__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Administration [110045 - 110243]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. California Rx Prescription Drug Web Site Program [110242 - 110243]__

(Article 5 added by Stats. 2006, Ch. 720, Sec. 4.)

110242.

(a)The California Rx Prescription Drug Web Site Program is hereby established.

(b)The State Department of Health Care Services shall administer the program. The purpose of the program shall be to provide information to California residents and health care providers about options for obtaining prescription drugs at affordable prices.

(c)The department shall establish a Web site on or before July 1, 2008, which shall, at a minimum, provide information about, and electronic links to, all of the following:

(1)Prescription drug benefits available to Medicare beneficiaries, including the Voluntary Prescription Drug Benefit Program.

(2)State programs that provide drugs at discounted prices for California residents.

(3)Pharmaceutical manufacturer patient assistance programs that provide free or low-cost prescription drugs

to qualifying individuals.

(4)Other Web sites as deemed appropriate by the department that help California residents to safely obtain prescription drugs at affordable prices, including links to Web sites of health plans and health insurers regarding their prescription drug formularies.

(d)The departmentsWeb site shall include price comparisons of at least 150 commonly prescribed prescription drugs, including typical prices charged by licensed pharmacies in the state.

(e)The department shall ensure that the Web site established pursuant to this section is coordinated with, and does not duplicate, other Web sites that provide information about prescription drug options and costs.

(f)Implementation of this section shall be contingent upon an appropriation, if the department determines that the requirements of this section cannot be implemented without additional funding, in which case the department shall request an appropriation from the Legislature for that purpose.

(Amended by Stats. 2007, Ch. 483, Sec. 23. Effective January 1, 2008.)

110243.

(a)Contracts and change orders entered into pursuant to this article and any project or systems development notice shall be exempt from all of the following:

(1)The competitive bidding requirements of State Administrative Manual Management Memo 03-10.

(2)The project authority requirements of Sections 4800 and following of the State Administrative Manual.

(3)Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code.

(4)Article 4 (commencing with Section 19130) of Chapter 5 of Part 2 of Division 5 of the Government Code.

(5)Section 11.05 of, and Provision 6 of Item 4260-001-0001 of, Section 2.00 of the Budget Act of 2005 (Ch. 38, Stats. 2005).

(b)Change orders entered into pursuant to this article shall not require a contract amendment.

(Added by Stats. 2006, Ch. 720, Sec. 4. Effective January 1, 2007.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 3. Guarantees [110245 - 110285]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 6.)

110245.

No dealer shall be prosecuted under this part for a violation concerning any food, drug, device, or cosmetic that is contained in an original, unbroken, and undamaged package that bears the original labeling if all of the following requirements are satisfied:

(a) He or she has used reasonable care in the storage and handling of the food, drug, device, or cosmetic.

(b) He or she received the food, drug, device, or cosmetic in the usual channels of trade as first-class merchantable stock and not as seconds or damaged articles or job lots purchased under conditions that indicate that the food, drug, device, or cosmetic was not usual first-class merchandise.

(c) He or she can produce a guarantee to the effect that the food, drug, device, or cosmetic is not adulterated, misbranded, or falsely advertised, within the meaning of this part, or that it is not a food, drug, device, or cosmetic which, pursuant to this part, may not be sold or offered for sale in this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110250.

The guarantee shall be dated prior to the date of sale of the food, drug, device, or cosmetic and it shall be signed by the wholesaler, jobber, manufacturer, or other person located or residing in this state from whom the dealer received the food, drug, device, or cosmetic in good faith.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110255.

A guarantee may be either a general guarantee or a special guarantee and shall be produced prior to the time of reporting an alleged violation to the Attorney General, the district attorney, or a city attorney for prosecution.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110260.

A general guarantee shall guarantee without condition or restriction any food, drug, device, or cosmetic that is produced, prepared, compounded, packed, distributed, or sold by the guarantor as not adulterated, mislabeled, misbranded, falsely advertised, or that the article is not an article under this part that may not be sold or offered for sale.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110265.

A special guarantee shall guarantee in the same manner as a general guarantee the particular food, drug, device, or cosmetic listed in an invoice of the food, drug, device, or cosmetic, and shall be attached to, or shall fully identify, the invoice.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110270.

All guarantees shall contain the name and address of the guarantor making the sale of food, drug, device, or cosmetic. A guarantee shall protect the person only when the food, drug, device, or cosmetic covered by the guarantee remains identical, both as to composition and labeling, with the food, drug, device, or cosmetic as composed and labeled when originally received from the guarantor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110275.

It is unlawful for any person to give a guarantee or undertaking that is false.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110280.

If the guarantee is to the effect that the food, drug, device, or cosmetic is not in violation within the meaning of the federal act, it shall be sufficient for all the purposes of this part, and shall have the same force and effect as though it referred to this part, unless, pursuant to this part, the standard for the food, drug, device, or cosmetic concerned is higher than the standard for a like food, drug, device, or cosmetic under the federal act. In that case, this part shall prevail over the federal act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110285.

In any case where the department has adopted a regulation prescribing a tolerance, including, but not limited to, a zero tolerance, for a poisonous or deleterious substance, food additive, pesticide chemical, or color additive in processed foods, the department may require manufacturers to guarantee that foods they market in the state comply with the tolerance. The department may require a guarantee periodically but in no case more often than once each calendar quarter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 3.5. Expiration Dates [110286- 110286.]__

(Chapter 3.5 added by Stats. 2011, Ch. 681, Sec. 1.)

110286.

(a)A retailer shall not sell or offer for sale after the expiration date an over-the-counter drug.

(b)Notwithstanding Section 111825, any retailer who violates this section is guilty of an infraction, punishable by a fine of not more than ten dollars ($10) per day for each item sold or offered for sale after the expiration date. The fine shall be calculated based upon the number of days past the expiration date that the product is either found being offered for sale, or if the product is sold, the date of sale as established by evidence of proof of purchase, including, but not limited to, a sales receipt.

(c)The department may assess administrative penalties on a retailer who violates this section in the amount of ten dollars ($10) per day for each item sold or offered for sale, in addition to other penalties authorized by law.

(d)For purposes of this section,over-the-counter drug means a nonprescription drug regulated by the federal Food and Drug Administration that is required to have an expiration date on its packaging pursuant to the federal act and federal regulations adopted pursuant to the federal act, including, but not limited to, Section 211.137 of Title 21 of the Code of Federal Regulations.

(Added by Stats. 2011, Ch. 681, Sec. 1. (AB 688) Effective January 1, 2012.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Packaging, Labeling,and Advertising [110290 - 110423.101]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. General [110290 - 110335]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

110290.

In determining whether the labeling or advertisement of a food, drug, device, or cosmetic is misleading, all representations made or suggested by statement, word, design, device, sound, or any combination of these, shall be taken into account. The extent that the labeling or advertising fails to reveal facts concerning the food, drug, device, or cosmetic or consequences of customary use of the food, drug, device, or cosmetic shall also be considered.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110295.

The requirement that any word, statement, or other information appear on the label shall not be considered to be complied with unless the word, statement, or other information also appears on the outside container or wrapper of the retail package of any food, drug, device, or cosmetic, or is easily legible through the outside container or wrapper.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110300.

It is unlawful for any person to forge, counterfeit, simulate, falsely represent, or without proper authority use, any mark, stamp, tag, label, or other identification device that is authorized or required by regulations adopted pursuant to this part or the federal act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110310.

It is unlawful for any manufacturer, packer, or distributor of a prescription drug or device offered for sale in this state to fail to maintain for transmittal or to fail to transmit to any practitioner licensed by applicable state law to administer the drug or device who makes written request for information as to the drug or device true and correct copies of all printed matter that is required to be included in any package in which that drug or device is distributed or sold. Nothing in this section shall be construed to exempt any person from any labeling requirement imposed by or under other provisions of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110315.

It is unlawful for any person, with the intent to deceive, to place, or cause to be placed upon any food, drug, device, or cosmetic, or its package, the trade name or other identifying mark or imprint of another person or any likeness of the trade name or other identifying mark or imprint of another person.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110320.

It is unlawful for any person to sell, dispense, dispose of, hold, or conceal any food, drug, device, or cosmetic or its package, with knowledge that the trade name or other identifying marks, imprint, or likeness of the trade name or other identifying mark or imprint of another person has been placed on the food, drug, device, or cosmetic or its package in a manner prohibited by Section 110315.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110325.

It is unlawful for any person to possess, make, sell, dispose of, cause to be made, or conceal any punch, die, plate, or other device that may be used to render a food, drug, device, or cosmetic or its package or labeling a counterfeit.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110330.

It is unlawful for any person to do any act that causes any food, drug, device, or cosmetic to be a counterfeit, or to sell, dispense, or hold for sale or dispensing, the counterfeit food, drug, device, or cosmetic.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110335.

The department may adopt regulations exempting from any labeling or packaging requirements of this part any food, drug, device, or cosmetic that is in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed and packed, on condition that the food, drug, device, or cosmetic is not adulterated or misbranded under the provisions of this part upon removal from the processing, labeling, or repacking establishment. Such food, drug, device, or cosmetic is subject to all other applicable provisions of this part.

All regulations relating to the exemptions that are in effect on the effective date of this part, or that are adopted on or after that date, pursuant to the federal act, are automatically effective in this state. The department may, however, adopt any additional regulations concerning exemptions.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Packaging, Labeling,and Advertising [110290 - 110423.101]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Fair Packaging and Labeling [110340 - 110385]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

110340.

All labels of foods, drugs, devices, or cosmetics shall conform with the requirements of the declaration of net quantity of contents of Section 4 of the Fair Packaging and Labeling Act (80 Stat. 1296; 15 U.S.C., Sec. 1451) and the regulations adopted pursuant thereto. Foods, drugs, devices, and cosmetics exempted from the requirements of Section 4 of the Fair Packaging and Labeling Act, however, are also exempt from this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110345.

The label of any package of a food, drug, device, or cosmetic that bears a representation as to the number of servings of the commodity contained in the package shall bear a statement of the net quantity, in terms of weight, measure, or numerical count, of each serving.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110350.

It is unlawful for any person to distribute, or cause to be distributed, in commerce any packaged food, drug, device, or cosmetic if any qualifying words or phrases appear in conjunction with the separate statement of the net quantity of contents required by Section 110340.

This section, however, does not prohibit supplemental statements, at other places on the package, describing in nondeceptive terms the net quantity of contents. Such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure, or count that tends to exaggerate the amount of the commodity contained in the package.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110355.

Whenever the department determines that regulations containing prohibitions or requirements, other than those prescribed by Section 110340, are necessary to prevent the deception of consumers or to facilitate value comparisons as to any food, drug, device, or cosmetic, the department shall adopt regulations with respect to that commodity.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110360.

The department may establish and define standards for the characterization of the size of a package that encloses any food, drug, device, or cosmetic, that may be used to supplement the label statement of net quantity of contents of packages containing the commodity. This section, however, does not authorize any limitation on the size, shape, weight, dimension, or number of packages that may be used to enclose any food, drug, device, or cosmetic.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110365.

The department may regulate the placement upon any package that contains any food, drug, device, or cosmetic or upon any label affixed to the article, of any printed matter stating or representing by implication that the article is offered for retail sale at a price lower than the ordinary and customary retail sale price or that a retail sale price advantage is accorded to any purchaser of the article by reason of the size of that package or the quantity of its contents.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110370.

The department may require that the label on each package of a food, drug, device, or cosmetic bear the common or usual name of the article, if any, and in case the article consists of two or more ingredients, the common or usual name of each ingredient listed in order of decreasing predominance by weight. This section, however, does not require that any trade secret be divulged.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110371.

(a)A professional cosmetic manufactured on or after July 1, 2020, for sale in this state shall have a label affixed on the container that satisfies all of the labeling requirements for any other cosmetic pursuant to the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 301, et seq.), and the federal Fair Packaging and Labeling Act (15 U.S.C. Sec. 1451, et seq.).

(b)The following definitions shall apply to this section:

(1)Ingredient has the same meaning as in Section 111791.5.

(2)Professional means a person that has been granted a license by the State Board of Barbering and Cosmetology to practice in the field of cosmetology, nail care, barbering, or esthetics.

(3)Professional cosmetic means a cosmetic product as it is defined in Section 109900 that is intended or marketed to be used only by a professional on account of a specific ingredient, increased concentration of

an ingredient, or other quality that requires safe handling, or is otherwise used by a professional.

(Added by Stats. 2018, Ch. 393, Sec. 2. (AB 2775) Effective January 1, 2019.)

110375.

(a) No container wherein commodities are packed shall have a false bottom, false sidewalls, false lid or covering, or be otherwise so constructed or filled, wholly or partially, as to facilitate the perpetration of deception or fraud.

(b) No container shall be made, formed, or filled as to be misleading. A container that does not allow the consumer to fully view its contents shall be considered to be filled as to be misleading if it contains nonfunctional slack fill. Slack fill is the difference between the actual capacity of a container and the volume of product contained therein. Nonfunctional slack fill is the empty space in a package that is filled to substantially less than its capacity for reasons other than any one or more of the following:

(1)Protection of the contents of the package.

(2)The requirements of machines used for enclosing the contents of the package.

(3)Unavoidable product settling during shipping and handling.

(4)The need to utilize a larger than required package or container to provide adequate space for the legible presentation of mandatory and necessary labeling information, such as those based on the regulations adopted by the United States Food and Drug Administration or state or federal agencies under federal or state law, laws or regulations adopted by foreign governments, or under an industrywide voluntary labeling program.

(5)The fact that the product consists of a commodity that is packaged in a decorative or representational container where the container is part of the presentation of the product and has value that is both significant in proportion to the value of the product and independent of its function to hold the product, such as a gift combined with a container that is intended for further use after the product is consumed, or durable commemorative or promotional packages.

(6)An inability to increase the level of fill or to further reduce the size of the package, such as where some minimum package size is necessary to accommodate required labeling, discourage pilfering, facilitate handling, or accommodate tamper-resistant devices.

(7)The product container bears a reasonable relationship to the actual amount of product contained inside, and the dimensions of the actual product container, the product, or the amount of product therein is visible to the consumer at the point of sale, or where obvious secondary use packaging is involved.

(8)One or more of the following:

(A)The dimensions of the product or immediate product container are visible through the exterior packaging.

(B)The actual size of the product or immediate product container is clearly and conspicuously depicted on any side of the exterior packaging, excluding the bottom, accompanied by a clear and conspicuous disclosure that the depiction is the actual size of the product or immediate product container. If there are

multiple units of the same product in a package, only one actual size depiction is required per same size product or immediate product container.

(C)A line or a graphic that represents the product or product fill and a statement communicating that the line or graphic represents the product or product fill such as Fill Line, both of which are clearly and conspicuously depicted on exterior packaging or the immediate product container if visible at point of sale. If the product is subject to settling, the line shall represent the minimum amount of product after settling.

(9)The presence of any headspace within an immediate product container necessary to facilitate the mixing, adding, shaking, or dispensing of liquids or powders by consumers before use.

(10)The exterior packaging contains a product delivery or dosing device if the device is visible, or a clear and conspicuous depiction of the device appears on the exterior packaging, or it is readily apparent from the conspicuous exterior disclosures or the nature and name of the product that a delivery or dosing device is contained in the package.

(11)The exterior packaging or immediate product container is a kit that consists of a system, or multiple components, designed to produce a particular result that is not dependent upon the quantity of the contents, if the purpose of the kit is clearly and conspicuously disclosed on the exterior packaging.

(12)The exterior packaging of the product is routinely displayed using tester units or demonstrations to consumers in retail stores, so that customers can see the actual, immediate container of the product being sold, or a depiction of the actual size of the container before purchase.

(13)The exterior packaging consists of single or multiunit presentation boxes of holiday or gift packages if the purchaser can adequately determine the quantity and sizes of the immediate product container at the point of sale.

(14)The exterior packaging is for a combination of one purchased product, together with a free sample or gift, wherein the exterior packaging is necessarily larger than it would otherwise be due to the inclusion of the sample or gift, if the presence of both products and the quantity of each product are clearly and conspicuously disclosed on the exterior packaging.

(15)The mode of commerce does not allow the consumer to view or handle the physical container or product.

(c)Slack fill in a package shall not be used as grounds to allege a violation of this section based solely on its presence unless it is nonfunctional slack fill.

(d)Any sealer may seize a container that facilitates the perpetration of deception or fraud and the contents of the container. By order of the superior court of the county within which a violation of this section occurs, the containers seized shall be condemned and destroyed or released upon any condition as the court may impose to ensure against their use in violation of this chapter. The contents of any condemned container shall be returned to the owner if the owner furnishes proper facilities for the return.

(Amended by Stats. 2018, Ch. 544, Sec. 3. (AB 2632) Effective January 1, 2019.)

110380.

All regulations and their amendments pertaining to foods, drugs, devices, and cosmetics that are in effect on the effective date of this part, or that are adopted on or after that date, pursuant to the Fair Packaging and Labeling Act (80 Stat. 1296; 15 U.S.C. Sec. 1451 et seq.) shall be the regulations of this state. The department may, when necessary, prescribe any packaging and labeling regulation for foods, drugs, devices, and cosmetics whether or not the regulation is in accordance with regulations adopted under the Fair Packaging and Labeling Act. No regulations shall be adopted that are contrary to the labeling requirements for the net quantity of contents required pursuant to Section 4 of the Federal Fair Packaging and Labeling Act and the regulations adopted pursuant to that section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110385.

It is unlawful for any person to distribute in commerce any food, drug, device, or cosmetic, if its packaging or labeling does not conform to the provisions of this article or to regulations adopted pursuant to this article. This section does not apply to persons engaged in business as wholesale or retail distributors of foods, drugs, devices, or cosmetics, except to the extent that they are engaged in the packaging or labeling of the commodities or they prescribe or specify the manner in which the commodities are packaged or labeled. This section shall not be construed to repeal, invalidate, or supersede any other section of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__ARTICLE 3. Advertising [110390 - 110420]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

110390.

It is unlawful for any person to disseminate any false advertisement of any food, drug, device, or cosmetic. An advertisement is false if it is false or misleading in any particular.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110395.

It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any food, drug, device, or cosmetic that is falsely advertised.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110398.

It is unlawful for any person to advertise any food, drug, device, or cosmetic that is adulterated or misbranded.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110400.

It is unlawful for any person to receive in commerce any food, drug, device, or cosmetic that is falsely advertised or to deliver or proffer for delivery any such food, drug, device, or cosmetic.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110403.

Except as otherwise provided in Section 110405, it is unlawful for a person to advertise a drug or device represented to have an effect in any of the following conditions, disorders, or diseases:

(a)Appendicitis.

(b)Blood disorders.

(c)Bone or joint diseases.

(d)Kidney diseases or disorders.

(e)Cancer.

(f)Carbuncles.

(g)Diseases, disorders, or conditions of the eye.

(h)Diabetes.

(i)Diphtheria.

(j)Gallbladder diseases or disorders.

(k)Heart and vascular diseases.

(l)High blood pressure.

(m)Diseases or disorders of the ear or auditory apparatus, including hearing loss and deafness.

(n)Measles.

(o)Meningitis.

(p)Mental disease or intellectual disability.

(q)Paralysis.

(r)Pneumonia.

(s)Poliomyelitis.

(t)Prostate gland disorders.

(u)Conditions of the scalp, affecting hair loss, or baldness.

(v)Alcoholism.

(w)Periodontal diseases.

(x)Epilepsy.

(y)Goiter.

(z)Endocrine disorders.

(aa)Sexual impotence.

(ab)Sinus infections.

(ac)Encephalitis.

(ad)Tumors.

(ae)Venereal diseases.

(af)Tuberculosis.

(ag)Ulcers of the stomach.

(ah)Varicose ulcers.

(ai)Scarlet fever.

(aj)Typhoid fever.

(ak)Whooping cough.

(al)Acquired immunodeficiency syndrome (AIDS).

(am)AIDS-related complex (ARC).

(an)Diseases, disorders, or conditions of the immune system.

(Amended by Stats. 2012, Ch. 457, Sec. 31. (SB 1381) Effective January 1, 2013.)

110405.

An advertisement that is not unlawful under Section 110390 is not unlawful under Section 110403 if it is either one of the following:

(a) Disseminated only to members of the medical, dental, pharmaceutical, or veterinary professions, or appears only in the scientific periodicals of these professions, or is disseminated only for the purpose of public health education by persons not commercially interested, directly or indirectly, in the sale of drugs or devices.

(b) An advertisement that a drug or device has a specific curative or therapeutic effect on a condition, disorder, or disease listed in Section 110403 if the drug or device is approved or cleared for marketing for that specific curative or therapeutic effect through any of the following means:

(1) A new drug application approved pursuant to Section 111500, or Section 505 of the federal act (21 U.S.C. Sec. 355).

(2) An abbreviated new drug application approved pursuant to Section 505 of the federal act (21 U.S.C. Sec.

355).

(3) A licensed biological product pursuant to Section 351 of the Public Health Service Act (42 U.S.C. Sec. 262).

(4) A nonprescription drug that meets the requirements of Part 330 of Title 21 of the Code of Federal Regulations.

(5) A new animal drug application approved under Section 512 of the federal act (21 U.S.C. Sec. 360b).

(6) An abbreviated new animal drug application approved pursuant to Section 512 of the federal act (21 U.S.C. Sec. 360b).

(7) A new device application approved pursuant to Section 111550.

(8) A device premarket approval application approved under Section 515 of the federal act (21 U.S.C. Sec. 360e).

(9) A determination of substantial equivalence for a device pursuant to Section 513(f)(1) of the federal act (21 U.S.C. Sec. 360c(i)).

(Amended by Stats. 2000, Ch. 796, Sec. 6. Effective January 1, 2001.)

110407.

(a)A manufacturer, distributor, or seller of an industrial hemp product shall not include on the label of the product, or publish or disseminate in advertising or marketing, any health-related statement that is untrue in any particular manner as to the health effects of consuming products containing industrial hemp or cannabinoids, extracts, or derivatives from industrial hemp in violation of this part.

(b)For purposes of this section, health-related statement means a statement related to health, and includes a statement of a curative or therapeutic nature that, expressly or impliedly, suggests a relationship between the consumption of industrial hemp or industrial hemp products and health benefits or effects on health. However, health-related statement does not include statements required to be made pursuant to federal Food and Drug Administration regulations for active ingredients in prescription drugs, nonprescription over-the-counter drugs containing inactive ingredients, or structure-function claims allowed for dietary supplements made in accordance with the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 343(r)(6)).

(Added by Stats. 2021, Ch. 576, Sec. 6. (AB 45) Effective October 6, 2021.)

110410.

Section 110403 shall not be construed as indicating that self-medication for conditions, disorders, or diseases other than those named is safe or efficacious.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110413.

No publisher, radio or television broadcast licensee, or agency or medium for the dissemination of an advertisement, except the manufacturer, packer, distributor, or seller of the food, drug, device, or cosmetic to which a false advertisement relates, shall be liable under this article for the dissemination of the false advertisement, unless he or she has refused to furnish the department with the name and address of the manufacturer, packer, distributor, seller, or advertising agency, residing in this state who caused him or her to disseminate the advertisement.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110415.

It shall be unlawful to advertise or otherwise represent chopped or ground beef or hamburger in violation of Section 110805.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110420.

(a) Any fragrance advertising insert contained in a newspaper, magazine, mailing, or other periodically printed material shall contain only microencapsulated oils. Glue tabs or binders shall be used to prevent premature activation of the fragrance advertising insert.

Fragrance advertising insert means a printed piece with encapsulated fragrance applied to it that is activated by opening a flap or removing an overlying ply of paper.

Paperstocks employed in the manufacture of fragrance advertising inserts shall have a maximum porosity of 20 Sheffield units or 172 Gurley-Hill units.

(b) Any person who distributes fragrance advertising inserts in violation of this section, is guilty of an infraction and shall, if convicted, be subject to a fine of one hundred dollars ($100) for each distribution. The fine shall apply to each mass mailing or distribution, and to each mass publication of a magazine or newspaper in violation of this section. The fine shall not apply, however, to each individual letter, magazine, newspaper, or fragrance advertising insert so distributed. Section 111825 is not applicable to violations of this section.

(c) This section shall become operative on January 1, 1992.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Article 4.5 added by Stats. 2003, Ch. 903, Sec. 1.)

110423.100.

Notwithstanding Article 4 (commencing with Section 110423), the sale or distribution of any dietary supplement products containing ephedrine group alkaloids is prohibited.

(Added by Stats. 2003, Ch. 903, Sec. 1. Effective January 1, 2004.)

110423.101.

This article shall not apply, but Article 4 (commencing with Section 110423) shall apply, to any of the following:

(a) A California licensed health care practitioner who is practicing within his or her scope of practice and who prescribes or dispenses, or both, dietary supplement products containing ephedrine group alkaloids in the course of the treatment of a patient under the direct care of that licensed health care practitioner, except that a licensed health care practitioner shall not prescribe or dispense dietary supplements containing ephedrine group alkaloids for purposes of weight loss, body building, or athletic performance enhancement.

(b) Dietary supplement products containing ephedrine group alkaloids that are sold or distributed directly to a licensed health care practitioner when the dietary supplement product containing ephedrine group alkaloids is used solely for the purpose of the treatment of patients under the direct care of the health care practitioner.

(c) Dietary supplement products containing ephedrine group alkaloids that are sold or distributed directly to a licensed pharmacist for resale to a patient for whom the products have been prescribed pursuant to subdivision (a).

(d) Dietary supplement products containing ephedrine group alkaloids that are not for resale in California and that are sold or distributed directly to businesses not located in California.

(Added by Stats. 2003, Ch. 903, Sec. 1. Effective January 1, 2004.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Generally [110425 - 110455]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

110425.

Beer, that is subject to the Alcoholic Beverage Control Act, Division 9 (commencing with Section 23000) of the Business and Professions Code, shall only be subject to the provisions of this chapter that relate to adulteration and misbranding.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110430.

Whenever the department finds that a class of food distributed in this state may, by reason of contamination with micro-organisms during manufacture, packing, or storage, be injurious to the health of any man or other animal that consumes it and that the injurious nature cannot be adequately determined after this food has entered commerce, the department shall adopt regulations providing for the issuance of permits to manufacturers, processors, or packers of the class of food. These permits shall establish conditions governing the manufacture, packing, or storage of the class of food for the period of time as may be necessary to protect the public health. The regulations shall prescribe a date after which no person shall introduce or deliver for introduction into commerce any food manufactured, packed, or stored by any manufacturer, processor, or packer, unless the person holds a permit issued by the department as provided by the regulations.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110435.

The department may suspend immediately, upon written or oral notice, any permit issued pursuant to Section 110430 if it is found that any of the conditions of the permit have been violated. The holder of a permit so suspended may at any time apply for reinstatement of the permit. The department shall, after prompt hearing and inspection of the establishment, reinstate the permit immediately, if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110440.

Any authorized agent of the department shall have access to any factory or establishment that operates under permit from the department for the purpose of ascertaining whether or not the conditions of the permit are being complied with. Denial of access for such inspection shall be grounds for suspension of the permit until the access is freely given by the holder of the permit or his or her agent.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110445.

Any added poisonous or deleterious substance, or any food additive, pesticide chemical, preservative, or color additive, shall be considered unsafe for use with respect to any food unless there is in effect a regulation adopted pursuant to Section 110080, 110085, or 110090, that limits the quantity and the use, or intended use, of the substance to the terms prescribed by the regulation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110450.

On or before September 1, 1985, the department shall, within the limits of available resources, prepare and submit to the Legislature a program for detecting and monitoring chemical and pesticide residues in processed foods. In preparing the program, the department shall do all of the following:

(a) Establish a list of chemical and pesticides developed from a knowledge of chemicals used in the food industry in processed foods and from the 96 pesticides on the Department of Food and Agriculture residue scan, for which analysis will be done by the department. The list shall include an explanation of why the listed chemicals and pesticides were selected. The Department of Food and Agriculture shall cooperate with the department in establishing the list required by this subdivision. In selecting the chemicals and pesticides to be placed on the list, the department shall make use of the following criteria:

(1) Chemicals that have been identified as having possible carcinogenic, reproductive, or mutagenic effects.

(2) Patterns of use in California.

(3) Quantities of use in California.

(4) Chemicals appearing as residues in processed food because of environmental persistence or resistance to degradation under conditions existing in the processing, manufacturing, milling, or shipping of processed foods sold in California.

(5) Chemicals that have the potential of chronic toxicity due to low continuous exposure.

The department may revise the list and is authorized to add or remove chemicals or pesticides based on relevant information that becomes available to it after the list has been established and based on its experience in detecting the presence of chemical substances in processed foods under the sampling and testing program developed pursuant to subdivision (b).

(b) The department shall design a sampling and testing program that does all of the following:

(1) Samples and tests processed food products that form a significant portion of the diet of the general population, and that may contain residues of the chemical substances on the list established pursuant to subdivision (a).

(2) Provides for specific testing of individual chemicals on the list established pursuant to subdivision (a) when a chemical cannot be detected using multiresidue testing procedures and when the department determines that the chemical may be the cause of chronic health effects.

(3) Lists the foods to be sampled, the stages of processing in which the foods will be sampled, the sampling frequency, and the techniques used in sampling.

(4) A description of plans for sampling processed imported foods from other states and countries.

(c) As used in this section, processed food means any food chemically or physically altered from a raw agricultural commodity by chemical, mechanical, thermal, or other processes.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110455.

(a) On or before July 1, 1990, the department shall commence and maintain a program for monitoring processed foods for pesticide residues, chemicals, microbes, and other contaminants. In designing the program, the department shall take into consideration any information developed pursuant to Section 110450.

(b) The department shall consult with the Department of Food and Agriculture in designing the pesticide residue component of the monitoring program, to facilitate focusing the testing in areas of greatest concern. Among the pesticides to be reviewed for possible monitoring shall be those contained in the lists of pesticides identified in Section 12535 of the Food and Agricultural Code.

(c) In the development and ongoing operation of the departmentsmonitoring program, the department shall consider, in establishing priorities:

(1) Potential concentration effects that may occur during processing.

(2) Targeting foreign and domestic imported processed foods according to their estimated California market share.

(3) The extent to which processed foods are a part of the infant and child diet.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Note: See Section 26205.5 (from which this section is derived) as modified on July 17, 1991, in Governor's Reorganization Plan No. 1 of 1991.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Registration [110460 - 110495]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

110460.

No person shall engage in the manufacture, packing, or holding of any processed food in this state unless the person has a valid registration from the department, except those engaged exclusively in the storing, handling, or processing of dried beans. The registration shall be valid for one calendar year from the date of issue, unless it is revoked. The registration shall not be transferable. This section shall not apply to a cottage food operation that is registered or has a permit pursuant to Section 114365 or a microenterprise home kitchen, as defined in Section 113825.

(Amended by Stats. 2018, Ch. 470, Sec. 2. (AB 626) Effective January 1, 2019.)

110461.

It is unlawful for any person to manufacture, pack, or hold processed food in this state unless in a food processing facility duly registered, as provided in this part.

(Added by renumbering Section 110780 by Stats. 1999, Ch. 915, Sec. 6. Effective January 1, 2000.)

110462.

It is unlawful for any person to willfully make a false statement or representation, or knowingly fail to disclose a fact required to be disclosed in the application for registration or renewal of registration, as provided in this article.

(Added by renumbering Section 110785 by Stats. 1999, Ch. 915, Sec. 7. Effective January 1, 2000.)

110465.

A separate registration is required for each place of manufacture, packing, or holding.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110466.

(a)Commencing January 1, 2000, the department shall use the resources provided by the registration fees assessed by this article to inspect new and registered food processing facilities to determine compliance with this part. The department shall target the inspections and adjust their scope, depth, and frequency based on the departmentsstatewide assessment of public health risk potential. In assessing public health risk potential, the department shall consider, at a minimum, the potential and actual health risks associated with processed foods manufactured, packed, or held in this state, and the food safety practices and compliance histories of persons who manufacture, pack, or hold processed foods in this state.

(b)Commencing January 1, 2001, the department, pursuant to this chapter, shall conduct an annual inspection of each registered food processing facility and inspect each new food processing facility prior to issuing a new registration pursuant to Section 110460. This annual inspection requirement may be adjusted or waived based on an assessment of the food processing facility pursuant to subdivision (a).

(c)The department may perform one or more reinspections of each new and registered food processing facility as necessary to prevent repeated or continuing violations of this part and for the purposes of approving the issuance of a new registration. The department shall charge a fee of one hundred dollars ($100) per hour to cover the costs of performing the reinspections of the same food processing facility within any 12-month period.

(Amended by Stats. 2005, Ch. 401, Sec. 2. Effective January 1, 2006.)

110467.

Any violation of any provision of this part or any regulation adopted pursuant to this part shall be grounds for denying a registration or for suspending or revoking a registration. Proceedings for the denial, suspension, or revocation of a registration shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted in that chapter.

(Added by Stats. 1999, Ch. 915, Sec. 9. Effective January 1, 2000.)

110469.

(a)A wholesale food manufacturing facility that manufactures products that contain industrial hemp shall be registered in accordance with Section 110460 and shall comply with good manufacturing practices as defined in Section 110105 and as determined by the department in regulation.

(b)Industrial hemp shall not be used in dietary supplements or food products unless the manufacturer demonstrates both of the following:

(1)All parts of the hemp plant used in dietary supplements or food products come from a state or country that has an established and approved industrial hemp program that inspects or regulates hemp under a food

safety program or equivalent criteria to ensure safety for human or animal consumption.

(2)The industrial hemp cultivator or grower is in good standing and in compliance with the governing laws of the state or country of origin.

(Added by Stats. 2021, Ch. 576, Sec. 7. (AB 45) Effective October 6, 2021.)

110470.

A registration application provided by the department shall be completed annually and accompanied by a nonreturnable registration fee.

The fee for a new or renewal registration for a food processing facility shall be as follows:

A penalty of 1 percent per month shall be added to any registration fee not paid when due. The fee amount shall be adjusted annually pursuant to Section 100425.

(Repealed and added by Stats. 1999, Ch. 915, Sec. 11. Effective January 1, 2000.)

110471.

(a)Commencing January 1, 2006, the department shall make a one-time 15 percent cost-of-living adjustment to the registration fees established in Section 110470.

(b)Commencing January 1, 2006, every person engaged in the manufacture, packing, or holding of processed food in this state that is subject to the requirements of Part 120 or 123 of Title 21 of the Code of Federal Regulations shall pay two hundred fifty dollars ($250) in addition to their annual registration fee paid pursuant to Section 110470.

(c)Revenue received pursuant to this section shall be deposited into the Food Safety Fund created by Section 110050.

(d)Upon appropriation, the additional fee deposited in the Food Safety Fund shall be used by the department to conduct inspections and reviews of those facilities required to have Hazard Analysis Critical Control Point (HACCP) plans or Standard Sanitation Operating Procedures (SSOPs).

(Added by Stats. 2005, Ch. 401, Sec. 3. Effective January 1, 2006.)

110472.

The department, in consultation with the California Conference of Directors of Environmental Health (CCDEH), representatives of the food processing industry, representatives of the local health departments of, Los Angeles, Orange, and San Bernardino Counties, and the City of Vernon, and any other person or entity deemed appropriate by the department shall develop, implement, and evaluate the processed food program in accordance with this chapter. In developing the processed food program, consideration shall be given to all aspects of the program provided for in this chapter.

(Added by Stats. 1999, Ch. 915, Sec. 12. Effective January 1, 2000.)

110473.

Notwithstanding the requirements of Section 110470, any person who is required to be registered under this chapter and is operating the food processing facility exclusively for charitable purposes, and meets the requirements of Section 214 of the Revenue and Taxation Code, shall not be required to submit any fees required by Section 110470.

(Added by Stats. 1999, Ch. 915, Sec. 13. Effective January 1, 2000.)

110474.

Nothing in this chapter shall relieve a person who has a valid registration to manufacture, pack, or hold processed food issued by the department from any other requirements for licensure, registration, or certification under Article 7 (commencing with Section 110810), Article 12 (commencing with Section 111070), or Part 6 (commencing with Section 111940). The registration fee due to the department under this article from a person who holds one or more licenses, registrations, or certificates issued by the department pursuant to Article 12 (commencing with Section 111070) or Chapters 5 to 10, inclusive of Part 6 (commencing with Section 112150) shall be the fee for the single highest cost license, registration, or certificate only. Cannery inspection fees collected pursuant to Section 112730 and organic processed food registration fees collected pursuant to Section 110875 shall be in addition to any registration fees that may be collected under this article.

(Added by Stats. 1999, Ch. 915, Sec. 14. Effective January 1, 2000.)

110475.

Any person registered pursuant to this article shall immediately notify the department of any change in the information reported on the registration application.

(Amended by Stats. 1999, Ch. 915, Sec. 15. Effective January 1, 2000.)

110480.

(a)The registration requirements of this article do not apply to a person whose manufacturing, packing, or holding of processed food is limited solely to temporarily holding processed foods for up to seven days for further transport if the foods are not potentially hazardous foods, as defined in Section 110005, or to a person whose manufacturing, packing, or holding of processed food is limited solely to activities authorized by any of the following:

(1)A valid bottled water or water vending machine license issued pursuant to Article 12 (commencing with Section 111070).

(2)A valid pet food license issued pursuant to Chapter 10 (commencing with Section 113025) of Part 6.

(3)A valid permit issued pursuant to Chapter 4 (commencing with Section 113700) of Part 7 to a food facility including a food facility that manufactures, packs, or holds processed food for sale at wholesale, provided the food facility that manufactures, packs, or holds processed food for sale at wholesale does not meet any of the following conditions:

(A)Has gross annual wholesale sales of processed foods of more than 25 percent of total food sales.

(B)Sells processed foods outside the jurisdiction of the local health department.

(C)Sells processed foods that require labeling pursuant to this part.

(D)Processes or handles fresh seafood, frozen seafood held in bulk for further processing, or fresh or frozen raw shellfish.

(E)Salvages processed foods for sale other than at the retail food facility.

(4)A valid cold storage license issued pursuant to Chapter 6 (commencing with Section 112350) of Part 6.

(5)A valid cannery license issued pursuant to Chapter 8 (commencing with Section 112650) of Part 6.

(6)A valid shellfish certificate issued pursuant to Chapter 5 (commencing with Section 112150) of Part 6.

(7)A valid frozen food locker plant license issued pursuant to Chapter 7 (commencing with Section 112500) of Part 6.

(8)A valid beer manufacturerslicense, winegrowerslicense, or wine blenderslicense pursuant to Division 9 (commencing with Section 23000) of the Business and Professions Code.

(9)A valid milk products plant, margarine, imitation ice cream, imitation ice milk, or a products resembling milk products plant license, issued pursuant to Division 15 (commencing with Section 32501) of the Food and Agricultural Code.

(10)A valid permit issued by a local health department to operate a processing establishment, as defined in Section 111955, that only holds or warehouses processed food, pursuant to Article 1 (commencing with Section 111950) of Chapter 4 of Part 6, provided that all of the following conditions are met:

(A)The warehouse does not manufacture or pack processed food.

(B)The warehouse does not hold fresh seafood, frozen seafood held in bulk for further processing, or fresh or frozen raw shellfish.

(C)The warehouse is not operated as an integral part of a food processing facility required to be registered pursuant to Section 110460.

(D)The warehouse facilities are located entirely within the area under the jurisdiction of the local health department.

(E)The warehouse does not salvage food as the primary business.

(b)An entity that provides food services other than the manufacturing, packing, or holding of processed food is subject to applicable provisions of the California Retail Food Code, as set forth in Part 7 (commencing with Section 113700).

(c)This section does not limit the authority of the Counties of Los Angeles, San Bernardino, and Orange, or of the City of Vernon, to conduct any inspections otherwise authorized by Chapter 4 (commencing with Section 111950) of Part 6.

(Amended by Stats. 2019, Ch. 277, Sec. 1. (AB 746) Effective January 1, 2020.)

110485.

(a)Every person who is engaged in the manufacture, packing, or holding of processed food in this state shall pay a food safety fee of one hundred dollars ($100) to the department in addition to any fees paid pursuant to Section 110470.

(b)Revenue received pursuant to this section shall be deposited in the Food Safety Fund created pursuant to Section 110050. A penalty of 10 percent per month shall be added to any food safety fee not paid when due.

(c)Upon appropriation, the food safety fees deposited in the Food Safety Fund shall be used by the department to assist in developing and implementing education and training programs related to food safety. These programs shall be developed in consultation with representatives of the food processing industry. Implementation shall include education and training in the prevention of microbial contamination.

(d)This section does not apply to companies exclusively involved in flour milling, dried bean processing, or in the drying or milling of rice, or to those individual registrants the director determines should not be assessed because substantial economic hardship would result to those registrants. For the purposes of this subdivision, the substantial hardship exemption shall be extended only to registrants whose wholesale gross annual income from the registered business is twenty thousand dollars ($20,000) or less.

(Amended by Stats. 2015, Ch. 477, Sec. 1. (AB 384) Effective January 1, 2016.)

110490.

(a) A laboratory that performs analyses of foods for pesticide chemical residues for other persons shall be accredited pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101. This subdivision shall not apply to any of the following:

(1) A laboratory operated by a government agency.

(2) A laboratory not operated for commercial purposes that performs pesticide chemical residue analysis on foods for research or quality control for the internal use of the person initiating the analysis. For purposes of this section, commercial purposes means that the laboratory performs pesticide chemical residue analysis on the foods primarily for the purpose of making a profit.

(b) A laboratory accredited pursuant to Section 12591 of the Food and Agricultural Code shall not be required to be accredited under this section until January 1, 1992.

(c) A laboratory that performs analyses of foods for pesticide chemical residues, but that is not required by subdivision (a) to be accredited may apply for accreditation pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101.

(d) This section shall become operative on January 1, 1991, or 60 days after the initial set of regulations adopted pursuant to Sections 100830 and 100835 becomes effective, whichever is later.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110495.

(a) Every laboratory or other person which performs or which brokers or otherwise arranges for the performance of pesticide chemical analysis on food shall report to the appropriate state agency any finding of pesticide chemical residues in a food for which no chemical residue tolerance has been established or that is in excess of federal or state residue tolerances or tolerances for a pesticide suspended, banned, or otherwise not permitted by the Department of Pesticide Regulation or the Environmental Protection Agency, if the food is in the channels of trade. The report shall be made as soon as possible, and in any event, not later than 24 hours after the analyzing laboratory makes the finding. Findings on raw agricultural commodities and dairy products shall be reported to the Department of Food and Agriculture. Findings on raw agricultural commodities shall also be reported to the Department of Pesticide Regulation. Findings on all other foods shall be made to the State Department of Health Services.

(b) For the purpose of reporting findings regarding raw agricultural commodities, in the channels of trade means the point at which the raw agricultural commodities leave the farm, including raw agricultural commodities bound for processing up to the point that processing is initiated. For the purpose of reporting findings in processed foods, in the channels of trade means at the point the processed food leaves the direct control of the processor, which means either that the product is not located on the premises owned by, or under the control of, the processor or a portion of the product has been released for sale or use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Standard of Identity, Quality, and Fill [110505 - 110525]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

110505.

Definitions and standards of identity, quality, and fill of container, and any amendments to the definitions and standards, adopted pursuant to the federal act in effect on the effective date of this part, or adopted on or after that date, are the definitions and standards of identity, quality, and fill of container in this state. The department may, by regulation, establish definitions and standards of identity, quality, and fill of container for any food whether or not the definitions and standards are in accordance with the federal regulations, when in its judgment such action will promote honesty and fair dealing in the interest of consumers. This section shall not apply to wine.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110510.

In prescribing a definition and standard of identity for any food or class of food in which optional ingredients are permitted, the department shall designate the optional ingredients that shall be named on the label. This section shall not apply to wine.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110515.

A temporary permit which is granted by the Food and Drug Administration of the Department of Health, Education and Welfare of the United States for interstate shipment of experimental packs of food that vary from the requirements of federal definitions and standards of identity is automatically effective in this state under the provisions provided in the permit. The department shall issue a permit when no federal permit exists and when the experimental packs are to be manufactured and tested only within this state. The permit

is subject to any term or condition that the department may prescribe.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110520.

Definitions and standards of identity and quality for distilled spirits and their amendments adopted by the Internal Revenue Service of the Treasury Department of the United States in effect on the effective date of this part, or adopted on or after that date, are the definitions and standards of identity and quality for distilled spirits in this state. The department may, by regulation, establish definitions and standards of identity and quality for any distilled spirit whether or not the definitions and standards are in accordance with regulations adopted by the Internal Revenue Service of the Treasury Department of the United States, when in its judgment the action will promote honesty and fair dealing in the interest of the consumers.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110525.

The department may, by regulation, establish definitions and standards of identity and quality for wine. Such definitions and standards may incorporate in whole or in part, the regulations adopted by the Secretary of the Treasury pursuant to the Federal Alcohol Administration Act, pertaining to the standards of identity and quality for wine. Standards of identity and quality for wine adopted pursuant to this section may differ from or be inconsistent with the standards promulgated by the Secretary of the Treasury pursuant to the Federal Alcohol Administration Act. No standard of size, type, or fill of container for any wine subject to the provisions of the Alcoholic Beverage Control Act, Division 9 (commencing with Section 23000) of the Business and Professions Code, shall be adopted, but containers of wine sold in this state shall conform to the then current standards for the containers, including standards of fill, established by the Secretary of the Treasury pursuant to the Federal Alcohol Administration Act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Enrichment of Food and Food Products [110530 - 110535]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

110530.

When a definition and standard of identity for an enriched food has been established pursuant to Section 110505, only the enriched form of the food shall be sold at retail in California.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110535.

The nonenriched form of a food identified and standardized pursuant to Section 110505 may be used as an ingredient of another food only if it comprises less than 25 percent of the total ingredients, or it comprises 25 percent or more of the total ingredients and vitamins and minerals have been added to make it nutritionally equivalent to the enriched form of the ingredient.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. Adulterated Food [110545 - 110655]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

110545.

Any food is adulterated if it bears or contains any poisonous or deleterious substance that may render it injurious to health of man or any other animal that may consume it. The food is not considered adulterated if the substance is a naturally occurring substance and if the quantity of the substance in the food does not render it injurious to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110550.

Any food is adulterated if it bears or contains any added poisonous or deleterious substance that is unsafe within the meaning of Section 110445.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110552.

(a)The department shall regulate candy to ensure that the candy is not adulterated.

(b)For the purposes of this chapter, candy means any confectionary intended for individual consumption that contains chili, tamarind, or any other ingredient identified as posing a health risk in regulations adopted

by the office or department.

(c)For purposes of this section, the following terms have the following meanings:

(1)Office means the Office of Environmental Health Hazard Assessment.

(2)Adulterated candy means any candy with lead in excess of the naturally occurring level. Moreover, candy is adulterated if its wrapper or the ink on the wrapper contains lead in excess of standards which the office, in consultation with the department and the Attorney General, shall establish by July 1, 2006.

(3)Naturally occurring level of lead in candy shall be determined by regulations adopted by the office after consultation with the department and the Attorney General. For purposes of this section, the naturally occurring level of lead in candy is only naturally occurring to the extent that it is not avoidable by good agricultural, manufacturing, and procurement practices, or by other practices currently feasible. The producer and manufacturer of candy and candy ingredients shall at all times use quality control measures that reduce the natural chemical contaminants to the lowest level currently feasible as this term is used in subsection (c) of Section 110.110 of Title 21 of the Code of Federal Regulations. The naturally occurring level of lead shall not include any lead in an ingredient resulting from agricultural equipment, fuels used on or around soils or crops, fertilizers, pesticides, or other materials that are applied to soils or crops or added to water used to irrigate soils or crops. The office shall determine the naturally occurring levels of lead in candy containing chili and tamarind no later than July 1, 2006. The office shall determine the naturally occurring levels of lead in candy containing other ingredients upon request by the department or the Attorney General, and in the absence of a request, when the office determines that the presence of the ingredient in candy may pose a health risk. Until the office adopts regulations determining the naturally occurring level of lead, the Attorney Generalswritten determination, if any, including any determination set forth in a consent judgment entered into by the Attorney General, of the naturally occurring level of lead in candy or in a candy ingredient shall be binding for purposes of this section.

(4)Wrapper means all packaging materials in contact with the candy, including, but not limited to, the paper cellophane, plastic container, stick handle, spoon, small pot (olla), and squeeze tube, or similar devices. Wrapper does not include any part of the packaging from which lead will not leach, as demonstrated by the manufacturer, to the satisfaction of the office.

(d)The standards adopted pursuant to paragraphs (2) and (3) of subdivision (c) shall be reviewed by the office every three-year to five-year period in order to determine whether advances in scientific knowledge, the development of better agricultural or manufacturing practices, or changes in detection limits require revision of the standards.

(e)The department shall do all of the following:

(1)Ensure that the candy is not adulterated.

(2)Establish procedures for the testing of candy and the certification of unadulterated candy products. The procedures shall require candy manufacturers to certify candy as being unadulterated. The certification shall be based on appropriate sampling and testing protocols as determined by the office in consultation with the Attorney Generalsoffice.

(3)Through its Food and Drug Branch, test the samples of candy collected pursuant to this article. The department may test any candy, including candy tested pursuant to paragraph (2) in order to ensure the candy is unadulterated.

(4)Adopt regulations necessary for the enforcement of this article.

(5)Evaluate the regulatory process, identify problems, and make changes or report to the Legislature, as necessary.

(f)If the candy tested pursuant to paragraph (2) or (3) of subdivision (e) is found to be adulterated, the department shall do both of the following:

(1)Issue health advisory notices to county health departments alerting them to the danger posed by consumption of the candy.

(2)Notify the manufacturer and the distributor of the candy that the candy is adulterated, and that the candy may not be sold or distributed in the state until further testing proves that the candy is unadulterated.

(g)(1)For any candy found to be adulterated, the manufacturer or distributor may request that the department test a subsequent sample of candy. The department shall select the candy to be tested. The cost of any subsequent sampling and testing shall be borne by the manufacturer or distributor requesting the additional testing.

(2)If the candy is found to be unadulterated when it is retested, the department shall provide the manufacturer or distributor and the county health department with a letter stating that the candy has been retested and determined to be unadulterated, and that the sale and distribution of the candy in the state may resume.

(3)If the candy is found to remain adulterated when retested, the manufacturer or distributor may take corrective measures and continue to resubmit samples for testing until tests prove the candy unadulterated.

(h)(1)The sale of adulterated candy to California consumers is a violation of this section. Any person knowingly and intentionally selling adulterated candy shall be subject to a civil penalty of up to five hundred dollars ($500) per violation. The regulations adopted shall provide that funding for this section shall be met in part or in whole by those penalties, upon appropriation by the Legislature.

(2)In the event that a candy product is found to be adulterated, the department may recover the costs incurred in the chemical analysis of that product from the manufacturer or distributor.

(3)Except as expressly set forth in this section, nothing in this section shall alter or diminish any legal obligation otherwise required in common law or by statute or regulation, and nothing in this section shall create or enlarge any defense in any action to enforce that legal obligation. Penalties imposed under this section shall be in addition to any penalties otherwise prescribed by law.

(4)This section shall not be the basis for any stay of proceedings or other order limiting or delaying the prosecution of any action to enforce Section 25249.6.

(Amended by Stats. 2012, Ch. 728, Sec. 102. (SB 71) Effective January 1, 2013.)

110555.

Any food is adulterated if it is, bears, or contains any food additive that is unsafe within the meaning of Section 110445. If, however, a pesticide chemical has been used in or on a raw agricultural commodity in

conformity with an exemption granted or a tolerance prescribed under this part or the Food and Agricultural Code and the raw agricultural commodity has been subject to processing, such as canning, cooking, freezing, dehydrating, or milling, the residue of a pesticide chemical remaining in or on the processed food shall not be deemed unsafe if the residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of the residue in the processed food when ready to eat is not greater than the tolerance prescribed for the raw agricultural commodity.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110560.

Any food is adulterated if it consists in whole or in part of any diseased, contaminated, filthy, putrid, or decomposed substance, or if it is otherwise unfit for food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110565.

Any food is adulterated if it has been produced, prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered unwholesome, diseased, or injurious to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110570.

Any food is adulterated if it is, in whole or in part, the product of any diseased animal, any animal that has died otherwise than by slaughter, or any animal that has been fed on the uncooked offal from a slaughterhouse.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110575.

Any food is adulterated if its container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents injurious to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110580.

Any food is adulterated if it has been intentionally subjected to ionizing radiation unless the use of the radiation was in conformity with a regulation or exemption in effect pursuant to Section 110070.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110585.

Any food is adulterated if any one of the following conditions exist:

(a) If any valuable constituent has been in whole or in part omitted or abstracted therefrom.

(b) If any substance has been substituted wholly or in part therefor.

(c) If damage or inferiority has been concealed in any manner.

(d) If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight or reduce its quality or strength or make it appear better or of greater value than it is.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110590.

Any food is adulterated if it is confectionery and any one of the following conditions exist:

(a) It has partially or completely embedded therein any nonnutritive object, provided that this subdivision shall not apply in the case of any nonnutritive object if, in the judgment of the department as provided by regulation, the object is of practical functional value to the confectionery product and would not render the product injurious or hazardous to health.

(b) It bears or contains any alcohol in excess of 5 percent by weight.

(c) It bears or contains any nonnutritive substance, provided that this subdivision shall not apply to a safe nonnutritive substance that is in or on confectionery by reason of its use for some practical functional purpose in the manufacture, packaging, or storage of the confectionery if the use of the substance does not promote deception of the consumer or otherwise result in adulteration or misbranding in violation of any provision of this act; and provided further that the department may, for the purpose of avoiding or resolving uncertainty as to the application of this clause, issue regulations allowing or prohibiting the use of particular nonnutritive substances.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110595.

Any food is adulterated if it bears or contains any color additive that is unsafe within the meaning of Section 110445.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110597.

Any food is adulterated if it is wine and any one of the following conditions exists:

(a) It contains lead in concentrations exceeding 150 parts per billion, or in excess of a more stringent tolerance as may be established by federal law or regulation, unless it can be shown by the producer, or if not produced in California, by the licensed importer, that the wine was bottled before January 1, 1994.

(b) A metal foil capsule containing lead in excess of 0.3 percent by dry weight is affixed or attached to its container, unless it can be shown by the producer, or if not produced in California, by the licensed importer, that the wine was bottled before January 1, 1994.

(c) Notwithstanding any other rule or principle of law that may afford a private right of action to bring claims based on alleged violations of laws or standards, the right to commence and pursue civil or administrative actions to impose or collect fines, penalties, damages, or other remedies based on an alleged violation of the Wine Safety Act established pursuant to Senate Bill 1022 of the 1993"94 Regular Session shall be vested exclusively in the state, through the Food and Drug Branch of the State Department of Health Services and the Office of the Attorney General, and with local health officers or city attorneys or district attorneys otherwise empowered to prosecute violations of this division. Retailers of wine, including, but not limited to, retailers as defined in Section 23023 of the Business and Professions Code, or food facilities as defined in Section 113785, shall be entitled to all of the same protections for any violations of the Wine Safety Act established pursuant to Senate Bill 1022 of the 1993"94 Regular Session, as are afforded to food dealers pursuant to Chapter 3 (commencing with Section 110245). This subdivision does not apply to, limit, alter, or restrict any action for personal injury or wrongful death, or any action based upon a failure to warn.

(Added by Stats. 1996, Ch. 1023, Sec. 309. Effective September 29, 1996.)

110600.

Any food is adulterated if it is fresh meat and it contains any preservative or other chemical substance not approved for use in fresh meat by the department, the United States Department of Agriculture, or the Department of Food and Agriculture of this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110605.

Any food is adulterated if it is chopped or ground beef or hamburger unless it is composed of voluntary striated muscle of fresh beef that does not contain any substance that is not approved by the department and unless it has a total fat content that is not in excess of 30 percent by weight.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110610.

Any food is adulterated if it is pork sausage or breakfast sausage and it has a total fat content that is in excess of 50 percent by weight.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110611.

Except as provided in Section 25621.5 of the Business and Professions Code, a dietary supplement, food, or beverage is not adulterated by the inclusion of industrial hemp, as defined in Section 11018.5, as long as the cannabinoids, extracts, or derivatives from industrial hemp meet the requirements established in Chapter 9 (commencing with Section 111920). The sale of a dietary supplement, food, or beverage that includes industrial hemp or cannabinoids, extracts, or derivatives from industrial hemp shall not be restricted or prohibited based solely on the inclusion of industrial hemp provided that the cannabinoids, extracts, or derivatives from industrial hemp meet the requirements of Chapter 9 (commencing with Section 111920).

(Added by Stats. 2021, Ch. 576, Sec. 8. (AB 45) Effective October 6, 2021.)

110615.

The methods of analysis used in determining the fat content of products described in Sections 110605 and 110610 shall be those prescribed by the current issue of Official and Tentative Methods of Analysis of the Association of Official Analytical Chemists, and the supplements thereto.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110620.

It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any food that is adulterated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110625.

It is unlawful for any person to adulterate any food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110630.

It is unlawful for any person to receive in commerce any food that is adulterated or to deliver or proffer for delivery any such food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110635.

While any regulation relating to a substance referred to in Section 110080, 110085, or 110090 is in effect, any food bearing or containing a substance in accordance with the regulation shall not be considered to be adulterated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110640.

The director, with the assistance of the Department of Food and Agriculture, and in cooperation with the federal Food and Drug Administration and Environmental Protection Agency, shall identify those pesticides most likely to leave residue in processed foods.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110645.

Whenever the director has been notified by the Director of Food and Agriculture pursuant to Section 12582 of the Food and Agricultural Code, the director shall immediately notify the processor, if known, by telephone, with immediate written confirmation, and take appropriate action pursuant to Section 110045.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110650.

This article does not prohibit the addition of fluorine or fluorine compounds to water intended for sale to the public as bottled water for domestic use in the manner and to the extent as may be approved by the department. The label of the bottled water shall, however, satisfy all of the labeling requirements prescribed by this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110655.

Any food intended for export shall not be deemed to be adulterated within the provisions of this part if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If the article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 6. Misbranded Food [110660 - 110805]__

(Article 6 added by Stats. 1995, Ch. 415, Sec. 6.)

110660.

Any food is misbranded if its labeling is false or misleading in any particular.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110661.

Any food is misbranded if it is manufactured, packed, or held in this state in a food processing facility not duly registered as provided in this part, except for food from facilities exclusively storing, handling, or processing dry beans.

(Added by Stats. 1999, Ch. 915, Sec. 18. Effective January 1, 2000.)

110665.

Any food is misbranded if its labeling does not conform with the requirements for nutrition labeling as set forth in Section 403(q) (21 U.S.C. Sec. 343(q)) of the federal act and the regulations adopted pursuant thereto. Any food exempted from those requirements under the federal act shall also be exempt under this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110670.

Any food is misbranded if its labeling does not conform with the requirements for nutrient content or health claims as set forth in Section 403(r) (21 U.S.C. Sec. 343(r)) of the federal act and the regulations adopted pursuant thereto. Any food exempted from those requirements under the federal act shall also be exempt under this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110673.

Any food is misbranded if its labeling does not conform with the requirements for food allergen labeling as set forth in Section 403(w) of the federal act (21 U.S.C. Sec. 343(w)) and the regulations adopted pursuant thereto. Any food exempted from those requirements under the federal act, shall also be exempt under this section.

(Added by Stats. 2008, Ch. 73, Sec. 1. Effective January 1, 2009.)

110674.

Any food is misbranded if its labeling does not conform with the requirements for pasteurized in-shell egg labeling as set forth in Section 27644.5 of the Food and Agricultural Code, and the regulations adopted pursuant thereto.

(Added by Stats. 2014, Ch. 11, Sec. 7. (AB 1414) Effective April 17, 2014.)

110675.

Any food is misbranded if it is in package form, unless it bears a label containing all of the following information:

(a) The name and place of business of the manufacturer, packer, or distributor.

(b) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count.

Reasonable variations from the requirements of subdivision (b) shall be permitted. Requirements for placement and prominence of the information required by subdivision (b), and exemptions as to small packages, shall be established in accordance with regulations adopted pursuant to Sections 110100 and 110380.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110680.

Any food is misbranded if its labeling or packaging does not conform to the requirements of Chapter 4 (commencing with Section 110290).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110685.

Any food is misbranded if it is offered for sale under the name of another food, or if it is an imitation of another food for which a definition and standard of identity has been established by regulation and its label does not bear, in type of uniform size and prominence the word imitation,□ and immediately following, the name of the food imitated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110690.

Any food is misbranded if its container is so made, formed, or filled as to be misleading.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110695.

Any food is misbranded if it is a confectionery and contains alcohol in excess of 1/2 of 1 percent by weight and that fact does not appear on the label for the food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110700.

Any food is misbranded if it is a potentially hazardous processed food that is preserved by refrigeration at temperatures of 45 degrees Fahrenheit or lower and it is not conspicuously labeled Perishable Keep Refrigerated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110705.

Any food is misbranded if any word, statement, or other information required pursuant to this part to appear on the label or labeling is not prominently placed upon the label or labeling with conspicuousness, as compared with other words, statements, designs, or devices in the labeling and in terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110710.

Any food is misbranded if it purports to be, or is represented as, a food for which a definition and standard of identity has been established under Section 110505 and the label fails to bear the name of the food specified in the standard or otherwise fails to conform to the definition and standard.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110715.

Any food is misbranded if it purports to be, or is represented as, a food for which a standard of quality or fill has been prescribed by regulation under Section 110505 and its quality or fill is below the standard unless its

label bears, in a manner and form as specified by regulation, a statement that it is below the standard.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110720.

Any food for which no standard of identity exists is misbranded unless it bears a label clearly stating the common or usual name of the food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110725.

(a) Any food fabricated from two or more ingredients is misbranded unless it bears a label clearly stating the common or usual name of each ingredient, and if the food purports to be a beverage containing vegetable or fruit juice, a statement with appropriate prominence on the information panel of the total percentage of fruit or vegetable juice contained in the food. Any spice, flavoring, or color not required to be certified under Section 110090, except any spice, flavoring, or color sold as such, may be designated as spice, flavoring, or color without naming each.

(b) Exemptions may be established by the department, when compliance with any requirement of this section is impractical or results in deception or unfair competition.

(c) In adopting any regulations relating to this section, the department shall take into consideration the current regulations established by the Secretary of Health and Human Services under authority contained in the federal act.

(d) Notwithstanding Section 110040 or any other provision of law, as used in this section, the term food includes, but is not limited to, meat. The term food does not, however, include any alcoholic beverage.

(e) This section shall not apply to any food sold for consumption on or off the premises of any restaurant in the course of its business as a restaurant, or to any milk or dairy product.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110730.

The requirements of Sections 110720 and 110725 do not apply to any food that is packaged at the direction of retail purchasers at the time of sale if the ingredients are disclosed to the purchasers by other means in accordance with the regulations adopted by the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110735.

Any food is misbranded if it purports to be, or is represented, for special dietary uses as prescribed by regulation under Section 110095 and its label does not bear information concerning any vitamin or mineral content, or other dietary property as the department prescribes, by regulation, as necessary to fully inform purchasers as to the foodsvalue for that use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110740.

Any food is misbranded if it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless its labeling states that fact. Exemptions may be established by the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110745.

Any food is misbranded if it is intended as a component of another food and when used in accordance with the directions of the purveyor, it will result in the final food being adulterated or misbranded.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110750.

Any food is misbranded if it is a color additive and it is not in conformity with the requirements for color additives prescribed under the provisions of Section 110090.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110755.

Any food is misbranded if its packaging or labeling is in violation of an applicable regulation issued pursuant to Section 108685 or 108700.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110760.

It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any food that is misbranded.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110765.

It is unlawful for any person to misbrand any food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110770.

It is unlawful for any person to receive in commerce any food that is misbranded or to deliver or proffer for delivery any such food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110775.

It is unlawful for any person to alter, mutilate, destroy, obliterate, or remove the label, or any part of the labeling, of any food if the act results in the food being misbranded.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110790.

Any food intended for export shall not be deemed to be misbranded under this part if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If the article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110795.

(a)The department may adopt regulations that name and describe the characteristics of salmon and any

other fish or other seafood it considers appropriate. The department shall consult with the Department of Fish and Game, the Joint Committee on Fisheries and Aquaculture, consumers, commercial fishermen, aquaculturists, and seafood processors, wholesalers, restaurateurs, and other retailers before adopting these regulations. The department shall not adopt any regulation that conflicts with the common name of any fish designated by the Department of Fish and Game pursuant to Section 8023 of the Fish and Game Code.

(b)In addition to the consultations required by subdivision (a), the department shall consult and seek the recommendations of the groups named in that subdivision concerning the possible need for, or desirability of, any further legislation or regulations affecting seafood labeling.

(c)No regulation adopted pursuant to this section shall deviate from a pertinent United States standard where the fish or seafood product specified is packed or processed as a standardized product under a United States standard.

(d)Nothing in this section or in regulations adopted pursuant to this section shall be construed to require the use of more than the common family name of any fish or seafood by any restaurant in menus or advertisements.

(Amended by Stats. 2004, Ch. 193, Sec. 120. Effective January 1, 2005.)

110800.

(a) Any label of any retail cut of beef, veal, lamb, or pork held for sale in a retail food production and marketing establishment or a frozen food locker plant shall clearly identify the species (beef, veal, lamb, or pork) and the primal cut from which it is derived, and the retail name.

This section shall not apply to ground beef or hamburger, boneless stewing meat, cubed steaks, sausage, or soupbones.

(b) Primal cuts include only the following in the various species:

Beef	Veal	Lamb	Pork
Chuck	Shoulder	Shoulder	Shoulder
Rib	Rib	Rib	"
Loin	Loin	Loin	Loin
Shank	Shank	Shank	"
Brisket	Breast	Breast	"
Plate	Breast	Breast	"
Flank	Flank	"	"
Round	Round or leg	Leg	Leg or ham

Cuts derived from other than the above primal cuts need only show species and the retail name.

(c) It is unlawful and constitutes misbranding for any person to sell or offer for sale in a retail food production and marketing establishment or frozen food locker plant any retail cut of beef that is labeled in violation of this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110805.

(a) Except as otherwise provided in this section, no chopped or ground beef or hamburger that is offered for sale in any retail food production and marketing establishment or frozen food locker plant shall be advertised, labeled, or otherwise held out in any manner to describe or suggest its quality or relative leanness or fat content unless the label, advertisement, or other representation accurately discloses the maximum fat content thereof by the designation Does not exceed __ percent fat. However, in no case shall the fat content of any chopped or ground beef or hamburger exceed 30 percent fat, except in no case shall the fat content exceed 26 percent in the case of chopped or ground beef or hamburger processed from the primal cut of chuck when the primal cut designation is being used.

(b) No designation such as, but not limited to, lean, super lean, premium, deluxe or similar terms descriptive of quality, leanness, or fat content shall be included on the label unless the label also contains a fat-weight designation as specified in subdivision (a). However, as an alternative to including the fat-weight designation on the label, the fat-weight designation required by this section may be disclosed by means of a sign placed immediately adjacent to the counter on which the chopped or ground beef or hamburger is displayed. This sign shall be within plain view of prospective purchasers and shall display the appropriate designation specified in subdivision (a) in boldface print.

(c) Chopped or ground beef or hamburger that is processed from primal cuts of round or sirloin shall not be required to disclose the maximum fat content if there is no reference to leanness or other quality designation relating to fat content other than the primal cut from which the product is derived. If there is a reference to leanness or any other quality designation relating to fat content, the maximum fat designation shall be a fat-weight designation as specified in subdivision (a).

(d) It is unlawful and constitutes misbranding for any person to sell or offer for sale in a retail food production and marketing establishment or frozen food locker plant any chopped or ground beef or hamburger that is labeled in violation of this section.

(Amended by Stats. 1996, Ch. 468, Sec. 1. Effective January 1, 1997.)

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 6.5. Recalled Food [110806 - 110807]__

(Article 6.5 added by Stats. 2006, Ch. 592, Sec. 2.)

110806.

(a)A meat or poultry supplier, distributor, broker, or processor that sells a meat- or poultry-related product in California that meets the criteria for a Class I or Class II recall according to the United States Department of Agriculture guidelines shall immediately notify the State Department of Public Health and shall provide the department with a list of all customers, including a firm name, address, contact personsname, telephone number, fax, and e-mail address, that have received or will receive any product subject to recall that the supplier, distributor, broker, or processor has handled or anticipates handling. The list shall include all pertinent identifying codes, including establishment numbers, package codes, product codes, pack dates, and lot numbers, if any, received or to be received, and any other relevant information. The information shall be electronically submitted to the department in a spreadsheet format specified by the department, and shall include, but not be limited to, a complete product distribution list of the recalled product, for each customer, including product ship date, amount of product shipped and amount of any product returned. The supplier, distributor, broker, or processor shall immediately notify each of its customers that received or may receive those products of the recall in a standardized format. The supplier, distributor, broker, or processor shall document this notification process, including who was notified, the date and time of the notification, and by what method they were notified. This information shall be maintained by the supplier, distributor, broker, or processor and shall be provided to the department upon request.

(b)The department may, after receiving the information required by subdivision (a), notify appropriate local health officers and environmental health directors, as soon as practicable, that a business in the local jurisdiction has handled or received, or anticipates handling or receiving, a recalled meat- or poultry-related product. The department shall, if it makes the notification authorized by this subdivision, provide appropriate local health officers and environmental health directors with each supplier™s, distributor™s, broker™s, processor™s, or retailersname, address, contact information, affected product identifying codes, including establishment numbers, package codes, product codes, pack dates, and lot numbers, if any, and all other supply chain information available.

(c)(1)If the department makes the notification authorized by subdivision (b), the department, local health officers, and environmental health directors may notify the public in a manner local health officers, in

consultation with the department and environmental health directors, deem appropriate regarding recalled meat- and poultry-related products based on their determination that the retailer is present within the local jurisdiction and has received or made the product available to the public.

(2)If the retailer is a restaurant, and a determination has been made by a local health officer or environmental health officer that the contaminated product has not been served, sold, or otherwise offered to the public for consumption, and the contaminated product has been permanently removed from the restaurantsfood supply, then the public notification shall exclude the name or any other identifying feature of the restaurant.

(Amended by Stats. 2007, Ch. 483, Sec. 24. Effective January 1, 2008.)

110807.

This article shall become operative on July 1, 2007.

(Added by Stats. 2006, Ch. 592, Sec. 2. Effective January 1, 2007. Note: This section prescribed a delayed operative date for Article 6.5, commencing with Section 110806.)

__ARTICLE 7. The California Organic Food and Farming Act [110810 - 110959]__

(Heading of Article 7 amended by Stats. 2020, Ch. 302, Sec. 8.)

110810.

This article shall be known, and may be cited as, the California Organic Food and Farming Act.

(Amended by Stats. 2020, Ch. 302, Sec. 9. (SB 406) Effective September 29, 2020.)

110811.

This article shall be interpreted in conjunction with Chapter 10 (commencing with Section 46000) of Division 17 of the Food and Agricultural Code and the regulations promulgated by the National Organic Program (NOP) (Section 6517 of the federal Organic Foods Production Act of 1990 (7 U.S.C. Sec. 6501 et seq.)).

(Added by Stats. 2002, Ch. 533, Sec. 40. Effective January 1, 2003.)

110812.

The director shall enforce regulations promulgated by the National Organic Program (Section 6517 of the federal Organic Foods Production Act of 1990 (7 U.S.C. Sec. 6501 et seq.)), provisions of this article, and Chapter 10 (commencing with Section 46000) of Division 17 of the Food and Agricultural Code.

(Added by Stats. 2002, Ch. 533, Sec. 41. Effective January 1, 2003.)

110815.

Unless otherwise defined pursuant to the National Organic Program, the following words and phrases, when used in this article, shall have the following meanings:

(a) Animal food means any food intended to be fed to any household animal, including, but not limited to, cats, or dogs and other carnivores. It does not include feed intended for livestock as defined in Section 205.2 of Title 7 of the Code of Federal Regulations.

(b) Director means the Director of the Department of Health Services.

(c) Enforcement authority means the governmental unit with primary enforcement jurisdiction, as provided in Section 110930.

(d) Handle means to sell, process, or package agricultural products.

(e) Handler means any person engaged in the business of handling agricultural products, but does not

include final retailers of agricultural products that do not process agricultural products.

(f) Handling operation means any operation or portion of an operation, except final retailers of agricultural products that do not process agricultural products, that (1) receives or otherwise acquires agricultural products and (2) processes, packages, or stores agricultural products.

(g) NOP means the National Organic Program established pursuant to the Organic Foods Production Act of 1990 (7 U.S.C. Sec. 6501 et seq.) and the regulations adopted for implementation.

(h) Processing means cooking, baking, heating, drying, mixing, grinding, churning, separating, extracting, cutting, fermenting, eviscerating, preserving, dehydrating, freezing, or otherwise manufacturing, and includes packaging, canning, jarring, or otherwise enclosing food in a container.

(i) Prohibited materials means any materials prohibited under regulations adopted by (Section 6517 of the federal Organic Foods Production Act of 1990 (7 U.S.C. Sec. 6501 et seq.)). For products not covered by the National Organic Program, prohibited materials are anything not on the approved list.

(j) Secretary means the Secretary of the California Department of Food and Agriculture.

(k) Sold as organic means any use of the terms organic, organically grown, or grammatical variations of those terms, whether orally or in writing, in connection with any product grown, handled, processed, sold, or offered for sale in this state, including, but not limited to, any use of these terms in labeling or advertising of any product and any ingredient in a multi-ingredient product.

(l) USDA means the United States Department of Agriculture.

(Amended by Stats. 2003, Ch. 726, Sec. 6. Effective January 1, 2004.)

110818.

Water, including substances dissolved in water, shall not be a prohibited material, even if it contains incidental contamination from a prohibited material, if the prohibited material was not added by, or under the direction or control of, the person in control of the product.

(Added by Stats. 2002, Ch. 533, Sec. 43. Effective January 1, 2003.)

110820.

Except as otherwise provided in this article, no product shall be sold as organic pursuant to this article unless it is produced according to regulations promulgated by the NOP, and consists entirely of products manufactured only from raw or processed agricultural products except as follows:

(a) Water, air, and salt may be added to the product.

(b) Ingredients other than raw or processed agricultural products may be added to the product if these ingredients include nonagricultural substances or nonorganically produced agricultural products produced in a manner consistent with, or which are on the national list adopted by the United States Secretary of

Agriculture pursuant to Section 6517 of the NOP and do not represent more than 5 percent of the weight of the total finished product, excluding salt and water.

(Amended by Stats. 2002, Ch. 533, Sec. 44. Effective January 1, 2003.)

110825.

Materials acceptable in this state are those outlined by regulations promulgated by the NOP and the provisions of this article.

(Amended by Stats. 2002, Ch. 533, Sec. 45. Effective January 1, 2003.)

110827.

No aquaculture, fish, or seafood product, including, but not limited to, farmed and wild caught species, shall be labeled or represented as organic until formal organic certification standards have been developed and implemented by the United States Department of AgriculturesNational Organic Program or the California Department of Food and Agriculture.

(Added by Stats. 2005, Ch. 685, Sec. 2. Effective January 1, 2006.)

110830.

(a) No product handled, processed, sold, advertised, represented, or offered for sale in this state, shall be sold as organic unless it also is prominently labeled and invoiced with similar terminology as set forth by regulations promulgated by the NOP.

(b) No product may be advertised or labeled as organic when available or similar terminology that leaves in doubt whether the food is being sold as organic.

(Amended by Stats. 2002, Ch. 533, Sec. 48. Effective January 1, 2003.)

110835.

The director may adopt regulations allowing or prohibiting the use of substances in the processing of products that are exempt or excluded from certification under the NOP, and animal food and cosmetics sold as organic.

(Amended by Stats. 2002, Ch. 533, Sec. 49. Effective January 1, 2003.)

110838.

(a) Cosmetic products sold, labeled, or represented as organic or made with organic ingredients shall contain, at least 70 percent organically produced ingredients.

(b) The percentage of all organically produced ingredients in an agricultural product sold, labeled, or represented as organic or 100 percent organic, or sold, labeled, or represented as being made with organic ingredients or food groups, or as inclusive of organic ingredients, shall be calculated as follows:

(1) For products containing organically produced ingredients in solid form, by dividing the total net weight of combined organic ingredients at formulation, excluding water and salt, by the total weight of the finished product, excluding water and salt.

(2) For products containing organically produced ingredients in liquid form, by dividing the fluid volume of all organic ingredients, excluding water and salt, by the fluid volume of the finished product, excluding water and salt. If the liquid product is identified on the principal display panel or information panel as being reconstituted from concentrates, the calculation should be made on the basis of single-strength concentrations of the ingredients and finished product.

(3) For products containing organically produced ingredients in both solid and liquid form, by dividing the combined weight of the solid ingredients and the weight of the liquid ingredients, excluding water and salt, by the total weight of the finished product, excluding water and salt.

(c) The percentage of all organically produced ingredients in an agricultural product must be rounded down to the nearest whole number.

(d) The percentage of all organically produced ingredients in an agricultural product must be determined by the handler who affixes the label to the consumer package and verified by the handlerscertifying agent. The handler may use information provided by the certified operation in determining the percentage.

(Added by Stats. 2002, Ch. 533, Sec. 50. Effective January 1, 2003.)

110839.

Multi-ingredient cosmetic products sold as organic in California with less than 70 percent organically produced ingredients, by weight or by fluid volume, excluding water and salt, may only identify the organic content as follows:

(a) By identifying each organically produced ingredient in the ingredient statement with the word organic or with an asterisk or other reference mark that is defined below the ingredient statement to indicate the ingredient is organically produced.

(b) If the organically produced ingredients are identified in the ingredient statement, by displaying the productspercentage of organic contents on the information panel.

(Added by Stats. 2002, Ch. 533, Sec. 51. Effective January 1, 2003.)

110840.

(a)All persons who handle products sold as organic shall keep accurate and specific records of the following:

(1)Except when sold to the consumer, the name and address of all persons, to whom or from whom the product is sold, purchased, or otherwise transferred, the quantity of product sold or otherwise transferred, and the date of the transaction.

(2)Invoices, bills of lading, or other documents that show transfer of title of certified organic products must indicate the product is organic or certified organic.

(3)Any person selling a product that is exempt or excluded from certification under NOP rules, shall follow the requirements of Section 205.101 of Title 7 of the Code of Federal Regulations.

(4)All substances applied to the product or used in or around any area where product is kept, including the quantity applied and the date of each application. All pesticide chemicals shall be identified by brand name, if any, and by source.

(b)All persons who sell, at retail, products sold as organic shall keep accurate and specific records of the following:

(1)Except when sold to the consumer, the name and address of all suppliers of persons, to whom or from whom the product is sold, purchased, or otherwise transferred, the quantity of product purchased or otherwise transferred, and the date of the transaction.

(2)Invoices, bills of lading or other documents that show transfer of title of certified organic products must indicate the product is organic or certified organic.

(3)Any person selling a product that is exempt or excluded from certification under NOP rules, shall follow the requirements of Section 205.101 of Title 7 of the Code of Federal Regulations.

(4)All substances applied to the product or used in or around any area where product is kept, including the quantity applied and the date of each application. All pesticide chemicals shall be identified by brand name, if any, and by source.

(c) All records required to be kept under this section shall be maintained as set forth by regulations promulgated by the NOP, when applicable, or as follows: by producers for not less than three years and by handlers for not less than two years from the date that the product is sold, and shall be maintained by retailers for not less than one year from the date that the product is sold, and shall be maintained by the retailers for not less than one year from the date that the product is received by the retailer. These records shall be made available for inspection at any time by the director or the secretary and by each certification organization that certifies the product, if any, for purposes of carrying out this article and Chapter 10 (commencing with Section 46000) of Division 17 of the Food and Agricultural Code.

(Amended by Stats. 2020, Ch. 302, Sec. 10. (SB 406) Effective September 29, 2020.)

110845.

(a)Notwithstanding any other provision of law, any producer, handler, processor, or retailer of products sold as organic shall immediately make available for inspection by, and shall upon request, within 72 hours of the

request, provide a copy to, the director, the Attorney General, any prosecuting attorney, any governmental agency responsible for enforcing laws related to the production or handling of products sold as organic, or the secretary of any record required to be kept under this section for purposes of carrying out this article and Chapter 10 (commencing with Section 46000) of Division 17 of the Food and Agricultural Code. Records acquired pursuant to this subdivision shall not be public records as that term is defined in Section 7920.530 of the Government Code and shall not be subject to Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code.

(b)Upon written request of any person that establishes cause for the request, the director and the secretary shall obtain and provide to the requesting party within 10 working days of the request a copy of any of the following records required to be kept under this article that pertain to a specific product sold or offered for sale, and that identify substances applied, administered, or added to that product, except that financial information about an operation or transaction, information regarding the quantity of a substance administered or applied, the date of each administration or application, information regarding the identity of suppliers or customers, and the quantity or price of supplies purchased or products sold shall be removed before disclosure and shall not be released to any person other than persons and agencies authorized to acquire records under subdivision (a):

(1)Records of a handler, as described in paragraph (4) of subdivision (a) of Section 110840, records of previous handlers, if any, without identifying the previous handlers or producers, and, if applicable, records obtained as required in subdivision (b).

(2)Records of a retailer, as described in paragraph (4) of subdivision (b) of Section 110840, records of previous handlers, if any, as described in paragraph (4) of subdivision (a) of, Section 110840, without identifying the previous handlers, and, if applicable, records obtained as required in subdivision (b).

This subdivision shall be the exclusive means of public access to records required to be kept by handlers and retailers under this article.

A person required to provide records pursuant to a request under this subdivision, may petition the director or the secretary to deny the request based on a finding that the request is of a frivolous or harassing nature. The secretary or director may, upon the issuance of this finding, waive the information production requirements of this subdivision for the specific request for information that was the subject of the petition.

(c)Information specified in subdivision (b) that is required to be released upon request shall not be considered a trade secret under Section 110165, Section 1060 of the Evidence Code, or the Uniform Trade Secrets Act (Title 5 (commencing with Section 3426) of Part 1 of Division 4 of the Civil Code).

(d)The director or the secretary may charge the person requesting records a reasonable fee to reimburse the director, the secretary, or the source of the records for the cost of reproducing the records requested.

(e)Any person who first imports into this state, for resale, products sold as organic shall obtain and provide to the enforcement authority, upon request, proof that the products being sold have been certified by an accredited certifying organization or have otherwise been produced in compliance with this article.

(f)The director shall not be required to obtain records not in the directorspossession in response to a subpoena. Prior to releasing records required to be kept pursuant to this chapter in response to a subpoena, the director shall delete any information regarding the identity of suppliers or customers and the quantity or price of supplies purchased or products sold.

_(Amended by Stats. 2021, Ch. 615, Sec. 276. (AB 474) Effective January 1, 2022. Operative January 1, 2023,

pursuant to Sec. 463 of Stats. 2021, Ch. 615.)_

110850.

(a) Following initial United States Department of Agriculture accreditation of certifying agents as provided in Section 6514 of Title 7 of the United States Code and upon implementation of the federal organic certification requirement pursuant to the federal Organic Foods Production Act of 1990 (7 U.S.C. Sec. 6501 et seq., Sec. 2101, P.L. 101-624), all products sold as organic in California shall be certified by a federally accredited certifying agent, if they are required to be certified under the federal act. In addition products shall be sold as organic only in accordance with this section, Sections 110855 to 110870, inclusive, and Section 46009 of the Food and Agricultural Code. The secretary, director, and the county agricultural commissioners shall carry out this subdivision to the extent that adequate funds are made available for that purpose.

(b) Products sold as organic may be certified only by a certification organization registered pursuant to Section 46014.1 of the Food and Agricultural Code or a federally accredited certification organization.

(c) In order to be registered, a certification organization shall be accredited by the USDA, if required.

(d) A certification organization that certifies processed products sold as organic shall register with the secretary.

(e) The director may audit the organizationscertification procedures and records at any time. Records of certification organizations not otherwise required to be released upon request or made publicly available shall not be released by the director except to other employees of the department, the Department of Food and Agriculture, a county agricultural commissioner, the Attorney General, any prosecuting attorney, or any government agency responsible for enforcing laws related to the activities of the person subject to this part.

(Amended by Stats. 2002, Ch. 533, Sec. 56. Effective January 1, 2003.)

110855.

Prior to initial certification of a producer, a registered certification organization shall conduct at least one initial physical inspection of the premises where the food to be certified is produced. This inspection shall include the recordkeeping system necessary for compliance with Section 110840 and the area or facility at which the food is produced.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110860.

(a) A registered certification organization shall no less often than, at the end of each calendar quarter, prepare a list by name of all persons whose production or processing of food is certified or pending certification by the certification organization. This list shall be filed with the department or the Department of Food and Agriculture, as applicable, by the certification organization and made publicly available within 30

days after the end of each quarter.

(b) A registered certification organization or a federally accredited certification organization shall, at least annually, physically inspect the premises where the food to be certified is produced and processed. The inspection shall include an examination of recordkeeping.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110865.

A registered certification organization shall adopt and adhere to a certification plan filed annually and made publicly available. Except in the case of a certification program established pursuant to subdivision (e) of Section 110850, a certification plan shall be filed as part of the registration required pursuant to subdivision (d) of Section 110850. A certification plan shall at minimum include a detailed description of all of the following elements of the certification organizationsprogram:

(a) Minimum information required from producers or processors regarding growing or processing practices and methods for verifying that information.

(b) Qualifications of and training requirements for all inspectors.

(c) Procedures for inspection, including frequency and items covered.

(d) Procedures for soil and tissue sampling and analysis.

(e) Criteria for certification.

(f) Process for certification decisionmaking, including identification of persons with decisionmaking authority.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110870.

Only products that have been handled and processed in accordance with this article may be certified by a registered certification organization.

(Amended by Stats. 2002, Ch. 533, Sec. 57. Effective January 1, 2003.)

110875.

(a) Every person engaged in this state in the processing or handling of processed products for human consumption, including dietary supplements, alcoholic beverages, and fish or seafood sold as organic (except for processors and handlers of processed meat, fowl, or dairy products and retailers that are engaged in the processing or handling of products sold as organic), and every person engaged in the processing or handling of animal food and cosmetics sold as organic, shall register with the director, and shall thereafter

annually renew the registration unless no longer so engaged. Handlers of processed food products that are registered with the department pursuant to Article 2 (commencing with Section 110460) shall register under this section in conjunction with the annual renewal of their registration pursuant to that article. Handlers of organic products that are required to be registered to manufacture, pack, or hold processed food pursuant to Article 2 (commencing with Section 110460) of Chapter 5 of Part 5 of Division 104, licensed to bottle, vend, haul, or process water pursuant to Article 12 (commencing with Section 11070) of Chapter 5 of Part 5 of Division 104, certified to process or handle fresh or frozen seafood or fresh or frozen raw shellfish pursuant to Chapter 5 (commencing with Section 112150) of Part 6 of Division 104, licensed to operate a cold storage facility pursuant to Chapter 6 (commencing with Section 112350) of Part 6 of Division 104, licensed to process low acid canned foods pursuant to Chapter 8 (commencing with Section 112650) of Part 6 of Division 104, licensed to manufacture olive oil pursuant to Chapter 9 (commencing with Section 112875) of Part 6 of Division 104, and licensed or registered to process or hold pet food in California pursuant to Chapter 10 (commencing with Section 113025) of Part 6 of Division 104, shall possess a valid registration or license in order to obtain a valid organic registration for the same facility under this section. All others required to register under this subdivision shall register within 30 days of forms being made available for this purpose. Any processor or handler of processed products required to register under this subdivision that does not pay the registration fee required by subdivision (c) within 30 days of the date on which the fee is due and payable shall pay a penalty of 11/2 percent per month on the unpaid balance.

(b) Registration shall be on a form provided by the director and shall be valid for a period of one calendar year from the date of validation of the completed registration form. The director shall make registration forms available for this purpose. The information provided on the registration form shall include all of the following:

(1) The nature of the registrantsbusiness, including the specific commodities and quantities of each commodity that is handled and sold as organic.

(2) The total current annual organic gross sales, or if not selling the product, the total current gross annual revenue received from processing, packaging, repackaging, labeling, or otherwise handling organic products for others, in dollars.

(3) The names of all certification organizations and governmental entities, if any, providing certification to the registrant pursuant to this article and the regulations adopted by the NOP.

(4) Sufficient information, under penalty of perjury, to enable the director to verify the amount of the registration fee to be paid in accordance with subdivision (c).

(c) To the extent feasible, the director shall coordinate the registration and fee collection procedures of this section with similar licensing or registration procedures applicable to registrants. When coordinating the organic registration with other required registrations or licenses identified in subdivision (a), the expiration date shall be the same expiration date as the valid license or registration. For persons that hold two-year licenses or registrations pursuant to subdivision (a), the organic registration shall be renewed annually using the same expiration month and day as the two-year license or registration.

(d) A registration form shall be accompanied by payment of a nonrefundable registration fee payable to the department by handlers which shall be based on annual gross sales of organic product or annual revenue received from processing, packaging, repackaging, labeling, or otherwise handling organic product for others, by the registrant in the calendar year that precedes the date of registration. If no sales or revenue were made in the preceding year, then based on the expected sales or revenue during the 12 calendar months following the date of registration. Unless specified elsewhere, the fee is based according to the following schedule:

`

Gross Annual Sales or Revenue	Annual Registration Fee
$0“$5,000	$ 50
$5,001“$50,000	$100
$50,001“$125,000	$200
$125,001“$250,000	$300
$250,001“$500,000	$400
$500,001“$1,500,000	$500
$1,500,001“$2,500,000	$600
$2,500,001“and above	$700

(1) Any handler that does not take possession or title of the product but arranges for the sale of the product shall register and pay one hundred dollars ($100) per year.

(2) Any person that only provides temporary storage for seven days or less, or only provides transportation for organic product and does not handle the processed packaged product, does not have to register.

(3) Any person that hires any other person to custom pack, repack, or label organic products shall register and pay a fee based on the total annual sales of products custom packed, repacked, or labeled for them as outlined in the chart above.

(e) Revenue received pursuant to this section shall be deposited in the Food Safety Fund created pursuant to Section 110050.

(f) The director shall reject a registration submission that is incomplete or not in compliance with this article and regulations promulgated by the NOP.

(g) The director shall provide a validated certificate to the registrant.

(h) Registration forms shall be made available to the public for inspection and copying at the main office of the department. Copies of registration forms shall also be made available by mail, upon written request and payment of a reasonable fee, as determined by the director. Registration information regarding quantity of products sold and gross sales volume in dollars shall be deleted prior to public inspection and copying and shall not be released to any person except other employees of the department, the Department of Food and Agriculture, a county agricultural commissioner, the Attorney General, any prosecuting attorney, or any government agency responsible for enforcing laws related to the activities of the person subject to this part.

(i) A registrant shall immediately notify the director of any change in the information reported on the registration form and shall pay any additional fee owed if that change results in a higher fee owed than previously paid.

(j) The director in consultation with the California Organic Products Advisory Committee, may suspend the registration program set forth in this section if the director determines that income derived from registration fees is insufficient to support a registration enforcement program.

(k) A registration is considered legal and valid until revoked, suspended, or until the expiration of the registration.

(l) The registration revocation process must be in conjunction with other provisions of this article. The director can initiate the revocation process for failure to comply with this article or any part of the regulations adopted pursuant to the NOP. Any person against whom the action is being taken shall have the opportunity to appeal the action and be afforded the opportunity to be heard in an administrative appeal. This appeal can be administered by either the state or county agricultural commissionersoffice.

(m) When the registration fee is not paid within 60 days from the expiration date the account may be considered closed and the registration voided. A notification will be sent to the registrant and the certifier will notify them that they are no longer able to market products as organic until the account is paid in full.

(n) Any registration that is more than 60 days late will be considered invalid and it is a violation if product is sold as organic.

(Amended by Stats. 2002, Ch. 533, Sec. 58. Effective January 1, 2003.)

110880.

This article shall apply to all products sold as organic within the state, wherever produced, handled, or processed, and to all products produced, that are handled or processed in the state, wherever sold as organic.

(Amended by Stats. 2002, Ch. 533, Sec. 59. Effective January 1, 2003.)

110885.

This article shall not apply to the term natural when used in the labeling or advertising of a product.

(Amended by Stats. 2002, Ch. 533, Sec. 60. Effective January 1, 2003.)

110890.

(a) It is unlawful for any person to sell, offer for sale, advertise, or label any product in violation of this article.

(b) Notwithstanding subdivision (a), a person engaged in business as a distributor or retailer of products who in good faith sells, offers for sale, labels, or advertises any product in reliance on the representations of a producer, handler, or other distributor that the product may be sold as organic, shall not be found to violate this article unless the distributor either: (1) knew or should have known that the product could not be sold as organic; (2) was engaged in producing or processing the product; or (3) prescribed or specified the manner in which the product was produced or processed.

(Amended by Stats. 2002, Ch. 533, Sec. 61. Effective January 1, 2003.)

110895.

(a) It is unlawful for any person to certify products in violation of this article.

(b) It is unlawful for any person to certify products as organic unless duly registered or accredited as a certification organization pursuant to Section 110850.

(c) It is unlawful for any person to willfully make a false statement or representation, or knowingly fail to disclose a fact required to be disclosed, in registration for a certification organization pursuant to Section 110850.

(Amended by Stats. 2002, Ch. 533, Sec. 62. Effective January 1, 2003.)

110900.

(a) It is unlawful for any person to produce, handle, or process products sold as organic unless duly registered pursuant to Section 110875.

(b) It is unlawful for any person to willfully make a false statement or representation, or knowingly fail to disclose a fact required to be disclosed, in registration pursuant to Section 110875.

(Amended by Stats. 2002, Ch. 533, Sec. 63. Effective January 1, 2003.)

110905.

It is unlawful for any person to forge, falsify, fail to retain, fail to obtain, or fail to disclose records pursuant to Sections 110840 and 110845.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110910.

It is unlawful for any person to do any of the following:

(a) Advertise, label, or otherwise represent that any fertilizer or pesticide chemical may be used in connection with the production, processing, or distribution of products sold as organic if that fertilizer or pesticide chemical contains a prohibited material.

(b) Alter any organic registration form.

(c) Alter any certification document.

(d) Falsify any document.

(e) Use the term transitional organic in this state to represent a product for sale.

(Amended by Stats. 2002, Ch. 533, Sec. 64. Effective January 1, 2003.)

110915.

(a) In lieu of prosecution, the director may levy a civil penalty against any person who violates this article, any regulation adopted pursuant to this article, or any regulation promulgated by the NOP in an amount not more than five thousand dollars ($5,000) for each violation. The amount of the penalty assessed for each violation shall be based upon the nature of the violation, the seriousness of the effect of the violation upon effectuation of the purposes and provisions of this article, and the impact of the penalty on the violator, including the deterrent effect on future violations.

(b) Notwithstanding the penalties prescribed in subdivision (a), if the director finds that a violation was not intentional, the director may levy a civil penalty of not more than two thousand five hundred dollars ($2,500) for each violation.

(c) For a first offense, in lieu of a civil penalty as prescribed in subdivisions (a) and (b), the director may issue a notice of violation, if he or she finds that the violation is minor.

(d) A person against whom a civil penalty is levied shall be afforded an opportunity for a hearing before the director, upon request made within 30 days after the date of issuance of the notice of penalty. At the hearing, the person shall be given the right to review the directorsevidence of the violation and the right to present evidence on his or her own behalf. If no hearing is requested, the civil penalty shall constitute a final and nonreviewable order.

(e) If a hearing is held, review of the decision of the director may be sought by any person within 30 days of the date of the final order of the director pursuant to Section 1094.5 of the Code of Civil Procedure.

(f) A civil penalty levied by the director pursuant to this section may be recovered in a civil action brought in the name of the state.

(Amended by Stats. 2002, Ch. 533, Sec. 65. Effective January 1, 2003.)

110920.

No fee established and collected pursuant to this article shall exceed the departmentscosts of regulating and enforcing the provisions of this article related to the function for which the fee is established.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110925.

Any fees and civil penalties collected pursuant to this article shall be deposited in the General Fund and, upon appropriation by the Legislature, shall be expended to fulfill the responsibilities of the director as specified in this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110930.

The director shall, to the extent funds are available, enforce this article applicable to all processors and handlers of processed products sold as organic, including handlers and processors of fish and seafood, cosmetics, and animal food products sold as organic, except for processors and handlers of processed meat, fowl, and dairy products.

(Amended by Stats. 2002, Ch. 533, Sec. 66. Effective January 1, 2003.)

110935.

The director shall maintain in a central location, and make publicly available for inspection and copying, upon request, a list of all penalties levied within the past five years, including the amount of each penalty, the party against whom the penalty was levied, and the nature of the violation. The list also shall be available by mail, upon written request and payment of a reasonable fee, as determined by the director.

(Amended by Stats. 1999, Ch. 609, Sec. 26. Effective January 1, 2000.)

110940.

(a) Any person may file a complaint with the director concerning suspected noncompliance with this article by a person over whom the director has responsibility as provided in this article or regulations adopted by the NOP.

(b) The director shall, to the extent funds are available, establish a procedure for handling complaints, including, provision of a written complaint form, and procedures for commencing an investigation within three working days of receiving a written complaint regarding fresh food, and within seven working days for other product, and completing an investigation and reporting findings and enforcement action taken, if any, to the complainant within 90 days thereafter.

(c) The director may establish minimum information requirements to determine the verifiability of a complaint and may provide for rejection of a complaint that does not meet the requirements. The director shall provide written notice of the reasons for rejection to the person filing the complaint.

(d) The responsibilities of the director under this section shall be carried out to the extent funds are available.

(e) The complaint process in this state shall also meet all the complaint processes outlined in regulations promulgated by the NOP.

(Amended by Stats. 2002, Ch. 533, Sec. 67. Effective January 1, 2003.)

110945.

This article shall apply notwithstanding any other provision of law that is inconsistent with this article. Nothing in this article is intended to repeal any other provision of law not inconsistent with this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110950.

The director may adopt any regulations as are reasonably necessary to assist in the implementation of, or to make more specific, the provisions of, this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110955.

Any reference in law to former Section 26569.11, whether existing or hereinafter enacted, shall be interpreted to refer to this article and Chapter 10 (commencing with Section 46000) of Division 17 of the Food and Agricultural Code as the successor section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110956.

(a) All organic product regulations and any amendments to those regulations adopted pursuant to the NOP, that are in effect on the date this bill is enacted or that are adopted after that date shall be the organic product regulations of this state.

(b) The director may, by regulation, prescribe conditions under which organic products not addressed by the National Organic Program may be sold in this state.

(Amended by Stats. 2002, Ch. 533, Sec. 68. Effective January 1, 2003.)

110957.

It shall be unlawful for a person to represent in advertising or labeling that the person or the products of the person are registered pursuant to this article.

(Amended by Stats. 2002, Ch. 533, Sec. 69. Effective January 1, 2003.)

110958.

Annually, the director shall compile and publish and submit to the California Organic Products Advisory Committee a summary of information collected under Section 110875, including, but not limited to, the following:

(a) The total number of registrations received under this section.

(b) The total number and quantity of each type of product sold as organic by all registrants combined.

(c) The total annual organic gross sales volume or revenue of all registrants combined, and the median gross annual organic sales or revenue of all registrants.

(d) The names of all registrants.

(e) The number of registrants in each of the following ranges of annual gross sales volume:

(1) $0"$5,000

(2) $5,001"$25,000

(3) $25,001"$50,000

(4) $50,001"$125,000

(5) $125,001"$250,000

(6) $250,001"$500,000

(7) $500,001"$750,000

(8) $750,001"$1,000,000

(9) $1,000,001"$1,500,000

(10) $1,500,001"$2,500,000

(11) $2,500,001"$10,000,000

(12) $10,000,001"$30,000,000

(13) $30,000,001 and above.

(f) The report published pursuant to this section shall present the required information in an aggregate form that preserves the confidentiality of the proprietary information of individual registrants.

(Amended by Stats. 2002, Ch. 533, Sec. 70. Effective January 1, 2003.)

110959.

Beginning January 1, 2003, the director shall conduct a program of spot inspections of persons required to register pursuant to Section 110875 to verify continuing compliance with this article and the regulations adopted by the NOP according to uniform procedures established by the director and regulations promulgated by the NOP.

(Added by Stats. 2002, Ch. 533, Sec. 71. Effective January 1, 2003.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=5.&chapter=5.&article=8.5.

110962.

(a)For purposes of this section, the following definitions apply:

(1)Baby food means food packaged in jars, pouches, tubs, and boxes represented or purported to be specifically for babies and young children less than two years of age. Baby food does not include infant formula, as defined in Section 321(z) of Title 21 of the United States Code.

(2)Final baby food product means the finished product of baby food with a unique universal product code (UPC). Final baby food product does not mean the constituent ingredients of baby food.

(3)Product label means a display of written, printed, or graphic material that is affixed to a product or its immediate container.

(4)Product shelf life means the time, measured in the number of months, between the date of manufacture and the expiration date for a final baby food product.

(5)Production aggregate means a quantity of product that is intended to have uniform composition, character, and quality, and is produced according to a master manufacturing order.

(6)Proficient laboratory is a laboratory that meets the criteria listed in subdivision (c).

(7)Quick response (QR) code means a machine-readable code, consisting of an array of squares, used for storing an internet website in order to access a web page.

(8)Representative sample means a sample that consists of a number of units that are drawn based on rational criteria, such as random sampling, and intended to ensure that the sample accurately portrays the material being sampled.

(9)Toxic elements means arsenic, cadmium, lead, and mercury.

(b)A manufacturer of baby food for sale or distribution in this state shall comply with all of the following:

(1)(A)Beginning on January 1, 2024, test a representative sample of each production aggregate of the manufacturersfinal baby food product, at a proficient laboratory, for toxic elements.

(B)A manufacturer may test the final baby food product pursuant to subparagraph (A) before packaging individual units of baby food for sale or distribution.

(C)A manufacturer shall test each final baby food product for toxic elements pursuant to subparagraph (A) at least once per month.

(D)A manufacturer shall provide test results to any authorized agent of the department upon their request, pursuant to Article 2 (commencing with Section 110140) of Chapter 2 or Article 11 (commencing with Section 111015) of this chapter.

(2)For final baby food products sold, manufactured, delivered, held, or offered for sale in the state on and after January 1, 2025, disclose product information to consumers consistent with all of the following:

(A)(i)Make publicly available on the manufacturersinternet website, for the duration of the product shelf life for a final baby food product plus one month, the name and level of each toxic element present in each production aggregate of a final baby food product.

(ii)Provide descriptive information on the internet website to enable accurate identification of the final baby food product by consumers. Descriptive information may include, but is not limited to, product name, UPC, size, lot numbers, or batch numbers.

(B)If a product is tested for a certain toxic element subject to an action level, regulatory limit, or tolerance established by the United States Food and Drug Administration (FDA) pursuant to Part 109 (commencing with Section 109.3) of Title 21 of the Code of Federal Regulations, include on the product label both of the following:

(i)A QR code or other machine-readable code that links to a page on the manufacturersinternet website containing all of the following information:

(I)Test results for the toxic element, as provided pursuant to subparagraph (A).

(II)An internet website link to a website of the FDA where consumers can find the most recent FDA guidance and information about the health effects of the toxic element on children.

(ii)A statement that reads: For information about toxic element testing on this product, scan the QR code.□

(c)The proficient laboratory that analyzes the final baby food product for toxic elements shall meet all of the following criteria:

(1)Be accredited under the standards of the International Organization for Standardization (ISO) / International Electrotechnical Commission (IEC) 17025:2017 regarding the general requirements for the competence of testing and calibration laboratories.

(2)Use an analytical method that is at least as sensitive as that described in the FDA Elemental Analysis Manual 4.7.

(3)Demonstrate proficiency in quantifying each toxic element to at least six micrograms of the toxic element to kilogram of food (Î¼g/kg) through an independent proficiency test. Proficiency means that laboratories achieve a z-score that is less than, or equal to, plus or minus two (â‰¤ Â±2).

(Added by Stats. 2023, Ch. 668, Sec. 1. (AB 899) Effective January 1, 2024.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 9. Frozen Foods [110965- 110965.]__

(Article 9 added by Stats. 1995, Ch. 415, Sec. 6.)

110965.

(a) No retail food production and marketing establishment shall advertise, label, or otherwise hold out as fresh any meat or fish that has been previously frozen.

(b) For purposes of this section:

(1) Frozen means any meat or fish stored in a room or compartment in which the temperature is plus five degrees Fahrenheit or lower.

(2) Retail food production and marketing establishment means any room, building, or place, or portion thereof, maintained, used, or operated for, or in conjunction with, the retail sale of food, or preparation of food. Retail food production and marketing establishment does not include any food facility, such as any mobile food preparation unit any vehicle, and any vending machine as defined in Chapter 4 (commencing with Section 113700) of Part 7; any wholesale food manufacturing, distributing, or storage establishment, including, but not limited to, the licensed premises or branch office of any winegrower, any brandy manufacturer, or any wine blender, subject to Chapter 4 (commencing with Section 111950) of Part 6; any frozen food locker plant subject to Chapter 7 (commencing with Section 112500) of Part 6; any health

facility subject to Chapter 2 (commencing with Section 1250) of Division 2 and Section 127050; any community care facility subject to Chapter 3 (commencing with Section 1500) of Division 2; or any official establishment subject to Chapter 4 (commencing with Section 18650) of Part 3 of Division 9 of the Food and Agricultural Code.

(c) On and after the effective date of the act that added this subdivision to this section during the 1993"94 Regular Session, Section 26661 of the Food and Agricultural Code shall apply, to the exclusion of any provision of this section, with respect to the advertising, labeling, or otherwise holding out, of poultry.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 10. Ice [110970 - 111010]__

(Article 10 heading added by Stats. 1996, Ch. 1023, Sec. 313.)

110970.

This article applies only to ice that is intended for human consumption and is sold in packaged form. This

article shall not apply to persons, hotels, restaurants, caterers, food service contractors, and theaters that manufacture, sell, or furnish ice solely to, or for, their customers in a manner that is incidental to the manufacturing, furnishing, or sale of other goods or services. This article shall not apply to ice dispensing or vending machines, except those that dispense or vend packaged ice, or to the icing of vehicles used to transport food.

(Added by Stats. 1996, Ch. 1023, Sec. 314. Effective September 29, 1996.)

110975.

The following definitions apply to this article:

(a) Ice means the product obtained as the result of freezing water by natural, mechanical, or artificial means.

(b) Natural ice means the product obtained as the result of freezing water by natural means.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110980.

In addition to the requirements of this article, unless ice is otherwise specifically excluded, regulations specifying good manufacturing practices applicable to food generally pursuant to Section 110105 shall be applicable to the manufacture of ice.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110985.

No person shall make ice from, or cut natural ice from, water that does not comply with primary drinking water standards adopted by the department pursuant to Section 116365. No person shall sell or offer for sale for human consumption or food preservation ice made or cut in violation of this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110990.

Unless water from a public water system, as defined in Section 116275, is used in the manufacture of ice, the manufacturer shall, on a quarterly basis, obtain from an approved laboratory, a bacterial analysis of the water used. The analysis shall be submitted to the department, indicating whether the water is pure and wholesome.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

110995.

Any person or entity who manufactures, transports, stores, or sells ice shall comply with all of the following:

(a) A room in which ice is manufactured shall be used for no other purpose than the manufacture of ice and the production of refrigeration, and may contain refrigeration equipment and machinery. This subdivision shall not apply to any food facility as defined in Section 113785.

(b) Ice storage or processing areas shall be maintained in a clean and sanitary condition and no noxious or offensive odors, smoking, or other air pollution shall be permitted therein.

(c) Cover tops for tank cans shall have a smooth, painted, or treated surface, and shall be cleaned daily. Water used for cleaning shall not be permitted to drip into freezing cans. Only potable water shall be used in sprays and in the thaw tanks for the removal of ice from cans. Water coverage tanks shall be covered and provided with filtered vents.

(d) Crushed, cubed, or shaved ice, intended for human consumption, shall be stored in a manner that prevents its pollution or contamination.

(e) Soil, waste, or drain pipes shall not be installed or maintained above any ice platform, loading space, ice container, ice storage room, dip tank or any place where leakage from the pipes may drop into, or upon any ice or upon any area or equipment used in the manufacture of ice, unless a safety device shall be installed under the pipes drained to an open receptacle or drain so as to prevent pollution of ice, water, or equipment used in the manufacture of the ice.

(f) Block ice-loading platforms shall be washed with water as often as necessary to keep them in a clean and sanitary condition, but not less than once each day.

(g) Block ice pullers and block ice storage-room employees shall wear rubber overshoes while on duty. The rubber overshoes shall be removed when the employee leaves the storage or tank room, except that if the rubber overshoes are not removed, they shall be cleaned and disinfected before reentering the storage or tank room. The use of street shoes without rubber overshoes in these areas is prohibited.

(h) All frozen unpackaged ice blocks intended for sale for human consumption or for the refrigeration of food products shall be washed thoroughly with potable water. Ice manufactured for industrial purposes need not be washed prior to shipping but shall be handled and stored separately from ice intended for human consumption.

(i) Ice shall be handled only with clean tongs, ice-carrying bags, scoops, or other sanitary containers, and shall not be directly handled with bare hands.

(j) Single service supplies shall be stored, dispensed, and handled in a sanitary manner and shall be used only once.

(k) Persons not directly involved in the manufacture, processing, packaging, or storing of ice, in the maintenance of facilities and equipment used therefore, or in the management, supervision, or inspection thereof, shall not be permitted in any area where ice is manufactured, processed, packaged, or stored, unless personal cleanliness and hygienic practices are taken to prevent contamination of the product. These areas

shall have signs posted to this effect.

(l) Bacteriological tests of the finished ice shall be conducted not less than biannually, chemical and physical tests annually, and radiological tests every four years, to insure that ice manufactured for human consumption or for the refrigeration of food products complies with the primary drinking water standards adopted by the department pursuant to Section 116365.

(m) No ice produced out of state shall be sold or distributed within this state unless it complies with this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111000.

(a) Filter beds and any filtering equipment shall be designed to protect ice from contamination and shall be subject to periodic treatment and cleaning.

(b) All equipment and utensils used in ice production areas shall be of easily cleanable construction, shall be kept clean and in good repair, and shall be handled and stored in a sanitary manner. Materials used as ice contact surfaces shall be smooth, nontoxic, and nonabsorbent. Ice cans shall be leakproof and the inner surfaces of the containers shall be free of corrosion.

(c) Freezing tank covers shall be designed and constructed to protect ice containers from splash, drip, and other contamination, shall be easily cleanable, and shall be kept clean and in good repair. The covers shall be equipped with rings or similar devices when hooks are used for pulling. Can or tank covers, and the ledges or sides of the tank upon which the cover rests, shall be cleaned as often as necessary to keep them in a sanitary condition.

(d) Conveyor surfaces shall be of impervious material and shall protect ice from contaminants that may result from shredding, flaking, peeling, or fragmentation of the conveyor surface.

(e) Equipment lubrication shall not contaminate the ice and only food grade lubricants shall be used.

(f) All product storage and holding areas to be refrigerated shall be cleaned as often as necessary to keep them free of contamination.

(g) Air used for water agitation shall be filtered or otherwise treated to remove dust, dirt, insects, and extraneous material. Filters shall be placed upstream from the compressor and shall be easily removable for cleaning or replacement.

(h) The compressor or blower used to supply air or water agitation shall be designed to deliver oil-free air.

(i) Air lines and core or vacuum devices shall be used as needed to produce ice free of rust or other foreign materials.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111005.

In addition to the requirements of this article, ice shall be considered a food subject to all the sanitation requirements applicable to food generally pursuant to Article 1 (commencing with Section 110425), except those provisions that specifically exclude ice.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111010.

Any truck, vehicle, or other equipment used for delivery, distribution, or selling ice, shall comply with all of the following:

(a) It shall be constructed and maintained to provide adequate and reasonable protection to the ice transported therein. Care shall be taken to prevent its contact with any contaminants, or other substances that would take the ice out of compliance with the drinking water standards prescribed by this article.

(b) All cubed, crushed, or shaved ice shall be kept in clean receptacles or containers that shall be kept covered while the vehicle is in motion.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 11. Local Enforcement [111015 - 111065]__

(Article 11 added by Stats. 1995, Ch. 415, Sec. 6.)

111015.

Health officer, as used in this article, means the health officer appointed by a county board of supervisors pursuant to Section 101000, by the governing body of a city pursuant to Section 101460, by the governing body of a city and county, or by a local health district board pursuant to former Section 940, that is continued in effect as to any existing district by Section 3 of Chapter 380 of the Statutes of 1959.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111020.

The department, upon the request of a health officer, may authorize the local health department of a city, county, city and county, or local health district to enforce this part, and the regulations adopted pursuant to this part that pertain to retail food establishments, as defined by regulation, if the department determines that the local health department has sufficient personnel with adequate training to do so. The enforcement shall be limited to the area under the jurisdiction of the local health department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111025.

The department may revoke any authorization made pursuant to this article, if it determines, after a hearing conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code that the local health department authorized pursuant to this article is not enforcing this part or the regulations adopted pursuant to this part, or no longer has an adequate staff qualified to do so.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111030.

A local health department that is authorized by the department to enforce this part may make inspections, take samples, make laboratory examinations, impose and remove embargoes, hold informal hearings, certify facts to the district attorney, and institute proceedings for the forfeiture, condemnation, and destruction of food found to be adulterated or misbranded. The action shall be instituted in the name of the city, county, city and county, or district of which the local health department is a part, and shall conform to the

requirements of this part and the regulations adopted by the department pursuant to this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111035.

For the purposes of this article, the health officer and his or her deputies shall have the same powers and authority as an inspector of the Bureau of Food and Drug of the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111040.

When an examination or analysis made pursuant to this part shows that any provision of this chapter has been violated, written notice of that fact together with a copy of the findings shall be furnished to each party from whom the sample was obtained, or who issued the product guarantee.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111045.

The health officer shall set a time for an informal hearing, at which the parties may be heard before him or her or his or her representatives. A notice in writing shall be served upon the interested parties at least 15 days prior to the hearing. The informal hearing shall be private and limited to questions of fact. Appearances may be made in person or by attorney. Testimony may be taken and evidence introduced as to the correctness of the findings made by the person making the examination or performing the analysis.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111050.

If the examination or analysis is found to be correct, or if any party fails to appear after notice has been duly given, the health officer may certify the facts found to the district attorney of the county. No publication shall be made until after the hearing is concluded.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111055.

This article shall not be construed as repealing, either directly or by implication, any of the existing sections of this chapter, but shall be construed as constituting an alternative method of enforcing this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111060.

This article shall not affect any previous authorization by the department to a local health department of a county, city, or city and county to enforce this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111065.

The department may adopt regulations relating to the operation of a local health department as it considers necessary to fully effect this article, including, but not limited to, requirements relating to reporting of activities and the numbers and qualification of personnel.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Article 11.5 added by Stats. 2000, Ch. 1062, Sec. 2.)

111067.

(a) Any city, county, or city and county may adopt an ordinance that provides for the regulation of the disposition of bullfrogs and turtles imported for sale in live animal markets for use as food. The ordinances may provide for all of the following:

(1) The designation of a local agency to carry out this article.

(2) Require a permit, issued by an agency designated by the city, county, or city and county to issue permits, for the sale of bullfrogs and turtles imported for sale in live animal markets for use as food.

(3) Establish a fee for the permit in an amount determined sufficient to offset the administrative cost of issuing the permit and enforcing the provisions of the ordinance.

(4) Require that animals sold pursuant to the permit be dispatched at the time of sale.

(5) Require that signs be posted at the permitteesplace of business, stating that animals must be properly dispatched and that release into the wild in a live state is unlawful.

(6) Authorize the local agency, after notice and opportunity for a hearing, to suspend or revoke a permit issued pursuant to paragraph (1) for violation of any provision of the ordinance adopted pursuant to this article.

(b) The State Department of Health Services and the Department of Fish and Game may consult with a city, county, or city and county for purposes related to this article.

(Added by Stats. 2000, Ch. 1062, Sec. 2. Effective January 1, 2001.)

111068.

Nothing in this article is intended to limit or preempt the jurisdiction of any state agency or commission, or any other state entity, from adopting any regulation or taking any action it deems necessary and appropriate regardless of any local ordinance adopted pursuant to this article.

(Added by Stats. 2000, Ch. 1062, Sec. 2. Effective January 1, 2001.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 12. Bottled, Vended, Hauled, and Processed Water [111070 - 111198]__

(Article 12 added by Stats. 1995, Ch. 415, Sec. 6.)

111070.

(a)Bottled water,□ means any water that is placed in a sealed container at a water-bottling plant to be used for drinking, culinary, or other purposes involving a likelihood of the water being ingested by humans. Bottled water shall not include water packaged with the approval of the department for use in a public emergency.

(b)Vended water□ means any water that is dispensed by a water-vending machine, retail water facility, or water from a private water source, or other water as defined in Section 111170 that is not placed by a bottler in sealed containers, and that is dispensed by a water-vending machine, retail water facility, water hauler, or any other person or facility for drinking, culinary, or other purposes involving a likelihood of the water being ingested by humans. Vended water,□ does not include water from a public water system that has not undergone additional treatment. Water sold without further treatment is not vended water□ and shall be labeled in accordance with Section 111170.

(c)Water-bottling plant□ means any facility in which bottled water is produced.

(d)A water-vending machine□ means a water-connected vending machine designed to dispense drinking water, or purified or other water products. The machines shall be designed to reduce or remove turbidity,

off-tastes, and odors and to provide disinfection treatment. Processes for dissolved solids reduction or removal shall also be used.

(e)Water hauler,□ means any person who hauls water in bulk by any means of transportation if the water is to be used for drinking, culinary, or other purposes involving a likelihood of the water being ingested by humans.

In bulk,□ as used in this subdivision, means containers having capacities of 250 gallons or greater.

(f)Retail water facility□ means any commercial establishment where vended water is sold, and placed in customerscontainers, or placed in containers sold or given to customers who come to the establishment to obtain water.

(g)Private water source,□ means a privately owned source of water, other than a public water system, that is used for bottled or vended water and meets the requirements of an approved source for bottled water as defined in Section 129.3 of Title 21 of the Code of Federal Regulations.

(h)Bottled water distributor□ means any person, other than an employee or representative of a bottled water plant, who delivers bottled water directly to customers.

(Amended by Stats. 2007, Ch. 575, Sec. 2. Effective January 1, 2008.)

111070.5.

(a)Advanced purified demonstration water□ means product water from an advanced water purification facility that satisfies both of the following requirements:

(1)The product water is treated by all of the following treatment processes:

(A)Microfiltration, ultrafiltration, or other filtration process that removes particulates before reverse osmosis.

(B)Reverse osmosis.

(C)Advanced oxidation.

(2)The product water meets or exceeds all federal and state drinking water standards and is produced in accordance with the advanced treatment criteria for purified water specified in Section 60320.201 of Title 22 of the California Code of Regulations.

(b)A bottler of advanced purified demonstration water shall do all of the following:

(1)Submit sample labels to the department for review at least 30 days before bottling advanced purified demonstration water.

(2)Submit the analyses of the advanced purified demonstration water required under subdivision (e) of Section 13570 of the Water Code to the department at least seven days before bottling advanced purified demonstration water.

(3)Conduct a full sanitation of the bottling and filling equipment immediately after bottling advanced

purified demonstration water.

(Amended by Stats. 2017, Ch. 561, Sec. 132. (AB 1516) Effective January 1, 2018.)

111071.

(a)As a condition of licensure, each bottled water plant, which has the same meaning as the definition in subdivision (c) of Section 111070, shall annually prepare a bottled water report and shall, upon request, make that report available to each customer.

(b)The report shall be prepared in English, Spanish, and in the appropriate languages for each non-English-speaking group other than Spanish that exceeds 10 percent of the statespopulation.

(c)For purposes of complying with this section, when bottled water comes from a municipal source, the relevant information from the consumer confidence report or water quality report prepared for that year by the public water system pursuant to Section 116470 may be used.

(d)The bottled water report shall include, but not be limited to, all of the following:

(1)The source of the bottled water, consistent with applicable state and federal regulations.

(2)A brief and plainly worded definition of the terms statement of quality,□ maximum contaminant level,□ primary drinking water standard,□ and public health goal.□

(3)A brief description of the treatment process.

(4)A reference to the United States Food and Drug Administration Internet Web site that provides product recall information.

(5)The bottled water companysaddress and telephone number that enables customers to obtain further information concerning contaminants and potential health effects.

(6)Information on the levels of unregulated substances, if any, for which water bottlers are required to monitor pursuant to state or federal law or regulation.

(7)(A)The following statement:

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the United States Food and Drug Administration, Food and Cosmetic Hotline (1-888-723-3366).□

(B)If the telephone number for the United States Food and Drug Administration, Food and Cosmetic Hotline changes, the statement shall be updated to reflect the new telephone number.

(8)The following statement:

Some persons may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons, including, but not limited to, persons with cancer who are undergoing

chemotherapy, persons who have undergone organ transplants, persons with HIV/AIDS or other immune system disorders, some elderly persons, and infants can be particularly at risk from infections. These persons should seek advice about drinking water from their health care providers. The United States Environmental Protection Agency and the federal Centers for Disease Control and Prevention guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

(9)The following statement:

The sources of bottled water include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water naturally travels over the surface of the land or through the ground, it can pick up naturally occurring substances as well as substances that are present due to animal and human activity.

Substances that may be present in the source water include any of the following:

(1)Inorganic substances, including, but not limited to, salts and metals, that can be naturally occurring or result from farming, urban stormwater runoff, industrial or domestic wastewater discharges, or oil and gas production.

(2)Pesticides and herbicides that may come from a variety of sources, including, but not limited to, agriculture, urban stormwater runoff, and residential uses.

(3)Organic substances that are byproducts of industrial processes and petroleum production and can also come from gas stations, urban stormwater runoff, agricultural application, and septic systems.

(4)Microbial organisms that may come from wildlife, agricultural livestock operations, sewage treatment plants, and septic systems.

(5)Substances with radioactive properties that can be naturally occurring or be the result of oil and gas production and mining activities.

(10)The following statement:

In order to ensure that bottled water is safe to drink, the United States Food and Drug Administration and the State Department of Public Health prescribe regulations that limit the amount of certain contaminants in water provided by bottled water companies.

(11)(A)The following statement, if nitrate (NO3) levels above 23 ppm but below 45 ppm (the maximum contaminant level for nitrate (NO3)) are detected:

Nitrate in drinking water at levels above 45 mg/L is a health risk for infants of less than six months of age. These nitrate levels in drinking water can interfere with the capacity of the infantsblood to carry oxygen, resulting in a serious illness. Symptoms include shortness of breath and blueness of the skin. Nitrate levels above 45 mg/L may also affect the ability of the blood to carry oxygen in other individuals, including, but not limited to, pregnant women and those with certain specific enzyme deficiencies. If you are caring for an infant, or you are pregnant, you should ask advice from your health care provider.

(B)If the nitrate disclosure requirements for municipal water suppliers are revised by the State Department of Public Health, this statement shall be updated to reflect the revision.

(12)(A)The following statement, if arsenic levels above 5 ppb, but below 10 ppb (the maximum contaminant

level for arsenic), are detected:

Arsenic levels above 5 ppb and up to 10 ppb are present in your drinking water. While your drinking water meets the current EPA standard for arsenic, it does contain low levels of arsenic. The standard balances the current understanding of arsenicspossible health effects against the costs of removing arsenic from drinking water. The State Department of Public Health continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects, including, but not limited to, skin damage and circulatory problems.

(B)If the arsenic disclosure requirements for municipal water suppliers are revised by the State Department of Public Health, this statement shall be updated to reflect the revision.

(13)A full disclosure of any exemption or variance that has been granted to the bottler by the State Department of Public Health, including an explanation of reasons for each exemption or variance and the date of the exemption or variance.

(Amended by Stats. 2008, Ch. 179, Sec. 155. Effective January 1, 2009.)

111075.

(a) Any person who processes, packages, distributes, transfers, or stores bottled water or vended water shall comply with the good manufacturing practices described in Part 129 of Title 21 of the Code of Federal Regulations.

(b) Prior to bottling or vending water, the water shall be subjected to filtration and effective germicidal treatment by ozone, ultraviolet, carbon dioxide, or an equivalent disinfection process approved by the department, except that the requirements for filtration and germicidal treatment shall not apply to mineral water as defined in and from a source that is subject to the council directive of the European Economic Community pertaining to natural mineral waters, dated July 15, 1980, or that is subject to any other natural mineral water standard in the country of origin that prohibits filtration and germicidal treatment, so long as both of the following conditions are met:

(1) The source and product are certified by the responsible authority in the country of origin as complying with microbiological standards at least equal to the standards of this article.

(2) The product complies with microbiological standards of this article.

(c) Bottled or vended water that originates from a surface water source that is not protected from surface contamination shall be subjected to ozonation, filtration, or another effective process that removes or destroys the cysts of the parasite Giardia lamblia. For the purposes of this section, a spring house, catchment basin, storage tank, or bore hole adjacent to a natural spring water source as defined in paragraphs (3) and (8) of subdivision (e) of Section 111170, is not a surface water source.

(d) Ollas or other water-holding dispensers, both refrigerated and nonrefrigerated, water-vending machines, and water dispensers in retail water facilities, shall be examined for cleanliness each time they are serviced by the distributor, bottler, retail water facility, or water-vending machine operator. When necessary, these dispensers shall be sanitized according to the methods described in Part 129 of Title 21 of the Code of Federal Regulations.

(e) Sanitary operations, equipment procedures, and process controls used in the treatment, storage, transport, or dispensing of water at a retail water facility shall comply with the good manufacturing practices described in the following provisions of Part 129 of Title 21 of the Code of Federal Regulations: subdivisions (a) to (c), inclusive, of Section 129.37; Section 129.40; and subdivisions (a), (c), (d), and (h) of Section 129.80.

(f) Sanitary operations, equipment, procedures, and process controls used in the treatment, storage, transfer, transport, or dispensing of water by water haulers, shall comply with the good manufacturing practices described in the following provisions of Part 129 of Title 21 of the Code of Federal Regulations: subdivisions (a) and (b) of Section 129.37; Section 129.40; and subdivisions (a), (c), (d), and (h) of Section 129.89.

(g) The design and construction of wells, bore holes, catchment basins, spring houses, storage tanks, or other water-contact equipment used by private water sources shall comply with the requirements of the local regulatory authority. Sanitary operations, equipment procedures, and transfer controls used in the treatment, storage, transfer, or dispensing of water by private water source operators shall comply with the good manufacturing practices described in the following provisions of Part 129 of Title 21 of the Code of Federal Regulations: subdivision (a) of Section 129.37; Section 129.40; and subdivisions (a), (c), (d), (g), and (h) of Section 129.80.

(h) Bottled water may be processed through lines used also for other food products under the following conditions:

(1) Process lines, including storage tanks and associated equipment, shall be used exclusively for the production of bottled water, except for filling equipment, that may be used also for filling other food products.

(2) Before being used for the bottling of water, filling equipment that is designed to be cleaned in-place and that is used for filling other food products shall be thoroughly cleansed and sanitized in-place in accordance with the manufacturersspecifications and in compliance with Section 129.80 of Title 21 of the Code of Federal Regulations and the supplementary procedures that follow in paragraphs (3) to (7), inclusive, of this section.

(3) Immediately following completion of filling operations for any other food product other than water, the filler shall be thoroughly rinsed internally and externally with potable water.

(4) In accordance with filler manufacturersinstructions, any parts that are not designed to be cleaned in-place shall be disassembled and removed. All of these parts shall be cleansed and sanitized prior to reassembly using appropriate cleansing and sanitizing procedures, as specified in subdivisions (c) and (d) of Section 129.80 of Title 21 of the Code of Federal Regulations.

(5) All surfaces of the filler that do not contact food products shall be cleaned manually so as to render all surfaces clean and free of any residues.

(6) The filler shall be prepared and all appropriate connections made in accordance with the filler manufacturersinstructions to place the filler in the clean-in-place mode. The following procedures shall be followed:

(A) An alkaline cleaning solution of appropriate strength shall be recirculated through the filler to provide effective cleaning of all product contact surfaces, with a minimum recirculation time of 20 minutes at a temperature between 140 and 170 degrees Fahrenheit.

(B) The cleaning solution shall be drained and followed with a potable water rinse-to-drain for the removal of

all residual cleaner alkalinity. This step may be supplemented by the application of an acidified rinse prior to the potable water rinse in order to neutralize any residual alkalinity on product contact surfaces.

(7) Following reassembly of all parts to place the filler into the product mode and just prior to bottling water, the filler shall be sanitized in-place in accordance with procedures specified in subdivision (d) of Section 129.80 of Title 21 of the Code of Federal Regulations.

(8) Any alternate cleaning, rinsing, or sanitizing operations or processes not described in this section shall be approved in writing by the department.

(i) Bottled water and bulk waters sold at retail shall not contact equipment, lines, tanks, or vehicles used for processing, packaging, holding, or hauling of any nonfood product.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111080.

The quality and labeling standards requirements for bottled water and vended water, including mineral water, shall include all standards prescribed by Section 165.110 of Title 21 of the Code of Federal Regulations. In addition, bottled water and vended water, when bottled, shall comply with the following quality standards and any additional quality standards adopted by regulation that the department determines are reasonably necessary to protect the public health:

(a)Bottled water and vended water shall meet all maximum contaminant levels set for public drinking water that the department determines are necessary or appropriate so that bottled water may present no adverse effect on public health. New or revised allowable levels or monitoring provisions adopted for bottled water by the United States Food and Drug Administration under the federal Food, Drug and Cosmetic Act that are more stringent than the state requirements for bottled water are incorporated into this chapter and are effective on the date established by the federal provisions unless otherwise established by regulations of the department.

(b)Bottled and vended water shall not exceed 10 parts per billion of total trihalomethanes or five parts per billion of lead unless the department establishes a lower level by regulation.

(c)Bottled and vended water shall contain no chemicals in concentrations that the United States Food and Drug Administration or the state department has determined may have an adverse effect on public health.

(Amended by Stats. 2006, Ch. 538, Sec. 425. Effective January 1, 2007.)

111085.

Polycarbonate resins manufactured after January 1, 1988, and intended for use in fabricating containers for water products defined in this article shall not contain in excess of three parts per million residual methylene chloride or in excess of 200 parts per million residual monochlorobenzene unless the department establishes a lower level by regulation. For the purpose of monitoring compliance with this section, the concentration of methylene chloride and monochlorobenzene shall not exceed one part per billion in water. Polycarbonate resins means the substances defined by Section 177.1580 of Title 21 of the Code of Federal Regulations

except as modified by this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111090.

Any owner or operator of a water-vending machine or other device from which any operator or customer dispenses vended water shall comply with the following standards of design, construction and sanitation and any additional standards adopted by regulation that the department determines are reasonably necessary to protect the public health. The water-vending machines or devices shall do all of the following:

(a) Comply with the construction and performance standards established by the department or by an independent authority approved by the department.

(b) Be designed and constructed to permit easy cleaning and maintenance of all exterior and interior surfaces.

(c) Have all parts and surfaces that come into contact with the water constructed of approved, corrosive-resistant and nonabsorbent material capable of withstanding repeated cleaning and sanitizing treatment.

(d) Have a recessed or guarded corrosion-resistant dispensing spout.

(e) Be designed so that all treatment of the vended water by distillation, ion exchange, filtration, ultraviolet light, reverse osmosis, mineral addition, or any other acceptable process is done in an effective manner.

(f) Have an effective system of handling drip, spillage, and overflow of water.

(g) Have a backflow prevention device approved by the department for all connections with the water supply.

(h) Dispense water disinfected by ultraviolet light or other method approved by the department prior to delivery into the customerscontainer.

(i) Be equipped with monitoring devices designed to shutdown operation of the machine when the disinfection unit fails to function, or shall be monitored daily at startup and manually shutdown whenever the unit fails to function.

(j) Be equipped with a self-closing, tight-fitting door on the vending compartment, or enclosing the vending spout to protect the vending spout when the water-vending machine is not in use. As an alternative, water-vending machines or other water-dispensing devices may be enclosed in a room with tight-fitting walls, ceilings, and one of the following: a self-closing door, an effective air screen device, or an alternative effective device approved by the department.

(k) Comply with the American Water Works Association (AWWA) specifications for granular activated carbon if used in the treatment of potable water (AWWA B604-74).

(l) Be maintained in a clean and sanitary condition, free from dirt and vermin.

(m) Use a state approved and regulated public water supply or private water source.

(n) Be located in an area that can be maintained in a clean condition and in a manner that avoids insect and rodent harborage.

(o) Be equipped with monitoring devices designed to shut down the labeled purified water delivery system if treatment of water by the machine does not result in a total dissolved solids content of less than 10 milligrams per liter in the purified water. Alternatively, machines shall be monitored daily at startup and manually shutdown whenever the total dissolved solids content exceeds 10 milligrams per liter in the purified water.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111095.

It shall be unlawful to operate a bottled plant water plant, water-vending machine, retail water facility, or private water source in violation of the minimum health standards of this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111100.

It is unlawful for any person to operate a water vending machine in this state that does not satisfy the minimum standards prescribed by this article for the design, construction, and sanitation of water-vending machines.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111105.

The department, upon the request of a local health officer, may authorize the local health officer to implement and enforce those provisions of this article that relate to water-vending machines, retail water facilities, and water haulers under the terms and conditions specified by the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111110.

No water-vending machine shall be used in this state that does not at least satisfy the minimum standards adopted by the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111115.

(a) Each water-vending machine, retail water treatment plant, water hauler vehicle and facility, and private water source shall be maintained in a clean and sanitary condition at all times.

(b)(1)The department shall require that water-vending machines be cleaned, serviced, and sanitized in accordance with the manufacturersspecifications, but at least once every 31 days.

(2)Inspection records shall be kept for every visit made by either the operator or the maintenance personnel pursuant to this subdivision. These records shall show the date and time of the visit, any tests performed, any maintenance performed, and the signature or electronic signature of the operator or maintenance personnel. The records shall be kept by the owner of the water-vending machine for a minimum of two years and shall be made available to the department upon request.

(c)A record of any consumer complaints shall be kept on file with the owner of the water-vending machine for a minimum of two years, and shall be made available to the department upon request.

(d)If the department determines that there is a violation of this article, the department may do either or both of the following:

(1)Embargo the machine pursuant to Section 111860.

(2)Impose a fine, as determined appropriate by the department.

(e)(1)The department shall, annually, conduct inspections of not less than 20 percent of the licensed water-vending machines in the state and shall include both rural and urban counties. The selection of these machines shall be dependent on the state of the machine and the quality of the water source, and any other factors as determined by the department.

(2)The department may perform, within 12 months of the initial violation, one or more reinspections of each water-vending machine or water retailer that is found to be in violation of this section as necessary to prevent repeated or continuing violations. The department shall charge a fee to the owner to cover the costs of performing the reinspections. The fee shall not exceed the full cost of performing the reinspections up to a maximum of one hundred dollars ($100) per hour.

(f)Subdivisions (b) to (e), inclusive, shall become operative January 1, 2009.

(Amended by Stats. 2007, Ch. 575, Sec. 4. Effective January 1, 2008. Subds. (b) to (e) are operative January 1, 2009, by subd. (f).)

111120.

(a) No person shall operate a water-bottling plant, a private water source, or be a bottled water distributor in this state except pursuant to a license issued by the department. If a person has a valid water-bottling plant license issued by the department, additional license fees for a private water source operator, a retail water facility, a water hauler, or a bottled water distributor based and operating at the same address, shall not be required.

(b) No person shall own or operate a water-vending machine or a retail water facility or be a water hauler, except pursuant to a license issued by the department or to a permit issued by a local health department.

(c) It shall be unlawful for any person to bottle, collect, treat, hold, distribute, haul, vend, or sell bottled water, vended water, operate a retail water facility, or operate a private water source without the license as required by this article. Any bottled water or vended water dispensed by a retail water facility or a private water source that is not licensed in compliance with this article is misbranded and may be embargoed pursuant to subdivision (e) of Section 111120.

(d) It shall be unlawful for a water bottler, distributor, vendor, retail water facility operator, or private water source operator to sell or otherwise distribute water that is adulterated, as defined in Section 110445, 110545, 110560, or 110565, or that is misbranded as defined in Article 6 (commencing with Section 110660) of Chapter 5.

(e) For the purposes of enforcing this section, water may be embargoed pursuant to Section 111860 in its immediate container, well, spring, spring vault, holding tank, water hauling vehicle, retail water treatment system, spigot, or pipe if there is reasonable cause to believe that it is adulterated.

(f) Any retail water facility, water vendor, or water hauler that violates this article may be subjected to the same penalty and enforcement procedure provided for violation of this article by a water bottling facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111125.

No bottled water produced in an out-of-state bottling plant shall be sold or distributed within this state unless either the out-of-state bottler or the distributor shall have first obtained a bottlersor distributorslicense.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111130.

(a)The department shall charge and collect a fee for each license application submitted in accordance with the fee schedule in Table 1, that shall be an amount reasonably necessary to produce sufficient revenue to enforce this article. The fees collected shall be adjusted annually as required by Section 100425. New applicants for a water bottling plant license shall pay Category 2 fees for the first license year.

(b)The water-bottling plant and bottled water distributor categories shall be determined by dividing by 52 the number of gallons produced or shipped into California during the previous year. If the result is an average of 5,000 gallons or less per week, the firm is Category 1. If the average exceeds 5,000 gallons per week, the firm is Category 2.

Table 1 License Fees	
License Class	Annual Fee

Water-Bottling Plant Category 1	$‰310
Category 2	‰875
Water-Vending Machine	40
Water Hauler	‰310
Retail Water Facility	‰310
Private Water Source Operator	‰310
Bottled Water Distributor	‰310

(c)The owners or operators of each water-bottling plant, retail water facility, private water source, each water hauler in California and bottlers or distributors of water bottled out-of-state shall make application for a license on forms provided by the department. Applications and license fees shall be submitted annually. Applicants shall provide to the department, in electronic format, the serial number of each machine, and the street address, city, ZIP Code, and county where the machine is located.

(d)Each water-vending machine owner or operator shall make application annually for a license for all machines on forms provided by the department. A decal or seal provided by the department indicating a license fee has been paid shall be affixed in a prominent place to each water-vending machine in service. The duty to display the decal or seal shall apply only on and after the decal has been received by the operator.

(Amended by Stats. 2007, Ch. 575, Sec. 5. Effective January 1, 2008.)

111135.

The department may deny any license application or revoke or suspend any license issued for cause. The department shall inform the person of any denial, revocation, or suspension in writing, stating with particularity reasons for the denial, revocation, or suspension.

Cause, as used in this section, means a violation of any provision of this chapter or any regulation adopted pursuant thereto.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111140.

The department shall charge and collect a fee for each department evaluation required to issue a new license for a water-vending machine model or a retail water facility to determine compliance with standards established by this article. The fee shall be three hundred dollars ($300) and shall be adjusted annually as required by Section 100425.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111145.

(a) The department shall require each bottler, distributor, or vendor of bottled water, each owner or operator of any water-vending machine, each water hauler, each retail water facility operator, each private water

source operator, and each applicant for a license, to test for all substances necessary to establish conformance to standards adopted pursuant to Section 111080 at the times and frequencies the department may reasonably establish.

(b) Each product dispensed by a water-vending machine or a retail water facility shall be sampled and analyzed for coliform bacteria at least once every six months. The analysis shall be submitted to the department indicating whether the water is pure and wholesome. Analysis of vended water or water from retail water facilities shall be submitted to the local health officers if the local health officers are authorized by the department pursuant to subdivision (b) of Section 111105.

(c) Purified waters from retail water facilities shall be analyzed by the operator for dissolved solids by conductivity measurement not less frequently than once every seven days.

(d) Purified water from vending machines shall be analyzed by the operator for the dissolved solids by conductivity measurement each time the vending machine is serviced.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111150.

(a) All sources of bottled water, vended water, and water dispensed by a retail water facility shall be monitored annually for the presence of volatile organic compounds of potential public health concern, as specified by the United States Environmental Protection Agency in Tables 2 and 14 contained in Volume 50 of the Federal Register on pages 46904, 46923, and 46924 on November 13, 1985, or as reasonably specified by the department as a condition of licensure.

(b) In lieu of source water monitoring required by this section, a water bottler, water vendor, or a retail water facility may document that the source monitoring required by this section is conducted by another entity approved by the department, or may comply with the treatment requirements of subdivision (c).

(c) Detection in the source water of a volatile organic compound, except trihalomethanes, for which source monitoring is required pursuant to this section shall be followed immediately by a program of periodic monitoring by the water bottler, water vendor, or retail water facility to confirm the presence or absence in the source water of the volatile organic compound. If the volatile organic compound is confirmed to be present in the source water it shall be treated using granular activated carbon treatment or an equivalent treatment operated in accordance with good manufacturing practices as provided in Section 129.80 of Title 21 of the Code of Federal Regulations until the time that the concentration of the volatile organic compound does not exceed either one part per billion, or any United States Environmental Protection Agency or United States Food and Drug Administration level for drinking water, or a maximum contaminant level established by the department for bottled water.

(d) The department may exempt any water bottler, water vendor, or retail water facility from the monitoring requirements of this section for any source based on a showing satisfactory to the department that the source (1) does not contain the volatile organic compound for which monitoring is required and (2) is not vulnerable to contamination by the volatile organic compound because for surface water sources the compounds are not applied, manufactured, stored, disposed or shipped upstream, and for groundwater sources, the compounds are not applied, manufactured, stored, disposed, or shipped in the groundwater recharge basin.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111155.

Notwithstanding any other provisions of this article, the department may require any bottler, distributor, or vendor of bottled water, any owner or operator of a water-vending machine, any water hauler, any retail water facility operator, any private water source operator, or any applicant for a license to test and submit results to the department for any substance, including organic chemical contaminants, at any time that the department believes the substance may be present in the water source and threaten the public health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111160.

(a) Upon a determination by the department that a particular water source is subject to potential contamination, the department shall notify the bottler, distributor, or vendor of bottled water, the owner and operator of any water-vending machine, any water hauler, any retail water facility operator, or any private water source operator of the specific contaminants or class of contaminants that pose a potential health risk.

(b) Within 90 days after notification by the department, the bottler, distributor, vendor of bottled water, the owner and operator of any water-vending machine, any water hauler, any retail water facility operator, or any private water source operator shall conduct an analysis of the water source and submit the results of the analysis to the department.

(c) If evidence of contamination is found, the department may, by order, require the bottler, distributor, vendor of bottled water, or the owner and operator of any water-vending machine, any water hauler, any retail water facility operator, or any private water source operator to conduct a source and product water analysis for the contaminants of concern in accordance with conditions specified by the department. The water analysis shall be conducted and reported on an annual basis, unless the department finds that reasonable action requires either more frequent or less frequent analysis.

(d) The department may, by order, require the bottler, distributor, vendor of bottled water, the owner and operator of any water-vending machine, any water hauler, any retail water facility operator, or any private water source operator to reduce or eliminate the concentration of any chemical that the department determines may have an adverse effect on public health. Until an enforceable standard has been established for a chemical that may have an adverse effect on human health, the department may require treatment techniques to reduce the concentration of the contaminants that require treatment, in the departmentsjudgment, to prevent known or anticipated adverse effects on the health of persons. The treatment system shall be designed to meet criteria designated by the department or by an independent authority approved by the department.

(e) The department may grant variances from the requirements of subdivision (d), if the bottler, distributor, vendor of bottled water, the owner and operator of any water-vending machine, any water hauler, any retail water facility operator, or any private water source operator demonstrates either of the following:

(1) That the prescribed treatment technique is not necessary to protect the health of consumers because its water source is not subject to, nor is it likely to be subject to, significant chemical contamination.

(2) An alternative treatment technique is at least as efficient in lowering the level of contaminants to be controlled.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111165.

All testing of bottled water, bottled water sources, water distributed by water haulers, water from retail water facility, and water from vending machines shall be done by laboratories approved by the department, laboratories certified by the United States Environmental Protection Agency, laboratories certified by the primary enforcement authority in states that have been granted primacy by the United States Environmental Protection Agency, or laboratories certified (accredited) by a third-party organization acceptable to a primacy state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111170.

(a)Labeling and advertising of bottled water and vended water shall conform with this section, Chapter 4 (commencing with Section 110290), and applicable portions of Part 101 of Title 21 of the Code of Federal Regulations.

(b)Each container of bottled water sold in this state, each water-vending machine, and each container provided by retail water facilities located in this state shall be clearly labeled in an easily readable format. Retail water facilities that do not provide labeled containers shall post, in a location readily visible to consumers, a sign conveying required label information.

(c)Water-vending machines, retail water facilities, and private water sources that sell water at retail shall display in a position clearly visible to customers the following information:

(1)The name and address of the operator.

(2)The fact that the water is obtained from an approved public water supply or licensed private water source.

(3)A statement describing the treatment process used.

(4)If no treatment process is utilized, a statement to that effect.

(5)A toll-free telephone number or a local telephone number within the area code in which the machine is located that may be called for further information, service, or complaints, and the toll-free telephone number of the departmentsfood and drug branch that may be called for complaints or questions.

(6)A sign or label indicating the date on which the water-vending machine was last sanitized and serviced by the operator or maintenance personnel as required pursuant to paragraph (1) of subdivision (b) of Section 111115.

(7)A notice to consumers listing the industrysrecommendations for the type and condition of container suitable for use with the water-vending machine.

(8)A valid decal or seal received from the department indicating that a license fee has been paid and a license issued for the water-vending machine as set forth in subdivision (d) of Section 111130.

(d)The information required pursuant to subdivision (c) shall be displayed in both English and Spanish.

(e)Bottled water may be labeled drinking water, notwithstanding the source or characteristics of the water, only if it is processed pursuant to the Food and Drug Administration Good Manufacturing Practices contained in Section 165.110 and Parts 110 and 129 of Title 21 of the Code of Federal Regulations, Sections 12235 to 12285, inclusive, of Title 17 of the California Code of Regulations, and any other requirements established by the department pursuant to Sections 111145, 111150, and 111155. Any vended water and any water from a retail water facility may be labeled drinking water, notwithstanding the source or characteristics of the water, only if it is processed pursuant to Article 10 (commencing with Section 114200) of Chapter 4 of Part 7 and any other requirements established by the department pursuant to Sections 111145, 111150, and 111155.

(f)Each container of bottled water sold at retail or wholesale in this state in a beverage container shall include on its label, or on an additional label affixed to the bottle, or on a package insert or attachment, all the following:

(1)The name and contact information for the bottler or brand owner.

(2)The source of the bottled water, in compliance with applicable state and federal regulations.

(3)A clear and conspicuous statement that informs consumers about how to access water quality information contained in the bottled water report required by Section 111071.

(A)The statement shall contain all of the following:

(i)It shall include the term water quality and information appropriately, while informing customers about methods of gaining access to the full bottled water report.

(ii)It shall provide a telephone number, where information can be requested from the bottled water company and one other means of contact for the bottled water company, including, but not limited to, a mailing address, e-mail address, or the bottled water companysWeb site.

(B)The following statement may be used to fulfill the requirements of this paragraph:

For more information and to obtain additional consumer information relating to water quality, including a bottled water report, contact [name of bottled water company] at [telephone number or toll-free telephone number] and [at least one of the following: mailing address, e-mail address, or the bottled water companysWeb site].

(g)Bottlers that distribute bottled or vended water directly to consumers shall provide a statement on each billing statement that includes both of the following:

(1)A telephone number and mailing address of the bottler or brand owner.

(2)The means by which a consumer may obtain consumer information relating to water quality, including a

bottled water report, as described in Section 111071.

(h)Amendments made to this section by SB 220 of the 2007“08 Regular Session shall only apply to bottled water that was bottled on or after January 1, 2009.

(Amended by Stats. 2007, Ch. 575, Sec. 6. Effective January 1, 2008. Operative January 1, 2009, by Sec. 8 of Ch. 575.)

111172.

(a) The labeling on bottled water sold in nonreturnable (one-way) packages in this state shall include one of the following:

(1) A telephone number of the bottler or brand owner.

(2) The bottlersor brand ownersmailing address.

(b) Bottlers or brand owners may also include other forms of contact, including, but not limited to, the bottlersor brand ownersE-mail address or website.

(c) This section shall become operative on January 1, 2002.

(Added by Stats. 2000, Ch. 533, Sec. 3. Effective January 1, 2001. Section operative January 1, 2002, by its own provisions.)

111175.

In addition to the requirements of Section 111170, if a bottler, distributor, water hauler, retail water facility operator, or vending machine operator provides information in the labeling or advertising stating or implying that this water is of a specific water type (for example, spring water) or treated in a specific manner (for example, purified), the type or treatment shall be clearly labeled in an easily readable format. In order to be so labeled, the source or treatment shall conform to the definitions established in Section 165.110 of Title 21 of the Code of Federal Regulations, or, if not defined in that section, with the following criteria:

(1) Mineralized water means bottled or vended water that meets the requirements of mineral water except that the water contains added minerals.

(2) Natural water means bottled or vended spring, artesian well, or well water that is unmodified by mineral addition or deletion, except natural water may be filtered and shall be sanitized with ozone or an equivalent disinfection process and treated to reduce the concentration of any substance that exceeds safety standards established by the department.

(3) Naturally sparkling water means bottled water or vended water with a carbon dioxide content from the same source as the water. Sparkling, carbonated, or carbonation added means bottled water or vended water that contains carbon dioxide.

(4) Notwithstanding any other provision of this section, water from a public water system that is unprocessed by the bottler or vendor shall be in compliance with Section 165.110(a)(3)(ii) of Title 21 of the Code of Federal Regulations.

(Amended by Stats. 2018, Ch. 92, Sec. 150. (SB 1289) Effective January 1, 2019.)

111180.

Except as provided in Section 111080, any bottled water or vended water, the quality of which is below the quality required by this article, shall be labeled with a statement of substandard quality, as prescribed by subsection (b) of Section 165.110 of Subpart B of Part 165 of Title 21 of the Code of Federal Regulations.

(Amended by Stats. 2000, Ch. 533, Sec. 5. Effective January 1, 2001.)

111185.

Any bottler, distributor, vendor of bottled water, or owner or operator of any water-vending machine or retail water facility, whose corporate name or trademark contains the words spring or springs, or any derivative of either of these words, or well, artesian well, or natural shall label each bottle or vending machine with the source of the water in typeface at least equal to the size of the typeface of the corporate name or trademark, if the source of the bottled or vended water is different from the source stated in the corporate name or trademark. Retail water facilities that do not provide labeled containers shall post, in a location readily visible to consumers, a sign conveying required label information.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111190.

(a) A bottled water, as defined in Section 111070, with natural or added carbonation, may be prepared with added flavors, extracts, essences, or fruit juice concentrates derived from a spice or fruit and comprising less than 1 percent by weight of the final product. The final product shall not contain sweeteners, or additives other than the flavors, extracts, essences, or fruit juice concentrates and carbon dioxide and shall be designated on labels and in advertising as follows:

(1) The common or usual name of the characterizing flavor shall accompany the designation of the bottled water product type as defined in subdivision (b) of Section 111170.

(2) The product may be designated as natural only if it meets the requirements for the designation as defined in paragraphs (2) and (3) of subdivision (a) of Section 111175, and naturally derived flavors, extracts, or essences are used.

(b) Products labeled pursuant to this section shall comply with all other provisions of this article. Products with one type or one source of bottled water that are labeled pursuant to this section shall not be blended with water that is not bottled water or that is of another bottled water type.

(Amended by Stats. 2018, Ch. 92, Sec. 151. (SB 1289) Effective January 1, 2019.)

111192.

(a) Bottlers and water haulers that distribute directly to consumers shall provide a sentence on each billing statement that includes one of the following:

(1) A telephone number of the bottler or brand owner.

(2) The bottlersor brand ownersmailing address.

(b) Bottlers or brand owners may also include other forms of contact, including, but not limited to, the bottlersor brand ownersE-mail address or website.

(c) Bottlers and water haulers that distribute directly to consumers shall, in the billing statement, provide to new customers, and to existing customers once per year thereafter, the following statement:

As a food product, bottled water is subject to rules and regulations promulgated by the federal Food and Drug Administration (FDA). For further information, please contact (insert the name of the bottler or brand owner) at (insert the bottlersor brand ownerstelephone number or mailing address).□

(d) Water vending machines shall display the same information on the machines that is required under subdivisions (a) and (c).

(e) Retail water facilities shall provide new customers the same information that is required under subdivisions (a) and (c). These facilities shall also display this information in a take-home format.

(f) This section shall become operative on January 1, 2002.

(Added by Stats. 2000, Ch. 533, Sec. 6. Effective January 1, 2001. Section operative January 1, 2002, by its own provisions.)

111193.

(a) The department may by written permission allow a person to package water for use in public emergencies without obtaining a water bottling license, where the emergency has resulted in the interruption of, or has compromised the quality of, the public drinking water supply. This permission may authorize the suspension of any provision of this chapter and related regulations.

(b) (1) The department may at any time change or impose on the permittee any requirements such as testing, equipment, and documentation that the department deems necessary to protect public health but in doing so shall consider the effect of those requirements in light of the urgency of the situation. The department may grant or withdraw this permission at any time.

(2) Packing, distribution, and use of water under this permit shall only be allowed during the emergency period and shall end upon the restoration of adequate public drinking supplies as determined by the department. Distribution shall be limited to the area affected. Water so packaged shall be prominently

labeled drinking water, for emergency use only, and not for sale, or similar wording approved by the department.

(c) This section shall not be construed to restrict licensed water bottling plants from providing water processed in accordance with this chapter in emergency situations.

(Added by Stats. 2000, Ch. 533, Sec. 7. Effective January 1, 2001.)

111195.

The department, prior to issuing a license, shall review all labels prepared pursuant to this article, and may require any changes in order to comply with this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111198.

The department shall post annually on its Internet Web site, in connection to the entities it regulates under this article, all of the following information:

(a)The total number of licenses, by type and county, issued in the prior calendar year.

(b)The number of inspections performed by the department in the previous calendar year, broken down by county and license type.

(c)The number and type of major violations, and the actions taken to correct those violations.

(d)The number and dollar value of fines levied under subdivision (c).

(Amended by Stats. 2012, Ch. 728, Sec. 103. (SB 71) Effective January 1, 2013.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 13. Hamburger and Imitation Hamburger [111200 - 111220]__

(Article 13 added by Stats. 1995, Ch. 415, Sec. 6.)

111200.

As used in this article, the following definitions shall apply:

(a) Hamburger means chopped fresh or frozen beef, or a combination of both fresh or frozen beef, with or without the addition of beef fat as such, and with or without the addition of seasoning. Hamburger shall not contain more than 30-percent fat, and shall not contain added water, binders, or extenders. Beef cheek meat (trimmed beef cheeks) may be used in the preparation of hamburger to the extent of 25 percent, and if in excess of natural proportions, its presence shall be declared on the label in the ingredient statement, if any, and otherwise contiguous to the name of the product.

(b) Imitation hamburger means chopped fresh or frozen beef, or a combination of both fresh or frozen beef, with or without the addition of beef fat as such, and with or without the addition of seasoning. Imitation hamburger may contain binders and extenders, with or without the addition of partially defatted beef tissue, without added water or with added water only in amounts that the products™ characteristics are essentially that of a meat pattie.

(c) Restaurant means restaurants, itinerant restaurants, vehicles, vending machines, or institutions including hospitals, schools, asylums, eleemosynaries, and all other places where food is served to the public for consumption on the premises of sale that are not included within the definitions of the terms restaurants, itinerant restaurants, vehicles, and vending machines.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111205.

(a) If imitation hamburger is sold or served in restaurant a list of ingredients thereof shall appear on the menu, or, if there is no menu, the information shall be posted as state department shall by regulations

require. No list of ingredients, however, shall be required for imitation hamburger that contains not more than 10 percent added protein and water, and that does not contain other binders or extenders.

(b) No restaurant shall use the terms hamburger,□ burger,□ or any other cognate thereof in any advertisement, or menu to refer to any imitation hamburger. A restaurant selling or serving imitation hamburger may refer to the product as imitation hamburger or by any other term that accurately informs the customer of the nature of the food product that he or she is sold or served.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111210.

It is unlawful and constitutes misbranding for any person to advertise, offer for sale, sell, or serve as hamburger or imitation hamburger in any restaurant any product that does not come within the definitions of those terms contained in Section 111200. It is unlawful and constitutes misbranding for any person to violate any provision of this article or any regulation adopted pursuant thereto.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111215.

It is the public policy of this state to require restaurants selling hamburger and imitation hamburger to accurately inform the consumer public of the contents of foods.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111220.

This article shall be enforced by the same persons and in the same manner as provided in Article 7 (commencing with Section 28690) of Chapter 11 of Division 22.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 14. Asian Rice Noodles, Korean Rice Cakes, and Vietnamese Rice Cakes [111222 - 111223]__

(Heading of Article 14 amended by Stats. 2016, Ch. 193, Sec. 1.)

111222.

For purposes of this article the following definitions shall apply:

(a)Asian rice-based noodle is defined as a rice-based pasta that contains rice powder, water, wheat starch, vegetable cooking oil, and optional ingredients to modify the pH or water activity, or to provide a preservative effect. The ingredients shall not include any animal fats or any other products derived from animals. An Asian rice-based noodle is prepared by using a traditional method that includes cooking by steaming at not less than 130 degrees Fahrenheit, for not less than four minutes.

(b)Korean rice cake is defined as a confection that contains rice powder, salt, sugar, various edible seeds, oil, dried beans, nuts, dried fruits, and dried pumpkin. The ingredients may not include any animal fats or any other products derived from animals. A Korean rice cake is prepared by using a traditional Korean method that includes cooking by steaming at not less than 275 degrees Fahrenheit, for not less than five minutes, nor more than 15 minutes.

(c)Vietnamese rice cake, also known as BÃ¡nh TÃ©t or BÃ¡nh ChÆ°ng, is defined as a confection that contains a combination of rice, beans, and meat or fruit wrapped tightly in banana leaves for cooking. BÃ¡nh TÃ©t is a rice cake in a cylindrical shape, and BÃ¡nh ChÆ°ng is a rice cake in a square shape. A Vietnamese rice cake is prepared using a traditional Vietnamese method that includes cooking by boiling in water for not less than 10 hours. Vietnamese rice cakes are required to be handled, prepared, and stored under sanitary conditions both when they are kept at no more than 70 degrees Fahrenheit upon completion of cooking and after the rice cakes have been cooled to below 70 degrees Fahrenheit. Any Vietnamese rice cakes that are unwrapped from the banana leaves after cooking shall be refrigerated.

(Amended by Stats. 2016, Ch. 193, Sec. 2. (SB 969) Effective January 1, 2017.)

111223.

(a)(1)All manufacturers of Asian rice-based noodles shall place a label on the packaging of Asian rice-based noodles that indicates the date and time that the product first came out of hot holding at temperatures above 135 degrees Fahrenheit and includes a statement that the Asian rice-based noodles are perishable.

(2)The product packaging shall only be labeled once.

(3)Notwithstanding paragraphs (1) and (2), this section shall not apply to Asian rice-based noodles that have a pH of 4.6 or below, have a water activity of 0.85 or below, or have been determined by the department to be nonpotentially hazardous foods based on formulation and supporting laboratory documentation submitted to the department by the manufacturer.

(b)All manufacturers of Korean rice cakes shall place a label issued by the Korean Rice Cake Association Corporation on the Korean rice cake that indicates the date of manufacture. The Korean rice cakes label shall include a statement that the rice cake must be consumed within one day of manufacture.

(c)(1)All manufacturers of Vietnamese rice cakes shall place a label, designed by the Vietnamese Rice Cake Association, Inc., on the Vietnamese rice cake that indicates the date and time the cooking process was completed. The Vietnamese rice cakes label shall include a statement that the rice cake must be consumed within 24 hours of the date and time printed on the label.

(2)Notwithstanding paragraph (1), this section does not apply to Vietnamese rice cakes that have been determined by the department to be nonpotentially hazardous foods based on formulation and supporting laboratory documentation submitted to the department by the manufacturer.

(Amended by Stats. 2016, Ch. 193, Sec. 3. (SB 969) Effective January 1, 2017.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Food [110425 - 111224.6]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 15. Eviscerated Crab [111224 - 111224.6]__

(Article 15 added by Stats. 2021, Ch. 757, Sec. 10.)

111224.

For purposes of this article, the following terms have the following meanings:

(a)Eviscerate or evisceration means the processorsaction of removing and discarding the entire intestinal tract, hepatopancreas, and all associated abdominal organs in accordance with this article.

(b)Eviscerated crab means Dungeness crab or rock crab in which the viscera have been removed in accordance with regulations adopted pursuant to this section.

(c)Hazard Analysis Critical Control Point plan means a hazard analysis critical control point plan as described in Section 123.6 of Title 21 of the Code of Federal Regulations or a successor federal definition.

(d)Processor means any person engaged in commercial, custom, or institutional processing of fish or fishery products in California, in another state, or in a foreign country. A processor includes any person engaged in the production of foods that are to be used in market or consumer tests.

(Added by Stats. 2021, Ch. 757, Sec. 10. (SB 80) Effective October 9, 2021.)

111224.5.

The department shall issue an order authorizing the evisceration of Dungeness crab or rock crab pursuant to this article if the domoic acid for Dungeness crab or rock crab exceeds the allowable levels for viscera in a specified area, when all of the following criteria exist:

(a)The Director of Fish and Wildlife has closed waters or otherwise restricted the take of Dungeness crab or rock crab for commercial purposes pursuant to Section 5523 of the Fish and Game Code due to the viscera of the Dungeness crab or rock crab exceeding the allowable levels of domoic acid.

(b)The department has determined the viscera of the Dungeness crab or rock crab exceed the allowable levels of domoic acid.

(c)The department has determined the corresponding meat of the Dungeness crab or rock crab does not exceed the allowable levels of domoic acid.

(Added by Stats. 2021, Ch. 757, Sec. 10. (SB 80) Effective October 9, 2021.)

111224.6.

(a)(1)The department shall only authorize the evisceration of Dungeness crab or rock crab pursuant to this article by a processor that is licensed pursuant to Article 2 (commencing with Section 110460) and that has a Hazard Analysis Critical Control Point plan approved by the department for handling and preparing eviscerated crab.

(2)The department shall collect from a processor a fee of three hundred fifty dollars ($350) for the cost of reviewing the processorsHazard Analysis Critical Control Point plan for handling and preparing eviscerated crab. This fee shall not exceed the cost of reviewing the Hazard Analysis Critical Control Point plan and shall be adjusted pursuant to Section 100425. All moneys collected by the department from this fee shall be deposited in the Food Safety Fund established pursuant to Section 110050 for expenditure by the department, upon appropriation by the Legislature, for the costs of reviewing Hazard Analysis Critical Control Point plans for handling and preparing eviscerated crab.

(3)The department shall establish requirements for labeling eviscerated crab to identify harvest location, harvest date, or lot code, or any combination of these things.

(4)The department shall require the processor to maintain written recall procedures.

(b)(1)The department shall consult with the Dungeness crab task force established pursuant to Section 8276.4 of the Fish and Game Code or a successor task force or committee to establish the criteria for the manufacture, sale, delivery, holding, or offering for sale of Dungeness crab or rock crab that is subject to Section 111224.5.

(2)The Dungeness crab or rock crab criteria established under this subdivision shall become effective by operation of law as a regulation adopted under this article 90 days after the department publishes the notice required by paragraph (3).

(3)The department shall publish a notice in the California Regulatory Notice Register of the departmentsproposed Dungeness crab or rock crab criteria. The notice shall include the proposed text and justification for the addition, change, or deletion of the Dungeness crab or rock crab criteria to allow public comment. The department shall consider the public comments.

(c)This section shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 2021, Ch. 757, Sec. 10. (SB 80) Effective October 9, 2021.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Drugs and Devices [111225 - 111656.13]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. General Provisions [111225 - 111246]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

111225.

As used in this chapter, with respect to a drug or drug ingredient, established name means either of the following:

(a) The name designated pursuant to Section 508 of the federal act (21 U.S.C. Sec. 358).

(b) If there is no such name and the drug or ingredient is an article recognized in an official compendium, then the official title in the compendium is the established name.

If neither subdivision (a) or (b) of this section applies, the common or usual name, if any, of the drug or of the ingredient is the established name. When an article is recognized in the United States Pharmacopoeia and in the Homeopathic Pharmacopoeia under different official titles, the official title used in the United States Pharmacopoeia shall apply unless it is labeled and offered for sale as a homeopathic drug. If it is labeled and offered for sale as a homeopathic drug, the official title used in the Homeopathic Pharmacopoeia shall apply.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111230.

Any drug represented in its labeling or advertisement as an antiseptic shall be considered to be represented as a germicide, except in the case of a drug that is purported to be or represented as, an antiseptic for inhibitory use as a wet dressing, ointment, dusting powder, or other use involving prolonged contact with the body.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111235.

Whenever a drug is recognized in both the United States Pharmacopoeia and the Homeopathic Pharmacopoeia of the United States, it shall be subject to the requirements of the United States Pharmacopoeia unless it is labeled and offered for sale as a homeopathic drug. If it is labeled and offered for sale as a homeopathic drug, it shall be subject to the provisions of the Homeopathic Pharmacopoeia of the United States and not to those of the United States Pharmacopoeia.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111240.

Any added poisonous or deleterious substance, or color additive, shall be considered unsafe for use with respect to any drug or device unless there is in effect a regulation adopted pursuant to Section 110090 that prescribes its use in or on drugs or devices.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111245.

The department may establish performance standards for devices, that shall be designed to provide

reasonable assurance of safe and effective performance and, where appropriate, requiring the use and prescribing the form and content of labeling for the proper installation, maintenance, operation, or use of the device. However, if a performance standard is established for a device pursuant to Section 514 of the federal act (21 U.S.C. Sec. 360d) or Section 521 of the federal act (21 U.S.C. Sec. 360k), it shall be the performance standard of this state for device.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111246.

Commencing January 1, 2002, any product used for the treatment of lice or scabies in human beings that contains the pesticide Lindane shall not be used or sold in the state.

(Added by Stats. 2000, Ch. 326, Sec. 2. Effective January 1, 2001.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Drugs and Devices [111225 - 111656.13]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Adulterated Drugs or Devices [111250 - 111325]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

111250.

Any drug or device is adulterated if it consists, in whole or in part, of any filthy, putrid, or decomposed substance.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111255.

Any drug or device is adulterated if it has been produced, prepared, packed, or held under conditions whereby it may have been contaminated with filth, or whereby it may have been rendered injurious to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111260.

Any drug or device is adulterated if the methods, facilities, or controls used for its manufacture, processing, packing, or holding do not conform to, or are not operated or administered in conformity with current good manufacturing practice to assure that the drug or device meets the requirements of this part as to safety and has the identity and strength, and meets the quality and purity characteristics that it purports or is represented to possess.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111265.

Any drug or device is adulterated if it is packaged and its container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents injurious to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111270.

Any drug or device is adulterated if it bears or contains for the purpose of coloring only a color additive that is unsafe within the meaning of Section 111240.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111275.

Any drug or device is adulterated if it is a color additive, the intended use of which in or on drugs or devices is for the purpose of coloring only, and it is unsafe within the meaning of Section 111240.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111280.

Any drug is adulterated if it purports to be, or is represented as, a drug that is recognized in an official compendium, and its strength differs from, or its quality or purity falls below, the standards set forth in the compendium. Such determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in the compendium, or in the absence of or inadequacy of the tests or methods of assay, those prescribed under authority of this part. No drug defined in an official compendium shall be deemed to be adulterated under this section because it differs from the standard of strength, quality, or purity set forth in the compendium, if its difference in strength, quality, or purity from the standard is plainly stated on the label.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111285.

Any drug or device is adulterated if its strength differs from, or its purity or quality is below, that which it is represented to possess.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111290.

Any drug or device is adulterated if any substance has been mixed or packed with it so as to reduce its quality or strength or if any substance has been substituted, wholly or in part, for the drug or device.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111295.

It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is adulterated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111300.

It is unlawful for any person to adulterate any drug or device.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111305.

It is unlawful for any person to receive in commerce any drug or device that is adulterated or to deliver or proffer for delivery any drug or device.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111310.

While any regulation described in Section 110090 relating to any color additive is in effect, any drug or device that bears or contains the color additive in accordance with the regulation shall not be considered adulterated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111315.

Any drug or device intended for export shall not be deemed to be adulterated under this part if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If the article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111320.

Any device is adulterated that fails to meet the applicable performance standard, if any, as provided in Section 111245.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111325.

A drug or device is deemed adulterated under the laws of this state if it is subject to regulations issued by the United States Food and Drug Administration as set forth in Parts 200, 211, 314, and 800 of Volume 21 of the Code of Federal Regulations, as amended, relating to tamper-resistant packaging, but is not in compliance therewith.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Drugs and Devices [111225 - 111656.13]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Misbranded Drugs or Devices [111330 - 111510]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

111330.

Any drug or device is misbranded if its labeling is false or misleading in any particular.

(Amended by Stats. 2000, Ch. 796, Sec. 7. Effective January 1, 2001.)

111335.

Any drug or device is misbranded if its labeling or packaging does not conform to the requirements of Chapter 4 (commencing with Section 110290).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111340.

Any drug or device is misbranded unless it bears a label containing all of the following information:

(a) The name and place of business of the manufacturer, packer, or distributor.

(b) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count.

Reasonable variations from the requirements of subdivision (b) shall be permitted. Requirements for placement and prominence of the information and exemptions as to small packages shall be established in accordance with regulations adopted pursuant to Section 110380.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111345.

Any drug or device is misbranded if any word, statement, or other information required by or under this part to appear on the label or labeling is not prominently placed on the label or labeling with conspicuousness, as compared with other words, statements, designs, or devices in the labeling, and in terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111355.

(a) Any drug is misbranded unless its label bears, to the exclusion of any other nonproprietary name except the applicable, systematic chemical name or the chemical formula, all of the following information:

(1) The established name of the drug, if any.

(2) If it is fabricated from two or more ingredients, the established name and quantity of each active ingredient, including the kind and quantity or proportion of any alcohol, and also including, whether active

or not, the established name and quantity or proportion of any bromides, ether, chloroform, acetanilide, acetophenetidin, antipyrine, atropine, hyoscine, hyoscyamine, codeine, arsenic, digitalis, digitalis glycosides, mercury, ouabain, strophanthin, strychnine, barbituric acid, or any derivative or preparation of any substances contained therein.

(3) For nonprescription drugs, the quantity or proportion of each active ingredient and the established name of each inactive ingredient in accordance with Sections 502(e)(1)(A)(ii) and (iii) of the federal act (21 U.S.C. 352(e)(1)(A)(ii) and (iii)).

(b) The requirement for stating the quantity of the active ingredients of any drug, including the quantity or proportion of any alcohol, and also including, whether active or not, the quantity or proportion of any bromides, ether, chloroform, acetanilide, acetophenetidin, antipyrine, atropine, hyoscine, hyoscyamine, codeine, arsenic, digitalis, digitalis glycosides, mercury, ouabain, strophanthin, strychnine, barbituric acid, or any derivative or preparation of any substances contained therein, shall apply to all drugs, including prescription drugs and nonprescription drugs. However, the requirement for declaration of quantity shall not apply to nonprescription drugs that are also cosmetics, as defined in Section 201(i) of the federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 321(i)) and that are labeled in compliance with federal labeling requirements concerning declaration of ingredients including active ingredients and also the quantity and proportion of any alcohol, except that the quantity or proportion of the following ingredients, whether active or not, shall be declared: bromides, ether, chloroform, acetanilide, acetophenetidin, antipyrine, atropine, hyoscine, hyoscyamine, codeine, arsenic, digitalis, digitalis glycosides, mercury, ouabain, strophanthin, strychnine, barbituric acid, or any derivative or preparation of any substances contained therein. The department may exempt any nonprescription drug from the requirement of stating the quantity of the active ingredients, other than those specifically named in this subdivision, upon a showing by the applicant through evidence satisfactory to the department that the granting of the exemption will not endanger the public health. For any prescription drug the established name of the drug or ingredient, as the case may be, on the label and on any labeling on which a name for the drug or ingredient is used shall be printed prominently and in type at least half as large as that used thereon for any proprietary name or designation for the drug or ingredient.

The changes made in this section by Chapter 943 of the Statutes of 1978 shall not apply to any drug shipped by a manufacturer or packer to a retailer or wholesaler before January 1, 1980. Any such drugs so shipped shall comply with this section on and after January 1, 1981.

(Amended by Stats. 2000, Ch. 796, Sec. 9. Effective January 1, 2001.)

111360.

Any drug subject to Section 111470 is misbranded unless the manufacturer, packer, or distributor of the drug includes, in all advertisements and other descriptive matter issued or caused to be issued by the manufacturer, packer, or distributor with respect to that drug, a true statement of all of the following:

(a) The established name, printed prominently and in a type at least half as large as that used for any proprietary name of the drug.

(b) The formula showing quantitatively each ingredient of the drug to the extent required for labels under Section 111355.

(c) The name and place of business of the manufacturer that produced the finished dosage form of the drug, as prescribed by regulations issued by the department. This subdivision applies only to advertisements or

descriptive matter issued for drugs manufactured in finished dosage form on or after April 1, 1973.

(d) Such other information, in brief summary relating to side effects, contraindications, and effectiveness as shall be required by regulations promulgated by the department.

Regulations relating to side effects, contraindications, and effectiveness issued pursuant to Section 502(n) of the federal act (21 U.S.C. Sec. 352(n)) are the regulations establishing information requirements relating to side effects, contraindications and effectiveness in this state. The department may, by regulation, make other requirements relating to side effects, contraindications, and effectiveness whether or not in accordance with the regulations adopted under the federal act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111365.

Any drug subject to Section 111470 is misbranded unless the established name of the prescription drug or prescription drug ingredient is printed on the label prominently and in type at least half as large as that used for the proprietary name or designation on the label, labeling, or advertising.

The department may, by regulation, establish exemptions from the requirements of this section when compliance with this section is not considered necessary for the protection of health and safety.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111375.

Any drug or device is misbranded unless its labeling bears all of the following information:

(a) Adequate directions for use.

(b) Such adequate warnings against use in pathological conditions or by children where its use may be dangerous to health.

(c) Adequate warning against unsafe dosage or methods or duration of administration or application.

Warnings shall be in a manner and form as are necessary for the protection of users.

If the department determines that any requirement of subdivision (a), as applied to any drug or device, is not necessary for the protection of the public health, the department may adopt regulations exempting the drug or device from these requirements.

Any drug or device exempted under Section 502(f) of the federal act (21 U.S.C. Sec. 352(f)) is exempt from the requirement of this section. The department, however, may adopt any regulation including a drug or device within, or excluding a drug or device from the requirements of this section, whether or not the inclusion or exclusion of the drug or device is in accord with the federal act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111380.

Any drug is misbranded if it purports to be a drug that is recognized in an official compendium and it is not packaged and labeled as prescribed in the official compendium. The method of packaging, however, may be modified with the consent of the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111385.

Any drug or device is misbranded if the department determines that the drug or device is liable to deterioration, unless it is packaged in that form and manner and its label bears a statement of the precautions, as the department, by regulation, may require as necessary for the protection of public health. Such regulations shall not be established for any drug or device recognized in an official compendium, unless the department has informed the appropriate body, charged with the revision of the official compendium, of the need for that packaging or labeling requirements and that body has not prescribed the requirements in a reasonable length of time.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111390.

Any drug or device is misbranded if its container is so made, formed, or filled as to be misleading.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111395.

Any drug is misbranded in any of the following cases:

(a) It is an imitation of another drug.

(b) It is offered for sale under the name of another drug.

(c) The contents of the original package have been, wholly or partly, removed and replaced with other material in the package.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111397.

(a)Any foreign dangerous drug that is not approved by the United States Food and Drug Administration or that is obtained outside of the licensed supply chain regulated by the United States Food and Drug Administration, California State Board of Pharmacy, or State Department of Public Health is misbranded.

(b)Any foreign dangerous drug that is imported lawfully under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 301 et seq.) or pursuant to an announcement by the United States Food and Drug Administration of the exercise of enforcement discretion for instances including, but not limited to, clinical research purposes, drug shortages, development of countermeasures against chemical, biological, radiological, and nuclear terrorism agents, or pandemic influenza preparedness and response is not misbranded.

(Added by Stats. 2014, Ch. 492, Sec. 13. (SB 600) Effective January 1, 2015.)

111400.

Any drug or device is misbranded if it is dangerous to health when used in the dosage, or with the frequency or duration prescribed, recommended, or suggested in its labeling.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111415.

Any drug is misbranded if it is a color additive, intended for use in or on drugs for the purpose of coloring only and its packaging and labeling fail to conform to the packaging and labeling requirements adopted pursuant to Section 110090.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111420.

A drug or device is misbranded if a trademark, trade name, or other identifying mark, imprint, or device of another person, or any likeness of the trademark, trade name, or other identifying mark, imprint, or device of another person, has been placed on the drug or device, or upon its container.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111425.

A drug or device is misbranded if it was manufactured in this state in an establishment not duly licensed as provided in this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111430.

A drug or device is misbranded if it was manufactured in an establishment not duly registered with the Secretary of Health, Education, and Welfare of the United States.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111435.

Any drug is misbranded if its packaging or labeling is in violation of an applicable regulation issued pursuant to Section 108685 or 108700.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111440.

It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is misbranded.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111445.

It is unlawful for any person to misbrand any drug or device.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111450.

It is unlawful for any person to receive in commerce any drug or device that is misbranded or to deliver or proffer for delivery any drug or device.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111455.

It is unlawful for any person to alter, mutilate, destroy, obliterate, or remove the label or any part of the labeling of any drug or device if the act results in the drug or device being misbranded.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111460.

Any drug or device intended for export shall not be deemed to be misbranded under this part if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If the article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111465.

A drug or device is deemed misbranded under the laws of this state if it is subject to regulations issued by the United States Food and Drug Administration relating to tamper-resistant packaging, as set forth in Parts 200, 211, 314, and 800 of Volume 21 of the Code of Federal Regulations, as amended, but is not in compliance therewith.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111470.

The following drugs or devices, that are intended for use by man, shall be sold only upon a written prescription of a practitioner licensed by law to prescribe the drug or device, or upon an oral prescription of the licensee that is reduced promptly to writing and filed by the pharmacist, or by refilling the written or oral prescription if the refilling is authorized by the prescriber either in the original prescription or by oral order that is reduced promptly to writing and filed by the pharmacist:

(a) A habit forming drug to which Section 111350 applies.

(b) A drug or device that, because of its toxicity or other potentiality for harmful effect, or the method of its use, or the collateral measures necessary to its use, is not safe for use except under the supervision of a practitioner licensed by law to administer the drug or device.

(c) A drug or device for which adequate directions cannot be written for persons, who are not practitioners licensed by law to prescribe the drug or device, for safe and effective self-medication or treatment by those persons, who are not practitioners licensed by law to prescribe the drug or device.

(d) A drug or device that is limited by an effective application under Section 505 of the federal act (21 U.S.C. Sec. 355) or Section 111550 to use under the professional supervision of a practitioner licensed by law to administer the drug or device.

If any prescription for the drug does not indicate the number of times it may be refilled, if any, the prescription may not be refilled unless the pharmacist obtains a new order from the practitioner.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111475.

The act of selling a drug or device contrary to Section 111470 shall be deemed to be an act that results in the drug or device being misbranded while held for sale.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111480.

Any drug or device sold by filling or refilling a written or oral prescription of a practitioner licensed to prescribe the drug or device shall be exempt from the labeling requirements of Sections 111335, 111340, 111350, 111355, 111360, 111365, 111375, 111380, 111385, 111395, 111415, and 111420, if the drug or device bears a label displaying all the following:

(a) Except where the prescriber orders otherwise, either the manufacturerstrade name of the drug, or the generic name and the name of the manufacturer. Commonly used abbreviations may be used. Preparations containing two or more active ingredients may be identified by the manufacturerstrade name or the commonly used name or the principal active ingredients.

(b) The directions for the use of the drug or device.

(c) The name of the patient(s).

(d) The name of the prescriber.

(e) The date of issue.

(f) The name, address of the furnisher, and prescription number or other means of identifying the prescription.

(g) The strength of the drug or drugs dispensed.

(h) The quantity of the drug or drugs dispensed.

(i) The expiration date of the effectiveness of the drug or device if the information is included on the original label of the manufacturer of the drug or device.

If a pharmacist dispenses a prescribed drug by means of a unit dose medication system, as defined by

administrative regulation, for a patient in a skilled nursing, intermediate care or other health care facility, the requirements of this section will be satisfied if the unit dose medication system contains the aforementioned information or the information is otherwise readily available at the time of drug administration.

The exemption shall not apply to any drug or device dispensed in the course of the conduct of a business of dispensing drugs or devices pursuant to diagnosis by mail, or to a drug or device dispensed in violation of Section 111470.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111485.

The department may, by regulation, remove any drug or device subject to Sections 111350 and 111550 from the requirements of Section 111470, when the requirements are not necessary for the protection of the public health. Any drug removed from the prescription requirements of the federal act by regulations adopted pursuant to the federal act is removed from the requirements of Section 111470. The department may, however, by regulation, continue the applicability of Section 111470 for any drug or device, or make these sections inapplicable to any drug or device, whether or not the inclusion or exclusion of the drug or device is in accordance with the regulations adopted pursuant to the federal act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111490.

(a) A drug or device that is subject to Section 111470 is misbranded if at any time prior to dispensing, its label fails to bear the statement Caution: federal law prohibits dispensing without prescription,□ or Caution: state law prohibits dispensing without prescription,□ or R x only.□ A drug or device to which Section 111470 does not apply is misbranded if at any time prior to dispensing its label bears the caution statement or R x only□ quoted in the preceding sentence.

(b) A device that is subject to Section 111470 is misbranded if, at any time prior to dispensing, its label fails to bear the statement Caution: federal law restricts this device to sale by or on the order of a ____ ,□ the blank to be filled in with the designation of the practitioner licensed to use or order use of the device. A device to which Section 111470 does not apply is misbranded if, at any time prior to dispensing, its label bears the caution statement quoted in the preceding sentence.

(Amended by Stats. 2000, Ch. 796, Sec. 12. Effective January 1, 2001.)

111495.

Nothing in this article shall be construed to relieve any person from any requirement prescribed by or under authority of law with respect to drugs now included or that may hereafter be included within the classification stated in Division 10 (commencing with Section 11000) or in the applicable federal law relating to controlled substances.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111500.

A physician, dentist, podiatrist, or veterinarian may personally furnish his or her own patient with drugs as are necessary in the treatment of the condition for which he or she attends the patient provided that the drug is properly labeled to show all the information required in Section 111480 except the prescription number.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111505.

For purposes of Section 111510, the following definitions shall apply:

(a) Distributor means any corporation, person, or other entity, not engaged in the manufacture of a legend drug product, who distributes for resale and distribution a legend drug product under the label of the corporation, person, or entity.

(b) Legend drug means any controlled substance subject to the Federal Controlled Substances Act (Title II, P.L. 91-513) or subject to the Uniform Controlled Substances Act, Division 10 (commencing with Section 11000), and any drug described in Section 4211 of the Business and Professions Code or Section 111470.

(c) Solid dosage forms means capsules or tablets intended for oral administration.

(d) Code imprint means a series of letters or numbers assigned by the manufacturer or distributor to a specific drug, or marks or monograms unique to the manufacturer, distributor, or both. The National Drug Code may be used as a code imprint.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111510.

(a) No legend drug in solid dosage form may be manufactured or distributed for sale in this state unless it is clearly marked or imprinted with a code imprint identifying the drug and the manufacturer or distributor of the drug. Manufacturers or distributors who only repack an already finished dosage form of a legend drug shall not have the responsibility to do the imprint.

(b) On or before July 1, 1982, manufacturers or distributors of legend drugs, depending on whether the manufacturersor distributorscode imprint will appear on the surface of the solid dosage form, shall provide to the department a list of their legend drugs and the intended code imprints. The department shall provide for the distribution of the information required to be submitted under this subdivision to all poison control centers in the state. Manufacturers, distributors, and the department shall provide to any licensed health care provider, upon request, lists of legend drugs and code imprints provided to the department under this section, but may charge a reasonable fee to cover copying and postage costs. Updated lists shall be

provided to the department annually or as changes or revisions occur.

(c) The department may grant exemptions from the requirements of this section upon application of a manufacturer or distributor indicating size or other characteristics that render the product impractical for the imprinting required by this section.

(d) A legend drug that does not meet the requirements is misbranded.

(e) It is the intent of the Legislature that all legend drugs having solid dosage forms be imprinted regardless of by whom they are distributed.

(f) This section shall apply to all legend drugs sold in California on or after January 1, 1983.

(g) Pharmacists, pharmacies, and licensed wholesalers shall only be liable for knowing and willful violations of this section, except that no liability shall accrue if the pharmacist acts pursuant to Section 4229.5 of the Business and Professions Code.

(h) The provisions of subdivisions (a) to (g), inclusive, shall not apply to any of the following:

(1) Drugs purchased by a pharmacy, pharmacist, or licensed wholesaler prior to January 1, 1983, and held in stock for resale.

(2) Drugs that are the subject of an investigation pursuant to Section 111590 or 111595.

(3) Drugs that are manufactured by or upon the order of a practitioner licensed by law to prescribe or administer drugs and that are to be used solely by the patient for whom prescribed.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Drugs and Devices [111225 - 111656.13]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Experimental Use of Drugs [111515 - 111545]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

111515.

As used in this article, experimental drug means any of the following:

A drug intended for investigational use under Section 111595.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111520.

No person shall prescribe or knowingly administer an experimental drug to another person in violation of this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111525.

Prior to prescribing or administering an experimental drug, consent to the use of the drug shall be obtained in the method and manner specified in Chapter 1.3 (commencing with Section 24170) of Division 20.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111530.

(a) Notwithstanding the provisions of Section 24175, if the subject is a minor, consent shall be provided by a parent or guardian of the subject and shall also be provided by the subject if the subject is seven years of age or older.

(b) Consent given pursuant to this section shall only be for the prescribing or administering of an experimental drug that is related to maintaining or improving the health of the subject or related to

obtaining information about a pathological condition of the subject.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111535.

Consent given pursuant to Section 111525 may be revoked at any time by either verbal or written communication to the practitioner supervising the administration of the experimental drug.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111540.

Prior to administering an experimental drug, the experimental activity as a whole, including the consent procedures required by Section 111525, shall be reviewed and approved by a committee for the protection of human subjects that is acceptable, as determined by the department. A committee for the protection of human subjects that operates under a general or special assurance approved by the federal Department of Health, Education, and Welfare pursuant to Part 46 of Title 45 of the Code of Federal Regulations shall be an acceptable committee for purposes of this section. A copy of the consent procedures approved by a committee for the protection of human subjects shall be filed with the department prior to the commencement of the experiment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111545.

A person having an ownership interest in a skilled nursing facility or intermediate care facility, as those terms are defined in Section 1250, may not prescribe an experimental drug for a patient in the facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Drugs and Devices [111225 - 111656.13]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4.5. Right to Try Act [111548 - 111548.5]__

(Article 4.5 added by Stats. 2016, Ch. 684, Sec. 1.)

111548.

This article shall be known and may be cited as the Right to Try Act.

(Added by Stats. 2016, Ch. 684, Sec. 1. (AB 1668) Effective January 1, 2017.)

111548.1.

For purposes of this article, unless the context otherwise requires, the following definitions shall apply:

(a)Consulting physician means a physician and surgeon licensed under the Medical Practice Act or an osteopathic physician and surgeon licensed under the Osteopathic Act who performs all of the following:

(1)Examines the qualified individual and his or her relevant medical records.

(2)Confirms, in writing, the primary physiciansdiagnosis and prognosis.

(3)Verifies, in the opinion of the consulting physician, that the eligible patient is competent, acting voluntarily, and has made an informed decision.

(b)Eligible patient means a person who meets all of the following conditions:

(1)Has an immediately life-threatening disease or condition.

(2)Has considered all other treatment options currently approved by the United States Food and Drug Administration.

(3)Has not been accepted to participate in the nearest clinical trial to his or her home for the immediately life-threatening disease or condition identified in paragraph (1) within one week of completion of the clinical trial application process, or, in the treating physiciansmedical judgment, it is unreasonable for the patient to participate in that clinical trial due to the patientscurrent condition and stage of disease.

(4)Has received a recommendation from his or her primary physician and a consulting physician for an investigational drug, biological product, or device.

(5)Has given written informed consent for the use of the investigational drug, biological product, or device, or, if he or she lacks the capacity to consent, his or her legally authorized representative has given written informed consent on his or her behalf.

(6)Has documentation from his or her primary physician and a consulting physician attesting that the patient has met the requirements of this subdivision.

(c)Health benefit plan means a plan or program that provides, arranges, pays for, or reimburses the cost of health benefits. Health benefit plan includes, but is not limited to, a health care service plan contract issued by a health care service plan, as defined in Section 1345, and a policy of health insurance, as defined in Section 106 of the Insurance Code, issued by a health insurer.

(d)Immediately life-threatening disease or condition means a stage of disease in which there is a reasonable likelihood that death will occur within a matter of months.

(e)Investigational drug, biological product, or device means a drug, biological product, or device that has successfully completed phase one of a clinical trial approved by the United States Food and Drug Administration, but has not been approved for general use by the United States Food and Drug Administration and remains under investigation in a clinical trial approved by the United States Food and Drug Administration.

(f)Primary physician means a physician and surgeon licensed under the Medical Practice Act or an osteopathic physician and surgeon licensed under the Osteopathic Act.

(g)State regulatory board means the Medical Board of California or the Osteopathic Medical Board of California.

(h)(1)Written, informed consent means a written document that has been approved by the primary physiciansinstitutional review board or an accredited independent institutional review board, is signed by an eligible patient, or his or her legally authorized representative when the patient lacks the capacity to consent, and attested to by the patientsprimary physician and a witness that, at a minimum, does all of the following:

(A)Explains the currently approved products and treatments for the immediately life-threatening disease or condition from which the patient suffers.

(B)Attests to the fact that the patient, or when the patient lacks the capacity to consent his or her legally authorized representative, concurs with the patientsprimary physician in believing that all currently approved and conventionally recognized treatments are unlikely to prolong the patientslife.

(C)Clearly identifies the specific proposed investigational drug, biological product, or device that the patient is seeking to use.

(D)Describes the potentially best and worst outcomes of using the investigational drug, biological product, or device and describes the most likely outcome. This description shall include the possibility that new, unanticipated, different, or worse symptoms might result and that death could be hastened by the proposed treatment. The description shall be based on the primary physiciansknowledge of the proposed treatment in conjunction with an awareness of the patientscondition.

(E)Clearly states that the patientshealth benefit plan, if any, and health care provider are not obligated to pay for the investigational drug, biological product, or device or any care or treatments consequent to use of the investigational drug, biological product, or device.

(F)Clearly states that the patientseligibility for hospice care may be withdrawn if the patient begins curative treatment and that care may be reinstated if the curative treatment ends and the patient meets hospice eligibility requirements.

(G)Clearly states that in-home health care may be denied if treatment begins.

(H)States that the patient understands that he or she is liable for all expenses consequent to the use of the investigational drug, biological product, or device, and that this liability extends to the patientsestate, except as otherwise provided in the patientshealth benefit plan or a contract between the patient and the manufacturer of the drug, biological product, or device.

(2)Written, informed consent for purposes of this article shall be consistent with the informed consent requirements of the Protection of Human Subjects in Medical Experimentation Act (Chapter 1.3 (commencing with Section 24170) of Division 20).

(Added by Stats. 2016, Ch. 684, Sec. 1. (AB 1668) Effective January 1, 2017.)

111548.2.

(a)Notwithstanding Section 110280, 111520, or 111550, a manufacturer of an investigational drug, biological product, or device may make available the manufacturersinvestigational drug, biological product, or device to an eligible patient pursuant to this article. This article does not require that a manufacturer make available an investigational drug, biological product, or device to an eligible patient.

(b)A manufacturer may do both of the following:

(1)Provide an investigational drug, biological product, or device to an eligible patient without receiving compensation.

(2)Require an eligible patient to pay the costs of, or associated with, the manufacture of the investigational drug, biological product, or device.

(c)(1)This article does not expand the coverage provided under Sections 1370.4 and 1370.6 of this code, Sections 10145.3 and 10145.4 of the Insurance Code, or Sections 14087.11 and 14132.98 of the Welfare and Institutions Code.

(2)This article does not require a health benefit plan to provide coverage for the cost of any investigational drug, biological product, or device, or the costs of services related to the use of an investigational drug, biological product, or device under this article. A health benefit plan may provide coverage for an

investigational drug, biological product, or device made available pursuant to this section.

(d)If the clinical trial for an investigational drug, biological product, or device is closed due to the lack of efficacy or for toxicity, the investigational drug, biological product, or device shall not be offered. If notice of closure of a clinical trial is given for an investigational drug, biological product, or device taken by a patient outside of a clinical trial, the manufacturer and the patientsprimary physician shall notify the patient of the information from the safety committee of the clinical trial.

(e)If an eligible patient dies while being treated by an investigational drug, biological product, or device made available pursuant to this article, the patientsheirs and health benefit plan, except to the extent the plan provided coverage pursuant to paragraph (2) of subdivision (c), are not liable for any outstanding debt related to the treatment or lack of insurance for the treatment.

(Added by Stats. 2016, Ch. 684, Sec. 1. (AB 1668) Effective January 1, 2017.)

111548.3.

(a)Notwithstanding any other law, a state regulatory board shall not revoke, fail to renew, or take any other disciplinary action against a physicianslicense based on the physiciansrecommendation to an eligible patient regarding, or prescription for or treatment with, an investigational drug, biological product, or device if the recommendation or prescription is consistent with protocol approved by the physiciansinstitutional review board or an accredited independent institutional review board.

(b)The physiciansinstitutional review board or an accredited institutional review board shall biannually report the following information to the State Department of Public Health, the Medical Board of California, and the Osteopathic Medical Board of California:

(1)The number of requests made for an investigational drug, biological product, or device.

(2)The status of the requests made.

(3)The duration of the treatment.

(4)The costs of the treatment paid by eligible patients.

(5)The success or failure of the investigational drug, biological product, or device in treating the immediately life-threatening disease or condition from which the patient suffers.

(6)Any adverse event for each investigational drug, biological product, or device.

(c)A state agency shall not alter any recommendation made to the federal Centers for Medicare and Medicaid Services regarding a health care providerscertification to participate in the Medicare or Medicaid program based solely on the recommendation from an individual health care provider that a patient have access to an investigational drug, biological product, or device.

(d)A violation of this section shall not be subject to Chapter 8 (commencing with Section 111825).

(Added by Stats. 2016, Ch. 684, Sec. 1. (AB 1668) Effective January 1, 2017.)

111548.5.

This article does not create a private cause of action, and actions taken pursuant to this article shall not serve as a basis for a civil, criminal, or disciplinary claim or cause of action, including, but not limited to, product liability, medical negligence, or wrongful death, against a manufacturer of an investigational drug, biological product, or device, or against any other person or entity involved in the care of an eligible patient for harm done to the eligible patient or his or her heirs resulting from the investigational drug, biological product, or device, or the use or nonuse thereof, if the manufacturer or other person or entity has complied with the terms of this article in relation to the eligible patient, unless there was a failure to exercise reasonable care.

(Added by Stats. 2016, Ch. 684, Sec. 1. (AB 1668) Effective January 1, 2017.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=5.&chapter=6.&article=5.

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Drugs and Devices [111225 - 111656.13]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. New Drugs or Devices [111550 - 111610]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

111550.

No person shall sell, deliver, or give away any new drug or new device unless it satisfies either of the following:

(a)It is one of the following:

(1)A new drug, and a new drug application has been approved for it and that approval has not been withdrawn, terminated, or suspended under Section 505 of the federal act (21 U.S.C. Sec. 355).

(2)A new biologic product for which a license has been issued as required by the federal Public Health Service Act (42 U.S.C. Sec. 262).

(3)A device that is reported under Section 510(k) of the federal act (21 U.S.C. Sec. 360(k)), or is a device exempted pursuant to subsection (l) or (m) of Section 360 of Title 21 of the United States Code, or it is a new device for which a premarket approval application has been approved, and that approval has not been withdrawn, terminated, or suspended under Section 515 of the federal act (21 U.S.C. Sec. 360e).

(b)The department has approved a new drug or device application for that new drug or new device and that approval has not been withdrawn, terminated, or suspended. Any person who files a new drug or device application with the department shall submit, as part of the application, all of the following information:

(1)Full reports of investigations that have been made to show whether or not the new drug or device is safe for use and whether the new drug or device is effective in use under the conditions prescribed, recommended, or suggested in the labeling or advertising of the new drug or device.

(2)A full list of the articles used as components of the new drug or device.

(3)A full statement of the composition of the new drug or device.

(4)A full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of the new drug, or in the case of a new device, a full statement of its composition, properties, and construction, and the principles of its operation.

(5)Samples of the new drug or device and of the articles used as components of the drug or device as the department may require.

(6)Specimens of the labeling and advertisements proposed to be used for the new drug or device.

(Amended by Stats. 2012, Ch. 688, Sec. 1. (AB 1277) Effective January 1, 2013.)

111555.

Within 180 days after the filing of an application provided for in Section 111550, or an additional period as shall be agreed upon by the department and the applicant, the department shall do either of the following:

(a) Approve the application, if it finds that none of the grounds for denying approval specified in Section 111550 apply.

(b) Give the applicant written notice for an opportunity for a hearing before the department on the question of whether the application is approvable. If the applicant elects to accept the opportunity for hearing by written request within 30 days after the notice, the hearing shall commence not more than 90 days after the expiration of the 30 days unless the department and the applicant otherwise agree. Any such hearing shall thereafter be conducted on an expedited basis and the departmentsorder thereon shall be issued within 90 days after the date fixed by the department for filing final briefs.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111560.

The department shall issue an order refusing to approve an application if, after written notice to the applicant and after giving him or her an opportunity for a hearing, the department makes any of the following findings:

(a) That the reports of investigation, that are required to be submitted to the department pursuant to Section 111550, do not include adequate tests by all methods reasonably applicable to show whether or not the new drug or device is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling and advertisement of the new drug or device.

(b) That the results of the tests submitted pursuant to Section 111550 to show whether or not the new drug or device is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling and advertisement of the new drug or device show that the drug or device is unsafe for use under these conditions or do not show that the new drug or device is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling and advertisement.

(c) That the methods, facilities, and controls used in the manufacture, processing, or packing of the new drug or device are inadequate to preserve its identity, strength, quality, purity, composition, or other characteristics.

(d) That upon the basis of information submitted as part of the application, or upon the basis of any other information before it with respect to the new drug or device, that the department has insufficient information to determine whether the drug or device is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling and advertisement.

(e) That evaluated on the basis of the information submitted as part of the application and any other information before it with respect to the new drug or device, that there is a lack of substantial evidence that the new drug or device will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the proposed labeling or advertisement of the new drug or device.

(f) That based on an evaluation by the department of all material facts, that the proposed labeling or advertising of the new drug or device is false or misleading in any particular.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111565.

An order pursuant to Section 111560 refusing approval of a new drug application or a new device application shall be revoked whenever the department finds that the facts justify the action.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111570.

In the case of any new drug or device for which an approval of an application filed pursuant to Section 111550 is in effect, the applicant shall establish and maintain records, and make reports to the department, of data relating to clinical experience and other data or information, received or otherwise obtained by the applicant with respect to the new drug or device, as the department may by general regulation, or by order with respect to the application, prescribe. Any regulation or order issued pursuant to this section or pursuant to Section 111595 shall have due regard for the professional ethics of the medical profession and the interest of patients and shall provide, where the department determines that it is reasonably necessary, for the examination upon request, by the persons to whom the regulation or order is applicable, of similar information received or otherwise obtained by the department. Every person required pursuant to this section to maintain records, and every person in charge or in custody of the records, shall, upon request of an authorized agent of the department, permit the agent at all reasonable time to have access to, and copy and verify, the records.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111575.

The department shall issue an order withdrawing approval of an application concerning any new drug or device if, after giving written notice to the applicant and an opportunity for a hearing, the department makes any of the following findings:

(a) That clinical or other experience, tests, or other scientific data show that the new drug or device is unsafe for use under the conditions of use upon the basis of which the application was approved.

(b) That new evidence of clinical experience, not contained in the application or not available to the department until after the application was approved, or tests by new methods, or tests by methods not deemed reasonably applicable when the application was approved, evaluated together with the evidence available to the department when the application was approved, shows that the new drug or device is not shown to be safe for use under the conditions of use upon the basis of which the application was approved.

(c) On the basis of new information with respect to the new drug or device, evaluated together with the evidence available to the department when the application was approved, that there is a lack of substantial evidence that the new drug or device will have the effect it purports or is represented to have, under the conditions of use prescribed, recommended, or suggested in the labeling or advertising of the new drug or device.

(d) That the application contains any untrue statement of a material fact.

(e) That the applicant has failed to establish a system for maintaining required records, or has repeatedly or

deliberately failed to maintain the records or to make required reports, or the applicant has refused to permit access to, or copying or verification of, the records.

(f) That on the basis of new information before the department, evaluated together with the evidence before it when the application was approved, the methods used in, or the facilities and controls used for, the manufacture, processing, and packing of the new drug or device are inadequate to assure and preserve its identity, strength, quality, purity, composition, and characteristics as determined by qualified experts selected by the department, and were not made adequate within a reasonable time after receipt of written notice from the department specifying the matter complained of.

(g) That on the basis of new information before it, evaluated together with the evidence before it when the application was approved, the labeling or advertisement of the new drug or device, based on an evaluation of all material facts, is false or misleading in any particular and is not corrected within a reasonable time after receipt of written notice from the department specifying the matter complained of.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111580.

When the department finds that there is an imminent hazard to the public health, it may suspend the approval for the application immediately.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111585.

An order pursuant to Section 111575 or 111580 withdrawing approval of an application concerning any new drug or device shall be revoked whenever the department finds that the facts justify the action.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111590.

Section 111550 does not apply to a drug or device intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of drugs or devices if the investigation is conducted in accordance with the requirements of Section 505(i) of the federal act (21 U.S.C. Sec. 355(i)) or Section 520(g) thereof (21 U.S.C. Secs. 352 and 360) and the regulations adopted pursuant to the federal act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111595.

Section 111550 does not apply to any drug or device intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of drugs or devices if all the following conditions are complied with:

(a) The submission to the department, before any clinical testing of a drug or device is undertaken, of reports, by the manufacturer or the sponsor of the investigation of the drug or device, of preclinical tests including tests on animals, of the drug or device adequate to justify the proposed clinical testing.

(b) The manufacturer or the sponsor of the investigation of a drug or a device proposed to be distributed to investigators for clinical testing obtaining a signed, notarized agreement from each of the investigators that patients to whom the drug or device is administered will be under his or her personal supervision, or under the supervision of investigators responsible to him or her, and that he or she will not supply the drug or device to any other investigator, or to clinics, for administration to human beings.

(c) The establishment and maintenance of the records, and the making of the reports to the department, by the manufacturer or the sponsor of the investigation of the drug or device, of data, including but not limited to, analytical reports by investigators, obtained as a result of the investigational use of the drug or device, as the department finds will enable it to evaluate the safety and effectiveness of the drug or device in the event of the filing of an application pursuant to Section 111550.

(d) The manufacturer, or the sponsor of the investigation, require experts using the drugs or devices for investigational purposes to certify to the manufacturer or sponsor that they will comply with the requirements of Article 4 (commencing with Section 111515).

(e) Any other conditions as the department shall adopt as regulations necessary for the protection of the public health. The federal regulations adopted pursuant to Section 505(i) of the federal act (21 U.S.C. Sec. 355(i)) or Section 520(g) thereof (21 U.S.C. Secs. 352 and 360) shall be the regulations for exemptions from Section 111550 in this state. However, the department may prescribe, by regulation, any condition for exemption from Section 111550 whether or not the condition is in accordance with regulations adopted under the federal act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111605.

(a) In making determinations on requests for approval of AIDS-related drugs, as defined in subdivision (b), in accordance with Section 111550, or for exemptions from these requirements, for purposes of investigations of these drugs, pursuant to Section 111595, the department shall employ persons to conduct reviews of requests for drug marketing approval for AIDS-related drugs, or exemptions from the approval requirements as specified in that section. The AIDS Vaccine Research and Development Advisory Committee shall review and advise the department in its actions under this section.

Where necessary, the department shall enter into contracts with appropriate and qualified persons or entities for the review of these requests, including persons with significant experience in conducting or reviewing clinical trials of drugs or physicians with significant experience in treating AIDS patients.

No person may contract with the department for the review of a request under this subdivision if the person has a financial interest or a conflict of interest involving the drug being evaluated.

(b) AIDS-related drug means either of the following:

(1) A vaccine to protect against human immunodeficiency virus (HIV) infection.

(2) Antiviral agent, immune modulator, or other agent to be administered to persons who have been infected with HIV, to counteract the effects of this infection, or any drug to treat opportunistic infections associated with AIDS.

(c) The immunities provided for in Sections 818.4 and 821.6 of the Government Code shall apply whenever the department grants approval pursuant to Section 111550 or an exemption from the approval requirements pursuant to Section 111595, for an AIDS-related drug.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111610.

Section 111550 does not apply to any of the following:

(a) A drug or device that is sold in this state, or introduced into interstate commerce, at any time prior to the enactment of the federal act, if its labeling and advertising contained the same representations concerning the conditions of its use.

(b) Any drug that is licensed under the Public Health Service Act of July 1, 1944 (58 Stats. 682, as amended; 42 U.S.C. Sec. 201 et seq.) or under the eighth paragraph of the heading of Bureau of Animal Industry of the act of March 4, 1913 (37 Stat. 832"833; 21 U.S.C. Sec. 151 et seq.), commonly known as the Virus-Serum-Toxin Act.

(Amended by Stats. 2000, Ch. 796, Sec. 13. Effective January 1, 2001.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Drugs and Devices [111225 - 111656.13]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 6. Licenses [111615 - 111656.13]__

(Article 6 added by Stats. 1995, Ch. 415, Sec. 6.)

111615.

No person shall manufacture any drug or device in this state unless he or she has a valid license from the department. The license is valid for two calendar years from the date of issue, unless it is revoked. The license is not transferable.

The department may require any manufacturer, wholesaler, or importer of any prescription ophthalmic device in this state to obtain a license.

(Amended by Stats. 2006, Ch. 74, Sec. 34. Effective July 12, 2006.)

111620.

A separate license is required for each place of manufacture.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111625.

A license application shall be completed biennially and accompanied by an application fee as prescribed in Section 111630. This fee is not refundable if the license is refused.

(Amended by Stats. 2006, Ch. 74, Sec. 35. Effective July 12, 2006.)

111630.

The department shall by regulation establish the application form and set the fee for licensure and renewal of a license. The penalty for failure to apply for renewal of a license within 30 days after its expiration is ten

dollars ($10) and shall be added to the renewal fee and be paid by the applicant before the renewal license may be issued. All moneys collected as fees shall be expended when appropriated by the Legislature in the carrying out of the provisions of this part and the regulations adopted pursuant to this part.

Any person licensed pursuant to this section shall immediately notify the department of any change in the information reported in the license application.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111633.

The State Department of Public Health shall require that an applicant for a human prescription drug manufacturing license submit fingerprints to the Department of Justice, and related information as required by the Department of Justice, as required by this chapter, pursuant to subdivision (u) of Section 11105 of the Penal Code. The Department of Justice shall provide a state- or federal-level response pursuant to subdivision (p) of Section 11105 of the Penal Code.

(Added by Stats. 2023, Ch. 198, Sec. 17. (SB 152) Effective September 13, 2023.)

111635.

(a)Prior to issuing a license required by Section 111615 to any place of business where a drug or device is manufactured, the department shall receive from each place of business documentation that evidences ownership and any of the following:

(1)The place of business is operating pursuant to a valid biologics license issued by the United States Food and Drug Administration in compliance with Section 351 of the federal Public Health Service Act (42 U.S.C. Sec. 262).

(2)The place of business is operating with a valid establishment registration pursuant to Section 510 of the federal act (21 U.S.C. Sec. 360). This documentation shall include an attestation from an officer of the place of business that a federal inspection was completed within the two years prior to the date of the attestation.

(3)The place of business is operating in compliance with audits conducted pursuant to the International Standards Organization (ISO) 9000 series, ISO 13485:2003 quality management systems standards, ISO 15378:2006 quality management systems standards, pursuant to Parts 210 and 211 of Title 21 of the Code of Federal Regulations, or pursuant to Part 820 of Title 21 of the Code of Federal Regulations.

(4)The place of business is operating pursuant to an approved investigational new drug issued by the federal Food and Drug Administration pursuant to Section 312.20 of Title 21 of the Code of Federal Regulations or pursuant to an approved investigational device exemption issued by the federal Food and Drug Administration pursuant to Section 812.20 of Title 21 of the Code of Federal Regulations.

(b)If the department receives documentation that satisfies the requirements of subdivision (a), the department shall not inspect the place of business prior to issuing a license required by Section 111615. If the department does not receive the documentation required, the department shall inspect the place of business prior to issuing a license required by Section 111615.

(c)Upon request by a place of business licensed under Section 111615, the department shall provide an official copy of the valid license to the place of business in accordance with Sections 110230 and 110235.

(d)Notwithstanding Section 111640, for any place of business where a drug or device is manufactured and the manufacturer has received a license pursuant to this section, the department shall make investigations or inspections authorized by Article 2 (commencing with Section 110140) of Chapter 2 only when any of the following occur:

(1)The department becomes aware of an issue and makes a determination that the health and safety of the public is at risk.

(2)A complaint has been registered with the department and the department makes a determination that the health and safety of the public is at risk.

(3)A notification has been sent by the United States Food and Drug Administration to the department that requests assistance regarding any Class I or II recall action memorandum.

(4)The United States Food and Drug Administration has requested assistance for enforcement activities, including, but not limited to, embargoes, seizures, or injunctions.

(e)Inspections made pursuant to subdivision (d) shall be limited to inspections for compliance with, or violations of, Chapter 4 (commencing with Section 110290) or this chapter.

(Amended by Stats. 2012, Ch. 688, Sec. 2. (AB 1277) Effective January 1, 2013.)

111640.

The department shall make investigations or inspections authorized by Article 2 (commencing with Section 110410) of Chapter 2 as it deems necessary to carry out this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111645.

Any violation of any provision of this part or any regulation adopted pursuant to this part shall be grounds for denying a license or for suspending or revoking a license. Proceedings for the denial, suspension, or revocation of a license shall be conducted pursuant to Section 100171.

(Amended by Stats. 1997, Ch. 220, Sec. 28. Effective August 4, 1997.)

111650.

Drug manufacturers who have obtained a license or who are applying for a license pursuant to this article shall submit to the California State Board of Pharmacy information as the Board of Pharmacy deems

reasonably necessary to carry out its drug distribution responsibilities including, but not limited to, information on drug inventories or restricted dangerous drugs. Failure of any manufacturer to report the information to the Board of Pharmacy in a timely fashion shall be grounds for the department to deny, suspend, or revoke the manufacturerslicense.

The California State Board of Pharmacy may adopt regulations that are reasonably necessary to implement this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111655.

The licensing provisions of this chapter shall not apply to any of the following:

(a) Any pharmacy that maintains establishments in conformance with provisions of the Pharmacy Law, Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code, regulating the practice of pharmacy, and that is regularly engaged in dispensing prescription drugs or devices, upon prescriptions of any person licensed to administer the drugs or devices to patients under the care of the person in the course of his or her professional practice, and that does not manufacture, prepare, propagate, compound, or process drugs or devices for sale other than in the regular course of his or her business of dispensing or selling drugs or devices at retail.

(b) Any pharmacy that solely engages in providing drugs or devices to a person licensed by law to administer the drug or device for his or her use in the course of his or her professional practice.

(c) Any pharmacy that solely provides drugs or devices to another pharmacy in order to meet a temporary inventory shortage.

(d) Any person who is licensed by law to prescribe or administer drugs or devices and who manufactures, prepares, propagates, compounds, or processes drugs or devices solely for use in the course of his or her professional practice.

(e) Any person who manufactures, prepares, propagates, compounds, or processes any drug or device solely for use in nonclinical research, teaching, or chemical analysis and not for sale.

(f) Any wholesaler, as defined in Section 4038 of the Business and Professions Code.

(g) Any such other class of persons as the department may by regulation exempt from the application of this article upon a finding that licensing by a class of persons in accordance with this article is not necessary for the protection of the public health.

(h) Any registered dispensing optician licensed pursuant to the provisions of Chapter 5.5 (commencing with Section 2550) of Division 2 of the Business and Professions Code, who is regularly engaged in dispensing or selling prescription lenses and frames, and not engaged in the manufacture, preparation, processing or assembling of lenses or frames for sale other than in the regular course of his or her business of dispensing or selling lenses or frames at retail.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111656.

(a) No person shall conduct a home medical device retail facility business in the State of California unless he or she has obtained a license from the department. A license shall be required for each home medical device retail facility owned or operated by a specific person. A separate license shall be required for each of the premises of any person operating a home medical device retail facility in more than one location. The license shall be renewed annually and shall not be transferable. The licensee shall be responsible for assuring compliance with all requirements of this article pertaining to home medical device retail facilities.

(b) Applications for a home medical device retail facility license shall be made on a form furnished by the department. The department may require any information it deems reasonably necessary to carry out the purposes of this section.

(c) A warehouse owned by a home medical device retail facility the primary purpose of which is storage, not dispensing of home medical devices to patients, shall be licensed at a fee one-half of that for a home medical device retail facility. There shall be no separate or additional license fee for warehouse premises owned by a home medical device retail facility that are physically connected to the retail premises or that share common access.

(d) The department may, at its discretion, issue a temporary license when the ownership of a home medical device retail facility is transferred from one person to another upon any conditions and for the periods of time as the department determines to be in the public interest. A temporary license fee shall be established by the department at an amount not to exceed the annual fee for renewal of a license to conduct a home medical device retail facility.

(e) Notwithstanding any other provision of law, a licensed home medical device retail facility may furnish a prescription device to a licensed health care facility for storage in a secured emergency pharmaceutical supplies container maintained within the facility in accordance with facility regulations of the State Department of Health Services set forth in Title 22 of the California Code of Regulations.

(f) The licensure requirements of this section shall not apply to the following entities or practitioners, unless the entities or practitioners furnish home medical devices or home medical device services through a separate entity including, but not limited to, a corporate entity, division, or other business entity:

(1) Home health agencies that do not have a Part B Medicare supplier number.

(2) Hospitals, excluding providers of home medical devices that are owned or related to a hospital.

(3) Manufacturers and wholesale distributors, if not selling directly to the patient.

(4) Health care practitioners authorized to prescribe or order home medical devices or who use home medical devices or who use home medical devices to treat their patients.

(5) Licensed pharmacists and pharmacies. Pharmacies that sell or rent home medical devices shall be governed by the provisions of Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code and any rules and regulations adopted by the California State Board of Pharmacy.

(6) Licensed hospice programs.

(7) Licensed nursing homes.

(8) Licensed veterinarians.

(9) Licensed dentists.

(10) Emergency medical services provider.

(11) Breast feeding support programs.

(Amended by Stats. 2001, Ch. 728, Sec. 71. Effective January 1, 2002.)

111656.1.

(a)(1)After January 1, 2002, prior to issuing a license required by Section 111656, the department shall inspect each place of business to determine ownership, adequacy of facilities, and personnel qualifications. Nothing in this section shall prohibit the department from inspecting any medical device retail facility prior to January 1, 2002.

(2)(A)After the initial inspection pursuant to paragraph (1), the department shall inspect a licensee that is accredited by an accreditation organization approved by the federal Centers for Medicare and Medicaid Services, or its successor entity, only upon a complaint made to the department regarding the licensee.

(B)A licensee shall only be deemed to be accredited and subject to inspection pursuant to subparagraph (A) if all of the following conditions exist:

(i)The licensee is accredited by the accrediting organization at least every three years.

(ii)The licensee is subject to unannounced onsite midcycle surveys by the accrediting organization to validate ongoing compliance.

(iii)Within 30 days following an inspection by the accrediting organization, the accrediting organization notifies the department regarding the status of the licenseesaccreditation.

(iv)If the licensee is less than fully accredited, the accrediting organization notifies the department of the reasons for the lack of full accreditation and any corrective action plan recommended to the licensee.

(C)The department shall inspect a licensee that ceased to be accredited in compliance with subparagraph (B) pursuant to paragraph (3).

(3)The department shall inspect a licensee that is not accredited by an accreditation organization approved by the federal Centers for Medicare and Medicaid Services, or its successor entity, at least annually.

(b)The annual license fee for a home medical device retail facility shall be eight hundred fifty dollars ($850) until adjusted pursuant to subdivision (c).

(c)The annual license fee required by Sections 111656 and 111630 shall be adjusted annually, commencing July 1, 2003, by the department so that license fee revenues cover the estimated licensing program costs. Adjusted fee amounts shall take into account the resources required for inspections and other activities to

support licensing during the previous year and shall take into account projected workload and changes in department overhead costs during the upcoming year.

(d)Commencing July 1, 2003, the department shall by July 30 of each year, publish the amount of fees to be charged as adjusted pursuant to this section. This adjustment of fees shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(e)Commencing January 1, 2003, the department shall, on or before January 10 of each year, provide the Legislature with a report recommending fee rates. The report shall describe the estimated licensing program costs for the next fiscal year to carry out the licensing, regulating, inspecting, and other duties and responsibilities of the department in carrying out the provisions of this article. The department shall describe the projected license fee amount so that license fee revenues cover the estimated licensing program costs. Projected fee amounts shall take into account the resources required for inspections and other activities to support licensing during the previous year and shall take into account projected workload and changes in department overhead costs during the upcoming year.

(f)The Drug and Device Safety Fund is hereby created as a special fund in the State Treasury. All moneys collected by the department under this section and Sections 111656.7, 111656.8, 111656.12, and 111630, and fines and penalties collected by the department in the enforcement of this article, shall be deposited in the fund for use by the department upon appropriation by the Legislature for the purposes of providing funds necessary to carry out and implement the provisions of this article relating to drugs and devices.

(g)This section shall remain in effect only until January 1, 2028, and as of that date is repealed.

(Amended (as amended by Stats. 2017, Ch. 213, Sec. 1) by Stats. 2022, Ch. 955, Sec. 4. (SB 1500) Effective January 1, 2023. Repealed as of January 1, 2028, by its own provisions. See later operative version, as amended by Sec. 5 of Stats. 2022, Ch. 955.)

111656.1.

(a)Prior to issuing a license required by Section 111656, the department shall inspect each place of business to determine ownership, adequacy of facilities, and personnel qualifications. The department shall inspect each licensee at least annually thereafter.

(b)The annual license fee for a home medical device retail facility shall be eight hundred fifty dollars ($850) until adjusted pursuant to subdivision (c).

(c)The annual license fee required by Sections 111656 and 111630 shall be adjusted annually, commencing July 1, 2003, by the department so that license fee revenues cover the estimated licensing program costs. Adjusted fee amounts shall take into account the resources required for inspections and other activities to support licensing during the previous year and shall take into account projected workload and changes in department overhead costs during the upcoming year.

(d)The department shall by July 30 of each year publish the amount of fees to be charged as adjusted pursuant to this section. This adjustment of fees shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(e)The department shall, on or before January 10 of each year, provide the Legislature with a report recommending fee rates. The report shall describe the estimated licensing program costs for the next fiscal

year to carry out the licensing, regulating, inspecting, and other duties and responsibilities of the department in carrying out the provisions of this article. The department shall describe the projected license fee amount so that license fee revenues cover the estimated licensing program costs. Projected fee amounts shall take into account the resources required for inspections and other activities to support licensing during the previous year and shall take into account projected workload and changes in department overhead costs during the upcoming year.

(f)The Drug and Device Safety Fund is hereby created as a special fund in the State Treasury. All moneys collected by the department under this section and Sections 111656.7, 111656.8, 111656.12, and 111630, and fines and penalties collected by the department in the enforcement of this article, shall be deposited in the fund for use by the department upon appropriation by the Legislature for the purposes of providing funds necessary to carry out and implement the provisions of this article relating to drugs and devices.

(g)This section shall become operative on January 1, 2028.

(Amended (as added by Stats. 2017, Ch. 213, Sec. 2) by Stats. 2022, Ch. 955, Sec. 5. (SB 1500) Effective January 1, 2023. Operative January 1, 2028, by its own provisions.)

111656.2.

(a) The following standards shall apply to all home medical device retail facilities:

(1) Each retail facility shall store prescription devices in a manner that does not allow a customer direct access or self-service.

(2) Each retail facility shall maintain the premises, fixtures, and equipment in a clean and orderly condition.

(3) Each retail facility shall maintain the premises in a dry, well-ventilated condition, free from contamination or other conditions that may render home medical devices unfit for their intended use.

(b) The department may by regulation impose any other standards pertaining to the acquisition, storage, and maintenance of prescription devices or other goods or to the maintenance or condition of the licensed premises of any home medical device retail facility as the department determines are reasonably necessary.

(Amended by Stats. 2001, Ch. 728, Sec. 72. Effective January 1, 2002.)

111656.3.

(a) Each home medical device retail facility shall have written policies and procedures related to home medical device handling and, if authorized by the department pursuant to Section 111656.4, the dispensing of prescription devices. Those written policies and procedures shall be adequate to assure compliance with this article and shall include, but not be limited to:

(1) Training of staff, patients, and caregivers.

(2) Cleaning, storage, and maintenance of home medical devices necessary to prevent damage or contamination and to assure their operation in accordance with manufacturer specifications.

(3) Emergency services. If home medical device malfunction may threaten a patientshealth, access to emergency services 24 hours per day, 365 days per year shall be available for device maintenance or replacement.

(4) Maintaining all records required by this article and any regulations adopted pursuant to the provisions of this article.

(5) Storage and security requirements to assure that prescription devices are dispensed in accordance with this article.

(6) Quality assurance.

(b) The home medical device retail facility shall make consultation available to the patient or primary caregiver about the proper use of devices and related supplies furnished by the home medical device retail facility. The home medical device retail facility shall notify the patient or primary care giver that this consultation is available.

(c) Each home medical device retail facility shall ensure all personnel who engage in the taking of orders for, the selling of, or the fitting of prescription devices, if authorized by the department pursuant to Section 111656.4, shall have training and demonstrate initial and continuing competence in the order-taking, fitting, and sale of prescription devices that the home medical device retail facility furnishes pursuant to Section 111656.4.

(d) Each home medical device retail facility shall prepare and maintain records of training and demonstrated employee competence required under this article for employees of the home medical device retail facility. The records shall be maintained for three years from and after the last date of employment.

(e) Each home medical device retail facility shall have an ongoing, documented quality assurance program that includes, but is not limited to, the following:

(1) Monitoring personnel performance to assure compliance with this article.

(2) Storage, maintenance, and dispensing of prescription devices to assure that prescription devices are dispensed in accordance with this article.

(f) The records and documents specified in subdivisions (a) and (e) shall be maintained for three years from the date of making. The records and documents described in subdivisions (a), (d), and (e), shall be open to inspection at all times during business hours by authorized agents of the department or an inspector from the California State Board of Pharmacy for the purpose of investigating a pharmacist.

(Added by Stats. 2000, Ch. 837, Sec. 35. Effective January 1, 2001.)

111656.4.

Section 4051 of the Business and Professions Code shall not prohibit a home medical device retail facility from selling or dispensing prescription devices if the department finds that sufficient qualified supervision is employed by the home medical device retail facility to adequately safeguard and protect the public health. Each person applying to the department for this exemption shall meet the following requirements to obtain

and maintain the exemption:

(a) A licensed pharmacist or an exemptee who meets the requirements set forth in paragraphs (1) to (5), inclusive, and whose license of exemption is currently valid, shall be in charge of the home medical device retail facility.

(1) He or she shall be a high school graduate or possess a general education development equivalent.

(2) He or she shall have a minimum of one year of paid work experience related to the distribution or dispensing of dangerous drugs or dangerous devices.

(3) He or she shall complete a training program that addresses each of the following subjects that are applicable to his or her duties:

(A) Knowledge and understanding of state and federal laws relating to the distribution of dangerous drugs and dangerous devices.

(B) Knowledge and understanding of state and federal laws relating the distribution of controlled substances.

(C) Knowledge and understanding of quality control systems.

(D) Knowledge and understanding of the United States Pharmacopoeia standards relating to the safe storage and handling of drugs.

(E) Knowledge and understanding relating to the safe storage and handling of home medical devices.

(F) Knowledge and understanding of prescription terminology, abbreviations, and format.

(4) The department may, by regulation, require training programs that include additional material.

(5) The department shall not issue an exemptee a license until the applicant provides proof of completion of the required training that the department determines is adequate to fulfill these requirements.

(b) The licensed pharmacist or exemptee shall be on the premises at all times that prescription devices are available for sale or fitting unless the prescription devices are stored separately from other merchandise and are under the exclusive control of the licensed pharmacist or exemptee. A licensed pharmacist or an exemptee need not be present in the warehouse facility of a home medical device retail facility unless the department establishes that requirement by regulation based upon the need to protect the public.

(c) The department may require an exemptee to complete a designated number of hours of coursework in department-approved courses of home health education in the disposition of any disciplinary action taken against the exemptee.

(d) Each premises maintained by a home medical device retail facility shall have a license issued by the department and shall have a licensed pharmacist or exemptee on the premises if prescription devices are furnished, sold, or dispensed.

(e) A home medical device retail facility may establish locked storage (a lock box or locked area) for emergency or after working hours furnishing of prescription devices. Locked storage may be installed or placed in a service vehicle of the home medical device retail facility for emergency or after hours service to patients having prescriptions for prescription devices.

(f) The department may by regulation authorize a licensed pharmacist or exemptee to direct an employee of the home medical device retail facility who operates the service vehicle equipped with locked storage described in subdivision (e) to deliver a prescription device from the locked storage to patients having prescriptions for prescription devices. These regulations shall establish inventory requirements for the locked storage by a licensed pharmacist or exemptee to take place shortly after a prescription device has been delivered from the locked storage to a patient.

(Amended by Stats. 2002, Ch. 1013, Sec. 88. Effective January 1, 2003.)

111656.5.

(a) A person other than a licensed pharmacist, an intern pharmacist, an exemptee, as specified in Section 111656.4, or an authorized agent of the department or a person authorized to prescribe, may not be permitted in that area, place, or premises described in the license issued by the department wherein prescription devices are stored, possessed, prepared, manufactured, or repacked, except that a licensed pharmacist or exemptee shall be responsible for any individual who enters the medical device retail facility for the purposes of receiving, fitting, or consultation from the licensed pharmacist or exemptee or any person performing clerical, inventory control, housekeeping, delivery, maintenance, or similar functions relating to the home medical device retail facility. The licensed pharmacist or exemptee shall remain present in the home medical device retail facility any time an individual is present who is seeking a fitting or consultation. However, a licensed pharmacist or an exemptee need not be present on the premises of a home medical device retail facility at all times of its operation and need not be present in a warehouse facility owned by a home medical device retail facility unless the department establishes that requirement by regulation based upon the need to protect the public. The exemptee need not be present if the prescription devices are stored in a secure locked area under the exclusive control of the exemptee and unavailable for dispensing. This subdivision shall apply only to prescription devices.

(b) A warehouse as used in this section, is a facility owned by a home medical device retail facility that is used for storage only. There may not be fitting, display, or sales at that location. A licensed pharmacist or exemptee shall be designated as in charge of a warehouse but need not be present during its operation. The licensed pharmacist or exemptee may permit others to possess a key to the warehouse.

(c) Notwithstanding the remainder of this section, a home medical device retail facility may establish a locked facility, meeting the requirements of Section 111656.4, for furnishing prescription devices to patients having prescriptions for prescription devices in emergencies or after working hours.

(d) The department may establish reasonable security measures consistent with this section as a condition of licensing in order to prevent unauthorized persons from gaining access to the area, place, or premises, or to the prescription devices therein.

(e) The department may by regulation establish labeling requirements for prescription devices sold, fitted, or dispensed by a home medical device retail facility as it deems necessary for the protection of the public.

(Amended by Stats. 2001, Ch. 159, Sec. 135. Effective January 1, 2002.)

111656.6.

Home medical devices for rental purposes shall at all times while under the control of the home medical device retail facility, be maintained in a clean and sanitary condition and in good working order following, where available, manufacturer specifications.

(Added by Stats. 2000, Ch. 837, Sec. 38. Effective January 1, 2001.)

111656.7.

(a) Without registering as an out-of-state home medical device retail facility, an out-of-state home medical device retail facility shall not sell or distribute prescription devices in this state through any person or media other than a wholesaler who is licensed pursuant to Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code.

(b) Applications for an out-of-state home medical device retail facility registration shall be made on a form furnished by the department. The department may require any information it deems reasonably necessary to carry out the purposes of this section.

(c) The Legislature by enacting this section does not intend a registration issued to any out-of-state home medical device retail facility pursuant to this section to change or affect the tax liability imposed by Chapter 3 (commencing with Section 23501) of Part 11 of Division 2 of the Revenue and Taxation Code on any out-of-state home medical device retail facility.

(d) The Legislature by enacting this section does not intend a registration issued to any out-of-state home medical device retail facility pursuant to this section to serve as any evidence that the out-of-state home medical device retail facility is doing business within this state.

(Added by Stats. 2000, Ch. 837, Sec. 39. Effective January 1, 2001.)

111656.8.

(a) No person acting as principal or agent for any out-of-state home medical device retail facility who has not obtained a registration from the department pursuant to this article and who sells or distributes prescription devices in this state that are not obtained through a wholesaler who has obtained a license pursuant to Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code, or that are not obtained through a selling or distribution outlet of an out-of-state manufacturer that is licensed as a wholesaler pursuant to Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code, shall conduct the business of selling or distributing prescription devices within this state without registering with the department pursuant to this article.

(b) Registration of persons under this section shall be made on a form furnished by the department. The department may require any information as the department deems reasonably necessary to carry out the purposes of this section including, but not limited to, the name and address of the registrant and the name and address of the manufacturer whose prescription devices he or she is selling or distributing.

(c) The department may deny, revoke, or suspend the registration of persons registered under this article for any violation of this article or Chapter 9 (commencing with Section 4000) of Division 2 of the Business and

Professions Code or for any violation of Part 5 (commencing with Section 109875) of Division 104. The department may deny, revoke, or suspend the personsregistration if the manufacturer whose prescription devices he or she is selling or distributing violates this article or Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code or Part 5 (commencing with Section 109875) of Division 104.

(d) Registration under this section shall be renewed annually.

(Added by Stats. 2000, Ch. 837, Sec. 40. Effective January 1, 2001.)

111656.9.

When, in the opinion of the department, a high standard of patient safety, consistent with good patient care, can be provided by the licensure of a home medical device retail facility that does not meet all of the requirements for licensure as a home medical device retail facility, the department may waive any licensing requirements for that medical device retail facility.

(Added by Stats. 2000, Ch. 837, Sec. 41. Effective January 1, 2001.)

111656.10.

(a) The department may void the license of a home medical device retail facility, if the licensed premises remain closed, as defined in subdivision (e), other than by order of the department. For good cause shown, the department may void a license after a shorter period of closure. To void a license pursuant to this subdivision, the department shall make a diligent, good faith effort to give notice by personal service on the licensee. If no written objection is received within 10 days after personal service is made or a diligent, good faith effort to give notice by personal service on the licensee has failed, the department may void the license without the necessity of a hearing. If the licensee files a written objection, the department shall file an accusation based on the licensee remaining closed. Proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted in that chapter.

(b) In the event that the license of a home medical device retail facility is voided pursuant to subdivision (a) or revoked or a home medical device retail facility notifies the department of its intent to remain closed or to discontinue business, the licensee shall, within 10 days thereafter, arrange for the transfer of all prescription devices to another licensee authorized to possess the prescription devices. The licensee transferring the prescription devices shall immediately confirm in writing to the department that the transfer has taken place.

(c) If a home medical device retail facility fails to comply with subdivision (b), the department may seek and obtain an order from the superior court in the county in which the home medical device retail facility is located, authorizing the department to enter the home medical device retail facility and inventory and store, transfer, sell, or arrange for the sale of, prescription devices found in the home medical device retail facility.

(d) In the event that the department sells or arranges for the sale of any prescription devices pursuant to subdivision (c), the department may retain from the proceeds of the sale an amount equal to the cost to the department of obtaining and enforcing an order issued pursuant to subdivision (c), including the cost of disposing of the prescription devices. The remaining proceeds, if any, shall be returned to the licensee from

whose premises the prescription devices were removed.

(1) The licensee shall be notified of his or her right to the remaining proceeds by personal service or by certified mail, postage prepaid.

(2) Where a statute or regulation requires the licensee to file with the department his or her address, and any change of address, the notice required by this subdivision may be sent by certified mail, postage prepaid, to the latest address on file with the department, and service of notice in this manner shall be deemed completed on the 10th day after the mailing.

(3) If the licensee is notified as provided in this subdivision, and the licensee fails to contact the department for the remaining proceeds within 30 calendar days after the personal service has been made or service by certified mail, postage prepaid, is deemed completed, the remaining proceeds shall be deposited by the department into the Drug and Device Safety Fund. These deposits shall be deemed to have been received pursuant to Chapter 7 (commencing with Section 1500) of Title 10 of Part 3 of the Code of Civil Procedure and shall be subject to claim or other disposition as provided in that chapter.

(e) For the purposes of this section, closed means not engaged in the ordinary activity for which a license has been issued for at least one day each calendar week during any 120-day period.

(f) Nothing in this section shall be construed as requiring a home medical device retail facility to be open seven days a week.

(Added by Stats. 2000, Ch. 837, Sec. 42. Effective January 1, 2001.)

111656.11.

(a) It is unlawful for any person who is neither a licensed pharmacist nor an exemptee to take charge of a home medical device retail facility or to furnish prescription devices except as otherwise provided in this article.

(b) It is unlawful for any person who has obtained a license to conduct a home medical device retail facility to fail to place a licensed pharmacist or exemptee in charge of that home medical device retail facility or for any person to, by himself or herself, or by any other person, permit the compounding or dispensing of prescriptions, except by a licensed pharmacist or exemptee or as otherwise provided in this article.

(Added by Stats. 2000, Ch. 837, Sec. 43. Effective January 1, 2001.)

111656.12.

(a) The fee for examination and investigation for an exemptee license under Section 111656.4 shall be one hundred dollars ($100).

(b) The fee for an exemptee license and annual renewal under Section 111656.4 shall be one hundred fifty dollars ($150).

(c) The fee for registration as an out-of-state home medical device retail facility or as the principal or agent

of an out-of-state home medical device retail facility shall be one hundred fifty dollars ($150).

(Added by Stats. 2000, Ch. 837, Sec. 44. Effective January 1, 2001.)

111656.13.

(a) Any entity that prior to July 1, 2001, held a current, valid license as a medical device retailer pursuant to Section 4130 of the Business and Professions Code, shall be deemed to be a licensed home medical device retail facility until the expiration of that license if the entity is in compliance with all applicable criteria for obtaining a license as a home medical device retail facility.

(b) Any entity that was not required to obtain a license as a medical device retailer in order to provide equipment or services prior to July 1, 2001, and that is required to obtain a license as a home medical device retail facility pursuant to Section 111656, shall apply for a license as a home medical device retail facility by July 1, 2001; however, the requirement for licensure shall only apply to those entities on and after January 1, 2002.

(Amended by Stats. 2001, Ch. 159, Sec. 136. Effective January 1, 2002.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Cosmetics [111660 - 111820]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Adulterated Cosmetics [111670 - 111725]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

111670.

A cosmetic is adulterated if it bears or contains any poisonous or deleterious substance that may render it injurious to users under the conditions of use prescribed in the labeling or advertisement of the cosmetic, or under conditions of use as are customary or usual.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111675.

Section 111670 shall not apply to coal tar hair dye, that is conspicuously labeled as follows:

Caution"this product contains ingredients that may cause skin irritation on certain individuals and a preliminary test according to accompanying directions should first be made. This product must not be used for dyeing the eyelashes or eyebrows; to do so may cause blindness.

The labeling shall also bear adequate directions for such preliminary testing.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111680.

Any cosmetic is adulterated if it consists in whole or in part of any filthy, putrid, or decomposed substance.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111685.

Any cosmetic is adulterated if it has been produced, prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111690.

Any cosmetic is adulterated if its container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents injurious to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111691.

A cosmetic is not adulterated because it includes industrial hemp, as defined in Section 11018.5, as long as the cannabinoids, extracts, or derivatives from industrial hemp meet the requirements established in Chapter 9 (commencing with Section 111920). The sale of a cosmetic that includes industrial hemp or cannabinoids, extracts, or derivatives from industrial hemp shall not be restricted or prohibited based solely on the inclusion of industrial hemp provided that the cannabinoids, extracts, or derivatives from industrial hemp meet the requirements established in Chapter 9 (commencing with Section 111920).

(Added by Stats. 2021, Ch. 576, Sec. 9. (AB 45) Effective October 6, 2021.)

111695.

Any cosmetic is adulterated if it is not a hair dye and it is, or it bears or contains, a color additive that is unsafe within the meaning of Section 111665.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111700.

It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any cosmetic that is adulterated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111705.

It is unlawful for any person to adulterate any cosmetic.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111710.

It is unlawful for any person to receive in commerce any cosmetic that is adulterated or to deliver or proffer for delivery any such cosmetic.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111715.

While any regulation relating to any color additive referred to in Section 111665 is in effect, any cosmetic that bears or contains a color additive in accordance with these regulations shall not be considered adulterated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111720.

Any cosmetic intended for export shall not be deemed to be adulterated under this part if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If the article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111725.

A cosmetic is deemed adulterated under the laws of this state if it is subject to regulations issued by the United States Food and Drug Administration relating to tamper-resistant packaging, as set forth in Part 700 of Volume 21 of the Code of Federal Regulations, as amended, but is not in compliance therewith.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Cosmetics [111660 - 111820]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Misbranded Cosmetics [111730 - 111790]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

111730.

Any cosmetic is misbranded if its labeling is false or misleading in any particular.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111735.

Any cosmetic is misbranded if its labeling or packaging does not conform to the requirements of Chapter 4 (commencing with Section 110290).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111740.

Any cosmetic is misbranded if it is in package form and it does not bear a label containing all of the following information:

(a) The name and place of business of the manufacturer, packer, or distributor.

(b) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count.

Reasonable variations shall be permitted from the requirements of subdivision (b) of this section. Requirements for placement and prominence of the information and exemptions as to small packages shall be established by regulations adopted pursuant to Section 110380.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111745.

A cosmetic is misbranded if any word, statement, or other information required pursuant to this part to appear on the label or labeling is not prominently placed upon the label or labeling with conspicuousness, as compared with other words, statements, designs, or devices, in the labeling, and in terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111750.

Any cosmetic is misbranded if its container is so made, formed, or filled as to be misleading.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111755.

A cosmetic is misbranded if it is a color additive, unless its packaging and labeling are in conformity with the packaging and labeling requirements applicable to color additives prescribed under the provisions of Section 110090. This section does not apply to packages of color additives that, with respect to their use for cosmetics, are marketed and intended for use only in or on hair dyes.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111760.

Any cosmetic is misbranded if its packaging or labeling is in violation of an applicable regulation issued pursuant to Section 108685 or 108700.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111765.

It is unlawful for any person to manufacture, or sell any cosmetic that is misbranded.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111770.

It is unlawful for any person to misbrand any cosmetic.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111775.

It is unlawful for any person to receive in commerce any cosmetic that is misbranded, or to deliver or proffer for delivery any cosmetic.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111780.

It is unlawful for any person to alter, mutilate, destroy, obliterate, or remove the label or any part of the labeling of any cosmetic if the act results in the cosmetic being misbranded, while held for sale.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111785.

Any cosmetic intended for export shall not be deemed to be misbranded under this part if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the country to which it is intended for export.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If the article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111790.

A cosmetic is deemed misbranded under the laws of this state if it is subject to regulations issued by the United States Food and Drug Administration relating to tamper-resistant packaging, as set forth in Part 700 of Volume 21 of the Code of Federal Regulations, as amended, but is not in compliance therewith.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=5.&chapter=7.&article=3.5.

111791.5.

For purposes of this article, the following terms have the following meanings:

(a)Authoritative body means any agency or formally organized program or group recognized pursuant to Section 12306 of Title 22 of the California Code of Regulations as being authoritative for the purpose of identifying chemicals that cause cancer or reproductive toxicity.

(b)Chemical identified as causing cancer or reproductive toxicity means a chemical identified pursuant to Section 25249.8 or identified by an authoritative body as any of the following:

(1)A substance listed as known or reasonably anticipated to be a human carcinogen in a National Toxicology Report on carcinogens.

(2)A substance given an overall carcinogenicity evaluation of Group 1, Group 2A, or Group 2B by the International Agency for Research on Cancer.

(3)A substance identified as a Group A, Group B1, or Group B2 carcinogen, or as a known or likely carcinogen by the United States Environmental Protection Agency.

(4)A substance identified as having some or clear evidence of adverse developmental, male reproductive, or female reproductive toxicity effects in a report by an expert panel of the National Toxicology ProgramsCenter for the Evaluation of Risks to Human Reproduction.

(c)Division means the Division of Environmental and Occupational Disease Control within the State Department of Health Services.

(d)Ingredient has the same meaning as that term is defined in subdivision (e) of Section 700.3 of Part 700 of Chapter 1 of Title 21 of the Code of Federal Regulations and does not include any incidental ingredient as defined in subdivision (l) of Section 701.3 of Part 701 of Chapter 1 of Title 21 of the Code of Federal Regulations.

(e)Manufacturer means any person whose name appears on the label of a cosmetic product pursuant to the requirements of Section 701.12 of Title 21 of the Code of Federal Regulations.

(Added by Stats. 2005, Ch. 729, Sec. 2. Effective January 1, 2006.)

111792.

(a)The manufacturer of any cosmetic product subject to regulation by the federal Food and Drug Administration that is sold in this state shall, on a schedule and in electronic or other format, as determined by the division, provide the division with a complete and accurate list of its cosmetic products that, as of the date of submission, are sold in the state and that contain any ingredient that is a chemical identified as causing cancer or reproductive toxicity, including any chemical that meets either of the following conditions:

(1)A chemical contained in the product for purposes of fragrance or flavoring.

(2)A chemical identified by the phrase and other ingredients and determined to be a trade secret pursuant to the procedure established in Part 20 and Section 720.8 of Part 720 of Title 21 of the Code of Federal Regulations. Any ingredient identified pursuant to this paragraph shall be considered to be a trade secret and shall be treated by the division in a manner consistent with the requirements of Part 20 and Part 720 of Title 21 of the Code of Federal Regulations. Any ingredients considered to be a trade secret shall not be subject to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code) for the purposes of this section.

(b)Any information submitted pursuant to subdivision (a) shall identify each chemical both by name and Chemical Abstract Service number and shall specify the product or products in which the chemical is contained.

(c)If an ingredient identified pursuant to this section subsequently is removed from the product in which it was contained, is removed from the list of chemicals known to cause cancer or reproductive toxicity published under Section 25249.8, or is no longer a chemical identified as causing cancer or reproductive toxicity by an authoritative body, the manufacturer of the product containing the ingredient shall submit the new information to the division. Upon receipt of new information, the division, after verifying the accuracy of that information, shall revise the manufacturersinformation on record with the division to reflect the new information. The manufacturer shall not be under obligation to submit subsequent information on the presence of the ingredient in the product unless subsequent changes require submittal of the information.

(d)This section shall not apply to any manufacturer of cosmetic products with annual aggregate sales of cosmetic products, both within and outside of California, of less than one million dollars ($1,000,000), based on the manufacturersmost recent tax year filing.

(e)On or before December 31, 2013, the State Department of Public Health shall develop and make

operational a consumer-friendly, public internet website that creates a database of the information collected pursuant to this section. The database shall be searchable to accommodate a wide range of users, including users with limited technical and scientific literacy. Data shall be presented in an educational manner with, among other things, hypertext links that explain the meanings of technical terms, including, but not limited to, carcinogenic and reproductive toxicity. The internet website shall be designed to be easily navigable and to enable users to compare and contrast products and reportable ingredients. The internet website shall include hypertext links to other educational and informational internet websites to enhance consumer understanding.

(Amended by Stats. 2021, Ch. 615, Sec. 277. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

111792.6.

(a)For purposes of this section, the following definitions apply:

(1)Cosmetic product means an article for retail sale or professional use intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body for cleansing, beautifying, promoting attractiveness, or altering the appearance.

(2)Designated list means any of the following, including subsequent revisions when adopted by the authoritative body:

(A)Chemicals known to the State of California to cause cancer or reproductive toxicity that are listed pursuant to the Safe Drinking Water and Toxic Enforcement Act of 1986 (Chapter 6.6 (commencing with Section 25249.5 of Division 20)).

(B)Chemicals classified by the European Union as carcinogens, mutagens, or reproductive toxicants pursuant to Category 1A or 1B in Annex VI to Regulation (EC) 1272/2008.

(C)Chemicals included in the European Union Candidate List of Substances of Very High Concern in accordance with Article 59 of Regulation (EC) 1907/2006 on the basis of Article 57(f) for endocrine disrupting properties.

(D)Chemicals for which a reference dose or reference concentration has been developed based on neurotoxicity in the federal Environmental Protection AgencysIntegrated Risk Information System.

(E)Chemicals that are identified as carcinogenic to humans, likely to be carcinogenic to humans, or as Group A, B1, or B2 carcinogens in the federal Environmental Protection AgencysIntegrated Risk Information System.

(F)Chemicals included in the European Chemicals Agency Candidate List of Substances of Very High Concern in accordance with Article 59 of Regulation (EC) 1907/2006 on the basis of Article 57(d), Article 57(e), or Article 57(f) of Regulation (EC) 1907/2006 for persistent, bioaccumulative and toxic, or very persistent and very bioaccumulative, properties.

(G)Chemicals that are identified as persistent, bioaccumulative, and inherently toxic to the environment by the Canadian Environmental Protection Act Environmental Registry Domestic Substances List.

(H)Chemicals classified by the European Union in Annex VI to Regulation (EC) 1272/2008 as respiratory

sensitizer category 1.

(I)Group 1, 2A, or 2B carcinogens identified by the International Agency for Research on Cancer.

(J)Neurotoxicants that are identified in the federal Agency for Toxic Substances and Disease RegistrysToxic Substances Portal, Health Effects of Toxic Substances and Carcinogens, Nervous System.

(K)Persistent bioaccumulative and toxic priority chemicals that are identified by the federal Environmental Protection Agency National Waste Minimization Program.

(L)Reproductive or developmental toxicants identified in Monographs on the Potential Human Reproductive and Developmental Effects published by the federal National Toxicology Program, Office of Health Assessment and Translation.

(M)Chemicals identified by the federal Environmental Protection AgencysToxics Release Inventory as Persistent, Bioaccumulative and Toxic Chemicals that are subject to reporting under Section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (42 U.S.C. Sec. 11001, et seq.).

(N)The Washington Department of EcologysPersistent, Bioaccumulative, Toxic (PBT) Chemicals identified in Chapter 173-333 of Title 173 of the Washington Administrative Code.

(O)Chemicals that are identified as known to be, or reasonably anticipated to be, human carcinogens by the 13th Report on Carcinogens prepared by the federal National Toxicology Program.

(P)Chemicals for which notification levels, as defined in Section 116455, have been established by the State Department of Public Health or the State Water Resources Control Board.

(Q)Chemicals for which primary maximum contaminant levels have been established and adopted under Section 64431 or 64444 of Title 22 of the California Code of Regulations.

(R)Chemicals identified as toxic air contaminants under Section 93000 or 93001 of Title 17 of the California Code of Regulations.

(S)Chemicals that are identified as priority pollutants in the California water quality control plans pursuant to subdivision (c) of Section 303 of the federal Clean Water Act (33 U.S.C. Sec. 1341) and in Section 131.38 of Title 40 of the Code of Federal Regulations, or identified as pollutants by the state or the federal Environmental Protection Agency for one or more water bodies in the state under subdivision (d) of Section 303 of the federal Clean Water Act (33 U.S.C. Sec. 1341) and Section 130.7 of Title 40 of the Code of Federal Regulations.

(T)Chemicals that are identified with noncancer endpoints and listed with an inhalation or oral reference exposure level by the Office of Environmental Health Hazard Assessment pursuant to paragraph (2) of subdivision (b) of Section 44360.

(U)Chemicals identified as priority chemicals by the California Environmental Contaminant Biomonitoring Program pursuant to Section 105449.

(V)Chemicals that are identified on Part A of the List of Chemicals for Priority Action prepared by the Oslo and Paris Conventions for the Protection of the Marine Environment of the North-East Atlantic.

(3)Flavor ingredient means any intentionally added substance or complex mixture of aroma chemicals,

flavor chemicals, natural essential oils, and other functional ingredient or ingredients for which the purpose is to impart a flavor or taste, or to counteract a flavor or taste.

(4)Fragrance ingredient means any intentionally added substance or complex mixture of aroma chemicals, natural essential oils, and other functional ingredient or ingredients for which the purpose is to impart an odor or scent, or to counteract an odor.

(5)Manufacturer means any entity whose name appears on the label of a cosmetic product pursuant to the requirements of Section 701.12 of Title 21 of the Code of Federal Regulations.

(6)Professional cosmetic has the same meaning as provided in paragraph (3) of subdivision (b) of Section 110371.

(b)(1)Commencing January 1, 2022, a manufacturer of a cosmetic product sold in the state shall disclose all of the following information to the Division of Environmental and Occupational Disease Control within the State Department of Public Health:

(A)A list of each fragrance ingredient or flavor ingredient that is included on a designated list, as defined in paragraph (2) of subdivision (a), and present in the cosmetic product. This section does not require a manufacturer of a cosmetic product to disclose the presence of any fragrance ingredient or flavor ingredient that is not included on a designated list.

(B)A list of each fragrance allergen included in Annex III of the EU Cosmetics Regulation No. 1223/2009, as required to be disclosed pursuant to the EU Detergents Regulation No. 21 648/2004, and subsequent updates to those regulations, that is present in a rinse-off cosmetic product at a concentration at or above 0.01 percent (100 parts per million) or in a leave-on cosmetic product at a concentration at or above 0.001 percent (10 parts per million). Those ingredients shall appear on the database in a unique manner that distinguishes those ingredients from other reportable ingredients and indicates that they are hazardous only to individuals who suffer from fragrance allergies.

(C)Whether the cosmetic product is intended for professional use or retail cosmetic use.

(D)The Chemical Abstracts Service (CAS) number for each ingredient or allergen that requires disclosure pursuant to subparagraph (A) or (B).

(E)The corresponding Universal Product Code (UPC) for the cosmetic product described in subparagraph (A).

(2)(A)To protect trade secrets, this section does not require a manufacturer to disclose the weight or amount of an ingredient that requires disclosure pursuant to subparagraph (A) or (B) of paragraph (1) or to disclose the manner in which a cosmetic product or intentionally added fragrance ingredient or flavor ingredient is formulated. A manufacturer may protect as a trade secret, and is not required to disclose, any ingredient or combination of ingredients that is not on a designated list or required to be disclosed pursuant to subparagraph (A) or (B) of paragraph (1). A fragrance ingredient or flavor ingredient that is included in a designated list, or a fragrance allergen that requires disclosure pursuant to subparagraph (B) of paragraph (1), does not constitute a trade secret.

(B)Pursuant to Section 7927.705 of the Government Code, a fragrance ingredient or flavor ingredient that constitutes a trade secret is not subject to disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(3)(A)A manufacturer that is required to disclose a fragrance ingredient or flavor ingredient pursuant to

paragraph (1) due to a change in a designated list shall disclose the ingredient no later than six months after the revised list is adopted by the authoritative body, or six months after the revised list becomes effective, whichever is later.

(B)The State Department of Public Health shall create a voluntary electronic mailing list for the department to provide updates on the inclusion or deletion of fragrance allergens, fragrance ingredients, and flavor ingredients on the designated lists.

(c)(1)Commencing January 1, 2022, the Division of Environmental and Occupational Disease Control shall post on the database created pursuant to Section 111792, in an easily readable format, all of the following information related to a cosmetic product described in, and disclosed pursuant to, subparagraph (A) of paragraph (1) of subdivision (b):

(A)A list of all fragrance ingredients and flavor ingredients that are included on a designated list and all fragrance allergens required to be disclosed pursuant to subparagraph (B) of paragraph (1) of subdivision (b).

(B)The health hazards associated with each fragrance ingredient or flavor ingredient.

(2)The division shall identify whether an ingredient is a fragrance ingredient or a flavor ingredient.

(Amended by Stats. 2021, Ch. 615, Sec. 278. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Cosmetics [111660 - 111820]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Voluntary Registration [111795 - 111820]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

111795.

(a) Any person who manufactures a cosmetic in this state may register with the department. Any registration issued under this article shall be valid for one calendar year from the date of issue, unless it is suspended or revoked. The registration shall not be transferable.

(b) A separate registration shall be required for each place of manufacture.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111800.

A registration application form provided by the department shall be completed annually and accompanied by an application fee of three hundred fifty dollars ($350). This fee shall not be returnable if the registration is denied. The fee amount shall be adjusted annually pursuant to Section 100425. All fees collected pursuant to this section shall be deposited into the Export Document Program Fund established by Section 110240.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111805.

Any person registered pursuant to this article shall immediately notify the department of any change in the information reported in the registration application.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111810.

(a) Prior to issuing a registration under Section 111795, the department shall inspect each place of business to determine ownership, adequacy of facilities, personnel qualifications, and compliance with this part. The department shall annually inspect each registrant.

(b) The department shall provide to each registrant a validated copy of the completed registration application form, sent to the mailing address shown on the form, as evidence of valid registration.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111815.

The department shall make any investigations or inspections authorized by Article 2 (commencing with Section 110410) of Chapter 2 as it deems necessary to carry out this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111820.

Any violation of this part or any regulation adopted pursuant to this part shall be grounds for denying a registration or for suspending or revoking a registration. Proceedings for the denial, suspension, or revocation of the registration shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted in that chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

Codes Display Text

111822.

For purposes of this chapter, the following definitions apply:

(a)Confidential business information means an intentionally added ingredient or combination of ingredients for which a claim has been approved by the federal Environmental Protection Agency for inclusion on the Toxic Substances Control Act (TSCA) Confidential Inventory or for which the manufacturer or its supplier claim protection under the Uniform Trade Secrets Act (Title 5 (commencing with Section 3426) of Part 1 of Division 4 of the Civil Code). Confidential business information shall not include any of the following:

(1)An intentionally added ingredient or combination of ingredients that is on a designated list, as defined in subdivision (b).

(2)A fragrance allergen included on Annex III of the European Union (EU) Cosmetics Regulation No. 1223/2009 or subsequent updates to those regulations, when present in the product at a concentration at or above 0.001 percent (10 parts per million).

(b)Designated list means any of the following, including subsequent revisions when adopted by the authoritative body:

(1)Chemicals known to the State of California to cause cancer or reproductive toxicity that are listed pursuant to the Safe Drinking Water and Toxic Enforcement Act of 1986 (Chapter 6.6 (commencing with Section 25249.5) of Division 20).

(2)Chemicals classified by the EU as carcinogens, mutagens, or reproductive toxicants pursuant to Category 1A or 1B in Annex VI to Regulation (EC) 1272/2008.

(3)Chemicals included in the EU Candidate List of Substances of Very High Concern in accordance with Article 59 of Regulation (EC) 1907/2006 on the basis of Article 57(f) for endocrine disrupting properties.

(4)Chemicals for which a reference dose or reference concentration has been developed based on neurotoxicity in the federal Environmental Protection AgencysIntegrated Risk Information System.

(5)Chemicals that are identified as carcinogenic to humans, likely to be carcinogenic to humans, or as Group A, B1, or B2 carcinogens in the federal Environmental Protection AgencysIntegrated Risk Information System.

(6)Chemicals included in the EU Candidate List of Substances of Very High Concern in accordance with Article 59 of Regulation (EC) 1907/2006 on the basis of Article 57(d), Article 57(e), or Article 57(f) for persistent, bioaccumulative and toxic, or very persistent and very bioaccumulative, properties.

(7)Chemicals that are identified as persistent, bioaccumulative, and inherently toxic to the environment by the Canadian Environmental Protection Act Environmental Registry Domestic Substances List.

(8)Chemicals classified by the EU in Annex VI to Regulation (EC) 1272/2008 as respiratory sensitizer category 1.

(9)Group 1, 2A, or 2B carcinogens identified by the International Agency for Research on Cancer.

(10)Neurotoxicants that are identified in the federal Agency for Toxic Substances and Disease RegistrysToxic Substances Portal, Health Effects of Toxic Substances and Carcinogens, Nervous System.

(11)Persistent bioaccumulative and toxic priority chemicals that are identified by the federal Environmental Protection Agency National Waste Minimization Program.

(12)Reproductive or developmental toxicants identified in Monographs on the Potential Human Reproductive and Developmental Effects published by the federal National Toxicology Program, Office of Health Assessment and Translation.

(13)Chemicals identified by the federal Environmental Protection AgencysToxics Release Inventory as Persistent, Bioaccumulative and Toxic Chemicals that are subject to reporting under Section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (42 U.S.C. Sec. 11001, et seq.).

(14)The Washington Department of EcologysPersistent, Bioaccumulative, Toxic (PBT) Chemicals identified in Chapter 173-333 of Title 173 of the Washington Administrative Code.

(15)Chemicals that are identified as known to be, or reasonably anticipated to be, human carcinogens by the 13th Report on Carcinogens prepared by the federal National Toxicology Program.

(16)Chemicals for which notification levels, as defined in Section 116455, have been established by the State Department of Public Health or the State Water Resources Control Board.

(17)Chemicals for which primary maximum contaminant levels have been established and adopted under Section 64431 or 64444 of Title 22 of the California Code of Regulations.

(18)Chemicals identified as toxic air contaminants under Section 93000 or 93001 of Title 17 of the California Code of Regulations.

(19)Chemicals that are identified as priority pollutants in the California water quality control plans pursuant to subdivision (c) of Section 303 of the federal Clean Water Act (33 U.S.C. Sec. 1341) and in Section 131.38 of Title 40 of the Code of Federal Regulations, or identified as pollutants by the state or the federal Environmental Protection Agency for one or more water bodies in the state under subdivision (d) of Section 303 of the federal Clean Water Act (33 U.S.C. Sec. 1341) and Section 130.7 of Title 40 of the Code of Federal Regulations.

(20)Chemicals that are identified with noncancer endpoints and listed with an inhalation or oral reference exposure level by the Office of Environmental Health Hazard Assessment pursuant to paragraph (2) of subdivision (b) of Section 44360.

(21)Chemicals identified as priority chemicals by the California Environmental Contaminant Biomonitoring Program pursuant to Section 105449.

(22)Chemicals that are identified on Part A of the list of Chemicals for Priority Action prepared by the Oslo and Paris Conventions for the Protection of the Marine Environment of the North-East Atlantic.

(c)(1)Fragrance ingredient means an intentionally added substance or complex mixture of aroma chemicals, natural essential oils, and other functional ingredient present in a menstrual product for which the sole purpose is to impart an odor or scent, or to counteract odor, and that is any of the following:

(A)Present in a menstrual product at a concentration at or above 0.01 percent (100 parts per million), unless the substance is confidential business information, in which case the manufacturer may identify the ingredient by its common name to protect its confidential identity pursuant to subdivision (b) of Section 111822.2.

(B)Included on a designated list.

(C)A fragrance allergen included in Annex III of the EU Cosmetics Regulation No. 1223/2009 or subsequent updates to that regulation when present in the menstrual product in a concentration at or above 0.001 percent (10 parts per million).

(2)The manufacturer shall determine the total concentration of each fragrance ingredient by calculating the total amount of fragrance ingredient as a percentage of the total weight of the menstrual product.

(d)Ingredient means a fragrance ingredient or other intentionally added substance or combination of substances present in the menstrual product, unless the intentionally added substance or combination of substances is confidential business information, in which case the manufacturer may identify the ingredient by its common name to protect its confidential identity pursuant to subdivision (b) of Section 111822.2.

(e)Intentionally added means a substance that serves a technical or functional purpose in the finished menstrual product.

(f)Manufacturer means either of the following:

(1)A person or entity that manufactures the menstrual product and whose name appears on the product label.

(2)A person or entity for whom the product is manufactured or distributed, as identified on the product label pursuant to the federal Fair Packaging and Labeling Act.

(g)Menstrual product means a product used to collect menstruation and vaginal discharge, including, but not limited to, tampons, pads, sponges, menstruation underwear, disks, and menstrual cups, whether disposable or reusable.

(Added by Stats. 2020, Ch. 272, Sec. 1. (AB 1989) Effective January 1, 2021.)

111822.2.

(a)A package or box containing menstrual products that was manufactured on or after January 1, 2023, for sale or distribution in this state shall have printed on the label a plain and conspicuous list of all ingredients in the product.

(b)The ingredients shall be listed in order of predominance by weight in the menstrual product, except that ingredients present at a weight below one percent may be listed in any order following the other ingredients. Ingredients shall be identified using a standardized nomenclature, including, but not limited to, the International Nomenclature of Cosmetic Ingredients (INCI), the Household Commercial Products AssociationsConsumer Product Ingredient Dictionary (HCPA Dictionary), or common chemical name. If a standardized nomenclature does not otherwise exist for an ingredient, a name established by the Center for Baby and Adult Hygiene Products (BAHP) shall be used by all menstrual product manufacturers. A manufacturer may identify any ingredient that is confidential business information by its common name to protect its confidential identity.

(c)Commencing January 1, 2023, a manufacturer of a menstrual product that is manufactured for sale or distribution in the state shall post on an internet website, in an electronically readable format, the ingredient information that is required to be disclosed on a package or box containing menstrual products pursuant to subdivision (a).

(d)This section does not prohibit a manufacturer from using technologies, including, but not limited to, digital link, to communicate the information required by this section.

(Added by Stats. 2020, Ch. 272, Sec. 1. (AB 1989) Effective January 1, 2021.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Penalties and Remedies [111825 - 111915]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Penalties [111825 - 111835]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

111825.

(a)A person who violates a provision of this part or a regulation adopted pursuant to this part shall, if convicted, be subject to imprisonment for not more than one year in a county jail or a fine of not more than one thousand dollars ($1,000), or both the imprisonment and fine.

(b)Notwithstanding subdivision (a), a person who violates Section 111865 by removing, selling, or disposing of an embargoed food, drug, device, or cosmetic without the permission of an authorized agent of the department or court shall, if convicted, be subject to imprisonment for not more than one year in a county jail or a fine of not more than ten thousand dollars ($10,000), or both the fine and imprisonment.

(c)(1)Notwithstanding subdivision (a), a person who purchases or sells a foreign dangerous drug or medical device, an illegitimate product, as defined in Section 360eee(8) of Title 21 of the United States Code, or a

suspect product, as defined in Section 360eee(21) of Title 21 of the United States Code, that is not approved or otherwise authorized by the United States Food and Drug Administration or that is obtained outside of the licensed supply chain regulated by the United States Food and Drug Administration, California State Board of Pharmacy, or State Department of Public Health is guilty of a misdemeanor and subject to imprisonment for not more than one year in a county jail, a fine of not more than ten thousand dollars ($10,000) per occurrence, or both the imprisonment and fine.

(2)This subdivision does not apply to those individuals determined by the United States Food and Drug Administration to have acted in compliance with the requirements under Part H (commencing with Section 360eee) of Subchapter V of Chapter 9 of Title 21 of the United States Code with regard to the illegitimate or suspect products.

(d)If the violation is committed after a previous conviction under this section that has become final, or if the violation is committed with intent to defraud or mislead, or if the person committed a violation of Section 110625 or 111300 that was intentional or that was intended to cause injury, the person shall be subject to imprisonment for not more than one year in a county jail, imprisonment in the state prison, or a fine of not more than ten thousand dollars ($10,000), or both the imprisonment and fine.

(e)This section does not preclude punishment under any other law that provides for a greater punishment.

(Amended by Stats. 2015, Ch. 303, Sec. 341. (AB 731) Effective January 1, 2016.)

111830.

Upon conviction of any violation of this part, or any regulation adopted pursuant to this part, the court may require, as a condition of probation under Section 1203.1 of the Penal Code, that the defendant pay to the department the reasonable costs incurred by the department in investigating and prosecuting the action, including, but not limited to, the costs of storage and testing. This payment shall be in addition to any other costs that a court is authorized to require a defendant to pay under Section 1203.1 of the Penal Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111835.

One-half of all fines collected by any court or judge for any violation of any provision of this part shall be paid into the State Treasury to the credit of the General Fund.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

111840.

The Attorney General, any district attorney, or any city attorney to whom the department reports any violation of this part shall begin appropriate proceedings in the proper court.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111845.

The department is not required to institute proceedings under this part for minor violations of this part, if the department believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111850.

When the state asserts a violation of this part, the state need not negative any exemption or exception from

the requirements of this part in any pleading or in any trial, hearing, or other proceeding. The burden of proof with respect to any exemption or exception rests upon the person claiming its benefit.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111855.

(a)If any person violates any provision of this part, or any regulation adopted pursuant to this part, the department may assess a civil penalty against that person as provided by this section.

(b)The penalty may be in an amount not to exceed one thousand dollars ($1,000) per day unless the penalty is for a violation of Section 111825, in which case the penalty may be in an amount not to exceed ten thousand dollars ($10,000) per day. Each day a violation continues shall be considered a separate violation.

(c)If, after examination of a possible violation and the facts surrounding that possible violation, the department concludes that a violation has occurred, the department may issue a complaint to the person charged with the violation. The complaint shall allege the acts or failures to act that constitute the basis for the violation and the amount of the penalty. The complaint shall be served by personal service or by certified mail and shall inform the person so served of the right to a hearing.

(d)Any person served with a complaint pursuant to subdivision (c) of this section may, within 20 days after service of the complaint, request a hearing by filing with the department a notice of defense. A notice of defense is deemed to have been filed within the 20-day period if it is postmarked within the 20-day period. If a hearing is requested by the person, it shall be conducted within 90 days after the receipt by the department of the notice of defense. If no notice of defense is filed within 20 days after service of the complaint, the department shall issue an order setting the penalty as proposed in the complaint unless the department and the person have entered into a settlement agreement, in which case the department shall issue an order setting the penalty in the amount specified in the settlement agreement. When the person has not filed a notice of defense or where the department and the person have entered into a settlement agreement, the order shall not be subject to review by any court or agency.

(e)Any hearing required under this section shall be conducted pursuant to the procedures specified in Section 100171, except to the extent they are inconsistent with the specific requirements of this section.

(f)Orders setting civil penalties under this section shall become effective and final upon issuance thereof, and payment shall be made within 30 days of issuance. A copy of the order shall be served by personal service or by certified mail upon the person served with the complaint.

(g)Within 30 days after service of a copy of a decision issued by the director after a hearing, any person so served may file with the superior court a petition for writ of mandate for review of the decision. Any person who fails to file the petition within this 30-day period may not challenge the reasonableness or validity of the decision or order of the director in any judicial proceeding brought to enforce the decision or order or for other remedies. Section 1094.5 of the Code of Civil Procedure shall govern any proceedings conducted pursuant to this subdivision. In all proceedings pursuant to this subdivision, the court shall uphold the decision of the director if the decision is based upon substantial evidence in the whole record. The filing of a petition for writ of mandate shall not stay any corrective action required pursuant to this part or the accrual of any penalties assessed pursuant to this section. This subdivision does not prohibit the court from granting any appropriate relief within its jurisdiction.

(h)The remedies under this section are in addition to, and do not supersede, or limit, any and all other remedies, civil or criminal.

(Amended by Stats. 2005, Ch. 401, Sec. 6. Effective January 1, 2006.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Penalties and Remedies [111825 - 111915]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Seizure and Embargo [111860 - 111895]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

111860.

Whenever an authorized agent of the department finds, or has probable cause to believe, that any food, drug, device, or cosmetic is adulterated, misbranded, or falsely advertised within the meaning of this part, or the sale of any food, drug, device, or cosmetic would be in violation of this part, that agent shall affix to the food, drug, device, cosmetic, or component thereof, a tag or other appropriate marking. He or she shall give notice that the food, drug, device, or cosmetic is, or is suspected of being, adulterated, misbranded, falsely advertised, or the sale of which would be in violation of this part and has been embargoed, and that no person shall remove or dispose of the food, drug, device, or cosmetic by sale or otherwise until permission

for removal or disposal is given by an authorized agent of the department or the court.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111865.

It is unlawful for any person to remove, sell, or dispose of a detained or embargoed food, drug, device, or cosmetic without permission of an authorized agent of the department or the court.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111870.

When an authorized agent of the department has found that a food, drug, device, or cosmetic that is embargoed, is not adulterated, misbranded, falsely advertised, or the sale of which is not otherwise in violation of this part, that agent shall remove the tag or other marking.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111875.

When an authorized agent of the department finds, or has reasonable cause to believe, that the embargo will be violated, that agent may remove the embargoed food, drug, device, or cosmetic to a place of safekeeping.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111880.

If a food, drug, device, or cosmetic is alleged to be adulterated, misbranded, falsely advertised, or the sale of which is otherwise in violation of this part, the department shall commence proceedings in the superior court in whose jurisdiction the food, drug, device, or cosmetic is located, for condemnation of the article.

(Amended by Stats. 2003, Ch. 449, Sec. 26. Effective January 1, 2004.)

111885.

If the court finds that an embargoed food, drug, device, or cosmetic is adulterated, misbranded, falsely advertised, or the sale of which is otherwise in violation of this part, the food, drug, device, or cosmetic shall, after entry of the judgment, be destroyed at the expense of the claimant or owner, under the supervision of an authorized agent of the department. All court costs and fees and all reasonable costs incurred by the

department in investigating and prosecuting the action, including, but not limited to, the costs of storage and testing, shall be taxed against the claimant or owner of the food, drug, device, or cosmetic or his or her agent. When the adulteration or misbranding can be corrected by proper labeling or processing of the food, drug, device, or cosmetic, or when the false advertisement can be corrected and when all provisions of this part can be complied with, then, after entry of the judgment and after costs, fees, and expenses have been paid and a good and sufficient bond, conditioned that the food, drug, device, or cosmetic will be brought into compliance, the court may, by order, direct that the food, drug, device, or cosmetic be delivered to the claimant or owner to be brought into compliance by labeling, processing, or other means under the supervision of an authorized agent of the department. The expense of the supervision shall be paid by the claimant or owner. The bond shall be discharged when the court finds that the food, drug, device, or cosmetic is no longer held for sale in violation of this part and that all of the expenses of supervision have been paid.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111890.

Whenever an authorized agent of the department finds any meat, meat products, seafood, poultry, vegetable, fruit, or other food that is unsound, or that contains any filthy, decomposed, or putrid substance, or that may be poisonous or deleterious to health, or otherwise unsafe, that agent may declare the food to be a nuisance and the department, or its authorized agent, shall condemn or destroy it, or render it unsalable as human food by decharacterization.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111895.

Any superior court of this state may condemn any food, drug, device, or cosmetic under provisions of this part. In the absence of an order, the food, drug, device, or cosmetic may be destroyed under the supervision of an authorized agent of the department who has the written consent of the owner, his or her attorney, or authorized representative.

(Amended by Stats. 2003, Ch. 449, Sec. 27. Effective January 1, 2004.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Penalties and Remedies [111825 - 111915]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Injunctions [111900 - 111915]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

111900.

The Attorney General or any district attorney, on behalf of the department, may bring an action in superior court and the court shall have jurisdiction upon hearing and for cause shown, to grant a temporary or permanent injunction restraining any person from violating any provision of this part. Any proceeding under the provisions of this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the department shall not be required to allege facts necessary to show, or tending to show, lack of adequate remedy at law, or to show, or tending to show, irreparable damage or loss.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111905.

In addition to the injunctive relief provided in Section 111900, or as a nonpunitive alternative to Section 111915, the court, after finding any person has violated this part, shall award to the department all reasonable costs incurred by the department in investigating and prosecuting the action, including, but not limited to, the costs of storage and testing, as determined by the court. The award shall be paid to the department by the person found by the court to have violated this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111910.

(a) Notwithstanding the provisions of Section 111900 or any other provision of law, any person may bring an action in superior court pursuant to this section and the court shall have jurisdiction upon hearing and for cause shown, to grant a temporary or permanent injunction restraining any person from violating any provision of Article 7 (commencing with Section 110810) of Chapter 5. Any proceeding under this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the person shall not be required to allege facts necessary to show, or tending to show, lack of adequate remedy at law, or to show, or tending to show, irreparable damage or loss, or to show, or tending to show, unique or special individual injury or damages.

(b) In addition to the injunctive relief provided in subdivision (a), the court may award to that person, organization, or entity reasonable attorneysfees as determined by the court.

(c) This section shall not be construed to limit or alter the powers of the department and its authorized agents to bring an action to enforce this chapter pursuant to Section 111900 or any other provision of law.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111912.

Notwithstanding any provision of this part, or any other provision of law, the department shall have no affirmative obligation to administer, regulate, or enforce state law relating to organic foods except Section 110850, relating to the registration of persons who certify processors of organic foods, and Section 110875, relating to the registration of processors of organic foods.

(Added by Stats. 1996, Ch. 1023, Sec. 315. Effective September 29, 1996.)

111915.

In addition to injunctive relief, the court may impose as a civil penalty, damages in the maximum sum of one thousand dollars ($1,000) for each day the violation is continued. Damages shall be paid one-half to this state and one-half to the county in which the action is brought if brought by the Attorney General, or entirely to the county if brought by a district attorney.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111920.

For purposes of this chapter, the following definitions apply:

(a)Department means the State Department of Public Health.

(b)Established and approved industrial hemp program means a program that meets any applicable requirements set forth in federal law regarding the lawful and safe cultivation of industrial hemp.

(c)Final form product is a product intended for consumer use to be sold at a retail premise.

(d)Hemp manufacturer means either of the following:

(1)A processor extracting cannabinoids from hemp biomass.

(2)A processor purchasing industrial hemp raw extract for the purpose of manufacturing a final form product.

(e)Independent testing laboratory means a laboratory that meets all of the following requirements:

(1)Does not have a direct or indirect interest in the entity for which testing is being done.

(2)Does not have a direct or indirect interest in a facility that cultivates, processes, distributes, dispenses, or sells raw hemp products in this state or in another jurisdiction.

(3)Does not have a license issued pursuant to Division 10 (commencing with Section 26000) of the Business and Professions Code, other than as a licensed testing laboratory.

(4)Is either of the following:

(A)A testing laboratory licensed pursuant to Division 10 (commencing with Section 26000) of the Business and Professions Code, if the licensed testing lab has notified the Department of Cannabis Control.

(B)Accredited by a third-party accrediting body as a competent testing laboratory pursuant to ISO/IEC 17025 of the International Organization for Standardization.

(f)Industrial hemp has the same meaning as in Section 11018.5. Industrial hemp does not include cannabinoids produced through chemical synthesis.

(g)(1)Industrial hemp product or hemp product means a finished product containing industrial hemp that meets all of the following conditions:

(A)Is a cosmetic, food, food additive, dietary supplement, or herb.

(B)(i)Is for human or animal consumption.

(ii)Animal does not include livestock or a food animal as defined in Section 4825.1 of the Business and Professions Code.

(iii)Does not include THC isolate as an ingredient.

(2)Industrial hemp product does not include industrial hemp or a hemp product that has been approved by the United States Food and Drug Administration or a hemp product that includes industrial hemp or hemp that has received Generally Recognized As Safe (GRAS) designation. For purposes of nonfood applications, industrial hemp product does not include a hemp product that contains derivatives, substances, or compounds derived from the seed of industrial hemp.

(h)(1)Manufacture or manufacturing means to compound, blend, extract, infuse, or otherwise make or prepare an industrial hemp product.

(2)Manufacturing includes all aspects of the extraction process, infusion process, and packaging and labeling processes, including processing, preparing, holding, and storing of industrial hemp products.

(3)Manufacturing also includes processing, preparing, holding, or storing hemp components and ingredients.

(4)Manufacturing does not include planting, growing, harvesting, drying, curing, grading, or trimming a plant or part of a plant.

(i)Raw extract or industrial hemp raw extract means extract not intended for consumer use and that contains a THC concentration of not more than an amount determined by the department in regulation.

(j)Raw hemp product means a product that is derived from industrial hemp that is intended to be included in a food, beverage, dietary supplement, or cosmetic.

(k)Retail has the same meaning as in Section 113895.

(l)THC or THC or comparable cannabinoid means any of the following:

(1)Tetrahydrocannabinolic acid.

(2)Any tetrahydrocannabinol, including, but not limited to, Delta-8-tetrahydrocannabinol, Delta-9-tetrahydrocannabinol, and Delta-10-tetrahydrocannabinol, however derived, except that the department may exclude one or more isomers of tetrahydrocannabinol from this definition under subdivision (a) of Section 111921.7.

(3)Any other cannabinoid, except cannabidiol, that the department determines, under subdivision (b) of Section 111921.7, to cause intoxication.

(m)THCA means tetrahydrocannabinolic acid, CAS number 23978-85-0.

(n)Total THC means the sum of THC and THCA. Total THC shall be calculated using the following equation: total THC concentration (mg/g) +/- the measurement of uncertainty, as defined by the United States Department of Agriculture.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Industrial Hemp [111920 - 111929.4]__

(Chapter 9 added by Stats. 2021, Ch. 576, Sec. 10.)

__ARTICLE 2. General Provisions [111921 - 111921.7]__

(Article 2 added by Stats. 2021, Ch. 576, Sec. 10.)

111921.

An industrial hemp product shall not be distributed or sold in the state except in conformity with all applicable state laws and regulations, including this chapter and any regulations promulgated thereunder, and with documentation that includes both of the following:

(a)A certificate of analysis from an independent testing laboratory that confirms both of the following:

(1)The industrial hemp raw extract, in its final form, does not exceed THC concentration of an amount determined allowable by the department in regulation, or the mass of the industrial hemp extract used in the final form product does not exceed a THC concentration of 0.3 percent.

(2)The industrial hemp product was tested for any hemp derivatives identified on the product label or in associated advertising in accordance with Section 111926.2.

(b)The industrial hemp product was produced from industrial hemp grown in compliance with Division 24 (commencing with Section 81000) of the Food and Agricultural Code if sourced from within California, or licensed in accordance with United States Department of Agriculture (USDA) requirements if sourced from outside the state.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111921.3.

The department may adopt regulations imposing an age requirement for the sale of certain industrial hemp products upon a finding of a threat to public health.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111921.5.

(a)Unless explicitly approved by the federal Food and Drug Administration, industrial hemp shall not be included in products in any of the following categories:

(1)Medical devices.

(2)Prescription drugs.

(3)A product containing nicotine or tobacco.

(4)An alcoholic beverage.

(b)The department may prohibit the inclusion of industrial hemp in other products when it poses a risk to human or animal health through regulation.

(c)Cannabis and cannabis products are not subject to this section.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111921.6.

(a)Manufacture or sale of inhalable products is prohibited. Manufacture of inhalable products for the sole purpose of sale in other states is not prohibited.

(b)This section shall become inoperative and is repealed on the effective date of a measure passed by the Legislature that establishes a tax on inhalable products and states the intent of the Legislature to fulfill the

requirements of this section.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021. Conditionally repealed as prescribed by its own provisions.)

111921.7.

(a)The department may exclude from the definition of THC or Comparable Cannabinoid one or more isomers of tetrahydrocannabinol if the department determines, consistent with subdivisions (c) and (d), that the tetrahydrocannabinol isomer does not cause intoxication.

(b)The department may include any other cannabinoid, in addition to those expressly listed in subdivision (l) of Section 111920, in the definition of THC if the department determines, consistent with subdivisions (c) and (d), that the cannabinoid causes intoxication.

(c)In making a determination under subdivision (a) or (b), the department shall consider scientific evidence concerning the pharmacological effects of the tetrahydrocannabinol or other cannabinoid in humans or other animals, if that evidence is available.

(d)Any initial determination under subdivision (a) or (b) shall not be subject to the administrative rulemaking requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, but the department, without being subject to those administrative rulemaking requirements, shall establish a process to receive public comment regarding those determinations, and shall publicly post all determinations on its internet website. However, any initial determination shall be confirmed subject to the administrative rulemaking requirements no later than 18 months following the date of the initial determination.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Industrial Hemp [111920 - 111929.4]__

(Chapter 9 added by Stats. 2021, Ch. 576, Sec. 10.)

__ARTICLE 3. Manufacture [111922 - 111922.3]__

(Article 3 added by Stats. 2021, Ch. 576, Sec. 10.)

111922.

(a)The department, through regulation, may determine maximum serving sizes for hemp-derived cannabinoids, hemp extract, and products derived therefrom, active cannabinoid concentration per serving size, the number of servings per container, and any other requirements for foods and beverages.

(b)Food and beverages shall be prepackaged and shelf stable.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111922.3.

(a)A hemp manufacturer who produces raw extract that will only be used for dietary supplements, foods, beverages, and cosmetics, or a hemp manufacturer who produces industrial hemp products shall comply with this chapter and, to the extent applicable, this part.

(b)A hemp manufacturer who produces processed pet food products shall comply with this chapter and Chapter 10 (commencing with Section 113025) of Part 6 and shall follow good manufacturing practices pursuant to those provisions.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

__CHAPTER 9. Industrial Hemp [111920 - 111929.4]__

(Chapter 9 added by Stats. 2021, Ch. 576, Sec. 10.)

__ARTICLE 4. Registration and Fees [111923 - 111923.9]__

(Article 4 added by Stats. 2021, Ch. 576, Sec. 10.)

111923.

The Industrial Hemp Enrollment and Oversight Fund is hereby established in the State Treasury. All money received by the department pursuant to Section 111923.5 shall be deposited into this fund and shall be expended by the department, upon appropriation by the Legislature, to carry out and implement this chapter. Moneys in this fund shall not be redirected for any other purpose.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111923.3.

(a)(1)A hemp manufacturer who produces an industrial hemp product that is a food or beverage shall register with the department pursuant to Article 2 (commencing with Section 110460) of Chapter 5.

(2)Sections 110473 and 110474 shall not apply to dietary supplements and food products that include industrial hemp.

(b)Notwithstanding the voluntary nature of registration provided in Section 111795, a hemp manufacturer who produces an industrial hemp product that is a cosmetic shall register pursuant to Article 4 (commencing with Section 111795) of Chapter 7.

(c)A hemp manufacturer who produces an industrial hemp product that is a processed pet food shall obtain

a license pursuant to Article 2 (commencing with Section 113060) of Chapter 10 of Part 6.

(d)(1)An in-state hemp manufacturer who produces raw hemp extract and who does not produce an industrial hemp product, or an out-of-state hemp manufacturer who produces raw hemp extract with the intent to import that raw hemp extract into this state, shall register with the department pursuant to Article 2 (commencing with Section 110460) of Chapter 5.

(2)Sections 110473 and 110474 shall not apply to hemp manufacturers who register pursuant to this subdivision.

(e)All hemp manufacturers shall notify the department immediately of any change of information in their application for a license of registration.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111923.5.

(a)In addition to licensing and registration requirements and fees required pursuant to other applicable laws, as specified in Section 111923.3, a hemp manufacturer shall obtain an industrial hemp enrollment and oversight authorization from the department. Authorization shall be renewed annually.

(b)The department shall assess an authorization fee and renewal fee to cover the actual reasonable costs of implementing the regulatory program in this chapter. Fees may be set at different amounts for different hemp manufacturer types, including food products, cosmetic products, and pet food products, based on the differing costs associated with regulatory requirements, including, but not limited to, the nature and scope of the authorization activities and oversight, inspection, and enforcement activities.

(c)The fee shall be adjusted pursuant to Section 100425.

(d)Fees may be prorated based upon the date of the renewal or issuance of the authorization.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111923.7.

A hemp manufacturer located outside the state shall reimburse the department for travel and per diem required to perform necessary onsite inspections at the facility to ensure compliance with this chapter and related activities pursuant to this part.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111923.9.

A hemp manufacturer or retailer who is operating in conformance with this part and in good faith compliance with their responsibilities under this chapter may manufacture or sell industrial hemp products or

raw hemp extract without authorization for three months after the effective date of the act that added this chapter.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Industrial Hemp [111920 - 111929.4]__

(Chapter 9 added by Stats. 2021, Ch. 576, Sec. 10.)

__ARTICLE 6. Testing Requirements [111925 - 111925.6]__

(Article 6 added by Stats. 2021, Ch. 576, Sec. 10.)

111925.

(a)A hemp manufacturer shall meet all of the following testing requirements:

(1)Industrial hemp shall be tested in raw extract final form, to allow its use as an ingredient, prior to being incorporated into a product.

(2)Testing shall be completed by an independent testing laboratory.

(3)The manufacturer of the hemp extract in its final form or the final form industrial hemp product shall be able to prove total THC concentration does not exceed 0.3 percent. A manufacturer of raw extract shall be able to prove that the THC concentration meets department requirements set forth pursuant to subdivision (a) of Section 111921.

(b)The department may regulate and restrict the cap on extract and may cap the amount of total THC concentration at the product level based on the product form, volume, number of servings, ratio of cannabinoids to THC in the product, or other factors, as needed.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111925.2.

A raw hemp product shall not be distributed or sold in this state without a certificate of analysis from an independent testing laboratory that confirms all of the following:

(a)The raw hemp product is the product of a batch of industrial hemp that was tested by the independent testing laboratory.

(b)A tested representative sample of the batch of industrial hemp contained a total THC concentration that did not exceed 0.3 percent on a dry-weight basis.

(c)The tested sample of the batch did not contain contaminants that are unsafe for human or animal consumption.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111925.4.

(a)As of the effective date of the act adding this chapter, testing requirements for contaminant levels shall be the same as those for cannabis, as established in paragraph (2) of subdivision (d) of Section 26100 of the Business and Professions Code and regulations adopted pursuant thereto.

(b)The department may adjust the specific contaminant levels for industrial hemp by regulation to protect consumers.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111925.6.

(a)A product batch may be reprocessed or remediated after failed testing, but the batch shall not be distributed or sold unless the reprocessed or remediated batch has been retested and successfully passed all the analyses required pursuant to this article.

(b)If the batch cannot be reprocessed or remediated, the product batch shall be destroyed.

(c)If a failed product batch is not reprocessed or remediated in any way, it shall not be retested. Subsequent certificates of analysis produced without reprocessing or remediation of the failed product batch shall not supersede the initial regulatory compliance testing certificate of analysis.

(d)This section shall not prevent a product batch from being retested when the certificate of analysis was obtained 12 months prior or more.

(e)(1)Reprocessing or remediation shall be an available remedy for failed product batches in all industrial hemp product categories and raw extract.

(2)Remediation is not allowed once a product enters the retail market.

(f)A failed product batch that cannot be reprocessed or remediated shall be destroyed, at the expense of the owner, on video surveillance, as authorized by the department, or under the supervision of an authorized agent of the department.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Industrial Hemp [111920 - 111929.4]__

(Chapter 9 added by Stats. 2021, Ch. 576, Sec. 10.)

__ARTICLE 7. Labeling and Advertisement [111926 - 111926.3]__

(Article 7 added by Stats. 2021, Ch. 576, Sec. 10.)

111926.

(a)A manufacturer, distributor, or seller of an industrial hemp product shall follow packaging, labeling, and advertising laws, including, but not limited to, Chapter 4 (commencing with Section 110290), and federal laws incorporated or applicable in this state, including, but not limited to, Sections 110100, 110340, 110371, 110380, 110382, and 110407 and shall not violate this part.

(b)A hemp manufacturer shall not directly target advertising or marketing to children or to persons who are pregnant or breastfeeding.

(c)Advertising or marketing placed in broadcast, cable, radio, print, or digital communications shall only be displayed where at least 70 percent of the audience is reasonably expected to be 18 years of age or older, as determined by reliable, up-to-date audience composition data.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111926.2.

(a)An industrial hemp product that is a dietary supplement, food, or beverage shall not be distributed or sold in the state without packaging and labeling on the product that includes all of the following information:

(1)A label, scannable barcode, internet website, or quick response (QR) code linked to the certificate of analysis of the final form product batch by an independent testing laboratory that provides all of the following information:

(A)The product name.

(B)The name of the productsmanufacturer, packer, or distributor, and their address and telephone number.

(C)The batch number, which matches the batch number on the product.

(D)The concentration of cannabinoids present in the product batch, including, at minimum, total THC and any marketed cannabinoids or ingredient, as required by the department in regulation.

(E)The levels within the product batch of contaminants, as required in subdivision (c) of Section 111925.2.

(2)The product expiration or best by date, if applicable.

(3)A statement indicating that children or those who are pregnant or breastfeeding should avoid using the product prior to consulting with a health care professional about its safety.

(4)A statement that products containing cannabinoids should be kept out of reach of children.

(5)The following statement, THE FDA HAS NOT EVALUATED THIS PRODUCT FOR SAFETY OR EFFICACY.□

(b)The requirements of this section shall apply to products manufactured 90 days or more after the enactment of this section.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111926.3.

(a)An industrial hemp product that is a cosmetic shall not be distributed or sold in the state without packaging and labeling on the product that includes all of the following information:

(1)A label, scannable barcode, internet website, or quick response (QR) code linked to the certificate of analysis of the final form extract or the final form product batch by an independent testing laboratory that provides all of the following information:

(A)The product name.

(B)The name of the productsmanufacturer, packer, or distributor, and their address and telephone number.

(C)The batch number, which matches the batch number on the product.

(D)The concentration of cannabinoids present in the product batch, including, at minimum, total THC and any marketed cannabinoids.

(E)The levels within the product batch of contaminants, as required in subdivision (c) of Section 111925.2.

(2)The product expiration or best by date, if applicable.

(3)The following statement, THE FDA HAS NOT EVALUATED THIS PRODUCT FOR SAFETY OR EFFICACY.□

(b)The requirements of this section shall apply to products manufactured 90 days or more after the enactment of this section.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Industrial Hemp [111920 - 111929.4]__

(Chapter 9 added by Stats. 2021, Ch. 576, Sec. 10.)

__ARTICLE 8. Enforcement [111927 - 111927.4]__

(Article 8 added by Stats. 2021, Ch. 576, Sec. 10.)

111927.

(a)The department shall have the seizure and embargo powers provided for in Article 3 (commencing with Section 111860) of Chapter 7 with respect to industrial hemp products and raw extract.

(b)The department shall have the ability to recall industrial hemp products or raw extract that it determines to be dangerous to the public in the manner prescribed in Section 110806.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111927.2.

(a)In addition to the inspection authority provided elsewhere in this part, the department may inspect financial data, sales data, and personnel data, as needed to enforce this chapter.

(b)State, local, or law enforcement officials may review paperwork from those handling or transporting industrial hemp plant material, raw extract, intermediary industrial hemp product, or final finished product and take samples at any point along the supply chain to test that sample for verification.

(c)Upon inspection, if the industrial hemp plant material, raw extract, intermediary industrial hemp product, or final finished product does not meet the definition of industrial hemp, the state, local, or law enforcement official shall notify the department.

(d)(1)State, local, and law enforcement officials shall immediately notify the department of an arrest made for a violation over which the department has jurisdiction that involves a person authorized pursuant to this chapter.

(2)The department shall promptly investigate whether grounds exist for suspension or revocation of the authorization or if other actions are warranted under this part.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

111927.4.

Violations of this chapter are subject to the fines and penalties established in Article 1 (commencing with Section 111825) of Chapter 8.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021.)

__ARTICLE 9. Agency Coordination [111928- 111928.]__

(Article 9 added by Stats. 2021, Ch. 576, Sec. 10.)

111928.

(a)The Department of Food and Agriculture and the State Department of Public Health, in consultation with the Department of Cannabis Control, if necessary, shall develop a process to share license, registration,

cultivar, and enforcement information to facilitate compliance and enforcement against unlicensed manufacturers or the sale of industrial hemp that does not meet the requirements of this part.

(b)Communications shared between state agencies and local and law enforcement officials regarding license, registration, cultivar, and enforcement information of manufacturers and retailers of industrial hemp products and raw extract shall not be subject to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code) and shall be considered official information pursuant to Section 1040 of the Evidence Code.

(Amended by Stats. 2022, Ch. 28, Sec. 103. (SB 1380) Effective January 1, 2023.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 5. SHERMAN FOOD, DRUG, AND COSMETIC LAWS [109875 - 111929.4]__

(Part 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Industrial Hemp [111920 - 111929.4]__

(Chapter 9 added by Stats. 2021, Ch. 576, Sec. 10.)

__ARTICLE 10. Inhalable Products [111929 - 111929.4]__

(Article 10 added by Stats. 2021, Ch. 576, Sec. 10.)

111929.

Inhalable products shall not be sold to consumers under 21 years of age.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021. Conditionally operative as prescribed by Section 111929.4.)

111929.1.

A hemp manufacturer who produces inhalable products shall comply with this chapter and, to the extent applicable, with the provisions of this part.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021. Conditionally operative as prescribed by Section 111929.4.)

111929.2.

An inhalable product shall not contain any of the following:

(a)Flavorings other than natural terpenes.

(b)Polyethylene glycol (PEG).

(c)Vitamin E acetate.

(d)Medium chain triglycerides (MCT oil).

(e)Squalene or squalane.

(f)Any other substance that the department finds to be a danger to public health.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021. Conditionally operative as prescribed by Section 111929.4.)

111929.3.

The department may enter into a memorandum of understanding or other interagency agreement with another state agency to administer and enforce provisions of this chapter as they relate to inhalable products, including, but not limited to, testing provisions, advertising and labeling provisions, and the provisions relating to the manufacture and sale of inhalable products.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021. Conditionally operative as prescribed by Section 111929.4.)

111929.4.

This article shall become operative upon the effective date of a measure passed by the Legislature that establishes a tax on inhalable products and states the intent of the Legislature to fulfill the requirements of this section.

(Added by Stats. 2021, Ch. 576, Sec. 10. (AB 45) Effective October 6, 2021. Note: Operative provisions affect Article 10, commencing with Section 111929.)

111940.

(a) If any person violates any provision of Chapter 4 (commencing with Section 111950), Chapter 5 (commencing with Section 112150), Chapter 6 (commencing with Section 112350), Chapter 7 (commencing with Section 112500), Chapter 8 (commencing with Section 112650), Chapter 10 (commencing with Section 113025), or Article 3 (commencing with Section 113250) of Chapter 11 of this part, or Chapter 4 (commencing with Section 108100) of Part 3, or any regulation adopted pursuant to these provisions, the department may assess a civil penalty against that person as provided by this section.

(b) The penalty may be in an amount not to exceed one thousand dollars ($1,000) per day. Each day that a violation continues shall be considered a separate violation.

(c) If, after examination of a possible violation and the facts surrounding that possible violation, the department concludes that a violation has occurred, the department may issue a complaint to the person charged with the violation. The complaint shall allege the acts or failures to act that constitute the basis for the violation and the amount of the penalty. The complaint shall be served by personal service or by certified mail and shall inform the person so served of the right to a hearing.

(d) Any person served with a complaint pursuant to subdivision (c) of this section may, within 20 days after service of the complaint, request a hearing by filing with the department a notice of defense. A notice of defense is deemed to have been filed within the 20-day period if it is postmarked within the 20-day period. If a hearing is requested by the person, it shall be conducted within 90 days after the receipt by the department of the notice of defense. If no notice of defense is filed within 20 days after service of the complaint, the department shall issue an order setting the penalty as proposed in the complaint unless the department and the person have entered into a settlement agreement, in which case the department shall issue an order setting the penalty in the amount specified in the settlement agreement. When the person has not filed a notice of defense or where the department and the person have entered into a settlement agreement, the order shall not be subject to review by any court or agency.

(e) Any hearing required under this section shall be conducted pursuant to the procedures specified in Section 100171, except to the extent they are inconsistent with the specific requirements of this section.

(f) Orders setting civil penalties under this section shall become effective and final upon issuance thereof, and payment shall be made within 30 days of issuance. A copy of the order shall be served by personal service or by certified mail upon the person served with the complaint.

(g) Within 30 days after service of a copy of a decision issued by the director after a hearing, any person so served may file with the superior court a petition for writ of mandate for review of the decision. Any person who fails to file the petition within this 30-day period may not challenge the reasonableness or validity of the decision or order of the director in any judicial proceeding brought to enforce the decision or order or for other remedies. Section 1094.5 of the Code of Civil Procedure shall govern any proceedings conducted pursuant to this subdivision. In all proceedings pursuant to this subdivision, the court shall uphold the decision of the director if the decision is based upon substantial evidence in the whole record. The filing of a petition for writ of mandate shall not stay any corrective action required pursuant to the Miscellaneous Food, Food Facility, and Hazardous Substances Act, as defined in subdivision (b) of Section 27, or the accrual of any penalties assessed pursuant to this section. This subdivision does not prohibit the court from granting any appropriate relief within its jurisdiction.

(h) The remedies under this section are in addition to, and do not supersede, or limit, any and all other remedies, civil or criminal.

(Amended by Stats. 1999, Ch. 83, Sec. 115. Effective January 1, 2000.)

111945.

In addition to injunctive relief, the court may impose as a civil penalty, damages up to a maximum amount of one thousand dollars ($1,000) for each day the violation is continued. Damages shall be paid one-half to the State Treasury, and one-half to the county where the action is brought.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Wholesale Food Processors [111950 - 112130]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Food Processing Establishments [111950 - 112055]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

111950.

Food, as used in this chapter, includes all articles used for food, drink, confectionery, or condiment, whether simple or compound, and all substances and ingredients used in the preparation thereof.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111955.

Food processing establishment, as used in this chapter, shall mean any room, building, or place or portion thereof, maintained, used, or operated for the purpose of commercially storing, packaging, making, cooking, mixing, processing, bottling, canning, packing, slaughtering, or otherwise preparing or handling food except restaurants. Food processing establishment shall not include a cottage food operation that is registered or has a permit pursuant to Section 114365 or a microenterprise home kitchen, as defined in Section 113825.

(Amended by Stats. 2018, Ch. 470, Sec. 3. (AB 626) Effective January 1, 2019.)

111960.

Every food processing establishment shall be properly lighted, drained, plumbed, and ventilated; and shall be conducted with strict regard to the influence of lighting, drainage, plumbing, and ventilation upon the health of persons therein employed, and upon the purity and wholesomeness of the food therein produced, prepared for sale, manufactured, packed, stored, kept, handled, sold, or distributed.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111965.

The floors, side walls, ceiling, furniture, receptacles, utensils, implements, and machinery of every food processing establishment shall at no time be kept in an unclean, unhealthful, or unsanitary condition.

Any of the following is deemed to be an unclean, unhealthful, or unsanitary condition:

(a) If food in the process of manufacture, preparation, packing, storing, sale, or distribution is not securely protected from flies, dust, or dirt, and from all other foreign or injurious contamination.

(b) If refuse, dirt, and waste products subject to decomposition and fermentation incident to the manufacture, preparation, packing, storing, selling, and distributing of food, are not removed daily.

(c) If all trucks, trays, boxes, baskets, buckets, other receptacles, chutes, platforms, racks, tables, shelves, knives, saws, cleavers, and all other utensils, receptacles, and machinery used in moving, handling, cutting, chopping, mixing, canning, and all other processes employed in the preparation of food are not thoroughly cleaned daily.

(d) If the clothing of employees is unclean or if they dress, undress, or leave or store their clothing in the place where the food is produced, prepared, manufactured, packed, sold or distributed.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111970.

No live animal or fowl shall be kept or allowed in any establishment where food is prepared, manufactured, kept, stored, offered for sale or sold unless the establishment is exclusively devoted to the slaughter, processing and/or sale of the animal or fowl. This section does not apply to dogs used by uniformed employees of private patrol operators and operators of a private patrol service who are licensed pursuant to Chapter 11.5 (commencing with Section 7580) of Division 3 of the Business and Professions Code, while those employees are acting within the course and scope of their employment as private patrolmen.

The state department may adopt regulations as it determines are reasonably necessary under this section for the protection of the public health and safety.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111975.

The side walls and ceilings of every bakery, confectionery, hotel, or restaurant kitchen shall be well plastered or ceiled with metal or lumber, or shall be oil painted or kept well lime washed, or otherwise kept in a good sanitary condition.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111980.

All interior woodwork of every bakery, confectionery, hotel, or restaurant kitchen shall be kept well oiled or painted with oil paint, and shall be kept washed clean with soap and water, or otherwise kept in a good sanitary condition.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111985.

Every building, room, basement, or cellar occupied or used for the preparation, manufacture, packing, storage, sale, or distribution of food shall have an impermeable floor, made of cement, or of tile laid in cement, brick, wood, or other suitable, nonabsorbent material that can be flushed and washed clean with water.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111990.

Where practicable, the doors, windows, and other openings of every food producing or distributing establishment shall be fitted with stationary or self-closing screen doors and wire window screens, of not coarser than 14 mesh wire gauze.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

111995.

Every building, room, basement, or cellar occupied or used for the production, preparation, manufacture, packing, canning, sale, or distribution of food shall have convenient toilet or toilet-rooms, separate and apart from the room or rooms where the process of production, preparation, manufacture, packing, canning, selling, or distributing is conducted.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112000.

The floors of toilet-rooms shall be made of cement, or of tile laid in cement, wood, brick, or other nonabsorbent material, and shall be washed and scoured daily.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112005.

The toilets shall be furnished with separate ventilating pipes or flues discharging either into soil pipes or on the outside of the building in which they are situated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112010.

Lavatories and washrooms shall be adjacent to toilet-rooms and shall be supplied with soap, running water, and towels, and shall be maintained in a clean and sanitary condition.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112015.

Employees and others who handle the material from which food is prepared or the finished product shall before beginning work and immediately after visiting a toilet or lavatory, wash their hands and arms thoroughly in clean water.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112020.

No employee or other person shall sit or lie upon any table, bench, trough, shelf, or other equipment that is intended for use in connection with any food manufacturing process.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112025.

No employee or other person shall expectorate or discharge any substance from his or her nose or mouth on the floor or interior side wall of any building, room, basement, or cellar where the production, preparation, manufacture, packing, storing, or sale of any food is conducted.

(Amended by Stats. 2006, Ch. 538, Sec. 426. Effective January 1, 2007.)

112030.

No person shall, nor shall any person be allowed to, reside or sleep in any room of a bake-shop, public dining room, hotel or restaurant kitchen, confectionery, or other place where food is prepared, produced, manufactured, served, or sold.

(Amended by Stats. 2006, Ch. 538, Sec. 427. Effective January 1, 2007.)

112035.

No employer shall require or permit any person to work, in a food processing establishment or vehicle used

for the production, preparation, manufacture, sale, or transportation of food if the person is infected with any contagious, infectious, or communicable disease that can be transmitted by the food involved.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112040.

(a) Prior to January 1, 2001, the department, its inspectors and agents, and all local health officers and inspectors may at all times enter any building, room, basement, cellar, or other place occupied or used, or suspected of being occupied or used, for the production, preparation, manufacture, storage, sale, or distribution of food, and inspect the premises and all utensils, implements, receptacles, fixtures, furniture, and machinery used.

(b) Commencing January 1, 2001, only the department, its inspectors and agents, and the local health officers and inspectors of Los Angeles, San Bernardino, and Orange Counties and the City of Vernon may exercise the authority to enter and inspect granted in subdivision (a) except as provided in subdivision (c).

(c) Commencing January 1, 2001, the local health officer or inspector of each city or county, or city and county may exercise the authority to enter and inspect granted in subdivision (a) for the sole purpose of inspecting a food processing establishment that only holds or warehouses processed food, provided that:

(1) The warehouse does not manufacture or pack processed food.

(2) The warehouse does not hold fresh seafood, frozen seafood held in bulk for further processing, or fresh or frozen raw shellfish.

(3) The warehouse is not operated as an integral part of a food processing facility required to be registered pursuant to Section 110460.

(4) The warehouse facilities are located entirely within the area under the jurisdiction of the local health department.

(5) The warehouse does not salvage food as the primary business.

(d) All inspections of food processing establishments conducted by local health departments shall be reported to the department within 60 days. The department shall consider this information when scheduling the departmentsinspection activities.

(Amended by Stats. 2000, Ch. 135, Sec. 104. Effective January 1, 2001.)

112045.

If upon inspection any building, room, basement, cellar, or other place, or any vehicle, employer, employee, or other person is found to be in violation of or violating any of the provisions of this article, or if the production, preparation, manufacture, packing, storing, sale, or distribution of food is being conducted in a manner detrimental to the health of the employees or to the character or quality of the food being produced, prepared, manufactured, packed, stored, sold, distributed, or conveyed, the person making the

inspection shall at once make a written report of the violation to the district attorney of the county, who shall prosecute the violator. He or she shall make a like report to the department. The department, from time to time, may publish the reports in its monthly bulletin.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112050.

Every building, room, basement, cellar, or other place or thing kept, maintained, or operated in violation of this article, and all food produced, prepared, manufactured, packed, stored, kept, sold, distributed, or transported in violation of this article, is a public nuisance dangerous to health. Any such nuisance may be abated or enjoined in an action brought for that purpose by the local or state department or may be summarily abated in the manner provided by law for the summary abatement of public nuisances dangerous to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112055.

The sections contained in this article are to be known as the California Food Sanitation Act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Wholesale Food Processors [111950 - 112130]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Food Containers [112060 - 112120]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

112060.

Bottle, as employed in this article, includes any bottle or any glass or crockery food container, other than one not previously used, that is used or sold for use in the manufacture, production, preparation, compounding, blending, or packing for sale of any food, drug, or liquor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112065.

This article is not applicable to containers subject to Division 15 (commencing with Section 32501) of the Food and Agricultural Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112070.

The provisions of this article in reference to sterilization procedures and methods in cleaning bottles, as in this article defined, shall apply to all persons cleaning previously used bottles who are engaged in the business of packaging food, drugs, or liquors and to all persons maintaining a place of business for the cleaning and resale of the bottles sold for and to be used for packing a food, drug or liquor.

The sale for use of any such bottle by any person not licensed by the board as herein provided, when the use intended by purchaser is to package for sale a food, drug or liquor produced or packaged by the purchaser is unlawful, except in the case of a sale to a purchaser for export out of this state or who is engaged in the business of packaging food, drugs, or liquors at a fixed place of business in this state and is equipped to cleanse and sterilize bottles as in this article provided.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112075.

The department shall issue a license to an applicant therefor upon the receipt of the evidence as the department may require showing that the applicant is properly equipped for the cleansing and sterilization of bottles as provided in this article, or at its option upon the recommendation of a city, county or city and county health officer. This license is nontransferable.

The license provisions of this article shall not apply to food, drug or liquor manufacturers or packers who buy bottles for their own use and purposes, but do apply to any other person, firm or corporation engaged in the business of cleaning, sterilizing and reselling bottles to manufacturers or packers except as hereinabove provided.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112080.

An establishment is deemed properly equipped for the cleansing and sterilization of bottles if it maintains and employs the following standards:

(a) Cleanses and sterilizes bottles by first soaking them in a hot caustic solution of not less than 120 degrees F. for a period of not less than five minutes which temperature shall be indicated by a thermometer. The solution shall contain not less than 2 1/2 percent of caustic soda expressed in terms of sodium hydrates.

(b) Changes the cleansing solution frequently so as to prevent its becoming foul and insanitary.

(c) Thoroughly rinses the bottles after the soaking.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112085.

All bottles shall be cleansed and sterilized as specified in Section 112080, and shall be kept free from rust or contamination.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112090.

A licensee shall issue a certificate of sterilization with each shipment of bottles to a purchaser, stating that the licensee has cleansed and sterilized the bottles in the manner required by this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112095.

If any licensee fails to maintain his or her equipment and to cleanse or sterilize any bottle in the manner required by this article, and issues a certificate knowing its contents to be untrue the state department may revoke or suspend his or her license after a hearing. The proceedings for the revocation or suspension of a license shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the state department shall have all the powers granted therein.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112100.

Any purchaser of a bottle who shows a certificate of sterilization signed by a licensed seller thereof complies sufficiently with this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112105.

Nothing in this article prohibits the sale for use of any uncleansed or unsterilized bottle to a purchaser who is licensed under this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112110.

Food containers manufactured from second-hand tin plate and intended for the packing of hermetically sealed canned food products intended to be used for human consumption shall not be so used unless the tin plate from which they are manufactured has, prior to their manufacture, been cleansed and sterilized by thorough immersion in boiling water, and then dried on hot rolls or by the use of heated air.

The board may inspect any place where the containers are manufactured for the purpose of enforcing this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112115.

This article, with the exception of any licensing provisions, may be enforced by any local enforcement division, which shall be construed to mean the local health department, headed by the duly appointed, qualified and acting health officer of any county, city or city and county. The territory may include one or more counties, cities, or cities and counties.

(Amended by Stats. 1999, Ch. 915, Sec. 20. Effective January 1, 2000.)

112120.

A nonalcoholic soft drink, whether or not carbonated, shall be deemed to be misbranded if in a bottle or other closed container unless the name and address of the bottler or distributor thereof appears on the container by being molded, printed, or otherwise labeled thereon, or the name and address is shown on the crown or cap of the container if the container is a permanently and distinctively branded bottle. The beverage shall not be deemed to be misbranded under this section if in a bottle or other closed container on which is molded, printed or otherwise labeled the product name, trademark or brand of the distributor or bottler thereof and if a sworn affidavit has been filed with the department stating the name, trademark, or brand of the beverage, a full and complete description of each territory or area of the state in which the beverage is to be distributed, and the names and addresses of the persons as are responsible for the Miscellaneous Food, Food Facility, and Hazardous Substances Act (Section 27) in the bottling and distribution of the beverage in each territory or area of the state in which the beverage is distributed. Nothing in this section shall be deemed to exempt any bottler or distributor of a beverage or beverages from any provision of Part 5 (commencing with Section 109875).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112150.

The Legislature finds and declares that the public health interest requires that the people of this state be protected from adulterated shellfish grown and harvested in state waters for sale to the public and for introduction into interstate commerce. This protection is a matter of statewide concern and the purpose of this chapter is to establish uniform sanitation standards for the growing waters, harvesting, shucking, packing, repacking, and handling of shellfish and shellstock intended for human consumption.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112155.

Unless the context otherwise requires, the definitions set forth in this article govern the construction of this chapter.

(a) Shellfish means native or nonnative bivalve mollusks, which include oysters, rock scallops, clams, and mussels, either fresh or frozen, and either shucked or in the shell.

(b) Shellstock means shellfish which remain in their shells.

(c) Growing area means any offshore ocean, coastal estuarine, or freshwater area that may be classified by the department for natural shellfish growth or artificial shellfish propagation and includes open seawater systems.

(d) Approved area means a shellfish-growing area not adversely affected by sewage or other wastes.

(e) Conditionally approved area means a shellfish-growing area that may be occasionally affected by sewage or other wastes.

(f) Prohibited area means a shellfish-growing area not certified because of its proximity to a waste discharge or because the area is influenced by other detrimental environmental factors.

(g) Restricted area means a shellfish-growing area subjected to a limited degree of pollution which makes it unsafe to harvest shellfish for direct marketing but where harvesting for relaying or depuration may be permitted.

(h) Other wastes means wastes, such as, but not limited to, animal, industrial, radiological, and agricultural wastes which would render shellfish unsafe or unfit for human consumption.

(i) Department means the State Department of Health Services.

(j) Director means the State Director of Health Services.

(k) Person includes any individual, partnership, corporation, limited liability company, and association.

(l) Closed area means an area that the shellfish taken therefrom have been declared to be unsafe or unfit for human consumption.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Sanitary Control of Shellfish [112150 - 112280]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. General Requirements [112160 - 112230]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

112160.

(a) The director may declare any area within the jurisdiction of this state to be a closed area if it is determined that shellfish taken from the growing area may be unsafe or unfit for human consumption.

(b) The director shall close to the taking of shellfish for a period deemed advisable any waters to which shellfish from a closed area may have been transferred.

(c) The director shall establish by order the areas that he or she declares unsafe or unfit for shellfish harvesting and shall modify or revoke the order in accordance with the results of chemical, toxicologic, and bacteriological surveys conducted by the department. The director shall file the order in the office of the department, and shall furnish copies of the orders describing closed areas to the Department of Fish and Game, the State Water Resources Control Board, and to any interested person without charge.

(d) Prior to the directorsdeclaration that shellfish-growing waters may be unsafe and shellfish grown in these waters may not be taken for human consumption, the department shall do all of the following:

(1) Give at least 20 days™ notice of its intended action. The notice shall include a statement of either the terms or substance of the intended action or a description of the subject and issues involved, and the time when, the place where, and the manner in which, interested persons may present their views thereon.

(2) Afford all interested persons reasonable opportunity to submit data, views, or arguments orally or in writing. The department shall consider fully all written and oral submissions respecting the proposed action.

(e) If the department finds that the shellfish harvested from an area is unsafe or unfit for human consumption and states in writing its reasons for that finding, it may proceed without prior notice or hearing to take emergency action. The action may be effective for a period of not longer than 30 days, during which time the department shall initiate the procedures contained in subdivision (d).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112165.

(a) The department shall adopt regulations regarding all of the following:

(1) The classification and minimum requirements for growing and harvesting areas, for relaying and depuration procedures, and for aquaculture facilities that are used for the cultivation and production of shellfish.

(2) Specifications for plant facilities and for the harvesting, transporting, storing, handling, packing, and repacking of shellfish.

(3) Fees.

(b) The department shall adopt regulations by January 1, 1999, to interpret and enforce the provisions of this chapter. The regulations shall be adopted by the department in the manner prescribed by Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) The regulations shall conform, so far as possible, to the standards or procedures established in the guidelines adopted by the National Shellfish Sanitation Program that pertain to the evaluation of shellfish-growing areas and handling facilities, but shall provide for regulating other wastes or contaminants not covered by the guidelines adopted by the National Shellfish Sanitation Program that would render shellfish unsafe or unfit for human consumption. If the department adopts standards or procedures that exceed standards or procedures established in the guidelines adopted by the National Shellfish Sanitation Program, the department shall provide a written finding describing the public health need for those standards and procedures in the rulemaking process.

(Amended by Stats. 1997, Ch. 236, Sec. 1. Effective January 1, 1998.)

112170.

(a) The director, or the directorsduly authorized agent, shall conduct sanitary surveys of any shellfish growing water as deemed necessary to assure each of the following:

(1) Any shellfish grown in the water is safe as an article of food and meets bacteriological, chemical, and toxicologic standards as prescribed by regulation.

(2) Any shellfish grown in prohibited or restricted areas is either relayed to or depurated in approved water for a period of time as necessary to meet bacteriological, chemical, and toxicologic standards, as prescribed by regulation.

(3) For good cause shown, a shellfish grower or harvester may request the resurvey of restricted or unapproved growing water, and the director, or the directorsduly authorized agent, shall conduct the sanitary resurvey.

(b) If it is found that the shellfish and growing water are in compliance with the regulations promulgated under this chapter, the director shall issue a certificate attesting to the compliance to the lawful grower or harvester of the shellfish.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112175.

It is unlawful for any person to engage in commercial shellfish cultivation or the harvesting for human consumption of shellfish from naturally occurring populations, except as provided for in Sections 5670, 7850, 8500, and 15101 of the Fish and Game Code and in regulations adopted by the department pursuant to this chapter, with regard to growing areas, relaying and depuration procedures, and aquaculture facilities.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112180.

The director, or the directorsduly authorized agent, may, at any reasonable hour of the day, do any of the following:

(a) Enter and inspect any facility or area used for cultivation, production, depuration, processing, transporting, or sale of shellfish.

(b) Obtain samples of water and shellfish. Upon request, split samples shall be given to the person from whose property the samples were obtained.

(c) Inspect all shellfish plants and the practices followed in the handling and packaging of shellfish. If it is found that the operator is complying with the regulations promulgated under this chapter, the director shall issue a certificate attesting to the compliance.

(d) Cause a reinspection to be made at any time and may revoke the certificate upon refusal of the operator to permit an inspection or free access at all reasonable hours, or upon a finding that the plant is not being operated in compliance with the regulations promulgated under this chapter.

(e) No revocation, suspension, annulment, or withdrawal of any certificate is lawful unless, prior to the institution of department proceedings, the department gave notice by mail, to the certificate holder, of facts or conduct that warrants the intended action, and the certificate holder was given an opportunity to show compliance with all lawful requirements for the retention of the certificate, pursuant to Section 112265. This section does not preclude the department from taking immediate action in accordance with subdivision (e) of Section 112160.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112185.

It is unlawful for any person to take, sell, offer, or hold for sale any shellfish from an area declared by the director to be unsuitable for harvesting for human consumption, without complying with all regulations adopted by the department to ensure that the shellfish have been purified.

The intent of this section is not to prohibit the transplanting of shellfish from restricted or prohibited growing areas, if permission for the transplanting is first obtained from the Department of Fish and Game pursuant to Section 237 of Title 14 of the California Code of Regulations.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112190.

It is unlawful for any person to sell, offer, or hold for sale any shellstock or shucked shellfish that has not been harvested from a growing area which has been certified by the department or that has not been purified in accordance with Section 112170.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112195.

It is unlawful for any person to sell, offer, or hold for sale any shellstock or shucked shellfish that has not been handled and packaged in accordance with specifications under this chapter, and regulations adopted pursuant to this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112200.

It is unlawful for any person to sell, offer, or hold for sale any shellfish where the facilities for packaging and handling of the shellfish do not comply with regulations adopted by the department under this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112205.

It is unlawful for any person to operate a shellfish plant engaged in the handling and packaging of shellfish, either shucked or in the shell, without a valid certificate issued by the department for each plant or place of business.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112210.

It is unlawful for any person to sell, offer, or hold for sale any shellstock or shucked shellfish without a label that bears a valid certificate number and is in compliance with Chapter 4 (commencing with Section 110290)

of Part 5.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112215.

It is unlawful for any person to sell, offer, or hold for sale any shellfish not in a container bearing a valid certificate number from a state or a nation whose shellfish certification program conforms to the then current Manual of Recommended Practice for Sanitary Control of the Shellfish Industry, issued by the United States Public Health Service.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112220.

The provisions of Sections 112210 and 112215, with respect to labeling requirements, shall not apply to any of the following:

(a) Shellstock held in dry storage under refrigerated conditions not for shipment or sale.

(b) Shellstock sold on premises when the sale is the ultimate point of sale.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112225.

Any shellfish that are held or offered for sale at retail or for human consumption, and that have not been handled and packaged in accordance with the specifications fixed by the department under this chapter, or that are not in a certified container as provided in Sections 112210 and 112215, or that are otherwise found by the director to be unfit for human consumption, are subject to immediate condemnation, seizure, and confiscation by the director or the directorsduly authorized agent. The shellfish shall be held, destroyed, or otherwise disposed of as directed by the director.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112230.

The director may suspend or revoke any certificate issued pursuant to this chapter for any violation of this chapter or the regulations adopted pursuant thereto.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__ARTICLE 4. Penalties [112240 - 112245]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

112240.

Any person who willfully violates any provision of this chapter, or any regulation adopted pursuant to this chapter, is guilty of a misdemeanor and shall, if convicted, be subject to imprisonment for not more than six months in the county jail or a fine of not less than one hundred dollars ($100) nor more than five hundred dollars ($500), or both. If the violation is committed after a previous conviction under this section that has become final, or if the violation is committed with the intent to defraud or mislead, the person shall be subject to imprisonment for not more than one year in the county jail or a fine of not more than one thousand dollars ($1,000), or both.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112245.

One-half of all fines collected by any court or judge for any violation of any provision of this chapter shall be paid into the State Treasury to the credit of the General Fund.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Sanitary Control of Shellfish [112150 - 112280]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. Proceedings [112250 - 112280]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

112250.

(a) The Attorney General, any district attorney, or any city attorney to whom the department reports any violation of this chapter shall begin appropriate proceedings in the proper court.

(b) Before any alleged violation of this chapter is reported to the Attorney General, a district attorney, or a city attorney for the institution of a criminal proceeding, the person against whom this proceeding is contemplated may be given appropriate notice and an opportunity to show cause why he or she should not be prosecuted and to present additional facts that may mitigate the action. The showing may be presented either orally or in writing, in person, or by attorney.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112255.

The department is not required to institute proceedings under this chapter for minor violations of this chapter, if the department believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112260.

When the state asserts a violation of this chapter, the state need not negate any exemption or exception from the requirements of this chapter in any pleading, or in any trial, hearing, or other proceeding. The burden of proof with respect to any exemption or exception rests upon the person claiming its benefits.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112265.

(a) Except to the extent otherwise provided in Section 112160 and subdivision (e) of Section 112180, or when a violation is asserted pursuant to Section 112240, when the department asserts a violation of this chapter, all affected persons shall be afforded an opportunity for an administrative hearing after 20 days notice.

(b) The notice shall include all of the following:

(1) A statement of the time, place, and nature of the hearing.

(2) A statement of the legal authority and jurisdiction under which the hearing is to be held.

(3) A reference to the particular sections of the statutes, regulations, and rules involved.

(4) A short and plain statement of the matters asserted.

(c) Opportunity shall be afforded all persons to respond and present evidence on the issues involved.

(d) Hearings authorized or required by this chapter shall be conducted by the department or any agent as the department may designate for that purpose.

(e) Oral proceedings or any part thereof shall be transcribed at the request of any person. The person requesting the transcription shall bear the cost of the transcript.

(f) Final decisions or orders adverse to any person shall be in writing or stated in the record. A final decision shall include findings of fact and conclusions of law, that shall be separately stated. Persons shall be notified either personally or by mail of any decision or order.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112270.

In lieu of administrative proceedings pursuant to Section 112265, the department may proceed under Section 119940.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112275.

A person who has exhausted all administrative remedies available within the department and who is aggrieved by a final decision or order is entitled to judicial review pursuant to this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112280.

All regulations applicable to this chapter, and currently in effect at the time this chapter takes effect, shall remain in effect until the department adopts regulations pursuant to Section 112165.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Cold Storage [112350 - 112495]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Definitions and General Provisions [112350 - 112380]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

112350.

Unless the context otherwise requires, the definitions set forth in this article govern the construction of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112355.

Cold storage means a place artificially refrigerated to a temperature above zero of 45 degrees Fahrenheit or below. It does not include any place where food that is privately owned and not held for resale is stored inside of lockers or compartments that are not more than 25 cubic feet in capacity, and which lockers or compartments are leased to private individuals for their exclusive use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112360.

Cold stored means the keeping of articles of food in cold storage for a period exceeding ten days.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112365.

Article of food means any article of food used for human consumption. It includes fresh meat and fresh meat products (except in process of manufacture), fresh and dried fruit or vegetables, fish, shellfish, game, poultry, eggs, butter, and cheese, but not malt beverages.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112370.

Storer means a person who offers articles of food for cold storage.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112375.

This chapter does not apply to any cold storage or refrigerating plant or warehouse that is maintained or operated by a restaurant, hotel, exclusively wholesale or retail establishment, cannery, winery, brewery, or other food processing place that is used for the storage of food and which place is owned by or is for the exclusive use of the occupant owner or maintainer thereof, and said food is not stored for other persons.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112380.

The term locker plant as used in this chapter shall mean any building or portion thereof that is artificially cooled to or below a temperature above zero of 45 degrees Fahrenheit and used exclusively for the storage of any article of food for the sole use of the storer, and that article or articles of food are not for resale.

If any article or articles of food stored in locker plants are for resale and/or to be used for manufacturing purposes, said locker plant is subject to the license provisions of this chapter and all sections thereof.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Cold Storage [112350 - 112495]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Licenses [112385 - 112410]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

112385.

Any person desiring to operate a cold storage or refrigerating warehouse for storing articles of food shall make application in writing to the board for a license for that purpose, stating the location of his or her plant or plants. For the purpose of securing the proper enforcement of this chapter, those buildings or structures that are served by a central refrigerating plant shall be considered as one cold storage or refrigerating warehouse or plant, and subject to one license.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112390.

On receipt of the application the board shall examine into the sanitary condition of the plant.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112395.

If it finds the plant to be in a sanitary condition and otherwise properly equipped for the business of cold storage, the state department, upon the payment of the license fee specified in this chapter, shall issue a license authorizing the applicant to operate a cold storage or refrigerating warehouse for a period of not more than one year.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112400.

No person, firm, or corporation shall engage in the operation of a cold storage or refrigerating warehouse for storing articles of food without having obtained from the state department a license for each such place of business. This license is nontransferable.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112405.

Each application for a license under this chapter shall be accompanied by a fee of fifty dollars ($50). Each license issued under this chapter shall expire on December 31st of each calendar year. License fees of fifty dollars ($50) are due on the first of January of each year. The fee for licenses initially issued after January 1st of each year shall not be prorated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112410.

The director shall keep a full and correct account of all fees received under this chapter. At least once each month he or she shall deposit all the fees with the Treasurer for credit to the General Fund.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__CHAPTER 6. Cold Storage [112350 - 112495]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Licensee Regulations [112415 - 112430]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

112415.

If any place or portion of a place for which a license is issued is deemed by the department to be in an unsanitary condition, the department shall give written notification to the licensee of the condition, stating in particular the matters found to be unsanitary.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112420.

Upon failure of the licensee to correct the situation within a designated time the department shall prohibit the licensee from using the place or specified portion until such time as it is restored to a sanitary condition.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112425.

Every licensee shall keep an accurate record of receipts and withdrawals of articles of food, and the department shall have free access to these records at any time.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112430.

When requested by the department or an agent thereof, any licensee shall within a reasonable time submit a report setting forth in itemized particulars the quantity of food products held by him or her in cold storage.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Cold Storage [112350 - 112495]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. General Regulations [112435 - 112490]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

112435.

No storer shall place in cold storage any article of food whose keeping qualities have been impaired by disease, taint, or deterioration, or that has not been slaughtered, handled, and prepared for storage in accordance with food laws pertaining thereto and the regulations as may be prescribed by the state department for the sanitary preparation of food products for cold storage.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112440.

Any article of food intended for use other than human consumption shall, before being cold stored, be marked by the owner in accordance with forms prescribed by the department in a way as to indicate plainly that the article is not to be sold for human food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112445.

Each separate lot of food, when deposited in cold storage, shall be marked plainly with the lot number covering that particular lot of articles of food indicated and recorded on the records maintained on the premises.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112450.

The department shall inspect and supervise all cold storage or refrigerating warehouses, and make the inspection of the entry of articles of food therein as it deems necessary to secure the proper enforcement of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112455.

The department and its duly authorized employees shall be permitted access to cold storage or refrigerating warehouses at all reasonable times for purposes of inspection and enforcing this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112460.

The department may also appoint at the salary as it may designate, any person it deems qualified to make any inspection required by this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112465.

No person shall keep any article of food in cold storage for more than twelve calendar months, except with the consent of the board. Thirty days prior to the expiration of the 12-month period, the licensee shall send notice to the board advising them of this fact. Duplicate notice shall be sent to the owner of the food.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112470.

The department shall, upon application, grant permission to extend the period of storage beyond 12 months for a particular consignment of goods, if the goods in question are found, upon examination, to be in proper condition for further storage at the end of 12 months. The length of time for which further storage is allowed shall be specified in the order granting the permission.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112475.

For the purpose of determining whether or not food locker plants come under the provisions of this chapter, the operators or owners of all such frozen food locker plants shall make available, upon request to any agent of the department, the names and addresses of any and all persons, firms, or corporations renting, leasing, or occupying the lockers or compartments.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112480.

Unless otherwise permitted by this article, it is unlawful to represent or advertise as fresh goods articles of food that have been placed in cold storage. This section shall not apply to vegetables, fruit or other foods sold as fresh frozen and so labeled, when stored at or below zero degrees Fahrenheit, or to eggs held in cold storage for 30 days or less.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112485.

It is unlawful to return to cold storage any article of food that has once been released from such storage and placed on the market for sale to consumers. However, nothing in this section prevents the transfer of goods from one cold storage or refrigerating warehouse to another, if the transfer is not made for the purpose of evading any provision of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112490.

The department may make regulations to secure the proper enforcement of this chapter, including regulations with respect to the sanitary preparation of articles of food for cold storage, the use of marks, tags, or labels, and the display of signs.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__ARTICLE 5. Violations [112495- 112495.]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

112495.

Any person violating any of the provisions of this chapter, or any rule or regulation issued pursuant to this chapter, shall upon conviction be punished for the first offense by a fine not exceeding one thousand dollars ($1,000) or by imprisonment for not more than 90 days, or by both. The punishment for a second offense is the same, except that the maximum fine is two thousand dollars ($2,000).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=6.&chapter=7.&article=

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Frozen Foods [112500 - 112635]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 6.)

112500.

When used in this chapter, unless the context otherwise requires:

(a) Food means any article used by man for food, drink, confectionery or condiment, or which enters into the composition thereof, whether simple, blended, mixed or compounded.

(b) Locker means the individual sections or compartments of a capacity of not to exceed 25 cubic feet in the locker room of a frozen food locker plant.

(c) Frozen food locker plant means an establishment in which space in the individual lockers is rented, leased, or loaned to individuals, firms, or corporations, for the storage of food for their own use and which is artificially cooled for the purpose of preserving the food. The term includes service locker plant, storage

locker plant, and branch locker plant.

(d) Service locker plant means a frozen food locker plant in which patrons™ foods are prepared or packaged by the operator of the plant before the foods are placed in the lockers for storage.

(e) Storage locker plant means a frozen food locker plant, the operator of which does not prepare or package the foods of patrons.

(f) Branch locker plant means a frozen food locker plant in any location or establishment artificially cooled in which space in individual lockers is rented, leased, or loaned to individuals, firms, or corporations for the storage of food for their own use after preparation for storage in a central or parent plant.

(g) Frozen means food frozen in a room or compartment in which the temperature is plus 5 degrees Fahrenheit or lower.

(h) Temperature means the average air temperature in refrigerated rooms.

(i) Department means the State Department of Health Services.

(j) Operator means any person, firm or corporation operating or maintaining a frozen food locker plant.

(k) Processor means an establishment in which, for compensation directly or indirectly, meat or meat products are cut, wrapped, or frozen to be delivered for frozen storage by the ultimate consumer.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112505.

No person hereafter shall engage within this State in the business of operating any frozen food locker plant without having applied for and obtained from the director of the department a license for each such place of business. Applications for the license shall be made in writing to the director of the department, on the forms and with the pertinent information as he or she may deem necessary. These licenses shall be granted promptly as a matter of right unless conditions exist that are grounds for denial of a license, as hereinafter set forth.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112510.

The annual license fee for a frozen food locker plant shall be twenty-five dollars ($25). Such fees shall be paid into the General Fund.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112515.

Upon receipt of the application for a license accompanied by the required fee, the department shall promptly inspect the plant to be licensed and shall issue a license; provided, the plant, its equipment, facilities and its surrounding premises, and its operations comply with this chapter and regulations pertaining to this chapter. The department shall inspect all frozen food locker plants licensed under this chapter, whenever the department considers the inspection necessary. The department and its representatives shall have access to the plants at all reasonable times for the purpose of making inspections.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112520.

The license issued hereunder shall be in a form as the department shall prescribe and shall be under the seal of the department and shall set forth the name of the licensee, the location for which the license is issued, the period of the license and other information as the department may determine. Licenses shall be for a term of one calendar year and shall be renewed annually. The license is nontransferable. The original license or a certified copy thereof shall be conspicuously displayed by the licensee in the locker plant for which the license is issued.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112525.

The floors, walls and ceilings of frozen food locker plants shall be of a construction and finish that they can be conveniently maintained in a clean and sanitary condition. The lockers in any plant shall be so constructed as to protect the contents from contamination, deterioration or injury. Lockers with perforated bottoms shall be provided with a suitable unperforated liner or tray.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112530.

Any frozen food locker plant using a toxic gas refrigerant shall have at least one gas mask of a type approved by the department and shall keep the same where it will be readily accessible.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112535.

All rooms of a frozen food locker plant shall at all times be maintained in a clean and sanitary condition. All equipment and utensils shall be cleaned when put into use and shall be thoroughly cleaned after each daysuse and shall be so stored or protected as not to become contaminated. Lockers shall be thoroughly cleaned before they are leased or put into the possession of any patron. The premises and surroundings of

the plants shall be maintained in a clean and sanitary condition. The food stored shall be protected from filth, flies, dust, dirt, insects, vermin and any other contamination and from any unclean or filthy practice in the handling thereof or caring therefor. No food shall be stored in a condition or in a manner as to cause injury to or deterioration of articles of food in adjacent lockers.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112540.

Frozen food locker plants shall have an ample water supply readily available and the water that comes in contact with any food product or the equipment shall be uncontaminated. Such plants shall be provided with adequate toilet facilities so located as to be readily accessible to employees and equipped with adequate washing fixtures or have such fixtures or facilities convenient thereto and shall be supplied with running water, single soap and single towel service. The doors of all toilet rooms shall be full length and self-closing and no toilet room shall open directly into any room in which foods are prepared, processed, chilled, frozen or stored. Toilet facilities and rooms shall be kept in a clean and sanitary condition.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112545.

The director shall publish and declare reasonable regulations as are consistent with the enforcement of the provisions of this chapter providing for adequate cleanliness and sanitation to protect public health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112550.

The refrigeration system for a frozen food locker plant shall be equipped with reliable controls for the maintenance of uniform temperatures as required in the various refrigerated rooms and shall be of adequate capacity to provide under extreme conditions of outside temperature and activity of the plant, the following temperatures in the several rooms, respectively:

(a) In pre-cool, chill, or aging rooms, temperatures shall be commensurate with good commercial practice.

(b) In locker rooms, temperature shall not exceed plus five (5) degrees Fahrenheit, with customary commercial variations.

The foregoing temperatures shall not be construed as prohibiting variations therefrom as may occur during short periods of time incidental to operating conditions beyond the control of the operator.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112555.

Any processor, prior to delivery to the consumer, shall quick-freeze all meat or meat products in a blast-type freezing room at zero degrees Fahrenheit with one side of the package exposed to circulated air, or in a still-air-type freezing room at a minimum of minus 10 degrees Fahrenheit with one surface side of each package in direct contact with coils of a freezing plate. This section shall not apply to the sale of retail cuts of meat sold over the counter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112560.

Thermometers in good order shall be provided in all rooms held under low temperature at locations therein that will reflect true storage temperatures of foods in the rooms.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112565.

No frozen food locker plant shall be licensed under this chapter unless the following facilities are provided:

Sufficient chill or aging room space, freezing facilities, locker room, and facilities for cutting, preparing, wrapping and packaging meats and meat products, except that storage locker plants and branch locker plants need install only locker room facilities as specified in Section 112550.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112570.

A branch plant may be operated only in conjunction with a parent locker plant that shall have processing facilities sufficiently large for the locker plant and all branch plants.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112575.

Storage of fish and game by patrons shall comply with federal and state fish and game laws. All pertinent abstracts of state and federal fish and game regulations shall be furnished by the department and shall be conspicuously displayed in the locker plant.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112580.

Every operator of a frozen food locker plant, shall keep a record showing names and addresses of renters of lockers and the records shall be available for examination by the Director of Food and Agriculture or his or her representatives, or the department or its representatives, during business hours of the plants.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112585.

Only food for human consumption, or clean, sanitary byproducts therefrom to be used for food, shall be stored in the frozen food locker plant. Each package of food wrapped and frozen for storage shall be labeled designating the product and identifying the processor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112590.

The person owning or operating a frozen food locker plant shall have a lien upon all property therein for all charges due from the owner of the property. The lien may be secured and enforced in the same manner as warehousemensliens are secured and enforced.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112595.

Operators of frozen food locker plants operating solely as such shall not be construed to be warehousemen or public utilities, nor shall receipts or other instruments issued by those persons in the ordinary conduct of their locker business be construed to be warehouse receipts or subject to the laws applicable thereto.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112600.

Cold storage or refrigerating warehouses subject to Chapter 6 (commencing with Section 112350) shall be exempt from the licensing provisions of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112605.

The licensing provisions of this chapter shall not apply to retail premises in which individual frozen food lockers are not rented, leased, loaned, or otherwise furnished to individuals, firms or corporations, or processors.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112610.

The department, after notice and hearing, may revoke the license issued for any frozen food locker plant for failure to comply with the provisions of this chapter. The proceedings under this section shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted therein.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112615.

In the event the director suspends or revokes any license, the licensee may obtain judicial review of the order by filing a petition for a writ of mandate in accordance with the Code of Civil Procedure in the superior court of the county in which the licensed premises are located within thirty (30) days from the date notice in writing of the directorsorder revoking or suspending the license has been served upon said licensee.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112620.

The liability of the owner or operator of lockers for loss of goods in lockers or in the ownersor operatorscare shall be limited to negligence of the owner or operator or his or her employee.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112625.

Upon the signed petition of at least 25 owners or operators of frozen food locker plants licensed under this chapter, the director shall within 10 days after receipt of said petition, cause to be held at places and at times as he or she may provide, a public hearing for the purpose of gathering facts and data for the revision, correction or amendment of any rule or regulation issued pertaining to this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112630.

This chapter shall be known as the Frozen Food Locker Plant Act of 1951.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112635.

Any person who violates any of the provisions of this chapter is guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than fifty dollars ($50) nor more than one thousand dollars ($1,000), or by imprisonment in the county jail for a term not exceeding six months, or by both the fine and imprisonment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Canneries [112650 - 112855]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Definitions and Scope [112650 - 112680]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

112650.

State board, or State Board of Public Health, as used in this chapter, means the State Department of Health Services.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112655.

Meat or meat products as used in this chapter, means any meat or meat product or poultry or poultry product that is not subject to the inspection of the Bureau of Meat Inspection or the Bureau of Poultry Inspection of the Department of Food and Agriculture, or of the Meat Inspection Division or Poultry Division of the United States Department of Agriculture, or of an approved municipal inspection department or establishment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112660.

Food product, as used in this chapter, includes any fish or fish product, meat or meat product, or any other food product.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112665.

The operation of noncommercial canning centers by community canning centers, schools, churches, other organizations, or housewives who pack hermetically sealed canned food products for their own consumption and do not sell the canned food, is exempt from the licensing provisions of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112670.

In lieu of a license, a permit to operate a canning center shall be issued without cost by the department upon the submission of evidence as the department requires to show that the persons operating the center are qualified and that the center is properly equipped and meets all other provisions of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112675.

Food products that do not require the use of a pressure cooker but necessitate acidulation and pH determinations come within this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112680.

No act that is unlawful under Part 5 (commencing with Section 109875), relating to the adulterating, mislabeling, misbranding, false advertising, and sale of foods, is lawful by reason of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Canneries [112650 - 112855]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Cannery Inspection Board [112685 - 112725]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

112685.

There is in the state government a Cannery Inspection Board consisting of the following six members:

(a)The director of the state department, who shall act as chairperson.

(b)One person appointed by the director who shall have had at the time of his or her appointment at least 10 years experience in or with canning technology and has a degree in chemistry, bacteriology, or medicine.

(c)Four persons appointed by the director who are experienced, have substantial investments, and are actively engaged in the canning industry at the time of their appointment.

One of the four appointive members shall be engaged in the canning of animal food.

(Amended by Stats. 2004, Ch. 314, Sec. 1. Effective January 1, 2005.)

112690.

Each appointed member holds office for a term of one year or until his or her successor is appointed.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112695.

Members of the board serve without compensation. The board shall meet at least quarterly.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112700.

The Cannery Inspection Board shall, subject to the approval of the department, estimate the cost of the separate inspection and laboratory control required to be made for each food product subject to this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112705.

The estimate shall be made prior to the opening of the canning season for each product having a canning season of less than three consecutive months, and prior to each quarter for each product having a canning season of more than three consecutive months.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112710.

For the purpose of prorating the estimated cost of inspection and laboratory control, the Cannery Inspection Board, subject to the approval of the department, shall estimate the number of cases to be packed, the number of tons to be packed, or the number of man-hours necessary to be employed, whichever in its discretion is most equitable as a basis of proration.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112715.

Based on the estimates required by the last three sections, the Cannery Inspection Board, subject to the approval of the department, shall determine the probable cost of inspection and laboratory control per thousand cases, per ton, or per man-hour, whichever in its discretion is most equitable.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112720.

The cost of laboratory control and research on products subject to this chapter shall be prorated by the Cannery Inspection Board in the same manner as the costs of inspection are prorated by it.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112725.

If the delegation of discretion to determine whether the case, ton, or man-hour basis is most equitable as a basis of prorating the cost of inspection and laboratory control is held invalid as an unlawful delegation of legislative power, the invalidity shall not affect the validity of the remaining portions of this chapter. The Legislature hereby declares that if it had known that the delegation of the discretion would be declared invalid as an unlawful delegation of legislative power, it would have designated the man-hour basis of proration as the most equitable basis of proration. In the event of an invalidity, the cost of inspection and laboratory control shall be prorated on the man-hour basis.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Canneries [112650 - 112855]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Proration of Costs [112730 - 112745]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

112730.

At the end of each quarter, or at the close of any canning season that does not exceed three consecutive months, the state department shall determine the actual cost of inspection and laboratory control of each

separate food product for the preceding quarter or preceding canning season, and shall prorate the cost to each person licensed under this chapter on the basis of cases packed, tons packed, or number of man-hours necessary to be employed, whichever has been determined by the Cannery Inspection Board, with the approval of the state department, to be most equitable.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112735.

In making any separate inspection and laboratory control for any food product, the state department shall not spend more than the amount estimated by the Cannery Inspection Board as the cost of the inspection without the approval of the Cannery Inspection Board.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112740.

In making estimates, determinations, assessments, and prorations under this article and Article 2 (commencing with Section 112685), the Cannery Inspection Board and the state department may include as a part of the cost of inspection a reasonable charge for standby services of inspectors.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112745.

In lieu of all other procedures in this article and Article 2 (commencing with Section 112685), each person licensed under this chapter may be assessed at an estimated annual hourly rate set by the Cannery Inspection Board with the approval of the department and of the State Director of Finance. The annual rate shall be set for each industry group based on the estimated cost.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Canneries [112650 - 112855]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Licenses and Licensees [112750 - 112795]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

112750.

It is unlawful for any person to engage in the noncommercial canning of salmon, or in the commercial canning of any fish or fish product, meat or meat product, or any other food product for the use of man or animal, the sterilization of which in the opinion of the department requires the use of a pressure cooker or a retort, without first obtaining a license from the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112755.

The department shall issue an annual license, that is nontransferable, to any person on the receipt of fifty dollars ($50) per plant, and evidence as the board may require to show that (1) the applicant is properly equipped with a retort or pressure cooker that has recording thermometers, indicating thermometers, and pressure gauges to carry out regulations as the department may adopt for the sterilization of food products for the canning of which a license is sought and (2) the applicant is in compliance with the sanitary regulations of the department. The applicant shall be deemed to be in compliance with the sanitary regulations unless the applicant has been given written notice by the department not less than 60 days prior to the expiration of the existing license that the cannery does not comply with the sanitary regulations, and the applicant has subsequently failed to bring the cannery into compliance therewith.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112760.

Any person who has been denied the annual license provided in this chapter may obtain a hearing by the department by mailing a written request therefor to the department. The department shall give the applicant at least 10 days notice of the hearing and shall hold such hearing within 30 days of the receipt of the request.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112765.

In addition to the annual license fee, the department shall demand from each licensee a cash deposit for the payment of his or her pro rata share of the estimated cost of inspection and laboratory control as the department may deem necessary.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112770.

If the deposit made by any licensee is insufficient to meet the actual cost of an inspection and laboratory control of any product determined by the department, the latter shall demand from the licensee, and the licensee shall immediately pay to the department, in addition to the license fee payable by the licensee, the difference between the deposit and his or her pro rata share of the actual cost of the inspection and laboratory control.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112775.

If at the end of the calendar year, or at the end of any canning season of less than three consecutive months the deposit made by any licensee under this chapter is greater than the actual cost prorated to the licensee, the difference shall be refunded if requested by the licensee in accordance with law. If the difference is not so refunded, it shall be credited toward the required deposit for the next calendar year or canning season.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112780.

No food product subject to the inspection required by this chapter shall be shipped by the licensee who packed it until the licensee has either paid his or her pro rata share of the estimated cost of inspection or has furnished the department a cash deposit for the payment of his or her pro rata share of the cost.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112785.

The department may after notice and opportunity for hearing suspend or revoke a license issued under this chapter for any of the following causes:

(a) Nonpayment of the pro rata share of the cost of inspection and laboratory control, or failure to comply with a demand for a cash deposit or other security by the holder of the license.

(b) Noncompliance with any of the regulations of the department.

(c) Operation of an insanitary cannery after due notice by registered mail has been received.

(d) Inadequate ratproofing of a cannery throughout.

(e) Willful packing of any canned food commodity that has been rejected by an agent of the department.

(f) Packing of any canned food commodity subject to this chapter without notifying the department before packing.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112790.

After conviction for a violation of Part 5 (commencing with Section 109875), the license of the person convicted may be suspended for a period of from 1 to 30 days.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112795.

Proceedings for the suspension and revocation of licenses shall be conducted in accordance with Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code; and the department has all the powers granted therein.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Canneries [112650 - 112855]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. General Provisions [112800 - 112820]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

112800.

No person shall permit another to operate a steam-controlled retort used in the commercial canning industry for the sterilization of food products, unless the latter first obtains a permit from the department. The department may pass upon and determine the qualifications of the applicant with a view to the preservation of the public health.

Any permit granted is revocable by the department whenever in its judgment the public health requires such action.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112805.

It is unlawful for any person to place upon the label of any bottle, can, jar, carton, case, box, barrel, or any other receptacle, vessel, or container of whatever material or nature that may be used by a packer, manufacturer, producer, jobber, or dealer for enclosing any canned food product, fish or fish product, or meat or meat product, any statement relative to the product having been inspected, unless the statement has been approved in writing by the department.

Approval of a statement is revocable at any time by the department upon written notice.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112810.

Any food product packed in violation of this chapter may be quarantined by the department until a laboratory examination has established that the product meets the requirements of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112815.

Any person who packs any food product that has been quarantined by the department shall pay the department all reasonable costs of any laboratory examination, determined by the Cannery Inspection Board, subject to the approval of the department, to be necessary to ascertain that the seized product was packed in violation of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112820.

The Division of Cannery Inspections has supervision over the inspection and examination of raw fish and fish products preparatory to canning.

The cost of the inspection and examination shall be determined and paid in the manner provided in Article 2 (commencing with Section 112685).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 6. Rules and Enforcement [112825 - 112840]__

(Article 6 added by Stats. 1995, Ch. 415, Sec. 6.)

112825.

The department may make regulations as it deems necessary for the proper enforcement of this chapter, and the regulations shall have the force and effect of law.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112830.

No rule or regulation or amendment thereto shall be adopted unless submitted by the department to the Cannery Inspection Board at least five days prior to the date of adoption.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112835.

The state board shall enforce its regulations and the provisions of Part 5 (commencing with Section 109875), relating to the canning of food products, through the Chief of the Bureau of Cannery Inspections and other employees as it deems necessary. The state board shall, so far as practicable, acquaint each licensee subject to this chapter with its regulations, and upon request therefor by any licensee shall furnish a copy of the regulations.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112840.

The district attorney of the county in which any violation of this chapter occurs shall prosecute the person accused of the violation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Chapter 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Olive Oil Grades [112875 - 112880]__

(Article 1 added by Stats. 2008, Ch. 694, Sec. 2.)

112875.

Olive oil, as used in this chapter means the edible oil obtained solely from the fruit of the olive tree (Olea europea L.) to the exclusion of oils obtained using solvents or reesterification processes and of any mixture with oils of other kinds except in the making of flavored olive oil, as defined in Section 112878.

(Amended by Stats. 2011, Ch. 567, Sec. 1. (SB 818) Effective January 1, 2012.)

112876.

The hierarchy for virgin olive oil grades shall be, from highest to lowest, extra-virgin olive oil, virgin olive oil, and virgin olive oil not fit for human consumption, sometimes known as lampante virgin olive oil, which shall be the lowest level of quality among the virgin olive oils. In terms of hierarchy, olive oil and refined olive oil shall fall below the virgin olive oil category. Olive oil grades shall be in the following categories:

(a)Virgin olive oils.

(1)Extra virgin olive oil.

(2)Virgin olive oil.

(3)Virgin olive oil not fit for human consumption without further processing, sometimes known as lampante virgin olive oil.

(b)Olive oil.

(c)Refined olive oil.

(Amended by Stats. 2011, Ch. 567, Sec. 2. (SB 818) Effective January 1, 2012.)

112876.5.

The hierarchy for olive-pomace oil grades shall be, from highest to lowest, olive-pomace oil, refined olive-pomace oil, and crude olive-pomace oil, which is the lowest level of quality among the olive-pomace oils. Olive-pomace oil grades shall be in the following categories:

(a)Olive-pomace oil.

(b)Refined olive-pomace oil.

(c)Crude olive-pomace oil.

(Added by Stats. 2011, Ch. 567, Sec. 3. (SB 818) Effective January 1, 2012.)

112877.

Olive oil grades are defined as follows:

(a)Virgin olive oils are the oils obtained from the fruit of the olive tree solely by mechanical or other physical means under conditions, including thermal conditions, that do not lead to alterations in the oil, and that have not undergone any treatment other than washing, decanting, centrifuging, and filtration. Virgin olive oils without further processing include:

(1)Extra virgin olive oil is virgin olive oil that has excellent flavor and odor expressed as a median of defects equal to zero and a median of fruitiness greater than zero, has a free fatty acid content, expressed as oleic acid, of not more than 0.8 grams per 100 grams oil, has a peroxide value of not more than 20 milliequivalent peroxide oxygen per kilogram oil and meets the additional requirements for United States Extra Virgin Olive Oil outlined in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil published in the Federal Register that are in effect on October 25, 2010.

(2)Virgin olive oil is virgin olive oil that has reasonably good flavor and odor expressed as a median of defects between zero and 2.5 and a median of fruitiness greater than zero, has a free fatty acid content, expressed as oleic acid, of not more than 2 grams per 100 grams oil, has a peroxide value of not more than 20 milliequivalent peroxide oxygen per kilogram oil, and meets the additional requirements for United States Virgin Olive Oil outlined in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil published in the Federal Register that are in effect on October 25, 2010.

(3)Virgin olive oil not fit for human consumption without further processing, sometimes known as lampante virgin olive oil, is virgin olive oil which has poor flavor and odor expressed as a median of defects between 2.5 and 6.0 or when the median of defects is less than or equal to 2.5 and the median of fruitiness is zero, has a free fatty acid content, expressed as oleic acid, of more than 2 grams per 100 grams, and meets the additional requirements of the United States Virgin Olive Oil Not Fit For Human Consumption Without Further Processing as outlined in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil published in the Federal Register that are in effect on October 25, 2010. This grade of olive oil is intended for refining or for purposes other than food use.

(b)Olive oil is the oil consisting of a blend of refined olive oil and virgin olive oils fit for consumption without further processing. It has a free fatty acid content, expressed as oleic acid, of not more than 1 gram per 100 grams oil and meets the additional requirements for United States Olive Oil described in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil published in the Federal Register that are in effect on October 25, 2010.

(c)Refined olive oil is the olive oil obtained from virgin olive oils by refining methods that do not lead to alterations in the initial glyceridic structure (basic glycerin-fatty acid content). It has a free fatty acid content, expressed as oleic acid, of not more than 0.3 grams per 100 grams oil, and meets the additional

requirements for United States Refined Olive Oil described in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil published in the Federal Register that are in effect on October 25, 2010.

(d)Olive-pomace oil is oil obtained by treating olive pomace, which is the product that remains after the mechanical extraction of olive oil, with solvents or other physical treatments, to the exclusion of oils obtained by synthetic processes and a mixture with oils of other kinds. Olive-pomace oils shall be labeled and marketed with the following designations and definitions:

(1)Olive-pomace oil is the oil comprising the blend of refined olive-pomace oil and virgin olive oils fit for consumption without further processing. It has a free fatty acid content, expressed as oleic acid, of not more than 1 gram per 100 grams oil, and meets the additional requirements for United States Olive-Pomace Oil outlined in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil published in the Federal Register that are in effect on October 25, 2010.

(2)Refined olive-pomace oil is the oil obtained from crude olive-pomace oil by refining methods that do not lead to alterations in the initial glyceridic structure. It has a free fatty acid content, expressed as oleic acid, of not more than 0.3 grams per 100 grams oil, and meets the additional requirements for United States Refined Olive-Pomace Oil outlined in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil Published in the Federal Register that are in effect on October 25, 2010.

(3)Crude olive-pomace oil is olive-pomace oil that is intended for refining for use for human consumption or that is intended for technical use and that meets the requirements for United States Crude Olive-Pomace Oil outlined in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil published in the Federal Register that are in effect on October 25, 2010.

(Amended (as amended by Stats. 2009, Ch. 140, Sec. 121) by Stats. 2011, Ch. 567, Sec. 5. (SB 818) Effective January 1, 2012.)

112878.

Flavored olive oil, as used in this chapter, means extra virgin olive oil, virgin olive oil, or olive oil, that is mixed with a flavoring, or olives that are processed into oil with any fruit, vegetable, herb, nut, seed, or spice and the product resulting from either process contains not less than 90 percent extra virgin olive oil, virgin olive oil, or olive oil, and is labeled for sale as an olive oil that has been flavored.

(Added by Stats. 2008, Ch. 694, Sec. 2. Effective January 1, 2009.)

112879.

Imitation olive oil, as used in this chapter, means the mixture of any edible oil artificially colored or flavored to resemble olive oil.

(Added by Stats. 2008, Ch. 694, Sec. 2. Effective January 1, 2009.)

112880.

For purposes this chapter, the following definitions shall apply:

(a)Median of defects means a calculation of the median score from a panel of tasters that characterizes the negative flavor and odor attributes of virgin olive oil, such as, but not limited to, musty, fusty, winey-vinegary, muddy-sediment, and rancid.

(b)Median of fruitiness means a calculation of the median score from a panel of tasters that characterizes virgin olive oil produced from olives, such as, but not limited to, olive, apple, green, sweet, grass, nutty, and tomato.

(c)Panel of tasters means the method of analyzing organoleptic characteristics of virgin olive oil, as defined in the United States Standards for Grades of Olive Oil and Olive-Pomace Oil published in the Federal Register that are in effect on October 25, 2010.

(Added by Stats. 2011, Ch. 567, Sec. 6. (SB 818) Effective January 1, 2012.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Olive Oil [112875 - 112935]__

(Chapter 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Olive Oil Manufacture and Marketing [112891 - 112935]__

(Article 2 heading added by Stats. 2008, Ch. 694, Sec. 6.)

112891.

Any olive oil and olive-pomace oil labeled for sale shall be consistent with this chapter.

(Amended by Stats. 2011, Ch. 567, Sec. 7. (SB 818) Effective January 1, 2012.)

112893.

Alpha-tocopherol may be added to refined olive oil, olive oil, refined olive-pomace oil, and olive-pomace oil to restore natural tocopherol lost in the refining process. The concentration of alpha-tocopherol in the final product shall not exceed 200 milligrams per kilogram.

(Added by Stats. 2008, Ch. 694, Sec. 9. Effective January 1, 2009.)

112894.

Virgin olive oil not fit for human consumption, sometimes known as lampante virgin olive oil, shall be refined before consumption.

(Added by Stats. 2011, Ch. 567, Sec. 8. (SB 818) Effective January 1, 2012.)

112895.

(a)It is unlawful to manufacture, sell, offer for sale, give away, or to possess imitation olive oil in California.

(b)This section does not prohibit the blending of olive oil with other edible oils, if the blend is not labeled as olive oil or imitation olive oil, is clearly labeled as a blended vegetable oil, and if the contents and proportions of the blend are prominently displayed on the containerslabel, or if the oil is a flavored olive oil.

(c)If any olive oil is produced, processed, sold, offered for sale, given away, or possessed in California, that indicates on its label California Olive Oil, or uses words of similar import that indicate that California is the source of the oil, 100 percent of that oil shall be derived from olives grown in California.

(d)Any container of olive oil produced, processed, sold, offered for sale, given away, or possessed in California which contains olive oil produced from olives grown in locations other than California, in whole or in part, and includes California in any form on the principal display panel shall state on the same panel the minimum percentage of olive oil in the container produced from olives grown in California in a font size that is no less than the largest font used to print California on the same panel. The percentage shall be declared by the words, ___percent (or ____%) California or ____ percent (or ____%) California olive oil. This subdivision shall not apply to a container of olive oil produced on or before December 31, 2021.

(e)Any olive oil produced, processed, sold, offered for sale, given away, or possessed in California with a

principal display panel that uses California or any reference to it shall comply with the quality and purity standards set forth in the Grade and Labeling Standards for Olive Oil, Refined-Olive Oil, and Olive-Pomace Oil published by the Department of Food and Agriculture.

(f)Olive oil produced, processed, sold, offered for sale, given away, or possessed in California, that indicates on its label that it is from a specific region of California shall be made of oil at least 85 percent of which, by weight, is derived from olives grown in the specified region.

(g)This section does not prohibit an olive oil producer or processor from using a truthful, nonmisleading statement or representation regarding the geographic origin of the olives used in the production of the olive oil in any label, packaging material, or advertising if the label, packaging material, or advertising contains no representation that is prohibited by this section.

(h)Olive oil produced, processed, sold, offered for sale, given away, or possessed in California, that indicates on its label that it is from a specific estate in California shall be made of oil at least 95 percent of which, by weight, is derived from olives grown on the specified estate.

(i)Olive-pomace oil shall not be labeled as olive oil.

(Amended by Stats. 2021, Ch. 466, Sec. 1. (AB 535) Effective January 1, 2022.)

112905.

It is unlawful to prepare, express, mix, or blend olive pomace or meats with any bland fixed oil other than olive oil.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112910.

All records of those operating under the provisions of this chapter that concern the amounts of olive oil produced, purchased, or produced and purchased, or the sale, distribution, or sale and distribution of any olive oil, shall be open to inspection upon demand of any agent of the department.

(Amended by Stats. 2008, Ch. 694, Sec. 12. Effective January 1, 2009.)

112915.

It is unlawful to reuse any olive oil container, can, or drum for repacking any fixed oil intended to be used for food purposes, except on the premises of the processor or when a consumer fills a clean container from a sanitary olive oil dispenser at a retail outlet.

(Amended by Stats. 2008, Ch. 694, Sec. 13. Effective January 1, 2009.)

112920.

All olive oil for technical purposes shall be denatured with an odoriferous substance so as to render it unfit for food purposes.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112925.

It is unlawful to sell or offer for sale olive oil containing more than 5 percent free fatty acid without first denaturing the oil and making it unfit for human consumption.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112930.

The department shall enforce this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

112935.

Any person violating any of the provisions of this chapter is guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000), or by imprisonment in the county jail for not exceeding one year, or by both fine and imprisonment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 10. Processed Pet Foods [113025 - 113120]__

(Chapter 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Definitions [113025 - 113055]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

113025.

Processed pet food means a food for pets that has been prepared by heating, drying, semidrying, canning, or by a method of treatment prescribed by regulation of the department. The term includes, special diet, health foods, supplements, treats and candy for pets, but does not include fresh or frozen pet foods subject to the control of the Department of Food and Agriculture of this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113030.

Pet means any household animal including but not limited to cats or dogs and other carnivores whether or not for exhibition.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113035.

Pet food ingredients means each of the constituent materials making up a processed pet food. Pet food ingredients of animal or poultry origin shall be only from animals or poultry slaughtered or processed in an approved or licensed establishment. Such animal or poultry ingredients condemned for human food but passed for animal food in an establishment inspected by the United States Department of Agriculture or the Department of Food and Agriculture of this state may be used for pet food, provided it is properly denatured or handled in accordance with this chapter and regulations of the department and the regulations of the Department of Food and Agriculture of this state so as to render the ingredients safe for pet food. Animals or poultry classified as deads are prohibited.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113040.

Incubator reject eggs may not be used in food for human consumption but may be used for animal food or animal-food products.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113045.

The term advertisement means all representations disseminated in any manner or by any means for the purpose of inducing, or that are likely to induce, directly or indirectly, the purchase of processed pet food. An advertisement shall be deemed false if it is false or misleading in any particular.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113050.

If an article is alleged to be misbranded because the labeling is misleading, or if an advertisement is alleged to be false because it is misleading, then in determining whether the labeling or advertisement is misleading, there shall be taken into account, among other things, not only misrepresentations made or suggested by statement, word, design, device, sound, or in any combination thereof, but also the extent to which the labeling or advertisement fails to reveal facts material in the light of representations or material with respect to consequences that may result from the use of the article to which the labeling or advertisement relates under the conditions of use prescribed in the labeling or advertisement thereof or under conditions of use as are customary or usual.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113055.

This chapter shall be known, and may be cited, as the Pure Pet Food Act of 1969.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 10. Processed Pet Foods [113025 - 113120]__

(Chapter 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Licenses and Registration Certificates [113060 - 113070]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

113060.

Every person who manufactures a processed pet food in California shall first obtain a license from, and every person who manufactures a processed pet food for import into California from another state shall first obtain a registration certificate from, the department. Each license or registration certificate is good for one calendar year from the date of issue and is nontransferable.

An application for a license or registration certificate shall be made on an application form provided by the

department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113065.

A separate license shall be required for each processing plant located in California.

The annual license fee shall be one hundred dollars ($100). The annual registration fee shall be one hundred dollars ($100). The penalty for failure to apply for renewal of a license or registration certificate within 30 days after the expiration is thirty dollars ($30) and shall be added to the renewal fee and be paid by the applicant before the renewal license or registration certificate may be issued. All fees collected shall be expended as appropriated by the Legislature in the carrying out of the provisions of this chapter and the regulations adopted thereto.

The annual license fee for a pet food canner also licensed under Chapter 8 (commencing with Section 112650) is one hundred dollars ($100). No additional fee is payable by such a person for a license issued to him or her under that chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113070.

An annual license or registration certificate shall be issued only when the following provisions have been met:

(a) Inspection of the manufacturing facilities demonstrates that they are properly equipped and are operated in a sanitary manner.

(b) In the case of an out-of-state manufacturer, the application for a registration certificate is accompanied by a certificate issued by a federal, state, or local health agency certifying that the processed pet foods manufactured conform to the requirements of this chapter or the regulations adopted hereunder.

(c) The applicant submits to the department the label that would be attached to the container of each type of processed pet food and a complete list of the pet food ingredients thereof in their order of predominance by weight.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 10. Processed Pet Foods [113025 - 113120]__

(Chapter 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Prohibited Acts and Penalties [113075 - 113085]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

113075.

The following acts and the causing thereof within the State of California are hereby prohibited:

(a) The manufacture, sale, or delivery, holding or offering for sale of any pet food ingredient or processed pet food that is adulterated or misbranded.

(b) The adulteration or misbranding of any pet food ingredient or processed pet food.

(c) The dissemination of any false advertising.

(d) The refusal to permit entry or inspection, or to permit the taking of a sample.

(e) The removal, sale, or disposal of a detained or embargoed processed pet food without permission of an authorized agent or the court.

(f) The giving of a guaranty or undertaking that is false, except by a person who relied on a guaranty or undertaking to the same effect signed by, and containing the name and address of, the person residing in the State of California from whom he or she received in good faith the pet food ingredient or the processed pet food.

(g) The receipt in commerce of any pet food ingredient or processed pet food that is adulterated,

misbranded or falsely advertised and the delivery or proffered delivery thereof for pay or otherwise.

(h) Failure to obtain a license as required by this chapter.

(i) Use of any pet food ingredient that fails to conform to the standard of identity for the pet food ingredient as adopted pursuant to Section 113115.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113080.

(a) Any person who violates any of the provisions of this chapter or the regulations promulgated under this chapter is subject to imprisonment for not more than six months or a fine of not more than one thousand dollars ($1,000), or both that imprisonment and fine; but if the violation is committed after a conviction of that person under this section has become final, or the violation is committed with intent to defraud or mislead, the person shall be subject to imprisonment for not more than one year, or a fine of not more than one thousand dollars ($1,000), or both imprisonment and fine.

(b) No person shall be subject to the penalties of subdivision (a) for having violated provisions of this chapter if he or she establishes a guaranty or undertaking signed by, and containing the name and address of, the person residing in the State of California from whom he or she received in good faith the article, to the effect that the article conforms to all provisions of this chapter, designating this chapter.

If the guaranty is to the effect that the article is not in violation within the meaning of the federal act, as provided in Section 303 (c) of the federal act, it shall be sufficient for all the purposes of this chapter and have the same force and effect as though it referred to this chapter, unless at any time the standard for the article concerned under this chapter is higher than the standard for a like article under the federal act.

(c) No publisher, radio or television broadcast licensee, or agency or medium for the dissemination of an advertisement, except the manufacturer, packer, distributor, or seller of the article to which a false advertisement relates, shall be liable under this section for the dissemination of false advertisement, unless he or she has refused, on the request of the department, to furnish the department the name and post office address of the manufacturer, packer, distributor, seller, or advertising agency, residing in the State of California who caused him or her to disseminate the advertisement.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113085.

In addition to other remedies herein provided, the department may bring an action in the superior court, and the court shall have jurisdiction upon hearing and for cause shown, to grant a temporary or permanent injunction restraining any person from violating any provision of this chapter. Any proceeding under this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the department shall not be required to allege facts necessary to show or tending to show lack of adequate remedy at law or to show or tending to show irreparable damage or loss.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 10. Processed Pet Foods [113025 - 113120]__

(Chapter 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Adulteration [113090 - 113091]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

113090.

A pet food ingredient or a processed pet food shall be deemed to be adulterated:

(a) If it bears or contains any poisonous or deleterious substance that may render it injurious to health; but in case the substance is not an added substance, the pet food shall not be considered adulterated under this subdivision if the quantity of the substance in pet food does not ordinarily render it injurious to health.

(b) If it bears or contains any added poisonous or deleterious substance, any food additive, any pesticide chemical, or any color additive that is unsafe within the meaning of the Federal Food, Drug and Cosmetic Act, or Part 5 (commencing with Section 109875), or Division 7 (commencing with Section 12501) of the Food and Agricultural Code.

(c) If it contains a pet food ingredient for which a standard of identity has been established and the pet food ingredient fails to meet that standard.

(d) If it has been produced, prepared, packed or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered diseased, unwholesome or injurious to health.

(e) If its container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents injurious to health.

(f) If any valuable constituent has been in whole or in part omitted or abstracted therefrom.

(g) If any substance has been substituted wholly or in part therefor.

(h) If damage or inferiority has been concealed in any manner.

(i) If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight or reduce its quality or strength or make it appear better or of greater value than it is.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113091.

A processed pet food is not adulterated because it includes industrial hemp, as defined in Section 11018.5, or cannabinoids, extracts, or derivatives from industrial hemp, if the cannabinoids, extracts, or derivatives from industrial hemp meet the requirements established in Chapter 9 (commencing with Section 111920) of Part 5. The sale of processed pet food that includes industrial hemp or cannabinoids, extracts, or derivatives from industrial hemp shall not be restricted or prohibited based solely on the inclusion of industrial hemp or cannabinoids, extracts, or derivatives from industrial hemp, if the cannabinoids, extracts, or derivatives from industrial hemp meet the requirements established in Chapter 9 (commencing with Section 111920) of Part 5.

(Added by Stats. 2021, Ch. 576, Sec. 11. (AB 45) Effective October 6, 2021.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 10. Processed Pet Foods [113025 - 113120]__

(Chapter 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. Misbranding [113095 - 113110]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

113095.

A pet food ingredient or processed pet food shall be deemed to be misbranded:

(a) If its labeling is false or misleading in any particular.

(b) If its container is so made, formed or filled as to be misleading.

(c) If in package form, unless it bears a label containing (1) the name and place of business of the manufacturer, packer, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure or numerical count.

Under clause (2) of subdivision (c), reasonable variation shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the department.

(d) If any word, statement or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with conspicuousness (as compared with other words, statements, designs or emblems, in the labeling) and in terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113100.

A pet food shall be deemed to be misbranded if it is not subject to Section 113105, unless its label bears (a) the common or usual name of the food, if any there be, and (b) in case it is fabricated from two or more

ingredients, the common or usual name of each ingredient listed in descending order of predominance in the product. Spices, flavorings, and colorings, other than those sold as such, may be designated as spices, flavorings, and colorings, without naming each.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113105.

A processed pet food shall be deemed to be misbranded if it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulations as provided by Section 113115 unless (a) it conforms to the definition and standard, and (b) its label bears the name of the processed pet food specified in the definition and standard, and, insofar as may be required by regulations, the common names of optional pet food ingredients present in processed pet food. Spices, flavorings, and colorings, other than those sold as such, may be designated as spices, flavorings, and colorings, without naming each.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113110.

A processed pet food shall be deemed to be misbranded:

(a) If it purports to be or is represented for special dietary uses, unless its label bears information concerning its vitamin, mineral, and other dietary properties as the department determines to be, and by regulations prescribes as, necessary in order fully to inform purchasers as to its value for those uses.

(b) If it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact. To the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__ARTICLE 6. Administration [113115 - 113120]__

(Article 6 added by Stats. 1995, Ch. 415, Sec. 6.)

113115.

When in the judgment of the department the action will promote honesty and fair dealing in the interest of the ultimate purchaser, the department may promulgate regulations establishing for any processed pet food or pet food ingredient any of the following:

(a) A reasonable definition and standard of identity.

(b) A reasonable standard of quality or fill of container.

(c) The method of treatment of products or ingredients to render them safe for pet feeding.

(d) Labeling information necessary to fully inform the purchaser thereof.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113120.

This chapter shall be administered by the department in accordance with Part 5 (commencing with Section 109875).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__CHAPTER 11. Miscellaneous Food Laws [113150 - 113360]__

(Chapter 11 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Beverage Containers [113200 - 113220]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

113200.

As used in this article, unless the context requires otherwise:

(a) Beverage means beer or other malt beverages and mineral waters, soda water and similar carbonated soft drinks in liquid form and intended for human consumption.

(b) Beverage container means the individual, separate, sealed glass, metal or plastic bottle, can, jar or carton containing a beverage.

(c) Flip-top container means a metal beverage container so designed and constructed that a part of the container is severable in opening the containers.

(d) In this state means within the exterior limits of the State of California and includes all territory within these limits owned by or ceded to the United States of America.

(e) Non-flip-top container means a metal beverage container so designed and constructed that no part of the container is severable in opening the container.

(Amended by Stats. 1996, Ch. 1023, Sec. 316. Effective September 29, 1996.)

113205.

On and after January 1, 1979, no person shall sell or offer for sale in this state any metal beverage container so designed and constructed that a part of the container is severable in opening the container. Nothing in this section shall prohibit the sale in California of the containers for shipment out of state.

Any person who violates the provisions of this section is guilty of an infraction.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113210.

The Secretary of the Resources Agency may extend permission to a manufacturer to sell flip-top containers for one or more periods of time for a total period not to exceed one year after January 1, 1979. The subsequent resale of these flip-top containers by other persons at wholesale or retail, empty or filled with beverages at any time subsequent to January 1, 1979, shall not be a violation of Section 113205.

In order to be eligible for an extension of permission to sell flip-top containers after January 1, 1979, a manufacturer shall file a request for extension by July 1, 1978, with the Secretary of the Resources Agency and shall accompany the request with a report that will indicate:

(a) The percentage of the total production of metal beverage containers made by the manufacturer in the calendar years of 1976 and 1977, and to May 31, 1978, that were non-flip-top containers manufactured for

use within this state.

(b) The percentage of production of metal beverage containers the manufacturer shifted from flip-top containers to non-flip-top containers in the calendar years 1976 and 1977, and to May 31, 1978, for use within this state.

(c) The projected date when all production of metal beverage containers manufactured for use in this state will be non-flip-top containers.

(d) A general statement of the procedures the manufacturer is employing to effect the changeover to production of only non-flip-top containers for use within this state, and specific economic information regarding the manufacturersplanned investment in conversion to new equipment and techniques to effect the changeover to production of only non-flip-top containers for use within this state.

The secretary shall make public disclosure of all reports received.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113215.

The Secretary of the Resources Agency shall conduct hearings upon the requests for extension prior to making decisions, so that members of the public and manufacturers may be heard, and shall receive evidence and make findings of fact. The secretary shall cause public notification of the time and place of the hearings 30 days prior to each hearing.

In order to grant an extension of permission to sell flip-top containers after January 1, 1979, the Secretary of the Resources Agency must make a determination that the manufacturer requesting the extension has made good faith efforts to comply with the act, but is unable to meet the time requirement for conversion, and that the manufacturer will suffer severe economic hardship as a direct result of the requirements of conversion.

If an extension is granted, the Secretary of the Resources Agency may require reports as often as he or she deems necessary, indicating the progress of the manufacturer toward compliance.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113220.

There shall be no administrative appeal of the secretarysdecision regarding a request for an extension. Judicial review of the decision of the Secretary of the Resources Agency on any request for an extension may be made by the manufacturer. In addition, any member of the public, without damages, at his or her own expense, has standing to bring an action for the purpose of inquiring into the validity of a decision of the secretary on the grounds of the abuse of discretion where the findings are unsupported by the evidence. This section shall not be construed to prohibit the use of any other remedy available under any other provision of law.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 6. WHOLESALE FOOD [111940 - 113360]__

(Part 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 11. Miscellaneous Food Laws [113150 - 113360]__

(Chapter 11 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Frozen Foods [113250 - 113280]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

113250.

Low acid frozen food means a food that, by virtue of its low acid content, does not preclude the growth of Clostridium botulinum.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113255.

Low acid frozen food shall be packaged in a container of distinctive appearance so as to indicate to the purchaser that the package is not ordinary canned goods of a nonperishable nature.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113260.

The container shall bear a suitable legend to warn consumers that the product must be kept frozen until ready for use and that the contents should not be heated before opening.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113265.

Low acid foods that are to be frozen and packaged in hermetically sealed metal containers, shall not be cooked in the container before freezing.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113270.

The department shall enforce this article.

(Amended by Stats. 1996, Ch. 1023, Sec. 317. Effective September 29, 1996.)

113275.

The department may make regulations to secure the proper enforcement of this article, including regulations with respect to the sanitary preparation of articles of food for freezing, the use of containers, marks, tags, or labels, and the display of signs.

(Amended by Stats. 1996, Ch. 1023, Sec. 318. Effective September 29, 1996.)

113280.

Any person, firm, corporation, or agent violating any of the provisions of this article with the exception of Article 4 (commencing with Section 113310), or any rule or regulation issued pursuant to this article, shall upon conviction be punished for the first offense by a fine not more than one thousand dollars ($1,000), or by imprisonment in the county jail for not more than six months, or by both.

(Amended by Stats. 1996, Ch. 1023, Sec. 319. Effective September 29, 1996.)

__CHAPTER 11. Miscellaneous Food Laws [113150 - 113360]__

(Chapter 11 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Food Crop Growing [113310 - 113360]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

113310.

The Legislature finds and declares that the people of the State of California have a primary interest in the sanitary conditions under which food crops are grown and harvested for human consumption and in the health and related sanitary conditions under which the workers are employed in the growing and harvesting of food crops.

The Legislature hereby finds and declares that the provision of sanitary and handwashing facilities for those employed in the growing and harvesting of food crops is necessary to the preservation of sanitation and health and that facilities are necessary to maintain the dignity of workers.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113315.

For the purposes of this article food crop shall mean all fruits and vegetables intended for human consumption.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113320.

For the purpose of this article food crop growing and harvesting operation shall mean any field activity or operation wherein a food crop is grown and harvested, where five or more employees are working as a crew, unit, or group for a period of two or more hours.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113325.

Every employer shall provide or cause to be provided toilet and handwashing facilities for every food crop growing and harvesting operation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113330.

Employees shall use the toilet and handwashing facilities provided.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113335.

Toilet facilities shall provide privacy and shall be so designed as to keep human excreta from contaminating the crop and to keep flies away from the excreta. Toilet paper shall be provided. Toilet facilities shall be maintained in a clean and sanitary condition.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113340.

Handwashing facilities shall be such as to afford an opportunity to wash hands in clean water using soap or other suitable cleansing agent and to dispose of used wash water without nuisance or contamination of food crop.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113345.

Toilet and handwashing facilities for food crop harvesting operations shall be provided at convenient locations. For the purpose of this article convenient means within a five-minute walk of place of work.

When, because of layout of access roads, ground terrain, or other physical conditions, it is not possible to comply with the foregoing requirement, toilet and handwashing facilities shall be located at the point of vehicular access closest to the workers.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113350.

(a) Except as provided in Section 18930, the department, after consultation with the State Departments of Food and Agriculture and Industrial Relations, may make and adopt reasonable regulations in accordance with this article pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code and may adopt and submit building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13. The regulations shall be at least as effective as those adopted pursuant to Section 6712 of the Labor Code.

(b) No part of this article shall be construed to abridge or limit in any manner the jurisdiction of the Division of Occupational Safety and Health pursuant to Division 5 (commencing with Section 6300) of the Labor Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

113355.

(a) The primary responsibility for enforcement of this article shall be vested in the local health officers; county agricultural commissioners may participate in enforcement. The State Departments of Health Services, Industrial Relations, and Food and Agriculture may also enforce this article.

(b) Any agency enforcing this article shall report any violation to all field offices of the Employment Development Department located in the county where the violation occurs. The report shall identify the employer responsible for the violation, the nature of the violation, and the location of the food crop growing and harvesting operation where the violation occurs. The Employment Development Department shall not refer persons for employment to any employer or food crop growing and harvesting operation identified in the report until the agency reporting the violation certifies that the violation has been corrected.

(Amended by Stats. 1999, Ch. 915, Sec. 21. Effective January 1, 2000.)

113360.

Any person who knowingly and willfully violates any of the provisions of this article, or of the regulations adopted under this article, is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 1. General Provisions [113700 - 113725.3]__

(Chapter 1 added by Stats. 2006, Ch. 23, Sec. 2.)

113700.

These provisions shall be known, and may be cited, as the California Retail Food Code, hereafter referred to as this part.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113703.

The purpose of this part is to safeguard public health and provide to consumers food that is safe, unadulterated, and honestly presented through adoption of science-based standards.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113705.

The Legislature finds and declares that the public health interest requires that there be uniform statewide health and sanitation standards for retail food facilities to assure the people of this state that the food will be pure, safe, and unadulterated. Except as provided in Section 113709, it is the intent of the Legislature to occupy the whole field of health and sanitation standards for retail food facilities, and the standards set forth in this part and regulations adopted pursuant to this part shall be exclusive of all local health and sanitation standards relating to retail food facilities.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113707.

The department shall adopt regulations to implement and administer this part.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113709.

This part does not prohibit a local governing body from adopting an evaluation or grading system for food facilities, from prohibiting any type of food facility, from adopting an employee health certification program, from regulating the provision of consumer toilet and handwashing facilities, from adopting requirements for the public safety regulating the type of vending and the time, place, and manner of vending from vehicles upon a street pursuant to its authority under subdivision (b) of Section 22455 of the Vehicle Code, or from prohibiting the presence of pet dogs in outdoor dining areas of food facilities.

(Amended by Stats. 2014, Ch. 234, Sec. 1. (AB 1965) Effective January 1, 2015.)

113711.

In all laws and regulations, references to Chapter 4 (commencing with Section 113700) or the California Uniform Retail Food Facilities Law, shall mean this part or the California Retail Food Code.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113713.

(a)Primary responsibility for enforcement of this part shall be with the local enforcement agency. Nothing in this part shall prevent the department from taking any necessary program or enforcement actions for the protection of the public health and safety.

(b)The department shall provide technical assistance, training, standardization, program evaluation, and other services to local health agencies as necessary to ensure the uniform interpretation and application of this part, when an appropriation is made to the department for this purpose.

(c)Whenever the enforcement of the requirements of this part by any local enforcement agency is satisfactory to the department, the enforcement of this part shall not be duplicated by the department. The department shall investigate to determine satisfactory enforcement of this part by evaluating the program of each local enforcement agency at least once every three years and shall prepare a report of the evaluation and list any program improvements needed only when an appropriation is made to the department for these purposes.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113715.

Any construction, alteration, remodeling, or operation of a food facility shall be approved by the enforcement agency and shall be in accordance with all applicable local, state, and federal statutes, regulations, and ordinances, including but not limited to, fire, building, and zoning codes.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113717.

(a)Any person requesting the department to undertake any activity pursuant to paragraph (5) of subdivision (c) of Section 113871, Section 114417, paragraph (2) of subdivision (b) of Section 114419, and Section 114419.3 shall pay the departmentscosts incurred in undertaking the activity. The departmentsservices shall be assessed at the current hourly cost-recovery rate, and it shall be entitled to recover any other costs reasonably and actually incurred in performing those activities, including, but not limited to, the costs of

additional inspection and laboratory testing. For purposes of this section, the departmentshourly rate shall be adjusted annually in accordance with Section 100425.

(b)The department shall provide to the person paying the required fee a statement, invoice, or similar document that describes in reasonable detail the costs paid.

(c)For purposes of this section only, the term person does not include any city, county, city and county, or other political subdivision of the state or local government.

(Amended by Stats. 2012, Ch. 23, Sec. 27. (AB 1467) Effective June 27, 2012.)

113718.

Notwithstanding Section 16350 of the Government Code, all moneys deposited in the Retail Food Safety and Defense Fund shall be transferred to the Food Safety Fund for appropriation and expenditure as specified by Section 110050.

(Repealed and added by Stats. 2012, Ch. 23, Sec. 29. (AB 1467) Effective June 27, 2012.)

113719.

Structural and sanitation requirements shall be based on the food service activity to be conducted, the type of food that is to be prepared or served, and the extent of food preparation that is to be conducted at the food facility.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113725.

(a)The enforcement agency shall utilize a standardized food facility inspection format for food facility inspections that includes all of the following:

(1)The name and address of the food facility.

(2)Identification of the following inspection criteria, which shall be the basis of the inspection report:

(A)Improper holding temperatures of potentially hazardous foods.

(B)Improper cooling of potentially hazardous foods.

(C)Inadequate cooking of potentially hazardous foods.

(D)Poor personal hygiene of food employees.

(E)Contaminated equipment.

(F)Food from unapproved sources.

(3)For each violation identified pursuant to paragraph (2), classification of the violation as a minor violation or major violation.

(b)An enforcement agency may modify the format to add criteria to those specified pursuant to paragraph (2) of subdivision (a), if both of the following conditions are met:

(1)The additional criteria are based on other provisions of this part.

(2)A violation is identified by reference to items and sections of this part, or the regulations adopted pursuant to this part relating to those items, if a food facility is cited for a violation of the additional criteria.

(c)This section shall not restrict the ability of the enforcement agency to inspect and report on criteria other than those subject to regulation under this part.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113725.1.

A copy of the most recent routine inspection report conducted to assess compliance with this part shall be maintained at the food facility and made available upon request. The food facility shall post a notice advising consumers that a copy of the most recent routine inspection report is available for review by any interested party.

(Amended by Stats. 2007, Ch. 96, Sec. 2. Effective July 20, 2007.)

113725.2.

Local enforcement agencies, and the department when adequate funding is made available to the department, shall conduct routine training on food facility inspection standardization to promote the uniform application of inspection procedures.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113725.3.

(a)The department shall publish standardized procedures for enforcement agencies to report food facility inspection information regarding each food facility. The report shall include all of the following:

(1)Name and address of the food facility.

(2)Date of last inspection.

(3)Identification of any major violation identified in a food facility inspection.

(4)Reinspection date, if applicable.

(5)Period of closure, if applicable.

(b)The department, in consultation with local environmental health directors, representatives of the retail food industry, and other interested parties, may periodically review and revise the standardized procedures established pursuant to subdivision (a). In making any revisions, the department shall strive to ensure that the required information can be reported and made available in the most efficient, timely, and cost-effective manner.

(c)(1)The standardized procedures established pursuant to this section shall include a standardized electronic format and protocol for reporting the food facility inspection data in a timely manner, and shall strive to ensure that the information is readily accessible, can be rapidly reported, and, if necessary, corrected, for each food facility that has been inspected or reinspected. If the enforcement agency determines that reported information is materially in error, that error shall be corrected within 48 hours after that determination.

(2)The department may establish standardized procedures for reporting the information on electronic media, including, but not limited to, floppy disks or compact disks.

(d)Within 60 days after the department has established the standardized procedures pursuant to this section, the department shall publish these procedures.

(e)(1)Each enforcement agency that reports food facility inspection information on an Internet Web site shall report the information in accordance with the standardized procedures established pursuant to this section.

(2)This section shall not restrict the ability of an enforcement agency to report on matters other than matters subject to regulation under this part.

(f)The department may establish a link to each Internet Web site utilized by any enforcement agency containing the food facility inspection information pursuant to subdivision (e).

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 2. Definitions [113728 - 113941]__

(Chapter 2 added by Stats. 2006, Ch. 23, Sec. 2.)

113728.

The following definitions apply in the interpretation and application of this part.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113729.

Food additive has the meaning stated in Section 109940. Color additive has the meaning stated in Section 109895.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113729.5.

Acceptable market name means a name that the FDA recognizes as a suitable statement of identity, as described in Section 101.3 of Title 21 of the Code of Federal Regulations, in the labeling of a species. An acceptable market name fairly represents the identity of the species to United States consumers because it is not confusingly similar to the name of another species and because it is not otherwise misleading. An acceptable market name may be any of the following:

(a)A common or usual name established by either a history of common usage in the United States or by regulation.

(b)The common name.

(c)A name specifically coined as the market name for a species. For example, basa is the market name coined for Pangasius bocourti.

(Added by Stats. 2015, Ch. 615, Sec. 1. (AB 226) Effective January 1, 2016.)

113732.

Adulterated means either of the following:

(a)Food that bears or contains any poisonous or deleterious substance that may render the food impure or injurious to health.

(b)Food that is manufactured, prepared, or stored in a manner that deviates from a HACCP plan so as to pose a discernable increase in risk.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113733.

Acute gastrointestinal illness means a short duration illness most often characterized by either of the following, which are known to be commonly associated with the agents most likely to be transmitted from infected food employees through contamination of food:

(a)Diarrhea, either alone or in conjunction with other gastrointestinal symptoms, such as vomiting, fever, or abdominal cramps.

(b)Vomiting in conjunction with either diarrhea or two other gastrointestinal symptoms, such as fever or abdominal cramps.

(Amended by Stats. 2009, Ch. 571, Sec. 1. (SB 241) Effective October 11, 2009.)

113734.

Approved means acceptable to the enforcement agency based on a determination of conformity with applicable laws, or, in the absence of applicable laws, current public health principles, practices, and generally recognized industry standards that protect public health.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113735.

(a)Approved source means a food source allowed under Article 3 (commencing with Section 114021) of Chapter 4, or a producer, manufacturer, distributor, or food facility that is acceptable to the enforcement agency based on a determination of conformity with applicable laws, or, in the absence of applicable laws, with current public health principles and practices, and generally recognized industry standards that protect public health.

(b)Any whole uncut fruit or vegetable or unrefrigerated shell egg grown or produced in compliance with all applicable federal, state, or local laws, regulations, and food safety guidelines issued by a regulatory agency shall be deemed to be from an approved source.

(Amended by Stats. 2013, Ch. 404, Sec. 3. (AB 224) Effective January 1, 2014.)

113737.

aw means water activity that is a measure of the free moisture in a food, is the quotient of the water vapor pressure of the substance divided by the vapor pressure of pure water at the same temperature, and is indicated by the symbol aw.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113739.

Beverage means a liquid for drinking, including water.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113739.1.

(a)Catering operation means a food service that is conducted by a permanent food facility approved for food preparation where food is served, or limited food preparation is conducted, at a location other than its permitted location, in either of the following circumstances:

(1)As part of a contracted offsite food service event.

(2)When operating in conjunction with a host facility with direct food sales.

(b)Catering operation shall not include either of the following:

(1)Food ordered as takeout or delivery from a food facility, where the food is provided to the consumer for self-service.

(2)A food facility that is participating as part of a community event.

(Added by Stats. 2018, Ch. 493, Sec. 1. (AB 2524) Effective January 1, 2019.)

113740.

CCR means the California Code of Regulations.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113742.

Certified farmers™ market means a location that is certified by the State of California through the enforcement officers of the county agricultural commissioners and operated pursuant to Chapter 10.5 (commencing with Section 47000) of Division 17 of the Food and Agricultural Code and regulations adopted pursuant to that chapter.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113744.

C.F.R. means the Code of Federal Regulations. Citations in this part to the C.F.R. refer sequentially to the title, part, and section numbers, such as 21 C.F.R. 178.1010 refers to Title 21, Part 178, Section 1010.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113747.

(a)CIP means cleaned in place by the circulation or flowing by mechanical means through a piping system of a detergent solution, water rinse, and sanitizing solution onto or over equipment surfaces that require cleaning, such as the method used, in part, to clean and sanitize a frozen dessert machine.

(b)CIP does not include the cleaning of equipment such as band saws, slicers, or mixers that are subjected to in-place manual cleaning without the use of a CIP system.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113747.1.

Cold water means potable water that is not heated by an auxiliary method or source.

(Added by Stats. 2009, Ch. 571, Sec. 3. (SB 241) Effective October 11, 2009.)

113748.

Commingle means:

(a)To combine shellstock harvested on different days or from different growing areas as identified on the tag or label.

(b)To combine shucked shellfish from containers with different container codes or different shucking dates.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113750.

(a)Comminuted means reduced in size by methods including chopping, flaking, grinding, or mincing.

(b)Comminuted includes fish or meat products that are reduced in size and restructured or reformulated including, but not limited to, gefilte fish, formed roast beef, gyros, ground beef, sausage, and a mixture of two or more types of meat that have been reduced in size and combined, including, but not limited to, sausages made from two or more meats.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113751.

Commissary means a food facility that services mobile food facilities, mobile support units, or vending machines where any of the following occur:

(a)Food, containers, or supplies are stored.

(b)Food is prepared or prepackaged for sale or service at other locations.

(c)Utensils are cleaned.

(d)Liquid and solid wastes are disposed, or potable water is obtained.

(Amended by Stats. 2007, Ch. 96, Sec. 3. Effective July 20, 2007.)

113752.

Community food producer means a producer of agricultural products on land that is not zoned for agricultural use but is otherwise in compliance with applicable local land use and zoning restrictions, including, but not limited to, restrictions governing personal gardens, community gardens, school gardens, and culinary gardens.

(Added by Stats. 2014, Ch. 580, Sec. 2. (AB 1990) Effective January 1, 2015.)

113755.

Community event means an event conducted for not more than 25 consecutive or nonconsecutive days in a 90-day period and that is of a civic, political, public, or educational nature, including state and county fairs, city festivals, circuses, and other public gathering events approved by the local enforcement agency.

(Amended by Stats. 2015, Ch. 164, Sec. 1. (AB 143) Effective January 1, 2016.)

113756.

Condiment means a nonpotentially hazardous food, such as relishes, spices, sauces, confections, or seasonings, that requires no additional preparation, and that is used on a food item, including, but not limited to, ketchup, mustard, mayonnaise, sauerkraut, salsa, salt, sugar, pepper, or chile peppers.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113757.

Consumer means a person who is a member of the public, takes possession of food, is not functioning in the capacity of an operator of a food facility, and does not offer the food for resale.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113758.

(a)Cottage food operation means an enterprise that has no more than the amount in gross annual sales that is specified in this subdivision, is operated by a cottage food operator, and has no more than one full-time equivalent cottage food employee, not including a family member or household member of the cottage food operator, within the registered or permitted area of a private home where the cottage food operator resides and where cottage food products are prepared or packaged for direct, indirect, or direct and indirect sale to consumers pursuant to this part. A Class A cottage food operation shall not have more than seventy-five thousand dollars ($75,000) in verifiable gross annual sales. A Class B cottage food operation shall not have more than one hundred fifty thousand dollars ($150,000) in verifiable gross annual sales. The gross annual sales for a Class A or Class B cottage food operation shall be annually adjusted for inflation based on the California Consumer Price Index. A cottage food operation includes both of the following:

(1)A Class A cottage food operation, which is a cottage food operation that may engage only in direct sales of cottage food products from the cottage food operation or other direct sales venues described in paragraph (4) of subdivision (b).

(2)A Class B cottage food operation, which is a cottage food operation that may engage in both direct sales and indirect sales of cottage food products from the cottage food operation, from direct sales venues described in paragraph (4) of subdivision (b), from offsite events, or from a third-party retail food facility described in paragraph (5) of subdivision (b).

(b)For purposes of this section, the following definitions shall apply:

(1)Cottage food employee means an individual, paid or volunteer, who is involved in the preparation, packaging, handling, and storage of a cottage food product, or otherwise works for the cottage food operation. An employee does not include an immediate family member or household member of the cottage food operator, nor an individual who delivers a cottage food product.

(2)Cottage food operator means an individual who operates a cottage food operation in their private home and is the owner of the cottage food operation.

(3)Cottage food products means nonpotentially hazardous foods, including foods that are described in Section 114365.5 and that are prepared for sale in the kitchen of a cottage food operation.

(4)Direct sale means a transaction within the state between a cottage food operation and a consumer, in which the consumer purchases the cottage food product directly from the cottage food operation. Direct sales include, but are not limited to, transactions at holiday bazaars or other temporary events, such as bake sales or food swaps, transactions at farm stands, certified farmers™ markets, or through community-supported agriculture subscriptions, transactions occurring in person in the cottage food operation, and transactions made via the phone, internet, or any other digital method. A direct sale may be fulfilled in person, via mail delivery, or using any other third-party delivery service.

(5)Indirect sale means a transaction within the state between a cottage food operation, a third-party retailer, and a consumer, in which the consumer purchases cottage food products made by the cottage food operation from a third-party retailer that holds a valid permit issued pursuant to Section 114381. Indirect sales include, but are not limited to, sales made to retail shops or to retail food facilities where food may be immediately consumed on the premises. An indirect sale may be fulfilled in person, via mail delivery, or using any other third-party delivery service.

(6)Private home means a dwelling, including an apartment or other leased space, where individuals reside.

(7)Registered or permitted area means the portion of a private home that contains the private homeskitchen used for the preparation, packaging, storage, or handling of cottage food products and related ingredients or equipment, or both, and attached rooms within the home that are used exclusively for storage.

(Amended by Stats. 2021, Ch. 178, Sec. 1. (AB 1144) Effective January 1, 2022.)

113759.

Control point means any distinct procedure or step in receiving, storing, handling, preparing, displaying, transporting, or dispensing a food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113760.

Critical control point means a point or procedure in a specific food system where loss of control may result

in an unacceptable health risk.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113761.

Critical limit means the maximum or minimum value to which a physical, biological, or chemical parameter must be controlled at a critical control point to minimize the risk that the identified food safety hazard may occur.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113763.

Department means the State Department of Public Health.

(Amended by Stats. 2007, Ch. 483, Sec. 25. Effective January 1, 2008.)

113767.

Easily cleanable means a characteristic of a surface that allows effective removal of soil, food residue, or other organic or inorganic materials by normal cleaning methods.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113768.

Easily movable means either of the following:

(a)Portable; mounted on casters, gliders, or rollers so as to be moveable by one person; or provided with a mechanical means to safely tilt or move a unit of equipment for cleaning.

(b)Having no utility connection, a utility connection that disconnects quickly, or a flexible utility connection line of sufficient length to allow the equipment to be moved for cleaning of the equipment and adjacent area.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113769.

Egg means the shell egg of an avian species that includes chicken, duck, goose, guinea, quail, ratite, or turkey, except a balut and an egg product. Egg does not include the egg of a reptile species, including an alligator.

(Amended by Stats. 2009, Ch. 571, Sec. 4. (SB 241) Effective October 11, 2009.)

113770.

Employee means the permitholder, person in charge, person having supervisory or management duties, person on the payroll, family member, volunteer, person performing work under contractual agreement, or other person working in a food facility.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113773.

Enforcement agency means the department or the local health agency having jurisdiction over the food facility.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113774.

Enforcement officer means the director, agents, or environmental health specialists appointed by the State Public Health Officer, and all local health officers, directors of environmental health, and their duly authorized registered environmental health specialists and environmental health specialist trainees.

(Amended by Stats. 2007, Ch. 483, Sec. 26. Effective January 1, 2008.)

113777.

(a)Equipment means an article that is used in the operation of a food facility, including, but not limited to, a freezer, grinder, hood, icemaker, meat block, mixer, oven, reach-in refrigerator, scale, food and utensil shelving and cabinets, sink, slicer, stove, table, temperature measuring device for ambient air, vending machine, or warewashing machine.

(b)Equipment does not include items used for handling or storing large quantities of prepackaged foods that are received from a supplier in a cased or overwrapped lot, such as hand trucks, forklifts, dollies, pallets, racks, and skids.

_(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec.

3 of Ch. 23.)_

113778.

Exclude means to prevent a person from working as a food employee or entering a food facility except for those areas open to the general public.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113778.1.

FDA means the United States Food and Drug Administration.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113778.2.

Farm stands are premises, established in accordance with local ordinances and land use codes, defined under and operated pursuant to Chapter 10.5 (commencing with Section 47000) of Division 17 of the Food and Agricultural Code and regulations adopted and enforced pursuant to that chapter, operating within the requirements set forth in Sections 113789 and 114375.

(Added by Stats. 2008, Ch. 447, Sec. 7. Effective January 1, 2009.)

113778.4.

Fabric implement means a cloth or fabric, including, but not limited to, burlap and cheesecloth, that is used as part of the food process and comes in direct contact with food that is subsequently cooked.

(Added by Stats. 2009, Ch. 571, Sec. 5. (SB 241) Effective October 11, 2009.)

113779.

(a)Fish means fresh or saltwater finfish, crustaceans, and other forms of aquatic life, other than birds or mammals, and all molluscan shellfish, if intended for human consumption. Fish also includes alligator, frog, aquatic turtle, jellyfish, sea cucumber, and sea urchin, and the roe of these animals.

(b)Fish includes a product derived in whole or in part from fish, including fish that have been processed in any manner.

(Amended by Stats. 2015, Ch. 615, Sec. 2. (AB 226) Effective January 1, 2016.)

113780.

Fishermensmarket means a location that is operated by a commercial fisherman licensed by the Department of Fish and Wildlife or an entity representing two or more California-licensed commercial fishermen or California-licensed commercial fishermen and California-registered aquaculturists, that sells only raw edible aquatic plants, raw fresh fish, or fresh frozen fish, caught by commercial fishermen licensed by the Department of Fish and Wildlife or harvested by California-registered aquaculturists, directly to consumers.

(Added by Stats. 2015, Ch. 615, Sec. 3. (AB 226) Effective January 1, 2016.)

113781.

Food means a raw, cooked, or processed edible substance, ice, beverage, an ingredient used or intended for use or for sale in whole or in part for human consumption, and chewing gum.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113783.

Food bank means a surplus food collection and distribution system operated and established to assist in bringing donated food to nonprofit charitable organizations and individuals for the purposes of reducing hunger and supplying nutritional needs.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113784.

Food compartment means an enclosed space, including, but not limited to, an air pot, blender, bulk dispensing system, covered chafing dish, and covered ice bin, with all of the following characteristics:

(a)The space is defined by a physical barrier from the outside environment that completely encloses all food, food-contact surfaces, and the handling of nonprepackaged food.

(b)All access openings are equipped with tight-fitting closures, or one or more alternative barriers that effectively protect the food from contamination, facilitate safe food handling, while minimizing exposure to the environment.

(c)It is constructed from materials that are nontoxic, smooth, easily cleanable, and durable and is constructed to facilitate the cleaning of the interior and exterior of the compartment.

(Amended by Stats. 2009, Ch. 571, Sec. 6. (SB 241) Effective October 11, 2009.)

113786.

Food-contact surface means either of the following:

(a)A surface of equipment or a utensil with which food normally comes into contact.

(b)A surface of equipment or a utensil from which food may drain, drip, or splash into a food or onto a surface normally in contact with food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113788.

Food employee means an employee working with food, food equipment or utensils, or food-contact surfaces.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113789.

(a)Food facility means an operation that stores, prepares, packages, serves, vends, or otherwise provides food for human consumption at the retail level, including, but not limited to, the following:

(1)An operation where food is consumed on or off the premises, regardless of whether there is a charge for the food.

(2)A place used in conjunction with the operations described in this subdivision, including, but not limited to, storage facilities for food-related utensils, equipment, and materials.

(b)Food facility includes permanent and nonpermanent food facilities, including, but not limited to, the following:

(1)Public and private school cafeterias.

(2)Restricted food service facilities.

(3) Licensed health care facilities, except as provided in paragraph (12) of subdivision (c).

(4)Commissaries.

(5)Mobile food facilities.

(6)Mobile support units.

(7)Temporary food facilities.

(8)Vending machines.

(9)Certified farmers™ markets, for purposes of permitting and enforcement pursuant to Section 114370.

(10)Farm stands, for purposes of permitting and enforcement pursuant to Section 114375.

(11)Fishermensmarkets.

(12)Microenterprise home kitchen operations.

(13)Catering operation.

(14)Host facility.

(c)Food facility does not include any of the following:

(1)A cooperative arrangement wherein no permanent facilities are used for storing or handling food.

(2)A private home when used for private, noncommercial purposes or when used as a cottage food operation that is registered or has a permit pursuant to Section 114365.

(3)A church, private club, or other nonprofit association that gives or sells food to its members and guests, and not to the general public, at an event that occurs not more than three days in any 90-day period.

(4)A for-profit entity that gives or sells food at an event that occurs not more than three days in a 90-day period for the benefit of a nonprofit association, if the for-profit entity receives no monetary benefit, other than that resulting from recognition from participating in an event.

(5)Premises set aside for wine tasting, as that term is used in Section 23356.1 of the Business and Professions Code, or premises set aside by a beer manufacturer, as defined in Section 25000.2 of the Business and Professions Code, and in the regulations adopted pursuant to those sections, that comply with Section 118375, regardless of whether there is a charge for the wine or beer tasting, if no other beverage, except for bottles of wine or beer and prepackaged nonpotentially hazardous beverages, is offered for sale or for onsite consumption and no food, except for crackers, pretzels, or prepackaged food that is not potentially hazardous food is offered for sale or for onsite consumption.

(6)An outlet or location, including, but not limited to, premises, operated by a producer, selling or offering for sale only whole produce grown by the producer or shell eggs, or both, provided the sales are conducted at an outlet or location controlled by the producer.

(7)A commercial food processing establishment, as defined in Section 111955.

(8)A child day care facility, as defined in Section 1596.750.

(9)A community care facility, as defined in Section 1502.

(10)A residential care facility for the elderly, as defined in Section 1569.2.

(11)A residential care facility for the chronically ill, which has the same meaning as a residential care facility,

as defined in Section 1568.01.

(12)(A)An intermediate care facility for the developmentally disabled, as defined in subdivisions (e), (h), and (m) of Section 1250, with a capacity of six beds or fewer.

(B)A facility described in subparagraph (A) shall report any foodborne illness or outbreak to the local health department and to the State Department of Public Health within 24 hours of the illness or outbreak.

(13)A community food producer, as defined in Section 113752.

(14)A limited service charitable feeding operation, as defined in Section 113819.

(Amended by Stats. 2018, Ch. 493, Sec. 2.3. (AB 2524) Effective January 1, 2019.)

113790.

(a)Food handler means an individual who is involved in the preparation, storage, or service of food in a food facility, as defined in subdivision (b), other than an individual holding a valid food safety certificate issued pursuant to Section 113947.3 or an individual involved in the preparation, storage, or service of food in a temporary food facility, as defined in Section 113930.

(b)For purposes of the definition of a food facility in subdivision (a) and in Section 113948, a food facility means a food facility, as defined in Section 113789, that sells food for human consumption to the general public.

(Amended by Stats. 2011, Ch. 233, Sec. 1. (SB 303) Effective September 6, 2011.)

113791.

Food preparation means packaging, processing, assembling, portioning, or any operation that changes the form, flavor, or consistency of food, but does not include trimming of produce.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113794.

Food safety program means any city, county, or city and county program that requires, at a minimum, either of the following:

(a)The training of one or more individuals, whether denominated as owners, managers, handlers, or otherwise, relating in any manner to food safety issues.

(b)Individuals to pass a food safety certification examination.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113794.1.

Food handler program means any city, county, or city and county program that requires that all or a substantial portion of the employees of a food facility who are involved in the preparation, storage, service, or handling of food products, engage in an approved food safety training or pass an approved food safety certification examination, or both.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113794.3.

Fresh frozen means that the food was quickly frozen while still fresh, including immediately after the food had been harvested or fish had been caught.

(Added by Stats. 2015, Ch. 615, Sec. 5. (AB 226) Effective January 1, 2016.)

113794.4.

Frozen food means a food maintained at a temperature at which all moisture therein is in a solid state.

(Added by Stats. 2009, Ch. 571, Sec. 8. (SB 241) Effective October 11, 2009.)

113795.

(a)Game animal means an animal, the products of which are food, that is not classified as cattle, sheep, swine, goat, horse, mule, or other equine in Part 301 of Title 9 of the Code of Federal Regulations, as poultry in Part 381 of Title 9 of the Code of Federal Regulations, or as fish as defined under Subpart 1"201.10(B)(31) of the Food and Drug Administration 2001 Food Code.

(b)Game animal includes mammals such as reindeer, elk, deer, antelope, water buffalo, bison, rabbit, squirrel, opossum, raccoon, nutria, or muskrat, and nonaquatic reptiles such as land snakes.

(c)Game animal does not include ratites.

(Amended by Stats. 2016, Ch. 195, Sec. 1. (SB 1067) Effective January 1, 2017.)

113796.

Gleaner means a person who legally gathers remnants of an agricultural crop or harvests part of, or all of, an agricultural crop made available by the owner of the agricultural crop.

(Added by Stats. 2014, Ch. 580, Sec. 4. (AB 1990) Effective January 1, 2015.)

113797.

Grade A standards means the requirements of the United States Public Health Service/FDA Grade A Pasteurized Milk Ordinance and Grade A Condensed and Dry Milk Ordinance with which certain fluid and dry milk and milk products comply.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113799.

HACCP means a Hazard Analysis Critical Control Point.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113801.

HACCP plan means a written document that complies with the requirements of Section 114419.1 and that delineates the formal procedures for following the Hazard Analysis Critical Control Point principles developed by the National Advisory Committee on Microbiological Criteria for Foods. These principles include completion of the following basic steps:

(a)Completion of hazard analysis identification by identifying the likely hazards to consumers presented by a specific food.

(b)Determination of critical control points in receiving, storage, preparation, displaying, and dispensing of a food.

(c)Setting of measurable critical limits for each critical control point determined.

(d)Developing and maintaining monitoring practices to determine if critical limits are being met.

(e)Developing and utilizing corrective action plans when failure to meet critical limits is detected.

(f)Establishing and maintaining a recordkeeping system to verify adherence to an HACCP plan.

(g)Establishing a system of audits to do both of the following:

(1)Initially verify the effectiveness of the critical limits set and appropriateness of the determination of critical control points.

(2)Periodically verify the effectiveness of the HACCP plan.

(Amended by Stats. 2009, Ch. 571, Sec. 9. (SB 241) Effective October 11, 2009.)

113803.

Hazard means a biological, chemical, or physical property that may cause an unacceptable public health risk.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113804.

Hearing officer means a local health officer, a director of environmental health, or his or her designee.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113805.

Hermetically sealed container means a container that is designed and intended to be secure against the entry of micro-organisms and, in the case of low acid canned foods, to maintain the commercial sterility of its contents after processing.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113806.

Highly susceptible population means a group of persons who are more likely than other people in the general population to experience foodborne disease because both of the following conditions exist:

(a)The group is comprised of immunocompromised persons, preschool age children, or older adults.

(b)The group obtains food at a facility, including, but not limited to, a kidney dialysis center, hospital, nursing home, or senior center, that provides services, such as custodial care, health care, assisted living, or socialization services.

(Added by Stats. 2013, Ch. 556, Sec. 2. (AB 1252) Effective January 1, 2014.)

113806.1.

Host facility means a facility located in a brewery, winery, commercial building, or another location as approved by the local enforcement agency, that meets applicable requirements to support a catering operation that provides food directly to individual consumers for a limited period of time, up to four hours, in any one 12-hour period and that has a permit pursuant to Section 114328.1. Host facility does not include the premises described in paragraph (5) of subdivision (c) of Section 113789.

(Added by Stats. 2018, Ch. 493, Sec. 3. (AB 2524) Effective January 1, 2019.)

113807.

Hot dog means a whole, cured, cooked sausage that is skinless or stuffed in a casing, that may be known as a frankfurter, frank, furter, wiener, red hot, vienna, bologna, garlic bologna, or knockwurst, and that may be served in a bun or roll.

(Added by Stats. 2013, Ch. 556, Sec. 3. (AB 1252) Effective January 1, 2014.)

113810.

Imminent health hazard means a significant threat or danger to health that is considered to exist when there is evidence sufficient to show that a product, practice, circumstance, or event creates a situation that can cause food infection, food intoxication, disease transmission, vermin infestation, or hazardous condition that requires immediate correction or cessation of operation to prevent injury, illness, or death.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113812.

Impound means the legal control exercised by the enforcement officer over the use, sale, disposal, or removal of any food, equipment, or utensils.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113814.

Injected means manipulating meat to which a solution has been introduced into its interior by processes that are referred to as injecting, pinning, or stitch pumping.

(Amended by Stats. 2016, Ch. 195, Sec. 2. (SB 1067) Effective January 1, 2017.)

113815.

Juice means the aqueous liquid expressed or extracted from one or more fruits or vegetables, purees of the edible portions of one or more fruits or vegetables, or any concentrates of such liquid or puree. Juice includes juice as a beverage, an ingredient of a beverage, and a puree as an ingredient of a beverage.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113816.

Law means applicable local, state, and federal statutes, regulations, and ordinances.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113818.

(a)Limited food preparation means food preparation that is restricted to one or more of the following:

(1)Heating, frying, baking, roasting, popping, shaving of ice, blending, steaming or boiling of hot dogs, or assembly of nonprepackaged food.

(2)Dispensing and portioning of nonpotentially hazardous food or dispensing and portioning for immediate service to a customer of food that has been temperature controlled until immediately prior to portioning or dispensing.

(3)Holding, portioning, and dispensing of any foods that are prepared for satellite food service by the onsite permanent food facility or prepackaged by another approved source.

(4)Holding, portioning, and dispensing of any foods that are prepared by a catering operation.

(5)Slicing and chopping of nonpotentially hazardous food or produce that has been washed at an approved facility or slicing and chopping of food on a heated cooking surface during the cooking process.

(6)Cooking and seasoning to order.

(7)Juicing or preparing beverages that are for immediate service, in response to an individual consumer order, that do not contain frozen milk products.

(8)Hot and cold holding of food that has been prepared at an approved permanent food facility.

(9)Reheating of food that has been previously prepared at an approved permanent food facility and held at temperatures required by this chapter.

(b)Limited food preparation does not include any of the following:

(1)Slicing and chopping potentially hazardous food, other than produce, unless it is on the heated cooking

surface.

(2)Thawing.

(3)Cooling of cooked, potentially hazardous food.

(4)Grinding raw ingredients or potentially hazardous food.

(5)Washing of foods.

(6)Cooking of potentially hazardous foods for later use.

(7)Handling, manufacturing, freezing, processing, or packaging of milk, milk products, or products resembling milk products subject to licensing under Division 15 (commencing with Section 32501) of the Food and Agricultural Code.

(Amended by Stats. 2022, Ch. 489, Sec. 1. (SB 972) Effective January 1, 2023.)

113819.

(a)Limited service charitable feeding operation means an operation for food service to a consumer solely for providing charity, that is conducted by a nonprofit charitable organization operating pursuant to Chapter 10.6 (commencing with Section 114333), and whose food service is limited to any of the following functions:

(1)Storage and distribution of whole, uncut produce, or of prepackaged, nonpotentially hazardous foods in their original manufacturerspackaging.

(2)Storage and distribution of commercially prepared and commercially packaged potentially hazardous cold or frozen foods.

(3)Heating, portioning, or assembling a small volume of commercially prepared foods or ingredients for same-day food service to the consumer, as follows:

(A)Heating, portioning, or assembling a small volume of commercially prepared foods means food preparation that is restricted to one or more of the following:

(i)Assembly of ready-to-eat foods that require no further preparation aside from assembly.

(ii)Heating, including boiling of pasta and grains, and serving.

(iii)Dispensing, portioning, or repackaging of bulk foods.

(B)Heating, portioning, or assembling a small volume of commercially prepared foods does not include any of the following:

(i)Chopping or dicing.

(ii)Cooking of raw animal products.

(iii)Blending.

(iv)Other food processing as identified by the local enforcement agency.

(4)Reheating or portioning of only commercially prepared foods with no further processing, for same-day food service to the consumer.

(b)Limited service charitable feeding operation does not include a nonprofit charitable temporary food facility operating pursuant to Chapter 10.5 (commencing with Section 114332), or a temporary food facility operating pursuant to Chapter 11 (commencing with Section 114335). A limited service charitable feeding operation shall operate pursuant to Chapter 10.5 (commencing with Section 114332) or Chapter 11 (commencing with Section 114335) if it operates a nonprofit charitable temporary food facility or a temporary food facility, respectively.

(Amended by Stats. 2021, Ch. 155, Sec. 2. (AB 831) Effective January 1, 2022.)

113820.

Linens means fabric items such as cloth hampers, cloth napkins, tablecloths, wiping cloths, and work garments, including cloth gloves.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113820.5.

(a)Major food allergen means all of the following:

(1)Milk.

(2)Eggs.

(3)Fish, including, but not limited to, bass, flounder, and cod.

(4)Crustacean shellfish, including, but not limited to, crab, lobster, and shrimp.

(5)Tree nuts, including, but not limited to, almonds, pecans, and walnuts.

(6)Wheat.

(7)Peanuts.

(8)Soybeans.

(9)A food ingredient that contains protein derived from a food listed in paragraphs (1) to (8), inclusive.

(b)Major food allergen does not include either of the following:

(1)A highly refined oil derived from a food specified in paragraphs (1) to (8), inclusive, of subdivision (a) and any ingredient derived from that highly refined oil.

(2)An ingredient that is exempt under the petition or notification process specified in the federal Food Allergen Labeling and Consumer Protection Act of 2004 (Public Law 108-282).

(Added by Stats. 2016, Ch. 195, Sec. 4. (SB 1067) Effective January 1, 2017.)

113821.

Major violation means a violation of this part that may pose an imminent health hazard and warrants immediate closure or other corrective action.

(Amended by Stats. 2009, Ch. 571, Sec. 11. (SB 241) Effective October 11, 2009.)

113823.

Meat means the flesh of animals used as food, including the dressed flesh of cattle, swine, sheep, goats, and other edible animals, except fish, poultry, and wild game animals specified in subdivision (a) of Section 114031.

(Amended by Stats. 2016, Ch. 195, Sec. 5. (SB 1067) Effective January 1, 2017.)

113824.

Menu change means a modification of a food facilitysmenu that would require a change in the food facilitysfood preparation methods, storage equipment, or storage capacity previously approved by the local enforcement agency. These changes may include, but are not limited to, the addition of potentially hazardous foods to a menu, installation of new food preparation or storage equipment, or increasing storage capacity.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113825.

(a)Microenterprise home kitchen operation means a food facility that is operated by a resident in a private home where food is stored, handled, and prepared for, and may be served to, consumers, and that meets all of the following requirements:

(1)The operation has no more than one full-time equivalent food employee, not including a family member or household member.

(2)Food is prepared, cooked, and served on the same day.

(3)Food is consumed onsite at the microenterprise home kitchen operation or offsite if the food is picked up by the consumer or delivered within a safe time period based on holding equipment capacity.

(4)Food preparation does not involve processes that require a HACCP plan, as specified in Section 114419, or the production, service, or sale of raw milk or raw milk products, as defined in Section 11380 of Title 17 of the California Code of Regulations.

(5)The service and sale of raw oysters is prohibited.

(6)The production, manufacturing, processing, freezing, or packaging of milk or milk products, including, but not limited to, cheese, ice cream, yogurt, sour cream, and butter, is prohibited.

(7)Food preparation is limited to no more than 30 individual meals per day, or the approximate equivalent of meal components when sold separately, and no more than 90 individual meals, or the approximate equivalent of meal components when sold separately, per week. The local enforcement agency may decrease the limit of the number of individual meals prepared based on food preparation capacity of the operation, but shall not, in any case, increase the limit of the number of individual meals prepared.

(8)The operation has no more than one hundred thousand dollars ($100,000) in verifiable gross annual sales, as adjusted annually for inflation based on the California Consumer Price Index.

(9)The operation only sells food directly to consumers and not to any wholesaler or retailer. For purposes of this paragraph, the sale of food prepared in a microenterprise home kitchen operation through the internet website or mobile application of an internet food service intermediary, as defined in Section 114367.6, is a direct sale to consumers. An operation that sells food through the internet website or mobile application of an internet food service intermediary shall consent to the disclosures specified in paragraphs (6) and (7) of subdivision (a) of Section 114367.6.

(b)Microenterprise home kitchen operation does not include either of the following:

(1)A catering operation.

(2)A cottage food operation, as defined in Section 113758.

(c)For purposes of this section, resident of a private home means an individual who resides in the private home when not elsewhere for labor or other special or temporary purpose.

(d)For purposes of this section, meal means the amount or quantity of food that is intended to be consumed by one customer in one sitting. A meal may include one or more of any of the following:

(1)A main dish.

(2)Appetizers.

(3)Side dishes.

(4)Beverages.

(5)Baked goods.

(6)Desserts.

(Amended by Stats. 2023, Ch. 101, Sec. 1. (AB 1325) Effective July 21, 2023.)

113827.

Minor violation means a violation of this part that does not pose an imminent health hazard, but does warrant correction.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113831.

(a)Mobile food facility means any vehicle used in conjunction with a commissary or other permanent food facility upon which food is sold or distributed at retail. Mobile food facility does not include a transporter used to transport packaged food from a food facility, or other approved source to the consumer.

(b)Single operating site mobile food facilities means at least one, but not more than four, unenclosed mobile food facilities, and their auxiliary units, that operate adjacent to each other at a single location.

(c)Compact mobile food operation means a mobile food facility that operates from an individual or from a pushcart, stand, display, pedal-driven cart, wagon, showcase, rack, or other nonmotorized conveyance.

(Amended by Stats. 2022, Ch. 489, Sec. 2. (SB 972) Effective January 1, 2023.)

113833.

Mobile support unit means a vehicle used in conjunction with a commissary or other permanent food facility that travels to and services mobile food facilities as needed to replenish supplies, including food and potable water, clean the interior of the unit, or dispose of liquid or solid wastes.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113835.

Molluscan shellfish means any edible species of fresh or frozen oysters, clams, mussels, and scallops or edible portions thereof, except when the scallop product consists only of the shucked adductor muscle.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113837.

Multiservice utensil means a utensil manufactured for use more than one time.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113839.

Nonpermanent food facility means a food facility that operates from a mobile unit or at a nonpermanent location, including, but not limited to, a certified farmers™ market, a fishermensmarket, a mobile food facility, a mobile support unit, a temporary food facility, or a vending machine.

(Amended by Stats. 2015, Ch. 615, Sec. 6. (AB 226) Effective January 1, 2016.)

113841.

Nonprofit charitable organization means either of the following:

(a)A corporation incorporated pursuant to the Nonprofit Corporation Law (Division 2 (commencing with Section 5000) of Title 1 of the Corporations Code), that is exempt from taxation pursuant to paragraphs (1) to (10), inclusive, and paragraph (19) of Section 501(c) of the Internal Revenue Code and Section 23701d of the Revenue and Taxation Code.

(b)An organization that was organized and is in operation for charitable purposes and meets the requirements of Section 214 of the Revenue and Taxation Code.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113842.

Nonprofit charitable temporary food facilities means either one of the following:

(a)A temporary food facility, as defined in Section 113930, that is conducted by a nonprofit charitable organization, as defined in Section 113841.

(b)An established club or organization of students that operates under the authorization of a school or other educational facility.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113843.

Open-air barbecue means a piece of equipment designed for barbecuing food, where the food is prepared out of doors by cooking directly over hot coals, heated lava, hot stones, gas flame, or other method approved by the department, on equipment suitably designed and maintained for use out of doors, that is operated by a temporary food facility, a catering operation, or a mobile food facility that remains fixed during hours of operations at a community event or a permanent food facility.

(Amended by Stats. 2018, Ch. 493, Sec. 5. (AB 2524) Effective January 1, 2019.)

113846.

Outdoor wood-burning oven means an oven located out of doors, that utilizes wood as the primary fuel for cooking and is operated by a temporary food facility, mobile food facility that remains fixed during hours of operation at a community event, permanent food facility, satellite food service, or catering operation.

(Amended by Stats. 2021, Ch. 155, Sec. 3. (AB 831) Effective January 1, 2022.)

113849.

Permanent food facility means a food facility operating in a permanently constructed structure, including any room, building, place, or portion thereof, maintained, used, or operated for the purpose of storing, preparing, serving, manufacturing, packaging, or otherwise handling food at the retail level.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113851.

(a)Permit means the document issued by the enforcement agency that authorizes a person to operate a food facility or cottage food operation.

(b)Registration shall have the same meaning as permit for purposes of implementation and enforcement of this part.

(Amended by Stats. 2012, Ch. 415, Sec. 9. (AB 1616) Effective January 1, 2013.)

113853.

Permitholder means the entity that is legally responsible for the operation of the food facility, such as the owner, the ownersagent, or other person, and possesses a valid permit to operate a food facility.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113855.

Person means any individual, firm, partnership, joint venture, association, limited liability company, corporation, estate, trust, receiver, syndicate, city, county, or other political subdivision, or any other group or combination acting as a unit.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113856.

Person in charge means the individual present at a food facility who is responsible for the operation of the food facility.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113859.

(a)Personal care items means items or substances that may be poisonous, toxic, or a source of contamination and are used to maintain or enhance a personshealth, hygiene, or appearance.

(b)Personal care items include items such as medicines, first aid supplies, cosmetics, and toiletries such as toothpaste and mouthwash.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113861.

pH means the symbol for the negative logarithm of the hydrogen ion concentration, which is a measure of the degree of acidity or alkalinity of a solution. Values between 0 and 7 indicate acidity and values between 7 and 14 indicate alkalinity. The value for pure distilled water is 7, which is considered neutral.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113863.

Plumbing fixture means a receptacle or device that is permanently or temporarily connected to the water distribution system of the premises and demands a supply of water from the system or discharges used water, waste materials, or sewage directly or indirectly to the drainage system of the premises.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113865.

Plumbing system means the water supply and distribution pipes, plumbing fixtures and traps, soil, waste, and vent pipes, sanitary and storm sewers and building drains, including their respective connections, devices, and appurtenances within the premises, and water-treating equipment.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113867.

Poisonous or toxic materials means substances that are not intended for ingestion and are included in one of the following categories:

(a)Cleaners and sanitizers, which include cleaning and sanitizing agents and agents such as caustics, acids, drying agents, polishes, and other chemicals.

(b)Pesticides except sanitizers, which include substances such as insecticides and rodenticides.

(c)Substances necessary for the operation and maintenance of the facility, such as nonfood grade lubricants and personal care items that may be deleterious to health.

(d)Substances that are not necessary for the operation and maintenance of the facility and are on the premises for retail sale, such as petroleum products and paints.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113868.

Portable means equipment that is capable of being lifted and moved or has utility connections that are designed to be disconnected or of sufficient length to permit the unit to be moved for cleaning, and does not exceed 100 pounds (46 kg) in weight or is otherwise designed to be mobile.

(Amended by Stats. 2022, Ch. 489, Sec. 3. (SB 972) Effective January 1, 2023.)

113869.

Potable water means water that complies with the standards for transient noncommunity water systems pursuant to the California Safe Drinking Water Act (Chapter 4 (commencing with Section 116270) of Part 12, to the extent permitted by federal law.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113871.

(a)Potentially hazardous food means a food that requires time or temperature control to limit pathogenic micro-organism growth or toxin formation.

(b)Potentially hazardous food includes a food of animal origin that is raw or heat-treated, a food of plant origin that is heat-treated or consists of raw seed sprouts, cut melons, cut tomatoes or mixtures of cut tomatoes that are not modified to render them unable to support pathogenic micro-organism growth or toxin formation, and garlic-in-oil mixtures that are not acidified or otherwise modified at a food processing plant in a way that results in mixtures that do not support growth or toxin formation as specified under subdivision (a).

(c)Potentially hazardous food does not include any of the following:

(1)A food with an aw value of 0.85 or less.

(2)A food with a pH level of 4.6 or below when measured at 75Â°F.

(3)An air-cooled, hard-boiled egg with shell intact, or an egg with shell intact that is not hard boiled, but has been pasteurized to destroy all viable salmonellae.

(4)A food in an unopened, hermetically sealed container that is commercially processed to achieve and maintain commercial sterility under conditions of nonrefrigerated storage and distribution.

(5)A food that has been shown by appropriate microbial challenge studies approved by the enforcement agency not to support the rapid and progressive growth of infectious or toxigenic micro-organisms that may cause food infections or food intoxications, or the growth and toxin production of Clostridium botulinum, such as a food that has an aw and a pH that are above the levels specified under paragraphs (1) and (2) and that may contain a preservative, other barrier to the growth of micro-organisms, or a combination of barriers that inhibit the growth of micro-organisms.

(6)A food that does not support the rapid and progressive growth of infectious or toxigenic micro-organisms, even though the food may contain an infectious or toxigenic micro-organism or chemical or physical contaminant at a level sufficient to cause illness.

(Amended by Stats. 2009, Ch. 571, Sec. 13. (SB 241) Effective October 11, 2009.)

113873.

Poultry means either of the following:

(a)Any domesticated bird, including chickens, turkeys, ducks, geese, or guineas, whether live or dead, as defined in Poultry Products Inspection Regulations (9 C.F.R. 381).

(b)Any migratory waterfowl, game bird, including a pheasant, partridge, quail, grouse, or guinea, or pigeon, ratites, or squab, whether live or dead, as defined in the Voluntary Poultry Inspection Regulations (9 C.F.R. 362).

(Amended by Stats. 2016, Ch. 195, Sec. 6. (SB 1067) Effective January 1, 2017.)

113874.

Premises means:

(a)The food facility, its contents, and the contiguous land or property and its facilities and contents that are under the control of the permitholder.

(b)The food facility, its contents, and the land or property not described in subdivision (a) if the facility and contents are under the control of the permitholder and may impact food facility personnel, facilities, or operations.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113876.

Prepackaged food means any properly labeled processed food, prepackaged to prevent any direct human contact with the food product upon distribution from the manufacturer, a food facility, or other approved source.

(Amended by Stats. 2009, Ch. 571, Sec. 14. (SB 241) Effective October 11, 2009.)

113877.

Produce means any whole edible portion of a plant in its raw and natural state.

(Amended by Stats. 2008, Ch. 447, Sec. 9. Effective January 1, 2009.)

113879.

Produce stand means a permanent food facility that sells, offers for sale, or gives away only produce or shell eggs, or both, except that produce stand does not include premises operated by a producer selling or offering for sale only whole produce grown by the producer, or shell eggs, or both, provided that the sales are conducted on premises controlled by the producer.

(Amended by Stats. 2009, Ch. 571, Sec. 15. (SB 241) Effective October 11, 2009.)

113880.

Producer means a person or entity who produces shell eggs or edible plants by practice of the agricultural arts upon land that the person or entity controls.

(Amended by Stats. 2008, Ch. 447, Sec. 10. Effective January 1, 2009.)

113881.

Ready-to-eat food means food that is in a form that is edible without additional preparation to achieve food safety, as specified in Section 114004 or Section 114008, is a raw or partially cooked food of animal origin and the consumer is advised as specified under Section 114093, or may receive additional preparation for palatability or aesthetic, epicurean, gastronomic, or culinary purposes. Ready-to-eat food includes all of the following:

(a)Raw food of animal origin that is cooked as specified in Section 114004 or 114008.

(b)Raw fruits and vegetables that are washed as specified in Section 113992.

(c)Fruits and vegetables that are cooked for hot holding as specified in Section 114010.

(d)All potentially hazardous food that is cooked to the temperature and time required for the specific food under Sections 114004, 114008, and 114010 and cooled as specified in Section 114002.

(e)Produce for which further washing, cooking, or other processing is not required for food safety, and from which rinds, peels, husks, or shells, if naturally present, are removed.

(f)Substances derived from plants, such as spices, seasonings, and sugar.

(g)A bakery item, such as bread, cakes, pies, fillings, or icing, for which further cooking is not required for food safety.

(h)The following products that are produced in accordance with USDA guidelines and that have received a lethality treatment for pathogens: dry, fermented sausages, such as dry salami or pepperoni; salt-cured meat and poultry products, such as prosciutto ham, country cured ham, and parma ham; and dried meat and poultry products, such as jerky or beef sticks.

(i)Foods manufactured according to 21 C.F.R. Part 113"Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113883.

Reduced-oxygen packaging means the reduction of the amount of oxygen in a package by mechanically evacuating the oxygen, displacing the oxygen with another gas or combination of gases, or otherwise controlling the oxygen content in a package to a level below that normally found in the surrounding atmosphere, which is 21 percent oxygen.

Reduced-oxygen packaging includes methods that may be referred to as altered atmosphere, modified atmosphere, controlled atmosphere, low oxygen, and vacuum packaging, including sous vide.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113885.

Refrigeration unit means a mechanical unit that extracts heat from an area through liquefaction and evaporation of a fluid by a compressor, flame, or thermoelectric device, and includes a mechanical thermostatic control device that regulates refrigerated blown air into an enclosed area at or below the minimum required food storage temperature of potentially hazardous foods in conformance with Section 113996.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113887.

Refuse means solid waste not carried by water through the sewage system.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113889.

Remodel means construction, building, or repair to the food facility that requires a permit from the local building authority. For purposes of mobile food facilities, temporary food facilities, and satellite food service, remodel means any replacement or significant modification of an integral piece of equipment.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113893.

(a)Restricted food service facility means either of the following:

(1)A food facility of 20 guestrooms or less that provides overnight transient occupancy accommodations, that serves food only to its registered guests, that serves only a breakfast or similar early morning meal and no other meals, and that includes the price of food in the price of the overnight transient occupancy accommodation.

(2)An agricultural homestay facility that meets all of the following requirements:

(A)Has not more than six guest rooms or accommodates not more than 15 guests.

(B)Provides overnight transient accommodations.

(C)Serves food only to its registered guests and serves meals at any time, and includes the price of food in the price of the overnight transient occupancy accommodation.

(D)Lodging and meals are incidental and not the primary function of the agricultural homestay facility.

(E)The agricultural homestay facility is located on, and is a part of, a farm, as defined in Section 52262 of the Food and Agricultural Code, that produces agricultural products as its primary source of income.

(b)Notwithstanding subdivision (a), a restricted food service facility may serve light foods or snacks presented to the guest for self-service.

(c)The predominant relationship between the occupants of a restricted food service facility and the permitholder of the facility is that of innkeeper and guest. For purposes of this section, the existence of some other legal relationships as between some occupants and the permitholder shall be immaterial.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113894.

Restrict means to limit the activities of a food employee so that there is no risk of transmitting a disease that is transmissible through food and the food employee does not work with exposed food, clean equipment, utensils, linens, and unwrapped single-use articles.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113895.

Retail means the storing, preparing, serving, manufacturing, packaging, transporting, salvaging, or otherwise handling food for dispensing or sale directly to the consumer or indirectly through a delivery service.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113897.

Sanitization means the application of cumulative heat or chemicals on cleaned food-contact surfaces that, when evaluated for efficacy, is sufficient to yield a reduction of five logs, which is equal to a 99.999 percent reduction, of representative disease micro-organisms of public health importance.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113899.

Satellite food service means a remotely located food service operation that is conducted on the same property as, in reasonable proximity to, and in conjunction with and by, a fully enclosed permanent food facility. Satellite food service located within a fully enclosed permanent food facility shall be temporary by nature.

(Amended by Stats. 2021, Ch. 155, Sec. 4. (AB 831) Effective January 1, 2022.)

113901.

Sealed means free of cracks or other openings that allow the entry or passage of moisture.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113903.

(a)Service animal means any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability, or that is in training to do that work or perform those tasks. Service animal does not include any other species of animals, whether wild or domestic, trained or untrained.

(b)The work or tasks performed by a service animal shall include assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing nonviolent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, or helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animalspresence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this subdivision.

(Amended by Stats. 2013, Ch. 556, Sec. 5. (AB 1252) Effective January 1, 2014.)

113907.

Shellfish certification number means a unique combination of letters and numbers assigned by a shellfish control authority to a molluscan shellfish dealer according to law or to the provisions of the National Shellfish Sanitation Program.

(Amended by Stats. 2007, Ch. 96, Sec. 6. Effective July 20, 2007.)

113909.

Shellfish control authority means a state, federal, foreign, tribal, or other government entity legally responsible for administering a program that includes certification of molluscan shellfish harvesters and dealers.

(Amended by Stats. 2007, Ch. 96, Sec. 7. Effective July 20, 2007.)

113911.

Shellstock means raw, in-shell molluscan shellfish.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113912.

Shucked shellfish means molluscan shellfish that have one or both shells removed.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113914.

Single-use articles mean utensils, tableware, carry-out utensils, bulk food containers, and other items such as bags, containers, placemats, stirrers, straws, toothpicks, and wrappers that are designed and constructed for one time, one person use, after which they are intended for discard. Single-use articles also include items such as wax paper, butcher paper, plastic wrap, formed aluminum food containers, jars, plastic tubs or buckets, bread wrappers, pickle barrels, ketchup bottles, and number 10 cans that do not meet the materials, durability, strength, and cleanability specifications for utensils under Sections 114130, 114130.1, and 114130.3.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113916.

Smooth means any of the following:

(a)A food-contact surface that is free of pits, pinholes, cracks, crevices, inclusions, rough edges, and other surface imperfections detectable by visual or tactile inspection.

(b)A nonfood-contact equipment surface equal to that of commercial grade hot-rolled steel free of visible scale.

(c)A floor, wall, or ceiling having an even or level surface with no roughness or projections that render it

difficult to clean.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113917.

Swap meet shall have the meaning set forth in Section 21661 of the Business and Professions Code.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113924.

Table-mounted equipment means equipment that is not portable and is designed to be mounted off the floor on a table, counter, or shelf.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113926.

Tableware means eating, drinking, and serving utensils for table use, including forks, knives, spoons, bowls, cups, serving dishes, tumblers, and plates.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113928.

Temperature measuring device means a thermometer, thermocouple, thermistor, or other device that indicates the temperature of food, air, or water.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113930.

Temporary food facility means a food facility approved by the enforcement officer that operates at a fixed location for the duration of an approved community event or at a swap meet and only as a part of the community event or swap meet.

(Amended by Stats. 2009, Ch. 571, Sec. 17. (SB 241) Effective October 11, 2009.)

113930.5.

Third-party food delivery platform means a business engaged in the service of online food ordering and delivery from a food facility to a consumer. For purposes of this section, a food facility does not include a grocery store, as defined in Section 113948, or a room, building, or place or portion thereof, excluding a restaurant, used to sell to a customer primarily the following products: fresh produce, meat, poultry, fish, deli products, dairy products, perishable beverages, baked foods, and prepared foods.

(Added by Stats. 2020, Ch. 105, Sec. 1. (AB 3336) Effective January 1, 2021.)

113931.

Tight-fitting means fabricated so that joining members are in contact along the entire seam with no opening greater than 1/64th inch (.04 cm).

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113932.

Transporter means any vehicle used to transport food pursuant to a prior order from a manufacturer, distributor, retail food facility, or other approved source to a retail food facility or consumer.

(Amended by Stats. 2009, Ch. 571, Sec. 18. (SB 241) Effective October 11, 2009.)

113933.

USDA means the United States Department of Agriculture.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113934.

Utensil means a food-contact implement or container used in the storage, preparation, transportation, dispensing, sale, or service of food, such as kitchenware or tableware that is multiuse, single-service, or single-use, gloves used in contact with food, temperature sensing probes of food temperature measuring devices, and probe-type price or identification tags used in contact with food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113936.

Variance means a written document issued by the department that allows the use of an alternative practice or procedure based on a determination by the department that the alternate practice or procedure is equivalent to the existing requirements, and that a health hazard will not result from the alternative practice or procedure. A variance may be issued in the following circumstances:

(a)For employee hygiene, as described in subdivision (e) of Section 113953, and Sections 113953.3 and 113953.4.

(b)For protection of food from contamination, as described in Sections 113984, 113986, 113988, and 113992.

(c)For time as a public health control, as described in Section 114000.

(d)For cooling time and methods, as described in Sections 114002 and 114002.1.

(e)For cooking and reheating temperatures for potentially hazardous food, as described in Sections 114004, 114008, 114010, and 114016.

(f)For use of raw shell eggs in foods that are not thoroughly cooked, as described in Section 114012.

(g)For thawing of frozen food, as described in Section 114020.

(h)For receiving temperatures of potentially hazardous foods, as described in Section 114037.

(i)For reduced-oxygen packaging of potentially hazardous food, as described in Sections 114057 and 114057.1.

(j)For sanitization methods for food-contact and nonfood-contact surfaces, as described in Sections 114099.6, 114109, 114117, 114119, and 114121.

(k)For dispensing bulk potentially hazardous food from vending machines as described in subdivision (c) of Section 114145.

(Amended by Stats. 2017, Ch. 259, Sec. 1. (AB 836) Effective January 1, 2018.)

113938.

Vending machine means a self-service device that, upon insertion of money or tokens, dispenses food without the necessity of replenishing the device between each vending operation and that operates in conjunction with a commissary. Vending machine does not include any device dispensing exclusively peanuts, nuts, popcorn, gum, or hard candy, prepackaged candy, cookies, crackers, or similar snacks and beverages that are not potentially hazardous food, and prepackaged ice.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113939.

Vermin means cockroaches, mice, rats, and similar pests that carry disease.

(Amended by Stats. 2009, Ch. 571, Sec. 19. (SB 241) Effective October 11, 2009.)

113939.1.

Vermin infestation means the presence of vermin within the food facility as evidenced by actual live bodies, fresh droppings or vomitus, urine stains, or gnaw marks, that could result in contamination to the food, equipment, packaging, or utensils.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113940.

Warewashing means the cleaning and sanitizing of utensils and food-contact surfaces of equipment.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113941.

Warm water means water that is supplied through a mixing valve or combination faucet at a temperature of at least 100ÂºF.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

(Chapter 3 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 2. Employee Knowledge [113947 - 113948]__

(Article 2 added by Stats. 2006, Ch. 23, Sec. 2.)

113947.

(a)The person in charge and all food employees shall have adequate knowledge of, and shall be properly trained in, food safety as it relates to their assigned duties.

(b)The person in charge shall comply with both of the following:

(1)Have adequate knowledge of major food allergens, foods identified as major food allergens, and the symptoms that a major food allergen could cause in a sensitive individual who has an allergic reaction.

(2)Educate the employees at the food facility regarding the information described in paragraph (1), which the person in charge may elect to accomplish by, among other methods, using a poster or job aid to which the employee can refer.

(c) For purposes of this section, person in charge means a designated person who has knowledge of safe food handling practices and the major food allergens as they relate to the specific food preparation activities that occur at the food facility.

(Amended by Stats. 2016, Ch. 195, Sec. 7. (SB 1067) Effective January 1, 2017.)

113947.1.

(a)Food facilities that prepare, handle, or serve nonprepackaged potentially hazardous food, except temporary food facilities, shall have an owner or employee who has successfully passed an approved and accredited food safety certification examination as specified in Sections 113947.2 and 113947.3. There shall be at least one food safety certified owner or employee at each food facility. No certified person at a food facility may serve at any other food facility as the person required to be certified pursuant to this subdivision. The certified owner or employee need not be present at the food facility during all hours of operation.

(b)Food facilities that are not subject to the requirements of subdivision (a) that prepare, handle, or serve nonprepackaged, nonpotentially hazardous foods, except temporary food facilities, shall do one of the following:

(1)Have an owner or employee who has successfully passed an approved and accredited food safety certification examination as specified in Sections 113947.2 and 113947.3.

(2)Demonstrate to the enforcement officer that the employees have an adequate knowledge of food safety principles as they relate to the specific operation involved in their assigned duties.

(c)On and after July 1, 2007, temporary food facilities that prepare, handle, or serve nonprepackaged food shall have an owner or person in charge who can demonstrate to the enforcement officer that he or she has an adequate knowledge of food safety principles as they relate to the specific food facility operation.

(d)(1)For the purposes of this section, multiple contiguous food facilities permitted within the same site and under the same management, ownership, or control shall be deemed to be one food facility, notwithstanding the fact that the food facilities may operate under separate permits.

(2)This subdivision shall not apply to the premises of a licensed winegrower or brandy manufacturer utilized for wine tastings conducted pursuant to Section 23356.1 of the Business and Professions Code of wine or brandy produced or bottled by, or produced and prepackaged for, that licensee when use is limited to wine tasting.

(e)A food facility that commences operation, changes ownership, or no longer has a certified owner or employee pursuant to this section shall have 60 days to comply with this subdivision.

(f)The responsibilities of a certified owner or employee at a food facility or an owner or person in charge of a temporary food facility described in subdivision (c) shall include the safety of food preparation and service, including ensuring that all employees who handle, or have responsibility for handling, nonprepackaged foods of any kind, have sufficient knowledge to ensure the safe preparation or service of the food, or both. The nature and extent of the knowledge that each employee is required to have may be tailored, as appropriate, to the employeesduties related to food safety issues.

(g)The food safety certificate issued pursuant to Section 113947.3 shall be retained on file at the food facility at all times, and shall be made available for inspection by the enforcement officer.

(h)Certified individuals shall be recertified every five years by passing an approved and accredited food safety certification examination.

(i)A food safety program that was not in effect prior to January 1, 1999, shall not be enacted, adopted, implemented, or enforced, unless the program fully conforms to the requirements of this part.

(Amended by Stats. 2007, Ch. 96, Sec. 9. Effective July 20, 2007.)

113947.2.

The food safety certification examination for purposes of Section 113947.1 shall include, but need not be limited to, all of the following elements of knowledge:

(a)Foodborne illness, including terms associated with foodborne illness, micro-organisms, hepatitis A, and toxins that can contaminate food and the illness that can be associated with contamination, definition and recognition of potentially hazardous foods, chemical, biological, and physical contamination of food, and the illnesses that can be associated with food contamination, and major contributing factors for foodborne illness.

(b)The relationship between time and temperature with respect to foodborne illness, including the relationship between time and temperature and micro-organisms during the various food handling, preparation, and serving states, and the type, calibration, and use of thermometers in monitoring food temperatures.

(c)The relationship between personal hygiene and food safety, including the association of hand contact, personal habits and behaviors, and food employee health to foodborne illness, and the recognition of how policies, procedures, and management contribute to improved food safety practices.

(d)Methods of preventing food contamination in all stages of food handling, including terms associated with contamination and potential hazards prior to, during, and after delivery.

(e)Procedures for cleaning and sanitizing equipment and utensils.

(f)Problems and potential solutions associated with facility and equipment design, layout, and construction.

(g)Problems and potential solutions associated with temperature control, preventing cross-contamination, housekeeping, and maintenance.

(h)Describing foods identified as major food allergens and the symptoms that a major food allergen could cause in a sensitive individual who has an allergic reaction.

(Amended by Stats. 2016, Ch. 195, Sec. 8. (SB 1067) Effective January 1, 2017.)

113947.3.

(a)Food safety certification required pursuant to Section 113947.1 shall be achieved by successfully passing an examination from an accredited food protection manager certification organization. The certification organization shall be accredited by the American National Standards Institute as meeting the requirements of the Conference for Food ProtectionsStandards for Accreditation of Food Protection Manager Certification Programs. Those food employees who successfully pass an approved certification examination shall be

issued a certificate by the certifying organization. The issuance date for each original certificate issued pursuant to this section shall be the date when the individual successfully completes the examination. Certificates shall be valid for five years from the date of original issuance. Any replacement or duplicate certificate shall have as its expiration date the same expiration date that was on the original certificate.

(b)(1)By July 20, 2008, the department, in consultation with the California Conference of Directors of Environmental Health, representatives of the retail food industry, and other interested parties, shall develop and implement a program for the purposes of demonstrating adequate knowledge for operators of temporary food facilities.

(2)At least one of the accredited food safety certification examinations shall cost no more than sixty dollars ($60), including the certificate. However, the department may adjust the cost of food safety certification examinations to reflect actual expenses incurred in producing and administering the food safety certification examinations required under this section. If a food safety certification examination is not available at the price established by the department, the certification and recertification requirements relative to food safety certification examinations imposed by this section shall not apply.

(3)At least one of the accredited food safety certification examinations shall be offered online.

(4)An accredited food safety certification examination that is provided with an in-person trainer-led class or is offered online shall be proctored under secure conditions to protect the validity of the food protection manager certification examination.

(Amended by Stats. 2011, Ch. 233, Sec. 2. (SB 303) Effective September 6, 2011.)

113947.4.

Except as provided in Section 113947.5, no city, county, or city and county may enact, adopt, implement, or enforce any requirement that any food facility or any person certified pursuant to this section do any of the following:

(a)Obtain any food safety certificate or other document in addition to the certificate required by Section 113947.1.

(b)Post, place, maintain, or keep the certificate other than as specified in subdivision (e) of Section 113947.1.

(c)Pay any fee or other sum as a condition for having a certificate verified, validated, or otherwise processed by the city, county, or city and county.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113947.5.

Certification conferred pursuant to this part shall be recognized throughout the state. Nothing in this part shall be construed to prohibit any enforcement agency from implementing or enforcing a food handler program that took effect prior to January 1, 1998, but only in the form in which the program existed prior to January 1, 1998.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113947.6.

Notwithstanding Section 114395, a violation of any provision in Sections 113947.1 to 113947.5, inclusive, shall constitute an infraction punishable by a fine of not more than one hundred dollars ($100) for each day of operation in violation.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113948.

(a)(1)Subject to the exceptions described in subdivision (e), a food handler who is hired prior to June 1, 2011, shall obtain a food handler card on or before July 1, 2011. Subject to the exceptions described in subdivision (e), a food handler who is hired on or after June 1, 2011, shall obtain a food handler card within 30 days after the date of hire. Each food handler shall maintain a valid food handler card for the duration of the food handlersemployment as a food handler.

(2)Food handler cards shall be valid for three years from the date of issuance, regardless of whether the food handler changes employers during that period.

(3)A food handler card shall be recognized throughout the state, except in jurisdictions described in subdivision (f).

(b)(1)Prior to January 1, 2012, a food handler may obtain a food handler card from either one of the following:

(A)An American National Standards Institute (ANSI) accredited training provider that meets ASTM International E2659-09 Standard Practice for Certificate Programs.

(B)A food protection manager certification organization described in Section 113947.3.

(2)Commencing January 1, 2012, a food handler shall obtain a food handler card only from an American National Standards Institute (ANSI) accredited training provider that meets ASTM International E2659-09 Standard Practice for Certificate Programs.

(3)A food handler card shall be issued only upon successful completion of a food handler training course and examination that meets at least all of the following requirements:

(A)(i)The course provides basic, introductory instruction on the elements of knowledge described in subdivisions (a), (b), (c), (d), (e), and (g) of Section 113947.2.

(ii)On or before January 1, 2021, the course shall include instruction on both of the following:

(I)The elements of knowledge described in paragraph (1) of subdivision (b) of Section 113947 that are consistent with recommendations from a nationally organized allergy organization.

(II)Safe handling food practices for major food allergens, as defined in Section 113820.5, as they relate to food preparation activities that occur at a food facility, including, but not limited to, training on the avoidance of allergen cross-contamination.

(B)The course and examination is designed to be completed within approximately two and one-half hours.

(C)The examination consists of at least 40 questions regarding the required subject matter.

(D)A minimum score of 70 percent on the examination is required to successfully complete the examination.

(c)The food handler training course and examination may be offered through a trainer-led class and examination, through the use of a computer program or the internet, or through a combination of a trainer-led class and the use of a computer program or the internet. The use of a computer program or the internet shall have sufficient security channels and procedures to guard against fraudulent activity. However, this subdivision shall not be construed to require the presence or participation of a proctor during a food handler training course examination that is provided through a computer program or the internet.

(d)This section shall apply to a food handler who is employed by a food facility, as defined in Section 113790, or an organized camp, as defined in Section 18897, consistent with Section 30730 of Title 17 of the California Code of Regulations.

(e)This section shall not apply to a food handler who is employed by any of the following:

(1)Certified farmersmarkets.

(2)Commissaries.

(3)Grocery stores, except for separately owned food facilities to which this section otherwise applies that are located in the grocery store. For purposes of this paragraph, grocery store means a store primarily engaged in the retail sale of canned food, dry goods, fresh fruits and vegetables, and fresh meats, fish, and poultry and any area that is not separately owned within the store where food is prepared and served, including a bakery, deli, and meat and seafood counter. Grocery store includes convenience stores.

(4)Licensed health care facilities.

(5)Mobile support units.

(6)Public and private school cafeterias.

(7)Restricted food service facilities.

(8)Retail stores in which a majority of sales are from a pharmacy, as defined in Section 4037 of the Business and Professions Code, and venues with snack bar service in which the majority of sales are from admission tickets, but excluding any area in which restaurant-style sit-down service is provided.

(9)A food facility that provides in-house food safety training to all employees involved in the preparation, storage, or service of food if all of the following conditions are met:

(A)The food facility uses a training course that has been approved for use by the food facility in another state that has adopted the requirements described in Subpart 2-103.11 of the 2001 edition of the model Food

Code, not including the April 2004 update, published by the federal Food and Drug Administration.

(B)Upon request, the food facility provides evidence satisfactory to the local enforcement officer demonstrating that the food facility training program has been approved for use in another state pursuant to subparagraph (A).

(C)The training is provided during normal work hours, and at no cost to the employee.

(10)A food facility that is subject to a collective bargaining agreement with its food handlers.

(11)Any city, county, city and county, state, or regional facility used for the confinement of adults or minors, including, but not limited to, a county jail, juvenile hall, camp, ranch, or residential facility.

(12)An elderly nutrition program, administered by the California Department of Aging, pursuant to the Older Americans Act of 1965 (42 U.S.C. Sec. 3001 et seq.), as amended.

(f)The requirements of this section, except for subdivision (i), shall not apply to a food handler subject to an existing local food handler program that took effect prior to January 1, 2009.

(g)Each food facility that employs a food handler subject to the requirements of this section shall maintain records documenting that each food handler employed by the food facility possesses a valid food handler card, and shall provide those records to the local enforcement officer upon request.

(h)(1)By January 1, 2025, the department shall post on its internet website a link to the internet website of ANSI-accredited food handler training programs. A local public health department shall provide a link to that web page on its own internet website.

(2)At least one food handler training course and examination shall cost no more than fifteen dollars ($15), including a food handler card. If a food handler training course and examination is not available at that cost, the requirement to obtain a food handler card imposed by this section shall not apply.

(i)(1)An employer shall consider the time that it takes for the employee to complete the training and the examination as compensable hours worked, for which the employer shall pay and, pursuant to Section 2802 of the Labor Code, shall pay the employee for any necessary expenditures or losses associated with the employee obtaining a food handler card. An employer shall relieve an employee of all other work duties while the employee is taking the training course and examination.

(2)An employer shall not condition employment on an applicant or employee having an existing food handler card.

(Amended by Stats. 2023, Ch. 610, Sec. 1. (SB 476) Effective January 1, 2024.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 3. Management and Personnel [113945 - 113978]__

(Chapter 3 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 3. Employee Health [113949 - 113950.5]__

(Article 3 added by Stats. 2006, Ch. 23, Sec. 2.)

113949.

It is the intent of the Legislature to reduce the likelihood of foodborne disease transmission by preventing any food employee who is suffering from symptoms associated with an acute gastrointestinal illness, or known to be infected with a communicable disease that is transmissible through food, from engaging in the handling of food until the food employee is determined to be free of that illness or disease, or incapable of transmitting the illness or disease through food as specified in this article.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113949.1.

(a)When a local health officer is notified of an illness that can be transmitted by food in a food facility or by an employee of a food facility, the local health officer shall inform the local enforcement agency. The local health officer or the local enforcement agency, or both, shall notify the person in charge of the food facility and shall investigate conditions and may, after the investigation, take appropriate action, and for reasonable cause, require any or all of the following measures to be taken:

(1)The immediate restriction or exclusion of any food employee from the affected food facility.

(2)The immediate closing of the food facility until, in the opinion of the local enforcement agency, the

identified danger of disease outbreak has been addressed. Any appeal of the closure shall be made in writing within five days to the applicable local enforcement agency.

(3) Any medical evaluation of any employee, including any laboratory test or procedure, that may be indicated. If an employee refuses to participate in a medical evaluation, the local enforcement agency may require the immediate exclusion of the refusing employee from that or any other food facility until an acceptable medical evaluation or laboratory test or procedure shows that the employee is not infectious.

(b)For purposes of this section, illness means a condition caused by any of the following infectious agents:

(1)Salmonella typhi.

(2)Salmonella spp.

(3)Shigella spp.

(4)Entamoeba histolytica.

(5)Enterohemorrhagic or shiga toxin producing Escherichia coli.

(6)Hepatitis A virus.

(7)Norovirus.

(8)Other communicable diseases that are transmissible through food.

(Amended by Stats. 2009, Ch. 571, Sec. 21. (SB 241) Effective October 11, 2009.)

113949.2.

The owner who has a food safety certificate issued pursuant to Section 113947.1 or the food employee who has this food safety certificate shall instruct all food employees regarding the relationship between personal hygiene and food safety, including the association of hand contact, personal habits and behaviors, and food employee health to foodborne illness. The owner or food safety certified employee shall require food employees to report the following to the person in charge:

(a)If a food employee is diagnosed with an illness due to one of the following:

(1)Salmonella typhi.

(2)Salmonella spp.

(3)Shigella spp.

(4)Entamoeba histolytica.

(5)Enterohemorrhagic or shiga toxin producing Escherichia coli.

(6)Hepatitis A virus.

(7)Norovirus.

(b)If a food employee has a wound that is one of the following:

(1)On the hands or wrists, unless an impermeable cover such as a finger cot or stall protects the wound and a single-use glove is worn over the impermeable cover.

(2)On exposed portions of the arms, unless the wound is protected by an impermeable cover.

(3)On other parts of the body, unless the wound is covered by a dry, durable, tight-fitting bandage.

(Amended by Stats. 2013, Ch. 556, Sec. 6. (AB 1252) Effective January 1, 2014.)

113949.4.

A food employee shall do both of the following:

(a)Report to the person in charge the information specified under Section 113949.2.

(b)Comply with the exclusions or restrictions, or both, that are specified under Section 113950.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113949.5.

(a)The person in charge shall notify the local enforcement agency when notified that the food employee has been diagnosed with an infectious agent specified under subdivision (b) of Section 113949.1.

(b)A person in charge shall notify the local enforcement agency when he or she is aware that two or more food employees are concurrently experiencing symptoms associated with an acute gastrointestinal illness.

(Amended by Stats. 2007, Ch. 96, Sec. 13. Effective July 20, 2007.)

113950.

(a)The local health officer or, in consultation with the local health officer, the local enforcement agency shall do either of the following:

(1) Exclude a food employee from a food facility if the food employee is diagnosed with an infectious agent specified in subdivision (b) of Section 113949.1 and the food employee is symptomatic and still considered infectious.

(2)Restrict a food employee if the food employee is diagnosed with an infectious agent specified under subdivision (b) of Section 113949.1 and is not experiencing symptoms of the illness associated with that

agent but is still considered infectious with an agent specified in subdivision (b) of Section 113949.1.

(b)The person in charge shall do either of the following:

(1)Exclude a food employee from a food facility if the food employee is diagnosed with an infectious agent specified under subdivision (b) of Section 113949.1.

(2)Restrict a food employee from working with exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles in a food facility if the food employee is suffering from symptoms of an acute gastrointestinal illness.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113950.5.

(a)The person in charge may remove a restriction for a food employee upon the resolution of symptoms as reported by a food employee if the food employee states that he or she no longer has any symptoms of an acute gastrointestinal illness.

(b)Only the local health officer or the local enforcement agency, or both, shall remove exclusions or restrictions, or both, related to diagnosed illnesses due to infectious agents specified in subdivision (b) of Section 113949.1 after the local health officer provides a written clearance stating that the excluded or restricted food employee is no longer considered infectious.

(Amended by Stats. 2009, Ch. 571, Sec. 23. (SB 241) Effective October 11, 2009.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 3. Management and Personnel [113945 - 113978]__

(Chapter 3 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 4. Handwashing [113952 - 113963]__

(Article 4 added by Stats. 2006, Ch. 23, Sec. 2.)

113952.

Food employees shall keep their hands and exposed portions of their arms clean.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113953.

(a)Handwashing facilities shall be provided within or adjacent to toilet rooms. The number of handwashing facilities required shall be in accordance with local building and plumbing codes.

(b)(1)Except as otherwise provided in Section 114358, food facilities constructed or extensively remodeled after January 1, 1996, that handle nonprepackaged food, shall provide facilities exclusively for handwashing in food preparation areas and in warewashing areas that are not located within or immediately adjacent to food preparation areas. Handwashing facilities shall be sufficient in number and conveniently located so as to be accessible at all times for use by food employees.

(2)The handwashing facility shall be separated from the warewashing sink by a metal splashguard with a height of at least 6 inches, that extends from the back edge of the drainboard to the front edge of the drainboard, the corners of the barrier to be rounded. No splashguard is required if the distance between the handwashing sink and the warewashing sink drainboards is 24 inches or more.

(c)Handwashing facilities shall be equipped to provide warm water under pressure for a minimum of 15 seconds through a mixing valve or combination faucet. If the temperature of water provided to a handwashing sink is not readily adjustable at the faucet, the temperature of the water shall be at least 100Â° F, but not greater than 108Â°F.

(d)An automatic handwashing facility may be installed and used in accordance with the manufacturersinstructions.

(e)Notwithstanding subdivision (b), the enforcement agency may allow handwashing facilities other than those required by this section when it deems that the alternate facilities are adequate.

(Amended by Stats. 2009, Ch. 571, Sec. 24. (SB 241) Effective October 11, 2009.)

113953.1.

(a)A handwashing facility shall be clean, unobstructed, and accessible at all times for employee use.

(b)A handwashing facility shall not be used for purposes other than handwashing.

(c)Employees shall not clean their hands in a sink used for food preparation, warewashing, or in a service sink or a curbed cleaning facility used for the disposal of mop water and similar liquid waste.

(d)Notwithstanding subdivision (c), a warewashing sink may be used for handwashing as specified in Section 114125.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113953.2.

A handwashing facility shall be provided with the following in dispensers at, or adjacent to, each handwashing facility:

(a)Handwashing cleanser.

(b)Sanitary single-use towels or a heated-air hand drying device.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113953.3.

(a)Except as specified in subdivisions (b) and (c), all employees shall thoroughly wash their hands and that portion, if any, of their arms exposed to direct food contact with cleanser and warm water by vigorously rubbing together the surfaces of their lathered hands and arms for at least 10 to 15 seconds and thoroughly rinsing with clean running water followed by drying of cleaned hands and that portion, if any, of their arms exposed. Employees shall pay particular attention to the areas underneath the fingernails and between the fingers. Employees shall wash their hands in all of the following instances:

(1)Immediately before engaging in food preparation, including working with nonprepackaged food, clean equipment and utensils, and unwrapped single-use food containers and utensils.

(2)After touching bare human body parts other than clean hands and clean, exposed portions of arms.

(3)After using the toilet room.

(4)After caring for or handling any animal allowed in a food facility pursuant to this part.

(5)After coughing, sneezing, using a handkerchief or disposable tissue, using tobacco, eating, or drinking.

(6)After handling soiled equipment or utensils.

(7)During food preparation, as often as necessary to remove soil and contamination and to prevent cross-contamination when changing tasks.

(8)When switching between working with raw food and working with ready-to-eat food.

(9)Before initially donning gloves for working with food.

(10)Before dispensing or serving food or handling clean tableware and serving utensils in the food service area.

(11)After engaging in other activities that contaminate the hands.

(b)If approved and capable of removing the types of soils encountered in the food operations involved, an automatic handwashing facility may be used by food employees to clean their hands.

(c)A food facility may incorporate an alternate glove use procedure in which double gloves are worn to handle raw animal proteins. The loose-fitting outer glove shall be removed in a manner to prevent cross-contamination of the tight-fitting inner glove before the inner glove is used as a barrier to bare hand contact with ready-to-eat food.

(Amended by Stats. 2021, Ch. 155, Sec. 5. (AB 831) Effective January 1, 2022.)

113953.4.

(a)A hand antiseptic used as a topical application, a hand antiseptic solution used as a hand dip, or a hand antiseptic soap shall meet either one of the following requirements:

(1)Be an approved drug that is listed in the FDA publication Approved Drug Products with Therapeutic Equivalence Evaluations as an approved drug based on safety and effectiveness.

(2)Have active antimicrobial ingredients that are listed in the FDA monograph for OTC Antiseptic Health-Care Drug Products as an antiseptic handwash.

(b)In addition to the requirements of subdivision (a), the hand antiseptic used as a topical application, hand antiseptic solution used as a hand dip, or hand antiseptic soap shall meet either one of the following requirements:

(1)Have components that are exempted from the requirement of being listed in federal Food Additive regulations as specified in 21 CFR 170.39" Threshold of regulation for substances used in food-contact articles.

(2)Comply with, and be listed in, either of the following federal regulations:

(A)21 CFR 178 " Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers as regulated for use as a Food Additive with conditions of safety use.

(B)21 CFR 182 " Substances Generally Recognized as Safe, 21 CFR 184 " Direct Food Substances Affirmed as Generally Recognized as Safe, or 21 CFR 186 " Indirect Food Substances Affirmed as Generally Recognized as Safe for use in contact with food.

(c)A hand antiseptic used as a topical application, a hand antiseptic solution used as a hand dip, or a hand antiseptic soap that meets the requirements of subdivisions (a) and (b) shall be applied only to hands that are cleaned in a manner described in Section 113953.3.

(d)If a hand antiseptic or a hand antiseptic solution used as a hand dip does not meet the requirements of subdivision (b), the hand antiseptic or hand antiseptic solution used as a hand dip may be used only if its use is either of the following:

(1)Followed by thorough hand rinsing in clean water before hand contact with food directly or with the use of gloves.

(2)Limited to situations where bare hands do not come in direct contact with food.

(e)A hand antiseptic solution used as a hand dip shall be maintained clean and at a strength equivalent to at least 100 mg/l chlorine.

(Repealed and added by Stats. 2007, Ch. 96, Sec. 15. Effective July 20, 2007.)

113953.5.

(a)Except as specified in subdivision (b), a sign or poster that notifies food employees to wash their hands shall be posted at all handwashing lavatories used by food employees, and shall be clearly visible to food employees.

(b)This section does not apply to toilet rooms in guestrooms of restricted food service facilities.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113961.

(a)Food employees shall minimize bare hand and arm contact with nonprepackaged food that is in a ready-to-eat form.

(b)Food employees shall use nonlatex utensils, including scoops, forks, tongs, paper wrappers, gloves, or other implements, to assemble ready-to-eat food or to place ready-to-eat food on tableware or in other containers. However, food employees may assemble or place on tableware or in other containers ready-to-eat food in an approved food preparation area without using utensils if hands are cleaned in accordance with Section 113953.3.

(c)Food that has been served to the consumer and then wrapped or prepackaged at the direction of the consumer shall be handled only with utensils. These utensils shall be properly sanitized before reuse.

(Amended by Stats. 2019, Ch. 254, Sec. 2. (SB 677) Effective January 1, 2020.)

113963.

Consistent with Section 113952, a food employee working in any food facility, as defined in Section 113789 of the Health and Safety Code, shall be permitted to wash their hands every 30 minutes and additionally as needed.

(Added by Stats. 2020, Ch. 45, Sec. 2. (AB 1867) Effective September 9, 2020.)

Codes Display Text

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 3. Management and Personnel [113945 - 113978]__

(Chapter 3 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 5. Personal Cleanliness [113967 - 113971]__

(Article 5 added by Stats. 2006, Ch. 23, Sec. 2.)

113967.

No employee shall commit any act that may cause the contamination or adulteration of food, food-contact

surfaces, or utensils.

(Amended by Stats. 2007, Ch. 96, Sec. 17. Effective July 20, 2007.)

113968.

Food employees shall keep their fingernails trimmed, filed, and maintained so the edges and surfaces are cleanable and not rough.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113969.

(a)Except as specified in subdivision (b), all food employees preparing, serving, or handling food or utensils shall wear hair restraints, such as hats, hair coverings, or nets, which are designed and worn to effectively keep their hair from contacting nonprepackaged food, clean equipment, utensils, linens, and unwrapped single-use articles.

(b)This section does not apply to food employees, such as counter staff who only serve beverages and wrapped or prepackaged foods, hostesses, and wait staff, if they present a minimal risk of contaminating nonprepackaged food, clean equipment, utensils, linens, and unwrapped single-use articles.

(Amended by Stats. 2009, Ch. 571, Sec. 25. (SB 241) Effective October 11, 2009.)

113971.

Food employees shall wear clean outer clothing to prevent contamination of food, equipment, utensils, linens, and single-use articles.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 3. Management and Personnel [113945 - 113978]__

(Chapter 3 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 6. Hygienic Practices [113973 - 113978]__

(Article 6 added by Stats. 2006, Ch. 23, Sec. 2.)

113973.

(a)Single-use nonlatex gloves shall be worn when contacting food and food-contact surfaces if the employee has any cuts, sores, rashes, artificial nails, nail polish, rings, other than a plain ring, such as a wedding band, uncleanable orthopedic support devices, or fingernails that are not clean, smooth, or neatly trimmed.

(b)Whenever gloves are worn, they shall be changed, replaced, or washed as often as handwashing is required by this part. Single-use gloves shall not be washed.

(c)If used, single-use gloves shall be used for only one task, such as working with ready-to-eat food or with raw food of animal origin, used for no other purpose, and shall be discarded when damaged or soiled, or when interruptions in the food handling occur.

(d)Except as specified in subdivision (e), nonlatex, slash-resistant gloves that are used to protect the hands during operations requiring cutting shall be used only with food that is subsequently cooked as specified in Section 114004, such as frozen food or a primal cut of meat.

(e)Nonlatex, slash-resistant gloves may be used with ready-to-eat food that will not be subsequently cooked if the slash-resistant gloves have a smooth, durable, and nonabsorbent outer surface or if the slash-resistant gloves are covered with a smooth, durable, nonabsorbent glove, or a single-use glove.

(f)Cloth gloves may not be used in direct contact with food unless the food is subsequently cooked.

(g)The use of latex gloves is prohibited in food facilities and retail food establishments. Types of nonlatex gloves that may be used in a food facility or retail food establishment include, but are not limited to, nitrile, polyethylene, and vinyl.

(Amended by Stats. 2019, Ch. 254, Sec. 3. (SB 677) Effective January 1, 2020.)

113974.

Food employees experiencing, while at work in a food facility, persistent sneezing, coughing, or runny nose that is associated with discharges from the eyes, nose, or mouth, and that cannot be controlled by medication, shall not work with exposed food; clean equipment, utensils, or linens; or unwrapped single-use utensils.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113975.

(a)Except as provided in subdivision (b), an employee who has a wound that is open or draining shall not handle food.

(b)A food employee who has a wound is restricted from food handling unless the food employee complies with all of the following:

(1)If the wound is located on the hand or wrist, an impermeable cover, such as a finger cot or stall, shall protect the wound. A single-use glove shall be worn over the impermeable cover.

(2)If the wound is located on exposed portions of the arms, an impermeable cover shall protect the wound.

(3)If the wound is located on other parts of the body, a dry, durable, tight-fitting bandage shall cover the wound.

(4)For purposes of this section, a wound also includes a cut, sore, rash, or lesion.

(Added by Stats. 2013, Ch. 556, Sec. 11. (AB 1252) Effective January 1, 2014.)

113976.

Unless a utensil used to taste food is discarded after the first time it is used for this purpose and before the next tasting or any other use, the utensil shall be washed, rinsed, and sanitized pursuant to Chapter 5 (commencing with Section 114095) between tastings and before any other use.

(Amended by Stats. 2009, Ch. 571, Sec. 26. (SB 241) Effective October 11, 2009.)

113977.

(a)Except as specified in subdivision (b), an employee shall eat, drink, or use any form of tobacco only in designated areas where contamination of nonprepackaged food; clean equipment, utensils, and linens; unwrapped single-use articles; or other items needing protection cannot result.

(b)A food employee may drink from a closed beverage container if the container is handled to prevent contamination of the employeeshands, the container, nonprepackaged food, and food-contact surfaces.

(Amended by Stats. 2007, Ch. 96, Sec. 18. Effective July 20, 2007.)

113978.

Food facilities shall have a no smoking sign posted in the food preparation, food storage, and warewashing areas.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 4. General Food Safety Requirements [113980 - 114094.5]__

(Chapter 4 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 1. Protection from Contamination [113980 - 113992]__

(Article 1 added by Stats. 2006, Ch. 23, Sec. 2.)

113980.

All food shall be manufactured, produced, prepared, compounded, packed, stored, transported, kept for sale, and served so as to be pure and free from adulteration and spoilage; shall have been obtained from approved sources; shall be protected from dirt, vermin, unnecessary handling, droplet contamination, overhead leakage, or other environmental sources of contamination; shall otherwise be fully fit for human consumption; and shall conform to the applicable provisions of the Sherman Food, Drug, and Cosmetic Law (Part 5 (commencing with Section 109875)).

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113982.

(a)Except as specified in subdivision (b), food shall be transported in a manner that meets the following requirements:

(1)The interior floor, sides, and top of the food holding area shall be constructed of a smooth, washable, impervious material capable of withstanding frequent cleaning.

(2)The food holding area shall be constructed and operated so that no liquid wastes can drain onto any street, sidewalk, or premises.

(3)Except as provided in subdivision (a) of Section 113996, potentially hazardous food shall be maintained at the required holding temperatures.

(b)(1)Ready-to-eat food delivered through a third-party food delivery platform shall be transported in a manner that meets all of the following requirements:

(A)The interior floor, sides, and top of the food holding area shall be clean and capable of withstanding frequent cleaning.

(B)Ready-to-eat food shall be protected from contamination in accordance with Section 113980.

(C)The food shall be maintained at holding temperature necessary to prevent spoilage.

(2)All bags or containers in which ready-to-eat foods are being transported or delivered from a food facility to a customer through a third-party food delivery platform shall be closed by the food facility with a tamper-evident method prior to the food deliverer, who transports and delivers ready-to-eat food for the third-party food delivery platform, taking possession of the ready-to-eat food.

(3)Enforcement officers may recover from a third-party food delivery platform reasonable costs that are associated with the enforcement of this section against food deliverers who transport and deliver ready-to-eat food for the third-party food delivery platform.

(c)(1)This section shall not apply to the transportation of prepackaged nonpotentially hazardous foods.

(2)Paragraph (2) of subdivision (b) shall not apply to food transported as part of a charitable feeding program or food being donated to a food bank, as defined in Section 113783.

(Amended by Stats. 2020, Ch. 105, Sec. 2. (AB 3336) Effective January 1, 2021.)

113984.

(a)Adequate and suitable counter space shall be provided for all food preparation operations.

(b)Except as specified in subdivision (c), food preparation shall be conducted within a fully enclosed food facility.

(c)Limited food preparation shall be conducted within a food compartment or as approved by the enforcement agency. Subject to subdivision (g), this subdivision does not require an additional food compartment when adding ingredients to a beverage or dispensing into a serving container when the beverage is prepared for immediate service in response to an individual consumer order.

(d)Food shall be prepared with suitable utensils and on surfaces that, prior to use, have been cleaned, rinsed, and sanitized as specified in Section 114117 to prevent cross-contamination.

(e)Overhead protection shall be provided above all food preparation, food display, warewashing, and food storage areas.

(f)All food shall be thawed, washed, sliced, and cooled within an approved fully enclosed food facility.

(g)Based upon local environmental conditions, location, and other similar factors, the enforcement officer may establish additional structural or operational requirements, or both, for mobile food facilities as necessary to ensure that foods, food-contact surfaces, and utensils are of a safe and sanitary quality.

(Amended by Stats. 2015, Ch. 615, Sec. 7. (AB 226) Effective January 1, 2016.)

113984.1.

Consumer access to a food facility through the food preparation area is permissible, at the discretion of the permitholder, if ready-to-eat foods are prepared in approved areas separated from sources of contamination by a space of at least three feet from the consumer and in areas that are separate from raw or undercooked

foods. The route of access shall be separated from the required space by a rail or wall at least three feet high or otherwise clearly delineated.

(Amended by Stats. 2007, Ch. 96, Sec. 21. Effective July 20, 2007.)

113986.

(a)Food shall be protected from cross-contamination by utilizing one or more of the following methods:

(1)Separating raw food of animal origin during transportation, storage, preparation, holding, and display from raw ready-to-eat food, including other raw food of animal origin such as fish for sushi or molluscan shellfish, or other raw ready-to-eat food such as produce, and cooked ready-to-eat food in any of the following ways:

(A)Using separate equipment of each type.

(B)Arranging each type of food in equipment so that cross-contamination of one type with another is prevented.

(C)Preparing each type of food at different times or in separate areas.

(D)Except as specified in subdivision (b), storing the food in packages, covered containers, or wrappings.

(E)Cleaning hermetically sealed containers of food of visible soil before opening.

(F)Protecting food containers that are received packaged together in a case or overwrap from cuts when the case or overwrap is opened.

(G)Storing damaged, spoiled, or recalled food being held in the food establishment as specified in Section 114055.

(H)Separating fruits and vegetables before they are washed, as specified in Section 113992, from ready-to-eat food.

(2)Except when combined as ingredients, separating types of raw foods of animal origin from each other during transportation, storage, preparation, holding, and display in the following ways:

(A)Using separate equipment for each type.

(B)Arranging each type of food in equipment so that cross-contamination of one type with another is prevented.

(C)Preparing each type of food at different times or in separate areas.

(D)Except as specified in subdivision (b), storing the food in packages, covered containers, or wrappings.

(E)Cleaning hermetically sealed containers of food of visible soil before opening.

(F)Protecting food containers that are received packaged together in a case or overwrap from cuts when the

case or overwrap is opened.

(G)Storing damaged, spoiled, or recalled food being held in the food establishment as specified in Section 114055.

(H)Separating fruits and vegetables before they are washed, as specified in Section 113992, from ready-to-eat food.

(b)Subparagraph (D) of paragraph (2) of subdivision (a) of this section shall not apply to any of the following:

(1)Whole, uncut, raw fruits and vegetables and nuts in the shell that require peeling or hulling before consumption.

(2)Primal cuts, quarters, or sides of raw meat or slab bacon that are hung on clean, sanitized hooks or placed on clean, sanitized racks.

(3)Whole, uncut, processed meats, such as country hams, and smoked or cured sausages that are placed on clean, sanitized racks.

(4)Food being cooled as specified in subdivision (b) of Section 114002.1.

(5)Shellstock.

(Amended by Stats. 2009, Ch. 571, Sec. 29. (SB 241) Effective October 11, 2009.)

113988.

(a)Food shall be protected from contamination that may result from the addition of unsafe or unapproved food or color additives or unsafe or unapproved levels of approved food and color additives.

(b)A food employee may not apply sulfiting agents to fresh fruits and vegetables intended for raw consumption, or to any potentially hazardous food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113990.

Ice that has been used as a medium for cooling the exterior surfaces of food such as melons or fish, prepackaged foods such as canned beverages, or cooling coils and tubes of equipment, shall not be used as food.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

113992.

(a)Produce shall be thoroughly washed in potable water to remove soil and other contaminants before being cut, combined with other ingredients, cooked, served, or offered for human consumption in ready-to-eat form, except as specified in subdivision (b) and except when intended for washing by the consumer before consumption.

(b)Chemicals used to wash or peel produce shall meet the requirements specified in 21 C.F.R. 173.315.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 4. General Food Safety Requirements [113980 - 114094.5]__

(Chapter 4 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 2. Time and Temperature Relationships [113996 - 114020]__

(Article 2 added by Stats. 2006, Ch. 23, Sec. 2.)

113996.

(a)Except during preparation, cooking, cooling, transportation to or from a retail food facility for a period of less than 30 minutes, or when time is used as the public health control as specified under Section 114000, or

as otherwise provided in this section, potentially hazardous food shall be maintained at or above 135Â°F, or at or below 41Â°F.

(b)Roasts cooked to a temperature and for a time specified in subdivision (b) of Section 114004 shall be held at a temperature of 130Â°F or above.

(c)The following foods may be held at or below 45Â°F:

(1)Raw shell eggs.

(2)Unshucked live molluscan shellfish.

(3)Pasteurized milk and pasteurized milk products in original, sealed containers.

(4)Potentially hazardous foods held for dispensing in vending machines.

(5)Potentially hazardous foods held for sampling at a certified farmers™ market.

(6)Potentially hazardous foods held during transportation.

(d)Potentially hazardous foods held for dispensing in serving lines and salad bars may be maintained above 41Â°F, but not above 45Â°F, during periods not to exceed 12 hours in any 24-hour period only if the unused portions are disposed of at or before the end of this 24-hour period. For purposes of this subdivision, a display case shall not be deemed to be a serving line.

(Amended by Stats. 2009, Ch. 571, Sec. 30. (SB 241) Effective October 11, 2009.)

113998.

If it is necessary to remove potentially hazardous food from the specified holding temperatures to facilitate preparation, this preparation shall in no case exceed two cumulative hours without a return to the specified holding temperatures.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114000.

(a)Except as specified in subdivision (b), if time only, rather than time in conjunction with temperature, is used as the public health control for a working supply of potentially hazardous food before cooking or for ready-to-eat potentially hazardous food that is displayed or held for service for immediate consumption, the following shall occur:

(1)The food shall be marked or otherwise identified to indicate the time that is four hours past the point in time when the food is removed from temperature control.

(2)The food shall be cooked and served, served if ready-to-eat, or discarded within four hours from the point

in time when the food is removed from temperature control.

(3)The food in unmarked containers or packages or marked to exceed a four-hour limit shall be discarded.

(4)Written procedures shall be maintained in the food facility and made available to the enforcement agency upon request, that ensure compliance with this section and Section 114002, for food that is prepared, cooked, and refrigerated before time is used as a public health control.

(b)Time only, rather than time in conjunction with temperature, may not be used as the public health control for raw eggs in the following food facilities:

(1)Licensed health care facilities.

(2)Public and private school cafeterias.

(Amended by Stats. 2007, Ch. 96, Sec. 24. Effective July 20, 2007.)

114002.

(a)Whenever food has been prepared or heated so that it becomes potentially hazardous, it shall be rapidly cooled if not held at or above 135Â°F.

(b)After heating or hot holding, potentially hazardous food shall be cooled rapidly from 135ÂºF to 41Â°F or below within six hours and, during this time the decrease in temperature from 135Â°F to 70Â°F shall occur within two hours.

(c)Potentially hazardous food shall be cooled within four hours to 41Â°F or less if prepared from ingredients at ambient temperature, such as reconstituted foods and canned tuna.

(d)Except as specified in subdivision (e), a potentially hazardous food received in compliance with laws allowing a temperature above 41Â°F during shipment from the supplier as specified in Section 114037 shall be cooled within four hours to 41Â°F or less.

(e)Pasteurized milk in original, sealed containers, pasteurized milk products in original, sealed containers, raw shell eggs, and unshucked live molluscan shellfish need not comply with subdivision (c) or (d) if these foods are placed immediately upon their receipt in refrigerated equipment that maintains an ambient temperature of 45Â°F or less.

(Amended by Stats. 2009, Ch. 571, Sec. 31. (SB 241) Effective October 11, 2009.)

114002.1.

(a)The rapid cooling of potentially hazardous foods shall be accomplished in accordance with the time and temperature criteria specified in Section 114002 by using one or more of the following methods based on the type of food being cooled:

(1)Placing the food in shallow pans.

(2)Separating the food into smaller or thinner portions.

(3)Using rapid cooling equipment.

(4)Using containers that facilitate heat transfer.

(5)Adding ice as an ingredient.

(6)Using ice paddles.

(7)Inserting appropriately designed containers in an ice bath and stirring frequently.

(8)In accordance with an HACCP plan adopted pursuant to this part.

(9)Utilizing other effective means that have been approved by the enforcement agency.

(b)When placed in cooling or cold holding equipment, food containers in which food is being cooled shall be arranged in the equipment to provide maximum heat transfer through the container walls, loosely covered, or uncovered if protected from overhead contamination during the cooling period to facilitate heat transfer from the surface of the food, and stirred as necessary to evenly cool a liquid or a semi-liquid food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114004.

(a)Except as specified in subdivision (b) or (c), raw animal foods such as eggs, fish, meat, poultry, and foods containing these raw animal foods shall be cooked to heat all parts of the food to a temperature and for a time that complies with the following methods based on the food that is cooked:

(1)The following shall be heated to a minimum internal temperature of 145 degrees Fahrenheit or above for 15 seconds:

(A)Raw shell eggs that are broken and prepared in response to a consumersorder and for immediate service.

(B)Except as specified in paragraph (2) or (3) of subdivision (a) or subdivision (b) or (c), fish and meat, including game animals commercially raised for food.

(2)The following foods shall be heated to a minimum internal temperature of 155 degrees Fahrenheit for 15 seconds or the temperature specified in the following chart that corresponds to the holding time:

(A)Ratites and mechanically tenderized and injected meats.

(B)The following foods, if they are comminuted: fish, meat, and game animals commercially raised for food as specified in subparagraph (B) of paragraph (1).

(C)Raw eggs that are not prepared as specified in paragraph (1).

Minimum Temperature (Â°F)	Time
145	3 minutes
150	1 minute
158	< 1 second (instantaneous)

(3)The following shall be heated to a minimum internal temperature of 165 degrees Fahrenheit for 15 seconds:

(A)Poultry.

(B)Baluts.

(C)Stuffed fish, stuffed meat, stuffed poultry, and stuffed ratites.

(D)Stuffing containing fish, meat, poultry, or ratites.

(E)Pasta and any other food stuffed with fish, meat, poultry, or ratites.

(F)Wild game animals.

(b)Whole beef roasts, corned beef roasts, pork roasts, lamb roasts, and cured pork roasts, such as ham, shall be cooked as specified in both of the following:

(1)In an oven that is preheated to the temperature specified for the roastsweight in the following chart and that is held at that temperature:

Oven Type	Oven Temperature Based on Roast Weight	
	Less than 10 lbs	10 lbs or more
Still Dry	350Â°F or more	250Â°F or more
Convection	325Â°F or more	250Â°F or more
High Humidity*	250Â°F or less	250Â°F or less
*Relative humidity greater than 90 percent for at least 1 hour measured in the cooking chamber or exit of the oven; or in a moisture-impermeable bag that provides 100 percent humidity.		

(2)As specified in the following chart, to heat all parts of the food to a temperature and for the holding time that corresponds to that temperature:

| ---------- | ---------- | ---------- | ---------- |
Temperature (Â°F)	Time* in Minutes	Temperature (Â°F)	Time* in Seconds
130	112	147	134
131	89	149	85
133	56	151	54
135	36	153	34
136	28	155	22
138	18	157	14
140	12	158	0
142	8		
144	5		
145	4		
* Holding time may include postoven heat rise.			

(c)A raw or undercooked whole-muscle, intact beef steak may be served or offered for sale in a ready-to-eat form if all of the following conditions are satisfied:

(1)The food facility serves a population that is not a highly susceptible population.

(2)The steak is labeled to indicate that it meets the definition of whole-muscle, intact beef as specified in subdivision (c) of Section 114021.

(3)The steak is cooked on both the top and bottom to a surface temperature of 145 degrees Fahrenheit or above and a cooked color change is achieved on all external surfaces.

(d)A raw animal food such as raw egg, raw fish, raw marinated fish, raw molluscan shellfish, or steak tartare, or a partially cooked food such as lightly cooked fish, soft cooked eggs, or rare meat other than whole-muscle, intact beef steaks as specified in subdivision (c), may be served or offered for sale upon consumer request or selection in a ready-to-eat form if either of the following conditions are satisfied:

(1)All of the following requirements are met:

(A)As specified in paragraph (1) or (2) of subdivision (e) of Section 114091, the food facility serves a population that is not a highly susceptible population.

(B)The food, if served or offered for service by consumer selection from a childrensmenu, does not contain comminuted meat.

(C)The consumer is informed pursuant to Section 114093 to ensure its safety, the food should be cooked as specified in subdivision (a) or (b).

(2)The department grants a variance from subdivision (a) or (b) pursuant to Section 114417 based on a HACCP plan that satisfies all of the following conditions:

(A)It is submitted by the permitholder and approved pursuant to Sections 114417.1 and 114417.3.

(B)It documents scientific data or other information showing that a lesser time and temperature regimen results in safe food.

(C)It verifies that equipment and procedures for food prepared and training of food employees at the food facility meet the conditions of the variance.

(Amended by Stats. 2016, Ch. 195, Sec. 9. (SB 1067) Effective January 1, 2017.)

114008.

Raw foods of animal origin cooked in a microwave oven shall meet all of the following requirements:

(a)Be rotated or stirred throughout or midway during cooking to compensate for uneven distribution of heat.

(b)Be covered to retain surface moisture.

(c)Be heated to a temperature of at least 165Â°F in all parts of the food.

(d)Stand covered for at least two minutes after cooking to obtain temperature equilibrium.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114010.

Fruits and vegetables that are cooked for hot holding shall be cooked to a minimum temperature of 135ÂºF.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114012.

Except as specified in Section 114091, pasteurized eggs or pasteurized egg products shall be substituted for raw shell eggs in the preparation of foods such as Caesar salad, hollandaise or BÃ©arnaise sauce, mayonnaise, eggnog, ice cream, and egg-fortified beverages that are not cooked as specified under Section 114004, nor included in Section 114093.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114014.

Cooked and refrigerated food that is prepared for immediate service in response to an individual consumer order may be served at any temperature.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114016.

(a)Except as specified under subdivisions (b) and (c), potentially hazardous food that is cooked, cooled, and reheated for hot holding shall be reheated so that all parts of the food reach a temperature of at least 165Â° F for 15 seconds.

(b)Except as specified under subdivision (c), potentially hazardous food reheated in a microwave oven for hot holding shall be reheated so that all parts of the food reach a temperature of at least 165Â°F and the food is rotated or stirred, covered, and allowed to stand covered for at least two minutes after reheating.

(c)Ready-to-eat food taken from a commercially processed, hermetically sealed container, or from an intact package from a food processing plant shall be heated to a temperature of at least 135ÂºF for hot holding.

(d)Reheating for hot holding shall be done rapidly, and the time the food is between 41ÂºF and 165ÂºF shall not exceed two hours.

(e)Remaining unsliced portions of roasts that are cooked as specified under Section 114004 may be reheated for hot holding using the oven parameters and minimum time and temperature conditions as specified in Section 114004.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114018.

Frozen foods shall be stored and displayed in their frozen state unless being thawed in accordance with Section 114020.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114020.

Frozen potentially hazardous food shall only be thawed in one of the following ways:

(a)Under refrigeration that maintains the food temperature at 41Â°F or below.

(b)Completely submerged under potable running water for a period not to exceed two hours at a water temperature of 70Â°F or below, and with sufficient water velocity to agitate and flush off loose particles into the sink drain.

(c)In a microwave oven if immediately followed by immediate preparation.

(d)As part of a cooking process.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 4. General Food Safety Requirements [113980 - 114094.5]__

(Chapter 4 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 3. Food from Approved Sources [114021 - 114031]__

(Article 3 added by Stats. 2006, Ch. 23, Sec. 2.)

114021.

(a)Food shall be obtained from sources that comply with all applicable laws.

(b)Food stored or prepared in a private home shall not be used or offered for sale in a food facility, unless that food is prepared by a cottage food operation that is registered or has a permit pursuant to Section 114365.

(c)Whole-muscle, intact beef steaks that are intended for consumption in an undercooked form that does not satisfy the conditions for service pursuant to Section 114093 shall satisfy all of the following conditions:

(1)Either the food has been obtained from a food processing plant that, upon request by the purchaser, packages the steaks and labels them to indicate that the steak meets the definition of whole-muscle, intact beef, or is deemed acceptable by the enforcement agency based on other evidence, such as written buyer specifications or invoices, that indicate that the steaks meet the definition of whole-muscle intact beef.

(2)If the food is individually cut in a food facility, all of the following conditions are satisfied:

(A)The food is cut from whole-muscle intact beef that is labeled by a food processing plant as specified in paragraph (1).

(B)The food is prepared so it remains intact.

(C)If the food is packaged for undercooking in a food facility, the food is labeled as specified in paragraph (1).

(Amended by Stats. 2016, Ch. 195, Sec. 10. (SB 1067) Effective January 1, 2017.)

114023.

Food in a hermetically sealed container shall be obtained from a food processing plant that is regulated by the food regulatory agency that has jurisdiction over the plant, or from a cottage food operation that produces jams, jellies, and preserves and that is registered or has a permit pursuant to Section 114365.

(Amended by Stats. 2012, Ch. 415, Sec. 11. (AB 1616) Effective January 1, 2013.)

114024.

(a)Liquid, frozen, and dry eggs and egg products shall be obtained pasteurized.

(b)Frozen milk products, such as ice cream, shall be obtained pasteurized as specified in 21 C.F.R. 135"Frozen Desserts.

(c)Fluid and dry milk and milk products complying with Grade A standard as specified in law shall be obtained pasteurized.

(d)This section shall not apply to properly labeled prepackaged raw milk and raw milk products obtained from an approved source and dispensed and sold at retail by the food facility in compliance with 17 CCR 11380.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114025.

Ice for use as a food or a cooling medium shall be made from potable water.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114027.

Fish that are received for sale or service shall be commercially and legally caught or harvested.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114029.

(a)Molluscan shellfish shall be obtained from sources according to law or the requirements specified in the United States Department of Health and Human Services, Public Health Service, Food and Drug Administration, National Shellfish Sanitation Program Guide for the Control of Molluscan Shellfish.

(b)Molluscan shellfish received in interstate commerce shall be from sources that are listed in the Interstate Certified Shellfish Shippers List.

(c)Molluscan shellfish that are recreationally caught shall not be received for sale or service.

(Amended by Stats. 2007, Ch. 96, Sec. 25. Effective July 20, 2007.)

114031.

(a)Game animals shall be received from an approved source.

(b)A game animal shall not be received for sale or service if it is a species of wildlife that is listed in 50 C.F.R. 17 Endangered and Threatened Wildlife and Plants or is listed as an endangered or threatened animal by the Department of Fish and Game.

(c)The enforcement agency may approve the use of legally obtained donated fish and game by nonprofit organizations authorized to serve meals to indigent persons.

(1)Fish,□ as used in this subdivision, shall be defined as that term is used in Section 45 of the Fish and Game Code.

(2)Game,□ as used in this subdivision, means any game bird, as defined in Section 3500 of the Fish and Game Code, or game mammal, as defined in Section 3950 of the Fish and Game Code.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 4. General Food Safety Requirements [113980 - 114094.5]__

(Chapter 4 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 4. Receipt of Food [114035 - 114041]__

(Article 4 added by Stats. 2006, Ch. 23, Sec. 2.)

114035.

(a)Food shall be inspected as soon as practicable upon receipt and prior to any use, storage, or resale.

(b)Food shall be accepted only if the inspection conducted upon receipt determines that the food satisfies all of the following:

(1)Was prepared by and received from approved sources.

(2)Is received in a wholesome condition.

(3)Is received in packages that are in good condition and that protect the integrity of the contents so that the food is not exposed to adulteration or potential contaminants.

(4)Is in containers and on pallets that are not infested with vermin or otherwise contaminated.

(c)Potentially hazardous food shall be inspected for signs of spoilage and randomly checked for adherence to the temperature requirements as specified in Section 113996.

(Amended by Stats. 2007, Ch. 96, Sec. 26. Effective July 20, 2007.)

114037.

(a)Except as specified in subdivision (b), refrigerated, potentially hazardous food may be at a temperature of 45Â°F or below when received, if the potentially hazardous food is cooled within four hours of receipt to a temperature at or below 41Â°F.

(b)If a temperature other than 41Â°F for a potentially hazardous food is specified in law governing its distribution, the food may be received at the specified temperature and cooled as specified in subdivisions (d) and (e) of Section 114002.

(c)Live molluscan shellfish shall not be accepted unless received at an internal temperature of 45Â°F or below, or, if received on the date of harvest, at a temperature above 45Â°F.

(d)Potentially hazardous food that is received hot shall be at a temperature of 135ÂºF or above.

(e)A food that is labeled frozen and shipped frozen by a food processing plant shall be received frozen and accepted only if there are not visible signs of thawing or refreezing.

(f)Upon receipt, potentially hazardous food shall be free of evidence of previous temperature abuse.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114039.

(a)Raw shucked shellfish shall be obtained in nonreturnable packages that bear a legible label that identifies the name, address, and certification number of the shucker-packer or repacker of the molluscan shellfish, and a sell by date or a best if used by date for packages with a capacity of less than one-half gallon, or the date shucked for packages with a capacity of one-half gallon or more.

(b)A package of raw shucked shellfish that does not bear a label or that bears a label that does not contain all the information required by subdivision (a) shall be subject to impound pursuant to Section 114393.

(Amended by Stats. 2007, Ch. 96, Sec. 27. Effective July 20, 2007.)

114039.1.

(a)Shellstock shall be obtained in containers bearing legible source identification tags or labels that are affixed by the harvester or each dealer that depurates, ships, or reships the shellstock. Except as specified by subdivision (c), on the harvestersor dealerstag or label, the following information shall be listed in the following order:

(1)The harvestersor dealersname and address.

(2)The harvesterscertification number as assigned by the authority and the original shellstock shipperscertification number.

(3)The date of harvesting.

(4)The most precise identification of the harvest location or aquaculture site that is practicable based on the system of harvest area designations that is in use by the shellfish control authority and including the abbreviation of the name of the state or country in which the shellfish are harvested.

(5)The type and quantity of shellfish.

(6)The following statement in bold, capitalized type: THIS TAG IS REQUIRED TO BE ATTACHED UNTIL CONTAINER IS EMPTY OR RETAGGED AND THEREAFTER KEPT ON FILE FOR 90 DAYS.

(7)The dealerstag or label shall also indicate the original shipperscertification number, including the abbreviation of the name of the state or country in which the shellfish are harvested.

(b)A container of shellstock that does not bear a tag or label or that bears a tag or label that does not contain all the information required under subdivision (a) shall be subject to impound pursuant to Section 114393.

(c)If the harvesterstag or label is designed to accommodate each dealersidentification, individual dealer tags or labels need not be provided.

(Amended by Stats. 2007, Ch. 96, Sec. 28. Effective July 20, 2007.)

114039.2.

When received by a food facility, shellstock shall be reasonably free of mud, dead shellfish, and shellfish with broken shells. Dead shellfish or shellstock with badly broken shells shall be discarded.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114039.3.

(a)Except as specified in subdivisions (b) and (c), molluscan shellfish shall not be removed from the container in which they are received other than immediately before sale or preparation for service.

(b)Shellstock may be removed from the container in which they are received and displayed on drained ice or held in a display container. A quantity specified by a consumer may be removed from the display or display container and provided to the consumer if the source of the shellstock on display is identified as specified under Section 114039.1 and recorded as specified under Section 114039.4 and the shellstock are protected from contamination.

(c)Shucked shellfish may be removed from the container in which they were received and held in a display container from which individual servings are dispensed upon a consumersrequest if the labeling information for the shellfish on display as specified under Section 114039 is retained and correlated to the date when, or dates during which, the shellfish are sold or served and the shellfish are protected from contamination.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114039.4.

(a)Except as specified by subdivision (b), shellstock tags shall remain attached to the container in which the shellstock are received until the container is empty.

(b)The identity of the source of shellstock that are sold or served shall be maintained for 90 calendar days from the dates of harvest by using an approved recordkeeping system that keeps the tags or labels in chronological order correlated to the date or dates the shellstock are sold or served.

(c)Notwithstanding subdivision (b), if shellstock are removed from their tagged or labeled container, the identity of the source of shellstock that are sold or served shall be maintained by doing the following:

(1)Using a recordkeeping system as required under subdivision (b).

(2)Ensuring that shellstock from one tagged or labeled container are not commingled with shellstock from another container with different certification numbers, harvest dates, or growing areas as identified on the tag or label before being ordered by the consumer.

(3)If shellstock are portioned and prepackaged, including a copy of the corresponding shellstock tag or properly labeling the package with the required shellfish information.

(Amended by Stats. 2007, Ch. 96, Sec. 29. Effective July 20, 2007.)

114039.5.

(a)Except as specified in subdivision (b), molluscan shellfish life-support system display tanks shall not be used to display shellfish that are offered for human consumption and shall be conspicuously marked so that it is obvious to the consumer that the shellfish are for display only.

(b)Molluscan shellfish life support system display tanks that are used to store and display shellfish that are offered for human consumption shall be operated and maintained in accordance with an HACCP plan as specified in Section 114419.1. Operation and maintenance shall ensure the following:

(1)Water used with fish other than molluscan shellfish does not flow into the molluscan tank.

(2)The safety and quality of the shellfish as they were received are not compromised by the use of the tank.

(3)The identity of the source of the shellstock is retained as specified in Section 114039.4.

(c)Molluscan shellfish life support system display tanks that were in operation prior to the effective date of this part need not comply with Section 114419.

(Amended by Stats. 2007, Ch. 96, Sec. 30. Effective July 20, 2007.)

114041.

(a)Shell eggs shall be received clean and sound.

(b)Shell eggs shall not exceed the restricted egg tolerances for United States Consumer Grade B Standards.

(Amended by Stats. 2009, Ch. 571, Sec. 35. (SB 241) Effective October 11, 2009.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 4. General Food Safety Requirements [113980 - 114094.5]__

(Chapter 4 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 5. Food Storage [114047 - 114055]__

(Article 5 added by Stats. 2006, Ch. 23, Sec. 2.)

114047.

(a)Adequate and suitable space shall be provided for the storage of food.

(b)Except as specified in subdivisions (c), (d), and (e), food shall be protected from contamination by storing the food in a clean, dry location, where it is not exposed to splash, dust, vermin, or other forms of contamination or adulteration, and at least six inches above the floor.

(c)Food in packages and working containers may be stored less than six inches above the floor on case lot handling equipment as specified under Section 114165.

(d)Pressurized beverage containers, cased food in waterproof containers such as bottles or cans, and milk containers in plastic crates may be stored on a floor that is clean and not exposed to moisture.

(e)Temporary alternate food storage methods and locations may be approved by the local enforcement agency.

(Amended by Stats. 2013, Ch. 556, Sec. 12. (AB 1252) Effective January 1, 2014.)

114049.

Food shall not be stored in any of the following ways:

(a)In locker rooms.

(b)In toilet rooms.

(c)In dressing rooms.

(d)In refuse rooms.

(e)In mechanical rooms.

(f)Under sewer lines that are not shielded to intercept potential drips.

(g)Under leaking water lines, including leaking automatic fire sprinkler heads, or under lines on which water has condensed.

(h)Under open stairwells.

(i)Under other sources of contamination.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114051.

Working containers holding food or food ingredients that are removed from their original packages for use in the food facility, such as cooking oils, flour, herbs, potato flakes, salt, spices, and sugar, shall be identified with the common name of the food, except that containers holding food that can be readily and unmistakably recognized, such as dry pasta, need not be identified.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114053.

(a)Prepackaged food may not be stored in direct contact with ice or water if the food is subject to the entry of water because of the nature of its packaging, wrapping, or container, or its positioning in the ice or water.

(b)Except as specified in subdivisions (c) and (d), nonprepackaged food may not be stored in direct contact with undrained ice.

(c)Whole raw fruits or vegetables, cut raw vegetables, and tofu may be immersed in ice or water.

(d)Raw chicken and raw fish that are received immersed in ice in shipping containers may remain in that condition while in storage awaiting preparation, display, service, or sale.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114055.

(a)Products that are held by the permitholder for credit, redemption, or return to the distributor, such as damaged, spoiled, or recalled products, shall be segregated and held in designated areas that are separated from food, equipment, utensils, linens, and single-use articles.

(b)All returned or damaged food products and food products from which the label has been removed shall be separated and stored in a separate area and in a manner that shall prevent adulteration of other foods and shall not contribute to a vermin problem.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=4.&article=6.

114057.

(a)Potentially hazardous foods that are packed by the food facility in reduced-oxygen packaging or have been partially cooked and sealed in any container or configuration that creates anaerobic conditions shall be plainly date coded. The date coding shall state Use By,□ followed by the appropriate month, day, and year.

(b)For purposes of this section, partially cooked□ means potentially hazardous foods that have not been sufficiently cooked to assure commercial sterility or fail to have barriers to prevent the growth of or toxin formation by Clostridium botulinum.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114057.1.

(a)A food facility that packages food using a reduced-oxygen packaging method and Clostridium botulinum is identified as a microbiological hazard in the final prepackaged form shall ensure that there are at least two barriers in place to control the growth and toxin formation of Clostridium botulinum.

(b)A food facility that packages food using a reduced-oxygen packaging method and Clostridium botulinum is identified as a microbiological hazard in the final prepackaged form shall have an approved HACCP plan that does all of the following:

(1)Contains the information specified under Section 114419.1.

(2)Identifies the food to be prepackaged.

(3)Limits the food prepackaged to a food that does not support the growth of Clostridium botulinum because it complies with one of the following:

(A)Has an aw of 0.91 or less.

(B)Has a pH of 4.6 or less.

(C)Is a meat or poultry product cured at a food processing plant regulated by the United States Department of Agriculture and is received in an intact package.

(D)Is a food with a high level of competing organisms, such as raw meat or raw poultry.

(4)Specifies methods for maintaining food at 41 degrees Fahrenheit or below.

(5)Describes how the packages shall be prominently and conspicuously labeled on the principal display panel in bold type on a contrasting background, with instructions to maintain the food at 41Â°F or below and discard the food if within 30 calendar days of its packaging it is not served for on-premises consumption, or consumed if served or sold for off-premises consumption.

(6)Limits the refrigerated shelf life to no more than 30 calendar days from packaging to consumption, except the time product is maintained frozen, or the original manufacturerssell by or use by date, whichever occurs first.

(7)Includes operational procedures that prohibit contacting food with bare hands, identify a designated area and the method by which physical barriers or methods of separation of raw foods and ready-to-eat foods minimize cross-contamination and access to the processing equipment is restricted to responsible trained personnel familiar with the potential hazards of the operation, and delineate cleaning and sanitization procedures for food-contact surfaces.

(8)Describes the training program that ensures that individuals responsible for the reduced-oxygen packaging operation understand the concepts required for a safe operation, the equipment and facilities, and the procedures specified under paragraph (7) and Section 114419.1.

(c)Except for fish that is frozen before, during, and after packaging, a food facility shall not package fish using

a reduced-oxygen packaging method.

(d)A food facility is not required to have an HACCP plan if the food facility uses a reduced-oxygen packaging method to package hazardous food that always complies with the following standards with respect to packaging the hazardous food:

(1)The food is labeled with the production time and date.

(2)The food is held at 41 degrees Fahrenheit or lower during refrigerated storage.

(3)The food is removed from its package in the food facility within 48 hours after packaging.

(e)A food facility that packages potentially hazardous foods using a cook-chill or sous vide process shall meet the requirements of Section 3-502.12 (D) of the Food Code published by the FDA.

(Amended by Stats. 2021, Ch. 155, Sec. 6. (AB 831) Effective January 1, 2022.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 4. General Food Safety Requirements [113980 - 114094.5]__

(Chapter 4 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 7. Food Display and Service [114060 - 114083]__

(Article 7 added by Stats. 2006, Ch. 23, Sec. 2.)

114060.

(a)Except for nuts in the shell and whole raw fruits and vegetables that are intended for hulling, peeling, or washing by the consumer before consumption, food on display shall be protected from contamination by the use of packaging, counter, service line, or sneeze guards that intercept a direct line between the consumersmouth and the food being displayed, containers with tight-fitting securely attached lids, display cases, mechanical dispensers, or other effective means.

(b)Nonprepackaged food may be displayed and sold in bulk in other than self-service containers if both of the following conditions are satisfied:

(1)The food is served by a food employee directly to a consumer.

(2)The food is displayed in clean, sanitary, and covered, or otherwise protected, containers.

(Amended by Stats. 2007, Ch. 96, Sec. 32. Effective July 20, 2007.)

114063.

(a)Raw, nonprepackaged food of animal origin, such as beef, lamb, pork, poultry, and eviscerated fish, shall not be offered for consumer self-service. This subdivision does not apply to the following:

(1)Consumer self-service of ready-to-eat foods at buffets or salad bars that serve foods such as sushi or raw shellfish.

(2)Ready-to-cook individual portions for immediate cooking and consumption on the premises, such as consumer-cooked meats or consumer-selected ingredients for Mongolian barbecue, or raw, frozen shrimp, lobster, finfish, or scallop abductor muscle, or frozen breaded seafood.

(b)Nonprepackaged food may be displayed in bulk for consumer self-service if all of the following conditions are satisfied:

(1)Produce and food requiring further processing, except raw food of animal origin, may be displayed on open counters or in containers.

(2)Except for salad bar and buffet-type food service, a label shall be conspicuously displayed in plain view of the consumer and securely attached to each self-service container, or in clear relationship to it, and shall contain the information required in Section 114089.

(3)Nonfood items shall be displayed and stored in an area separate from food.

(c)French style, hearth-baked, or hard-crusted loaves and rolls shall be considered properly wrapped if contained in an open-end bag of sufficient size to enclose the loaves or rolls.

(d)Consumer self-service operations for ready-to-eat foods such as buffets and salad bars shall be provided with a suitable food dispensing utensil for each container displayed or effective dispensing methods that

protect the food from contamination.

(e)Consumer self-service operations such as buffets and salad bars shall be checked periodically on a regular basis by food employees trained in safe operating procedures.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114065.

Notwithstanding Section 114266, this section shall not be construed to require the enclosure, during operating hours, of consumer self-service nonpotentially hazardous bulk beverage dispensing operations that meet the following requirements:

(a)The dispensing operation is installed contiguous with a permanent food facility and is operated by the food facility.

(b)The beverages are dispensed from enclosed equipment that precludes exposure of the beverages until they are dispensed at the nozzles. The dispensing equipment actuating lever or mechanism and filling device of consumer self-service beverage dispensing equipment shall be designed to prevent contact with the lip-contact surface of glasses or cups that are refilled.

(c)Ice and ice product are dispensed only from an ice product dispenser. Ice and ice product are not scooped or manually loaded into a dispenser out-of-doors.

(d)Single-use utensils are protected from contamination and are individually wrapped or dispensed from approved sanitary dispensers.

(e)The dispensing operations have overhead protection that fully extends over all equipment associated with the facility.

(f)During nonoperating hours the dispensing operations are fully enclosed so as to be protected from contamination by vermin and exposure to the elements.

(g)The permitholder of the permanent food facility demonstrates to the enforcement agency that adequate methods are in place to properly clean and sanitize the beverage dispensing equipment.

(h)Beverage dispensing operations are in compliance with Section 113980 and have been approved by the enforcement agency.

(i)Beverage dispensing operations are under the constant and complete control of the person in charge of the permanent food facility who is operating the dispensing equipment.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114067.

(a)Satellite food service is restricted to limited food preparation.

(b)Satellite food service shall only be operated by a fully enclosed permanent food facility that meets the requirements for food preparation and service and that is responsible for servicing the satellite food service operation.

(c)Before conducting satellite food service, the permitholder of the permanent food facility shall submit to the enforcement agency written standard operating procedures that include all of the following information:

(1)All food products that will be handled and dispensed.

(2)The proposed procedures and methods of food preparation and handling.

(3)Procedures, methods, and schedules for cleaning utensils, equipment, structures, and for the disposal of refuse.

(4)How food will be transported to and from the permanent food facility and the satellite food service operation, and procedures to prevent contamination of foods.

(5)How potentially hazardous foods will be maintained in accordance with Section 113996.

(d)All food preparation shall be conducted within a food compartment or fully enclosed facility approved by the enforcement officer.

(e)Satellite food service areas shall have overhead protection that extends over all food handling areas.

(f)Satellite food service operations that handle nonprepackaged food shall be equipped with approved handwashing facilities and warewashing facilities that are either permanently plumbed or self-contained.

(g)Notwithstanding subdivision (f), the local enforcement agency may approve the use of alternative warewashing facilities.

(h)During nonoperating hours and periods of inclement weather, food, food contact surfaces, and utensils shall be stored within any of the following:

(1)A fully enclosed satellite food service operation.

(2)Approved food compartments where food, food contact surfaces, and utensils are protected at all times from contamination, exposure to the elements, ingress of vermin, and temperature abuse.

(3)A fully enclosed permanent food facility.

(i)Satellite food service activities shall be conducted by and under the constant and complete control of the permitholder of the fully enclosed permanent food facility, or the duly contracted personnel of, or third-party providers to, the permitholder.

(j)For purposes of permitting and enforcement, the permitholder of the permanent food facility and the permitholder of the satellite food service shall be the same.

(k)(1)A permitted food facility within any local jurisdiction that is subject to retail food operation restrictions related to a COVID-19 public health response may prepare and serve food as a temporary satellite food

service without obtaining a separate satellite food service permit or submitting written operating procedures pursuant to subdivision (c). The written operating procedures shall be maintained onsite for review, upon request, by the local jurisdiction.

(2)This subdivision shall remain operative until July 1, 2026.

(Amended by Stats. 2023, Ch. 569, Sec. 4. (AB 1217) Effective January 1, 2024.)

114069.

Only prepackaged nonpotentially hazardous food or uncut produce may be displayed or sold outdoors by a food facility if all of the following conditions are satisfied:

(a)Outdoor displays have overhead protection that extends over all food items.

(b)Food items from the outdoor display are stored inside the fully enclosed food facility at all times other than during business hours.

(c)Outdoor displays comply with Section 113980 and have been approved by the enforcement agency.

(d)Outdoor displays are under the control of the permitholder of the fully enclosed food facility and are checked periodically on a regular basis.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114073.

Bulk milk container dispensing tubes shall be cut on the diagonal leaving no more than one inch protruding from the chilled dispensing head.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114074.

If tableware is preset, exposed, and unused, extra settings shall either be removed when a consumer is seated or cleaned and sanitized before further use.

(Amended by Stats. 2007, Ch. 96, Sec. 33. Effective July 20, 2007.)

114075.

(a)Except for refilling a consumersdrinking cup or container without contact between the pouring utensil and the lip-contact area of the drinking cup or container, food employees shall not use tableware, including

single-use articles, soiled by the consumer, to provide second portions or refills.

(b)Except as specified in subdivision (d), self-service consumers shall not be allowed to use soiled tableware, including single-use articles, to obtain additional food from the display and serving equipment.

(c)Consumers shall be notified that clean tableware is to be used when they return to self-service areas such as salad bars and buffets.

(d)Drinking cups and containers may be reused by self-service consumers if refilling of a consumersdrinking cup is done without contact between the pouring utensil and the lip contact area of the cup or container.

(e)Personal take-out beverage containers, such as thermally insulated bottles, nonspill coffee cups, and promotional beverage glasses, may be refilled by employees or the consumer if refilling is a contamination-free process as specified in subdivision (a).

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114077.

Condiments shall be protected from contamination by being kept in dispensers that are designed to provide protection, protected food displays provided with the proper utensils, original containers designed for dispensing, or individual packages or portions.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114079.

(a)Except as specified in subdivisions (b) and (c), after being served or sold and in the possession of a consumer, food that is unused or returned by the consumer shall not be offered as food for human consumption.

(b)A container of food that is not potentially hazardous may be transferred from one consumer to another if the food is dispensed so that it is protected from contamination and the container is closed between uses, such as a narrow-neck bottle containing catsup, steak sauce, or wine, or if the food, such as crackers, salt, or pepper, is in an unopened original package and is maintained in sound condition, and if the food is checked periodically on a regular basis.

(c)(1)A local educational agency may do both of the following to minimize waste and to reduce food insecurity:

(A)Provide sharing tables where food service staff, pupils, and faculty may return appropriate food items consistent with subparagraph (B) and make those food items available to pupils during the course of a regular school meal time.

(B)Allow the food placed on the sharing tables that is not taken by a pupil during the course of a regular school meal time in accordance with subparagraph (A) to be donated to a food bank or any other nonprofit

charitable organization.

(2)Donations of food or food made available to pupils during the course of a regular school meal time pursuant to paragraph (1) may include prepackaged, nonpotentially hazardous food with the packaging still intact and in good condition, whole uncut produce that complies with Section 113992 before donation, unopened bags of sliced fruit, unopened containers of milk that are immediately stored in a cooling bin maintained at 41 degrees Fahrenheit or below, and perishable prepackaged food if it is placed in a proper temperature-controlled environment.

(3)When a local educational agency, pursuant to paragraph (1), makes food available to pupils during the course of a regular school meal time or donates food to a food bank or any other nonprofit charitable organization for distribution, the preparation, safety, and donation of food shall be consistent with Section 113980.

(4)For purposes of this subdivision, local educational agency means a county office of education, school district, or charter school.

(Amended by Stats. 2017, Ch. 285, Sec. 2. (SB 557) Effective January 1, 2018.)

114081.

(a)Single-use articles and cleaned and sanitized multiservice utensils shall be handled, displayed, and dispensed so that contamination of food and lip-contact surfaces is prevented.

(b)Knives, forks, and spoons that are not prewrapped shall be presented so that only the handles are touched by employees, and by consumers if consumer self-service is provided.

(c)Except as specified under subdivision (b), single-use articles that are intended for food or lip-contact shall be furnished for consumer self-service with the original individual wrapper intact or from an approved dispenser.

(d)Single-use articles shall not be reused.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114083.

Soiled tableware shall be removed from consumer eating and drinking areas and handled so that clean tableware, food, and food-contact surfaces are not contaminated.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 4. General Food Safety Requirements [113980 - 114094.5]__

(Chapter 4 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 8. Consumer Information [114087 - 114094.5]__

(Article 8 added by Stats. 2006, Ch. 23, Sec. 2.)

114087.

(a)Food offered for human consumption shall be honestly presented in a way that does not mislead or misinform the consumer.

(b)Food or color additives, colored overwraps, lights or other misleading artificial means shall not be used to misrepresent the true appearance, color, or quality of a food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114088.

A cottage food product, as defined in Section 113758, that is served by a food facility without packaging or labeling, as described in Section 114365, shall be identified to the consumer as homemade on the menu, menu board, or other location that would reasonably inform a consumer of its homemade status.

(Added by Stats. 2012, Ch. 415, Sec. 12. (AB 1616) Effective January 1, 2013.)

114089.

(a)Food prepackaged in a food facility shall bear a label that complies with the labeling requirements prescribed by the Sherman Food, Drug, and Cosmetic Law (Part 5 (commencing with Section 109875)), 21 C.F.R. 101-Food Labeling, 9 C.F.R. 317-Labeling, Marking Devices, and Containers, and 9 C.F.R. 381-Subpart N Labeling and Containers, and as specified under Sections 114039 and 114039.1.

(b)Label information shall include the following:

(1)The common name of the food, or absent a common name, an adequately descriptive identity statement.

(2)If made from two or more ingredients, a list of ingredients in descending order of predominance by weight, including a declaration of artificial color or flavor and chemical preservatives, if contained in the food.

(3)An accurate declaration of the quantity of contents.

(4)The name and place of business of the manufacturer, packer, or distributor.

(5)Except as exempted in the Federal Food, Drug, and Cosmetic Act (Section 403(Q)(3)"(5) (21 U.S.C. Sec. 343(q)(3)"(5), incl.)), nutrition labeling as specified in 21 C.F.R. 101-Food Labeling and 9 C.F.R. 317 Subpart B Nutrition Labeling.

(c)Bulk food that is available for consumer self-service shall be prominently labeled with either of the following in plain view of the consumer:

(1)The manufacturersor processorslabel that was provided with the food.

(2)A card, sign, or other method of notification that includes the information specified under paragraphs (1), (2), and (5) of subdivision (b).

(Amended by Stats. 2009, Ch. 571, Sec. 37. (SB 241) Effective October 11, 2009.)

114089.1.

(a)Except as specified in subdivision (c) of Section 114089, every bakery product shall have a protective wrapping that shall bear a label that complies with the labeling requirements prescribed by the Sherman Food, Drug, and Cosmetic Law (Part 5 (commencing with Section 109875)).

(b)Bakery products sold directly to a restaurant, catering service, retail bakery, or sold over the counter directly to the consumer by the manufacturer or bakery distributor shall be exempt from the labeling provisions of this section.

(c)French style, hearth-baked, or hard-crusted loaves and rolls shall be considered properly wrapped if contained in an open-end bag that encloses the loaves or rolls.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114090.

(a) If required by law, consumer warnings shall be provided.

(b)Food facilitysor manufacturersdating information on foods may not be concealed or altered.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114091.

In a licensed health care facility and a public or private school cafeteria, the following shall apply:

(a)Only pasteurized juice may be served.

(b)Only pasteurized fluid and dry milk and milk products complying with Grade A standards as specified in law shall be served.

(c)Pasteurized shell eggs or pasteurized liquid, frozen, or dry eggs or egg products shall be substituted for raw shell eggs in the preparation of foods such as Caesar salad, hollandaise or bÃ©arnaise sauce, mayonnaise, eggnog, ice cream, and egg-fortified beverages, and, except as specified in subdivision (e), recipes in which more than one egg is broken and the eggs are combined.

(d)(1)Food shall not be reserved where the food was already served to patients or clients who are under contact precautions in medical isolation or quarantine or protective environment isolation.

(2)Food shall not be reserved to a patient or client in protective environment isolation.

(e)The following foods may not be served or offered for sale in a ready-to-eat form:

(1)Raw foods of animal origin such as raw fish, raw-marinated fish, raw molluscan shellfish, and steak tartare.

(2)A partially cooked food of animal origin, such as lightly cooked fish, rare meat, soft-cooked eggs, that is made from raw shell eggs, and meringue.

(3)Raw seed sprouts.

(f)Subdivision (c) does not apply in any of the following instances:

(1)The raw eggs are combined immediately before cooking for one consumersserving at a single meal, cooked as specified under Section 114004, and served immediately, such as an omelet, soufflÃ©, or scrambled eggs.

(2)The raw eggs are combined as an ingredient immediately before baking and the eggs are thoroughly cooked to a ready-to-eat form, such as a cake, muffin, or bread.

(3)The preparation of the food is conducted under a HACCP plan that:

(A)Identifies the food to be prepared.

(B)Prohibits contacting ready-to-eat food with bare hands.

(C)Includes specifications and practices that ensure salmonella enteritidis growth is controlled before and after cooking and is destroyed by cooking the eggs to an internal temperature of 145Â°F.

(D)Contains the information specified under a HACCP plan, including procedures that control cross-contamination of ready-to-eat food with raw eggs, and delineate cleaning and sanitization procedures for food-contact surfaces.

(E)Describes the training program that ensures that the food employee responsible for the preparation of the food understands the procedures to be used.

(Amended by Stats. 2007, Ch. 96, Sec. 34. Effective July 20, 2007.)

114093.

(a)Except as specified in subdivision (c) and paragraph (2) of subdivision (d) of Section 114004 and pursuant to subdivision (e) of Section 114091, if an animal food, including beef, eggs, fish, lamb, milk, pork, poultry, or shellfish, is served or sold raw, undercooked, or without otherwise being processed to eliminate pathogens, either in ready-to-eat form or as an ingredient in another ready-to-eat food, the permitholder shall inform consumers of the significantly increased risk of consuming those foods by way of a disclosure pursuant to subdivision (b) and reminder pursuant to subdivision (c), using brochures, deli case or menu advisories, label statements, table tents, placards, or other effective written means.

(b)Disclosure means a written statement that clearly includes either of the following:

(1)A description of the animal-derived foods, such as oysters on the half shell (raw oysters), raw-egg Caesar salad, and hamburgers (can be cooked to order).

(2)Identification of the animal-derived foods marked by an asterisk denoting a footnote that states that the items are served raw or undercooked, or contain or may contain raw or undercooked ingredients.

(c)Reminder means a written statement that identifies the animal-derived foods by an asterisk that denotes a footnote that includes either of the following disclosure statements:

(1)Written information regarding the safety of these food items is available upon request.

(2)Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions.

(Repealed and added by Stats. 2016, Ch. 195, Sec. 13. (SB 1067) Effective January 1, 2017.)

114093.1.

(a)Any food facility that serves or sells over the counter directly to the consumer an unlabeled or nonprepackaged food that is a confectionery that contains alcohol in excess of one-half of 1 percent by weight shall provide written notice to the consumer of that fact.

(b)The notice shall be prominently displayed or be provided in some other manner, as determined by the department.

(c)The department shall adopt regulations to govern the notice required by this section in order to effectuate the purposes of this section.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114094.

(a)A food facility subject to Section 343(q)(5)(H) of Title 21 of the United States Code or subject to this section as it read on July 1, 2011, shall comply with the requirements of that section of the United States Code and the regulations adopted pursuant thereto.

(b)Notwithstanding the Sherman Food, Drug, and Cosmetic Law (Part 5 (commencing with Section 109875) of Division 104), and to the extent permitted by federal law:

(1)Enforcement of this section shall be made pursuant to Section 113713.

(2)(A)A violation of this section is, notwithstanding Section 114395, an infraction, punishable by a fine of not less than fifty dollars ($50) nor more than five hundred dollars ($500). A second violation within a five-year period from a prior violation shall be punishable by a fine of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000). For a third or subsequent violation within a five-year period, the fine shall be not less than two hundred fifty dollars ($250) nor more than two thousand five hundred dollars ($2,500). A food facility shall not be found to have committed a violation under this paragraph more than once during an inspection visit.

(B)Alternatively, the enforcement agency may assess a civil penalty of an amount that is no less than or greater than the amounts specified for fines in this paragraph.

(c)Except for the civil penalties authorized by this section, this section shall not be construed to create or enhance any claim, right of action, or civil liability that did not exist under state law prior to January 1, 2009, or limit any claim, right of action, or civil liability that otherwise existed under state law prior to January 1, 2009. The only enforcement mechanism of this section is the department or local enforcement agency, as set forth in Section 113713.

(d)This section shall become operative only on and after the compliance date specified in the federal regulation implementing Section 343(q)(5)(H) of Title 21 of the United States Code.

(Repealed and added by Stats. 2011, Ch. 415, Sec. 3. (SB 20) Effective January 1, 2012. Added section operative on date prescribed by its own provisions.)

114094.5.

(a)A retail food facility shall not sell or offer for sale after the use by date, infant formula or baby food that is required to have this date on its packaging pursuant to the federal act, as defined in Section 109930, and federal regulations adopted pursuant to the federal act, including, but not limited to, Section 107.20 of Title 21 of the Code of Federal Regulations.

(b)Notwithstanding Section 114395, any retail food facility that violates this section is guilty of an infraction, punishable by a fine of not more than ten dollars ($10) per day for each item sold or offered for sale after the use by date. The fine shall be calculated based upon the number of days past the use by date that the product is either found being offered for sale, or if the product is sold, the date of sale as established by evidence of the proof of purchase, including, but not limited to, a sales receipt.

(c)An enforcement agency may assess administrative penalties on a retail food facility that violates this section in the amount of ten dollars ($10) per day for each item sold or offered for sale, in addition to other penalties authorized by law.

(d)For purposes of this section, the following definitions shall apply:

(1)Baby food shall have the meaning given to baby foods in paragraph (c) of Section 407.81 of Title 40 of the Code of Federal Regulations.

(2)Infant formula shall have the meaning given in subdivision (z) of Section 321 of Title 21 of the United States Code.

(Added by Stats. 2011, Ch. 681, Sec. 2. (AB 688) Effective January 1, 2012.)

__CHAPTER 5. Cleaning and Sanitizing of Equipment and Utensils [114095 - 114125]__

(Chapter 5 added by Stats. 2006, Ch. 23, Sec. 2.)

114095.

All food facilities in which food is prepared or in which multiservice utensils and equipment are used shall provide manual methods to effectively clean and sanitize utensils as specified in Section 114099.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114097.

Equipment food-contact surfaces and multiservice utensils shall be effectively washed to remove or completely loosen soils by the use of manual or mechanical methods necessary, such as the application of detergents containing wetting agents and emulsifiers, acid, alkaline, or abrasive cleaners, hot water, brushes, scouring pads, high pressure sprays, or ultrasonic devices.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114099.

(a)Manual warewashing sinks, except as specified in subdivision (c), shall have at least three compartments with two integral metal drainboards for manually washing, rinsing, and sanitizing equipment and utensils.

(b)Sink compartments shall be large enough to accommodate immersion of the largest equipment and utensils. If equipment or utensils are not designed to be washed in a warewashing sink, alternate approved methods as specified in Section 114099.3 shall be followed.

(c)A two compartment sink that is in use on January 1, 1996, need not be replaced when used as specified in Section 114099.3. The enforcement officer shall approve the continued use of a two-compartment sink even upon replacement if the installation of a three-compartment sink would not be readily achievable and where other approved sanitation methods are used.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114099.1.

(a)During manual or mechanical warewashing, food debris on equipment and utensils shall be scraped over a waste disposal unit, scupper, or garbage receptacle.

(b)If necessary for effective cleaning, utensils and equipment shall be preflushed, presoaked, or scrubbed with abrasives.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114099.2.

(a)Notwithstanding Section 114099, manual warewashing shall be accomplished by using a three-compartment sink.

(b)The temperature of the washing solution shall be maintained at not less than 100Â°F or the temperature specified by the manufacturer on the cleaning agent manufacturerslabel instructions or as provided in

writing by the manufacturer.

(c)The utensils shall then be rinsed in clear water before being immersed in a sanitizing solution.

(d)Manual sanitization shall be accomplished as specified in Section 114099.6.

(e)In-place sanitizing shall be accomplished as specified in Section 114099.6.

(f)Other methods may be used if approved by the enforcement agency.

(Amended by Stats. 2009, Ch. 571, Sec. 38. (SB 241) Effective October 11, 2009.)

114099.3.

Alternative manual warewashing equipment may be used when there are special cleaning needs or constraints, such as when equipment is fixed or the utensils are large, and the enforcement agency has approved the use of the alternative equipment. Alternative manual warewashing equipment may include any of the following:

(a)High-pressure detergent sprayers.

(b)Low-or-line pressure spray detergent foamers.

(c)Other task-specific cleaning equipment.

(d)Brushes or other implements.

(e)(1)A two-compartment sink, if the permitholder limits the number of utensils cleaned and sanitized in the two-compartment sink, limits warewashing to batch operations for cleaning and sanitizing utensils, such as between cutting one type of raw meat and another or cleanup at the end of a shift, and does either of the following:

(A)Makes up the cleaning and sanitizing solutions immediately before use and drains them immediately after use, as well as uses a detergent sanitizer to clean and sanitize in accordance with the manufacturerslabel instructions where there is no distinct water rinse between the washing and sanitizing steps. The agent applied in the sanitizing step shall be the same detergent sanitizer that is used in the washing step.

(B)Use a hot water sanitization immersion step that incorporates a nondistinct water rinse.

(2)A two-compartment sink shall not be used for warewashing operations where cleaning and sanitizing solutions are used for a continuous or intermittent flow of utensils in an ongoing warewashing process.

(Amended by Stats. 2007, Ch. 96, Sec. 36. Effective July 20, 2007.)

114099.4.

If hot water is used for sanitization in manual warewashing operations, the sanitizing compartment of the

sink shall be designed with an integral heating device that is capable of maintaining water at a temperature not less than 171Â°F and provided with a rack or basket to allow complete immersion of equipment and utensils into the hot water.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114099.5.

In manual warewashing operations, a temperature measuring device shall be provided and readily accessible for frequently measuring the washing and sanitizing temperatures.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114099.6.

Manual sanitization shall be accomplished in the final sanitizing rinse by one of the following:

(a)Immersion for at least 30 seconds where the water temperature is maintained at 171 degrees Fahrenheit or above.

(b)The application of sanitizing chemicals by immersion, manual swabbing, or brushing, using one of the following solutions:

(1)Contact with a solution of 100 ppm available chlorine solution for at least 30 seconds.

(2)Contact with a solution of 25 ppm available iodine for at least one minute.

(3)Contact with a solution of 200 ppm quaternary ammonium for at least one minute.

(4)Contact with a solution of ozone that meets the requirements of Section 180.940 of Title 40 of the Code of Federal Regulations and that is generated by a device located onsite at the food facility that meets all of the following requirements:

(A)Complies with the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. Sec. 136 et seq.).

(B)Complies with federal device requirements as specified in Section 152.500 of Title 40 of the Code of Federal Regulations, and federal labeling requirements as specified in Section 156.10 of Title 40 of the Code of Federal Regulations.

(C)Displays the United States Environmental Protection Agency device manufacturing facility registration number on the device.

(D)Is operated and maintained in accordance with the manufacturersinstructions, and manufactured using good manufacturing practices as specified in Part 110 of Title 21 of the Code of Federal Regulations.

(5)Contact with any chemical sanitizer that meets the requirements of Section 180.940 of Title 40 of the Code of Federal Regulations when used in accordance with the manufacturersuse directions.

(c)Other methods approved by the enforcement agency.

(Amended by Stats. 2012, Ch. 629, Sec. 1. (AB 1427) Effective January 1, 2013.)

114099.7.

Mechanical sanitization shall be accomplished in the final sanitizing rinse by one of the following:

(a)By being cycled through equipment that is used in accordance with the manufacturersspecifications and achieving a utensil surface temperature of 160ÂºF as measured by an irreversible registering temperature indicator.

(b)The mechanical application of sanitizing chemicals by pressure spraying methods using one of the following solutions:

(1)Contact with a solution of 50 ppm available chlorine for at least 30 seconds.

(2)Contact with a solution of 25 ppm available iodine for at least one minute.

(3)Contact with any chemical sanitizer that meets the requirements of Section 180.940 of Title 40 of the Code of Federal Regulations when used in accordance with the following:

(A)The sanitizer manufacturersuse directions as specified on the product label.

(B)The machine manufacturersspecifications as provided in the manufacturersoperating instructions.

(c)After being cleaned and sanitized, equipment and utensils shall not be rinsed before air drying or use unless:

(1)The rinse is applied directly from a potable water supply by a warewashing machine that meets the requirements of subdivision (b) of Section 114130 and is maintained and operated in accordance with the manufacturersspecifications.

(2)The rinse is applied only after the equipment and utensils have been sanitized by the application of hot water or by the application of a chemical sanitizer solution whose United States Environmental Protection Agency-registered, label use instructions require rinsing off the sanitizer after it is applied in an approved commercial warewashing machine.

(Amended by Stats. 2013, Ch. 556, Sec. 13. (AB 1252) Effective January 1, 2014.)

114101.

(a)Mechanical machine warewashing shall be accomplished by using an approved machine installed and operated in accordance with the manufacturersspecifications.

(b)Soiled items to be cleaned in a warewashing machine shall be loaded in racks, trays, or baskets or onto

conveyors in a position that exposes the items to the unobstructed spray during all cycles and allows the items to drain.

(c)The velocity, quantity, and distribution of the washwater, type, and concentration of detergent used therein, and the time the utensils are exposed to the water shall be sufficient to clean the utensils.

(d)Restricted food service facilities need not comply with Section 114130 if the domestic or commercial dishwasher utilized for warewashing is capable of providing heat to the surface of the utensils of a temperature of at least 160Â°F.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114101.1.

A warewashing machine shall be provided with an easily accessible and readable data plate affixed to the machine by the manufacturer that indicates the machinesdesign and operating specifications including the temperatures required for washing, rinsing, and sanitizing, the pressure required for the fresh water sanitizing rinse, unless the machine is designed to use only a pumped sanitizing rinse, and the conveyor speed for conveyor machines or cycle time for stationary rack machines.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114101.2.

A warewashing machine shall be equipped with a temperature measuring device that indicates the temperature of the water as the water enters the hot water sanitizing final rinse manifold or in the chemical sanitizing solution tank.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114103.

(a)Except as provided in subdivisions (b) and (c), all warewashing equipment shall be provided with two integral metal drainboards of adequate size and construction. One drainboard shall be attached at the point of entry for soiled equipment and utensils and one shall be attached at the point of exit for cleaned and sanitized equipment and utensils.

(b)Where a mechanical warewashing machine is used, there shall be two metal drainboards, one for soiled equipment and utensils, and one for clean equipment and utensils, located adjacent to the machine. The requirement for a drainboard for soiled equipment and utensils or the requirement for a drainboard for clean equipment and utensils, or both requirements, may be satisfied by using the drainboards that are part of the manual warewashing sinks if the sink is located adjacent to the machine.

(c)Pot and pan washers shall be equipped with drainboards as required in subdivision (a), or shall be equipped with approved alternative equipment that provides adequate and suitable space for soiled and

clean equipment and utensils.

(d)Drainboards, utensil racks, or tables large enough to accommodate all soiled and cleaned items that may accumulate during hours of operation shall be provided for necessary utensil holding before cleaning and after sanitizing.

(e)Sinks and drainboards of warewashing equipment shall be sloped and drained to an approved liquid waste receptor.

(Amended by Stats. 2016, Ch. 195, Sec. 14. (SB 1067) Effective January 1, 2017.)

114105.

After cleaning and sanitizing, equipment and utensils shall be air dried or used after adequate draining before contact with food and shall not be cloth dried, except that utensils that have been air dried may be polished with cloths that are maintained clean and dry.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114107.

(a)Testing equipment and materials shall be provided to adequately measure the applicable sanitization method used during manual or mechanical warewashing.

(b)The concentration of the sanitizing solution shall be accurately determined to ensure proper dosage.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114109.

(a)Drying agents used in conjunction with sanitization shall contain only components that are listed as one of the following:

(1)Generally Recognized as Safe for use in food as specified in 21 C.F.R. 182 " Substances Generally Recognized as Safe, or 21 C.F.R. 184 " Direct Food Substances Affirmed as Generally Recognized as Safe.

(2)Generally Recognized as Safe for the intended use as specified in 21 C.F.R. 186 " Indirect Food Substances Affirmed as Generally Recognized as Safe.

(3)Approved for use as a drying agent under a prior sanction specified in 21 C.F.R. 181 " Prior-Sanctioned Food Ingredients.

(4)Specifically regulated as an indirect food additive for use as a drying agent as specified in 21 C.F.R. 175"178, inclusive.

(5)Approved for use as a drying agent under the threshold of regulation process established by 21 C.F.R. 170.39.

(b)When sanitization is with chemicals, the approval required under paragraph (3) or (5) of subdivision (a) or the regulation as an indirect food additive required under paragraph (4) of subdivision (a), shall be specifically for use with chemical sanitizing solutions.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114111.

(a)If used, dry cleaning methods such as brushing, scraping, and vacuuming shall contact only surfaces that are soiled with dry nonpotentially hazardous food residues.

(b)Cleaning equipment used in dry cleaning food-contact surfaces shall not be used for any other purpose.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114113.

Food shall only contact surfaces of equipment and utensils that are cleaned and sanitized.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114115.

(a)Equipment food-contact surfaces and utensils shall be clean to sight and touch.

(b)The food-contact surfaces of cooking equipment and pans shall be kept free of encrusted grease deposits and other soil accumulations.

(c)Nonfood-contact surfaces of equipment shall be kept free of an accumulation of dust, dirt, food residue, and other debris.

(d)Equipment shall be reassembled so that food-contact surfaces are not contaminated.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114117.

(a)Equipment food-contact surfaces and utensils shall be cleaned and sanitized at the following times:

(1)Except as specified in subdivision (b), before each use with a different type of raw food of animal origin such as beef, fish, lamb, pork, or poultry.

(2)Each time there is a change from working with raw foods to working with ready-to-eat foods.

(3)Between uses with raw produce and with potentially hazardous food.

(4)Before using or storing a food temperature measuring device.

(5)At any time during the operation when contamination may have occurred.

(b)Paragraph (1) of subdivision (a) does not apply if the food contact surface or utensil is in contact with a succession of different raw foods of animal origin, each requiring a higher cooking temperature as specified in Section 114004 than the previous food, such as preparing raw fish followed by cutting raw poultry on the same cutting board.

(c)Except as specified in subdivision (d), if used with potentially hazardous food, equipment food-contact surfaces and utensils shall be cleaned and sanitized throughout the day at least every four hours.

(d)Surfaces of utensils and equipment contacting potentially hazardous food may be cleaned and sanitized less frequently than every four hours if any of the following occurs:

(1)In storage, containers of potentially hazardous food and their contents are maintained at temperatures as specified in Section 113996 and the containers are cleaned and sanitized when they are empty.

(2)Utensils and equipment are used to prepare food in a refrigerated room or area that is maintained at or below 55ÂºF. In that case, the utensils and equipment shall be cleaned and sanitized at the frequency that corresponds to the temperature as depicted in the following chart and the cleaning frequency based on the ambient temperature of the refrigerated room or area shall be documented and records shall be maintained in the food facility and made available to the enforcement agency upon request:

Temperature	Cleaning Frequency
5.0Â°C (41Â°F) or less	24 hours
>5.0Â°C " 7.2Â°C(>41Â°F " 45Â°F)	20 hours
>7.2Â°C " 10.0Â°C(>45Â°F " 50Â°F)	16 hours
>10.0Â°C " 12.8Â°C(>50Â°F " 55Â°F)	10 hours

(3)Containers in serving situations such as salad bars, delis, and cafeteria lines that hold ready-to-eat potentially hazardous food that is maintained at the temperatures specified in subdivisions (a) to (c), inclusive, of Section 113996 are intermittently combined with additional supplies of the same food that is at the required temperature, and the containers are cleaned and sanitized at least every 24 hours. Utensils and containers holding potentially hazardous foods in accordance with subdivision (d) of Section 113996 are cleaned when they are empty or when the remaining contents are disposed of.

(4)Temperature measuring devices are maintained in contact with food, such as when left in a container of deli food or in a roast, held at temperatures specified in Sections 113996 and 114004.

(5)Equipment is used for storage of packaged or unpackaged food, such as a reach-in refrigerator, and the

equipment is cleaned and sanitized at a frequency necessary to preclude accumulation of soil residues.

(6)The cleaning schedule is approved based on consideration of characteristics of the equipment and its use, the type of food involved, the amount of food residue accumulation, and the temperature at which the food is maintained during the operation and the potential for the rapid and progressive multiplication of pathogenic or toxigenic micro-organisms that are capable of causing foodborne disease.

(7)In-use utensils are intermittently stored in a container of water in which the water is maintained at 135ÂºF or higher and the utensils and container are cleaned and sanitized at least every 24 hours or at a frequency necessary to preclude accumulation of soil residues.

(e)Except when dry cleaning methods are used as specified in Section 114111, surfaces of utensils and equipment contacting food that is not potentially hazardous shall be cleaned and sanitized in any of the following circumstances:

(1)At any time when contamination may have occurred.

(2)At least every 24 hours for iced tea dispensers and consumer self-service utensils such as tongs, scoops, or ladles.

(3)Before restocking consumer self-service equipment and utensils such as condiment dispensers and display containers.

(4)In equipment such as ice bins and beverage dispensing nozzles and enclosed components of equipment such as ice makers, cooking oil storage tanks and distribution lines, beverage and syrup dispensing lines or tubes, coffee bean grinders, and water vending equipment, at a frequency specified by the manufacturer, or, absent manufacturer specifications, at a frequency necessary to preclude accumulation of soil or mold.

(Amended by Stats. 2009, Ch. 571, Sec. 41. (SB 241) Effective October 11, 2009.)

114118.

Fabric implements shall be laundered and sanitized before or after use in direct contact with food.

(Added by Stats. 2009, Ch. 571, Sec. 42. (SB 241) Effective October 11, 2009.)

114119.

During pauses in food preparation or dispensing, food preparation and dispensing utensils shall be stored in the following manner:

(a)Except as specified under subdivision (b), in the food with their handles above the top of the food and the container.

(b)In food that is not potentially hazardous, with their handles above the top of the food within containers or equipment that can be closed, such as bins of sugar, flour, or cinnamon.

(c)On a clean portion of the food preparation table or cooking equipment only if the in-use utensil and the food-contact surface of the food preparation table or cooking equipment are cleaned and sanitized at a frequency specified under Section 114117.

(d)In running water of sufficient velocity to flush particulates to the drain, if used with moist food such as ice cream or mashed potatoes.

(e)In a clean, protected location if the utensils, such as ice scoops, are used only with a food that is not potentially hazardous.

(f)In a container of water if the water is maintained at a temperature of at least 135ÂºF and the container is cleaned at least every 24 hours or at a frequency necessary to preclude the accumulation of soil residues.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114121.

(a)Except as specified in subdivisions (b), (c), and (d), returned empty containers intended for filling with food or beverage shall be cleaned and filled in an approved facility.

(b)(1)Clean consumer-owned containers provided or returned to the food facility for filling may be filled and returned to the same consumer if the container is filled by either an employee of the food facility or the owner of the container. For the purposes of this section, a consumer-owned container shall be designed and constructed for reuse in accordance with Section 3-304.17(B)(1) of the 2017 Food Code published by the federal Food and Drug Administration.

(2)The food facility shall either isolate the consumer-owned containers from the serving surface or sanitize the serving surface after each filling.

(c)The food facility shall prepare, maintain, and adhere to written procedures to prevent cross-contamination, as described in Section 113986, and the written procedures shall address waste water disposal. The food facility shall make the written procedures available to the enforcement agency upon request or at the time of an inspection.

(d)Consumer-owned containers that are not food specific may be filled at a water vending machine or system.

(e)The food facility shall ensure compliance with the handwashing requirements specified in Article 4 (commencing with Section 113952) of Chapter 3.

(Amended by Stats. 2019, Ch. 93, Sec. 1. (AB 619) Effective January 1, 2020.)

114123.

Except as specified in Section 114125, food preparation sinks, handwashing lavatories, and warewashing equipment shall not be used for the cleaning of maintenance tools, the preparation or holding of maintenance materials, or the disposal of mop water and similar liquid wastes.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114125.

(a)A warewashing sink shall not be used for handwashing except in food facilities that were not constructed or extensively remodeled since January 1, 1996, and where there are no facilities exclusively for handwashing in food preparation areas.

(b)If a warewashing sink is used to wash wiping cloths, wash produce, or thaw food, the sink shall be cleaned and sanitized before and after each time it is used to wash wiping cloths or wash produce or thaw food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 6. Equipment, Utensils, and Linens [114130 - 114185.5]__

(Chapter 6 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 1. Design and Construction [114130 - 114145]__

(Article 1 added by Stats. 2006, Ch. 23, Sec. 2.)

114130.

(a)Equipment and utensils shall be designed and constructed to be durable and to retain their characteristic qualities under normal use conditions.

(b)Except as specified in subdivision (c), all new and replacement food-related and utensil-related equipment shall be certified or classified for sanitation by an American National Standards Institute (ANSI) accredited certification program. In the absence of an applicable ANSI certified sanitation standard, food-related and utensil-related equipment shall be evaluated for approval by the enforcement agency.

(c) Restricted food service facilities need not comply with subdivision (b), depending on the extent of the food service activities, and if the enforcement officer determines that the equipment meets the characteristics of subdivision (a).

(d)All new and replacement electrical appliances shall meet applicable Underwriters Laboratories standards for electrical equipment as determined by an ANSI accredited certification program.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114130.1.

Materials that are used in the construction of utensils and food-contact surfaces of equipment shall not allow the migration of deleterious substances or impart colors, odors, or tastes to food and under normal use conditions shall be safe, durable, corrosion-resistant, and nonabsorbent, sufficient in weight and thickness to withstand repeated warewashing, finished to have a smooth, easily cleanable surface, and resistant to pitting, chipping, crazing, scratching, scoring, distortion, and decomposition.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114130.2.

Materials that are used to make single-use articles shall not allow the migration of deleterious substances or impart colors, odors, or tastes to food, and shall be safe and clean.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114130.3.

(a)Multiuse food-contact surfaces shall be all of the following:

(1)Smooth.

(2)Free of breaks, open seams, cracks, chips, inclusions, pits, and similar imperfections.

(3)Free of sharp internal angles, corners, and crevices.

(4)Finished to have smooth welds and joints.

(5)Except as specified in subdivision (b), accessible for cleaning and inspection by one of the following methods:

(A)Without being disassembled.

(B)By disassembling without the use of tools.

(C)By easy disassembling with the use of handheld tools commonly available to maintenance and cleaning personnel such as screwdrivers, pliers, open-end wrenches, and Allen wrenches.

(b)Paragraph (5) of subdivision (a) shall not apply to cooking oil storage tanks, distribution lines for cooking oils, or beverage syrup lines or tubes.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114130.4.

Nonfood-contact surfaces of equipment that are exposed to splash, spillage, or other food soiling or that require frequent cleaning shall be constructed of a corrosion-resistant, nonabsorbent, and smooth material that allows easy cleaning and to facilitate maintenance and free of unnecessary ledges, projections, and crevices to allow for easy cleaning and to facilitate maintenance.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114130.5.

(a)Except for CIP equipment in operation before the effective date of this part, CIP equipment shall meet the characteristics of a food contact surface and shall be designed and constructed so that cleaning and sanitizing solutions circulate throughout a fixed system and contact all interior food-contact surfaces and the system is self-draining or capable of being completely drained of cleaning and sanitizing solutions.

(b)CIP equipment that is not designed to be disassembled for cleaning shall be designed with inspection access points to ensure that all interior food-contact surfaces throughout the fixed system are being effectively cleaned.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114130.6.

Materials that are used in fabric implements shall not allow the migration of deleterious substances or impart colors, odors, or tastes to food and under normal use conditions shall be safe, durable, and sufficient in strength to withstand repeated cleaning or laundering and shall be resistant to fraying and deterioration.

(Added by Stats. 2009, Ch. 571, Sec. 43. (SB 241) Effective October 11, 2009.)

114132.

(a)Except as specified in this section, wood and wood wicker shall not be used as a food-contact surface.

(b)Hard maple or an equivalently hard, close-grained wood may be used for cutting boards, cutting blocks, bakers™ tables, utensils such as rolling pins, doughnut dowels, salad bowls, and chopsticks, wooden paddles used in confectionery operations for pressure scraping kettles when manually preparing confections at a temperature of 230Â°F or above, and cedar planks used for grilling or baking seafood.

(c)Whole, uncut, raw fruits and vegetables and nuts in the shell may be kept in wood shipping containers until the fruits, vegetables, or nuts are used.

(d)When wood or wood shipping containers become cracked, splintered, or otherwise damaged, they shall be refurbished or replaced.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114133.

(a)Except as specified in subdivision (b), copper and copper alloys such as brass may not be used in contact with a food that has a pH below six, such as vinegar, fruit juice, or wine, or for a fitting or tubing installed between a backflow prevention device and a carbonator.

(b)Copper and copper alloys may be used in contact with beer brewing ingredients that have a pH below six in the prefermentation and fermentation steps of a beer brewing operation, such as a brewpub or microbrewery.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114135.

Sponges shall not be used in contact with cleaned and sanitized or in-use food-contact surfaces.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114137.

Except for hot oil cooking or filtering equipment, V type threads shall not be used on food-contact surfaces.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114139.

Cutting or piercing parts of can openers shall be readily removable for cleaning and for replacement.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114141.

Lubricants shall be applied to food-contact surfaces that require lubrication in a manner that does not contaminate food or food-contact surfaces. Equipment shall be reassembled after lubrication so that food contact surfaces are not contaminated. Only approved food grade lubricants shall be used for this purpose.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114143.

Notwithstanding any of the provisions of this part, neither the department nor any city, county, city and county air pollution control district, or air quality management district shall require the enclosure of an open-air barbecue or outdoor wood-burning oven if the enforcement officer determines that the barbecue or wood-burning oven meets all of the following requirements:

(a)The open-air barbecue or outdoor wood-burning oven is operated on the same premises as, in reasonable proximity to, and in conjunction with, a permanent food facility that is approved for food preparation, a temporary food facility or a mobile food facility that is operating at a community event, or a catering operation. The permitholder of the permanent food facility, temporary food facility, mobile food facility, or catering operation shall be deemed to be the permitholder of the open-air barbecue or outdoor wood-burning oven, and shall be responsible for ensuring that it is operated in full compliance with this part.

(b)The open-air barbecue or outdoor wood-burning oven is not operated in, or out of, any motor vehicle, or in any area or location that may constitute a fire hazard, as determined by the enforcement officer.

(c)The open-air barbecue or outdoor wood-burning oven is separated from public access to prevent food contamination or injury to the public by using ropes or other approved methods.

(d)If the open-air barbecue or outdoor wood-burning oven is a permanent structure, it shall be equipped with an impervious and easily cleanable floor surface that extends a minimum of five feet from the open-air barbecue or outdoor wood-burning oven facility on all open sides.

(e)Sanitary facilities, including, but not limited to, toilet facilities and handwashing facilities shall be available for use within 200 feet in travel distance of the open-air barbecue or outdoor wood-burning oven and shall comply with all provisions of this part.

(Amended by Stats. 2018, Ch. 493, Sec. 7. (AB 2524) Effective January 1, 2019.)

114145.

Vending machines shall meet all applicable requirements of this part and shall comply with the following:

(a)Each vending machine or machine location shall have posted in a prominent place a sign indicating the ownersname, address, and telephone number.

(b)Wet storage of prepackaged products is prohibited.

(c)Potentially hazardous food shall be dispensed to the consumer in the original package into which it was placed at the commissary or food processing plant. Bulk potentially hazardous food is prohibited.

(d)Single-use articles that are used in machines dispensing products in bulk shall be obtained in sanitary packages. The single-use articles shall be stored in the original package until introduced into the container magazine or dispenser of the vending machine.

(e)A record of cleaning and sanitizing shall be maintained by the operator in each machine and shall be current for at least the past 30 days.

(f)All vending machines shall be constructed in accordance with applicable NSF International or National Automatic Merchandizing Association standards, or the equivalent thereof.

(g)If located outside, a vending machine shall be provided with overhead protection.

(h)The dispensing compartment of a vending machine shall be equipped with a self-closing door or cover if the machine is located in an outside area that does not otherwise afford the protection of an enclosure against the rain, windblown debris, insects, rodents, and other contaminants that are present in the environment, or if the machine is available for self-service during hours when it is not under the full-time supervision of an employee.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 6. Equipment, Utensils, and Linens [114130 - 114185.5]__

(Chapter 6 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 2. Ventilation [114149 - 114149.3]__

(Article 2 added by Stats. 2006, Ch. 23, Sec. 2.)

114149.

(a)All areas of a food facility shall have sufficient ventilation to facilitate proper food storage and to provide a reasonable condition of comfort for each employee, consistent with the job performed by the employee.

(b)Toilet rooms shall be vented to the outside air by means of an openable, screened window, an air shaft, or a light-switch-activated exhaust fan, consistent with the requirements of local building codes.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114149.1.

(a)Mechanical exhaust ventilation equipment shall be provided over all cooking equipment as required to effectively remove cooking odors, smoke, steam, grease, heat, and vapors. All mechanical exhaust ventilation equipment shall be installed and maintained in accordance with the California Mechanical Code, except that for units subject to Part 2 (commencing with Section 18000) of Division 13, an alternative code adopted pursuant to Section 18028 shall govern the construction standards.

(b)Restricted food service facilities shall be exempt from subdivision (a), but shall still provide ventilation to remove gases, odors, steam, heat, grease, vapors and smoke from the food facility. In the event that the enforcement officer determines that the ventilation must be mechanical in nature, the ventilation shall be accomplished by methods approved by the enforcement agency.

(c)This section shall not apply to cooking equipment when the equipment has been submitted to the local enforcement agency for evaluation, and the local enforcement agency has found that the equipment does not produce toxic gases, smoke, grease, vapors, or heat when operated under conditions recommended by the manufacturer. The local enforcement agency may recognize a testing organization to perform any necessary evaluations.

(d)Makeup air shall be provided at the rate of that exhausted.

(Amended by Stats. 2007, Ch. 96, Sec. 37. Effective July 20, 2007.)

114149.2.

(a)Every hood shall be installed to provide for thorough cleaning of all interior and exterior surfaces, including, but not limited to, the hood, filters, piping, lights, troughs, hangers, flanges, and exhaust ducts.

(b)Exhaust ventilation hood systems in food preparation and warewashing areas, including components such as hoods, fans, guards, and ducting, shall be designed to prevent grease or condensation from draining or dripping onto food, equipment, utensils, linens, and single-use articles.

(c)Filters or other grease extracting equipment shall be designed to be readily removable for cleaning and replacement if not designed to be cleaned in place.

(d)Every joint and seam shall be substantially tight. No solder shall be used, except for sealing a joint or seam.

(e)When grease gutters are provided they shall drain to a collecting receptacle fabricated, designed, and installed to be readily accessible for cleaning.

(f)Exhaust hood ducting shall meet the following requirements:

(1)All seams in the duct shall be completely tight to prevent the accumulation of grease.

(2)The ducts shall have sufficient clean-outs to make the ducts readily accessible for cleaning.

(3)All ducts in the exhaust system shall be properly sloped.

(4)Intake and exhaust air ducts shall be cleaned and filters changed so they are not a source of contamination by dust, dirt, and other materials.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114149.3.

Heating, ventilating, and air conditioning systems shall be designed and installed so that make-up air intake and exhaust vents do not cause contamination of food, food-contact surfaces, equipment, or utensils and do not create air currents that cause difficulty in maintaining the required temperatures of potentially hazardous foods.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=6.&article=3.

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 6. Equipment, Utensils, and Linens [114130 - 114185.5]__

(Chapter 6 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 3. Location and Installation [114153 - 114172]__

(Article 3 added by Stats. 2006, Ch. 23, Sec. 2.)

114153.

Equipment for cooling and heating food and for holding cold and hot food shall be sufficient in number and capacity to ensure proper food temperature control during transportation and operation as specified in Section 113996.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114157.

(a)A thermometer shall be provided for each refrigeration unit.

(b)The thermometer shall be located to indicate the air temperature in the warmest part of the unit and, except for vending machines, shall be affixed to be readily visible.

(c)Except as specified in subdivision (d), cold or hot holding equipment used for potentially hazardous food shall be designed to include and shall be equipped with at least one integral or permanently affixed temperature measuring device that is located to allow easy viewing of the devicestemperature display. Alternative hot or cold holding equipment can be equipped with approved product mimicking sensors placed in devices located in the warmest part of the mechanically refrigerated unit in lieu of an ambient air sensor.

(d)Subdivision (c) shall not apply to equipment for which the placement of a temperature measuring device is not a practical means for measuring the ambient air surrounding the food because of the design, type, and use of the equipment, such as calrod units, heat lamps, cold plates, bainmaries, steam tables, insulated food transport containers, and salad bars.

(e)Temperature measuring devices shall be easily readable and have a numerical scale, printed record, or digital readout in increments no greater than 2Â°F or over the intended range of use.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114159.

(a)Except for vending machines, an accurate, easily readable, metal probe thermometer suitable for measuring the temperature of food shall be readily available on the premises of each food facility holding potentially hazardous food.

(b)A food temperature measuring device with a suitable small-diameter probe that is designed to measure the temperature of thin masses shall be provided and readily accessible to accurately measure the temperature in thin foods such as meat patties and fish fillets.

(c)Food temperature measuring devices that are scaled only in Fahrenheit shall be accurate to Â±2Â°F in the intended range of use. Food temperature measuring devices that are scaled only in Celsius or dually scaled in Celsius and Fahrenheit shall be accurate to Â±1Â°C in the intended range of use.

(d)Food temperature measuring devices shall not have sensors or stems constructed of glass, except that

thermometers with glass sensors or stems that are encased in a shatterproof coating, such as candy thermometers, may be used.

(e)Food temperature measuring devices shall be calibrated in accordance with manufacturersspecifications as necessary to ensure their accuracy.

(Amended by Stats. 2009, Ch. 571, Sec. 44. (SB 241) Effective October 11, 2009.)

114161.

(a)Except as specified in subdivision (b), equipment, a cabinet used for the storage of food, or a cabinet that is used to store cleaned and sanitized equipment, utensils, laundered linens, and single-use articles shall not be in any of the following locations:

(1)In locker rooms.

(2)In toilet rooms.

(3)In refuse rooms.

(4)In mechanical rooms.

(5)Under sewer lines that are not shielded to intercept potential drips.

(6)Under leaking water lines, including leaking automatic fire sprinkler heads, or under lines on which water has condensed.

(7)Under open stairwells.

(8)Under other sources of contamination.

(b)If a mechanical clothes washer or dryer is provided, it shall be located so that the washer or dryer is protected from contamination and located only where there is no exposed food, clean equipment, utensils, and linens, and unwrapped single-use articles.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114163.

(a)Except as specified in subdivision (b), all permanent food facilities that wash, rinse, soak, thaw, or similarly prepare foods shall be provided with a food preparation sink.

(1)The food preparation sink shall have a minimum dimension of 18 inches by 18 inches in length and width and 12 inches in depth with an integral drainboard or adjacent table at least 18 inches by 18 inches in length and width.

(2)The food preparation sink shall be located in the food preparation area, provided exclusively for food

preparation, and accessible at all times.

(3)The sink shall be equipped with an adequate supply of hot and cold running water through a mixing valve.

(b)(1)Food facilities that were approved for operation without a food preparation sink prior to January 1, 2007, need not provide a food preparation sink unless the food facility makes a menu change or changes their method of operation.

(2)The enforcement officer may approve other methods where the installation of a food preparation sink would not be readily feasible.

(Amended by Stats. 2009, Ch. 571, Sec. 45. (SB 241) Effective October 11, 2009.)

114165.

Dollies, pallets, racks, and skids used to store and transport large quantities of prepackaged foods received from a supplier in a cased or overwrapped lot shall be designed to be moved by hand or by conveniently available hand trucks or forklifts.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114167.

Beverage tubing and cold-plate beverage cooling devices shall not be installed in contact with stored ice intended to be used for food or beverages. This section shall not apply to cold plates that are constructed integrally with an ice storage bin.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114169.

(a)Equipment that is fixed because it is not easily movable shall be installed so that it is:

(1)Spaced to allow access for cleaning along the sides, behind, and above the equipment.

(2)Spaced from adjoining equipment, walls, and ceilings a distance of not more than one millimeter or one thirty-second inch.

(3)Sealed to adjoining equipment or walls, if the equipment is exposed to spillage or seepage.

(b)Except as specified in subdivisions (c) and (d), floor-mounted equipment that is not easily movable shall be sealed to the floor or elevated on legs that provide at least a six-inch clearance between the floor and the equipment.

(c)Notwithstanding subdivision (b), this section shall not apply to display shelving units, display refrigeration units, and display freezer units located in the consumer shopping areas of a food facility if the floor under the units is maintained clean.

(d)Table-mounted equipment that is not easily movable shall be installed to allow cleaning of the equipment and areas underneath and around the equipment by being sealed to the table or elevated on legs that provide at least a four-inch clearance between the table and the equipment.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114171.

Liquid waste drain lines shall not pass through an ice machine or ice storage bin.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114172.

All pressurized cylinders shall be securely fastened to a rigid structure.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 6. Equipment, Utensils, and Linens [114130 - 114185.5]__

(Chapter 6 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 4. Maintenance and Operation [114175 - 114182]__

(Article 4 added by Stats. 2006, Ch. 23, Sec. 2.)

114175.

Equipment and utensils shall be kept clean, fully operative, and in good repair.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114177.

Surfaces such as cutting blocks and boards that are subject to scratching and scoring shall be resurfaced if they can no longer be effectively cleaned and sanitized, or discarded if they are not capable of being resurfaced.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114178.

(a)Except as specified in subdivision (d), cleaned equipment and utensils, laundered linens, and single-use articles shall be stored in a clean, dry location where they are not exposed to splash, dust, or other contamination, and at least six inches above the floor.

(b)Clean equipment and utensils shall be stored as specified in subdivision (a) and shall be stored covered or inverted in a self-draining position that allows air drying.

(c)Single-use articles shall be stored as specified under subdivision (a) and shall be kept in the original protective package or stored by using other means that afford protection from contamination until used.

(d)Items that are kept in closed packages may be stored less than six inches above the floor on dollies, pallets, racks, and skids that are designed as to be easily movable.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114179.

(a)Except as specified in subdivision (b), cleaned and sanitized equipment, utensils, laundered linens, and single-use articles shall not be stored in any of the following locations:

(1)In locker rooms.

(2)In toilet rooms.

(3)In refuse rooms.

(4)In mechanical rooms.

(5)Under sewer lines that are not shielded to intercept potential drips.

(6)Under leaking water lines including leaking automatic fire sprinkler heads or under lines on which water has condensed.

(7)Under open stairwells.

(8)Under other sources of contamination.

(b)Laundered linens and single-use articles that are packaged or in a storage compartment may be stored in a locker room.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114180.

(a)A reservoir that is used to supply water to a device such as a produce fogger shall be maintained in accordance with manufacturersspecifications and cleaned in accordance with manufacturersspecifications or according to the procedures specified in subdivision (b), whichever is more stringent.

(b)Cleaning procedures shall include at least the following steps and shall be conducted at least once a week:

(1)Draining and complete disassembly of the water and aerosol contact parts.

(2)Brush-cleaning the reservoir, aerosol tubing, and discharge nozzles with a suitable detergent solution.

(3)Flushing the complete system with water to remove the detergent solution and particulate accumulation.

(4)Rinsing by immersing, spraying, or swabbing the reservoir, aerosol tubing, and discharge nozzles with an approved sanitizer as specified in Section 114099.6.

(c)No fogging devices installed after the effective date of this part shall use a reservoir for holding water for fogging, but shall employ water under pressure for fogging or misting of foods.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114182.

Electrical power shall be supplied at all times to operate the approved exhaust, lighting, electric water heaters and refrigeration units, and any other accessories and appliances that may be installed in a food facility.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 6. Equipment, Utensils, and Linens [114130 - 114185.5]__

(Chapter 6 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 5. Linens [114185 - 114185.5]__

(Article 5 added by Stats. 2006, Ch. 23, Sec. 2.)

114185.

Except for linen used in fabric implements, linen shall not be used in contact with food unless they are used to line a container for the service of foods and the linens are replaced each time the container is refilled for a new consumer and laundered prior to reuse.

(Amended by Stats. 2009, Ch. 571, Sec. 46. (SB 241) Effective October 11, 2009.)

114185.1.

(a)Wiping cloths that are in use for cleaning food spills shall not be used for any other purpose.

(b)Cloths used for wiping food spills shall be dry and used for cleaning food spills from tableware and carry-out containers or used only once, or if used repeatedly, held in a sanitizing solution of an approved concentration as specified in Section 114099.6.

(c)Dry or wet cloths that are used with raw foods of animal origin shall be kept separate from cloths used for other purposes, and wet cloths used with raw foods of animal origin shall be kept in a separate sanitizing solution.

(d)Wet wiping cloths used with a freshly made sanitizing solution and dry wiping cloths shall be free of food debris and visible soil.

(e)Working containers of sanitizing solutions for storage of in-use wiping cloths shall be used in a manner to prevent contamination of food, equipment, utensils, linens, or single-use articles.

(Amended by Stats. 2007, Ch. 96, Sec. 39. Effective July 20, 2007.)

114185.2.

Clean linens shall be free of food residues and other soiling matter.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114185.3.

(a)Linens that do not come in direct contact with food shall be laundered when they become wet, sticky, or visibly soiled.

(b)Cloth gloves shall be laundered before being used with a different type of raw food of animal origin such as beef, lamb, pork, fish and poultry.

(c)Cloth napkins shall be laundered between each use.

(d)Wet wiping cloths shall be laundered daily.

(e)Dry wiping cloths shall be laundered as necessary to prevent contamination of food and clean serving utensils.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114185.4.

(a)Adequate and suitable space shall be provided for the storage of clean linens.

(b)Soiled linens shall be kept in clean, nonabsorbent receptacles or clean, washable laundry bags and stored and transported to prevent contamination of food, clean equipment, clean utensils, and single-use articles.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114185.5.

(a)Laundry facilities on the premises of a food facility shall be used only for the washing and drying of items used in the operation of the establishment.

(b)If work clothes or linens are laundered on the premises, a mechanical clothes washer and dryer shall be provided and used.

(c)If wiping cloths are laundered on the premises, they shall be laundered in a mechanical clothes washer and dryer or in a warewashing sink that is cleaned and sanitized before and after each time it is used to wash wiping cloths or wash produce or thaw food.

(Amended by Stats. 2009, Ch. 571, Sec. 47. (SB 241) Effective October 11, 2009.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 7. Water, Plumbing, and Waste [114189 - 114245.7]__

(Chapter 7 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 1. Water [114189 - 114195]__

(Article 1 added by Stats. 2006, Ch. 23, Sec. 2.)

114189.

The enforcement agency may monitor and enforce the potable drinking water standards in the California Safe Drinking Water Act (Chapter 4 commencing with Section 116275) for purposes of enforcing this part and compliance with any requirements with regard to potable water, as defined in Section 113869.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114189.1.

Chemicals used as boiler water additives shall meet the requirements specified in 21 C.F.R. 173.310.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114190.

All plumbing and plumbing fixtures shall be installed in compliance with applicable local plumbing ordinances, shall be maintained so as to prevent any contamination, and shall be kept clean, fully operative, and in good repair.

_(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec.

3 of Ch. 23.)_

114192.

(a)Except as provided in subdivision (d), an adequate, protected, pressurized, potable supply of hot water and cold water shall be provided. Hot water shall be supplied at a minimum temperature of at least 120ÂºF measured from the faucet, unless otherwise specified in this part. The water supply shall be from a water system approved by the health officer or the local enforcement agency.

(b)Any hose used for conveying potable water shall be constructed of nontoxic materials, shall be used for no other purpose, and shall be clearly labeled as to its use. The hose shall be stored and used so as to be kept free of contamination.

(c)The potable water supply shall be protected with a backflow or back siphonage protection device when required by applicable plumbing codes. Exposed piping of a nonpotable water system shall be identified so that it is readily distinguishable from piping that carries potable water.

(d)A food facility may provide only warm water if the water supply is used only for handwashing, as required in Section 113953.

(Amended by Stats. 2007, Ch. 96, Sec. 40. Effective July 20, 2007.)

114192.1.

(a)Water under pressure shall be permanently plumbed to all fixtures, equipment, and nonfood equipment that are required to use water, except for water supplied to nonpermanent food facilities.

(b)Water under pressure shall be provided at a sufficient level as specified by the Uniform Plumbing Code and manufacturersspecifications for equipment and fixtures in the food facility.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114193.

(a)All steam tables, ice machines and bins, food preparation sinks, warewashing sinks, display cases, walk-in refrigeration units, and other similar equipment that discharge liquid waste shall be drained by means of indirect waste pipes, and all wastes drained by them shall discharge through an airgap into a floor sink or other approved type of receptor.

(b)Drainage from reach-in refrigeration units shall be conducted in a sanitary manner to a floor sink or other approved device by an indirect connection or to a properly installed and functioning evaporator.

(c)Indirect waste receptors shall be located to be readily accessible for inspection and cleaning.

(d)Warewashing machines may be connected directly to the sewer immediately downstream from a floor

drain, or they may be drained through an approved indirect connection.

(e)Warewashing sinks in use on January 1, 1996, that are directly plumbed may be continued in use. This section does not require warewashing sinks to be indirectly plumbed when the local building official determines that the sink should be directly plumbed.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114193.1.

An air gap between the water supply inlet and the flood level rim of the plumbing fixture, equipment, or nonfood equipment shall be at least twice the diameter of the water supply inlet and may not be less than one inch.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114195.

(a)The water source and system shall be of sufficient capacity to meet the peak water demands of the food facility.

(b)Hot water generation and distribution systems shall be sufficient to meet the peak hot water demands throughout the food facility.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 7. Water, Plumbing, and Waste [114189 - 114245.7]__

(Chapter 7 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 2. Liquid Waste [114197 - 114201]__

(Article 2 added by Stats. 2006, Ch. 23, Sec. 2.)

114197.

Liquid waste shall be disposed of through the approved plumbing system and shall discharge into the public sewerage or into an approved private sewage disposal system.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114199.

Equipment compartments that are subject to accumulation of moisture due to conditions such as condensation, food or beverage drip, or water from melting ice, shall be sloped to an outlet that allows for complete draining.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114201.

(a)If provided, a grease trap or grease interceptor shall not be located in a food or utensil handling area unless specifically approved by the enforcement agency.

(b)Grease traps and grease interceptors shall be easily accessible for servicing.

(c)Notwithstanding subdivision (a), those food facilities approved with a grease trap or grease interceptor that are in operation before the effective date of this part are not required to comply with this section.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 7. Water, Plumbing, and Waste [114189 - 114245.7]__

(Chapter 7 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 3. Mobile Water and Wastewater Tanks [114205 - 114242]__

(Article 3 added by Stats. 2006, Ch. 23, Sec. 2.)

114205.

(a)Nonpermanent food facilities that handle nonprepackaged food shall be equipped with potable water and wastewater tanks, unless approved temporary water and wastewater connections are provided.

(b)Permanent food facilities shall be in compliance with Sections 114190 to 114201, inclusive.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114207.

Materials that are used in the construction of potable water and wastewater tanks and appurtenances shall be safe, durable, corrosion-resistant, nonabsorbent, and finished to have a smooth, easily cleanable surface.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114209.

Potable water tanks and wastewater tanks shall be sloped to an outlet that ensures complete drainage of the tank and designed and constructed so as to be easily and completely drained.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114211.

(a)The water system shall be designed and constructed using materials that enable water to be introduced without contamination.

(b)All tanks, line couplings, valves, and all other plumbing shall be designed, installed, maintained, and constructed of materials that will not contaminate the water supply, food, utensils, or equipment.

(c)All waste lines shall be connected to wastewater tanks with watertight seals.

(d)Any connection to a wastewater tank shall preclude the possibility of contaminating any food, food-contact surface, or utensil.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114213.

(a)Any potable water or wastewater tank mounted within a mobile food facility or mobile support unit shall have an air vent overflow provided in a manner that will prevent potential flooding of the interior of the facility.

(b)If provided, a water tank vent shall terminate in a downward direction and shall be covered with 16 mesh per square inch screen or equivalent when the vent is in a protected area or a protective filter when the vent is in an area that is not protected from windblown dirt and debris.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114215.

Hoses used in conjunction with nonpermanent food facilities shall meet all of the following requirements:

(a)A hose used for conveying potable water from a water tank shall be:

(1)Safe.

(2)Durable, corrosion-resistant, and nonabsorbent.

(3)Resistant to pitting, chipping, crazing, scratching, scoring, distortion, and decomposition.

(4)Finished with a smooth interior surface.

(5)Protected from contamination at all times.

(6)Clearly and durably identified as to its use if not permanently attached.

(b)Liquid waste lines shall not be the same color as hoses used for potable water.

(c)Hoses used on a mobile food facility or a mobile support unit and potable water tank connectors shall have matching connecting devices. Devices for external cleaning shall not be used for potable water purposes on the mobile food facility. Hoses and faucets equipped with quick connect and disconnect devices for these purposes shall be deemed to meet the requirements of this subdivision. Exterior hose-connection valves shall be attached to mobile food facilities or mobile support units and shall be located above the ground with an approved water connection.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114217.

(a)A potable water tank of sufficient capacity to furnish an adequate quantity of potable water for food preparation, warewashing, and handwashing purposes shall be provided for nonpermanent food facilities.

(b)At least five gallons of water shall be provided exclusively for handwashing for each nonpermanent food facility. Any water need for other purposes shall be in addition to the five gallons for handwashing.

(c)Except as specified in subdivision (d), at least 25 gallons of water shall be provided for food preparation and warewashing.

(d)At least 15 gallons of water shall be provided for nonpermanent food facilities that conduct limited food preparation.

(e)The water delivery system shall deliver at least one gallon per minute to each sink basin.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114219.

A potable water tank shall be enclosed from the filling inlet to the discharge outlet and emptied to ensure complete drainage of the tank.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114221.

(a)Water tanks shall be designed with an access port for inspection and cleaning. The access port shall be in the top of the tank and flanged upward at least one-half inch and equipped with a port cover assembly that is provided with a gasket and a device for securing the cover in place and flanged to overlap the opening and sloped to drain.

(b)Notwithstanding subdivision (a), water tanks that are not accessible for inspection may comply with this section by submitting written operational procedures for the cleaning and sanitizing of the potable water tank. The enforcement agency shall review and approve the procedures prior to implementation and an approved copy shall be kept on the mobile food facility during hours of operation.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114223.

A fitting with V□ type threads on a water tank inlet or outlet shall be allowed only when a hose is permanently attached.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114225.

(a)Potable water tanks shall be installed in a manner that will allow water to be filled with an easily accessible inlet.

(b)A potable water tanksinlet and outlet shall be positioned so that they are protected from contaminants such as waste discharge, dust, oil, or grease.

(c)Nonpermanent food facilities shall be provided with a connection of a size and type that will prevent its use for any other service and shall be constructed so that backflow and other contamination of the water supply is prevented.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114227.

A filter that does not pass oil or oil vapors shall be installed in the air supply line between the compressor and potable water system when compressed air is used to pressurize the water tank system.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114229.

If not in use, a potable water tank and hose inlet and outlet fitting shall be protected using a cap and keeper chain, quick disconnect, closed cabinet, closed storage tube, or other approved protective cover or device.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114231.

A nonpermanent food facilityspotable water tank inlet shall be three-fourths inch in inner diameter or less and provided with a hose connection of a size or type that will prevent its use for any other service.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114233.

A water tank, pump, and hoses shall be flushed and sanitized before being placed in service after construction, repair, modification, and periods of nonuse.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114235.

A person shall operate a water tank, pump, and hoses so that backflow and other contamination of the water supply are prevented.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114238.

A water tank, pump, and hoses used for conveying potable water shall not be used for any other purpose.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114239.

(a)Potable water tanks may be constructed in a manner that will allow for a potable water tank to be

removed from within the nonpermanent food facility compartments for refilling or replacing.

(b)Refilling of a potable water tank shall be conducted through an approved and sanitary method, such as at the commissary.

(c)Storage of any prefilled water tank, or empty and clean water tanks, or both, shall be within the nonpermanent food facility or in an approved manner that will protect against contamination.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114240.

(a)Wastewater tanks shall be of a capacity commensurate with the level of food handling activity.

(b)Wastewater tanks shall have a minimum capacity that is 50 percent greater than the potable water tanks. In no case shall the wastewater capacity be less than 7.5 gallons. Where potable water for the preparation of a food or beverage is supplied, an additional wastewater tank capacity equal to at least 15 percent of the water supply shall be provided.

(c)Additional wastewater tank capacity may be required where wastewater production is likely to exceed tank capacity.

(d)Where ice is utilized in the storage, display, or service of food or beverages, an additional minimum wastewater holding tank shall be provided with a capacity equal to one-third of the volume of the ice cabinet to accommodate the drainage of ice melt.

(e)Wastewater tanks on nonpermanent food facilities shall be equipped with a shut-off valve.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114241.

(a)Wastewater tanks may be constructed in a manner that will allow the wastewater tank to be removed from within the approved nonpermanent food facility compartments for replacing.

(b)Retail food operations shall cease during removal and replacement of tanks.

(c)Sewage and other liquid wastes shall be removed from a nonpermanent food facility at an approved waste servicing area or by an approved sewage transport vehicle in such a way that a public health hazard or nuisance is not created.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114242.

Wastewater tanks shall be thoroughly flushed and drained in a sanitary manner during the servicing operation.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 7. Water, Plumbing, and Waste [114189 - 114245.7]__

(Chapter 7 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 4. Refuse [114244 - 114245.7]__

(Article 4 added by Stats. 2006, Ch. 23, Sec. 2.)

114244.

(a)Each food facility shall be provided with any facilities and equipment necessary to store or dispose of all waste material.

(b)Waste receptacles shall be provided for use by consumers.

(c)A receptacle shall be provided in each area of the food facility or premises where refuse is generated or

commonly discarded, or where recyclables or returnables are placed.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114245.

(a)An area designated for refuse, recyclables, returnables, and a redeeming machine for recyclables or returnables shall be located so that it is separate from food, equipment, utensils, linens, and single-service and single-use articles and a public health hazard or nuisance is not created.

(b)Receptacles and waste handling units for refuse, recyclables, and returnables shall not be located so as to create a public health hazard or nuisance or interfere with the cleaning of adjacent space.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114245.1.

(a)All refuse, recyclables, and returnables shall be kept in nonabsorbent, durable, cleanable, leakproof, and rodentproof containers and shall be contained so as to minimize odor and insect development by covering with close-fitting lids or placement in a disposable bag that is impervious to moisture and then sealed.

(b)Refuse containers inside a food facility need not be covered during periods of operation.

(c)All refuse shall be removed and disposed of in a sanitary manner as frequently as may be necessary to prevent the creation of a nuisance.

(d)Storage areas, enclosures, and receptacles for refuse, recyclables, and returnables shall be maintained in good repair.

(e)Refuse, recyclables, and returnables shall be removed from the premises at a frequency that will minimize the development of objectionable odors and other conditions that attract or harbor insects and rodents.

(Amended by Stats. 2007, Ch. 96, Sec. 41. Effective July 20, 2007.)

114245.2.

Cardboard or other packaging material that does not contain food residues and that is awaiting regularly scheduled delivery to a recycling or disposal site may be stored outside without being in a covered receptacle if it is stored so that it does not create a rodent harborage problem.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114245.3.

If located within the food facility, a storage area for refuse, recyclables, and returnables shall meet the requirements for floors, walls, ceilings, and vermin exclusion as specified in this part.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114245.4.

If provided, an outdoor storage area or enclosure used for refuse, recyclables, and returnables shall be constructed of nonabsorbent material such as concrete or asphalt and shall be easily cleanable, durable, and sloped to drain.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114245.5.

Receptacles and waste handling units for refuse and recyclables shall be installed so that accumulation of debris and insect and rodent attraction and harborage are minimized and effective cleaning is facilitated around and, if the unit is not installed flush with the base pad, under the unit.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114245.6.

(a)Receptacles and waste handling units for refuse, recyclables, and returnables shall be thoroughly cleaned in a way that does not contaminate food, equipment, utensils, linens, or single-service and single-use articles, and wastewater shall be disposed of as specified under Section 114241.

(b)Soiled receptacles and waste handling units for refuse, recyclables, and returnables shall be cleaned at a frequency necessary to prevent them from developing a buildup of soil or becoming attractants for insects and rodents.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114245.7.

(a)Except as specified in subdivision (b), suitable cleaning implements and supplies such as high pressure pumps, hot water, steam, and detergent shall be provided as necessary for effective cleaning of receptacles and waste handling units for refuse, recyclables, and returnables.

(b)If approved, off-premises-based cleaning services may be used if on-premises cleaning implements and supplies are not provided.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 8. Physical Facilities [114250 - 114259.5]__

(Chapter 8 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 1. Toilet Facilities [114250 - 114250.1]__

(Article 1 added by Stats. 2006, Ch. 23, Sec. 2.)

114250.

Clean toilet rooms in good repair shall be provided and conveniently located and accessible for use by employees during all hours of operation. The number of toilet facilities required shall be in accordance with applicable local building and plumbing ordinances. Toilet tissue shall be provided in a permanently installed dispenser at each toilet.

(Amended by Stats. 2009, Ch. 571, Sec. 49. (SB 241) Effective October 11, 2009.)

114250.1.

(a)Food facilities located within amusement parks, stadiums, arenas, food courts, fairgrounds, and similar premises shall not be required to provide toilet facilities for employee use within each food facility if approved toilet facilities are located within 200 feet in travel distance of each food facility and are readily available for use by employees. Food facilities subject to this section shall be provided with approved handwashing facilities for employee use.

(b)Notwithstanding subdivision (a), food facilities approved prior to the effective date of this part with toilet facilities within 300 feet are not required to meet the 200 foot requirement.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 8. Physical Facilities [114250 - 114259.5]__

(Chapter 8 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 2. Lighting [114252 - 114252.1]__

(Article 2 added by Stats. 2006, Ch. 23, Sec. 2.)

114252.

In every room and area in which any food is prepared, manufactured, processed, or prepackaged, or in which equipment or utensils are cleaned, sufficient natural or artificial lighting shall be provided to produce the following light intensity, while the area is in use:

(a)At least 10 foot candles for the following:

(1)At a distance of 30 inches above the floor, in walk-in refrigeration units and dry food storage areas.

(2)At a working surface on which alcoholic beverages are prepared or where utensils used in the preparation or service of alcoholic beverages are cleaned.

(3)Inside equipment, such as reach-in or under-the-counter refrigerators.

(b)At least 20 foot candles for the following:

(1)At a surface where food is provided for consumer self-service or where fresh produce or prepackaged foods are sold or offered for consumption.

(2)In server stations where food is prepared.

(3)At a distance of 30 inches above the floor in areas used for handwashing, warewashing, and equipment and utensil storage, and in toilet rooms.

(4)In all areas and rooms during periods of cleaning.

(c)Except in server stations where food is prepared, at least 50 foot candles at a surface where a food employee is working with food or working with utensils or equipment such as knives, slicers, grinders, or saws where employee safety is a factor.

(Amended by Stats. 2009, Ch. 571, Sec. 50. (SB 241) Effective October 11, 2009.)

114252.1.

(a)Except as specified in subdivision (b), light bulbs shall be shielded, coated, or otherwise shatter-resistant in areas where there is nonprepackaged ready-to-eat food, clean equipment, utensils, and linens, or unwrapped single-use articles.

(b)Shielded, coated, or otherwise shatter-resistant bulbs need not be used in areas used only for storing prepackaged food in unopened packages, if the integrity of the packages cannot be affected by broken glass falling onto them and the packages are capable of being cleaned of debris from broken bulbs before the packages are opened.

(c)Infrared and other heat lamps shall be protected against breakage by a shield surrounding and extending beyond the bulb so that only the face of the bulb is exposed, or by using approved coated shatter resistant bulbs.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 8. Physical Facilities [114250 - 114259.5]__

(Chapter 8 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 3. Poisonous and Toxic Materials [114254 - 114254.3]__

(Article 3 added by Stats. 2006, Ch. 23, Sec. 2.)

114254.

Only those insecticides, rodenticides, and other pesticides that are necessary and specifically approved for use in a food facility may be used. The use shall be in accordance with the manufacturersinstructions.

(Amended (as added by Stats. 2006, Ch. 23, Sec. 2) by Stats. 2007, Ch. 96, Sec. 42. Effective July 20, 2007.)

114254.1.

(a)Containers of poisonous or toxic materials and personal care items shall bear a legible manufacturerslabel.

(b)Working containers used for storing poisonous or toxic materials such as cleaners and sanitizers taken from bulk supplies shall be clearly and individually identified with the common name of the material.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114254.2.

(a)Except as specified in subdivision (b), poisonous or toxic materials shall be stored or displayed so they can not contaminate food, equipment, utensils, linens, and single-use articles by separating the poisonous or toxic materials by spacing or partitioning and locating the poisonous or toxic materials in an area that is not above food, equipment, utensils, linens, and single-use articles.

(b)Equipment and utensil cleaners and sanitizers may be stored in warewashing areas for availability and convenience if the materials are stored to prevent contamination of food, equipment, utensils, linens, and single-use articles.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114254.3.

A container previously used to store poisonous or toxic materials shall not be used to store, transport, or dispense food, utensils, or single-use articles.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 8. Physical Facilities [114250 - 114259.5]__

(Chapter 8 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 4. Employee Storage Areas [114256 - 114256.4]__

(Article 4 added by Stats. 2006, Ch. 23, Sec. 2.)

114256.

(a)Areas designated for employees to eat and drink shall be located so that food, equipment, linens, and single-use articles are protected from contamination.

(b)Lockers or other suitable facilities shall be located in a designated room or area where contamination of food, equipment, utensils, linens, and single-use articles cannot occur.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114256.1.

(a)Lockers or other suitable facilities shall be provided and used for the orderly storage of employee clothing and other possessions.

(b)Dressing rooms or dressing areas shall be provided and used by employees if the employees regularly change their clothes in the facility.

(c) Restricted food service facilities and nonpermanent food facilities shall not be required to comply with subdivision (a), but no person shall store clothing or personal effects in any area used for the storage and preparation of food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114256.2.

Medicines that are in a food facility for the employees™ use shall be labeled and stored so as to prevent the contamination of food, equipment, utensils, linens, and single-use articles. This section does not apply to medicines that are stored or displayed for retail sale.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114256.4.

First aid supplies that are in a food facility for the employees™ use shall be labeled with a legible manufacturerslabel and stored in a kit or a container that is located to prevent the contamination of food, equipment, utensils, linens, and single-use articles.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__CHAPTER 8. Physical Facilities [114250 - 114259.5]__

(Chapter 8 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 5. Premises and Facilities [114257 - 114257.1]__

(Article 5 added by Stats. 2006, Ch. 23, Sec. 2.)

114257.

All premises of a food facility shall be kept clean fully operative, and in good repair.

(Amended by Stats. 2007, Ch. 96, Sec. 43. Effective July 20, 2007.)

114257.1.

The premises of a food facility shall be free of litter and items that are unnecessary to the operation or maintenance of the facility, such as equipment that is nonfunctional or no longer used.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=8.&article=6.

114259.

A food facility shall at all times be constructed, equipped, maintained, and operated as to prevent the entrance and harborage of animals, birds, and vermin, including, but not limited to, rodents and insects.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114259.3.

(a)Insect control devices that are used to electrocute or stun flying insects shall be designed to retain the insect within the device.

(b)Insect control devices shall be installed so that the devices are not located over a food or utensil handling area and dead insects and insect fragments are prevented from being impelled onto or falling on nonprepackaged food, clean equipment, utensils, linens, and unwrapped single-use articles.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114259.5.

(a)Except as specified in this section, live animals may not be allowed in a food facility.

(b)Live animals may be allowed in any of the following situations if the contamination of food, clean equipment, utensils, linens, and unwrapped single-use articles cannot result:

(1)Edible fish or decorative fish in aquariums, shellfish or crustacea on ice or under refrigeration, and shellfish and crustacea in display tank systems.

(2)Animals intended for consumption if the live animals are kept separate from all food and utensil handling areas, are held in sanitary conditions, are slaughtered in a separate room designed solely for that purpose and separated from other food and utensil handling areas, and maintained in an area that has ventilation separate from food and utensil handling areas.

(3)Dogs under the control of a uniformed law enforcement officer or of uniformed employees of private patrol operators and operators of a private patrol service who are licensed pursuant to Chapter 11.5 (commencing with Section 7580) of Division 3 of the Business and Professions Code, while those employees are acting within the course and scope of their employment as private patrol persons.

(4)In areas that are not used for food preparation and that are usually open for consumers, such as dining and sales areas, service animals that are controlled by a disabled employee or person, if a health or safety hazard will not result from the presence or activities of the service animal.

(5)Pets in the common dining areas of restricted food service facilities at times other than during meals if all of the following conditions are satisfied:

(A)Effective partitioning and self-closing doors separate the common dining areas from food storage or food preparation areas.

(B)Condiments, equipment, and utensils are stored in enclosed cabinets or removed from the common dining areas when pets are present.

(C)Dining areas including tables, countertops, and similar surfaces are effectively cleaned before the next meal service.

(6)In areas that are not used for food preparation, storage, sales, display, or dining, in which there are caged animals or animals that are similarly restricted, such as in a variety store that sells pets or a tourist park that displays animals.

(7)If kept at least 20 feet (6 meters) away from any mobile food facility, temporary food facility, or certified farmers™ market.

(c)Those persons and operators described in paragraphs (3) and (4) of subdivision (b) are liable for any damage done to the premises or facilities by the dog.

(d)Pet dogs under the control of a person in an outdoor dining area if all of the following conditions are satisfied:

(1)The owner of the food facility elects to allow pet dogs in its outdoor dining area.

(2)A separate outdoor entrance is present where pet dogs enter without going through the food establishment to reach the outdoor dining area and pet dogs are not allowed on chairs, benches, seats, or other fixtures.

(3)The outdoor dining area is not used for food or drink preparation or the storage of utensils. A food employee may refill a beverage glass in the outdoor dining area from a pitcher or other container.

(4)Food and water provided to pet dogs shall only be in single-use disposable containers.

(5)Food employees are prohibited from having direct contact with pet dogs while on duty. A food employee who does have that prohibited direct contact shall wash his or her hands as required by Section 113953.3.

(6)The outdoor dining area is maintained clean. Surfaces that have been contaminated by dog excrement or other bodily fluids shall be cleaned and sanitized.

(7)The pet dog is on a leash or confined in a pet carrier and is under the control of the pet dog owner.

(8)The food facility owner ensures compliance with local ordinances related to sidewalks, public nuisance, and sanitation.

(9)Other control measures approved by the enforcement agency.

(e)Live or dead fish bait may be stored if contamination of food, clean equipment, utensils, linens, and unwrapped single-use articles cannot result.

(Amended by Stats. 2014, Ch. 234, Sec. 2. (AB 1965) Effective January 1, 2015.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 9. Permanent Food Facilities [114265 - 114289.5]__

(Chapter 9 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 1. Floors, Walls, and Ceilings [114266 - 114272]__

(Article 1 added by Stats. 2006, Ch. 23, Sec. 2.)

114266.

(a)Each permanent food facility shall be fully enclosed in a building consisting of permanent floors, walls, and an overhead structure that meet the minimum standards as prescribed by this part. Food facilities that are not fully enclosed on all sides and that are in operation on January 1, 1985, shall not be required to meet the requirements of this section until the facility is remodeled or has a significant menu change or significant change in its method of operation.

(b)Notwithstanding subdivision (a), this section does not require the enclosure of dining areas or any other operation approved for outdoor food service.

(c)Notwithstanding subdivision (a), a produce stand that was in operation prior to January 1, 2007, shall have no more than one side open to the outside air during business hours.

(Amended by Stats. 2015, Ch. 615, Sec. 8. (AB 226) Effective January 1, 2016.)

114268.

(a)Except in sales areas and as otherwise specified in subdivision (d), the floor surfaces in all areas in which food is prepared, prepackaged, or stored, where any utensil is washed, where refuse or garbage is stored, where janitorial facilities are located in all toilet and handwashing areas, except with respect to areas relating to guestroom accommodations and the private accommodations of owners and operators in restricted food service facilities, shall be smooth and of durable construction and nonabsorbent material that is easily cleanable.

(b)Floor surfaces shall be coved at the juncture of the floor and wall with a 3/8 inch minimum radius coving and shall extend up the wall at least 4 inches, except in areas where food is stored only in unopened bottles, cans, cartons, sacks, or other original shipping containers.

(c) Public or private schools constructed or remodeled after the effective date of this part shall comply with subdivision (b). Public and private schools constructed before the effective date of this part need not comply with subdivision (b), provided that the existing floor surfaces are maintained in good repair and in a sanitary condition.

(d)Except for dining and serving areas, the use of sawdust, wood shavings, peanut hulls, or similar materials is prohibited.

(e)This section shall not prohibit the use of approved dust-arresting floor sweeping and cleaning compounds during floor cleaning operations or the use of antislip floor finishes or materials in areas where necessary for safety reasons.

(Amended by Stats. 2013, Ch. 556, Sec. 14. (AB 1252) Effective January 1, 2014.)

114268.1.

(a)Except as specified in subdivision (b), only dustless methods of cleaning such as wet cleaning, vacuum cleaning, mopping with treated dust mops, or sweeping using a broom and dust-arresting compounds shall be used in food facilities.

(b)Spills or drippage on floors that occur between normal floor cleaning times may be cleaned without the use of dust-arresting compounds and, in the case of liquid spills or drippage, with the use of a small amount of absorbent compound such as sawdust or diatomaceous earth applied immediately before spot cleaning.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114269.

(a)Upon new construction or extensive remodeling, floor drains shall be installed in floors that are water-flushed for cleaning and in areas where pressure spray methods for cleaning equipment are used. Floor surfaces in areas pursuant to this subdivision shall be sloped 1:50 to the floor drains.

(b)Upon new construction or extensive remodeling, floor sinks or equivalent devices shall be installed to receive discharges of water or other liquid waste from equipment.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114271.

(a)Except as provided in subdivision (b), the walls and ceilings of all rooms shall be of a durable, smooth, nonabsorbent, and easily cleanable surface.

(b)This section shall not apply to any of the following areas:

(1)Walls and ceilings of bar areas in which alcoholic beverages are sold or served directly to the consumers, except wall areas adjacent to bar sinks and areas where food is prepared.

(2)Areas where food is stored only in unopened bottles, cans, cartons, sacks, or other original shipping containers.

(3)Dining and sales areas.

(4)Offices.

(5)Restrooms that are used exclusively by the consumers, except that the walls and ceilings in the restrooms shall be of a nonabsorbent and washable surface.

(6)Dressing rooms, dressing areas, or locker areas.

(c)Acoustical paneling may be utilized if it is installed not less than six feet above the floor. The paneling shall meet the other requirements of this section.

(d)Conduits of all types shall be installed within walls as practicable. When otherwise installed, they shall be mounted or enclosed so as to facilitate cleaning.

(e)Attachments to walls and ceilings, such as light fixtures, mechanical room ventilation system components, vent covers, wall mounted fans, decorative items, and other attachments, shall be easily cleanable.

(Amended by Stats. 2013, Ch. 556, Sec. 15. (AB 1252) Effective January 1, 2014.)

114272.

Mats and duckboards shall be designed to be removable and easily cleanable.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=9.&article=2.

114276.

(a)A permanent food facility shall provide clean toilet facilities in good repair for use by employees.

(b)(1)A permanent food facility shall provide clean toilet facilities in good repair for consumers, guests, or invitees when there is onsite consumption of foods or when the food facility was constructed after July 1, 1984, and has more than 20,000 square feet of floor space.

(2)Notwithstanding Section 113984.1, toilet facilities that are provided for use by consumers, guests, or invitees shall be in a location where consumers, guests, and invitees do not pass through food preparation, food storage, or utensil washing areas to reach the toilet facilities.

(3)For purposes of this section, a building subject to paragraph (1) that has a food facility with more than 20,000 square feet of floor space shall provide at least one separate toilet facility for men and one separate toilet facility for women.

(4)For purposes of this section, the gas pump area of a service station that is maintained in conjunction with a food facility shall not be considered as property used in connection with the food facility or be considered in determining the square footage of floor space of the food facility.

(c)(1)Toilet rooms shall be separated by well-fitted, self-closing doors that prevent the passage of flies, dust, or odors.

(2)Toilet room doors shall be kept closed except during cleaning and maintenance operations.

(d)Handwashing facilities, in good repair, shall be provided as specified in Sections 113953 and 113953.3.

(e)A city, county, or city and county may enact ordinances that are more restrictive than this section.

(f)(1)Except as provided in paragraph (1) of subdivision (b), a food facility that was constructed before January 1, 2004, that has been in continuous operation since January 1, 2004, and that provides space for the consumption of food on the premises shall either provide clean toilet facilities in good repair for consumers, guests, or invitees on property used in connection with, or in, the food facility or prominently post a sign within the food facility in a public area stating that toilet facilities are not provided.

(2)The first violation of paragraph (1) shall result in a warning. Subsequent violations shall constitute an infraction punishable by a fine of not more than two hundred fifty dollars ($250).

(3)The requirements of this section for toilet facilities that are accessible to consumers, guests, or invitees on the property may be satisfied by permitting access by those persons to the toilet and handwashing facilities that are required by this part.

(Amended by Stats. 2015, Ch. 164, Sec. 3. (AB 143) Effective January 1, 2016.)

(Article 3 added by Stats. 2006, Ch. 23, Sec. 2.)

114279.

(a)At least one curbed cleaning facility or janitorial sink equipped with hot and cold water and a drain shall be provided and conveniently located for the cleaning of mops or similar wet floor cleaning tools and for the disposal of mop water and similar liquid waste.

(b)Restricted food service facilities shall be exempt from subdivision (a) if hot water is available for janitorial purposes and wastewater from janitorial activities is disposed of through an approved sewage disposal system.

(Amended by Stats. 2009, Ch. 571, Sec. 51. (SB 241) Effective October 11, 2009.)

114281.

A room, area, or cabinet separated from any food preparation or storage area, or warewashing or storage area shall be provided for the storage of cleaning equipment and supplies.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114282.

After use, mops shall be placed in a position that allows them to air-dry without soiling walls, equipment, or supplies.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__ARTICLE 4. Premises [114285 - 114286]__

(Article 4 added by Stats. 2006, Ch. 23, Sec. 2.)

114285.

(a)Except as specified in subdivision (b), a private home, a room used as living or sleeping quarters, or an area directly opening into a room used as living or sleeping quarters shall not be used for conducting food facility operations.

(b)(1)Nonperishable, prepackaged food may be given away, sold, or handled from a private home. No food that has exceeded the labeled shelf life date recommended by the manufacturer shall be deemed to be nonperishable food.

(2)For purposes of this subdivision, nonperishable food means a food that is not a potentially hazardous food, and that does not show signs of spoiling, becoming rancid, or developing objectionable odors during storage at ambient temperatures.

(c)Restricted food service facilities are exempt from subdivision (a) provided that no sleeping accommodations shall be allowed in any area where food is prepared or stored.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114286.

(a)No sleeping accommodations shall be maintained or kept in any room where food is prepared, stored, or sold.

(b)Living or sleeping quarters located on the premises of a food facility shall be separated from rooms and areas used for food facility operations by complete partitioning. Except for restricted food service facilities, no door or other opening shall be permitted in the partition that separates the food facility from the living or

sleeping quarters.

(Amended by Stats. 2009, Ch. 571, Sec. 52. (SB 241) Effective October 11, 2009.)

__ARTICLE 5. Prepackaged Nonpotentially Hazardous Foods [114289 - 114289.5]__

(Article 5 added by Stats. 2010, Ch. 682, Sec. 1.)

114289.

(a)Notwithstanding any law to the contrary, a permanent food facility that has less than 300 square feet of display area and that sells only prepackaged food that is not potentially hazardous food shall be exempt from the requirements of this part except as set forth in subdivision (c).

(b)Notwithstanding any law to the contrary, a premises set aside for beer or wine tasting, as that term is defined in Section 23356.1 or 23357.3 of the Business and Professions Code, that complies with Section 118375, for the purposes of wine or beer tasting, regardless of whether there is a charge for the wine or beer tasting, if no other beverage, except for bottles of wine or beer and prepackaged nonpotentially hazardous

beverages, is offered for sale or for onsite consumption, and crackers, pretzels, or prepackaged food that is not potentially hazardous food is offered for sale or for onsite consumption shall be subject to the requirements set forth in paragraph (1) of subdivision (c). These facilities shall not have a food display area greater than 25 square feet.

(c)(1)A facility or premises with a food display area of 25 square feet or less shall comply with all of the following:

(A)Sections 113980, 114047, 114049, 114390, 114393, 114395, 114397, and 114399.

(B)Chapter 1 (commencing with Section 113700).

(C)Chapter 2 (commencing with Section 113728).

(2)A permanent food facility with a food display area greater than 25 square feet, but less than 300 square feet, shall comply with all of the following:

(A)Sections 113980, 114047, 114049, 114250, 114266, 114381, 114387, 114390, 114393, 114395, 114397, 114399, 114405, 114407, 114409, 114411, and 114413.

(B)Chapter 1 (commencing with Section 113700).

(C)Chapter 2 (commencing with Section 113728).

(Amended (as amended by Stats. 2014, Ch. 927, Sec. 2) by Stats. 2015, Ch. 164, Sec. 4. (AB 143) Effective January 1, 2016.)

114289.5.

The enforcement agency may recover the costs of investigation and enforcement of this article.

(Added by Stats. 2010, Ch. 682, Sec. 1. (AB 2432) Effective January 1, 2011.)

Codes Display Text

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 10. Mobile Food Facilities [114294 - 114327]__

(Chapter 10 added by Stats. 2006, Ch. 23, Sec. 2.)

114294.

(a)All mobile food facilities and mobile support units shall meet the applicable requirements in Chapter 1 (commencing with Section 113700) to Chapter 8 (commencing with Section 114250), inclusive, and Chapter 13 (commencing with Section 114380), unless specifically exempted from any of these provisions, as provided in this chapter.

(b)The enforcement agency shall initially approve all mobile food facilities and mobile support units as complying with the provisions of this chapter and may require reapproval if deemed necessary.

(c)Each mobile food facility that is either a special purpose commercial modular and coach, as defined by Section 18012.5, or a commercial modular coach, as defined by Section 18001.8, shall be certified by the Department of Housing and Community Development, consistent with Chapter 4 (commencing with Section 18025) of Part 2 of Division 13 and regulations promulgated pursuant to that chapter. The enforcement agency shall approve all equipment installation prior to operation.

(Amended by Stats. 2018, Ch. 493, Sec. 8. (AB 2524) Effective January 1, 2019.)

114295.

(a)Except as specified in subdivision (b), all mobile food facilities shall operate in conjunction with a commissary, mobile support unit, or other facility approved by the enforcement agency.

(b)This section does not apply to mobile food facilities that operate at community events as defined in Section 113755 and that remain in a fixed position during food preparation and its hours of operation, if potable water and liquid waste disposal facilities are available to mobile food facilities requiring potable water.

(c)Mobile food facilities shall be stored at or within a commissary or other location approved by the enforcement agency in order to have protection from unsanitary conditions.

(d)Mobile support units shall be operated from and stored at a designated commissary and shall be subject to permitting and plan review.

(e)Notwithstanding any other provisions of this section, a mobile food facility that is engaged in food preparation, other than limited food preparation, as defined in Section 113818, shall not operate in conjunction with a mobile support unit.

(Amended by Stats. 2013, Ch. 556, Sec. 17. (AB 1252) Effective January 1, 2014.)

114297.

(a)Mobile food facilities shall be cleaned and serviced at least once daily during an operating day.

(b)Except as specified in subdivision (c), all mobile food facilities shall report to the commissary or other approved facility on a daily basis.

(c)Mobile food facilities that are serviced by a mobile support unit and that do not report to a commissary on a daily basis shall be stored in a manner that protects the mobile food facility from contamination. All food shall be stored at the commissary or other approved facility at the end of the operating day.

(d)Mobile support units shall report to a commissary or other approved facility for cleaning, servicing, and storage at least daily.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114299.

(a)Except as specified in subdivision (c), the business name or name of the operator, city, state, ZIP Code, and name of the permitholder, if different from the name of the food facility, shall be legible, clearly visible to consumers, and permanently affixed on the consumer side of the mobile food facility and on a mobile support unit.

(b)The business name shall be in letters at least 3 inches high. Letters and numbers for the city, state, ZIP Code, and permitholder name, if different from the business name, shall not be less than one inch high. The color of each letter and number shall contrast with its background.

(c)Notwithstanding subdivision (a), motorized mobile food facilities and mobile support units shall have the required identification on two sides.

(Amended by Stats. 2016, Ch. 195, Sec. 15. (SB 1067) Effective January 1, 2017.)

114301.

(a)Except to the extent that an alternative construction standard is explicitly prescribed by this section, construction standards for mobile food facilities that are subject to Part 2 (commencing with Section 18000) of Division 13 shall be governed by that part.

(b)Mobile food facility equipment, including, but not limited to, cooking equipment, the interior of cabinet units, and compartments, shall be designed and made of materials that result in smooth, readily accessible, and easily cleanable surfaces.

(1)Unfinished wooden surfaces are prohibited.

(2)Construction joints and seams shall be tightly fitted and sealed so as to be easily cleanable. Silicone sealant or equivalent waterproof compounds shall be acceptable, provided that the gap is smaller than one-quarter inch and applied smooth so as to prevent the entrance of liquid waste or vermin.

(3)Except as specified in Section 114314, nonportable equipment shall be an integral part of the primary unit.

(c)Mobile food facilities that handle potentially hazardous foods, except for prepackaged frozen ready-to-eat foods, whole fish, and whole aquatic invertebrates, shall be equipped with refrigeration units as defined in Section 113885.

(d)All new and replacement gas-fired appliances shall meet applicable ANSI standards. All new and replacement electrical appliances shall meet applicable Underwriters Laboratory standards. However, for units subject to Part 2 (commencing with Section 18000) of Division 13, these appliances shall comply with standards prescribed by Sections 18028, 18029.3, and 18029.5.

(e)Space around pipes, conduits, or hoses that extend through cabinets, floors, or outer walls shall be sealed. The closure shall be smooth and easily cleanable.

(f)Equipment in which spillage is likely to occur shall have a drip tray fitted so that spillage drains into a waste tank.

(g)All equipment shall be installed so as to be easily cleanable, prevent vermin harborage, and provide adequate access for service and maintenance.

(1)Equipment shall be spaced apart or sealed together for easy cleaning. There shall be a minimum of four inches of unobstructed space provided for sanitary maintenance beneath counter mounted equipment or between the sides of adjacent equipment.

(2)Portable equipment or machinery need not comply with the minimum leg height requirement.

(3)Threads, nuts, or rivets shall not be exposed where they interfere with cleaning. Threads, nuts, or rivets that interfere with cleaning shall be sealed or capped.

(4)All floor mounted equipment shall be sealed to the floor to prevent moisture from getting under the equipment, or it shall be raised at least six inches off the floor by means of an easily cleanable leg and foot.

(h)Floors, walls, and ceilings of all enclosed food preparation areas shall be constructed so that the surfaces are impervious, smooth, and easily cleanable. Floor surfaces shall provide employee safety from slipping. The juncture of the floor and wall shall be coved with a 3/8 inch minimum radius coving, with the floor surface extending up the wall at least four inches.

(i)Notwithstanding Section 114143, ground or floor surfaces where cooking processes are conducted from a grill, barbecue, or other unenclosed cooking unit on a mobile food facility shall be impervious, smooth, easily cleanable, and shall provide employee safety from slipping. Ground or floor surfaces in compliance with this section shall extend a minimum of five feet on all open sides of where cooking processes are conducted.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114303.

(a)Employee entrance doors to food preparation areas shall be self-closing and kept closed when not in use.

(b)The mobile food facility, and all equipment and utensils shall be protected from potential contamination, and kept clean, in good repair, and free of vermin.

(c)During transportation, storage, and operation of a mobile food facility, food, food-contact surfaces, and utensils shall be protected from contamination.

(d)The permitholder of an unenclosed mobile food facility handling nonprepackaged food shall develop and follow written operational procedures for food handling and the cleaning and sanitizing of food-contact surfaces and utensils. The enforcement agency shall review and approve the procedures prior to implementation and an approved copy shall be kept on the mobile food facility during periods of operation.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114305.

(a)During operation, no food intended for retail shall be conveyed, held, stored, displayed, or served from any place other than a mobile food facility, except for the restocking of product in a manner approved by the enforcement agency.

(b)Food preparation counter space shall be provided commensurate with the food operation, adjacent to all cooking equipment.

(c) Except as specified in subdivision (d), food products remaining after each daysoperation shall be stored in an approved commissary or other approved facility.

(d)Potentially hazardous foods held at or above 135ÂºF on a mobile food facility or mobile support unit shall be destroyed at the end of the operating day.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114306.

(a)A single operating site mobile food facility is restricted to produce, prepackaged food, and limited food preparation.

(b)Notwithstanding Section 113984, a mobile food facility operating within a fully enclosed structure shall not be required to provide a secondary food compartment over food preparation areas.

(c)A single operating site mobile food facility that is required to provide warewashing and handwashing facilities shall provide a warewashing sink and handwashing sink per site or operation. A warewashing and handwashing sink contained in a facility to which this subdivision applies shall be conveniently located so as to be accessible during all hours of operation. Additional handwashing sinks may be required pursuant to paragraph (1) of subdivision (b) of Section 113953.

(d)Notwithstanding Section 114095, a warewashing sink may be shared by not more than four mobile food facilities operating as a single operating site mobile food facility that is required to provide a warewashing sink, if the sink is conveniently located so as to be accessible during all hours of operation.

(e)For purposes of permitting and enforcement, the permitholder of each single operating site mobile food facility location shall be the same.

(Added by Stats. 2009, Ch. 571, Sec. 54. (SB 241) Effective October 11, 2009.)

114307.

Mobile food facilities that operate at community events and that remain fixed during food preparation and its hours of operation may:

(a)Include a staffed counter that serves hot and cold beverages and ice that are not potentially hazardous food and that are dispensed from approved bulk dispensing units.

(b)Store supplies and food that are not potentially hazardous in unopened containers adjacent to the mobile food facility or in a nearby temporary storage unit. Unopened container means a factory sealed container that has not been previously opened and that is suitably constructed to be resistant to contamination from moisture, dust, insects, and rodents.

(c)Operate an open-air barbecue adjacent to the mobile food facility if approved by the enforcement agency.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114309.

(a)Mobile food facilities and mobile support units shall be exempt from the requirements of Sections 114250, 114256.1, and 114279. A local enforcement agency may exempt a push cart operating outdoors, other than a special purpose commercial modular and coach, as defined by Section 18012.5, or a commercial modular coach, as defined by Section 18001.8, that conducts only limited food preparation from Section 114149.1.

(b)This chapter does not require any person to replace or modify an existing mobile food facility approved for operation prior to adoption of this part, so long as the facility is operated in accordance with the conditions of approval. Plans and specifications may be required by the enforcement agency if it determines that they are necessary to assure compliance with this part.

(c)Mobile food facilities equipped with a one-compartment sink or two-compartment sink that was approved for operation prior to adoption of this part need not provide a three-compartment sink.

(Amended by Stats. 2021, Ch. 155, Sec. 7. (AB 831) Effective January 1, 2022.)

114311.

Mobile food facilities not under a valid permit as of January 1, 1997, from which nonprepackaged food is sold shall provide handwashing facilities. The handwashing facilities shall be separate from the warewashing sink.

(a)The handwashing sink shall have a minimum dimension of nine inches by nine inches in length and width and five inches in depth and be easily accessible by food employees.

(b)The handwashing facility shall be separated from the warewashing sink by a metal splashguard with a height of at least six inches that extends from the back edge of the drainboard to the front edge of the drainboard, the corners of the barrier to be rounded. No splashguard is required if the distance between the handwashing sink and the warewashing sink drainboards is 24 inches or more.

(c)This section shall not apply to mobile food facilities handling only whole produce or the bulk dispensing of nonpotentially hazardous beverages.

(Amended by Stats. 2009, Ch. 571, Sec. 55. (SB 241) Effective October 11, 2009.)

114313.

(a)Except as specified in subdivisions (b) and (c), a mobile food facility where nonprepackaged food is cooked, blended, or otherwise prepared shall provide a warewashing sink with at least three compartments with two integral metal drainboards.

(1)The dimensions of each compartment shall be large enough to accommodate the cleaning of the largest utensil and either of the following:

(A)At least 12 inches wide, 12 inches long, and 10 inches deep.

(B)At least 10 inches wide, 14 inches long, and 10 inches deep.

(2)Each drainboard shall be at least the size of one of the sink compartments. The drainboards shall be installed with at least one-eighth inch per foot slope toward the sink compartment, and fabricated with a minimum of one-half inch lip or rim to prevent the draining liquid from spilling onto the floor.

(3)The sink shall be equipped with a mixing faucet and shall be provided with a swivel spigot capable of servicing all sink compartments.

(b)If all utensils and equipment of a mobile food facility are washed and sanitized on a daily basis at the approved commissary or other approved food facility, and the mobile food facility provides and maintains an adequate supply of spare preparation and serving utensils in the mobile food facility as needed to replace

those that become soiled or contaminated, then the mobile food facility shall not be required to provide a warewashing sink to only handle any of the following:

(1)Nonpotentially hazardous foods that do not require preparation other than heating, baking, popping, portioning, bulk dispensing, assembly, or shaving of ice.

(2)Steamed or boiled hot dogs.

(3)Tamales in the original, inedible wrapper.

(c)An unenclosed mobile food facility that prepares potentially hazardous beverages for immediate service in response to an individual consumer order shall do one of the following:

(1)Provide a three-compartment sink described in subdivision (a).

(2)Provide at least one two-compartment sink that complies with subdivision (e) of Section 114099.3.

(3)Provide a one-compartment sink with at least one integral metal drainboard, an adequate supply of spare preparation and serving utensils to replace those that become soiled or contaminated, and warewashing facilities that comply with subdivision (a) in reasonable proximity to, and readily accessible for use by, food employees at all times.

(Amended by Stats. 2009, Ch. 571, Sec. 56. (SB 241) Effective October 11, 2009.)

114314.

(a)Handwashing sinks and warewashing sinks for unenclosed mobile food facilities shall be an integral part of the primary unit or on an approved auxiliary conveyance that is used in conjunction with the mobile food facility.

(b)Warewashing sinks for unenclosed mobile food facilities shall be equipped with overhead protection made of wood, canvas, or other materials that protect the sinks from bird and insect droppings, dust, precipitation, and other contaminants.

(Amended by Stats. 2009, Ch. 571, Sec. 57. (SB 241) Effective October 11, 2009.)

114315.

(a)A food facility shall be operated within 200 feet travel distance of an approved and readily available toilet and handwashing facility, or as otherwise approved by the enforcement agency, to ensure that restroom facilities are available to facility employees whenever the mobile food facility is stopped to conduct business for more than a one-hour period.

(b)This section does not limit the authority of a local governing body to adopt, by ordinance or resolution, additional requirements for the public safety, including reasonable time, place, and manner restrictions pursuant to its authority under subdivision (b) of Section 22455 of the Vehicle Code.

(Amended by Stats. 2008, Ch. 139, Sec. 2. Effective January 1, 2009.)

114317.

The exterior of a mobile food facility and the surrounding area, as relating to the operation of food service, shall be maintained in a sanitary condition.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114319.

(a)Spare tires, related automotive equipment, or special tools relating to the mechanical operation of the mobile food facility shall not be stored in the food preparation or food storage areas.

(b)A separate cabinet or drawer shall be installed for the storage of insecticides or other poisonous substances in accordance with Section 114254, if these substances are used. All poisonous chemicals shall be kept in this cabinet or drawer in their original containers and in a manner that offers no contamination hazard to food or utensils.

(c)During periods of inoperation, food and utensils shall be stored in one of the following methods:

(1)Within approved food storage facilities at the commissary or other approved facility.

(2)In food compartments approved by the enforcement agency where the food is protected at all times from contamination, exposure to the elements, ingress of rodents and other vermin, and temperature abuse.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114321.

Mobile food facilities that are occupied during normal business operations shall have a clear, unobstructed height over the aisleway portion of the unit of at least 74 inches from floor to ceiling, and a minimum of 30 inches of unobstructed horizontal aisle space. This section shall not apply to vehicles under permit prior to January 1, 1996.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114322.

Compressor units that are not an integral part of food equipment, auxiliary engines, generators, and similar

equipment shall be installed in an area that is completely separated from food preparation and food storage and that is accessible from outside the unit for proper cleaning and maintenance.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114323.

(a)A first-aid kit shall be provided and located in a convenient area in an enclosed case.

(b)Mobile food facilities that operate at more than one location in a calendar day shall be equipped to meet all of the following requirements:

(1)All utensils in a mobile food facility shall be stored so as to prevent their being thrown about in the event of a sudden stop, collision, or overturn. A safety knife holder shall be provided to avoid loose storage of knives in cabinets, boxes, or slots along counter aisles. Knife holders shall be designed to be easily cleanable and be manufactured of materials approved by the enforcement agency.

(2)Coffee urns, deep fat fryers, steam tables, and similar equipment shall be equipped with positive closing lids that are fitted with a secure latch mechanism that will prevent excessive spillage of hot liquids into the interior of a mobile food facility in the event of a sudden stop, collision, or overturn. As an alternative to this requirement, a coffee urn may be installed in a compartment that will prevent excessive spillage of coffee in the interior of the unit.

(3)Metal protective devices shall be installed on the glass liquid level sight gauges on all coffee urns.

(c)Light bulbs and tubes shall be covered with a completely enclosed plastic safety shield or its equivalent, and installed so as to not constitute a hazard to personnel or food.

(d)All liquefied petroleum equipment shall be installed to meet applicable fire authority standards, and this installation shall be approved by the fire authority. However, for units subject to Part 2 (commencing with Section 18000) of Division 13, this equipment and its installation shall comply with standards prescribed by Sections 18028 and 18029.5.

(e)A properly charged and maintained minimum 10 BC-rated fire extinguisher to combat grease fires shall be properly mounted and readily accessible on the interior of any mobile food facility that is equipped with heating elements or cooking equipment.

(f)(1)Except for units subject to Part 2 (commencing with Section 18000) of Division 13, a second means of exit shall be provided in the side opposite the main exit door, or in the roof, or the rear of the unit, with an unobstructed passage of at least 24 inches by 36 inches. The interior latching mechanism shall be operable by hand without special tools or key. The exit shall be labeled Safety Exit in contrasting colors with letters at least one inch high.

(2)For units subject to Part 2 (commencing with Section 18000) of Division 13, the size, latching, and labeling of the second means of exit shall comply with standards prescribed by Sections 18028 and 18029.5.

(g)All gas-fired appliances shall be properly insulated in a manner that will prevent excessive heat buildup and injury.

(Amended by Stats. 2007, Ch. 96, Sec. 51. Effective July 20, 2007.)

114325.

(a)Except on a mobile food facility that only utilizes the water for handwashing purposes, a water heater or an instantaneous heater capable of heating water to a minimum of 120ÂºF, interconnected with a potable water supply, shall be provided and shall operate independently of the vehicle engine. On a mobile food facility that only utilizes the water for handwashing purposes, a minimum one-half gallon-capacity water heater or an instantaneous water heater capable of heating water to a minimum of 100Â°F, interconnected with a potable water supply, shall be provided and shall operate independently of the vehicle engine.

(b)A water heater with a minimum capacity of four gallons shall be provided for mobile food facilities that have a warewashing sink.

(c)A mobile food facility equipped with a three-gallon-capacity water heater that is in compliance with this section on January 1, 2014, is in compliance with this section after that date.

(Amended by Stats. 2013, Ch. 556, Sec. 19. (AB 1252) Effective January 1, 2014.)

114326.

All commissaries and other approved facilities servicing mobile support units, mobile food facilities, and vending machines shall meet the applicable requirements in this part and any of the following to accommodate all operations necessary to support mobile support units, mobile food facilities, and vending machines:

(a)Adequate facilities shall be provided for the sanitary disposal of liquid waste from the mobile food facility or mobile support unit being serviced.

(b)Adequate facilities shall be provided for the handling and disposal of garbage and refuse originating from a mobile food facility or mobile support unit.

(c)Potable water shall be available for filling the water tanks of each mobile food facility and mobile support unit that requires potable water. Faucets and other potable water sources shall be constructed, located, and maintained so as to minimize the possibility of contaminating the water being loaded.

(d)Hot and cold water, under pressure, shall be available for cleaning mobile food facilities and mobile support units.

(e)Adequate facilities shall be provided for the storage of food, utensils, and other supplies.

(f)Notwithstanding Section 113984, commissaries that service mobile food facilities that conduct limited food preparation shall provide a food preparation area.

(g)Servicing areas at commissaries shall be provided with overhead protection, except that areas used only for the loading of water or the discharge of sewage and other liquid waste through the use of a closed system of hoses need not be provided with overhead protection.

(h)Servicing areas used for cleaning shall be sloped and drained to an approved wastewater system.

(i)Adequate electrical outlets shall be provided for mobile food facilities and mobile support units that require electrical service.

(Amended by Stats. 2007, Ch. 96, Sec. 53. Effective July 20, 2007.)

114327.

(a)Mobile support units shall be subject to plan review and be approved by the enforcement agency. Requirements shall be based on proposed method of operation and number of mobile food facilities serviced.

(b)Mobile support units shall meet all applicable requirements of this part and the following:

(1)Interior floor, sides, and top shall be free of cracks, seams, or linings where vermin may harbor, and shall be constructed of a smooth, washable, impervious material capable of withstanding frequent cleaning with approved sanitizing agents.

(2)Be constructed and operated so that no liquid wastes can drain onto any street, sidewalk, or premises.

(3)If used to transport potentially hazardous food, approved equipment to maintain food at the required temperatures shall be provided.

(4)Food, utensils, and supplies shall be protected from contamination.

(5)A separate storage area shall be provided for all poisonous substances, detergents, bleaches, cleaning compounds, and all other injurious or poisonous materials.

(c)Mobile support units shall not be approved for warewashing.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=10.1.&article=

114328.

(a)A catering operation shall meet the applicable requirements in Chapters 1 (commencing with Section 113700) to 8 (commencing with Section 114250), inclusive, and Chapter 13 (commencing with Section 114380), unless specifically exempted from any of those provisions. For purposes of this chapter, a catering operation refers to a permanent food facility approved for offsite food service activities.

(b)A catering operation shall operate from a permitted food facility that is capable of supporting the proposed food service activity to be conducted, and the type of food that is to be prepared offsite or served.

(c)Prior to conducting catering operations, the catering operation shall submit to the enforcement agency written standard operating procedures that include all of the following information:

(1)The manner in which food will be transported to and from the permanent food facility and the offsite food service location or host facility and procedures to prevent contamination of the food.

(2)The type of food that is to be prepared or served, and the extent of limited food preparation, as defined in Section 113818, that is to be conducted at an offsite food service event.

(3)The manner in which potentially hazardous food will be maintained in accordance with Section 113996.

(4)Procedures, methods, and schedules for cleaning utensils, equipment, and structures, and for the disposal of refuse.

(5)The manner in which hands will be washed to ensure compliance with Section 113953.

(d)Food shall be transported in a vehicle that meets the requirements of Section 113982.

(e)A catering operation may conduct limited food preparation, as defined in Section 113818, at an offsite location when approved by the enforcement agency.

(f)All food, prior to offsite food service, shall be stored and prepared at the permanent food facility.

(g)While operating offsite, the catering operation shall provide the name of the facility, city, state, ZIP Code, and the name of the operator to any consumer or enforcement agency upon request.

(h)A catering operation shall maintain records for all offsite food service activities for 90 days after each event. The catering operation shall provide those records to the enforcement agency upon request and shall include all of the following information:

(1)Location, date, and time of offsite food service activity.

(2)Customer name and contact information, including address, email address, and phone number.

(3)Whether food was delivered to a customer or served to a guest at a catered function or host facility.

(4)Departure and arrival food temperature logs for transportation, and corrective action taken if the food arrived out of temperature.

(5)Complete menu of food provided.

(i)A catering operation shall ensure that it has access to potable water at any offsite function, or shall bring an adequate supply of potable water with it to that function.

(j)For offsite food service where a catering operation is serving the food, the person in charge on behalf of the catering operation shall ensure that basic food safety is maintained at all times, including, but not limited to, all of the following:

(1)Protecting the food from contamination during service.

(2)Providing overhead protection over all food handling areas.

(3)Providing utensils for individual use and eliminating the use of community dipping containers where consumers could dip a utensil or a food item they have already placed in their mouth.

(4)Preventing consumers™ used plates or utensils from returning to the self-service display.

(5)Replacing utensils that become contaminated with clean and sanitized utensils.

(6)Ensuring open or potentially hazardous foods not consumed or sold by the catering operation are discarded, unless the food was held at required temperatures and protected from contamination at all times.

(7)Discarding any food that has become contaminated or is suspected of becoming contaminated, or that is presumed unsafe because temperatures were not maintained as required by Section 113996.

(k)Utensils used to serve food shall meet all of the following conditions:

(1)Meet the requirements of Chapter 6 (commencing with Section 114130).

(2)Be stored in the food with the handle extended out of the food, on a clean surface, or in a clean container.

(3)Be replaced every four hours or sooner if observed to be mishandled by the guest, dropped, or otherwise contaminated during the serving process.

(l)Notwithstanding Section 113953, adequate handwashing facilities shall be provided at the offsite food service event.

(m)Approved toilet and handwashing facilities shall be available within 200 feet of the offsite food service operation or as approved by the enforcement agency.

(n)All garbage and refuse generated during offsite food service activities and cleanup operations shall be disposed of in a manner approved by the enforcement agency.

(o)All liquid waste shall be disposed of through the approved plumbing system in a manner approved by the enforcement agency.

(p)A catering operation shall not store any food, beverages, equipment, utensils, or food items in a private home when not conducting offsite catering activities.

(q)The enforcement agency may establish additional structural or operational requirements, or both, based on the proposed facility method of operation and as necessary to ensure compliance with the requirements of this chapter.

(Added by Stats. 2018, Ch. 493, Sec. 9. (AB 2524) Effective January 1, 2019.)

114328.1.

(a)A host facility shall meet the applicable requirements in Chapter 1 (commencing with Section 113700), Chapter 2 (commencing with Section 113728), all general food safety requirements described in Chapter 4 (commencing with Section 113980), Chapter 6 (commencing with Section 114130), and Sections 114049, 114250, 114266, 114381, 114387, 114390, 114393, 114395, 114397, 114399, 114405, 114407, 114409, 114411, and 114413.

(b)In addition to any permit required of a permanent food facility or a catering operation, a permit shall be obtained by the person responsible for operating the host facility.

(c)A permit application shall be submitted to the enforcement agency pursuant to Article 1 (commencing with Section 114380) of Chapter 13. The plan review process shall include all of the following:

(1)Submission of a site plan that indicates the location of the food service operation, handwashing sinks and restrooms, refuse containers, and waste water disposal facilities.

(2)Specifications of equipment that will be provided by the host facility to support the catering operation.

(3)Standard operating procedures that include all of the following information:

(A)Procedures, methods, and schedules for cleaning equipment and structures, and for the disposal of refuse.

(B)How potentially hazardous food will be maintained in accordance with Section 113996.

(4)A list of catering operations that will be supported by the host facility with proposed menus.

(5)The enforcement agency may establish additional structural or operational requirements, or both, based on the proposed facility method of operation to ensure the sanitary operation of a host facility.

(d)A host facility may support a catering operation for up to four hours in any one 12-hour period, unless otherwise approved by the enforcement agency.

(e)All food, soiled utensils, equipment, tableware, and linen shall be returned to the catering operation for cleaning, sanitizing, and storage.

(f)Approved toilet and handwashing facilities shall be available within 200 feet in travel distance of the food service operation.

(g)All garbage and refuse shall be stored and disposed of in a manner approved by the enforcement agency.

(Added by Stats. 2018, Ch. 493, Sec. 9. (AB 2524) Effective January 1, 2019.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 10.5. Nonprofit Charitable Temporary Food Facilities [114332 - 114332.7]__

(Chapter 10.5 heading added by Stats. 2009, Ch. 571, Sec. 59.)

114332.

This article governs sanitation requirements for nonprofit charitable temporary food facilities.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114332.1.

Nonprofit charitable temporary food facilities may operate up to four times annually. These four time periods shall not exceed 72 hours each.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114332.2.

(a)Except where all food and beverage is prepackaged, handwashing and warewashing facilities approved by the enforcement officer shall be provided for nonprofit charitable temporary food facilities. Each nonprofit charitable temporary food facility shall be equipped with a handwashing facility. Based on local environmental conditions, location, and similar factors, the local enforcement agency may, in lieu of warewashing facilities, allow a nonprofit charitable temporary food facility operating no more than four hours per day at a single event to provide an adequate supply of utensils and spare utensils when they have been properly washed and sanitized at an approved food facility and are stored and kept free of becoming soiled or contaminated.

(b)Facilities for the sanitary disposal of all liquid waste shall be subject to the approval of the enforcement officer.

(c)At least one toilet facility for each 15 employees shall be provided within 60 meters (200 feet) of each nonprofit charitable temporary food facility.

(d)Food contact surfaces shall be smooth, easily cleanable, and nonabsorbent.

(Amended by Stats. 2013, Ch. 556, Sec. 20. (AB 1252) Effective January 1, 2014.)

114332.3.

(a)No potentially hazardous food or beverage stored or prepared in a private home may be offered for sale, sold, or given away from a nonprofit charitable temporary food facility. Potentially hazardous food shall be prepared in a food establishment or on the premises of a nonprofit charitable temporary food facility.

(b)All food and beverages shall be protected at all times from unnecessary handling and shall be stored, displayed, and served so as to be protected from contamination.

(c)Potentially hazardous food and beverages shall be maintained at or below 7 degrees Celsius (45 degrees Fahrenheit) or at or above 57.2 degrees Celsius (135 degrees Fahrenheit) at all times.

(d)Ice used in beverages shall be protected from contamination and shall be maintained separate from ice used for refrigeration purposes.

(e)All food and food containers shall be stored off the floor on shelving or pallets located within the facility.

(f)Smoking a tobacco product is prohibited in nonprofit charitable temporary food facilities.

(g)(1)Except as provided in paragraph (2), live animals, birds, or fowl shall not be kept or allowed in nonprofit charitable temporary food facilities.

(2)Paragraph (1) does not prohibit the presence, in any room where food is served to the public, guests, or patrons, of a guide dog, signal dog, or service dog, as defined by Section 54.1 of the Civil Code, accompanied by a totally or partially blind person, deaf person, person whose hearing is impaired, or handicapped person, or dogs accompanied by persons licensed to train guide dogs for the blind pursuant to Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code.

(3)Paragraph (1) does not apply to dogs under the control of uniformed law enforcement officers or of uniformed employees of private patrol operators and operators of a private patrol service who are licensed pursuant to Chapter 11.5 (commencing with Section 7580) of Division 3 of the Business and Professions Code, while these employees are acting within the course and scope of their employment as private patrol persons.

(4)The persons and operators described in paragraphs (2) and (3) are liable for any damage done to the premises or facilities by the dog.

(5)The dogs described in paragraphs (2) and (3) shall be excluded from food preparation and utensil wash

areas. Aquariums and aviaries shall be allowed if enclosed so as not to create a public health problem.

(h)All garbage shall be disposed of in a sanitary manner.

(i)Employees preparing or handling food shall wear clean clothing and shall keep their hands clean at all times.

(j)For purposes of this section, smoking has the same meaning as in subdivision (c) of Section 22950.5 of the Business and Professions Code.

(k)For purposes of this section, tobacco product means a product or device as defined in subdivision (d) of Section 22950.5 of the Business and Professions Code.

(Amended by Stats. 2016, 2nd Ex. Sess., Ch. 7, Sec. 16. (SB 5 2x) Effective June 9, 2016.)

114332.4.

The enforcement officer may establish additional structural or operational requirements as necessary to ensure that food is of a safe and sanitary quality.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114332.5.

Open-air barbecue facilities may be operated adjacent to nonprofit charitable temporary food facilities, and shall be subject to the requirements of Article 9 (commencing with Section 114185).

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114332.7.

Nothing in this article shall prevent a local enforcement agency from performing inspections of, or requiring permits for, any nonprofit charitable temporary food facility to ensure compliance with food safety provisions contained in this chapter.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=10.6.&article=

114333.

(a)(1)Except as specified in subdivision (b), a limited service charitable feeding operation shall not provide food service unless it has registered with the local enforcement agency in a manner prescribed by that agency, including, but not limited to, payment of a fee not to exceed the reasonable costs of administering and enforcing this chapter if that fee is imposed by the agency.

(2)A limited service charitable feeding operation that is subject to registration shall submit to the local enforcement agency all of the following information:

(A)The name, physical address, Internet Web site, and telephone number of the nonprofit charitable organization conducting the limited service charitable feeding operation.

(B)The name and contact information of a site representative of the limited service charitable feeding operation.

(C)The operating days and hours of the limited service charitable feeding operation.

(b)(1)(A)A limited service charitable feeding operation that performs the function described in paragraph (1) of, and does not perform the functions described in paragraphs (2) to (4), inclusive, of, subdivision (a) of Section 113819, shall be exempt from the requirements described in subdivision (a) regardless of whether it operates in conjunction with a food bank as described in subparagraph (B).

(B)A limited service charitable feeding operation that performs the function described in paragraph (4) of, and does not perform the functions described in paragraphs (2) and (3) of, subdivision (a) of Section 113819, and that operates in conjunction with a food bank that has a valid operating permit issued by the local enforcement agency or the State Department of Public Health shall be exempt from the requirements described in subdivision (a).

(C)A limited service charitable feeding operation that performs the function described in paragraph (2) or (3) of subdivision (a) of Section 113819, or the function described in paragraph (4) of subdivision (a) of Section 113819 without operating in conjunction with a food bank as described in subparagraph (B), shall be subject to the requirements described in subdivision (a).

(2)(A)For purposes of subparagraph (B) of paragraph (1), the food bank shall ensure that the limited service charitable feeding operation is operating under a current agreement with the food bank and is compliant with the food banksbest management practices approved by the local enforcement agency.

(B)On at least an annual basis, or more frequently if requested by the local enforcement agency, the food bank shall submit to the local enforcement agency a current list of the limited service charitable feeding operations that operate in conjunction with that food bank.

(c)Notwithstanding any other law, a limited service charitable feeding operation shall be exempt from the requirements of this part, except as set forth in this chapter.

(d)A limited service charitable feeding operation shall comply with all of the following:

(1)Chapter 1 (commencing with Section 113700).

(2)Chapter 2 (commencing with Section 113728).

(3)Sections 113952, 113953.1, 113953.2, 113953.3, 113980, 113982, 113984, 113988, 113990, 113992, 113996, 113998, 114000, 114002, 114002.1, 114014, 114016, 114018, 114020, 114021, 114023, 114024, 114025, 114027, 114031, 114035, 114037, 114041, 114047, 114049, 114051, 114053, 114055, and 114079.

(4)Article 2 (commencing with Section 114390) and Article 3 (commencing with Section 114405) of Chapter 13. A registration issued pursuant to this chapter shall have the same meaning as provided in subdivision (b) of Section 113851.

(5)Best management practices approved by the local enforcement agency.

(6)Limitations on the duration of food service, as determined by the local enforcement agency based on the requirements set forth in paragraphs (1) to (5), inclusive.

(e)A limited service charitable feeding operation may prepare and distribute food from a nonresidential building or structure that meets minimum structural and operating requirements as determined by the local enforcement agency.

(f)A limited service charitable feeding operation may distribute food in an outdoor location, not in or adjacent to the registered location, in compliance with the approved best management practices and subject to approval by the local enforcement agency. Food service under this subdivision shall be limited to no more than four hours per day.

(Added by Stats. 2018, Ch. 489, Sec. 3. (AB 2178) Effective January 1, 2019.)

__CHAPTER 11. Temporary Food Facilities [114335 - 114363]__

(Chapter 11 added by Stats. 2006, Ch. 23, Sec. 2.)

114335.

(a)Temporary food facilities that operate at a swap meet are limited to only prepackaged nonpotentially hazardous food and whole uncut produce, and shall meet the applicable requirements in Chapter 1 (commencing with Section 113700) to Chapter 8 (commencing with Section 114250), inclusive, and Chapter 13 (commencing with Section 114380), unless specifically exempted from any of these provisions.

(b)Temporary food facilities that operate at a community event shall meet the applicable requirements in Chapter 1 (commencing with Section 113700) to Chapter 8 (commencing with Section 114250), inclusive, and Chapter 13 (commencing with Section 114380), unless specifically exempted from any of these provisions.

(c)Food facility requirements shall be determined by the enforcement agency based on the food service activity to be conducted, the type of food that is to be prepared or served, the length of the event, and the extent of food preparation that is to be conducted at a community event within a temporary food facility.

(d)Notwithstanding subdivision (a), the enforcement agency may allow temporary food facilities at a swap meet, depending on the food service activity to be conducted, the type of food that is to be prepared or served, the duration of the swap meet, and the extent of food preparation that is to be conducted at the swap meet.

(Amended by Stats. 2018, Ch. 493, Sec. 10. (AB 2524) Effective January 1, 2019.)

114337.

The name of the facility, city, state, ZIP Code, and name of the operator shall be legible and clearly visible to patrons. The facility name shall be in letters at least three inches high, and shall be of a color contrasting with the surface on which it is posted. Letters and numbers for the city, state, and ZIP Code, may not be less than one inch in height.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114339.

(a)No home canned or home processed foods shall be permitted within a temporary food facility.

(b)Notwithstanding subdivision (a), nonpotentially hazardous beverages and baked goods may be offered for sale, sold, or given away by a nonprofit charitable organization or by an established club or organization that operates under the authorization of a school or educational facility for fundraising purposes at community events.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114341.

(a)Notwithstanding Section 113984, all food preparation at a community event shall be conducted within the temporary food facility or other approved food facility.

(b)Barbecues, grills or other equipment approved for outdoor cooking may be located adjacent to the temporary food facility if local building and fire codes prohibit cooking inside the temporary food facility.

(c)Grills and barbecues or other approved cooking equipment shall be separated from public access by using ropes or other approved methods to prevent contamination of the food and injury to the public.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114343.

(a)Except as otherwise provided in Section 113996, during operating hours of the temporary food facility, potentially hazardous food may be held at a temperature not to exceed 45Â°F for up to 12 hours in any 24-hour period.

(b)At the end of the operating day, potentially hazardous food that is held at 45Â°F shall be destroyed in a manner approved by the enforcement agency.

(c)At the end of the operating day, potentially hazardous food that is held at or above 135Â°F shall be destroyed in a manner approved by the enforcement officer.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114345.

Temporary food facilities may include a staffed counter that serves hot and cold beverages and ice that are not potentially hazardous food and that are dispensed from approved bulk dispensing units.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114347.

Temporary food facilities that handle nonprepackaged food shall provide floors constructed of concrete, asphalt, tight wood, or other similar cleanable material kept in good repair.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114349.

(a)Temporary food facilities shall be equipped with overhead protection for all food preparation, food storage, and warewashing areas. Overhead protection shall be made of wood, canvas, or other materials that protect the facility from precipitation, dust, bird and insect droppings, and other contaminants.

(b)Temporary food facilities that handle nonprepackaged food shall also protect food from contamination in one of the following ways:

(1)Enclosure of the food facility with 16 mesh per square inch screens.

(2)Limiting display and handling of nonprepackaged food in food compartments.

(3)Other alternative, effective means approved by the enforcement officer.

(c)Notwithstanding Section 113984, this section does not apply to temporary food facilities that are approved for limited food preparation if flying insects, vermin, birds, and other pests are absent due to the location of the facility or other limiting conditions.

(Amended by Stats. 2014, Ch. 907, Sec. 1. (AB 2539) Effective January 1, 2015.)

114351.

(a)Notwithstanding Section 114095, a warewashing sink may be shared by no more than four temporary food facilities that handle nonprepackaged food if the sink is centrally located and is adjacent to the sharing facilities.

(b)Notwithstanding subdivision (a), based on the number and types of utensils used, the local enforcement agency may allow up to eight temporary food facilities to share a warewashing sink when easily accessible and located within 100 feet of each temporary food facility.

(c)Based on local environmental conditions, location, and similar factors, the local enforcement agency may, in lieu of a warewashing sink, allow a temporary food facility operating no more than four hours per day at a single event to provide an adequate supply of utensils and spare utensils when they have been properly washed and sanitized at an approved food facility and are stored and kept free of becoming soiled or contaminated.

(Amended by Stats. 2013, Ch. 556, Sec. 22. (AB 1252) Effective January 1, 2014.)

114353.

(a)Except as provided in subdivision (b), a temporary food facility shall provide only single-use articles for use by the consumer.

(b)Notwithstanding subdivision (a), based on local environmental conditions, location, and similar factors, including the type and number of utensils, as defined in Section 113934, the volume and storage of potable water for warewashing, as defined in Section 113940, and waste water capacity, storage, and disposal, the local enforcement agency may allow a temporary food facility to use multiuse utensils that have been properly washed, rinsed, and sanitized pursuant to Chapter 5 (commencing with Section 114095), as applicable, at an approved food facility and are kept free of becoming soiled or contaminated.

(Amended by Stats. 2021, Ch. 155, Sec. 8. (AB 831) Effective January 1, 2022.)

114354.

(a)Food-related and utensil-related equipment used in conjunction with a temporary food facility shall be approved by the enforcement agency.

(b)Cold and hot holding equipment shall be provided to insure proper temperature control during transportation, storage, and operation of the temporary food facility.

(c)Equipment shall be located and installed to prevent food contamination.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114355.

Ice used for refrigeration purposes shall not be used for consumption in food or beverages.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114356.

(a)Notwithstanding Section 114047, during periods of operation, supplies and nonpotentially hazardous food, in unopened containers may be stored adjacent to the temporary food facility or in unopened containers in an approved nearby temporary storage unit. An unopened container means a factory sealed container that has not been previously opened and that is suitably constructed to be resistant to contamination from moisture, dust, insects, and rodents.

(b)During periods of inoperation, food shall be stored within a fully enclosed temporary food facility, within a permanent food facility or other facility approved by the enforcement agency, or in approved food compartments where the food is protected at all times from contamination, exposure to the elements, ingress of rodents and other vermin, and temperature abuse.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114358.

(a)Notwithstanding Section 113953, handwashing facilities for temporary food facilities that operate for three days or less may include a container capable of providing a continuous stream of water from an approved source that leaves both hands free to allow vigorous rubbing with soap and warm water for 10 to 15 seconds, inclusive.

(b)Temporary food facilities that handle only prepackaged food and comply with Section 113952 shall not be required to provide a handwashing facility, except as required in Section 114359.

(c)A catch basin shall be provided to collect wastewater, and the wastewater shall be properly disposed of according to Section 114197.

(d)Handwashing facilities shall be equipped with handwashing cleanser and single-use sanitary towels.

(e)A separate receptacle shall be available for towel waste.

(Amended by Stats. 2009, Ch. 571, Sec. 60. (SB 241) Effective October 11, 2009.)

114359.

(a)At least one toilet facility for each 15 employees shall be provided within 200 feet of each temporary food facility.

(b)Each toilet facility shall be provided with approved handwashing facilities.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114361.

Temporary food facilities that operate for more than one day shall be cleaned and serviced by methods approved by the enforcement agency.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114363.

Based upon local environmental conditions, location, and other similar factors, the enforcement officer may establish additional structural or operational requirements, or both, as necessary to ensure that foods are of a safe and sanitary quality.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 11.5. Cottage Food Operations [114365 - 114365.6]__

(Chapter 11.5 added by Stats. 2012, Ch. 415, Sec. 13.)

114365.

(a)(1)(A)A Class A cottage food operation shall not be open for business unless it is registered with the local enforcement agency and has submitted a completed, self-certification checklist approved by the local enforcement agency. The self-certification checklist shall verify that the cottage food operation conforms to this chapter, including the following requirements:

(i)No cottage food preparation, packaging, or handling may occur in the home kitchen concurrent with any other domestic activities, such as family meal preparation, dishwashing, clothes washing or ironing, kitchen cleaning, or guest entertainment.

(ii)No infants, small children, or pets may be in the home kitchen during the preparation, packaging, or handling of cottage food products.

(iii)Kitchen equipment and utensils used to produce cottage food products shall be clean and maintained in a good state of repair.

(iv)All food contact surfaces, equipment, and utensils used for the preparation, packaging, or handling of cottage food products shall be washed, rinsed, and sanitized before each use.

(v)All food preparation and food and equipment storage areas shall be maintained free of rodents and insects.

(vi)Smoking shall be prohibited in the portion of a private home used for the preparation, packaging, storage, or handling of cottage food products and related ingredients or equipment, or both, while cottage food products are being prepared, packaged, stored, or handled.

(B)(i)The department shall post the requirements described in subparagraph (A) on its internet website.

(ii)The local enforcement agency shall issue a registration number to a Class A cottage food operation that meets the requirements of subparagraph (A).

(C)(i)Except as provided in clause (ii), a Class A cottage food operation shall not be subject to initial or routine inspections.

(ii)For purposes of determining compliance with this chapter, a representative of a local enforcement agency may access, for inspection purposes, the registered area of a private home where a cottage food operation is located only if the representative has, on the basis of a consumer complaint, reason to suspect that adulterated or otherwise unsafe food has been produced by the cottage food operation or that the cottage food operation has violated this chapter.

(iii)Access under this subparagraph is limited to the registered area and solely for the purpose of enforcing or administering this chapter.

(iv)A local enforcement agency may seek recovery from a Class A cottage food operation of an amount that does not exceed the local enforcement agencysreasonable costs of inspecting the Class A cottage food operation for compliance with this chapter, if the Class A cottage food operation is found to be in violation of this chapter.

(D)A Class A cottage food operation shall be authorized to engage in the direct sales of cottage food products throughout the state.

(2)(A)A Class B cottage food operation shall not be open for business unless it obtains a permit from the local enforcement agency in a manner approved by the local enforcement agency to engage in the direct and indirect sale of cottage food products.

(B)(i)A Class B cottage food operation shall comply with the requirements described in clauses (i) to (vi), inclusive, of subparagraph (A) of paragraph (1) in addition to the other requirements of this chapter.

(ii)The local enforcement agency shall issue a permit number after an initial inspection has determined that the proposed Class B cottage food operation and its method of operation conform to this chapter.

(C)(i)Except as provided in clause (ii), a Class B cottage food operation shall not be subject to more than one inspection per year by the local enforcement agency.

(ii)For purposes of determining compliance with this chapter, a representative of a local enforcement agency, for inspection purposes, may access the permitted area of a private home where a cottage food operation is located only if the representative has, on the basis of a consumer complaint, reason to suspect that adulterated or otherwise unsafe food has been produced by the cottage food operation, or that the cottage food operation has violated this chapter.

(iii)Access under this subparagraph is limited to the permitted area and solely for the purpose of enforcing or administering this chapter.

(D)A Class B cottage food operation shall be authorized to engage in the direct and indirect sales of cottage food products throughout the state.

(b)(1)A registration or permit, once issued, is nontransferable. A registration or permit shall be valid only for the person, location, type of food sales, and distribution activity specified by that registration or permit, and, unless suspended or revoked for cause, for the time period indicated.

(2)The registration or permit or an accurate copy thereof shall be retained by the operator onsite at the time of either direct or indirect cottage food sale.

(3)A registration or permit shall be renewed annually.

(4)A registration or permit from one county shall be sufficient for a cottage food operation to operate throughout the state.

(Amended by Stats. 2021, Ch. 178, Sec. 2. (AB 1144) Effective January 1, 2022.)

114365.2.

A cottage food operation that is registered or has a permit issued pursuant to Section 114365 shall be considered a restricted food service facility for purposes of, and subject to, Sections 113953.3, 114259.5, 114285, and 114286. A cottage food operation that is registered or has a permit also shall be subject to Sections 113967, 113973, 113980, 114259.5, 114405, 114407, 114409, 114411, and 114413, and to all of the following requirements:

(a)A person with a contagious illness shall refrain from work in the registered or permitted area of the cottage food operation.

(b)A person involved in the preparation or packaging of cottage food products shall keep their hands and exposed portions of their arms clean and shall wash their hands before any food preparation or packaging activity in a cottage food operation.

(c)Water used during the preparation of cottage food products shall meet the potable drinking water standards described in Section 113869, or in accordance with the local regulatory authority. A cottage food operation shall not be required to have an indirect sewer connection. Water used during the preparation of cottage food products includes all of the following:

(1)The washing, sanitizing, and drying of any equipment used in the preparation of a cottage food product.

(2)The washing, sanitizing, and drying of hands and arms.

(3)Water used as an ingredient.

(d)A person who prepares or packages cottage food products shall complete a food processor course approved by the department and posted on the departmentsinternet website to protect the public health

within three months of becoming registered and every three years during operation. The course shall not exceed four hours in length. The department shall work with the local enforcement agency to ensure that cottage food operators are properly notified of the location, date, and time of the classes offered.

(e)A cottage food operation shall properly label all cottage food products in compliance with the Federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 343 et seq.). Additionally, to the extent permitted by federal law, the label shall include, but is not limited to, all of the following:

(1)The words Made in a Home Kitchen or Repackaged in a Home Kitchen, as applicable, with a description of any purchased whole ready-to-eat product not used as an ingredient in 12-point type on the cottage food productsprimary display panel.

(2)The name commonly used for the food product or an adequately descriptive name.

(3)The name of the cottage food operation which produced the cottage food product.

(4)The registration or permit number of the Class A or Class B cottage food operation, respectively, which produced the cottage food product and the name of the county of the local enforcement agency that issued the permit or registration number.

(5)The ingredients of the cottage food product, in descending order of predominance by weight, if the product contains two or more ingredients.

(f)A cottage food operation that advertises to the public, including through an internet website, social media platform, newspaper, newsletter, or other public announcement, shall indicate the following on the advertisement:

(1)The county of approval.

(2)The permit or registration number.

(3)A statement that the food prepared is Made in a Home Kitchen or Repackaged in a Home Kitchen, as applicable.

(Amended by Stats. 2021, Ch. 155, Sec. 9. (AB 831) Effective January 1, 2022.)

114365.5.

(a)The department shall adopt and post on its Internet Web site a list of nonpotentially hazardous foods and their ethnic variations that are approved for sale by a cottage food operation. A cottage food product shall not be potentially hazardous food, as defined in Section 113871.

(b)This list of nonpotentially hazardous foods shall include, but not be limited to, all of the following:

(1)Baked goods without cream, custard, or meat fillings, such as breads, biscuits, churros, cookies, pastries, and tortillas.

(2)Candy, such as brittle and toffee.

(3)Chocolate-covered nonperishable foods, such as nuts and dried fruit.

(4)Dried fruit.

(5)Dried pasta.

(6)Dry baking mixes.

(7)Fruit pies, fruit empanadas, and fruit tamales.

(8)Granola, cereals, and trail mixes.

(9)Herb blends and dried mole paste.

(10)Honey and sweet sorghum syrup.

(11)Jams, jellies, preserves, and fruit butter that comply with the standard described in Part 150 of Title 21 of the Code of Federal Regulations.

(12)Nut mixes and nut butters.

(13)Popcorn.

(14)Vinegar and mustard.

(15)Roasted coffee and dried tea.

(16)Waffle cones and pizelles.

(c)(1)The State Public Health Officer may add or delete food products to or from the list described in subdivision (b), which shall be known as the approved food products list. Notice of any change to the approved food products list shall be posted on the departmentscottage food program Internet Web site, to also be known as the program Internet Web site for purposes of this chapter. Any change to the approved food products list shall become effective 30 days after the notice is posted. The notice shall state the reason for the change, the authority for the change, and the nature of the change. The notice will provide an opportunity for written comment by indicating the address to which to submit the comment and the deadline by which the comment is required to be received by the department. The address to which the comment is to be submitted may be an electronic site. The notice shall allow at least 20 calendar days for comments to be submitted. The department shall consider all comments submitted before the due date. The department may withdraw the proposed change at any time by notification on the program Internet Web site or through notification by other electronic means. The approved food products list described in subdivision (b), and any updates to the list, shall not be subject to the administrative rulemaking requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(2)The State Public Health Officer shall not remove any items from the approved food products list unless the State Public Health Officer also posts information on the program Internet Web site explaining the basis upon which the removed food item has been determined to be potentially hazardous.

(Amended by Stats. 2013, Ch. 76, Sec. 122. (AB 383) Effective January 1, 2014.)

114365.6.

(a)The State Public Health Officer shall provide technical assistance, and develop, maintain, and deliver commodity-specific training related to the safe processing and packaging of cottage food products to local enforcement agencies.

(b)Local enforcement agencies may collect a surcharge fee in addition to any permit fees collected for Class B cottage food operations. The surcharge fee shall not exceed the reasonable costs that the department incurs through the administration of the training described in subdivision (a) to protect the public health. The surcharge fees collected shall be transmitted to the department in a manner established by the department to be deposited in the Food Safety Fund. The department shall use the surcharge fees only to develop and deliver the training described in subdivision (a) to local enforcement agency personnel on an ongoing basis.

(Added by Stats. 2012, Ch. 415, Sec. 13. (AB 1616) Effective January 1, 2013.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 11.6. Microenterprise Home Kitchen Operation [114367 - 114367.6]__

(Chapter 11.6 added by Stats. 2018, Ch. 470, Sec. 6.)

114367.

The governing body of a city, county, or city and county that is designated as the enforcement agency, as

defined in Section 113773, may authorize, by ordinance or resolution, within its jurisdiction the permitting of microenterprise home kitchen operations in accordance with this chapter. If a governing body of a city, county, or city and county authorizes the permitting of microenterprise home kitchen operations, the authorization shall apply to all areas within its jurisdiction, including being applicable to all cities within a county that authorizes microenterprise home kitchen operations, regardless of whether each city located within the jurisdiction of the county separately authorizes them.

(Repealed and added by Stats. 2019, Ch. 536, Sec. 3. (AB 377) Effective October 7, 2019.)

114367.1.

(a)A microenterprise home kitchen operation, as defined in Section 113825, shall be considered a restricted food service facility for purposes of, and subject to all applicable requirements of, Chapter 1 (commencing with Section 113700) to Chapter 9 (commencing with Section 114265), inclusive, and Chapter 13 (commencing with Section 114380), except as otherwise provided in this chapter.

(b)A microenterprise home kitchen operation shall be exempt from all of the following provisions:

(1)Handwashing facilities requirements, as required in Section 113953, provided that a handwashing sink is supplied with warm water and located in the toilet room and supplied, as specified in Section 113953.2.

(2)Any provision in this part relating to sinks, warewashing machines, and manual or machine sanitation, including, but not limited to, Sections 114099, 114099.2, 114099.4, 114101.1, 114101.2, 114103, 114107, 114123, 114125, 114163, and 114279, provided that all of the following conditions are met:

(A)Utensils and equipment are able to be properly cleaned and sanitized.

(B)The sink in a microenterprise home kitchen operation has hot and cold water and is fully operable.

(C)If a dishwasher is used, it shall be operated in accordance with the manufacturersspecifications.

(3)Prohibition on the presence of persons unnecessary to the food facility operation in the food preparation, food storage, or warewashing areas, as specified in Section 113945.1, provided that the permitholder takes steps to avoid any potential contamination to food, clean equipment, utensils, and unwrapped single-service and single-use articles and prevents a person suffering from symptoms associated with acute gastrointestinal illness or person known to be infected with a communicable disease that is transmissible through food to enter the food preparation area while food is being prepared as part of a microenterprise home kitchen operation.

(4)No smoking sign posting requirements, as specified in Section 113978.

(5)Limitations on employee consumption of food, drink, or tobacco outside of designated areas, as specified in Sections 113977 and 114256, provided that the permitholder takes steps to avoid any potential contamination to food, clean equipment, utensils, and unwrapped single-service and single-use articles and prevents a person suffering from symptoms associated with acute gastrointestinal illness or person known to be infected with a communicable disease that is transmissible through food to enter the food preparation area while food is being prepared as part of a microenterprise home kitchen operation.

(6)Limitations on consumer access to the food facility through food preparation areas, as specified in Section

113984.1, provided that the permitholder takes steps to avoid any potential contamination to food, clean equipment, utensils, and unwrapped single-service and single-use articles and prevents a person suffering from symptoms associated with acute gastrointestinal illness or person known to be infected with a communicable disease that is transmissible through food to enter the food preparation area while food is being prepared as part of a microenterprise home kitchen operation.

(7)Display guard, cover, and container requirements, as specified in Section 114060, provided that any food on display that is not protected from the direct line of a consumersmouth by an effective means is not served or sold to any subsequent consumer.

(8)Requirements to provide clean drinking cups and tableware for second portions and beverage refills, as specified in Section 114075.

(9)Requirements pertaining to the characteristics and certification of utensils and equipment, as specified in Sections 114130 and 114139, provided that utensils and equipment are designed to retain their characteristic qualities under normal use conditions.

(10)Requirements pertaining to the characteristics, construction, and multiuse of food-contact and nonfood-contact surfaces, as specified in Sections 114130.3 and 114130.4, provided that food contact surfaces are smooth, easily cleanable, and in good repair.

(11)Requirements pertaining to the characteristics, construction, and disassembly of clean in place (CIP) equipment, as specified in Section 114130.5.

(12)Limitations on the use of wood as a food contact surface and in connection with other equipment, as specified in Section 114132, provided that hard maple or equivalent wood is approved for use in direct contact with food during preparation.

(13)Any provision in this part relating to ventilation, including, but not limited to, Article 2 (commencing with Section 114149) of Chapter 6, provided that gases, odors, steam, heat, grease, vapors, and smoke are able to escape from the kitchen.

(14)Requirements that cold or hot holding equipment used for potentially hazardous food be equipped with integral or permanently affixed temperature measuring device or product mimicking sensors, as specified in subdivision (c) of Section 114157.

(15)Requirements pertaining to the installation of fixed, floor-mounted, and table-mounted equipment, as specified in Section 114169.

(16)Dedicated laundry facility requirements, as specified in Section 114185.5, provided that linens used in connection with the microenterprise home kitchen operation shall be laundered separately from the household and other laundry.

(17)Requirements pertaining to water, plumbing, drainage, and waste, as specified in Sections 114193, 114193.1, and 114245.7.

(18)Any requirement that a microenterprise home kitchen operation have more than one toilet facility or that access to the toilet facility not require passage through the food preparation, food storage, or utensil washing areas, including, but not limited to, the requirements specified in Sections 114250 and 114276.

(19)Light intensity, light source, and lightbulb requirements, as specified in Sections 114252 and 114252.1,

provided that food preparation areas are well lighted by natural or artificial light whenever food is being prepared.

(20)Requirements to provide and use lockers, storage facilities, and designated dressing areas, and that food facility premises be free of litter and items that are unnecessary to the operation, as specified in Sections 114256.1 and 114257.1, provided that personal effects and clothing not ordinarily found in a home kitchen are placed or stored away from food preparation areas and dressing takes place outside of the kitchen.

(21)Limitations on the presence and handling of animals, such as domestic, service, or patrol animals, as specified in Sections 114259.4 and 114259.5, provided that all animals are kept outside of the kitchen during food service and preparation.

(22)Requirements pertaining to floor, wall, and ceiling surfaces, as specified in Sections 114268, 114269, and 114271, provided that the floor, wall, and ceiling surfaces of the kitchen, storage, and toilet areas are smooth, of durable construction, and easily cleanable with no limitations on the use of wood, tile, and other nonfiber floor surfaces ordinarily used in residential settings.

(23)Any local evaluation or grading system for food facilities, as authorized by Section 113709.

(24)All prohibitions and limitations on the use of a kitchen in a private home as a food facility, including, but not limited to, prohibitions and limitations specified in Section 114285, provided that food is not prepared in designated sleeping quarters. Open kitchens adjacent to living and sleeping areas, kitchens in efficiency, studio, and loft-style residences, and kitchens without doors at all points of ingress and egress may be used in microenterprise home kitchen operations.

(25)Planning and permitting provisions of Sections 114380 and 114381.2.

(c)A microenterprise home kitchen operation may operate an open-air barbecue or outdoor wood-burning oven, pursuant to the requirements of Section 114143.

(d)The operator of a microenterprise home kitchen operation shall successfully pass an approved and accredited food safety certification examination, as specified in Section 113947.1.

(e)Any individual, other than the operator, who is involved in the preparation, storage, or service of food in a microenterprise home kitchen operation shall be subject to the food handler card requirements specified in Section 113948.

(f)A microenterprise home kitchen operation shall only offer for sale or sell food that was prepared during a food demonstration or preparation event to a consumer who was present at that food demonstration or preparation event.

(Amended by Stats. 2019, Ch. 536, Sec. 4. (AB 377) Effective October 7, 2019.)

114367.2.

(a)A microenterprise home kitchen operation shall not be open for business unless it has obtained a permit issued from the enforcement agency.

(b)The department shall post on its internet website the requirements for the permitting of a microenterprise

home kitchen operation, pursuant to this chapter and any ordinance, resolution, or rules adopted by any city, county, or city and county, that has authorized the permitting of microenterprise home kitchen operations, which shall be written at a high school level.

(c)The applicant shall submit to the enforcement agency written standard operating procedures that include all of the following information:

(1)All food types or products that will be handled.

(2)The proposed procedures and methods of food preparation and handling.

(3)Procedures, methods, and schedules for cleaning utensils, equipment, and for the disposal of refuse.

(4)How food will be maintained at the required holding temperatures, as specified in Section 113996, pending pickup by consumer or during delivery.

(5)Days and times that the home kitchen may potentially be utilized as a microenterprise home kitchen operation. The stated days and times are not binding on the permitholder and shall be used for information purposes only.

(d)(1)The enforcement agency shall issue a permit after an initial inspection has determined that the proposed microenterprise home kitchen operation and its method of operation comply with the requirements of this chapter.

(2)An enforcement agency shall not require a microenterprise home kitchen operation to comply with food safety requirements that are different from, or in addition to, the requirements of this chapter.

(e)For purposes of permitting, the permitted area includes the home kitchen, onsite consumer eating area, food storage, utensils and equipment, toilet room, janitorial or cleaning facilities, and refuse storage area. Food operations shall not be conducted outside of the permitted areas.

(f)An enforcement agency may require a microenterprise home kitchen operation to renew its permit annually.

(g)A permit, once issued, is nontransferable. A permit shall be valid only for the person and location specified by that permit, and, unless suspended or revoked for cause, for the time period indicated.

(h)The permit, or an accurate copy thereof, shall be retained by the operator onsite and displayed at all times the microenterprise home kitchen operation is in operation.

(i)An enforcement agency may collect a fee for the issuance of a permit pursuant to this chapter in an amount that does not exceed the reasonable administrative costs by the enforcement agency in issuing the permit.

(Amended by Stats. 2019, Ch. 536, Sec. 5. (AB 377) Effective October 7, 2019.)

114367.3.

(a)Notwithstanding any other law, a microenterprise home kitchen operation shall only be subject to the

three following types of inspections by the enforcement agency:

(1)A routine inspection for the purpose of allowing the enforcement agency to observe the permitholder engage in the usual activities of a microenterprise home kitchen operation, including, but not limited to, active food preparation. The enforcement agency shall provide notice to a permitholder before a routine inspection and shall conduct the routine inspection at a mutually agreeable date and time. A microenterprise home kitchen operation shall not be subject to more than one routine inspection within 12 months. This paragraph shall not be deemed to require the enforcement agency to conduct a routine inspection.

(2)An investigation inspection for the purpose of allowing the enforcement agency to perform an inspection when the enforcement agency has just cause that adulterated or otherwise unsafe food has been produced or served by the microenterprise home kitchen operation or that the permitholder has otherwise violated this part. One or more consumer complaints may constitute just cause for an investigation inspection. The enforcement agency shall provide notice to a permitholder before an investigation inspection and shall conduct the investigation inspection at a mutually agreeable date and time.

(3)An emergency inspection for the purpose of allowing the enforcement agency to perform a limited inspection when the enforcement agency has just cause that the microenterprise home kitchen operation poses a serious hazard or immediate threat to public health. To the extent that notice of an emergency inspection is reasonable under the circumstances, the enforcement agency shall provide notice to a permitholder before an emergency inspection. The scope of emergency inspection shall be limited in duration and scope to address the facts giving just cause that the microenterprise home kitchen operation poses a serious hazard or immediate threat to public health.

(b)The enforcement agency shall only inspect the permitted area of the microenterprise home kitchen operation for the purpose of enforcing or administering this part.

(c)The enforcement agency may seek recovery from a microenterprise home kitchen operation of an amount that does not exceed the enforcement agencysreasonable costs of inspecting the microenterprise home kitchen operation for compliance with this part if the microenterprise home kitchen operation is found to be in violation of this part.

(Repealed and added by Stats. 2019, Ch. 536, Sec. 7. (AB 377) Effective October 7, 2019.)

114367.4.

(a)(1)A city, county, or city and county shall not prohibit the operation of, require a permit to operate, require a rezone of the property for, or levy any fees on, or impose any other restriction on, a microenterprise home kitchen operation in any residential dwelling for zoning purposes. A microenterprise home kitchen operation shall be a permitted use of residential property in any residential dwelling for zoning purposes if the microenterprise home kitchen operation complies with both of the following criteria:

(A)Abstain from posting signage or other outdoor displays advertising the microenterprise home kitchen operation.

(B)Be in compliance with applicable local noise ordinances.

(2)This subdivision does not supersede or otherwise limit the investigative and enforcement authority of the city, county, or city and county with respect to violations of its nuisance ordinances.

(b)The use of a residence for the purposes of a microenterprise home kitchen operation shall not constitute a change of occupancy for purposes of the State Housing Law (Part 1.5 (commencing with Section 17910) of Division 13), or for purposes of local building and fire codes.

(c)A microenterprise home kitchen operation shall be considered a residence for the purposes of the State Uniform Building Standards Code and local building and fire codes.

(Amended by Stats. 2019, Ch. 497, Sec. 170. (AB 991) Effective January 1, 2020.)

114367.5.

(a)A person delivering food on behalf of a microenterprise home kitchen operation with a permit issued pursuant to Section 114367.2 shall be an employee of the microenterprise home kitchen operation or a family member or household member of the permitholder.

(b)(1)Except as provided in paragraph (2), food produced in a microenterprise home kitchen operation shall not be delivered by a third-party delivery service.

(2)(A)Food produced in a microenterprise home kitchen operation may be delivered by a third-party delivery service to an individual who has a physical or mental condition that is a disability which limits the individualsability to access the food without the assistance of a third-party delivery service.

(B)A microenterprise home kitchen operation or an internet food service intermediary that offers or facilitates food delivery pursuant to subparagraph (A) shall do all of the following:

(i)Record and maintain a record of the number and dates of food deliveries made pursuant to subparagraph (A). A microenterprise home kitchen operation shall make the record available to an enforcement agency pursuant to any inspection authorized pursuant to Section 114367.3. An internet food service intermediary shall make the record available to an enforcement agency upon request.

(ii)Clearly and conspicuously post on its internet website or mobile application alongside any mention of third-party delivery options a notice that a third-party delivery service is prohibited from delivering food except to an individual who has a physical or mental condition that is a disability which limits the individualsability to access the food without the assistance of a third-party delivery service.

(C)Food delivery by a third-party delivery service pursuant to subparagraph (A) does not apply to dine-in meals sold for consumption on the premises of a microenterprise home kitchen or to cooking classes or demonstrations.

(Amended by Stats. 2019, Ch. 536, Sec. 8. (AB 377) Effective October 7, 2019.)

114367.6.

(a)An internet food service intermediary that lists or promotes a microenterprise home kitchen operation on its internet website or mobile application shall meet all of the following requirements:

(1)Be registered with the department. A registration, once issued, is nontransferable. A registration shall be valid only for the person and type of business specified by that registration, and unless suspended or revoked for cause by the department.

(2)Prior to the listing or publication of a microenterprise home kitchen operationsoffer of food for sale, clearly and conspicuously post on its internet website or mobile application the requirements for the permitting of a microenterprise home kitchen specified in this chapter, which shall be written at the high school level and be provided by the department.

(3)Clearly and conspicuously post on its internet website or mobile application the fees associated with using its platform and fees associated with third-party delivery service pursuant to paragraph (2) of subdivision (b) of Section 114367.5 in a manner that allows both the consumer and the microenterprise home kitchen operation to see and understand the amount being charged for the services provided by the internet food service intermediary. The internet food service intermediary shall notify the microenterprise home kitchen operation of any changes to these fees exceeding a 2-percent increase in writing and no later than one month before the changes take effect.

(4)Clearly and conspicuously post on its internet website or mobile application whether or not it has liability insurance that would cover any incidence arising from the sale or consumption of food listed or promoted on its internet website or mobile application.

(5)Provide a dedicated field on its platform for a microenterprise home kitchen operation to post the permit number and the name of the enforcement agency that issued the permit.

(6)Clearly and conspicuously post on its internet website or mobile application how a consumer can contact the internet food service intermediary through its internet website or mobile application if the consumer has a food safety or hygiene complaint and a link to the departmentsinternet website that contains information for how to file a complaint with the enforcement agency.

(7)Submit the name and permit number of a microenterprise home kitchen operation to the enforcement agency that issued the permit to the microenterprise home kitchen operation if the internet food service intermediary receives, through its internet website or mobile application, three or more unrelated individual food safety or hygiene complaints in a calendar year from consumers that have made a purchase through its internet website or mobile application. The internet food service intermediary shall submit this information to the enforcement agency within two weeks of the third complaint received.

(8)If it is notified by the enforcement agency of significant food safety related complaints from a verified consumer that has made a purchase through its internet website or mobile application, submit to the enforcement agency the name and permit number of the microenterprise home kitchen operation where the food was purchased, and a list of consumers who purchased food on the same day from that microenterprise home kitchen operation through its internet website or mobile application.

(9)Prior to the listing or publication of a microenterprise home kitchen operationsoffer of food for sale, obtain consent from the microenterprise home kitchen operation to make the disclosures to government entities required pursuant to this section.

(10)Shall not permit the use of the word catering or any variation of that word in a listing or publication of a microenterprise home kitchen operationsoffer of food for sale.

(11)Shall not use, or knowingly facilitate the use of, a third-party delivery service for food produced by the microenterprise home kitchen operation, except as authorized pursuant to paragraph (2) of subdivision (b) of

Section 114367.5.

(b)For purposes of this chapter, an internet food service intermediary means an entity that provides a platform on its internet website or mobile application through which a microenterprise home kitchen operation may choose to offer food for sale and from which the internet food service intermediary derives revenues, including, but not limited to, revenues from advertising and fees for services offered to a microenterprise home kitchen operation. Services offered by an internet food service intermediary to a microenterprise home kitchen operation may include, but are not limited to, allowing a microenterprise home kitchen operation to advertise its food for sale and providing a means for potential consumers to arrange payment for the food, whether the consumer pays directly to the microenterprise home kitchen operation or to the internet food service intermediary. Merely publishing an advertisement for the microenterprise home kitchen operation or food cooked therein does not make the publisher an internet food service intermediary.

(c)(1)A microenterprise home kitchen operation that advertises to the public, including, but not limited to, advertising by website, internet, social media platform, newspaper, newsletter, or other public announcement, shall include all of the following within the advertisement:

(A)Name of the enforcement agency that issued the permit.

(B)Permit number.

(C)Statement that the food prepared is Made in a Home Kitchen in a clear and conspicuous font and location within a written advertisement and an audible and comprehensible manner in a verbal advertisement.

(2)A microenterprise home kitchen operation shall not use the word catering or any variation of that word in an advertisement relating to the microenterprise home kitchen operationsoffer of food for sale.

(Amended by Stats. 2019, Ch. 536, Sec. 9. (AB 377) Effective October 7, 2019.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 11.7. Compact Mobile Food Operation [114368 - 114368.8]__

(Chapter 11.7 added by Stats. 2022, Ch. 489, Sec. 4.)

114368.

A compact mobile food operation, as defined in subdivision (c) of Section 113831, shall meet the applicable requirements of Chapter 10 (commencing with Section 114294), except as provided in this chapter.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114368.1.

(a)Any compact mobile food operation with 25 square feet or less of display area from which only prepackaged nonpotentially hazardous food and whole uncooked produce is sold is exempt from the requirements of this part, except that the facility shall comply with all of the following:

(1)Sections 113980, 114047, 114049, 114390, 114393, 114397, and 114399.

(2)Chapter 1 (commencing with Section 113700).

(3)Chapter 2 (commencing with Section 113728).

(b)(1)A local enforcement agency may inspect a compact mobile food operation that is exempt, as specified in subdivision (a), during the facilityshours of operation and other reasonable times on the basis of a consumer complaint or just cause.

(2)For the purposes of determining compliance with this chapter, a compact mobile food operation that is not exempt as specified in subdivision (a) is subject to permitting and routine inspections or inspections on the basis of a consumer complaint or just cause.

(c)The local enforcement agency may recover the costs of investigation and enforcement of this section, subject to any limitations in this part on fines issuable to compact mobile food operations.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114368.2.

(a)Compact mobile food operations shall conduct only limited food preparation, as defined in Section 113818. Notwithstanding any other provision of this part, a compact mobile food operation, as defined in

subdivision (c) of Section 113831, may display or sell food outdoors, if all of the following conditions are satisfied:

(1)Overhead protection are provided above all food display areas.

(2)Food items from the outdoor display are stored consistent with this chapter at all times other than during business hours.

(3)Outdoor displays comply with Section 113980 and have been approved by the enforcement agency if the compact mobile food operation is required to obtain a permit.

(b)A compact mobile food operation shall not sell food other than nonpotentially hazardous prepackaged food or whole produce, or conduct any food preparation, unless it meets the applicable operational requirements of this chapter, including applicable requirements for integral equipment, handwashing, and restroom access.

(c)Equipment that is required to be integral to a compact mobile food operation shall either be permanently attached to the primary unit or securely fastened to the primary unit by means that would prevent unintentional removal. Equipment may be considered integral despite being portable or otherwise removable for cleaning, maintenance, or as part of its regular function.

(d)A compact mobile food operation operating from an individual shall not conduct any food preparation or sell foods other than nonpotentially hazardous prepackaged food or whole produce.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114368.3

(a)(1)A permitted cottage food operation or microenterprise home kitchen operation may serve as a commissary or mobile support unit for up to two compact mobile food operations if the cottage food operation or microenterprise home kitchen operation permit includes an endorsement from the local enforcement agency that the cottage food operation or microenterprise home kitchen operation is capable of supporting the preparation and storage of the food being sold from the compact mobile food operation and the storage and cleaning of the compact mobile food operation.

(2)Transactions at a compact mobile food operation operated by a cottage food operator shall constitute direct sales for the purposes of paragraph (4) of subdivision (b) of Section 113758.

(3)Transactions at up to two compact mobile food operations operated by a cottage food operator shall not count toward the annual gross sales restrictions in Section 113758 applicable to cottage food operations if the governing body has authorized this action.

(4)Nonpotentially hazardous foods prepared in a cottage food operation may be served from a compact mobile food operation.

(5)Food prepared in a microenterprise home kitchen operation may be served from a compact mobile food operation operated by the microenterprise home kitchen operation permitholder.

(6)The meal and gross annual sales limitations in paragraphs (7) and (8) of subdivision (a) of Section 113825

do not apply to the sale of nonpotentially hazardous food or produce for up to two compact mobile food operations operated by the microenterprise home kitchen operation if the governing body has authorized this action.

(7)With the authorization of the governing body and if the enforcement agency determines that the operation does not pose a public health hazard, a permitted microenterprise home kitchen operation may serve as a commissary for up to two compact mobile food operations. The meal and gross annual sales limitations in paragraphs (7) and (8) of subdivision (a) of Section 113825 apply unless the governing body sets a higher meal and income limitation.

(8)The governing body of a local jurisdiction that permits microenterprise home kitchen operations pursuant to Section 114367, may set the meal and income limitations in paragraphs (7) and (8) of subdivision (a) of Section 113825 at a higher level than provided in those paragraphs for microenterprise home kitchen operations that operate in conjunction with a compact mobile food operation. Notwithstanding this subdivision, the levels in effect, by statute or ordinance, as of January 1, 2023, shall remain in effect until changed by the local jurisdiction.

(b)(1)Existing permanent food facilities may be permitted to support the operations and storage of compact mobile food operations pursuant to the requirements of this section.

(2)Notwithstanding any other provision of this part, upon an evaluation verifying that a permanent food facility satisfies subdivisions (a) to (f), inclusive, of Section 114326, an enforcement agency shall approve the use of a permitted permanent food facility to satisfy the requirements of Section 114295 for a compact mobile food operation.

(3)Notwithstanding any other provision of this part, upon an evaluation verifying that the compact mobile food operation will be stored in a manner that protects the compact mobile food operation from contamination, an enforcement agency shall approve the storage of a compact mobile food operation in a permitted permanent food facility.

(4)Except when a determination is made by the enforcement agency that any nonconforming structural conditions pose a public health hazard, the enforcement agency may approve a facility to support operations of a compact mobile food operation.

(5)Plan submission shall not be required for an existing permanent food facility to support the operations of a compact mobile food operation when a determination is made by the local enforcement agency that the current operation and structural facilities of the permanent food facility can successfully provide the necessary functions of a commissary for a compact mobile food operation.

(6)An approved permanent food facility that will be used for cooling of food for a compact mobile food operation shall be approved by the enforcement agency for cooling.

(c)(1)Unless prohibited by local ordinance, an enforcement agency may allow the use of a private home for the storage of a compact mobile food operation if it determines, after an evaluation, that storage in the private home would not pose a public health hazard and that the compact mobile food operation will be stored in a manner that protects the compact mobile food operation from contamination.

(2)No more than two compact mobile food operations may be stored in a private home unless the enforcement agency finds that storage of more than two compact mobile food operations in a private home would not pose a public health hazard.

(3)The storage area within the home shall be designated and clearly identified upon approval and shall not be relocated without the review and approval of the local enforcement agency.

(4)Prepackaged nonpotentially hazardous food, whole fruits, and whole vegetables may be stored in the home prior to sale or preparation of that food in a compact mobile food operation.

(5)Food prepared in a private home shall not be used or offered for sale on a compact mobile food operation, unless it is a permitted cottage food operation or microenterprise home kitchen operation pursuant to subdivision (a). Violation of this paragraph may result in suspension or revocation of the permit to operate the compact mobile food operation.

(6)For purposes of determining compliance with this subdivision, a local enforcement agency may access, for inspection purposes, a private home where a compact mobile food operation is stored only if the representative has, on the basis of a consumer complaint, reason to suspect that the home is being used for food preparation, food storage, or unauthorized storage of utensils or other food facility equipment in violation of this subdivision.

(d)At the end of the operating day, potentially hazardous food that is prepared on or served from a compact mobile food operation shall be destroyed in a manner approved by the enforcement agency.

(e)For the purposes of this chapter, an endorsement by the local enforcement agency shall be a documented and recorded approval of compliance with applicable sections. An endorsement may include an inspection or evaluation, but shall not require a registration or permit.

(f)The enforcement agency may collect a fee for any permit, endorsement, inspection, or evaluation issued or conducted pursuant to this chapter in an amount that does not exceed the reasonable administrative costs of the enforcement agency.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114368.4.

(a)Except as provided in subdivision (b), a compact mobile food operation that is approved for limited food preparation that prepares raw meat, raw poultry, or raw fish is subject to warewashing and handwashing facility requirements as outlined in Chapter 10 (commencing with Section 114294).

(b)(1)A compact mobile food operation may satisfy the requirements of Sections 114313 and 114314 by demonstrating access to a permitted auxiliary conveyance containing the necessary handwashing and warewashing sinks when operating at a site-specific location. The auxiliary conveyance may be operated by the same or a different permitholder. An enforcement agency may permit an auxiliary conveyance to serve multiple compact mobile food operations operating in close proximity to the auxiliary conveyance, as determined by the enforcement agency.

(2)If an auxiliary conveyance is not operated by the permitholder of the compact mobile food operation, the operator of the auxiliary conveyance shall obtain a permit from the enforcement agency to operate the auxiliary conveyance and service compact mobile food operations.

(3)The permit application for an auxiliary conveyance not operated by a compact mobile food operation shall include a site plan and shall be submitted to the enforcement agency at least two weeks prior to the

operation of any food facility in conjunction with the auxiliary conveyance.

(4)The site plan for an auxiliary conveyance not operated by a compact mobile food operator shall show the proposed location and storage of the auxiliary conveyance, the proposed locations of any food facilities that will utilize the auxiliary conveyance, restrooms, refuse containers, potable water supply faucets, waste water disposal facilities, and all shared warewashing and handwashing facilities.

(c)A compact mobile food operation that is approved for limited food preparation that does not prepare raw meat, raw poultry, or raw fish shall do one of the following:

(1)Provide a three-compartment sink as described in subdivision (a) of Section 114313.

(2)Provide at least one two-compartment sink that complies with subdivision (e) of Section 114099.3.

(3)Provide a one-compartment sink with at least one integral metal drainboard, an adequate supply of spare preparation and serving utensils to replace those that become soiled or contaminated, and warewashing facilities that comply with subdivision (a) of Section 114313 in reasonable proximity to, and readily accessible for use by, food employees at all times.

(4)Maintain an adequate supply of spare preparation and serving utensils on the compact mobile food operation to ensure that utensils used for potentially hazardous foods are replaced with clean and sanitized utensils every four hours or as needed to replace those that become soiled or contaminated. A compact mobile food operation that complies with this paragraph is not required to provide a warewashing sink.

(d)A compact mobile food operation that is approved for limited food preparation that does not prepare raw meat, raw poultry, or raw fish shall provide an integral handwashing sink with at least five gallons of potable water to operate with a potable water tank with a capacity of at least five gallons for handwashing.

(e)An enforcement agency may permit a compact mobile food operation to operate with an integral water tank smaller than specified under subdivision (c) or (d) of Section 114217 if the enforcement agency finds that the compact mobile food operation is operating in an area and manner that would allow for replenishment of the water supply as needed during operations.

(f)A compact mobile food operation shall submit, to the enforcement agency, written operating procedures that include the process of filling potable water tanks if it will operate with a water tank with a capacity of less than five gallons specified in subdivisions (c) and (d) of Section 114217.

(g)A compact mobile food operation that does not prepare raw meat, raw poultry, or raw fish is exempt from any provision of this part requiring it be equipped with a water heater or otherwise be supplied with warm water.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114368.5.

(a)Upon receipt of complete, easily readable plans drawn to scale, and specifications satisfactory to the enforcement agency, an enforcement agency may preapprove a standard plan for a standardized or mass-produced individual unit intended to serve as a compact mobile food operation.

(b)A person proposing to operate a compact mobile food operation who has acquired an individual unit for which the construction of the compact mobile food operation has been built to approved plans shall not be required to submit plans for the individual unit, but instead shall be subject to a final inspection of the compact mobile food operation to ensure that the individual unit and proposed method of operation conform to the standard plans preapproved pursuant to subdivision (a). The permit application for a compact mobile food operation utilizing a preapproved individual unit shall include a certification that the applicant has not substantially altered the individual units from the plans preapproved pursuant to subdivision (a). The enforcement agency may collect a fee in the final inspection in an amount that does not exceed the reasonable administrative costs to the enforcement agency.

(c)The repair of equipment or integral fixtures on a compact mobile food operation or the replacement of equipment and fixtures on a compact mobile food operation with substantially similar equipment or fixtures is not a remodel, and the repair or replacement of equipment or fixtures does not require the submission of plans to an enforcement agency.

(d)A local governing body may waive or reduce a fee for the permit, registration, or related services for an applicant seeking approval of a compact mobile food operation or related operations.

(e)All new and replacement food-related and utensil-related equipment for a compact mobile food operation shall be certified or classified for sanitation by an American National Standards Institute accredited certification program, or a certification program accredited by another accreditation body recognized by the enforcement agency as providing substantially similar food safety and operational standards. In the absence of an applicable certified sanitation standard, food-related and utensil-related equipment shall be evaluated for approval by the enforcement agency.

(f)All new and replacement electrical appliances for a compact mobile food operation shall meet applicable Underwriters Laboratories standards for electrical equipment as determined by an American National Standards Institute accredited certification program or a certification program accredited by another accreditation body recognized by the enforcement agency as providing substantially similar food safety and operational standards.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114368.6.

A compact mobile food operation is exempt from Section 113947.1 if the operator and any individual who is involved in the preparation, storage, or service of food for the compact mobile food operation has obtained a food handler card that meets the requirements of Section 113948.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114368.7.

A compact mobile food operation is exempt from the requirements of Section 114315 if the compact mobile food operation operates with multiple employees or operators and the compact mobile food operation may remain operable by a single individual so that employees or operators may alternate use of a restroom.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114368.8.

(a)Notwithstanding subdivision (a) of Section 114395, a violation of this part by an operator or employee of a compact mobile food operation is punishable only by an administrative fine.

(b)A violation of any provision of this part or regulation adopted pursuant to this part by an operator or employee of a compact mobile food operation or a sidewalk vendor shall not be punishable as an infraction or misdemeanor, and an operator or employee of a compact mobile food operation or a sidewalk vendor alleged to have violated any of those provisions is not subject to arrest except when independent grounds for that arrest exist under law.

(c)Except as provided in paragraph (d), each offense by an operator or employee of a compact mobile food operation or a sidewalk vendor may only be punished by a fine consistent with the following:

(1)A notice of violation detailing the violation, including the applicable provision of this part or regulation adopted pursuant to this part.

(2)An administrative fine not exceeding one hundred dollars ($100) for a second violation within one year of the first violation.

(3)An administrative fine not exceeding two hundred dollars ($200) for a third violation within one year of the first violation.

(4)An administrative fine not exceeding five hundred dollars ($500) for each additional violation within one year of the first violation.

(d)If a compact mobile food operation is required to obtain a permit from the enforcement agency, operating without a permit may be punishable by a fine not to exceed three times the cost of the permit in lieu of the administrative fines referenced in subdivision (c). An enforcement agency shall not issue any fines in excess of the amounts allowable pursuant to subdivision (c) prior to January 1, 2024.

(e)(1)When assessing an administrative fine for a first-time offense, pursuant to this section, the hearing officer shall take into consideration the personsability to pay the fine. The enforcement agency shall provide the person with notice of their right to request an ability-to-pay determination and shall make available instructions or other materials for requesting an ability-to-pay determination. The person may request an ability-to-pay determination at adjudication or while the judgment remains unpaid, including when a case is delinquent or has been referred to a comprehensive collection program.

(2)If the person meets the criteria described in subdivision (a) or (b) of Section 68632 of the Government Code, the enforcement agency shall accept, in full satisfaction, 20 percent of the administrative fine imposed pursuant to this section.

(3)The enforcement agency may waive the administrative fine or may offer an alternative disposition.

(Added by Stats. 2022, Ch. 489, Sec. 4. (SB 972) Effective January 1, 2023.)

114371.

Certified farmers™ markets shall meet all of the following requirements:

(a)All food shall be stored at least six inches off the floor or ground or under any other conditions that are approved. Tents, canopies, or other overhead coverings are not required for fresh whole produce sales displays or storage, except when specifically required pursuant to this chapter. Flavored nuts and dried fruits that are being sold on a bulk or nonprepackaged basis shall be displayed and dispensed by the producer from covered containers. All processed food products being sold shall be in compliance with Section 113735 and the applicable provisions of Section 110460, 114365, or 114365.2.

(b)Food preparation is prohibited at certified farmers™ markets with the exception of food samples. Trimming whole produce for sale shall not be considered food preparation. Distribution of food samples may occur provided that the following sanitary conditions exist:

(1)Samples shall be kept in clean, nonabsorbent, and covered containers intended by the manufacturer for use with foods. Any cutting or distribution of samples shall only occur under a tent, canopy, or other overhead covering.

(2)All food samples shall be distributed by the producer in a manner that is sanitary and in which each sample is distributed without the possibility of a consumer touching the remaining samples.

(3)Clean, disposable plastic gloves shall be used when cutting food samples.

(4)Fresh, whole produce intended for sampling shall be washed or cleaned in another manner of any soil or other material by potable water in order that it is wholesome and safe for consumption.

(5)Notwithstanding Section 114205, available potable water may be required for handwashing and sanitizing; the need determined and manner approved by the enforcement agency.

(6)Potentially hazardous food samples shall be maintained at or below 45 degrees Fahrenheit and shall be disposed of within two hours after cutting. A certified farmers™ market or an enforcement officer may cause immediate removal and disposal, or confiscate and destroy, any potentially hazardous food samples found not in compliance with this paragraph.

(7)Wastewater shall be disposed of in a facility connected to the public sewer system or in a manner approved by the enforcement agency.

(8)Utensils and cutting surfaces shall be smooth, nonabsorbent, and easily cleanable, or single-use articles shall be utilized. If the producer uses only single-use articles or maintains an adequate supply of clean replacement articles readily available at the site at the time of use, warewashing facilities shall not be required.

(c)Approved toilet and handwashing facilities shall be available within 200 feet travel distance of the

premises of the certified farmers™ market or as approved by the enforcement officer.

(d)No live animals, birds, or fowl shall be kept or allowed, and no individual shall bring a live animal, bird, or fowl, within 20 feet of any area where food is stored or held for sale within a certified farmers™ market. This subdivision does not apply to guide dogs, signal dogs, or service dogs when used in accordance with the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.), and as provided in Section 36.104 of Title 28 of the Code of Federal Regulations. All guide dogs, signal dogs, and service dogs shall be used and properly identified in accordance with Section 54.1 and subdivision (b) of Section 54.2 of the Civil Code, and Sections 30850, 30851, and 30852 of the Food and Agricultural Code.

(e)All garbage and refuse shall be stored and disposed of in a manner approved by the enforcement officer.

(f)Smoking of cigarettes, cigars, pipe tobacco, and other tobacco products shall not be permitted within 25 feet of the common commerce area comprised of sales personnel and shopping customers of the certified farmers™ market.

(g)Notwithstanding Chapter 10 (commencing with Section 114294) vendors selling food adjacent to, and under the jurisdiction and management of, a certified farmers™ market may store, display, and sell from a table or display fixture apart from the mobile facility in a manner approved by the enforcement agency.

(h)Temporary food facilities may be operated at a separate community event adjacent to, and in conjunction with, certified farmers™ markets. The organization in control of the community event at which these temporary food facilities operate shall comply with Section 114381.1.

(i)All harvested, cut, wrapped, or otherwise processed meat, poultry, and fish products shall be from approved sources as set forth in Section 113735, and shall be properly labeled or have documentation present at the point of sale that demonstrates compliance with this requirement. All harvested, cut, wrapped, or otherwise processed meat, poultry, and fish products offered for sale shall be transported, stored, displayed, and maintained at a temperature of 41 degrees Fahrenheit or colder. The temperature holding capabilities of the storage containers used shall be sufficient to maintain safe product temperatures. Storage containers for meat, poultry, and fish products shall be insulated and have interior surfaces that are smooth, nonabsorbent, and easily cleanable. All meat, poultry, and fish products shall be stored in a manner that reduces the risk of cross-contamination.

(j)For purposes of this section, smoking has the same meaning as in subdivision (c) of Section 22950.5 of the Business and Professions Code.

(k)For purposes of this section, tobacco product means a product or device as defined in subdivision (d) of Section 22950.5 of the Business and Professions Code.

(Amended by Stats. 2016, 2nd Ex. Sess., Ch. 7, Sec. 17. (SB 5 2x) Effective June 9, 2016.)

114373.

Raw shell eggs may be stored and displayed without refrigeration if all of the following conditions are met:

(a)The eggs were produced by poultry owned by the seller and collected on the sellersproperty.

(b)The eggs are not placed in direct sunlight during storage or display.

(c)Retail egg containers are prominently labeled refrigerate after purchase or the seller posts a conspicuous sign advising consumers that the eggs are to be refrigerated as soon as practical after purchase.

(d)Retail egg containers are conspicuously identified as to the date of the pack.

(e)The eggs have been cleaned and sanitized.

(f)The eggs are not checked, cracked, or broken.

(g)Any eggs that are stored and displayed at temperatures of 90ÂºF or below and that are unsold after four days from the date of pack shall be stored and displayed at an ambient temperature of 45ÂºF or below, diverted to pasteurization, or destroyed in a manner approved by the enforcement agency.

(h)Any eggs that are stored and displayed at temperatures above 90ÂºF that are unsold after four days from the date of pack shall be diverted to pasteurization or destroyed in a manner approved by the enforcement agency.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114375.

Farm stands shall be in conformity with the definition and provisions of Section 113778.2 and meet all of the following requirements:

(a)Food preparation is prohibited at farm stands with the exception of food samples which may only occur if conducted in accordance with paragraphs (1) to (8), inclusive, of subdivision (b) of Section 114371.

(b)Approved toilet and handwashing facilities consistent with Article 4 (commencing with Section 113310) of Chapter 11 of Part 6 shall be available for use by farm stand operators or their employees when food sampling is conducted pursuant to subdivision (a).

(c)Food sales from farm stands shall be limited to the following:

(1)Whole produce and shell eggs as described in paragraph (6) of subdivision (c) of Section 113789.

(2)Nonpotentially hazardous prepackaged food products from an approved source that were grown or produced in close proximity to the farm stand and in a manner consistent with the intent of Chapter 10.5 (commencing with Section 47000) of Division 17 of the Food and Agricultural Code.

(3)Any nonpotentially hazardous prepackaged food products, including bottled water and soft drinks, from an approved source that has not been grown or produced in close proximity to the farm stand shall be limited to a 50-square-foot storage and sales area.

(d)No live animals, birds, or fowl shall be kept or allowed within 20 feet of any area where food is stored or held for sale. This subdivision does not apply to guide dogs, signal dogs, or service dogs when used in the manner specified in Section 54.1 of the Civil Code.

(e)All garbage and refuse shall be stored and disposed of in an appropriate manner.

(f)All prepackaged processed food products shall meet the applicable requirements provided in Section 113980 and be stored in an approved vermin proof area or container when the farm stand facility is closed.

(Added by Stats. 2008, Ch. 447, Sec. 11. Effective January 1, 2009.)

114376.

(a)A community food producer may sell or provide whole uncut fruits or vegetables, or unrefrigerated shell eggs, directly to the public, to a permitted food facility, or a cottage food operation if the community food producer meets all of the following requirements:

(1)Agricultural products shall be grown or produced in compliance with subdivision (b) of Section 113735.

(2)Agricultural products that are packaged shall have the package labeled with the name and address of the community food producer.

(3)Conspicuous signage shall be provided in lieu of a product label if the agricultural product is being sold by the community food producer on the site of production. The signage shall include, but not be limited to, the name and address of the community food producer.

(4)Best management practices, as described by the Department of Food and Agriculture, regarding small farm food safety guidelines on, but not limited to, safe production, processing, and handling of both nonpotentially hazardous and potentially hazardous foods.

(5)Egg production shall be limited to 15 dozen eggs per month.

(b)(1)A gleaner may sell or provide whole uncut fruits or vegetables, or unrefrigerated shell eggs, produced by a community food producer directly to the public without registration if the gleaner meets all of the requirements specified in subdivisions (a) and (d).

(2)A gleaner may donate whole uncut fruits or vegetables, or unrefrigerated shell eggs, produced by a community food producer to a food bank or food kitchen without registration if it meets both of the following requirements:

(A)Best management practices, as described by the Department of Food and Agriculture, regarding small farm food safety guidelines on handling of both nonpotentially hazardous and potentially hazardous foods.

(B)Record retention requirements specified in subdivision (d).

(c)Unless otherwise authorized by a local ordinance adopted by a local jurisdiction, a local city or county health enforcement office shall not require a community food producer to register with the city or county or meet requirements in addition to those required in subdivisions (a) and (d) if the community food producer

meets any of the following conditions:

(1)Agricultural products are sold at the outlet or location, including, but not limited to, premises, controlled by the community food producer pursuant to paragraph (6) of subdivision (c) of Section 113789.

(2)Agricultural products are donated to a food bank or food kitchen that provides food at no cost to consumers.

(3)Agricultural products are sold in a food facility permitted by a federal, state, or local health agency.

(d)A community food producer or gleaner that sells or provides whole uncut fruits or vegetables, or unrefrigerated shell eggs, directly to the public pursuant to this section shall retain records related to the sale or provision of the food for 30 days, which shall include the type of food sold and the date of sale.

(e)A food bank or food kitchen that receives whole uncut fruits or vegetables, or unrefrigerated shell eggs, donated by a community food producer or gleaner pursuant to this section shall retain records related to the donation of the food for 30 days, which shall include the type of food received, the date of receipt, and the name and contact information of the community food producer or gleaner that donated the food.

(Amended by Stats. 2015, Ch. 616, Sec. 2. (AB 234) Effective January 1, 2016.)

114376.5.

(a)An enforcement officer, as defined in Section 113774, may enter into and inspect the operations of a community food producer or gleaner in response to a food safety recall or food safety complaint. The enforcement officer may recover reasonable costs associated with an inspection from the community food producer or gleaner.

(b)(1)An enforcement officer may issue a community food producer or gleaner a cease and desist order for violations of Section 114376, upon which the community food producer or gleaner shall be prohibited from further sales until the operations of the community food producer or gleaner have been reinspected and cleared by the enforcement officersagency.

(2)At any time within 15 calendar days after issuance of the cease and desist order, the community food producer or gleaner may request in writing a hearing before a hearing officer to show cause why the prohibition of further sales is not warranted. The hearing shall be held within 15 calendar days of the receipt of a request for a hearing. A failure to request a hearing within 15 calendar days shall be deemed a waiver of the right to a hearing.

(c)Violations of Section 114376 shall be subject to the penalties specified in Section 114395.

(Added by Stats. 2014, Ch. 580, Sec. 7. (AB 1990) Effective January 1, 2015.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 12.7. FishermensMarkets [114378 - 114378.3]__

(Chapter 12.7 added by Stats. 2015, Ch. 615, Sec. 9.)

114378.

A fishermensmarket shall meet the applicable requirements of Chapter 1 (commencing with Section 113700), Chapter 2 (commencing with Section 113728), Chapter 3 (commencing with Section 113945), Chapter 4 (commencing with Section 113980), Chapter 5 (commencing with Section 114095), Chapter 6 (commencing with Section 114130), Chapter 7 (commencing with Section 114189), Chapter 8 (commencing with Section 114250), and Chapter 13 (commencing with Section 114380), unless exempted as provided in this chapter.

(Added by Stats. 2015, Ch. 615, Sec. 9. (AB 226) Effective January 1, 2016.)

114378.1.

(a)Fish sold in a fishermensmarket shall be raw and may be displayed whole, eviscerated, or packaged by an onsite permitted temporary food facility or permitted food facility. A fisherman selling fish in a fishermensmarket shall only sell raw edible aquatic plants or fish that the fisherman caught legally, or that was caught by one or two other licensed commercial fishermen. If a fisherman sells fish caught by another licensed commercial fisherman, the fisherman shall provide a copy of that other fishermanscommercial license and contact information upon the request of the enforcement agency.

(b)A fishermensmarket may provide a separate service that fillets, cuts, or packages fish for customers who purchase direct sales of fish within the fishermensmarket as a temporary food facility, mobile food facility, fishermensmarket booth, or other facility approved by the enforcement agency. A separate health permit is required and applicable requirements for that category of permit shall be met.

(c)Fish parts from the daysoperations may be used for bait by a licensed commercial fisherman or registered aquaculturist.

(d)Ice used for refrigeration purposes shall not be used for consumption in food or beverages.

(e)Notwithstanding subdivision (b) and Section 113818, raw fish may be eviscerated at a fishermensmarket.

(Amended by Stats. 2021, Ch. 155, Sec. 10. (AB 831) Effective January 1, 2022.)

114378.2.

A fishermensmarket shall meet all of the following requirements:

(a) Each fishermensmarket food booth shall post the name of the fisherman, vessel or farm, and acceptable market name of fish sold so they are legible and clearly visible to patrons.

(b)Notwithstanding Section 113953, handwashing facilities for a fishermensmarket food both that operates for three consecutive days or less may include a container capable of providing a continuous stream of water from an approved source that leaves both hands free to allow vigorous rubbing with soap and warm water for 10 to 15 seconds, inclusive. A catch basin shall be provided to collect wastewater, and the wastewater shall be properly disposed of according to Section 114197.

(c)Handwashing facilities shall be equipped with handwashing cleanser and single-use sanitary towels. A separate receptacle shall be available for towel waste.

(d)Notwithstanding Section 114205, potable water shall be available for handwashing and sanitizing as approved by the enforcement agency.

(e)Approved toilet and handwashing facilities shall be available within 200 feet of the premises of a fishermensmarket or as approved by the enforcement agency.

(f)All garbage and refuse shall be stored and disposed of in a manner approved by the enforcement agency.

(g)Wastewater shall be disposed of in a facility connected to the public sewer system or in a manner approved by the enforcement agency.

(h)Floors shall be constructed of concrete, asphalt, tight wood, or other similar cleanable material kept in good repair.

(i)Overhead protection shall be provided over the evisceration process, food storage, food display, and warewashing areas. Overhead protection shall be made of wood, canvas, or other materials that protect the facility from precipitation, dust, bird and insect droppings, and other contaminants.

(j)Notwithstanding Section 114095, approved warewashing facilities may be shared if the sink is centrally located and is adjacent to the sharing facilities. The enforcement agency may also approve use of warewashing facilities within a permanent facility if it is located within 200 feet of the premises of the fishermensmarket or as approved by the enforcement agency.

(k)Food-related and utensil-related equipment shall be located and installed to prevent food contamination.

(l)During periods of inoperation, food, food equipment, and utensils shall be stored within a fully enclosed facility approved by the enforcement agency, or in approved food compartments where the food, food equipment, and utensils are protected at all times from contamination, exposure to the elements, ingress of rodents or other vermin, and temperature abuse.

(Added by Stats. 2015, Ch. 615, Sec. 9. (AB 226) Effective January 1, 2016.)

114378.3.

(a)A permit application and site plan shall be submitted to the enforcement agency at least two weeks prior to the operation of a fishermensmarket. Only California-licensed commercial fishermen or an entity representing two or more California-licensed commercial fishermen or California-licensed commercial fishermen and California-registered aquaculturists may act as the responsible person and sole permitholder for a fishermensmarket. The site plan shall include all of the following:

(1)A map with proposed locations of the fishermensmarket food booths, boundaries of the fishermensmarket, restrooms, refuse containers, potable water supply faucets, wastewater disposal facilities, and all shared warewashing and handwashing facilities as applicable.

(2)Details of the materials and methods used to construct the food booths.

(3)Foods that will be handled and dispensed.

(4)Procedures for food handling, food temperature control, refuse management, cleaning and sanitizing utensils and equipment, and cleaning structures and premises.

(5)Procedures for transporting food to and from the fishermensmarket and actions taken to prevent contamination.

(6)List of names of licensed commercial fishermen or registered aquaculturists, copies of their licenses or registrations, and a document authorizing the organizer to act as the responsible person and permitholder on their behalf.

(b)A fishermensmarket may operate adjacent to, or in conjunction with, a food facility or a community event. In those situations, the fishermensmarket is only subject to the limitations and requirements of a fishermensmarket. The other food facilities remain subject to the limitations and requirements, including separate permit requirements, that are applicable to the type of facility being operated.

(Added by Stats. 2015, Ch. 615, Sec. 9. (AB 226) Effective January 1, 2016.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=12.8.&article=

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 12.8. ChildrensMeals [114379 - 114379.60]__

(Chapter 12.8 added by Stats. 2018, Ch. 608, Sec. 2.)

114379.

The purpose of this chapter is to support childrenshealth by setting nutritional standards for a restaurantschildrensmeals.

(Added by Stats. 2018, Ch. 608, Sec. 2. (SB 1192) Effective January 1, 2019.)

114379.10.

For purposes of this chapter, the following terms have the following meanings:

(a)Childrensmeal means a combination of food items and a beverage, or a single food item and a beverage, sold together at a single price, primarily intended for consumption by a child.

(b)Default beverage means the beverage automatically included or offered as part of a childrensmeal, absent a specific request by the purchaser of the childrensmeal for an alternative beverage.

(c)Restaurant means a retail food establishment that prepares, serves, and vends food directly to the consumer.

(Added by Stats. 2018, Ch. 608, Sec. 2. (SB 1192) Effective January 1, 2019.)

114379.20.

(a)A restaurant that sells a childrensmeal shall make the default beverage offered with the childrensmeal one of the following:

(1)Water, sparkling water, or flavored water, with no added natural or artificial sweeteners.

(2)Unflavored milk.

(3)A nondairy milk alternative that contains no more than 130 calories per container or serving. For purposes of this paragraph, nondairy milk alternative means a non-dairy fluid milk substitute that meets the standards for the National School Lunch Program as set forth in Section 210.10 of Title 7 of the Code of Federal Regulations.

(b)The beverage listed or displayed on a restaurant menu or advertisement for a childrensmeal shall be one of the default beverages listed in subdivision (a).

(Added by Stats. 2018, Ch. 608, Sec. 2. (SB 1192) Effective January 1, 2019.)

114379.30.

This chapter does not prohibit a restaurantsability to sell, or a customersability to purchase, an alternative beverage instead of the default beverage offered with the childrensmeal, if requested by the purchaser of the childrensmeal.

(Added by Stats. 2018, Ch. 608, Sec. 2. (SB 1192) Effective January 1, 2019.)

114379.40.

The local enforcement agency, as set forth in Section 113713, shall implement, administer, and enforce this chapter. The department may issue rules and regulations as necessary to carry out the purposes of this chapter.

(Added by Stats. 2018, Ch. 608, Sec. 2. (SB 1192) Effective January 1, 2019.)

114379.50.

A violation of this chapter is, notwithstanding Section 114395, an infraction, provided, however, that the first violation shall result in a notice of violation. A second violation within a five-year period from the notice of violation shall be punishable by a fine of not more than two hundred fifty dollars ($250). For a third or subsequent violation within a five-year period, the fine shall be not more than five hundred dollars ($500). A restaurant shall not be found to have committed a violation under this chapter more than once during an inspection visit.

(Added by Stats. 2018, Ch. 608, Sec. 2. (SB 1192) Effective January 1, 2019.)

114379.60.

This chapter shall be construed so as not to conflict with any federal or state law, rule, or regulation. This chapter does not authorize a local agency to impose any duty or obligation in conflict with a limitation on a local authority established by a federal or state law. If a court or agency of competent jurisdiction holds that a federal or state law, rule, or regulation invalidates any clause, sentence, paragraph, or section of this chapter or the application thereof to any person or circumstances, it is the intent of the Legislature that the court or agency sever the clause, sentence, paragraph, or section so that the remainder of this chapter remains in effect.

(Added by Stats. 2018, Ch. 608, Sec. 2. (SB 1192) Effective January 1, 2019.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 13. Compliance and Enforcement [114380 - 114437]__

(Chapter 13 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 1. Plan Review and Permits [114380 - 114387]__

(Article 1 added by Stats. 2006, Ch. 23, Sec. 2.)

114380.

(a)A person proposing to build or remodel a food facility shall submit complete, easily readable plans drawn to scale, and specifications to the enforcement agency for review, and shall receive plan approval before starting any new construction or remodeling of a facility for use as a retail food facility.

(b)Plans and specifications may also be required by the enforcement agency if the agency determines that they are necessary to ensure compliance with the requirements of this part, including, but not limited to, a menu change or change in the facilitysmethod of operation.

(c)(1)All new school food facilities or school food facilities that undergo modernization or remodeling shall comply with all structural requirements of this part. Upon submission of plans by a public school authority, the Division of the State Architect and the local enforcement agency shall review and approve all new and remodeled school facilities for compliance with all applicable requirements.

(2)Notwithstanding subdivision (a), the Office of Statewide Health Planning and Development (OSHPD) shall maintain its primary jurisdiction over licensed skilled nursing facilities, and when new construction, modernization, or remodeling must be undertaken to repair existing systems or to keep up the course of normal or routine maintenance, the facility shall complete a building application and plan check process as required by OSHPD. Approval of the plans by OSHPD shall be deemed compliance with the plan approval process required by the local county enforcement agency described in this section.

(3)Except when a determination is made by the enforcement agency that the nonconforming structural conditions pose a public health hazard, existing public and private school cafeterias, limited service charitable feeding operation facilities, and licensed health care facilities shall be deemed to be in compliance with this part pending replacement or renovation.

(d)Except when a determination is made by the enforcement agency that the nonconforming structural conditions pose a public health hazard, existing food facilities that were in compliance with the law in effect on June 30, 2007, shall be deemed to be in compliance with the law pending replacement or renovation. If a determination is made by the enforcement agency that a structural condition poses a public health hazard, the food facility shall remedy the deficiency to the satisfaction of the enforcement agency.

(e)The plans shall be approved or rejected within 20 working days after receipt by the enforcement agency and the applicant shall be notified of the decision. Unless the plans are approved or rejected within 20 working days, they shall be deemed approved. The building department shall not issue a building permit for a food facility until after it has received plan approval by the enforcement agency. This section does not require that plans or specifications be prepared by someone other than the applicant.

(Amended by Stats. 2021, Ch. 155, Sec. 11. (AB 831) Effective January 1, 2022.)

114381.

(a)A food facility shall not be open for business without a valid permit.

(b)A permit shall be issued by the enforcement agency when investigation has determined that the proposed facility and its method of operation meets the specifications of the approved plans or conforms to the requirements of this part.

(c)A permit, once issued, is nontransferable. A permit shall be valid only for the person, location, type of food sales, or distribution activity and, unless suspended or revoked for cause, for the time period indicated.

(d)Any fee for the permit or registration or related services, including, but not limited to, the expenses of inspecting and impounding any utensil suspected of releasing lead or cadmium in violation of Section 108860 as authorized by Section 114393, review of HACCP plans, and alternative means of compliance shall be determined by the local governing body. Fees shall be sufficient to cover the actual expenses of administering and enforcing this part. The moneys collected as fees shall only be expended for the purpose of administering and enforcing this part.

(e)A permit shall be posted in a conspicuous place in the food facility or in the office of a vending machine business.

(f)Any person requesting the enforcement agency to undertake activity pursuant to Sections 114149.1 and 114419.3 shall pay the enforcement agencycosts incurred in undertaking the activity. The enforcement agencysservices shall be assessed at the current hourly cost recovery rate.

(Amended by Stats. 2009, Ch. 571, Sec. 63. (SB 241) Effective October 11, 2009.)

114381.1.

In addition to the permit issued to each food facility participating in a community event or swap meet, a permit shall be obtained by the person or organization responsible for facilities that are shared by two or more food facilities.

(a)The permit application and site plan shall be submitted to the enforcement agency at least two weeks prior to operation of any food facility.

(b)The site plan shall show the proposed locations of the food facilities, restrooms, refuse containers, potable water supply faucets, waste water disposal facilities, and all shared warewashing and handwashing facilities.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114381.2.

A permit application shall be submitted to the enforcement agency by each temporary food facility operator

that includes all of the following:

(a)A site plan that indicates the proposed layout of equipment, food preparation tables, food storage, warewashing, and handwashing facilities.

(b)Details of the materials and methods used to construct the temporary food facility.

(c)All food products that will be handled and dispensed.

(d)The proposed procedures and methods of food preparation and handling.

(e)Procedures, methods, and schedules for cleaning utensils, equipment, and structures, and for the disposal of refuse.

(f)How food will be transported to and from a permanent food facility or other approved food facility and the temporary food facility, and steps taken to prevent contamination of foods.

(g)How potentially hazardous foods will be maintained at or below 41Â°F or at or above 135Â°F.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114387.

Any person who operates a food facility shall obtain all necessary permits to conduct business, including, but not limited to, a permit issued by the enforcement agency. In addition to the penalties under Article 2 (commencing with Section 114390), violators who operate without the necessary permits shall be subject to closure of the food facility and a penalty not to exceed three times the cost of the permit.

(Amended by Stats. 2009, Ch. 571, Sec. 64. (SB 241) Effective October 11, 2009.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 13. Compliance and Enforcement [114380 - 114437]__

(Chapter 13 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 2. Enforcement [114390 - 114399]__

(Article 2 added by Stats. 2006, Ch. 23, Sec. 2.)

114390.

(a)Enforcement officers shall enforce this part and all regulations adopted pursuant to this part.

(b)(1)For purposes of enforcement, any authorized enforcement officer may, during the facilityshours of operation and other reasonable times, enter, inspect, issue citations to, and secure any sample, photographs, or other evidence from a food facility, cottage food operation, or any facility suspected of being a food facility or cottage food operation, or a vehicle transporting food to or from a retail food facility, when the vehicle is stationary at an agricultural inspection station, a border crossing, or at any food facility under the jurisdiction of the enforcement agency, or upon the request of an incident commander.

(2)If a food facility is operating under an HACCP plan, the enforcement officer may, for the purpose of determining compliance with the plan, secure as evidence any documents, or copies of documents, relating to the facilitysadherence to the HACCP plan. Inspection may, for the purpose of determining compliance with this part, include any record, file, paper, process, HACCP plan, invoice, or receipt bearing on whether food, equipment, or utensils are in violation of this part.

(3)The enforcement officer may, for the purpose of determining compliance with the gross annual sales requirements for operating a microenterprise home kitchen operation or a cottage food operation, require those operations to provide copies of documents related to determining gross annual sales.

(c)Notwithstanding subdivision (a), an employee may refuse entry to an enforcement officer who is unable to present official identification showing the enforcement officerspicture and enforcement agency name. In the absence of the identification card, a business card showing the enforcement agencysname plus a picture identification card such as a driverslicense shall meet this requirement.

(d)It is a violation of this part for any person to refuse to permit entry or inspection, the taking of samples or other evidence, access to copy any record as authorized by this part, to conceal any samples or evidence, withhold evidence concerning them, or interfere with the performance of the duties of an enforcement officer, including making verbal or physical threats or sexual or discriminatory harassment.

(e)A written report of the inspection shall be made, and a copy shall be supplied or mailed to the owner, manager, or operator of the food facility.

(Amended by Stats. 2018, Ch. 470, Sec. 7. (AB 626) Effective January 1, 2019.)

114393.

(a)Based upon inspection findings or other evidence, an enforcement officer may impound food, equipment, or utensils that are found to be, or suspected of being, unsanitary or in such disrepair that food, equipment, or utensils may become contaminated or adulterated, and inspect, impound, or inspect and impound any utensil that is suspected of releasing lead or cadmium in violation of Section 108860. The enforcement officer may attach a tag to the food, equipment, or utensils that shall be removed only by the enforcement officer following verification that the condition has been corrected.

(b)No food, equipment, or utensils impounded pursuant to subdivision (a) shall be used unless the impoundment has been released.

(c)Within 30 days, the enforcement agency that has impounded the food, equipment, or utensils pursuant to subdivision (a) shall commence proceedings to release the impounded materials or to seek administrative or legal remedy for its disposition.

(Amended by Stats. 2007, Ch. 96, Sec. 57. Effective July 20, 2007.)

114395.

Except as otherwise provided in this part, any person who violates any provision of this part or regulation adopted pursuant to this part is guilty of a misdemeanor. Each offense shall be punished by a fine of not less than twenty-five dollars ($25) or more than one thousand dollars ($1,000) or by imprisonment in the county jail for a term not exceeding six months, or by both fine and imprisonment.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114397.

The owner, manager, or operator of any food facility is responsible for any violation by an employee of any provision of this part or any regulation adopted pursuant to this part. Each day the violation occurs shall be a separate and distinct offense.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114399.

A violation of any provision of this part or regulation adopted pursuant to this part relating to facilities held in common or shared by more than one food facility shall be deemed a violation for which the owner,

manager, or operator of each food facility is responsible.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=13.&article=3.

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 13. Compliance and Enforcement [114380 - 114437]__

(Chapter 13 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 3. Permit Suspension or Revocation [114405 - 114413]__

(Article 3 added by Stats. 2006, Ch. 23, Sec. 2.)

114405.

(a)A permit may be suspended or revoked by a local enforcement officer for a violation of this part. Any food facility or cottage food operation for which the permit has been suspended shall close and remain closed until the permit has been reinstated. Any food facility or cottage food operation for which the permit has been revoked shall close and remain closed until a new permit has been issued.

(b)Whenever a local enforcement officer finds that a food facility or cottage food operation is not in compliance with the requirements of this part, a written notice to comply shall be issued to the permitholder. If the permitholder fails to comply, the local enforcement officer shall issue to the permitholder a notice

setting forth the acts or omissions with which the permitholder is charged, and informing him or her of a right to a hearing, if requested, to show cause why the permit should not be suspended or revoked. A written request for a hearing shall be made by the permitholder within 15 calendar days after receipt of the notice. A failure to request a hearing within 15 calendar days after receipt of the notice shall be deemed a waiver of the right to a hearing. When circumstances warrant, the hearing officer may order a hearing at any reasonable time within this 15-day period to expedite the permit suspension or revocation process.

(c)The hearing shall be held within 15 calendar days of the receipt of a request for a hearing. Upon written request of the permitholder, the hearing officer may postpone any hearing date, if circumstances warrant the action.

(Amended by Stats. 2012, Ch. 415, Sec. 15. (AB 1616) Effective January 1, 2013.)

114407.

The hearing officer shall issue a written notice of decision to the permitholder within five working days following the hearing. In the event of a suspension or revocation, the notice shall specify the acts or omissions with which the permitholder is charged, and shall state the terms of the suspension or that the permit has been revoked.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114409.

(a)If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility or cottage food operation immediately closed.

(b)Whenever a permit is suspended as the result of an imminent health hazard, the enforcement officer shall issue to the permitholder a notice setting forth the acts or omissions with which the permitholder is charged, specifying the pertinent code section, and informing the permitholder of the right to a hearing.

(c)At any time within 15 calendar days after service of a notice pursuant to subdivision (b), the permitholder may request in writing a hearing before a hearing officer to show cause why the permit suspension is not warranted. The hearing shall be held within 15 calendar days of the receipt of a request for a hearing. A failure to request a hearing within 15 calendar days shall be deemed a waiver of the right to a hearing.

(Amended by Stats. 2012, Ch. 415, Sec. 16. (AB 1616) Effective January 1, 2013.)

114411.

The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114413.

A permit may be reinstated or a new permit issued if the enforcement agency determines that the conditions that prompted the suspension or revocation no longer exist.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=7.&chapter=13.&article=4.

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 13. Compliance and Enforcement [114380 - 114437]__

(Chapter 13 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 4. Variance [114417 - 114417.7]__

(Article 4 added by Stats. 2006, Ch. 23, Sec. 2.)

114417.

The department may issue a variance for only the provisions set forth in Section 113936, if in the opinion of

the department, the alternative practice or procedure is equivalent to the respective requirements of this part and the alternative practice or procedure does not result in a health hazard.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114417.1.

(a)Within 180 days after the effective date of this part, the department shall develop the form of application that an applicant for a variance must submit. The department may amend the form as it deems appropriate. The application shall contain, at a minimum, the following information:

(1)A detailed description of the requested variance, including citation to the relevant subdivisions specified in Section 113936.

(2)An analysis of the science-based rationale upon which the proposed alternate practice or procedure is based, to include, if and as appropriate, microbial challenge and process validation studies demonstrating how potential health hazards dealt with in those subdivisions that are relevant to the requested variance will be addressed.

(3)A description of the specific procedures, processes, monitoring steps, and other relevant protocols that will be implemented pursuant to the variance to address potential health hazards dealt with in those subdivisions specified in Section 113936 that are relevant to the requested variance.

(4)An HACCP plan, if required pursuant to Section 114419, that includes all applicable information relevant to the requested variance.

(b)An application for a variance shall be submitted to the department, and must be accompanied at the time of submission by the fees specified in subdivision (c).

(c)Each application for a variance shall be accompanied at the time of submission by payment of fees sufficient to pay the necessary costs of the department as specified in Section 113717. Any overpayment by the applicant in excess of the recovery rate and other costs incurred shall be repaid to the applicant within 30 calendar days after final action is taken by the department on the application.

(Amended by Stats. 2007, Ch. 96, Sec. 58. Effective July 20, 2007.)

114417.2.

(a)Upon receipt of an application for a variance, the department shall determine whether the application is substantially complete and in compliance with Section 114417.1. Within 45 calendar days after submission of a complete application that complies with Section 114417.1, the department shall determine whether the alternate practice or procedure described in the application is satisfactory and at least the equivalent of the requirements of this part relating to preventing a health hazard.

(b)In the event that the department grants the variance, it shall issue to the applicant a variance letter that shall include, but not be limited to, the information specified in Section 114417.3.

(c)The department shall transmit a copy of its variance letter to all local enforcement agencies.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114417.3.

Each variance letter shall include, have attached to it, or reference each of the following:

(a)The information specified in Section 114417.1. That information may be presented verbatim, in summary form, or by means of attachment.

(b)Detailed findings by the department as to the nature and extent of the potential hazards, if any, that might be implicated with respect to the requirements specified in this part, and the manner in which the alternate practice or procedure specified in the variance will address those hazards.

(c)The specifics of any operating restrictions or requirements upon which the granting of the variance is conditioned.

(d)If appropriate, the particular events, locations, and operations for which the variance is granted.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114417.4.

A variance letter shall be valid solely with respect to those food facilities, events, locations, and operations expressly set forth and only on the specific terms and conditions upon which the variance is granted. A variance granted by the department shall be binding on every local enforcement agency.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114417.5.

The permitholder shall retain a copy of the variance letter on file at the food facility at all times and shall make it available for inspection by the enforcement officer.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114417.6.

If the department grants a variance, or if an HACCP plan is required pursuant to Section 114419, the permitholder shall do both of the following:

(a)Comply with the HACCP plan and procedures that are submitted as specified in Sections 114419.1 and

114419.2 and approved as a condition for the granting of the variance.

(b)Maintain and provide to the enforcement agency, upon request, records specified under a HACCP plan, or otherwise pursuant to the variance letter, that demonstrate that the following are routinely employed:

(1)Procedures for monitoring critical control points.

(2)Monitoring of the critical control points.

(3)Verification of the effectiveness of an operation or process.

(4)Necessary corrective actions if there is a failure at a critical control point.

(Amended by Stats. 2007, Ch. 96, Sec. 59. Effective July 20, 2007.)

114417.7.

(a)The department may suspend or revoke a variance if either of the following occurs:

(1)The department determines that the variance poses a hazard due to changes in scientific knowledge or the nature and extent of any hazard that might result.

(2)There is a finding that the food facility is not complying with specific terms and conditions pursuant to which the variance was granted.

(b)The department may suspend or revoke a variance upon the grounds specified in this section only after giving the permitholder written notice of the proposed suspension or revocation, which shall include the specific reasons why the variance is proposed to be suspended or revoked. The permitholder shall be given an opportunity to be heard, in person, in writing, or through a representative, at least 24 hours before the variance can be suspended or revoked.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 13. Compliance and Enforcement [114380 - 114437]__

(Chapter 13 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 5. HACCP Exemptions [114419 - 114423]__

(Article 5 added by Stats. 2006, Ch. 23, Sec. 2.)

114419.

(a)Food facilities may engage in any of the following activities only pursuant to an HACCP plan as specified in Section 114419.1:

(1)Smoking food as a method of food preservation rather than as a method of flavor enhancement.

(2)Curing food.

(3)Using food additives or adding components such as vinegar as a method of food preservation rather than as a method of flavor enhancement, or to render a food so that it is not potentially hazardous.

(4)Operating a molluscan shellfish life support system display tank used to store and display shellfish that are offered for human consumption.

(5)Custom processing animals that are for personal use as food and not for sale or service in a food facility.

(6)Preparing food by another method that is determined by the enforcement agency to require an HACCP plan.

(b)Food facilities may engage in the following only pursuant to an HACCP plan that has been approved by the department:

(1)Using acidification or water activity to prevent the growth of Clostridium botulinum.

(2)Packaging potentially hazardous food using a reduced-oxygen packaging method as specified in Section 114057.1, except if the food facility uses a reduced-oxygen packaging method to package hazardous food that always complies with the following standards with respect to packaging the hazardous food:

(A)The food is labeled with the production time and date.

(B)The food is held at 41 degrees Fahrenheit or lower during refrigerated storage.

(C)The food is removed from its package in the food facility within 48 hours after packaging.

(Amended by Stats. 2016, Ch. 195, Sec. 16. (SB 1067) Effective January 1, 2017.)

114419.1.

For a food facility that is required under Section 114419 to have an HACCP plan, the plan and specifications shall indicate all of the following:

(a)A flow diagram of the specific food for which the HACCP plan is requested, identifying critical control points and providing information on the following:

(1)Ingredients, materials, and equipment used in the preparation of that food.

(2)Formulations or recipes that delineate methods and procedural control measures that address the food safety concerns involved.

(b)A food employee and supervisory training plan that addresses the food safety issues of concern.

(c)A statement of standard operating procedures for the plan under consideration including clearly identifying the following:

(1)Each critical control point.

(2)The critical limits for each critical control point.

(3)The method and frequency for monitoring and controlling each critical control point by the food employee designated by the person in charge.

(4)The method and frequency for the person in charge to routinely verify that the food employee is following standard operating procedures and monitoring critical control points.

(5)Action to be taken by the person in charge if the critical limits for each critical control point are not met.

(6)Records to be maintained by the person in charge to demonstrate that the HACCP plan is properly operated and managed.

(d)Additional scientific data or other information, as required by the department, supporting the determination that food safety is not compromised by the proposal.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114419.2.

(a)Applicable HACCP training shall be provided and documented for food employees who work in the preparation of food for which an HACCP plan has been implemented. Training given to food employees shall be documented as to date, trainer, and subject.

(b)Verification of critical limits specified in an HACCP plan shall be conducted by a laboratory approved by the department prior to implementation of the HACCP plan. Documentation of laboratory verification shall be maintained with the HACCP plan for the duration of its implementation.

(c)No verification of the effectiveness of a critical limit shall be required if the critical limits used in the HACCP plan do not differ from the critical limits set forth in this part.

(d)The person operating a food facility pursuant to a HACCP plan shall designate at least one person to be responsible for verification of the HACCP plan. Training for the designated person shall include the seven principles of HACCP and the contents of the HACCP plan as described in Section 114419.1. HACCP training records of the designated person shall be retained for the duration of employment, or a period of not less than two years, whichever is greater.

(e)Critical limit monitoring equipment shall be suitable for its intended purpose and shall be calibrated as specified by its manufacturer. The food facility shall maintain all calibration records for a period not less than two years.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114419.3.

(a)Except as specified in Section 114419, nothing in this section shall be deemed to require the enforcement agency to review or approve an HACCP plan.

(b)The enforcement agency shall collect fees sufficient only to cover the costs for review, inspections, and any laboratory samples taken.

(c)An HACCP plan may be disapproved if it does not comply with HACCP principles.

(d)The enforcement agency may suspend or revoke its approval of an HACCP plan without prior notice if the agency finds any of the following:

(1)The plan poses a public health risk due to changes in scientific knowledge or the hazards present.

(2)The food facility does not have the ability to follow its HACCP plan.

(3)The food facility does not consistently follow its HACCP plan.

(e)Within 30 days of written notice of suspension or revocation of approval, the food facility may request a hearing to present information as to why the HACCP plan suspension or revocation should not have taken place or to submit HACCP plan changes.

(f)The hearing shall be held within 15 working days of the receipt of a request for a hearing. Upon written request of the permitholder, the hearing officer may postpone any hearing date, if circumstances warrant that action.

(g)The hearing officer shall issue a written notice of decision within five working days following the hearing. If the decision is to suspend or revoke approval, the reason for suspension or revocation shall be included in the written decision.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114421.

(a)Each food facility that identifies a trade secret shall provide in writing to the enforcement agency the information they consider to be a trade secret.

(b)The enforcement agency shall treat as confidential, to the extent allowed by law, information that meets the criteria specified in law for a trade secret and is contained on inspection report forms and in the plans and specifications submitted as specified under Section 114419.1.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114423.

A microbial challenge study may be submitted to the enforcement agency for review for purposes of verifying that a food does not constitute a potentially hazardous food.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

(Article 6 added by Stats. 2006, Ch. 23, Sec. 2.)

114425.

Raw duck that otherwise would be readily perishable shall be exempt from Section 113996 for a period not to exceed two hours, if the duck will subsequently be cooked at or above a temperature of 350Â°F for at least 60 minutes.

(a)Whole Chinese-style roast duck shall be exempt from Section 113996 for a period not to exceed four hours after the duck is prepared, if the methods used to prepare the food inhibit the growth of microorganisms that can cause food infections or food intoxications. Nothing in this section shall be construed to supersede any provisions of this part, except the provisions specified in this section.

(b)For the purposes of this section, Chinese-style roast duck shall include, but not be limited to, Chinese-style barbecue duck, dry hung duck, and Peking duck. Chinese-style roast duck means duck which is prepared as follows:

(1)The abdominal cavity is cleaned.

(2)The duck is marinated.

(3)The cavity is closed prior to cooking.

(4)The duck is roasted at a temperature of 350Â°F or more for at least 60 minutes.

(Repealed and added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114427.

The Mercado La Paloma, located at 3655 South Grand Avenue in Los Angeles, operated by Esperanza Community Housing Corporation, which is a public market open only on one side that meets the following criteria, shall be exempt from Section 114266:

(a)All facilities inside the Mercado La Paloma have overhead protection that extends over all food items.

(b)All facilities inside the Mercado La Paloma are enclosed on at least two sides.

(c)All facilities inside the Mercado La Paloma are under the constant and complete control of the operator.

(d)During periods of inoperation, food, utensils, and related items shall be stored so as to be adequately protected at all times from contamination, exposure to the elements, ingress of vermin, and temperature abuse.

(e)During all hours of operation, air curtains shall be in operation over all unclosed door openings to the outside to exclude flying pests.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114429.

(a)Notwithstanding Sections 113996 and 114343 and if permitted by federal law, a food facility may sell Korean rice cakes that have been at room temperature for no more than 24 hours.

(b)At the end of the operating day, Korean rice cakes that have been at room temperature for no more than 24 hours shall be destroyed in a manner approved by the enforcement agency.

(c)For purposes of this section, a Korean rice cake is defined as a confection that contains rice powder, salt, sugar, various edible seeds, oil, dried beans, nuts, dried fruits, and dried pumpkin. The ingredient shall not include any animal fats or any other products derived from animals.

(d)All manufacturers of Korean rice cakes shall place a label on the Korean rice cake as prescribed by Section 111223.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114429.3.

(a)Notwithstanding Sections 113996 and 114343 and if permitted by federal law, a food facility may sell Vietnamese rice cakes that have been at no more than 70 degrees Fahrenheit for no more than 24 hours.

(b)Vietnamese rice cakes that have been at no more than 70 degrees Fahrenheit but have been stored for more than 24 hours shall be destroyed in a manner approved by the enforcement agency.

(c)All Vietnamese rice cakes shall bear a label meeting the requirements of Section 111223.

(Added by Stats. 2016, Ch. 193, Sec. 4. (SB 969) Effective January 1, 2017.)

114429.5.

(a)Notwithstanding Sections 113996 and 114343, and if permitted by federal law, a food facility may sell

Asian rice-based noodles that have been kept at room temperature for no more than four hours.

(b)Asian rice-based noodles that have been kept at room temperature shall be consumed or cooked within four hours of the date and time labeled on the product. Asian rice-based noodles that have been kept at room temperature shall be segregated for destruction from other Asian rice-based noodles in a manner approved by the local enforcement agency after four hours of the date and time labeled on the product.

(c)At the end of the operating day, Asian rice-based noodles that have been kept at room temperature for more than four hours shall be destroyed in a manner approved by the local enforcement agency.

(d)(1)For purposes of this section, an Asian rice-based noodle means a rice-based pasta that contains rice powder, water, wheat starch, vegetable cooking oil, and optional ingredients to modify the pH or water activity, or to provide a preservative effect. The ingredients shall not include any animal fats or any other products derived from animals. An Asian rice-based noodle is prepared by using a traditional method that includes cooking by steaming at not less than 130 degrees Fahrenheit, for not less than four minutes.

(2)If the Asian rice-based noodles maintain a pH of not more than 4.6, as measured at a temperature of 76 degrees Fahrenheit, a water activity of 0.85 or below, or have been determined by the department to be a nonpotentially hazardous food based on formulation and supporting laboratory documentation submitted to the department by the manufacturer, the restrictions provided in subdivisions (a) to (c), inclusive, shall not apply to the Asian rice-based noodles.

(Amended by Stats. 2012, Ch. 658, Sec. 3. (SB 1465) Effective January 1, 2013.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 7. CALIFORNIA RETAIL FOOD CODE [113700 - 114437]__

(Part 7 repealed and added by Stats. 2006, Ch. 23, Sec. 2.)

__CHAPTER 13. Compliance and Enforcement [114380 - 114437]__

(Chapter 13 added by Stats. 2006, Ch. 23, Sec. 2.)

__ARTICLE 7. Food Facility Food Donations [114432 - 114435]__

(Article 7 added by Stats. 2006, Ch. 23, Sec. 2.)

114432.

(a)A person, gleaner, or food facility may donate food to a food bank or to any other nonprofit charitable organization for distribution to persons free of charge. Food facilities may donate food directly to end recipients for consumption.

(b)For purposes of this section, person has the same meaning as defined in Section 1714.25 of the Civil Code.

(c)For purposes of this section gleaner has the same meaning as defined in Section 1714.25 of the Civil Code.

(Amended by Stats. 2017, Ch. 619, Sec. 6. (AB 1219) Effective January 1, 2018.)

114433.

A person, gleaner, or food facility that donates food as permitted by Section 114432 shall not be subject to civil or criminal liability or penalty for violation of any laws, regulations, or ordinances regulating the labeling or packaging of the donated product or, with respect to any other laws, regulations, or ordinances, for a violation occurring after the time of the donation. The donation of nonperishable food that is fit for human consumption but that has exceeded the labeled shelf life date recommended by the manufacturer is protected under the California Good Samaritan Food Donation Act. The donation of perishable food that is fit for human consumption but that has exceeded the labeled shelf life date recommended by the manufacturer is protected under the California Good Samaritan Food Donation Act if the person that distributes the food to the end recipient makes a good faith evaluation that the food to be donated is wholesome.

(Amended by Stats. 2017, Ch. 619, Sec. 7. (AB 1219) Effective January 1, 2018.)

114434.

The immunities provided in Section 114433 and by Section 1714.25 of the Civil Code, the California Good Samaritan Food Donation Act, are in addition to any other immunities provided by law, including those provided by Chapter 5 (commencing with Section 58501) of Part 1 of Division 21 of the Food and Agricultural Code.

(Amended by Stats. 2017, Ch. 619, Sec. 8. (AB 1219) Effective January 1, 2018.)

114435.

In implementing this article, enforcement officers shall promote the recovery of food fit for human consumption during their normal, routine inspections. Promotion shall include, but not be limited to, newsletters, bulletins, and handouts that inform retail food facility operators about the protections from civil and criminal liability when donating food.

(Added by Stats. 2017, Ch. 619, Sec. 9. (AB 1219) Effective January 1, 2018.)

__ARTICLE 8. Child Day Care Facilities, Community Care Facilities, and Residential Care Facilities for the Elderly [114437- 114437.]__

(Article 8 added by Stats. 2006, Ch. 23, Sec. 2.)

114437.

If and when a specific appropriation is made available, the State Department of Social Services shall develop new regulations regarding food preparation provisions for child day care facilities, community care facilities, and residential care facilities for the elderly that would carry out the intent of this part to ensure the health and safety of individuals and that would not adversely affect those facilities that are safely operated. In developing proposed food preparation provisions for child day care facilities, the State Department of Social Services shall consult with the department and the State Department of Education.

(Added by Stats. 2006, Ch. 23, Sec. 2. Effective January 1, 2007. Operative July 1, 2007, by Sec. 3 of Ch. 23.)

114650.

(a)As used in this chapter, the following definitions shall apply:

(1)Agency or office means the Office of Emergency Services.

(2)Department means the State Department of Public Health.

(3)Disburse or disbursement means a payment in advance from the Nuclear Planning Assessment Special Account, as specified in paragraph (5) of subdivision (b) of Section 8610.5 of the Government Code.

(4)Emergency planning zone means a zone identified in state and local government emergency plans where immediate decisions for effective public protective action from radiation may be necessary.

(5)Exercise means an event that tests emergency plans and organizations and that the Federal Emergency Management Agency evaluates pursuant to Part 350 (commencing with Section 350.1) of Subchapter E of Chapter I of Title 44 of the Code of Federal Regulations.

(6)Ingestion pathway phase means the period beginning after any release of radioactive material from a nuclear powerplant accident when the plume emergency phase has ceased, and reliable environmental measurements are available for making decisions on additional protective actions to protect the food chain. The main concern is to prevent exposure from ingestion of contaminated water or food, such as milk, fresh vegetables, or aquatic foodstuffs.

(7)Ingestion pathway zone means the 50-mile radius around each of the statesnuclear powerplants in which protective actions may be required to protect the food chain in the event of an emergency.

(8)Interjurisdictional Planning Committee means the planning committee, comprised of representatives of the Counties of Orange and San Diego, the Cities of Dana Point, San Clemente, and San Juan Capistrano, the Camp Pendleton Marine Corps Base, the State Department of Parks and Recreation, and the Southern California Edison Company, established as a mechanism for coordinating integrated preparedness and response in the event of an emergency at the San Onofre Nuclear Generating Station.

(9)Local government means a city or county that provides emergency response for a nuclear powerplant emergency.

(10)Local jurisdiction means an entity that provides emergency response for a nuclear powerplant emergency in accordance with the plans of a local government.

(11)Plume emergency phase means the period beginning at the onset of an emergency at a nuclear powerplant when immediate decisions for public protective actions are needed.

(12)Recovery phase means the period when actions designed to reduce radiation levels in the environment to acceptable levels for unrestricted use are commenced, and ending when all recovery actions have been completed.

(13)Site means the location of a nuclear powerplant and its surrounding emergency planning zone.

(Amended by Stats. 2013, Ch. 352, Sec. 386. (AB 1317) Effective September 26, 2013. Operative July 1, 2013, by Sec. 543 of Ch. 352.)

114655.

(a)The Legislature hereby finds and declares as follows:

(1)Existing law requires the development and maintenance of a nuclear powerplant emergency response program by state and local governments based on federal and state criteria.

(2)The office, in consultation with the department and the counties, has investigated the consequences of a serious nuclear powerplant accident and has established plume emergency phase and ingestion pathway phase planning zones for each site. These zones imply mutually supportive emergency planning and preparedness arrangements by all levels of government.

(3)An integrated emergency planning program is necessary for the benefit of the citizens within the planning zones.

(b)Nothing in this chapter limits the activities of any government in carrying out its general responsibilities pertaining to the public health and the safety aspects of emergency response.

(Amended by Stats. 2013, Ch. 352, Sec. 387. (AB 1317) Effective September 26, 2013. Operative July 1, 2013, by Sec. 543 of Ch. 352.)

Codes Display Text

Source: [https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=9.&chapter=4.&article=2.](https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?

lawCode=HSC&division=104.&title=&part=9.&chapter=4.&article=2.)

114660.

(a)The office is responsible for the coordination and integration of all emergency planning programs and response plans under this chapter. If there is a nuclear powerplant accident, the office shall coordinate information and resources to support local governments in a joint state and local government decisionmaking process.

(b)The office shall perform all of the following duties and functions:

(1)Coordinate the activities of all state agencies relating to preparation and implementation of the State Nuclear Power Plant Emergency Response Plan. The office shall be the focal point for coordinating nuclear powerplant emergency preparedness activities with local governments, other state agencies, federal agencies, and other organizations.

(2)Exercise explicit ultimate authority for allocating funds from the Nuclear Planning Assessment Special Account to local governments.

(3)Coordinate and participate in exercises of the statesnuclear emergency response plan with each site during its federally evaluated exercise.

(4)Ensure that state personnel are adequately trained to respond in the event of an actual emergency. The exercises shall include the department and other relevant state agencies.

(5)In consultation with the department, review protective action recommendations developed by the utilities and local government representatives.

(6)Coordinate planning guidance to state agencies and local governments.

(7)Ensure the development and maintenance of the State Nuclear Power Plant Emergency Response Plan and procedures necessary to carry out those responsibilities and review and approve state agency plans in draft prior to publication.

(8)Exercise discretionary authority regarding the formation of interagency agreements with state agencies having local emergency responsibilities, to ensure state agencies have updated emergency plans and trained emergency response personnel to respond during the plume emergency phase.

(9)Conduct a study similar to that described in Section 8610.3 of the Government Code, for any nuclear powerplant with a generating capacity of 50 megawatts or more that is proposed for licensing in this state.

(Amended by Stats. 2013, Ch. 352, Sec. 389. (AB 1317) Effective September 26, 2013. Operative July 1, 2013, by Sec. 543 of Ch. 352.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=9.&chapter=4.&article=3.

114662.

(a) The department shall provide technical support for plume emergency phase response. During the ingestion pathway and recovery phases, the department shall have the lead technical role and shall participate in a joint state and local government protective action decisionmaking process. The department shall prepare the ingestion pathway and recovery plan, and shall provide guidelines for local government ingestion pathway and recovery plans.

(b) The department shall maintain plans for communicating public health information during the ingestion pathway and recovery phases. The department shall also maintain a radiological advisory team, and shall maintain a list of medical facilities capable of caring for radiological casualties.

(c) The department shall perform all of the following duties and functions:

(1) Act as the responsible entity for ensuring that ingestion pathway and recovery plans are maintained and ready to be implemented, including necessary training and exercises, in coordination with affected counties and the office.

(2) Establish protective action guidelines for ingestion pathway and recovery operations with reference to the recommendations of the federal Environmental Protection Agency.

(3) Coordinate development and maintenance by counties of, and review any information database of food, water, and animal resources for, the 50-mile ingestion pathway zone around the San Onofre and Diablo Canyon nuclear powerplants.

(4) Establish measurement standards and procedures to assess radioactivity in exposure pathways, including, but not limited to, food, water, and animals, which are compatible with the federal Environmental Protection Agencysstandards and procedures.

(5) Support local government nuclear emergency planning, training, exercises, and response in coordination with the office.

(6) Maintain plans for coordinating the dissemination of public health information during the recovery phase of a nuclear powerplant emergency.

(7) Define and maintain a radiological advisory team, which shall not make decisions within the jurisdiction of emergency planning and response organizations. The guidelines for the team shall include, but not be limited to, all of the following requirements:

(A) The team shall include individuals with expertise in medicine, radiation biology, radiation casualty management, emergency preparedness and disaster response, public health, and government responsibilities.

(B) The team shall be available to advise the department on its nuclear powerplant emergency planning and response.

(C) The team may provide advice and counsel regarding radiation protection safety issues.

(8) Maintain guidelines for the designation for medical facilities that would be capable of managing and caring for casualties caused by a nuclear radiation accident.

(9) Develop and maintain a list of medical facilities that meet the statewide guidelines.

(Added by Stats. 1998, Ch. 543, Sec. 5. Effective January 1, 1999.)

Codes Display Text

__ARTICLE 4. Responsibilities of Local Government [114677- 114677.]__

(Article 4 repealed and added by Stats. 1998, Ch. 543, Sec. 5.)

114677.

(a) Local governments shall develop and maintain radiological emergency preparedness and response plans to safeguard the public in the emergency planning zone around a nuclear powerplant.

(b) The responsibilities of local government within an emergency planning zone include, but are not limited to, all of the following:

(1) Preemergency preparedness, including developing, maintaining, and enhancing radiological emergency response plans and procedures; maintaining emergency management organizations and operations and field response organizations; making training available to local government organizations in conjunction with utilities; providing public information and education in conjunction with utilities ; maintaining essential communications systems; and implementing other preemergency preparedness measures, as required in accordance with federal requirements and state plans and procedures.

(2) Managing plume emergency phase response actions; providing available resources for emergency response; notifying emergency workers and the public; providing emergency public information; making protective action decisions and taking protective action response, to provide public health support in conjunction with the utility and state; providing radiologic exposure control; procuring additional resources, and taking other actions needed for emergency response.

(3) Participating in a joint state and local government decisionmaking process during ingestion pathway phases and recovery phases; coordinating implementation of protective action decisions with state and federal governments; continuing emergency public information in conjunction with state and federal organizations; and providing support for security of evacuated areas.

(c) At the San Onofre Nuclear Generating Station, the Interjurisdictional Planning Committee shall identify a discussion leader to facilitate local government protective action decisions during the plume emergency phase of a nuclear powerplant emergency.

(d) A local government within an emergency planning zone may request services from a jurisdiction outside the emergency planning zone that are necessary to support an evacuated emergency planning zone population. Services requested by a local government within the emergency planning zone may include, but are not limited to, public information, congregate care, traffic management, radiological monitoring or decontamination of evacuees, and interjurisdictional coordination.

(Repealed and added by Stats. 1998, Ch. 543, Sec. 5. Effective January 1, 1999.)

__ARTICLE 5. Responsibilities of Entities Providing Utilities [114680- 114680.]__

(Article 5 repealed and added by Stats. 1998, Ch. 543, Sec. 5.)

114680.

Entities providing utilities shall perform all of the following duties and functions:

(a) Any public or private utility that operates a nuclear powerplant in the state shall have a response organization that can be integrated with federal, state, and local government emergency response resources during a radiological accident.

(b) Nuclear facility operators shall develop and maintain radiological emergency preparedness and response plans in coordination with state and local government.

(c) Nuclear utilities have the primary responsibility for planning and implementing emergency measures within facility boundaries and shall do all of the following:

(1) Perform accident assessments.

(2) Prepare public protective action recommendations for decisionmakers during the plume emergency phase.

(3) Provide information to the appropriate state and local government in support of their independent assessment of offsite radiological conditions relevant to protective action decisions during the plume emergency phase.

(4) Coordinate with state and local governments in maintaining nuclear powerplant public education information.

(5) Support state and local government in nuclear powerplant planning, training, drills and exercises, and emergency preparedness efforts.

(Repealed and added by Stats. 1998, Ch. 543, Sec. 5. Effective January 1, 1999.)

(Article 6 repealed and added by Stats. 1998, Ch. 543, Sec. 5.)

114685.

(a) The Department of Transportation shall include within its criteria for funding, repair, and construction projects, the need for adequate emergency evacuation routes.

(b) State and local law enforcement agencies shall ensure all of the following:

(1) Traffic flow plans for areas outside the emergency planning zones shall adequately reflect the possible evacuation of residents outside those zones.

(2) Traffic flow plans shall take into consideration that some evacuation routes may be impassible under certain weather conditions and shall have plans for designating alternative routes.

(3) Officers who may be needed to respond during a nuclear powerplant emergency shall receive the necessary training, including refresher courses at least once each year.

(c) Local jurisdictions within an emergency planning zone shall coordinate nuclear powerplant emergency response plans and procedures with local governments and shall participate in training, drills, and exercises as needed.

(Repealed and added by Stats. 1998, Ch. 543, Sec. 5. Effective January 1, 1999.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Containment of Radioactive Materials [114705 - 114835]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Control of Radioactive Contamination of the Environment [114705 - 114780]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

114705.

The Legislature finds and declares that radioactive contamination of the environment may subject the people of the State of California to unnecessary exposure to ionizing radiation unless it is properly controlled. It is therefore declared to be the policy of this state that the department initiate and administer necessary programs of surveillance and control of those activities that could lead to the introduction of radioactive materials into the environment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114710.

As used in this article the following terms have the meanings described in this section.

(a) Department means the State Department of Health Services.

(b) Environment means all places outside the control of the person responsible for the radioactive materials.

(c) Field tracer study is any project, experiment, or study that includes provision for deliberate introduction of radioactive material into the environment for experimental or test purposes.

(d) Person includes any association of persons, copartnership or corporation.

(e) Radiation, or ionizing radiation, means gamma rays and X-rays; alpha and beta particles, high-speed electrons, neutrons, protons, and other nuclear particles; but not sound or radio waves, or visible, infrared, or ultraviolet light.

(f) Radioactive material means any material or combination of materials that spontaneously emits ionizing radiation.

(g) Radioactive waste means any radioactive material that is discarded as nonusable.

(h) Significant or significantly, as applied to radioactive contamination, means concentrations or amounts of radioactive material as are likely to expose persons to ionizing radiation equal to or greater than the guide levels published by the Federal Radiation Council.

(i) Radiological monitoring means the measurement of the amounts and kinds of radioactive materials in the environment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114715.

No person shall bury, throw away, or in any manner dispose of radioactive wastes within the state except in a manner and at locations as will result in no significant radioactive contamination of the environment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114720.

The department may, by written order, prohibit the disposal of radioactive wastes by any person when, upon investigation, it has determined that the disposal violates Section 114715.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114725.

The department may, by written order, prohibit the storage, packaging, transporting, or loading of radioactive wastes if there is a reasonable likelihood that the activities will result in significant radioactive contamination of the environment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114730.

The person to whom an order has been issued pursuant to Section 114720 or 114725 may appeal the order of the department to any court of competent jurisdiction.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114735.

The department may bring an action in a court of competent jurisdiction to enjoin the storage, packaging, transporting, loading, or disposal of radioactive wastes in violation of any written order issued by the department pursuant to Section 114720 or 114725. The court may, if it appears necessary, enjoin any person from using radioactive material who thereby produces radioactive waste that the court finds is being disposed of in violation of this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114740.

The department shall maintain surveillance over the storage, packaging, transporting, and loading of radioactive material within this state regardless of the materialsultimate destination. In carrying out its duties under this section, the department may enter into an agreement with the Division of Occupational Safety and Health and other state and local agencies to conduct any appropriate inspection and enforcement activities. Any agreement with state and local agencies shall not duplicate work to be done pursuant to agreement with the Division of Occupational Safety and Health, nor shall work done by the Division of Occupational Safety and Health duplicate work agreed to be done by other state and local agencies. Licensees of the Nuclear Regulatory Commission and the facilities of the Department of Energy and the Department of Defense are exempt from this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114745.

No person shall operate a nuclear reactor, nuclear fuel reprocessing plant, or other installation, as defined by the department, that could, as a result of routine operations, accident, or negligence, significantly contaminate the environment with radioactive material, without first instituting and maintaining an adequate program of radiological monitoring. The proposed program shall be submitted to the department for review and acceptance as to its adequacy.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114750.

No person shall conduct any field tracer study unless detailed plans of the study have been approved by the department. In reviewing proposed field tracer studies, the department shall consider at least the following elements:

(a) That there is shown to be a substantial public interest in the information intended to be obtained by the study.

(b) That the study will be performed by persons or agencies competent to handle and use the radioactive material safely and with due regard for potential effects on public health.

(c) That the study is planned so as to impose the least possible exposure to ionizing radiation consistent with achieving the studysdesired objectives.

(d) That there is no likelihood that any person will be exposed to ionizing radiation in excess of guide levels published by the Federal Radiation Council. The department may, as a condition to its approval of a field tracer study, require a representative of the department to be present during the study.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114755.

The department shall monitor radioactive materials in the environment, including radioactive materials in media such as air, milk, food, and water in locations and with a frequency as the department may deem necessary to determine radiation exposure to the people of the state from the materials.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114760.

The department shall, at least once per month, make public to news media the results of its monitoring of radioactive materials.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114765.

Any regulations relating to radioactive material cargo, including, but not limited to, packing, marking, loading, handling, and transportation, shall be reviewed and made compatible with the federal regulations adopted pursuant to the federal Department of Transportation Docket No. HM-164, Notice No. 80-1, within 60 days of the date the federal regulations become effective.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114775.

The department, utilizing available funds and in cooperation with the Department of Fish and Game and the Joint Committee on Fisheries and Aquaculture, shall do all of the following:

(a) Cooperate with any federal agency that conducts monitoring of marine life or ocean waters, or both, at the sites of radioactive waste dumping off the California coast to determine the effects of the dumping.

(b) Purchase and test samples of seafood taken in the vicinity of the Farallon Islands radioactive waste dump site to determine whether the seafood contains radioactivity beyond natural and artificial background levels.

(c) Make annual reports to the Legislature on the implementation of this section, including any recommendations for legislation it deems necessary to protect the health of Californians.

(d) Take emergency action pursuant to the general authority contained in the Sherman Food, Drug, and Cosmetic Law (Part 5 (commencing with Section 109875)) to prohibit the commercial sale of seafood for human consumption if, in the judgment of the director, samples analyzed pursuant to subdivision (b), are found to contain radioactivity that poses a threat to human health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114780.

(a) The Legislature finds and declares that the dumping of radioactive waste, including the scuttling of radioactive nuclear submarines, into the Pacific Ocean, could adversely affect the California coastal zone.

(b) The California Coastal Commission, in cooperation when appropriate with the department, the Department of Justice, the Department of Fish and Game, and the Joint Committee on Fisheries and Aquaculture, shall use any means available to the commission, pursuant to law, to prevent any dumping of radioactive waste in the Pacific Ocean by any public or private entity, unless the commission finds that the dumping would be consistent with the goals and policies of Division 20 (commencing with Section 30000) of the Public Resources Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Containment of Radioactive Materials [114705 - 114835]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Radiation Monitoring Devices for Nuclear Power Plants [114785 - 114810]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

114785.

Each privately owned and publicly owned public utility operating a nuclear powerplant with a generating capacity of 50 megawatts or more shall establish a system of offsite radiation monitoring devices as specified by the Nuclear Regulatory Commission pursuant to Regulatory Guide 1.97 or related standards. The utility shall consult with the department and the appropriate county emergency services agency regarding the type, number, and locations of the radiation monitoring devices. The consultation with the department and the appropriate county emergency services agency shall be completed prior to submitting a plan to the Nuclear Regulatory Commission regarding the radiation monitoring devices.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114790.

The information transmitted to the radiation monitoring displays in the technical support center or emergency operating facility of a nuclear powerplant shall be simultaneously transmitted to the Office of Emergency Services State Warning Center.

(Amended by Stats. 2013, Ch. 352, Sec. 390. (AB 1317) Effective September 26, 2013. Operative July 1, 2013, by Sec. 543 of Ch. 352.)

114795.

The funds expended by privately owned utilities complying with this article shall be allowed for ratemaking purposes by the Public Utilities Commission. Publicly owned utilities shall include funds expended complying with this article in their rates.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114800.

In no event shall a plant operator be required to spend more than one million dollars ($1,000,000) in capital outlay for a nuclear powerplant site in complying with this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114805.

Nothing in this article shall require powerplant modifications or the conduct of operations that may be in conflict with conditions of the license to operate issued by the Nuclear Regulatory Commission or with other

activities authorized by the Nuclear Regulatory Commission, or that may be in conflict with regulations of the Environmental Protection Agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114810.

Failure to comply with this article shall not constitute the basis for an action in a court of law or in an administrative proceeding to enjoin or prevent the operation or start-up of a nuclear facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Containment of Radioactive Materials [114705 - 114835]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Transportation of Radioactive Materials [114815 - 114835]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

114815.

For the purposes of this article the term radioactive materials shall include any material or combination of materials that spontaneously emits ionizing radiation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114820.

(a)The department, with the assistance of the Office of Emergency Services, the State Energy Resources Conservation and Development Commission, and the Department of the California Highway Patrol shall, with respect to any fissile radioactive material coming within the definition of fissile class II, fissile class III, large quantity radioactive materials, or low-level radioactive waste provided by the regulations of the United States Department of Transportation (49 C.F.R. 173.389), do all of the following:

(1)Study the adequacy of current packaging requirements for radioactive materials.

(2)Study the effectiveness of special routing and timing of radioactive materials shipments for the protection of the public health.

(3)Study the advantages of establishing a tracking system for shipments of most hazardous radioactive materials.

(b)The department, with the assistance of the Office of Emergency Services, the State Energy Resources Conservation and Development Commission, and the Department of the California Highway Patrol, shall extend the nuclear emergency response plan to include radioactive materials in transit and provide training for law enforcement officers in dealing with those threats.

(c)Subject to Section 114765, the department, in cooperation with the Department of the California Highway Patrol, shall adopt, in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, reasonable regulations that, in the judgment of the department, promote the safe transportation of radioactive materials. The regulations shall (1) prescribe the use of signs designating radioactive material cargo; shall designate, in accordance with the results of the studies done pursuant to subdivision (a), the manner in which the shipper shall give notice of the shipment to appropriate authorities; (2) prescribe the packing, marking, loading, and handling of radioactive materials, and the precautions necessary to determine whether the material when offered is in proper condition to transport, but shall not include the equipment and operation of the carrier vehicle; and (3) be reviewed and amended, as required, pursuant to Section 114765. The regulations shall be compatible with those established by the federal agency or agencies required or permitted by federal law to establish the regulations.

(d)Subject to Section 114765, the Department of the California Highway Patrol, after consulting with the department, shall adopt regulations specifying the time at which shipments may occur and the routes that are to be used in the transportation of cargoes of hazardous radioactive materials, as those materials are defined in regulations of the department.

(Amended by Stats. 2013, Ch. 352, Sec. 391. (AB 1317) Effective September 26, 2013. Operative July 1, 2013, by Sec. 543 of Ch. 352.)

114825.

Regulations adopted by the department pursuant to Section 114820 may be enforced, within their respective jurisdictions, by any authorized representatives of the department, the Division of Industrial Safety of the Department of Industrial Relations, the Public Utilities Commission, the health department of any city or county, the Department of the California Highway Patrol, or any traffic officer as defined by Section 625 of the Vehicle Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114830.

It is the legislative intention in enacting this article that the regulations adopted by the department pursuant to this article shall apply uniformly throughout the state, and no state agency, city, county, or other political subdivision of this state, including a chartered city or county, shall adopt or enforce any ordinance or regulation that is inconsistent with the regulations adopted by the department pursuant to this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114835.

A violation of any regulation adopted by the department pursuant to Section 114820 is a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Radiologic Technology [114840 - 114896]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Declaration of Policy [114840 - 114845]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

114840.

The Legislature finds and declares that the public health interest requires that the people of this state be protected from excessive and improper exposure to ionizing radiation. It is the purpose of this chapter to establish standards of education, training, and experience for persons who use X-rays on human beings and to prescribe means for assuring that these standards are met.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114845.

The Legislature finds and declares that the public health interest requires that increased steps be taken to ensure the accuracy of mammograms, including increased inspections and calibration of equipment, competency requirements for radiologic technologists, accreditation of mammography facilities, and the use of computers to read mammograms.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

Codes Display Text

Source: [https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.

&title=&part=9.&chapter=6.&article=2.](https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=9.&chapter=6.&article=2.)

114850.

For the purposes of the Radiologic Technology Act (Section 27) and this chapter:

(a)Department means the State Department of Public Health.

(b)Committee means the Radiologic Technology Certification Committee.

(c)Radiologic technology means the application of x-rays on human beings for diagnostic or therapeutic purposes.

(d)Radiologic technologist means any person, other than a licentiate of the healing arts, making application of x-ray to human beings for diagnostic, mammographic, or therapeutic purposes pursuant to subdivision (b) of Section 114870.

(e)Limited permit means a permit issued pursuant to subdivision (c) of Section 114870 or Section 114871 to persons to conduct radiologic technology limited to the performance of certain procedures or the application of x-rays to specific areas of the human body, except for a mammogram.

(f)Approved school for radiologic technologists means a school or approved educational program that the department has determined provides a course of instruction in radiologic technology that is adequate to meet the purposes of the Radiologic Technology Act (Section 27).

(g)Supervision means responsibility for, and control of, quality, radiation safety, and technical aspects of all x-ray examinations and procedures.

(h)(1)Licentiate of the healing arts means a person licensed under the provisions of the Medical Practice Act, the provisions of the initiative act entitled An act prescribing the terms upon which licenses may be issued to practitioners of chiropractic, creating the State Board of Chiropractic Examiners and declaring its powers and duties, prescribing penalties for violation thereof, and repealing all acts and parts of acts inconsistent herewith, approved by electors November 7, 1922, as amended, or the Osteopathic Act.

(2)For purposes of Section 114872, a licentiate of the healing arts means a person licensed under the Physician Assistant Practice Act (Chapter 7.7 (commencing with Section 3500) of Division 2 of the Business and Professions Code) who practices under the supervision of a qualified physician and surgeon pursuant to the act and pursuant to Division 13.8 of Title 16 of the California Code of Regulations.

(i)Certified supervisor or operator means a licentiate of the healing arts who has been certified under subdivision (e) or (f) of Section 114870 or 107111 to supervise the operation of x-ray machines or to operate x-ray machines, or both.

(j)Student of radiologic technology means a person who has started and is in good standing in a course of instruction that, if completed, would permit the person to be certified a radiologic technologist or granted a limited permit upon satisfactory completion of any examination required by the department. Student of radiologic technology does not include any person who is a student in a school of medicine, chiropractic, podiatry, dentistry, dental radiography, or dental hygiene.

(k)Mammogram means an x-ray image of the human breast.

(l)Mammography means the procedure for creating a mammogram.

(Amended by Stats. 2023, Ch. 42, Sec. 47. (AB 118) Effective July 10, 2023.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Radiologic Technology [114840 - 114896]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Radiologic Technology Certification [114855 - 114865]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

114855.

The department shall appoint a certification committee to assist, advise, and make recommendations for the establishment of regulations necessary to insure the proper administration and enforcement of this chapter, and for those purposes to serve as consultants to the department. The appointments shall be made from lists of at least three nominees for each position submitted by appropriate professional associations and societies designated by the Director of Health Services, and provisions shall be made for orderly rotation of

membership.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114860.

The committee shall consist of the director or his or her designate, who shall serve as chairperson ex officio, but who shall not vote, and the following 11 members who are residents of the state:

(a) Six physicians and surgeons licensed to practice medicine in this state, three of whom shall be certified in radiology by the American Board of Radiology. At least one of the radiologists shall be representative of the hospital practice of radiology.

(b) Two persons with at least five years™ experience in the practice of radiologic technology. At least one of these persons shall be representative of the hospital practice of radiologic technology. Except for the appointment of these two persons to the first committee, every person thereafter appointed to the committee under this subdivision shall be certified as a radiologic technologist.

(c) One radiological physicist, qualified in the use of physics in the practice of medicine.

(d) One podiatrist licensed to practice podiatry in this state.

(e) One chiropractic practitioner licensed to practice chiropractic in this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114865.

Members of the committee shall serve without compensation but shall receive their actual and necessary expenses incurred in the performance of the duties of their office.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Radiologic Technology [114840 - 114896]__

(Chapter 6 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Committee Administration and Regulations [114870 - 114896]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

114870.

The department shall do all of the following:

(a)Upon recommendation of the committee, adopt regulations as may be necessary to accomplish the purposes of this chapter.

(b)(1)Provide for certification of radiologic technologists, without limitation as to procedures or areas of application, except as provided in Section 106980. Separate certificates shall be provided for diagnostic radiologic technology, for mammographic radiologic technology, and for therapeutic radiologic technology. If a person has received accreditation to perform mammography from a private accreditation organization, the department shall consider this accreditation when deciding to issue a mammographic radiologic technology certificate.

(2)Provide, upon recommendation of the committee, that a radiologic technologist who operates digital radiography equipment devote a portion of his or her continuing education credit hours to continuing education in digital radiologic technology.

(c)(1)(A)Provide, as may be deemed appropriate, for granting limited permits to persons to conduct radiologic technology limited to the performance of certain procedures or the application of X-rays to specific areas of the human body, except for mammography, prescribe minimum standards of training and experience for these persons, and prescribe procedures for examining applicants for limited permits. The minimum standards shall include a requirement that persons granted limited permits under this subdivision shall meet those fundamental requirements in basic radiological health training and knowledge similar to those required for persons certified under subdivision (b) as the department determines are reasonably necessary for the protection of the health and safety of the public.

(B)Provide that an applicant for approval as a limited permit X-ray technician in the categories of chest

radiography, extremities radiography, gastrointestinal radiography, genitourinary radiography, leg-podiatric radiography, skull radiography, and torso-skeletal radiography, as these categories are defined in Section 30443 of Title 17 of the California Code of Regulations, shall have at least 50 hours of education in radiological protection and safety. The department may allocate these hours as it deems appropriate.

(2)Provide that a limited permit X-ray technician in the categories of chest radiography, extremities radiography, gastrointestinal radiography, genitourinary radiography, leg-podiatric radiography, skull radiography, and torso-skeletal radiography, as these categories are defined in Section 30443 of Title 17 of the California Code of Regulations, may perform digital radiography within their respective scopes of practice after completion of 20 hours or more of instruction in digital radiologic technology approved by the department. This requirement shall not be construed to preclude limited permit X-ray technicians in the categories of dental laboratory radiography and X-ray bone densitometry from performing digital radiography upon meeting the educational requirements determined by the department.

(3)Provide, upon recommendation of the committee, that a limited permit X-ray technician who has completed the initial instruction described in paragraph (2) devote a portion of his or her required continuing education credit hours to additional continuing instruction in digital radiologic technology.

(d)Provide for the approval of schools for radiologic technologists. Schools for radiologic technologists shall include 20 hours of approved instruction in digital radiography. The department may exempt a school from this requirement as it deems appropriate.

(e)Provide, upon recommendation of the committee, for certification of licentiates of the healing arts to supervise the operation of X-ray machines or to operate X-ray machines, or both, prescribe minimum standards of training and experience for these licentiates of the healing arts, and prescribe procedures for examining applicants for certification. This certification may limit the use of X-rays to certain X-ray procedures and the application of X-rays to specific areas of the human body.

(f)(1)Provide for certification of any physician and surgeon to operate, and supervise the operation of, a bone densitometer, if that physician and surgeon provides the department a certificate that evidences training in the use of a bone densitometer by a representative of a bone densitometer machine manufacturer, or through any radiologic technology school. The certification shall be valid for the particular bone densitometer the physician and surgeon was trained to use, and for any other bone densitometer that meets all of the criteria specified in subparagraphs (A) to (C), inclusive, if the physician and surgeon has completed training, as specified in subparagraph (A) of paragraph (2), for the use of that bone densitometer. The physician and surgeon shall, upon request of the department, provide evidence of training, pursuant to subparagraph (A) of paragraph (2), for the use of any bone densitometer used by the physician and surgeon. The activity covered by the certificate shall be limited to the use of an X-ray bone densitometer to which all of the following is applicable:

(A)The bone densitometer does not require user intervention for calibration.

(B)The bone densitometer does not provide an image for diagnosis.

(C)The bone densitometer is used only to estimate bone density of the heel, wrist, or finger of the patient.

(2)The certificate shall be accompanied by a copy of the curriculum covered by the manufacturersrepresentative or radiologic technology school. The curriculum shall include, at a minimum, instruction in all of the following areas:

(A)Procedures for operation of the bone densitometer by the physician and surgeon, and for the supervision

of the operation of the bone densitometer by other persons, including procedures for quality assurance of the bone densitometer.

(B)Proper radiation protection of the operator, the patient, and third parties in proximity to the bone densitometer.

(C)Provisions of Article 5 (commencing with Section 106955) of Chapter 4 of Part 1 of Division 104.

(D)Provisions of Chapter 6 (commencing with Section 114840) of Part 9 of Division 104.

(E)Provisions of Group 1 (commencing with Section 30100) of Subchapter 4 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(F)Provisions of Group 1.5 (commencing with Section 30108) of Subchapter 4 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(G)Provisions of Article 1 (commencing with Section 30252) of Group 3 of Subchapter 4 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(H)Provisions of Article 2 (commencing with Section 30254) of Group 3 of Subchapter 4 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(I)Provisions of Article 3 (commencing with Section 30275) of Group 3 of Subchapter 4 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(J)Provisions of Article 4 (commencing with Section 30305) of Group 3 of Subchapter 4 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(K)Provisions of Subchapter 4.5 (commencing with Section 30400) of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(3)(A)Notwithstanding any other provision of law, this subdivision shall constitute all the requirements that must be met by a physician and surgeon in order to operate, and supervise the operation of, a bone densitometer. The department may adopt regulations consistent with this section in order to administer the certification requirements.

(B)No person may be supervised by a physician and surgeon in the use of a bone densitometer unless that person possesses the necessary license or permit required by the department.

(C)Nothing in this subdivision shall affect the requirements imposed by the committee or the department for the registration of a bone densitometer machine, or for the inspection of facilities in which any bone densitometer machine is operated.

(D)This subdivision shall not apply to a licentiate of the healing arts who is certified pursuant to subdivision (e) or pursuant to Section 107111.

(E)The department shall charge a fee for a certificate issued pursuant to this subdivision to the extent necessary to administer certification. The fee shall be in an amount sufficient to cover the departmentscosts of implementing this subdivision and shall not exceed the fee for certification to operate or supervise the operation of an X-ray machine pursuant to subdivision (e). The fees collected pursuant to this subparagraph shall be deposited into the Radiation Control Fund established pursuant to Section 114980.

(g)Upon recommendation of the committee, exempt from certification requirements those licentiates of the healing arts who have successfully completed formal courses in schools certified by the department and who have successfully passed a roentgenology technology and radiation protection examination approved by the department and administered by the board that issued his or her license.

(h)(1)No later than July 1, 2019, the department shall require an applicant to provide either the individual taxpayer identification number or social security number for purposes of applying for or the renewal of a certificate, license, or permit issued under this section or regulations promulgated pursuant thereto.

(2)The individual taxpayer identification or the social security number shall serve to establish the identification of persons affected by state tax laws and for purposes of establishing compliance with subsection (a) of Section 666 of Title 42 of the United States Code, Section 60.15 of Title 45 of the Code of Federal Regulations, Section 17520 of the Family Code, and Section 11105 of the Penal Code, and to that end, the information furnished pursuant to this section shall be used exclusively for those purposes.

(3)The department shall not do either of the following:

(A)Require an applicant to disclose citizenship status or immigration status for purposes of the application or renewal of a certificate, license, or permit issued under this section or regulations promulgated pursuant thereto.

(B)Deny certification to an otherwise qualified and eligible applicant based solely on his or her citizenship status or immigration status.

(4)If the department utilizes a national examination to issue a certificate, and if a reciprocity agreement or comity exists between the State of California and the state requesting release of the individual taxpayer identification number or social security number, any deputy, agent, clerk, officer, or employee of the department may release an individualstaxpayer identification number or social security number to an examination or certifying entity, only for the purpose of verification of certification or examination status.

(Amended by Stats. 2018, Ch. 838, Sec. 14. (SB 695) Effective January 1, 2019.)

114871.

(a)In addition to the limited permits authorized to be issued pursuant to Section 114870, the department may issue to a person a limited permit in podiatric radiography, authorizing radiography of only the foot, ankle, tibia, and fibula, if the following conditions are met:

(1)The person has completed a course in radiation safety and radiologic technology approved by the department pursuant to subdivision (b), that is provided by a licensed doctor of podiatric medicine who holds a current and valid radiography supervisor and operator permit issued by the department pursuant to subdivision (e) of Section 114870, and that complies with all of the following:

(A)The course shall include instruction in radiation protection and safety, principles of radiographic exposure, quality control, image processing, anatomy and physiology, digital radiography, positioning, and the performance of at least 50 x-ray procedures under supervision.

(B)The course shall require a minimum of 60 hours of education, which may be online.

(C)The person in the course described in this subdivision is deemed to be within the exception specified in subdivision (b) of Section 106975, provided the person is operating x-ray machines under supervision of a licensed doctor of podiatric medicine who holds a current and valid radiography supervisor and operator permit issued by the department pursuant to subdivision (e) of Section 114870.

(D)The training may not exceed one year for any one student. There shall not be, at any one time, more than one student per licensed doctor of podiatric medicine who holds a current and valid radiography supervisor and operator permit.

(2)The person has satisfied the eligibility requirements defined in Section 30444 of Title 17 of the California Code of Regulations, or its successor, including passing department-approved examinations in radiation protection and safety, and podiatric radiologic technology.

(b)An applicant for providing the course described in paragraph (1) of subdivision (a) shall submit an application, including any required application fees, for approval in accordance with the departmentsregulations adopted pursuant to subdivision (d) of Section 114870. The applicant is subject to Section 107055.

(c)A permit in podiatric radiography authorizes the holder to operate podiatric x-ray equipment in accordance with the departmentsregulations adopted pursuant to the Radiologic Technology Act (Section 27) in a podiatric office only while under the supervision of a certified supervisor and operator who is a licensed doctor of podiatric medicine. For purposes of this section, podiatric office means the physical location of the podiatristsplace of private practice, or, if the approved podiatrist is part of a podiatric medical group, that groupsphysical place of private practice. Podiatric office does not include an office of a medical group that includes a podiatrist, an office within a hospital of a podiatrist who provides services to the hospital patients, or a mobile office.

(d)This section does not increase the scope of practice of a doctor of podiatric medicine or authorize the holder of the permit to perform x-rays beyond the foot, ankle, tibia, and fibula.

(e)The department shall adopt initial regulations implementing this section by July 1, 2023. The regulations shall be exempt from the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), except that the department shall post the proposed regulations on its internet website for public comment for 30 days. The comments received shall be considered by the department and the final adopted regulations shall be filed with the Office of Administrative Law for publication in the California Code of Regulations.

(Added by Stats. 2022, Ch. 580, Sec. 4. (AB 1704) Effective January 1, 2023.)

114872.

(a)The department shall issue a licentiate fluoroscopy permit to a qualified licentiate of the healing arts, as defined in paragraph (2) of subdivision (h) of Section 114850. Notwithstanding any other provision of law, the department shall accept applications for a fluoroscopy permit from a licensed physician assistant who meets the requirements of this section.

(b)A physician and surgeon may delegate to a licensed physician assistant procedures using fluoroscopy. In order to supervise a physician assistant in performing the functions authorized by the Radiologic Technology

Act (Section 27), a physician and surgeon shall either hold, or be exempt from holding, a licentiate fluoroscopy permit required to perform the functions being supervised.

(c)A physician assistant to whom a physician and surgeon has delegated the use of fluoroscopy shall demonstrate successful completion of 40 hours of total coursework, including fluoroscopy radiation safety and protection, recognized by the department. Documentation of completed coursework shall be kept on file at the practice site and available to the department upon request.

(d)Nothing in this section shall be construed to remove the need for a physician assistant to pass a department-approved examination in fluoroscopy radiation safety and protection pursuant to Article 1 (commencing with Section 30460) of Group 5 of Subchapter 4.5 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(e)A licensed physician assistant who is issued a fluoroscopy permit pursuant to the requirements of this section shall, in the two years preceding the expiration date of the permit, earn 10 approved continuing education credits. The department shall accept continuing education credits approved by the Physician Assistant Committee.

(f)Nothing in this section shall be construed to authorize a physician assistant to perform any other procedures utilizing ionizing radiation except those authorized by holding a licentiate fluoroscopy permit.

(g)Nothing in this section shall be construed to remove the need for a physician assistant to be subject to the permit requirements approved by the department pursuant to Subchapter 4.5 (commencing with Section 30400) of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations.

(h)The department may charge applicants under this section a fee in an amount sufficient, but not greater than the amount required, to cover the departmentscosts of implementing this section. The fees collected pursuant to this subdivision shall be deposited into the Radiation Control Fund established pursuant to Section 114980.

(Added by Stats. 2009, Ch. 434, Sec. 3. (AB 356) Effective January 1, 2010.)

114875.

The department may, upon application, on a form prescribed and supplied by the department, by a licentiate of the healing arts, approve the licentiate to give on-the-job training, based on instructional standards prescribed by the department, to a student of radiologic technology if the following requirements are complied with:

(a) The training is restricted to applicants for limited permits in one category or an approved combination of categories.

(b) The training is given by a certified supervisor or operator.

(c) The didactic instruction and clinical experience are equivalent to that required of approved schools for radiologic technology limited permits and shall be outlined by the department in a manual or syllabus.

(d) On-the-job training may not exceed one year for any one student.

(e) There shall not be at any one time more than one student per licentiate.

(f) Records, subject to department inspection, shall be kept of hours of didactic training given the student and the number and kind of clinical procedures performed by the student. If the licentiate does not choose to give both clinical and didactic on-the-job training, as prescribed by the department, that portion not given by the licentiate shall be taken in a school approved by the department pursuant to Section 114870.

The department may establish and collect fees in an amount sufficient to defray the cost incurred by the department in administering the program of on-the-job training authorized by this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114880.

Any regulations adopted by the department pursuant to subdivision (a) of Section 114870 shall be adopted only after consultation with and approval of the committee. Approval of those regulations shall be made by six affirmative votes of those present at an official meeting of the committee.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114885.

The department shall, upon individual application, grant special permits to persons, excepting those persons from specific provisions of this chapter or of the regulations issued thereunder, if the department finds to its satisfaction that there is substantial evidence that the people in the locality of this state, in which the exemption is sought, would be denied adequate medical care because of unavailability of certified or certifiable radiologic technologists. Those special permits shall be granted for limited periods of time to be prescribed by the department in accordance with the purposes of this chapter, and the permits may be renewed.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114896.

The department shall keep certificate holders and permitholders apprised of significant changes in the practice of radiologic technology and changes in regulation of the practice of radiologic technology through a biannual report. The report shall be furnished to certified radiological technologists and limited permitholders and may be furnished to appropriate licentiates of the healing arts.

(Added by renumbering Section 107120 by Stats. 1997, Ch. 97, Sec. 4. Effective July 21, 1997.)

__ARTICLE 2. Declaration of Policy [114905 - 114908]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

114905.

The Legislature finds and declares that the peacetime uses of atomic energy and radiation can be instrumental in improving the health, welfare and economic productivity of the people of the State of California if properly utilized, and may be hazardous to the health and safety of the public if carelessly or excessively employed. It is therefore declared to be the policy of the state to:

(a) Encourage the constructive development of industries producing or utilizing atomic energy and radiation and to eliminate unnecessary exposure of the public to ionizing radiation.

(b) Have state agencies retain their traditional jurisdictions wherever possible.

(c) Have various departments and agencies of the state that are concerned with atomic energy and radiation and its various applications develop programs designed to protect the people of the state from unnecessary exposure to radiation.

(d) Assure the coordination of the programs of the state agencies and the laws, regulations incident thereto and to insure the coordination of these activities with the development and regulatory activities of local agencies, other states and the government of the United States, including the Atomic Energy Commission.

(e) Keep the public, labor, industry, and all other legitimate interests as completely informed as possible on all matters relating to peacetime atomic energy and radiation development and control in this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114907.

Atomic energy means all forms of energy released in the course of nuclear transformation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114908.

As used in this chapter, secretary means the Secretary of the Resources Agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Atomic Energy Development [114900 - 114955]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Coordination of Atomic Energy Development [114910 - 114955]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

114910.

The secretary shall perform the liaison function between the state and the federal government, including the United States Atomic Energy Commission, and between this state and other states in matters pertaining to atomic energy development.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114915.

The secretary shall coordinate the programs, and regulations of the several departments and agencies of the state and the cities and counties relating to atomic energy development, and shall so far as may be practicable coordinate the studies conducted and the recommendations and proposals made in this state on these subjects with like activities in other states and by the federal government and with the policies and regulations of the United States Atomic Energy Commission.

The departments and agencies of the state which are concerned with atomic energy development, and the cities and counties, shall keep the secretary currently informed as to their activities and programs relating to atomic energy development.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114920.

No rule or regulation applying to atomic energy development, or amendment thereto or repeal thereof, that any state agency may propose to adopt, unless it is an emergency regulation, shall be noticed under Section 11346.4 of the Government Code prior to 30 days after it has been submitted to the secretary for comments, recommendations, or suggestions as he or she may deem necessary or desirable with respect thereto, unless the secretary in writing waives all or a portion of the 30-day period.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114925.

Whenever the secretary determines that an existing or proposed regulation is inconsistent with any regulation of another agency of the state, he or she may, after consultation with the agencies involved, find that the proposed regulation is inconsistent with a regulation of the other agency and shall issue an order to that effect, in which event the proposed rule or regulation shall not become effective. The secretary may, in the alternative, upon a similar determination, direct the appropriate agency to amend or repeal the existing regulation to achieve consistency with the proposed regulation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114930.

The secretary may, when he or she deems necessary or appropriate, recommend to any state department or other state agency the adoption, amendment, or repeal of regulations relating to atomic energy development.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114935.

The secretary shall keep the Governor and the various interested state departments and agencies and the cities and counties informed of private and public activities affecting the peacetime uses of atomic energy.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114940.

The secretary shall disseminate to the public factual data and information and interpretations thereof concerning atomic energy development and the uses of radiation in the state with the view to providing a reliable source of accurate information relating to the benefits and hazards of such development and uses. Data and information relating to hazards of radiation shall be developed and disseminated in cooperation with the State Department of Health, as provided for in paragraph (3) of subdivision (e) of Section 115000.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114945.

The secretary may consult with and seek the advice of technically qualified persons within and without the state to advise on matters relating to atomic energy, particularly with regard to regulations relating to atomic energy development usage.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114950.

The department shall keep current information on the permits or licenses issued by the United States Atomic Energy Commission in the state and, along with current information on the radiation sources licensed or registered under the provisions of Section 115060, shall transmit the information upon request to any state department or agency or member of the public.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114955.

Nothing contained in this chapter shall impair the authority or jurisdiction of the State Water Resources Control Board or any of the regional water quality control boards in this state to regulate the discharge of waste for the protection of the quality of waters of this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. General [114960 - 114985]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

114960.

This chapter shall be known, and may be cited, as the Radiation Control Law.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114965.

It is the policy of the State of California, in furtherance of its responsibility to protect the public health and safety, to institute and maintain a regulatory program for sources of ionizing radiation so as to provide for: (a) compatibility with the standards and regulatory programs of the federal government, (b) an integrated effective system of regulation within the State, and (c) a system consonant insofar as possible with those of other states.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114970.

It is the purpose of this chapter to effectuate the policies set forth in Section 114965 by providing for programs to:

(a) Effectively regulate sources of ionizing radiation for the protection of the occupational and public health and safety.

(b) Promote an orderly regulatory pattern within the State, among the states, and between the federal

government and the State, and facilitate intergovernmental co-operation with respect to use and regulation of sources of ionizing radiation to the end that duplication of regulation may be minimized.

(c) Establish procedures for assumption and performance of certain regulatory responsibilities with respect to byproduct, source, and special nuclear materials.

(d) Permit maximum utilization of sources of ionizing radiation consistent with the health and safety of the public.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114975.

Rules and regulations adopted under this chapter shall be adopted in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, and Sections 25733 and 114920 of this code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114980.

The Radiation Control Fund is hereby created as a special fund in the State Treasury. All moneys, including fees, penalties, interest earned, and fines, collected under Sections 107100, 107160, 114872, 115045, 115065, and 115080, Article 5.5 (commencing with Section 107115) of Chapter 4 of Part 1, and the regulations adopted pursuant to those sections, shall be deposited in the Radiation Control Fund to cover the costs related to the enforcement of this chapter, including, but not limited to, implementation of Section 114872, Section 115000, Article 6 (commencing with Section 107150) of Chapter 4 of Part 1, and the Radiologic Technology Act (Section 27), and Article 5.5 (commencing with Section 107115) of Chapter 4 of Part 1, and shall be available for expenditure by the department only upon appropriation by the Legislature. In addition to any moneys collected by, or on behalf of, the department for deposit in the Radiation Control Fund, all interest earned by the Radiation Control Fund shall be deposited in the Radiation Control Fund.

(Amended by Stats. 2009, Ch. 434, Sec. 4. (AB 356) Effective January 1, 2010.)

114985.

As used in this chapter:

(a) Secretary means the Secretary of the Resources Agency.

(b) Ionizing radiation means gamma rays and X-rays; alpha and beta particles, high-speed electrons, neutrons, protons, and other nuclear particles; but not sound or radio waves, or visible, infrared, or ultraviolet light.

(c) Person means any individual, corporation, partnership, limited liability company, firm, association, trust,

estate, public or private institution, group, agency, political subdivision of this state, any other state or political subdivision or agency thereof, and any legal successor, representative, agent, or agency of the foregoing, other than the United States Nuclear Regulatory Commission, the United States Department of Energy, or any successor thereto, and other than federal government agencies licensed by the United States Nuclear Regulatory Commission, under prime contract to the United States Department of Energy, or any successor thereto.

(d) Byproduct material means any radioactive material, except special nuclear material, yielded in, or made radioactive by exposure to the radiation incident to, the process of producing or utilizing special nuclear material.

(e) Source material means (1) uranium, thorium, or any other material which the department declares by rule to be source material after the United States Nuclear Regulatory Commission, or any successor thereto, has determined the material to be such; or (2) ores containing one or more of the foregoing materials, in such concentration as the department declares by rule to be source material after the United States Nuclear Regulatory Commission, or any successor thereto, has determined the material in such concentration to be source material.

(f) Special nuclear material means (1) plutonium, uranium 233, uranium enriched in the isotope 233 or in the isotope 235, and any other material which the department declares by rule to be special nuclear material after the United States Nuclear Regulatory Commission, or any successor thereto, has determined the material to be such, but does not include source material; or (2) any material artificially enriched by any of the foregoing, but does not include source material.

(g) General license means a license, pursuant to regulations promulgated by the department, effective without the filing of an application, to transfer, acquire, own, possess or use quantities of, or devices or equipment utilizing, byproduct, source, or special nuclear materials or other radioactive material occurring naturally or produced artificially.

(h) Specific license means a license, issued after application, to use, manufacture, produce, transfer, receive, acquire, own, or possess quantities of, or devices or equipment utilizing, byproduct, source, or special nuclear materials or other radioactive material occurring naturally or produced artificially.

(i) Registration means the reporting of possession of a source of radiation and the furnishing of information with respect thereto, in accordance with subdivision (b) of Section 115060.

(j) Department means the State Department of Health Services.

(k) Director means the State Director of Health Services.

(l) Federal research and development activity means any activity of the Secretary of Energy conducted at any research facility owned or operated by the United States Department of Energy.

(m) Low-level waste means radioactive waste not classified as high-level radioactive waste, transuranic waste, spent nuclear fuel, or the byproduct material defined in Section 11(e)(2) of the Atomic Energy Act of 1954 (42 U.S.C. Sec. 2014 (e)(2)). For purposes of this subdivision, the following definitions shall apply:

(1) High-level radioactive waste means either of the following:

(A) The highly radioactive material resulting from the reprocessing of spent nuclear fuel, including liquid waste produced directly in reprocessing and any solid material derived from this liquid waste that contains

fission products in sufficient concentrations.

(B) Other highly radioactive material that the Nuclear Regulatory Commission, consistent with existing law, determines by rule requires permanent isolation.

(2) Spent nuclear fuel means fuel that has been withdrawn from a nuclear reactor following irradiation, the constituent elements of which have not been separated by reprocessing.

(3) Transuranic waste means any waste containing more than 100 nanocuries of alpha emitting transuranic nuclides with half-life greater than five years per gram of waste material.

(n) Mammogram means an X-ray image of the human breast.

(o) Mammography means the procedure for creating a mammogram.

(p) Mammography quality assurance means the detection of a change in X-ray and ancillary equipment that adversely affects the quality of films and the glandular radiation dose, and the correction of this change.

(q) Mammogram certification means a certification, issued by the department after registration, that the equipment dedicated to or used for mammography meets the standards prescribed pursuant to this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Control Agency [114990 - 115055]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

114990.

The department is designated as the agency responsible for the issuance of licenses. In carrying out its duties under this section, the department may enter into an agreement with the Division of Occupational Safety and Health and other state and local agencies to conduct technical evaluations of license applications prior to issuance of licenses. The agreements shall also include provisions for conducting inspections in accordance with Section 115095.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

114995.

The authority of the department to issue licenses pursuant to Section 114990 is not affected by any requirements to conduct studies or planning efforts specified in Section 115005.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115000.

The department shall, for the protection of public health and safety do all of the following:

(a) Develop programs for evaluation of hazards associated with use of sources of ionizing radiation.

(b) Develop programs, with due regard for compatibility with federal programs, for licensing and regulation of byproduct, source, and special nuclear materials, and other radioactive materials.

(c) Except as provided in Section 18930, adopt regulations relating to control of other sources of ionizing radiation.

(d) Issue any regulations that may be necessary in connection with proceedings under Article 4 (commencing with Section 115060).

(e) Collect and disseminate information relating to control of sources of ionizing radiation, including all of the following:

(1) Maintenance of a file of all license applications, issuances, denials, amendments, transfers, renewals, modifications, suspensions, and revocations.

(2) Maintenance of a file of all regulations relating to regulation of sources of ionizing radiation, pending or adopted, and proceedings thereon.

(3) Disseminate information regarding the evaluation of hazards associated with the use of sources of ionizing radiation.

Nothing in this chapter shall be construed as precluding the Division of Occupational Safety and Health from adopting and enforcing regulations relating to matters within its jurisdiction consistent with, in furtherance of, and designed to implement this chapter and the regulations adopted thereunder.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115000.1.

(a)For the purposes of this section, the following terms have the following meanings:

(1)Generate means to produce or cause the production of, or to engage in an activity that otherwise results in the creation or increase in the volume of, low-level radioactive waste.

(2)(A)Generator means any person who, by the personsown actions, or by the actions of the personsagent, employee, or independent contractor, generates low-level radioactive waste in the state.

(B)For purposes of this section, a person who provides for or arranges for the collection, transportation, treatment, storage, or disposal of low-level radioactive waste generated by others is a generator only to the extent that the personsown actions, or the actions of the personsagent, employee, or independent contractor, generate low-level radioactive waste.

(3)Person means an individual, partnership, corporation, or other legal entity, including any state, interstate, federal, or municipal governmental entity.

(4)Waste means material that is not in use and is no longer useful.

(5)Generator category includes, but is not limited to, any of the following:

(A)Nuclear powerplants.

(B)Reactor vendors or designers.

(C)Government.

(D)Medicine.

(E)Academia.

(F)Aerospace.

(G)Military.

(H)Research.

(I)Industrial gauges.

(J)Manufacturing.

(6)Low-level radioactive waste or LLRW has the same meaning as defined in Article 2 of the Southwestern Low-Level Radioactive Waste Disposal Compact, as set forth in Section 115255.

(7)Class means the class of low-level radioactive waste. Class A, class B, and class C waste are those classes defined in Section 61.55 of Title 10 of the Code of Federal Regulations.

(8)Licensed LLRW disposal facility means any of the three disposal facilities located at Barnwell, South Carolina; Clive, Utah; or Richland, Washington, that exist on January 1, 2003.

(b)The department shall, for the protection of public health and safety maintain a file of each manifest from each generator of LLRW that is sent to a disposal facility or to a facility subject to the Southwestern Low-level Radioactive Waste Disposal Compact, as set forth in Article 17 (commencing with Section 115250).

(c)The department shall, for the protection of public health and safety, maintain a file of all LLRW transferred for disposal to a licensed LLRW disposal facility during the reporting period, either directly or through a broker or agent, that shall meet all of the following conditions:

(1)Specify the category of generator, class, quantity by activity, and volume of LLRW, including an estimate of the peak and average quantities in storage, along with the identity of the generator, and the chemical and physical characteristics of that waste, including its half-life, properties, or constituents, and radionuclides present at, or above, the minimum labeling requirements, with their respective concentrations and amounts of radioactivity.

(2)Be updated annually, at minimum, to ensure an accurate and timely depiction of radioactive waste in the state.

(3)Include all of the following information in the file:

(A)The total volume, volume by class, and activity by radionuclide and class.

(B)The types and specifications of individual containers used and the number of each type transferred for disposal.

(C)The maximum surface radiation exposure level on any single container of LLRW transferred, the number of disposal containers that exceed 200 mR/hour, and the volume, class, and activity by radionuclide.

(D)The identification of each licensed LLRW disposal facility to which LLRW was transferred, either directly or through a broker or agent, and the volume and activity by class of LLRW transferred by each broker to each licensed LLRW disposal facility.

(E)The identification of all brokers or agents to which LLRW was transferred and the volume and activity by class of the generatorsLLRW transferred by each broker or agent to each licensed LLRW disposal facility.

(F)The weight of source material by its type. For purposes of this paragraph, type includes, but is not limited to, natural uranium, depleted uranium, or thorium.

(G)The total number of grams of special nuclear material by radionuclide, and the maximum number of grams of special nuclear material in any single shipment by radionuclide.

(H)As complete a description as practicable of the principal chemical and physical form of the LLRW by volume and radionuclide, including the identification of any known hazardous properties, other than its radioactive property.

(I)For solidified or sorbed liquids, the nature of the liquid, the solidifying or sorbing agent used, and the final volume.

(J)For LLRW containing more than 0.1 percent by weight chelating agents, the identification of the chelating agent, the volume and weight of the LLRW and the weight percentage of the chelating agent.

(K)For LLRW that was treated, either by the generator or its agent or independent contractor, in preparation for transfer to a licensed LLRW disposal facility described in paragraph (8) of subdivision (a) for the purpose of reducing its volume or activity by any method including reduction by storage for decay, or for the purpose of changing its physical or chemical characteristics in a manner other than by solidification or sorption of liquids, the file shall include a description of the treatment process.

(L)The volume, volume by class, and activity by radionuclide and class of that LLRW, if any, that the generator is holding at the end of the annual reporting period because the generator knows or has reason to believe that LLRW will not be accepted for disposal at any of the licensed LLRW disposal facilities. The file shall include a description of this LLRW.

(d)The department shall maintain a file on each generatorsLLRW stored, including specific radionuclides, total volume, volume by class, total activity, and activity by radionuclide and class of LLRW stored for decay and stored for later transfer, including the periods of time for both types of storage.

(e)(1)The department shall prepare an annual report, including a set of tables summarizing data collected from the activities and maintenance of files specified in subdivisions (c) and (d) to the department. These annual data tables shall contain information that summarizes and categorizes, by category, and if applicable, subcategory, of generator and location by county and identity of generator, the nature, characteristics and the total volume, volume by class, total activity and activity by radionuclide and class of LLRW generated, disposed of, treated, transferred, stored for later transfer, and stored for decay during each calendar year.

(2)The department shall note, in the set of tables prepared pursuant to paragraph (1), any generator for which data are lacking.

(f)The department shall make the information described in subdivisions (c) and (d) available to the public in a format that aggregates the information by county. The department shall not make public the identity and location of any site where LLRW is stored or used. The department may combine information from multiple counties if necessary to protect public security. Notwithstanding any other provision of law, the department shall not make the report prepared pursuant to subdivision (e) available to the public, and the report is not subject to the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(g)The department may make the information described in subdivisions (c) and (d) available upon request to any Member of the Legislature. No Member of the Legislature may disclose the identity or location of any site where LLRW is stored or used to any member of the general public.

(h)To meet the requirements of this section, each generator shall submit to the department the information

included in Forms 540, 541, and 542, and any successor forms, of the Nuclear Regulatory Commission, for each LLRW shipment. In addition, for purposes of subparagraph (L) of paragraph (4) of subdivision (c) and subdivision (d), each generator shall annually complete and submit to the department the information included on Forms 540, 541, and 542, and any successor forms, of the Nuclear Regulatory Commission that describe the LLRW stored and shipped by the generator.

(Amended by Stats. 2021, Ch. 615, Sec. 279. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

115005.

In addition to the requirements imposed by Section 115000, the department shall develop an overall plan, in consultation with other state, regional, and federal agencies, for the management, treatment, and disposal of low-level radioactive waste generated within California. The plan shall contain, at a minimum, all of the following elements:

(a)Specific contingency plans to address the needs of the state for the short-term storage of low-level radioactive waste in the event of a precipitous closure of existing out-of-state commercial waste disposal facilities and to evaluate feasible alternatives for meeting the statesneeds. This element of the plan shall include, but is not limited to, all of the following factors:

(1)The amount and kinds of low-level radioactive waste generated by California licensees and current disposal locations.

(2)The size and nature of an interim storage facility required to meet Californiasinterim low-level radioactive waste disposal needs.

(3)The cost of developing and operating an interim storage site by the department or contracting organizations.

(4)Criteria for the siting of an interim storage site, including, but not limited to, all of the following:

(A)Proximity to population.

(B)Geologic stability.

(C)Proximity to ground or surface water.

(D)Availability of transportation.

(E)General public health and economic considerations.

This element of the plan shall be completed and submitted to the appropriate committees of each house of the Legislature on or before December 31, 1982.

(b)A classification scheme for the separation of low-level waste that will facilitate the management, treatment, storage, and ultimate disposal of the waste. This classification scheme shall consider the matters as possible de minimis radiation levels for specific radionuclides, the quantity and specific activity of the material, its persistence, toxicity, chemical form, reactivity, and the principal radionuclides present. The

classification scheme shall also include the specifications necessary to determine which classes of waste may or may not be accepted for storage in an interim storage facility established pursuant to Section 115045, that may or may not be held by the licensee for decay to specified residual radioactivity levels and that require long-term isolation from the environment, as the case may be, for the protection of the public health and safety. The department may require as a condition of licensure the submission of information necessary to determine the total amount of waste produced in each class of the classification scheme. The department may, by regulation, adopt the classification scheme establishing which wastes may or may not be accepted at an interim storage facility or at a treatment or disposal facility.

This element of the plan shall be completed and submitted to the appropriate committees of each house of the Legislature on or before December 31, 1982.

(c)Siting criteria for potential land burial disposal sites and treatment facilities within the state. In establishing these criteria, the department shall consider the following factors, including, but not limited to:

(1)The present and projected future uses of land, water, and natural resources.

(2)The proximity of the site to major population centers.

(3)The presence of active earthquake faults.

(4)Geologic and other natural barriers that protect against surface or groundwater contamination.

(5)The effectiveness of engineered barriers, waste treatment, and waste packaging in ensuring isolation of the waste from the environment.

(6)Transportation of radioactive materials as it relates to public health and safety.

(7)The relative economic impact of location and operation of treatment or disposal facilities.

This element of the plan shall be completed and submitted to the appropriate committees of each house of the Legislature on or before December 31, 1982.

(d)A plan of action to minimize the environmental, occupational, and public health impact of low-level radioactive waste and to protect the public health and safety by encouraging a reduction in the amount and toxicity of waste produced. This activity shall include conducting or having studies conducted that evaluate the technical and economic feasibility of (1) reducing the volume, reactivity, and chemical and radioactive hazard of the waste, (2) cleaning contaminated, nonactivated metals and other materials to permit their recycle and reuse, and (3) substituting nonradioactive or short-lived radioactive materials for those radionuclides that require long-term isolation from the environment. The results of these studies, along with the departmental recommendations for their implementation, shall be reported by the department to the appropriate committees of the Legislature on or before December 31, 1983.

(e)Within six months after September 28, 1983, the Governor shall direct the appropriate state agency or agencies, as determined by the Governor, to conduct and complete a study that identifies those regions of the state within which it is likely the criteria developed pursuant to subdivision (c) could be met. The state agency or agencies, so directed, may also request, when appropriate, the assistance of state or federal agencies or private organizations.

(Amended by Stats. 2004, Ch. 183, Sec. 228. Effective January 1, 2005.)

115010.

(a) The department shall not grant any license to receive radioactive material from other persons for disposal on land unless all of the following requirements are satisfied:

(1) The land on which the radioactive wastes are to be buried is owned by the federal or state government.

(2) The department determines that the site is consistent with the public health and safety.

(3) The applicant for the license will comply with the emergency regulations adopted by the department pursuant to subdivision (b).

(b) Not later than six months after September 28, 1983, the department shall adopt emergency regulations for the licensing of those persons engaged in the disposal of low-level radioactive waste and for implementing this section and Sections 115015, 115020, and 115030.

The emergency regulations shall be consistent with the federal regulations found in Sections 301 through 311, inclusive, of Part 20 of Title 10 and in Part 61 of Title 10 of the Code of Federal Regulations (Federal Register, Vol. 47, No. 28, page 57446, December 27, 1982) and shall be adopted solely for the purposes of clarifying and rendering specific, for application in California, these federal regulations and implementing this section and Sections 115015, 115020, and 115030.

(c) The emergency regulations specified in subdivision (b) shall be adopted by the department in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, and for the purposes of that chapter, including Section 11349.6 of the Government Code, the adoption of these regulations is an emergency and shall be considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health and safety, and general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, any emergency regulations adopted by the department pursuant to this subdivision shall not be repealed by the Office of Administrative Law and shall remain in effect until revised or repealed by the department.

(d) The department may, by emergency regulation adopted in accordance with subdivision (c), establish and collect a fee for the issuance or renewal of a license specified in subdivision (a).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115010.5.

The department shall, by regulation, establish and collect a fee for the issuance or renewal of a license to dispose of low-level radioactive waste pursuant to this chapter. The fees collected shall be sufficient to cover the statescost in reviewing the application, issuing or renewing the license, and inspecting and conducting oversight of the licensee.

(Added by Stats. 2002, Ch. 513, Sec. 3. Effective January 1, 2003.)

115015.

The department may limit the number of licenses issued pursuant to Sections 114990, 115010, and 115020 authorizing the receipt of radioactive material from other persons for disposal on land.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115020.

(a) All applicants filing a statement of capabilities and notice of intention to file an application for a license to receive radioactive materials from other persons for disposal on land shall file the statement and notice within three months after the department adopts the emergency regulations specified in subdivision (b) of Section 115010. Within 45 days after the termination of that three-month filing period, the department shall evaluate the statements of capabilities and notices of intent. The director shall determine, within that 45-day period, whether the department has received one or more statements and notices that are likely to result in the filing of an application for a license satisfying the requirements of Section 115010.

(b) If the director determines, within the 45-day period specified in subdivision (a), that the department has received one or more statements of capabilities and notices of intent which are likely to result in the filing of an application for a license, the department shall, within the 45-day period, select one of the applicants who filed the statement of capabilities and notice of intent to file a license application as a license designee.

(c) The department shall adopt emergency regulations establishing procedures for the review and evaluation of the statements of capabilities and notices of intent, as specified in subdivision (a), and for the selection of a license designee, as specified in subdivision (b). These emergency regulations shall be adopted by the department in accordance with subdivision (c) of Section 115010 and shall include procedures for soliciting, evaluating, ranking, and designating license designees and for selecting alternative license designees based upon the ranking.

(d) The department may solicit additional statements of capabilities and notices of intent if a license designee withdraws or becomes ineligible for licensing, or if a license is issued and is then suspended, revoked, or terminated.

(e) The department may, by emergency regulations adopted in accordance with subdivision (c) of Section 115010, establish and collect a fee for filing a statement of capabilities and notice of intent.

(f) The department may require that a person selected as a license designee pursuant to this section post a bond of up to one million dollars ($1,000,000) to guarantee that the person will carry out the activities connected with completing the license application and obtaining the license. The department shall, by emergency regulation adopted in accordance with subdivision (c) of Section 115010, establish standards for the forfeiture of the bond.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115025.

(a) If, within 45 days after the termination of the three-month filing period specified in subdivision (a) of

Section 115020, the director determines that the department has not received a statement of capabilities and a notice of intent to file an application for a license to receive radioactive materials from other persons for disposal on land that is likely to result in the filing of an application that satisfies the requirements of Section 115010, the director shall notify the Secretary of the Resources Agency.

(b) Within one year after receiving the notification specified in subdivision (a), the Secretary of the Resources Agency shall file with the department an application for a license to receive radioactive materials from other persons for disposal on land at a site within a region identified pursuant to subdivision (e) of Section 115005 and that is owned, operated, or both, by the state.

(c) (1) Upon the request of the Resources Agency, the Director of Finance may provide a loan from the General Fund to the Resources Agency for the purposes of implementing this section. The Resources Agency shall repay any loans made pursuant to this section pursuant to the terms and conditions prescribed by the Department of Finance, including interest at the rate set by the Pooled Money Investment Board pursuant to Section 16314 of the Government Code.

(2) The Director of Finance shall not provide more than two million dollars ($2,000,000) pursuant to this subdivision during the 1983"84 fiscal year. The amount for loans in the 1984"85 fiscal year, and subsequent fiscal years, shall be specified annually in the Budget Act and the total of all loans made pursuant to this subdivision shall not exceed fifteen million dollars ($15,000,000).

(d) If a radioactive materials disposal site that is owned, operated, or both, by the state is established pursuant to this section, the Secretary of the Resources Agency shall establish a schedule of fees to be charged each person who disposes of radioactive materials at the site. The schedule of fees shall be set at an amount sufficient to reimburse the state for any costs incurred in developing, constructing, and operating the site.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115030.

The department may require that all schedules of fees charged for the disposal of radioactive material by a person owning or operating a site licensed pursuant to Section 115010 are to be submitted to the department prior to their implementation. The department may determine, following a public hearing and based upon written findings, if the fees to be charged are reasonable and may require the owner or operator to modify the fee schedule if so determined by the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115035.

In addition to the fees authorized to be levied pursuant to Section 115065, the department may, by regulation, set fees to be paid for the disposal in the state of low-level radioactive waste, set in an amount sufficient to pay the costs of the regulatory activities specified in paragraphs (2) and (3) of subdivision (E) of Article 4 of the Southwestern Low-Level Radioactive Waste Disposal Compact, as specified in Section 115255.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115040.

(a)The license designee shall file periodic financial reports with the department as directed by the department. These reports shall provide detailed information on past and projected expenditures for development and operation of the low-level radioactive waste disposal site according to programmatic function, including, but not limited to, all of the following:

(1)Program management.

(2)Candidate sites selection.

(3)Site characterization.

(4)Environmental.

(5)Public and agency involvement.

(6)Licensing and permitting.

(7)Site development.

(8)Land acquisition.

(9)Financing.

(10)Operations.

(b)The license designee shall file reports with the department, as directed by the department, that identify, quantify, and explain major causes of actual and projected cost overruns and cost underruns with regard to the cost projections provided in the statement of capabilities and notice of intent.

(c)The Legislature finds and declares that the purpose of this section is to identify minimum financial reporting requirements for the costs of developing and operating the stateslow-level radioactive waste disposal facility. This section does not limit the authority of the department to require the license designee to furnish any additional information that the department determines to be necessary to fulfill its duties under this chapter, including Section 115030.

(Amended by Stats. 2006, Ch. 538, Sec. 432. Effective January 1, 2007.)

115045.

(a) The department is authorized, pursuant to subdivision (d), to establish and operate, or contract for the establishment and contract for operation, of one or more low-level radioactive waste interim storage facilities for the exclusive use of persons located in California who are licensed by the department or the United States Nuclear Regulatory Commission.

(b) In addition to the fees authorized to be levied pursuant to Section 115065, the department is authorized to set and collect fees, by regulation, to be paid by generators in California of low-level radioactive waste in an amount sufficient to support the development and operation of the facilities including the surveillance and repair of damaged packages, maintenance of the facilities, decontamination, decommissioning, and postclosure maintenance of these facilities, recordkeeping systems, and other activities as the department finds necessary to ensure the safe operation of such a facility. In no event shall any fee be set in an amount that exceeds the amount reasonably necessary to implement this section. The department is also authorized to require the operators or the users of the facilities to post bonds or possess adequate insurance as may be reasonably necessary to protect the state against such liabilities as storage and ultimate disposal costs for abandoned waste and against claims arising out of accidents or failures of the storage facility.

(c) All users of any facility operated pursuant to this section must all meet state and federal orders, requirements, or regulations for handling and management of low-level radioactive waste including those prescribed pursuant to subdivision (b) of Section 115005.

(d) No low-level radioactive waste interim storage facility may be established pursuant to subdivision (a) until all of the following occurs:

(1) The department has fulfilled the requirements of subdivisions (a) and (b) of Section 115005 and has submitted its findings to the Legislature.

(2) The establishment of the interim storage facility is consistent with the elements of the low-level radioactive waste disposal plan specified in subdivisions (a) and (b) of Section 115005.

(3) The department files a notice with the Legislature, while in session, 60 days before establishing the facility.

(e) In addition to any other grounds authorizing the department, or any person with whom it contracts, to cease the operation of a low-level radioactive waste interim storage facility, any such facility shall cease accepting low-level radioactive waste for interim storage (1) no later than five years after the date it commences operating or (2) if the director determines that an alternate disposal site is available to California licensees in the western region of the United States, whichever event occurs first.

(f) Within seven years of commencing operation of any interim storage facility all wastes stored at the facility shall be transferred to a permanent land burial disposal site or permanently disposed of by some other treatment or means of disposal and the facility shall be closed and thereafter, to the extent necessary, as determined by the department, decontaminated and decommissioned.

(g) This section shall remain in effect for a period of eight years from the date of the establishment of a low-level radioactive waste interim storage facility pursuant to this section, and as of that date is repealed. The director shall report the date the facility is established to the appropriate committees of each house of the Legislature and the Legislative Counsel Bureau.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Repealed as of date prescribed by its own provisions.)

115050.

The Governor shall negotiate and enter into interstate agreements, interstate compacts, or agreements with compacts, for the purpose of establishing access to, or maintaining access to, land disposal facilities for low-

level radioactive waste generated in California. The terms of the agreement or compact may include, but are not limited to, a provision that the other parties to the agreement or compact will have reciprocal access to California permanent disposal facilities, when operational.

The Governor shall report to the Legislature on the status of these negotiations within four months after September 28, 1983, and every four months thereafter, until an agreement or compact is entered into or the negotiations are terminated.

Any agreement or compact that proposes membership for California in a compact made pursuant to the Low-Level Radioactive Waste Policy Act (42 U.S.C. Secs. 2021b to 2021d, inclusive) or any interstate agreement or agreement with a compact that includes a provision that the other parties to the agreement will have reciprocal access to California permanent disposal facilities, when operational, shall be submitted to the Legislature for ratification by statute.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115055.

The director shall appoint, in consultation with the Chairperson of the Senate Committee on Rules and the Speaker of the Assembly, an advisory committee to advise the department regarding methods for minimizing the environmental impact of low-level wastes, criteria for siting low-level waste treatment and burial facilities, alternatives to land burial of low-level waste, and waste classification schemes.

The committee shall include representatives from the field of medicine, and from research, industrial, environmental, and public health organizations, who have demonstrated expertise and experience with radioactive materials, waste management, the health effects of exposure to low-level waste, or the environmental impact associated with the storage of low-level waste. The director shall appoint to the advisory committee the director of environmental health of the county where a low-level waste disposal facility is sited.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Licensing and Regulation of Sources of Ionizing Radiation [115060 - 115093]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

115060.

(a) The department shall provide by rule or regulation for general or specific licensing of persons to receive, possess, or transfer radioactive materials, or devices or equipment utilizing these materials. That rule or regulation shall provide for amendment, suspension, or revocation of licenses.

(b) The department may require registration and inspection of sources of ionizing radiation other than those that require a specific license, and compliance with specific safety standards to be adopted by the department.

(c) The department may exempt certain sources of ionizing radiation or kinds of uses or users from the licensing or registration requirements set forth in this section when the department makes a finding that the exemption of these sources of ionizing radiation or kinds of uses or users will not constitute a significant risk to the health and safety of the public.

(d) Regulations adopted pursuant to this chapter may provide for recognition of other state or federal licenses as the department may deem desirable, subject to registration requirements as the department may prescribe.

(e) The department shall adopt registration and certification regulations for mammography equipment. These regulations shall include, but not be limited to, all of the following requirements:

(1) An X-ray machine used for mammography shall be specifically designed for mammography and inspected by the department, or deemed satisfactory by the department based upon evidence of certification by the American College of Radiology mammography accreditation program, or an accreditation program that the department deems equivalent before it is certified.

(2) That all persons who have a certificate for mammography equipment follow a quality assurance program to be adopted by the department to ensure the protection of the public health and safety.

(3) That quality assurance tests, as determined by the department, are performed on all mammography

equipment located in a mobile van or unit after each relocation of the mobile van or unit to a different location for the purpose of providing mammography. This equipment shall be recalibrated if images are not of diagnostic quality as determined by the department. A written record of the location of mobile vans or units with dates and times shall be maintained and available for inspection by the department.

(4) On or after July 15, 1993, all mammography equipment shall be registered with and certified by the department. If this mammography equipment is certified by a private accreditation organization, the department shall take into consideration evidence of this private certification when deciding to issue a mammogram certification.

(5) All licenses, permits, and certificates issued by the department pursuant to this chapter and the Radiologic Technology Act (Section 27) relating to the use of mammography equipment shall be publicly posted pursuant to this section and regulations adopted by the department.

(f) To further ensure the quality of mammograms, the department shall require all mammogram facilities, other than mobile units or vans, to operate quickly and efficiently so as to ensure that the facilities are able to develop mammograms of diagnostic quality prior to when the patient leaves the facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115060.5.

(a)Except as provided in subdivisions (b) and (c), the department shall exempt a bomb squad of a city, city and county, county, special district, or the State of California, including the University of California, from the requirements of Section 30336.1 of Title 17 of the California Code of Regulations if all of the following requirements are met:

(1)All operators of ionizing sources of radiation are explosive ordnance disposal technicians certified as bomb technicians by the United States Federal Bureau of Investigation or a successor federal agency responsible for training and certifying bomb technicians. Nothing in this paragraph shall be construed to authorize the use, possession, or transfer of radioactive material.

(2)(A)A radiation safety officer, who is certified as a bomb technician by the United States Federal Bureau of Investigation or a successor federal agency responsible for training and certifying bomb technicians, is designated by the employing jurisdiction.

(B)Except as provided in subparagraph (C), the radiation safety officer is exempt from the requirements of Section 30336.7 of Title 17 of the California Code of Regulations.

(C)The radiation safety officer shall comply with subdivision (b) of Section 30336.7 of Title 17 of the California Code of Regulations.

(3)The bomb squad has written operating procedures that apply to the kinds of radiation machines used by the bomb squad and are followed by applicable personnel.

(4)Radiation machines maintained and operated by the bomb squad meet the requirements specified in the American National Standard N537-1976 Radiological Safety Standards for the Design of Radiographic and Fluoroscopic Industrial X-Ray Equipment published as NBS Handbook 123, issued August 1977, or subsequent standards that the department determines to be applicable.

(5)The jurisdiction provides annual refresher training to all operators at intervals not to exceed 12 months. The training shall address or provide, at a minimum, the results of departmentsinspections, information on new procedures or equipment, accidents or errors that have been observed and steps to prevent recurrence, and an opportunity for individuals to ask radiation safety related questions.

(b)The radiation surveys and radiation survey instruments referenced in subdivisions (f), (g), and (i) of Section 30336.1 of Title 17 of the California Code of Regulations shall not be required when the United States Federal Bureau of Investigation standard operating procedure of clearing an evacuation distance of at least 300 feet in all directions from the X-ray source is used.

(c)Boundaries need not be posted or protected as high radiation areas as required in subdivisions (h), (j), and (l) of Section 30336.1 of Title 17 of the California Code of Regulations when other law enforcement officers are maintaining the United States Federal Bureau of Investigation standard evacuation boundary.

(d)The department shall evaluate compliance with this section during its inspection of the bomb squad.

(e)The department may revoke or rescind the exemption provided pursuant to this section if a jurisdiction fails to comply with this section.

(Added by Stats. 2017, Ch. 128, Sec. 1. (AB 911) Effective January 1, 2018.)

115061.

(a)In order to better protect the public and radiation workers from unnecessary exposure to radiation and to reduce the occurrence of misdiagnosis, the Radiologic Health Branch within the State Department of Health Services shall adopt regulations that require personnel and facilities using radiation-producing equipment for medical and dental purposes to maintain and implement medical and dental quality assurance standards that protect the public health and safety by reducing unnecessary exposure to ionizing radiation while ensuring that images are of diagnostic quality. The standards shall require quality assurance tests to be performed on all radiation-producing equipment used for medical and dental purposes.

(b)The Radiologic Health Branch shall adopt the regulations described in subdivision (a) and provide the regulations to the health committees of the Assembly and the Senate on or before January 1, 2008.

(c)For purposes of this section, medical and dental quality assurance means the detection of a change in X-ray and ancillary equipment that adversely affects the quality of films or images and the radiation dose to the patients, and the correction of this change.

(Amended by Stats. 2006, Ch. 538, Sec. 433. Effective January 1, 2007.)

115065.

(a)Notwithstanding Section 6103 of the Government Code, the department shall provide by regulation a schedule of the fees that shall be paid by the following persons:

(1)Persons possessing radioactive materials under licenses issued by the department or under other state or

federal licenses for the use of these radioactive materials, when these persons use these radioactive materials in the state in accordance with the regulations adopted pursuant to subdivision (d) of Section 115060.

(2)Persons generally licensed for the use of devices and equipment utilizing radioactive materials that are designed and manufactured for the purpose of detecting, measuring, gauging, or controlling thickness, density, level, interface location, radiation, leakage, or qualitative or quantitative chemical composition, or for producing light or an ionized atmosphere, if the devices are manufactured pursuant to a specific license authorizing distribution to general licensees.

(b)The revenues derived from the fees shall be used, together with other funds made available therefor, for the purpose of the issuance of licenses or the inspection and regulation of the licensees.

(c)The department may adopt emergency regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code to establish and adjust fees for radioactive materials licenses in an amount to produce estimated revenues equal to at least 95 percent of the departmentscosts in carrying out these licensing requirements, if the new fees were to remain in effect throughout the fiscal year for which the fee is established or adjusted.

(d)A local agency participating in a negotiated agreement pursuant to Section 114990 shall be fully reimbursed for direct and indirect costs based upon activities governed by Section 115070. With respect to these agreements, any salaries, benefits, and other indirect costs shall not exceed comparable costs of the department.

(e)The fees for licenses for radioactive materials and of devices and equipment utilizing those materials shall be adjusted annually pursuant to Section 100425.

(f)The department shall establish fees for followup inspections related to the failure to correct violations of this chapter or regulations adopted pursuant to this chapter. The fees established by the department may be charged for each inspection visit.

(Amended by Stats. 2006, Ch. 74, Sec. 36. Effective July 12, 2006.)

115070.

The frequency of inspections of radioactive materials shall be based on priorities established by the United States Nuclear Regulatory Commission.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115075.

In addition to the annual adjustment of the fees authorized by this chapter pursuant to Section 100425, on or before January 1, 1991, the director may adopt emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, to establish and adjust these fees, and for purposes of that chapter, including Section 11349.6 of the Government Code, an adoption of these regulations is an emergency and shall be considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health and safety, and general welfare.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115080.

(a)Notwithstanding Section 6103 of the Government Code, the department shall provide by regulation a ranking of priority for inspection, as determined by the degree of potentially damaging exposure of persons by ionizing radiation and the requirements of Section 115085, and a schedule of fees, based upon that priority ranking, that shall be paid by persons possessing sources of ionizing radiation that are subject to registration in accordance with subdivisions (b) and (e) of Section 115060, and regulations adopted pursuant thereto. The revenues derived from the fees shall be used, together with other funds made available therefor, for the purpose of carrying out any inspections of the sources of ionizing radiation required by this chapter or regulations adopted pursuant thereto. The fees shall, together with any other funds made available to the department, be sufficient to cover the costs of administering this chapter, and shall be set in amounts intended to cover the costs of administering this chapter for each priority source of ionizing radiation. Revenues generated by the fees shall not offset any general funds appropriated for the support of the radiologic programs authorized pursuant to this chapter, and the Radiologic Technology Act (Section 27), and Chapter 7.6 (commencing with Section 114960). Persons who pay fees shall not be required to pay, directly or indirectly, for the share of the costs of administering this chapter of those persons for whom fees are waived. The department shall take into consideration any contract payment from the Health Care Financing Administration for performance of inspections for Medicare certification and shall reduce this fee accordingly.

(b)A local agency participating in a negotiated agreement pursuant to Section 114990 shall be fully reimbursed for direct and indirect costs based upon activities governed by Section 115085. With respect to these agreements, any salaries, benefits, and other indirect costs shall not exceed comparable costs of the department. Any changes in the frequency of inspections or the level of reimbursement to local agencies made by this section or Section 115085 during the 1985“86 Regular Session shall not affect ongoing contracts.

(c)The fees paid by persons possessing sources of ionizing radiation shall be adjusted annually pursuant to Section 100425.

(d)The department shall establish two different registration fees for mammography equipment pursuant to this section based upon whether the equipment is accredited by an independent accrediting agency recognized under the federal Mammography Quality Standards Act (42 U.S.C. Sec. 263b).

(e)The department shall establish fees for followup inspections related to the failure to correct violations of this chapter or regulations adopted pursuant to this chapter. The fees established by the department may be charged for each inspection visit.

(Amended by Stats. 2006, Ch. 74, Sec. 37. Effective July 12, 2006.)

115085.

The average inspection frequency for ionizing radiation machines shall be once each year for mammography X-ray units, once every three years for high-priority sources of ionizing radiation, and once every four and

one-quarter years for medium-priority sources. Sources of ionizing radiation used in dentistry shall be screened for defects by mail or other offsite methodology not less frequently than once every five years, with physical inspection of the 50 percent, determined by the department to be most in need of inspection, to average at least once every six years.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115090.

In making the determination of whether to grant, deny, amend, revoke, suspend, or restrict a certification, registration, or license, the department may consider those aspects of a personsbackground that, in its judgment, bear materially on that personsability to fulfill her or his obligations, including but not limited to technical competency and her or his current or prior record in areas involving ionizing radiation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115091.

The department shall require a licensee or an applicant for a license pursuant to Section 115060 to receive, possess, or transfer radioactive materials, or devices or equipment utilizing radioactive materials, to provide a financial surety to ensure performance of its obligations under this chapter. The department shall establish, by regulation, the amount and type of financial surety that is required to be provided in order to provide for maximum protection of the public health and safety and the environment. The financial surety shall be in the form of surety bonds, deposits of government securities, escrow accounts, lines of credit, trust funds, credit insurance, or any other equivalent financial surety arrangement acceptable to the department. The department shall adopt the regulations in accordance with, but not limited to, the following criteria:

(a) Consideration of the need for, and scope of, any decontamination, decommissioning, reclamation, or disposal activities required to protect the public health and safety and the environment.

(b) Estimates of the costs of the required decontamination, decommissioning, reclamation, or disposal.

(c) The costs of long-term maintenance and surveillance, if required.

(d) Consideration of the appropriateness of specific requirements imposed in the financial assurance regulations adopted by the Nuclear Regulatory Commission, including, but not limited to, the minimum levels of financial assurance required to be provided by different categories of facilities, and the categories of facilities which are exempted from the requirement to provide a financial surety.

(Added by Stats. 1996, Ch. 1023, Sec. 337. Effective September 29, 1996.)

115092.

(a) The department shall deposit all money received from a financial surety provided pursuant to Section 115091 in the Financial Surety Account, which is hereby created in the Radiation Control Fund.

(b) Notwithstanding Section 13340 of the Government Code, the money in the Financial Surety Account is hereby continuously appropriated to the department for expenditure only for the decontamination, decommissioning, reclamation, and disposal of radioactive materials, and for long-term maintenance and surveillance for the protection of the public health and safety and the environment, in accordance with subdivision (e), with regard to the facility or operations of the licensee who provided the financial surety.

(c) The department may not expend the money in the Financial Surety Account for normal operating expenses of the department.

(d) The department shall, by regulation, establish a procedure whereby a licensee may be refunded the amount of the financial surety provided by the licensee in excess of any amounts expended by the department and any amounts that are required to be retained to cover the costs of long-term maintenance and surveillance pursuant to subdivision (b), with regard to that licenseesfacility or operations. The regulations shall specify that the refund may be received only after the department has determined that the licensee has fully satisfied all of its obligations under its license, and all other obligations which the regulations require to be satisfied before the licensee may receive a refund.

(e) If the department finds that a radioactive materials licensee is unable to, or is unwilling to, conduct any decontamination, decommissioning, reclamation, disposal, or long-term maintenance and surveillance that may be necessary, the department shall issue an order directing any action and corrective measures it finds necessary to protect the public health and safety and the environment. The department may undertake, or contract for the undertaking of, any actions or corrective measures which the licensee fails to satisfactorily complete, and may expend the amount of the financial surety provided by the licensee to pay the costs of those actions and corrective measures.

(Added by Stats. 1996, Ch. 1023, Sec. 338. Effective September 29, 1996.)

115093.

(a) The department shall require, as a condition of issuing a license to receive, possess, or transfer radioactive materials, or devices or equipment utilizing radioactive materials, that the licensee take corrective action with regard to all contamination that results from the handling, use, storage, or transportation of radioactive materials at the licenseesfacility regardless of when the contamination commenced at the facility.

(b) Any corrective action required pursuant to this section shall require that corrective action be taken beyond the facility boundary if necessary to protect human health and safety or the environment, unless the licensee demonstrates to the satisfaction of the department that, despite the licenseesbest efforts, the licensee is unable to obtain the necessary permission to undertake the corrective action.

(c) When corrective action cannot be completed prior to issuance of the license, the license shall contain schedules of compliance for corrective action and assurances of financial responsibility for completing the corrective action.

(Added by Stats. 1996, Ch. 1023, Sec. 339. Effective September 29, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. Inspection [115095 - 115102]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

115095.

Any officer, employee, or agent of the department or of any state or local agency with which an agreement has been made pursuant to Section 114990 shall have the power to enter at all reasonable times upon any private or public property within the jurisdiction of the agency for the purpose of determining whether or not there is compliance with or violation of this chapter, building standards published in the State Building Standards Code relating to buildings in which there are sources of ionizing radiation, or of the regulations adopted pursuant to this chapter, and the owner, occupant, or person in charge of the property shall permit that entry and inspection. Entry into areas under the jurisdiction of the federal government shall be effected only with the concurrence of the federal government or its duly designated representative.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115100.

(a) The person responsible for registering mammographic X-ray equipment shall be responsible for assuring that the mammographic X-ray equipment under his or her jurisdiction has been inspected and that mammography quality assurance tests are performed by a medical physicist, health physicist, or other individual with qualifications similar to those approved by the department and prescribed in the May 1990 version of the Rules of Good Practice for Supervision and Operation of Mammographic X-Ray Equipment, as approved by the Radiologic Technology Certification Committee.

(b) If the department adopts regulations on or after January 1, 1993, that provide similar or stronger protection of a patientshealth and safety than the Rules of Good Practice for Supervision and Operation of Mammographic X-Ray Equipment, as determined by the department, then those rules shall no longer apply to this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115102.

(a)A facility that operates a mammogram machine shall post notices of serious violations in an area that is visible to patients. For purposes of this section, serious violation means a Level 1 deviation, identified by an inspector, from federal Mammography Quality Standards Act of 1992 (42 U.S.C. Sec. 263b) standards, in effect as of December 31, 2009, that may seriously compromise the quality of mammography services that are offered by the facility.

(b)The facility shall post the notice pursuant to this section within two working days after receipt of the documents from the department. These documents shall remain posted for a minimum of five working days or until action correcting the violation has been completed, whichever is later.

(Added by Stats. 2009, Ch. 169, Sec. 1. (SB 148) Effective January 1, 2010.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 6. Records [115105 - 115115]__

(Article 6 added by Stats. 1995, Ch. 415, Sec. 6.)

115105.

The department shall require each person who acquires, possesses or uses a source of ionizing radiation to maintain records relating to its receipt, storage, transfer or disposal, and other records as the department may require, subject to exemptions as may be provided by regulations.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115110.

The department shall require each person who possesses or uses a source of ionizing radiation to maintain appropriate records showing the radiation exposure of all individuals for whom personnel monitoring is required by regulations of the department. Copies of these records and those required to be kept in accordance with Section 115105 shall be submitted to the department upon request.

The department shall adopt reasonable regulations, compatible with those of the United States Atomic Energy Commission, pertaining to reports of exposure of personnel. The regulations shall require that reports of excessive exposure be made to the individual exposed and to the department, and shall make provision for periodic and terminal reports to individuals for whom personnel monitoring is required. Section 6411 of the Labor Code shall not be construed as exempting any person from making any report required by this section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115111.

(a)Commencing July 1, 2012, subject to subdivision (e), a person that uses a computed tomography (CT) X-ray system for human use shall record the dose of radiation on every diagnostic CT study produced during a CT examination in the patientsrecord, as defined in Section 123105. CT studies used for therapeutic radiation treatment planning or delivery or for calculating attenuation coefficients for nuclear medication studies shall not be required to record the dose.

(b)The facility conducting the study may send electronically each CT study and protocol page that lists the technical factors and dose of radiation to the electronic picture archiving and communications system.

(c)(1)Until July 1, 2013, the displayed dose shall be verified annually by a medical physicist for the facilitysstandard adult brain, adult abdomen, and pediatric brain protocols, to ensure the displayed doses are within 20 percent of the true measured dose measured in accordance with subdivision (f).

(2)A facility that has a CT X-ray system that is accredited by an organization that is approved by the federal Centers for Medicare and Medicaid Services, an accrediting agency approved by the Medical Board of California, or the State Department of Public Health may elect not to perform the verification described in paragraph (1).

(d)Subject to subdivision (e), the interpretive report of a diagnostic CT study shall include the dose of radiation by either recording the dose within the patientsreport or attaching the protocol page that includes the dose of radiation to the report.

(e)The requirements of this section shall be limited to CT systems capable of calculating and displaying the dose.

(f)For the purposes of this section, dose of radiation shall be defined as one of the following:

(1)The computed tomography index volume (CTDI vol) and dose length product (DLP), as defined by the International Electrotechnical Commission (IEC) and recognized by the federal Food and Drug Administration (FDA).

(2)The dose unit as recommended by the American Association of Physicists in Medicine.

(g)For purposes of this section, CT X-ray system means the same as provided in Section 892.1750 of Title 21 of the Code of Federal Regulations.

(Amended by Stats. 2012, Ch. 106, Sec. 1. (AB 510) Effective July 13, 2012.)

115112.

(a)Except as provided in subdivision (b), commencing July 1, 2013, CT X-ray systems shall be accredited by an accrediting organization that is approved by the federal Centers for Medicare and Medicaid Services, an accrediting organization approved by the Medical Board of California, or the State Department of Public Health. A facility that is subject to accreditation may elect to have the CT X-ray system accredited pursuant to a single accreditation survey that includes the CT service by the accrediting organization.

(b)A CT X-ray system shall not be subject to accreditation if any of the following apply:

(1)The system is used for therapeutic radiation treatment planning or delivery.

(2)The system is used for calculating attenuation coefficients for nuclear medicine studies.

(3)The system is dedicated for image guidance for interventional radiologic procedures.

(Amended by Stats. 2012, Ch. 106, Sec. 2. (AB 510) Effective July 13, 2012.)

115113.

(a)Except for an event that results from patient movement or interference, a facility shall report to the department an event in which the administration of radiation results in any of the following:

(1)Repeating of a CT examination, unless otherwise ordered by a physician or a radiologist, if one of the following dose values is exceeded:

(A)0.05 Sv (5 rem) effective dose.

(B)0.5 Sv (50 rem) to an organ or tissue.

(C)0.5 Sv (50 rem) shallow dose to the skin.

(2)A CT X-ray examination for any individual for whom a physician did not provide approval for the examination if one of the following dose values is exceeded:

(A)0.05 Sv (5 rem) effective dose.

(B)0.5 Sv (50 rem) to an organ or tissue.

(C)0.5 Sv (50 rem) shallow dose to the skin.

(3)A CT X-ray for an examination that does not include the area of the body that was intended to be imaged by the ordering physician or radiologist if one of the following dose values is exceeded:

(A)0.05 Sv (5 rem) effective dose.

(B)0.5 Sv (50 rem) to an organ or tissue.

(C)0.5 Sv (50 rem) shallow dose to the skin.

(4)CT or therapeutic exposure that results in unanticipated permanent functional damage to an organ or a physiological system, hair loss, or erythema, as determined by a qualified physician.

(5)A CT or therapeutic dose to an embryo or fetus that is greater than 50 mSv (5 rem) dose, that is a result of radiation to a known pregnant individual unless the dose to the embryo or fetus was specifically approved, in advance, by a qualified physician.

(6)Therapeutic ionizing irradiation of the wrong individual or the wrong treatment site, excluding the area of the body that was intended to be irradiated.

(7)The total dose from therapeutic ionizing radiation delivered differs from the prescribed dose by 20 percent or more. A report shall not be required pursuant to this paragraph in any instance if the dose administered exceeds 20 percent of the amount prescribed in a situation if the radiation was utilized for palliative care for the specific patient. The radiation oncologist shall notify the referring physician that the dose was exceeded.

(b)The facility shall, no later than five business days after the discovery of a therapeutic event described in paragraphs (3) to (7), inclusive, of subdivision (a) and no later than 10 business days after discovery of an event described in paragraphs (1) to (4), inclusive, of subdivision (a), provide notification of the event to the department and the referring physician of the person subject to the event and shall, no later than 15 business days after discovery of an event described in subdivision (a), provide written notification to the person who is subject to the event.

(c)This section shall become inoperative on the effective date of the act that added this subdivision, and shall remain inoperative until July 1, 2012.

(Amended by Stats. 2012, Ch. 106, Sec. 3. (AB 510) Effective July 13, 2012. Note: Subd. (c) was added by Stats. 2011, Ch. 139, and made this section inoperative from August 1, 2011, until July 1, 2012.)

115115.

The person responsible for registering mammographic X-ray equipment or a certified supervisor, as defined in subdivision (i) of Section 114850, shall establish and maintain a Mammography Quality Assurance Program that includes:

(a) A Mammography Quality Assurance Manual for the identification of mammography quality assurance tests performed, test frequency, test equipment used, maintenance and calibration of test equipment, and the qualifications of individuals who perform the tests in order to ensure compliance with the May 1990 version of Rules of Good Practice for Supervision and Operation of Mammographic X-Ray Equipment or the regulations of the department.

(b) A Mammography X-Ray Equipment and Facility Accreditation Certificate issued by the department that shall be posted on each X-ray machine specifically dedicated for the purpose of mammography.

(Amended by Stats. 1997, Ch. 97, Sec. 5. Effective July 21, 1997.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 7. Federal-State Agreements [115120 - 115125]__

(Article 7 added by Stats. 1995, Ch. 415, Sec. 6.)

115120.

The Governor, on behalf of this state, may enter into agreements with the federal government providing for discontinuance of certain of the federal governmentsresponsibilities with respect to sources of ionizing radiation and the assumption thereof by this state. The agreements shall become effective only when ratified by law.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115125.

Any person who, on the effective date of an agreement under Section 115120, possesses a license issued by the federal government shall be deemed to possess the same pursuant to a license issued under this chapter. The license shall expire either 90 days after receipt from the department of a notice of expiration of the license, or on the date of expiration specified in the federal license, whichever is the earlier.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 8. Inspection Agreements and Training Programs [115130 - 115140]__

(Article 8 added by Stats. 1995, Ch. 415, Sec. 6.)

115130.

The department, on behalf of this state, may enter into an agreement or agreements with the federal government, other states, or interstate agencies, whereby this state will perform on a co-operative basis with the federal government, other states, or interstate agencies, inspections or other functions relating to control of sources of ionizing radiation.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115135.

The department and any other appropriate state agency may institute training programs for the purpose of qualifying personnel to carry out this chapter, and may make those personnel available for participation in any program or programs of the federal government, other states, or interstate agencies in furtherance of the purposes of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115140.

Ordinances, resolutions or regulations, now or hereafter in effect, of the governing body of a city or county relating to radioactive materials or other sources of radiation shall not be superseded by this chapter,

provided that the ordinances or regulations are and continue to be consistent with the provisions of this chapter, amendments thereto, and regulations thereunder. No city or county shall require the payment of a fee in connection with the activities governed by Section 115065 when a fee is required by rules or regulations adopted pursuant to that section, and no city or county shall require the payment of a fee in connection with the activities governed by Section 115080 when a fee is required by rules or regulations adopted pursuant to that section.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 10. Administrative Procedure [115145 - 115155]__

(Article 10 added by Stats. 1995, Ch. 415, Sec. 6.)

115145.

(a) In any proceeding under this chapter for granting or amending any license, or for determining compliance with, or granting exceptions from, regulations adopted in accordance with this chapter, the department shall afford an opportunity for a hearing on the record upon the request of any person whose

interest may be affected by the proceeding, and shall admit that person as a party to the proceeding.

(b) Proceedings for the suspension or revocation of licenses under this chapter shall be conducted pursuant to Section 100171.

(c) The adoption, repeal, or amendment of regulations pursuant to this chapter shall be accomplished in conformity with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(Amended by Stats. 1997, Ch. 220, Sec. 31. Effective August 4, 1997.)

115150.

Whenever the department finds that an emergency exists requiring immediate action to protect the public health and safety, the department may, without notice or hearing, issue a regulation or order reciting the existence of the emergency and requiring that action be taken as is deemed necessary to meet the emergency. Notwithstanding any provision of this chapter, the regulation or order shall be effective immediately. Any person to whom the regulation or order is directed shall comply therewith immediately, but on application to the department shall be afforded a hearing within 15 days. On the basis of the hearing, the emergency regulation or order shall be continued, modified, or revoked within 30 days after the hearing.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115155.

Any final order entered in any proceeding under Sections 115145 and 115150 shall be subject to judicial review in the manner prescribed in Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__ARTICLE 12. Uses [115165 - 115170]__

(Article 12 added by Stats. 1995, Ch. 415, Sec. 6.)

115165.

It shall be unlawful for any person to use, manufacture, produce, knowingly transport, transfer, receive, acquire, own, or possess, any source of ionizing radiation unless licensed by or registered with the department in accordance with this chapter and regulations issued thereunder.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115170.

It is unlawful for any person to manufacture, construct, produce, transfer, acquire, use, or possess any of the materials or facilities for which a permit or license is required under the provisions of the Atomic Energy Act of 1954 (Public Law 85-256) unless he or she shall have first obtained a permit or license. Violation of this section is a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 13. Impounding of Materials [115175 - 115210]__

(Article 13 added by Stats. 1995, Ch. 415, Sec. 6.)

115175.

The department shall have the authority in the event of an emergency to impound or order the impounding of sources of ionizing radiation in the possession of any person who is not equipped to observe or fails to observe this chapter or any rules or regulations issued thereunder.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115180.

The term decontamination, as used in this chapter, means the reduction of the level of contamination from radioactive material to the level that the department determines is reasonably necessary to eliminate the hazard to public health that is caused by the contamination of any object, building, structure, or premises. Any order by the department pursuant to Section 115185 shall prescribe the level to which the contamination is required to be reduced in order to eliminate the hazard to the public health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115185.

If the department determines that any object, building, structure, or premises is contaminated by radioactive material and constitutes a hazard to the public health, it shall order the person who has control of the object, building, structure, or premises to cease to use or occupy and to exercise due caution to prevent others from

using or occupying the object, building, structure, or premises, except to the extent necessary to accomplish the decontamination, or to the extent necessary to accomplish the disposal of the object, building, or structure as radioactive waste. The normal use or occupancy of the object, building, structure, or premises may not be resumed until decontamination has been accomplished and a release obtained from the department.

If the person who has control of the object, building, structure, or premises fails to comply with the departmentsorder to decontaminate, the department may impound or seize the object, building, structure, or premises. The department after impounding or seizure of an object, building, structure, or premises, may decontaminate the object, building, structure, or premises.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115190.

If the department determines that the object, building, structure, or premises does not warrant decontamination because of its low value, it shall so notify in writing the person who had control of the object, building, structure, or premises. The person so notified may decontaminate the object, building, structure, or premises, but if he or she fails to do so within 15 days after the notice, the department may cause the object, building, structure, or premises to be disposed of as radioactive waste.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115195.

If the department causes the object, building, structure or premises to be decontaminated, the department shall, upon the completion of the decontamination, return the impounded article or seized building, structure, or premises to the person who had control of the article, building, structure, or premises prior to the impounding or seizure. The person who has control of the object, building, structure, or premises and was responsible for its contamination shall pay the department for the reasonable and necessary costs incurred by the department in seizing and decontaminating or in seizing and disposing of the object, building, structure, or premises.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115200.

If the contamination of the object, building, structure, or premises resulted from the negligence of another person, then the department may require that person to pay all reasonable and necessary costs incurred by the department in seizing and decontaminating or disposing of the object, building, structure, or premises and may maintain any action necessary to recover those costs.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115205.

(a) A lien in favor of the people of California shall be imposed upon any object, building, structure, or premises for the reasonable amount of expenses and costs incurred by the department in carrying out the provisions of Section 115185, 115190, 115195, or 115200 if the owner of the property or of any interest therein is the person responsible for the contamination, and to the extent of the interest of that person. Notice of lien or notice of intent to impose a lien shall be posted by the department upon any object, building, structure, or premises impounded or seized by the department and notice of lien or notice of intent to impose a lien shall be filed with the county recorder of the county in which they are located.

The lien shall not become effective until the notice of lien, particularly identifying the property, the interest subject to the lien and the name of the owner of record of the property, and the amount of the lien, is recorded in the office of the county recorder in the county where the property is located. Upon the recordation, the lien shall have the same force, effect and priority as if it had been a judgment lien imposed upon real property that was not exempt from execution, except that it shall attach only to the property described in the notice and impounded or seized by the department, and shall continue for 10 years from the time of the recording of the notice unless sooner released or otherwise discharged.

(b) The department may at any time release all or any portion of the property subject to a lien imposed pursuant to subdivision (a) from the lien or subordinate the lien to other liens and encumbrances if it determines that the amount owed is sufficiently secured by a lien on other property or that the release or subordination of the lien will not jeopardize the collection of the amount owed. A certificate by the department to the effect that any property has been released from the lien or that the lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115210.

(a) The city attorney of the city or the district attorney of the county in which any violations of this chapter occur, occurred, or will occur, or the Attorney General, at the request of the department, may institute on behalf of the people of California any civil action necessary to carry out this chapter, including, but not restricted to, the enforcement of liens, the obtaining of injunctions, or the imposition of civil penalties.

(b) If the civil penalties are awarded and the action is brought by a city attorney or district attorney, the penalty shall be paid directly to the city or county. If no penalty is awarded or paid, or both, the state shall have no obligation to make any payment to the city or county.

If the civil penalty is awarded and the action is brought by the Attorney General, the penalty shall be deposited in the General Fund.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 14. Penalties [115215 - 115220]__

(Article 14 added by Stats. 1995, Ch. 415, Sec. 6.)

115215.

(a)Any person who violates this chapter, or rules, regulations, or orders in effect adopted pursuant to this chapter, is guilty of a misdemeanor and shall, upon conviction, be punished by a fine not to exceed one thousand dollars ($1,000) or by imprisonment in a county jail for a period not to exceed 180 days, or by both the fine and imprisonment.

(b)Any person who knowingly disposes or causes the disposal of any radioactive material regulated by this chapter, or who reasonably should have known that the person was disposing or causing the disposal of the material, at a facility within the state that does not have a license for disposal issued by the department pursuant to this chapter, or at any point in the state that is not authorized according to this chapter, or by any other local, state, or federal agency having authority over radioactive materials, and is in violation of this chapter, or any regulation or order adopted pursuant to this chapter, is guilty of a public offense, and upon conviction, may be punished as follows:

(1)If the disposal is found to have caused a substantial danger to the public health or safety, the person may be punished by imprisonment in a county jail for not more than one year or by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for 16, 24, or 36 months, except as otherwise provided in

paragraph (2). The court may also impose, upon a person convicted of violating this subdivision, a fine of not more than one hundred thousand dollars ($100,000) for each day of violation, except as otherwise provided in paragraph (2).

(2)If the act that violated this subdivision caused great bodily injury or caused a substantial probability that death could result, the person convicted may be punished by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for three, five, or seven years and may be fined not more than two hundred fifty thousand dollars ($250,000) for each day of violation.

(c)Any person who knowingly transports or causes the transportation of any radioactive material regulated by this chapter, or who reasonably should have known that the person was causing the transportation of the material, to a facility in the state that does not have a license from the department issued pursuant to this chapter, to any point in the state that is not authorized by this chapter, or to any point in the state that is not authorized by any other local, state, or federal agency having authority over radioactive materials, and is in violation of this chapter, or any regulation or order adopted pursuant to this chapter, is guilty of a public offense and, upon conviction, may be punished as follows:

(1)If the transportation is found to have caused a substantial danger to the public health or safety, the person may be punished by imprisonment in the county jail for not more than one year or by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for 16, 24, or 36 months, except as otherwise provided in paragraph (2). The court may also impose, upon a person convicted of violating this subdivision, a fine of not more than one hundred thousand dollars ($100,000) for each day of violation, except as provided by paragraph (2).

(2)If the transportation that violated this subdivision caused great bodily injury or caused a substantial probability that death could result, the person convicted may be punished by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for three, five, or seven years and may be fined not more than two hundred fifty thousand dollars ($250,000) for each day of violation.

(d)Notwithstanding any other provision of this chapter, radioactive materials used in medical treatment or result from medical treatment, that are disposed, stored, handled, or transported in a manner authorized pursuant to this chapter, are exempt from subdivisions (b) and (c).

(e)Notwithstanding subdivision (a), any person who violates any provision of this chapter relating to mammography or regulations adopted pursuant to those provisions is guilty of a misdemeanor and shall, upon conviction thereof, be punished by a fine not to exceed five thousand dollars ($5,000), per day of offense, or by imprisonment in the county jail not to exceed 180 days, or both the fine and imprisonment.

(Amended (as amended by Stats. 2011, Ch. 15) by Stats. 2011, Ch. 39, Sec. 4. (AB 117) Effective June 30, 2011. Operative October 1, 2011, pursuant to Secs. 68 and 69 of Ch. 39.)

115220.

(a) Any person who intentionally or through gross negligence violates any provision of this chapter, or any rule or regulation adopted pursuant thereto, or who fails or refuses to comply with a cease and desist order or other order of the department issued thereunder, and that action causes a substantial danger to the health of others, shall be liable to the department for a civil penalty not to exceed five thousand dollars ($5,000) per day, per offense.

(b) The remedies under this section are in addition to, and do not supersede or limit, any and all other remedies, civil or criminal.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=9.&chapter=8.&article=16.

115235.

The provisions of said agreement are as follows:

ArticleI

Subject to the exceptions provided in Articles II, III, and IV, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the State under Chapters 6, 7, and 8, and Section 161 of the Act with respect to the following materials:

A.Byproduct materials;

B.Source materials; and

C.Special nuclear materials in quantities not sufficient to form a critical mass.

ArticleII

This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to regulation of:

A.The construction and operation of any production or utilization facility;

B.The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

C.The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

D.The disposal of other byproduct, source, or special nuclear material as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

ArticleIII

Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of the product except pursuant to a license or an exemption from licensing issued by the Commission.

ArticleIV

This Agreement shall not affect the authority of the Commission under Subsection 161‰b. or i. of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material.

ArticleV

The State will use its best efforts to maintain continuing compatibility between its program and the program of the Commission for the regulation of like materials. To this end the State will use its best efforts to keep the Commission informed of proposed changes in its regulations, and licensing, inspection, and enforcement policies and criteria, and of proposed requirements for the design and distribution of products containing source, byproduct, or special nuclear material, and to obtain the comments and assistance of the Commission thereon.

ArticleVI

The Commission will use its best efforts to keep the State informed of proposed changes in its regulations, and licensing, inspection, and enforcement policies and criteria and to obtain the comments and assistance of the State thereon.

ArticleVII

The Commission and the State agree that it is desirable to provide for reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any agreement State. Accordingly, the Commission and the State agree to use their best efforts to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

ArticleVIII

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that such termination or suspension is required to protect the public health and safety.

ArticleIX

This Agreement, upon ratification by law of the State, shall become effective on the ninety-first day after the adjournment of the First Extraordinary Session of the 1962 California Legislature or on September 1, 1962, whichever is later, and shall remain in effect unless, and until such time as it is terminated pursuant to Article VIII.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115255.

The provisions of the Southwestern Low-Level Radioactive Waste Disposal Compact are as follows:

Article 1.Compact Policy and Formation

The party states hereby find and declare all of the following:

(A)The United States Congress, by enacting the Low-Level Radioactive Waste Policy Act, Public Law 96-573, as amended by the Low-Level Radioactive Waste Policy Amendments Act of 1985 (42 U.S.C. Sec. 2021b to 2021j, incl.), has encouraged the use of interstate compacts to provide for the establishment and operation of facilities for regional management of low-level radioactive waste.

(B)It is the purpose of this compact to provide the means for such a cooperative effort between or among party states to protect the citizens of the states and the states™ environments.

(C)It is the policy of party states to this compact to encourage the reduction of the volume of low-level radioactive waste requiring disposal within the compact region.

(D)It is the policy of the party states that the protection of the health and safety of their citizens and the most ecological and economical management of low-level radioactive wastes can be accomplished through cooperation of the states by minimizing the amount of handling and transportation required to dispose of these wastes and by providing facilities that serve the compact region.

(E)Each party state, if an agreement state pursuant to Section 2021 of Title 42 of the United States Code, or the Nuclear Regulatory Commission if not an agreement state, is responsible for the primary regulation of radioactive materials within its jurisdiction.

Article 2.Definitions

As used in this compact, unless the context clearly indicates otherwise, the following definitions apply:

(A)Commission means the Southwestern Low-Level Radioactive Waste Commission established in Article 3 of this compact.

(B)Compact region or region means the combined geographical area within the boundaries of the party states.

(C)Disposal means the permanent isolation of low-level radioactive waste pursuant to requirements established by the Nuclear Regulatory Commission and the Environmental Protection Agency under applicable laws, or by a party state if that state hosts a disposal facility.

(D)Generate, when used in relation to low-level radioactive waste, means to produce low-level radioactive waste.

(E)Generator means a person whose activity, excluding the management of low-level radioactive waste, results in the production of low-level radioactive waste.

(F)Host county means a county, or other similar political subdivision of a party state, in which a regional disposal facility is located or being developed.

(G)Host state means a party state in which a regional disposal facility is located or being developed. The

State of California is the host state under this compact for the first 30 years from the date the California regional disposal facility commences operations.

(H)Institutional control period means that period of time in which the facility license is transferred to the disposal site owner in compliance with the appropriate regulations for long-term observation and maintenance following the postclosure period.

(I)Low-level radioactive waste means regulated radioactive material that meets all of the following requirements:

(1)The waste is not high-level radioactive waste, spent nuclear fuel, or byproduct material (as defined in Section 11e(2) of the Atomic Energy Act of 1954 (42 U.S.C. Sec. 2014(e)(2))).

(2)The waste is not uranium mining or mill tailings.

(3)The waste is not any waste for which the federal government is responsible pursuant to subdivision (b) of Section 3 of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (42 U.S.C. Sec. 2021c(b)).

(4)The waste is not an alpha emitting transuranic nuclide with a half-life greater than five years and with a concentration greater than 100 nanocuries per gram, or Plutonium-241 with a concentration greater than 3,500 nanocuries per gram, or Curium-242 with a concentration greater than 20,000 nanocuries per gram.

(J)Management means collection, consolidation, storage, packaging, or treatment.

(K)Major generator state means a party state that generates 10 percent of the total amount of low-level radioactive waste produced within the compact region and disposed of at the regional disposal facility.

If no party state other than California generates at least 10 percent of the total amount, major generator state means the party state which is second to California in the amount of waste produced within the compact region and disposed of at the regional disposal facility.

(L)Operator means a person who operates a regional disposal facility.

(M)Party state means any state that has become a party in accordance with Article 7 of this compact.

(N)Person means an individual, corporation, partnership, or other legal entity, whether public or private.

(O)Postclosure period means that period of time after completion of closure of a disposal facility during which the licensee shall observe, monitor, and carry out necessary maintenance and repairs at the disposal facility to assure that the disposal facility will remain stable and will not need ongoing active maintenance. This period ends with the beginning of the institutional control period.

(P)Regional disposal facility means a nonfederal low-level radioactive waste disposal facility established and operated under this compact.

(Q)Site closure and stabilization means the activities of the disposal facility operator taken at the end of the disposal facilitysoperating life to assure the continued protection of the public from any residual radioactivity or other potential hazards present at the disposal facility.

(R)Transporter means a person who transports low-level radioactive waste.

(S)Uranium mine and mill tailings means waste resulting from mining and processing of ores containing uranium.

Article 3.The Commission

(A)There is hereby established the Southwestern Low-Level Radioactive Waste Commission.

(1)The commission shall consist of one voting member from each party state to be appointed by the Governor, confirmed by the Senate of that party state, and to serve at the pleasure of the Governor of each party state, and one voting member from the host county. The appointing authority of each party state shall notify the commission in writing of the identity of the member and of any alternates. An alternate may act in the membersabsence.

(2)The host state shall also appoint that number of additional voting members of the commission that is necessary for the host statesmembers to compose at least 51 percent of the membership on the commission. The host statesadditional members shall be appointed by the host state Governor and confirmed by the host state Senate.

If there is more than one host state, only the state in which is located the regional disposal facility actively accepting low-level radioactive waste pursuant to this compact may appoint these additional members.

(3)If the host county has not been selected at the time the commission is appointed, the Governor of the host state shall appoint an interim local government member, who shall be an elected representative of a local government. After a host county is selected, the interim local government member shall resign and the Governor shall appoint the host county member pursuant to paragraph (4).

(4)The Governor shall appoint the host county member from a list of at least seven candidates compiled by the board of supervisors of the host county.

(5)In recommending and appointing the host county member pursuant to paragraph (4), the board of supervisors and the Governor shall give first consideration to recommending and appointing the member of the board of supervisors in whose district the regional disposal facility is located or being developed. If the board of supervisors of the host county does not provide a list to the Governor of at least seven candidates from which to choose, the Governor shall appoint a resident of the host county as the host county member.

(6)The host county member is subject to confirmation by the Senate of that party state and shall serve at the pleasure of the Governor of the host state.

(B)The commission is a legal entity separate and distinct from the party states and shall be so liable for its actions. Members of the commission shall not be personally liable for actions taken in their official capacity. The liabilities of the commission shall not be deemed liabilities of the party states.

(C)The commission shall conduct its business affairs pursuant to the laws of the host state and disputes arising out of commission action shall be governed by the laws of the host state. The commission shall be located in the capital city of the host state in which the regional disposal facility is located.

(D)The commissionsrecords shall be subject to the host statespublic records law, and the meetings of the commission shall be open and public in accordance with the host statesopen meeting law.

(E)The commission members are public officials of the appointing state and shall be subject to the conflict of interest laws, as well as any other law, of the appointing state. The commission members shall be

compensated according to the appointing stateslaw.

(F)Each commission member is entitled to one vote. A majority of the commission constitutes a quorum. Unless otherwise provided in this compact, a majority of the total number of votes on the commission is necessary for the commission to take any action.

(G)The commission has all of the following duties and authority:

(1)The commission shall do, pursuant to the authority granted by this compact, whatever is reasonably necessary to ensure that low-level radioactive wastes are safely disposed of and managed within the region.

(2)The commission shall meet at least once a year and otherwise as business requires.

(3)The commission shall establish a compact surcharge to be imposed upon party state generators. The surcharge shall be based upon the cubic feet of low-level radioactive waste and the radioactivity of the low-level radioactive waste and shall be collected by the operator of the disposal facility.

The host state shall set, and the commission shall impose, the surcharge after congressional approval of the compact. The amount of the surcharge shall be sufficient to establish and maintain at a reasonable level funds for all of the following purposes:

(a)The activities of the commission and commission staff.

(b)At the discretion of the host state, a third-party liability fund to provide compensation for injury to persons or property during the operational, closure, stabilization, and postclosure and institutional control periods of the regional disposal facility. This subparagraph does not limit the responsibility or liability of the operator, who shall comply with any federal or host state statutes or regulations regarding third-party liability claims.

(c)A local government reimbursement fund, for the purpose of reimbursing the local government entity or entities hosting the regional disposal facility for any costs or increased burdens on the local governmental entity for services, including, but not limited to, general fund expenses, the improvement and maintenance of roads and bridges, fire protection, law enforcement, monitoring by local health officials, and emergency preparation and response related to the hosting of the regional disposal facility.

(4)The surcharges imposed by the commission for purposes of subparagraphs (b) and (c) of paragraph (3) and surcharges pursuant to paragraph (3) of subdivision (E) of Article 4 shall be transmitted on a monthly basis to the host state for distribution to the proper accounts.

(5)The commission shall establish a fiscal year that conforms to the fiscal years of the party states to the extent possible.

(6)The commission shall keep an accurate account of all receipts and disbursements. An annual audit of the books of the commission shall be conducted by an independent certified public accountant, and the audit report shall be made a part of the annual report of the commission.

(7)The commission shall prepare and include in the annual report a budget showing anticipated receipts and disbursements for the subsequent fiscal year.

(8)The commission may accept any grants, equipment, supplies, materials, or services, conditional or otherwise, from the federal or state government. The nature, amount and condition, if any, of any donation,

grant, or other resources accepted pursuant to this paragraph and the identity of the donor or grantor shall be detailed in the annual report of the commission.

However, the host state shall receive, for the uses specified in subparagraph (E) of paragraph (2) of subsection (d) of Section 2021e of Title 42 of the United States Code, any payments paid from the special escrow account for which the Secretary of Energy is trustee pursuant to subparagraph (A) of paragraph (2) of subsection (d) of Section 2021 (e) of Title 42 of the United States Code.

(9)The commission shall submit communications to the governors and to the presiding officers of the legislatures of the party states regarding the activities of the commission, including an annual report to be submitted on or before January 15 of each year. The commission shall include in the annual report a review of, and recommendations for, low-level radioactive waste disposal methods which are alternative technologies to the shallow land burial of low-level radioactive waste.

(10)The commission shall assemble and make available to the party states, and to the public, information concerning low-level radioactive waste management needs, technologies, and problems.

(11)The commission shall keep a current inventory of all generators within the region, based upon information provided by the party states.

(12)The commission shall keep a current inventory of all regional disposal facilities, including information on the size, capacity, location, specific low-level radioactive wastes capable of being managed, and the projected useful life of each regional disposal facility.

(13)The commission may establish advisory committees for the purpose of advising the commission on the disposal and management of low-level radioactive waste.

(14)The commission may enter into contracts to carry out its duties and authority, subject to projected resources. No contract made by the commission shall bind a party state.

(15)The commission shall prepare contingency plans, with the cooperation and approval of the host state, for the disposal and management of low-level radioactive waste in the event that any regional disposal facility should be closed.

(16)The commission may sue and be sued and, when authorized by a majority vote of the members, may seek to intervene in an administrative or judicial proceeding related to this compact.

(17)The commission shall be managed by an appropriate staff, including an executive director. Notwithstanding any other provision of law, the commission may hire or retain, or both, legal counsel.

(18)The commission may, subject to applicable federal and state laws, recommend to the appropriate host state authority suitable land and rail transportation routes for low-level radioactive waste carriers.

(19)The commission may enter into an agreement to import low-level radioactive waste into the region only if both of the following requirements are met:

(a)The commission approves the importation agreement by a two-thirds vote of the commission.

(b)The commission and the host state assess the affected regional disposal facilities™ capability to handle imported low-level radioactive wastes and any relevant environmental or economic factors, as defined by the host statesappropriate regulatory authorities.

(20)The commission may, upon petition, allow an individual generator, a group of generators, or the host state of the compact, to export low-level radioactive wastes to a low-level radioactive waste disposal facility located outside the region. The commission may approve the petition only by a two-thirds vote of the commission. The permission to export low-level radioactive wastes shall be effective for that period of time and for the amount of low-level radioactive waste, and subject to any other term or condition, which may be determined by the commission.

(21)The commission may approve, only by a two-thirds vote of the commission, the exportation outside the region of material, which otherwise meets the criteria of low-level radioactive waste, if the sole purpose of the exportation is to process the material for recycling.

(22)The commission shall, not later than 10 years before the closure of the initial or subsequent regional disposal facility, prepare a plan for the establishment of the next regional disposal facility.

Article 4.Rights, Responsibilities, and Obligations of Party States

(A)There shall be regional disposal facilities sufficient to dispose of the low-level radioactive waste generated within the region.

(B)Low-level radioactive waste generated within the region shall be disposed of at regional disposal facilities and each party state shall have access to any regional disposal facility without discrimination.

(C)(1)Upon the effective date of this compact, the State of California shall serve as the host state and shall comply with the requirements of subdivision (E) for at least 30 years from the date the regional disposal facility begins to accept low-level radioactive waste for disposal. The extension of the obligation and duration shall be at the option of the State of California.

If the State of California does not extend this obligation, the party state, other than the State of California, which is the largest major generator state shall then serve as the host state for the second regional disposal facility.

The obligation of a host state which hosts the second regional disposal facility shall also run for 30 years from the date the second regional disposal facility begins operations.

(2)The host state may close its regional disposal facility when necessary for public health or safety.

(D)The party states of this compact cannot be members of another regional low-level radioactive waste compact entered into pursuant to the Low-Level Radioactive Waste Policy Act, as amended by the Low-Level Radioactive Waste Policy Amendments Act of 1985 (42 U.S.C. Secs. 2021b to 2021j, incl.).

(E)A host state shall do all of the following:

(1)Cause a regional disposal facility to be developed on a timely basis.

(2)Ensure by law, consistent with any applicable federal laws, the protection and preservation of public health and safety in the siting, design, development, licensing, regulation, operation, closure, decommissioning, and long-term care of the regional disposal facilities within the state.

(3)Ensure that charges for disposal of low-level radioactive waste at the regional disposal facility are reasonably sufficient to do all of the following:

(a)Ensure the safe disposal of low-level radioactive waste and long-term care of the regional disposal facility.

(b)Pay for the cost of inspection, enforcement, and surveillance activities at the regional disposal facility.

(c)Assure that charges are assessed without discrimination as to the party state of origin.

(4)Submit an annual report to the commission on the status of the regional disposal facility including projections of the facilitysanticipated future capacity.

(5)The host state and the operator shall notify the commission immediately upon the occurrence of any event which could cause a possible temporary or permanent closure of a regional disposal facility.

(F)Each party state is subject to the following duties and authority:

(1)To the extent authorized by federal law, each party state shall develop and enforce procedures requiring low-level radioactive waste shipments originating within its borders and destined for a regional disposal facility to conform to packaging and transportation requirements and regulations. These procedures shall include, but are not limited to, all of the following requirements:

(a)Periodic inspections of packaging and shipping practices.

(b)Periodic inspections of low-level radioactive waste containers while in the custody of transporters.

(c)Appropriate enforcement actions with respect to violations.

(2)A party state may impose a surcharge on the low-level radioactive waste generators within the state to pay for activities required by paragraph (1).

(3)To the extent authorized by federal law, each party state shall, after receiving notification from a host state that a person in a party state has violated packaging, shipping, or transportation requirements or regulations, take appropriate actions to ensure that these violations do not continue. Appropriate actions may include, but are not limited to, requiring that a bond be posted by the violator to pay the cost of repackaging at the regional disposal facility and prohibit future shipments to the regional disposal facility.

(4)Each party state shall maintain a registry of all generators within the state that may have low-level radioactive waste to be disposed of at a regional disposal facility, including, but not limited to, the amount of low-level radioactive waste and the class of low-level radioactive waste generated by each generator.

(5)Each party state shall encourage generators within its borders to minimize the volume of low-level radioactive waste requiring disposal.

(6)Each party state may rely on the good faith performance of the other party states to perform those acts which are required by this compact to provide regional disposal facilities, including the use of the regional disposal facilities in a manner consistent with this compact.

(7)Each party state shall provide the commission with any data and information necessary for the implementation of the commissionsresponsibilities, including taking those actions necessary to obtain this data or information.

(8)Each party state shall agree that only low-level radioactive waste generated within the jurisdiction of the

party states shall be disposed of in the regional disposal facility, except as provided in paragraph (19) of subdivision (G) of Article 3.

(9)Each party state shall agree that if there is any injury to persons on property resulting from the operation of a regional disposal facility, the damages resulting from the injury may be paid from the third-party liability fund pursuant to subparagraph (b) of paragraph (3) of subdivision (G) of Article 3, only to the extent that the damages exceed the limits of liability insurance carried by the operator. No party state, by joining this compact, assumes any liability resulting from the siting, operation, maintenance, long-term care, or other activity relating to a regional facility, and no party state shall be liable for any harm or damage resulting from a regional facility not located within the state.

Article 5.Approval of Regional Facilities

A regional disposal facility shall be approved by the host state in accordance with its laws. This compact does not confer any authority on the commission regarding the siting, design, development, licensure, or other regulation, or the operation, closure, decommissioning, or long-term care of, any regional disposal facility within a party state.

Article 6.Prohibited Acts and Penalties

(A)No person shall dispose of low-level radioactive waste within the region unless the disposal is at a regional disposal facility, except as otherwise provided in paragraphs (20) and (21) of subdivision (G) of Article 3.

(B)No person shall dispose of or manage any low-level radioactive waste within the region unless the low-level radioactive waste was generated within the region, except as provided in paragraphs (19), (20), and (21) of subdivision (G) of Article 3.

(C)Violations of this section shall be reported to the appropriate law enforcement agency within the party statesjurisdiction.

(D)Violations of this section may result in prohibiting the violator from disposing of low-level radioactive waste in the regional disposal facility, as determined by the commission or the host state.

Article 7.Eligibility, Entry into Effect, Congressional Consent, Withdrawal, Exclusion

(A)The States of Arizona, North Dakota, South Dakota, and California are eligible to become parties to this compact. Any other state may be made eligible by a majority vote of the commission and ratification by the legislatures of all of the party states by statute, and upon compliance with those terms and conditions for eligibility which the host state may establish. The host state may establish all terms and conditions for the entry of any state, other than the states named in this subparagraph, as a member of this compact.

(B)Upon compliance with the other provisions of this compact, an eligible state may become a party state by legislative enactment of this compact or by executive order of the governor of the state adopting this compact. A state becoming a party state by executive order shall cease to be a party state upon adjournment of the first general session of its legislature convened after the executive order is issued, unless before the adjournment the legislature enacts this compact.

(C)A party state, other than the host state, may withdraw from the compact by repealing the enactment of this compact, but this withdrawal shall not become effective until two years after the effective date of the repealing legislation. If a party state which is a major generator of low-level radioactive waste voluntarily

withdraws from the compact pursuant to this subdivision, that state shall make arrangements for the disposal of the other party states™ low-level radioactive waste for a time period equal to the period of time it was a member of this compact.

If the host state withdraws from the compact, the withdrawal shall not become effective until five years after the effective date of the repealing legislation.

(D)A party state may be excluded from this compact by a two-thirds vote of the commission members, acting in a meeting, if the state to be excluded has failed to carry out any obligations required by compact.

(E)This compact shall take effect upon the enactment by statute by the legislatures of the State of California and at least one other eligible state and upon the consent of Congress and shall remain in effect until otherwise provided by federal law. This compact is subject to review by Congress and the withdrawal of the consent of Congress every five years after its effective date, pursuant to federal law.

Article 8.Construction and Severability

(A)The provisions of this compact shall be broadly construed to carry out the purposes of the compact, but the sovereign powers of a party state shall not be infringed unnecessarily.

(B)This compact does not affect any judicial proceeding pending on the effective date of this compact.

(C)If any provision of this compact or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the compact that can be given effect without the invalid provision or application, and to this end the provisions of this compact are severable.

(D)Nothing in this compact diminishes or otherwise impairs the jurisdiction, authority, or discretion of either of the following:

(1)The Nuclear Regulatory Commission pursuant to the Atomic Energy Act of 1954, as amended (42 U.S.C. Sec. 2011 et seq.).

(2)An agreement state under Section 274 of the Atomic Energy Act of 1954, as amended (42 U.S.C. Sec. 2021).

(E)Nothing in this compact confers any new authority on the states or commission to do any of the following:

(1)Regulate the packaging or transportation of low-level radioactive waste in a manner inconsistent with the regulations of the Nuclear Regulatory Commission or the United States Department of Transportation.

(2)Regulate health, safety, or environmental hazards from source, byproduct, or special nuclear material.

(3)Inspect the activities of licensees of the agreement states or of the Nuclear Regulatory Commission.

(Amended by Stats. 2006, Ch. 538, Sec. 434. Effective January 1, 2007.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 8. Radiation Control Law [114960 - 115273]__

(Chapter 8 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 18. Radionuclide Air Contaminants [115271 - 115271.4]__

(Article 18 added by Stats. 1996, Ch. 752, Sec. 1.)

115271.

(a) For purposes of this article, the following terms have the following meaning:

(1) Federal act means the Clean Air Act (42 U.S.C.A. Sec. 7401 et seq.) as amended by the Clean Air Act Amendments of 1990 (P.L. 101-549), and as the Clean Air Act may be further amended.

(2) Person means, notwithstanding subdivision (c) of Section 114985, any individual, corporation, partnership, limited liability company, firm, association, trust, estate, public or private institution, group, agency, political subdivision of this state, and any other state or political subdivision or agency thereof, any legal successor, representative, agent, or agency of the foregoing, including, but not limited to, the United States Nuclear Regulatory Commission, the Department of Energy, or any successor thereto, and other federal agencies.

(b) Except as provided in subdivision (b) of Section 115271.4, the definitions set forth in Section 112 of the federal act (42 U.S.C.A. Sec. 7412) and Subpart A (commencing with Section 61.01) of Subchapter C of Chapter 1 of Title 40 of the Code of Federal Regulations shall apply to this article and to any regulations adopted pursuant to this article.

(Added by Stats. 1996, Ch. 752, Sec. 1. Effective January 1, 1997.)

115271.2.

The department may establish a program to enable the state to receive federal approval to implement and enforce emission standards for radionuclides pursuant to Section 112 of the federal act (42 U.S.C.A. Sec. 7412). The department may regulate federal facilities pursuant to this article only in accordance with the Clean Air Act, as specified in Section 7418 of Title 42 of the United States Code.

(Added by Stats. 1996, Ch. 752, Sec. 1. Effective January 1, 1997.)

115271.3.

If the state receives federal approval to implement and enforce emission standards for radionuclides pursuant to Section 115271.2, the department shall be responsible for the control of emissions of radionuclides into the air. However, nothing in this article shall be construed in any way to give the department any authority to regulate, or be construed to apply to, air emissions from nuclear powerplants that are licensed and regulated by the United States Nuclear Regulatory Commission.

(Added by renumbering Section 11527.3 by Stats. 1997, Ch. 17, Sec. 62. Effective January 1, 1998.)

115271.4.

(a) Except as provided in subdivision (b), the regulations found in Subpart H (commencing with Section 61.90) of, and in Subpart I (commencing with Section 61.100) of, Part 61 of Subchapter C of Chapter I of Title 40 of the Code of Federal Regulations and Appendixes B, D, and E of Part 61 (commencing with Section 61.01) of Subchapter C of Chapter I of Title 40 of the Code of Federal Regulations and Appendix A of Part 60 (commencing with Section 60.01) of Subchapter C of Chapter I of Title 40 of the Code of Federal Regulations shall be deemed to be the regulations of the department for purposes of the regulation of radionuclide air emissions. Except for Sections 61.93 and 61.103 of Title 40 of the Code of Federal Regulations, any reference to the Environmental Protection Agency, or any division thereof, in those regulations shall be deemed to be a reference to the department. The department may amend those regulations in whole or in part pursuant to subdivision (b) or (c).

(b) (1) The department shall evaluate any proposed amendment to the federal regulations specified in subdivision (b) of Section 115271 and in subdivision (a) of this section that becomes effective on or after January 1, 1997.

(2) The department shall publish a notice in the California Regulatory Notice Register indicating that the amendment has been adopted by the Environmental Protection Agency as a final rule. The notice shall include the citation to the Federal Register or the Code of Federal Regulations related to the amendment. The notice shall also include the departmentsdetermination regarding whether the amendment is more stringent, equivalent to, or less stringent than, current state law or regulation.

(3) If the department determines that the amended federal regulation would be equivalent to, or more stringent than, state law or regulation, the amended federal regulation shall be deemed to be a regulation of the department on the date that is 90 days from the effective date of the amendment of the federal regulation or the publication of the notice required by paragraph (2), whichever date is later.

(c) In addition to the adoption of federal regulations as department regulations pursuant to this article, the department may adopt any other regulation that it determines to be necessary to establish, implement, and enforce a program for the regulation of radionuclide air emissions, consistent with the federal act.

(d) The department may charge each owner or operator of a facility emitting radionuclides into the air, which is subject to Section 61.90 or 61.100 of Title 40 of the Code of Federal Regulations, an annual fee to pay the costs of implementing this article. The department shall deposit the fees in the Radiation Control Fund, for expenditure, upon appropriation by the Legislature, for the implementation of this article.

(Added by Stats. 1996, Ch. 752, Sec. 1. Effective January 1, 1997.)

(Article 19 added by Stats. 2002, Ch. 513, Sec. 6.)

115273.

In implementing this chapter, the department, consistent with other requirements imposed by this chapter to protect public health and safety, shall promote the reduction of low-level radioactive waste generated, both in volume and radioactivity, by encouraging waste reduction practices, including, but not limited to, all of the following:

(a) The minimization of waste produced by employing best practices to reduce the amount of contaminated materials;

(b) The substitution and use of nonradioactive materials or radioactive materials with shorter radioactive half-lives; and

(c) The compaction of low-level radioactive waste to reduce the volume of waste that must be transported and disposed of in the state.

(Added by Stats. 2002, Ch. 513, Sec. 6. Effective January 1, 2003.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9. RADIATION [114650 - 115342]__

(Part 9 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 9. Nuclear Powerplant Radiation [115275 - 115295]__

(Chapter 9 added by Stats. 1995, Ch. 415, Sec. 6.)

115275.

It is the intent of the Legislature that in the event of a nuclear accident timely and effective communications between the operators of nuclear powerplants in California and those state and local officials charged with nuclear emergency response activities be assured.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115280.

(a)Each privately owned and publicly owned public utility operating a nuclear powerplant with a generating capacity of 50 megawatts or more shall install an automated alert system that will activate alarms in the California State Warning Center of the Office of Emergency Services in a manner to be determined by the office in consultation with the department and the appropriate county emergency services agency. This automated alert system shall duplicate the following alarms in the control rooms of each nuclear powerplant:

(1)Safety injection actuation (operation of the emergency core cooling system).

(2)High radiation alarm of the radioactive gas effluent stack monitor.

(b)The automated alert system shall be operative within 12 months of the effective date of this chapter.

(c)In no event shall the capital costs of complying with this section exceed two hundred thousand dollars ($200,000) per nuclear powerplant. The operator of each nuclear powerplant shall be responsible for any maintenance or recurring charges. The funds expended by privately owned utilities under this section shall be allowed for ratemaking purposes by the Public Utilities Commission. Publicly owned public utilities shall include funds expended under this section in their rates.

(d)The automated alert system shall be operational whenever corresponding alarms in the control rooms of each nuclear powerplant are required to be operational under the terms of the operating license issued by the Nuclear Regulatory Commission, except for periods of time required for maintenance, repair, calibration, or testing.

(e)Nothing in this section shall require plant modifications or the conduct of operations that may be in conflict with conditions of a license to operate issued by the Nuclear Regulatory Commission or other activities authorized by the Nuclear Regulatory Commission.

(f)The Office of Emergency Services shall make provision for immediate notification of appropriate local officials upon activation of the automated alert system pursuant to this section.

(Amended by Stats. 2013, Ch. 352, Sec. 392. (AB 1317) Effective September 26, 2013. Operative July 1, 2013, by Sec. 543 of Ch. 352.)

115285.

Nothing in this chapter shall relieve nuclear powerplant operators of their responsibilities to notify local authorities as otherwise provided by law.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115290.

Failure to comply with any provision of this chapter shall not constitute the basis for an action in a court of law or administrative proceeding to enjoin or prevent the operation or start-up of a nuclear facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115295.

If the Humboldt Bay Nuclear Generating Station is not in operation on the effective date of this section, the local emergency plan for it shall not be required to meet the revised emergency response plan requirements of Section 8610.5 of the Government Code until the Nuclear Regulatory Commission determines that the powerplant meets Nuclear Regulatory Commission seismic safety criteria, or until the Nuclear Regulatory Commission issues an order rescinding the restrictions imposed on the Humboldt Bay Nuclear Generating Station in its order of May 21, 1976.

In the event that the Nuclear Regulatory Commission determines that the Humboldt Bay Nuclear Generating Station meets Nuclear Regulatory Commission seismic safety standards, or issues an order rescinding the restrictions in its order of May 21, 1976, a draft county emergency plan meeting the requirements of Section 8610.5 of the Government Code shall be submitted to the Office of Emergency Services for review within 180 days of the determination or rescission. Within 90 days after submission of the draft county emergency plan, approval of a final plan shall be completed by the Office of Emergency Services.

(Amended by Stats. 2013, Ch. 352, Sec. 393. (AB 1317) Effective September 26, 2013. Operative July 1, 2013, by Sec. 543 of Ch. 352.)

115340.

(a)The State Department of Health Care Services shall work with the KI working group, which is coordinated by the Office of Emergency Services, to establish and implement a program to oversee the distribution of potassium iodide (KI) tablets to all persons who reside, work, visit, or attend school within the state-designated emergency planning zone of an operational nuclear powerplant, in order to provide protection to members of the public in the event of an accident causing leakage of radioactive iodine, pursuant to the offer of the Nuclear Regulatory Commission to provide the state with a supply of KI tablets.

(b)In order to implement the program required by subdivision (a), the department, in consultation with local

health departments and local emergency management agencies, shall develop and implement a plan for both of the following:

(1)The prompt distribution of the tablets to persons at risk in the event of a nuclear emergency, in a manner to best protect the public health.

(2)The dissemination of instructions on the use of the tablets, including the possible need for medical consultation, if indicated.

(c)The department shall work with the KI working group described in subdivision (a) to develop and implement a plan and method for the efficient storage of KI tablets.

(d)The department, in consultation with the KI working group, shall evaluate areas in the state, other than those described in subdivision (a), in which leakage of radioactive iodine is possible, and evaluate the need to store quantities of KI tablets in those areas.

(e)No later than July 1, 2004, the department shall submit a plan to the Governor and the Legislature on the establishment and implementation of the program required pursuant to subdivisions (a) and (b), and on the development and implementation of the plan and method required in subdivision (c). No later than July 1, 2004, the department shall also submit to the Governor and the Legislature the evaluation required in subdivision (d).

(Amended by Stats. 2013, Ch. 352, Sec. 394. (AB 1317) Effective September 26, 2013. Operative July 1, 2013, by Sec. 543 of Ch. 352.)

115342.

This chapter shall be implemented only to the extent that funds are appropriated for the purposes of this chapter in the annual Budget Act or another measure.

(Added by Stats. 2002, Ch. 852, Sec. 2. Effective January 1, 2003.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 9.5. ABANDONED EXCAVATIONS [115700 - 115720]__

(Part 9.5 added by Stats. 1996, Ch. 1023, Sec. 340.)

115700.

(a) Every person owning land in fee simple or in possession thereof under lease or contract of sale who knowingly permits the existence on the premises of any abandoned mining shaft, pit, well, septic tank, cesspool, or other abandoned excavation dangerous to persons legally on the premises, or to minors under the age of 12 years, who fails to cover, fill, or fence securely that dangerous abandoned excavation and keep it so protected, is guilty of a misdemeanor.

(b) Every person owning land in fee simple or in possession thereof under lease or contract of sale who knowingly permits the existence on the premises of any permanently inactive well, cathodic protection well, or monitoring well that constitutes a known or probable preferential pathway for the movement of pollutants, contaminants, or poor quality water, from above ground to below ground, or vertical movement of pollutants, contaminants, or poor quality water below ground, and that movement poses a threat to the quality of the waters of the state, shall be guilty of a misdemeanor.

(c) For purposes of this section, well includes any of the following:

(1) A monitoring well as defined by Section 13712 of the Water Code.

(2) A cathodic well as defined by Section 13711 of the Water Code.

(3) A water well as defined by Section 13710 of the Water Code.

(d) A permanently inactive well is a well that has not been used for a period of one year, unless the person owning land in fee simple or in possession thereof under lease or contract of sale demonstrates an intent for future use for water supply, groundwater recharge, drainage, or groundwater level control, heating or cooling, cathodic protection, groundwater monitoring, or related uses. A well owner shall provide evidence to the local health officer of an intent for future use of an inactive well by maintaining the well in a way that the following requirements are met:

(1) The well shall not allow impairment of the quality of water within the well and groundwater encountered by the well.

(2) The top of the well or well casing shall be provided with a cover, that is secured by a lock or by other means to prevent its removal without the use of equipment or tools, to prevent unauthorized access, to prevent a safety hazard to humans and animals, and to prevent illegal disposal of wastes in the well. The cover shall be watertight where the top of the well casing or other surface openings to the well are below ground level, as in a vault or below known levels of flooding. The cover shall be watertight if the well is inactive for more than five consecutive years. A pump motor, angle drive, or other surface feature of a well, when in compliance with the above provisions, shall suffice as a cover.

(3) The well shall be marked so as to be easily visible and located, and labeled so as to be easily identified as a well.

(4) The area surrounding the well shall be kept clear of brush, debris, and waste materials.

(e) At a minimum, permanently inactive wells shall be destroyed in accordance with standards developed by the Department of Water Resources pursuant to Section 13800 of the Water Code and adopted by the State Water Resources Control Board or local agencies in accordance with Section 13801 of the Water Code. Minimum standards recommended by the department and adopted by the state board or local agencies for the abandonment or destruction of groundwater monitoring wells or class 1 hazardous injection wells shall not be construed to limit, abridge, or supersede the powers or duties of the department, in accordance with Section 13801 of the Water Code.

(f) Nothing in this section is a limitation on the power of a city, county, or city and county to adopt and enforce additional penal provisions regarding the types of wells and other excavations described in subdivisions (a) and (b).

(Added by Stats. 1996, Ch. 1023, Sec. 340. Effective September 29, 1996.)

115705.

The board of supervisors may order securely covered, filled, or fenced abandoned mining excavations on unoccupied public lands in the county.

(Added by Stats. 1996, Ch. 1023, Sec. 340. Effective September 29, 1996.)

115710.

The board of supervisors shall order securely fenced, filled, or covered any abandoned mining shaft, pit, or other excavation on unoccupied land in the county whenever it appears to them, by proof submitted, that the excavation is dangerous or unsafe to man or beast. The cost of covering, filling, or fencing is a county charge.

(Added by Stats. 1996, Ch. 1023, Sec. 340. Effective September 29, 1996.)

115715.

Every person who maliciously removes or destroys any covering or fencing placed around, or removes any fill placed in, any shaft, pit, or other excavation, as provided in this part, is guilty of a misdemeanor.

(Added by Stats. 1996, Ch. 1023, Sec. 340. Effective September 29, 1996.)

115720.

This part is not applicable to any abandoned mining shaft, pit, well, septic tank, cesspool, or other

abandoned excavation that contains a surface area of more than one-half acre.

(Added by Stats. 1996, Ch. 1023, Sec. 340. Effective September 29, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 10. RECREATIONAL SAFETY [115725 - 116095]__

(Part 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Safe Recreational Land Use [115725 - 115800]__

(Heading of Chapter 4 amended by Stats. 1996, Ch. 1023, Sec. 342.)

__ARTICLE 1. Playgrounds [115725 - 115735]__

(Article 1 repealed (in Sec. 1) and added by Stats. 2006, Ch. 470, Sec. 2.)

115725.

(a)All new playgrounds open to the public built by a public agency or any other entity shall conform to the playground-related standards set forth by the American Society for Testing and Materials and the playground-related guidelines set forth by the United States Consumer Product Safety Commission.

(b)Replacement of equipment or modification of components inside existing playgrounds shall conform to the playground-related standards set forth by the American Society for Testing and Materials and the playground-related guidelines set forth by the United States Consumer Product Safety Commission.

(c)All public agencies operating playgrounds and all other entities operating playgrounds open to the public shall have a playground safety inspector, certified by the National Playground Safety Institute, conduct an initial inspection for the purpose of aiding compliance with the requirements set forth in subdivision (a) or (b), as applicable. Any inspection report may serve as a reference when the upgrades are made, but is not intended for any other use.

(d)Playgrounds installed between January 1, 1994, and December 31, 1999, shall conform to the playground-related standards set forth by the American Society for Testing and Materials and the playground-related guidelines set forth by the United States Consumer Product Safety Commission not later than 15 years after the date those playgrounds were installed.

(e)For purposes of this section, all of the following shall apply:

(1)An entity operating a playground open to the public includes, but is not limited to, a church, subdivision, hotel, motel, resort, camp, office, hospital, shopping center, day care setting, and restaurant. An entity operating a playground open to the public shall not include a licensed childrensresidential facility, certified family home or resource family of a licensed foster family agency, resource family approved by a county, or licensed family child care home, which is regulated to meet child safety requirements enforced by the State Department of Social Services.

(2)Playground means an improved outdoor area designed, equipped, and set aside for childrensplay that is not intended for use as an athletic playing field or athletic court, and shall include any playground equipment, fall zones, surface materials, access ramps, and all areas within and including the designated enclosure and barriers.

(f)Operators of playgrounds in child care centers regulated by the California Department of Social Services (CDSS) pursuant to Title 22 of Division 12 of Chapter 1 of the California Code of Regulations and facilities operated for the developmentally disabled, shall comply with the requirements established in this section.

(g)(1)No state funding shall be available for the planning, development, or redevelopment of any playground, unless the playground, after completion of the state-funded project, will conform to the requirements of subdivision (a) or (b), as applicable. However, where state funds have been appropriated to, or allocated for, a playground project prior to the effective date of this section but the section becomes effective prior to the completion of the project, that funding shall be maintained, as long as the playground is altered to conform to the requirements of subdivision (a) or (b), as applicable, to the extent the alterations can be made without adding significantly to the project cost.

(2)After the date by which an entity is required to conform its playground to satisfy requirements of this section, no state funding shall be available for the operation, maintenance, or supervision of the playground unless the playground conforms to the applicable requirements of the section.

(Amended by Stats. 2017, Ch. 732, Sec. 40. (AB 404) Effective January 1, 2018.)

115730.

(a) The State Department of Social Services shall convene a working group to develop recommendations for minimum safety requirements for playgrounds at child care centers.

(b)The working group shall include, but not be limited to, child care center operators, including representatives of the Professional Association for Childhood Education, the California Child Care Health Program, the ChildrensAdvocacy Institute, the State Department of Public Health, and certified playground inspectors.

(c)The working group shall use the national guidelines published by the United States Consumer Product Safety Commission and those regulations adopted pursuant to this article as a reference in developing its recommendations. However, the State Department of Social Services shall determine minimum safety requirements that are protective of child health on playgrounds at child care centers.

(d)The working group shall submit its playground safety recommendations to the State Department of Social Services by September 1, 2001.

(e)The working group shall submit its recommendations to the Legislature by November 1, 2001.

(f)This section shall be construed as a continuation of former Section 115736.

(Amended (as added by Stats. 2006, Ch. 470) by Stats. 2007, Ch. 483, Sec. 27. Effective January 1, 2008.)

115735.

This article shall become operative on January 1, 2008.

(Repealed (in Sec. 1) and added by Stats. 2006, Ch. 470, Sec. 2. Effective January 1, 2007. Note: This section prescribes a delayed operative date for Article 1, commencing with Section 115725.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 10. RECREATIONAL SAFETY [115725 - 116095]__

(Part 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Safe Recreational Land Use [115725 - 115800]__

(Heading of Chapter 4 amended by Stats. 1996, Ch. 1023, Sec. 342.)

__ARTICLE 2. Wooden Playground Equipment [115775 - 115800]__

(Heading of Article 2 renumbered from Article 3 by Stats. 1996, Ch. 1023, Sec. 344.)

115775.

(a) No state funds shall be used by any state agency, onsite employee child care center for state employees, city, county, city and county, district, superintendent of schools, school district, or community college district to purchase wooden playground or recreational equipment where there is a likelihood of contact by children and when the equipment has been treated with any of the following substances:

(1) Pentachlorophenol.

(2) Creosote.

(3) Arsenic, elemental arsenic, or arsenic copper combination, unless the wood is treated with a nontoxic and nonslippery sealer and the seller certifies that the wood is treated in accordance with commodity standard C-17 for playground equipment as adopted by the American Wood-Preservers Association.

(b) The state or any city, county, city and county, district, superintendent of schools, school district, community college district, or onsite employee child care center for state employees that receives education or parks and recreation funds from the state shall not use any portion of these funds for the maintenance or upkeep of any wooden structures treated with any of the substances that are prohibited from purchase pursuant to subdivision (a) and where there is a likelihood of contact by children, unless the state, city, county, city and county, superintendent of schools, school district, district, community college district, or onsite employee child care center for state employees treats the wooden structures with nontoxic and nonslippery sealers and reseals the treated structure in accordance with subdivision (c).

(c) The installer of any wooden playground or recreational equipment that will be available for public use and that has been treated with a substance listed in paragraph (3) of subdivision (a) shall seal the structures with a nontoxic and nonslippery sealant prior to, or at the time of, the installation of the equipment. After the equipment that is available for public use has been sealed pursuant to this subdivision, the owner of the equipment shall reseal the treated equipment every two years thereafter with a nontoxic and nonslippery

sealant.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115800.

(a)An operator of a skateboard park shall not permit a person to ride a skateboard or other wheeled recreational device in the park, unless that person is wearing a helmet, elbow pads, and knee pads.

(b)With respect to a facility, owned or operated by a local public agency, that is designed and maintained for the purpose of riding a recreational skateboard or other wheeled recreational device, and that is not supervised on a regular basis, the requirements of subdivision (a) may be satisfied by compliance with the following:

(1)Adoption by the local public agency of an ordinance requiring a person riding a skateboard or other wheeled recreational device at the facility to wear a helmet, elbow pads, and knee pads.

(2)The posting of signs at the facility affording reasonable notice that a person riding a skateboard or other wheeled recreational device in the facility must wear a helmet, elbow pads, and knee pads, and that a person failing to do so will be subject to citation pursuant to the ordinance required by paragraph (1).

(c)Local public agency for purposes of this section includes, but is not limited to, a city, county, or city and county.

(d)For purposes of this section, other wheeled recreational device means nonmotorized bicycles, scooters, inline skates, roller skates, or wheelchairs being used for recreational purposes.

(e)(1)Riding a skateboard or other wheeled recreational device, or any concurrent combination of these activities at a facility or park owned or operated by a public entity as a public skateboard park, as provided in paragraph (3), shall be deemed a hazardous recreational activity within the meaning of Section 831.7 of the Government Code if all of the following conditions are met:

(A)The person riding the skateboard or other wheeled recreational device is 12 years of age or older.

(B)The riding of the skateboard or other wheeled recreational device that caused the injury was stunt, trick, or luge riding.

(C)The skateboard park is on public property that complies with subdivision (a) or (b).

(2)In addition to subdivision (c) of Section 831.7 of the Government Code, this section does not limit the liability of a public entity with respect to any other duty imposed pursuant to existing law, including the duty to protect against dangerous conditions of public property pursuant to Chapter 2 (commencing with Section 830) of Part 2 of Division 3.6 of Title 1 of the Government Code. However, this section does not abrogate or limit any other legal rights, defenses, or immunities that may otherwise be available at law.

(3)(A)Except as provided in subparagraph (B), for public skateboard parks that were constructed on or before January 1, 1998, this subdivision shall apply to hazardous recreational activity injuries incurred on or after January 1, 1998, and before January 1, 2001. For public skateboard parks that are constructed after January 1, 1998, this subdivision shall apply to hazardous recreational activity injuries incurred on or after January 1,

1998. For purposes of this subdivision, a skateboard facility that is a movable facility shall be deemed constructed on the first date it is initially made available for use at a location by the local public agency.

(B)For public skateboard parks that were constructed after January 1, 1996, and before January 1, 1998, this subdivision shall apply to hazardous recreational activity injuries incurred on or after January 1, 2012.

(4)The appropriate local public agency shall maintain a record of all known or reported injuries incurred by a person riding a skateboard or other wheeled recreational device in a public skateboard park or facility. The local public agency shall also maintain a record of all claims, paid and not paid, including any lawsuits and their results, arising from those incidents that were filed against the public agency.

(5)(A)Except as provided in subparagraph (B), this subdivision shall not apply on or after January 1, 2001, to public skateboard parks that were constructed on or before January 1, 1998, but shall continue to apply to public skateboard parks that are constructed after January 1, 1998.

(B)On and after January 1, 2012, this subdivision shall apply to public skateboard parks that were constructed on or after January 1, 1996.

(6)For purposes of injuries that occur while operating one of the other wheeled recreational devices defined in subdivision (d) in a skateboard facility, this subdivision shall apply to any claim for injuries occurring on or after the effective date of the measure adding this paragraph.

(Amended by Stats. 2020, Ch. 236, Sec. 1. (SB 1003) Effective September 28, 2020.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 10. RECREATIONAL SAFETY [115725 - 116095]__

(Part 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Safe Recreational Water Use [115825 - 116090.7]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Recreational Use of Reservoirs [115825 - 115850]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

115825.

(a)It is hereby declared to be the policy of this state that multiple use should be made of all public water within the state, to the extent that multiple use is consistent with public health and public safety.

(b)Except as provided in this article, recreational uses shall not, with respect to a reservoir in which water is stored for domestic use, include recreation in which there is bodily contact with the water by any participant.

(Amended by Stats. 2004, Ch. 519, Sec. 1. Effective January 1, 2005.)

115830.

All water supply reservoirs of a public agency, whether heretofore or hereafter constructed, shall be open for recreational use by the people of this state, subject to the regulations of the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115835.

Unless the context otherwise requires, the following definitions shall control the construction of this article:

(a) Multiple use includes domestic, industrial, agricultural, and recreational uses.

(b) Public agency means the state or any city, other than a chartered city, county, public district, or other public institution.

(c) Reservoir does not include ditches, canals, or any similar type of water distributing facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115840.

(a) In San Diego County, recreational uses shall not, with respect to a reservoir in which water is stored for domestic use, include recreation in which there is bodily contact with the water by any participant, unless both of the following conditions are satisfied:

(1) The water subsequently receives complete water treatment, including coagulation, flocculation, sedimentation, filtration, and disinfection, before being used for domestic purposes.

(2) The reservoir is operated in compliance with regulations of the department, as provided in Section 115830.

(b) The recreational use may be subject to additional conditions and restrictions adopted by the entity operating the water supply reservoir, if the conditions and restrictions do not conflict with regulations of the department and are designed to further protect or enhance the public health and safety.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115840.5.

(a) In the Modesto Reservoir, recreational uses shall not include recreation in which any participant has bodily contact with the water, unless both of the following conditions are satisfied:

(1) The water subsequently receives complete water treatment, in compliance with all applicable department regulations, including coagulation, flocculation, sedimentation, filtration, and disinfection, before being used for domestic purposes. The disinfection shall include, but not be limited to, ozonation.

(2) The reservoir is operated in compliance with regulations of the department.

(b) The recreational use may be subject to additional conditions and restrictions adopted by the entity operating the water supply reservoir or required by the department, if those conditions and restrictions do not conflict with regulations of the department, and are required to further protect or enhance the public health and safety. The department shall, prior to requiring any additional conditions and restrictions, consult with the entity operating the water supply reservoir regarding the proposed conditions and restrictions at least 60 days prior to the effective date of those conditions or restrictions.

(c) The Modesto Irrigation District shall file, on or before January 1, 2002, with the Legislature, a report on the recreational uses at Modesto Reservoir and the water treatment program. The report shall include, but not be limited to, all of the following information:

(1) The estimated levels and types of recreational uses at the reservoir on a monthly basis.

(2) Levels of methyl tertiary butyl ether at various reservoir locations on a monthly basis.

(3) A summary of available monitoring in the Modesto Reservoir watershed for giardia and cryptosporidium.

(4) The sanitary survey of the watershed and water quality monitoring plan.

(5) An evaluation of recommendations relating to removal and inactivation of cryptosporidium and giardia as specified in the department water permit dated October 28, 1997.

(6) Annual reports provided to the department, as required pursuant to Sections I and IV of the department water permit dated October 28, 1997.

(7) An evaluation of the impact on source water quality due to recreational activities on the Modesto Reservoir, including any microbiological monitoring.

(8) A summary of any activities between the district and the county for operation of recreational uses and facilities in a manner that optimizes the water quality.

(9) The reservoir management plan and the operations plan.

(10) The annual water quality reports submitted to consumers each year.

(d) If there is a change in operation of the treatment facility or a change in the quantity of water to be treated at the treatment facility, the department may require the Modesto Irrigation District to file a report that includes, but is not limited to, the information required pursuant to subdivision (c), and the district shall demonstrate to the satisfaction of the department that water quality will not be adversely affected.

(Amended by Stats. 2003, Ch. 742, Sec. 3. Effective January 1, 2004.)

115841.

Recreational activity in which there is bodily contact with the water by any participant shall continue to be allowed in Nacimiento Reservoir in accordance with all of the following requirements :

(a) Any agency that removes water from the reservoir for domestic use shall comply with any, or at a minimum, one of the following with regard to the water removed:

(1) The water subsequently receives complete water treatment in compliance with all applicable department regulations, including coagulation, flocculation, sedimentation, filtration, and disinfection, before being used for domestic purposes.

(2) The water is discharged in a manner that allows percolation into a subsurface groundwater basin for subsequent extraction from only those groundwater wells that have been determined by the department not to be under the influence of surface water pursuant to Chapter 17 (commencing with Section 64650) of Division 4 of Title 22 of the California Code of Regulations and subsequently receives disinfection and complies with all applicable department regulations before being used for domestic purposes.

(3) The water is discharged in a manner that allows percolation into a subsurface groundwater basin for subsequent extraction from groundwater wells under the influence of surface water that receives treatment

pursuant to Chapter 17 (commencing with Section 64650) of Division 4 of Title 22 of the California Code of Regulations and complies with all applicable department regulations.

(b) The reservoir is operated in compliance with regulations of the department.

(c) The water stored for domestic purposes that may be excepted from the requirements of subdivision (b) of Section 115825 is removed from the reservoir by an agency for domestic purposes only in San Luis Obispo County and only in an amount for which that agency has a contractual right.

(Added by Stats. 1997, Ch. 524, Sec. 2. Effective January 1, 1998.)

115842.

(a)Recreational activity in which there is bodily contact with the water by any participant is allowed in the Sly Park Reservoir provided that all of the following conditions are satisfied:

(1)The water shall receive complete water treatment, including coagulation, flocculation, sedimentation, filtration, and disinfection; or alternative treatment that complies with all applicable department regulations and requirements. Such treatment shall, at a minimum, comply with all state laws and department regulations and all federal laws and regulations, including, but not limited to, the federal Environmental Protection Agency Long-Term 2 Enhanced Surface Water Treatment regulations. Nothing in this division shall limit the state or the department from imposing more stringent treatment standards than those required by federal law.

(2)The El Dorado Irrigation District conducts a monitoring program for E. coli, bacteria and giardia, and cryptosporidium organisms at various reservoir locations and at a frequency determined by the department.

(3)The reservoir is operated in compliance with regulations of the department.

(b)The recreational use of that reservoir shall be subject to additional conditions and restrictions adopted by the entity operating the water supply reservoir, or by the department, that are required to further protect or enhance the public health and safety and do not conflict with regulations of the department.

(c)The El Dorado Irrigation District shall file, on or before January 1, 2005, with the department, a report on the recreational uses at Sly Park Reservoir and the water treatment program for that reservoir. That report shall include, but is not limited to, providing all of the following information:

(1)The estimated levels and types of recreational uses at the reservoir on a monthly basis.

(2)A summary of available monitoring in Sly Park Reservoir watershed for giardia and cryptosporidium.

(3)The sanitary survey of the watershed and water quality monitoring plan.

(4)An evaluation, as prescribed by the department, to determine the impact on source water quality due to recreational activities on Sly Park Reservoir, including any microbiological monitoring.

(5)The reservoir management plan and the operations plan.

(6)The annual water reports submitted to the consumers each year.

(d)The department shall prescribe the degree of treatment including, but not limited to, treatment processes necessary to abate any increased hazards resulting from body contact recreation based on information provided in the report filed pursuant to subdivision (c).

(Amended by Stats. 2005, Ch. 252, Sec. 1. Effective September 22, 2005.)

115843.5.

(a)In the Canyon Lake Reservoir, recreational uses shall not include recreation in which any participant has bodily contact with the water, unless both of the following conditions are satisfied:

(1)The water subsequently receives complete water treatment, in compliance with all applicable department regulations, including coagulation, flocculation, sedimentation, filtration, and disinfection, before being used for domestic purposes. The disinfection shall include, but is not limited to, an advanced technology capable of inactivating organisms, including, but not limited to, viruses, cryptosporidium, and giardia, to levels that comply with department regulations. The treatment shall include, but need not be limited to, ozonation or ultra violet disinfection. The treatment shall, at a minimum, comply with all state laws and department regulations and all federal laws and regulations, including, but not limited to, the federal Environmental Protection Agency Long-Term 2 Enhanced Surface Water Treatment regulations. Nothing in this division shall limit the state or the department from imposing more stringent treatment standards than those required by federal law.

(2)The reservoir is operated in compliance with regulations of the department.

(b)The recreational use may be subject to additional conditions and restrictions adopted by the entity operating the water supply reservoir or required by the department, if those conditions and restrictions do not conflict with regulations of the department, and are required to further protect or enhance the public health and safety.

(c)The Elsinore Valley Municipal Water District shall, by January 1, 2007, file a report with the Legislature on the recreational uses at Canyon Lake Reservoir and the water treatment program. The report shall include, but not necessarily be limited to, all of the following information:

(1)Participation in watershedwide activities to improve water quality in the Canyon Lake Reservoir.

(2)Annual results of volatile organic compounds, general minerals, and nutrients testing results provided to the department.

(3)A summary of available monitoring in the Canyon Lake Reservoir provided to the department for giardia and cryptosporidium.

(4)The most current sanitary survey of the watershed and water quality monitoring plan.

(5)A summary of monthly reports provided to the department on intake water bacteria and water quality.

(6)A summary of monthly reports provided to the department on water usage in Canyon Lake Reservoir.

(7)An evaluation of the impact on source water quality due to recreational activities on the Canyon Lake

Reservoir, including any microbiological monitoring, and a summary of monthly reports provided to the department on treatment plant performance.

(8)A summary of activities between Elsinore Valley Municipal Water District and the Canyon Lake Property Owners Association for operation of recreational uses and facilities in a manner that optimizes the water quality.

(9)The reservoir management plan and the operations plan.

(10)The annual water quality reports submitted to consumers each year.

(d)If there is a change in operation of the treatment facility or a change in the quantity of water to be treated at the treatment facility, the department may require the Elsinore Valley Municipal Water District to file a report that includes, but is not limited to, the information required pursuant to subdivision (c), and the district shall demonstrate to the satisfaction of the department that water quality will not be adversely affected.

(Amended by Stats. 2007, Ch. 253, Sec. 2. Effective September 26, 2007.)

115843.6.

(a)In the Bear Lake Reservoir, recreational uses shall not include recreation in which any participant has bodily contact with the water, unless all of the following conditions are satisfied:

(1)The water subsequently receives complete water treatment, in compliance with all applicable board regulations, including oxidation, filtration, and disinfection, before being used for domestic purposes. The disinfection shall include, but is not limited to, the use of an advanced technology capable of inactivating organisms, including, but not limited to, viruses, cryptosporidium, and giardia, to levels that comply with board regulations. The treatment shall include, but need not be limited to, filtration with a micro or ultrafiltration system rated to 0.1 micron or less. The treatment shall, at a minimum, comply with all state laws and board regulations and all federal laws and regulations, including, but not limited to, the federal Environmental Protection Agency Long Term 2 Enhanced Surface Water Treatment Rule. Nothing in this division shall limit the state or the board in imposing more stringent treatment standards than those required by federal law.

(2)The Lake Alpine Water Company conducts a monitoring program for cryptosporidium, giardia, and total coliform bacteria, including E. coli and fecal coliform, at the reservoir intake and at posttreatment at a frequency determined by the board.

(3)The reservoir is operated in compliance with regulations of the board.

(b)The recreational use of Bear Lake Reservoir shall be subject to additional conditions and restrictions adopted by the entity operating the water supply reservoir, or required by the board, that are required to further protect or enhance the public health and safety and do not conflict with regulations of the board.

(c)The Lake Alpine Water Company shall file, on or before December 31, 2017, and biennially thereafter, with the Legislature in accordance with Section 9795 of the Government Code and the board, a report on the recreational uses at Bear Lake Reservoir and the water treatment program for that reservoir. That report shall include, but is not limited to, all of the following information:

(1)The estimated levels and types of recreational uses at the reservoir on a monthly basis.

(2)A summary of monitoring in the Bear Lake Reservoir watershed for cryptosporidium, giardia, and total coliform bacteria, including E. coli and fecal coliform.

(3)The most current sanitary survey of the watershed and water quality monitoring.

(4)As deemed necessary by the board, an evaluation of recommendations relating to inactivation and removal of cryptosporidium and giardia.

(5)Annual reports provided to the board as required by the water permit issued by the board.

(6)An evaluation of the impact on source water quality due to recreational activities on Bear Lake Reservoir, including any microbiological monitoring.

(7)A summary of activities for operation of recreational uses and facilities in a manner that optimizes the water quality.

(8)The reservoir management plan and the operations plan.

(9)The annual water reports submitted to the consumers each year.

(d)If there is a change in operation of the treatment facility or a change in the quantity of water to be treated at the treatment facility, the board may require the entity operating the water supply reservoir to file a report that includes, but is not limited to, the information required in subdivision (c), and the entity shall demonstrate to the satisfaction of the board that water quality will not be adversely affected.

(e)(1)The board shall, at the end of each recreational season, annually review monitoring and reporting data from the Bear Lake Reservoir to ensure full compliance with this section.

(2)If at any time the board finds a failure to comply with this section, the exemption granted pursuant to this section shall cease immediately, and a permit issued to the Lake Alpine Water Company pursuant to Chapter 4 (commencing with Section 116270) of Part 12 may be subject to suspension, amendment, or revocation pursuant to that chapter. A failure to comply with this section shall be deemed a violation of Chapter 4 (commencing with Section 116270) of Part 12 and shall be subject to any applicable fines, penalties, or other enforcement action provided under that chapter.

(f)As used in this section, board means the State Water Resources Control Board.

(Amended by Stats. 2021, Ch. 54, Sec. 1. (AB 440) Effective January 1, 2022.)

115845.

The public agency operating any water supply reservoir that is open for recreational use pursuant to this article may charge a use fee to cover the cost of policing the area around the reservoir, including the cost of providing the necessary sanitary facilities and other costs incidental to the recreational use of the reservoir.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115850.

This article does not apply to terminal reservoirs for the supply of domestic water.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 10. RECREATIONAL SAFETY [115725 - 116095]__

(Part 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Safe Recreational Water Use [115825 - 116090.7]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Public Beaches [115875 - 115915]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

115875.

For the purposes of this article, the following terms have the following meanings:

(a)Public beach means any beach area used by the public for recreational purposes that is owned, operated,

or controlled by the state, any state agency, any local agency, or any private person in this state, and is located in the coastal zone, as defined in Section 30103 of the Public Resources Code, or within the jurisdiction of the San Francisco Bay Conservation and Development Commission, as set forth in Section 66610 of the Government Code.

(b)Board means the State Water Resources Control Board.

(c)Department means the State Department of Public Health.

(d)Health officer means the legally appointed local health officer or director of environmental health of the county or city having jurisdiction of the area in which a public saltwater beach is located.

(Amended by Stats. 2011, Ch. 592, Sec. 1. (SB 482) Effective January 1, 2012.)

115880.

(a)The department shall, by regulation and in consultation with the board, local health officers, and the public, establish, maintain, and amend as necessary, minimum standards for the sanitation of public beaches, including, but not limited to, the removal of refuse, as it determines are reasonably necessary for the protection of the public health and safety.

(b)Prior to final adoption or amendment by the department, the regulations and standards required by this section shall undergo an external comprehensive review process similar to the process set forth in Section 57004.

(c)The regulations shall, at a minimum, do all of the following:

(1)Require the testing of the waters adjacent to all public beaches for microbiological contaminants, including, but not limited to, total coliform, fecal coliform, and enterococci bacteria. The department may require the testing of waters adjacent to all public beaches for microbiological indicators other than those set forth in this paragraph, or a subset of those set forth in this paragraph, if the department affirmatively establishes, based on the best available scientific studies and the weight of the evidence, that the alternative indicators are as protective of the public health.

(2)Establish protective minimum standards for total coliform, fecal coliform, and enterococci bacteria, or for other microbiological indicators that the department determines are appropriate for testing pursuant to paragraph (1).

(3)Require that the waters adjacent to public beaches are tested for total coliform, fecal coliform, and enterococci bacteria, or for other microbiological indicators that the department determines are appropriate for testing pursuant to paragraph (1). Except as set forth in subdivision (e), testing shall be conducted on at least a weekly basis from April 1 to October 31, inclusive, of each year beginning in 2012, if both of the following apply:

(A)The beach is visited by more than 50,000 people annually.

(B)The beach is located on an area adjacent to a storm drain that flows in the summer.

(d)Notwithstanding subdivision (a), if a local health officer demonstrates or has demonstrated through side-

by-side testing over a beach season that the use of United States Environmental Protection Agency method 1609 or 1611, or any equivalent or improved rapid detection method published by the United States Environmental Protection Agency for use in beach water quality assessment or approved as an alternative test procedure pursuant to Part 136 of Title 40 of the Code of Federal Regulations, to determine the level of enterococci bacteria as a single indicator provides a reliable indication of overall microbiological contamination conditions at one or more beach locations within that health officersjurisdiction, the department may authorize the use of that testing method at those beach locations instead of other testing methods. In making that determination, the department shall take into account whether an alternative indicator or subset of indicators, with the associated test method, can provide results more quickly, thereby reducing the period of time the public is at risk while waiting for contamination to be confirmed.

(e)The monitoring frequency and locations established pursuant to this section and related regulations may be reduced or altered only after the testing required pursuant to paragraph (3) of subdivision (c) reveals levels of microbiological contaminants that do not exceed, for a period of two years, the minimum protective standards established pursuant to this section.

(f)The local health officer is responsible for testing the waters adjacent to, and coordinating the testing of, all public beaches within his or her jurisdiction.

(g)The local health officer may meet the testing requirements of this section by utilizing test results from other parties conducting microbiological contamination testing of the waters under his or her jurisdiction.

(h)This section does not require a wastewater treatment agency or other party conducting microbiological contamination testing of the waters under his or her jurisdiction, who provides those test results to a local health officer pursuant to this section, to use United States Environmental Protection Agency method 1609 or 1611, or any equivalent or improved rapid detection method published by the United States Environmental Protection Agency for use in beach water quality assessment or approved as an alternative test procedure pursuant to Part 136 of Title 40 of the Code of Federal Regulations, for total maximum daily load implementation, waste discharge requirements, or other monitoring programs required to be implemented pursuant to Division 7 (commencing with Section 13000) of the Water Code.

(i)Any city or county may adopt standards for the sanitation of public beaches within its jurisdiction that are stricter than the standards adopted by the department pursuant to this section.

(Amended by Stats. 2015, Ch. 303, Sec. 342. (AB 731) Effective January 1, 2016.)

115881.

(a)Commencing January 1, 2012, the board shall be responsible for all of the following:

(1)Directing the monitoring required to be conducted by Section 115880.

(2)Establishing and reviewing monitoring protocols, site locations, and monitoring frequencies consistent with Section 115880.

(3)Identifying options for funding the monitoring needed to fulfill the requirements of Section 115880, including options for integrating and streamlining existing monitoring programs or requirements associated with waste discharge requirements, total maximum daily load implementation, or other monitoring programs. If a regional board or state board issues waste discharge requirements that require monitoring to

meet the requirements set forth in paragraph (1) of subdivision (c) of Section 115880, the monitoring shall only be required to the extent that the discharge has the potential to cause or contribute to exceedances of the standards established pursuant to paragraph (2) of subdivision (c) of Section 115880. Nothing in this section shall preclude any discharger from voluntarily participating in monitoring necessary to meet the requirements of Section 115880.

(b)The establishment and review of monitoring protocols, site locations, and monitoring frequencies by the board pursuant to this section shall be done in consultation with the department and local health officers, but shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(c)Until June 30, 2016, not more than one million eight hundred thousand dollars ($1,800,000) of the funds collected annually pursuant to Section 13260 of the Water Code may be used, upon appropriation by the Legislature, as a funding source for the implementation of this article.

(d)Any duty imposed upon a local public officer or agency pursuant to this section and Section 115880 shall be mandatory only during a fiscal year in which the Legislature has appropriated sufficient funds, as determined by the board, in the annual Budget Act or otherwise for local agencies to cover the costs to those agencies associated with the performance of these duties. The board shall annually, within 15 days after enactment of the Budget Act, file a written statement with the Secretary of the Senate and with the Chief Clerk of the Assembly memorializing whether sufficient funds have been appropriated.

(Added by Stats. 2011, Ch. 592, Sec. 3. (SB 482) Effective January 1, 2012.)

115885.

(a)The health officer having jurisdiction over the area in which a public beach is created shall:

(1)Inspect the public beach to determine whether the standards established pursuant to Section 115880 are being complied with. If the health officer finds any violation of the standards, he or she may restrict the use of, or close, the public beach or portion thereof in which the violation occurs until the standard is complied with.

(2)Investigate any complaint of a violation of any standard established by the department pursuant to Section 115880. If the health officer finds any violation of the standards prescribed by the department, he or she may restrict the use of, or close, the public beach or portion thereof until the standard is complied with. If the person who made the complaint is not satisfied with the action taken by the health officer, he or she may report the violation to the department. The department shall investigate the reported violation, and, if it finds that the violation exists, it may restrict the use of or close the public beach or portion thereof until the standard violated is complied with.

(3)Whenever a beach is posted, closed, or otherwise restricted in accordance with Section 115915, inform the agency responsible for the operation and maintenance of the public beach within 24 hours of the posting, closure, or restriction.

(4)Establish a telephone hotline to inform the public of all beaches currently closed, posted, or otherwise restricted. The hotline shall be updated as needed in order to convey changes in public health risks.

(5)Report any violation of the standards established pursuant to Section 115880 to the district attorney, or if

the violation occurred in a city and, pursuant to Section 41803.5 of the Government Code, the city attorney is authorized to prosecute misdemeanors, to the city attorney.

(6)In the event of a known untreated sewage release, immediately test the waters adjacent to the public beach and to take action pursuant to regulations established under Sections 115880 and 115881.

(7)Notwithstanding any other provision of law, in the event of an untreated sewage release that is known to have reached recreational waters adjacent to a public beach, immediately close those waters until it has been determined by the local health officer that the waters are in compliance with the standards established pursuant to Section 115880.

(b)If the department is aware of an untreated sewage release that has reached recreational waters adjacent to a public beach, and that the local health officer has not taken action to close the beach, it may take action to close those waters until the waters are in compliance.

(c)Any duty imposed upon a local public officer or agency pursuant to this section shall be mandatory only during a fiscal year in which the Legislature has appropriated sufficient funds, as determined by the State Public Health Officer, in the annual Budget Act or otherwise for local agencies to cover the costs to those agencies associated with the performance of these duties. The State Public Health Officer shall annually, within 15 days after enactment of the Budget Act, file a written statement with the Secretary of the Senate and with the Chief Clerk of the Assembly memorializing whether sufficient funds have been appropriated.

(Amended by Stats. 2011, Ch. 592, Sec. 4. (SB 482) Effective January 1, 2012.)

115890.

Prior to restricting the use of or closing a public beach or portion thereof alleged to be in violation of standards, the health officer or the department as the case may be, shall give reasonable notice of the violation to the owner of, or person or agency in charge of, the beach.

(Amended by Stats. 2011, Ch. 592, Sec. 5. (SB 482) Effective January 1, 2012.)

115895.

Any private person who violates any regulation adopted by the department pursuant to Section 115880 is guilty of a misdemeanor.

(Amended by Stats. 2011, Ch. 592, Sec. 6. (SB 482) Effective January 1, 2012.)

115910.

(a)On or before the 15th day of each month, each health officer shall submit to the board a survey documenting all beach postings and closures resulting from implementation of Section 115915 that occurred during the preceding month. The survey shall, at a minimum, include the following information:

(1)Identification of the beaches in each county subject to testing conducted pursuant to Section 115885 and the amount and types of monitoring conducted at each beach.

(2)Identification of the geographic location, areal extent, and type of action taken for each incident of posting or closure conducted pursuant to Section 115915. Geographic location and areal extent shall be noted in sufficient detail to determine on a common map, or by latitude and longitude, the approximate boundaries of the affected beaches.

(3)Identification of the standards exceeded and the causes and sources of the pollution, if known. Exceeded standards shall be identified with sufficient particularity to determine which types of tests and biological indicators were used to determine that an exceeded standard exists. Causes of pollution shall be identified with sufficient particularity to determine what substances, in addition to any water carrying the substances, were responsible for the exceeded standard. Sources shall be identified with sufficient particularity to determine the most specific geographical origin of the pollution sources available to the health officer at the time of the posting or closure.

(b)Surveys conducted pursuant to subdivision (a) shall be in a specific format established by the board on or before February 1, 2001. The board shall make the format easily accessible to the health officer through means that will enable the health officer to most effectively carry out the requirements of this section and enable the board to develop consistent, statewide data concerning the effect and status of beach postings and closures in a particular calendar year.

(c)On or before the 30th day of each month, the board shall make available to the public the information provided by the health officers. Based upon the data provided pursuant to subdivision (a), the report shall, at a minimum, include the location and duration of each beach closure and the suspected sources of the contamination that caused the closure, if known.

(d)The board shall continuously post and update on its Web site, but at a minimum, annually on or before July 30, information documenting the beach posting and closure data provided to the board by the health officers including the location and duration of each beach closure and the suspected sources of the contamination that caused the closure, if known.

(Amended by Stats. 2004, Ch. 644, Sec. 26. Effective January 1, 2005.)

115915.

(a)Whenever any public beach fails to meet the bacteriological standards established pursuant to subdivision (b) of Section 115880, the health officer shall, at a minimum, post the public beach with conspicuous warning signs to inform the public of the nature of the problem and the possibility of risk to public health.

(b)A warning sign shall be visible from each legal primary public beach access point, as identified in the coastal access inventory prepared and updated pursuant to Section 30531 of the Public Resources Code, and any additional access points identified by the health officer.

(c)Any duty imposed upon a local public officer or agency pursuant to this section shall be mandatory only during a fiscal year in which the Legislature has appropriated sufficient funds, as determined by the State Public Health Officer, in the annual Budget Act or otherwise for local agencies to cover the costs to those agencies associated with the performance of these duties. The State Public Health Officer shall annually, within 15 days after enactment of the Budget Act, file a written statement with the Secretary of the Senate

and with the Chief Clerk of the Assembly memorializing whether sufficient funds have been appropriated.

(Amended by Stats. 2011, Ch. 592, Sec. 9. (SB 482) Effective January 1, 2012.)

115917.

(a)(1)On or before July 1, 2022, the council shall direct a new or existing working group to study water recreation hazards at priority water-contact recreation sites.

(2)The working group shall be cochaired by representatives from the state board and the department.

(3)The working group shall include representation from other state agencies as deemed appropriate by the council.

(b)On or before July 1, 2023, the working group shall submit a report to the council that the council shall post on its internet website that shall include all of the following:

(1)A summary of existing, readily available data that identifies water-contact recreation sites.

(2)A summary of existing, readily available data for specific water-contact recreation sites that indicates the timing and types of uses that involve limited body or full body contact with the water and any demographic information about the users.

(3)Potential criteria for identifying priority water-contact recreation sites, with an emphasis on establishing equity-based criteria, including, but not limited to, the use by one or more overburdened communities.

(4)A discussion of potential water quality hazards at priority water-contact recreation sites.

(5)General recommendations for reducing water quality risks at priority water-contact recreation sites. The recommendations may include, but are not limited to, any of the following:

(A)A risk-based water quality monitoring program.

(B)A public water quality safety education campaign.

(C)Posting and notification of water quality hazards at identified water bodies.

(D)Standards or criteria needed to better protect the public from water quality hazards.

(c)On or before December 31, 2023, the council, in consultation with the department, local health officers, and the public, shall propose to the state board for consideration, based on the working group report described in subdivision (b), both of the following:

(1)A definition of a priority water-contact recreation site.

(2)Recommendations and requirements for the establishment of a priority water-contact recreation site monitoring program that shall include, but is not limited to, all of the following components:

(A)The number of monitoring samples necessary per priority water-contact recreation site.

(B)The frequency of monitoring.

(C)The annual or seasonal duration of monitoring.

(D)The microbiological standards, methods, and data sharing protocols to be used to support an effective monitoring program.

(d)In developing a proposed definition of a priority water-contact recreation site, the council shall consider various characteristics of a water body including, but not limited to, whether the water body is all of the following:

(1)A fresh or estuarine surface water, including water bodies with seasonal or tidal fluctuations.

(2)Used for organized recreational events with water contact.

(3)Used for commercial purposes with water contact.

(4)Accessed through a required fee area and used for water contact.

(5)Used by a high number of persons for water contact recreation.

(6)Designated by the state board or a regional board for water contact recreation (REC-1) beneficial use.

(7)Used by overburdened communities.

(8)Identified as having the potential for significant water quality hazards.

(e)For purposes of this section, the following definitions apply:

(1)Council means the California Water Quality Monitoring Council established pursuant to Section 13181 of the Water Code.

(2)Department means the State Department of Public Health.

(3)Inland water means all fresh and estuarine surface waters of the state.

(4)Overburdened community means a minority, low-income, tribal, or indigenous population or geographic location that potentially experiences disproportionate environmental harms and risks. The disproportionality can be as a result of greater vulnerability to environmental hazards, lack of opportunity for public participation, or other factors. Increased vulnerability may be attributable to an accumulation of negative or lack of positive environmental, health, economic, or social conditions within these populations or places. Overburdened community includes situations where multiple factors, including both environmental and socioeconomic stressors, may act cumulatively to affect health and the environment and contribute to persistent environmental health disparities.

(5)Regional board means a California regional water quality control board.

(6)State board means the State Water Resources Control Board.

(7)Water-contact recreation site means any inland water that is used, or is suitable for being used, recreationally in a manner that involves limited body or full body contact with the water.

(Amended by Stats. 2022, Ch. 28, Sec. 104. (SB 1380) Effective January 1, 2023.)

__CHAPTER 5. Safe Recreational Water Use [115825 - 116090.7]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2.5. The Swimming Pool Safety Act [115920 - 115929]__

(Article 2.5 added by Stats. 1996, Ch. 925, Sec. 3.5.)

115920.

This act shall be known and may be cited as the Swimming Pool Safety Act.

(Added by Stats. 1996, Ch. 925, Sec. 3.5. Effective January 1, 1997.)

115921.

As used in this article the following terms have the following meanings:

(a)Swimming pool or pool means any structure intended for swimming or recreational bathing that contains water over 18 inches deep. Swimming pool includes in-ground and aboveground structures and includes, but is not limited to, hot tubs, spas, portable spas, and nonportable wading pools.

(b)Public swimming pool means a swimming pool operated for the use of the general public with or without charge, or for the use of the members and guests of a private club. Public swimming pool does not include a swimming pool located on the grounds of a private single-family home.

(c)Enclosure means a fence, wall, or other barrier that isolates a swimming pool from access to the home.

(d)Approved safety pool cover means a manually or power-operated safety pool cover that meets all of the performance standards of the American Society for Testing and Materials (ASTM), in compliance with standard F1346-91.

(e)Exit alarms means devices that make audible, continuous alarm sounds when any door or window, that permits access from the residence to the pool area that is without any intervening enclosure, is opened or is left ajar. Exit alarms may be battery operated or may be connected to the electrical wiring of the building.

(f)ANSI/APSP performance standard means a standard that is accredited by the American National Standards Institute (ANSI) and published by the Association of Pool and Spa Professionals (APSP).

(g)Suction outlet means a fitting or fixture typically located at the bottom or on the sides of a swimming pool that conducts water to a recirculating pump.

(Amended by Stats. 2012, Ch. 679, Sec. 1. (AB 2114) Effective January 1, 2013.)

115922.

(a)Except as provided in Section 115925, when a building permit is issued for the construction of a new swimming pool or spa or the remodeling of an existing swimming pool or spa at a private single-family home, the respective swimming pool or spa shall be equipped with at least two of the following seven drowning prevention safety features:

(1)An enclosure that meets the requirements of Section 115923 and isolates the swimming pool or spa from the private single-family home.

(2)Removable mesh fencing that meets American Society for Testing and Materials (ASTM) Specifications F2286 standards in conjunction with a gate that is self-closing and self-latching and can accommodate a key lockable device.

(3)An approved safety pool cover, as defined in subdivision (d) of Section 115921.

(4)Exit alarms on the private single-family homesdoors that provide direct access to the swimming pool or spa. The exit alarm may cause either an alarm noise or a verbal warning, such as a repeating notification that the door to the pool is open.

(5)A self-closing, self-latching device with a release mechanism placed no lower than 54 inches above the floor on the private single-family homesdoors providing direct access to the swimming pool or spa.

(6)An alarm that, when placed in a swimming pool or spa, will sound upon detection of accidental or unauthorized entrance into the water. The alarm shall meet and be independently certified to the ASTM Standard F2208 Standard Safety Specification for Residential Pool Alarms, which includes surface motion, pressure, sonar, laser, and infrared type alarms. A swimming protection alarm feature designed for individual use, including an alarm attached to a child that sounds when the child exceeds a certain distance or becomes submerged in water, is not a qualifying drowning prevention safety feature.

(7)Other means of protection, if the degree of protection afforded is equal to or greater than that afforded by any of the features set forth above and has been independently verified by an approved testing laboratory as meeting standards for those features established by the ASTM or the American Society of Mechanical Engineers (ASME).

(b)Before the issuance of a final approval for the completion of permitted construction or remodeling work, the local building code official shall inspect the drowning safety prevention features required by this section and, if no violations are found, shall give final approval.

(Amended by Stats. 2017, Ch. 670, Sec. 4. (SB 442) Effective January 1, 2018.)

115923.

An enclosure shall have all of the following characteristics:

(a) Any access gates through the enclosure open away from the swimming pool, and are self-closing with a self-latching device placed no lower than 60 inches above the ground.

(b) A minimum height of 60 inches.

(c) A maximum vertical clearance from the ground to the bottom of the enclosure of two inches.

(d) Gaps or voids, if any, do not allow passage of a sphere equal to or greater than four inches in diameter.

(e) An outside surface free of protrusions, cavities, or other physical characteristics that would serve as handholds or footholds that could enable a child below the age of five years to climb over.

(Added by Stats. 1996, Ch. 925, Sec. 3.5. Effective January 1, 1997.)

115924.

(a)Any person entering into an agreement to build a swimming pool or spa, or to engage in permitted work

on a pool or spa covered by this article, shall give the consumer notice of the requirements of this article.

(b)Pursuant to existing law, the Department of Health Services shall have available on the departmentsWeb site, commencing January 1, 2007, approved pool safety information available for consumers to download. Pool contractors are encouraged to share this information with consumers regarding the potential dangers a pool or spa poses to toddlers. Additionally, pool contractors may provide the consumer with swimming pool safety materials produced from organizations such as the United States Consumer Product Safety Commission, Drowning Prevention Foundation, California Coalition for ChildrensSafety & Health, Safe Kids Worldwide, Association of Pool and Spa Professionals, or the American Academy of Pediatrics.

(Amended by Stats. 2006, Ch. 478, Sec. 3. Effective January 1, 2007.)

115925.

The requirements of this article do not apply to any of the following:

(a)Public swimming pools.

(b)Hot tubs or spas with locking safety covers that comply with the American Society for Testing and Materials (ASTM F1346).

(c)An apartment complex, or any residential setting other than a single-family home.

(Amended by Stats. 2017, Ch. 670, Sec. 5. (SB 442) Effective January 1, 2018.)

115926.

This article does not apply to any facility regulated by the State Department of Social Services even if the facility is also used as the private residence of the operator. Pool safety in those facilities shall be regulated pursuant to regulations adopted therefor by the State Department of Social Services.

(Added by Stats. 1996, Ch. 925, Sec. 3.5. Effective January 1, 1997.)

115927.

Notwithstanding any other provision of law, this article shall not be subject to further modification or interpretation by any regulatory agency of the state, this authority being reserved exclusively to local jurisdictions, as provided for in paragraph (7) of subdivision (a) of Section 115922 and subdivision (c) of Section 115925.

(Amended by Stats. 2018, Ch. 957, Sec. 13. (SB 1078) Effective January 1, 2019.)

115928.

Whenever a building permit is issued for the construction of a new swimming pool or spa, the pool or spa shall meet all of the following requirements:

(a)(1)The suction outlets of the pool or spa for which the permit is issued shall be equipped to provide circulation throughout the pool or spa as prescribed in paragraphs (2) and (3).

(2)The swimming pool or spa shall either have at least two circulation suction outlets per pump that shall be hydraulically balanced and symmetrically plumbed through one or more T fittings, and that are separated by a distance of at least three feet in any dimension between the suction outlets, or be designed to use alternatives to suction outlets, including, but not limited to, skimmers or perimeter overflow systems to conduct water to the recirculation pump.

(3)The circulation system shall have the capacity to provide a complete turnover of pool water, as specified in Section 3124B of Chapter 31B of the California Building Standards Code (Title 24 of the California Code of Regulations).

(b)Suction outlets shall be covered with antientrapment grates, as specified in the ANSI/APSP-16 performance standard or successor standard designated by the federal Consumer Product Safety Commission, that cannot be removed except with the use of tools. Slots or openings in the grates or similar protective devices shall be of a shape, area, and arrangement that would prevent physical entrapment and would not pose any suction hazard to bathers.

(c)Any backup safety system that an owner of a new swimming pool or spa may choose to install in addition to the requirements set forth in subdivisions (a) and (b) shall meet the standards as published in the document, Guidelines for Entrapment Hazards: Making Pools and Spas Safer, Publication Number 363, March 2005, United States Consumer Product Safety Commission.

(Amended by Stats. 2012, Ch. 679, Sec. 2. (AB 2114) Effective January 1, 2013.)

115928.5.

Whenever a building permit is issued for the remodel or modification of an existing swimming pool, toddler pool, or spa, the permit shall require that the suction outlet or suction outlets of the existing swimming pool, toddler pool, or spa be upgraded so as to be equipped with antientrapment grates, as specified in the ANSI/APSP-16 performance standard or a successor standard designated by the federal Consumer Product Safety Commission.

(Amended by Stats. 2012, Ch. 679, Sec. 3. (AB 2114) Effective January 1, 2013.)

115929.

(a) The Legislature encourages a private entity, in consultation with the Epidemiology and Prevention for Injury Control Branch of the department, to produce an informative brochure or booklet, for consumer use, explaining the child drowning hazards of, possible safety measures for, and appropriate drowning hazard prevention measures for, home swimming pools and spas, and to donate the document to the department.

(b) The Legislature encourages the private entity to use existing documents from the United States Consumer Product Safety Commission on pool safety.

(c) If a private entity produces the document described in subdivisions (a) and (b) and donates it to the department, the department shall review and approve the brochure or booklet.

(d) Upon approval of the document by the department, the document shall become the property of the state and a part of the public domain. The department shall place the document on its Web site in a format that is readily available for downloading and for publication. The department shall review the document in a timely and prudent fashion and shall complete the review within 18 months of receipt of the document from a private entity.

(Added by Stats. 2003, Ch. 422, Sec. 3. Effective January 1, 2004.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=10.&chapter=5.&article=2.7.

115951.

For purposes of this article, the following definitions shall apply:

(a)Nonswimmer means a person who is a weak or inexperienced swimmer or a person who cannot swim.

(b)Patron means a swimmer or nonswimmer using a wave pool.

(c)Rest period means a period of time that the wave generating equipment for the wave pool is not producing breaking waves.

(d)Wave pool means a swimming pool designed for the purpose of producing breaking wave action in the water and that is not primarily designed for standup surfing or bodyboarding.

(Added by Stats. 2008, Ch. 335, Sec. 2. Effective January 1, 2009.)

115952.

On and after January 1, 2009, a wave pool in this state shall comply with all of the following:

(a)(1)A wave pool operator shall provide a United States Coast Guard-approved Type II or Type III lifevest that is free and available for use by a nonswimmer or a child under 48 inches in height. A wave pool operator shall also provide a United States Coast Guard-approved Type II or Type III lifevest that is free and available for use to any other patron at the request of the patron.

(2)Notwithstanding paragraph (1), a patron, including a nonswimmer and child, may use his or her own lifevest if that lifevest is a United States Coast Guard-approved Type II or Type III lifevest.

(b)(1)Children under 48 inches in height, regardless of whether the child is accompanied by an adult, shall wear a properly fitting United States Coast Guard-approved Type II or Type III lifevest to gain access to a wave pool.

(2)A child under 42 inches in height shall be accompanied by an adult in order to gain entry into the park. A wave pool operator shall deny entrance into the park of a child under 42 inches in height if that child is not accompanied by an adult.

(3)Any person or child who refuses to comply with paragraph (2) of subdivision (a) or paragraph (1) of this subdivision shall be removed from the park by the wave pool operator.

(c)In all cases where wave action is suspended for any reason, an audible signal shall be used prior to resuming wave action to warn patrons of impending waves. That audible signal may be of any duration, but shall sound within 15 seconds immediately prior to resuming the breaking wave action. The audible signal shall be loud enough so that it can be heard by all patrons of the wave pool, but shall not exceed 90 decibels.

(d)(1)Lifeguards shall be assigned to guard a wave pool.

(2)The wave pool operator shall ensure that there are a sufficient number of lifeguards on duty to recognize, respond, and provide care to swimmers in distress or passive or active drowning persons within, but no longer than, 30 seconds of the onset of their peril.

(3)A lifeguard subject to this subdivision shall have an unobstructed view of, and be able to completely observe, in its entirety, his or her defined zone of protection in the wave pool.

(4)A wave pool operator shall ensure that conditions in a wave pool are continually reevaluated for safety and shall adjust lifeguard staffing accordingly.

(e)An emergency stop for the wave equipment shall be easily accessible to the lifeguards and other pool officials, as required by the Division of Occupational Safety and Health.

(f)A wave pool operator shall ensure that the wave pool has regular periods without breaking waves being produced; to accomplish this, the wave pool operator shall ensure that continuous breaking wave cycles in a wave pool shall not exceed 15 minutes.

(g)Signs with clearly legible letters and, if appropriate, symbols, indicating the requirements described in subdivisions (a) to (c), inclusive, shall appear at the ticket booth or entrance gate to the park or other facility where the wave pool is located.

(Added by Stats. 2008, Ch. 335, Sec. 2. Effective January 1, 2009.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 10. RECREATIONAL SAFETY [115725 - 116095]__

(Part 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Safe Recreational Water Use [115825 - 116090.7]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2.8. Wave Basin Standards [115960.1 - 115960.2]__

(Article 2.8 added by Stats. 2022, Ch. 461, Sec. 1.)

115960.1.

The following definitions apply for purposes of this article:

(a)Department means the State Department of Public Health.

(b)Wave basin means an artificially constructed body of water within an impervious water containment structure incorporating the use of a mechanical device principally designed to generate waves for surfing on a surfboard or analogous surfing device commonly used in the ocean and intended for sport. Wave basin does not include wave pools, as defined under the Wave Pool Safety Act (Article 2.7 (commencing with Section 115950)).

(Added by Stats. 2022, Ch. 461, Sec. 1. (AB 2298) Effective January 1, 2023.)

115960.2.

(a)A wave basin shall be subject to regulation as a permanent amusement ride under the Permanent Amusement Ride Safety Inspection Program (Part 8.1 (commencing with Section 7920) of Division 5 of the Labor Code), and the Division of Occupational Safety and Health may inspect and otherwise oversee the operation of a wave basin to ensure compliance with those standards and requirements. This section does

not limit the existing authority of the division to regulate permanent amusement rides.

(b)The department, in consultation with the Division of Occupational Safety and Health, shall adopt regulations regulating sanitation and safety of wave basins. The department may consider the federal Centers for Disease Control and Prevention guidance, including, but not limited to, the guidance outlined in the Model Aquatic Health Code during the rulemaking process. The regulations adopted pursuant to this section may be modeled upon the sanitation and safety regulations for swimming pools, but shall consider the unique characteristics of a wave basin, including the volume of water, chemical dispersion caused by wave action, and the size of a typical wave basin.

(c)A local health officer shall have the authority to enforce wave basin sanitation and safety regulations adopted by the department, pursuant to subdivision (b), in their jurisdiction.

(d)Nothing in this article shall relieve a wave basin operator from its obligation to comply with applicable sanitation and safety requirements until the wave basin sanitation and safety regulations are adopted by the department pursuant to subdivision (b).

(Added by Stats. 2022, Ch. 461, Sec. 1. (AB 2298) Effective January 1, 2023.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 10. RECREATIONAL SAFETY [115725 - 116095]__

(Part 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Safe Recreational Water Use [115825 - 116090.7]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Life Saving Devices [115975 - 116020]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

115975.

Resort,□ as used in this article, means a resort, bathhouse, or other public place for the purpose of accommodating bathers, bordering upon or adjoining the seacoast or a lake where the public resort for the purpose of bathing in the open sea or lake.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115980.

No person shall own or conduct a resort unless it is equipped with at least one lifeboat.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115985.

The boat shall be fully equipped with oars, oarlocks, and not less than two life preservers, and two hundred feet of rope.

It shall be kept in good repair and near the resort.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115990.

The boat shall have the word lifeboat□ plainly printed or painted upon it. It shall be used for no purpose other than for the saving of life or for other cases of emergency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

115995.

Every person who violates any provision of this article is guilty of a misdemeanor punishable by a fine of not less than ten nor more than four hundred dollars ($400), or by imprisonment for not less than ten days nor more than six months, or by both.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116000.

Resort, as used in this article, means any public bathing or swimming place or resort on a river or stream.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116005.

No person shall maintain a resort unless he or she carefully sounds the depth of water and locates the eddies and pools and determines the presence and nature of dangerous currents, sunken logs, rocks, and obstructions in the stream or river.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116010.

No person shall maintain a resort unless signs indicating in plain letters the depth of water, the location of pools or eddies, and the presence and direction of currents of water are placed and maintained in the water during the season when bathing and swimming are permitted or invited.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116015.

No person shall maintain a resort unless safety ropes are stretched wherever necessary to show the line of eddies, pools, sunken obstructions, and other hidden dangers to bathers in the water.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116020.

Every person who violates any provision of this article is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=10.&chapter=5.&article=5.

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 10. RECREATIONAL SAFETY [115725 - 116095]__

(Part 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Safe Recreational Water Use [115825 - 116090.7]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. Swimming Pool Sanitation and Safety [116025 - 116068]__

(Heading of Article 5 amended by Stats. 2018, Ch. 270, Sec. 1.)

116025.

Public swimming pool, as used in this article, means any public swimming pool, bathhouse, public swimming and bathing place and all related appurtenances.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116028.

Except as provided in Section 116033, lifeguard service, as used in this article, means the attendance at a public swimming pool, during periods of use, of one or more lifeguards who possess, as minimum qualifications, current certificates from an American Red Cross or YMCA of the U.S.A. lifeguard training program, or have equivalent qualifications, as determined by the department, and who are trained to administer first aid, including, but not limited to, cardiopulmonary resuscitation in conformance with Section 123725 and the regulations adopted thereunder, and who have no duties to perform other than to supervise the safety of participants in water-contact activities. Lifeguard services includes the supervision of the safety of participants in water-contact activities by lifeguards who are providing swimming lessons, coaching or overseeing water-contact sports, or providing water safety instructions to participants when no other

persons are using the facilities unless those persons are supervised by separate lifeguard services.

(Amended by Stats. 2022, Ch. 273, Sec. 1. (AB 1672) Effective January 1, 2023.)

116030.

(a) The construction standards as set forth in this article and the regulations adopted pursuant thereto, shall not apply to any artificially constructed swimming facility in excess of 20,000 square feet of surface area, including, but not limited to, a manmade lake or swimming lagoon with sand beaches.

(b) The requirements of this article and regulations adopted pursuant thereto, pertaining to the operation, maintenance, and use of a public swimming pool, including the quality and purity of the water, lifesaving and other measures to ensure the safety of bathers, and measures to ensure personal cleanliness of bathers shall apply to the swimming facilities described in subdivision (a).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116033.

(a)Except as provided in subdivision (b), persons providing aquatic instruction, including, but not limited to, swimming instruction, water safety instruction, water contact activities, and competitive aquatic sports, at a public swimming pool shall possess current certificates from an American Red Cross or YMCA of the U.S.A. lifeguard training program, or have equivalent qualifications, as determined by the department. In addition, these persons shall be certified in standard first aid and cardiopulmonary resuscitation (CPR). All these persons shall meet these qualifications by January 1, 1991. Persons who only disseminate written materials relating to water safety are not persons providing aquatic instruction within the meaning of this section. The requirements of this section shall be waived under either of the following circumstances:

(1)When one or more aquatic instructors possessing the current certificates from an American Red Cross or YMCA of the U.S.A. lifeguard training program, or the equivalent, are in attendance continuously during periods of aquatic instruction.

(2)When one or more lifeguards meeting the requirements of Section 116028 are in attendance continuously during periods of aquatic instruction.

(b)If there is a staffing shortage where a local public agency pool operator, acting in good faith, is unable to maintain required staffing levels to maintain regular operating hours, the local public agency may use qualified lifeguard personnel, as defined in subdivision (c), to provide lifeguard services at a public swimming pool, if both requirements are met:

(1)The public agency is recognized by the United States Lifesaving Association (USLA) as a certified agency capable of administering an ongoing training program.

(2)The legislative body of the public agency makes a finding by resolution stating the use of qualified lifeguard personnel is needed for a time period no longer than 12 months in order to maintain regular operating hours of public swimming pools.

(c)As used in this section, qualified lifeguard personnel means a public agency lifeguard who has received and maintains USLA training from a certified agency, is certified in standard first aid and cardiopulmonary resuscitation, and has received additional public swimming pool-specific crossover training, provided by personnel certified by a national training agency, including treatment of spinal injuries, floatation device use techniques, pool extraction and extrication techniques, and submerged rescue techniques.

(Amended by Stats. 2022, Ch. 273, Sec. 2. (AB 1672) Effective January 1, 2023.)

116035.

The department has supervision of sanitation, healthfulness, and safety of public swimming pools.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116038.

Every person proposing to construct a public swimming pool shall file a copy of the plans therefor, prior to construction, with the local health officer having jurisdiction for approval.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116040.

Every person operating or maintaining a public swimming pool must do so in a sanitary, healthful and safe manner.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116043.

Every public swimming pool, including swimming pool structure, appurtenances, operation, source of water supply, amount and quality of water recirculated and in the pool, method of water purification, lifesaving apparatus, measures to insure safety of bathers, and measures to insure personal cleanliness of bathers shall be such that the public swimming pool is at all times sanitary, healthful and safe.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116045.

(a)Lifeguard service shall be provided for any public swimming pool that is of wholly artificial construction and for the use of which a direct fee is charged. For all other public swimming pools, lifeguard service shall

be provided or signs shall be erected clearly indicating that the service is not provided.

(b)Every public swimming pool that is required to provide lifeguard services and that charges a direct fee, as defined in subdivision (e), shall provide on its premises an Automated External Defibrillator (AED) unit. The AED unit shall be readily available during pool operations.

(c)(1)In order to ensure public safety, a person or entity that acquires an AED pursuant to these provisions shall comply with Section 1797.196.

(2)Pursuant to subdivision (d) of Section 1714.21 of the Civil Code, a person or entity that acquires an AED for emergency care pursuant to this section shall not be liable for any civil damages resulting from any acts or omissions in the rendering of emergency care by use of the AED.

(3)Pursuant to subdivision (b) of Section 1714.21 of the Civil Code, a volunteer who in good faith renders emergency care or treatment at the scene of an emergency with the use of an AED that is provided under this section shall not be liable for any civil damages resulting from any acts or omissions in rendering the emergency care, subject to the limitation in subdivision (e) of that section.

(d)For purposes of this section, a complex of two or more proximate pools that charges a single fee for admission to all of those pools shall be considered one single public swimming pool.

(e)For purposes of this section, the following definitions shall apply:

(1)Direct fee means a separately stated fee or charge for the use of a public swimming pool to the exclusion of any other service, facility, or amenity.

(2)Public swimming pool means any public swimming pool defined in Section 116025 that is open to the public.

(Amended by Stats. 2018, Ch. 270, Sec. 2. (AB 1766) Effective January 1, 2019.)

116046.

(a)The State Department of Education, in consultation with the State Department of Public Health, shall issue best practices guidelines related to pool safety at K"12 schools.

(b)Guidelines promulgated pursuant to this section that relate to the use or placement of automated external defibrillators shall be consistent with the requirements imposed under Section 1797.196, and shall include a reference to Section 49417 of the Education Code for purposes of providing information to schools about the liability protections and funding mechanisms provided in that section.

(Added by Stats. 2018, Ch. 270, Sec. 3. (AB 1766) Effective January 1, 2019.)

116048.

(a) On or after January 1, 1987, for public swimming pools in any common interest development, as defined in Section 4100 or 6534 of the Civil Code, that consists of fewer than 25 separate interests, as defined in

Section 4185 or 6564 of the Civil Code, the person operating each pool open for use shall be required to keep a record of the information required by subdivision (a) of Section 65523 of Title 22 of the California Administrative Code, except that the information shall be recorded at least two times per week and at intervals no greater than four days apart.

(b) On or after January 1, 1987, any rule or regulation of the department that is in conflict with subdivision (a) is invalid.

(Amended (as amended by Stats. 2012, Ch. 181, Sec. 77) by Stats. 2013, Ch. 605, Sec. 46. (SB 752) Effective January 1, 2014.)

116049.

(a) Public swimming pool, as used in this section, means any public swimming pool defined in Section 116025 that is owned or operated by the state or any local governmental entity, including, but not limited to, any city, county, city and county, charter city, charter county, or charter city and county.

(b) All dry-niche light fixtures, and all underwater wet-niche light fixtures operating at more than 15 volts in public swimming pools shall be protected by a ground-fault circuit interrupter in the branch circuit, and all light fixtures in public swimming pools shall have encapsulated terminals. This subdivision is declaratory of existing law.

(c) Any public swimming pools that do not meet the requirements specified in subdivision (b) by January 1, 1995, shall be retrofitted to comply with these requirements by January 1, 1996.

(d) The ground-fault circuit interrupter required pursuant to this section shall comply with UnderwritersLaboratory standards.

(e) Any state or local governmental entity that owns or operates a public swimming pool shall have its public swimming pool inspected by a qualified inspector prior to July 1, 1996, to determine compliance with this section.

(f) A public swimming pool may charge a fee, or increase its fee charged, to the public for use of the pool, for the purpose of recovering the administrative and other costs of retrofitting pools in compliance with this section. The charge or increase due to this section shall terminate when funds sufficient to cover these costs are collected.

(g) All electrical work required for compliance with this section shall be performed by an electrician licensed pursuant to Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116049.1.

(a) Public swimming pool, as used in this section, means any swimming pool operated for the use of the general public with or without charge, or for the use of the members and guests of a private club, including any swimming pool located on the grounds of a hotel, motel, inn, an apartment complex, or any residential

setting other than a single-family home. For purposes of this section, public swimming pool shall not include a swimming pool located on the grounds of a private single-family home.

(b) The design and installation of all underwater lighting systems, operating at more than 15 volts, supplied from a branch circuit either directly or by way of a transformer, shall be installed in a public swimming pool, as defined in this section, so that there is no shock hazard with any likely combination of fault conditions during normal use, and shall comply with both of the following requirements:

(1) An approved ground-fault circuit interrupter shall be installed in the branch circuit that supplies all fixtures operating at more than 15 volts.

(2) Only approved underwater lighting fixtures shall be used and no lighting fixtures shall be installed for operations at more than 150 volts between conductors.

(c) Any public swimming pool that does not meet the requirements specified in subdivision (b), shall be retrofitted to comply with these requirements by May 1, 1999.

(d) The ground-fault circuit interrupter required pursuant to this section shall comply with standards acceptable to the authority having jurisdiction.

(e) The owner or operator of a public swimming pool shall, on or before May 1, 1999, comply with both of the following:

(1) Obtain an inspection of its public swimming pool by the local health officer or a qualified contractor as set forth in subdivision (f).

(2) Certify to the local health officer as set forth in Section 116053 that the public swimming pool facility is in compliance with this section.

(f) All electrical work required for compliance with this section shall be performed by a person licensed to perform electrical work within his or her general, specialty, or limited specialty contractorslicensed scope of practice pursuant to Section 7059 of the Business and Professions Code.

(g) This section shall be known and may be cited as the Yasmin Paleso™o Memorial Swimming Pool Safety Law.

(Amended by Stats. 1998, Ch. 426, Sec. 2. Effective September 11, 1998.)

116050.

Except as provided in Section 18930, the department shall make and enforce regulations pertaining to public swimming pools as it deems proper and shall enforce building standards published in the State Building Standards Code relating to public swimming pools; provided, that no rule or regulation as to design or construction of pools shall apply to any pool that has been constructed before the adoption of the regulation, if the pool as constructed is reasonably safe and the manner of the construction does not preclude compliance with the requirements of the regulations as to bacteriological and chemical quality and clarity of the water in the pool. The department shall adopt and submit building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13 for the purposes described in this section.

(Amended by Stats. 2006, Ch. 538, Sec. 435. Effective January 1, 2007.)

116053.

Every health officer shall enforce the building standards published in the State Building Standards Code relating to swimming pools and the other regulations adopted by the department pursuant to this article in his or her jurisdiction.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116055.

For the purposes of this article, any health officer, or any inspector of the department, may at all reasonable times enter all parts of the premises of a public swimming pool to make examination and investigation to determine the sanitary condition and whether this article, building standards published in the State Building Standards Code relating to swimming pools, or the other regulations adopted by the department pursuant to this article are being violated.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116058.

The department may publish the reports of inspections.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116060.

Any public swimming pool constructed, operated, or maintained contrary to the provisions of this article is a public nuisance, dangerous to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116063.

Any nuisance maintained in violation of this article may be abated or enjoined in an action brought by a local health officer, or the department, or it may be summarily abated in the manner provided by law for the summary abatement of other public nuisances dangerous to health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116064.

(a)As used in this section the following words have the following meanings:

(1)(A)Public wading pool means a pool that meets all of the following criteria:

(i)It has a maximum water depth not exceeding 18 inches.

(ii)It is a pool other than a pool that is located on the premises of a one-unit or two-unit residence, intended solely for the use of the residents or guests.

(B)Public wading pool includes, but is not limited to, a pool owned or operated by private persons or agencies, or by state or local governmental agencies.

(C)Public wading pool includes, but is not limited to, a pool located in an apartment house, hotel, or similar setting, that is intended for the use of residents or guests.

(2)Alteration means any of the following:

(A)To change, modify, or rearrange the structural parts or the design.

(B)To enlarge.

(C)To move the location of.

(D)To install a new water circulation system.

(E)To make any repairs costing fifty dollars ($50) or more to an existing circulation system.

(3)ANSI/APSP performance standard means a standard that is accredited by the American National Standards Institute (ANSI) and published by the Association of Pool and Spa Professionals (APSP).

(4)Suction outlet means a fitting or fixture typically located at the bottom or on the sides of a swimming pool that conducts water to a recirculating pump.

(b)A public wading pool shall have at least two circulation suction outlets per pump that are hydraulically balanced and symmetrically plumbed through one or more T fittings, and are separated by a distance of at least three feet in any dimension between the suction outlets.

(c)All public wading pool suction outlets shall be covered with antivortex grates or similar protective devices. All suction outlets shall be covered with grates or antivortex plates that cannot be removed except with the use of tools. Slots or openings in the grates or similar protective devices shall be of a shape, area, and arrangement that would prevent physical entrapment and would not pose any suction hazard to bathers.

(d)(1) The State Department of Health Services may adopt regulations pursuant to this section.

(2)The regulations may include, but not be limited to, standards permitting the use of alternative devices or safeguards, or incorporating new technologies, that produce, at a minimum, equivalent protection against

entrapment and suction hazard, whenever these devices, safeguards, or technologies become available to the public.

(3)Regulations adopted pursuant to this section constitute building standards and shall be forwarded pursuant to Section 11343 of the Government Code to the California Building Standards Commission for approval as set forth in Section 18907 of the Health and Safety Code.

(e)The California Building Standards Commission shall approve the building standards as set forth in this section and publish them in the California Building Standards Code by November 1, 1999. The commission shall publish the text of this section in Title 24 of the California Code of Regulations, Part 2, Chapter 31B, requirements for public swimming pools, with the following note: NOTE: These building standards are in statute but have not been adopted through the regulatory process.□ Enforcement of the standards set forth in this section does not depend upon adoption of regulations, therefore, enforcement agencies shall enforce the standards pursuant to the timeline set forth in this section prior to adoption of related regulations.

(f)The maximum velocity in the pump suction hydraulic system shall not exceed six feet per second when 100 percent of the pumpsflow comes from the circulation system and any suction outlet in the system is completely blocked.

(g)On and after January 1, 1998, all newly constructed public wading pools shall be constructed in compliance with this section.

(h)Commencing January 1, 1998, whenever a construction permit is issued for alteration of an existing public wading pool, it shall be retrofitted so as to be in compliance with this section.

(i)By January 1, 2000, every public wading pool, regardless of the date of original construction, shall be retrofitted to comply with this section.

(Amended by Stats. 2012, Ch. 679, Sec. 4.5. (AB 2114) Effective January 1, 2013.)

116064.2.

(a)As used in this section, the following words have the following meanings:

(1)ANSI/APSP performance standard□ means a standard that is accredited by the American National Standards Institute (ANSI) and published by the Association of Pool and Spa Professionals (APSP).

(2)ASME/ANSI performance standard□ means a standard that is accredited by the American National Standards Institute and published by the American Society of Mechanical Engineers.

(3)ASTM performance standard□ means a standard that is developed and published by ASTM International.

(4)Public swimming pool□ means an outdoor or indoor structure, whether in-ground or above-ground, intended for swimming or recreational bathing, including a swimming pool, hot tub, spa, or nonportable wading pool, that is any of the following:

(A)Open to the public generally, whether for a fee or free of charge.

(B)Open exclusively to members of an organization and their guests, residents of a multiunit apartment

building, apartment complex, residential real estate development, or other multifamily residential area, or patrons of a hotel or other public accommodations facility.

(C)Located on the premises of an athletic club, or public or private school.

(5)Qualified individual means a contractor who holds a current valid license issued by the State of California or a professional engineer licensed in the State of California who has experience working on public swimming pools.

(6)Safety vacuum release system means a vacuum release system that ceases operation of the pump, reverses the circulation flow, or otherwise provides a vacuum release at a suction outlet when a blockage is detected.

(7)Skimmer equalizer line means a suction outlet located below the waterline, typically on the side of the pool, and connected to the body of a skimmer that prevents air from being drawn into the pump if the water level drops below the skimmer weir. However, a skimmer equalizer line is not a suction outlet for purposes of subdivisions (c) and (d).

(8)Suction outlet means a fitting or fixture of a swimming pool that conducts water to a recirculating pump.

(9)Unblockable suction outlet means a suction outlet, including the sump, that has a perforated (open) area that cannot be shadowed by the area of the 18 inch by 23 inch Body Blocking Element of the ANSI/APSP-16 performance standard, and that the rated flow through any portion of the remaining open area cannot create a suction force in excess of the removal force values in Table 1 of that standard.

(b)(1)Subject to subdivision (e), every public swimming pool shall be equipped with antientrapment devices or systems that comply with the ANSI/APSP-16 performance standard or successor standard designated by the federal Consumer Product Safety Commission.

(2)A public swimming pool that has a suction outlet in any location other than on the bottom of the pool shall be designed so that the recirculation system shall have the capacity to provide a complete turnover of pool water within the following time:

(A)One-half hour or less for a spa pool.

(B)One-half hour or less for a spray ground.

(C)One hour or less for a wading pool.

(D)Two hours or less for a medical pool.

(E)Six hours or less for all other types of public pools.

(c)Subject to subdivisions (d) and (e), every public swimming pool with a single suction outlet that is not an unblockable suction outlet shall be equipped with at least one or more of the following devices or systems that are designed to prevent physical entrapment by pool drains:

(1)A safety vacuum release system that has been tested by a nationally recognized testing laboratory and found to conform to ASME/ANSI performance standard A112.19.17, as in effect on December 31, 2009, or ASTM performance standard F2387, as in effect on December 31, 2009.

(2)A suction-limiting vent system with a tamper-resistant atmospheric opening, provided that it conforms to any applicable ASME/ANSI or ASTM performance standard.

(3)A gravity drainage system that utilizes a collector tank, provided that it conforms to any applicable ASME/ANSI or ASTM performance standard.

(4)An automatic pump shutoff system tested by a department-approved independent third party and found to conform to any applicable ASME/ANSI or ASTM performance standard.

(5)Any other system that is deemed, in accordance with federal law, to be equally effective as, or more effective than, the systems described in paragraph (1) at preventing or eliminating the risk of injury or death associated with the circulation system of the pool and suction outlets.

(d)Every public swimming pool constructed on or after January 1, 2010, shall have at least two suction outlets per pump that are hydraulically balanced and symmetrically plumbed through one or more T□ fittings, and that are separated by a distance of at least three feet in any dimension between the suction outlets. A public swimming pool constructed on or after January 1, 2010, that meets the requirements of this subdivision, shall be exempt from the requirements of subdivision (c).

(e)A public swimming pool constructed prior to January 1, 2010, shall be retrofitted to comply with subdivisions (b) and (c) by no later than July 1, 2010, except that no further retrofitting is required for a public swimming pool that completed a retrofit between December 19, 2007, and January 1, 2010, that complied with the Virginia Graeme Baker Pool and Spa Safety Act (15 U.S.C. Sec. 8001 et seq.) as in effect on the date of issue of the construction permit, or for a nonportable wading pool that completed a retrofit prior to January 1, 2010, that complied with state law on the date of issue of the construction permit. A public swimming pool owner who meets the exception described in this subdivision shall do one of the following prior to September 30, 2010:

(1)File the form issued by the department pursuant to subdivision (f), as otherwise provided in subdivision (h).

(2)(A)File a signed statement attesting that the required work has been completed.

(B)Provide a document containing the name and license number of the qualified individual who completed the required work.

(C)Provide either a copy of the final building permit, if required by the local agency, or a copy of one of the following documents if no permit was required:

(i)A document that describes the modification in a manner that provides sufficient information to document the work that was done to comply with federal law.

(ii)A copy of the final paid invoice. The amount paid for the services may be omitted or redacted from the final invoice prior to submission.

(f)Prior to March 31, 2010, the department shall issue a form for use by an owner of a public swimming pool to indicate compliance with this section. The department shall consult with county health officers and directors of departments of environmental health in developing the form and shall post the form on the departmentsInternet Web site. The form shall be completed by the owner of a public swimming pool prior to filing the form with the appropriate city, county, or city and county department of environmental health. The form shall include, but not be limited to, the following information:

(1)A statement of whether the pool operates with a single suction outlet or multiple suction outlets that comply with subdivision (d).

(2)Identification of the type of antientrapment devices or systems that have been installed pursuant to subdivision (b) and the date or dates of installation.

(3)Identification of the type of devices or systems designed to prevent physical entrapment that have been installed pursuant to subdivision (c) in a public swimming pool with a single suction outlet that is not an unblockable suction outlet and the date or dates of installation or the reason why the requirement is not applicable.

(4)A signature and license number of a qualified individual who certifies that the factual information provided on the form in response to paragraphs (1) to (3), inclusive, is true to the best of his or her knowledge.

(g)A qualified individual who improperly certifies information pursuant to paragraph (4) of subdivision (f) shall be subject to potential disciplinary action at the discretion of the licensing authority.

(h)Except as provided in subdivision (e), each public swimming pool owner shall file a completed copy of the form issued by the department pursuant to this section with the city, county, or city and county department of environmental health in the city, county, or city and county in which the swimming pool is located. The form shall be filed within 30 days following the completion of the swimming pool construction or installation required pursuant to this section or, if the construction or installation is completed prior to the date that the department issues the form pursuant to this section, within 30 days of the date that the department issues the form. The public swimming pool owner or operator shall not make a false statement, representation, certification, record, report, or otherwise falsify information that he or she is required to file or maintain pursuant to this section.

(i)In enforcing this section, health officers and directors of city, county, or city and county departments of environmental health shall consider documentation filed on or with the form issued pursuant to this section by the owner of a public swimming pool as evidence of compliance with this section. A city, county, or city and county department of environmental health may verify the accuracy of the information filed on or with the form.

(j)To the extent that the requirements for public wading pools imposed by Section 116064 conflict with this section, the requirements of this section shall prevail.

(k) The department shall have no authority to take any enforcement action against any person for violation of this section and has no responsibility to administer or enforce the provisions of this section.

(Amended by Stats. 2012, Ch. 679, Sec. 5. (AB 2114) Effective January 1, 2013.)

116065.

Every person who violates any provision of this article, building standards published in the State Building Standards Code relating to swimming pools, or the rules and regulations adopted pursuant to the provisions of this article, is guilty of a misdemeanor, punishable by a fine of not less than fifty dollars ($50) nor more than one thousand dollars ($1,000), or by imprisonment for not more than six months, or both.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116068.

Each day that a violation of this article continues is a separate offense.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 10. RECREATIONAL SAFETY [115725 - 116095]__

(Part 10 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Safe Recreational Water Use [115825 - 116090.7]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 6. Ocean Water-Contact Sports [116070 - 116090]__

(Article 6 added by Stats. 1995, Ch. 415, Sec. 6.)

116070.

As used in this article, water-contact sport means any sport in which the body of a person comes into

physical contact with water, including but not limited to swimming, surfboarding, paddleboarding, skin diving, and water-skiing. It does not include boating or fishing.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116075.

The department has supervision of sanitation, healthfulness, and safety of the public beaches and public water-contact sport areas of the ocean waters and bays of the state and, except as provided in Section 18930, the department may make and enforce regulations pertaining thereto as it deems proper.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116080.

Regulations made pursuant to this article shall include suitable standards of safe bacteria count for water-contact sports areas specified by the State Water Pollution Control Board or regional water pollution control boards, which standards shall be applied to all public water-contact sport areas of the ocean waters and bays of the state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116085.

Every person who violates any rule or regulation adopted pursuant to this article is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116090.

Nothing contained in this article shall be construed to give the department the authority to fix the areas wherein water-contact sports may be engaged in or to affect the authority of the State Water Pollution Control Board or regional water pollution control boards to fix appropriate areas for various uses.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116090.6.

For purposes of this article, the following terms have the following meanings:

(a)Local health officer means the legally appointed health officer or director of environmental health of the city, county, or city and county, having jurisdiction over the area in which a publicly accessible body of water is located, which may include a coastal area.

(b)Office means the Office of Environmental Health Hazard Assessment.

(c)Site-specific fish or shellfish health advisory means a consumption advisory regarding fish or shellfish in a specified body of water or area of that body of water, which may include a specified area of coastal waters.

(Added by Stats. 2019, Ch. 538, Sec. 1. (AB 762) Effective January 1, 2020.)

116090.7.

(a)Upon issuance by the office of a site-specific fish or shellfish health advisory pursuant to Section 59011 of this code or Section 13177.5 of the Water Code, a local health officer shall conspicuously post health warnings at public access points to locations where contaminated fish or shellfish may be caught, including piers, jetties, lakes, reservoirs, and other areas where recreational or subsistence fishing is known to occur, consistent with any program guidelines adopted by the State Water Resources Control Board pursuant to paragraph (2) of subdivision (e). The local health officer shall coordinate with the office, the State Department of Public Health, the Department of Fish and Wildlife, and the appropriate regional water quality control board to identify appropriate posting locations and signage. The local health officer shall be responsible for maintaining the signage until the office rescinds or revises the relevant site-specific fish or shellfish health advisory.

(b)(1)A local health officer shall post health warnings pursuant to this section within 180 days of receiving grant funding for posting those warnings awarded pursuant to paragraph (1) of subdivision (e). If a local health officer does not request grant funding for a fiscal year pursuant to paragraph (1) of subdivision (e), the local health officer shall post health warnings pursuant to this section within 180 days of the deadline for requesting grant funding for that fiscal year.

(2)At a minimum, the health warnings shall contain information on contaminants of concern and consumption guidelines issued by the office.

(c)(1)The office shall make available on its internet website digital posters of health warnings for each site-specific fish or shellfish health advisory issued pursuant to this article that local health officers may use in meeting their responsibilities under this article.

(2)The office shall make the digital posters available in English, Spanish, and other languages that persons who commonly fish in the area will understand, as determined by the office in consultation with the local health officer.

(d)If a local health officer has requested grant funding awarded pursuant to paragraph (1) of subdivision (e), the duties imposed on the local health officerslocal agency pursuant to this section are mandatory only to the extent that the local health officer has received grant funding to cover a local agencyscosts associated

with the performance of the duties imposed by this section. If a local health officer does not request grant funding for a fiscal year awarded pursuant to paragraph (1) of subdivision (e), the duties imposed on the local health officerslocal agency pursuant to this section are mandatory for that fiscal year.

(e)(1)Upon an appropriation for this purpose in the annual Budget Act or another statute, the State Water Resources Control Board shall award grants to local agencies, or to qualified nonprofit organizations to distribute to local agencies, to meet the requirements of this section.

(2)The State Water Resources Control Board may adopt program guidelines and procedures to administer appropriated funds. The State Water Resources Control Board shall consult with the office, the State Department of Public Health, the Department of Fish and Wildlife, and the regional water quality control boards, and shall hold a public workshop before the adoption of any program guidelines and procedures. The adoption of program guidelines and procedures is not subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(3)Of the funds appropriated for the purposes of this section, the State Water Resources Control Board may use not more than 5 percent of the amount appropriated for its administrative costs.

(4)(A)On or before December 31, 2022, the State Water Resources Control Board shall submit a report to the Legislature summarizing whether or not the funds appropriated for local health officers to implement this section are sufficient.

(B)The report shall include, but is not limited to, all of the following information:

(i)A list of where the health advisories have been posted in accordance with this article. The list shall identify the health advisory postings funded by an appropriation in the annual Budget Act or another statute for this purpose.

(ii)A list of local agencies that have posted health advisories in accordance with this article. The list shall identify the local agencies that received a grant funded by an appropriation in the annual Budget Act or another statute for this purpose.

(iii)A summary of the bodies of water for which the office has issued health advisories pursuant to Section 59011 of this code or Section 13177.5 of the Water Code, but for which health advisories have not been posted in accordance with this article.

(iv)A cost estimate of the appropriation amount necessary to ensure full funding for implementation of this article.

(C)The report shall be submitted in compliance with Section 9795 of the Government Code.

(D)Pursuant to Section 10231.5 of the Government Code, this paragraph is inoperative on December 31, 2026.

(Added by Stats. 2019, Ch. 538, Sec. 1. (AB 762) Effective January 1, 2020.)

Codes Display Text

116093.

(a) A pilot project shall use grant funds for all of the following purposes:

(1) To provide onsite nationally certified athletic trainers to participating schools. The project may provide a certified athletic trainer, or funds to help pay the costs associated with ensuring that there is an onsite athletic trainer, for at least 30 hours per week. Funds received pursuant to this section shall be used only to provide supplemental staff or services and shall not displace or reduce existing staff or services. Athletic trainers provided pursuant to this section shall not displace or reduce the hours or benefits available to any classified or certified employee who provides athletic training services for participating schools prior to the effective date of this section. A participating school that currently employs an athletic trainer shall coordinate the use of his or her services with the pilot project.

(2) To provide appropriate medical supplies and other supplies necessary to prevent and care for sports-related injuries.

(3) To provide in-service meetings for coaches and trainers, and to ensure that coaches and trainers receive first aid and CPR certification.

(4) To provide mentoring opportunities for pupils interested in the medical and athletic training fields.

(5) To provide community educational seminars for pupils, parents, trainers, coaches, and administrators on nutrition, the avoidance of drugs, and on injuries and prevention.

(6) To inform pupils about the availability of low-cost health insurance, including Medi-Cal and the Healthy Families Program.

(7) To provide strength training workshops for pupil-athletes and an off-season training program.

(b) Health care providers, including athletic trainers who participate in the pilot project shall not refer pupils to their own practice, to the practice of the other health care providers participating in the pilot project, or to the practice of other health care providers in whose practice they have a financial interest.

(Added by Stats. 2001, Ch. 553, Sec. 2. Effective January 1, 2002.)

116094.

(a) The State Department of Education shall establish a competitive grant process for private, nonprofit organizations that are registered with the Secretary of State to submit a grant application for the development, administration, and implementation of the Pupil Athletic Access and Safety Program.

(b) No later than May 1, 2002, the department, or its administering contracting entity, shall request and review proposals submitted by entities eligible for grants pursuant to this chapter. By June 1, 2002, the department, or its administering contracting entity, shall select a proposal for each of the two regions for receipt of a grant. The selected proposal shall meet the criteria set forth in this chapter and shall be selected on the basis of its ability to provide the best, most feasible service to the largest number of schools and

pupils in the pilot area.

(c) Proposals shall include all of the following:

(1) A description of the program goals.

(2) A list of measurable objectives for the purpose of evaluation by the department, or its administering contracting entity.

(3) A list of public secondary schools selected for participation, and the criteria used for selection of those schools.

(4) A list of professional participants with curriculum vitae and rÃ©sumÃ©s attached. Athletic trainers who are proposed to participate in the program shall be certified by the National Athletic Trainers Association.

(5) A method of ensuring medical quality for the program.

(6) The method that will be used to gather and submit data to the department, or its administering contracting entity.

(7) A clear description of the experience, expertise, and other qualifications of the private, nonprofit organization.

(8) A proposed budget for expenditure of the grant, including a proposed fundraising plan to raise the dollar-for-dollar match as required in this chapter.

(d) The department, or its administering contracting entity, upon making a selection pursuant to this chapter, shall fund the grant no later than August 1, 2002.

(e) (1) The department may expend up to 10 percent of the funds appropriated for the purposes of this chapter for the costs associated with administration of the competitive grant process, medical quality assurance and program oversight, data collection, and evaluation of the pilot project. No additional funds may be used for administration, oversight, or implementation of this program.

(2) The department may contract with a nonprofit statewide organization that specializes in administration of high school interscholastic athletic programs to function as the departmentsadministering agency for the program. If the department enters into a contract pursuant to this paragraph, the funds provided for administrative costs as set forth in paragraph (1) shall be expended, pursuant to the contract, by the nonprofit organization in its administration of this program on behalf of the department. The administering contracting entity shall be responsible for all aspects of the program, including the establishment of the competitive grant process, the selection of grantees and awarding of grants, program administration, monitoring, and evaluation, and the report required pursuant to Section 116095.

(f) The department, or its administering contracting entity, shall monitor and evaluate the program to ensure the performance and effectiveness of the program, including the following:

(1) Success in obtaining stated goals.

(2) Success in the pupil mentoring and scholarship programs.

(3) Reduction in injuries that occur during practice sessions and during actual athletic competitions.

(4) Reduction in recurring injury incidents.

(g) For the purpose of evaluating the programs, the department, or its administering contracting entity, shall, to the extent feasible, compare available data relating to injuries that occurred during practice sessions and official competitions in the school year prior to the existence of the pilot program, with comparable data collected in the second year of the pilot program.

If data regarding injuries has not been collected prior to the establishment of the pilot program, then data submitted by each grantee during the first six months of the program shall be used as baseline data to compare against data collected in the second year.

(h) In order to be eligible to receive funds pursuant to this chapter, a pilot project shall receive matching private funds equal to the public funds received.

(Added by Stats. 2001, Ch. 553, Sec. 2. Effective January 1, 2002.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 11. VECTORS [116100 - 116250]__

(Part 11 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 1. Definitions [116100 - 116108]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 6.)

116100.

As used in Article 5 (commencing with Section 116185) of Chapter 2, department means the State Department of Health Services.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116102.

Place, as used in Article 3 (commencing with Section 116125) of Chapter 2 and Section 116250, includes land, place, building, structure, wharf, pier, dock, vessel, or water craft.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116104.

Rodents, as used in Article 3 (commencing with Section 116125) of Chapter 2 and Section 116250, means rats, mice, gophers, and ground squirrels.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116106.

Possess, as used in Article 3 (commencing with Section 116125) of Chapter 2 and Section 116250, includes control, own, lease, occupy, possess, or have charge of or dominion over.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116108.

Vector, as used in Article 1 (commencing with Section 116110) of, and Article 2 (commencing with Section 116120) of Chapter 2, and Section 106925, means any animal capable of transmitting the causative agent of human disease or capable of producing human discomfort or injury, including, but not limited to, mosquitoes, flies, other insects, ticks, mites, and rats.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 11. VECTORS [116100 - 116250]__

(Part 11 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Powers and Duties [116110 - 116225]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Vector Biology and Control [116110 - 116112]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

116110.

The department shall maintain a program of vector biology and control including, but not limited to, the following:

(a) Providing consultation and assistance to local vector control agencies in developing and conducting programs for the prevention and control of vectors.

(b) Surveillance of vectors and vector-borne diseases.

(c) Coordinating and conducting emergency vector control, as required.

(d) Training and certifying government agency vector control technicians.

(e) Disseminating information to the public regarding protection from vectors and vector-borne diseases.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116111.

The department may provide any necessary and proper assistance and support to the vector control programs of counties, cities, cities and counties, mosquito abatement and vector control districts, and pest abatement districts.

(Added by Stats. 2002, Ch. 395, Sec. 10. Effective January 1, 2003.)

116112.

The Vectorborne Disease Account is hereby established within the State Treasury. When appropriated by the Legislature, the funds deposited in the Vectorborne Disease Account shall be available for expenditure by the department to support activities for the prevention, surveillance, and control of vectorborne diseases and to support other activities that carry out the purposes of this part.

(Added by Stats. 2004, Ch. 38, Sec. 3. Effective May 7, 2004.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 11. VECTORS [116100 - 116250]__

(Part 11 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Powers and Duties [116110 - 116225]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Rodent Abatement [116125 - 116170]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

116125.

Every person possessing a place that is infested with rodents, as soon as their presence comes to his or her knowledge, shall at once proceed and continue in good faith to endeavor to exterminate and destroy the rodents, by poisoning, trapping, and other appropriate means, and to abate the conditions listed in Section 17920.3 that are causing the infestation.

(Amended by Stats. 2014, Ch. 81, Sec. 2. (SB 1167) Effective January 1, 2015.)

116130.

The department, the board of supervisors of each county, local health officers, or inspectors appointed by any of them, as provided in this article and Chapter 3 (commencing with Section 116250), may inspect a place for the purpose of ascertaining whether it is infested with rodents and whether the requirements of this article and Chapter 3 (commencing with Section 116250) as to their extermination and destruction, and the abatement of the conditions listed in Section 17920.3 that are causing the infestation are being complied with. However, no building occupied as a dwelling, hotel, or rooming house, shall be entered for inspection purposes except between the hours of 9 a.m., and 5 p.m.

(Amended by Stats. 2014, Ch. 81, Sec. 3. (SB 1167) Effective January 1, 2015.)

116135.

The board of supervisors of each county and the governing body of each city, whenever it may by resolution determine that it is necessary for the preservation of the public health or to prevent the spread of contagious or infectious disease, communicable to mankind, or when it determines that it is necessary to prevent great and irreparable damage to crops or other property, may appropriate money for the purchase of, and may purchase, poison, traps, and other materials for the purpose of exterminating and destroying rodents and abating the conditions listed in Section 17920.3 that are causing the infestation in that county or city, and may employ and pay inspectors, who shall prosecute the work of extermination, destruction, and abatement on both private and public property in the county or city.

(Amended by Stats. 2014, Ch. 81, Sec. 4. (SB 1167) Effective January 1, 2015.)

116140.

Whenever a person possessing a place that is infested with rodents, fails, neglects, or refuses to proceed and to continue to endeavor to exterminate and destroy the rodents and abate the conditions listed in Section 17920.3 that are causing the infestation, as required in this article and Chapter 3 (commencing with Section 116250), the department and its inspectors, the county board of supervisors and its inspectors, and the local health officer, shall at once cause the rodents to be exterminated and destroyed and the conditions listed in Section 17920.3 that are causing the infestation to be abated.

(Amended by Stats. 2014, Ch. 81, Sec. 5. (SB 1167) Effective January 1, 2015.)

116145.

The expense of exterminating and destroying the rodents and abating the conditions listed in Section 17920.3 that are causing the infestation is a charge against the county or city in which the work is done, and the board of supervisors or other governing body shall allow and pay it.

(Amended by Stats. 2014, Ch. 81, Sec. 6. (SB 1167) Effective January 1, 2015.)

116150.

The governing body shall record in the office of the county recorder a notice of payment, claiming a lien on the property for the amount of the payment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116155.

All sums so paid by the county or city are a lien on the property on which the work was done, and may be recovered in an action against the property.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116160.

The action to foreclose the lien shall be brought within 90 days after the payment, and shall be prosecuted by the district or city attorney in the name of the county, or city, as the case may be, and for its benefit.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116165.

When the property is sold, enough of the proceeds shall be paid into the treasury of the county or city to satisfy the lien and the costs, and the surplus, if any, shall be paid to the owner of the property, if known, and if not known shall be paid into the court for the use of the owner when ascertained.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116170.

If it appears from the complaint in the action that the property on which the lien is to be foreclosed is likely to be removed from the jurisdiction of the court, the court may appoint a receiver to take possession of the property and hold it while the action is pending or until the defendant executes and files a bond, conditioned for the payment of any judgment that may be recovered against the defendant in the action and of all costs.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Part 11 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Powers and Duties [116110 - 116225]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Mosquito and Gnat Control [116175 - 116180]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

116175.

The department shall make studies and demonstrations as may be necessary to determine the areas of the state that have a high proportion of mosquito-borne diseases, including malaria and encephalitis.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116180.

(a) The department may enter into a cooperative agreement with any local district or other public agency engaged in the work of controlling mosquitoes, gnats, flies, other insects, rodents, or other vectors and pests of public health importance, in areas and under terms, conditions, and specifications as the director may prescribe.

(b) The agreement may provide for financial assistance on behalf of the state and for the doing of all or any portion of the necessary work by either of the contracting parties, except that in no event shall the department agree that the statescontribution shall exceed 50 percent of the total cost of any acceptable plan.

(c) The agreement may provide for contributions by the local district or other public agency to the Vectorborne Disease Account.

(Amended by Stats. 2004, Ch. 38, Sec. 4. Effective May 7, 2004.)

__PART 11. VECTORS [116100 - 116250]__

(Part 11 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Powers and Duties [116110 - 116225]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. Mosquito Control and Imported Tires [116185 - 116225]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

116185.

The Legislature finds and declares that used tires imported into this country have contained mosquitos that are carriers of disease that is harmful to humans.

The Legislature further finds and declares that, in order to attempt to ensure that these mosquitos are not brought into this state, it is necessary to require that used tires not be imported into this state unless they have been certified as being free of mosquitos.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Note: This section is not subject to the termination clause in Section 116225.)

116190.

(a) No used tires that have been imported into the United States shall be imported into this state, for purposes of sale, resale or disposal, unless they are inspected and certified as free from mosquitos in any stage of development by the department or its designee. Nothing in this section is intended to require inspection of each tire entering the state. The inspection shall be conducted using standard sampling procedures.

(b) Notwithstanding subdivision (a), if a shipment of tires imported into the United States has been inspected in a state other than California and certified as free from mosquitos in any state of development by persons meeting the federal certified pesticide applicator qualifications contained in 7 U.S.C. Section 136b, then the department shall review the certification to determine whether or not it is adequate. For the purposes of this subdivision, adequate means that the department shall confirm that the certification was performed by persons meeting the qualifications referred to in this subdivision and that the certification applies to the shipment of tires imported into this state.

If the certification is determined by the department to be adequate, the department shall make a written finding to that effect, and the inspection referred to in subdivision (a) shall not be required. The department may charge and collect a reasonable fee, not to exceed fifty dollars ($50) per shipment, to cover its costs incurred pursuant to this subdivision.

If the certification is determined by the department to be inadequate, the inspection referred to in subdivision (a) shall be required.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Conditionally inoperative as provided in Section 116225.)

116195.

The department shall administer this article. In carrying out this duty, the department may delegate its authority to other departments of the state or to local governmental agencies, or cooperate with other agencies in the enforcement of this article.

Notwithstanding Section 116180, the department may enter into a contract for services with local agencies, in order to implement this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Conditionally inoperative as provided in Section 116225.)

116200.

The department shall charge and collect a fee for each certificate issued by the department or its designee, which shall be in an amount reasonably necessary to produce sufficient revenue to effectively implement this article. The initial fee established by the department shall not be greater than thirty cents ($0.30) per tire or casing imported.

A nonreturnable interim fee of thirty cents ($0.30) per tire or casing imported, and for which a certificate is issued by the department or its designee, is hereby established and shall remain in effect until the

department adopts the necessary regulations pursuant to this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Conditionally inoperative as provided in Section 116225.)

116205.

The department shall collect and account for all money received pursuant to this article and shall deposit it in the Vectorborne Disease Account provided for in Section 116112.

(Amended by Stats. 2004, Ch. 38, Sec. 5. Effective May 7, 2004. Conditionally inoperative as provided in Section 116225.)

116210.

Fees collected pursuant to this article shall be subject to the annual fee increase provisions of Section 100425.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Conditionally inoperative as provided in Section 116225.)

116220.

It shall be a misdemeanor to violate this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Conditionally inoperative as provided in Section 116225.)

116225.

This article, with the exception of Section 116185, shall be inoperative upon a finding by the director that the federal government has established and is implementing a program that is at least as effective in ensuring that used tires imported into this state are free of mosquitos, as are the importation requirements established by this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996. Note: Termination clause affects Article 5, commencing with Section 116185, except Section 116185.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. California Safe Drinking Water Act [116270 - 116755]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Pure and Safe Drinking Water [116270 - 116293]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

116270.

The Legislature finds and declares all of the following:

(a) Every resident of California has the right to pure and safe drinking water.

(b) Feasible and affordable technologies are available and shall be used to remove toxic contaminants from public water supplies.

(c) According to the State Department of Health Services, over 95 percent of all large public water systems in California are in compliance with health-based action levels established by the department for various contaminants.

(d) It is the policy of the state to reduce to the lowest level feasible all concentrations of toxic chemicals that, when present in drinking water, may cause cancer, birth defects, and other chronic diseases.

(e) This chapter is intended to ensure that the water delivered by public water systems of this state shall at all times be pure, wholesome, and potable. This chapter provides the means to accomplish this objective.

(f) It is the intent of the Legislature to improve laws governing drinking water quality, to improve upon the minimum requirements of the federal Safe Drinking Water Act Amendments of 1996, to establish primary drinking water standards that are at least as stringent as those established under the federal Safe Drinking Water Act, and to establish a program under this chapter that is more protective of public health than the minimum federal requirements.

(g) It is the further intent of the Legislature to establish a drinking water regulatory program within the state board to provide for the orderly and efficient delivery of safe drinking water within the state and to give the establishment of drinking water standards and public health goals greater emphasis and visibility within the state.

(h)This act shall be construed to ensure consistency with the requirements for states to obtain and maintain primary enforcement responsibility for public water systems under the federal Safe Drinking Water Act and acts amendatory thereof or supplementary thereto.

(Amended by Stats. 2015, Ch. 673, Sec. 3. (AB 1531) Effective January 1, 2016.)

116271.

(a)The state board succeeds to and is vested with all of the authority, duties, powers, purposes, functions, responsibilities, and jurisdiction of the State Department of Public Health, its predecessors, and its director for purposes of all of the following:

(1)The Environmental Laboratory Accreditation Act (Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101).

(2)Article 3 (commencing with Section 106875) of Chapter 4 of Part 1.

(3)Article 1 (commencing with Section 115825) of Chapter 5 of Part 10.

(4)This chapter and the Safe Drinking Water State Revolving Fund Law of 1997 (Chapter 4.5 (commencing with Section 116760)).

(5)Article 2 (commencing with Section 116800), Article 3 (commencing with Section 116825), and Article 4 (commencing with Section 116875) of Chapter 5.

(6)Chapter 7 (commencing with Section 116975).

(7)The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 (Division 43 (commencing with Section 75001) of the Public Resources Code).

(8)The Water Recycling Law (Chapter 7 (commencing with Section 13500) of Division 7 of the Water Code).

(9)Chapter 7.3 (commencing with Section 13560) of Division 7 of the Water Code.

(10)The California Safe Drinking Water Bond Law of 1976 (Chapter 10.5 (commencing with Section 13850) of Division 7 of the Water Code).

(11)Wholesale Regional Water System Security and Reliability Act (Division 20.5 (commencing with Section 73500) of the Water Code).

(12)Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 (Division 26.5 (commencing with Section 79500) of the Water Code).

(b)The state board shall maintain a drinking water program and carry out the duties, responsibilities, and functions described in this section. Statutory reference to department,□ state department,□ or director□ regarding a function transferred to the state board shall refer to the state board. This section does not impair the authority of a local health officer to enforce this chapter or a countyselection not to enforce this chapter, as provided in Section 116500.

(c)The state board shall succeed to the status of grantee or applicant, as appropriate, for any federal Drinking Water State Revolving Fund capitalization grants that the State Department of Public Health and any of its predecessors applied for.

(d)Regulations adopted, orders issued, and all other administrative actions taken by the State Department of Public Health, any of its predecessors, or its director, pursuant to the authorities now vested in the state board and in effect immediately preceding the operative date of this section shall remain in effect and are fully enforceable unless and until readopted, amended, or repealed, or until they expire by their own terms. Regulations in the process of adoption pursuant to the authorities vested in the state board shall continue under the authority of the state board unless and until the state board determines otherwise. Any other administrative action adopted, prescribed, taken, or performed by, or on behalf of, the State Department of Public Health, or its director, in the administration of a program or the performance of a duty, responsibility, or authorization transferred to the state board shall remain in effect and shall be deemed to be an action of the state board unless and until the state board determines otherwise.

(e)Permits, licenses, accreditations, certificates, and other formal approvals and authorizations issued by the State Department of Public Health, any of its predecessors, or its director pursuant to authorities vested in the state board pursuant to this section are not affected by the transfer and remain in effect, subject to all applicable laws and regulations, unless and until renewed, reissued, revised, amended, suspended, or revoked by the state board or its deputy director, as authorized pursuant to subdivision (k).

(f)Any action or proceeding by or against the State Department of Public Health, including any officer or employee of the State Department of Public Health named in an official capacity, or any of its predecessors, pertaining to matters vested in the state board by this section shall not abate, but shall continue in the name of the state board. The state board shall be substituted for the State Department of Public Health, including any officer or employee of the State Department of Public Health named in an official capacity, and any of its predecessors, by the court or agency where the action or proceeding is pending. The substitution shall not in any way affect the rights of the parties to the action or proceeding.

(g)On and after the operative date of this section, the unexpended balance of all funds available for use by the State Department of Public Health or any of its predecessors in carrying out any functions transferred to the state board are available for use by the state board.

(h)Books, documents, data, records, and property of the State Department of Public Health pertaining to functions transferred to the state board shall be transferred to the state board. This subdivision does not transfer any part of property commonly known as the Richmond Campus that is owned by the State Public Works Board.

(i)A contract, lease, license, or any other agreement, including local primacy agreements, as described in Section 116330, to which the State Department of Public Health, any of its predecessors, its director, or their agents, is a party, are not void or voidable by reason of this section, but shall continue in full force and effect, with the state board assuming all of the rights, obligations, liabilities, and duties of the State Department of Public Health and any of its predecessors as it relates to the duties, powers, purposes, responsibilities, and jurisdiction vested in the state board pursuant to this section. This assumption does not affect the rights of the parties to the contract, lease, license, or agreement.

(j)If the Department of Water Resources entered into agreements on behalf of the State Department of Public Health or its predecessor, the State Department of Health Services, pursuant to Chapter 4.5 (commencing with Section 116760), the state board shall also succeed the Department of Water Resources as a party to those agreements and to all related security instruments, including, but not limited to, fiscal services agreements, deeds of trust, guarantees, letters of credit, and deposit control agreements.

(k)(1)The state board shall appoint a deputy director who reports to the executive director to oversee the issuance and enforcement of public water system permits and other duties as appropriate. The deputy director shall have public health expertise.

(2)The deputy director is delegated the state boardsauthority to provide notice, approve notice content, approve emergency notification plans, and take other action pursuant to Article 5 (commencing with Section 116450), to issue, renew, reissue, revise, amend, or deny any public water system permits pursuant to Article 7 (commencing with Section 116525), to suspend or revoke any public water system permit pursuant to Article 8 (commencing with Section 116625), and to issue citations, assess penalties, or issue orders pursuant to Article 9 (commencing with Section 116650). Decisions and actions of the deputy director taken pursuant to Article 5 (commencing with Section 116450) or Article 7 (commencing with Section 116525) are deemed decisions and actions taken by the state board, but are not subject to reconsideration by the state board except as provided in Section 116540. Decisions and actions of the deputy director taken pursuant to Article 8 (commencing with Section 116625) and Article 9 (commencing with Section 116650) are deemed decisions and actions taken by the state board, but any aggrieved person may petition the state board for reconsideration of the decision or action. This subdivision is not a limitation on the state boardsauthority to delegate any other powers and duties.

(3)The state board shall not delegate any authority, duty, power, purpose, function, or responsibility specified in this section, including, but not limited to, issuance and enforcement of public water system permits, to the regional water quality control boards.

(Amended by Stats. 2017, Ch. 327, Sec. 26. (AB 1438) Effective January 1, 2018.)

116275.

As used in this chapter:

(a)Contaminant means any physical, chemical, biological, or radiological substance or matter in water.

(b)Department means the state board.

(c)Primary drinking water standards means:

(1)Maximum levels of contaminants that, in the judgment of the state board, may have an adverse effect on the health of persons.

(2)Specific treatment techniques adopted by the state board in lieu of maximum contaminant levels pursuant to subdivision (j) of Section 116365.

(3)The monitoring and reporting requirements as specified in regulations adopted by the state board that pertain to maximum contaminant levels.

(d)Secondary drinking water standards means standards that specify maximum contaminant levels that, in the judgment of the state board, are necessary to protect the public welfare. Secondary drinking water standards may apply to any contaminant in drinking water that may adversely affect the odor or appearance of the water and may cause a substantial number of persons served by the public water system to discontinue its use, or that may otherwise adversely affect the public welfare. Regulations establishing secondary drinking water standards may vary according to geographic and other circumstances and may apply to any contaminant in drinking water that adversely affects the taste, odor, or appearance of the water when the standards are necessary to ensure a supply of pure, wholesome, and potable water.

(e)Human consumption means the use of water for drinking, bathing or showering, hand washing, oral hygiene, or cooking, including, but not limited to, preparing food and washing dishes.

(f)Maximum contaminant level means the maximum permissible level of a contaminant in water.

(g)Person means an individual, corporation, company, association, partnership, limited liability company, municipality, public utility, or other public body or institution, including the United States to the extent authorized by federal law.

(h)Public water system means a system for the provision of water for human consumption through pipes or other constructed conveyances that has 15 or more service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year. A public water system includes the following:

(1)Any collection, treatment, storage, and distribution facilities under control of the operator of the system that are used primarily in connection with the system.

(2)Any collection or pretreatment storage facilities not under the control of the operator that are used primarily in connection with the system.

(3)Any water system that treats water on behalf of one or more public water systems for the purpose of rendering it safe for human consumption.

(i)Community water system means a public water system that serves at least 15 service connections used by yearlong residents or regularly serves at least 25 yearlong residents of the area served by the system.

(j)Noncommunity water system means a public water system that is not a community water system.

(k)Nontransient noncommunity water system means a public water system that is not a community water system and that regularly serves at least 25 of the same persons over six months per year.

(l)Local health officer means a local health officer appointed pursuant to Section 101000 or a local comprehensive health agency designated by the board of supervisors pursuant to Section 101275 to carry out the drinking water program.

(m)Significant rise in the bacterial count of water means a rise in the bacterial count of water that the state board determines, by regulation, represents an immediate danger to the health of water users.

(n)State small water system means a system for the provision of piped water to the public for human consumption that serves at least 5, but not more than 14, service connections and does not regularly serve drinking water to more than an average of 25 individuals daily for more than 60 days out of the year.

(o)Transient noncommunity water system means a noncommunity water system that does not regularly serve at least 25 of the same persons over six months per year.

(p)User means a person using water for domestic purposes. User does not include a person processing, selling, or serving water or operating a public water system.

(q)Waterworks standards means regulations adopted by the state board entitled California Waterworks Standards (Chapter 16 (commencing with Section 64551) of Division 4 of Title 22 of the California Code of Regulations).

(r)Local primacy agency means a local health officer that has applied for and received primacy delegation pursuant to Section 116330.

(s)Service connection means the point of connection between the customerspiping or constructed conveyance, and the water systemsmeter, service pipe, or constructed conveyance. A connection to a system that delivers water by a constructed conveyance other than a pipe shall not be considered a connection in determining if the system is a public water system if any of the following apply:

(1)The water is used exclusively for purposes other than residential uses, consisting of drinking, bathing, and cooking, or other similar uses.

(2)The state board determines that alternative water to achieve the equivalent level of public health protection provided by the applicable primary drinking water regulation is provided for residential or similar uses for drinking and cooking.

(3)The state board determines that the water provided for residential or similar uses for drinking, cooking, and bathing is centrally treated or treated at the point of entry by the provider, a passthrough entity, or the user to achieve the equivalent level of protection provided by the applicable primary drinking water regulations.

(t)Resident means a person who physically occupies, whether by ownership, rental, lease, or other means, the same dwelling for at least 60 days of the year.

(u)Water treatment operator means a person who has met the requirements for a specific water treatment operator grade pursuant to Section 106875.

(v)Water distribution operator means a person who has met the requirements for a specific water distribution operator grade pursuant to Section 106875.

(w)Water treatment plant means a group or assemblage of structures, equipment, and processes that treats, blends, or conditions the water supply of a public water system.

(x)Water distribution system means any combination of pipes, tanks, pumps, and other physical features that deliver water from the source or water treatment plant to the consumer.

(y)Public health goal means a goal established by the Office of Environmental Health Hazard Assessment pursuant to subdivision (c) of Section 116365.

(z)Small community water system means a community water system that serves no more than 3,300 service connections or a yearlong population of no more than 10,000 persons.

(aa)Disadvantaged community means the entire service area of a community water system, or a community therein, in which the median household income is less than 80 percent of the statewide annual median household income level.

(ab)State board means the State Water Resources Control Board.

(ac)Deputy director means the deputy director appointed by the state board pursuant to subdivision (k) of Section 116271.

(Amended by Stats. 2023, Ch. 810, Sec. 1. (AB 664) Effective January 1, 2024.)

116276.

(a)The state board shall establish a program, in consultation with the State Department of Education, to award grants to local educational agencies for the purposes of improving access to, and the quality of, drinking water in public schools consistent with the Legislaturesintent that school facilities be maintained in good repair, as defined in paragraph (1) of subdivision (d) of Section 17002 of the Education Code. Eligible entities shall be limited to local educational agencies serving kindergarten or any of grades 1 to 12, inclusive, and preschools and child day care facilities, as defined in Section 1596.750, located on public school property. The program shall include, but not be limited to, funding for at least one of the following:

(1)Installation of water bottle filling stations.

(2)Installation or replacement of drinking water fountains with devices that are capable of removing contaminants that are present in the facilityswater supply.

(3)Installation of point-of-entry or point-of-use treatment devices for drinking fountains, and up to three years of postinstallation replacement filters, and operation, maintenance, and monitoring of the devices, including training on how to operate and maintain the treatment devices and community outreach and education about their use.

(b)The state board shall implement the program by taking actions that include, but are not necessarily limited to, the development of procedures and guidelines for the submission of grant applications and criteria for the evaluation of those applications.

(c)(1)In developing the procedure for awarding grants pursuant to this section, the state board shall do all of the following:

(A)Set requirements for grant recipients to adopt a program for inspecting and maintaining any water treatment device funded by the grant.

(B)Establish a maximum grant amount.

(C)Give priority to each of the following:

(i)Projects for schools within, or serving pupils from, a small disadvantaged community, as defined in Section 13193.9 of the Water Code.

(ii)Projects that have high effectiveness in increasing access to safe drinking water at schools.

(2)In developing the procedure for awarding grants pursuant to this section, the state board may require applicants to commit additional resources to the project, except that the state board shall not require matching funds for local educational agencies serving small disadvantaged communities or interfere with the prioritization of grant funding to small disadvantaged communities.

(d)(1)Procedures and guidelines for the program developed by the state board under this section are not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(2)Before finalizing the procedures and guidelines for the distribution of grants pursuant to this section, the state board shall hold at least one public meeting to receive and consider public comment on the draft procedures and guidelines.

(e)The state board shall provide technical assistance to applicants, including completing applications, overseeing installations, and assisting with operation and maintenance.

(f)A contract entered into under the authority of this section is not be subject to Section 10295 of the Public Contract Code.

(Added by Stats. 2016, Ch. 29, Sec. 32. (SB 828) Effective June 27, 2016.)

116280.

This chapter does not apply to a public water system that meets all of the following conditions:

(a) Consists only of distribution and storage facilities and does not have any collection and treatment facilities.

(b) Obtains all of its water from, but is not owned or operated by, a public water system to which this chapter applies.

(c) Does not sell water to any person or user. For purposes of this subdivision, sale of water shall not include the sale of water, obtained from a public water system that is subject to this chapter, through a submetered distribution system if each user of the system is charged no more than the rate the user would be charged by the public water system.

By enacting this subdivision, it is not the intent of the Legislature to change existing law as to responsibility or liability for distribution systems beyond the mastermeter.

(Amended by Stats. 2011, Ch. 516, Sec. 2. (AB 1194) Effective January 1, 2012.)

116285.

Before August 6, 1998, this chapter shall not apply to an irrigation canal system if the owner or operator of the system certifies to the department, and notifies each user, in writing, that the water is untreated and is being furnished or supplied solely for agricultural purposes to either of the following:

(a) A user where the user receives the water, by pipe or otherwise, directly from the irrigation canal system.

(b) A person who owns or operates an integrated pipe system where the person receives the water, by pipe or otherwise, directly from the irrigation canal system.

Irrigation canal system, as used in this section, means a system of water conveyance facilities, including pipes, tunnels, canals, conduits, pumping plants and related facilities operated to furnish or supply water for agricultural purposes where a substantial portion of the facilities is open to the atmosphere.

(Amended by Stats. 1997, Ch. 734, Sec. 2. Effective October 7, 1997.)

116286.

(a) A water district, as defined in subdivision (b), in existence prior to May 18, 1994, that provides primarily agricultural services through a piped water system with only incidental residential or similar uses shall not be considered to be a public water system if the department determines that either of the following applies:

(1)The system is providing alternative water for residential or similar uses for drinking water and cooking to achieve the equivalent level of public health protection provided by the applicable primary drinking water regulations.

(2)The water provided for residential or similar uses for drinking, cooking, and bathing is centrally treated or treated at the point of entry by the provider, a passthrough entity, or the user to achieve the equivalent level of protection provided by the applicable primary drinking water regulations.

(b)For purposes of this section, water district means any district or other political subdivision, other than a city or county, a primary function of which is irrigation, reclamation, or drainage of land.

(Amended by Stats. 2021, Ch. 64, Sec. 1. (AB 1428) Effective January 1, 2022.)

116287.

(a) The department, in implementing subdivision (s) of Section 116275 and Section 116286, shall place requirements on affected public water systems and water districts that are consistent with this chapter and the guidelines established by the United States Environmental Protection Agency for implementing comparable provisions of the federal Safe Drinking Water Act of 1996.

(b) The department, in making the determinations specified in paragraphs (2) and (3) of subdivision (s) of Section 116275 and subdivisions (a) and (b) of Section 116286, shall utilize criteria that are consistent with this chapter and those used by the United States Environmental Protection Agency in administering the comparable provisions of the federal Safe Drinking Water Act.

(c) The department shall periodically monitor and review the conditions under which a public water system, or a water district as defined in subdivision (b) of Section 116286, has met the requirements of this chapter pursuant to subdivision (s) of Section 116275 or Section 116286, or pursuant to the federal act, to ensure that the conditions continue to be met.

(d) The department may prescribe reasonable, feasible, and cost-effective actions to be taken by a public water system, water district, as defined in subdivision (b) of Section 116286, or users subject to subdivision (s) of Section 116275 or Section 116286 to ensure that alternative water or treated water provided by the water systems, water districts, or users pursuant to Section 116275 or 116286 will not be injurious to health.

(e) A notice prominently titled Notice of Noncompliance with Safe Drinking Water Requirements at the top of the document that states the requirements and actions prescribed by the department under subdivisions (a) and (d), describes the real property by assessors parcel number or legal description to which these requirements and actions apply, and names the record owners of that real property, may be recorded by the affected public water system or water district in the county where the real property is located. Recordation and proper indexing, as prescribed by law, shall provide constructive notice of these requirements and actions and shall not constitute a title defect, lien, or encumbrance. The public water system or water district shall provide notice of this recordation to the record owners of the real property by first-class mail, postage prepaid, to the address as shown on the latest county assessment roll. If the public water system or water district later determines that the record owners of the real property have complied with the requirements and actions prescribed by the department, the public water system or water district, within 10 days of that determination, shall record a subsequent notice titled Notice of Compliance with Safe Drinking Water Requirements that states that the Notice of Noncompliance with Safe Drinking Water Requirements has no further force or effect.

(f) A water district subject to this section shall annually publish a notice in a newspaper of general circulation describing any requirements and actions prescribed by the department to be taken by the water district and any record of compliance by the water district with these requirements and actions.

(g) This section shall not relieve a water district from complying with any other provisions of law.

(Amended by Stats. 2003, Ch. 167, Sec. 1. Effective January 1, 2004.)

116290.

Before August 6, 1998, in areas where the water service rendered by a person is primarily agricultural, and domestic service is only incidental thereto, this chapter shall not apply except in specific areas in which the department has found its application to be necessary for the protection of the public health and has given written notice thereof to the person furnishing or supplying water in the area.

The department may prescribe reasonable and feasible action to be taken by those persons or the users to insure that their domestic water will not be injurious to health.

(Amended by Stats. 1997, Ch. 734, Sec. 5. Effective October 7, 1997.)

116293.

(a) On January 1, 2003, the Office of Environmental Health Hazard Assessment shall perform a risk assessment and, based upon that risk assessment, shall adopt a public health goal based exclusively on public health consideration for perchlorate using the criteria set forth in subdivision (c) of Section 116365.

(b) On or before January 1, 2004, the department shall adopt a primary drinking water standard for perchlorate found in public water systems in California in a manner that is consistent with this chapter.

(Added by Stats. 2002, Ch. 425, Sec. 2. Effective January 1, 2003.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. California Safe Drinking Water Act [116270 - 116755]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Department and Local Responsibilities [116325 - 116345]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

116325.

The department shall be responsible for ensuring that all public water systems are operated in compliance with this chapter and any regulations adopted hereunder. The department shall directly enforce this chapter for all public water systems except as set forth in Section 116500.

(Amended by Stats. 1997, Ch. 734, Sec. 7. Effective October 7, 1997.)

116326.

In administering programs to fund improvements and expansions of small community water systems, the department shall do all of the following:

(a)Give priority to funding projects in disadvantaged communities.

(b)Encourage the consolidation of small community water systems that serve disadvantaged communities in instances where consolidation will help the affected agencies and the state to meet all of the following goals:

(1)Improvement in the quality of water delivered.

(2)Improvement in the reliability of water delivery.

(3)Reduction in the cost of drinking water for ratepayers.

(c)Pursuant to subdivision (b), allow funding for feasibility studies performed prior to a construction project to include studies of the feasibility of consolidating two or more community water systems, at least one of which is a small community water system that serves a disadvantaged community.

(d)In instances where it is shown that small community water system consolidation will further the goals of subdivision (b), give priority to funding construction projects that involve the physical restructuring of two or more community water systems, at least one of which is a small community water system that serves a disadvantaged community, into a single, consolidated system.

(Added by Stats. 2007, Ch. 614, Sec. 2. Effective January 1, 2008.)

116330.

(a) The department may delegate primary responsibility for the administration and enforcement of this chapter within a county to a local health officer authorized by the board of supervisors to assume these duties, by means of a local primacy delegation agreement if the local health officer demonstrates that it has the capability to meet the local primacy program requirements established by the department pursuant to subdivision (h) of Section 116375. This delegation shall not include the regulation of community water systems serving 200 or more service connections. The local primacy agreement may contain terms and conditions that the department deems necessary to carry out this chapter. The local primacy agreement shall provide that, although the local primacy agency shall be primarily responsible for administration and enforcement of this chapter for the designated water systems, the department does not thereby relinquish its authority, but rather shall retain jurisdiction to administer and enforce this chapter for the designated water systems to the extent determined necessary by the department.

(b) Any local health officer seeking a local primacy delegation shall submit an application to the department. The application shall be submitted by March 1, 1993, for local health officers seeking local primacy agreements for the 1993“94 fiscal year. Thereafter, the application shall be submitted by January 1, of the fiscal year immediately preceding the commencement of the fiscal year for which the local primacy delegation is sought. The application shall be in the format, and shall contain information, required by the department. The department shall approve the application for primacy if the department determines that the local health officer is capable of meeting the primacy program requirements established by the department.

(c) A local primacy delegation approved by the department shall remain in effect until any of the following conditions occur:

(1) The delegation is withdrawn by mutual agreement.

(2) The local primacy agency provides 120-day advance written notice to the department that it no longer wishes to retain local primacy.

(3) The department determines that the local primacy agency no longer complies with the departmentslocal primacy program requirements. The department shall provide written notice to the local primacy agency and the board of supervisors and shall provide an opportunity for a public hearing prior to initiation of any local primacy revocation action by the department.

(d) The department shall evaluate the drinking water program of each local primacy agency at least annually. The department shall prepare a report of the evaluation and list any program improvements needed to conform to the departmentslocal primacy program requirements. A copy of the evaluation report shall be provided to the local primacy agency and the board of supervisors. The local primacy agency shall be granted a reasonable amount of time to make any needed program improvements prior to the initiation of any local primacy revocation actions.

(e) To the extent funds are available in the Safe Drinking Water Account, the department shall provide the local primacy agency with an annual drinking water surveillance program grant to cover the cost of conducting the inspection, monitoring, surveillance, and water quality evaluation activities specified in the local primacy agreement. The annual program grant pursuant to this subdivision shall not exceed the amount that the department determines would be necessary for the department to conduct inspection, monitoring, surveillance, and water quality evaluation activities in the absence of a local primacy agreement for those systems in that county.

(f) The local primacy agency shall act for the department as the primary agency responsible for the administration and enforcement of this chapter for the specified public water systems and shall be empowered with all of the authority granted to the department by this chapter over those water systems.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116335.

(a)The public water systems serving the City of Maywood shall conduct, publish, and submit to the City of Maywood, the State Department of Public Health, the Office of Environmental Health Hazard Assessment, the Senate Committee on Environmental Quality, and the Assembly Committee on Environmental Safety and Toxic Materials a study on the City of Maywoodswater by December 21, 2010, addressing the impacts of manganese on the quality of the City of Maywoodswater. The report shall contain all of the following:

(1)Testing information and results on manganese for all of the sources of drinking water for the City of Maywood.

(2)The amount of manganese being contributed by each water source that serves the City of Maywood.

(3)Immediate and long-term steps that can be taken by the public water systems to reduce the amount of

manganese in the drinking water supply to be at least as low as a level that is consistent with the average level in communities within a 20-mile radius of the City of Maywood.

(4)Infrastructure improvements that can be made to reach the immediate and long-term goals to reduce the level of manganese and other contaminants in the water to be consistent with the average level in communities within a 20-mile radius of the City of Maywood.

(5)Actions that the public water systems will take to pursue funding in order to achieve those improvements.

(b)The City Council of Maywood shall conduct a public hearing on the results of the study.

(c)The public water systems shall respond in writing to public comments made at the hearing to the City Council of Maywood.

(d)The study and comments shall be posted on the public water systems™ Internet Web sites.

(e)All current notifications sent to the rate payers within the City of Maywood concerning water contaminants shall also be sent to occupants, in the same manner as set forth in subdivision (f) of Section 116450, and shall be distributed in English and the primary language of the residents of the city as well as posted on the public water systems™ Internet Web sites.

(Added by Stats. 2009, Ch. 259, Sec. 2. (AB 890) Effective January 1, 2010.)

116340.

This chapter shall not apply to state small water systems except as provided under this section:

(a) The state board shall adopt regulations specifying minimum requirements for operation of a state small water system. The requirements may be less stringent than the requirements for public water systems as set forth in this chapter.

(b) The minimum requirements for state small water systems adopted by the state board pursuant to subdivision (a) shall be enforced by the local health officer or a local health agency designated by the local health officer. In counties that do not have a local health officer, the requirements shall be enforced by the state board. Local health agencies may adopt more stringent requirements for state small water systems than those specified in the state regulations.

(c) The reasonable costs of the local health officer in carrying out the requirements of this section may be recovered through the imposition of fees on state small water systems by the local governing body in accordance with Section 101325.

(d)Sections 116400, 116530, 116665, and 116735 and Article 10 (commencing with Section 116700) apply to a state small water system to the same extent as those sections apply to a public water system. Section 116650 applies to a state small system for a violation of a requirement or order that applies to a state small system under this section.

(e)This section does not limit the remedies available, civil or criminal, for violations or requirements of this chapter that apply to a state small water system or for consistent failure to provide an adequate supply of safe drinking water.

(Amended by Stats. 2021, Ch. 187, Sec. 2. (SB 776) Effective January 1, 2022.)

116345.

(a) The local health officer shall submit a report monthly to the department regarding the status of compliance with this chapter by the public water systems under the jurisdiction of the local health officer. The report shall be in a form and manner prescribed by the department.

(b) The department shall review the public water system program of the local health officer at least every three years to assure compliance with this chapter. A report of the findings of the review along with any recommendations of the department shall be provided to the local health officer and the board of supervisors.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3. Operations [116350 - 116407]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

116350.

(a) The department shall administer the provisions of this chapter and all other provisions relating to the regulation of drinking water to protect public health.

(b) The department shall also have the following responsibilities:

(1) Conduct research, studies, and demonstration projects relating to the provision of a dependable, safe supply of drinking water, including, but not limited to, all of the following:

(A) Improved methods to identify and measure the existence of contaminants in drinking water and to identify the source of the contaminants.

(B) Improved methods to identify, measure, and assess the potential adverse health effects of contaminants in drinking water.

(C) New methods of treating raw water to prepare it for drinking, so as to improve the efficiency of water treatment and to remove or reduce contaminants.

(D) Improved methods for providing a dependable, safe supply of drinking water, including improvements in water purification and distribution, and methods of assessing health-related hazards.

(E) Improved methods of protecting the water sources of public water systems from contamination.

(F) Alternative disinfection technologies that minimize, reduce, or eliminate hazardous disinfection byproducts.

(2) Enforce provisions of the federal Safe Drinking Water Act and regulations adopted pursuant thereto.

(3) Adopt regulations to implement this chapter.

(c) The department may conduct studies and investigations as it deems necessary to assess the quality of private domestic water wells.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116355.

(a)Once every five years the state board shall submit to the Legislature a comprehensive Safe Drinking Water Plan for California.

(b)The Safe Drinking Water Plan shall include, but not be limited to, the following information:

(1)An analysis of the overall quality of Californiasdrinking water and the identification of specific water quality problems.

(2)Types and levels of contaminants found in public drinking water systems that have less than 10,000 service connections. The discussion of these water systems shall include the following:

(A)Estimated costs of requiring these systems to meet primary drinking water standards and public health goals.

(B)Recommendations for actions that could be taken by the Legislature, the department, and these systems to improve water quality.

(3)A discussion and analysis of the known and potential health risks that may be associated with drinking water contamination in California.

(4)An evaluation of how existing water quality information systems currently maintained by local or state agencies can be more effectively used to protect drinking water.

(5)An evaluation of the research needed to develop inexpensive methods and instruments to ensure better screening and detection of waterborne chemicals, and inexpensive detection methods that could be used by small utilities and consumers to detect harmful microbial agents in drinking water.

(6)An analysis of the technical and economic viability and the health benefits of various treatment techniques that can be used to reduce levels of trihalomethanes, lead, nitrates, synthetic organic chemicals, micro-organisms, and other contaminants in drinking water.

(7)A discussion of alternative methods of financing the construction, installation, and operation of new treatment technologies, including, but not limited to user charges, state or local taxes, state planning and construction grants, loans, and loan guarantees.

(8)A discussion of sources of revenue presently available, and projected to be available, to public water systems to meet current and future expenses.

(9)An analysis of the current cost of drinking water paid by residential, business, and industrial consumers based on a statewide survey of large, medium, and small public water systems.

(10)Specific recommendations, including recommendations developed pursuant to paragraph (6), to improve the quality of drinking water in California and a detailed five-year implementation program.

(11)A review of the use of administrators pursuant to Section 116686 in the state, including, but not limited to, the number of communities that have achieved access to safe drinking water through use of an administrator, the costs and duties of the administrator and a comparison of costs, whether rate structures for communities served by an administrator have resulted in significantly higher rates and whether those rates are affordable, and whether the administrator program should be modified to better serve communities.

(12)A review of the consolidations pursuant to Section 116682 in the state, including, but not limited to, the number of communities that have achieved access to safe drinking water through consolidation, whether rate structures for communities are affordable following consolidation, barriers to consolidation, and whether the consolidation program should be modified to better serve communities.

(Amended by Stats. 2018, Ch. 871, Sec. 1. (AB 2501) Effective January 1, 2019.)

116360.

(a)The department shall take all reasonable measures it determines necessary to reduce the risk to public health from waterborne illnesses in drinking water caused by cryptosporidium and giardia, to the extent those micro-organisms are not yet able to be adequately controlled through existing drinking water treatment and other management practices.

(b)The department shall directly conduct, or order the statespublic water systems to conduct, comprehensive sanitary surveys, as present resources permit, to identify risks to public health from cryptosporidium and giardia.

(c)To thoroughly address the public health risks currently posed by cryptosporidium, in particular, the department shall ensure that its initial cryptosporidium action plan, that has been circulated to public water systems serving more than 1,000 service connections, is comprehensively implemented and shall devise and implement necessary strategies for protecting the health of individuals served by smaller public water systems from cryptosporidium exposure.

(Amended by Stats. 2004, Ch. 193, Sec. 122. Effective January 1, 2005.)

116361.

(a) The Office of Environmental Health Hazard Assessment shall place a priority on the development of a public health goal for arsenic in drinking water, pursuant to subdivision (c) of Section 116365, sufficient to allow it to adopt the goal no later than December 31, 2002.

(b) Commencing January 1, 2002, the department shall commence the process for revising the existing primary drinking water standard for arsenic, and shall adopt a revised standard for arsenic not later than June 30, 2004. In considering the technological and economic feasibility of compliance with the proposed standard pursuant to paragraph (3) of subdivision (b) of Section 116365, the department shall consider emerging technologies that may cost-effectively reduce exposure to arsenic in drinking water.

(c) On or before December 31, 2002, the Secretary for Environmental Protection shall develop language regarding the health effects associated with the ingestion of arsenic in drinking water for inclusion in consumer confidence reports pursuant to Section 116470. On and after July 1, 2003, this language shall be included in the consumer confidence reports mailed or delivered to customers by each water system that measures arsenic in finished water at levels that exceed the applicable public health goal.

(d) The language developed by the Secretary for Environmental Protection for use in consumer confidence reports to describe the health effects associated with the ingestion of arsenic in drinking water shall be developed in accordance with primacy requirements described in subdivision (e) of Section 141.151 and subsections (b), (c), and (d) of Section 142.12 of Title 40 of the Code of Federal Regulations.

(e) Nothing in this section affects or changes the date for implementation of a revised arsenic standard by public water systems as required in Parts 9, 141, and 142 of Title 40 of the Code of Federal Regulations.

(Added by Stats. 2001, Ch. 604, Sec. 2. Effective January 1, 2002.)

116365.

(a)The state board shall adopt primary drinking water standards for contaminants in drinking water that are based upon the criteria set forth in subdivision (b) and shall not be less stringent than the national primary drinking water standards adopted by the United States Environmental Protection Agency. A primary drinking water standard adopted by the state board shall be set at a level that is as close as feasible to the corresponding public health goal placing primary emphasis on the protection of public health, and that, to the extent technologically and economically feasible, meets all of the following:

(1)With respect to acutely toxic substances, avoids any known or anticipated adverse effects on public health with an adequate margin of safety.

(2)With respect to carcinogens, or any substances that may cause chronic disease, avoids any significant risk to public health.

(b)The state board shall consider all of the following criteria when it adopts a primary drinking water standard:

(1)The public health goal for the contaminant published by the Office of Environmental Health Hazard Assessment pursuant to subdivision (c).

(2)The national primary drinking water standard for the contaminant, if any, adopted by the United States Environmental Protection Agency.

(3)The technological and economic feasibility of compliance with the proposed primary drinking water standard. For the purposes of determining economic feasibility pursuant to this paragraph, the state board shall consider the costs of compliance to public water systems, customers, and other affected parties with the proposed primary drinking water standard, including the cost per customer and aggregate cost of compliance, using best available technology.

(c)(1)The Office of Environmental Health Hazard Assessment shall prepare and publish an assessment of the risks to public health posed by each contaminant for which the state board proposes a primary drinking water standard. The risk assessment shall be prepared using the most current principles, practices, and methods used by public health professionals who are experienced practitioners in the fields of epidemiology, risk assessment, and toxicology. The risk assessment shall contain an estimate of the level of the contaminant in drinking water that is not anticipated to cause or contribute to adverse health effects, or that does not pose any significant risk to health. This level shall be known as the public health goal for the contaminant. The public health goal shall be based exclusively on public health considerations and shall be set in accordance with all of the following:

(A)If the contaminant is an acutely toxic substance, the public health goal shall be set at the level at which no known or anticipated adverse effects on health occur, with an adequate margin of safety.

(B)If the contaminant is a carcinogen or other substance that may cause chronic disease, the public health goal shall be set at the level that, based upon currently available data, does not pose any significant risk to health.

(C)To the extent information is available, the public health goal shall take into account each of the following factors:

(i)Synergistic effects resulting from exposure to, or interaction between, the contaminant and one or more other substances or contaminants.

(ii)Adverse health effects the contaminant has on members of subgroups that comprise a meaningful portion of the general population, including, but not limited to, infants, children, pregnant women, the elderly, individuals with a history of serious illness, or other subgroups that are identifiable as being at greater risk of adverse health effects than the general population when exposed to the contaminant in drinking water.

(iii)The relationship between exposure to the contaminant and increased body burden and the degree to which increased body burden levels alter physiological function or structure in a manner that may significantly increase the risk of illness.

(iv)The additive effect of exposure to the contaminant in media other than drinking water, including, but not limited to, exposures to the contaminant in food, and in ambient and indoor air, and the degree to which these exposures may contribute to the overall body burden of the contaminant.

(D)If the Office of Environmental Health Hazard Assessment finds that currently available scientific data are insufficient to determine the level of a contaminant at which no known or anticipated adverse effects on health will occur, with an adequate margin of safety, or the level that poses no significant risk to public health, the public health goal shall be set at a level that is protective of public health, with an adequate margin of safety. This level shall be based exclusively on health considerations and shall, to the extent scientific data is available, take into account the factors set forth in clauses (i) to (iv), inclusive, of subparagraph (C), and shall be based on the most current principles, practices, and methods used by public health professionals who are experienced practitioners in the fields of epidemiology, risk assessment, and toxicology. However, if adequate scientific evidence demonstrates that a safe dose response threshold for a contaminant exists, then the public health goal should be set at that threshold. The state board may set the public health goal at zero if necessary to satisfy the requirements of this subparagraph.

(2)The determination of the toxicological endpoints of a contaminant and the publication of its public health goal in a risk assessment prepared by the Office of Environmental Health Hazard Assessment are not subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The Office of Environmental Health Hazard Assessment and the state board shall not impose any mandate on a public water system that requires the public water system to comply with a public health goal. The Legislature finds and declares that the addition of this paragraph by Chapter 777 of the Statutes of 1999 is declaratory of existing law.

(3)(A)The Office of Environmental Health Hazard Assessment shall, at the time it commences preparation of a risk assessment for a contaminant as required by this subdivision, electronically post on its Internet Web site a notice that informs interested persons that it has initiated work on the risk assessment. The notice shall also include a brief description, or a bibliography, of the technical documents or other information the office has identified to date as relevant to the preparation of the risk assessment and inform persons who wish to submit information concerning the contaminant that is the subject of the risk assessment of the name and address of the person in the office to whom the information may be sent, the date by which the information shall be received in order for the office to consider it in the preparation of the risk assessment, and that all information submitted will be made available to any member of the public who requests it.

(B)A draft risk assessment prepared by the Office of Environmental Health Hazard Assessment pursuant to this subdivision shall be made available to the public at least 45 calendar days before the date that public comment and discussion on the risk assessment are solicited at the public workshop required by Section 57003.

(C)At the time the Office of Environmental Health Hazard Assessment publishes the final risk assessment for a contaminant, the office shall respond in writing to significant comments, data, studies, or other written information submitted by interested persons to the office in connection with the preparation of the risk assessment. These comments, data, studies, or other written information submitted to the office shall be made available to any member of the public who requests it.

(D)After the public workshop on the draft risk assessment, as required by Section 57003, is completed, the Office of Environmental Health Hazard Assessment shall submit the draft risk assessment for external scientific peer review using the process set forth in Section 57004 and shall comply with paragraph (2) of subdivision (d) of Section 57004 before publication of the final public health goal.

(d)Notwithstanding any other provision of this section, any maximum contaminant level in effect on August 22, 1995, may be amended by the state board to make the level more stringent pursuant to this section. However, the state board may only amend a maximum contaminant level to make it less stringent if the state board shows clear and convincing evidence that the maximum contaminant level should be made less stringent and the amendment is made consistent with this section.

(e)(1)All public health goals published by the Office of Environmental Health Hazard Assessment shall be established in accordance with the requirements of subdivision (c). The office shall determine, at least once every five years, whether there has been a detection of the corresponding contaminant of each public health goal in the preceding five years in the testing required pursuant to this chapter. Each public health goal shall be reviewed at least once every five years unless the office determines, pursuant to this paragraph, that there has not been a detection of the corresponding contaminant in the preceding five years. Reviewed public health goals shall be revised, pursuant to subdivision (c), as necessary based upon the availability of new scientific data.

(2)On or before January 1, 1998, the Office of Environmental Health Hazard Assessment shall publish a public health goal for at least 25 drinking water contaminants for which a primary drinking water standard has been adopted by the state board. The office shall publish a public health goal for 25 additional drinking water contaminants by January 1, 1999, and for all remaining drinking water contaminants for which a primary drinking water standard has been adopted by the state board by no later than December 31, 2001. A public health goal shall be published by the Office of Environmental Health Hazard Assessment at the same time the state board proposes the adoption of a primary drinking water standard for any newly regulated contaminant.

(f)The state board or Office of Environmental Health Hazard Assessment may review, and adopt by reference, any information prepared by, or on behalf of, the United States Environmental Protection Agency for the purpose of adopting a national primary drinking water standard or maximum contaminant level goal when it establishes a California maximum contaminant level or publishes a public health goal.

(g)At least once every five years after adoption of a primary drinking water standard, the state board shall review the primary drinking water standard and shall, consistent with the criteria set forth in subdivisions (a) and (b), amend any standard if either of the following occur:

(1)Changes in technology or treatment techniques that permit a materially greater protection of public health or attainment of the public health goal.

(2)New scientific evidence that indicates that the substance may present a materially different risk to public health than was previously determined.

(h)No later than March 1 of every year, the state board shall provide public notice of each primary drinking water standard it proposes to review in that year pursuant to this section. Thereafter, the state board shall solicit and consider public comment and hold one or more public hearings regarding its proposal to either amend or maintain an existing standard. With adequate public notice, the state board may review additional contaminants not covered by the March 1 notice.

(i)This section shall operate prospectively to govern the adoption of new or revised primary drinking water standards and does not require the repeal or readoption of primary drinking water standards in effect immediately preceding January 1, 1997.

(j)The state board may, by regulation, require the use of a specified treatment technique in lieu of establishing a maximum contaminant level for a contaminant if the state board determines that it is not economically or technologically feasible to ascertain the level of the contaminant.

(Amended by Stats. 2018, Ch. 51, Sec. 15. (SB 854) Effective June 27, 2018.)

116365.01.

(a)(1)Notwithstanding any other provision of law or regulation, including Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2, and Part 3 (commencing with Section 13000) of the Government Code, and except as provided in subdivision (b), for any proposed regulation that relates to the maximum contaminant levels for primary or secondary drinking water standards, as defined in subdivisions (c) and (d) of Section 116275, that is submitted by the department to the Office of Administrative Law for review, pursuant to Section 11349.1 of the Government Code, the Department of Finance shall take no longer than 90 days, commencing on the date that the department submits the rule or regulation to the Department of Finance, to do any of the following:

(A)Review any estimate pursuant to subdivision (c) of Section 11357 of the Government Code.

(B)Provide a letter or documentation, if required, pursuant to Section 11349.1 of the Government Code.

(C)Complete any other function in connection with the adoption of proposed regulations that relates to the maximum contaminant levels for primary or secondary drinking water standards, as required pursuant to any provision of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(D)Return the proposed regulation if the department has not prepared the estimate required by paragraph (6) of subdivision (a) of Section 11346.5 of the Government Code, in accordance with Section 11357 of the Government Code.

(2)If the Department of Finance returns the proposed regulation pursuant to subparagraph (D) of paragraph (1), an additional 90 day time period under this section shall begin when the regulations are resubmitted by the department to the Department of Finance.

(3)If the Department of Finance takes longer than 90 days to complete any of the functions set forth in subparagraphs (A) to (D), inclusive, of paragraph (1), the proposed regulations shall be exempt from any provision of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code that requires the involvement of the Department of Finance, and the department and the Office of Administrative Law shall proceed with all other applicable procedures in connection with the

adoption of proposed regulations.

(b)Subdivision (a) shall not apply to any regulation adopted by the department that reduces, weakens, lessens, or otherwise undermines any requirement established pursuant to this chapter for the protection of public health.

(Added by Stats. 2007, Ch. 725, Sec. 2. Effective January 1, 2008.)

116365.02.

(a)The department may adopt, pursuant to subdivision (c) of Section 11346.2 of the Government Code, any rules and regulations promulgated pursuant to the federal Safe Drinking Water Act (42 U.S.C. Sec. 300f et seq.), other than those federal rules and regulations that establish maximum contaminant levels for primary and secondary drinking water standards.

(b)Rules and regulations adopted pursuant to this subdivision shall not be subject to subparagraphs (C) and (D) of paragraph (3) of subdivision (d) of Section 11349.1 of the Government Code.

(Added by Stats. 2007, Ch. 725, Sec. 3. Effective January 1, 2008.)

116365.03.

The state board may adopt as an emergency regulation, a regulation, except a regulation that establishes maximum contaminant levels for primary and secondary drinking water standards, that is not more stringent than, and is not materially different in substance and effect than, the requirements of a regulation promulgated pursuant to the federal Safe Drinking Water Act (42 U.S.C. Sec. 300f et seq.). The adoption of a regulation pursuant to this section is an emergency and shall be considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health, safety, and general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, an emergency regulation adopted by the state board pursuant to this section is not subject to review by the Office of Administrative Law and shall remain in effect until revised by the state board.

(Added by Stats. 2015, Ch. 673, Sec. 5. (AB 1531) Effective January 1, 2016.)

116365.2.

(a)In conducting the periodic review and revision of public health goals pursuant to paragraph (1) of subdivision (e) of Section 116365, the Office of Environmental Health Hazard Assessment may give special consideration to those contaminants that, on the basis of currently available data or scientific evidence, cause or contribute to adverse health effects in members of subgroups that comprise a meaningful portion of the general population, including, but not limited to, infants, children, pregnant women, the elderly, individuals with a history of serious illness, or other subgroups that are identifiable as being at greater risk of adverse health effects than the general population when exposed to the contaminant in drinking water.

(b)In preparing and publishing risk assessments pursuant to subparagraph (C) of paragraph (1) of subdivision (c) of Section 116365 that involve infants and children, the office shall assess all of the following, to the extent information is available:

(1)Exposure patterns, including, but not limited to, patterns determined by relevant data, among bottle-fed infants and children that are likely to result in disproportionately high exposure to contaminants in comparison to the general population.

(2)Special susceptibility of infants and children to contaminants in comparison to the general population.

(3)The effects on infants and children of exposure to contaminants and other substances that have a common mechanism of toxicity.

(4)The interaction of multiple contaminants on infants and children.

(Added by Stats. 2004, Ch. 678, Sec. 1. Effective January 1, 2005.)

116365.5.

(a) The Department of Health Services shall commence the process for adopting a primary drinking water standard for hexavalent chromium that complies with the criteria established under Section 116365.

(b) The department shall report to the Legislature on its progress in developing a primary drinking standard for hexavalent chromium by January 1, 2003.

(c) The department shall establish a primary drinking water standard for hexavalent chromium on or before January 1, 2004.

(Added by Stats. 2001, Ch. 602, Sec. 1. Effective January 1, 2002.)

116366.

(a) No public water system, or its customers, shall be responsible for remediation or treatment costs associated with MTBE, or a product that contains MTBE, provided, however, that the public water system shall be permitted as necessary to incur MTBE remediation and treatment costs and to include those costs in its customer rates and charges, necessary to comply with drinking water standards or directives of the State Department of Health Services or other lawful authority. Any public water system that incurs MTBE remediation or treatment costs may seek recovery of those costs from parties responsible for the MTBE contamination, or from other available alternative sources of funds.

(b) If the public water system has included the costs of MTBE treatment and remediation in its customer rates and charges, and subsequently recovers all or a portion of its MTBE treatment and remediation costs from responsible parties or other available alternative sources of funds, it shall make an adjustment to its schedule of rates and charges to reflect the amount of funding received from responsible parties or other available alternative sources of funds for MTBE treatment or remediation.

(c) Subdivision (a) shall not prevent the imposition of liability on any person for the discharge of MTBE if that

liability is due to the conduct or status of that person independently of whether the person happens to be a customer of the public water system.

(Added by Stats. 1997, Ch. 816, Sec. 6. Effective January 1, 1998.)

116367.5.

The department shall establish a Research Advisory Committee, which shall consist of 11 members. The department shall provide for the support staff and meeting facility needs of the committee. The committee shall meet as necessary to review requests for research projects pursuant to paragraph (4) of subdivision (d) of Section 116367. The committee members shall be appointed by the director and shall consist of the following members:

(a) Four members representing public water systems.

(b) Four members representing entities paying into the Underground Storage Tank Cleanup Trust Fund created pursuant to Section 25299.50.

(c) One member representing environmental interest groups.

(d) One member representing consumer interest groups.

(e) One member representing the department.

(Added by Stats. 1998, Ch. 997, Sec. 8. Effective January 1, 1999.)

116370.

On or before January 1, 1998, the department shall propose, hold a public hearing, and adopt a finding of the best available technology for each contaminant for which a primary drinking water standard has been adopted. Thereafter, the department shall adopt a finding of the best available technology for each contaminant for which a primary drinking water standard has been adopted at the time the standard is adopted. The finding of the department shall take into consideration the costs and benefits of best available treatment technology that has been proven effective under full-scale field applications.

(Amended by Stats. 1996, Ch. 755, Sec. 10. Effective January 1, 1997.)

116375.

The department shall adopt regulations it determines to be necessary to carry out the purposes of this chapter. The regulations shall include, but not be limited to, the following:

(a) The monitoring of contaminants, including the type of contaminant, frequency and method of sampling and testing, and the reporting of results.

(b) The monitoring of unregulated contaminants for which drinking water standards have not been established by the department. The requirements shall be not less stringent than those adopted pursuant to paragraph (2) of subsection (a) of Section 1445 of the federal Safe Drinking Water Act, as amended (42 U.S.C. Sec. 300j-4 (a)(2)). Until the time that the department adopts regulations regarding the monitoring of unregulated contaminants, the department may, by order, require any public water system that has been shown to contain detectable levels of any unregulated contaminants to conduct periodic water analyses in accordance with conditions specified by the department. The water analyses shall be reported on a quarterly basis unless the department finds that more or less frequent analysis is necessary.

(c) Requirements for the design, operation, and maintenance of public water systems, including, but not limited to, waterworks standards and the control of cross-connections, that the department determines are necessary to obtain, treat, and distribute a reliable and adequate supply of pure, wholesome, potable, and healthy water.

(d) Requirements for treatment, including disinfection of water supplies.

(e) Requirements for the filtration of surface water supplies at least as stringent as regulations promulgated pursuant to subparagraph (C) of paragraph (7) of subsection (b) of Section 1412 of the federal Safe Drinking Water Act, as amended (42 U.S.C. Sec. 300g-1 (b)(7)(C)).

(f) Requirements for notifying the public of the quality of the water delivered to consumers.

(g) Minimum acceptable financial assurances that a public water system shall be required to submit as a demonstration of its capability to provide for the ongoing operation, maintenance, and upgrading of the system, including compliance with monitoring and treatment requirements and contingencies. For privately owned systems not regulated by the Public Utilities Commission, the financial assurance may be in the form of a trust fund, surety bond, letter of credit, insurance, or other equivalent financial arrangement acceptable to the department.

(h) Program requirements for the conduct of the public water system program by a local health officer under a primacy delegation from the department as set forth in this chapter. The requirements shall include, but not be limited to, the issuance of permits, surveillance and inspections, reporting of monitoring and compliance data, and the taking of enforcement actions.

(i) Methods for determination of the number of persons served by a public water system for drinking water regulatory purposes.

(j) The adoption by the State Department of Health Services, in consultation with the State Water Resources Control Board and representatives from operators of public water systems, of emergency regulations for the uniform, scientific sampling, and analytical testing protocols for oxygenates as defined in subdivision (k) of Section 51010.5 of the Government Code.

(Amended by Stats. 1997, Ch. 814, Sec. 10. Effective January 1, 1998.)

116376.

(a)The state board, on or before July 1, 2020, shall adopt a definition of microplastics in drinking water.

(b)The state board, on or before July 1, 2021, shall do all of the following:

(1)Adopt a standard methodology to be used in the testing of drinking water for microplastics.

(2)Adopt requirements for four years of testing and reporting of microplastics in drinking water, including public disclosure of those results.

(3)If appropriate, consider issuing a notification level or other guidance to aid consumer interpretations of the results of the testing required pursuant to this section.

(4)Accredit qualified laboratories in California to analyze microplastics.

(c)The state board may implement this section through the adoption of a policy handbook that is not subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 2018, Ch. 902, Sec. 1. (SB 1422) Effective January 1, 2019.)

116377.

The department may adopt emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, to implement amendments to this chapter. The initial adoption of emergency regulations and one readoption of the initial regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Initial emergency regulations and the first readoption of those regulations shall be exempt from review by the Office of Administrative Law. The emergency regulations authorized by this section shall be submitted to the Office of Administrative Law for filing with the Secretary of State and publication in the California Code of Regulations and shall remain in effect for not more than 180 days.

(Added by Stats. 1996, Ch. 197, Sec. 8. Effective July 22, 1996.)

116378.

(a)The state board may order a public water system to monitor for perfluoroalkyl substances and polyfluoroalkyl substances, in accordance with conditions set by the state board. A laboratory that has accreditation or certification pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101 shall perform the analysis of any material required by an order to monitor for these substances. The order shall identify the analytical test methods to be used by laboratories and provide for the electronic submission of monitoring results to the state board.

(b)An order issued pursuant to subdivision (a) may apply to an individual public water system, specific groups of public water systems, or to all public water systems. Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code does not apply to an order issued pursuant to subdivision (a) to specific groups of public water systems or to all public water systems. All monitoring results shall be submitted to the state board electronically as directed by the state board in its order.

(c)(1)If any monitoring undertaken pursuant to an order issued under subdivision (a) results in a confirmed detection, a community water system or a nontransient noncommunity water system shall report that

detection in the water systemsannual consumer confidence report. Unless the water source is taken out of use or new data becomes available to show that the response level is no longer being exceeded, the community water system or nontransient noncommunity water system will provide notice of the exceedance of the response level in the water systemsannual consumer confidence report.

(2)In addition to the notification pursuant to paragraph (1), for perfluoroalkyl substances and polyfluoroalkyl substances with notification levels, a community water system or a nontransient noncommunity water system shall report the detection if the level exceeds the notification level as required by Section 116455.

(3)For perfluoroalkyl substances and polyfluoroalkyl substances with response levels where detected levels of a substance exceed the response level, a community water system or a nontransient noncommunity public water system shall take a water source where detected levels exceed the response level out of use or provide public notification within 30 days of the confirmed detection. For the purposes of this paragraph, notice shall be provided as follows:

(A)A community water system shall do the following:

(i)Mail or directly deliver notice to each customer receiving a bill, including those that provide drinking water to others, and to other service connections to which water is delivered by the water system.

(ii)Email notice to each customer of the water system with an email address known by the water system.

(iii)Post the notice on the internet website of the water system.

(iv)Use one or more of the following methods to reach persons not likely to be reached by the notice provided in clause (i):

(I)Publish notice in a local newspaper for at least seven days.

(II)Post notice in conspicuous public places served by the water system for at least seven days.

(III)Post notice on an appropriate social media site for at least seven days.

(IV)Deliver notice to community organizations.

(B)A nontransient noncommunity water system shall do both of the following:

(i)Post notice in conspicuous locations throughout the area served by the water system.

(ii)Use one or more of the following methods to reach persons not likely to be reached by the notice provided in clause (i):

(I)Publish notice in a local newspaper for at least seven days.

(II)Publish notice in a newsletter distributed to customers.

(III)Send notice by email to employees or students.

(IV)Post notice on the internet website of the water system and an appropriate social media site for at least seven days.

(V)Deliver notice directly to each customer.

(C)A notice shall contain all of the following information:

(i)A statement that there was a confirmed detection above the response level, the numeric level of the applicable response level, and the level of the confirmed detection.

(ii)A description of the potential adverse health effects as identified by the state board in establishing the notification level or response level.

(iii)The population at risk, including subpopulations particularly vulnerable from exposure.

(iv)The name, business address, and phone number of the water system owner, operator, or designee, as a source of additional information concerning the notice.

(v)A statement to encourage the notice recipient to distribute the notice to other persons served, using the following standard language: Please share this information with all of the other people who drink this water, especially those who may not have received this public notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

(vi)Information in Spanish regarding the importance of the notice or a telephone number or address where Spanish-speaking residents may contact the water system to obtain a translated copy of the notice or assistance in Spanish.

(vii)If a non-English speaking group other than a Spanish-speaking group exceeds 1,000 residents or 10 percent of the residents served by the water system, either of the following:

(I)Information in the appropriate language regarding the importance of the notice.

(II)A telephone number or address where a resident may contact the water system to obtain a translated copy of the notice or assistance in the appropriate language.

(D)The following requirements apply to a notice provided by a water system:

(i)The notice shall be displayed so that it catches peoplesattention when printed or posted.

(ii)The message in the notice should be understandable at the eighth grade reading level.

(iii)The notice shall not contain technical language beyond an eighth grade reading level or print smaller than 12-point type.

(iv)The notice shall not contain language that minimizes or contradicts the information provided in the notice.

(d)This section is not a substitute for compliance with any requirements of Chapter 17.5 (commencing with Section 7290) of Division 7 of Title 1 of the Government Code that apply to a community water system or nontransient noncommunity water system.

(Amended by Stats. 2020, Ch. 370, Sec. 209. (SB 1371) Effective January 1, 2021.)

116380.

(a)The State Water Resources Control Board shall adopt regulations governing the use of point-of-entry and point-of-use treatment by public water systems in lieu of centralized treatment where it can be demonstrated that centralized treatment is not immediately economically feasible, limited to the following:

(1)Water systems with less than 200 service connections.

(2)Usage not prohibited by the federal Safe Drinking Water Act and its implementing regulations and guidance.

(3)Water systems that have submitted applications for funding to correct the violations for which the point-of-entry and point-of-use treatment is provided.

(b)The State Water Resources Control Board shall adopt emergency regulations governing the permitted use of point-of-entry and point-of-use treatment by public water systems in lieu of centralized treatment.

(1)The emergency regulations shall comply with Section 116552, and shall comply with all of the requirements set forth in subdivision (a) applicable to nonemergency regulations, but shall not be subject to the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The emergency regulations shall take effect when filed with the Secretary of State, and shall be published in the California Code of Regulations.

(2)The emergency regulations adopted pursuant to this subdivision shall remain in effect until the earlier of January 1, 2018, or the effective date of regulations adopted pursuant to subdivision (a).

(Amended by Stats. 2015, Ch. 663, Sec. 1. (AB 434) Effective October 9, 2015.)

116385.

(a) Any person operating a public water system shall obtain and provide at that personsexpense an analysis of the water to the state board, in the form, covering those matters, and at intervals as the state board by regulation may prescribe. The analysis shall be performed by a laboratory duly certified by the state board.

(b)The adoption of regulations under this section relating to the form or format of, and intervals at which, the analysis shall be provided and any amendments to that regulation is an emergency and shall be considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health, safety, and general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, an emergency regulation or amendments to that regulation adopted by the state board pursuant to this section is not subject to review by the Office of Administrative Law and shall remain in effect until revised by the state board. The state board shall hold a public hearing before adopting the regulations.

(Amended by Stats. 2021, Ch. 187, Sec. 3. (SB 776) Effective January 1, 2022.)

116390.

(a) No laboratory, other than a laboratory operated by the department, shall perform tests required pursuant to this chapter for any public water system without first obtaining a certificate issued by the department pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101.

(b) No person or public entity of the state shall contract with a laboratory for environmental analyses for which the state department requires certification pursuant to this section, unless the laboratory holds a valid certificate.

(Amended by Stats. 1997, Ch. 734, Sec. 8. Effective October 7, 1997.)

116395.

(a) The Legislature finds and declares all of the following:

(1) The large water system testing program has discovered chemical contamination of the statesdrinking water with increasing frequency.

(2) A significant number of California residents rely on the statessmall water systems to provide their water.

(3) The small systems, because they tend to be located in outlying rural areas where pesticide use is prevalent, and because they draw their water from shallow aquifers, face a serious threat of contamination.

(4) Unchecked water sources that may be contaminated pose a potentially serious threat to the health of the citizens of California, particularly those living in outlying rural areas.

(5) It is in the interest of all Californians that a testing program for small public water systems be implemented and carried out as expeditiously as possible.

(b) For purposes of this section, small public water system means a system with 200 connections or less, and is one of the following:

(1) A community water system that serves at least 15 service connections used by yearlong residents or regularly serves at least 25 yearlong residents.

(2) A state small water system.

(3) A noncommunity water system such as a school, labor camp, institution, or place of employment, as designated by the department.

(c) The department shall conduct training workshops to assist health officers in evaluation of small public water systems for organic chemical contamination, and in sampling and testing procedures. The department shall, at a minimum, provide health officers with guidelines for evaluating systems and instructions for sampling.

(d) The department shall develop a schedule for conduct of the programs by the local health officers. The schedule shall establish a program to address first those systems with the most serious potential for contamination. The department shall enter into agreements with the local health agencies to conduct the

necessary work to be performed pursuant to the schedule. The department shall begin the program no later than three months after September 19, 1985. All local health officers shall complete the evaluation, sampling, testing, review of sampling results, and notification to the public water systems within their jurisdiction in accordance with the agreements entered into with the department and within the schedule established by the department. All work required by this section shall be completed within three years after September 19, 1985.

(e) In consultation with the department, the local health officer shall conduct an evaluation of all small public water systems under their jurisdictions to determine the potential for contamination of groundwater sources by organic chemicals. The evaluation shall include, but not be limited to:

(1) A review of the historical water quality data of each system to determine possible evidence of degradation.

(2) A review, to be coordinated with the State Water Resources Control Board, and the California regional water quality control boards, of past and present waste disposal practices that may potentially affect the respective well water supply.

(3) A review of other organic chemicals used in the water supply area that have potential health risks and that may have the potential for contaminating drinking water supplies because of environmental persistence or resistance to natural degradation under conditions existing in California.

(f) Based upon the evaluation of each system, the local health officers shall develop a sampling plan for each system within their jurisdiction. The health officer shall collect samples in accordance with the plan and shall submit the samples for analysis to a certified laboratory designated by the department. When applicable, the laboratory shall test water samples using the Environmental Protection Agencys13 approved analytical techniques established under subdivision (h) of Section 304 of the Clean Water Act to qualitatively identify the complete range of contaminants in the same class as the specific contaminant or class of contaminants being analyzed.

(g) Within 10 days of the receipt from the laboratory of the testing results, the local health officer shall notify the small public water system, the department and the California regional water quality control board for that region of the results.

(h) Following a review of the testing results, the local health officer may order the public water system to conduct a periodic water sampling and analysis program in accordance with conditions specified by the local health officer. The department shall provide ongoing advice and assistance to local health officers in interpreting test results and determining appropriate notification and followup activities in those instances where contaminants are found.

(i) This section shall be operative during any fiscal year only if the Legislature appropriates sufficient funds to pay for all state-mandated costs to be incurred by local agencies pursuant to this section during that year.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116400.

If the department determines that a public water system is subject to potential contamination, the department may, by order, require the public water system to conduct a periodic water analysis in

accordance with conditions specified by the department. The water analysis shall be reported on a quarterly basis, unless the department finds that reasonable action requires either more or less frequent analysis.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116405.

(a) In counties with a population not exceeding 500,000 persons as shown by the 1970 federal decennial census, any public water system supplying both domestic and untreated irrigation water in separate pressurized systems that were in existence prior to January 1, 1990, and that is operated by an incorporated or unincorporated association of users, shall not require protection against backflow into the domestic water system from premises receiving both the water services and having available no other source of water, except where interconnection between the systems has taken place. It shall be a misdemeanor for any person to knowingly interconnect the water services on a userspremises without installing a backflow protection device approved by the state department.

(b) Regulations of the state department requiring the installation of backflow protection shall not be continued to require the installation of the protection in any public water system described in subdivision (a), except as provided in that subdivision.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116407.

(a)On or before January 1, 2020, the state board shall adopt standards for backflow protection and cross-connection control.

(b)(1)The state board may implement subdivision (a) through the adoption of a policy handbook that is not subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The policy handbook shall include standards for backflow protection and cross-connection control. In developing the standards and any amendments to those standards, the state board shall consult with state and local agencies and other persons whom the state board has identified as having expertise in the subject of backflow protection and cross-connection control. The state board shall hold at least two public hearings before adopting the policy handbook. The policy handbook shall be posted on the boardsinternet website.

(2)(A)The policy handbook described in this subdivision shall include provisions for the use of a swivel or changeover device to supply potable water to a dual-plumbed system during an interruption in recycled water service.

(B)The use of a swivel or changeover device shall be consistent with any notification and backflow protection provisions contained in the policy handbook.

(c)(1)Upon the effective date of a policy handbook adopted by the state board pursuant to subdivision (b), the regulations set forth in Article 1 (commencing with Section 7583) and Article 2 (commencing with Section 7601) of Group 4 of Subchapter 1 of Chapter 5 of Division 1 of Title 17 of the California Code of Regulations shall become inoperative, and, 90 days thereafter, are repealed, unless the state board makes a

determination not to repeal a specific regulation.

(2)If the state board determines not to repeal a specific regulation pursuant to paragraph (1), the state board shall provide to the Office of Administrative Law and the Secretary of State written notice of its determination, including identification of the specific regulation that is not repealed. That regulation, upon the provision of that written notice to the Office of Administrative Law and the Secretary of State, shall become operative.

(Amended by Stats. 2019, Ch. 455, Sec. 2. (AB 1180) Effective January 1, 2020.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. California Safe Drinking Water Act [116270 - 116755]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3.5. Fluoridation of Drinking Water [116409 - 116415]__

(Article 3.5 heading added by Stats. 2004, Ch. 727, Sec. 1.)

116409.

The Legislature finds and declares all of the following:

(a)Promotion of the public health of Californians of all ages by protection and maintenance of dental health through the fluoridation of drinking water is a paramount issue of statewide concern.

(b)It is the intent of the Legislature in enacting this article to preempt local government regulations, ordinances, and initiatives that prohibit or restrict the fluoridation of drinking water by public water systems with 10,000 or more service connections, without regard to whether the public water system might otherwise be exempt from Section 116410 or the requirements of this section, pursuant to Section 116415.

(c)It is further the intent of the Legislature in establishing this article to decrease the burden the Medi-Cal and the Denti-Cal programs place upon the stateslimited funds.

(Added by Stats. 2004, Ch. 727, Sec. 2. Effective January 1, 2005.)

116410.

(a)Each public water system with at least 10,000 service connections and with a natural level of fluorides that is less than the minimum established in the regulations adopted pursuant to this section shall be fluoridated in order to promote the public health of Californians of all ages through the protection and maintenance of dental health, a paramount issue of statewide concern. The department shall adopt regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code, requiring the fluoridation of public water systems. By July 1, 1996, and at 10-year intervals thereafter, each public water system with at least 10,000 service connections shall provide to the department an estimate of the total capital costs to install fluoridation treatment. The regulations adopted by the department shall take effect on January 1, 1997. Capital costs estimates are no longer required after installation of the fluoridation treatment equipment.

(b)The regulations shall include, but not be limited to, the following:

(1)Minimum and maximum permissible concentrations of fluoride to be maintained by fluoridation of public water systems.

(2)The requirements and procedures for maintaining proper concentrations of fluoride, including equipment, testing, recordkeeping, and reporting.

(3)Requirements for the addition of fluorides to public water systems in which the natural level of fluorides is less than the minimum level established in the regulations.

(4)A schedule for the fluoridation of public water systems with at least 10,000 service connections, based on the lowest capital cost per connection for each system.

(c)The purpose of the schedule established pursuant to paragraph (4) of subdivision (b) is not to mandate the order in which public water systems receiving funding from private sources must fluoridate their water. Available funds may be offered to any system on the schedule.

(d)The estimates provided to the department pursuant to subdivision (a) of this section and subdivision (g) of Section 116415 of the total capital and associated costs and noncapital operation and maintenance costs related to fluoridation treatments and the similar estimates provided to those sources offering to provide the funds set forth in paragraph (1) of subdivision (a) of Section 116415 shall be reasonable, as determined by the department. A registered civil engineer recognized or employed by the department who is familiar with

the design, construction, operation, and maintenance of fluoridations systems shall determine for the department whether the costs are reasonable.

(e)As used in this section and Section 116415, costs means only those costs that require an actual expenditure of funds or resources, and do not include costs that are intangible or speculative, including, but not limited to, opportunity or indemnification costs.

(f)Any public water system with multiple water sources, when funding is not received to fluoridate all sources, is exempt from maintaining otherwise required fluoridations levels in areas receiving any nonfluoridated water. The exemption shall be in effect only until the public water system receives funding to fluoridate the entire water system and the treatment facilities are installed and operational.

(Amended by Stats. 2004, Ch. 727, Sec. 3. Effective January 1, 2005.)

116415.

(a)(1)A public water system is not required to fluoridate pursuant to Section 116410, or the regulations adopted thereunder by the department, in any of the following situations:

(A)If the public water system is listed on the schedule to implement a fluoridation program pursuant to paragraph (4) of subdivision (b) of Section 116410 and funds are not offered pursuant to a binding contractual offer to the public water system sufficient to pay the capital and associated costs from any outside source. As used in this section, outside source means a source other than the systemsratepayers, shareholders, local taxpayers, bondholders, or any fees or charges levied by the water system.

(B)If the public water system has been offered pursuant to a binding contractual offer the capital and associated funds necessary for fluoridation as set forth in subparagraph (A) and has completed the installation of a fluoridation system, however, in any given fiscal year (July 1-June 30, inclusive) funding is not available to the public water system sufficient to pay the noncapital operation and maintenance costs described in subdivision (g) from any outside source other than the systemsratepayers, shareholders, local taxpayers, bondholders, or any fees or charges levied by the water system. A binding contractual offer to provide funds for 12 months, without regard to fiscal year, of noncapital operation and maintenance costs shall render a water system unqualified for an exemption under this subparagraph for that year.

(C)If the funding provided by an outside source for capital and associated costs is depleted prior to completion of the installation of a fluoridation system and funds sufficient to complete the installation have not been offered pursuant to a binding contractual offer to the public water system by an outside source. In the event of a disagreement between the public water system and an outside funding source about the reasonableness of additional capital and associated costs, in order to qualify for an exemption under this subparagraph the costs overruns must be found to be reasonable by a registered civil engineer recognized or employed by the department who is familiar with the design, construction, operation, and maintenance of fluoridation systems.

(2)Each year the department shall prepare and distribute a list of those water systems that do not qualify for exemption under this section from the fluoridation requirements of Section 116410. This list shall include water systems that have been offered, have received, or are expected to receive, sufficient funding for capital and associated costs so as to not qualify for exemption under subparagraph (A) of paragraph (1), and have either (A) been offered or have received, or anticipate receiving, sufficient noncapital maintenance and operation funding pursuant to subdivision (g), or (B) have not yet completed the installation of a fluoridation

system, so that they do not qualify for exemption under subparagraph (B) of paragraph (1).

(3)Any water system that has been offered pursuant to a binding contractual offer the funds necessary for fluoridation as set forth in subparagraph (A) of paragraph (1), and is not included in the list pursuant to paragraph (2), may elect to exercise the option not to fluoridate during the following fiscal year pursuant to subparagraph (B) of paragraph (1) by so notifying the department by certified mail on or before June 1.

(4)The permit issued by the department for a public water system that is scheduled to implement fluoridation pursuant to paragraph (4) of subdivision (b) of Section 116410 shall specify whether it is required to fluoridate pursuant to Section 116410, or whether it has been granted an exemption pursuant to either subparagraph (A) or subparagraph (B) of paragraph (1).

(b)The department shall enforce Section 116410 and this section, and all regulations adopted pursuant to these sections, unless delegated pursuant to a local primary agreement.

(c)If the owner or operator of any public water system subject to Section 116410 fails, or refuses, to comply with any regulations adopted pursuant to Section 116410, or any order of the department implementing these regulations, the Attorney General shall, upon the request of the department, institute mandamus proceedings, or other appropriate proceedings, in order to compel compliance with the order, rule, or regulation. This remedy shall be in addition to all other authorized remedies or sanctions.

(d)Neither this section nor Section 116410 shall supersede subdivision (b) of Section 116410.

(e)The department shall seek all sources of funding for enforcement of the standards and capital cost requirements established pursuant to this section and Section 116410, including, but not limited to, all of the following:

(1)Federal block grants.

(2)Donations from private foundations.

Expenditures from governmental sources shall be subject to specific appropriation by the Legislature for these purposes.

(f)A public water system with less than 10,000 service connections may elect to comply with the standards, compliance requirements, and regulations for fluoridation established pursuant to this section and Section 116410.

(g)Costs, other than capital costs, incurred in complying with this section and Section 116410, including regulations adopted pursuant to those sections, may be paid from federal grants, or donations from private foundations, for these purposes. Each public water system that will incur costs, other than capitalization costs, as a result of compliance with this section and Section 116410, shall provide an estimate to the department of the anticipated total annual operations and maintenance costs related to fluoridation treatment by January 1 of each year.

(h)A public water system subject to the jurisdiction of the Public Utilities Commission shall be entitled to recover from its customers all of its capital and associated costs, and all of its operation and maintenance expenses associated with compliance with this section and Section 116410. The Public Utilities Commission shall approve rate increases for an owner or operator of a public water system that is subject to its jurisdiction within 45 days of the filing of an application or an advice letter, in accordance with the commissionsrequirements, showing in reasonable detail the amount of additional revenue required to

recover the foregoing capital and associated costs, and operation and maintenance expenses.

(Amended by Stats. 2004, Ch. 727, Sec. 4. Effective January 1, 2005.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=12.&chapter=4.&article=3.6.

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. California Safe Drinking Water Act [116270 - 116755]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 3.6. Constituents of Emerging Concern Action Fund [116416 - 116424]__

(Article 3.6 added by Stats. 2022, Ch. 676, Sec. 2.)

116416.

For purposes of this article, the following definitions apply:

(a)CEC means a constituent of emerging concern.

(b)Panel means the Science Advisory Panel for CECs in drinking water specified in Section 116418.

(c)Program means the Constituents of Emerging Concern in Drinking Water Program specified in Section 116417.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

116417.

(a)The state board shall build upon its existing work dealing with, and work to improve its knowledge of, CECs in waters of the state and drinking water. As part of the state boardswork on CECs, the deputy director shall work to improve the knowledge of CECs in drinking water by assessing the state of information, and may recommend areas for further studies, such as the following:

(1)The occurrence of CECs in drinking water.

(2)Fate, transport, and biodegradation of CECs.

(3)Water treatment and laboratory analyses.

(4)The potential effects on public health of CECs in drinking water.

(b)The state board may establish, maintain, and direct a dedicated program called the Constituents of Emerging Concern in Drinking Water Program.

(c)Nothing in this article limits the state boardsexisting authority to act on CECs.

(d)Nothing in this article changes or interferes with the state boardsongoing activities on CECs.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

116418.

(a)The deputy director may convene a Science Advisory Panel for CECs in drinking water.

(b)(1)The panel may include at least nine members comprised of the following:

(A)Seven experts appointed by the deputy director from the following fields:

(i)Public health sciences.

(ii)Water and wastewater, including water treatment, engineering.

(iii)Toxicology.

(iv)Epidemiology.

(v)Chemical sciences.

(vi)Biological sciences, including pathogens.

(vii)Human health risk assessment.

(B)One expert in public health who has expertise in water contamination, appointed by the Speaker of the Assembly within 60 days of the deputy director calling for the formation of the panel.

(C)One expert in public health who has expertise in water contamination, appointed by the President pro Tempore of the Senate within 60 days of the deputy director calling for the formation of the panel.

(2)Panel members shall not have financial conflicts of interest.

(c)The deputy director may adjust panel membership numbers and composition, as necessary.

(d)Any science advisory panel convened pursuant to this section shall hold at least one open public session to take public comment before releasing any final reports or findings.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

116419.

(a)The panel shall serve at the direction of the deputy director. At the deputy directorsrequest, the panelsduties may include, but are not limited to, any of the following activities in consultation with the Office of Environmental Health Hazard Assessment and, as needed, the Department of Toxic Substances Control:

(1)Review existing data, including, but not limited to, occurrence and toxicity data, for CECs collected by the state board and nationwide by the United States Environmental Protection AgencysUnregulated Contaminant Monitoring Rule program and recommend to the deputy director further actions based on state-specific conditions and the statesCEC initiatives.

(2)Identify CEC candidates based on potential public health effects.

(3)Incorporate recommendations from other ongoing efforts evaluating CECs both within California and throughout the United States, as applicable.

(4)Review the existing CEC risk-based framework in aquatic and recycled water systems to see if the framework is applicable to drinking water.

(5)Recommend a framework for a risk-based screening program for CECs and appropriate indicators and surrogates that consider their occurrence in drinking water, contribution and fate in the environment, and potential for human exposure.

(6)Review the results of any screening program, which may include screening programs within California and throughout the United States, and provide recommendations to assist the deputy director in prioritizing, monitoring, evaluating health impacts, and informing regulatory determinations for CECs.

(7)Address the United States Environmental Protection AgencysContaminant Candidate List and not create any impediments to complying with federal law or duplicative monitoring.

(b)Nothing in this section or Section 116418 shall duplicate, change, or interfere with the state boardsor the deputy directorsongoing efforts on perfluoroalkyl and polyfluoroalkyl substances and CECs.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

116420.

(a)If the state board imposes CEC monitoring requirements pursuant to Section 116375, the state board may provide financial assistance, upon appropriation by the Legislature for this purpose, to eligible recipients. Eligible recipients of these funds shall be community water systems serving fewer than 10,000 individuals and located in disadvantaged communities. The state board may also provide funding to technical assistance providers that assist eligible recipients in complying with CEC monitoring imposed by the state board.

(b)For purposes of this section,

technical assistance provider has the same meaning as defined in Section 116767.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

116421.

The Legislature finds and declares that the program is intended to help inform the deputy director in recommending regulatory determinations for CECs and is not intended to supersede any requirements related to setting drinking water standards or a public health goal as prescribed in Section 116365 or a notification level or a response level as prescribed in Section 116455.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

116422.

(a)The CEC Action Fund is hereby established in the State Treasury. The state board shall administer the CEC Action Fund.

(b)All moneys deposited in the CEC Action Fund may be used, upon appropriation by the Legislature, in support of, but not limited to, all of the following:

(1)Costs associated with developing, maintaining, implementing, and administering the state boardsCEC efforts.

(2)Costs associated with establishing and maintaining the panel, developing a risk-based screening program, collecting occurrence data, and reporting on those activities.

(3)Costs associated with developing standardized analytical methods internally by the state board or through external contracts, direct expenditures, or grants.

(4)Costs associated with contracts, direct expenditures, or grants to public or private external research organizations to fill research gaps.

(5)Public participation and outreach efforts pursuant to Section 116423.

(6)Other state board costs associated with implementing and administering the program, including monitoring pursuant to Section 116375 and administrative costs.

(7)Costs associated with financial assistance provided to community water systems for monitoring CECs pursuant to Section 116420.

(8)Costs associated with the state boardsresearch and scientific investigations related to perfluoroalkyl and polyfluoroalkyl substances.

(c)(1)The state board may provide for the deposit into the CEC Action Fund of federal contributions, voluntary contributions, gifts, grants, bequests, transfers by the Legislature from the General Fund, and funding from authorized general obligation bond acts. All moneys remitted to the state board pursuant to this section shall be deposited in the CEC Action Fund.

(2)Any federal contributions shall be subject to federal requirements and shall be used only for the permissible purposes allowed by the federal law or a federal grant deposited in the fund, to the extent authorized and funded by that grant.

(d)Contracts entered into pursuant to this section are exempt from Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code and Section 4526 of the Government Code, and may be awarded on a noncompetitive bid basis as necessary to implement the purposes of this section.

(e)Actions taken to implement, interpret, or make specific this section, including, but not limited to, the adoption of any plan, handbook, or map, are not subject to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340), Chapter 4 (commencing with Section 11370), Chapter 4.5 (commencing with Section 11400), and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code).

(f)The state board may, upon appropriation by the Legislature, expend moneys from the CEC Action Fund for reasonable costs associated with the administration of this article.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

116423.

(a)The program shall provide opportunities for public participation. Public participation may include, but is not limited to, conducting periodic stakeholder meetings and workshops to solicit relevant information, data, suggestions, and feedback for the development and implementation of the program.

(b)The state board may maintain a program internet website and make relevant research, reports, and data available to the public.

(c)The state board may provide an annual program update, as an informational item, at a regularly noticed meeting of the state board.

(d)(1)If the deputy director convenes a panel pursuant to this article, the deputy director shall, three years

after the panel is convened, post a report to the state boardsinternet website on the work conducted by the panel.

(2)The requirement for posting a report imposed under paragraph (1) is inoperative on June 1, 2030.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

116424.

Implementation of this article is contingent upon an appropriation by the Legislature for purposes of this article in the annual Budget Act or another statute.

(Added by Stats. 2022, Ch. 676, Sec. 2. (SB 230) Effective January 1, 2023.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=12.&chapter=4.&article=4.

116425.

(a)The state board may exempt a public water system from a maximum contaminant level or treatment technique requirement if it finds all the following:

(1)The public water system was in operation, or had applied for a permit to operate, on the effective date of the maximum contaminant level or treatment technique requirement.

(2)Due to compelling factors, which may include either of the following factors, the public water system is unable to comply with the maximum contaminant level or treatment technique requirement or to implement measures to develop an alternative water supply:

(A)Economic factors.

(B)The entire service area of the public water system consists of a disadvantaged community, as defined under Section 1452(d) of the federal Safe Drinking Water Act (42 U.S.C. Sec. 300g-5), and meets the affordability criteria established by the department, after review and public hearing.

(3)The granting of the exemption will not result in an unreasonable risk to health.

(4)Management or restructuring changes, or both, cannot reasonably be made that will result in compliance with this chapter or, if compliance cannot be achieved, improve the quality of the drinking water.

(b)If the state board grants a public water system an exemption for a primary drinking water standard under subdivision (a), the state board shall prescribe, at the time the exemption is granted, a schedule for both of the following:

(1)Compliance by the public water system with each contaminant level or treatment technique requirement for which the exemption was granted.

(2)Implementation by the public water system of interim control measures the state board may require for each contaminant or treatment technique requirement for which the exemption was granted.

(c)Any schedule prescribed by the state board pursuant to this section shall require compliance by the public water system with each contaminant level or treatment technique requirement for which the exemption was granted within 12 months from the granting of the exemption.

(d)The final date for compliance with any schedule issued pursuant to this section may be extended by the state board for a period not to exceed three years from the date of the granting of the exemption if the state board finds all of the following:

(1)The system cannot meet the standard without capital improvements that cannot be completed before the date established pursuant to Section 1412(b)(1) of the federal Safe Drinking Water Act (42 U.S.C. 300g-(b)(1)).

(2)In the case of a system that needs financial assistance for the necessary improvements, the system has entered into an agreement to obtain the financial assistance or the system has entered into an enforceable agreement to become part of a regional public water system.

(3)The system is taking all practicable steps to meet the standard.

(e)In the case of a system that does not serve more than a population of 3,300 and that needs financial assistance for the necessary improvements, an exemption granted pursuant to paragraph (2) of subdivision (d) shall not exceed a total of six years.

(f)Prior to the granting of an exemption pursuant to this section, the state board shall provide notice and an opportunity for a public hearing. Notice of any public hearing held pursuant to this section shall be given by the state board in writing to the public water system seeking the exemption and to the public as provided in Section 6061 of the Government Code. A public hearing provided pursuant to this subdivision is not an adjudicative hearing and is not required to comply with Section 100171.

(g)A public water system shall not receive an exemption under this section if the system is granted a variance pursuant to Section 116430.

(h)Unless the state board has already granted an exemption pursuant to subdivision (a), the state board may exempt a public water system from compliance with a maximum contaminant level or treatment technique requirement for up to two years if the state board finds, and continues to find, that a plan submitted by the water system may reasonably be expected to bring the water system into compliance by any of the following means:

(1)The physical consolidation of the system with one or more other systems.

(2)The consolidation of significant management and administrative functions of the system with one or more other systems.

(3)The transfer of ownership of the system.

(Amended by Stats. 2017, Ch. 327, Sec. 27. (AB 1438) Effective January 1, 2018.)

116430.

(a) The department may grant a variance or variances from primary drinking water standards to a public water system. Any variance granted pursuant to this subdivision shall conform to the requirements established under the federal Safe Drinking Water Act, as amended (42 U.S.C. Sec. 300g-4).

(b) (1) In addition to the authority provided in subdivision (a), at the request of any public water system, the department shall grant a variance from the primary drinking water standard adopted by the department for fluoride. A variance granted by the department pursuant to this subdivision shall prohibit fluoride levels in excess of 75 percent of the maximum contaminant level established in the national primary drinking water regulation adopted by the United States Environmental Protection Agency for fluoride, or three milligrams per liter, whichever is higher, and shall be valid for a period of up to 30 years. The department shall review each variance granted pursuant to this section at least every five years. The variance may be withdrawn upon reasonable notice by the department if the department determines that the community served by the public water system no longer accepts the fluoride level authorized in the variance or the level of fluoride authorized by the variance poses an unreasonable risk to health. In no case may a variance be granted in excess of the United States Environmental Protection Agency maximum contaminant level.

(2) The department shall grant a variance pursuant to paragraph (1) only if it determines, after conducting a public hearing in the community served by the public water system, that there is no substantial community opposition to the variance and the variance does not pose an unreasonable risk to health. The public water system shall provide written notification, approved by the department, to all customers which shall contain at least the following information:

(A) The fact that a variance has been requested.

(B) The date, time and location of the public hearing that will be conducted by the department.

(C) The level of fluoride that will be allowed by the requested variance and how this level compares to the maximum contaminant levels prescribed by the state primary drinking water standard, the federal national primary drinking water regulation, and the federal national secondary drinking water regulation.

(D) A discussion of the types of health and dental problems that may occur when the fluoride concentration exceeds the maximum contaminant levels prescribed by the state standard and the federal regulations.

(3) If, at any time after a variance has been granted pursuant to paragraph (1), substantial community concerns arise concerning the level of fluoride present in the water supplied by the public water system, the public water system shall notify the department, conduct a public hearing on the concerns expressed by the community, determine the fluoride level that is acceptable to the community, and apply to the department for an amendment to the variance which reflects that determination.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=12.&chapter=4.&article=5.

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. California Safe Drinking Water Act [116270 - 116755]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 5. Public Notification [116450 - 116485]__

(Article 5 added by Stats. 1995, Ch. 415, Sec. 6.)

116450.

(a)When any primary drinking water standard specified in the departmentsregulations is not complied with, when a monitoring requirement specified in the departmentsregulations is not performed, or when a water purveyor fails to comply with the conditions of any variance or exemption, the person operating the public water system shall notify the department and shall give notice to the users of that fact in the manner prescribed by the department. When a variance or an exemption is granted, the person operating the public water system shall give notice to the users of that fact.

(b)When a person operating a public water system determines that a significant rise in the bacterial count of water has occurred in water he or she supplies, the person shall provide, at his or her expense, a report on the rise in bacterial count of the water, together with the results of an analysis of the water, within 24 hours to the department and, where appropriate, to the local health officer.

(c)When the department receives the information described in subdivision (b) and determines that it constitutes an immediate danger to health, the department shall immediately notify the person operating the public water system to implement the emergency notification plan required by this chapter.

(d)In the case of a failure to comply with any primary drinking water standard that represents an imminent danger to the health of water users, the operator shall notify each of his or her customers as provided in the

approved emergency notification plan.

(e)In addition, the same notification requirement shall be required in any instance in which the department or the local health department recommends to the operator that it notify its customers to avoid internal consumption of the water supply and to use bottled water due to a chemical contamination problem that may pose a health risk.

(f)The content of the notices required by this section shall be approved by the department. Notice shall be repeated at intervals, as required by the department, until the department concludes that there is compliance with its standards or requirements. Notices may be given by the department.

In any case where public notification is required by this section because a contaminant is present in drinking water at a level in excess of a primary drinking water standard, the notification shall include identification of the contaminant, information on possible effects of the contaminant on human health, and information on specific measures that should be taken by persons or populations who might be more acutely affected than the general population.

(g)Whenever a school or school system, the owner or operator of residential rental property, or the owner or operator of a business property receives a notification from a person operating a public water system under any provision of this section, the school or school system shall notify school employees, students and parents if the students are minors, the owner or operator of a residential rental property shall notify tenants, and the owner or operator of business property shall notify employees of businesses located on the property.

(1)The operator shall provide the customer with a sample notification form that may be used by the customer in complying with this subdivision and that shall indicate the nature of the problem with the water supply and the most appropriate methods for notification that may include, but is not limited to, the sending of a letter to each water user and the posting of a notice at each site where drinking water is dispensed.

(2)The notice required by this subdivision shall be given within 10 days of receipt of notification from the person operating the public water system.

(3)Any person failing to give notice as required by this subdivision shall be civilly liable in an amount not to exceed one thousand dollars ($1,000) for each day of failure to give notice.

(4)If the operator has evidence of noncompliance with this subdivision the operator shall report this information to the local health department and the department.

(h)(1)Notwithstanding any other provision of law, commencing July 1, 2012, a written Tier 1 public notice given by a public water system pursuant to this section shall comply with the following:

(A)It shall be provided in English, Spanish, and in the language spoken by any non-English-speaking group that exceeds 10 percent of persons served by the public water system, and it shall contain a telephone number or address where residents may contact the public water system for assistance.

(B)For each non-English-speaking group that speaks a language other than Spanish and that exceeds 1,000 residents but is less than 10 percent of the persons served by the public water system described in subparagraph (A), the notice shall contain information regarding the importance of the notice and a telephone number or address where the public water system will provide either a translated copy of the notice or assistance in the appropriate language.

(2)(A)After July 1, 2012, it shall be presumed that the public water system has determined the appropriate languages for notification pursuant to paragraph (1) if the public water system has made a reasonable attempt to utilize the data available through the American Community Survey of the United States Census Bureau to identify the non-English speaking groups that reside in a city, county, or city and county that encompasses the service area of the public water system.

(B)After July 1, 2012, it shall be presumed that the notice has been correctly translated if the public water system has made a reasonable attempt to obtain either in-house or contracted-for translation services for providing a translated copy of the notice or assistance in the appropriate languages pursuant to paragraph (1) and the translated copy of the notice or assistance has been provided.

(C)After July 1, 2012, if the public water system has made a reasonable attempt to have the notice required by paragraph (1) translated into the appropriate languages, it shall be presumed that a notice translated into languages other than Spanish has been adequately provided if it contains translations in the appropriate languages of all of the following:

(i)Identification of the contaminant.

(ii)Information on the health effects associated with the presence of the contaminant in drinking water at a level in excess of the primary drinking water standard.

(iii)Actions that members of the public should take to protect their health, such as, for example, Do not drink, Boil water before using, or Stop boiling your water.

(3)In addition to nonwritten notification provided for in the public water systemsemergency notification plan, the public water system may, and is encouraged to, provide notice through foreign language media outlets.

(4)For purposes of this subdivision, Tier 1 public notice means a public notice as defined pursuant to Section 64401.71 of Title 22 of the California Code of Regulations.

(5)Nothing in this subdivision shall require the department to review or approve notices in any language other than English.

(Amended by Stats. 2011, Ch. 514, Sec. 1. (AB 938) Effective January 1, 2012.)

116451.

If user notification is required pursuant to Section 116450, the department shall make a reasonable effort to ensure that notification is given.

(Added by Stats. 2009, Ch. 298, Sec. 14. (AB 1540) Effective January 1, 2010.)

116455.

(a)A public water system shall comply with the requirements of this section within 30 days after it is first informed of a confirmed detection of a contaminant found in drinking water delivered by the public water system for human consumption that is in excess of a maximum contaminant level, a notification level, or a

response level established by the department.

(1)If the public water system is a wholesale water system, then the person operating the wholesale water system shall notify the wholesale water systemsgoverning body and the water systems that are directly supplied with that drinking water. If the wholesale water system is a water company regulated by the California Public Utilities Commission, then the wholesale water system shall also notify the commission. The commission in the exercise of its general and specific powers to ensure the health, safety, and availability of drinking water served by the utilities subject to its jurisdiction, may order further action that is not inconsistent with the standards and regulations of the department to ensure a potable water supply.

(2)If the public water system is a retail water system, then the person operating the retail water system shall notify the retail water systemsgoverning body and the governing body of any local agency whose jurisdiction includes areas supplied with drinking water by the retail water system. If the retail water system is a water company regulated by the California Public Utilities Commission, then the retail water system shall also notify the commission. The commission, in the exercise of its general and specific powers to ensure the health, safety, and availability of drinking water served by the utilities subject to its jurisdiction, may order further action that is not inconsistent with the standards and regulations of the department to ensure a potable water supply.

(b)The notification required by subdivision (a) shall identify the drinking water source, the origin of the contaminant, if known, the maximum contaminant level, response level, or notification level, as appropriate, the concentration of the detected contaminant, and the operational status of the drinking water source, and shall provide a brief and plainly worded statement of health concerns.

(c)For purposes of this section, the following terms have the following meanings:

(1)Drinking water source means an individual groundwater well, an individual surface water intake, or in the case of water purchased from another water system, the water at the service connection.

(2)Local agency means a city or county, or a city and county.

(3)Notification level means the concentration level of a contaminant in drinking water delivered for human consumption that the department has determined, based on available scientific information, does not pose a significant health risk but warrants notification pursuant to this section. Notification levels are nonregulatory, health-based advisory levels established by the department for contaminants in drinking water for which maximum contaminant levels have not been established. Notification levels are established as precautionary measures for contaminants that may be considered candidates for establishment of maximum contaminant levels, but have not yet undergone or completed the regulatory standard setting process prescribed for the development of maximum contaminant levels and are not drinking water standards.

(4)Response level means the concentration of a contaminant in drinking water delivered for human consumption at which the department recommends that additional steps, beyond notification pursuant to this section, be taken to reduce public exposure to the contaminant. Response levels are established in conjunction with notification levels for contaminants that may be considered candidates for establishment of maximum contaminant levels, but have not yet undergone or completed the regulatory standard setting process prescribed for the development of maximum contaminant levels and are not drinking water standards.

(5)Retail water system means a public water system that supplies water directly to the end user.

(6)Wholesale water system means a public water system that supplies water to other public water systems

for resale.

(Repealed and added by Stats. 2004, Ch. 679, Sec. 2. Effective January 1, 2005.)

116456.

(a)When establishing or revising a notification level or response level, the state board shall do all of the following:

(1)Electronically post on its internet website and distribute through email a notice informing interested persons that the state board has initiated the development or revision of a notification level or response level.

(2)Electronically post on its internet website and distribute through email a notice that a proposed notification level or response level is available. The notice shall include an electronic link to an internet webpage where the proposed level can be viewed electronically along with the complete study or studies or an electronic link to the complete study or studies, and the notification level recommendations document provided to the state board by the Office of Environmental Health Hazard Assessment, if applicable, that were used to establish the level. The state board shall not make available or provide an electronic link to a study that is not subject to disclosure under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code). The notice shall indicate whether the study or studies were peer reviewed and whether only one study was used. Notice and document availability shall occur at least 30 days before the meeting required pursuant to paragraph (3).

(3)Before a proposed notification level or response level is finalized, include, as an informational item, the proposed notification level or response level at a regularly noticed meeting of the state board.

(b)If the Division of Drinking Water of the state board finds that a contaminant presents the potential for imminent harm to public health and safety, paragraph (3) of subdivision (a), and the requirement to publish the proposed level and the 30-day deadline for the notice and document availability requirement in paragraph (2) of subdivision (a), shall not apply to the establishment or revision of the notification level or response level for the contaminant. At the time the notification level or response level is established or revised, the division shall post the information specified in paragraph (2) of subdivision (a) and any other information supporting its finding that the contaminant presents the potential for imminent harm to public health and safety. Within 45 days of establishing or revising the notification level or response level, the state board shall include, as an informational item, the notification level or response level at a regularly noticed meeting of the state board.

(Amended by Stats. 2021, Ch. 615, Sec. 280. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

116460.

No person shall operate a public water system without an emergency notification plan that has been submitted to and approved by the department. The emergency notification plan shall provide for immediate notice to the customers of the public water system of any significant rise in the bacterial count of water or other failure to comply with any primary drinking water standard that represents an imminent danger to the

health of the water users.

No permit, variance, or exemption may be issued or amended under this chapter until an emergency notification plan has been approved by the department.

The department shall adopt regulations to implement the provisions of this section. The regulations may provide for the exclusion of public water systems from the requirements of this section when, in the judgment of the department, the exclusion will best serve the public interest.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116465.

Upon formal complaint by the director alleging that additional facilities are necessary to provide the users of a public water system operated by a public utility under the jurisdiction of the Public Utilities Commission with a continuous and adequate supply of water or to bring the water system into conformity with secondary drinking water standards, the commission may, after hearing, direct the public utility to make the changes in its procedures or additions to its facilities as the commission shall determine are necessary to provide a continuous and adequate supply of water to the users thereof or to bring the system into conformity with secondary drinking water standards. Any proceeding of the commission pursuant to this article shall be conducted as provided in Chapter 9 (commencing with Section 1701) of Part 1 of Division 1 of the Public Utilities Code, and any order issued by the commission pursuant to this action shall be subject to judicial review as provided in Chapter 9.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116470.

(a) As a condition of its operating permit, every public water system shall annually prepare a consumer confidence report and mail or deliver a copy of that report to each customer, other than an occupant, as defined in Section 799.28 of the Civil Code, of a recreational vehicle park. A public water system in a recreational vehicle park with occupants as defined in Section 799.28 of the Civil Code shall prominently display on a bulletin board at the entrance to or in the office of the park, and make available upon request, a copy of the report. The report shall include all of the following information:

(1) The source of the water purveyed by the public water system.

(2) A brief and plainly worded definition of the terms maximum contaminant level,□ primary drinking water standard,□ and public health goal.□

(3) If any regulated contaminant is detected in public drinking water supplied by the system during the past year, the report shall include all of the following information:

(A) The level of the contaminant found in the drinking water, and the corresponding public health goal and primary drinking water standard for that contaminant.

(B) Any violations of the primary drinking water standard that have occurred as a result of the presence of

the contaminant in the drinking water and a brief and plainly worded statement of health concerns that resulted in the regulation of that contaminant.

(C) The public water systemsaddress and phone number to enable customers to obtain further information concerning contaminants and potential health effects.

(4) Information on the levels of unregulated contaminants, if any, for which monitoring is required pursuant to state or federal law or regulation.

(5) Disclosure of any variances or exemptions from primary drinking water standards granted to the system and the basis therefor.

(b) On or before July 1, 1998, and every three years thereafter, public water systems serving more than 10,000 service connections that detect one or more contaminants in drinking water that exceed the applicable public health goal, shall prepare a brief written report in plain language that does all of the following:

(1) Identifies each contaminant detected in drinking water that exceeds the applicable public health goal.

(2) Discloses the numerical public health risk, determined by the office, associated with the maximum contaminant level for each contaminant identified in paragraph (1) and the numerical public health risk determined by the office associated with the public health goal for that contaminant.

(3) Identifies the category of risk to public health, including, but not limited to, carcinogenic, mutagenic, teratogenic, and acute toxicity, associated with exposure to the contaminant in drinking water, and includes a brief plainly worded description of these terms.

(4) Describes the best available technology, if any is then available on a commercial basis, to remove the contaminant or reduce the concentration of the contaminant. The public water system may, solely at its own discretion, briefly describe actions that have been taken on its own, or by other entities, to prevent the introduction of the contaminant into drinking water supplies.

(5) Estimates the aggregate cost and the cost per customer of utilizing the technology described in paragraph (4), if any, to reduce the concentration of that contaminant in drinking water to a level at or below the public health goal.

(6) Briefly describes what action, if any, the local water purveyor intends to take to reduce the concentration of the contaminant in public drinking water supplies and the basis for that decision.

(c) Public water systems required to prepare a report pursuant to subdivision (b) shall hold a public hearing for the purpose of accepting and responding to public comment on the report. Public water systems may hold the public hearing as part of any regularly scheduled meeting.

(d) The department shall not require a public water system to take any action to reduce or eliminate any exceedance of a public health goal.

(e) Enforcement of this section does not require the department to amend a public water systemsoperating permit.

(f) Pending adoption of a public health goal by the Office of Environmental Health Hazard Assessment pursuant to subdivision (c) of Section 116365, and in lieu thereof, public water systems shall use the national

maximum contaminant level goal adopted by the United States Environmental Protection Agency for the corresponding contaminant for purposes of complying with the notice and hearing requirements of this section.

(g) This section is intended to provide an alternative form for the federally required consumer confidence report as authorized by 42 U.S.C. Section 300g-3(c).

(Repealed and added by Stats. 1996, Ch. 755, Sec. 12. Effective January 1, 1997.)

116475.

(a) The Emergency Clean Water Grant Fund is hereby established in the General Fund and, notwithstanding Section 13340 of the Government Code, is continuously appropriated to the department, without regard to fiscal years, to provide financial assistance to public water systems and to fund emergency actions by the department to ensure that safe drinking water supplies are available to all Californians who are served by public water systems.

(b) The department may expend funds in the Emergency Clean Water Grant Fund for the purposes specified in subdivision (a), including, but not limited to, payment for all of the following actions:

(1) The provision of alternative water supplies and bottled water.

(2) Improvements of the existing water supply system.

(3) Hookups with adjacent water systems.

(4) Design, purchase, installation, and operation and maintenance of water treatment technologies.

(c) The department shall develop and revise guidelines for the allocation and administration of moneys in the Emergency Clean Water Grant Fund. These guidelines shall include, but are not limited to, all of the following:

(1) A definition of what constitutes an emergency requiring an alternative or improved water supply.

(2) Priorities and procedures for allocating funds.

(3) Repayment provisions, as appropriate.

(4) Procedures for recovering funds from parties responsible for the contamination of public water supplies.

The guidelines are not subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116480.

(a)The department shall expend moneys available in the Emergency Clean Water Grant Fund only for the purpose of taking corrective action necessary to remedy or prevent an emergency or imminent threat to public health due to the contamination or potential contamination of the public water supply.

(b)Notwithstanding any other provision of law, the department may enter into written contracts for remedial action taken or to be taken pursuant to subdivision (a), and may enter into oral contracts, not to exceed ten thousand dollars ($10,000) in obligation, when, in the judgment of the department, immediate remedial action is necessary to remedy or prevent an emergency specified in subdivision (a). The contracts, written or oral, may include provisions for the rental or purchase of tools and equipment, either with or without operators, for the furnishing of labor and materials and for engineering consulting necessary to accomplish the work.

(Amended by Stats. 2007, Ch. 614, Sec. 3. Effective January 1, 2008.)

116485.

Any remedial action taken or contracted for by the department pursuant to Section 116480 shall be exempt from the following provisions:

(a) State Contract Act provided for pursuant to Chapter 1 (commencing with Section 10100) of Part 2 of Division 2 of the Public Contract Code.

(b) Chapter 10 (commencing with Section 4525) of Division 5 of Title 1 of the Government Code.

(c) Section 14780 of the Government Code and Article 5 (commencing with Section 10355) of Chapter 2 of Part 2 of Division 2 of the Public Contract Code.

(d) Article 4 (commencing with Section 10335) of Chapter 2 of Part 2 of Division 2 of the Public Contract Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__ARTICLE 7. Requirements and Compliance [116525 - 116596]__

(Article 7 added by Stats. 1995, Ch. 415, Sec. 6.)

116525.

(a) No person shall operate a public water system unless he or she first submits an application to the department and receives a permit as provided in this chapter. A change in ownership of a public water system shall require the submission of a new application.

(b) The department may require a new application whenever a change in regulatory jurisdiction has occurred.

(c) The department may renew, reissue, revise, or amend any domestic water supply permit whenever the department deems it to be necessary for the protection of public health whether or not an application has been filed.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116527.

(a)As used in this section, water-related improvement includes, but is not limited to, a water pipe, a water pump, or drinking water infrastructure.

(b)(1)Before a person submits an application for a permit for a proposed new public water system, the person shall first submit a preliminary technical report to the state board at least six months before initiating construction of any water-related improvement.

(2)In order to assist in expediting the permitting process, a person that is considering submitting an application for a permit for a proposed new public water system is encouraged, but is not required, to submit the preliminary technical report no later than seven days after submission of an application to the city or county for a building permit for any water-related improvement.

(3)For a proposed new public water system that would be regulated by a local primacy agency, the applicant shall also submit a copy of the preliminary technical report to the state board.

(4)The state board may approve the preliminary technical report and allow construction to proceed before the end of the six-month period. For a proposed new public water system that would be regulated by a local

primacy agency, the state board and local primacy agency may approve the preliminary technical report and allow construction to proceed before the end of the six-month period.

(c)The preliminary technical report shall include all of the following:

(1)The name and type of each public water system for which any service area boundary is within three miles, as measured through existing public rights-of-way, of any boundary of the applicantsproposed public water systemsservice area.

(2)A discussion of the feasibility of each of the adjacent community water systems identified pursuant to paragraph (1) annexing, connecting, or otherwise supplying domestic water to the applicantsproposed new public water systemsservice area. The applicant shall consult with each adjacent community water system in preparing the report and shall include in the report any information provided by each adjacent community water system regarding the feasibility of annexing, connecting, or otherwise supplying domestic water to that service area.

(3)A discussion of all actions taken by the applicant to secure a supply of domestic water from an existing community water system for the proposed new public water systemsservice area.

(4)All sources of domestic water supply for the proposed new public water system.

(5)The estimated cost to construct, operate, and maintain the proposed new public water system, including long-term operation and maintenance costs and a potential rate structure.

(6)A comparison of the costs associated with the construction, operation and maintenance, and long-term sustainability of the proposed new public water system to the costs associated with providing water to the proposed new public water systemsservice area through annexation by, consolidation with, or connection to an existing community water system.

(7)A discussion of all actions taken by the applicant to pursue a contract for managerial or operational oversight from an existing community water system.

(8)An analysis of whether a proposed new public water systemstotal projected water supplies available during normal, single dry, or multiple dry water years during a 20-year projection will meet the projected water demand for the service area.

(9)Any information provided by the local agency formation commission. The applicant shall consult with the local agency formation commission if any adjacent public water system identified pursuant to paragraph (1) is a local agency as defined by Section 56054 of the Government Code.

(d)(1)If documents prepared to comply with Division 13 (commencing with Section 21000) of the Public Resources Code or any other application for public agency approval concerning providing drinking water to the proposed new public water systemsservice area include the information required by subdivision (c), including documentation of the consultation with each adjacent community water system and the local agency formation commission, the applicant may submit those documents to the state board in lieu of the preliminary technical report and the documents shall be considered the functional equivalent of the preliminary technical report.

(2)If documents prepared to comply with Division 13 (commencing with Section 21000) of the Public Resources Code or any other application for public agency approval concerning providing drinking water to the proposed new public water systemsservice area include some, but not all, of the information required by

subdivision (c), including documentation of the consultation with an adjacent community water system and the local agency formation commission, the applicant shall submit those documents and the preliminary technical report to the state board and together those documents and the preliminary technical report shall be considered the functional equivalent of the preliminary technical report requirements of this section. A preliminary technical report submitted pursuant to this paragraph shall only be required to include information that is not otherwise addressed by the other submitted documents.

(e)Upon review of a preliminary technical report submitted pursuant to this section, the state board may do all of the following actions:

(1)If an existing public water system has not already sought annexation of the service area of a proposed new public water system from the local agency formation commission or the applicant has not already sought an extension of services agreement from an existing public water system, direct the applicant to undertake additional discussion and negotiation with the local agency formation commission and any existing public water system meeting the requirements of paragraph (1) of subdivision (c) that the state board determines has the technical, managerial, and financial capacity to provide an adequate and reliable supply of domestic water to the service area of the proposed new public water system. The state board shall not direct the applicant to undertake additional discussion and negotiation if documentation submitted to the state board demonstrates that additional discussion and negotiation is unlikely to be successful, including, but not limited to, documentation that the local agency formation commission has previously denied the application for an extension of service or annexation, or that the existing public water system has declined to apply to the local agency formation commission for approval of an extension of services to, or annexation of, the service area of the proposed new public water system.

(2)Direct the applicant to report on the results of discussion and negotiations conducted pursuant to paragraph (1) to the state board.

(3)Establish a time schedule for the applicantsperformance of directives issued pursuant to this subdivision.

(f)(1)An applicant shall comply with the state boardsdirectives as assigned in and consistent with subdivision (e) before submitting an application for a permit for a proposed new public water system under this chapter.

(2)An application for a permit for a proposed new public water system under this chapter shall not be deemed complete unless the applicant has complied with the requirements of this section.

(g)The state boardsreview of a preliminary technical report pursuant to this section shall not be deemed a project or approval of a permit application submitted under this chapter.

(h)The requirements of this section do not apply to either of the following:

(1)An application for a permit for a new public water system that was deemed complete prior to January 1, 2017, pursuant to the statutory permit application requirements effective at the date of the permit submission.

(2)An extension of, or annexation to, an existing public water system.

(i)(1)The requirements of this section do not apply to a service area where an applicant certifies in writing to the state board that the applicant will not rely on the establishment of a new public water system for its water supply. The state board shall acknowledge receipt of the applicantscertification in a timely manner.

(2)An applicant who certifies that the service area will not rely on the establishment of a new public water

system and later seeks a permit for a new public water system shall comply with the provisions of this section and shall assume all risk of delay or rejection related to the permit application.

(j)(1)The provisions of this subdivision apply to a proposed new public water system that achieves either or both of the following:

(A)Consolidates two or more existing public water systems, existing state small water systems, or other existing water systems, which results in the creation of a new public water system.

(B)Provides water service in lieu of individual domestic wells.

(2)At least six months before the construction of any water-related improvements, an applicant for a new public water system that meets the criteria in paragraph (1) shall provide a written notice to the state board that does both of the following:

(A)Clearly describes the proposed new public water system and how it meets the criteria in paragraph (1).

(B)Requests an exemption from the requirements of this section.

(3)The state board shall promptly acknowledge receipt of a written notice described in paragraph (2). The state board shall have 30 days from the acknowledgment of receipt of the written notice to issue a written notice to the applicant that compliance with the requirements of this section is necessary and that an application for a permit of a new public water system under this chapter is not complete until the applicant has complied with the requirements of this section. A determination by the state board that compliance with the requirements of this section is necessary shall be final and is not subject to review by the state board. A determination by the state board pursuant to this subdivision is not considered a project subject to Division 13 (commencing with Section 21000) of the Public Resources Code.

(4)If the state board receives a written notice from a project applicant that satisfies the requirements of paragraph (2), the project described in the notice is deemed exempt from the requirements of this section on the 35th day following the date of the state boardsacknowledgment of receipt of the written notice, unless the state board has issued a notice to comply pursuant to paragraph (3).

(Amended by Stats. 2018, Ch. 195, Sec. 1. (AB 2900) Effective January 1, 2019.)

116530.

(a)A public water system shall submit a technical report to the state board as part of the permit application or when otherwise required by the state board. This report may include, but not be limited to, detailed plans and specifications, water quality information, physical descriptions of the existing or proposed system, information related to technical, managerial, and financial capacity and sustainability, and information related to achieving the goals of Section 106.3 of the Water Code, including affordability and accessibility.

(b)A public water system shall submit the report in the form and format and at intervals specified by the state board.

(Amended by Stats. 2019, Ch. 120, Sec. 6. (SB 200) Effective July 24, 2019.)

116535.

Upon determination that an application submitted pursuant to this chapter is complete, the department shall make a thorough investigation of the proposed or existing plant, works, system, or water supply, and all other circumstances and conditions that it deems material, including any required financial assurance information.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116540.

(a)Following completion of the investigation and satisfaction of the requirements of paragraphs (1) and (2), the state board shall issue or deny the permit. The state board may impose permit conditions, requirements for system improvements, technical, financial, or managerial requirements, and time schedules as it deems necessary to ensure a reliable and adequate supply of water at all times that is pure, wholesome, potable, and does not endanger the health of consumers.

(1)A public water system that was not in existence on January 1, 1998, shall not be granted a permit unless the public water system demonstrates to the state board that the water supplier possesses adequate financial, managerial, and technical capability to ensure the delivery of pure, wholesome, and potable drinking water. This section shall also apply to any change of ownership of a public water system.

(2)A permit under this chapter shall not be issued to an association organized under Title 3 (commencing with Section 18000) of the Corporations Code. This section shall not apply to unincorporated associations that, as of December 31, 1990, are holders of a permit issued under this chapter.

(b)Notwithstanding Section 116330, a local primacy agency shall not issue a permit under this article without the concurrence of the state board.

(c)In considering whether to approve a proposed new public water system, the state board shall consider the sustainability of the proposed new public water system and its water supply in the reasonably foreseeable future, in view of global climate change, potential migration of groundwater contamination and other potential treatment needs, and other factors that can significantly erode a systemscapacity.

(d)If the state board determines that it is feasible for the service area of the public water system addressed by an application under this article to be served by one or more permitted public water systems identified pursuant to paragraph (1) of subdivision (c) of Section 116527, the state board may deny the permit of a proposed new public water system.

(e)An applicant may petition the state board for reconsideration of a decision of action of the deputy director taken pursuant to this section.

(Amended by Stats. 2019, Ch. 120, Sec. 7. (SB 200) Effective July 24, 2019.)

116545.

Prior to the issuance of any new, revised, renewed, or amended permit, or the denial of a permit, the department may conduct a public hearing to obtain additional public comment. Notice of the hearing shall be provided to the applicant and interested persons at least 30 days prior to the hearing. The department may require the applicant to distribute the notice of the hearing to affected consumers.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116550.

(a) No person operating a public water system shall modify, add to or change his or her source of supply or method of treatment of, or change his or her distribution system as authorized by a valid existing permit issued to him or her by the department unless the person first submits an application to the department and receives an amended permit as provided in this chapter authorizing the modification, addition, or change in his or her source of supply or method of treatment.

(b) Unless otherwise directed by the department, changes in distribution systems may be made without the submission of a permit application if the changes comply in all particulars with the waterworks standards.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116551.

The state board shall not issue a permit to a public water system or amend a valid existing permit for the use of a reservoir as a source of supply that is directly augmented with recycled water, as defined in subdivision (n) of Section 13050 of the Water Code, unless the state board does all of the following:

(a) Performs an engineering evaluation that evaluates the proposed treatment technology and finds that the proposed technology will ensure that the recycled water meets all applicable primary and secondary drinking water standards and poses no significant threat to public health.

(b) Holds at least three duly noticed public hearings in the area where the recycled water is proposed to be used or supplied for human consumption to receive public testimony on that proposed use. The state board shall make available to the public, not less than 10 days prior to the date of the first hearing held pursuant to this subdivision, the evaluations and findings made pursuant to subdivision (a).

(Amended by Stats. 2015, Ch. 673, Sec. 7. (AB 1531) Effective January 1, 2016.)

116552.

The State Water Resources Control Board shall not issue a permit to a public water system or amend a valid existing permit to allow the use of point-of-use or point-of-entry treatment unless the State Water Resources Control Board determines, after conducting a public hearing in the community served by the public water system, that there is no substantial community opposition to the installation of the treatment devices. The issuance of a permit pursuant to this section shall be limited to not more than three years or until funding for centralized treatment is available, whichever occurs first.

(Amended by Stats. 2015, Ch. 663, Sec. 2. (AB 434) Effective October 9, 2015.)

116555.

(a)Any person who owns a public water system shall ensure that the system does all of the following:

(1)Complies with primary and secondary drinking water standards.

(2)Will not be subject to backflow under normal operating conditions.

(3) Provides a reliable and adequate supply of pure, wholesome, healthful, and potable water.

(4)Employs or utilizes only water treatment operators that have been certified by the state board at the appropriate grade.

(5)Complies with the operator certification program established pursuant to Article 3 (commencing with Section 106875) of Chapter 4 of Part 1.

(b)Any person who owns a community water system or a nontransient noncommunity water system shall do all of the following:

(1)Employ or utilize only water distribution system operators who have been certified by the state board at the appropriate grade for positions in responsible charge of the distribution system.

(2)Place the direct supervision of the water system, including water treatment plants, water distribution systems, or both under the responsible charge of an operator or operators holding a valid certification equal to or greater than the classification of the treatment plant and the distribution system.

(Amended by Stats. 2017, Ch. 561, Sec. 133. (AB 1516) Effective January 1, 2018.)

116555.5.

A public water system shall implement a cross-connection control program that complies with applicable regulations and with standards adopted by the board pursuant to Section 116407.

(Added by Stats. 2017, Ch. 533, Sec. 2. (AB 1671) Effective January 1, 2018.)

116556.

Notwithstanding subdivision (c) of Section 116555 and its implementing regulations, including Sections 64562 and 64568 of the California Code of Regulations, the Redwood Valley County Water District, in order to relieve hardship, may make not more than 135 new 3/4-inch equivalent domestic service connections to its water system if all of the following conditions are met:

(a) The district has a contract, agreement, or independent water right to divert water from Lake Mendocino or another adequate source of water supply.

(b) Redwood Valley is an allowed place of use under that contract, agreement, or water right.

(c) The department has determined that the water source provides an adequate physical supply of water under its duly adopted waterworks standards.

(d) The connection will relieve hardship, as determined by the district based on objective proof that the structure served by the connection was constructed prior to December 31, 1997, and absent a connection, only has access to a water supply that furnishes an inadequate quality or quantity of water as measured by drinking water standards adopted by the district.

(e) The connections authorized by this section are in addition to connections otherwise allowed by law, including connections authorized by Section 116555.

(Added by Stats. 1998, Ch. 259, Sec. 3. Effective August 4, 1998.)

116565.

(a)Each public water system shall submit an annual fee according to a fee schedule established by the state board pursuant to subdivision (c) for the purpose of reimbursing the state board for the costs incurred by the state board for conducting activities mandated by this chapter. The amount of reimbursement shall be sufficient to pay, but in no event shall exceed, the state boardscosts in conducting these activities, including a prudent reserve in the Safe Drinking Water Account.

(b)Payment of the annual fee shall be due 90 calendar days following the due date established in the schedule. Failure to pay the annual fee within 90 calendar days shall result in a 10-percent late penalty that shall be paid in addition to the fee.

(c)The state board shall adopt, by regulation, a schedule of fees, as authorized by this section. The regulations may include provisions concerning the administration and collection of the fees.

(d)The state board shall set the amount of total revenue collected each year through the fee schedule at an amount equal to the amount appropriated by the Legislature in the annual Budget Act from the Safe Drinking Water Account for expenditure for the administration of this chapter, taking into account the reserves in the Safe Drinking Water Account. The state board shall review and revise the fees each fiscal year as necessary to conform with the amounts appropriated by the Legislature. If the state board determines that the revenue collected during the preceding year was greater than, or less than, the amounts appropriated by the Legislature, the state board may further adjust the fees to compensate for the over or under collection of revenue.

(e)(1)Except as provided in subparagraph (A) of paragraph (2), the regulations adopted pursuant to this section, any amendment thereto, or subsequent adjustments to the annual fees, shall be adopted by the state board as emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The adoption of these regulations is an emergency and shall be considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health, safety, and general welfare.

(2)Notwithstanding Section 116377, both of the following shall apply:

(A)The initial regulations adopted by the state board to implement this section shall be adopted in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, and may not rely on the statutory declaration of emergency in paragraph (1) or Section 116377.

(B)Any emergency regulations adopted by the state board, or adjustments to the annual fees made by the state board pursuant to this section, shall not be subject to review by the Office of Administrative Law and shall remain in effect until revised by the state board.

(f)A public water system under the jurisdiction of a local primacy agency shall pay the fees specified in this section to the local primacy agency in lieu of the state board. This section does not preclude a local health officer from imposing additional fees pursuant to Section 101325.

(g)This section shall become operative on July 1, 2016.

(Repealed (in Sec. 19) and added by Stats. 2015, Ch. 24, Sec. 20. (SB 83) Effective June 24, 2015. Section operative July 1, 2016, by its own provisions.)

116577.

(a) Each person shall reimburse the state board for actual costs incurred by the state board for any of the following enforcement activities related to that person:

(1) Preparing, issuing, and monitoring compliance with, an order or a citation.

(2) Preparing and issuing public notification.

(3) Conducting a hearing pursuant to Section 116625.

(b) The state board shall submit an invoice for these enforcement costs to the person that requires payment before September 1 of the fiscal year following the fiscal year in which the costs were incurred. The invoice shall indicate the total hours expended, the reasons for the expenditure, and the hourly cost rate of the state board. The costs set forth in the invoice shall not exceed the total actual costs to the state board of enforcement activities specified in this section.

(c) Notwithstanding the reimbursement of enforcement costs of the local primacy agency pursuant to subdivision (a) of Section 116595 by a public water system under the jurisdiction of the local primacy agency, a public water system or other person shall also reimburse enforcement costs, if any, incurred by the state board pursuant to this section.

(d) Enforcement costs,□ as used in this section, does not include litigation costs□ pursuant to Section 116585.

(e) The state board shall not be entitled to enforcement costs pursuant to this section if a court determines that enforcement activities were in error.

(f)Payment of the invoice shall be made within 90 days of the date of the invoice. Failure to pay the invoice

within 90 days shall result in a 10-percent late penalty that shall be paid in addition to the invoiced amount.

(g)The state board may, at its sole discretion, waive payment by a public water system of all or any part of the invoice or penalty.

(Amended by Stats. 2023, Ch. 810, Sec. 2. (AB 664) Effective January 1, 2024.)

116585.

In a civil court action brought to enforce this chapter, the prevailing party or parties shall be awarded litigation costs, including, but not limited to, salaries, benefits, travel expenses, operating equipment, administrative, overhead, other litigation costs, and attorneysfees, as determined by the court. Litigation costs awarded to the state board by the court shall be deposited into the Safe Drinking Water Account. Litigation costs awarded to a local primacy agency by the court shall be used by that local primacy agency to offset the local primacy agencyslitigation costs.

(Amended by Stats. 2015, Ch. 24, Sec. 24. (SB 83) Effective June 24, 2015.)

116590.

(a)Funds received by the state board pursuant to this chapter shall be deposited into the Safe Drinking Water Account, which is hereby established, and shall be available for use by the state board, upon appropriation by the Legislature, for the purpose of providing funds necessary to administer this chapter and the Water Shutoff Protection Act (Chapter 6 (commencing with Section 116900)).

(b)A public water system may collect a fee from its customers to recover the fees paid by the public water system pursuant to this chapter.

(c)The total amount of funds received for state operations program costs to administer this chapter for fiscal year 2016”17 shall not exceed thirty-eight million nine hundred seven thousand dollars ($38,907,000) and the total amount of funds received for administering this chapter for each fiscal year thereafter shall not increase by more than 5 percent of the amount received in the previous fiscal year plus any changes to salary, benefit, and retirement adjustments contained in each annual Budget Act.

(d)This section shall become operative on July 1, 2016.

(Amended by Stats. 2023, Ch. 855, Sec. 1. (SB 3) Effective January 1, 2024.)

116595.

(a) A public water system under the jurisdiction of a local primacy agency shall reimburse the local primacy agency for any enforcement cost incurred by the local primacy agency related to any of the following relating to that water system:

(1) Preparing, issuing, and monitoring compliance with, an order or a citation.

(2) Preparing and issuing public notification.

(3) Conducting a hearing pursuant to Section 116625.

(b)The local primacy agency shall submit an invoice to the public water system that requires payment, before September 1 of the fiscal year following the fiscal year in which the costs were incurred. The invoice shall indicate the total hours expended, the reasons for the expenditure, and the hourly cost rate of the local primacy agency. The invoice shall not exceed the total costs to the local primacy agency of enforcement activities specified in this subdivision. Notwithstanding the reimbursement to the state board of enforcement costs, if any, pursuant to Section 116577, any public water system under the jurisdiction of the local primacy agency shall also reimburse the local primacy agency for enforcement costs incurred by the local primacy agency pursuant to this section. The local primacy agency shall not be entitled to enforcement costs pursuant to this subdivision if a court determines that enforcement activities were in error. Enforcement costs as used in this subdivision does not include litigation costs as used in Section 116585.

(c)Payment of the invoice shall be made within 90 days of the date of the invoice. Failure to pay the invoice within 90 days shall result in a 10-percent late penalty that shall be paid in addition to the invoiced amount.

(d)The local primacy agency may, in its sole discretion, waive payment by a public water system of all or any part of the invoice or the penalty.

(Amended by Stats. 2015, Ch. 24, Sec. 27. (SB 83) Effective June 24, 2015.)

116596.

(a)The state board shall require a public water system that has experienced a wildfire event of 300 acres or more, if the event damaged or destroyed a structure or structures connected to the public water systemswater distribution system, to perform sample collection and analysis of its source waters, treatment facilities, conveyance facilities, distribution systems, or a combination thereof, for the presence of benzene as soon as it is safe to do so.

(b)If a public water system conducts sampling and finds detectable concentrations of benzene, the state board may require a public water system response, including all the following:

(1)A requirement that investigation and additional testing be completed in consultation with, or at the direction of, the state board.

(2)Timelines for investigation and additional testing.

(3)Additional testing frequency and duration.

(4)Additional testing locations, such as specific locations within a distribution system.

(5)Flushing prior to confirmed detections of contamination.

(6)Requirements to provide notice to affected customers upon a finding of contamination, including the form and content of the notices and when the notice shall be provided.

(7)Remediation measures if contamination is found in the source waters, treatment facilities, conveyance facilities, distribution systems, or a combination thereof, such as taking sources offline, flushing within the distribution system, repairs, and replacements.

(c)For purposes of this section, wildfire has the same meaning as defined in Section 51177 of the Government Code.

(d)This section does not limit the state boardsauthority under any other law.

(Added by Stats. 2023, Ch. 530, Sec. 2. (AB 541) Effective January 1, 2024.)

__ARTICLE 8. Violations [116625- 116625.]__

(Article 8 added by Stats. 1995, Ch. 415, Sec. 6.)

116625.

(a)The state board, after providing notice to the permittee and opportunity for a hearing, may suspend or revoke any permit issued pursuant to this chapter if the state board determines pursuant to the hearing that the permittee is not complying with the permit, this chapter, or any regulation, standard, or order issued or adopted thereunder, or that the permittee has made a false statement or representation on any application, record, or report maintained or submitted for purposes of compliance with this chapter. If the permittee does not request a hearing within the period specified in the notice, the state board may suspend or revoke the permit without a hearing. If the permittee submits a timely request for a hearing, the hearing shall be before the state board or a member of the state board, in accordance with Section 183 of the Water Code and the rules for adjudicative proceedings adopted under Section 185 of the Water Code. If the permit at issue has been temporarily suspended pursuant to subdivision (b), the notice shall be provided within 15 days of the effective date of the temporary suspension order. The commencement of the hearing under this subdivision shall be as soon as practicable, but no later than 60 days after the effective date of the temporary suspension order, unless the state board grants an extension of the 60 day period upon request of the permittee.

(b)The state board may temporarily suspend any permit issued pursuant to this chapter before any hearing when the action is necessary to prevent an imminent or substantial danger to health. The state board shall notify the permittee of the temporary suspension and the effective date of the temporary suspension and, at the same time, notify the permittee that a hearing has been scheduled. The hearing shall be held as soon as possible, but not later than 15 days after the effective date of the temporary suspension unless the state board grants an extension of the 15-day period upon request of the permittee, and shall deal only with the issue of whether the temporary suspension shall remain in place pending a hearing under subdivision (a). The hearing shall be conducted under the rules for adjudicative proceedings adopted by the state board under Section 185 of the Water Code. The temporary suspension shall remain in effect until the hearing under this subdivision is completed and the state board has made a final determination on the temporary suspension, which shall be made within 15 days after the completion of the hearing unless the state board grants an extension of the 15-day period upon request of the permittee. If the determination is not transmitted within 15 days after the hearing is completed, or any extension of this period requested by the permittee, the temporary suspension shall be of no further effect. Dissolution of the temporary suspension does not deprive the state board of jurisdiction to proceed with a hearing on the merits under subdivision (a).

(Amended by Stats. 2018, Ch. 92, Sec. 153. (SB 1289) Effective January 1, 2019.)

__ARTICLE 9. Remedies [116650 - 116687]__

(Article 9 added by Stats. 1995, Ch. 415, Sec. 6.)

116650.

(a)If the state board determines that a person is in violation of this chapter or any regulation, permit, standard, citation, or order issued or adopted thereunder, the state board may issue a citation to the person. The citation shall be served upon the person personally or by certified mail. Service shall be deemed effective as of the date of personal service or the date of receipt of the certified mail. If a person to whom a citation is directed refuses to accept delivery of the certified mail, the date of service shall be deemed to be the date of mailing.

(b)Each citation shall be in writing and shall describe the nature of the violation or violations, including a reference to the statutory provision, standard, order, citation, permit, or regulation alleged to have been violated.

(c)A citation may specify a date for elimination or correction of the condition constituting the violation.

(d)A citation may include the assessment of a penalty as specified in subdivision (e).

(e)The state board may assess a penalty in an amount not to exceed one thousand dollars ($1,000) per day for each day that a violation occurred, and for each day that a violation continues to occur. A separate penalty may be assessed for each violation and shall be in addition to any liability or penalty imposed under

any other law.

(Amended by Stats. 2023, Ch. 810, Sec. 3. (AB 664) Effective January 1, 2024.)

116655.

(a) Whenever the state board determines that any person has violated or is violating this chapter, or any order, permit, regulation, or standard issued or adopted pursuant to this chapter, the state board may issue an order doing any of the following:

(1) Directing compliance forthwith.

(2) Directing compliance in accordance with a time schedule set by the state board.

(3) Directing that appropriate preventive action be taken in the case of a threatened violation.

(b) An order issued pursuant to this section may include, but shall not be limited to, any or all of the following requirements:

(1) That the existing plant, works, or system be repaired, altered, or added to.

(2) That purification or treatment works be installed.

(3) That the source of the water supply be changed.

(4) That no additional service connection be made to the system.

(5) That the water supply, the plant, or the system be monitored.

(6) That a report on the condition and operation of the plant, works, system, or water supply be submitted to the state board.

(Amended by Stats. 2015, Ch. 673, Sec. 9. (AB 1531) Effective January 1, 2016.)

116660.

(a)Any person who operates a public water system without having an unrevoked permit to do so, may be enjoined from so doing by any court of competent jurisdiction at the suit of the department.

(b)When the department determines that any person has engaged in or is engaged in any act or practice that constitutes a violation of this chapter, or any regulation, permit, standard, or order issued or adopted thereunder, the department may bring an action in the superior court for an order enjoining the practices or for an order directing compliance.

(c)Upon a showing by the department of any violation set forth in subdivision (b), the superior court shall enjoin the practices and may do any of the following:

(1)Enforce a reasonable plan of compliance, including the appointment of a competent person, to be approved by the department, and paid by the operator of the public water system, who shall take charge of and operate the system so as to secure compliance.

(2)Enjoin further service connections to the public water system.

(3)Afford any further relief that may be required to insure compliance with this chapter.

(Amended by Stats. 2006, Ch. 538, Sec. 436. Effective January 1, 2007.)

116665.

Whenever the department determines that any public water system is unable or unwilling to adequately serve its users, has been actually or effectively abandoned by its owners, or is unresponsive to the rules or orders of the department, the department may petition the superior court for the county within which the system has its principal office or place of business for the appointment of a receiver to assume possession of its property and to operate its system upon such terms and conditions as the court shall prescribe. The court may require, as a condition to the appointment of the receiver, that a sufficient bond be given by the receiver and be conditioned upon compliance with the orders of the court and the department, and the protection of all property rights involved. The court may provide, as a condition of its order, that the receiver appointed pursuant to the order shall not be held personally liable for any good faith, reasonable effort to assume possession of, and to operate, the system in compliance with the order.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116670.

Anything done, maintained, or suffered as a result of failure to comply with any primary drinking water standard is a public nuisance dangerous to health, and may be enjoined or summarily abated in the manner provided by law. Every public officer or body lawfully empowered to do so shall abate the nuisance immediately.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116675.

Notwithstanding Sections 116340 and 116500, the department shall, after adequate notification of the local health officer, take action authorized by this chapter against a public water system under the jurisdiction of the local health officer if any of the following occur:

(a) The public water system has been in violation of any provision of this chapter or the regulations adopted hereunder, including any violation of compliance with drinking water standards or waterworks standards, for a period of at least 90 days within the previous year.

(b) A contaminant is present in, or likely to enter, a public water system and presents an imminent and

substantial danger to the health of the users of the system.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116680.

The Legislature finds and declares as follows:

(a)It is the policy of the state to encourage orderly growth and development, which are essential to the social, fiscal, and economic well-being of the state. The Legislature recognizes that the logical formation, consolidation, and operation of water systems is an important factor in promoting orderly development and in balancing that development against sometimes competing state interests of discouraging urban sprawl, preserving open space and prime agricultural lands, and efficiently extending other government services. Therefore, the policy of the state should be affected by the logical formation, consolidation, and operation of water systems.

(b)The powers set forth in Section 116682 for consolidation of water systems are consistent with the intent of promoting orderly growth.

(Added by Stats. 2015, Ch. 27, Sec. 1. (SB 88) Effective June 24, 2015.)

116681.

The following definitions shall apply to this section and Sections 116682, 116684, and 116686:

(a)Adequate supply means sufficient water to meet residents™ health and safety needs at all times.

(b)Affected residence means a residence within a disadvantaged community that is reliant on a water supply that is either inadequate or unsafe and that is not served by a public water system or state small water system.

(c)At-risk domestic well means a domestic well that serves a disadvantaged community and is at risk of consistently failing to provide an adequate supply of safe drinking water as determined by the state board pursuant to the methodology established in the 2021 Drinking Water Needs Assessment referenced in subdivision (b) of Section 116769, or a substantially similar methodology adopted by the state board in an update to the Drinking Water Needs Assessment.

(d)At-risk water system means a water system that meets all the following conditions:

(1)The water system is either a public water system with 3,300 or fewer connections or a state small water system.

(2)The system serves a disadvantaged community.

(3)The system is at risk of consistently failing to provide an adequate supply of safe drinking water, as determined by the state board pursuant to the methodology established in the 2021 Drinking Water Needs Assessment referenced in subdivision (b) of Section 116769, or a substantially similar methodology adopted

by the state board in an update to the Drinking Water Needs Assessment.

(e)Consistently fails" means a failure to provide an adequate supply of safe drinking water.

(f)Consolidated water system" means the public water system resulting from the consolidation of a public water system with another public water system, state small water system, or affected residences.

(g)Consolidation" means joining two or more public water systems, state small water systems, or affected residences into a single public water system.

(h)Disadvantaged community" means a disadvantaged community, as defined in Section 79505.5 of the Water Code.

(i)Domestic well" means a groundwater well used to supply water for the domestic needs of an individual residence or a water system that is not a public water system and that has no more than four service connections.

(j)Extension of service" means the provision of service through any physical or operational infrastructure arrangement other than consolidation.

(k)Groundwater sustainability agency" has the same meaning as provided in Section 10721 of the Water Code.

(l)Infill site" means a site within the area served by a subsumed water system that, as of the date of consolidation, is adjacent to a parcel that is developed for a qualified urban use.

(m)Operation period" means the period during which an administrator provides services to a designated water system, as provided in paragraph (2) of subdivision (r) of Section 116686.

(n)Qualified urban use" means any residential, commercial, public institutional, industrial, transit or transportation facility, or retail use, or any combination of those uses.

(o)Receiving water system" means the public water system that provides service to a subsumed water system through consolidation or extension of service.

(p)Safe drinking water" means water that meets all primary and secondary drinking water standards.

(q)State small water system" has the same meaning as provided in Section 116275.

(r)Subsumed water system" means a public water system, state small water system, or affected residences served by domestic wells consolidated into or receiving service from the receiving water system.

(Amended by Stats. 2022, Ch. 681, Sec. 1. (SB 1254) Effective January 1, 2023.)

116682.

(a)(1)The state board, in circumstances described in subparagraph (A) or (B), may order consolidation with a receiving water system as provided in this section and Section 116684. The consolidation may be physical or operational. The state board may also order the extension of service to an area within a disadvantaged

community that does not have access to an adequate supply of safe drinking water so long as the extension of service is an interim extension of service in preparation for consolidation. The consolidation shall occur within six months of the initiation of the extension of service. The state board may set timelines and performance measures to facilitate completion of consolidation.

(A)A public water system or a state small water system, serving a disadvantaged community, consistently fails to provide an adequate supply of safe drinking water, or is an at-risk water system.

(B)A disadvantaged community, in whole or in part, is substantially reliant on domestic wells that consistently fail to provide an adequate supply of safe drinking water, or are at-risk domestic wells.

(2)No later than July 1, 2020, the state board shall develop and adopt a policy that provides a process by which members of a disadvantaged community may petition the state board to consider ordering consolidation. The state board shall adopt the policy in a policy handbook consistent with the process provided for in subdivision (a) of Section 116760.43.

(b)Before ordering consolidation or extension of service as provided in this section, the state board shall do all of the following:

(1)Encourage voluntary consolidation or extension of service.

(2)Consider other enforcement remedies specified in this article.

(3)Consult with, and fully consider input from, the relevant local agency formation commission regarding the provision of water service in the affected area, the recommendations for improving service in a municipal service review, whether the consolidation or extension of service is cost effective, and any other relevant information.

(4)Consult with, and fully consider input from, the Public Utilities Commission when the consolidation would involve a water corporation subject to the commissionsjurisdiction. If a receiving water system is regulated by the Public Utilities Commission, the state board shall inform the commission at least 60 days before the consolidation order, and upon issuance of the order the commission shall open a proceeding to determine cost allocation, ratemaking, and commission public participation requirements for the consolidation process.

(5)Consult with, and fully consider input from, the local government with land use planning authority over the affected area, particularly regarding any information in the general plan required by Section 65302.10 of the Government Code.

(6)Consult with, and fully consider input from, the potentially receiving water system and all public water systems in the chain of distribution of the potentially receiving water system. The input from the potentially receiving water system may include, but is not limited to, information related to the classification of the potentially subsumed water system as an at-risk water system or a state small water system or of at-risk domestic wells.

(7)Consult with, and fully consider input from, any groundwater sustainability agency in a basin that provides groundwater supply, in whole or in part, to the affected area.

(8)(A)Notify the potentially receiving water system and the potentially subsumed water system, if any, and establish a reasonable deadline of no less than six months, unless a shorter period is justified, for the potentially receiving water system and the potentially subsumed water system, if any, to negotiate consolidation or another means of providing an adequate supply of safe drinking water.

(B)During this period, the state board shall provide technical assistance and work with the potentially receiving water system and the potentially subsumed water system to develop a financing package that benefits both the receiving water system and the subsumed water system.

(C)Upon a showing of good cause, the deadline may be extended by the state board at the request of the potentially receiving water system, potentially subsumed water system, the local agency formation commission with jurisdiction over the potentially subsumed water system, or the Public Utilities Commission.

(9)Consider the affordability of the anticipated monthly rates for drinking water service to residential customers of the potentially subsumed water system.

(10)(A)Hold at least one public meeting at the initiation of this process in a place as close as feasible to the affected areas. The state board shall make reasonable efforts to provide a 30-day notice of the meeting to the ratepayers, renters, and property owners to receive water service through service extension or in the area of the subsumed water system and all affected local government agencies and drinking water service providers. The 30-day notice shall include information about water quality concerns in the area, relevant information about health effects of water contaminants, and information about opportunities for consolidation or extension of service to address water quality issues. The meeting shall provide representatives of the potentially subsumed water system, affected ratepayers, renters, property owners, the potentially receiving water system, and the public an opportunity to present oral and written comments.

(B)The state board shall provide an opportunity to submit comments by mail or electronically during the notice period and for at least one week after the meeting.

(C)The state board shall review comments received during the meeting and received by mail and electronically during the notice period and for one week after the public meeting.

(11)If the potentially subsumed water system to be consolidated into the receiving water system is an at-risk water system, the state board shall do all of the following:

(A)Conduct outreach to ratepayers and residents served by the at-risk water system, including identifiable local community groups. These outreach efforts shall gauge community support for consolidation of the at-risk water system. The state board shall consider the results of this outreach when deciding whether to order consolidation of the at-risk water system.

(B)Consider any petition submitted pursuant to paragraph (2) of subdivision (a) by members of a disadvantaged community served by the at-risk water system.

(C)(i)If the potentially subsumed water system contends during the initial written comment period set forth in subparagraph (B) of paragraph (10) that it is not an at-risk water system, the state board shall consider during a public meeting any information provided by the potentially subsumed water system in support of its contention that it is not an at-risk water system.

(ii)The state board shall make reasonable efforts to provide a 30-day notice of the public meeting described in clause (i) to the ratepayers, renters, and property owners to receive water service through service extension or in the area of the subsumed water system and all affected local government agencies and drinking water service providers.

(c)If a consolidation or other means of providing an adequate supply of safe drinking water has not been negotiated by the potentially receiving water system and the potentially subsumed water system before the

expiration of the deadline set by the state board pursuant to paragraph (8) of subdivision (b), the state board shall do the following:

(1)Consult with the potentially receiving water system and the potentially subsumed water system, if any.

(2)(A)If the consolidation has not concluded within six months following the first public meeting held pursuant to paragraph (10) of subdivision (b), conduct a public meeting in a location as close as feasible to the affected communities. The meeting shall be held after the state board has made the findings described in subdivision (d).

(B)The state board shall make reasonable efforts to provide a 30-day notice of the meeting to the ratepayers, renters, property owners to receive water service through service extension or in the area of the subsumed water system, and the public, and to all affected local government agencies and drinking water service providers.

(C)The meeting shall provide representatives of the potentially subsumed water system, affected ratepayers, renters, property owners, and the potentially receiving water system an opportunity to present oral and written comments.

(D)The meeting shall provide an opportunity for public comment.

(3)The state board shall make reasonable efforts to ensure that a receiving water system and a subsumed water system are informed on a regular basis of progress regarding actions taken pursuant to this section.

(d)Before ordering consolidation or extension of service, the state board shall find all of the following:

(1)The potentially subsumed water system has consistently failed to provide an adequate supply of safe drinking water or it is at risk of doing so, as determined by the state board.

(2)Reasonable efforts to negotiate consolidation or extension of service were made.

(3)Consolidation of the receiving water system and subsumed water system or extension of service is appropriate and technically and economically feasible. In making this finding, the state board shall consider how many owners of dwelling units served by domestic wells in the service area have provided, or are likely to provide, written consent to extension of service. The state board need not find that any specific percentage of the owners of dwelling units served by domestic wells in the service area are likely to consent to the consolidation or extension of service to serve their dwelling unit.

(4)There is no pending local agency formation commission process that is likely to resolve the problem in a reasonable amount of time.

(5)Concerns regarding water rights and water contracts of the subsumed and receiving water systems have been adequately addressed.

(6)Consolidation or extension of service is an effective and cost-effective means to provide an adequate supply of safe drinking water.

(7)The capacity of the proposed interconnection needed to accomplish the consolidation is limited to serving the current customers of the subsumed water system, infill sites within the community served by the subsumed water system, residents of disadvantaged communities in existence as of the date of consolidation and that are located along the service line connecting the subsumed water system and the receiving water

system, and vacant lots within the community served by the subsumed water system that are zoned to allow residential use and have no more than one other vacant lot between that parcel and an infill parcel, including capacity needed for services such as firefighting.

(e)Upon ordering consolidation or extension of service, the state board shall do all of the following:

(1)As necessary and appropriate, as determined by the state board, compensate the receiving water system for any capacity lost as a result of the consolidation or extension of service either by paying the water systemscapacity charge set out in the water systemsadopted rate structure or by providing additional capacity needed as a result of the consolidation or extension of service, and by paying legal fees. When the receiving water system is compensated for capacity lost by payment of a capacity charge, the capacity charge shall be paid only to the extent that it does not exceed the reasonable cost of providing the service in accordance with Section 66013 of the Government Code. If capacity beyond what is needed for consolidation is provided by a project funded through the state board, the state board shall retain an option to use that capacity for future consolidations, without paying additional capacity charges, for five years, unless it releases that option in writing. Funding pursuant to this paragraph is available for the general purpose of providing financial assistance for the infrastructure needed for the consolidation or extension of service and does not need to be specific to each individual consolidation project. The state board shall provide appropriate financial assistance for the water infrastructure needed for the consolidation or extension of service. The state boardsexisting financial assistance guidelines and policies shall be the basis for the financial assistance.

(2)Ensure payment of standard local agency formation commission fees caused by state board-ordered consolidation or extension of service.

(3)Adequately compensate the owners of a privately owned subsumed water system for the fair market value of the system, as determined by the Public Utilities Commission or the state board.

(4)Coordinate with the appropriate local agency formation commission and other relevant local agencies to facilitate the change of organization or reorganization.

(5)If ordering consolidation or extension of service between two water systems, consider any existing domestic wells within the service area that could also be subject to consolidation or extension of service pursuant to this section.

(6)If ordering consolidation or extension of service to a community containing residences served by domestic wells, promptly take all reasonable steps to obtain written consent to the consolidation or extension of service from an owner of each residence served by a domestic well.

(f)If funds are appropriated for this purpose, the state board may make funds available for the purposes of subdivision (e), as necessary and appropriate, to the receiving water system, the subsumed water system, or an administrator providing full oversight of construction or development projects related to a consolidation or extension of service.

(g)(1)For purposes of this section, fees, charges, and terms and conditions that may be imposed on new and existing customers of a receiving water system shall be subject to the following limitations:

(A)The consolidated water system shall not increase charges on existing customers of the receiving water system solely as a consequence of the consolidation or extension of service unless the customers receive a corresponding benefit.

(B)Except as provided in paragraph (2), fees or charges imposed on a customer of a subsumed water system shall not exceed the costs of the service.

(C)Except as provided in paragraph (2), the receiving water system shall not charge any fees to, or place conditions on, customers of the subsumed water system that it does not charge to, or impose on, new customers that are not subject to the consolidation with the receiving water system.

(2)(A)Notwithstanding subparagraph (B) or (C) of paragraph (1), if costs incurred by the receiving water system in completing the consolidation or extension of service are not otherwise recoverable as provided in subparagraph (B) of this paragraph, the receiving water system may charge fees to customers of the subsumed water system to recover those costs.

(B)A receiving water system shall not charge a fee pursuant to subparagraph (A) for costs that are otherwise recoverable from the state, the federal government, programs administered by local agencies, parties responsible for causing contamination that the consolidation or extension of service is designed to address, or other sources, as determined by the state board.

(h)The state board shall not, pursuant to this section, fund public works or upgrades unrelated to the delivery of an adequate supply of affordable, safe drinking water, including, but not limited to, the installation of streetlights, sidewalks, curbs, and gutters. A local agencysdecision whether to provide these public works or upgrades shall not delay the consolidation or extension of service.

(i)When a public water system is operated by a local educational agency, the state board may order a receiving water system to consolidate or extend service to a public water system operated by a local educational agency pursuant to this section if both the following additional conditions are met:

(1)The local educational agency serves students from one or more census blocks that are disadvantaged communities.

(2)The state board obtains a written determination from the local educational agency that the state boardsanalysis in the financing package, developed pursuant to subparagraph (B) of paragraph (8) of subdivision (b), indicates that consolidating or extending service would not result in additional unacceptable costs to the local educational agency and would result in safe drinking water being available to the local educational agency.

(j)(1)An order pursuant to this section shall not require consolidation or extension of service to a residence served solely by a domestic well until an owner of the affected residence provides written consent to the consolidation or extension of service.

(2)Any owner of a domestic well that is located within the consolidation or extended service area who does not provide written consent shall be ineligible, until the consent is provided, for any future water-related grant funding from the state other than funding to mitigate a well failure, disaster, or other emergency.

(3)(A)Notwithstanding any other law, any owner of a domestic well that serves a rental property and is located within the consolidation or extended service area who does not provide written consent shall ensure that tenants of rental properties served solely by that domestic well have access to an adequate supply of safe drinking water and, until consent is provided, shall do all of the following:

(i)Once per year, test the drinking water from domestic wells subject to subparagraph (A). Testing shall be conducted for all contaminants for which the state board has adopted primary and secondary drinking water standards and conducted pursuant to Section 64534 of Title 22 of the California Code of Regulations, and

any revisions to those regulations.

(ii)Provide the results from the testing to all tenants within 10 days of receiving those results. The notice shall comply with subdivisions (a) and (d) of Section 64465 of Title 22 of the California Code of Regulations, and any revisions to those regulations, and shall be provided in English and the primary language spoken by the tenant recipient.

(iii)Provide the test results to the local health officer or other relevant health agency.

(B)If the testing results collected pursuant to subparagraph (A) demonstrate a violation of any primary or secondary drinking water standards adopted by the state board, the domestic well owner shall provide or pay for uninterrupted replacement water service, which may include wellhead treatment.

(C)If wellhead treatment is used to meet the requirement of subparagraph (B), the domestic well owner shall do both of the following:

(i)Conduct testing pursuant to Section 64534 of Title 22 of the California Code of Regulations, and any revisions to those regulations, to determine if, subsequent to wellhead treatment, water from the domestic well meets primary and secondary drinking water standards adopted by the state board.

(ii)Provide the test results to tenants pursuant to clause (ii) of subparagraph (A) and to the local health officer or other relevant health agency.

(D)An owner of a domestic well shall not impose any charge, or increase any fee, rent, or other charge imposed, on any tenant solely as a result of the requirements of subparagraphs (A), (B), and (C).

(E)The requirements of this paragraph shall apply to consolidations ordered by the state board pursuant to this section, and to voluntary consolidations negotiated between a receiving water system and a subsumed water system, subsequent to encouragement to consolidate by the state board pursuant to paragraph (1) of subdivision (b).

(F)The state board shall enforce this paragraph if the Legislature has appropriated sufficient funds in the annual Budget Act or otherwise for that purpose.

(k)A finding that a disadvantaged community, in whole or in part, is substantially reliant on at-risk domestic wells shall be based on the maps created pursuant to paragraph (1) of subdivision (a) of Section 116772 and inspection or testing of the domestic wells showing an imminent risk of failing to provide an adequate supply of safe drinking water.

(l)The state board may prioritize consolidation of an at-risk water system that has historically been overburdened by pollution and industrial development or faced other environmental justice hurdles.

(m)Division 3 (commencing with Section 56000) of Title 5 of the Government Code does not apply to an action taken by the state board pursuant to this section.

(Amended by Stats. 2023, Ch. 810, Sec. 4. (AB 664) Effective January 1, 2024.)

116684.

(a)Liability of a consolidated water system, wholesaler, or any other agency in the chain of distribution that delivers water to a consolidated water system shall be limited as described in this section.

(b)(1)The consolidated water system, wholesaler, or any other agency in the chain of distribution that delivers water to a consolidated water system, shall not be held liable for claims by past or existing customers or those who consumed water provided through the subsumed water system concerning the operation and supply of water from the subsumed water system during the interim operation period specified in subdivision (d) for any good faith, reasonable effort using ordinary care to assume possession of, to operate, or to supply water to the subsumed water system.

(2)The consolidated water system, wholesaler, or any other agency in the chain of distribution that delivers water to a consolidated water system, shall not be held liable for claims by past or existing customers or by those who consumed water provided through the subsumed water system for any injury that occurred prior to the commencement of the interim operation period specified in subdivision (d).

(c)(1)The consolidated water system, wholesaler, or any other agency in the chain of distribution that delivers water to a consolidated water system, shall not be held liable for claims by past or existing customers or by those who consumed water provided through the subsumed water system concerning the provision of supplemental imported water supplies to the subsumed water system during the interim operation period specified in subdivision (d) for any good faith, reasonable effort using ordinary care to supply water to the subsumed water system.

(2)The consolidated water system, wholesaler, or any other agency in the chain of distribution that delivers water to a consolidated water system, shall not be held liable for claims by past or existing customers or by those who consumed water provided through the subsumed water system concerning the operation and supply of water from the subsumed water system for any injury that occurred prior to the commencement of the interim operation period specified in subdivision (d).

(3)This subdivision shall only apply if the water supplied by the consolidated water system through a temporary potable service pipeline to the subsumed water system meets or exceeds federal and state drinking water quality standards.

(d)(1)The interim operation period shall commence upon the connection of a temporary potable service pipeline by the consolidated water system to the subsumed water system, or upon the execution of an agreement between the consolidated water system, subsumed water system, and any other signatories to provide service to the customers of the subsumed water system, whichever occurs first.

(2)(A)Except as provided in subparagraph (B), the interim operation period shall last until permanent replacement facilities are accepted by the consolidated water system with the concurrence of the State Water Resources Control Board and the facilities and water supply meet drinking water and water quality standards.

(B)Upon the showing of good cause, the interim operation period shall be extended by the State Water Resources Control Board for up to three successive one-year periods at the request of the consolidated water system.

(3)The acceptance date of permanent replacement facilities shall be publicly noticed by the consolidated water system.

(e)Subdivision (b) shall only apply if the consolidated water system provides water to the subsumed water system in accordance with all of the following conditions:

(1)Water provided by the consolidated water system through a temporary potable service pipeline to the subsumed water system shall meet or exceed federal and state drinking water quality standards.

(2)Reasonable water system flow and pressure through a temporary potable service pipeline shall be maintained during the interim operation period based upon the condition and integrity of the existing subsumed water system, and any disruptions to water delivery resulting from construction-related activities associated with the installation of permanent replacement facilities shall be minimal.

(3)The consolidated water system shall notify fire officials serving the subsumed water system service area of the condition and firefighting support capabilities of the subsumed water system and planned improvements with the installation of permanent replacement facilities thereto. The consolidated water system shall maintain or improve the condition and firefighting support capabilities of the subsumed water system during the interim operation period.

(4)Customers of the subsumed water system shall receive written notice upon any change in possession, control, or operation of the water system.

(f)Nothing in this section shall be construed to do any of the following:

(1)Relieve any water district, water wholesaler, or any other entity from complying with any provision of federal or state law pertaining to drinking water quality.

(2)Impair any cause of action by the Attorney General, a district attorney, a city attorney, or any other public prosecutor, or impair any other action or proceeding brought by or on behalf of a regulatory agency.

(3)Impair any claim alleging the taking of property without compensation within the meaning of either the Fifth Amendment to the United States Constitution or Section 19 of Article I of the California Constitution.

(Added by Stats. 2015, Ch. 27, Sec. 4. (SB 88) Effective June 24, 2015.)

116686.

(a)(1)To provide an adequate supply of affordable, safe drinking water to disadvantaged communities, voluntary participants, and public water systems that have demonstrated difficulty in maintaining technical, managerial, and financial capacity and to prevent fraud, waste, and abuse, the state board may do any of the following, if sufficient funding is available:

(A)(i)Contract with, or provide a grant to, an administrator to provide administrative, technical, operational, legal, or managerial services, or any combination of those services, to a designated water system to assist the designated water system with the provision of an adequate supply of affordable, safe drinking water, which services may include steps necessary to enable consolidation.

(ii)To fulfill the requirements of this section, the state board may contract with more than one administrator, but only one administrator may be assigned to provide services to a given designated water system.

(iii)An administrator may provide services to more than one designated water system.

(B)Order a designated water system to accept administrative, technical, operational, legal, or managerial services, including full management and control of all aspects of the designated water system, from an

administrator selected by the state board.

(C)Order a designated water system to accept administrative, technical, operational, legal, or managerial services from an administrator appointed by the state board for full oversight of construction or development projects related to a consolidation or extension of service, including, but not limited to, accepting loans and grants issued by the state board and entering into contracts on behalf of the designated water system.

(2)In performing its duties pursuant to paragraph (1), the state board may use criteria from the handbook adopted pursuant to subdivision (g).

(b)Unless the state board has already held a public meeting pursuant to subdivision (b) of Section 116682, the state board shall do all of the following to determine that a public water system or state small water system is a designated water system:

(1)Provide the public water system or state small water system with notice and an opportunity to show either of the following:

(A)That the public water system or state small water system has neither consistently failed to provide an adequate supply of affordable, safe drinking water nor is it an at-risk water system.

(B)That the public water system or state small water system has taken steps to timely address its failure to provide an adequate supply of affordable, safe drinking water and that it is not an at-risk water system.

(2)(A)Conduct a public meeting in a location as close as feasible to the affected community.

(B)The state board shall make reasonable efforts to provide a 30-day notice of the public meeting to affected ratepayers, renters, and property owners.

(C)The state board shall provide representatives of the public water system or state small water system, affected ratepayers, renters, and property owners with an opportunity to present oral and written comments at the public meeting.

(D)The state board shall provide at the meeting an opportunity for public comment.

(3)Provide the public with an opportunity to submit comments by mail or electronically during the 30-day notice period and for at least one week after the public meeting described in paragraph (2).

(4)If the public water system is operated by a local educational agency, obtain the local educational agencysagreement, in writing, to the appointment of an administrator.

(c)The state board shall make financial assistance available to an administrator of a designated water system, as appropriate and to the extent that funding is available.

(d)The authority granted to an administrator by the state board pursuant to subdivision (a) may include, but shall not be limited to, the authority to do all of the following:

(1)Expend available moneys for capital infrastructure improvements that the designated water system needs to provide an adequate supply of affordable, safe drinking water or to execute a consolidation ordered pursuant to Section 116682.

(2)Set and collect user water rates and fees, subject to approval by the state board. The state board shall consider affordability when approving water rates and fees. The provisions of this section are subject to all applicable constitutional requirements, including Article XIII‰D of the California Constitution.

(3)Expend available moneys for operation and maintenance costs of the designated water system.

(4)Expend available moneys necessary to achieve consolidation, including conducting feasibility or planning studies, or addressing outstanding technical or legal issues.

(e)The state board shall work with the administrator of a designated water system and the communities served by that designated water system to develop, within the shortest practicable time, adequate technical, managerial, and financial capacity to deliver an adequate supply of affordable, safe drinking water so that the services of the administrator are no longer necessary.

(f)A designated water system shall not be responsible for any costs associated with an administrator that are higher than the costs necessary to maintain the designated water system and provide an adequate supply of affordable, safe drinking water.

(g)Before ordering a designated water system to accept administrative, technical, operational, legal, or managerial services from an administrator pursuant to subdivision (a), the state board shall develop standards, terms, and procedures in a handbook adopted consistent with the process provided for in subdivision (a) of Section 116760.43 for all of the following:

(1)Ensuring compliance with subdivision (f).

(2)Providing opportunity for public comment on the selection of an administrator and the services to be provided.

(3)Providing public access to budgets, ownership and financial information, and other documents and records related to the provision of water service to the designated water system or affected residences and to the management of the designated water system by the administrator.

(4)Providing regular public meetings, notifications, opportunities for public comment, and other forms of engagement with customers of the designated water system for significant decisions or actions made on behalf of the designated water system, including, but not limited to, establishing operating budgets, altering water rates, adopting system policies, entering into long-term contracts or financing commitments, and developing system projects or plans.

(5)Formal requests to the state board to reverse or modify a decision of an administrator or to request substitution of an administrator.

(6)Ensuring an administrator acts in the best interests of the community served.

(7)Development and approval of a post-administrator drinking water service plan to ensure compliance with subdivision (e). Development of the plan shall include, but is not limited to, an evaluation of long-term public governance or community ownership options.

(h)An administrator appointed pursuant to this section for a designated water system shall not be liable for claims by past or existing ratepayers, or those who consumed water provided through the designated water system, if good faith, reasonable effort, and ordinary care were used by the administrator to assume possession of, or to operate, the designated water system.

(i)An administrator appointed pursuant to this section for a designated water system shall not be liable for claims by past or existing ratepayers, or those who consumed water provided through the designated water system, for any injury or damages that occurred before the commencement of the operation period.

(j)This section does not limit or supersede any other law authorizing claims against the state board or providing a defense to liability, and shall not be construed to create any new or expanded basis for liability.

(k)Nothing in this section shall be construed to do any of the following:

(1)Relieve a water district, water wholesaler, or any other entity from complying with any provision of federal or state law, including those pertaining to drinking water quality.

(2)Impair any cause of action by the Attorney General, a district attorney, a city attorney, or other public prosecutor, or impair any other action or proceeding brought by, or on behalf of, a regulatory agency.

(3)Impair any claim alleging the taking of property without compensation within the meaning of either the Fifth Amendment to the United States Constitution or Section 19 of Article I of the California Constitution.

(4)Relieve any person or entity from liability for action or inaction in bad faith, or without reasonable effort or ordinary care.

(l)Nothing in this section shall absolve, indemnify, or protect a prior operator, designated water system, or individual from liability based on an act or failure to act prior to the operation period.

(m)Administrative and managerial contracts pursuant to this section shall be exempt from Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code and may be awarded on a noncompetitive bid basis as necessary to implement the purposes of this section.

(n)For purposes of this section, a local government, as defined in Article XIII‰C of the California Constitution, that sets water rates in accordance with Article XIII‰D of the California Constitution shall be deemed to be providing affordable water.

(o)This section does not apply to a charter city, charter county, or charter city and county.

(p)(1)For purposes of this section, an administrator is authorized to act on behalf of an affected residence to the same extent, and in the same manner, as a designated water system with the consent of the affected residence.

(2)For purposes of this section, where an administrator is authorized to act on behalf of a designated public water system, it may also act on behalf of a voluntary participant.

(q)The Legislature finds and declares that the funding provided to a state small water system, affected residence, public water system, voluntary participant, or administrator for purposes of this section serves a public purpose and does not constitute a gift of public funds within the meaning of Section 6 of Article XVI of the California Constitution.

(r)For purposes of this section, the following terms have the following meanings:

(1)Administrator means a person whom the state board has determined is competent to perform the administrative, technical, operational, legal, or managerial services required for purposes of this section,

pursuant to criteria set forth in the handbook adopted pursuant to subdivision (g). Notwithstanding any other law, a privately owned public utility may serve as an administrator for purposes of this section.

(2)Designated water system means any of the following:

(A)A public water system or state small water system that has been ordered to consolidate pursuant to Section 116682.

(B)A public water system or state small water system that serves a disadvantaged community and that the state board finds consistently fails to provide an adequate supply of affordable, safe drinking water.

(C)An at-risk water system.

(3)Voluntary participant means the owner of a domestic well or state small water system who has agreed to accept financial assistance pursuant to Chapter 4.6 (commencing with Section 116765) for the provision of an adequate and affordable supply of safe drinking water.

(Amended by Stats. 2022, Ch. 681, Sec. 2. (SB 1254) Effective January 1, 2023.)

116687.

(a)For purposes of this section, the following terms have the following meanings:

(1)District means the Sativa-Los Angeles County Water District.

(2)Commission means the Local Agency Formation Commission for the County of Los Angeles.

(b)To provide affordable, safe drinking water to disadvantaged communities, the state board shall order the district to accept administrative and managerial services, including full management and control, from an administrator selected by the state board, as prescribed in Section 116686, except that the state board is not required to conduct a public meeting as described in paragraph (2) of subdivision (b) of Section 116686.

(c)(1)Upon the appointment of an administrator, all of the following apply:

(A)Notwithstanding Article 1 (commencing with Section 30500) of Chapter 1 of Part 3 of Division 12 of the Water Code, the districtsboard of directors shall surrender all control to the appointed administrator and shall thereafter cease to exist.

(B)The members of the board of directors of the district shall have no standing to represent the districtsratepayers, and a member of the board of directors shall have no claim for benefits other than those the member actually received while a member of the board of directors.

(C)Any action by the board of directors to divest the district of its assets shall be deemed tampering with a public water system pursuant to Section 116750 and is subject to the criminal penalties provided for in that section.

(2)Within 90 days of the appointment of an administrator, the Controller shall perform a desk audit or financial review of the district. The state board shall exercise its legal authority to facilitate the desk audit or financial review, including, but not limited to, its authority to take possession of the districtsfinancial records.

(3)Any decision by the commission about the dissolution or consolidation of the district is not subject to the provisions of Section 57077.6 of the Government Code, nor to any other requirement for a protest proceeding or election. The commission shall not impose any condition on the successor agency that requires a protest proceeding or an election, as described in Part 4 (commencing with Section 57000) and Part 5 (commencing with Section 57300) of Division 3 of Title 5 of the Government Code, respectively.

(4)If the commission approves a dissolution of the district initiated by the commission, a successor agency designated in the dissolution by the commission, in consultation with the commission, may solicit proposals, evaluate submittals, and select any public water system to be the receiving water system and subsume all assets, liabilities, adjudicated water rights, responsibilities, and service obligations to provide retail water service to existing and future ratepayers within the former territory of the district. The successor agency shall represent the interests of the public and the ratepayers in the former territory of the district.

(d)The state board may provide additional funding to the administrator or the Water Replenishment District of Southern California or the successor agency designated by the commission for urgent infrastructure repairs to the public water system of the district without regard to the future ownership of any facilities affected by this funding. For purposes of this section, urgent infrastructure repairs are those that are immediately necessary to protect the public health, safety, and welfare of those served by the district.

(e)If the district is consolidated with a receiving water system as prescribed in Sections 116682 and 116684, the subsumed territory of the district may include both unincorporated territory of the County of Los Angeles and incorporated territory of the City of Compton.

(f)(1)Any administrator appointed pursuant to subdivision (b), any successor agency to the district designated by the commission to take over the district, any receiving operator of a public water system that provides service to the territory of the district, any water corporation that acquires the district, and the commission shall not be held liable for claims by past or existing district ratepayers or those who consumed water provided through the district concerning the operation and supply of water from the district during the interim operation period specified in subdivision (g) for any good faith, reasonable effort using ordinary care to assume possession of the territory of, to operate, or to supply water to the ratepayers within the territory of, the district.

(2)Any administrator appointed pursuant to subdivision (b), any successor agency to the district designated by the commission to take over the district, any receiving operator of a public water system that provides service to the territory of the district, any water corporation that acquires the district, and the commission shall not be held liable for claims by past or existing district ratepayers or those who consumed water provided through the district for any injury that occurred prior to the commencement of the interim operation period specified in subdivision (g).

(g)(1)Notwithstanding subdivision (d) of Section 116684, for any successor agency to the district designated by the commission to take over the district, any receiving operator of a public water system that provides service to the territory of the district, or any water corporation that acquires the district, the interim operation period shall commence upon the execution of an agreement or designation by the commission to provide water services to the district and shall end one year later. Upon the showing of good cause, the interim operation period shall be extended by the commission for up to three successive one-year periods at the request of an entity described in this paragraph.

(2)For the administrator appointed pursuant to subdivision (b), the interim operation period commences upon being appointed by the state board and ends when a successor agency has been designated by the commission to provide water service to ratepayers of the district, when a receiving water agency is

consolidated with or extends service to ratepayers of the district, when a water corporation acquires the district with the approval of the Public Utilities Commission, or when the administratorsobligation to provide interim administrative and managerial services has otherwise ended.

(Amended by Stats. 2022, Ch. 89, Sec. 17. (SB 938) Effective January 1, 2023.)

116700.

(a)Within 30 days after service of a copy of a decision or order issued by the state board, an aggrieved party may file with the superior court a petition for a writ of mandate for review of the decision or order.

(b)In every case, the court shall exercise its independent judgment on the evidence.

(c)Except as otherwise provided in this section, subdivisions (e) and (f) of Section 1094.5 of the Code of Civil Procedure shall govern proceedings pursuant to this section.

(d)If no aggrieved party petitions for a writ of mandate within the time provided by this section, the decision or order of the state board is not subject to review by any court.

(Amended by Stats. 2017, Ch. 327, Sec. 30. (AB 1438) Effective January 1, 2018.)

116701.

(a)(1)Within 30 days of issuance of an order or decision under authority delegated to an officer or employee of the state board under Article 8 (commencing with Section 116625) or Article 9 (commencing with Section 116650), an aggrieved person may petition the state board for reconsideration.

(2)Within 30 days of issuance of an order or decision under authority delegated to an officer or employee of the state board under Section 116540, the applicant may petition the state board for reconsideration.

(3)Within 30 days of final action by an officer or employee of the state board acting under delegated authority, the owner of a laboratory that was the subject of the final action may petition the state board for reconsideration of any of the following actions:

(A)Denial of an application for certification or accreditation under Section 100855.

(B)Issuance of an order directing compliance under Section 100875.

(C)Issuance of a citation under Section 100880.

(D)Assessment of a penalty under subdivision (e) of Section 100880.

(b)The petition shall include the name and address of the petitioner, a copy of the order or decision for which the petitioner seeks reconsideration, identification of the reason the petitioner alleges the issuance of the order or decision was inappropriate or improper, the specific action the petitioner requests, and other information as the state board may prescribe. The petition shall be accompanied by a statement of points and authorities of the legal issues raised by the petition.

(c)The evidence before the state board shall consist of the record before the officer or employee who issued the order or decision and any other relevant evidence that, in the judgment of the state board, should be considered to implement the policies of this chapter. The state board may, in its discretion, hold a hearing for receipt of additional evidence.

(d)The state board may refuse to reconsider the order or decision if the petition fails to raise substantial issues that are appropriate for review, may deny the petition upon a determination that the issuance of the order or decision was appropriate and proper, may set aside or modify the order or decision, or take other appropriate action. The state boardsaction pursuant to this subdivision shall constitute the state boardscompletion of its reconsideration.

(e)The state board, upon notice and hearing, if a hearing is held, may stay in whole or in part the effect of the order or decision subject to the petition for reconsideration.

(f)If an order or decision is subject to reconsideration under this section, the filing of a petition for reconsideration is an administrative remedy that must be exhausted before filing a petition for writ of mandate under Section 100920.5 or 116700.

(Amended by Stats. 2017, Ch. 327, Sec. 31. (AB 1438) Effective January 1, 2018.)

(Article 11 added by Stats. 1995, Ch. 415, Sec. 6.)

116725.

(a)Any person who knowingly makes any false statement or representation in any application, record, report, or other document submitted, maintained, or used for purposes of compliance with this chapter, may be liable, as determined by the court, for a civil penalty not to exceed five thousand dollars ($5,000) for each separate violation or, for continuing violations, for each day that violation continues.

(b)Any person who violates a citation schedule of compliance for a primary drinking water standard or any order regarding a primary drinking water standard or the requirement that a reliable and adequate supply of pure, wholesome, healthful, and potable water be provided may be liable, as determined by the court, for a civil penalty not to exceed twenty-five thousand dollars ($25,000) for each separate violation or, for continuing violations, for each day that violation continues.

(c)Any person who violates any order, other than one specified in subdivision (b), issued pursuant to this chapter may be liable, as determined by the court, for a civil penalty not to exceed five thousand dollars ($5,000) for each separate violation or, for continuing violations, for each day that violation continues.

(d)Any person who operates a public water system without a permit issued by the department pursuant to this chapter may be liable, as determined by the court, for a civil penalty not to exceed twenty-five thousand dollars ($25,000) for each separate violation or, for continuing violations, for each day that violation continues.

(e)Each civil penalty imposed for any separate violation pursuant to this section shall be separate and in addition to any other civil penalty imposed pursuant to this section or any other provision of law.

(Amended by Stats. 2009, Ch. 298, Sec. 18. (AB 1540) Effective January 1, 2010.)

116730.

(a)Any person who knowingly does any of the following acts may, upon conviction, be punished by a fine of not more than twenty-five thousand dollars ($25,000) for each day of violation, by imprisonment in a county jail not to exceed one year, or by both that fine and imprisonment:

(1)Makes any false statement or representation in any application, record, report, or other document submitted, maintained, or used for the purposes of compliance with this chapter.

(2)Has in his or her possession any record required to be maintained pursuant to this chapter that has been altered or concealed.

(3)Destroys, alters, or conceals any record required to be maintained pursuant to this chapter.

(4)Withholds information regarding an imminent and substantial danger to the public health or safety when the information has been requested by the department in writing and is required to carry out the departmentsresponsibilities pursuant to this chapter in response to an imminent and substantial danger.

(5)Violates an order issued by the department pursuant to this chapter that has a substantial probability of presenting an imminent danger to the health of persons.

(6)Operates a public water system without a permit issued by the department pursuant to this chapter.

(b)A second or subsequent violation of subdivision (a) is punishable by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for 16, 20, or 24 months or imprisonment in a county jail for not more than one year, by a fine of not less than two thousand dollars ($2,000) or more than fifty thousand dollars ($50,000) per day of violation, or by both that imprisonment and fine.

(Amended by Stats. 2011, Ch. 15, Sec. 201. (AB 109) Effective April 4, 2011. Operative October 1, 2011, by Sec. 636 of Ch. 15, as amended by Stats. 2011, Ch. 39, Sec. 68.)

116735.

(a) (1)In order to carry out the purposes of this chapter, a duly authorized representative of the state board may, at a reasonable hour of the day, do any of the following:

(A)Enter and inspect a public water system or a place where the public water system records are stored, kept, or maintained.

(B)Inspect and copy records, reports, test results, or other information required to carry out this chapter.

(C)Set up and maintain monitoring equipment for purposes of assessing compliance with this chapter.

(D)Obtain samples of the water supply.

(E)Photograph a portion of the system, activity, or a sample taken.

(2)An owner of a public water system shall provide to the state board reports, test results, and other information required to carry out this chapter within 15 business days of receiving a request for those records from a duly authorized representative of the state board.

(b)The state board shall inspect each public water system as follows:

(1)A system with any surface water source with treatment shall be inspected annually.

(2)A system with any groundwater source subject to treatment with only groundwater sources shall be inspected biennially.

(3)A system with only groundwater sources not subject to treatment shall be inspected every three years.

(c)Nothing in this section shall prohibit the state board from inspecting public water systems on a more frequent basis. An opportunity shall be provided for a representative of the public water system to accompany the representative of the state board during the inspection of the water system.

(d) It shall be a misdemeanor for a person to prevent, interfere with, or attempt to impede in any way a duly authorized representative of the state board from undertaking the activities authorized by paragraph (1) of subdivision (a). A person who violates paragraph (2) of subdivision (a) shall be subject to the provisions of Section 116730, as applicable.

(Amended by Stats. 2015, Ch. 673, Sec. 11. (AB 1531) Effective January 1, 2016.)

116740.

If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order, the Attorney General or the district attorney shall recover the amount for which the person is liable in the superior court. In this action, the validity and appropriateness of the final order imposing the civil penalty shall not be subject to review.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116745.

The remedies provided by this chapter are cumulative and shall not be construed as restricting any remedy, provisional or otherwise, provided by law for the benefit of any party, and no judgment under this chapter shall preclude any party from obtaining additional relief based upon the same facts.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116750.

(a) Any person who tampers with a public water system is guilty of a felony and shall be punished by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for three, four, or five years, subject to a fine not to exceed thirty thousand dollars ($30,000), or both.

(b) Any person who tampers with or makes a threat to tamper with a public water system is guilty of a felony and shall be punished by imprisonment pursuant to subdivision (h) of Section 1170 of the Penal Code for 16 months, two, or three years, subject to a fine not to exceed twenty thousand dollars ($20,000), or both.

(c) For purposes of this section, the term tamper means either of the following:

(1) To introduce a contaminant into a public water system with the intention of harming persons.

(2) To otherwise interfere with the operation of a public water system with the intention of harming persons.

(Amended by Stats. 2011, Ch. 15, Sec. 202. (AB 109) Effective April 4, 2011. Operative October 1, 2011, by Sec. 636 of Ch. 15, as amended by Stats. 2011, Ch. 39, Sec. 68.)

116751.

The Department of Fish and Wildlife shall not introduce a poison to a drinking water supply for purposes of fisheries management unless the state board determines that the activity will not have a permanent adverse impact on the quality of the drinking water supply or wells connected to the drinking water supply. In making this determination, the state board shall evaluate the short- and long-term health effects of the poison in drinking water, ensure that an alternative supply of drinking water is provided to the users of the drinking water supply while the activity takes place, and, in cooperation with the Department of Fish and Wildlife, develop and implement a monitoring program to ensure that no detectable residuals of the poison, breakdown products, and other components of the poison formulation remain in the drinking water supply or adjoining wells after the activity is completed.

(Amended by Stats. 2015, Ch. 673, Sec. 12. (AB 1531) Effective January 1, 2016.)

__ARTICLE 12. Board Member Training [116755- 116755.]__

(Article 12 added by Stats. 2011, Ch. 512, Sec. 9.)

116755.

(a)Each board member of a mutual water company that operates a public water system, as defined in Section 116275, shall, within six months of taking office, or by December 31, 2012, if that member was serving on the board on December 31, 2011, complete a two-hour course offered by a qualified trainer regarding the duties of board members of mutual water companies, including, but not limited to, the duty of a corporate director to avoid contractual conflicts of interest and fiduciary duties, the duties of public water systems to provide clean drinking water that complies with the federal Safe Drinking Water Act (42 U.S.C. Sec. 300f et seq.) and this chapter, and long-term management of a public water system. A board member of a mutual water company that operates a public water system shall repeat this training every six years. For the purposes of this subdivision, a trainer may be qualified in any of the following ways:

(1)Membership in the California State Bar.

(2)Accreditation by the International Association of Continuing Education and Training (IACET) ANSI/IACET 1-2007.

(3)Sponsorship by either the Rural Community Assistance Corporation or the California Rural Water Association.

(b)A mutual water company formed pursuant to Part 7 (commencing with Section 14300) of Division 3 of Title 1 of the Corporations Code, that operates a public water system, shall be liable for the payment of any fines, penalties, costs, expenses, and other amounts that may be imposed upon the mutual water company pursuant to this chapter. The mutual water company may levy an assessment, pursuant to Section 14303 of the Corporations Code, to pay these fines, penalties, costs, expenses, and other amounts so imposed. If the amount of outstanding fines, penalties, costs, expenses and other amounts imposed pursuant to this chapter exceed 5 percent of the annual budget of the mutual water company, then the mutual water company shall levy an assessment, pursuant to Section 14303 of the Corporations Code, to pay those fines, penalties, costs, expenses, and other amounts so imposed.

(Amended by Stats. 2013, Ch. 633, Sec. 5. (AB 240) Effective January 1, 2014.)

(Article 1 added by Stats. 1997, Ch. 734, Sec. 15.)

116760.

This chapter shall be known and may be cited as the Safe Drinking Water State Revolving Fund Law of 1997.

(Added by Stats. 1997, Ch. 734, Sec. 15. Effective October 7, 1997.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=12.&chapter=4.5.&article=2.

116760.10.

(a)Because the federal Safe Drinking Water Act (42 U.S.C. Sec. 300j et seq.) provides for establishment of a perpetual drinking water revolving fund, which will be partially capitalized by federal contributions, it is in the interest of the people of the state, in order to ensure full participation by the state under the federal Safe Drinking Water Act, to enact this chapter to authorize the state to establish and implement a state drinking water revolving fund that will meet federal conditions for receipt of federal funds. The primary purpose of this chapter is to enable receipt of funds under the federal Safe Drinking Water Act. It is the intent of the Legislature that the terms of this chapter shall be liberally construed to achieve this purpose.

(b)Toxic contaminants and new pathogenic organisms, including cryptosporidium, have been discovered in many of Californiaspublic drinking water systems.

(c)Many of the contaminants in Californiasdrinking water supplies are known to cause, or are suspected of causing, cancer, birth defects, and other serious illnesses.

(d)It is unlikely that the contamination problems of small public water systems can be solved without financial assistance from the state.

(e)The protection of the health, safety, and welfare of the people of California requires that the water supplied for domestic purposes be at all times pure, wholesome, and potable. It is in the interest of the people that the State of California provide technical and financial assistance to ensure a safe, dependable, and potable supply of water for domestic purposes and that water is available in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes.

(f)It is the intent of the Legislature to provide for the upgrading of existing public water supply systems to ensure that all domestic water supplies meet safe drinking water standards and other requirements established under Chapter 4 (commencing with Section 116270).

(g)The extent of the current risk to public health from contamination in drinking water creates a compelling need to upgrade existing public water systems. The demand for financial assistance to enable public water systems to meet drinking water standards and regulations exceeds funds available from the Safe Drinking Water State Revolving Fund.

(h)The Legislature further finds and declares that regional solutions to water contamination problems are often more effective, efficient, and economical than solutions designed to address solely the problems of a single small public water system, and it is in the interest of the people of the State of California to encourage the consolidation of the management and the facilities of small water systems to enable those systems to better address their water contamination problems.

(i)The protection of drinking water sources is essential to ensuring that the people of California are provided with pure, wholesome, and potable drinking water.

(j)That coordination among local, state, and federal public health and environmental management programs be undertaken to ensure that sources of drinking water are protected while avoiding duplication of effort and reducing program costs.

(k)It is necessary that a source water protection program be implemented for the purposes of delineating, assessing, and protecting drinking water sources throughout the state and that federal funds be utilized pursuant to the federal Safe Drinking Water Act to carry out that program.

(l)It is in the interest of the people of the state to provide funds for a perpetual Safe Drinking Water State Revolving Fund that may be combined with similar federal funding to the extent the funding is authorized pursuant to the federal Safe Drinking Water Act.

(m)This chapter shall govern implementation of the Safe Drinking Water State Revolving Fund, and shall be implemented in a manner that is consistent with the federal Safe Drinking Water Act, and, to the extent authorized under the federal act, in a manner that is consistent with the California Safe Drinking Water Act, Chapter 4 (commencing with Section 116270).

(n)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 64) and added by Stats. 2014, Ch. 35, Sec. 65. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4.5. Safe Drinking Water State Revolving Fund Law of 1997 [116760 - 116762.60]__

(Chapter 4.5 added by Stats. 1997, Ch. 734, Sec. 15.)

__ARTICLE 3. Safe Drinking Water State Revolving Fund [116760.20 - 116760.46]__

(Article 3 added by Stats. 1997, Ch. 734, Sec. 15.)

116760.20.

Unless the context otherwise requires, the following definitions govern the construction of this chapter:

(a)Acceptable result means the project that, when constructed, solves the problem for which the project was placed on the project priority list, ensures the owner and operator of the improved or restructured public water system shall have long-term technical, managerial, and financial capacity to operate and maintain the public water system in compliance with state and federal safe drinking water standards, can provide a dependable source of safe drinking water long-term, and is both short-term and long-term affordable, as determined by the board.

(b)Administrative fund means the Safe Drinking Water State Revolving Fund Administration Fund created by Section 116761.70.

(c)Board means the State Water Resources Control Board.

(d)Community water system has the meaning set forth in Section 116275.

(e)Cost-effective means achieves an acceptable result at the most reasonable cost.

(f)Disadvantaged community means a community that meets the definition provided in Section 116275.

(g)Federal Safe Drinking Water Act or federal act means the federal Safe Drinking Water Act (42 U.S.C. Sec. 300f et seq.) and acts amendatory thereof or supplemental thereto.

(h)Fund means the Safe Drinking Water State Revolving Fund created by Section 116760.30.

(i)Financing means financial assistance awarded under this chapter, including loans, refinancing, installment sales agreements, purchase of debt, loan guarantees for municipal revolving funds, and grants.

(j)Matching funds means state money that equals that percentage of federal contributions required by the federal act to be matched with state funds.

(k)Project means cost-effective facilities for the construction, improvement, or rehabilitation of a public water system. It also may include the planning and design of the facilities, annexation or consolidation of water systems, source water assessments, source water protection, and other activities specified under the federal act.

(l)Public agency means any city, county, city and county, whether general law or chartered, district, joint powers authority, or other political subdivision of the state, that owns or operates a public water system, or any municipality, as that term is defined in the federal act.

(m)Public water system or public water supply system means a system for the provision to the public of water for human consumption, as defined in Section 116275.

(n)Safe drinking water standards means those standards established pursuant to Chapter 4 (commencing with Section 116270), as they may now or hereafter be amended.

(o)Severely disadvantaged community means a community with a median household income of less than 60 percent of the statewide average.

(p)Small community water system has the meaning set forth in Section 116275.

(q)Supplier means any person, partnership, corporation, association, public agency, or other entity that owns or operates a public water system.

(Amended by Stats. 2022, Ch. 680, Sec. 1. (SB 1188) Effective January 1, 2023.)

116760.30.

(a)There is hereby created in the State Treasury the Safe Drinking Water State Revolving Fund for the purpose of implementing this chapter, and, notwithstanding Section 13340 of the Government Code, moneys in the fund are hereby continuously appropriated, without regard to fiscal years, to the board for expenditure in accordance with this chapter.

(b)Notwithstanding Section 10231.5 of the Government Code, the board shall, at least once every two years, post information on its Internet Web site and send a link of the Internet Web site to the policy and budget committees of the Legislature regarding the implementation of this chapter and expenditures from the fund. The information posted on the boardsInternet Web site shall describe the numbers and types of projects funded, the reduction in risks to public health from contaminants in drinking water provided through the funding of the projects, and the criteria used by the board to determine funding priorities. The Internet Web site posting shall include the results of the United States Environmental Protection Agencysmost recent survey of the infrastructure needs of Californiaspublic water systems, the amount of money available through the fund to finance those needs, the total dollar amount of all funding agreements executed pursuant to this chapter since the date of the previous report or Internet Web site post, the fund utilization rate, the amount of unliquidated obligations, and the total dollar amount paid to funding recipients since the previous report or Internet Web site post.

(c)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 69) and added by Stats. 2014, Ch. 35, Sec. 70. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

116760.38.

Subject to all applicable constitutional restrictions, a city, county, or special district may borrow money and incur indebtedness pursuant to this chapter.

(Added by Stats. 2015, Ch. 673, Sec. 14. (AB 1531) Effective January 1, 2016.)

116760.39.

(a)In addition to the actions described in Section 116760.40, the board may, to implement the Safe Drinking Water State Revolving Fund, improve access to financial assistance for small community water systems and not-for-profit nontransient noncommunity water systems serving severely disadvantaged communities by

doing both of the following:

(1)Working to establish a payment process pursuant to which the recipient of financial assistance would receive funds within 30 days of the date on which the board receives a complete project payment request, unless the board, within that 30-day period, determines that the project payment would not be in accordance with the terms of the program guidelines.

(2)Investigating the use of wire transfers or other appropriate payment procedures to expedite project payments.

(b)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 71) and added by Stats. 2014, Ch. 35, Sec. 72. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

116760.40.

(a)The board may undertake any of the following actions to implement the Safe Drinking Water State Revolving Fund:

(1)Enter into agreements with the federal government for federal contributions to the fund.

(2)Accept federal contributions to the fund.

(3)Use moneys in the fund for the purposes permitted by the federal act.

(4)Provide for the deposit of matching funds and other available and necessary moneys into the fund.

(5)Make requests, on behalf of the state, for deposit into the fund of available federal moneys under the federal act.

(6)Determine, on behalf of the state, that public water systems that receive financial assistance from the fund will meet the requirements of, and otherwise be treated as required by, the federal act.

(7)Provide for appropriate audit, accounting, and fiscal management services, plans, and reports relative to the fund.

(8)Take additional incidental action as may be appropriate for adequate administration and operation of the fund.

(9)Enter into an agreement with, and accept matching funds from, a public water system.

(10)Charge public water systems that elect to provide matching funds a fee to cover the actual cost of obtaining the federal funds pursuant to Section 1452(e) of the federal act (42 U.S.C. Sec. 300j-12) and to process the loan application. The fee shall be waived by the board if sufficient funds to cover those costs are available from other sources.

(11)Use any source of matching funds, if not prohibited by statute, as matching funds for the federal administrative allowance under Section 1452(g) of the federal act (42 U.S.C. Sec. 300j-12).

(12)Establish separate accounts or subaccounts as required or allowed in the federal act and related guidance, for funds to be used for administration of the fund and other purposes. Within the fund, the board may modify existing accounts and may establish other accounts as the board deems appropriate or necessary for proper administration of the chapter.

(13)Deposit federal funds for administration and other purposes into separate accounts or subaccounts, as allowed by the federal act.

(14)Determine, on behalf of the state, whether sufficient progress is being made toward compliance with the enforceable deadlines, goals, and requirements of the federal act and the California Safe Drinking Water Act, Chapter 4 (commencing with Section 116270).

(15)To the extent permitted under federal law, including, but not limited to, Section 1452(a)(2) and (f)(4) of the federal Safe Drinking Water Act (42 U.S.C. Sec. 300j-12(a)(2) and (f)(4)), use any and all amounts deposited in the fund, including, but not limited to, loan repayments and interest earned on the loans, as a source of reserve and security for the payment of principal and interest on revenue bonds, the proceeds of which are deposited in the fund.

(16)Request the Infrastructure and Economic Development Bank (I-Bank), established under Chapter 2 (commencing with Section 63021) of Division 1 of Title 6.7 of the Government Code, to issue revenue bonds, enter into agreements with the I-Bank, and take all other actions necessary or convenient for the issuance and sale of revenue bonds pursuant to Article 6.3 (commencing with Section 63048.55) of Chapter 2 of Division 1 of Title 6.7 of the Government Code. The purpose of the bonds is to augment the fund.

(17)Engage in the transfer of capitalization grant funds, as authorized by Section 35.3530(c) of Title 40 of the Code of Federal Regulations and reauthorized by Public Law 109-54, to the extent set forth in an Intended Use Plan, that shall be subject to approval by the board.

(18)Cross-collateralize revenue bonds with the State Water Pollution Control Revolving Fund created pursuant to Section 13477 of the Water Code, as authorized by Section 35.3530(d) of Title 40 of the Code of Federal Regulations.

(b)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 73) and added by Stats. 2014, Ch. 35, Sec. 74. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

116760.41.

Moneys in the fund and the special accounts may be expended for additional purposes provided in the federal act.

(Added by Stats. 1997, Ch. 734, Sec. 15. Effective October 7, 1997.)

116760.42.

(a)The board may enter into an agreement with the federal government for federal contributions to the fund only if the board is prepared to commit to expenditure of any minimum amount in the fund in the manner required by the federal act.

(b)An agreement between the board and the federal government shall contain those provisions, terms, and conditions required by the federal act, and implementing federal rules, regulations, guidelines, and policies, including, but not limited to, agreement to the following:

(1)Moneys in the fund shall be expended in an expeditious and timely manner.

(2)All moneys in the fund as a result of federal capitalization grants shall be expended to ensure sufficient progress is being made toward compliance with the enforceable deadlines, goals, and requirements of the federal act, including any applicable compliance deadlines.

(3)Federal funds deposited in the special accounts are continuously appropriated for use by the board as allowed by federal law. Unexpended funds in the special accounts shall be carried over into subsequent years for use by the board.

(4)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 75) and added by Stats. 2014, Ch. 35, Sec. 76. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

116760.43.

(a)The board shall implement this chapter pursuant to the adoption of a policy handbook that is not subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of the Government Code. The policy handbook shall be posted on the boardsInternet Web site.

(b)Any regulations that have been promulgated pursuant to this chapter are repealed effective upon adoption by the board of the policy handbook.

(c)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 77) and added by Stats. 2014, Ch. 35, Sec. 78. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

116760.44.

(a)The board may deposit administrative fees and charges paid by public water systems and other available and necessary money into an account of the fund.

(b)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 79) and added by Stats. 2014, Ch. 35, Sec. 80. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

116760.45.

(a)For purposes of this section act means the American Recovery and Reinvestment Act of 2009.

(b)Notwithstanding any other provision of this chapter or any regulations adopted pursuant to this chapter, the department may expend moneys in the fund, received from the federal government pursuant to the American Recovery and Reinvestment Act of 2009 (Public Law 111-5), in accordance with the provisions of the act and federal guidelines implementing the act. To the extent that any law or regulation of the state is in conflict with the provisions and requirements of the act, to the extent that the conflict impairs the expenditure of federal moneys received, the provisions and requirements of the act shall prevail.

(c)The department may develop criteria necessary to implement the act. These criteria shall not be subject to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The department shall publish the criteria on its Internet Web site and shall provide opportunity for public review and comment, to include at least one public hearing conducted upon not less than 20 days™ notice.

(d)For the implementation of the act, the maximum amount of a grant to an applicant under this chapter is ten million dollars ($10,000,000) per project.

(Added by Stats. 2009, 3rd Ex. Sess., Ch. 25, Sec. 1. Effective March 27, 2009.)

116760.46.

(a)The Safe Drinking Water Small Community Emergency Grant Fund is hereby created in the State Treasury.

(b)The following moneys shall be deposited in the grant fund:

(1)Moneys transferred to the grant fund pursuant to subdivision (c).

(2)Notwithstanding Section 16475 of the Government Code, any interest earned upon the moneys deposited in the grant fund.

(c)(1)For any financing made pursuant to this chapter, the board may assess an annual charge to be deposited in the grant fund in lieu of interest that would otherwise be charged.

(2)Any amounts collected under this subdivision shall be deposited in the grant fund.

(3)The charge authorized by this subdivision may be applied at any time during the term of the financing and, once applied, shall remain unchanged, unless the board determines that the application of the charge is any of the following:

(A)No longer consistent with federal requirements regarding the fund.

(B)No longer necessary.

(C)Negatively affecting the boardsability to fund projects that support the boardsgoals as specified in this

chapter.

(4)If the board ceases collecting the charge before the financing repayment is complete, the board shall replace the charge with an identical interest rate.

(5)The charge authorized by this subdivision shall not increase the financing repayment amount, as set forth in the terms and conditions imposed pursuant to this chapter.

(d)(1)Moneys in the grant fund may be expended on grants for projects that meet the requirements of this chapter and that serve disadvantaged and severely disadvantaged communities or address emergencies experienced by small community water systems.

(2)For the purpose of approving grants, the board shall give priority to projects that serve severely disadvantaged communities.

(3)Funds expended pursuant to this section shall be expended in a manner consistent with the federal EPA capitalization grant requirements established in Section 35.3530(b)(2) of Title 40 of the Code of Federal Regulations.

(e)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 81) and added by Stats. 2014, Ch. 35, Sec. 82. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

(Article 5 added by Stats. 1997, Ch. 734, Sec. 15.)

116761.20.

(a)Planning and preliminary engineering studies, project design, and construction costs incurred by a community water system or not-for-profit noncommunity water system may be funded under this chapter.

(b)(1)The board shall determine what portion of the full costs the water system is capable of repaying and may authorize funding in the form of a loan or other repayable financing for up to that amount.

(2)Where an otherwise eligible water system is not a water corporation regulated by the Public Utilities Commission and serves a severely disadvantaged community with fewer than 200 service connections, the water system is deemed to have no ability to repay any financing for a project serving the severely disadvantaged community.

(c)At the request of the board, the Public Utilities Commission shall submit comments concerning the ability of water systems, subject to its jurisdiction, to finance the project from other sources and to repay the financing.

(Amended by Stats. 2022, Ch. 680, Sec. 3. (SB 1188) Effective January 1, 2023.)

116761.40.

(a)The failure or inability of any public water system to receive funds under this chapter or any other financial assistance program or any delay in obtaining the funds shall not alter the obligation of the system to comply in a timely manner with all applicable drinking water standards and requirements of the California Safe Drinking Water Act or the federal act.

(b)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 106) and added by Stats. 2014, Ch. 35, Sec. 107. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

(Article 6 added by Stats. 1997, Ch. 734, Sec. 15.)

116761.50.

(a)The board may enter into financing agreements with applicants for the purposes set forth in this chapter.

(b)If the board provides construction financing, the financing recipient shall commit to operate and maintain, or ensure the operation and maintenance of, the water system for the term of the financing agreement or the useful life of the project, as determined by the board, unless otherwise authorized by the board.

(c)This section shall become operative on January 1 of the next calendar year occurring after the board provides notice to the Legislature and the Secretary of State and posts notice on its Internet Web site that the board has adopted a policy handbook pursuant to Section 116760.43.

(Repealed (in Sec. 109) and added by Stats. 2014, Ch. 35, Sec. 110. (SB 861) Effective June 20, 2014. Section became operative on January 1, 2015, pursuant to its own provisions.)

116761.51.

(a)As a condition of receiving construction financing under this article for work performed at the City of San DiegosNorth City Water Reclamation Plant, North City Pure Water Facility, or any other portion of the Pure Water San Diego Program, an applicant shall ensure that any construction contract awarded on or after January 1, 2020, for any phase of the Pure Water San Diego Program, including, but not limited to,

expanding or modifying wastewater conveyance, detention, or treatment processes at the North City Water Reclamation Plant, work on the North City Pure Water Facility or the adjacent Pure Water Pump Station, or work on any other portion of the Pure Water San Diego Program, requires the contractor to enter into a project labor agreement that meets the requirements of Section 2500 of the Public Contract Code.

(b)The condition on receiving construction financing imposed pursuant to this section shall remain in effect only until completion of all phases of the Pure Water San Diego Program.

(Added by Stats. 2019, Ch. 755, Sec. 1. (AB 1290) Effective January 1, 2020.)

__ARTICLE 7. Safe Drinking Water State Revolving Fund Management [116761.62 - 116761.86]__

(Article 7 added by Stats. 1997, Ch. 734, Sec. 15.)

116761.62.

(a)To the extent permitted by federal and state law, moneys in the fund may be expended to rebate to the federal government all arbitrage profits required by the federal Tax Reform Act of 1986 (Public Law 99-514)

or any amendment of or supplement to that law. To the extent that this expenditure of the moneys in the fund is prohibited by federal or state law, any rebates required by federal law shall be paid from the General Fund or other sources, upon appropriation by the Legislature.

(b)Notwithstanding any other law or regulation, the board may enter into contracts or may procure those services and equipment that may be necessary to ensure prompt and complete compliance with any provisions relating to the fund imposed by either the federal Tax Reform Act of 1986 (Public Law 99-514) or the federal Safe Drinking Water Act.

(c)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 113) and added by Stats. 2014, Ch. 35, Sec. 114. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

116761.65.

(a)The board shall establish, and may periodically adjust, the interest rate for repayable financing made pursuant to this chapter at a rate not to exceed 50 percent of the average interest rate, computed by the true interest cost method, paid by the state on general obligation bonds issued in the prior calendar year, rounded up to the closest one-tenth of 1 percent.

(b)Notwithstanding subdivision (a), to the extent authorized by federal law, the board may provide reduced or 0 percent financing to further the purposes of this chapter.

(Amended by Stats. 2022, Ch. 680, Sec. 4. (SB 1188) Effective January 1, 2023.)

116761.70.

(a)The Safe Drinking Water State Revolving Fund Administration Fund is hereby created in the State Treasury.

(b)The following moneys shall be deposited into the administration fund:

(1)Moneys transferred to pay the costs incurred by the state board in connection with the administration of this chapter.

(2)The amounts collected for financial assistance services pursuant to subdivision (c).

(3)Notwithstanding Section 16475 of the Government Code, any interest earned upon the moneys in the fund.

(c)(1)For financial assistance made pursuant to this chapter, where that financial assistance is to be repaid to the state board, the state board may assess an annual charge for financial assistance services with regard to the financial assistance, not to exceed 1 percent of the financial assistance balance, computed according to the true interest cost method.

(2)The financial assistance service rate authorized by this subdivision may be applied at any time during the term of the financial assistance, and once applied, shall remain unchanged for the duration of the financial

assistance and shall not increase the financial assistance repayment amount, as set forth in the terms and conditions imposed pursuant to this chapter.

(d)Upon appropriation by the Legislature, moneys in the administration fund may be expended by the state board for payment of the reasonable costs of administering the fund.

(e)The state board shall set the total amount of revenue collected each year through the charge authorized by subdivision (c) at an amount that is equal as practicable to the appropriation amount set forth in the annual Budget Act for this activity. At least once each fiscal year, the state board shall adjust the financial assistance service charge imposed pursuant to subdivision (c) to conform with the appropriation amount set forth in the annual Budget Act.

(Repealed and added by Stats. 2015, Ch. 673, Sec. 18. (AB 1531) Effective January 1, 2016.)

116761.85.

(a)Moneys repaid to the state pursuant to any contract executed pursuant to this chapter, including interest payments and all interest earned on or accruing to any moneys in the fund, shall be deposited in the fund and shall be available in perpetuity, for expenditure for the purposes and uses permitted by this chapter and the federal act.

(b)This section shall become operative on July 1, 2014.

(Repealed (in Sec. 121) and added by Stats. 2014, Ch. 35, Sec. 122. (SB 861) Effective June 20, 2014. Section operative July 1, 2014, by its own provisions.)

116761.86.

To the extent amounts in the fund are not required for current obligation or expenditure, those amounts shall be invested in interest bearing obligations, and the interest earned shall become part of the fund.

(Added by Stats. 1997, Ch. 734, Sec. 15. Effective October 7, 1997.)

116762.60.

(a)The board shall, contingent upon receiving federal capitalization grant funds, develop and implement a program to protect sources of drinking water. In carrying out this program, the board shall coordinate with local, state, and federal agencies that have public health and environmental management programs to ensure an effective implementation of the program while avoiding duplication of effort and reducing

program costs. The program shall include all of the following:

(1)A source water assessment program to delineate and assess the drinking water supplies of public drinking water systems pursuant to Section 1453 of the federal act.

(2)A wellhead protection program to protect drinking water wells from contamination pursuant to Section 1428 of the federal act.

(3)Pursuant to Section 1452(k) of the federal act, the board shall set aside federal capitalization grant funds sufficient to carry out paragraphs (1) and (2).

(b)The board shall set aside federal capitalization grant funds to provide assistance to water systems pursuant to Section 1452(k) of the federal act for the following source water protection activities, to the extent that those activities are proposed:

(1)To acquire land or a conservation easement if the purpose of the acquisition is to protect the source water of the system from contamination and to ensure compliance with primary drinking water regulations.

(2)To implement local, voluntary source water protection measures to protect source water in areas delineated pursuant to Section 1453 of the federal act, in order to facilitate compliance with primary drinking water regulations applicable to the water system under Section 1412 of the federal act or otherwise significantly further the health protection objectives of the federal and state acts.

(3)To carry out a voluntary, incentive-based source water quality protection partnership pursuant to Section 1454 of the federal act.

(c)The board shall post a report to its Internet Web site, every two years, on its activities under this section. The report shall contain a description of each program for which funds have been set aside under this section, the effectiveness of each program in carrying out the intent of the federal and state acts, and an accounting of the amount of set-aside funds used.

(d)This section shall become operative on January 1 of the next calendar year occurring after the board provides notice to the Legislature and the Secretary of State and posts notice on its Internet Web site that the board has adopted a policy handbook pursuant to Section 116760.43.

(Repealed (in Sec. 124) and added by Stats. 2014, Ch. 35, Sec. 125. (SB 861) Effective June 20, 2014. Section became operative on January 1, 2015, pursuant to its own provisions.)

116765.

The Legislature finds and declares all of the following:

(a)Every Californian should enjoy the same degree of protection from environmental and health hazards. Every community should be a healthy environment in which to live, work, play, and learn.

(b)No single group of people should bear a disproportionate share of the negative environmental consequences and adverse health impacts arising from industrial, governmental, or commercial operations or policies.

(c)Concentrated environmental contamination in water creates cumulative health burdens resulting in communities with higher rates of disease such as asthma, heart disease, cancer, neurological and reproductive health effects, birth defects, and obesity.

(d)Despite significant improvements in environmental protection over the past several decades, millions of Californians continue to live, work, play, and go to school in unhealthy environments.

(e)California was one of the first states in the nation to put environmental justice considerations into law and defines environmental justice as the fair treatment of people of all races, cultures, and incomes with respect to the development, adoption, implementation, and enforcement of environmental laws, regulations, and policies.

(f)California law also declares that it is the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes.

(g)Yet, still more than 1,000,000 Californians do not have access to safe drinking water. In communities where the sole water supply is contaminated with substances like arsenic, manganese, nitrates, or hexavalent chromium, families are often left without safe water. The central valley and central coast regions, where more than 90% of the communities rely on groundwater as a primary source of drinking water, are particularly at risk, but other communities around the state are also at risk. More than 250,000 people in the central valley alone lack access to a consistent source of safe, affordable water.

(h)The Safe Drinking Water and Toxic Enforcement Act of 1986 lists lead, arsenic, and hexavalent chromium as substances that can cause cancer and reproductive toxicity.

(i)Established state environmental justice laws and policies are only effective insofar as they result in true parity.

(j)It is the intent of the Legislature that the State of California bring true environmental justice to our state and begin to address the continuing disproportionate environmental burdens in the state by creating a fund to provide safe drinking water in every California community, for every Californian.

(k)Climate change is exacerbating the water impacts on disadvantaged and environmentally burdened communities by reducing surface water flows, accelerating declining groundwater basins, and contributing to increasing concentrations of environmental contamination.

(l)Enhancing the long-term sustainability of drinking water systems in disadvantaged and environmentally burdened communities increases those communities™ resilience to climate change.

(m)Funding for safe and affordable drinking water under this chapter promotes investments in disadvantaged communities, provides important contributions to those communities in adapting to climate change, and is an appropriate expenditure from the Greenhouse Gas Reduction Fund created pursuant to Section 16428.8 of the Government Code.

(n)It is the intent of the Legislature that the state board, in developing the fund expenditure plan pursuant to Article 4 (commencing with Section 116768), strive to ensure all regions of the state receive the same level of consideration for funding pursuant to this chapter, to the extent practicable.

(Amended by Stats. 2020, Ch. 370, Sec. 210. (SB 1371) Effective January 1, 2021.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=12.&chapter=4.6.&article=2.

116766.

(a)The Safe and Affordable Drinking Water Fund is hereby established in the State Treasury to help water systems provide an adequate and affordable supply of safe drinking water in both the near and long terms. Notwithstanding Section 13340 of the Government Code, all moneys deposited in the fund are continuously appropriated to the board to fund all of the following:

(1)Operation and maintenance costs to help deliver an adequate supply of safe drinking water in both the near and long terms.

(2)Consolidating water systems, or extending drinking water services to other public water systems, domestic wells, and state small water systems.

(3)The provision of replacement water, as needed, to ensure immediate protection of health and safety as a short-term solution.

(4)The provision of services under Section 116686 for purposes of helping the water systems become self-sufficient in the long term.

(5)The development, implementation, and sustainability of long-term drinking water solutions.

(6)Board costs associated with the implementation and administration of programs pursuant to this chapter.

(b)Consistent with subdivision (a), the board shall expend moneys in the fund for grants, loans, contracts, or services to assist eligible recipients.

(c)(1)Eligible recipients of funding under this chapter are public agencies, nonprofit organizations, public utilities, mutual water companies, federally recognized California Native American tribes, nonfederally recognized Native American tribes on the contact list maintained by the Native American Heritage Commission for the purposes of Chapter 905 of the Statutes of 2004, administrators, groundwater sustainability agencies, community water systems, and technical assistance providers.

(2)Any waiver of tribal sovereign immunity that is required by the board for a tribe that is an eligible recipient to access funding under this chapter shall be narrowly drafted to serve both the individual needs of the tribe and make the funding agreement enforceable. The waiver of sovereign immunity shall be negotiated with the direct involvement and assistance of the boardstribal liaison or their designee or designees.

(3)In order to facilitate better coordination between the board and tribes that are eligible recipients, the board shall include its designated tribal liaison or their designee or designees in all discussions with eligible recipients, unless those eligible recipients give permission for the tribal liaison or their designee or designees to be absent.

(4)In expending moneys from the fund under this chapter, the board shall consider the extent that funds for safe drinking water projects from the programs administered by the board are distributed to eligible recipients to provide assistance to federally recognized California Native American tribes or nonfederally recognized Native American tribes on the contact list maintained by the Native American Heritage Commission for the purposes of Chapter 905 of the Statutes of 2004 and shall make diligent efforts to ensure the distribution of funds to those tribes. The board shall expend those funds, upon appropriation by the Legislature, for grants, loans, contracts, or services to assist those tribes.

(5)The board shall post on its internet website, and update annually, the number of inquiries for funding received from tribes, the number of applications for funding received from tribes, and the total amount of funding granted to tribes each year. If the board is not able to consistently approve funding applications from eligible tribes in a timely manner, the board shall identify barriers to the tribes receiving funding and propose possible solutions in the fund expenditure plan.

(6)To be eligible for funding under this chapter, grants, loans, contracts, or services provided to a public utility that is regulated by the Public Utilities Commission or a mutual water company shall have a clear and definite public purpose and shall benefit the customers of the water system and not the investors.

(7)For purposes of this subdivision, tribal liaison means an individual employed by the board as a tribal liaison, or if the tribal liaison is unavailable, a tribal coordinator, the boardschair, the boardsexecutive director, or the boardschief counsel acting in that capacity as a designee or the designees of the tribal liaison.

(d)On and after July 1, 2020, an expenditure from the fund shall be consistent with the fund expenditure plan.

(e)The board may expend moneys from the fund for reasonable costs associated with the administration of this chapter, not to exceed 5 percent of the annual deposits into the fund.

(f)In administering the fund, the board shall make reasonable efforts to ensure that funds are used to secure the long-term sustainability of drinking water service and infrastructure, including, but not limited to, requiring adequate technical, managerial, and financial capacity of eligible applicants as part of funding agreement outcomes.

(g)Beginning in the 2023”24 fiscal year, and each fiscal year thereafter until June 30, 2030, if the annual transfer to the fund pursuant to paragraph (3) of subdivision (b) of Section 39719 is less than one hundred thirty million dollars ($130,000,000), on an annual basis the Director of Finance shall calculate a sum equivalent to the difference, up to one hundred thirty million dollars ($130,000,000), and the Controller shall transfer that sum from the General Fund to the fund. This subdivision is operative only while a market-based compliance mechanism adopted pursuant to Section 38562 is operative.

(h)The board may authorize funding up to ten thousand dollars ($10,000) without a written agreement to address a drinking water emergency.

(i)Notwithstanding Section 11019 of the Government Code, the board may make advance payments, as necessary to implement the purposes of this chapter, except that an advance payment for construction shall not exceed 25 percent of the total amount of construction funding provided by the board for a project.

(j)Contracts pursuant to this section are exempt from Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code and Section 4526 of the Government Code, and may be awarded on a noncompetitive bid basis as necessary to implement the purposes of this section.

(Amended by Stats. 2022, Ch. 481, Sec. 1. (AB 2877) Effective January 1, 2023.)

116767.

For purposes of this chapter:

(a)Adequate supply” has the same meaning as defined in Section 116681.

(b)Administrator” has the same meaning as defined in Section 116686.

(c)Board” means the State Water Resources Control Board.

(d)Community water system” has the same meaning as defined in Section 116275.

(e)Consistently fails” has the same meaning as defined in Section 116681.

(f)Disadvantaged community” has the same meaning as defined in Section 79505.5 of the Water Code.

(g)Domestic well” has the same meaning as defined in Section 116681.

(h)Fund” means the Safe and Affordable Drinking Water Fund established pursuant to Section 116766.

(i)Fund expenditure plan” means the fund expenditure plan adopted by the board pursuant to Article 4 (commencing with Section 116768).

(j)Groundwater sustainability agency has the same meaning as defined in Section 10721 of the Water Code.

(k)Low-income household means a single household with an income that is less than 200 percent of the federal poverty level, as updated periodically in the Federal Register by the United States Department of Health and Human Services under authority of Section 9902(2) of Title 42 of the United States Code.

(l)Mutual water company means a mutual water company, as described in Section 14300 of the Corporations Code, that operates a public water system or a state small water system.

(m)Nonprofit organization means an organization qualified to do business in California and qualified under Section 501(c)(3) of Title 26 of the United States Code.

(n)Public agency means a state agency or department, special district, joint powers authority, city, county, city and county, or other political subdivision of the state.

(o)Public utility has the same meaning as defined in Section 216 of the Public Utilities Code.

(p)Public water system has the same meaning as defined in Section 116275.

(q)Replacement water includes, but is not limited to, bottled water, vended water, point-of-use, or point-of-entry treatment units.

(r)Safe drinking water has the same meaning as defined in Section 116681.

(s)Service connection has the same meaning as defined in Section 116275.

(t)State small water system has the same meaning as defined in Section 116275.

(u)Technical assistance provider means a person whom the state board has determined is competent to assist a water system by providing administrative, technical, operational, legal, or managerial services to meet the purposes of this section, pursuant to criteria set forth in the policy adopted by the state board pursuant to Section 116768.5 and the fund expenditure plan. A privately owned public utility may serve as a technical assistance provider for purposes of this section.

(v)Vended water has the same meaning as defined in Section 111070.

(Amended by Stats. 2021, Ch. 258, Sec. 18. (SB 155) Effective September 23, 2021.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4.6. Safe and Affordable Drinking Water [116765 - 116772]__

(Chapter 4.6 added by Stats. 2019, Ch. 120, Sec. 9.)

__ARTICLE 4. Fund Expenditure Plan [116768 - 116770]__

(Article 4 added by Stats. 2019, Ch. 120, Sec. 9.)

116768.

The purposes of the fund expenditure plan are as follows:

(a)To identify public water systems, community water systems, and state small water systems that consistently fail to provide an adequate supply of safe drinking water, including the cause or causes of the failure and appropriate measures to remedy the failure.

(b)To determine the amount and type of funding necessary to implement appropriate measures to remedy a failure to provide an adequate supply of safe drinking water.

(c)To identify public water systems, community water systems, and state small water systems that are at significant risk of failing to provide an adequate supply of safe drinking water, including the source or sources of the risk and appropriate measures to eliminate the risk.

(d)To determine the amount and type of funding necessary to implement appropriate measures to eliminate the risk of failing to provide an adequate supply of safe drinking water.

(e)To identify gaps in the provision of safe drinking water, in furtherance of Section 106.3 of the Water Code, and to determine the amount and type of funding necessary to minimize or eliminate those gaps.

(Added by Stats. 2019, Ch. 120, Sec. 9. (SB 200) Effective July 24, 2019.)

116768.5.

(a)On or before July 1, 2020, the board shall develop and adopt a policy for developing the fund expenditure plan that includes all of the following elements:

(1)A requirement that the board consult with an advisory group to aid in meeting the purposes of the fund expenditure plan as established in Section 116768. The advisory group shall include representatives of the following:

(A)Public water systems.

(B)Technical assistance providers.

(C)Local agencies.

(D)Nongovernmental organizations.

(E)Residents served by community water systems in disadvantaged communities, state small water systems, and domestic wells.

(F)The public.

(2)Identification of key terms, criteria, and metrics, and their definitions.

(3)A description of how proposed remedies will be identified, evaluated, prioritized, and included in the fund expenditure plan.

(4)The establishment of a process by which members of a disadvantaged community may petition the board to consider ordering consolidation.

(5)A requirement that the board hold at least one public hearing before adopting a fund expenditure plan.

(b)The board, in consultation with the Department of Finance, shall annually adopt a fund expenditure plan. The board shall adopt a handbook and may update it at least once every three years.

(c)On or before March 1, 2021, and every March 1 thereafter, the board shall provide to the Joint Legislative Budget Committee and the chairpersons of the fiscal committees in each house of the Legislature the most recently adopted fund expenditure plan. The board may submit the fund expenditure plan as required by this subdivision either in the GovernorsBudget documents or as a separate report.

(Added by Stats. 2019, Ch. 120, Sec. 9. (SB 200) Effective July 24, 2019.)

116769.

(a)The fund expenditure plan shall contain the following:

(1)A report of expenditures from the fund for the prior fiscal year and planned expenditures for the current fiscal year.

(2)A list of systems that consistently fail to provide an adequate supply of safe drinking water. The list shall include, but is not limited to, all of the following:

(A)Any public water system that consistently fails to provide an adequate supply of safe drinking water.

(B)Any community water system that serves a disadvantaged community that must charge fees that exceed the affordability threshold established by the board in order to supply, treat, and distribute potable water that complies with federal and state drinking water standards.

(C)Any state small water system that consistently fails to provide an adequate supply of safe drinking water.

(3)A list of public water systems, community water systems, and state small water systems that may be at risk of failing to provide an adequate supply of safe drinking water.

(4)An estimate of the number of households that are served by domestic wells or state small water systems in high-risk areas identified pursuant to Article 6 (commencing with Section 116772). The estimate shall identify approximate locations of households, without identifying exact addresses or other personal information, in order to identify potential target areas for outreach and assistance programs.

(5)An estimate of the funding needed for the next fiscal year based on the amount available in the fund, anticipated funding needs, other existing funding sources, and other relevant data and information.

(6)A list of programs to be funded that assist or will assist households supplied by a domestic well that consistently fails to provide an adequate supply of safe drinking water. This list shall include the number and approximate location of households served by each program without identifying exact addresses or other personal information.

(7)A list of programs to be funded that assist or will assist households and schools whose tap water contains contaminants, such as lead or secondary contaminants, at levels that exceed recommended standards.

(b)The fund expenditure plan shall be based on data and analysis drawn from the drinking water needs assessment funded by Chapter 449 of the Statutes of 2018 as that assessment may be updated and as information is developed pursuant to Article 6 (commencing with Section 116772).

(c)The fund expenditure plan shall prioritize funding for all of the following:

(1)Assisting disadvantaged communities served by a public water system, and low-income households served by a state small water system or a domestic well.

(2)The consolidation or extension of service, when feasible, and administrative and managerial contracts or grants entered into pursuant to Section 116686 where applicable.

(3)Funding costs other than those related to capital construction costs, except for capital construction costs associated with consolidation and service extension to reduce the ongoing unit cost of service and to increase sustainability of drinking water infrastructure and service delivery.

(Added by Stats. 2019, Ch. 120, Sec. 9. (SB 200) Effective July 24, 2019.)

116770.

The fund expenditure plan may include expenditures for the following:

(a)The provision of replacement water, as needed, to ensure immediate protection of health and safety as a short-term solution.

(b)The development, implementation, and sustainability of long-term drinking water solutions, including, but not limited to, the following:

(1)(A)Technical assistance, planning, construction, repair, and operation and maintenance costs associated with any of the following:

(i)Replacing, blending, or treating contaminated drinking water.

(ii)Repairing or replacing failing water system equipment, pipes, or fixtures.

(iii)Operation and maintenance costs associated with consolidated water systems, extended drinking water services, or reliance on a substituted drinking water source.

(B)Technical assistance and planning costs may include, but are not limited to, analyses to identify and efforts to further opportunities to reduce the unit cost of providing drinking water through organizational and operational efficiency improvements, and other options and approaches to reduce costs.

(2)Creating and maintaining natural means and green infrastructure solutions that contribute to sustainable drinking water.

(3)Consolidating water systems.

(4)Extending drinking water services to other public water systems, community water systems, state small water systems, or domestic wells.

(5)Satisfying outstanding long-term debt obligations of public water systems, community water systems, and state small water systems where the board determines that a systemslack of access to capital markets renders this solution the most cost effective for removing a financial barrier to the systemssustainable, long-term provision of drinking water.

(c)Identifying and providing outreach to persons who are eligible to receive assistance from the fund.

(d)Testing the drinking water quality of domestic wells serving low-income households, prioritizing those in high-risk areas identified pursuant to Article 6 (commencing with Section 116772).

(e)Providing services under Section 116686.

(Amended by Stats. 2020, Ch. 370, Sec. 211. (SB 1371) Effective January 1, 2021.)

Codes Display Text

Source: https://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=HSC&division=104.&title=&part=12.&chapter=4.6.&article=5.

116771.

(a)The board may undertake any of the following actions to implement the fund:

(1)Provide for the deposit of any of the following moneys into the fund:

(A)Federal contributions.

(B)Voluntary contributions, gifts, grants, or bequests.

(C)Financial participation by a public agency in an activity authorized for funding from the fund.

(2)Enter into agreements for contributions to the fund from the federal government, local or state agencies, and private corporations or nonprofit organizations.

(3)Direct portions of the fund to a subset of eligible applicants as required or appropriate based on funding source and consistent with the annual fund expenditure plan.

(4)Direct moneys described in subparagraph (B) of paragraph (1) towards a specific project, program, or study.

(5)Take additional action as may be appropriate for adequate administration and operation of the fund.

(b)The board may set appropriate requirements as a condition of funding, including, but not limited to, the following:

(1)A system technical, managerial, or financial capacity audit.

(2)Improvements to reduce costs and increase efficiencies.

(3)An evaluation of alternative treatment technologies.

(4)A consolidation or service extension feasibility study.

(5)Requirements for a domestic well with nitrate contamination where ongoing septic system failure may be causing or contributing to contamination of a drinking water source to have conducted an investigation and project to address the septic system failure, if adequate funding sources are identified and accessible.

(c)Actions taken to implement, interpret, or make specific this chapter, including, but not limited to, the adoption or development of any plan, handbook, or map, are not subject to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code).

(Added by Stats. 2019, Ch. 120, Sec. 9. (SB 200) Effective July 24, 2019.)

116771.5.

(a)This chapter does not expand any obligation of the state to provide resources for the provisions of this article or to require the expenditure of additional resources beyond the amount of moneys deposited in the fund.

(b)The Legislature finds and declares that participation in an activity authorized for funding from the fund or a contribution to the fund by a federal, state, or local agency serves a public purpose and does not constitute a gift of public funds within the meaning of Section 6 of Article XVI of the California Constitution.

(Added by Stats. 2019, Ch. 120, Sec. 9. (SB 200) Effective July 24, 2019.)

(Chapter 4.6 added by Stats. 2019, Ch. 120, Sec. 9.)

__ARTICLE 6. Information on High-Risk Areas [116772- 116772.]__

(Article 6 added by Stats. 2019, Ch. 120, Sec. 9.)

116772.

(a)(1)By January 1, 2021, the board, in consultation with local health officers and other relevant stakeholders, shall use available data to make available a map of aquifers that are at high risk of containing contaminants that exceed safe drinking water standards that are used or likely to be used as a source of drinking water for a state small water system or a domestic well. The board shall update the map annually based on new and relevant data.

(2)The board shall make the map of high-risk areas, as well as the data used to make the map, publicly accessible on its internet website in a manner that complies with the Information Practices Act of 1977 (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code). The board shall notify local health officers and county planning agencies of high-risk areas within their jurisdictions.

(b)(1)By January 1, 2021, a local health officer or other relevant local agency shall provide to the board all results of, and data associated with, water quality testing performed by a laboratory that has accreditation or certification pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101 for a state small water system or domestic well that was collected after January 1, 2014, and that is in the possession of the local health officer or other relevant local agency.

(2)By January 1, 2022, and by January 1 of each year thereafter, all results of, and data associated with, water quality testing performed by a laboratory that has accreditation or certification pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101 for a state small water system or domestic well that is submitted to a local health officer or other relevant local agency shall also be submitted directly to the board in electronic format.

(Added by Stats. 2019, Ch. 120, Sec. 9. (SB 200) Effective July 24, 2019.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4.7. Water and Wastewater System Payments Under the American Rescue Plan Act of 2021 [116773 - 116773.8]__

(Chapter 4.7 added by Stats. 2021, Ch. 115, Sec. 61.)

116773.

This chapter shall be known, and may be cited, as the Water and Wastewater System Payments Under the American Rescue Plan Act of 2021.

(Added by Stats. 2021, Ch. 115, Sec. 61. (AB 148) Effective July 22, 2021. Inoperative July 1, 2026, pursuant to Section 116773.8. Repealed as of January 1, 2027, pursuant to Section 116773.8.)

116773.2.

For purposes of this chapter, the following definitions apply:

(a)Community water system has the same meaning as defined in Section 116275.

(b)COVID-19 pandemic bill relief period means the period from March 4, 2020, to December 31, 2022, inclusive, and includes any customer billing period that includes these dates.

(c)Enterprise revenue means revenues of the water or wastewater enterprise of the community water system or wastewater treatment provider.

(d)Past-due bills means customer water bills that are 60 days or more past due and includes both active and inactive accounts, and accounts that have payment plans or payment arrangements.

(e)Proportional basis means based on the percentage of the total statewide need for community water system reimbursement under this chapter, estimated by the state board, and the total assistance available for disbursement.

(f)Small community water system has the same meaning as defined in Section 116275.

(g)State board means the State Water Resources Control Board.

(h)Wastewater treatment provider means any of the following:

(1)A city, county, special district, or joint powers authority that provides wastewater collection, treatment, or disposal service through a publicly owned treatment works.

(2)Any privately owned facility used in the treatment or reclamation of sewage or industrial wastes, and regulated by the Public Utilities Commission pursuant to Sections 216 and 230.6 of, and Chapter 4 (commencing with Section 701) of Part 1 of Division 1 of, the Public Utilities Code.

(Amended by Stats. 2023, Ch. 51, Sec. 14. (SB 122) Effective July 10, 2023. Inoperative July 1, 2026, pursuant to Section 116773.8. Repealed as of January 1, 2027, pursuant to Section 116773.8.)

116773.4.

(a)The California Water and Wastewater Arrearage Payment Program is hereby established in the state board

to implement this chapter.

(b)(1)The state board shall adopt a resolution establishing guidelines for application requirements and reimbursement amounts for those arrearages and enterprise revenue shortfalls.

(2)There shall be an initial 60-day application timeframe in which a community water system or wastewater treatment provider may apply to the state board for reimbursement.

(3)The state board shall use the application total to determine the total amount of residential and commercial arrearages and enterprise revenue shortfalls from community water systems and wastewater treatment providers that have submitted that information.

(4)If there are insufficient funds in the appropriation described in paragraph (1) to reimburse the total amount of reported arrearages and enterprise revenue shortfalls of community water systems and wastewater treatment providers, the state board shall disburse the funds on a proportional basis to each applicant.

(5)An applicant shall calculate or estimate, based on its billing frequency, the total amount of outstanding past-due bills that have accumulated during the COVID-19 pandemic bill relief period. The calculations shall include documentation to support the amount of outstanding customer arrearages or enterprise revenue shortfalls that were incurred during that period, if available. An applicantsauthorized representative, or its designee, shall attest that the application is true and accurate.

(6)(A)The state board shall prioritize the timing of the disbursement of funding to small community water systems or wastewater treatment providers serving small communities.

(B)The state board shall establish guidelines to prioritize residential water or wastewater customers and customers with the largest arrearages.

(7)If a community water system or wastewater treatment provider uses customer classes for purposes of its billing program, the following customer classes are eligible for funding under this chapter and may be included in the application:

(A)Residential customers.

(B)Commercial customers.

(c)An applicant shall, within 60 days of receiving funds under this chapter, allocate payments as follows:

(1)As bill credits to customers to help address past-due bills incurred during the COVID-19 pandemic bill relief period and notify customers of the amounts credited to their accounts.

(2)As offsets to or reimbursements for eligible enterprise revenue shortfalls.

(d)(1)An applicant shall provide customers with arrearages accrued during the COVID-19 pandemic bill relief period a notice that they may enter into a payment plan and that they have 30 days from the date of the notice to enroll in the payment plan. A payment plan and its associated rules offered by a community water system of any size shall conform with Chapter 6 (commencing with Section 116900), notwithstanding limitations in that chapter relating to a community water systemssize. A community water system shall not discontinue water service to a customer that remains current on a payment plan.

(2)A community water system shall not discontinue water service due to nonpayment of past-due bills before either of the following dates, whichever date is later:

(A)December 31, 2021.

(B)For a customer that has been offered an opportunity to participate in a payment plan, the date the customer misses the enrollment deadline for, or defaults on, the payment plan.

(e)A system or provider shall remit any moneys disbursed to the system or provider under this chapter not credited to customers or utilized as eligible enterprise revenue offsets within six months of receipt back to the state board.

(f)Customer information collected under this chapter is subject to Section 7927.410 of the Government Code.

(g)A community water system or wastewater treatment provider receiving assistance under this chapter may expend up to 3 percent, or up to one million dollars ($1,000,000), whichever amount is less, of that assistance for costs incurred in applying for the assistance or complying with use and reporting conditions of the assistance.

(Amended by Stats. 2023, Ch. 51, Sec. 15. (SB 122) Effective July 10, 2023. Inoperative July 1, 2026, pursuant to Section 116773.8. Repealed as of January 1, 2027, pursuant to Section 116773.8.)

116773.5.

(a)Notwithstanding any other law, any assistance or relief authorized by, and provided by a community water system or a wastewater treatment provider to an individual pursuant to, this chapter shall be treated in the same manner as the federal earned income refund for the purpose of determining the individualseligibility to receive benefits under Division 9 (commencing with Section 10000) of the Welfare and Institutions Code, excluding benefits under Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code, or amounts of those benefits.

(b)Notwithstanding any other law, any assistance or relief authorized by, and provided by a community water system or a wastewater treatment provider to an individual pursuant to, this chapter shall not be taken into account as income, and shall not be taken into account as resources for a period of 12 months from receipt, for purposes of determining the eligibility of that individual, or any other individual, for benefits or assistance or the amount or extent of benefits or assistance under any state or local program not covered in subdivision (a). With respect to a state or local program, this subdivision shall only be implemented to the extent that it does not conflict with federal law relating to that program, and that any required federal approval or waiver is first obtained for that program.

(Added by Stats. 2022, Ch. 3, Sec. 3. (SB 113) Effective February 9, 2022. Inoperative July 1, 2026, pursuant to Section 116773.8. Repealed as of January 1, 2027, pursuant to Section 116773.8.)

116773.6.

(a)Actions by the state board to implement this chapter, including the adoption or development of any plan, handbook, guidelines, reporting and audit requirements, or forms, are exempt from Chapter 3.5

(commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(b)Actions by the state board to implement this chapter, including entering into contracts for services or equipment, are exempt from Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code. The state board may award a contract under this chapter on a noncompetitive bid basis as necessary to implement the purposes of this chapter.

(c)The state board shall coordinate with the Department of Community Services and Development in allocating funding under this chapter to community water systems that are publicly owned utilities providing electric and water services.

(d)The state board may use its authority granted pursuant to Chapter 4 (commencing with Section 116270) to implement the requirements of this chapter. For purposes of Article 7 (commencing with Section 116525), Article 8 (commencing with Section 116625), and Article 9 (commencing with Section 116650) of Chapter 4, a violation of any requirement imposed in connection with funding under this chapter or the associated program is a violation of Chapter 4.

(e)This chapter satisfies the requirement for subsequent legislation in Provision 2 of Item 3940-062-8506, Provision 3 of Item 3940-162-8506 of Section 2.00 of the Budget Act of 2021, and implementation of Item 3940-162-8506 of Section 2.00 of the Budget Act of 2023.

(Amended by Stats. 2023, Ch. 51, Sec. 16. (SB 122) Effective July 10, 2023. Inoperative July 1, 2026, pursuant to Section 116773.8. Repealed as of January 1, 2027, pursuant to Section 116773.8.)

116773.8.

(a)This chapter shall become inoperative on July 1, 2026, and, as of January 1, 2027, is repealed.

(b)Notwithstanding the repeal of this chapter, any claim or cause of action based thereon that was commenced before January 1, 2027, whether or not reduced to a final judgment, or other action of an implementing agency undertaken pursuant to this chapter shall be preserved, and any remedy that was or could have been ordered to redress a violation of this chapter as it read on June 30, 2026, may be ordered or maintained thereafter.

(Amended by Stats. 2023, Ch. 51, Sec. 17. (SB 122) Effective July 10, 2023. Repealed as of January 1, 2027, by its own provisions. Note: Repeal affects Chapter 4.7, commencing with Section 116773.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Water Equipment and Control [116775 - 116890]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Water Softeners [116775 - 116795]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

116775.

The Legislature hereby finds and declares that the utilization of the waters of the state by residential consumers for general domestic purposes, including drinking, cleaning, washing, and personal grooming and sanitation of the people is a right that should be interfered with only when necessary for specified health and safety purposes or to protect the quality of the waters of the state. The Legislature further finds that variation in water quality, and particularly in water hardness, throughout the state often requires that onsite water softening or conditioning be available to domestic consumers to ensure their right to a water supply that is effective and functional for domestic requirements of the residential household, but that residential water softening or conditioning appliances shall be available only as authorized in this article.

(Amended by Stats. 1999, Ch. 969, Sec. 1. Effective January 1, 2000.)

116780.

(a) Unless the context otherwise requires the definitions in this section govern the construction of this article.

(b) Clock control means the system controlling the periodic automatic regeneration of a residential water softening or conditioning appliance that is based upon a predetermined and preset time schedule.

(c) Demand control means the system controlling the periodic automatic regeneration of a residential water softening or conditioning appliance that is based either upon a sensor that detects imminent exhaustion of the active softening or conditioning material or upon the measurement of the volume of water passing through the appliance. A demand control system activates regeneration based upon the state of the equipment and its ability to continue the softening process.

(d) Fully manual regeneration means the method of regeneration of a residential water softening or conditioning appliance in which operations are performed manually and in which dry salt is added directly to the ion-exchanger tank after sufficient water is removed to make room for the salt.

(e) Hardness means the total of all dissolved calcium, magnesium, iron and other heavy metal salts, that interact with soaps and detergents in a manner that the efficiency of soaps and detergents for cleansing purposes is impaired. Hardness is expressed in grains per gallon or milligrams per liter as if all such salts were present as calcium carbonate.

(f) Local agency means a city, county, city and county, district, or any other political subdivision of the state.

(g) Manually initiated control means the system controlling the periodic regeneration of a residential water softening or conditioning appliance in which all operations, including bypass of hard water and return to service, are performed automatically after manual initiation.

(h) Regeneration means the phase of operation of a water softening or conditioning appliance whereby the capability of the appliance to remove hardness from water is renewed by the application of a brine solution of sodium or potassium chloride salt to the active softening or conditioning material contained therein followed by a subsequent rinsing of the active softening or conditioning material.

(i) Salt efficiency rating means the efficiency of the use of sodium chloride salt in the regeneration of a water softening appliance, expressed in terms of hardness removal capacity of the appliance per pound of salt used in the regeneration process. The units of salt efficiency rating are grains of hardness removed per pound of salt used. One grain of hardness per gallon is approximately equivalent to 17.1 milligrams of hardness per liter.

(Amended by Stats. 1999, Ch. 969, Sec. 2. Effective January 1, 2000.)

116785.

Except as provided in Section 116786, a residential water softening or conditioning appliance may be installed only if either of the following apply:

(a) The regeneration of the appliance is performed at a nonresidential facility separate from the location of the residence where the appliance is used.

(b) The regeneration of the appliance discharges to the community sewer system and all of the following conditions are satisfied:

(1) The appliance activates regeneration by demand control.

(2) An appliance installed on or after January 1, 2000, shall be certified by a third party rating organization using industry standards to have a salt efficiency rating of no less than 3,350 grains of hardness removed per pound of salt used in regeneration. An appliance installed on or after January 1, 2002, shall be certified by a third party rating organization using industry standards to have a salt efficiency rating of no less than 4,000 grains of hardness removed per pound of salt used in regeneration.

(3) The installation of the appliance is accompanied by the simultaneous installation of the following softened or conditioned water conservation devices on all fixtures using softened or conditioned water, unless the devices are already in place or are prohibited by local and state plumbing and building standards or unless the devices will adversely restrict the normal operation of the fixtures:

(A) Faucet flow restrictors.

(B) Shower head restrictors.

(C) Toilet reservoir dams.

(D) A piping system installed so that untreated (unsoftened or unconditioned) supply water is carried to hose bibs and sill cocks that serve water to the outside of the house, except that bypass valves may be installed on homes with slab foundations constructed prior to the date of installation; or condominiums constructed prior to the date of installation; or otherwise where a piping system is physically inhibited.

(Amended by Stats. 1999, Ch. 969, Sec. 3. Effective January 1, 2000.)

116786.

(a) Notwithstanding subdivision (b) of Section 116785, a local agency may, by ordinance, limit the availability, or prohibit the installation, of residential water softening or conditioning appliances that discharge to the community sewer system if the local agency makes all of the following findings and includes them in the ordinance:

(1) Limiting the availability, or prohibiting the installation, of the appliances is a necessary means of achieving compliance with waste discharge requirements issued by a California regional water quality control board. In determining a necessary means of achieving compliance, the local agency shall assess both of the following:

(A) The technological and economic feasibility of alternatives to the ordinance.

(B) The potential saline discharge reduction of the ordinance.

(2) The local agency has adopted and is enforcing regulatory requirements that limit the volumes and concentrations of saline discharges from nonresidential sources in the community waste disposal system to the extent technologically and economically feasible.

(b) Notwithstanding subdivision (b) of Section 116785, a local agency may, by ordinance, limit the availability, or prohibit the installation, of residential water softening or conditioning appliances that discharge to the community sewer system if the local agency makes all of the following findings and includes them in the ordinance:

(1) Limiting the availability, or prohibiting the installation, of the appliances is a necessary means of achieving compliance with the water reclamation requirements or the master reclamation permit issued by a California regional water quality control board. In determining a necessary means of achieving compliance, the local agency shall assess both of the following:

(A) The technological and economic feasibility of alternatives to the ordinance.

(B) The potential saline discharge reduction of the ordinance.

(2) The local agency has adopted, and is enforcing, regulatory requirements that limit the volumes and concentrations of saline discharges from nonresidential sources to the community waste disposal system to the extent technologically and economically feasible.

(c) Local agency findings shall be substantiated by an independent study of discharges from all sources of salinity, including, but not limited to, residential water softening or conditioning appliances, residential consumptive use, industrial and commercial discharges, and seawater or brackish water infiltration and inflow into the sewer collection system. The study shall quantify, to the greatest extent feasible, the total discharge from each source of salinity and identify remedial actions taken to reduce the discharge of salinity into the community sewer system from each source, to the extent technologically and economically feasible, to bring the local agency into compliance with waste discharge requirements, water reclamation requirements, or a master reclamation permit, prior to limiting or prohibiting the use of residential water softening or conditioning appliances.

(d) Any ordinance adopted pursuant to this section shall be prospective in nature and may not require the removal of residential water softening or conditioning appliances that are installed before the effective date of the ordinance.

(e) To comply with this section, any local agency described in subdivision (f) of Section 116780 is authorized to adopt an ordinance.

(f) This section shall become operative on January 1, 2003.

(Amended by Stats. 2003, Ch. 172, Sec. 1. Effective January 1, 2004.)

116787.

(a)Notwithstanding subdivision (d) of Section 116786, the Santa Clarita Valley Sanitation District, or any successor district, may, by ordinance adopted subsequent to an ordinance adopted pursuant to Section 116786, require the removal of all installed residential self-regenerating water softeners, if the district makes all of the following findings and includes those findings in the ordinance:

(1)The removal of residential self-regenerating water softeners is a necessary and cost-effective means of achieving timely compliance with waste discharge requirements, water reclamation requirements, or a Total Maximum Daily Load (TMDL) issued by a California regional water quality control board. In determining what

constitutes a necessary and cost-effective means of achieving compliance, the district shall assess all of the following:

(A)Alternatives to the ordinance.

(B)The cost-effectiveness and timeliness of the alternatives as compared to the adoption of the ordinance.

(C)The reduction in chloride levels to date resulting from the voluntary program implemented pursuant to paragraph (1) of subdivision (c).

(D)The potential reduction in chloride levels expected as a result of the program implemented pursuant to paragraph (2) of subdivision (c).

(2)The district has adopted and is enforcing regulatory requirements that limit the volume and concentrations of saline discharges from nonresidential sources to the community sewer system, to the extent that is technologically and economically feasible.

(3)Based on available information, sufficient wastewater treatment capacity exists in Los Angeles County to make portable exchange water softening services available to residents affected by this ordinance.

(4)Based on available information, the adoption and implementation of the ordinance will avoid or significantly reduce the costs associated with advanced treatment for salt removal and brine disposal that otherwise would be necessary to meet the Total Maximum Daily Load (TMDL) for chloride, established by the Regional Water Quality Control Board, Los Angeles Region, for Reaches 5 and 6 of the Santa Clara River, in Los Angeles County that took effect May 4, 2005.

(b)(1)An ordinance adopted pursuant to subdivision (a) shall not be effective until it is approved by a majority vote of the qualified votes cast in a regularly scheduled election, following the adoption of the ordinance, held in the districtsservice area, in a referendum in accordance with applicable provisions of the Elections Code.

(2)Information regarding the projected cost differences between advanced treatment for salt removal and brine disposal without the removal of installed residential self-regenerating water softeners, alternatives identified in paragraph (1) of subdivision (a), and the removal of installed residential self-regenerating water softeners shall be included in voter information material.

(c)(1)Prior to the effective date of any ordinance adopted pursuant to subdivision (a), the district shall make available to owners of residential self-regenerating water softeners within its service area a voluntary program to compensate the owner of the appliance for 100 percent of the reasonable value of the removed appliance, and the reasonable cost of the removal and disposal of the appliance, both of which shall be determined by the district, with consideration given to information provided by manufacturers of residential self-regenerating water softeners and providers of water softening or conditioning appliances and services in the districtsservice area regarding purchase price, useful life, and the cost of installation, removal, and disposal.

(2)On and after the effective date of any ordinance adopted pursuant to subdivision (a), the district shall make available to owners of residential self-regenerating water softeners within its service area a program to compensate the owner of the appliance for 75 percent of the reasonable value of the removed appliance, and the reasonable cost of the removal and disposal of the appliance, both of which shall be determined by the district, with consideration given to information provided by manufacturers of residential self-regenerating water softeners and providers of water softening or conditioning appliances and services in the

districtsservice area regarding purchase price, useful life, and the cost of installation, removal, and disposal.

(3)Compensation pursuant to paragraphs (1) and (2) shall only be made available if the owner disposes of the residential self-regenerating water softener and provides written confirmation of the disposal, which may include, but is not limited to, verification in writing provided by the franchise refuse hauler that provides the service of removing the appliance or verification in writing of the appliancesdestruction by the party responsible for its recycling or final disposal.

(4)If the owner of a residential self-regenerating water softener is in the business of renting or leasing residential self-regenerating water softeners, the owner may voluntarily waive compensation pursuant to paragraphs (1) and (2), and shall not be required to dispose of the appliance if the owner provides the district with written confirmation that the appliance has been removed from the home within the districtsservice area for use in a location outside the districtsservice area.

(5)The terms of compensation included in paragraphs (1) and (2) shall be included in an ordinance adopted pursuant to subdivision (a).

(6)(A)Upon the request of the district, the providers of water softening or conditioning services and appliances to residents of the districtsservice area shall provide the district, within 60 days, copies of purchase agreements or receipts, or any other specific records of sales of residential self-generating water softeners in the districtsservice area.

(B)The information in this paragraph shall remain protected and confidential in accordance with applicable provisions of the Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code).

(d)Any ordinance adopted pursuant to subdivision (a) and approved in accordance with subdivision (b) shall not take effect until January 1, 2009.

(e)For purposes of this section, residential self-regenerating water softeners and appliances mean residential water softening or conditioning appliances that discharge brine into the community sewer system.

(Amended by Stats. 2021, Ch. 615, Sec. 281. (AB 474) Effective January 1, 2022. Operative January 1, 2023, pursuant to Sec. 463 of Stats. 2021, Ch. 615.)

116790.

Any water softening appliance in place at a residential dwelling prior to January 1, 1980, in those areas being served by sewage treatment facilities that have been limited with regard to salt loading pursuant to Division 7 (commencing with Section 13000) of the Water Code and for which the appropriate regional water quality control board makes a finding, after adoption of waste discharge requirements and subject to a public hearing, that the control of residential salinity input is necessary to provide compliance with those limitations, may be continued in operation for a period no longer than four years after the regional water quality control board has made its findings. After the four-year period has elapsed, any water softening appliance at that site shall be set at a salt efficiency rating of no less than 2850 grains of hardness removed per pound of salt used in regeneration when regeneration is initiated with clock controls or manually-initiated controls, or shall have regenerations initiated with demand devices. Also, after the four-year period has elapsed, those water-saving devices in shower heads, on faucets, and in toilet reservoirs, as recited in paragraph (2) of subdivision (b) of Section 116785, shall be installed unless already in place or prohibited by

local and state plumbing and building standards. The salt efficiency rating of the water softening or conditioning appliance and the installation of water-saving devices shall be certified in accordance with Section 116795.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116795.

The certification required by this article shall be provided by the new user of the appliance and shall be completed by a contractor having a valid Class C-55 water conditioning contractorslicense or Class C-36 plumbing contractorslicense and filed with the local agency responsible for issuing plumbing permits.

The certification form shall contain all of the following information:

(a) Name and address of homeowner.

(b) Manufacturer of the water softening or conditioning appliance, model number of the appliance, pounds of salt used per regeneration, and salt efficiency rating at the time of certification.

(c) Manufacturer of the water-saving devices installed, model number, and number installed.

(d) Name, address, and the specialty contractorslicense number of the C-55 and C-36 licensee making the certification.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Water Equipment and Control [116775 - 116890]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Cross-Connection Control by Water Users [116800 - 116820]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

116800.

Local health officers may maintain programs for the control of cross-connections by water users, within the users™ premises, where public exposure to drinking water contaminated by backflow may occur. The programs may include inspections within water users premises for the purpose of identifying cross-connection hazards and determining appropriate backflow protection. Water users shall comply with all orders, instructions, regulations, and notices from the local health officer with respect to the installation, testing, and maintenance of backflow prevention devices. The local health officer may collect fees from those water users subject to inspection to offset the costs of implementing cross-connection control programs.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116805.

(a) Local health officers may maintain programs, in cooperation with water suppliers, to protect against backflow through service connections into the public water supply, and, with the consent of the water supplier, may collect fees from the water supplier to offset the costs of implementing these programs.

(b) The fees authorized under this section and under Section 116800 shall be limited to the costs of administering these programs. At the discretion of the water supplier, the fees collected from the water supplier by the local health officer may be passed through to water users.

(c) Programs authorized under this section and Section 116800 shall be conducted in accordance with backflow protection regulations adopted by the department.

(d) Nothing in this article shall prevent a water supplier from directly charging those water users required to install backflow prevention devices for the costs of the programs authorized in this section and Section 116800.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116810.

To ensure that testing and maintenance of backflow prevention devices are performed by persons qualified to do testing and maintenance, local health officers may maintain programs for certification of backflow prevention device testers. The local health officer may suspend, revoke, or refuse to renew the certificate of a tester, if, after a hearing before the local health officer or his or her designee, the local health officer or his or her designee finds that the tester has practiced fraud or deception or has displayed gross negligence or misconduct in the performance of his or her duties as a certified backflow prevention device tester. The local health officer may collect fees from certified testers to offset the cost of the certification program provided pursuant to this section. The certification standards shall be consistent with standards adopted by the state board pursuant to Section 116407 and any other applicable backflow protection regulations.

(Amended by Stats. 2017, Ch. 533, Sec. 3. (AB 1671) Effective January 1, 2018.)

116815.

(a) All pipes installed above or below the ground, on and after June 1, 1993, that are designed to carry recycled water, shall be colored purple or distinctively wrapped with purple tape.

(b) Subdivision (a) shall apply only in areas served by a water supplier delivering water for municipal and industrial purposes, and in no event shall apply to any of the following:

(1) Municipal or industrial facilities that have established a labeling or marking system for recycled water on their premises, as otherwise required by a local agency, that clearly distinguishes recycled water from potable water.

(2) Water delivered for agricultural use.

(c) For purposes of this section, recycled water has the same meaning as defined in subdivision (n) of Section 13050 of the Water Code.

(Added by renumbering Section 4049.54 (as amended by Stats. 1995, Ch. 28) by Stats. 1996, Ch. 1023, Sec. 188. Effective September 29, 1996.)

116820.

Any person who violates any provision of this article, violates any order of the local health officer pursuant to this article, or knowingly files a false statement or report required by the local health officer pursuant to this article is guilty of a misdemeanor punishable by a fine not exceeding five hundred dollars ($500) or by imprisonment not exceeding 30 days in the county jail or by both such fine and imprisonment. Each day of a violation of any provision of this article or of any order of the local health officer beyond the time stated for compliance of the order shall be a separate offense.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__ARTICLE 3. Water Treatment Devices [116825 - 116865]__

(Article 3 added by Stats. 1995, Ch. 415, Sec. 6.)

116825.

Unless the context otherwise requires, the following definitions shall govern construction of this article:

(a)Water treatment device means any point of use or point of entry instrument or contrivance sold or offered for rental or lease for residential use, and designed to be added to the plumbing system, or used without being connected to the plumbing of a water supply intended for human consumption in order to improve the water supply by any means, including, but not limited to, filtration, distillation, adsorption, ion exchange, reverse osmosis, or other treatment. Water treatment device does not include any device that is regulated pursuant to Article 12 (commencing with Section 111070) of Chapter 5 of Part 5.

(b)Department means the State Department of Public Health.

(c)Person means any individual, firm, corporation, or association, or any employee or agent thereof.

(d)Contaminants means any health-related physical, chemical, biological, or radiological substance or matter in water.

(e)Health or safety claim means any claim that the water treatment device will remove or reduce a contaminant for which either of the following applies:

(1)A primary drinking water standard as defined in Section 116275, or a treatment requirement as authorized in subdivision (j) of Section 116365 and subdivision (d) of Section 116375, has been established.

(2)A national primary drinking water standard or treatment requirement has been established under the federal Safe Drinking Water Act (42 U.S.C. Sec. 300g-1).

(f)Manufacturer means any of the following:

(1)A person that makes, converts, constructs, or produces water treatment devices for the purposes of sale, lease, or rental to individuals, corporations, associations, or other entities.

(2)A person that assembles water treatment devices or treatment components from components manufactured by another entity.

(3)A person that adds its own product name or product identification to water treatment devices or treatment components that have been manufactured or assembled by another entity.

(Amended by Stats. 2013, Ch. 403, Sec. 2. (AB 119) Effective January 1, 2014.)

116831.

All regulations adopted pursuant to this article prior to January 1, 2014, are repealed.

(Added by Stats. 2013, Ch. 403, Sec. 4. (AB 119) Effective January 1, 2014.)

116832.

(a)Commencing January 1, 2014, each manufacturer that offers for sale in California a water treatment device for which it makes a health or safety claim shall, for each water treatment device for which the manufacturer does not have a valid, unexpired certificate issued by the department prior to December 1, 2013, annually submit to the department the following information, together with the fee prescribed in Section 116850, for purposes of the department publishing the information on its Internet Web site:

(1)The name, address, telephone number, and Internet Web site address, if any, of the manufacturer.

(2)The name, address, and telephone number of a contact person for the manufacturer.

(3)The name and model number of the water treatment device, and any other product identification, used by the manufacturer to describe the water treatment device or treatment component.

(4)Each specific contaminant claimed to be removed or reduced by the device.

(5)For each specific contaminant identified pursuant to paragraph (4), the name of the organization that meets the accreditation standards of the American National Standards Institute and that has certified the

device to verify its removal or reduction performance for that contaminant, the name of the testing protocol or standard used to test the device, a statement from the testing laboratory giving the date of the test, a summary of the results, and the date, if any, by which the device must be retested for verification of the removal or reduction performance to remain effective.

(6)A product information worksheet that includes the following information:

(A)A summary of the information required to be submitted to the department pursuant to paragraphs (1) to (5), inclusive.

(B)A copy of the certificate issued by the organization that certified the device, as described in paragraph (5).

(C)The service flow rate in gallons per minute or gallons per day or the production rate in gallons per day.

(D)The rated service life of the water treatment device, if applicable.

(E)The general use conditions and needs of the device, including, but not limited to, its maximum turbidity and the bacteriological quality of source water.

(F)The model or part number of components that must be periodically or routinely replaced to maintain the effectiveness of the device.

(G)The maximum and minimum operating temperature of the device in degrees Fahrenheit and degrees Centigrade.

(H)The maximum and minimum operating pressure of the device in pounds per square inch and kilograms per square centimeter.

(I)A reference to the devicesowners™ manual for general operation and maintenance requirements and the manufacturerswarranty.

(b)(1)Information submitted to the department pursuant to subdivision (a) that is accompanied by the fee required by Section 116850 and postmarked, or sent electronically, after September 1, but on or before March 1, shall be published by the department pursuant to Section 116845 no later than April 1 next following the submission.

(2)Information submitted to the department pursuant to subdivision (a) that is accompanied by the fee required by Section 116850 and postmarked, or sent electronically, after March 1, but on or before September 1, shall be published by the department pursuant to Section 116845 no later than October 1 of that same year.

(Added by Stats. 2013, Ch. 403, Sec. 5. (AB 119) Effective January 1, 2014.)

116835.

(a)A water treatment device for which a health or safety claim is made shall not be sold or otherwise distributed unless the device is included on the list of water treatment devices published on the state boardsInternet Web site pursuant to Section 116845.

(b)After July 1, 2015, the exterior packaging of a water treatment device for which a health or safety claim is made, and that is offered for sale in a retail establishment in California, shall clearly identify the contaminant or contaminants that the device has been certified pursuant to subdivision (a) to remove or reduce. If a device has been certified to remove or reduce more than five contaminants, at least five contaminants shall be listed on the exterior packaging followed by a statement directing consumers to visit the manufacturersInternet Web site to obtain information regarding additional contaminants that the device is certified to remove or reduce.

(c)After July 1, 2015, the manufacturer of a water treatment device for which it makes a health or safety claim shall include with each water treatment device offered for sale in California a decal that may be affixed to the device by the consumer that states, at a minimum, the following:

Please refer to the ownersmanual for proper maintenance and operation. If this device is not maintained and operated as specified in the ownersmanual, there is a risk of exposure to contaminants. For more information, visit the manufacturersInternet Web site at ManufacturersInternet Web site or the State Water Resources Control BoardsInternet Web site at www.swrcb.ca.gov.

(Amended by Stats. 2014, Ch. 828, Sec. 2. (AB 2738) Effective January 1, 2015.)

116836.

(a)Notwithstanding any other law, a certificate issued by the department shall not be valid unless the application for certification was filed on or before November 1, 2013.

(b)A currently valid certificate issued by the department on or before December 31, 2013, pursuant to this article, shall remain valid for five years following the date of initial issuance, provided that the manufacturer pays the annual fee established by Section 116850.

(Added by Stats. 2013, Ch. 403, Sec. 8. (AB 119) Effective January 1, 2014.)

116840.

(a)The department, or any local health officer with the concurrence of the department, shall enforce this article.

(b)The department may remove a water treatment device from, or determine not to include a water treatment device on, the list of water treatment devices on the departmentsInternet Web site upon its determination of any of the following:

(1)That the manufacturer, or any employee or agent thereof, has violated this article or Chapter 1 (commencing with Section 17500) of Part 3 of Division 7 of the Business and Professions Code.

(2)That any of the information submitted pursuant to Section 116832 is not true.

(3)That a certificate issued by the department prior to December 31, 2013, has expired, unless the manufacturer otherwise complies with Section 116832.

(4)That the manufacturer has not paid the annual fees required by Section 116850.

(5)That the manufacturer has failed to submit all of the information required by subdivision (a) of Section 116832.

(c)Any person, corporation, firm, partnership, joint stock company, or any other association or organization that violates any provision of this article shall be liable for a civil penalty not to exceed five thousand dollars ($5,000) for each violation. Where the conduct constituting a violation is of a continuing nature, each day of the conduct is a separate and distinct violation. The civil penalty shall be assessed and recovered in a civil action brought in the name of the people of the State of California by the Attorney General, or by any district attorney, county counsel, or city attorney in any court of competent jurisdiction.

(d)If the action is brought by the Attorney General, one-half of the penalty collected shall be paid to the treasurer of the county in which the judgment was entered, and one-half to the State Treasurer. If brought by a district attorney or county counsel, the entire amount of penalties collected shall be paid to the treasurer of the county in which the judgment was entered. If brought by a city attorney or city prosecutor, one-half of the penalty shall be paid to the treasurer of the county and one-half to the city.

(e)Unless otherwise provided, the remedies or penalties provided by this article are cumulative to each other and to remedies or penalties available under all other laws of this state.

(Amended by Stats. 2013, Ch. 403, Sec. 9. (AB 119) Effective January 1, 2014.)

116845.

The department shall publish semiannually on its Internet Web site the following:

(a)(1)A list of water treatment devices for which a valid certification was issued by the department on or before December 31, 2013, except for those water treatment devices that the department has removed from, or determined not to include on, the list of water treatment devices on its Internet Web site.

(2)A list of water treatment devices for which a manufacturer has submitted information pursuant to Section 116832, except for those water treatment devices that the department has determined to remove from, or not include on, the list pursuant to Section 116840.

(3)A product worksheet for each water treatment device listed on the departmentsInternet Web site.

(b)Consumer information, in English and Spanish, regarding the appropriate use of water treatment devices.

(Repealed and added by Stats. 2013, Ch. 403, Sec. 11. (AB 119) Effective January 1, 2014.)

116850.

(a)The department shall charge and collect the applicable annual fee, as established pursuant to subdivision (b), from each manufacturer that submits information as required by Section 116832 and from each manufacturer that has a currently valid certificate issued by the department. The fees established pursuant to subdivision (b) shall not exceed the amount necessary to recoup the reasonable regulatory costs incurred by

the department in publishing and maintaining the information on its Internet Web site as provided in Section 116845 and in conducting enforcement actions, including, but not limited to, referring matters for enforcement to other agencies pursuant to Section 116840.

(b)(1)For each water treatment device for which the manufacturer has submitted the information required by subdivision (a) of Section 116832, the annual fee shall be up to five hundred dollars ($500).

(2)For each water treatment device that has a valid, unexpired certificate issued by the department prior to December 31, 2013, the annual fee shall be up to five hundred dollars ($500).

(c)The department may establish and periodically adjust the fee authorized by subdivision (a) by publishing the fee on its Internet Web site. This action by the department shall not be subject to the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code).

(Repealed and added by Stats. 2013, Ch. 403, Sec. 13. (AB 119) Effective January 1, 2014.)

116855.

This article shall not apply to residential self-regenerating water softeners, as defined in Section 13148 of the Water Code.

(Repealed and added by Stats. 2013, Ch. 403, Sec. 15. (AB 119) Effective January 1, 2014.)

116860.

There is in the State Treasury the Water Device Certification Special Account. Fees collected pursuant to Section 116850 shall be deposited in the account created by this section. The money in the account is available for expenditure by the department, upon appropriation by the Legislature, solely for the purposes specified in this article.

(Amended by Stats. 2013, Ch. 403, Sec. 16. (AB 119) Effective January 1, 2014.)

116865.

The Director of Finance may authorize the department to borrow up to two hundred thousand dollars ($200,000) for the purpose of implementing this article from any fund or account deemed appropriate by the Director of Finance. The department shall repay the loan with interest to be determined in accordance with Section 16314 of the Government Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 5. Water Equipment and Control [116775 - 116890]__

(Chapter 5 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Lead Materials [116875 - 116890]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

116875.

(a)No person shall use any pipe, pipe or plumbing fitting or fixture, solder, or flux that is not lead free in the installation or repair of any public water system or any plumbing in a facility providing water for human consumption, except when necessary for the repair of leaded joints of cast iron pipes.

(b)(1)No person shall introduce into commerce any pipe, pipe or plumbing fitting, or fixture intended to convey or dispense water for human consumption through drinking or cooking that is not lead free, as defined in subdivision (e). This includes kitchen faucets, bathroom faucets, and any other end-use devices intended to convey or dispense water for human consumption through drinking or cooking, but excludes service saddles, backflow preventers for nonpotable services such as irrigation and industrial, and water distribution main gate valves that are two inches in diameter and above.

(2)Pipes, pipe or plumbing fittings, or fixtures that are used in manufacturing, industrial processing, for irrigation purposes, and any other uses where the water is not intended for human consumption through drinking or cooking are not subject to the requirements of paragraph (1).

(3)For all purposes other than manufacturing, industrial processing, or to convey or dispense water for human consumption, lead free is defined in subdivision (f).

(c)No person engaged in the business of selling plumbing supplies, except manufacturers, shall sell solder or flux that is not lead free.

(d)No person shall introduce into commerce any solder or flux that is not lead free unless the solder or flux bears a prominent label stating that it is illegal to use the solder or flux in the installation or repair of any plumbing providing water for human consumption.

(e)For the purposes of this section, lead free means not more than 0.2 percent lead when used with respect to solder and flux and not more than a weighted average of 0.25 percent when used with respect to the wetted surfaces of pipes and pipe fittings, plumbing fittings, and fixtures. The weighted average lead content of a pipe and pipe fitting, plumbing fitting, and fixture shall be calculated by using the following formula: The percentage of lead content within each component that comes into contact with water shall be multiplied by the percent of the total wetted surface of the entire pipe and pipe fitting, plumbing fitting, or fixture represented in each component containing lead. These percentages shall be added and the sum shall constitute the weighted average lead content of the pipe and pipe fitting, plumbing fitting, or fixture.

(f)For the purposes of paragraph (3) of subdivision (b), lead free, consistent with the requirements of federal law, means not more than 0.2 percent lead when used with respect to solder and flux and not more than 8 percent when used with respect to pipes and pipe fittings. With respect to plumbing fittings and fixtures, lead free means not more than 4 percent by dry weight after August 6, 2002, unless the department has adopted a standard, based on health effects, for the leaching of lead.

(g)(1)All pipe, pipe or plumbing fittings or fixtures, solder, or flux shall be certified by an independent American National Standards Institute (ANSI) accredited third party, including, but not limited to, NSF International, as being in compliance with this section.

(2)(A)The certification described in paragraph (1) shall, at a minimum, include testing of materials in accordance with the protocols used by the Department of Toxic Substances Control in implementing Article 10.1.2 (commencing with Section 25214.4.3) of Chapter 6.5 of Division 20.

(B)The certification required pursuant to this subdivision shall not interfere with either the departmentsexercise of its independent authority to protect public health pursuant to this section, or the Department of Toxic Substances Controlsexercise of its independent authority to implement Article 10.1.2 (commencing with Section 25214.4.3) of Chapter 6.5 of Division 20.

(3)It is the intent of the Legislature that this subdivision only provide guidance and assistance to the entities that use an independent ANSI accredited third party to demonstrate compliance with this section. Any tests developed by an independent ANSI accredited third party in accordance with this subdivision shall have no weight of authority under California statute.

(4)Notwithstanding paragraph (1), the department shall retain its independent authority in administering this article.

(h)This section shall become operative on January 1, 2010. The requirement described in subdivision (g) shall not be construed in any manner as to justify a delay in compliance with the lead-free standard set forth in subdivision (e).

_(Amended (as added by Stats. 2006, Ch. 853, Sec. 2) by Stats. 2008, Ch. 580, Sec. 2. Effective January 1, 2009.

Section operative January 1, 2010, by its own provisions.)_

116876.

(a)Commencing January 1, 2023, a person shall not manufacture, and offer for sale in the state, an endpoint device intended to convey or dispense water for human consumption that leaches more than one microgram of lead for test statistic Q or R, when normalized for a first draw sample up to or equal to one liter in volume, as calculated in accordance with the 2020 NSF International Standard 61, which became effective in the year 2020, and certified by an American National Standards Institute-accredited third party.

(b)Commencing July 1, 2023, a person shall not introduce into commerce or offer for sale in the state an endpoint device intended to convey or dispense water for human consumption that leaches more than one microgram of lead for test statistic Q or R, when normalized for a first draw sample up to or equal to one liter in volume, as calculated in accordance with the 2020 NSF International Standard 61, which became effective in the year 2020, and certified by an American National Standards Institute-accredited third party.

(c)The consumer-facing product packaging or product labeling of an endpoint device intended to convey or dispense water for human consumption that meets the lead free standard specified in subdivision (e) of Section 116875 and does not leach more than one microgram of lead for test statistic Q or R, when normalized for a first draw sample up to or equal to one liter in volume, as calculated in accordance with the 2020 NSF International Standard 61, which became effective in the year 2020, and certified by an American National Standards Institute-accredited third party, shall indicate that compliance by including the lettering NSF/ANSI/CAN 61: Q â‰¤ 1 in an easily identifiable manner.

(d)(1)For purposes of this section, endpoint device means a single device, such as a plumbing fitting, fixture, or faucet, that is typically installed within the last one liter of the water distribution system of a building. An endpoint device includes all of the following:

(A)Remote chillers.

(B)Lavatory faucets.

(C)Bar faucets.

(D)Kitchen faucets.

(E)Hot and cold water dispensers.

(F)Drinking fountains.

(G)Drinking fountain bubblers.

(H)Water coolers.

(I)Glass fillers.

(J)Residential refrigerator ice makers.

(2)An endpoint device does not include either of the following:

(A)Devices specifically exempted from section nine, Mechanical Plumbing Devices, of the 2020 NSF International Standard 61, which became effective in the year 2020.

(B)Devices the 2020 NSF International Standard 61, which became effective in the year 2020, subjects to a different lead leaching standard or normalization requirement than that specified in subdivision (a).

(Added by Stats. 2021, Ch. 692, Sec. 1. (AB 100) Effective January 1, 2022.)

116880.

The department shall adopt building standards to implement Section 116875. The standards shall be adopted in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code and shall be published in the State Building Standards Code located in Title 24 of the California Code of Regulations. The standards shall be enforced by the appropriate state and local building and health officials.

(Amended by Stats. 1997, Ch. 734, Sec. 18. Effective October 7, 1997.)

116885.

(a)By July 1, 2018, a community water system shall compile an inventory of known lead user service lines in use in its distribution system and identify areas that may have lead user service lines in use in its distribution system.

(b)(1)By July 1, 2020, a community water system that has identified known lead user service lines in use in its distribution system as provided in subdivision (a) shall provide a timeline for replacement of known lead user service lines in use in its distribution system to the state board.

(2)By July 1, 2020, a community water system that has identified areas that may have lead user service lines in use in its distribution system as provided for in subdivision (a) shall do both of the following:

(A)Provide to the state board its determination as to whether there are any lead user service lines in use in those areas of its distribution system and provide a timeline to the state board for replacement of those lead user service lines that the community water system has identified.

(B)Provide its findings as to whether there are any areas for which it cannot determine the content of the user service lines and a timeline to the state board for replacement of the user service lines whose content cannot be determined.

(c)The state board shall review and approve a timeline established pursuant to subdivision (b) as follows:

(1)The state board shall review a community water systemsproposed timeline for lead user service line replacement and, within 30 days of submission of the timeline to the state board, do either of the following:

(A)Approve the proposed timeline.

(B)Deny the proposed timeline and propose a revised timeline to the community water system. The state board shall explain to the community water system, in writing, why the community water systemstimeline was not approved, the factors that the state board used to propose a revised timeline, and why the state board used those factors.

(2)If the state board fails to act within 30 days of the submission of the timeline, the timeline shall be deemed approved.

(3)If the public water system rejects the state boardsproposed revised timeline, the public water system and the state board shall develop a compromise timeline within 30 days.

(4)An approved timeline or a compromise timeline shall be a public record and available on the state boardsInternet Web site.

(5)In cases where a portion of a community water systemsdistribution system is located within a Superfund site, as designated under the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (42 U.S.C. Sec. 9601 et seq.), under an active cleanup order, the state board shall not propose a timeline for lead user service line replacement that does not conform to any applicable federal regulatory requirements or timelines.

(Amended by Stats. 2017, Ch. 238, Sec. 1. (SB 427) Effective January 1, 2018.)

116890.

(a)For purposes of this article, the following definitions apply:

(1)Community water system has the same meaning as in Section 116275.

(2)Public water system has the same meaning as in Section 116275.

(3)State board means the State Water Resources Control Board.

(4)User service line has the same meaning as in Section 64551.60 of Title 22 of the California Code of Regulations.

(b)The state board may apply the requirements of subdivision (a) of Section 116875 and Section 116885 to, and enforce the requirements of those provisions against, public water systems and community water systems under Chapter 4 (commencing with Section 116270). For purposes of Article 7 (commencing with Section 116525), Article 8 (commencing with Section 116625), and Article 9 (commencing with Section 116650) of Chapter 4, a violation of subdivision (a) of Section 116875 or Section 116885 by a public water system is a violation of Chapter 4 (commencing with Section 116270).

(Added by Stats. 2017, Ch. 238, Sec. 2. (SB 427) Effective January 1, 2018.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 6. Discontinuation of Residential Water Service [116900 - 116926]__

(Chapter 6 added by Stats. 2018, Ch. 891, Sec. 2.)

116900.

This chapter shall be known, and may be cited, as the Water Shutoff Protection Act.

(Added by Stats. 2018, Ch. 891, Sec. 2. (SB 998) Effective January 1, 2019.)

116902.

For the purposes of this chapter, the following definitions apply:

(a)Board means the State Water Resources Control Board.

(b)Community water system has the same meaning as defined in Section 116275.

(c)Covered water system means a water system or supplier described in Section 116904.

(d)Residential service means water service to a residential connection that includes single-family residences, multifamily residences, mobilehomes, including, but not limited to, mobilehomes in mobilehome parks, or farmworker housing.

(e)Urban and community water system means a public water system, as defined in Section 116275, that supplies water to more than 200 service connections.

(f)Urban water supplier has the same meaning as defined in Section 10617 of the Water Code.

(Amended by Stats. 2023, Ch. 855, Sec. 2. (SB 3) Effective January 1, 2024.)

116904.

(a)An urban water supplier not regulated by the Public Utilities Commission shall comply with this chapter on and after February 1, 2020.

(b)An urban and community water system regulated by the Public Utilities Commission shall comply with this chapter on and after February 1, 2020. The urban and community water system regulated by the Public Utilities Commission shall file advice letters with the commission to conform to this chapter.

(c)An urban and community water system not described in subdivision (a) or (b) shall comply with this chapter on and after April 1, 2020.

(d)A community water system not described in subdivision (a), (b), or (c) shall comply with this chapter on and after August 1, 2024.

(e)Subject to the availability of funding, the state board shall make funds available for providing training statewide to community water systems with between 15 and 200 service connections to assist in compliance with this chapter.

(Amended by Stats. 2023, Ch. 855, Sec. 3. (SB 3) Effective January 1, 2024.)

116906.

(a)A covered water system that serves 200 or more service connections shall have a written policy on discontinuation of residential service for nonpayment available in English, the languages listed in Section 1632 of the Civil Code, and any other language spoken by at least 10 percent of the people residing in its service area. A covered water system that serves fewer than 200 service connections shall have a written policy on disconnection of residential service for nonpayment available in English, any language spoken by at least 10 percent of the people residing in its service area, and, upon request of a customer, any of the languages listed in Section 1632 of the Civil Code. Nothing in this section shall be construed to prevent a covered water system from making the policy available in any other language. The policy shall include all of the following:

(1)A plan for deferred or reduced payments that is available for any customer regardless of whether they meet the conditions of subdivision (a) of Section 116910. The plan for deferred or reduced payments that is available to any customer regardless of whether they meet the conditions of subdivision (a) of Section 116910 is not required to reduce the total amount due for water service provided.

(2)Alternative payment schedules that are available for any customer regardless of whether they meet the conditions of subdivision (a) of Section 116910.

(3)A formal mechanism for a customer to contest or appeal a bill.

(4)A telephone number for a customer to contact to discuss options for averting discontinuation of residential service for nonpayment.

(b)The policy shall be available on the covered water systemsinternet website, if an internet website exists. If an internet website does not exist, the covered water system shall provide the policy to customers in writing, upon request.

(c)(1)The board may enforce the requirements of this section pursuant to Sections 116577, 116650, and 116655. The provisions of Section 116585 and Article 10 (commencing with Section 116700) of Chapter 4 apply to enforcement undertaken for a violation of this section.

(2)All moneys collected pursuant to this subdivision shall be deposited in the Safe Drinking Water Account established pursuant to Section 116590.

(Amended by Stats. 2023, Ch. 855, Sec. 4. (SB 3) Effective January 1, 2024.)

116908.

(a)(1)(A)A covered water system shall not discontinue residential service for nonpayment until a payment by a customer has been delinquent for at least 60 days. No fewer than seven business days before discontinuation of residential service for nonpayment, a covered water system shall contact the customer named on the account by telephone or written notice.

(B)When the covered water system contacts the customer named on the account by telephone pursuant to subparagraph (A), it shall offer to provide in writing to the customer the covered water systemspolicy on discontinuation of residential service for nonpayment. A covered water system shall offer to discuss options to avert discontinuation of residential service for nonpayment, including, but not limited to, alternative payment schedules, deferred payments, minimum payments, procedures for requesting amortization of the unpaid balance, and petition for bill review and appeal.

(C)When the covered water system contacts the customer named on the account by written notice pursuant to subparagraph (A), the written notice of payment delinquency and impending discontinuation shall be mailed to the customer of the residence to which the residential service is provided. If the customersaddress is not the address of the property to which residential service is provided, the notice also shall be sent to the address of the property to which residential service is provided, addressed to Occupant. The notice shall include, but is not limited to, all of the following information in a clear and legible format:

(i)The customersname and address.

(ii)The amount of the delinquency.

(iii)The date by which payment or arrangement for payment is required in order to avoid discontinuation of residential service.

(iv)A description of the process to apply for an extension of time to pay the delinquent charges.

(v)A description of the procedure to petition for bill review and appeal.

(vi)A description of the procedure by which the customer may request a deferred, reduced, or alternative

payment schedule, including an amortization of the delinquent residential service charges, consistent with the written policies provided pursuant to subdivision (a) of Section 116906.

(2)If the covered water system is unable to make contact with the customer or an adult occupying the residence by telephone, and written notice is returned through the mail as undeliverable, the covered water system shall make a good faith effort to visit the residence and leave, or make other arrangements for placement in a conspicuous place of, a notice of imminent discontinuation of residential service for nonpayment and the covered water systemspolicy for discontinuation of residential service for nonpayment.

(b)If an adult at the residence appeals the water bill to the covered water system or any other administrative or legal body to which that appeal may be lawfully taken, the covered water system shall not discontinue residential service while the appeal is pending.

(Amended by Stats. 2023, Ch. 855, Sec. 5. (SB 3) Effective January 1, 2024.)

116910.

(a)A covered water system shall not discontinue residential service for nonpayment if all of the following conditions are met:

(1)The customer, or a tenant of the customer, submits to the covered water system the certification of a primary care provider, as that term is defined in subparagraph (A) of paragraph (1) of subdivision (b) of Section 14088 of the Welfare and Institutions Code, that discontinuation of residential service will be life threatening to, or pose a serious threat to the health and safety of, a resident of the premises where residential service is provided.

(2)The customer demonstrates that they are financially unable to pay for residential service within the covered water systemsnormal billing cycle. The customer shall be deemed financially unable to pay for residential service within the covered water systemsnormal billing cycle if any member of the customershousehold is a current recipient of CalWORKs, CalFresh, general assistance, Medi-Cal, Supplemental Security Income/State Supplementary Payment Program, or California Special Supplemental Nutrition Program for Women, Infants, and Children, or the customer declares that the householdsannual income is less than 200 percent of the federal poverty level.

(3)The customer is willing to enter into an amortization agreement, alternative payment schedule, or a plan for deferred or reduced payment, consistent with the written policies provided pursuant to subdivision (a) of Section 116906, with respect to all delinquent charges.

(b)(1)If the conditions listed in subdivision (a) are met, the covered water system shall offer the customer one or more of the following options:

(A)Amortization of the unpaid balance.

(B)Participation in an alternative payment schedule.

(C)A partial or full reduction of the unpaid balance financed without additional charges to other ratepayers.

(D)Temporary deferral of payment.

(2)The covered water system may choose which of the payment options described in paragraph (1) the customer undertakes and may set the parameters of that payment option. Ordinarily, the repayment option offered should result in repayment of any remaining outstanding balance within 12 months. A covered water system may grant a longer repayment period if it finds the longer period is necessary to avoid undue hardship to the customer based on the circumstances of the individual case.

(3)Residential service may be discontinued no sooner than five business days after the covered water system posts a final notice of intent to disconnect service in a prominent and conspicuous location at the property under either of the following circumstances:

(A)The customer fails to comply with an amortization agreement, an alternative payment schedule, or a deferral or reduction in payment plan for delinquent charges for 60 days or more.

(B)While undertaking an amortization agreement, an alternative payment schedule, or a deferral or reduction in payment plan for delinquent charges, the customer does not pay their current residential service charges for 60 days or more.

(Amended by Stats. 2023, Ch. 855, Sec. 6. (SB 3) Effective January 1, 2024.)

116912.

A covered water system that discontinues residential service for nonpayment shall provide the customer with information on how to restore residential service.

(Amended by Stats. 2023, Ch. 855, Sec. 7. (SB 3) Effective January 1, 2024.)

116914.

(a)For a residential customer who demonstrates to a covered water system household income below 200 percent of the federal poverty line, the covered water system shall do both of the following:

(1)Set a reconnection of service fee for reconnection during normal operating hours at fifty dollars ($50), but not to exceed the actual cost of reconnection if it is less. Reconnection fees shall be subject to an annual adjustment for changes in the Consumer Price Index beginning January 1, 2021. For the reconnection of residential service during nonoperational hours, a covered water system shall set a reconnection of service fee at one hundred fifty dollars ($150), but not to exceed the actual cost of reconnection if it is less. Reconnection fees shall be subject to an annual adjustment for changes in the Consumer Price Index beginning January 1, 2021.

(2)Waive interest charges on delinquent bills once every 12 months.

(b)A covered water system shall deem a residential customer to have a household income below 200 percent of the federal poverty line if any member of the household is a current recipient of CalWORKs, CalFresh, general assistance, Medi-Cal, Supplemental Security Income/State Supplementary Payment Program, or California Special Supplemental Nutrition Program for Women, Infants, and Children, or the customer declares that the householdsannual income is less than 200 percent of the federal poverty level.

(Amended by Stats. 2023, Ch. 855, Sec. 8. (SB 3) Effective January 1, 2024.)

116916.

(a)This section applies if there is a landlord-tenant relationship between the residential occupants and the owner, manager, or operator of the dwelling.

(b)If a covered water system furnishes individually metered residential service to residential occupants of a detached single-family dwelling, a multiunit residential structure, mobilehome park, or permanent residential structure in a labor camp as defined in Section 17008, and the owner, manager, or operator of the dwelling, structure, or park is the customer of record, the covered water system shall make every good faith effort to inform the residential occupants, by means of written notice, when the account is in arrears that service will be terminated at least 10 days prior to the termination. The written notice shall further inform the residential occupants that they have the right to become customers, to whom the service will then be billed, without being required to pay any amount that may be due on the delinquent account.

(c)The covered water system is not required to make service available to the residential occupants unless each residential occupant agrees to the terms and conditions of service and meets the requirements of law and the covered water systemsrules and tariffs. However, if one or more of the residential occupants are willing and able to assume responsibility for the subsequent charges to the account to the satisfaction of the covered water system, or if there is a physical means legally available to the covered water system of selectively terminating service to those residential occupants who have not met the requirements of the covered water systemsrules and tariffs, the covered water system shall make service available to those residential occupants who have met those requirements.

(d)If prior service for a period of time is a condition for establishing credit with the covered water system, residence and proof of prompt payment of rent or other credit obligation acceptable to the covered water system for that period of time is a satisfactory equivalent.

(e)Any residential occupant who becomes a customer of the covered water system pursuant to this section whose periodic payments, such as rental payments, include charges for residential water service, where those charges are not separately stated, may deduct from the periodic payment each payment period all reasonable charges paid to the covered water system for those services during the preceding payment period.

(f)In the case of a detached single-family dwelling, the covered water system may do any of the following:

(1)Give notice of termination at least seven days prior to the proposed termination.

(2)In order for the amount due on the delinquent account to be waived, require an occupant who becomes a customer to verify that the delinquent account customer of record is or was the landlord, manager, or agent of the dwelling. Verification may include, but is not limited to, a lease or rental agreement, rent receipts, a government document indicating that the occupant is renting the property, or information disclosed pursuant to Section 1962 of the Civil Code.

(Amended by Stats. 2023, Ch. 855, Sec. 9. (SB 3) Effective January 1, 2024.)

116918.

A covered water system shall report the number of annual discontinuations of residential service for inability to pay on the covered water systemsinternet website, if an internet website exists, and to the board. The board shall post on its internet website the information reported.

(Amended by Stats. 2023, Ch. 855, Sec. 10. (SB 3) Effective January 1, 2024.)

116920.

(a)The Attorney General, at the request of the board or upon the Attorney Generalsown motion, may bring an action in state court to do either of the following:

(1)Restrain by temporary or permanent injunction the use of any method, act, or practice declared in this chapter to be unlawful.

(2)Restore to any person in interest any money or property, real or personal, that may have been acquired by any method, act, or practice declared by this chapter to be unlawful.

(b)For a covered water system regulated by the Public Utilities Commission, the commission may bring an action in state court to restrain by temporary or permanent injunction the use by a covered water system regulated by the commission of any method, act, or practice declared in this chapter to be unlawful.

(Amended by Stats. 2023, Ch. 855, Sec. 11. (SB 3) Effective January 1, 2024.)

116922.

All written notices required under this chapter shall be provided in English, the languages listed in Section 1632 of the Civil Code, and any other language spoken by 10 percent or more of the customers in the covered water systemsservice area.

(Amended by Stats. 2023, Ch. 855, Sec. 12. (SB 3) Effective January 1, 2024.)

116924.

Where provisions of existing law are duplicative of this chapter, compliance with one shall be deemed compliance with the other. Where those provisions are inconsistent, the provisions of this chapter shall apply. Nothing in this chapter shall be construed to limit or restrict the procedural safeguards against the disconnection of residential water service existing as of December 31, 2018.

(Added by Stats. 2018, Ch. 891, Sec. 2. (SB 998) Effective January 1, 2019.)

116926.

This chapter does not apply to the termination of a service connection by a covered water system due to an unauthorized action of a customer.

(Amended by Stats. 2023, Ch. 855, Sec. 13. (SB 3) Effective January 1, 2024.)

__ARTICLE 1. Water Supply Provisions [116975 - 117075]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

116975.

No person shall put the carcass of any dead animal, or the offal from any slaughter pen, corral, or butcher shop, into any river, creek, pond, reservoir, or stream.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116980.

No person shall put any water closet, privy, cesspool or septic tank, or the carcass of any dead animal, or any offal of any kind, in, or upon the borders of, any stream, pond, lake, or reservoir from which water is drawn for the supply of any portion of the inhabitants of this state, in a manner that the drainage of the water closet, privy, cesspool or septic tank, or carcass, or offal may be taken up by or in the water.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116985.

No person shall allow any water closet, privy, cesspool, or septic tank, or carcass of any dead animal, or any offal of any kind, to remain in or upon the borders of any stream, pond, lake, or reservoir within the boundaries of any land owned or occupied by him or her, in a manner that the drainage from the water closet, privy, cesspool or septic tank, or carcass, or offal, may be taken up by or in the stream, pond, lake, or reservoir, if water is drawn therefrom for the supply of any portion of the inhabitants of this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116990.

No person shall keep any horses, mules, cattle, swine, sheep, or live stock of any kind, penned, corralled, or housed on, over, or on the borders of any stream, pond, lake, or reservoir, in a manner that the waters become polluted, if water is drawn therefrom for the supply of any portion of the inhabitants of this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

116995.

No person shall cause or permit any horses, cattle, sheep, swine, poultry, or any kind of live stock or domestic animals, to pollute the waters, or tributaries of waters, used or intended for drinking purposes by any portion of the inhabitants of this state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117000.

No person shall bathe, except as permitted by law, in any stream, pond, lake, or reservoir from which water is drawn for the supply of any portion of the inhabitants of this state, or by any other means foul or pollute the waters of any such stream, pond, lake, or reservoir.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117005.

Nothing in this article shall be held to prevent the grazing of livestock in areas embracing any stream or watershed where the grazing would not tend to render the waters unwholesome or injurious to the public health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117010.

Every person who washes clothes in any spring, stream, river, lake, reservoir, well, or other waters that are used or intended for drinking purposes by the inhabitants of the vicinage or of any city, county, or town, of this state, is guilty of a misdemeanor, punishable by imprisonment in the county jail for not more than 90 days, or a fine of not less than fifty dollars ($50) nor more than one thousand dollars ($1,000), or by both such fine and imprisonment.

Each daysviolation of this section is a separate offense.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117015.

Every person who violates, or refuses or neglects to conform to, any sanitary rule, order, or regulation prescribed by the department for the prevention of the pollution of springs, streams, rivers, lakes, wells, or other waters used or intended to be used for human or animal consumption, is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117020.

No person shall construct, maintain, or use any waste well extending to or into a subterranean water-bearing stratum that is used or intended to be used as, or is suitable for, a source of water supply for domestic purposes, except pursuant to Article 6 (commencing with Section 13540) of Chapter 7, Division 7 of the Water Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117025.

It is unlawful for the owner, tenant, lessee, or occupant of any houseboat or boat intended for or capable of being used as a residence, house, dwelling, or habitation, or agent of the owner, tenant, lessee, or occupant to moor or anchor it or permit it to be moored or anchored in or on any river or stream, the waters of which are used for drinking or domestic purposes by any city, town, or village, within a distance of two miles above the intake or place where the city, town, or village water system takes water from the river or stream. This section does not apply to the mooring or anchoring of a houseboat when necessary, during transportation, for a period of not longer than one day.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117030.

Violation of this article may be enjoined by any court of competent jurisdiction at the suit of any person whose supply of water for human or animal consumption or for domestic purposes is or may be affected, or by the state department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117035.

Anything done, maintained, or suffered, in violation of any of the provisions of this article is a public nuisance, dangerous to health, and may be summarily abated as such.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117040.

A city, city and county, district or other public agency, owning or operating a reservoir used for domestic or drinking water purposes, may open to public fishing all or any part of the reservoir and its surrounding land.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117045.

Before the reservoir and its surrounding land are opened to public fishing the public agency owning or operating the reservoir shall determine that the public fishing will not affect the purity and safety for drinking and domestic purposes of the water collected in the reservoir, and shall obtain from the department a valid water supply permit setting forth the terms and conditions upon which public fishing may be conducted in the reservoir and on its surrounding land.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117050.

Public fishing shall not be conducted in a reservoir or on its surrounding land if the reservoir is used as a regulating reservoir to meet daily or peak consumption demands and as a terminal reservoir to a water collecting facility and as a distribution reservoir from which water may be supplied for drinking or domestic purposes without full purification treatment after withdrawal from the reservoir.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117055.

The department may allow public fishing on any terminal reservoir if it finds that adequate means are being used to protect drinking water quality and that public fishing will have no significant effect on water quality. The department shall examine all feasible means of protecting water quality on terminal reservoirs and other reservoirs where public fishing may be allowed. The department may close any terminal water supply reservoir to public angling on an emergency basis, if water quality is threatened by public use.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117060.

The public agency owning or operating the reservoir may establish and collect fees, including charges for motor vehicle parking, for the construction and operation of structures, facilities and equipment and the operation and use of the reservoir and its surrounding lands for public fishing. The public agency may contract with any agency or department of the federal government or the state, with other public agencies or with private individuals for the construction, operation and use of structures, facilities and equipment and the performance of services necessary or convenient to public fishing in the reservoir and on its surrounding land, including the rental, lease or permission to use portions of the reservoir and its surrounding lands for structures, facilities and equipment necessary or convenient for the use of the public. The public agency may establish and enforce all rules and regulations necessary or convenient to the conducting of public fishing on the reservoir and its surrounding land and for the control, operation and protection of the reservoir, its surrounding land and all structures, facilities and equipment in connection with the reservoir.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117065.

The public agency shall cause a copy of the rules and regulations to be posted upon the area opened to public fishing and other recreational uses, and it shall cause the rules and regulations to be published at least once in a newspaper of general circulation published in the county in which the reservoir is in whole or in part situated, if there be a newspaper, otherwise in a newspaper of general circulation published within the area of the public agency. If a public agency amends its rules and regulations, the public agency shall similarly publish a summary of its amended rules and regulations, along with an Internet address and the physical location where the complete text of the amended rules and regulations may be viewed. Posting and publication shall be sufficient notice to all persons. The affidavit of the secretary, clerk, or corresponding officer of the public agency that the rules and regulations have been so posted and published is prima facie evidence thereof. A copy of the rules and regulations, attested by the secretary, clerk, or corresponding officer of the public agency shall be prima facie evidence that the regulations have been made by the public agency as provided by law.

(Amended by Stats. 2010, Ch. 699, Sec. 30. (SB 894) Effective January 1, 2011.)

117070.

Any violation of any rule or regulation lawfully made by the public agency is a misdemeanor. The superior court of the county within which the reservoir lies in whole or in part is a proper place for trial of all prosecutions for violations of any rules and regulations adopted by the public agency.

(Amended by Stats. 2003, Ch. 449, Sec. 28. Effective January 1, 2004.)

117075.

Sections 117040 to 117070, inclusive, shall not apply to reservoirs used for domestic or drinking water purposes that are open to fishing or recreational uses on September 11, 1957, or that have been open to fishing or recreational uses prior to that date.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 12. DRINKING WATER [116270 - 117130]__

(Part 12 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 7. Water Supply [116975 - 117130]__

(Chapter 7 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Additional Water Supply Provisions [117080 - 117125]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

117080.

Governmental agency, as used in this article, includes a city, city and county, and district, but does not include a chartered city or city and county.

Body of water means a reservoir or lake.

Owned means owned or controlled.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117085.

The board of supervisors of any county wherein is located a body of water owned by a governmental agency, that is used to supply water for human consumption may by resolution request the governmental agency owning the body of water to open the body of water to public fishing and the surrounding land area for other recreational use. The governmental agency owning the body of water shall thereupon make and file with said board of supervisors an estimate of the cost of preparing a coordinated plan for public fishing in said body of water and other recreational uses in the surrounding land area. The board of supervisors thereupon may deposit with the governmental agency owning the body of water the amount of the estimate not exceeding two thousand five hundred dollars ($2,500), and the governmental agency owning said body of water thereupon shall proceed promptly with and complete the coordinated plan. In event the cost of preparing the plan shall be less than the amount deposited by the board of supervisors, the excess shall be repaid by the governmental agency owning the body of water to the board of supervisors that made the

deposit. The plan may provide for development of the area by stages and may exclude from public access structures, facilities or works of the agency necessary in supplying water for human consumption and the portions of the body of water and surrounding land area as may be reasonably required for the protection, maintenance or operation of the structures, facilities, or works. The plan may exclude portions of the surrounding area as are unsuitable for public recreational use. The coordinated plan may also include an estimate of the cost of the capital improvements necessary or convenient for public fishing and recreational uses, an estimate of the annual cost of maintenance and operation of the plan, and a recommendation as to the manner in which the plan may be financed.

After completion of the coordinated plan the governmental agency shall promptly make application to the department for an amendment to its water supply permit, that would allow the opening of the body of water to public fishing and the surrounding land area for other recreational use pursuant to the coordinated plan.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117090.

Upon receipt of the amended permit, if the agency does not allow such use, it shall call for a vote of its constituents at the next statewide primary election or general election, or if the agency is a municipal corporation at the next general municipal election, to determine whether or not the use shall be allowed and if a majority vote is in favor the public agency shall allow public fishing in the body of water and other recreational uses in the surrounding area in compliance with the amended permit.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117095.

Nothing herein contained shall permit or require fishing or other recreational uses in a secondary reservoir from which water is supplied for domestic use without purification treatment after withdrawal from said reservoir.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117100.

The ballot for the election authorized by Section 117090 shall contain the instructions required by law to be printed thereon and in addition thereto the following:

Shall the (insert name of governmental agency) allow fishing in the (name of body of water)and other recreational uses in the surrounding area subject to the regulations of the State Department of Health Services?	YES	

|
| NO | |

If the governmental agency concludes that a bond issue is required to pay for the capital improvements included in the coordinated plan as approved by the amended permit, there shall also be printed on the ballot, immediately following the ballot proposition aforesaid, the following proposition to be voted on by the constituents of the governmental agency:

|
Shall the (insert name of governmental agency) incur a bonded indebtedness in the principal amount of $____ for providing the capital improvements for fishing in the (name of bodyof water) and other recreational uses in the surrounding land area, subject to the regulations of the State Department of Health Services?	YES	
NO	

(Amended by Stats. 2006, Ch. 538, Sec. 437. Effective January 1, 2007.)

117105.

The governmental agency owning the body of water may fix and collect fees, including charges for motor vehicle parking, for the construction of facilities, operation, and use of the area opened for public fishing and other recreational uses. The governmental agency shall have the power to contract with others for the rendering of any or all of the services required in connection with the operation of the area including the right to rent or lease the whole or any part of the area to provide necessary or convenient facilities for the use of the public. The governmental agency shall have the power to make and enforce regulations that it may find necessary or convenient for proper control of the areas opened to public fishing and other recreational uses. The department shall make recurring inspections of all recreational areas approved under this article to ensure the continued purity of drinking water.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117110.

The governmental agency shall cause a copy of the rules and regulations to be posted upon the area opened to public fishing and other recreational uses, and it shall cause the rules and regulations to be published at least once in a newspaper of general circulation published in the county in which the reservoir is in whole or in part situated, if there be such a newspaper, otherwise in a newspaper of general circulation published within the area of the governmental agency. The posting and publication shall be sufficient notice to all persons. The affidavit of the secretary, clerk, or corresponding officer of the governmental agency that the rules and regulations have been so posted and published is prima facie evidence thereof. A copy of the rules and regulations, attested by the secretary, clerk, or corresponding officer of the governmental agency shall be prima facie evidence that the rules and regulations have been made by the governmental agency as

provided by law.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117115.

As far as possible the development and operation of the recreational uses authorized by this article shall be financed out of the revenues authorized by this article; provided, however, that the governmental agency owning the body of water is not required to fix fees that are unreasonably high and in its discretion may make use of any means of financing that it is otherwise authorized to use for any purpose.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117120.

Any violation of any rule or regulation lawfully made by the governmental agency is a misdemeanor. The superior court of the county within which the reservoir lies in whole or in part is a proper place for trial of all prosecutions for violations of any rules and regulations adopted by the governmental agency.

(Amended by Stats. 2003, Ch. 449, Sec. 29. Effective January 1, 2004.)

117125.

Notwithstanding any other law, the Department of Fish and Wildlife may stock with fish any body of water opened to public fishing pursuant to this article.

(Amended by Stats. 2015, Ch. 673, Sec. 19. (AB 1531) Effective January 1, 2016.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 13. GARBAGE AND ONSITE SEWAGE DISPOSAL [117400 - 117590]__

(Part 13 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Waste and Waste Disposal [117400 - 117590]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 1. Septic Tanks [117400 - 117450]__

(Article 1 added by Stats. 1995, Ch. 415, Sec. 6.)

117400.

This article shall not apply to any city, town, county, sanitary district, sanitation district, sewer maintenance district or to any agency or institution of the state or the federal government by reason of the cleaning of septic tanks, chemical toilets, cesspools, sewage seepage pits or sewage works that are owned and operated by any of these governmental agencies or institutions.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117405.

It is unlawful for any person or firm to carry on or engage in the business of the cleaning of septic tanks, chemical toilets, cesspools or sewage seepage pits or to dispose of the cleanings therefrom in any city, town, county, or city and county unless he or she or it shall hold an unrevoked registration issued by the local health officer or his or her duly authorized representative of the city, town, county, or city and county for the carrying on of the business.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117410.

Except as provided in Section 25163, it is unlawful for any person to clean septic tanks, chemical toilets, cesspools or sewage seepage pits or to dispose or aid in the disposal of the cleanings thereof, for any person or firm engaged in the business of cleaning out septic tanks, chemical toilets, cesspools or sewage seepage

pits or disposing of the cleanings thereof who does not hold an unrevoked registration as provided in this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117415.

All applications for registration under this article shall be filed with the local health officer in the city, town, county, or city and county in which it is desired to carry on the business. The application shall state the name in full, if a partnership then names of each of the partners, the relation of the applicant to the firm or partnership, the place of business and place of residence of the applicant for registration and of each of the partners in the business, if a partnership, and shall state the exact location of the place at which it is proposed to dispose of cleanings. The application shall be signed by the authorized officer of a corporation, if a corporation; or by the managing partner, if a partnership.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117420.

Registration shall be issued only after a satisfactory examination by the health officer or his or her duly authorized representative covering the equipment to be used, the applicantsknowledge of sanitary principles and of the laws and ordinances affecting human health or nuisances, and the reliability of the applicant in observing sanitary laws, ordinances and directions, and in selecting laborers and employees who may clean out septic tanks, chemical toilets, cesspools and sewage seepage pits without endangering human health or comfort; and only after examination of the place or places and manner of disposal of the cleanings proposed by the applicant.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117425.

The health officer is required to act upon each application within thirty (30) days of the date of filing same.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117430.

Registration shall be only for the unexpired portion of the calendar year in which application is made, and at the end of the calendar year all registrations shall become void and of no effect.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117435.

(a) Applicants may be registered under any terms, conditions, orders, and directions as the health officer or his or her duly authorized representative may deem necessary for the protection of human health and comfort. Each health officer and his or her duly authorized representative may require any and all persons who are registered with the health officer to clean septic tanks, cesspools, or sewage seepage pits or to dispose of the cleanings therefrom, to file with the health officer at any time and at any frequency or intervals as the health officer or duly authorized representative may desire, a statement specifying all of the following:

(1) The name and address of the owner or tenant of each and every one of the premises where a septic tank, cesspool, or sewage seepage pit has been cleaned out by the registrant or his or her employees or by others on his or her behalf and the date of each cleaning.

(2) The location where the cleanings are disposed of and by whom.

(3) Discharges of waste that may result in violation of laws or ordinances required to be known by the registrant pursuant to Section 117420.

(b) The health officer may require the statement to be sworn to before a notary.

(c) Any and all persons registered with the health officer to clean septic tanks, cesspools, or sewage seepage pits, or to dispose of the cleanings therefrom, shall also provide a statement as required pursuant to paragraph (3) of subdivision (a) to a regional board as defined pursuant to Section 13050 of the Water Code.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117440.

A change of address of any registrant including a member of a partnership that is registered and of the place of business thereof shall be reported in writing by registered mail by the registrant within two days after the change of address.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117445.

Any registration issued under this article may be revoked by the issuing health officer for cause on 10 days™ notice to the applicant. The notice shall be served by registered mail or in person at the latest place of residence or of business reported by the applicant.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117450.

Violation of any of the provisions of this article or of any order or orders of a health officer made pursuant to this article for the protection of human health and comfort shall constitute a misdemeanor and shall be punishable by a fine of not less than two hundred dollars ($200) for each offense or by imprisonment for not less than thirty (30) days or by both the fine and imprisonment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 13. GARBAGE AND ONSITE SEWAGE DISPOSAL [117400 - 117590]__

(Part 13 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Waste and Waste Disposal [117400 - 117590]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 2. Pollution of Navigable Waters with Garbage [117475 - 117500]__

(Article 2 added by Stats. 1995, Ch. 415, Sec. 6.)

117475.

For the purpose of this article the term garbage includes any or all of the following:

(a) Garbage.

(b) Swill.

(c) Refuse.

(d) Cans.

(e) Bottles.

(f) Paper.

(g) Vegetable matter.

(h) Carcass of any dead animal.

(i) Offal from any slaughter pen or butcher shop.

(j) Trash.

(k) Rubbish.

(l) Radioactive waste materials.

(m) Discarded, nonbiodegradable materials including plastics or damaged or broken marine equipment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117480.

Every person who places, deposits, or dumps any garbage in or upon the navigable waters of this state, or who places, deposits, or loads it upon any vessel, with intent that it shall be dumped or deposited in or upon the navigable waters of this state, or at any point in the ocean within twenty miles of any point on the coast line of the state, is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117485.

Every person in charge of any vessel who permits it to be loaded with any garbage with intent that it shall be dumped or deposited from the vessel in or upon any of the navigable waters of this state, or at any point in the ocean, within twenty miles of any point on the coast line of the state, is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117490.

A vessel upon which any garbage has been loaded with the intent that it shall be dumped or deposited upon any of the waters of the ocean where permitted by this article, shall not leave any point within the state unless it shall carry for the entire trip an inspector appointed by the department, or where the point of departure is in a city, then by the city. The inspector shall enforce this article.

Every person in charge of a vessel that is required to have an inspector on board by this article, and that does not carry an inspector during the entire trip, is guilty of a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117495.

Every person in charge of a vessel that is to dump or deposit radioactive waste materials upon any of the waters of the ocean where permitted by this article shall notify the department in writing at least five days in advance of the dumping or depositing, specifying the intended date of departure and giving other information as may be required by the department. The department may permit the vessel to leave without the inspector required by Section 117490 if it determines that the public health and welfare will not be endangered thereby. If this permission is granted, the department may require the person in charge of the vessel to submit a certified statement to it, at a time as the department determines, setting forth the time, location, and manner of the dumping or disposal and other information as the department may require.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117500.

This article shall not be construed to affect the discharge of any sewer system.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 13. GARBAGE AND ONSITE SEWAGE DISPOSAL [117400 - 117590]__

(Part 13 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Waste and Waste Disposal [117400 - 117590]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 4. Pollution by Vessels [117510 - 117525]__

(Article 4 added by Stats. 1995, Ch. 415, Sec. 6.)

117510.

As used in this article:

(a) Vessel means every description of craft or other contrivance used, or capable of being used, as a means of transportation in or on water.

(b) Navigable waters means all public waters of the state in any river, stream, lake, reservoir, or other body of water, including all salt water bays, inlets, and estuaries within the jurisdiction of the state.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117515.

No person shall place, deposit, or dump any human excreta in or upon the navigable waters of this state, that are within any marina, yacht harbor, fresh water lake, or fresh water impoundment, from any vessel tied to any dock, slip, or wharf that has toilet facilities available for the use of persons on the vessel.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117520.

It is not the intent of the Legislature in enacting this article to preempt the field of pollution by vessels, and the provisions of this article do not prohibit the enactment or enforcement of any ordinance by any city, county, or district having the power to regulate pollution by vessels, that is stricter than the provisions of this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117525.

Any violation of this article is a misdemeanor.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 13. GARBAGE AND ONSITE SEWAGE DISPOSAL [117400 - 117590]__

(Part 13 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Waste and Waste Disposal [117400 - 117590]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 6. Prohibited Waste Disposal [117550 - 117560]__

(Heading of Article 6 amended by Stats. 2006, Ch. 416, Sec. 1.)

117550.

For purposes of this article, solid waste has the same meaning as that term is defined in Section 40191 of the Public Resources Code.

(Repealed and added by Stats. 2006, Ch. 416, Sec. 3. Effective January 1, 2007.)

117555.

A person who places, deposits, or dumps, or who causes to be placed, deposited, or dumped, or who causes or allows to overflow, sewage, sludge, cesspool or septic tank effluent, accumulation of human excreta, or

solid waste, in or upon a street, alley, public highway, or road in common use or upon a public park or other public property other than property designated or set aside for that purpose by the governing board or body having charge of the property, or upon private property without the ownersconsent, is guilty of a misdemeanor.

This section does not apply to the placing, depositing, or dumping of solid waste upon private property by the owner, or a person authorized by the owner, of the private property, except that the placing, depositing, or dumping of the solid waste shall not create a public health and safety hazard, nuisance, or a fire hazard, as determined by a local enforcement agency, as defined in Section 40130 of the Public Resources Code, local health department, local fire department or fire district, or the Department of Forestry and Fire Protection.

(Amended by Stats. 2006, Ch. 416, Sec. 4. Effective January 1, 2007.)

117560.

A state fish and game warden, police officer of a city, sheriff, deputy of a sheriff, person described in subdivision (i) of Section 830.7 of the Penal Code, and any other peace officer of the State of California, within their respective jurisdiction, shall enforce this article.

(Amended by Stats. 2021, Ch. 411, Sec. 2. (AB 483) Effective January 1, 2022.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 13. GARBAGE AND ONSITE SEWAGE DISPOSAL [117400 - 117590]__

(Part 13 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Waste and Waste Disposal [117400 - 117590]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

__ARTICLE 7. Solid Waste Handling and Disposal [117575 - 117590]__

(Article 7 added by Stats. 1995, Ch. 415, Sec. 6.)

117575.

Unless the context otherwise requires, the definitions in Article 2 (commencing with Section 66710) of Chapter 1 of Title 7.3 of the Government Code govern the construction of this article.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117580.

The department insofar as presently or hereafter provided by law, shall continue to be responsible for all aspects of solid waste management and resource recovery as they directly affect human health, including, but not limited to, the contamination of air, water, and land, propagation of vertebrates and invertebrates that may transmit disease to man, handling and disposal of hazardous wastes, and management practices that threaten the health of solid waste employees or the general public.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117585.

The department shall continue to administer and enforce the laws, other than matters covered by Title 7.3 (commencing with Section 66700) of the Government Code, that are within its jurisdiction as they apply directly to solid wastes. The department also, as it relates directly to human health, shall:

(a) Evaluate and study, as appropriate, the characteristics of solid wastes and methods for their handling and disposal for health protection.

(b) Render technical assistance to the board, local agencies, and others in the planning and operation of solid waste management programs and resources recovery programs.

(c) Formulate technical criteria and suggested guidelines for use by state and local agencies in development, planning, implementation, and operation of programs for the local handling of solid waste.

(d) Stimulate and participate in research and development projects conducted by other public or private agencies, especially those intended to reduce, effectively reuse, or decontaminate waste products.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117590.

The department, not later than January 1, 1975, shall prepare and shall submit minimum standards for solid waste handling and disposal for the protection of the public health to the board for inclusion in the state policy for solid waste management required to be adopted pursuant to Section 66770 of the Government Code. The department may adopt varying standards for different areas of the state depending on population density, climate, geology, and other factors relevant to solid waste handling and disposal, and may revise the standards when appropriate.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 1. General Provisions [117600 - 117615]__

(Chapter 1 added by Stats. 1995, Ch. 415, Sec. 6.)

117600.

This part shall be known and may be cited as the Medical Waste Management Act.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117605.

(a)This part governs medical waste management at the facility where waste is generated, at transfer stations, and at treatment facilities. This part also governs the tracking of medical waste beyond what is required in federal shipping documents and regulates aspects of the transport of regulated medical waste.

(b)Sections 173.196 and 173.197 of Title 49 of the Code of Federal Regulations impose standards for the transportation of medical waste on public roads and highways while in transport, unless an affected person applies to, and receives a determination of any perceived conflict from, the United States Secretary of Transportation. Domestic Mail Manual 601.10.17.5 (Mailability: Hazardous Materials: Sharps and Other Mailable Regulated Medical Waste) imposes standards for the transportation of medical waste through the mail and approves medical waste mail back systems.

(c)The department shall submit to the Legislature by no later than January 1, 2016, a report describing the interaction of federal and state law for the transport of regulated medical waste. The department shall convene a stakeholder group that includes, but is not limited to, small and large quantity generators, haulers, transfer station operators, treatment facility operators, local enforcement agencies, retailers, and other affected entities for this purpose. The reporting requirement imposed by this subdivision shall expire as of January 1, 2016, or when the report is submitted to the Legislature. The report submitted pursuant to this section shall be submitted in compliance with Section 9795 of the Government Code.

(d)The department may, in its discretion, update standards related to the transportation of medical waste during transit through a guidance document provided to regulated entities and posted on the departmentsInternet Web site. This guidance document shall be exempt from the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code) to the extent that the department finds that the updated standards are consistent with the standards of the United States Department of Transportation.

(e)If an affected person, including the department, seeks a preemption determination pursuant to Section 5125 of Title 49 of the United States Code or by a court of competent jurisdiction, the department may, in its discretion, temporarily waive the state transportation requirements under this part until that determination is made and shall provide notice of the waiver on its Internet Web site.

(f)During the period of temporary waiver described in subdivision (e), or if preemption is found, the federal requirements shall be deemed to be the law of this state and enforceable by the department. The department may enforce these federal requirements by providing an updated guidance document to interested parties and posting the updated guidance document on the departmentsInternet Web site.

(g)The Medical Waste Management Act does not preempt any local ordinance regulating infectious waste, as

that term was defined by Section 25117.5 as it read on December 31, 1990, if the ordinance was in effect on January 1, 1990, and regulated both large and small quantity generators. Any ordinance may be amended in a manner that is consistent with this part.

(Amended by Stats. 2014, Ch. 564, Sec. 1. (AB 333) Effective January 1, 2015.)

117610.

The department shall adopt regulations that will establish and ensure statewide standards for uniformity in the implementation and administration of this part and that will promote waste minimization and source reduction.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117615.

Notwithstanding Section 117605, with the approval of the director, and in the interest of public health, a local ordinance providing more stringent requirements than specified in this part may be implemented for a specified time period.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 2. Definitions [117625 - 117780]__

(Chapter 2 added by Stats. 1995, Ch. 415, Sec. 6.)

117625.

Unless the context requires otherwise, the definitions in this article govern the construction of this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117630.

(a)Biohazard bag means a disposable film bag used to contain medical waste. Notwithstanding subdivision (b) of Section 117605, the film bags that are used to line the United States Department of Transportation (USDOT)-approved shipping containers for transport from the generatorsfacility onto roadways and into commerce to a treatment and disposal facility shall be marked and certified by the manufacturer as having passed the tests prescribed for tear resistance in the American Society for Testing Materials (ASTM) D1922, Standard Test Method for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method and for impact resistance in ASTM D1709, Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method, as those documents were published on January 1, 2014. The film bag shall meet an impact resistance of 165 grams and a tearing resistance of 480 grams in both parallel and perpendicular planes with respect to the length of the bag.

(b)The biohazard bag that is used to collect medical waste within a facility shall be manufacturer certified to meet the ASTM D1709 dart drop test, provided that when the bag is prepared for transport offsite, it is placed into a USDOT-approved container lined with a biohazard bag that is ASTM D1709 and ASTM D1922 certified.

(c)The color of the bag shall be red, except when yellow bags are used to further segregate trace chemotherapy waste and white bags are used to further segregate pathology waste. The biohazard bag shall be marked with the international biohazard symbol and may be labeled by reference as authorized by the USDOT.

(Amended by Stats. 2015, Ch. 352, Sec. 1. (SB 225) Effective September 28, 2015.)

117636.

Chemotherapeutic agent means an agent that kills or prevents the reproduction of malignant cells. Chemotherapeutic agent excludes anti-inflammatory and antibiotic medications used to treat malignant cells in the practice of veterinary medicine.

(Added by Stats. 2014, Ch. 564, Sec. 6. (AB 333) Effective January 1, 2015.)

117637.

Common carrier means either of the following:

(a)A person or company that has a United States Department of Transportation number issued by the Federal Motor Carrier Safety Administration and is registered with the Federal Motor Carrier Safety Administration as a for-hire property carrier.

(b)A person or company that has a motor carrier of property permit issued by the Department of Motor Vehicles pursuant to the Motor Carriers of Property Permit Act (Division 14.85 (commencing with Section 34600) of the Vehicle Code) and, if applicable, a carrier identification number issued by the Department of the California Highway Patrol pursuant to Section 34507.5 of the Vehicle Code.

(Added by Stats. 2012, Ch. 689, Sec. 1. (AB 1442) Effective January 1, 2013.)

117640.

Common storage facility means any designated accumulation area that is onsite and is used by small quantity generators otherwise operating independently for the storage of medical waste for collection by a registered hazardous waste hauler.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117645.

Container means the rigid container in which the medical waste is placed prior to transporting for purposes of storage or treatment.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117647.

Empty means a condition achieved when tubing, a container, or inner liner removed from a container that previously contained liquid or solid material, including, but not limited to, a chemotherapeutic agent, is considered empty. The tubing, container, or inner liner removed from the container shall be considered empty if it has been emptied so that the following conditions are met:

(a)If the material that the tubing, container, or inner liner held is pourable, no material can be poured or drained from the tubing, container, or inner liner when held in any orientation, including, but not limited to, when tilted or inverted.

(b)If the material that the container or inner liner held is not pourable, no material or waste remains in the container or inner liner that can feasibly be removed by scraping.

(Added by Stats. 2014, Ch. 564, Sec. 7. (AB 333) Effective January 1, 2015.)

117650.

Enforcement agency means the department or the local agency administering this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117655.

Enforcement officer means the director, or agents or registered environmental health specialists appointed by the director, and all local health officers, directors of environmental health, and their duly authorized registered environmental health specialists and environmental health specialist trainees, or the designees of the director, local health officers, or the directors of environmental health.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117657.

Fund means the Medical Waste Management Fund created pursuant to Section 117885.

(Added by Stats. 1996, Ch. 1023, Sec. 347. Effective September 29, 1996.)

117660.

Hazardous waste hauler means a person registered as a hazardous waste hauler pursuant to Article 6 (commencing with Section 25160) and Article 6.5 (commencing with Section 25167.1) of Chapter 6.5 of Division 20 and Chapter 30 (commencing with Section 66001) of Division 4 of Title 22 of the California Code of Regulations.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117662.

Health care professional means any person licensed or certified pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code; any person licensed pursuant to the Osteopathic Initiative Act, as set forth in Chapter 8 (commencing with Section 3600) of Division 2 of the Business and Professions Code, or pursuant to the Chiropractic Initiative Act, as set forth in Chapter 2 (commencing with Section 1000) of Division 2 of the Business and Professions Code; and any person certified pursuant to Division 2.5 (commencing with Section 1797).

(Added by renumbering Section 25021.9 by Stats. 1996, Ch. 536, Sec. 2. Effective January 1, 1997.)

117665.

Highly communicable diseases means diseases, such as those caused by organisms classified by the federal Centers for Disease Control and Prevention as risk group 3 organisms or higher.

(Amended by Stats. 2014, Ch. 564, Sec. 8. (AB 333) Effective January 1, 2015.)

117670.

Household waste means any material, including garbage, trash, and sanitary wastes in septic tanks and medical waste, that is derived from households, farms, or ranches. Household waste does not include trauma scene waste.

(Amended by Stats. 1997, Ch. 732, Sec. 1.5. Effective January 1, 1998.)

117671.

Home-generated sharps waste means hypodermic needles, pen needles, intravenous needles, lancets, and other devices that are used to penetrate the skin for the delivery of medications derived from a household, including a multifamily residence or household.

(Added by Stats. 2006, Ch. 64, Sec. 2. Effective January 1, 2007.)

117672.

Industrial hygienist means a person who has met the educational requirements of an industrial hygiene certification organization, as defined in subdivision (c) of Section 20700 of the Business and Professions Code, and who has had at least one year in the comprehensive practice of industrial hygiene, as defined in subdivision (a) of Section 20700 of the Business and Professions Code.

(Added by Stats. 1997, Ch. 732, Sec. 2. Effective January 1, 1998.)

117675.

Infectious agent means a type of microorganism, bacteria, mold, parasite, or virus, including, but not limited to, organisms managed as Biosafety Level II, III, or IV by the federal Centers for Disease Control and Prevention, that normally causes, or significantly contributes to the cause of, increased morbidity or mortality of human beings.

(Amended by Stats. 2006, Ch. 166, Sec. 1. Effective January 1, 2007.)

117680.

Large quantity generator means a medical waste generator, other than a trauma scene waste management practitioner, that generates 200 or more pounds of medical waste in any month of a 12-month period.

(Amended by Stats. 1997, Ch. 732, Sec. 3. Effective January 1, 1998.)

117685.

Local agency means the local health department, as defined in Section 101185, or the local comprehensive environmental agency established in accordance with Section 101275, of a county that has elected to adopt a local ordinance to administer and enforce this part, pursuant to Chapter 3 (commencing with Section 117800).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117690.

(a)Medical waste means any biohazardous, pathology, pharmaceutical, or trace chemotherapy waste not regulated by the federal Resource Conservation and Recovery Act of 1976 (Public Law 94-580), as amended; sharps and trace chemotherapy wastes generated in a health care setting in the diagnosis, treatment, immunization, or care of humans or animals; waste generated in autopsy or necropsy; waste generated during preparation of a body for final disposition such as cremation or interment; waste generated in research pertaining to the production or testing of microbiologicals; waste generated in research using human or animal pathogens; sharps and laboratory waste that poses a potential risk of infection to humans generated in the inoculation of animals in commercial farming operations; waste generated from the consolidation of home-generated sharps; and waste generated in the cleanup of trauma scenes. Biohazardous, pathology, pharmaceutical, sharps, and trace chemotherapy wastes that meet the conditions of this section are not subject to any of the hazardous waste requirements found in Chapter 6.5 (commencing with Section 25100) of Division 20.

(b)For purposes of this part the following definitions apply:

(1)Biohazardous waste includes all of the following:

(A)(i)Regulated medical waste, clinical waste, or biomedical waste that is a waste or reusable material derived from the medical treatment of a human or from an animal that is suspected by the attending veterinarian of being infected with a pathogen that is also infectious to humans, which includes diagnosis and immunization; or from biomedical research, which includes the production and testing of biological products.

(ii)Regulated medical waste or clinical waste or biomedical waste suspected of containing a highly communicable disease.

(B)Laboratory waste such as human specimen cultures or animal specimen cultures that are infected with pathogens that are also infectious to humans; cultures and stocks of infectious agents from research; wastes from the production of bacteria, viruses, spores, discarded live and attenuated vaccines used in human health care or research, discarded animal vaccines, including Brucellosis and Contagious Ecthyma, as defined by the department; culture dishes, devices used to transfer, inoculate, and mix cultures; and wastes identified by Section 173.134 of Title 49 of the Code of Federal Regulations as Category B once wasted for laboratory wastes.

(C)Waste that, at the point of transport from the generatorssite or at the point of disposal contains recognizable fluid human blood, fluid human blood products, containers, or equipment containing human blood that is fluid, or blood from animals suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(D)Waste containing discarded materials contaminated with excretion, exudate, or secretions from humans or animals that are required to be isolated by the infection control staff, the attending physician and surgeon, the attending veterinarian, or the local health officer, to protect others from highly communicable diseases or diseases of animals that are communicable to humans.

(2)Pathology waste includes both of the following:

(A)Human body parts, with the exception of teeth, removed at surgery and surgery specimens or tissues removed at surgery or autopsy that are suspected by the health care professional of being contaminated with infectious agents known to be contagious to humans or having been fixed in formaldehyde or another fixative.

(B)Animal parts, tissues, fluids, or carcasses suspected by the attending veterinarian of being contaminated with infectious agents known to be contagious to humans.

(3)Pharmaceutical waste means a pharmaceutical, as defined in Section 117747, including trace chemotherapy waste, that is a waste, as defined in Section 25124. For purposes of this part, pharmaceutical waste does not include a pharmaceutical that meets either of the following criteria:

(A)The pharmaceutical is being sent out of the state to a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4161 of the Business and Professions Code.

(B)The pharmaceutical is being sent by a reverse distributor, as defined in Section 4040.5 of the Business and Professions Code, offsite for treatment and disposal in accordance with applicable laws, or to a reverse distributor that is licensed as a wholesaler of dangerous drugs by the California State Board of Pharmacy pursuant to Section 4160 of the Business and Professions Code and as a permitted transfer station if the reverse distributor is located within the state.

(4)Sharps waste means a device that has acute rigid corners, edges, or protuberances capable of cutting or piercing, including, but not limited to, hypodermic needles, hypodermic needles with syringes, blades, needles with attached tubing, acupuncture needles, root canal files, broken glass items used in health care such as Pasteur pipettes and blood vials contaminated with biohazardous waste, and any item capable of cutting or piercing from trauma scene waste.

(5)Trace chemotherapeutic waste means waste that is contaminated through contact with, or having previously contained, chemotherapeutic agents, including, but not limited to, gloves, disposable gowns, towels, and intravenous solution bags and attached tubing that are empty. A biohazardous waste that meets

the conditions of this paragraph is not subject to the hazardous waste requirements of Chapter 6.5 (commencing with Section 25100) of Division 20.

(6)Trauma scene waste means waste that is a regulated waste, as defined in Section 5193 of Title 8 of the California Code of Regulations, and that has been removed, is to be removed, or is in the process of being removed, from a trauma scene by a trauma scene waste management practitioner.

(Repealed and added by Stats. 2014, Ch. 564, Sec. 10. (AB 333) Effective January 1, 2015.)

117695.

Medical waste that has been treated in accordance with the provisions of the Medical Waste Management Act, Chapter 8 (commencing with Section 118215), and that is not otherwise hazardous, shall thereafter be considered solid waste as defined in Section 40191 of the Public Resources Code and not medical waste.

(Amended by Stats. 2014, Ch. 564, Sec. 11. (AB 333) Effective January 1, 2015.)

117700.

Medical waste does not include any of the following:

(a)Waste generated in food processing or biotechnology that does not contain an infectious agent, as defined in Section 117675, or an agent capable of causing an infection that is highly communicable, as defined in Section 117665.

(b)Waste generated in biotechnology that does not contain human blood or blood products or animal blood or blood products suspected of being contaminated with infectious agents known to be communicable to humans or a highly communicable disease.

(c)Urine, feces, saliva, sputum, nasal secretions, sweat, tears, or vomitus, unless it contains visible or recognizable fluid blood, as provided in subparagraph (C) of paragraph (1) of subdivision (b) of Section 117690.

(d)Waste which is not biohazardous, such as paper towels, paper products, articles containing nonfluid blood, and other medical solid waste products commonly found in the facilities of medical waste generators.

(e)Hazardous waste, radioactive waste, or household waste, including, but not limited to, home-generated sharps waste, as defined in Section 117671.

(f)Waste generated from normal and legal veterinarian, agricultural, and animal livestock management practices on a farm or ranch unless otherwise specified in law.

(Amended by Stats. 2014, Ch. 564, Sec. 12. (AB 333) Effective January 1, 2015.)

117705.

Medical waste generator means any person whose act or process produces medical waste and includes, but is not limited to, a provider of health care, as defined in Section 56.05 of the Civil Code. All of the following are examples of businesses that generate medical waste:

(a) Medical and dental offices, clinics, hospitals, surgery centers, laboratories, research laboratories, unlicensed health facilities, those facilities required to be licensed pursuant to Division 2 (commencing with Section 1200), chronic dialysis clinics, as regulated pursuant to Division 2 (commencing with Section 1200), and education and research facilities.

(b) Veterinary offices, veterinary clinics, and veterinary hospitals.

(c) Pet shops.

(d) Trauma scene waste management practitioners.

(Amended by Stats. 2013, Ch. 444, Sec. 12. (SB 138) Effective January 1, 2014.)

117710.

Medical waste management plan means a document that is completed by generators of medical waste that describes how the medical waste generated at their facility shall be segregated, handled, stored, packaged, treated, or shipped for treatment, as applicable, pursuant to Section 117935 for small quantity generators and Section 117960 for large quantity generators, on forms prepared by the enforcement agency, if those forms are provided by the enforcement agency.

(Amended by Stats. 2014, Ch. 564, Sec. 13. (AB 333) Effective January 1, 2015.)

117715.

Medical waste permit means a permit issued by the enforcement agency to a medical waste treatment facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117720.

Medical waste registration means a registration issued by the enforcement agency to a medical waste generator.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117725.

(a)Medical waste treatment facility means all land and structures, and other appurtenances or improvements on the land under the control of the treatment facility, used for treating medical waste offsite from a medical waste generator, including all associated handling and storage of medical waste as permitted by the department.

(b)For purposes of this section, land is under the control of the treatment facility if it is owned, rented, or controlled by contractual agreement.

(Amended by Stats. 2014, Ch. 564, Sec. 14. (AB 333) Effective January 1, 2015.)

117730.

Mixed waste means mixtures of medical and nonmedical waste. Mixed waste is medical waste, except for all of the following:

(a) Medical waste and hazardous waste is hazardous waste and is subject to regulation as specified in the statutes and regulations applicable to hazardous waste.

(b) Medical waste and radioactive waste is radioactive waste and is subject to regulation as specified in the statutes and regulations applicable to radioactive waste.

(c) Medical waste, hazardous waste, and radioactive waste is radioactive mixed waste and is subject to regulation as specified in the statutes and regulations applicable to hazardous waste and radioactive waste.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117735.

Offsite means any location that is not onsite.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117740.

(a) Onsite means a medical waste treatment facility, or common storage facility on the same or adjacent property as the generator of the medical waste being treated.

(b) Adjacent, for purposes of subdivision (a), means real property within 400 yards from the property boundary of the existing medical waste treatment facility.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117742.

Parent organization means an organization that employs or contracts with health care professionals who provide health care services at a location other than at a health care facility specified in subdivision (a) of Section 117705.

(Added by renumbering Section 25025.9 by Stats. 1996, Ch. 536, Sec. 7. Effective January 1, 1997.)

117745.

Person means an individual, trust, firm, joint stock company, business concern, partnership, association, limited liability company, and corporation, including, but not limited to, a government corporation. Person also includes any city, county, district, commission, the state or any department, agency, or political subdivision thereof, the Regents of the University of California, any interstate body, and the federal government or any department or agency thereof to the extent permitted by law.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117747.

(a)Pharmaceutical means a prescription or over-the-counter human or veterinary drug, including, but not limited to, a drug as defined in Section 109925 of the Federal Food, Drug, and Cosmetic Act, as amended, (21 U.S.C.A. Sec. 321(g)(1)).

(b)For purposes of this part, pharmaceutical does not include any pharmaceutical that is regulated pursuant to either of the following:

(1)The federal Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C.A. Sec. 6901 et seq.). This waste stream shall be handled as a hazardous waste under the authority of Chapter 6.5 (commencing with Section 25100) of Division 20.

(2)The Radiation Control Law (Chapter 8 (commencing with Section 114960) of Part 9).

(Amended by Stats. 2014, Ch. 564, Sec. 15. (AB 333) Effective January 1, 2015.)

117750.

(a)Sharps container means a rigid puncture-resistant container used in patient care or research activities meeting the standards of, and receiving approval from, the United States Food and Drug Administration as a medical device used for the collection of discarded medical needles or other sharps.

(b)Sharps containers, including those used to containerize trace chemotherapeutic wastes, shall not be lined with a plastic bag or inner liner.

(Repealed and added by Stats. 2014, Ch. 564, Sec. 18. (AB 333) Effective January 1, 2015.)

117760.

Small quantity generator means a medical waste generator, other than a trauma scene waste management practitioner, that generates less than 200 pounds per month of medical waste.

(Amended by Stats. 1997, Ch. 732, Sec. 7. Effective January 1, 1998.)

117765.

Storage means the holding of medical wastes, in compliance with the Medical Waste Management Act, including Chapter 9 (commencing with Section 118275), at a designated accumulation area, offsite point of consolidation, transfer station, other registered facility, or in a vehicle detached from its means of locomotion.

(Amended by Stats. 2014, Ch. 564, Sec. 20. (AB 333) Effective January 1, 2015.)

117770.

Tracking document means the medical waste tracking document specified in Section 118040.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117771.

Shipping document means the medical waste shipping document required by the United States Department of Transportation pursuant to Section 172.200 et seq. of Title 49 of the Code of Federal Regulations or the document required by the United States Postal Service pursuant to Domestic Mail Manual 601.10.17.5 (Mailability: Hazardous Materials: Sharps and Other Mailable Regulated Medical Waste).

(Added by Stats. 2014, Ch. 564, Sec. 21. (AB 333) Effective January 1, 2015.)

117775.

(a)Transfer station means an offsite location permitted by the department where medical waste is loaded, unloaded, stored, or consolidated by a registered hazardous waste hauler during the normal course of transportation of the medical waste.

(b)Transfer station does not include any onsite facility, including, but not limited to, common storage facilities, facilities of medical waste generators employed for the purpose of consolidation, or onsite treatment facilities.

(Amended by Stats. 2014, Ch. 564, Sec. 22. (AB 333) Effective January 1, 2015.)

117776.

(a) Trauma scene means a location soiled by, or contaminated with, human blood, human body fluids, or other residues from the scene of a serious human injury, illness, or death.

(b) For purposes of this section, a location may include, but is not limited to, a physical structure that is not fixed geographically, such as mobile homes, trailers, or vehicles.

(Added by Stats. 1997, Ch. 732, Sec. 8. Effective January 1, 1998.)

117778.

Trauma scene waste management practitioner means a person who undertakes as a commercial activity the removal of human blood, human body fluids, and other associated residues from the scene of a serious human injury, illness, or death, and who is registered with the department pursuant to Chapter 9.5 (commencing with Section 118321).

(Added by Stats. 1997, Ch. 732, Sec. 10. Effective January 1, 1998.)

117780.

Treatment means any method, technique, or process designed to change or destroy the biological character or composition of any medical waste so as to eliminate its potential for causing disease or creating public or environmental harm, as specified in Chapter 8 (commencing with Section 118215).

(Amended by Stats. 2014, Ch. 564, Sec. 24. (AB 333) Effective January 1, 2015.)

__Health and Safety Code - HSC__

__DIVISION 104. ENVIRONMENTAL HEALTH [106500 - 119406]__

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 3. Powers and Duties [117800 - 117910]__

(Chapter 3 added by Stats. 1995, Ch. 415, Sec. 6.)

117800.

A local agency may implement a medical waste management program by the adoption of an ordinance or resolution by the local governing body, in accordance with this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117805.

A local agency that elects to implement a medical waste management program shall notify the department of its intent to do so.

(Amended by Stats. 2014, Ch. 564, Sec. 25. (AB 333) Effective January 1, 2015.)

117810.

(a) If a local agency does not elect to implement a medical waste management program, the local agency may elect to contract with another local agency to implement a medical waste management program or to implement it at a later date.

This election shall be made by the local governing body, that shall take effect 90 days after a notice of election is filed with the department.

(b) A local agency that elects to implement a medical waste management program shall continue to implement that program until the local governing body terminates the election by resolution or ordinance or the department revokes the authority of the local agency to administer a medical waste management program. The local agency shall file the notice of termination with the department at least 180 days prior to the termination date.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117815.

Any local agency that has elected to implement a medical waste management program shall maintain a program that is consistent with Section 117820 and the regulations adopted pursuant to that section. With the approval of the department, the local agency may administer or enforce this part with respect to any person.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117820.

A medical waste management program shall include, but not be limited to, all of the following:

(a)Issuing medical waste registrations and permits pursuant to the Medical Waste Management Act.

(b)Processing and reviewing the medical waste management plans and inspecting onsite treatment facilities in accordance with Chapter 4 (commencing with Section 117925) for all small quantity medical waste generators required to be registered.

(c)Conducting an evaluation, inspection, or records review for all facilities or persons issued a large quantity medical waste registration pursuant to Chapter 5 (commencing with Section 117950) or issued a permit for an onsite medical waste treatment facility pursuant to Chapter 7 (commencing with Section 118130).

(d)Inspecting medical waste generators in response to complaints or emergency incidents, or as part of an investigation or evaluation of the implementation of the medical waste management plan.

(e)Inspecting medical waste treatment facilities in response to a complaint or as part of an investigation or emergency incident.

(f)Taking enforcement action for the suspension or revocation of medical waste permits issued by the local agency pursuant to this part.

(g)Referring or initiating proceedings for civil or criminal prosecution of violations specified in Chapter 10 (commencing with Section 118335).

(h)Reporting in a manner determined by the department so that the statewide effectiveness of the program can be determined.

(Amended by Stats. 2014, Ch. 564, Sec. 26. (AB 333) Effective January 1, 2015.)

117825.

Each local enforcement agency that elects to implement the medical waste management program may prescribe, by resolution or ordinance, the registration and permit fees necessary to pay its reasonable expenses to administer the program.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117830.

(a) A local agency electing to implement a medical waste management program is the enforcement agency for the jurisdiction where it is located and so designated by the department.

(b) In any local jurisdiction where the local agency does not elect to implement a medical waste management program, the department is the enforcement agency.

(c) Nothing in this chapter shall prevent a district attorney, city attorney, or city prosecutor from bringing any enforcement action for violation of this chapter.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117835.

The department shall establish and maintain a database of persons registered as small quantity generators and as large quantity generators for whom the department is the enforcement agency under Chapter 4 (commencing with Section 117925) and Chapter 5 (commencing with Section 117950).

(Amended by Stats. 2014, Ch. 564, Sec. 27. (AB 333) Effective January 1, 2015.)

117840.

It is the intent of the Legislature that the program carried out pursuant to this part be fully supported from the fees received pursuant to this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117845.

The department shall implement this part so as to maximize the funds that may be received from the federal government.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117850.

Information may be shared between the department and the Environmental Protection Agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117855.

If the department finds that a local enforcement agency is not consistently fulfilling its responsibilities, the department shall notify the agency of the particular reasons for finding that the agency is not fulfilling its responsibilities and of the departmentsintention to withdraw its designation if, within a time to be specified in that notification, but in no event less than 30 days, the agency does not take the corrective action specified by the department.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117860.

If the department withdraws its designation of a local enforcement agency, the department shall become the enforcement agency within the jurisdiction of the local enforcement agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117870.

If the department identifies significant violations of minimum requirements that were not identified and resolved through previous inspections by the local enforcement agency, the department shall do all of the following:

(a) Conduct a performance review of the agency within 120 days.

(b) Prepare a written performance report within 60 days of the review.

(c) Require the submission of a plan of correction by the agency within 90 days of receiving the report.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117875.

The department shall withdraw a local enforcement agencysdesignation pursuant to Section 117860 if it determines that the enforcement agency has failed to submit an adequate plan of correction or has failed to implement the plan.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117880.

If the department becomes the enforcement agency, it may charge the fees specified in this part.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117885.

(a)There is in the State Treasury the Medical Waste Management Fund, that shall be administered by the director. Money deposited in the fund shall be available to the department, upon appropriation by the Legislature, for the purposes of this part.

(b)In addition to any other funds transferred by the Legislature to the Medical Waste Management Fund, the following shall be deposited in the fund:

(1)Fees, penalties, interest earned, and fines collected by, or on behalf of, the department pursuant to this part.

(2)Funds granted by the federal government for purposes of carrying out this part.

(Amended by Stats. 2014, Ch. 564, Sec. 28. (AB 333) Effective January 1, 2015.)

117890.

(a)No large quantity generator shall generate medical waste unless the large quantity generator is registered with the enforcement agency pursuant to this part.

(b)Registration pursuant to this part shall also allow the large quantity generator to generate medical waste at temporary events, including, but not limited to, health fairs, vaccination clinics, and veteran stand downs, without further registration or permitting required. The large quantity generator shall notify the local enforcement agency of their intended participation in a temporary event at least 72 hours before the event, unless the sponsor of the temporary event previously notified the local enforcement agency of the event.

(Amended by Stats. 2014, Ch. 564, Sec. 29. (AB 333) Effective January 1, 2015.)

117895.

Registration pursuant to this part shall allow a small quantity generator to generate medical waste at temporary events, including, but not limited to, health fairs, vaccination clinics, and veteran stand downs, without further registration or permitting required. The small quantity generator shall notify the local enforcement agency of their intended participation in a temporary event at least 72 hours before the event, unless the sponsor of the temporary event previously notified the local enforcement agency of the event.

(Repealed and added by Stats. 2014, Ch. 564, Sec. 31. (AB 333) Effective January 1, 2015.)

117900.

No person shall haul medical waste unless the person is one of the following:

(a)A registered hazardous waste hauler pursuant to the requirements of Chapter 6.5 (commencing with Section 25100) of Division 20.

(b)A mail-back system approved by the United States Postal Service.

(c)A common carrier allowed to haul pharmaceutical waste pursuant to Section 118029 or 118032.

(d)A small quantity generator or a large quantity generator transporting limited quantities of medical waste with an exemption granted pursuant to either Section 117946 or Section 117976, respectively.

(e)A registered trauma scene waste practitioner hauling trauma scene waste pursuant to Section 118321.5.

(Amended by Stats. 2014, Ch. 564, Sec. 32. (AB 333) Effective January 1, 2015.)

117903.

No person shall treat medical waste unless the person is permitted by the enforcement agency as required by this part or unless the treatment is performed by a medical waste generator and is a treatment method approved pursuant to Chapter 8 (commencing with Section 118215).

(Amended by Stats. 2014, Ch. 564, Sec. 33. (AB 333) Effective January 1, 2015.)

117904.

(a)In addition to the consolidation points authorized pursuant to Section 118147, the enforcement agency may approve a location as a point of consolidation for the collection of home-generated sharps waste, which, after collection, shall be transported and treated as medical waste.

(b)A consolidation location approved pursuant to this section shall be known as a home-generated sharps consolidation point.

(c)A home-generated sharps consolidation point is not subject to the requirements of Chapter 9 (commencing with Section 118275), to the permit or registration requirements of this part, or to any permit or registration fees, with regard to the activity of consolidating home-generated sharps waste pursuant to this section.

(d)A home-generated sharps consolidation point shall comply with all of the following requirements:

(1)All sharps waste shall be placed in sharps containers.

(2)Sharps containers ready for disposal shall not be held for more than seven days without the written approval of the enforcement agency.

(e)An operator of a home-generated sharps consolidation point approved pursuant to this section shall not be considered the generator of that waste, but shall be listed on the tracking documents in compliance with the United States Postal Service requirements for waste shipped through mail back and on the tracking documents as required by the department.

(f)The medical waste treatment facility which treats the sharps waste subject to this section shall maintain the tracking document required by Sections 118040 and 118165 with regard to that sharps waste.

(Amended by Stats. 2015, Ch. 352, Sec. 2. (SB 225) Effective September 28, 2015.)

117905.

The department is the enforcement agency for offsite treatment facilities.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117908.

The accumulated medical waste of more than one medical waste generator shall not be stored in a common storage facility unless that facility is registered with the enforcement agency.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117910.

The department shall provide ongoing technical assistance and guidance to local enforcement agencies to assist them in their decisionmaking processes. This assistance shall include, but is not limited to, providing all of the following:

(a) Technical studies and reports.

(b) Copies of innovative facility operation plans.

(c) Investigative findings and analysis of new waste management practices and procedures.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

(Division 104 added by Stats. 1995, Ch. 415, Sec. 6.)

__PART 14. MEDICAL WASTE [117600 - 118360]__

(Part 14 added by Stats. 1995, Ch. 415, Sec. 6.)

__CHAPTER 4. Small Quantity Generator Requirements [117915 - 117946]__

(Chapter 4 added by Stats. 1995, Ch. 415, Sec. 6.)

117915.

Containment and storage of medical waste shall be in accordance with Chapter 9 (commencing with Section 118275).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117918.

Medical waste shall be treated using treatment technologies in accordance with Chapter 8 (commencing with Section 118215).

(Amended by Stats. 2014, Ch. 564, Sec. 35. (AB 333) Effective January 1, 2015.)

117920.

The fee schedule specified in Section 117923 shall be for the issuance of medical waste registrations and for conducting inspections pursuant to this chapter when the department serves as the enforcement agency for small quantity generators. This fee schedule shall be adjusted annually in accordance with Section 100425, or as provided in the regulations adopted by the department, not to exceed the reasonable regulatory costs of the department. Local enforcement agencies shall set fees that shall be sufficient to cover their costs in

implementing this part with regard to small quantity generators required to be registered pursuant to Section 117925.

(Amended by Stats. 2014, Ch. 564, Sec. 36. (AB 333) Effective January 1, 2015.)

117923.

(a) The registration and inspection fee for small quantity generators using onsite treatment, including an autoclave, incinerator, or microwave technology, to treat medical waste is one hundred dollars ($100), that shall be paid once every two years.

(b) The annual permit fee for a common storage facility permitted pursuant to Section 117928 is the amount specified in the following schedule:

(1) For storage facilities serving 10 or fewer generators, the permit fee is one hundred dollars ($100).

(2) For storage facilities serving 11 or more generators, but not more than 50 generators, the permit fee is two hundred fifty dollars ($250).

(3) For storage facilities serving more than 50 generators, the permit fee is five hundred dollars ($500).

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117924.

(a)When the department is the enforcement agency, the department shall impose and cause the collection of an annual medical waste generator fee in an amount not to exceed twenty-five dollars ($25) on small quantity generators of medical waste, except for those small quantity generators that are required to register pursuant to Section 117925 and those generators generating only pharmaceutical waste as defined in paragraph (3) of subdivision (b) of Section 117690. Nothing in this part shall prevent the department from contracting with entities other than the department for these fee collection activities or from entering into agreements with medical waste transporters for the collection of these fees, if the department determines that such a fee collection arrangement would be cost effective.

(b)If the department determines to enter into a contract with a medical waste transporter for the collection of the fees, the department shall do all of the following:

(1)Establish that not more than 7.5 percent of the fees collected may be recovered by the medical waste transporter as administrative costs for the collection of those fees.

(2)Establish that the administrative costs for the collection of the fees shall be the same for all medical waste transporters.

(3)Prohibit any medical waste transporter from waiving the generator fee without the written approval of the department and only if the medical waste generator has made a written request for the waiver.

(4)Require the medical waste transporter to report the fees collected pursuant to subdivision (a) to the

department.

(5)Prohibit the medical waste transporter from assuming the role of the department as an enforcement agent for purposes of collecting the medical waste generator fees.

(6)Require medical waste transporters to include the following language in at least 12-point type on their invoices to medical waste generators:

Pursuant to Section 117924 of the California Health and Safety Code, the State Department of Public Health has contracted with us to collect your annual medical waste generator fee. The department may offset our costs of collection and administration in an amount that may not exceed 7.5 percent of the fee collected. We may not waive the fee without written approval of the department, and only if you have made a written request for the waiver.

(7)Ensure that generators subject to this section are required to pay the fee only once per year.

(Amended by Stats. 2014, Ch. 564, Sec. 37. (AB 333) Effective January 1, 2015.)

117925.

(a) Each small quantity generator using onsite steam sterilization, incineration, or microwave technology to treat medical waste shall register with the enforcement agency. Small quantity generators owning or operating a medical waste treatment facility shall also apply for a permit for that treatment facility pursuant to Chapter 7 (commencing with Section 118130).

(b) Small quantity generators using onsite treatment, as specified in subdivision (a), that operate as a business in the same building, or that are associated with a group practice in the same building, may register as one generator.

(c) Small quantity generators using onsite treatment, as specified in subdivision (a), as specified in subdivision (b), operating in different buildings on the same or adjacent property, or as approved by the enforcement agency, may register as one generator.

(d) Adjacent, for purposes of subdivision (c), means real property within 400 yards from the property boundary of the primary registration site.

(Added by Stats. 1995, Ch. 415, Sec. 6. Effective January 1, 1996.)

117928.

(a) Any common storage facility for the collection of medical waste produced by small quantity generators operating independently, but sharing common storage facilities, shall have a permit issued by the enforcement agency prior to the commencement of storage of medical waste in the common storage facility.

(b) A permit for any common storage facility specified in subdivision (a) may be obtained by any one of the following:

(1) A provider of health care as defined in Section 56.05 of the Civil Code.

(2) The registered hazardous waste transporter.

(3) The property owner.

(4) The property management firm responsible for providing tenant services to the medical waste generators.

(Amended by Stats. 2014, Ch. 564, Sec. 38. (AB 333) Effective January 1, 2015.)

117930.

Small quantity generators that treat waste onsite, pursuant to subdivision (a) of Section 117925, shall register with the enforcement agency prior to the commencement of treatment.

(Added by renumbering Section 25041 by Stats. 1996, Ch. 536, Sec. 11. Effective January 1, 1997.)

117935.

A small quantity generator required to register with the enforcement agency pursuant to Section 117930 shall file with the enforcement agency a medical waste management plan on forms prescribed by the enforcement agency, if provided. The plans shall contain, but are not limited to, all of the following:

(a)The name of the person.

(b)The business address of the person.

(c)The type of business.

(d)The types, and the estimated average monthly quantity, of medical waste generated.

(e)The type of treatment used onsite.

(f)The name and business address of the registered hazardous waste hauler used by the generator for backup treatment and disposal, for waste when the onsite treatment method is not appropriate due to the hazardous or radioactive characteristics of the waste.

(g)The name of the registered hazardous waste hauler used by the generator to have untreated medical waste removed for treatment and disposal, if applicable.

(h)The name of the common carrier used by the generator to transport pharmaceutical waste offsite for treatment and disposal pursuant to Section 118032, if applicable.

(i)If applicable, the steps taken to categorize the pharmaceutical wastes generated at the facility to ensure that the wastes are properly disposed of as follows:

(1)Pharmaceutical wastes classified by the federal Drug Enforcement Agency (DEA) as controlled substances

are disposed of in compliance with DEA requirements.

(2)The name and business address of the registered hazardous waste hauler used by the generator to have wastes that are not regulated pursuant to the federal Resource Conservation and Recovery Act of 1976 and nonradioactive pharmaceutical wastes regulated as medical waste safely removed for treatment in compliance with subdivision (b) of Section 118222 as waste requiring specific methods.

(j)A closure plan for the termination of treatment at the facility using, at a minimum, one of the methods of decontamination specified in subdivision (a) or (b) of Section 118295, thereby rendering the property to an acceptable sanitary condition following the completion of treatment services at the site.

(k)A statement certifying that the information provided is complete and accurate.

(Amended by Stats. 2014, Ch. 564, Sec. 40. (AB 333) Effective January 1, 2015.)

117938.

(a)Small quantity generators using onsite steam sterilization, incineration, or microwave technology to treat medical waste are subject to biennial inspection of that onsite treatment facility by the enforcement agency and may be subject to the permitting requirements for onsite medical waste treatment facilities as determined by the enforcement agency.

(b)(1)The operators of the treatment equipment specified in subdivision (a) shall be required to receive training in the operation of the treatment equipment, proper protective equipment to wear, if any, how to clean up spills, and other information required to operate the treatment equipment in a safe and effective manner.

(2)Annual training for the operators shall be provided after the initial training has been completed.

(3)The training shall be documented for each treatment operator and retained on file at the generator facility for a minimum of two years. Training shall comply with applicable federal Occupational Safety and Health Administration regulations, including those found in Section 1910 of Title 29 of the Code of Federal Regulations.

(Amended by Stats. 2014, Ch. 564, Sec. 41. (AB 333) Effective January 1, 2015.)

117940.

(a)Each enforcement agency shall follow procedures consistent with this chapter in registering medical waste generators.

(b)Each medical waste generator registration for small quantity generators issued by the enforcement agency shall be valid for two years.

(c)An application for renewal of the registration for small quantity generators shall be filed with the enforcement agency on or before the expiration date.

(d)Generators shall submit an updated application form when any of the information specified in their medical waste management plan, created pursuant to Section 117935, changes. The updated application form shall be submitted within 30 days of the change.

(Amended by Stats. 2014, Ch. 564, Sec. 42. (AB 333) Effective January 1, 2015.)

117943.

(a)A medical waste generator required to register pursuant to this chapter shall maintain for a minimum of three years individual treatment operating records, and if applicable, the tracking document for all untreated medical waste shipped offsite for treatment, and shall report or submit to the enforcement agency, upon request, all of the following:

(1)Treatment operating records. Operating records shall be maintained in written or electronic form.

(2)An emergency action plan complying with regulations adopted by the department.

(3)Tracking documents or electronically archived tracking documents maintained by the facility and medical waste hauler of all untreated medical waste shipped offsite for treatment.

(b)Documentation shall be made available to the enforcement agency onsite.

(Amended by Stats. 2015, Ch. 352, Sec. 3. (SB 225) Effective September 28, 2015.)

117945.
