer program or computer software to create an electronic file of patient discharge abstract data records. The program or software shall incorporate validity checks and edit standards.

(d) The department shall provide the hospital with assistance in meeting the requirements specified in subdivision (d) of Section 128755 that the reports required by subdivision (a) of Section 128736 be filed by online transmission. The assistance shall include the provision to the hospital by the department of a computer program or computer software to create an electronic file of emergency care data records. The

program or software shall incorporate validity checks and edit standards.

(e) The department shall provide the hospital with assistance in meeting the requirements specified in subdivision (e) of Section 128755 that the reports required by subdivision (a) of Section 128737 be filed by online transmission. The assistance shall include the provision to the hospital by the department of a computer program or computer software to create an electronic file of ambulatory surgery data records. The program or software shall incorporate validity checks and edit standards.

(Amended by Stats. 2021, Ch. 143, Sec. 215. (AB 133) Effective July 27, 2021.)

128785.

On January 1, 1986, all regulations previously adopted by the California Health Facilities Commission that relate to functions vested in the department and that are in effect on that date, shall remain in effect and shall be fully enforceable to the extent that they are consistent with this chapter, as determined by the department, unless and until readopted, amended, or repealed by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 216. (AB 133) Effective July 27, 2021.)

128790.

Pursuant to Section 16304.9 of the Government Code, the Controller shall transfer to the department the unexpended balance of funds as of January 1, 1986, in the California Health Facilities Commission Fund, available for use in connection with the performance of the functions of the California Health Facilities Commission to which it has succeeded pursuant to this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 217. (AB 133) Effective July 27, 2021.)

128795.

All officers and employees of the California Health Facilities Commission who, on December 31, 1985, are serving the state civil service, other than as temporary employees, and engaged in the performance of a function vested in the department by this chapter shall be transferred to the department. The status, positions, and rights of persons shall not be affected by the transfer and shall be retained by them as officers and employees of the department, pursuant to the State Civil Service Act except as to positions exempted from civil service.

(Amended by Stats. 2021, Ch. 143, Sec. 218. (AB 133) Effective July 27, 2021.)

128800.

The department shall have possession and control of all records, papers, offices, equipment, supplies, moneys, funds, appropriations, land, or other property, real or personal, held for the benefit or use of the

California Health Facilities Commission for the performance of functions transferred to the department by this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 219. (AB 133) Effective July 27, 2021.)

128805.

The department may enter into agreements and contracts with any person, department, agency, corporation, or legal entity as are necessary to carry out the functions vested in the department by this chapter or any other law.

(Amended by Stats. 2021, Ch. 143, Sec. 220. (AB 133) Effective July 27, 2021.)

128810.

The department shall administer this chapter and shall make all regulations necessary to implement the provisions and achieve the purposes stated herein.

(Amended by Stats. 2021, Ch. 143, Sec. 221. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 5. HEALTH DATA [128675 - 128920]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 2. Primary Care Clinic and Specialty Clinic Data [128900 - 128920]__

(Chapter 2 added by Stats. 2023, Ch. 505, Sec. 5.)

128900.

The following definitions apply for purposes of this chapter:

(a)Clinic means an organized outpatient health facility required to be licensed pursuant to Chapter 1 (commencing with Section 1200) of Division 2.

(b)Primary care clinic means a clinic specified in subdivision (a) of Section 1204, including community clinics and free clinics.

(c)Intermittent clinic means a clinic operated by a primary care community or free clinic that is operated on separate premises from the licensed clinic and is only open for limited services, as described in subdivision (h) of Section 1206.

(d)Specialty clinic means a clinic specified in subdivision (b) of Section 1204 or in Section 1204.1, including surgical clinics, chronic dialysis clinics, rehabilitation clinics, alternative birth centers, and psychology clinics.

(e)Department means the Department of Health Care Access and Information.

(f)FQHC means a federally qualified health center.

(g)RHC means a rural health clinic.

(Added by Stats. 2023, Ch. 505, Sec. 5. (SB 779) Effective January 1, 2024.)

128905.

(a)Commencing January 1, 2027, every clinic holding a license and, notwithstanding subdivision (h) of Section 1206, every intermittent clinic operated by a licensed clinic and exempt from licensure shall, on or before the 15th day of February each year, file with the department, upon forms to be furnished by the department, a verified report showing the following information relating to the previous calendar year:

(1)Number of patients served and descriptive information, including, but not limited to, age, sex, race, ethnicity, preferred language spoken, disability status, sexual orientation, gender identity, and payor category. A clinic shall not be subject to any adverse action for not providing sexual orientation and gender identity information if the patient refused to provide that information.

(2)Number of patient visits by type of service, including all of the following:

(A)Child health and disability prevention screens, treatment, and followup services.

(B)Medical services.

(C)Dental services.

(D)Other health services.

(3)Primary care clinics participating in the Medi-Cal program or county indigent programs shall include the following:

(A)Number of assigned members per Medi-Cal managed care plan and county indigent program.

(B)Number of assigned members per Medi-Cal managed care plan and county indigent program that had one or more clinic visits.

(4)Total clinic operating expenses.

(5)Gross patient charges by payer category, including Medicare, Medi-Cal, the Child Health Disability Prevention Program, county indigent programs, other county programs, private insurance, self-paying patients, nonpaying patients, and other payers.

(6)Deductions from revenue by payer category, bad debts, and charity care charges.

(7)Average weekly number of clinic operating hours and whether or not the clinic is licensed or intermittent.

(8)Additional information as may be required by the department or the State Department of Public Health.

(9)This subdivision does not apply to specialty clinics.

(b)In order to facilitate timely enforcement of this section, the department shall send a written notice of violation to every clinic that fails to file a timely report pursuant to this section or pursuant to Section 127285 or 128910, either for itself or for any intermittent clinic it operates. The department shall also provide the State Department of Public Health with a list of every clinic that receives a written notice of violation and notify the State Department of Public Health when a clinic on the list completes and files all delinquent reports. The department shall make these notices and lists, including notifications of when a clinic on the list completes and files all delinquent reports, available on its internet website.

(c)In order to promote efficient reporting of accurate data, the department shall consider the unique operational characteristics of different classifications of licensed clinics, including, but not limited to, the limited scope of services provided by some specialty clinics, in its design of forms for the collection of data required by this section.

(d)For the purpose of administering funds appropriated from the Cigarette and Tobacco Products Surtax Fund for support of licensed clinics, clinics receiving those funds may be required to report any additional data the department or the State Department of Public Health may determine necessary to ensure the equitable distribution and appropriate expenditure of those funds. This shall include, but not be limited to, information about the poverty level of patients served and communicable diseases reported to local health departments.

(e)This section shall apply to all licensed primary care clinics, and to all intermittent clinics operated by those licensed primary care clinics, notwithstanding subdivision (h) of Section 1206.

(f)Specialty clinics shall report the following:

(1)Number of patients during the preceding year.

(2)Total amount of administrative or other charges or fees collected from patients.

(3)Total amount of revenues from other sources for the previous year.

(4)Total operating cost for clinic for the previous year.

(5)Additional information as may be required by regulation of the department.

(Added by Stats. 2023, Ch. 505, Sec. 5. (SB 779) Effective January 1, 2024.)

128910.

Commencing January 1, 2027, an organization that operates, conducts, owns, or maintains a primary care clinic or intermittent clinic, and the officers thereof, shall, for every primary care clinic and every intermittent clinic that it operates, conducts, owns, or maintains, on or before the 15th day of February each year, file with the department separate reports for each primary care clinic and each intermittent clinic on forms furnished by the department, in conjunction with the forms required under Sections 127285 and 128905 that are in accord, if applicable, with the systems of accounting and uniform reporting required by this part:

(a)The Medi-Cal FQHC/RHC prospective payment system (PPS) rate, if applicable.

(b)A detailed labor report including, but not limited to, the following information:

(1)The actual number of employees and full-time equivalents, by job classification, including nonlicensed and noncredentialed positions, at the beginning and end of the reporting period.

(2)The actual number of contracted or registry staff and full-time equivalents, of contracted or registry staff by job classification, including nonlicensed and noncredentialed positions at the beginning and end of the reporting period.

(3)The number of staff vacancies by job classification.

(4)The average base hourly wages and base hourly wage ranges (minimum and maximum base hourly wage) by job classification for each job classification with three or more employees.

(5)For clinics required to file Return of Organization Exempt From Income Tax form (Form 990) with the Department of Treasury Internal Revenue Service, information identifying job title and salary of the five highest compensated employees, who received reportable compensation of more than one hundred thousand dollars ($100,000).

(6)Aggregated workforce demographic information for each clinic site, including, but not limited to, age, gender, race, and ethnicity, languages spoken, disability status, sexual orientation, and gender identity. Workers shall not be required to provide the information in this paragraph and shall not be subject to discipline or any other adverse action for not providing the information listed.

(c)A detailed workforce development report, including, but not limited to, the following:

(1)Participation in any local, regional, or statewide labor-management cooperation committee (LMCC), and for each LMCC, the identity of all partners.

(2)Data about the nature and extent of participation in allied health care professional degrees and certificate programs, including, but not limited to, the number of clinical placements for each program.

(3)Data about the nature and extent of participation in behavioral health professional degree and certificate programs, including, but not limited to, the number of clinical placements for each program.

(Added by Stats. 2023, Ch. 505, Sec. 5. (SB 779) Effective January 1, 2024.)

128915.

The department shall maintain a file of all reports filed under this chapter and under Sections 1216 and 127285 at its Sacramento office. Subject to any rules the department may prescribe, and in compliance with state and federal law, these reports shall be produced and made available for inspection upon the demand of any person, and shall also be posted on the departmentsinternet website, to the extent permissible.

(Added by Stats. 2023, Ch. 505, Sec. 5. (SB 779) Effective January 1, 2024.)

128920.

The department shall administer this chapter and shall adopt all regulations necessary to implement the provisions of this chapter. The regulations shall require the first annual reports described in Section 128910 to be submitted on or before February 15, 2028, using information relating to the calendar year beginning January 1, 2027.

(Added by Stats. 2023, Ch. 505, Sec. 5. (SB 779) Effective January 1, 2024.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 6. FACILITIES LOAN INSURANCE AND FINANCING [129000 - 129387]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facility Construction Loan Insurance [129000 - 129355]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 1. General Provisions [129000 - 129045]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 9.)

129000.

This chapter may be cited as the California Health Facility Construction Loan Insurance Law.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129005.

The purpose of this chapter is to provide, without cost to the state, an insurance program for health facility construction, improvement, and expansion loans in order to stimulate the flow of private capital into health facilities construction, improvement, and expansion and in order to rationally meet the need for new, expanded and modernized public and nonprofit health facilities necessary to protect the health of all the people of this state. The provisions of this chapter are to be liberally construed to achieve this purpose.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129010.

Unless the context otherwise requires, the definitions in this section govern the construction of this chapter and of Section 32127.2.

(a)Bondholder means the legal owner of a bond or other evidence of indebtedness issued by a political subdivision or a nonprofit corporation.

(b)Borrower means a political subdivision or nonprofit corporation that has secured or intends to secure a loan for the construction of a health facility.

(c)Construction, improvement, or expansion or construction, improvement, and expansion includes construction of new buildings, expansion, modernization, renovation, remodeling and alteration of existing buildings, acquisition of existing buildings or health facilities, and initial or additional equipping of any of these buildings.

In connection therewith, construction, improvement, or expansion or construction, improvement, and expansion includes the cost of construction or acquisition of all structures, including parking facilities, real or personal property, rights, rights-of-way, the cost of demolishing or removing any buildings or structures on land so acquired, including the cost of acquiring any land where the buildings or structures may be moved, the cost of all machinery and equipment, financing charges, interest (prior to, during and for a period after completion of the construction), provisions for working capital, reserves for principal and interest and for extensions, enlargements, additions, replacements, renovations and improvements, cost of engineering, financial and legal services, plans, specifications, studies, surveys, estimates of cost and of revenues, administrative expenses, expenses necessary or incident to determining the feasibility or practicability of constructing or incident to the construction; or the financing of the construction or acquisition.

(d)Committee means the Advisory Loan Insurance Committee.

(e)Debenture means any form of written evidence of indebtedness issued by the State Treasurer pursuant to this chapter, as authorized by Section 4 of Article XVI of the California Constitution.

(f)Fund means the Health Facility Construction Loan Insurance Fund.

(g)Health facility means any facility providing or designed to provide services for the acute, convalescent, and chronically ill and impaired, including, but not limited to, public health centers, community mental health centers, facilities for the developmentally disabled, nonprofit community care facilities that provide care, habilitation, rehabilitation or treatment to developmentally disabled persons, facilities for the treatment of chemical dependency, including a community care facility, licensed pursuant to Chapter 3 (commencing with Section 1500) of Division 2, a clinic, as defined pursuant to Chapter 1 (commencing with Section 1200) of Division 2, an alcoholism recovery facility, defined pursuant to former Section 11834.11, and a structure

located adjacent or attached to another type of health facility and that is used for storage of materials used in the treatment of chemical dependency, and general tuberculosis, mental, and other types of hospitals and related facilities, such as laboratories, outpatient departments, extended care, nurses™ home and training facilities, offices and central service facilities operated in connection with hospitals, diagnostic or treatment centers, extended care facilities, nursing homes, and rehabilitation facilities. Health facility also means an adult day health center and a multilevel facility. Except for facilities for the developmentally disabled, facilities for the treatment of chemical dependency, or a multilevel facility, or as otherwise provided in this subdivision, health facility does not include any institution furnishing primarily domiciliary care.

Health facility also means accredited nonprofit work activity programs as defined in subdivision (e) of Section 19352 and Section 19355 of the Welfare and Institutions Code, and nonprofit community care facilities as defined in Section 1502, excluding foster family homes, foster family agencies, adoption agencies, and residential care facilities for the elderly.

Unless the context dictates otherwise, health facility includes a political subdivision of the state or nonprofit corporation that operates a facility included within the definition set forth in this subdivision.

(h)Department means the Department of Health Care Access and Information.

(i)Lender means the provider of a loan and its successors and assigns.

(j)Loan means money or credit advanced for the costs of construction or expansion of the health facility, and includes both initial loans and loans secured upon refinancing and may include both interim, or short-term loans, and long-term loans. A duly authorized bond or bond issue, or an installment sale agreement, may constitute a loan.

(k)Maturity date means the date that the loan indebtedness would be extinguished if paid in accordance with periodic payments provided for by the terms of the loan.

(l)Mortgage means a first mortgage on real estate. Mortgage includes a first deed of trust.

(m)Mortgagee includes a lender whose loan is secured by a mortgage. Mortgagee includes a beneficiary of a deed of trust.

(n)Mortgagor includes a borrower, a loan to whom is secured by a mortgage, and the trustor of a deed of trust.

(o)Nonprofit corporation means any corporation formed under or subject to the Nonprofit Public Benefit Corporation Law (Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code) that is organized for the purpose of owning and operating a health facility and that also meets the requirements of Section 501(c)(3) of the Internal Revenue Code.

(p)Political subdivision means any city, county, joint powers entity, local hospital district, or the California Health Facilities Authority.

(q)Project property means the real property where the health facility is, or is to be, constructed, improved, or expanded, and also means the health facility and the initial equipment in that health facility.

(r)Public health facility means any health facility that is or will be constructed for and operated and maintained by any city, county, or local hospital district.

(s)Adult day health center means a facility defined under subdivision (b) of Section 1570.7, that provides adult day health care, as defined under subdivision (a) of Section 1570.7.

(t)Multilevel facility means an institutional arrangement where a residential facility for the elderly is operated as a part of, or in conjunction with, an intermediate care facility, a skilled nursing facility, or a general acute care hospital. Elderly, for the purposes of this subdivision, means a person 60 years of age or older.

(u)State plan means the plan described in Section 129020.

(Amended by Stats. 2021, Ch. 143, Sec. 224. (AB 133) Effective July 27, 2021.)

129015.

The department shall administer this chapter and shall make all regulations necessary to implement the provisions and achieve the purposes stated herein.

(Amended by Stats. 2021, Ch. 143, Sec. 225. (AB 133) Effective July 27, 2021.)

129020.

The department shall implement the loan insurance program for the construction, improvement, and expansion of public and nonprofit corporation health facilities so that, in conjunction with all other existing facilities, the necessary physical facilities for furnishing adequate health facility services will be available to all the people of the state.

Every odd-numbered year the department shall develop a state plan for use under this chapter. The plan shall include an overview of the changes in the health care industry, an overview of the financial status of the fund and the loan insurance program implemented by the department, a statement of the guiding principles of the loan insurance program, an evaluation of the programssuccess in meeting its mission as outlined in Section 129005, a discussion of administrative, procedural, or statutory changes that may be needed to improve management of program risks or to ensure the program effectively addresses the health needs of Californians, and the priority needs to be addressed by the loan insurance program.

The health facility construction loan insurance program shall provide for health facility distribution throughout the state in a manner that will make all types of health facility services reasonably accessible to all persons in the state according to the state plan.

(Amended by Stats. 2021, Ch. 143, Sec. 226. (AB 133) Effective July 27, 2021.)

129022.

Applications submitted to the department shall be signed under penalty of perjury by the applicant.

(Amended by Stats. 2021, Ch. 143, Sec. 227. (AB 133) Effective July 27, 2021.)

129030.

The proceeds of all loans insured pursuant to this chapter shall be disbursed only upon order of the department or its designated agent. The department shall make regulations to insure the security of these proceeds.

(Amended by Stats. 2021, Ch. 143, Sec. 228. (AB 133) Effective July 27, 2021.)

129035.

From time to time the department or its designated agent shall inspect each project for which loan insurance was approved, as needed, and if the inspection so warrants, the department or agent shall certify that the work has been performed upon the project, or purchases have been made, in accordance with the approved plans and specifications, and that payment of an installment of the loan proceeds is due to the borrower. The department shall charge the borrower a fee for these inspections and certifications, that in no instance shall exceed four dollars ($4) for each one thousand dollars ($1,000) of the borrowersloan that is insured. These fees shall be deposited in the fund.

(Amended by Stats. 2021, Ch. 143, Sec. 229. (AB 133) Effective July 27, 2021.)

129040.

(a)The department shall establish a premium charge for the insurance of loans under this chapter, and this charge shall be deposited in the fund. A one-time nonrefundable premium charge shall be paid at the time the loan is insured. The premium rate may vary based upon the assessed level of relative financial risk determined pursuant to Section 129051, but shall in no event be greater than 3 percent. The amount of premium shall be computed on the basis of the application of the rate to the total amount of principal and interest payable over the term of the loan.

(b)The department may annually charge a portion of the premium in advance commencing at the time of issuing or extending the commitment until the date the loan is insured or the commitment expires. The amount of the advance premium shall not exceed six dollars ($6) per year for each one thousand dollars ($1,000) of principal of the proposed loan. The total dollar amount of the premium advanced shall be nonrefundable and shall be credited against the amount of the premium charged pursuant to this section, or if the commitment expires and the loan is not insured, the advance shall be retained by the department to offset costs and expenses of the department related to preliminary work, underwriting the loan commitment, and monitoring construction.

(Amended by Stats. 2021, Ch. 143, Sec. 230. (AB 133) Effective July 27, 2021.)

129045.

The department shall annually report to the Legislature the financial status of the program and its insured portfolio, including the status of all borrowers in each stage of default and the departmentsefforts to collect from borrowers that have defaulted on their debt service payments.

(Amended by Stats. 2021, Ch. 143, Sec. 231. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 6. FACILITIES LOAN INSURANCE AND FINANCING [129000 - 129387]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facility Construction Loan Insurance [129000 - 129355]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 1.5. Hospital Construction Assistance [129048 - 129049]__

(Article 1.5 added by Stats. 1999, Ch. 825, Sec. 1.)

129048.

The Legislature finds and declares all of the following:

(a) The State of California has a compelling interest in ensuring that adequate health facilities that are able to withstand seismic events are available to care for patients, especially in the event of a disaster.

(b) Hospitals are required, under the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983 (Chapter 1

(commencing with Section 129675) of Part 7), to improve, or remove from acute care service, buildings that pose a significant safety risk of collapse and danger to the public by January 1, 2008.

(c) Hospitals are also required by that act to repair, rebuild, or remove from service, buildings that may not be repairable or functional following strong ground motion, by January 1, 2030.

(d) California hospitals should be enabled to participate in programs that provide financial assistance for hospital construction and retrofitting.

(e) The United States Department of Housing and Urban Development operates a HUD 242 loan insurance program, through which hospitals can access facility mortgage insurance and lower interest rates.

(f) As a condition for participating in the HUD 242 program, a hospital must have a state-commissioned or conducted feasibility study of a hospital construction project.

(Added by Stats. 1999, Ch. 825, Sec. 1. Effective January 1, 2000.)

129049.

(a) The department may, at the request of a hospital, commission an independent study of market need and feasibility, as required by the United States Department of Housing and Urban Development, as part of an application for mortgage insurance for hospitals pursuant to Section 1715z-7 of Title 12 of the United States Code, or any other federal mortgage insurance program for health-related facilities.

(b) The cost of the feasibility study permitted pursuant to subdivision (a) shall be paid for by the department from reimbursements received from the applicant.

(c) Notwithstanding any other provision of law, the department may directly retain independent feasibility consultants and require a deposit from the applicant for the entire cost of the services at the time they are requested.

(d) The department shall charge applicants a fee for the reasonable costs of administering this article.

(e) The program provided for in this article shall be administered in conformance with the requirements of the United States Department of Housing and Urban Development for feasibility studies authorized by this section and the applicable requirements of state law pertaining to contracts.

(Amended by Stats. 2021, Ch. 143, Sec. 232. (AB 133) Effective July 27, 2021.)

__ARTICLE 2. Insurable Loans and Applications Therefor [129050 - 129110]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 9.)

129050.

A loan shall be eligible for insurance under this chapter if all of the following conditions are met:

(a)The loan shall be secured by a first mortgage, first deed of trust, or other first priority lien on a fee interest of the borrower or by a leasehold interest of the borrower having a term of at least 20 years, including options to renew for that duration, longer than the term of the insured loan. The security for the loan shall be subject only to those conditions, covenants and restrictions, easements, taxes, and assessments of record approved by the office, and other liens securing debt insured under this chapter. The department may require additional agreements in security of the loan.

(b)The borrower obtains an American Land Title Association title insurance policy with the department designated as beneficiary, with liability equal to the amount of the loan insured under this chapter, and with additional endorsements that the department may reasonably require.

(c)The proceeds of the loan shall be used exclusively for the construction, improvement, or expansion of the health facility, as approved by the department under Section 129020. However, loans insured pursuant to this chapter may include loans to refinance another prior loan, whether or not state insured and without regard to the date of the prior loan, if the department determines that the amount refinanced does not exceed 90 percent of the original total construction costs and is otherwise eligible for insurance under this chapter. The department may not insure a loan for a health facility that the office determines is not needed pursuant to subdivision (k).

(d)The loan shall have a maturity date not exceeding 30 years from the date of the beginning of amortization

of the loan, except as authorized by subdivision (e), or 75 percent of the departmentsestimate of the economic life of the health facility, whichever is the lesser.

(e)The loan shall contain complete amortization provisions requiring periodic payments by the borrower not in excess of its reasonable ability to pay as determined by the department. The department shall permit a reasonable period of time during which the first payment to amortization may be waived on agreement by the lender and borrower. The department may, however, waive the amortization requirements of this subdivision and of subdivision (g) of this section when a term loan would be in the borrowersbest interest.

(f)The loan shall bear interest on the amount of the principal obligation outstanding at any time at a rate, as negotiated by the borrower and lender, as the department finds necessary to meet the loan money market. As used in this chapter, interest does not include premium charges for insurance and service charges if any. Where a loan is evidenced by a bond issue of a political subdivision, the interest thereon may be at any rate the bonds may legally bear.

(g)The loan shall provide for the application of the borrowersperiodic payments to amortization of the principal of the loan.

(h)The loan shall contain those terms and provisions with respect to insurance, repairs, alterations, payment of taxes and assessments, foreclosure proceedings, anticipation of maturity, additional and secondary liens, and other matters the department may in its discretion prescribe.

(i)The loan shall have a principal obligation not in excess of an amount equal to 90 percent of the total construction cost.

(j)The borrower shall offer reasonable assurance that the services of the health facility will be made available to all persons residing or employed in the area served by the facility.

(k)The department has determined that the facility is needed by the community to provide the specified services. In making this determination, the department shall do all of the following:

(1)Require the applicant to describe the community needs the facility will meet and provide data and information to substantiate the stated needs.

(2)Require the applicant, if appropriate, to demonstrate participation in the community needs assessment required by Section 127350.

(3)Survey appropriate local officials and organizations to measure perceived needs and verify the applicantsneeds assessment.

(4)Use any additional available data relating to existing facilities in the community and their capacity.

(5)Contact other state and federal departments that provide funding for the programs proposed by the applicant to obtain those departments™ perspectives regarding the need for the facility. Additionally, the department shall evaluate the potential effect of proposed health care reimbursement changes on the facilitysfinancial feasibility.

(6)Consider the facilitysconsistency with the Cal-Mortgage state plan.

(l)In the case of acquisitions, a project loan shall be guaranteed only for transactions not in excess of the fair market value of the acquisition.

Fair market value shall be determined, for purposes of this subdivision, pursuant to the following procedure, that shall be utilized during the departmentsreview of a loan guarantee application:

(1)Completion of a property appraisal by an appraisal firm qualified to make appraisals, as determined by the department, before closing a loan on the project.

(2)Evaluation of the appraisal in conjunction with the book value of the acquisition by the department. When acquisitions involve additional construction, the department shall evaluate the proposed construction to determine that the costs are reasonable for the type of construction proposed. In those cases where this procedure reveals that the cost of acquisition exceeds the current value of a facility, including improvements, then the acquisition cost shall be deemed in excess of fair market value.

(m)Notwithstanding subdivision (i), any loan in the amount of ten million dollars ($10,000,000) or less may be insured up to 95 percent of the total construction cost.

In determining financial feasibility of projects of counties pursuant to this section, the department shall take into consideration any assistance for the project to be provided under Section 14085.5 of the Welfare and Institutions Code or from other sources. It is the intent of the Legislature that the department endeavor to assist counties in whatever ways are possible to arrange loans that will meet the requirements for insurance prescribed by this section.

(n)The projectslevel of financial risk meets the criteria in Section 129051.

(Amended by Stats. 2021, Ch. 143, Sec. 233. (AB 133) Effective July 27, 2021.)

129051.

(a) The department shall develop and implement a system for assessing the relative financial risk of the applicant. The system shall include, but is not limited to, an assessment of the applicantsfinancial strength, credit history, security for the loan, cash-flow, and ability to repay the debt.

(b) The department shall establish a maximum acceptable level of financial risk for the projects it insures. The department may only approve a project if its risk level is below the established maximum, except as provided in subdivision (c).

(c) The department may approve a project with a level of insurance risk that exceeds the established maximum if the department determines that the project meets a significant community need or will be a sole community provider.

(Amended by Stats. 2021, Ch. 143, Sec. 234. (AB 133) Effective July 27, 2021.)

129052.

A pledge by or to the department of, or the grant to the department of a security interest in, revenues, moneys, accounts, accounts receivable, contract rights, general intangibles, documents, instruments, chattel paper, and other rights to payment of whatever kind made by or to the department pursuant to the

authority granted in this chapter shall be valid and binding from the time the pledge is made for the benefit of pledgees and successors thereto. The revenues, moneys, accounts, accounts receivable, contract rights, general intangibles, documents, instruments, chattel paper, and other rights to payment of whatever kind pledged by or to the department or its assignees shall immediately be subject to the lien of the pledge without physical delivery or further act. The lien of such pledge shall be valid and binding against all parties, irrespective of whether the parties have notice of the lien. The indenture, trust agreement, resolution, or another instrument by which such pledge is created need not be recorded or the security interest otherwise perfected.

(Amended by Stats. 2021, Ch. 143, Sec. 235. (AB 133) Effective July 27, 2021.)

129055.

In order to comply with subdivision (j) of Section 129050, any borrower that is certified for reimbursement for cost of care under Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code shall demonstrate that its facility is used by persons for whom the cost of care is reimbursed under that chapter, in a proportion that is reasonable based upon the proportion of Medi-Cal patients in the community served by the borrower and by persons for whom the costs of care is reimbursed under Title XVIII of the federal Social Security Act in a proportion that is reasonable based upon the proportion of Medicare patients in the community served by the borrower.

For the purposes of this chapter, the community means the service areas or patient populations for which the health facility provides health care services, unless the department determines that, or the borrower demonstrates to the satisfaction of the office that, a different definition is more appropriate for the borrowersfacility.

(Amended by Stats. 2021, Ch. 143, Sec. 236. (AB 133) Effective July 27, 2021.)

129060.

Subdivisions (b) and (c) of Section 129355 shall apply to any residential or nonresidential alcoholism or drug abuse recovery or treatment program or facility, as certified under Section 11831.5, or licensed under former Section 11834.19; and any facility that provides an organized program of therapeutic, social, and health activities and services to persons with functional impairments, as licensed under Section 1576.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129065.

As part of its assurance under subdivision (j) of Section 129050, any borrower that is a general acute care hospital or acute psychiatric hospital shall agree to the following actions:

(a) To advise each person seeking services at the borrowersfacility as to the personspotential eligibility for Medi-Cal and Medicare benefits or benefits from other governmental third party payers.

(b) To make available to the department and to any interested person a list of physicians with staff privileges at the borrowersfacility, that includes:

(1) Name.

(2) Speciality.

(3) Language spoken.

(4) Whether takes Medi-Cal and Medicare patients.

(5) Business address and phone number.

(c) To inform in writing on a periodic basis all practitioners of the healing arts having staff privileges in the borrowersfacility as to the existence of the facilityscommunity service obligation. The required notice to practitioners shall contain a statement, as follows:

This hospital has agreed to provide a community service and to accept Medi-Cal and Medicare patients. The administration and enforcement of this agreement is the responsibility of the Department of Health Care Access and Information and this facility.

(d) To post notices in the following form, that shall be multilingual where the borrower serves a multilingual community, in appropriate areas within the facility, including but not limited to, admissions offices, emergency rooms, and business offices:

NOTICE OF COMMUNITY SERVICE OBLIGATION

This facility has agreed to make its services available to all persons residing or employed in this area. This facility is prohibited by law from discriminating against Medi-Cal and Medicare patients. Should you believe you may be eligible for Medi-Cal or Medicare, you should contact our business office (or designated person or office) for assistance in applying. You should also contact our business office (or designated person or office) if you are in need of a physician to provide you with services at this facility. If you believe that you have been refused services at this facility in violation of the community service obligation you should inform (designated person or office) and the Department of Health Care Access and Information.

The borrower shall provide copies of this notice for posting to all welfare offices in the county where the borrowersfacility is located.

(Amended by Stats. 2021, Ch. 143, Sec. 237. (AB 133) Effective July 27, 2021.)

129070.

In the event the borrower cannot demonstrate that it meets the requirement of Section 129055, it may nonetheless be eligible for a loan under this chapter if it presents a plan that is satisfactory to the department that details the reasonable steps and timetables that the borrower agrees to take to bring the facility into compliance with Section 129055.

(Amended by Stats. 2021, Ch. 143, Sec. 238. (AB 133) Effective July 27, 2021.)

129075.

(a) Each borrower shall provide any reports as may be required of it by Part 5 (commencing with Section 128675), from which the department shall determine the borrowerscompliance with subdivision (j) of Section 129050.

(b) If a report indicates noncompliance with subdivision (j) of Section 129050, Section 129055, or Section 129065, the department shall require the borrower to submit a plan detailing the steps and timetables the borrower will take to bring the facility into compliance.

(c) The department shall annually report to the Legislature the extent of the borrowers™ compliance with their community service obligations pursuant to subdivision (j) of Section 129050, Section 129055, and Section 129065.

(Amended by Stats. 2021, Ch. 143, Sec. 239. (AB 133) Effective July 27, 2021.)

129080.

The department may impose additional appropriate remedies and sanctions against a borrower when any of the following occurs:

(a) The department determines that the annual compliance report required in Section 129075 indicates that the borrower is out of compliance with subdivision (j) of Section 129050.

(b) A facility fails to carry out the actions agreed to in a plan approved by the department pursuant to Section 129070.

(c) The facility fails to submit compliance reports as required by Section 129075. The additional remedies include referring the violation to the office of Attorney General of California for legal action authorized under existing law or other remedy at law or equity.

However, the remedies obtainable by legal action shall not include withdrawal or cancellation of the loan insurance provided under this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 240. (AB 133) Effective July 27, 2021.)

129085.

(a) If a borrower is unable to comply with subdivision (j) of Section 129050 due to selective provider contracting under the Medi-Cal program, and the department has determined the borrower has negotiated in good faith but was not awarded a contract, the borrower may be eligible for insurance under this chapter as provided in subdivision (b).

(b) The department may determine that a noncontracting borrower shall be considered as meeting the requirements of subdivision (j) of Section 129050 if the borrower otherwise provides a community service in

accordance with regulations adopted by the department. The regulations shall describe alternative methods of meeting the obligation, that may include, but not be limited to, providing free care, charity care, trauma care, community education, or primary care outreach and care to the elderly, in amounts greater than the community average. The regulations shall include a requirement that a general acute care hospital, that is not a small and rural hospital as defined in Section 124840, shall have, and continue to maintain, a 24-hour basic emergency medical service with a physician on duty, if it provided this service on January 1, 1990. The department shall have the authority to waive this requirement upon a determination by the director that this requirement would create a hardship for the hospital, be inconsistent with regionalization of emergency medical services, or not be in the best interest of the population served by the hospital.

(Amended by Stats. 2021, Ch. 143, Sec. 241. (AB 133) Effective July 27, 2021.)

129087.

The department shall develop and maintain a formal system of monitoring borrowers, in order to assist the department in detecting at the earliest possible date those borrowers who are experiencing financial difficulties. This system shall include, but shall not be limited to, all of the following:

(a) A method of tracking the receipt of information that borrowers are required by law and regulatory agreement to submit to the department.

(b) A process for thoroughly reviewing borrowers™ financial statements, budgets, auditorsmanagement letters, and health facility utilization trends.

(c) Timely and structured site visits to insured facilities.

(Amended by Stats. 2021, Ch. 143, Sec. 242. (AB 133) Effective July 27, 2021.)

129090.

Pursuant to this chapter, political subdivisions and nonprofit corporations may apply for state insurance of needed construction, improvement, or expansion loans for construction, remodeling, or acquisition of health facilities to be or already owned, established, and operated by them as provided in this chapter. Applications shall be submitted to the department by the nonprofit corporation or political subdivision authorized to construct and operate a health facility. Each application shall conform to the requirements of the department, shall be submitted in the manner and form prescribed by the department, and shall be accompanied by an application fee of one-half of 1 percent of the amount of the loan applied for, but in no case shall the application fee exceed five hundred dollars ($500). The fees shall be deposited by the department in the fund and used to defray the officesexpenditures in the administration of this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 243. (AB 133) Effective July 27, 2021.)

129092.

Notwithstanding any other provision of law, upon the application of a borrower for insurance, the

department shall perform a feasibility study relating to the proposed project, the cost of which shall be paid by the applicant. The department may retain independent consultants and require a deposit from the applicant for such services, upon submission of the application. This section shall take effect on January 1, 2001.

(Amended by Stats. 2021, Ch. 143, Sec. 244. (AB 133) Effective July 27, 2021.)

129095.

(a) The department shall not regulate, impose requirements on, or require approval by the department of a professional, or a fee charged by a professional, used by applicants for the initial application for loan insurance. The choice of any professional and the funding source used shall be left entirely to the participants.

(b) For purposes of this section, professional includes, but is not limited to, an underwriter, bond counsel, or consultant.

(c) Nothing in this section shall prohibit the department, in the event of defaults, from taking any action authorized under this chapter to protect the financial interest of the state.

(Amended by Stats. 2021, Ch. 143, Sec. 245. (AB 133) Effective July 27, 2021.)

129100.

Every applicant for insurance shall be afforded an opportunity for a fair hearing before the committee upon 10 days™ written notice to the applicant. If the department, after affording reasonable opportunity for development and presentation of the application and after receiving the advice of the committee, finds that an application complies with the requirements of this article and of Section 129020 and is otherwise in conformity with the state plan, it may approve the application for insurance. The department shall consider and approve applications in the order of relative need set forth in the state plan in accordance with Section 129020. Judicial review of a final decision made under this section may be had by filing a petition for writ of mandate. Any petition shall be filed within 30 days after the date of the final decision of the department.

(Amended by Stats. 2021, Ch. 143, Sec. 246. (AB 133) Effective July 27, 2021.)

129105.

The department may upon application of the borrower insure any loan that is eligible for insurance under this chapter, and upon the terms prescribed by the department, may make commitments for the insuring of the loans prior to their date of execution or disbursement thereon. The decision to grant loan insurance upon an application of the borrower is within the discretion of the director of the department. Showing need for the project or meeting the eligibility requirements for loan insurance and establishing financial feasibility of the project or recommendation for approval from the committee does not create any entitlement to loan insurance.

(Amended by Stats. 2021, Ch. 143, Sec. 247. (AB 133) Effective July 27, 2021.)

129110.

Any contract of insurance executed by the department under this chapter shall be conclusive evidence of the eligibility of the loan for insurance and the validity of any contract of insurance so executed shall be incontestable from the date of the execution of the contract, except in case of fraud or misrepresentation on the part of the lender.

(Amended by Stats. 2021, Ch. 143, Sec. 248. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 6. FACILITIES LOAN INSURANCE AND FINANCING [129000 - 129387]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facility Construction Loan Insurance [129000 - 129355]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 3. Defaults [129125 - 129174.1]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 9.)

129125.

In any case when the lender under a loan to a nonprofit corporation insured under this chapter shall have foreclosed and taken possession of the property under a mortgage in accordance with regulations of, and within a period to be determined by the department, or shall, with the consent of the department, have otherwise acquired the property from the borrower after default, the lender shall be entitled to receive the benefit of the insurance as provided in this section, upon (a) the prompt conveyance to the office of title to the property that meets the requirements of the regulations of the department in force at the time the loan was insured, and that is evidenced in the manner prescribed by the regulations, and (b) the assignment to the department of all claims of the lender against the borrower or others arising out of the loan transaction or foreclosure proceedings except claims that may have been released with the consent of the department. Upon the conveyance and assignment, the department shall notify the Treasurer, who shall issue to the lender debentures having a total face value equal to the outstanding value of the loan.

For the purposes of this section, the outstanding value of the loan shall be determined, in accordance with the regulations prescribed by the department, by (a) adding to the amounts of the original principal obligation of the loan and interest that are accrued and unpaid the amount of all payments that have been made by the lender for the following: taxes and assessments, ground rents, water rates, and other liens that are prior to the mortgage; charges for the administration, operation, maintenance and repair of the health facility property; insurance on the project property, loan insurance premiums, and any tax imposed by a city or county upon any deed or other instrument by which the property was acquired by the lender and transferred or conveyed to the office; and the costs of foreclosure or of acquiring the property by other means actually paid by the lender and approved by the department; and by (b) deducting from the total amount any amounts received by the lender after the borrowersdefault on account of the loans or as rent or other income from the property.

(Amended by Stats. 2021, Ch. 143, Sec. 249. (AB 133) Effective July 27, 2021.)

129130.

In any case when a political subdivision defaults on the payment of interest or principal accrued and due on bonds or other evidences of indebtedness insured under this chapter, debentures in an amount equal to the outstanding original principal obligation and interest on the bonds that were accrued and unpaid on the date of default and bearing interest at a rate equal to and payment schedule identical with those of the bonds shall be issued by the Treasurer upon notification thereof by the department to the bondholders upon the surrender of the bonds to the department.

In any case in which a hospital district defaults on the payment of interest or principal accrued and due on an insured loan secured by a first mortgage, first deed of trust, or other security agreement as authorized by Section 32127.2, debentures in an amount equal to the outstanding original principal obligation and interest on the bonds that were accrued and unpaid on the date of default and bearing interest at a rate equal to and payment schedule identical with those of the bonds shall be issued by the Treasurer upon notification thereof by the department to the bondholders upon surrender of the bonds to the department after the state has enforced its rights under the first mortgage, first deed of trust, or other security agreement.

(Amended by Stats. 2021, Ch. 143, Sec. 250. (AB 133) Effective July 27, 2021.)

129135.

Notwithstanding any requirement contained in this chapter relating to acquisition of title and possession of the project property by the lender and its subsequent conveyance and transfer to the department, and for the purpose of avoiding unnecessary conveyance expense in connection with payment of insurance benefits under the provisions of this chapter, the department may, subject to regulations that it may prescribe, permit the lender to tender to the department a satisfactory conveyance of title and transfer of possession direct from the borrower or other appropriate grantor and to pay to the lender the insurance benefits to which it would otherwise be entitled if the conveyance had been made to the lender and from the lender to the department.

(Amended by Stats. 2021, Ch. 143, Sec. 251. (AB 133) Effective July 27, 2021.)

129140.

Upon receiving notice of the default of any loan insured under this chapter, the department, in its discretion and for the purpose of avoiding foreclosure under Section 129125 and notwithstanding the fact that it has previously approved a request of the lender for extensions of the time for curing the default and of the time for commencing foreclosure proceedings or for otherwise acquiring title to the project property, or has approved a modification of the loan for the purpose of changing the amortization provisions by recasting the unpaid balance, may acquire the loan and security agreements securing the loans upon the issuance to the lender of debentures in an amount equal to the unpaid principal balance of the loan plus any accrued unpaid loan interest plus reimbursement for the costs and attorneysfees of the lender enumerated in Section 129125.

After the acquisition of the loan and security interests therefor by the department, the lender shall have no further rights, liabilities, or obligations with respect thereto. The provisions of Section 129125 relating to the issuance of debentures incident to the acquisition of foreclosed properties shall apply with respect to debentures issued under this section, and the provisions of this chapter relating to the rights, liabilities, and obligations of a lender shall apply with respect to the department when it has acquired an insured loan under this section, in accordance with and subject to any regulations prescribed by the department modifying the provisions to the extent necessary to render their application for these purposes appropriate and effective.

(Amended by Stats. 2021, Ch. 143, Sec. 252. (AB 133) Effective July 27, 2021.)

129145.

Notwithstanding any other provision of this chapter, after the department determines that the lender and borrower have exhausted all reasonable means of curing any default, the department within its discretion may, when it is in the best interests of the state, the borrower, and the lender, cure the default of the borrower by making payment from the fund directly to the lender of any amounts of the original principal obligation and interest of the loan that are accrued and unpaid. The payment shall be secured by an assignment to the department of a pro rata share of the security agreements made to the lender and, upon the payment, the borrower shall become liable for repayment of the amount thereof to the office over a period and at a rate of interest as shall be determined by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 253. (AB 133) Effective July 27, 2021.)

129150.

The department may at any time, under the terms and conditions that it may prescribe, consent to the lendersrelease of the borrower from its liability under the loan or the security agreement securing the loan, or consent to the release of parts of the project property from the lien of any security agreement.

(Amended by Stats. 2021, Ch. 143, Sec. 254. (AB 133) Effective July 27, 2021.)

129152.

If a borrower fails to submit a required report, or upon any other default of any regulatory or contractual term or covenant, whether or not a default has been declared, the department first shall informally communicate with the borrower. If the borrower fails to submit the required report or otherwise cure the default, the department shall issue a formal demand in writing stating the nature of the default and requiring the borrower to submit a detailed plan of correction that is acceptable to the office. If the borrower fails to either submit a plan, or timely cure the default, the department shall perform an onsite visit. If the department determines the borrower is not making sufficient progress in submitting any required reports or otherwise curing any default, the department may require the borrower, at the borrowersexpense, to employ an independent consultant or professional, acceptable to the department, to conduct a program audit. If the borrower fails to adopt the recommendations of the independent consultant or professional made in the program audit, or if the borrower fails to otherwise timely cure the default, the department shall have all the remedies set forth in the Section 129173.

(Amended by Stats. 2021, Ch. 143, Sec. 255. (AB 133) Effective July 27, 2021.)

129155.

Debentures issued under this chapter shall be in the form and denomination, subject to the terms and conditions, and include provisions for redemption, if any, as may be prescribed by the department with the approval of the Treasurer, and may be in coupon or registered form.

(Amended by Stats. 2021, Ch. 143, Sec. 256. (AB 133) Effective July 27, 2021.)

129160.

(a) (1)All debentures issued under this chapter to any lender or bondholder shall be executed in the name of the fund as obligor, shall be signed by the Treasurer, and shall be negotiable. Pursuant to Sections 129125 and 129130, all debentures shall be dated as of the date of the institution of foreclosure proceedings or as of the date of the acquisition of the property after default by other than foreclosure, or as of another date as the department, in its discretion, may establish.

(2)The debentures shall bear interest from that date at a rate equal to the insured loan or bonds, and shall be

payable on a payment schedule identical with payments on the insured loan or bonds. The Treasurer shall take appropriate steps to the extent feasible to provide that interest on the debentures is exempt from federal income taxation under Section 103 of the Internal Revenue Code to the extent interest on the insured loan or bonds is exempt from federal income taxation under Section 103 of the Internal Revenue Code on the date the insured loan or bonds is exchanged for debentures. All debentures shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the state or local taxing agencies, shall be paid out of the fund, which shall be primarily liable therefor, and shall be, pursuant to Section 4 of Article XVI of the California Constitution, fully and unconditionally guaranteed as to principal and interest by the State of California, which guaranty shall be expressed on the face of the debentures.

(3)If the fund fails to pay upon demand, when due, the principal of, or interest on, any debentures issued under this chapter, the Treasurer shall pay to the holders the amount thereof, which amount, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated from the General Fund, without regard to fiscal years, and thereupon to the extent of the amount so paid the Treasurer shall succeed to all the rights of the holders of the debentures. The fund shall be liable for repayment to the General Fund of any money paid from the General Fund pursuant to this section in accordance with procedures jointly established by the Treasurer and the department.

(b) Any debenture issued under this article shall be paid on a par with general obligation bonds issued by the state.

(Amended by Stats. 2021, Ch. 143, Sec. 257. (AB 133) Effective July 27, 2021.)

129165.

Notwithstanding any other provision of law relating to the acquisition, management or disposal of real property by the state, the department shall have power to deal with, operate, complete, lease, rent, renovate, modernize, insure, or sell for cash or credit, in its discretion, any properties conveyed to it in exchange for debentures as provided in this chapter; and notwithstanding any other provision of law, the department shall also have power to pursue to final collection by way of compromise or otherwise all claims against borrowers assigned by lenders to the department as provided in this chapter. All income from the operation, rental, or lease of the property and all proceeds from the sale thereof shall be deposited in the fund and all costs incurred by the office in its exercise of powers granted in this section shall be met by the fund.

The power to convey and to execute in the name of the department deeds of conveyance, deeds of release, assignments and satisfactions of loans and mortgages, and any other written instrument relating to real or personal property or any interest therein acquired by the department pursuant to the provisions of this chapter may be exercised by the department or by any officer of the department appointed by it.

(Amended by Stats. 2021, Ch. 143, Sec. 258. (AB 133) Effective July 27, 2021.)

129170.

No lender or borrower shall have any right or interest in any property conveyed to the department or in any claim assigned to it, nor shall the department owe any duty to any lender or borrower with respect to the management or disposal of this property.

(Amended by Stats. 2021, Ch. 143, Sec. 259. (AB 133) Effective July 27, 2021.)

129172.

Notwithstanding any other provision of law, if, prior to foreclosing on any collateral provided by a borrower, the department institutes a judicial proceeding or takes any action against a borrower to enforce compliance with the obligations set out in the regulatory agreement, the contract of insurance, or any other contractual loan closing document or law, including, but not limited to, Section 129173, that remedy or action shall not constitute an action within the meaning of subdivision (a) of Section 726 of the Code of Civil Procedure, or in any way constitute a violation of the intent or purposes of Section 726 of the Code of Civil Procedure, or constitute a money judgment or a deficiency judgment within the meaning of Sections 580a, 580b, 580d, or subdivision (b) of Section 726 of the Code of Civil Procedure. However, these provisions of the Code of Civil Procedure shall apply to any judicial proceeding instituted, or nonjudicial foreclosure action taken by the department to collect the principal and interest due on the loan with the borrower.

(Amended by Stats. 2021, Ch. 143, Sec. 260. (AB 133) Effective July 27, 2021.)

129173.

(a) In fulfilling the purposes of this article, as set forth in Section 129005, and upon making a determination that the financial status of a borrower may jeopardize a borrowersability to fulfill its obligations under any insured loan transaction so as to threaten the economic interest of the department in the borrower or to jeopardize the borrowersability to continue to provide needed health care services in its community, including, but not limited to, a declaration of default under any contract related to the transaction, the borrower missing any payment to its lender, or the borrowersaccounts payable exceeding three months, the department may assume or direct managerial or financial control of the borrower in any or all of the following ways:

(1) The department may supervise and prescribe the activities of the borrower in the manner and under the terms and conditions as the office may stipulate in any contract with the borrower.

(2) Notwithstanding the provisions of the articles of incorporation or other documents of organization of a nonprofit corporation borrower, this control may be exercised through the removal and appointment by the department of members of the governing body of the borrower sufficient so that the new members constitute a voting majority of the governing body.

(3) In the event the borrower is a nonprofit corporation or a political subdivision, the department may request the Secretary of the California Health and Human Services Agency to appoint a trustee. The trustee shall have full and complete authority of the borrower over the insured project, including all property on which the department holds a security interest. No trustee shall be appointed unless approved by the department. A trustee appointed by the secretary pursuant to this subdivision may exercise all the powers of the officers and directors of the borrower, including the filing of a petition for bankruptcy. No action at law or in equity may be maintained by any party against the office or a trustee by reason of their exercising the powers of the officers and directors of a borrower pursuant to the direction of, or with the approval of, the secretary.

(4) The department may institute any action or proceeding, or the department may request the Attorney

General to institute any action or proceeding against any borrower, to obtain injunctive or other equitable relief, including the appointment of a receiver for the borrower or the borrowersassets, in the superior court in and for the county in which the assets or a substantial portion of the assets are located. The proceeding under this section for injunctive relief shall conform with the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the department shall not be required to allege facts necessary to show lack of adequate remedy at law, or to show irreparable loss or damage. Injunctive relief may compel the borrower, its officers, agents, or employees to perform each and every provision contained in any regulatory agreement, contract of insurance, or any other loan closing document to which the borrower is a party, or any obligation imposed on the borrower by law, and require the carrying out of any and all covenants and agreements and the fulfillment of all duties imposed on the borrower by law or those documents.

A receiver may be appointed pursuant to Chapter 5 (commencing with Section 564) of Title 7 of Part 2 of the Code of Civil Procedure. In cooperation with the Attorney General, the department shall develop and maintain a list of receivers who have demonstrated experience both in the health care field and as a receiver. Upon a proper showing, the court shall grant the relief provided by law and requested by the department or the Attorney General. No receiver shall be appointed unless approved by the department. The department shall establish reporting requirements for receivers to ensure that the department is fully apprised of all costs incurred and progress made by the receiver. A receiver appointed by the superior court pursuant to this subdivision and Section 564 of the Code of Civil Procedure may, with the approval of the court, exercise all of the powers of the officers and directors of the borrower, including the filing of a petition for bankruptcy. No action at law or in equity may be maintained by any party against the department, the Attorney General, or a receiver by reason of their exercising the powers of the officers and directors of a borrower pursuant to the order of, or with the approval of, the superior court.

(5) The borrower shall inform the department in advance of all meetings of its governing body. The borrower shall not exclude the department from attending any meeting of the borrowersgoverning body.

(b) Other than the loan insured under this chapter, the department shall not be liable for any debt of a borrower, or to a borrower, as a result of the department asserting its legal remedies against a borrower insured under this chapter.

(c) It is the intent of the Legislature that this section is remedial in nature, and is applicable retroactively to any health facility construction loans in existence at the time of its enactment, to the extent that the application of this section does not unlawfully impair existing contract rights.

(Amended by Stats. 2021, Ch. 143, Sec. 261. (AB 133) Effective July 27, 2021.)

129174.

(a) In the event a borrower has defaulted in making its payments on the loan insured by the department to the lender or the borrowersbond trustee, at any time thereafter, the office may do any of the following:

(1) Decease a portion or all of the bonds or may purchase a portion or all of the bonds at a private or public sale or on the open market. For this purpose, the department may use any funds available, including, but not limited to, funds in the Health Facility Construction Loan Insurance Fund, funds that the department may receive either from settlement or recoveries from lawsuits, funds from the sale of assets of the borrower, or funds held by the borrowersbond trustee. If requested by the department, the Treasurer shall purchase the bonds on behalf of the office. Upon the purchase of any bonds under this section, the department shall

direct the borrowersbond trustee to cancel the bonds purchased.

(2) Issue bonds used for the sole purpose of refunding any part or all of the defaulted bonds, provided that, in the opinion of the department, there are adequate present value savings to refund all or part of the defaulted bonds. If requested by the department, the Treasurer shall act as the issuer for this purpose.

(3) Require the lender or borrowersbond trustee to accelerate the borrowersdebt and the maturity dates of the bonds, if any. If the bond trustee accelerates the bond debt and maturity dates, the department shall pay from the fund to the lender or borrowersbond trustee the full amount of the remaining principal of the loan, any interest accrued and unpaid on this amount, and any costs enumerated in Section 129125.

(b) For the purposes of this section, bonds mean bonds, certificate of participation, notes, or other evidence of indebtedness of a loan insured by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 262. (AB 133) Effective July 27, 2021.)

129174.1.

In the event an obligor on a loan insured by the department is the subject of an order for relief in bankruptcy and that a plan has been proposed for confirmation, upon a certification by the department that the insurance is in place and would be in place if the plan were confirmed, then the department shall have the right to vote whether to accept or reject the plan on behalf of the holders of the loan insured by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 263. (AB 133) Effective July 27, 2021.)

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 4. Termination of Insurance [129175 - 129185]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 9.)

129175.

Should a borrower be more than 10 days delinquent in paying the premium charges or inspection fees for insurance under this chapter, the department shall notify the borrower in writing. If that payment remains delinquent more than 30 days after the sending of the departmentsnotice to the borrower, the department shall make every reasonable effort to notify the lender in writing. If that delinquency continues, on the 31st day after sending of the departmentsnotice to the lender, the insurance shall be terminated and become null and void.

(Amended by Stats. 2021, Ch. 143, Sec. 264. (AB 133) Effective July 27, 2021.)

129180.

The obligation to pay any subsequent premium charge for insurance shall cease, and all rights of the lender and the borrower under this chapter shall terminate as of the date of the notice, as herein provided, in the event that (a) any lender under a loan forecloses on the mortgaged property, or has otherwise acquired the project property from the borrower after default, but does not convey the property to the department in accordance with this chapter, and the department is given written notice thereof, or (b) the borrower pays the obligation under the loan in full prior to the maturity thereof, and the department is given written notice thereof.

(Amended by Stats. 2021, Ch. 143, Sec. 265. (AB 133) Effective July 27, 2021.)

129185.

The department is authorized to terminate any insurance contract upon joint request by the borrower and the lender and upon payment of a termination charge that the department determines to be equitable, taking into consideration the necessity of protecting the fund. Upon the termination, borrowers and lenders shall be entitled to the rights, if any, that they would be entitled to under this chapter if the insurance contract were terminated by payment in full of the insured loan.

(Amended by Stats. 2021, Ch. 143, Sec. 266. (AB 133) Effective July 27, 2021.)

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 5. Health Facility Construction Loan Insurance Fund [129200 - 129215]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 9.)

129200.

There is hereby established a Health Facility Construction Loan Insurance Fund, that shall be used by the department as a revolving fund for carrying out the provisions and administrative costs of this chapter. Notwithstanding Section 13340 of the Government Code, the money in the fund is hereby continuously appropriated to the department without regard to fiscal years for the purposes of this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 267. (AB 133) Effective July 27, 2021.)

129205.

Moneys in the fund not needed for the current operations of the department under this chapter shall be

invested pursuant to law. The department may, with the approval of the State Treasurer, purchase the debentures issued under this chapter. Debentures so purchased shall be canceled and not reissued.

(Amended by Stats. 2021, Ch. 143, Sec. 268. (AB 133) Effective July 27, 2021.)

129210.

(a) The departmentsauthorization to insure health facility construction, improvement, and expansion loans under this chapter shall be limited to a total of not more than three billion dollars ($3,000,000,000).

(b) Notwithstanding the limitation in subdivision (a), the department may exceed the specific dollar limitation in either of the following instances:

(1) Refinancing a preexisting loan, if the refinancing results in savings to the health facility and increases the probability that a loan can be repaid.

(2) The need for financing results from earthquakes or other natural disasters.

(Amended by Stats. 2021, Ch. 143, Sec. 269. (AB 133) Effective July 27, 2021.)

129215.

The Health Facility Construction Loan Insurance Fund, established pursuant to Section 129200, shall be a trust fund and neither the fund nor the interest or other earnings generated by the fund shall be used for any purpose other than those purposes authorized by this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 5.5. Advisory Loan Insurance Committee [129220 - 129221]__

(Article 5.5 added by Stats. 1999, Ch. 848, Sec. 24.)

129220.

The department shall establish an Advisory Loan Insurance Committee which shall be comprised of nine members, eight of whom shall be appointed by the director of the department. Of the nine members, seven shall be appointed from outside state government and two shall be appointed from inside state government. The Director of Finance shall appoint one of the members chosen from inside state government. The members of the committee shall be qualified in the field of financial analysis, management, operations, or construction, improvement, or expansion of health facilities. Those members appointed from outside state government shall be reimbursed one hundred dollars ($100) for each day spent in the performance of official duties. All members shall be reimbursed for reasonable and necessary expenses.

(Amended by Stats. 2021, Ch. 143, Sec. 270. (AB 133) Effective July 27, 2021.)

129221.

The duties of the committee shall include, but not be limited to, the following:

(a) The committee shall assist the director of the department in formulating policy concerning financial analysis, management, operation, or construction, improvement, or expansion of health facilities, and shall, at the request of the director of the department, provide overall policy advice, guidance, and recommendations. The committee shall also provide the department with advice and comment on the state plan prepared pursuant to Section 129020.

(b) The committee shall also review and analyze the feasibility, level of financial risk, and community benefit assessments made by the department on applications submitted for approval. The committee shall recommend to the director whether an application should be approved and whether any conditions should be attached to that approval. Loans that are currently insured by the department and subsequently are refinanced to obtain a lower interest rate or emergency working capital loans insured pursuant to Section 129091 shall not require the review of the committee.

(Amended by Stats. 2021, Ch. 143, Sec. 271. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 6. FACILITIES LOAN INSURANCE AND FINANCING [129000 - 129387]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facility Construction Loan Insurance [129000 - 129355]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 6. Community Mental Health Facilities Loan Insurance [129225 - 129260]__

(Article 6 added by Stats. 1995, Ch. 415, Sec. 9.)

129225.

This article shall be known as, and may be cited as, the Community Mental Health Facilities Loan Insurance Law.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129230.

It is the intent of the Legislature in enacting this article to encourage the development of facilities for community-based programs that assist mental health clients living in any institutional setting, including state

and local inpatient hospitals, skilled nursing homes, intermediate care facilities, and community care facilities to move to more independent living arrangements. It is further the intent of the Legislature to encourage local programs to seek funding for facility development from private sources and with the assistance provided pursuant to this chapter.

To achieve this purpose in determining eligibility for loan insurance pursuant to this chapter, the following special provisions apply to facilities approved in the local mental health program and meeting the intentions of this article:

(a)Facilities shall not require approval pursuant to Section 129295 by the statewide system of health facility planning, the area health planning agency, or the Health Advisory Council, for the issuance of loan insurance, unless specifically required for the facilities by the facility category of licensure.

(b)Notwithstanding subdivision (i) of Section 129050, any loan of under three hundred thousand dollars ($300,000) for a nonprofit corporation as well as a political subdivision may be fully insured equal to the total construction cost, except a loan to any proprietary corporation that is insured pursuant to subdivision (d) of this section.

(c)The local mental health program may provide all application fees, inspection fees, premiums and other administrative payments required by this chapter, except with respect to any loan to a proprietary corporation that is insured pursuant to subdivision (d) of this section.

(d)The borrower may be a proprietary corporation, provided that the facility is leased to the local mental health program for the duration of the insurance agreement. In these instances, all provisions in this chapter and this article that apply to a nonprofit corporation shall apply to the proprietary corporation, except as provided in subdivisions (b) and (c) of this section.

(e)For the purposes of this article, subdivision (c) of Section 129010 shall include the purchase of existing buildings.

(f)Facilities shall not require approval pursuant to Section 129020 by the statewide system of health facility planning, the area health planning agency, or the Health Advisory Council, for the issuance of loan insurance, until the director of the department determines that the state plan developed pursuant to Section 129020 adequately and comprehensively addresses the need for community mental health facilities and that finding is reported to the appropriate policy committees of the Legislature.

(Amended by Stats. 2021, Ch. 143, Sec. 272. (AB 133) Effective July 27, 2021.)

129235.

Loans of under three hundred thousand dollars ($300,000) for any single facility shall have priority for obtaining loan insurance under the special provisions established pursuant to Section 129230.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129240.

The total amount of loans that may be insured pursuant to this article shall not exceed fifteen million dollars ($15,000,000).

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129245.

No loan insurance shall be provided pursuant to this article for the purpose of providing psychiatric inpatient services in an acute psychiatric hospital or a general acute care hospital.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129250.

The Legislative Analyst shall review and comment on the utilization and effectiveness of this article in the annual budget analysis and in hearings.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129255.

If, in construing Article 6 (commencing with Section 129225) of this chapter as applied to the other provisions of this chapter, any conflict arises, this article shall prevail over the other provisions of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129260.

If any provision of this article or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of this article that can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 6. FACILITIES LOAN INSURANCE AND FINANCING [129000 - 129387]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facility Construction Loan Insurance [129000 - 129355]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 7. Small Facility Loan Guarantee for Developmental Disability Programs [129275 - 129295]__

(Article 7 added by Stats. 1995, Ch. 415, Sec. 9.)

129275.

This article shall be known, and may be cited, as the Small Facility Loan Guarantee for Programs Serving People with Developmental Disabilities.

(Amended by Stats. 2010, Ch. 730, Sec. 2. (AB 1629) Effective October 19, 2010.)

129280.

The State of California has a compelling interest in the development of facilities for community-based programs that assist persons with a developmental disability living in an institutional setting to transition to more independent living arrangements. In order to meet this significant community need, it is further the intent of the Legislature to encourage programs to seek funding for facility development from private sources and with the assistance provided pursuant to this chapter.

To achieve this purpose in determining eligibility for loan insurance pursuant to this chapter, the following special provisions apply to facilities developed pursuant to Section 4688.5 of the Welfare and Institutions Code and meeting the intentions of this article:

(a)For purposes of this article, the following definitions shall apply:

(1)Borrower shall mean a political subdivision or nonprofit corporation approved by the regional center as an ownership entity that owns the project property.

(2)Long-term residency lease agreement shall mean a lease by the borrower, as lessor, of facilities developed pursuant to Section 4688.5 of the Welfare and Institutions Code to a service provider selected by a regional center, as lessee, having a term of at least as long as the term of the insured loan.

(3)Nonprofit corporation shall mean a corporation formed under or subject to the Nonprofit Public Benefit Corporation Law (Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code) or a limited liability company (LLC) whose sole member is a corporation formed under or subject to the Nonprofit Public Benefit Corporation Law (Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code) that meets applicable sections of the federal Internal Revenue Code governing nonprofit status.

(4)Regional center shall mean a private nonprofit corporation that contracts with the state and is organized pursuant to Chapter 5 (commencing with Section 4620) of Division 4.5 of the Welfare and Institutions Code.

(5)Service provider shall mean an entity with the appropriate license, if required, that contracts with a regional center to provide services to persons eligible for regional center services.

(b)Notwithstanding subdivisions (i), (l), and (m) of Section 129050, any loan made pursuant to this article for a nonprofit corporation or a political subdivision may be fully insured equal to the total cost of construction, improvement, and expansion, which may exceed the current value of the health facility, including improvements, when supported by other security for, or guaranty of, the debt.

(c)The Golden Gate Regional Center, Regional Center of the East Bay, and San Andreas Regional Center shall provide for, secure, and ensure the full payment of a lease or leases developed pursuant to Section 4688.5 of the Welfare and Institutions Code.

(Amended by Stats. 2010, Ch. 730, Sec. 3. (AB 1629) Effective October 19, 2010.)

129285.

(a)Loans of under three hundred thousand dollars ($300,000) for any single facility for six or fewer developmentally disabled shall have priority for obtaining loan insurance.

(b)The total amount of loans that may be insured pursuant to this article shall not exceed one hundred million dollars ($100,000,000).

(Amended by Stats. 2010, Ch. 730, Sec. 4. (AB 1629) Effective October 19, 2010.)

129290.

If any provision of this article or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of this article that can be given effect without the invalid provision or application, and to this end the provisions of this article are severable.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129295.

The department may insure, pursuant to this article, loans to nonprofit borrowers that are not licensed to operate the facilities for which the loans are insured, provided that the borrower has entered into a long-term residency lease agreement with a service provider selected by the applicable regional center to operate that facility. The number of facilities for which loans are insured under this section shall not exceed 100 and the aggregate amount of loans insured under this section shall not exceed one hundred million dollars ($100,000,000).

(Amended by Stats. 2021, Ch. 143, Sec. 273. (AB 133) Effective July 27, 2021.)

Codes Display Text

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 6. FACILITIES LOAN INSURANCE AND FINANCING [129000 - 129387]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facility Construction Loan Insurance [129000 - 129355]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 9. Rural Hospital Grant Program [129325 - 129335]__

(Article 9 added by Stats. 1995, Ch. 415, Sec. 9.)

129325.

It is the intent of the Legislature in enacting this article to assist rural hospitals that play a vital role in the health delivery system. The Legislature recognizes the difficulties rural hospitals encounter meeting urban hospital standards while serving a small, rural, or tourist patient base. However, it is not the intent of the Legislature to provide assistance to facilities that can only survive with continuous subsidies. Rather, it is the intent of the Legislature, through this program, to encourage the development and transition to an alternative rural hospital model, and to provide essential access to services not available at the alternative rural hospital level.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129330.

In each even-numbered year, the department shall contract for an actuarial study to determine the reserve sufficiency of funds in the Health Facility Construction Loan Insurance Fund. The study shall examine the portfolio of existing insured loans and shall estimate the amount of reserve funds that the department should reasonably have available to be able to respond adequately to potential foreseeable risks, including extraordinary administrative expenses and actual defaults. Actuarial study contracts shall be exempt from Section 10373 of the Public Contract Code and shall be considered sole-source contracts.

(Amended by Stats. 2021, Ch. 143, Sec. 274. (AB 133) Effective July 27, 2021.)

129335.

(a) In each odd-numbered year when the reserve balance in the fund is projected to be in excess of that actuarially needed, the department may, subject to authority in the Budget Act, grant excess reserve funds to rural hospitals.

(b) Whenever the department administers the grant program, it shall do so by a competitive process where potential grantees have sufficient time to apply. Priority for funds shall be given to alternative rural hospitals and rural hospitals that are sole community providers. Priority shall also be given to applicants that are otherwise financially viable, but request one-time financial assistance for equipment expenditures or other capital outlays. The maximum amount of any grant for a single project in any one grant year shall be two hundred fifty thousand dollars ($250,000).

(c) For the purposes of this article, rural hospital shall have the same meaning as contained in subdivision (a) of Section 124840.

(Amended by Stats. 2021, Ch. 143, Sec. 275. (AB 133) Effective July 27, 2021.)

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 6. FACILITIES LOAN INSURANCE AND FINANCING [129000 - 129387]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facility Construction Loan Insurance [129000 - 129355]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 10. Community Health Center Facilities Loan Insurance [129350 - 129355]__

(Article 10 added by Stats. 1995, Ch. 415, Sec. 9.)

129350.

This article shall be known and may be cited as the Community Health Center Facilities Loan Insurance Law.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129355.

(a) Community health center facilities, as used in this article, means those licensed, nonprofit primary care clinics as defined in paragraph (1) of subdivision (a) of Section 1204.

(b) Notwithstanding subdivision (i) of Section 129050, any loan in the amount of five million dollars ($5,000,000) or less for a community health center facility pursuant to this chapter may be insured up to 95 percent of the total construction cost.

(c) Community health center facilities applying for any loan insurance pursuant to this chapter, may use

existing equity in buildings, equipment, and donated assets, including, but not limited to, land and receipts from expenses related to the capital outlay for the project, notwithstanding the date of occurrence to meet the equity requirements of this chapter. In determining the value of the equity in any donated property, the department may use the original purchase price or the current appraised value.

(d) Any state plan referred to in Section 129020 developed by the department shall include a chapter identifying any impediments that preclude small facilities from utilizing the California Health Facility Construction Loan Insurance Program. The state plan shall also include specific programmatic remedies to enable small projects to utilize the program if impediments are found.

(Amended by Stats. 2021, Ch. 143, Sec. 276. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 6. FACILITIES LOAN INSURANCE AND FINANCING [129000 - 129387]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 4. Distressed Hospital Loan Program [129380 - 129387]__

(Chapter 4 added by Stats. 2023, Ch. 6, Sec. 3.)

129380.

(a)This program shall be known, and may be cited, as the Distressed Hospital Loan Program.

(b)The purpose of this program is to provide interest-free cashflow loans to not-for-profit hospitals and public hospitals in significant financial distress or to governmental entities representing a closed hospital, except as otherwise provided, to prevent the closure of, or facilitate the reopening of, those hospitals.

(Added by Stats. 2023, Ch. 6, Sec. 3. (AB 112) Effective May 15, 2023. Repealed as of January 1, 2032, pursuant to Section 129387.)

129381.

For the purposes of this chapter, the following definitions apply:

(a)Authority means the California Health Facilities Financing Authority.

(b)Closed hospital means a hospital that closed after January 1, 2022.

(c)Department means the Department of Health Care Access and Information.

(d)Not-for-profit hospital means the same as a general acute care hospital described in paragraph (1) of subdivision (d) of Section 15432 of the Government Code that is organized as a not-for-profit entity.

(e)Program means the Distressed Hospital Loan Program.

(f)Public hospital means a hospital that is licensed to a county, a city, a city and county, the University of California, a local health care district, a local health authority, or a municipal hospital established pursuant to Article 7 (commencing with Section 37600) of Chapter 5 of Part 2 of Division 3 of Title 4 of the Government Code.

(Added by Stats. 2023, Ch. 6, Sec. 3. (AB 112) Effective May 15, 2023. Repealed as of January 1, 2032, pursuant to Section 129387.)

129382.

(a)The department shall administer the program, subject to subdivision (d) of Section 129385, for purposes of this chapter.

(b)The department shall enter into an interagency agreement with the authority to implement this chapter.

(Added by Stats. 2023, Ch. 6, Sec. 3. (AB 112) Effective May 15, 2023. Repealed as of January 1, 2032, pursuant to Section 129387.)

129383.

(a)In collaboration with the State Department of Health Care Services, the Department of Managed Health Care, and the State Department of Public Health, the department shall develop a methodology to evaluate an at-risk hospitalspotential eligibility for state assistance from the program.

(1)(A)The methodology shall consider factors, including, but not limited to, whether the hospital is in financial distress, as solely determined by the department, whether the hospital is small, rural, a critical access hospital, a trauma center, an urban hospital providing access for an underserved area, a hospital that serves a disproportionate share of Medicaid patients, or serving a rural catchment area, whether closure of the hospital would significantly impact access to services in the region, and whether the hospital is publicly owned.

(B)The methodology for determining financial distress may consider such factors as the hospitalsprior and projected performance on financial metrics, including the amount of cash on hand, and whether the hospital has, or is projected to experience, negative operating margins.

(2)The methodology shall also be used for identification and monitoring of hospitals at risk of financial distress.

(b)A hospital or a closed hospital applying for aid under this program shall provide the authority and the department with financial information, in a format determined by the authority and the department, demonstrating the hospitalsneed for financial assistance due to financial hardship.

(c)(1)Before receiving state assistance under this program, an eligible hospital shall submit a plan to the authority, which it shall share with the department, with projections detailing the uses of the proposed loan and strategies proposed by the hospitalsgoverning body to regain financial viability and continue to operate.

(2)Before issuing a loan under this chapter, the department shall review the plan submitted by an eligible hospital and make a determination that the plan is viable and there is a reasonable likelihood that the hospital will be able to regain financial viability and continue to operate as a hospital. The department shall not issue a loan award if the department is unable to make this determination.

(d)The department shall issue the loan award to a qualifying hospital as soon as reasonably practicable following its eligibility determination.

(e)Not-for-profit hospitals and public hospitals that belong to integrated health care systems with more than two separately licensed hospital facilities shall be ineligible for state assistance under the program.

(f)The department shall, in consultation with the authority, determine the application process, underwriting review, and methodology for approval and distribution of the loans under the program.

(g)The department shall have the authority to determine service provision requirements in approving, and for the duration of, loans to eligible hospitals. In making its determination, the department shall consider the impact of any changes to the hospitalsservice delivery on access to necessary medical care, particularly for beneficiaries of the Medi-Cal program.

(h)The department shall make the methodology publicly accessible on its internet website.

(Added by Stats. 2023, Ch. 6, Sec. 3. (AB 112) Effective May 15, 2023. Repealed as of January 1, 2032, pursuant to Section 129387.)

129384.

(a)Notwithstanding Sections 15432 and 15451.5 of the Government Code, unless subdivision (c) applies, a hospital shall be required to begin making monthly repayments of the loan after the first 18 months and shall discharge the loan within 72 months of the date of the loan.

(b)Notwithstanding any other law and to the extent permissible under federal rules, security for the cashflow loans in this chapter shall be Medi-Cal reimbursements due to the hospital from the State Department of Health Care Services. The departmentsor authoritysrecoupment of these cashflow loans shall not exceed 20 percent of the hospitalsrespective Medi-Cal checkwrite payments until the loan amount has been satisfied. In the event that a 20-percent withhold will not result in full repayment of the loan within a 72-month period, the department may extend the repayment term of the loan.

(c)(1)The department, in consultation with the authority, and upon approval of the Department of Finance, shall develop an application and approval process for loan forgiveness or modification of the terms of the loan, including a delay of the beginning of the loan repayment period or an extension of the 72-month loan repayment term, or both. The process shall include, but is not limited to, eligibility criteria for an applicant for loan forgiveness or modification, including which portion of a loan may be forgiven or modified.

(2)The department shall provide loan forgiveness or modification of loan terms to an applicant based upon criteria determined by the department and subject to the approval of the department and the authority. The Department of Finance shall be authorized to approve any loan forgiveness and any modification of loan terms that would result in the extension of the payback period by more than one year.

(3)The department shall also establish the terms and conditions associated with accepting loan forgiveness or modification of loan terms, subject to approval of the Department of Finance.

(4)Before any action on a request for forgiveness or modification of any loan that would result in the extension of the payback period by more than one year, and again not later than 60 days after final approval or denial of the forgiveness or modification, the department shall submit to the Joint Legislative Budget Committee and relevant policy and fiscal committees of the Legislature notice of the request and the subsequent action, including a summary of the request and reason for the denial, approval, or modification.

(Added by Stats. 2023, Ch. 6, Sec. 3. (AB 112) Effective May 15, 2023. Repealed as of January 1, 2032, pursuant to Section 129387.)

129385.

(a)The Distressed Hospital Loan Program Fund is hereby established in the State Treasury. The fund shall be administered by the department consistent with this chapter.

(b)Notwithstanding Section 13340 of the Government Code, all moneys in the fund are continuously appropriated, without regard to fiscal years, for the department and the authority to implement this chapter.

(c)The authority shall make secured loans from the Distressed Hospital Loan Program Fund to a hospital or to a governmental entity representing a closed hospital, for purposes of preventing the closure, or facilitating the reopening, of the hospital.

(d)The department may allocate an amount not to exceed 5 percent of total program funds to administer the program, including, but not limited to, administrative costs to the authority. Any funds transferred shall be available for encumbrance or expenditure until June 30, 2026.

(e)(1)The Department of Finance may transfer up to one hundred fifty million dollars ($150,000,000) from the General Fund to the Distressed Hospital Loan Program Fund between state fiscal years 2022“23 and 2023“24 to implement this chapter.

(2)The Department of Finance may transfer, subject to Section 14105.200 of the Welfare and Institutions Code, up to one hundred fifty million dollars ($150,000,000) from the Medi-Cal Provider Payment Reserve Fund to the Distressed Hospital Loan Program Fund in state fiscal year 2023“24 to implement this chapter.

(f)All moneys accruing to the authority and the department under this chapter from any source shall be deposited into the fund.

(g)The Treasurer may invest moneys in the fund that are not required for its current needs in eligible securities specified in Section 16430 of the Government Code and may transfer moneys in the fund to the Surplus Money Investment Fund for investment pursuant to Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code.

(h)Notwithstanding Section 16305.7 of the Government Code, all interest or other increment resulting from the investment or deposit of moneys from the fund shall be deposited in the fund.

(i)Moneys in the fund shall not be subject to transfer to any other funds pursuant to any provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, except to the Surplus Money Investment Fund.

(j)Effective December 31, 2031, the Distressed Hospital Loan Program Fund in the State Treasury, created pursuant to this chapter, is hereby abolished. After accounting for all final program transactions, any remaining Distressed Hospital Loan Program Fund reserves shall be returned to the source of origin, in the amounts of up to one hundred fifty million dollars ($150,000,000) to the General Fund, and up to one hundred fifty million dollars ($150,000,000) to the Medi-Cal Provider Payment Reserve Fund. Any other remaining balance, assets, liabilities, and encumbrances of the Distressed Hospital Loan Program Fund shall revert to the General Fund. The department shall deposit all subsequent loan repayments or Medi-Cal reimbursements withheld for due cause pursuant to subdivision (b) of Section 129384 to the Treasurer, to the credit of the General Fund.

(k)The department and the authority may require any hospital receiving a loan under this chapter to provide the department and the authority with an independent financial audit of the hospitalsoperations for any fiscal year in which a loan is outstanding.

(Amended by Stats. 2023, Ch. 42, Sec. 55. (AB 118) Effective July 10, 2023. Repealed as of January 1, 2032, pursuant to Section 129387.)

129386.

(a)Notwithstanding the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), the authority and the department may implement, interpret, or make specific this chapter, in whole or in part, by means of information notices or other similar instructions, without taking any further regulatory action.

(b)For purposes of implementing this chapter, the authority and the department may enter into exclusive or nonexclusive contracts, or amend existing contracts, on a bid or negotiated basis. Contracts entered into or amended pursuant to this subdivision shall be exempt from Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code, Section 19130 of the Government Code, Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, and the State Administrative Manual, and shall be exempt from the review or approval of any division of the Department of General Services.

(Added by Stats. 2023, Ch. 6, Sec. 3. (AB 112) Effective May 15, 2023. Repealed as of January 1, 2032, pursuant to Section 129387.)

129387.

This chapter shall remain in effect only until January 1, 2032, and as of that date is repealed.

(Added by Stats. 2023, Ch. 6, Sec. 3. (AB 112) Effective May 15, 2023. Repealed as of January 1, 2032, by its own provisions. Note: Repeal affects Chapter 4, commencing with Section 129380.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 7. FACILITIES DESIGN REVIEW AND CONSTRUCTION [129675 - 130079]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facilities [129675 - 130070]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 1. General Provisions [129675 - 129680]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 9.)

129675.

This chapter shall be known and may be cited as the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129680.

(a) It is the intent of the Legislature that hospital buildings that house patients who have less than the capacity of normally healthy persons to protect themselves, and that must be reasonably capable of providing services to the public after a disaster, shall be designed and constructed to resist, insofar as

practical, the forces generated by earthquakes, gravity, and winds. In order to accomplish this purpose, the department shall propose proper building standards for earthquake resistance based upon current knowledge, and provide an independent review of the design and construction of hospital buildings.

(b) Local jurisdictions are preempted from the enforcement of all building standards published in the California Building Standards Code relating to the regulation of hospital buildings and the enforcement of other regulations adopted pursuant to this chapter, and all other applicable state laws, including plan checking and inspection of the design and details of the architectural, structural, mechanical, plumbing, electrical, and fire and panic safety systems, and the observation of construction. The department shall assume these responsibilities.

(c) Where local jurisdictions have more restrictive requirements for the enforcement of building standards, other building regulations, and construction supervision, these requirements shall be enforced by the department.

(d) Each local jurisdiction shall keep the department advised as to the existence of any more restrictive local requirements. Where a reasonable doubt exists as to whether the requirements of the local jurisdiction are more restrictive, the effect of these requirements shall be determined by the Hospital Building Safety Board.

It is further the intent of the Legislature that the department, with the advice of the Hospital Building Safety Board, may conduct or enter into contracts for research regarding the reduction or elimination of seismic or other safety hazards in hospital buildings or research regarding hospital building standards.

(Amended by Stats. 2021, Ch. 143, Sec. 278. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 7. FACILITIES DESIGN REVIEW AND CONSTRUCTION [129675 - 130079]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facilities [129675 - 130070]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 2. Definitions [129700 - 129745]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 9.)

129700.

Unless the context otherwise requires, the definitions in this article govern the construction of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129705.

Architect means a person who is certified and holds a valid license under Chapter 3 (commencing with Section 5500) of Division 3 of the Business and Professions Code.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129710.

Construction or alteration includes any construction, reconstruction, or alteration of, or addition to, any hospital building.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129715.

Director means the Director of the Department of Health Care Access and Development.

(Amended by Stats. 2021, Ch. 143, Sec. 279. (AB 133) Effective July 27, 2021.)

129720.

Engineering geologist means a person who is validly certified under Chapter 12.5 (commencing with Section 7800) of Division 3 of the Business and Professions Code.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129725.

(a) (1) Hospital building includes any building not specified in subdivision (b) that is used, or designed to be used, for a health facility of a type required to be licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2.

(2) Except as provided in paragraph (7) of subdivision (b), hospital building includes a correctional treatment center, as defined in subdivision (j) of Section 1250, the construction of which was completed on or after March 7, 1973.

(b) Hospital building does not include any of the following:

(1) Any building where outpatient clinical services of a health facility licensed pursuant to Section 1250 are provided that is separated from a building in which hospital services are provided. If any one or more outpatient clinical services in the building provides services to inpatients, the building shall not be included as a hospital building if those services provided to inpatients represent no more than 25 percent of the total outpatient services provided at the building. Hospitals shall maintain on an ongoing basis, data on the patients receiving services in these buildings, including the number of patients seen, categorized by their inpatient or outpatient status. Hospitals shall submit this data annually to the State Department of Public Health.

(2) A building used, or designed to be used, for a skilled nursing facility or intermediate care facility if the building is of single-story, wood-frame, or light steel frame construction.

(3) A building of single-story, wood-frame, or light steel frame construction where only skilled nursing or intermediate care services are provided if the building is separated from a building housing other patients of the health facility receiving higher levels of care.

(4) A freestanding structure of a chemical dependency recovery hospital exempted under subdivision (c) of Section 1275.2.

(5) A building licensed to be used as an intermediate care facility/developmentally disabled habilitative with six beds or less and an intermediate care facility/developmentally disabled habilitative of 7 to 15 beds that is a single-story, wood-frame, or light steel frame building.

(6) A building subject to licensure as a correctional treatment center, as defined in subdivision (j) of Section 1250, the construction of which was completed before March 7, 1973.

(7) (A) A building that meets the definition of a correctional treatment center, pursuant to subdivision (j) of Section 1250, for which the final design documents were completed or the construction of which was initiated before January 1, 1994, operated by or to be operated by the Department of Corrections and Rehabilitation, or by a law enforcement agency of a city, county, or a city and county.

(B) In the case of reconstruction, alteration, or addition to, the facilities identified in this paragraph, and paragraph (6) or any other building subject to licensure as a general acute care hospital, acute psychiatric hospital, correctional treatment center, or nursing facility, as defined in subdivisions (a), (b), (j), and (k) of Section 1250, operated or to be operated by the Department of Corrections and Rehabilitation, or by a law enforcement agency of a city, county, or city and county, only the reconstruction, alteration, or addition,

itself, and not the building as a whole, nor any other aspect thereof, shall be required to comply with this chapter or the regulations adopted pursuant thereto.

(8)A freestanding building used, or designed to be used, as a congregate living health facility, as defined in subdivision (i) of Section 1250.

(9)A freestanding building used, or designed to be used, as a hospice facility, as defined in subdivision (n) of Section 1250.

(Amended by Stats. 2013, Ch. 76, Sec. 131. (AB 383) Effective January 1, 2014.)

129730.

(a) Space for the following functions shall be considered outpatient clinical services, when provided in a freestanding building that is separated from a hospital building where inpatient hospital services are provided: administrative space; central sterile supply; storage; morgue and autopsy facilities; employee dressing rooms and lockers; janitorial and housekeeping facilities; and laundry.

(b) The outpatient portions of the following services may also be delivered in a freestanding building and shall be considered outpatient clinical services: surgical; chronic dialysis; psychiatry; rehabilitation; occupational therapy; physical therapy; maternity; dentistry; and chemical dependency.

(c) Services that duplicate basic services, as defined in subdivision (a) of Section 1250, or services that are provided as part of a basic service, but are not required for facility licensure may also be provided in a freestanding building.

(d) The department shall not approve any plans that propose to locate any function listed in subdivision (a) in a freestanding building until the State Department of Health Services certifies to the department that it has received and approved a plan acceptable to the State Department of Health Services that demonstrates how the health facility will continue to provide all basic services in the event of any emergency when the freestanding building may no longer remain functional.

(e) Services listed in subdivisions (b) and (c) are subject to the same 25-percent inpatient limitation described in Section 129725.

(Amended by Stats. 2021, Ch. 143, Sec. 280. (AB 133) Effective July 27, 2021.)

129735.

Light steel frame construction means building construction using bearing walls composed of light gauge steel studs for its primary vertical support systems.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129740.

Department means the Department of Health Care Access and Information.

(Amended by Stats. 2021, Ch. 143, Sec. 281. (AB 133) Effective July 27, 2021.)

129745.

Structural engineer means a person who is validly certified to use the title structural engineer under Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 7. FACILITIES DESIGN REVIEW AND CONSTRUCTION [129675 - 130079]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facilities [129675 - 130070]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 3. General Requirements and Administration [129750 - 129856]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 9.)

129750.

The department shall observe the construction of, or addition to, any hospital building or the reconstruction or alteration of any hospital building, as it deems necessary to comply with this chapter for the protection of life and property.

(Amended by Stats. 2021, Ch. 143, Sec. 282. (AB 133) Effective July 27, 2021.)

129760.

The governing board of each hospital or other hospital governing authority, before adopting any plans for the hospital building, shall submit the plans to the department for approval and shall pay the fees prescribed in this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 283. (AB 133) Effective July 27, 2021.)

129761.

The department shall use, to the extent possible, information technology to facilitate the timely performance of its duties and responsibilities under this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 284. (AB 133) Effective July 27, 2021.)

129765.

(a)Except as set forth in subdivision (b), the application for approval of the plans shall be accompanied by the plans, including full, complete, and accurate specifications, and structural design computations, which shall comply with the requirements prescribed by the department. The department may permit electronic submission, review, and approval of plans.

(b)Notwithstanding subdivision (a), the department, in its sole discretion, may enter into a written agreement with the hospital governing authority for the phased submittal and approval of plans. The department shall charge a fee for the review and approval of plans submitted pursuant to this subdivision. This fee shall be based on the estimated cost, but shall not exceed the actual cost, of the entire phased review and approval process for those plans. This fee shall be deducted from the application fee pursuant to Section 129785.

(Amended by Stats. 2021, Ch. 143, Sec. 285. (AB 133) Effective July 27, 2021.)

129770.

(a) The department shall pass upon and approve or reject all plans for the construction or the alteration of any hospital building, independently reviewing the design to assure compliance with the requirements of this chapter. The department shall review the structural systems and related details, including the independent

review of the geological data. Geological data shall be reviewed by an engineering geologist, and structural design data shall be reviewed by a structural engineer.

(b) Whenever the department finds a violation of this chapter that requires correction, a citation of the violation shall be issued to the hospital governing board or authority in writing and shall include a proper reference to the regulation or statute being violated.

(Amended by Stats. 2021, Ch. 143, Sec. 286. (AB 133) Effective July 27, 2021.)

129775.

(a) Except as otherwise provided in subdivision (b), plans submitted pursuant to this chapter for work that affects structural elements shall contain an assessment of the nature of the site and potential for earthquake damage, based upon geologic and engineering investigations and reports by competent personnel of the causes of earthquake damage. One-story Type V wood frame or light steel frame, or light steel and wood frame construction of 4,000 square feet or less, shall be exempt from the provisions of this section, unless the project is within a special study zone established pursuant to Section 2622 of the Public Resources Code.

(b) The requirements of subdivision (a) may be waived by the department when the department determines that these requirements for the proposed hospital project are unnecessary and would not be beneficial to the safety of the public. The department, after consultation with the Building Safety Board, shall adopt regulations defining the criteria upon which the determination of a waiver shall be made.

(Amended by Stats. 2021, Ch. 143, Sec. 287. (AB 133) Effective July 27, 2021.)

129780.

The engineering investigation shall be correlated with the geologic evaluation made pursuant to Section 129775.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129785.

(a) (1) The department shall determine an application filing fee that will cover the costs of administering this chapter. For a hospital facility, as defined in subdivision (a), (b), or (f) of Section 1250, the fee shall not exceed 2 percent of a projectsestimated construction cost. For a skilled nursing or intermediate care facility, as defined in subdivision (c), (d), (e), or (g) of Section 1250, the fee shall not exceed 1.5 percent of a projectsestimated construction cost. Application filing fees shall be established in accordance with applicable procedures established in Article 5 (commencing with Section 11346) of Chapter 3.5 of Part 1 of Division 3 of Title 2 of the Government Code.

(2) Notwithstanding paragraph (1), the minimum application filing fee in any case shall be two hundred fifty dollars ($250).

(b) The department shall issue an annual permit upon submission of an application, pursuant to Section 129765, for one or more projects of a hospital facility, as defined in subdivision (a), (b), or (f) of Section 1250, if the total estimated construction cost is fifty thousand dollars ($50,000) or less per fiscal year. The fee for the annual permit shall be five hundred dollars ($500) and shall be in lieu of an application filing fee. The annual permit shall cover all projects undertaken for a particular hospital facility up to a total estimated construction cost of fifty thousand dollars ($50,000) during the state fiscal year in which the annual permit is issued. If a hospital facility chooses not to apply for an annual permit to cover a project or projects costing fifty thousand dollars ($50,000) or less in total, the hospital facility may instead submit the project or projects for review and approval as otherwise specified in this chapter, including paying the application filing fee determined under subdivision (a).

(c) The department shall issue an annual permit upon submission of an application, pursuant to Section 129765, for one or more projects of a skilled nursing or intermediate care facility, as defined in subdivision (c), (d), (e), or (g) of Section 1250, if the total estimated construction cost is twenty-five thousand dollars ($25,000) or less per fiscal year. The fee for the annual permit shall be two hundred fifty dollars ($250) and shall be in lieu of an application filing fee. The annual permit shall cover all projects undertaken for a particular skilled nursing or intermediate care facility up to a total estimated construction cost of twenty-five thousand dollars ($25,000) during the state fiscal year in which the annual permit is issued. If a skilled nursing or intermediate care facility chooses not to apply for an annual permit to cover a project or projects costing twenty-five thousand dollars ($25,000) or less in total, the skilled nursing or intermediate care facility may instead submit the project or projects for review and approval as otherwise specified in this chapter, including paying the application filing fee determined under subdivision (a).

(d) If the actual construction cost exceeds the estimated construction cost by more than 5 percent, a further fee shall be paid to the department, based on the above schedule and computed on the amount that the actual cost exceeds the amount of the estimated cost. If the estimated construction cost exceeds the actual construction cost by more than 5 percent, the department shall refund the excess portion of any paid fees, based on the above schedule and computed on the amount that the estimated cost exceeds the amount of the actual cost. A refund is not required if the applicant did not complete construction or alteration of 75 percent of the square footage included in the project, as contained in the approved drawings and specifications for the project. In addition, the department shall adopt regulations specifying other circumstances when the department shall refund to an applicant all or part of any paid fees for projects submitted under this chapter. The regulations shall include, but not be limited to, refunds of paid fees for a project that is determined by the department to be exempt or otherwise not reviewable under this chapter, and for a project that is withdrawn by the applicant prior to the commencement of review by the department of the drawing and specifications submitted for the project. All refunds pursuant to this section shall be paid from the Hospital Building Account in the Architecture Public Building Fund, as established pursuant to Section 129795.

(Amended by Stats. 2021, Ch. 143, Sec. 288. (AB 133) Effective July 27, 2021.)

129787.

(a)The payment of the filing fee described in Section 129785 may be postponed by the department if all of the following conditions are met:

(1)The proposed construction or alteration has been proposed as a result of any event that has been declared to be a disaster by the Governor.

(2)The department determines that the applicant cannot presently afford to pay the filing fee.

(3)The applicant has applied for federal disaster relief from the Federal Emergency Management Agency (FEMA) with respect to the disaster described in paragraph (1).

(4)The applicant is expected to receive disaster assistance within one year from the date of the application.

(b)If the department does not receive full payment of any fee for which payment has been postponed pursuant to subdivision (a) within one year from the date of plan approval, the statewide department may request an offset from the Controller for the unpaid amount against any amount owed by the state to the applicant, and may request additional offsets against amounts owed by the state to the applicant until the fee is paid in full. This subdivision shall not be construed to establish an offset as described in the preceding sentence as the exclusive remedy for the collection of any unpaid fee amount as described in that same sentence.

(Amended by Stats. 2021, Ch. 143, Sec. 289. (AB 133) Effective July 27, 2021.)

129790.

The department shall propose specific space, architectural, structural, mechanical, plumbing, and electrical standards for correctional treatment centers in cooperation with the Board of Corrections, the Department of Corrections, and the Department of the Youth Authority.

(Amended by Stats. 2021, Ch. 143, Sec. 290. (AB 133) Effective July 27, 2021.)

129795.

All fees shall be paid into the State Treasury and credited to the Hospital Building Fund, that is hereby created and continuously appropriated without regard to fiscal years for the use of the department, subject to approval of the Department of Finance, in carrying out this chapter. Adjustments in the amounts of the fees, as determined by the department and approved by the Department of Finance, shall be made within the limits set in Section 129785 in order to maintain a reasonable working balance in the account. Notwithstanding any other provision of law, any moneys collected pursuant to this chapter contained in the hospital building fund established by the Department of Finance, that are in the fund on January 1, 1994, shall be available for expenditure in accordance with this section.

(Amended by Stats. 2021, Ch. 143, Sec. 291. (AB 133) Effective July 27, 2021.)

129800.

The director shall request the Department of Finance or the Auditor General to perform an audit of the uses of fees collected pursuant to Section 129785. This audit shall include, but not be limited to, an accounting of staff resources allocated to hospital plan reviews by the department and by the Office of the State Architect in the Department of General Services since these reviews are funded by fees collected pursuant to Section 129785. If the Department of Finance and the Auditor General indicate that other audit responsibilities will

prohibit them from performing and completing the audit within six months of being initially requested to do so, then the department may contract with an independent organization to perform the audit.

(Amended by Stats. 2021, Ch. 143, Sec. 292. (AB 133) Effective July 27, 2021.)

129805.

(a)All plans and specifications shall be prepared under the responsible charge of an architect or a structural engineer, or both. A structural engineer shall prepare the structural design and shall sign plans and specifications related thereto. Administration of the work of construction shall be under the responsible charge of the architect and structural engineer, except that where plans and specifications for alterations or repairs do not affect architectural or structural conditions, the plans and specifications may be prepared under the responsible charge of, and work of construction may be administered by, a professional engineer duly qualified to perform the services and holding a valid certificate under Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code for performance of services in that branch of engineering in which the plans, specifications, and estimates and work of construction are applicable.

(b)The department may exempt projects from the requirements of subdivision (a) where the plans and specifications are not ordinarily, in the standard practice of architecture and engineering, prepared by licensed architects or registered engineers, or both, and are not a component of a project prepared under the responsible charge of a licensed architect or registered engineer, or both. To implement this authority, the department shall adopt regulations, consistent with this section, that specify which projects may be exempted from the requirements of subdivision (a).

(Amended by Stats. 2021, Ch. 143, Sec. 293. (AB 133) Effective July 27, 2021.)

129810.

Before commencing any construction or alteration of any hospital building, the written approval of the necessary plans as to safety of design and construction, by the department, shall be obtained.

(Amended by Stats. 2021, Ch. 143, Sec. 294. (AB 133) Effective July 27, 2021.)

129812.

Notwithstanding any other provision of law, the department may utilize an over-the-counter plan review process.

(Amended by Stats. 2021, Ch. 143, Sec. 295. (AB 133) Effective July 27, 2021.)

129815.

Any permit or authorization issued or provided pursuant to this chapter shall be subject to Chapter 3

(commencing with Section 15374) of Part 6.7 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129820.

No contract for the construction or alteration of any hospital building, made or executed on or after January 1, 1983, by the governing board or authority of any hospital or other similar public board, body, or officer otherwise vested with authority to make or execute the contract, is valid, and no money shall be paid for any work done under the contract or for any labor or materials furnished in constructing or altering the hospital building, unless all of the following requirements are satisfied:

(a) The plans and specifications comply with this chapter and the requirements contained in the California Building Standards Code.

(b) The written approval thereof has first been obtained from the department.

(c) The hospital building is to be accessible to, and usable by, persons with disabilities.

(d) The plans and specifications comply with the fire and panic safety requirements of the California Building Standards Code.

(Amended by Stats. 2021, Ch. 143, Sec. 296. (AB 133) Effective July 27, 2021.)

129825.

(a) The hospital governing board or authority shall provide for and require competent and adequate inspection during construction or alteration by an inspector satisfactory to the architect or structural engineer, or both, and the department. Except as otherwise provided in subdivision (b), the inspector shall act under the direction of the architect or structural engineer, or both, and be responsible to the board or authority. Nothing in this section shall be construed to prohibit any licensed architect, structural engineer, mechanical engineer, electrical engineer, or any facility maintenance personnel, if approved by the department, from performing the duties of an inspector.

(b) If alterations or repairs are to be conducted under the supervision of a professional engineer pursuant to Section 129805, the inspector need only be satisfactory to the department and to the professional engineer, and the inspector shall act under the direction of the professional engineer.

(c) The department shall make an inspection of the hospital buildings and of the work of construction or alteration as in its judgment is necessary or proper for the enforcement of this chapter and the protection of the safety of the public.

Whenever the department finds a violation of this chapter that requires correction, the citation of the violation shall be issued to the hospital governing board or authority in writing and shall include a proper reference to the regulation or statute being violated.

(d) The department shall approve inspectors that shall be limited to the following:

(1) A inspectors, who may inspect all areas of construction specialty, including, but not limited to, structural.

(2) B inspectors, who may inspect all areas of construction specialty, except structural.

(3) C inspectors, who may inspect one or more areas of construction specialty, including structural, but may not inspect the scope of construction specialties authorized for A or B inspectors.

(e) (1) As part of its approval process, the department shall initially and periodically examine inspectors by giving either a written examination or a written and oral examination. The department may charge a fee for the examination process calculated to cover its costs. Inspectors who have not passed a written examination shall not be approved by the department until they have successfully passed the written examination. No employee of the department performing field inspections or supervising the field inspections shall be approved as an inspector on any construction project pursuant to this chapter for a period of one year after leaving employment of the department.

(2) The department shall develop regulations for the testing and approval of inspectors.

(Amended by Stats. 2021, Ch. 143, Sec. 297. (AB 133) Effective July 27, 2021.)

129830.

From time to time, as the work of construction or alteration progresses and whenever the department requires, the architect or structural engineer, or both, in charge of construction or registered engineer in charge of other work, the inspector on the work, and the contractor shall each make a report, duly verified by them, upon a form prescribed by the department showing, of their personal knowledge, that the work during the period covered by the report has been performed and materials used and installed are in accordance with the approved plans and specifications, setting forth detailed statements of fact as required by the department.

The term personal knowledge, as used in this section and as applied to the architect or registered engineer, or both, means the personal knowledge that is obtained by periodic visits to the project site of reasonable frequency, for the purpose of general observation of the work, and that is also obtained from the reporting of others as to the progress of the work, testing of materials, and inspection and superintendence of the work that is performed between the periodic visits of the architect or the registered engineer. Reasonable diligence shall be exercised in obtaining the facts.

The term personal knowledge, as applied to the inspector, means the actual personal knowledge that is obtained from the inspectorspersonal continuous inspection of the work of construction in all stages of its progress at the site where the inspector is responsible for inspection, and when work is carried out away from the site, that personal knowledge that is obtained from the reporting of others on the testing or inspection of materials and workmanship, for compliance with plans, specifications, or applicable standards. Reasonable diligence shall be exercised in obtaining the facts.

The term personal knowledge, as applied to the contractor, means the personal knowledge that is obtained from the construction of the building. The exercise of reasonable diligence to obtain the facts is required.

(Amended by Stats. 2021, Ch. 143, Sec. 298. (AB 133) Effective July 27, 2021.)

129835.

Upon written request to the department by the governing board or authority of any hospital, the department shall make, or cause to be made, an examination and report on the condition of any hospital building subject to the payment by the governing board or authority of the actual expenses incurred by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 299. (AB 133) Effective July 27, 2021.)

129840.

Subsequent to the occurrence of any earthquake, the department may make, or cause to be made, studies of health facilities within the area involved.

(Amended by Stats. 2021, Ch. 143, Sec. 300. (AB 133) Effective July 27, 2021.)

129850.

Except as provided in Sections 18929 and 18930, the department shall from time to time make any regulations that it deems necessary, proper, or suitable to effectually carry out this chapter. The department shall also propose and submit building standards to the California Building Standards Commission for adoption and approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13 relating to seismic safety for hospital buildings.

(Amended by Stats. 2021, Ch. 143, Sec. 301. (AB 133) Effective July 27, 2021.)

129851.

Written rules and regulations by the department to clarify the application of the California Building Standards Code pursuant to this chapter shall be made available to the public upon request.

(Amended by Stats. 2021, Ch. 143, Sec. 302. (AB 133) Effective July 27, 2021.)

129853.

(a)The person or entity requesting a copy of construction documents maintained by the department shall bear the actual cost of producing the copy of those documents, including staff time spent retrieving, inspecting, and handling the documents, copying costs, and shipping costs.

(b)The department shall provide an estimate of the costs described in subdivision (a) to the requester before the department begins to make those copies.

(Amended by Stats. 2021, Ch. 143, Sec. 303. (AB 133) Effective July 27, 2021.)

129855.

The department may enter into any agreements and contracts with any qualified person, department, agency, corporation, or legal entity, as determined by the department, when necessary in order to facilitate the timely performance of the duties and responsibilities relating to the review and inspection of architectural, mechanical, electrical, and plumbing systems of hospital buildings to be constructed or altered or buildings under construction or alteration.

If the department determines that the structural review of plans for a hospital building cannot be completed without undue delay, the department may enter into contractual agreements with private structural engineers or local governments for the purpose of facilitating the timely performance of the duties and responsibilities relating to the review and inspection of plans and specifications of the structural systems of hospital construction projects.

The department, with the advice of the Building Safety Board, shall prepare regulations, containing qualification criteria, for implementing the contractual agreement provisions of this section.

(Amended by Stats. 2021, Ch. 143, Sec. 304. (AB 133) Effective July 27, 2021.)

129856.

(a)Contingent on an appropriation in the annual Budget Act, the department shall establish a program for training fire and life safety officers. The goal of this program shall be to provide a sufficient number of qualified persons to facilitate the timely performance of the departmentsduties and responsibilities relating to the review of plans and specifications pertaining to the design and observation of construction of hospital buildings and buildings described in paragraphs (2) and (3) of subdivision (b) of Section 129725, in order to ensure compliance with applicable facility design and construction codes and standards.

(b)The department shall prepare a comprehensive report on the training program setting forth its goals, objectives, and structure. The report shall include the number of fire and life safety officers to be trained annually, a timeline for training completion, a process for gathering information to evaluate the training programs efficiency that includes dropout and retention rates, and a mechanism to annually assess the need for the training program to continue. The report shall be submitted to the Joint Legislative Budget Committee by April 1, 2007.

(c)The department may establish other training programs as necessary to ensure that a sufficient number of qualified persons are available to facilitate the timely performance of the departmentsduties and responsibilities relating to the review of plans and specifications pertaining to the design and construction of hospital buildings and buildings described in paragraphs (2) and (3) of subdivision (b) of Section 129725, to ensure compliance with applicable safety codes and standards.

(d)If additional training programs are established pursuant to subdivision (c), the department shall prepare a comprehensive report on the training program setting forth its goals, objectives, and structure. The report shall include the number of individuals trained pursuant to subdivision (c) annually, a timeline for training completion, a process for gathering information to evaluate the training programs efficiency that includes

dropout and retention rates, and a mechanism to annually assess the need for the training program to continue. The report shall be submitted to the Joint Legislative Budget Committee three years after the training program has been implemented.

(Amended by Stats. 2021, Ch. 143, Sec. 305. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 7. FACILITIES DESIGN REVIEW AND CONSTRUCTION [129675 - 130079]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facilities [129675 - 130070]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 4. Special Requirements [129875 - 129905]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 9.)

129875.

Construction or alterations of buildings specified in paragraphs (2) and (3) of subdivision (b) of Section 129725 shall conform to the latest edition of the California Building Standards Code. The department shall independently review and inspect these buildings. For purposes of this section, construction or alteration includes the conversion of a building to a purpose specified in paragraphs (2) and (3) of subdivision (b) of Section 129725. Any construction or alteration of any building subject to this section shall be exempt from any plan review and approval or construction inspection requirement of any city or county.

The department may also exempt from the plan review process or expedite those projects undertaken by an applicant for a hospital building that the department determines do not materially alter the mechanical, electrical, architectural, or structural integrity of the facility. The department shall set forth criteria to expedite projects or to implement any exemptions made pursuant to this paragraph.

The Legislature recognizes the relative safety of single-story, wood-frame, and light steel frame construction for use in housing patients requiring skilled nursing and intermediate care services and it is, therefore, the intent of the Legislature to provide for reasonable flexibility in seismic safety standards for these structures. The department shall be reasonably flexible in the application of seismic standards for other buildings by allowing incidental and minor nonstructural additions or nonstructural alterations to be accomplished with simplified written approval procedures as established by the department, with the advice of the Division of the State Architect and the Office of the State Fire Marshal.

The department shall implement, and modify, as necessary, criteria to exempt from the plan review process or expedite those projects for alterations of hospital buildings, and for those specified in paragraphs (2) and (3) of subdivision (b) of Section 129725 that may include, but are not limited to, renovations, remodeling, or installations of necessary equipment such as hot water heaters, air-conditioning units, dishwashers, laundry equipment, handrails, lights, television brackets, small emergency generators (up to 25 kilowatts), storage shelves, and similar plant operations equipment; and decorative materials such as wall coverings, floor coverings, and paint.

The department shall include provisions for onsite field approvals by available department construction advisers and the preapproval of projects that comply with the requirements for which the department has developed standard architectural or engineering detail, or both standard architectural and engineering detail.

(Amended by Stats. 2021, Ch. 143, Sec. 306. (AB 133) Effective July 27, 2021.)

129875.1.

(a)Notwithstanding Section 129875, projects for the construction or alterations of buildings specified in paragraph (1) of subdivision (a) of Section 129725 that are single-story, wood-frame or light steel frame construction and buildings specified in paragraphs (2) and (3) of subdivision (b) of Section 129725 shall be exempt from plan review and inspection by the department prior to construction if the facility demonstrates to the department, by written description of the project, that all of the following conditions are met:

(1)The construction or alteration is undertaken to repair existing systems or to keep up the course of normal or routine maintenance.

(2)The construction or alteration either restores the facility to the same operational status, or improves operational status from its operating condition immediately prior to the event, occurrence, or condition that necessitated the alteration.

(3)The scope of the construction or alteration is not ordinarily within the standard of practice of a licensed architect or registered engineer.

(4)The construction or alteration does not degrade the status or condition of the fire and life safety system from the status of the system immediately prior to the event, occurrence, or condition that necessitated the alteration.

(b)Upon completion of construction or alteration of any building subject to this section, and prior to use of the repaired system or other subject of the construction or alteration, the department shall inspect and approve the work. The department may require an interim inspection for code compliance when walls, ceilings, or other materials or finishes will cover the final work.

(c)Upon compliance with subdivision (a), the department shall issue a building permit.

(Amended by Stats. 2021, Ch. 143, Sec. 307. (AB 133) Effective July 27, 2021.)

129880.

(a)The department may exempt from its plan review process construction or alteration projects for hospital buildings and buildings described in paragraphs (2) and (3) of subdivision (b) of Section 129725 with estimated construction costs of fifty thousand dollars ($50,000) or less. The criteria for exemption shall include, but not be limited to, plans that have been stamped and signed by the design professionals of record.

(b) Projects that have been split into a series of smaller projects in order to avoid the qualifying dollar limits shall not be approved. The department shall maintain its construction observation mandate to ensure public safety and California Building Standards Code compliance for approved projects.

(c)A presubmittal meeting between the department and the design professionals shall be required for construction or alteration projects for hospital buildings and buildings described in paragraphs (2) and (3) of subdivision (b) of Section 129725 with estimated construction costs of twenty million dollars ($20,000,000) or more.

(d)The department may adopt regulations for this section to make specific the exemption criteria and processes authorized pursuant to subdivision (a), and the complete plan review process required pursuant to subdivision (c).

(Amended by Stats. 2021, Ch. 143, Sec. 308. (AB 133) Effective July 27, 2021.)

129885.

(a)A city or county, as applicable, shall have plan review and building inspection responsibilities for the construction or alteration of buildings described in paragraph (1) of subdivision (b) of Section 129725. The building standards for the construction or alteration of buildings specified in paragraph (1) of subdivision (b) of Section 129725 established or applied by a city or county, shall not be more restrictive or comprehensive than comparable building standards established, or otherwise applied, to clinics licensed pursuant to Chapter 1 (commencing with Section 1200) of Division 2. For chronic dialysis and surgical services buildings, construction or alteration shall include conversion of a building to a purpose specified in paragraph (1) of subdivision (b) of Section 129725.

(b)Upon the initial submittal to a city or county by the governing authority or owner of a hospital for plan review and building inspection services for buildings described in paragraph (1) of subdivision (b) of Section 129725 for chronic dialysis and surgical services, the city or county shall reply in writing to the hospital as to

whether or not the plan review by the city or county will include a certification as to whether or not the clinic project submitted for plan review meets the clinic standards propounded by the department in the California Building Standards Code.

If the city or county indicates that its review will include this certification, it shall do all of the following:

(1)Apply the applicable clinic provisions of the latest edition of the California Building Standards Code.

(2)Certify in writing to the applicant within 30 days of completion of construction whether or not the standards have been met.

(c)If, upon initial submittal, the city or county indicates that its plan review will not include this certification, the governing authority or owner shall submit the plans to the Department of Health Care Access and Information and the department shall review the plans for certification to determine whether or not the clinic project meets the standards propounded by the department in the California Building Standards Code.

(d)When the department performs the certification review, the department shall charge a fee in an amount not to exceed its actual cost.

(e)Notwithstanding subdivision (a), the governing authority of a hospital may request the Department of Health Care Access and Information to perform plan review and building inspection services for buildings described in paragraph (1) of subdivision (b) of Section 129725 and Section 129730. The department shall perform these services upon request and shall charge an amount equal to its standard fee for the construction and alteration of hospital buildings. The construction or alteration of these buildings shall conform to the applicable provisions of the latest edition of the California Building Standards Code for purposes of the plan review and building inspection of the department pursuant to this subdivision. The department shall issue the building permit and certificate of occupancy for these facilities.

(f)A building described in paragraph (1) of subdivision (b) of Section 129725 that is subject to the plan review and building inspection of the department pursuant to subdivision (e), may be designated by the governing authority or owner of the hospital as a hospital building as long as the building remains under the jurisdiction of the department. This hospital building shall be reviewed and inspected according to the standards and requirements of the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983 (Chapter 1 (commencing with Section 129675)).

(g)When a building is accepted for review by the department pursuant to subdivision (e), the governing authority of the hospital shall not request the city or county, as applicable, to conduct plan review and building inspection for any subsequent alteration of the same building, unless written notification is submitted to the department by the governing authority or owner of the hospital.

(Amended by Stats. 2021, Ch. 143, Sec. 309. (AB 133) Effective July 27, 2021.)

129890.

(a)Notwithstanding any other provision of law, the department shall, on or before January 1, 1991, set forth and implement criteria for the alteration or construction of buildings specified in subdivision (a) of Section 129725 that provide for onsite field review and approval by construction advisers of the department and provide for preapproval of project plans that comply with the requirements for which the department has developed standard architectural or engineering detail, or both standard architectural and engineering detail.

(b)Onsite field reviews shall be performed by available area construction advisers of the department. The area construction advisers shall have the responsibility to coordinate any approvals required by the State Fire Marshal. The approvals may be obtained prior to the start of construction or on a deferred basis, at the discretion of the area construction adviser.

(c)An annual building permit project classified as a field review shall be reviewed and approved by the area construction adviser.

(d)Effective January 1, 1991, all plans submitted for the alteration or construction of buildings specified in subdivision (a) of Section 129725 to the department for plan review shall be evaluated to determine if it is exempt from the plan review process or if it qualifies for an expedited plan review. The evaluation shall give priority to plans that are for minor renovation, remodeling, or installation of equipment.

(Amended by Stats. 2021, Ch. 143, Sec. 310. (AB 133) Effective July 27, 2021.)

129895.

(a)The department shall adopt by regulations seismic safety standards for hospital equipment anchorages, as defined by the department, to include, but not be limited to, architectural, mechanical, and electrical components, supports, and attachments. Those regulations shall include criteria for the testing of equipment anchorages.

(b)Any fixed hospital equipment anchorages purchased or acquired on or after either the effective date of the regulations adopted pursuant to subdivision (a) shall not be used or installed in any hospital building unless the equipment anchorages are approved by the department.

(c)Manufacturers, designers, or suppliers of equipment anchorages may submit data sufficient for the office to evaluate equipment anchorages™ seismic safety prior to the selection of equipment anchorages for any specific hospital building.

(d)The department may charge a fee based on the actual costs incurred by it for data review, approvals, and field inspections pursuant to this section.

(Amended by Stats. 2021, Ch. 143, Sec. 311. (AB 133) Effective July 27, 2021.)

129900.

Notwithstanding any other provision of law, plans for the construction or alteration of any hospital building, or any building specified in Section 129875, that are prepared by or under the supervision of the Department of General Services shall not require the review and approval of the department. In lieu of review and approval by the department, the Department of General Services shall certify to the department that the plans are in full conformance with all applicable building standards and the requirements of this chapter. The Department of General Services shall also observe all aspects of construction and alteration, including the architectural, structural, mechanical, plumbing and electrical systems.

It is the intent of the Legislature that projects developed by, or under the supervision of, the Department of

General Services shall still meet all applicable building standards published in the State Building Standards Code relating to the regulation of hospital projects where applicable, and all regulations adopted pursuant to this chapter and all other applicable state laws.

(Amended by Stats. 2021, Ch. 143, Sec. 312. (AB 133) Effective July 27, 2021.)

129905.

Subject to the complete exemption contained in paragraphs (6) and (7) of subdivision (b) of Section 129725, and notwithstanding any other provision of law, plans for the construction or alteration of any hospital building, as defined in Section 1250, or any building specified in Section 129875, that are prepared by or under the supervision of the Department of Corrections or on behalf of the Department of the Youth Authority, shall not require the review and approval of the statewide department. In lieu of review and approval by the statewide department, the Department of Corrections and the Department of the Youth Authority shall certify to the statewide department that their plans and construction are in full conformance with all applicable building standards, including, but not limited to, fire and life and safety standards, and the requirements of this chapter for the architectural, structural, mechanical, plumbing, and electrical systems. The Department of Corrections and the Department of the Youth Authority shall use a secondary peer review procedure to review designs to ensure the adherence to all design standards for all new construction projects, and shall ensure that the construction is inspected by a competent, onsite inspector to ensure the construction is in compliance with the design and plan specifications.

Subject to the complete exemption contained in paragraphs (6) and (7) of subdivision (b) of Section 129725, and notwithstanding any other provision of law, plans for the construction or alteration of any correctional treatment center that are prepared by or under the supervision of a law enforcement agency of a city, county, or city and county shall not require the review and approval of the statewide department. In lieu of review and approval by the statewide department, the law enforcement agency of a city, county, or city and county shall certify to the statewide department that the plans and construction are in full conformance with all applicable building standards, including, but not limited to, fire and life and safety standards, and the requirements of this chapter for the architectural, structural, mechanical, plumbing, and electrical systems.

It is the intent of the Legislature that, except as specified in this section, all hospital buildings as defined by this chapter constructed by or under the supervision of the Department of Corrections or local law enforcement agencies, or constructed on behalf of the Department of the Youth Authority shall at a minimum meet all applicable regulations adopted pursuant to this chapter and all other applicable state laws.

(Amended by Stats. 2021, Ch. 143, Sec. 313. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 7. FACILITIES DESIGN REVIEW AND CONSTRUCTION [129675 - 130079]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facilities [129675 - 130070]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 5. Building Safety Board [129925 - 129960]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 9.)

129925.

There is in the department a Hospital Building Safety Board that shall be appointed by the director. The board shall advise the director and, notwithstanding Section 13142.6 and except as provided in Section 18945, shall act as a board of appeals in all matters relating to the administration and enforcement of building standards relating to the design, construction, alteration, and seismic safety of hospital building projects submitted to the department pursuant to this chapter.

Further, notwithstanding Section 13142.6, the board shall act as the board of appeals in matters relating to all fire and panic safety regulations and alternate means of protection determinations for hospital building projects submitted to the department pursuant to this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 314. (AB 133) Effective July 27, 2021.)

129930.

The board shall consist of 16 members appointed by the director of the department. Of the appointive members, two shall be structural engineers, two shall be architects, one shall be an engineering geologist, one shall be a geotechnical engineer, one shall be a mechanical engineer, one shall be an electrical engineer, one shall be a hospital facilities manager, one shall be a local building official, one shall be a general contractor, one shall be a fire and panic safety representative, one shall be a hospital inspector of record, and three shall be members of the general public.

(Amended by Stats. 2021, Ch. 143, Sec. 315. (AB 133) Effective July 27, 2021.)

129932.

(a) Each member shall be appointed by the director for a term of four years and shall hold office until the appointment and qualification of his or her successor or until one year has elapsed since the expiration of the term for which he or she was appointed, whichever first occurs. No person shall serve as a member of the board for more than two consecutive terms. The director may remove any member of the board for neglect of duty or other just cause.

(b) The terms of the appointive members of the board who are in office before January 1, 1994, shall expire as follows:

(1) The terms of two members shall expire January 1, 1994.

(2) The terms of two members shall expire January 1, 1995.

(3) The terms of two members shall expire January 1, 1996.

(4) The terms of two members shall expire January 1, 1997.

(5) The terms of three members shall expire January 1, 1998.

(6) The terms of three members shall expire January 1, 1999.
The terms shall expire in the same relative order as the original appointment dates.

(c) Vacancies occurring during a term shall be filled by appointment for the unexpired term.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129935.

Appointive members, except for the public members, shall be qualified by close connection with hospital design and construction and highly knowledgeable in their respective fields with particular reference to seismic safety. Appointive members, except for the public members, shall be appointed from nominees recommended by the governing bodies of the Structural Engineers Association of California; the American Institute of Architects; the Earthquake Engineering Research Institute; the Association of Engineering Geologists; the Consulting Engineers and Land Surveyors of California; the California Association of Local Building Officials; the American Society for Heating, Refrigerating, and Air-Conditioning Engineers, Inc.; the California Association of Hospitals and Health Systems; the Associated General Contractors of California; the American Construction Inspectors™ Association; and the California Fire Chiefs™ Association. Board members shall be residents of California.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129940.

(a) There shall be six ex officio members of the board, who shall be the director of the department, the State Fire Marshal, the State Geologist, the Executive Director of the California Building Standards Commission, the State Director of Health Services, and the Deputy Director of the Division of Facilities Development in the department, or their officially designated representatives.

(b) The director may also appoint up to three additional ex officio members, with the advice of the chair. On January 1, 1994, director-appointed ex officio members may continue to serve until appointment of their successors by the director.

(Amended by Stats. 2021, Ch. 143, Sec. 316. (AB 133) Effective July 27, 2021.)

129942.

(a) Only appointed members shall vote at board meetings.

(b) Appointed members, ex officio members, and others appointed to a committee, including an appeal committee, by the chair, may vote at committee meetings.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129945.

The chair of the board shall be an appointive member and shall be elected by a majority of the appointive members.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129950.

The board shall be served by an executive director who shall be a member of the department staff.

(Amended by Stats. 2021, Ch. 143, Sec. 317. (AB 133) Effective July 27, 2021.)

129955.

The Building Safety Board shall convene upon request of the chairperson thereof. The chairperson may convene a meeting of the board whenever it may be necessary, in the chairpersonsjudgment, for the board to meet. The board shall adopt rules of procedure as necessary to enable it to perform its duties. The chairperson shall, at his or her discretion, or upon instructions from the board, designate subcommittees to study and report back to the board upon any technical subject or matter for which an independent review or

further study is desired.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

129960.

Members of the board shall be reimbursed from the Hospital Building Account in the Architecture Public Building Fund for their reasonable actual expenses in attending meetings conducted to carry out the provisions of this chapter, and they shall receive from that account per diem of one hundred dollars ($100) for each day actually spent in the discharge of official duties where attendance at one or more publicly scheduled meetings or hearings of the board is required by the boardschairperson. However, they shall receive no other compensation from that account for their services.

(Added by Stats. 1995, Ch. 415, Sec. 9. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 7. FACILITIES DESIGN REVIEW AND CONSTRUCTION [129675 - 130079]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facilities [129675 - 130070]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 6. Enforcement [129975 - 129990]__

(Article 6 added by Stats. 1995, Ch. 415, Sec. 9.)

129975.

The director of the department may conduct studies relating to the implementation of this chapter to ensure that the implementation of its provisions results in the least amount of increases in costs, staffing, and regulation.

(Amended by Stats. 2021, Ch. 143, Sec. 318. (AB 133) Effective July 27, 2021.)

129980.

Whenever any construction or alteration of any hospital building is being performed contrary to the provisions of this chapter, the department may order the construction or alteration stopped by written notice served upon any persons engaged in or causing the work to be done. Upon service of the written notice, all construction or alteration shall cease until an authorization to remove the notice is issued by the department. Any person so served shall, upon request made within 15 days of the written notice, be entitled to a hearing pursuant to Section 11506 of the Government Code.

(Amended by Stats. 2021, Ch. 143, Sec. 319. (AB 133) Effective July 27, 2021.)

129985.

(a) Whenever it is necessary to make an inspection to enforce any of the provisions of this chapter or whenever the department or its authorized representatives has reasonable cause to believe that there exists in any building or upon any premises any condition or a violation of any applicable building standards that makes the building or premises unsafe, dangerous, or hazardous, the department or its authorized representatives may enter the building or premises at any reasonable time to make an inspection or to perform any authorized duty. Prior to an entry authorized by this section, the authorized representatives of the department shall first present proper identification and credentials and request entry. In the event that the building or premises are unoccupied, there shall be a reasonable effort made to locate the owner or other person or persons having control or charge of the building or premises in order to request an entry. If a request for entry is refused, the department or its authorized representatives shall have recourse to any remedy prescribed by law to secure entry.

(b) Whenever the owner, occupant, or other person having control or charge of the building or premises is presented with a proper inspection warrant or other authorization prescribed by law to secure entry and a request for entry is made, the owner, occupant, or other person having control or charge of the building or premises shall promptly permit the entry of the authorized representatives of the department for the purpose of inspection and examination authorized by this chapter.

(Amended by Stats. 2021, Ch. 143, Sec. 320. (AB 133) Effective July 27, 2021.)

129990.

The department may order the vacating of any building or structure found to have been in violation of the adopted regulations of the department and may order the use of the building or structure discontinued within the time prescribed by the department upon the service of notice to the owner or other person having control or charge of the building or structure. Any owner or person having control so served shall, upon request made within 15 days of the written notice, be entitled to a hearing pursuant to Section 11506 of the Government Code.

(Amended by Stats. 2021, Ch. 143, Sec. 321. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 7. FACILITIES DESIGN REVIEW AND CONSTRUCTION [129675 - 130079]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1. Health Facilities [129675 - 130070]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 8. New State Responsibilities For Seismic Safety in Hospitals [130000 - 130025]__

(Article 8 added by Stats. 1995, Ch. 415, Sec. 9.)

130000.

(a)The Legislature hereby finds and declares the following:

(1)The Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983 was created because of the loss of life in the collapse of hospitals during the Sylmar earthquake of 1971.

(2)We were reminded of the vulnerability of hospitals in the Northridge earthquake of January 17, 1994.

(3)Several hospitals built prior to the act suffered major damage and had to be evacuated.

(4)Hospitals built to the Alfred E. Alquist Hospital Facilities Seismic Safety Act standards resisted the Northridge earthquakes with very little structural damage demonstrating the value and necessity of this act.

(5)Both pre- and post-act hospitals suffered damage to architecture and to power and water systems that prevented hospitals from being operational, caused the loss of one life, triggered evacuations, unacceptable property losses, and added additional concerns on emergency medical response.

(6)An earthquake survivability inventory of Californiashospitals completed by the Department of Health Care Access and Information in December 1989 indicated that over 83 percent of the stateshospital beds were in buildings that did not comply with the Alfred E. Alquist Hospital Facilities Seismic Safety Act because they were issued permits prior to the effective date of the act. Furthermore, 26 percent of the beds are in buildings posing significant risks of collapse since they were built before modern earthquake codes. The older hospitals pose significant threats of collapse in major earthquakes and loss of functions in smaller or more distant earthquakes.

(7)The 1989 survey also states: Of the 490 hospitals surveyed, nine hospitals are in Alquist"Priolo Earthquake Fault Rupture Zones, 31 are in areas subject to soil liquefaction, 14 in areas with landslide potential, 33 in flood zones, and 29 have a possible loss or disruption of access. Two hundred five hospitals had no emergency fuel for their main boilers on hand, 19 had no emergency fuel for their emergency generators. Onsite emergency potable water was available at 273 hospitals and nonpotable water was available at 102 hospitals. Four hundred eighteen hospitals had emergency radios onsite, and 419 hospitals had inadequate or partially adequate equipment anchorage. In terms of available emergency preparedness, inadequate or partially inadequate equipment anchorage is still the most widespread shortcoming.

(8)This survey identifies many of the shortcomings that caused 23 hospitals to suspend some or all operations after the Northridge earthquake. However, one hospital was rebuilt to comply with the Alfred E. Alquist Hospital Facilities Seismic Safety Act after an older hospital building had partially collapsed in the 1971 Sylmar earthquake. The rebuilt hospital suffered failures in water distribution systems and had to be evacuated.

(9)The state must rely on hospitals to support patients and offer medical aid to earthquake victims.

(b)Therefore, it is the intent of the Legislature, that:

(1)By enacting this article, the state shall take steps to ensure that the expected earthquake performance of hospital buildings housing inpatients and providing primary basic services is disclosed to public agencies that have a need and a right to know, because the medical industry cannot immediately bring all hospital buildings into compliance with the Alfred E. Alquist Hospital Facilities Seismic Safety Act.

(2)The state shall encourage structural retrofits or replacements of hospital buildings housing inpatients and providing primary basic services that place lives at risk because of their potential for collapse during an earthquake.

(3)The state shall also encourage retrofits and enhancements to critical hospital architecture, equipment, and utility and communications systems to improve the ability of hospitals to remain operational for those hospitals that do not pose risk to life.

(Amended by Stats. 2021, Ch. 143, Sec. 322. (AB 133) Effective July 27, 2021.)

130002.

(a)The Legislature finds and declares all of the following:

(1)Following a major earthquake, Californians will rely on their community hospitals to provide care to those who are injured, to continue to care for those already within the hospital, and to respond to the emergent needs of new patients.

(2)Under existing law, all hospital buildings providing acute care services in California are required to be fully functional to provide care following an earthquake as of 2030. This standard includes both structural performance categories (SPC) and nonstructural performance categories (NPC), such as for electricity, water, sewage, oxygen, and other mechanical and electrical systems.

(3)The Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983, which was passed after the 1971 Sylmar earthquake that caused the collapse of the Veteran Administration Hospital and killed 47 people, as well as the collapse of large sections of Olive View County Hospital, which led to its closure six weeks after it opened, required that new hospital construction be seismically sound. The actsfocus on new hospital construction was based on the understanding that the useful life of hospital buildings was 20 to 30 years and that most existing hospital buildings would be replaced by the mid-1990s.

(4)The 1994 Northridge earthquake showed that nonstructural damage is a serious threat to patient safety and a hospitalscapacity to function. Also, as of 1994, most hospital buildings still predated 1972 and thus were at risk of collapse in a major earthquake.

(5)As of 2022, most hospitals in California do not fully meet the seismic safety standards that will be required in order to remain operational past the 2030 deadline.

(6)Patients receiving care in seismically deficient hospitals when an earthquake occurs will be at risk of needing to be immediately evacuated, even if other hospitals in the area have also been impacted by the earthquake. Additionally, seismically deficient hospital buildings may not be available to treat new patients.

(7)It is critical for cities, counties, and the state to fully understand hospitals™ seismic safety compliance in order to prepare earthquake response and recovery plans.

(b)The Legislature reaffirms its commitment to Californians that hospitals will be fully functional and able to provide hospital care to Californians after an earthquake.

(c)Therefore, it is the intent of the Legislature to ensure that the Department of Health Care Access and Information, Office of Emergency Services, relevant local government entities, and other interested parties are notified of the status of acute care hospitals™ compliance with existing requirements that the facilities be fully functional to provide care following an earthquake as of 2030.

(Added by Stats. 2022, Ch. 584, Sec. 1. (AB 1882) Effective January 1, 2023.)

130005.

By June 30, 1996:

(a)The Department of Health Care Access and Information, hereinafter called the department, shall develop definitions of earthquake performance categories for earthquake ground motions for both new and existing hospitals that are:

(1)Reasonably capable of providing services to the public after a disaster, designed and constructed to resist, insofar as practical, the forces generated by earthquakes, gravity, and winds, and in full compliance with the regulations and standards developed by the department pursuant to the Alfred E. Alquist Hospital Facilities Seismic Safety Act.

(2)In substantial compliance with the pre-1973 California Building Standards Codes, but not in substantial compliance with the regulations and standards developed by the department pursuant to the Alfred E. Alquist Hospital Facilities Seismic Safety Act. These buildings may not be repairable or functional but will not significantly jeopardize life.

(3)Potentially at significant risk of collapse and that represent a danger to the public.

(b)The department may define other earthquake performance categories as it deems necessary to meet the intent of this article and the Alfred E. Alquist Hospital Facilities Seismic Safety Act.

(c)Earthquake performance categories shall also include subgradations for risk to life, structural soundness, building contents, and nonstructural systems that are critical to providing basic services to hospital inpatients and the public after a disaster.

(d)Earthquake performance categories shall, as far as practicable, use language consistent with definitions and concepts as developed in the model codes and other state and federal agencies. Where the department finds that deviations from othersdefinitions and concepts are necessary and warranted to comply with the intent of the Alfred E. Alquist Hospital Facilities Seismic Safety Act, the act that added this article, or the specific nature or functions of hospitals, the department shall provide supporting documentation that justifies these differences.

(e)Insofar as practicable, the department shall define rapid seismic evaluation procedures that will allow owners to determine with reasonable certainty the existing applicable earthquake performance categories and the minimum acceptable earthquake performance categories for hospital buildings. These procedures shall allow for abbreviated analysis when known vulnerability is clear and when construction in accordance with post-1973 codes allows for an evaluation focusing on limited structural and nonstructural elements.

(f)The department, in consultation with the Hospital Building Safety Board, shall develop regulations to identify the most critical nonstructural systems and to prioritize the timeframes for upgrading those systems that represent the greatest risk of failure during an earthquake.

(g)The department shall develop regulations as they apply to the administration of seismic standards for retrofit designs, construction, and field reviews for the purposes of this article.

(h)The department shall develop regulations for the purpose of reviewing requests and granting delays to hospitals demonstrating a need for more time to comply with Section 130060.

(i)The department shall submit all information developed pursuant to subdivisions (a) to (f), inclusive, to the

California Building Standards Commission by June 30, 1996.

(j)The department shall submit all information developed pursuant to subdivisions (g) and (h) to the California Building Standards Commission by December 31, 1996.

(k)Hospital building,□ as used in Article 8 and Article 9 of this chapter means a hospital building as defined in Section 129725 and that is also licensed pursuant to subdivision (a) of Section 1250, but does not include these buildings if the beds licensed pursuant to subdivision (a) of Section 1250, as of January 1, 1995, comprise 10 percent or less of the total licensed beds of the total physical plant, and does not include facilities owned or operated, or both, by the Department of Corrections.

(Amended by Stats. 2021, Ch. 143, Sec. 323. (AB 133) Effective July 27, 2021.)

130006.

(a)A hospital building that is classified as SPC-2 shall be identified as These buildings do not significantly jeopardize life, but may not be repairable or functional following an earthquake□ on the departmentsinternet website and in all documents and submissions to the department by the hospital owner relating to compliance with Section 130065.

(b)A hospital building that is classified as both SPC-5 and NPC-5 may be labeled earthquake resilient□ on the departmentsinternet website and in all documents and submissions to the department by the hospital owner relating to compliance with Section 130065.

(Added by Stats. 2022, Ch. 584, Sec. 2. (AB 1882) Effective January 1, 2023.)

130010.

The department is responsible for reviewing and approving seismic evaluation reports, compliance schedules and construction documents that are developed by hospital owners, and field review of construction for work done pursuant to this article.

(Amended by Stats. 2021, Ch. 143, Sec. 324. (AB 133) Effective July 27, 2021.)

130020.

(a)By December 31, 1996, the California Building Standards Commission shall review, revise as necessary and adopt earthquake performance categories, seismic evaluation procedures, and standards and timeframes for upgrading the most critical nonstructural systems as developed by the department. By June 30, 1997, the California Building Standards Commission shall review, revise as necessary, and adopt seismic retrofit building standards and procedures for reviewing requests and granting delays to hospitals that demonstrate a need for more time to comply with Section 130060.

(b)For purposes of this section all submittals made by the department pursuant to subdivisions (i) and (j) of Section 130005 shall be deemed as emergency regulations and adopted as such.

(Amended by Stats. 2021, Ch. 143, Sec. 325. (AB 133) Effective July 27, 2021.)

130025.

(a)In the event of a seismic event, or other natural or manmade calamity that the department believes is of a magnitude so that it may have compromised the structural integrity of a hospital building, or any major system of a hospital building, the department shall send one or more authorized representatives to examine the structure or system. System for these purposes shall include, but not be limited to, the electrical, mechanical, plumbing, and fire and life safety system of the hospital building. If, in the opinion of the department, the structural integrity of the hospital building or any system has been compromised and damaged to a degree that the hospital building has been made unsafe to occupy, the department may cause to be placed on the hospital building either a red tag, a yellow tag, or a green tag.

(b)A red tag shall mean the hospital building is unsafe and shall be evacuated immediately. Access to red-tagged buildings shall be restricted to persons authorized by the department to enter.

(c)A yellow tag shall mean that the hospital building has been authorized for limited occupancy, and the authorized representative of the department shall write directly on the yellow tag that portion of the hospital building that may be entered with or without restriction and those portions that may not.

(d)A green tag shall mean the hospital building and all of its systems have been inspected by an authorized agent of the department, and have been found to be safe for use and occupancy.

(e)Any law enforcement or other public safety agency of this state shall grant access to hospital buildings by authorized representatives of the department upon the showing of appropriate credentials.

(f)For purposes of this section, hospital building includes the buildings referred to in paragraphs (2) and (3) of subdivision (b) of Section 129725.

(Amended by Stats. 2021, Ch. 143, Sec. 326. (AB 133) Effective July 27, 2021.)

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 9.)

__ARTICLE 9. Hospital Owner Responsibilities [130050 - 130070]__

(Article 9 added by Stats. 1995, Ch. 415, Sec. 9.)

130050.

(a) Within three years after the adoption of the standards described in Section 130020, owners of all general acute care hospitals shall:

(1) Conduct seismic evaluations in accordance with procedures developed by the department pursuant to subdivision (e) of Section 130005 and submit evaluations to the department for its review and approval.

(2) Identify the most critical nonstructural systems that represent the greatest risk of failure during an earthquake and submit the timetables for upgrading those systems pursuant to subdivision (f) of Section 130005 to the department for its review and approval.

(3) With respect to the nonstructural performance evaluation required by this subdivision, the evaluation need not exceed those required by the nonstructural performance category the hospital owner has elected. Additional evaluations shall be obtained if the hospital owner elects to obtain a higher nonstructural performance category at a future date. A hospital owner shall report to the department all deficiencies that are pertinent to the nonstructural performance category the hospital owner has elected to attain. A complete nonstructural evaluation and list of nonstructural deficiencies shall be submitted to the department prior to the hospital owner selling or leasing the hospital to another party.

(b) Within three years after the adoption of standards described in Section 130020, owners of all general acute care hospitals shall prepare a plan and compliance schedule for each building under the departmentsjurisdiction that indicates the steps by which the hospital intends to bring their hospital buildings into substantial compliance with the regulations and standards developed by the department pursuant to the Alfred E. Alquist Hospital Facilities Seismic Safety Act and this act, identifies the phasing out of or retrofit of noncomplying structures and systems, or outlines steps for relocation of acute care services to facilities that comply with the regulations and standards developed by the department pursuant to the Alfred E. Alquist Hospital Facilities Seismic Safety Act and this act, and presents comprehensive plans and compliance schedules to the department for its review and approval, and integrates this schedule into the facilitysmaster plan.

(c) Owners of all general acute care hospitals may be granted a one year allowance from the requirements of subdivision (b) by the department if they demonstrate a need for more time to prepare plans and compliance schedules for their buildings.

(Amended by Stats. 2021, Ch. 143, Sec. 327. (AB 133) Effective July 27, 2021.)

130055.

On and after July 1, 2023, general acute hospital building owners shall do both of the following annually until each of the hospital buildings owned by that hospital building owner is compliant with Section 130065.

(a)Include all pertinent information regarding the buildingsexpected earthquake performance in emergency training, response, and recovery plans.

(b)Include all pertinent information regarding the buildingsexpected earthquake performance in capital outlay plans.

(Amended by Stats. 2022, Ch. 584, Sec. 3. (AB 1882) Effective January 1, 2023.)

130060.

(a)(1)After January 1, 2008, a general acute care hospital building that is determined to be a potential risk of collapse or pose significant loss of life shall only be used for nonacute care hospital purposes, unless an extension of this deadline has been granted and either of the following occurs before the end of the extension:

(A)A replacement building has been constructed and a certificate of occupancy has been granted by the department for the replacement building.

(B)A retrofit has been performed on the building and a construction final has been obtained by the department.

(2)An extension of the deadline may be granted by the department upon a demonstration by the owner that compliance will result in a loss of health care capacity that may not be provided by other general acute care hospitals within a reasonable proximity. In its request for an extension of the deadline, a hospital shall state why the hospital is unable to comply with the January 1, 2008, deadline requirement.

(3)Prior to granting an extension of the January 1, 2008, deadline pursuant to this section, the department shall do all of the following:

(A)Provide public notice of a hospitalsrequest for an extension of the deadline. The notice, at a minimum, shall be posted on the departmentsinternet website, and shall include the facilitysname and identification number, the status of the request, and the beginning and ending dates of the comment period, and shall advise the public of the opportunity to submit public comments pursuant to subparagraph (C). The department shall also provide notice of all requests for the deadline extension directly to interested parties upon request of the interested parties.

(B)Provide copies of extension requests to interested parties within 10 working days to allow interested parties to review and provide comment within the 45-day comment period. The copies shall include those records that are available to the public pursuant to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(C)Allow the public to submit written comments on the extension proposal for a period of not less than 45 days from the date of the public notice.

(b)(1)It is the intent of the Legislature, in enacting this subdivision, to facilitate the process of having more hospital buildings in substantial compliance with this chapter and to take nonconforming general acute care hospital inpatient buildings out of service more quickly.

(2)The functional contiguous grouping of hospital buildings of a general acute care hospital, each of which provides, as the primary source, one or more of the hospitalseight basic services as specified in subdivision (a) of Section 1250, may receive a five-year extension of the January 1, 2008, deadline specified in subdivision (a) of this section pursuant to this subdivision for both structural and nonstructural requirements. A functional contiguous grouping refers to buildings containing one or more basic hospital services that are either attached or connected in a way that is acceptable to the State Department of Health Care Services. These buildings may be either on the existing site or a new site.

(3)To receive the five-year extension, a single building containing all of the basic services or at least one building within the contiguous grouping of hospital buildings shall have obtained a building permit prior to 1973 and this building shall be evaluated and classified as a nonconforming, Structural Performance Category-1 (SPC-1) building. The classification shall be submitted to and accepted by the Department of Health Care Access and Information. The identified hospital building shall be exempt from the requirement in subdivision (a) until January 1, 2013, if the hospital agrees that the basic service or services that were provided in that building shall be provided, on or before January 1, 2013, as follows:

(A)Moved into an existing conforming Structural Performance Category-3 (SPC-3), Structural Performance Category-4 (SPC-4), or Structural Performance Category-5 (SPC-5) and Non-Structural Performance Category-4 (NPC-4) or Non-Structural Performance Category-5 (NPC-5) building.

(B)Relocated to a newly built compliant SPC-5 and NPC-4 or NPC-5 building.

(C)Continued in the building if the building is retrofitted to an SPC-5 and NPC-4 or NPC-5 building.

(4)A five-year extension is also provided to a post-1973 building if the hospital owner informs the Department of Health Care Access and Information that the building is classified as SPC-1, SPC-3, or SPC-4 and will be closed to general acute care inpatient service use by January 1, 2013. The basic services in the building shall be relocated into an SPC-5 and NPC-4 or NPC-5 building by January 1, 2013.

(5)SPC-1 buildings, other than the building identified in paragraph (3) or (4), in the contiguous grouping of hospital buildings shall also be exempt from the requirement in subdivision (a) until January 1, 2013. However, on or before January 1, 2013, at a minimum, each of these buildings shall be retrofitted to an SPC-2 and NPC-3 building, or no longer be used for general acute care hospital inpatient services.

(c)On or before March 1, 2001, the department shall establish a schedule of interim work progress deadlines that hospitals shall be required to meet to be eligible for the extension specified in subdivision (b). To receive this extension, the hospital building or buildings shall meet the year 2002 nonstructural requirements.

(d)A hospital building that is eligible for an extension pursuant to this section shall meet the January 1, 2030,

nonstructural and structural deadline requirements if the building is to be used for general acute care inpatient services after January 1, 2030.

(e)Upon compliance with subdivision (b), the hospital shall be issued a written notice of compliance by the department. The department shall send a written notice of violation to hospital owners that fail to comply with this section. The department shall make copies of these notices available on its internet website.

(f)(1)A hospital that has received an extension of the January 1, 2008, deadline pursuant to subdivision (a) or (b) may request an additional extension of up to two years for a hospital building that it owns or operates and that meets the criteria specified in paragraph (2), (3), or (5).

(2)The department may grant the additional extension if the hospital building subject to the extension meets all of the following criteria:

(A)The hospital building is under construction at the time of the request for extension under this subdivision and the purpose of the construction is to meet the requirements of subdivision (a) to allow the use of the building as a general acute care hospital building after the extension deadline granted by the department pursuant to subdivision (a) or (b).

(B)The hospital building plans were submitted to the department and were deemed ready for review by the department at least four years prior to the applicable deadline for the building. The hospital shall indicate, upon submission of its plans, the SPC-1 building or buildings that will be retrofitted or replaced to meet the requirements of this section as a result of the project.

(C)The hospital received a building permit for the construction described in subparagraph (A) at least two years prior to the applicable deadline for the building.

(D)The hospital submitted a construction timeline at least two years prior to the applicable deadline for the building demonstrating the hospitalsintent to meet the applicable deadline. The timeline shall include all of the following:

(i)The projected construction start date.

(ii)The projected construction completion date.

(iii)Identification of the contractor.

(E)The hospital is making reasonable progress toward meeting the timeline set forth in subparagraph (D), but factors beyond the hospitalscontrol make it impossible for the hospital to meet the deadline.

(3)The department may grant the additional extension if the hospital building subject to the extension meets all of the following criteria:

(A)The hospital building is owned by a health care district that has, as owner, received the extension of the January 1, 2008, deadline, but where the hospital is operated by an unaffiliated third-party lessee pursuant to a facility lease that extends at least through December 31, 2009. The district shall file a declaration with the department with a request for an extension stating that, as of the date of the filing, the district has lacked, and continues to lack, unrestricted access to the subject hospital building for seismic planning purposes during the term of the lease, and that the district is under contract with the county to maintain hospital services when the hospital comes under district control. The department shall not grant the extension if an unaffiliated third-party lessee will operate the hospital beyond December 31, 2010.

(B)The hospital building plans were submitted to the department and were deemed ready for review by the department at least four years prior to the applicable deadline for the building. The hospital shall indicate, upon submission of its plans, the SPC-1 building or buildings that will be retrofitted or replaced to meet the requirements of this section as a result of the project.

(C)The hospital received a building permit for the construction described in subparagraph (B) by December 31, 2011.

(D)The hospital submitted, by December 31, 2011, a construction timeline for the building demonstrating the hospitalsintent and ability to meet the deadline of December 31, 2014. The timeline shall include all of the following:

(i)The projected construction start date.

(ii)The projected construction completion date.

(iii)Identification of the contractor.

(E)The hospital building is under construction at the time of the request for the extension, the purpose of the construction is to meet the requirements of subdivision (a) to allow the use of the building as a general acute care hospital building after the extension deadline granted by the office pursuant to subdivision (a) or (b), and the hospital is making reasonable progress toward meeting the timeline set forth in subparagraph (D).

(F)The hospital granted an extension pursuant to this paragraph shall submit an additional status report to the department, equivalent to that required by subdivision (c) of Section 130061, no later than June 30, 2013.

(4)An extension granted pursuant to paragraph (3) shall be applicable only to the health care district applicant and its affiliated hospital while the hospital is operated by the district or an entity under the control of the district.

(5)The department may grant the additional extension if the hospital building subject to the extension meets all of the following criteria:

(A)The hospital owner submitted to the department, prior to June 30, 2009, a request for review using current computer modeling utilized by the department and based upon software developed by the Federal Emergency Management Agency (FEMA), referred to as Hazards US, and the building was deemed SPC-1 after that review.

(B)The hospital building plans for the building are submitted to the department and deemed ready for review by the department prior to July 1, 2010. The hospital shall indicate, upon submission of its plans, the SPC-1 building or buildings that shall be retrofitted or replaced to meet the requirements of this section as a result of the project.

(C)The hospital receives a building permit from the department for the construction described in subparagraph (B) prior to January 1, 2012.

(D)The hospital submits, prior to January 1, 2012, a construction timeline for the building demonstrating the hospitalsintent and ability to meet the applicable deadline. The timeline shall include all of the following:

(i)The projected construction start date.

(ii)The projected construction completion date.

(iii)Identification of the contractor.

(E)The hospital building is under construction at the time of the request for the extension, the purpose of the construction is to meet the requirements of subdivision (a) to allow the use of the building as a general acute care hospital building after the extension deadline granted by the department pursuant to subdivision (a) or (b), and the hospital is making reasonable progress toward meeting the timeline set forth in subparagraph (D).

(F)The hospital owner completes construction such that the hospital meets all criteria to enable the department to issue a certificate of occupancy by the applicable deadline for the building.

(6)A hospital located in the County of Sacramento, San Mateo, or Santa Barbara or the City of San Jose or the City of Willits that has received an additional extension pursuant to paragraph (2) or (5) may request an additional extension until September 1, 2015, to obtain either a certificate of occupancy from the department for a replacement building, or a construction final from the department for a building on which a retrofit has been performed.

(7)A hospital denied an extension pursuant to this subdivision may appeal the denial to the Hospital Building Safety Board.

(8)The department may revoke an extension granted pursuant to this subdivision for any hospital building where the work of construction is abandoned or suspended for a period of at least one year, unless the hospital demonstrates in a public document that the abandonment or suspension was caused by factors beyond its control.

(g)(1)Notwithstanding subdivisions (a), (b), (c), and (f), and Sections 130061.5 and 130064, a hospital that has received an extension of the January 1, 2008, deadline pursuant to subdivision (a) or (b) also may request an additional extension of up to seven years for a hospital building that it owns or operates. The department may grant the extension subject to the hospital meeting the milestones set forth in paragraph (2).

(2)The hospital building subject to the extension shall meet all of the following milestones, unless the hospital building is reclassified as SPC-2 or higher as a result of its Hazards US score:

(A)The hospital owner submits to the department, no later than September 30, 2012, a letter of intent stating whether it intends to rebuild, replace, or retrofit the building, or remove all general acute care beds and services from the building, and the amount of time necessary to complete the construction.

(B)The hospital owner submits to the department, no later than September 30, 2012, a schedule detailing why the requested extension is necessary, and specifically how the hospital intends to meet the requested deadline.

(C)The hospital owner submits to the department, no later than September 30, 2012, an application ready for review seeking structural reassessment of each of its SPC-1 buildings using current computer modeling based upon software developed by FEMA, referred to as Hazards US.

(D)The hospital owner submits to the department, no later than January 1, 2015, plans ready for review consistent with the letter of intent submitted pursuant to subparagraph (A) and the schedule submitted pursuant to subparagraph (B).

(E)The hospital owner submits a financial report to the department at the time the plans are submitted pursuant to subparagraph (D). The report shall demonstrate the hospital ownersfinancial capacity to implement the construction plans submitted pursuant to subparagraph (D).

(F)The hospital owner receives a building permit consistent with the letter of intent submitted pursuant to subparagraph (A) and the schedule submitted pursuant to subparagraph (B), no later than July 1, 2018.

(3)To evaluate public safety and determine whether to grant an extension of the deadline, the department shall consider the structural integrity of the hospitalsSPC-1 buildings based on its Hazards US scores, community access to essential hospital services, and the hospital ownersfinancial capacity to meet the deadline as determined by either a bond rating of BBB or below or the financial report on the hospital ownersfinancial capacity submitted pursuant to subparagraph (E) of paragraph (2). The criteria contained in this paragraph shall be considered by the department in its determination of the length of an extension or whether an extension should be granted.

(4)The extension or subsequent adjustments granted pursuant to this subdivision may not exceed the amount of time that is reasonably necessary to complete the construction specified in paragraph (2).

(5)If the circumstances underlying the request for extension submitted to the department pursuant to paragraph (2) change, the hospital owner shall notify the department as soon as practicable, but in no event later than six months after the hospital owner discovered the change of circumstances. The department may adjust the length of the extension granted pursuant to paragraphs (2) and (3) as necessary, but in no event longer than the period specified in paragraph (1).

(6)A hospital denied an extension pursuant to this subdivision may appeal the denial to the Hospital Building Safety Board.

(7)The department may revoke an extension granted pursuant to this subdivision for any hospital building when it is determined that any information submitted pursuant to this section was falsified, or if the hospital failed to meet a milestone set forth in paragraph (2), or where the work of construction is abandoned or suspended for a period of at least six months, unless the hospital demonstrates in a publicly available document that the abandonment or suspension was caused by factors beyond its control.

(8)Regulatory submissions made by the department to the California Building Standards Commission to implement this section shall be deemed to be emergency regulations and shall be adopted as emergency regulations.

(9)The hospital owner that applies for an extension pursuant to this subdivision shall pay the office an additional fee, to be determined by the department, sufficient to cover the additional reasonable costs incurred by the department for maintaining the additional reporting requirements established under this section, including, but not limited to, the costs of reviewing and verifying the extension documentation submitted pursuant to this subdivision. This additional fee shall not include any cost for review of the plans or other duties related to receiving a building or occupancy permit.

(10)This subdivision shall become operative on the date that the State Department of Health Care Services receives all necessary federal approvals for a 2011"12 fiscal year hospital quality assurance fee program that includes three hundred twenty million dollars ($320,000,000) in fee revenue to pay for health care coverage for children, which is made available as a result of the legislative enactment of a 2011"12 fiscal year hospital quality assurance fee program.

(h)A critical access hospital located in the City of Tehachapi may submit a seismic safety extension application pursuant to subdivision (g), notwithstanding deadlines in that subdivision that are earlier than the effective date of the act that added this subdivision. The submitted application shall include a timetable as required pursuant to subdivision (g).

(i)(1)A hospital located in the Tarzana neighborhood of the City of Los Angeles that has received extensions pursuant to subdivisions (b) and (g) may request an additional extension for a single building until October 1, 2022, in order to obtain a certificate of occupancy from the department for a replacement building.

(2)The hospital owner seeking the extension shall submit a written request that includes a timeline specifying how the hospital intends to meet the new deadline, including the construction document submission dates. The following timeline shall be met for construction document submissions:

(A)No later than January 1, 2018, the hospital owner shall submit construction documents, deemed ready for review, related to the first final review of the second increment with information including the building core and shell of the hospital. Failure to submit the construction documents by January 1, 2018, shall result in the assessment of a fine of five thousand dollars ($5,000) per calendar day until the documents are submitted.

(B)No later than March 1, 2018, the hospital owner shall submit construction documents, deemed ready for review, related to the first final review of the first increment with information including the structural foundation, frame, and underslab utilities of the hospital. Failure to submit the construction documents by March 1, 2018, shall result in the assessment of a fine of five thousand dollars ($5,000) per calendar day until the documents are submitted.

(C)No later than September 1, 2018, the hospital owner shall submit construction documents, deemed ready for review, related to the first final review of the third increment with information on the build-out of the hospital. Failure to submit the construction documents by September 1, 2018, shall result in the assessment of a fine of five thousand dollars ($5,000) per calendar day until the documents are submitted.

(D)No later than November 1, 2018, the hospital owner shall submit construction documents, deemed ready for review, related to the first final review of the fourth increment with information on the seismic support and anchorage of the hospital. Failure to submit the construction documents by November 1, 2018, shall result in the assessment of a fine of five thousand dollars ($5,000) per calendar day until the documents are submitted.

(E)The hospital owner may submit a written request to the department seeking an extension of the deadlines set forth in subparagraphs (A), (B), (C), and (D). The written request shall state with specificity the reason for the request and how the reason preventing compliance with the deadlines was outside of the control of the hospital owner. After review of the request for extension, the department may grant the request for a period of time not to exceed 30 calendar days. If the department grants the request for an extension, no fine shall accrue or be imposed during the extension period.

(3)Notwithstanding any other law, any fines assessed pursuant to paragraph (2) shall be deposited into the General Fund following a determination on appeal, if any. A hospital assessed a fine pursuant to this subdivision may appeal the assessment to the Hospital Building Safety Board, provided the hospital posts the funds for any fines to be held by the department pending the resolution of the appeal.

(4)The department shall not issue a certificate of occupancy for the single replacement building until all assessed fines accrued pursuant to paragraph (2) have been paid in full, or, if an appeal is pending, have been posted subject to resolution of an appeal. Fines deposited by the hospital pursuant to paragraph (3) shall be considered paid in full for purposes of issuing a certificate of occupancy pursuant to this paragraph.

This paragraph is in addition to, and is not intended to supersede, any other requirements that must be met by the hospital for issuance by the department of a certificate of occupancy.

(Amended by Stats. 2022, Ch. 28, Sec. 113. (SB 1380) Effective January 1, 2023.)

130061.

(a)An owner of a general acute care hospital building that is classified as a nonconforming Structural Performance Category-1 (SPC-1) building, who has not requested an extension of the deadline described in subdivision (a) or (b) of Section 130060, shall submit a report to the department no later than April 15, 2007, describing the status of each building in complying with the requirements of Section 130060. The report shall identify at least all of the following:

(1)Each building that is subject to subdivision (a) of Section 130060.

(2)The project number or numbers for retrofit or replacement of each building.

(3)The projected construction start date or dates and projected construction completion date or dates.

(4)The building or buildings to be removed from acute care service and the projected date or dates of this action.

(b)An owner of a general acute care hospital building that is classified as a nonconforming, Structural Performance Category-1 (SPC-1) building, who has requested an extension of the deadline described in subdivision (a) or (b) of Section 130060, shall submit a report to the department no later than June 30, 2009, describing the status of each building in complying with the requirements of Section 130060. The report shall identify, at a minimum, all of the following:

(1)Each building that is subject to subdivision (a) of Section 130060.

(2)The project number or numbers for retrofit or replacement of each building.

(3)The projected construction start date or dates and projected construction completion date or dates.

(4)The building or buildings to be removed from acute care service and the projected date or dates of that action.

(c)An owner of a general acute care hospital building that is classified as a nonconforming, Structural Performance Category-1 (SPC-1) building, shall submit a report to the department no later than November 1, 2010, describing the status of each building in complying with the requirements of Section 130060, and annually thereafter shall update the department with any changes or adjustments. The report shall identify at least all of the following:

(1)For each building that is subject to subdivision (a) of Section 130060 that is planned for retrofit or replacement, the report shall identify:

(A)Whether the hospital owner intends to retrofit or replace the building to SPC-2, SPC-3, SPC-4, or SPC-5.

(B)The deadline, as described in Section 130060 or 130061.5, for retrofit or replacement of the building that

the hospital owner intends to meet, and the applicable extension for which the hospital owner has been approved.

(C)The project number or numbers for retrofit or replacement of each building.

(D)The projected construction start date or dates and projected construction completion date or dates.

(E)The most recent project status and approvals.

(F)The number of inpatient beds and patient days, by type of unit and type of service to be provided.

(2)For the building or buildings to be removed from acute care service, the following information shall be included:

(A)The projected date or dates the building will be removed from service.

(B)The planned uses of the building or buildings to be removed from acute care service.

(C)The inpatient services currently delivered in the building or buildings.

(D)The number of inpatient beds and patient days, by type of unit and type of service, for the years 2008, 2009, and 2010.

(E)Whether the general acute care services and beds will be relocated to a new or retrofitted building and any corresponding building sites or project numbers.

(3)Each hospital owner shall also report, for each facility for which any buildings will be removed from acute care service, any net change in the number of inpatient beds, by type of unit and type of service, taking into account beds provided in buildings to be taken out of service, beds provided in buildings to be retrofitted or replaced, and beds provided in any other buildings used for general acute care inpatient services by the facility.

(4)Each hospital owner shall report any general acute care hospital inpatient service that is provided in any general acute care hospital building that is rated SPC-1.

(5)Each hospital owner shall report the final configuration of all buildings on its campus showing how each building will comply with the SPC-5/NPC-4 or 5 requirements, whether by retrofit or by replacement, and the type of services that will be provided in each general acute care hospital building.

(d)The department shall make the information required by subdivisions (a) and (b), available on its internet website within 90 days of receipt of this information.

(e)The department shall make the information required by subdivision (c) available on its internet website within 90 days of receipt of this information. The department shall include the hospital name, hospital owners, and location of the buildings included in the report, and, to the extent possible, for service areas containing buildings for which hospital owners report information pursuant to subdivision (c), include information on the number of inpatient beds, by type of unit and type of service, provided by facilities operating buildings that are classified as SPC-2, SPC-3, SPC-4, and SPC-5.

(f)Hospitals that have not reported pursuant to this section are not eligible for the extension provided in subdivision (f) of Section 130060.

(g)A hospital that has not submitted a report pursuant to this section shall be assessed a fine of ten dollars ($10) per licensed acute care bed per day, but in no case to exceed one thousand dollars ($1,000) per day for each SPC-1 building not in compliance with this section until it has complied with the provisions of this section. These fines shall be deposited into the Hospital Building Fund as specified pursuant to Section 129795. A hospital assessed a fine pursuant to this section may appeal the assessment to the Hospital Building Safety Board.

(Amended by Stats. 2021, Ch. 143, Sec. 330. (AB 133) Effective July 27, 2021.)

130061.5.

(a)The Legislature finds and declares the following:

(1)By enacting this section, the Legislature reinforces its commitment to ensuring the seismic safety of hospitals in California. In order to meet that commitment, this section provides a mechanism for hospitals that lack the financial capacity to retrofit Structural Performance Category-1 (SPC-1) buildings by 2013 to, instead, redirect available capital and borrowing capacity to replace those building by 2020. The mechanism is intended to allow these hospitals to meet the seismic requirements, and provide state agencies and the public with more timely and detailed information about the progress these hospitals are making toward seismic safety compliance.

(2)This section requires hospitals seeking this assistance to demonstrate that their financial condition does not allow them to retrofit these buildings by 2013, and requires them to meet specified benchmarks in order to be eligible for the extended timelines set forth in this section. Failure to meet any of these benchmarks shall result in the hospital being noncompliant and subject the hospital to loss of licensure.

(3)It is the intent of the Legislature to ensure the continuation of services in medically underserved communities in which the closure of the hospital would have significant negative impacts on access to health care services in the community.

(4)It is also the intent of the Legislature that this section be implemented very narrowly to target only facilities that are essential providers in underserved communities and that lack the financial capacity to retrofit SPC-1 buildings by 2013.

(b)A hospital owner may meet the requirements of subdivision (a) of Section 130060 by replacing all of its buildings subject to that subdivision by January 1, 2020, if it meets all of the following conditions:

(1)The hospital owner has requested an extension of the deadline described in subdivision (a) or (b) of Section 130060.

(2)(A)The department certifies that the hospital owner lacks the financial capacity to meet the requirements of subdivision (a) of Section 130060 for that building. In order to receive the certification, the hospital owner shall file with the department by January 1, 2009, financial information as required by the department. This information shall include a schedule demonstrating that, as of the end of the hospital ownersmost recent fiscal year for which the hospital owner has filed its annual financial data with the department by July 1, 2007, the hospital ownersannual financial data for that fiscal year show that the hospital owner meets all of the following financial conditions:

(i)The ownersnet long-term debt to capitalization ratio, as measured by the ratio of net long-term debt to net long-term debt plus equity, was above 60 percent.

(ii)The ownersdebt service coverage, as measured by the ratio of net income plus depreciation expense plus interest expense to current maturities on long-term debt plus interest expense, was below 4.5.

(iii)The ownerscash-to-debt ratio, as measured by the ratio of cash plus marketable securities plus limited use cash plus limited use investments to current maturities on long-term debt plus net long-term debt, was below 90 percent.

(B)The department shall certify that a hospital owner applying for relief under this subdivision meets each of these financial conditions. For the purposes of this subdivision, a hospital owner shall be eligible for certification only if the annual financial data required by this paragraph for the hospital owners and all of its hospital affiliates, considered in total, meets all of these financial conditions. For purposes of this section, hospital affiliate means any hospital owned by an entity that controls, is controlled by, or is under the common control of, directly or through intermediate entity, the entity that owns the specified hospital. The applicant hospital owner shall bear all costs for review, but not to exceed the costs of review, of its financial information.

(3)The hospital owner files with the department, by January 1, 2009, a declaration that the hospital for which the hospital owner is seeking relief under this subdivision shall satisfy all of the following conditions:

(A)The hospital shall maintain a contract with the California Medical Assistance Commission (CMAC) under the selective provider contracting program, unless in an open area as established by CMAC.

(B)The hospital shall maintain at least basic emergency medical services if the hospital provided emergency medical services at the basic or higher level as of July 1, 2007.

(C)The hospital meets any of the following criteria:

(i)The hospital is located within a Medically Underserved Area or a Health Professions Shortage Area designated by the federal government pursuant to Sections 330 and 332 of the federal Public Health Service Act (42 U.S.C. Secs. 254b and 254e).

(ii)The department determines, by means of a health impact assessment, that removal of the building or buildings from service may diminish significantly the availability or accessibility of health care services to an underserved community.

(iii)The CMAC determines that the hospital is essential to providing and maintaining Medi-Cal services in the hospitalsservice area.

(iv)The hospital demonstrates that, based on annual utilization data submitted to the office for 2006 or later, the hospital had in one year over 30 percent of all discharges for either Medi-Cal or indigent patients in the county in which the hospital is located.

(4)The hospital owner submits, by January 1, 2010, a facility master plan for all the buildings that are subject to subdivision (a) of Section 130060 that the hospital intends to replace by January 1, 2020. The facility master plan shall identify at least all of the following:

(A)Each building that is subject to subdivision (a) of Section 130060.

(B)The plan to replace each building with buildings that would be in compliance with subdivision (a) of Section 130065.

(C)The building or buildings to be removed from acute care service and the projected date or dates of that action.

(D)The location for any new building or buildings, including, but not limited to, whether the owner has received a permit for that location. The replacement buildings shall be planned within the same service area as the buildings to be removed from service.

(E)A copy of the preliminary design for the new building or buildings.

(F)The number of beds available for acute care use in each new building.

(G)The timeline for completed plan submission.

(H)The proposed construction timeline.

(I)The proposed cost at the time of submission.

(J)A copy of any records indicating the hospital governing boardsapproval of the facility plan.

(5)By January 1, 2013, the hospital owner submits to the department a building plan that is deemed ready for review by the department, for each building.

(6)By January 1, 2015, the hospital owner receives a building permit to begin construction, for each building that the owner intends to replace pursuant to the master plan.

(7)Within six months of receipt of the building permit, the hospital owner submits a construction timeline that identifies at least all of the following:

(A)Each building that is subject to subdivision (a) of Section 130060.

(B)The project number or numbers for replacement of each building.

(C)The projected construction start date or dates and projected construction completion date or dates.

(D)The building or buildings to be removed from acute care.

(E)The estimated cost of construction.

(F)The name of the contractor.

(8)Every six months thereafter, the hospital owner reports to the department on the status of the project, including any delays or circumstances that could materially affect the estimated completion date.

(9)The hospital owner pays to the department an additional fee, to be determined by the department, sufficient to cover the additional cost incurred by the department for maintaining all reporting requirements established under this section, including, but not limited to, the costs of reviewing and verifying the financial information submitted pursuant to paragraph (2). This additional fee shall not include any cost for review of the plans or other duties related to receiving a building or occupancy permit.

(c)The department may also approve an extension of the deadline described in subdivision (a) or (b) of Section 130060 for a general acute care hospital building that is classified as a nonconforming SPC-1 building and is owned or operated by a county, city, or county and city that has requested an extension of this deadline by June 30, 2009, if the owner files a declaration with the department stating that as of the date of that filing the owner lacks the ability to meet the requirements of subdivision (a) of Section 130060 for that building pursuant to subdivision (b) of that section. The declaration shall state the commitment of the hospital to replace those buildings by January 1, 2020, with other buildings that meet the requirements of Section 130065 and shall meet the requirements of paragraphs (4) to (9), inclusive, of subdivision (b).

(d)A hospital filing a declaration pursuant to this section but failing to meet any of the deadlines set forth in this section shall be deemed in violation of this section and Section 130060, and shall be subject to loss of licensure.

(Amended by Stats. 2021, Ch. 143, Sec. 331. (AB 133) Effective July 27, 2021.)

130062.

(a)For the purposes of this section, the following terms have the following meanings:

(1)Rebuild plan means a plan to meet seismic standards primarily by constructing a new conforming SPC-5 building for use in lieu of an SPC-1 building.

(2)Removal plan means a plan to meet seismic standards primarily by removing acute care services or beds from the hospitalslicense.

(3)Replacement plan means a plan to meet seismic standards primarily by relocating acute care services or beds from nonconforming buildings into a conforming building.

(4)Retrofit plan means a plan to meet seismic standards primarily by modifying the building in a manner that brings the building up to SPC-2, SPC-4D, or SPC-5 standards.

(b)(1)Except as specified in paragraph (2), all hospitals seeking an extension for their SPC-1 buildings shall submit to the department an application, in a manner acceptable to the department, by April 1, 2019.

(2)If Providence Tarzana Medical Center in the City of Los Angeles or UCSF Benioff ChildrensHospital in the City of Oakland seeks an extension for its SPC-1 buildings, it shall submit to the department an application, in a manner acceptable to the department, by September 1, 2019.

(3)At a minimum, an application described in paragraph (1) or (2) shall state which of the seismic compliance methods described in subdivision (a) will be used for each SPC-1 building.

(c)A hospital owner that has been granted an extension pursuant to subdivision (g) of Section 130060 or subdivision (b) of Section 130061.5 may request, and the department shall grant, an additional extension of time as set forth in this section.

(d)(1)For a hospital that seeks an extension for compliance based on a replacement plan or retrofit plan, the owner shall submit a construction schedule, obtain a building permit, and begin construction by April 1, 2020.

(2)Using the construction schedule submitted pursuant to paragraph (1), the hospital and the department shall identify at least two major milestones relating to the compliance plan that will be used as the basis for determining whether the hospital is making adequate progress toward meeting the seismic compliance deadline.

(3)Failure to comply with the requirements described in paragraph (1) or (2), or to meet any milestone agreed to pursuant to paragraph (2), shall result in the assessment of a fine of five thousand dollars ($5,000) per calendar day until the requirements or milestones, respectively, are met.

(4)Final seismic compliance shall be achieved by July 1, 2022.

(e)(1)For a hospital that seeks an extension for compliance based on a rebuild plan, the department shall grant an extension of up to five years. The owner shall submit, in a manner acceptable to the department, no later than July 1, 2020, the rebuild plan, deemed ready for review, and shall submit a construction schedule, obtain a building permit, and begin construction no later than January 1, 2022.

(2)The hospital and the department shall identify at least two major milestones, agreed upon by the hospital and the department, that will be used as the basis for determining whether the hospital is making adequate progress toward meeting the seismic compliance deadline.

(3)Failure to comply with the requirements described in paragraph (1) or (4), or to meet any milestone agreed to pursuant to paragraph (2) or (4), shall result in the assessment of a fine of five thousand dollars ($5,000) per calendar day until the requirements or milestones, respectively, are met.

(4)For a hospital that has previously submitted to the department a rebuild project under construction, the department may accept certification from the hospital that it has obtained appropriate building permits consistent with an approved incremental plan review and that construction thereunder has commenced and is continuing. The previously approved construction schedule shall be amended to reflect the extension being requested, and at least two new major milestones shall be identified. The owner shall not be required to resubmit construction plans previously submitted to the department, and the department may not impose new or different requirements for any increment already approved or building permit already issued by the department as a condition for granting an extension.

(5)Final seismic compliance shall be achieved, and a certificate of occupancy shall be obtained, by January 1, 2025.

(f)The department may grant an adjustment to the requirements described in paragraph (1) or (2) of subdivision (d) or paragraph (1) or (4) of subdivision (e), or the milestones agreed to pursuant to paragraph (2) of subdivision (d) or paragraph (2) or (4) of subdivision (e), as necessary to deal with contractor, labor, or material delays, or with acts of God, or with governmental entitlements, experienced by the hospital. If that adjustment is granted, the hospital shall submit a revised construction schedule, and the hospital and the department shall identify at least two new major milestones consistent with the adjustment. Failure to comply with the revised construction schedule or meet any of the major milestones shall result in penalties as specified in paragraph (3) of subdivision (d) and paragraph (3) of subdivision (e). The adjustment shall not exceed the corresponding final seismic compliance date specified in paragraph (4) of subdivision (d) or paragraph (5) of subdivision (e).

(g)The duration of an extension granted by the department pursuant to this section shall not exceed the maximums permitted by this section. Moreover, within that limit, the department shall not grant an extension that exceeds the amount of time needed by the owner to come into compliance. The

determination by the department regarding the length of the extension to be granted shall be based upon a showing by the owner of the facts necessitating the additional time. It shall include a review of the plan and all the documentation submitted in the application for the extension, and shall permit only that additional time necessary to allow the owner to deal with compliance plan issues that cannot be fully met without the extension.

(h)No extension shall be granted pursuant to this section for SPC-1 buildings unless the owner has submitted to the department, by January 1, 2018, a seismic compliance plan.

(i)An extension shall not be granted pursuant to this section for seismic compliance based upon a removal plan.

(j)(1)Except as specified in paragraph (2), in lieu of the reporting requirements described in Section 130061, a hospital granted an extension pursuant to this section shall provide a quarterly status report to the department, with the first report due on July 1, 2019, and every October 1, January 1, April 1, and July 1 thereafter, until seismic compliance is achieved.

(2)In lieu of the reporting requirements described in Section 130061, if Providence Tarzana Medical Center in the City of Los Angeles or UCSF Benioff ChildrensHospital in the City of Oakland is granted an extension pursuant to this section based on an application submitted on or after April 1, 2019, the first quarterly status report shall be due on October 1, 2019, and every January 1, April 1, July 1, and October 1 thereafter, until seismic compliance is achieved.

(3)The office shall post the status reports described in paragraphs (1) and (2) on its internet website.

(k)Before June 1, 2019, the office shall provide the Legislature with an inventory of the SPC category of each hospital building. A report submitted to the Legislature pursuant to this subdivision shall be submitted in compliance with Section 9795 of the Government Code.

(l)(1)The office may revoke an extension granted pursuant to this section for a hospital building where the assessment for a penalty exceeds 60 days.

(2)Notwithstanding any other law, any penalties assessed pursuant to this section shall be deposited into the General Fund within 45 days of assessment or within 45 days following a determination on appeal, if any. A hospital assessed a penalty pursuant to this section may appeal the assessment to the Hospital Building Safety Board, provided the hospital posts the funds for any penalties with the department, to be held pending the resolution of the appeal.

(3)The department shall not issue a construction final or certificate of occupancy for the building until all assessed penalties accrued pursuant to this section have been paid in full or, if an appeal is pending, have been posted subject to resolution of the appeal. Penalties deposited by the hospital pursuant to paragraph (2) shall be considered paid in full for purposes of issuing a construction final or certificate of occupancy. This paragraph is in addition to, and is not intended to supersede, any other requirements that must be met by the hospital for issuance of a construction final or certificate of occupancy.

(m)The department may promulgate emergency regulations as necessary to implement this section.

(Amended by Stats. 2021, Ch. 143, Sec. 332. (AB 133) Effective July 27, 2021.)

130063.

(a) With regard to a general acute care hospital building located in Seismic Zone 3 as indicated in the 1995 edition of the California Building Standards Code, any hospital may request an exemption from Non-Structural Performance Category-3 requirements in Title 24 of the California Code of Regulations if the hospital building complies with the year 2002 nonstructural requirements.

(b) The department shall determine the maximum allowable level of earthquake ground shaking potential for purposes of this section.

(c) To qualify for an exemption under this section, a hospital shall provide a site-specific engineering geologic report that demonstrates an earthquake ground shaking potential below the maximum allowable level of earthquake ground shaking potential determined by the department pursuant to subdivision (b).

(d) (1) To demonstrate an earthquake ground shaking potential as provided in subdivision (c), a hospital shall submit a site-specific engineering geologic report to the department.

(2) The department shall forward the report received from a hospital to the Division of Mines and Geology in the Department of Conservation for purposes of a review.

(3) If, after review of the analysis, the Division of Mines and Geology concurs with the findings of the report, it shall return the report with a statement of concurrence to the office. Upon the receipt of the statement, if the ground shaking potential is below that established pursuant to subdivision (b), the department shall grant the exemption requested.

(e) A hospital building that is eligible for an exemption under this section shall meet the January 1, 2030, nonstructural requirement deadline if the building is to be used for general acute care inpatient services after January 1, 2030.

(f) A hospital requesting an exemption pursuant to this section shall pay the actual expenses incurred by the department and the Division of Mines and Geology.

(g) All regulatory submissions to the California Building Standards Commission made by the department for purposes of this section shall be deemed to be emergency regulations and shall be adopted as emergency regulations. This emergency regulation authority shall remain in effect until January 1, 2004.

(Amended by Stats. 2021, Ch. 143, Sec. 333. (AB 133) Effective July 27, 2021.)

130063.1.

Notwithstanding Section 130063, a county-owned general acute care hospital building is allowed an extension of the Non-structural Performance Category-2 requirements of Title 24 of the California Code of Regulations if all of the following conditions are met:

(a) The county submitted the compliance plan on or before January 1, 2001.

(b) The county submitted the Non-structural Performance Category-2 building plans to the Department of Health Care Access and Information on or before September 1, 2001.

(c) The county complies with the year 2002 nonstructural requirements established by regulation 12 months after receipt of the building permit approval letter from the Department of Health Care Access and Information.

(Amended by Stats. 2021, Ch. 143, Sec. 334. (AB 133) Effective July 27, 2021.)

130063.2.

Notwithstanding Section 130063, an existing county-owned general acute care hospital building may receive a one-year extension of the January 1, 2002, deadline for the Non-structural Performance Category-2 requirements in Title 24 of the California Code of Regulations if all of the following conditions are met:

(a) The existing hospital building is removed from general acute care service on or before January 1, 2003.

(b) Construction of the replacement building that will meet the 2030 nonstructural and structural deadline requirements, which commenced before January 1, 2001, is completed by January 1, 2003.

(Added by Stats. 2001, Ch. 247, Sec. 2. Effective January 1, 2002.)

130064.

(a)In lieu of the extension described in subdivision (f) of Section 130060, the department may grant an extension to a general acute care hospital pursuant to either subdivision (c) or (f) if the hospital building will not meet the seismic safety standards of that section by January 1, 2013, due to a local planning delay.

(b)When applying for an extension under this section, the owner of the general acute care hospital shall submit to the department documentation that includes at least all of the following:

(1)The original schedule of the project or projects as had been originally anticipated.

(2)The schedule of the project or projects as currently projected.

(3)A timeline for the submission of documents to the local planning authority or jurisdiction.

(4)Documentation that the local planning authority for the project and for the enabling phases of the project does not grant approvals prior to November 1, 2010, where the hospital had originally filed the local application prior to January 1, 2008.

(5)A proposed construction timeframe demonstrating the completion of the project once the permit is issued. The construction timeframe shall be approved by the department and shall only include the amount of time that is reasonably necessary to complete the construction required to meet the seismic safety requirements.

(c)The department may grant an extension, in full one-year increments, but no longer than three consecutive years, that compensates for delays determined pursuant to subdivision (d).

(d)The department shall conduct a comprehensive review of the schedule for the project or projects

according to criteria specified in this section. This review shall encompass the project or projects under the jurisdiction of the department, as well as other project phases not under the jurisdiction of the department. The department shall consider the cumulative effect of local approval timelines for all elements of the project or projects, inclusive of changes in scope or sequence of the project or projects required by the local planning process. The department may grant extensions based on an evaluation of each of the following circumstances:

(1)Where the local planning authority approvals have delayed or will delay the construction start date of the project or projects.

(2)Where the local conditions of approval on a project or projects extend the duration beyond the originally anticipated construction completion date.

(3)Where the cumulative effect of delays on the project or projects creates additional construction delays due to local seasonal weather impact requirements of the local planning authority.

(4)Construction related to the seismic retrofit or replacement project has begun by January 1, 2013.

(5)The project or projects were submitted for review by the department no later than January 1, 2009.

(6)The project or projects have received a building permit from the department no later than January 1, 2012.

(e)Every six months after the approval of the extension, the hospital owner shall report to the department on the status of the project or projects, demonstrating that it is making reasonable progress toward meeting the construction timeline.

(f)The department may grant an additional extension of up to two years in addition to the extension granted pursuant to subdivisions (c) and (d) only if the project or projects meet all of the following criteria:

(1)A matrix of buildings at the hospital that identifies compliance of each building to the standards required by Section 130065 at the completion of the project or projects.

(2)The construction timelines submitted pursuant to subdivision (a) were determined to go beyond three years from the date the building permit was issued.

(3)Acute care services will not be provided in any SPC-1 building at any time during the extension.

(4)The hospital demonstrates that it has, and maintains throughout the extension, life safety systems in all acute care patient care areas that do not depend on, and are not routed through, an SPC-1 building.

(5)The hospital either demonstrates that the SPC-1 building does not pose a structural risk to an adjoining hospital building that is used for acute care services or mitigates the risk in accordance with a deadline described in subdivision (f) of Section 130060 that the department determines will best protect patient safety.

(g)The department may revoke an extension granted pursuant to this section for any hospital building where the work of construction is abandoned or suspended for a period of at least six months, unless the hospital demonstrates that the abandonment or suspension was caused by factors beyond its control.

(h)The department may revoke an extension granted pursuant to this section if it is determined that any information submitted pursuant to this section was falsified in any manner by the hospital or if the hospital

fails to meet any of the criteria or conditions specified in this section.

(i)Regulatory submissions made by the department to the California Building Standards Commission pursuant to this section shall be deemed, and shall be adopted as, emergency regulations.

(j)The hospital owner that applies for an extension pursuant to this section shall pay to the department an additional fee, to be determined by the department, sufficient to cover the additional cost incurred by the office for maintaining all reporting requirements established under this section, including, but not limited to, the costs of reviewing and verifying the extension documentation submitted pursuant to this section. This additional fee shall not include any cost for review of the plans or other duties related to receiving a building or occupancy permit.

(k)A hospital denied an extension pursuant to this section may appeal the denial to the Hospital Building Safety Board.

(Amended by Stats. 2021, Ch. 143, Sec. 335. (AB 133) Effective July 27, 2021.)

130065.

In accordance with the compliance schedule approved by the department, but in any case no later than January 1, 2030, owners of all acute care inpatient hospitals shall either:

(a) Demolish, replace, or change to nonacute care use all hospital buildings not in substantial compliance with the regulations and standards developed by the department pursuant to the Alfred E. Alquist Hospital Facilities Seismic Safety Act and this act.

(b) Seismically retrofit all acute care inpatient hospital buildings so that they are in substantial compliance with the regulations and standards developed by the department pursuant to the Alfred E. Alquist Hospital Facilities Seismic Safety Act and this act.

Upon compliance with this section, the hospital shall be issued a written notice of compliance by the department. The department shall send a written notice of violation to hospital owners that fail to comply with this section.

(Amended by Stats. 2021, Ch. 143, Sec. 336. (AB 133) Effective July 27, 2021.)

130066.

Before January 1, 2020, the owner of an acute care inpatient hospital whose building does not substantially comply with the seismic safety regulations or standards described in Section 130065 shall submit to the department an attestation that the board of directors of that hospital is aware that the hospital building is required to meet the January 1, 2030, deadline for substantial compliance with those regulations and standards.

(Amended by Stats. 2021, Ch. 143, Sec. 337. (AB 133) Effective July 27, 2021.)

130066.5.

(a)Before January 1, 2024, the owner of an acute care inpatient hospital that includes a building that does not substantially comply with the seismic safety regulations or standards described in Section 130065 shall post in any lobby or waiting area generally accessible to patients or the public a notice provided by the department that the hospital is not in compliance with the seismic safety requirements that the hospital is required to meet by January 1, 2030. The notice shall be posted until the time the owner receives notification from the department that it meets the requirements described in Section 130065.

(b)On or before January 1, 2024, and annually thereafter, the owner of an acute care inpatient hospital that includes a building that does not substantially comply with the seismic safety regulations or standards described in Section 130065 shall provide an annual status update on the Structural Performance Category ratings of the buildings and the services provided in each hospital building on the hospital campus to all of the following entities until each of the hospital buildings owned by that hospital building owner is compliant with Section 130065:

(1)The county board of supervisors in whose jurisdiction the hospital building is located.

(2)The city council in whose jurisdiction the hospital building is located, if applicable.

(3)Any labor union representing workers who work in a building that does not substantially comply with the seismic safety regulations or standards described in Section 130065.

(4)The board of directors of the special district or joint powers agency that provides fire and emergency medical services in the jurisdiction in which the hospital building is located, if applicable.

(5)The department.

(6)The board of directors of the hospital.

(7)The local office of emergency services or the equivalent agency.

(8)The Office of Emergency Services.

(9)The medical health operational area coordinator.

(c)Before July 1, 2023, the department shall develop the notice required in subdivision (a) with the intent that the notice will clearly convey to patients and the public that the hospital building does not meet seismic safety standards intended to ensure that the hospital will be capable of continued operation following an earthquake. For SPC-2 buildings, the notice shall clearly state, The State of California has determined that this building does not significantly jeopardize life, but may not be repairable or functional following an earthquake.□ For other buildings that are not compliant with the seismic safety regulations or standards described in Section 130065, the notice shall state, The State of California has determined that the hospital building is at risk of not being functional to provide care to its patients or the community after an earthquake.□ In its discretion, the department may develop multiple notices in order to provide a more detailed description of different hospital buildings™ failure to meet the seismic safety regulations or standards described in Section 130065.

(Added by Stats. 2022, Ch. 584, Sec. 4. (AB 1882) Effective January 1, 2023.)

130067.

(a)Notwithstanding any other law, including, but not limited to Sections 130060 and 130061, the office may waive the requirements for the Seton Medical Center in Daly City to comply with this chapter, in whole or in part, if both of the following occur:

(1)The Seton Medical Center submits a plan to the office, on or before January 15, 2022, that proposes compliance with the applicable seismic safety standards of this chapter, and the regulations promulgated pursuant to this chapter, on or before July 1, 2023.

(2)The office accepts the plan submitted by the Seton Medical Center as feasible to complete and promoting public safety.

(b)If the office accepts the plan pursuant to subdivision (a), the Seton Medical Center shall report to the office, in the manner required by the office, on its progress to timely complete the plan, on or before all of the following dates:

(1)April 1, 2022.

(2)July 1, 2022.

(3)October 1, 2022.

(4)January 1, 2023.

(5)April 1, 2023.

(c)The office may revoke its waiver, in whole or in part, of the requirements of this chapter, if the Seton Medical Center fails to timely report progress that the office deems is sufficient to complete the plan.

(Added by Stats. 2021, Ch. 65, Sec. 1. (AB 1527) Effective January 1, 2022.)

130068.

(a)Notwithstanding any other law, including, but not limited to, Sections 130060 and 130061, the department may waive the requirements of this chapter, in whole or in part, for O™Connor Hospital and Santa Clara Valley Medical Center in the City of San Jose if both of the following occur:

(1)(A)The hospital or medical center submits to the department, within 30 days following the effective date of this statute, a plan for compliance with the applicable seismic safety standards of this chapter, and the regulations promulgated pursuant to this chapter.

(B)For the O™Connor Hospital seismic update, the plan shall provide for compliance on or before July 1, 2023.

(C)For the Santa Clara Valley Medical Building F (Services Building) Seismic Upgrade, the plan shall provide for compliance on or before July 1, 2025.

(D)For the Santa Clara Valley Medical Center Building N (RSC) Tier 2 Upgrades, the plan shall provide for compliance on or before December 31, 2025.

(E)For the Santa Clara Valley Medical Center Old Main Demolition and Rebuild project, the plan shall provide for compliance on or before July 1, 2026.

(2)The department accepts the plan submitted by the hospital or medical center based on it being feasible to complete and promoting public safety. The department shall not unreasonably reject the plan, unreasonably impose conditions on the acceptance of the plan, or unreasonably withhold or delay acceptance or rejection of the plan.

(b)If the department accepts the hospitalsor medical centersplan pursuant to subdivision (a), the hospital or medical center shall report to the department, in the manner required by the department, on its progress to timely complete its plan, on or before all of the following dates:

(1)April 1, 2023.

(2)July 1, 2023.

(3)October 1, 2023.

(4)January 1, 2024.

(5)April 1, 2024.

(6)July 1, 2024.

(7)October 1, 2024.

(8)January 1, 2025.

(9)April 1, 2025.

(10)July 1, 2025.

(11)October 1, 2025.

(12)January 1, 2026.

(13)April 1, 2026.

(14)July 1, 2026.

(c)The department may revoke its waiver of the requirements of this chapter, in whole or in part, if O™Connor Hospital or Santa Clara Valley Medical Center fails to timely report progress that the department reasonably deems is sufficient to complete their respective plans if both of the following are true:

(1)The lack of timely reporting, lack of reasonable progress, or both, is not due to unforeseen circumstances outside the control of the County of Santa Clara.

(2)If the office intends to revoke the waiver, or any part of the waiver, the department provides at least 90 days™ written notice to the County of Santa Clara prior to the effective date of the revocation and, during the notice period, the department provides the County of Santa Clara a reasonable opportunity to cure the noncompliance that forms the basis of the intended revocation.

(d)(1)(A)A hospital with a waiver approved under this section shall be subject to penalties for failure to meet milestones expressed in its compliance plan or any requirement of this section.

(B)The county shall bear the responsibility of paying any penalties.

(2)If the county fails to pay the assessed penalty amount within 30 days of the initial notice of penalties from the department, the department shall collect legal interest of 10 percent and the costs associated with recovery of any arrears.

(3)Upon a failure by the county to make a payment to the department within 60 days of notice of penalties, the department shall apply Section 1.4.5.1.2.1 of the California Administrative Code and withhold any building permits except maintenance and emergency repairs.

(4)Upon a failure by the county to make a payment 90 days after the notice of penalties, the department shall collect the full amount due, including costs and interest, either under the authority of Chapter 4.3 (commencing with Section 16580) of Part 2 of Division 4 of Title 2 of the Government Code or by withholding the amount from any general fund appropriations.

(e)The provisions of this section shall be retroactively applied so that there is no period of noncompliance if the passage of the act that added this section overlaps with the reporting requirements set forth elsewhere in this article.

(Amended by Stats. 2023, Ch. 304, Sec. 1. (AB 1471) Effective October 4, 2023.)

130069.

(a)Notwithstanding any other law, including, but not limited to, Sections 130060 and 130061, the department may waive the requirements of this chapter, in whole or in part, for Pacifica Hospital of the Valley in the County of Los Angeles if both of the following occur:

(1)The hospital submits a plan to the department, on or before September 15, 2022, that proposes compliance with the applicable seismic safety standards of this chapter, and the regulations promulgated pursuant to this chapter, on or before January 1, 2025.

(2)The department accepts the plan submitted by the hospital based on it being feasible to complete and promoting public safety.

(b)If the department accepts the hospitalsplan pursuant to subdivision (a), the hospital shall report to the department, in the manner required by the department, on its progress to timely complete its plan, on or before the following dates:

(1)October 1, 2022.

(2)January 1, 2023.

(3)April 1, 2023.

(4)July 1, 2023.

(5)October 1, 2023.

(6)January 1, 2024.

(7)April 1, 2024.

(8)July 1, 2024.

(9)October 1, 2024.

(c)The department may revoke its waiver of the requirements of this chapter, in whole or in part, if Pacifica Hospital of the Valley fails to timely report progress that the department reasonably deems is sufficient to complete the plan.

(d)The provisions of this section shall be retroactively applied so that there is no period of noncompliance if the passage of the act that added this section overlaps with the reporting requirements in Section 130062.

(Added by Stats. 2022, Ch. 592, Sec. 1. (AB 2404) Effective September 27, 2022.)

130070.

The department shall notify the State Department of Public Health of the hospital owners that have received a written notice of violation for failure to comply with either Section 130060 or 130065. Unless the hospital places its license in voluntary suspense, the State Department of Public Health shall suspend or refuse to renew the license of a hospital that has received a notice of violation from the department because of its failure to comply with either Section 130060 or 130065. The license shall be reinstated or renewed upon presentation to the State Department of Public Health of a written notice of compliance issued by the department.

(Amended by Stats. 2021, Ch. 143, Sec. 338. (AB 133) Effective July 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 107. HEALTH CARE ACCESS AND INFORMATION [127000 - 130079]__

(Heading of Division 107 amended by Stats. 2021, Ch. 143, Sec. 28.)

__PART 7. FACILITIES DESIGN REVIEW AND CONSTRUCTION [129675 - 130079]__

(Part 7 added by Stats. 1995, Ch. 415, Sec. 9.)

__CHAPTER 1.5. Small and Rural Hospital Relief Program [130075 - 130079]__

(Chapter 1.5 added by Stats. 2021, Ch. 489, Sec. 2.)

130075.

The Small and Rural Hospital Relief Program is hereby established under the administration of the Department of Health Care Access and Information for the purpose of funding seismic safety compliance with respect to small hospitals, rural hospitals, and critical access hospitals in the state.

(Added by Stats. 2021, Ch. 489, Sec. 2. (SB 395) Effective January 1, 2022.)

130076.

For purposes of this chapter:

(a)Department means the Department of Health Care Access and Information.

(b)Fund means the Small and Rural Hospital Relief Fund established in Section 130077.

(c)Seismic safety compliance means compliance with Article 9 (commencing with Section 130050) of Chapter 1.

(d)Qualified applicant means any of the following hospitals:

(1)A small hospital.

(2)A rural hospital.

(3)A critical access hospital.

(Added by Stats. 2021, Ch. 489, Sec. 2. (SB 395) Effective January 1, 2022.)

130077.

(a)The Small and Rural Hospital Relief Fund is hereby established in the Treasury.

(b)Notwithstanding Section 13340 of the Government Code, all moneys in the fund are continuously appropriated, without regard to fiscal years, for the administration and funding of the grant program pursuant to this chapter.

(Added by Stats. 2021, Ch. 489, Sec. 2. (SB 395) Effective January 1, 2022.)

130078.

(a)The department shall provide a grant to a qualified applicant that meets both of the following criteria:

(1)Seismic safety compliance imposes a financial burden on the applicant that may result in hospital closure.

(2)The hospital closure described in paragraph (1) would substantially impact the accessibility to health care in the communities surrounding the hospital.

(b)A grant provided by the department pursuant to this section may be used only for funding seismic safety compliance.

(Added by Stats. 2021, Ch. 489, Sec. 2. (SB 395) Effective January 1, 2022.)

130079.

The department may adopt regulations necessary to implement this chapter.

(Added by Stats. 2021, Ch. 489, Sec. 2. (SB 395) Effective January 1, 2022.)

__Health and Safety Code - HSC__

__DIVISION 108. CALIFORNIA CHILDREN AND FAMILIES PROGRAM [130100 - 130158]__

(Heading of Division 108 amended by Stats. 1999, Ch. 126, Sec. 1.)

130100.

There is hereby created a program in the state for the purposes of promoting, supporting, and improving the early development of children from the prenatal stage to five years of age. These purposes shall be accomplished through the establishment, institution, and coordination of appropriate standards, resources, and integrated and comprehensive programs emphasizing community awareness, education, nurturing, child care, social services, health care, and research.

(a)It is the intent of this act to facilitate the creation and implementation of an integrated, comprehensive, and collaborative system of information and services to enhance optimal early childhood development and to ensure that children are ready to enter school. This system should function as a network that promotes accessibility to all information and services from any entry point into the system. It is further the intent of this act to emphasize local decisionmaking, to provide for greater local flexibility in designing delivery systems, and to eliminate duplicate administrative systems.

(b)The programs authorized by this act shall be administered by the California Children and Families Commission and by county children and families commissions. In administering this act, the state and county commissions shall use outcome-based accountability to determine future expenditures.

(c)This division shall be known and may be cited as the California Children and Families Act of 1998.

(Amended by Stats. 2002, Ch. 245, Sec. 1. Effective January 1, 2003. Note: This section was added on Nov. 3, 1998, by initiative Prop. 10.)

130105.

The California Children and Families Trust Fund is hereby created in the State Treasury.

(a)The California Children and Families Trust Fund shall consist of moneys collected pursuant to the taxes imposed by Section 30131.2 of the Revenue and Taxation Code.

(b)All costs to implement this act shall be paid from moneys deposited in the California Children and Families Trust Fund.

(c)The State Board of Equalization shall determine within one year of the passage of this act the effect that additional taxes imposed on cigarettes and tobacco products by this act has on the consumption of cigarettes and tobacco products in this state. To the extent that a decrease in consumption is determined by the State Board of Equalization to be the direct result of additional taxes imposed by this act, the State Board of Equalization shall determine the fiscal effect the decrease in consumption has on the funding of any Proposition 99 (the Tobacco Tax and Health Protection Act of 1988) state health-related education or research programs in effect as of November 1, 1998, and the Breast Cancer Fund programs that are funded by excise taxes on cigarettes and tobacco products. Funds shall be transferred from the California Children and Families Trust Fund to those affected programs as necessary to offset the revenue decrease directly resulting from the imposition of additional taxes by this act. These reimbursements shall occur, and at any times, as determined necessary to further the intent of this subdivision.

(d)Moneys shall be allocated and appropriated from the California Children and Families Trust Fund as

follows:

(1)Twenty percent shall be allocated and appropriated to separate accounts of the state commission for expenditure according to the following formula:

(A)Six percent shall be deposited in a Mass Media Communications Account for expenditures for communications to the general public utilizing television, radio, newspapers, and other mass media on subjects relating to and furthering the goals and purposes of this act, including, but not limited to, methods of nurturing and parenting that encourage proper childhood development, the informed selection of child care, information regarding health and social services, the prevention and cessation of tobacco, alcohol, and drug use by pregnant women, the detrimental effects of secondhand smoke on early childhood development, and to ensure that children are ready to enter school. Any funds not needed in this account may be transferred to the Unallocated Account described in subparagraph (F), upon approval by the state commission.

(B)Five percent shall be deposited in an Education Account for expenditures to ensure that children are ready to enter school and for programs relating to education, including, but not limited to, the development of educational materials, professional and parental education and training, and technical support for county commissions in the areas described in subparagraph (A) of paragraph (1) of subdivision (b) of Section 130125. Any funds not needed in this account may be transferred to the Unallocated Account described in subparagraph (F), upon approval by the state commission.

(C)Three percent shall be deposited in a Child Care Account for expenditures to ensure that children are ready to enter school and for programs relating to child care, including, but not limited to, the education and training of child care providers, the development of educational materials and guidelines for child care workers, and other areas described in subparagraph (B) of paragraph (1) of subdivision (b) of Section 130125. Any funds not needed in this account may be transferred to the Unallocated Account described in subparagraph (F), upon approval by the state commission.

(D)Three percent shall be deposited in a Research and Development Account for expenditures to ensure that children are ready to enter school and for the research and development of best practices and standards for all programs and services relating to early childhood development established pursuant to this act, and for the assessment and quality evaluation of those programs and services. Any funds not needed in this account may be transferred to the Unallocated Account described in subparagraph (F), upon approval by the state commission.

(E)One percent shall be deposited in an Administration Account for expenditures for the administrative functions of the state commission. Any funds not needed for the administrative functions of the state commission may be transferred to the Unallocated Account described in subparagraph (F), upon approval by the state commission.

(F)Two percent shall be deposited in an Unallocated Account for expenditure by the state commission for any of the purposes of this act described in Section 130100 provided that none of these moneys shall be expended for the administrative functions of the state commission.

(G)In the event that, for whatever reason, the expenditure of any moneys allocated and appropriated for the purposes specified in subparagraphs (A) to (F), inclusive, is enjoined by a final judgment of a court of competent jurisdiction, then those moneys shall be available for expenditure by the state commission for mass media communication emphasizing the need to eliminate smoking and other tobacco use by pregnant women, the need to eliminate smoking and other tobacco use by persons under 18 years of age, and the need to eliminate exposure to secondhand smoke.

(H)Any moneys allocated and appropriated to any of the accounts described in subparagraphs (A) to (F), inclusive, that are not encumbered or expended within any applicable period prescribed by law shall (together with the accrued interest on the amount) revert to and remain in the same account for the next fiscal period.

(2)Eighty percent shall be allocated and appropriated to county commissions in accordance with Section 130140.

(A)The moneys allocated and appropriated to county commissions shall be deposited in each local Children and Families Trust Fund administered by each county commission, and shall be expended only for the purposes authorized by this act and in accordance with the county strategic plan approved by each county commission.

(B)Any moneys allocated and appropriated to any of the county commissions that are not encumbered or expended within any applicable period prescribed by law shall (together with the accrued interest on the amount) revert to and remain in the same local Children and Families Trust Fund for the next fiscal period under the same conditions as set forth in subparagraph (A).

(e)All grants, gifts, or bequests of money made to or for the benefit of the state commission from public or private sources to be used for early childhood development programs shall be deposited in the California Children and Families Trust Fund and expended for the specific purpose for which the grant, gift, or bequest was made. The amount of any such grant, gift, or bequest shall not be considered in computing the amount allocated and appropriated to the state commission pursuant to paragraph (1) of subdivision (d).

(f)All grants, gifts, or bequests of money made to or for the benefit of any county commission from public or private sources to be used for early childhood development programs shall be deposited in the local Children and Families Trust Fund and expended for the specific purpose for which the grant, gift, or bequest was made. The amount of any such grant, gift, or bequest shall not be considered in computing the amount allocated and appropriated to the county commissions pursuant to paragraph (2) of subdivision (d).

(Amended by Stats. 2009, Ch. 157, Sec. 1. (AB 1422) Effective September 22, 2009. Note: This section was added on Nov. 3, 1998, by initiative Prop. 10.)

130110.

(a)There is hereby established a California Children and Families Commission, which may also be known as First 5 California, composed of seven voting members and two ex officio members.

(b)The voting members shall be selected, pursuant to Section 130115, from persons with knowledge, experience, and expertise in early child development, child care, education, social services, public health, the prevention and treatment of tobacco and other substance abuse, behavioral health, and medicine (including, but not limited to, representatives of statewide medical and pediatric associations or societies), upon consultation with public and private sector associations, organizations, and conferences composed of professionals in these fields.

(c)The Secretary of the California Health and Human Services Agency and the Secretary for Education, or their designees, shall serve as ex officio nonvoting members of the state commission.

(Amended by Stats. 2003, Ch. 378, Sec. 1. Effective January 1, 2004. Note: This section was added on Nov. 3, 1998, by initiative Prop. 10.)

130115.

The Governor shall appoint three members of the state commission, one of whom shall be designated as chairperson. One of the Governorsappointees shall be either a county health officer or a county health executive. The Speaker of the Assembly and the Senate Rules Committee shall each appoint two members of the state commission. Of the members first appointed by the Governor, one shall serve for a term of four years, and two for a term of two years. Of the members appointed by the Speaker of the Assembly and the Senate Rules Committee, one appointed by the Speaker of the Assembly and the Senate Rules Committee shall serve for a period of four years with the other appointees to serve for a period of three years. Thereafter, all appointments shall be for four-year terms. No appointee shall serve as a member of the state commission for more than two four-year terms.

(Added November 3, 1998, by initiative Proposition 10. Effective (by Sec. 7 of Prop. 10) on date election results were certified.)

130120.

The state commission shall, within three months after a majority of its voting members have been appointed, hire an executive director. The state commission shall thereafter hire such other staff as necessary or appropriate. The executive director and staff shall be compensated as determined by the state commission, consistent with moneys available for appropriation in the Administration Account. All professional staff employees of the state commission shall be exempt from civil service. The executive director shall act under the authority of, and in accordance with the direction of, the state commission.

(Added November 3, 1998, by initiative Proposition 10. Effective (by Sec. 7 of Prop. 10) on date election results were certified.)

130125.

The powers and duties of the state commission shall include, but are not limited to, the following:

(a)Providing for statewide dissemination of public information and educational materials to members of the general public and to professionals for the purpose of developing appropriate awareness and knowledge regarding the promotion, support, and improvement of early childhood development.

(b)Adopting guidelines for an integrated and comprehensive statewide program of promoting, supporting, and improving early childhood development that enhances the intellectual, social, emotional, and physical development of children in California.

(1)The state commissionsguidelines shall, at a minimum, address the following matters:

(A)Parental education and support services in all areas required for, and relevant to, informed and healthy

parenting. Examples of parental education shall include, but are not limited to, prenatal and postnatal infant and maternal nutrition, education and training in newborn and infant care and nurturing for optimal early childhood development, parenting and other necessary skills, child abuse prevention, and avoidance of tobacco, drugs, and alcohol during pregnancy. Examples of parental support services shall include, but are not limited to, family support centers offering an integrated system of services required for the development and maintenance of self-sufficiency, domestic violence prevention and treatment, tobacco and other substance abuse control and treatment, voluntary intervention for families at risk, and any other prevention and family services and counseling critical to successful early childhood development.

(B)The availability and provision of high quality, accessible, and affordable child care, both in-home and at child care facilities, that emphasizes education, training and qualifications of care providers, increased availability and access to child care facilities, resource and referral services, technical assistance for caregivers, and financial and other assistance to ensure appropriate child care for all households.

(C)The provision of child health care services that emphasize prevention, diagnostic screenings, and treatment not covered by other programs; and the provision of prenatal and postnatal maternal health care services that emphasize prevention, immunizations, nutrition, treatment of tobacco and other substance abuse, general health screenings, and treatment services not covered by other programs.

(2)The state commission shall conduct at least one public hearing on its proposed guidelines before they are adopted.

(3)The state commission shall, on at least an annual basis, periodically review its adopted guidelines and revise them as may be necessary or appropriate.

(c)Defining the results to be achieved by the adopted guidelines, and collecting and analyzing data to measure progress toward attaining these results.

(d)Providing for independent research, including the evaluation of any relevant programs, to identify the best standards and practices for optimal early childhood development, and establishing and monitoring demonstration projects.

(e)Soliciting input regarding program policy and direction from individuals and entities with experience in early childhood development, facilitating the exchange of information between these individuals and entities, and assisting in the coordination of the services of public and private agencies to deal more effectively with early childhood development.

(f)Providing technical assistance to county commissions in adopting and implementing county strategic plans for early childhood development.

(g)Reviewing and considering the annual audits and reports transmitted by the county commissions and, following a public hearing, adopting a written report that consolidates, summarizes, analyzes, and comments on those annual audits and reports.

(h)Applying for gifts, grants, donations, or contributions of money, property, facilities, or services from any person, corporation, foundation, or other entity, or from the state or any agency or political subdivision thereof, or from the federal government or any agency or instrumentality thereof, in furtherance of a statewide program of early childhood development.

(i)Entering into any contracts and allocating funds to county commissions as necessary or appropriate to carry out the provisions and purposes of this act.

(j)Making recommendations to the Governor and the Legislature for changes in state laws, regulations, and services necessary or appropriate to carry out an integrated and comprehensive program of early childhood development in an effective and cost-efficient manner.

(Amended by Stats. 2002, Ch. 245, Sec. 3. Effective January 1, 2003. Note: This section was added on Nov. 3, 1998, by initiative Prop. 10.)

130130.

Procedures for the conduct of business by the state commission not specified in this act shall be contained in bylaws adopted by the state commission. A majority of the voting members of the state commission shall constitute a quorum. All decisions of the state commission, including the hiring of the executive director, shall be by a majority of four votes.

(Added November 3, 1998, by initiative Proposition 10. Efective (by Sec. 7 of Prop. 10) on date election results were certified.)

130135.

Voting members of the state commission shall not be compensated for their services, except that they shall be paid reasonable per diem and reimbursement of reasonable expenses for attending meetings and discharging other official responsibilities as authorized by the state commission.

(Added November 3, 1998, by initiative Proposition 10. Efective (by Sec. 7 of Prop. 10) on date election results were certified.)

130140.

Any county or counties developing, adopting, promoting, and implementing local early childhood development programs consistent with the goals and objectives of this act shall receive moneys pursuant to paragraph (2) of subdivision (d) of Section 130105 in accordance with the following provisions:

(a)For the period between January 1, 1999, and June 30, 2000, county commissions shall receive the portion of the total moneys available to all county commissions equal to the percentage of the number of births recorded in the relevant county (for the most recent reporting period) in proportion to the entire number of births recorded in California (for the same period), provided that each of the following requirements has first been satisfied:

(1)The countysboard of supervisors has adopted an ordinance containing the following minimum provisions:

(A)The establishment of a county children and families commission. The county commission shall be appointed by the board of supervisors and shall consist of at least five but not more than nine members.

(i)Two members of the county commission shall be from among the county health officer and persons

responsible for management of the following county functions: childrensservices, public health services, behavioral health services, social services, and tobacco and other substance abuse prevention and treatment services.

(ii)One member of the county commission shall be a member of the board of supervisors.

(iii)The remaining members of the county commission shall be from among the persons described in clause (i) and persons from the following categories: recipients of project services included in the county strategic plan; educators specializing in early childhood development; representatives of a local child care resource or referral agency, or a local child care coordinating group; representatives of a local organization for prevention or early intervention for families at risk; representatives of community-based organizations that have the goal of promoting nurturing and early childhood development; representatives of local school districts; and representatives of local medical, pediatric, or obstetric associations or societies.

(B)The manner of appointment, selection, or removal of members of the county commission, the duration and number of terms county commission members shall serve, and any other matters that the board of supervisors deems necessary or convenient for the conduct of the county commissionsactivities, provided that members of the county commission shall not be compensated for their services, except they shall be paid reasonable per diem and reimbursement of reasonable expenses for attending meetings and discharging other official responsibilities as authorized by the county commission.

(C)The requirement that the county commission adopt an adequate and complete county strategic plan for the support and improvement of early childhood development within the county.

(i)The county strategic plan shall be consistent with, and in furtherance of the purposes of, this act and any guidelines adopted by the state commission pursuant to subdivision (b) of Section 130125 that are in effect at the time the plan is adopted.

(ii)The county strategic plan shall, at a minimum, include the following: a description of the goals and objectives proposed to be attained; a description of the programs, services, and projects proposed to be provided, sponsored, or facilitated; and a description of how measurable outcomes of such programs, services, and projects will be determined by the county commission using appropriate reliable indicators. No county strategic plan shall be deemed adequate or complete until and unless the plan describes how programs, services, and projects relating to early childhood development within the county will be integrated into a consumer-oriented and easily accessible system.

(iii)The county commission shall, on at least an annual basis, be required to review its county strategic plan and to revise the plan as may be necessary or appropriate.

(iv)The county commission shall measure the outcomes of county funded programs through the use of applicable, reliable indicators and review that information on a periodic basis as part of the public review of its county strategic plan.

(D)The requirement that the county commission conduct at least one public hearing on its proposed county strategic plan before the plan is adopted.

(E)The requirement that the county commission conduct at least one public hearing on its periodic review of the county strategic plan before any revisions to the plan are adopted.

(F)The requirement that the county commission submit its adopted county strategic plan, and any subsequent revisions thereto, to the state commission.

(G)The requirement that the county commission prepare and adopt an annual audit and report pursuant to Section 130150. The county commission shall conduct at least one public hearing prior to adopting any annual audit and report.

(H)The requirement that the county commission conduct at least one public hearing on each annual report by the state commission prepared pursuant to subdivision (b) of Section 130150.

(I)Two or more counties may form a joint county commission, adopt a joint county strategic plan, or implement joint programs, services, or projects.

(2)The countysboard of supervisors has established a county commission and has appointed a majority of its members.

(3)The county has established a local Children and Families Trust Fund pursuant to subparagraph (A) of paragraph (2) of subdivision (d) of Section 130105.

(b)Notwithstanding any provision of this act to the contrary, no moneys made available to county commissions under subdivision (a) shall be expended to provide, sponsor, or facilitate any programs, services, or projects for early childhood development until and unless the county commission has first adopted an adequate and complete county strategic plan that contains the provisions required by clause (ii) of subparagraph (C) of paragraph (1) of subdivision (a).

(c)In the event that any county elects not to participate in the California Children and Families Program, the moneys remaining in the California Children and Families Trust Fund shall be reallocated and reappropriated to participating counties in the following fiscal year.

(d)For the fiscal year commencing on July 1, 2000, and for each fiscal year thereafter, county commissions shall receive the portion of the total moneys available to all county commissions equal to the percentage of the number of births recorded in the relevant county (for the most recent reporting period) in proportion to the number of births recorded in all of the counties participating in the California Children and Families Program (for the same period), provided that each of the following requirements has first been satisfied:

(1)The county commission has, after the required public hearings, adopted an adequate and complete county strategic plan conforming to the requirements of subparagraph (C) of paragraph (1) of subdivision (a), and has submitted the plan to the state commission.

(2)The county commission has conducted the required public hearings, and has prepared and submitted all audits and reports required pursuant to Section 130150.

(3)The county commission has conducted the required public hearings on the state commission annual reports prepared pursuant to subdivision (b) of Section 130150.

(4)The county commission, in a public hearing, has adopted policies that are consistent with the following state laws:

(A)With regard to conflict of interest of the commission members, the county commissionspolicies shall be consistent with Article 4 (commencing with Section 1090) of Chapter 1 of Division 4 of Title 1 of the Government Code, Article 4.7 (commencing with Section 1125) of Chapter 1 of Division 4 of Title 1 of the Government Code, and Chapter 7 (commencing with Section 87100) of Title 9 of the Government Code.

(B)With regard to contracting and procurement, the county commissionspolicies shall be consistent with Article 7 (commencing with Section 54201) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, Chapter 2 (commencing with Section 2000) of Part 1 of Division 2 of the Public Contract Code, Section 3410 of the Public Contract Code, and Chapter 3.5 (commencing with Section 22150) of Part 3 of Division 2 of the Public Contract Code.

(5)The county commission, in a public hearing, has adopted a limit on the percentage of the county commissionsoperating budget that may be spent on administrative functions, pursuant to guidelines issued by the state commission that define administrative functions.

(6)The county commission has adopted, in a public hearing, policies and processes establishing the salaries and benefits of employees of the county commission. Salaries and benefits shall conform with established county commission or county government policies.

(e)In the event that any county elects not to continue participation in the California Children and Families Program, any unencumbered and unexpended moneys remaining in the local Children and Families Trust Fund shall be returned to the California Children and Families Trust Fund for reallocation and reappropriation to participating counties in the following fiscal year.

(f)For purposes of this section, relevant county means the county in which the mother of the child whose birth is being recorded resides.

(Amended by Stats. 2006, Ch. 111, Sec. 1. Effective January 1, 2007. Note: This section was added on Nov. 3, 1998, by initiative Prop. 10.)

130140.1.

(a) In the event a county elects to participate in the California Children and Families Program, and satisfies the requirements set forth in Section 130140, the county may establish a county commission that is either of the following:

(1) A legal public entity separate from the county.

(2) An agency of the county with independent authority over the strategic plan described in Section 130140 and the local trust fund established pursuant to subparagraph (A) of paragraph (2) of subdivision (d) of Section 130105.

(b) In the event a county elects to establish a county commission as specified in paragraph (1) of subdivision (a), the following conditions shall apply:

(1) The county commission shall be considered a legal public entity separate from the county, and shall file a statement as required by Section 53051 of the Government Code.

(2) The powers, duties, and responsibilities of the county commission shall include, but shall not be limited to, the following:

(A) The power to employ personnel and contract for personal services required to meet its obligations.

(B) The power to enter into any contracts necessary or appropriate to carry out the provisions of this division.

(C) The power to acquire, possess, and dispose of real or personal property, as necessary or appropriate to carry out the provisions and purposes of this division.

(D) The power to sue or be sued.

(3) The county commission shall be deemed to be a public agency that is a unit of local government for purposes of all grant programs and other funding and loan guarantee programs.

(4) Any obligations of the county commission, statutory, contractual, or otherwise, shall be obligations solely of the commission.

(5) All claims or actions for money or damages against a county commission shall be governed by Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code, except as provided by other statutes or regulations that expressly apply to county commissions.

(6) The county commission, its members, and its employees are protected by the immunities applicable to public entities and public employees governed by Part 1 (commencing with Section 810) and Part 2 (commencing with Section 814) of Division 3.6 of Title 1 of the Government Code, except as provided by other statutes or regulations that apply expressly to the county commissions.

(7) If a county board of supervisors elects not to continue the countysparticipation in the California Children and Families Program, the board shall adopt an ordinance terminating the county commission.

(A) In terminating its county commission, the board of supervisors shall allow, to the extent possible, an appropriate transition period to allow for the county commissionsthen-existing obligations to be satisfied.

(B) In event of termination, any unencumbered and unexpended moneys remaining in the local Children and Families Trust Fund shall be distributed pursuant to subdivision (e) of Section 130140.

(C) Prior to the termination of the county commission, the board of supervisors shall notify the state Children and Families Commission of its intent to terminate the county commission.

(D) The liabilities of the county commission shall not become obligations of the county upon either the termination of the county commission or the liquidation or disposition of the county commissionsremaining assets.

(c) If a county elects to establish a county commission as provided in paragraph (2) of subdivision (a), the county commission shall be deemed to be an agency of the county with independent authority over the strategic plan described in Section 130140 and the local Children and Families Trust Fund established pursuant to subparagraph (A) of paragraph (2) of subdivision (d) of Section 130105.

(d) Any county commission established prior to the effective date of this section that substantially complies with the provisions of either subdivision (b) or (c) shall be deemed to be in compliance with this section.

(e) (1) Individually identifiable physical or mental health information, substance abuse information, child care or education information, personnel or employment information, financial information, criminal justice information, or demographic information, regarding a child or a childsparent, legal guardian, or other family member, that is provided to a county commission by a parent, legal guardian, family member, health care provider, health plan, public health authority, school, law enforcement agency, social services agency,

probation agency, or any other source, shall be considered confidential, and may be disclosed only to a person, agency, or entity that receives funding from the county commission, by way of a grant award or contract or as a service provider for the provision of early childhood services, and only to the extent necessary to the provision of services, unless further disclosure is authorized by a written consent of the parent or legal guardian, or where disclosure is required by state or federal law.

(2) Confidential information identified in accordance with this section shall not be subject to disclosure under the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code).

(Amended by Stats. 2002, Ch. 664, Sec. 153. Effective January 1, 2003.)

130145.

The state commission and each county commission shall establish one or more advisory committees to provide technical and professional expertise and support for any purposes that will be beneficial in accomplishing the purposes of this act. Each advisory committee shall meet and shall make recommendations and reports as deemed necessary or appropriate.

(Added November 3, 1998, by initiative Proposition 10. Effective (by Sec. 7 of Prop. 10) on date election results were certified.)

130150.

(a)On or before October 15 of each year, each county commission shall conduct an audit of, and issue a written report on the implementation and performance of, its functions during the preceding fiscal year, including, at a minimum, the manner in which funds were expended, the progress toward, and the achievement of, program goals and objectives, and information on programs funded and populations served for all funded programs.

On or before November 1 of each year, each county commission shall submit its audit and report to the state commission for inclusion in the state commissionsconsolidated report required in subdivision (b). Each commission shall submit its report in a format prescribed by the state commission if the state commission approves that format in a public meeting prior to the fiscal year during which it is to be used by the county commissions. The state commission shall develop the format in consultation with the county commissions.

(b)The state commission shall, on or before January 31 of each year, do both of the following:

(1)Conduct an audit and prepare a written report on the implementation and performance of the state commission functions during the preceding fiscal year, including, at a minimum, the manner in which funds were expended and the progress toward, and the achievement of, program goals and objectives.

(2)Prepare a written report that consolidates, summarizes, analyzes, and comments on the annual audits and reports submitted by all of the county commissions and the Controller for the preceding fiscal year. The written report shall include a listing, by category, of the aggregate expenditures on program areas funded by the state and county commissions pursuant to the purposes of this act, according to a format prescribed by the state commission. This report by the state commission shall be transmitted to the Governor, the

Legislature, and each county commission.

(3)In the event a county commission does not submit the information prescribed in subdivision (a), the state commission may withhold funds that would otherwise have been allocated to the county commission from the California Children and Families Trust Fund pursuant to Section 130140 until the county commission submits the data as required by subdivision (a).

(c)The state commission shall make copies of each of its annual audits and reports available to members of the general public on request and at no cost. The state commission shall furnish each county commission with copies of those documents in a number sufficient for local distribution by the county commission to members of the general public on request and at no cost.

(d)Each county commission shall make copies of its annual audits and reports available to members of the general public on request and at no cost.

(Amended by Stats. 2005, Ch. 243, Sec. 1. Effective January 1, 2006. Note: This section was added on Nov. 3, 1998, by initiative Prop. 10.)

130151.

(a)In addition to the requirements in Section 130150, the Controller shall issue guidelines for expanded annual audits of each county commission required pursuant to subdivision (b) of Section 130150 and associated quality control functions, subject to funding by the state commission.

(b)The scope of the audits shall address a review of county commission policies and practices with respect to the following elements:

(1)Contracting and procurement policies, to determine whether they are in place pursuant to paragraph (4) of subdivision (d) of Section 130140, whether state and county commissions are operating in accordance with these policies, and whether these policies contain provisions to ensure that the grants and contracts are consistent with the state or county commissionsstrategic plan.

(2)Administrative costs, to ensure that the county commissionsdefinitions comply with the state commissionsguidelines and that the county commission has a process in place to monitor these costs.

(3)Policies and procedures, established pursuant to paragraph (4) of subdivision (d) of Section 130140, designed to assure compliance by the state commission and county commissions with all applicable state and local conflict-of-interest statutes and regulations.

(4)Policies and practices designed to assure that county commissions are adhering to county commission ordinances established pursuant to paragraph (1) of subdivision (a) of Section 130140.

(5)Long-range financial plans, to determine whether state and county commissions have these plans and that the plans have been formally adopted by the commission in a public hearing.

(6)Financial condition of the commission.

(7)Amount commissions spend on program evaluation and the documented results of these expenditures.

(8)Salaries and benefit policies, to determine whether the county commissionemployee salaries and benefits comply with the policies that the county commission adopted pursuant to paragraph (6) of subdivision (d) of Section 130140.

(c)The auditor for the state commission or the county commission shall submit each audit report, upon completion, simultaneously to both the Controller and to the state commission or applicable county commission.

(d)The state commission and each respective county commission shall schedule a public hearing within two months of receipt of the audit to discuss findings within the report and any response to the findings. Within two weeks of the public hearing, the state or county commission shall submit to the Controller a response to the audit findings.

(e)Within six months of the state or county commissionsresponse pursuant to subdivision (d), the Controller shall determine whether a county commission has successfully corrected its practices in response to the findings contained in the audit report. The Controller may, after that determination, recommend to the state commission to withhold the allocation of money that the county commission would otherwise receive from the California Children and Families Trust Fund until the Controller determines that the county commission has a viable plan and the ability to correct the practices identified in the audit.

(f)The Controller shall prepare a summary report of the final audits and submit the report to the state commission by November 1 of each year for inclusion in the annual report required pursuant to subdivision (b) of Section 130150.

(g)On or before April 30, 2006, the Controller shall present to the state commission in a public meeting the final audit guidelines and implementation plan. When developing the guidelines, the Controller shall consider the reasonableness of the projected costs and administrative burden of the required audit functions.

(Added by Stats. 2005, Ch. 243, Sec. 2. Effective January 1, 2006.)

130155.

The following definitions apply for purposes of this act:

(a)Act means the California Children and Families Act of 1998.

(b)County commission means each county children and families commission established in accordance with Section 130140.

(c)County strategic plan means the plan adopted by each county children and families commission and submitted to the California Children and Families Commission pursuant to Section 130140.

(d)State commission means the California Children and Families Commission established in accordance with Section 130110.

(Amended by Stats. 1999, Ch. 126, Sec. 6. Effective July 14, 1999. Note: This section was added on Nov. 3, 1998, by initiative Prop. 10.)

130156.

The Children and Families Health and Human Services Fund is hereby established in the State Treasury. The Children and Families Health and Human Services Fund shall be used, upon appropriation by the Legislature, to provide health and human services, including, but not limited to, direct health care services, to children from birth through five years of age.

(Added by Stats. 2011, Ch. 4, Sec. 2. (AB 99) Effective March 24, 2011.)

130157.

Notwithstanding paragraph (1) of subdivision (d) of Section 130105, for the 2011“12 fiscal year, fifty million dollars ($50,000,000) from the accounts described in subparagraphs (A) to (F), inclusive, of paragraph (1) of subdivision (d) of Section 130105, including reserve funds, upon approval of the state commission, shall be transferred to and deposited in the Children and Families Health and Human Services Fund to support state health and human services programs for children from birth through five years of age. The state commission shall ensure that these funds are available for the purposes described in this section. To the extent it is necessary or appropriate for the state commission to disencumber existing obligations to meet the requirements of this section, the state commission, including, but not limited to, its representatives, officers, directors, and employees, including its attorneys and other persons, is hereby released from any and all liability, rights, claims, demands, and actions, known and unknown, which any party may have, arising in connection with the disencumbering of funds or obligations in accordance with this section. For purposes of this section, state health and human services programs includes, but is not limited to, direct health care services.

(Added by Stats. 2011, Ch. 4, Sec. 3. (AB 99) Effective March 24, 2011.)

130158.

(a)Notwithstanding paragraph (2) of subdivision (d) of Section 130105, for the 2011“12 fiscal year, nine hundred fifty million dollars ($950,000,000) from the combined balances of all the county Children and Families Trust Funds, including reserve funds, as provided for in subparagraphs (A) and (B) of paragraph (2) of subdivision (d) of Section 130105, shall be transferred to and deposited in the Children and Families Health and Human Services Fund, to support state health and human services programs for children from birth through five years of age.

(b)For purposes of this section, state health and human services programs includes, but is not limited to, direct health care services and county commission includes, but is not limited to, county commissions, account holders for local children and families trust funds, and county government fiscal agents.

(c)The share of the amount specified in subdivision (a) required of each county commission shall be determined in the following manner and subject to the following conditions:

(1)A county commission that received less than six hundred thousand dollars ($600,000) in California Children and Families Trust Fund revenues in the 2009“10 fiscal year is exempt from this section and is not

required to deposit funds in the Children and Families Health and Human Services Fund as part of the budget solution described in subdivision (a).

(2)By June 30, 2012, each county commission not exempted by paragraph (1) shall remit for deposit into the Children and Families Health and Human Services Fund, 50 percent of its county commission funding, which includes total reserved, total unreserved-designated, and total unreserved-undesignated local children and families trust funds as of June 30, 2010. No funds other than revenues received pursuant to the California Children and Families Act of 1998 shall be remitted for deposit into the Children and Families Health and Human Services Fund.

(3)Notwithstanding paragraph (2), county commission payments for deposit into the Children and Families Health and Human Services Fund shall not cause any county commissionsfund balance to fall below the amount received by the county commission from the California Children and Families Trust Fund in the 2009“10 fiscal year.

(4)Full payments to the Children and Families Health and Human Services Fund shall be made by county commissions within the 2011“12 fiscal year. Notwithstanding any other provision of law, no 2012“13 allocation to a county commission shall occur prior to the full payment being made.

(5)Notwithstanding paragraphs (1) to (4), inclusive, the total combined remittances from county commissions in the 2011“12 fiscal year shall equal nine hundred fifty million dollars ($950,000,000). To the extent paragraphs (1) to (4), inclusive, result in more than nine hundred fifty million dollars ($950,000,000) being provided by county commissions in total, the difference shall be proportionally returned to all contributing county commissions.

(d)Pursuant to subdivision (c), each county commission, as defined in subdivision (b), shall ensure that the funds for transfer and deposit to the Children and Families Health and Human Services Fund are not encumbered and are available for the purposes described in this section. To the extent that it is necessary or appropriate for a county commission to disencumber existing obligations to meet the requirements of this section, the county commission, including, but not limited to, its representatives, officers, directors, and employees, including its attorneys and other persons, is hereby released from any and all liability, rights, claims, demands, and actions, known and unknown, which any party may have, arising in connection with the disencumbering of funds, or obligations in accordance with this section.

(e)After a county commissionsshare of the nine hundred fifty million dollars ($950,000,000) specified in subdivision (a) has been determined pursuant to subdivision (c), that county commission, or appropriate agent or entity, shall remit those funds to the Controller for deposit into the Children and Families Health and Human Services Fund. The entire share of funds for each county commission shall be remitted within the 2011“12 fiscal year, and may be done, in equal amounts, on a monthly basis.

(Added by Stats. 2011, Ch. 4, Sec. 4. (AB 99) Effective March 24, 2011.)

__Health and Safety Code - HSC__

__DIVISION 109. Center for Data Insights and Innovation [130200 - 130211]__

(Division 109 repealed and added by Stats. 2021, Ch. 696, Sec. 11.)

130200.

There is hereby established within the California Health and Human Services Agency the Center for Data Insights and Innovation to ensure the enforcement of state law mandating the confidentiality of medical information. The Center for Data Insights and Innovation shall be administered by a director who shall also serve as the California Health and Human Services Chief Data Officer and shall be appointed by the Secretary of California Health and Human Services.

(Repealed and added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130201.

The Legislature finds and declares all of the following:

(a)The California Health and Human Services Agency manages great amounts of valuable data on all aspects of life for Californians, including, but not limited to, health care delivery, business, social services, child welfare, and public health.

(b)California has long recognized that securing individual privacy rights and confidentiality of personal health and medical records is of paramount importance to establishing public confidence in the provision of state services, and that ensuring transparent accountability, governance, and oversight are critical components to maintaining the publicstrust.

(c)Data is a fundamental asset that can be more fully utilized without compromising patient privacy and data security. Improving and streamlining collection practices, interoperability of data and technology, data infrastructure, data security, and data sharing is critical to the improvement of the lives of Californians and will foster person-centered and not program-centered decisionmaking.

(d)When data practices safeguard individual privacy, interpreting and using data improves public programs and policies and enriches the lives of people in many ways, including, but not limited to, all of the following:

(1)Analytics increase efficiency and help target resources to vulnerable and underserved populations.

(2)Data analytics allow for optimal use of existing resources and information assets to drive operational decisions and avoid changes that may result in adverse impacts or negative outcomes for vulnerable and underserved populations.

(3)Health and social services outcomes are improved through use of analytics to identify underserved populations, detect gaps in services, and improve and facilitate access to programs and services.

(4)Demographic and services information can be assessed to identify and address disparities, including racial, ethnic, gender, and geographic disparities, in health and socioeconomic status to advance equity and improve person-centered outcomes.

(e)Information sharing among state departments for integrated health and social services has been hindered by a lack of standardized interpretation and application of health privacy laws throughout the state. State departments often do not share information for integrated health and social services, even when sharing is appropriate, lawful, and permissible to all identifiable individuals. In order to provide efficient and effective health and social services, information should be securely exchanged among state departments in a manner that prioritizes individual privacy and autonomy over access to personal data.

(f)Unmitigated sharing and centralization of personal data relating to individuals presents unique risks to privacy, as that data can be used in concert to produce profiles revealing intimate details of individuals™ personal lives. Any policy related to data sharing, especially among governmental entities, must, therefore, be responsive to potential risks to personal privacy and include safeguards against invasive or excessive sharing of personal information.

(g)Data sharing has the potential to positively affect health and social services outcomes by linking vulnerable populations to services for which they are eligible.

(h)It is the intent of the Legislature to establish the Center for Data Insights and Innovation to do all of the following:

(1)Establish health information sharing guidance that balances the need for patient privacy with the benefits of data sharing to support and encourage integrated care and services to assist California health and social services organizations.

(2)Increase privacy protections by ensuring only required health data is transmitted for purposes and uses consistent with state and federal law.

(3)Administer the State Committee for the Protection of Human Subjects.

(4)Collect data and publish reports on quality of care and patient experience.

(5)Administer the California Health and Human Services Agency Open Data Portal.

(6)Develop and administer the California Health and Human Services Agency Research Data Hub and other future data initiatives.

(7)Improve and strengthen the security of data processes within the departments of the California Health and Human Services Agency.

(8)Identify and guide tangible and program-specific efforts, from the California Health and Human Services Agency leadership perspective, toward enhanced person-centered services that bridge and connect access to all health and social services programs for which an individual may be eligible.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130202.

For the purposes of this division, the following definitions apply:

(a)Bona fide research has the same meaning as subdivision (f) of Section 820 of Title 11 of the California Code of Regulations.

(b)Center means the Center for Data Insights and Innovation.

(c)Chief Data Officer means the Director of the Center for Data Insights and Innovation.

(d)CHHS Open Data Portal means the California Health and Human Services Agency Open Data Portal.

(e)Director means the Director of the Center for Data Insights and Innovation.

(f)HIPAA means the federal Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191).

(g)Research Data Hub means the California Health and Human Services Agency Research Data Hub or future iterations and names of that product.

(h)State entities means all state departments, agencies, boards, commissions, programs, and other organizational units of the executive branch of state government.

(i)Qualified researcher means state entities, clinical investigators, including investigators conducting epidemiologic studies, health care research organizations, and accredited public or private nonprofit educational or health care institutions for bona fide research purposes.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130203.

(a)The center shall assume statewide leadership, coordination, policy formulation, direction, and oversight responsibilities for compliance with state and federal health information privacy laws, including, but not limited to, the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code), the Information Practices Act of 1977 (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code), the federal Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191), and the federal Health Information Technology for Economic and Clinical Health Act (Title XIII of the federal American Recovery and Reinvestment Act of 2009 (Public Law 111-5)), and implementing regulations. The center shall exercise full authority relative to state entities to establish policy, provide direction to state entities, provide guidance on data sharing, monitor progress, and report on compliance activities.

(b)Beginning January 1, 2022, the center shall complete an independent security assessment as described in Section 11549.3 of the Government Code at least once every three years and, consistent with subdivision (d) of that section, submit any resulting report and recommendations to the Office of Emergency Services.

(c)All state entities subject to HIPAA shall complete an assessment, in a form specified by the center, to determine the impact of HIPAA on their operations. All state entities shall cooperate with the center to

determine whether the state entity is subject to HIPAA, including, but not limited to, providing a completed assessment, as prescribed by the center.

(d)All state entities shall cooperate with the efforts of the center to monitor HIPAA and health information privacy compliance activities and to obtain information on these activities. Information obtained about these activities shall not include personal information, as defined in subdivision (a) of Section 1798.3 of the Civil Code.

(e)All state entities affected by HIPAA shall comply with the decisions of the director in achieving compliance with HIPAA and other health information privacy laws, including whether a state entity is subject to HIPAA and other state and federal health information privacy requirements.

(f)(1)The center shall assume statewide leadership, coordination, direction, and oversight responsibilities for determining which provisions of state law concerning health information are preempted by HIPAA, or are more protective of individually identifiable health information, pursuant to Section 160.203 of Title 45 of the Code of Federal Regulations. State entities impacted by HIPAA shall, at the direction of the center, do both of the following:

(i)Assist in determining which state laws concerning personal medical information are preempted by HIPAA.

(ii)Conform to all determinations made by the center concerning HIPAA preemption issues.

(2)If the center determines that a state law is preempted by HIPAA, the center shall provide the determination and a recommendation for a solution to the Secretary of California Health and Human Services.

(g)State entities are responsible for ensuring compliance with state and federal health information privacy laws, including, but not limited to, HIPAA. To the extent that funds are appropriated in the annual Budget Act, the center shall do all of the following to assist state entities in complying with health information requirements:

(1)Develop uniform policies on privacy, patient rights, and other matters related to health information requirements that shall be adopted and implemented by all state entities. In developing these policies, the center shall consult with representatives from the private sector, state government, and other public entities, including at least two consumer representatives, at least one of whom shall have expertise in privacy and security of health information.

(2)Specify training and tools, such as protocols for assessment and reporting and any other tools determined by the director, for compliance with health information requirements.

(3)Develop statewide guidance on health information sharing to support integrated health care and social services, including guidance on state and federal health information privacy laws, regulations, and policies. In developing this guidance, the center shall consult with representatives from the private sector, state government, and other public entities relevant to the provision of health care and social services, including privacy advocates, patient rights representatives, and county administrators of health and human services programs and their association representatives.

(4)Represent the State of California in discussions on health data sharing, data interoperability, HIPAA, and substance use disorder information requirements contained in Part 2 of Title 42 of the Code of Federal Regulations with the federal Department of Health and Human Services. The center may review and approve all comments related to data sharing, data interoperability, HIPAA, and substance use disorder information

requirements contained in Part 2 of Title 42 of the Code of Federal Regulations that state entities propose for submission to the federal Department of Health and Human Services or any other body or organization.

(5)Coordinate and communicate with other affected entities, including, but not limited to, the Department of Technology and State Chief Data Officer.

(6)Monitor the compliance activities of state entities with state and federal health information requirements and require these entities to report on their activities at times specified by the director, using a format prescribed by the director.

(7)Develop standards for the centersuse in determining the extent of compliance with health information requirements.

(8)Provide technical assistance to state entities on information sharing and compliance with state and federal health information privacy requirements.

(h)(1)(A)Beginning March 1, 2022, and annually thereafter, the center shall provide to the Legislature, and post on its internet website, a written update that outlines its major endeavors, including the challenges encountered, the milestones achieved toward meeting set objectives to achieve a person-centered approach in health and human services, and the data collection and sharing practices employed by the center during the preceding year.

(B)An update to be submitted to the Legislature pursuant to subparagraph (A) shall be submitted in compliance with Section 9795 of the Government Code.

(2)Upon the issuance of the update pursuant to subparagraph (A), the center shall meet with legislative staff representing the health and human services fiscal and policy areas to report on efforts for health and human services to become more person-centered in service delivery. The center shall provide updates on specific major programs serving or attempting to serve populations that are by definition considered underserved and vulnerable, including populations living in poverty and deep poverty, and who may lack access or face limitations due to age, disability, functional impairment, educational level, adverse childhood experiences, and cultural and linguistic challenges. This meeting shall occur through virtual or in-person meetings.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130204.

(a)(1)The center shall compile annual publications, to be made publicly available on the centersinternet website, including, but not limited to, a quality of care report card that reflects health care service plans, preferred provider organizations, and medical groups.

(2)The Department of Managed Health Care, the State Department of Health Care Services, the Department of Insurance, the Exchange, the State Department of Social Services, the Office of Statewide Health Planning and Development, and any other public health coverage program or state entity shall provide to the center data concerning the quality of care report card in the time, manner, and format requested by the center. The center may also request data related to the cost of care, quality of care, patient experience, socioeconomic status impact on health, access to care, and access to social services programs.

(3)The center may request data from and contract with academic or nonprofit organizations related to

quality of health care and patient experience to develop the quality of care report card.

(b)The center shall produce an annual report to be made publicly available on the centersinternet website by December 31, 2022, and annually thereafter, of health care consumer or patient assistance help centers, call centers, ombudsperson, or other assistance centers operated by the Department of Managed Health Care, the State Department of Health Care Services, the Department of Insurance, and the Exchange, that includes, at a minimum, all of the following:

(1)The types of calls received and the number of calls.

(2)The call centersrole with regard to each type of call, question, complaint, or grievance.

(3)The call centersprotocol for responding to requests for assistance from health care consumers, including any performance standards.

(4)The protocol for referring or transferring calls outside the jurisdiction of the call center.

(5)The call centersmethodology of tracking calls, complaints, grievances, or inquiries.

(c)(1)The center may collect and analyze data on problems and complaints by, and questions from, consumers about health care coverage for the purpose of providing public information about problems faced and information needed by consumers in obtaining coverage and care. The data collected shall include demographic data, insurer or plan data, appeals, source of coverage, regulator, type of problem or issue or comparable types of problems or issues, and resolution of complaints, including timeliness of resolution. Notwithstanding Section 10231.5 of the Government Code, the center shall submit a report by December 31, 2022, and annually thereafter to the Legislature. The report shall be submitted in compliance with Section 9795 of the Government Code. The format may be modified annually as needed based upon comments from the Legislature and stakeholders.

(2)The Department of Managed Health Care, the State Department of Health Care Services, the Department of Insurance, the Exchange, and any other public health coverage programs shall provide to the center data concerning call centers to meet the reporting requirements in this section in the time, data elements, manner, and format requested by the center.

(3)For the purpose of publicly reporting information as required in paragraph (1) and this paragraph about the problems faced by consumers in obtaining care and coverage, the center shall analyze data on consumer complaints, appeals, and grievances resolved by the agencies listed in subdivision (b), including demographic data, source of coverage, insurer or plan, resolution of complaints, and other information intended to improve health care and coverage for consumers.

(d)To the extent that funds are appropriated in the annual Budget Act for this purpose, the center shall do all of the following to assist state entities that provide public health coverage programs or oversight of health insurance or health care service plans:

(1)After evaluation of data from the Department of Insurance and the Department of Managed Health Care, coordinate with public health coverage programs and state oversight departments of public and commercial health coverage programs to provide assistance related to addressing the quality of care and patient experience of public and commercial health coverage programs that have been determined to be deficient in the annual quality of care report card.

(2)Create and provide tools and education to consumers of health insurance and public health coverage

programs to better enable them to access and utilize the quality of care report card and the health care services to which they are eligible.

(3)Develop tools and education related to improvement of consumer access to care, quality of care, and addressing the disparities in quality of care related to socioeconomic status.

(4)Develop and implement consumer surveys of the patient experience, quality of care, and any other topic consistent with this section.

(5)Develop standards for departments within the California Health and Human Services Agency related to public reports published by the departments to ensure consumer readability and understanding across programs.

(e)If the departmental letters or other similar instruction are only issued to other state entities, the center may implement, interpret, or make specific this section by means of a departmental letter or other similar instruction, as necessary, notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(f)For purposes of this section, the following definitions apply:

(1)Data means information that is not individually identifiable health information, as defined in Section 160.103 of Title 45 of the Code of Federal Regulations.

(2)Exchange means the California Health Benefit Exchange established pursuant to Title 22 (commencing with Section 100500) of the Government Code.

(3)Health care includes services provided by any health care coverage program.

(4)Health care service plan has the same meaning as that set forth in subdivision (f) of Section 1345. Health care service plan includes specialized health care service plans, including behavioral health plans.

(5)Health coverage program includes the Medi-Cal program, tax subsidies and premium credits under the Exchange, the Basic Health Program, if enacted, and county health care programs.

(6)Health insurance has the same meaning as set forth in Section 106 of the Insurance Code.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130205.

(a)The center shall administer the State Committee for the Protection of Human Subjects, which is Californiasinstitutional review board. Before state information assets subject to the Information Practices Act (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code) are disclosed for research, the request for data shall be approved by the State Committee for the Protection of Human Subjects in compliance with the process in Section 1798.24 of the Civil Code. In its duties, the State Committee for the Protection of Human Subjects board shall be fully independent in its review of requests for state data, institutional review board activities, and its activities under Section 1798.24 of the Civil Code.

(b)Upon appropriation by the Legislature, the center shall administer the CHHS Open Data Portal, develop

and administer the Research Data Hub, and may develop and administer other significant data initiatives for California Health and Human Services Agency and its departments.

(c)The center shall use data to improve processes and provide strategic planning and services to the departments within the California Health and Human Services Agency, consistent with intent identified in subdivision (h) Section 130201.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130206.

(a)The Legislature finds and declares that the center performs public health activities described in Section 164.512(b) of Title 45 of the Code of Federal Regulations when carrying out activities pursuant to this division. Personal information collected in accordance with this division is necessary to carry out projects with public health purposes.

(b)All personal information obtained or maintained by the center shall be confidential and shall be subject to the following requirements:

(1)Only deidentified and aggregated information shall be included in a publicly available analysis, data product, or research.

(2)All policies and procedures developed in implementing this division shall ensure that the privacy, security, and confidentiality of consumers™ personal information is protected, as required by the Information Practices Act of 1977, and consistent with state and federal health privacy laws, including the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA) (Public Law 104-191) and the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code), and data shall not be disclosed until the center has developed a policy regarding the release of data.

(c)Unless otherwise specified in this division, personal information collected by the center from other states entities shall be exempt from the disclosure requirements of the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code), and shall not be made available except pursuant to this division.

(d)Any information collected or obtained shall not be used for determinations regarding individual patient care or treatment and shall not be used for any individual eligibility or coverage decisions or similar purposes.

(Amended by Stats. 2022, Ch. 28, Sec. 114. (SB 1380) Effective January 1, 2023.)

103206.1.

(a)The center shall meet the following requirements with regard to the disclosure of information to qualified researchers:

(1)The center shall develop a comprehensive program for the use, access, and disclosure of personal information that includes data use agreements that require data users to comply with this division. The

purpose of the program is to ensure that only aggregated, deidentified information is publicly accessible. The program shall be designed to recognize a consumersright of privacy and shall include at least the privacy protection standards specified in Section 103206.2.

(2)Access to personal information shall be governed by the use, access, and disclosure program to be developed by the center pursuant to paragraph (1).

(3)The center shall establish a secure research environment for access to personal information. The environment shall include access controls sufficient to ensure that users access only the personal information specified in an approved request and that personal information is protected from unapproved use.

(4)The center shall maintain information about requests and the disposition of requests, and shall develop processes for the timely consideration and release of personal information.

(b)To meet the research and policy goals of the center, it is necessary that access to personal information by qualified researchers is controlled.

(c)Unless otherwise expressly permitted by federal or state law, the center shall not disclose personal information to anyone other than a qualified researcher, or a public health authority as defined in Section 164.501 of Title 45 of the Code of Federal Regulations.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

103206.2.

(a)(1)In granting access to qualified researchers or a public health authority pursuant to subdivision (c) of Section 103206.1, the center shall only grant access to the minimum amount of personal information necessary for an approved project or access to a dataset designed for an approved purpose.

(2)Each person who accesses or obtains personal information on behalf of a qualified researcher or public health authority shall sign a data use agreement.

(3)The data use agreement shall prohibit the recipient from further disclosure of the personal information received that is not otherwise expressly permitted by federal or state law.

(4)Violation of a data use agreement entered into pursuant to paragraph (2) shall be considered a violation of Section 1798.56 of the Civil Code and, if applicable, Section 1798.57 of the Civil Code.

(b)Access to personal information by qualified researchers shall be permissible only if the following requirements are met:

(1)If the personal information does not include any of the direct personal identifiers listed in Section 164.514(e) of Title 45 of the Code of Federal Regulations, access may be provided to qualified researchers for research and analysis purposes consistent with intent identified in subdivision (h) of Section 130201.

(2)If the personal information includes any of the direct personal identifiers listed in Section 164.514(e) of Title 45 of the Code of Federal Regulations, access may be provided only to qualified researchers for research projects that offer significant opportunities to achieve the centersintent identified in subdivision (h) of Section 130201 and shall meet all of the following criteria:

(A)The project has been approved by the Committee for the Protection of Human Subjects pursuant to subdivision (t) of Section 1798.24 of the Civil Code.

(B)The requester has documented expertise with privacy protection and with the analysis of large sets of confidential information.

(C)The research shall be made available to the center.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130207.

(a)Effective July 1, 2021, the Center for Data Insights and Innovation Fund is hereby created in the State Treasury, and, upon appropriation by the Legislature, moneys in the fund shall be made available for the purpose of this division. Any moneys in the fund that are unexpended or unencumbered at the end of the fiscal year may be carried forward to the next succeeding fiscal year.

(b)The Center for Data Insights and Innovation Fund is the successor fund to the Office of Health Information Integrity Trust Fund. All the assets and liabilities of the Office of Health Information Integrity Trust Fund shall become assets and liabilities of the Center for Data Insights and Innovation Fund upon establishment of the Center for Data Insights and Innovation Fund.

(c)Notwithstanding Section 16305.7 of the Government Code, all interest earned on moneys that have been deposited in the fund shall be retained in the fund and used for purposes consistent with this division.

(d)The fund shall be administered by the director and moneys in the fund shall be used to pay all costs arising from the implementation of this division and rendering services to state entities as required by this division, including, but not limited to, employment and compensation of necessary personnel and expenses, such as operating and other expenses of the center and costs associated with technical assistance, and to establish reserves. At the discretion of the director, segregated, dedicated accounts within the fund may be established.

(e)The fund shall consist of all of the following:

(1)Moneys appropriated and made available by the Legislature for the purposes of this division.

(2)All revenues received from the services provided for in this division.

(3)Any other moneys that may be made available to the center from any other source, including, but not limited to, the return from investments of moneys by the Treasurer and funds received pursuant to subdivision (g).

(f)The center may collect fee-for-service payments from a nonstate entity for services provided to the nonstate entity by the State Committee for the Protection of Human Subjects.

(g)The center may also solicit funding in any of the following ways:

(1)The center may apply to the United States Secretary of Health and Human Services for federal grants.

(2)To the extent permitted by federal law, the center may seek federal financial participation for assisting beneficiaries of the Medi-Cal program.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130208.

(a)The Office of Patient Advocate Trust Fund shall be renamed to the Health Plan Improvement Trust Fund.

(b)The moneys in the Health Plan Improvement Trust Fund shall, upon appropriation by the Legislature, be made available for the purposes in Section 130204.

(c)All moneys in the Health Plan Improvement Trust Fund created pursuant to former Section 130208, as added by Section 11 of Chapter 696 of the Statutes of 2021, shall be transferred to the renamed Health Plan Improvement Trust Fund, identified as Fund 3209 in the Department of FinancesUniform Codes Manual.

(d)Notwithstanding Section 16305.7 of the Government Code, all interest earned on moneys that have been deposited in the Health Plan Improvement Trust Fund shall be retained in the fund and used for purposes consistent with Section 130204.

(Repealed and added by Stats. 2022, Ch. 50, Sec. 9. (SB 187) Effective June 30, 2022.)

130209.

(a)Moneys transferred from the Managed Care Fund and the Insurance Fund for use by the center shall be deposited into the Health Plan Improvement Trust Fund.

(b)The share of funding from the Managed Care Fund shall be based on the number of covered lives in the state that are covered under plans regulated by the Department of Managed Health Care, including covered lives under Medi-Cal managed care, as determined by the Department of Managed Health Care, in proportion to the total number of all covered lives in the state.

(c)The share of funding to be provided from the Insurance Fund shall be based on the number of covered lives in the state that are covered under health insurance policies and benefit plans regulated by the Department of Insurance, including covered lives under Medicare supplement plans, as determined by the Department of Insurance, in proportion to the total number of all covered lives in the state.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130210.

The director may adopt regulations to implement this division and the changes made to subdivision (t) of Section 1798.24 of the Civil Code by the act that added this section. Before adopting regulations, the center shall adopt the following standards:

(a)At least 45 days prior to adoption, the center shall post a proposed regulation on its internet website. Public comment shall be accepted by the center for at least 30 days after the proposed regulation is posted. If a member of the public requests a public hearing during the 30-day review period, the hearing shall be held prior to adoption of the regulation. The process described in this subdivision shall apply to the adoption of new regulations and to changes to existing regulations until June 30, 2024.

(b)Adoption of, and changes to, regulations adopted pursuant to this division shall not be subject to the rulemaking requirements of Section 11343.4 of, and Article 5 (commencing with Section 11346) and Article 6 (commencing with Section 11349) of Chapter 3.5, of Part 1 of Division 3 of Title 2 of the Government Code until June 30, 2024.

(c)The director shall file any regulation adopted pursuant to this division with the Office of Administrative Law for filing with the Secretary of State and publication in the California Code of Regulations. Any regulation filed with the Office of Administrative Law pursuant to this subdivision shall include a citation to this section and any other applicable state or federal laws as providing authority for the adoption of the regulation.

(1)Any regulation adopted pursuant to this division shall become effective on the date it is filed with the Secretary of State unless the director prescribes a later date in the regulation or in a written instrument filed with the regulation.

(2)Any regulation adopted pursuant to this division shall expire the date that this division is repealed.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130211.

The center may contract for the provision of services required to implement this division. The center shall adopt standards for the organizations with which it contracts pursuant to this section to ensure compliance with the privacy and confidentiality laws of this state, conduct privacy trainings as necessary, and regularly verify that the organizations have measures in place to ensure compliance with the adopted standards. The Legislature finds that these contracts are for a new state function and authorizes the performance of this work by independent contractors, pursuant to paragraph (2) of subdivision (b) of Section 19130 of the Government Code.

(Added by Stats. 2021, Ch. 696, Sec. 11. (AB 172) Effective October 8, 2021.)

130290.

(a)On or before July 1, 2022, and subject to an appropriation in the annual Budget Act, the California Health

and Human Services Agency, along with its departments and offices and in consultation with stakeholders and local partners, shall establish the California Health and Human Services Data Exchange Framework that shall include a single data sharing agreement and common set of policies and procedures that will leverage and advance national standards for information exchange and data content, and that will govern and require the exchange of health information among health care entities and government agencies in California.

(1)The California Health and Human Services Data Exchange Framework is not intended to be an information technology system or single repository of data, rather it is technology agnostic and is a collection of organizations that are required to share health information using national standards and a common set of policies in order to improve the health outcomes of the individuals they serve.

(2)The California Health and Human Services Data Exchange Framework will be designed to enable and require real-time access to, or exchange of, health information among health care providers and payers through any health information exchange network, health information organization, or technology that adheres to specified standards and policies.

(3)The California Health and Human Services Data Exchange Framework shall align with state and federal data requirements, including the federal Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191), the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code), and other applicable state and federal privacy laws related to the sharing of data among and between providers, payers, and the government, while also streamlining and reducing reporting burden.

(4)For the purposes of this section, health information means:

(A)For hospitals, clinics, and physician practices, at a minimum, the United States Core Data for Interoperability Version 1, until October 6, 2022. After that date, it shall include all electronic health information as defined under federal regulation in Section 171.102 of Title 45 of the Code of Federal Regulations and held by the entity.

(B)For health insurers and health care service plans, at a minimum, the data required to be shared under the federal Centers for Medicare and Medicaid Services Interoperability and Patient Access regulations for public programs as contained in United States Department of Health and Human Services final rule CMS-9115-F, 85 FR 25510.

(b)(1)On or before January 31, 2024, and except as provided in paragraphs (2) and (3), the entities listed in subdivision (f) shall exchange health information or provide access to health information to and from every other entity in subdivision (f) in real time as specified by the California Health and Human Services Agency pursuant to the California Health and Human Services Data Exchange Framework data sharing agreement for treatment, payment, or health care operations.

(2)The requirement in paragraph (1) shall not apply to physician practices of fewer than 25 physicians, rehabilitation hospitals, long-term acute care hospitals, acute psychiatric hospitals, critical access hospitals, and rural general acute care hospitals with fewer than 100 acute care beds, state-run acute psychiatric hospitals, and any nonprofit clinic with fewer than 10 health care providers until January 31, 2026.

(3)The requirement in paragraph (1) shall not apply to the exchange of health information related to abortion and abortion-related services.

(c)The California Health and Human Services Agency shall convene a stakeholder advisory group no later than September 1, 2021, to advise on the development and implementation of the California Health and

Human Services Data Exchange Framework.

(1)The members of the stakeholder advisory group shall be appointed by the Secretary of California Health and Human Services and shall not have a financial interest, individually or through a family member, related to issues the stakeholder advisory group will advise on.

(2)The stakeholder advisory group shall be composed of health care stakeholders and experts, including representatives of all the following:

(A)The State Department of Health Care Services.

(B)The State Department of Social Services.

(C)The Department of Managed Health Care.

(D)The Department of Health Care Access and Information.

(E)The State Department of Public Health.

(F)The Department of Insurance.

(G)The Public Employees™ Retirement System.

(H)The California Health Benefit Exchange.

(I)Health care service plans and health insurers.

(J)Physicians, including those with small practices.

(K)Hospitals, including public, private, rural, and critical access hospitals.

(L)Clinics, long-term care facilities, behavioral health facilities, or substance use disorder facilities.

(M)Consumers.

(N)Organized labor.

(O)Privacy and security professionals.

(P)Health information technology professionals.

(Q)Community health information organizations.

(R)County health, social services, and public health.

(S)Community-based organizations providing social services.

(3)The stakeholder advisory group shall provide information and advice to the California Health and Human Services Agency on health information technology issues, including all of the following:

(A)Identify which data beyond health information as defined in paragraph (4) of subdivision (a), at minimum,

should be shared for specified purposes between the entities outlined in this subdivision and subdivision (f).

(B)Identify gaps, and propose solutions to gaps, in the life cycle of health information, including gaps in any of the following:

(i)Health information creation, including the use of national standards in clinical documentation, health plan records, and social services data.

(ii)Translation, mapping, controlled vocabularies, coding, and data classification.

(iii)Storage, maintenance, and management of health information.

(iv)Linking, sharing, exchanging, and providing access to health information.

(C)Identify ways to incorporate data related to social determinants of health, such as housing and food insecurity, into shared health information.

(D)Identify ways to incorporate data related to underserved or underrepresented populations, including, but not limited to, data regarding sexual orientation and gender identity and racial and ethnic minorities.

(E)Identify ways to incorporate relevant data on behavioral health and substance use disorder conditions.

(F)Address the privacy, security, and equity risks of expanding care coordination, health information exchange, access, and telehealth in a dynamic technological, and entrepreneurial environment, where data and network security are under constant threat of attack.

(G)Develop policies and procedures consistent with national standards and federally adopted standards in the exchange of health information and ensure that health information sharing broadly implements national frameworks and agreements consistent with federal rules and programs.

(H)Develop definitions of complete clinical, administrative, and claims data consistent with federal policies and national standards.

(I)Identify how all payers will be required to provide enrollees with electronic access to their health information, consistent with rules applicable to federal payer programs.

(J)Assess governance structures to help guide policy decisions and general oversight.

(K)Identify federal, state, private, or philanthropic sources of funding that could support data access and exchange.

(4)The stakeholder advisory group shall hold public meetings with stakeholders, solicit input, and set its own meeting agendas. Meetings of the stakeholder advisory group are subject to the Bagley-Keene Open Meeting Act (Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code).

(5)The members of the stakeholder advisory group shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with their duties as members of the group.

(d)No later than April 1, 2022, the California Health and Human Services Agency shall submit an update,

including written recommendations, to the Legislature based on input from the stakeholder advisory group on the issues identified in paragraph (3) of subdivision (c).

(e)On or before January 31, 2023, the California Health and Human Services Agency shall work with the California State Association of Counties to encourage the inclusion of county health, public health, and social services, to the extent possible, as part of the California Health and Human Services Data Exchange Framework in order to assist both public and private entities to connect through uniform standards and policies. It is the intent of the Legislature that all state and local public health agencies will exchange electronic health information in real time with participating health care entities to protect and improve the health and well-being of Californians.

(f)On or before January 31, 2023, and in alignment with existing federal standards and policies, the following health care organizations shall execute the California Health and Human Services Data Exchange Framework data sharing agreement pursuant to subdivision (a):

(1)General acute care hospitals, as defined by Section 1250.

(2)Physician organizations and medical groups.

(3)Skilled nursing facilities, as defined by Section 1250, that currently maintain electronic records.

(4)Health care service plans and disability insurers that provide hospital, medical, or surgical coverage that are regulated by the Department of Managed Health Care or the Department of Insurance. This section shall also apply to a Medi-Cal managed care plan under a comprehensive risk contract with the State Department of Health Care Services pursuant to Chapter 7 (commencing with Section 14000) or Chapter 8 (commencing with Section 14200) of Part 3 of Division 9 of the Welfare and Institutions Code that is not regulated by the Department of Managed Health Care or the Department of Insurance.

(5)Clinical laboratories, as that term is used in Section 1265 of the Business and Professions Code, and that are regulated by the State Department of Public Health.

(6)Acute psychiatric hospitals, as defined by Section 1250.

(g)The California Health and Human Services Agency shall work with experienced nonprofit organizations and entities represented in the stakeholder advisory group in subdivision (c) to provide technical assistance to the entities outlined in subdivisions (e) and (f).

(h)On or before July 31, 2022, the California Health and Human Services Agency shall develop in consultation with the stakeholder advisory group in subdivision (c) a strategy for unique, secure digital identities capable of supporting master patient indices to be implemented by both private and public organizations in California.

(i)For purposes of implementing this section, including, but not limited to, hiring staff and consultants, facilitating and conducting meetings, conducting research and analysis, and developing the required reports, the California Health and Human Services Agency may enter into exclusive or nonexclusive contracts on a bid or negotiated basis. Contracts entered into or amended pursuant to this section shall be exempt from Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code, Section 19130 of the Government Code, and Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, and shall be exempt from the review or approval of any division of the Department of General Services. No person hired or otherwise retained pursuant to this subdivision shall be permitted to have any financial interest in the California Health and Human Services Data Exchange Framework or shall be,

or be affiliated with, any health care organization required to participate in the California Health and Human Services Data Exchange Framework pursuant to subdivisions (b) and (f). The term person, as used in this subdivision, means any individual, partnership, joint venture, association, corporation, or any other organization or any combination thereof.

(j)All actions to implement the California Health and Human Services Data Exchange Framework, including the adoption or development of any data sharing agreement, requirements, policies and procedures, guidelines, subgrantee contract provisions, or reporting requirements, shall be exempt from the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The California Health and Human Services Agency, or a designee department or office under its jurisdiction, shall release program notices that detail the requirements of the California Health and Human Services Data Exchange Framework.

(Amended by Stats. 2023, Ch. 255, Sec. 4. (AB 352) Effective January 1, 2024.)

__Health and Safety Code - HSC__

__DIVISION 111. GOLDEN BEAR STATE PHARMACY ASSISTANCE PROGRAM [130400 - 130410]__

(Division 111 added by Stats. 2001, Ch. 693, Sec. 2.)

130400.

(a) This division shall be known, and may be cited as, the Golden Bear State Pharmacy Assistance Program.

(b) As used in this division:

(1) Department means the State Department of Health Services.

(2) Fund means the Golden Bear State Pharmacy Assistance Program Rebate Fund.

(3) Medicare beneficiary means a Medicare beneficiary who is a California resident.

(Amended by Stats. 2002, Ch. 542, Sec. 3. Effective January 1, 2003.)

130401.

(a) In addition to participating in the program provided for under Article 24 (commencing with Section 4425) of Chapter 9 of Division 2 of the Business and Professions Code, any Medicare beneficiary may participate in the program provided for under this division.

(b) The department shall conduct an outreach program to inform Medicare beneficiaries of their right to participate in this program. Medicare beneficiaries shall be informed of the method by which the prescription drug discount is determined and that the discount shall periodically fluctuate. No outreach material shall contain a likeness of an elected state official.

(c) In order to participate in the program provided for under this division, a Medicare beneficiary shall be required to register on a one-time basis. Registration may be made at any pharmacy participating in this program. In order to register for the program, the Medicare beneficiary shall pay to the pharmacy an administrative fee, which the pharmacy shall retain, in an amount to be established by the department. Upon payment of this fee, the pharmacy shall issue a program registration card, which shall be prepared and provided to the pharmacy by the department, to the Medicare beneficiary.

(Amended by Stats. 2002, Ch. 542, Sec. 4. Effective January 1, 2003.)

130401.1.

(a) The department may accept on behalf of the state any gift, bequest, or donation of outreach services or materials to inform eligible Medicare beneficiaries of their right to participate in this program. Neither Section 11005 of the Government Code nor any other law requiring approval by a state officer of a gift, bequest, or donation shall apply to these gifts, bequests, or donations. For purposes of this section, outreach services may include, but not be limited to, coordinating and implementing outreach efforts and plans, and outreach materials may include, but not be limited to, brochures, pamphlets, fliers, posters, advertisements, and other promotional items.

(b) An advertisement provided as a gift, bequest, or donation pursuant to this section shall be exempt from the provisions of Article 5 (commencing with Section 11080) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 2002, Ch. 542, Sec. 5. Effective January 1, 2003.)

130402.

(a) Any pharmacy may participate in the program provided for under this division. However, this division shall apply only to prescriptions dispensed to noninstitutionalized Medicare beneficiaries.

(b) Any drug manufacturer may participate in the program provided for under this division.

(Added by Stats. 2001, Ch. 693, Sec. 2. Effective January 1, 2002.)

130403.

(a) The department shall attempt to negotiate rebate amounts with drug manufacturers for all prescription drugs purchased by Medicare beneficiaries. As part of these agreements, the department shall negotiate a separate fee in an amount required to administer each pharmacy claim reimbursement submitted to the department pursuant to Section 130405.

(b) If the department determines that it is unable to negotiate rebates with a sufficient number of drug manufacturers, it may cease to continue the implementation or operation of this division.

(Amended by Stats. 2002, Ch. 542, Sec. 6. Effective January 1, 2003.)

130404.

(a) With respect to any prescription drug for which a rebate amount has been negotiated pursuant to Section 130403, upon presentation of a program registration card issued pursuant to Section 130401, a participating pharmacy shall charge Medicare beneficiaries a price for a prescription drug that does not exceed the following computed price:

(1) The Medi-Cal reimbursement rate for the prescription drug, and an amount, as set by the department, to cover electronic transmission charges.

(2) The amount ascertained pursuant to paragraph (1) shall be reduced by the rebate amount negotiated by the department pursuant to Section 130403.

(b) The pharmacy shall request, and the department shall provide, through electronic means, the price to be charged pursuant to this section.

(c) This division shall not apply to any prescription that is covered by insurance.

(Amended by Stats. 2002, Ch. 542, Sec. 7. Effective January 1, 2003.)

130405.

Whenever a pharmacy provides a prescription drug to an individual pursuant to Section 130404, the pharmacy shall bill the department for the amount computed pursuant to paragraph (2) of subdivision (a) of Section 130404 and the department shall pay that amount.

(Added by Stats. 2001, Ch. 693, Sec. 2. Effective January 1, 2002.)

130406.

(a) The department may collect prospective rebates from drug manufacturers for payment to pharmacies pursuant to Section 130405.

(b) The department shall notify a drug manufacturer of all instances in which it has paid a rebate amount

pursuant to Section 130405 with respect to one of the manufacturersdrugs.

(c) A drug manufacturer shall pay the department the amount of any rebate of which the drug manufacturer is notified pursuant to subdivision (b) that exceeds the amount collected by the department pursuant to subdivision (a).

(Amended by Stats. 2002, Ch. 542, Sec. 8. Effective January 1, 2003.)

130406.5.

(a) As part of the program provided in this division, the department may establish a system to provide a Medicare beneficiary access to a drug discount program operated by a drug manufacturer that would provide greater prescription drug discounts than are otherwise available through the program provided in this division. The program registration card issued pursuant to Section 130401 shall serve as the single point of entry to the private drug discount programs of participating manufacturers.

(b) To establish the system described in subdivision (a), the department may negotiate a contract with a drug manufacturer that operates a prescription drug discount program. To assist in these negotiations, the department may contract with a public or private entity.

(c) (1) A Medicare beneficiary shall not in any circumstance be required to participate in, or to disclose information that would determine his or her eligibility to participate in, these private drug discount programs in order to participate in the program provided in this division.

(2) Notwithstanding paragraph (1), a Medicare beneficiary may voluntarily disclose or provide information that may be necessary to determine eligibility for participation in a private drug discount program.

(Added by Stats. 2002, Ch. 542, Sec. 9. Effective January 1, 2003.)

130407.

(a) The department shall deposit all payments received pursuant to Sections 130406 and 130410 into the Golden Bear State Pharmacy Assistance Program Rebate Fund, which is hereby created in the State Treasury.

(b) Notwithstanding Section 13340 of the Government Code, the fund is hereby continuously appropriated to the department without regard to fiscal years for the purpose of paying rebates pursuant to Section 130405 and for defraying the costs of administering this division. Notwithstanding any other law, no money in the fund is available for expenditure for any other purpose or for loaning or transferring to any other fund, including the General Fund.

(Amended by Stats. 2002, Ch. 542, Sec. 10. Effective January 1, 2003.)

130407.5.

The department shall repay the General Fund the loan in the amount of one million dollars ($1,000,000),

which was appropriated to the department for startup costs associated with the program provided in this division.

(Added by Stats. 2002, Ch. 542, Sec. 11. Effective January 1, 2003.)

130408.

The department shall develop a program to prevent the occurrence of fraud under this division. An individual or entity that violates any provision of the fraud prevention program may be precluded from participating in the Golden Bear State Pharmacy Assistance Program. The department shall adopt regulations setting forth a procedure for precluding participation in the program on this basis.

(Amended by Stats. 2002, Ch. 542, Sec. 12. Effective January 1, 2003.)

130409.

The department may hire any staff needed for the implementation of this division. The department may also use the contract with the Medi-Cal fiscal intermediary or contract with another public or private entity to implement or administer the program and to enroll Medicare beneficiaries who are eligible to participate in the program, to collect rebates, and to pay claims, only if services provided under this program are specifically identified and reimbursed in a manner that does not claim federal financial reimbursement. For purposes of this division, use of the Medi-Cal program fiscal intermediary shall be exempt from Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code. This division shall not be implemented unless and until the director executes a declaration, which shall be retained by the director, stating that all federal approvals necessary for implementation of this division have been received.

(Amended by Stats. 2002, Ch. 542, Sec. 13. Effective January 1, 2003.)

130410.

A contract executed for the purposes of this division is exempt from Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code.

(Added by Stats. 2002, Ch. 542, Sec. 14. Effective January 1, 2003.)

130500.

(a)This division shall be known, and may be cited, as the California Discount Prescription Drug Program.

(b)This division shall become operative on and after July 1, 2010.

(c)The California Discount Prescription Drug Program shall be implemented only if, and to the extent that, a Budget Act or other statute that is enacted on or before February 1, 2015, includes or makes an appropriation of moneys to the department to implement this program.

(d)Notwithstanding any other provision of this division, if the California Discount Prescription Drug Program is not implemented pursuant to subdivision (c), this division shall become inoperative on February 1, 2015, and as of January 1, 2016, is repealed, unless a later enacted statute, that is enacted before January 1, 2016, deletes or extends the dates on which it becomes inoperative and is repealed.

(Amended by Stats. 2010, Ch. 717, Sec. 22. (SB 853) Effective October 19, 2010. Repealed conditionally on January 1, 2016, by its own provisions. Note: Control provisions in this section relate to operation, implementation, and termination of Division 112, comprising Sections 130500 to 130544.)

130501.

For purposes of this division, the following definitions shall apply:

(a)Average manufacturersprice has the same meaning as this term is defined in Section 1927(k)(1) of the federal Social Security Act (42 U.S.C. Sec. 1396r-8(k)(1)).

(b)Department means the State Department of Health Care Services.

(c)Eligible Californian means a resident of the state who meets any one or more of the following:

(1)Has total unreimbursed medical expenses equal to at least 10 percent of his or her familysincome where the familysincome does not exceed the state median family income.

(2)To the extent allowed by federal law, is enrolled in the Medicare Program, but whose prescription drugs are not covered by the Medicare Program.

(3)Has a family income that does not exceed 300 percent of the federal poverty guidelines and who does not have outpatient prescription drug coverage paid for by any one of the following:

(A)In whole by the Medi-Cal program.

(B)In whole or in part by the Healthy Families Program or other programs funded by the state.

(C)In whole or in part by another third-party payer, provided that the individual has not reached the annual limit on his or her prescription drug coverage.

(4)For purposes of this subdivision, the cost of drugs provided under this division is considered an expense incurred by the family for eligibility determination purposes.

(d)Fund means the California Discount Prescription Drug Program Fund.

(e)Manufacturer means a drug manufacturer as defined in Section 4033 of the Business and Professions Code.

(f)Manufacturersrebate means the rebate for an individual drug or aggregate rebate for a group of drugs necessary to make the price for the drug ingredients equal to or less than the applicable benchmark price.

(g)Medicaid best price has the same meaning as this term is defined in Section 1927(c)(1)(C) of the Social Security Act (42 U.S.C. Sec. 1396r-8(c)(1)(C)).

(h)Multiple-source drug has the same meaning as this term is defined in Section 1927(k)(7) of the Social Security Act (42 U.S.C. Sec. 1396r-8(k)(7)).

(i)National drug code or NDC means the unique 10-digit, three-segment number assigned to each drug product listed under Section 510 of the federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 360). This number identifies the labeler or vendor, product, and trade package.

(j)National sales data means prescription data obtained from a national-level prescription tracking service.

(k)Participating manufacturer means a drug manufacturer that has contracted with the department to provide an individual drug or group of drugs for the program.

(l)Participating pharmacy means a pharmacy that has executed a pharmacy provider agreement with the department for this program.

(m)Pharmacy contract rate means the negotiated per prescription reimbursement rate for drugs dispensed to eligible Californians. The department shall establish a single, basic pharmacy rate, but may contract at different rates with pharmacies in order to provide access throughout the state.

(n)Prescription drug means any drug that bears the legend: Caution: federal law prohibits dispensing without prescription, â„ž only, or words of similar import.

(o)Private discount drug program means a prescription drug discount card or manufacturer patient assistance program that provides discounted or free drugs to eligible individuals. For the purposes of this division, a private discount drug program is not considered insurance or a third-party-payer program.

(p)Program means the California Discount Prescription Drug Program.

(q)Single-source drug has the same meaning as this term and the term innovator multiple-source drug are defined in Section 1927(k)(7) of the Social Security Act (42 U.S.C. Sec. 1396r-8(k)(7)).

(r)Therapeutic category means a drug or a grouping of drugs determined by the department to have similar attributes and to be alternatives for the treatment of a specific disease or condition.

(s)Volume weighted average discount means the aggregated average discount for the drugs of a manufacturer, weighted by each drugspercentage of the total prescription volume of that manufacturersdrugs. For purposes of this calculation, discounts shall include any rebate amounts used to fund program costs pursuant to Section 130542.1. Drugs excluded from contracting by the department, pursuant to subdivision (d) of Section 130506 and in a manner consistent with subdivision (c) of Section 130506, shall be excluded from the calculation of the volume weighted average discount. National sales data shall be used to calculate the volume weighted average discount pursuant to Section 130506. Program utilization data shall be used to calculate the volume weighted average discount pursuant to Section 130507.

(Amended by Stats. 2009, Ch. 140, Sec. 123. (AB 1164) Effective January 1, 2010. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

__Health and Safety Code - HSC__

__DIVISION 112. CALIFORNIA DISCOUNT PRESCRIPTION DRUG PROGRAM [130500 - 130544]__

(Division 112 added by Stats. 2006, Ch. 619, Sec. 2.)

__CHAPTER 2. Prescription Drug Discounts [130505 - 130513]__

(Chapter 2 added by Stats. 2006, Ch. 619, Sec. 2.)

130505.

(a)The amount a participating, eligible Californian pays for a drug through the program shall be equal to the lower of the participating pharmacysusual and customary charge or the pharmacy contract rate pursuant to subdivision (c), less a program discount for the specific drug or an average discount for a group of drugs or all drugs covered by the program.

(b)In determining program discounts on individual drugs, the department shall take into account the rebates provided by the drugsmanufacturer.

(c)The department may contract with participating pharmacies for a rate other than the pharmacies™ usual and customary rate for prescription drugs, including multiple-source drugs.

(d)This division shall apply only to prescription drugs dispensed to eligible Californians on an outpatient basis.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130506.

(a)The department shall negotiate drug discount agreements with manufacturers to provide discounts for single-source and multiple-source prescription drugs through the program. The department shall attempt to negotiate the maximum possible discount for an eligible Californian. The department shall attempt to negotiate, with each manufacturer, discounts to offer single-source prescription drugs under the program at a volume weighted average discount that is equal to or below any one of the following benchmark prices:

(1)Eighty-five percent of the average manufacturer price for a drug, as published by the federal Centers for Medicare and Medicaid Services.

(2)The lowest price provided to any nonpublic entity in the state by a manufacturer to the extent that the Medicaid best price exists under federal law.

(3)The Medicaid best price, to the extent that this price exists under federal law.

(b)The department may require the drug manufacturer to provide information that is reasonably necessary for the department to carry out its duties pursuant to this division.

(c)The department shall pursue manufacturer discount agreements to ensure that the number and type of drugs available through the program is sufficient to give an eligible Californian a formulary comparable to the Medi-Cal list of contract drugs, or if this information is available to the department, a formulary that is comparable to that provided to CalPERS enrollees.

(d)To obtain the most favorable discounts, the department may limit the number of drugs available through the program.

(e)The drug discount agreements negotiated pursuant to this section shall be used to reduce the cost of drugs purchased by program participants and to fund program costs pursuant to Section 130542.1.

(f)All information reported by a manufacturer to, negotiations with, and agreements executed with, the department or its third-party vendor pursuant to this section, shall be considered confidential and corporate proprietary information. This information shall not be subject to disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code). The California State AuditorsOffice and the Controller shall have access to pricing information in a manner that is consistent with their access to this information under the Medi-Cal program and under law. The California State AuditorsOffice and the Controller may use this information only to investigate or audit the administration of the program. Neither the California State AuditorsOffice, the Controller, nor the

department may disclose this information in a form that identifies a specific manufacturer or wholesaler or prices charged for drugs of this manufacturer or wholesaler. Information provided to the department pursuant to subdivision (e) of Section 130530 shall not be affected by the confidentiality protections established by this subdivision.

(g)(1)Any pharmacy licensed pursuant to Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code may participate in the program.

(2)Any manufacturer may participate in the program.

(Amended by Stats. 2021, Ch. 615, Sec. 295. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

130507.

(a)On August 1, 2017, the department shall determine whether manufacturer participation in the program has been sufficient to meet both of the following benchmarks:

(1)The number and type of drugs available through the program are sufficient to give eligible Californians a formulary comparable to the Medi-Cal list of contract drugs or, if this information is available to the department, a formulary comparable to that provided to CalPERS enrollees.

(2)The volume weighted average discount of single-source prescription drugs offered pursuant to this program is equal to or below any one of the benchmark prices described in subdivision (a) of Section 130506.

(b)On and after August 1, 2017, the department shall reassess program outcomes, at least once every year, consistent with the benchmarks described in subdivision (a).

(Amended by Stats. 2010, Ch. 717, Sec. 23. (SB 853) Effective October 19, 2010. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130508.

To the maximum extent possible, the department shall assure that enrollment and other administrative actions are seamless to all eligible Californians.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130509.

(a)The department may require prior authorization in the Medi-Cal program for any drug of a manufacturer

if the manufacturer fails to agree to a volume weighted average discount for single-source prescription drugs that is equal to or below any one of the benchmark prices described in subdivision (a) of Section 130506 and only to the extent that this requirement does not increase costs to the Medi-Cal program, as determined pursuant to subdivision (c).

(b)If prior authorization is required for a drug pursuant to this section, a Medi-Cal beneficiary shall not be denied the continued use of a drug that is part of a prescribed therapy until that drug is no longer prescribed for that beneficiarystherapy. The department shall approve or deny requests for prior authorization necessitated by this section as required by state or federal law.

(c)The department, in consultation with the Department of Finance, shall determine the fiscal impact of placing a drug on prior authorization pursuant to this section. In making this determination, the department shall consider all of the following:

(1)The net cost of the drug, including any rebates that would be lost if the drug is placed on prior authorization.

(2)The projected volume of purchases of the drug, before and after the drug is placed on prior authorization, considering the continuity of care provisions set forth in subdivision (b).

(3)The net cost of comparable drugs to which volume would be shifted if a drug is placed on prior authorization, including any additional rebates that would be received.

(4)The projected volume of purchases of comparable drugs, before and after the drug is placed on prior authorization.

(5)Any other factors determined by the department to be relevant to a determination of the fiscal impact of placing a drug on prior authorization.

(d)This section shall be implemented only to the extent permitted under federal law, and in a manner consistent with state and federal laws.

(e)This section may apply to any manufacturer that has not negotiated with the department.

(f)The department shall notify the Speaker of the Assembly and the President pro Tempore of the Senate that the department is requiring prior authorization no later than five days after making this requirement.

(g)(1)Subject to paragraph (2), this section shall be implemented on and after August 1, 2017.

(2)This section shall be implemented only if the department determines that participation by manufacturers has been insufficient to meet both of the benchmarks identified in Section 130507.

(Amended by Stats. 2010, Ch. 717, Sec. 24. (SB 853) Effective October 19, 2010. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130510.

The names of manufacturers of single-source drugs that do or do not enter into discount agreements with

the department pursuant to this division shall be public information and shall be posted on the departmentsInternet Web site when the discount agreements are reached or the manufacturer ends negotiations, commencing within six months after the initial implementation date of this division and updated on the first of each month thereafter.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130511.

(a)Each drug discount agreement shall do all of the following:

(1)Specify which of the manufacturersdrugs are included in the agreement.

(2)Permit the department to remove a drug from the agreement if there is a dispute over the drugsutilization.

(3)Permit a manufacturer to audit claims for the drugs the manufacturer provides under the program. Claims information provided to manufacturers shall comply with all federal and state privacy laws that protect a program participantshealth information.

(b)In addition to the requirements of subdivision (a), each drug discount agreement with a single-source manufacturer shall do all of the following:

(1)Require the manufacturer to make a rebate payment to the department for each drug described in paragraph (1) of subdivision (a) dispensed to a program participant.

(2)Require the manufacturer to make the rebate payments to the department on at least a quarterly basis.

(3)Require the manufacturer to provide, upon request, documentation to validate the rebate.

(c)The department may collect prospective rebates from single-source manufacturers for payment to pharmacies. The amount of the prospective discount shall be specified in the drug rebate agreements.

(d)(1)Manufacturers shall calculate and pay interest on late or unpaid rebates. The interest shall not apply to any prior period adjustments of unit rebate amounts or department utilization adjustments.

(2)For rebate payments to the program, manufacturers shall calculate and pay interest on late or unpaid rebates for quarters that begin on or after January 1, 2007.

(e)Interest required by subdivision (d) shall begin accruing 38 calendar days from the date of mailing of the invoice, including supporting utilization data sent to the manufacturer. Interest shall continue to accrue until the date of mailing of the manufacturerspayment. Interest rates and calculations for purposes of this section shall be at 10 percent.

(f)A participating manufacturer shall clearly identify all rebates, interest, and other payments, and payment transmittal forms for the program, in a manner designated by the department.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130512.

(a)The department shall generate a monthly report that, at a minimum, provides all of the following:

(1)Drug utilization information.

(2)Amounts paid to pharmacies.

(3)Program discounts compared to the usual customary price.

(4)Aggregate amounts of rebates collected from manufacturers.

(5)A summary of the problems or complaints reported regarding the program.

(b)Information provided in paragraphs (1), (2), and (3) of subdivision (a) shall be at the national drug code level.

(c)The department shall generate an annual report that, in addition to the information described in subdivision (a), reports on the number of all of the following:

(1)Individuals enrolled.

(2)Individuals receiving a prescription under the program.

(3)Participating pharmacies.

(4)Participating manufacturers.

(d)All reports shall be made available on the departmentsInternet Web site.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130513.

(a)The department shall establish and maintain a claims processing system that complies with all of the following requirements:

(1)Charges a price that meets the requirements of this division.

(2)Provides the pharmacy with the dollar amount of the discount to be returned to the pharmacy.

(3)Provides drug utilization review warnings to pharmacies consistent with the drug utilization review standards provided in federal law.

(b)The department shall pay a participating pharmacy the discount provided to program participants pursuant to this division by a date that is not later than two weeks after the claim is received.

(c)The department shall develop a mechanism for the program participants to report problems or complaints.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=112.&title=&part=&chapter=3.&article=

130520.

(a)The department shall develop an application and reapplication form for the determination of a residentseligibility for the program. An applicant, or a guardian or custodian of an applicant, may apply or reapply on behalf of the applicant and the applicantsspouse and children.

(b)The application shall, at a minimum, do all of the following:

(1)Specify the information that an applicant or the applicantsrepresentative must include in the application.

(2)Require that the applicant, or the applicantsguardian or custodian, attest that the information provided in the application is accurate to the best knowledge and belief of the applicant or the applicantsguardian or custodian.

(3)Specify that the application fee due upon submission of the applicable form is ten dollars ($10) annually.

(c)In assessing the income requirement for eligibility, the department shall use the income information reported on the application and not require additional documentation.

(d)An application may be completed at any pharmacy, physician office, or clinic participating in the program through an Internet Web site or call center staffed by trained operators approved by the department. A pharmacy, physiciansoffice, clinic, or nonprofit community organization that completes the application may keep the application fee as reimbursement for its processing costs. If it is determined that the applicant is already enrolled in the program, the fee shall be returned to the applicant and the applicant shall be informed of his or her current status as a program participant.

(e)The department shall utilize a secure electronic application process that can be used by a pharmacy, physiciansoffice, or clinic, by an Internet Web site, by a call center staffed by trained operators, by a nonprofit community organization, or through the third-party vendor to enroll applicants in the program.

(f)During the departmentsnormal working hours, the department shall make a determination of eligibility within 24 hours of receipt by the program of a completed application. The department shall mail the program participant an identification card no later than seven days after eligibility has been determined.

(g)For applications submitted through a pharmacy, the department may issue a participant identification number for eligible applicants to the pharmacy for immediate access to the California Discount Prescription Drug Program.

(h)Any program participant that has been determined to be eligible shall be enrolled for 12 months or until the program participant notifies the department of an intent to end enrollment.

(i)The department shall notify a program participant of termination of enrollment 30 days prior to the termination.

(j)A person shall be required to apply pursuant to this section for each 12-month period of eligibility.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130521.

(a)The department may conduct an outreach program to inform California residents of their opportunity to participate in the program. The department shall coordinate outreach activities with the California Department of Aging, the Employment Development Department, and other state and local agencies, and nonprofit organizations that serve residents who may be eligible for the program. No outreach material shall contain the name or likeness of a drug.

(b)The department may accept on behalf of the state any gift, bequest, or donation of outreach services or materials to inform residents about the program. The name of the organization sponsoring the materials shall in no way appear on the material but shall be reported to the public and the Legislature as otherwise provided by law.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

__CHAPTER 4. Pharmaceutical Manufacturer Patient Assistance Programs [130530- 130530.]__

(Chapter 4 added by Stats. 2006, Ch. 619, Sec. 2.)

130530.

(a)The department shall encourage a participating manufacturer to maintain those private discount drug programs that are comparable to or more extensive than those provided prior to the enactment of this division. To the extent possible, the department shall encourage a participating manufacturer to simplify the application and eligibility processes for its private discount drug program.

(b)The department may execute agreements with drug manufacturers and other private patient assistance programs to provide a single point of entry for eligibility determination and claims processing for drugs available through those programs to the extent permitted by state and federal law.

(c)The department shall develop a system to provide a program participant under this division with the best discounts on prescription drugs that are available to the participant through this program or through a drug manufacturer or other private patient assistance program.

(d)(1)The department may require an applicant to provide additional information to determine the applicantseligibility for other discount card and patient assistance programs.

(2)The department shall not require an applicant to participate in a drug manufacturer patient assistance program or to disclose information that would determine the applicantseligibility to participate in a drug manufacturer patient assistance program in order to participate in the California Discount Prescription Drug Program.

(e)In order to verify that California residents are being served by drug manufacturer patient assistance programs, the department shall require drug manufacturers to provide the department annually with all of the following information:

(1)The total value of the manufacturersdrugs provided at no or very low cost to California residents during the previous year.

(2)The total number of prescriptions or 30-day supplies of the manufacturersdrugs provided at no or very low cost to California residents during the previous year.

(f)The California Discount Prescription Drug Program card issued pursuant to this division shall serve as a single point of entry for drugs available pursuant to subdivision (a), and shall meet all legal requirements for a health benefit card.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

__Health and Safety Code - HSC__

__DIVISION 112. CALIFORNIA DISCOUNT PRESCRIPTION DRUG PROGRAM [130500 - 130544]__

(Division 112 added by Stats. 2006, Ch. 619, Sec. 2.)

__CHAPTER 5. Administration [130540 - 130544]__

(Chapter 5 added by Stats. 2006, Ch. 619, Sec. 2.)

130540.

(a)Contracts, contract amendments, change orders, change requests, and any project or systems development notices, entered into for purposes of this division, shall be subject to the same exemptions provided for in the Medi-Cal drug program and those provided to the department in paragraph (4) of subdivision (c) of Section 124977. In addition, contracts, contract amendments, change orders, change requests, and any project or systems development notices, entered into for purposes of this division, are specifically exempt from:

(1)Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code.

(2)The competitive bidding requirements of State Administrative Manual Management Memo 03-10.

(3)The project authority requirements of State Administrative Manual, Section 4800 et seq.

(4)Section 11.00 and Provision 6 of Item 4260-001-0001 of Section 2 of the Budget Act of 2006 and related Budget letters.

(b)Contracts with pharmacies and drug manufacturers may be entered into on a bid or nonbid basis.

(c)Change orders entered into pursuant to this division shall not require a contract amendment.

(d)To the extent that any exemption set forth in this section conflicts with exemptions set forth in paragraph (4) of subdivision (c) of Section 124977, the exemption in this section shall govern over the conflicting provision in Section 124977.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130541.

To implement the program, the department may contract with a third-party vendor or utilize existing health care service provider enrollment and payment mechanisms, including the Medi-Cal programsfiscal intermediary. Drug discount agreements negotiated by a third party shall be subject to review by the department. The department may cancel a contract that it finds not in the best interests of the state or program participants. Participating pharmacy contracts entered into pursuant to Section 130505 shall be considered contracts between the participating pharmacy and the department and shall not be associated with, or leveraged against, other third-party agreements.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130542.

(a)The department shall deposit all payments the department receives pursuant to this division into the California Discount Prescription Drug Program Fund, which is hereby established in the State Treasury.

(b)Notwithstanding Section 13340 of the Government Code, the fund is hereby continuously appropriated to the department without regard to fiscal year for the purpose of providing payment to participating pharmacies pursuant to this division and for defraying the costs of administering this division.

(c)Notwithstanding any other provision of law, no money in the fund is available for expenditure for any other purpose or for loaning or transferring to any other fund, including the General Fund, except as provided in Section 130542.1. The fund shall also contain any interest accrued on moneys in the fund.

(Amended by Stats. 2008, Ch. 758, Sec. 14. Effective September 30, 2008. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130542.1.

(a)It is the intent of the Legislature that the program shall be self-financing and that General Fund moneys provided to the fund shall be repaid within five years after implementation of the program begins. The department shall provide the Legislature with a five-year projection of program revenues and expenditures as part of its annual budget request. The projection shall include a projected General Fund repayment schedule.

(b)The department may use up to 25 percent of manufacturer rebate revenues to administer the program, including the funding of a float account to finance payments to participating pharmacies in advance of the receipt of manufacturer rebates.

(Added by Stats. 2008, Ch. 758, Sec. 15. Effective September 30, 2008. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130543.

(a)The director may adopt regulations as are necessary to implement and administer this division.

(b)Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the director may implement this division, in whole or in part, by means of a provider bulletin or other similar instructions, without taking regulatory action, provided that no bulletin or other similar instructions shall remain in effect after August 1, 2015. It is the intent that regulations adopted pursuant to this section shall be adopted on or before August 1, 2015.

(Amended by Stats. 2010, Ch. 717, Sec. 25. (SB 853) Effective October 19, 2010. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

130544.

If any provision of this division, or the application thereof, is for any reason, held invalid, ineffective, or unconstitutional by a court of competent jurisdiction, the remainder of this division, or the application of this provision, shall not be affected thereby, and to this end the provisions of this division are severable.

(Added by Stats. 2006, Ch. 619, Sec. 2. Effective January 1, 2007. Provisions operative and implemented on or after July 1, 2010, as prescribed in Section 130500. Conditionally inoperative on February 1, 2015. Repealed conditionally on January 1, 2016, pursuant to Section 130500.)

__Health and Safety Code - HSC__

__DIVISION 112. PUBLIC HEALTH [131000 - 131355]__

(Division 112 added by Stats. 2006, Ch. 241, Sec. 34.)

__PART 1. GENERAL PROVISIONS [131000 - 131355]__

(Part 1 added by Stats. 2006, Ch. 241, Sec. 34.)

__CHAPTER 1. Organization of the State Department of Public Health [131000 - 131021]__

(Chapter 1 added by Stats. 2006, Ch. 241, Sec. 34.)

131000.

There is in the California Health and Human Services Agency a State Department of Public Health.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131005.

(a)There is in state government an executive officer known as the State Public Health Officer, who shall be appointed by the Governor, subject to confirmation by the Senate, and hold office at the pleasure of the Governor. The State Public Health Officer shall receive the annual salary provided by Article 1 (commencing with Section 11550) of Chapter 6 of Part 1 of Division 3 of Title 2 of the Government Code.

(b)The State Public Health Officer shall serve as the director of, and have control over, the State Department of Public Health.

(c)Any statutory reference to director,□ the Director of Health Services,□ the Director of Public Health,□ or the Director of the State Department of Public Health,□ regarding a function transferred to the State

Department of Public Health pursuant to Chapter 2 (commencing with Section 131050), is deemed to, instead, refer to the State Public Health Officer.

(d)Any statutory reference to department or state department regarding a function transferred to the State Department of Public Health pursuant to Chapter 2 (commencing with Section 131050), shall refer to the State Department of Public Health.

(e)The director shall be a licensed physician and surgeon pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, who has demonstrated medical, public health, and management experience.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131006.

Upon recommendation of the director, the Governor may appoint, not to exceed, two chief deputies of the State Department of Public Health, subject to confirmation by the Senate, who shall hold office at the pleasure of the Governor. The salaries of the chief deputies shall be fixed in accordance with law.

(Amended by Stats. 2007, Ch. 483, Sec. 37.5. Effective January 1, 2008.)

131010.

The director shall have the powers of a head of the department pursuant to Chapter 2 (commencing with Section 11150) of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131019.

There is in the State Department of Public Health an Office of AIDS. The State Department of Public Health, Office of AIDS, shall be the lead agency within the state, responsible for coordinating state programs, services, and activities relating to the human immunodeficiency virus (HIV), acquired immune deficiency syndrome (AIDS), and AIDS related conditions (ARC). Among its responsibilities, the State Department of Public Health, Office of AIDS, shall coordinate Sections 120875, Section 120880, Chapter 2 (commencing with Section 120800), Chapter 4 (commencing with Section 120900), Chapter 6 (commencing with Section 120950), Chapter 8 (commencing with Section 121025), Chapter 9 (commencing with Section 121050), Chapter 10 (commencing with Section 121075), Chapter 11 (commencing with Section 121150), Chapter 12 (commencing with Section 121200), Chapter 13 (commencing with Section 121250), and Chapter 14 (commencing with Section 121300), of Part 4 of Division 105. Any reference in those provisions to the State Department of Health Services or the State Department of Public Health shall be deemed to be a reference to the Office of AIDS within the State Department of Public Health.

(Added by renumbering Section 100119 by Stats. 2006, Ch. 241, Sec. 17. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131019.5.

(a)For purposes of this section, the following definitions shall apply:

(1)Determinants of equity means social, economic, geographic, political, and physical environmental conditions that lead to the creation of a fair and just society.

(2)Health equity means efforts to ensure that all people have full and equal access to opportunities that enable them to lead healthy lives.

(3)Health and mental health disparities means differences in health and mental health status among distinct segments of the population, including differences that occur by gender, age, race or ethnicity, sexual orientation, gender identity, education or income, disability or functional impairment, or geographic location, or the combination of any of these factors.

(4)Health and mental health inequities means disparities in health or mental health, or the factors that shape health, that are systemic and avoidable and, therefore, considered unjust or unfair.

(5)Vulnerable communities include, but are not limited to, women, racial or ethnic groups, low-income individuals and families, individuals who are incarcerated and those who have been incarcerated, individuals with disabilities, individuals with mental health conditions, children, youth and young adults, seniors, immigrants and refugees, individuals who are limited-English proficient (LEP), and lesbian, gay, bisexual, transgender, queer, and questioning (LGBTQQ) communities, or combinations of these populations.

(6)Vulnerable places means places or communities with inequities in the social, economic, educational, or physical environment or environmental health and that have insufficient resources or capacity to protect and promote the health and well-being of their residents.

(b)The State Department of Public Health shall establish an Office of Health Equity for the purposes of aligning state resources, decisionmaking, and programs to accomplish all of the following:

(1)Achieve the highest level of health and mental health for all people, with special attention focused on those who have experienced socioeconomic disadvantage and historical injustice, including, but not limited to, vulnerable communities and culturally, linguistically, and geographically isolated communities.

(2)Work collaboratively with the Health in All Policies Task Force to promote work to prevent injury and illness through improved social and environmental factors that promote health and mental health.

(3)Advise and assist other state departments in their mission to increase access to, and the quality of, culturally and linguistically competent health and mental health care and services.

(4)Improve the health status of all populations and places, with a priority on eliminating health and mental health disparities and inequities.

(c)The duties of the Office of Health Equity shall include all of the following:

(1)Conducting policy analysis and developing strategic policies and plans regarding specific issues affecting vulnerable communities and vulnerable places to increase positive health and mental health outcomes for vulnerable communities and decrease health and mental health disparities and inequities. The policies and plans shall also include strategies to address social and environmental inequities and improve health and mental health. The office shall assist other departments in their missions to increase access to services and supports and improve quality of care for vulnerable communities.

(2)Establishing a comprehensive, cross-sectoral strategic plan to eliminate health and mental health disparities and inequities. The strategies and recommendations developed shall take into account the needs of vulnerable communities to ensure strategies are developed throughout the state to eliminate health and mental health disparities and inequities. This plan shall be developed in collaboration with the Health in All Policies Task Force. This plan shall establish goals and benchmarks for specific strategies in order to measure and track disparities and the effectiveness of these strategies. This plan shall be updated periodically, but not less than every two years, to keep abreast of data trends, best practices, promising practices, and to more effectively focus and direct necessary resources to mitigate and eliminate disparities and inequities. This plan shall be included in the report required under paragraph (1) of subdivision (d). The Office of Health Equity shall seek input from the public on the plan through an inclusive public stakeholder process.

(3)Building upon and informing the work of the Health in All Policies Task Force in working with state agencies and departments to consider health in appropriate and relevant aspects of public policy development to ensure the implementation of goals and objectives that close the gap in health status. The Office of Health Equity shall work collaboratively with the Health in All Policies Task Force to assist state agencies and departments in developing policies, systems, programs, and environmental change strategies that have population health impacts in all of the following ways, within the resources made available:

(A)Develop intervention programs with targeted approaches to address health and mental health inequities and disparities.

(B)Prioritize building cross-sectoral partnerships within and across departments and agencies to change policies and practices to advance health equity.

(C)Work with the advisory committee established pursuant to subdivision (f) and through stakeholder meetings to provide a forum to identify and address the complexities of health and mental health inequities and disparities and the need for multiple, interrelated, and multisectoral strategies.

(D)Provide technical assistance to state and local agencies and departments with regard to building organizational capacity, staff training, and facilitating communication to facilitate strategies to reduce health and mental health disparities.

(E)Highlight and share evidence-based, evidence-informed, and community-based practices for reducing health and mental health disparities and inequities.

(F)Work with local public health departments, county mental health or behavioral health departments, local social services, and mental health agencies, and other local agencies that address key health determinants, including, but not limited to, housing, transportation, planning, education, parks, and economic development. The Office of Health Equity shall seek to link local efforts with statewide efforts.

(4)Consult with community-based organizations and local governmental agencies to ensure that community perspectives and input are included in policies and any strategic plans, recommendations, and implementation activities.

(5)Assist in coordinating projects funded by the state that pertain to increasing the health and mental health status of vulnerable communities.

(6)Provide consultation and technical assistance to state departments and other state and local agencies charged with providing or purchasing state-funded health and mental health care, in their respective missions to identify, analyze, and report disparities and to identify strategies to address health and mental health disparities.

(7)Provide information and assistance to state and local departments in coordinating projects within and across state departments that improve the effectiveness of public health and mental health services to vulnerable communities and that address community environments to promote health. This information shall identify unnecessary duplication of services.

(8)Communicate and disseminate information within the department and with other state departments to assist in developing strategies to improve the health and mental health status of persons in vulnerable communities and to share strategies that address the social and environmental determinants of health.

(9)Provide consultation and assistance to public and private entities that are attempting to create innovative responses to improve the health and mental health status of vulnerable communities.

(10)Seek additional resources, including in-kind assistance, federal funding, and foundation support.

(d)In identifying and developing recommendations for strategic plans, the Office of Health Equity shall, at a minimum, do all of the following:

(1)Conduct demographic analyses on health and mental health disparities and inequities. The report shall include, to the extent feasible, an analysis of the underlying conditions that contribute to health and well-being. The first report shall be due July 1, 2014. This information shall be updated periodically, but not less than every two years, and made available through public dissemination, including posting on the departmentsInternet Web site. The report shall be developed using primary and secondary sources of demographic information available to the office, including the work and data collected by the Health in All Policies Task Force. Primary sources of demographic information shall be collected contingent on the receipt of state, federal, or private funds for this purpose.

(2)Based on the availability of data, including valid data made available from secondary sources, the report described in paragraph (1) shall address the following key factors as they relate to health and mental health disparities and inequities:

(A)Income security such as living wage, earned income tax credit, and paid leave.

(B)Food security and nutrition such as food stamp eligibility and enrollment, assessments of food access, and rates of access to unhealthy food and beverages.

(C)Child development, education, and literacy rates, including opportunities for early childhood development and parenting support, rates of graduation compared to dropout rates, college attainment, and adult literacy.

(D)Housing, including access to affordable, safe, and healthy housing, housing near parks and with access to healthy foods, and housing that incorporates universal design and visitability features.

(E)Environmental quality, including exposure to toxins in the air, water, and soil.

(F)Accessible built environments that promote health and safety, including mixed-used land, active transportation such as improved pedestrian, bicycle, and automobile safety, parks and green space, and healthy school siting.

(G)Health care, including accessible disease management programs, access to affordable, quality health and behavioral health care, assessment of the health care workforce, and workforce diversity.

(H)Prevention efforts, including community-based education and availability of preventive services.

(I)Assessing ongoing discrimination and minority stressors against individuals and groups in vulnerable communities based upon race, gender, gender identity, gender expression, ethnicity, marital status, language, sexual orientation, disability, and other factors, such as discrimination that is based upon bias and negative attitudes of health professionals and providers.

(J)Neighborhood safety and collective efficacy, including rates of violence, increases or decreases in community cohesion, and collaborative efforts to improve the health and well-being of the community.

(K)The efforts of the Health in All Policies Task Force, including monitoring and identifying efforts to include health and equity in all sectors.

(L)Culturally appropriate and competent services and training in all sectors, including training to eliminate bias, discrimination, and mistreatment of persons in vulnerable communities.

(M)Linguistically appropriate and competent services and training in all sectors, including the availability of information in alternative formats such as large font, braille, and American Sign Language.

(N)Accessible, affordable, and appropriate mental health services.

(3)Consult regularly with representatives of vulnerable communities, including diverse racial, ethnic, cultural, and LGBTQQ communities, womenshealth advocates, mental health advocates, health and mental health providers, community-based organizations and advocates, academic institutions, local public health departments, local government entities, and low-income and vulnerable consumers.

(4)Consult regularly with the advisory committee established by subdivision (f) for input and updates on the policy recommendations, strategic plans, and status of cross-sectoral work.

(e)The Office of Health Equity shall be organized as follows:

(1)A Deputy Director shall be appointed by the Governor or the State Public Health Officer, and is subject to confirmation by the Senate. The salary for the Deputy Director shall be fixed in accordance with state law.

(2)The Deputy Director of the Office of Health Equity shall report to the State Public Health Officer and shall work closely with the Director of Health Care Services to ensure compliance with the requirements of the officesstrategic plans, policies, and implementation activities.

(f)The Office of Health Equity shall establish an advisory committee to advance the goals of the office and to actively participate in decisionmaking. The advisory committee shall be composed of representatives from applicable state agencies and departments, local health departments, community-based organizations working to advance health and mental health equity, vulnerable communities, and stakeholder communities that represent the diverse demographics of the state. The chair of the advisory committee shall be a

representative from a nonstate entity. The advisory committee shall be established by no later than October 1, 2013, and shall meet, at a minimum, on a quarterly basis. Subcommittees of this advisory committee may be formed as determined by the chair.

(g)An interagency agreement shall be established between the State Department of Public Health and the State Department of Health Care Services to outline the process by which the departments will jointly work to advance the mission of the Office of Health Equity, including responsibilities, scope of work, and necessary resources.

(Added by Stats. 2012, Ch. 23, Sec. 43. (AB 1467) Effective June 27, 2012.)

131020.

All officers or employees of the department employed after July 1, 2007, shall be appointed by the director.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131021.

(a)The Legislature finds that having access to a statewide stockpile of personal protective equipment in the event of a pandemic, wildfire smoke event, or other health emergency is vital to the health and safety of its health care and essential workers, as well as the general population, which both relies on this workforce and is susceptible to disease transmission should members of this workforce needlessly be infected with transmissible disease.

(b)The following definitions apply for purposes of this section:

(1)Department means the State Department of Public Health.

(2)Office means the Office of Emergency Services.

(3)Agricultural worker means a person employed in any of the following:

(A)An agricultural occupation, as defined in Wage Order No. 14 of the Industrial Welfare Commission.

(B)An industry preparing agricultural products for the market, on the farm, as defined in Wage Order No. 13 of the Industrial Welfare Commission.

(C)An industry handling products after harvest, as defined in Wage Order No. 8 of the Industrial Welfare Commission.

(4)Essential workers means primary and secondary school workers, workers at detention facilities, as defined in Section 9500 of the Penal Code, in-home support providers, childcare providers, government workers whose work with the public continues throughout the crisis, and workers in other positions that the State Public Health Officer or the Director of the Office of Emergency Services deems vital to public health and safety, as well as economic and national security, including, but not limited to, agricultural workers.

(5)Health care worker means any worker who provides direct patient care and services directly supporting patient care, including, but not limited, to physicians, pharmacists, clinicians, nurses, aides, technicians, janitorial and housekeeping staff, food services workers, and nonmanagerial administrative staff.

(6)Personal protective equipment or PPE means protective equipment for eyes, face, head, and extremities, protective clothing, respiratory devices, and protective shields and barriers, including, but not limited to, N95 and other filtering facepiece respirators, elastomeric air-purifying respirators with appropriate particulate filters or cartridges, powered air purifying respirators, disinfecting and sterilizing devices and supplies, medical gowns and apparel, face masks, surgical masks, face shields, gloves, shoe coverings, and the equipment identified by or otherwise necessary to comply with Section 5199 of Title 8 of the California Code of Regulations.

(7)Provider means a licensed clinic, as described in Chapter 1 (commencing with Section 1200), an outpatient setting, as described in Chapter 1.3 (commencing with Section 1248) of, a health facility as described in Chapter 2 (commencing with Section 1250) of, or a county medical facility, as described in Chapter 2.5 (commencing with Section 1440) of, Division 2, a home health agency, a physiciansoffice, a professional medical corporation, a medical partnership, a medical foundation, a rural health clinic, as defined in Section 1395x(aa)(2) of Title 42 of the United States Code, or a federally qualified health center, as defined in Section 1395x(aa)(4) of Title 42 of the United States Code, and any other entity that provides medical services in California.

(8)Stockpile means the personal protective equipment stockpile created pursuant to subdivision (c).

(c)Within one year of the effective date of this section, the department and office, in coordination with other state agencies, shall establish a PPE stockpile, upon appropriation and as necessary.

(d) The department shall also establish guidelines for procurement, management, and distribution of PPE from the department. The department and office shall consider the recommendations of the Personal Protective Equipment Advisory Committee created pursuant to subdivision (f) in developing these guidelines. At a minimum, the guidelines shall take into account all of the following:

(1)The various types of PPE that may be required during a pandemic or other health emergency, including, but not limited to, wildfire smoke events.

(2)The shelf life of each type of PPE that may be obtained from the department and how to restock a portion of each type of PPE to ensure the procurements consist of unexpired PPE.

(3)The amount of each type of PPE that would be required for all health care workers and essential workers in the state during a 90-day pandemic or other health emergency, including, but not limited to, wildfire smoke events.

(4)Lessons learned from previous pandemics and state emergencies, including, but not limited to, supply procurement, management, and distribution.

(5)Guidance on how to define essential workers based upon different hazards.

(6)Geographical distribution of PPE storage.

(7)Guidance on how to establish policies and standards for PPE surge capacity to ensure that workers have access to an adequate supply of PPE during a pandemic or other health emergency, including, but not

limited to, wildfire smoke events.

(8)The policies and funding that would be required for the state to establish a PPE stockpile.

(9)How distribution from any procurement shall be prioritized in the event that there is insufficient PPE to meet the needs of providers or employers of essential workers, including consideration of the following:

(A)The provider or employer is in a location with a high share of low-income residents.

(B)The provider or employer is in a medically underserved area, as designated by the United States Department of Health and Human Services, Health Resources and Services Administration.

(C)The provider or employer disproportionately serves a medically underserved population, as designated by the United States Department of Health and Human Services, Health Resources and Services Administration.

(D)The provider or employer is in a county with a high infection rate or high hospitalization rate related to the declared emergency.

(e)The development of the guidelines shall be informed by the recommendations of the Personal Protective Equipment Advisory Committee pursuant to subdivision (f). The guidelines shall not establish policies or standards that are less protective or prescriptive than any federal, state, or local law on PPE standards.

(f)The Personal Protective Equipment Advisory Committee is hereby established. The advisory committee shall consist of the following:

(1)One representative of an association representing multiple types of hospitals and health systems.

(2)One representative of an association representing skilled nursing facilities.

(3)One representative of an association representing primary care clinics.

(4)One representative of a statewide association representing physicians.

(5)Two representatives of labor organizations that represent health care workers.

(6)Two representatives of labor organizations that represent nonagricultural essential workers, as defined by paragraph (4) of subdivision (b).

(7)One representative of a labor organization that represents agricultural workers, as defined by paragraph (3) of subdivision (b).

(8)One representative of an organization that represents agricultural employers.

(9)One representative from the personal protective equipment manufacturing industry.

(10)One consumer representative.

(11)One representative from an association representing counties.

(12)One representative from the State Department of Public Health.

(13)One representative from the Office of Emergency Services.

(14)One representative from the Emergency Medical Services Authority.

(15)One representative from the State Department of Social Services.

(g)The Director of the Office of Emergency Services or their designee shall appoint the representatives from paragraphs (1) through (11), inclusive, of subdivision (f).

(h)The Personal Protective Equipment Advisory Committee shall make recommendations to the office and department necessary to develop the guidelines required pursuant to subdivision (d).

(i)Nothing in this section alters an employersduty to provide respirators as required by Section 5141.1 of Title 8 of the California Code of Regulations.

(j)The department shall report to the Legislature, within six months of the effective date of the amendments to this section made by the act adding this subdivision, with regard to the amount of PPE in the stockpile, the amount of PPE from the stockpile that has been used, and the amount of anticipated future usage. The report shall be made pursuant to Section 9795 of the Government Code.

(Amended by Stats. 2021, Ch. 322, Sec. 1. (AB 73) Effective September 27, 2021.)

__Health and Safety Code - HSC__

__DIVISION 112. PUBLIC HEALTH [131000 - 131355]__

(Division 112 added by Stats. 2006, Ch. 241, Sec. 34.)

__PART 1. GENERAL PROVISIONS [131000 - 131355]__

(Part 1 added by Stats. 2006, Ch. 241, Sec. 34.)

__CHAPTER 2. General Powers of the Department [131050 - 131231]__

(Chapter 2 added by Stats. 2006, Ch. 241, Sec. 34.)

__ARTICLE 1. General Provisions [131050 - 131135]__

(Article 1 added by Stats. 2006, Ch. 241, Sec. 34.)

131050.

(a)As set forth in this article, the State Department of Public Health shall succeed to and be vested with all the duties, powers, purposes, functions, responsibilities, and jurisdiction of the former State Department of Health Services as they relate to public health, licensing and certification of health facilities, and any other functions performed immediately preceding the operative date of this section by, or under the supervision of, all of the following:

(1)The Deputy Director for Prevention Services of the former State Department of Health Services, excluding the Office of Clinical Preventive Medicine.

(2)The Deputy Director for Licensing and Certification.

(3)The Deputy Director for Health Information and Strategic Planning.

(4)The Deputy Director for Public Health Emergency Preparedness.

(5)The California Conference of Local Health Officers.

(6)The Deputy Director for Primary Care and Family Health as follows: Maternal, Child and Adolescent Health as set forth in Part 2 excluding Articles 5, 5.5, 6, and 6.5 of Chapter 3, Part 3, Part 5 excluding Articles 1 and 2 of Chapter 2, Part 7 and Part 8, of Division 106.

(b)It is the intent of the Legislature that, in implementing this article, the duties, powers, purposes, and responsibilities transferred to the State Department of Public Health shall include those formerly performed by the programs of the former State Department of Health Services set forth in this article, provided, however, that nothing in this article shall be construed to require that the State Department of Public Health be organized according to programs described in this article, or to limit the authority or discretion of the State Public Health Officer pursuant to Section 11152 of the Government Code to organize the State Department of Public Health, unless that organization is otherwise required by law. Nothing in this article shall be construed to require that the State Department of Public Health maintain, or refrain from

terminating, any program described in this article except to the extent that maintenance of the program is otherwise required by law. Nothing in this article shall be construed to limit or expand the authority of any program described in this article.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131051.

The duties, powers, functions, jurisdiction, and responsibilities transferred to the State Department of Public Health shall, pursuant to the act that added this section, include all of the following previously performed by the former State Department of Health Services:

(a)Under the jurisdiction of the Deputy Director for Prevention Services:

(1)The Office of AIDS, including but not limited to:

(A)The AIDS Drug Assistance Program (Chapter 6 (commencing with Section 120950) of Part 4 of Division 105).

(B)The AIDS Early Intervention Program (Chapter 4 (commencing with Section 120900) of Part 4 of Division 105).

(C)The CARE Services Program, provided for pursuant to the federal Ryan White CARE Act, 42 U.S.C. Section 300ff.

(D)The CARE/Health Insurance Premium Payment Program (federal Ryan White CARE Act, 42 U.S.C. Sec. 300ff).

(E)The Housing Opportunities for Persons with AIDS Program (Section 100119).

(F)The Residential AIDS Licensed Facilities Program (former Section 100119; Chapter 2 (commencing with Section 120815) of Part 4 of Division 105).

(G)The AIDS Case Management Program (federal Ryan White CARE Act, 42 U.S.C. Sec. 300ff; Chapter 2 (commencing with Section 120815) of Part 4 of Division 105).

(H)The AIDS Medi-Cal Waiver Program (former Section 100119; 42 U.S.C. Sec. 1396n(c)).

(I)The Bridge Project (former Section 100119).

(J)The HIV Therapeutic Monitoring Program (Chapter 16 (commencing with Section 121345) of Part 4 of Division 105).

(K)The Learning Immune Function Enhancement program (former Section 100119).

(L)The San Ysidro Prevention Project (Section 113019).

(M)The California Statewide Treatment Education Program (former Section 100119).

(N)The HIV Counseling and Testing Program (Section 113019).

(O)The Neighborhood Intervention Geared Toward High-Risk Testing program (former Section 100119).

(P)The Perinatal Transmission Prevention Project (Section 113019).

(Q)The California AIDS Clearinghouse (Section 113019).

(R)The California Disclosure Assistance and Partner Services/Partner Counseling and Referral Services (Section 113019).

(S)The African-American HIV Initiative (Section 113019; Chapter 13.7 (commencing with Section 120290) of Part 4 of Division 105).

(T)The Injection Drug User HIV Testing Utilizing Hepatitis C Testing High-Risk Initiative (Section 113019).

(U)The Prevention with Positives High-Risk Initiative (Section 113019).

(V)The Statewide Technical Assistance Initiatives (Section 113019).

(W)The HIV/AIDS Case Registry (Sections 113019, 120125, and 120130).

(2)The Office of Binational Border Health, including, but not limited to, all of the following:

(A)The California-Mexico Health Initiative (Part 3 (commencing with Section 475) of Division 1).

(B)The Early Warning Infectious Disease Surveillance Program (Chapter 2 (commencing with Section 1250) of Division 2; Chapter 2 (commencing with Section 120130) of Part 1 of Division 105).

(3)The Division of Communicable Disease Control, including, but not limited to, all of the following:

(A)The Infant Botulism Treatment and Prevention Program (Article 2.5 (commencing with Section 123700) of Chapter 3 of Part 2 of Division 106).

(B)The Sexually Transmitted Disease Control Program (Part 3 (commencing with Section 120500) of Division 105).

(C)The Infectious Disease Program (Chapter 2 (commencing with Section 120130) of Part 1 of Division 105).

(D)The Bioterrorism Epidemiology Program.

(E)The Vector Borne Disease (Part 11 (commencing with Section 116100) of Division 104).

(F)The Tuberculosis Control Program (Part 5 (commencing with Section 121350) of Division 105).

(G)The Microbial Diseases Laboratory (Chapter 2 (commencing with Section 100250) of Division 101).

(H)The Viral and Rickettsial Disease Laboratory (Chapter 2 (commencing with Section 100250) of Division 101).

(I)The West Nile Human Surveillance Program (Chapter 2 (commencing with Section 116110) of Part 11 of Division 104).

(J)The Immunization Program (Part 2 (commencing with Section 120325) of Division 105).

(K)The Vaccines for Children Program (Part 2 (commencing with Section 120325) of Division 105).

(4)The Division of Chronic Disease and Injury Control, including, but not limited to, all of the following:

(A)The IMPACT Prostate Cancer Treatment Program (Chapter 7 (commencing with Section 104322) of Part 1 of Division 103), until June 30, 2012. Commencing July 1, 2012, the duties, powers, functions, jurisdiction, and responsibilities of the State Department of Public Health regarding this program are hereby with the State Department of Health Care Services.

(B)The Every Woman Counts program (Breast and Cervical Cancer Screening Program) (Article 1.3 (commencing with Section 104150) of Chapter 2 of Part 1 of Division 103; Section 30461.6 of the Revenue and Taxation Code), until June 30, 2012. Commencing July 1, 2012, the duties, powers, functions, jurisdiction, and responsibilities of the State Department of Public Health regarding this program are hereby with the State Department of Health Care Services.

(C)The Well-Integrated Screening and Evaluation for Women Across the Nation Demonstration Project (Article 1.3 (commencing with Section 104150) of Chapter 2 of Part 1 of Division 103).

(D)The California Nutrition Network (Chapter 2 (commencing with Section 104575) of Part 3 of Division 103).

(E)The Cancer Research Program (Article 2 (commencing with Section 104175) of Chapter 2 of Part 1 of Division 103).

(F)The Translational Cancer Research and Technology Transfer Program (Article 2 (commencing with Section 104175) of Chapter 2 of Part 1 of Division 103).

(G)The Ken Maddy California Cancer Registry (Chapter 2 (commencing with Section 103875) of Part 2 of Division 102).

(H)The California Osteoporosis Prevention and Education Program (Chapter 1 (commencing with Section 125700) of Part 8 of Division 106).

(I)The Preventive Health Care for the Aging Program (Part 4 (commencing with Section 104900) of Division 103).

(J)The California Arthritis Prevention Program (former Section 100185).

(K)The Office of Oral Health (Chapter 3 (commencing with Section 104750) of Part 3 of Division 103).

(L)The ChildrensDental Disease Prevention Program (Article 3 (commencing with Section 104770) of Chapter 3 of Part 3 of Division 103).

(M)The Community Water Fluoridation Program (Article 3.5 (commencing with Section 116409) of Chapter 4 of Part 12 of Division 104).

(N)The California Asthma Public Health Initiative (Chapter 6.5 (commencing with Section 104316) of Part 1 of

Division 103).

(O)The California Obesity Prevention Initiative (Chapter 2 (commencing with Section 104575) of Part 3 of Division 103).

(P)The School Health Connections program (Chapter 2 (commencing with Section 104575) of Part 3 of Division 103).

(Q)The California Project LEAN (Chapter 2 (commencing with Section 104575) of Part 3 of Division 103).

(R)The California Center for Physical Activity (Section 131085).

(S)The California Diabetes Program (Section 131085).

(T)The Preventive Medicine Residency Program (Section 131090).

(U)The California Epidemiologic Investigation Service (Article 4 (commencing with Section 100325) of Chapter 2 of Part 1 of Division 101).

(V)The Continuing Professional Education Program (Section 131090).

(W)The Injury Surveillance and Epidemiology Program (Part 2 (commencing with Section 104325) of Division 103).

(X)The State and Local Injury Control Program (Chapter 1 (commencing with Section 104325) of Part 2 of Division 103).

(Y)The Office on Disability and Health (former Section 100185).

(Z)The AlzheimersDisease Program (Article 4 (commencing with Section 125275) of Chapter 2 of Part 5 of Division 106).

(AA)The California Tobacco Control Program (Chapter 1 (commencing with Section 104350) of Part 3 of Division 103).

(5)The Division of Drinking Water and Environmental Management, including, but not limited to, all of the following:

(A)The Medical Waste Management Program (Part 14 (commencing with Section 117600) of Division 104).

(B)The Department of Defense Oversight Program (Radiologic Guidance and Approvals) (Part 9 (commencing with Section 114650) of Division 104).

(C)The Nuclear Emergency Response Program (Part 9 (commencing with Section 114650) of Division 104).

(D)The Institutions Program (Environmental Surveys) (Article 5 (commencing with Section 116025) of Chapter 5 of Part 10 of Division 104).

(E)The Drinking Water Field Management program (Chapter 4 (commencing with Section 116270) of Part 12 of Division 104).

(F)The Environmental Health Specialist Registration Program (Article 1 (commencing with Section 106600) of Chapter 4 of Part 1 of Division 104).

(G)The Sanitation and Radiation Laboratory (Article 2 (commencing with Section 100250) of Chapter 2 of Part 1 of Division 101); Chapter 4 (commencing with Section 116270) of Part 12 of Division 104).

(H)The Radon Program (Chapter 7 (commencing with Section 105400) of Part 5 of Division 103; Chapter 4 (commencing with Section 116270) of Part 12, and Article 2 (commencing with Section 106750) of Chapter 4 of Part 1, of Division 104).

(I)The Shellfish Sanitation Program (Chapter 5 (commencing with Section 112150) of Part 6 of Division 104).

(J)The Ocean Beach Safety Programs (Article 2 (commencing with Section 115875) of Chapter 5 of Part 10 of Division 104).

(K)The Bioterrorism Planning and Response for Drinking Water, Medical Waste, and Environmental Health program (Article 6 (commencing with Section 101315) of Chapter 3 of Part 3 of Division 101).

(L)The Safe Drinking Water State Revolving Fund (Chapter 4.5 (commencing with Section 116760) of Part 12 of Division 104).

(M)The Drinking Water Technical Programs (Chapter 4 (commencing with Section 16270) of Part 12 of Division 104; Chapter 4.5 (commencing with Section 116760) of Part 12 of Division 104; Article 3 (commencing with Section 106875) of Chapter 4 of Part 1 of Division 104; Chapter 5 (commencing with Section 116775) of Part 12 of Division 104; Chapter 5 (commencing with Section 115825) of Part 10 of Division 104; Chapter 7 (commencing with Section 13500) of Division 7 of the Water Code; Section 13411 of the Water Code).

(N)The Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 (Proposition 50) (Division 26.5 (commencing with Section 79500) of the Water Code).

(6)The Division of Environmental and Occupational Disease Control, including, but not limited to, all of the following:

(A)The California Birth Defect Monitoring Program (Chapter 1 (commencing with Section 103825) of Part 2 of Division 102).

(B)The Childhood Lead Poisoning Prevention Program (Chapter 5 (commencing with Section 105275) of Part 5 of Division 103; Article 7 (commencing with Section 124125) of Chapter 3 of Part 2 of Division 106).

(C)The Lead Related Construction Program (Chapter 4 (commencing with Section 105250) of Part 5 of Division 103).

(D)The Epidemiology Studies Laboratory (Sections 25416, former Section 100170, Section 100325, and Section 104324.25).

(E)The Center for Autism and Developmental Disabilities Research and Epidemiology (former Section 100170).

(F)The Cancer Cluster/Environmental Investigations (former Section 100170).

(G)The Toxic Mold Program (Chapter 18 (commencing with Section 26100) of Division 20).

(H)The Federal Agency for Toxic Substances and Disease Registry Health Assessments, Education and Investigations program (former Section 100170).

(I)The Fish Contamination Outreach and Education program (former Section 100170).

(J)The Air Pollution and Cardiovascular Disease in the California Teachers Study Cohort Project (former Section 100170).

(K)The Delta Watershed Fish Project (outreach, education, and training to reduce exposures to mercury in fish) (former Section 100170).

(L)The Environmental Health Laboratory (former Section 100170; Article 2 (commencing with Section 100250) of Chapter 2 of Part 1 of Division 101).

(M)The Indoor Air Quality program (Chapter 7 (commencing with Section 105400) of Part 5 of Division 103).

(N)The Outdoor Air Quality program (Section 60.9 of the Labor Code).

(O)The Laboratory Response Network for Chemical Terrorism program (former Section 100170; Article 2 (commencing with Section 100250) of Chapter 2 of Part 1 of Division 101).

(P)The Air Quality and Human Monitoring Support Program (former Section 100170).

(Q)The Hazard Evaluation System and Information Service Program (Article 1 (commencing with Section 105175) of Chapter 2 of Part 5 of Division 103; Section 147.2 of the Labor Code).

(R)The Occupational Health Surveillance and Evaluation Program (Article 1 (commencing with Section 105175) of Chapter 2 of Part 5 of Division 103).

(S)The Occupational Lead Poisoning Prevention Program (Article 2 (commencing with Section 105185) of Chapter 2 of Part 5 of Division 103).

(T)The Occupational Blood Lead Registry (Article 2 (commencing with Section 105185) of Chapter 2 of Part 5 of Division 103).

(7)The Division of Food, Drug and Radiation Safety, including, but not limited to, all of the following:

(A)The Drug Licensing Program (Article 6 (commencing with Section 111615) of Chapter 6 of Part 5 of Division 104).

(B)The Consumer Product Safety Program (Part 3 (commencing with Section 108100) of Division 104).

(C)The Export Program (Article 2 (commencing with Section 110190) of Chapter 2 of Part 5 of Division 104).

(D)The Food Safety Inspection Program (Part 5 (commencing with Section 109875) and Part 6 (commencing with Section 111940) of Division 104).

(E)The Foodborne Illness and Tampering Emergency Response Program (Part 5 (commencing with Section 109875) of Division 104).

(F)The Retail Food Safety Program (Part 7 (commencing with Section 113700) of Division 104).

(G)The Food Safety Industry Education and Training Program (pursuant to Section 110485).

(H)The Medical Device Licensing Program (Article 6 (commencing with Section 111615) of Chapter 6 of Part 5 of Division 104).

(I)The Medical Device Safety Program (Part 5 (commencing with Section 109875) of Division 104).

(J)The Stop Tobacco Access to Kids Enforcement Program (STAKE) (Division 8.5 (commencing with Section 22950) of the Business and Professions Code).

(K)The Food and Drug Laboratory (Chapter 2 (commencing with Section 100250) of Division 101).

(L)The Drug Safety Program (Part 4 (commencing with Section 109250) and Part 5 (commencing with Section 109875) of Division 104).

(M)The General Food Safety Program (Part 5 (commencing with Section 109875) and Part 6 (commencing with Section 111940) of Division 104).

(N)The Food Testing Program (Chapter 2 (commencing with Section 100250) of Division 101).

(O)The Forensic Alcohol Testing Program (Article 2 (commencing with Section 100700) of Chapter 4 of Part 1 of Division 101).

(P)The Methadone Laboratory Regulating Program (Article 2 (commencing with Section 11839.23) of Chapter 10 of Part 2 of Division 10.5).

(Q)The Radiologic Health Program (Part 9 (commencing with Section 114650) of Division 104).

(R)The Mammography Program (Chapter 6 (commencing with Section 114840) of Part 9 of Division 104).

(S)The Radioactive Materials Licensing and Inspection Program (Chapter 8 (commencing with Section 114960) of Part 9 of Division 104).

(T)The Radiological Technologist Certification Program (Article 5 (commencing with Section 106955) of Part 1, and Article 3 (commencing with Section 114855) of Chapter 6 of Part 9 of Division 104).

(U)The Radioactive Waste Tracking Program (Chapter 8 (commencing with Section 114960) of Part 9 of Division 104).

(V)The Radioactive Waste Minimization Program (Chapter 8 (commencing with Section 114960) of Part 9 of Division 104).

(W)The Low Level Radioactive Waste Management, Treatment and Disposal Program (Chapter 8 (commencing with Section 114960) of Part 9 of Division 104).

(X)The Statewide Environmental Radiation Monitoring Program (pursuant to Section 114755).

(Y)The Department of Energy Oversight Program (Part 9 (commencing with Section 114650) of Division 104).

(Z)The X-Ray Machine Inspection and Registration and Mammography Quality Standards Act Inspection Program (Article 5 (commencing with Section 106955) of Part 1, and Article 3 (commencing with Section 114855) of Chapter 6 of Part 9 of Division 104).

(8)The Deputy Director for Laboratory Science, including, but not limited to, all of the following:

(A)The Environmental Laboratory Accreditation Program (Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101).

(B)The Laboratory Central Services Program (Article 2 (commencing with Section 100250) of Chapter 2 of Part 1 of Division 101).

(C)The National Laboratory Training Network (Section 131085).

(D)The Laboratory Field Services program (Chapter 3 (commencing with Section 1200) of Division 2 of the Business and Professions Code).

(b)Under the jurisdiction of the Deputy Director for Licensing and Certification:

(1)The General Acute Care Hospitals Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(2)The Acute Psychiatric Hospitals Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(3)The Special Hospitals Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(4)The Chemical Dependency Recovery Hospitals Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(5)The Skilled Nursing Facilities Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(6)The Intermediate Care Facilities Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(7)The Intermediate Care Facilities-Developmentally Disabled Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(8)The Intermediate Care Facilities-Developmentally Disabled-Habilitative Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(9)The Intermediate Care Facility-Developmentally Disabled-Nursing Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(10)The Home Health Agencies Licensing Program (Chapter 8 (commencing with Section 1725) of Division 2).

(11)The Referral Agencies Licensing Program (Chapter 2.3 (commencing with Section 1400) of Division 2).

(12)The Adult Day Health Centers Licensing Program (Chapter 3.3 (commencing with Section 1570) of Division 2).

(13)The Congregate Living Health Facilities (Chapter 2 (commencing with Section 1250) of Division 2).

(14)The Psychology Clinics Licensing Program (Chapter 1 (commencing with Section 1200) of Division 2).

(15)The Primary Clinics"Community and Free Licensing Program (Chapter 1 (commencing with Section 1200) of Division 2).

(16)The Specialty Clinics"Rehab Clinics Licensing Program (Chapter 1 (commencing with Section 1200) of Division 2).

(17)The Dialysis Clinics Licensing Program (Chapter 1 (commencing with Section 1200) of Division 2).

(18)The Pediatric Day Health/Respite Care Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(19)The Alternative Birthing Centers Licensing Program (Chapter 1 (commencing with Section 1200) of Division 2).

(20)The Hospice Licensing Program (Chapter 2 (commencing with Section 1339.30) of Division 2).

(21)The Correctional Treatment Centers Licensing Program (Chapter 2 (commencing with Section 1250) of Division 2).

(22)The Medicare/Medi-Cal Certification Program (Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code).

(23)The Nursing Home Administrator Professional Certification Program (Chapter 2.35 (commencing with Section 1416) of Division 2).

(24)The Certified Nursing Assistants Professional Certification Program (Chapter 2 (commencing with Section 1337) of Division 2).

(25)The Home Health Aides Professional Certification Program (Chapter 8 (commencing with Section 1725) of Division 2).

(26)The Hemodialysis Technicians Professional Certification Program (Chapter 3 (commencing with Section 1247) of Division 2 of the Business and Professions Code; Chapter 10 (commencing with Section 1794) of Division 2).

(27)The Criminal Background Clearance Program (Chapter 2 (commencing with Section 1337), Chapter 3 (commencing with Section 1520), Chapter 3.01 (commencing with Section 1569.15), Chapter 3.4 (commencing with Section 1496.80) of Division 2, and Chapter 4 (commencing with Section 11150) of Division 8).

(c)Under the jurisdiction of the Deputy Director for Health Information and Strategic Planning:

(1)The Refugee Health Program (Subpart G of Part 400 of Title 45 of the Code of Federal Regulations).

(2)The Office of County Health Services (Article 5 (commencing with Section 101300) of Chapter 3 of Part 3 of Division 101; Part 4.7 (commencing with Section 16900) of Division 9 of the Welfare and Institutions

Code).

(3)The Medically Indigent Services Program (Article 5 (commencing with Section 101300) of Chapter 3 of Part 3 of Division 101).

(4)The Office of Vital Records (Part 1 (commencing with Section 102100) of Division 102).

(5)The Office of Health Information and Research (Article 1 (commencing with Section 102175) of Chapter 2 of Part 1 of Division 102; Section 128730).

(6)The Local Public Health Services Program (Article 5 (commencing with Section 101300) of Chapter 3 of Part 3 of Division 101).

(7)The Center for Health Statistics (Part 1 (commencing with Section 102100) of Division 102; Section 128730).

(8)The Medical Marijuana Program (Article 2.5 (commencing with Section 11362.7) of Chapter 6 of Division 10 of the Health and Safety Code).

(d)Under the jurisdiction of the Deputy Director for Primary Care and Family Health:

(1)The Maternal, Child and Adolescent Health program (Part 2 (commencing with Section 123225) of Division 106).

(2)The Adolescent Family Life Program (Article 1 (commencing with Section 124175) of Chapter 4 of Part 2 of Division 106).

(3)The Advanced Practice Nurse Training program (Part 2 (commencing with Section 123225) of Division 106).

(4)The Black Infant Health Program (Part 2 (commencing with Section 123225) of Division 106).

(5)The Breastfeeding Program (Article 3 (commencing with Section 123360) of Chapter 1 of Part 2 of Division 6).

(6)The California Diabetes and Pregnancy Program (Part 2 (commencing with Section 123225) of Division 106).

(7)The California Initiative to Improve Adolescent Health (Part 2 (commencing with Section 123225) of Division 106).

(8)The Childhood Injury Prevention Program (Article 4 (commencing with Section 100325) of Chapter 2 of Division 101).

(9)The Comprehensive Perinatal Services Program (Article 3 (commencing with Section 123475) of Chapter 2 of Part 2; Section 14134.5 of the Welfare and Institutions Code).

(10)The Fetal and Infant Mortality Review Program (Article 1 (commencing with Section 123650) of Chapter 3 of Part 2 of Division 106).

(11)The Human Stem Cell Research Program (Chapter 3 (commencing with Section 125290.10) of Part 5 of

Division 106; Chapter 1 (commencing with Section 125300) of Part 5.5 of Division 106).

(12)The Local Health Department Maternal, Child and Adolescent Health Program (Section 123255).

(13)The Maternal Mortality Review Program (Article 4 (commencing with Section 100325) of Chapter 2 of Division 101).

(14)The Oral Health Program (Part 2 (commencing with Section 123225) of Division 106).

(15)The Preconception Health and Health Care Initiative (Part 2 (commencing with Section 123225) of Division 106).

(16)The Regional Perinatal Programs of California (Article 4 (commencing with Section 123550) of Chapter 2 of Part 2 of Division 106).

(17)The Perinatal Dispatch Centers Outreach and Education Program (Article 4 (commencing with Section 123750) of Chapter 3 of Part 2 of Division 106).

(18)The State Early Childhood Comprehensive Services program (Part 2 (commencing with Section 123225) of Division 106).

(19)The Sudden Infant Death Syndrome Program (Article 3 (commencing with Section 123725) of Chapter 3 of Part 2 of Division 106).

(20)The Youth Pilot Program (Chapter 12.85 (commencing with Section 18987) of Part 6 of Division 9 of the Welfare and Institutions Code).

(21)The Office of Family Planning (Chapter 8.5 (commencing with Section 14500) of Part 3 of Division 9 of the Welfare and Institutions Code; Division 24 (commencing with Section 24000) of the Welfare and Institutions Code), until June 30, 2012. Commencing July 1, 2012, the duties, powers, functions, jurisdiction, and responsibilities of the State Department of Public Health regarding this office are hereby with the State Department of Health Care Services.

(22)The Community Challenge Grant Program (Section 14504.1 of the Welfare and Institutions Code, and Chapter 14 (commencing with Section 18993) of Part 6 of Division 9 of the Welfare and Institutions Code).

(23)The Information and Education Program (Section 14504.3 of the Welfare and Institutions Code).

(24)The Family PACT Program (subdivision (aa) of Section 14132 and Section 24005 of the Welfare and Institutions Code), until June 30, 2012. Commencing July 1, 2012, the duties, powers, functions, jurisdiction, and responsibilities of the State Department of Public Health regarding this program are hereby with the State Department of Health Care Services.

(25)The Male Involvement Program (Section 14504 of the Welfare and Institutions Code).

(26)The TeenSMART Outreach Program (Section 14504.2 of the Welfare and Institutions Code).

(27)The Battered Women Shelter Program (Chapter 6 (commencing with Section 124250) of Part 2 of Division 106).

(28)The Women, Infants and Children Program (Article 1 (commencing with Section 123275) of Chapter 1 of

Part 2 of Division 106).

(29)The WIC Supplemental Nutrition Program (Article 1 (commencing with Section 123275) of Chapter 1 of Part 2 of Division 106).

(30)The Farmers Market Nutrition Program (Section 123279).

(31)Genetic Disease Program (Chapter 1 (commencing with Section 124975) of Part 5 of Division 106).

(32)The Newborn Screening Program (Chapter 1 (commencing with Section 124975) of Part 5 of Division 106).

(33)The Prenatal Screening Program (Chapter 1 (commencing with Section 124975) of Part 5 of Division 106).

(Amended by Stats. 2012, Ch. 23, Sec. 44. (AB 1467) Effective June 27, 2012.)

131052.

In implementing the transfer of jurisdiction pursuant to this article, the State Department of Public Health succeeds to and is vested with all the statutory duties, powers, purposes, responsibilities, and jurisdiction of the former State Department of Health Services as they relate to public health as provided for or referred to in all of the following provisions of law:

(1)Sections 550, 555, 650, 680, 1241, 1658, 2221.1, 2248.5, 2249, 2259, 2259.5, 2541.3, 2585, 2728, 3527, 4017, 4027, 4037, 4191, 19059.5, 19120, 22950, 22973.2, and 22974.8 of the Business and Professions Code.

(2)Sections 56.17, 1812.508, and 1812.543 of the Civil Code.

(3)Sections 8286, 8803, 17613, 32064, 32065, 32066, 32241, 49030, 49405, 49414, 49423.5, 49452.6, 49460, 49464, 49531.1, 56836.165, and 76403 of the Education Code.

(4)Sections 405, 6021, 6026, 18963, 30852, 41302, and 78486 of the Food and Agricultural Code.

(5)Sections 307, 355, 422, 7572, 7574, 8706, 8817, and 8909 of the Family Code.

(6)Sections 1786, 4011, 5523, 5671, 5674, 5700, 5701, 5701.5, 7115, and 15700 of the Fish and Game Code.

(7)Sections 855, 51010, and 551017.1 of the Government Code.

(8)(A)Sections 475, 1180.6, 1418.1, 1422.1, 1428.2, 1457, 1505, 1507.1, 1507.5, 1570.7, 1599.2, 1599.60, 1599.75, 1599.87, 2002, 2804, 11362.7, 11776, 11839.21, 11839.23, 11839.24, 11839.25, 11839.26, 11839.27, 11839.28, 11839.29, 11839.30, 11839.31, 11839.32, 11839.33, 11839.34, 17920.10, 17961, 18897.2, 24185, 24186, 24187, 24275, 26101, 26122, 26134, 26155, 26200, and 26203.

(B)Chapters 1, 2, 2.05, 2.3, 2.35, 2.4, 3.3, 3.9, 3.93, 3.95, 4, 4.1, 4.5, 5, 6, 6.5, 8, 8.3, 8.5, 8.6, 9, and 11 of Division 2.

(C)Articles 2 and 4 of Chapter 2, Chapter 3, and Chapter 4 of Part 1, Part 2, and Part 3 of Division 101.

(D)Division 102, including Sections 102230 and 102231.

(E)Division 103, including Sections 104145, 104181, 104182, 104182.5, 104187, 104191, 104192, 104193, 104316, 104317, 104318, 104319, 104320, 104321, 104324.2, 104324.25, 104350, 105191, 105251, 105255, 105280, 105340, and 105430.

(F)Division 104, including Sections 106615, 106675, 106770, 108115, 108855, 109282, 109910, 109915, 112155, 112500, 112650, 113355, 114460, 114475, 114650, 114710, 114850, 114855, 114985, 115061, 115261, 115340, 115736, 115880, 115885, 115915, 116064, 116183, 116270, 116365.5, 116366, 116375, 116610, 116751, 116760.20, 116825, 117100, 117924, and 119300.

(G)Division 105, including Sections 120262, 120381, 120395, 120440, 120480, 120956, 120966, 121155, 121285, 121340, 121349.1, 121480, 122410, and 122420.

(H)Part 1, Part 2 excluding Articles 5, 5.5, 6, and 6.5 of Chapter 3, Part 3 and Part 5 excluding Articles 1 and 2 of Chapter 2, Part 7, and Part 8 of Division 106.

(9)Sections 799.03, 10123.35, 10123.5, 10123.55, 10123.10, 10123.184, and 11520 of the Insurance Code.

(10)Sections 50.8, 142.3, 144.5, 144.7, 147.2, 4600.6, 6307.1, 6359, 6712, 9009, and 9022 of the Labor Code.

(11)Sections 4018.1, 5008.1, 7501, 7502, 7510, 7511, 7515, 7518, 7530, 7550, 7553, 7575, 7576, 11010, 11174.34, and 13990 of the Penal Code.

(12)Section 4806 of the Probate Code.

(13)Sections 15027, 25912, 28004, 30950, 41781.1, 42830, 43210, 43308, 44103, and 71081 of the Public Resources Code.

(14)Section 10405 of the Public Contract Code.

(15)Sections 883, 1507, and 7718 of the Public Utilities Code.

(16)Sections 18833, 18838, 18845.2, 18846.2, 18847.2, 18863, 30461.6, 43010.1, and 43011.1 of the Revenue and Taxation Code.

(17)Section 11020 of the Unemployment Insurance Code.

(18)Sections 22511.55, 23158, 27366, and 33000 of the Vehicle Code.

(19)Sections 5326.9, 5328, 5328.15, 14132, 16902, and 16909, and Division 24 of the Welfare and Institutions Code. Payment for services provided under the Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program pursuant to subdivision (aa) of Section 14132 and Division 24 shall be made through the State Department of Health Care Services. The State Department of Public Health and the State Department of Health Care Services may enter into an interagency agreement for the administration of those payments. This paragraph, to the extent that it applies to the Family PACT Waiver Program, shall become inoperative on June 30, 2012.

(20)Sections 13176, 13177.5, 13178, 13193, 13390, 13392, 13392.5, 13393.5, 13395.5, 13396.7, 13521, 13522, 13523, 13528, 13529, 13529.2, 13550, 13552.4, 13552.8, 13553, 13553.1, 13554, 13554.2, 13816, 13819, 13820, 13823, 13824, 13825, 13827, 13830, 13834, 13835, 13836, 13837, 13858, 13861, 13862, 13864, 13868,

13868.1, 13868.3, 13868.5, 13882, 13885, 13886, 13887, 13891, 13892, 13895.1, 13895.6, 13895.9, 13896, 13896.3, 13896.4, 13896.5, 13897, 13897.4, 13897.5, 13897.6, 13898, 14011, 14012, 14015, 14016, 14017, 14019, 14022, 14025, 14026, 14027, and 14029 of the Water Code.

(Amended by Stats. 2022, Ch. 28, Sec. 115. (SB 1380) Effective January 1, 2023.)

131052.5.

Commencing July 1, 2022, the Office of Community Partnerships and Strategic Communications, an office within the Office of Planning and Research in the Office of the Governor, succeeds to, and is vested with, all the duties and responsibilities of the State Department of Public Health related to the administration or implementation of the COVID-19 vaccine-related public education and outreach campaigns in the manner described in Section 65052.7 of the Government Code.

(Added by Stats. 2022, Ch. 48, Sec. 57. (SB 189) Effective June 30, 2022.)

131053.

In the event of any conflict between Sections 131050, 131051, and 131052, Section 131052 shall prevail over Section 131051, and Section 131050 shall prevail over Sections 131051 and 131052.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131055.

(a)All regulations and orders adopted by the former State Department of Health Services and any of its predecessors in effect immediately preceding the operative date of this section shall remain in effect and shall be fully enforceable unless and until readopted, amended, or repealed, or until they expire by their own terms. Any action by or against the former State Department of Health Services or any of its predecessors pertaining to matters vested in the State Department of Public Health by this chapter shall not abate but shall continue in the name of the State Department of Public Health, and the State Department of Public Health shall be substituted for the former State Department of Health Services and any of its predecessors by the court wherein the action is pending. The substitution shall not in any way affect the rights of the parties to the action.

(b)On and after the operative date of this section, the unexpended balance of all funds available for use by the former State Department of Health Services or any of its predecessors in carrying out any functions transferred to the State Department of Public Health shall be available for use by the State Department of Public Health.

(c)All books, documents, records, and property of the former State Department of Health Services pertaining to functions transferred to the Department of Public Health shall be transferred to the State Department of Public Health.

(d)On and after the operative date of this section, positions other than that of the State Public Health Officer and the Chief Deputy filled by appointment by the Governor in the former State Department of Health Services whose principal assignment was to perform functions transferred to the State Department of Public Health shall be transferred to the State Department of Public Health. Individuals in positions transferred pursuant to this section shall serve at the pleasure of the Governor. Salaries of positions transferred shall remain at the level established pursuant to law unless otherwise provided.

(e)Every officer and employee of the former State Department of Health Services who is performing a function transferred to the State Department of Public Health and who is serving in the state civil service, other than as a temporary employee, shall be transferred to the State Department of Public Health pursuant to the provisions of Section 19050.9 of the Government Code. The status, position, and rights of any officer or employee of the former State Department of Health Services shall not be affected by the transfer and shall be retained by the person as an officer or employee of the State Department of Public Health, as the case may be, pursuant to the State Civil Service Act (Part 2 (commencing with Section 18500) of Division 5 of Title 2 of the Government Code), except as to a position that is exempt from civil service.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131055.1.

(a)Notwithstanding Section 131050, commencing on July 1, 2012, the State Department of Health Care Services shall succeed to and be vested with all the duties, powers, purposes, functions, responsibilities, and jurisdiction of the State Department of Public Health as they relate to the Breast and Cervical Cancer Screening Program pursuant to Article 1.3 (commencing with Section 104150) of Chapter 1, the Breast and Cervical Cancer Treatment Program pursuant to Article 1.5 (commencing with Section 104160) of Chapter 1, the Prostate Cancer Screening Program pursuant to Chapter 6 (commencing with Section 104310), the IMPACT Prostate Cancer Treatment Program pursuant to Chapter 7 (commencing with Section 104322) of Part 1 of Division 103, translation services pursuant to Part 3 (commencing with Section 124300) of Division 106, the Office of Family Planning pursuant to Chapter 8.5 (commencing with Section 14500) of Part 3 of Division 9 of the Welfare and Institutions Code, excluding the Personal Responsibility Education Federal Grant Program, the Family Planning, Access, Care, and Treatment (Family PACT) Program pursuant to subdivision (aa) of Section 14132, and the State-Only Family Planning Program pursuant to Division 24 (commencing with Section 24000) of the Welfare and Institutions Code.

(b)Commencing July 1, 2012, any reference to the State Department of Public Health with regard to the Breast and Cervical Cancer Screening Program pursuant to Article 1.3 (commencing with Section 104150) of Chapter 1, the Breast and Cervical Cancer Treatment Program pursuant to Article 1.5 (commencing with Section 104160) of Chapter 1, the Prostate Cancer Screening Program pursuant to Chapter 6 (commencing with Section 104310), the IMPACT Prostate Cancer Treatment Program pursuant to Chapter 7 (commencing with Section 104322) of Part 1 of Division 103, translation services pursuant to Part 3 (commencing with Section 124300) of Division 106, the Office of Family Planning pursuant to Chapter 8.5 (commencing with Section 14500) of Part 3 of Division 9 of the Welfare and Institutions Code, excluding the Personal Responsibility Education Federal Grant Program, the Family Planning, Access, Care, and Treatment (Family PACT) Program pursuant to subdivision (aa) of Section 14132, or the State-Only Family Planning Program pursuant to Division 24 (commencing with Section 24000) of the Welfare and Institutions Code, shall refer to the State Department of Health Care Services.

(c)All regulations and orders adopted by the State Department of Public Health and any of its predecessors

in effect prior to July 1, 2012, shall remain in effect and shall be fully enforceable unless and until readopted, amended, or repealed, or until they expire by their own terms. Any action by or against the State Department of Public Health and any of its predecessors pertaining to matters vested in the State Department of Health Care Services by this act shall not abate but shall continue in the name of the State Department of Health Care Services, and the State Department of Health Care Services shall be substituted for the State Department of Public Health and any of its predecessors by the court wherein the action is pending. The substitution shall not in any way affect the rights of the parties to the action.

(d)Commencing July 1, 2012, the unexpended balance of all funds available for use by the State Department of Public Health or any of its predecessors in carrying out any functions transferred to the State Department of Health Care Services shall be available for use by the State Department of Health Care Services.

(e)Commencing July 1, 2012, all books, documents, records, and property of the State Department of Public Health pertaining to functions transferred to the State Department of Health Care Services shall be transferred to the State Department of Health Care Services.

(f)Commencing July 1, 2012, positions filled by appointment by the Governor in the State Department of Public Health whose principal assignment was to perform functions transferred to the State Department of Health Care Services shall be transferred to the State Department of Health Care Services. Individuals in positions transferred pursuant to this subdivision shall serve at the pleasure of the Governor. Salaries of positions transferred shall remain at the level established pursuant to law unless otherwise provided.

(g)Commencing July 1, 2012, every officer and employee of the State Department of Public Health who is performing a function transferred to the State Department of Health Care Services and who is serving in the state civil service, other than as a temporary employee, shall be transferred to the State Department of Health Care Services pursuant to the provisions of Section 19050.9 of the Government Code. The status, position, and rights of any officer or employee of the State Department of Public Health shall not be affected by the transfer and shall be retained by the person as an officer or employee of the State Department of Health Care Services, as applicable, pursuant to the State Civil Service Act (Part 2 (commencing with Section 18500) of Division 5 of Title 2 of the Government Code), except for a position that is exempt from civil service.

(h)No contract, lease, license, or any other agreement to which the State Department of Public Health is a party shall be void or voidable by reason of this act, but shall continue in full force and effect, with State Department of Health Care Services assuming all of the rights, obligations, liabilities, and duties of the State Department of Public Health as relates to the duties, powers, purposes, responsibilities, and jurisdiction vested by this section in the State Department of Health Care Services. The assumption by the State Department of Health Care Services shall not in any way affect the rights of the parties to any contract, lease, license, or agreement.

(Added by Stats. 2012, Ch. 23, Sec. 46. (AB 1467) Effective June 27, 2012.)

131055.2.

(a)Commencing July 1, 2013, the State Department of Public Health shall succeed to and be vested with all the duties, powers, purposes, functions, responsibilities, and jurisdiction of the former State Department of Alcohol and Drug Programs as they relate to the Office of Problem and Pathological Gambling (Chapter 8 (commencing with Section 4369) of Part 3 of Division 4 of the Welfare and Institutions Code).

(b)For purposes of the Office of Problem and Pathological Gambling (Chapter 8 (commencing with Section 4369) of Part 3 of Division 4 of the Welfare and Institutions Code) and the Gambling Addiction Program Fund (Article 12 (commencing with Section 19950) of Chapter 5 of Division 8 of the Business and Professions Code), references to the State Department of Alcohol and Drug Programs shall refer to the State Department of Public Health.

(c)All fees collected from licensees in accordance with Article 12 (commencing with Section 19950) of Chapter 5 of Division 8 of the Business and Professions Code and deposited into the Gambling Addiction Program Fund shall be available to the State Department of Public Health in accordance with the requirements of that section.

(d)Notwithstanding any other law, any reference in statute, regulation, or contract to the State Department of Alcohol and Drug Programs or the State Department of Alcohol and Drug Abuse shall be construed to refer to the State Department of Public Health when it relates to the transfer of duties, powers, purposes, functions, responsibilities, and jurisdiction made pursuant to this section.

(e)No contract, lease, license, or any other agreement to which the State Department of Alcohol and Drug Programs is a party shall be made void or voidable by reason of this section, but shall continue in full force and effect with the State Department of Public Health assuming all of the rights, obligations, and duties of the State Department of Alcohol and Drug Programs with respect to the transfer of duties, powers, purposes, functions, responsibilities, and jurisdiction made pursuant to this section.

(f)(1)All unexpended balances of appropriations and other funds available for use by the State Department of Alcohol and Drug Programs in connection with any function or the administration of any law transferred to the State Department of Public Health pursuant to the act that enacted this section shall be available for use by the State Department of Public Health for the purpose for which the appropriation was originally made or the funds were originally available.

(2)The State Department of Public Health may, until July 1, 2017, liquidate the prior years™ encumbrances previously obligated by the Office of Problem and Pathological Gambling. The Controller shall transfer all balances of the following Budget Act appropriations from the Office of Problem and Pathological Gambling to the State Department of Public Health, for use by the State Department of Public Health to liquidate any prior years™ encumbrances previously obligated by the Office of Problem and Pathological Gambling:

(A)Items 4200-001-0367, 4200-101-0367, and 4200-001-3110 of Section 2.00 of the Budget Act of 2011 (Chapter 33 of the Statutes of 2011).

(B)Items 4200-001-0367, 4200-101-0367, and 4200-001-3110 of Section 2.00 of the Budget Act of 2012 (Chapter 21 of the Statutes of 2012).

(g)All books, documents, forms, records, data systems, and property of the State Department of Alcohol and Drug Programs with respect to the transfer of duties, powers, purposes, functions, responsibilities, and jurisdiction made pursuant to this section shall be transferred to the State Department of Public Health.

(h)Positions filled by appointment by the Governor in the State Department of Alcohol and Drug Programs whose principal assignment was to perform functions transferred pursuant to this section shall be transferred to the State Department of Public Health. All employees serving in state civil service, other than temporary employees, who are engaged in the performance of functions transferred pursuant to this section, are transferred to the State Department of Public Health pursuant to the provisions of Section 19050.9 of the Government Code. The status, positions, and rights of those persons shall not be affected by their transfer and shall continue to be retained by them pursuant to the State Civil Service Act (Part 2 (commencing with

Section 18500) of Division 5 of Title 2 of the Government Code), except as to positions the duties of which are vested in a position exempt from civil service. The personnel records of all employees transferred pursuant to this section shall be transferred to the State Department of Public Health.

(i)Any regulation, order, or other action adopted, prescribed, taken, or performed by an agency or officer in the administration of a program or the performance of a duty, power, purpose, function, or responsibility pursuant to the Office of Problem and Pathological Gambling (Chapter 8 (commencing with Section 4369) of Part 3 of Division 4 of the Welfare and Institutions Code) and the Gambling Addiction Program Fund (Article 12 (commencing with Section 19950) of Chapter 5 of Division 8 of the Business and Professions Code) in effect prior to July 1, 2013, shall remain in effect unless or until amended, readopted, or repealed, or until they expire by their own terms, and shall be deemed to be a regulation or action of the agency to which or officer to whom the program, duty, power, purpose, function, responsibility, or jurisdiction is assigned pursuant to this section.

(j)No suit, action, or other proceeding lawfully commenced by or against any agency or other officer of the state, in relation to the administration of any program or the discharge of any duty, power, purpose, function, or responsibility transferred pursuant to this section, shall abate by reason of the transfer of the program, duty, power, purpose, function, or responsibility under this section.

(Amended by Stats. 2013, Ch. 361, Sec. 2. (SB 101) Effective September 26, 2013.)

131056.

The department may commence and maintain all proper and necessary actions and proceedings for any or all of the following purposes:

(a)To enforce its regulations.

(b)To enjoin and abate nuisances dangerous to health.

(c)To compel the performance of any act specifically enjoined upon any person, officer, or board, by any law of this state relating to the public health.

(d)To protect and preserve the public health.

It may defend all actions and proceedings involving its powers and duties. In all actions and proceedings it shall sue and be sued under the name of the department.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131057.

With the approval of the Department of Finance, and for use in the furtherance of the work of the department, the director may accept (a) grants of interest in real property, and (b) gifts of money from public agencies or from organizations or associations organized for scientific, educational, or charitable purposes.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131057.5.

(a)The State Department of Public Health shall investigate and apply for federal funding opportunities regarding promoting healthy eating and preventing obesity, including, but not limited to, those available under the federal Food, Conservation, and Energy Act of 2008 (Public Law 110-234), the federal Patient Protection and Affordable Care Act (Public Law 111-148), and the federal Healthy, Hunger-Free Kids Act of 2010 (Public Law 111-296).

(b)Upon receipt of federal funding regarding promoting healthy eating and preventing obesity, the State Department of Public Health may, in its sole discretion, provide in-kind support and award grants to support local assistance to local governments, nonprofit organizations, and local education agencies that the department deems eligible to encourage the sale and consumption of fresh fruits and vegetables, implement programs and initiatives that prevent obesity and hunger, and promote healthy eating and access to nutritious food in underserved and urban and rural communities. The award of these grants shall be exempt from the State Contract Act (Part 2 (commencing with Section 10100)) of Division 2 of the Public Contract Code.

(Added by Stats. 2011, Ch. 503, Sec. 2. (AB 152) Effective January 1, 2012.)

131058.

The State Department of Public Health may investigate, apply for, and enter into agreements to secure federal or nongovernmental funding opportunities for the purposes of advancing public health, subject to the provisions of Section 13326 of the Government Code for federal funding or applicable administrative review and approval for nongovernmental funding opportunities.

(Added by Stats. 2014, Ch. 31, Sec. 29. (SB 857) Effective June 20, 2014.)

131071.

Notwithstanding any other provision of law, whenever the department is authorized or required by statute, regulation, the due process provisions of the 14th amendment to the United States Constitution, and of subdivision (a) of Section 7 of Article I of the California Constitution, or required by contract, to conduct an adjudicative hearing leading to a final decision of the director or the department, all of the following shall apply:

(a)The proceeding shall be conducted pursuant to the administrative adjudication provisions of Chapter 4.5 (commencing with Section 11400) and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, except as specified in this section.

(b)Notwithstanding Section 11502 of the Government Code, whenever the department conducts a hearing under Chapter 4.5 (commencing with Section 11400) or Chapter 5 (commencing with Section 11500) of Part

1 of Division 3 of Title 2 of the Government Code, the hearing shall be conducted before an administrative law judge selected by the department and assigned to a hearing office that complies with the procedural requirements of Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 of Title 2 of the Government Code.

(c)(1)Notwithstanding Section 11508 of the Government Code, whenever the department conducts a hearing under Chapter 4.5 (commencing with Section 11400) or Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, the time and place of the hearing shall be determined by the staff assigned to the hearing office hearing the matter, except as provided in paragraph (2) or unless the department by regulation specifies otherwise.

(2)Formal hearings requested by health facilities shall be held in the City of Sacramento.

(d)(1)Unless otherwise specified in this section, the following sections of the Government Code shall apply to any adjudicative hearing conducted by the department only if the department has not, by regulation, specified an alternative procedure for the particular type of hearing at issue: Section 11503 relating to accusations, Section 11504 relating to statements of issues, Section 11505 relating to the contents of the statement to respondent, Section 11506 relating to the notice of defense, Section 11507.6 relating to discovery rights and procedures, Section 11508 relating to the time and place of hearings, and Section 11516 relating to amendment of accusations.

(2)Any alternative procedure specified by the department in accordance with this subdivision shall conform to the purpose of the Government Code provision it replaces insofar as it is possible to do so consistent with the specific procedural requirements applicable to the type of hearing at issue.

(3)Any alternative procedures adopted by the department under this subdivision shall not diminish the amount of notice given of the issues to be heard by the department or deprive appellants of the right to discovery suitable to the particular proceedings. Except as specified in paragraph (2) of subdivision (c), modifications of timeframes or of the place of hearing made by regulation shall not lengthen timeframes within which the department is required to act nor require hearings to be held at a greater distance from the appellantsplace of residence or business than is the case under the otherwise applicable Government Code provision.

(e)The specific timelines specified in Section 11517 of the Government Code shall not apply to any adjudicative hearing conducted by the department to the extent that the department has, by regulation, specified different timelines for the particular type of hearing at issue.

(f)In the case of any adjudicative hearing conducted by the department, transcript, as used in subdivision (c) of Section 11517 of the Government Code, shall be deemed to include any alternative form of recordation of the oral proceedings, including, but not limited to, an audiotape.

(g)Pursuant to Section 11415.50 of the Government Code, the department may, by regulation, provide for any appropriate informal procedure to be used for an informal level of review that does not itself lead to a final decision of the department or the director. The procedures specified in Article 10 (commencing with Section 11445.10) of Chapter 4.5 of Part 1 of Division 3 of Title 2 of the Government Code shall not apply to the informal level of review. Informal conferences concerning appeals by health facilities may be held in the Cities of Sacramento or Los Angeles.

(h)Notwithstanding any other provision of law, any adjudicative hearing conducted by the department that is conducted pursuant to a federal statutory or regulatory requirement that contains specific procedures may be conducted pursuant to those procedures to the extent they are inconsistent with the procedures specified

in this section.

(i)Nothing in this section shall supersede express provisions of law that apply to any hearing that is not adjudicative in nature or that does not involve due process rights specific to an individual or specific individuals, as opposed to the general public or a segment of the general public.

(j)The regulations of the former State Department of Health Services pertaining to adjudicative hearings pursuant to Section 100171 shall apply to the department until the department adopts regulations superseding those regulations. The department may enter into an interagency agreement with the State Department of Health Care Services to have the hearing office of the State Department of Health Care Services conduct adjudicative hearings on behalf of the department in accordance with this section.

(Added by Stats. 2007, Ch. 483, Sec. 37.7. Effective January 1, 2008.)

131075.

The department may enjoin and abate public nuisances.

(Added by renumbering Section 100175 by Stats. 2006, Ch. 241, Sec. 19. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131080.

The department may advise all local health authorities, and, when in its judgment the public health is menaced, it shall control and regulate their action.

(Added by renumbering Section 100180 by Stats. 2006, Ch. 241, Sec. 20. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131082.

Every person charged with the performance of any duty under the laws of this state relating to the preservation of the public health, who willfully neglects or refuses to perform the same, is guilty of a misdemeanor.

(Added by renumbering Section 100182 by Stats. 2006, Ch. 241, Sec. 21. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131085.

(a) The department may perform any of the following activities relating to the protection, preservation, and advancement of public health:

(1)Studies.

(2)Demonstrations of innovative methods.

(3)Evaluations of existing projects.

(4)Provision of training programs.

(5)Dissemination of information.

(b)In performing an activity specified in subdivision (a), the department may do any of the following:

(1)Perform the activity directly.

(2)Enter into contracts, cooperative agreements, or other agreements for the performance of the activity.

(3)Apply for and receive grants for the performance of the activity.

(4)Award grants for the performance of the activity.

(Added by renumbering Section 100185 by Stats. 2006, Ch. 241, Sec. 22. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131088.

(a)The department, in the licensing and certification of health professions in accordance with this chapter, shall not prohibit earn and learn programs for training of personnel. The department shall use licensing and certification standards that authorize the use of earn and learn training.

(b)Notwithstanding subdivision (a), the department shall not be required to establish a mandate specifying an accrediting entity must provide earn and learn programs for training in a profession licensed or certified by the department.

(c)As used in this section, earn and learn has the same meaning as defined in subdivision (q) of Section 14005 of the Unemployment Insurance Code.

(d)This section shall become operative on January 1, 2024.

(Added by Stats. 2021, Ch. 477, Sec. 3. (AB 1273) Effective January 1, 2022. Operative January 1, 2024, by its own provisions.)

131090.

The department may provide for consultant and advisory services and for the training of technical and professional personnel in educational institutions and field training centers approved by the department, and for the establishment and maintenance of field training centers in local health departments and in the department.

(Added by renumbering Section 100190 by Stats. 2006, Ch. 241, Sec. 23. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131095.

The department shall cause special investigation of the preparation and sale of drugs and food and their adulteration.

(Added by renumbering Section 100195 by Stats. 2006, Ch. 241, Sec. 24. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131100.

The department shall perform duties as required by law for the detection and prevention of the adulteration of articles used for food and drink, and for the punishment of persons guilty of violation of any law providing against their adulteration.

(Added by renumbering Section 100200 by Stats. 2006, Ch. 241, Sec. 25. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131105.

The department shall examine and may prevent the pollution of sources of public domestic water and ice supply.

(Added by renumbering Section 100205 by Stats. 2006, Ch. 241, Sec. 26. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131110.

(a)The department shall maintain a program of Environmental Management.

(b)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 126) and added by Stats. 2014, Ch. 35, Sec. 127. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

131115.

The department may maintain a mental health service that shall advise and assist local departments of health

and education in the establishment of mental health services, particularly in connection with maternal and child health conferences and in the schools of the state.

The department may conduct these activities as may be required in the development of mental health services as related to public health.

This section does not authorize any form of compulsory medical or physical examination, treatment, or control of any person.

(Added by renumbering Section 100215 by Stats. 2006, Ch. 241, Sec. 28. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131125.

The department shall enforce Section 383b of the Penal Code.

(Added by renumbering Section 100225 by Stats. 2006, Ch. 241, Sec. 29. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131130.

(a)Any person who willfully sells, keeps for sale, or offers for sale any food, drug, device, or cosmetic knowing, after a written notice from either (1) a manufacturer, wholesaler, distributor, or importer, or (2) the department or a local health officer that the product linked to an outbreak of illness, injury, or product tampering is being ordered removed from sale by the department pursuant to Section 131080, shall, upon conviction, be punished by a fine of not less than two thousand dollars ($2,000) nor more than ten thousand dollars ($10,000) for each day of violation, or by imprisonment in the county jail for not more than one year, or by both a fine and imprisonment.

(b)If a second or subsequent violation is committed after a previous conviction under this section has become final, the person shall be punished by a fine of not less than five thousand dollars ($5,000) nor more than twenty-five thousand dollars ($25,000) for each day of violation, or by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code, or by both a fine and imprisonment.

(c)Notwithstanding any other provision of law, the court may suspend the minimum fines provided for in this section if it determines that there are circumstances in mitigation and the court states on the record its reasons for suspending the minimum fine.

(Amended by Stats. 2011, Ch. 15, Sec. 204. (AB 109) Effective April 4, 2011. Operative October 1, 2011, by Sec. 636 of Ch. 15, as amended by Stats. 2011, Ch. 39, Sec. 68.)

131135.

Whenever any person violates any provision of Section 131130, the court may, as a condition of probation, order the defendant to pay, in lieu of any fine, any expenses, both direct and indirect, incurred by a local

health department or the department in monitoring compliance with the order pursuant to Section 131080, including, but not limited to, the costs of conducting inspections and imposing embargoes. The total costs payable to the department and local health departments collectively imposed pursuant to this section shall not exceed the maximum fine for the offense of which the defendant is convicted.

Any amount collected under this section shall be paid to the local health department incurring the expenses or, if to reimburse costs of the department, into the General Fund.

(Added by renumbering Section 100235 by Stats. 2006, Ch. 241, Sec. 31. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

__Health and Safety Code - HSC__

__DIVISION 112. PUBLIC HEALTH [131000 - 131355]__

(Division 112 added by Stats. 2006, Ch. 241, Sec. 34.)

__PART 1. GENERAL PROVISIONS [131000 - 131355]__

(Part 1 added by Stats. 2006, Ch. 241, Sec. 34.)

__CHAPTER 2. General Powers of the Department [131050 - 131231]__

(Chapter 2 added by Stats. 2006, Ch. 241, Sec. 34.)

__ARTICLE 2. Regulatory Authorization and Review [131200 - 131225]__

(Article 2 added by Stats. 2006, Ch. 241, Sec. 34.)

131200.

The department may adopt and enforce regulations for the execution of its duties.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131205.

Notwithstanding any other provision of law, the department shall submit all of its regulations on matters related to statutory responsibilities delegated to or enforced by local health departments, except emergency regulations, to the California Conference of Local Health Officers for review and comment prior to adoption. If the department deems it appropriate to implement the proposed regulations or parts thereof, contrary to the recommendations of the conference, the department shall make a public finding summarizing the reasons for acting contrary to these recommendations.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131210.

The department, after consultation with and approval by the Conference of Local Health Officers, shall by regulation establish standards of education and experience for professional and technical personnel employed in local health departments and for the organization and operation of the local health departments. These standards may include standards for the maintenance of records of services, finances, and expenditures, that shall be reported to the director in a manner and at times as the director may specify.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131215.

(a)When a dispute arises as to the interpretation or enforcement of regulations of the department that are being enforced by a city, county, city and county, or district, a request for clarification or interpretation may be submitted to the department. The department shall make a determination of the proper interpretation and required enforcement when so requested by a party to the dispute.

(b)In making its determination, the department may conduct a hearing where all interested parties may present relative comments or arguments.

(c)Determinations of the department made pursuant to this section shall be transmitted to the concerned local agency and the involved party or parties within 60 days after the receipt of the request. The determination of the department shall be binding upon the local agency and the parties subject to the regulations of the department, except when the matter may be subject to judicial review.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131220.

Notwithstanding any other provision of law, but to the extent consistent with applicable federal law or regulation, the director may, after a request by a board of supervisors of an affected county and after a public hearing held in accordance with Section 11346 of the Government Code, waive regulations pertaining to the provision of hospital services in a hospital operated by a county or under contract to a county for a county with a population of 200,000 or less on January 1, 1980, if the director makes a finding that the waiver would not affect adversely the health and safety of persons in the county. The authority contained in this section shall be in addition to, and shall not supersede or limit, any other provision of law authorizing the waiver by the department of requirements contained in regulations adopted by the department relating to health facilities.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

131225.

(a)Notwithstanding any other provision of law, the department by regulation may provide for the issuance and renewal on a two-year basis of licenses, certificates of registration, or other indicia of authority issued pursuant to this code by the department.

(b)The department may by regulation set the fee for the two-year license, certificate of registration, or other indicia, not to exceed twice the annual fee for issuance or renewal set by statute.

(Added by Stats. 2006, Ch. 241, Sec. 34. Effective January 1, 2007. Operative July 1, 2007, by Sec. 37 of Ch. 241.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=112.&title=&part=1.&chapter=2.&article=3.

131230.

(a)To the extent that funding is appropriated by the Legislature or available through private funds in each fiscal year, the department shall establish and maintain the California Electronic Violent Death Reporting System.

(b)The department shall collect data on violent deaths as reported from data sources, including, but not limited to, death certificates, law enforcement reports, and coroner or medical examiner reports. The department shall post on its Internet Web site a summary and analysis of the collected data.

(c)(1)The department may enter into a contract, grant, or other agreement with a local agency to collect the data specified in subdivision (b) within the agencysjurisdiction.

(2)(A)The department may enter into a contract, grant, or other agreement with a local agency to collect the data specified in subdivision (b) from other local agencies if the following conditions are met:

(i)The local agency entering into the agreement agrees to collect the data from the other local agencies.

(ii)The local agency entering into the agreement is not responsible for reporting to the department data that have not been made available by the other local agencies.

(B)The other local agencies described in subparagraph (A) may also enter into their own agreements with the department pursuant to paragraph (1).

(3)The data collected pursuant to paragraph (1) or (2) shall be limited to data that the local agency entering into the agreement or the other local agencies are authorized to collect within their respective jurisdictions.

(4)A local agency entering into an agreement pursuant to paragraph (1) or (2) shall collect data based on existing or new data elements required by the California Electronic Violent Death Reporting System only to the extent that resources are made available.

(d)To the extent that funding is available for this purpose, a law enforcement agency may report to the department data on the circumstances surrounding all violent deaths from investigative reports and, if available, laboratory toxicology reports to be used by the department for the limited purpose of conducting public health surveillance and epidemiology. Aggregate data shall be public, but individual identifying information shall remain confidential. The collected data shall be based on the data elements of the federal Centers for Disease Control and PreventionsNational Violent Death Reporting System.

(e)The department may apply for grants provided under the National Violent Death Reporting System for purposes of implementing this section.

(f)The department may accept private or foundation moneys to implement this section.

(g)This section does not limit data sources that the department may collect, which may include any public agency document that may contain data on violent deaths.

(Added by Stats. 2016, Ch. 712, Sec. 2. (SB 877) Effective January 1, 2017.)

131231.

For purposes of this article, violent death means a death resulting from the use of physical force or power against oneself, another person, or a group or community, and includes, but is not limited to, homicide, suicide, legal intervention deaths, unintentional firearm deaths, and undetermined intent deaths.

(Added by Stats. 2016, Ch. 712, Sec. 2. (SB 877) Effective January 1, 2017.)

__Health and Safety Code - HSC__

__DIVISION 112. PUBLIC HEALTH [131000 - 131355]__

(Division 112 added by Stats. 2006, Ch. 241, Sec. 34.)

__PART 1. GENERAL PROVISIONS [131000 - 131355]__

(Part 1 added by Stats. 2006, Ch. 241, Sec. 34.)

__CHAPTER 3. The Office of Suicide Prevention [131300 - 131320]__

(Chapter 3 added by Stats. 2020, Ch. 142, Sec. 2.)

131300.

(a)The State Department of Public Health is hereby authorized to establish the Office of Suicide Prevention in the department pursuant to this chapter. The responsibilities of the office, if established, may include all of the following:

(1)Providing information and technical assistance to statewide and regional partners regarding best practices on suicide prevention policies and programs.

(2)Conducting state level assessment of regional and statewide suicide prevention policies and practices, including other states™ suicide prevention policies, and including specific metrics and domains as appropriate.

(3)Monitoring and disseminating data to inform prevention efforts at the state and local levels.

(4)Convening experts and stakeholders, including, but not limited to, stakeholders representing populations with high rates of suicide, to encourage collaboration and coordination of resources for suicide prevention.

(5)Reporting on progress to reduce rates of suicide.

(b)If established, the office may focus activities on groups with the highest risk, including youth, Native American youth, older adults, veterans, and LGBTQ people.

(Amended by Stats. 2021, Ch. 143, Sec. 341. (AB 133) Effective July 27, 2021. Conditionally operative pursuant to Section 131320.)

131305.

If established, the Office of Suicide Prevention may share and receive data from all entities with data relevant to the responsibilities and objectives of the office, including, but not limited to, state, federal, local, and private and nongovernmental agencies or organizations.

(Added by Stats. 2020, Ch. 142, Sec. 2. (AB 2112) Effective January 1, 2021. Conditionally operative pursuant to Section 131320.)

131310.

If established, the Office of Suicide Prevention may apply for and utilize federal, state, and foundation grants.

(Added by Stats. 2020, Ch. 142, Sec. 2. (AB 2112) Effective January 1, 2021. Conditionally operative pursuant to Section 131320.)

131315.

If the Office of Suicide Prevention is established pursuant to Section 131300, all of the following shall apply:

(a)The Office of Suicide Prevention shall consult with the Mental Health Services Oversight and Accountability Commission to implement suicide prevention efforts consistent with the Mental Health Services Oversight and Accountability CommissionsSuicide Prevention Report Striving for Zero and described pursuant to Provision 1 of Item 4560-001-3085 of Section 2.00 of the Budget Act of 2020.

(b)This section does not authorize the Office of Suicide Prevention to perform any of the duties required by the commission under Part 3.7 (commencing with Section 5845) of Division 5 of, or administer any program funded by Part 4.5 (commencing with Section 5890) of Division 5 of, the Welfare and Institutions Code.

(Added by Stats. 2020, Ch. 142, Sec. 2. (AB 2112) Effective January 1, 2021. Conditionally operative pursuant to Section 131320.)

131320.

This chapter shall become operative only if funds are appropriated in the annual Budget Act or another statute for its purposes.

(Added by Stats. 2020, Ch. 142, Sec. 2. (AB 2112) Effective January 1, 2021.)

__Health and Safety Code - HSC__

__DIVISION 112. PUBLIC HEALTH [131000 - 131355]__

(Division 112 added by Stats. 2006, Ch. 241, Sec. 34.)

__PART 1. GENERAL PROVISIONS [131000 - 131355]__

(Part 1 added by Stats. 2006, Ch. 241, Sec. 34.)

__CHAPTER 4. Childhood Drowning Data Collection Pilot Program [131350 - 131355]__

(Chapter 4 added by Stats. 2022, Ch. 817, Sec. 2.)

131350.

For purposes of this chapter, the following terms have the following meanings:

(a)Department means the State Department of Public Health.

(b)Data collection pilot program means the Childhood Drowning Data Collection Pilot Program established pursuant to this chapter.

(Added by Stats. 2022, Ch. 817, Sec. 2. (SB 855) Effective January 1, 2023. Repealed as of January 1, 2029, pursuant to Sec. 131355.)

131351.

(a)The Childhood Drowning Data Collection Pilot Program shall be administered by the department.

(b)The purpose of the data collection pilot program shall be to collect detailed data on childhood fatal and nonfatal drownings in California with a particular focus to be directed at childhood pool drownings among children one to four, inclusive, years of age. The data collection pilot program shall use existing department electronic data collection systems and determine how to highlight data on circumstances of drowning cases.

(Added by Stats. 2022, Ch. 817, Sec. 2. (SB 855) Effective January 1, 2023. Repealed as of January 1, 2029, pursuant to Sec. 131355.)

131352.

The data collection pilot program shall be implemented according to the following requirements:

(a)(1)The department shall establish the pilot program on or before January 1, 2024. On or before July 1, 2024, the department shall seek to collaborate with at least 5 but no more than 10 county child death review teams authorized pursuant to Section 11174.32 of the Penal Code, other local agencies that collect data on fatal and nonfatal drowning, or both.

(2)In soliciting participants pursuant to paragraph (1), the department shall primarily solicit counties with historically high fatal and nonfatal drowning rates among children one to four, inclusive, years of age.

(b)The data collection pilot program shall track child fatal drownings and collect detailed information on the circumstances surrounding these fatal drownings. The data collection pilot program shall also explore ways to track and collect similar data on nonfatal drowning using electronic forms and shall track that information, if feasible.

(Added by Stats. 2022, Ch. 817, Sec. 2. (SB 855) Effective January 1, 2023. Repealed as of January 1, 2029, pursuant to Sec. 131355.)

131353.

(a)(1)On or before January 1, 2026, the department shall submit a report to the appropriate legislative policy committees on the progress of the data collection program and findings of the data collection pilot program.

(2)In compiling the reports required pursuant to this section, the department shall solicit and consider stakeholder input.

(3)The report required pursuant to this subdivision shall include recommendations related to improving pool safety on a state and local level.

(b)(1)By January 1, 2027, the department shall, after consultation with an advisory group with expertise in childhood drowning prevention, submit a report on the findings of the data collection pilot program to the appropriate legislative policy committees. The department shall also post the report on its internet website.

(2)The report submitted pursuant to paragraph (1) shall include recommendations on the structure and operation of an ongoing system for collecting child drowning data and effective evidence-based state and local drowning prevention policies and best practices.

(c)The reports submitted pursuant to this section shall be submitted in compliance with Section 9795 of the Government Code.

(Added by Stats. 2022, Ch. 817, Sec. 2. (SB 855) Effective January 1, 2023. Repealed as of January 1, 2029, pursuant to Sec. 131355.)

131354.

Based on the reports submitted pursuant to this chapter, the department shall develop both of the following:

(a)(1)A California Water Safety Action Plan for Children. The plan shall be a comprehensive, realistic, and executable plan patterned after the United States National Water Safety Action Plan, which aims to create water-safe communities and states.

(2)The department shall post the plan developed pursuant to this subdivision on its internet website on or before January 1, 2027.

(b)A standardized electronic form for counties to use in reporting drowning statistics developed in consultation with the state advisory group and the National Center for Fatality Review and Prevention.

(Added by Stats. 2022, Ch. 817, Sec. 2. (SB 855) Effective January 1, 2023. Repealed as of January 1, 2029, pursuant to Sec. 131355.)

131355.

This chapter shall remain in effect only until January 1, 2029, and as of that date is repealed.

(Added by Stats. 2022, Ch. 817, Sec. 2. (SB 855) Effective January 1, 2023. Repealed as of January 1, 2029, by its own provisions. Note: Repeal affects Chapter 4, commencing with Section 131350.)

__Health and Safety Code - HSC__

__DIVISION 113. THE ADULT HEALTH COVERAGE EXPANSION PROGRAM [131500 - 131550]__

(Division 113 added by Stats. 2007, Ch. 677, Sec. 2.)

__CHAPTER 1. General Provisions [131500 - 131502]__

(Chapter 1 added by Stats. 2007, Ch. 677, Sec. 2.)

131500.

This division shall be known and may be cited as the Adult Health Coverage Expansion Program.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

131501.

It is the intent of the Legislature that the Adult Health Coverage Expansion Program provide health care coverage on a pilot program basis to eligible adults domiciled and employed in Santa Clara County who are without health care coverage.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

131502.

The following definitions apply for purposes of this division:

(a)Local initiative has the same meaning as set forth in Section 12693.08 of the Insurance Code.

(b)Program means the Adult Health Coverage Expansion Program.

(c)Small business means an entity located in Santa Clara County that employs 50 or fewer persons, with at least 35 percent of the employees earning less than 350 percent of the federal poverty level for a family size of one, and that has not offered health care coverage to its employees for, at minimum, 12 consecutive months, provided that the provisions of any such prior coverage required the employer to contribute at least 50 percent of the total amount of the premium for that coverage. For purposes of the program authorized by this division, a small business shall be a small employer pursuant to Article 3.1 (commencing with Section 1357) of Chapter 2.2 of Division 2, subject to the provisions and exceptions of this division. Notwithstanding the company affiliation and tax filing provision of paragraph (1) of subdivision (l) of Section 1357, an individual franchise outlet shall be considered a small business.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

__Health and Safety Code - HSC__

__DIVISION 113. THE ADULT HEALTH COVERAGE EXPANSION PROGRAM [131500 - 131550]__

(Division 113 added by Stats. 2007, Ch. 677, Sec. 2.)

__CHAPTER 2. Administration [131510 - 131511]__

(Chapter 2 added by Stats. 2007, Ch. 677, Sec. 2.)

131510.

The program may be implemented in Santa Clara County at the option of the local initiative, but if so implemented shall be as a pilot program. A maximum of 5,000 employees may be covered in the county, provided, however, that the number of enrollees may be increased pursuant to the prior approval of the Department of Managed Health Care. The local initiative shall administer the program.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

131511.

(a)In implementing the pilot program established pursuant to this division, the local initiative in Santa Clara County shall not be subject to the requirements of subdivision (a) of Section 1357.03. The program shall be otherwise subject to the requirements of Chapter 2.2 (commencing with Section 1340) of Division 2, including Article 3.1 (commencing with Section 1357) thereof, except as otherwise provided in this division, and shall be subject to approval as to regulatory filings with the Department of Managed Health Care as prescribed in Chapter 2.2 (commencing with Section 1340) of Division 2 and in implementing regulations promulgated by the department.

(b)Except in the case of a late enrollee or for satisfaction of a preexisting condition clause in the case of initial coverage for an eligible employee, the local initiative may not exclude any eligible employee who would otherwise be eligible for health care coverage under this division on the basis of an actual or expected health

care condition. The local initiative may not limit or exclude coverage for any eligible employee by type of illness, treatment, medical condition, or accident, except for preexisting conditions as permitted under Section 1357.06.

(c)Coverage provided through the program to an eligible small business shall be renewable with respect to all eligible employees at the option of the participating small business.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

__Health and Safety Code - HSC__

__DIVISION 113. THE ADULT HEALTH COVERAGE EXPANSION PROGRAM [131500 - 131550]__

(Division 113 added by Stats. 2007, Ch. 677, Sec. 2.)

__CHAPTER 3. Eligibility [131520 - 131522]__

(Chapter 3 added by Stats. 2007, Ch. 677, Sec. 2.)

131520.

Notwithstanding subdivision (b) of Section 1357, only an adult age 19 to 64 years, inclusive, employed by a small business for a minimum of 20 hours per week is eligible to participate in the program if he or she has a gross annual income that is less than 350 percent of the federal poverty level for a family size of one, and his or her employer participates in the program. Dependents, spouses, and domestic partners of employees are not eligible for the program.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

131521.

(a)A small business may apply to the local initiative that administers the program to obtain coverage for its employees who meet the requirements of Section 131520.

(b)At least 50 percent of the employees of an otherwise eligible small business must meet the eligibility requirements of Section 131520, and at least 50 percent of those eligible employees must choose to receive coverage through the program in order for the small business to qualify to participate in the program.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

131522.

The program shall screen potential enrollees to determine if they meet the eligibility requirements for the Medi-Cal program.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

Code Text

__Health and Safety Code - HSC__

__DIVISION 113. THE ADULT HEALTH COVERAGE EXPANSION PROGRAM [131500 - 131550]__

(Division 113 added by Stats. 2007, Ch. 677, Sec. 2.)

__CHAPTER 4. Benefits [131530 - 131531]__

(Chapter 4 added by Stats. 2007, Ch. 677, Sec. 2.)

131530.

The local initiative that establishes a program shall offer health care coverage through the program, and all health care services shall be provided to participants by a provider operated by the county or by a provider with whom or with which the county or the local initiative has contracted to provide health care services, except for emergency or out-of-area care or instances in which a required specialized service is not contracted for by the county or the local initiative.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

131531.

The health care services provided through the program to eligible employees shall, to the extent practicable, be substantially similar to the benefits offered to adults under the Healthy Families Program pursuant to Chapter 5 (commencing with Section 12693.60) of Part 6.2 of the Insurance Code, but shall include at least all of the basic health care services included in subdivision (b) of Section 1345 and in Section 1300.67 of Title 28 of the California Code of Regulations.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=113.&title=&part=&chapter=5.&article=

131540.

(a)(1)The cost of the health care coverage provided through the program shall be paid through a combination of contributions paid by the small business, premiums paid by participating employees, and county, federal, state, or private sector funding made available for this purpose.

(2)The local initiative may determine the amount of the employer contribution for each participating eligible employee, which shall not exceed one hundred fifty dollars ($150) per month, and the amount of the employee premium, which shall not exceed seventy-five dollars ($75) per month. The local initiative may adjust employer contribution and employee premium levels after the first year if necessary for changes in health care costs.

(3)The local initiative may structure the required employee premium amounts according to a schedule that takes into account the individual employeesage or income level, or both, in a manner similar, but not necessarily identical, to that described in Section 12693.43 of the Insurance Code, pertaining to the Healthy Families Program.

(4)The local initiative shall establish copayment levels and amounts in a manner substantially similar to that described in Section 12693.615 of the Insurance Code, pertaining to the Healthy Families Program.

(5)For purposes of the program, applicable rate charged for a covered employee in Section 1366.26 means the total premium amount paid to the health plan on behalf of an employee, including amounts paid by the small business on behalf of the employee, the premium paid by the employee, and any county, federal, state, or private sector funding, which funding shall include the value of the discounted rates negotiated pursuant to subdivision (b), as apportioned to the employee. The program shall submit to the Department of Managed Health Care the procedures the local initiative will use for purposes of establishing the rates to be paid by a person eligible for continuation coverage under Section 1366.26, and the department shall only approve those procedures if it determines that they are consistent with the requirements of the Cal-COBRA program.

(b)In order to enhance the affordability of coverage offered through the program to eligible small businesses and employees, the county and the local initiative shall negotiate discounted rates for services provided to participants in the program by providers operated by the county or by providers with whom, or with which, the county has contracted to provide health care services.

(Amended by Stats. 2008, Ch. 179, Sec. 164. Effective January 1, 2009.)

131541.

The local initiative shall be authorized to establish, participate in, or apply to funding sources in the public and private sectors for purposes of providing or securing premium subsidies for eligible employees, pursuant to fair and equitable procedures to be established by the local initiative.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

__Health and Safety Code - HSC__

__DIVISION 113. THE ADULT HEALTH COVERAGE EXPANSION PROGRAM [131500 - 131550]__

(Division 113 added by Stats. 2007, Ch. 677, Sec. 2.)

__CHAPTER 6. Evaluation [131550- 131550.]__

(Chapter 6 added by Stats. 2007, Ch. 677, Sec. 2.)

131550.

The county and the local initiative shall together evaluate the pilot program after three years, including all of the following: the number of individuals served, the demographics of the individuals served, the number of employees turned away due to the limitation on enrollment in Section 131510, the number of small businesses participating, the number of small businesses turned away due to the limitation on enrollment of individuals, funding sources (including employees, employers, county, state, federal, and other sources), and the health status of enrollees.

(Added by Stats. 2007, Ch. 677, Sec. 2. Effective January 1, 2008.)

__Health and Safety Code - HSC__

__DIVISION 114. Prescription Drug Discount Prohibition [132000 - 132008]__

(Division 114 added by Stats. 2017, Ch. 611, Sec. 1.)

132000.

(a)Except as provided in Section 132004, a person who manufactures a prescription drug shall not offer in the state a discount, repayment, product voucher, or other reduction in an individualsout-of-pocket expenses associated with his or her health insurance, health care service plan, or other health coverage, including, but not limited to, a copayment, coinsurance, or deductible, for a prescription drug if a lower cost generic drug is covered under the individualshealth insurance, health care service plan, or other health coverage on a lower cost-sharing tier that is designated to be therapeutically equivalent as indicated by the United States Food and Drug AdministrationsApproved Drug Products with Therapeutic Equivalence Evaluations.

(b)The prohibition in subdivision (a) shall not apply to a branded prescription drug, until the time that the first drug designated in the United States Food and Drug AdministrationsApproved Drug Products with Therapeutic Equivalence Evaluations as therapeutically equivalent to that branded prescription drug has been nationally available for three calendar months.

(Added by Stats. 2017, Ch. 611, Sec. 1. (AB 265) Effective January 1, 2018.)

132002.

Except as provided in Section 132004, a person who manufactures a prescription drug shall not offer in the state a discount, repayment, product voucher, or other reduction in the individualsout-of-pocket expenses associated with his or her health insurance, health care service plan, or other health coverage, including, but not limited to, a copayment, coinsurance, or deductible, for a prescription drug if the active ingredients of the drug are contained in products regulated by the federal Food and Drug Administration, are available without prescription at a lower cost, and are not otherwise contraindicated for treatment of the condition for which the prescription drug is approved.

(Added by Stats. 2017, Ch. 611, Sec. 1. (AB 265) Effective January 1, 2018.)

132004.

The prohibitions in Sections 132000 and 132002 shall not apply to any of the following:

(a)A discount, repayment, product voucher, or other payment to a patient or another person on the patientsbehalf for a prescription drug required under a United States Food and Drug Administration Risk Evaluation and Mitigation Strategy for the purpose of monitoring or facilitating the use of that prescription drug in a manner consistent with the approved labeling of the prescription drug.

(b)A single-tablet drug regimen for treatment or prevention of human immunodeficiency virus (HIV) or acquired immune deficiency syndrome (AIDS) that is as effective as a multitablet regimen, unless, consistent with clinical guidelines and peer-reviewed scientific and medical literature, the multitablet regimen is clinically equally effective or more effective and is more likely to result in adherence to the drug regimen.

(c)The individual has completed any applicable step therapy or prior authorization requirements for the branded prescription drug as mandated by the individualshealth insurer, health care service plan, or other health coverage.

(d)A discount, repayment, product voucher, or other reduction in an individualsout-of-pocket expenses is not associated with his or her health insurance, health care service plan, or other health coverage.

(e)Rebates received by a state agency.

(Added by Stats. 2017, Ch. 611, Sec. 1. (AB 265) Effective January 1, 2018.)

132006.

This division does not prohibit an entity, including an entity that manufactures prescription drugs or a patient assistance program that is solely funded by one or more manufacturers, from offering a pharmaceutical product free of any cost, if the product is free of cost to both the patient and his or her health insurer, health care service plan, or other health coverage.

(Added by Stats. 2017, Ch. 611, Sec. 1. (AB 265) Effective January 1, 2018.)

132008.

(a)This division shall not be deemed to affect a pharmacistsability to substitute a prescription drug pursuant to Section 4073 of the Business and Professions Code.

(b)(1)This division shall not prohibit or limit assistance to a patient provided by an independent charity patient assistance program.

(2)For purposes of this section, independent charity patient assistance program means a program that

meets all of the following requirements:

(A)The program does not allow a pharmaceutical manufacturer or an affiliate of the manufacturer, including, but not limited to, an employee, agent, officer, shareholder, contractor, wholesaler, distributor, or pharmacy benefits manager, to exert any direct or indirect influence or control over the charity or subsidy program.

(B)Assistance is awarded in a truly independent manner that severs any link between a pharmaceutical manufacturersfunding and the beneficiary.

(C)Assistance is awarded without regard to the pharmaceutical manufacturersinterest and without regard to the beneficiaryschoice of product, provider, practitioner, supplier, health insurance, health care service plan, or other health coverage.

(D)Assistance is awarded based upon a reasonable, verifiable, and uniform measure of financial need that is applied in a consistent manner.

(E)The pharmaceutical manufacturer does not solicit or receive data from the program that would facilitate the manufacturer in correlating the amount or frequency of its donations with the number of subsidized prescriptions for its products.

(Added by Stats. 2017, Ch. 611, Sec. 1. (AB 265) Effective January 1, 2018.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=114.01.&title=&part=&chapter=&article=

134000.

For purposes of this division:

(a)ANDA means abbreviated new drug application.

(b)ANDA filer means a party that owns or controls an ANDA filed with the Food and Drug Administration or has the exclusive rights under that ANDA to distribute the ANDA product.

(c)Agreement means anything that would constitute an agreement under California state law or a trust under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Division 7 of the Business and Professions Code).

(d)Agreement resolving or settling a patent infringement claim includes any agreement that is entered into within 30 days of the resolution or the settlement of the claim, or any other agreement that is contingent upon, provides a contingent condition for, or is otherwise related to the resolution or settlement of the claim. This shall include, but is not limited to, the following:

(1)Any agreement required to be provided to the Federal Trade Commission or the Antitrust Division of the United States Department of Justice under the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108-173).

(2)Any agreement between a biosimilar or interchangeable product applicant and a reference product sponsor under the Biologics Price Competition and Innovation Act of 2009 (BPCIA) (Public Law 111-148) that resolves patent claims between the applicant and sponsor.

(e)Biosimilar biological product application filer means a party that owns or controls a biosimilar biological product application filed with the Food and Drug Administration under Section 351(k) of the Public Health Service Act (42 U.S.C. 262(k)) for licensure of a biological product as biosimilar to, or interchangeable with, a reference product, or that has the exclusive rights under the application to distribute the biosimilar biological product.

(f)NDA means new drug application.

(g)Nonreference drug filer means either:

(1)An ANDA filer.

(2)A biosimilar biological product application filer.

(h)Nonreference drug product means the product to be manufactured under an ANDA that is the subject of the patent infringement claim, a biosimilar biological product that is the product to be manufactured under the biosimilar biological product application that is the subject of the patent infringement claim, or both.

(i)Patent infringement means infringement of any patent or of any filed patent application, extension, reissue, renewal, division, continuation, continuation in part, reexamination, patent term restoration, patents of addition, and extensions thereof.

(j)Patent infringement claim means any allegation made to a nonreference drug filer, whether or not included in a complaint filed with a court of law, that its nonreference drug product or application infringes any patent held by, or exclusively licensed to, the reference drug holder.

(k)Reference drug holder means either:

(1)A brand holder that is any of the following:

(A)The holder of an approved NDA for a drug product application filed under Section 505(b) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(b)).

(B)A person owning or controlling enforcement of the patent listed in the Approved Drug Products With Therapeutic Equivalence Evaluations (commonly known as the FDA Orange Book) in connection with the NDA.

(C)The predecessors, subsidiaries, divisions, groups, and affiliates controlled by, controlling, or under common control with, any of the entities described in subparagraph (A) or (B), with control to be presumed by direct or indirect share ownership of 50 percent or greater, as well as the licensees, licensors, successors, and assigns of each of those entities.

(2)A biological product licenseholder, which means any of the following:

(A)The holder of an approved biological product license application for a biological drug product under Section 351(a) of the Public Health Service Act (42 U.S.C. 262(a)).

(B)A person owning or controlling enforcement of any patents that claim the biological product that is the subject of the approved biological patent license application.

(C)The predecessors, subsidiaries, divisions, groups, and affiliates controlled by, controlling, or under common control with, any of the entities described in subparagraph (A) or (B), with control to be presumed by direct or indirect share ownership of 50 percent or greater, as well as the licensees, licensors, successors, and assigns of each of those entities.

(l)Reference drug product means the product to be manufactured by the reference drug holder and includes both branded drugs of the NDA holder and the biologic drug product of the biologic product license applicant.

(m)Statutory exclusivity means those prohibitions on the approval of drug applications under clauses (ii) through (iv), inclusive, of Section 505(c)(3)(E) (5-year and 3-year data exclusivity), Section 527 (orphan drug exclusivity), or Section 505A (pediatric exclusivity), of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(c)(3)(E), 360cc, and 355a, respectively) or on the licensing of biological product applications under Section 262(k)(7) of Title 42 of the United States Code (12-year exclusivity) or Section 262(m)(2) or (3) of Title 42 of the United States Code (pediatric exclusivity).

(Added by Stats. 2019, Ch. 531, Sec. 1. (AB 824) Effective January 1, 2020.)

134002.

(a)(1)Except as provided in paragraph (3), an agreement resolving or settling, on a final or interim basis, a patent infringement claim, in connection with the sale of a pharmaceutical product, shall be presumed to have anticompetitive effects and shall be a violation of this section if both of the following apply:

(A)A nonreference drug filer receives anything of value from another company asserting patent infringement, including, but not limited to, an exclusive license or a promise that the brand company will not launch an authorized generic version of its brand drug.

(B)The nonreference drug filer agrees to limit or forego research, development, manufacturing, marketing, or sales of the nonreference drug filersproduct for any period of time.

(2)As used in subparagraph (A) of paragraph (1), anything of value does not include a settlement of a patent infringement claim in which the consideration granted by the brand or reference drug filer to the nonreference drug filer as part of the resolution or settlement consists of only one or more of the following:

(A)The right to market the competing product in the United States before the expiration of either:

(i)A patent that is the basis for the patent infringement claim.

(ii)A patent right or other statutory exclusivity that would prevent the marketing of the drug.

(B)A covenant not to sue on a claim that the nonreference drug product infringes a United States patent.

(C)Compensation for saved reasonable future litigation expenses of the reference drug holder but only if both of the following are true:

(i)The total compensation for saved litigation expenses is reflected in budgets that the reference drug holder documented and adopted at least six months before the settlement.

(ii)The compensation does not exceed the lower of the following:

(I)Seven million five hundred thousand dollars ($7,500,000).

(II)Five percent of the revenue that the nonreference drug holder projected or forecasted it would receive in the first three years of sales of its version of the reference drug documented at least 12 months before the settlement. If no projections or forecasts are available, the compensation does not exceed two hundred fifty thousand dollars ($250,000).

(D)An agreement resolving or settling a patent infringement claim that permits a nonreference drug filer to begin selling, offering for sale, or distributing the nonreference drug product if the reference drug holder seeks approval to launch, obtains approval to launch, or launches a different dosage, strength, or form of the reference drug having the same active ingredient before the date set by the agreement for entry of the nonreference drug filer. A different form of the reference drug does not include an authorized generic version of the reference drug.

(E)An agreement by the reference drug holder not to interfere with the nonreference drug filersability to secure and maintain regulatory approval to market the nonreference drug product or an agreement to facilitate the nonreference drug filersability to secure and maintain regulatory approval to market the nonreference drug product.

(F)An agreement resolving a patent infringement claim in which the reference drug holder forgives the potential damages accrued by a nonreference drug holder for an at-risk launch of the nonreference drug product that is the subject of that claim.

(3)Parties to an agreement are not in violation of paragraph (1) if they can demonstrate by a preponderance of the evidence that either of the following are met:

(A)The value received by the nonreference drug filer described in subparagraph (A) of paragraph (1) is a fair and reasonable compensation solely for other goods or services that the nonreference drug filer has promised to provide.

(B)The agreement has directly generated procompetitive benefits and the procompetitive benefits of the agreement outweigh the anticompetitive effects of the agreement.

(b)In determining whether the parties to the agreement have met their burden under paragraph (3) of subdivision (a), the factfinder shall not presume any of the following:

(1)That entry into the marketplace could not have occurred until the expiration of the relevant patent exclusivity or that the agreementsprovision for entry of the nonreference drug product before the expiration of any patent exclusivity means that the agreement is procompetitive within the meaning of subparagraph (B) of paragraph (3) of subdivision (a).

(2)That any patent is enforceable and infringed by the nonreference drug filer in the absence of a final adjudication binding on the filer of those issues.

(3)That the agreement caused no delay in entry of the nonreference drug filersdrug product because of the

lack of federal Food and Drug Administration (FDA) approval of that or of another nonreference drug product.

(4)That the agreement caused no harm or delay due to the possibility that the nonreference drug filersdrug product might infringe some patent that has not been asserted against the nonreference drug filer or that is not subject to a final and binding adjudication on that filer as to the patentsscope, enforceability, and infringement.

(5)This subdivision shall not be construed to preclude a party from introducing evidence regarding paragraphs (1) to (4), inclusive, and shall not be construed to preclude the factfinder from making a determination regarding paragraphs (1) to (4), inclusive, based on the full scope of the evidence.

(c)In determining whether the parties to the agreement have met their burden under paragraph (3) of subdivision (a), the factfinder shall presume that the relevant product market is that market consisting of the brand or reference drug of the company alleging patent infringement and the drug product of the nonreference company accused of infringement and any other biological product that is licensed as biosimilar or is an AB-rated generic to the reference product.

(d)(1)This section does not modify, impair, limit, or supersede the applicability of the antitrust laws of California as defined in the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), the Unfair Practices Act (Chapter 4 (commencing with Section 17000) of Part 2 of Division 7 of the Business and Professions Code), or the unfair competition law (Chapter 5 (commencing with Section 17200) of Part 2 of Division 7 of the Business and Professions Code), or the availability of damages or remedies provided therein. This section does not modify, impair, limit, or supersede the right of any drug company applicant to assert claims or counterclaims against any person, under the antitrust laws or other laws relating to unfair competition of the federal antitrust law or state law.

(2)If any provision of this division, an amendment made to this division, or the application of any provision or amendment to any person or circumstance is held to be unconstitutional, the remainder of this division, the amendments made to this division, and the application of the provisions of this division or amendments to any person or circumstance shall not be affected.

(e)(1)(A)Each person that violates or assists in the violation of this section shall forfeit and pay to the State of California a civil penalty sufficient to deter violations of this section, as follows:

(i)If the person who violated this section received any value due to that violation, an amount up to three times the value received by the party that is reasonably attributable to the violation of this section, or twenty million dollars ($20,000,000), whichever is greater.

(ii)If the violator has not received anything of value as described in clause (i), an amount up to three times the value given to other parties to the agreement reasonably attributable to the violation of this section, or twenty million dollars ($20,000,000), whichever is greater.

(iii)For purposes of this subdivision, reasonably attributable to the violation shall be determined by Californiasshare of the market for the brand drug at issue in the agreement.

(B)Any penalty described in subparagraph (A) shall accrue only to the State of California and shall be recovered in a civil action brought by the Attorney General in its own name, or by any of its attorneys designated by it for that purpose, against any party to an agreement that violates this section.

(2)Each party that violates or assists in the violation of this section shall be liable for any damages, penalties,

costs, fees, injunctions, or other remedies that may be just and reasonable and available under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), the Unfair Practices Act (Chapter 4 (commencing with Section 17000) of Part 2 of Division 7 of the Business and Professions Code), or the unfair competition law (Chapter 5 (commencing with Section 17200) of Part 2 of Division 7 of the Business and Professions Code), as applicable.

(3)If the State of California is awarded penalties under subparagraph (A) of paragraph (1), it may not recover penalties pursuant to another law identified in paragraph (2). This section shall not be construed to foreclose the State of Californiasability to claim any relief or damages available in paragraph (2), other than those that are penalties.

(4)An action to enforce a cause of action for a violation of this section shall be commenced within four years after the cause of action accrued.

(Added by Stats. 2019, Ch. 531, Sec. 1. (AB 824) Effective January 1, 2020.)

__DIVISION 116. SURPLUS MEDICATION COLLECTION AND DISTRIBUTION [150200 - 150208]__

(Division 116 added by Stats. 2005, Ch. 444, Sec. 1.)

150200.

It is the intent of the Legislature in enacting this division to authorize the establishment of a voluntary drug repository and distribution program for the purpose of distributing surplus medications to persons in need of financial assistance to ensure access to necessary pharmaceutical therapies. It is also the intent of the Legislature that the health and safety of Californians are protected and promoted through this program, while reducing unnecessary waste at licensed health and care facilities, by allowing those facilities to donate unused and unexpired medications that were never in the hands of a patient or resident and for which no credit or refund to the patient or resident could be received.

(Amended by Stats. 2012, Ch. 709, Sec. 1. (SB 1329) Effective January 1, 2013.)

150201.

For purposes of this division:

(a)Donor organization means an entity described in subdivision (a) of Section 150202.

(b)Eligible entity means all of the following:

(1)A licensed pharmacy, as defined in subdivision (a) of Section 4037 of the Business and Professions Code, that is county owned or that contracts with the county pursuant to this division and is not on probation with the California State Board of Pharmacy.

(2)A licensed pharmacy, as defined in subdivision (a) of Section 4037 of the Business and Professions Code, that is owned and operated by a primary care clinic, as defined in Section 1204, that is licensed by the State Department of Public Health and is not on probation with the California State Board of Pharmacy.

(3)A primary care clinic, as defined in Section 1204, that is licensed by the State Department of Public Health and licensed to administer and dispense drugs pursuant to subparagraph (A) of paragraph (1) of subdivision (a) of Section 4180 of the Business and Professions Code and is not on probation with the California State Board of Pharmacy.

(c)Medication or medications means a dangerous drug, as defined in Section 4022 of the Business and Professions Code.

(d)Participating entity means an eligible entity that has received written or electronic documentation from the county health department pursuant to paragraph (3) of subdivision (a) of Section 150204 and that operates a repository and distribution program pursuant to this division.

(Amended by Stats. 2014, Ch. 10, Sec. 3. (AB 467) Effective April 9, 2014.)

150202.

(a)Notwithstanding any other law, a donor organization is defined, for purposes of this division, to refer to the following facilities, hospitals, and entities that legally possess centrally stored, unused medication:

(1)A licensed general acute care hospital, as defined in Section 1250.

(2)A licensed acute psychiatric hospital, as defined in Section 1250.

(3)A licensed skilled nursing facility, as defined in Section 1250, including a skilled nursing facility designated as an institution for mental disease.

(4)A licensed intermediate care facility, as defined in Section 1250.

(5)A licensed intermediate care facility/developmentally disabled-habilitative facility, as defined in Section 1250.

(6)A licensed intermediate care facility/developmentally disabled-nursing facility, as defined in Section 1250.

(7)A licensed correctional treatment center, as defined in Section 1250.

(8)A licensed psychiatric health facility, as defined in Section 1250.2.

(9)A licensed chemical dependency recovery hospital, as defined in Section 1250.3.

(10)A licensed residential care facility for the elderly, as defined in Section 1569.2, with 16 or more residents.

(11)An approved mental health rehabilitation center, as described in Section 5675 of the Welfare and Institutions Code.

(12)An eligible entity, as defined in subdivision (b) of Section 150201.

(13)A juvenile facility, as described in Section 208.3 of the Welfare and Institutions Code.

(14)A local detention facility, as described in Section 6031.4 of the Penal Code.

(15)A facility that is any of the following:

(A)Licensed by the State Department of Social Services.

(B)Licensed by the State Department of Public Health.

(C)Licensed by the State Department of Health Care Services.

(D)Licensed by or under the jurisdiction of the Department of Corrections and Rehabilitation.

(E)Licensed by or under the jurisdiction of the Division of Juvenile Justice.

(16)A licensed home health agency, as defined in Section 1725.

(17)A licensed hospice agency, as defined in Section 1745.

(18)A licensed hospice facility, as defined in subdivision (n) of Section 1250.

(b)Medication donated by facilities pursuant to subdivision (a) shall meet the requirements of subdivisions (c) and (d) of Section 150204 and shall be unexpired medication that would have otherwise been destroyed by the facility or another appropriate entity.

(c)Medication eligible for donation by facilities pursuant to subdivision (a) shall be directly delivered from the dispensing pharmacy, wholesaler or manufacturer, to the facility and subsequently centrally stored. Centrally stored medication that originated from a patient or resident is not eligible for donation under this division.

(Amended by Stats. 2022, Ch. 886, Sec. 1. (SB 1346) Effective January 1, 2023.)

150202.5.

Notwithstanding any other law, a pharmacy, licensed in California and not on probation with the California State Board of Pharmacy may donate unused, unexpired medication that meets the requirements of subdivisions (c) and (d) of Section 150204, under a program established pursuant to this division and that meets either of the following requirements:

(a)The medication was received directly from a manufacturer or wholesaler.

(b)The medication was returned from a health facility to the issuing pharmacy, in a manner consistent with state and federal law.

(Amended by Stats. 2022, Ch. 886, Sec. 2. (SB 1346) Effective January 1, 2023.)

150203.

Notwithstanding any other provision of law, a wholesaler licensed pursuant to Article 11 (commencing with Section 4160) of Chapter 9 of Division 2 of the Business and Professions Code and a drug manufacturer that is legally authorized under federal law to manufacture and sell pharmaceutical drugs may donate unused medications under the voluntary drug repository and distribution program established by a county pursuant to this division.

(Added by Stats. 2005, Ch. 444, Sec. 1. Effective January 1, 2006.)

150204.

(a)(1)A county may establish, by an action of the county board of supervisors or by an action of the public health officer of the county, as directed by the county board of supervisors, a repository and distribution program for purposes of this division. The county shall advise the California State Board of Pharmacy within 30 days from the date it establishes a repository and distribution program.

(2)Only an eligible entity, pursuant to Section 150201, may participate in this program to dispense medication donated to the drug repository and distribution program.

(3)An eligible entity that seeks to participate in the program shall inform the county health department and the California State Board of Pharmacy in writing of its intent to participate in the program. An eligible entity may not participate in the program until it has received written or electronic documentation from the county health department confirming that the department has received its notice of intent.

(4)(A)A participating entity shall disclose to the county health department on a quarterly basis the name and location of the source of all donated medication it receives.

(B)A participating primary care clinic, as described in Section 150201, shall disclose to the county health department the name of the licensed physician who shall be accountable to the California State Board of Pharmacy for the clinicsprogram operations pursuant to this division. This physician shall be the professional director, as defined in subdivision (c) of Section 4182 of the Business and Professions Code.

(C)The county board of supervisors or public health officer of the county shall, upon request, make available to the California State Board of Pharmacy the information in this division.

(5)The county board of supervisors, the public health officer of the county, and the California State Board of Pharmacy may prohibit an eligible or participating entity from participating in the program if the entity does not comply with the provisions of the program, pursuant to this division. If the county board of supervisors, the public health officer of the county, or the California State Board of Pharmacy prohibits an eligible or participating entity from participating in the program, it shall provide written notice to the prohibited entity

within 15 days of making this determination. The county board of supervisors, the public health officer of the county, and the California State Board of Pharmacy shall ensure that this notice also is provided to one another.

(b)A county that elects to establish a repository and distribution program pursuant to this division shall establish written procedures for, at a minimum, all of the following:

(1)Establishing eligibility for medically indigent patients who may participate in the program.

(2)Ensuring that patients eligible for the program shall not be charged for any medications provided under the program.

(3)Developing a formulary of medications appropriate for the repository and distribution program.

(4)Ensuring proper safety and management of any medications collected by and maintained under the authority of a participating entity.

(5)Ensuring the privacy of individuals for whom the medication was originally prescribed.

(c)Any medication donated to the repository and distribution program shall comply with the requirements specified in this division. Medication donated to the repository and distribution program shall meet all of the following criteria:

(1)The medication shall not be a controlled substance.

(2)The medication shall not have been adulterated, misbranded, or stored under conditions contrary to standards set by the United States Pharmacopoeia (USP) or the product manufacturer.

(3)The medication shall not have been in the possession of a patient or any individual member of the public, and in the case of medications donated by a health or care facility, as described in Section 150202, shall have been under the control of a staff member of the health or care facility who is licensed in California as a health care professional or has completed, at a minimum, the training requirements specified in Section 1569.69.

(d)(1)Only medication that is donated in unopened, tamper-evident packaging or modified unit dose containers that meet USP standards is eligible for donation to the repository and distribution program, provided lot numbers and expiration dates are affixed. Medication donated in opened containers shall not be dispensed by the repository and distribution program, and once identified, shall be quarantined immediately and handled and disposed of in accordance with the Medical Waste Management Act (Part 14 (commencing with Section 117600) of Division 104).

(2)(A)A medication that is the subject of a United States Food and Drug Administration managed risk evaluation and mitigation strategy pursuant to Section 355-1 of Title 21 of the United States Code shall not be donated if this inventory transfer is prohibited by that strategy, or if the inventory transfer requires prior authorization from the manufacturer of the medication.

(B)A medication that is the subject of a United States Food and Drug Administration managed risk evaluation and mitigation strategy pursuant to Section 355-1 of Title 21 of the United States Code, the donation of which is not prohibited pursuant to subparagraph (A), shall be managed and dispensed according to the requirements of that strategy.

(e)A pharmacist or physician at a participating entity shall use his or her professional judgment in

determining whether donated medication meets the standards of this division before accepting or dispensing any medication under the repository and distribution program.

(f)A pharmacist or physician shall adhere to standard pharmacy practices, as required by state and federal law, when dispensing all medications.

(g)Medication that is donated to the repository and distribution program shall be handled in the following ways:

(1)Dispensed to an eligible patient.

(2)Destroyed.

(3)Returned to a reverse distributor or licensed waste hauler.

(4)(A)Transferred to another participating entity within the county to be dispensed to eligible patients pursuant to this division. Notwithstanding this paragraph, a participating county-owned pharmacy may transfer eligible donated medication to a participating county-owned pharmacy within another adjacent county that has adopted a program pursuant to this division, if the pharmacies transferring the medication have a written agreement between the entities that outlines protocols and procedures for safe and appropriate drug transfer that are consistent with this division.

(B)Medication donated under this division shall not be transferred by any participating entity more than once, and after it has been transferred, shall be dispensed to an eligible patient, destroyed, or returned to a reverse distributor or licensed waste hauler.

(C)Medication transferred pursuant to this paragraph shall be transferred with documentation that identifies the drug name, strength, and quantity of the medication, and the donation facility from where the medication originated shall be identified on medication packaging or in accompanying documentation. The document shall include a statement that the medication may not be transferred to another participating entity and must be handled pursuant to subparagraph (B). A copy of this document shall be kept by the participating entity transferring the medication and the participating entity receiving the medication.

(h)Medication that is donated to the repository and distribution program that does not meet the requirements of this division shall not be distributed or transferred under this program and shall be either destroyed or returned to a reverse distributor. Donated medication that does not meet the requirements of this division shall not be sold, dispensed, or otherwise transferred to any other entity.

(i)(1)Except as provided in paragraph (2), medication donated to the repository and distribution program shall be maintained in the donated packaging units until dispensed to an eligible patient under this program, who presents a valid prescription. When dispensed to an eligible patient under this program, the medication shall be in a new and properly labeled container, specific to the eligible patient and ensuring the privacy of the individuals for whom the medication was initially dispensed. Expired medication shall not be dispensed.

(2)A pharmacy that exists solely to operate the repository and distribution program may repackage a reasonable quantity of donated medicine in anticipation of dispensing the medicine to its patient population. The pharmacy shall have repackaging policies and procedures in place for identifying and recalling medications. Medication that is repackaged shall be labeled with the earliest expiration date.

(j)Medication donated to the repository and distribution program shall be segregated from the participating entitysother drug stock by physical means, for purposes including, but not limited to, inventory, accounting,

and inspection.

(k)A participating entity shall keep complete records of the acquisition and disposition of medication donated to, and transferred, dispensed, and destroyed under, the repository and distribution program. These records shall be kept separate from the participating entitysother acquisition and disposition records and shall conform to the Pharmacy Law (Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code), including being readily retrievable.

(l)Local and county protocols established pursuant to this division shall conform to the Pharmacy Law regarding packaging, transporting, storing, and dispensing all medications.

(m)County protocols established for packaging, transporting, storing, and dispensing medications that require refrigeration, including, but not limited to, any biological product as defined in Section 351 of the Public Health Service Act (42 U.S.C. Sec. 262), an intravenously injected drug, or an infused drug, shall include specific procedures to ensure that these medications are packaged, transported, stored, and dispensed at appropriate temperatures and in accordance with USP standards and the Pharmacy Law.

(n)Notwithstanding any other provision of law, a participating entity shall follow the same procedural drug pedigree requirements for donated drugs as it would follow for drugs purchased from a wholesaler or directly from a drug manufacturer.

(Amended by Stats. 2016, Ch. 316, Sec. 1. (AB 1069) Effective January 1, 2017.)

150204.5.

(a)A regional pilot program may be established in the Counties of Santa Clara and San Mateo and the City and County of San Francisco to determine the feasibility and benefits of implementing and maintaining a repository and distribution program. The regional pilot program shall run until January 1, 2030.

(b)Participating pharmacies in the regional pilot program shall be owned or operated by the Counties of Santa Clara or San Mateo or the City and County of San Francisco, licensed in California, and not on probation with the California State Board of Pharmacy.

(c)(1)Participants in the regional pilot program shall develop and implement their programs in accordance with this division.

(2)While participating in the regional pilot program, participants shall continue to meet all other legal responsibilities and requirements relating to pharmacy services and comply with all relevant state and federal statutes when administering their programs.

(d)Section 150204 shall not apply to a pilot program established pursuant to this section and Section 150204.6.

(Amended by Stats. 2023, Ch. 131, Sec. 133. (AB 1754) Effective January 1, 2024.)

150204.6.

(a)(1)A county specified in Section 150204.5 may establish, by an action of the county board of supervisors or by an action of the public health officer of the county, as directed by the county board of supervisors, a repository and distribution program for purposes of this division. The county shall advise the California State Board of Pharmacy within 30 days from the date it establishes a repository and distribution program.

(2)Only an eligible entity, pursuant to Section 150201, may participate in this program to dispense medication donated to the drug repository and distribution program.

(3)An eligible entity that seeks to participate in the program shall inform the county health department and the California State Board of Pharmacy in writing of its intent to participate in the program. An eligible entity may not participate in the program until it has received written or electronic documentation from the county health department confirming that the department has received its notice of intent.

(4)(A)A participating primary care clinic, as described in Section 150201, shall disclose to the county health department the name of the licensed physician who shall be accountable to the California State Board of Pharmacy for the clinicsprogram operations pursuant to this division. This physician shall be the professional director, as defined in subdivision (c) of Section 4182 of the Business and Professions Code.

(B)The county board of supervisors or public health officer of the county shall, upon request, make available to the California State Board of Pharmacy the information in this division.

(5)The county board of supervisors, the public health officer of the county, and the California State Board of Pharmacy may prohibit an eligible or participating entity from participating in the program if the entity does not comply with the provisions of the program, pursuant to this division. If the county board of supervisors, the public health officer of the county, or the California State Board of Pharmacy prohibits an eligible or participating entity from participating in the program, it shall provide written notice to the prohibited entity within 15 days of making this determination. The county board of supervisors, the public health officer of the county, and the California State Board of Pharmacy shall each ensure that this notice is also provided to the other two entities.

(b)A county that elects to establish a repository and distribution program pursuant to this division shall establish written procedures for, at a minimum, all of the following:

(1)Establishing eligibility for medically indigent patients who may participate in the program.

(2)Ensuring that patients eligible for the program shall not be charged for any medications provided under the program.

(3)Developing a formulary of medications appropriate for the repository and distribution program.

(4)Ensuring proper safety and management of any medications collected by and maintained under the authority of a participating entity.

(5)Ensuring the privacy of individuals for whom the medication was originally prescribed.

(c)Medication donated to the repository and distribution program or transferred between participating entities shall comply with the requirements specified in this division. Medication donated to the repository and distribution program shall meet all of the following criteria:

(1)The medication shall not be a controlled substance.

(2)The medication shall not have been adulterated, misbranded, or stored under conditions contrary to standards set by the United States Pharmacopoeia (USP) or the product manufacturer.

(3)The medication shall not have been in the possession of a patient or any individual member of the public, and in the case of medications donated by a hospital, facility, or entity, as described in Section 150202, shall have been under the control of a staff member of the health or care facility who is licensed in California as a health care professional or has completed, at a minimum, the training requirements specified in Section 1569.69.

(d)(1)Only medication that is donated in unopened, tamper-evident packaging or modified unit dose containers that meet USP standards is eligible for donation to the repository and distribution program, provided lot numbers and expiration dates are affixed. Medication donated in opened containers shall not be dispensed by the repository and distribution program, and once identified, shall be quarantined immediately and handled and disposed of in accordance with the Medical Waste Management Act (Part 14 (commencing with Section 117600) of Division 104).

(2)(A)A medication that is the subject of a United States Food and Drug Administration managed risk evaluation and mitigation strategy pursuant to Section 355-1 of Title 21 of the United States Code shall not be donated if this inventory transfer is prohibited by that strategy, or if the inventory transfer requires prior authorization from the manufacturer of the medication.

(B)A medication that is the subject of a United States Food and Drug Administration managed risk evaluation and mitigation strategy pursuant to Section 355-1 of Title 21 of the United States Code, the donation of which is not prohibited pursuant to subparagraph (A), shall be managed and dispensed according to the requirements of that strategy.

(e)A pharmacist or physician at a participating entity shall use their professional judgment in determining whether donated medication meets the standards of this division before accepting or dispensing medication under the repository and distribution program.

(f)A pharmacist or physician shall adhere to standard pharmacy practices, as required by state and federal law, when dispensing all medications.

(g)Medication that is donated to the repository and distribution program shall be handled in the following ways:

(1)Dispensed to an eligible patient.

(2)Destroyed.

(3)Returned to a reverse distributor or licensed waste hauler.

(4)(A)Transferred to another participating entity within the county to be dispensed to eligible patients pursuant to this division. Notwithstanding this paragraph, a participating county-owned pharmacy may transfer eligible donated medication to a participating county-owned pharmacy within another adjacent county that has adopted a program pursuant to this division, if the pharmacies transferring the medication have a written agreement between the entities that outlines protocols and procedures for safe and appropriate drug transfer that are consistent with this division.

(B)Medication donated under this division may be transferred more than once only within the county and after the final transfer shall be dispensed to an eligible patient, destroyed, or returned to a reverse distributor

or licensed waste hauler.

(C)Medication transferred pursuant to this paragraph shall be transferred with documentation that identifies the drug name, strength, and quantity of the medication, original manufacturer lot numbers, and current expiration date. The document shall include a statement that the medication shall be handled pursuant to subparagraph (B). A copy of this document shall be kept by the participating entity transferring the medication and the participating entity receiving the medication.

(D)Medication donated from multiple facilities under this division may be commingled by the participating entity. However, in the event of a recall, recalled medication shall be destroyed at the National Drug Code level.

(E)Participating facilities shall maintain a system for recording and logging donated medication which allows the tracking of medication in each repackaged container back to the facility or facilities that donated the medication.

(h)Medication that is donated to the repository and distribution program that does not meet the requirements of this division shall not be distributed or transferred under this program and shall be either destroyed or returned to a reverse distributor. Donated medication that does not meet the requirements of this division shall not be sold, dispensed, or otherwise transferred to any other entity.

(i)(1)When dispensed to an eligible patient under this program, the donated medication shall be in a new, properly labeled container, specific to the eligible patient and ensuring the privacy of the individuals for whom the medication was initially dispensed. However, medications donated in sealed manufacturerspackaging are not required to be placed into a new container, but shall otherwise be appropriately labeled. Expired medication shall not be dispensed.

(2)The pharmacy shall have repackaging policies and procedures in place for identifying and recalling medications. Medication that is repackaged shall be labeled with the earliest expiration date. Repackaged medication can only be dispensed to patients within the county.

(j)A participating entity shall keep complete records of the acquisition and disposition of medication donated to, and transferred, dispensed, and destroyed under, the repository and distribution program. Notwithstanding any other law, the acquisition record created by a participating entity may be used as the donation, destruction, or disposition record required of a donor organization for donated medication.

(k)Local and county protocols established pursuant to this division shall conform to the Pharmacy Law regarding packaging, transporting, storing, and dispensing all medications.

(l)County protocols established for packaging, transporting, storing, and dispensing medications that require refrigeration, including, but not limited to, a biological product as defined in Section 351 of the federal Public Health Service Act (42 U.S.C. Sec. 262), an intravenously injected drug, or an infused drug, shall include specific procedures to ensure that these medications are packaged, transported, stored, and dispensed at appropriate temperatures and in accordance with USP standards and the Pharmacy Law.

(m)Notwithstanding any other law, a participating entity shall follow the same federal and state procedural drug pedigree requirements for donated drugs as it would follow for drugs purchased from a wholesaler or directly from a drug manufacturer.

(n)On January 1, 2028, the California State Board of Pharmacy shall submit to the Legislature an evaluation of the regional pilot programs and pilot participants™ compliance to program requirements as specified in this

division. The report shall comply with Section 9795 of the Government Code.

(o)A participating entity shall disclose to the California State Board of Pharmacy any medication errors, as that term is described in Section 1716 of Title 16 of the California Code of Regulations, arising out of a program under this division, within 30 days of a participating entity discovering the medication error.

(p)This section shall remain in effect only until January 1, 2030, and as of that date is repealed.

(Amended by Stats. 2023, Ch. 131, Sec. 134. (AB 1754) Effective January 1, 2024. Repealed as of January 1, 2030, by its own provisions.)

150205.

(a)The following persons and entities shall not be subject to criminal or civil liability for injury caused when any entity or person donates, accepts, or dispenses prescription drugs in compliance with this division:

(1)A prescription drug manufacturer, wholesaler, governmental entity, or participating entity.

(2)A pharmacist or physician who accepts or dispenses prescription drugs.

(3)A licensed facility, as described in Section 150202, or a pharmacy, as described in Section 150202.5.

(b)A surplus medication collection and distribution intermediary, as described in Section 150208, shall not be subject to criminal or civil liability for injury caused when facilitating the donation of medications to or transfer of medications in compliance with this division.

(Amended by Stats. 2022, Ch. 886, Sec. 5. (SB 1346) Effective January 1, 2023.)

150206.

The immunities provided in Section 150205 shall not apply in cases of noncompliance with this division, bad faith, or gross negligence.

(Added by Stats. 2005, Ch. 444, Sec. 1. Effective January 1, 2006.)

150207.

Nothing in this division shall affect disciplinary actions taken by licensing and regulatory agencies.

(Added by Stats. 2005, Ch. 444, Sec. 1. Effective January 1, 2006.)

150208.

(a)A surplus medication collection and distribution intermediary that is licensed pursuant to Section 4169.5 of the Business and Professions Code, established for the purpose of facilitating the donation of medications to or transfer of medications between participating entities under a program established pursuant to this division is authorized to operate under this section.

(b)A surplus medication collection and distribution intermediary shall comply with the following:

(1)It shall not take possession, custody, or control of dangerous drugs and devices.

(2)It shall ensure that notification is provided to participating entities that a package has been shipped when the surplus medication collection and distribution intermediary has knowledge of the shipment and provided logistical support to facilitate a shipment directly from a donor organization, as defined in subdivision (a) of Section 150202, to a participating entity.

(3)It shall not select, or direct a donor organization, as defined in subdivision (a) of Section 150202, to select, a specific participating entity to receive surplus medications.

(c)A surplus medication collection and distribution intermediary is authorized to do the following:

(1)Charge membership, administrative, or overhead fees sufficient to cover the reasonable costs of the support and services provided.

(2)Contract directly with a county to facilitate the donation of medications to or transfer of medications between participating entities and provide general support in a countysimplementation of a program established pursuant to this division.

(d)No participating entities shall receive donated medication directly from the surplus medication collection and distribution intermediary.

(Added by Stats. 2014, Ch. 10, Sec. 6. (AB 467) Effective April 9, 2014.)

150401.

For purposes of this division, the following definitions apply:

(a)Donor means an individual who donates unused prescription drugs to a participating practitioner for the purpose of redistribution to established patients of that practitioner.

(b)Ineligible drugs means drugs that are not able to be accepted for redistribution as part of the program established pursuant to this division. Ineligible drugs include all controlled substances, including all opioids, all compounded medications, injectable medications, drugs that have an approved United States Food and Drug Administration Risk Evaluation and Mitigation Strategy (REMS) requirement, and all growth factor medications.

(c)Participating practitioner means a person who is licensed to practice medicine by the Medical Board of California and is board certified in medical oncology or hematology and is registered with a surplus medication collection and distribution intermediary.

(d)Recipient means an individual who voluntarily receives donated prescription medications.

(e)Surplus medication collection and distribution intermediary means an entity licensed pursuant to Section 4169.5 of the Business and Professions Code as a surplus medication collection and distribution intermediary, as described in Section 150208.

(f)Unused cancer medication or medication means a medication or drug, including a dangerous drug as defined in Section 4022 of the Business and Professions Code or a drug as defined in Section 4025 of the Business and Professions Code, that is prescribed as part of a cancer treatment plan and is in its original container or packaging.

(Added by Stats. 2021, Ch. 541, Sec. 2. (SB 310) Effective January 1, 2022. Repealed as of January 1, 2027, pursuant to Section 150404.)

150403.

(a)A participating practitioner shall comply with all of the following:

(1)Be registered with a surplus medication collection and distribution intermediary in order to participate in the program established pursuant to this division and Article 11.7 (commencing with Section 4169.7) of Chapter 9 of Division 2 of the Business and Professions Code.

(2)Only accept donated medications originally prescribed for use by established patients of that participating practitioner or practice.

(3) Distribute a medication only if it will not expire before the proper use by the recipient based on the participating practitionersdirections for use.

(4)Refuse a medication that has previously been redistributed.

(5)Store all donated medications separately from all other medication stock.

(6)Store all donated medications in compliance with the manufacturersstorage requirements per the drug monograph.

(7)Remove or redact all confidential patient information, personal information, and any other information through which the prior patient could be identified from donated medications.

(8)Require all donors to read and sign the donor form approved by the surplus medication collection and distribution intermediary.

(9)Keep all donor forms and recipient forms in the records for at least three years.

(10)Examine the donated drug to determine that it has not been adulterated or misbranded and certify that

the medication has been stored in compliance with the requirements of the product.

(11)Require all recipients of a donated medication to read and sign the recipient form approved by the surplus medication collection and distribution intermediary.

(12)Dispose of any donated medications that were collected but not redistributed in accordance with all local, state, and federal requirements for the disposal of medications.

(13)Monitor all United States Food and Drug Administration (FDA) or manufacturer recalls, market withdrawals, and safety alerts and communicate with recipients if medications they received may be impacted by the FDA action.

(14)Inspect all donated medications to determine that the drugs are unaltered, safe, and suitable for redistribution and meet all of the following conditions:

(A)Tamper-resistant packaging is unopened and intact or, in the case of unit dose packaging, the tamper-resistant dose packaging is intact for each dose donated.

(B)Tablets or capsules have a uniformity of color, shape, imprint or markings, texture, and odor.

(C)Liquids have a uniformity of color, thickness, particulates, transparency, and odor.

(D)The date of donation is less than six months from the date of the initial prescription or prescription refill.

(15)Establish policies and procedures for the administration of the cancer medication recycling program, including, but not limited to, criteria for determining medication distribution to patients. Provide the surplus medication collection and distribution intermediary with updated sections of their policy and procedures manual that indicate how the practitioner will accept, reuse, and keep records of donated medications, if requested.

(b)A donor is not subject to a penalty pursuant to the Sherman Food, Drug, and Cosmetic Law, as set forth in Part 5 (commencing with Section 109875) of Division 104, for an injury caused when donating, accepting, or dispensing medication in compliance with this division, unless an injury arising from the donated medication is caused by the gross negligence, recklessness, or intentional conduct of the donor, or in cases of noncompliance with this division.

(c)A participating practitioner that receives and redistributes a donated medication is not subject to a penalty pursuant to the Sherman Food, Drug, and Cosmetic Law, as set forth in Part 5 (commencing with Section 109875) of Division 104, resulting from the condition of the donated medication unless an injury arising from the donated medication is caused by the gross negligence, recklessness, or intentional conduct of the participating practitioner, in cases of noncompliance with this division, or in cases of malpractice unrelated to the quality of the medication.

(d)The following persons and entities are not subject to criminal or civil liability for an injury caused when participating in the program established pursuant to this division, including, but not limited to, donating, accepting, or dispensing prescription drugs in compliance with this division:

(1)A prescription drug manufacturer, wholesaler, or participating entity.

(2)A participating practitioner who accepts or dispenses prescription drugs.

(3)A donor, as defined in Section 150401.

(4)A surplus medication collection and distribution intermediary.

(e)The immunities provided in subdivision (d) do not apply in cases of noncompliance with this division, gross negligence, recklessness, intentional conduct, or in cases of malpractice unrelated to the quality of the medication.

(f)This division shall not affect disciplinary actions taken by licensing and regulatory agencies.

(Added by Stats. 2021, Ch. 541, Sec. 2. (SB 310) Effective January 1, 2022. Repealed as of January 1, 2027, pursuant to Section 150404.)

150500.

(a)The State Department of Public Health, the Department of Food and Agriculture, and the Department of Fish and Wildlife shall jointly establish and administer the One Health Program for the purpose of developing a framework for interagency coordination in responding to zoonotic diseases and reducing hazards to human and nonhuman animal health, in accordance with the One Health principles set forth by the federal Centers for Disease Control and Prevention (CDC).

(b)The State Department of Public Health, the Department of Food and Agriculture, and the Department of Fish and Wildlife shall develop the framework for the One Health Program in consultation with stakeholders, which may include, but are not limited to, the One Health Office of the CDC, the Medical Board of California, the Veterinary Medical Board, agricultural programs, institutes, or schools within the University of California system or California State University system, animal welfare organizations, and community-based organizations.

(c)(1)The State Department of Public Health, the Department of Food and Agriculture, and the Department of Fish and Wildlife, in developing the framework, shall establish goals, identify activities necessary to achieve those goals, and recommend legislation or other actions to advance One Health efforts.

(2)The three departments shall periodically post joint reports on their respective internet websites and shall submit the joint reports to the Legislative AnalystsOffice, containing the information described in paragraph (1).

(d)Upon the three departments™ initial development of the framework described in this section, the Legislative AnalystsOffice shall submit to the relevant policy and fiscal committees of the Legislature a single report containing both of the following:

(1)An assessment of whether the framework is a reasonable approach to meeting the purpose of the One Health Program as described in this section.

(2)Recommendations for ways in which the Legislature could conduct regular oversight of the frameworksimplementation.

(e)This section shall be implemented subject to an appropriation by the Legislature for the purposes described in this section.

(Added by Stats. 2022, Ch. 990, Sec. 2. (SB 1029) Effective January 1, 2023.)

150900.

(a)The Transgender, Gender Nonconforming, and Intersex (TGI) Wellness and Equity Fund is established in the State Treasury.

(b)The State Department of Public HealthsOffice of Health Equity shall administer the TGI Wellness and Equity Fund for purposes of funding grants to create programs, or funding existing programs, focused on coordinating trans-inclusive health care for individuals who identify as transgender, gender nonconforming, or intersex.

(c)Upon appropriation by the Legislature, moneys in the TGI Wellness and Equity Fund may be used to fund grants for the following purposes:

(1)The grants shall be available to TGI-serving organizations for the purpose of increasing the capacity of health care professionals to effectively provide TGI health care and institute TGI-inclusive best practices. This includes the creation of educational materials or facilitation of capacity-building trainings.

(2)The grants shall be available to TGI-serving organizations for the purpose of facilitating therapeutic arts programs, such as dancing, painting, or writing.

(3)The grants shall be available to TGI-serving organizations for purposes of assisting, identifying, and referring TGI people to access supportive housing. This includes case management opportunities, financial assistance, and assisting TGI people in receiving and utilizing housing vouchers. If a TGI-serving organization has already implemented a TGI-specific housing program, funding may be utilized to maintain or expand existing housing programs.

(4)The grants shall be available to a hospital, health care clinic, or other medical provider that currently provides gender-affirming health care services, such as hormone therapy or gender reassignment surgery, to continue providing those services, or to a hospital, health care clinic, or other medical provider that will establish a program that offers gender-affirming health care services and has an established relationship with a TGI-serving organization that will lead in establishing the program.

(d)A hospital, health care clinic, or other medical provider that applies for a grant must apply in partnership with a TGI-serving organization and consult with the TGI-serving organization throughout the process of creating and implementing its trans-inclusive health care program.

(e)This section does not limit or impact payer coverage requirements of health care or other social services.

(f)For purposes of this section, the following definitions apply:

(1)Health care means all of the following:

(A)Medical, behavioral, and spiritual care, which includes, but is not limited to, guided meditation and nondenominational therapy.

(B)Therapeutic arts programs, which includes, but is not limited to, dancing, painting, and writing classes.

(C)Services related to substance use disorder or substance abuse.

(D)Supportive housing as a mechanism to support TGI-identified individuals in accessing other social services.

(2)A TGI-serving organization means either of the following:

(A)A public or nonprofit organization with a mission statement that centers around serving transgender, gender nonconforming, and intersex people, and where at least 65 percent of the clients of the organization are TGI.

(B)A nonprofit that serves as the fiscal agent or sponsor for an organization described in subparagraph (A). A nonprofit that is serving as a fiscal agent or sponsor shall pass all funding to the organization, but may charge a reasonable or industry standard fee for administrative costs of not more than 16 percent.

(3)Transgender is broad and inclusive of all gender identities different from the gender a person was assigned at birth.

(4)Gender nonconforming is an inclusive term used to describe individuals who may experience a gender that is neither exclusively male nor female or is in between or beyond both of those genders, including, but not limited to, nonbinary, gender fluid, agender or without gender, third gender, genderqueer, gender variant, Two-Spirit, Hijra, Kathoey, Mak nyah, Muxe, Waria, MÄhÅ«, and Fa™afafine.

(5)Intersex is an umbrella term referring to people whose anatomy, hormones, or chromosomes fall outside the strict male and female binary.

(Amended by Stats. 2022, Ch. 869, Sec. 1. (AB 2521) Effective January 1, 2023.)

__DIVISION 119.1. Transgender, Gender Variant, and Intersex Wellness Reentry [150925- 150925.]__

(Division 119.1 added by Stats. 2023, Ch. 845, Sec. 2.)

150925.

(a)The Transgender, Gender Variant, and Intersex (TGI) Wellness Reentry Fund is established in the State Treasury.

(b)The State Department of Public HealthsOffice of Health Equity shall administer the TGI Wellness Reentry Fund for purposes of funding grants to create programs, or funding existing programs, focused on reentry programming specifically to support TGI people who have experienced carceral systems.

(c)Upon appropriation by the Legislature, moneys in the TGI Wellness Reentry Fund may be used to fund grants to existing and new TGI-specific reentry programs run by TGI-serving organizations. Reentry programs include, but are not limited to, emergency, transitional, or permanent housing, employment linkage and support, direct employment opportunities, workforce development and career development training, entrepreneurship opportunities, mental and general health care, identity document updating services, legal assistance, computer training, services navigation, case management, financial assistance and literacy, and other wraparound and comprehensive services.

(d)For purposes of this section, the following definitions apply:

(1)Transgender has the same meaning as defined in paragraph (3) of subdivision (f) of Section 150900.

(2)Gender Variant has the same meaning as gender nonconforming as defined in paragraph (4) of subdivision (f) of Section 150900.

(3)Intersex has the same meaning as defined in paragraph (5) of subdivision (f) of Section 150900.

(4)TGI-serving organization has the same meaning as defined in Section 150900.

(Added by Stats. 2023, Ch. 845, Sec. 2. (AB 1487) Effective January 1, 2024.)

__DIVISION 119.5. Transgender, Gender Diverse, or Intersex Health Care Quality Standards [150950-150950.]__

(Division 119.5 added by Stats. 2022, Ch. 822, Sec. 4.)

150950.

(a)No later than March 1, 2023, the California Health and Human Services Agency shall convene a working

group of representatives from at least three TGI-serving organizations, at least three individual California residents who identify as TGI, health care providers, and one appointee representing each of the following state agencies:

(1)The Department of Managed Health Care.

(2)The Department of Insurance.

(3)The State Department of Health Care Services.

(4)The California Health Benefit Exchange.

(5)CalPERS.

(6)The State Department of Public Health.

(b)The working group shall be charged with developing a quality standard for patient experience to measure cultural competency related to the TGI community and recommend training curriculum to provide trans-inclusive health care. This shall be done with input from health care providers, experts on quality measurement, additional stakeholders, and other entities the agency deems necessary. The working group shall conduct at least four listening sessions across the state with patients from the TGI community. The quality standard and recommendations for curriculum shall be developed no later than March 1, 2024.

(c)The agency may contract with consultants to assist the working group with the implementation and administration of its duties under this section. Contracts entered into pursuant to the authority in this subdivision shall be exempt from Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code, Section 19130 of the Government Code, and Chapter 6 (commencing with Section 14825) of Part 5.5 of Division 3 of Title 2 of the Government Code and shall be exempt from the review or approval of any division of the Department of General Services.

(d)For purposes of this section, the following definitions apply:

(1)TGI means transgender, gender diverse, or intersex.

(2)TGI-serving organization has the same meaning as set forth in paragraph (2) of subdivision (f) of Section 150900.

(Added by Stats. 2022, Ch. 822, Sec. 4. (SB 923) Effective January 1, 2023.)

__Health and Safety Code - HSC__

__DIVISION 120. SEXUAL HEALTH EDUCATION ACCOUNTABILITY ACT [151000 - 151003]__

(Division 120 added by Stats. 2007, Ch. 602, Sec. 1.)

151000.

This division shall be known, and may be cited, as the Sexual Health Education Accountability Act.

(Added by Stats. 2007, Ch. 602, Sec. 1. Effective January 1, 2008.)

151001.

For purposes of this division, the following definitions shall apply:

(a)Age appropriate means topics, messages, and teaching methods suitable to particular ages or age groups of children and adolescents, based on developing cognitive, emotional, and behavioral capacity typical for the age or age group.

(b)A sexual health education program means a program that provides instruction or information to prevent adolescent pregnancy, unintended pregnancy, or sexually transmitted diseases, including HIV, that is conducted, operated, or administered by any state agency, is funded directly or indirectly by the state, or receives any financial assistance from state funds or funds administered by a state agency, but does not include any program offered by a school district, a county superintendent of schools, or a community college district.

(c)Medically accurate means verified or supported by research conducted in compliance with scientific methods and published in peer review journals, when appropriate, and recognized as accurate and objective by professional organizations and agencies with expertise in the relevant field, including, but not limited to, the federal Centers for Disease Control and Prevention, the American Public Health Association, the Society for Adolescent Health and Medicine, the American Academy of Family Physicians, the American Academy of Pediatrics, and the American College of Obstetricians and Gynecologists.

(Amended by Stats. 2019, Ch. 632, Sec. 12. (AB 1622) Effective January 1, 2020.)

151002.

(a)Every sexual health education program shall satisfy all of the following requirements:

(1)All information shall be medically accurate, current, and objective.

(2)Individuals providing instruction or information shall know and use the most current scientific data on human sexuality, human development, pregnancy, and sexually transmitted diseases.

(3)The program content shall be age appropriate for its targeted population.

(4)The program shall be culturally and linguistically appropriate for its targeted populations.

(5)The program shall not teach or promote religious doctrine.

(6)The program shall not reflect or promote bias against any person on the basis of disability, gender, nationality, race or ethnicity, religion, or sexual orientation, as defined in Section 422.56 of the Penal Code.

(7)The program shall provide information about the effectiveness and safety of at least one or more drug or device approved by the federal Food and Drug Administration for preventing pregnancy and for reducing the risk of contracting sexually transmitted diseases.

(b)A sexual health education program that is directed at minors shall comply with all of the criteria in subdivision (a) and shall also comply with both the following requirements:

(1)It shall include information that the only certain way to prevent pregnancy is to abstain from sexual intercourse, and that the only certain way to prevent sexually transmitted diseases is to abstain from activities that have been proven to transmit sexually transmitted diseases.

(2)If the program is directed toward minors under the age of 12 years, it may, but is not required to, include information otherwise required pursuant to paragraph (7) of subdivision (a).

(c)A sexual health education program conducted by an outside agency at a publicly funded school shall comply with the requirements of Section 51934 of the Education Code if the program addresses HIV/AIDS and shall comply with Section 51933 of the Education Code if the program addresses pregnancy prevention and sexually transmitted diseases other than HIV/AIDS.

(d)An applicant for funds to administer a sexual health education program shall attest in writing that its program complies with all conditions of funding, including those enumerated in this section. A publicly funded school receiving only general funds to provide comprehensive sexual health instruction or HIV/AIDS prevention instruction shall not be deemed an applicant for the purposes of this subdivision.

(e)If the program is conducted by an outside agency at a publicly funded school, the applicant shall indicate in writing how the program fits in with the schoolsplan to comply fully with the requirements of the California Comprehensive Sexual Health and HIV/AIDS Prevention Education Act, Chapter 5.6 (commencing with Section 51930) of the Education Code. Notwithstanding Section 47610 of the Education Code, publicly funded school includes a charter school for the purposes of this subdivision.

(f)Monitoring of compliance with this division shall be integrated into the grant monitoring and compliance procedures. If the agency knows that a grantee is not in compliance with this section, the agency shall terminate the contract or take other appropriate action.

(g)This section shall not be construed to limit the requirements of the California Comprehensive Sexual Health and HIV/AIDS Prevention Education Act (Chapter 5.6 (commencing with Section 51930) of Part 28 of the Education Code).

(h)This section shall not apply to one-on-one interactions between a health practitioner and his or her patient in a clinical setting.

(Added by Stats. 2007, Ch. 602, Sec. 1. Effective January 1, 2008.)

151003.

This division shall apply only to grants that are funded pursuant to contracts entered into or amended on or after January 1, 2008.

(Added by Stats. 2007, Ch. 602, Sec. 1. Effective January 1, 2008.)
